Summary of Risk Factors regarding the Notes

An investment in the Notes involves certain risks associated with the characteristics of the Notes which could lead to substantial losses that Holders would have to bear in the case of selling their Notes or with regard to receiving interest payments and repayment of principal. Those risks include that:

- the Notes may not be a suitable investment for all investors;
- there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue; in an illiquid market, an investor might not be able to sell his Notes at any time and/or at fair market prices;
- the Notes may be subject to early redemption at the principal amount, if the Issuer becomes obligated to pay additional amounts pursuant to the terms and conditions of the Notes with respect to withholding taxes on payment of principal or interest in respect of the Notes;
- the price of the Notes may fall or rise depending on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the Notes;
- the market value of the Notes could decrease if the creditworthiness of the Issuer worsens;
- the Notes could represent a currency risk for a Holder if the Euro represents a foreign currency to such Holder; in addition governments and competent authorities could impose currency exchange controls in the future;
- Holders are exposed to risks associated with fixed rate notes. Movements of the market interest rate can adversely affect the price of the Notes and lead to losses upon a sale.
- a Holder is subject to the risk to be outvoted and to lose rights towards the Issuer against his will in the case that Holders agree pursuant to the Conditions of Issue to amendments of the Conditions of Issue by majority vote according to the German Act on Debt Securities from Entire Issues - *Gesetz über Schuldverschreibungen aus Gesamtemissionen* - ("SchVG"). In the case of an appointment of a common representative (*gemeinsamer Vertreter*) for all Holders a particular Holder may lose, in whole or in part, the possibility to enforce and claim his rights against the Issuer regardless of other Holders;

- new or changed accounting standards may lead to adjustments in accounting positions and to a different perception of the market regarding the HOCHTIEF Group's creditworthiness;
- there is no restriction on the amount of debt which the Issuer may issue ranking equal to the obligations under or in connection with the Notes; and
- any borrowings that do not meet the definition of Capital Market Indebtedness are excluded from the negative pledge contained in § 2(2) of the Conditions of Issue. Therefore, in any of these cases the Issuer is under no obligation to grant to the Holders an equal and rateable security. Such transactions may reduce the amount recoverable by the Holders upon winding-up or insolvency of the Issuer.

The realisation of any of the risks described above may affect the Issuer's ability to fulfil its payment obligations under the Notes and/or lead to a decline in the market price of the Notes.

Zusammenfassung der Risikofaktoren in Bezug auf die Schuldverschreibungen

Eine Anlage in die Schuldverschreibungen ist mit bestimmten Risiken im Zusammenhang mit den Merkmalen der Schuldverschreibungen verbunden. Diese Risiken könnten zu erheblichen Verlusten führen, welche die Gläubiger zu tragen hätten, wenn sie ihre Schuldverschreibungen verkaufen oder wenn Verluste im Zusammenhang mit der Zahlung von Zinsen oder der Rückzahlung entstehen. Zu diesen Risiken gehört, dass:

- die Schuldverschreibungen nicht für alle Anleger geeignet sind;
- keine Gewissheit besteht, dass ein liquider Sekundärmarkt für die Schuldverschreibungen entstehen wird, oder, sofern er entsteht, fortbestehen wird; in einem illiquiden Markt könnte es sein, dass ein Anleger seine Schuldverschreibungen nicht jederzeit und/oder zu angemessenen Marktpreisen veräußern kann;
- die Schuldverschreibungen vorzeitig zum Nennbetrag zurückgezahlt werden können, falls die Emittentin zur Zahlung von Quellensteuern auf die Zahlung von Kapital oder Zinsen der Schuldverschreibungen verpflichtet ist;
- der Kurs der Schuldverschreibungen fallen oder steigen kann, abhängig von verschiedenen Faktoren wie insbesondere Veränderungen des Zinsniveaus, der Politik von Zentralbanken, übergeordneten wirtschaftlichen Entwicklungen, Inflationsraten oder dem Mangel oder Überhang an Nachfrage nach den Schuldverschreibungen;
- der Marktwert der Schuldverschreibungen fallen kann, wenn sich die Kreditwürdigkeit der Emittentin verschlechtert;
- die Schuldverschreibungen für solche Anleger ein Währungsrisiko bedeuten können, für die der Euro eine Fremdwährung bedeutet; ferner könnten Regierungen und zuständige Behörden künftig Devisenkontrollen einführen;
- Gläubiger Risiken im Zusammenhang mit den festverzinslichen Schuldverschreibungen ausgesetzt sind. Änderungen des Marktzinses können den Marktwert der Schuldverschreibungen beeinträchtigen und zu Verlusten bei der Veräußerung führen;

- ein Gläubiger dem Risiko ausgesetzt ist, überstimmt zu werden und gegen seinen Willen Rechte gegenüber der Emittentin zu verlieren, falls die Gläubiger nach den Anleihebedingungen durch Mehrheitsbeschluss nach Maßgabe des Gesetzes über Schuldverschreibungen aus Gesamtemissionen (SchVG) Änderungen der Anleihebedingungen zustimmen. Im Falle der Bestellung eines gemeinsamen Vertreters aller Gläubiger, kann ein einzelner Gläubiger ganz oder teilweise die Möglichkeit verlieren, seine Rechte gegenüber der Emittentin unabhängig von anderen Gläubigern geltend zu machen und durchzusetzen;
- neue oder geänderte Rechnungslegungsvorschriften können zu Anpassungen bei Bilanzpositionen und zu einer veränderten Wahrnehmung der Märkte von der Kreditwürdigkeit der HOCHTIEF Gruppe führen;
- die Höhe der Schulden, welche die Emittentin in Zukunft eingehen oder begeben kann und die mit den Verpflichtungen aus oder im Zusammenhang mit den Schuldverschreibungen im gleichen Rang stehen, nicht begrenzt ist; und
- jede Finanzverbindlichkeit, die nicht unter die Definition von Kapitalmarktverbindlichkeit fällt, von der Negativverpflichtung in § 2 Abs. 2 der Anleihebedingungen nicht mit umfasst ist. Daher ist die Emittentin in diesen Fällen nicht dazu verpflichtet, den Gläubigern von Schuldverschreibungen eine gleichartige und bewertbare Besicherung zu gewähren. Derartige Geschäfte könnten den von den Gläubigern von Schuldverschreibungen erzielbaren Betrag im Falle einer Liquidation oder Insolvenz der Emittentin vermindern.

Der Eintritt eines jeden der vorgenannten Risiken kann die Fähigkeit der Emittentin beeinträchtigen, ihren aus den Schuldverschreibungen resultierenden Zahlungsverpflichtungen nachzukommen und/oder zu einem Wertverlust der Schuldverschreibungen führen.

RISK FACTORS

Before deciding to purchase the Notes, investors should carefully review and consider the following risk factors and the other information contained in this Prospectus. Should one or more of the risks described below materialise, this may have a material adverse effect on the cash flows, results of operations and financial conditions of the Issuer and the HOCHTIEF Group. Moreover, if any of these risks realise, the market value of the Notes and the likelihood that the Issuer will be in a position to fulfil its payment obligations under the Notes may decrease, in which case the Noteholders could lose all or part of their investments. Investors should note that the risks discussed below may not prove to be exhaustive and, therefore, may not be the only risks to which the Issuer and the HOCHTIEF Group are exposed. Additional risks and uncertainties, which are not currently known to the Issuer or which the Issuer currently believes are immaterial, could likewise impair the business operations of the Issuer or the HOCHTIEF Group and have a material adverse effect on their business, cash flows, financial condition and results of operations. The order in which the risks are presented does not reflect the likelihood of their occurrence or the magnitude of their potential impact on the cash flows, results of the operations and financial conditions of the HOCHTIEF Group.

Words and expressions defined in "Conditions of Issue" below shall have the same meanings in this section of the Prospectus.

RISKS RELATING TO THE HOCHTIEF GROUP AND THE ISSUER

The Issuer's major shareholder could influence the Issuer's business activities.

According to communication received by the Issuer from ACS, Actividades de Construcción y Servicios, S.A., ACS, Actividades de Construcción y Servicios, S.A. held, directly and/or indirectly through its subsidiaries (together the "ACS Group"), 49.17 per cent. of the Issuer's share capital as of 31 December 2011. With this shareholding, the ACS Group could block important decisions proposed by the Issuer to its shareholders, that is, those requiring a 75 per cent. majority. Such decisions include, but are not limited to, corporate actions (such as capital increases). Moreover, this shareholding provides the ACS Group with a majority of those votes customarily present at the Issuer's general shareholders' meetings. Therefore, the ACS Group is in a position to have resolutions passed which only require a simple majority. This enables the ACS Group to exert considerable influence on the Issuer's general shareholders' meetings and, therefore, also on decisions submitted for the vote of the general shareholders' meeting.

The ACS Group might further increase its holding in the Issuer's share capital in the future, enabling it to vote in favour of important decisions, that is, those requiring a 75 per cent. majority, such as the conclusion of a profit and loss transfer agreement (*Gewinnabführungsvertrag*) and/or a domination agreement (*Beherrschungsvertrag*).

The market perception of the HOCHTIEF Group's creditworthiness could be adversely influenced by the credit profile of the ACS Group irrespective of the existence of a profit and loss transfer agreement and/or a domination agreement. Such deterioration of the HOCHTIEF Group's perceived creditworthiness could limit the HOCHTIEF Group's ability to obtain future financing or to obtain such financing on favourable economic terms.

The realisation of any of these risks could have a material adverse effect on the HOCHTIEF Group's cash flows, financial condition and results of operation.

The Issuer is a holding company and its ability to serve its payment obligations depends on the receipt of funds from its subsidiaries and participations.

The Issuer is a holding company with no significant assets other than its interests in its subsidiaries and participations. Its ability to serve its payment obligations mainly depends on the receipt of sufficient funds from its subsidiaries and participations which in turn depends on the business, financial condition and results of operations of these subsidiaries and participations. In particular, the Issuer receives funds from its participation in Leighton Holdings Ltd., from the various airport participations in the HOCHTIEF Concessions business division and other subsidiaries and affiliates which have not entered into profit pooling agreements (*Gewinnabführungsverträge*) in the form of dividends and returns on shareholder loans only. The transfer of funds from subsidiaries and participations may be or become subject to legal and contractual restrictions, in particular under financing arrangements entered into by subsidiaries and participations.

Additionally, the book value of the subsidiaries and participations of the Issuer are subject to regular impairment tests, which may lead to significant reductions of the Issuer's results of operation. In particular, the Issuer sees an impairment risk with respect to its indirect participation in the Habtoor Leighton Group (a 45 per cent. participation of Leighton Holdings Ltd.) and its participation in Budapest Airport.

The realisation of any of these risks could have a material adverse effect on the HOCHTIEF Group's cash flows, financial condition and results of operations.

The HOCHTIEF Group's business is sensitive to changes in the macroeconomic environment and cyclical fluctuations in certain markets in which it operates.

The HOCHTIEF Group is exposed to the general economic risk of the countries and regions in which it operates.

Economical downturns or cyclical fluctuations in these markets can have a distinct impact on consumer confidence, general prosperity and public spending which in turn can considerably decrease demand for the services and products offered by the HOCHTIEF Group. For example, the financial and economic crisis starting in 2008 lead to a worldwide economic downturn and also heavily affected the real estate economy and the construction sector on a global basis.

The deterioration of sovereign creditworthiness and budgetary austerity measures can negatively affect the HOCHTIEF Group's activities in the affected countries. Furthermore, a worsening of the sovereign debt crisis may lead to the reintroduction of national currencies in one or more Eurozone countries, which could in turn have major and incalculable negative consequences for the HOCHTIEF Group's business operations in such countries.

In particular, the HOCHTIEF Group is exposed to such risks in the Hellenic Republic where it – via its concession business – holds participations in Athens International Airport and two toll road projects. In connection with the two toll road projects, the HOCHTIEF Group has provided the project owner with guarantees in a total amount of EUR 146.5 million. If these bank guarantees will be drawn, this would have a material adverse effect on the HOCHTIEF Group's financial condition.

A prolonged downturn or a worsening macroeconomic environment could therefore have a material adverse effect on the HOCHTIEF Group's business, cash-flows, financial condition and results of operations.

The HOCHTIEF Group faces a risk with regard to an equity guarantee granted in connection with a participation in the toll road project Vespuco Norte Express in Santiago de Chile.

