- (b) for the purposes of any potential payment date in respect of the Share Linked Securities scheduled to fall more than two Business Days after the Dividend Difference Declaration Date in respect of which whether payment should be made and/or the amount of payment is determined by reference in any way to a Adjusted Share Price calculated using such Actual Dividend as a parameter, the Actual Dividend used to determine such Adjusted Share Price may be adjusted by an amount equal to the Dividend Difference Amount, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

"Adjusted Share Price" means, in respect of a Share and a relevant date:

- (i) if the "Adjusted Price Type" is specified in the relevant Issue Terms to be "Proportional":
 - (a) if such date falls before the Dividend Period Start Date:

CSP(t)

- (b) if such date falls on the Dividend Period Start Date, the Dividend Period Start Date Price;
- (c) if such date falls after the Dividend Period Start Date but on or prior to the Dividend Period End Date, an amount calculated in accordance with the following formula:

$$ASP(t-1) \times \frac{CSP(t)}{CSP(t-1) + CD(t) - AD(t)}$$

provided that, in respect of such date, if the value of $CSP(t-1) + CD(t) - AD(t)$ in the above formula is less than or equal to zero, then the Adjusted Share Price for such date shall be zero;

- (d) if such date falls after the Dividend Period End Date, an amount calculated in accordance with the following formula:

$$ASP(t-1) \times \frac{CSP(t)}{CSP(t-1)}$$

provided that, in respect of such date, if the value of $CSP(t-1)$ in the above formula is less than or equal to zero, then the Adjusted Share Price for such date shall be zero;

- (ii) if the "Adjusted Price Type" is specified in the relevant Issue Terms to be "Additive":

- (a) if such date falls on or before the Dividend Period Start Date:

CSP(t)

- (b) if such date falls after the Dividend Period Start Date, the greater of zero and an amount calculated in accordance with the following formula:

$$(CSP(t) + SAD(t) - SCD(t))$$

- (iii) if the "Adjusted Price Type" is specified in the relevant Issue Terms to be "Proportional Minus Fixed Yield":

- (a) if such date falls before the Dividend Period Start Date:

CSP(t)

- (b) if such date is the Dividend Period Start Date, the Dividend Period Start Date Price;
- (c) if such date falls after the Dividend Period Start Date but on or prior to the Dividend Period End Date, an amount calculated in accordance with the following formula:

$$ASP(t-1) \times \frac{CSP(t)}{CSP(t-1) - AD(t)} \times CDY(t)$$

provided that, in respect of such date, if the value of $CSP(t-1) - AD(t)$ in the above formula is less than or equal to zero, then, in each case, the Adjusted Share Price for such date shall be zero;

- (d) if such date falls after the Dividend Period End Date, an amount calculated in accordance with the following formula:

$$ASP(t-1) \times \frac{CSP(t)}{CSP(t-1)}$$

provided that, in respect of such date, if the value of $CSP(t-1)$ in the above formula is less than or equal to zero, then the Adjusted Share Price for such date shall be zero;

- (iv) if the "Adjusted Price Type" is specified in the relevant Issue Terms to be "Proportional Minus Fixed Point":

- (a) if such date falls before the Dividend Period Start Date:

$$CSP(t)$$

- (b) if such date is the Dividend Period Start Date, the Dividend Period Start Date Price;

- (c) if such date falls after the Dividend Period Start Date but on or prior to the Dividend Period End Date, the greater of zero and an amount calculated in accordance with the following formula:

$$ASP(t-1) \times \frac{CSP(t) + AD(t)}{CSP(t-1)} - \frac{DC(t, t-1) \times CDP}{\text{Divisor}}$$

- (d) if such date falls after the Dividend Period End Date, an amount calculated in accordance with the following formula:

$$ASP(t-1) \times \frac{CSP(t)}{CSP(t-1)}$$

provided that, in respect of such date, if the value of $CSP(t-1)$ in the above formula is less than or equal to zero, then the Adjusted Share Price for such date shall be zero.

