

Landesbank Baden-Württemberg

(a public law institution of the State of Baden-Württemberg in the Federal Republic of Germany)

as Issuer

**Euro 50,000,000,000 Programme for the
Issuance of Debt Securities**

Application has been made to the Luxembourg Commission de Surveillance du Secteur Financier (the "CSSF"), in its capacity as competent authority in Luxembourg for the purpose of the Luxembourg law dated 10 July 2005 on prospectuses for securities (the "Luxembourg Prospectus Law"), which implements Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 (as amended, including by Directive 2010/73/EU of the Parliament and of the Council of 24 November 2010) (the "Prospectus Directive") to approve this base prospectus (as supplemented from time to time, the "Base Prospectus") as a base prospectus issued in compliance with the Prospectus Directive and the relevant implementing provisions of the Luxembourg Prospectus Law for the purpose of giving information with regard to the issue of Securities (as defined below). This Base Prospectus comprises a base prospectus for the purposes of Article 5.4 of the Prospectus Directive. With regard to Securities which will neither be listed on the Luxembourg Stock Exchange and traded on the regulated market of the Luxembourg Stock Exchange nor be offered in Luxembourg, the CSSF is not the competent authority for such issue of Securities.

By approving the Base Prospectus pursuant to article 7 (7) of the Luxembourg Prospectus Law, the CSSF does not assume any responsibility as to the economic and financial soundness of any issue of Securities under the Programme and the quality or solvency of the Issuer.

Landesbank Baden-Württemberg ("LBBW", the "Bank" or the "Issuer" or, LBBW together with its consolidated subsidiaries, "LBBW Group" or "Group") may issue (i) instruments under English law ("Instruments"), Pfandbriefe under German law in bearer (*Inhaberpfandbriefe*) or in registered form (*Namenspfandbriefe*) (together, the "Pfandbriefe"), and bearer notes under German law (*Inhaberschuldverschreibungen*) ("Notes") when acting through its head office and (ii) Instruments when acting through its branches in London and Singapore and New York and the applicable Final Terms or, as the case may be, the Drawdown Prospectus (in each case as defined below) will set out in its respective title through which branch LBBW is acting for such issue, or whether LBBW is acting through its head office for such issue. **LBBW, acting through its New York branch, shall not issue any Instruments in bearer form. This restriction does not relate to any Instruments in registered form issued by LBBW, acting through its New York branch or any Instruments issued by LBBW, acting through its head office or Singapore or London Branch.**

As used herein, the Instruments, Pfandbriefe and Notes shall together be the "Securities" and each, a "Security" unless the context requires otherwise and such term shall be construed in the context of such Securities as the Issuer may issue under this Programme.

Application has been made for the Securities to be admitted during the period of twelve months after the date hereof to listing on the official list of the Luxembourg Stock Exchange and to trading on the regulated market (*Bourse de Luxembourg*) of the Luxembourg Stock Exchange and to listing on the regulated market of the Stuttgart Stock Exchange (each a "Regulated Market"). Each Regulated Market is a regulated market for the purpose of Directive 2004/39/EC on Markets in Financial Instruments. Furthermore, application may be made for Pfandbriefe and Notes to be admitted to trading on the regulated market of the Frankfurt Stock Exchange. The Programme also provides for Securities (i) not to be admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system; or (ii) to be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems as the Issuer and the relevant Dealer(s) (as defined below) may agree and as specified in the applicable Final Terms or, as the case may be, the Drawdown Prospectus.

The minimum denomination of each Security admitted to trading on an exchange located in the European Economic Area ("EEA") or offered to the public in a member state of the EEA (each an "EEA Member State" or the "EEA Member State(s)") in circumstances which require the publication of a prospectus under the Prospectus Directive will be at least EUR 1,000 (or, if the Securities are denominated in a currency other than Euro, the equivalent in such other currency).

The Securities have not and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act") or the securities laws of any state or other jurisdiction of the United States. The Securities are being offered and sold in the United States only to qualified institutional buyers in accordance with Rule 144A under the Securities Act ("Rule 144A"), and outside the United States to or for the account or benefit of non-U.S. persons in accordance with Regulation S. See "Notice To Purchasers And Holders of Restricted Securities And Transfer Restrictions" for additional information about eligible offerees and transfer restrictions. Prospective investors should have regard to the Risk Factors described under the section headed "Risk Factors" on page 62.

To the best of the knowledge of LBBW who has taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

LBBW has confirmed to the dealers named under "*Subscription and Sale*" (together, the "**Dealers**") that this Base Prospectus is true, accurate and complete in all material respects and not misleading; that there are no other facts in relation to the information contained or incorporated by reference herein the omission of which would, in the context of the issue of the Securities, make any statement herein misleading in any material respect; and that all reasonable enquiries have been made to verify the foregoing. LBBW has further confirmed to the Dealers that this Base Prospectus when read together with relevant final terms (each, the "**Final Terms**") or a drawdown prospectus (each, the "**Drawdown Prospectus**") referred to herein contains all such information as investors and their professional advisers would reasonably require, and reasonably expect to find, for the purpose of making an informed assessment of the assets and liabilities, financial position, profits and losses, and prospects of the Issuer and of the rights attaching to the relevant Securities.

LBBW has not authorised the making or provision of any representation or information regarding itself or the Securities other than as contained or incorporated by reference in, or is consistent with any such representation or any such information in, this Base Prospectus, the Dealership Agreement (as defined herein) or any Final Terms or Drawdown Prospectus or as approved or provided for such purpose by the Issuer or (in the case of the provision of any information regarding the Issuer or the Securities) as is already in the public domain. Any such representation or information must not be relied upon as having been authorised by the Issuer, the Dealers or any of them.

Save for LBBW, no person has authorised the whole or any part of this Base Prospectus. No representation or warranty is made or implied by the Dealers (acting in their capacity as such) or any of their respective affiliates, and neither the Dealers (acting in their capacity as such) nor any of their respective affiliates makes any representation or warranty or accepts any responsibility, as to the accuracy or completeness of the information contained herein.

This Base Prospectus should be read and understood in conjunction with any supplement hereto and with any other documents incorporated by reference herein and in relation to any Series and Tranche of Securities, should be read and construed together with the Final Terms or Drawdown Prospectus.

Each person contemplating making an investment in the Securities must make its own investigation, analysis and appraisal of the financial condition, creditworthiness and other affairs of the Issuer and its own determination of the suitability of any such investment, with particular reference to its own investment objectives and experience, and any other factors which may be relevant to it in connection with such investment.

Neither the delivery of this Base Prospectus or any Final Terms or Drawdown Prospectus nor the offering, sale or delivery of any Security shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the prospects or financial or trading position of the Issuer since the date hereof or, as the case may be, the date upon which this Base Prospectus has been most recently supplemented or the balance sheet date of the most recent financial statements which are deemed to be incorporated into this document by reference or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Base Prospectus, any Final Terms and Drawdown Prospectus and the offering, sale and delivery of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus and any Final Terms or Drawdown Prospectus comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Securities and on the distribution of

this Base Prospectus or any Final Terms or Drawdown Prospectus and other offering material relating to the Securities see "*Subscription and Sale*" and "*Notice to Purchasers and Holders of Restricted Securities and Transfer Restrictions*". In particular, the Securities have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and the Securities may be in bearer form, which are subject to U.S. tax law requirements. Subject to certain exceptions, Securities may not be offered, sold or delivered within the United States or to or for the account or benefit of U.S. persons. Securities may be offered and sold outside the United States in reliance on Regulation S and in the United States to "qualified institutional buyers" ("**QIBs**") (as defined in Rule 144A) in reliance on Rule 144A. Prospective purchasers are hereby notified that sellers of the Instruments may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A. Neither this Base Prospectus nor any Final Terms or Drawdown Prospectus may be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation. If you purchase the Securities, you will be deemed to have made certain acknowledgements, representations and warranties as detailed under "*Notice to Purchasers and Holders of Restricted Securities and Transfer Restrictions*".

The Registered Instruments are subject to restrictions on transferability and resale and may not be transferred or resold except as permitted under the Securities Act and applicable securities laws of any other jurisdiction pursuant to registration or exemption therefrom. Prospective purchasers should be aware that they may be required to bear financial risk on an investment in the Registered Instruments for an indefinite period of time. See "*Notice to Purchasers and Holders of Restricted Securities and Transfer Restrictions*".

The Issuer and the Dealers do not represent that this Base Prospectus may be lawfully distributed, or that Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any jurisdiction other than the Passport Countries (as defined below), or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer or the Dealers which would permit a public offering of the Securities or distribution of this Base Prospectus in any jurisdiction, other than Luxembourg and the Passport Countries, where action for that purpose is required. Accordingly, the Securities may not be offered or sold, directly or indirectly, and neither this Base Prospectus, any document incorporated by reference, nor any advertisement or other offering material may be distributed or published in any jurisdiction except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented and agreed to the same. Persons into whose possession this Base Prospectus or any Securities may come must inform themselves about, and observe any such restrictions on the distribution of this Base Prospectus and the offering and sale of Securities. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Securities in the United States and the EEA (see "*Subscription and Sale*"). Neither the Issuer nor any Dealer makes any representation to you that the Securities are a legal investment for you.

Neither the Issuer nor any of the Dealers has authorised the making of any Public Offer of any Securities by any person in any circumstances and such person is not permitted to use this Base Prospectus in connection with its offer of any Securities unless (1) the offer is made by an Authorised Offeror (as defined below) or (2) the offer is otherwise made in circumstances falling within an exemption from the requirement to publish a prospectus under the Prospectus Directive and any other applicable law. Any such unauthorised offers are not made on behalf of the Issuer, any Dealer or any Authorised Offeror and none of the Issuer, any Dealer or any Authorised Offeror has any responsibility or liability for such offers or the actions of any person making such offers.

Important - EEA Retail Investors - If the Final Terms in respect of any Securities include a legend entitled "- Prohibition of Sales to EEA Retail Investors", the Securities are not intended, from 1 January 2018, to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more)

of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**") or (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "**Prospectus Directive**"). Consequently, no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling of the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY SECURITIES FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF THE SECURITIES TO AN INVESTOR BY AN AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING AS TO PRICE, ALLOCATION, SETTLEMENT ARRANGEMENTS AND ANY EXPENSES OR TAXES TO BE CHARGED TO THE INVESTOR (THE "TERMS AND CONDITIONS OF THE PUBLIC OFFER"). THE ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH INVESTORS (OTHER THAN DEALERS) IN CONNECTION WITH THE OFFER OR SALE OF THE SECURITIES AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE TERMS AND CONDITIONS OF THE PUBLIC OFFER SHALL BE PROVIDED TO INVESTORS BY THAT AUHTORISED OFFEROR AT THE RELEVANT TIME. NONE OF THE ISSUER, ANY OF THE DEALERS OR OTHER AUTHORISED OFFERORS HAS ANY RESPONSIBILITY OR LIABILITY FOR SUCH INFORMATION.

THE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE U.S. SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER U.S. REGULATORY AUTHORITY, AND NONE OF THE FOREGOING AUTHORITIES HAVE PASSED UPON OR ENDORSED THE MERITS OF THE OFFERING OF SECURITIES OR THE ACCURACY OR THE ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

Neither this Base Prospectus nor any Final Terms or Drawdown Prospectus constitutes an offer or an invitation by or on behalf of the Issuer, the Arranger or any Dealer to subscribe for or purchase any Securities; and this Base Prospectus, any Final Terms or Drawdown Prospectus or any information supplied in connection therewith or in connection with any Securities should not be considered as a recommendation by or on behalf of the Issuer, the Arranger, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms or Drawdown Prospectus or such information should subscribe for or purchase any Securities. Each recipient of this Base Prospectus or any Final Terms or Drawdown Prospectus shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

All references in this Base Prospectus to "**CHF**" and "**Swiss Francs**" are to the lawful currency of Switzerland, references to "**dollars**", "**USD**", "**U.S. dollars**", "**U.S.\$**" "**United States dollars**" or "**\$**" are to the currency of the United States of America, references to "**Sterling**" and "**£**" refer to the currency of the United Kingdom, references to the "**Euro**" or "**EUR**" or "**€**" are to the single currency which was introduced at the start of the third stage of the European Economic and Monetary Union pursuant to the Treaty establishing the European Community, as amended (the "**Treaty**").

References in this Base Prospectus to "**Passported Countries**" shall mean the EEA Member State(s) whose competent authorities have received from the CSSF: (i) a copy of the Base Prospectus; (ii) a certificate of approval pursuant to Article 18 of the Prospectus Directive attesting that the Base

Prospectus has been drawn up in accordance with the Prospectus Directive; and (iii) if so required by the relevant EEA Member State(s), a translation of the summary of this Base Prospectus.

AVAILABLE INFORMATION

To permit compliance with Rule 144A under the Securities Act in connection with resale of Securities that are "restricted securities" (as defined in Rule 144(a)(3) under the Securities Act), the Issuer will, at its expense, furnish upon the request of a holder of such Securities or of a beneficial owner of an interest therein, to such holder or beneficial owner or to a prospective purchaser designated by such holder or beneficial owner, the information required to be delivered under Rule 144A(d)(4) under the Securities Act and will otherwise comply with the requirements of Rule 144A(d)(4) under the Securities Act, if at the time of such request, the Issuer is not a reporting company under Section 13 or Section 15(d) of the United States Securities Exchange Act of 1934, as amended (the "**Exchange Act**"), or exempt from reporting pursuant to Rule 12g3-2(b) under the Exchange Act.

STABILISATION

In connection with the issue of any Tranche of Securities, the Dealer or Dealers (if any) named as the stabilisation manager(s) (each a "Stabilisation Manager" and together, the "Stabilisation Manager(s)") (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms or Drawdown Prospectus may over allot Securities or effect transactions with a view to supporting the market price of the Securities at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Securities is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Securities and 60 days after the date of the allotment of the relevant Tranche of Securities. Any stabilisation action or over-allotment shall be conducted in accordance with all applicable laws and rules by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)).

FORWARD LOOKING STATEMENTS

This Base Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*should*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Base Prospectus containing information on or relating to, among other things, future earning capacity, plans and expectations regarding the Issuer's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Base Prospectus are based on current estimates and assumptions that the Issuer makes to the best of its present knowledge. These forward-looking statements are subject to risks, uncertainties, assumptions and other factors which could cause actual results, including the Issuer's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. The business of the Issuer is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Base Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the following sections of this Base Prospectus: "*Summary of the Base Prospectus*", "*Risk Factors*", "*Description of LBBW*" and "*Business of LBBW*". The sections "*Risk Factors*", "*Description of LBBW*" and "*Business of LBBW*" include more detailed descriptions of factors that might have an impact on the Issuer's business and the markets in which it operates.

In light of these risks, uncertainties and assumptions, future events described in this Base Prospectus may not occur. In addition, neither the Issuer nor the Arranger or the Dealers assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

Element

Section D – Risks

D.2 Key information on the key risks that are specific to the Issuer

Market Price Risk

Market price risk refers to potential losses in portfolio value caused by market factors including changes in interest rates, the price of shares, credit spreads, foreign currencies, commodities and market volatilities.

Counterparty Risk

The umbrella term counterparty risk describes the loss potential resulting from the fact that business partners may no longer be able to fully meet their contractual payment obligations. Counterparty risk may occur both from direct contractual relationships (e.g. granting loans, buying a security) and indirectly, e.g. from hedging obligations (especially issuing guarantees, selling hedging via credit derivatives).

Liquidity Risk

The main risk for LBBW Group's funding potential and therefore its liquidity position is a potential loss in investor confidence and consequently an erosion of its funding base. LBBW Group's liquidity could be materially adversely affected by factors LBBW Group cannot control, which could restrict LBBW Group's access to the capital markets and limit its ability to obtain funding on acceptable terms.

Risk of a reduction in LBBW Groups's credit ratings

A downgrade of LBBW Group's credit ratings could have a detrimental impact on LBBW Group's relationship with its investors and customers in particular to the prospects and costs of funding.

Operational Risk

LBBW Group is subject to operational risks. LBBW Group defines operational risks (OpRisk) as the risk of losses arising due to the unsuitability or failure of internal processes and systems, people, or due to external events. This definition also includes legal risks.

Investment Risks

Besides the risk of a potential decline in value as the result of default, there is also the risk that LBBW will receive an insufficient return or no return at all on its investments which risk corresponds to the general book value or market value risk due to the focus on capitalized income value in the valuation of equity investments.

Real Estate Risks

Real estate risks are defined as potential negative changes in the value of LBBW Group's own real estate holdings due to deterioration of the general real estate market or deterioration in the particular attributes of an individual property.

Development Risks

Development risks are defined as the bundle of risks that typically arise when implementing commercial and residential project developments. The risks in this field mainly arise from planning and approval, the projected construction costs and deadline, and especially from letting and selling. Additional risks, such as the credit risk on the part of partners, the implementation of decisions regarding the partners, also apply if project developments are implemented in partner projects. The occurrence of these risks may also result in the forecast return not being generated, the invested capital not being recovered in full – or not at all in extreme cases – or the need for further equity injections, in case it is not non-recourse financing.

Other Risk Categories

Furthermore, there are other risk categories, such as reputation risks, pension risks, model risks and business risks.

Risks relating to the Acquisition of Sachsen LB

Depending on FX development, losses arising from the portfolio transferred to Sealink Funding Ltd. could exceed the guarantees granted by the Free State of Saxony and the State of Baden-Württemberg for hedging LBBW's financing of Sealink.

Risks relating to regulatory changes or enforcement initiatives could adversely affect the business of the Issuer

Banking and financial services laws, regulations and policies may change at any time in ways which have an adverse effect on the Issuer's business, results of operation or financial condition and may materially affect the way in which the Issuer conducts business, the products or services it may offer and the value of its assets. In addition, regulatory authorities have the power to bring administrative, judicial or enforcement actions against the Issuer, which could have a material adverse effect on the Issuer's business, results of operations or financial condition.

Stress tests may adversely affect the business of the Issuer

The Issuer has been and, in the future, may be subject to stress testing exercises. In 2016, the European Banking Authority ("EBA") and the European Central Bank ("ECB") conducted an EU wide stress test exercise. LBBW Group was one of the 51 banking groups that were subject to this stress test exercise. Though, different from previous stress tests, no capital thresholds have been defined in this

regard, the respective competent authorities may use the stress test results as an input to the Supervisory Review and Evaluation Process ("**SREP**") and require the related bank to comply with additional prudential requirements on such basis. If the Issuer's capital was to fall below the predefined threshold of a given stress test at the end of the stress test period and/or other deficiencies are identified in connection with a stress test exercise, remedial action may be required to be taken by the Issuer, including potentially requirements to strengthen the capital situation of the Issuer and/or other supervisory interventions. The risks arising from the aforementioned aspects could have a material adverse effect on the Issuer's business, results of operations or financial condition.

Risks arising from the Single Supervisory Mechanism (SSM) and the Single Resolution Fund (SRF)

Since November 2014, the Issuer is a "significant" credit institution under the SSM. With a view to fulfill the supervisory tasks assumed by it, the ECB is empowered, in particular as part of the SREP, to *inter alia*, analyse the business model, internal control arrangements, risk governance as well as capital and liquidity adequacy models of significant credit institutions and to require those to comply with own funds and liquidity adequacy requirements which may exceed regular regulatory requirements to take early correction measures to address potential problems. The new supervisory regime and the SSM's new supervisory procedures and practices are not yet fully established and/or disclosed and it is expected that they will be subject to constant scrutiny, change and development. Procedures within the SSM and other regulatory initiatives could change interpretation of regulatory requirements applicable and lead to additional regulatory requirements, increased cost of compliance and reporting for the Issuer.

Further, pursuant to the Regulation (EU) No. 806/2014 of 15 July 2014 (the "**SRM Regulation**"), the so-called single resolution mechanism ("**SRM**") was enacted. The SRM has created a single resolution fund (the "**SRF**") which may in certain circumstances and subject to various conditions provide medium term funding for potential resolution measures in respect of any bank that is subject to the SRM.

The funding for the SRF is being raised through contributions from credit institutions, such as the Issuer, which may constitute a substantial financial burden and/or have other negative effects on the business, results from normal operations or financial condition.

Holders are exposed to risks in connection with own funds and other capital requirements such as MREL

In order to cover potential losses resulting from the realisation of risks, the Issuer is required to maintain sufficient own funds at any time in accordance with regulatory requirements. Banks are required to maintain a minimum ratio of Tier 1 capital to the Bank's risk-weighted

assets of 6 per cent. and a minimum ratio of Common Equity Tier 1 capital to risk-weighted assets of 4.5 per cent. The minimum total capital ratio of own funds to the Bank's risk-weighted assets is 8 per cent. The German Banking Act also requires banks to build up a mandatory capital conservation buffer and authorises the Bundesanstalt für Finanzdienstleistungsaufsicht ("**BaFin**") to require banks to build an additional countercyclical buffer during periods of high credit growth. Since January 2016, other systemically important institutions ("**O-SIIs**") may become subject to an additional capital buffer of up to 2% of risk-weighted assets ("**RWA**"). Further, the European Single Resolution Board (the "**Board**") will set an institution-specific ratio for the regulatory capital and eligible liabilities to be maintained at as a minimum for institutions directly supervised by the ECB and therefore for the Issuer (Minimum Requirements on Eligible Liabilities – "**MREL**"). Own funds requirements may require the Issuer to raise own funds instruments, increase other forms of capital or reduce its risk-weighted assets to a greater extent which in turn may result in an adverse effect on the Issuer's long term profitability. As a consequence, this may potentially have an adverse effect on an investor's economic or legal position under the Securities.

Risk relating to Liquidity Requirements and Leverage Ratio

In addition, further regulatory requirements are envisaged to be implemented such as the Liquidity Coverage Ratio ("**LCR**"), the Net Stable Funding Ratio ("**NSFR**") and a non-risk-based leverage ratio. The final calibration of the leverage ratio is intended to be completed by 2017 and it is expected that banks will be required to fully comply with the leverage ratio starting in 2018. The introduction of such a legally binding non-risk-based leverage ratio may constrain the Issuer's ability to grow in the future or even require the Issuer to reduce its business volumes.

Continued Changes to Applicable Regulatory Requirements Impacting on the Issuer

The regulatory framework applicable to banks and prudential requirements continues to change. A reliable impact assessment of these ongoing developments is not yet possible. Implementation of such regulatory changes has already resulted in and may continue to increase the cost of compliance for the Issuer and other financial institutions which may affect their results of operations. Ongoing regulatory changes and challenges may require banks to continually review their business models and constantly improve efficiency to be able to ensure sufficient profitability and maintain the ability to build up capital from their own resources.

Governmental and central bank action in response to the financial crisis significantly affects competition and may affect the legal or economic position of investors

In response to the financial markets crisis, there has been significant intervention by governments and central banks

in the financial services sector, *inter alia* in taking direct shareholdings in individual financial institutions and contributions of other forms of capital, taking over guarantees of debt and purchasing distressed assets from financial institutions. The price for the financial instruments of the Issuer could drop and its costs of funding and capital could rise, which could have a material adverse effect on its business, results of operations, or financial condition.

Rights of Holders may be adversely affected by so called resolution measures (including the Bail-in Tool and the power to Write-down and Convert Capital Instruments), the SRM or measures to implement the Banking Recovery and Resolution Directive ("BRRD")

Changes to German law with respect to the BRRD provisions, which are implemented into German law by the German Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz* - "**SAG**") may result in claims for payment of principal, interest or other amounts under the Instruments and/or the Notes being subject to a permanent reduction, including to zero, some other variation of the terms and conditions of the Securities in other aspects or a conversion into one or more instruments that constitute common equity tier 1 capital instruments by intervention of the competent resolution authorities (the so-called "**Bail-in Tool**"). The SAG and the SRM Regulation furthermore provide that the competent resolution authorities have the power to write-down Common Equity Tier 1 capital instruments, Additional Tier 1 capital instruments and Tier 2 capital instruments (the "**Relevant Capital Instruments**" and thereby also including the Subordinated Instruments and Subordinated Notes offered under this Prospectus) or to convert Relevant Capital Instruments into shares or other instruments of ownership of an institution (including any Common Equity Tier 1 capital instruments) – potentially after the legal form of the Issuer has been changed either independently of resolution action, as part of the Bail-in Tool or in combination with any other Resolution Measure, the "**Power to Write-Down and Convert Capital Instruments**". The German legislator has already changed the hierarchy of claims relating to certain German credit institutions in normal insolvency proceedings in light of the BRRD and implemented for a preferential treatment for certain claims of depositors over claims of Holders of the Instruments and/or the Notes and other relevant Securities and it against the background of an ongoing legislative procedure with a draft law proposal dated 23 November 2016 amending the BRRD in this respect it is possible that this hierarchy will be further amended in the short term (potentially also with retroactive effect) including with the result of a subordinated treatment and thereby Holders having a lower ranking as claims of ordinary unsecured non-preferred creditors.

Any preparation or application of resolution measures or early intervention measures by a competent authority towards LBBW or its subsidiaries, or even a different credit institution, irrespective of a direct interference with the creditors' rights, may have a negative effect, for example on

the rating of LBBW and its Subsidiaries, on the pricing of liabilities issued by it or on LBBW and its subsidiaries' ability to refinance itself or its refinancing costs.

Risks arising from potential measures pursuant to the German Act on the Reorganisation of Credit Institutions (*Kreditinstitute-Reorganisationsgesetz* - "**KredReorgG**")

Rights of the Holders may be similarly adversely affected by measures pursuant to *Kreditinstitute-Reorganisationsgesetz*. Procedures under the *Kreditinstitute-Reorganisationsgesetz* can give rise to risks similar to those arising from Resolution Measures under the SRM, the SAG and the BRRD.

Risks in relation to subordination and changes to hierarchy of claims

In transposition of a requirement under the BRRD for member states to give priority to certain deposits, the German legislator has already changed the hierarchy of claims in regular insolvency proceedings and implemented a preferential treatment for certain claims of depositors. Pursuant to Section 46f (5)-(7) of the KWG, certain unsecured and unsubordinated debt instruments of the Issuer rank below the Issuer's other senior liabilities in insolvency or in the event of the imposition of resolution measures, such as the Bail-in Tool, affecting the Issuer. It is not unlikely that the hierarchy of claims will be further amended (also with retroactive effect) including with the result of a subordinated treatment and thereby allocating claims in relation to Securities to have a lower and subordinated ranking in comparison to claims of ordinary unsecured non-preferred creditors.

It is not unlikely that the hierarchy of claims may be further amended in the future (also with retroactive effect). This may also involve risks relating to such subordination (or the uncertainty whether the subordination applies), such as a negative impact on the market value or the liquidity relating to certain debt instruments and the ability to make use of certain debt instruments for the purposes of (ECB) central bank collateral or for other collateral purposes.

Risks in relation to separation of proprietary trading and other high-risk trading from other banking business

If the Issuer has to separate certain trading activities pursuant to future EU proposals in relation to the Liikanen Report and/or implementation of the *Trennbankengesetz*, the Issuer's risk assumptions or creditworthiness may be fundamentally different. Other negative effects on the business model and/or the profitability of the Issuer or a negative impact on the Issuer's business model which in turn may have a material prejudicial effect on Holders' rights cannot be excluded.

Risks in relation to the sovereign debt crisis

Regulatory and political actions by European governments

in response to the European sovereign debt crisis may not be sufficient to prevent the crisis from spreading or to prevent withdrawal of one or more member countries from the common currency. The withdrawal of any one or more countries from the Euro could have unpredictable consequences on the financial system and the greater economy, potentially leading to decline in business levels, write downs of assets and losses across the Issuer's businesses. The Issuer's ability to protect itself against these risks is limited.

Risks relating to consumer protection and complex derivatives and fiscal laws

Consumer protection requirements and laws and critical jurisprudence towards credit institutions and customer transactions in complex derivatives, as well as changes in the interpretation of fiscal law terms concerning the requirements for deducting capital gains tax may have an adverse effect on the Issuer's business, results of operation or financial condition.

Risks relating to changes in the deposit guarantee schemes

Directive 2014/49/EU on deposit guarantee schemes provides, *inter alia*, for faster repayments. In general, financial means dedicated to the compensation of the depositors in times of stress have to comply with 0.8 per cent of the amount of the covered deposits by 3 July 2024, whereby the calculation of the contributions has to be made in due consideration of the risk profiles of the respective business models and those with a higher risk profile should provide higher contributions. Amendments to the deposit guarantee schemes could lead to a risk of additional and possibly significant costs for the Issuer, whose dimensions are not predictable at present.

Further, the institutional deposit guarantee scheme of the Sparkassen Finanzgruppe has been restructured and approved as deposit guarantee scheme pursuant to the German law on deposit guarantees (*Einlagensicherungsgesetz*, "**EinSiG**") by BaFin. Due to the EinSiG, the associated systems of calculation of contributions have been updated, resulting in an additional financial burden because of new annual contributions for LBBW as of 2015 until 2024.

D.3 Key information on the key risks that are specific to the [Instruments] [Pfandbriefe] [Notes]

Interest Rate Risk

The interest rate risk is one of the central risks of interest-bearing securities and, therefore, applies to all [Instruments] [Pfandbriefe] [Notes] which bear interest. The interest rate level on the money and capital markets may fluctuate on a daily basis and cause the value of the [Instruments] [Pfandbriefe] [Notes] to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the market interest rate level. In particular, holders of [fixed rate] [Resettable] [Instruments] [Pfandbriefe] [Notes] are exposed to an interest rate risk that could result in a decrease in value if the market interest

rate level increases. In general, the effects of this risk increase as the market interest rates increase.

Currency Risk

A Holder of [Instruments] [Pfandbriefe] [Notes] denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield and/or the redemption amount of such [Instruments] [Pfandbriefe] [Notes].

Inflation Risk

The inflation risk is the risk of future money depreciation. The real yield from an investment is reduced by inflation. The higher the rate of inflation, the lower the real yield on the [Instruments] [Pfandbriefe] [Notes]. If the inflation is equal to or higher than the nominal yield, the real yield is zero or even negative.

No active trading market

There may be no active trading market for the [Instruments] [Pfandbriefe] [Notes].

[Risk of early redemption by the Issuer

The [Instruments] [Pfandbriefe] [Notes] may be redeemed [upon certain events] [and at the option of the Issuer] prior to maturity [in whole or in part] at par or at such other redemption amount as may be specified in the Final Terms. This market feature might affect the market value of the [Instruments] [Pfandbriefe] [Notes]. Comparable investments might not be available at redemption.]

[No right of early redemption for Holders

The terms and conditions of the [Instruments] [Pfandbriefe][Notes] do not provide for any right of early redemption for the Holders upon the occurrence of an event of default.]

[Risk of amendment of the terms and conditions of the Notes

A Holder of Notes is subject to the risk of being outvoted by a binding majority resolution of the Holders since the terms and conditions of the Notes may be amended by the Issuer with consent of the Holders by way of a majority resolution in a Noteholders Meeting or by a vote not requiring a physical meeting (*Abstimmung ohne Versammlung*).

A Holder of Notes may be deprived of its individual right to pursue and enforce a part or all of its rights under the terms and conditions of the Notes against the Issuer upon the appointment of a Holders' joint representative.]

[Fixed Rate [Instruments] [Pfandbriefe] [Notes]

A Holder of [Fixed Rate [Instruments] [Pfandbriefe] [Notes]] [Step-up][Step-down [Instruments] [Pfandbriefe] [Notes] [an [Instrument] [Pfandbrief] [Notes] which provides for fixed rate of interest over a certain term] is exposed to the risk that the price of such [Instruments] [Pfandbriefe] [Notes] falls as a result of changes in the market interest rate.] [Where Fixed Rate [Instruments] [Pfandbriefe] [Notes] are issued at an issue price above par and redeemed at par and such [Instruments] [Pfandbriefe] [Notes] bear interest at a low rate or do not bear interest at all, investors may face a negative yield in connection with such [Instruments] [Pfandbriefe] [Notes].]

[Floating Rate [Instruments] [Pfandbriefe] [Notes]

A Holder of Floating Rate [Instruments] [Pfandbriefe] [Notes] is exposed to the risk of fluctuating [swap rate] [reference rate] levels and uncertain interest income. Fluctuating [swap rate] [reference rate] levels make it impossible to determine the yield of Floating Rate [Instruments] [Pfandbriefe] [Notes] in advance. [Where Floating Rate [Instruments] [Pfandbriefe] [Notes] are issued at an issue price above par and redeemed at par and such [Instruments] [Pfandbriefe] [Notes] bear interest at a low floating rate, investors may face a negative yield in connection with such [Instruments] [Pfandbriefe] [Notes].]]

[[Instruments] [Pfandbriefe] [Notes] with a multiplier (factor)

The [Instruments] [Pfandbriefe] [Notes] have a feature that for the calculation of interest payable on the [Instruments] [Pfandbriefe] [Notes], an amount calculated on the basis of the interest provisions of the [Instruments] [Pfandbriefe] [Notes] will be multiplied by a factor. Their market values may be even more volatile than those for [Instruments] [Pfandbriefe] [Notes] that do not include those features.]

[Inverse Floating Rate [Instruments] [Pfandbriefe] [Notes]

Market values of Inverse Floating Rate [Instruments] [Pfandbriefe] [Notes] are typically more volatile than market values of other conventional floating rate [Instruments] [Pfandbriefe] [Notes] based on the same [reference rate] [on the same swap rate], because an increase in the [reference rate] [swap rate] not only decreases the interest rate of the [Instruments] [Pfandbriefe] [Notes], but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these [Instruments] [Pfandbriefe] [Notes].]

[Risks associated with the reform of LIBOR, EURIBOR and other interest rate 'benchmarks']

On 30 June 2016, the EU regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**") entered into force. The Benchmark Regulation could have a material impact on

[Instruments] [Pfandbriefe] [Notes] linked to a 'benchmark' rate or index. The disappearance of a 'benchmark' or changes in the manner of administration of a 'benchmark' could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the Calculation Agent, delisting or other consequence in relation to [Instruments] [Pfandbriefe] [Notes] linked to such 'benchmark'. Any such consequence could have a material adverse effect on the value of and return on any such [Instruments] [Pfandbriefe] [Notes].]

[Zero Coupon [Instruments] [Pfandbriefe] [Notes]

Holders of a zero coupon [Instruments] [Pfandbriefe] [Notes] are exposed to the risk that the price of such [Instruments] [Pfandbriefe] [Notes] falls as a result of changes in the market interest rate. Prices of zero coupon [Instruments] [Pfandbriefe] [Notes] are more volatile than prices of fixed rate [Instruments] [Pfandbriefe] [Notes] and are likely to respond to a greater degree to market interest rate changes than interest bearing [Instruments] [Pfandbriefe] [Notes] with a similar maturity.]]

[Range Accrual [Instruments] [Notes] [Pfandbriefe]

Range Accrual [Instruments] [Notes] [Pfandbriefe] may provide for the interest payable to be dependent on the number of days during which the [CMS rate] [reference rate] is [above/equal or below/equal to a certain interest rate] [within the determined relevant interest trigger range]. The interest payable on the Range Accrual [Instruments] [Notes] [Pfandbriefe] decreases depending on the number of determination dates during which the [CMS rate] [reference rate] is [[above] [below] [or equal to] the relevant interest rate] [within the determined relevant interest trigger range]. No interest may be payable in the event that the [CMS rate] [reference rate] is [[above] [below] [or is equal to] the relevant interest rate] [not within the determined relevant interest trigger range] throughout an entire accumulation period.

[Range Accrual [Instruments] [Notes] [Pfandbriefe] may be issued with an initial fixed interest rate term and, therefore, may comprise risks associated with Fixed to Floating Rate [Instruments] [Notes] [Pfandbriefe].]]

[CMS Spread [Instruments] [Notes] [Pfandbriefe]

The interest payable on CMS Spread [Instruments] [Notes] [Pfandbriefe] is dependent on the difference between rates for CMS rates having different terms.

Investors might expect that, during the term of the CMS Spread [Instruments] [Notes] [Pfandbriefe], (i) the interest curve will not flatten out, or (ii), depending on the structure of CMS Spread [Instruments] [Notes] [Pfandbriefe], expect that the interest curve will not steepen, as the case may be. In the event that the market does not develop as anticipated by investors and that the difference between the CMS rates having different terms decreases to a greater extent than

anticipated, the interest rate payable on the CMS Spread [Instruments] [Notes] [Pfandbriefe] will be below the interest level prevailing on the date of purchase. In a worst case scenario, interest will decrease to zero. In such cases, the price of the CMS Spread [Instruments] [Notes] [Pfandbriefe] will decline during their term.

[CMS Spread [Instruments] [Notes] [Pfandbriefe] may be issued with an initial fixed interest rate term and, therefore, may comprise risks associated with Fixed to Floating Rate [Instruments] [Notes] [Pfandbriefe].]

[Interest payments on CMS Spread [Instruments] [Notes] [Pfandbriefe] may be capped, so that the Holder will not be able to benefit from any actual favourable development beyond the cap.]]

[Fixed Rate Subordinated Resetable [Instruments] [Notes]

Holders of Resetable [Instruments] [Notes] which have a fixed interest rate that will be reset during the term of the [Instruments] [Notes] are exposed to both to the risk that the price of such [Instruments] [Notes] falls as a result of changes in the market interest rate, and the risk of fluctuating interest rate levels and uncertain interest income.]

[Clearing Systems]

Because Global [Instruments] [Pfandbriefe] [Notes] representing the [Instruments] [Pfandbriefe] [Notes] are held by or on behalf of [Clearstream Banking, SA, Luxembourg ("CBL")] [,] [and] [Euroclear Bank SA/NV ("Euroclear")] [,] [and] [Clearstream Banking AG, Frankfurt am Main ("CBF")] [the Depository Trust Company ("DTC")], investors will have to rely on their procedures for transfer, payment and communication with the Issuer.]

[Safekeeping Structure]

Even if the Instruments are registered with CBL or Euroclear, the Instruments will not necessarily be recognized as eligible collateral for Eurosystem monetary policy.]

[Subordinated [Instruments][Notes] of the Issuer]

In the event of the dissolution, liquidation, insolvency, composition or any proceeding for the avoidance of insolvency, of or against the Issuer, the obligations under or in connection with the subordinated [Instruments][Notes] will be wholly subordinated to the claims of all unsubordinated creditors of the Issuer so that in any such event no amounts shall be payable under such obligations until the claims of all unsubordinated creditors and until the claims of any subordinated creditors that take priority (a) by mandatory provisions of law or (b) by the terms of the respective obligations of the Issuer shall have been satisfied in full. Further, claims under or in

connection with the subordinated [Instruments][Notes] are exposed to the particular risks relating to resolution measures (and therefore already prior to an insolvency of the Issuer or similar aforementioned proceeding) under the BRRD, SAG and the SRM Regulation. Should this be the case the Issuer may not have sufficient assets after such payments to make the payments due under the [Instruments][Notes].]

[Early Redemption of Subordinated [Instruments] [Notes]

The subordinated [Instruments][Notes] may be redeemed, in whole but not in part, at the option of the Issuer and subject to the prior permission (if required) of the competent regulatory authority if in the determination of the Issuer (i) the Issuer may not or will not be allowed to fully count the [Instruments][Notes] as Tier 2 capital for the purposes of own funds requirements in accordance with the applicable Own Funds Provisions, for reasons other than the amortisation in accordance with the Own Funds Provisions (including, but not limited to, Article 64 CRR) or (ii) if the [Instruments][Notes] are or will become in any other way subject to a less favourable regulatory capital treatment as own funds than on the issue date. Due to the Issuer's right to an early redemption the Holder is exposed to the risk that it will receive a lower than the expected yield.]

[Permission of competent regulatory authority]

The Holders of the subordinated [Instruments][Notes] have no rights to call for the redemption of their [Instruments][Notes] and should not invest in the subordinated [Instruments][Notes] in the expectation that any call will be exercised by the Issuer. Even if the Issuer is granted the prior permission of the competent regulatory authority, any decision by the Issuer as to whether it will exercise a call in respect of the subordinated [Instruments][Notes] will be taken at the absolute discretion of the Issuer with regard to factors such as the economic and market impact of exercising a call, regulatory capital requirements and prevailing market conditions.

Holders of the subordinated [Instruments] [Notes] should be aware that they may be required to bear the financial risks of an investment in the subordinated [Instruments] [Notes] until final maturity of such [Instruments] [Notes].]

Taxation – General

The information on "Taxation" contained in the Base Prospectus is not a complete analysis of all tax considerations relating to the [Instruments] [Pfandbriefe] [Notes]. Prospective purchasers of [Instruments] [Pfandbriefe] [Notes] should therefore consult their own tax advisers.

Under currently issued guidance, should (a) the Instruments

be issued by the New York branch of LBBW or (b) the [Instruments (other than Instruments issued by the New York branch of the Bank)] [Pfandbriefe] [Notes] be issued after the date that is six months after the date on which final U.S. Treasury regulations define the term “foreign passthru payment” (the "**Passthru Payment Grandfathering Date**"), or before the Passthru Payment Grandfathering Date if the [Instruments] [Pfandbriefe] [Notes] are "significantly modified" for U.S. federal income tax purposes after the Passthru Payment Grandfathering Date, then pursuant to Sections 1471 through 1474 of the Code or Open End Instruments or similar law implementing an intergovernmental approach thereto the Issuer and other financial institutions through which payments on the [Instruments] [Pfandbriefe] [Notes] are made may be required to withhold U.S. tax at a rate of 30% on (x) in the case of Instruments issued by the New York branch payments of interest paid at any time and payments of principal and the gross proceeds at sale made after 31 December 2018 and (y) all, or a portion of, payments made after 31 December 2018 in respect of the [Instruments (other than Instruments issued by the New York branch of LBBW)] [Pfandbriefe] [Notes]. In addition, withholding under FATCA may be triggered if the Issuer (other than Instruments issued by the New York branch of the Bank) creates and issues further [Instruments] [Pfandbriefe] [Notes] in a manner that does not constitute a “qualified reopening” for U.S. federal income tax purposes after the Passthru Payment Grandfathering Date that are consolidated and form a single series with the outstanding [Instruments] [Pfandbriefe] [Notes] as permitted by §9 of the Terms and Conditions. The FATCA withholding tax may be triggered if: (a) the Issuer is the New York branch of the Bank or in the case of Instruments that are not issued by the New York branch is a foreign financial institution (as defined in FATCA) ("**FFI**") and (b)(i) an investor does not provide information sufficient for the Issuer or FFI that is making payment to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States Account" of such FFI, (ii) in the case of Instruments issued by the New York branch of LBBW, the investor is a “non financial foreign entity” and fails to provide certain informations with respect to its substantial U.S. investors or (iii) any FFI through or to which payment on the [Instruments] [Pfandbriefe] [Notes] is made is not eligible to receive payments free of FATCA withholding.

Germany has entered into an intergovernmental agreement (an "**IGA**") with the United States to help implement FATCA for certain German financial institutions. The Issuer will be required to report certain information on its U.S. account holders to Germany in order (i) to obtain an exemption from FATCA withholding on payments it receives and/or (ii) to comply with any applicable German law. It is not yet certain how the United States and Germany will address withholding on “foreign passthru payments” (which may include payments on [Instruments (other than Instruments issued by the New York Branch of the Bank)] [Pfandbriefe] [Notes] or if such withholding will be required at all.

The application of FATCA to interest, principal or other amounts paid with respect to the [Instruments] [Pfandbriefe] [Notes] is not clear. If FATCA were to require that an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on (or with respect to) the [Instruments] [Pfandbriefe] [Notes], then neither the Issuer, any paying agent nor any other person would, pursuant to the conditions of the [Instruments] [Pfandbriefe] [Notes], be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may, if FATCA is implemented as currently proposed by the U.S. Internal Revenue Service, receive less interest or principal than expected.

Market Illiquidity

There can be no assurance as to how the [Instruments] [Pfandbriefe] [Notes] will trade in the secondary market or whether such market will be liquid or illiquid or that there will be a market at all.

Independent review and advice

Each prospective purchaser of [Instruments] [Pfandbriefe] [Notes] must determine, based on its own independent review and such professional advice as it deems appropriate, that its acquisition of the [Instruments] [Pfandbriefe] [Notes] is fully consistent with its (or if it is acquiring the [Instruments] [Pfandbriefe] [Notes] in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the [Instruments] [Pfandbriefe] [Notes] as principal or in a fiduciary capacity) and is a fit, proper and suitable investment for it (or if it is acquiring the [Instruments] [Pfandbriefe] [Notes] in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the [Instruments] [Pfandbriefe] [Notes].

Punkt

Abschnitt D – Risiken

D.2 Zentrale Angaben zu den zentralen Risiken, die der Emittentin eigen sind

Marktpreisrisiko

Das Marktpreisrisiko umfasst mögliche Portfoliowertverluste, die durch Veränderung von Marktpreisen und Parametern, wie beispielsweise Zinssätzen, Aktien-, Devisen- und Rohwarenkursen oder preisbeeinflussender Faktoren wie Marktvolatilitäten oder Credit Spreads ausgelöst werden.

Adressenausfallrisiken

Mit dem übergeordneten Begriff Adressenausfallrisiko wird im LBBW-Konzern das Verlustpotential bezeichnet, das daraus resultiert, dass Geschäftspartner zukünftig eventuell nicht mehr in der Lage sind, vollumfänglich ihren vertraglich vereinbarten Zahlungsverpflichtungen nachzukommen. Adressenausfallrisiko kann sowohl über direkte Vertragsbeziehungen (z.B. Kreditgewährung, Kauf eines Wertpapiers) als auch indirekt z.B. über Absicherungsverpflichtungen (insb. Garantiegewährung, Verkauf von Absicherung über ein Kreditderivat) entstehen.

Liquiditätsrisiko

Das Refinanzierungspotenzial und damit einhergehend die Liquiditätssituation des LBBW-Konzerns ist maßgeblich durch das Vertrauen der Investoren sowie durch einen möglichen Abzug der Liquiditätsgrundlage geprägt. Die Liquiditätssituation kann maßgeblich negativ durch Faktoren beeinflusst werden, die außerhalb der Kontrolle der LBBW liegen. Diese können den Zugang zu den Kapitalmärkten und die Möglichkeit auf akzeptable Refinanzierungskonditionen beschränken.

Risiko einer Herabstufung des Ratings des LBBW-Konzerns

Eine Herabstufung der Ratings des LBBW-Konzerns könnte nachteilige Auswirkungen auf das gesamte Verhältnis zu Investoren und Kunden insbesondere im Hinblick auf die Möglichkeiten und Kosten der Refinanzierung haben.

Operationelle Risiken

Der LBBW-Konzern unterliegt operationellen Risiken. Der LBBW-Konzern definiert das operationelle Risiko als das Risiko von Verlusten, die infolge der Unangemessenheit oder des Versagens von internen Verfahren und Systemen, Menschen oder infolge externer Ereignisse eintreten. Diese Definition schließt Rechtsrisiken ein.

Beteiligungsrisiken

Neben dem Risiko einer potenziellen Wertminderung infolge von Ausfällen besteht außerdem das Risiko in der Un- oder Unterverzinslichkeit der Anlage, die aufgrund der Ertragswertorientierung bei der Beteiligungsbewertung jedoch mit dem allgemeinen Buch- bzw. Verkehrswertrisiko korrespondiert.

Immobilienrisiken

Immobilienrisiken sind definiert als potenzielle negative Wertänderungen des Immobilienbestands des LBBW Konzerns durch eine Verschlechterung der allgemeinen Immobiliensituation oder eine Verschlechterung der speziellen Eigenschaften der einzelnen Immobilien.

Developmentrisiken

Das Developmentrisiko ist definiert als das Bündel von Risiken, welche im Rahmen der Realisierung von gewerblichen und wohnwirtschaftlichen Projektentwicklungen typischerweise auftreten. Die Risiken in diesem Geschäftsfeld liegen im Planungs- und Genehmigungsbereich, den geplanten Baukosten und Terminen sowie insbesondere im Vermietungs- bzw. Veräußerungsbereich. Soweit Projektentwicklungen in Partnerprojekten durchgeführt werden, ergeben sich hieraus zusätzliche Risiken, z.B. Bonitätsrisiko des Partners, die Durchsetzung von Entscheidungen gegenüber dem Partner. Das Eintreten dieser Risiken kann dazu führen, dass die erwartete Rendite nicht erwirtschaftet, das investierte Kapital nicht vollständig bzw. im Extremfall nicht mehr zurückerhalten wird oder Eigenkapital nachgeschossen werden muss, sofern es sich nicht um Non-Recourse-Finanzierungen handelt.

Weitere wesentliche Risiken

Darüber hinaus unterliegt die LBBW weiteren Risiken wie Reputations-, Pensions-, Modell- und Geschäftsrisiken.

Risiken im Zusammenhang mit der Übernahme der SachsenLB

Bei einer ungünstigen Währungsentwicklung können die Verluste aus dem an Sealink Funding Ltd. übertragenen Wertpapierportfolio die vom Freistaat Sachsen und Land Baden-Württemberg gegebenen Garantien zur Absicherung der von der LBBW an Sealink ausgereichten Finanzierung übersteigen.

Risiken im Zusammenhang mit aufsichtsrechtlichen Änderungen oder Eingriffen könnten sich auf das Geschäft der Emittentin nachteilig auswirken

Das Bank- und Finanzdienstleistungsrecht, entsprechende Gesetze, Vorschriften und Richtlinien können sich jederzeit in einer Weise ändern, die das Geschäft, die Geschäftsergebnisse sowie die Finanzlage der Emittentin beeinträchtigt und die Art und Weise der Geschäftsführung der Emittentin, die von ihr angebotenen Produkte und Dienstleistungen sowie den Wert ihres Vermögens können dadurch wesentlich beeinflusst werden. Zudem haben die Regulierungsbehörden die Befugnis, Verwaltungs-, Gerichts- oder Vollstreckungsverfahren gegen die Emittentin einzuleiten, die die Geschäfte, die Geschäftsergebnisse sowie die Finanzlage der Emittentin wesentlich beeinträchtigen könnten.

Stresstests können das Geschäft der Emittentin beeinträchtigen

Die Emittentin war bereits und könnte auch zukünftig verpflichtet sein, an Stresstests teilzunehmen. Die Europäische Bankenaufsichtsbehörde ("EBA") und die Europäische Zentralbank ("EZB") haben im Jahr 2016 einen EU-weiten Stresstest durchgeführt. Der LBBW-Konzern war einer der 51 dem Stresstest unterliegenden Bankengruppen. Obwohl abweichend von vorherigen Stresstests keine Mindestanforderungen an Kapitalquoten vorgegeben wurden, können die jeweils zuständigen Behörden die Ergebnisse des Stresstests als Information im Rahmen des aufsichtlichen Überprüfungs- und Bewertungsprozesses (Supervisory Review and Evaluation Process "SREP") einwerten und von der betroffenen Bank auf dieser Basis die Erfüllung weiterer Aufsichtsanforderungen verlangen. Falls die Emittentin im Rahmen eines Stresstests bestimmte, von den Aufsichtsbehörden für den Stresstest festgelegte Mindestwerte am Ende einer Stresstestperiode unterschreiten sollte und/oder andere Defizite identifiziert werden, könnte die Emittentin verpflichtet sein, Abhilfemaßnahmen zu ergreifen, zu denen möglicherweise Anforderungen zur Stärkung der Eigenmittel der Emittentin und/oder andere aufsichtsrechtliche Anforderungen zählen. Die aus den vorgenannten Aspekten resultierenden Risiken könnten einen wesentlichen negativen Einfluss auf das Geschäft, die Geschäftsergebnisse oder die Finanzlage der Emittentin haben.

Risiken im Zusammenhang mit dem Einheitlichen Aufsichtsmechanismus (Single Supervisory Mechanism (SSM)) und dem Einheitlichen Abwicklungsfonds (Single Resolution Fonds (SRF))

Seit November 2014 ist die Emittentin ein "wesentliches" Kreditinstitut gemäß dem SSM. Um die von ihr übernommenen Aufsichtsaufgaben zu erfüllen, ist die EZB unter anderem (und insbesondere als Teil des SREP Prozesses) befugt, das Geschäftsmodell, die internen Kontrollmechanismen, Risk Governance als auch die internen Verfahren zur Beurteilung der Angemessenheit von Kapital und Liquidität individueller Unternehmensgruppen bedeutender Kreditinstitute (so wie die LBBW) zu beurteilen, von bedeutenden Kreditinstituten zu verlangen, dass sie individuelle Eigenkapital- und Liquiditätsanforderungen einhalten (die über normale Aufsichtsanforderungen hinausgehen können) oder frühzeitig Korrekturmaßnahmen zu ergreifen, um potenziellen Problemen zu begegnen. Das neue Aufsichtssystem und die neuen Verfahren und Praktiken im Rahmen des SSM sind noch nicht vollständig umgesetzt und/oder veröffentlicht, und es wird davon ausgegangen,

dass diese laufenden Überprüfungen, Änderungen und Weiterentwicklungen unterliegen werden. Die Verfahren im Rahmen des SSM und anderer regulatorischer Initiativen könnten die Auslegung der anwendbaren Aufsichtsanforderungen ändern und zu weiteren regulatorischen Anforderungen sowie zu erhöhten Kosten der Emittentin in Verbindung mit Compliance und Meldewesen führen.

Desweiteren ist gemäß der Verordnung (EU) No. 806/2014 vom 15. Juli 2014 (die "**SRM Verordnung**") der sogenannte Einheitliche Abwicklungsmechanismus ("**SRM**") geschaffen worden. Der SRM sieht außerdem die Errichtung eines einheitlichen Abwicklungsfonds (Single Resolution Funds oder der "**Fonds**" bzw. "**SRF**") vor, der in bestimmten Umständen und unter bestimmten Bedingungen mittelfristige Finanzierungsmittel zur Finanzierung von Abwicklungsmaßnahmen bei jeder Bank, die dem SRM untersteht, zur Verfügung stellen kann.

Die Mittel, die dem Fonds zur Verfügung gestellt werden, werden über Beiträge von Kreditinstituten, wie z.B. der Emittentin, aufgebracht. Dies kann eine erhebliche finanzielle Belastung der Emittentin darstellen und/oder das Geschäft, die Geschäftsergebnisse oder die Finanzlage der Emittentin wesentlich beeinträchtigen.

Inhaber sind Risiken in Zusammenhang mit Eigenmittelanforderungen und anderen Kapitalanforderungen wie MREL ausgesetzt

Die Emittentin ist verpflichtet jederzeit im Einklang mit den aufsichtsrechtlichen Anforderungen ausreichende Eigenmittel vorzuhalten, um mögliche Verluste, die aus der Realisierung von Risiken resultieren, abzudecken. Gemäß der CRR müssen Banken eine Mindestquote an Kernkapital (Common Equity Tier 1 Capital) und zusätzlichem Kernkapital (Additional Tier 1 Capital) zum Gesamtrisikobetrag (risk-weighted assets) von 6% und eine Mindestquote an hartem Kernkapital zum Gesamtrisikobetrag von 4,5% vorhalten. Die Mindestgesamtkapitalquote (wobei das Gesamtkapital die Summe aus Kernkapital und Ergänzungskapital ist) beträgt 8%. Darüber hinaus sieht das KWG vor, einen aus hartem Kernkapital bestehenden zwingende Kapitalerhaltungspuffer aufzubauen und enthält eine Ermächtigung der Bundesanstalt für Finanzdienstleistungsaufsicht ("**BaFin**"), in Zeiten übermäßigen Kreditwachstums von Banken die Schaffung eines zusätzlichen antizyklischen Kapitalpuffers zu verlangen. Seit Januar 2016 haben anderweitig systemrelevante Banken (so wie die Emittentin) ("**A-SRI**" oder in der englischen Begrifflichkeit other systematically important institutions bzw. "**O-SIIs**") u.U. einen zusätzlichen Kapitalpuffer von bis zu 2% der risikogewichteten Positionsbeträge vorzuhalten. Der einheitliche Abwicklungsausschuss (der einheitliche Abwicklungsausschuss bzw. Single Resolution Board, der "**Ausschuss**") wird eine institutsspezifische Quote für Eigenmittel und berücksichtigungsfähige Verbindlichkeiten, die direkt von der EZB überwachte Institute (so wie die Emittentin) mindestens vorhalten müssen, festsetzen (Minimum Requirements on Eligible Liabilities bzw. "**MREL**"). Eigenmittelanforderungen können die Emittentin dazu veranlassen, weitere Eigenmitteln aufzunehmen, anderes Kapital zu erhöhen oder risikogewichtete Aktiva in einem größeren Ausmaß zu verringern, was sich nachteilig auf die langfristige Profitabilität der Emittentin auswirken

kann. In der Folge kann dies unter Umständen die rechtliche oder wirtschaftliche Stellung eines Investors beeinträchtigen.

Risiken in Verbindung mit Liquiditätsanforderungen und Verschuldungsgrad (Leverage Ratio)

Darüber hinaus ist die Umsetzung weiterer aufsichtsrechtlicher Anforderungen vorgesehen, wie z.B. einer Mindestliquiditätsquote (Liquiditätsdeckungsanforderung oder in der englischen Begrifflichkeit *Liquidity Coverage Ratio* bzw. "LCR"), einer Anforderung an eine stabile Refinanzierung (Stabile Finanzierungskennziffer oder in der englischen Begrifflichkeit *Net Stable Funding Ratio* bzw. "NSFR") und eine nicht-risikobasierte maximale Verschuldungsquote (Leverage Ratio). Nach derzeitigen Plänen soll die endgültige Kalibrierung der maximalen Verschuldungsquote 2017 abgeschlossen werden und es ist zu erwarten, dass Banken ab 2018 die maximale Verschuldungsquote vollständig erfüllen müssen. Die Einführung einer solchen verpflichtenden, nicht risikobasierten maximalen Verschuldungsquote kann dazu führen, dass das Wachstumspotential der Emittentin künftig eingeschränkt wird oder sogar dass die Emittentin sich dazu veranlasst sieht, ihr Geschäftsvolumen zu reduzieren.

Andauernde Änderungen hinsichtlich der anwendbaren aufsichtsrechtlichen Anforderungen mit Auswirkungen auf die Emittentin

Das anwendbare Aufsichtsrahmenwerk und anwendbare aufsichtsrechtliche Anforderungen für Banken verändern sich weiterhin. Eine verlässliche Folgenabschätzung hinsichtlich dieser laufenden Entwicklungen ist noch nicht möglich. Die Umsetzung dieser aufsichtsrechtlichen Änderungen hat bei der Emittentin und anderen Finanzinstituten bereits zu erhöhten Compliance-Kosten geführt und könnte dies auch weiterhin tun, was sich auf die Ergebnisse ihrer Geschäftstätigkeit auswirken kann. Fortwährende aufsichtsrechtliche Änderungen und Herausforderungen könnten für Banken die Notwendigkeit einer ständigen Überprüfung ihrer Geschäftsmodelle und der kontinuierlichen Verbesserung ihrer Effizienz nach sich ziehen, um sicherzustellen, dass eine ausreichende Ertragskraft vorhanden ist und auch weiterhin die Fähigkeit zur Generierung von Eigenmitteln aus eigener Kraft besteht.

Maßnahmen von Regierungen und Zentralbanken als Reaktion auf die Finanzkrise beeinträchtigen den Wettbewerb erheblich und können sich auf die rechtliche oder wirtschaftliche Position der Anleger auswirken

Als Reaktion auf die Finanzmarktkrise gab es bedeutende Eingriffe durch Regierungen und Zentralbanken in den Finanzdienstleistungssektor, unter anderem durch Erwerb direkter Beteiligungen an einzelnen Finanzinstituten sowie durch die Einbringung anderer Kapitalformen, durch die Übernahme von Garantien für Verbindlichkeiten und den Erwerb notleidender Vermögenswerte von Finanzinstituten. Der Preis der Finanzinstrumente der Emittentin könnte fallen, und ihre Refinanzierungs- und Kapitalkosten könnten steigen, was erhebliche nachteilige Auswirkungen auf ihre Geschäfte, ihre Ergebnisse der Geschäftstätigkeit oder ihre Finanzlage haben könnten.

Rechte der Gläubiger können durch Abwicklungsmaßnahmen (einschließlich des Bail-in-Tools und der Befugnis zur Beteiligung von Inhabern relevanter Kapitalinstrumente), den SRM oder Maßnahmen zur Umsetzung der Richtlinie zur Sanierung und Abwicklung von Finanzinstituten ("BRRD") beeinträchtigt werden

Änderungen des deutschen Rechts im Bezug auf BRRD-Vorschriften, die durch das SAG in deutsches Recht umgesetzt werden und die durch die Vorschriften der SRM-Verordnung ergänzt werden, können dazu führen, dass Ansprüche auf Zahlung von Kapital, Zinsen oder sonstigen Beträgen unter den Instrumenten und/oder den Schuldverschreibungen dauerhaft (auch auf null) herabgeschrieben bzw. reduziert werden, die Emissionsbedingungen in anderer Hinsicht (z.B. die Veränderung der Fälligkeit eines Schuldinstruments) geändert oder in ein oder mehrere Instrumente des harten Kernkapitals (CET 1), wie z.B. Stammkapital, umgewandelt werden (das sog. "**Bail-in-Instrument**"). Darüber hinaus haben die zuständigen Abwicklungsbehörden gemäß der SRM-Verordnung und des SAG die Befugnis zur Herabschreibung bzw. Reduzierung (auch auf Null) von Kapitalinstrumenten des harten Kernkapitals (Common Equity Tier 1), Kapitalinstrumenten des zusätzlichen Kernkapitals (Additional Tier 1) und Kapitalinstrumenten des Tier 2 Ergänzungskapitals (zusammen, die "**Relevanten Kapitalinstrumente**") und damit einschließlich der unter diesem Prospekt angebotenen Nachrangigen Instrumente und Nachrangigen Schuldverschreibungen) und zur Umwandlung Relevanter Kapitalinstrumente in Anteile oder andere Instrumente des harten Kernkapitals eines Instituts – möglicherweise nachdem die Rechtsform des Emittenten durch eine Abwicklungsmaßnahme geändert worden ist – entweder unabhängig von einer Abwicklungsmaßnahme als Teil des Bail-in-Instruments oder in Kombination mit jedem anderen Abwicklungsinstrument, die "**Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente**". Der deutsche Gesetzgeber hat die Rangfolge der Forderungen im Rahmen eines normalen Insolvenzverfahren bereits vor dem Hintergrund der BRRD geändert und eine Vorzugsbehandlung bestimmter Ansprüche von Einlegern gegenüber den Ansprüchen der Inhaber von Instrumenten und/oder Schuldverschreibungen bzw. anderen maßgeblichen Wertpapieren vorgesehen; vor dem Hintergrund des laufenden Gesetzgebungsverfahrens mit einem Gesetzesentwurf zur Änderung der BRRD vom 23. November 2016 erscheint es nicht unwahrscheinlich, dass diese Rangfolge nochmals kurzfristig (möglicherweise auch rückwirkend), geändert wird, so dass die Ansprüche der Gläubiger nachrangig gegenüber den Ansprüchen gewöhnlicher unbesicherter Insolvenzgläubiger sind.

Jegliche Vorbereitung oder Anwendung von Abwicklungsmaßnahmen oder frühzeitigen Interventionsmaßnahmen durch eine zuständige Behörde gegenüber LBBW, eines ihrer Tochterunternehmen oder sogar einem anderen Kreditinstitut kann, unabhängig von einer direkten Beeinflussung der Gläubigerrechte, negative Auswirkungen, beispielsweise auf das Rating der LBBW und ihrer Tochterunternehmen, auf die Preisfindung der von ihr ausgegebenen Schuldtitel oder auf ihre Fähigkeit, sich zu refinanzieren oder auf ihre Refinanzierungskosten haben.

Risiken im Zusammenhang mit möglichen Maßnahmen nach dem Kreditinstitute-Reorganisationsgesetz ("**KredReorgG**")

Rechte der Gläubiger können durch Maßnahmen nach dem Kreditinstitute-Reorganisationsgesetz ähnlich wie durch Abwicklungsmaßnahmen beeinträchtigt werden. Daher können Maßnahmen nach dem Kreditinstitute-Reorganisationsgesetz ähnliche Risiken auslösen, wie die durch Abwicklungsmaßnahmen nach der SRM, dem SAG und der BRRD bestehenden Risiken.

Risiken in Verbindung mit Nachrangigkeit und Änderungen in der Rangfolge von Ansprüchen

In Umsetzung einer Anforderung der BRRD, dass bestimmten Einlegeransprüchen durch die Mitgliedsstaaten ein Vorrang einzuräumen ist, hat der deutsche Gesetzgeber bereits die Rangfolge von Ansprüchen in regulären Insolvenzverfahren geändert und eine Vorrangigkeit für bestimmte Einlegeransprüche eingeführt. Nach Paragraph 46f (5)-(7) KWG stehen bestimmte unbesicherte, nicht-nachrangige Schuldtitel der Emittentin im Insolvenzfall oder im Falle der Verhängung von Abwicklungsmaßnahmen, wie der Anordnung eines Bail-in-Instruments, in der Rangfolge hinter anderen unbesicherten, nicht-nachrangigen Verbindlichkeiten der Emittentin.

Zudem sind weitere Änderungen der Rangfolge von Ansprüchen in der Zukunft (auch mit Rückwirkung), die zu einer Nachrangigkeit der Ansprüche führen könnten, möglich. Daraus folgen auch Risiken, die aus solch einer Nachrangigkeit (oder der Unsicherheit, ob eine solche Nachrangigkeit besteht) herrühren, wie etwa die negative Auswirkung auf den Marktwert oder die Liquidität im Zusammenhang mit bestimmten Schuldtiteln und die Möglichkeit bestimmte Schuldtitel als EZB Zentralbanksicherheit oder zu anderen Sicherheitszwecken einzusetzen.

Risiken im Zusammenhang mit der Abtrennung des Eigenhandels und anderer hochrisikanter Handelsgeschäfte von den übrigen Bankgeschäften

Im Falle, dass die Emittentin bestimmte Handelsaktivitäten gemäß zukünftiger EU-Vorschläge im Zusammenhang mit dem Liikanen Report bzw. der Umsetzung des Trennbankengesetzes abtrennen muss, kann sie eine grundlegend andere Risikoübernahme oder Kreditwürdigkeit besitzen. Dies kann auch andere negative Auswirkungen auf das Geschäftsmodell bzw. die Profitabilität der Emittentin oder einen anderen negativen Einfluss auf das Geschäftsmodell der Emittentin haben, was sich wiederum nachteilig auf die Gläubigerrechte auswirken kann.

Risiken im Zusammenhang mit der Staatsschuldenkrise

Regulatorische und politische Maßnahmen durch europäische Regierungen als Reaktion auf die europäische Staatsschuldenkrise reichen möglicherweise nicht aus, um eine Ausweitung der Krise oder einen Ausstieg eines oder mehrerer Mitgliedsstaaten aus der gemeinsamen Währung zu verhindern. Ein Austritt aus dem Euro von einem Staat oder mehreren Staaten könnte unvorhersehbare Konsequenzen für das Finanzsystem und die gesamte Wirtschaft haben und möglicherweise zu einem Rückgang des Geschäftsvolumens sowie bereichsübergreifenden Abschreibungen auf das Anlagevermögen und Verlusten führen. Die Fähigkeit der Emittentin, sich selbst gegen diese Risiken zu schützen, ist begrenzt.

Risiken im Zusammenhang mit verbraucherrechtlichen Vorgaben und komplexen Derivaten und im steuerrechtlichen Umfeld

Verbraucherschutzvorgaben und Gesetze und die entsprechende, zunehmend kritische Rechtsprechung gegenüber Kreditinstituten und Kundentransaktionen in komplexen Derivaten, sowie Änderungen im steuerrechtlichen Umfeld betreffend die Auslegung hinsichtlich Anrechnungsvoraussetzungen für Kapitalertragssteuer, können sich nachteilig auf die Geschäfte, die Ertrags- und die Finanzlage der Emittentin auswirken.

Risiken im Zusammenhang mit der Änderung von Einlagensicherungssystemen

Richtlinie 2014/49/EU über Einlagensicherungssysteme sieht unter anderem schnellere Rückzahlungen vor. Allgemein müssen die für die Entschädigung von Einlegern in Krisenzeiten bereitgestellten finanziellen Mittel bis 3. Juli 2024 0,8% der Höhe der gedeckten Einlagen entsprechen, wobei die Berechnung der Beiträge unter Berücksichtigung der Risikoprofile der jeweiligen Geschäftsmodelle vorzunehmen ist und bei einem höheren Risikoprofil höhere Beiträge geleistet werden müssen. Änderungen in Bezug auf die Einlagensicherungssysteme können, zu dem Risiko von zusätzlichen und womöglich erheblichen Kosten für die Emittentin führen, deren Umfang derzeit nicht vorhersehbar ist. Zudem wurde das institutionelle Einlagensicherungssystem der Sparkassenfinanzgruppe restrukturiert und von der BaFin als Einlagensicherungssystem gemäß dem Einlagensicherungsgesetz ("EinSiG") anerkannt. Wegen des Einlagensicherungsgesetzes wurde entsprechend das zugehörige Beitragsberechnungssystem erneuert, woraus sich für LBBW wegen der neuen jährlichen Beitragszahlungen von 2015 bis 2024 eine zusätzliche finanzielle Belastung ergibt.

D.3 Zentrale Angaben zu den zentralen Risiken, die den [Instrumente] [Pfandbriefe] [Schuldverschreibungen] eigen sind

Zinsrisiko

Das Zinsrisiko ist eines der zentralen Risiken verzinsten Wertpapiere, so dass dieses Risiko auf alle verzinsten [Instrumente] [Pfandbriefe] [Schuldverschreibungen] Anwendung findet. Das Zinsniveau an den Geld- und Kapitalmärkten kann täglichen Schwankungen unterliegen, wodurch sich der Wert der [Instrumente] [Pfandbriefe] [Schuldverschreibungen] täglich verändern kann. Das Zinsrisiko resultiert aus der Unsicherheit im Hinblick auf die künftige Entwicklung des Marktzinsniveaus. Insbesondere Gläubiger [Festverzinslicher] [von Resettable] [Instrumente[n]] [Pfandbriefe] [Schuldverschreibungen] sind einem Zinsrisiko ausgesetzt, das im Falle eines Anstiegs des Marktzinsniveaus eine Wertminderung der [Instrumente] [Pfandbriefe] [Schuldverschreibungen] zur Folge haben kann. Im Allgemeinen verstärken sich die Auswirkungen dieses Risikos mit steigendem Marktzins.

Währungsrisiko

Der Gläubiger [eines Instruments] [eines Pfandbriefs] [einer Schuldverschreibung], [die] [der] auf eine fremde Währung lautet ist dem Risiko von Wechselkursschwankungen ausgesetzt, welche den Ertrag und/oder Rückzahlungsbetrag [dieses Instruments] [dieses Pfandbriefs] [dieser Schuldverschreibung] beeinflussen

können.

Inflationsrisiko

Das Inflationsrisiko besteht in dem Risiko einer künftigen Verringerung des Geldwertes. Die reale Rendite einer Anlage wird durch Inflation geschmälert. Je höher die Inflationsrate, desto niedriger die reale Rendite [eines Instruments] [eines Pfandbriefs] [einer Schuldverschreibung]. Entspricht die Inflationsrate der Nominalrendite oder übersteigt sie diese, ist die reale Rendite null oder gar negativ.

Kein aktiver Handelsmarkt

Möglicherweise kann es keinen aktiven Handelsmarkt für die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] geben.

[Risiko der vorzeitigen Rückzahlung durch die Emittentin

Die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] können [bei Eintritt bestimmter Ereignisse] [und] [nach Wahl der Emittentin zu bestimmten Zeitpunkten oder innerhalb bestimmter Perioden] [ganz oder auch zum Teil] vor dem Fälligkeitstermin zum Nennwert oder einem anderen Rückzahlungsbetrag zurückgezahlt werden, der in den Endgültigen Bedingungen festgelegt wird. Dieses Merkmal kann den Marktwert der [Instrumente] [Pfandbriefe] [Schuldverschreibungen] beeinflussen. Vergleichbare Anlagemöglichkeiten können bei Rückzahlung nicht vorhanden sein.]

[Kein Recht zur vorzeitigen Rückzahlung der Gläubiger

Die Emissionsbedingungen der [Instrumente] [Pfandbriefe] [Schuldverschreibungen] sehen kein Kündigungsrecht der Gläubiger aufgrund des Eintritts eines außerordentlichen Kündigungsgrunds vor.]

[Risiko der Änderung der Emissionsbedingungen

Ein Anleihegläubiger ist dem Risiko ausgesetzt durch einen bindenden Beschluss der Anleihegläubiger überstimmt zu werden, da die Emissionsbedingungen der Schuldverschreibungen durch die Emittentin mit Billigung eines Mehrheitsbeschlusses der Anleihegläubiger abgeändert werden können. Eine solche Abstimmung kann ohne Versammlung der Anleihegläubiger durchgeführt werden.

Ein Anleihegläubiger könnte teilweise oder vollständig sein individuelles Recht verlieren aus den Emissionsbedingungen gegen die Emittentin vorzugehen, sollten die Anleihegläubiger einen Gemeinsamen Vertreter ernennen.]

[Festverzinsliche [Instrumente] [Pfandbriefe]
[Schuldverschreibungen]

Der Gläubiger [eines Festverzinslichen Instruments] [eines Festverzinslichen Pfandbriefs] [einer Festverzinslichen Schuldverschreibung] [eines Stufenzinsinstruments] [eines Stufenzinspfandbriefs] [einer Stufenzinsschuldverschreibung] [[eines Instruments, das] [eines Pfandbriefs, der] [einer Schuldverschreibung, die] eine feste Verzinsung für einen bestimmten Zeitraum vorsieht,] ist dem Risiko ausgesetzt, dass der Kurs [eines solchen Instruments] [eines solchen Pfandbriefs] [einer solchen Schuldverschreibung] infolge von Veränderungen des aktuellen Marktzinssatzes fällt. [Soweit Festverzinsliche [Instrumente] [Pfandbriefe] [Schuldverschreibungen] zu einem Emissionspreis über par begeben werden und zu par zurückgezahlt werden und die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] mit einem niedrigen Zinssatz oder überhaupt nicht verzinst werden, sind Investoren dem Risiko einer negativen Rendite in Bezug auf die [Schuldverschreibungen] [Pfandbriefe] ausgesetzt.]]

[Variabel verzinsliche [Instrumente] [Pfandbriefe]
[Schuldverschreibungen]

Der Gläubiger [eines Variabel verzinslichen Instruments] [eines Variabel Verzinsten Pfandbriefs] [einer Variabel verzinslichen Schuldverschreibung] ist dem Risiko schwankender [Referenzzinssätze] [Swapsätze] und ungewisser Zinserträge ausgesetzt. Ein schwankendes [Zinsniveau] [Swapsatzniveau] macht es unmöglich, die Rendite von variabel verzinslichen [Instrumenten] [Pfandbriefen] [Schuldverschreibungen] im Voraus zu bestimmen. [Soweit Variabel verzinsliche [Instrumente] [Pfandbriefe] [Schuldverschreibungen] zu einem Emissionspreis über par begeben werden und zu par zurückgezahlt werden und die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] mit einem niedrigen variablen Zinssatz verzinst werden, sind Investoren dem Risiko einer negativen Rendite in Bezug auf die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] ausgesetzt.]]

[[Instrumente] [Pfandbriefe] [Schuldverschreibungen] mit einem
Multiplikator (Faktor)

Die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] sind mit einem Merkmal ausgestattet, dass bei der Berechnung der Verzinsung der [Instrumente] [Pfandbriefe] [Schuldverschreibungen] ein nach den Zinsregelungen ermittelter Wert mit einem Multiplikator (Faktor) multipliziert wird.

Ihr Marktwert ist möglicherweise stärkeren Fluktuationen ausgesetzt als der von [Instrumenten] [Pfandbriefen] [Schuldverschreibungen] ohne diese Ausstattungsmerkmale.]

[Inverse variabel verzinsliche [Instrumente] [Pfandbriefe]
[Schuldverschreibungen]

Die Marktwerte von Inverse variabel verzinslichen [Instrumenten] [Pfandbriefen] [Schuldverschreibungen] weisen typischerweise eine höhere Volatilität auf, als die Marktwerte konventioneller variabel verzinslicher [Instrumente] [Pfandbriefe] [Schuldverschreibungen], die auf demselben [Referenzzinssatz] [Swapsatz] basieren, da ein

Ansteigen des [Referenzzinssatzes] [Swapsatz] nicht nur den Zinssatz verringert, sondern auch ein Ansteigen der maßgeblichen Zinssätze widerspiegelt, was wiederum den Marktwert der [Instrumente] [Pfandbriefe] [Schuldverschreibungen] beeinflusst.]

[Risiken im Zusammenhang mit der Reform des LIBOR, EURIBOR und anderer "Benchmark"-Zinssätze

Am 30. Juni 2016, wurde die EU-Verordnung über Indizes verabschiedet, die als Benchmarks für Finanzinstrumente und Finanzkontrakte oder zur Messung der Wertentwicklung von Investmentfonds verwendet werden (die "**Benchmark-Verordnung**") in Kraft getreten. Die Benchmark-Verordnung könnte sich wesentlich auf [Instrumente] [Pfandbriefe] [Schuldverschreibungen] auswirken, die auf einen "Benchmark"-Satz oder -Index bezogen sind. Der Wegfall einer "Benchmark" oder Änderungen in der Art der Verwaltung einer "Benchmark" könnten eine Anpassung der Emissionsbedingungen, eine vorzeitige Rückzahlung, ein Bewertungswahlrecht durch die Berechnungsstelle, eine Dekotierung oder andere Konsequenzen in Bezug auf die auf solche "Benchmarks" bezogenen [Instrumente] [Pfandbriefe] [Schuldverschreibungen] nach sich ziehen. All diese Konsequenzen könnten sich wesentlich auf den Wert solcher [Instrumente] [Pfandbriefe] [Schuldverschreibungen] und die Erträge aus solchen [Instrumenten] [Pfandbriefen] [Schuldverschreibungen] auswirken.]

[Nullkupon-[Instrumente] [Pfandbriefe] [Schuldverschreibungen]

Der Gläubiger [eines Nullkupon-Instruments] [eines Nullkupon-Pfandbriefs] [einer Nullkupon-Schuldverschreibung] ist dem Risiko ausgesetzt, dass der Kurs [eines solchen Instruments] [eines solchen Pfandbriefs] [einer solchen Schuldverschreibung] infolge von Veränderungen des Marktzinssatzes fällt. Kurse von Nullkupon-[Instrumenten] [Pfandbriefen] [Schuldverschreibungen] sind volatil als Kurse von festverzinslichen [Instrumenten] [Pfandbriefen] [Schuldverschreibungen] und reagieren wahrscheinlich in höherem Maße auf Veränderungen des Marktzinssatzes als verzinsliche [Instrumente] [Pfandbriefe] [Schuldverschreibungen] mit einer ähnlichen Fälligkeit. [Sofern Nullkupon[Instrumente] [Pfandbriefe] [Schuldverschreibungen] über par begeben und zu par zurückgezahlt werden, sind Investoren dem Risiko keiner oder einer negativen Rendite in Bezug auf die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] ausgesetzt.]]

[CMS Spread [Instrumente] [Schuldverschreibungen] [Pfandbriefe]

Eine Zinszahlung auf CMS Spread [Instrumente] [Schuldverschreibungen] [Pfandbriefe] ist abhängig von einer Differenz zu anderen CMS-Sätzen, die jeweils unterschiedliche Laufzeiten haben.

Investoren können erwarten, dass die Zinskurve während der Laufzeit von CMS Spread [Instrumenten] [Schuldverschreibungen] [Pfandbriefen] (i) nicht abflacht bzw. ansteigt bzw. (ii), abhängig von der Struktur der CMS Spread [Instrumente] [Schuldverschreibungen] [Pfandbriefe] nicht steil ansteigt. Für den Fall, dass sich der Markt nicht so, wie von dem Investor

angenommen, entwickelt, und, dass sich die Differenz zwischen den CMS Sätzen mit unterschiedlichen Laufzeiten in einem größeren Umfang als angenommen verringert, wird die Zinszahlung in Bezug auf die CMS Spread [Instrumente] [Schuldverschreibungen] [Pfandbriefe] unter dem Level liegen, als sie zum Zeitpunkt des Kaufs üblich gewesen ist. Im schlechtesten Fall verringert sich die Höhe des Zinses auf null. In einem solchen Fall verringert sich der Preis der CMS Spread [Instrumente] [Schuldverschreibungen] [Pfandbriefe] während ihrer Laufzeit.

[CMS Spread [Instrumente] [Schuldverschreibungen] [Pfandbriefe] können mit einer anfänglichen festverzinslichen Periode begeben werden, sodass sie Risiken von fest- zu variabel verzinslichen [Instrumente] [Schuldverschreibungen] [Pfandbriefen] beinhalten.]

[Die Zinszahlung auf CMS Spread [Instrumente] [Schuldverschreibungen] [Pfandbriefe] kann auf einen bestimmten Höchstzins festgelegt werden, sodass Investoren an einer positiven Entwicklung, die über den Höchstzins hinausgeht nicht partizipieren.]]

[Range Accrual [Instrumente] [Schuldverschreibungen] [Pfandbriefe]

Range Accrual [Instrumente] [Schuldverschreibungen] [Pfandbriefe] können vorsehen, dass eine Zinszahlung von der Anzahl an Tagen abhängt, an denen der [CMS-Satz] [Referenzsatz] [über/gleich oder unter/gleich einem bestimmten Zinssatz ist] [innerhalb der bestimmten maßgeblichen Vergleichszins-Bandbreite liegt]. Die Zinszahlung in Bezug auf die Range Accrual [Instrumente] [Schuldverschreibungen] [Pfandbriefe] verringert sich, abhängig von der Anzahl an Feststellungstagen, während derer sich der [CMS-Satz] [Referenzsatz] [[über] [unter] [oder gleich] dem maßgeblichen Zinssatz] [innerhalb der maßgeblichen Vergleichszins-Bandbreite] bewegt. Es kann keine Zinszahlung für den Fall erfolgen, dass der [CMS-Satz] [Referenzsatz] während des Akkumulationszeitraums vollständig [[über] [unter] [oder gleich] dem maßgeblichen Zinssatz] [außerhalb der Vergleichszins-Bandbreite] bleibt.

[Range Accrual [Instrumente] [Schuldverschreibungen] [Pfandbriefe] können mit einer anfänglichen festverzinslichen Periode begeben werden, sodass sie Risiken von fest- zu variabel verzinslichen [Instrumente] [Schuldverschreibungen] [Pfandbriefen] beinhalten.]]

[Festverzinsliche nachrangige Reset [Instrumente] [Schuldverschreibungen]

Gläubiger von Reset [Instrumenten] [Schuldverschreibungen], die mit einem festen Zinssatz verzinst werden, der während der Laufzeit neu berechnet wird, sind sowohl dem Risiko ausgesetzt, dass der Preis der [Instrumente] [Schuldverschreibungen] aufgrund von Änderungen des Marktzinnes fällt, als auch dem Risiko sich verändernder Zinssätze und einer ungewissen Zinshöhe.]

[Clearingsysteme

Da Globalurkunden, welche die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] verbriefen, von oder namens [Clearstream

Banking, SA, Luxembourg ("CBL") [,] [und] [Euroclear Bank SA/NV ("Euroclear")] [,] [und] [Clearstream Banking AG, Frankfurt am Main ("CBF")] [der Depository Trust Company ("DTC")] gehalten werden können, gelten für Investoren die dort maßgeblichen Verfahren für Übertragungen, Zahlungen und die Kommunikation mit der Emittentin.]

[Verwahrungsstruktur]

Auch wenn die Schuldverschreibungen von CBL oder Euroclear gehalten werden, heißt das nicht notwendigerweise, dass diese als Sicherheiten für die Zwecke der Fiskalpolitik des Eurosystems akzeptiert werden.]

[Nachrangige [Instrumente][Schuldverschreibungen] der Emittentin]

Im Falle der Auflösung, der Liquidation oder der Insolvenz der Emittentin oder eines Vergleichs oder eines anderen auf die Abwendung der Insolvenz dienenden Verfahrens gegen die Emittentin gehen die Verbindlichkeiten aus den nachrangigen [Instrumenten][Schuldverschreibungen] den Ansprüchen dritter Gläubiger der Emittentin aus nicht-nachrangigen Verbindlichkeiten oder nachrangigen Verbindlichkeiten, die aufgrund gesetzlicher Vorschriften oder aufgrund der Bedingungen dieser Verbindlichkeiten vorrangig sind, im Range nach, so dass Zahlungen auf die [Instrumente][Schuldverschreibungen] solange nicht erfolgen, wie die Ansprüche dieser dritten Gläubiger der Emittentin aus nicht-nachrangigen Verbindlichkeiten nicht vollständig befriedigt sind. Darüber hinaus sind Ansprüche aus und im Zusammenhang mit den nachrangigen [Instrumenten][Schuldverschreibungen] den besonderen Risiken aus Abwicklungsmaßnahmen (und damit bereits vor einer Insolvenz der Emittentin oder einem anderen vorgenannten ähnlichen Verfahren) nach der BRRD, dem SAG und der SRM Verordnung ausgesetzt. Sollte dies eintreten, so stehen der Emittentin nach diesen Zahlungen möglicherweise nicht ausreichend Vermögenswerte zur Verfügung um die fälligen Zahlungen unter den [Instrumenten][Schuldverschreibungen] zu leisten.]

[Vorzeitige Rückzahlung Nachrangiger [Instrumente][Schuldverschreibungen]]

Die Nachrangigen [Instrumente][Schuldverschreibungen] können nach Wahl der Emittentin und vorbehaltlich der vorherigen Erlaubnis (falls erforderlich) der zuständigen Aufsichtsbehörde vollständig, aber nicht teilweise, zurückgezahlt werden, sofern die Nachrangigen [Instrumente][Schuldverschreibungen], nach Einschätzung der Emittentin, (i) die Emittentin die [Instrumente][Schuldverschreibungen], aus anderen Gründen als der Amortisierung gemäß den Eigenmittelvorschriften (einschließlich, aber nicht ausschließlich Artikel 64 CRR), nicht vollständig für Zwecke der Eigenmittelausstattung als Ergänzungskapital (Tier 2 Kapital) nach Maßgabe der Anwendbaren Eigenmittelvorschriften anrechnen darf oder wird anrechnen dürfen oder (ii) wenn die [Instrumente][Schuldverschreibungen] in sonstiger Weise einer weniger günstigen regulatorischen Eigenmittelbehandlung unterliegen oder unterliegen werden als am Ausgabebetrag. Aufgrund des Rechts der Emittentin auf vorzeitige Rückzahlung ist der Gläubiger dem Risiko ausgesetzt, dass er möglicherweise einen geringeren als den erwarteten Ertrag erzielen wird.]

[Erlaubnis der zuständigen Aufsichtsbehörde]

Die Gläubiger der Nachrangigen [Instrumente][Schuldverschreibungen] sind nicht berechtigt, die Rückzahlung ihrer [Instrumente][Schuldverschreibungen] zu verlangen und sollten nicht in Nachrangige [Instrumente][Schuldverschreibungen] investieren in der Erwartung, dass eine Call-Option auch von der Emittentin ausgeübt wird. Selbst wenn die Emittentin von der zuständigen Aufsichtsbehörde eine vorherige Erlaubnis erhält, so entscheidet die Emittentin immer in ihrem freien Ermessen darüber, ob sie die Call-Option in Bezug auf die Nachrangigen [Instrumente][Schuldverschreibungen] ausüben wird, im Hinblick auf Faktoren wie wirtschaftliche und marktbezogene Auswirkungen einer Ausübung der Call-Option, regulatorische Kapitalvorschriften und vorherrschende Marktkonditionen.

Gläubiger Nachrangiger [Instrumente][Schuldverschreibungen] sollten sich bewusst sein, dass sie möglicherweise die finanziellen Risiken einer Investition in Nachrangige [Instrumente][Schuldverschreibungen] bis zur Endfälligkeit solcher [Instrumente][Schuldverschreibungen] selbst zu tragen haben.]

Besteuerung – Allgemein

Die Informationen, welche in Bezug auf Besteuerung im Basisprospekt enthalten sind, sind keine vollständige Analyse aller Steuererwägungen in Bezug auf die [Instrumente] [Pfandbriefe] [Schuldverschreibungen]. Zukünftige Erwerber der [Instrumente] [Pfandbriefe] [Schuldverschreibungen] sollten daher vor einem Erwerb ihre eigenen Steuerberater zu Rate ziehen.

Sollten, gemäß der gegenwärtig veröffentlichten Richtlinien und Hinweise, (a) Instrumente von der New York Niederlassung der begeben werden oder (b) die [Instrumente (ausgenommen solcher Instrumente, die von der New York Niederlassung der LBBW begeben werden)] [Pfandbriefe] [Schuldverschreibungen] nach dem Tag, der 6 Monate nach dem Tag liegt, an dem endgültige U.S. Treasury Verordnungen den Begriff „ausländische durchgeleitete Zahlungen“ definieren (der "**Stichtag für durchgeleitete Zahlungen**") begeben werden oder in jedem Fall vor dem Stichtag für durchgeleitete Zahlungen, sofern die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] im Sinne des US-Einkommenssteuerrechts nach dem Stichtag für durchgeleitete Zahlungen "erheblich verändert" werden, dann können (nach den Abschnitten 1471 bis 1474 des U.S. Internal Revenue Code von 1986 oder gemäß vergleichbaren Regelungen, die eine zwischenstaatliche Abstimmung dazu umsetzen ("**FATCA**") die Emittentin oder andere Finanzinstitute, über die Zahlungen auf die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] ausgeführt werden, verpflichtet sein, US-Steuern in einer Höhe von 30 % (x) im Falle von Schuldverschreibungen, die von der New York Niederlassung begeben werden, auf Zinszahlungen, die zu irgendeiner Zeit geleistet wurden, und Kapitalzahlungen und Bruttoerträge bei Verkauf nach dem 31. Dezember 2018 sowie (y) auf alle Zahlungen, oder Teilsommen davon, zu erheben, die nach dem 31. Dezember 2018 in Bezug auf die [Instrumente (ausgenommen solcher Instrumente die von der New York Niederlassung der LBBW

begeben werden)] [Pfandbriefe] [Schuldverschreibungen] erfolgen. Außerdem kann ein Einbehalt nach FATCA ausgelöst werden, wenn die Emittentin (ausgenommen solcher Schuldverschreibungen, die von der New York Niederlassung der LBBW begeben werden) nach dem Stichtag für durchgeleitete Zahlungen weitere [Instrumente] [Pfandbriefe] [Schuldverschreibungen], die nicht in einer Weise begeben werden, die eine "qualifizierte Neuemission" im Sinne der US-Bundessteuergesetze begründet, ausstellt und emittiert, die konsolidiert werden und mit ausstehenden [Instrumenten] [Pfandbriefen] [Schuldverschreibungen] eine einheitliche Serie bilden, wie in §9 der Bedingungen geregelt. Der steuerliche Einbehalt nach FATCA kann ausgelöst werden, wenn: (a) die Emittentin die New York Niederlassung der Bank ist oder im Falle von Schuldverschreibungen, die nicht von der New York Niederlassung der Bank begeben wurden, eine „foreign financial institution“ (wie in FATCA definiert) ("FFI") ist, und (b) (i) ein Investor nicht die Informationen mitteilt, die für die Emittentin erforderlich wären, um zu bestimmen, ob der Investor eine US-Person ist oder andernfalls als eine Person behandelt werden müsste, die ein „United States Account“ einer solchen FFI hält, (ii) im Falle von Schuldverschreibungen, die von der New York Niederlassung der LBBW begeben werden, es sich bei dem Investor um ein ausländisches Nicht-Finanzinstitut (*non financial foreign entity*) handelt und dieses es versäumt, bestimmte Informationen in Bezug auf maßgebliche US-Investoren bereitzustellen oder (iii) eine FFI, durch oder an die Zahlungen auf die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] erfolgen, kann Zahlungen nicht frei von FATCA Einhalten empfangen.

Deutschland hat eine zwischenstaatliche Vereinbarung ("IGA" – *intergovernmental agreement*) mit den Vereinigten Staaten getroffen, um FATCA für bestimmte deutsche Finanzinstitute zu implementieren. Die Emittentin ist dazu verpflichtet, Deutschland bestimmte Informationen über ihre US-Kontoinhaber mitzuteilen, um (i) von einem Einbehalt nach FATCA auf Zahlungen, die sie erhält, ausgenommen zu werden und/oder (ii) geltendem deutschen Recht zu entsprechen. Es ist derzeit noch nicht sicher, wie die Vereinigten Staaten und Deutschland mit dem Einbehalt auf „ausländische durchgeleitete Zahlungen“ umgehen werden (die möglicherweise Zahlungen auf [Instrumente (anders als Instrumente, die von der New York Niederlassung der Bank begeben werden)] [Pfandbriefe] [Schuldverschreibungen] beinhalten) oder ob ein solcher Einbehalt überhaupt erforderlich sein wird.

Die Anwendung von FATCA auf Zinsen, Kapital oder andere Beträge, die in Bezug auf die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] geleistet werden, ist nicht geklärt. Wenn FATCA verlangen würde, dass ein Betrag aufgrund von US-Quellensteuer von Zinsen, Kapital oder anderen Zahlungen auf die (oder bezüglich der) [Instrumente] [Pfandbriefe] [Schuldverschreibungen] abzuziehen oder einzubehalten wäre, dann wäre weder die Emittentin, eine Zahlstelle oder eine andere Person verpflichtet, zusätzliche Zahlungen aufgrund des Abzugs oder des Einhalts einer solchen Steuer zu leisten. Im Ergebnis würde ein Investor, wenn FATCA in der Form umgesetzt wird, wie momentan von IRS vorgeschlagen, weniger Zinsen oder Kapital erhalten, als angenommen.

Fehlende Marktliquidität

Es kann nicht vorausgesagt werden, ob es für die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] einen Sekundärmarkt geben, ob ein solcher Markt liquide oder illiquide sein wird und wie sich die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] in einem solchen Sekundärmarkt handeln lassen.

Unabhängige Einschätzung und Beratung

Jeder potentielle Erwerber von [Instrumenten] [Pfandbriefen] [Schuldverschreibungen] muss auf der Grundlage seiner eigenen unabhängigen Einschätzung und der den Umständen entsprechenden professionellen Beratung entscheiden, ob der Kauf der [Instrumente] [Pfandbriefe] [Schuldverschreibungen] in jeder Hinsicht seinen eigenen finanziellen Möglichkeiten, Zielen und Umständen (oder für den Fall, dass die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] treuhänderisch erworben werden, derjenigen des Begünstigten) entspricht, mit allen geltenden Anlageprinzipien, Richtlinien und Einschränkungen (je nachdem, ob die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] im eigenen Namen oder treuhänderisch erworben werden) übereinstimmt und sich als geeignete, angemessene und zulässige Investition darstellt (für sich selbst oder für den Fall, dass die [Instrumente] [Pfandbriefe] [Schuldverschreibungen] treuhänderisch erworben werden, für den Begünstigten). Dies gilt unabhängig von den offensichtlichen und erheblichen Risiken, die mit einer Investition in bzw. einer Inhaberschaft an den [Instrumenten] [Pfandbriefen] [Schuldverschreibungen] verbunden sind.

RISK FACTORS

Words and expressions defined in the "Terms and Conditions of the Instruments", the "Terms and Conditions of the Pfandbriefe in bearer form" or "Terms and Conditions of the Pfandbriefe in registered form" or "Terms and Conditions of the German law governed bearer Notes" below or elsewhere in this Base Prospectus have the same meanings, unless otherwise noted.

Investing in the Securities involves certain risks. Prospective investors should consider that the following factors may affect the ability of the Issuer to fulfil its obligations under the Securities and/or are material for the purpose of assessing the market risks associated with Securities issued under the Programme. If one or more of the risks described below occurs, this may result in material decreases in the price of the Securities or, in the worst-case scenario, in total loss of interest and capital invested by the investor:

Risks relating to LBBW

Risk Management

LBBW Group defines risk management as the use of a comprehensive set of tools to address risks within the scope of the risk-bearing capacity and the strategy set out by the Board of Managing Directors. Risks should be taken within the scope of the internal control process, in a deliberate and controlled manner, and on the basis of the associated opportunities for income and growth potential.

The internal control process thus forms a core element of LBBW Group-wide system for risk-oriented integrated bank management and particularly comprises the organizational and operational structure, the risk management and control processes, and internal auditing.

The Board of Managing Directors and the Supervisory Board (as defined in "*Description of LBBW – Supervisory Board*") stipulate the principles of the risk management system by defining risk strategies that are consistent with LBBW's Group business strategy.

Risk strategy guidelines are defined in the group risk strategy, which applies to the entire Group and across all risk types, in accordance with the Minimum Requirements for Risk Management (MaRisk). It is determined through the definition of basic risk-strategy principles, strategic limits, the liquidity risk tolerance and the principles of risk management and observed in all business activities.

The basic risk-strategy principles reflect the conservative risk policy defined in the business strategy:

- Sustainable observance of risk-bearing capacity even under stress conditions
- Solvency and observance of liquidity risk tolerance at all times, including under stress conditions
- Sustainable compliance with and fulfillment of the regulatory minimum ratios

The strategic limit system operationalizes the requirements and objectives defined in the business strategy for all material risk types covered by risk-bearing capacity. The upper risk limit for economic capital was defined by the Group's Board of Managing Directors, taking into account the aforementioned fundamental risk strategy requirements and the economic capital forecast for the coming five years for 2017, and allocated to the material risk types. Further details can be found in the section on the risk situation of LBBW Group.

The liquidity risk tolerance caps the liquidity risk in the narrower meaning (i.e. it limits the risk of not meeting payment obligations).

The risk guidelines represent core principles for balancing opportunities and risks within LBBW. They contribute to the creation of a uniform risk culture and – in accordance with materiality principles – form the framework for the precise organization of processes and methods of risk management.

In addition, the specific risk strategies approved for each material risk type document the current and target risk profile of LBBW, specify customer-, product- and market-specific guidelines and thereby create the framework for medium-term planning together with the business strategy. Additional information on the specific risk strategies is provided in the sections on the respective risk type.

Operational implementation of these requirements is monitored by target/actual analyses, monthly analyses of results, as well as strategic and operational limit systems.

A Group-wide compilation of risks across all material risk types and subsidiaries, and the comparison of these with the capital calculated from an economic perspective (aggregate risk cover), are carried out in the calculation of risk-bearing capacity (RBC) according to the so-called liquidation principle. Internal monitoring of this figure ensures the adequacy of LBBW Group's economic capital resources.

At LBBW Group, aggregate risk cover (corresponds to risk coverage potential as per MaRisk) denotes the equity restricted according to economic criteria which is available to cover unexpected losses. In addition to equity (as per IFRS including revaluation reserves), subordinated debt and income statement in accordance with IFRS are considered components of aggregate risk cover. Extensive conservative deductible items are also included in aggregate risk cover due to regulatory requirements.

Economic capital is calculated as a uniform risk measure at the highest level. This is deemed to constitute the amount of capital necessary to cover the risk exposure resulting from LBBW's business activities. In contrast with the capital backing stipulated by regulatory bodies, it therefore represents the capital backing required from LBBW Group's point of view for economic purposes, which is calculated using its own risk models. It is quantified as value-at-risk (VaR) at a confidence level of 99.93 % and a one-year holding period for counterparty, market price, real estate, development, investment and operational risks, and using simplified procedures for other risks.

By contrast, the liquidity risks are managed and limited in accordance with the quantitative and procedural rules defined in the liquidity risk tolerance.

The upper risk limit for economic capital (economic capital limit) represents the Group-wide overarching limit for all relevant quantified risk types. This limit reflects the maximum willingness of LBBW Group to accept risk. In keeping with the conservative principle underlying risk tolerance it is substantially below the aggregate risk cover and thus provides scope for risks arising from unforeseeable stress situations. In addition, the economic capital limit is verified on the basis of target figures. On the basis of the upper economic capital limit, economic capital limits are defined for the various directly quantified risk types and for the other risks not quantified within a model approach. The risk-bearing capacity is monitored by Group Risk Control by means of a traffic light system. The respective traffic light thresholds are linked to the recovery plan pursuant to the German Recovery and Resolution Act (SAG) and tied to an escalation process. Risks within the framework of LBBW Group's risk-bearing capacity are described before possible measures to limit risks (so-called gross presentation).

In addition to the economic perspective, LBBW Group's capital management also includes the management of regulatory capital. Current compliance with the internal targets (which noticeably exceed the regulatory minimum requirements) is monitored using the regulatory report, while ensuring the long-term fulfillment within the scope of the regulatory and economic capital planning process as well as the ongoing monitoring process. In addition, compliance with the minimum regulatory requirements in case of adverse developments is ensured by an analysis of stress scenarios.

To sum up, it can be stated that the risk-bearing capacity of LBBW Group was maintained without restriction during the entire 2016 financial year. The aggregate risk cover at year-end 2016 was virtually unchanged from year-end 2015. Subordinated capital maturities were compensated for by

new subordinated liabilities issues. At 44 %, utilization of the aggregate risk cover was significantly lower compared to year-end 2015, due to the risk development. Furthermore, stress test resistance was maintained throughout the entire financial year.

1) Confidence level of 99.93 %/1-year holding period.

2) The individual risk types are capped by means of economic capital limits.

3) Other risks (in particular, reputation, business, pension and model risks).

The economic capital has declined by a total of EUR -0.7 billion since year-end 2015. Market price risk is calculated as part of the risk-bearing capacity on the basis of the maximum of VaR and long-term VaR. The latter is based on a longer observation period of five years. Accordingly, the decline in economic capital for the market price risk is attributable in particular to the shift in the observation period for the long-term VaR and the associated lower volatilities. The methodology for identifying business and reputation risks has been fundamentally revised. The decline in other risk is mainly due to this revised methodology. The lower investment risk results from the implementation of the Risk Management Group, which applies the transparency principle to material subsidiaries – i.e. companies whose risk potential is classified as material from a Group point of view. Accordingly, all material risks at Group level are quantified separately in the respective risk type for each of these subsidiaries, using estimation procedures if necessary. The slight increase in counterparty risk is mainly as a result of a methodological development, where the risk of a change in in the credit value adjustments was included in the risk calculation.

At LBBW Group, transactions can only be entered into within clearly defined limits or approval powers and in accordance with the principles of the risk strategy. Within the defined framework, risk management decisions are made by the departments with portfolio responsibilities, maintaining the separation of functions; these decisions are monitored by central Group Risk Control. The risk control and risk management system set up for this purpose covers all material risks and the details specific to the risk types.

Potential concentration of risk receives particular attention. On the one hand, concentrations tend to arise as a result of the synchronization of risk positions within one risk type. On the other hand, they can also be produced as a result of common risk factors or interactions between various risk factors of different risk types. At LBBW, appropriate processes are used to identify and to deliberately manage risk concentration. Risks to the Group's going concern status must be excluded. Differentiated monitoring processes (e.g. report on risk concentrations, stress tests) and limits (e.g. sector and country limits) are available for the purpose of monitoring this strategic requirement. Additional information on this is provided in the sections on the respective risk type.

The Risk Committee comprises the board members with responsibility for financial markets/international business, finance/controlling and risk management/compliance and auditing, in addition to divisional managers from, among other areas, Group Risk Control, Financial Controlling and Treasury. As an advisory committee, it prepares decisions for the Board of Managing Directors

and supports it in risk monitoring, risk methodology and risk strategy for the Group as a whole. The monthly overall risk report and other reports prepared on specific issues as required form the basis for this.

The Asset Liability Committee (ALCo) also has an advisory role and works on preparing decisions for LBBW Group's Board of Managing Directors. The focus of the Asset Liability Committee is on strategic resource management for LBBW Group as a whole. It supports the Board of Managing Directors, among other things in structuring the balance sheet, managing capital and liquidity as well as in funding and managing market price risks. The committee comprises the Chairman of the Board of Managing Directors, the board members responsible for financial markets/international business, risk management/compliance and auditing, as well as the board member responsible for finance/controlling, in addition to specific divisional managers from Treasury, Group Risk Control, Financial Controlling and Finance, among other areas.

The coordinating Regulatory/Accounting Committee evaluates at an early stage the requirements of the large number of provisions of banking supervisory law and accounting that are relevant for management purposes and takes the measures required. The committee comprises the Chairman of the Board of Managing Directors, the board members with responsibility for financial markets/international business, finance/controlling and risk management/compliance and auditing, as well as divisional heads from Finance, Group Risk Control, Treasury and Group Strategy/Legal, among other areas.

The Group Auditing division is a process-independent department that monitors the operations and business work flows, risk management and control and the internal control system (ICS) with the aim of safeguarding LBBW Group's assets and boosting its operating performance. The Group Auditing division exercises its duties autonomously. The Board of Managing Directors is informed of the results of audits in written audit reports, which are discussed with the audited operating units. The Group Auditing division also monitors the measures taken in response to the audit findings.

The auditing activities of the Group Auditing division are generally based on an audit schedule, approved annually by the Board of Managing Directors, on the basis of a long-term risk-oriented plan, which records all the activities and processes of LBBW Group, allowing for risk weighting in a reasonable period, but always within three years.

Market Price Risk

Market price risk refers to potential losses in portfolio value caused by market factors including changes in interest rates and credit spreads, the price of shares, foreign currencies, commodities and market volatilities. Market price risks are managed on an ongoing basis by the Bank's trading units. Positions bearing market price risk are booked in both the banking and trading book of LBBW Group.

Responsibility for managing market price risk at an aggregated level is taken primarily by the Board of Managing Directors' Asset Liability Committee. The treasury division of LBBW Group (the "**Treasury Division**") uses offsetting transactions to close out interest rate risks from new transactions with customers in near real-time. The strategic risk positions relate mainly to the investment of own funds and specific maturity transformations in Euro and foreign currencies. In addition to interest rate positions, other positions can be held in foreign currencies and stocks. The Treasury Division presents the proposals it develops to manage these strategic positions for approval by the Asset Liability Committee as part of its monthly meeting which gives recommendations for decisions to the Board.

In order to manage its risk positions on a day-to-day basis, LBBW Group has set up an operational limit system that distinguishes between risk limits and Loss Warning Trigger. The individual risk limits are derived from the strategic economic capital limit for market price risk which is part of the maximum limit for LBBW Group as a whole. In addition, sensitivity limits at a lower portfolio level

allow in depth monitoring of trading strategies. While the risk limits refer to potential losses from open market price risk positions, the Loss Warning Trigger takes into account accumulated realised and unrealised losses of the current financial year as well as for trading books last 40 days.

The measurement and control of market price risk at LBBW Group is performed by the "Group Risk Controlling". Risk Controlling is set up independently of the trading units. Group Risk Controlling calculates the risk figures for the banking and trading books on a daily basis. LBBW Group uses a simulation-based risk model ("SiRA") to calculate Value at Risk ("VaR"), enabling the Bank to identify not only interest rate risks, but also option price and credit spread risks. The model has been approved as an "internal risk model" defined by the Capital Requirements Regulation of the Banking Act for capital backing related to market price risks for the part of general interest rate risk and equity risk. In the context of market price risk VaR-calculations are based on market moves (volatilities) and market correlations observed within a given historical period. The VaR describes the aggregate market price risk of a portfolio, including risk compensation effects.

A confidence level of 95% and a holding period of one day are assumed for all portfolios for internal risk measurement and limitation. All historical analyses refer to the last 250 trading days and are included in the calculations with an equal weight. Market price risk across all portfolios is calculated on a daily basis.

Since the beginning of 2016 LBBW Group reduced its market price risk from VaR (confidence level of 99%, holding period 10 days) EUR 228 million (30 December 2015) to EUR 131 million (30 December 2016). The decrease resulted mainly from an improvement in the synchronisation of the market data cut time.

Credit spread risks were LBBW Group's principal market price risk throughout 2016. VaR average was EUR 186 million (99% / 10 days).

Credit spread risks are split in general and issuer specific risk. Therefore, LBBW Group maps the cashflows of credit spread sensitive positions to rating and sectorspecific interest rate curves. Credit derivatives are priced with issuer specific spreads.

The market price risks entered into were fully within LBBW Group's risk bearing capacity in 2016. The Loss Warning Trigger on the level of LBBW Group was not breached throughout 2016.

The quality of the calculated risk figures is subject to a daily backtesting by Group Risk Controlling. Exceptions are losses, which exceed the measured VaR value in absolute terms. The ratio of exceptions is expected to be in line with the confidence level of the VaR measurement. As of 30 December 2016 (inclusive), clean backtesting for the last 250 trading days produced one outlier for LBBW Group level and for the trading book caused by the Brexit referendum. For the banking book no outliers were observed. Also for the portfolio, for which capital adequacy is measured using the internal risk model (CRR portfolio), no outliers were observed.

Based on the dirty P & L calculation, LBBW Group experienced no outlier on LBBW Group level and for the banking book, three in the trading book and two in the CRR portfolio. Contributory factors for the trading book and the CRR portfolio were the adjustments of monthly calculated credit valuation adjustments. This means that no additional capital needs to be required concerning model outliers for regulatory purposes. Additionally StressVaR is calculated on a weekly basis. For this calculation the same model is used as for VaR calculation, but the time period for the market data differs. To calculate the StressVaR, the time period with the worst market data for the related portfolio for which capital adequacy for equity risks and general interest rate risks is measured using the internal risk model is chosen. In addition to VaR, Group Risk Controlling also calculates stress test figures. The figures demonstrate losses that can be incurred in case of extreme market events. For the development of these scenarios both events from September 1992 and synthetic scenarios are used.

The Board of Managing Directors and the departments assuming portfolio responsibility receive a daily report from Group Risk Controlling including the level of market price risk limits utilised and managerial analyses of trading results. Results of stress test simulations are reported on a weekly basis and the Board of Managing Directors receives consolidated information on the risk and earnings situations by means of monthly reporting.

Counterparty Risk

LBBW Group defines counterparty risk as the risk that borrowers and other counterparties may no longer be able to fully meet their contractual payment obligations. Counterparty risk may occur both from direct contractual relationships (e.g. granting loans, buying a security) and indirectly, e.g. from hedging obligations (especially issuing guarantees, selling hedging via credit derivatives).

LBBW Group uses specific rating and risk classification procedures for all relevant business activities. These procedures quantify the probability of default (PD) of the individual investments. For this purpose, the counterparty risk is calculated both including and excluding the transfer risk.

The quality of the risk classification procedures in use is reviewed regularly and the procedures are refined if necessary. These procedures are maintained and updated by LBBW on its own initiative or in cooperation with Rating Service Unit GmbH & Co. KG (an associated company of the Landesbanken) or Sparkassen Rating und Risikosysteme GmbH (a subsidiary of Deutscher Sparkassen- und Giroverband – DSGV).

Continual information exchange with the European Central Bank ("**ECB**") and the German regulators Deutsche Bundesbank and Bundesanstalt für Finanzdienstleistungsaufsicht ("**BaFin**") is maintained as part of the development process. As at 1 January 2008, LBBW Group began using the internal ratings-based approach ("**IRBA**") to measure capital adequacy for counterparty risk after the rating procedures used by LBBW Group were audited and approved by the supervisory authorities.