The HOCHTIEF Group has an indirect shareholding, via PPP Solutions, of 29.2 per cent. in the toll road project Vespuco Norte Express in Santiago de Chile. In the past, the HOCHTIEF Group sold a 16.25 per cent. share in such toll road project to the M.M.Warburg group and granted the M.M.Warburg group a guaranteed equity value of such sold participation of EUR 144.6 million as of 31 December 2012. As a result of such equity guarantee, the HOCHTIEF Group may have to pay to M.M.Warburg the difference between the guaranteed value and the actual value as of 31 December 2012.

The realisation of this risk could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The business of the HOCHTIEF Group is significantly influenced by large-scale infrastructure projects.

Large corporate groups and governments regularly award large-scale infrastructure project contracts to companies of the HOCHTIEF Group. Large-scale infrastructure projects in turn heavily depend on the political and/or macroeconomic climate and the amount of public spending on programs to stimulate the construction sector in individual countries. The success of the HOCHTIEF Group's business operations is therefore significantly influenced by large-scale infrastructure projects and by the extent national governments and other public authorities spend money on stimulus packages. A decline in public spending on economic stimulus packages and in awards of large-scale infrastructure project contracts to companies of the HOCHTIEF Group could have a material adverse effect on the HOCHTIEF Group's business, cash-flows, financial condition and results of operations.

Failure of the HOCHTIEF Group to complete the sale of its airport business could have a negative impact on the HOCHTIEF Group's business.

There is currently no certainty whether the HOCHTIEF Group will be able to complete the announced sale of its airport business. In particular, the completion of the announced sale could be complicated by recent developments with regard to Malév Hungarian Airlines, the most important airline for Budapest Airport, which was placed under creditor protection and ceased its business operations.

If the HOCHTIEF Group is unable to sell the airport business, this could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group is subject to significant competition in the markets in which it operates.

All of the markets in which the HOCHTIEF Group operates are subject to significant competition and high

pressure on prices. A high number of competitors and continuous high pressure on prices in the markets in which it operates could impair the ability of the HOCHTIEF Group to maintain or increase its market share. Moreover, several markets are characterised by low market-entry barriers which may lead to further intensifying competition in these markets. Any of these factors could have a material adverse effect on the HOCHTIEF Group's business, cash-flows, financial condition and results of operations.

The HOCHTIEF Group's business is subject to changes in the political and legal environment which are beyond its control.

The HOCHTIEF Group is exposed to various political and legal risks in the countries in which it operates which are beyond its control and often difficult to anticipate. Such risks include changes in government policies and regulations, tax laws, embargoes, exchange controls, acts of war, terrorism, international hostilities and outbreaks of diseases. For example, the HOCHTIEF Group's airport business is vulnerable to current developments in climate protection policies that might, for example, result in taxation changes. Any of these factors could lead to material business disruptions and could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

Non-compliance with regulations on public procurement and antitrust rules may adversely affect the HOCHTIEF Group's business.

In its construction and concession business in particular, the HOCHTIEF Group maintains business relationships with public entities domestically and internationally, such as municipalities, local and national governments and government entities. Contracts with such customers are usually awarded based on public procurement procedures which are designed to foster competition among potential contractors. Likewise, many large-scale construction projects run by private counterparties are awarded in similar procedures. While HOCHTIEF operates and enforces policies to ensure compliance of the HOCHTIEF Group with regulations on public procurement and to avoid anti-competitive behaviour and undue influence on individuals responsible for awarding construction contracts and concessions, non-compliance with applicable rules by individuals cannot be excluded entirely (for example, there is an ongoing investigation with regard to potential anti-competitive behaviour of Leighton Offshore Pte. Limited in connection with work to expand offshore loading facilities for Iraq's crude oil exports). In such cases of non-compliance, the HOCHTIEF Group's business could be severely affected by antitrust investigations and fines, exclusion from public and private procurement processes and other regulatory action. Any such actions could materially adversely affect the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group is subject to various laws and regulations relating to the protection of the environment, health and public safety.

The HOCHTIEF Group is subject to various laws and regulations relating to the protection of the environment, health and public safety in the countries in which it operates. The HOCHTIEF Group has incurred, and will continue to incur, significant costs in complying with these laws and regulations. In addition, a failure to comply with any such law or regulation could result in the issuance of fines and penalties or the imposition of other sanctions. This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

Adverse weather conditions or natural disasters may negatively affect the HOCHTIEF Group's business operations.

Activities in the construction industry generally decrease during periods of cold or extreme weather (e.g. heavy snowfall or strong rain). The ability of the HOCHTIEF Group to carry out its construction services during periods of adverse weather conditions is considerably impaired. Natural disasters (e.g. the recent floods in Australia and the volcanic ash cloud in Europe in 2010) may also affect the HOCHTIEF Group's business operations. Adverse weather conditions may occur longer than normal or with unusually high intensity and results and revenues generated in normal periods may not be sufficient to compensate for periods of adverse weather conditions. These factors could have a material adverse effect on the HOCHTIEF Group's business, cash-flows, financial condition and results of operations.

Calculation, pricing and execution risks in particular in connection with large-scale projects could impair the HOCHTIEF Group's business.

A significant portion of the HOCHTIEF Group's project contracts contain fixed prices and completion dates the achievement of which is often protected by contractual penalties for the benefit of the relevant contractual partner.

Prices and contractual completion dates are based on a number of assumptions which include, in particular, future economic conditions, raw material prices, prices and availability of labour, equipment and materials, time required to obtain governmental approvals or permits, changes in local laws or regulations, local weather and geological conditions and the timely performance of suppliers and subcontractors. Furthermore, contracts in the HOCHTIEF Concessions business division generally have a very long term and require the HOCHTIEF Group to assume future business growth, cost of operation and maintenance expenditures. If any of these assumptions prove to be incorrect or if the HOCHTIEF Group is unable to successfully monitor and control any of these factors during the course of a project or the term of a concession contract, the HOCHTIEF Group may not be in a position to complete a project in time and/or within cost estimates, or experience a negative impact on the value of its concessions and therefore could experience reduced profits or losses, especially in connection with large-scale projects, for example the two infrastructure projects Airport Link in Brisbane and Victorian Desalination Plant near Melbourne. This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

Failure of the HOCHTIEF Group's subcontractors to perform as anticipated could have a negative impact on the HOCHTIEF Group's business.

In most projects a large percentage of the total work and services to be rendered by the HOCHTIEF Group are subcontracted. As the HOCHTIEF Group remains responsible for the successful completion of the subcontractors' work towards its contractual partners, it may be subject to significant losses or liabilities if subcontractors fail to perform under their relevant contract with the HOCHTIEF Group. Any such losses or liabilities could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group's various joint ventures or other similar partnerships such as "Arbeitsgemeinschaften" may expose the HOCHTIEF Group to liability.

The HOCHTIEF Group constantly enters into joint ventures and other similar partnerships, such as "Arbeitsgemeinschaften". Partners under such arrangements are usually jointly and severally liable for the obligations to be performed by the relevant joint venture or partnership. As a consequence, if the HOCHTIEF Group's joint venture partners fail to satisfactorily perform their obligations, the HOCHTIEF Group may be required to make additional investments and to provide additional services to ensure the adequate performance and delivery of the contracted services. These additional obligations could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group faces warranty, liability and reputational risks.

Products and services of the HOCHTIEF Group may be defective. This may cause substantial damage to personal property, personal injury or give rise to warranty claims and may result in customers or buyers asserting claims for damages, product liability claims or contractual warranty claims. Some of the defects may only be detected after a long period of time which may impair HOCHTIEF Group's possibility to take recourse against partners or subcontractors. Damage to personal property or personal injury incurred in connection with one of the HOCHTIEF Group's projects could also materially impair the HOCHTIEF Group's reputation. Furthermore, the HOCHTIEF Group may become liable for guarantees issued in connection with certain projects. Although the HOCHTIEF Group has taken out insurance to protect itself against these risks in an amount it believes is appropriate, there can be no assurance that the HOCHTIEF Group will be able to obtain corresponding insurance cover on acceptable terms in the future or that the insurance taken out will provide sufficient cover for all potential claims. This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group's business faces risks from potential and ongoing litigation.

The HOCHTIEF Group's construction business is characterised by large-scale projects which are complex, lengthy and often time-critical. Some of the factors that may prevent the HOCHTIEF Group from completing projects in the agreed timeframe are beyond the control of the HOCHTIEF Group, such as adverse weather conditions or unexpected technical or geological difficulties. Furthermore, HOCHTIEF faces warranty and liability risks in connection with its business operations. This may result in lengthy disputes and litigation which could also materially impair the HOCHTIEF Group's reputation. While the HOCHTIEF Group maintains provisions in connection with risks from litigation and regularly monitors the adequacy of such provisions, there can be no assurance that this will protect the HOCHTIEF Group against all litigation risks.

In particular, in connection with building work for the Elbphilharmonie project in Hamburg undertaken by the HOCHTIEF Group, two lawsuits are still pending at the date of this Prospectus before the regional court

(*Landgericht*) of Hamburg. Both lawsuits centre, among others, around the disputed question whether, and if so, to what extent, the HOCHTIEF Group bears responsibility for certain delays in the building process. One lawsuit was initiated by Elbphilharmonie Hamburg Bau GmbH & Co. KG against Adamanta Grundstücks-Vermietungsgesellschaft mbH & Co Objekt Elbphilharmonie KG, acting as object company for the Elbphilharmonie project, by way of an action for a declaratory judgement for damages, in which the HOCHTIEF Group is involved by way of third party notice (*Streitverkündung*). The other lawsuit was initiated by the HOCHTIEF Group against Adamanta Grundstücks-Vermietungsgesellschaft mbH & Co Objekt Elbphilharmonie KG by way of an action for a declaratory judgement, in which the HOCHTIEF Group repudiates any claims for contractual penalties (*Vertragsstrafen*). The HOCHTIEF Group currently intends to vigorously defend itself against the claims raised.

In September 2011, an arbitration proceeding was initiated against certain companies of the HOCHTIEF Group in connection with its indirect holding in the Budapest Airport. The claim is based on the allegation that a change of control in the Issuer occurred that entitles the claimant under a shareholder's agreement to sell its respective indirect holding in the Budapest Airport to HOCHTIEF Airport GmbH at market value to be calculated using predefined valuation methods. The acquisition of such indirect holding in case of defeat could lead to a full consolidation of the then overall indirect holding in the consolidated financial statements of the Issuer with further negative effects thereon. The arbitration proceeding is still pending at the date of this Prospectus and the HOCHTIEF Group currently intends to vigorously defend itself against the claims raised.

In connection with construction work for a hydroelectric power plant in Fort Augustus, Scotland, the HOCHTIEF Solutions AG and HOCHTIEF (UK) Construction Limited were sued in July 2011 by SSE Generation Limited. SSE Generation Limited is seeking damages in an amount of up to GBP 170 million for the partial collapse of a water tunnel and the subsequent shutdown of the power plant. The lawsuit is currently pending before the Court of Sessions in Edinburgh. The HOCHTIEF Group currently intends to vigorously defend itself against the claims raised.

In connection with construction work for the Sony-Center in Berlin, the Issuer and HOCHTIEF Solutions AG were sued in November 2003 by Imtech Deutschland GmbH & Co. KG. Imtech Deutschland GmbH & Co. KG is seeking compensation for work performed in the amount of EUR 36 million. HOCHTIEF Solutions AG filed a counterclaim in the amount of EUR 17 million, based on, among others, construction defects and contractual penalties. The lawsuit is currently pending before the regional court (*Landgericht*) of Berlin. Despite settlement negotiations, the HOCHTIEF Group currently intends to vigorously defend itself against the claims raised.

In connection with construction work for the Rheinhallen in Cologne, HOCHTIEF Solutions AG sued the Gebr. Esch Wohnbaugesellschaft mbH in November 2010, seeking compensation for work performed in the amount of EUR 41 million. The lawsuit is currently pending before the regional court (*Landgericht*) of Bonn. The HOCHTIEF Group currently intends to vigorously pursue its claims. Besides, construction work performed due to change requests and therefore falling outside the scope of the contractual price agreement, which were invoiced by HOCHTIEF Solutions AG in an amount of EUR 46 million, are currently evaluated with regard to the invoiced amounts and prices pursuant to a supplementary agreement in two expert determinations (*Schiedsgutachten*), one with regard to construction related work and the other with regard to technical building services (*technische Gebäudeausrüstung*) related work.