Where:

"**AD_(t)**" means, in respect of a Share and a relevant date:

- (i) if the Ex-Dividend Date for one or more Actual Dividends for such Share falls in the period commencing on, but excluding, the Dividend Observation Date immediately preceding such date (or, if there is no Dividend Observation Date preceding such date, the Dividend Period Start Date) and ending on, and including, such date, the sum of each such Actual Dividend; or
- (ii) if no Ex-Dividend Date for any Actual Dividend for such Share falls in the period commencing on, but excluding, the Dividend Observation Date immediately preceding such date (or, if there is no Dividend Observation Date preceding such date, the Dividend Period Start Date) and ending on, and including, such date, zero;

"**ASP_(t-1)**" means, in respect of a Share and a relevant date, the Adjusted Share Price for such Share in respect of the Dividend Observation Date immediately preceding such date, or, if there is no Dividend Observation Date preceding such date, the Dividend Period Start Date Price;

"**CD_(t)**" means, in respect of a Share and a relevant date:

- (i) if the Contractual Ex-Dividend Date for one or more Contractual Dividends for such Share falls in the period commencing on, but excluding, the Dividend Observation Date immediately preceding such date (or, if there is no Dividend Observation Date preceding such date, the Dividend Period Start Date) and ending on, and including, such date, the sum of each such Contractual Dividend; or
- (ii) if no Contractual Ex-Dividend Date for any Contractual Dividend for such Share falls in the period commencing on, but excluding, the Dividend Observation Date immediately preceding such date (or, if there is no Dividend Observation Date preceding such date, the Dividend Period Start Date) and ending on, and including, such date, zero;

"**CDP**" means, in respect of a Share, the amount specified for such Share in the relevant Issue Terms;

"**CDY**" means, in respect of a Share, the amount specified for such Share in the relevant Issue Terms;

"**CDY_(t)**" means, in respect of a Share, and a relevant date:

- (i) if the "Contractual Dividend Yield" is specified in the relevant Issue Terms to be "Standard", an amount calculated in accordance with the following formula:

$$\left(1 - \frac{\text{CDY}}{365}\right)^{\text{DC}(t,t-1)}$$

- (ii) if the "Contractual Dividend Yield" is specified in the relevant Issue Terms to be "Multiplicative", an amount calculated in accordance with the following formula:

$$\left(1 - \frac{\text{DC}(t, t-1) \times \text{CDY}}{365}\right)$$

"**CSP_(t)**" means, in respect of a Share and a relevant date, the Closing Share Price of such Share in respect of such date, provided that, if such date is not a Scheduled Trading Day or is a Disrupted Day for such Share, and the Closing Share Price or the Share Price cannot otherwise be determined for such Share for such day using the other provisions in these Share Linked Conditions, as determined by the Calculation Agent, then it shall be deemed that the CSP(t) for such Share and such day cannot be determined;

"**CSP_(t-1)**" means, in respect of a Share and a relevant date, the Closing Share Price of such Share in respect of the Dividend Observation Date immediately preceding such date, or, if there is no Dividend Observation Date preceding such date, the Closing Share Price in respect of the Dividend Period Start Date.

"**DC_(t, t-1)**" means, in respect of a Share and a relevant date, the number of calendar days falling in the period commencing on, but excluding, the Dividend Observation Date immediately preceding such date (or, if there is no Dividend Observation Date preceding such date, the Dividend Period Start Date) and ending on, and including, such date;

"**Divisor**", means, in respect of a Share, 360 or 365, as specified for such Share in the relevant Issue Terms;

"**SAD_(t)**" or "Sum of Actual Dividends" means, in respect of a Share and a relevant date, the sum of all the Actual Dividends (if any) for which the Ex-Dividend Date falls in the period commencing on, but excluding, the Dividend Period Start Date and ending on, and including, such date; and

"**SCD_(t)**" or "Sum of Contractual Dividends" means, in respect of a Share and a relevant date, the sum of all the Contractual Dividends (if any) for which the Contractual Ex-Dividend Date falls in the period commencing on, but excluding, the Dividend Period Start Date and ending on, and including, such date.

"**Adjusted Share Price Applicable Date**" means each day or date or type of day or date specified as such in the relevant Issue Terms or deemed to be an Adjusted Share Price Applicable Date in these Share Linked Conditions.

"**Affected Common Basket Share**" and "**Affected Common Basket Shares**" have the meaning given thereto in Share Linked Condition 1.7 (*Share Basket and Reference Dates – Common Scheduled Trading Day and Common Disrupted Day*) or Share Linked Condition 1.8 (*Share Basket and Averaging Reference Dates – Common Scheduled Trading Day and Common Disrupted Day*), as applicable.