The credit risk strategy ("**CRS**") is the basis for LBBW Group-wide credit risk management. The main task of the CRS management instrument is to ensure consistent Group-wide objectives with respect to market activities and the largely uniform treatment of similar risks. From a risk perspective, the aim is to prevent concentration risks within LBBW Group or to limit such risks to an appropriate extent. Accordingly, the CRS sets out the framework for the lending business within LBBW Group, taking into account the guidelines and requirements set out in the Business Strategy and the Group Risk Strategy. The CRS is oriented to current overall economic conditions, taking into account the Bank's risk-bearing potential and the economic capital limit for credit risk. Key components of this strategy are qualitative, quantitative and business-segment-specific requirements, which are applied for individual transactions or business areas and sub-portfolios.

The organisational structure of the lending business prescribes a strict separation between loan acquisition and the loan approval process. In the course of processing and approving loans, loan authorising staff are required to accept full responsibility for making independent decisions.

LBBW Group has several departments managing its lending business; each is responsible for a specific group of borrowers. Each department is individually responsible for processing loan applications, reviewing the creditworthiness of borrowers, as well as for monitoring the risks associated with its outstanding loans. The valuation of collateral is partly provided by a specialized department. In limiting credit risk arising from individual borrowers the following tasks are paramount for all customer groups: responsible risk assessment, limitation of loan obligations and risk-adjusted pricing. All such decisions must comply with the relevant legal requirements (in particular the Banking Act), as well as with the provisions of the Bank's Ordinance (*Satzung*), internal credit rules (*Entscheidungsordnung*), the CRS guidelines and further requirements, especially working instructions (*Kredit.net-Regelungen, Arbeitsanweisungen*). The degree of authority required for loan approvals depends on the type of borrower, the loan amount, the internal rating and the compliance with regulations of the CRS. The approval is given by an executive at the respective level of the Bank's hierarchy and, if the internal credit rules so specifies, by one or more members of the

Management Board, the credit committee (*Kreditkomitee*), the entire Management Board or the Risk Committee of the Supervisory Board (*Risikoausschuss*).

At least once a year a decision is made on the total risk attributed to a borrower/counterparty as well as the structure (term/use) of such risk on the basis of the creditworthiness assessment. This is in accordance with § 18 of the Banking Act and the Minimum Requirements for Risk Management (*Mindestanforderungen an das Risikomanagement - MaRisk*). These assessments must be suitably documented and if necessary, this review process is carried out more often than once a year. LBBW Group's internal processes aim to identify commitments affected by low credit ratings or deterioration in credit ratings at an early stage, on the basis of early warning indicators. This enables the Bank to start a dialogue with customers to initiate timely countermeasures. Depending on the level of risk, problematic commitments are classified as cases requiring intensive tracking, restructuring or liquidation and are dealt with by specialized divisions. LBBW Group aims to minimize losses through successful restructuring activities, in line with the Bank's own interests and those of customers.

Country and transfer risk relate to a situation in which customers abroad who are both willing and able to meet their payment obligations cannot fully meet their obligations in foreign currencies arising from cross-border transactions due to limitations on currency transfer or other government actions. To assess country and transfer risk LBBW Group applies a separate rating system. In order to control country risks, the Board of Managing Directors establishes a limit for each country upon recommendation by the Bank's country limit committee. These individual maximum limits are calculated on the basis of key factors such as the country creditworthiness category, the respective country's gross domestic product and the equity of LBBW Group. The country limit utilization is monitored on a daily basis. Reports on the country exposure/transfer risk are regularly submitted to the Board of Managing Directors.

Allowances for losses on loans and advances comprise write-downs on financial instruments reported as loans and advances. This includes all loans that are not subject to fair value measurement. Allowances for off-balance-sheet transactions (undrawn loan commitments and contingent liabilities) are shown as provisions for credit risk. In the case of write-downs, a difference is made between specific valuation allowances, collective valuation allowances and portfolio valuation allowances. A write-down is generally created where there are objective indications of impairment. If this is the case, specific valuation allowances are recognized for significant receivables and collective valuation allowances for insignificant receivables. Objective evidence of impairment includes, in particular, significant financial difficulty for the borrower, breach of contract (default or delinquency in interest or principal payments) or increased likelihood that the borrower will enter bankruptcy or other financial reorganization. If there are no indications, portfolio valuation allowances are created, since it can be assumed that certain risks have already occurred but were not yet recognized. Loans are derecognized if they are uncollectible. Recoveries on loans already derecognized are recognized in net profit or loss (recoveries of amounts previously written-off).

The total volume of risk provisions for counterparty risks in connection with LBBW Group's lending business (including allowances for off-balance-sheet exposure) amounted to EUR 887 million as at 31 December 2016 (31 December 2015: EUR 1,199 million). In 2016, LBBW Group's total write-offs (including other expenses for the lending business) amounted to EUR 84 million (2015: EUR 112 million). In 2016, LBBW Group received recoveries in the amount of EUR 25 million in connection with loans and guarantee payments written-off in previous years (2015: EUR 18 million). LBBW Group aims to keep the default rate low through a number of measures, including intensive management of loans at risk and loans for which specific provisions have been recorded.

The intention of LBBW Group's credit risk management is to maintain high portfolio quality. Presenting the portfolio by internal rating class depicts how the portfolio quality has developed compared to 31 December 2015.

1) »Default« refers to exposure for which a default event as defined in art. 148 CRR has occurred, e.g. improbability of repayment or 90-day default. The exposure is presented before allowances for losses on loans and advances/impairments.

The quality of LBBW Group portfolio is good and has remained almost constant compared with 31 December 2015. The share of investment grade ratings (ratings 1(AAAA) to 5) increased slightly to 90.5 % (31 December 2015: 89.4 %) as a result of an increase of the net exposure in the rating cluster 2 – 5. The increase is based on new business and migration, particularly from rating clusters 1(AAA) – 1(A-) and 6 – 8. The top rating class 1(AAAA) particularly includes German non-central public-sector entities. The decline in the exposure to German federal states and the Federal Republic of Germany slightly reduced their portfolio share. The net exposure in the rating classes 6 – 15 (non-investment grade) was also lower compared with 31 December 2015. The portfolio share is 7.8 % (previous year: 8.8 %). The non-performing exposure was also reduced to 0.6 % of the total portfolio in line with the trend of the previous years. The decline is the result of numerous reductions in exposure (with disposals accounting for a substantial share) and recoveries. The higher share of non-rated transactions under »Other« is due in particular to the acquisition of a credit card portfolio.

The presentation of the sectors by the dimensions of net exposure, credit value-at-risk (CVaR) and default portfolio likewise provides information on the scope of business activities and the risk situation in the respective sector. The sector classification is based on LBBW's internal risk-oriented sector key that corresponds with the organizational risk management responsibilities in the corporates portfolio.

At Group level, the CVaR is down slightly from the previous year. However, methodological changes made during the period under review resulted in marked shifts at sector level.

1) This figure shows transactions with statutory guarantee («Gewährträgerhaftung») and transactions for risk minimization covered by a guarantee provided by the State of Baden Württemberg. It also includes central banks and banks with a state background.

2) The real estate main sector was newly introduced in the financial year. The prior-year amounts were adjusted accordingly.

Financials represent the largest of the five main sectors with net exposure of EUR 74 billion as at the reporting date. The increase of around EUR 5 billion compared with the end of 2015 is largely due to the higher volume of deposits held with central banks. This led to an increase in the transactions under specific state liability. The higher CVaR resulted from factors including a methodological adjustment to the risk mapping of central counterparties and from taking greater account of potential fluctuations in the fair value of derivatives.

Almost all sectors contribute to the EUR 1 billion increase in exposure in the corporates portfolio to EUR 62 billion. The utilities and disposal companies were the only sector to feature a sizeable decline in exposure. As in the previous year, the automotive sector is the most important sector in the portfolio in terms of concentration aspects and will therefore continue to be monitored closely in the interests of managing sector concentrations. Various issues, such as regulatory changes in drive technology or autonomous driving, are currently being pushed among manufacturers and suppliers in the automotive industry. These will lead to medium- to long-term shifts within the manufacturers and suppliers. For this reason, the automotive portfolio is also being continuously monitored in order to identify opportunities and risks at an early stage.

Besides the automotive sector, commercial real estate is one of the most important sectors in the portfolio in terms of concentration aspects. Having diversified in our strategic locations, we see no excessive concentration risk in this portfolio. The importance of the real estate business for LBBW's loan portfolio is taken into account by the switch into the new real estate main sector. At EUR 10 billion, the net exposure is slightly below the previous year's level. Net exposure to the public sector was reduced significantly compared with the previous year, by EUR 7 billion to EUR 32 billion. Exposure was reduced especially to individual German federal states and the Federal Republic of Germany. Thanks to the very good ratings of the German public sector, these portfolio changes have no appreciable effect on the CVaR. All in all, the CVaR is considerably lower in this

segment as a result of methodological adjustments and a decline in the portfolio of loans to foreign public sector entities. In case of private individuals net exposure and CVaR declined slightly. This portfolio has a particularly high level of granularity.

The share of German business in the net exposure amounted to 69.1%. The general breakdown by region is largely constant, even though the decline in exposure to the German public sector and a higher volume of deposits held with central banks as at the reporting date resulted in smaller regional shifts. The focus on the stable and low-risk core markets in private, SME and large customer business, and the function as a central bank for the savings banks, will continue to secure a dominant German share in the future.

Foreign exposure is particularly spread across Western Europe and North America. Exposure to Eastern Europe, Latin America and Africa results principally from export finance. Their share of net exposure is of subordinate importance.

Regions:

Net exposure ¹⁾ in %	Share

Liquidity Risk

Liquidity risks are defined as the inability to meet payment obligations as they fall due (liquidity risks in a narrower sense) and to raise the required funds at the expected cost (funding (spread) risks).

Liquidity management at LBBW Group is viewed as a cross-departmental responsibility and is performed by the Treasury Division. As a general rule, liquidity mismatches in mid-range and longer maturities as well as the funding of new business are actively managed within the framework of the liquidity risk and funding strategy.

In addition, the quality (market liquidity and eligibility at the European Central Bank, the Federal Reserve of the United States and the Bank of England) and volume of securities in the liquidity reserve are constantly monitored.

For the purpose of ensuring medium to long term liquidity, all transactions having an impact on liquidity are tracked as part of the management of new business. Short term liquidity is managed on the basis of daily forecasts that bundle expected payments from all activities of the Bank affecting liquidity. The short term funding risk, particularly the Bank's dependence on liquidity provided by the interbank market, is minimised bank-wide through the use of limits. Group Risk Control monitors adherence to short-term limits daily and liquidity mismatches are actively managed.

LBBW Group's liquidity situation was always comfortable during 2016. The customer deposit business showed a steady performance and capital market placements – both covered and uncovered – attracted lively interest among national and international investors. LBBW Group's sources of funding are very stable in terms of volume and degree of diversification.

As at the reporting date of 31 December 2016 the funding needs and the counterbalancing capacity were as follows:

Overview of funding needs and counterbalancing capacity

EUR billion as at 31 December 2016	3 months	12 months
Funding requirement from the business portfolio (deterministic cash flow)	11.7	13.3
Material call risks (stochastic cash flow)	14.6	30.5
Free liquidity reserves	24.2	30.7
Funding potential in the market	37.6	49.7

The statutory minimum ratio of 70% applicable for 2016 for the European »Liquidity Coverage Ratio« (LCR) was observed. The ratio as at year end 2016 was 110 %.

The main risk for LBBW Group's liquidity situation is a potential loss in investor confidence and consequently a deterioration of its funding potential.

Although LBBW Group maintains a well-diversified funding base, including both institutional investors from in- and outside the Sparkassen financial group as well as private customers, a loss of confidence by some or all of these investor groups could endanger LBBW Group's liquidity position.

LBBW Group's liquidity situation could also be materially adversely affected by factors LBBW Group cannot control, such as a continued general disruption of financial markets or a negative standing of the financial services industry in general, which could restrict LBBW Group's access to capital markets and limit its ability to obtain funding on acceptable terms. In addition, LBBW Group's ability to raise funding could be impaired if lenders develop a negative perception of the short-term or long-term financial prospects, or a perception that LBBW Group is experiencing greater liquidity risk. Further, LBBW Group's cost of obtaining long-term unsecured funding is directly related to its credit spreads in both the bond and derivatives markets.

A downgrade of LBBW Group's credit ratings or even the possibility of a downgrade could have a detrimental impact on LBBW Group's relationship with its customers and on the sale of products and services and thereby adversely affect its liquidity situation, widen its credit spreads or otherwise increase its funding cost, or limit its access to capital markets.

Risk of a reduction in LBBW Groups's credit ratings

The Issuer's credit ratings are important to its business. There can be no assurance that the rating agencies will not downgrade the ratings of the Issuer or the ratings of the Issuer's debt instruments either as a result of the financial position of LBBW Group or changes to applicable rating methodologies used by Fitch and Moody's and any other relevant rating agency. A rating agency's evaluation of the Issuer may also be based on a number of factors not entirely within the control of the Issuer, such as conditions affecting the financial services industry generally. Any reduction in the Issuer's credit ratings or the ratings of its debt instruments, including any unsolicited credit rating, could adversely affect its liquidity and competitive position, undermine confidence in the Issuer and LBBW Group, increase its borrowing costs, limit its access to the capital markets, or limit the range of counterparties willing to enter into transactions with the Issuer and LBBW Group. Such development could have a material adverse effect on the Issuer and LBBW Group's business, financial situation, results of operations, liquidity and/or prospects.

Operational Risk

LBBW Group defines operational risks (OpRisk) as the risk of losses arising due to the unsuitability or failure of internal processes and systems, people, or due to external events. This definition also includes legal risks.

Operational risks move into the centre of attention as an independent kind of risk due to the rising complexity of the banking industry, the growing speed of innovation as well as the strong increase of use of challenging technology in the banking business. LBBW Group's banking business is based on highly developed information technology and is therefore subject to IT risks. IT-systems are exposed to threats e.g. cyber- and insider attacks, during software or hardware problems delays or mistakes in the ongoing business can appear.

The changing environment in the banking industry requires great demands on the employees and their qualification. Human mistakes in working processes and risks of internal fraud can never be eliminated completely.

LBBW Group is exposed to forces of nature (e.g. floodings) and other extreme events e.g. risks in connection with the geographical proximity of the construction of Stuttgart 21 (e.g. damage to supply lines, IT infrastructure and building damages). General trends which consist of more attacks with criminal threshold (e.g. credit card fraud) or the risk of terrorism or vandalism also apply to LBBW Group. Credit risks in connection with operational risks e.g. falsification of a balance sheet can also occur.

LBBW Group is exposed to legal risks (e.g. new legal rules, changes in jurisdiction or advisor's liability). Following new recent decisions in connection with customer transactions involving complex derivatives and topics relating to consumer law, legal risks stay in the focus of LBBW Group.

The standard approach is used to calculate regulatory capital requirements at LBBW Group. In connection with LBBW Group's risk-bearing capacity (RBC), an operational value-at-risk (OpVaR) model is applied for the internal economic management.

The model is based on the loss distribution approach. Separate segment-specific modeling is carried out for the distribution of frequency and size of loss. Internal and external losses together with scenario analyses are included for the OpVaR calculation.

In line with the other types of risk, a time frame of one year and a confidence level of 99.93 % were used to calculate the OpVaR within the framework of risk-bearing capacity.

The OpVaR model used for internal controlling is integrated into the Group's strategic limit system. There are economic stress scenarios that vary the risk parameters of the OpVaR model (frequency or amount of loss in expected future loss events). This covers the main business lines and event types. The stress test results for operational risks are also incorporated in the overarching MaRisk stress scenarios.

An in-house development based on the Wolfram Mathematica software combined with a web application is used for the OpVaR calculation.

LBBW Group has a comprehensive system for the management and controlling of operational risks. On the basis of a dual overall approach, firstly an independent, centralized organizational unit within the Group Risk Control division is tasked with further developing and implementing the methods and tools used by OpRisk Controlling. Secondly, in LBBW Group, the execution of the processes implemented for the management of operational risks is mainly the responsibility of the individual divisions and subsidiaries.

The central parameters for handling operational risks are anchored in the risk strategy and policy for operational risks as well as in the work rules. Here the risk strategy and policy regulate the risk profile of LBBW Group, the principles of the risk culture as well as the risk management and controlling process with regard to operational risks.

One of the main goals of operational risk management and control activities is to identify operational risks at an early stage, presenting them in a transparent manner and managing them proactively. In addition to the methods and instruments described, the central link-up point is the functional organizational model, which comprehensively describes the roles and responsibilities of those involved in the process. In this context, the local operational risk managers play a very important role. They support division management and managing directors in the use of operational risk controlling tools and ensure quality, completeness and timely processing. At the same time, operational risk managers serve as contacts and multipliers for their respective employees on the topic of operational risks, and are in close contact with LBBW Group's centralized OpRisk Controlling unit.

Various methods and tools are used to identify and assess the risk situation. In addition to the internal and external incident database, a risk inventory is conducted annually with self-assessments and scenario analyses. The self-assessments record the individual risks of each division and material subsidiaries of LBBW Group. The most important risks are aggregated and analyzed extensively in the scenario analysis using standard scenarios. In addition, risk indicators are recorded on a regular basis to identify possible unwanted developments at an early stage. The risk data collected are used to carry out specific analyses, from which extensive control-relevant information can be derived. This forms the basis for drawing up and implementing measures to reduce these risks.

OpRisk measure management plays a key role in managing operational risks. Four action strategy options are available for handling operational risks: avoid, transfer, reduce or accept risks. The risks are managed proactively by the divisions and subsidiaries on the basis of the risk strategy for operational risks, and using the recorded and analyzed risk data. The divisions and subsidiaries take the decision on the selection and prioritization of the corresponding measures, which are implemented on a decentralized basis. Besides the internal control system and an open risk culture, the sensitivity to risks of all staff members and the handling of risks in an open manner play another important role in limiting operational risks. The objective is to minimize or avoid risks, taking cost/benefit aspects into consideration. If it is not possible to completely avoid possible losses the central Group Strategy/Legal division obtains insurance policies to cover potential losses – as far as this is possible and reasonable. Continuous improvement of business process, among other things, offers another possibility of reducing potential operational risks. Further, emergency concepts and business continuation plans drawn up within the scope of Business Continuity Management are used to limit losses in the event of an emergency.

The centralized OpRisk Controlling unit provides decision-makers with relevant information as part of regular risk reporting. Ad hoc reports are also made depending on the amount of loss. The Risk Committee also supports the Board of Managing Directors in exercising its supervisory function. The operational risks as well as the risk-bearing capacity monitoring and stress analysis for all risk types are therefore incorporated and integrated in the overall risk management.

Investment Risks

Besides the risk of a potential decline in value as the result of defaults, there is also a risk that LBBW will receive an insufficient return or no return at all on its investments. However, the risk corresponds to the above mentioned general book value or fair value risk due to the focus on capitalized income value in the valuation of equity investments. The main drivers here are the large strategic subsidiaries and equity investments. LBBW Group's equity investment portfolio has a strong financial focus. Accordingly, a disruption in this market segment may lead to significant losses from equity investments.

Risks may also arise from the utilization of the personal liability assumed as shareholder (e.g. guarantor's liability (*Gewährträgerhaftung*), letter of comfort (*Patronatserklärung*)) for subsidiaries and investments; this also includes revoked letters of comfort or warranty declarations extended to subsidiaries and investments already disposed of. In addition, there is a risk of assuming current losses incurred by subsidiaries due to control and profit and loss transfer agreements.

Real Estate Risks

Real estate risks are defined as potential negative changes in the value of the Group's own real estate holdings due to deterioration of the general real estate market or deterioration in the particular attributes of an individual property.

The commercial portfolio is diversified by type of use, especially for office and retail property, as well as by size category. The strategic properties are predominantly located in Stuttgart. The real estate owned by LBBW Immobilien is mostly situated in locations with low rental risk and leased to tenants of good credit standing. The credit rating of potential tenants is examined carefully when new properties are let and attempts are always made to ensure that the lease is as long as possible. Depending on the underlying real estate strategy (i.e. project development), however, it makes sense and is possible in particular cases to conclude short-term rental agreements. In addition, the value growth properties that are located mainly outside Stuttgart – currently in Munich and Frankfurt am Main – contribute to macro location-specific diversification. These are purchased individual properties or (sub-)portfolios that will continue to be fully let through active asset management. It is intended that the properties will be resold (in the medium term). Overall, risks specific to macro locations are therefore considered to be manageable.

In the asset management segment, investment or divestment decisions at LBBW Immobilien are generally made on a case-by-case basis following an in-depth performance audit, given the manageable number of properties. In this process, a comprehensive set of real-estate-relevant criteria, such as the cost/income situation, the Group's strategy for use/growth, the ability of the location to develop, portfolio diversification or representative purposes for the Group are taken into account.

LBBW Group uses a real estate value-at-risk (IVaR) model to measure real estate risk. The central Group Risk Control division calculates IVaR indicators for real estate risks quarterly and incorporates these into the Group's analysis of risk-bearing capacity.

Development Risks

Development risks are defined as the bundle of risks that typically arise when implementing commercial and residential project developments. The risks in this field mainly arise from planning and approval, the projected construction costs and deadline, and especially from letting and selling. Additional risks, such as the credit risk on the part of partners, the implementation of decisions regarding the partners, also apply if project developments are implemented in partner projects. The occurrence of these risks may also result in the forecast return not being generated, the invested capital not being recovered in full – or not at all in extreme cases – or the need for further equity injections, given it is not a non-recourse financing.

The regional focus is on the core markets of Southern Germany (Baden-Württemberg and Bavaria), Rhineland-Palatinate, the Rhine Main region and Berlin in selected individual cases. LBBW Immobilien Group acts as an investor and service provider in commercial and residential real estate on these markets. Existing projects outside these target markets have largely been completed. The new projects are running on schedule and there is no evidence at present of any material risks.

Development risk is calculated quarterly by the Controlling division of LBBW Immobilien Group. The central Group Risk Control division includes this in LBBW Group's analysis of risk-bearing capacity.

Other Risk categories

Furthermore, there are other risk categories examined by LBBW Group's risk management, such as reputation risks (losses caused by damage to the Bank's reputation), pension risks (this risk type entails the possible need to increase pension provisions, model risks (losses that can arise as a result of decisions that are based on the result of models) and business risks (losses due to less favorable

business performance than expected or from strategic errors, provided that they do not relate to other characteristic banking risks).

Reputation risks, business risk and pension risks as well as other immaterial risk positions are taken into account within the scope of the risk-bearing capacity.

Risks relating to the Acquisition of Sachsen LB

When Sachsen LB was acquired by LBBW in 2008, the structured portfolios Ormond Quay and Sachsen Funding I were excluded from the acquisition. These portfolios with an aggregated nominal outstanding of originally EUR 17.3 billion were transferred to an Irish special-purpose vehicle, Sealink Funding Ltd. ("Sealink"), established in 2008. Currently there are still EUR 5.2 billion of these securities outstanding (as of 31 December 2016).

The refinancing of the securities denominated in EUR, USD and GBP is done by LBBW's subordinated financing of EUR 4.2 billion (as of 31 December 2016). LBBW has been repaid its proportion of the higher-ranking senior loan arranged within a syndicate of German Landesbanks of initially EUR 390 million without any loss.

The Free State of Saxony has issued a first loss guarantee in the amount of EUR 2.75 billion to cover losses arising from the Sealink portfolio.

Payment defaults in excess of the amount guaranteed by the Free State of Saxony have to be borne by LBBW based on its junior refinancing of Sealink. LBBW is covered against these payment defaults up to an amount of EUR 4.3 billion by the risk shield of the state of Baden-Württemberg.

There remains a reduced residual risk due to currency exchange rate driven increase of the junior loan exceeding the sum of both Euro denominated guarantees by the Free State of Saxony and the State of Baden-Württemberg.

Regulatory changes or enforcement initiatives could adversely affect the business of the Issuer

The Issuer is subject to banking and financial services laws and government regulation in each of the jurisdictions in which it conducts business. Regulatory authorities have broad administrative surveillance authority over many aspects of the financial services business, which may include liquidity, capital adequacy and permitted investments, ethical issues, money laundering, privacy, record keeping, and marketing and selling practices. Banking and financial services laws, regulations and policies currently governing the Issuer may change at any time in ways which have an adverse effect on its business. Furthermore, changes in existing banking and financial services laws and regulations may materially affect the way in which the Issuer conducts business, the products or services it may offer and the value of its assets.

In addition, regulatory authorities have the power to bring administrative or judicial proceedings against the Issuer, which could result, among other things, in suspension or revocation of the Issuer's licences, cease and desist orders, fines, civil penalties, criminal penalties or other disciplinary action.

Such proceedings and/or other regulatory initiatives or enforcement actions could have a material adverse effect on the Issuer's business, results of operations or financial condition.

Stress tests may adversely affect the business of the Issuer

The Issuer has been and, in the future, may be subject to stress testing exercises initiated and/or conducted by the German financial regulatory authorities Bundesanstalt für Finanzdienstleistungsaufsicht ("**BaFin**") and Deutsche Bundesbank (the "**German Central Bank**"), the European Banking Authority ("**EBA**"), the European Central Bank ("**ECB**") and/or any other competent authority. The Issuer's results of operations may be adversely affected if the Issuer or any of the financial institutions with which the Issuer does business receives negative results on such stress tests.

In 2016, EBA and ECB conducted an EU wide stress test exercise. LBBW Group was one of the 51 banking groups that were subject to such stress test exercise. Though, different from previous stress tests, no capital thresholds have been defined in this regard, the respective competent authorities may use the stress test results as an input to the Supervisory Review and Evaluation Process ("**SREP**") and require the related bank to comply with additional prudential requirements on such basis. Also, it may become necessary for the Issuer or its group to publish prudential requirements resulting in connection with the SREP process. The stress test exercise commenced at the end of the first quarter of 2016 and its results were published end of July 2016. LBBW ended up with a CET1 ratio of 9.68% in the adverse scenario on a phase-in basis.

If the Issuer's capital was to fall below the predefined threshold of a given stress test at the end of the stress test period and/or other deficiencies are identified in connection with a stress test exercise, remedial action may be required to be taken by the Issuer, including potentially requirements to strengthen the capital situation of the Issuer and/or other supervisory interventions. Investors should note, however, that the powers of the competent supervisory authorities are not limited to actions to respond to specific breaches of stress test requirements but that they may also take action against the Issuer irrespective of such breaches on the basis of their general authority and can form the basis of additional prudential requirements applicable to the Issuer in connection with the SREP.

Further, the publication of the results of a stress test and their findings and/or related additional prudential requirements set by a competent authority in connection with a stress test or a similar exercise (even if related to a credit institution other than the issuer), their evaluation by financial market participants, but also the market's impression that stress tests or related prudential requirements are not sufficient to judge or reinstate a solid financial standing of a bank, could have a negative impact on the Issuer's reputation or its ability to refinance itself as well as increase its costs of funding or require other remedial actions. Also, negative stress test results of and/or additional prudential requirements for financial institutions with which LBBW does business may adversely affect its business activities. Further, the risks arising from the aforementioned aspects could have a material adverse effect on the Issuer's reputation, business, results of operations or financial condition.

The Issuer may be exposed to specific risks arising from the Single Supervisory Mechanism (SSM) and the Single Resolution Fund (SRF)

The ECB, supported by the participating national competent authorities ("**NCAs**", such as BaFin), is responsible for conducting banking supervision in the euro area. Based upon the Regulation on the single supervisory mechanism (Council Regulation (EU) No. 1024/2013 of 15 October 2013, the "**SSM Regulation**" and the "**SSM**", respectively), which confers specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions. The SSM is considered as the first pillar of the so-called EU Banking Union. Since 4 November 2014, the Issuer is a "significant" credit institution (which is subject to direct ECB supervision albeit acting with the day-to-day assistance of the NCAs) under the SSM.

With a view to fulfill the supervisory tasks assumed by it, the ECB is empowered, in particular as part of the SREP, to *inter alia*, analyse the business model, internal control arrangements, risk governance as well as capital and liquidity adequacy models of individual groups of significant credit institutions (such as LBBW) and to require those to comply with own funds and liquidity adequacy requirements which may exceed regular regulatory requirements to take early correction measures to address potential problems. The key result of the application of the SREP will be a common scoring resulting in individual specific additional capital and liquidity requirements for the supervised credit institutions (including LBBW Group). As a result, each affected credit institution will receive a reviewed SREP decision on an annual basis by the ECB affecting, among other, individual capital requirements which may increase the capital requirements applicable to the Issuer and the ECB may also require the Issuer to maintain higher capital buffers than those required by the Bafin.

Based on the annual SREP, the ECB informed LBBW in November 2016 about ECB's capital requirements that apply to LBBW from 1 January 2017. On this basis, LBBW has to maintain a total capital ratio of 11.59%. Thereof, at least 9.59% has to consist of Tier 1 capital and at least 8.09% of common equity Tier 1 (CET1) capital. The ratios contain CET1 capital, a Pillar 2 Requirement of 2.00%, the capital conservation buffer of 1.25% and the buffer for other systemically important institutions of 0.33%. These ratios include the countercyclical buffer, consisting of CET 1 capital, which the Issuer must apply to exposures located in other countries according to section 10d of the German Banking Act (*Kreditwesengesetz* - "**KWG**"). Considering the further phase-in of the capital buffers in the following years prescribed by law as well as for a sustainable capital management, the ECB expects LBBW to maintain further CET1 capital in line with a Pillar 2 Guidance.

Under the SSM, the ECB together with the NCAs is currently working on establishing on a framework of joint standards setting a common set of understanding regarding priorities from a regulatory and banking supervisory point of view. Part of this ongoing work focuses *inter alia* on further harmonizing options and discretions available for European Member States under the CRD IV/CRR-Package and a targeted approach to monitor suitability of internal bank models evaluating capital and liquidity adequacy. Whereas such joint standard framework and other arrangements determined under the SSM may not be publicly available information and also be subject to change, these may have an impact on how regulatory requirements are actually applied in respect of a group of banks or individual banks having particular specifics in terms of business model or Member States' national particularities.

The new supervisory regime and the SSM's supervisory new procedures and practices are not yet fully established and/or disclosed and it is expected that they will be subject to constant scrutiny, change and development. Procedures within the SSM and other regulatory initiatives could change interpretation of regulatory requirements applicable and lead to additional regulatory requirements, increased cost of compliance and reporting for the Issuer. Furthermore, such developments may require re-adjustment of its business plan or having other material adverse effects on its business, results from normal operations or financial condition.

Further, in 2014 a European Regulation in relation to the single resolution mechanism (Regulation (EU) No. 806/2014 of 15 July 2014, the "**SRM Regulation**" and the "**SRM**", respectively) was enacted. The SRM is considered as the second pillar of the so-called EU Banking Union and is meant to establish a uniform procedure for the resolution of credit institutions that are subject to the EU banking supervisory mechanism SSM.

The SRM Regulation, the Bank Recovery and Resolution Directive ("**BRRD**") and the German Act on the Restructuring and Resolution of Institutions (*Sanierungs- und Abwicklungsgesetz*, as amended, the "**SAG**") which transposes the BRRD into German law are closely connected. As a result of a resolution measure under the SRM, a creditor of the Issuer may, already prior to the occurrence of an insolvency or a liquidation of the Issuer, be exposed to the risk of losing part or all of the invested capital. In respect of risks in relation to resolution measures under the BRRD and the SAG, see *Rights*

of Holders may be adversely affected by Resolution Measures (including the Bail-in Tool and the Power to Write-Down and Convert Capital Instruments), the Single Resolution Mechanism and measures to implement the BRRD" below.

In addition, the SRM has created a single resolution fund (the "SRF") which may in certain circumstances and subject to various conditions provide medium term funding for potential resolution measures in respect of any bank that is subject to the SRM. Credit institutions such as LBBW are required to provide contributions to the SRF, including annual contributions and ex-post contributions in addition to existing bank resolution cost contributions, in particular, the Issuer may be required to make further contributions if one of the banks subject to the SRM becomes subject to resolution actions. These contributions will constitute a substantial financial burden for LBBW as well as the other banks subject to the SRM.

Such aforementioned proceedings and/or other regulatory initiatives could also change the interpretation of regulatory requirements applicable to the Issuer and lead to additional regulatory requirements, increased cost of compliance and reporting as well as require the Issuer to provide contributions to the SRF in addition to existing bank levies or resolution cost contributions; in particular could the Issuer be obliged to provide further contributions should another bank be subject to resolution measures under the SRM. Further, such developments may have other material adverse effects on the Issuer's business, results of operations or financial condition.

Holders are exposed to risks in connection with own funds and other capital requirements such as MREL

In order to cover potential losses resulting from the realisation of risks, the Bank is required to maintain sufficient own funds at any time in accordance with regulatory requirements. Own funds requirements, the methods of determining the amount of own funds required for an individual institution, the eligibility criteria for own funds items and the methods of calculating the amount of own funds maintained by an institution are governed by the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the so-called Capital Requirements Regulation, the "CRR"), the Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the so-called Capital Requirements Directive, the "CRD IV"), the German Banking Act (*Kreditwesengesetz*) and the German law implementing the CRD IV (the "CRD IV Implementation Law", and the CRR, CRD IV as well as the CRD IV Implementation Law, in each case as amended, supplemented or replaced from time to time, and together with the related regulatory technical standards (RTS) and implementing technical standards (ITS), guidelines and other interpretation guidance, the "CRD IV/CRR-Package"). The CRD IV/CRR Package is meant to implement Basel III recommendations of the Basel Committee on Banking Supervision in the aftermath of the financial crisis amongst others in relation to the own funds requirements for banks uniformly in the European Economic Area and Germany, and has significantly tightened own funds requirements. In addition to the gradual introduction of the new capital ratios by 2019, CRD IV/CRR-Package provides for a transitional phase until 2022 for capital instruments that were recognised as regulatory Tier 1 capital before the CRR entered into force, but do not meet the CRR requirements for Common Equity Tier 1 capital (CET 1 capital). The CRR became effective as from 1 January 2014 and as a European regulation, the CRR is directly applicable to institutions in the European Union.

Pursuant to the CRR, banks are required to maintain a minimum ratio of Tier 1 capital (being the sum of the Common Equity Tier 1 capital and the Additional Tier 1 capital of the Bank) to the Bank's risk-weighted assets of 6 per cent. and a minimum ratio of Common Equity Tier 1 capital to risk-weighted assets of 4.5 per cent. The minimum total capital ratio of own funds (being the sum of the Tier 1 capital and the Tier 2 capital of the Bank) to the Bank's risk-weighted assets is 8 per cent. The German Banking Act also requires banks to build up a mandatory capital conservation buffer

(Common Equity Tier 1 capital amounting to 2.5% of risk-weighted assets from 2019), and authorises the BaFin to require banks to build an additional countercyclical buffer (Common Equity Tier 1 capital of up to another 2.5% of risk-weighted assets from 2019) during periods of high credit growth. The capital conservation buffer and the countercyclical buffer will be phased in from 2016 in four equal steps of 0.625%; the respective buffer requirements of 2.5% will be applicable from 2019 onwards. As of the date of this Prospectus, the additional countercyclical buffer has been set by BaFin to be 0.0(zero)% and in the time period between 1 January 2017 through 31 December 2017, a mandatory capital conservation buffer in the amount of 1.25% of risk weighted assets applies. In addition, the BaFin may require banks to build up a systemic risk buffer (Common Equity Tier 1 capital of between 1% and 3% of risk-weighted assets for all exposures and, in exceptional cases, up to 5% for domestic and third-country exposures) as a matter of prevention against long-term non-cyclical systemic or macro-prudential risks, in particular if risk aspects are not fully covered by the capital requirements under the CRR or if the risk-bearing capability is endangered.

Since January 2016, other systemically important institutions ("**O-SIIs**") (such as the Issuer) may become subject to an additional capital buffer of up to 2% of risk-weighted assets ("**RWA**"). The systemic risk buffer and buffers for systemically important institutions are generally not cumulative; only the higher of these buffers will apply. LBBW has to maintain a O-SII buffer of 1%. This buffer will from 2017 on be phased-in during 3 years. If a bank fails to build up and maintain the required capital buffers, it will be subject to restrictions on payments on certain own funds instruments (such as paying dividends, for example), share buybacks, and discretionary compensation payments.

Also, additional capital requirements in terms of capital buffers, increased requirements regarding liquidity and large exposures may be imposed on the basis of investigations and determinations within the powers and discretions by competent authorities given to them by law and also as a result of stress tests performed by them in the future and will regularly be one of the results emerging from the SREP. In addition, O-SIIs could be made subject to further regulatory measures, in particular relating to crisis management and taking respective preventive measures such as drawing up emergency and resolution plans. Even though such regulatory measures may not necessarily directly interfere with rights of holders of securities of an affected credit institution, the mere fact that BaFin or any other competent authority applies such tool to a specific credit institution may have indirect negative effects, e.g. on pricing of instruments issued by such entity or on the entity's ability to refinance itself or its ratings.

The capital ratios may be significantly impacted in the future by the intended changes to the regulatory requirements in the context of current and not yet finalised considerations of the Basel Committee on Banking Supervision to further calibrate and amend the current Basel III reform package (sometimes referred to as "**Basel IV**"), particularly from 2019. A large number of changes in the area of market, operational and counterparty risk are consolidated in this regard under Basel IV. Stricter rules concerning counterparty risk will be of particular relevance for the Issuer. The Issuer uses internal models approved by the supervisory authorities to map counterparty risk (Internal Ratings Based Approach – IRBA). The supervisory authorities are intending under Basel IV to restrict the use of IRBA models on a not yet determined level by basing the capital backing more closely on the standard approach (CSA floor), by limiting the use of the IRBA to certain exposure classes as well as limiting the use of internal risk parameters (constrained IRBA). New regulatory requirements or accounting rules (such as IFRS 9 from 2018) may also adversely affect the capital ratios in the future. These uncertainties could have negative effects on the future development of the Issuer's business. Furthermore, the Basel Standard 239 (BCBS 239) gives rise, for example, to comprehensive future requirements regarding risk data aggregation including the IT architecture and risk reporting by banks. This could lead to higher costs than initially planned, and could have a negative impact on the economic situation of the Issuer.

Further, the European Single Resolution Board (the "**Board**") will set an institution-specific ratio for the regulatory capital and eligible liabilities to be maintained as a minimum for institutions directly

supervised by the ECB and therefore for the Issuer (Minimum Requirements on Eligible Liabilities – "MREL"). Risks of a non-compliance with the MREL Ratio result from the ongoing discussions of the European supervisory authorities regarding the qualitative requirements for eligible liabilities to which the so-called Bail-in-Tool (as described in the risk factor "*Broad range of Resolution Measures and Resolution Tools, related effects and uncertainties*" below) is applicable ("**Bail-in able liabilities**") and regarding the calibration and definition of MREL. Tighter requirements have already been put in place for global systemically important institutions ("**G-SIIs**") i.e. institutions which are relevant for the system on a global scale, introduced under the concept of Total Loss Absorbency Capacity – "**TLAC**". Even though the Issuer does not constitute a G-SII, it is expected that the Issuer will be subject to an additional requirement to maintain certain bail-in able liabilities in the context of MREL, while the quality and quantity of such requirement cannot be precisely predicted at this stage. It has to be noted that the respective legislative proceeding commenced in November 2016, with the publication of an initial CRR amending draft proposal, and the initial draft legislative proceedings provides unexpected MREL eligibility criteria that are not included in market standard terms and conditions of liabilities that were expected to be eligible MREL capital at the time of their issuance. Also, the draft proposal did not provide grandfathering for instruments issued in the past to continue to be MREL eligible. If this draft proposal is implemented, the Issuer (as any other German law issuer), would need to fulfil any upcoming MREL requirement by virtue of issuing new debt instruments in the future.

Non-compliance or imminent non-compliance with own funds requirements triggers numerous powers of the competent regulatory authorities. Apart from the ability to issue orders in relation to the Issuer's business activities and various other powers (like, for example, orders for capital adequacy improvements or measures in relation to the institution's management), a competent authority, depending on the particular circumstances of the case, might, as a means of last resort, have the power to withdraw the Issuer's banking permit or to issue an order that the Issuer be dissolved and liquidated. Moreover, non-compliance with own funds requirements, either actual or imminent in the near future, may trigger the commencement of recovery or resolution proceedings set out below in the risk factor "*Rights of Holders may be adversely affected by Resolution Measures (including the Bail-in Tool and the Power to Write-Down and Convert Capital Instruments), the Single Resolution Mechanism and measures to implement the Directive 2014/59/EU (the "BRRD")*", which may involve in particular, but are not limited to, the application of the Bail-in Tool by the competent resolution authorities in relation to subordinated and even unsubordinated Notes or Instruments in the course of resolution action or the mandatory exercise of write-down or conversion powers.

In addition to the risks mentioned above, own funds requirements may require the Issuer to raise own funds instruments, increase other forms of capital or reduce its risk-weighted assets to a greater extent which in turn may result in an adverse effect on the Issuer's long term profitability. As a consequence, this may potentially have an adverse effect on an investor's economic or legal position under the Securities. Any such change may also have a material adverse effect on the Issuer's operating results and financial position. Further, where the Issuer's continued compliance with own funds requirements is in question, this could have a material negative impact on the market value of the Securities. Generally there is the risk that a chain of causation is triggered by (purported) non-compliance or imminent non-compliance with own funds requirements by the Issuer (even if such (purported or imminent) non-compliance were only an erroneous market perception) which leads to the Issuer's insolvency, also because creditors might withdraw their funds from the Issuer or the Issuer's liquidity or refinancing possibly no longer can be assured.

Therefore, non-compliance or imminent non-compliance by the Issuer with own funds requirements may not only have a negative effect on financial position and earnings of the Issuer and/or the market value of the Securities, but could eventually result in Holders losing their investment in the Securities in whole or in part (in particular with regard to the investment in the Notes or the Instruments).

Risk relating to Liquidity Requirements and Leverage Ratio

In addition, further regulatory requirements are envisaged to be implemented such as the Liquidity Coverage Ratio ("**LCR**") and the Net Stable Funding Ratio ("**NSFR**") which are of great importance to credit institutions such as the Issuer. The liquidity requirements relating to the LCR (which requires credit institutions to maintain certain liquid assets for a 30-day-period against the background of a stress scenario) have been implemented since 2015 with a minimum LCR ratio of 80 % since 1 January 2017 which will be increased to 100% to be met from 1 January 2018 and onwards. The NSFR, which must be adhered to from 2018 at the earliest, is calculated as the ratio of available funding resources across all maturities to the funding required and must also be at least 100% after full implementation of the NSFR. Finally, the CRD IV/CRR-Package sets out a non-risk-based maximum leverage ratio. While the CRR does not require banks immediately to comply with a specific leverage ratio, banks are required to report and publish their leverage ratios for a future assessment and calibration of the leverage ratio. The final calibration of the leverage ratio is intended to be completed by 2017 and it is expected that banks will be required to fully comply with the leverage ratio starting in 2018. The introduction of such a legally binding non-risk-based leverage ratio may constrain the Issuer's ability to grow in the future or even require the Issuer to reduce its business volumes.

Continued Changes to Applicable Regulatory Requirements Impacting on the Issuer

The regulatory framework applicable to banks and prudential requirements continues to be changing.

- The current and not yet finalised considerations of the Basel Committee on Banking Supervision to further calibrate the current Basel III reform package (sometimes referred to as Basel IV, see in more detail above) could lead to higher regulatory capital requirements for the Issuer.
- The current beneficial treatment of risk weightings may change in relation to specific assets (e.g. exposures owed by governmental entities) so that e.g. governmental debt may attract significantly higher capital charges.
- It can be expected that in the European Banking Union additional and changing capital requirements for the Issuer will result from the future SREP Process e.g. in the context of the targeted review of internal bank models which is one of the regulatory priorities in 2017 of the ECB under the SSM.
- In November 2015, the Financial Stability Board ("**FSB**") issued its final standard regarding the new firm-specific requirement for TLAC for G-SIIs alongside minimum regulatory capital requirements from 1 January 2019. Given the nature of the FSB's recommendation and the fact that LBBW does not constitute a G-SII, the TLAC requirement is not directly binding upon LBBW. However, the European legislator has provided a first draft of a reform package amending in particular the CRR and the BRRD with a view to creating a similar legally binding capital requirement to meet and maintain at all times a robust MREL that may apply to the Issuer and its group.
- On 21 December 2016, the Federal German Government published the Second Financial Markets Amendment Act (2. *Finanzmarktnovellierungsgesetz* - "**FiMaNoG II**"). The FiMaNoG II transposes the revised requirements of MiFID II, the Markets in Financial Instruments Regulation (Regulation (EU) No 600/2014 - "**MiFIR**"), the Regulation of Securities on Financing Transactions ("**SFTR**") and the Regulation on indices used as benchmarks in financial instruments and financial contracts ("**Benchmark Regulation**") into national law, resulting in several amendments to the German Securities Trading Act (*Wertpapierhandelsgesetz* - "**WpHG**"), the KWG and the Stock Exchange Act (*Börsengesetz* - "**BörsG**"). Furthermore, changes will be made to the German Insurance Supervision Act (*Versicherungsaufsichtsgesetz* - "**VAG**") and the Capital Investment Code (*Kapitalanlagegesetzbuch* - "**KAGB**"). Considering the fact that MiFID II and MiFIR extend the systemic internalisers regime and provide for higher transparency requirements, the Issuer may become subject to such increased requirements, resulting in an increase in costs.

A reliable impact assessment of these ongoing developments is not yet possible.

The above enumeration of potential changes relating to regulatory aspects concerning credit institutions in general is not exhaustive. International bodies are continuously working on additional recommendations, regulations, standards, etc. It is likely that further regulation will be considered and implemented which might adversely affect the positions of the Issuer.

Areas where changes could have a particular impact on the Issuer's business include:

- the monetary, interest rate and other policies of central banks and regulatory authorities;
- general changes in governmental or regulatory policy that may significantly influence investors' decisions, in particular in markets in which the Issuer operates;
- general changes in regulatory requirements, for example, prudential rules relating to the capital adequacy framework and rules designed to promote financial stability and increase depositor protection;
- changes in competition and pricing environments;
- further developments in the financial reporting environment;
- differentiation among financial institutions by governments with respect to the extension of guarantees to customer deposits and the terms attaching to those guarantees; and
- implementation of regionally applicable systems for customer or depositor compensation or remuneration schemes.

Implementation of such regulatory changes has already resulted in and may continue to increase the cost of compliance for the Issuer and other financial institutions which may affect their results of operations. Ongoing regulatory changes and challenges may require banks to continually review their business models and constantly improve efficiency to be able to ensure sufficient profitability and maintain the ability to build up capital from their own resources. Depending on the type of regulatory changes, the regulatory aspects could force financial institutions (including the Issuer) in the future to cease potentially profitable but disproportionately capital-intensive business operations or lead to reduced levels of activity for financial institutions, which could significantly impact the Issuer's business, financial condition and results of operations.

If the Issuer fails to address, or appears to fail to address, appropriately any changes or initiatives in banking regulation, its reputation could be harmed and it could be subject to additional legal and litigation risk such as an increase in the number of claims and damages, enforcement actions, administrative fines and penalties and/or be required to comply with additional capital adequacy requirements.

Given that capital adequacy requirements (including the upcoming MREL requirement) and liquidity have been and will continue to be increased, this may require the Issuer to raise own funds instruments, increase other forms of capital, obtain low-margin assets that can be used for the purposes of liquidity requirements or reduce its RWAs to a greater extent which in turn may result in an adverse effect on the Issuer's long term profitability. Regulatory changes could also force the Issuer to raise additional equity capital (Common Equity Tier 1 capital) through capital measures. Additionally, the willingness of investors in or (current or future) stakeholders of the Issuer to participate in such capital raising measures may be limited, for example if the Issuer's competitors carry out similar capital raising measures at the same time in order to comply with the stricter regulatory capital requirements.

As a consequence, this may potentially have an adverse effect on an investor's economic or legal position under the Securities. Any such change may also have a material adverse effect on the operating results and financial position of the Issuer. The introduction of a legally binding leverage ratio, market pressure to comply with a certain leverage ratio (regardless of whether such may legally be required) and increased requirements relating to capital resources, may lead to similar results.

Governmental and central bank action in response to the financial crisis significantly affects competition and may affect the legal or economic position of investors

In response to the financial markets crisis, there has been significant intervention by governments and central banks in the financial services sector, *inter alia* in taking direct shareholdings in individual financial institutions and contributions of other forms of capital, taking over guarantees of debt and purchasing distressed assets from financial institutions. In some instances, individual financial institutions have been nationalised. The eligibility to benefit from such measures is in some instances tied to certain commitments of the participating bank, such as lending to certain types of borrowers, adjustments to the bank's business strategy, suspension of dividends and other profit distributions and limitations on the compensation of executives.

Such interventions involve significant amounts of money and have significant effects on both the participating institutions as well as the non-participating institutions, in particular in terms of access to funding and capital and recruiting and maintaining good employees.

The implementation of any such measures with respect to other companies could adversely affect the perception of the overall prospects for the financial services sector or for a particular type or types of financial instruments. In such case the price for the financial instruments of the Issuer could drop and its costs of funding and capital could rise, which could have a material adverse effect on its business, results of operations, or financial condition.

Rights of Holders may be adversely affected by Resolution Measures (including the Bail-in Tool and the Power to Write-Down and Convert Capital Instruments), the Single Resolution Mechanism and measures to implement the Directive 2014/59/EU (the "BRRD")

The BRRD, the EU framework for the recovery and resolution of credit institutions and investment firms, which provides for an EU-wide recovery and resolution regime for financial institutions established in the European Union, was enacted in 2014. In Germany, the BRRD has been transposed into German law by the SAG.

Interplay of BRRD, SAG and the SRM Regulation

Additionally, the SRM Regulation establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism has been enacted. The predominant part of the provisions of the SRM Regulation is applicable since 1 January 2016. The SRM Regulation introduced the SRM as a uniform procedure for the resolution of (groups of) credit institutions and certain other financial institutions, including all groups of bank supervised by the ECB (such as the Issuer). The SRM is part of and considered as the second pillar of the EU wide initiative for the establishment of the so-called European banking union.

For credit institutions (like the Issuer) that are directly supervised by the ECB, the effect of the SRM Regulation becoming applicable has been the shift of most of the responsibilities of national resolution authority in the relevant Member State (i.e. with respect to Germany, the *Bundesanstalt für Finanzmarktstabilisierung*, "FMSA") under the BRRD from the national level to the European level, in particular to a new agency of the European Union, the Board, for the purposes of a centralised and uniform application of the resolution regime. Accordingly, for those credit institutions the Board is *inter alia* responsible for resolution planning, setting so-called MREL, adopting resolution decisions, writing down capital instruments and is entitled to take other early intervention measures. As a result, a creditor of the Issuer may already prior to the occurrence of insolvency or a liquidation of the Issuer be exposed to the risk of losing part of or all of the invested capital. The SRM Regulation provides for further details and instruments of the SRM which may already impact on the Issuer and its business

activities prior to the Issuer being in a difficult financial situation or being considered to fail or likely to fail.

As a result of the BRRD (as transposed into national laws) and the SRM Regulation, among other things, (i) credit institutions and resolution authorities are obliged to draw up recovery and resolution plans on how to deal with situations of financial stress, (ii) competent authorities are entitled to take early intervention measures, (iii) a set of resolution tools have been introduced that resolution authorities can apply to preserve critical functions without the need to bail out a credit institution (or its creditors), and (iv) resolution funds are being set-up to finance and facilitate the effective and efficient resolution of credit institutions.

Early Intervention Measures

With respect to early intervention measures, the competent authority may subject to certain conditions take various actions and measures e.g. require changes to legal/and or operational structures, require the Issuer to draw up detailed recovery plans setting out how stress scenarios or cases of systemic instability could be addressed or request reduction of the Issuer's risk profile, measures enabling recapitalisation measures, improving the liquidity situation or otherwise require improvement actions regarding the resilience of the core business lines and critical functions and even require the management to be removed/replaced (the "**Early Intervention Measures**").

Broad range of Resolution Measures and Resolution Tools, related effects and uncertainties

Changes to German law with respect to the BRRD provisions, which are implemented into German law by the SAG and which will be supplemented by the SRM Regulation may result in claims for payment of principal, interest or other amounts under the Instruments and/or the Notes being subject to a permanent reduction, including to zero, some other variation of the terms and conditions of the Securities in other aspects (e.g. variation of the maturity of a debt instrument) or a conversion into one or more instruments that constitute common equity tier 1 capital instruments (such as capital stock) by intervention of the competent resolution authorities (the so-called "**Bail-in Tool**").

The SAG and the SRM Regulation furthermore provide that the competent resolution authorities have the power to write-down Common Equity Tier 1 capital instruments, Additional Tier 1 capital instruments and Tier 2 capital instruments (the "**Relevant Capital Instruments**" and thereby also including the Subordinated Instruments and Subordinated Notes offered under this Prospectus) or to convert Relevant Capital Instruments into shares or other instruments of ownership of an institution (including any Common Equity Tier 1 capital instruments) – potentially after the legal form of the Issuer has been changed either independently of resolution action, as part of the Bail-in Tool or in combination with any other Resolution Measure, the "**Power to Write-Down and Convert Capital Instruments**". Such power will, in particular, be given if either (i) the conditions for resolution as set out above have been met, (ii) the appropriate authority determines that unless that power is exercised in relation to the Relevant Capital Instruments, the institution or group will no longer be viable (the so-called "**point of non-viability**" or "**PONV**") or (iii) the institution requires public financial support. Where the institution is failing or likely to fail, such write-down or conversion of Relevant Capital Instruments may be mandatory.

In addition to the Bail-in Tool and the Power to Write-Down and Convert Capital Instruments, the competent resolution authorities are able to apply any other resolution measures and tools, including, but not limited to, any transfer of the Instruments and/or the Pfandbriefe and/or the Notes to another entity, the amendment of the terms and conditions of the Instruments and/or the Notes or the cancellation of the Instruments and/or the Notes or even the change of the legal form of the Issuer. Each of these measures and tools and exercise of powers collectively are herein referred to as "**Resolution Measures**".

The Holders are bound by any Resolution Measure. Holders would have no claim or any other right against the Issuer, arising out of any Resolution Measure against the Issuer, to make payments under the Instruments, Notes or relevant other Securities. This would occur if the Issuer becomes, or is deemed by the competent authority to have become, failing or likely to fail (in particular if its continued existence is at risk (*Bestandsgefährdung*)) and certain other conditions are met (as set forth in the SRM Regulation, the SAG and other applicable rules and regulations).

Hierarchy of creditor claims and no creditor worse-off (NCWO) principle

The SRM and the provisions of the SAG, respectively, envisage that the Bail-in Tool will generally be exercised in a way that results in (i) common equity tier 1 capital instruments (such as share capital of the Issuer) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments, tier 2 capital instruments and other subordinated liabilities) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities (potentially including some liabilities under and in connection with Instruments and/or Notes other than Subordinated Instruments or Subordinated Notes, as the case may be) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with the hierarchy of claims in normal insolvency proceedings. Generally, no creditor should incur a greater loss than it would have incurred if the institution had been wound up under regular insolvency proceedings (so called no creditor worse-off (NCWO) principle), provided that the NCWO principle will not prejudice the ability of the competent resolution authority to use any resolution tool, but only lead to a compensation claim that may be raised by the affected person.

The German legislator has already changed the hierarchy of claims relating to certain German credit institutions (such as the Issuer) in normal insolvency proceedings in light of the BRRD and implemented for a preferential treatment for certain claims of depositors over claims of Holders of the Instruments and/or the Notes and other relevant Securities and it against the background of an ongoing legislative procedure with a draft law proposal dated 23 November 2016 amending the BRRD in this respect it is not unlikely that this hierarchy will be further amended in the short term (potentially also with retroactive effect) including with the result of a subordinated treatment and thereby Holders having a lower ranking as claims of ordinary unsecured non-preferred creditors. In this respect, please see also the risk factor "*Risks in relation to subordination and changes to hierarchy of claims*". Whether and if, to which extent the Instruments or the Pfandbriefe or the Notes (if not or not fully exempted by way of protective provisions) will be subject to Resolution Measures and/or Early Intervention Measures depends on a number of factors (including those that are outside the Issuer's control), and it is not clearly predictable if at all and to which extent Resolution Measures and/or Early Intervention Measures will be taken by competent resolution authorities. The exercise of any Resolution Measure would in particular not constitute any right to terminate the Securities. Investors should consider the risk arising from Resolution Measures and Early Intervention Measures, in particular that Holders of Instruments and Notes may lose all of their investment, including the principal amount plus any accrued interest, or that the Instruments and/or the Notes are subject to any change in the terms and conditions of the Instruments and the Notes, or the Instruments or the Pfandbriefe or the Notes (if not or not fully exempted by way of protective provisions) would be subject to a moratorium, transferred to another entity or are subject to any other Resolution Measure.

Revised State Aid Guidelines

Further, on 10 July 2013, the European Commission announced that it has adapted its temporary state aid rules for assessing public support to financial institutions during the crisis (the "**Revised State Aid Guidelines**"). The Revised State Aid Guidelines provide for strengthened burden-sharing requirements, which require banks with capital needs to obtain shareholders', subordinated and unsubordinated debt holders' contribution before resorting to public recapitalisations or asset

protection measures. The European Commission applies the principles set out in the Revised State Aid Guidelines since 1 August 2013. In these guidelines, the European Commission has made it clear that any burden sharing imposed on subordinated debt holders and other bank creditors will be made in line with principles and rules set out in the BRRD. To improve a crisis-ridden bank's recovery prospects and foster general economic stability, bail-in tools and other resolution measures will be applied against shareholders, the holders of subordinated instruments and other (un)subordinated liabilities so that such creditors have made a contribution (by means of a write down, conversion or otherwise) to loss absorption and recapitalization equal to an amount not less than 8% of the total liabilities (including own funds). This may mean that shareholders and many creditors of an affected bank such as holders of bonds (such as the Holders of Subordinated Instruments and Subordinated Notes and also other (un-)subordinated Instruments and Notes) are at risk to lose their invested capital and related rights as a result of application of resolution measures such as the Bail-in Tool and/or the Power to Write-Down and Convert Capital Instruments.

Investors in Securities to consider related risks

Holders of the Securities should therefore take into consideration that, in the event of a crisis of the Issuer and thus already prior to any liquidation or insolvency or such procedures being instigated, they will be exposed to a risk of default and that, in such a scenario, it is likely that they will suffer a partial or full loss of their invested capital, or that the Instruments and/or Notes will be subject to a conversion into one or more equity instruments (e.g. capital stock) of the Issuer. Holders of the Securities should be aware that public financial support for troubled banks, if any, would only potentially be used as a last resort after having assessed and exploited, to the maximum extent practicable, the Resolution Measures, including the Bail-in Tool and/or the Power to Write-Down and Convert Capital Instruments.

As (i) the Subordinated Instruments and the Subordinated Notes are issued with the aim of being recognised as supplementary Tier 2 capital pursuant to CRR and (ii) the unsubordinated Instruments and unsubordinated Notes may be issued with the aim of being recognised for the purposes of fulfilling MREL and further given the applicable state aid guidelines (which require strengthened burden sharing requirements by banks' creditors), the SRM Regulation, the SAG, as well as the BRRD and the related bail-in system, investors in Instruments and Notes, and investors in the Subordinated Instruments and the Subordinated Notes in particular, should take into consideration that they may be significantly affected by such aforementioned procedures and measures such as the Bail-in Tool and/or the Power to Write-Down and Convert Capital Instruments. This may lead to the loss of the entire investment. Further, any other creditor of LBBW may also be affected by such measures.

As a consequence, a competent resolution authority, such as the FMSA or the Board, might in any such situation be entitled, *inter alia*, to demand – for instance as a prerequisite for the granting of state aid or similar public financial support – that any interest may not be paid and that the nominal amount of debt securities (such as any of the Instruments and Notes, but taking into account the hierarchy of claims) may be reduced down to zero, to demand that the terms and conditions of the Subordinated Instruments and Subordinated Notes are varied in other aspects (e.g. variation of the maturity of a debt instrument) or impose other regulatory measures, including, but not limited to, conversion of the relevant Instruments and Notes into one or more common equity tier 1 instruments (e.g. capital stock). Any such measure may release the Issuer from its obligations under the terms and conditions of the affected Securities. In such circumstances, Holders would not be entitled to terminate or otherwise demand early redemption of the Subordinated Instruments and Subordinated Notes, or to exercise any other rights in this respect. In this context, in particular the hierarchy of claims of LBBW creditors in normal insolvency proceedings and the liability cascade provided for by the BRRD and the SAG needs to be considered.

Also, the aforementioned measures may produce comparable results from any economic point of view for creditors concerned, e.g. the initial debtor of the Securities (i.e. the Issuer) may be replaced by another debtor (who may have a fundamentally different risk profile or creditworthiness than the Issuer). Alternatively, the claims of creditors against the institution concerned may continue to exist while the institution's assets, its area of activity or creditworthiness are no longer the same. Alternatively, the claims may remain with the original debtor, but this situation regarding the debtor's assets, business activity and/or creditworthiness may not be identical (and may have significantly deteriorated compared to the situation prevailing prior to the application of the relevant measure) to the situation prior to the application of the measure.

Further, even though any Resolution Measure or any Early Intervention Measure may not in all cases directly interfere with the Holders' rights, already the mere fact that the Board, the FMSA or another competent authority prepares or applies any Resolution Measure or any Early Intervention Measure towards LBBW or even a different credit institution may have a negative effect, e.g. on the market value, the pricing or liquidity of liabilities issued by LBBW, its volatility, on the rating of LBBW or on LBBW's ability to refinance itself or its refinancing costs or otherwise have a material adverse effect on the operating results and financial position of LBBW.

Rights of Holders may be adversely affected by measures pursuant to Kreditinstitute-Reorganisationsgesetz

As a German credit institution, the Issuer is subject to the Kreditinstitute-Reorganisationsgesetz ("**KredReorgG**") which, *inter alia*, introduced special restructuring schemes for German credit institutions consisting since 1 January 2011: (i) the restructuring procedure (*Sanierungsverfahren*) pursuant to § 2 et seqq. of the KredReorgG and (ii) the reorganisation procedure (*Reorganisationsverfahren*) pursuant to § 7 et seq. of the KredReorgG. These aforementioned procedures under the KredReorgG are in addition to potential measures, steps and proceedings under the SRM. The difference is that the procedures under the KredReorgG are only commenced upon respective initiation by the affected credit institution whereas measures, steps and proceedings under the SRM do not require consent or approval by the affected credit institution.

Whereas a restructuring procedure pursuant to the KredReorgG may generally not directly interfere with rights of creditors, the reorganisation plan established under a reorganisation procedure pursuant to the KredReorgG may provide for measures that affect the rights of the credit institution's creditors including a reduction of existing claims or a suspension of payments. Such measures may, however, not affect the asset pool serving as cover for Pfandbriefe. The measures proposed in the reorganisation plan are subject to a particular majority vote mechanism of the creditors and shareholders of the respective credit institution. Furthermore, the KredReorgG stipulates detailed rules on the voting process and on the required majorities and to what extent negative votes may be disregarded. Measures pursuant to the KredReorgG are instituted only upon the respective credit institution's request and respective approval by the BaFin and the competent higher regional court (*Oberlandesgericht*). Claims of Holders may be adversely affected by any restructuring or reorganisation procedure (or the announcement thereof) with similar risks as such relating to an Early Intervention Measure or a Resolution Measure pursuant to the BRRD / SRM framework (in this respect, please see "*Rights of Holders may be adversely affected by Resolution Measures (including the Bail-in Tool and the Power to Write-Down and Convert Capital Instruments), the Single Resolution Mechanism and measures to implement the BRRD*").

Risks in relation to subordination and changes to hierarchy of claims

The insolvency related hierarchy of claims in respect of claims such as eligible liabilities may be introduced or changed by mandatory law, including with retrospective effect. This may lead to the situation that creditors of certain types of Securities might incur losses or otherwise be affected (e.g. by application of the Bail-in Tool and/or the Power to Write-Down and Convert Capital Instruments)

before creditors of other "senior" eligible liabilities will need to absorb losses or otherwise be affected.

In transposition of a requirement under the BRRD for member states to give priority to certain deposits, the German legislator has already changed the hierarchy of claims in regular insolvency proceedings and implemented a preferential treatment for certain claims of depositors. Therefore, Holders of Instruments and/or Notes and other creditors of LBBW might rank below certain depositors' claims and therefore have an increased likelihood of being subject to the risks arising from Resolution Measures.

Pursuant to Section 46f (5)-(7) of the KWG, certain unsecured and unsubordinated debt instruments of the Issuer (hereinafter referred to as "Non-Preferred Senior Obligations") rank below the Issuer's other senior liabilities (hereinafter referred to as "Preferred Senior Obligations") in insolvency or in the event of the imposition of resolution measures, such as the Bail-in Tool, affecting the Issuer. Non-Preferred Senior Obligations will continue to rank above the Issuer's contractually subordinated liabilities, including Subordinated Instruments and Subordinated Notes issued under this Prospectus. This order of priority would apply in a German insolvency proceeding or in the event of the imposition of resolution measures with respect to the Issuer with effect for any senior unsecured debt instruments outstanding at this time. Among the Preferred Senior Obligations are, as defined in Section 46f (7) KWG, senior unsecured debt instruments whose terms provide that (i) the amount of repayment depends on the occurrence or non-occurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued, or settlement is effected in a way other than by monetary payment, or (ii) the amount of the interest payments depends on the occurrence or non-occurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued unless the amount of the interest payments solely depends on a fixed or floating reference interest rate, and settlement is effected by monetary payment. Unsecured and unsubordinated Securities issued under this Prospectus that do not meet the terms described in (i) or (ii) above, are, therefore, expected to constitute Non-Preferred Senior Obligations that would bear losses in a German insolvency proceeding or in the event of the imposition of resolution measures before Preferred Senior Obligations. In a German insolvency proceeding or in the event of the imposition of a Resolution Measure with respect to the Issuer, the competent resolution authority or court would determine whether unsecured and unsubordinated debt instruments issued under this Prospectus qualify as Preferred Senior Obligations or as Non-Preferred Senior Obligations. FMSA, BaFin and the German Central Bank published a joint interpretative guide on the classification of certain liabilities under Section 46f (5)-(7) KWG.

Also, it is possible that the hierarchy of claims will be further amended (also with retroactive effect) including with the result of a subordinated treatment and thereby allocating claims in relation to Securities (affecting claims under certain Securities partially or wholly) to have a lower and subordinated ranking in comparison to claims of ordinary unsecured non-preferred creditors of LBBW.

This may *inter alia* increase the likelihood of being exposed to the risks arising from Resolution Measures – in this respect please see "*Rights of Holders may be adversely affected by Resolution Measures (including the Bail-in Tool and the Power to Write-Down and Convert Capital Instruments), the Single Resolution Mechanism and measures to implement the BRRD*" and the sub-heading "*Hierarchy of creditor claims*" thereunder. In addition, Holders of the Instruments and Notes are exposed to risks associated therewith (or uncertainty whether the subordination applies), in particular, without limitation, that the potential subordination negatively affects the market value of the Securities, a reduced liquidity for trading such Instruments and/or Notes or reduced options to successfully post such Instruments and/or Notes as (ECB) central bank collateral or for other collateral purposes.

Risks in relation to separation of proprietary trading and other high-risk trading from other banking business

Upon request from the EU Internal Markets Commissioner Michel Barnier, a group of experts led by Erkki Liikanen proposed a set of recommendations for structural reforms to promote financial stability and efficiency of the EU banking sector which were published in October 2012 (the so-called Liikanen Report). In this respect, the EU Commission presented proposals for the future bank structure in the EU on 29 January 2014, in particular with respect to the so-called "system of institutional separation of commercial and investment banking functions" (*Trennbankensystem*). Thus, the largest and most complex EU banks with significant trading activities (measured as the ratio of trading activities to total assets or in terms of the absolute trading volume) shall be prevented from certain proprietary trading activities in financial instruments and commodities and supervisors shall be granted the power and, in certain instances, the obligation to require the transfer of other high-risk trading activities (potentially including market-making activities, complex derivatives and securitisation operations) to separate legal trading entities within the group. Compared to the German *Trennbankengesetz* described below, the EU Commission's proposals in relation to the *Trennbankensystem* may have lower triggers for banks' transfer obligations in respect of a broader definition of critical trading activities and therefore may require legislative amendments to the current German law. However, details of such proposals are still subject to negotiations and may therefore be subject to changes.

In August 2013, the German law act for the "ringfencing of risks and for the planning, recovery and resolution of credit institutions" ("**Trennbankengesetz**") was published in the German Federal Gazette. Pursuant to the *Trennbankengesetz*, subject to certain criteria, it will be required that trading activities of credit institutions are either legally separated from the other business areas in separate subsidiaries or have to be closed down. The provision applies to credit institutions that accept deposits and other repayable funds and grant loans for their own account, provided their balance sheet positions exceed certain thresholds. Accordingly, banks whose Held-for-Trading and Available-for-Sale assets either exceed EUR 100 billion (absolute threshold) or exceed 20% of total assets and amount to at least EUR 90 billion (relative threshold) may become subject to the separation requirement. The prohibition does not apply to hedging activities performed to hedge transactions with clients, to manage interest rates, currencies, liquidity and credit risks, or to buy or sell long-term equity investments. Also, such separation may result in higher financing costs for the separated activities that could adversely affect the Issuer's business, financial condition and results of operations. In this regard, there are still legal and factual uncertainties as to which business operations would be required to be separated. The BaFin has not only been granted broad discretion in this respect, the scope of these legal regulations is also open to differing interpretations.

Even though it is currently not clearly foreseeable how the future EU proposals in relation to the Liikanen Report and/or an application of the *Trennbankengesetz* will affect Holders' rights, it is conceivable that, if the Issuer must separate certain trading activities, the Issuer may have a fundamentally different risk assumption or creditworthiness or that this may result in other negative effects on the business model and/or the profitability of the Issuer or that this may have other negative impact on the Issuer's business model which in turn may have a material prejudicial effect on Holders' rights.

Regulatory and political actions by European governments in response to the European sovereign debt crisis may not be sufficient to prevent the crisis from spreading or to prevent withdrawal of one or more member countries from the common currency. The withdrawal of any one or more countries from the Euro could have unpredictable consequences on the financial system and the greater economy, potentially leading to decline in business levels, write-downs of assets and losses across the Issuer's businesses. The Issuer's ability to protect itself against these risks is limited.

If European policymakers are unable to contain the European sovereign debt crisis, the Issuer's results of operations and financial position would likely be materially and adversely affected as banks, including the Issuer, may be required to take further write-downs on the Issuer's sovereign debt exposures and other assets as the macroeconomic environment deteriorates. In addition, the possibility exists that one or more members of the Eurozone may leave the common currency, resulting in the reintroduction of one or more national currencies in such countries. The effects of such an event are difficult to anticipate and may have a substantial negative effect on the Issuer's business and outlook, including as a consequence of adverse impacts on economic activity both inside and outside the Eurozone.

The deterioration of the sovereign debt market in the Eurozone and Eastern Europe, particularly the increasing costs of borrowing affecting many Eurozone states late in 2011 and downgrades in the credit ratings of most Eurozone countries in 2011 and 2012, indicate that the sovereign debt crisis can affect even the financially most stable countries in the Eurozone, including Germany. While the costs of borrowing declined again in 2012 and 2013, substantial doubt remains whether actions taken by European policymakers will be sufficient to contain the crisis over the medium to longer term. In particular, credit rating downgrades of France and Austria in 2012 showed that the effectiveness of the European Financial Stability Facility (generally referred to as the EFSF), the temporary special purpose vehicle created by the European Union to combat the sovereign debt crisis, or the new permanent framework (the European Stability Mechanism - "ESM") which was established in September 2012 can be undermined by rating downgrades of its members. Since the EFSF's and ESM's credit ratings are based on the ratings of its financing members, the reduction of these members' ratings may increase the borrowing costs of the EFSF or ESM such that its ability to raise funds to assist Eurozone governments would be reduced. In addition, the austerity programs introduced by a number of countries across the Eurozone in response to the sovereign debt crisis may have the effect of dampening economic growth over the short, medium and long terms. Declining rates of economic growth (or a fall into recession) in Eurozone countries could exacerbate their difficulties in refinancing their sovereign debt as it comes due, further increasing pressure on other Eurozone governments.

Should a Eurozone country conclude it must exit the common currency, the resulting need to reintroduce a national currency and restate existing contractual obligations could have unpredictable financial, legal, political and social consequences. Given the highly interconnected nature of the financial system within the Eurozone, the levels of exposure the Issuer has to public and private counterparties around Europe, the Issuer's ability to plan for such a contingency in a manner that would reduce the Issuer's exposure to non-material levels is likely to be limited. If the overall economic climate deteriorates as a result of one or more departures from the Eurozone, nearly all of the Issuer's business segments, including its more stable flow businesses, could be adversely affected, and if the Issuer is forced to write down additional exposures, the Issuer could incur substantial losses.

Risks relating to consumer protection and complex derivatives and fiscal laws

In addition to regulatory aspects, consumer protection requirements and laws might as well present a challenge for credit institutions. Further legal risks might be created by jurisprudence increasingly critical towards credit institutions. In view of recent rulings by the courts in Germany, the banking landscape continues to face not inconsiderable legal risks from customer transactions in complex derivatives and the further development of consumer protection. Although new rulings by the German Federal Court of Justice (Bundesgerichtshof (BGH)) since 2015 have set the course for further harmonization of the relevant case-law, there is no such consistent and settled case-law yet. Further legal risks exist in fiscal law terms concerning the requirements for deducting capital gains tax. Here, a further development of a legal view with a retrospective impact on the basis of new legislation or new pronouncements by the revenue authorities cannot be ruled out. These risks might negatively affect the Issuer's business and may have an adverse effect on the Issuer's assets, financial and earning position.

Risks relating to changes in the deposit guarantee schemes

In addition, the directive 2014/49/EU on deposit guarantee schemes was published. This revised directive provides, *inter alia*, for faster repayments. In general, financial means dedicated to the compensation of the depositors in times of stress have to comply with 0.8 per cent of the amount of the covered deposits by 3 July 2024, whereby the calculation of the contributions has to be made in due consideration of the risk profiles of the respective business models and those with a higher risk profile should provide higher contributions.

In addition, the institutional deposit guarantee scheme of the Sparkassen Finanzgruppe has been restructured and approved as deposit guarantee scheme pursuant to the German law on deposit guarantees (*Einlagensicherungsgesetz*, "**EinSiG**") by BaFin in the meantime. Due to the EinSiG, the associated systems of calculation of contributions have been updated and therefore this results in an additional financial burden because of new annual contributions for LBBW as of 2015 until 2024.

Further, on 24 November 2015, the European Commission published a proposal for a reform package to create a uniform Euro-area wide deposit guarantee scheme for bank deposits (also referred to as EDIS) as a third pillar of the so called EU Banking Union. The proposal of reforms includes among other things the creation of a European Deposit Insurance Fund on the level of the EU (Banking Union) which will be financed by contributions to be provided by the banking industry. Subject to the final implementation, should the proposals be implemented, this may result in obligations of the Issuer to come up for further contributions. Further, the aforementioned developments may have other material adverse effects on the Issuer's business, results of operations or financial condition.

Risks Relating to the Securities

The Securities may be subject to interest rate risk

The interest rate risk is one of the central risks of interest-bearing securities and, therefore, applies to all Securities which bear interest. The interest rate level on the money and capital markets may fluctuate on a daily basis and cause the value of the Securities to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the market interest rate level. In particular, holders of Securities with a fixed rate of interest and holders of Resetable Instruments or Resetable Notes are exposed to an interest rate risk that could result in a decrease in value if the market interest rate level increases. In general, the effects of this risk increase as the market interest rates increase.

The Securities may be subject to currency risks

A holder of Securities denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Securities. A change in the value of any foreign currency against the Euro, for example, will result in a corresponding change in the Euro value of a Security denominated in a currency other than Euro. If the exchange rate falls and the value of the Euro correspondingly rises, the price of the Security and the value of interest and principal payments made thereunder expressed in Euro falls.

The Securities are subject to inflation risk

The inflation risk is the risk of future money depreciation. The real yield from an investment is reduced by inflation. The higher the rate of inflation, the lower the real yield on a Security. If the inflation is equal to or higher than the nominal yield, the real yield is zero or even negative.

Securities may be subject to no active trading market.

Securities issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market. If the Securities are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest

rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although application has been made for the Securities issued under the Programme to be admitted to trading on the Regulated Market, there is no assurance that such application will be accepted, that any particular Tranche of Securities will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Securities.

The Securities may be redeemed prior to maturity.

Unless in the case of any particular Tranche of Instruments the relevant Final Terms or the Drawdown Prospectus, as the case may be, specifies otherwise, in the event that, as a result of a relevant change in law, the Issuer would be obliged to increase the amounts payable in respect of any Instruments due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of and Issuer Taxing Jurisdiction (as defined in Condition 7 of the Terms and Conditions of the Instruments), any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Instruments in accordance with the Conditions.

In addition, in the case of any particular Tranche of Securities the relevant Final Terms or the Drawdown Prospectus, as the case may be, may specify that the Securities are redeemable at the Issuer's option in certain circumstances including, without limitation changes affecting the hedging arrangements entered into by the Issuer with respect to the securities or on certain dates or during certain periods.

In such cases, the Issuer may choose (but is not obliged) to redeem the Securities, especially also at times when prevailing interest rates may be relatively low (e.g. in particular when Issuers cost of borrowing is lower than on the issue date the Securities). In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security and/or at an effective interest rate or yield as high as that of the relevant Securities and/or on other terms comparable to those of the relevant Securities. Potential investors should consider reinvestment risks in light of other investments available at that time. An optional redemption feature of Securities is also likely to limit their market value. During any period when the Issuer may elect to redeem Securities or if the Issuer is perceived to redeem Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

If so specified in the Final Terms or the Drawdown Prospectus for any particular Tranche of Securities the Issuer may also redeem not all but only some of the Securities of a particular Tranche. In such cases the Securities to be redeemed shall be selected by being drawn by lot and/or in accordance with the rules of the relevant stock exchange and clearing system. Therefore, the Securities of such Tranche held by an investor might or might not be redeemed or only a number of them and the investor is not entitled to resist or demand such selection or redemption.

No Holder's right of early redemption in case of an event of default in case of Subordinated Instruments, Subordinated Notes or Pfandbriefe.

The terms and conditions of the Pfandbriefe, the subordinated Notes (the "**Subordinated Notes**") and the Subordinated Instruments (as defined below) do not provide for any right of early redemption for the Holders of the Pfandbriefe or the Subordinated Notes or the Subordinated Instruments upon the occurrence of an event of default. Holders of Pfandbriefe or Subordinated Notes or Subordinated Instruments therefore have no right to redeem the Pfandbriefe or the Subordinated Notes or the Subordinated Instruments early as may be the case with regard to other securities issued by the Issuer.

Amendments to the Terms and Conditions by resolution of the Noteholders (applicable with regard to Notes only)

The Terms and Conditions of the Notes may be amended by the Issuer with consent of the Noteholders by way of a majority resolution in a Noteholders Meeting or by a vote not requiring a

physical meeting (*Abstimmung ohne Versammlung*) as described in Sections 5 et seq. of the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*, "**SchVG**"). The Issuer may subsequently amend the Terms and Conditions with the consent of the majority of Noteholders as described in §13 of the Terms and Conditions of the Notes, which amendment will be binding on all Noteholders of the relevant Series of Notes, even on those who voted against the change.

Therefore, a Noteholder is subject to the risk of being outvoted by a majority resolution of the Noteholders. As such majority resolution is binding on all Noteholders of a particular Series of Notes, certain rights of such Noteholder against the Issuer under the Terms and Conditions of the Notes may be amended or reduced or even cancelled, which may have significant negative effects on the value of the Notes and the return from the Notes.

The Noteholders may by majority resolution provide for the appointment or dismissal of a joint representative. If a joint representative is appointed a Noteholder may be deprived of its individual right to pursue and enforce a part or all of its rights under the Terms and Conditions of the Notes against the Issuer, such right passing to the Noteholders' joint representative who is then exclusively responsible to claim and enforce the rights of all the Noteholders.

Risks of Fixed Rate Securities (including Step-up/Step-down Securities and Resetable Instruments and Resetable Notes)

A holder of a Security with a fixed rate of interest ("**Fixed Rate Securities**") is exposed to the risk that the price of such Securities falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Securities as specified in the relevant Final Terms is fixed during the life of such Security, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of a Fixed Rate Security also changes, but in the opposite direction. If the market interest rate increases, the price of a Fixed Rate Security typically falls, until the yield of such Security is approximately equal to the market interest rate. If the market interest rate falls, the price of a Fixed Rate Security typically increases, until the yield of such Security is approximately equal to the market interest rate. If the holder of a Fixed Rate Security holds such Security until maturity, changes in the market interest rate are without relevance to such holder as the Security will be redeemed at a specified redemption amount, usually the principal amount of such Security. The same risks apply to fixed rate Securities where the fixed rate of interest increases over the term of the Securities ("**Step-up Securities**") or where the fixed rate of interest decreases over the term of the Securities ("**Step-down Securities**") and, together with Step-up Securities, the "**Step-up/Step-down Securities**") if the market interest rates in respect of comparable Securities are higher than the rates applicable to such Securities.

Where an investor purchases Securities at an issue price (including any fees or transaction costs in connection with such purchase) higher than or equal to the sum of the redemption amount of the Securities and all remaining interest payments on the Securities until the maturity date, the investor may face no yield or a negative yield.

In the case of Resetable Instruments or Resetable Notes, an investment in the Resetable Instruments or Resetable Notes involves the risk that changes in market interest rates during the period until the date at which a coupon reset occurs (if the Resetable Instruments or Resetable Notes are not redeemed early at such date) (the "**Reset Date**") or, as the case may be, during the period after such Reset Date (the "**Reset Period**"), may adversely affect the value of the Resetable Instruments or the Resetable Notes.

In addition, a holder of Instruments or Notes with a fixed interest rate that will be reset during the term of the relevant securities, such as the Resetable Instruments or the Resetable Notes, is also exposed to the risk of fluctuating reference interest rate levels and uncertain interest income. The interest rate applicable to the Resetable Instruments or Resetable Notes in respect of the Reset Period

could be less than the initial interest rate applicable until the Reset Date. This could affect the market value of the Resettable Instruments or the Resettable Notes.

Investors will not be able to calculate in advance their rate of return on floating rate securities

A key difference between floating rate securities and fixed rate securities is that interest income on floating rate securities cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of floating rate securities at the time they purchase them, so that their return on investment cannot be compared with that of investments having a longer term with fixed interests. If the terms and conditions of the notes provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing.

In case of a low floating rate of interest and where an investor purchases Securities at an issue price (including any fees or transaction costs in connection with such purchase) higher than or equal to the sum of the redemption amount of the Securities and all remaining interest payments on the Securities until the maturity date, the investor may face no yield or a negative yield.

Variable rate securities with a multiplier or other leverage factor and Inverse Floating Rate Securities may be volatile instruments

Securities with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Securities have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as EURIBOR[®] or LIBOR[®]. The market values of such securities typically are more volatile than market values of conventional floating rate debt securities using the same reference rate (and otherwise with comparable terms). Inverse Floating Rate Securities are more volatile because an increase in the reference rate not only decreases the interest rate on the securities but also reflects an increase in prevailing interest rates, which further adversely affects the market value of these securities.

Risks associated with the reform of LIBOR, EURIBOR and other interest rate 'benchmarks'

The EURIBOR[®], the LIBOR[®] and other interest rate indices which are deemed to be 'benchmarks' are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such 'benchmarks' to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to such a 'benchmark'.

On 17 May 2016, the Council of the European Union adopted the EU regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"). The Benchmark Regulation entered into force on 30 June 2016. Subject to various transitional provisions, the Benchmark Regulation will apply from 1 January 2018, except that the regime for 'critical' benchmarks applies from 30 June 2016. The Benchmark Regulation will apply to 'contributors', 'administrators' and 'users' of 'benchmarks' in the EU, and will, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to have satisfied certain 'equivalence' conditions in its local jurisdiction, to be 'recognised' by the authorities of a Member State pending an equivalence decision or to be 'endorsed' for such purpose by an EU competent authority) and to comply with requirements in relation to the administration of 'benchmarks' and (ii) ban the use of 'benchmarks' of unauthorised administrators. The scope of the Benchmark Regulation is wide and, in addition to so-called 'critical benchmark' indices such as EURIBOR[®] and LIBOR[®], will apply to many other interest rate indices.

The Benchmark Regulation could have a material impact on Securities linked to a 'benchmark' rate or index, including in any of the following circumstances:

- a rate or index which is a 'benchmark' could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to applicable transitional provisions) does not satisfy the 'equivalence' conditions, is not 'recognised' pending such a decision and is not 'endorsed' for such purpose. In such event, depending on the particular 'benchmark' and the applicable terms of the Securities, the Securities could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted; and
- the methodology or other terms of the 'benchmark' could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Securities, including Calculation Agent determination of the rate or level in its discretion.

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of 'benchmarks' could increase the costs and risks of administering or otherwise participating in the setting of a 'benchmark' and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain 'benchmarks', trigger changes in the rules or methodologies used in certain 'benchmarks' or lead to the disappearance of certain 'benchmarks'. The disappearance of a 'benchmark' or changes in the manner of administration of a 'benchmark' could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the Calculation Agent, delisting or other consequence in relation to Securities linked to such 'benchmark'. Any such consequence could have a material adverse effect on the value of and return on any such Securities.

Zero coupon securities do not pay current interest

Zero coupon Securities do not pay current interest but are issued at a discount from their nominal value (discounted zero coupon Securities) or at their nominal value (compounded zero coupon Securities) (the "**Zero Coupon Securities**"). Instead of periodical interest payments, the difference between the redemption price and the issue price constitutes interest income until maturity and reflects the market interest rate. A holder of a Zero Coupon Security is exposed to the risk that the price of such Security falls as a result of changes in the market interest rate. Prices of Zero Coupon Securities are more volatile than prices of Fixed Rate Securities and are likely to respond to a greater degree to market interest rate changes than interest bearing Securities with a similar maturity. The amount to be paid on redemption prior to maturity by the Issuer is calculated pursuant to a formula reflecting the interest income until such early redemption (which is lower than the redemption price at maturity).

Risks of Range Accrual Securities

The Terms and Conditions of Range Accrual Securities may provide for the interest payable (except for a possible agreed fixed rate payable to the extent provided for in the Terms and Conditions of the Securities) to be dependent on the number of days during which the CMS rate or the reference rate (EURIBOR[®] or LIBOR[®] as specified in the Terms and Conditions of the Range Accrual Securities) is above/equal or below/equal to a certain interest rate or within a certain interest trigger range ("**Range Accrual Securities**"). The interest payable on the Range Accrual Securities decreases depending on the number of determination dates during which the CMS rate or the reference rate is above or below (or equal to), as the case may be, the relevant interest rate or within the relevant interest trigger range. No interest may be payable in the event that the CMS rate or the reference rate increases or decreases significantly and remains above or below (or equal to), as the case may be, the relevant interest rate or outside the relevant interest trigger range throughout an entire accumulation period.

As the interest payable depends on the level of the CMS rate or the reference rate, investors are subjected to CMS rate or interest rate fluctuations, and the amount of interest income is uncertain. Owing to the fluctuations in the CMS rate(s) or the reference rate(s), it is impossible to calculate the interest income and the yield for the entire term in advance.

Range Accrual Securities may also be issued with one or more fixed interest period(s) which are connected upstream to the floating rate interest periods. In such case, risks relating to Fixed Rate Securities apply with regard to the fixed interest period(s) of such Range Accrual Securities as well.

Risks of CMS Spread Securities

The Terms and Conditions of CMS Spread Securities may provide for a variable interest rate (except for a possible agreed fixed rate payable to the extent provided for in the Terms and Conditions of Securities) which is dependent on the difference between rates for swaps having different terms ("**CMS Spread Securities**").

Investors purchasing CMS Spread Securities might expect that, during the term of the CMS Spread Securities, (i) the interest curve will not, or only moderately, flatten out, or (ii), depending on the structure of CMS Spread Securities, expect that the interest curve will not steepen, as the case may be. In the event that the market does not develop as anticipated by investors and that the difference between rates for swaps having different terms decreases to a greater extent than anticipated, the interest rate payable on the Securities will be lower than the interest level prevailing as at the date of purchase. In a worst case scenario, no interest will be payable. In such cases, the price of the CMS Spread Securities will also decline during the term.

CMS Spread Securities may be equipped with a cap with respect to the interest payment. In that case the amount of interest will never rise above and beyond the predetermined cap, so that the Holder will not be able to benefit from any actual favourable development beyond the cap. The yield of these Securities could therefore be lower than that of similarly structured Securities without a cap.

CMS Spread Securities may also be issued with one or more initial fixed interest period(s) which are connected upstream to the floating rate interest periods. In such case, risks relating to Fixed Rate Securities apply with regard to the fixed interest period(s) of such CMS Spread Securities as well.

Conflicts of interest – Calculation Agent

Potential conflicts of interest may exist between the Calculation Agent (if any) and Holders (including where a Dealer acts as a calculation agent), including with respect to certain determinations and judgements that such Calculation Agent may make pursuant to the terms and conditions that may influence amounts receivable by the Holders during the term of the Securities and upon their redemption.

Because the Global Instruments are held by or on behalf of Euroclear and Clearstream, Luxembourg or Clearstream, Frankfurt or DTC, investors will have to rely on their procedures for transfer, payment and communication with the Issuer.

Securities issued under the Programme may be represented by one or more Global Instruments. Such Global Instruments will be deposited with a common depository or, as the case may be, a common safekeeper for Euroclear and Clearstream, Luxembourg or with Clearstream, Frankfurt or with a custodian for and registered in the name of a nominee of DTC. Except in the circumstances described in the relevant Global Instrument, investors will not be entitled to receive definitive Instruments. Euroclear and Clearstream, Luxembourg and DTC will maintain records of the beneficial interests or co-ownership participations in the Global Instruments. While the Securities are represented by one or more Global Instruments, investors will be able to trade their beneficial interests or co-ownership participations only through Euroclear and Clearstream, Luxembourg or through Clearstream, Frankfurt or DTC.

While the Securities are represented by one or more Global Instruments the Issuer will discharge its payment obligations under the Securities by making payments to the common depository or, as the case may be, a common safekeeper for Euroclear and Clearstream, Luxembourg or to Clearstream, Frankfurt, for distribution to its account holders or a custodian for DTC, for distribution to its account holders. A holder of a beneficial interest or a co-ownership participation in a Global Security must rely on the procedures of Euroclear and Clearstream, Luxembourg or Clearstream, Frankfurt or DTC to receive payments under the relevant Securities. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests or co-ownership participations in the Global Instruments.

Holders of beneficial interests or co-ownership participations in the Global Instruments will not have a direct right to vote in respect of the relevant Securities. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg or by Clearstream, Frankfurt or by DTC to appoint appropriate proxies.

New Safekeeping Structure

The Issuer intends that the Instruments will be registered on issue in the name of a nominee for Euroclear or Clearstream, Luxembourg (as defined below) as common safekeeper. This does not necessarily mean that the Instruments will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon the European Central Bank being satisfied that Eurosystem eligibility criteria have been met.

Risks relating in particular to Subordinated Instruments and Subordinated Notes

Subordinated Instruments and Subordinated Notes may be subordinated to most of LBBW's liabilities

Investors in the Subordinated Instruments or the Subordinated Notes, as the case may be, should be aware that, due to the ranking of the Subordinated Instruments or the Subordinated Notes, as the case may be, their claims are exposed to an increased extent to the risks in connection with resolution measures (in particular in light of the Revised State Aid Guidelines) and as a result – and therefore already in a crisis of the Issuer and not only in an insolvency scenario - may lose all of their investment, including the principal amount plus any accrued interest, or that the Subordinated Instruments or the Subordinated Notes, as the case may be, are subject to any change in the terms and conditions, or that the Subordinated Instruments or the Subordinated Notes, as the case may be, be transferred to another entity or are subject to any other resolution measure (especially the Bail-in).

For further related risk details please see risk factor *Rights of the Holders may be adversely affected by resolution measures or Revised State Aid Guidelines*.

Further, if in the case of any particular Tranche of Instruments or Notes the relevant Final Terms or the Drawdown Prospectus, as the case may be, specifies that the Securities are Subordinated Instruments or Subordinated Notes, such instruments constitute wholly subordinated obligations of LBBW (except in relation to subordinated liabilities expressed to rank junior to the Subordinated Instruments or the Subordinated Notes) and in the event of the dissolution, liquidation, insolvency, composition or any proceeding for the avoidance of insolvency, of or against LBBW, such obligations will be wholly subordinated (i) to the claims of all unsubordinated creditors of LBBW and (ii) to claims of any subordinated creditors of LBBW that take priority (a) by mandatory provisions of law or (b) by the terms of the respective obligations so that in any such event no amounts shall be payable under such obligations until the claims of all unsubordinated creditors of the Issuer or such subordinated creditors of the Issuer that take priority, as the case may be, shall have been satisfied in full.

The Holders of the Subordinated Instruments or the Subordinated Notes are not entitled to set off claims arising from the Subordinated Instruments or the Subordinated Notes, as the case may be, against any of the Issuer's claims. No security of whatever kind is, or shall at any later time be, provided by the Issuer or any of its associated companies or any third party that has a close link with the Issuer or any of its associated companies or any other person securing rights of the Holders under the Subordinated Instruments or the Subordinated Notes, as the case may be.

Furthermore, the termination, the redemption, the repurchase and the repayment of the Subordinated Instruments or the Subordinated Notes, as the case may be, are subject to specific restrictions, which are also shown in the specific terms and the risk factors. These specific terms – such as termination, redemption, repurchase and repayment – in particular have an effect on the market value of the Subordinated Instruments or the Subordinated Notes, as the case may be, with the result that the market value of instruments from the same issuer with the same specific terms but without subordination is generally higher.

In accordance with applicable provisions concerning the classification as own funds, the Subordinated Instruments or the Subordinated Notes, as the case may be, shall be available for the Issuer as eligible capital in the form of Tier 2 capital ("**Tier 2 Capital**"). However, there is no guarantee that Subordinated Instruments or Subordinated Notes, as the case may be, will be qualified as Tier 2 Capital or, if they are to be qualified as Tier 2 Capital, that this will remain during the term of the Subordinated Instruments or Subordinated Notes or that these Subordinated Instruments or Subordinated Notes will not be excluded from future EU provisions regarding capital maintenance. Related to this is the Issuer's right to terminate Subordinated Instruments or Subordinated Notes, as the case may be, on the basis of regulatory reasons which is subject to prior permission of the competent regulatory authority, if such is legally required. In case of redemption caused by regulatory reasons there is no guarantee for the Holders to be able to reinvest their amounts invested and redeemed on similar terms.

In addition, with regard to Subordinated Notes additional amounts due to the withholding of taxes or duties pursuant to § 7 of the Terms and Conditions will be paid in respect of interest payments only.

In certain circumstances, the Issuer will have a right to redeem the Subordinated Instruments or the Subordinated Notes, as the case may be, before their scheduled maturity. In the event of an early redemption, the Holders may, as a result, receive a lower than the expected yield on the invested capital

If in the determination of the Issuer (i) the Issuer may not or will not be allowed to fully count the Subordinated Instruments or the Subordinated Notes, as the case may be, as Tier 2 capital for the purposes of own funds requirements in accordance with the applicable Own Funds Provisions, for reasons other than the amortisation in accordance with the Own Funds Provisions (including, but not limited to, Article 64 CRR) or (ii) the Subordinated Instruments or the Subordinated Notes, as the case may be, are or will become in any other way subject to a less favourable regulatory treatment than on the Issue Date the Subordinated Instruments or the Subordinated Notes, as the case may be, may be redeemed, in whole but not in part, at the option of the Issuer and subject to the prior permission (if required) of the competent regulatory authority.

Due to the Issuer's right to an early redemption the Holder is exposed to the risk that it will receive a lower than the expected yield. As it cannot be excluded that the Issuer exercises an early redemption right at a time when the yield on comparable bonds in the capital market has fallen, the investor may also not be able to reinvest the redemption proceeds in comparable bonds with an equal or higher yield. Potential investors should consider reinvestment risk in light of other investments available at that time.

Early redemption rights in relation to the Subordinated Instruments or the Subordinated Notes, as the case may be, may be subject to the prior permission of the competent regulatory authority and may not be exercised by the Issuer

The Holders of the Subordinated Instruments or the Subordinated Notes, as the case may be, have no rights to call for the redemption of their Securities and should not invest in the Subordinated Instruments or the Subordinated Notes, as the case may be, in the expectation that any call will be exercised by the Issuer. An early redemption or repurchase of the Subordinated Instruments or the Subordinated Notes, as the case may be, may be subject to the prior permission of the competent regulatory authority (if such is required) and compliance with regulatory capital rules applicable from time to time to the Issuer. Under the CRR, the competent regulatory authority may only permit institutions to redeem Tier 2 instruments such as the Subordinated Instruments or the Subordinated Notes, as the case may be, prior to their contractual maturity if certain conditions prescribed by the CRR are complied with. For example, in the case of an early redemption during the initial five years from the date of issue of the Subordinated Instruments or the Subordinated Notes, as the case may be, as a result of certain changes in applicable tax treatment, as provided under Condition 5.03 of the Terms and Conditions for Instruments or §5 (2) of the Terms and Conditions for Notes, as the case may be, the institution must demonstrate to the satisfaction of the competent regulatory authority that the change is material and was not reasonably foreseeable at the date of issue; in the case of an early redemption during the initial five years due to the disqualification of the Subordinated Instruments or the Subordinated Notes, as the case may be, from Tier 2 Capital or if those become in any way subject to a less favourable treatment as own funds than on the Issue Date, as provided under Condition 5.04 of the Terms and Conditions for Instruments or §5 (2) of the Terms and Conditions for Notes, as the case may be, the competent regulatory authority must be satisfied that such a change is sufficiently certain and the institution must demonstrate to the satisfaction of the competent regulatory authority that such regulatory reclassification was not reasonably foreseeable at the date of issue. These conditions, as well as a number of other technical rules and standards relating to regulatory capital requirements applicable to the Issuer, should be taken into account by the competent regulatory authority in its assessment of whether or not to permit any early redemption or repurchase. It is uncertain how the competent regulatory authority will apply these criteria in practice and such rules and standards may change during the life of the Subordinated Instruments or the Subordinated Notes, as the case may be. It is therefore difficult to predict whether at any time, and on what terms, the competent regulatory authority will permit any early redemption or repurchase of the Subordinated Instruments or the Subordinated Notes, as the case may be.

Furthermore, even if the Issuer is granted the prior permission of the competent regulatory authority, any decision by the Issuer as to whether it will exercise a call in respect of the Subordinated Instruments or the Subordinated Notes, as the case may be, will be taken at the absolute discretion of the Issuer with regard to factors such as the economic and market impact of exercising a call, regulatory capital requirements and prevailing market conditions.

Holders of the Subordinated Instruments or the Subordinated Notes, as the case may be, should be aware that they may be required to bear the financial risks of an investment in the Subordinated Instruments or the Subordinated Notes, as the case may be, until final maturity of such Instruments or Notes.

Denominations and higher integral multiples of less than EUR 100,000

In relation to any issue of Instruments which have a denomination consisting of the minimum Specified Denomination plus a higher integral multiple of another smaller amount, it is possible that the Instruments may be traded in amounts in excess of the Specified Denomination (or its equivalent in other currencies) that are not integral multiples of the Specified Denomination (or its equivalent in other currencies). In such a case, a Holder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination may not receive a Definitive Instrument in

respect of such holding (should Definitive Instruments be printed) and would need to purchase a principal amount of Instruments such that its holding amounts to a Specified Denomination.

Taxation

General

The Base Prospectus contains a general description of certain tax considerations relating to the Securities (see "*Taxation*"), based upon the law as in effect on the date of the Base Prospectus and is subject to any change in law that may take effect after such date. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in those countries or elsewhere. Prospective purchasers of Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of those countries.

Payments under the Instruments may be subject to withholding tax pursuant to FATCA

With respect to Instruments issued by LBBW acting through its New York branch, the Issuer may, under certain circumstances, be required pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended and the regulations promulgated thereunder ("**FATCA**") to withhold U.S. tax at a rate of 30.00 per cent. on payments of interest made at any time and payments of principal and the gross proceeds from the sale, exchange or redemption of the Instruments made on or after 1 January 2019 to foreign financial institutions unless the payee foreign financial institution certifies that it is eligible to receive such payments free of FATCA withholding. Payments of the foregoing amounts made to certain non financial foreign entities that do not disclose certain information about any substantial U.S. owners (or certify that they do not have any substantial U.S. owners) may also be subject to withholding at the rate of 30.00 per cent. under FATCA.

With respect to Instruments issued by a member of LBBW Group other than the New York branch of LBBW six months after the date on which the term "foreign passthru payment" is defined in regulations published in the U.S. Federal Register (the "**Passthru Payment Grandfathering Date**") or in the case of Open End Instruments issued at any time, the Issuer may under certain circumstances, be required under FATCA to withhold U.S. tax at a rate of 30.00 per cent. on all or a portion of payments of principal and interest which are treated as "passthru payments" made on or after 1 January 2019 to foreign financial institutions unless the payee foreign financial institution certifies that it is eligible to receive payments free of FATCA withholdings.

FATCA withholding may also be required with respect to Instruments issued before the Passthru Payment Grandfathering Date, that are "significantly modified" for U.S. federal income tax purposes after the Passthru Payment Grandfathering Date. In addition, FATCA withholding may be required if the Issuer creates and issues further Securities in a manner that does not constitute a "qualified reopening" for U.S. federal income tax purposes after the Passthru Payment Grandfathering Date that are consolidated and form a single series with the outstanding Securities as permitted by §9 of the Terms and Conditions.

Germany has entered into an intergovernmental agreement (an "**IGA**") with the United States to help implement FATCA for certain German financial institutions. The Issuer will be required to report certain information on its U.S. account holders to Germany in order (i) to obtain an exemption from FATCA withholding on payments it receives and/or (ii) to comply with any applicable German law. It is not yet certain how the United States and Germany will address withholding on "foreign passthru payments" (which may include payments on Securities (other than Instruments issued by the New York branch of the Bank) or if such withholding will be required at all.

If applicable, FATCA will be addressed in an annex to the relevant Final Terms with respect to Securities issued after the Passthru Payment Grandfathering Date. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the

Instruments as a result of a Holder's failure to comply with FATCA, none of the Issuer, any paying agent or any other person would pursuant to the conditions of the Instruments be required to pay additional amounts as a result of the deduction or withholding of such tax.

The Secondary Market Generally

Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Securities generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Securities.

Independent Review and Advice

Each potential investor must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Securities is fully consistent with its (or if it is acquiring the Securities in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Securities as principal or in a fiduciary capacity) and is a fit, proper and suitable investment for it (or if it is acquiring the Securities in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Securities. The Issuer disclaims any responsibility to advise potential investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Securities. If a potential investor does not inform itself in an appropriate manner with regard to an investment in the Securities, the investor risks disadvantages in the context of its investment.

RISIKOFAKTOREN

Soweit nicht anders angegeben, haben nachstehend oder an anderer Stelle in diesem Basisprospekt die in den "Terms and Conditions of the Instrumente", "Emissionsbedingungen der Inhaberpfandbriefe" oder "Emissionsbedingungen der Namenspfandbriefe" oder "Emissionsbedingungen für Inhaberschuldverschreibungen unter deutschem Recht" definierten Begriffe jeweils dieselbe Bedeutung.

Eine Anlage in die Wertpapiere ist mit bestimmten Risiken verbunden. Potenzielle Anleger sollten berücksichtigen, dass die folgenden Faktoren die Fähigkeit der Emittentin beeinflussen könnten, ihren Verpflichtungen aus den im Rahmen des Programms ausgegebenen Wertpapieren nachzukommen und/oder für die Bewertung des Marktrisikos, das mit den im Rahmen des Programms ausgegebenen Wertpapieren verbunden ist, wesentlich sind. Falls einer oder mehrere der nachfolgenden Risikofaktoren eintreten, kann dies zu einem erheblichen Verfall des Marktpreises der Wertpapiere oder im schlechtesten Fall zu einem Totalverlust von Zinsen und des vom Anleger investierten Kapitals führen:

Risiken in Verbindung mit der LBBW

Risikomanagement

Unter Risikomanagement wird im LBBW-Konzern der Einsatz eines umfassenden Instrumentariums für den Umgang mit Risiken im Rahmen der Risikotragfähigkeit und der durch den Vorstand festgelegten Strategie verstanden. Risiken sollen im Rahmen der internen Kontrollverfahren und aufgrund der damit verbundenen Ertragschancen und Wachstumspotenziale bewusst und kontrolliert eingegangen werden.

Die internen Kontrollverfahren bilden damit einen Kernbestandteil des konzernweiten Systems zur risikoorientierten Gesamtbanksteuerung und bestehen insbesondere aus Aufbau- und Ablauforganisation, Risikosteuerungs- und Risikocontrollingprozessen sowie der internen Revision.

Die Grundsätze des Risikomanagementsystems sind in den zur Geschäftsstrategie konsistenten Risikostrategien durch den Vorstand und den Risikoausschuss festgelegt.

In der konzernweit und risikoartenübergreifend gültigen Konzernrisikostrategie werden die risikostrategischen Vorgaben gemäß den Mindestanforderungen an das Risikomanagement (MaRisk) zusammengeführt. Sie ist durch die Festlegung von risikostrategischen Grundbedingungen, strategischen Limiten, der Liquiditätsrisikotoleranz und der Leitsätze für das Risikomanagement definiert und bei allen Geschäftsaktivitäten einzuhalten.

Die risikostrategischen Grundbedingungen spiegeln die in der Geschäftsstrategie festgelegte konservative Risikopolitik wider:

- Nachhaltige Einhaltung der Risikotragfähigkeit, auch unter Stressbedingungen
- Jederzeitige Zahlungsfähigkeit und Einhaltung der Liquiditätsrisikotoleranz, auch unter Stressbedingungen
- Nachhaltige Einhaltung und Erfüllung der regulatorischen Mindestquoten

Das strategische Limitsystem operationalisiert die in der Geschäftsstrategie definierten Maßgaben und Ziele für alle wesentlichen, in der Risikotragfähigkeit erfassten Risikoarten. Das oberste Risiko-limit für Ökonomisches Kapital (ÖKap-Limit) wurde durch den Gesamtvorstand unter Berücksichtigung der o. g. risikostrategischen Grundbedingungen sowie unter Beachtung der ÖKap-Prognose für die kommenden 5 Jahre für das Jahr 2017 festgelegt und auf die wesentlichen Risikoarten allokiert.

Die Liquiditätsrisikotoleranz limitiert das Liquiditätsrisiko im engeren Sinne, d. h. das Risiko der Zahlungsunfähigkeit.

Die Risikoleitsätze stellen zentrale Grundsätze für die Abwägung von Chancen und Risiken innerhalb der LBBW dar. Sie tragen zur Schaffung einer einheitlichen Risikokultur bei und bilden – unter Materialitätsgrundsätzen – den Rahmen für die konkrete Ausgestaltung der Prozesse, Verfahren und Methoden des Risikomanagements.

Die für jede wesentliche Risikoart verabschiedeten spezifischen Risikostrategien dokumentieren darüber hinaus das aktuelle und das angestrebte Risikoprofil der LBBW, machen kunden-, produkt- und marktspezifische Vorgaben und bilden damit gemeinsam mit der Geschäftsstrategie den Rahmen der Mittelfristplanung. Ergänzende Informationen zu den spezifischen Risikostrategien sind in den Kapiteln zur jeweiligen Risikoart aufgeführt.

Die operative Umsetzung dieser Vorgaben wird durch Plan-Ist-Vergleiche, monatliche Ergebnisanalysen sowie strategische und operative Limitsysteme überwacht.

Eine konzernweite Zusammenfassung der Risiken über alle wesentlichen Risikoarten und Tochtergesellschaften hinweg und deren Gegenüberstellung zur ökonomischen Kapitalausstattung (Risikodeckungsmasse) wird in der Risikotragfähigkeitsrechnung (RTF) nach dem sog. Liquidationsprinzip durchgeführt. Die interne Überwachung dieser Kennzahl stellt die Angemessenheit der ökonomischen Kapitalausstattung im LBBW-Konzern sicher.

Die Risikodeckungsmasse (RDM, entspricht Risikodeckungspotenzial laut MaRisk) bezeichnet im LBBW-Konzern die nach ökonomischen Kriterien abgegrenzten Eigenmittel, die zur Deckung von unerwarteten Verlusten zur Verfügung stehen. Neben dem Konzerneigenkapital nach IFRS inkl. Neubewertungsrücklagen werden Nachrangkapitalien und realisiertes GuV-Ergebnis nach IFRS als Bestandteile einbezogen. Zusätzlich werden aufgrund aufsichtlicher Vorgaben umfangreiche konservative Abzugspositionen berücksichtigt.

Als einheitliche Risikomaßzahl auf der obersten Ebene wird der ökonomische Kapitalbedarf, oder auch Ökonomisches Kapital, berechnet. Dieser ist als der Betrag an Kapital zu verstehen, der benötigt wird, um die aus den Geschäftsaktivitäten resultierenden Risiken abzudecken. In Abgrenzung zum regulatorisch notwendigen Eigenkapital bezeichnet es also das aus Sicht des LBBW-Konzerns ökonomisch notwendige Kapital, das mithilfe eigener Risikomodelle ermittelt wird. Es wird für Kredit, Marktpreis-, Immobilien-, Development-, Beteiligungs- und Operationelle Risiken als Value-at-Risk (VaR) auf dem Konfidenzniveau 99,93 % und einem Jahr Haltedauer sowie für Sonstige Risiken über vereinfachte Verfahren quantifiziert.

Die Liquiditätsrisiken werden abweichend hiervon durch die gemäß der Liquiditätsrisikotoleranz festgelegten quantitativen und prozessualen Regelungen gesteuert und limitiert.

Das oberste Risikolimit für Ökonomisches Kapital (ÖKap-Limit) stellt ein konzernweit übergeordnetes Limit für sämtliche relevanten, quantifizierten Risikoarten dar. Dieses Limit spiegelt die maximale Bereitschaft zur Risikonahme des LBBW-Konzerns wider. Es wurde mit Bezug auf die konservative Leitlinie der Risikotoleranz deutlich unterhalb der gesamten Risikodeckungsmasse festgelegt und bietet damit Raum für Risiken aus unvorhersehbaren Stresssituationen. Ergänzend erfolgt eine Verifizierung des ÖKap-Limits auf Basis der Planwerte. Ausgehend vom obersten ÖKap-Limit werden ÖKap-Limite für die verschiedenen direkt quantifizierten Risikoarten und für die nicht im Rahmen eines Modellansatzes quantifizierten Sonstigen Risiken abgeleitet. Die Risikotragfähigkeit wird über ein Ampelverfahren durch das Konzernrisikocontrolling überwacht. Die jeweiligen Ampelschwellen sind mit dem Sanierungsplan gemäß dem Sanierungs- und Abwicklungsgesetzes (SAG) verbunden und mit einem Eskalationsprozess verknüpft. Die Darstellung der Risiken im Rahmen der Risikotragfähigkeit des LBBW-Konzerns erfolgt vor möglichen Maßnahmen zur Risikobegrenzung (sog. Bruttobetrachtung).