In connection with construction work for the Rheinpark in Cologne, HOCHTIEF Solutions AG sued the Gebr. Esch Wohnbaugesellschaft mbH in December 2010, seeking compensation for work performed in the amount of EUR 69 million. The lawsuit is currently pending before the regional court (*Landgericht*) of Bonn. The HOCHTIEF Group currently intends to vigorously pursue its claims.

Furthermore, there is an investigation with regard to potential anti-competitive behaviour of Leighton Offshore Pte. Limited in connection with work to expand offshore loading facilities for Iraq's crude oil exports. The investigation, which was initiated by a report of Leighton Holdings Limited to the Australian Federal Police, is still ongoing at the date of this Prospectus and the HOCHTIEF Group intends to fully cooperate with the Australian Federal Police.

Any potential and ongoing litigation could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group faces risks in connection with the expansion of its business operations.

In recent years, the HOCHTIEF Group has expanded its business operations considerably, both through organic growth and acquisitions. The expansion of business operations and the development of new markets is associated with certain risks, in particular that the expected growth rates and economic development of new businesses lag

behind the target which may lead to a potential partial or complete loss of the capital employed. This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group is dependent on the efficient and uninterrupted operation of its IT-systems.

The organisation and control of the HOCHTIEF Group's business operations is dependent on efficient and uninterrupted IT-systems. Telecommunication systems are sensitive to power failures, computer viruses, interruptions, fires and similar events as well as to unauthorised use. Interruptions or breakdowns of IT-systems cannot be ruled out and could lead to disruptions of the HOCHTIEF Group's business operations or could otherwise have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

Minority shareholdings or minority board representations might limit the ability of the HOCHTIEF Group to realise its strategic goals in connection with certain investments.

The HOCHTIEF Group holds minority stakes in a number of companies or only holds a minority board representation in some of its subsidiaries and participations. As a consequence, it may only have limited power to influence important decisions with respect to these companies and these companies may take decisions that are unfavourable to the interests of the HOCHTIEF Group. In addition, third parties hold minority positions in some of the HOCHTIEF Group's majority-owned subsidiaries which could result in disadvantages to the HOCHTIEF Group if the interests of minority shareholders are not in line with the interests of the HOCHTIEF Group. This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group has certain pension obligations which may require additional cash contributions.

The HOCHTIEF Group has pension obligations towards its employees that are based on certain actuarial assumptions which vary from country to country, including discount rates, long-term rates of return on invested plan assets and rates of increase in compensation levels. If actual results, especially discount rates and/or rates of return on plan assets, were to differ from these assumptions, the HOCHTIEF Group's pension, retirement and other post-employment costs could be significantly higher as assumed which may require additional cash contributions. Changes in assumptions and/or under-performing plan assets could also have a material adverse effect on the HOCHTIEF Group's cash flows, financial condition and results of operations.

The HOCHTIEF Group is dependent on being able to hire and retain a qualified management team and skilled employees.

The HOCHTIEF Group's performance depends significantly on the performance of the members of its management team. The HOCHTIEF Group's management team has significant experience in operating its businesses and has made important contributions to the HOCHTIEF Group's growth and success. The ability of the HOCHTIEF Group to increase revenues and profits furthermore depends significantly on the HOCHTIEF Group's success to attract and retain highly skilled employees. Competition for such employees is intense. Failure to hire and retain a qualified management team and skilled employees could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

Currency exchange rate fluctuations could adversely affect the result of operations of certain parts of the HOCHTIEF Group's business.

The results of operations of certain parts of the HOCHTIEF Group's business are subject to fluctuations of the Euro as the Issuer's functional currency against various other currencies (in particular the US dollar and the Australian dollar). Fluctuations in exchange rates can lead to differences between the costs of the goods and services provided and the sales generated from the sale of such goods and services (transaction risk). Exchange rate fluctuations may also affect the results of operations when cash flows and results of operations of foreign subsidiaries are shown in currencies other than the Euro (translation risk). The HOCHTIEF Group follows a strict hedging strategy to limit the transactional risk resulting from exchange rate fluctuations. However, the HOCHTIEF Group bears the default risk of the relevant counterparty and there can be no assurance that the hedging strategy will always be successful and will protect the HOCHTIEF Group against all exchange rate fluctuations. This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group is exposed to liquidity risks.

The development of the HOCHTIEF Group's business depends, among other things, on the ability to fund investments and its current business operations areas as well as on its ability to refinance existing financial indebtedness. The syndicated revolving letter of guarantee and revolving credit facility agreement and certificates of indebtedness (*Schuldscheindarlehen*) in place require continuous compliance with certain covenants contained in the syndicated revolving letter of guarantee and revolving credit facility agreement, including certain financial covenants. There can be no assurance that the HOCHTIEF Group's opportunities for financing and the terms of any financing will not be adversely affected in the future, in particular a prolonged economic downturn like the financial and economic crisis starting in 2008 as well as the current sovereign debt crisis could significantly impair the HOCHTIEF Group's ability to obtain additional financing or refinancing of its existing facilities at all or at acceptable commercial terms.

In addition, certain subsidiaries and participations of the HOCHTIEF Group will require external financing and/or refinancing of existing external financing during the term of the Notes. Should such financing and/or refinancing not be available or not be available at favourable conditions, significant monetary contributions (such as equity injections or shareholder loans) by the HOCHTIEF Group to such subsidiaries and participations may be required.

This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

Interest rate fluctuations may lead to an increase in the HOCHTIEF Group's financing costs.

The costs at which the HOCHTIEF Group can obtain financing depend on general market conditions, particularly on the development of interest rates and the assessment of the creditworthiness of the HOCHTIEF Group. In the case of deteriorating general market conditions or a deteriorating creditworthiness of the HOCHTIEF Group, only debt financing with higher risk premiums than are currently in place may be available. The HOCHTIEF Group uses interest rate swaps to hedge itself against interest rate fluctuations. However, the HOCHTIEF Group bears the default risk of the relevant counterparty and there can be no assurance that the interest rate hedging strategy will always be successful and will protect the HOCHTIEF Group against all interest rate fluctuations. This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group is exposed to price risks on the procurement side, in particular with respect to raw materials.

In addition to exchange and interest rate fluctuations, the HOCHTIEF Group is exposed to price risks and unexpected shortages on the procurement side as a result particularly of changes in commodity prices and prices for raw materials and energy. Changes in commodity prices and prices for raw materials and energy could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group faces counterparty risks.

Customers or other counterparties of the HOCHTIEF Group may fail to comply with their payment and other obligations vis-à-vis the HOCHTIEF Group when due, in particular customers that have received services from the HOCHTIEF Group and joint venture partners, partners from other partnerships and subcontractors of the HOCHTIEF Group that are responsible to complete work towards the HOCHTIEF Group's contractual partners. The counterparty risk has been considerably increased by the most recent financial and economic crisis starting in 2008. For example, as a consequence of the global financial crisis, the Habtoor Leighton Group had to negotiate settlements with deferred payment conditions and furthermore faces the risk of a loss of receivables out of certain projects in the United Arab Emirates. While the HOCHTIEF Group regularly monitors a potential impairment of its claims against third parties, there can be no assurance that this will protect the HOCHTIEF Group against all counterparty risks. This could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

The HOCHTIEF Group is subject to tax risks resulting from current or future tax audits.

The HOCHTIEF Group companies are regularly subject to tax audits. It is possible that current or future tax audits may result in significant additional tax payments or demands which could have a material adverse effect on the HOCHTIEF Group's business, cash flows, financial condition and results of operations.

RISKS RELATING TO THE NOTES

An investment in the Notes involves certain risks associated with the characteristics, specification and type of the Notes which could lead to substantial losses that Holders would have to bear in the case of selling their Notes or with regard to receiving interest payments and repayment of principal. Risks regarding the Notes comprise, *inter alia*, the following risks:

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Liquidity Risk

There is currently no liquid market for the Notes. Application has been made for the Notes to be admitted to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the Official List of the Luxembourg Stock Exchange. However, there is a risk that no liquid secondary market for the Notes will develop or, if it does develop, that it will not continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted notes. In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time and/or at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Risk of Early Redemption

The Notes may be redeemed at the option of the Issuer (in whole, but not in part) at the aggregate principal amount of the Notes plus accrued interest to the date fixed for redemption for reasons of taxation. In the event that the Issuer exercises the option to redeem the Notes, the Holders might suffer a lower than expected yield and might not be able to reinvest the funds on the same terms.

Market Price Risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the Notes. The Holders are therefore exposed to the risk of an unfavourable development of market prices of their Notes which materialises if the Holders sell the Notes prior to the final maturity. If a Holder decides to hold the Notes until final maturity, the Notes will be redeemed at the amount set out in the Conditions of Issue.

The market value of the Notes could decrease if the creditworthiness of the HOCHTIEF Group worsens.

If, for example, because of the materialisation of any of the risks regarding the Issuer, the Issuer is less likely to be in a position to fully perform all obligations under the Notes when they fall due, the market value of the Notes will suffer. In addition, even if the Issuer is not actually less likely to be in a position to fully perform all obligations under the Notes when they fall due, market participants could nevertheless have a different perception. In addition, the market participants' estimation of the creditworthiness of corporate debtors in general or debtors operating in the same business as the HOCHTIEF Group could adversely change.

If any of these risks occurs, third parties would only be willing to purchase Notes for a lower price than before the materialisation of the relevant risk. Under these circumstances, the market value of the Notes will decrease.

Currency Risk

The Notes are denominated in Euro. If such currency represents a foreign currency to a Holder, such Holder is particularly exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes in the currency of the Holder. Changes in currency exchange rates result from various factors such as macroeconomic factors, speculative transactions and interventions by central banks and governments.

In addition, government and monetary authorities may impose (as some have done in the past) currency exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal at all.

Fixed Rate Notes

The Notes bear interest at a fixed rate. A Holder of Notes is particularly exposed to the risk that the price of such Notes falls as a result of changes in market interest rates. While the nominal interest rate of a Note as specified in the Conditions of Issue is fixed during the term of the Notes, the current interest rate on the capital market typically changes on a daily basis. As the market interest rate changes, the price of fixed rate notes also changes, but in the opposite direction. If the market interest rate increases, the price of fixed rate notes typically falls, until the yield of such notes is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of fixed rate notes typically increases, until the yield of such notes is approximately equal to the market interest rate of comparable issues. If a Holder of the Notes holds his notes until maturity, changes in the market interest rate are without relevance to such Holder as the Notes will be redeemed at their principal amount.

Risks in connection with the application of the German Act on Debt Securities from Entire Issues (Gesetz über Schuldverschreibungen aus Gesamtemissionen)

A Holder is subject to the risk to be outvoted and to lose rights towards the Issuer against his will in the case that Holders agree pursuant to the Conditions of Issue to amendments of the Conditions of Issue by majority vote according to the German Act on Debt Securities from Entire Issues (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*). In the case of an appointment of a common representative (*gemeinsamer Vertreter*) for all Holders a particular Holder may lose, in whole or in part, the possibility to enforce and claim his rights against the Issuer regardless of other Holders.

Changes in Accounting Standards

The Issuer's consolidated financial statements are issued in accordance with International Financial Reporting Standards as adopted in the European Union (IFRS). New or changed accounting standards may lead to adjustments in the relevant HOCHTIEF Group accounting positions. This might lead to a different perception of the market regarding the HOCHTIEF Group's and the Issuer's creditworthiness. As a result there is a risk that the market value of the Notes might decrease.

No restriction on the amount of debt which the Issuer may incur in the future

There is no restriction on the amount of debt which the Issuer may issue which ranks equal to the Notes. Such issuance of further debt may reduce the amount recoverable by the Holders upon winding-up or insolvency of the Issuer or may increase the likelihood that the Issuer may or shall defer payments of interest under the Notes.

Negative pledge and borrowings not classified as Capital Market Indebtedness

Any borrowings that do not meet the definition of Capital Market Indebtedness are excluded from the negative pledge contained in § 2(2) of the Conditions of Issue. Therefore, in any of these cases the Issuer is under no obligation to grant to the Holders an equal and rateable security. Such transactions may reduce the amount recoverable by the Holders upon winding-up or insolvency of the Issuer.