"**Affected Share**" has the meaning given thereto in Share Linked Condition 2 (*Fallback Valuation Date*).

"**Automatic Early Exercise Date**" means such date as is specified in the relevant Issue Terms (each, a "**Scheduled Automatic Early Exercise Date**"), provided that, if the relevant Applicable Date is adjusted in accordance with the Conditions, the corresponding Automatic Early Exercise Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Exercise Settlement Period Business Days after the Latest Reference Date corresponding to such Applicable Date.

"Automatic Early Redemption Date" means such date as is specified in the relevant Issue Terms (each, a **"Scheduled Automatic Early Redemption Date"**), provided that, if the relevant Applicable Date is adjusted in accordance with the Conditions, the corresponding Automatic Early Redemption Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Redemption Settlement Period Business Days after the Latest Reference Date corresponding to such Applicable Date.

"Averaging Date" means, in respect of a Share, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as an Averaging Reference Date) in accordance with these Share Linked Conditions.

"Averaging Reference Date" means, in respect of a Share, each Initial Averaging Date or Averaging Date, in each case, subject to adjustment in accordance with these Share Linked Conditions.

"Change in Law" means that, on or after the Issue Date, due to (i) the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law) or (ii) the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines that the Issuer and/or any of its affiliates will incur a materially increased cost in performing its obligations under the Share Linked Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit, or other adverse effect on its tax position).

"Closing Share Price" means, in respect of a Share and any relevant day, the official closing price of the Share (expressed in relevant Share Currency (if specified in the relevant Issue Terms) applicable to the Share) as of the Valuation Time on the Exchange on such day, as determined by the Calculation Agent, provided that, if **"Closing Share Price (Italian Reference Price)"** is specified to be applicable in respect of a Share in the relevant Issue Terms, Closing Share Price means, in respect of such Share and any relevant day, the *"Prezzo di Riferimento"* of such Share on such day as published by the Borsa Italiana S.p.A. at the close of trading for such day and having the meaning ascribed thereto in the rules of the markets organised and managed by the Borsa Italiana S.p.A.

"Common Basket Share" and **"Common Basket Shares"** have the meaning given thereto in Share Linked Condition 1.5 (*Share Basket and Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day*), Share Linked Condition 1.6 (*Share Basket and Averaging Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day*), Share Linked Condition 1.7 (*Share Basket and Reference Dates – Common Scheduled Trading Day and Common Disrupted Day*), or Share Linked Condition 1.8 (*Share Basket and Averaging Reference Dates – Common Scheduled Trading Day and Common Disrupted Day*), as the case may be.

"Common Scheduled Trading Day" means, in respect of a Share Basket comprising Common Basket Shares, each day which is a Scheduled Trading Day for all Common Basket Shares in such Share Basket.

"Common Valid Date" means, in respect of a Share Basket comprising Common Basket Shares, a Common Scheduled Trading Day that is not a Disrupted Day for any Common Basket Share and on which another Averaging Reference Date does not or is not deemed to occur.

"Contractual Dividend" means, in respect of a Share and a Contractual Ex-Dividend Date, the amount or amounts specified as such for such Share in the relevant Issue Terms, or, if no such amount is specified for such Share, zero.

"Contractual Ex-Dividend Date" means, in respect of a Share, each date specified as such in the relevant Issue Terms.

"Correction Cut-off Date" means, if specified in the relevant Issue Terms to be applicable to any date on which the price of a Share is required to be determined, the date(s) specified as such in the relevant Issue Terms, or such number of Business Days as specified in the relevant Issue Terms prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the price of such Share on such day, unless **"Default Correction Cut-off Date"** is specified in the relevant Issue Terms to be applicable in respect of any date on which the price of such Share is required to be determined, then the **"Correction Cut-off Date"** for such Share and such date shall be the

second Business Day prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the price of such Share on such day.

"Delisting" means, in respect of any relevant Shares, that for any reason (other than a Merger Event or Tender Offer): (a) the Calculation Agent determines that: (i) such Shares have ceased to be listed, traded or publicly quoted on the Exchange; (ii) it is not reasonably certain that the cessation is, or will be, temporary; and (iii) such Shares are not immediately re-listed, re-traded, or re-quoted on an Acceptable Exchange (for the avoidance of doubt, the suspension of trading in the Shares on the relevant Exchange for a period of 30 or more consecutive calendar days would constitute a Delisting) ; or (b) the Exchange announces that pursuant to the rules of such Exchange (or the Calculation Agent otherwise determines based on publicly available information that), such Shares will cease to be listed, traded, or publicly quoted on such Exchange and the Calculation Agent determines that there is reasonable certainty that such Shares will not be immediately re-listed, re-traded, or re-quoted on an Acceptable Exchange.