Neben der ökonomischen Sichtweise umfasst das Kapitalmanagement des LBBW-Konzerns die Steuerung des regulatorischen Eigenkapitals. Dabei wird zum einen die Einhaltung der internen Zielvorgaben (die weit über den regulatorischen Mindestanforderungen liegen) mittels der regulatorischen Meldung überwacht, zum anderen die langfristige Erfüllung im Rahmen des regulatorischen und ökonomischen Kapitalplanungsprozesses sowie im Rahmen des laufenden Überwachungsprozesses sichergestellt. Ergänzend wird die Einhaltung der internen Zielvorgaben bei adversen Entwicklungen durch eine Betrachtung von Stressszenarien sichergestellt.

Zusammenfassend kann festgestellt werden, dass die Risikotragfähigkeit des LBBW-Konzerns während des gesamten Geschäftsjahres 2016 jederzeit uneingeschränkt gegeben war. Die Risikodeckungsmasse ist zum Jahresende 2016 gegenüber dem Jahresende 2015 nahezu unverändert. Fälligkeiten des Nachrangkapitals wurden durch Neuemission nachrangiger Verbindlichkeiten kompensiert. Die Auslastung der Risikodeckungsmasse hat sich aufgrund der Risikoentwicklung gegenüber dem Jahresende 2015 deutlich verringert und liegt bei 44 %. Auch die Stressresistenz war über das gesamte Geschäftsjahr hinweg gegeben.

1) Konfidenzniveau 99,93 %/1 Jahr Haltedauer.

2) Die einzelnen Risikoarten sind über ÖKap-Limite limitiert.

3) Sonstige Risiken (insbesondere Reputations-, Geschäfts-, Pensions- und Modellrisiken).

Ausgehend vom Jahresende 2015 hat sich die ökonomische Kapitalbindung in Summe um - 0,7 Mrd. EUR verringert. Die Abbildung des Marktpreisrisikos im Rahmen der Risikotragfähigkeit erfolgt auf Basis des Maximums aus VaR und Long-TermVaR. Letzterem liegt eine längere Beobachtungsperiode von fünf Jahren zugrunde. Die Reduzierung des Ökonomischen Kapitals für das Marktpreisrisiko ist dementsprechend insbesondere auf die Verschiebung der Beobachtungsperiode beim Long-TermVaR und den damit einhergehenden gesunkenen Volatilitäten zurückzuführen. Bei den Geschäfts- und Reputationsrisiken wurde die Ermittlungsmethodik grundlegend überarbeitet. Der Risikorückgang bei den Sonstigen Risiken resultiert hauptsächlich aus dieser methodischen Überarbeitung. Ursächlich für das gesunkene Beteiligungsrisko ist die Einführung der Risk Management Group. In dieser werden wesentliche Tochterunternehmen, d.h. Gesellschaften, deren Risikopotenzial aus Konzernsicht als wesentlich einzustufen ist, nach dem Transparenzprinzip behandelt. Dementsprechend werden alle auf Konzernebene wesentlichen Risiken für jedes dieser Tochterunternehmen separat in der jeweiligen Risikoart quantifiziert, ggf. mittels Schätzverfahren. Der leichte Anstieg beim Adressenausfallrisiko resultiert maßgeblich aus einer methodischen Weiterentwicklung, bei der das Risiko einer Veränderung des Credit Value Adjustments in der Risikorechnung ergänzt wurde.

Im LBBW-Konzern dürfen Geschäfte ausschließlich innerhalb klar definierter Limite bzw. Kompetenzen sowie der Leitlinien der Risikostrategie eingegangen werden. Innerhalb des definierten Rahmens werden die Risikomanagemententscheidungen von den portfolioverantwortlichen Stellen unter Einhaltung der Funktionstrennung getroffen und durch das zentrale Konzernrisikocontrolling überwacht. Das hierzu eingerichtete Risikocontrolling- und Risikomanagementsystem erstreckt sich auf alle wesentlichen Risiken und auf deren risikoartenspezifische Details.

Besondere Beachtung finden potenzielle Risikokonzentrationen. Konzentrationen entstehen zum einen durch den Gleichlauf von Risikopositionen innerhalb einer Risikoart. Zum anderen können sie auch durch gemeinsame Risikofaktoren oder durch Interaktionen verschiedener Risikofaktoren unterschiedlicher Risikoarten entstehen. In der LBBW werden Konzentrationsrisiken mittels geeigneter Verfahren identifiziert und entsprechend bewusst gesteuert. Bestandsgefährdende Risiken sind auszuschließen. Es bestehen differenzierte Überwachungsprozesse (z. B. Bericht über Risikokonzentrationen, Stresstests) und Limite (z. B. Branchen- und Länderlimitierungen), um diese strategische Vorgabe zu überwachen. Ergänzende Informationen hierzu sind in den Kapiteln zur jeweiligen Risikoart aufgeführt.

Das Risk Committee setzt sich zusammen aus den für Financial Markets/Internationales Geschäft, Finanzen/Controlling sowie Risikomanagement/Compliance und Revision verantwortlichen Dezernenten sowie Bereichsleitern, u. a. aus Konzernrisikocontrolling, Finanzcontrolling und Treasury. Als beratender Ausschuss arbeitet es entscheidungsvorbereitend für den Vorstand und unterstützt ihn bei der Risikoüberwachung, Risikomethodik und Risikostrategie für den Gesamtkonzern. Basis dafür sind der monatliche Gesamtrisikobericht sowie weitere anlassbezogene Themenaufbereitungen.

Das Asset Liability Committee (ALCo) hat ebenfalls eine beratende Funktion und beschließt über Vorschläge zur Entscheidung durch den LBBW-Gesamtvorstand. Fokus des Asset Liability Committee ist die strategische Ressourcensteuerung für den LBBW-Konzern. Es unterstützt den Vorstand u. a. bei der Bilanzstruktursteuerung, Kapitalsteuerung, Liquiditätssteuerung und Refinanzierung sowie der Marktpreisrisikosteuerung. Das Committee setzt sich zusammen aus dem Vorstandsvorsitzenden, den für Financial Markets/Internationales Geschäft, Risikomanagement/Compliance und Revision sowie Finanzen/Controlling zuständigen Dezernenten sowie bestimmten Bereichsleitern, u. a. aus Treasury, Konzernrisikocontrolling, Finanzcontrolling und Finanzen.

Um bei der Vielzahl an Anforderungen im Bankenaufsichtsrecht und der Bilanzierung frühzeitig die steuerungsrelevanten Anforderungen zu bewerten und Maßnahmen zu ergreifen, besteht ein koordinierendes Regulatorik-/Bilanzierungskomitee. Das Komitee setzt sich zusammen aus dem Vorstandsvorsitzenden, den für Financial Markets/Internationales Geschäft, Finanzen/Controlling sowie Risikomanagement/Compliance und Revision verantwortlichen Dezernenten sowie Bereichsleitern, u. a. aus Finanzen, Konzernrisikocontrolling, Treasury und Konzernstrategie/Recht.

Der Bereich Konzernrevision überwacht prozessunabhängig die Betriebs- und Geschäftsabläufe, das Risikomanagement und -controlling sowie das Interne Kontrollsystem (IKS) mit dem Ziel, das Vermögen der LBBW zu sichern und die betriebliche Leistungsfähigkeit zu fördern. Der Bereich Konzernrevision nimmt seine Aufgaben weisungsunabhängig wahr. Schriftliche und mit den geprüften Betriebseinheiten abschließend besprochene Prüfungsberichte informieren den Vorstand über die Prüfungsergebnisse. Der Bereich Konzernrevision überwacht zudem die Erledigung der Prüfungsfeststellungen.

Die Prüfungstätigkeit der Konzernrevision richtet sich grundsätzlich nach einer vom Vorstand genehmigten jährlichen Prüfungsplanung, die auf Basis einer langfristigen, risikoorientierten Planung erstellt wird. Dabei sind unter Berücksichtigung der Risikogewichtung in einem angemessenen Zeitraum, grundsätzlich innerhalb von drei Jahren, alle Aktivitäten und Prozesse des LBBW-Konzerns zu erfassen.

Marktpreisrisiko

Das Marktpreisrisiko umfasst mögliche Portfoliowertverluste im Handels- und Anlagebuch, die durch Veränderung von Marktpreisen, wie beispielsweise Zinssätzen und Credit Spreads, Devisen-, Rohwaren- und Aktienkursen oder preisbeeinflussenden Parametern wie Volatilitäten oder

Korrelationen ausgelöst werden. Marktpreisrisiken werden fortlaufend von den Handelsabteilungen der Bank gesteuert.

Insgesamt liegt die Verantwortung für die Steuerung des Marktpreisrisikos auf übergeordneter Ebene beim Asset-Liability-Committee des Vorstands. Der Treasury-Bereich des LBBW-Konzerns setzt risikomindernde Geschäfte ein, um Zinsrisiken aus Neugeschäft mit Kunden zeitnah glattzustellen. Strategische Risikopositionen beziehen sich hauptsächlich auf Investitionen von Eigenmitteln und Fristentransformation in Euro und Fremdwährungen. Neben den Zinspositionen können auch Devisen- und Aktienpositionen bestehen. Der Treasury-Bereich legt die von ihm entwickelten Vorschläge für die Steuerung dieser strategischen Positionen im Rahmen einer monatlichen Besprechung dem Asset-Liability-Committee zur Genehmigung vor, welches dem Vorstand Empfehlungen zur Entscheidung gibt.

Zur täglichen Steuerung seiner Risikopositionen hat der LBBW-Konzern ein operationelles Limitsystem eingeführt, das zwischen Risikolimits und Verlustwarnschwellen (Loss Warning Trigger) unterscheidet. Die einzelnen Risikolimits werden vom strategischen ökonomischen Kapitallimit für das Marktpreisrisiko abgeleitet, das Teil des Limits des gesamten LBBW-Konzerns ist. Daneben ermöglichen Sensitivitätenlimite auf untergeordneten Portfolios eine umfassende Überwachung der Handelsstrategien. Während sich die Risikolimits auf potenzielle Verluste aus Risikopositionen aufgrund der Marktpreise beziehen, berücksichtigt der Loss Warning Trigger aufgelaufene realisierte und unrealisierte Verluste des aktuellen Geschäftsjahrs und für Handelsbücher zusätzlich der letzten 40 Tage.

Die Bewertung und Kontrolle des Marktpreisrisikos erfolgt im LBBW-Konzern durch den Bereich "Konzernrisikocontrolling", der von den Handelsabteilungen unabhängig ist. Das Konzernrisikocontrolling berechnet täglich die Risikozahlen für die Bank- und Handelsbücher. Der LBBW-Konzern berechnet den VaR anhand eines simulationsbasierten Risikomodells. Somit kann die Bank nicht nur Zinsrisiken feststellen, sondern auch Risiken aus Optionspreisen und Credit Spreads. Das Modell wurde als ein "internes Risikomodell" gemäß Definition in der Capital Requirements Regulation für die Kapitalunterlegung von Marktpreisrisiken für allgemeine Zins- und Aktienrisiken anerkannt. In Verbindung mit dem Marktpreisrisiko basiert die Berechnung des VaR auf Marktbewegungen (Volatilitäten) und Marktkorrelationen, die innerhalb eines bestimmten historischen Zeitraums beobachtet wurden. Der VaR bezeichnet das gesamte Marktpreisrisiko eines Portfolios, einschließlich der Aggregationseffekte.

Für Zwecke der internen Risikosteuerung und Limitierung wurden bei allen Portfolios ein Konfidenzniveau von 95% und eine Haltedauer von einem Tag zugrunde gelegt. Alle historischen Analysen beziehen sich auf die letzten 250 Handelstage und sind mit gleicher Gewichtung in den Berechnungen berücksichtigt. Marktpreisrisiken werden in allen Portfolios täglich berechnet.

Seit Anfang 2016 hat der LBBW-Konzern sein Marktpreisrisiko von einem VaR (Konfidenzniveau 99%, Haltedauer 10 Tage) von EUR 228 Mio. (zum 30. Dezember 2015) auf EUR 131 Mio. (zum 30. Dezember 2016) reduziert. Der Rückgang resultiert größtenteils aus der verbesserten Synchronisation von Datenabzugszeitpunkten für Marktdaten wodurch das Credit-Spread-Risiko verringert wurde.

Im Marktpreisrisiko des LBBW-Konzerns hatten Credit-Spread-Risiken in 2016 einen bedeutenden Anteil. Der durchschnittliche VaR betrug EUR 186 Mio. (99% / 10 Tage).

Das Credit-Spread-Risiko unterteilt sich in allgemeines und emittentenspezifisches Risiko. Daher werden die bonitätssensitiven Geschäfte des LBBW-Konzerns auf rating- und branchenabhängige Zinskurven gemappt. Für Credit-Spread-Risiken aus Kreditderivaten werden Referenzschuldern CDS-Sektorcurven zugeordnet.

Die eingegangenen Marktpreisrisiken lagen in 2016 vollständig im Rahmen der Risikotragfähigkeit des LBBW-Konzerns. Auf Ebene des LBBW-Konzerns wurde der Loss Warning Trigger während des gesamten Jahres 2016 nicht überschritten.

Ein Backtesting der Qualität der berechneten Risikozahlen wird täglich durch das Konzernrisikocontrolling vorgenommen. Als Ausreißer werden Verluste bezeichnet, die den berechneten VaR in absoluten Zahlen übersteigen. Bis zum 30. Dezember 2016 (einschließlich) ergab das Clean Backtesting für die letzten 250 Handelstage einen Ausreißer für den LBBW-Konzern und das Handelsbuch wegen Ausweitung von Bond-Spreads nach dem UK-Brexit-Referendum. Im Anlagebuch ergab sich kein Ausreißer. Auch im Portfolio, für das die Kapitaladäquanz für Eigenkapital anhand des internen Risikomodells (CRR-Portfolio) berechnet wird, wurden keine Ausreißer beobachtet.

Auf Grundlage der Dirty P&L verzeichnete der LBBW-Konzern keinen Ausreißer für den LBBW-Konzern und das Anlagebuch, drei im Handelsbuch und zwei im CRR-Portfolio. Ursache für die Ausreißer des Handelsbuchs und des CRR-Portfolios waren die Anpassungen von monatlich berechneten Credit Valuation Adjustments. Das bedeutet, dass aus aufsichtsrechtlicher Sicht kein zusätzlicher Kapitalbedarf für Modellausreißer besteht. Darüber hinaus wird der StressVaR auf Wochenbasis berechnet. Dieser Berechnung liegt dasselbe Modell zugrunde wie bei der Ermittlung des VaR. Zur Berechnung des StressVaR wird anstelle der letzten 250 Handelstage ein Beobachtungszeitraum zugrunde gelegt, der einen signifikanten Stresszeitraum umfasst. Darüber hinaus berechnet das Konzernrisikocontrolling auch Stresstest-Werte. Diese Zahlen zeigen Verluste auf, die bei Eintritt schwerwiegender Ereignisse im Markt auftreten können. Für die Entwicklung dieser Szenarien werden sowohl Ereignisse ab September 1992, als auch synthetische Szenarien verwendet.

Der Vorstand und die Abteilungen mit Portfolioverantwortung erhalten täglich vom Konzernrisikocontrolling einen Report, in dem die Auslastung der bestehenden Limite für Marktpreisrisiken und eine Analyse der Handelsergebnisse enthalten ist. Über die Ergebnisse der Stresstest-Berechnungen wird wöchentlich berichtet. Der Vorstand erhält in konsolidierter Form Informationen zur Risiko- und Ergebnislage in monatlichen Berichten.

Adressenausfallrisiko

Der LBBW-Konzern definiert das Adressenausfallrisiko als das Risiko, dass Kreditnehmer und andere Geschäftspartner ihren vertraglichen Zahlungsverpflichtungen nicht länger vollständig nachkommen können. Adressenausfallrisiko kann sowohl über direkte Vertragsbeziehungen (z.B. Kreditgewährung, Kauf eines Wertpapiers) als auch indirekt z.B. über Absicherungsverpflichtungen (insbesondere Garantiegewährung, Verkauf von Absicherung über ein Kreditderivat) entstehen.

Für alle relevanten Geschäftsaktivitäten hat der LBBW-Konzern spezifische Rating- und Risikoklassifizierungsverfahren im Einsatz. Diese Verfahren quantifizieren die Ausfallwahrscheinlichkeit (Probability of Default, PD) der einzelnen Engagements. Dabei wird das Adressenausfallrisiko mit und ohne Berücksichtigung des Transferrisikos ermittelt.

Die Qualität der im Einsatz befindlichen Risikoklassifizierungsverfahren wird regelmäßig überprüft und die Verfahren werden bei Bedarf weiterentwickelt. Die Pflege dieser Verfahren wird von der LBBW in Eigenregie oder in Kooperation mit der Rating Service Unit GmbH & Co. KG (Beteiligung der Landesbanken) bzw. der Sparkassen Rating und Risikosysteme GmbH (Tochtergesellschaft des Deutschen Sparkassen- und Giroverbandes) durchgeführt.

Mit der Europäischen Zentralbank ("**EZB**") und den deutschen Aufsichtsbehörden Deutsche Bundesbank und Bundesanstalt für Finanzdienstleistungsaufsicht ("**BaFin**") findet als Teil des Entwicklungsprozesses ein kontinuierlicher Informationsaustausch statt. Seit 1. Januar 2008 verfolgt der LBBW-Konzern einen auf internen Ratings basierenden Ansatz (internal ratings-based approach - "**IRBA**") zur Bewertung der Kapitaladäquanz für Ausfallrisiken, nachdem die vom LBBW-Konzern eingesetzten Ratingverfahren von den Aufsichtsbehörden geprüft und genehmigt wurden.

Die Kreditrisikostategie ("**KRS**") ist die Basis für das Kreditrisikomanagement im gesamten LBBW-Konzern. Die Hauptaufgabe des Steuerungsinstruments KRS ist es, konzernweit einheitliche Ziele in Bezug auf die Marktaktivitäten und einen weitgehend einheitlichen Umgang mit vergleichbaren

Risiken sicherzustellen. Unter Risikoaspekten wird angestrebt, Konzentrationsrisiken innerhalb des LBBW-Konzerns zu verhindern oder angemessen zu begrenzen. Dementsprechend legt die KRS unter Berücksichtigung der in der Geschäftsstrategie und Konzernrisikostategie enthaltenen Leitlinien und Anforderungen den Rahmen für das Kreditgeschäft innerhalb des LBBW-Konzerns fest. Die KRS orientiert sich unter Berücksichtigung der Risikotragfähigkeit der Bank sowie des ökonomischen Kapallimits für das Kreditrisiko an den aktuellen gesamtwirtschaftlichen Rahmenbedingungen. Hauptbestandteile dieser Strategie sind qualitative, quantitative und geschäftsfeldspezifische Vorgaben, die auf einzelne Transaktionen oder Geschäftsfelder und Teilportfolios Anwendung finden.

Die Organisationsstruktur des Kreditgeschäfts erfordert eine strikte Trennung zwischen der Kreditakquisition und der Kreditgenehmigung. Bei der Bearbeitung und Genehmigung von Krediten treffen die Kompetenzträger eigenverantwortliche, nicht weisungsgebundene Entscheidungen.

Das Kreditgeschäft des LBBW-Konzerns wird von verschiedenen Organisationseinheiten betreut; jede von ihnen ist für eine bestimmte Kundengruppe zuständig. Jede Organisationseinheit verantwortet die Bearbeitung von Kreditanträgen, die Prüfung der Kreditwürdigkeit der Darlehensnehmer sowie die laufende Überwachung der mit diesen Krediten verbundenen Risiken. Die Bewertung der Sicherheiten wird in Teilen von einer spezialisierten Einheit vorgenommen. Zur Begrenzung der Kreditrisiken bei den einzelnen Kreditnehmern sind die folgenden Aufgaben bei allen Kundengruppen von entscheidender Bedeutung: verantwortungsvolle Kreditprüfung, eine angemessene Begrenzung des Exposure und eine risikoabhängige Bepreisung. Diese Entscheidungen müssen den relevanten gesetzlichen Anforderungen entsprechen (insbesondere KWG) sowie die Satzung der Bank, die Entscheidungsordnung (EO K/H), die KRS und weitere Vorschriften insbesondere Arbeitsanweisungen (*Kredit.net-Regelungen, Arbeitsanweisungen*) berücksichtigen. Die Kompetenzstufe für eine Kreditgenehmigung hängt von der Art des Darlehensnehmers, vom Kreditbetrag, vom internen Rating und von der Einhaltung der Vorschriften der KRS ab. Die Genehmigung wird gemäß Entscheidungsordnung vom verantwortlichen Mitarbeiter der entsprechenden Kompetenzstufe, der Bank bzw. von einem oder mehreren Mitgliedern des Vorstands, dem Kreditkomitee, dem Gesamtvorstand oder dem Risikoausschuss des Aufsichtsrats erteilt.

Mindestens einmal im Jahr wird - in Übereinstimmung mit § 18 KWG und den Regelungen der MaRisk - das Gesamtrisiko sowie die Struktur (Laufzeit/Verwendung) eines Kreditnehmers/Kontrahenten (auf Basis der aktuellen Beurteilung seiner Kreditwürdigkeit überprüft. Das Ergebnis dieser Überprüfung muss in geeigneter Weise dokumentiert werden. Soweit erforderlich, wird diese Überprüfung mehr als einmal pro Jahr durchgeführt. Die internen Verfahren des LBBW-Konzerns sind darauf ausgerichtet, auf Basis von Frühwarnindikatoren rechtzeitig Engagements mit schlechtem Rating oder sich verschlechterndem Rating zu identifizieren. Dies ermöglicht der Bank frühzeitig mit den Kunden in Verbindung zu treten, um rechtzeitig Gegenmaßnahmen einzuleiten. In Abhängigkeit des Risikos werden problematische Engagements als Intensivbetreuungs-, Sanierungs- oder Abwicklungsfälle eingestuft und in spezialisierten Organisationseinheiten betreut. Der LBBW-Konzern strebt dabei im Einklang von Eigen- und Kundeninteresse eine Verlustminimierung durch erfolgreiche Sanierungsaktivitäten an.

Das Länder- und Transferrisiko beinhaltet, dass Kunden im Ausland ihre aus grenzüberschreitenden Geschäften resultierenden Zahlungsverpflichtungen in Fremdwährung aufgrund von Beschränkungen des Währungstransfers oder sonstigen staatlichen Maßnahmen nicht vollständig erfüllen können, obwohl sie dazu bereit und wirtschaftlich in der Lage wären. Für die Bewertung der Länder- und Transferrisiken verwendet der LBBW-Konzern eigenständige Ratingverfahren. Zur Kontrolle der Länderrisiken legt der Vorstand für jedes Land ein Länderlimit auf Basis der Empfehlung des Länderlimitausschusses der Bank fest. Die einzelnen Limite werden auf der Grundlage von Schlüsselfaktoren wie der Bonitätsklasse des betreffenden Landes, seines Bruttoinlandsprodukts und des Eigenkapitals des LBBW-Konzerns festgelegt. Die Einhaltung der Länderlimite wird täglich überwacht. Berichte über das Länderengagement/Transferrisiko werden dem Vorstand in regelmäßigen Abständen vorgelegt.

Risikovorsorge wird in Form von Wertberichtigungen auf Finanzinstrumente, die unter Forderungen ausgewiesen werden, gebildet. Hierunter fallen sämtliche Kredite, die nicht der Fair Value Bewertung unterworfen sind. Außerbilanzielle Geschäfte (offene Kreditzusagen und Eventualverbindlichkeiten) werden über Rückstellungen bevorsorgt. Bei den Wertberichtigungen wird nach Einzelwertberichtigungen, pauschalierten Einzelwertberichtigungen sowie Portfoliowertberichtigungen unterschieden. Die Bildung einer Wertberichtigung erfolgt grundsätzlich bei Vorliegen von objektiven Hinweisen auf eine Wertminderung. Ist dies der Fall, so werden für signifikante Forderungen Einzelwertberichtigungen und für nicht signifikante Forderungen pauschalierte Einzelwertberichtigungen gebildet. Objektive Hinweise auf Wertminderung sind insbesondere erhebliche finanzielle Schwierigkeiten des Schuldners, Vertragsbruch (Ausfall oder Verzug von Zins- oder Tilgungszahlungen), oder erhöhte Wahrscheinlichkeit der Eröffnung eines Insolvenzverfahrens. Liegen keine entsprechenden Hinweise vor, so werden dennoch Portfoliowertberichtigungen gebildet, da davon auszugehen ist, dass gewisse Risiken bereits eingetreten sind, aber diese noch nicht erkannt wurden. Forderungen werden ausgebucht (Abschreibung), wenn diese uneinbringlich sind. Auf bereits vollständig abgeschriebene Darlehen vereinnahmte Beträge werden erfolgswirksam als Eingang auf abgeschriebene Forderungen erfasst.

Per 31. Dezember 2016 belief sich die Risikovorsorge aus dem Kreditgeschäft (inkl. Rückstellungen) des LBBW-Konzerns auf 887 Mio. EUR (31. Dezember 2015: 1.199 Mio. EUR). Die Abschreibungen (inkl. sonstigem Aufwand für das Kreditgeschäft) betragen 84 Mio. EUR (2015: 112 Mio. EUR). Im Jahr 2016 vereinnahmte der LBBW-Konzern 25 Mio. EUR Einnahmen auf abgeschriebene Forderungen (2015: 18 Mio. EUR). Der LBBW-Konzern ist bestrebt, die Zahlungsausfallquote durch eine Reihe von Maßnahmen niedrig zu halten, einschließlich einer intensiven Betreuung notleidender Kredite, auf die Einzelwertberichtigungen vorgenommen wurden.

Ziel der Kreditrisikosteuerung des LBBW-Konzerns ist es, die Portfolioqualität auf hohem Niveau zu halten. Die Darstellung nach internen Ratingklassen zeigt die Entwicklung der Portfolioqualität im Vergleich zum 31. Dezember 2015.

¹⁾ Als »Default« werden Engagements ausgewiesen, für die ein Ausfallereignis gemäß CRR Art.148, wie z. B. Unwahrscheinlichkeit der Rückzahlung oder 90 Tage Zahlungsverzug, eingetreten ist. Das Exposure wird vor Berücksichtigung von Risikovorsorge/Impairments dargestellt.

Der LBBW-Konzern verfügt über eine gute Portfolioqualität, die im Vergleich zum 31. Dezember 2015 nahezu konstant geblieben ist. Der Investmentgrade-Anteil (Ratings 1(AAAA) bis 5) erhöhte sich leicht auf 90,5 % (zum Vergleich 31. Dezember 2015: 89,4 %) infolge einer Erhöhung des Netto-Exposures im Ratingcluster 2 – 5. Der Anstieg basiert auf Neugeschäften sowie Migrationen insbesondere aus den Ratingclustern 1(AAA) – 1(A-) sowie 6 – 8. In der besten Ratingklasse 1(AAAA) sind vor allem inländische Gebietskörperschaften enthalten. Durch den Rückgang bei Bundesländern sowie gegenüber der Bundesrepublik Deutschland reduziert sich deren Portfolioanteil leicht. Im Vergleich zum 31. Dezember 2015 hat sich das Netto-Exposure in den Ratingklassen 6 – 15 (Non-Investmentgrade) ebenfalls rückläufig entwickelt. Der Portfolioanteil liegt bei 7,8 % (Vorjahr: 8,8 %). Im Trend der Vorjahre wurde auch das non-performing Exposure deutlich auf 0,6 % des Gesamtportfolios reduziert. Dieser Rückgang ist Ergebnis zahlreicher Engagementrückführungen (davon substanzieller Anteil Verkäufe) und Gesundungen. Der höhere Anteil nicht gerateter Geschäfte in der Position »Sonstige« ist im Wesentlichen auf die Übernahme eines Kreditkartenportfolios zurückzuführen.

Die Darstellung der Branchen nach den Dimensionen Netto-Exposure, Credit Value-at-Risk (CVaR) und Default-Bestand gibt Auskunft über den Umfang der Geschäftstätigkeit und die Risikolage in der jeweiligen Branche. Die Brancheneinteilung erfolgt auf Grundlage des LBBW-internen risikoorientierten Branchenschlüssels, der im Unternehmensportfolio mit den organisatorischen Marktfolgezuständigkeiten korrespondiert.

Der CVaR befindet sich auf Konzernebene leicht unterhalb des Vorjahresniveaus. Infolge von methodischen Anpassungen im betrachteten Zeitraum ergaben sich jedoch spürbare Verschiebungen auf Ebene der Branchen.

1) Ausgewiesen werden hier Geschäfte unter Gewährträgerhaftung und Geschäfte, die im Rahmen der Risikoimmunsierung mit einer Garantie des Landes Baden Württemberg versehen sind. Des Weiteren sind hier Zentralbanken und Banken mit staatlichem Hintergrund enthalten.

2) Im Geschäftsjahr wurde die Hauptbranche Immobilien neu eingeführt. Die Vorjahreswerte wurden entsprechend angepasst.

Financials stellen mit einem Netto-Exposure von 74 Mrd. EUR zum Stichtag die größte der fünf Hauptbranchen dar. Der Anstieg im Vergleich zum Jahresende 2015 um rund 5 Mrd. EUR resultiert im Wesentlichen aus der Erhöhung von Einlagen bei Zentralbanken. Infolgedessen erhöhen sich auch die Geschäfte unter besonderer staatlicher Haftung. Der CVaR-Anstieg resultiert u. a. aus einer methodischen Anpassung bei der Risikoabbildung von zentralen Kontrahenten und einer stärkeren Berücksichtigung von potentiellen Marktwertschwankungen bei Derivaten.

Im Unternehmensportfolio tragen nahezu alle Branchen zur Exposure-Erhöhung um insgesamt 1 Mrd. EUR auf 62 Mrd. EUR bei. Lediglich die Branche Versorger und Energie weist einen größeren Exposurerückgang auf. Die Einzelbranche Automobil ist analog zum Vorjahr die aus Portfoliosicht bedeutendste Unternehmensbranche und wird daher weiterhin intensiv unter dem Aspekt der Steuerung von Branchenkonzentrationen überwacht. Bei Herstellern und Zulieferern der Automobilbranche werden aktuell verschiedene Themen u.a. wie regulierungsbedingte Veränderungen im Antrieb oder autonomes Fahren forciert, die mittel- bis langfristig zu Verschiebungen innerhalb der Hersteller und Zulieferer führen werden. Entsprechend wird das Automobil-Portfolio auch bezüglich dieser Entwicklungen kontinuierlich überwacht, um frühzeitig Chancen und Risiken zu identifizieren.

Neben Automobil zählt auch die gewerbliche Immobilienwirtschaft zu den aus Portfoliosicht bedeutendsten Einzelbranchen. In diesem Portfolio sehen wir aufgrund der Diversifikation in unsere strategischen Standorte kein übermäßiges Konzentrationsrisiko. Der Bedeutung des Immobiliengeschäfts für das Kreditportfolio der LBBW wird mit Ausgliederung in die neue Hauptbranche Immobilien Rechnung getragen. Das Netto-Exposure liegt mit 10 Mrd. EUR leicht unter Niveau des Vorjahres. Bei Öffentlichen Haushalten hat sich das Netto-Exposure im Vergleich zum Vorjahr deutlich um 7 Mrd. EUR auf 32 Mrd. EUR reduziert. Rückgänge ergaben sich insbesondere gegenüber einzelnen Bundesländern und der Bundesrepublik Deutschland. Diese Portfolioveränderungen haben aufgrund der sehr guten Bonität der inländischen öffentlichen Haushalte keine nennenswerte Wirkung auf den CVaR. Insgesamt geht der CVaR überproportional infolge methodischer Anpassungen und einem Portfoliorückgang bei ausländischen öffentlichen Haushalten zurück. Bei Privatpersonen haben sich das Netto-Exposure und der CVaR leicht rückläufig entwickelt. Dieses Portfolio zeichnet sich durch eine besonders hohe Granularität aus.

Der Anteil des inländischen Geschäfts am Netto-Exposure beträgt 69,1%. Die grundsätzliche Verteilung nach Regionen ist weitgehend konstant, wenngleich sich insbesondere durch die Rückgänge bei inländischen öffentlichen Haushalten und höheren Einlagen bei Zentralbanken zum Stichtag kleinere regionale Verschiebungen ergeben haben. Die Fokussierung auf die stabilen und risikoarmen Kernmärkte im Privat-, Mittelstands- und Großkundengeschäft sowie die Funktion als Sparkassenzentralbank werden auch zukünftig einen dominierenden Deutschland-Anteil sicherstellen.

Die Auslandsengagements verteilen sich insbesondere auf Westeuropa und Nordamerika. Bei den Engagements in Osteuropa, Lateinamerika und Afrika handelt es sich überwiegend um Exportfinanzierungen. Deren Anteil am Netto-Exposure ist von untergeordneter Bedeutung.

Liquiditätsrisiko

Die LBBW unterscheidet bei der Überwachung und Steuerung der Liquiditätsrisiken zwischen dem Liquiditätsrisiko im engeren Sinne, das die Gefahr der Zahlungsunfähigkeit aufgrund akuter Zahlungsmittelknappheit bezeichnet, und dem Refinanzierungs(spread)risiko, das negative Ertragswirkungen infolge einer möglichen Verschlechterung der Refinanzierungsspreads beschreibt.

Das Liquiditätsmanagement wird im LBBW-Konzern als eine abteilungsübergreifende Verantwortlichkeit wahrgenommen, wobei die operative Steuerung zentral durch den Bereich Treasury erfolgt. Generell werden Liquiditätsinkongruenzen in mittel- und längerfristigen Restlaufzeiten sowie die Refinanzierung von Neugeschäft im Rahmen der Liquiditätsrisiko- und Refinanzierungsstrategie aktiv gesteuert.

Darüber hinaus werden die Qualität (Marktliquidität und Notenbankfähigkeit im Rahmen von Offenmarktgeschäften der Europäischen Zentralbank, der Federal Reserve der Vereinigten Staaten und der Bank of England) und das Volumen von Wertpapieren der Liquiditätsreserve fortlaufend überwacht.

Zum Zwecke der Sicherstellung der mittel- bis langfristigen Liquidität werden alle liquiditätswirksamen Transaktionen im Rahmen der Neugeschäftsprozesse verfolgt. Die Steuerung der kurzfristigen Liquidität erfolgt dabei auf Basis täglicher Vorschaurechnungen, bei denen erwartete Zahlungen aller liquiditätswirksamen Aktivitäten der Bank zusammengefasst werden. Das kurzfristige Refinanzierungsrisiko, insbesondere die Abhängigkeit der Bank von der im Interbankenmarkt bereitgestellten Liquidität, wird bankweit durch den Einsatz von Limiten minimiert. Die Einhaltung kurzfristiger Limite wird täglich vom Konzernrisikocontrolling überwacht und Liquiditätsinkongruenzen werden aktiv gesteuert.

2016 war die Liquiditätssituation des LBBW-Konzerns stets komfortabel. Das Kundeneinlagengeschäft entwickelte sich stabil und auch Kapitalmarktplatzierungen – sowohl gedeckt als auch ungedeckt – stießen bei nationalen und internationalen Investoren auf reges Interesse. Die Refinanzierungsquellen des LBBW-Konzerns sind dem Volumen und dem Grad der Diversifikation nach sehr stabil.

Der Refinanzierungsbedarf und das Refinanzierungspotenzial stellten sich per Stichtag 31. Dezember 2016 wie folgt dar:

Übersicht Refinanzierungsbedarf und Refinanzierungspotenzial

Mrd. EUR per 31.12.2016	3 Monate	12 Monate
Refinanzierungsbedarf aus dem Geschäftsbestand (deterministischer Cashflow)	11,7	13,3
Wesentliche Abruf Risiken (stochastischer Cashflow)	14,6	30,5
Freie Liquiditätsreserven	24,2	30,7
Refinanzierungspotenzial am Markt	37,6	49,7

Der 2016 gesetzlich gültige Mindestwert von 70% für die europäische Liquiditätskennziffer »Liquidity Coverage Ratio (LCR)« wurde eingehalten. Per Jahresende 2016 betrug der Wert der Kennziffer 110 %.

Das Hauptrisiko für die Liquiditätssituation des LBBW-Konzerns liegt in einem Verlust des Anlegervertrauens und einer damit verbundenen Verschlechterung des Refinanzierungspotenzials.

Obwohl die Refinanzierungsbasis im LBBW-Konzern hinreichend diversifiziert ist und sowohl institutionelle Anleger von innerhalb und außerhalb der Sparkassen-Finanzgruppe als auch Privatkunden umfasst, könnte ein Verlust des Vertrauens einiger oder aller dieser Anlegergruppen die Liquiditätsposition des LBBW-Konzerns gefährden.

Die Liquiditätssituation des LBBW-Konzerns könnte außerdem durch Faktoren, die sich seiner Kontrolle entziehen, wie z.B. eine anhaltende allgemeine Störung der Finanzmärkte oder ein negatives Ansehen des Finanzdienstleistungssektors im Allgemeinen, erheblich nachteilig beeinflusst werden, was den Zugriff des LBBW-Konzerns auf die Kapitalmärkte sowie seine Refinanzierungsmöglichkeiten zu akzeptablen Bedingungen einschränken könnte. Darüber hinaus könnten die Refinanzierungsmöglichkeiten des LBBW-Konzerns beeinträchtigt werden, wenn bei Investoren bzw. Kreditgebern ein negatives Bild bezüglich der kurz- oder langfristigen finanziellen Perspektiven vorherrscht oder der Eindruck entsteht, dass der LBBW-Konzern einem höheren Liquiditätsrisiko unterliegt. Des Weiteren stehen die Kosten des LBBW-Konzerns für unbesicherte langfristige Refinanzierungsmittel am Anleihenmarkt und an den Märkten für derivative Instrumente in direkter Relation zu seinen Credit Spreads.

Eine Herabstufung oder auch nur eine mögliche Herabstufung der Kreditratings des LBBW-Konzerns könnte nachteilige Auswirkungen auf die Kundenbeziehungen des LBBW-Konzerns oder den Verkauf von Produkten und Dienstleistungen haben. Dies könnte damit seine Liquiditätssituation negativ beeinflussen, zu einer Erweiterung seiner Credit Spreads oder anderweitig zu einer Erhöhung seiner Finanzierungskosten führen oder seinen Zugriff auf die Kapitalmärkte einschränken.

Risiko einer Herabstufung des Ratings des LBBW-Konzerns

Das Rating der Emittentin ist wichtig für ihr Geschäftsmodell. Es gibt keine Gewähr, dass die Ratingagenturen die Ratings der Emittentin bzw. die Rating der Schuldverschreibungen der Emittentin nicht aufgrund einer Veränderung der finanzielle Lage des LBBW-Konzerns oder Änderungen in der anwendbaren Ratingmethode von Fitch und Moody's oder einer anderen maßgeblichen Ratingagentur herabgestuft werden. Die Bewertung der Emittentin durch eine Ratingagentur kann auf einer Vielzahl von Faktoren basieren, über die die Emittentin keine Kontrolle hat, wie z.B. Bedingungen, die die Finanzindustrie im Allgemeinen betreffen. Jede Herabstufung des Rating der Emittentin oder ihrer Schuldverschreibungen, einschließlich jedes nicht angeforderte Rating, kann die Liquidität und die Wettbewerbsposition der Emittentin beeinträchtigen, das Vertrauen in die Emittentin und den LBBW-Konzern schwächen, die Kosten für die Aufnahme von Kapital erhöhen, den Zugang zu den Kapitalmärkten einschränken und die Anzahl der Gegenparteien beschränken, die bereit sind Transaktionen mit der Emittentin oder dem LBBW-Konzern abzuschließen. Derartige Entwicklungen können einen wesentlichen nachteiligen Effekt auf das Geschäft, die Finanzsituation, die Ergebnisse, the Liquidität und/oder die Aussichten haben.

Operationelle Risiken

Der LBBW-Konzern definiert operationelle Risiken als die Gefahr von Verlusten, die infolge der Unangemessenheit oder des Versagens von internen Verfahren und Systemen, Menschen oder infolge externer Ereignisse eintreten. Diese Definition schließt Rechtsrisiken ein.

Operationelle Risiken sind als eigenständige Risikoart durch die ansteigende Komplexität von Bankaktivitäten, die zunehmende Innovationsgeschwindigkeit sowie insbesondere auch den in den letzten Jahren stark gestiegenen Einsatz anspruchsvoller Technologien im Bankgeschäft verstärkt ins Blickfeld gerückt. So ist das umfangreiche institutionelle Bankgeschäft, wie es der LBBW-Konzern betreibt, in steigendem Maße von hoch entwickelter Informationstechnologie (die "**IT-Systeme**") abhängig. IT-Systeme sind gegenüber einer Reihe von Bedrohungen, wie u.a. Computerviren, Hackern, Ausfall notwendiger Infrastruktur/Versorgungsengepässe sowie Soft- oder Hardwarefehlern, anfällig.

Das sich wandelnde Umfeld in der Bankenbranche stellt gleichzeitig ständig steigende Anforderungen an die Mitarbeiter und ihre Qualifikation. Menschliche Fehler in Arbeitsprozessen, aber auch interne Betrugsrisiken, werden sich dabei auch bei dem LBBW-Konzern nie vollständig ausschließen lassen.

Der LBBW-Konzern ist Naturkatastrophen (z.B. Überschwemmungen) und anderen schwerwiegenden Ereignissen ausgesetzt, wie z.B. Risiken in Verbindung mit der räumlichen Nähe des Baus von Stuttgart 21 (z.B. Schäden an Versorgungsleitungen, IT Infrastruktur, Gebäudeschäden). Allgemeine Trends, die in zunehmenden Angriffen mit krimineller Energie (wie z.B. Kartenfälschungen) oder einer Gefährdung durch Terrorrisiken oder Vandalismus bestehen, gelten auch für den LBBW-Konzern. Auch Kreditrisiken im Zusammenhang mit operationellen Risiken wie z.B. Bilanzfälschungen können im LBBW-Konzern auftreten.

Der LBBW-Konzern ist der Gefahr von Rechtsrisiken ausgesetzt (wie z.B. neue Rechtsvorschriften, Änderung der Rechtsprechung, Beraterhaftung). Durch allgemeine Entwicklungen wie die neuere Rechtsprechung zu den Kundentransaktionen mit komplexen Derivaten und zu verbraucherrechtlichen Themen bleiben Rechtsrisiken verstärkt im Fokus des Konzerns.

Im LBBW-Konzern wird zur Ermittlung des regulatorischen Kapitalbedarfs der Standardansatz verwendet. Im Rahmen der Risikotragfähigkeit (RTF) des LBBW-Konzerns wird für die interne ökonomische Steuerung ein Operational Value-at-Risk (OpVaR)-Modell verwendet.

Das Modell basiert auf dem Loss Distribution Approach. Es erfolgt eine separate geschäftsfeldspezifische Modellierung der Häufigkeits- und Schadenshöhenverteilung. Für die OpVaR-Berechnung werden interne und externe Schadensfälle sowie Szenario-Analysen einbezogen.

Für die Ermittlung des OpVaR im Rahmen der Risikotragfähigkeit wird ein Konfidenzniveau von 99,93% sowie ein Zeithorizont von einem Jahr verwendet.

Das für die interne Steuerung verwendete OpVaR-Modell ist in das strategische Konzern-Limitsystem integriert. Es bestehen ökonomische Stressszenarien, welche die Risikoparameter Häufigkeit oder Schadenshöhe zukünftiger erwarteter Schadensfälle des OpVaR-Modells variieren. Hierdurch werden die wesentlichen Geschäftsfelder und Ereigniskategorien abgedeckt. Die Stresstestergebnisse des operationellen Risikos fließen auch in die übergreifenden MaRisk-Stressszenarien ein.

Im Jahr 2015 wurde ein neues OpVaR-IT-System in Produktion genommen, um Prozesse zu automatisieren und die OpVaR-Berechnung zu beschleunigen. Diese Eigenentwicklung basiert auf der Software Wolfram Mathematica in Kombination mit einer Web-Anwendung.

Der LBBW-Konzern verfügt über ein umfassendes System zum Management und Controlling operationeller Risiken. Entsprechend eines dualen Gesamtansatzes ist zum einen eine unabhängige, zentrale Organisationseinheit im Bereich Konzernrisikocontrolling für die Weiterentwicklung und Umsetzung von Methoden und Instrumenten des OpRisk-Controllings zuständig. Zum anderen fällt die Durchführung der implementierten Prozesse für das Management der operationellen Risiken im LBBW-Konzern in die primäre Verantwortung der Bereiche und Tochterunternehmen.

Die zentralen Vorgaben im Umgang mit operationellen Risiken sind in der Risikostrategie und Policy für operationelle Risiken sowie darüber hinaus in Arbeitsanweisungen verankert. Hierbei sind in der Risikostrategie und Policy das Risikoprofil des LBBW-Konzerns, die Leitsätze der Risikokultur, die Aufbauorganisation sowie der Risikosteuerungs- und Risikocontrollingprozess im Hinblick auf operationelle Risiken geregelt.

Ein Hauptaugenmerk im Management und Controlling operationeller Risiken liegt darauf, diese früh zu erkennen, transparent darzustellen und aktiv zu steuern. Neben den beschriebenen Methoden und Instrumenten ist der zentrale Anknüpfungspunkt das funktionale Organisationsmodell, das umfassend die Rollen und Verantwortlichkeiten der Prozessbeteiligten beschreibt. In diesem Zusammenhang haben die dezentralen Operational Risk Manager eine sehr wichtige Funktion. Sie unterstützen die Bereichsleitungen bzw. Geschäftsführungen bei der Anwendung der OpRisk-Controllinginstrumente und dem Berichtswesen, sind Ansprechpartner und Multiplikator im Themengebiet Operationelle Risiken für die Mitarbeiter und stehen in engem Austausch mit dem zentralen OpRisk-Controlling.

Zur Identifizierung und Beurteilung der Risikosituation werden verschiedene Methoden und Instrumente eingesetzt. Neben der internen und externen Schadensfallsammlung wird jährlich eine Risikoinventur mit Self Assessments und Szenario-Analysen durchgeführt. In den Self Assessments werden die individuellen Risiken der einzelnen Bereiche des LBBW-Konzerns erhoben, um bereichsspezifische Analysen durchführen und umfangreiche steuerungsrelevante Informationen erhalten zu können. Die bedeutendsten im Rahmen der Self Assessments erkannten Risiken werden in der Szenario-Analyse mithilfe von Standardszenarien aggregiert und umfassend analysiert. Darauf aufbauend werden Reduzierungsmaßnahmen erhoben und implementiert. Die Methodik wurde in allen Geschäftsfeldern sowie wesentlichen Tochterunternehmen des LBBW-Konzerns ausgerollt. Die Ergebnisse der Szenario-Analysen fließen in das OpVaR-Modell ein. Des Weiteren werden regelmäßig Risikoindikatoren erhoben und reportet.

Das OpRisk-Maßnahmenmanagement spielt eine wichtige Rolle in der Steuerung operationeller Risiken. Die Steuerung erfolgt proaktiv durch die Bereiche und Konzerngesellschaften auf Basis der Risikostrategie für operationelle Risiken. Für den Umgang mit operationellen Risiken stehen vier Handlungsstrategien zur Auswahl: Risiko vermeiden, transferieren, reduzieren oder akzeptieren. Für die Festlegung spielen das implementierte Maßnahmenmanagement, das interne Kontrollsystem und eine offene Risikokultur eine wichtige Rolle. Eine Schlüsselrolle bei der Vermeidung operationeller Risiken kommt der Sensibilität aller Mitarbeiter für Risiken und einem offenen Umgang damit zu. Als Ziel wird eine Risikominimierung bzw. -vermeidung unter Berücksichtigung von Kosten-/Nutzenaspekten verfolgt. Können mögliche Schäden nicht komplett vermieden werden, sorgt der zentrale

Bereich Konzernstrategie/Recht – soweit dies möglich und sinnvoll ist – durch den Abschluss von Versicherungen vor. Eine weitere Reduzierung des OpRisk Potenzials erfolgt u.a. durch die stetige Verbesserung der Geschäftsprozesse. Notfallkonzepte und Geschäftsfortführungspläne, die im Rahmen des Business Continuity Managements erhoben wurden, dienen der Schadenbegrenzung bei Eintritt eines Notfalls.

Das zentrale OpRisk-Controlling stellt den Entscheidungsträgern im Rahmen der regelmäßigen Risikoberichterstattung relevante Informationen zur Verfügung. Darüber hinaus wird in Abhängigkeit von Schadenshöhen auch ad hoc berichtet. Des Weiteren wird der Vorstand durch das Risk Committee bei der Wahrnehmung seiner Überwachungsfunktion unterstützt.

Beteiligungsrisiken

Neben dem Risiko eines potenziellen Wertverfalls infolge von Ausfallereignissen besteht das Risiko der Un- oder Unterverzinslichkeit der Anlage, die aufgrund der Ertragswertorientierung bei der Beteiligungsbewertung jedoch mit dem allgemeinen Buch- oder Verkehrswertrisiko korrespondiert.

Haupttreiber sind hierbei die großen strategischen Tochterunternehmen und Beteiligungen. Das Beteiligungsportfolio des LBBW-Konzerns hat einen stark finanzwirtschaftlichen Fokus. Daher kann auch eine Störung in diesem Marktsegment zu erheblichen Verlusten aus Beteiligungen führen.

Darüber hinaus ergeben sich Risiken aus der Inanspruchnahme aus einer übernommenen persönlichen Haftung als Anteilseigner (z.B. Gewährträgerhaftung/ Patronatserklärung) bei Tochterunternehmen und Beteiligungen, wobei diesbezüglich auch widerrufenen Patronatserklärungen bzw. Haftungsrisiken ggü. bereits veräußerten Tochterunternehmen und Beteiligungen mit umfasst sind. Weitere Risiken ergeben sich aus der Übernahme laufender Verluste von Tochterunternehmen aufgrund von Beherrschungs- und Ergebnisabführungsverträgen.

Immobilienrisiken

Immobilienrisiken sind definiert als potenzielle negative Wertveränderungen des eigenen Immobilienbestands des Konzerns durch eine Verschlechterung des allgemeinen Immobilienmarktes oder eine Verschlechterung der speziellen Eigenschaften der einzelnen Immobilien.

Das Gewerbeportfolio ist diversifiziert nach Nutzungsarten, insbesondere in Büro und Einzelhandel, sowie nach Größenklassen. Die strategischen Bestände sind überwiegend am Standort Stuttgart gelegen. Die Objekte der LBBW Immobilien befinden sich überwiegend in Lagen mit geringem Vermietungsrisiko und sind an Mieter guter Bonität vermietet. Bei Neuvermietungen wird die Bonität potenzieller Mieter eingehend geprüft und das Ziel verfolgt, Mietverträge mit möglichst langer Mietvertragslaufzeit abzuschließen. Je nach zugrunde liegender Objektstrategie (Bsp. Projektentwicklung) ist jedoch in Einzelfällen auch der Abschluss von Mietverträgen mit kurzen Laufzeiten sinnvoll und möglich. Darüber hinaus tragen die Bestände zur Wertentwicklung, die überwiegend außerhalb Stuttgarts – derzeit in München und Frankfurt am Main - gelegen sind, zur makrostandortspezifischen Diversifikation bei. Es handelt sich hierbei um zugekaufte Einzelimmobilien bzw. (Teil-)Portfolios, die durch ein aktives Asset Management kontinuierlich weiter- bzw. vollvermietet werden. Anschließend sollen die Objekte (mittelfristig) wieder veräußert werden. Insgesamt wird das makrostandortspezifische Risiko daher als überschaubar eingeschätzt.

Im Segment Asset Management werden bei der LBBW Immobilien aufgrund der überschaubaren Anzahl an Objekten, Investitions- bzw. Desinvestitionsentscheidungen in der Regel nach einer eingehenden Prüfung der Wirtschaftlichkeit einzelfallbezogen getroffen. Hierbei werden ganzheitliche immobilienwirtschaftliche Gesichtspunkte, wie z. B. Kosten-/Ertragssituation, Nutzungs-/Wachstumsstrategie des Konzerns, Entwicklungsfähigkeit des Standorts, Diversifikation des Portfolios oder Repräsentanzzwecke für den Konzern berücksichtigt.

Der LBBW-Konzern bedient sich zur Bewertung des Immobilienrisikos eines Value-at-Risk-Modells für Immobilien (IVaR). Das zentrale Konzernrisikocontrolling berechnet vierteljährlich die IVaR-

Indikatoren für Immobilienrisiken und bindet sie in die Analyse der Risikotragfähigkeit des Konzerns ein.

Developmentrisiken

Das Developmentrisiko ist definiert als das Bündel von Risiken, welche im Rahmen der Realisierung von gewerblichen und wohnwirtschaftlichen Projektentwicklungen typischerweise auftreten. Die Risiken in diesem Geschäftsfeld liegen im Planungs- und Genehmigungsbereich, den geplanten Baukosten und Terminen sowie insbesondere im Vermietungs- und Veräußerungsbereich. Soweit Projektentwicklungen in Partnerprojekten durchgeführt werden, ergeben sich hieraus zusätzliche Risiken, z. B. das Bonitätsrisiko des Partners und die Durchsetzung von Entscheidungen gegenüber dem Partner. Das Eintreten dieser Risiken kann dazu führen, dass die erwartete Rendite nicht erwirtschaftet, das investierte Kapital nicht vollständig bzw. im Extremfall nicht mehr zurückerhalten wird oder Eigenkapital nachgeschossen werden muss, sofern es sich nicht um Non-Recourse-Finanzierungen handelt.

Der regionale Fokus liegt auf den Kernmärkten Süddeutschland (Baden-Württemberg und Bayern), Rheinland-Pfalz, dem Rhein-Main-Gebiet und Berlin in ausgewählten Einzelfällen. In diesen Märkten tritt die LBBW Immobilien-Gruppe als Investor und Dienstleister in den Bereichen Gewerbe- sowie Wohnimmobilien auf. Die Abarbeitung der vorhandenen Projekte außerhalb dieser Zielmärkte ist weitgehend abgeschlossen. Die Neuprojekte verlaufen planmäßig, wesentliche Risiken hieraus sind derzeit nicht zu erkennen.

Das Developmentrisiko wird vom Bereich Controlling der LBBW Immobilien-Gruppe vierteljährlich berechnet und vom zentralen Konzernrisikocontrolling bei der Analyse der Risikotragfähigkeit des LBBW-Konzerns berücksichtigt.

Weitere wesentliche Risiken

Darüber hinaus unterliegt der LBBW-Konzern weiteren Risiken wie Reputationsrisiken - dies sind Verluste aufgrund einer Schädigung der Reputation des LBBW-Konzerns -, Pensionsrisiken - dies sind Erhöhungen von Pensionsrückstellungen -, Modellrisiken – dies sind Verluste die als Folge von Entscheidungen entstehen, die sich auf das Ergebnis von Modellen stützen - und Geschäftsrisiken - dies sind Verluste durch einen schlechteren Geschäftsverlauf als erwartet, soweit sie nicht die bereits genannten banktypischen Risiken betreffen.

Neben den als wesentlich eingestuften Reputations-, Geschäfts- und Pensionsrisiken werden auch unwesentliche Risikoarten im Rahmen der Risikotragfähigkeit berücksichtigt.

Risiken im Zusammenhang mit der Übernahme der Landesbank Sachsen Aktiengesellschaft

Von dem 2008 vorgenommenen Erwerb der Sachsen LB durch die Landesbank Baden-Württemberg waren die risikobehafteten strukturierten Wertpapierportfolios Ormond Quay und Sachsen Funding I ausgenommen. Diese Portfolios mit einem Geschäftsvolumen von ursprünglich 17,3 Mrd. EUR wurden auf die in 2008 gegründete Zweckgesellschaft Sealink Funding Ltd. übertragen. Inzwischen stehen noch nominal umgerechnet 5,2 Mrd. EUR der Wertpapiere aus (Werte per 31. Dezember 2016).

Die Refinanzierung der in EUR, USD und GBP denominierten Papiere erfolgt durch eine Nachrangfinanzierung der Landesbank Baden-Württemberg in Höhe von umgerechnet 4,2 Mrd. EUR (per 31. Dezember 2016). Der Anteil der Landesbank Baden-Württemberg an dem vorrangigen Senior Loan im Rahmen eines Landesbankenkonsortiums von ursprünglich 390 Mio. EUR wurde zwischenzeitlich ohne Verluste zurückbezahlt.

Zur Absicherung von Zahlungsausfällen innerhalb des Portfolios hat der Freistaat Sachsen eine Garantie in Höhe von ursprünglich 2,75 Mrd. EUR bereitgestellt, die die ersten Verluste trägt.

Die nächsten Verluste, die die Nachrangfinanzierung der Landesbank Baden-Württemberg treffen würden, werden bis zur Höhe von 4,3 Mrd. EUR im Rahmen der Risikoabschirmung vom Land Baden-Württemberg getragen.

Damit verbleibt das Restrisiko einer währungskursbedingten Erhöhung der Nachrangfinanzierung über die Summe der beiden in Euro denominierten Landesgarantien hinaus.

Aufsichtsrechtliche Änderungen oder Eingriffe könnten sich auf das Geschäft der Emittentin nachteilig auswirken

Die Emittentin unterliegt in jeder Rechtsordnung, in der sie Geschäfte betreibt, den dort für Bank- und Finanzdienstleistungen geltenden Gesetzen, Vorschriften und Richtlinien. Die Aufsichtsbehörden haben weitreichende Überwachungskompetenzen bezüglich vieler Aspekte des Finanzdienstleistungsgeschäfts, einschließlich der Punkte Liquidität, Kapitaladäquanz, zulässige Anlagen, ethische Fragen, Geldwäsche, Datenschutz, Aufzeichnungen sowie Vermarktungs- und Verkaufspraktiken. Die für die Emittentin in Bezug auf Bankgeschäfte und Finanzdienstleistungen geltenden Gesetze, Vorschriften und Richtlinien können sich jederzeit in einer Weise ändern, die einen nachteiligen Einfluss auf ihr Geschäft hat. Darüber hinaus können Änderungen der bestehenden Gesetze und Vorschriften zu Bankgeschäften und Finanzdienstleistungen die Art, in der die Emittentin ihr Geschäft betreibt, sowie die von ihr angebotenen Produkte oder Dienstleistungen und den Wert ihrer Vermögenswerte wesentlich beeinträchtigen.

Des Weiteren sind die Aufsichtsbehörden ermächtigt, gegen die Emittentin Verwaltungs- oder Gerichtsverfahren einzuleiten, die unter anderem zu einer Aussetzung oder Widerruf ihrer Zulassungen oder zu Unterlassungsanordnungen, Bußgeldern, zivil- oder strafrechtlichen Sanktionen oder sonstigen Disziplinarmaßnahmen führen könnten.

Solche Verfahren und/oder andere regulatorische Initiativen oder Durchsetzungsmaßnahmen könnten wesentlich nachteilige Auswirkungen auf das Geschäft, das Betriebsergebnis oder die Finanzlage der Emittentin haben.

Stresstests könnten sich negativ auf das Geschäft der Emittentin auswirken

Die Emittentin war bereits und könnte auch zukünftig Stresstests unterzogen werden, die von den deutschen Finanzaufsichtsbehörden Bundesanstalt für Finanzdienstleistungsaufsicht ("**BaFin**") bzw. der Deutschen Bundesbank, der Europäischen Bankenaufsichtsbehörde ("**EBA**"), der Europäischen Zentralbank ("**EZB**") und/oder einer anderen zuständigen Behörde veranlasst oder durchgeführt wurden bzw. werden. Die Ergebnisse der Geschäftstätigkeit der Emittentin könnten nachteilig beeinflusst werden, wenn die Emittentin oder eines der Finanzinstitute, mit denen sie Geschäfte betreibt, bei diesen Stresstests negative Ergebnisse erzielt.

EBA und EZB haben im Jahr 2016 einen EU-weiten Stresstest durchgeführt. Der LBBW-Konzern war einer der 51 dem Stresstest unterliegenden Bankengruppen. Obwohl abweichend von vorherigen Stresstests keine Mindestanforderungen an Kapitalquoten vorgegeben wurden, können die jeweils zuständigen Behörden die Ergebnisse des Stresstests als Information im Rahmen des aufsichtlichen Überprüfungs- und Bewertungsprozesses (Supervisory Review and Evaluation Process "**SREP**") einwerten und von der betroffenen Bank auf dieser Basis die Erfüllung weiterer Aufsichtsanforderungen verlangen. Darüber hinaus könnte es für die Emittentin oder deren Gruppe erforderlich werden, die sich im Zusammenhang mit dem SREP Prozess zusätzlich ergebenden aufsichtsrechtlichen Anforderungen bekannt zu machen. Der EBA Stresstest 2016 wurde am Ende des ersten Quartals 2016 begonnen und die finalen Ergebnisse wurden Ende Juli 2016 veröffentlicht. Die harte Kernkapitalquote der LBBW beläuft sich unter Berücksichtigung der Übergangsregelungen im adversen Szenario auf 9,68%.

Falls die Emittentin im Rahmen eines Stresstests bestimmte, von den Aufsichtsbehörden für den Stresstest festgelegte Mindestwerte am Ende einer Stresstestperiode unterschreiten sollte und/oder andere Defizite identifiziert werden, könnte die Emittentin verpflichtet sein, Abhilfemaßnahmen zu ergreifen, zu denen möglicherweise Anforderungen zur Stärkung der Eigenmittel der Emittentin und/oder andere aufsichtsrechtliche Anforderungen zählen. Anleger sollten beachten, dass die Befugnisse der zuständigen Aufsichtsbehörden sich nicht auf Maßnahmen beschränken, die als Reaktion auf bestimmte Verstöße gegen die Anforderungen von Stresstests getroffen werden, sondern dass sie auch unabhängig von solchen Verstößen aufgrund ihrer allgemeinen Befugnisse Maßnahmen gegen die Emittentin ergreifen können; insbesondere können Ergebnisse aus Stresstests als Basis für die Auferlegung zusätzlicher aufsichtsrechtlicher Anforderungen für die Emittentin in Verbindung mit dem SREP Prozess dienen.

Darüber hinaus könnten sich die Veröffentlichung der Ergebnisse eines Stresstests (und der zugehörigen Erkenntnisse) und/oder die von einer zuständigen Behörde im Zusammenhang mit einem Stresstest oder einer ähnlichen Maßnahme auferlegten zusätzlichen aufsichtsrechtlichen Anforderungen (selbst wenn diese sich auf ein anderes Kreditinstitut als der Emittentin beziehen), ihre Bewertung durch die Finanzmarktteilnehmer, aber auch bereits der Eindruck im Markt, dass ein Stresstest oder zugehörige aufsichtsrechtlichen Anforderungen nicht ausreichend sind, um die Finanzlage eines Finanzunternehmens zu beurteilen oder zu stärken, negativ auf den Ruf der Emittentin oder ihre Refinanzierungsmöglichkeiten auswirken und ihre Refinanzierungskosten erhöhen oder sonstige Korrekturmaßnahmen erfordern. Negative Ergebnisse von Stresstests für Finanzinstitute, mit denen die LBBW Geschäfte tätigt, können sich außerdem negativ auf ihre Geschäftstätigkeit auswirken. Des Weiteren könnten die sich aus den vorgenannten Aspekten ergebenden Risiken erhebliche nachteilige Auswirkungen auf den Ruf, die Geschäfte, die Ergebnisse der Geschäftstätigkeit oder die Finanzlage der Emittentin haben.

Die Emittentin kann spezifischen Risiken unterliegen, die sich aus dem einheitlichen Aufsichtsmechanismus (Single Supervisory Mechanism - SSM) und dem einheitlichen Abwicklungsfonds (Single Resolution Funds - SRF) ergeben

Die EZB hat mit Unterstützung der beteiligten national zuständigen Bankaufsichtsbehörden (national competent authorities ("NCAs") – wie die BaFin) unter anderem auf Grundlage der Verordnung (EU) Nr. 1024/2013 des Rates vom 15. Oktober 2013 zur Übertragung besonderer Aufgaben im Zusammenhang mit der Aufsicht über Kreditinstitute auf die Europäische Zentralbank ("**SSM-Verordnung**" bzw. "**SSM**") die Ausübung der Bankenaufsicht in der Eurozone übernommen. Der SSM wird als die erste Säule der sogenannten EU Bankenunion angesehen. Seit dem 4. November 2014 ist die Emittentin eines der "bedeutenden" Kreditinstitute (die, wenn auch mit laufender Unterstützung der NCAs, direkt der Aufsicht der EZB unterstehen) im Rahmen des SSM.

Um die von ihr übernommenen Aufsichtsaufgaben zu erfüllen, ist die EZB unter anderem (und insbesondere als Teil des SREP Prozesses) befugt, das Geschäftsmodell, die internen Kontrollmechanismen, Risk Governance als auch die internen Verfahren zur Beurteilung der Angemessenheit von Kapital und Liquidität individueller Unternehmensgruppen bedeutender Kreditinstitute (so wie die LBBW) zu beurteilen, von bedeutenden Kreditinstituten zu verlangen, dass sie individuelle Eigenkapital- und Liquiditätsanforderungen einhalten (die über normale Aufsichtsanforderungen hinausgehen können) oder frühzeitig Korrekturmaßnahmen zu ergreifen, um potenziellen Problemen zu begegnen. Jedes betroffene Kreditinstitut wird auf jährlicher Basis eine aktualisierte SREP Entscheidung der EZB erhalten, die unter anderem individuelle Kapitalanforderungen enthalten kann, wodurch sich die für die Emittenten bzw. deren Gruppe maßgeblichen Eigenkapitalanforderungen erhöhen können und die EZB von der Emittentin höhere als die von der BaFin geforderten Kapitalanforderung verlangen kann.

Auf der Basis des jährlichen SREP Prozesses hat die EZB der LBBW im November 2016 die für die LBBW ab 1. Januar 2017 geltenden Eigenmittelanforderungen der EZB mitgeteilt. Auf dieser Grundlage ist die Einhaltung einer Gesamtkapitalquote von 11,59% erforderlich. Davon haben mindestens 9,59% aus Kernkapital und darunter mindestens 8,09% aus hartem Kernkapital zu bestehen. In den Quoten enthalten sind, aus hartem Kernkapital bestehend, die Kapitalanforderung der Säule 2 (Pillar 2 Requirement) von 2,00%, der Kapitalerhaltungspuffer von 1,25% und der Puffer für anderweitig systemrelevante Institute von 0,33%. Das für einen geringfügigen Teil von Auslandsforderungen nach § 10d KWG als antizyklischer Kapitalpuffer vorzuhaltende harte Kernkapital ist in diesen Quoten berücksichtigt. Im Hinblick auf die weitere gesetzlich festgelegte Einphasung der Kapitalpuffer in den Folgejahren sowie für die nachhaltige Kapitalsteuerung erwartet die EZB-Aufsicht darüber hinaus die Bereithaltung von weiterem hartem Kernkapital im Rahmen einer Kapitalempfehlung (Pillar 2 Guidance).

Im Rahmen des SSM arbeitet die EZB zusammen mit den NCAs zurzeit an einem gemeinsamen Verständnis und allgemeinen Standards zu Aufsichtsprioritäten in regulatorischer Hinsicht. Ein Teil dieses Vorgangs fokussiert sich auf die weitere Harmonisierung von Wahlrechten und anderen nationalen Ermessensspielräumen unter dem CRD IV/CRR-Paket und einem zielorientierten Ansatz, um die Angemessenheit bankinterner Modelle zur Evaluierung von Kapital- und Liquiditätsadäquanz zu überwachen. Obwohl solche unter dem SSM beschlossenen gemeinsamen Standards und andere Vereinbarungen nicht öffentlich zugängliche Informationen sein können und steter Veränderung unterliegen, können diese einen erheblichen Einfluss darauf haben, wie regulatorische Anforderungen im Hinblick auf Banken und Bankengruppen tatsächlich angewendet werden, insbesondere auf solche, die ein besonderes Geschäftsmodell verfolgen oder eine nationale Besonderheit darstellen.

Das neue Aufsichtssystem und die neuen Verfahren und Praktiken im Rahmen des SSM sind noch nicht vollständig umgesetzt und/oder veröffentlicht, und es wird davon ausgegangen, dass diese laufenden Überprüfungen, Änderungen und Weiterentwicklungen unterliegen werden. Die Verfahren im Rahmen des SSM und anderer regulatorischer Initiativen könnten die Auslegung der anwendbaren Aufsichtsanforderungen ändern und zu weiteren regulatorischen Anforderungen sowie zu erhöhten Kosten der Emittentin in Verbindung mit Compliance und Meldewesen führen. Darüber hinaus könnten diese Entwicklungen eine erneute Anpassung ihres Businessplans erfordern oder andere erhebliche nachteilige Auswirkungen auf ihre Geschäfte, Ergebnisse der gewöhnlichen Geschäftstätigkeit oder ihre Finanzlage haben.

Des Weiteren wurde im Jahr 2014 die Verordnung über den einheitlichen Abwicklungsmechanismus (Verordnung (EU) Nr. 806/2014 vom 15. Juli 2014, "**SRM-Verordnung**" bzw. "**SRM**") erlassen. Der SRM wird als die zweite Säule der sogenannten EU Bankenunion angesehen und soll ein einheitliches Verfahren für die Abwicklung von Kreditinstituten festlegen, die dem einheitlichen EU-Bankenaufsichtsmechanismus SSM unterliegen.

Die SRM-Verordnung, die Richtlinie für die Sanierung und Abwicklung von Banken (Bank Recovery and Resolution Directive, ("**BRRD**")) und das Sanierungs- und Abwicklungsgesetz (in seiner jeweils aktuellen Fassung, das "**SAG**"), welches die BRRD in deutsches Recht umsetzt, sind eng miteinander verknüpft. Infolge einer Abwicklungsmaßnahme im Rahmen des SRM kann ein Gläubiger der Emittentin bereits vor Eintritt einer Insolvenz oder Liquidation der Emittentin dem Risiko ausgesetzt sein, sein investiertes Kapital insgesamt oder teilweise zu verlieren. In Bezug auf Risiken im Zusammenhang mit Abwicklungsmaßnahmen nach BRRD und SAG siehe auch den nachstehenden Punkt "*Die Rechte der Inhaber könnten durch Abwicklungsmaßnahmen (einschließlich des Bail-in-Instruments und der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente), den einheitlichen Abwicklungsmechanismus SRM oder Umsetzungsmaßnahmen zur BRRD negativ beeinflusst werden*".

Der SRM sieht außerdem die Errichtung eines einheitlichen Abwicklungsfonds (Single Resolution Funds oder der "**Fonds**" bzw. "**SRF**") vor, der in bestimmten Umständen und unter bestimmten

Bedingungen mittelfristige Finanzierungsmittel zur Finanzierung von Abwicklungsmaßnahmen bei jeder Bank, die dem SRM untersteht, zur Verfügung stellen kann. Kreditinstitute wie die Emittentin müssen Beiträge zum Fonds leisten, einschließlich ex ante Jahresbeiträge und nachträgliche Beitragszahlungen. Diese Beiträge werden für die Emittentin sowie die anderen dem SRM unterliegenden Banken eine erhebliche finanzielle Belastung darstellen.

Außerdem können die vorgenannten Verfahren und/oder andere regulatorische Maßnahmen zu einer Änderung der Auslegung der auf die Emittentin anwendbaren aufsichtsrechtlichen Anforderungen sowie zu zusätzlichen regulatorischen Anforderungen, zu erhöhten Kosten für Compliance und Berichterstattung führen, und die Emittentin könnte verpflichtet sein, zusätzlich zu bereits bestehenden Bankenabgaben oder Abwicklungskostenbeiträgen Beiträge an den Fonds zu leisten. Insbesondere könnte die Emittentin Nachschusspflichten unterliegen, falls eine andere Bank unter dem SRM abgewickelt werden muss. Des Weiteren könnten diese Entwicklungen andere wesentliche nachteilige Auswirkungen auf die Geschäfte, Ergebnisse der Geschäftstätigkeit oder Finanzlage der Emittentin haben.

Inhaber sind Risiken in Zusammenhang mit Eigenmittelanforderungen und anderen Kapitalanforderungen wie MREL ausgesetzt

Die Emittentin ist verpflichtet jederzeit im Einklang mit den aufsichtsrechtlichen Anforderungen ausreichende Eigenmittel vorzuhalten, um mögliche Verluste, die aus der Realisierung von Risiken resultieren, abzudecken. Eigenmittelanforderungen, die Methoden zur Bestimmung der Höhe der Eigenmittelbedarfs, die Kriterien für die Anerkennung von Eigenmitteln und die Berechnungsmethoden des Eigenmittelbedarfs, der von einem Institut vorgehalten werden muss, werden durch die Verordnung (EU) Nr. 575/2013 des Europäischen Parlaments und des Rates über Aufsichtsanforderungen an Kreditinstitute und Wertpapierfirmen (die sog. Capital Requirements Regulation, "**CRR**") vom 26. Juni 2013 sowie durch die Richtlinie 2013/36/EU des Europäischen Parlaments und des Rates über den Zugang zur Tätigkeit von Kreditinstituten und die Beaufsichtigung von Kreditinstituten und Wertpapierfirmen (die sog. Capital Requirements Directive, "**CRD IV**") vom 26. Juni 2013 als auch durch das deutsche Kreditwesengesetz und das deutsche Umsetzungsgesetz bezüglich der CRD IV (das "**CRD IV-Umsetzungsgesetz**" und, jeweils in aktueller Fassung, die CRR, CRD IV und das CRD IV-Umsetzungsgesetz zusammen mit den zugehörigen technischen Regulierungsstandards (*regulatory technical standards/RTS*) und technischer Durchführungsstandards (*implementing technical standards/ITS*), Leitlinien und anderen Interpretationshilfen, das "**CRD IV/CRR-Paket**"), bestimmt. Das CRD IV/CRR-Paket soll das vom Baseler Ausschuss für Bankenaufsicht im Nachgang zur Finanzkrise vorgeschlagene Reformpaket an Empfehlungen (sog. Basel III) insbesondere hinsichtlich Eigenmittelanforderungen einheitlich für Banken im Europäischen Wirtschaftsraum und Deutschland umsetzen und hat die Eigenmittelanforderungen erheblich verschärft. Gemäß dem CRD IV/CRR-Paket werden die Eigenmittelanforderungen für Kreditinstitute sowohl in Bezug auf Qualität als auch auf Quantität erheblich angehoben. Neben der schrittweisen Einführung der neuen Eigenmittelquoten bis 2019 sieht das CRD IV/CRR-Paket eine Übergangsphase bis 2022 für Kapitalinstrumente vor, die vor Inkrafttreten der CRR als Kernkapital anerkannt wurden, jedoch die CRR-Anforderungen für das harte Kernkapital (Common Equity Tier 1 capital) nicht erfüllen. Als europäische Verordnung ist die CRR auf Institute in der Europäischen Union unmittelbar anwendbar.

Gemäß der CRR müssen Banken eine Mindestquote an Kernkapital (bestehend aus der Summe von hartem Kernkapital (Common Equity Tier 1 Capital) und zusätzlichem Kernkapital (Additional Tier 1 Capital) zum Gesamtrisikobetrag (risk-weighted assets) von 6% und eine Mindestquote an hartem Kernkapital zum Gesamtrisikobetrag von 4,5% vorhalten. Die Mindestgesamtkapitalquote (wobei das Gesamtkapital die Summe aus Kernkapital und Ergänzungskapital ist) beträgt 8%. Darüber hinaus KWG vor, einen aus hartem Kernkapital bestehenden zwingende Kapitalerhaltungspuffer aufzubauen (Zielgröße im Jahr 2019: 2,5% der risikogewichteten Aktiva) und enthält eine Ermächtigung der

BaFin, in Zeiten übermäßigen Kreditwachstums von Banken die Schaffung eines zusätzlichen antizyklischen Kapitalpuffers zu verlangen (Kernkapital in einer Höhe von bis zu 2,5% der risikogewichteten Aktiva ab dem Jahr 2019). Der Kapitalerhaltungspuffer und der antizyklische Kapitalpuffer werden ab 2016 über einen Zeitraum von drei Jahren in 4 Stufen (je 0,625%) schrittweise eingeführt; die jeweiligen Zielgrößen in Höhe von 2,5% finden ab 2019 Anwendung. Zum Zeitpunkt dieses Prospekts beträgt die von der BaFin festgelegte Höhe des antizyklischen Kapitalpuffers 0,0 (Null)% und der Kapitalerhaltungspuffer ist im Zeitraum vom 1. Januar 2017 bis zum 31. Dezember 2017 in einer Höhe von 1,25% der risikogewichteten Aktiva vorzuhalten. Zusätzlich kann die BaFin zur Abwendung langfristiger systemischer oder makroprudenzieller Risiken, die zu einer Systemgefährdung führen können, den Aufbau eines Kapitalpuffers für systemische Risiken anordnen (Kernkapitalquote zwischen 1% und 3% der risikogewichteten Aktiva für alle Risikopositionen und, in Ausnahmefällen, in Höhe von bis zu 5% für Risikopositionen, die im Inland oder in Drittstaaten belegen sind), insbesondere dann, wenn nicht alle Risikoaspekte durch die CRR-Eigenmittelanforderungen abgedeckt sind oder wenn die Risikotragfähigkeit eines Instituts gefährdet ist.

Seit Januar 2016 haben anderweitig systemrelevante Banken (so wie die Emittentin) ("**A-SRI**" oder in der englischen Begrifflichkeit *other systematically important institutions* bzw. "**O-SIIs**") u.U. einen zusätzlichen Kapitalpuffer von bis zu 2% der risikogewichteten Positionsbeträge vorzuhalten. Der Kapitalpuffer für systemische Risiken und der Kapitalpuffer für anderweitig systemrelevante Banken greifen grundsätzlich nicht kumulativ; lediglich der jeweils höhere Kapitalpuffer findet Anwendung. LBBW muss einen O-SII-Puffer von 1% einhalten. Dieser wird ab 2017 über 3 Jahre eingephaszt. Wenn eine Bank es nicht schafft, die jeweiligen Kapitalpuffer vorzuhalten und aufrechtzuerhalten, wird sie Beschränkungen im Hinblick auf Zahlungen auf bestimmte Eigenkapitalinstrumente (wie beispielsweise Dividendenzahlungen, Aktienrückkaufprogramme, und Zahlungen diskretionärer Vergütungen) unterworfen.

Des Weiteren können auf Grundlage von Nachforschungen und Anordnungen innerhalb des Kompetenzbereichs und des Ermessens der zuständigen Aufsichtsbehörden und als Ergebnis von Stresstests, die die zuständigen Behörden künftig durchführen werden, zusätzliche Eigenmittelanforderungen in Form von Kapitalpuffern und zusätzlichen Anforderungen bezüglich Liquidität und Großkreditpositionen auferlegt werden. Diese Anforderungen werden regelmäßig das Ergebnis aus dem SREP Prozess sein. Zusätzlich könnten A-SRIs weiteren aufsichtsrechtlichen Maßnahmen unterliegen, insbesondere in Bezug auf das Krisenmanagement und die Durchführung entsprechender Präventivmaßnahmen, wie z.B. die Aufstellung von Sanierungs- und Abwicklungsplänen. Obwohl diese Aufsichtsmaßnahmen nicht zwingend direkt in die Rechte der Gläubiger eingreifen, kann die bloße Tatsache, dass die BaFin oder eine andere zuständige Behörde ein solches Instrument bei einem bestimmten Kreditinstitut anwendet, sich indirekt negativ z.B. auf die Preisfestsetzung von Wertpapieren, die von diesem Institut begeben werden, oder auf die Refinanzierungsmöglichkeiten dieses Instituts auswirken.

Geplante Änderungen basierend auf den gegenwärtigen und noch nicht abgeschlossenen Überlegungen des Baseler Ausschusses für Bankenaufsicht zur finalen Kalibrierung bzw. Ergänzung des derzeitigen Basel III Reformpakets im Hinblick auf regulatorische Anforderungen (manchmal als Basel IV bezeichnet) können künftig signifikante Auswirkungen auf die Eigenmittelanforderungen haben, insbesondere ab dem Jahr 2019. Basel IV umfasst diesbezüglich eine Vielzahl an Änderungen im Bereich des Marktrisikos, des operationellen Risikos und des Adressenausfallrisikos. Insbesondere strengere Anforderungen im Hinblick auf das Adressenausfallrisiko werden für die Emittentin höchste Relevanz aufweisen. Die Emittentin nutzt derzeit von den Aufsichtsbehörden zugelassene interne Modelle, um ihr Adressenausfallrisiko abzubilden (Internal Ratings Based Approach bzw. "**IRBA**"). Im Rahmen von Basel IV erwägen die Aufsichtsbehörden, die Verwendung von IRBA-Modellen in einem derzeit noch nicht bestimmten Umfang einzuschränken, indem die Eigenmittelunterlegung vermehrt nach dem Standardansatz (KSA Untergrenze) erfolgen soll, indem die Verwendung von IRBA auf bestimmte Forderungsklassen begrenzt wird und indem die Verwendung von internen

Risikoparameter eingeschränkt wird (eingeschränkter IRBA). Neue regulatorische Anforderungen oder Rechnungslegungsvorschriften (wie IFRS 9 ab 2018) können zukünftig ebenfalls die Eigenmittelanforderungen erhöhen. Diese Unklarheiten können sich negativ auf die künftige Entwicklung des Geschäfts der Emittentin auswirken. Darüber hinaus verlangt der Standard 239 des Baseler Ausschusses (BCBS 239) unter anderem die Schaffung umfassender zukünftiger Anforderungen hinsichtlich der Aggregation von Risikodaten einschließlich der zugehörigen IT Systeme und der Risikoberichterstattung von Banken. Dies könnte zu höheren Kosten als ursprünglich geplant führen und könnte sich negativ auf die wirtschaftliche Situation der Emittentin auswirken.

Der einheitliche Abwicklungsausschuss (der einheitliche Abwicklungsausschuss bzw. Single Resolution Board, der "**Ausschuss**") wird eine institutsspezifische Quote für Eigenmittel und berücksichtigungsfähige Verbindlichkeiten, die direkt von der EZB überwachte Institute (so wie die Emittentin) mindestens vorhalten müssen, festsetzen (Minimum Requirements on Eligible Liabilities bzw. "**MREL**"). Risiken in Bezug auf eine Nichteinhaltung der MREL Quote ergeben sich aufgrund andauernder Verhandlungen der europäischen Aufsichtsbehörden im Hinblick auf qualitative Kriterien zur Bestimmung von Verbindlichkeiten auf die das sog. Bail-in-Instrument (wie unter dem Risikofaktor "*Umfangreiches Spektrum von Abwicklungsmaßnahmen und Abwicklungsinstrumenten, damit verbundenene Folgen und Unsicherheiten*" beschrieben) anwendbar ist ("**bail-in-fähige Verbindlichkeiten**") sowie bezüglich der Kalibrierung und Definition von MREL. Für global systemrelevante Institute ("**G-SRI**" oder in der englischen Begrifflichkeit global systematically important institutions bzw. "**G-SIIs**") wurden bereits strengere Anforderungen festgelegt; gemäß dem eingeführten Konzept der Total Loss Absorbency Capacity bzw. "**TLAC**". Auch wenn die Emittentin keine G-SII darstellt, ist zu erwarten, dass die Emittentin künftig im Zusammenhang mit MREL einer zusätzlichen Anforderung zur Vorhaltung von bestimmten bail-in fähigen Verbindlichkeiten unterliegen wird, deren Qualität und Quantität sich derzeit aber noch nicht vorhersagen lässt. Es ist zu beachten, dass die jeweiligen gesetzgeberischen Initiativen im November 2016 mit der Veröffentlichung eines CRR Änderungsvorschlags begonnen haben und dass die ersten Entwürfe unerwartet hohe Anspruchsvoraussetzungen für die MREL-Fähigkeit enthalten, die nicht in Standardbedingungen von Verbindlichkeiten, von denen erwartet wurde, dass sie als MREL-fähig eingestuft werden können, enthalten sind. Der Entwurf enthielt weiterhin keine Übergangsregelungen, wonach Schuldverschreibungen, die in der Vergangenheit emittiert wurden, weiterhin als MREL-fähig eingestuft werden können. Sollte der Entwurf in der derzeitigen Fassung in Kraft treten, wäre die Emittentin (genau wie jeder andere Emittent in Deutschland) künftig verpflichtet, sämtliche kommende MREL-Anforderungen durch die Ausgabe neuer Schuldtitel zu erfüllen.

Ein Verstoß oder ein drohender Verstoß gegen Eigenmittelanforderungen lösen eine Vielzahl von Befugnissen der zuständigen Aufsichtsbehörden aus. Neben den oben genannten Möglichkeiten, Auflagen in Bezug auf die Geschäftstätigkeit der Emittentin zu machen und den verschiedenen Befugnissen (wie zum Beispiel Anordnungen zur Stärkung der Eigenmittelbasis oder Maßnahmen in Bezug auf das Management der Bank), kann eine zuständige Behörde, abhängig von den konkreten Umständen des Falles, als letztes Mittel der Emittentin die Bankerlaubnis aufgeboben oder die Auflösung oder Liquidation anordnen. Ferner kann der entweder bereits vorhandene oder in naher Zukunft drohende Verstoß gegen Eigenmittelanforderungen zur Einleitung jeglicher der unten unter dem Risikofaktor "*Die Rechte der Inhaber könnten durch Abwicklungsmaßnahmen (einschließlich des Bail-in-Instruments und der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente), den einheitlichen Abwicklungsmechanismus SRM oder Umsetzungsmaßnahmen zur BRRD negativ beeinflusst werden*", ausgeführten Sanierungs-, Reorganisierungs- und Abwicklungsverfahren führen, insbesondere der Anwendung des Bail-in-Instruments durch die zuständige Abwicklungsbehörde in Bezug auf nichtnachrangige Schuldverschreibungen oder Instrumente im Zuge einer Abwicklungsmaßnahme (z.B. Gläubigerbeteiligung) oder in Bezug auf nachrangige Schuldverschreibungen oder Instrumente bei der Ausübung von Herabschreibungs- oder Umwandlungsbefugnissen durch das Instrument der Beteiligung der Inhaber relevanter Kapitalinstrumente.

Zusätzlich zu den oben genannten Risiken können die Eigenmittelanforderungen die Emittentin dazu veranlassen, weitere Eigenmitteln aufzunehmen, anderes Kapital zu erhöhen oder risikogewichtete Aktiva in einem größeren Ausmaß zu verringern, was sich nachteilig auf die langfristige Profitabilität der Emittentin auswirken kann. In der Folge kann dies unter Umständen die rechtliche oder wirtschaftliche Stellung eines Investors beeinträchtigen. Jede dieser Änderungen kann auch erheblich nachteilige Auswirkungen auf die Ergebnisse der Geschäftstätigkeit und die Finanzlage der Emittentin haben. Des Weiteren kann, wenn die kontinuierliche Einhaltung von Eigenmittelanforderungen fraglich ist, dies einen erheblich nachteiligen Effekt auf den Marktwert der Wertpapiere haben. Grundsätzlich besteht auch das Risiko, dass ein angeblicher Verstoß oder ein drohender Verstoß (auch wenn dies auf einer fehlerhaften Wahrnehmung des Marktes beruht) gegen Eigenmittelanforderungen eine Kausalkette in Gang setzt, die zur Insolvenz der Emittentin führt, einschließlich deswegen, weil Gläubiger der Emittentin Mittel abziehen oder die Emittentin ihre Liquidität und ihre Refinanzierung nicht mehr länger sicherstellen kann.

Deshalb kann der Verstoß oder drohende Verstoß gegen Eigenmittelanforderungen durch die Emittentin nicht nur einen negativen Effekt auf die Finanzlage der Emittentin und/oder den Marktwert der Wertpapiere haben, sondern auch eventuell zu einem teilweisen oder einem vollständigen Verlust der Investition des Inhabers der Wertpapiere (insbesondere im Hinblick auf die Instrumente und die Schuldverschreibungen) führen.

Risiken in Verbindung mit Liquiditätsanforderungen und Verschuldungsgrad (Leverage Ratio)

Darüber hinaus ist die Umsetzung weiterer aufsichtsrechtlicher Anforderungen vorgesehen, wie z.B. einer Mindestliquiditätsquote (Liquiditätsdeckungsanforderung oder in der englischen Begrifflichkeit *Liquidity Coverage Ratio* bzw. "LCR") und einer Anforderung an eine stabile Refinanzierung (Stabile Finanzierungskennziffer oder in der englischen Begrifflichkeit *Net Stable Funding Ratio* bzw. "NSFR"), die für Kreditinstitute wie die Emittentin von großer Bedeutung sind. Die Liquiditätsanforderungen der LCR (aufgrund welcher Kreditinstitute bei einem Stressszenario bestimmte liquide Aktiva über einen Zeitraum von 30 Tagen vorhalten müssen) wurde 2015 umgesetzt, seit 1. Januar 2017 muss eine LCR in Höhe von mindestens 80% eingehalten werden, die ab 1. Januar 2018 auf 100% angehoben wird. Die NSFR, die frühestens ab 2018 einzuhalten ist, entspricht dem Verhältnis der tatsächlichen, stabilen d.h. dauerhaft verfügbaren Finanzierung zu der gemäß der Dauer ihrer Liquiditätsbindung gewichteten erforderlichen stabilen Refinanzierung und muss nach vollständiger Umsetzung ebenfalls mindestens 100% betragen. Schließlich enthält das CRD IV/CRR-Paket die Anforderung einer nicht-risikobasierten maximalen Verschuldungsquote (*Leverage Ratio*). Während die CRR nicht erfordert, dass Banken sofort eine bestimmte maximale Verschuldungsquote erfüllen, sind die Banken verpflichtet, ihre Verschuldungsquoten zum Zwecke künftiger Bewertungen und Kalibrierung zu melden und veröffentlichen. Nach derzeitigen Plänen soll die endgültige Kalibrierung der maximalen Verschuldungsquote 2017 abgeschlossen werden und es ist zu erwarten, dass Banken ab 2018 die maximale Verschuldungsquote vollständig erfüllen müssen. Die Einführung einer solchen verpflichtenden, nicht risikobasierten maximalen Verschuldungsquote kann dazu führen, dass das Wachstumspotential der Emittentin künftig eingeschränkt wird oder sogar dass die Emittentin sich dazu veranlasst sieht, ihr Geschäftsvolumen zu reduzieren.

Andauernde Änderungen hinsichtlich der anwendbaren aufsichtsrechtlichen Anforderungen mit Auswirkungen auf die Emittentin.

Das anwendbare Aufsichtsrahmenwerk und anwendbare aufsichtsrechtliche Anforderungen für Banken verändern sich weiterhin.

- Die gegenwärtigen und noch nicht abgeschlossenen Überlegungen des Baseler Ausschusses für Bankenaufsicht zur weiteren Kalibrierung und Anpassung des derzeitigen Basel III Reformpakets (manchmal als "Basel IV" bezeichnet, siehe näher dazu oben), könnten zu erheblich höheren regulatorischen Eigenmittelanforderungen für die Emittentin, führen.

- Die gegenwärtige vorteilhafte Behandlung bestimmter Vermögenswerte hinsichtlich der Risikogewichtung (z.B. Kreditrisiken gegenüber öffentlichen Stellen) könnte sich ändern, so dass beispielsweise Staatsschulden von deutlich höheren Eigenmittelanforderungen betroffen sein könnten.
- Es kann erwartet werden, dass in der EU Bankenunion zusätzliche und sich ändernde Eigenmittelanforderungen aus dem zukünftigen SREP Prozess entstehen werden, beispielsweise aus der gezielten Überprüfung von bankinternen Modellen (Targeted Review of Internal Models), welches für das Jahr 2017 eine der regulatorischen Prioritäten der EZB unter dem SSM darstellt. Der Finanzstabilitätsrat (oder in der englischen Begrifflichkeit *Financial Stability Board* bzw. "FSB") veröffentlichte im November 2015 den finalen Entwurf bezüglich unternehmensspezifischen TLAC für G-SIIs und zugehörige Mindesteigenmittelanforderungen, die ab dem 1. Januar 2019 zu beachten sein sollen. Aufgrund der Rechtsnatur der Empfehlung des FSB und der Tatsache, dass die Emittentin keine G-SII ist, ist die TLAC Anforderung nicht unmittelbar verbindlich für die Emittentin. Allerdings ist zu beachten, dass der europäische Gesetzgeber einen ersten Entwurf für ein Reformpaket, das insbesondere die CRR und die BRRD abändern soll, veröffentlicht hat. Geplante Änderungen sind insbesondere im Hinblick auf die Schaffung einer ähnlichen rechtsverbindlichen Anforderung, jederzeit einen Mindestbetrag an berücksichtigungsfähigen Verbindlichkeiten (MREL) vorzuhalten, enthalten und könnten sich auf die Emittentin und ihre Unternehmensgruppe auswirken.
- Am 21. Dezember 2016 hat das Bundesministerium für Finanzen den Regierungsentwurf eines Zweiten Gesetzes zur Novellierung von Finanzmarktvorschriften aufgrund europäischer Rechtsakte veröffentlicht (2. *Finanzmarktnovellierungsgesetz* - "**FiMaNoG II**"). Das FiMaNoG II verankert die Vorgaben der überarbeiteten Finanzmarkttrichtlinie und der zugehörigen Verordnung (*Markets in Financial Instruments Directive II* - "**MiFID II**" bzw. *Markets in Financial Instruments Regulation* - "**MiFIR**"), der Verordnung über die Transparenz von Wertpapierfinanzierungsgeschäften und der Weiterverwendung (*Securities Financing Transactions Regulation* - "**SFTR**") und der Verordnung über Indizes, die bei Finanzinstrumenten und Finanzkontrakten als Referenzwert oder zur Messung der Wertentwicklung eines Investmentfonds verwendet werden ("**Benchmark-Verordnung**") im nationalen Recht, was zu zahlreichen Änderungen am Wertpapierhandelsgesetz ("**WpHG**"), am KWG und am Börsengesetz ("**BörsG**") führt. Zudem sind Änderungen am Versicherungsaufsichtsgesetz ("**VAG**") und am Kapitalanlagegesetzbuch ("**KAGB**") vorgesehen. Hinsichtlich der Tatsache, dass MiFID II und MiFIR den Anwendungsbereich und die Anforderungen an systemische Internisierer ausweiten und umfangreichere Offenlegungspflichten vorsehen, könnten die neuen Regelungen dazu führen, dass die Emittentin erhöhte Anforderungen erfüllen muss, was sich wiederum in einer Kostensteigerung niederschlagen könnte.

Eine verlässliche Folgenabschätzung hinsichtlich dieser laufenden Entwicklungen ist noch nicht möglich.

Die obige Aufzählung von möglichen Änderungen im Zusammenhang mit regulatorischen Entwicklungen in Bezug auf Kreditinstitute im Allgemeinen ist nicht abschließend. Internationale Gremien arbeiten durchgehend an zusätzlichen Empfehlungen, Verordnungen, Standards, etc. Es ist wahrscheinlich, dass weitere Regulierung erwogen und umgesetzt wird, die die Position der Emittentin beeinträchtigt.

Die Bereiche, in denen Änderungen sich besonders auf die Geschäfte der Emittentin auswirken können, umfassen:

- die Geld-, Zins- und sonstige Politik der Zentralbanken und Aufsichtsbehörden;
- allgemeine Änderungen der staatlichen oder aufsichtsrechtlichen Politik, die sich erheblich auf Anlegerentscheidungen auswirken können, insbesondere in den Märkten, in denen die Emittentin tätig ist;

- allgemeine Änderungen der aufsichtsrechtlichen Anforderungen, z.B. der Aufsichtsregeln hinsichtlich der Eigenmittelvorschriften und der Regelungen zur Förderung der Finanzstabilität und Verbesserung des Einlegerschutzes;
- Änderungen des Wettbewerbs- und Preisfestsetzungsumfelds;
- weitere Entwicklungen bei der Finanzberichterstattung;
- die Differenzierung seitens der Regierungen zwischen den Finanzinstituten bezüglich der Erweiterung von Garantien für Kundeneinlagen und der Bedingungen dieser Garantien; und
- die Umsetzung regional anwendbarer Systeme für die Entschädigung von Kunden oder Einlegern oder für Vergütungspläne.

Die Umsetzung dieser aufsichtsrechtlichen Änderungen hat bei der Emittentin und anderen Finanzinstituten bereits zu erhöhten Compliance-Kosten geführt und könnte dies auch weiterhin tun, was sich auf die Ergebnisse ihrer Geschäftstätigkeit auswirken kann. Fortwährende aufsichtsrechtliche Änderungen und Herausforderungen könnten für Banken die Notwendigkeit einer ständigen Überprüfung ihrer Geschäftsmodelle und der kontinuierlichen Verbesserung ihrer Effizienz nach sich ziehen, um sicherzustellen, dass eine ausreichende Ertragskraft vorhanden ist und auch weiterhin die Fähigkeit zur Generierung von Eigenmitteln aus eigener Kraft besteht. Je nach Art der aufsichtsrechtlichen Änderungen, könnten die aufsichtsrechtlichen Aspekte Finanzinstitute (einschließlich der Emittentin) dazu veranlassen, künftig potentiell sehr gewinnträchtige aber unverhältnismäßig kapitalintensive Geschäftstätigkeiten einzustellen oder zu einer verminderten Aktivität bei den Finanzinstituten führen, was erhebliche Auswirkungen auf die Geschäfte, Finanzlage und Ergebnisse der Geschäftstätigkeit der Emittentin haben könnte.

Wenn die Emittentin die aufsichtsrechtlichen Änderungen oder Maßnahmen nicht in angemessener Weise berücksichtigt oder den Eindruck erweckt, dies nicht zu tun, könnte dies ihren Ruf schädigen, und sie könnte zusätzlichen rechtlichen Risiken und Risiken von Rechtsstreitigkeiten, wie z.B. vermehrten Ansprüchen und Schadensersatzforderungen, Eingriffen und Vollstreckungen, verwaltungsrechtlichen Bußgeldern und Strafen unterliegen und/oder die Emittentin könnte verpflichtet sein, zusätzliche aufsichtsrechtliche Anforderungen zu erfüllen.

Angesichts der Tatsache, dass die Eigenmittel- und Liquiditätsanforderungen (einschließlich der künftigen MREL Anforderung) angehoben wurden und werden, könnte sich die Emittentin zu einer Erhöhung ihrer Eigenmittelinstrumente oder anderer Kapitalinstrumente, zum Erwerb wenig profitabler Vermögenswerte für die Zwecke der Liquiditätsanforderungen oder zu einer Reduzierung ihrer risikogewichteten Aktiva (RWA) in einem größeren Umfang gezwungen sehen, was wiederum nachteilige Auswirkungen auf die Profitabilität der Emittentin haben könnte. Aufsichtsrechtliche Änderungen könnten die Emittentin zudem dazu zwingen, zusätzliches Eigenkapital (hartes Kernkapital) durch Kapitalmaßnahmen zu beschaffen. Zusätzlich kann die Möglichkeit und Bereitschaft von gegenwärtigen und zukünftigen Eigenkapitalgebern, an solchen Kapitalbeschaffungsmaßnahmen teilzunehmen, eingeschränkt sein, beispielsweise wenn Wettbewerber der Emittentin gleichzeitig ähnliche Kapitalmaßnahmen durchführen, um die strengeren aufsichtsrechtlichen Anforderungen zu erfüllen.

Folglich kann sich dies potenziell negativ auf die wirtschaftliche oder rechtliche Position eines Anlegers in die Wertpapiere auswirken. Jede dieser Änderungen kann außerdem erheblich negative Auswirkungen auf die Geschäftsergebnisse und die Finanzlage der Emittentin haben. Die Einführung einer rechtsverbindlichen Verschuldungsquote (Leverage Ratio), der Druck im Markt, eine bestimmte Verschuldungsquote (ungeachtet dessen, ob diese gesetzlich vorgeschrieben ist) einzuhalten, und erhöhte Anforderungen an die Eigenmittelausstattung können zu ähnlichen Ergebnissen führen.

Maßnahmen von Regierungen und Zentralbanken als Reaktion auf die Finanzkrise beeinträchtigen den Wettbewerb erheblich und können sich auf die rechtliche oder wirtschaftliche Position der Anleger auswirken

Als Reaktion auf die Finanzmarktkrise gab es bedeutende Eingriffe durch Regierungen und Zentralbanken in den Finanzdienstleistungssektor, unter anderem durch Erwerb direkter Beteiligungen an einzelnen Finanzinstituten sowie durch die Einbringung anderer Kapitalformen, durch die Übernahme von Garantien für Verbindlichkeiten und den Erwerb notleidender Vermögenswerte von Finanzinstituten. In einigen Fällen wurden Finanzinstitute verstaatlicht. Das Recht auf die Nutzung solcher Maßnahmen ist in manchen Fällen an bestimmte Verpflichtungen der beteiligten Bank gebunden, wie z.B. die Kreditvergabe an bestimmte Arten von Kreditnehmern, Anpassungen der Geschäftsstrategie der Bank, die Aussetzung von Dividendenzahlungen und anderen Gewinnausschüttungen sowie Beschränkungen der Vergütungen für Führungskräfte.

Diese Interventionen sind mit erheblichen Geldbeträgen verbunden und haben beträchtliche Auswirkungen sowohl auf die beteiligten Institute als auch auf die nicht beteiligten Institute, insbesondere in Bezug auf den Zugang zu Finanzierungen und Kapital sowie die Einstellung und das Halten guter Mitarbeiter.

Die Umsetzung solcher Maßnahmen bei anderen Unternehmen könnte sich nachteilig auf die Wahrnehmung der allgemeinen Aussichten für den Finanzdienstleistungssektor oder für bestimmte Arten von Finanzinstrumenten auswirken. In diesem Fall könnte der Preis der Finanzinstrumente der Emittentin fallen, und ihre Refinanzierungs- und Kapitalkosten könnten steigen, was erhebliche nachteilige Auswirkungen auf ihre Geschäfte, ihre Ergebnisse der Geschäftstätigkeit oder ihre Finanzlage haben könnten.

Die Rechte der Inhaber könnten durch Abwicklungsmaßnahmen (einschließlich des Bail-in-Instruments und der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente), den einheitlichen Abwicklungsmechanismus SRM oder Umsetzungsmaßnahmen zur BRRD negativ beeinflusst werden

Der EU-Rahmen für die Sanierung und Abwicklung von Kreditinstituten und Wertpapierfirmen (Richtlinie 2014/59/EU, die "**BRRD**"), der einen EU-weiten Sanierungs- und Abwicklungssystem für bestimmte in der Europäischen Union errichtete Finanzinstitute (wie die Emittentin) vorsieht wurde 2014 erlassen. In Deutschland wurde die BRRD durch das SAG in nationales Recht umgesetzt.

Zusammenspiel von BRRD, SAG und der SRM Verordnung

Des Weiteren wurde die SRM-Verordnung erlassen, die einheitliche Regeln und ein einheitliches Verfahren für die Abwicklung von Kreditinstituten und bestimmten Wertpapierfirmen im Rahmen eines einheitlichen Abwicklungsmechanismus (Single Resolution Mechanism bzw. "**SRM**") und einen einheitlichen Abwicklungsfonds (Single Resolution Fund bzw. "**Fonds**") errichtet. Der überwiegende Teil der Vorschriften der SRM-Verordnung ist seit dem 1. Januar 2016 anwendbar. Die SRM-Verordnung hat den SRM als einheitliches Verfahren zur Abwicklung von (Gruppen von) Kreditinstituten und gewisser anderer Finanzinstitute, einschließlich aller durch die EZB beaufsichtigter Bankengruppen (wie die Emittentin), eingeführt. Der SRM ist ein Teil der EU-Initiative zur Schaffung einer Europäischen Bankenunion und wird als deren zweite Säule angesehen.

Für direkt von der EZB beaufsichtigte Kreditinstitute (wie die Emittentin) führt das Inkrafttreten der SRM-Verordnung dazu, dass die meisten Zuständigkeiten der nationalen Abwicklungsbehörde im jeweiligen Mitgliedsstaat (d.h. im Falle von Deutschland die Bundesanstalt für Finanzmarktstabilisierung, die "**FMSA**") im Rahmen der BRRD von der nationalen Ebene auf die europäische Ebene, insbesondere an eine neue Behörde der Europäischen Union, den Abwicklungsausschuss (der einheitliche Abwicklungsausschuss bzw. *Single Resolution Board*, der "**Ausschuss**"), zum Zwecke einer zentralisierten und einheitlichen Anwendung des Abwicklungsregimes übertragen wurden. Entsprechend ist der Ausschuss für solche Kreditinstitute unter anderem für die Abwicklungsplanung, die Festlegung sogenannter Mindestanforderungen an berücksichtigungsfähigen Verbindlichkeiten (*Minimum Requirement for Eligible Liabilities*

"MREL"), die Fassung von Abwicklungsbeschlüssen und Herabschreibungen von Kapitalinstrumenten zuständig und berechtigt, andere Maßnahmen der Frühintervention zu treffen. Dementsprechend ist ein Gläubiger der Emittentin damit auch bereits vor einer Liquidation oder Insolvenz einem Ausfallrisiko ausgesetzt, sein investiertes Kapital teilweise oder insgesamt zu verlieren. Die SRM-Verordnung und die damit in Verbindung stehenden Vorschriften sehen weitere Einzelheiten und Instrumente des SRM vor, die sich auf die Emittentin und ihre Geschäftstätigkeit bereits auswirken können, bevor sie sich in finanziellen Schwierigkeiten befindet oder als "ausfallend" oder "wahrscheinlicher ausfallend" (fail or likely to fail) eingestuft wird.

Als Folge der BRRD (in der jeweiligen nationalen Umsetzung) und der SRM-Verordnung sind unter anderem (i) Kreditinstitute und Abwicklungsbehörden verpflichtet, Sanierungs- und Abwicklungspläne aufzustellen, wie mit finanziellen Schwierigkeiten umzugehen ist, (ii) den zuständigen Behörden frühzeitige Interventionsmaßnahmen eingeräumt, (iii) Abwicklungsverfahren eingeführt worden, die von den Abwicklungsbehörden eingesetzt werden können, um kritische Funktionen aufrechtzuerhalten, ohne dass ein Bail-out des betreffenden Kreditinstituts (oder dessen Gläubiger) erforderlich ist, und (iv) der Fonds eingerichtet worden, um eine effektive und effiziente Abwicklung von Kreditinstituten zu finanzieren und zu erleichtern.

Frühzeitiges Eingreifen

In Bezug auf frühzeitige Interventionsmaßnahmen (sog. frühzeitiges Eingreifen) können die zuständigen Behörden vorbehaltlich bestimmter Bedingungen verschiedene Maßnahmen ergreifen, z.B. Änderungen der rechtlichen und/oder betrieblichen Strukturen eines Kreditinstituts einleiten, von den Kreditinstituten verlangen, dass sie detaillierte Sanierungspläne erstellen, in denen dargelegt ist, wie Krisen- bzw. Stressszenarien oder Systemgefährdung zu bewältigen sind, oder eine Verringerung des Risikoprofils des betreffenden Kreditinstituts fordern, Maßnahmen für eine Rekapitalisierung oder Verbesserung der Liquiditätssituation oder andere Maßnahmen zur Erhöhung der Widerstandsfähigkeit der wesentlichen Geschäftsaktivitäten und kritischen Funktionen einleiten und sogar die Entfernung oder Ersetzung eines oder mehrerer Mitglieder der Geschäftsleitung fordern ("**Frühzeitige Interventionsmaßnahmen**").

Umfangreiches Spektrum von Abwicklungsmaßnahmen und Abwicklungsinstrumenten, damit verbundene Folgen und Unsicherheiten

Änderungen des deutschen Rechts im Bezug auf BRRD-Vorschriften, die durch das **SAG** in deutsches Recht umgesetzt werden und die durch die Vorschriften der SRM-Verordnung ergänzt werden, können dazu führen, dass Ansprüche auf Zahlung von Kapital, Zinsen oder sonstigen Beträgen unter den Instrumenten und/oder den Schuldverschreibungen dauerhaft (auch auf null) herabgeschrieben bzw. reduziert werden, die Emissionsbedingungen in anderer Hinsicht (z.B. die Veränderung der Fälligkeit eines Schuldinstruments) geändert oder in ein oder mehrere Instrumente des harten Kernkapitals (CET 1), wie z.B. Stammkapital, umgewandelt werden (das sog. "**Bail-in-Instrument**").

Darüber hinaus haben die zuständigen Abwicklungsbehörden gemäß der SRM-Verordnung und des SAG die Befugnis zur Herabschreibung bzw. Reduzierung (auch auf Null) von Kapitalinstrumenten des harten Kernkapitals (Common Equity Tier 1), Kapitalinstrumenten des zusätzlichen Kernkapitals (Additional Tier 1) und Kapitalinstrumenten des Tier 2 Ergänzungskapitals (zusammen, die "**Relevanten Kapitalinstrumente**") und damit einschließlich der unter diesem Prospekt angebotenen Nachrangigen Instrumente und Nachrangigen Schuldverschreibungen) und zur Umwandlung Relevanter Kapitalinstrumente in Anteile oder andere Instrumente des harten Kernkapitals eines Instituts – möglicherweise nachdem die Rechtsform des Emittenten durch eine Abwicklungsmaßnahme geändert worden ist – entweder unabhängig von einer Abwicklungsmaßnahme als Teil des Bail-in-Instruments oder in Kombination mit jedem anderen Abwicklungsinstrument, die "**Befugnis zur Beteiligung der Inhaber relevanter**

Kapitalinstrumente". Eine solche Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente besteht insbesondere, wenn entweder (i) die Voraussetzungen für eine Abwicklung wie oben beschrieben erfüllt sind, (ii) die zuständige Behörde feststellt, dass das Institut oder die Gruppe nur dann weiter existenzfähig wäre(n), wenn von der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente Gebrauch gemacht wird (der sogenannte "**Point of non-viability**" oder "**PONV**") oder (iii) das Institut finanzielle Unterstützung aus öffentlichen Mitteln benötigt. Sollte das Institut ausfallen oder wahrscheinlich ausfallen, kann die Ausübung der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente zwingend erforderlich sein.

Darüber hinaus können die zuständigen Abwicklungsbehörden alle sonstigen Abwicklungsmaßnahmen und -instrumente anwenden, unter anderem auch eine Übertragung der Instrumente und/oder der Pfandbriefe und/oder der Schuldverschreibungen auf ein anderes Unternehmen, eine Änderung der Bedingungen der Instrumente und/oder der Schuldverschreibungen, eine Aufhebung der Instrumente und/oder der Schuldverschreibungen oder sogar eine Änderung der Rechtsform der Emittentin. Jede dieser vorstehend genannten Maßnahmen und Instrumente und Befugnisse (einschließlich des Bail-in-Instruments und der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente) wird nachstehend als "**Abwicklungsmaßnahme**" bezeichnet.