USE OF PROCEEDS

In connection with the offering of the Notes, the Issuer will receive net proceeds of approximately EUR [●]. The Issuer intends to use the proceeds to repay existing debt and for general corporate purposes.

options, fulfil their obligation to convert/exercise their options or to the extent that the Issuer exercises an option to grant shares of the Issuer in whole or in part instead of payment of the cash amount due provided no cash compensation is granted or treasury shares or shares of another listed company are used for servicing in each case. Furthermore short-term credit facilities of approximately EUR 343 million are available. Further loans are in place on a local basis particularly for the HOCHTIEF Group's American and Australian operational units. In the HOCHTIEF Americas business division, the Turner Corporation and Flatiron Construction Corp. retain a USD 6.5 billion bonding facility with five major US surety companies to provide security for public-sector construction contracts.

IV. Business Overview of the HOCHTIEF Group

1. Overview

Based on sales, the HOCHTIEF Group is one of the world's leading construction services groups and represented in all of the world's major markets (source: McGraw-Hill, ENR magazine, August 2011). It operates globally via its four business divisions HOCHTIEF Americas, HOCHTIEF Asia Pacific, HOCHTIEF Concessions and HOCHTIEF Europe. Based on the three core competences Develop, Build and Operate, the HOCHTIEF Group delivers integrated services for infrastructure projects, real estate and facilities. For the fiscal year ended 31 December 2011, the largest markets of the HOCHTIEF Group, Americas (primarily North America), Australia, Asia (including the Gulf states) and Germany, accounted for 97 per cent. of the HOCHTIEF Group's sales. The Issuer, the parent company of the HOCHTIEF Group, is a management holding company and functions as the HOCHTIEF Group's headquarters, performing corporate headquarter as well as worldwide strategic management functions for the HOCHTIEF Group.

The following table shows the divisional sales, EBITDA, order backlog and number of employees of the four business divisions of the HOCHTIEF Group for the fiscal year ended 31 December 2011.

2. HOCHTIEF Americas

The HOCHTIEF Americas business division combines the activities of the HOCHTIEF Group's operational units mainly in the United States and Canada, where it mainly operates through its subsidiaries The Turner Corporation, Dallas/USA ("Turner"), Flatiron Holding Inc., Delaware/USA ("Flatiron") and E.E. Cruz & Company Inc., New Jersey/USA. In November 2011, the HOCHTIEF Group, through its subsidiary Turner, purchased a majority interest of 51 per cent. in the Canadian construction company Clark Builders, consisting of Clark Builders Partnership, Edmonton/Canada, CB Resources Corporation, Edmonton/Canada and CB Finco Corporation, Edmonton/Canada.

Turner is active in the building construction sector and has established itself as the number 1 general builder in the US market based on sales (source: McGraw-Hill, ENR magazine, The Top 400 Contractors, 19 September 2011). Within its network of 63 offices located in or near most major cities throughout the United States as well as in selected international locations,

Turner operates business units which are focused on Turner's key market sub-segments Healthcare, Education/Science, Public/Justice, Commercial/Retail, Transportation, Sports/Entertainment, Pharma/Manufacturing, Residential/Hotel and Correctional Facilities. Within these market sub-segments, Turner offers pre-construction consulting, program management, project management, construction management, design/build, design/build-finance, general construction, building maintenance and multiple building programs. Turner is the US market leader in the segments education, health care, hotels, motels and convention centres and correctional facilities based on sales (*source*: McGraw-Hill, ENR magazine, The Top 400 Contractors, 19 September 2011). It is also the number one in the green building market (*source*: 2011 The Top 100 Green Contractors, 19 September 2011).

Flatiron is one of the top ten US companies in complex infrastructure construction and civil engineering projects such as transportation, highways and bridges (*source*: McGraw-Hill, ENR magazine, The Top 400 Contractors, 19 September 2011). Flatiron offers a full range of construction and engineering services through various types of contracts such as design-build, construction management/general contractor (CM/GC), and public-private partnerships (also in cooperation with HOCHTIEF PPP Solutions North America Inc. and HOCHTIEF Solutions AG) and operates from regional and project offices in many regions of the United States and Canada.

In 2011, HOCHTIEF Americas disposed of its minority stake in HOCHTIEF do Brasil S.A., through which it offered building and infrastructure construction services as well as facility management services in the Brazilian market.

3. HOCHTIEF Asia Pacific

The HOCHTIEF Asia Pacific business division encompasses the HOCHTIEF Group's activities in the Asia-Pacific region through its fully consolidated majority shareholding of approximately 53.4 per cent. in Leighton Holdings Limited (together with its subsidiaries and affiliates, the "**Leighton Group**"). The remaining shares are broadly held. Leighton Holdings Limited is the publicly listed parent company of the Leighton Group, focusing on strategic and financial management, market positioning and corporate and public affairs of the Leighton Group.

The Leighton Group's activities include engineering and infrastructure construction, raw materials extraction and concessions, project development as well as maintenance and services which are operated through six independent key operating companies in more than 20 countries from headquarters in Australia, Hong Kong and Dubai. The Leighton's Group six independent key operating units comprise Thiess (together with its subsidiaries and affiliates, "**Thiess**"), Leighton Contractors (together with its subsidiaries and affiliates, the "**Leighton Contractors**"), John Holland Group (together with its subsidiaries and affiliates, "**John Holland**"), Commercial & Residential, consisting of Leighton Properties and Devine (together with its subsidiaries and affiliates, "**Commercial & Residential**"), Leighton Middle East & Africa, consisting of Habtoor Leighton Group (in which the Leighton Middle East & Africa Group holds a minority stake) and Leighton Africa (together with its subsidiaries and affiliates, "**Leighton Middle East & Africa**") and Leighton Asia, India & Offshore consisting of Leighton Asia, Leighton Welspun Contractors (in which the Leighton Asia, India & Offshore Group holds a major stake) and Leighton Offshore (together with its subsidiaries and affiliates, "**Leighton Asia, India & Offshore**"). In addition, under the business unit Leighton Offshore, the Leighton Asia, India & Offshore operates five modern, purpose built pipe lay and cable lay barges and has experience in both small and large diameter pipeline.

4. HOCHTIEF Concessions

The HOCHTIEF Concessions business division is operated by HOCHTIEF Concessions AG, a wholly owned subsidiary of the Issuer. It develops, implements and operates, usually in cooperation with partners, concessions and operation projects through various associated companies in its airports and provides consulting services in this area.

As a wholly owned subsidiary of HOCHTIEF Concessions AG, HOCHTIEF AirPort GmbH (together with its subsidiaries and affiliates "**HOCHTIEF AirPort**") is responsible for the HOCHTIEF Group's airports business. HOCHTIEF AirPort bundles all airport management and investment activities of the HOCHTIEF Group and offers a full spectrum of services from financing and management to an airport's strategic alignment. Its airport participations include shareholdings in the airports of Athens, Budapest, Düsseldorf, Hamburg, Sydney and Tirana which handled around 94.7 million passengers in 2011. HOCHTIEF AirPort also manages HOCHTIEF AirPort Capital GmbH & Co. KGaA (together with its subsidiaries and affiliates "**HOCHTIEF AirPort Capital**"), an investment partnership through which four institutional investors currently hold participations in the airports of Athens, Düsseldorf, Hamburg and Sydney. In 2011, the Issuer announced its intention to sell its airport business and initiated a disposal process which is still ongoing.

As part of an intra-group restructuring, HOCHTIEF PPP Solutions GmbH was regrouped as of 1 February 2012 from the HOCHTIEF Concession division to the HOCHTIEF Europe division and thus ceased to be a wholly owned subsidiary of HOCHTIEF Concessions AG and became a wholly owned subsidiary of HOCHTIEF Solutions AG. HOCHTIEF PPP Solutions GmbH is therefore described below under the business division HOCHTIEF Europe.

5. HOCHTIEF Europe

The HOCHTIEF Europe business division encompasses the HOCHTIEF Group's European building construction and civil engineering, real estate, services and public private partnership business operated by the wholly-owned subsidiary HOCHTIEF Solutions AG (together with its subsidiaries and affiliates, "**HOCHTIEF Solutions**").

HOCHTIEF Solutions offers its customers integrated services: from development, planning, construction and management to comprehensive facility, property and energy management services. It particularly focuses on three strategic growth areas: creating modern energy infrastructure, shaping major cities and building state-of-the-art transportation infrastructure. Modern energy infrastructure includes offshore wind energy activities which comprise construction work using special jack-up vessels, development of wind parks and development

of innovative technologies. Furthermore, HOCHTIEF Solutions' activities in the energy sector focus on energy infrastructure and energy network expansion (examples include power tunnels and transmission lines) as well as the efficient use of energy in property asset management.

HOCHTIEF Solutions has in total seven business lines: Service Solutions, Real Estate Solutions, Energy and Infrastructure Solutions, International Project Solutions, Classic Solutions, Engineering Solutions and PPP Solutions.

The Service Solutions business line pools facility management and energy management services, which are provided to clients in Germany and Europe as well as in selected non-European countries such as Bahrain. Services range from energy consulting and facility management planning to operating buildings and energy contracting.

In the Real Estate Solutions business line, HOCHTIEF Solutions manages real estate projects, providing services ranging from comprehensive analyses of the market and location, acquisition of land to marketing, financing, implementation of real estate projects as well as property services management services. The business line is predominantly active in Germany and in selected Western and Central Eastern European countries including Austria, Luxembourg, Poland, Switzerland and the Czech Republic. As part of the Real Estate Solutions business line HOCHTIEF holds a 50 per cent. participation in aurelis Real Estate GmbH & Co. KG ("**aurelis**"), which it intends to dispose.

The Energy and Infrastructure Solutions business line offers to clients in Europe infrastructure services including planning, building and operating of ports and airports, power plants including offshore windparks and waste water treatment plants.

The International Project Solutions business line includes the largest European foreign subsidiaries of the Issuer providing building and infrastructure construction services in Central and Eastern Europe. Furthermore, the business line is specialised in delivering large-scale construction projects in other parts of the world, for example a high-speed railway in Taiwan, hydroelectric power plants for electricity generation in South Africa and Latin America or a commercial avenue in Qatar.

The Classic Solutions business line combines building construction and construction logistics solutions and offers tailored service packages ranging from equipment to turnkey buildings. Construction projects include among others high-rise office buildings, revitalisation projects, industrial plants or football stadiums primarily in Germany.

The Engineering Solutions business line represents HOCHTIEF Solutions' worldwide engineering consultancy services. Specialist engineers advise clients in the energy, transport and property sector and provide virtual design and construction services. In addition, the business line supports other HOCHTIEF Group business units with specialist advice.

As part of an intra-group restructuring, HOCHTIEF PPP Solutions GmbH (together with its subsidiaries and affiliates "**PPP Solutions**") was integrated, as of 1 February 2012, in the HOCHTIEF Europe division as a wholly owned subsidiary of HOCHTIEF Solutions AG. PPP Solutions develops, implements and operates, usually in cooperation with partners, concessions and operation projects through various associated companies in its Roads and Social Infrastructure segments. PPP Solutions is also engaged in the field of renewable energies, developing two geothermal power plants. PPP Solutions has business units and offices in Germany, Chile, Greece, the United Kingdom, Canada and the US and is currently involved in 28 public-private partnership projects (20 social infrastructure projects and eight transportation infrastructure projects) including eight roads (with two tunnels), 111 schools, 18 police stations, one community centre and one military base.

6. Market and Competition

The HOCHTIEF Group is the most internationalized construction service provider of the world (*source: McGraw-Hill, ENR magazine, August 2011*) and is active in major geographical markets, notably Europe, North America, Australia, the Asia-Pacific region and the Gulf States. For the fiscal year ended 31 December 2011, the largest markets of the HOCHTIEF Group were Americas (primarily North America, approx. 27 per cent. of the HOCHTIEF Group's sales in the fiscal year ended 31 December 2011), Australia (approx. 47 per cent. of the HOCHTIEF Group's sales in the fiscal year ended 31 December 2011), Germany (approx.

9 per cent. of the HOCHTIEF Group's sales in the fiscal year ended 31 December 2011) and Asia (approx. 13 per cent. of the HOCHTIEF Group's sales in the fiscal year ended 31 December 2011). In these markets the HOCHTIEF Group delivers integrated services for infrastructure projects, real estate and facilities. The HOCHTIEF Group's portfolio comprises the three core competences

- Developing,
- Building and
- Operating.

Demand for construction services is generally sensitive to the development of the macroeconomic environment. Real estate markets are predominantly influenced by demographics, consumer confidence and general prosperity whereas public non-residential construction and infrastructure are significantly influenced by government spending policies and current political priorities. The current international financial and economic crisis therefore has a distinct impact on the real estate and construction markets overall. However, the influence of the macroeconomic environment may vary considerably by market segment within a country or region and by market segments overall and different market segments and/or regions may move in different cycles. The HOCHTIEF Group sees itself in a good position to compensate regional market fluctuations due to its worldwide presence and broad industry diversification.