"Disrupted Day" means any Scheduled Trading Day on which a relevant Exchange or any Related Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event has occurred.

"Dividend FX Rate" means, in respect of a Share and the Share Currency for such Share and any relevant date, the amount of the currency per one unit of such Share Currency, determined by the Calculation Agent by reference to the official mid exchange rate of the relevant currency pair(s) as determined by the Calculation Agent at or around 4.00 p.m., London time, on the relevant date and published by Refinitiv Benchmark Services Limited (or any successor thereto or any alternative fixing price sponsor as selected by the Calculation Agent) on the relevant Refinitiv pages as determined by the Calculation Agent, provided that if such exchange rate(s) cannot be obtained from such Refinitiv pages or are otherwise not published on such date, as determined by the Calculation Agent, then the Calculation Agent shall determine the Dividend FX Rate for such date based on the Calculation Agent's internal mid marks for such exchange rate(s) on such date.

"Dividend Observation Date" means, in respect of a Share and the Dividend Period for such Share, each Scheduled Trading Day for such Share that is not a Disrupted Day for such Share falling within such Dividend Period, as determined by the Calculation Agent (and, unless specified to the contrary in the relevant Issue Terms, each Dividend Observation Date shall be deemed to be an Adjusted Share Price Applicable Date).

"Dividend Period" means, in respect of a Share, the period commencing on (and excluding) the Dividend Period Start Date in respect of such Share and ending on (and including) the Dividend Period End Date in respect of such Share.

"Dividend Period End Date" means, in respect of a Share, the date specified as such in the relevant Issue Terms.

"Dividend Period Start Date" means, in respect of a Share, the date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as a Reference Date) in accordance with these Share Linked Conditions (and, unless specified to the contrary in the relevant Issue Terms, the Dividend Period Start Date shall be deemed to be an Adjusted Share Price Applicable Date).

"Dividend Period Start Date Price" means, in respect of a Share, either of (i) or (ii) as specified in the relevant Issue Terms: (i) the Closing Share Price of such Share in respect of the Dividend Period Start Date, or (ii) the amount set forth in the relevant Issue Terms as being the "Dividend Period Start Date Price" for such Share.

"Early Closure" means, in respect of a Share, the closure on any Exchange Business Day of the relevant Exchange relating to such Share or any Related Exchange prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange or Related Exchange, as the case may be, at least one-hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution as at the relevant Valuation Time on such Exchange Business Day.

"Entry Level Observation Date" means, (i) in respect of a Share or a Share Basket, each date specified as such in the relevant Issue Terms, (ii) in respect of a Share or a Share Basket, each Entry Level Observation Specified Date falling in the Entry Level Observation Period, (iii) in respect of a Share, the First Entry Level Observation Date and each of the number of Scheduled Trading Days specified in the relevant Issue Terms for such Share following the First Entry Level Observation Date, or (iv) in respect of a Share Basket, the First Entry Level Observation Date and each of the number of Common Scheduled Trading Days specified in the relevant Issue Terms for all Shares in the Share Basket following the First Entry Level Observation Date, each as specified in the relevant Issue Terms and, in each case, subject to adjustment (as if each Entry Level Observation Date was an Averaging Reference Date) in accordance with the Share Linked Conditions as specified to be applicable in the relevant Issue Terms.

"Entry Level Observation Period" if specified to be applicable, means, in respect of a Share:

- (a) if the relevant Issue Terms specify the consequence of "Extension", the period commencing on the Entry Level Observation Period Start Date in respect of such Share, following adjustment of such date pursuant to the Share Linked Conditions (and including or excluding such Entry Level Observation Period Start Date, as specified in the relevant Issue Terms) and ending on the Entry Level Observation Period End Date for such Share, following adjustment of such date pursuant to the Share Linked Conditions (and including or excluding such Entry Level Observation Period End Date, as specified in the relevant Issue Terms); or
- (b) if the relevant Issue Terms specify the consequence of "No Extension", the period commencing on the Entry Level Observation Period Start Date, prior to any adjustment of such date pursuant to the Share Linked Conditions (and including or excluding such Entry Level Observation Period Start Date for such Share, as specified in the relevant Issue Terms) and ending on the Entry Level Observation Period End Date for such Share, prior to any adjustment of such date pursuant to the Share Linked Conditions (and including or excluding such Entry Level Observation Period End Date, as specified in the relevant Issue Terms),

and in each case, where the Securities relate to a Share Basket, there shall be a separate Entry Level Observation Period in respect of each Share in the Share Basket.