Jede Abwicklungsmaßnahme ist für die Gläubiger bindend. Die Gläubiger hätten aufgrund einer Abwicklungsmaßnahme keine Ansprüche oder sonstige Rechte gegenüber der Emittentin auf Zahlungen im Zusammenhang mit den Instrumenten, den Schuldverschreibungen oder den Wertpapieren. Dies wäre der Fall, wenn die Emittentin "ausfallend" oder "wahrscheinlich ausfallend" (*failing or likely to fail*) ist oder von der Behörde dementsprechend eingestuft würde und oder gewisse weitere Umstände eintreten (wie in der SRM Verordnung, dem SAG und anderen anwendbaren Regeln und Verordnungen festgelegt, insbesondere im Falle einer sog. Bestandsgefährdung).

Rangfolge der Gläubigeransprüche und No creditor worse-off (NCWO) Prinzip

Das Abwicklungssystem des SRM sieht vor, dass das Bail-in-Instrument grundsätzlich so ausgeübt werden soll, dass (i) Instrumente des harten Kernkapitals (Common Equity Tier 1 capital instruments wie z.B. Stammkapital der Emittentin) zunächst Verluste tragen, (ii) im Anschluss daran der Nennbetrag bestimmter sonstiger Kapitalinstrumente und Verbindlichkeiten (Instrumente des zusätzlichen Kernkapitals (Additional Tier 1 capital), Instrumente des Ergänzungskapitals (Tier 2 capital instruments) sowie andere nachrangige Verbindlichkeiten) dauerhaft heruntergeschrieben wird oder diese entsprechend ihrer Rangfolge in Instrumente des harten Kernkapitals (Common Equity Tier 1 capital instruments) umgewandelt werden und (iii) danach sog. berücksichtigungsfähige Verbindlichkeiten (was potenziell einige Verbindlichkeiten aus oder in Verbindung mit Instrumenten und/oder Schuldverschreibungen beinhaltet, bei denen es sich nicht um Nachrangige Instrumente bzw. Nachrangige Schuldverschreibungen handelt) entsprechend der Rangfolge der Forderungen im Rahmen eines normalen Insolvenzverfahren dauerhaft heruntergeschrieben oder in Instrumente des harten Kernkapitals umgewandelt werden.

Grundsätzlich soll keinem Gläubiger ein größerer Verlust entstehen, als er im Rahmen eines regulären Insolvenzverfahrens des Instituts erlitten hätte (sogenannter No creditor worse-off (NCWO) Grundsatz), wobei der NCWO-Grundsatz die zuständige Abwicklungsbehörde nicht in der Möglichkeit beschränkt, ein Abwicklungsinstrument einzusetzen, sondern vielmehr dazu führt, dass der betroffene Gläubiger im Falle eines Verstoßes gegebenenfalls einen Schadensersatzanspruch geltend machen kann.

Der deutsche Gesetzgeber hat die Rangfolge der Forderungen im Rahmen eines normalen Insolvenzverfahren bereits vor dem Hintergrund der BRRD geändert und eine Vorzugsbehandlung bestimmter Ansprüche von Einlegern gegenüber den Ansprüchen der Inhaber von Instrumenten und/oder Schuldverschreibungen bzw. anderen maßgeblichen Wertpapieren vorgesehen; vor dem Hintergrund des laufenden Gesetzgebungsverfahrens mit einem Gesetzesentwurf zur Änderung der

BRRD vom 23. November 2016 erscheint es möglich, dass diese Rangfolge nochmals kurzfristig (möglicherweise auch rückwirkend), geändert wird, so dass die Ansprüche der Gläubiger nachrangig gegenüber den Ansprüchen gewöhnlicher unbesicherter Insolvenzgläubiger sind. Hierzu wird auf den Risikofaktor „Risiken in Verbindung mit der Nachrangigkeit und Änderungen der Rangfolge von Ansprüchen“ verwiesen. Ob und, wenn ja, in welchem Umfang die Instrumente oder die Pfandbriefe oder die Schuldverschreibungen (soweit sie nicht durch Schutzbestimmungen (vollständig) ausgenommen sind) Abwicklungsmaßnahmen und/oder Frühzeitigen Interventionsmaßnahmen unterliegen, hängt von einer Reihe von Faktoren ab (unter anderem solchen, die sich der Kontrolle der Emittentin entziehen), und es lässt sich nicht klar vorhersagen, ob von den zuständigen Abwicklungsbehörden überhaupt und, wenn ja, in welchem Umfang Abwicklungsmaßnahmen und/oder Frühzeitige Interventionsmaßnahmen getroffen werden. Die Durchführung einer Abwicklungsmaßnahme würde insbesondere kein Recht auf Kündigung der Wertpapiere begründen. Anleger sollten die sich aus Abwicklungsmaßnahmen und/oder Frühzeitigen Interventionsmaßnahmen ergebenden Risiken prüfen, insbesondere das Risiko, dass die Inhaber von Instrumenten und Schuldverschreibungen ihre gesamte Investition, einschließlich des Nennbetrags zuzüglich aufgelaufener Zinsen, verlieren könnten, oder dass die Bedingungen der Instrumente oder der Schuldverschreibungen geändert werden oder dass die Instrumente oder Pfandbriefe oder Schuldverschreibungen (soweit sie nicht durch Schutzbestimmungen (vollständig) ausgenommen sind) Gegenstand eines Moratoriums sein, auf ein anderes Unternehmen übertragen werden oder einer sonstigen Abwicklungsmaßnahme unterliegen könnten.

Überarbeitete Leitlinien für Staatliche Beihilfen

Des Weiteren hat die Europäische Kommission am 10. Juli 2013 bekannt gegeben, dass sie ihre Vorschriften für die Würdigung krisenbedingter staatlicher Beihilfen für Finanzinstitute überarbeitet hat (die "**Überarbeiteten Leitlinien für Staatliche Beihilfen**"). Die Überarbeiteten Leitlinien für Staatliche Beihilfen sehen strengere Anforderungen an die Lastenverteilung vor, aufgrund deren Banken mit Kapitalbedarf von den Anteilseignern und Inhabern nachrangiger Schuldtitel aber auch nicht-nachrangiger Schuldtitel (sog. senior bonds) einen Beitrag zur Deckung dieses Kapitalbedarfs einholen müssen, bevor sie staatliche Rekapitalisierungen oder Maßnahmen zum Schutz ihrer wertgeminderten Vermögenswerte in Anspruch nehmen können. Die Europäische Kommission wendet die in den Überarbeiteten Leitlinien für Staatliche Beihilfen dargelegten Grundsätze seit dem 1. August 2013 an. In diesen Leitlinien hat die Europäische Kommission klargestellt, dass die Lastenverteilung (*burden sharing*) für Inhaber nachrangiger Schuldtitel und anderer Bankengläubiger den in der BRRD enthaltenen Grundsätzen und Regeln entsprechen wird. Um die Sanierungsaussichten einer von einer Krise betroffenen Bank zu verbessern und die allgemeine wirtschaftliche Stabilität zu fördern, sollen Bail-in-Instrumente und andere Abwicklungsmaßnahmen gegenüber Gesellschaftern, Inhabern nachrangiger Schuldtitel, aber auch anderen nicht-nachrangigen Anleihen angewendet werden, so dass diese Gläubiger (durch Herabschreibung, Umwandlung oder andere Maßnahmen) zur Verlusttragung und Rekapitalisierung in Höhe von mindestens 8 % der gesamten Verbindlichkeiten (einschließlich der Eigenmittel) beigetragen haben. Dies kann bedeuten, dass die Anteilseigner und viele Gläubiger einer betroffenen Bank, wie z.B. die Inhaber von Anleihen (wie die Inhaber der Nachrangigen Instrumente und der Nachrangigen Schuldverschreibungen sowie anderer (nicht-) nachrangiger Instrumente und Schuldverschreibungen) dem Risiko ausgesetzt sind, ihr investiertes Kapital und die zugehörigen Rechte durch die Anwendung von Abwicklungsmaßnahmen wie dem Bail-in-Instrument und/oder der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente verloren zu haben, bevor öffentliche Mittel zur Stützung einer Bank eingebracht werden.

Risiken sind von Anlegern zu berücksichtigen

Gläubiger der Wertpapiere sollten daher berücksichtigen, dass sie im Falle einer Krise der Emittentin und damit bereits vor einer Liquidation oder Insolvenz oder vor Einleitung diesbezüglicher Verfahren dem Risiko eines Zahlungsausfalls ausgesetzt sind und dass es in einem solchen Szenario

wahrscheinlich ist, dass sie ihr investiertes Kapital ganz oder teilweise verlieren oder dass die Instrumente und/oder Schuldverschreibungen in Instrumente des harten Kernkapitals (z.B. Stammkapital) der Emittentin umgewandelt werden. Gläubiger der Wertpapiere sollten sich bewusst machen, dass eine finanzielle Unterstützung aus öffentlichen Mitteln für angeschlagene Banken, falls überhaupt, potenziell allein als letztes Mittel zum Einsatz kommt, nachdem die Abwicklungsmaßnahmen, einschließlich des Bail-in-Instruments und/oder die Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente, so umfassend wie möglich erwogen und ggfs. eingesetzt wurden.

Da (i) die Nachrangigen Instrumente und die Nachrangigen Schuldverschreibungen auch mit dem Ziel begeben werden, dass sie als Ergänzungskapital (Tier 2 capital) nach Maßgabe der CRR anerkannt werden und (ii) nicht-nachrangige Instrumente und Schuldverschreibungen mit dem Ziel begeben werden, dass sie zur Erfüllung der MREL-Quoten anerkannt werden und aufgrund der anwendbaren Vorschriften an die Gewährung staatlicher Beihilfen (die eine erhöhte Verlusttragung durch Bankgläubiger verlangen), der SRM-Verordnung, des SAG und der BRRD sollten Anleger in Instrumente und Schuldverschreibungen, und Anleger in Nachrangige Instrumente und Nachrangige Schuldverschreibungen insbesondere berücksichtigen, dass sie durch die vorgenannten Verfahren und Maßnahmen wie dem Bail-in-Instrument und/oder der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente in erheblichem Maße betroffen sein könnten. Dies kann zum Totalverlust ihres investierten Kapitals führen. Darüber hinaus können auch andere Gläubiger der LBBW von solchen Maßnahmen betroffen sein.

Folglich könnte eine zuständige Abwicklungsbehörde (wie die FMSA oder der Ausschuss) in diesem Fall unter anderem berechtigt sein, z.B. als Voraussetzung für die Gewährung einer staatlichen oder vergleichbaren Unterstützung, zu verlangen, dass keine Zinsen gezahlt werden und dass der Nennbetrag der Wertpapiere (d.h. sämtlicher Instrumente und Schuldverschreibungen, aber unter Berücksichtigung der Rangfolge der Gläubigeransprüche) auf null heruntergeschrieben wird, dass die Emissionsbedingungen der entsprechenden Wertpapiere in anderer Hinsicht verändert werden (zum Beispiel deren Fälligkeit) oder sonstige aufsichtsrechtliche Maßnahmen auferlegen, unter anderem die Umwandlung der entsprechenden Instrumente und Schuldverschreibungen in eines oder mehrere Instrumente des harten Kernkapitals (CET 1, z.B. Stammkapital). Aufgrund einer solchen Maßnahme könnte die Emittentin von ihren Verpflichtungen aus den Bedingungen der betroffenen Wertpapiere befreit werden. In diesem Fall wären die Inhaber nicht berechtigt, zu kündigen oder anderweitig eine vorzeitige Rückzahlung der betroffenen Instrumente und Schuldverschreibungen zu verlangen oder in diesem Zusammenhang andere Rechte auszuüben. In diesem Zusammenhang sind insbesondere die Rangfolge der Ansprüche der Gläubiger der LBBW in regulären Insolvenzverfahren und die Haftungskaskade der BRRD und des SAG zu berücksichtigen.

Außerdem könnten die vorgenannten Maßnahmen für die betroffenen Gläubiger aus wirtschaftlicher Sicht vergleichbare Ergebnisse nach sich ziehen, z.B. die ursprüngliche Schuldnerin aus den Wertpapieren (d.h. die Emittentin) könnte durch eine andere Schuldnerin ersetzt werden (deren Risikoprofil oder Kreditwürdigkeit sich grundlegend vom Risikoprofil oder der Kreditwürdigkeit der Emittentin unterscheiden kann). Alternativ können die Ansprüche gegenüber der ursprünglichen Schuldnerin fortbestehen, während jedoch die Vermögenslage, Geschäftstätigkeit und/oder die Kreditwürdigkeit der Schuldnerin nicht mehr der vor Anwendung der betreffenden Maßnahme vorliegenden Situation entspricht (und sich im Vergleich zur Lage vor Durchführung der jeweiligen Maßnahme erheblich verschlechtert haben kann).

Darüber hinaus kann, obwohl eine Abwicklungsmaßnahme oder eine Frühzeitige Interventionsmaßnahme nicht in allen Fällen direkt in die Rechte der Gläubiger eingreift, allein die bloße Tatsache, dass der Ausschuss, die FMSA oder eine andere zuständige Behörde eine solche Abwicklungsmaßnahmen oder eine Frühzeitige Interventionsmaßnahmen gegenüber LBBW oder gegenüber einem anderen Kreditinstitut anwendet oder vorbereitet, negative Auswirkungen z.B. auf den Marktwert, die Preisfestsetzung oder die Liquidität der von der Emittentin begebenen Schuldtitel,

auf das Rating der Emittentin, auf die Refinanzierungsmöglichkeiten oder –kosten der Emittentin haben oder sich in anderer Weise erheblich nachteilig auf das Betriebsergebnis und die Finanzlage der LBBW auswirken.

Die Rechte der Inhaber könnten durch Maßnahmen nach dem Kreditinstitute-Reorganisationsgesetz nachteilig beeinflusst werden

Als deutsches Kreditinstitut unterliegt die Emittentin dem Kreditinstitute-Reorganisationsgesetz ("**KredReorgG**"), durch das unter anderem besondere Reorganisationspläne für deutsche Kreditinstitute ab dem 1. Januar 2011 eingeführt wurden: (i) das Sanierungsverfahren gemäß § 2 ff. KredReorgG und (ii) das Reorganisationsverfahren gemäß § 7 ff. KredReorgG. Die vorgenannten Verfahren unter dem KredReorgG bestehen zusätzlich zu eventuellen Verfahren, Maßnahmen oder Schritten unter dem SRM. Ein wesentlicher Unterschied besteht darin, dass Verfahren nach dem KredReorgG nur durch das betroffene Kreditinstitut eingeleitet werden können, wohingegen die Einleitung von eventuellen Verfahren, Massnahmen oder Schritten unter dem SRM nicht erfordern, dass das betroffene Kreditinstitut in irgendeiner Weise zustimmt.

Während ein Sanierungsverfahren nach dem KredReorgG grundsätzlich nicht direkt in die Rechte der Gläubiger eingreifen darf, kann ein im Rahmen eines Reorganisationsverfahrens aufgestellter Reorganisationsplan nach dem KredReorgG Maßnahmen vorsehen, die die Rechte der Gläubiger des Kreditinstituts beeinträchtigen, einschließlich einer Reduzierung des Nennbetrags bestehender Forderungen oder eine Aussetzung von Zahlungen. Diese Maßnahmen könnten sich jedoch nicht auf den Deckungsstock für Pfandbriefe beziehen. Die im Reorganisationsplan vorgeschlagenen Maßnahmen unterliegen einem bestimmten mehrheitlichen Abstimmungsmechanismus der Gläubiger und Anteilseigner des betreffenden Kreditinstituts. Darüber hinaus sieht das KredReorgG detaillierte Regelungen zum Abstimmungsverfahren und zu den erforderlichen Mehrheiten sowie dazu vor, inwieweit Neinstimmen unberücksichtigt bleiben können. Maßnahmen im Rahmen des KredReorgG werden nur auf Anfrage des jeweiligen Kreditinstituts und mit der zustimmenden Mitwirkung der BaFin bzw. des Oberlandesgerichts eingeleitet. Die Ansprüche der Inhaber sind durch ein Sanierungs- oder Reorganisationsverfahren (oder dessen Ankündigung) ähnlichen Risiken ausgesetzt, wie solche, die mit einer Frühzeitige Interventionsmaßnahme oder einer Abwicklungsmaßnahme nach dem BRRD / SRM Abwicklungsverfahren verbunden sind (siehe in diesem Zusammenhang "*Die Rechte der Inhaber könnten durch Abwicklungsmaßnahmen (einschließlich des Bail-in-Instruments und/oder der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente), den einheitlichen Abwicklungsmechanismus SRM oder Umsetzungsmaßnahmen zur BRRD negativ beeinflusst werden*").

Risiken in Verbindung mit der Nachrangigkeit und Änderungen der Rangfolge von Ansprüchen

Durch zwingende gesetzliche Vorschriften könnte - auch rückwirkend - eine andere Rangfolge der Gläubigeransprüche im Insolvenzfall eingeführt werden. Dies könnte dazu führen, dass die Gläubiger bestimmter Arten von Schuldtiteln Verluste erleiden oder anderweitig beeinträchtigt werden (z.B. durch Anwendung des Bail-in-Instruments und/oder der Befugnis zur Beteiligung der Inhaber relevanter Kapitalinstrumente), bevor die Gläubiger anderer berücksichtigungsfähiger "senior"-Verbindlichkeiten (d.h. solche, die nicht-nachrangig sind) zur Übernahme von Verlusten herangezogen werden oder anderweitig betroffen sind.

In Umsetzung einer Anforderung der BRRD, dass bestimmten Einlegeransprüchen durch die Mitgliedsstaaten ein Vorrang einzuräumen ist, hat der deutsche Gesetzgeber bereits die Rangfolge von Ansprüchen in regulären Insolvenzverfahren geändert und eine Vorrangigkeit für bestimmte Einlegeransprüche eingeführt. Daher könnten Ansprüche der Inhaber von Instrumenten und/oder Schuldverschreibungen und der sonstigen Gläubiger der LBBW gegenüber denen bestimmter Einleger nachrangig sein und damit mit einer größeren Wahrscheinlichkeit den sich aus Abwicklungsmaßnahmen ergebenden Risiken unterliegen.

Nach Paragraph 46f (5)-(7) KWG stehen bestimmte unbesicherte, nicht-nachrangige Schuldtitel der Emittentin (im Folgenden als „Nicht-Privilegierte Senior Verbindlichkeiten“ bezeichnet) im Insolvenzfall oder im Falle der Verhängung von Abwicklungsmaßnahmen, wie der Anordnung eines Bail-in-Instruments, in der Rangfolge hinter anderen unbesicherten, nicht-nachrangigen Verbindlichkeiten der Emittentin (im Folgenden als „Privilegierte Senior Verbindlichkeiten“ bezeichnet). Nicht-Privilegierte Senior Verbindlichkeiten werden weiterhin in der Rangfolge vor solchen Verbindlichkeiten stehen, die aufgrund einer vertraglichen Bestimmung in der Insolvenz nachrangig zu befriedigen sind, einschließlich der Nachrangigen Schuldverschreibungen und Nachrangigen Instrumente, die unter diesem Prospekt begeben werden. Diese Rangfolge würde in einem Insolvenzverfahren sowie im Falle der Anordnung eines Bail-in-Instruments in Bezug auf die Emittentin Anwendung finden und sämtliche zu diesem Zeitpunkt ausstehende nicht-nachrangige, unbesicherte Schuldtitel betreffen. Entsprechend der Regelung in Paragraph 46f (7) KWG, gehören zu den Privilegierten Senior Verbindlichkeiten dabei jedoch auch solche nicht-nachrangigen unbesicherten Schuldtitel, deren Bedingungen vorsehen, dass (i) die Höhe der Rückzahlung vom Eintritt oder Nichteintritt eines zum Zeitpunkt der Begebung des Schuldtitels noch unsicheren Ereignisses abhängig ist oder dass die Erfüllung auf andere Weise als durch Geldzahlung erfolgt oder dass (ii) die Höhe der Zinszahlung vom Eintritt oder Nichteintritt eines zum Zeitpunkt der Begebung des Schuldtitels noch unsicheren Ereignisses abhängt, es sei denn, die Höhe der Zinszahlung ist ausschließlich von einem festen oder variablen Referenzzins abhängig und die Erfüllung erfolgt durch Geldzahlung. Es ist dementsprechend zu erwarten, dass unter diesem Prospekt begebene unbesicherte, nicht-nachrangige Schuldtitel (wie die nicht nachrangigen Instruments und Schuldverschreibungen), die nicht die Voraussetzungen von (i) oder (ii) erfüllen Nicht-Privilegierte Senior Verbindlichkeiten darstellen, die in einem deutschen Insolvenzverfahren oder im Falle der Verhängung von Abwicklungsmaßnahmen vor Privilegierten Senior Verbindlichkeiten für Verluste einzustehen haben. In einem solchen Insolvenzverfahren oder im Falle der Anordnung einer Abwicklungsmaßnahme im Hinblick auf die Emittentin könnte die zuständige Abwicklungsbehörde festsetzen, ob unbesicherte und nicht-nachrangige Schuldtitel unter diesem Prospekt als Privilegierte Senior Verbindlichkeiten oder als Nicht-Privilegierte Senior Verbindlichkeiten einzustufen sind. Die FMSA, die BaFin und die Deutsche Bundesbank haben eine gemeinsame Auslegungshilfe zur insolvenzrechtlichen Einordnung bestimmter Verbindlichkeiten nach Paragraph 46f (5)-(7) KWG veröffentlicht.

Außerdem ist es nicht unwahrscheinlich, dass die Rangfolge der Ansprüche (auch rückwirkend) weiter geändert wird, auch mit dem Ergebnis, dass sie nachrangig behandelt werden und Ansprüche aus den Wertpapieren (vollständig oder teilweise) einen niedrigeren oder nachrangigen Rang haben im Vergleich zu den Ansprüchen der normalen un-besicherten Insolvenzgläubiger der LBBW.

Dies kann unter anderem die Risikoeintrittswahrscheinlichkeit hinsichtlich der Risiken aus einer potentiellen Abwicklungsmaßnahme erhöhen – siehe hierzu "*Die Rechte der Inhaber könnten durch Abwicklungsmaßnahmen (einschließlich des Bail-in-Instruments und/oder zur Beteiligung der Inhaber relevanter Kapitalinstrumente), den einheitlichen Abwicklungsmechanismus SRM oder Umsetzungsmaßnahmen zur BRRD negativ beeinflusst werden*") und die dortige Unterüberschrift "*Rangfolge der Gläubigeransprüche*". Daneben sind die Inhaber dieser Instrumente und Schuldverschreibungen, den damit verknüpften Risiken ausgesetzt, zum Beispiel, dass sich der mögliche Nachrang (oder Unsicherheit darüber, ob dieser Nachrang Anwendung findet) den Marktwert der Instrumente und/oder Schuldverschreibungen beeinträchtigen kann, eine verringerte Liquidität für den Handel dieser Instrumente und/oder Schuldverschreibungen oder reduzierte Möglichkeiten, die Instrumente und/oder Schuldverschreibungen als Notenbank- oder andere Sicherheit einzusetzen.

Risiken in Verbindung mit der Abtrennung des Eigenhandels und anderer hochriskanter Handelsgeschäfte von den übrigen Bankgeschäften

Auf Anfrage des damaligen EU-Binnenmarktkommissars Michel Barnier schlug eine Gruppe von Experten unter Leitung von Erkki Liikanen einen Katalog von Empfehlungen für Strukturreformen zur Förderung der Finanzstabilität und Effizienz des Bankensektors in der EU vor, der im Oktober 2012 veröffentlicht wurde (der sogenannte Liikanen-Bericht). In diesem Zusammenhang hat die EU-Kommission am 29. Januar 2014 Vorschläge für die künftige Bankenstruktur in der EU unterbreitet, insbesondere für das sogenannte Trennbankensystem. Damit sollen die größten und komplexesten EU-Banken mit erheblichen Handelsaktivitäten (gemessen am Anteil der Handelsaktivitäten an der Bilanzsumme oder am absoluten Handelsvolumen) an der Durchführung bestimmter Eigenhandelsgeschäften mit Finanzinstrumenten oder Rohstoffen abgehalten werden, und die Aufsichtsbehörden sollen ermächtigt werden und in bestimmten Fällen verpflichtet sein, die Übertragung anderer hochriskanter Handelsaktivitäten (zu denen potenziell auch Market Making-Aktivitäten sowie komplexe derivative und Verbriefungsgeschäfte zählen) auf separate Handelsunternehmen innerhalb der Gruppe zu verlangen. Im Vergleich zum nachstehend beschriebenen deutschen Trennbankengesetz könnten die Vorschläge der EU-Kommission zum Trennbankensystem mit niedrigeren Schwellenwerten für die Auslösung der Übertragungspflicht der Banken bei einer breiteren Definition der kritischen Handelsaktivitäten verbunden sein und damit Änderungen des derzeitigen deutschen Rechts erfordern. Einzelheiten zu diesen Vorschlägen sind jedoch noch Gegenstand von Verhandlungen und können daher Änderungen unterliegen.

Im August 2013 wurde das deutsche Gesetz zur Abschirmung von Risiken und zur Planung der Sanierung und Abwicklung von Kreditinstituten und Finanzgruppen (sog. "**Trennbankengesetz**") im Bundesanzeiger veröffentlicht. Nach dem Trennbankengesetz müssen die Handelsaktivitäten der Kreditinstitute vorbehaltlich bestimmter Kriterien von den übrigen Geschäftsbereichen rechtlich getrennt in eigenständigen Tochtergesellschaften betrieben oder eingestellt werden. Diese Bestimmung gilt für Kreditinstitute, die Einlagen sowie andere rückzahlbare Mittel hereinnehmen und für eigene Rechnung Darlehen gewähren, vorausgesetzt dass ihre Bilanzpositionen bestimmte Schwellenwerte überschreiten. Dementsprechend könnten Banken, deren für Handelszwecke gehaltene und zur Veräußerung vorgesehene Aktiva entweder EUR 100 Mrd. (absolute Schwelle) oder 20% ihrer Bilanzsumme übersteigen und sich auf mindestens EUR 90 Mrd. belaufen (relative Schwelle) dieser Trennungspflicht unterliegen. Hedging-Aktivitäten, die zur Absicherung von Geschäften mit Kunden oder zwecks Steuerung von Zins-, Währungs-, Liquiditäts- und Kreditrisiken durchgeführt werden, fallen nicht unter die verbotenen Aktivitäten. Auch bestimmte Market-Making-Aktivitäten bei Absicherungsgeschäften im Zusammenhang mit Kundentransaktionen, um Zins- oder Währungsrisiken zu hedgen und oder bezogen auf den Ankauf oder Verkauf langfristiger Beteiligungen unterliegen nicht der Trennungspflicht. Diese Trennung könnte zu höheren Finanzierungskosten für die abgetrennten Aktivitäten führen, die negative Auswirkungen auf das Geschäft der Emittentin, ihre finanzielle Situation und ihre Geschäftszahlen haben. Insofern bestehen weiterhin rechtliche und tatsächliche Unsicherheiten in Bezug auf die Frage, welche Geschäftsbereiche abgetrennt werden müssen. Zum einen wurde der BaFin diesbezüglich ein weiter Ermessensspielraum eingeräumt, zum anderen lassen die rechtlichen Bestimmungen unterschiedliche Auslegungen zu.

Obwohl sich derzeit noch nicht klar absehen lässt, wie künftige EU-Vorschläge zum Liikanen-Bericht und/oder die Anwendung des Trennbankengesetzes sich auf die Rechte der Inhaber auswirken werden, ist es denkbar, dass sich das Risikoprofil oder die Kreditwürdigkeit der Emittentin, wenn sie bestimmte Handelsaktivitäten abtrennen muss, völlig anders darstellt oder dass dies andere negative Auswirkungen auf das Geschäftsmodell und/oder die Profitabilität der Emittentin haben könnte, was wiederum die Rechte der Gläubiger erheblich nachteilig beeinflusstes könnte.

Aufsichtsrechtliche und politische Maßnahmen der europäischen Regierungen als Reaktion auf die Staatsschuldenkrise könnten nicht ausreichen, eine Ausweitung der Krise oder den Austritt eines Landes oder mehrerer Länder aus der gemeinsamen Währung zu verhindern. Ein Austritt eines Landes oder mehrerer Länder aus dem Euro könnte unabsehbare Folgen für das Finanzsystem und die Wirtschaft im Allgemeinen haben und potenziell zu einer rückläufigen Geschäftstätigkeit, zu Herabschreibungen von Forderungen und Verlusten in allen Geschäftsbereichen der Emittentin führen. Die Möglichkeiten der Emittentin, sich gegen diese Risiken abzusichern, sind begrenzt.

Wenn die politischen Entscheidungsträger in Europa nicht in der Lage sind, die Staatsschuldenkrise in Europa einzudämmen, hätte dies wahrscheinlich erhebliche nachteilige Auswirkungen auf die Ergebnisse der Geschäftstätigkeit und Finanzlage der Emittentin, da Banken, einschließlich der Emittentin, verpflichtet sein könnten, weitere Herabschreibungen ihrer Kreditrisiken gegenüber öffentlichen Stellen (wie Staatsschulden) und sonstigen Forderungen vorzunehmen, während sich das makroökonomische Umfeld verschlechtert. Darüber hinaus besteht die Möglichkeit, dass ein oder mehrere Mitglied/er der Eurozone aus der gemeinsamen Währung austritt bzw. austreten, was in den betreffenden Ländern zur Wiedereinführung der nationalen Währung führen würde. Die Auswirkungen eines solchen Ereignisses sind schwer abzusehen und könnten die Geschäfte und Aussichten der Emittentin nachhaltig negativ beeinflussen, auch als Folge der nachteiligen Auswirkungen auf die Wirtschaftsaktivitäten innerhalb und außerhalb der Eurozone.

Die Verschlechterung des Marktes für staatliche Schuldtitel in der Eurozone und Osteuropa, insbesondere die zunehmenden Refinanzierungskosten für viele Staaten der Eurozone Ende 2011 sowie Herabstufungen der Kreditratings der meisten Länder der Eurozone in den Jahren 2011 und 2012 deuten darauf hin, dass die staatliche Schuldenkrise auch die finanziell stabilsten Länder der Eurozone, einschließlich Deutschlands, belasten kann. Während die Refinanzierungskosten in den Jahren 2012 und 2013 wieder rückläufig waren, bleiben doch erhebliche Zweifel, ob die von den politischen Entscheidungsträgern in Europa getroffenen Maßnahmen ausreichen, die Krise mittel- bis langfristig einzudämmen. Insbesondere haben die Herabstufungen der Kreditratings für Frankreich und Österreich im Jahr 2012 gezeigt, dass die Wirksamkeit der Europäischen Finanzstabilisierungsfazilität (allgemein bekannt als die "EFSF"), der von der Europäischen Union errichteten zeitlich befristeten Zweckgesellschaft zur Bekämpfung der staatlichen Schuldenkrise, oder des neuen festen Rahmens (der Europäische Stabilitätsmechanismus ("ESM")), der im September 2012 errichtet wurde, durch die Herabstufung der Ratings ihrer Mitglieder unterminiert werden kann. Da die Kreditratings der EFSF und des ESM auf den Ratings der sie finanzierenden Mitglieder basieren, können sich durch die Herabstufung der Ratings dieser Mitglieder die Refinanzierungskosten der EFSF und des ESM erhöhen, was ihre Möglichkeiten zur Aufnahme von Mitteln zur Unterstützung der Regierungen der Eurozone einschränken würde. Darüber hinaus könnten die von einer Reihe von Ländern in der gesamten Eurozone als Reaktion auf die staatliche Schuldenkrise eingeführten Sparprogramme das Wirtschaftswachstum kurz-, mittel- und langfristig hemmen. Rückläufige wirtschaftliche Wachstumsraten (oder das Abgleiten in die Rezession) in den Ländern der Eurozone könnten ihre Probleme bei der Refinanzierung ihrer Staatsschulden bei Fälligkeit verschärfen und den Druck auf andere Regierungen der Eurozone verstärken.

Sollte sich ein Land der Eurozone dazu entschließen, die gemeinsame Währung zu verlassen, könnten sich aufgrund der daraus resultierenden Notwendigkeit der Wiedereinführung einer Landeswährung und der Umstellung bestehender vertraglicher Verpflichtungen unabsehbare finanzielle, rechtliche, politische und soziale Konsequenzen ergeben. Angesichts der Tatsache, dass die Finanzsysteme innerhalb der Eurozone eng miteinander verknüpft sind, sowie der Höhe des Engagements der Emittentin gegenüber öffentlichen und privaten Kontrahenten in ganz Europa sind die Möglichkeiten der Emittentin, für einen solchen Sonderfall so zu planen, dass sich das Engagement der Emittentin auf ein unerhebliches Niveau reduziert, wahrscheinlich begrenzt. Bei einer Verschlechterung des allgemeinen Wirtschaftsklimas aufgrund von Rückzügen aus der Eurozone könnten nahezu alle Geschäftsbereiche der Emittentin, einschließlich der Geschäftsbereiche mit stabileren Ertragsströmen,

negativ beeinflusst werden, und wenn sich die Emittentin gezwungen sieht, weitere Engagements herunterzuschreiben, könnten ihr erhebliche Verluste entstehen.

Risiken in Verbindung mit dem Verbraucherschutzrecht und komplexen Derivaten und im steuerrechtlichen Umfeld

Neben den aufsichtsrechtlichen Aspekten könnten auch die auf den Verbraucherschutz bezogenen Anforderungen und Gesetze eine Herausforderung für die Kreditinstitute darstellen. Durch eine Rechtsprechung, die Kreditinstituten zunehmend kritischer gegenübersteht, könnten sich weitere rechtliche Risiken ergeben. Aufgrund neuerer Rechtsprechung bleibt die Bankenlandschaft weiterhin mit nicht unerheblichen Rechtsrisiken aus Kundentransaktionen in komplexen Derivaten und mit der Fortentwicklung des Verbraucherrechts konfrontiert. Obgleich der Bundesgerichtshof (BGH) hinsichtlich derivativer Produkte seit dem Jahr 2015 durch neue Urteile Weichen für eine weitere Vereinheitlichung der betreffenden Rechtsprechung gesetzt hat, ist diese derzeit noch nicht abgeschlossen. Weitere Rechtsrisiken bestehen im steuerrechtlichen Umfeld betreffend die Anrechnungsvoraussetzungen für Kapitalertragssteuer. Hier kann eine fortentwickelte Rechtsauffassung mit retrospektiven Auswirkungen auf Grundlage neuer Rechtsprechung bzw. neuer Verlautbarungen der Finanzverwaltung nicht ausgeschlossen werden. Diese Risiken könnten die Geschäfte der Emittentin negativ beeinflussen und ihre Vermögens-, Finanz- und Ertragslage beeinträchtigen.

Risiken in Verbindung mit Änderungen der Einlagensicherungssysteme

Des Weiteren wurde die Richtlinie 2014/49/EU über Einlagensicherungssysteme veröffentlicht. Diese überarbeitete Version der Richtlinie sieht unter anderem schnellere Rückzahlungen vor. Allgemein müssen die für die Entschädigung von Einlegern in Krisenzeiten bereitgestellten finanziellen Mittel bis 3. Juli 2024 0,8% der Höhe der gedeckten Einlagen entsprechen, wobei die Berechnung der Beiträge unter Berücksichtigung der Risikoprofile der jeweiligen Geschäftsmodelle vorzunehmen ist und bei einem höheren Risikoprofil höhere Beiträge geleistet werden müssen.

Darüber hinaus gab es eine Neuordnung des Institutssicherungssystems der Sparkassen-Finanzgruppe, das nach Abschluss der Neuordnung zwischenzeitlich auch als Einlagensicherungssystem gem. Einlagensicherungsgesetz ("**EinSiG**") durch die BaFin anerkannt wurde. Da auch das dazugehörige Beitragsbemessungssystem durch die Vorgaben des EinSiG aktualisiert werden musste, resultiert hieraus für die LBBW seit 2015 bis 2024 ein neuer jährlicher Beitrag, was zu einer zusätzlichen finanziellen Belastung führt.

Des Weiteren hat die Europäische Kommission am 24. November 2015 ein Paket an Reformvorschlägen für ein europaumweites Einlagensicherungssystem (auch als EDIS bezeichnet) als dritte Säule der so genannten EU Bankenunion veröffentlicht. Das Vorschlagspaket sieht unter anderem vor, dass auf Ebene der EU (Bankenunion) ein einheitlicher Einlagenversicherungsfonds eingerichtet wird, der wiederum durch Beiträge der Kreditwirtschaft zu finanzieren ist. Sollte der Vorschlag umgesetzt werden, könnten sich hieraus, abhängig von der finalen Ausgestaltung, weitere Beitragspflichten auch für die Emittentin ergeben. Des Weiteren könnten die vorgenannten Entwicklungen andere wesentliche nachteilige Auswirkungen auf die Geschäfte, Ergebnisse der Geschäftstätigkeit oder Finanzlage der Emittentin haben.

Risiken in Verbindung mit den Wertpapieren

Die Wertpapiere können einem Zinsrisiko unterliegen

Das Zinsrisiko ist eines der zentralen Risiken bei verzinslichen Wertpapieren und betrifft daher alle Wertpapiere, auf die Zinsen anfallen. Das Zinsniveau an den Geld- und Kapitalmärkten kann täglich schwanken und dazu führen, dass sich der Wert der Wertpapiere ebenfalls täglich ändert. Das Zinsrisiko ergibt sich aus der Unsicherheit hinsichtlich künftiger Änderungen des Marktzinsniveaus.

Insbesondere die Inhaber von festverzinslichen Wertpapieren und Resetable Instrumenten oder Resetable Schuldverschreibungen sind einem Zinsrisiko ausgesetzt, was zu einem Wertverfall führen kann, wenn das Marktzinsniveau steigt. Allgemein verschärfen sich die Auswirkungen dieses Risikos bei steigenden Marktzinsen.

Die Wertpapiere können Währungsrisiken unterliegen

Die Inhaber von auf Fremdwährung lautenden Wertpapieren sind dem Risiko einer Änderung der Wechselkurse ausgesetzt, was sich auf die Rendite dieser Wertpapiere auswirken kann. Eine Änderung des Wertes einer Fremdwährung gegenüber dem Euro führt z.B. zu einer entsprechenden Änderung des Wertes in Euro eines Wertpapiers, das auf eine andere Währung als den Euro lautet. Wenn der Wechselkurs fällt und der Wert des Euro dementsprechend steigt, fallen der Kurs des Wertpapiers und der Wert der darauf erfolgten Zahlungen von Zinsen und Kapital, ausgedrückt in Euro.

Die Wertpapiere sind dem Inflationsrisiko ausgesetzt

Das Inflationsrisiko ist das Risiko einer künftigen Geldabwertung. Die reale Rendite einer Investition wird durch die Inflation reduziert. Je höher der Inflationsatz, desto niedriger ist die reale Rendite eines Wertpapiers. Wenn die Inflation der Nominalrendite entspricht oder sie übersteigt, beläuft sich die reale Rendite auf null oder ist sogar negativ.

Für die Wertpapiere könnte kein aktiver Handelsmarkt bestehen

Die im Rahmen des Programms begebenen Wertpapiere sind neue Wertpapiere, die möglicherweise nicht breit gestreut sind und für die derzeit kein aktiver Handelsmarkt besteht. Wenn die Wertpapiere nach ihrer ursprünglichen Ausgabe gehandelt werden, können sie mit einem Abschlag gegenüber ihrem ursprünglichen Angebotspreis gehandelt werden, der von den geltenden Zinssätzen, dem Markt für vergleichbare Wertpapiere, den allgemeinen Wirtschaftsbedingungen und der Finanzlage der Emittentin abhängt. Obwohl ein Antrag auf Zulassung der im Rahmen des Programms begebenen Wertpapiere zum Handel im Regulierten Markt gestellt wurde, kann nicht gewährleistet werden, dass diesem Antrag stattgegeben wird, dass eine bestimmte Tranche von Wertpapieren zugelassen wird oder dass sich ein aktiver Handelsmarkt entwickelt. Dementsprechend besteht keine Gewähr hinsichtlich der Entwicklung oder Liquidität eines Handelsmarktes für eine bestimmte Tranche von Wertpapieren.

Die Wertpapiere könnten vor ihrer Fälligkeit zurückgezahlt werden

Soweit nicht im Falle einer bestimmten Tranche von Instrumenten in den jeweiligen Endgültigen Bedingungen bzw. im Drawdown-Prospekt anders vorgesehen, kann die Emittentin alle ausstehenden Instrumente nach Maßgabe der Bedingungen zurückzahlen, wenn sie aufgrund einer entsprechenden Gesetzesänderung verpflichtet wäre, die auf die Instrumente zahlbaren Beträge aufgrund eines Einbehalts oder Abzugs von oder wegen gegenwärtigen oder künftigen Steuern, Abgaben, Veranlagungen oder amtlicher Gebühren gleich welcher Art, die von oder im Auftrag der Steuerjurisdiktion der Emittentin (gemäß Definition in Ziffer 7 der Bedingungen der Instrumente) oder einer ihrer Gebietskörperschaften oder einer der zur Steuererhebung ermächtigten Behörden in der bzw. der Steuerjurisdiktion der Emittentin auferlegt, erhoben, eingezogen, einbehalten oder veranlagt werden, zu erhöhen.

Darüber hinaus kann im Falle einer bestimmten Tranche von Wertpapieren in den jeweiligen Endgültigen Bedingungen bzw. im Drawdown-Prospekt vorgesehen sein, dass die Wertpapiere nach Wahl der Emittentin unter bestimmten Umständen, u.a. im Falle von Änderungen, die sich auf die von der Emittentin für die Wertpapiere abgeschlossenen Absicherungsvereinbarungen auswirken, oder zu bestimmten Terminen oder während bestimmter Zeiträume zurückzahlen sind.

In diesen Fällen kann sich die Emittentin dafür entscheiden (ohne jedoch dazu verpflichtet zu sein), die Wertpapiere zurückzahlen, insbesondere auch in Zeiten, in denen relativ niedrige Zinssätze gelten (z.B. wenn die Finanzierungskosten der Emittentin niedriger sind als am Ausgabebetrag der Wertpapiere)

Unter diesen Umständen könnte ein Anleger außerstande sein, den Rückzahlungserlös in ein vergleichbares Wertpapier und/oder mit einer Effektivverzinsung oder einer Redite, die so hoch ist wie die der betreffenden Wertpapiere, und/oder zu anderen Bedingungen zu reinvestieren, die mit denen der betreffenden Wertpapiere vergleichbar sind. Potenzielle Anleger sollten das Reinvestitionsrisiko angesichts der anderen jeweils verfügbaren Anlagen prüfen. Voraussichtlich wird durch eine Rückzahlungsoption für die Wertpapiere auch ihr Marktwert begrenzt. Während eines Zeitraums, in dem die Emittentin sich zur Rückzahlung von Wertpapieren entschließen kann oder wenn wahrgenommen wird, dass die Emittentin Wertpapiere zurückzahlt, übersteigt der Marktwert dieser Wertpapiere im Allgemeinen ihren Rückzahlungspreis nicht erheblich. Dies kann auch vor einem Rückzahlungszeitraum zutreffen.

Soweit dies in den Endgültigen Bedingungen oder im Drawdown-Prospekt für eine bestimmte Tranche von Wertpapieren angegeben ist, kann die Emittentin außerdem nicht alle, sondern nur einen Teil der Wertpapiere einer bestimmten Tranche zurückzahlen. In diesen Fällen erfolgt die Auswahl der zurückzuzahlenden Wertpapiere durch Auslosung und/oder nach Maßgabe der Regeln der betreffenden Börse und des jeweiligen Clearingsystems. Daher könnten die von einem Anleger gehaltenen Wertpapiere dieser Tranche zurückgezahlt werden oder auch nicht, oder es könnte nur ein Teil von ihnen zurückgezahlt werden, und die Anleger haben kein Recht, eine solche Auswahl oder Rückzahlung abzulehnen oder zu verlangen.

Kein außerordentliches Kündigungsrecht der Gläubiger bei Nachrangigen Instrumenten, Nachrangigen Schuldverschreibungen oder Pfandbriefen

Die Emissionsbedingungen der Pfandbriefe, der nachrangigen Schuldverschreibungen (die "**Nachrangigen Schuldverschreibungen**") und der Nachrangigen Instrumente (wie nachfolgend definiert) sehen kein Kündigungsrecht der Gläubiger von Pfandbriefen bzw. Nachrangigen Schuldverschreibungen bzw. Nachrangigen Instrumenten aufgrund des Eintritts eines außerordentlichen Kündigungsgrunds vor. Die Gläubiger von Pfandbriefen bzw. Nachrangigen Schuldverschreibungen bzw. Nachrangigen Instrumenten haben daher kein Recht, die vorzeitige Rückzahlung der Pfandbriefe, der Nachrangigen Schuldverschreibungen und Nachrangigen Instrumente zu verlangen, wie dies möglicherweise der Fall ist bei anderen Wertpapieren, die die Emittentin begeben hat.

Änderungen der Emissionsbedingungen durch Beschluss der Gläubiger (nur für Schuldverschreibungen anwendbar)

Die Emissionsbedingungen der Schuldverschreibungen können von der Emittentin mit Zustimmung der Anleihegläubiger durch Mehrheitsbeschluss in einer Gläubigerversammlung oder durch Abstimmung ohne Versammlung gemäß § 5 ff. des *Gesetzes über Schuldverschreibungen aus Gesamtemissionen* ("**SchVG**") geändert werden, die Emittentin kann anschließend die Emissionsbedingungen mit Zustimmung der Mehrheit der Anleihegläubiger gemäß §13 der Emissionsbedingungen ändern, und diese Änderung ist für alle Anleihegläubiger der maßgeblichen Serie von Schuldverschreibungen bindend, auch für diejenigen Anleihegläubiger, die gegen die Änderung gestimmt hatten.

Daher unterliegt ein Gläubiger dem Risiko, durch Mehrheitsbeschluss der Gläubiger überstimmt zu werden. Da ein solcher Mehrheitsbeschluss für alle Gläubiger einer bestimmten Serie von Schuldverschreibungen verbindlich ist, können bestimmte Rechte dieser Gläubiger gegenüber der Emittentin unter den Emissionsbedingungen der Schuldverschreibungen geändert, eingeschränkt oder sogar aufgehoben werden, was wesentliche negative Auswirkungen auf den Wert der Schuldverschreibungen und die Rendite aus den Schuldverschreibungen haben kann.

Die Anleihegläubiger können durch Mehrheitsbeschluss die Bestellung und Abberufung eines gemeinsamen Vertreters bestimmen. Falls ein gemeinsamer Vertreter ernannt wird, wird einem Anleihegläubiger das individuelle Recht zur Wahrnehmung und Durchsetzung eines Teils oder aller seiner Rechte unter den Emissionsbedingungen der Schuldverschreibungen gegenüber der Emittentin

entzogen. Dieses Recht geht auf den gemeinsamen Vertreter der Anleihegläubiger über, der dann ausschließlich verantwortlich für die Geltendmachung und Durchsetzung der Rechte aller Anleihegläubiger ist.

Risiken bei Festverzinslichen Wertpapieren (einschließlich Step-up/Step-down-Wertpapieren und Resettable Instrumenten bzw. Resettable Schuldverschreibungen)

Die Inhaber von Wertpapieren mit festem Zinssatz ("**Festverzinsliche Wertpapiere**") sind dem Risiko ausgesetzt, dass der Preis dieser Wertpapiere aufgrund von Änderungen des Marktzinssatzes fällt. Während der in den jeweiligen Endgültigen Bedingungen angegebene Nominalzinssatz eines Festverzinslichen Wertpapiers für die Laufzeit des Wertpapiers festgelegt ist, ändert sich der aktuelle Zinssatz am Kapitalmarkt (der "**Marktzinssatz**") üblicherweise täglich. Wenn sich der Marktzinssatz ändert, ändert sich auch der Preis eines Festverzinslichen Wertpapiers, wenn auch die entgegengesetzte Richtung. Wenn der Marktzinssatz steigt, fällt üblicherweise der Preis eines Festverzinslichen Wertpapiers, bis die Rendite dieses Wertpapiers in etwa dem Marktzinssatz entspricht. Wenn der Marktzinssatz fällt, steigt üblicherweise der Preis eines Festverzinslichen Wertpapiers, bis die Rendite dieses Wertpapiers in etwa dem Marktzinssatz entspricht. Wenn der Inhaber eines Festverzinslichen Wertpapiers dieses Wertpapier bis zur Fälligkeit hält, sind Änderungen des Marktzinssatzes für diesen Inhaber irrelevant, da das Wertpapier zum vorgegebenen Rückzahlungsbetrag zurückgezahlt wird, der üblicherweise dem Nennbetrag dieses Wertpapiers entspricht. Dieselben Risiken gelten auch bei festverzinslichen Wertpapieren, bei denen der Festzinssatz über die Laufzeit der Wertpapiere ansteigt ("**Step-up-Wertpapiere**") oder fällt ("**Step-down-Wertpapiere**") und zusammen mit den Step-up-Wertpapieren die "**Step-up/Step-down-Wertpapiere**", wenn die Marktzinssätze für vergleichbare Wertpapiere höher sind, als die auf diese Wertpapiere anwendbaren Zinssätze.

Wenn ein Anleger Wertpapiere zu einem Verkaufskurs (einschließlich etwaiger Gebühren oder Transaktionskosten im Zusammenhang mit einem solchen Kauf) erwirbt, der höher ist als oder der Summe des Rückzahlungsbetrages der Wertpapiere und allen übrigen Zinszahlungen auf die Wertpapiere bis zum Fälligkeitstag entspricht, erzielt der Anleger möglicherweise keinen oder einen negativen Gewinn.

Im Falle von Resettable Instrumenten bzw. Resettable Schuldverschreibungen, bei denen der Zinssatz neu festgesetzt wird, ist eine Anlage in die Resettable Instrumente bzw. Resettable Schuldverschreibungen mit dem Risiko verbunden, dass Änderungen der Marktzinssätze während des Zeitraums bis zum Datum der Neufestsetzung des Zinssatzes (soweit die Resettable Instrumente bzw. Resettable Schuldverschreibungen nicht zu diesem Termin vorzeitig zurückgezahlt werden) (das "**Neufestsetzungsdatum**") bzw. während des Zeitraums nach dem Neufestsetzungsdatum (der "**Neufestsetzungszeitraum**") sich nachteilig auf den Wert der Resettable Instrumente bzw. Resettable Schuldverschreibungen auswirken können.

Darüber hinaus sind Inhaber von Instrumenten bzw. Schuldverschreibungen mit einem Festzinssatz, der während der Laufzeit der betreffenden Wertpapiere, wie z.B. die Resettable Instrumente bzw. die Resettable Schuldverschreibungen, neu festgesetzt wird, dem Risiko schwankender Referenzzinssätze und unsicherer Zinserträge ausgesetzt. Der für den Neufestsetzungszeitraum auf die Resettable Instrumente bzw. Resettable Schuldverschreibungen anwendbare Zinssatz könnte niedriger sein als der bis zum Neufestsetzungsdatum anwendbare anfängliche Zinssatz. Dies könnte den Marktwert der Resettable Instrumente bzw. der Resettable Schuldverschreibungen beeinträchtigen.

Anlegern wird es nicht möglich sein, ihre Rendite auf variabel verzinsliche Wertpapiere im Voraus zu berechnen

Ein wesentlicher Unterschied zwischen variabel verzinslichen und festverzinslichen Wertpapieren ist, dass die Zinserträge auf variabel verzinsliche Wertpapiere nicht vorhersehbar sind. Aufgrund der variablen Zinserträge ist es den Anlegern nicht möglich, zum Erwerbszeitpunkt die definitive Rendite von variabel verzinslichen Wertpapieren zu ermitteln, so dass die Kapitalrendite nicht mit der von

Anlagen mit längerer Laufzeit und Festzinssatz verglichen werden kann. Wenn in den Bedingungen der Schuldverschreibungen häufige Zinszahlungstermine vorgesehen sind, sind die Anleger dem Reinvestitionsrisiko ausgesetzt, wenn die Marktzinssätze rückläufig sind, d.h. die Anleger können die an sie ausgezahlten Zinserträge nur zu den dann jeweils geltenden niedrigeren Zinssätzen reinvestieren.

Im Fall eines niedrigen variablen Zinssatzes und wenn ein Anleger Wertpapiere zu einem Verkaufspreis (einschließlich etwaiger Gebühren oder Transaktionskosten im Zusammenhang mit einem solchen Kauf) erwirbt, der höher ist als oder der Summe des Rückzahlungsbetrages der Wertpapiere und allen übrigen Zinszahlungen auf die Wertpapiere bis zum Fälligkeitstag entspricht, erzielt der Anleger möglicherweise keinen oder einen negativen Gewinn.

Variabel verzinsliche Wertpapiere mit einem Multiplikator oder einem anderen Leverage-Faktor und Invers Variabel Verzinsliche Wertpapiere können volatile Instrumente sein

Variabel verzinsliche Wertpapiere können volatile Anlagen sein. Wenn sie so strukturiert sind, dass sie Multiplikatoren oder andere Leverage-Faktoren oder Caps oder Floors oder eine Kombination dieser Ausstattungsmerkmale oder andere vergleichbare Ausstattungsmerkmale umfassen, kann ihr Marktwert noch volatil sein als der von Wertpapieren, die nicht über solche Ausstattungsmerkmale verfügen.

Bei Invers Variabel Verzinslichen Wertpapieren entspricht der Zinssatz einem Festzinssatz, abzüglich eines Satzes, der auf einem Referenzzinssatz wie dem EURIBOR[®] oder LIBOR[®] basiert. Der Marktwert solcher Wertpapiere ist üblicherweise volatil als der, traditioneller Schuldverschreibungen mit variabler Verzinsung, die auf demselben Referenzzinssatz basieren (und ansonsten vergleichbare Bedingungen haben). Invers Variabel Verzinsliche Wertpapiere sind volatil, weil eine Erhöhung des Referenzzinssatzes nicht nur zu einer Herabsetzung des Zinssatzes der Wertpapiere führt, sondern auch eine Erhöhung der geltenden Zinssätze widerspiegelt, was den Marktwert dieser Wertpapiere zusätzlich negativ beeinflusst.

Risiken im Zusammenhang mit der Reform des LIBOR, EURIBOR und anderer "Benchmark"-Zinssätze

Der EURIBOR[®], der LIBOR[®] und andere Zinssatzindizes, die als "Benchmarks" gelten, unterliegen aktuellen nationalen, internationalen und anderen regulatorischen Leitlinien und Reformvorschlägen. Einige dieser Reformen sind bereits wirksam, andere hingegen müssen noch umgesetzt werden. Diese Reformen können dazu führen, dass sich solche "Benchmarks" anders entwickeln als in der Vergangenheit oder vollkommen wegfallen, oder dass sie andere Konsequenzen haben, die unvorhersehbar sind. All diese Folgen könnten wesentliche negative Auswirkungen auf Wertpapiere haben, die auf solche "Benchmarks" bezogen sind.

Am 17. Mai 2016 hat der Rat der Europäischen Union die EU-Verordnung über Indizes verabschiedet, die als Benchmarks für Finanzinstrumente und Finanzkontrakte oder zur Messung der Wertentwicklung von Investmentfonds verwendet werden (die "**Benchmark-Verordnung**"). Die Benchmark-Verordnung trat am 30. Juni 2016 in Kraft. Vorbehaltlich verschiedener Übergangsbestimmungen wird die Benchmark-Verordnung ab dem 1. Januar 2018 gelten, mit Ausnahme der Regelungen zu "kritischen" Benchmarks, die bereits vom 30. Juni 2016 an gelten. Die Benchmark-Verordnung gilt für "Kontributoren" (*contributors*), "Administratoren" (*administrators*) und "Nutzer" (*user*) von "Benchmarks" in der EU. Unter anderem (i) müssen Benchmark-Administratoren autorisiert sein (oder, falls sie in einem Drittstaat angesiedelt sind, bestimmte Gleichwertigkeitsbedingungen (*equivalence conditions*) in ihrer jeweiligen lokalen Jurisdiktion erfüllen, von den Behörden eines Mitgliedstaates bis zu einem Beschluss über die Gleichwertigkeit "anerkannt" (*recognised*) oder für solche Zwecke von einer zuständigen EU-Behörde übernommen (*endorsed*) werden) und anderen Anforderungen in Bezug auf die Administration von "Benchmarks" entsprechen und (ii) wird die Nutzung von "Benchmarks" unautorisierter Administratoren verboten.

Der Anwendungsbereich der Benchmark-Verordnung ist umfassend und gilt, neben den sogenannten "kritischen Benchmark"-Indizes EURIBOR[®] und LIBOR[®], auch für viele andere Zinssatzindizes.

Die Benchmark-Verordnung könnte sich wesentlich auf Wertpapiere auswirken, die auf einen "Benchmark"-Satz oder -Index bezogen sind, wozu auch folgende Umstände zählen:

- ein Satz oder Index, der eine "Benchmark" ist, könnte nicht als solche genutzt werden, wenn der zuständige Administrator keine Autorisierung erhält oder in einem Drittstaat angesiedelt ist, der (vorbehaltlich geltender Übergangsbestimmungen) nicht die Gleichwertigkeitsbedingungen erfüllt, nicht von den Behörden eines Mitgliedstaates bis zu einem Beschluss über die Gleichwertigkeit "anerkannt", oder für solche Zwecke von einer zuständigen EU-Behörde übernommen wird. In einem solchen Fall könnten, abhängig von den besonderen "Benchmark"-Bedingungen und den geltenden Bedingungen der Wertpapiere, die Wertpapiere dekotiert, angepasst oder vor Fälligkeit zurückgezahlt oder anderweitig beeinflusst werden; und
- die Methodik oder andere Bestimmungen einer "Benchmark" könnten geändert werden, um mit den Bestimmungen der Benchmark-Verordnung übereinzustimmen. Solche Änderungen könnten eine Senkung oder Erhöhung des Satzes oder Niveaus bewirken oder die Volatilität des veröffentlichten Satzes oder Niveaus beeinflussen, und zu Anpassungen der Bedingungen der Wertpapiere führen, einschließlich der Bestimmung des Satzes oder Niveaus durch die Berechnungsstelle in deren Ermessen.

Alle internationalen, nationalen oder andere Reformvorschläge oder die allgemein verstärkte Überprüfung von "Benchmarks" könnten zu erhöhten Kosten und Risiken der Verwaltung oder anderweitigen Beteiligung an der Festlegung einer "Benchmark" und der Einhaltung solcher Verordnungen bzw. Anforderungen führen. Solche Faktoren können bewirken, dass Marktteilnehmer davon abgehalten werden, bestimmte "Benchmarks" zu verwalten oder beizutragen, Änderungen der bei bestimmten "Benchmarks" angewandten Regeln oder Methodik hervorrufen oder zum Wegfall bestimmter "Benchmarks" führen. Der Wegfall einer "Benchmark" oder Änderungen in der Art der Verwaltung einer "Benchmark" könnten eine Anpassung der Emissionsbedingungen, eine vorzeitige Rückzahlung, ein Bewertungswahlrecht durch die Berechnungsstelle, eine Dekotierung oder andere Konsequenzen in Bezug auf die auf solche "Benchmarks" bezogenen Wertpapiere nach sich ziehen. All diese Konsequenzen könnten sich wesentlich auf den Wert solcher Wertpapiere und die Erträge aus solchen Wertpapieren haben.

Auf Nullkupon-Wertpapiere erfolgen keine laufenden Zinszahlungen

Auf Nullkupon-Wertpapiere erfolgen keine laufenden Zinszahlungen, sondern sie werden mit einem Abschlag gegenüber ihrem Nennwert (abgezinste Nullkupon-Wertpapiere) oder zu ihrem Nennwert begeben (aufgezinste Nullkupon-Wertpapiere) (die "**Nullkupon-Wertpapiere**"). Anstelle periodischer Zinszahlungen besteht der Zinsertrag bis zur Fälligkeit in der Differenz zwischen dem Rückzahlungs- und dem Ausgabepreis, die den Marktzinssatz widerspiegelt. Inhaber von Nullkupon-Wertpapieren sind dem Risiko ausgesetzt, dass der Preis dieser Wertpapiere aufgrund von Änderungen des Marktzinssatzes fällt. Die Preise von Nullkupon-Wertpapieren sind volatil als die von Festverzinslichen Wertpapieren und reagieren wahrscheinlich stärker auf Änderungen des Marktzinssatzes als verzinsliche Wertpapiere mit vergleichbarer Laufzeit. Der bei Rückzahlung vor Fälligkeit von der Emittentin zahlbare Betrag wird anhand einer Formel berechnet, die den Zinsertrag bis zur vorzeitigen Rückzahlung berücksichtigt (der unter dem Rückzahlungspreis bei Fälligkeit liegt).

Wenn ein Anleger Wertpapiere zu einem Verkaufskurs (einschließlich etwaiger Gebühren oder Transaktionskosten im Zusammenhang mit einem solchen Kauf) erwirbt, der höher ist als der Summe des Rückzahlungsbetrages der Wertpapiere bis zum Fälligkeitstag entspricht, erzielt der Anleger möglicherweise keinen oder einen negativen Gewinn. Mögliche Fluktuationen im Marktpreis können eventuell nicht durch andere Einkünfte kompensiert werden.

Risiken bei Range Accrual Wertpapieren

Die Emissionsbedingungen der Range Accrual Wertpapiere können vorsehen, dass der auszahlende Zinsbetrag (mit Ausnahme eines etwaigen vereinbarten Festzinssatzes, der, wie in den Emissionsbedingungen der Wertpapiere festgelegt auszuzahlen ist) von der Anzahl der noch ausstehenden Tage, an denen der CMS-Satz oder der Referenzzinssatz (EURIBOR[®] oder LIBOR[®], wie in den Emissionsbedingungen der Range Accrual Wertpapiere festgelegt) über einem bestimmten Zinssatz liegt oder diesem entspricht bzw. unter ihm liegt oder ihm entspricht, oder innerhalb einer bestimmten Vergleichszins-Bandbreite liegt ("**Range Accrual Wertpapiere**"). Der auf die Range Accrual Wertpapiere auszuzahlende Zinsbetrag verringert sich entsprechend der Anzahl der Zinsfeststellungstage, an denen der CMS-Satz oder der Referenzsatz, je nachdem, entweder über oder unter dem relevanten Zinssatz liegt oder diesem entspricht, oder innerhalb der relevanten Vergleichszins-Bandbreite liegt. Für den Fall, dass der CMS-Satz oder der Referenzzinssatz erheblich steigt oder sinkt und im Laufe einer ganzen Zinsanhäufungsperiode, je nachdem, entweder über oder unter dem relevanten Zinssatz liegt oder diesem entspricht, oder außerhalb der relevanten Vergleichszins-Bandbreite liegt, könnte es dazu kommen, dass kein Zinsbetrag auszuzahlen ist.

Die Höhe der Zinseinnahmen ist unsicher, da der auszahlende Zinsbetrag in seiner Höhe vom Niveau des CMS-Satzes oder des Referenzzinssatzes abhängt und Investoren den Schwankungen des CMS-Satzes bzw. Referenzzinssatzes unterliegen. Aufgrund der Schwankungen des/der CMS-Satzes/CMS-Sätzen bzw. Referenzzinssatzes/Referenzzinssätzen ist es unmöglich, die Zinseinnahmen und den Ertrag der Gesamtlaufzeit im Vorfeld zu berechnen.

Range Accrual Wertpapiere können darüber hinaus mit einer oder mehreren Festzinsperiode(n) begeben werden, welche den variablen Zinsperioden vorgeschaltet ist/sind. In einem solchen Fall greifen zusätzlich die Risiken von Festverzinslichen Wertpapieren im Hinblick auf die Festzinsperiode(n) solcher Range Accrual Wertpapiere.

Risiken bei CMS Spread Wertpapieren

Die Emissionsbedingungen der CMS Spread Wertpapiere können einen variablen Zinssatz (mit Ausnahme eines etwaigen vereinbarten Festzinssatzes, der, wie in den Emissionsbedingungen der Wertpapiere festgelegt auszuzahlen ist) vorsehen, der von der Differenz von Swapsätzen mit unterschiedlichen Laufzeiten abhängig ist ("**CMS Spread Wertpapiere**").

Investoren, die CMS Spread Wertpapiere erwerben, könnten erwarten, dass während der Laufzeit der CMS Spread Wertpapiere (i) die Zinskurve nicht oder nur geringfügig abflachen wird oder, (ii) abhängig von der Struktur der CMS Spread Wertpapiere, die Zinskurve gegebenenfalls nicht steil wird. Sollte der Markt sich nicht so entwickeln, wie von den Investoren erwartet und sollte die Differenz von Swapsätzen mit unterschiedlichen Laufzeiten sich stärker verringern als erwartet, wird der auf die Wertpapiere auszuzahlende Zinsbetrag niedriger als das zum Zeitpunkt des Erwerbs bestehende Zinsniveau sein. Im schlimmsten Fall kommt es zu keiner Zinszahlung. In solchen Situationen wird auch der Preis der CMS Spread Wertpapiere während der Laufzeit fallen.

CMS Spread Wertpapiere können mit einem Höchstsatz hinsichtlich der Zinszahlung versehen sein. In einem solchen Fall wird die Höhe des Zinsbetrags einen bestimmten vorher festgelegten Höchstsatz nie übersteigen, sodass der Gläubiger von einer etwaigen günstigen Entwicklung über den Höchstsatz hinaus nicht profitieren können. Der Ertrag solcher Wertpapiere könnte deshalb niedriger sein als der von ähnlich strukturierten Wertpapieren ohne Höchstsatz.

CMS Spread Wertpapiere können darüber hinaus mit einer oder mehreren anfänglichen Festzinsperiode(n) begeben werden, welche den variablen Zinsperioden vorgeschaltet ist/sind. In einem solchen Fall greifen zusätzlich die Risiken von Festverzinslichen Wertpapieren im Hinblick auf die Festzinsperiode(n) solcher CMS Spread Wertpapiere.

Interessenkonflikte – Berechnungsstelle

Zwischen der Berechnungsstelle (soweit bestellt) und den Gläubigern (insbesondere wenn ein Dealer als Berechnungsstelle fungiert) können Interessenkonflikte bestehen, insbesondere im Hinblick auf bestimmte Festlegungen und Urteile, die die Berechnungsstelle aufgrund der Emissionsbedingungen vornimmt und die den von den Gläubigern während der Laufzeit der Wertpapiere oder bei ihrer Rückzahlung zu erhaltenden Betrag beeinflussen können.

Da die Globalinstrumente von oder im Auftrag von Euroclear und Clearstream, Luxemburg, oder Clearstream, Frankfurt, oder der DTC gehalten werden, müssen die Anleger bezüglich Übertragungen, Zahlungen und Kommunikationen mit der Emittentin auf deren Verfahren vertrauen.

Im Rahmen des Programms ausgegebene Wertpapiere können in einem oder mehreren Globalinstrument/en verbrieft sein. Diese Globalinstrumente werden bei einem gemeinsamen Verwahrer bzw. einer gemeinsamen Verwahrstelle für Euroclear und Clearstream, Luxemburg, oder bei Clearstream, Frankfurt, oder bei einem Treuhänder für die DTC verwahrt, der auf den Namen eines Nominee der DTC eingetragen ist. Außer in den im betreffenden Globalinstrument genannten Fällen haben die Anleger keinen Anspruch auf Erhalt effektiver Instrumente. Euroclear und Clearstream, Luxemburg, sowie die DTC führen Buch über die wirtschaftlichen Eigentumsrechte oder Miteigentumsanteile an den Globalinstrumenten. Obwohl die Wertpapiere in einem oder mehreren Globalinstrument/en verbrieft sind, können die Anleger ihre wirtschaftlichen Eigentumsrechte oder Miteigentumsanteile nur über Euroclear und Clearstream, Luxemburg, oder Clearstream, Frankfurt, oder die DTC handeln.

Während die Wertpapiere in einem oder mehreren Globalinstrument/en verbrieft sind, erfüllt die Emittentin ihre Zahlungsverpflichtungen aus den Wertpapieren durch Zahlung an den gemeinsamen Verwahrer bzw. die gemeinsame Verwahrstelle für Euroclear und Clearstream, Luxemburg, oder an Clearstream, Frankfurt, zur Weiterleitung an deren Kontoinhaber oder an einen Treuhänder der DTC zur Weiterleitung an deren Kontoinhaber. Inhaber von wirtschaftlichen Eigentumsrechten oder Miteigentumsanteilen an einem Globalwertpapier müssen bezüglich des Erhalts von Zahlungen auf die betreffenden Wertpapiere auf die Verfahren von Euroclear und Clearstream, Luxemburg, oder Clearstream, Frankfurt, oder der DTC vertrauen. Die Emittentin übernimmt keine Verantwortung oder Haftung für Aufzeichnungen oder Zahlungen hinsichtlich der wirtschaftlichen Eigentumsrechte oder Miteigentumsanteile an den Globalinstrumenten.

Die Inhaber von wirtschaftlichen Eigentumsrechten oder Miteigentumsanteilen an den Globalinstrumenten haben keine direkten Stimmrechte in Verbindung mit den jeweiligen Wertpapieren. Stattdessen können diese Inhaber nur insoweit tätig werden, als es ihnen Euroclear und Clearstream, Luxemburg, oder Clearstream, Frankfurt, oder die DTC ermöglichen, geeignete Stimmrechtsbevollmächtigte zu bestellen.

Neue Verwahrstruktur

Es ist die Absicht der Emittentin, dass die Instrumente bei Ausgabe auf den Namen eines Nominee für Euroclear oder Clearstream, Luxemburg, (wie nachstehend definiert) als gemeinsamer Verwahrstelle eingetragen werden. Dies bedeutet nicht notwendigerweise, dass die Instrumente bei Ausgabe oder zu irgendeinem Zeitpunkt während ihrer Laufzeit vom Eurosystem als zulässige Sicherheiten für Zwecke der Geldpolitik des Eurosystems sowie Innertages-Kreditgeschäfte anerkannt werden. Diese Anerkennung hängt davon ab, ob die Europäische Zentralbank davon überzeugt ist, dass die Qualifizierungskriterien des Eurosystems erfüllt sind.

Risiken, die insbesondere Nachrangige Instrumente und Nachrangige Schuldverschreibungen betreffen

Nachrangige Instrumente und Nachrangige Schuldverschreibungen können gegenüber den meisten Verbindlichkeiten der LBBW nachrangig sein

Gläubiger der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen sollte bewusst sein, dass ihre Forderungen aufgrund der Rangfolge der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen in erhöhtem Maße Risiken in Verbindung mit Abwicklungsmaßnahmen (insbesondere angesichts der Revidierten Leitlinien für Staatliche Beihilfen) ausgesetzt sind und dass sie folglich – bereits in einer Krise und nicht erst im Insolvenzfall - ihre gesamte Anlage, einschließlich Nennbetrag und etwa aufgelaufener Zinsen, verlieren können, oder dass die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen Änderungen ihrer Bedingungen unterliegen oder auf ein anderes Unternehmen übertragen werden können oder von jeder anderen Abwicklungsmaßnahme betroffen sind (insbesondere dem Bail-in Instrument).

Bezüglich weiterer Einzelheiten zu den betreffenden Risiken wird auf "*Die Rechte der Inhaber könnten durch Abwicklungsmaßnahmen oder die Revidierten Leitlinien für Staatliche Beihilfen nachteilig beeinflusst werden*" verwiesen.

Des Weiteren stellen die Wertpapiere, soweit im Falle einer bestimmten Tranche von Wertpapieren in den jeweiligen Endgültigen Bedingungen bzw. im Drawdown-Prospekt angegeben ist, dass es sich bei den Wertpapieren um Nachrangige Instrumente bzw. Nachrangige Schuldverschreibungen handelt, vollumfänglich nachrangige Verbindlichkeiten der LBBW dar (außer gegenüber nachrangigen Verbindlichkeiten, die gegenüber den Nachrangigen Instrumenten bzw. den Nachrangigen Schuldverschreibungen nachrangig sind), und im Falle einer Auflösung, Liquidation, Insolvenz oder eines Vergleichs oder eines Verfahrens zur Vermeidung einer Insolvenz der LBBW bzw. gegen die LBBW sind diese Verbindlichkeiten vollumfänglich nachrangig gegenüber (i) den Forderungen aller nicht-nachrangigen Gläubiger der LBBW und (ii) den Forderungen der nachrangigen Gläubiger der LBBW, denen (a) aufgrund zwingender gesetzlicher Bestimmungen oder (b) aufgrund der Bedingungen der jeweiligen Verbindlichkeiten ein Vorrang eingeräumt ist, so dass in einem solchen Fall keine Beträge auf diese Verbindlichkeiten zahlbar sind, bis die Ansprüche aller nicht-nachrangigen Gläubiger der Emittentin bzw. solcher nachrangigen Gläubiger der Emittentin, denen Vorrang eingeräumt ist, vollständig befriedigt sind.

Die Inhaber der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen sind nicht berechtigt, Ansprüche aus den Nachrangigen Instrumenten bzw. den Nachrangigen Schuldverschreibungen gegen die Ansprüche der Emittentin aufzurechnen. Von der Emittentin oder einem ihrer verbundenen Unternehmen oder einem Dritten, der eng mit der Emittentin oder einem ihrer verbundenen Unternehmen oder einer anderen Person verbunden ist, wurden und werden zu einem späteren Zeitpunkt keine Sicherheiten gleich welcher Art gestellt, die die Rechte der Inhaber aus den Nachrangigen Instrumenten bzw. den Nachrangigen Schuldverschreibungen sichert.

Darüber hinaus unterliegen die Kündigung, die Tilgung, der Rückkauf und die Rückzahlung der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen bestimmten Beschränkungen, die auch in den spezifischen Bedingungen und in den Risikofaktoren dargelegt sind. Diese spezifischen Bedingungen wirken sich insbesondere auf den Marktwert der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen aus mit dem Ergebnis, dass der Marktwert von Anleihen derselben Emittentin, auf die dieselben spezifischen Bedingungen anwendbar sind, die jedoch nicht-nachrangig sind, im Allgemeinen höher ist.

Entsprechend den anwendbaren Bestimmungen zur Einstufung als Eigenmittel sollen die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen der Emittentin als zulässiges Kapital in Form von Ergänzungskapital (Tier 2 Capital) zur Verfügung stehen. Es kann

jedoch nicht gewährleistet werden, dass die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen als Ergänzungskapital eingestuft werden oder, wenn ja, dass dies während der Laufzeit der Nachrangigen Instrumente oder der Nachrangigen Schuldverschreibungen weiterhin der Fall sein wird oder dass diese Instrumente von künftigen EU-Bestimmungen zur Eigenkapitalerhaltung nicht ausgenommen sein werden. In diesem Zusammenhang ist das Recht der Emittentin zu sehen, die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen aus aufsichtsrechtlichen Gründen zu kündigen, das der vorherigen Zustimmung der zuständigen Regulierungsbehörde unterliegt, soweit diese gesetzlich vorgeschrieben ist. Im Falle einer Rückzahlung aus aufsichtsrechtlichen Gründen kann nicht gewährleistet werden, dass die Inhaber ihre investierten und zurückgezahlten Beträge zu vergleichbaren Bedingungen reinvestieren können.

Darüber hinaus, werden in Bezug auf Nachrangige Schuldverschreibungen zusätzliche Beträge aufgrund des Einbehalts von Steuern oder sonstigen Abgaben gemäß § 7 der Emissionsbedingungen ausschließlich in Bezug auf Zinszahlungen gezahlt.

Unter bestimmten Umständen ist die Emittentin berechtigt, die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen vor ihrer planmäßigen Fälligkeit zurückzuzahlen. Aufgrund einer solchen vorzeitigen Rückzahlung könnte die Rendite auf das investierte Kapital der Inhaber niedriger als erwartet ausfallen.

Wenn nach Einschätzung der Emittentin (i) die Emittentin die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen, aus anderen Gründen als der Amortisierung gemäß den Eigenmittelvorschriften (einschließlich, aber nicht ausschließlich Artikel 64 CRR), nicht vollständig für Zwecke der Eigenmittelausstattung als Ergänzungskapital (Tier 2 Kapital) nach Maßgabe der Anwendbaren Eigenmittelvorschriften anrechnen darf oder wird anrechnen dürfen oder (ii) die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen in sonstiger Weise einer weniger günstigen regulatorischen Eigenmittelbehandlung unterliegen oder unterliegen werden als am Ausgabetag, so können die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen insgesamt, jedoch nicht teilweise, nach Wahl der Emittentin und gegebenenfalls vorbehaltlich der vorherigen Zustimmung der zuständigen Regulierungsbehörde zurückgezahlt werden.

Aufgrund des Rechts der Emittentin zur vorzeitigen Rückzahlung sind die Inhaber dem Risiko ausgesetzt, dass ihre Rendite niedriger als erwartet ausfallen könnte. Da nicht ausgeschlossen werden kann, dass die Emittentin das Recht zur vorzeitigen Rückzahlung zu einem Zeitpunkt ausübt, zu dem die Rendite für vergleichbare Anleihen am Kapitalmarkt gefallen ist, könnte es den Anlegern außerdem nicht möglich sein, den Rückzahlungserlös in vergleichbare Anleihen mit gleicher oder höherer Rendite zu reinvestieren. Anleger sollten das Reinvestitionsrisiko vor dem Hintergrund der jeweils verfügbaren sonstigen Anlagen prüfen.

Das Recht zur vorzeitigen Rückzahlung der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen kann der vorherigen Genehmigung durch die zuständige Regulierungsbehörde unterliegen und könnte von der Emittentin nicht ausgeübt werden

Die Inhaber der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen haben kein Recht auf vorzeitige Fälligkeitstellung ihrer Wertpapiere und sollten in die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen nicht in der Erwartung investieren, dass die Emittentin ihr Kündigungsrecht ausübt. Eine vorzeitige Rückzahlung oder ein Rückkauf der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen könnte gegebenenfalls der vorherigen Genehmigung durch die zuständige Regulierungsbehörde unterliegen und unter dem Vorbehalt der Erfüllung der jeweils auf die Emittentin anwendbaren aufsichtsrechtlichen Eigenkapitalvorschriften stehen. Im Rahmen der CRR könnte die zuständige Regulierungsbehörde den Kreditinstituten nur dann erlauben, Instrumente des Ergänzungskapitals wie die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen vor der vertraglich vereinbarten Fälligkeit zurückzuzahlen, wenn bestimmte in der CRR vorgeschriebene Bedingungen erfüllt sind. Zum Beispiel im Falle einer

vorzeitigen Rückzahlung während der ersten fünf Jahre ab dem Ausgabetag der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen aufgrund bestimmter Änderungen bei der geltenden steuerlichen Behandlung gemäß Ziffer 5.03 der Bedingungen der Instrumente bzw. §5 (2) der Emissionsbedingungen der Schuldverschreibungen muss das Kreditinstitut zur Zufriedenheit der zuständigen Regulierungsbehörde nachweisen, dass diese Änderung erheblich ist und am Ausgabetag nicht vernünftigerweise vorhersehbar war; im Falle einer vorzeitigen Rückzahlung während der ersten fünf Jahre aufgrund des Ausschlusses der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen aus dem Ergänzungskapital oder weil die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen in irgendeiner Weise als Eigenmittel gemäß Ziffer 5.04 der Bedingungen der Instrumente bzw. §5 (2) der Emissionsbedingungen der Schuldverschreibungen einer weniger vorteilhaften Behandlung unterliegen als am Ausgabetag muss die zuständige Regulierungsbehörde davon überzeugt sein, dass die Änderung mit hinreichender Sicherheit feststeht, und das Kreditinstitut muss zur Zufriedenheit der zuständigen Regulierungsbehörde nachweisen, dass diese aufsichtsrechtliche Neuordnung am Ausgabetag nicht vernünftigerweise vorhersehbar war. Diese Bedingungen sowie eine Reihe sonstiger technischer Regeln und Standards in Verbindung mit den auf die Emittentin anwendbaren aufsichtsrechtlichen Eigenkapitalanforderungen dürften von der zuständigen Regulierungsbehörde bei ihrer Entscheidungsfindung, ob eine vorzeitige Rückzahlung oder ein Rückkauf erlaubt werden soll, berücksichtigt werden. Es besteht Unsicherheit dahingehend, wie die zuständige Regulierungsbehörde diese Kriterien in der Praxis anwenden wird, und diese Regeln und Standards könnten sich während der Laufzeit der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen ändern. Es ist daher schwer abzusehen, ob und zu welchen Bedingungen die zuständige Regulierungsbehörde zu irgendeinem Zeitpunkt eine vorzeitige Rückzahlung oder einen Rückkauf der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen genehmigen wird.

Darüber hinaus wird, selbst wenn der Emittentin die vorherige Genehmigung der zuständigen Regulierungsbehörde gewährt wird, jede Entscheidung der Emittentin, ob sie ein Kündigungsrecht für die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen ausübt, nach dem alleinigen Ermessen der Emittentin unter Berücksichtigung von Faktoren wie der wirtschaftlichen und marktseitigen Auswirkungen der Ausübung eines Kündigungsrechts, der aufsichtsrechtlichen Eigenkapitalanforderungen sowie der geltenden Marktbedingungen getroffen.

Den Inhabern der Nachrangigen Instrumente bzw. der Nachrangigen Schuldverschreibungen sollte bewusst sein, dass sie die finanziellen Risiken einer Anlage in die Nachrangigen Instrumente bzw. die Nachrangigen Schuldverschreibungen möglicherweise bis zu deren Endfälligkeit tragen müssen.

Stückelung und ein höheres ganzzahliges Vielfaches von weniger als EUR 100.000

Bei Emissionen von Instrumenten mit einer Stückelung, die aus der angegebenen Mindeststückelung zuzüglich einem höheren ganzzahligen Vielfachen eines kleineren Betrags besteht, kann es sein, dass die Instrumente in Beträgen gehandelt werden, die die Angegebene Stückelung (oder Gegenwert in anderen Währungen) übersteigen, ohne dass es sich hierbei um ein ganzzahliges Vielfaches der Angegebenen Stückelung (oder Gegenwert in anderen Währungen) handelt. In diesem Fall könnte ein Inhaber, der aufgrund des Handels mit diesen Beträgen einen Nennbetrag hält, der unter der angegebenen Mindeststückelung liegt, für diesen Bestand kein Effektives Instrument erhalten (soweit Effektive Instrumente gedruckt werden) und müsste zusätzliche Instrumente erwerben, bis der Nennbetrag der von ihm gehaltenen Instrumente der Angegebenen Stückelung entspricht.

Besteuerung

Allgemein

Der Basisprospekt enthält eine allgemeine Beschreibung bestimmter steuerlicher Überlegungen in Verbindung mit den Wertpapieren (siehe "*Besteuerung*" und insbesondere die Erläuterungen zur EU-Zinsbesteuerungsrichtlinie), die auf dem zum Datum des Basisprospekts geltenden Recht basieren und

unter dem Vorbehalt aller etwa nach diesem Datum erfolgenden Gesetzesänderungen stehen. Sie soll keine vollständige Analyse aller steuerlichen Überlegungen zu den Wertpapieren sein, ob in den dort genannten Ländern oder anderswo. Potenzielle Erwerber der Wertpapiere sollten ihre eigenen Steuerberater dazu konsultieren, inwieweit das Steuerrecht welcher Länder für den Erwerb, den Besitz und die Veräußerung von Wertpapieren und den Erhalt von Zahlungen an Zinsen, Kapital und/oder sonstigen Beträgen auf die Wertpapiere relevant sein könnten, sowie zu den Folgen der vorgenannten Handlungen nach dem Steuerrecht dieser Länder.

Zahlungen auf die Instrumente könnten einer Quellensteuer gemäß FACTA unterliegen

Bezüglich der von der LBBW über ihre Niederlassung New York begebenen Instrumente könnte die Emittentin unter bestimmten Umständen gemäß Section 1471 bis 1474 des U.S. Internal Revenue Code of 1986 (US-Bundessteuergesetz) in jeweils aktueller Fassung und den in diesem Rahmen erlassenen Vorschriften ("**FATCA**") verpflichtet sein, eine US-Steuer mit einem Satz von 30.00% auf Zinszahlungen zu jedem Termin sowie auf Zahlungen an Kapital und Bruttoerlösen aus der Veräußerung, dem Umtausch oder der Rückzahlung von Instrumenten, die ab dem 1. Januar 2019 an ausländische Finanzinstitute geleistet werden, einzubehalten, es sei denn, das ausländische Empfängerinstitut bescheinigt, dass es zum Erhalt dieser Zahlungen ohne einen FACTA-Einbehalt berechtigt ist. Zahlungen der vorgenannten Beträge an bestimmte ausländische Organisationen, die nicht dem Finanzsektor angehören und bestimmte Informationen über bedeutende US-Eigentümer nicht offenlegen (bzw. bescheinigen, dass sie keine bedeutenden US-Eigentümer haben) können ebenfalls einem Einbehalt gemäß FACTA mit einem Satz von 30.00% unterliegen.

In Bezug auf Instrumente, die von einem Unternehmen des LBBW-Konzerns, bei dem es sich nicht um die Niederlassung New York der LBBW handelt, sechs Monate nach dem Datum begeben werden, zu dem der Begriff "ausländische Durchleitungszahlung" (*foreign pass-through payment*) in Vorschriften definiert wurde, die im U.S. Federal Register (Amtsblatt der US-Bundesregierung) veröffentlicht wurden (der "**Passthru Payment Grandfathering-Termin**"), oder im Falle von Open End-Instrumenten zu jedem Zeitpunkt, könnte die Emittentin unter bestimmten Umständen gemäß FACTA verpflichtet sein, eine US-Steuer mit einem Satz von 30,00% auf alle oder einen Teil der Zahlungen an Kapital und Zinsen einzubehalten, die als "Durchleitungszahlungen" behandelt werden und die ab dem 1. Januar 2019 an ausländische Finanzinstitute erfolgen, es sei denn, das ausländische Empfängerinstitut bescheinigt, dass es zum Erhalt dieser Zahlungen ohne einen FACTA-Einbehalt berechtigt ist.

Ein FATCA-Einbehalt könnte auch bei Instrumenten erforderlich sein, die vor dem Passthru Payment Grandfathering-Termin begeben und nach dem Passthru Payment Grandfathering-Termin im Sinne der US-Bundeseinkommensteuer "erheblich geändert" (*significantly modified*) werden. Darüber hinaus könnte ein FATCA-Einbehalt erforderlich sein, wenn die Emittentin nach dem Passthru Payment Grandfathering-Termin weitere Wertpapiere in einer Weise auflegt und begibt, die keine "zulässige Wiederaufnahme" (*qualified reopening*) im Sinne der US-Bundeseinkommensteuer darstellt, die gemäß §9 der Bedingungen mit den ausstehenden Wertpapieren zu einer einheitlichen Serie zusammengefasst werden.

Deutschland hat mit den Vereinigten Staaten ein zwischenstaatliches Abkommen (*intergovernmental agreement* - "**IGA**") abgeschlossen, um die Umsetzung von FATA bei bestimmten deutschen Finanzinstituten zu unterstützen. Die Emittentin muss bestimmte Informationen zu ihren US-Kontoinhabern gegenüber Deutschland offenlegen, um (i) eine Befreiung vom FACTA-Einbehalt der bei ihr eingehenden Zahlungen zu erlangen und/oder (ii) den anwendbaren deutschen Gesetzen zu entsprechen. Es steht noch nicht fest, wie die Vereinigten Staaten und Deutschland Einbehalte auf "ausländische Durchleitungszahlungen" (was auch Zahlungen auf die Wertpapiere – mit Ausnahme der von der Niederlassung New York der Bank begebenen Instrumente – umfassen kann) behandeln werden und ob solche Einbehalte überhaupt erforderlich sein werden.

Gegebenenfalls wird FATCA in einem Anhang zu den jeweiligen Endgültigen Bedingungen für Wertpapiere behandelt, die nach dem Passthru Payment Grandfathering-Termin begeben werden.

Wenn ein Betrag für Zwecke der US-Quellensteuer von Zins-, Kapital- oder sonstigen Zahlungen auf die Instrumente abgezogen oder einbehalten würde, weil ein Inhaber die Beachtung von FACTA versäumt hat, wäre weder die Emittentin noch eine Zahlstelle oder eine andere Person nach Maßgabe der Bedingungen der Instrumente verpflichtet, zusätzliche Beträge aufgrund des Abzugs oder Einbehalts dieser Steuer zu zahlen.

Der Sekundärmarkt im Allgemeinen

Für die Wertpapiere könnte bei Ausgabe kein etablierter Handelsmarkt bestehen und sich auch niemals entwickeln. Falls sich ein Markt entwickelt, könnte er nicht liquide sein. Daher könnte es den Anlegern nicht möglich sein, ihre Wertpapiere einfach oder zu Preisen zu veräußern, aus denen sich eine Rendite ergibt, die mit der für ähnliche Anlagen vergleichbar ist, für die sich ein Sekundärmarkt entwickelt hat. Dies gilt insbesondere für Wertpapiere, die besonders anfällig für Zins-, Währungs- oder Marktrisiken, für bestimmte Anlageziele oder -strategien ausgelegt oder so struktuiert sind, dass sie die Anlagebedürfnisse begrenzter Investorengruppen erfüllen. Für diese Arten von Wertpapieren besteht im Allgemeinen in eher begrenzter Sekundärmarkt und eine höhere Preisvolatilität als für traditionelle schuldrechtliche Wertpapiere. Ein Mangel an Liquidität könnte beträchtliche nachteilige Auswirkungen auf den Marktwert der Wertpapiere haben.

Unabhängige Prüfung und Beratung

Jeder potenzielle Anleger muss auf Grundlage seiner eigenen unabhängigen Prüfung und der ihm unter den gegebenen Umständen angemessen erscheinenden professionellen Beratung feststellen, dass der Erwerb der Wertpapiere vollständig seinen finanziellen Bedürfnissen, Zielen und Umständen (oder, falls er die Wertpapiere treuhänderisch erwirbt, denen des Begünstigten) sowie allen auf ihn anwendbaren Anlagegrundsätzen, -leitlinien und -beschränkungen (ungeachtet dessen, ob er die Wertpapiere auf eigene Rechnung oder treuhänderisch erwirbt) entspricht und für ihn (oder, falls er die Wertpapiere treuhänderisch erwirbt, für den Begünstigten) eine geeignete, angemessene und passende Anlage darstellt, und zwar ungeachtet der eindeutigen und erheblichen Risiken, die mit einer Investition in die oder dem Besitz der Wertpapiere einhergehen. Die Emittentin übernimmt keine Verantwortung für die Beratung potenzieller Anleger in Angelegenheiten, die sich nach dem Recht des Landes ergeben, in denen sie jeweils ansässig sind, und die sich auf den Erwerb, den Besitz oder Erhalt von Zahlungen auf oder sonstigen Werten für die Wertpapiere auswirken. Wenn sich ein potenzieller Anleger nicht in geeigneter Weise über eine Investition in die Wertpapiere informiert, geht er das Risiko ein, dass ihm in Verbindung mit seiner Investition Nachteile entstehen.

GENERAL DESCRIPTION OF THE PROGRAMME AND OF THE SECURITIES

General Description of the Programme

The Programme is a Euro 50,000,000,000 Programme for the Issuance of Debt Securities under which LBBW may, from time to time, issue Securities in accordance with and subject to all applicable laws and regulations and denominated in any currency, subject as set out herein. Securities issued under the Programme will not benefit from any state guarantee.

General Description of the Securities

General

The following description is an abstract presentation of the following possible structures of the Securities to be issued under the terms of this Base Prospectus and does not refer to a specific issue of Securities which will be issued under the terms of this Base Prospectus.

The relevant terms and conditions of the Securities, which will govern the relationship between the Issuer and the Holders, are attached to the relevant global note(s) and form an integral part of such global note(s). The form of terms and conditions is set out in the Sections "*Terms and Conditions of the Instruments*", "*Terms and Conditions of the Pfandbriefe in bearer form*", "*Terms and Conditions of the Pfandbriefe in registered form*" or "*Terms and Conditions of German law governed bearer notes*" of this Base Prospectus with regard to Instruments, Pfandbriefe and Notes.

Potential investors should note that information relating to a specific issue of Securities **that is not yet known at the date of this Base Prospectus**, including, but not limited to, the issue price, the date of the issue, the level of the interest rate (if the Securities bear interest), the type of interest payable (if the Securities bear interest), the maturity date and other details significantly affecting the economic assessment of the Securities is not contained in this section of this Base Prospectus but in the relevant Final Terms. **Consequently, the following description does not contain all information relating to the Securities. Any investment decision by an investor should therefore be made only on the basis of full information on the Issuer and on the Securities to be offered which is set out in this Base Prospectus, the relevant Final Terms or Drawdown Prospectus, as the case may be, for such Securities when read together with this Base Prospectus, any supplement thereto and the relevant terms and conditions applicable to the Securities.**

Various categories of potential investors to which the Securities may be offered

Securities may be offered to qualified investors and/or retail investors and/or institutional investors as further specified in the relevant Final Terms.

Issue price of the Securities and Yield

Securities may be issued at an issue price, which is at par or at a discount to, or premium over, par, as stated in the relevant Final Terms. The issue price for Securities to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

The yield for Fixed Rate Securities will be calculated by the use of the ICMA method, which determines the effective interest rate of Securities taking into account accrued interest on a daily basis. The yield is calculated at the issue date of the Securities on the basis of the issue price of the Securities. It is not an indication of future yield.

Interest on the Securities and Redemption of the Securities

The Programme provides for the issue of Securities with the following interest and/or redemption structures:

1. Fixed Rate Securities (including Step-up/Step-down/Step-up and Step-down Securities/Resetable Instruments and Resetable Notes);
2. Floating Rate Securities (including Fixed to Floating Rate Securities and Inverse Floating Rate Securities);
3. Zero Coupon Securities;
4. CMS Spread Securities; and
5. Range Accrual Securities.

Securities will be redeemed at the maturity date at a redemption amount or, in the case of Instalment Instruments, in several instalment amounts on dates, prior to, and including, the maturity date which may not be less than the outstanding principal amount of the Securities. Alternatively, Open End Instruments may be issued which do not provide for a fixed maturity date, but which may be redeemed at the option of the Issuer as specified in the Final Terms.

Should an Early Redemption Event occur in relation to Zero Coupon Instruments or Notes, the Instruments or Notes, as the case may be, might be redeemed prior to their stated maturity. In such case, the redemption amount can be less than the principal amount, but will not be less than the issue price.

Hence, Securities with a derivative component within the meaning of the Prospectus Regulation will not be issued under the Programme.

1. Fixed Rate Securities

In the case of Fixed Rate Securities, the rate of interest on the basis of which periodic interest payments are calculated will be specified before the issue date of the Securities.

Fixed Rate Securities may be issued with one interest rate applicable throughout the entire term of the Securities or more, different interest rates, each applicable during a certain time period during the term. If Fixed Rate Securities are issued with more than one interest rate for different time periods, they may be issued as Step-up or as Step-down Securities or as a combination thereof or in the combination of a classical Fixed Rate Securities over a certain time period and with a step-up or step-down element of interest or a combination of step-up and step-down elements for a succeeding time period or as Resetable Instruments or Resetable Notes. Step-up Securities provide for predetermined fixed rates of interest which increase over the term of the Securities. Step-down Securities provide for predetermined fixed rates of interest which decrease over the term of the Securities. Step-up and Step-down Securities provide for several interest periods, during each of which a predetermined fixed rate of interest will either increase or decrease. Fixed Rate Securities may be issued at an issue price above par and redeemed at par. In such case and if such Fixed Rate Securities bear interest at a low rate or do not bear interest at all the yield of such instruments may be negative. Resetable Instruments or Resetable Notes provide for predetermined fixed rates of interest which upon a call date are reset using a predetermined reference rate for the remainder of the term of the Instruments or the Notes, as the case may be (if the Issuer decides not to redeem such Instruments or Notes, as the case may be, early on such date).

2. Floating Rate Securities

In the case of Floating Rate Securities, the interest rate on the basis of which the amount of interest payable to the Holders is calculated is not specified at the issue date of the Securities. Instead, the rate

at which interest accrues changes over time and only the relevant variable, fluctuating rate on which the rate of interest on the Securities is based and calculated is specified. Floating Rate Securities may be issued with a structure where the interest rate applicable to the Floating Rate Securities is based and calculated on a reference rate such as the EURIBOR[®] or the LIBOR[®] or EONIA[®] (the "**Reference Rate**") or a swap rate such as the constant maturity swap rate ("**CMS**" and the "**CMS Rate**").

Floating Rate Securities may be issued at an issue price above par and redeemed at par. In such case and if such Floating Rate Securities bear interest at a low rate the yield of such instruments may be negative.

Reference Rate

The Reference Rate may be either the EURIBOR[®] or the LIBOR[®] or EONIA[®].

Euro Interbank Offered Rate (EURIBOR[®]) is a daily interest rate at which Eurozone banks offer to lend unsecured funds to other banks for a term of 1 and 2 weeks and on a monthly basis for a term of 1 month and 2, 3, 6 and 12 months.

London Interbank Offered Rate (LIBOR[®]) is an interest rate at which banks of the London market offer to lend unsecured funds to other banks in the London market to be determined on a daily basis for a term of 1 and 2 weeks and on a monthly basis for a term of 1 month and 2, 3, 6 and 12 months.

Each reference rate reflects the normal terms currently applying on the capital market for raising funds in the form of debt capital for a period of between 1 and 2 weeks and 1 and 2, 3, 6 and 12 months.

Euro OverNight Index Average (EONIA[®]) is an effective overnight interest rate computed as a weighted average of all overnight unsecured lending transactions in the Eurozone market. Such overnight interest rates will be averaged out over the duration of the relevant interest period.

CMS Rate

The CMS Rate is the CMS (constant maturity swap) which is an interest rate swap where the interest rate on one leg is reset periodically, but with reference to a market swap rate rather than EURIBOR[®]. The other leg of the swap is EURIBOR[®] but may be a fixed rate or potentially another constant maturity swap.

Additional features of Floating Rate Securities

Floating Rate Securities are linked to a Reference Rate or a CMS Rate, as the case may be, and the rate of interest may be calculated in accordance with one or more of the following variants:

- (i) the Reference Rate or the CMS Rate represents the rate of interest applicable to the Securities on a one to one basis; or
- (ii) a fixed rate of interest (margin) is added (premium) to the Reference Rate or the CMS Rate, depending on the credit rating of the Issuer, the maturity of the Securities and the interest rates currently applying on the capital market for raising debt capital, i.e. the Reference Rate or the CMS Rate and the premium together produce the rate of interest applicable to the Securities ("**Floating Rate Securities with an Interest Premium**"); or
- (iii) a fixed rate of interest (margin) is deducted (discount) from the Reference Rate or CMS Rate depending on the maturity of the Securities and the interest rates currently applying on the capital market for raising debt capital, i.e. the Reference Rate or the CMS Rate after deducting the discount produces the rate of interest applicable to the Securities ("**Floating Rate Securities with an Interest Discount**"); or

- (iv) the rate of interest based on the Reference Rate or the CMS Rate is multiplied with a factor, i.e. the Reference Rate or the CMS Rate multiplied with the factor produce the rate of interest applicable to the Securities ("**Floating Rate Securities with a factor**"); or
- (v) prior to the term of the floating rate term the Securities provide for one or more fixed rate interest period(s) which are connected upstream to the floating rate interest periods, i.e. the Securities first provide for interest payments based on a fixed rate of interest and after completion of such fixed rate interest period(s), the Securities provide for interest payments based on a floating rate of interest which may be structured as (i) through (iv) above ("**Fixed to Floating Rate Securities**"); or
- (vi) the rate of interest applicable to the Securities is calculated on the basis of a fixed rate of interest from which a rate based upon a Reference Rate or a CMS Rate is deducted, i.e. the fixed rate of interest after deducting the Reference Rate or the CMS Rate produces the rate of interest applicable to the Securities ("**Inverse Floating Rate Securities**").

The interest rate calculated may be subject to the following modifications:

- (i) the rate of interest based on the Reference Rate or the CMS Rate is limited to a lower minimum interest rate determined in advance (minimum rate of interest or "**Floor**"), i.e. even if the Reference Rate or the CMS Rate (or the interest rate based thereon) were to be lower than the Floor, the Floor would be applicable to the Securities for the relevant interest period or the whole term of the Securities ("**Floating Rate Securities with a Floor**"); or
- (ii) the rate of interest based on the Reference Rate or the CMS Rate is limited to an upper maximum interest rate determined in advance (maximum rate of interest or "**Cap**"), i.e. even if the Reference Rate or the CMS Rate (or the interest rate based thereon) were to be higher than the Cap, the Cap would be applicable to the Securities for the relevant interest period or the whole term of the Securities ("**Floating Rate Securities with a Cap**"); or
- (iii) the rate of interest based on the Reference Rate or the CMS Rate is limited to a lower minimum interest rate determined in advance (minimum rate of interest or "**Floor**") and an upper maximum interest rate determined in advance (maximum rate of interest or "**Cap**"), i.e. even if the Reference Rate or the CMS Rate (or the interest rate based thereon) were to be lower than the Floor, the Floor would be applicable to the Securities for the relevant interest period or the whole term of the Securities or even if the Reference Rate or the CMS Rate (or the interest rate based thereon) were to be higher than the Cap, the Cap would be applicable to the Securities for the relevant interest period or the whole term of the Securities ("**Floating Rate Securities with a Floor and a Cap**").

3. Zero Coupon Securities

Zero Coupon Securities are Securities with no periodic payment of interest. Return on Zero Coupon Securities occurs as a one-time payment at maturity in the form of a redemption amount that is higher than the issue price.

4. CMS Spread Securities

CMS Spread Securities provide for a variable interest rate (except for a possible agreed fixed rate payable to the extent provided for in the Terms and Conditions of the Securities) which is dependent on the difference between CMS Rates having different terms or being fixed on different dates. The rate of interest applicable to the Securities, as the case may be, is calculated on the basis of a CMS Rate from which another CMS Rate is deducted.

CMS Spread Securities may be issued with one of the variant set out above under item (iv) and (v) or one of the modifications set out above under item (i), (ii) and (iii) in paragraph "2. Floating Rate Securities – Additional features of Floating Rate Securities".

5. Range Accrual Securities

Range Accrual Securities provide for the interest payable (except for a possible agreed fixed rate payable to the extent provided for in the Terms and Conditions of the Securities) to be dependent on the number of days during which the CMS Rate or the Reference Rate is above, below and/or equal to a predetermined percentage rate or is within a certain interest trigger range.

Range Accrual Securities may be issued with one of the variants set out above under item (iv) and (v) or one of the modifications set out above under item (i), (ii) and (iii) in paragraph "2. Floating Rate Securities – Additional features of Floating Rate Securities".

Due dates for interest payments and calculation of the amount of interest (except for Zero Coupon Securities)

Interest payments may be made monthly, quarterly, semi-annually or annually. The amount of interest payable in respect of the Securities is calculated by applying the relevant interest rate for the interest period concerned and the day count fraction to the par value of the Securities.

Redemption of the Securities at maturity

Securities issued under the terms of this Base Prospectus have a maturity which is determined at the issue date. Prior to the issue date of the Securities, the Issuer determines the maturity date on which it is obliged to redeem the Securities.

Early redemption of the Securities

Optional rights of early redemption

The Terms and Conditions of the Securities may provide for the following rights of early termination at the option of the Issuer and/or the Holder:

- (i) Early redemption at the option of the Issuer: right of early termination of the Issuer (which is, in relation to the Subordinated Instruments or the Subordinated Notes, as the case may be, subject to the prior permission by the competent authority) at predetermined early redemption dates at predetermined early redemption amount(s).
- (ii) Early redemption at the option of the Holder (not applicable with regard to Pfandbriefe and Subordinated Instruments and Subordinated Notes): right of early termination of the Holder at predetermined early redemption dates at predetermined early redemption amount(s).
- (iii) Tax call (not applicable with regard to Pfandbriefe): right of early redemption of the Issuer (which is, in relation to the Subordinated Instruments and the Subordinated Notes, subject to the prior permission by the competent regulatory authority) for reasons of taxation in case of a result of any change in, or amendment to relevant tax laws and regulations as further specified in the Terms and Conditions of the Instruments or in the Terms and Conditions of the Notes.
- (iv) Regulatory call (only applicable with regard to Subordinated Instruments and Subordinated Notes): right of early redemption of the Issuer subject to the prior permission (if required) of the competent regulatory authority for regulatory reasons in case that the Issuer may not or will not be allowed to fully count the Subordinated

Instruments or the Subordinated Notes, as the case may be, as Tier 2 capital for the purposes of own funds requirements in accordance with the applicable Own Funds Provisions, for reasons other than the amortisation in accordance with the Own Funds Provisions (including, but not limited to, Article 64 CRR) or in case the Subordinated Instruments or the Subordinated Notes, as the case may be, are in any other way subject to a less favourable regulatory capital treatment than on the issue date.

- (v) Call for hedging events (not applicable with regard to Pfandbriefe, Subordinated Instruments and Notes): right of early redemption of the Issuer for reasons of a hedging event, i.e. a hedging disruption, increased cost of hedging or a change in law in relation to a hedging transaction as further specified in the Terms and Conditions of the Instruments.

Non optional rights of early redemption

Furthermore, the Terms and Conditions of the Instruments and the Terms and Conditions of the Notes provide for a right of early termination by a Holder due to the occurrence of an event of default as further specified in the Terms and Conditions of the Instruments (except for Subordinated Instruments) or in the Terms and Conditions of the Notes (except for Subordinated Notes), as the case may be. Events of default comprise aspects such as a default with regard to the payment of interest (except for Zero Coupon Instruments and Zero Coupon Notes) and/or principal, failure by the Issuer to perform any other obligation under the Instruments or Notes (other than Subordinated Instruments and Subordinated Notes) or the Trust Deed (in the case of Instruments) or a law is enacted for the dissolution or winding-up of the Issuer.

The Terms and Conditions of the Instruments and the Terms and Conditions of the Notes do not provide for any cross default clause.

Except for discounted Zero Coupon Securities, any early redemption amount applicable to the Securities will not be less than the nominal amount of the Securities. With respect to discounted Zero Coupon Securities, an early redemption amount may be less than the nominal amount of the Securities but may not be less than the amount invested in such discounted Zero Coupon Securities. Hence, Securities with a derivative component within the meaning of the Prospectus Regulation will not be issued under the Programme.

Further Issues, Purchase and Cancellation

The Issuer may from time to time, without the consent of the Holders, issue further Securities having the same terms and conditions as the Securities in all respects (or in all respects except for the issue date, interest commencement date and/or issue price) so as to form a single series with the Securities.

The Issuer may (except as otherwise provided for) at any time purchase Securities in the open market or otherwise and at any price. Securities purchased by the Issuer may, at the option of the Issuer, be held, resold or surrendered to the Fiscal Agent for cancellation. If purchases are made by tender, tenders for such Securities must be made available to all Holders of such Securities alike.

All Securities redeemed in full shall be cancelled forthwith and may not be reissued or resold.

Minimum Denomination of the Securities

The minimum denomination of Securities issued under the Programme is EUR 1,000 or the equivalent amount in another currency.

Currency of the Securities

Securities may be issued in any currency as determined by the Issuer subject to applicable laws and regulations.

Status and ranking of Instruments

Unsubordinated Instruments

The obligations under the Instruments constitute unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer save for certain exemptions provided by law.

Subordinated Instruments

The obligations under the Subordinated Instruments constitute unsecured and subordinated obligations of the Issuer, ranking (i) *pari passu* among themselves; and (ii) *pari passu* with all other unsecured subordinated obligations of the Issuer (except for subordinated liabilities expressed to rank junior to the Subordinated Instruments), unless such other obligations take priority by mandatory provisions of law or the terms of such subordinated Instruments.

The Subordinated Instruments are intended to qualify as Tier 2 capital (*Ergänzungskapital*) of the Issuer. In the event of the dissolution, liquidation, insolvency, composition or any proceeding for the avoidance of insolvency, of or against the Issuer, the obligations under or in connection with the subordinated Instruments will be wholly subordinated to the claims of all unsubordinated creditors of the Issuer so that in any such event no amounts shall be payable under such obligations until the claims of all unsubordinated creditors of the Issuer shall have been satisfied in full. Further, claims under or in connection with the subordinated Instruments are exposed to the particular risks relating to resolution measures (and therefore already prior to an insolvency of the Issuer or similar aforementioned proceeding) under the BRRD, SAG and the SRM Regulation.

Status and ranking of Pfandbriefe

The obligations under the Pfandbriefe constitute unsubordinated obligations of the Issuer ranking *pari passu* among themselves. The Pfandbriefe are covered in accordance with the Pfandbrief Act (*Pfandbriefgesetz*) and each class of Pfandbriefe ranks at least *pari passu* with all other obligations of the Issuer under mortgage covered Pfandbriefe (*Hypothekenpfandbriefe*) (in the case of mortgage covered Pfandbriefe) and public sector Pfandbriefe (*Öffentliche Pfandbriefe*) (in the case of public sector Pfandbriefe).

Status and ranking of Notes

Unsubordinated Notes

The obligations under the Notes constitute unsecured and unsubordinated obligations of the Issuer ranking *pari passu* among themselves and *pari passu* with all other unsecured and unsubordinated obligations of the Issuer, unless otherwise provided by mandatory provisions of law.

Subordinated Notes

The Subordinated Notes are intended to be available for the Issuer as eligible own funds instruments in the form of Tier 2 capital (*Ergänzungskapital*). In the event of the dissolution, liquidation, insolvency, composition or other proceedings for the avoidance of insolvency, of or against the Issuer, the obligations under the Notes will be wholly subordinated to the claims of third party creditors of the Issuer arising from unsubordinated obligations so that in any such event no amounts shall be payable in respect of the Notes until the claims of all such other third party creditors of the Issuer

arising from unsubordinated obligations shall have been satisfied in full. Further, claims under or in connection with the subordinated Notes are exposed to the particular risks relating to resolution measures (and therefore already prior to an insolvency of the Issuer or similar aforementioned proceeding) under the BRRD, SAG and the SRM Regulation.

Form of Securities

The Instruments are represented by the issue of one or more global note(s) in bearer form or in registered form. Instruments in definitive form will only be issued for bearer Instruments.

The Pfandbriefe are represented by the issue of one or more global note(s) in bearer form or in registered form. Pfandbriefe in definitive form will not be issued.

The Notes are represented by the issue of one or more global note(s) in bearer form. Notes in definitive form will not be issued.

Negative Pledge

The Terms and Conditions of the Securities do not provide for any negative pledge clause.

Governing law, place of performance, jurisdiction and limitation period

The Instruments, as to form and content, all other documentation and all rights and obligations of the Holders and the Issuer, shall be governed by English law.