The markets in which the HOCHTIEF Group operates are subject to significant competition. The HOCHTIEF Group competes in these markets with large international competitors as well as with companies with predominantly regional activities. Some of the markets in which the HOCHTIEF Group operates are highly fragmented by region and by market segment. As a consequence, a major competitor in one region or market segment may not be necessarily a competitor in another region or market segment.

7. Investments

Whereas the HOCHTIEF Group has not completed any principal investment since 31 December 2011, future investments on which firm commitments have already been made are an amount of EUR 138.5 million over the next years to be paid as equity capital contributions in connection with public-private partnership projects of HOCHTIEF PPP Solutions in the HOCHTIEF Europe division. Investments will either be financed from operating cash flows or by using external financing.

8. Material Contracts

Other than the financing contracts described above (see "*GENERAL INFORMATION ABOUT THE ISSUER – Financing Structure of the HOCHTIEF Group*"), the Issuer has not entered into material contracts in the ordinary course of its business, which could result in any group member being under an obligation or entitlement that is material to the issuer's ability to meet its obligation to the Holders.

9. Trend Information

There has been neither any material adverse change in the prospects of the Issuer nor any significant change in the financial or trading position of the Issuer since 31 December 2011.

10. Legal and Arbitration Proceedings

Companies of the HOCHTIEF Group are subject to a variety of claims and lawsuits that arise from time to time in the ordinary course of their business, including proceedings and claims that relate to companies which HOCHTIEF has acquired, and claims that relate to customers demanding indemnification for proceedings initiated against them.

In particular, in connection with building work for the Elbphilharmonie project in Hamburg undertaken by the HOCHTIEF Group, two lawsuits are still pending at the date of this Prospectus before the regional court (*Landgericht*) of Hamburg. Both lawsuits centre, among others, around the disputed question whether, and if so, to what extent, the HOCHTIEF Group bears responsibility for certain delays in the building process. One lawsuit was initiated by Elbphilharmonie Hamburg Bau GmbH & Co. KG against Adamanta Grundstücks-

Vermietungsgesellschaft mbH & Co Objekt Elbphilharmonie KG, acting as object company for the Elbphilharmonie project, by way of an action for a declaratory judgement for damages, in which the HOCHTIEF Group is involved by way of third party notice (*Streitverkündung*). The other lawsuit was initiated by the HOCHTIEF Group against Adamanta Grundstücks-Vermietungsgesellschaft mbH & Co Objekt Elbphilharmonie KG by way of an action for a declaratory judgement, in which the HOCHTIEF Group repudiates any claims for contractual penalties (*Vertragsstrafen*). The HOCHTIEF Group currently intends to vigorously defend itself against the claims raised.

In September 2011, an arbitration proceeding was initiated against certain companies of the HOCHTIEF Group in connection with its indirect holding in the Budapest Airport. The claim is based on the allegation that a change of control in the Issuer occurred that entitles the claimant under a shareholder's agreement to sell its respective indirect holding in the Budapest Airport to HOCHTIEF Airport GmbH at market value to be calculated using predefined valuation methods. The acquisition of such indirect holding in case of defeat could lead to a full consolidation of the then overall indirect holding in the consolidated financial statements of the Issuer with further negative effects thereon. The arbitration proceeding is still pending at the date of this Prospectus and the HOCHTIEF Group currently intends to vigorously defend itself against the claims raised.

In connection with construction work for a hydroelectric power plant in Fort Augustus, Scotland, the HOCHTIEF Solutions AG and HOCHTIEF (UK) Construction Limited were sued in July 2011 by SSE Generation Limited. SSE Generation Limited is seeking damages in an amount of up to GBP 170 million for the partial collapse of a water tunnel and the subsequent shutdown of the power plant. The lawsuit is currently pending before the Court of Sessions in Edinburgh. The HOCHTIEF Group currently intends to vigorously defend itself against the claims raised.

In connection with construction work for the Sony-Center in Berlin, the Issuer and HOCHTIEF Solutions AG were sued in November 2003 by Imtech Deutschland GmbH & Co. KG. Imtech Deutschland GmbH & Co. KG is seeking compensation for work performed in the amount of EUR 36 million. HOCHTIEF Solutions AG filed a counterclaim in the amount of EUR 17 million, based on, among others, construction defects and contractual penalties. The lawsuit is currently pending before the regional court (*Landgericht*) of Berlin. Despite settlement negotiations, the HOCHTIEF Group currently intends to vigorously defend itself against the claims raised.

In connection with construction work for the Rheinhallen in Cologne, HOCHTIEF Solutions AG sued the Gebr. Esch Wohnbaugesellschaft mbH in November 2010, seeking compensation for work performed in the amount of EUR 41 million. The lawsuit is currently pending before the regional court (*Landgericht*) of Bonn. The HOCHTIEF Group currently intends to vigorously pursue its claims. Besides, construction work performed due to change requests and therefore falling outside the scope of the contractual price agreement, which were invoiced by HOCHTIEF Solutions AG in an amount of EUR 46 million, are currently evaluated with regard to the invoiced amounts and prices pursuant to a supplementary agreement in two expert determinations (*Schiedsgutachten*), one with regard to construction related work and the other with regard to technical building services (*technische Gebäudeausrüstung*) related work.

In connection with construction work for the Rheinpark in Cologne, HOCHTIEF Solutions AG sued the Gebr. Esch Wohnbaugesellschaft mbH in December 2010, seeking compensation for work performed in the amount of EUR 69 million. The lawsuit is currently pending before the regional court (*Landgericht*) of Bonn. The HOCHTIEF Group currently intends to vigorously pursue its claims.

Furthermore, there is an investigation with regard to potential anti-competitive behaviour of Leighton Offshore Pte. Limited in connection with work to expand offshore loading facilities for Iraq's crude oil exports. The investigation, which was initiated by a report of Leighton Holdings Limited to the Australian Federal Police, is still ongoing at the date of this Prospectus and the HOCHTIEF Group intends to fully cooperate with the Australian Federal Police.

The HOCHTIEF Group will continue to vigorously defend itself against all claims and lawsuits against it, unless otherwise described above. The Issuer records provisions for such matters when it is probable that it has a present obligation that results from a past event, is reliably estimable and the settlement of which is probable to require an outflow of resources

embodying economic benefits. Other than as described above, the Issuer currently believes that all claims and lawsuits against it (including any pending or threatened litigation), individually or in aggregate, did not and will not have a material adverse effect on the HOCHTIEF Group's business, financial position, income, or cash flows. Consequently, the provisions currently recorded for these claims and lawsuits are neither individually nor in aggregate material to the HOCHTIEF Group.

However, all claims and lawsuits involve risk and could lead to significant financial and reputational damage to the parties involved. Because of significant inherent uncertainties related to these matters, there can be no assurance that the HOCHTIEF Group's business, financial position, income or cash flows will not be materially adversely affected nor can the maximum possible loss in case of an unfavourable outcome be reliably estimated.

V. Administrative, Management and Supervisory Bodies

In accordance with the German Stock Corporation Act (*Aktiengesetz*), the Issuer has both an executive board (*Vorstand*) (the "**Executive Board**") and a supervisory board (*Aufsichtsrat*) (the "**Supervisory Board**"). The Executive Board is responsible for the management of the HOCHTIEF Group's business; the Supervisory Board supervises the Executive Board and appoints its members. The two boards are separate, and no individual may simultaneously be a member of both boards.

(*) Employee Representatives

The members of the Supervisory Board may be contacted at HOCHTIEF Aktiengesellschaft, Opernplatz 2, 45128 Essen, Germany.

Conflicts of Interest

As of the date of this Prospectus, the above mentioned members of the Executive Board and the Supervisory Board of the Issuer do not have potential conflicts of interests between any duties to the Issuer and their private interests or other duties.

Board Practice

The governing bodies of the Issuer are the Executive Board (*Vorstand*), the Supervisory Board (*Aufsichtsrat*) and the General Shareholders' Meeting (*Hauptversammlung*). The powers of these bodies are set forth in the German Stock Corporation Act, the Issuer's articles of association and the rules of procedure of the Executive Board and the Supervisory Board and its committees. The Executive Board and Supervisory Board work independently of each other. No person may serve on both boards at the same time.

The Executive Board is responsible for managing the HOCHTIEF Group's day-to-day business and for representing the Issuer in dealings with third parties. The Supervisory Board appoints and may dismiss members of the Executive Board. The Supervisory Board supervises and advises the Executive Board in its management of HOCHTIEF and represents the Issuer in transactions between a member of the Executive Board and the Issuer. In general, the Supervisory Board is not directly involved in the day-to-day management of the HOCHTIEF Group.

In performing their duties, members of both the Executive Board and Supervisory Board must exercise the duties of care expected of a reasonable business person. Members of the Executive Board and the Supervisory Board must consider a broad range of interests, including those of the Issuer and its shareholders and employees.

The members of the Executive Board and the Supervisory Board may be held personally liable to the Issuer for breaches of their duties of loyalty and care. The Issuer must bring an action for breach of duty against members of the Executive Board or Supervisory Board upon a resolution of the stockholders passed at a stockholders' meeting by a simple majority of votes cast. Furthermore, minority shareholders representing at least 1 per cent. of the Issuer's share capital or shares with a nominal value of EUR 100,000 can be admitted by the competent court to assert claims for damage of the Issuer against members of either of the Issuer's boards in their own name.

With the exception of stockholders of companies that are under the control of another company, individual stockholders of German companies cannot sue directors on behalf of the company. Under German law, directors may be liable to a breach of duty to stockholders (as opposed to a duty to the company itself) only where a breach of duty to the company also constitutes a breach of a statutory provision enacted specifically for the protection of stockholders. As a practical matter, stockholders are able to assert liability against directors for breaches of this sort only in unusual circumstances. The German Securities Trading Act (*Wertpapierhandelsgesetz*) provides for damage claims of stockholders against the Issuer under certain circumstances, if the Issuer violates the provisions on publication of insider information with intent or gross negligence.

Executive Board

The Executive Board draws up bylaws. The Executive Board conducts the business of the company by common responsibility shared among all its members. The Executive Board determines entrepreneurial goals, the fundamental strategic direction, corporate policy and the HOCHTIEF Group's organisation. The Executive Board makes all decisions in the form of resolutions. Major decisions of the Executive Board require Supervisory Board approval.

The Executive Board provides the Supervisory Board with regular written and verbal reports containing full and timely information on the financial position and development of both the Issuer and the HOCHTIEF Group, significant transactions and the current results of operations, including information on the risk position and risk management. In the final session of the financial year, the Executive Board also submits to the Supervisory Board planning for the HOCHTIEF Group's investments, finance and personnel for the coming financial year, as well as medium-term planning. A person may not serve on the Executive Board and on the Supervisory Board at the same time.

Outside of its meetings, the Supervisory Board is kept fully abreast by the Executive Board of particularly significant or urgent projects and events. The chairman of the Supervisory Board also maintains regular contact with the Executive Board outside of meetings and keeps himself informed of the current status of the business and key transactions. Any business or initiatives that require the consent of the Supervisory Board are submitted to that body in a timely fashion.

Pursuant to the articles of association, the Executive Board must consist of at least 3 members. Currently, the Issuer's Executive Board is composed of 2 members. Any 2 members of the Executive Board jointly or one member of the Executive Board and a holder of a special power of attorney (*Prokurist*) jointly may legally represent the Issuer. The Supervisory Board appoints each member of the Executive Board for a maximum term of 5 years, with the possibility of re-appointment. Under certain circumstances, a member of the Executive Board may be removed by the Supervisory Board prior to the expiration of that member's term. A member of the Executive Board may not vote on matters relating to certain contractual agreements between such member and the Issuer, and may be liable to the Issuer if such member has a material interest in any contractual agreement between

the Issuer and a third party which was not disclosed to and approved by the Supervisory Board. Further, as the compensation of the Executive Board members is set by the Supervisory Board, Executive Board members are unable to vote on their own compensation.

Under German law the Issuer's Supervisory Board members and Executive Board members have a duty of loyalty and care towards the Issuer. They must exercise the standard of care of a prudent and diligent businessman and bear the burden of proving they did so if their actions are contested. Both bodies must consider the interest of the Issuer's shareholders and the employees and, to some extent, the common interest. Those who violate their duties may be held jointly and severally liable for any resulting damages, unless they acted pursuant to a lawful resolution of the annual General Shareholders' Meeting.

The Issuer has implemented a Code of Conduct for employees covering the following topics: conflict of interest, bribery and corruption, observance of anti-trust rules, donations and sponsoring, insider rules, dealing with internal knowledge, confidentiality, data protection, documentation of business transactions, treatment of company property and assets, respecting human dignity, rejection of child labour and forced labour, equality of opportunity and the prohibition of discrimination, health and safety, environmental protection and the right of association and of collective bargaining. The Code of Conduct is equally applicable to managers and members of the Executive Board.

Supervisory Board

The Supervisory Board oversees and advises the Executive Board in heading up the corporation's business. The Supervisory Board is involved in all decisions of fundamental importance to the company. At regular intervals the Supervisory Board discusses business development and planning, strategy and implementation. The Supervisory Board approves the consolidated financial statements of the Issuer, with due consideration for auditing reports from the certified public accountants performing the final audit and the outcome of audits performed by the audit committee.

The Supervisory Board makes decisions by resolution.

When the Supervisory Board votes, the chairman has the casting vote, according to the rules of the German Co-determination Act of 1976 (*Mitbestimmungsgesetz*), if a second round of voting also ends in a draw.

The German Co-determination Act of 1976 requires supervisory boards of corporations with more than 2,000 employees to consist of an equal number of representatives of the shareholders and representatives of the employees. The minimum total number of supervisory board members, and thus the minimum number of shareholder representatives and employee representatives, is legally fixed and depends on the number of employees employed by the corporation and its German subsidiaries. The Supervisory Board currently consists of sixteen members, of which eight members have been elected by the Issuer's shareholders at the annual General Shareholders' Meeting and eight members have been elected by the employees of the German HOCHTIEF entities (i.e. entities of the HOCHTIEF Group having their registered office in Germany).

Any Supervisory Board member elected by the shareholders at the annual General Shareholders' Meeting may be removed by a simple majority of the votes cast at the annual General Shareholders' Meeting. Any Supervisory Board member elected by the employees may be removed by three quarters of the votes cast by the employees of companies of the HOCHTIEF Group having their registered office in Germany.

The Supervisory Board elects a chairperson and a deputy chairperson among its members by a majority of two-thirds of the votes of its members. If such majority is not reached on the first vote, the chairperson will be chosen solely by the members elected by the shareholders and the deputy chairperson will be chosen solely by the members elected by the employees. Unless otherwise provided by law, the Supervisory Board acts by simple majority. In the case of any deadlock the chairperson has the deciding vote.

The members of the Supervisory Board cannot be elected for a longer term than approximately 5 years. The members of the Supervisory Board shall hold office until the end of the annual General Shareholders' Meeting at which they are discharged from responsibility for the fourth financial year after commencement of their period of office, not counting the financial year in which their period of office commenced. The Supervisory Board normally meets four times a year. The remuneration of the members of the Supervisory Board is determined by the articles of association.

As stipulated in the German Corporate Governance Code, an adequate number of the Supervisory Board members are independent. To be considered for appointment to the Supervisory Board and for as long as they serve, members must comply with certain criteria concerning independence, conflicts of interest and multiple memberships of management, supervisory and other governing bodies. They must be loyal to the Issuer in their

conduct and may not accept any position in companies that are in competition with the Issuer. Members are subject to insider trading prohibition and the respective directors' dealing rules of the German Securities Trading Act. A member of the Supervisory Board may not vote on matters relating to certain contractual agreements between such members and the Issuer. Further, as the compensation of the Supervisory Board members is laid down in the articles of association, Supervisory Board members are unable to vote on their own compensation.

The Supervisory Board may appoint committees from among its members and may, to the extent permitted by law, entrust such committees with the authority to make decisions. Currently the Supervisory Board maintains the following committees:

The Audit Committee within the meaning of section 107 (3) sentence 2 AktG deals in particular with issues relating to the Issuer's accounting, risk management and compliance as well as the efficiency of the internal control system and the internal auditing system, to the necessary autonomy of the auditor, the granting of the audit assignment to the auditor, the determination of audit focuses and the agreement of the auditor fee. Half-year and quarterly financial reports are discussed by the Audit Committee together with the Executive Board prior to publication unless these reports are discussed by the Supervisory Board. The chairman of the Audit Committee must have specialist knowledge and experience in the application of accounting principles and internal controlling procedures. He must be independent and not be any former member of the Executive Board of the Issuer whose term of office ended less than two years previously. The Audit Committee consists of three Supervisory Board shareholder representatives and three Supervisory Board employee representatives respectively. The Audit Committee is currently composed of six members: Ángel García Alzozano (Chairman), Ulrich Best (Deputy Chairman), Gregor Asshoff, José Luis del Valle Pérez, Thomas Eichelmann and Gerrit Pennings.

Other committees are the Executive Committee, the Mediation Committee, the Human Resources Committee, the Nomination Committee and the Strategy Committee. The Executive Committee prepares the Supervisory Board meetings and the Supervisory Board decisions on matters requiring the approval of the Supervisory Board. In addition, the Executive Committee is notified on a regular basis by the Executive Board about significant business occurrences. The Mediation Committee is an obligatory committee in line with section 27 (3) of the Co-determination Act (MitbestG). The Human Resources Committee prepares the personnel decisions for the Supervisory Board. The Nomination Committee is responsible for suggesting suitable candidates to the Supervisory Board for its proposals to the General Shareholders' Meeting for the election of the members of the Supervisory Board. The Strategy Committee discusses strategy and corporate development and prepares resolutions on strategic concerns by the Supervisory Board.

The duties, procedures and committees of the Supervisory Board are specified in their respective bylaws which reflect the requirements of the German Stock Corporation Act and the German Corporate Governance Code. The committee chairs report regularly to the Supervisory Board concerning the work of their committees.

German Corporate Governance Code

The Issuer complies in full with the recommendations of the Government Commission on the German Corporate Governance Code dated 26 May 2010 and published on 2 July 2010 by the German Ministry of Justice in the official section of the electronic Federal Gazette (*elektronischer Bundesanzeiger*).

Pursuant to the last Compliance Declaration (*Entsprechenserklärung*) of the Issuer in February 2012, the Issuer also complied, since the preceding Compliance Declaration in March 2011, with all recommendations of the German Corporate Governance Code dated 26 May 2010, with the exception, that the Issuer did not fully comply with section 7.1.2. sentence 4 thereof with respect to the publication period for interim reports of 45 days from the end of the reporting period. The half-year report for 2011 was published several days late due to scheduling conflicts for a presentation of such report by members of the Executive Board in person.

VI. Selected Financial Information of the HOCHTIEF Group

The following table sets out selected financial information relating to the HOCHTIEF Group. The information has been extracted from the Issuer's audited consolidated financial statements as of 31 December 2011 and from the Issuer's audited consolidated financial statements as of 31 December 2010, all prepared in accordance with International Financial Reporting Standards as adopted in the European Union (IFRS).

VII. Recent Developments and Outlook

Based on the assumption that there will be no major changes in the general macroeconomic and sectoral environment as well as in the development of capital markets, the Issuer anticipates that the global economy will continue to recover. Furthermore, the strong order book of the HOCHTIEF Group as of 31 December 2011 as well as identified opportunities for further business make the Issuer confident with regard to the future development of its business.

The Issuer anticipates new orders, order backlog and sales in the fiscal year 2012 to normalise below the level of the fiscal year 2011. It also estimates the HOCHTIEF Group's earnings before tax and consolidated net profit in the fiscal year 2012 to be slightly below the record level of the fiscal year 2010.

The Issuer intends to dispose of its airport business and its participation in aurelis or parts thereof. However, the above estimate for the fiscal year 2012 does not include any extraordinary effects from such transactions. Following a sale of the airports business, there will be no further operating business of the HOCHTIEF Concessions division. Consequently, the Issuer intends to streamline the group structure of the HOCHTIEF Group, which will then only comprise the three remaining divisions HOCHTIEF Americas, HOCHTIEF Asia Pacific and HOCHTIEF Europe.

A Subsidiary begins and ceases, as the case may be, to constitute a Material Subsidiary as from the date of publication of the relevant consolidated annual financial statements of the Issuer.

"Subsidiary" means (i) any company in which the Issuer directly or indirectly holds more than 50 per cent. of the share capital or voting rights or on which the Issuer is able

Der Gläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen.

Für diese Zwecke bezeichnet "Zahltag" einen Tag, der ein Tag (außer einem Samstag oder Sonntag) ist, an dem das Clearing System sowie alle betroffenen Bereiche des Trans-European Automated Real-time Gross Settlement Express Transfer System (TARGET2) betriebsbereit sind, um die betreffenden Zahlungen weiterzuleiten.

However, no such notice of redemption may be given (i) earlier than 90 days prior to the earliest date on which the Issuer would be obligated to pay such Additional Amounts were a payment in respect of the Notes then due, or (ii) if at the time such notice is given, such obligation to pay such Additional Amounts does not remain in effect.

Any such notice shall be given in accordance with § 14. It shall be irrevocable, must specify the date fixed for redemption and must set forth a statement in summary form of the facts constituting the basis for the right of the Issuer so to redeem.

(3) *Early Redemption due to Change of Control.* In the event that a Change of Control (as defined below) occurs, each Holder will have the option (unless, prior to the giving of the Put Event Notice referred to below, the Issuer gives notice to redeem the Notes in accordance with § 5 subsection 2) to require the Issuer to redeem the Notes held by him on the Optional Redemption Date at their principal amount together with interest accrued to but excluding the Optional Redemption Date.

UNDERTAKINGS

(1) *Transactions with Significant Shareholders.* The Issuer undertakes that it will not, and that it will procure that each Material Subsidiary will not (provided that, with regard to Leighton Holdings Ltd. and its subsidiaries, the Issuer shall only be obliged to exercise its voting rights attaching to the shares held by it in a general shareholders' meeting of Leighton Holdings Ltd., which may be called to resolve on this relevant matter, in a corresponding manner):

- (ii) Darlehen, Garantien, Sicherheiten oder sonstige Haftungsübernahmen gegenüber (oder für Verpflichtungen von) einer Joint Venture Gesellschaft, an der auch ein Wesentlicher Anteilseigner beteiligt ist, zu gewähren, es sei denn, (i) die Gewährung erfolgt pro rata im Verhältnis zu seiner Beteiligung und (ii) der Wesentliche Anteilseigner gewährt auch ein entsprechendes Darlehen, eine entsprechende Garantie, eine entsprechende Sicherheit oder eine entsprechende sonstige Haftungsübernahme pro rata im Verhältnis zu seiner Beteiligung an der Joint Venture Gesellschaft.

Es besteht eine unwiderlegliche Vermutung für das Vorliegen marktüblicher Konditionen für Zwecke von § 6 Absatz 1 lit. (b), (c), (d) und (e), wenn der gemäß § 312 Aktiengesetz erstellte Abhängigkeitsbericht eine Erklärung über die Angemessenheit der Gegenleistung des betreffenden Geschäfts enthält und der Abschlussprüfer in seinem Vermerk gemäß § 313 Aktiengesetz insoweit keine Einwendungen erhebt.

For the purposes of § 6 subsection 1 lit. (a), (c), (d) and (e), there shall be an irrebuttable presumption that the relevant transaction is on arm's length commercial terms if the dependency report prepared pursuant to § 312 of the German Stock Corporation Act (*Aktiengesetz*) contains a declaration on the appropriateness of the consideration for the relevant transaction and the auditor makes no objections in this regard in its audit certificate pursuant to § 313 of the Stock Corporation Act.

"Significant Shareholder" means each company of the ACS Group if companies of the ACS Group hold at least 30 per cent. of the voting rights in the Issuer.

(2) *Veränderung in der Dividendenpolitik.* Vorbehaltlich entgegenstehender Bestimmungen deutschen Rechts (insbesondere nach § 254 Aktiengesetz) wird die Emittentin, solange es einen Wesentlichen Anteilseigner gibt, ihren Aktionären nicht vorschlagen, zu beschließen, 75% oder mehr des Konzerngewinns (wie in der jeweiligen Konzern-Gewinn- und Verlustrechnung der Emittentin ausgewiesen) als Dividende auszuschütten. Der vorstehende Satz gilt nicht für Sonderausschüttungen aus Gewinnen aus einer Veräußerung von HOCHTIEF Airport GmbH und/oder Aurelis Real Estate GmbH & Co. KG, die ohne Beschränkungen erlaubt sind.