The Pfandbriefe and the Notes, as to form and content, all other documentation and all rights and obligations of the Holders and the Issuer, shall be governed by German law.

The courts of England shall have jurisdiction for any action or other legal proceedings arising out of or in connection with the Instruments.

The District Court (*Landgericht*) in Stuttgart shall have non-exclusive jurisdiction for any action or other legal proceedings arising out of or in connection with the Pfandbriefe and the Notes.

The presentation period provided in § 801 paragraph 1, sentence 1 German Civil Code (*Bürgerliches Gesetzbuch*) is reduced to ten years for the Pfandbriefe and the Notes. If presentation occurs, the claim prescribes within two years from the end of the presentation period.

Claims under the Instruments against the Issuer in respect of principal will become void unless made within ten years (or, in the case of interest, five years).

FORMS OF THE SECURITIES

Instruments of each Series will be in bearer form or in registered form.

Registered Form Instruments

Unless otherwise provided with respect to a particular Series of Registered Instruments, the Registered Instruments of each Tranche of such Series offered and sold in reliance on Regulation S, which will be sold outside the United States to persons that are not U.S. persons, will initially be represented by an Unrestricted Global Registered Instrument which will be registered in the name of a nominee of, and will be deposited with a common safekeeper for, and in respect of interests held through, Euroclear and Clearstream, Luxembourg. With respect to all offers or sales by a Dealer of an unsold allotment or subscription and in any case prior to expiry of the Distribution Compliance Period (as defined under "*Terms and Conditions of the Instruments*" below) applicable to a Tranche of Instruments, beneficial interests in an Unrestricted Global Registered Instrument relating to such Tranche may not be offered or sold in the United States or to, or for the account or benefit of, a U.S. person (save as otherwise provided in Condition 2) and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Unrestricted Global Registered Instrument will bear a legend regarding such restrictions on transfer. Unrestricted Global Registered Instruments will be exchangeable for Definitive Registered Instruments only in the limited circumstances as more fully described herein.

Registered Instruments of each Tranche may only be offered and sold in the United States or to U.S. persons in private transactions to QIBs pursuant to Rule 144A who agree to purchase the Instruments for their own account or for the account of a QIB over which they exercise sole investment discretion and not with a view to the distribution thereof. The Registered Instruments of each Tranche sold to QIBs will be represented by a Restricted Global Registered Instrument which will be deposited with a custodian for, and registered in the name of Cede & Co as nominee for, DTC, except in the case of Restricted Global Registered Instrument that is a new safekeeping structure ("NSS") Global Registered Instrument, will be registered in the name of a nominee of, and will be deposited with a common safekeeper for, and in respect of interests held through, Euroclear and Clearstream, Luxembourg.

Persons holding beneficial interests in Registered Global Instruments will be entitled or required, as the case may be, under the circumstances described in Condition 2, to receive physical delivery of Definitive Registered Instruments.

Bearer Form Instruments

Each Tranche of Instruments issued in bearer form may be in the form of either a Temporary Global Instrument or a Permanent Global Instrument, in each case as specified in the relevant Final Terms or Drawdown Prospectus, as the case may be. Each global Instrument which is not intended to be issued in new global instrument ("NGI") form, as specified in the relevant Final Terms or Drawdown Prospectus, as the case may be, will be deposited on or around the relevant issue date thereof with a common depository for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and each global Instrument which is intended to be issued in NGI form, as specified in the relevant Final Terms or Drawdown Prospectus, as the case may be, will be deposited on or around the issue date of the relevant Tranche of Instruments with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. LBBW, acting through its New York branch, shall not issue any Instruments in bearer form.

On 13 June 2006, the European Central Bank ("ECB") announced that Instruments in NGI form are in compliance with the "Standards for the use of EU securities settlement systems in ESCB credit operations" of the central banking system for the euro (the "**Eurosystem**"), *provided that* certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Instruments in NGI form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after

31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGI form is used.

Each Temporary Global Instrument will be exchangeable for interests in a Permanent Global Instrument in CGI form or NGI form, as appropriate, or, if so specified in the relevant Final Terms or Drawdown Prospectus, as the case may be, for Instruments in definitive bearer form. Any interest in an Instrument in global form will be transferable only in accordance with the rules and procedures of the relevant clearing system or systems. Each Permanent Global Instrument will be exchangeable for definitive Instruments in accordance with its terms. Instruments in definitive bearer form will, if interest-bearing, have interest coupons and, if so specified, a Talon attached and will, if the principal thereof is repayable by installments, have a grid for recording the payment of principal endorsed thereon.

All interest on any Bearer Instrument (including any Talon attached thereto) will only be payable outside of the United States or its possessions.

Issue of further Tranches

Pursuant to the Paying Agency Agreement (as defined under "*Terms and Conditions of the Instruments*" below) the Principal Paying Agent shall arrange that, where a further Tranche of Instruments is issued, the Instruments of such Tranche shall be assigned, in the case of Restricted Global Registered Instruments, a CUSIP number, and, in the case of Bearer Instruments and Unrestricted Global Registered Instruments, a CINS number, a common code and ISIN, which are different from the CUSIP number, CINS number, common code and ISIN assigned to Instruments of any other Tranche of the same Series until the end of the Distribution Compliance Period. At the end of the Distribution Compliance Period, the CUSIP number, CINS number, common code and ISIN, as the case may be, thereafter applicable to the Instruments of the relevant Series will be notified by the Principal Paying Agent to the relevant Dealer.

Holders of Instruments, Limitations on Transfer

For so long as any of the Instruments is represented by a Global Bearer Instrument or an Unrestricted Global Registered Instrument deposited with a common depositary or, as the case may be, a common safekeeper for Euroclear and Clearstream, Luxembourg or so long as DTC or its nominee is the registered holder of a Restricted Global Registered Instrument, each person who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg or, as the case may be, DTC as entitled to a particular nominal amount of Instruments (in which regard any certificate or other document issued by Euroclear, Clearstream, Luxembourg or DTC or its nominee as to the nominal amount of Instruments standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be deemed to be the holder of such nominal amount of such Instruments for all purposes other than with respect to the payment of principal or interest on the Instruments for which purpose such common depositary, common safekeeper, DTC or its nominee shall be deemed to be the holder of such nominal amount of such Instruments in accordance with and subject to the terms of the relevant global Instrument (and the expression "Holder" and related expressions shall be construed accordingly).

No beneficial owner of an interest in a Registered Global Instrument will be able to exchange or transfer that interest except in accordance with the applicable procedures of Euroclear, Clearstream, Luxembourg and DTC, in each case to the extent applicable.

The following legend will appear on all Bearer Instruments, Coupons and Talons:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

Subject to the following sentence, Pfandbriefe will be in bearer form and will be issued as a single bearer global note. Pfandbriefe which shall be placed in the United States of America under Rule 144A or in another transaction exempt from the registration requirements under the Securities Act and cleared through DTC, shall be issued in registered form.

FINAL TERMS AND DRAWDOWN PROSPECTUSES

In this section the expression "necessary information" means, in relation to any Tranche of Securities, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and of the rights attaching to the Securities. In relation to the different types of Securities which may be issued under the Programme, the Issuer has endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Securities which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Securities.

Any information relating to the Securities which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Securities may be contained either in the relevant Final Terms or in a Drawdown Prospectus. Such information will be contained in the relevant Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Securities, may be contained in a Drawdown Prospectus (or may be contained in any other document in a manner permitted under the Prospectus Directive).

For a Tranche of Securities which is the subject of Final Terms, this Base Prospectus must be read in conjunction with such Final Terms. The terms and conditions applicable to any particular Tranche of Securities which is the subject of Final Terms are the Terms and Conditions as completed by the relevant Final Terms.

The terms and conditions applicable to any particular Tranche of Securities which is the subject of a Drawdown Prospectus will be the Terms and Conditions as amended, completed and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Securities which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the Issuer and the relevant Securities or (2) by a registration document (the "**Registration Document**") containing the necessary information relating to the Issuer, a securities note (the "Securities Note") containing the necessary information relating to the relevant Securities and, if necessary, a summary note. In addition, if the Drawdown Prospectus is constituted by a Registration Document and a Securities Note, any significant new factor, material mistake or inaccuracy relating to the information included in the Registration Document which arises or is noted between the date of the Registration Document and the date of the Securities Note which is capable of affecting the assessment of the relevant Securities will be included in the Securities Note.

The Instruments are constituted by a trust deed (the "**Trust Deed**" which expression shall include any amendments or supplements thereto or any amendment and restatement thereof) dated 28 April 2017 and made between Landesbank Baden-Württemberg, acting through its head office or its branches in London or Singapore or New York¹ (as specified in the relevant Final Terms or the Drawdown Prospectus, as the case may be) ("**LBBW**" or the "**Issuer**") and Deutsche Trustee Company Limited (the "**Trustee**"). The Instruments will be the subject of an amended and restated agency agreement (the "**Paying Agency Agreement**", which expression shall include any amendments or supplements thereto or any amendment and restatement or novation thereof) dated 28 April 2017 and made between the Issuer and Citibank, N.A., London Branch as principal paying agent (the "**Principal Paying Agent**", which expression shall include any successor to Citibank, N.A., London Branch in its capacity as such) and as principal registrar (the "**Principal Registrar**", which expression shall include any successor to Citibank, N.A., London Branch in its capacity as such), The Bank of New York Mellon SA/NV, Luxembourg Branch in its capacity as first alternative registrar (the "**First Alternative Registrar**", which expression shall include any successor to The Bank of New York Mellon SA/NV, Luxembourg Branch in its capacity as such) and Citibank, N.A., New York Office in its capacity as second alternative registrar (the "**Second Alternative Registrar**", which expression shall include any successor to Citibank, N.A., New York Office in its capacity as such) (each, a "**Registrar**", and together the "**Registrars**") and the paying agents named therein (the "**Paying Agents**", which expression shall include the Principal Paying Agent and any substitute or additional paying agents appointed in accordance with the Paying Agency Agreement). Copies of the Trust Deed and the Paying Agency Agreement are available for inspection at the specified office of each of the Trustee, the Paying Agents, the Principal Registrar, the First Alternative Registrar and the Second Alternative Registrar. All persons from time to time entitled to the benefit of obligations under any Instruments shall be deemed to have notice of, and shall be bound by, all of the provisions of the Trust Deed and the Paying Agency Agreement insofar as they relate to the relevant Instruments.

The Instruments are issued in series (each, a "**Series**"), and each Series may comprise one or more tranches ("**Tranches**" and each a "**Tranche**") of Instruments. Each Tranche will be the subject of final terms (each, a "**Final Terms**") or a drawdown prospectus (each, a "**Drawdown Prospectus**"). A copy of the Final Terms in respect of any Tranche, in relation to which application has been made for admission to listing on the official list of the Luxembourg Stock Exchange and to trading on the regulated market (*Bourse de Luxembourg*) of the Luxembourg Stock Exchange (the "**Regulated Market**"), will be filed with the Luxembourg *Commission de Surveillance du Secteur Financier* and be available at the specified office of the Paying Agent in Luxembourg. 1. Form and Denomination

1.01 Instruments are issued in bearer form ("**Bearer Instruments**") or in registered form ("**Registered Instruments**"), as specified in the relevant Final Terms. Bearer Instruments will not be exchangeable for Registered Instruments, and Registered Instruments will not be exchangeable for Bearer Instruments. No single Series or Tranche may comprise both Bearer Instruments and Registered Instruments.

Each issue of Instruments may be represented by (i) Bearer Instruments or (ii) Registered Instruments, as indicated in the Final Terms (in the relevant form scheduled to the Trust Deed).

If indicated in the relevant Final Terms, any Instruments issued from time to time may be intended to be held in a manner which will allow Eurosystem eligibility. This simply means that such Instruments are intended to be issued in Eurosystem-eligible NGI form or Eurosystem eligible NSSGRI form, respectively (as the case may be), in each case deposited with a Common Safekeeper and does not necessarily mean that the Instruments will be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

Form of Bearer Instruments

TEFRA D

1.02 If this Condition 1.02 is specified in the relevant Final Terms as being applicable, each Tranche of Bearer Instruments will be represented upon issue by a temporary global instrument (a "**Temporary Global Instrument**") in substantially the form (subject to amendment and completion) of the First Schedule, Part A to the Trust Deed, or, in the case of Instruments denominated in Swiss francs or to be deposited with Clearstream Banking AG, Frankfurt, by a global instrument (a "**Global Instrument**") in substantially the form (subject to amendment and completion) of the First Schedule, Part B to the Trust Deed or the First Schedule, Part C to the Trust Deed (as the case may be). On or after the date (the "**Exchange Date**") which is forty days after the completion of the distribution of the Instruments of the relevant Tranche and provided certification as to the beneficial ownership thereof as required by U.S. Treasury regulations (in substantially the form set out in the Temporary Global Instrument) has been received, interests in the Temporary Global Instrument may be exchanged for:

- (i) interests in a permanent global instrument (a "**Permanent Global Instrument**") representing the Instruments of that Tranche and in substantially the form (subject to amendment and completion) scheduled to the Trust Deed; or
- (ii) if so specified in the relevant Final Terms, definitive bearer instruments ("**Definitive Instruments**") in substantially the form (subject to amendment and completion) scheduled to the Trust Deed.

Each exchange of an interest in a Temporary Global Instrument for an interest in a Permanent Global Instrument or for a Definitive Instrument, and each exchange of an interest in a Permanent Global Instrument or a Global Instrument for a Definitive Instrument shall be made outside the United States.

1.03 If any date on which a payment of interest is due on the Instruments of a Tranche occurs whilst any of the Instruments of that Tranche are represented by a Temporary Global Instrument, the related interest payment will be made on the Temporary Global Instrument only to the extent that certification as to the beneficial ownership thereof as required by U.S. Treasury regulations (in substantially the form set out in the Temporary Global Instrument or such other form as may replace it) has been received by Euroclear Bank SA/NV ("**Euroclear**"), Clearstream Banking, SA ("**Clearstream, Luxembourg**"), or any other relevant clearing system. Payments of principal or interest (if any) on a Global Instrument will be made through the relevant clearing system without any requirement for certification. Payments of principal or interest (if any) on a Permanent Global Instrument will be made outside the United States or its possessions through the relevant clearing system without any requirement for certification.

TEFRA C

1.04 If this Condition 1.04 is specified in the relevant Final Terms as being applicable, each Tranche of Bearer Instruments will be represented upon issue by a permanent global note in substantially the form (subject to amendment and completion) of the First Schedule, Part A to the Trust Deed, or, in the case of Instruments denominated in Swiss francs or to be deposited with Clearstream Banking AG, Frankfurt, by a global instrument (a "**Global Instrument**") in substantially the form (subject to amendment and completion) of the First Schedule, Part B to the Trust Deed or the First Schedule, Part C to the Trust Deed (as the case may be).

1.05 Interests in a Temporary Global Instrument, Permanent Global Instrument or in a Global Instrument will be exchangeable for Definitive Instruments (a) if any Instrument of the relevant Series becomes due and repayable following a Default (as defined in Condition 6); or (b) if either Euroclear or Clearstream, Luxembourg, as the case may be, or any other relevant clearing system should be closed for business for a continuous period of fourteen days (other than by reason of public holidays) or should announce an intention permanently to cease business.

1.06 Interest-bearing Definitive Instruments will, if so specified in the relevant Final Terms, have endorsed thereon a grid for the recording of the payment of interest or have attached thereto at the time of their initial delivery coupons ("**Coupons**"), presentation of which outside the United States or its possessions will be a prerequisite to the payment of interest in certain circumstances specified below. Interest-bearing Definitive Instruments if specified in the relevant Final Terms as having Coupons attached will also, if so specified in the relevant Final Terms and shall, in the case of such Open End Instruments (as defined in Condition 5.02) or long dated Instruments, have attached thereto at the time of their initial delivery, a talon ("**Talon**") for further coupons and the expression "**Coupons**" shall, where the context so requires, include Talons.

1.07 Instruments, the principal amount of which is repayable by instalments ("**Instalment Instruments**") which are Definitive Instruments or Registered Instruments, will have endorsed thereon a grid for recording the repayment of principal.

Form of Registered Instruments

1.08 Unless otherwise provided in the applicable Final Terms with respect to a particular Series of Registered Instruments, Registered Instruments of each Tranche sold outside the United States in reliance on Regulation S ("**Regulation S**") under the United States Securities Act of 1933, as amended (the "**Securities Act**") will be represented by a permanent global Registered Instrument without Coupons or Talons (each an "**Unrestricted Global Registered Instrument**"), in substantially the form (subject to amendment and completion) of Schedule 4, Part A to the Trust Deed, which will be registered in the name of a nominee for, and will be deposited with a common safekeeper for, and in respect of interests held through, Euroclear

and Clearstream, Luxembourg. Instruments in definitive registered form ("**Unrestricted Definitive Registered Instruments**") issued in exchange for Unrestricted Global Registered Instruments or otherwise sold or transferred in reliance on Regulation S under the Securities Act, together with the Unrestricted Global Registered Instruments, are referred to herein as "Unrestricted Instruments". With respect to all offers or sales of an unsold allotment or subscription and in any case prior to expiry of the period that ends 40 days after the later of the relevant Issue Date and completion of the distribution of each Tranche of Instruments, as certified by the relevant Dealer, in the case of a non-syndicated issue, or by the Lead Manager, in the case of a syndicated issue (the "**Distribution Compliance Period**"), beneficial interests in an Unrestricted Global Registered Instrument may not be offered or sold in the United States or to, or for the account or benefit of, a U.S. person (save as otherwise provided in Condition 2) and may be held only through Euroclear or Clearstream, Luxembourg. After the expiry of such Distribution Compliance Period, beneficial interests in an Unrestricted Global Instrument, other than a NSS Global Registered Instrument, may be held through The Depository Trust Company ("**DTC**") directly by a participant in DTC or indirectly through a participant in DTC.

- 1.09** Registered Instruments of each Tranche, other than NSS Global Registered Instruments, sold in private transactions in reliance upon Rule 144A under the Securities Act to qualified institutional buyers within the meaning of Rule 144A under the Securities Act ("**QIBs**") will, unless otherwise specified in the applicable Final Terms, be represented by a permanent global Registered Instrument, without Receipts, Coupons or Talons (each, a "**Restricted Global Registered Instrument**" and, together with any Unrestricted Global Registered Instrument, the "**Registered Global Instruments**") in substantially the form (subject to amendment and completion) of Schedule 4, Part A to the Trust Deed, deposited with a custodian for, and registered in the name of a nominee for DTC. Instruments in definitive form ("**Restricted Definitive Registered Instruments**" and, together with Unrestricted Definitive Registered Instruments, the "**Definitive Registered Instruments**") issued in exchange for Restricted Global Registered Instruments or otherwise sold or transferred in accordance with the requirements of Rule 144A under the Securities Act, together with the Restricted Global Instruments, are referred to herein as "Restricted Instruments".

NSS Global Registered Instruments sold to QIBs in the United States in reliance on Rule 144A under the Securities Act will be represented by a Restricted Global Registered Instrument. NSS Global Registered Instruments sold to investors outside the United States in reliance on Regulation S under the Securities Act will be represented by an Unrestricted Global Registered Instrument. Both the Unrestricted Global Registered Instrument and the Restricted Global Registered Instrument will be deposited with, and registered in the name of a nominee for, a common safekeeper for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking, SA ("**Clearstream, Luxembourg**").

Ownership of beneficial interests in the Unrestricted Global Registered Instrument and the Restricted Global Registered Instrument will be limited to Persons that have accounts with Euroclear or Clearstream, Luxembourg or Persons that may hold interests through such participants. Beneficial interests in the NSS Global Registered Instrument will be shown on, and transfers thereof will be effected through, records maintained in book entry form by Euroclear, Clearstream, Luxembourg and their participants.

- 1.10** Restricted Instruments shall bear a legend specifying certain restrictions on transfer (each, a "**Legend**"). Upon the transfer, exchange or replacement of Restricted Instruments, or upon specific request for removal of a Legend, the Registrar shall (save as provided in Condition 2.07) deliver only Restricted Instruments or refuse to remove such Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that

neither the Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

- 1.11** Subject as otherwise provided in Condition 2, Definitive Registered Instruments may be exchanged or transferred in whole or in part in the Specified Denominations (as defined in the relevant Final Terms) for one or more Definitive Registered Instruments of like aggregate nominal amount.
- 1.12** Each Definitive Registered Instrument will be numbered serially with an identifying number which will be recorded in the register (the "**Register**") which the Issuer shall procure to be kept by the Registrar.

Denominations

- 1.13** Instruments are issued in the Specified Denomination(s) set out in the applicable Final Terms which, in the case of Registered Instruments sold other than pursuant to Regulation S, shall be the Authorised Denomination (as defined below) and, in the case of Registered Instruments having a maturity of 183 days or less, shall be at least U.S.\$500,000 (or the equivalent in any other currency or currencies).

"**Authorised Denomination**" means in the case of a Restricted Global Registered Instrument, U.S.\$100,000 (or its equivalent rounded upwards as specified in the relevant Final Terms) and higher integral multiples of U.S.\$1,000, or such higher denomination or denominations specified in the applicable Final Terms.

- 1.14** Any minimum Authorised Denomination required by any law or directive or regulatory authority in respect of the currency of issue of any Instrument shall be such as applied on or prior to the date of issue of such Instrument.

Currency of Instruments

- 1.15** Instruments may be denominated in any currency subject to compliance with all applicable legal or regulatory requirements.

References to "Instruments"

- 1.16** For the purposes of these Terms and Conditions, references to "**Instruments**" shall, as the context may require, be deemed to be to Temporary Global Instruments, Global Instruments, Permanent Global Instruments, Definitive Instruments or, as the case may be, Registered Instruments.

2. Title

- 2.01** Subject as set out below, title to Bearer Instruments, Receipts, Coupons and Talons will pass by delivery and references herein to "**Holder**s" of Bearer Instruments, Receipts, Coupons and Talons are to the bearers of such Bearer Instruments, Receipts, Coupons and Talons.

- 2.02** Title to Registered Instruments will pass upon registration of transfers in the books of the Registrar. References herein to the "**Holder**s" of Registered Instruments are to the persons in whose names such Registered Instruments are so registered in such books, subject as provided below. The Issuer, the Trustee, the Principal Paying Agent, any Paying Agent, and the Registrar may deem and treat the bearer of any Bearer Instrument, Receipt or Coupon and any person in whose name a Registered Instrument is registered as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any global Instrument, without prejudice to the provisions set out in the next succeeding paragraph.

2.03 For so long as any of the Bearer Instruments is represented by a bearer global Instrument held by a common depository on behalf of Euroclear and/or Clearstream, Luxembourg or common safekeeper, as the case may be, or for so long as the common depository or its nominee or, as the case may be, DTC or its nominee is the registered holder of a Registered Global Instrument, each person (other than Euroclear, Clearstream, Luxembourg or, as the case may be, DTC) who is for the time being shown in the records of Euroclear, Clearstream, Luxembourg or, as the case may be, DTC, as the holder of a particular nominal amount of such Instruments (in which regard any certificate or other document issued by Euroclear, Clearstream, Luxembourg or, as the case may be, DTC, as to the nominal amount of such Instruments standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Trustee, any Paying Agent and the Registrar as the Holder of such nominal amount of such Instruments for all purposes other than with respect to the payment of principal or interest on the Instruments for which purpose the bearer of the relevant Global Instrument shall be treated by the Issuer, the Trustee, any Paying Agent and the Registrar as the holder of such Instruments in accordance with and subject to the terms of the relevant global Instrument (and expression "Holder" and related expressions shall be construed accordingly). Instruments which are represented by a global Instrument will be transferable only in accordance with the rules and procedures for the time being of Euroclear, Clearstream, Luxembourg and DTC, as the case may be.

References to Euroclear, Clearstream, Luxembourg and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer, the relevant Dealer and the Principal Paying Agent and specified in the applicable Final Terms.

Exchange and Transfer of Registered Instruments

Exchange of interests in Registered Global Instruments for Definitive Registered Instruments

2.04 Interests in any Registered Global Instrument will be exchangeable for Definitive Registered Instruments, if (i) Euroclear and/or Clearstream, Luxembourg or DTC, as the case may be, notifies the Issuer that it is unwilling or unable to continue as depository for such Registered Global Instrument, (ii) if applicable, DTC ceases to be a "Clearing Agency" registered under the United States Securities Exchange Act of 1934, as amended (the "**Exchange Act**") or either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces its intention permanently to cease business, and a successor depository or alternative clearing system satisfactory to the Issuer is not available, (iii) a Default (as defined in Condition 6) has occurred and is continuing with respect to such Instruments, or (iv) if so provided in the applicable Final Terms, a written request for one or more Definitive Registered Instruments is made by a holder of a beneficial interest in an Unrestricted Global Instrument; *provided that* in the case of (iv) such written notice or request, as the case may be, is submitted to the Registrar by the beneficial owner not less than 60 days (or such other period as may be indicated in the applicable Final Terms) prior to the requested date of such exchange. Upon the occurrence of any of the events described in the preceding sentence, the Issuer will cause the appropriate Definitive Registered Instruments to be delivered, *provided that*, notwithstanding the above, no Definitive Registered Instruments will be issued until expiry of the applicable Distribution Compliance Period.

Transfers of Registered Global Instruments

2.05 Transfers of any Registered Global Instrument deposited with a custodian for DTC shall be limited to transfers of such Registered Global Instrument, in whole but not in part, to a nominee of DTC or to a successor of DTC or such successor's nominee.

Transfers of interests in Unrestricted Instruments

2.06 Prior to expiry of the applicable Distribution Compliance Period, transfers by the Holder of, or of a beneficial interest in, an Unrestricted Instrument to a transferee in the United States will only be made:

- (i) upon receipt by the Registrar of a written certification substantially in the form set out in the Paying Agency Agreement, amended as appropriate (a "**Transfer Certificate**"), copies of which are available from the specified office of the Registrar, from the transferor of the Instrument or beneficial interest therein to the effect that such transfer is being made to a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A; or
- (ii) otherwise pursuant to the Securities Act or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any state of the United States,

and, in each case, in accordance with any applicable securities laws of any state of the United States or any other jurisdiction.

After the expiry of the applicable Distribution Compliance Period, such certification requirements will no longer apply to such transfers, but such transfers will continue to be subject to any transfer restrictions relating to each Unrestricted Instrument as specified therein and in the applicable Final Terms.

Transfers of interests in Restricted Instruments

2.07 Transfers of Restricted Instruments or beneficial interests therein may be made:

- (i) to the Issuer; or
- (ii) to a transferee who takes delivery of such interest through an Unrestricted Instrument, upon receipt by the Registrar of a duly completed Transfer Certificate from the transferor to the effect that such transfer is being made in accordance with Regulation S and that, if such transfer is being made prior to expiry of the applicable Distribution Compliance Period, the interests in the Instruments being transferred will be held immediately thereafter through Euroclear and/or Clearstream, Luxembourg; or
- (iii) to a transferee who takes delivery of such interest through a Restricted Instrument: where the transferee is a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A, without certification; or
- (iv) pursuant to an exemption from registration under the Securities Act provided by Rule 144 thereunder (if applicable), subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any state of the United States.

and in each case, in accordance with any applicable securities laws of any state of the United States or any other jurisdiction.

Exchanges and transfers of Registered Instruments generally

2.08 Registered Instruments may not be exchanged for Bearer Instruments and vice versa.

Holders of Definitive Registered Instruments may exchange such Definitive Registered Instruments for interests in a Registered Global Instrument of the same type at any time.

Transfers of beneficial interests in Registered Global Instruments will be effected by DTC, Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests. A beneficial interest in a Registered Global Instrument will be transferable and exchangeable for Instruments in definitive form or for a beneficial interest in another Registered Global Instrument only in accordance with the rules and operating procedures for the time being of DTC, Euroclear or Clearstream, Luxembourg, as the case may be.

Upon the terms and subject to the conditions set forth in the Trust Deed and the Paying Agency Agreement, a Definitive Registered Instrument may be transferred in whole or in part (in the authorised denominations set out in the applicable Final Terms) by the Holder or Holders surrendering the Definitive Registered Instrument for registration of the transfer of the Definitive Registered Instrument (or the relevant part of the Definitive Registered Instrument) at the specified office of the Registrar, with the form of transfers thereon duly executed by the Holder or Holders thereof or his or their attorney or attorneys duly authorised in writing and upon the Registrar, after due and careful enquiry, being satisfied with the documents of title and the identity of the person making the request and subject to such reasonable regulations as the Issuer and the Registrar may prescribe, including any restrictions imposed by the Issuer on transfers of Definitive Registered Instruments originally sold to a U.S. person. Subject as provided above, the Registrar will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations) authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) sent by mail to such address as the transferee may request, a new Definitive Registered Instrument of a like aggregate nominal amount to the Definitive Registered Instrument (or the relevant part of the Definitive Registered Instrument) transferred. In the case of the transfer of part only of a Definitive Registered Instrument, a new Definitive Registered Instrument in respect of the balance of the Definitive Registered Instrument not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

Exchanges or transfers by a Holder of a Definitive Registered Instrument for an interest in, or to a person who takes delivery of such Instrument through, a Registered Global Instrument will be made no later than 60 days after the receipt by the Registrar of the Definitive Registered Instrument to be so exchanged or transferred and, if applicable, upon receipt by the Registrar of a written certification from the transferor.

Registration of transfer upon partial redemption

- 2.09** In the event of a partial redemption of Instruments under Condition 5.05 or Condition 5.06, the Issuer shall not be required:
- (a) to register the transfer of Registered Instruments (or parts of Registered Instruments) during the period beginning on the 15th day before the date fixed for the partial redemption and ending on the date fixed for such partial redemption (both inclusive); or
 - (b) to register the transfer of any Registered Instrument, or part of a Registered Instrument, called for partial redemption.

Closed Periods

- 2.10** No Holder may require the transfer of a Registered Instrument to be registered during the period of 15 days ending on the due date for any payment of principal or interest or payment on that Instrument.

Costs of exchange or registration

2.11 Registration of transfers will be effected without charge by or on behalf of the Issuer or the Registrar, but upon payment (or the giving of such indemnity as the Registrar may reasonably require) in respect of any tax or other governmental charges which may be imposed in relation to it.

3. Status of the Instruments

3A Status — Unsubordinated Instruments

3A.01 This Condition 3A is applicable in relation to Instruments specified in the relevant Final Terms as being unsubordinated or not specified as being subordinated ("**Unsubordinated Instruments**").

3A.02 The Instruments of the relevant Series constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other similar direct, unconditional, unsubordinated and unsecured obligations of the Issuer, save for certain exemptions provided by law.

3B Status — Subordinated Instruments

3B.01 This Condition 3B.01 is applicable in relation to Instruments specified in the Final Terms as being Subordinated Instruments ("**Subordinated Instruments**"). The Subordinated Instruments are intended to be available for the Issuer as eligible own funds instruments in the form of Tier 2 capital (*Ergänzungskapital*) pursuant to the applicable Own Funds Provisions. In these Terms and Conditions "**Own Funds Provisions**" means the provisions regarding own funds requirements as applied by the competent regulatory authority and amended from time to time (including, but not limited to, Article 63 of the Regulation (EU) No. 575/2013 of the European Parliament and of the Council on the prudential requirements for credit institutions and investment firms (as amended, supplemented and replaced from time to time, the "**CRR**") other provisions of bank supervisory laws and any rules and regulations related thereto, including directly applicable provisions of European Community law, in each case as amended or replaced from time to time). In case of doubt, these Conditions shall be construed such that this purpose is achieved.

The Subordinated Instruments of the relevant Series constitute unsecured and wholly subordinated obligations of the Issuer ranking *pari passu* among themselves and (except for subordinated liabilities expressed to rank junior to the Subordinated Instruments) *pari passu* with all other unsecured and subordinated obligations of the Issuer, unless such other obligations take priority by mandatory provisions of law or the terms of any such other obligations. In the event of the dissolution, liquidation, insolvency, composition or any proceeding for the avoidance of insolvency, of or against the Issuer, such obligations will be wholly subordinated to the claims of all unsubordinated creditors of the Issuer so that in any such event no amounts shall be payable under such obligations until the claims of all unsubordinated creditors of the Issuer shall have been satisfied in full. No Holder may set off his claims arising under the Subordinated Instruments against any claims of the Issuer. No security of whatever kind and no guarantee is, or shall at any time be, provided by the Issuer or any other person securing or guaranteeing rights of the Holders under such Subordinated Instruments. No subsequent agreement may limit the subordination pursuant to the provisions set out in this Condition 3B.01 or amend the Maturity Date in respect of the Subordinated Instruments to any earlier date or shorten any applicable notice period (*Kündigungsfrist*). If the Subordinated Instruments are redeemed before the Maturity Date other than (i) in the circumstances described in this Condition 3B.01 or (ii) as a result of an early redemption according to Condition 5.03, Condition 5.04 or Condition 5.05 or repurchased by the Issuer, then the amounts redeemed or paid must be returned to the Issuer irrespective of any

agreement to the contrary unless the competent regulatory authority in relation to the Issuer has given its permission to such redemption or repurchase. Any termination or redemption of the Instruments pursuant to Condition 5.03, Condition 5.04 or Condition 5.05 or a repurchase of the Subordinated Instruments prior to their maturity is only permissible with the prior permission of the competent regulatory authority.

4. Interest

Instruments may be interest-bearing or non-interest-bearing, as specified in the relevant Final Terms. The Final Terms in relation to each Tranche of interest-bearing Instruments shall specify which of Condition 4A, 4B, 4C, 4E, 4F, 4G shall be applicable and Condition 4H will be applicable to each Tranche of interest-bearing Instruments as specified therein. The Final Terms in relation to each Tranche of non-interest-bearing Instruments ("**Zero Coupon Instruments**") shall specify that Condition 4D will be applicable to each Tranche of Zero Coupon Instruments.

4A Interest — Fixed Rate

Instruments in relation to which this Condition 4A is specified in the relevant Final Terms as being applicable shall bear interest from their date of issue (the "**Issue Date**") (as specified in the relevant Final Terms) or from such other date as may be specified in the relevant Final Terms (the "**Interest Commencement Date**") at the rate or rates per annum (or otherwise) (the "**Rate of Interest**") specified in the relevant Final Terms. Such interest will be payable in arrear on such dates (the "**Interest Payment Dates**") as are specified in the relevant Final Terms and on the date of final maturity thereof (the "**Maturity Date**").

The amount of interest (the "**Interest Amount**") payable in respect of the Instruments on an Interest Payment Date will be calculated by applying the Rate of Interest to the outstanding principal amount, or if so specified in the Final Terms to the Calculation Amount, multiplying the product by the Day Count Fraction (as defined below) and rounding the resulting figure to the nearest sub unit of the currency in which such Instruments are denominated or, as the case may be, in which such interest is payable (one half of any such sub unit being rounded upwards) and, if a Calculation Amount is specified in the Final Terms, multiplying such rounded figure by a fraction equal to the Specified Denomination of such Instrument divided by the Calculation Amount.

"**Day Count Fraction**" means, in respect of the calculation of an amount for any period of time (the "**Calculation Period**"), such day count fraction as may be specified in the Final Terms and:

- (a) if "**Actual/Actual (ICMA)**" is specified in the relevant Final Terms as applying in relation to this Condition 4A
 - (i) where the Calculation Period is equal to or shorter than the Regular Period during which it falls, by dividing the actual number of days in the Calculation Period by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and
 - (ii) where the Calculation Period is longer than one Regular Period, the sum of:
 - (A) the actual number of days in such Calculation Period falling in the Regular Period in which it begins divided by the product of (1) the actual number of days in such Regular Period and (2) the number of Regular Periods in any year; and
 - (B) the actual number of days in such Calculation Period falling in the next Regular Period divided by the product of (a) the actual number

of days in such Regular Period and (2) the number of Regular Periods in any year;

where "**Regular Period**" means:

- (i) in the case of Instruments where interest is scheduled to be paid only by means of regular payments, each period from and including the Interest Commencement Date to but excluding the first Interest Payment Date and each successive period from and including one Interest Payment Date to but excluding the next Interest Payment Date;
 - (ii) in the case of Instruments where, apart from the first Interest Period, interest is scheduled to be paid only by means of regular payments, each period from and including a Regular Date falling in any year to but excluding the next Regular Date, where "**Regular Date**" means the day and month (but not the year) on which any Interest Payment Date falls; and
 - (iii) in the case of Instruments where, apart from one Interest Period other than the first Interest Period, interest is scheduled to be paid only by means of regular payments, each period from and including a Regular Date falling in any year to but excluding the next Regular Date, where "**Regular Date**" means the day and month (but not the year) on which any Interest Payment Date falls other than the Interest Payment Date falling at the end of the irregular Interest Period; or
- (b) if "**30/360**" is specified in the relevant Final Terms as applying in relation to this Condition 4A, on the basis of a 360-day year consisting of 12 months of 30 days each and, in the case of an incomplete month, the number of days elapsed.

4B Interest — Floating Rate and Swap Rate

4B.01 Instruments in relation to which this Condition 4B is specified in the relevant Final Terms as being applicable, shall bear interest at the rate or rates per annum (or otherwise) determined in accordance with this Condition 4B.

4B.02 Such Instruments shall bear interest from their Issue Date (as specified in the relevant Final Terms) or from such other date as may be specified in the relevant Final Terms (the "**Interest Commencement Date**"). Such interest will be payable on each Interest Payment Date (as defined in Condition 4H.02) and on the maturity date (the "**Maturity Date**") (if any).

4B.03 The Final Terms in relation to each Series of Instruments in relation to which this Condition 4B is specified as being applicable shall specify which page (the "**Relevant Screen Page**") on the Reuters Screen or any other information vending service shall be applicable. For these purposes, "**Reuters Screen**" means the Reuter Money 3000Xtra Service (or such other services or service as may be nominated as the information vendor for the purpose of displaying comparable rates in succession thereto).

4B.04 The rate of interest (the "**Rate of Interest**") for each Interest Period in relation to which this Condition 4B is specified as being applicable shall be determined by the Calculation Agent (as defined in Condition 4H.04) on one of the following bases as applicable:

(1) Floating Rate

- (i) the Calculation Agent will determine the rate for deposits (or, as the case may require, the arithmetic mean of the rates for deposits rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards), in the relevant currency for a period of the duration of the relevant Interest Period or for such other period of duration as specified in the relevant Final Terms

on the Relevant Screen Page as of 11.00 a.m. (London time) in the case of LIBOR[®] or, in the case of EURIBOR[®], 11.00 a.m. (Brussels time) or such other time as may be specified in the relevant Final Terms (the "**Interest Determination Time**") on the second business day in London prior to the start of each Interest Period if LIBOR[®], or the second TARGET Business Day (as defined in Condition 8C.03(iii) below) prior to the start of each Interest Period if EURIBOR[®] or on another business day as determined in the relevant Final Terms if EONIA[®] (or, in the case of Instruments denominated in Pounds Sterling or in another currency if so specified in the relevant Final Terms, on the first day of the relevant Interest Period) (the "**Interest Determination Date**"). If five or more rates for deposits appear on the Relevant Screen Page as at the relevant Interest Determination Time on the Interest Determination Date, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such rates for deposits;

- (ii) if, on any Interest Determination Date, no such rate for deposits so appears (or, as the case may be, if fewer than three such rates for deposits so appear) or if the Relevant Screen page is unavailable, the Calculation Agent will request appropriate quotations and will determine the arithmetic mean of the rates at which deposits in the relevant currency are offered by four major banks in the London interbank market, selected by the Calculation Agent after consultation with the Issuer, at the relevant Interest Determination Time on the Interest Determination Date to prime banks in the London interbank market (or, in the case of Instruments where the Final Terms specifies a Relevant Screen Page referable to EURIBOR[®], the Euro-Zone interbank market) for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time. If two or more of such banks provide the Calculation Agent with such quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of such quotations;
- (iii) if fewer than two or no rates are so quoted, the Calculation Agent will determine the arithmetic mean (rounded as aforesaid) of the rates quoted by four major banks in the Relevant Financial Centre (as defined in Condition 8C.03) (or, in the case of Instruments denominated in Euro, in such financial centre or centres in the Euro-Zone as the Calculation Agent may select) selected by the Calculation Agent, at approximately 11.00 a.m. (Relevant Financial Centre time (or local time at such other financial centre or centres as aforesaid)) on the first day of the relevant Interest Period for loans in the relevant currency or currencies to leading European banks for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time,

and the Rate of Interest applicable to such Instruments during each Interest Period will be the sum of the relevant margin (the "**Relevant Margin**") or the product of the relevant factor (the "**Relevant Factor**") specified in the relevant Final Terms and the rate (or, as the case may be, the arithmetic mean of rates) so determined or if so specified in the Final Terms, the difference between the Relevant Margin and the rate (or, as the case may be, the arithmetic mean of rates) so determined *provided that*, if the Calculation Agent is unable to determine a rate (or, as the case may be, an

arithmetic mean of rates) in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to such Instruments during such Interest Period will be the sum of the Relevant Margin or the product of the Relevant Factor and the rate (or, as the case may be, the arithmetic mean of rates) last determined in relation to such Instruments in respect of the last preceding Interest Period or if so specified in the Final Terms, the difference between the Relevant Margin and the rate (or, as the case may be, the arithmetic mean of rates) last determined in relation to such Instruments in respect of the last preceding Interest Period *provided that* if there is specified in the relevant Final Terms a minimum interest rate or a maximum interest rate then the Rate of Interest shall in no event be less than or, as the case may be, exceed such minimum or maximum interest rate.

(2) **Swap Rate**

- (i) the Calculation Agent will determine the swap rate (or, as the case may require, the arithmetic mean of swap rates rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards), in the relevant currency for a period of the duration of the relevant Interest Period on the Relevant Screen Page at such time as may be specified in the relevant Final Terms (the "**Swap Rate Determination Time**") on the second business day in Frankfurt or such other city(ies) as may be specified in the relevant Final Terms before (or, in the case of Instruments denominated in Pounds Sterling or in another currency if so specified in the relevant Final Terms, on) the first day of the relevant Interest Period (the "**Swap Rate Determination Date**"). If five or more swap rates appear on the Relevant Screen Page as at the relevant Swap Rate Determination Time on the Swap Rate Determination Date, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such swap rates;
- (ii) if, on any Swap Rate Determination Date, no such swap rate so appears (or, as the case may be, if fewer than three such swap rates so appear) or if the Relevant Screen Page is unavailable, the Calculation Agent will request appropriate quotations and will determine the arithmetic mean of the rates at which swaps in the relevant currency are offered by four major banks in the relevant interbank market, selected by the Calculation Agent after consultation with the Issuer, at the relevant Swap Rate Determination Time on the Swap Rate Determination Date to prime banks in the relevant interbank market for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time. If two or more of such banks provide the Calculation Agent with such quotations, the rate for such Interest Period shall be the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of such quotations;
- (iii) if fewer than two or no rates are so quoted, the Calculation Agent will determine the arithmetic mean (rounded as aforesaid) of the rates quoted by four major banks in the Relevant Financial Centre (as defined in Condition 8C.03) (or, in the case of Instruments denominated in Euro, in such financial centre or centres in the Euro-Zone as the Calculation Agent may select) selected by the Calculation Agent, at approximately 11.00 a.m. (Relevant Financial Centre time (or local time at such other financial centre or centres as aforesaid)) on the first day of the relevant Interest Period for

swaps in the relevant currency or currencies to leading European banks for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time,

and the Rate of Interest applicable to such Instruments during each Interest Period will be the sum of the Relevant Margin or the product of the Relevant Factor specified in the relevant Final Terms and the rate (or, as the case may be, the arithmetic mean of rates) so determined or if so specified in the Final Terms, the difference between the Relevant Margin and the rate (or, as the case may be, the arithmetic mean of rates) so determined *provided that*, if the Calculation Agent is unable to determine a rate (or, as the case may be, an arithmetic mean of rates) in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to such Instruments during such Interest Period will be the sum of the Relevant Margin or the product of the Relevant Factor and the rate (or, as the case may be, the arithmetic mean of rates) last determined in relation to such Instruments in respect of the last preceding Interest Period or if so specified in the Final Terms, the difference between the Relevant Margin and the rate (or, as the case may be, the arithmetic mean of rates) last determined in relation to such Instruments in respect of the last preceding Interest Period *provided that* if there is specified in the relevant Final Terms a minimum interest rate or a maximum interest rate then the Rate of Interest shall in no event be less than or, as the case may be, exceed such minimum or maximum interest rate.

For the purpose of these Conditions "**Euro-Zone**" means the region comprised of member states of the European Union ("**EU**") which adopt the Euro in accordance with the Treaty establishing the European Community, as amended (the "**Treaty**").

4C Interest — ISDA Rate Indices

4C.01 Instruments in relation to which this Condition 4C is specified in the relevant Final Terms as being applicable shall bear interest at the rates per annum (or otherwise) determined in accordance with this Condition 4C.

4C.02 Each such Instrument shall bear interest from its Issue Date (as specified in the relevant Final Terms) or from such other date as may be specified in the relevant Final Terms. Such interest will be payable on such dates and in such amounts as would have been payable (regardless of any event of default or termination event or tax event thereunder) by the Issuer had it entered into a swap transaction (to which an Interest Rate and Currency Exchange Agreement (the "**Agreement**") and the ISDA Definitions are applicable) with the Holder of such Instrument under which:

- the Reset Date was the first day of the relevant Interest Period;
- the Fixed Rate Payer or, as the case may be, the Floating Rate Payer was the Issuer;
- the Calculation Agent was the Calculation Agent as specified in the relevant Final Terms;
- the Effective Date was such Issue Date or such other date as may be specified in the relevant Final Terms;
- the Calculation Amount was the principal amount of such Instrument; and
- all other terms were as specified in the relevant Final Terms.

Capitalised terms used in this Condition 4C shall, where the context so requires, have the meanings ascribed to them in the ISDA Definitions.

"**ISDA Definitions**" means the 2006 ISDA Definitions or, if so specified in the relevant Final Terms, the 2000 ISDA Definitions (in each case, as further amended and updated as at the date specified in the relevant Final Terms (as published by the International Swaps and Derivatives Association, Inc.)). Copies of the 2000 and 2006 ISDA Definitions are available upon request from the office of the Issuer.

4D Interest — Zero Coupon Instruments

Instruments in relation to which this Condition 4D is specified in the relevant Final Terms as being applicable shall not bear interest.

4E Interest – Resettable Instruments

4E.01 Resettable Instruments in relation to which this Condition 4E is specified in the relevant Final Terms as being applicable, shall (if the Issuer decides not to redeem the Instruments early pursuant to Condition 5.05.) bear interest at the rate per annum (or otherwise) determined in accordance with this Condition 4E from (and including) the Reset Date as specified in the Final Terms (the "**Reset Date**") to (but excluding) the Maturity Date (the "**Reset Interest Period**").

4E.02 Such interest will be payable on each Interest Payment Date (as defined in Condition 4H.02) following the Reset Date and on the Maturity Date.

4E.03 The Final Terms in relation to each Series of Instruments in relation to which this Condition 4E is specified as being applicable shall specify which page (the "**Relevant Screen Page**") on the Reuters Screen or any other information vending service shall be applicable. For these purposes, "**Reuters Screen**" means the Reuter Money 3000Xtra Service (or such other services or service as may be nominated as the information vendor for the purpose of displaying comparable rates in succession thereto).

4E.04 The rate of interest (the "**Rate of Interest**") for the Reset Interest Period in relation to which this Condition 4E is specified as being applicable shall be determined by the Calculation Agent (as defined in Condition 4H.04) on the following basis:

- (i) the Calculation Agent will determine the swap rate (or, as the case may require, the arithmetic mean of swap rates rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards), in the relevant currency for a period of the duration of the Reset Interest Period on the Relevant Screen Page at such time as may be specified in the relevant Final Terms (the "**Mid-Swap Rate Determination Time**") on the second business day in Frankfurt or such other city(ies) as may be specified in the relevant Final Terms prior to the start of the Reset Interest Period or such other city as may be specified in the Final Terms (or, in the case of Instruments denominated in Pounds Sterling or in another currency if so specified in the relevant Final Terms, on the first day of the Reset Interest Period) (the "**Mid-Swap Rate Determination Date**"). If five or more swap rates appear on the Relevant Screen Page as at the relevant Mid-Swap Rate Determination Time on the Mid-Swap Rate Determination Date, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such swap rates;
- (ii) if, on any Mid-Swap Rate Determination Date, no such swap rate so appears (or, as the case may be, if fewer than three such swap rates so appear) or if the Relevant

Screen Page is unavailable, the Calculation Agent will request appropriate quotations and will determine the arithmetic mean of the rates at which swaps in the relevant currency are offered by four major banks in the relevant interbank market, selected by the Calculation Agent after consultation with the Issuer, at the relevant Mid-Swap Rate Determination Time on the Mid-Swap Rate Determination Date to prime banks in the relevant interbank market for a period of the duration of the Reset Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time. If two or more of such banks provide the Calculation Agent with such quotations, the rate for such Interest Period shall be the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of such quotations;

- (iii) if fewer than two or no rates are so quoted, the Calculation Agent will determine the arithmetic mean (rounded as aforesaid) of the rates quoted by four major banks in the Relevant Financial Centre (as defined in Condition 8C.03) (or, in the case of Instruments denominated in Euro, in such financial centre or centres in the Euro Zone as the Calculation Agent may select) selected by the Calculation Agent, at approximately 11.00 a.m. (Relevant Financial Centre time (or local time at such other financial centre or centres as aforesaid)) on the first day of the Reset Interest Period for swaps in the relevant currency or currencies to leading European banks for a period of the duration of the Reset Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time,

and the Rate of Interest applicable to such Instruments during the Reset Interest Period will be the sum of the Relevant Margin specified in the relevant Final Terms and the rate (or, as the case may be, the arithmetic mean of rates) so determined provided that, if the Calculation Agent is unable to determine a rate (or, as the case may be, an arithmetic mean of rates) in accordance with the above provisions in relation to the Reset Interest Period, the Rate of Interest applicable to such Instruments during the Reset Interest Period will be the sum of the Relevant Margin and the Reset Reference Rate specified in the relevant Final Terms.

4F Interest — CMS Spread

- 4F.01** Instruments in relation to which this Condition 4F is specified in the relevant Final Terms as being applicable shall bear interest at the rates per annum (or otherwise) determined in accordance with this Condition 4F.
- 4F.02** Such Instruments shall bear interest from their Issue Date (as specified in the relevant Final Terms) or from such other date as may be specified in the relevant Final Terms (the "**Interest Commencement Date**"). Such interest will be payable on each Interest Payment Date (as defined in Condition 4H.02) and on the maturity date (the "**Maturity Date**") (if any).
- 4F.03** The Final Terms in relation to each Series of Instruments in relation to which this Condition 4F is specified as being applicable shall specify which page (the "**Relevant Screen Page**") on the Reuters Screen or any other information vending service shall be applicable. For these purposes, "**Reuters Screen**" means the Reuter Money 3000Xtra Service (or such other services or service as may be nominated as the information vendor for the purpose of displaying comparable rates in succession thereto).
- 4F.04** The rate of interest (the "**Rate of Interest**") for each Interest Period in relation to which this Condition 4F is specified as being applicable shall be determined by the Calculation Agent (as defined in Condition 4H.04) on one of the following bases as specified in the relevant Final Terms:
 - (i) The Calculation Agent will determine the constant maturity swap rates (the "**CMS Initial Rate**" and the "**CMS Deduction Rate**") expressed as a rate *per annum* on the Relevant Screen Page at such time as may be specified in the relevant Final Terms

(the "**Swap Rate Determination Time**") on the second business day in Frankfurt or such other city(ies) as may be specified in the relevant Final Terms before (or, in the case of Instruments denominated in Pounds Sterling or in another currency if so specified in the relevant Final Terms, on) the first day of the relevant Interest Period (the "**Swap Rate Determination Date**").

- (ii) if, on any Swap Rate Determination Date, no such swap rate so appears (or, as the case may be, if fewer than three such swap rates so appear) or if the Relevant Screen Page is unavailable, the Calculation Agent will request appropriate quotations and will determine the arithmetic mean of the rates at which swaps in the relevant currency are offered by four major banks in the relevant interbank market, selected by the Calculation Agent after consultation with the Issuer, at the relevant Swap Rate Determination Time on the Swap Rate Determination Date to prime banks in the relevant interbank market for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time. If two or more of such banks provide the Calculation Agent with such quotations, the rate for such Interest Period shall be the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of such quotations.
- (iii) if fewer than two or no rates are so quoted, the Calculation Agent will determine the arithmetic mean (rounded as aforesaid) of the rates quoted by four major banks in the Relevant Financial Centre (as defined in Condition 8C.03) (or, in the case of Instruments denominated in Euro, in such financial centre or centres in the Euro-Zone as the Calculation Agent may select) selected by the Calculation Agent, at approximately 11.00 a.m. (Relevant Financial Centre time (or local time at such other financial centre or centres as aforesaid)) on the first day of the relevant Interest Period for swaps in the relevant currency or currencies to leading European banks for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time (and such rate based on the CMS Initial Rate, the "**Initial Reference Rate**", and such rate based on the CMS Deduction Rate, the "**Deduction Reference Rate**").

The Rate of Interest applicable to such Instruments during each Interest Period will be the Initial Reference Rate less the Deduction Reference Rate plus or minus the relevant margin (the "**Relevant Margin**") or multiplied by the relevant factor (the "**Relevant Factor**") as specified in the relevant Final Terms provided that if there is specified in the relevant Final Terms a minimum interest rate or a maximum interest rate then the Rate of Interest shall in no event be less than or, as the case may be, exceed such minimum or maximum interest rate provided that, if the Calculation Agent is unable to determine a rate (or, as the case may be, an arithmetic mean of rates) in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to such Instruments during such Interest Period will be the sum of the Relevant Margin or the product of the Relevant Factor and the rate (or, as the case may be, the arithmetic mean of rates) last determined in relation to such Instruments in respect of the last preceding Interest Period provided that if there is specified in the relevant Final Terms a minimum interest rate or a maximum interest rate then the Rate of Interest shall in no event be less than or, as the case may be, exceed such minimum or maximum interest rate.

For the purpose of these Conditions "**Euro-Zone**" means the region comprised of member states of the European Union ("**EU**") which adopt the Euro in accordance with the Treaty establishing the European Community, as amended (the "**Treaty**").

4G Interest — Range Accrual

- 4G.01** Instruments in relation to which this Condition 4G is specified in the relevant Final Terms as being applicable, shall bear interest at the rate or rates per annum (or otherwise) determined in accordance with this Condition 4G.
- 4G.02** Such Instruments shall bear interest from their Issue Date (as specified in the relevant Final Terms) or from such other date as may be specified in the relevant Final Terms (the "**Interest Commencement Date**"). Such interest will be payable on each Interest Payment Date (as defined in Condition 4H.02) and on the maturity date (the "**Maturity Date**") (if any).
- 4G.03** The Final Terms in relation to each Series of Instruments in relation to which this Condition 4G is specified as being applicable shall specify which page (the "**Relevant Screen Page**") on the Reuters Screen or any other information vending service shall be applicable. For these purposes, "**Reuters Screen**" means the Reuter Money 3000Xtra Service (or such other services or service as may be nominated as the information vendor for the purpose of displaying comparable rates in succession thereto).
- 4G.04** The rate of interest (the "**Rate of Interest**") for each Interest Period in relation to which this Condition 4G is specified as being applicable shall be determined by the Calculation Agent (as defined in Condition 4H.04) on one of the following bases as applicable:

(1) Floating Rate

- (i) the Calculation Agent will determine the rate for deposits (or, as the case may require, the arithmetic mean of the rates for deposits rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards), in the relevant currency for a period of the duration of the relevant Interest Period or for such other period of duration as specified in the relevant Final Terms on the Relevant Screen Page as of 11.00 a.m. (London time) in the case of LIBOR[®] or, in the case of EURIBOR[®], 11.00 a.m. (Brussels time) or such other time as may be specified in the relevant Final Terms (the "**Interest Determination Time**") on the second business day in London prior to the start of each Interest Period if LIBOR[®], or the second TARGET Business Day (as defined in Condition 8C.03(iii) below) prior to the start of each Interest Period if EURIBOR[®] or on another business day as determined in the relevant Final Terms if EONIA[®] (or, in the case of Instruments denominated in Pounds Sterling or in another currency if so specified in the relevant Final Terms, on the first day of the relevant Interest Period) (the "**Interest Determination Date**"). If five or more rates for deposits appear on the Relevant Screen Page as at the relevant Interest Determination Time on the Interest Determination Date, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such rates for deposits;
- (ii) if, on any Interest Determination Date, no such rate for deposits so appears (or, as the case may be, if fewer than three such rates for deposits so appear) or if the Relevant Screen page is unavailable, the Calculation Agent will request appropriate quotations and will determine the arithmetic mean of the rates at which deposits in the relevant currency are offered by four major banks in the London interbank market, selected by the Calculation Agent after consultation with the Issuer, at the relevant Interest Determination Time on the Interest Determination Date to prime banks in the London interbank market (or, in the case of Instruments where the Final Terms specifies a Relevant Screen Page referable to EURIBOR[®], the Euro-Zone interbank market) for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time. If two or more of such banks provide the Calculation Agent with such quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if

necessary to the fourth decimal place, with 0.00005 being rounded upwards) of such quotations;

- (iii) if fewer than two or no rates are so quoted, the Calculation Agent will determine the arithmetic mean (rounded as aforesaid) of the rates quoted by four major banks in the Relevant Financial Centre (as defined in Condition 8C.03) (or, in the case of Instruments denominated in Euro, in such financial centre or centres in the Euro-Zone as the Calculation Agent may select) selected by the Calculation Agent, at approximately 11.00 a.m. (Relevant Financial Centre time (or local time at such other financial centre or centres as aforesaid)) on the first day of the relevant Interest Period for loans in the relevant currency or currencies to leading European banks for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time (such rate determined pursuant to (i) to (iii) above, the "**Reference Rate**"),

and the Rate of Interest applicable to such Instruments during each Interest Period will be the interest rate (the "**Range Accrual Interest**") multiplied by the number of Determination Dates within an Interest Determination Period at which the Reference Rate is either higher or lower or equal to the interest rate as specified in the Final Terms (the "**Interest Trigger Rate**") or within the interest range as specified in the Final Terms (the "**Interest Trigger Range**") and divided by the number of Determination Dates within the Interest Determination Period plus the relevant margin (the "**Relevant Margin**") specified in the relevant Final Terms *provided that* if there is specified in the relevant Final Terms a minimum interest rate or a maximum interest rate then the Rate of Interest shall in no event be less than or, as the case may be, exceed such minimum or maximum interest rate provided that, if the Calculation Agent is unable to determine a rate (or, as the case may be, an arithmetic mean of rates) in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to such Instruments during such Interest Period will be the sum of the Relevant Margin or the product of the Relevant Factor and the rate (or, as the case may be, the arithmetic mean of rates) last determined in relation to such Instruments in respect of the last preceding Interest Period provided that if there is specified in the relevant Final Terms a minimum interest rate or a maximum interest rate then the Rate of Interest shall in no event be less than or, as the case may be, exceed such minimum or maximum interest rate.

(2) Swap Rate

- (i) the Calculation Agent will determine the swap rate (or, as the case may require, the arithmetic mean of swap rates rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards), in the relevant currency for a period of the duration of the relevant Interest Period on the Relevant Screen Page at such time as may be specified in the relevant Final Terms (the "**Swap Rate Determination Time**") on the second business day in Frankfurt or such other city(ies) as may be specified in the relevant Final Terms before (or, in the case of Instruments denominated in Pounds Sterling or in another currency if so specified in the relevant Final Terms, on) the first day of the relevant Interest Period (the "**Swap Rate Determination Date**"). If five or more swap rates appear on the Relevant Screen Page as at the relevant Swap Rate Determination Time on the Swap Rate Determination Date, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such swap rates;
- (ii) if, on any Swap Rate Determination Date, no such swap rate so appears (or, as the case may be, if fewer than three such swap rates so appear) or if the Relevant Screen Page is unavailable, the Calculation Agent will request appropriate quotations and will determine the arithmetic mean of the rates at which swaps in the relevant

currency are offered by four major banks in the relevant interbank market, selected by the Calculation Agent after consultation with the Issuer, at the relevant Swap Rate Determination Time on the Swap Rate Determination Date to prime banks in the relevant interbank market for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time. If two or more of such banks provide the Calculation Agent with such quotations, the rate for such Interest Period shall be the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of such quotations;

- (iii) if fewer than two or no rates are so quoted, the Calculation Agent will determine the arithmetic mean (rounded as aforesaid) of the rates quoted by four major banks in the Relevant Financial Centre (as defined in Condition 8C.03) (or, in the case of Instruments denominated in Euro, in such financial centre or centres in the Euro-Zone as the Calculation Agent may select) selected by the Calculation Agent, at approximately 11.00 a.m. (Relevant Financial Centre time (or local time at such other financial centre or centres as aforesaid)) on the first day of the relevant Interest Period for swaps in the relevant currency or currencies to leading European banks for a period of the duration of the relevant Interest Period and in an amount that is representative for a single transaction in the relevant market at the relevant time (such rate determined pursuant to (i) to (iii) above, the "**Reference Rate**"),

and the Rate of Interest applicable to such Instruments during each Interest Period will be the interest rate (the "**Range Accrual Interest**") multiplied by the number of Determination Days within an Interest Determination Period at which the Reference Rate is either higher or lower or equal to the interest rate as specified in the Final Terms (the "**Interest Trigger Rate**") or within the interest range as specified in the Final Terms (the "**Interest Trigger Range**") and divided by the number of Determination Days within the Interest Determination Period plus the relevant margin (the "**Relevant Margin**") specified in the relevant Final Terms *provided that* if there is specified in the relevant Final Terms a minimum interest rate or a maximum interest rate then the Rate of Interest shall in no event be less than or, as the case may be, exceed such minimum or maximum interest rate.

"**Determination Day**" means each TARGET Business Day or business day in Frankfurt or such other city(ies) as may be specified in the relevant Final Terms during an Interest Determination Period; and

"**Interest Determination Period**" means the period of time from (and including) the first day of the relevant Interest Period until (and including) the date that is five Determination Days prior to the end of the relevant Interest Period.

For the purpose of these Conditions "**Euro-Zone**" means the region comprised of member states of the European Union ("**EU**") which adopt the Euro in accordance with the Treaty establishing the European Community, as amended (the "**Treaty**").

4H Interest — Supplemental Provisions

- 4H.01** Conditions 4H.02, 4H.03, 4H.04, 4H.05 and 4H.06 shall apply to all Instruments which are interest-bearing, where applicable in the manner specified in the relevant Final Terms.

Interest Payment Date Conventions

- 4H.02** The Final Terms in relation to each Tranche of Instruments shall specify the applicable Business Day Convention.

"**Business Day Convention**", in relation to any particular date, has the meaning given in the relevant Final Terms and, if so specified in the relevant Final Terms in relation to each

Tranche, may have different meanings in relation to different dates and, in this context, the following expressions shall have the following meanings:

- (i) **"Following Business Day Convention"** means that the relevant date shall be postponed to the first following day that is a Business Day;
- (ii) **"Modified Following Business Day Convention"** or **"Modified Business Day Convention"** means that the relevant date shall be postponed to the first following day that is a Business Day unless that day falls in the next calendar month in which case that date will be the first preceding day that is a Business Day;
- (iii) **"Preceding Business Day Convention"** means that the relevant date shall be brought forward to the first preceding day that is a Business Day;
- (iv) **"FRN Convention"**, **"Floating Rate Convention"** or **"Eurodollar Convention"** means that each relevant date shall be the date which numerically corresponds to the preceding such date in the calendar month which is the number of months specified in the relevant Final Terms as the Specified Period after the calendar month in which the preceding such date occurred *provided, however, that*:
 - (A) if there is no such numerically corresponding day in the calendar month in which any such date should occur, then such date will be the last day which is a Business Day in that calendar month;
 - (B) if any such date would otherwise fall on a day which is not a Business Day, then such date will be the first following day which is a Business Day unless that day falls in the next calendar month, in which case it will be the first preceding day which is a Business Day; and
 - (C) if the preceding such date occurred on the last day in a calendar month which was a Business Day, then all subsequent such dates will be the last day which is a Business Day in the calendar month which is the specified number of months after the calendar month in which the preceding such date occurred; and
- (v) **"No Adjustment"** means that the relevant date shall not be adjusted in accordance with any Business Day Convention.

Each period beginning on (and including) such date of issue or such other date as aforesaid and ending on (but excluding) the first Interest Payment Date specified in the relevant Final Terms and each period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next Interest Payment Date is herein called an **"Interest Period"**.

"Business Day" is defined in Condition 8C.03.

"Interest Payment Date" means the first Interest Payment Date and any other date or dates specified as such in, or determined in accordance with the provisions of, the relevant Final Terms and, if a Business Day Convention is specified in the relevant Final Terms:

- (i) as the same may be adjusted in accordance with the relevant Business Day Convention; or
- (ii) if the Business Day Convention is the FRN Convention, Floating Rate Convention or Eurodollar Convention and an interval of a number of calendar months is specified in the relevant Final Terms as being the Specified Period, each of such dates as may occur in accordance with the FRN Convention, Floating Rate Convention or Eurodollar Convention at such Specified Period of calendar months following the

Interest Commencement Date (in the case of the first Interest Payment Date) or the previous Interest Payment Date (in any other case).

Notification of Rates of Interest, Interest Amounts and Interest Payment Dates

4H.03 Conditions 4H.02, 4H.03, 4H.04, 4H.05 and 4H.06 shall apply to all Instruments which are interest-bearing, where applicable in the manner specified in the relevant Final Terms.

The Calculation Agent will cause each Rate of Interest, floating rate, Interest Payment Date, final day of a calculation period, Interest Amount, floating amount or other item, as the case may be, determined or calculated by it to be notified to the Issuer, the Trustee and the Principal Paying Agent. The Principal Paying Agent will cause all such determinations or calculations to be notified to the other Paying Agents and, in the case of Registered Instruments, the Registrar (from whose respective specified offices such information will be available) and, in the case of Instruments admitted to trading on the Regulated Market and/or listed by any other listing authority and/or on any other stock exchange, to the Luxembourg Stock Exchange and/or such other listing authority and/or stock exchange on which the Instruments of the relevant Series may, for the time being, be listed as soon as practicable after such determinations or calculation but in any event not later than the fourth business day in London or such other city(ies) as may be specified in the relevant Final Terms thereafter or, if earlier in the case of notification to any listing authority and/or stock exchange upon which the Instruments are then listed, the time required by the rules of the relevant listing authority and/or stock exchange. The Calculation Agent will be entitled (with the consent of the Trustee) to amend any Interest Amount, floating amount, Interest Payment Date or last day of a calculation period (or to make appropriate alternative arrangements by way of adjustment) without prior notice in the event of the extension or abbreviation of any relevant Interest Period or calculation period and such amendment will be notified in accordance with the first two sentences of this Condition 4H.03.

4H.04 The determination by the Calculation Agent (or, failing such determination by the Calculation Agent, the Successor or Additional Calculation Agent (as defined below), pursuant to Condition 4H.05) of all items falling to be determined by it shall, in the absence of manifest error, be final and binding on all parties. As used herein the "**Calculation Agent**" means, in relation to the Instruments of any Series, the Principal Paying Agent or such other person (if any) as may be specified in the relevant Final Terms as the Calculation Agent and if the person specified is the Issuer, then all references to the Calculation Agent shall be to the Issuer. The Issuer reserves the right at any time to vary or terminate the appointment of any Calculation Agent in accordance with the provisions relating to such Calculation Agent's appointment and to appoint a successor or additional Calculation Agent pursuant to Condition 4H.05 *provided that* if a Calculation Agent is specified in the relevant Final Terms, the Issuer shall at all times maintain a Calculation Agent.

Determination or Calculation by Successor or Additional Calculation Agent

4H.05 If the Calculation Agent does not at any time for any reason determine the Rate of Interest or calculate any Interest Amount for an Interest Period, the Issuer may appoint a successor or additional calculation agent (the "**Successor or Additional Calculation Agent**") to do so and such determination or calculation shall be deemed to have been made by the Calculation Agent. In doing so, the Successor or Additional Calculation Agent shall determine or calculate the relevant matter in such manner as, in its absolute discretion, it shall deem fair and reasonable in the circumstances (having such regard as it shall think fit to the procedures described above, but subject always to any maximum or minimum interest rate which may be prescribed) or apply the foregoing provisions of this Condition, with any necessary consequential amendments, to the extent that, in its opinion, it can do so and in all other respects it shall do so in such manner as it shall, in its absolute discretion, deem fair and reasonable in the circumstances.

Accrual of Interest

4H.06 Interest shall accrue on the outstanding principal amount of each Instrument (other than Zero Coupon Instruments), or, in the case of an Instalment Instrument, on each instalment of principal as indicated in the relevant Final Terms (other than Instalment Instruments which are Zero Coupon Instruments). Interest will cease to accrue as from the date for redemption therefor (or, in the case of an Instalment Instrument, in respect of each instalment of principal, on the due date for payment thereof) unless upon (except in the case of any payment where presentation and/or surrender of the relevant Instrument is not required as a precondition of payment) due presentation or surrender thereof, payment in full of the principal amount or the relevant instalment or, as the case may be, redemption amount is improperly withheld or refused or default is otherwise made in the payment thereof in which case interest shall continue to accrue thereon as provided in the Trust Deed.

Calculation of Interest

4H.07 With regard to Conditions 4B, 4C, 4E, 4F and 4G the Calculation Agent will, as soon as practicable after determining the Rate of Interest in relation to each Interest Period, calculate the amount of interest (the "**Interest Amount**") payable in respect of such Instruments for the relevant Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the outstanding principal amount or if so specified in the Final Terms, to the Calculation Amount, multiplying the product by the Day Count Fraction (as defined herein) and rounding the resulting figure to the nearest sub-unit of the currency in which such Instruments are denominated or, as the case may be, in which such interest is payable (one half of any such sub-unit being rounded upwards) and, if a Calculation Amount is specified in the Final Terms, multiplying such rounded figure by a fraction equal to the Specified Denomination of such Instrument divided by the Calculation Amount.

"**Day Count Fraction**" means, in respect of the calculation of an amount for any period of time (the "**Calculation Period**"), such day count fraction as may be specified in the Final Terms and:

- (i) if "**Actual/365**" or "**Actual/Actual (ISDA)**" is so specified, means the actual number of days in the Calculation Period divided by 365 (or, if any portion of the Calculation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (ii) if "**Actual/365 (Fixed)**" is so specified, means the actual number of days in the Calculation Period divided by 365;
- (iii) if "**Actual/360**" is so specified, means the actual number of days in the Calculation Period divided by 360;
- (iv) if "**30/360**" is so specified, means the number of days in the Calculation Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months (unless (i) the last day of the Calculation Period is the 31st day of a month but the first day of the Calculation Period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day month, or (ii) the last day of the Calculation Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month)); and
- (v) if "**30E/360**" or "**Eurobond Basis**" is so specified means, the number of days in the Calculation Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months, without regard to the date of the first day or last day of

the Calculation Period unless, in the case of the final Calculation Period, the date of final maturity is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month).

5. Redemption and Purchase

Redemption at Maturity

5.01 Unless previously redeemed, or purchased and cancelled, or unless such Instrument is stated in the Final Terms as having no fixed maturity date, such Instrument shall be redeemed at its maturity redemption amount (which shall be its principal amount or in case of Zero Coupon Instruments such other maturity redemption amount as may be specified in or determined in accordance with the relevant Final Terms, but which will not be less than the principal amount) (or, in the case of Instalment Instruments, in such number of instalments and in such amounts as may be specified in the relevant Final Terms) on the date or dates (or, in the case of Instruments which bear interest at a floating rate of interest, on the date or dates upon which interest is payable) specified in the relevant Final Terms.

No Fixed Maturity

5.02 This Condition 5.02 is applicable to Instruments with no specified maturity date ("**Open End Instruments**"). There is no fixed date for redemption of the Instruments and the Issuer shall (without prejudice to the provisions of Condition 6) only have the right to repay Open End Instruments in accordance with such provisions of this Condition 5 as are specified in the relevant Final Terms as being applicable to Open End Instruments.

Early Redemption for Taxation Reasons

5.03 If, (i) as a result of any change in the laws or regulations of any Relevant Tax Jurisdiction (as defined in Condition 7) or of any political subdivision thereof or any authority or agency therein or thereof having power to tax or in the interpretation or administration of any such laws or regulations which becomes effective on or after the date of issue of such Instruments, the Issuer for reasons outside its control would be required to pay additional amounts as provided in Condition 7 or, in case of Subordinated Instruments, the tax treatment of the Instruments changes in any other way and such change is in the assessment of the Issuer materially disadvantageous to the Issuer and (ii) such circumstances are evidenced by the delivery by the Issuer to the Trustee of a certificate signed by two authorised officers of the Issuer stating that the said circumstances prevail and describing the facts leading thereto and an opinion of independent legal advisers of recognised standing to the effect that such circumstances prevail, the Issuer may, at its option and having given no less than thirty nor more than sixty days' notice (ending, in the case of Instruments which bear interest at a floating rate, on a day upon which interest is payable) to the Holders of the Instruments in accordance with Condition 13 (which notice shall be irrevocable), redeem all (but not some only) of the outstanding Instruments comprising the relevant Series at their tax early redemption amount (which shall be their principal amount or such other redemption amount as may be specified in the relevant Final Terms) less, in the case of any Instalment Instrument, the aggregate amount of all instalments that shall have become due and payable in respect of such Instrument prior to the date fixed for redemption under any other Condition (which amount, if and to the extent not then paid, remains due and payable), together with accrued interest (if any) thereon (calculated as provided in these Terms and Condition and the Trust Deed) and in the case of Open End Instruments, arrears of interest (if any) in respect thereof to but excluding the date fixed for redemption and any additional amounts payable under Condition 7.01 *provided that* the date fixed for redemption shall not be earlier than the last practicable day on which the Issuer could make payment without being required to pay such additional amounts or, in case of a change in tax treatment of the Instruments, not be earlier than the day before such change enters into effect.

In the case of Subordinated Instruments, the exercise of this call option of the Issuer is subject to the prior permission (if required) of the competent regulatory authority.

Early Redemption due to the Occurrence of a Regulatory Event

- 5.04** If in the determination of the Issuer (i) the Issuer may not or will not be allowed to fully count the Subordinated Instruments as Tier 2 capital for the purposes of own funds requirements in accordance with the applicable Own Funds Provisions, for reasons other than the amortisation in accordance with the Own Funds Provisions (including, but not limited to, Article 64 CRR) or (ii) are or will become in any other way subject to a less favourable regulatory capital treatment than on the Issue Date the Subordinated Instruments may be redeemed, in whole but not in part, at the option of the Issuer and subject to the prior permission (if required) of the competent regulatory authority, upon not more than 60 days' nor less than 30 days' prior notice of redemption, at their regulatory early redemption amount (which shall be their principal amount or such other redemption amount as may be specified in the relevant Final Terms), together with accrued interest (if any) thereon (calculated as provided in this Condition and the Trust Deed) and in the case of Open End Instruments, arrears of interest (if any) in respect thereof to but excluding the date fixed for redemption.

Optional Early Redemption (Call)

- 5.05** If this Condition 5.05 is specified in the relevant Final Terms as being applicable, then the Issuer may, upon the expiry of the appropriate notice (as specified in Condition 5.07 below) and subject to such conditions as may be specified in the relevant Final Terms, redeem all (but not, unless and to the extent that the relevant Final Terms specifies otherwise, some only) of the Instruments of the relevant Series at their call early redemption amount (which shall be their principal amount or such other call early redemption amount as may be specified in the relevant Final Terms (each, a "**Call Early Redemption Amount**")) less, in the case of any Instalment Instrument, the aggregate amount of all instalments under any other Condition (which amount, if and to the extent not then paid, remains due and payable), together with accrued interest (if any) thereon (calculated as provided in these Conditions and the Trust Deed) and in the case of Open End Instruments, arrears of interest (if any) in respect thereon to but excluding the date fixed for redemption.

In the case of Subordinated Instruments, the exercise of this call option of the Issuer is subject to the prior permission (if required) of the competent regulatory authority.

Optional Early Redemption (Call for Hedging Events)

- 5.06** If this Condition 5.06 is specified in the relevant Final Terms as being applicable, then the Issuer may, upon the occurrence of a Disruption Event and upon the expiry of the appropriate notice (as specified in Condition 5.07 below) and subject to such conditions as may be specified in the relevant Final Terms, redeem all (but not, unless and to the extent that the relevant Final Terms specify otherwise, some only) of the Instruments of the relevant Series at the Hedging Call Early Redemption Amount less, in the case of any Instalment Instrument, the aggregate amount of all instalments under any other Condition (which amount, if and to the extent not then paid, remains due and payable), together with accrued interest (if any) thereon (calculated as provided in these Conditions and the Trust Deed) and in the case of Open End Instruments, arrears of interest (if any) in respect thereon to but excluding the date fixed for redemption.

For the purposes of this Condition:

"**Change in Law**" means that, on or after the relevant Issue Date, (A) due to the adoption or announcement of or any change in any applicable law, rule, ruling, order or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction

of any applicable law, rule, ruling, order or regulation (including any action taken by a taxing authority), the Issuer determines in good faith that (X) it has or will become illegal for the Issuer and/or any of its affiliates to hold, acquire, deal in, establish, re-establish, substitute, maintain unwind or dispose of any of the Hedge Positions (including, without limitation, where such Hedge Positions would contribute to the breach of the applicable position limits set by any exchange, trading facility or competent authority), or (Y) the Issuer or any of its affiliates will incur a materially increased cost in performing its obligations with respect to the relevant Instruments or in managing any Hedge Position (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) or (Z) the Issuer or any of its affiliates will be subjected to materially less favourable regulatory capital treatment with respect to the relevant Instruments and the related Hedge Positions, as compared with the regulatory capital treatment applicable to the relevant Instruments and related Hedge Positions as of the relevant Issue Date, and the Issuer determines that the Issuer could not reasonably have taken any steps to avoid such illegality, increased cost or regulatory capital treatment.

"Disruption Event" means (i) a Hedging Disruption, (ii) an Increased Cost of Hedging, or (iii) a Change in Law.

"Hedge Positions" shall mean, on an individual trade or portfolio basis, any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, swaps, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by the Issuer and/or any of its affiliates in order to hedge all or part of the Issuer's obligations with respect to the Instruments (or any other relevant price risk, including, but not limited to, the equity price risk, currency risk or commodity price risk) to the Issuer's satisfaction.

"Hedging Call Early Redemption Amount" means, unless otherwise specified in the relevant Final Terms, the principal amount outstanding of the Instruments, less any costs to the Issuer of acquiring, establishing, re-establishing, substituting or unwinding any of its Hedge Positions in respect of such early redemption, plus any other amount as specified in the Final Terms.

"Hedging Disruption" shall mean that the Issuer or any affiliate is unable or will become unable for any reason as determined by it in its sole discretion, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hedge Positions it deems necessary to hedge all or part of the Issuer's obligations with respect to the Instruments (including without limitation, where such Hedge Positions would contribute to the breach of applicable position limits set by any exchange, trading facility or competent authority or as a result of any adjustment(s) to the exposure(s) underlying the transaction in the Instruments), or (B) realise, recover or remit the proceeds of any such Hedge Positions.

"Increased Cost of Hedging" shall mean that the Issuer or any affiliate has or would incur as determined by it in its sole discretion a materially increased (as compared with circumstances existing on the relevant Issue Date) amount of tax, duty, expense or fee (including, without limitation, brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any Hedge Positions it deems necessary to hedge all or part of the Issuer's obligations with respect to the relevant Instruments, or (B) realise, recover or remit the proceeds of any such Hedge Positions, *provided that* any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer or its affiliate (as applicable) shall not be deemed an Increased Cost of Hedging.

5.07 The appropriate notice referred to in Conditions 5.05 or 5.06 is a notice given by the Issuer to the Trustee, Principal Paying Agent, the Registrar (in the case of Registered Instruments only)

and the Holders of the Instruments of the relevant Series, which notice shall be signed by two duly authorised officers of the Issuer and shall specify:

- the Series of Instruments subject to redemption;
- (if the relevant Final Terms specifies that some only of the Instruments of the relevant Series may be redeemed) whether such Series is to be redeemed in whole or in part only and, if in part only, the aggregate principal amount of the Instruments of the relevant Series which are to be redeemed;
- the due date for such redemption which shall be a Business Day (as defined in Condition 8C.03), which shall be not less than thirty days (or such lesser period as may be specified in the relevant Final Terms) after the date on which such notice is validly given and which is, in the case of Instruments which bear interest at a floating rate, a date upon which interest is payable; and
- the Call Early Redemption Amount at which such Instruments are to be redeemed.

Any such notice shall be irrevocable, and the delivery thereof shall oblige the Issuer to make the redemption therein specified.

Partial Redemption

5.08 If the Instruments of a Series are to be redeemed in part only on any date in accordance with Conditions 5.05 or 5.06:

- in the case of Bearer Instruments, the Instruments to be redeemed shall be drawn by lot in such European city as the Trustee may specify, or identified in such other manner or in such other place as the Trustee may approve and deem appropriate and fair, subject always to compliance with all applicable laws and the requirements of any competent authority, listing authority and/or stock exchange on which the relevant Instruments may be admitted for listing, trading and/or quotation and, if applicable, the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion); and
- in the case of Registered Instruments, the Instruments shall be redeemed (so far as may be practicable) pro rata to their principal amounts, subject always as aforesaid and provided always that the amount redeemed in respect of each Instrument shall be equal to the minimum denomination thereof or an integral multiple thereof.

Optional Early Redemption (Put)

5.09 If this Condition 5.09 is specified in the relevant Final Terms as being applicable, then the Issuer shall, upon the exercise of the relevant option by the Holder of any Instrument of the relevant Series, redeem such Instrument on the date or the next of the dates specified in the relevant Final Terms (the "**Put Redemption Date**") at its put early redemption amount (which shall be its principal amount or such other put early redemption amount as may be specified in or determined in accordance with the relevant Final Terms) (the "**Put Early Redemption Amount**") less, in the case of any Instalment Instrument, the aggregate amount of all instalments that shall have become due and payable in respect of such Instrument under any other Condition prior to the date fixed for redemption (which amount, if and to the extent not then paid, remains due and payable), together with accrued interest (if any) thereon (calculated as provided in these Conditions and the Trust Deed) and in the case of Open End Instruments, arrears of interest (if any) in respect thereon to but excluding the date fixed for redemption. In order to exercise such option, the Holder must, not less than forty-five days before the date so specified (or such other period as may be specified in the relevant Final

Terms), in the case of a Temporary Global Instrument or a Permanent Global Instrument give written notice of such exercise to the Principal Paying Agent specifying the principal amount of Instruments in respect of which such option is being exercised or in the case of Definitive Instruments, deposit the relevant Instrument (together, in the case of an interest-bearing Definitive Instrument, with any unmatured Coupons appertaining thereto) with, in the case of a Bearer Instrument, any Paying Agent or, in the case of a Registered Instrument, the Registrar together with a duly completed redemption notice in the form which is available from the specified office of any of the Paying Agents or, as the case may be, the Registrar.

Early Redemption of Zero Coupon Instruments

5.10 Unless otherwise specified in the applicable Final Terms, the early redemption amount payable on redemption of a Zero Coupon Instrument at any time before the specified Maturity Date shall be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Instrument becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 5.10 or, if none is so specified, a Day Count Fraction of 30E/360.

For the purposes of this Condition, "**Reference Price**", "**Accrual Yield**" and "**Day Count Fraction**" have the meaning given in the relevant Final Terms.

Purchase of Instruments

5.11 The Issuer may at any time purchase Instruments in the open market or otherwise and at any price *provided that*, in the case of interest-bearing Definitive Instruments, any unmatured Coupons appertaining thereto are purchased therewith. In the case of Subordinated Instruments, the aforementioned provisions are subject to the prior permission (if required) of the competent regulatory authority.

Cancellation of Redeemed and Purchased Instruments

5.12 All unmatured Instruments redeemed or purchased in accordance with this Condition 5 (which may comprise the whole or only part of a Series of Instruments, and provided, in the case of interest-bearing Instruments, that all unmatured Coupons and unexchanged Talons appertaining thereto are attached or surrendered therewith) will be cancelled and may not be reissued or resold. References in this Condition 5 to the purchase of Instruments by the Issuer shall not include the purchase of Instruments in the ordinary course of business of dealing in securities.

Late Payment on Zero Coupon Instruments

5.13 If the redemption amount payable in respect of any Zero Coupon Instrument is improperly withheld or refused, the redemption amount shall thereafter be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including)

the Issue Date to (but excluding) the day on which all sums due in respect of such Instrument up to that day are received by or on behalf of the relevant Holder.

6. Events of Default

6A. Unsubordinated Instruments

This Condition 6A is applicable only in relation to Unsubordinated Instruments **6A.01**. Unless otherwise specified in the relevant Final Terms, the following events or circumstances (each, a "**Default**") shall be acceleration events in relation to the Unsubordinated Instruments of any Series:

- (i) the Issuer defaults in any payment of principal, interest or other amount due in respect of any Unsubordinated Instrument of the relevant Series or any of them when and as the same shall become due and payable and such default shall not have been cured within 30 days after written notice requiring such default to be remedied shall have been given by the Trustee to the Issuer at the specified office of the Principal Paying Agent, or the case may be, Registrar; or
- (ii) the Issuer defaults in the performance of any provision of the Trust Deed, the Paying Agency Agreement or of any Unsubordinated Instruments of the relevant Series (other than the payment of principal or interest or of any other amount due in respect of Unsubordinated Instruments) and such default is not cured within 45 days after written notice requiring such default to be remedied shall have been given by the Trustee to the Issuer at the specified office of the Principal Paying Agent or, as the case may be, Registrar; or
- (iii) an order is made or any law is enacted or an effective resolution is passed for the dissolution or winding-up of the Issuer (other than for the purposes of merger, consolidation or other form of combination with another legal entity as contemplated in Condition 12.)

6A.02 If any Default shall occur in relation to any Series of Unsubordinated Instruments, the Trustee may, and shall (subject to its rights under the Trust Deed to be indemnified to its satisfaction) if so requested in writing by the Holders of not less than 25 per cent. in principal amount of the Unsubordinated Instruments of the relevant Series then outstanding or if so directed by an Extraordinary Resolution of the Holders by written notice to the Issuer declare that such Instruments and (if the Instruments are interest-bearing) all interest then accrued on such Instrument shall be forthwith due and payable, whereupon the same shall become immediately due and payable at its default early redemption amount (which shall be its principal amount or such other default early redemption amount as may be specified in or determined in accordance with the relevant Final Terms) less, in the case of any Unsubordinated Instalment Instrument, the aggregate amount of all instalments that shall become due and payable in respect of such Instrument under any other Condition prior to the date fixed for redemption (which amount, if and to the extent not then paid, remains due and payable), together with all interest (if any) accrued thereon without presentment, demand, protest or other notice of any kind, all of which the Issuer has expressly waived, anything contained in such Unsubordinated Instruments to the contrary notwithstanding, unless prior thereto, the Default in respect of the Unsubordinated Instruments of the relevant Series shall have been cured.

6A.03 No Holder of any Unsubordinated Instrument shall be entitled to take any of the actions referred to in Condition 6A.02 except that if the Trustee, having become bound to take such action, fails to do so within a reasonable period and such failure shall be continuing, then any Holder of any Unsubordinated Instrument of the relevant Series may, on giving an indemnity satisfactory to the Trustee, in the name of the Trustee (but not otherwise), himself take such

action to the same extent (but not further or otherwise) that the Trustee would have been entitled so to do.

6B. Subordinated Instruments

There shall be no Events of Default in relation to Subordinated Instruments. Holders are not entitled to terminate the Subordinated Instruments.

7. Taxation

For further information regarding "German Taxation", "Luxembourg Taxation", "Singapore Taxation", "US Taxation", "United Kingdom Taxation", "Austrian Taxation", see pages 703 to 721 of the Base Prospectus.

7.01 All amounts payable by or on behalf of the Issuer (whether in respect of principal, interest, redemption amount, or otherwise, as provided in the relevant Final Terms) in respect of the Instruments will be made without withholding or deduction for or on account of any present or future taxes, duties, assessments or government charges of whatever nature ("**Taxes**") imposed or levied by or on behalf of (i) the country of incorporation of the Issuer, or (ii) the jurisdiction in which such Instruments shall be issued by the Issuer, or (iii) or pursuant to any agreement between the Issuer and any applicable jurisdiction where the Issuer is acting through a branch, the jurisdiction where the branch is located (the "**Relevant Taxing Jurisdiction**") or, in each case, any political subdivision thereof or any authority or agency therein or thereof having power to tax, unless the withholding or deduction of such Taxes is required by law or by the administration or official interpretation thereof. In that event, the Issuer will pay such additional amounts as may be necessary in order that the net amounts receivable by the Holder of any Instrument or Coupon after such withholding or deducting shall equal the respective amounts which would have been receivable by such Holder in the absence of such withholding or deduction; except that no such additional amounts shall be payable in relation to any payment in respect of any Instrument or Coupon:

- (i) as far as German *Kapitalertragsteuer* including German *Solidarit tszuschlag* thereon or any other tax which may substitute the German *Kapitalertragsteuer* or *Solidarit tszuschlag* is concerned; or
- (ii) to, or to a third party on behalf of, a Holder of any Instrument or Coupon who is liable to such Taxes in respect of such Instrument or Coupon by reason of his having some connection with the Relevant Taxing Jurisdiction or any political subdivision thereof, other than the mere holding of such Instrument or Coupon; or
- (iii) presented for payment more than thirty days after the Relevant Date, except to the extent that the relevant Holder would have been entitled to such additional amounts on presenting the same for payment on the last day of the period assuming that day to have been a Relevant Financial Centre Day (as defined in Condition 8A.05 or, as the case may be, 8B.02); or
- (iv) to, or to a third party on behalf of, a Holder of any Instrument or Coupon who is liable or subject to withholding or deduction by reason of his failure to comply with any statutory or procedural requirement (including, without limitation, any certification, identification, information reporting or similar requirement (based in law, regulation or market practice) concerning the nationality, residence or identity or connection with the Relevant Taxing Jurisdiction); or
- (v) where the Relevant Taxing Jurisdiction is Singapore, to, or to a third party on behalf of, a Holder of any Instrument or Coupon (other than an individual) who is a resident of, or a permanent establishment in, Singapore; or

- (vi) where the Relevant Taxing Jurisdiction is the United States of America, to, or to a third party on behalf of, a Holder of any Instrument or Coupon (other than an individual) who is a resident of, or a permanent establishment in, the United States of America; or
- (vii) any tax, assessment or other governmental charge imposed on (i) a Holder of any Instrument that actually or constructively owns 10 per cent. or more of the combined voting power of all classes of stock of the Issuer or that is a controlled foreign corporation related to the Issuer through stock ownership or is a bank that acquired such Instrument or Coupon in consideration of an extension of credit made pursuant to a loan agreement entered into in the ordinary course of business, or (ii) contingent interest as described in section 871(h)(4) of the Code (as defined below) (generally, interest that is determined with reference to the cash flow, profitability, value of property of, or distributions of the Issuer or a related person thereto);
- (viii) any withholding or deduction that is required to be made pursuant to Sections 1471 to 1474 of the Code ("**FATCA**"), any treaty, law, regulation or other official guidance enacted by Germany or any other jurisdiction implementing an intergovernmental approach to FATCA, or any agreement between the Issuer or any person making payments on behalf of the Issuer and the United States or any authority thereof implementing FATCA.

In this Clause 7.01 (vii) and (viii), "**Code**" shall mean the United States Internal Revenue Code of 1986, as amended.

- 7.02** For the purposes of these Terms and Conditions, the "**Relevant Date**" means, in respect of any payment, the date on which such payment first becomes due and payable, but if the full amount of the moneys payable has not been received by the Principal Paying Agent, or as the case may be, the Registrar on or prior to such due date, it means the first date on which, the full amount of such moneys having been so received and being available for payment to Holders of Instruments and Coupons, notice to that effect shall have been duly given to the Trustee in accordance with the Trust Deed.
- 7.03** If the Issuer becomes subject generally at any time to any taxing jurisdiction other than or in addition to its country of incorporation, references herein to "the country of incorporation of the Issuer" shall be read and construed as references to that country and/or to such other jurisdiction.
- 7.04** Any reference in these Terms and Conditions to principal, redemption amount and/or interest in respect of the Instruments shall be deemed also to refer to any additional amounts which may be payable under this Condition 7 or any undertaking given in addition thereto or in substitution therefor pursuant to the Trust Deed.

8. Payments

8A Payments — Bearer Instruments

8A.01 This Condition 8A is applicable to Instruments in bearer form.

8A.02 Payment of amounts (whether principal, redemption amount or otherwise and including accrued interest other than interest due against surrender of matured Coupons) due in respect of Bearer Instruments will be made against presentation and (save in the case of a partial redemption which includes, in the case of an Instalment Instrument, payment of any instalment other than the final instalment) surrender of the relevant Bearer Instruments to or to the order of any of the Paying Agents outside (unless Condition 8A.04 applies) the United States.

8A.03 Payment of amounts in respect of interest on Bearer Instruments will be made:

- (i) in the case of a Temporary Global Instrument, or Permanent Global Instrument against presentation of the relevant Temporary Global Instrument or Permanent Global Instrument to or to the order of any of the Paying Agents outside (unless Condition 8A.04 applies) the United States and, in the case of a Temporary Global Instrument, upon due certification as required therein;
- (ii) in the case of Definitive Instruments without Coupons attached thereto at the time of their initial delivery, against presentation of the relevant Definitive Instruments at the specified office of any of the Paying Agents outside (unless Condition 8A.04 applies) the United States; and
- (iii) in the case of Definitive Instruments delivered with Coupons attached thereto at the time of their initial delivery, against surrender of the relevant Coupons at the specified office of any of the Paying Agents outside (unless Condition 8A.04 applies) the United States.

On each occasion on which a payment is made in respect of a Temporary Global Instrument or a Permanent Global Instrument, the Issuer shall procure that in respect of a global Instrument which is not intended to be issued in new global instrument form that the payment is noted in a schedule thereto and in respect of a global Instrument which is intended to be issued in new global instrument form that the payment is entered pro rata in the records of Euroclear and/or Clearstream Luxembourg.

8A.04 Payments of amounts due in respect of interest on the Bearer Instruments and exchanges of Talons for Coupon sheets in accordance with Condition 8A.07 will not be made at the specified office of any Paying Agent in the United States (as defined in the United States Internal Revenue Code of 1986 and Regulations thereunder) unless (a) payment in full of amounts due or, as the case may be, the exchange of Talons in respect of interest on such Instruments when due at all the specified offices of the Paying Agents outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions, (b) such payment or, as the case may be, exchange is permitted by applicable United States law and (c) the Bearer Instruments are denominated in and payable in United States dollars. If paragraphs (a) to (c) of the previous sentence apply, the Issuer shall forthwith appoint a further Paying Agent with a specified office in New York City.

8A.05 If the due date for payment of any amount due in respect of any Bearer Instrument is not both a Relevant Financial Centre Day and a local banking day, then the Holder thereof will not be entitled to payment thereof until the next day which is such a day and, thereafter, will be entitled to receive payment by cheque on any local banking day, and will be entitled to payment by transfer to a designated account, on any day which is a local banking day, a Relevant Financial Centre Day and a day on which commercial banks and foreign exchange markets settle payments in the relevant currency in the place where the relevant designated account is located. No further payment on account of interest or otherwise shall be due in respect of such postponed payments unless there is a subsequent failure to pay in accordance with these Terms and Conditions in which event interest shall continue to accrue as provided in Condition 4E.06. For the purpose of this Condition 8A.05, "**Relevant Financial Centre Day**" means, (i) in the case of a currency other than Euro, a day on which commercial banks and foreign exchange markets settle payments in the Relevant Financial Centre and any other place specified in the relevant Final Terms and (ii) in the case of payment in Euro, a day on which the TARGET System (as defined below)

is operating, and/or (iii) such other day as is specified in the Final Terms, and a "**local banking day**" means a day (other than a Saturday and Sunday) on which commercial banks are open for business (including, where applicable, the presentation and payment of bearer debt securities) in the place of presentation of the relevant Instrument or, as the case may be, Coupon.

8A.06 Each Definitive Instrument initially delivered with Coupons attached thereto shall be presented and, save in the case of partial payment which includes, in the case of an Instalment Instrument, payment of any instalment other than the final instalment, surrendered for final redemption together with all unmatured Coupons appertaining thereto, failing which:

- (i) in the case of Definitive Instruments which bear interest at a fixed rate or rates, the amount of any missing unmatured Coupons (or, in the case of a payment not being made in full, that portion of the amount of such missing unmatured Coupon which the redemption amount paid bears to the total redemption amount due) (excluding, for this purpose, Talons) will be deducted from the amount otherwise payable on such final redemption, the principal amount so deducted being payable against surrender of the relevant Coupon at the specified office of any Paying Agents at any time within ten years of the Relevant Date applicable to payment of such final redemption amount;
- (ii) in the case of Definitive Instruments which bear interest at, or at a margin above or below, a floating rate, all unmatured Coupons (excluding, for this purpose, but without prejudice to paragraph (iii) below, Talons) relating to such Definitive Instruments (whether or not surrendered therewith) shall become void forthwith and no payment shall be made thereafter in respect of them; and
- (iii) in the case of Definitive Instruments initially delivered with Talons attached thereto, all unmatured Talons shall become void forthwith and no exchange for Coupons shall be made thereafter in respect of them.

The provisions of paragraph (i) of this Condition 8A.06 notwithstanding, if any Definitive Instruments which bear interest at a fixed rate or rates should be issued with a maturity date and a fixed rate or fixed rates such that, on the presentation for payment of any such Definitive Instrument without any unmatured Coupons attached thereto or surrendered therewith, the amount required by paragraph (i) to be deducted would be greater than the amount otherwise due for payment, then, upon the due date for redemption of any such Definitive Instrument, such unmatured Coupons (whether or not attached) being Coupons representing an amount in excess of the relevant redemption amount shall become void (and no payment shall be made in respect thereof) as shall be required so that, upon application of the provisions of paragraph (i) in respect of such Coupons as have not so become void, the amount required by paragraph (i) to be deducted would not be greater than the amount otherwise due for payment. Where the application of the foregoing sentence requires some but not all of the unmatured Coupons relating to a Definitive Instrument to become void, the relevant Paying Agent shall determine which unmatured Coupons are to become void, and shall select for such purpose Coupons maturing on later dates in preference to Coupons maturing on earlier dates.

8A.07 In relation to Definitive Instruments initially delivered with Talons attached thereto, on or after the due date for the payment of interest on which the final Coupon comprised in any Coupon sheet matures, the Talon comprised in the Coupon sheet may be surrendered at the specified office of any Paying Agent outside (unless

Condition 8A.04 applies) the United States in exchange for a further Coupon sheet (including any appropriate further Talon), subject to the provisions of Condition 10 below. Each Talon shall, for the purpose of these Conditions, be deemed to mature on the due date for the payment of interest on which the final Coupon comprised in the relative Coupon sheet matures.

8A.08 For the purposes of Condition 1.02 and this Condition 8A, the "**United States**" means the United States of America (including the States thereof and the District of Columbia) and its possessions (including Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, Wake Island and Northern Mariana Islands).

8B Payments — Registered Instruments

8B.01 This Condition 8B is applicable to Instruments in registered form.

8B.02 Payment of amounts due in respect of Registered Instruments on the final redemption of Registered Instruments will be made against presentation and, save in the case of partial payment of the amount due upon final redemption by reason of insufficiency of funds, surrender of the relevant Registered Instruments at the specified office of the Registrar. If the due date for payment of the final redemption amount of Registered Instruments is not both a Relevant Financial Centre Day and a local banking day, then the Holder thereof will not be entitled to payment thereof until the next day which is such a day and, thereafter, will be entitled to receive payment by cheque on any local banking day and will be entitled to payment by transfer to a designated account on any day which is a local banking day, a Relevant Financial Centre Day and a day on which commercial banks and foreign exchange markets settle payments in the relevant currency in the place where the relevant designated account is located. 8B.04 Notwithstanding the provisions of Condition 8C.02, payment of amounts (whether principal, redemption amount, interest or otherwise as specified in the relevant Final Terms) due (other than in respect of final redemption of Registered Instruments) in respect of Registered Instruments will be made by cheque and posted to the address (as recorded in the Register held by the Registrar) of the Holder thereof (or, in the case of joint-Holders, the first-named) on the Relevant Banking Day not later than the relevant date for payment unless prior to the relevant Record Date the Holder thereof (or, in the case of joint Holders, the first named) has applied to the Registrar and the Registrar has acknowledged such application for payment to be made to a designated

account in the relevant currency (in the case aforesaid, a non-resident account with an authorised foreign exchange bank).

For the purposes of these Terms and Conditions, "**Relevant Banking Day**" means a day on which commercial banks are open for business (including, where applicable, the registration or transfer of Registered Instruments and dealings in foreign exchange and foreign currency deposits) in the place where the specified office of the Registrar is located.

- 12.02** The Trustee may (subject to certain exceptions) without the consent of the Holders of the Instruments of any Series or of the Coupons appertaining thereto (i) agree to any modification of these Terms and Conditions or of the Trust Deed which, in any case, in the opinion of the Trustee, is not materially prejudicial to the interests of the Holders of such Instruments or is of a formal, minor or technical nature or which is made to correct a manifest error, or (ii) waive or authorise any breach or proposed breach by the Issuer of any of the provisions of these Terms and Conditions applicable to such Instruments or the Trust Deed or determine that any event which is, or with the giving of notice and/or the lapse of time and/or the issuing of any certificate and/or the fulfilment of any other requirement could be, a Default shall not be treated as such *provided that*, in the Trustee's opinion, the interests of the Holders of such Instruments will not be materially prejudiced thereby. Any notice so given will be deemed to have been validly given on the date of such publication (or, if published more than once, on the date of first such publication) or, as the case may be, on the date of such delivery to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. 14. Further Issues

The Issuer may, from time to time without the consent of the Holders of any Instruments or Coupons of any Series, create and issue further instruments, bonds or debentures having the same terms and conditions as the Instruments of such Series in all respects (or in all respects except for the first payment of interest, if any, on them and/or the denomination thereof) so as to form a single series with the Instruments of such Series. In such a case, the Instruments may be considered to have been issued with original issue discount ("**OID**") for U.S. federal income tax purposes even if the original Instruments had no OID, or the additional Instruments may have a greater amount of OID than the original Instruments. These differences may affect the market value of the original Instruments if the additional Instruments are not otherwise distinguishable from the original Instruments.

15. Law and Jurisdiction

Governing Law

15.01 The Instruments, Trust Deed, the Paying Agency Agreement and any non-contractual obligations arising out of or connected with them are governed by English law except for Condition 3B which shall be governed by German law.

Jurisdiction

15.02 The Issuer has, in the Trust Deed, for the benefit of the Trustee and the Holders of the Instruments agreed that the courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with the Instruments or any non-contractual obligations arising out of or in connection with the Instruments (respectively, "**Proceedings**" and "**Disputes**") and, for such purposes, the Issuer has irrevocably submitted to the jurisdiction of such courts and has (i) waived any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes and (ii) agreed not to claim that any such court is not a convenient or appropriate forum. LBBW has, in the Trust Deed, agreed that the process by which any proceedings in England are begun may be served on it by being delivered to Landesbank Baden-Württemberg, London branch at 201 Bishopsgate, London EC2M 3UN or at any other address at which process may from time to time be served on LBBW in accordance with Part 34 of the Companies Act 2006 (as modified or re-enacted from time to time). If LBBW ceases to be registered under such Part 34, LBBW shall forthwith appoint a person in England to accept service of process on its behalf in England and notify the name and address of such person to the Trustee and, failing such appointment within fifteen days, the Trustee shall be entitled to appoint such a person by notice to LBBW and to the Holders in accordance with Condition 13. Nothing contained herein shall affect the right to serve process in any other manner permitted by law. The submission to the jurisdiction of the courts of England shall not (and shall not be construed so as to) limit the right of the Trustee or the Holders of the Instruments or any of them to take Proceedings or settle Disputes in any other court of competent jurisdiction nor shall the taking of proceedings in any one or more jurisdictions preclude the taking of Proceedings or the settling of Disputes in any other jurisdiction (whether currently or not) if and to the extent permitted by applicable law.

15.03 No person shall have any right under the Contracts (Rights of Third Parties) Act 1999 to enforce any term or condition of the Instruments.

In case of the Deduction Reference Rate:

If at such time the Screen Page is not available or if no Deduction Reference Rate appears, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its **[include number of years]** Year Swap Rates to leading banks in the interbank swapmarket in the Euro-Zone at approximately 11.00 a.m. [(Frankfurt time)] **[insert other relevant location]** on the Interest Determination Date. [include number of years] year swap rate, or the arithmetic mean (rounded as provided above) of the [include number of years] Year Swap Rate, at which, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Calculation Agent and the Issuer suitable for such purpose) inform(s) the Calculation Agent it is or they are quoting to leading banks in the interbank swap market in the Euro-Zone (or, as the case may be, the quotations of such bank or banks to the Calculation Agent), If the Deduction Reference Rate cannot be determined in accordance with the foregoing provisions of this paragraph, the Deduction Reference Rate shall be the [include number of years] year swap rate or the arithmetic mean of the [include number of years] Year Swap Rate on the Screen Page, as described above, on the last day preceding the Interest Determination Date on which such [include number of years] Year Swap Rates were offered.

Each Interest Amount shall be calculated by applying the Rate of Interest and the Day Count Fraction (as defined below) to the aggregate principal amount of the Pfandbriefe and rounding the resultant figure to the nearest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.

[(4)][(5)] *Notification of Rate of Interest and Interest Amount.* The Calculation Agent will cause the Rate of Interest, each Interest Amount for each Interest Period, each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and to the Holders in accordance with §10 as soon as possible after their determination, but in no event later than the fourth [TARGET] [London] **[insert other relevant location]** Business Day (as defined in §3 (2)) thereafter and, if required by the rules of any stock exchange on which the Pfandbriefe are from time to time listed, to such stock exchange, as soon as possible their determination, but in no event later than the first day of the relevant Interest Period. If the Issuer shall fail to redeem the Pfandbriefe when due, interest shall continue to accrue on the outstanding principal amount of the Pfandbriefe beyond the due date until actual redemption of the Pfandbriefe. The applicable Rate of Interest will be the default rate of interest established by law⁷, unless the rate of interest under the Pfandbriefe are higher than the default rate of interest established by law, in which event the rate of interest under the Pfandbriefe continues to apply during the before mentioned period of time.]

- (1) *Amendment of the Terms and Conditions.*

- (a) The Issuer may amend the Terms and Conditions with the consent of a majority resolution of the Noteholders pursuant to §§ 5 et seq. of the SchVG. There will be no amendment of the Terms and Conditions without the Issuer's consent.
 - (b) In particular, the Noteholders may consent to amendments which materially change the substance of the Terms and Conditions, including such measures as provided for under § 5(3) of the SchVG, by resolutions passed by such majority of the votes of the Noteholders as stated under §13 paragraph (2) below. A duly passed majority resolution will be binding upon all Noteholders.
- (2) *Majority requirements.* Except as provided by the following sentence and provided that the quorum requirements are being met, the Noteholders may pass resolutions by simple majority of the voting rights participating in the vote. Resolutions which materially change the substance of the Terms and Conditions, in particular in the cases of §5(3) numbers 1 through 9 of the SchVG, may only be passed by a majority of at least 75 per cent. of the voting rights participating in the vote (a "**Qualified Majority**"). The voting right is suspended as long as any Notes are attributable to the Issuer or any of its affiliates (within the meaning of § 271(2) of the German Commercial Code (*Handelsgesetzbuch*)) or are being held for the account of the Issuer or any of its affiliates.
- (3) *Resolutions.* Resolutions of the Noteholders will be made either in a Noteholders' meeting in accordance with §13 paragraph (3) (i) or by means of a vote without a meeting (*Abstimmung ohne Versammlung*) in accordance with §13 paragraph (3) (ii), in either case convened by the Issuer or a joint representative, if any.
- (i) Resolutions of the Noteholders in a Noteholders' meeting will be made in accordance with § 9 et seq. of the SchVG.  - (ii) Resolutions of the Noteholders by means of a voting not requiring a physical meeting (*Abstimmung ohne Versammlung*) will be made in accordance § 18 of the SchVG. The subject matter of the vote as well as the proposed resolutions will be notified to Noteholders together with the request for voting.
- (4) *Second noteholders' meeting.* If it is ascertained that no quorum exists for the vote without meeting pursuant to §13 paragraph (3)(ii), the chairman (*Abstimmungsleiter*) may convene a meeting, which shall be deemed to be a second meeting within the meaning of § 15(3) sentence 3 of the SchVG.
- (5) *Registration.* The exercise of voting rights is subject to the registration of the Noteholders. As part of the registration, Noteholders must demonstrate their eligibility to participate in the vote by means of a special confirmation of their respective depositary bank hereof in text form and by submission of a blocking instruction by the depositary bank stating that the relevant Notes are not transferable from and including the day such registration has been sent until and including the stated end of the meeting or day the voting period ends, as the case may be.
- (6) *Joint representative.*

- (a) The Noteholders may by majority resolution provide for the appointment or dismissal of a joint representative, the duties and responsibilities and the powers of such joint representative, the transfer of the rights of the Noteholders to the joint representative and a limitation of liability of the joint representative. The joint representative shall provide reports to the Noteholders on its activities. The regulations of the SchVG apply with regard to the recall and the other rights and obligations of the joint representative.
 - (c) Unless the joint representative is liable for wilful misconduct (*Vorsatz*) or gross negligence (*grobe Fahrlässigkeit*), the joint representative's liability shall be limited to ten times the amount of its annual remuneration.
- (7) *Notices.* Any notices concerning this §13 will be made in accordance with § 5 et seq. of the SchVG and §11.]