(2) *Change of Dividend Policy.* Subject to the applicable restrictions of German law (including but not limited to § 254 of the German Stock Corporation Act (*Aktiengesetz*)), the Issuer, as long as there is a Significant Shareholder, undertakes not to make a proposal to its shareholders to resolve on the payment of a dividend of 75 per cent. or more of the consolidated net profit (as set out in the respective consolidated statement of earnings of the Issuer). The preceding sentence does not apply to special dividends from profits of a disposal of HOCHTIEF AirPort GmbH and/or Aurelis Real Estate GmbH & Co. (ii) all or substantially all of its assets (the latter being the case if it disposes of more than 70 per cent. of its assets (as set out in the respective most recent consolidated balance sheet of the Issuer)).

Ferner verpflichtet sich die Emittentin, dafür zu sorgen, dass keine Wesentliche Tochtergesellschaft ihre jeweiligen Vermögensgegenstände, deren Buchwerte in der Summe in einem Geschäftsjahr 1% der Bilanzsumme der jeweiligen Wesentlichen Tochtergesellschaft (wie in der letzten Bilanz der jeweiligen Wesentlichen Tochtergesellschaft ausgewiesen) übersteigen würden, in einem Geschäft zu nicht marktüblichen Konditionen veräußert (wobei die Emittentin in Bezug auf die Leighton Holdings Ltd. und deren Tochtergesellschaften lediglich verpflichtet ist, ihre Stimmrechte aus den von ihr gehaltenen Aktien in einer gegebenenfalls zu diesem Thema anberaumten Hauptversammlung von Leighton Holdings Ltd. entsprechend auszuüben).

Es besteht eine unwiderlegliche Vermutung für das Vorliegen marktüblicher Konditionen für Zwecke von § 6 Absatz 3, wenn eine Fairness Opinion einer Wirtschaftsprüfungsgesellschaft oder einer Investmentbank die Angemessenheit der Gegenleistung für die Veräußerung der Vermögensgegenstände bestätigt.

§ 7 DIE HAUPTZAHLSTELLE UND DIE ZAHLSTELLE

Eine Änderung, Abberufung, Bestellung oder ein sonstiger Wechsel wird nur wirksam (außer im Insolvenzfall, in dem eine solche Änderung sofort wirksam wird), sofern die Gläubiger hierüber gemäß § 14 vorab unter Einhaltung einer Frist von mindestens 30 und nicht mehr als 45 Tagen informiert wurden. Für die Zwecke dieser Anleihebedingungen bezeichnet "Vereinigte Staaten" die Vereinigten Staaten von Amerika (einschließlich deren Bundesstaaten und des District of Columbia) sowie deren Territorien (einschließlich Puerto Rico, der U.S. Virgin Islands, Guam,

If such withholding is required by law, the Issuer will pay such additional amounts (the "**Additional Amounts**") as shall be necessary in order that the net amounts received by the Holders after such withholding or deduction shall equal the respective amounts which would otherwise have been received by the Holders in the absence of such withholding or deduction; except that no such Additional Amounts shall be payable on account of any taxes or duties which:

- (a) the Substitute Debtor assumes all obligations of the Issuer in respect of the Notes;
- (b) the Substitute Debtor has obtained all necessary authorisations and may transfer to the Principal Paying Agent in the currency required and without being obligated to deduct or withhold any taxes or other duties of whatever nature levied by the country in which the Substitute Debtor or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Notes;

(1) *Änderung der Anleihebedingungen.* Die Emittentin kann mit Zustimmung durch Mehrheitsbeschluss der Gläubiger nach Maßgabe des Gesetzes über Schuldverschreibungen aus Gesamtemissionen in seiner jeweilig gültigen Fassung (*Schuldverschreibungsgesetz – "SchVG"*) die Anleihebedingungen ändern. Die Gläubiger können insbesondere einer Änderung wesentlicher Inhalte der Bedingungen, einschließlich der in § 5 Absatz 3 SchVG vorgesehenen Maßnahmen mit Ausnahme der Ersetzung der Emittentin, die in § 11 abschließend geregelt ist, mit den in dem nachstehenden § 12 Absatz 2 genannten Mehrheiten zustimmen. Die Mehrheitsbeschlüsse der Gläubiger sind für alle Gläubiger gleichermaßen verbindlich. Ein Mehrheitsbeschluss der Gläubiger, der nicht gleiche Bedingungen für alle Gläubiger vorsieht, ist unwirksam, es sei denn, die benachteiligten Gläubiger stimmen ihrer Benachteiligung ausdrücklich zu.

(2) *Mehrheitserfordernisse.* Die Gläubiger entscheiden mit einer Mehrheit von 75 % der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Anleihebedingungen nicht geändert wird und die keinen Gegenstand der § 5 Absatz 3 Nr. 1 bis Nr. 8 des SchVG betreffen, bedürfen zu ihrer Wirksamkeit einer einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte.

(3) *Abstimmung ohne Versammlung.* Alle Abstimmungen werden ausschließlich im Wege der Abstimmung ohne Versammlung durchgeführt. Eine Gläubigerversammlung und eine Übernahme der Kosten für eine solche Versammlung durch die Emittentin findet ausschließlich im Fall des § 18 Absatz 4 Satz 2 SchVG statt.

In § 8 and § 5 subsection 2 an alternative reference to the Federal Republic of Germany shall be deemed to have been included in addition to the reference according to the preceding sentence to the country of domicile or residence for taxation purposes of the Substitute Debtor and in § 10 subsection 1 lit. (c) to (e) an alternative reference to the Issuer in its capacity as guarantor shall be deemed to have been included in addition to the reference to the Substitute Debtor.

§ 12 AMENDMENT OF THE CONDITIONS OF ISSUE, HOLDERS' REPRESENTATIVE

(1) *Amendment of the Conditions of Issue.* In accordance with the German Act on Debt Securities from Entire Issues (*Gesetz über Schuldverschreibungen aus Gesamtemissionen – "SchVG"*), the Issuer may amend the Conditions of Issue if such amendments are approved by a majority resolution of the Holders. The Holders may, in particular, approve the amendment of material contents of the Conditions of Issue, including the measures listed in section 5 para. 3 SchVG (except for the substitution of the Issuer which is exhaustively regulated in § 11), by the majorities specified in § 12 subsection 2. The majority resolutions of the Holders shall be binding on all Holders. Resolutions which do not provide for identical conditions for all Holders are void, unless Holders who are disadvantaged have expressly consented to their being treated disadvantageously.

(2) *Majority.* Resolutions shall be passed by a majority of not less than 75% of the votes cast. Resolutions relating to amendments of the Conditions of Issue which are not material and which do not relate to the matters listed in § 5 para. 3 nos. 1 to 8 of the SchVG require a simple majority of the votes cast.

(3) *Vote without a meeting.* All votes will be taken exclusively by vote taken without a meeting. A meeting of Holders and the assumption of the fees by the Issuer for such a meeting will only take place in the circumstances of § 18 para. 4 sentence 2 of the SchVG.

Der Gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Gläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Gläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Gläubiger ermächtigt ist, sind die einzelnen Gläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn, der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der Gemeinsame Vertreter den Gläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des Gemeinsamen Vertreters gelten die Vorschriften des SchVG.

§ 13 BEGEBUNG WEITERER SCHULDVERSCHREIBUNGEN UND ANKAUF

The Holders' Representative shall have the duties and powers provided by law or granted by majority resolution of the Holders. The Holders' Representative shall comply with the instructions of the Holders. To the extent that the Holders' Representative has been authorised to assert certain rights of the Holders, the Holders shall not be entitled to assert such rights themselves, unless explicitly provided for in the relevant majority resolution. The Holders' Representative shall provide reports to the Holders on its activities. The provisions of the SchVG apply with regard to the removal and the other rights and obligations of the Holders' Representative.

§ 13 FURTHER ISSUES AND PURCHASES

(1) *Further Issues.* The Issuer may from time to time, without the consent of the Holders, issue further Notes having the same terms and conditions as the Notes in all respects (or in all respects except for the issue date, interest commencement date and/or issue price) so as to form a single series with the Notes.

(2) *Purchases.* The Issuer may at any time purchase Notes in the open market or otherwise and at any price. Notes purchased by the Issuer may, at the option of the Issuer, be held, resold or surrendered to the Principal Paying Agent for cancellation.

TAXATION

The following is a general description of certain tax considerations relating to the Notes in Germany and Luxembourg. It does not purport to be a complete analysis of all tax considerations relating to the Notes. In particular, this description does not consider any specific facts or circumstances that may apply to a particular purchaser. This description is based on the laws of the Federal Republic of Germany and Luxembourg currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

PROSPECTIVE PURCHASERS OF NOTES SHOULD CONSULT THEIR TAX ADVISERS AS TO THE CONSEQUENCES, UNDER THE TAX LAWS OF THE COUNTRY IN WHICH THEY ARE RESIDENT FOR TAX PURPOSES AND UNDER THE TAX LAWS OF GERMANY AND LUXEMBOURG OF ACQUIRING, HOLDING AND DISPOSING OF NOTES AND RECEIVING PAYMENTS OF PRINCIPAL, INTEREST AND OTHER AMOUNTS UNDER THE NOTES. THE INFORMATION CONTAINED WITHIN THIS SECTION IS LIMITED TO TAXATION ISSUES, AND PROSPECTIVE INVESTORS SHOULD NOT APPLY ANY INFORMATION SET OUT BELOW TO OTHER AREAS; INCLUDING (BUT NOT LIMITED TO) THE LEGALITY OF TRANSACTIONS INVOLVING THE NOTES.

Federal Republic of Germany

Income tax

Tax Residents

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge thereon plus church tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Notes) and, in general, capital gains.

Taxation if the Notes are held as private assets (*Privatvermögen*)

In the case of German tax-resident individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as private assets, the following applies:

– Income

Payments of interest on the Notes qualify as taxable income from capital investments (*Einkünfte aus Kapitalvermögen*) pursuant to section 20 para 1 no 7 German Income Tax Act (*Einkommensteuergesetz -"ITA"*).

Capital gains / capital losses realised upon sale of the Notes, computed as the difference between the acquisition costs and the sales proceeds reduced by expenses directly and factually related to the sale, qualify as (negative) income from capital investments. Losses from the sale of the Notes can only be offset against other income from capital investments and if there is not sufficient other positive income from capital investments, carried forward in subsequent assessment periods. If the Notes are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in einer Kapitalgesellschaft*) rather than sold, such transaction is as a rule treated like a sale.

– Taxation of income

Income from capital investments is taxed at a separate tax rate for income from capital investments (*gesonderter Steuertarif für Einkünfte aus Kapitalvermögen*), which is 26.375 per cent. (including solidarity surcharge (*Solidaritätszuschlag*)) plus, if applicable, church tax. When computing the income from capital investments, the saver's lump sum amount (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 in the case of jointly assessed husband and wife) will be deducted. The deduction of the actual income related expenses, if any, is excluded. The taxation of income from capital investments shall take place mainly by way of levying withholding tax (please see below). If and to the extent German withholding tax has been levied, such withholding tax shall, in principle, become definitive and replace the investor's income taxation. If no withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the investor is nevertheless obliged to file a tax return, and the income from capital investments will then be taxed within the assessment procedure. However, the separate tax rate for income from capital investments applies in most cases also within

the assessment procedure. In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate.

– German withholding tax (*Kapitalertragsteuer*)

With regard to income from capital investments, German withholding tax (*Kapitalertragsteuer*) will be levied if the Notes are held in a custodial account which the investor maintains with a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank (a "**German Disbursing Agent**"). The tax base is, in principle, equal to the taxable income as set out above. However, in the case of capital gains, if the acquisition costs of the Notes are not proven to the German Disbursing Agent, withholding tax is applied to 30 per cent. of the proceeds from the redemption or sale of the Notes. When computing the tax base for withholding tax purposes, the German Disbursing Agent may as a rule deduct any negative income from capital investments (other than stock) in the same calendar year or unused negative income from capital investments in previous calendar years.

German withholding tax will be levied at a flat withholding tax rate of 26.375 per cent. (including solidarity surcharge) plus, if applicable, church tax.

No German withholding tax will be levied if the investor filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the income from capital investments does not exceed the maximum exemption amount shown on the withholding tax exemption certificate. Currently, the maximum exemption amount is EUR 801 (EUR 1,602 in the case of jointly assessed husband and wife). Similarly, no withholding tax will be levied if the investor has submitted to the German Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office.

Taxation if the Notes are held as business assets (*Betriebsvermögen*)

In the case of German tax-resident corporations or individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as business assets, interest payments and capital gains will be subject to corporate income tax or income tax, as the case may be, (in each case plus 5.5 per cent. solidarity surcharge thereon), trade tax, if applicable, and church tax, if applicable.

The provisions regarding German withholding tax apply, in principle, as set out above in relation to private investors. However, investors holding the Notes as business assets cannot file a withholding tax exemption certificate with the German Disbursing Agent. German tax-resident corporations and other German tax-resident business investors are in essence not subject to German withholding tax on gains from the redemption or sale of the Notes, subject to certain formalities.

Any withholding tax levied is credited as prepayment against the German (corporate) income tax amount. If the tax withheld exceeds the respective (corporate) income tax amount, the difference will be refunded within the tax assessment procedure.

Non-residents

Persons who are not tax resident in Germany are not subject to tax with regard to income from the Notes unless (i) the Notes are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the investor or (ii) the income from the Notes qualifies for other reasons as taxable German source income. If a non-resident person is subject to tax with its income from the Notes, in principle, similar rules apply as set out above with regard to German tax resident persons (please see above).

Inheritance and Gift Tax

Inheritance or gift taxes with respect to any Note will, in principle, arise under German law if, in the case of inheritance tax, either the decedent or the beneficiary or, in the case of gift tax, either the donor or the donee is a resident of Germany or if such Note is attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed. In addition, certain German expatriates will be subject to inheritance and gift tax.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

Luxembourg

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Notes can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to:

- (i) the application of the Luxembourg laws of 21 June, 2005 implementing the European Union Savings Directive (Council Directive 2003/48/EC) and several agreements concluded with certain dependent or associated territories and providing for the possible application of a withholding tax (35 per cent. since 1 July 2011) on interest paid to certain non Luxembourg resident investors (individuals and certain types of entities called "residual entities") in the event of the Issuer appointing a paying agent in Luxembourg within the meaning of the above-mentioned directive (see section "*EU Savings Directive*" below) or agreements;
- (ii) the application as regards Luxembourg resident individuals of the Luxembourg law of 23 December 2005 which has introduced a 10 per cent. withholding tax on savings income (i.e. with certain exemptions, savings income within the meaning of the Luxembourg laws of 21 June 2005 implementing the EU Savings Directive (Council Directive 2003/48/EC)).

Pursuant to the law of 23 December 2005 as amended by the law of 17 July 2008, Luxembourg resident individuals can opt to self declare and pay a 10 per cent. tax (the "**Levy**") on interest payments made by paying agents located in a Member State of the European Union other than Luxembourg, a Member State of the European Economic Area or in a State or territory which has concluded an agreement directly relating to the EU Savings Directive (Council Directive 2003/48/EC) on the taxation of savings income.

The 10 per cent. withholding tax as described above or the Levy are final when Luxembourg resident individuals are acting in the context of the management of their private wealth.

Responsibility for the withholding of tax in application of the above-mentioned Luxembourg laws of 21 June 2005 and 23 December 2005 is assumed by the Luxembourg paying agent within the meaning of these laws and not by the Issuer.

EU Savings Directive

Under the EC Council Directive 2003/48/EC ("**EU Savings Directive**"), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments. The same transitional period as for Luxembourg and Austria applies to Belgium. However, by Royal Decree dated 27 September 2009 and published in the Belgian Official Gazette on 1 October 2009, the Belgian State elected to abandon the transitional withholding system and to provide information in accordance with the EU Savings Directive as from 1 January 2010. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the EU Savings Directive, which may, if implemented, amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers.

SUBSCRIPTION, SALE AND OFFER OF THE NOTES

General

BNP Paribas, Commerzbank Aktiengesellschaft, ING Bank N.V. and UniCredit Bank AG (together, the "**Joint Lead Managers**") will, pursuant to a subscription agreement to be signed on or about 21 March 2012 (the "**Subscription Agreement**"), agree to subscribe or procure subscribers for the Notes to be issued by the Issuer. The Joint Lead Managers will be entitled, under certain circumstances, to terminate the agreement reached with the Issuer. In such event, no Notes will be delivered to investors. Furthermore, the Issuer will agree to indemnify the Joint Lead Managers against certain liabilities in connection with the offer and sale of the Notes.

The commission payable to the Joint Lead Managers in connection with the offering, placement and subscription of the Notes will be up to 0.7 per cent. of the aggregate principal amount of the Notes.

The Joint Lead Managers or their affiliates have provided from time to time, and expect to provide in the future, investment services to the Issuer and its affiliates, for which the Joint Lead Managers or their affiliates have received or will receive customary fees and commissions.

There are no interests of natural and legal persons other than the Issuer involved in the issue, including conflicting ones that are material to the issue.

Offer of the Notes

Public offer, offer period and determination of pricing details

The Notes will be offered to institutional investors and retail investors in compliance with applicable public offer restrictions by the Joint Lead Managers during an offer period which will commence not earlier than 15 March 2012 and will be open until 23 March 2012 subject to a shortening or extension agreed by the Issuer and the Joint Lead Managers. Should the Issuer and the Joint Lead Managers determine any shortening or extension of the offer period (e.g. due to changing market conditions), such changes will be published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

The Notes may be offered to the public in each of Germany, Luxembourg, Austria and The Netherlands following the effectiveness of the notification of the Prospectus by the CSSF according to Article 18 of the Prospectus Directive.

The aggregate principal amount of Notes to be issued will be determined on the basis of the number and volume of orders received which offer a yield acceptable to the Issuer. The Issue Price and the interest rate will be determined as described in "Method of determination of the pricing details" below on the pricing date which is expected to be on or about 15 March 2012 (the "**Pricing Date**"). Such information as well as the aggregate principal amount, the issue proceeds and the yield will be set out in a notice (the "**Pricing Notice**") which will be filed with the CSSF and published on the website of the Luxembourg Stock Exchange (www.bourse.lu) on or after the Pricing Date and prior to the Issue Date. Any onsale will be subject to market conditions.

Conditions of the offer

There are no conditions to which the offer is subject. In particular, there is no minimum or maximum amount of Notes required to be purchased. Investors may place offers to purchase Notes in any amount.

Subscription rights for the Notes will not be issued. Therefore, there are no procedures in place for the exercise of any right of pre-emption, the negotiability of subscription rights and the treatment of subscription rights not exercised.

Any offer of Notes to investors will be made through the information system Bloomberg or any other commonly used information systems.

Technical details of the offer

During the offer period investors may submit offers to purchase Notes to the Joint Lead Managers using the information system Bloomberg or any other commonly used information systems. In the case of an order prior to the determination of the pricing details, the investors shall specify at which price they would be prepared to purchase which amount of Notes. Following determination and notification of the pricing details the Joint Lead

Managers will offer the Notes upon request through banking institutions in Germany, Luxembourg, Austria and The Netherlands.

Method of determination of the pricing details

The Issue Price and the interest rate will be determined on the Pricing Date on the basis of a yield which is determined by adding a credit spread (the "**Pricing Credit Spread**") to the level of the Midswaps (as defined below) at the time of pricing. The Pricing Credit Spread will be fixed on the basis of the orders received and confirmed by the Joint Lead Managers. The level of the Midswaps will be determined as the average yield of the bid and ask prices of Interest-Swap Transactions ("**Midswaps**") with a maturity similar to the maturity of the Notes shown on Reuters page ICAPEURO and/or Bloomberg page ICAE1 or on any other screen page which is conventionally used to price Eurobond transactions at the time of pricing.

The resulting yield will be used to determine the Issue Price (which is expected to be less than par) and the rate of interest (which is expected to be a percentage figure which can be evenly divided by 1/8 of a full per cent. and which will be correspondingly higher if a higher Issue Price is determined and which will be correspondingly lower if a lower Issue Price is determined), all to correspond to the yield which reflects the level of the Midswaps and the Pricing Credit Spread. In the event that the figures for the relevant Midswaps will not be shown as set out above, the Midswaps will be determined in a manner which banks and other institutional market participants apply at that time.

Confirmation of offers placed by, and allotments to, investors

Each investor who has submitted an order in relation to the Notes and whose order is accepted by the Joint Lead Managers will receive a confirmation by electronic mail, fax or through commonly used information systems setting out its respective allotment of Notes. Before an investor receives a confirmation from the Joint Lead Managers that its offer to purchase Notes has been accepted, the investor may reduce or withdraw its purchase order.

Delivery of the Notes to investors

Following the determination of the pricing details and confirmation which orders have been accepted and which amounts have been allotted to particular investors, delivery and payment of the Notes will be made within eight business days after the date of pricing of the Notes and the confirmation of the allotment to investors. The Notes so purchased will be delivered via book-entry through the Clearing Systems (see "*GENERAL INFORMATION – Clearing and Settlement*") and their depository banks against payment of the Issue Price.

Costs and expenses relating to the offer

The Issuer will not charge any costs, expenses or taxes directly to any investor. Investors must, however, inform themselves about any costs, expenses or taxes in connection with the Notes which are generally applicable in their respective country of residence, including any charges their own depository banks charge them for purchasing or holding securities.

Selling Restrictions

General

Each Joint Lead Manager has acknowledged that other than explicitly mentioned in this Prospectus no action is taken or will be taken by the Issuer in any jurisdiction that would permit a public offering of the Notes, or possession or distribution of any offering material relating to them, in any jurisdiction where action for that purpose is required.

Each Joint Lead Manager has represented and agreed that it will comply with all applicable laws and regulations in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes any offering material relating to them.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Joint Lead Manager has represented, warranted and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are subject to the offering contemplated by this Prospectus to the public in that Relevant Member State prior to the

publication of a prospectus in relation to the Notes which has been approved by the competent authority in that Relevant Member State in accordance with the Prospectus Directive or, where appropriate, published in another Relevant Member State and notified to the competent authority in that Relevant Member State in accordance with Article 18 of the Prospectus Directive, provided that the Issuer has consented in writing to the use of the Prospectus for any such offers, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State at anytime:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) to fewer than 100, or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the Joint Lead Managers; or
- (c) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive;

provided that no such offer of the Notes shall require the Issuer or Joint Lead Managers to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement this Prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, and the expression "**Prospectus Directive**" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State, and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU.

United States and its Territories

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Manager represents that it has not offered or sold, and agrees that it will not offer or sell, any Notes constituting part of its allotment within the United States except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, neither it, its affiliates, nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to the Notes. Terms used in this paragraph have the meanings given to them by Regulation S.

In addition, each Manager has represented, warranted and agreed that, except to the extent permitted under U.S. Treasury Regulations section 1.163-5(c)(2)(i)(D) (the "D Rules"):

- (a) it has not offered or sold Notes, and during the restricted period shall not offer or sell Notes, directly or indirectly to a United States person or to a person who is within the United States or its possessions, and it has not delivered and shall not deliver within the United States or its possessions Notes that are sold during the restricted period;
- (b) it has and throughout the restricted period it shall have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that the Notes may not be offered or sold during the restricted period to a United States person or to a person who is within the United States or its possessions, except as permitted by the D Rules;
- (c) if it is a United States person, it is acquiring the Notes for purposes of resale in connection with their original issuance and not for the purpose of resale directly or indirectly to a United States person or a person within the United States or its possessions and it shall acquire or retain Notes for its own account only in accordance with the requirements of U.S. Treasury Regulations section 1.163-5(c)(2)(i)(D)(6);
- (d) with respect to each affiliate that acquires Notes from it for the purpose of offering or selling such Notes during the restricted period, it either (i) repeats and confirms the representations contained in clauses (a), (b) and (c) of this paragraph on behalf of such affiliate or (ii) agrees that it shall obtain from such affiliate for the benefit of the Issuer the representations contained in clauses (a), (b) and (c) of this paragraph; and

- (e) it shall obtain for the benefit of the Issuer the representations and agreements contained in clauses (a), (b), (c) and (d) of this paragraph from any person other than its affiliate with whom it enters into a written contract, as defined in U.S. Treasury Regulations section § 1.163-5(c)(2)(i)(D)(4), for the offer or sale of Notes during the restricted period.

Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury Regulations thereunder, including the D Rules.

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) could violate the registration requirements of the Securities Act.

United Kingdom of Great Britain and Northern Ireland

Each Joint Lead Manager has represented and agreed that,

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000, as amended ("FSMA")) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