- (1) *Zinssatz und Zinszahlungstage.*

[Im Fall von Pfandbriefen mit einer Zinszahlung einfügen: Die Pfandbriefe werden bezogen auf ihren Nennbetrag verzinst, und zwar vom **[Verzinsungsbeginn einfügen]** (einschließlich) bis zum Fälligkeitstag (wie in §5 (1) definiert) (ausschließlich) mit jährlich **[Zinssatz einfügen]** %. Die Zinszahlung erfolgt am **[Zinszahlungstag einfügen]** (der "**Zinszahlungstag**") **[sofern der Zinszahlungstag nicht der Jahrestag des Verzinsungsbeginns ist einfügen:** und beläuft sich auf **[Zinsbetrag pro festgelegte Stückelung einfügen]** je Pfandbrief mit einer Stückelung von **[festgelegte Stückelung einfügen].]**

[Im Fall von Pfandbriefen mit mehr als einer Zinszahlung, einfügen: Die Pfandbriefe werden bezogen auf ihren Nennbetrag verzinst, und zwar vom **[Verzinsungsbeginn einfügen]** (einschließlich) bis zum Fälligkeitstag (wie in §5 (1) definiert) (ausschließlich) mit jährlich **[Zinssatz einfügen]** %. Die Zinsen sind nachträglich am **[Festzinstermine) einfügen]** eines jeden Jahres zahlbar (jeweils ein "**Zinszahlungstag**"). Die erste Zinszahlung erfolgt am **[ersten Zinszahlungstag einfügen]** **[sofern der erste Zinszahlungstag nicht der erste Jahrestag des Verzinsungsbeginns ist einfügen:** und beläuft sich auf **[anfänglichen Bruchteilszinsbetrag pro festgelegte Stückelung einfügen]** je Pfandbrief mit einer Stückelung von **[festgelegte Stückelung einfügen].]** **[Sofern der Fälligkeitstag kein Festzinstermine ist, einfügen:** Die Zinsen für den Zeitraum vom **[den letzten dem Fälligkeitstag vorausgehenden Festzinstermine einfügen]** (einschließlich) bis zum Fälligkeitstag (ausschließlich) belaufen sich auf **[abschließenden Bruchteilszinsbetrag pro festgelegte Stückelung einfügen]** je Pfandbrief mit einer Stückelung von **[festgelegte Stückelung einfügen].]**

[Im Fall von Pfandbriefen mit Stufenzins einfügen: Die Pfandbriefe werden bezogen auf ihren Nennbetrag vom **[Verzinsungsbeginn einfügen]** (einschließlich) bis zum ersten Zinszahlungstag (wie nachstehend definiert) (ausschließlich) und anschließend von jedem Zinszahlungstag (einschließlich) bis zum unmittelbar folgenden Zinszahlungstag (ausschließlich) mit dem maßgeblichen Zinssatz (wie nachstehend definiert) verzinst. Die Zinsen sind an jedem Zinszahlungstag nachträglich zahlbar.

"**Zinszahlungstag(e)**" bedeutet jedes Datum, welches unter der Spalte mit der Überschrift "**Zinszahlungstag_(t)**" der nachstehenden Tabelle aufgeführt ist:

t	Zinszahlungstag _(t)	Zinssatz
---	--------------------------------	----------

[]	[] (der "erste Zinszahlungstag")	[]
[]	[]	[]
[]	[]	[]

Der Zinssatz (der "Zinssatz") ist im Hinblick auf einen Zinszahlungstag der Prozentsatz, der in der Spalte mit der Überschrift "Zinssatz" der vorstehenden Tabelle für den jeweiligen Zinszahlungstag angegeben ist.]

- (2) *Geschäftstagskonvention.* Fällt der Fälligkeitstag einer Zinszahlung in Bezug auf einen Pfandbrief auf einen Tag, der kein Geschäftstag ist, dann hat der Gläubiger **[bei Anwendbarkeit der Folgender Geschäftstagskonvention, einfügen:** keinen Anspruch auf Zahlung vor dem nächsten Geschäftstag am jeweiligen Geschäftsort [.] **[bei Anwendbarkeit der Modifizierten Folgender Geschäftstagskonvention, einfügen:** keinen Anspruch auf Zahlung vor dem nächsten Geschäftstag am jeweiligen Geschäftsort, es sei denn, der Geschäftstag würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall wird der Geschäftstag auf den unmittelbar vorausgehenden Geschäftstag vorgezogen [.] **[Wenn der Geschäftstag keiner Anpassung nach einer Geschäftstagskonvention unterliegt, einfügen:** und ist, je nach vorliegender Situation, weder berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund der Verschiebung zu verlangen noch muss er aufgrund der Verschiebung eine Kürzung der Zinsen hinnehmen.] **[Wenn der Geschäftstag einer Anpassung nach der Modifizierten Folgender Geschäftstagskonvention oder der Folgender Geschäftstagskonvention unterliegt, einfügen:** Ungeachtet des Absatzes (2) dieses §3 der Emissionsbedingungen hat der Gläubiger Anspruch auf weitere Zinszahlung für jeden zusätzlichen Tag, um den der Geschäftstag aufgrund der in diesem Absatz (2) von §3 der Emissionsbedingungen geschilderten Regelungen nach hinten verschoben wird. **[Wenn der Geschäftstag einer Anpassung nach der Modifizierten Folgender Geschäftstagskonvention unterliegt, einfügen:** Für den Fall jedoch, in dem der Geschäftstag im Einklang mit den in diesem Absatz (2) des §3 der Emissionsbedingungen auf den unmittelbar vorhergehenden Geschäftstag vorgezogen wird, hat der Gläubiger nur Anspruch auf Zinsen bis zum tatsächlichen Geschäftstag, nicht jedoch bis zum festgelegten Geschäftstag.]]
- (3) *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Pfandbriefe vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Pfandbriefe in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen⁷ zu verzinsen, es sei denn, die Pfandbriefe werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.
- (4) *Berechnung der Zinsen für Teile von Zeiträumen.* Sofern Zinsen für einen Zeitraum von weniger als einem Jahr zu berechnen sind, erfolgt die Berechnung auf der Grundlage des Zinstagequotienten (wie nachstehend definiert).
- (5) *Zinstagequotient.* "Zinstagequotient" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf einen Pfandbrief für einen beliebigen Zeitraum (der "Zinsberechnungszeitraum"):

⁷ Der gesetzliche Verzugszinssatz beträgt gemäß §§ 288 Absatz 1, 247 BGB für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz.

[Falls Actual/Actual (ICMA Regelung 251) anwendbar ist und wenn der Zinsberechnungszeitraum kürzer ist als die Bezugsperiode, in die der Zinsberechnungszeitraum fällt, oder ihr entspricht (einschließlich im Falle eines kurzen Kupons) einfügen: die Anzahl von Tagen in dem Zinsberechnungszeitraum, geteilt durch **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** das Produkt aus (1)] [die] [der] Anzahl der Tage in der Bezugsperiode, in die der Zinsberechnungszeitraum fällt **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** und (2) der Anzahl von Bezugsperioden, die in ein Kalenderjahr fallen oder fallen würden, falls Zinsen für das gesamte Jahr zu zahlen wären].]

[Falls Actual/Actual (ICMA Regelung 251) anwendbar ist und wenn der Zinsberechnungszeitraum länger ist als eine Bezugsperiode (langer Kupon) einfügen: die Summe aus:

- (A) der Anzahl von Tagen in dem Zinsberechnungszeitraum, die in die Bezugsperiode fallen, in welcher der Zinsberechnungszeitraum beginnt, geteilt durch **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** das Produkt aus (1)] [die] [der] Anzahl der Tage in dieser Bezugsperiode **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** und (2) der Anzahl von Bezugsperioden, die in ein Kalenderjahr fallen oder fallen würden, falls Zinsen für das gesamte Jahr zu zahlen wären]; und
- (B) der Anzahl von Tagen in dem Zinsberechnungszeitraum, die in die nächste Bezugsperiode fallen, geteilt durch **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** das Produkt aus (1)] [die] [der] Anzahl der Tage in dieser Bezugsperiode **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** und (2) der Anzahl von Bezugsperioden, die in ein Kalenderjahr fallen oder fallen würden, falls Zinsen für das gesamte Jahr zu zahlen wären].]

[Falls Actual/Actual (ICMA Regelung 251) anwendbar ist einfügen: "Bezugsperiode" bezeichnet den Zeitraum ab dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) oder von jedem Zinszahlungstag (einschließlich) bis zum nächsten Zinszahlungstag (ausschließlich). **[Im Falle eines ersten oder letzten kurzen Zinsberechnungszeitraumes einfügen:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gilt der **[Fiktiven Verzinsungsbeginn oder fiktiven Zinszahlungstag einfügen]** als **[Verzinsungsbeginn] [Zinszahlungstag].]** **[Im Falle eines ersten oder letzten langen Zinsberechnungszeitraumes einfügen:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gelten der **[Fiktiven Verzinsungsbeginn [und][oder] fiktive[n] Zinszahlungstag[e] einfügen]** als **[Verzinsungsbeginn] [und] [Zinszahlungstag[e]].]**

[Im Fall von Actual/Actual (ISDA) einfügen: (ISDA) die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum, dividiert durch 365 (oder, falls ein Teil dieses Zinsberechnungszeitraumes in ein Schaltjahr fällt, die Summe aus (A) der tatsächlichen Anzahl der in das Schaltjahr fallenden Tage des Zinsberechnungszeitraumes dividiert durch 366 und (B) die tatsächliche Anzahl der nicht in das Schaltjahr fallenden Tage des Zinsberechnungszeitraumes dividiert durch 365).]

[Im Fall von Actual/365 (Fixed) einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 365.]

[Im Fall von Actual/360 einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360.]

[Im Fall von 30/360, 360/360 oder Bond Basis einfügen: die Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360, wobei die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit zwölf Monaten zu je 30 Tagen zu ermitteln ist (es sei denn, (A) der letzte Tag des Zinsberechnungszeitraums fällt auf den 31. Tag eines Monats, während der erste Tag des Zinsberechnungszeitraumes weder auf den 30. noch auf den 31. Tag eines Monats fällt, wobei in diesem Fall der diesen Tag enthaltende Monat nicht als ein auf 30 Tage gekürzter Monat zu behandeln ist, oder (B) der letzte Tag des Zinsberechnungszeitraumes fällt auf den letzten Tag des Monats Februar, wobei in diesem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

[Im Fall von 30E/360 oder Eurobond Basis einfügen: die Anzahl der Tage im Zinsberechnungszeitraum dividiert durch 360 (dabei ist die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit 12 Monaten zu 30 Tagen zu ermitteln, und zwar ohne Berücksichtigung des ersten oder letzten Tages des Zinsberechnungszeitraumes), es sei denn, dass im Falle einer am Fälligkeitstag endenden Zinsperiode der Fälligkeitstag der letzte Tag des Monats Februar ist, in welchem Fall der Monat Februar als nicht auf einen Monat zu 30 Tagen verlängert gilt.]

Der Gläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen. Für diese Zwecke bezeichnet "**Geschäftstag**" einen Tag (außer einem Samstag oder Sonntag), an dem das Clearing System **[falls die festgelegte Währung Euro ist oder falls das TARGET System aus anderen Gründen benötigt wird, einfügen:** sowie das TARGET System] betriebsbereit ist **[falls die festgelegte Währung nicht Euro ist, oder falls aus anderen Gründen erforderlich, einfügen:** [und] Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren einfügen]** Zahlungen abwickeln].

Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die jeweiligen Ansprüche der Gläubiger gegen die Emittentin.

§5 RÜCKZAHLUNG

Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Pfandbriefe zu ihrem Rückzahlungsbetrag am **[Fälligkeitstag einfügen]** (der "**Fälligkeitstag**") zurückgezahlt. §11

ANWENDBARES RECHT, GERICHTSSTAND UND GERICHTLICHE GELTENDMACHUNG

- (1) Form und Inhalt der Pfandbriefe sowie die Rechte und Pflichten der Emittentin und der Gläubiger unterliegen dem Recht der Bundesrepublik Deutschland. Soweit gemäß Verordnung (EG) Nr. 864/2007 vom 11. Juli 2007 über das auf außervertragliche Schuldverhältnisse anzuwendende Recht (Rom II) zulässig, unterliegen sämtliche nicht vertraglichen Ansprüche aus oder im Zusammenhang mit den Pfandbriefen deutschem Recht und werden nach diesem ausgelegt.

- (2) Nicht ausschließlich zuständig für sämtliche im Zusammenhang mit den Pfandbriefen entstehenden Klagen oder sonstige Verfahren ("**Rechtsstreitigkeiten**") ist das Landgericht Stuttgart.
- (3) *Gerichtliche Geltendmachung.* Jeder Gläubiger von Pfandbriefen ist berechtigt, in jedem Rechtsstreit gegen die Emittentin oder in jedem Rechtsstreit, in dem der Gläubiger und die Emittentin Partei sind, seine Rechte aus diesen Pfandbriefen im eigenen Namen auf der folgenden Grundlage zu schützen oder geltend zu machen: (i) indem er eine Bescheinigung der Depotbank beibringt, bei der er für die Pfandbriefe ein Wertpapierdepot unterhält, welche (a) den vollständigen Namen und die vollständige Adresse des Gläubigers enthält, (b) den Gesamtnennbetrag der Pfandbriefe bezeichnet, die unter dem Datum der Bestätigung auf dem Wertpapierdepot verbucht sind und (c) bestätigt, dass die Depotbank gegenüber dem Clearing System eine schriftliche Erklärung abgegeben hat, die die vorstehend unter (a) und (b) bezeichneten Informationen enthält; und (ii) indem er eine Kopie der die betreffenden Pfandbriefe verbriefenden Globalurkunde vorlegt, deren Übereinstimmung mit dem Original eine vertretungsberechtigte Person des Clearing Systems oder des Verwahrers des Clearing Systems bestätigt hat, ohne dass eine Vorlage der Originalbelege oder der die Pfandbriefe verbriefenden Globalurkunde in einem solchen Verfahren erforderlich wäre. OPTION II: EMISSIONSBEDINGUNGEN FÜR VARIABLEVERZINSLICHE INHABER- PFANDBRIEFE

§1

WÄHRUNG, STÜCKELUNG, FORM, DEFINITIONEN

- (1) *Währung; Stückelung.* Diese Serie von **[im Falle von Hypothekendarfandbriefen einfügen: Hypothekendarfandbriefe] [im Falle von Öffentlichen Darfandbriefen einfügen: Öffentlichen Darfandbriefe]** (die "**Pdarfandbriefe**") der Landesbank Baden Württemberg (die "**Emittentin**") wird in **[festgelegte Währung einfügen]** ("**Abkürzung der Währung einfügen**") oder die "**festgelegte Währung**") im Gesamtnennbetrag von **[bis zu] [Gesamtnennbetrag einfügen]**

(in Worten: **[Gesamtnennbetrag in Worten einfügen]**) in Stückelungen von **[festgelegte Stückelung einfügen]** (die "festgelegte Stückelung") begeben.

[Im Fall einer Zusammenfassung der Tranche mit einer bestehenden Serie, einfügen: Diese Tranche **[Tranchennummer einfügen]** wird mit der Serie **[Seriennummer einfügen]**, Tranche 1 begeben am **[Tag der Begebung der ersten Tranche einfügen]** [und der Serie **[Seriennummer einfügen]**, Tranche **[Tranchennummer einfügen]** begeben am **[Tag der Begebung der zweiten Tranche einfügen]**] [und der Serie **[Seriennummer einfügen]**, Tranche **[Tranchennummer einfügen]** begeben am **[Tag der Begebung der dritten Tranche einfügen]** konsolidiert und formt mit dieser eine einheitliche Serie **[Seriennummer einfügen]**. Der Gesamtnennbetrag der Serie **[Seriennummer einfügen]** lautet **[Gesamtnennbetrag der gesamten konsolidierten Serie [Seriennummer einfügen] einfügen].**]

(2) *Form.* Die Pfandbriefe lauten auf den Inhaber.

[Im Fall von Vorläufigen Global-Urkunden, die gegen Dauer-Global-Urkunden ausgetauscht werden, einfügen:

Die Pfandbriefe sind anfänglich in einer vorläufigen Global-Urkunde (die "**Vorläufige Global-Urkunde**"), ohne Zinsschein verbrieft. Die Vorläufige Global-Urkunde wird am oder nach dem 40. Tag (der "**Austauschtag**") nach dem Begebungstag nur nach Vorlage von Bescheinigungen, wonach der wirtschaftliche Eigentümer oder die wirtschaftlichen Eigentümer der durch die Vorläufige Global-Urkunde verbrieften Pfandbriefe keine U.S.-Person(en) ist bzw. sind (ausgenommen bestimmte Finanzinstitute oder Personen, die Pfandbriefe über solche Finanzinstitute halten) (die "**Bescheinigungen über Nicht-U.S.-Eigentum**"), gegen eine Dauer-Global-Urkunde (die "**Dauer-Global-Urkunde**" und, zusammen mit der Vorläufigen Global-Urkunde der "**Global-Pfandbrief**"), ausgetauscht. Jeder Global-Pfandbrief trägt die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin sowie die eigenhändige Unterschrift eines von der Bundesanstalt für Finanzdienstleistungsaufsicht bestellten Treuhänders zur Bestätigung, dass die vorgeschriebene Deckung für die Pfandbriefe vorhanden und in das vorgeschriebene Register eingetragen ist. [Die Details eines solchen Austausches werden in den Büchern der ICSD geführt.]

Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Pfandbriefe erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde auszutauschen.

Die Gläubiger haben keinen Anspruch auf Ausgabe von Pfandbriefen in effektiver Form. Die Pfandbriefe sind als Miteigentumsanteile an dem Global-Pfandbrief nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.

"**U.S.-Personen**" sind solche, wie sie in *Regulation S* des *United States Securities Act of 1933* definiert sind und umfassen insbesondere Gebietsansässige der Vereinigten Staaten sowie amerikanische Kapital- und Personengesellschaften.]

[Im Fall einer Dauer-Global-Urkunde ab dem Begebungstag, einfügen:

Die Pfandbriefe sind in einer Dauer-Global-Urkunde ohne Zinsschein verbrieft (der "**Global-Pfandbrief**"), der die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin sowie, die eigenhändige Unterschrift eines von der Bundesanstalt für Finanzdienstleistungsaufsicht bestellten unabhängigen Treuhänders zur Bestätigung, dass die vorgeschriebene Deckung für die Pfandbriefe vorhanden und in das vorgeschriebene Register eingetragen ist trägt. Die Gläubiger haben keinen Anspruch auf

Ausgabe von Pfandbriefen in effektiver Form. Die Pfandbriefe sind als Miteigentumsanteile an dem Global-Pfandbrief nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.]

- (3) Jeder Global-Pfandbrief wird von einem oder im Namen eines Clearing Systems verwahrt. "**Clearing System**" meint [Clearstream Banking AG, Frankfurt][Clearstream Banking, SA ("CBL") und Euroclear Bank SA/NV ("**Euroclear**")][(CBL und Euroclear sind jeweils ein "ICSD" (International Central Securities Depository) und gemeinsam die "ICSDs")][**anderes Clearing System festlegen**].]

[Im Fall von Euroclear und CBL und wenn der Global-Pfandbrief eine NGN ist, einfügen:

- (4) Die Pfandbriefe werden in New Global Note Form ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt. Der Nennbetrag der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Pfandbrief] verbrieften Pfandbriefe entspricht dem jeweils in den Büchern beider ICSDs eingetragenen Gesamtbetrag. Die Bücher der ICSDs (die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Pfandbriefen führt) sind schlüssiger Nachweis über den Nennbetrag der durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Pfandbrief] verbrieften Pfandbriefe und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Nennbetrag der so verbrieften Pfandbriefe ist zu jedem Zeitpunkt ein schlüssiger Nachweis über den Inhalt der Bücher des jeweiligen ICSD.

Bei jeder Rückzahlung oder Zinszahlung bezüglich bzw. Kauf und Entwertung der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Pfandbrief] verbrieften Pfandbriefe werden die Einzelheiten über Rückzahlung, Zinszahlung bzw. [Im Fall einer Zusammenfassung der Tranche mit einer bestehenden Serie, einfügen: Diese Tranche **[Tranchennummer einfügen]** wird mit der Serie **[Seriennummer einfügen]**, Tranche 1 begeben am **[Tag der Begebung der ersten Tranche einfügen]** **[und der Serie [Seriennummer einfügen], Tranche [Tranchennummer einfügen] begeben am [Tag der Begebung der zweiten Tranche einfügen]]** **[und der Serie [Seriennummer einfügen], Tranche [Tranchennummer einfügen] begeben am [Tag der Begebung der dritten Tranche einfügen]** konsolidiert und formt mit dieser eine einheitliche Serie **[Seriennummer einfügen]**. Der Gesamtnennbetrag der Serie **[Seriennummer einfügen]** lautet **[Gesamtnennbetrag der gesamten konsolidierten Serie [Seriennummer einfügen] einfügen].**

- (2) *Form.* Die Darfandbriefe lauten auf den Inhaber.

[Im Fall von Vorläufigen Global-Urkunden, die gegen Dauer-Global-Urkunden ausgetauscht werden, einfügen:

Die Darfandbriefe sind anfänglich in einer vorläufigen Global-Urkunde (die "**Vorläufige Global-Urkunde**"), ohne Zinsschein verbrieft. Die Vorläufige Global-Urkunde wird am oder nach dem 40. Tag (der "**Austauschtag**") nach dem Begebungstag nur nach Vorlage von Bescheinigungen, wonach der wirtschaftliche Eigentümer oder die wirtschaftlichen Eigentümer der durch die Vorläufige Global-Urkunde verbrieften Darfandbriefe keine U.S.-Person(en) ist bzw. sind (ausgenommen bestimmte Finanzinstitute oder Personen, die Darfandbriefe über solche Finanzinstitute halten) (die "**Bescheinigungen über Nicht-U.S.-Eigentum**"), gegen eine Dauer-Global-Urkunde (die "**Dauer-Global-Urkunde**" und, zusammen mit der Vorläufigen Global-Urkunde der "**Global-Darfandbrief**"), ausgetauscht. Jeder Global-Darfandbrief trägt die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin sowie die eigenhändige Unterschrift eines von der Bundesanstalt für Finanzdienstleistungsaufsicht bestellten Treuhänders zur Bestätigung, dass die vorgeschriebene Deckung für die Darfandbriefe vorhanden und in das vorgeschriebene Register eingetragen ist. [Die Details eines solchen Austausches werden in den Büchern der ICSD geführt.]

Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Darfandbriefe erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde auszutauschen.

Die Gläubiger haben keinen Anspruch auf Ausgabe von Darfandbriefen in effektiver Form. Die Darfandbriefe sind als Miteigentumsanteile an dem Global-Darfandbrief nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.

"U.S.-Personen" sind solche, wie sie in *Regulation S* des *United States Securities Act of 1933* definiert sind und umfassen insbesondere Gebietsansässige der Vereinigten Staaten sowie amerikanische Kapital- und Personengesellschaften.]

[Im Fall einer Dauer-Global-Urkunde ab dem Begebungstag, einfügen:

Die Pfandbriefe sind in einer Dauer-Global-Urkunde ohne Zinsschein verbrieft (der "Global-Pfandbrief"), der die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin sowie, die eigenhändige Unterschrift eines von der Bundesanstalt für Finanzdienstleistungsaufsicht bestellten unabhängigen Treuhänders zur Bestätigung, dass die vorgeschriebene Deckung für die Pfandbriefe vorhanden und in das vorgeschriebene Register eingetragen ist trägt. Die Gläubiger haben keinen Anspruch auf Ausgabe von Pfandbriefen in effektiver Form. Die Pfandbriefe sind als Miteigentumsanteile an dem Global-Pfandbrief nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.]

- (3) Jeder Global-Pfandbrief wird von einem oder im Namen eines Clearing Systems verwahrt. "Clearing System" meint [Clearstream Banking AG, Frankfurt][Clearstream Banking, SA ("CBL") und Euroclear Bank SA/NV ("Euroclear")][(CBL und Euroclear sind jeweils ein "ICSD" (International Central Securities Depository) und gemeinsam die "ICSDs")][anderes Clearing System festlegen].]

Der Nennbetrag der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Pfandbrief] verbrieften Pfandbriefe entspricht dem jeweils in den Büchern beider ICSDs eingetragenen Gesamtbetrag. Die Bücher der ICSDs (die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Pfandbriefen führt) sind schlüssiger Nachweis über den Nennbetrag der durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Pfandbrief] verbrieften Pfandbriefe und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Nennbetrag der so verbrieften Pfandbriefe ist zu jedem Zeitpunkt ein schlüssiger Nachweis über den Inhalt der Bücher des jeweiligen ICSD.

Bei jeder Rückzahlung oder Zinszahlung bezüglich bzw. Kauf und Entwertung der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Pfandbrief] verbrieften Pfandbriefe werden die Einzelheiten über Rückzahlung, Zinszahlung bzw. Kauf und Entwertung bezüglich der [Vorläufigen Global-Urkunde bzw. der] [Dauer-Global-Urkunde] [Global-Pfandbrief] anteilig in die Bücher der ICSDs eingetragen und nach dieser Eintragung vom Nennbetrag der in die Bücher der ICSDs aufgenommenen und durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Pfandbrief] verbrieften Pfandbriefe der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Pfandbriefe abgezogen. [Für das technische Verfahren der ICSDs im Fall der optionalen Rückzahlung (wie in §4 definiert) hinsichtlich einer teilweisen Rückzahlung wird der ausstehende Rückzahlungsbetrag entweder als Reduzierung des Nennbetrags oder als Poolfaktor nach Ermessen der ICSDs in die Bücher der ICSDs aufgenommen.]]

[Im Fall von Euroclear und CBL und wenn der Global-Pfandbrief eine CGN ist, einfügen:

- (4) Die Pfandbriefe werden in Classic Global Note Form ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]

[(4)][(5)] *Gläubiger von Pfandbriefen.* "Gläubiger" bedeutet jeder Inhaber eines Miteigentumsanteils oder anderen Rechts an den Pfandbriefen.

§2 STATUS

Die Pfandbriefe begründen unmittelbare, unbedingte und nicht-nachrangige Verbindlichkeiten der Emittentin, die untereinander gleichrangig sind. Die Pfandbriefe sind nach Maßgabe des Pfandbriefgesetzes gedeckt und stehen mindestens im gleichen Rang mit allen anderen Verpflichtungen der Emittentin aus **[im Falle von Hypothekentpfandbriefen einfügen: Hypothekentpfandbriefen]** **[im Falle von Öffentlichen Pfandbriefen einfügen: Öffentlichen Pfandbriefen]**.

Geschäftsbanken in [London] [zutreffenden anderen Ort einfügen] für Geschäfte (einschließlich Devisen und Sortengeschäfte) geöffnet sind.

"Bildschirmseite" bedeutet [Bildschirmseite einfügen] und jede Nachfolgeseite.

Für den Ausgangs-Referenzsatz gilt:

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit der Ausgangs-Referenzsatz nicht angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige [Zahl von Jahren einfügen]-Jahres-Swapsätze gegenüber führenden Banken im Interbanken-Swapmarkt in der Euro-Zone (um ca. 11.00 Uhr [(Frankfurter Ortszeit)][zutreffenden anderen Ort einfügen] am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche [Zahl von Jahren einfügen]-Jahres-Swapsätze nennen, ist der Ausgangs-Referenzsatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser [Zahl von Jahren einfügen] Jahres-Swapsätze, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen [Zahl von Jahren einfügen] Jahres-Swapsätze nennt, ist der Ausgangs-Referenzsatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der [Zahl von Jahren einfügen] Jahres-Swapsätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr [(Frankfurter Ortszeit)][zutreffenden anderen Ort einfügen] an dem betreffenden Zinsfestlegungstag von führenden Banken im Interbanken-Swapmarkt in der Euro-Zone angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche [Zahl von Jahren einfügen] Jahres-Swapsätze nennen, dann soll der Ausgangs-Referenzsatz für die betreffende Zinsperiode der [Zahl von Jahren einfügen] Jahres-Swapsatz oder das arithmetische Mittel (gerundet wie oben beschrieben) der [Zahl von Jahren einfügen] Jahres-Swapsätze sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Zinsfestlegungstag gegenüber führenden Banken am Interbanken-Swapmarkt in der Euro-Zone nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Ausgangs-Referenzsatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Ausgangs-Referenzsatz der [Zahl von Jahren einfügen] Jahres-Swapsatz oder das arithmetische Mittel der [Zahl von Jahren einfügen] Jahres-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem die [Zahl von Jahren einfügen] Jahres-Swapsätze angezeigt wurden.

Für den Abzugs-Referenzsatz gilt:

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit der Abzugs-Referenzsatz nicht angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige [Zahl von Jahren einfügen] Jahres-Swapsätze gegenüber führenden Banken im Interbanken-Swapmarkt in der Euro-Zone (um ca. 11.00 Uhr [(Frankfurter Ortszeit)][zutreffenden anderen Ort einfügen] am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche [Zahl von Jahren einfügen] Jahres-Swapsätze nennen, ist der Abzugs-Referenzsatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser

[**Zahl von Jahren einfügen**] Jahres-Swapsätze, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen [**Zahl von Jahren einfügen**] Jahres-Swapsätze nennt, ist der Abzugs-Referenzsatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der [**Zahl von Jahren einfügen**] Jahres-Swapsätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr [(Frankfurter Ortszeit)][**zutreffenden anderen Ort einfügen**] an dem betreffenden Zinsfestlegungstag von führenden Banken im Interbanken-Swapmarkt in der Euro-Zone angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche [**Zahl von Jahren einfügen**] Jahres-Swapsätze nennen, dann soll der Abzugs-Referenzsatz für die betreffende Zinsperiode der [**Zahl von Jahren einfügen**] Jahres-Swapsatz oder das arithmetische Mittel (gerundet wie oben beschrieben) der [**Zahl von Jahren einfügen**] Jahres-Swapsätze sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Zinsfestlegungstag gegenüber führenden Banken am Interbanken-Swapmarkt in der Euro-Zone nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Abzugs-Referenzsatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Abzugs-Referenzsatz der [**Zahl von Jahren einfügen**] Jahres-Swapsatz oder das arithmetische Mittel der [**Zahl von Jahren einfügen**] Jahres-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem die [**Zahl von Jahren einfügen**] Jahres-Swapsätze angezeigt wurden.

"Referenzbanken" bezeichnen diejenigen Niederlassungen von mindestens vier derjenigen Banken im Swapmarkt, die von der Berechnungsstelle in Abstimmung mit der Emittentin ausgewählt wurden, deren [**Zahl von Jahren einfügen**] Jahres-Swapsätze zur Ermittlung des maßgeblichen [**Zahl von Jahren einfügen**] Jahres-Swapsatz zu dem Zeitpunkt benutzt wurden, als solch ein [**Zahl von Jahren einfügen**] Jahres-Swapsatz letztmals auf der maßgeblichen Bildschirmseite angezeigt wurde.]

"Euro-Zone" bezeichnet das Gebiet derjenigen Mitgliedstaaten der Europäischen Union, die die einheitliche Währung, die zu Beginn der Dritten Phase der Europäischen Wirtschafts- und Währungsunion eingeführt wurde und die in der Verordnung (EG) Nr. 974/98 des Rates vom 3. Mai 1998 über die Einführung des Euro, in ihrer aktuellsten Fassung, definiert ist, angenommen haben.

[Falls ein Mindest- und/oder Höchstzinssatz gilt, einfügen:

(3) [*Mindest-*] [*und*] [*Höchst-*] Zinssatz.

[Falls ein Mindestzinssatz gilt einfügen: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als [**Mindestzinssatz einfügen**], so ist der Zinssatz für diese Zinsperiode [**Mindestzinssatz einfügen**].]

[Falls ein Höchstzinssatz gilt: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als [**Höchstzinssatz einfügen**], so ist der Zinssatz für diese Zinsperiode [**Höchstzinssatz einfügen**].]

[(3)][(4)] *Zinsbetrag*. Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Pfandbriefe zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und

der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(4)][(5)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin und den Gläubigern gemäß §10, baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden [TARGET][Londoner][**zutreffenden anderen Ort einfügen**] Geschäftstag (wie in §3(2) definiert) und jeder Börse, an der die betreffenden Pfandbriefe zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Pfandbriefe zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß §10 mitgeteilt.

[(5)][(6)] *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses §3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle[, die Zahlstellen] und die Gläubiger bindend.

[(6)][(7)] *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Pfandbriefe vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Pfandbriefe in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen¹¹ zu verzinsen, es sei denn, die Pfandbriefe werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.]

[(7)][(8)] *Zinstagequotient.* "**Zinstagequotient**" bezeichnet

¹¹ Der gesetzliche Verzugszinssatz beträgt gemäß §§ 288 Absatz 1, 247 BGB für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz.

[Falls Actual/Actual (ICMA Regelung 251) anwendbar ist einfügen: "Bezugsperiode" bezeichnet den Zeitraum ab dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) oder von jedem Zinszahlungstag (einschließlich) bis zum nächsten Zinszahlungstag (ausschließlich). **[Im Falle eines ersten oder letzten kurzen Zinsberechnungszeitraumes einfügen:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gilt der **[fiktiven Verzinsungsbeginn oder fiktiven Zinszahlungstag einfügen]** als **[Verzinsungsbeginn] [Zinszahlungstag].]** **[Im Falle eines ersten oder letzten langen Zinsberechnungszeitraumes einfügen:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gelten der **[fiktiven Verzinsungsbeginn [und][oder] fiktive[n] Zinszahlungstag[e] einfügen]** als **[Verzinsungsbeginn] [und] [Zinszahlungstag[e]].]**

[Im Fall von Vorläufigen Global-Urkunden, die gegen Dauer-Global-Urkunden ausgetauscht werden, einfügen:

Die Darfandbriefe sind anfänglich in einer vorläufigen Global-Urkunde (die "**Vorläufige Global-Urkunde**"), ohne Zinsschein verbrieft. Die Vorläufige Global-Urkunde wird am oder nach dem 40. Tag (der "**Austauschtag**") nach dem Begebungstag nur nach Vorlage von Bescheinigungen, wonach der wirtschaftliche Eigentümer oder die wirtschaftlichen Eigentümer der durch die Vorläufige Global-Urkunde verbrieften Darfandbriefe keine U.S.-Person(en) ist bzw. sind (ausgenommen bestimmte Finanzinstitute oder Personen, die Darfandbriefe über solche Finanzinstitute halten) (die "**Bescheinigungen über Nicht-U.S.-Eigentum**"), gegen eine Dauer-Global-Urkunde (die "**Dauer-Global-Urkunde**" und, zusammen mit der Vorläufigen Global-Urkunde der "**Global-Darfandbrief**"), ausgetauscht. Jeder Global-Darfandbrief trägt die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin sowie die eigenhändige Unterschrift eines von der Bundesanstalt für Finanzdienstleistungsaufsicht bestellten Treuhänders zur Bestätigung, dass die vorgeschriebene Deckung für die Darfandbriefe vorhanden und in das vorgeschriebene Register eingetragen ist. [Die Details eines solchen Austausches werden in den Büchern der ICSD geführt.]

Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Darfandbriefe erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde auszutauschen.

Die Gläubiger haben keinen Anspruch auf Ausgabe von Darfandbriefen in effektiver Form. Die Darfandbriefe sind als Miteigentumsanteile an dem Global-Darfandbrief nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.

Der Nennbetrag der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Pfandbrief] verbrieften Pfandbriefe entspricht dem jeweils in den Büchern beider ICSDs eingetragenen Gesamtbetrag. Die Bücher der ICSDs (die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Pfandbriefen führt) sind schlüssiger Nachweis über den Nennbetrag der durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Pfandbrief] verbrieften Pfandbriefe und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Nennbetrag der so verbrieften Pfandbriefe ist zu jedem Zeitpunkt ein schlüssiger Nachweis über den Inhalt der Bücher des jeweiligen ICSD.

Bei jeder Rückzahlung oder Zinszahlung bezüglich bzw. Kauf und Entwertung der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Pfandbrief] verbrieften Pfandbriefe werden die Einzelheiten über Rückzahlung, Zinszahlung bzw. Kauf und Entwertung bezüglich der [Vorläufigen Global-Urkunde bzw. der] [Dauer-Global-Urkunde] [Global-Pfandbrief] anteilig in die Bücher der ICSDs eingetragen und nach dieser Eintragung vom Nennbetrag der in die Bücher der ICSDs aufgenommenen und durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Pfandbrief] verbrieften Pfandbriefe der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Pfandbriefe abgezogen. [Für das technische Verfahren der ICSDs im Fall der optionalen Rückzahlung (wie in §4 definiert) hinsichtlich einer teilweisen Rückzahlung wird der ausstehende Rückzahlungsbetrag entweder als Reduzierung des Nennbetrags oder als Poolfaktor nach Ermessen der ICSDs in die Bücher der ICSDs aufgenommen.]]

[Falls ein Höchstzinssatz gilt: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als [Höchstzinssatz einfügen], so ist der Zinssatz für diese Zinsperiode [Höchstzinssatz einfügen].]

[(3)][(4)] Zinsbetrag. Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Pfandbriefe zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "Zinsbetrag") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet

werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(4)][(5)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin und den Gläubigern gemäß §10, baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden [TARGET][Londoner][**zutreffenden anderen Ort einfügen**] Geschäftstag (wie in §3(2) definiert) und jeder Börse, an der die betreffenden Pfandbriefe zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Pfandbriefe zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß §10 mitgeteilt.

[(5)][(6)] *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses §3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle[, die Zahlstellen] und die Gläubiger bindend.

[(6)][(7)] *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Pfandbriefe vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Pfandbriefe in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen¹² zu verzinsen, es sei denn, die Pfandbriefe werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.]

- (1) *Währung; Stückelung.* Diese Serie von **[im Falle von Hypothekendarfandbriefen einfügen: Hypothekendarfandbriefe]** **[im Falle von Öffentlichen Darfandbriefen einfügen: Öffentlichen Darfandbriefe]** (die "**Pdarfandbriefe**") der Landesbank Baden Württemberg (die "**Emittentin**") wird in **[festgelegte Währung einfügen]** ("**Abkürzung der Währung einfügen**") oder die "**festgelegte Währung**") im Gesamtnennbetrag von **[Gesamtnennbetrag einfügen]** (in Worten: **[Gesamtnennbetrag in Worten einfügen]**) in Stückelungen von **[festgelegte Stückelung einfügen]** (die "**festgelegte Stückelung**") begeben.
- (2) *Form.* Die Darfandbriefe werden in Form von Namensdarfandbriefen begeben. Die Urkunde, die die Darfandbriefe verbrieft (die "**Urkunde**") trägt die eigenhändigen oder faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigten Vertreter der Emittentin und (i) die eigenhändige Unterschrift eines von der Bundesanstalt für Finanzdienstleistungsaufsicht beauftragten Treuhänders zur Bestätigung, dass die vorgeschriebene Deckung für die Darfandbriefe vorhanden und in das vorgeschriebene Register eingetragen ist und (ii) die eigenhändige Unterschrift der Registerstelle (wie in §6 definiert).
- (3) *Übertragung.*
 - (a) Die sich aus der Urkunde ergebenden Rechte der Gläubiger und das Eigentum an den Darfandbriefen gehen durch Abtretung und Eintragung in das Register über. Soweit nicht ein zuständiges Gericht etwas anderes entschieden hat oder zwingendes Recht etwas anderes verlangt, haben die Emittentin, die Emissionsstelle und die Registerstelle den eingetragenen Gläubiger dieser Darfandbriefe (der "**Gläubiger**") als den ausschließlichen Inhaber der Urkunde und der sich aus dieser ergebenden Rechte zu behandeln.
 - (b) Die sich aus der Urkunde ergebenden Rechte des Gläubigers und das Eigentum an den Darfandbriefen können vollständig oder teilweise übertragen werden, indem die Urkunde (zusammen mit dem ordnungsgemäß vervollständigten und unterzeichneten, auf der Rückseite der Urkunde abgedruckten Muster einer Abtretungserklärung) bei der bezeichneten Geschäftsstelle der Registerstelle eingereicht wird. Im Falle der teilweisen Übertragung der Darfandbriefe ist dem Zedenten eine neue Urkunde über den nicht übertragenen Betrag auszustellen. Eine teilweise Übertragung der Darfandbriefe ist nur ab einem Mindestnennbetrag von **[festgelegte Währung und Mindestnennbetrag einfügen]** oder für ein ganzzahliges Vielfaches dieses Betrages zulässig.

- (d) Übertragungen werden vorgenommen, ohne dass von der oder für die Emittentin oder die Registerstelle hierfür eine Gebühr berechnet werden würde, aber erst nach Zahlung von Steuern oder anderen Abgaben, die im Zusammenhang mit der Übertragung erhoben werden (oder nach Abgabe von diesbezüglichen Freistellungserklärungen, wie sie von der Emittentin oder der Registerstelle verlangt werden können).
- (e) Der Gläubiger kann die Eintragung der Übertragung der Pfandbriefe nicht verlangen (i) während eines Zeitraums von 15 Tagen, der an dem Fälligkeitstag für eine Zahlung von Kapital und/oder Zinsen endet, (ii) während eines Zeitraumes von 15 Tagen vor einem Tag, an dem der Pfandbrief aufgrund der Ausübung eines der Emittentin zustehenden Wahlrechts vorzeitig zurückgezahlt werden kann, oder (iii) nachdem hinsichtlich der Pfandbriefe ein Wahlrecht ausgeübt wurde, nach dessen Ausübung diese Pfandbriefe ganz oder teilweise rückzahlbar ist.
- (4) *Definitionen.* Für die Zwecke dieser Emissionsbedingungen bedeutet:

- (5) *Bezugnahmen auf Pfandbriefe.* Jede Bezugnahme in diesen Emissionsbedingungen auf **"Pfandbrief"** oder **"dieser Pfandbrief"** schließt jede neue Urkunde ein, die im Zusammenhang mit der Übertragung dieser Pfandbriefe oder eines Teils derselben ausgestellt worden ist, es sei denn, aus dem Zusammenhang ergibt sich etwas anderes. Der Zinssatz (der "**Zinssatz**") ist im Hinblick auf einen Zinszahlungstag der Prozentsatz, der in der Spalte mit der Überschrift "Zinssatz" der vorstehenden Tabelle für den jeweiligen Zinszahlungstag angegeben ist.]

Tag eines Monats, während der erste Tag des Zinsberechnungszeitraumes weder auf den 30. noch auf den 31. Tag eines Monats fällt, wobei in diesem Fall der diesen Tag enthaltende Monat nicht als ein auf 30 Tage gekürzter Monat zu behandeln ist, oder (B) der letzte Tag des Zinsberechnungszeitraumes fällt auf den letzten Tag des Monats Februar, wobei in diesem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

[Im Fall von 30E/360 oder Eurobond Basis einfügen: die Anzahl der Tage im Zinsberechnungszeitraum dividiert durch 360 (dabei ist die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit 12 Monaten zu 30 Tagen zu ermitteln, und zwar ohne Berücksichtigung des ersten oder letzten Tages des Zinsberechnungszeitraumes), es sei denn, dass im Falle einer am Fälligkeitstag endenden Zinsperiode der Fälligkeitstag der letzte Tag des Monats Februar ist, in welchem Fall der Monat Februar als nicht auf einen Monat zu 30 Tagen verlängert gilt.]

[(3)][(4)] *Zinsbetrag.* Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Pfandbriefe zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(4)][(5)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin und den Gläubigern gemäß §10, baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden [TARGET][Londoner][zutreffenden anderen Ort einfügen] Geschäftstag (wie in §3(2) definiert) und jeder Börse, an der die betreffenden Pfandbriefe zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. [(6)][(7)] *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Pfandbriefe vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Pfandbriefe in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen¹⁵ zu verzinsen, es sei denn, die Pfandbriefe werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.]

"Zinsperiode" bezeichnet

[Im Fall von "fest- zu variabel verzinslichen" Pfandbriefen einfügen: jeweils: Den Zeitraum von dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) (die "erste Zinsperiode") [Für jede weitere Zinsperiode jeweils einfügen: und danach jeweils den Zeitraum vom [jeweils vorangehender Zinszahlungstag] (einschließlich) bis zum [jeweils darauffolgender Zinszahlungstag] (ausschließlich) (die "[Anzahl der jeweiligen Zinsperiode] Zinsperiode").]

[Im Fall von nicht "fest- zu variabel verzinslichen" Pfandbriefen einfügen: den jeweils [drei][sechs][zwölf] [andere Periode einfügen] Monatszeitraum von dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) bzw. von jedem Zinszahlungstag (einschließlich) bis zum jeweils darauffolgenden Zinszahlungstag (ausschließlich).]

"Zinsfestlegungstag" bezeichnet den [zweiten] [zutreffende andere Zahl von Tagen einfügen] [TARGET] [Londoner] [zutreffende andere Bezugnahmen einfügen] Geschäftstag vor Beginn der jeweiligen Zinsperiode. [Im Falle eines TARGET-Geschäftstages einfügen: "TARGET-Geschäftstag" bezeichnet einen Tag, an dem das TARGET System betriebsbereit ist.] [Im Falle eines nicht-TARGET-Geschäftstages einfügen: "[Londoner] [zutreffenden anderen Ort einfügen] Geschäftstag" bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in [London] [zutreffenden anderen Ort einfügen] für Geschäfte (einschließlich Devisen und Sortengeschäfte) geöffnet sind.

"Bildschirmseite" bedeutet [Bildschirmseite einfügen] und jede Nachfolgeseite.

Für den Ausgangs-Referenzsatz gilt:

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit der Ausgangs-Referenzsatz nicht angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige [Zahl von Jahren einfügen]-Jahres-Swapsätze gegenüber führenden Banken im Interbanken-Swapmarkt in der Euro-Zone (um ca. 11.00 Uhr [(Frankfurter Ortszeit)][zutreffenden anderen Ort einfügen] am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche [Zahl von Jahren einfügen]-Jahres-Swapsätze nennen, ist der Ausgangs-Referenzsatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser [Zahl von Jahren einfügen] Jahres-Swapsätze, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen [Zahl von Jahren einfügen] Jahres-Swapsätze nennt, ist der Ausgangs-Referenzsatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der [Zahl von Jahren einfügen] Jahres-Swapsätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr [(Frankfurter Ortszeit)][zutreffenden anderen Ort einfügen] an dem betreffenden Zinsfestlegungstag von führenden Banken im Interbanken-Swapmarkt in der Euro-Zone angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche [Zahl von Jahren einfügen] Jahres-Swapsätze nennen, dann soll der Ausgangs-Referenzsatz für die betreffende Zinsperiode der [Zahl von Jahren einfügen] Jahres-Swapsatz oder das arithmetische Mittel (gerundet wie oben beschrieben) der [Zahl von Jahren einfügen] Jahres-Swapsätze sein, den

bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Zinsfestlegungstag gegenüber führenden Banken am Interbanken-Swapmarkt in der Euro-Zone nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Ausgangs-Referenzsatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Ausgangs-Referenzsatz der **[Zahl von Jahren einfügen]** Jahres-Swapsatz oder das arithmetische Mittel der **[Zahl von Jahren einfügen]** Jahres-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem die **[Zahl von Jahren einfügen]** Jahres-Swapsätze angezeigt wurden.

Für den Abzugs-Referenzsatz gilt:

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit der Abzugs-Referenzsatz nicht angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige **[Zahl von Jahren einfügen]** Jahres-Swapsätze gegenüber führenden Banken im Interbanken-Swapmarkt in der Euro-Zone (um ca. 11.00 Uhr [(Frankfurter Ortszeit)]**[zutreffenden anderen Ort einfügen]**) am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche **[Zahl von Jahren einfügen]** Jahres-Swapsätze nennen, ist der Abzugs-Referenzsatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser **[Zahl von Jahren einfügen]** Jahres-Swapsätze, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen **[Zahl von Jahren einfügen]** Jahres-Swapsätze nennt, ist der Abzugs-Referenzsatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der **[Zahl von Jahren einfügen]** Jahres-Swapsätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr [(Frankfurter Ortszeit)]**[zutreffenden anderen Ort einfügen]** an dem betreffenden Zinsfestlegungstag von führenden Banken im Interbanken-Swapmarkt in der Euro-Zone angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche **[Zahl von Jahren einfügen]** Jahres-Swapsätze nennen, dann soll der Abzugs-Referenzsatz für die betreffende Zinsperiode der **[Zahl von Jahren einfügen]** Jahres-Swapsatz oder das arithmetische Mittel (gerundet wie oben beschrieben) der **[Zahl von Jahren einfügen]** Jahres-Swapsätze sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Zinsfestlegungstag gegenüber führenden Banken am Interbanken-Swapmarkt in der Euro-Zone nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Abzugs-Referenzsatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Abzugs-Referenzsatz der **[Zahl von Jahren einfügen]** Jahres-Swapsatz oder das arithmetische Mittel der **[Zahl von Jahren einfügen]** Jahres-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem die **[Zahl von Jahren einfügen]** Jahres-Swapsätze angezeigt wurden.

"**Referenzbanken**" bezeichnen diejenigen Niederlassungen von mindestens vier derjenigen Banken im Swapmarkt, die von der Berechnungsstelle in Abstimmung mit der Emittentin ausgewählt wurden, deren **[Zahl von Jahren einfügen]** Jahres-Swapsätze zur Ermittlung des maßgeblichen **[Zahl von Jahren einfügen]** Jahres-Swapsatz zu dem Zeitpunkt benutzt

wurden, als solch ein **[Zahl von Jahren einfügen]** Jahres-Swapsatz letztmals auf der maßgeblichen Bildschirmseite angezeigt wurde.]

"Euro-Zone" bezeichnet das Gebiet derjenigen Mitgliedstaaten der Europäischen Union, die die einheitliche Währung, die zu Beginn der Dritten Phase der Europäischen Wirtschafts- und Währungsunion eingeführt wurde und die in der Verordnung (EG) Nr. 974/98 des Rates vom 3. Mai 1998 über die Einführung des Euro, in ihrer aktuellsten Fassung, definiert ist, angenommen haben.

[Falls ein Höchstzinssatz gilt: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als **[Höchstzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Höchstzinssatz einfügen].]**

[(3)][(4)] *Zinsbetrag.* Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Pfandbriefe zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(4)][(5)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin und den Gläubigern gemäß §10, baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden **[TARGET][Londoner][zutreffenden anderen Ort einfügen]** Geschäftstag (wie in §3(2) definiert) und jeder Börse, an der die betreffenden Pfandbriefe zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Pfandbriefe zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß §10 mitgeteilt.

[(5)][(6)] *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses §3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle[, die Zahlstellen] und die Gläubiger bindend.

[(6)][(7)] *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Pfandbriefe vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Pfandbriefe in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen¹⁷ zu verzinsen, es sei denn, die Pfandbriefe werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die

- (1) *Währung; Stückelung.* Diese Serie von **[im Falle von Hypothekendarfandbriefen einfügen: Hypothekendarfandbriefe] [im Falle von Öffentlichen Darfandbriefen einfügen: Öffentlichen Darfandbriefe]** (die "**Darfandbriefe**") der Landesbank Baden Württemberg (die "**Emittentin**") wird in **[festgelegte Währung einfügen]** ("**Abkürzung der Währung einfügen**") oder die "**festgelegte Währung**") im Gesamtnennbetrag von **[bis zu] [Gesamtnennbetrag einfügen]** (in Worten: **[Gesamtnennbetrag in Worten einfügen]**) in Stückelungen von **[festgelegte Stückelung einfügen]** (die "**festgelegte Stückelung**") begeben.
- (2) *Form.* Die Darfandbriefe werden in Form von Namensdarfandbriefen begeben. Die Urkunde, die die Darfandbriefe verbrieft (die "**Urkunde**") trägt die eigenhändigen oder faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigten Vertreter der Emittentin und (i) die eigenhändige Unterschrift eines von der Bundesanstalt für Finanzdienstleistungsaufsicht beauftragten Treuhänders zur Bestätigung, dass die vorgeschriebene Deckung für die Darfandbriefe vorhanden und in das vorgeschriebene Register eingetragen ist und (ii) die eigenhändige Unterschrift der Registerstelle (wie in §6 definiert).
- (3) *Übertragung.*
 - (a) Die sich aus der Urkunde ergebenden Rechte der Gläubiger und das Eigentum an den Darfandbriefen gehen durch Abtretung und Eintragung in das Register über. Soweit nicht ein zuständiges Gericht etwas anderes entschieden hat oder zwingendes Recht etwas anderes verlangt, haben die Emittentin, die Emissionsstelle und die Registerstelle den eingetragenen Gläubiger dieser Darfandbriefe (der "**Gläubiger**") als den ausschließlichen Inhaber der Urkunde und der sich aus dieser ergebenden Rechte zu behandeln.
 - (b) Die sich aus der Urkunde ergebenden Rechte des Gläubigers und das Eigentum an den Darfandbriefen können vollständig oder teilweise übertragen werden, indem die Urkunde (zusammen mit dem ordnungsgemäß vervollständigten und unterzeichneten, auf der Rückseite der Urkunde abgedruckten Muster einer Abtretungserklärung) bei der bezeichneten Geschäftsstelle der Registerstelle eingereicht wird. Im Falle der teilweisen Übertragung der Darfandbriefe ist dem Zedenten eine neue Urkunde über den nicht übertragenen Betrag auszustellen. Eine teilweise Übertragung der Darfandbriefe ist nur ab einem Mindestnennbetrag von **[festgelegte Währung und Mindestnennbetrag einfügen]** oder für ein ganzzahliges Vielfaches dieses Betrages zulässig.
 - (c) Jede nach einer Übertragung der Darfandbriefe ausgestellte neue Schuldverschreibung wird innerhalb von sieben Geschäftstagen (Geschäftstag bedeutet für die Zwecke dieses Absatzes ein Tag (außer einem Samstag oder Sonntag), an dem Banken an dem Ort der bezeichneten Geschäftsstelle der Registerstelle für den Geschäftsverkehr geöffnet sind) nach Einreichung der Urkunde und des ordnungsgemäß vervollständigten und unterzeichneten Musters einer Abtretungserklärung zur Abholung bei der bezeichneten Geschäftsstelle der Registerstelle bereitgehalten oder, auf Wunsch des einreichenden Gläubigers und wie in dem entsprechenden Muster der Abtretungserklärung angegeben, auf Gefahr des hinsichtlich der neuen Urkunde berechtigten Gläubigers an die in dem Muster der Abtretungserklärung angegebene Adresse versandt.
 - (d) Übertragungen werden vorgenommen, ohne dass von der oder für die Emittentin oder die Registerstelle hierfür eine Gebühr berechnet werden würde, aber erst nach

Zahlung von Steuern oder anderen Abgaben, die im Zusammenhang mit der Übertragung erhoben werden (oder nach Abgabe von diesbezüglichen Freistellungserklärungen, wie sie von der Emittentin oder der Registerstelle verlangt werden können).

- (e) Der Gläubiger kann die Eintragung der Übertragung der Pfandbriefe nicht verlangen (i) während eines Zeitraums von 15 Tagen, der an dem Fälligkeitstag für eine Zahlung von Kapital und/oder Zinsen endet, (ii) während eines Zeitraumes von 15 Tagen vor einem Tag, an dem der Pfandbrief aufgrund der Ausübung eines der Emittentin zustehenden Wahlrechts vorzeitig zurückgezahlt werden kann, oder (iii) nachdem hinsichtlich der Pfandbriefe ein Wahlrecht ausgeübt wurde, nach dessen Ausübung diese Pfandbriefe ganz oder teilweise rückzahlbar ist.
- (4) *Definitionen.* Für die Zwecke dieser Emissionsbedingungen bedeutet:
- "**Register**" bezeichnet das von der Registerstelle geführte Register hinsichtlich der Pfandbriefe.
- (5) *Bezugnahmen auf Pfandbriefe.* Jede Bezugnahme in diesen Emissionsbedingungen auf "**Pfandbrief**" oder "**dieser Pfandbrief**" schließt jede neue Urkunde ein, die im Zusammenhang mit der Übertragung dieser Pfandbriefe oder eines Teils derselben ausgestellt worden ist, es sei denn, aus dem Zusammenhang ergibt sich etwas anderes. Jede Bezugnahme in diesen Emissionsbedingungen auf "Pfandbriefe" oder "diese Pfandbriefe" im Plural gilt als Bezugnahme auf "Pfandbrief" oder "diesen Pfandbrief" im Singular. Die Pfandbriefe sind nach Maßgabe des Pfandbriefgesetzes gedeckt und stehen mindestens im gleichen Rang mit allen anderen Verpflichtungen der Emittentin aus **[im Falle von Hypothekenzinspfandbriefen einfügen: Hypothekenzinspfandbriefen]** **[im Falle von Öffentlichen Pfandbriefen einfügen: Öffentlichen Pfandbriefen]**.

Falls an einem Feststellungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen Angebotssätze nennt, ist der Referenzzinssatz für den maßgeblichen Zeitraum der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein **[Falls der Referenzsatz EURIBOR® ist, einfügen:** Tausendstel Prozent, wobei 0,0005] **[Falls der Referenzsatz nicht EURIBOR® ist, einfügen:** Hunderttausendstel Prozent, wobei 0,000005] aufgerundet wird) der Angebotssätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr ([Brüsseler] [Londoner] Ortszeit) an dem betreffenden Feststellungstag Einlagen in der festgelegten Währung für den maßgeblichen Zeitraum von führenden Banken im [Londoner] Interbanken-Markt [in der Euro-Zone] angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche Angebotssätze nennen, dann soll der Referenzzinssatz für den maßgeblichen Zeitraum der Angebotssatz für Einlagen in der festgelegten Währung für den maßgeblichen Zeitraum oder das arithmetische Mittel (gerundet wie oben beschrieben) der Angebotssätze für Einlagen in der festgelegten Währung für den maßgeblichen Zeitraum sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Feststellungstag gegenüber führenden Banken am [Londoner] Interbanken-Markt [in der Euro-Zone] nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Referenzzinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Referenzzinssatz der Angebotssatz oder das arithmetische Mittel der Angebotssätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Feststellungstag, an dem diese Angebotssätze angezeigt wurden.

[Im Fall von CMS variabel verzinslichen Pfandbriefen einfügen:

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit kein [10-] **[andere Zahl von Jahren einfügen]**Jahres-Swapsatz angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige [10-]**[andere Zahl von Jahren einfügen]**Jahres-Swapsätze gegenüber führenden

Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche [10-] Jahres-Swapsätze nennen, ist der Referenzzinssatz für den maßgeblichen Zeitraum das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser [10-][**andere Zahl von Jahren einfügen**] Jahres-Swapsätze, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Feststellungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsätze nennt, ist der Referenzzinssatz für den maßgeblichen Zeitraum der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr [(Frankfurter Ortszeit)][**zutreffenden anderen Ort einfügen**] an dem betreffenden Feststellungstag von führenden Banken im Interbanken-Swapmarkt in der Euro-Zone angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsätze nennen, dann soll der Referenzzinssatz für den maßgeblichen Zeitraum der [10-]Jahres-Swapsatz oder das arithmetische Mittel (gerundet wie oben beschrieben) der [10-]Jahres-Swapsätze sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Feststellungstag gegenüber führenden Banken am Interbanken-Swapmarkt in der Euro-Zone nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Referenzzinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Referenzzinssatz der [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsatz oder das arithmetische Mittel der [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Feststellungstag, an dem die [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsätze angezeigt wurden.

"**Referenzbanken**" bezeichnen diejenigen Niederlassungen von mindestens vier derjenigen Banken im Swapmarkt, die von der Berechnungsstelle in Abstimmung mit der Emittentin ausgewählt wurden, deren [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsätze zur Ermittlung des maßgeblichen [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsatz zu dem Zeitpunkt benutzt wurden, als solch ein [10-][**andere Zahl von Jahren einfügen**]Jahres-Swapsatz letztmals auf der maßgeblichen Bildschirmseite angezeigt wurde.

[Falls ein Mindestzinssatz gilt einfügen: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als **[Mindestzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Mindestzinssatz einfügen].]**

[Falls ein Höchstzinssatz gilt: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als **[Höchstzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Höchstzinssatz einfügen].]**

[(3)][(4)] *Zinsbetrag.* Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Pfandbriefe zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(4)][(5)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin und den Gläubigern gemäß §10, baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden **[TARGET][Londoner][zutreffenden anderen Ort einfügen]** Geschäftstag (wie in §3(2) definiert) und jeder Börse, an der die betreffenden Pfandbriefe zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Pfandbriefe zu diesem Zeitpunkt notiert sind, sowie den Gläubigern gemäß §10 mitgeteilt.

[(5)][(6)] *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses §3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle[, die Zahlstellen] und die Gläubiger bindend.

[(6)][(7)] *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Pfandbriefe bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Pfandbriefe vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Pfandbriefe in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen¹⁸ zu verzinsen, es sei denn, die Pfandbriefe werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.]

¹⁸ Der gesetzliche Verzugszinssatz beträgt gemäß §§ 288 Absatz 1, 247 BGB für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz.

[(7)][(8)] *Zinstagequotient*. "**Zinstagequotient**" bezeichnet

Der Gesamtnennbetrag der Serie **[Seriennummer einfügen]** lautet **[Gesamtnennbetrag der gesamten konsolidierten Serie [Seriennummer einfügen] einfügen].**

- (2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber.

[Im Fall von Vorläufigen Global-Urkunden, die gegen Dauer-Global-Urkunden ausgetauscht werden, einfügen:

Die Schuldverschreibungen sind anfänglich in einer vorläufigen Global-Urkunde (die "**Vorläufige Global-Urkunde**"), ohne Zinsschein verbrieft. Die Vorläufige Global-Urkunde wird am oder nach dem 40. Tag (der "**Austauschtag**") nach dem Tag der Begebung der Schuldverschreibungen nur nach Vorlage von Bescheinigungen, wonach der wirtschaftliche Eigentümer oder die wirtschaftlichen Eigentümer der durch die Vorläufige Global-Urkunde verbrieften Schuldverschreibungen keine U.S.-Person(en) ist bzw. sind (ausgenommen bestimmte Finanzinstitute oder Personen, die Schuldverschreibungen über solche Finanzinstitute halten) (die "**Bescheinigungen über Nicht-U.S.-Eigentum**"), gegen eine Dauer-Global-Urkunde (die "**Dauer-Global-Urkunde**" und, zusammen mit der Vorläufigen Global-Urkunde die "**Global-Schuldverschreibung**"), ausgetauscht. Jede Global-Schuldverschreibung trägt die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin. **[Die Details eines solchen Austausches werden in den Büchern der ICSD geführt.]**

Zinszahlungen auf durch eine Vorläufige Global-Urkunde verbriefte Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der Vorläufigen Global-Urkunde eingeht, wird als ein Ersuchen behandelt werden, diese Vorläufige Global-Urkunde auszutauschen.

Die Inhaber der Schuldverschreibungen (die "**Anleihegläubiger**") haben keinen Anspruch auf Ausgabe von Schuldverschreibungen in effektiver Form. Die Schuldverschreibungen sind als Miteigentumsanteile an der Global-Schuldverschreibung nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.

"**U.S.-Personen**" sind solche, wie sie in *Regulation S* des *United States Securities Act of 1933* definiert sind und umfassen insbesondere Gebietsansässige der Vereinigten Staaten sowie amerikanische Kapital- und Personengesellschaften.]

[Im Fall einer Dauer-Global-Urkunde ab dem Begebungstag einfügen:

Die Schuldverschreibungen sind in einer Dauer-Global-Urkunde ohne Zinsschein verbrieft (die "**Global-Schuldverschreibung**"), der die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin. Die Schuldverschreibungen sind als Miteigentumsanteile an der Global-Schuldverschreibung nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.]

- (3) Jede Global-Schuldverschreibung wird von einem oder im Namen eines Clearing Systems verwahrt. "**Clearing System**" meint [Clearstream Banking AG, Frankfurt][Clearstream Banking, SA ("**CBL**") und Euroclear Bank SA/NV ("**Euroclear**")][(CBL und Euroclear sind jeweils ein "**ICSD**" (International Central Securities Depository) und gemeinsam die "**ICSDs**")][**anderes Clearing System festlegen**].]

[Im Fall von Euroclear und CBL und wenn die Global-Urkunde eine NGN ist, einfügen:

- (4) Die Schuldverschreibungen werden in New Global Note Form ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt. Der Nennbetrag der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen entspricht dem jeweils in den Büchern beider ICSDs eingetragenen Gesamtbetrag. Die Bücher der ICSDs (die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind schlüssiger Nachweis über den Nennbetrag der durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Nennbetrag der so verbrieften Schuldverschreibungen ist zu jedem Zeitpunkt ein schlüssiger Nachweis über den Inhalt der Bücher des jeweiligen ICSD.

Bei jeder Rückzahlung oder Zinszahlung bezüglich bzw. Kauf und Entwertung der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen werden die Einzelheiten über Rückzahlung, Zinszahlung bzw. Kauf und Entwertung bezüglich der [Vorläufigen Global-Urkunde bzw. der] [Dauer-Global-Urkunde] [Global-Schuldverschreibungen] anteilig in die Bücher der ICSDs eingetragen und nach dieser Eintragung vom Nennbetrag der in die Bücher der ICSDs aufgenommenen und durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen. [Für das technische Verfahren der ICSDs im Fall der optionalen Rückzahlung (wie in §4 definiert) hinsichtlich einer teilweisen Rückzahlung wird der ausstehende Rückzahlungsbetrag entweder als Reduzierung des Nennbetrags oder als Poolfaktor nach Ermessen der ICSDs in die Bücher der ICSDs aufgenommen.]]

[Im Fall von Euroclear und CBL und wenn die Global-Schuldverschreibung eine CGN ist, einfügen:

- (4) Die Schuldverschreibungen werden in Classic Global Note Form ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]
- (5) *Gläubiger von Schuldverschreibungen.* "**Anleihegläubiger**" bedeutet jeder Inhaber eines Miteigentumsanteils oder anderen Rechts an den Schuldverschreibungen.

§2 STATUS

[Im Fall von nicht-nachrangigen Schuldverschreibungen einfügen:

Die Schuldverschreibungen begründen nicht besicherte und nicht-nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht-nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit zwingende gesetzliche Bestimmungen nichts anderes vorschreiben.]

[Im Fall von nachrangigen Schuldverschreibungen einfügen:

- (1) *Nachrangige Verbindlichkeiten (Ergänzungskapital).* Die Schuldverschreibungen sollen der Emittentin als anrechenbare Eigenmittel in der Form von Ergänzungskapital ("**Ergänzungskapital**" bzw. "**Tier 2 Kapital**") gemäß den anwendbaren Eigenmittelvorschriften zur Verfügung stehen. In diesen Emissionsbedingungen bedeutet "**anwendbare Eigenmittelvorschriften**" die Vorschriften hinsichtlich der Anerkennung von Eigenmitteln in der jeweils gültigen Fassung, wie von der zuständigen Aufsichtsbehörde angewandt (einschließlich, jedoch nicht hierauf beschränkt, Art. 63 ff. der Verordnung (EU) Nr. 575/2013 des Europäischen Parlaments und des Rates über Aufsichtsanforderungen an Kreditinstitute und Wertpapierfirmen vom 26. Juni 2013 (die "**CRR**"), andere diesbezügliche Vorschriften des Bankaufsichtsrechts sowie darauf bezogene Regelungen und Verordnungen einschließlich unmittelbar anwendbarer Vorschriften des Europäischen Gemeinschaftsrechts, in ihrer jeweils ergänzten oder ersetzten Fassung).

Die Verbindlichkeiten unter den Schuldverschreibungen begründen nicht besicherte, nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit nicht gesetzliche Vorschriften oder die Bedingungen dieser anderen Verbindlichkeiten eine andere Regelung vorsehen. Die Ansprüche aus den Schuldverschreibungen gehen den Ansprüchen aller dritten Gläubiger der Emittentin aus nicht-nachrangigen Verbindlichkeiten im Range vollständig nach. Im Fall der Auflösung, der Liquidation oder der Insolvenz der Emittentin, oder eines Vergleichs oder eines anderen der Abwendung der Insolvenz dienenden Verfahrens gegen die Emittentin gehen die Verbindlichkeiten aus den Schuldverschreibungen den Ansprüchen dritter Gläubiger der Emittentin aus nicht-nachrangigen Verbindlichkeiten im Range vollständig nach, so dass Zahlungen auf die Schuldverschreibungen solange nicht erfolgen, wie die Ansprüche dieser dritten Gläubiger der Emittentin aus nicht-nachrangigen Verbindlichkeiten nicht vollständig befriedigt sind. Kein Gläubiger ist berechtigt, seine Ansprüche aus den Schuldverschreibungen gegen Ansprüche der Emittentin aufzurechnen. Den Gläubigern wird für ihre Rechte aus den Schuldverschreibungen weder durch die Emittentin noch durch Dritte irgendeine Sicherheit oder Garantie gestellt; eine solche Sicherheit oder Garantie wird auch zu keinem späteren Zeitpunkt gestellt werden.

- (2) *Schutz der Eigenmittelfunktion.* Nachträglich kann der Nachrang gemäß §2 (1) nicht beschränkt, der Fälligkeitstag der Schuldverschreibungen nicht auf ein früheres Datum verlegt und eine anwendbare Kündigungsfrist nicht verkürzt werden. Werden die Schuldverschreibungen vor dem Fälligkeitstag unter anderen als den in §2 (1) beschriebenen Umständen oder infolge einer vorzeitigen Rückzahlung nach Maßgabe von §5 (2) [oder §5 (3)] oder §5 (4) zurückgezahlt oder von der Emittentin zurückgekauft, so ist der zurückgezahlte oder gezahlte Betrag der Emittentin ohne Rücksicht auf entgegenstehende Vereinbarungen zurückzuzahlen, sofern nicht die zuständige Aufsichtsbehörde der vorzeitigen Rückzahlung oder dem Rückkauf zugestimmt hat. Eine Kündigung oder vorzeitige Rückzahlung der Schuldverschreibungen nach Maßgabe von §5 (2) [oder §5 (3)] oder §5 (4) oder anderweitig oder ein Rückkauf der Schuldverschreibungen vor dem Fälligkeitstag steht unter dem Vorbehalt der vorherigen Zustimmung der zuständigen Aufsichtsbehörde.]

[Im Fall von Schuldverschreibungen mit Stufenzins einfügen: Die Schuldverschreibungen werden bezogen auf ihren Nennbetrag vom **[Verzinsungsbeginn einfügen]** (einschließlich) bis zum ersten Zinszahlungstag (wie nachstehend definiert) (ausschließlich) und anschließend von jedem Zinszahlungstag (einschließlich) bis zum unmittelbar folgenden Zinszahlungstag (ausschließlich) mit dem maßgeblichen Zinssatz (wie nachstehend definiert) verzinst. Die Zinsen sind an jedem Zinszahlungstag nachträglich zahlbar.

Der Zinssatz (der "Zinssatz") ist im Hinblick auf einen Zinszahlungstag der Prozentsatz, der in der Spalte mit der Überschrift "Zinssatz" der vorstehenden Tabelle für den jeweiligen Zinszahlungstag angegeben ist.]

[Im Fall von Resettable Schuldverschreibungen einfügen:

Die Schuldverschreibungen werden bezogen auf ihren Nennbetrag verzinst und zwar

- (i) vom **[Verzinsungsbeginn einfügen]** (der "**Verzinsungsbeginn**") (einschließlich) bis zum Kupon-Reset Tag (ausschließlich) mit jährlich **[Zinssatz einfügen]**% (und setzt sich zusammen aus **[Zahl einfügen]** Prozentpunkten und zuzüglich eines Emissionsspreads in Höhe von **[Zahl einfügen]** Prozentpunkten (der "**Emissionsspread**")); und
- (ii) falls nicht zuvor gekündigt, vom Kupon-Reset Tag (einschließlich) bis zum Fälligkeitstag (wie nachfolgend in § 5 (1) definiert) (ausschließlich) mit dem am Zinsfestlegungstag (wie nachfolgend definiert) bestimmten Zinssatz, der dem Referenzzinssatz (wie nachstehend definiert), zuzüglich des Emissionsspread entspricht.

Die Zinsen sind nachträglich am **[Zinszahlungstag(e) einfügen]** eines jeden Jahres zahlbar (jeweils ein "**Zinszahlungstag**"). Die erste Zinszahlung erfolgt am **[ersten Zinszahlungstag einfügen]** **[sofern der erste Zinszahlungstag nicht der erste Jahrestag des Verzinsungsbeginns ist einfügen:** und beläuft sich auf **[anfänglichen Bruchteilzinsbetrag pro festgelegte Stückelung einfügen]** je Schuldverschreibung mit einer Stückelung von **[festgelegte Stückelung einfügen]**].

"**Kupon-Reset Tag**" bezeichnet den **[•]** **[Wahl-Rückzahlungstag (Call) (wie in § 5 [(2)][(3)] definiert)]**.

"**Zinsfestlegungstag**" bezeichnet den **[zweiten]** **[zutreffende andere Zahl von Tagen einfügen]** **[TARGET]** **[Londoner]** **[zutreffenden anderen Ort einfügen]** Geschäftstag vor dem Kupon-Reset Tag. **[Im Falle eines TARGET-Geschäftstages einfügen:** "**TARGET-Geschäftstag**" bezeichnet einen Tag, an dem das TARGET System betriebsbereit ist.] **[Im Falle eines nicht-TARGET-Geschäftstages einfügen:** "**[Londoner]** **[zutreffenden anderen Ort einfügen]** **Geschäftstag**" bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in **[London]** **[zutreffenden anderen Ort einfügen]** für Geschäfte (einschließlich Devisen und Sortengeschäfte) geöffnet sind.]

"**Referenzzinssatz**" bezeichnet, den als Jahressatz ausgedrückten **[maßgebliche Anzahl von Jahren einfügen]**-Jahres **[maßgebliche Währung einfügen]** Swapsatz (der "**[maßgebliche Anzahl von Jahren einfügen]**-Jahres-**[maßgebliche Währung einfügen]**-Swapsatz"), der auf der Bildschirmseite (wie nachfolgend definiert) am Zinsfestlegungstag gegen **[11.00]** **[andere Uhrzeit einfügen]** Uhr (**[Brüsseler]** **[zutreffenden anderen Ort einfügen]** Ortszeit) angezeigt wird, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

"**Bildschirmseite**" bedeutet **[maßgebliche Bildschirmseite einfügen]** und jede Nachfolgesseite.

[Einfügen, sofern der Referenzzinssatz nicht SOR ist:

Sollte zu der genannten Zeit die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird kein **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-**[maßgebliche Währung einfügen]**-Swapsatz angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze gegenüber führenden Banken im **[Londoner]** **[zutreffenden anderen Ort einfügen]** Interbanken-Swapmarkt **[in der Euro-Zone]** (um ca. **[11.00]** **[maßgebliche Uhrzeit einfügen]** Uhr **[(Frankfurter Ortszeit)]** **[zutreffenden anderen Ort einfügen]** am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze nennen, ist der Referenzzinssatz das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls am Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze nennt, ist der Referenzzinssatz der Satz per annum, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein tausendstel Prozent, wobei 0,0005 aufgerundet wird) der **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. [11.00] **[maßgebliche Uhrzeit einfügen]** Uhr [(Frankfurter Ortszeit)] **[zutreffenden anderen Ort einfügen]** am Zinsfestlegungstag von führenden Banken im [Londoner] **[zutreffenden anderen Ort einfügen]** Interbanken-Swapmarkt [in der Euro-Zone] angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze nennen, dann soll der Referenzzinssatz der **[Zahl von Jahren einfügen]**-Jahres-Swapsatz oder das arithmetische Mittel (gerundet wie oben beschrieben) der **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie am Zinsfestlegungstag gegenüber führenden Banken am [Londoner] **[anderen Ort einfügen]** Interbanken-Swapmarkt [in der Euro-Zone] nennen (bzw. den diese Bank oder Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Referenzzinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Referenzzinssatz der **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsatz oder das arithmetische Mittel der **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem die **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze angezeigt wurden.

"Referenzbanken" bezeichnen diejenigen Niederlassungen von mindestens vier derjenigen Banken im Swapmarkt, die von der Berechnungsstelle in Abstimmung mit der Emittentin ausgewählt wurden, deren **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsätze zur Ermittlung des maßgeblichen **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsatzes zu dem Zeitpunkt benutzt wurden, als solch ein **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsatz letztmals auf der Bildschirmseite angezeigt wurde.

[Im Fall des Interbanken-Marktes in der Euro-Zone einfügen: "Euro-Zone" bezeichnet das Gebiet derjenigen Mitgliedstaaten der Europäischen Union, die die einheitliche Währung, die zu Beginn der Dritten Phase der Europäischen Wirtschafts- und Währungsunion eingeführt wurde und die in Artikel 2 der Verordnung (EG) Nr. 974/98 des Rates vom 3. Mai 1998 über die Einführung des Euro, in ihrer aktuellsten Fassung, definiert ist, angenommen haben.])

[Einfügen, sofern der Referenzzinssatz SOR ist:

Falls am Zinsfestlegungstag kein **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-**[maßgebliche Währung einfügen]**-Swapsatz auf der Bildschirmseite angezeigt wird oder die Bildschirmseite aus irgendeinem Grund nicht zur Verfügung steht, wird die Berechnungsstelle den Referenzzinssatz als den Satz (oder, falls mehr als ein Satz veröffentlicht wird, das arithmetische Mittel dieser Sätze (sofern erforderlich gerundet auf das nächste Sechzehntel)) für einen Zeitraum festlegen, der der Laufzeit des **[maßgebliche Anzahl von Jahren einfügen]**-Jahres-Swapsatz entspricht und von einer führenden Marktorganisation (und unter Berücksichtigung der Marktpraxis zu diesem Zeitpunkt) oder einer anderen von der Berechnungsstelle ausgewählten maßgeblichen Instanz, veröffentlicht wird.

Falls am Zinsfestlegungstag die Berechnungsstelle aus anderen Gründen nicht in der Lage ist, den Referenzzinssatz festzustellen, wird der Referenzzinssatz durch die Berechnungsstelle als das arithmetische Mittel (sofern erforderlich auf die vierte Nachkommastelle gerundet) der

durch die Referenzbanken oder mindestens zwei der Referenzbanken gegenüber der Berechnungsstelle gegen 11:00 Uhr (Ortszeit Singapur) am ersten Geschäftstag nach dem Zinsfestlegungstag quotierten Sätze festgelegt, wobei die quotierten Sätze deren Finanzierungskosten, einschließlich der Kosten, die durch Rückstellungen, Liquidität, Einlagen oder sonstigen den von der (den) maßgeblichen Behörde(n) auferlegten Anforderungen an die Referenzbanken entstanden sind, für die maßgebliche Zinsperiode entsprechen oder, falls an einem solchen Tag nur eine oder keine der Referenzbanken der Berechnungsstelle eine Quotierung zur Verfügung stellt, ist der Referenzzinssatz das arithmetische Mittel (sofern erforderlich auf die vierte Nachkommastelle gerundet) der Basiszinssätze für Singapur Dollar wie von den Referenzbanken gegen 11:00 Uhr (Ortszeit Singapur) am Zinsfestlegungstag quotiert.

"Referenzbanken" bezeichnet die Hauptgeschäftsstellen von drei Hauptbanken im Singapur Interbanken-Markt.](2) *Geschäftstagskonvention*. Fällt der Fälligkeitstag einer Zinszahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Geschäftstag ist, dann hat der Anleihegläubiger **[bei Anwendbarkeit der Folgender Geschäftstagskonvention einfügen:** keinen Anspruch auf Zahlung vor dem nächsten Geschäftstag am jeweiligen Geschäftsort[.]] **[bei Anwendbarkeit der Modifizierten Folgender Geschäftstagskonvention einfügen:** keinen Anspruch auf Zahlung vor dem nächsten Geschäftstag am jeweiligen Geschäftsort, es sei denn, der Geschäftstag würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall wird der Geschäftstag auf den unmittelbar vorausgehenden Geschäftstag vorgezogen[.]] **[Wenn der Geschäftstag keiner Anpassung nach einer Geschäftstagskonvention unterliegt, einfügen:** und ist, je nach vorliegender Situation, weder berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund der Verschiebung zu verlangen noch muss er aufgrund der Verschiebung eine Kürzung der Zinsen hinnehmen.] **[Wenn der Geschäftstag einer Anpassung nach der Modifizierten Folgender Geschäftstagskonvention oder der Folgender Geschäftstagskonvention unterliegt, einfügen:** Ungeachtet des Absatzes (2) dieses §3 der Emissionsbedingungen hat der Anleihegläubiger Anspruch auf weitere Zinszahlung für jeden zusätzlichen Tag, um den der Geschäftstag aufgrund der in diesem Absatz (2) von §3 der Emissionsbedingungen geschilderten Regelungen nach hinten verschoben wird. **[Wenn der Geschäftstag einer Anpassung nach der Modifizierten Folgender Geschäftstagskonvention unterliegt, einfügen:** Für den Fall jedoch, in dem der Geschäftstag im Einklang mit den in diesem Absatz (2) des §3 der Emissionsbedingungen auf den unmittelbar vorhergehenden Geschäftstag vorgezogen wird, hat der Anleihegläubiger nur Anspruch auf Zinsen bis zum tatsächlichen Geschäftstag, nicht jedoch bis zum festgelegten Geschäftstag.]]

- (3) *Auflaufende Zinsen*. Der Zinslauf der Schuldverschreibungen endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Schuldverschreibungen vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Schuldverschreibungen in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen¹⁹ zu verzinsen, es sei denn, die Schuldverschreibungen werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.
- (4) *Berechnung der Zinsen für Teile von Zeiträumen*. Sofern Zinsen für einen Zeitraum von weniger als einem Jahr zu berechnen sind, erfolgt die Berechnung auf der Grundlage des Zinstagequotienten (wie nachstehend definiert).

[Im Fall von Resettable Schuldverschreibungen einfügen:

¹⁹ Der gesetzliche Verzugszinssatz beträgt gemäß §§ 288 Absatz 1, 247 BGB für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz.

- (5) *Mitteilung des Referenzzinssatzes.* Die Berechnungsstelle wird veranlassen, dass der Referenzzinssatz, der am Zinsfestlegungstag festgestellt wurde, der Emittentin und den Anleihegläubigern gemäß §11, und jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst nach der Feststellung mitgeteilt werden.
- (5) *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses §3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle, die Zahlstelle(n) und die Anleihegläubiger bindend.]

[(5)][(7)] *Zinstagequotient.* "**Zinstagequotient**" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "**Zinsberechnungszeitraum**"):

[Falls Actual/Actual (ICMA Regelung 251) anwendbar ist und wenn der Zinsberechnungszeitraum kürzer ist als die Bezugsperiode, in die der Zinsberechnungszeitraum fällt, oder ihr entspricht (einschließlich im Falle eines kurzen Kupons) einfügen: die Anzahl von Tagen in dem Zinsberechnungszeitraum, geteilt durch **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** das Produkt aus (1)] [die] [der] Anzahl der Tage in der Bezugsperiode, in die der Zinsberechnungszeitraum fällt **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** und (2) der Anzahl von Bezugsperioden, die in ein Kalenderjahr fallen oder fallen würden, falls Zinsen für das gesamte Jahr zu zahlen wären].]

[Falls Actual/Actual (ICMA Regelung 251) anwendbar ist und wenn der Zinsberechnungszeitraum länger ist als eine Bezugsperiode (langer Kupon) einfügen: die Summe aus:

- (B) der Anzahl von Tagen in dem Zinsberechnungszeitraum, die in die nächste Bezugsperiode fallen, geteilt durch **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** das Produkt aus (1)] [die] [der] Anzahl der Tage in dieser Bezugsperiode **[im Falle von Bezugsperioden, die kürzer sind als ein Jahr einfügen:** und (2) der Anzahl von Bezugsperioden, die in ein Kalenderjahr fallen oder fallen würden, falls Zinsen für das gesamte Jahr zu zahlen wären].]

[Falls Actual/Actual (ICMA Regelung 251) anwendbar ist einfügen: "**Bezugsperiode**" bezeichnet den Zeitraum ab dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) oder von jedem Zinszahlungstag (einschließlich) bis zum nächsten Zinszahlungstag (ausschließlich). **[Im Falle eines ersten oder letzten kurzen Zinsberechnungszeitraumes einfügen:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gilt der **[Fiktiven Verzinsungsbeginn oder fiktiven Zinszahlungstag einfügen]** als **[Verzinsungsbeginn] [Zinszahlungstag].]** **[Im Falle eines ersten oder letzten langen Zinsberechnungszeitraumes einfügen:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gelten der **[Fiktiven Verzinsungsbeginn [und][oder]**

[Im Fall von 30/360, 360/360 oder Bond Basis einfügen: die Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360, wobei die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit zwölf Monaten zu je 30 Tagen zu ermitteln ist (es sei denn, (A) der letzte Tag des Zinsberechnungszeitraums fällt auf den 31. Tag eines Monats, während der erste Tag des Zinsberechnungszeitraumes weder auf den 30. noch auf den 31. Tag eines Monats fällt, wobei in diesem Fall der diesen Tag enthaltende Monat nicht als ein auf 30 Tage gekürzter Monat zu behandeln ist, oder (B) der letzte Tag des Zinsberechnungszeitraumes fällt auf den letzten Tag des Monats Februar, wobei in diesem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

Der Anleihegläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen. Für diese Zwecke bezeichnet "**Geschäftstag**" einen Tag (außer einem Samstag oder Sonntag), an dem das Clearing System [**falls die festgelegte Währung Euro ist oder falls das TARGET System aus anderen Gründen benötigt wird, einfügen:** sowie das TARGET System] betriebsbereit ist [**falls die festgelegte Währung nicht Euro ist, oder falls aus anderen Gründen erforderlich, einfügen:** [und] Geschäftsbanken und Devisenmärkte in [**sämtliche relevanten Finanzzentren einfügen**] Zahlungen abwickeln].

§7 STEUERN

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind an der Quelle ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder von oder in den Vereinigten Staaten von Amerika oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde derselben auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich oder auf der Grundlage eines Vertrages zwischen der Emittentin und/oder der Zahlstelle oder eines Staates und den Vereinigten Staaten von Amerika oder einer Behörde der Vereinigten Staaten von Amerika vorgeschrieben. In diesem Fall wird die Emittentin diejenigen zusätzlichen Beträge **[Im Fall von nachrangigen Schuldverschreibungen einfügen:** ausschließlich in Bezug auf Zinszahlungen] (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Anleihegläubigern zufließenden Nettobeträge nach einem solchen Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Anleihegläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht für solche Steuern und Abgaben:

- (a) die in Bezug auf die deutsche Kapitalertragsteuer (einschließlich der sog. Abgeltungsteuer), einschließlich Kirchensteuer (soweit anwendbar) und Solidaritätszuschlag, die nach den deutschen Steuergesetzen abgezogen oder einbehalten werden, auch wenn der Abzug oder Einbehalt durch die Emittentin, ihren Stellvertreter oder die auszahlende Stelle vorzunehmen ist oder jede andere Steuer, welche die oben genannten Steuern ersetzen sollte; oder
- (b) die wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Anleihegläubigers zur Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder

KÜNDIGUNG

- (1) *Kündigungsgründe.* Jeder Anleihegläubiger ist berechtigt, seine Schuldverschreibungen zu kündigen und deren sofortige Rückzahlung zu ihrem Rückzahlungsbetrag (wie in §5 beschrieben), zuzüglich etwaiger bis zum Tage der Rückzahlung aufgelaufener Zinsen zu verlangen, falls:
 - (a) die Emittentin Kapital oder Zinsen nicht innerhalb von 30 Tagen nach dem betreffenden Fälligkeitstag zahlt; oder
 - (b) die Emittentin die ordnungsgemäße Erfüllung irgendeiner anderen Verpflichtung aus den Schuldverschreibungen unterlässt und diese Unterlassung nicht geheilt werden kann oder, falls sie geheilt werden kann, länger als 45 Tage fort dauert, nachdem die Emissionsstelle hierüber eine Benachrichtigung von einem Anleihegläubiger erhalten hat; oder
 - (c) die Emittentin aufgelöst oder liquidiert wird, es sei denn dass die Auflösung oder Liquidation im Zusammenhang mit einer Verschmelzung oder einem sonstigen Zusammenschluss mit einem anderen Rechtsgebilde erfolgt, sofern dieses andere Rechtsgebilde alle Verbindlichkeiten der Emittentin aus den Schuldverschreibungen übernimmt.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

- (2) *Benachrichtigung.* Eine Benachrichtigung, einschließlich einer Kündigung der Schuldverschreibungen gemäß vorstehendem Absatz (1) ist in Textform in deutscher oder englischer Sprache gegenüber der Emissionsstelle zu erklären. Der Benachrichtigung ist ein Nachweis beizufügen, aus dem sich ergibt, dass der betreffende Anleihegläubiger zum Zeitpunkt der Abgabe der Benachrichtigung Inhaber der betreffenden Schuldverschreibung ist. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei der Emissionsstelle zwecks Entwertung eingereicht werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Anleihegläubigern gemacht werden.

§12

ANWENDBARES RECHT, GERICHTSSTAND UND GERICHTLICHE GELTENDMACHUNG

- (1) Form und Inhalt der Schuldverschreibungen sowie die Rechte und Pflichten der Emittentin und der Anleihegläubiger unterliegen dem Recht der Bundesrepublik Deutschland. Soweit gemäß Verordnung (EG) Nr. 864/2007 vom 11. Für die Zwecke des Vorstehenden bezeichnet "**Depotbank**" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwahrungsgeschäft zu betreiben und bei der/dem der Anleihegläubiger ein Wertpapierdepot für die Schuldverschreibungen unterhält, einschließlich des Clearing Systems. [§13

ÄNDERUNGEN DER EMISSIONSBEDINGUNGEN; GEMEINSAMER VERTRETER

- (1) *Änderung der Emissionsbedingungen.*
 - (a) Die Emittentin kann die Emissionsbedingungen **[Im Fall von nachrangigen Schuldverschreibungen einfügen:** vorbehaltlich der Einhaltung der Voraussetzungen der anwendbaren Eigenmittelvorschriften für die Anerkennung der Schuldverschreibungen als Tier 2 Kapital] mit Zustimmung aufgrund Mehrheitsbeschlusses der Anleihegläubiger nach Maßgabe der §§ 5 ff. SchVG ändern. Eine Änderung der Emissionsbedingungen ohne Zustimmung der Emittentin scheidet aus.

- (b) Die Anleihegläubiger können insbesondere wesentlichen Änderungen der Inhalte der Emissionsbedingungen **[Im Fall von nachrangigen Schuldverschreibungen einfügen:]**, vorbehaltlich der Einhaltung der Voraussetzungen der anwendbaren Eigenmittelvorschriften für die Anerkennung der Schuldverschreibungen als Tier 2 Kapital], einschließlich der in § 5 (3) SchVG vorgesehenen Maßnahmen mit den in dem nachstehenden §13 Absatz (2) genannten Mehrheiten zustimmen. Ein ordnungsgemäß gefasster Mehrheitsbeschluss ist für alle Anleihegläubiger verbindlich.
- (2) *Mehrheitserfordernisse.* Vorbehaltlich des nachstehenden Satzes und der Erreichung der erforderlichen Beschlussfähigkeit, beschließen die Anleihegläubiger mit der einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Emissionsbedingungen, insbesondere in den Fällen des §5 Absatz 3 Nummer 1 bis 9 SchVG, geändert wird, bedürfen zu ihrer Wirksamkeit einer Mehrheit von mindestens 75 % der an der Abstimmung teilnehmenden Stimmrechte (eine "**Qualifizierte Mehrheit**"). Das Stimmrecht ruht, solange die Schuldverschreibungen der Emittentin oder einem mit ihr verbundenen Unternehmen (§ 271 Absatz 2 HGB) zustehen oder für Rechnung der Emittentin oder eines mit ihr verbundenen Unternehmens gehalten werden.
- (3) *Beschlüsse.* Beschlüsse der Anleihegläubiger werden entweder in einer Gläubigerversammlung nach §13 Absatz (3) (i) oder im Wege der Abstimmung ohne Versammlung nach §13 Absatz (3) (ii) getroffen, die von der Emittentin oder einem gemeinsamen Vertreter einberufen wird.
- (i) Beschlüsse der Anleihegläubiger im Rahmen einer Gläubigerversammlung werden nach §§ 9 ff. SchVG getroffen. Die Einberufung der Gläubigerversammlung regelt die weiteren Einzelheiten der Beschlussfassung und der Abstimmung. Mit der Einberufung der Gläubigerversammlung werden in der Tagesordnung die Beschlussgegenstände sowie die Vorschläge zur Beschlussfassung den Anleihegläubigern bekannt gegeben.
- (ii) Beschlüsse der Anleihegläubiger im Wege der Abstimmung ohne Versammlung werden nach § 18 SchVG getroffen. Die Aufforderung zur Stimmabgabe durch den Abstimmungsleiter regelt die weiteren Einzelheiten der Beschlussfassung und der Abstimmung. Mit der Aufforderung zur Stimmabgabe werden die Beschlussgegenstände sowie die Vorschläge zur Beschlussfassung den Anleihegläubigern bekannt gegeben.
- (4) *Zweite Gläubigerversammlung.* Wird die Beschlussfähigkeit bei der Abstimmung ohne Versammlung nach §13 Absatz (3) (ii) nicht festgestellt, kann der Abstimmungsleiter eine Gläubigerversammlung einberufen, welche als zweite Gläubigerversammlung im Sinne des § 15(3) Satz 3 SchVG gilt.
- (5) *Anmeldung.* Die Stimmrechtsausübung ist von einer vorherigen Anmeldung der Anleihegläubiger abhängig. Die Anmeldung muss bis zum dritten Tag vor der Gläubigerversammlung im Falle einer Gläubigerversammlung (wie in §13 Absatz (3) (i) oder §13 Absatz (4) beschrieben) bzw. vor dem Beginn des Abstimmungszeitraums im Falle einer Abstimmung ohne Versammlung (wie in §13 Absatz (3)(ii) beschrieben) unter der in der Aufforderung zur Stimmabgabe angegebenen Anschrift zugehen. Zusammen mit der Anmeldung müssen Anleihegläubiger den Nachweis ihrer Berechtigung zur Teilnahme an der Abstimmung durch eine besondere Bescheinigung ihrer jeweiligen Depotbank in Textform und die Vorlage eines Sperrvermerks der Depotbank erbringen, aus dem hervorgeht, dass die relevanten Schuldverschreibungen für den Zeitraum vom Tag der Absendung der Anmeldung (einschließlich) bis zu dem angegebenen Ende der Versammlung (einschließlich) bzw. dem Ende des Abstimmungszeitraums (einschließlich) nicht übertragen werden können.
- (6) *Gemeinsamer Vertreter.*

- (a) Die Anleihegläubiger können durch Mehrheitsbeschluss die Bestellung und Abberufung eines gemeinsamen Vertreters, die Aufgaben und Befugnisse des gemeinsamen Vertreters, die Übertragung von Rechten der Anleihegläubiger auf den gemeinsamen Vertreter und eine Beschränkung der Haftung des gemeinsamen Vertreters bestimmen. Die Bestellung eines gemeinsamen Vertreters bedarf einer Qualifizierten Mehrheit, wenn er ermächtigt wird, wesentlichen Änderungen der Emissionsbedingungen gemäß §13 (1) zuzustimmen.
 - (b) Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Anleihegläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Anleihegläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Anleihegläubiger ermächtigt ist, sind die einzelnen Anleihegläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Anleihegläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.
 - (c) Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.
- (7) *Bekanntmachungen.* Bekanntmachungen betreffend diesem §13 erfolgen gemäß den §§ 5ff. SchVG sowie nach §11.]

Der Gesamtnennbetrag der Serie [**Seriennummer einfügen**] lautet [**Gesamtnennbetrag der gesamten konsolidierten Serie [Seriennummer einfügen] einfügen**].]

- (2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber.

[Im Fall von Vorläufigen Global-Urkunden, die gegen Dauer-Global-Urkunden ausgetauscht werden, einfügen:

Die Schuldverschreibungen sind anfänglich in einer vorläufigen Global-Urkunde (die "**Vorläufige Global-Urkunde**"), ohne Zinsschein verbrieft. Die Vorläufige Global-Urkunde wird am oder nach dem 40. Tag (der "**Austauschtag**") nach dem Tag der Begebung der Schuldverschreibungen nur nach Vorlage von Bescheinigungen, wonach der wirtschaftliche Eigentümer oder die wirtschaftlichen Eigentümer der durch die Vorläufige Global-Urkunde verbrieften Schuldverschreibungen keine U.S.-Person(en) ist bzw. sind (ausgenommen bestimmte Finanzinstitute oder Personen, die Schuldverschreibungen über solche Finanzinstitute halten) (die "**Bescheinigungen über Nicht-U.S.-Eigentum**"), gegen eine Dauer-Global-Urkunde (die "**Dauer-Global-Urkunde**" und, zusammen mit der Vorläufigen Global-Urkunde die "**Global-Schuldverschreibung**"), ausgetauscht. Jede Global-Schuldverschreibung trägt die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin. [Die Details eines solchen Austausches werden in den Büchern der ICSD geführt.]

Zinszahlungen auf durch eine Vorläufige Global-Urkunde verbrieft Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der Vorläufigen Global-Urkunde eingeht, wird als ein Ersuchen behandelt werden, diese Vorläufige Global-Urkunde auszutauschen.

Die Inhaber der Schuldverschreibungen (die "**Anleihegläubiger**") haben keinen Anspruch auf Ausgabe von Schuldverschreibungen in effektiver Form. Die Schuldverschreibungen sind als Miteigentumsanteile an der Global-Schuldverschreibung nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.

"**U.S.-Personen**" sind solche, wie sie in *Regulation S* des *United States Securities Act of 1933* definiert sind und umfassen insbesondere Gebietsansässige der Vereinigten Staaten sowie amerikanische Kapital- und Personengesellschaften.]

[Im Fall einer Dauer-Global-Urkunde ab dem Begebungstag einfügen:

Die Schuldverschreibungen sind in einer Dauer-Global-Urkunde ohne Zinsschein verbrieft (die "**Global-Schuldverschreibung**"), der die eigenhändigen oder faksimilierten Unterschriften von zwei berechtigten Vertretern der Emittentin. Die Inhaber der Schuldverschreibungen (die "**Anleihegläubiger**") haben keinen Anspruch auf Ausgabe von Schuldverschreibungen in effektiver Form. Die Schuldverschreibungen sind als Miteigentumsanteile an der Global-Schuldverschreibung nach den einschlägigen Bestimmungen des Clearing Systems übertragbar.]

- (3) Jede Global-Schuldverschreibung wird von einem oder im Namen eines Clearing Systems verwahrt. "**Clearing System**" meint [Clearstream Banking AG, Frankfurt][Clearstream Banking, SA ("**CBL**") und Euroclear Bank SA/NV ("**Euroclear**")][(CBL und Euroclear sind jeweils ein "**ICSD**" (International Central Securities Depository) und gemeinsam die "**ICSDs**")][**anderes Clearing System festlegen**].]

[Im Fall von Euroclear und CBL und wenn die Global-Urkunde eine NGN ist, einfügen:

- (4) Die Schuldverschreibungen werden in New Global Note Form ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt. Der Nennbetrag der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen entspricht dem jeweils in den Büchern beider ICSDs eingetragenen Gesamtbetrag. Die Bücher der ICSDs (die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind schlüssiger Nachweis über den Nennbetrag der durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Nennbetrag der so verbrieften Schuldverschreibungen ist zu jedem Zeitpunkt ein schlüssiger Nachweis über den Inhalt der Bücher des jeweiligen ICSD.

Bei jeder Rückzahlung oder Zinszahlung bezüglich bzw. Kauf und Entwertung der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen werden die Einzelheiten über Rückzahlung, Zinszahlung bzw. Kauf und Entwertung bezüglich der [Vorläufigen Global-Urkunde bzw. der] [Dauer-Global-Urkunde] [Global-Schuldverschreibungen] anteilig in die Bücher der ICSDs eingetragen und nach dieser Eintragung vom Nennbetrag der in die Bücher der ICSDs aufgenommenen und durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen. [Für das technische Verfahren der ICSDs im Fall der optionalen Rückzahlung (wie in §4 definiert) hinsichtlich einer teilweisen Rückzahlung wird der ausstehende Rückzahlungsbetrag entweder als Reduzierung des Nennbetrags oder als Poolfaktor nach Ermessen der ICSDs in die Bücher der ICSDs aufgenommen.]]

[Im Fall von Euroclear und CBL und wenn die Global-Schuldverschreibung eine CGN ist, einfügen:

- (4) Die Schuldverschreibungen werden in Classic Global Note Form ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]
- (5) *Gläubiger von Schuldverschreibungen.* "**Anleihegläubiger**" bedeutet jeder Inhaber eines Miteigentumsanteils oder anderen Rechts an den Schuldverschreibungen.

§2 STATUS

[Im Fall von nicht-nachrangigen Schuldverschreibungen einfügen:

Die Schuldverschreibungen begründen nicht besicherte und nicht-nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht-nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit zwingende gesetzliche Bestimmungen nichts anderes vorschreiben.]

[Im Fall von nachrangigen Schuldverschreibungen einfügen:

- (1) *Nachrangige Verbindlichkeiten (Ergänzungskapital).* Die Schuldverschreibungen sollen der Emittentin als anrechenbare Eigenmittel in der Form von Ergänzungskapital ("**Ergänzungskapital**" bzw. "**Tier 2 Kapital**") gemäß den anwendbaren Eigenmittelvorschriften zur Verfügung stehen. In diesen Emissionsbedingungen bedeutet "**anwendbare Eigenmittelvorschriften**" die Vorschriften hinsichtlich der Anerkennung von Eigenmitteln in der jeweils gültigen Fassung, wie von der zuständigen Aufsichtsbehörde angewandt (einschließlich, jedoch nicht hierauf beschränkt, Art. 63 ff. der Verordnung (EU) Nr. 575/2013 des Europäischen Parlaments und des Rates über Aufsichtsanforderungen an Kreditinstitute und Wertpapierfirmen vom 26. Juni 2013 (die "**CRR**"), andere diesbezügliche Vorschriften des Bankaufsichtsrechts sowie darauf bezogene Regelungen und Verordnungen einschließlich unmittelbar anwendbarer Vorschriften des Europäischen Gemeinschaftsrechts, in ihrer jeweils ergänzten oder ersetzten Fassung).

Die Verbindlichkeiten unter den Schuldverschreibungen begründen nicht besicherte, nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit nicht gesetzliche Vorschriften oder die Bedingungen dieser anderen Verbindlichkeiten eine andere Regelung vorsehen. Die Ansprüche aus den Schuldverschreibungen gehen den Ansprüchen aller dritten Gläubiger der Emittentin aus nicht-nachrangigen Verbindlichkeiten im Range vollständig nach. Im Fall der Auflösung, der Liquidation oder der Insolvenz der Emittentin, oder eines Vergleichs oder eines anderen der Abwendung der Insolvenz dienenden Verfahrens gegen die Emittentin gehen die Verbindlichkeiten aus den Schuldverschreibungen den Ansprüchen dritter Gläubiger der Emittentin aus nicht-nachrangigen Verbindlichkeiten im Range vollständig nach, so dass Zahlungen auf die Schuldverschreibungen solange nicht erfolgen, wie die Ansprüche dieser dritten Gläubiger der Emittentin aus nicht-nachrangigen Verbindlichkeiten nicht vollständig befriedigt sind. Kein Gläubiger ist berechtigt, seine Ansprüche aus den Schuldverschreibungen gegen Ansprüche der Emittentin aufzurechnen. Den Gläubigern wird für ihre Rechte aus den Schuldverschreibungen weder durch die Emittentin noch durch Dritte irgendeine Sicherheit oder Garantie gestellt; eine solche Sicherheit oder Garantie wird auch zu keinem späteren Zeitpunkt gestellt werden.

- (2) *Schutz der Eigenmittelfunktion.* Nachträglich kann der Nachrang gemäß §2 (1) nicht beschränkt, der Fälligkeitstag der Schuldverschreibungen nicht auf ein früheres Datum verlegt und eine anwendbare Kündigungsfrist nicht verkürzt werden. Werden die Schuldverschreibungen vor dem Fälligkeitstag unter anderen als den in §2 (1) beschriebenen Umständen oder infolge einer vorzeitigen Rückzahlung nach Maßgabe von §5 (2) [oder §5 (3)] oder §5 (4) zurückgezahlt oder von der Emittentin zurückgekauft, so ist der zurückgezahlte oder gezahlte Betrag der Emittentin ohne Rücksicht auf entgegenstehende Vereinbarungen zurückzuzahlen, sofern nicht die zuständige Aufsichtsbehörde der vorzeitigen Rückzahlung oder dem Rückkauf zugestimmt hat. Eine Kündigung oder vorzeitige Rückzahlung der Schuldverschreibungen nach Maßgabe von §5 (2) [oder §5 (3)] oder §5 (4) oder anderweitig oder ein Rückkauf der Schuldverschreibungen vor dem Fälligkeitstag steht unter dem Vorbehalt der vorherigen Zustimmung der zuständigen Aufsichtsbehörde.]

Für den Fall, dass der Referenzzinssatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Referenzzinssatz der Angebotssatz oder das arithmetische Mittel der Angebotssätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem diese Angebotssätze angezeigt wurden.

"Referenzbanken" bezeichnen **[falls in den Endgültigen Bedingungen keine anderen Referenzbanken bestimmt werden, einfügen:** diejenigen Niederlassungen von mindestens vier derjenigen Banken, die von der Berechnungsstelle in Abstimmung mit der Emittentin ausgewählt wurden, deren Angebotssätze zur Ermittlung des maßgeblichen Angebotssatzes zu dem Zeitpunkt benutzt wurden, als solch ein Angebot letztmals auf der maßgeblichen Bildschirmseite angezeigt wurde. **[Falls in den Endgültigen Bedingungen andere Referenzbanken bestimmt werden, einfügen: [jeweilige andere Referenzbanken]. [(3)][(4)] *Zinsbetrag.* Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Schuldverschreibungen zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "Zinsbetrag") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt,

indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(4)][(5)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der betreffende Zinszahlungstag der Emittentin und den Anleihegläubigern gemäß §11, baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden [TARGET][Londoner][**zutreffenden anderen Ort einfügen**] Geschäftstag (wie in §3(2) definiert) und jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, sowie den Anleihegläubigern gemäß §11 mitgeteilt.

[(6)][(7)] *Auflaufende Zinsen.* Der Zinslauf der Schuldverschreibungen endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Schuldverschreibungen vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Schuldverschreibungen in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen²² zu verzinsen, es sei denn, die Schuldverschreibungen werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.]

§7 STEUERN

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind an der Quelle ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder von oder in den Vereinigten Staaten von Amerika oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde derselben auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich oder auf der Grundlage eines Vertrages zwischen der Emittentin und/oder der Zahlstelle oder eines Staates und den Vereinigten Staaten von Amerika oder einer Behörde der Vereinigten Staaten von Amerika vorgeschrieben. In diesem Fall wird die Emittentin diejenigen zusätzlichen Beträge **[Im Fall von nachrangigen Schuldverschreibungen einfügen: ausschließlich in Bezug auf Zinszahlungen] (die "zusätzlichen Beträge")** zahlen, die erforderlich sind, damit die den Anleihegläubigern zufließenden Nettobeträge nach einem solchen Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Anleihegläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht für solche Steuern und Abgaben:

- (a) die in Bezug auf die deutsche Kapitalertragsteuer (einschließlich der sog. Abgeltungsteuer), einschließlich Kirchensteuer (soweit anwendbar) und Solidaritätszuschlag, die nach den deutschen Steuergesetzen abgezogen oder einbehalten werden, auch wenn der Abzug oder Einbehalt durch die Emittentin, ihren Stellvertreter oder die auszahlende Stelle vorzunehmen ist oder jede andere Steuer, welche die oben genannten Steuern ersetzen sollte; oder

- (b) die wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Anleihegläubigers zur Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (c) die (x) aufgrund oder infolge (i) eines internationalen Vertrages, dessen Partei die Bundesrepublik Deutschland ist, oder (ii) einer Verordnung oder Richtlinie aufgrund oder infolge eines solchen Vertrages auferlegt oder erhoben werden; oder (y) auf eine Zahlung erhoben werden, die an eine natürliche Person vorgenommen wird und aufgrund der Richtlinie 2003/48/EG des Europäischen Rates oder einer anderen Richtlinie (die "**Richtlinie**") zur Umsetzung der Schlussfolgerungen des ECOFIN-Ratstreffens vom 26. und 27. KÜNDIGUNG

- (1) *Kündigungsgründe.* Jeder Anleihegläubiger ist berechtigt, seine Schuldverschreibungen zu kündigen und deren sofortige Rückzahlung zu ihrem Rückzahlungsbetrag (wie in §5

- (c) die Emittentin aufgelöst oder liquidiert wird, es sei denn dass die Auflösung oder Liquidation im Zusammenhang mit einer Verschmelzung oder einem sonstigen Zusammenschluss mit einem anderen Rechtsgebilde erfolgt, sofern dieses andere Rechtsgebilde alle Verbindlichkeiten der Emittentin aus den Schuldverschreibungen übernimmt.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

- (2) *Benachrichtigung.* Eine Benachrichtigung, einschließlich einer Kündigung der Schuldverschreibungen gemäß vorstehendem Absatz (1) ist in Textform in deutscher oder englischer Sprache gegenüber der Emissionsstelle zu erklären. - (2) *Ankauf.* **[Im Fall von nachrangigen Schuldverschreibungen einfügen:** Vorbehaltlich der Regelungen in §2, insbesondere der vorherigen Zustimmung der zuständigen Aufsichtsbehörde, sofern diese gesetzlich erforderlich ist, und nur falls und soweit der Rückkauf nicht aufgrund der anwendbaren Eigenmittelvorschriften verboten ist, ist die Emittentin] [Die Emittentin ist] berechtigt, Schuldverschreibungen im geregelten Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei der Emissionsstelle zwecks Entwertung eingereicht werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Anleihegläubigern gemacht werden.

[§13

ÄNDERUNGEN DER EMISSIONSBEDINGUNGEN; GEMEINSAMER VERTRETER

- (1) *Änderung der Emissionsbedingungen.*
 - (a) Die Emittentin kann die Emissionsbedingungen [**Im Fall von nachrangigen Schuldverschreibungen einfügen:** vorbehaltlich der Einhaltung der Voraussetzungen der anwendbaren Eigenmittelvorschriften für die Anerkennung der Schuldverschreibungen als Tier 2 Kapital] mit Zustimmung aufgrund Mehrheitsbeschlusses der Anleihegläubiger nach Maßgabe der §§ 5 ff. SchVG ändern. Eine Änderung der Emissionsbedingungen ohne Zustimmung der Emittentin scheidet aus.
 - (b) Die Anleihegläubiger können insbesondere wesentlichen Änderungen der Inhalte der Emissionsbedingungen [**Im Fall von nachrangigen Schuldverschreibungen einfügen:**, vorbehaltlich der Einhaltung der Voraussetzungen der anwendbaren Eigenmittelvorschriften für die Anerkennung der Schuldverschreibungen als Tier 2 Kapital], einschließlich der in § 5 (3) SchVG vorgesehenen Maßnahmen mit den in dem nachstehenden §13 Absatz (2) genannten Mehrheiten zustimmen. Ein ordnungsgemäß gefasster Mehrheitsbeschluss ist für alle Anleihegläubiger verbindlich.
- (2) *Mehrheitserfordernisse.* Vorbehaltlich des nachstehenden Satzes und der Erreichung der erforderlichen Beschlussfähigkeit, beschließen die Anleihegläubiger mit der einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Emissionsbedingungen, insbesondere in den Fällen des § 5 Absatz 3 Nummer 1 bis 9 SchVG, geändert wird, bedürfen zu ihrer Wirksamkeit einer Mehrheit von mindestens 75 % der an der Abstimmung teilnehmenden Stimmrechte (eine "**Qualifizierte Mehrheit**"). Das Stimmrecht ruht, solange die Schuldverschreibungen der Emittentin oder einem mit ihr verbundenen Unternehmen (§ 271 Absatz 2 HGB) zustehen oder für Rechnung der Emittentin oder eines mit ihr verbundenen Unternehmens gehalten werden.
- (3) *Beschlüsse.* Beschlüsse der Anleihegläubiger werden entweder in einer Gläubigerversammlung nach §13 Absatz (3) (i) oder im Wege der Abstimmung ohne Versammlung nach §13 Absatz (3) (ii) getroffen, die von der Emittentin oder einem gemeinsamen Vertreter einberufen wird.
 - (i) Beschlüsse der Anleihegläubiger im Rahmen einer Gläubigerversammlung werden nach §§ 9 ff. SchVG getroffen. Mit der Einberufung der Gläubigerversammlung werden in der Tagesordnung die Beschlussgegenstände sowie die Vorschläge zur Beschlussfassung den Anleihegläubigern bekannt gegeben.
 - (ii) Beschlüsse der Anleihegläubiger im Wege der Abstimmung ohne Versammlung werden nach § 18 SchVG getroffen. Die Aufforderung zur Stimmabgabe durch den Abstimmungsleiter regelt die weiteren Einzelheiten der Beschlussfassung und der Abstimmung. Mit der Aufforderung zur Stimmabgabe werden die

Beschlussgegenstände sowie die Vorschläge zur Beschlussfassung den Anleihegläubigern bekannt gegeben.

- (4) *Zweite Gläubigerversammlung.* Wird die Beschlussfähigkeit bei der Abstimmung ohne Versammlung nach §13 Absatz (3) (ii) nicht festgestellt, kann der Abstimmungsleiter eine Gläubigerversammlung einberufen, welche als zweite Gläubigerversammlung im Sinne des § 15(3) Satz 3 SchVG gilt.
- (5) *Anmeldung.* Die Stimmrechtsausübung ist von einer vorherigen Anmeldung der Anleihegläubiger abhängig. Die Anmeldung muss bis zum dritten Tag vor der Gläubigerversammlung im Falle einer Gläubigerversammlung (wie in §13 Absatz (3) (i) oder §13 Absatz (4) beschrieben) bzw. vor dem Beginn des Abstimmungszeitraums im Falle einer Abstimmung ohne Versammlung (wie in §13 Absatz (3)(ii) beschrieben) unter der in der Aufforderung zur Stimmabgabe angegebenen Anschrift zugehen. Zusammen mit der Anmeldung müssen Anleihegläubiger den Nachweis ihrer Berechtigung zur Teilnahme an der Abstimmung durch eine besondere Bescheinigung ihrer jeweiligen Depotbank in Textform und die Vorlage eines Sperrvermerks der Depotbank erbringen, aus dem hervorgeht, dass die relevanten Schuldverschreibungen für den Zeitraum vom Tag der Absendung der Anmeldung (einschließlich) bis zu dem angegebenen Ende der Versammlung (einschließlich) bzw. dem Ende des Abstimmungszeitraums (einschließlich) nicht übertragen werden können.
- (6) *Gemeinsamer Vertreter.*
- (a) Die Anleihegläubiger können durch Mehrheitsbeschluss die Bestellung und Abberufung eines gemeinsamen Vertreters, die Aufgaben und Befugnisse des gemeinsamen Vertreters, die Übertragung von Rechten der Anleihegläubiger auf den gemeinsamen Vertreter und eine Beschränkung der Haftung des gemeinsamen Vertreters bestimmen. Die Bestellung eines gemeinsamen Vertreters bedarf einer Qualifizierten Mehrheit, wenn er ermächtigt wird, wesentlichen Änderungen der Emissionsbedingungen gemäß §13 (1) zuzustimmen.
- (b) Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Anleihegläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Anleihegläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Anleihegläubiger ermächtigt ist, sind die einzelnen Anleihegläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Anleihegläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.
- (c) Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.
- (7) *Bekanntmachungen.* Bekanntmachungen betreffend diesem §13 erfolgen gemäß den §§ 5ff. SchVG sowie nach §11.]

Bei jeder Rückzahlung bezüglich bzw. Kauf und Entwertung der durch die [Vorläufige Global-Urkunde bzw. die] [Dauer-Global-Urkunde] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen werden die Einzelheiten über Rückzahlung bzw. Kauf und Entwertung bezüglich der [Vorläufigen Global-Urkunde bzw. der] [Dauer-Global-Urkunde] [Global-Schuldverschreibungen] anteilig in die Bücher der ICSDs eingetragen und nach dieser Eintragung vom Nennbetrag der in die Bücher der ICSDs aufgenommenen und durch die [Vorläufige Global-Urkunde bzw.] [die] [Dauer-Global-Urkunde] [der] [Global-Schuldverschreibung] verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen. [Für das technische Verfahren der ICSDs im Fall der optionalen Rückzahlung (wie in §4 definiert) hinsichtlich einer teilweisen Rückzahlung wird der ausstehende Rückzahlungsbetrag entweder als Reduzierung des Nennbetrags oder als Poolfaktor nach Ermessen der ICSDs in die Bücher der ICSDs aufgenommen.]]

§2 STATUS

Die Schuldverschreibungen begründen nicht besicherte und nicht-nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht-nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit zwingende gesetzliche Bestimmungen nichts anderes vorschreiben.

§3 ZINSEN

- (1) *Keine periodischen Zinszahlungen.* Es erfolgen keine periodischen Zinszahlungen auf die Schuldverschreibungen.
- (2) *Auflaufende Zinsen.* Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Schuldverschreibungen vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Schuldverschreibungen in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen⁴⁵ zu verzinsen, es sei denn, die Emissionsrendite der Schuldverschreibungen ist höher, als der gesetzlich festgelegte Satz für Verzugszinsen, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums in Höhe der Emissionsrendite erfolgt. Die Emissionsrendite beträgt [**Emissionsrendite angeben**] per annum (die "**Emissionsrendite**").]

§4 ZAHLUNGEN

- (1) *Zahlungen auf Kapital.* Zahlungen auf Kapital in Bezug auf die Schuldverschreibungen erfolgen nach Maßgabe des nachstehenden Absatzes 2 an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems gegen Vorlage und (außer im Fall von Teilzahlungen) Einreichung der die Schuldverschreibungen zum Zeitpunkt der Zahlung verbiefenden Globalurkunde bei der bezeichneten Geschäftsstelle der Emissionsstelle außerhalb der Vereinigten Staaten.
- (2) *Zahlungsweise.* Vorbehaltlich geltender steuerlicher und sonstiger gesetzlicher Regelungen und Vorschriften erfolgen zu leistende Zahlungen auf die Schuldverschreibungen in der frei handelbaren und konvertierbaren Währung, die am entsprechenden Fälligkeitstag die Währung des Staates der festgelegten Währung ist.
- (3) *Vereinigte Staaten.* Für die Zwecke des Absatzes 1 dieses §4 bezeichnet "**Vereinigte Staaten**" die Vereinigten Staaten von Amerika (einschließlich deren Bundesstaaten und des District of Columbia) sowie deren Territorien (einschließlich Puerto Rico, der U.S. Virgin Islands, Guam, American Samoa, Wake Island und Northern Mariana Islands).
- (4) *Erfüllung.* Die Emittentin wird durch Leistung der Zahlung an das Clearing System oder dessen Order von ihrer Zahlungspflicht befreit.
- (5) *Geschäftstag.* Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Geschäftstag ist, dann hat der Anleihegläubiger keinen Anspruch auf Zahlung vor dem nächsten Geschäftstag am jeweiligen Geschäftsort. Der Anleihegläubiger ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund dieser Verspätung zu verlangen. Für diese Zwecke bezeichnet "**Geschäftstag**" einen Tag (außer einem Samstag oder Sonntag), an dem das Clearing System [**falls die festgelegte Währung Euro ist oder falls das TARGET System aus anderen Gründen benötigt wird, einfügen:** sowie das TARGET System] betriebsbereit ist [**falls die festgelegte Währung nicht Euro ist, oder falls aus anderen Gründen erforderlich, einfügen:** [und] Geschäftsbanken und Devisenmärkte in [**sämtliche relevanten Finanzzentren einfügen**] Zahlungen abwickeln].

- (7) *Hinterlegung von Kapital und Zinsen.* Die Emittentin ist berechtigt, beim Amtsgericht Stuttgart Zins oder Kapitalbeträge zu hinterlegen, die von den Anleihegläubigern nicht innerhalb von zwölf Monaten nach dem Fälligkeitstag beansprucht worden sind, auch wenn die Anleihegläubiger sich nicht in Annahmeverzug befinden. Soweit eine solche Hinterlegung erfolgt, und auf das Recht der Rücknahme verzichtet wird, erlöschen die jeweiligen Ansprüche der Anleihegläubiger gegen die Emittentin.

§5 RÜCKZAHLUNG

- (1) *Rückzahlung bei Endfälligkeit.* Soweit nicht zuvor bereits ganz oder teilweise zurückgezahlt oder angekauft und entwertet, werden die Schuldverschreibungen zu ihrem Rückzahlungsbetrag am **[Fälligkeitstag einfügen]** (der "**Fälligkeitstag**") zurückgezahlt. Der Rückzahlungsbetrag in Bezug auf jede Schuldverschreibung entspricht **[falls die Schuldverschreibungen zu ihrem Nennbetrag zurückgezahlt werden, einfügen: dem Nennbetrag der Schuldverschreibungen] [ansonsten den Rückzahlungsbetrag für die jeweilige Stückelung einfügen].**

[Falls die Emittentin das Wahlrecht hat, die Schuldverschreibungen vorzeitig zurückzuzahlen, einfügen:

- (b) Eine solche Kündigung hat gemäß §11 zu erfolgen. Sie ist unwiderruflich, muss den für die Rückzahlung festgelegten Termin und die das Rückzahlungsrecht der Emittentin begründenden Umstände nennen.
- (c) Für die Zwecke von Absatz 2 dieses §5 und §9 entspricht der vorzeitige Rückzahlungsbetrag auf jede Schuldverschreibung der Summe aus:

STEUERN

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind an der Quelle ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder von oder in den Vereinigten Staaten von Amerika oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde derselben auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich oder auf der Grundlage eines Vertrages zwischen der Emittentin und/oder der Zahlstelle oder eines Staates und den Vereinigten Staaten von Amerika oder einer Behörde der Vereinigten Staaten von Amerika vorgeschrieben. In diesem Fall wird die Emittentin diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind,

damit die den Anleihegläubigern zufließenden Nettobeträge nach einem solchen Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Anleihegläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht für solche Steuern und Abgaben:

- (a) die in Bezug auf die deutsche Kapitalertragsteuer (einschließlich der sog. Abgeltungsteuer), einschließlich Kirchensteuer (soweit anwendbar) und Solidaritätszuschlag, die nach den deutschen Steuergesetzen abgezogen oder einbehalten werden, auch wenn der Abzug oder Einbehalt durch die Emittentin, ihren Stellvertreter oder die auszahlende Stelle vorzunehmen ist oder jede andere Steuer, welche die oben genannten Steuern ersetzen sollte; oder
- (b) die wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Anleihegläubigers zur Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (c) die (x) aufgrund oder infolge (i) eines internationalen Vertrages, dessen Partei die Bundesrepublik Deutschland ist, oder (ii) einer Verordnung oder Richtlinie aufgrund oder infolge eines solchen Vertrages auferlegt oder erhoben werden; oder (y) auf eine Zahlung erhoben werden, die an eine natürliche Person vorgenommen wird und aufgrund der Richtlinie 2003/48/EG des Europäischen Rates oder einer anderen Richtlinie (die "**Richtlinie**") zur Umsetzung der Schlussfolgerungen des ECOFIN-Ratstreffens vom 26. und 27. November 2000 über die Besteuerung von Einkommen aus Geldanlagen oder aufgrund einer Rechtsnorm erhoben werden, die der Umsetzung dieser Richtlinie dient, dieser entspricht oder zur Anpassung an die Richtlinie eingeführt wird; oder
- (d) die wegen einer Rechtänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung oder, falls dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß §11 wirksam wird; oder
- (e) die von einer Zahlstelle abgezogen oder einbehalten werden, wenn eine andere Zahlstelle die Zahlung ohne einen solchen Abzug oder Einbehalt hätte leisten können; oder
- (f) wenn hinsichtlich der Schuldverschreibungen derartige Steuern oder Abgaben auf andere Weise als durch Abzug oder Einbehalt von Kapital und/oder Zinsen erhoben werden; oder
- (g) die in Bezug auf Zahlungen durch die Emittentin, die Zahlstelle(n) oder eine andere Person im Hinblick auf die Schuldverschreibungen gemäß (a) den Abschnitten 1471 bis 1474 des United States Internal Revenue Code of 1986, wie geändert, ("**Code**") oder aktuellen oder zukünftigen Verordnungen oder offiziellen Auslegungen hiervon, (b) einer zwischenstaatlichen Vereinbarung zwischen den Vereinigten Staaten und einer anderen Jurisdiktion, die im Zusammenhang mit vorstehendem Punkt (a) geschlossen wurde, (c) einem Gesetz, einer Verordnung oder einer anderen offiziellen Richtlinie, das bzw. die in einer anderen Jurisdiktion erlassen wurde, oder in Bezug auf eine zwischenstaatliche Vereinbarung zwischen den Vereinigten Staaten und einer anderen Jurisdiktion, die (in beiden Fällen) die Umsetzung der vorstehenden Punkte (a) oder (b) vereinfacht oder (d) einer Vereinbarung gemäß Abschnitt 1471(b)(1) des Code erhoben werden.

§8

VORLEGUNGSFRIST

Die in § 801 Absatz 1 Satz 1 Bürgerliches Gesetzbuch (BGB) bestimmte Vorlegungsfrist wird für die Schuldverschreibungen auf zehn Jahre verkürzt.

§9

KÜNDIGUNG

- (1) *Kündigungsgründe.* Jeder Anleihegläubiger ist berechtigt, seine Schuldverschreibungen zu kündigen und deren sofortige Rückzahlung zu ihrem vorzeitigen Rückzahlungsbetrag (wie in §5 beschrieben), zuzüglich etwaiger bis zum Tage der Rückzahlung aufgelaufener Zinsen zu verlangen, falls:
- (a) die Emittentin Kapital oder Zinsen nicht innerhalb von 30 Tagen nach dem betreffenden Fälligkeitstag zahlt; oder
 - (b) die Emittentin die ordnungsgemäße Erfüllung irgendeiner anderen Verpflichtung aus den Schuldverschreibungen unterlässt und diese Unterlassung nicht geheilt werden kann oder, falls sie geheilt werden kann, länger als 45 Tage fort dauert, nachdem die Emissionsstelle hierüber eine Benachrichtigung von einem Anleihegläubiger erhalten hat; oder
 - (c) die Emittentin aufgelöst oder liquidiert wird, es sei denn dass die Auflösung oder Liquidation im Zusammenhang mit einer Verschmelzung oder einem sonstigen Zusammenschluss mit einem anderen Rechtsgebilde erfolgt, sofern dieses andere Rechtsgebilde alle Verbindlichkeiten der Emittentin aus den Schuldverschreibungen übernimmt.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

- (2) *Benachrichtigung.* Eine Benachrichtigung, einschließlich einer Kündigung der Schuldverschreibungen gemäß vorstehendem Absatz (1) ist in Textform in deutscher oder englischer Sprache gegenüber der Emissionsstelle zu erklären. Der Benachrichtigung ist ein Nachweis beizufügen, aus dem sich ergibt, dass der betreffende Anleihegläubiger zum Zeitpunkt der Abgabe der Benachrichtigung Inhaber der betreffenden Schuldverschreibung ist. Der Nachweis kann durch eine Bescheinigung der Depotbank (wie in §12 Absatz (3) definiert) oder auf andere geeignete Weise erbracht werden.

§10

BEGEBUNG WEITERER SCHULDVERSCHREIBUNGEN, ANKAUF UND ENTWERTUNG

- (1) *Begebung weiterer Schuldverschreibungen.* Die Emittentin ist berechtigt, jederzeit ohne Zustimmung der Anleihegläubiger weitere Schuldverschreibungen mit gleicher Ausstattung (gegebenenfalls mit Ausnahme des Tags der Begebung, des Verzinsungsbeginns und/oder des Ausgabepreises) in der Weise zu begeben, dass sie mit diesen Schuldverschreibungen eine einheitliche Serie bilden.
- (2) *Ankauf.* Die Emittentin ist berechtigt, Schuldverschreibungen im geregelten Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei der Emissionsstelle zwecks Entwertung eingereicht werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Anleihegläubigern gemacht werden.
- (3) *Entwertung.* Sämtliche vollständig zurückgezahlten Schuldverschreibungen sind unverzüglich zu entwerten und können nicht wiederbegeben oder wiederverkauft werden.

§11

MITTEILUNGEN

[So lange Schuldverschreibungen an einer Börse zugelassen sind und die Regeln einer solchen Börse oder Zulassungsbehörde es vorsehen, werden Mitteilungen in Übereinstimmung mit den Bestimmungen dieser Börsen oder Zulassungsbehörde veröffentlicht.]

[Alle die Schuldverschreibungen betreffenden Mitteilungen sind **[im Fall von Schuldverschreibungen, die an der Luxemburger Börse notiert sind:** auf der Internetseite der Luxemburger Börse (www.bourse.lu) zu veröffentlichen.] **[Alternative Veröffentlichung (nicht Luxemburger Börse):** auf der Internetseite der Emittentin (www.lbbw-markets.de) zu veröffentlichen.] **[im Fall von Schuldverschreibungen die an der Frankfurter oder Stuttgarter Wertpapierbörse zugelassen sind, einfügen:** im Bundesanzeiger und, soweit gesetzlich erforderlich, in einem von [der Frankfurter Börse] [und] [der Stuttgarter Börse] anerkanntem deutschen Börsenpflichtblatt, voraussichtlich der [Börsen-Zeitung] **[andere Zeitung einfügen]**, oder falls eine solche Veröffentlichung praktisch nicht möglich ist, Veröffentlichung in einer führenden englischsprachigen Tageszeitung mit allgemeiner Verbreitung in Europa] **[Im Fall von Schuldverschreibungen, die nicht börsennotiert sind und/oder eine Börse oder Zulassungsbehörde an welcher die Schuldverschreibungen zum Handel zugelassen sind, eine solche Veröffentlichung verbietet, anstelle der Veröffentlichung in einer Zeitung einfügen:** durch Übermittlung an das Clearing System in welchem die Schuldverschreibungen zur relevanten Zeit gehalten werden, zur Weiterleitung an die Personen, die nach den Aufzeichnungen des Clearing Systems berechtigtes Interesse daran haben] [wie nach den Vorschriften der jeweiligen Börse oder Zulassungsbehörde an denen die Schuldverschreibungen zum Handel zugelassen sind, erlaubt] **[Einzelheiten anderer anwendbarer oder vorgeschriebener Veröffentlichungsmethoden einfügen]**], [[Jede derartige Mitteilung gilt am Tag der Veröffentlichung (oder im Fall von mehreren Veröffentlichungen am Tag der ersten Veröffentlichung) als mitgeteilt.] [Jede derartige Mitteilung die an das Clearing System in welchem die Schuldverschreibungen zur relevanten Zeit gehalten werden und zur Weiterleitung an die Anleihegläubiger übermittelt wurde, gilt am Tag der Mitteilung an das Clearing System als den Anleihegläubigern mitgeteilt.]]

§12

ANWENDBARES RECHT, GERICHTSSTAND UND GERICHTLICHE GELTENDMACHUNG

- (1) Form und Inhalt der Schuldverschreibungen sowie die Rechte und Pflichten der Emittentin und der Anleihegläubiger unterliegen dem Recht der Bundesrepublik Deutschland. Soweit gemäß Verordnung (EG) Nr. 864/2007 vom 11. Juli 2007 über das auf außervertragliche Schuldverhältnisse anzuwendende Recht (Rom II) zulässig, unterliegen sämtliche nicht vertraglichen Ansprüche aus oder im Zusammenhang mit den Schuldverschreibungen deutschem Recht und werden nach diesem ausgelegt.
- (2) Nicht ausschließlich zuständig für sämtliche im Zusammenhang mit den Schuldverschreibungen entstehenden Klagen oder sonstige Verfahren ("**Rechtsstreitigkeiten**") ist das Landgericht Stuttgart.
- (3) *Gerichtliche Geltendmachung.* Jeder Anleihegläubiger ist berechtigt, in jedem Rechtsstreit gegen die Emittentin oder in jedem Rechtsstreit, in dem der Anleihegläubiger und die Emittentin Partei sind, seine Rechte aus diesen Schuldverschreibungen im eigenen Namen auf der folgenden Grundlage zu schützen oder geltend zu machen: (i) indem er eine Bescheinigung der Depotbank beibringt, bei der er für die Schuldverschreibungen ein Wertpapierdepot unterhält, welche (a) den vollständigen Namen und die vollständige Adresse des Anleihegläubigers enthält, (b) den Gesamtnennbetrag der Schuldverschreibungen bezeichnet, die unter dem Datum der Bestätigung auf dem Wertpapierdepot verbucht sind und (c) bestätigt, dass die Depotbank gegenüber dem Clearing System eine schriftliche Erklärung abgegeben hat, die die vorstehend unter (a) und (b) bezeichneten Informationen enthält; und (ii) indem er eine Kopie der die betreffenden Schuldverschreibungen verbriefenden Globalurkunde vorlegt, deren Übereinstimmung mit dem Original eine vertretungsberechtigte Person des Clearing Systems oder des Verwahrers des Clearing Systems bestätigt hat, ohne

dass eine Vorlage der Originalbelege oder der die Schuldverschreibungen verbriefenden Globalurkunde in einem solchen Verfahren erforderlich wäre. Für die Zwecke des Vorstehenden bezeichnet "**Depotbank**" jede Bank oder ein sonstiges anerkanntes Finanzinstitut, das berechtigt ist, das Wertpapierverwahrungsgeschäft zu betreiben und bei der/dem der Anleihegläubiger ein Wertpapierdepot für die Schuldverschreibungen unterhält, einschließlich des Clearing Systems. Unbeschadet des Vorstehenden kann jeder Anleihegläubiger seine Rechte aus den Schuldverschreibungen auch auf jede andere Weise schützen oder geltend machen, die im Land des Rechtsstreits prozessual zulässig ist.

[§13

ÄNDERUNGEN DER EMISSIONSBEDINGUNGEN; GEMEINSAMER VERTRETER

- (1) *Änderung der Emissionsbedingungen.*
 - (a) Die Emittentin kann die Emissionsbedingungen mit Zustimmung aufgrund Mehrheitsbeschlusses der Anleihegläubiger nach Maßgabe der §§ 5 ff. SchVG ändern. Eine Änderung der Emissionsbedingungen ohne Zustimmung der Emittentin scheidet aus.
 - (b) Die Anleihegläubiger können insbesondere einer Änderung wesentlicher Inhalte der Emissionsbedingungen, einschließlich der in § 5 Absatz 3 SchVG vorgesehenen Maßnahmen mit den in dem nachstehenden §13 Absatz (2) genannten Mehrheiten zustimmen. Ein ordnungsgemäß gefasster Mehrheitsbeschluss ist für alle Anleihegläubiger verbindlich.
- (2) *Mehrheitserfordernisse.* Vorbehaltlich des nachstehenden Satzes und der Erreichung der erforderlichen Beschlussfähigkeit, beschließen die Anleihegläubiger mit der einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Emissionsbedingungen, insbesondere in den Fällen des § 5 Absatz 3 Nummer 1 bis 9 SchVG, geändert wird, bedürfen zu ihrer Wirksamkeit einer Mehrheit von mindestens 75 % der an der Abstimmung teilnehmenden Stimmrechte (eine "**Qualifizierte Mehrheit**"). Das Stimmrecht ruht, solange die Schuldverschreibungen der Emittentin oder einem mit ihr verbundenen Unternehmen (§ 271 Absatz 2 HGB) zustehen oder für Rechnung der Emittentin oder eines mit ihr verbundenen Unternehmens gehalten werden.
- (3) *Beschlüsse.* Beschlüsse der Anleihegläubiger werden entweder in einer Gläubigerversammlung nach §13 Absatz (3) (i) oder im Wege der Abstimmung ohne Versammlung nach §13 Absatz (3) (ii) getroffen, die von der Emittentin oder einem gemeinsamen Vertreter einberufen wird.
 - (i) Beschlüsse der Anleihegläubiger im Rahmen einer Gläubigerversammlung werden nach §§ 9 ff. SchVG getroffen. Die Einberufung der Gläubigerversammlung regelt die weiteren Einzelheiten der Beschlussfassung und der Abstimmung. Mit der Einberufung der Gläubigerversammlung werden in der Tagesordnung die Beschlussgegenstände sowie die Vorschläge zur Beschlussfassung den Anleihegläubigern bekannt gegeben.
 - (ii) Beschlüsse der Anleihegläubiger im Wege der Abstimmung ohne Versammlung werden nach § 18 SchVG getroffen. Die Aufforderung zur Stimmabgabe durch den Abstimmungsleiter regelt die weiteren Einzelheiten der Beschlussfassung und der Abstimmung. Mit der Aufforderung zur Stimmabgabe werden die Beschlussgegenstände sowie die Vorschläge zur Beschlussfassung den Anleihegläubigern bekannt gegeben.
- (4) *Zweite Gläubigerversammlung.* Wird die Beschlussfähigkeit bei der Abstimmung ohne Versammlung nach §13 Absatz (3) (ii) nicht festgestellt, kann der Abstimmungsleiter eine Gläubigerversammlung einberufen, welche als zweite Gläubigerversammlung im Sinne des § 15(3) Satz 3 SchVG gilt.

- (5) *Anmeldung.* Die Stimmrechtsausübung ist von einer vorherigen Anmeldung der Anleihegläubiger abhängig. Die Anmeldung muss bis zum dritten Tag vor der Gläubigerversammlung im Falle einer Gläubigerversammlung (wie in §13 Absatz (3) (i) oder §13 Absatz (4) beschrieben) bzw. vor dem Beginn des Abstimmungszeitraums im Falle einer Abstimmung ohne Versammlung (wie in §13 Absatz (3)(ii) beschrieben) unter der in der Aufforderung zur Stimmabgabe angegebenen Anschrift zugehen. Zusammen mit der Anmeldung müssen Anleihegläubiger den Nachweis ihrer Berechtigung zur Teilnahme an der Abstimmung durch eine besondere Bescheinigung ihrer jeweiligen Depotbank in Textform und die Vorlage eines Sperrvermerks der Depotbank erbringen, aus dem hervorgeht, dass die relevanten Schuldverschreibungen für den Zeitraum vom Tag der Absendung der Anmeldung (einschließlich) bis zu dem angegebenen Ende der Versammlung (einschließlich) bzw. dem Ende des Abstimmungszeitraums (einschließlich) nicht übertragen werden können.
- (6) *Gemeinsamer Vertreter.*
- (a) Die Anleihegläubiger können durch Mehrheitsbeschluss die Bestellung und Abberufung eines gemeinsamen Vertreters, die Aufgaben und Befugnisse des gemeinsamen Vertreters, die Übertragung von Rechten der Anleihegläubiger auf den gemeinsamen Vertreter und eine Beschränkung der Haftung des gemeinsamen Vertreters bestimmen. Die Bestellung eines gemeinsamen Vertreters bedarf einer Qualifizierten Mehrheit, wenn er ermächtigt wird, wesentlichen Änderungen der Emissionsbedingungen gemäß §13 Absatz (1) zuzustimmen.
- (b) Der gemeinsame Vertreter hat die Aufgaben und Befugnisse, welche ihm durch Gesetz oder von den Anleihegläubigern durch Mehrheitsbeschluss eingeräumt wurden. Er hat die Weisungen der Anleihegläubiger zu befolgen. Soweit er zur Geltendmachung von Rechten der Anleihegläubiger ermächtigt ist, sind die einzelnen Anleihegläubiger zur selbständigen Geltendmachung dieser Rechte nicht befugt, es sei denn der Mehrheitsbeschluss sieht dies ausdrücklich vor. Über seine Tätigkeit hat der gemeinsame Vertreter den Anleihegläubigern zu berichten. Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.
- (c) Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.

"**Zinsfestlegungstag**" bezeichnet den **[zweiten]** **[zutreffende andere Zahl von Tagen einfügen]** **[TARGET]** **[Londoner]** **[zutreffende andere Bezugnahmen einfügen]** Geschäftstag vor Beginn der jeweiligen Zinsperiode. **[Im Falle eines TARGET-Geschäftstages einfügen:** "**TARGET-Geschäftstag**" bezeichnet einen Tag, an dem das TARGET System betriebsbereit ist.] **[Im Falle eines nicht-TARGET-Geschäftstages einfügen:** "**[Londoner]** **[zutreffenden anderen Ort einfügen]** **Geschäftstag**" bezeichnet einen Tag (außer einem Samstag oder Sonntag), an dem Geschäftsbanken in **[London]** **[zutreffenden anderen Ort einfügen]** für Geschäfte (einschließlich Devisen und Sortengeschäfte) geöffnet sind.

"**Bildschirmseite**" bedeutet **[Bildschirmseite einfügen]** und jede Nachfolgesseite.

Für den Ausgangs-Referenzsatz gilt:

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit der Ausgangs-Referenzsatz nicht angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige **[Zahl von Jahren einfügen]**-Jahres-Swapsätze gegenüber führenden Banken im Interbanken-Swapmarkt in der Euro-Zone (um ca. 11.00 Uhr [(Frankfurter Ortszeit)]**[zutreffenden anderen Ort einfügen]**) am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche **[Zahl von Jahren einfügen]**-Jahres-Swapsätze nennen, ist der Ausgangs-Referenzsatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser **[Zahl von Jahren einfügen]** Jahres-Swapsätze, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen **[Zahl von Jahren einfügen]**Jahres-Swapsätze nennt, ist der Ausgangs-Referenzsatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der **[Zahl von Jahren einfügen]**Jahres-Swapsätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr [(Frankfurter Ortszeit)]**[zutreffenden anderen Ort einfügen]** an dem betreffenden Zinsfestlegungstag von führenden Banken im Interbanken-Swapmarkt in der Euro-Zone angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche **[Zahl von Jahren einfügen]** Jahres-Swapsätze nennen, dann soll der Ausgangs-Referenzsatz für die betreffende Zinsperiode der **[Zahl von Jahren einfügen]** Jahres-Swapsatz oder das arithmetische Mittel (gerundet wie oben beschrieben) der **[Zahl von Jahren einfügen]** Jahres-Swapsätze sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Zinsfestlegungstag gegenüber führenden Banken am Interbanken-Swapmarkt in der Euro-Zone nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Ausgangs-Referenzsatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Ausgangs-Referenzsatz der **[Zahl von Jahren einfügen]** Jahres-Swapsatz oder das arithmetische Mittel der **[Zahl von Jahren einfügen]** Jahres-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem die **[Zahl von Jahren einfügen]** Jahres-Swapsätze angezeigt wurden.

Für den Abzugs-Referenzsatz gilt:

Sollte die maßgebliche Bildschirmseite nicht zur Verfügung stehen oder wird zu der genannten Zeit der Abzugs-Referenzsatz nicht angezeigt, wird die Berechnungsstelle von den Referenzbanken (wie nachstehend definiert) deren jeweilige **[Zahl von Jahren einfügen]** Jahres-Swapsätze gegenüber führenden Banken im Interbanken-Swapmarkt in der Euro-Zone (um ca. 11.00 Uhr [(Frankfurter Ortszeit)]**[zutreffenden anderen Ort einfügen]**) am Zinsfestlegungstag anfordern. Falls zwei oder mehr Referenzbanken der Berechnungsstelle solche **[Zahl von Jahren einfügen]** Jahres-Swapsätze nennen, ist der Abzugs-Referenzsatz für die betreffende Zinsperiode das arithmetische Mittel (falls erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) dieser **[Zahl von Jahren einfügen]** Jahres-Swapsätze, wobei alle Festlegungen durch die Berechnungsstelle erfolgen.

Falls an einem Zinsfestlegungstag nur eine oder keine der Referenzbanken der Berechnungsstelle solche im vorstehenden Absatz beschriebenen **[Zahl von Jahren einfügen]** Jahres-Swapsätze nennt, ist der Abzugs-Referenzsatz für die betreffende Zinsperiode der Satz *per annum*, den die Berechnungsstelle als das arithmetische Mittel (falls

erforderlich, auf- oder abgerundet auf das nächste ein Tausendstel Prozent, wobei 0,0005 aufgerundet wird) der **[Zahl von Jahren einfügen]** Jahres-Swapsätze ermittelt, die die Referenzbanken bzw. zwei oder mehrere von ihnen der Berechnungsstelle auf deren Anfrage als den jeweiligen Satz nennen, zu dem ihnen um ca. 11.00 Uhr [(Frankfurter Ortszeit)][**zutreffenden anderen Ort einfügen**] an dem betreffenden Zinsfestlegungstag von führenden Banken im Interbanken-Swapmarkt in der Euro-Zone angeboten werden; falls weniger als zwei der Referenzbanken der Berechnungsstelle solche **[Zahl von Jahren einfügen]** Jahres-Swapsätze nennen, dann soll der Abzugs-Referenzsatz für die betreffende Zinsperiode der **[Zahl von Jahren einfügen]** Jahres-Swapsatz oder das arithmetische Mittel (gerundet wie oben beschrieben) der **[Zahl von Jahren einfügen]** Jahres-Swapsätze sein, den bzw. die eine oder mehrere Banken (die nach Ansicht der Berechnungsstelle und der Emittentin für diesen Zweck geeignet sind) der Berechnungsstelle als Sätze bekannt geben, die sie an dem betreffenden Zinsfestlegungstag gegenüber führenden Banken am Interbanken-Swapmarkt in der Euro-Zone nennen (bzw. den diese Banken gegenüber der Berechnungsstelle nennen). Für den Fall, dass der Abzugs-Referenzsatz nicht gemäß den vorstehenden Bestimmungen dieses Absatzes ermittelt werden kann, ist der Abzugs-Referenzsatz der **[Zahl von Jahren einfügen]** Jahres-Swapsatz oder das arithmetische Mittel der **[Zahl von Jahren einfügen]** Jahres-Swapsätze auf der Bildschirmseite, wie vorstehend beschrieben, an dem letzten Tag vor dem Zinsfestlegungstag, an dem die **[Zahl von Jahren einfügen]** Jahres-Swapsätze angezeigt wurden.

"**Referenzbanken**" bezeichnen diejenigen Niederlassungen von mindestens vier derjenigen Banken im Swapmarkt, die von der Berechnungsstelle in Abstimmung mit der Emittentin ausgewählt wurden, deren **[Zahl von Jahren einfügen]** Jahres-Swapsätze zur Ermittlung des maßgeblichen **[Zahl von Jahren einfügen]** Jahres-Swapsatz zu dem Zeitpunkt benutzt wurden, als solch ein **[Zahl von Jahren einfügen]** Jahres-Swapsatz letztmals auf der maßgeblichen Bildschirmseite angezeigt wurde.]

"**Euro-Zone**" bezeichnet das Gebiet derjenigen Mitgliedstaaten der Europäischen Union, die die einheitliche Währung, die zu Beginn der Dritten Phase der Europäischen Wirtschafts- und Währungsunion eingeführt wurde und die in der Verordnung (EG) Nr. 974/98 des Rates vom 3. Mai 1998 über die Einführung des Euro, in ihrer aktuellsten Fassung, definiert ist, angenommen haben.

[Falls ein Mindestzinssatz gilt einfügen: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als **[Mindestzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Mindestzinssatz einfügen].]**

[Falls ein Höchstzinssatz gilt: Wenn der gemäß den obigen Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als **[Höchstzinssatz einfügen]**, so ist der Zinssatz für diese Zinsperiode **[Höchstzinssatz einfügen].]**

[(3)][(4)] *Zinsbetrag.* Die Berechnungsstelle wird zu oder baldmöglichst nach jedem Zeitpunkt, an dem der Zinssatz zu bestimmen ist, den Zinssatz bestimmen und den auf die Schuldverschreibungen zahlbaren Zinsbetrag in Bezug auf jede festgelegte Stückelung (der "**Zinsbetrag**") für die entsprechende Zinsperiode berechnen. Der Zinsbetrag wird ermittelt, indem der Zinssatz und der Zinstagequotient (wie nachstehend definiert) auf jede festgelegte Stückelung angewendet werden, wobei der resultierende Betrag auf die kleinste Einheit der festgelegten Währung auf- oder abgerundet wird, wobei 0,5 solcher Einheiten aufgerundet werden.

[(4)][(5)] *Mitteilung von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz, der Zinsbetrag für die jeweilige Zinsperiode, die jeweilige Zinsperiode und der

betreffende Zinszahlungstag der Emittentin und den Anleihegläubigern gemäß §11, baldmöglichst, aber keinesfalls später als am vierten auf die Berechnung jeweils folgenden [TARGET][Londoner][**zutreffenden anderen Ort einfügen**] Geschäftstag (wie in §3(2) definiert) und jeder Börse, an der die betreffenden Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, baldmöglichst, aber keinesfalls später als zu Beginn der jeweiligen Zinsperiode mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag und Zinszahlungstag ohne Vorankündigung nachträglich angepasst (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Anpassung wird umgehend allen Börsen, an denen die Schuldverschreibungen zu diesem Zeitpunkt notiert sind, sowie den Anleihegläubigern gemäß §11 mitgeteilt.

[(5)][(6)] *Verbindlichkeit der Festsetzungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Festsetzungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle für die Zwecke dieses §3 gemacht, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, die Emissionsstelle[, die Zahlstellen] und die Anleihegläubiger bindend.

[(6)][(7)] *Auflaufende Zinsen.* Der Zinslauf der Schuldverschreibungen endet mit Beginn des Tages, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, ist der ausstehende Nennbetrag der Schuldverschreibungen vom Tag der Fälligkeit an bis zur tatsächlichen Rückzahlung der Schuldverschreibungen in Höhe des gesetzlich festgelegten Zinssatzes für Verzugszinsen⁴⁶ zu verzinsen, es sei denn, die Schuldverschreibungen werden zu einem höheren Zinssatz als dem gesetzlich festgelegten Satz für Verzugszinsen verzinst, in welchem Fall die Verzinsung auch während des vorgenannten Zeitraums zu dem ursprünglichen Zinssatz erfolgt.]

[(7)][(8)] *Zinstagequotient.* "**Zinstagequotient**" bezeichnet

§7 STEUERN

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind an der Quelle ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder von oder in den Vereinigten Staaten von Amerika oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde derselben auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich oder auf der Grundlage eines Vertrages zwischen der Emittentin und/oder der Zahlstelle oder eines Staates und den Vereinigten Staaten von Amerika oder einer Behörde der Vereinigten Staaten von Amerika vorgeschrieben. In diesem Fall wird die Emittentin diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Anleihegläubigern zufließenden Nettobeträge nach einem solchen Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Anleihegläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht für solche Steuern und Abgaben:

- (a) die in Bezug auf die deutsche Kapitalertragsteuer (einschließlich der sog. Abgeltungsteuer), einschließlich Kirchensteuer (soweit anwendbar) und Solidaritätszuschlag, die nach den deutschen Steuergesetzen abgezogen oder einbehalten werden, auch wenn der Abzug oder

Einbehalt durch die Emittentin, ihren Stellvertreter oder die auszahlende Stelle vorzunehmen ist oder jede andere Steuer, welche die oben genannten Steuern ersetzen sollte; oder

- (b) die wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Anleihegläubigers zur Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (c) die (x) aufgrund oder infolge (i) eines internationalen Vertrages, dessen Partei die Bundesrepublik Deutschland ist, oder (ii) einer Verordnung oder Richtlinie aufgrund oder infolge eines solchen Vertrages auferlegt oder erhoben werden; oder (y) auf eine Zahlung erhoben werden, die an eine natürliche Person vorgenommen wird und aufgrund der Richtlinie 2003/48/EG des Europäischen Rates oder einer anderen Richtlinie (die "**Richtlinie**") zur Umsetzung der Schlussfolgerungen des ECOFIN-Ratstreffens vom 26. und 27. November 2000 über die Besteuerung von Einkommen aus Geldanlagen oder aufgrund einer Rechtsnorm erhoben werden, die der Umsetzung dieser Richtlinie dient, dieser entspricht oder zur Anpassung an die Richtlinie eingeführt wird; oder

§8

VORLEGUNGSFRIST

Die in § 801 Absatz 1 Satz 1 Bürgerliches Gesetzbuch (BGB) bestimmte Vorlegungsfrist wird für die Schuldverschreibungen auf zehn Jahre verkürzt.

§9

KÜNDIGUNG

- (1) *Kündigungsgründe.* Jeder Anleihegläubiger ist berechtigt, seine Schuldverschreibungen zu kündigen und deren sofortige Rückzahlung zu ihrem Rückzahlungsbetrag (wie in §5 beschrieben), zuzüglich etwaiger bis zum Tage der Rückzahlung aufgelaufener Zinsen zu verlangen, falls:
 - (a) die Emittentin Kapital oder Zinsen nicht innerhalb von 30 Tagen nach dem betreffenden Fälligkeitstag zahlt; oder

- (b) die Emittentin die ordnungsgemäße Erfüllung irgendeiner anderen Verpflichtung aus den Schuldverschreibungen unterlässt und diese Unterlassung nicht geheilt werden kann oder, falls sie geheilt werden kann, länger als 45 Tage fort dauert, nachdem die Emissionsstelle hierüber eine Benachrichtigung von einem Anleihegläubiger erhalten hat; oder
- (c) die Emittentin aufgelöst oder liquidiert wird, es sei denn dass die Auflösung oder Liquidation im Zusammenhang mit einer Verschmelzung oder einem sonstigen Zusammenschluss mit einem anderen Rechtsgebilde erfolgt, sofern dieses andere Rechtsgebilde alle Verbindlichkeiten der Emittentin aus den Schuldverschreibungen übernimmt.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

- (2) *Benachrichtigung.* Eine Benachrichtigung, einschließlich einer Kündigung der Schuldverschreibungen gemäß vorstehendem Absatz (1) ist in Textform in deutscher oder englischer Sprache gegenüber der Emissionsstelle zu erklären. Der Benachrichtigung ist ein Nachweis beizufügen, aus dem sich ergibt, dass der betreffende Anleihegläubiger zum Zeitpunkt der Abgabe der Benachrichtigung Inhaber der betreffenden Schuldverschreibung ist. Der Nachweis kann durch eine Bescheinigung der Depotbank (wie in §12 Absatz (3) definiert) oder auf andere geeignete Weise erbracht werden.

§10

BEGEBUNG WEITERER SCHULDVERSCHREIBUNGEN, ANKAUF UND ENTWERTUNG

- (1) *Begebung weiterer Schuldverschreibungen.* Die Emittentin ist berechtigt, jederzeit ohne Zustimmung der Anleihegläubiger weitere Schuldverschreibungen mit gleicher Ausstattung (gegebenenfalls mit Ausnahme des Tags der Begebung, des Verzinsungsbeginns und/oder des Ausgabepreises) in der Weise zu begeben, dass sie mit diesen Schuldverschreibungen eine einheitliche Serie bilden.
- (2) *Ankauf.* Die Emittentin ist berechtigt, Schuldverschreibungen im geregelten Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei der Emissionsstelle zwecks Entwertung eingereicht werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Anleihegläubigern gemacht werden.
- (3) *Entwertung.* Sämtliche vollständig zurückgezahlten Schuldverschreibungen sind unverzüglich zu entwerten und können nicht wiederbegeben oder wiederverkauft werden.

- (2) *Mehrheitserfordernisse.* Vorbehaltlich des nachstehenden Satzes und der Erreichung der erforderlichen Beschlussfähigkeit, beschließen die Anleihegläubiger mit der einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Emissionsbedingungen, insbesondere in den Fällen des § 5 Absatz 3 Nummer 1 bis 9 SchVG, geändert wird, bedürfen zu ihrer Wirksamkeit einer Mehrheit von mindestens 75 % der an der Abstimmung teilnehmenden Stimmrechte (eine "**Qualifizierte Mehrheit**"). Das Stimmrecht ruht, solange die Schuldverschreibungen der Emittentin oder einem mit ihr verbundenen Unternehmen (§ 271 Absatz 2 HGB) zustehen oder für Rechnung der Emittentin oder eines mit ihr verbundenen Unternehmens gehalten werden.
- (3) *Beschlüsse.* Beschlüsse der Anleihegläubiger werden entweder in einer Gläubigerversammlung nach §13 Absatz (3) (i) oder im Wege der Abstimmung ohne Versammlung nach §13 Absatz (3) (ii) getroffen, die von der Emittentin oder einem gemeinsamen Vertreter einberufen wird.
 - (i) Beschlüsse der Anleihegläubiger im Rahmen einer Gläubigerversammlung werden nach §§ 9 ff. SchVG getroffen. §7 STEUERN

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge sind an der Quelle ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftigen Steuern oder sonstigen Abgaben gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder von oder in den Vereinigten Staaten von Amerika oder für deren Rechnung oder von oder für Rechnung einer politischen Untergliederung oder Steuerbehörde derselben auferlegt oder erhoben werden, es sei denn, ein solcher Einbehalt oder Abzug ist gesetzlich oder auf der Grundlage eines Vertrages zwischen der Emittentin und/oder der Zahlstelle oder eines Staates und den Vereinigten Staaten von Amerika oder einer Behörde der Vereinigten Staaten von Amerika vorgeschrieben. In diesem Fall wird die Emittentin diejenigen zusätzlichen Beträge (die "**zusätzlichen Beträge**") zahlen, die erforderlich sind, damit die den Anleihegläubigern zufließenden Nettobeträge nach einem solchen Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Anleihegläubigern empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlichen Beträge besteht jedoch nicht für solche Steuern und Abgaben:

- (a) die in Bezug auf die deutsche Kapitalertragsteuer (einschließlich der sog. Abgeltungsteuer), einschließlich Kirchensteuer (soweit anwendbar) und Solidaritätszuschlag, die nach den deutschen Steuergesetzen abgezogen oder einbehalten werden, auch wenn der Abzug oder Einbehalt durch die Emittentin, ihren Stellvertreter oder die auszahlende Stelle vorzunehmen ist oder jede andere Steuer, welche die oben genannten Steuern ersetzen sollte; oder
- (b) die wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Anleihegläubigers zur Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
- (c) die (x) aufgrund oder infolge (i) eines internationalen Vertrages, dessen Partei die Bundesrepublik Deutschland ist, oder (ii) einer Verordnung oder Richtlinie aufgrund oder infolge eines solchen Vertrages auferlegt oder erhoben werden; oder (y) auf eine Zahlung erhoben werden, die an eine natürliche Person vorgenommen wird und aufgrund der Richtlinie 2003/48/EG des Europäischen Rates oder einer anderen Richtlinie (die "**Richtlinie**") zur Umsetzung der Schlussfolgerungen des ECOFIN-Ratstreffens vom 26.

und 27. November 2000 über die Besteuerung von Einkommen aus Geldanlagen oder aufgrund einer Rechtsnorm erhoben werden, die der Umsetzung dieser Richtlinie dient, dieser entspricht oder zur Anpassung an die Richtlinie eingeführt wird; oder

- (e) die von einer Zahlstelle abgezogen oder einbehalten werden, wenn eine andere Zahlstelle die Zahlung ohne einen solchen Abzug oder Einbehalt hätte leisten können; oder
- (f) wenn hinsichtlich der Schuldverschreibungen derartige Steuern oder Abgaben auf andere Weise als durch Abzug oder Einbehalt von Kapital und/oder Zinsen erhoben werden; oder
- (g) die in bezug auf Zahlungen durch die Emittentin, die Zahlstelle(n) oder eine andere Person im Hinblick auf die Schuldverschreibungen gemäß (a) den Abschnitten 1471 bis 1474 des United States Internal Revenue Code of 1986, wie geändert, ("**Code**") oder aktuellen oder zukünftigen Verordnungen oder offiziellen Auslegungen hiervon, (b) einer zwischenstaatlichen Vereinbarung zwischen den Vereinigten Staaten und einer anderen Jurisdiktion, die im Zusammenhang mit vorstehendem Punkt (a) geschlossen wurde, (c) einem Gesetz, einer Verordnung oder einer anderen offiziellen Richtlinie, das bzw. die in einer anderen Jurisdiktion erlassen wurde, oder in Bezug auf eine zwischenstaatliche Vereinbarung zwischen den Vereinigten Staaten und einer anderen Jurisdiktion, die (in beiden Fällen) die Umsetzung der vorstehenden Punkte (a) oder (b) vereinfacht oder (d) einer Vereinbarung gemäß Abschnitt 1471(b)(1) des Code erhoben werden.

§8

VORLEGUNGSFRIST

Die in § 801 Absatz 1 Satz 1 Bürgerliches Gesetzbuch (BGB) bestimmte Vorlegungsfrist wird für die Schuldverschreibungen auf zehn Jahre verkürzt.

§9

KÜNDIGUNG

- (1) *Kündigungsgründe.* Jeder Anleihegläubiger ist berechtigt, seine Schuldverschreibungen zu kündigen und deren sofortige Rückzahlung zu ihrem Rückzahlungsbetrag (wie in §5 beschrieben), zuzüglich etwaiger bis zum Tage der Rückzahlung aufgelaufener Zinsen zu verlangen, falls:
 - (a) die Emittentin Kapital oder Zinsen nicht innerhalb von 30 Tagen nach dem betreffenden Fälligkeitstag zahlt; oder
 - (b) die Emittentin die ordnungsgemäße Erfüllung irgendeiner anderen Verpflichtung aus den Schuldverschreibungen unterlässt und diese Unterlassung nicht geheilt werden kann oder, falls sie geheilt werden kann, länger als 45 Tage fortdauert, nachdem die Emissionsstelle hierüber eine Benachrichtigung von einem Anleihegläubiger erhalten hat; oder
 - (c) die Emittentin aufgelöst oder liquidiert wird, es sei denn dass die Auflösung oder Liquidation im Zusammenhang mit einer Verschmelzung oder einem sonstigen Zusammenschluss mit einem anderen Rechtsgebilde erfolgt, sofern dieses andere Rechtsgebilde alle Verbindlichkeiten der Emittentin aus den Schuldverschreibungen übernimmt.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

- (2) *Benachrichtigung.* Eine Benachrichtigung, einschließlich einer Kündigung der Schuldverschreibungen gemäß vorstehendem Absatz (1) ist in Textform in deutscher oder englischer Sprache gegenüber der Emissionsstelle zu erklären. Der Benachrichtigung ist ein Nachweis beizufügen, aus dem sich ergibt, dass der betreffende Anleihegläubiger zum Zeitpunkt der Abgabe der Benachrichtigung Inhaber der betreffenden Schuldverschreibung ist. Der Nachweis kann durch eine Bescheinigung der Depotbank (wie in §12 Absatz (3) definiert) oder auf andere geeignete Weise erbracht werden.

§10

BEGEBUNG WEITERER SCHULDVERSCHREIBUNGEN, ANKAUF UND ENTWERTUNG

- (1) *Begebung weiterer Schuldverschreibungen.* Die Emittentin ist berechtigt, jederzeit ohne Zustimmung der Anleihegläubiger weitere Schuldverschreibungen mit gleicher Ausstattung (gegebenenfalls mit Ausnahme des Tags der Begebung, des Verzinsungsbeginns und/oder des Ausgabepreises) in der Weise zu begeben, dass sie mit diesen Schuldverschreibungen eine einheitliche Serie bilden.
- (2) *Ankauf.* Die Emittentin ist berechtigt, Schuldverschreibungen im geregelten Markt oder anderweitig zu jedem beliebigen Preis zu kaufen. Die von der Emittentin erworbenen Schuldverschreibungen können nach Wahl der Emittentin von ihr gehalten, weiterverkauft oder bei der Emissionsstelle zwecks Entwertung eingereicht werden. Sofern diese Käufe durch öffentliches Angebot erfolgen, muss dieses Angebot allen Anleihegläubigern gemacht werden.
- (3) *Entwertung.* Sämtliche vollständig zurückgezahlten Schuldverschreibungen sind unverzüglich zu entwerten und können nicht wiederbegeben oder wiederverkauft werden.

Ein ordnungsgemäß gefasster Mehrheitsbeschluss ist für alle Anleihegläubiger verbindlich.

- (2) *Mehrheitserfordernisse.* Vorbehaltlich des nachstehenden Satzes und der Erreichung der erforderlichen Beschlussfähigkeit, beschließen die Anleihegläubiger mit der einfachen Mehrheit der an der Abstimmung teilnehmenden Stimmrechte. Beschlüsse, durch welche der wesentliche Inhalt der Emissionsbedingungen, insbesondere in den Fällen des § 5 Absatz 3 Nummer 1 bis 9 SchVG, geändert wird, bedürfen zu ihrer Wirksamkeit einer Mehrheit von mindestens 75 % der an der Abstimmung teilnehmenden Stimmrechte (eine "**Qualifizierte Mehrheit**"). Das Stimmrecht ruht, solange die Schuldverschreibungen der Emittentin oder einem mit ihr verbundenen Unternehmen (§ 271 Absatz 2 HGB) zustehen oder für Rechnung der Emittentin oder eines mit ihr verbundenen Unternehmens gehalten werden.

- (5) *Anmeldung.* Die Stimmrechtsausübung ist von einer vorherigen Anmeldung der Anleihegläubiger abhängig. Zusammen mit der Anmeldung müssen Anleihegläubiger den Nachweis ihrer Berechtigung zur Teilnahme an der Abstimmung durch eine besondere Bescheinigung ihrer jeweiligen Depotbank in Textform und die Vorlage eines Sperrvermerks der Depotbank erbringen, aus dem hervorgeht, dass die relevanten Schuldverschreibungen für den Zeitraum vom Tag der Absendung der Anmeldung (einschließlich) bis zu dem angegebenen Ende der Versammlung (einschließlich) bzw. dem Ende des Abstimmungszeitraums (einschließlich) nicht übertragen werden können.

Für die Abberufung und die sonstigen Rechte und Pflichten des gemeinsamen Vertreters gelten die Vorschriften des SchVG.
 - (c) Die Haftung des gemeinsamen Vertreters ist auf das Zehnfache seiner jährlichen Vergütung beschränkt, es sei denn, dem gemeinsamen Vertreter fällt Vorsatz oder grobe Fahrlässigkeit zur Last.

BOOK-ENTRY CLEARANCE SYSTEMS

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the "Clearing Systems") currently in effect. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. Neither the Issuer, the Trustee or any agent party to the Trust Deed will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Instruments held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Custodial and depositary links have been established with Euroclear, Clearstream, Luxembourg and DTC to facilitate the initial issuance of securities and cross-market transfers of securities between investors associated with secondary market trading. Transfers within Euroclear, Clearstream, Luxembourg and DTC will be in accordance with the usual rules and operating procedures of the relevant system.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for participating organisations and facilitates the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream, Luxembourg provide to their respective participants, among other things, services for safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg participants are financial institutions throughout the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to Euroclear or Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies which clear through or maintain a custodial relationship with a Euroclear or Clearstream, Luxembourg participant, either directly or indirectly.

Distributions of principal and interest with respect to book-entry interests in the Instruments held through Euroclear and Clearstream, Luxembourg will be credited, to the extent received by the Principal Paying Agent, to the cash accounts of Euroclear or Clearstream, Luxembourg participants in accordance with the relevant system's rules and procedures.

DTC

DTC is a limited-purpose trust company organised under the laws of the State of New York, a "banking organisation" within the meaning of the New York Banking Law, a member of the U.S. Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities for DTC participants and facilitates the clearance and settlement of securities transactions between DTC participants through electronic computerised book-entry changes in accounts of DTC participants, thereby eliminating the need for physical movement of securities certificates. DTC participants include securities brokers and dealers, banks, trust companies and clearing corporations and certain other organisations. Indirect access to DTC is also available to others, such as banks, brokers, dealers and trust companies which clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation, which is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. The rules applicable to DTC and DTC participants are on file with the U.S. Securities and Exchange Commission.

The deposit of securities with DTC and their registration in the name of Cede & Co., or such other DTC nominee, do not effect any change in the beneficial ownership of the securities. DTC has no

knowledge of the actual beneficial owners of the securities; DTC's records reflect only the identity of the DTC participant to whose account such securities are credited, which may or may not be the beneficial owners of the securities. The DTC participants and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.

Holders of book-entry interests in the Instruments holding through DTC will receive, to the extent received by the Principal Paying Agent, all distributions of principal and interest with respect to book-entry interests in the Instruments from the Principal Paying Agent through DTC. Distributions in the United States will be subject to relevant U.S. tax laws and regulations.

Conveyances of notices and other communications by DTC to DTC participants, by DTC participants to indirect participants, and by DTC participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

The laws of some states of the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer interests in a Global Registered Instrument or Note to such persons may be limited. Because DTC, Euroclear and Clearstream, Luxembourg can only act on behalf of direct participants, who in turn act on behalf of indirect participants, the ability of a person having an interest in a Global Registered Instrument or Note to pledge such interest to persons or entities which do not participate in the relevant clearing system, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate in respect of such interest.

The aggregate holdings of book-entry interests in the Instruments in Euroclear, Clearstream, Luxembourg and DTC will be reflected in the book-entry accounts of each such institution. As necessary, the Registrar will adjust the amounts of Instruments on the Register for the accounts of (i) Euroclear and Clearstream, Luxembourg and (ii) DTC to reflect the amounts of Instruments held through Euroclear and Clearstream, Luxembourg and DTC, respectively. Beneficial ownership in the Instruments will be held through financial institutions as direct and indirect participants in Euroclear, Clearstream, Luxembourg and DTC. Euroclear, Clearstream, Luxembourg or DTC, as the case may be, and every other intermediate holder in the chain to the beneficial owner of book-entry interests in the Instruments will be responsible for establishing and maintaining accounts for their participants and customers having interests in the book-entry interests in the Instruments. The Registrar will be responsible for maintaining a record of the aggregate holdings of Instruments registered in the name of a nominee for the common depository for Euroclear and Clearstream, Luxembourg, a nominee for DTC and/or Holders of Instruments represented by Definitive Registered Instruments. The Principal Paying Agent will be responsible for ensuring that payments received by it from the Issuer for Holders of interests in the Instruments holding through Euroclear and Clearstream, Luxembourg are credited to Euroclear and Clearstream, Luxembourg, as the case may be, and the Principal Paying Agent will also be responsible for ensuring that payments received by the Principal Paying Agent from the Issuer for Holders of interests in the Instruments holding through DTC are credited to DTC. Euroclear, Clearstream, Luxembourg and DTC, as the case may be, have the responsibility of disbursing such payments to DTC participants, and DTC and indirect participants have the responsibility of disbursing such payments to the beneficial owners of the securities. So long as Euroclear, Clearstream, Luxembourg or the nominee of their common depository, or DTC or its nominee is the registered holder of the Global Registered Instrument or Note, Euroclear, Clearstream, Luxembourg, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Instruments represented by such Global Registered Instrument or Note for the sole purpose of making payments in respect of the Instruments (provided that the applicable tax treatment and procedures will be determined as if the person who is shown in the records of Euroclear, Clearstream, Luxembourg or DTC, as the case may be, as the holder of a particular nominal amount of such Instruments were the registered Holder itself). Save as aforesaid, holders shall have no claim directly against the Issuer in respect of payments due on the Instruments for so long as the Instruments are evidenced by such a Global Registered Instrument or Note and the obligations of the Issuer will be

discharged by payment to the registered holder, as the case may be, of such Global Registered Instrument or Note in respect of each amount so paid. None of the Issuer, the Trustee or any Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of ownership interests in any Global Registered Instrument or Note or for maintaining, supervising or reviewing any records relating to such ownership interests.

The Issuer will not impose any fees in respect of the Instruments; however, Holders of book-entry interests in the Instruments may incur fees normally payable in respect of the maintenance and operation of accounts in Euroclear, Clearstream, Luxembourg and/or DTC.

Interests in an Unrestricted Global Registered Instrument and a Restricted Global Registered Instrument or Note will be in uncertificated book-entry form. Purchasers electing to hold book-entry interests in the Instruments through Euroclear and Clearstream, Luxembourg accounts will follow the settlement procedures applicable to conventional Eurobonds. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or DTC as the holder of interests in the Instruments must look solely to Euroclear, Clearstream, Luxembourg or DTC, as the case may be, for his share of each payment made by the Issuer to the holder of the Global Registered Instrument or Note and in relation to all other rights arising under the Global Registered Instrument or Note, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg or DTC, as the case may be. The Issuer expects book-entry interests in the Global Registered Instruments will be credited to Euroclear participants' securities clearance accounts on the business day following the relevant closing date against payment (value such closing date), and to Clearstream, Luxembourg participants' securities custody accounts on such relevant closing date against payment in same day funds. DTC participants acting on behalf of purchasers electing to hold book-entry interests in the Instruments or Registered Pfandbriefe through DTC will follow the delivery practices applicable to securities eligible for DTC's Same-Day Funds Settlement ("**SDFS**") system. DTC participant securities accounts will be credited with book-entry interests in the Instruments following confirmation of receipt of payment to the Issuer on the relevant closing date.

Secondary Market Trading in relation to Global Registered Instruments

Trading between Euroclear and/or Clearstream, Luxembourg participants

Secondary market sales of book-entry interests in the Instruments held through Euroclear or Clearstream, Luxembourg to purchasers of book-entry interests in the Instruments through Euroclear or Clearstream, Luxembourg will be conducted in accordance with the normal rules and operating procedures of Euroclear and Clearstream, Luxembourg and will be settled using the procedures applicable to conventional Eurobonds.

Trading between DTC participants

Secondary market sales of book-entry interests in the Instruments between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled using the procedures applicable to United States corporate debt obligations in DTC's SDFS system in same-day funds, if payment is effected in U.S. dollars, or free of payment, if payment is not effected in U.S. dollars. Where payment is not effected in U.S. dollars, separate payment arrangements outside DTC are required to be made between the DTC participants.

Trading between DTC seller and Euroclear/Clearstream, Luxembourg purchaser

When book-entry interests in Instruments are to be transferred from the account of a DTC participant holding a beneficial interest in a Restricted Global Registered Instrument to the account of a Euroclear or Clearstream, Luxembourg accountholder wishing to purchase a beneficial interest in an Unrestricted Global Registered Instrument (subject to the certification procedures provided in the Paying Agency Agreement), the DTC participant will deliver instructions for delivery to the relevant Euroclear or Clearstream, Luxembourg accountholder to DTC by 12:00 noon, New York time, on the settlement date. Separate payment arrangements are required to be made between the DTC participant

and the relevant Euroclear or Clearstream, Luxembourg participant. On the settlement date, the Custodian will instruct the Registrar to (i) decrease the amount of Instruments registered in the name of Cede & Co. and evidenced by the Restricted Global Registered Instrument and (ii) increase the amount of Instruments registered in the name of the nominee of the common depository for Euroclear and Clearstream, Luxembourg and evidenced by the Unrestricted Global Registered Instrument. Book-entry interests will be delivered free of payment to Euroclear or Clearstream, Luxembourg, as the case may be, for credit to the relevant accountholder on the first business day following the settlement date.

Trading between Euroclear/Clearstream, Luxembourg seller and DTC purchaser

When book-entry interests in the Instruments are to be transferred from the account of a Euroclear or Clearstream, Luxembourg accountholder to the account of a DTC participant wishing to purchase a beneficial interest in the Restricted Global Registered Instrument (subject to the certification procedures provided in the Paying Agency Agreement), the Euroclear or Clearstream, Luxembourg participant must send to Euroclear or Clearstream, Luxembourg delivery free of payment instructions by 10:00 a.m. Brussels or Luxembourg time, as the case may be, one business day prior to the settlement date. Euroclear or Clearstream, Luxembourg, as the case may be, will in turn transmit appropriate instructions to the common depository for Euroclear and Clearstream, Luxembourg and the Registrar to arrange delivery to the DTC participant on the settlement date. Separate payment arrangements are required to be made between the DTC participant and the relevant Euroclear or Clearstream, Luxembourg accountholder, as the case may be. On the settlement date, the common depository for Euroclear and Clearstream, Luxembourg will (a) transmit appropriate instructions to the Custodian who will in turn deliver such book-entry interests in the Instruments free of payment to the relevant account of the DTC participant and (b) instruct the Registrar to (i) decrease the amount of Instruments registered in the name of the nominee of the common depository for Euroclear and Clearstream, Luxembourg and evidenced by the Unrestricted Global Registered Instrument and (ii) increase the amount of Instruments registered in the name of Cede & Co. and evidenced by the Restricted Global Registered Instrument.

Although the foregoing sets out the procedures of Euroclear, Clearstream, Luxembourg and DTC in order to facilitate transfers of beneficial interest in Global Instruments among participants and accountholders of Euroclear, Clearstream, Luxembourg and DTC, none of Euroclear, Clearstream, Luxembourg or DTC is under any obligation to perform or continue to perform such procedures, and such procedures may be changed or discontinued at any time. None of the Issuer, the Trustee or any Agent or any affiliate of any of the above, or any person by whom any of the above is controlled for the purposes of the Securities Act, will have the responsibility for the performance by Euroclear, Clearstream, Luxembourg or DTC or their respective Direct or Indirect Participants or accountholders of their respective obligations under the rules and procedures governing their operations. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the Issuer believes to be reliable, and the Issuer takes no responsibility for the accuracy thereof.

USE OF PROCEEDS

Unless stated otherwise and as further specified below, the net proceeds of the issue of each Series of Securities will be used by the Issuer for its general funding.

If, in respect of any particular issue of a Series of Securities, there is a particular identified use of proceeds other than using the net proceeds for the Issuer's general funding purposes, then this will be stated in the relevant Final Terms.

FORM OF FINAL TERMS FOR INSTRUMENTS

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Instruments are not intended, from 1 January 2018, to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("MiFID II"); (ii) a customer within the meaning of Directive 2002/92/EC ("IMD"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "Prospectus Directive"). This document constitutes the Final Terms (as referred to in the Base Prospectus dated 28 April 2017 for the above Programme) in relation to the Tranche of Instruments referred to above for the purposes of Article 5.4 of the Prospectus Directive (Directive 2003/71/EC) as amended by Directive 2010/73/EU (the "**Prospectus Directive**"). [Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Base Prospectus.] The base prospectus dated 28 April 2017 [and the Supplement to the Base Prospectus dated [●]] [together] constitute[s] a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Directive. These Final Terms contain the final terms of the Instruments described herein and must be read in conjunction with the Base Prospectus. Full information on the Issuer and the Instruments to be offered is only available on the basis of a combination of these Final Terms and the Base Prospectus. The Base Prospectus is available for viewing at www.bourse.lu [and at] [address] [where copies may be obtained from]. [A summary of the individual issue of Instruments is annexed to these Final Terms.]²

PART A — CONTRACTUAL TERMS

The following alternative language applies if the first tranche of an issue which is being increased was issued under a base prospectus with an earlier date and either (1) the Instruments which are the subject of the Final Terms are not being (a) offered to the public in a member state (other than pursuant to one or more of the exemptions set out in Article 3.2 of the Prospectus Directive) or

¹ To be inserted if the issue and/or offer of the Instruments will be concluded on or after 1 January 2018 and the Instruments may constitute "packaged" products.

² Applicable with regard to an issue of Instruments with a specified denomination of below EUR 100,000 or the equivalent amount in another currency and with regard to an issue of Instruments with a specified denomination of EUR 100,000 and above if the Issuer chooses to prepare a summary on a voluntary basis.

(b) admitted to trading on a regulated market in a member state or (2) the Conditions (as defined in the next paragraph) do not contain, by comparison with the Base Prospectus, any "significant new factor" within the meaning of Article 16.1 of the Prospectus Directive. If neither (1) nor (2) applies the Issuer will need to consider effecting the issue by means of a supplement to the Base Prospectus or a stand alone prospectus rather than by Final Terms.

[Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth in the base prospectus dated [*original date*]. These Final Terms contain the final terms of the Instruments for the purposes of Article 5.4 of the Prospectus Directive (Directive 2003/71/EC) as amended by Directive 2010/73/EU (the "**Prospectus Directive**") and must be read in conjunction with the Base Prospectus save in respect of the Conditions which are extracted from the base prospectus dated [*original date*].]

The following alternative language applies if the first tranche of an issue which is being increased was issued under a base prospectus with an earlier date and the relevant terms and conditions as part of that base prospectus with an earlier date were incorporated by reference in this Base Prospectus:

DESCRIPTION OF PUBLIC SECTOR PFANDBRIEFE AND MORTGAGE PFANDBRIEFE (ÖFFENTLICHE PFANDBRIEFE UND HYPOTHEKENPFANDBRIEFE)

The following is a description condensed to some of the more fundamental principles governing the law regarding Pfandbriefe and Pfandbrief Banks in summarized form and without addressing all the laws' complexities and details. Accordingly, it is qualified in its entirety by reference to the applicable laws.

Introduction

The Pfandbrief operations of the Issuer are subject to the Pfandbrief Act (*Pfandbriefgesetz*) of 22 May 2005, which has come into force on 19 July 2005 and was last amended on 2 November 2015 (with the respective amendments having entered into force on 6 November 2015) (the "**Pfandbrief Act**").

All German credit institutions are permitted, subject to authorisation and further requirements of the Pfandbrief Act, to engage in the Pfandbrief business and to issue Mortgage Pfandbriefe (*Hypothekendarlehen*), Public Pfandbriefe (*Öffentliche Pfandbriefe*) as well as Ship Pfandbriefe (*Schiffspfandbriefe*) and Aircraft Pfandbriefe (*Flugzeugpfandbriefe*).

German credit institutions wishing to take up the Pfandbrief business must obtain special authorisation under the German Banking Act (*Kreditwesengesetz* - the "**Banking Act**") from the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*, "**BaFin**") and, for that purpose, must meet some additional requirements as specified in the Pfandbrief Act.

For the purpose of this overview, banks authorised to issue Pfandbriefe will generally be referred to as "**Pfandbrief Banks**" which is the term applied by the Pfandbrief Act.

Rules applicable to all types of Pfandbriefe

Pfandbriefe are standardised debt instruments issued by a Pfandbrief Bank. The quality and standards of Pfandbriefe are strictly governed by provisions of the Pfandbrief Act and subject to the supervision of the BaFin. Pfandbriefe generally are medium- to long-term bonds, typically with an original maturity of two to ten years, which are secured or "covered" at all times by a pool of specified qualifying assets (*Deckung*), as described below. Pfandbriefe are recourse obligations of the issuing bank, and no separate vehicle is created for their issuance generally or for the issuance of any specific series of Pfandbriefe. Traditionally, Pfandbriefe have borne interest at a fixed rate, but Pfandbrief Banks are also issuing zero-coupon and floating rate Pfandbriefe, in some cases with additional features such as step-up and/or step-down coupons, caps or floors. Most issues of Pfandbriefe are denominated in Euro. A Pfandbrief Bank may, however, also issue Pfandbriefe in other currencies, subject to certain limitations. Pfandbriefe may not be redeemed at the option of the Holders prior to maturity.

Pfandbriefe may either be Mortgage Pfandbriefe, Public Pfandbriefe, Ship Pfandbriefe or Aircraft Pfandbriefe. The outstanding Pfandbriefe of any one of these types must be covered by a separate pool of specified qualifying assets: a pool for Mortgage Pfandbriefe only, a pool for Public Pfandbriefe only, a pool covering all outstanding Ship Pfandbriefe only, and a pool covering all outstanding Aircraft Pfandbriefe (each a "**Cover Pool**"). An independent trustee appointed by the BaFin has wide responsibilities in monitoring compliance by the Pfandbrief Bank with the provisions of the Pfandbrief Act. In particular, the trustee monitors that the prescribed cover is maintained and the cover assets are recorded in a register listing the assets provided as cover from time to time in respect of the Pfandbriefe of the relevant type; such register is maintained by the Pfandbrief Bank.

The aggregate principal amount of assets in each Cover Pool must at all times at least be equal to the aggregate principal amount of the outstanding Pfandbriefe covered by such Cover Pool. Moreover, the aggregate interest yield on any such Pool must at all times be at least equal to the aggregate interest payable on all Pfandbriefe covered by such Cover Pool. In addition, the coverage of all outstanding Pfandbriefe with respect to principal and interest must also at all times be ensured on the basis of the

present value (*Barwert*). Finally, the present value of the assets contained in the Cover Pool must exceed the total amount of liabilities from the corresponding Pfandbriefe and derivatives by at least 2 per cent (*sichernde Überdeckung*).

Such 2 per cent excess cover must consist of highly liquid assets. Qualifying assets for the excess cover are (i) debt securities of the Federal Republic of Germany, a special fund of the Federal Republic of Germany, a German state, the European Communities, the member states of the European Union, the states comprising the European Economic Area, the European Investment Bank, the IBRD-World Bank, the Council of Europe Development Bank, or the European Bank for Reconstruction and Development, as well as under certain circumstances debt securities of Switzerland, the United States of America, Canada or Japan, if such countries have been allocated a risk weight equal to a rating of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013; (ii) debt securities guaranteed by any of the foregoing entities; and (iii) credit balances maintained with the European Central Bank, the central banks of the member states of the European Union or appropriate credit institutions which have their corporate seat in a country listed under (i) above if such credit institutions have been allocated a risk weight equal to a rating of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013 (and the claims satisfy certain criteria).

The Pfandbrief Bank must record in the register of cover assets for any Cover Pool of a given Pfandbrief type each asset and the liabilities arising from derivatives. Derivatives may be entered in such register only with the consent of the trustee and the counterparty.

The Pfandbrief Bank must have an appropriate risk management system meeting the requirements specified in detail in the Pfandbrief Act and must comply with comprehensive disclosure requirements on a quarterly and annual basis set out in detail in the Pfandbrief Act.

Cover Pool for Mortgage Pfandbriefe

The principal assets qualifying for the Cover Pool for Mortgage Pfandbriefe are loans secured by mortgages which may serve as cover up to the initial 60 per cent of the value of the property, as assessed by experts of the Pfandbrief Bank not taking part in the credit decision in accordance with comprehensive evaluation rules designed to arrive at the fair market value of the property. Moreover, building structures connected firmly with the mortgaged property taken into account as augmenting the value must be adequately insured against relevant risks in an amount covering at least the estimated costs for repair or reconstruction in case of damage or loss or the loan amount outstanding from time to time.

The underlying property must be situated in a state of the European Economic Area, Switzerland, the United States of America, Canada, Japan, Australia, New Zealand or Singapore. Furthermore, the registered cover pool assets include all claims of the Pfandbrief Bank directed to the economic substance of the property.

Other assets qualifying for inclusion in the cover pool for Mortgage Pfandbriefe include, among others:

(i) equalisation claims converted into bearer bonds, (ii) subject to certain qualifications, those assets which may also be included in the 2 per cent excess cover described above, up to a total sum of 10 per cent of the aggregate principal amount of outstanding Mortgage Pfandbriefe; (iii) the assets which may also be included in the Cover Pool for Public Pfandbriefe referred to below (resulting from bonds), up to a total of 20 per cent of the aggregate principal amount of outstanding Mortgage Pfandbriefe, whereby the assets pursuant to (ii) above will be deducted and (iv) claims arising under interest rate and currency swaps as well as under other qualifying derivatives contracted under standardised master agreements with certain qualifying counterparties, provided that it is assured that the claims arising under such derivatives will not be prejudiced in the event of the insolvency of the Pfandbrief Bank or any other Cover Pool maintained by it. The amount of the claims of the Pfandbrief Bank arising under derivatives which are included in the Cover Pool measured against the total

amount of all assets forming part of the Cover Pool as well as the amount of the liabilities of the Pfandbrief Bank arising from such derivatives measured against the aggregate principal amount of the outstanding Mortgage Pfandbriefe plus the liabilities arising from derivatives may in either case not exceed 12 per cent, calculated in each case on the basis of the net present values.

Cover Pool for Public Sector Pfandbriefe

The Cover Pool for Public Sector Pfandbriefe may comprise money claims resulting from loans, bonds or a comparable transaction or other money claims acknowledged in writing as being free from defences if they are directed against an eligible debtor or for which an eligible debtor has assumed a full guarantee.

Eligible debtors are, *inter alia*: (i) German regional and local authorities and public law entities for which a maintenance obligation (*Anstaltslast*) or a guarantee obligation (*Gewährträgerhaftung*) or another state refinancing guarantee applies or which are legally entitled to raise fees, rates and other levies, (ii) the EU/EEA countries as well as their central banks, (iii) regional governments and regional and local authorities of the afore-mentioned states, (iv) Switzerland, the United States, Canada and Japan and their central banks provided they have been assigned a risk weight equal to a credit quality of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013, (v) regional governments and regional and local authorities of the afore-mentioned states that have been equated with the relevant central government or have been assigned a risk weight equal to a credit quality of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013, (vi) the European Central Bank, multilateral development banks and international organisations (as defined in regulation no. 575/2013) as well as the European Stability Mechanism, (vii) public sector entities that are located within the EU/EEA, (viii) public sector entities within the meaning of regulation no. 575/2013 (i.e., non-commercial administrative bodies responsible to central governments, regional governments or local authorities, or authorities that exercise the same responsibilities as regional and local authorities, or non-commercial undertakings owned by central governments that have explicit guarantee arrangements, including self administered bodies under public supervision) that are located within Switzerland, the United States, Canada or Japan provided that, they have been assigned a risk weight equal to credit quality of level 1 obtained from an international rating agency and as set out in regulation no. 575/2013. However, public sector entities are only eligible to the extent the relevant claim is owed by them but not as guarantors of claims.

The Cover Pool may furthermore include *inter alia* the following substitute assets: (i) equalisation claims converted into bearer bonds; (ii) money claims against the European Central Bank, a central bank of an EU member state or a suitable credit institution, in as much as the amount of the claims of the Pfandbrief Bank is known at the time of purchase; and (iii) claims arising under certain derivatives contracted under standardised master agreements with certain qualifying counterparties, *provided that* it is assured that the claims arising under such derivatives will not be prejudiced in the event of the insolvency of the Pfandbrief Bank or any other Cover Pool maintained by it (and subject to the 12 per cent. threshold as described in case of Mortgage Pfandbriefe above).

Additional regulatory requirements

In addition to the provisions of the Pfandbrief Act, Pfandbrief Banks, like other types of German banks, are subject to governmental supervision and regulation in accordance with the Banking Act and other applicable German and EU laws and regulations. Supervision is conducted by ECB with day-to-day assistance of BaFin. In addition, the Deutsche Bundesbank in its capacity as the German central bank also holds some supervisory powers. The BaFin has comprehensive powers to instruct German banks to take actions to comply with applicable laws and regulations. In addition, German banks, including Pfandbrief Banks, are required to submit extensive confidential reports to the ECB, BaFin and the Deutsche Bundesbank, which include disclosure of the statistical and operational aspects of the banks' businesses. Within the scope of their oversight and regulatory capacities, each of the ECB, BaFin and the Deutsche Bundesbank may take immediate action whenever required.

In addition, under the Pfandbrief Act, the supervision of Pfandbrief Banks by the BaFin has been further strengthened. In particular, the rights to information of BaFin and requirements concerning the reporting and transparency of Pfandbrief Banks have increased.

Status and protection of the Pfandbriefe Holders

The Holders of outstanding Pfandbriefe of each class rank *pari passu* among themselves, and have preferential claims with respect to the assets registered in the relevant cover register. With respect to other assets of a Pfandbrief Bank, holders of Pfandbriefe rank *pari passu* with unsecured creditors of the Pfandbrief Bank.

Insolvency proceedings

In the event of the institution of insolvency proceedings over the assets of the Pfandbrief Bank, the assets registered in the relevant cover register for any Cover Pool maintained by it would not be part of the insolvency estate, and, therefore, such insolvency would not automatically result in an insolvency of any Cover Pool. Only if at the same time or thereafter the relevant Cover Pool were to become insolvent, separate insolvency proceedings would be initiated over the assets of such Cover Pool by the BaFin. In this case, Holders of Pfandbriefe would have the first claim on the respective Cover Pool. Their preferential right would also extend to interest on the Pfandbriefe accrued after the commencement of insolvency proceedings. Claims of counterparties to derivatives included in the respective Cover Pool would rank *pari passu* with these rights and claims of the Holders of the Pfandbriefe and claims of Administrators (as defined below) for remuneration and expenses would be satisfied before.

Furthermore, but only to the extent that Holders of Pfandbriefe suffer a loss, Holders would also have recourse to any assets of the Pfandbrief Bank not included in the Cover Pools. As regards those assets, Holders of the Pfandbriefe would rank equal with other unsecured and unsubordinated creditors of the Pfandbrief Bank.

One to three administrators (*Sachwalter*, each an "**Administrator**") will be appointed in the case of the insolvency of the Pfandbrief Bank to administer each Cover Pool for the sole benefit of the Holders of related Pfandbriefe. The Administrator will be appointed by the court having jurisdiction pursuant to the German Insolvency Code (*Insolvenzordnung*) at the request of the BaFin before or after the institution of insolvency proceedings. The Administrator will be subject to the supervision of the court and also of the BaFin with respect to the duties of the Pfandbrief Bank arising in connection with the administration of the assets included in the relevant Cover Pool. The Administrator will be entitled to dispose of the Cover Pool's assets and receive all payments on the relevant assets to ensure full satisfaction of the claims of the Holders of Pfandbriefe. To the extent, however, that those assets are obviously not necessary to satisfy such claims, the insolvency receiver of the Pfandbrief Bank is entitled to demand the transfer of such assets to the Pfandbrief Bank's insolvency estate.

Subject to the consent of the BaFin, the Administrator may transfer all or part of the cover assets and the liabilities arising from the Pfandbriefe issued against such assets to another Pfandbrief Bank.

On 9 December 2010, the Pfandbrief Act has been amended in order to strengthen the protection of rights of Pfandbriefe Holders by integrating a provision which clarifies that measures that may be implemented on the basis of the German Bank Restructuring Act (*Kreditinstitute-Reorganisationsgesetz*) do not apply to the Pfandbrief business of the respective credit institution, but only to the remaining part of the business of the respective credit institution, and it was further amended on 10 December 2014 to provide that, should the resolution authority, in effecting a transfer within the meaning of § 107 of the German Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz*), include provisions to transfer the bank's Pfandbrief business, whether in whole or in part, this transfer shall, in deviation from § 114 par. 2 of the Recovery and Resolution Act, be carried out in accordance with §§ 30 to 36 Pfandbrief Act.

DESCRIPTION OF THE GERMAN BOND ACT

The following is a summary of the more fundamental principles relating to noteholders' resolutions under the German Bond Act (Gesetz über Schuldverschreibungen aus Gesamtemissionen (Schuldverschreibungsgesetz, "SchVG")). It does not purport to be a comprehensive description of all provisions comprised in the SchVG. Furthermore, this section does not comprise all considerations which might be relevant for an investor and does not cover any specifics which might apply in connection with resolutions of noteholders in relation to a specific issue of Instruments under this Prospectus.

Introduction

On 5 August 2009, the SchVG dated 31 July 2009 entered into force. In general, the SchVG is applicable, *inter alia*, to all bearer bonds issued under German law on or after the day the act entered into force. One exception to the applicability of the SchVG are covered bonds (*Pfandbriefe*) within the meaning of the German Pfandbrief Act.

Resolutions of Noteholders

The provisions on noteholders' resolutions contained in the SchVG (§§ 5 to 21 of the SchVG) are only applicable if this is specifically determined for an issue of notes (so called opt-in). If §§ 5 to 21 of the SchVG are determined to be applicable, noteholders of such notes may modify the terms and conditions of such notes by way of majority resolution. The specific provisions relating to noteholders' resolutions in the SchVG provide a framework for noteholders' resolutions. Deviations from the provisions contained in §§ 5 to 21 of the SchVG to the disadvantage of the noteholders are only possible insofar as expressly provided for in the SchVG.

A resolution passed with the applicable majority will be binding upon all noteholders and shall ensure an equal treatment of the noteholders of such notes. A resolution that does not provide for equal terms for all noteholders shall be invalid unless the disadvantaged noteholders expressly approve such discrimination.

By means of resolution the noteholders may agree among others upon, (i) amendments to the due date or reduction or exclusion of interest payments, (ii) amendments to the maturity date of principal, (iii) the reduction of principal, (iv) the subordination of the claims under the notes in the event of insolvency proceedings of the issuer, (v) the conversion or exchange of the notes into company shares, other securities or other promises of performance in the terms and conditions of the notes. The provisions of the SchVG allow an issuer to limit the possibility of noteholders' resolutions to certain specified measures or exclude certain specified measures.

Resolutions of the noteholders are passed by the majorities stipulated by the SchVG or, as the case may be, as stated in the conditions of the notes, if these contain a provision deviating from the majorities stipulated by the SchVG. Resolutions which materially amend the content of the conditions of the notes, in particular in connection with the measures (i) to (v) above may only be passed by a majority vote of at least 75 per cent. of the participating voting rights (qualified majority). However, the conditions of the notes may contain higher majority requirements for certain or all measures subject to decisions of the noteholders.

The noteholders may pass resolutions either in a noteholders' meeting or by voting without meeting. The voting procedure applicable to the notes will be either specified in the conditions applicable to such notes or will be determined on the basis of the convocation to the noteholders' meeting or of the voting request, in the event of voting without meeting.

Voting right

The voting right(s) of a noteholder are determined on the basis of the nominal amount or, as the case

may be, proportionally by reference to the outstanding notes. The conditions of participation and voting may be stipulated in the conditions applicable to the notes or specified in the individual convocation of the noteholders' meeting or, in the event of voting without meeting, in the relevant voting request.

Joint representative

The provisions of the SchVG provide for a joint representative for all noteholders (the "**Joint Representative**") to be determined in the conditions applicable to the notes or otherwise. If such appointment of the Joint Representative was made in the conditions applicable to the notes, special requirements stipulated by the SchVG apply.

The Joint Representative can be any person who has legal capacity or any competent legal entity. The appointment of persons belonging to the sphere of interest of the issuer is subject to specific disclosure requirements. However, in the event of appointment in the conditions applicable to the notes, the appointment of a member of the management board, of the supervisory board, administrative board or similar, of an employee of the issuer or of one of its affiliates shall be void. The appointment in the conditions applicable to the notes of such other persons belonging to the sphere of interest of the issuer as specified in the SchVG requires the disclosure of the relevant circumstances in the conditions applicable to the notes.

The Joint Representative shall have the duties and capacities assigned to him by the SchVG (such as to convene a noteholders' meeting) or, as the case may be, those assigned to him by the noteholders by majority decision or as specified in terms and conditions. The Joint Representative may demand from the issuer to be provided with all such information required for the performance of its duties.

The liability of the Joint Representative may be limited either by the noteholders by means of resolution or, to a certain extent, in the terms and conditions. In this context the SchVG specifies that the terms and conditions of the Notes may limit the liability of the Joint Representative of the noteholders of the relevant Notes to ten times of the amount of its annual remuneration except in case of wilful misconduct (*Vorsatz*) or gross negligence (*grobe Fahrlässigkeit*) of the Joint Representative.

Convening of noteholders' meetings

A noteholders' meeting may be convened by the issuer or by the Joint Representative of the noteholders. Under certain circumstances further specified in the SchVG or, as the case may be, as provided in the conditions applicable to the notes, a noteholders' meeting has to be convened if this is requested by noteholders representing at least 5 per cent of the outstanding notes.

The noteholders' meeting must be convened at least fourteen (14) days prior to the date of the meeting. If a registration is required in order to participate in a noteholders' meeting or to exercise any voting rights the notice period shall take into account the registration period. The registration has to be submitted on the third day prior to the noteholders' meeting at the latest and shall be sent to the address which has been provided in the notification of convocation of the noteholders' meeting.

Pursuant to the SchVG, for issuers having their registered office in Germany the noteholders meeting shall take place at the place where the issuer has its registered office or if the relevant notes are admitted to trading on a stock exchange within the meaning of § 1 (3e) of the Banking Act based in a member state of the European Union or in another state of the European Economic Area, the noteholders' meeting may also be held at the place where such stock exchange has its registered office.

The convocation to the noteholders' meeting must indicate the name, the registered office of the issuer, the time and place of the noteholders meeting as well as the conditions for participation in the meeting and exercise of the voting right(s). The convocation must be made publicly available in the

federal gazette (*Bundesanzeiger*) and in such other form, if any, as specified in the conditions applicable to the notes. In addition, the convocation as well as the conditions for participation in the meeting and exercise of the voting right(s) must be made available to the noteholders of the Notes by the issuer via publication on its website or, if the issuer does not maintain a website, on such other website as specified in the conditions applicable to the notes, from the day of the convocation until the day of the meeting.

Noteholders' meetings

The agenda of the meeting together with a proposed resolution for each agenda item subject to noteholders' resolution must be made publicly available together with the convocation. No resolutions may be made with respect to items of the agenda that have not been made publicly available as required. Noteholders representing at least 5 per cent of the outstanding notes may demand that new agenda items shall be made publicly available. Such new matters must be published on the third day prior to the date of the meeting at the latest.

Counter-motions announced by any noteholder prior to the meeting must be made available to the noteholders by the issuer on its website without undue delay until the day of the meeting or, if the issuer does not maintain a website, on such other website as specified in the conditions applicable to the notes.

The convocation shall make reference to the option of each noteholder to be represented by proxy in the noteholders' meeting, indicating the conditions to be fulfilled for a valid representation by proxy. The proxy shall be presented in writing.

The convening party shall chair the noteholders' meeting, unless another chairperson has been appointed by court decision. In the noteholders' meeting the chairperson will prepare a register of the noteholders present or represented. The register will be signed by the chairperson and made available to all noteholders without undue delay.

The noteholders' meeting has a quorum if the noteholders' present represent at least 50 per cent. of the outstanding notes by value. If the meeting does not have a quorum the chairperson may convene a second meeting. Such second noteholders' meeting requires no quorum; for resolutions requiring a qualified majority the noteholders' present shall represent at least 25 per cent of the outstanding notes. However, the conditions applicable to the notes may contain higher quorum requirements.

Unless otherwise provided by the conditions applicable to the notes, the relevant provisions of the German Stock Corporation Act (*Aktiengesetz*) for voting of the shareholders in the general meeting of shareholders (*Hauptversammlung*) are applicable *mutatis mutandis* to voting and the counting of votes.

Voting without meeting

In the case of voting without a meeting the provisions applicable to the convocation and procedure of noteholders' meetings apply *mutatis mutandis*, unless otherwise provided in the SchVG. The conditions of participation and voting may be stipulated in the conditions applicable to the notes or specified in the relevant voting request.

The voting request shall indicate the voting period which shall be no shorter than seventy-two (72) hours. Votes shall be given in writing but the conditions applicable to the notes may also provide for other forms of voting.

The entitlement to participate in the voting procedure shall be evidenced in the same manner as in the case of a noteholders' meeting. A list of noteholders entitled to vote will be prepared. If there is no quorum a noteholders' meeting may be convened that will be considered as a second noteholders' meeting with regard to quorum. Any resolution must be recorded in the minutes, a copy of which may

be requested by each noteholder which participated in the voting within a period of one year after the voting period.

Each noteholder which participated in the voting may object in writing against resolutions within a period of two weeks after the publication of the resolution.

The former state development business (*Förderanteil*) of former L-Bank was separated from the commercial banking business (*Marktanteil*) of former L-Bank with effect from 1 December 1998 and transferred as of that date to the newly created Landeskreditbank Baden-Württemberg-Förderbank, an independent public law institution with legal capacity and separate legal personality.

BUSINESS OF LBBW

LBBW Group for the most part comprises the single entity Landesbank Baden-Württemberg, which is referred to below as LBBW.

As a universal bank, LBBW combines the range of services of a large bank with the regional proximity of its retail banks. This gives LBBW a presence in its core markets of Baden-Württemberg, Rhineland-Palatinate and Saxony as well as other economic regions with their own regional brand:

- Baden-Württembergische Bank (BW-Bank) with its registered office in Stuttgart operates the private and corporate customer business in Baden-Württemberg and in Bavaria. BW-Bank also assumes the role of a municipal savings bank within the state capital, Stuttgart. Wealth management operates its market presence in principle under the BW-Bank brand. LBBW Rheinland-Pfalz Bank, with its registered office in Mainz, focuses on business with SMEs in Rhineland-Palatinate, North Rhine-Westphalia, Hesse and Hamburg,
- LBBW bundles its small and medium-sized corporate customer and upper retail customer business in Saxony and the neighboring regions under the umbrella of LBBW Sachsen Bank, which has its registered office in Leipzig.

LBBW offers the full range of products and services of a modern commercial bank. The business with large corporates, capital markets business, real estate financing and the Bank's function as the central bank for the savings banks in Baden-Württemberg, Rhineland-Palatinate and Saxony are located within LBBW itself. Essential staff and service functions are also concentrated within LBBW.

Furthermore, LBBW supports the corporate customers of LBBW and of the savings banks with their activities abroad. A global network of branches and representative offices is in place to support customers with country expertise, market knowledge and financial solutions. LBBW operates German Centers in selected locations that make local offices and networks available to German corporate clients and advise them on their market entry.

Group companies for special products (leasing, factoring, asset management, real estate and equity finance) supplement the portfolio of LBBW's services within the Group.

Business model of LBBW Group

On the basis of its conservative risk policy LBBW particularly focuses on customer business in its core markets.

The LBBW business model rests on five pillars, which each pillar representing a main customer group. Its core markets are Baden-Württemberg, Rhineland-Palatinate and Saxony. Above all, LBBW is the partner for corporate and private customers in those regions as well as for the savings banks. This is accompanied by real estate financing and capital market products, which are also targeted at institutional customers.

Corporate customers

In corporate customer business the focus is on traditional SMEs, companies in the upper SME segment with a capital market connection and on groups with an increased capital market focus in the regional core markets and other economic areas, such as North Rhine-Westphalia, Bavaria and the greater Hamburg area. BW-Bank addresses corporate customers in Baden-Württemberg and Bavaria. In Rhineland-Palatinate, North Rhine-Westphalia, Hesse and Hamburg, this function is assumed by LBBW Rheinland-Pfalz Bank and in central Germany by LBBW Sachsen Bank. In addition, LBBW supports large corporates in Germany, Austria and Switzerland.

LBBW Group implements its universal bank approach with a broad range of products and services, extending from international business to all forms of financing, payments, hedging transactions and asset management. In its core markets LBBW is also a partner of municipalities.

Various subsidiaries such as SüdLeasing, MKB Mittelrheinische Bank/MMV Leasing, SüdFactoring and Süd Beteiligungen supplement the offering.

Private customers

BW-Bank is the savings bank of the state capital, Stuttgart. It offers its full range of services, thereby guaranteeing citizens the full array of basic banking services.

Outside Stuttgart, LBBW's business model in the private customer business is geared mainly to the segment of upper retail customers in Baden-Württemberg, Rhineland-Palatinate, Saxony and other economic areas. Wealth Management supports high-net-worth customers and those with complex asset structures. The comprehensive offering of products and services ranges from classic checking accounts and credit card business to complex securities and pension-savings products.

In order to take into account the many and varied challenges in private customer business, principally the trend towards increasing digitalization, LBBW continues to work on becoming an integrated multi-channel bank. This involves providing a comprehensive digital and advisory service on the one hand while the branch network is focusing more on complex consulting on the other.

Savings banks

In this business area, LBBW primarily acts as a central bank to savings banks in the core markets of Baden-Württemberg, Saxony and Rhineland-Palatinate, forming a service partnership with them and providing them with a wide range of products and services.

The cooperation is based on three areas of business in particular:

- The savings banks' proprietary business. The range of services includes all of the savings bank's hedging and investment product categories.
- In market partner business, LBBW products in corporate and private customer business are offered for resale to the savings banks' own retail and corporate customers, in addition to joint loan extension.
- Services business includes research, securities clearing and management, international payment transactions, documentary payments etc.

In regional partnerships LBBW collaborates closely with savings banks across all product areas; outside the core markets products and services are selectively offered to other savings banks as well.

Real estate financing

At LBBW, real estate financing comprises the commercial real estate business. Its target customers are professional investors, special funds, real estate investment trusts and housing companies as well as open and closed-end real estate funds.

Finance is mostly provided for real estate held for leasing. Types of use include, in particular, residential, office, retail and logistics, principally on the target markets of Germany (nationwide), the USA and the UK.

In addition, LBBW within real estate financing acts as a service provider in syndication business with a high level of competence when it comes to structuring and arranging of large-volume transactions.

The subsidiary LBBW Immobilien Management GmbH offers supplementary services.

Capital markets business

In this business area, customer-oriented capital markets business, asset management and foreign operations are pooled and closely interlinked. The product range is aimed consistently at the customer's requirements – which are determined in close contact with the customer – and comprises capital market investments, (capital market) financing, risk management-products and financial services (including the custodian bank function), and research.

The focus is on four customer groups in particular: savings banks, banks, corporate and institutional customers. Individual market development strategies are used to take into account the heterogeneity of customer requirements. Export-oriented customers are supported specifically through LBBW's tailor-made offers for foreign business and its international network.

LBBW's asset management business is pooled within group subsidiary LBBW Asset Management Investmentgesellschaft mbH. The range of offers it provides includes consulting for and management of security trust assets for institutional and private investors, corporate customers, savings banks and other banks.

Credit investment

LBBW's segment reporting additionally includes the credit investment segment. It pools, *inter alia*, the Group's credit substitute portfolio, which has now been largely run down.

Future investment as part of the business model

LBBW Group addresses the current challenges through comprehensive change initiatives; numerous internal initiatives and projects were launched at an early stage. Where necessary, restructuring provisions were set aside to this effect at the end of 2016.

This includes above all the fundamental modernization of the Bank's IT landscape, which forms the basis for achieving further efficiency enhancements. A key element of the comprehensive IT transformation is the introduction of a new core banking system in 2017 (OSPlus), which will create the basis for increased digitalization, standardization and optimization of business processes.

In response to the underlying complexity of the business, capacities will also be focused gradually in the loan processing area (back office). The streamlining and improvement of processes and structures is leading to improved cost efficiency and greater effectiveness.

Another important initiative is the realignment of private customer business and private banking. The restructuring is processing on schedule: LBBW has expanded its digital offerings and has started on the reorganization of the branch network it announced. The expansion strategy was continued successfully in Wealth Management.

LBBW Group has realigned its activities in the capital markets business. The customer-oriented capital markets business was optimized along the value chain on the one hand, while particular emphasis was placed on more intensive utilization of the good business potential on the other. This will lead to closer interlinking between LBBW Asset Management and the sales units of the parent company.

Measures were initiated in the regional corporate customer business to increase the efficiency of customer assistance and therefore to continue with the permanent optimization of this business.

In addition, LBBW Group continues to focus on a selective growth strategy in all pillars.

Segment allocation and coordination

The five pillars of the business model can be transferred to the presentation of the segment logic of LBBW's external reporting: The two pillars of corporate customers and real estate financing are assigned to the Corporates segment while private customers and savings banks form part of the Retail/Savings Banks segment. The Financial Markets segment, which was renamed Capital Markets Business at the start of 2017, corresponds – apart from treasury activities, which were also allocated – largely to the Capital markets business pillar. Information on the segments can be found in the IFRS segment report included in the Notes.

Within this business model, LBBW's Board of Managing Directors manages the Bank as a whole by tracking a set of performance indicators along the strategic segments in the light of the Group's risk-bearing capacity. The information required for managing the Bank is provided through comprehensive, target-oriented monthly reports. The following financial performance indicators are of particular relevance to the management of the Group:

- the common equity Tier 1 capital ratio (in accordance with CRR/CRD IV after full implementation)
- total capital ratio (in accordance with CRR/CRD IV after full implementation)
- risk-weighted assets (in accordance with CRR/CRD IV after full implementation)
- leverage ratio (in accordance with CRR/CRD IV after full implementation)
- net consolidated profit/loss before tax (IFRS)
- For information: net profit before tax (HGB) in the case of LBBW
- the cost/income ratio (ratio of administrative expenses to total net interest income, net fee and commission income, net gains/ losses from financial instruments measured at fair value through profit or loss and other operating income/expenses)
- consolidated total assets (IFRS)
- utilization of the aggregate risk cover (Bank's own calculation pursuant to MaRisk)
- return on equity (annualized consolidated profit/loss before tax with reference to average equity tied up for supervisory purposes, which is adjusted for the effects on earnings reported directly in equity)
- liquidity coverage ratio (in accordance with CRR/ITS)

Important developments affecting LBBW

Funding Challenges

LBBW issued mortgage-backed and public-sector Pfandbriefe (covered bonds), senior unsecured bonds and subordinated bonds. In 2016, LBBW remained an active issuer in the public bond markets as well as in private placements. The bonds were issued predominantly in EUR. From the issuance activities aside of EUR the most important currency is USD. The targeted investors for issues placed directly were primarily savings banks, private customers, insurance companies and pension and investment funds. In 2016, LBBW was able to accomplish its funding plan without restrictions.

LBBW's cost of funds could increase in the future and it may need to seek funds from a greater variety of sources than has been the case historically. In the highly competitive market in which LBBW competes, this could have a significant impact on earnings. In addition, LBBW is subject to ratings requirements under various derivatives transactions, structured finance transactions and deposit and liquidity facilities. Rating changes could limit LBBW's ability to conduct these or other lines of business, which could adversely impact LBBW's financial condition or results of operations and could impede LBBW's efforts to meet certain targets.

Economic background

Germany's gross domestic product (GDP) growth in 2016 was 1.8 per cent. and thus slightly higher to the 1.5 per cent. in 2015 (all growth figures are calendar adjusted). The main driver was private consumption, which contributed 1.0 percentage points. Net trade contributed -0.3 percentage points. A negative factor was also inventory, which reduced the GDP growth by 0.1 percentage points.

Employment increased further during 2016. The average number of persons engaged in economic activities was 44.0 million in the fourth quarter of 2016, compared to 43.4 million in the fourth quarter of 2015.

In 2017 LBBW expects a real GDP growth of 1.5 per cent. (calendar adjusted), the calendar effect amounts to -0.3 percentage points according to the Federal Statistical Office. Accordingly the corresponding unadjusted figure should be 1.2 per cent. The largest contribution should once again come from private consumption and investment. The average inflation rate should be 1.7 per cent. after 0.5 per cent. in 2016. The increase of the inflation rate was mainly caused by higher energy prices. The price for crude oil increased in 2016 from above 30 USD/barrel to 55 USD/barrel at the end of 2016. For 2017 the LBBW research expects 55 USD/barrel for the yearly average, which should curb the inflation dynamics.

A risk of LBBW's GDP forecast is the consequence of the referendum in the United Kingdom (UK) on their EU membership. The heightened uncertainty about the details could result in lower investment in Germany. UK is the third largest destination country for German exports. The total export volume from Germany to the UK was 86.1 billion euro in 2016.

In the State (Land) of Baden-Württemberg GDP has grown (preliminary figures incl. the forecast of the Statistics Office for Q4 2016) in 2016 by 1.5 per cent. according to the Statistics Office of the Land. Thus, Baden-Württemberg's GDP growth would have been below the growth rate of Germany. Baden-Württemberg has a larger share of export orientated industries than Germany on average and is fundamentally one of the strongest federal states in Germany (according to the Innovation Index of the Statistics Office, Baden-Württemberg is the most innovative region of Europe). For 2017 LBBW expects a real GDP growth rate of 1.8 per cent. (calendar adjusted) for the Land Baden-Württemberg.

Changes in accordance with IAS 8

The following changes in estimates were applied prospectively in accordance with IAS 8.39 in the financial year:

- Due to the portfolio approach and the fact that there is no active market for all instruments in the portfolio, the measurement of equity-based derivatives has switched in full to a model-based valuation. This amendment yielded income of EUR 7 million.
- The taking into account of macroeconomic factors in the calculation of the probability of default ("PD") has been expanded. The models now permit a better forecast of the default rates with a time lead of more than a year. This change has resulted in an increase in general allowances for losses on loans and advances of EUR 9 million recognized through profit or loss.

The impact of the changes in estimates on future reporting periods that were implemented in the year under review is in particular dependent on the development of market parameters and expectations in the future. A quantitative determination of the effects on future reporting periods is therefore only possible on the basis of models and to a limited extent.

As part of a development of analysis and recognition, net interest expense and income from derivatives totaling EUR 4.1 billion (previous year: EUR 2.5 billion) were netted in the consolidated financial statements for 2016 in the interests of improved economic presentation; secondly, a decision was made to reclassify direct transaction costs of trading transactions and to allocate them to the individual segments in which they arise. In the current financial year they total EUR 15 million and are no longer reported under Net fee and commission income but under Net trading gains/losses. To enhance transparency and clarity the previous year's figures were adjusted accordingly and an amount of EUR 18 million reclassified. The said adjustments do not have an impact on profit or loss for the year or on the balance sheet.

REVIEW OF DEVELOPMENTS IN 2016

The following discussion and analysis is based on the audited consolidated financial statements of LBBW Group as of and for the fiscal year ended 31 December 2016 (including the adjusted figures for 2015) and should be read in conjunction with such financial statements and the notes thereto.

In compliance with Regulation (EC) 1606/2002 of the European Parliament and of the Council of 19 July 2002, the consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards as adopted by the European Union ("**IFRS**") and the additional requirements of the German commercial law pursuant to Section 315a of the German Commercial Code. The standards and interpretations of IFRS include the International Financial Reporting Standards and the International Accounting Standards ("**IAS**") published by the International Accounting Standards Board ("**IASB**"), and their interpretations by the Standing Interpretations Committee ("**SIC**") and its successor, the International Financial Reporting Interpretations Committee ("**IFRIC**").

The separate financial statements of LBBW were drawn up in compliance with the provisions of the "Handelsgesetzbuch" (HGB, the German Commercial Code), in particular the "Supplemental Regulations for Banks" (§§ 340 ff. HGB) and "Verordnung über die Rechnungslegung der Kreditinstitute und Finanzdienstleistungsinstitute" (RechKredV, the German Accounting Regulation for Banks and Financial Service Institutions).

For details of the principles governing the preparation of both, the separate financial statements and consolidated financial statements for the fiscal years ended 31 December 2016 and 2015, refer to the Notes to the respective financial statements as of 31 December 2016 and 31 December 2015 respectively.

Material Factors in 2016 and Strategic profile

LBBW Group's customer-oriented business model has proved to be successful in the challenging market environment LBBW Group experienced in 2016. After adjustments for non-recurring items, LBBW Group remained on target and achieved net consolidated profit almost matching the previous year's level. The stable performance in the operating business shows the high level of trust the customers place in LBBW Group during these uncertain times. Today, LBBW Group features among the banks with the highest level of capital resources in Germany, and also enjoys an appropriate risk profile. This is a strategy that LBBW Group will continue to pursue in the future.

It is certain that the market and competitive environment for banks will remain challenging going forward. In the fourth quarter of 2016, LBBW Group thus impaired goodwill from a previous company takeover amounting to EUR 379 million, pursuant to financial accounting under IFRS. This value adjustment did not impact LBBW Group's capital ratios. LBBW Group is now in an even more robust position to cushion difficult economic developments or negative movements on the market. In other words, if the underlying conditions were to worsen noticeably, LBBW Group would not be required to adjust any more goodwill on its balance sheet. Despite the high impairment, LBBW Group generated a significantly positive consolidated profit before tax of EUR 142 million. LBBW Group's operating strength is also mirrored in LBBW's profit before tax in accordance with the German Commercial Code (HGB) of EUR 269 million, which is not affected by the goodwill impairment.

The solid development of the past years is based on a balanced business segment portfolio with a healthy blend of sales and refinancing. LBBW Group's excellent clientele promises good income potential going forward. With a measured risk policy and outstanding capital base, LBBW as a bank will remain a sought-after partner for other financial backers.

However, LBBW Group cannot afford to, and LBBW Group does not intend to, remain content with what LBBW Group has achieved so far. LBBW Group and, likewise, its customers are required to prepare for numerous political and economic uncertainties in 2017. Other factors are a high pressure

to invest in LBBW Group's IT platforms, persistently low interest rates, fierce competition and mounting regulatory costs. At the same time, customer behavior is changing in connection with the digitalization process, and customer demands and expectations of LBBW as a bank are growing.

LBBW Group is already focusing its efforts on all these topics, which require vision and ideas; vision for examining the challenges that digitalization will bring LBBW Group and its customers, and ideas on how to recognize the associated significant opportunities and translate them into economic success. Consequently, LBBW Group has launched a number of change projects. During the coming years LBBW Group will consistently work on its customer orientation strategy, its range of products, its market coverage and its efficiency. LBBW Group will optimize its operating model and its business strategy, and accelerate all its internal change projects. LBBW Group's goal is to become more effective, and to grow with its customers in all its business segments.

In doing so, LBBW Group places greater emphasis on sustainable development than on short-term success. LBBW Group strives for fair and long-term relations with its business partners who have relied on LBBW Group for decades.

LBBW Group business model rests on five pillars, with each pillar representing a main customer group. Its core markets are Baden-Württemberg, Rhineland-Palatinate and Saxony. Above all, LBBW is the partner for corporate and private customers in those regions as well as for the savings banks. This is accompanied by real estate financing and capital market products, which are also targeted at institutional customers. The five pillars of the business model can be transferred to the presentation of the segment logic of LBBW's external reporting: The two pillars of corporate customers and real estate financing are assigned to the Corporates segment while private customers and savings banks form part of the Retail/Savings Banks segment. The Financial Markets segment, which was renamed Capital Markets Business at the start of 2017, corresponds – apart from the treasury activities, which were also allocated – corresponds largely to the Capital markets business pillar. Information on the segments can be found in the IFRS segment report included in the Notes.

Business volume

Increase in consolidated total assets.

Compared with the previous year, total assets increased by EUR 9.6 billion or 4.1 % to EUR 243.6 billion at year-end 2016.

The volume of business of LBBW Group rose in parallel by EUR 11.2 billion or 4.3 % to EUR 272.4 billion. In addition to higher total assets, this was also due to an increase in irrevocable loan commitments as well as guarantee and surety obligations.

This development was defined by an expansion of the cash reserves, and the portfolio of receivables from customers and banks. In particular, securities repurchase transactions with central counterparties and borrower's note loans with large regional customers contributed to this increase. The volume with large corporates developed favorably overall.

The development on the liabilities side was supported by the strategic expansion of the long-term funding basis for meeting current and future regulatory liquidity (LCR) and refinancing requirements (NSFR). As at 31 December 2016, LBBW had a liquidity coverage ratio of 110.4 % and therefore significantly exceeded the minimum liquidity ratio of 100 % that will be applicable after the end of the transitional phase from 1 January 2018 (minimum LCR from 1 January 2017: 80 %). When the observation period ends in 2018, banks will likely have to report and comply with the net stable funding ratio thereafter.

Thanks to the good reputation LBBW enjoys as an issuer in the bond market as well as its placement strength, the Bank was successful in securing long-term funding on the capital market in 2016. During the year under review, LBBW issued among other things an unsecured benchmark bond in the amount

of EUR 1.3 billion, which was subsequently increased by EUR 0.3 billion, one subordinated bond sized at EUR 0.5 billion and several large-volume mortgage-backed covered bonds (Hypothekendarlehenbriefe). The issues met with strong demand among domestic and international investors, and were all significantly oversubscribed.

In the course of the strategic realignment of the capital markets business, new business for liquidity management purposes has been reported gradually in the non-trading portfolio since the second half of 2016, thus leading to shifts between individual balance-sheet items on the balance sheet dates of 31 December 2015 and 31 December 2016. In this context, the volume of the financial assets or liabilities measured at fair value through profit or loss, in particular, was reduced through money market transactions that had matured or ended. In contrast, there was an increase in the volume of loans and advances to customers and banks and deposits from customers and banks in the form of newly concluded overnight and term money transactions.

Lending

Cash and cash equivalents came to EUR 13.5 billion as at 31 December 2016 and were EUR 12.4 billion above the previous year's figure. The increase was largely attributable to the increase in balances held with the central bank.

Loans and advances to banks rose sharply by EUR 9.0 billion, thus ending at a figure of EUR 39.3 billion. The volume of securities repurchase transactions increased by EUR 5.0 billion, especially due to the expansion of transactions with central counterparties and large international banks. New business with savings banks and the reinvestment of maturing money market transactions in the banking book led to a EUR 3.0 billion increase in public-sector loans.

Loans and advances to customers increased at the end of 2016 by EUR 2.4 billion to a volume of EUR 111.2 billion. Besides a EUR 1.0 billion increase in securities repurchase transactions, largely with central counterparties, the volume of borrower's note loans rose by EUR 0.9 billion, and overnight and term money by EUR 0.9 billion. The volume transacted with large corporates also developed positively.

Financial assets measured at fair value through profit or loss fell significantly by EUR -14.6 billion to EUR 50.2 billion mainly because of falling trading assets. Maturing overnight money, term money and call money with domestic and international banks led to a EUR -8.0 billion decline in other money market transactions. The volume of bonds and debentures held in the trading portfolio also fell by EUR -5.7 billion, mainly through maturing of German Länder bonds. Borrower's note loans also lowered the trading portfolio by EUR -0.9 billion.

Financial investments and shares in investments accounted for using the equity method increased slightly by EUR 0.5 billion to EUR 25.9 billion. The main reason for the increase was the EUR 3.0 billion expansion of the holdings of covered bonds and debentures from international banks. On the other hand, exposure especially to southern European public-sector entities was reduced by a further EUR -1.4 billion. Within the scope of reducing the exposure to purpose entity Sealink during the year under review, the volume of GPBW GmbH & Co. KG bonds held in LBBW's portfolio declined by EUR -1.2 billion. LBBW had acquired this as part of the risk shield for the loans extended by GPBW GmbH & Co. KG to the special purpose entity Sealink.

Intangible assets were reduced by EUR -0.3 billion to EUR 0.2 billion. The decline is explained mainly by the write-down of goodwill in the balance sheet. The recognition of goodwill is attributable mainly to the timing of the acquisition of SachsenLB. The consequences of the ECB's expansive monetary policy combined with a historically low level of interest rates, challenging regulatory requirements and greater competitive pressure on lower demand for credit resulted in a decline in the cash flow forecasts for the Corporates segment carrying the goodwill. This necessitated a complete write-down of the remaining goodwill in the amount of EUR -379 million.

Funding

The portfolio of deposits from banks as at 31 December 2016 remained very close to the level as at 31 December 2015, rising by EUR 0.3 billion to EUR 44.6 billion. The EUR -5.4 billion decline in securities repurchase transactions equated roughly to the increase of EUR 5.1 billion in overnight and term money. The increase in overnight and term money was mainly attributable to the utilization of the Bundesbank's tender program as well as new business with international banks. In addition, current account claims were up by EUR 0.7 billion.

Deposits from customers were extended substantially, by EUR 8.1 billion to EUR 70.6 billion. Overnight and term money in particular increased noticeably by EUR 6.9 billion in connection with the realignment of the capital markets business. German federal states and public-sector entities increasingly resorted to LBBW for the purpose of investing their cash and cash equivalents. Funding with securities repurchase transactions increased by EUR 2.3 billion, while issued debentures fell by EUR -0.8 billion.

The balance sheet item securitized liabilities increased significantly during the 2016 financial year, by EUR 4.9 billion to EUR 34.4 billion. The Bank was able to refinance itself on a long-term basis on the capital market in 2016 thanks to LBBW's good reputation as an issuer in the bond market. The issue of a EUR 1.5 billion benchmark bond and further large-volume debentures prompted the volume of other debentures to rise by EUR 3.0 billion. Similarly the issue of several mortgage-covered bonds in 2016 led to a net increase of EUR 2.3 billion in the volume of mortgage-backed covered bonds. Short-term funding via money market transactions was also increased by EUR 1.5 billion over the previous year. Contrary to this, the volume of public-sector covered bonds declined by a total of EUR -1.9 billion due to maturing covered debentures.

In line with the item on the assets side, liabilities measured at fair value through profit or loss fell by EUR -4.2 billion to EUR 69.8 billion, primarily as a result of the decline in trading liabilities. The volume of money market transactions fell by EUR -7.3 billion, essentially due to maturities. The EUR -2.1 billion change in the negative fair values from trading derivatives resulted in particular from maturing interest rate swaps. This contrasted with a EUR 4.4 billion increase in securitized liabilities, mainly due to the increase in certificates of deposit and commercial paper transactions by the New York branch.

LBBW increased its subordinated capital by EUR 0.6 billion to EUR 5.9 billion in the year under review, in order to strengthen its capital base further. The basis for this was mainly a large-volume subordinated bond, sized at EUR 0.5 billion that was issued in September. The subordinated capital was also increased through several private placements.

Equity

LBBW's equity was reduced by EUR -0.5 billion from 31 December 2015 to EUR 13.1 billion, with unappropriated profit posting a significant decline. The reduction in the discount rate for pension provisions from 2.18 % to 1.72 % also led to actuarial losses, which lowered retained earnings by EUR -0.2 billion, taking deferred taxes into account.

Financial position

LBBW's funding strategy is determined by the Asset Liability Committee (ALCo). Here the Group focuses on ensuring a balanced structure in terms of the groups of products and investors used. The Group's financial position throughout the entire reporting year was satisfactory on account of the good liquidity. LBBW was at all times able to obtain funding on the market on the requisite scale. The LiqV liquidity indicator is only to be determined at the level of the Bank and improved to 1.50 as at the reporting date of 31 December 2016 (previous year: 1.43).

LBBW's liquidity coverage ratio (LCR) in accordance with the Delegated Act (EU) No. 2015/61 on the liquidity coverage requirements stood at 110.4 per cent. at year-end 2016 and thus exceeded the statutory minimum ratio of 80 per cent. applicable from 1 January 2017, and is also higher than the minimum ratio of 100 per cent. that will be applicable after the end of the phase-in phase from 1 January 2018.

LBBW's leverage ratio at the end of 2016 was 4.6 per cent. (fully loaded) and thus virtually unchanged from the previous year (4.7 per cent.) and significantly above the minimum rate of 3.0 per cent. set by Basel III (CRR).

LBBW's good capitalization and solid business model were once again confirmed during the year under review; all the regulatory capital requirements were clearly exceeded. With a common equity Tier 1 capital ratio of 15.2 per cent. (previous year: 15.6 per cent.) and a total capital ratio of 21.5 per cent. (previous year: 21.4 per cent.), LBBW exceeds the increased regulatory capital requirements of the CRR based on full implementation of the transitional rules (fully loaded). This meant that it could also significantly exceed its own targets. Like all institutions under the ECB's supervision, LBBW has had to meet capital requirements specific to each institution since 2015. The individual requirements, which are above the statutory requirements of the CRR, are usually set annually by the ECB on the basis of the Supervisory Review and Evaluation Process (SREP). The ECB informed LBBW in November 2016 that it is required to hold a common equity Tier 1 capital ratio of 8.09 per cent. from 1 January. The common equity Tier 1 capital to be held as a capital conservation buffer in accordance with Section 10c of the German Banking Act (KWG) and as a capital buffer in accordance with Section 10g KWG for other systemically relevant financial institutions, as well as the common equity Tier 1 capital to be held as a countercyclical capital buffer in accordance with Section 10d KWG, is included in this ratio. The ECB has also declared a capital recommendation that goes beyond the mandatory requirement, which must also comprise CET1 capital. Risk weighted assets (RWA) increased moderately by EUR 2.9 billion to EUR 77.4 billion (previous year: EUR 74.5 billion) due to the slight increase in counterparty and market price risks. However, given the slight rise in the companies' good liquidity situation and related low demand for credit, they fell slightly short of the target. The risk-bearing capacity situation has improved once more, including as part of economic capital management. With a ratio of 43.9 per cent., utilization of the aggregate risk cover for 2016 was 4.2 percentage points below the previous year's figure (48.1 per cent.) and perceptibly below our own forecast.

Capital management

Capital management at LBBW is designed to ensure solid capitalization within LBBW Group. In order to guarantee adequate capital from various perspectives, the Bank analyzes capital ratios and structures both from the perspective of regulatory capital requirements and that of economic capital. Capital management at LBBW is imbedded in integrated performance and risk management, the strategies, regulations, monitoring processes and organizational structures of LBBW Group.

The integrated risk and capital management is carried out by the Group's Board of Managing Directors. Among other things, the Asset Liability Committee (ALCo) supports the Board of Managing Directors in structuring the balance sheet, managing capital and liquidity, in funding and in

managing market-price risks. The ALCo prepares decisions in this respect that are subsequently met by the Group's Board of Managing Directors.

On matters relating to risk management and capital management under economic aspects, the Risk Committee (RiskCom) helps prepare decisions for the Board of Managing Directors with regard to risk monitoring, the risk methodology and the risk strategy for LBBW Group as a whole, and in relation to compliance with the regulatory requirements.

The coordinating Regulatory/Accounting Committee evaluates at an early stage the requirements of the large number of provisions of banking supervisory law and accounting that are relevant for management purposes and takes the measures required.

Capital allocation and longer-term strategic capital management is carried out during the planning process integrated on an annual basis (with a five-year planning horizon) with the forecast during the year, and is decided and monitored continuously by the Group's Board of Managing Directors. The Supervisory Board ultimately decides on the business plan.

Economic capital

Besides the capital backing stipulated by regulatory bodies, the capital backing required from LBBW's point of view for economic purposes, calculated using the Bank's own risk models, is monitored in an additional steering circle.

See the risk and opportunity report in the annual report 2016 for details.

Regulatory capital

LBBW Group's capital ratios are calculated according to the provisions of Article 92 CRR in conjunction with Article 11 CRR. Accordingly, the ratios to be fulfilled at all times are:

- Common equity Tier 1 capital ratio (basis: CET1 capital) of 4.5 per cent., plus relevant capital buffer
- Tier 1 ratio (basis: common equity Tier 1 capital and additional Tier 1 capital) of 6.0 per cent.
- Total capital ratio (basis: common equity Tier 1 and additional Tier 1 capital, as well as supplementary capital) of 8.0 per cent.

The ECB is conducting the Supervisory Review and Evaluation Process (SREP). Based on this process, the ECB determined that, beyond the minimum requirements under Article 92 CRR, LBBW is required to maintain a CET1 capital ratio of 9.75 per cent. at all times on a consolidated basis in 2016. This ratio includes the aforementioned Tier 1 capital ratio and the capital conservation buffer.

Furthermore, a bank-specific countercyclical capital buffer must be held. This capital buffer can be imposed by countries in the European Economic Area and by third-party states for the major risk exposures in their country.

The ratios result from the relevant capital components in relation to the total exposure amount, expressed in percent. The total exposure amount is calculated as the risk weighted exposure amounts for the credit and dilution risk, the trading book business, market price risk, the risks of the credit valuation adjustments for OTC derivatives, operational risk and counterparty risk from the trading book business. These ratios required by the supervisory authorities were maintained at all times during the 2016 financial year.

The own funds derive from the sum of Tier 1 and Tier 2 capital.

Tier 1 capital consists of common equity Tier 1 capital and additional Tier 1 capital, whereby the common equity Tier 1 capital comprises the paid-in capital, associated premiums (capital reserves), retained earnings, cumulative other income and other reserves.

The additional Tier 1 capital comprises the silent partners' contributions. Due to the transitional provisions that will be in place until the end of 2021, they may continue to be included this capital heading within the ranges applicable in accordance with Article 486 CRR in conjunction with Article 31 SolvV. Amounts that are no longer included in these ranges may be included in this capital heading, provided the conditions for consideration as supplementary capital are met.

Supplementary capital comprises long-term securitized subordinated liabilities as well as long-term subordinated loans and profit participation certificates that meet the requirements of Article 63 CRR and the associated premiums. The supplementary capital instruments are subject to a day specific reduction in the last five years of their term.

Losses incurred in the current financial year, intangible assets, goodwill, deferred tax claims dependent on future profitability and the value adjustment deficit for receivables that were calculated pursuant to the IRB approach, must be deducted from the common equity Tier 1 capital. In addition, a negative revaluation reserve, the gains or losses from own liabilities measured at fair value due to changes in the credit ratings of LBBW Group, gains and losses from derivative liabilities recognized at fair value resulting from the Bank's own credit risk, as well as value adjustments due to the requirements for a prudent valuation must be deducted when calculating the own funds.

The transitional provisions in accordance with Article 467 et seq. in conjunction with Article 481 CRR should be applied for these deductions and exclusions from common equity Tier 1 capital. Deductions of 40 per cent. from the CET1 capital must therefore be taken into account until year-end 2016 for deferred tax from non-temporary differences, while the remaining 60 per cent. shall be recognized as risk weighted assets with a risk weight of 0 per cent. The following must be taken into account as deductions of 60 per cent. from the CET1 capital: the current loss, a negative revaluation reserve for equity investments, intangible assets and goodwill, the value adjustment deficit, a negative revaluation reserve from other securities, as well as gains/losses from derivative liabilities recognized at fair value resulting from LBBW's own credit risk. The remaining 40 % of the aforementioned deductions for the current loss, immaterial assets and goodwill is deducted from additional Tier 1 capital. The remaining value adjustment deficit of 40 % that is not included in CET1 capital is deducted in equal amounts from additional Tier 1 capital and Tier 2 capital.

As part of market-smoothing operations, supplementary capital components securitized in securities may be repurchased within the applicable limits. Some directly or indirectly held supplementary capital instruments that have been repurchased must be deducted from the supplementary capital. The fixed ceiling was complied with at all times in 2016.

LBBW applies the internal ratings-based approach (basic IRB approach) approved by the German Federal Financial Supervisory Authority (BaFin) for calculating capital backing for counterparty risks arising from the main exposure classes. Equity requirements for receivables for which permission has not been received to use a rating procedure are calculated in accordance with the credit risk standardized approach (CRSA).

The own funds in accordance with CRR are calculated based on the IFRS financial statements of the entities included in the regulatory scope of consolidation.

The following table shows the structure of LBBW Group's own funds:

Explanation of the changes in 2015 versus 2016

Common equity Tier 1 (CET1) capital of LBBW Group decreased primarily on account of actuarial losses and the transitional provisions according to CRR that were adjusted for 2016. Due to these transitional provisions, a higher amount must be reported at the expense of CET1. In return, for some positions lower deductions are made from additional Tier 1 (AT1) capital and from supplementary and (T2) capital. Additional Tier 1 (AT1) capital increased despite maturities of silent partners' contributions and the repayment of trust preferred securities approved by the ECB on account of the transitional provisions pursuant to the CRR. Supplementary (T2) capital was strengthened in September 2016 through the issue of subordinated bonds under the MTN program totaling EUR 500 million and the placement of further subordinated bonds and subordinated debentures amounting to EUR 289 million in the fourth quarter. Another positive effect for subordinated capital results from the changes in the transitional provisions. The amortization of Tier 2 capital components on the basis of the number of days that have passed had the opposite effect.

The changes impacting on CET1 capital have an effect on all capital ratios. An increase in AT1 capital influences the Tier 1 capital ratio and the total capital ratio, while the issue of Tier 2 capital only has a positive effect on the total capital ratio.

The increase in the total amount of risk essentially results from two factors. First of all, the risk-weighted exposure amount for the credit risk increased on account of the general business performance. Secondly, a rise in the total exposure amount for position, foreign currency and commodity position risks was recorded, resulting among other things from a higher general equity risk.

Income statement

Burdening factors in part impacted on the business performance of the banking industry in the 2016 financial year too. Persistently low or, in some cases, even negative interest rates continued to increase the pressure on LBBW's results of operations. This was accompanied by the unfavorable environment of high regulatory and competitive intensity. In addition, there are still uncertainties concerning the terms of Brexit, so that it is not yet possible to make a reliable estimate of the impact

on Europe's economic development and on the banks. Although the pound sterling devalued considerably after the Brexit vote, this had virtually no impact on LBBW given the mainly closed currency positions. LBBW benefited in the financial year from having firm roots in strong core regions, supported in particular by long-standing customer relationships, a large number of customers and excellent product expertise. The trend of the central performance indicators needs to be evaluated in a differentiated manner. The regulatory capital requirements and liquidity ratios were once again exceeded significantly, while the profitability figures fell owing to a non-recurring effect. The three operating segments Corporates, Financial Markets and Retail/Savings Banks achieved a significantly positive contribution to earnings overall.

Adjusted for the non-recurring effect from impairment of goodwill, LBBW Group's operating business continued its good performance from the previous year in 2016. At EUR 521 million, consolidated profit before tax and before the aforementioned non-recurring effect was close to the previous year's level (previous year: EUR 531 million) and is proof of a solid business model. After taking into account the impairment of goodwill, this yielded profit before tax of EUR 142 million. Investment transactions and revenues from securities transactions had a positive influence on net gains/losses from financial investments in particular. The earnings performance also benefited from an improvement in net fee and commission income, especially in the securities and the custody business, as well as from the lower expenses for the guarantee provided by the State of Baden Württemberg. In contrast, net gains/losses from financial instruments measured at fair value through profit or loss were down moderately on the previous year due to measurement influences. At the end of the 2016 financial year, the goodwill allocated to the Corporates segment was written off in full following an impairment test; this balance sheet item historically resulted mainly from the acquisition of Sachsen LB in 2008. Looking forward, the cash flow forecast for the Corporates segment bearing the goodwill was revised mainly on account of the lower potential for earnings performance. Key influencing factors here were the extremely low interest rates due to the expansive monetary policy the ECB continues to pursue, increasingly intense competition in the banking market driven not least by digitalization and a further tightening of the regulatory environment.

Consolidated profit/loss before tax for the 2016 financial year fell significantly short of the target figure due to the non-recurring effect of impairment of goodwill; adjusted for the non-recurring effect, consolidated profit/loss before tax was in line with the forecast. The figure was boosted again by considerably lower than planned expenses on allowances for losses on loans and advances. LBBW benefited primarily from the good economic situation in its core markets. The performance of net gains/losses from financial investments also exceeded expectations considerably. This was due to investment transactions such as the sale of cellent AG and of shares in VISA Europe Limited.

Net interest income, which was defined by interest rates that remain at a historically low level and by lower demand for credit owing to the companies' high liquidity holdings, fell slightly short of the target figure in the year under review. Administrative expenses performed slightly better than expected. Despite comprehensive spending on the restructuring of the IT architecture and high costs for regulatory requirements, administrative expenses were almost at the previous year's level.

On balance, the cost/income ratio (CIR) came to 74.3 % at the end of the year (previous year: 70.9 %) and rose moderately especially due to lower than expected interest income. LBBW calculates the CIR from the ratio of administrative expenses to the total of net interest income, net fee and commission income, net gains/losses from financial instruments measured at fair value through profit or loss and other operating income/expenses. The ratio gives a clear view how efficiently a bank is being run - the lower it is, the more profitable the bank will be. Return on equity (RoE) fell by 3.0 percentage points to 1.1 % (previous year: 4.1 %) and was thus slightly lower than planned. After adjusting for non-recurring effects from the impairment of goodwill, the RoE figure of 4.1 % is in line with the previous year, which is also slightly above target. The performance indicator RoE is calculated from the ratio of annualized consolidated profit/loss before tax to average equity on the balance sheet, adjusted for the effects on earnings reported directly in equity. RoE measures the relation between earnings and

equity/investments. Both, CIR and RoE belong to the key performance indicators, which are the basis of managing the bank.

Despite the ongoing historically low level of interest rates, net interest income fell only marginally year-on-year by EUR -29 million to EUR 1,624 million. Among other things, the fact that fewer charges from accounting-specific matters had to be taken into account relative to the previous year had a stabilizing effect. However, the extremely low level of interest rates, which reached new lows in 2016, owing to the ECB's expansive monetary policy, had a burdening effect. This reduced *inter alia* the contribution to results in the deposit-taking business with customers and the investment of LBBW Group's own funds. Although the decline in total assets compared with previous years increased slightly for the first time again in 2016, these comprise mainly highly liquid positions with correspondingly low interest rates. The impact of the marked decline in volume at the end of the previous year with the corresponding higher rates of interest in part was still felt. In the lending business, lending to large corporates was extended selectively, albeit only at a low level because of the intense competitive situation and the companies' good liquidity situation. LBBW Group continued its approach of focusing on low-risk new business.

Expenses for allowances for losses on loans and advances were more or less unchanged from the previous year and fell marginally by EUR 4 million to EUR -51 million. While the reversals fell more year-on-year than the additions to allowances, the direct write-downs were significantly reduced compared with the previous year. The allowance requirement thus remained significantly below the long-term average due to a balanced risk policy and to the good economic situation in LBBW Group's core markets.

Net fee and commission income reported a positive performance with a EUR 11 million increase to EUR 527 million (previous year: EUR 515 million). Spurred by LBBW's strong position in arranging structured capital market issues, the result in the securities syndication business improved in particular. Commission earned in the business with funds and the custodian business increased too so that fees and commissions from the securities and custodian business rose by EUR 14 million to EUR 173 million. Income from payment transactions through cooperations in the credit card business also grew slightly by EUR 8 million. By contrast, net fee and commission income from loans and guarantees solely from the services industry declined due to muted new business and intense competition and came to EUR 107 million (previous year: EUR 119 million). All other types of commission remained largely stable year-on-year.

Net gains/losses from financial instruments measured at fair value through profit or loss fell moderately versus the previous year, namely by EUR -18 million to EUR 190 million (previous year: EUR 209 million). In particular, the measurement of derivative financial instruments that form part of economic hedges but cannot be included in hedge accounting exerted a negative effect. The result from hedge accounting also declined by EUR -15 million to EUR -20 million. In addition, the changes to measurement discounts for financial instruments, mainly credit valuation adjustments, contributed to the decline with EUR -38 million. Items in the trading book led to a better result, which was however unable to make up for the aforementioned changes.

Net gains/losses from financial investments and net income/expenses from investments accounted for using the equity method increased sharply year on year by EUR 101 million to EUR 195 million (previous year: EUR 94 million). The contribution from securities improved sharply from EUR -18 million to EUR 90 million as LBBW took advantage of the market opportunities being provided by volatile markets. In addition to positive contributions from the sale of bonds, this increase was driven by subsequent purchase price adjustments in connection with equity instruments sold in the previous year. The execution of the sale of cellent AG at the beginning of 2016 also yielded a net gain from the sale of equity investments. Moreover, net income/expenses from equity investments improved as a result of the buyback of shares in VISA Europe Limited by Visa Inc. in the United States in the 2nd quarter of 2016. All in all, the contribution from equity investments increased by EUR 51 million year

on year. However, net income/expenses from investments accounted for using the equity method dropped sharply by EUR -58 million to EUR 13 million.

Compared with the previous year, other operating income including net income/expenses from investment property fell by a total of EUR -34 million to EUR 101 million. In contrast to the previous year in which provisions had been reversed, the current year was defined by net allocations to the provisions. On the other hand, net income/expenses from investment property improved after coming under strain in the previous year from the fair value measurement of individual investment properties.

At EUR -1,814 million (previous year: EUR -1,782 million), administrative expenses remained virtually at the previous year's level. The marginal increase of EUR -8 million to EUR -1,036 million in staff costs was caused in particular by pay-scale adjustments of wages and salaries. By contrast, other administrative expenses increased moderately by EUR -32 million to EUR -688 million (previous year: EUR -656 million). A large portion of the expenses was still connected to the restructuring of the IT architecture that started in 2014. There was a marked increase in the IT costs in particular in the course of the investment in a new core bank system that will be rolled out in 2017 and shall form the basis for increased digitalization and process optimization. Lower consulting expenses and building maintenance provided relief. Furthermore, amortization and write-downs of intangible assets and property and equipment fell by EUR 8 million to EUR -89 million during the year under review (previous year: EUR -98 million).

Under the guarantee shield of the State of Baden-Württemberg, LBBW continues to finance the special-purpose entity Sealink, which is not required to be consolidated within the Group. The State of Baden-Württemberg still offers a guarantee for certain loans to this special-purpose entity, for which a guarantee commission of EUR -93 million was paid in 2016. The commission fell by EUR 28 million year on year in 2016 in line with the continuing drop in the volume of lending to Sealink.

Expenses for the bank levy and deposit guarantee system totaled EUR -71 million in the 2016 financial year and were therefore only marginally lower than the expense of EUR -73 million incurred in 2015. They include the contributions to the restructuring fund in accordance with European requirements (EU bank levy) and to the deposit guarantee system based on the EU Deposit Guarantee Act which came into effect on 3 July 2015. Under the new EU Deposit Guarantee Act, the Sparkassen-Finanzgruppe realigned its guarantee system in accordance with statutory requirements. Among other things, the system aims to increase the target volume of the guarantee mechanism to 0.8 % of covered deposits (customer deposits up to EUR 100,000 per customer) by the year 2024. The German Financial Supervisory Authority (BaFin) has recognized the realigned guarantee system of the Sparkassen-Finanzgruppe as a bank-related guarantee system.

The impairment test at year-end 2016 of goodwill of EUR 379 million allocated to the Corporates segment was marked by the changed environment compared with the previous year. A lower estimate of the future potential for development is based mainly on the following factors. The ECB's adherence to an expansionary monetary policy with persistently low interest rate levels increasingly levels out the rating-related funding advantage for LBBW. This is clear above all in the intense competition in the banking markets, particularly in the competitive SME business. The high levels of liquidity held by the companies also curb the demand for loans, thus limiting the earnings potential. The already very challenging regulatory environment will become even tighter in future with Basel IV, and, combined with the current burden of implementing the latest regulatory requirements, represents an ever-increasing challenge for the Bank. No more than moderate expectations of GDP growth in Germany are a contributory factor for the lower cash flow forecasts overall at year-end 2016 for the Corporates segment. This necessitated a complete write-down of the goodwill carried on the balance sheet that was related mainly to the acquisition of Sachsen LB. It must also be noted that the write-down does not burden the Group's capital ratios, as the goodwill was already taken into account as a deductible item within the scope of the capital calculation. The write-down does not impact either on the result under commercial law (HGB), as the goodwill is only accounted for within the scope of the consolidated accounts pursuant to IFRS.

Net income/expenses from restructuring increased by EUR -44 million in the year under review to EUR -87 million (previous year: EUR -44 million). Because of the framework conditions for the banking industry and in addition to the modernization of the IT architecture, the business processes and product range were streamlined. The resulting necessary measures and investment in future-proofing LBBW incurred current expenses and the relevant issues relating to this were taken into account through the setting aside of provisions. Contrasting with this, partial amounts of existing provisions in connection with EU restructuring were reversed as the reason for these provisions had ceased to exist.

Taking into account the aforementioned non-recurring effect from the goodwill impairment, the remaining consolidated profit/loss before tax amounts to EUR 142 million (previous year: EUR 531 million). Please refer to the Notes for details regarding the presentation of individual segment results.

Tax expense totaling EUR -131 million was incurred in the period under review, compared with EUR -109 million in the previous year. Current income taxes of EUR -81 million in the 2016 financial year were down slightly on the previous year's figure of EUR -86 million. Income taxes pertaining to previous years fell to EUR 6 million (previous year: EUR 12 million). Deferred taxes worth EUR -55 million (previous year: EUR -35 million) also accrued. The EUR -20 million increase over the previous year is largely attributable to legislative change to UK tax law.

Net consolidated profit after tax fell to EUR 11 million as a result of the goodwill impairment (previous year: EUR 422 million).

Legal and Arbitration Proceedings

There are no nor have there been any governmental, legal or arbitration proceedings, involving the Issuer or any of its subsidiaries (and, so far as the Issuer is aware, no such proceedings are pending or threatened) which may have or have had during the twelve months prior to the date of this Base Prospectus a significant effect on the financial position or profitability of the Issuer and/or LBBW Group.

In view of recent rulings by the courts in Germany, the banking landscape continues to face not inconsiderable legal risks from customer transactions in complex derivatives and the further development of consumer protection. Although new rulings by the German Federal Court of Justice (*Bundesgerichtshof* - "**BGH**") since 2015 have set the course for further harmonization of the relevant case-law, there is no such consistent and settled case-law yet. Further legal risks exist in fiscal law terms concerning the requirements for deducting capital gains tax. Here, a further development of a legal view with a retrospective impact on the basis of new legislation or new pronouncements by the revenue authorities cannot be ruled out.

The continuous processes of legal analysis and risk processes initiated by LBBW in response to this also take account of these developments. As far as is known today, adequate provision has been made to cover legal risks while at the same time the future development of legislation and legal disputes will continue to be of crucial importance for LBBW. Here the provisions formed relate, also against the backdrop of the unclear legislative situation, principally to covering legal risks from certain derivatives transactions as well as risks relating to consumer law.

Material Contracts

Except for the guarantee in an initial amount of EUR 12.7 billion, provided by GPBW GmbH & Co. KG (a company, the shares of which are held indirectly by the State of Baden-Württemberg) in 2009 to LBBW, for the owners of LBBW, as security for positions in securitized assets of LBBW and loans of LBBW to the Irish special purpose company Sealink Funding Ltd. (see the paragraph entitled "Risks relating to the Acquisition of SachsenLB" at the end of the section "Risk Factors"), neither LBBW nor any of its consolidated subsidiaries has entered into any contracts outside of the ordinary course of

business that have had or may reasonably be expected to have a material effect on the ability of LBBW to meet its obligations to Holders of the Securities.

Conflict of Interests

Every member of the administrative, management or supervisory bodies is obliged to act in the interests of the bank. In the event of a conflict of interests, the member concerned does not participate in the deliberations and voting of the Supervisory Board/Board of Managing Directors on the issue in question.

TREND INFORMATION

LBBW Group is facing the dynamic changes in the banking sector with comprehensive future investments. To this end, a large number of initiatives and projects have been launched to strengthen the business model.

These projects include the widespread modernization of the bank's IT landscape which lays the foundations for further gains in efficiency. The introduction of a new core bank system in April 2017 (OSPlus) will create the basis for increased digitalization, standardization and optimization of business processes.

Another important initiative is the realignment of the private customer business and private banking due to changes in customer behavior. Adjustments of the stationary distribution network have begun and the range of digital offerings will be further developed. The business of Wealth Management continues to focus on expansion.

LBBW Group also realigned its activities in the capital markets business. Optimizations along the value chain of the business were made and a better utilization of the good business potentials is intended to be realized. In consequence the subsidiary LBBW Asset Management will be interlocked more closely with the distribution units of the Bank.

For small corporate customers efficiency gains in customer service processes have been introduced to support the optimization of the business. The corporate customer business continues to focus on a selective growth strategy in Central and Northern Germany as well as in Bavaria so that LBBW Group's position in its core markets can be leveraged to harness greater market potential in these regions.

TAXATION

The information below is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser of Securities and/or Coupons. Prospective purchasers are urged to satisfy themselves as to the overall tax consequences of purchasing, holding and/or selling the Securities and/or Coupons.

German Taxation

The following is a general discussion of certain German tax consequences of the acquisition, the ownership and the sale, assignment or redemption of Securities and/or Coupons (in the following referred to as "Securities" and each a "Security"). It does not purport to be a comprehensive description of all tax considerations, which may be relevant to a decision to purchase Securities, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This overview is based on the laws of Germany currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect. It is limited to Securities that are issued and acquired after 31 December 2008. The tax treatment of Securities issued and acquired prior to 1 January 2009 may differ significantly from the description in this overview.

As each Series of Securities may be subject to a different tax treatment due to the specific terms of such Series, the following section only provides some very generic information on the possible tax treatment and has to be read in conjunction with the more specific information on the taxation of each Series of Securities as provided in the relevant Final Terms. Furthermore, the taxation of the different types of Securities (e.g. Notes, Certificates) may differ from each other. The following summary only describes the tax treatment of Securities in general and certain particularities with respect to individual types of Securities.

Prospective purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of the acquisition, ownership and the sale, assignment or redemption of Securities and the receipt of interest thereon, including the effect of any state or local taxes, under the tax laws of Germany and each country of which they are residents or citizens or may otherwise be liable to tax. Only these advisers will be able to take into account appropriately the details relevant to the taxation of the respective holders of the Securities.

Tax Residents

Private Investors

Interest and Capital Gains

Interest payable on the Securities to persons holding the Securities as private assets ("Private Investors") who are tax residents of Germany (i.e. persons whose residence or habitual abode is located in Germany) qualifies as investment income (*Einkünfte aus Kapitalvermögen*) according to Sec. 20 para. 1 German Income Tax Act (*Einkommensteuergesetz*) and is generally taxed at a separate tax rate of 25 per cent. (*Abgeltungsteuer*, in the following also referred to as "flat tax"), plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax.

Capital gains from the sale, assignment or redemption of the Securities (including the original issue discount of the Securities, if any, and interest having accrued up to the disposition of a Security and credited separately ("Accrued Interest", *Stückzinsen*), if any) qualify – irrespective of any holding period – as investment income pursuant to Sec. 20 para. 2 German Income Tax Act and are also taxed at the flat tax rate of 25 per cent., plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax. If the Securities are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. The separation of coupons or interest claims from the Securities is treated as a disposition of the Securities.

Capital gains are determined by taking the difference between the sale, assignment or redemption price (after the deduction of expenses directly and factually related to the sale, assignment or redemption) and the acquisition price of the Securities. Where the Securities are issued in a currency other than Euro the sale, assignment or redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the acquisition date and the sale, assignment or redemption date respectively.

Expenses (other than such expenses directly and factually related to the sale, assignment or redemption) related to interest payments or capital gains under the Securities are – except for a standard lump sum (*Sparer-Pauschbetrag*) of 801 Euro (1,602 Euro for married couples filing jointly) – not deductible.

According to the flat tax regime losses from the sale, assignment or redemption of the Securities can only be set-off against other investment income including capital gains. If the set-off is not possible in the assessment period in which the losses have been realized, such losses can be carried forward into future assessment periods only and can be set-off against investment income including capital gains generated in these future assessment periods.

Particularities apply with respect to so-called full risk certificates (*Vollrisikozertifikate*), i.e. certain index linked debt securities which do not provide for a guaranteed repayment or any capital yield, with several payment dates. According to the decree of the German Federal Ministry of Finance (*Bundesfinanzministerium*) dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017) all payments to the investor under such certificates that are made prior to the final maturity date shall qualify as taxable income from a so called other capital receivable (*sonstige Kapitalforderung*) pursuant to Sec. 20 para. 1 no. 7 German Income Tax Act, unless the offering terms and conditions stipulate that such payments shall be redemption payments and the parties act accordingly. If there is no final redemption payment, the final maturity date shall not constitute a sale-like event in the meaning of Sec. 20 para. 2 German Income Tax Act. Therefore, capital losses, if any, shall not be deductible. Although this decree only refers to certain types of certificates, it cannot be excluded that the tax authorities may apply the above described principles to other kinds of certificates as well.

Further, the German Federal Ministry of Finance in its decree dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017) has taken the position that a bad debt loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*) shall, in general, not be treated as a sale, so that losses suffered upon such bad debt loss or waiver shall not be deductible for tax purposes. This position is subject to controversial discussions among tax experts. In this respect, it is not clear, as well, whether the position of the tax authorities may affect securities which are linked to a reference value in case such value decreases. Furthermore, according to the decree dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017), the German Federal Ministry of Finance holds the view that a disposal (*Veräußerung*) (and, as a consequence, a tax loss resulting from such disposal) shall not be recognized if (i) the sales price does not exceed the actual transaction cost or (ii) the level of transaction costs is restricted because of a mutual agreement that the transaction costs are calculated by subtracting a certain amount from the transaction price. This view has however been challenged by German lower fiscal courts.

Withholding Tax

If the Securities are held in a custody with or administrated by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank (the "Disbursing Agent"), the flat tax at a rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax) will be withheld by the Disbursing Agent on interest payments and the excess of the proceeds from the sale, assignment or redemption (after the deduction of expenses directly and factually related to the sale, assignment or redemption) over the acquisition costs for the Securities (if applicable converted into Euro terms on the basis of the foreign exchange rates as of the acquisition date and the sale, assignment or redemption date respectively). In the case of interest and capital gains received after

31 December 2014, church tax is collected for the Private Investor by way of withholding as a standard procedure unless the Private Investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

The Disbursing Agent will provide for the set-off of losses with current investment income including capital gains from other securities. If, in the absence of sufficient current investment income derived through the same Disbursing Agent, a set-off is not possible, the holder of the Securities may – instead of having a loss carried forward into the following year – file an application with the Disbursing Agent until 15 December of the current fiscal year for a certification of losses in order to set-off such losses with investment income derived through other institutions in the holder's personal income tax return.

If custody has changed since the acquisition and the acquisition data is not proved as required by Sec. 43a para. 2 German Income Tax Act or not permitted to be proved, the flat tax rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax) will be imposed on an amount equal to 30 per cent. of the proceeds from the sale, assignment or redemption of the Securities. In case of Securities issued as capital claims which are not securitized in the form of bearer or registered notes (*Inhaber- oder Orderschuldverschreibungen*) the flat tax will be withheld on the investment yield in full without deduction.

In the course of the tax withholding provided for by the Disbursing Agent foreign taxes may be credited in accordance with the German Income Tax Act. In case of Securities issued as unsecured debt, the Issuer, instead of the Disbursing Agent, will be obliged to withhold the flat tax.

If the Securities are not kept in a custodial account with a Disbursing Agent, the flat tax will – by way of withholding – apply on interest paid by a Disbursing Agent upon presentation of a coupon (whether or not presented with the Security to which it appertains) to a holder of such coupon (other than a non-German bank or financial services institution) (*Tafelgeschäft*). In this case proceeds from the sale, assignment or redemption of the Securities will also be subject to the withholding of the flat tax.

In general, no flat tax will be levied if the holder of a Security filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent (in the maximum amount of the standard lump sum of 801 Euro (1,602 Euro for married couples filing jointly)) to the extent the income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no flat tax will be deducted if the holder of the Security has submitted to the Disbursing Agent a valid certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the competent tax office.

For Private Investors the withheld flat tax is, in general, definitive. Exceptions apply e.g., if and to the extent the actual investment income exceeds the amount which was determined as the basis for the withholding of the flat tax by the Disbursing Agent. In such case, the exceeding amount of investment income must be included in the Private Investor's income tax return and will be subject to the flat tax in the course of the assessment procedure. According to the decree of the German Federal Ministry of Finance dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017) however, any exceeding amount of not more than 500 Euro per assessment period will not be claimed on grounds of equity, provided that no other reasons for an assessment according to Sec. 32d para. 3 German Income Tax Act exist. Further, Private Investors may request that their total investment income, together with their other income, be subject to taxation at their personal, progressive tax rate rather than the flat tax rate, if this results in a lower tax liability. According to Sec. 32d para. 2 German Income Tax Act the flat tax rate is also not available in situations where an abuse of the flat tax rate is assumed (e.g. "back-to-back" financing). In order to prove such investment income and the withheld flat tax thereon the investor may request a respective certificate in officially required form from the Disbursing Agent.

Investment income not subject to the withholding of the flat tax (e.g. since there is no Disbursing Agent) must be included into the personal income tax return and will be subject to the flat tax rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax), unless the investor requests the investment income to be subject to taxation at lower personal, progressive

income tax rate or the investment income is not subject to the flat tax rate according to Sec. 32d para. 2 no. 1 German Income Tax Act. Foreign taxes on investment income may be credited in accordance with the German Income Tax Act.

If the Issuer is, or is deemed to be, resident in Germany for tax purposes and if, further, the Securities qualify as hybrid instruments (for example, silent partnership, profit participating notes, jouissance rights (*Genussrechte*)), German withholding tax has to be imposed irrespective of where the Securities are held in custody.

The Issuer will not be obliged to make any payments of additional amounts to holders of Securities in respect of such withholding or deduction (see Condition 7 of the Terms and Conditions of the Instruments and Condition 7 of the Terms and Conditions of the Pfandbriefe). Non-German holders of Securities may be restricted in applying for a refund of or a credit for withholding tax, subject to – *inter alia* – the tax law of the country where the respective non-German Investor is resident of.

Business Investors

Interest payable on the Securities to persons holding the Securities as business assets ("Business Investors") who are tax residents of Germany (i.e. Business Investors whose residence, habitual abode, statutory seat or place of effective management and control is located in Germany) and capital gains, including the original issue discount of the Securities and Accrued Interest, if any, from the sale, assignment or redemption of the Securities are subject to income tax at the applicable personal, progressive income tax rate or, in case of corporate entities, to corporate income tax at a uniform 15 per cent. tax rate (in each case plus solidarity surcharge at a rate of 5.5 per cent. on the tax payable; and, in case where such income is subject to personal, progressive income tax, plus church tax, if applicable). Such interest payments and capital gains may also be subject to trade tax if the Securities form part of the property of a German trade or business. Losses from the sale, assignment or redemption of the Securities, subject to certain exceptions, are generally recognized for tax purposes.

Withholding tax, if any, including solidarity surcharge thereon, is credited as a prepayment against the Business Investor's corporate or personal, progressive income tax liability and the solidarity surcharge in the course of the tax assessment procedure, i.e. the withholding tax is not definitive. Any potential surplus will be refunded. However, in general and subject to certain further requirements, no withholding deduction will apply on capital gains from the sale, assignment or redemption of the Securities and certain other income if (i) the Securities are held by a corporation, association or estate in terms of Sec. 43 para 2 sentence 3 no. 1 German Income Tax Act or (ii) the proceeds from the Securities qualify as income of a domestic business and the investor notifies this to the Disbursing Agent by use of the required official form according to Sec. 43 para 2 sentence 3 no. 2 German Income Tax Act (*Erklärung zur Freistellung vom Kapitalertragsteuerabzug*).

Foreign taxes may be credited in accordance with the German Income Tax Act. Alternatively, foreign taxes may also be deducted from the tax base for German income tax purposes.

Non-residents

Interest payable on the Securities and capital gains, including the original issue discount and Accrued Interest, if any, are not subject to German taxation, unless (i) the Securities form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the holder of the Securities, (ii) the interest income otherwise constitutes German-source income or (iii) the Securities are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the sale, assignment or redemption of the Securities are paid by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank upon presentation of a coupon to a holder of such coupon (other than a non-German bank or financial services institution) (*Tafelgeschäft*). In the cases (i), (ii) and (iii) a tax regime similar to that explained above under "Tax Residents" applies.

Non-residents of Germany are, as a rule, exempt from German withholding tax on interest and the solidarity surcharge thereon, even if the Securities are held in custody with a Disbursing Agent. However, where the investment income is subject to German taxation as set forth in the preceding paragraph and the Securities are held in a custodial account with a Disbursing Agent or in case of a *Tafelgeschäft*, flat tax is levied as explained above under "Tax Residents".

The withholding tax may be refunded based upon an applicable tax treaty or German national tax law.

Particularities of Securities with a negative yield

Holders of the Securities will only realize a taxable capital gain if they receive, upon a disposal of the Securities, an amount in excess of the issue price (or the purchase price they paid for the Securities).

Contrary thereto, holders of the Securities who subscribe the Securities at the issue price and hold the Securities until their final maturity will realize a loss. The tax treatment of such losses is not entirely clear.

If the Securities are held by tax residents as private assets, recently published statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by private investors arguably imply that such losses cannot be fully deducted; such losses are rather treated as expenses in connection with investment income and, are, consequently not tax-deductible except for the standard lump sum of € 801 (€ 1,602 for married couples filing jointly).

If the Securities are held by tax residents as business assets, arguably such losses are generally tax deductible.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to the Securities will arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Securities are not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Securities. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany. It is intended to introduce a financial transaction tax. However, it is unclear if and in what form such tax will be actually introduced.

EU-Residents

The EU Savings Directive (for further details see below "Repeal of the EU Savings Tax Directive – General") has been repealed as of 1 January 2016 (1 January 2017 in the case of Austria).

The Council of the European Union has adopted Directive 2014/107/EU (the "**Amending Cooperation Directive**"), amending Directive 2011/16/EU on administrative cooperation in the field of taxation so as to introduce an extended automatic exchange of information regime in accordance with the Global Standard released by the OECD Council in July 2014. Germany has implemented the Amending Cooperation Directive by means of a Financial Account Information Act (*Finanzkonten-Informationsaustauschgesetz, FKAustG*) according to which it will provide information on financial accounts to EU Member States and certain other states as of 1 January 2016.

Luxembourg Taxation

The following is a general description of certain Luxembourg tax considerations relating to the Securities. It specifically contains information on taxes on the income from the Securities withheld at source and provides an indication as to whether the Issuer assumes responsibility for the withholding

of taxes at the source. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in Luxembourg or elsewhere. Prospective purchasers of the Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Securities payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of Luxembourg. This overview is based upon the law as in effect on the date of this Base Prospectus. The information contained within this section is limited to withholding taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Securities.

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Securities can be made free of withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein in accordance with applicable law, subject however to the application of the Luxembourg law of December 23, 2005 as amended introducing a final tax on certain payments of interest made to certain Luxembourg resident individuals (the "**Law**").

Payment of interest or similar income (within the meaning of the Law) on debt instruments made or deemed made by a paying agent (within the meaning of the Law) established in Luxembourg to or for the benefit of an individual resident of Luxembourg who is not a tax resident of another state and who is the beneficial owner of such payment may be subject to a final tax at a rate of 20%. Such final tax will be in full discharge of income tax if the Luxembourg resident individual beneficial owner acts in the course of the management of his/her private wealth. Responsibility for the withholding and payment of the tax lies with the Luxembourg paying agent.

An individual beneficial owner of interest or similar income (within the meaning of the Law) who is a resident of Luxembourg and acts in the course of the management of his private wealth may opt for a final tax of 20% when he receives or is deemed to receive such interest or similar income from a paying agent established in another EU Member State or in a Member State of the EEA which is not an EU Member State. Responsibility for the declaration and the payment of the 20% final tax is assumed by the individual resident beneficial owner of interest.

Luxembourg Taxation - Automatic Exchange of Information

The Organization for Economic Co-operation and Development ("**OECD**") has developed a single global Standard for Automatic Exchange of Financial Account Information in Tax Matters to achieve a comprehensive and multilateral automatic exchange of information on a global basis. On 9 December 2014, the European Council of Economic and Financial Affairs adopted Directive 2014/107/EU amending the Directive on Administrative Cooperation in the Field of Taxation 2011/16/EU (the "**DAC**") implementing the aforementioned Standard among the Member States by enlarging the scope of the mandatory and automatic exchange of information ("**AEI**") between Member States' tax administrations with effect as from the 1st of January 2016 (2017 in Austria). The DAC was implemented into Luxembourg law by the law of 18 December 2015 on the automatic exchange of financial account information in the field of taxation.

The revised DAC requires Luxembourg Financial Institutions ("**FIs**"), broadly defined, including investment funds and custodian institutions, to report information concerning direct account holders and controlling persons of passive non financial entities, who are resident in another E.U. Member State, and information concerning their account at stake and the payments they received to the FI's tax authority. The additional information is related to interest, dividends, and other income from assets held by a custodial institution, sales and redemption proceeds from financial assets, as well as financial information such as aggregated annual accounts data. FIs are required to identify tax residency of account holders and investors and to annually report financial account information as from 1 January 2016.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within their jurisdiction to, or collected by such person for, an individual resident in a Member State. In addition, the Member States have entered into reciprocal provision of information arrangements or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such person for, an individual resident in one of those territories. Some of those measures have been revised to be aligned with the DAC and other such measures may be similarly revised in the future.

Investors should inform themselves of, and where appropriate take advice on, the impact of the DAC on their investment.

Singapore Taxation

Interest and other payments in respect of Securities issued by LBBW

Under section 12(6) of the Income Tax Act (Chapter 134) of Singapore (the "**Income Tax Act**"), the following payments are deemed to be derived from Singapore:

- (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore, except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore or (ii) deductible against any income accruing in or derived from Singapore; or
- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore (hereinafter 'section 12(6) payments').

If section 12(6) payments are liable to be paid to persons not known to be resident in Singapore, tax is required to be withheld at the rate of 15 per cent (or reduced to a lower rate if an applicable tax treaty so provides). However with effect from 17 February 2012, pursuant to section 45I of the Income Tax Act, and except in the case where the Comptroller of Income Tax finds that the payment is made in connection with a tax avoidance arrangement within the meaning of section 33(1), the requirement to withhold tax on payments to non-residents does not apply if the section 12(6) payments is liable to be made by specified entities, which is defined to include a bank licensed under the Banking Act (Cap. 19) (as is the case with LBBW Singapore Branch provided that the Securities are issued by LBBW acting through its branch in Singapore) and if the payment is liable to be made:

- (a) at any time during the period from 17 February 2012 to 31 March 2021 (both dates inclusive) (referred to as the 'relevant period') under a contract which took effect before 17 February 2012; a contract which was extended or renewed, where the extension or renewal took effect before 17 February 2012; or a debt security which was issued before 17 February 2012;
- (b) under a contract which took effect on a date which falls within the relevant period;
- (c) under a contract which was extended or renewed where –
 - (i) the extension or renewal took effect on a date which falls within the relevant period; and

- (ii) the payment is made on or after the date on which such extension or renewal took effect; or
- (d) under a debt security which was issued on a date which falls within the relevant period.

Permanent establishments in Singapore of non-resident persons are required to declare such payments in their annual income tax returns and assessed to tax on such payments (unless specifically exempt from tax).

Certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including:

- (a) interest from debt securities derived on or after 1 January 2004;
- (b) discount income (not including discount income arising from secondary trading) from debt securities derived on or after 17 February 2006; and
- (c) prepayment fee, redemption premium and break cost from debt securities derived on or after 15 February 2007

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession in Singapore.

Capital Gains Tax

There is no capital gains tax in Singapore. Therefore, gains in the nature of capital made from the sale of Securities will not be taxable in Singapore. However, any gains from the sale of the Securities will be viewed as being on revenue account and taxable if they are gains accruing in or derived from Singapore in respect of gains or profits from any trade, business, profession or vocation carried on by that person.

United States Federal Income Taxation

The following is an overview of the principal U.S. federal income tax consequences of the acquisition, ownership, disposition and retirement of Securities by a holder thereof. This overview does not address the U.S. federal income tax consequences of every type of Security which may be issued under the Programme, and the relevant Final Terms will contain additional or modified disclosure concerning the material U.S. federal income tax consequences relevant to such type of Security as appropriate. This overview only applies to Registered Instruments held as capital assets and does not address, except as set forth below, aspects of U.S. federal income taxation that may be applicable to holders that are subject to special tax rules, such as financial institutions, insurance companies, real estate investment trusts, regulated investment companies, grantor trusts, tax-exempt organisations, dealers or traders in securities or currencies, or to holders that will hold a Security as part of a position in a straddle or as part of a hedging, conversion or integrated transaction for U.S. federal income tax purposes or that have a functional currency other than the U.S. dollar. Moreover, this overview does not address the U.S. federal estate and gift tax or alternative minimum tax consequences of the acquisition, ownership or retirement of Securities and does not address the U.S. federal income tax treatment of holders that do not acquire Securities as part of the initial distribution at their initial issue price.

This overview is based on the Internal Revenue Code of 1986, as amended, existing and proposed Treasury Regulations, administrative pronouncements and judicial decisions, each as available and in effect on the date hereof. All of the foregoing are subject to change, possibly with retroactive effect, or differing interpretations which could affect the tax consequences described herein. Any special U.S. federal income tax considerations relevant to a particular issue of the Securities will be provided in the relevant Final Terms.

For purposes of this description, a U.S. Holder is a beneficial owner of Securities who for U.S. federal income tax purposes is (i) a citizen or resident of the United States; (ii) a corporation (or entity treated as a corporation for U.S. federal income tax purposes) created or organised in or under the laws of the United States or any State thereof, including the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (iv) a trust (1) that validly elects to be treated as a United States person for U.S. federal income tax purposes or (2)(a) the administration over which a U.S. court can exercise primary supervision and (b) all of the substantial decisions of which one or more United States persons have the authority to control.

If a partnership (or any other entity treated as a partnership for U.S. federal income tax purposes) holds Securities, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such partner or partnership should consult its own tax advisor as to its consequences.

A Non-U.S. Holder is a beneficial owner of Securities other than a U.S. Holder or a partnership (or an entity treated as a partnership for U.S. federal income tax purposes).

You should consult your own tax advisor with respect to the U.S. federal, state, local and foreign tax consequences of acquiring, owning or disposing of Securities.

Bearer Instruments are not being offered to U.S. Holders. A U.S. Holder who owns a Bearer Instrument may be subject to limitations under United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the U.S Internal Revenue Code.

Characterisation of the Securities

Whether a security is treated as debt (and not equity) for U.S. federal income tax purposes is an inherently factual question and no single factor is determinative. Except as noted below, the Issuer intends to treat the Securities as indebtedness for U.S. federal income tax purposes, although no opinions have been sought, and no assurances can be given, with respect to such treatment. The following discussion assumes that such treatment will be respected. If the treatment of the Securities as indebtedness is not upheld, they may be treated as equity in a passive foreign investment company for U.S. federal income tax purposes. If so, a U.S. Holder of the Securities could be subject to significant adverse tax consequences, including, among others, imputed interest charges together with tax calculated at ordinary income rates on any gain from the sale or other disposition of the Securities.

The following discussion does not address the U.S. federal income tax consequences of an investment in contingent payment debt instruments, Open End Instruments or Subordinated Notes. In the event the Issuer issues contingent payment debt instruments, Open End Instruments or Subordinated Notes the relevant Final Terms will describe the material U.S. federal income tax consequences thereof.

U.S. Holders

Interest

Except as set forth below, interest paid on a Security, whether payable in U.S. Dollars or a currency, composite currency or basket of currencies other than U.S. Dollars (a "foreign currency"), including any additional amounts, will be includible in a U.S. Holder's gross income as ordinary interest income in accordance with the U.S. Holder's usual method of tax accounting. In addition, interest on Securities issued by the Issuer or through a non-U.S. branch of the Issuer will generally be treated as foreign source income for U.S. federal income tax purposes and interest on Securities issued by the New York branch of the Issuer will generally be treated as U.S. source income for U.S. federal income tax purposes.

Effect of Non-U.S. Withholding Taxes

Subject to certain limitations, a U.S. Holder will generally be entitled to a credit against its U.S. federal income tax liability, or a deduction in computing its U.S. federal taxable income, for non-U.S. income taxes withheld by the Issuer. For purposes of the foreign tax credit limitation, foreign source income is classified in one of two "baskets", and the credit for foreign taxes on income in any basket is limited to U.S. federal income tax allocable to that income. Interest and OID (defined below) should generally constitute "passive category income", or in the case of certain U.S. Holders, "general category income". Since a U.S. Holder may be required to include OID on the Securities in its gross income in advance of any withholding of non-U.S. income taxes from payments attributable to the OID (which would generally occur when the Security is repaid or redeemed), a U.S. Holder may not be entitled to a credit or deduction for these non-U.S. taxes in the year the OID is included in the U.S. Holder's gross income, and may be limited in its ability to credit or deduct in full the non-U.S. taxes in the year those taxes are actually withheld by the Issuer. Prospective purchasers should consult their tax advisers concerning the U.S. foreign tax credit implications of the payment of these non-U.S. taxes.

Foreign Currency Denominated Interest

Any interest paid in a foreign currency will be included in the gross income of a U.S. Holder in an amount equal to the U.S. dollar value of the foreign currency, including the amount of any applicable withholding tax thereon, regardless of whether the foreign currency is converted into U.S. dollars. Generally, a U.S. Holder that uses the cash method of tax accounting will determine such U.S. dollar value using the spot rate of exchange on the date of receipt. Generally, a U.S. Holder that uses the accrual method of tax accounting will determine the U.S. dollar value of accrued interest income using the average rate of exchange for the accrual period or, at the U.S. Holder's election, at the spot rate of exchange on the last day of the accrual period or the spot rate on the date of receipt, if that date is within five days of the last day of the accrual period. A U.S. Holder that uses the accrual method of accounting for tax purposes will recognize foreign currency gain or loss on the receipt of an interest payment if the exchange rate in effect on the date payment is received differs from the rate applicable to an accrual of that interest.

Original Issue Discount

U.S. Holders of Securities issued with original issue discount ("OID") will be subject to special tax accounting rules, as described in greater detail below. U.S. Holders of Securities issued with OID (including cash basis taxpayers) should be aware that, as described in greater detail below, they generally must include OID in income for United States federal income tax purposes as it accrues, in advance of the receipt of cash attributable to that income. However, U.S. Holders of such Securities generally will not be required to include separately in income cash payments received on the Securities, even if denominated as interest, to the extent such payments do not constitute qualified stated interest (as defined below). Securities issued with OID will be referred to as "Original Issue Discount Securities". Notice will be given in the relevant Final Terms when the Issuer determines that a particular Security will be an Original Issue Discount Security.

Additional rules applicable to Original Discount Securities that are denominated in or determined by reference to a currency other than the U.S. dollar are described under "Foreign Currency Discount Securities" below.

For U.S. federal income tax purposes, a Security, other than a Security with a term of one year or less (a "**short-term Security**"), will be treated as issued at an original issue discount (a "Discount Security") if the excess of the Security's "stated redemption price at maturity" over its issue price equals or exceeds a de minimis amount (0.25% of the Security's stated redemption price at maturity multiplied by the number of complete years to its maturity (or, in the case of a Security that provides for payments other than qualified stated interest before maturity, its weighted average maturity)). The "issue price" of each Security in a particular offering will be the first price at which a substantial

amount of that particular offering is sold (other than to an underwriter, broker, agent or wholesaler). The term "qualified stated interest" means stated interest that is unconditionally payable in cash or in property (other than debt instruments of the issuer) at least annually at a single fixed rate or, subject to certain conditions, based on one or more interest indices. Interest is payable at a single fixed rate only if the rate appropriately takes into account the length of the interval between payments. Notice will be given in the relevant Final Terms when we determine that a particular Security will bear interest that is not qualified stated interest.

In the case of a Security issued with de minimis OID, the U.S. Holder generally must include such de minimis OID in income as stated principal payments on the Securities made in proportion to the stated principal amount of the Security. Any amount of de minimis OID that has been included in income will be treated as capital gain.

Certain of the Securities may be redeemed prior to their maturity. Original Issue Discount Securities containing such features may be subject to rules that differ from the general rules discussed herein. Persons considering the purchase of Original Issue Discount Securities with such features should carefully examine the relevant Final Terms and should consult their own tax advisors with respect to such features since the tax consequences with respect to OID will depend, in part, on the particular terms and features of the Securities.

U.S. Holders of Original Issue Discount Securities with a maturity upon issuance of more than one year must, in general, include OID in income in advance of the receipt of some or all of the related cash payments. The amount of OID includible in income by the initial U.S. Holder of an Original Issue Discount Security is the sum of the "daily portions" of OID with respect to the Security for each day during the taxable year or portion of the taxable year in which such U.S. Holder held such Security ("accrued OID"). The daily portion is determined by allocating to each day in any "accrual period" a pro rata portion of the OID allocable to that accrual period. The "accrual period" for an Original Issue Discount Security may be of any length and may vary in length over the term of the Security, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs on the first day or the final day of an accrual period. The amount of OID allocable to any accrual period is an amount equal to the excess, if any, of (a) the product of the Security's adjusted issue price at the beginning of such accrual period and its yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of any qualified stated interest allocable to the accrual period. OID allocable to a final accrual period is the difference between the amount payable at maturity (other than a payment of qualified stated interest) and the adjusted issue price at the beginning of the final accrual period. Special rules will apply for calculating OID for an initial short accrual period. The "adjusted issue price" of a Security at the beginning of any accrual period is equal to its issue price increased by the accrued OID for each prior accrual period (determined without regard to the amortisation of any acquisition or bond premium, as described below) and reduced by any payments made on such Security (other than qualified stated interest) on or before the first day of the accrual period. Under these rules, a U.S. Holder will have to include in income increasingly greater amounts of OID in successive accrual periods.

In the case of an Original Issue Discount Security that is a Floating Rate Security, both the "yield to maturity" and "qualified stated interest" will be determined solely for purposes of calculating the accrual of OID as though the Security will bear interest in all periods at a fixed rate generally equal to the rate that would be applicable to interest payments on the Security on its date of issue or, in the case of certain Floating Rate Securities, the rate that reflects the yield to maturity that is reasonably expected for the Security. Additional rules may apply if interest on a Floating Rate Security is based on more than one interest index or if the principal amount of the Security is indexed in any manner. Persons considering the purchase of Floating Rate Securities should carefully examine the relevant Final Terms and should consult their own tax advisors regarding the U.S. federal income tax consequences of the holding and disposition of such Securities.

U.S. Holders may elect to treat all interest on any Security as OID and calculate the amount includible in gross income under the constant yield method described above. For the purposes of this election, interest includes stated interest, acquisition discount, OID, de minimis OID, market discount, de minimis market discount and unstated interest, as adjusted by any amortisable bond premium or acquisition premium. U.S. Holders should consult their own tax advisors about this election.

Short-Term Securities

In the case of Securities having a term of one year or less ("Short-Term Securities"), all payments (including all stated interest) will be included in the stated redemption price at maturity and, thus, U.S. Holders generally will be taxable on the discount in lieu of stated interest. The discount will be equal to the excess of the stated redemption price at maturity over the issue price of a Short-Term Security, unless the U.S. Holder elects to compute this discount using tax basis instead of issue price. In general, individuals and certain other cash method U.S. Holders of a Short-Term Security are not required to include accrued discount in their income currently unless they elect to do so (but may be required to include any stated interest in income as it is received). U.S. Holders that report income for United States federal income tax purposes on the accrual method and certain other U.S. Holders are required to accrue discount on such Short-Term Securities (as ordinary income) on a straight-line basis, unless an election is made to accrue the discount according to a constant yield method based on daily compounding. In the case of a U.S. Holder that is not required, and does not elect, to include discount in income currently, any gain realized on the sale, exchange or retirement of the Short-Term Security will generally be ordinary income to the extent of the discount accrued through the date of sale, exchange or retirement. In addition, a U.S. Holder that does not elect to include currently accrued discount in income may be required to defer deductions for a portion of the U.S. Holder's interest expense with respect to any indebtedness incurred or continued to purchase or carry such Securities.

Foreign Currency Discount Securities

OID for any accrual period on a Discount Security that is denominated in, or determined by reference to, a foreign currency will be determined for any accrual period in the foreign currency and then translated into U.S. Dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder, as described under "–Foreign Currency Denominated Interest." Upon receipt of an amount attributable to OID (whether in connection with a payment of interest or the sale or retirement of a Security), a U.S. Holder will recognise foreign currency gain or loss in an amount determined in the same manner as interest income received by a holder on the accrual basis, as described above in "–Foreign Currency Denominated Interest."

Securities Purchased at a Premium

A U.S. Holder that purchases a Security for an amount in excess of the sum of all amounts payable on the Security after the purchase date other than qualified stated interest will be considered to have purchased the Security at a "premium." A U.S. Holder generally may elect to amortise the premium over the remaining term of the Security on a constant yield method as an offset to interest when includible in income under the U.S. Holder's regular accounting method. In the case of a Security that is denominated in, or determined by reference to, a foreign currency, bond premium will be computed in units of foreign currency, and amortisable bond premium will reduce interest income in units of the foreign currency. At the time amortised bond premium offsets interest income, exchange gain or loss (taxable as ordinary income or loss) is realized measured by the difference between exchange rates at that time and at the time of the acquisition of the Securities. Any election to amortise bond premium shall apply to all bonds (other than bonds the interest on which is excludable from gross income) held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and is irrevocable without the consent of the IRS. Bond premium on a Security held by a U.S. Holder that does not make such an election will decrease the gain or increase the loss otherwise recognized on disposition of the Security. Special rules limit the amortization of

bond premium in the case of Securities subject to certain options, including callable Securities U.S. Holders should consult their tax advisers about these rules if applicable.

Sale, Exchange or Retirement

A U.S. Holder's tax basis in a Security generally will be its U.S. dollar cost (as defined herein) increased by the amount of any OID included in the U.S. Holder's income with respect to the Security and reduced by (i) the amount of any payments that are not qualified stated interest payments, and (ii) the amount of any amortisable bond premium applied to reduce interest on the Security. The U.S. dollar cost of a Security purchased with a foreign currency generally will be the U.S. dollar value of the purchase price on the date of purchase or, in the case of Securities traded on an established securities market, as defined in the applicable Treasury Regulations, that are purchased by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects), on the settlement date for the purchase.

A U.S. Holder generally will recognise gain or loss on the sale or retirement of a Security equal to the difference between the amount realized on the sale or retirement (less any accrued but unpaid interest, which will be taxable as such) and the tax basis of the Security. The amount realized on a sale or retirement for an amount in foreign currency will be the U.S. dollar value of such amount on the date of sale or retirement or, in the case of Securities traded on an established securities market, as defined in the applicable Treasury Regulations, sold by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects), on the settlement date for the sale. Gain or loss recognized on the sale or retirement of a Security (other than gain or loss that is attributable to OID, or to changes in exchange rates, which will be treated as ordinary income or loss) will be capital gain or loss and will be long-term capital gain or loss if the Security was held for more than one year.

Gain or loss recognized by a U.S. Holder on the sale or retirement of a Security that is attributable to changes in exchange rates will be treated as ordinary income or loss. However, exchange gain or loss is taken into account only to the extent of total gain or loss realized on the transaction. Gain or loss realized by a U.S. Holder on the sale or retirement of a Security generally will be U.S. source income or loss. Prospective investors should consult their tax advisers as to the foreign tax credit implications of such sale or retirement of Securities.

Sale or Exchange of Foreign Currency

Foreign currency received as interest on a Security or on the sale or retirement of a Security will have a tax basis equal to its U.S. dollar value at the time such interest is received or at the time of such sale or retirement. Foreign currency that is purchased generally will have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss recognized on a sale or other disposition of a foreign currency (including its use to purchase Securities or upon exchange for U.S. Dollars) will be ordinary income or loss.

Dual Currency Securities

U.S. Holders of Securities that are denominated in more than one currency or that have one or more non-currency contingencies and are denominated in either one foreign currency or more than one currency will be subject to special rules applicable to "Multi-Currency Debt Securities." A U.S. Holder generally would be required to apply the "noncontingent bond method" in the Multi-Currency Debt Security's denomination currency, which for this purpose would be the Multi-Currency Debt Security's predominant currency as determined by the Issuer. A description of the principal U.S. federal income tax consideration relevant to holders of Dual Currency Securities, including specification of the predominant currency, will be set forth, if required, in the relevant Final Terms.

Other Securities

A description of the principal U.S. federal income tax considerations relevant to U.S. Holders of other types of Securities that the Issuer, the Trustee and any Dealer or Dealers may agree to issue under the Programme will be set forth, if required, in the relevant Final Terms.

Reportable Transaction Reporting

Under certain U.S. Treasury Regulations, U.S. Holders that participate in "reportable transactions" (as defined in the regulations) must attach to their U.S. federal income tax returns a disclosure statement on Form 8886. U.S. Holders should consult their own tax advisors as to the possible obligation to file Form 8886 with respect to the ownership or disposition of the Securities, or any related transaction, including without limitation, the disposition of any non-U.S. currency received as interest or as proceeds from the sale or other disposition of the Securities.

Foreign Asset Reporting

Certain U.S. Holders who are individuals are required to report information relating to an interest in the Securities, subject to certain exceptions (including an exception for Securities held in accounts maintained by U.S. financial institutions). U.S. Holders are urged to consult their tax advisors regarding their information reporting obligations, if any, with respect to their ownership and disposition of the Securities.

Medicare Tax

A U.S. Holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, is subject to a 3.8% tax on the lesser of (1) such U.S. Holder's "net investment income" (or undistributed "net investment income" in the case of estates and trusts) for the relevant taxable year and (2) the excess of such U.S. Holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances). A U.S. Holder's net investment income will generally include its gross interest income and its net gains from the disposition of the Securities, unless such interest or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a U.S. Holder that is an individual, estate or trust, you are urged to consult your tax advisor regarding the applicability of this tax to your income and gains in respect of your investment in the Securities.

Non-U.S. Holders

Interest or OID from the Issuer or the New York branch of the Issuer

Under U.S. federal income tax law currently in effect, subject to the discussions below under the captions "Interest or OID from the New York branch of the Issuer", "U.S. Backup Withholding Tax and Information Reporting" and "FATCA", and except as otherwise indicated in the applicable Final Terms, payments of interest (including OID) on a Security to a Non-U.S. Holder generally will not be subject to U.S. federal income tax unless the income is effectively connected with the conduct by such Non-U.S. Holder of a trade or business in the United States.

Interest or OID from the New York branch of the Issuer

Interest paid from the New York branch of the Issuer that is not effectively connected with a U.S. trade or business will not be subject to U.S. federal income tax and withholding of U.S. federal income tax will not be required on that payment if you:

- (i) are not a "10-percent shareholder" (within the meaning of Sections 881(c)(3)(B) and 871(h)(3)(B) of the Code) of the Issuer;
- (ii) are not a controlled foreign corporation related to Issuer;
- (iii) are not a bank receiving interest on a loan entered into in the ordinary course of business within the meaning of Section 881(c)(3)(A) of the Code; and
- (iv) certify to us, our paying agent, or the person who would otherwise be required to withhold U.S. federal income tax, generally on IRS Form W-8BEN or W-8BEN-E or

applicable substitute form, under penalties of perjury, that you are not a U.S. person for U.S. federal income tax purposes and provide your name and address.

Interest that does not satisfy the foregoing exception will be subject to U.S. federal withholding tax, currently at a rate of 30%, unless:

- (i) such tax is eliminated or reduced under an applicable United States income tax treaty and the Non-U.S. Holder provides a properly executed IRS Form W-8BEN establishing such reduction or exemption from withholding tax on interest; or
- (ii) such interest is effectively connected with a U.S. trade or business of the Non-U.S. Holder and the Non-U.S. Holder provides a properly executed IRS Form W-8ECI, W-8BEN or W-8BEN-E claiming an exemption from withholding tax on such interest.

A Non-U.S. Holder whose interest income is effectively connected with a U.S. trade or business (or in the case of an applicable treaty, is attributable to a permanent establishment or fixed base maintained in the United States) of the Non-U.S. Holder will be subject to regular U.S. federal income tax on such interest in generally the same manner as if it were a U.S. holder. A corporate Non-U.S. Holder may also be subject to an additional U.S. branch profits tax at a rate of 30% on its effectively connected earnings and profits attributable to such interest (unless reduced or eliminated by an applicable income tax treaty).

Sale, Exchange or Retirement of Securities

Subject to the discussion below under the captions "U.S. Backup Withholding Tax and Information Reporting" and "FATCA" any gain realized by a Non-U.S. Holder upon the sale, exchange or retirement of a Security generally will not be subject to U.S. federal income tax, unless (i) the gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business in the United States or (ii) in the case of any gain realized by an individual Non-U.S. Holder, such Non-U.S. Holder is present in the United States for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met.

U.S. Backup Withholding Tax and Information Reporting

A backup withholding tax and information reporting requirements apply to certain payments of principal of, and interest on, an obligation and to proceeds of the sale or redemption of an obligation, to certain holders of Securities that are United States persons. Information reporting generally will apply to payments of principal of, and interest on, an obligation, and to proceeds from the sale or redemption of, an obligation made within the U.S. to a holder (other than an exempt recipient, a payee that is not a U.S. person that provides an appropriate certification and certain other persons). The payor will be required to withhold backup withholding tax on payments made within the United States on a Security to a holder of a Security that is a United States person, other than an exempt recipient, if the holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with, or establish an exemption from, the backup withholding requirements. Payments within the United States of principal and interest to a holder of a Security that is not a United States person will not be subject to backup withholding tax and information reporting requirements if an appropriate certification is provided by the holder to the payor and the payor does not have actual knowledge or a reason to know that the certificate is incorrect. The backup withholding tax rate is currently 28%.

FATCA

With respect to Instruments issued by LBBW acting through its New York branch, the Issuer may, under certain circumstances, be required pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended and the regulations promulgated thereunder ("**FATCA**") to withhold U.S. tax at a rate of 30.00 per cent. on payments of interest made at any time and payments of principal and the gross proceeds from the sale, exchange or redemption of the Instruments made on or after 1 January 2019 to foreign financial institutions unless the payee foreign financial institution certifies that it is eligible to receive payments from FATCA withholding on IRS Form W-8BEN-E (or

other applicable form). Payments of the foregoing amounts made to certain non financial foreign entities that do not disclose certain information about any substantial U.S. owners (or certify that they do not have any substantial U.S. owners) in each case on IRS Form W-8BEN-E (or other applicable form) may also be subject to withholding at the rate of 30.00 per cent. under FATCA.

With respect to Instruments issued by a member of LBBW Group other than the New York branch of LBBW after the date that is six months after the date on which the term "foreign passthru payment" is defined in regulations published in the U.S. Federal Register (the "**Passthru Payment Grandfathering Date**") or (b) before that date that are either (i) "significantly modified" for U.S. federal income tax purposes after that date or (ii) constitute a further issue that is not issued pursuant to a qualified reopening for U.S. federal income tax purposes or (c) Open End Instruments issued at any time, the Issuer may under certain circumstances, be required under FATCA to withhold U.S. tax at a rate of 30.00 per cent. on all or a portion of payments of principal and interest which are treated as "passthru payments" made on or after 1 January 2019 to foreign financial institutions unless the payee foreign financial institution certifies that it is eligible to receive payments free of FATCA withholding.

Germany has entered into an intergovernmental agreement (an "IGA") with the United States to help implement FATCA for certain German financial institutions. The Issuer will be required to report certain information on its U.S. account holders to Germany in order (i) to obtain an exemption from FATCA withholding on payments it receives and/or (ii) to comply with any applicable German law. It is not yet certain how the United States and Germany will address withholding on "foreign passthru payments" (which may include payments on Securities (other than Securities issued by the New York branch of the Issuer) or if such withholding will be required at all.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the Instruments as a result of a Holder's failure to comply with FATCA, none of the Issuer, any paying agent or any other person would pursuant to the conditions of the Instruments be required to pay additional amounts as a result of the deduction or withholding of such tax.

The above overview is not intended to constitute a complete analysis of all tax consequences relating to the ownership of Securities. Prospective purchasers of Securities should consult their own tax advisors concerning the tax consequences of their particular situations.

United Kingdom Taxation

The following is an overview of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Securities. It is based on current law and the practice of Her Majesty's Revenue and Customs ("HMRC"), which may be subject to change, sometimes with retrospective effect. The comments do not deal with other United Kingdom tax aspects of acquiring, holding or disposing of Securities. The comments relate only to the position of persons who are absolute beneficial owners of the Securities. Prospective holders of Securities should be aware that the particular terms of issue of any series of Securities as specified in the relevant Final Terms may affect the tax treatment of that and other series of Securities. The following is a general guide for information purposes and should be treated with appropriate caution. Holders of Securities who are in any doubt as to their tax position should consult their professional advisers. Holders of Securities who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal of the Securities are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects of payments in respect of the Securities. In particular, holders of Securities should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Securities even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

Non-UK source interest

Interest on Securities which does not have a United Kingdom source may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax. The location of the source of a payment is a complex matter. It is necessary to have regard to case law and HMRC practice. Case law has established that in determining the source of interest, all relevant factors must be taken into account. HMRC has indicated that, in their view, the most important factors in determining the source of a payment are those which influence where a creditor would sue for payment, and has stated that the place where the Issuer does business, and the place where its assets are located, are the most important factors in this regard; however, HMRC has also indicated that, depending on the circumstances, other relevant factors may include the place where the interest and principal are payable, the method of payment, the governing law of the relevant instrument and the competent jurisdiction for any legal action, the location of any security for the Issuer's obligations under the relevant instrument, and similar factors relating to any guarantee. Interest on Securities will have a United Kingdom source if the Securities are issued by LBBW acting through its London branch, and may have a United Kingdom source if, for example, the Securities are secured on assets situate in the United Kingdom.

UK Securities listed on a recognised stock exchange

Where interest on any Securities has a United Kingdom source, such Securities ("**UK Securities**") will constitute "quoted Eurobonds" provided they carry a right to interest and are and continue to be "listed on a recognised stock exchange". Whilst the UK Securities are and continue to be quoted Eurobonds, payments of interest on the UK Securities may be made without withholding or deduction for or on account of United Kingdom income tax.

Securities will be "listed on a recognised stock exchange" for this purpose if they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the United Kingdom official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000) or they are officially listed, in accordance with provisions corresponding to those generally applicable in EEA states, in a country outside the United Kingdom in which there is a recognised stock exchange.

The Luxembourg Stock Exchange, the Stuttgart Stock Exchange and the Frankfurt Stock Exchange are each a recognised stock exchange for these purposes.

The Issuer's understanding of current HMRC practice is that Securities which are officially listed and admitted to trading on (i) the Main Market of the Luxembourg Stock Exchange; (ii) the Regulated Market (*Regulierter Markt*) of the Frankfurt Stock Exchange or (iii) the Regulated Market (*Regulierter Markt*) of the Stuttgart Stock Exchange may be regarded, in each case, as "listed on a recognised stock exchange" for these purposes.

UK Securities issued by LBBW acting through its London Branch

In addition to the exemption set out above, interest on UK Securities issued by LBBW, London branch may be paid without withholding or deduction for or on account of United Kingdom income tax so long as LBBW, London branch is a "bank" for the purposes of section 878 of the Income Tax Act 2007 and so long as such payments are made by LBBW, London branch in the ordinary course of its business.

All UK Securities

In all cases falling outside the exemptions described above, interest on the UK Securities may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent.) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty or to any other exemption which may apply. However, this withholding will not apply if the relevant interest is paid on Securities with a maturity

date of less than one year from the date of issue and which are not issued under arrangements the effect of which is to render such Securities part of a borrowing with a total term of a year or more.

Provision of Information

Holders of Securities should note that where any interest on Securities is paid to them (or to any person acting on their behalf) by LBBW, London branch or any person in the United Kingdom acting on behalf of the Issuer (a "**paying agent**"), or is received by any person in the United Kingdom acting on behalf of the relevant holder (other than solely by clearing or arranging the clearing of a cheque) (a "**collecting agent**"), then LBBW, London branch, the paying agent or the collecting agent (as the case may be) may, in certain cases, be required to supply to HMRC details of the payment and certain details relating to the holder of Securities (including the holder's name and address). These provisions will apply whether or not the interest has been paid subject to withholding or deduction for or on account of United Kingdom income tax and whether or not the holder of Securities is resident in the United Kingdom for United Kingdom taxation purposes. In certain circumstances, the details provided to HMRC may be passed by HMRC to the tax authorities of certain other jurisdictions.

HMRC have the power to apply the provisions referred to above in certain circumstances, to payments made on redemption of any Securities which constitute "deeply discounted securities" for the purposes of the Income Tax (Trading and Other Income) Act 2005 (or any equivalent successor provisions), but have announced that they will not require this information in respect of such amounts paid on or before 5 April 2017.

For the above purposes, "interest" should be taken, for practical purposes, as including payments made by a guarantor in respect of interest on Securities.

Other Rules Relating to United Kingdom Withholding Tax

1. Securities may be issued at an issue price of less than 100 per cent. of their principal amount. Any discount element on any such Securities will not generally be subject to any United Kingdom withholding tax pursuant to the provisions mentioned above, but may be subject to reporting requirements as outlined above.
2. Where Securities are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax and reporting requirements as outlined above.
3. Where interest has been paid under deduction of United Kingdom income tax, holders of Securities who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.
4. The references to "interest" above mean "interest" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Securities or any related documentation. Where a payment on Securities does not constitute (or is not treated as) interest for United Kingdom tax purposes, and the payment has a United Kingdom source, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment or a manufactured payment for United Kingdom tax purposes (which will be determined by, amongst other things, the terms and conditions specified by the Final Terms of the Securities). In such a case, the payment may fall to be made under deduction of United Kingdom tax (the rate of withholding depending on the nature of the payment), subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.

5. The above description of the United Kingdom withholding tax position assumes that there will be no substitution of the Issuer and does not consider the tax consequences of any such substitution.

Austrian Taxation

This section on taxation contains a brief summary of the Issuer's understanding with regard to certain important principles which are of significance in connection with the purchase, holding or sale of the Securities in Austria. This summary does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal or tax advice. This summary is based on the currently applicable tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential investors in the Securities consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Securities. Tax risks resulting from the Securities (in particular from a potential qualification as equity for tax purposes instead of debt) shall in any case be borne by the investor. For the purposes of the following it is assumed that the Securities are legally and factually offered to an indefinite number of persons.

General remarks

Individuals having a domicile (Wohnsitz) and/or their habitual abode (gewöhnlicher Aufenthalt), both as defined in sec. 26 of the Austrian Federal Fiscal Procedures Act (Bundesabgabenordnung), in Austria are subject to income tax (Einkommensteuer) in Austria on their worldwide income (unlimited income tax liability; unbeschränkte Einkommensteuerpflicht). Individuals having neither a domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; beschränkte Einkommensteuerpflicht).

Corporations having their place of management (Ort der Geschäftsleitung) and/or their legal seat (Sitz), both as defined in sec. 27 of the Austrian Federal Fiscal Procedures Act, in Austria are subject to corporate income tax (Körperschaftsteuer) in Austria on their worldwide income (unlimited corporate income tax liability; unbeschränkte Körperschaftsteuerpflicht). Corporations having neither their place of management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; beschränkte Körperschaftsteuerpflicht).

Both in case of unlimited and limited (corporate) income tax liability Austria's right to tax may be restricted by double taxation treaties.

Income taxation of the Securities

Pursuant to sec. 27(1) of the Austrian Income Tax Act (Einkommensteuergesetz), the term investment income (Einkünfte aus Kapitalvermögen) comprises:

- income from the letting of capital (Einkünfte aus der Überlassung von Kapital) pursuant to sec. 27(2) of the Austrian Income Tax Act, including dividends and interest; the tax basis is the amount of the earnings received (sec. 27a(3)(1) of the Austrian Income Tax Act);
- income from realised increases in value (Einkünfte aus realisierten Wertsteigerungen) pursuant to sec. 27(3) of the Austrian Income Tax Act, including gains from the alienation, redemption and other realisation of assets that lead to income from the letting of capital, zero coupon bonds and broken-period interest; the tax basis amounts to the sales proceeds or the redemption amount minus the acquisition costs, in each case including accrued interest (sec. 27a(3)(2)(a) of the Austrian Income Tax Act); and

- income from derivatives (Einkünfte aus Derivativen) pursuant to sec. 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates (the mere exercise of an option does not trigger tax liability); e.g., in the case of index certificates, the tax basis amounts to the sales proceeds or the redemption amount minus the acquisition costs (sec. 27a(3)(3)(c) of the Austrian Income Tax Act).

Also the withdrawal of the Securities from a securities account (Depotentnahme) and circumstances leading to a restriction of Austria's taxation right regarding the Securities vis-à-vis other countries, e.g. a relocation from Austria (Wegzug), are in general deemed to constitute a sale (cf. sec. 27(6) of the Austrian Income Tax Act). The tax basis amounts to the fair market value minus the acquisition costs (sec. 27a(3)(2)(b) of the Austrian Income Tax Act).

Individuals subject to unlimited income tax liability in Austria holding the Securities as non-business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income from the Securities with an Austrian nexus (inländische Einkünfte aus Kapitalvermögen), basically meaning income paid by an Austrian paying agent (auszahlende Stelle) or an Austrian custodian agent (depotführende Stelle), the income is subject to withholding tax (Kapitalertragsteuer) at a flat rate of 27.5%; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to sec. 97(1) of the Austrian Income Tax Act). In case of investment income from the Securities without an Austrian nexus, the income must be included in the investor's income tax return and is subject to income tax at the flat rate of 27.5%. In both cases upon application the option exists to tax all income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). The acquisition costs must not include ancillary acquisition costs (Anschaffungsnebenkosten; sec. 27a(4)(2) of the Austrian Income Tax Act). Expenses such as bank charges and custody fees must not be deducted (sec. 20(2) of the Austrian Income Tax Act); this also applies if the option to regular taxation is exercised. Sec. 27(8) of the Austrian Income Tax Act, *inter alia*, provides for the following restrictions on the offsetting of losses: negative income from realised increases in value and from derivatives may be neither offset against interest from bank accounts and other non-securitized claims vis-à-vis credit institutions (except for cash settlements and lending fees) nor against income from private foundations, foreign private law foundations and other comparable legal estates (Privatstiftungen, ausländische Stiftungen oder sonstige Vermögensmassen, die mit einer Privatstiftung vergleichbar sind); income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act may not be offset against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to regular taxation); negative investment income not already offset against positive investment income may not be offset against other types of income. The Austrian custodian agent has to effect the offsetting of losses by taking into account all of a taxpayer's securities accounts with the custodian agent, in line with sec. 93(6) of the Austrian Income Tax Act, and to issue a written confirmation to the taxpayer to this effect.

Individuals subject to unlimited income tax liability in Austria holding the Securities as business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income from the Securities with an Austrian nexus the income is subject to withholding tax at a flat rate of 27.5%. While withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must be included in the investor's income tax return (nevertheless income tax at the flat rate of 27.5%). In case of investment income from the Securities without an Austrian nexus, the income must always be included in the investor's income tax return and is subject to income tax at the flat rate of 27.5%. In both cases upon application the option exists to tax all income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). The special tax rate does not apply to income from realised increases in value and income from derivatives if this type of income stems from the respective investor's principal business activity

(sec. 27a(6) of the Austrian Income Tax Act). Expenses such as bank charges and custody fees must not be deducted (sec. 20(2) of the Austrian Income Tax Act); this also applies if the option to regular taxation is exercised. Pursuant to sec. 6(2)(c) of the Austrian Income Tax Act, depreciations to the lower fair market value and losses from the alienation, redemption and other realisation of financial assets and derivatives in the sense of sec. 27(3) and (4) of the Austrian Income Tax Act, which are subject to income tax at the flat rate of 27.5%, are primarily to be offset against income from realised increases in value of such financial assets and derivatives and with appreciations in value of such assets within the same business unit (*Wirtschaftsgüter desselben Betriebes*); only 55% of the remaining negative difference may be offset against other types of income.

Pursuant to sec. 7(2) of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*), corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on income in the sense of sec. 27(1) of the Austrian Income Tax Act from the Securities at a rate of 25%. In the case of income in the sense of sec. 27(1) of the Austrian Income Tax Act from the Securities with an Austrian nexus, the income is subject to withholding tax at a flat rate of 27.5%. However, a 25% rate may pursuant to sec. 93(1a) of the Austrian Income Tax Act be applied by the withholding agent, if the debtor of the withholding tax is a corporation. Such withholding tax can be credited against the corporate income tax liability. Under the conditions set forth in sec. 94(5) of the Austrian Income Tax Act withholding tax is not levied in the first place. Losses from the alienation of the Securities can be offset against other income.

Pursuant to sec. 13(3)(1) in connection with sec. 22(2) of the Austrian Corporate Income Tax Act, private foundations (*Privatstiftungen*) pursuant to the Austrian Private Foundations Act (*Privatstiftungsgesetz*) fulfilling the prerequisites contained in sec. 13(3) and (6) of the Austrian Corporate Income Tax Act and holding the Securities as non-business assets are subject to interim taxation at a rate of 25% on interest income, income from realised increases in value and income from derivatives (*inter alia*, if the latter are in the form of securities). Pursuant to the Austrian tax authorities' view, the acquisition costs must not include ancillary acquisition costs. Expenses such as bank charges and custody fees must not be deducted (sec. 12(2) of the Austrian Corporate Income Tax Act). Interim tax does generally not fall due insofar as distributions subject to withholding tax are made to beneficiaries in the same tax period. In case of investment income from the Securities with an Austrian nexus, the income is in general subject to withholding tax at a flat rate of 27.5%. However, a 25% rate may pursuant to sec. 93(1a) of the Austrian Income Tax Act be applied by the withholding agent, if the debtor of the withholding tax is a corporation. Such withholding tax can be credited against the tax falling due. Under the conditions set forth in sec. 94(12) of the Austrian Income Tax Act withholding tax is not levied.

Individuals and corporations subject to limited (corporate) income tax liability in Austria are taxable on income from the Securities if they have a permanent establishment (*Betriebsstätte*) in Austria and the Securities are attributable to such permanent establishment (cf. sec. 98(1)(3) of the Austrian Income Tax Act, sec. 21(1)(1) of the Austrian Corporate Income Tax Act). In addition, individuals subject to limited income tax liability in Austria are also taxable on interest in the sense of sec. 27(2)(2) of the Austrian Income Tax Act and accrued interest (including from zero coupon bonds) in the sense of sec. 27(6)(5) of the Austrian Income Tax Act from the Securities if the (accrued) interest has an Austrian nexus and if withholding tax is levied on such (accrued) interest. This does not apply to individuals being resident in a state with which automatic exchange of information exists. Interest with an Austrian nexus is interest the debtor of which has its place of management and/or its legal seat in Austria or is an Austrian branch of a non-Austrian credit institution; accrued interest with an Austrian nexus is accrued interest from securities issued by an Austrian issuer (sec. 98(1)(5)(b) of the Austrian Income Tax Act). The Issuer understands that no taxation applies in the case at hand.

Austrian inheritance and gift tax

Austria does not levy inheritance or gift tax.

Certain gratuitous transfers of assets to private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare Vermögensmassen*) are subject to foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Transfer Tax Act (*Stiftungseingangssteuergesetz*) if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of management in Austria. Certain exemptions apply in cases of transfers mortis causa of financial assets within the meaning of sec. 27(3) and (4) of the Austrian Income Tax Act (except for participations in corporations) if income from such financial assets is subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act. The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate generally is 2.5%, with higher rates applying in special cases.

In addition, there is a special notification obligation for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles if the donor and/or the donee have a domicile, their habitual abode, their legal seat or their place of management in Austria. Not all gifts are covered by the notification obligation: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Intentional violation of the notification obligation may trigger fines of up to 10% of the fair market value of the assets transferred.

Further, gratuitous transfers of the Securities may trigger income tax at the level of the transferor pursuant to sec. 27(6) of the Austrian Income Tax Act (see above).

Repeal of the EU Savings Directive – General

On November 10th, 2015, the Council of the European Union adopted a Council Directive 2015/2060/EU repealing the European Directive on the taxation of savings (EC Council Directive 2003/48/EC, "**EU Savings Directive**") with effect as from 1 January 2016 (1 January 2017 in the case of Austria) (in each case subject to transitional arrangements).

The Council of the European Union has adopted Directive 2014/107/EU (the "Amending Cooperation Directive"), amending Directive 2011/16/EU on administrative cooperation ("**DAC**") in the field of taxation so as to introduce an extended automatic exchange of information regime in accordance with the Global Standard released by the OECD Council in July 2014. The DAC is generally broader in scope than the EU Savings Directive, although it does not impose withholding taxes.

Investors who are in any doubt as to their position should consult their professional advisers.

1. Each Dealer has understood that the Securities have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and may not be offered, sold or delivered within the United States or to or for the account or benefit of U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in the preceding sentence have the meanings given to them by Regulation S under the Securities Act. Each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, that, except as permitted by the Dealership Agreement, it will not offer, sell or deliver Securities, (i) as part of their distribution at any time or (ii) otherwise until forty days after the completion of the distribution of the Securities comprising the relevant Tranche, as certified to the Principal Paying Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Securities to or through more than one Dealer, by each of such Dealers as to Securities of such Tranche purchased by or through it, in which case the Principal Paying Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to or for the account or benefit of U.S. persons, and such Dealer will have sent to each Dealer to which it sells Securities during the distribution compliance period (other than resales pursuant to Rule 144A) a confirmation or other notice setting forth the restrictions on offers and sales of the Securities within the United States or to or for the account or benefit of U.S. persons. Terms used

in the preceding sentence have the meanings given to them by Regulation S under the Securities Act.

In addition, until forty days after the commencement of the offering of Securities comprising any Tranche, any offer or sale of Securities within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A under the Securities Act.

Notwithstanding the foregoing, Dealers nominated by the Issuer may arrange for the offer and sale of Registered Instruments in the United States to QIBs pursuant to Rule 144A.

2. In addition, the Securities in bearer form will be issued in accordance with the provisions of United States Treasury Regulation §1.163-5(c)(2)(i) (D) (the "**D Rules**"), unless the relevant Final Terms specified that the Securities will be issued in accordance with the provisions of United States Treasury Regulation §1.163-5(c)(2)(i) (C) (the "**C Rules**") or that the C Rules and the D Rules are not applicable.

(a) In addition:

each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that

- (i) except to the extent permitted under U.S. Treas. Reg. § 1.163-5(c)(2)(i) (D) (the "**D Rules**"), (x) it has not offered or sold, and during the restricted period will not offer or sell, Securities in bearer form to a person who is within the United States or its possessions or to a United States person, and (y) such Dealer has not delivered and will not deliver within the United States or its possessions definitive Securities in bearer form that are sold during the restricted period;
- (ii) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Securities in bearer form are aware that such Securities may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (iii) if such Dealer is a United States person, it represents that it is acquiring the Securities in bearer form for purposes of resale in connection with their original issuance and, if such Dealer retains Securities in bearer form for its own account, it will only do so in accordance with the requirements of U.S. Treas. Reg. § 1.163-5(c)(2)(i) (D)(6); and
- (iv) with respect to each affiliate (if any) that acquires from such Dealer Securities in bearer form for the purposes of offering or selling such Securities during the restricted period, such Dealer either (A) hereby represents and agrees on behalf of such affiliate (if any) to the effect set forth in sub-paragraphs (i), (ii) and (iii) of this paragraph or (B) agrees that it will obtain from such affiliate (if any) for the benefit of the Issuer the representations and agreements contained in sub-paragraphs (i), (ii) and (iii) of this paragraph.

Terms used in the above paragraph have the meanings given to them by the United States Internal Revenue Code of 1986 and Regulations thereunder, including the D Rules; or

- (b) Where the C Rules are specified in the relevant Final Terms as being applicable in relation to any issue of Securities in bearer form, under the C Rules such Securities must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or

delivered, and will not offer, sell or deliver, directly or indirectly, any Securities in bearer form within the United States or its possessions in connection with their original issuance. Further, each Dealer has represented and agreed that in connection with the original issuance of the Securities in bearer form, it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if such Dealer or such purchaser is within the United States or its possessions and will not otherwise involve any U.S. office of such Dealer in the offer or sale of Securities in bearer form. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code of 1986 and regulations thereunder, including the C Rules.

Each Series of Securities will also be subject to such further United States selling restrictions as the Issuer and the relevant Dealer(s) may agree and as indicated in the relevant Final Terms.

- (c) In the case of an issue of Securities denominated in Swiss Francs or an issue of Securities to be deposited with Clearstream Banking AG, which Securities will be represented by a global Security in substantially the form (subject to amendment and completion) of the First Schedule, Part B to the Trust Deed under United States Treasury Regulation §1.163-5(c)(2)(i) (C) (the "**C Rules**"), Securities in bearer form must be issued and delivered in connection with their original issuance outside the United States and its possessions. Each Dealer represents and agrees that it has not offered, sold or delivered, and will not offer, sell or delivered, directly or indirectly, any Securities in bearer form within the United States or its possessions in connection with their original issuance. Further, each Dealer represents and agrees that, in connection with the original issuance of Securities in bearer form, it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if such Dealer or prospective purchaser is within the United States or its possessions and will not otherwise involve the U.S. office of such Dealer in the offer and sale of Securities in bearer form. Terms used in this paragraph have the meanings given to them by the United States Internal Code and regulations thereunder, including the C Rules.

In addition, each Tranche of Securities, including but not limited to certain Series of Securities in respect of which any payment is determined by reference to an index or formula, or to changes in prices of securities or commodities, or certain other Securities may be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealers may agree, as indicated in the relevant Final Terms. Each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, that it will offer, sell and deliver such Securities only in compliance with such additional U.S. selling restrictions.

Each Dealer (or, in the case of a sale of a Tranche to or through more than one Dealer, each of such Dealers as to Securities of such Tranche purchased by or through it, in which case the Principal Paying Agent or the Issuer shall notify each such Dealer when all such Dealers have certified as provided in this paragraph) who has purchased Securities of any Tranche of Securities in accordance with this Agreement shall determine and certify to the Principal Paying Agent or the Issuer the completion of the distribution of such Tranche as aforesaid. In order to facilitate compliance by each Dealer with the foregoing, the Issuer undertakes that, prior to such certification with respect to such Tranche, it will notify each Dealer in writing of each acceptance by the Issuer of an offer to purchase and of any issuance of, Securities or other debt obligations of the Issuer which are denominated in the same currency or composite currency and which have substantially the same interest rate and maturity date as the Securities of such Tranche.

Each issuance of index-, commodity- or currency-linked Securities shall be subject to additional U.S. selling restrictions as the relevant Dealer or Dealers shall agree as a term of the issuance and purchase of such Securities. Each Dealer has agreed that it shall offer, sell and deliver such Securities only in compliance with such additional U.S. selling restrictions.

Each Dealer has agreed and each further Dealer appointed under the Programme will be required to represent and agree that it has not entered and will not enter into any contractual arrangements with respect to the distribution or delivery of Securities into the United States except with its affiliates (if any) or with the prior written consent of the Issuer.

EACH PURCHASER OF THIS SECURITY IS HEREBY NOTIFIED THAT THE SELLER OF THIS SECURITY MAY BE RELYING ON THE EXEMPTION FROM THE PROVISIONS OF SECTION 5 OF THE SECURITIES ACT PROVIDED BY RULE 144A THEREUNDER. THE HOLDER OF THIS SECURITY BY ITS ACCEPTANCE HEREOF REPRESENTS AND AGREES FOR THE BENEFIT OF THE ISSUER AND THE DEALERS THAT (A) THIS SECURITY MAY BE OFFERED, RESOLD, PLEDGED OR OTHERWISE TRANSFERRED ONLY (1) TO THE ISSUER OR AN AFFILIATE THEREOF, (2) TO A PERSON WHOM THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT) IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A, (3) IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH RULE 903 OR 904 OF REGULATIONS UNDER THE SECURITIES ACT, (4) PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT PROVIDED BY RULE 144 THEREUNDER (IF AVAILABLE) OR (5) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT, IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR ANY OTHER JURISDICTION, AND THAT (B) THE HOLDER WILL, AND EACH SUBSEQUENT HOLDER IS REQUIRED TO, NOTIFY ANY PURCHASERS OF THIS SECURITY FROM IT OF THE TRANSFER RESTRICTIONS REFERRED TO IN (A) ABOVE. NO REPRESENTATION CAN BE MADE AS TO THE AVAILABILITY OF THE EXEMPTION PROVIDED BY RULE 144 UNDER THE SECURITIES ACT FOR REALES OF THIS SECURITY.

BY ITS ACQUISITION AND HOLDING OF THIS SECURITY OR ANY INTEREST HEREIN, THE PURCHASER AND HOLDER HEREOF AND EACH TRANSFEREE WILL BE DEEMED TO HAVE REPRESENTED AND AGREED AT THE TIME OF ITS PURCHASE AND THROUGHOUT THE PERIOD THAT IT HOLDS THIS SECURITY OR INTEREST HEREIN, THAT EITHER (A) IT IS NOT AND IS NOT ACTING ON BEHALF OF (AND WILL NOT BE AND WILL NOT BE ACTING ON BEHALF OF),

DIRECTLY OR INDIRECTLY, AN EMPLOYEE BENEFIT PLAN (AS DEFINED IN SECTION 3(3) OF THE U.S. EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED (“ERISA”)) SUBJECT TO TITLE I OF ERISA, A PLAN TO WHICH SECTION 4975 OF THE U.S. INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE “CODE”), APPLIES OR AN ENTITY WHOSE UNDERLYING ASSETS INCLUDE “PLAN ASSETS” BY REASON OF ANY SUCH PLAN’S OR EMPLOYEE BENEFIT PLAN’S INVESTMENT IN THE ENTITY OR (B) THE ACQUISITION, HOLDING AND DISPOSITION OF THIS SECURITY BY SUCH PURCHASER OR TRANSFEREE DOES NOT AND WILL NOT CONSTITUTE A NON-EXEMPT PROHIBITED TRANSACTION UNDER ERISA OR SECTION 4975 OF THE CODE.

Each purchaser of an interest in a restricted security is deemed to acknowledge that the foregoing restrictions apply to holders of beneficial interests in the Securities as well as to holders of the Securities.

Each purchaser of an interest in a restricted security is further deemed to acknowledge and agree that:

1. the Registrar will not be required to accept for registration of transfer any Securities acquired by such purchaser, except upon presentation of evidence satisfactory to the Issuer and the Registrar that the restrictions set forth herein have been complied with.
2. the Issuer, the Dealers and others will rely upon the truth and accuracy of its acknowledgments, representations and agreements set forth herein and such purchaser agrees that, if any of its acknowledgments, representations or agreements herein cease to be accurate and complete, it will notify the Issuer and the Dealers promptly in writing;
3. if it is acquiring any Securities as a fiduciary or agent for one or more investor accounts, it represents with respect to each account that:
 - (i) it has sole investment discretion; and
 - (ii) it has full power to make, and does make, the foregoing acknowledgments, representations and agreements on behalf of each such investor;
4. it will give to each person to whom it transfers the Securities notice of any restrictions on the transfer of the Securities;
5. if such purchaser acquires Securities in a sale that occurs outside the United States within the meaning of Regulation S under the U.S. Securities Act, until the expiration of the Distribution Compliance Period, it shall not make any offer or sale of any Securities to a U.S. person or for the account or benefit of a U.S. person within the meaning of Rule 902 under the Securities Act; and
6. it understands that any transfer of the Securities will be subject to the selling restrictions set forth hereunder and under "*Subscription and Sale*".

CERTAIN ERISA CONSIDERATIONS

Pursuant to Internal Revenue Service Circular 230, investors are hereby informed that the description set forth herein with respect to U.S. federal tax issues was not intended or written to be used, and such description cannot be used, by any investor for the purpose of avoiding any penalties that may be imposed on the taxpayer under the U.S. Internal Revenue Code. Such description was written to support the marketing of the Securities. Taxpayers should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

The U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**") imposes certain requirements on "employee benefit plans" (as defined in ERISA) subject to Title I of ERISA, including entities such as collective investment funds and separate accounts whose underlying assets include the assets of such plans (collectively, "**ERISA Plans**") and on those persons who are fiduciaries with respect to ERISA Plans.

Section 406 of ERISA and Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), prohibit certain transactions involving the assets of an ERISA Plan (Section 4975 of the Code also imposes prohibitions for certain plans that are not subject to Title I of ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts (together with ERISA Plans, "**Plans**")) and certain persons (referred to as "parties in interest" or "disqualified persons") having certain relationships to such Plans, unless a statutory or administrative exemption is applicable to the transaction. A party in interest or disqualified person who engages in a prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and Section 4975 of the Code. Accordingly, each original or subsequent purchaser or transferee of a Security that is or may become a Plan is responsible for determining that its purchase and holding of such Security will not constitute a prohibited transaction under ERISA or Section 4975 of the Code. As a result, each purchaser and holder of a Security will be deemed to have represented and agreed that (i) it is and will not be a Plan or (ii) the purchase and holding of a Security do not and will not constitute or otherwise result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Code.

THE PRECEDING DISCUSSION IS ONLY AN OVERVIEW OF CERTAIN ERISA IMPLICATIONS OF AN INVESTMENT IN THE SECURITIES AND DOES NOT PURPORT TO BE COMPLETE. PROSPECTIVE INVESTORS SHOULD CONSULT WITH THEIR OWN LEGAL, TAX, FINANCIAL AND OTHER ADVISORS PRIOR TO INVESTING IN THE SECURITIES TO REVIEW THESE IMPLICATIONS IN LIGHT OF SUCH INVESTOR'S PARTICULAR CIRCUMSTANCES.

GENERAL INFORMATION

1. Application has been made for Securities issued under the Programme to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange and to listing and trading on the regulated market of the Stuttgart Stock Exchange. Furthermore, application may be made for Pfandbriefe and Notes issued by LBBW under the Programme to be admitted to listing and trading on the regulated market of the Frankfurt Stock Exchange.

However, Securities may be issued pursuant to the Programme which will not be admitted to trading on the Luxembourg Stock Exchange, the Stuttgart Stock Exchange and/or the Frankfurt Stock Exchange or any other listing authority and/or stock exchange or which will be listed by such listing authority and/or on such stock exchange as the Issuer and the relevant Dealer(s) may agree.

With regard to Securities which will neither be listed on the Luxembourg Stock Exchange and traded on the regulated market of the Luxembourg Stock Exchange nor be offered in Luxembourg, the CSSF is not the competent authority for such issue of Securities.

2. The establishment of the Programme and the issuance of Securities hereunder was authorised by a resolution of the Board of Managing Directors of LBBW passed on 12 April 2005. LBBW has obtained or will obtain from time to time all necessary consents, approvals and authorisations in connection with the issue and performance of the Securities.
3. Since 31 December 2016, the last day of the financial period in respect of which the most recent financial statements of the Issuer have been published, there has been no significant change in the financial or trading position of the Issuer and LBBW Group and since 31 December 2016, the last day of the financial period in respect of which the most recent audited financial statements of the Issuer have been published, there has been no any material adverse change in the prospects of the Issuer and LBBW Group.
4. The consolidated financial statements of LBBW have been audited for the financial years ended 31 December 2016 and 31 December 2015 by KPMG Aktiengesellschaft Wirtschaftsprüfungsgesellschaft (KPMG) and unqualified auditor's reports have been issued thereon.
5. From the date of this Base Prospectus and throughout the life of the Programme, copies and, where appropriate, English translations of the following documents may be inspected during normal business hours at the registered offices of the Issuer and at the specified office of the Principal Paying Agent, Principal Registrar and the Luxembourg Listing Agent, namely:
 - (a) the constitutive documents of the Issuer;
 - (b) the Trust Deed;
 - (c) the Dealership Agreement;
 - (d) the Paying Agency Agreement;
 - (e) the Issuer-ICSDs Agreement;
 - (f) the annual reports of LBBW for the financial years ended 31 December 2016 and 2015;
 - (g) any Final Terms in relation to any Tranche which is admitted to listing on the Regulated Market or by any other listing authority or on any other stock exchange; and

- (h) this Base Prospectus and any supplements thereto prepared in relation to the Programme.

This Base Prospectus, the documents incorporated by reference into this Base Prospectus, Final Terms in relation to any Tranche which is admitted to listing on the official list of the Luxembourg Stock Exchange and any notices published in Luxembourg if not published in a daily newspaper having general circulation in Luxembourg in accordance with Condition 13 will also be available from the website of the Luxembourg Stock Exchange (www.bourse.lu).

6. Bearer Securities and any Coupon appertaining thereto will bear a legend substantially to the following effect: "Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code." The sections referred to in such legend provide that a United States person who holds a Bearer Security or Coupon generally will not be allowed to deduct any loss realised on the sale, exchange or redemption of such Bearer Security or Coupon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.
7. Settlement arrangements will be agreed between the Issuer, the relevant Dealer(s) and the Principal Paying Agent or, as the case may be, the Registrar in relation to each Series.
8. The Securities may be accepted for clearance through Euroclear (1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium), Clearstream, Luxembourg (42 Avenue JF Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg) Clearstream Banking AG, Frankfurt (Mergenthalerallee 61, 65760 Eschborn, Germany) or any other clearing system as may be specified in the relevant Final terms. The appropriate common code and International Securities Identification Number and, where applicable, the relevant number in relation to the Securities of each Series assigned by Euroclear, and Clearstream and/or any other clearing system as shall have accepted the relevant Securities for clearance (as the case may be) will be specified in the Final Terms relating thereto. In addition, the Issuer will make an application for any Registered Instruments to be accepted for trading in book-entry form by Euroclear, Clearstream or DTC, as applicable. The CUSIP and/or CINS numbers for each Tranche of Registered Global Instruments together with the relevant ISIN and Common Code will be specified in the applicable Final Terms.
9. The Dealers and their affiliates may be engaged by the Issuer in investment banking and/or commercial banking transactions and may perform services for the Issuer and its affiliates in the ordinary course of business of such Dealers and their affiliates.
10. United States Federal Income Tax Confidentiality Waiver: Any person (and each employee, representative, or other agent of such person) may disclose to any and all persons, without limitation of any kind, the United States Federal income tax treatment and the United States Federal income tax structure of the Securities, Coupons or Talons and all materials of any kind (including opinions or other tax analyses) that are provided to any holder relating to such tax treatment and tax structure.
11. The Issuer may, on or after the date of this Base Prospectus, make applications for one or more certificates of approval under Article 18 of the Prospectus Directive as implemented in Luxembourg to be issued by the CSSF to the competent authority in any member state.
12. Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and their affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Securities issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading

activities. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Securities issued under the Programme. Any such short positions could adversely affect future trading prices of Securities issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For the purpose of this paragraph the term "affiliates" includes also parent companies.

13. The Issuer is rated by Moody's Deutschland GmbH ("**Moody's**") and Fitch Deutschland GmbH ("**Fitch**"). Investors should keep in mind that a rating does not constitute a recommendation to purchase, sell or hold the debt securities issued by the Issuer. Moreover, the ratings awarded by the rating agencies may at any time be changed or withdrawn.

Moody's has assigned a long-term Senior Senior Unsecured Bank Debt Rating of Aa3⁷², Outlook stable, and a long-term Senior Unsecured and Issuer Rating of A1⁷³, Outlook stable, to the Issuer. Fitch has awarded a long-term credit rating of A-⁷⁴, Outlook stable, in relation to the Issuer's senior unsubordinated debt.

In addition, the Issuer has been assigned a short-term Rating P-1⁷⁵ by Moody's and a short-term Issuer Default Rating of F1⁷⁶ by Fitch.

⁷² Obligations rated "Aa" are judged to be of high quality and are subject to very low credit risk. The modifier "3" indicates a ranking in the lower end of that generic rating category. (Source: Moody's Investors Service Ltd.)

⁷³ Obligations rated "A" are judged to be upper-medium grade and are subject to low credit risk. The modifier "1" indicates that the obligation ranks in the higher end of its generic rating category. (Source: Moody's Investors Service Ltd.)

⁷⁴ "A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifier "-" indicates a ranking in the lower end of that generic rating category. (Source: Fitch Ratings Ltd.)

⁷⁵ Issuers rated P-1 have a superior ability to repay short-term debt obligations. (Source: Moody's Investors Service Ltd.)

⁷⁶ F1 indicates the strongest intrinsic capacity for timely payment of financial commitments. (Source: Fitch Ratings Ltd.)