"Entry Level Observation Period End Date" means, in respect of a Share, the date specified as such in the relevant Issue Terms (which, for the avoidance of doubt, may be an Initial Valuation Date), which shall be the last day of the Entry Level Observation Period in respect of such Share, and shall be included or excluded from the Entry Level Observation Period, as specified in the relevant Issue Terms.

"Entry Level Observation Period Start Date" means, in respect of a Share, the date specified as such in the relevant Issue Terms (which, for the avoidance of doubt, may be an Initial Valuation Date), which shall be the first day of the Entry Level Observation Period in respect of such Share, and shall be included or excluded from the Entry Level Observation Period, as specified in the relevant Issue Terms.

"Entry Level Observation Specified Date" means, if Entry Level Observation Period is specified to be applicable in the relevant Issue Terms, either (a) or (b) below as specified in the relevant Issue Terms:

- (a) **"Scheduled Trading Day"**, in respect of each Share, each Scheduled Trading Day for such Share falling in the Entry Level Observation Period; or
- (b) **"Common Scheduled Trading Day"**, in respect of each Common Basket Share, each Common Scheduled Trading Day falling in the Entry Level Observation Period.

"Exchange" means, in respect of a Share, each exchange or quotation system specified as such in the relevant Issue Terms for such Share, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in such Share has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such Share on such temporary substitute exchange or quotation system as on the original Exchange).

"Exchange Business Day" means, in respect of a Share, any Scheduled Trading Day for such Share on which each Exchange and each Related Exchange for such Share are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time.

"Exchange Disruption" means, in respect of a Share, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (i) to effect transactions in, or obtain market values for, the Shares on the Exchange, or (ii) to effect transactions in, or obtain market values for, futures or options contracts relating to such Share on any relevant Related Exchange.

"Exchange Traded Fund" means an exchange traded fund specified as such in the relevant Issue Terms, and related expressions shall be construed accordingly.

"Ex-Dividend Date" means, in respect of a Share and a Gross Cash Dividend or Gross Cash Equivalent Dividend, the date on which such Share has commenced trading ex-dividend on the Exchange for such Share and such Gross Cash Dividend or Gross Cash Equivalent Dividend, as is applicable.

"Expected Common Scheduled Trading Day" means, in respect of a Share Basket comprising Common Basket Shares, each day which is an Expected Scheduled Trading Day for all Common Basket Shares in such Share Basket.

"Expected Scheduled Trading Day" means, in respect of a Share, for the purposes of the Calculation Agent's determination of the day on which a Valuation Date is scheduled to fall in order to calculate the amount (if any) payable or deliverable on the Maturity Date, any day which the Calculation Agent anticipates, as of the date that it has determined that such Valuation Date should be scheduled to fall, that each Exchange and each Related Exchange for such Share specified in the relevant Issue Terms are scheduled to be open for trading for their respective regular trading sessions, falling in the period commencing on, and including, such date and ending on, but excluding, the Maturity Date.

"Extraordinary Dividend" means, in respect of any Share, an amount of cash and/or shares per such Share which the Calculation Agent determines and characterises to be an extraordinary dividend.

"Extraordinary Event" means, in respect of a Share, a Delisting, an Insolvency, a Merger Event, a Nationalisation, a Tender Offer, (save in respect of Belgian Securities) a Termination of Listed Derivatives, and where the Share is a share of an Exchange Traded Fund, a NAV Publication Suspension.

"Fallback Valuation Date" means, in respect of any Share and if Fallback Valuation Date is specified in the relevant Issue Terms to be applicable to any date on which the price of such Share is required to be determined, the date(s) specified as such in the relevant Issue Terms or such number of Business Days as specified in the relevant Issue Terms prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the price of such Share on such day, unless "Default Fallback Valuation Date" is specified in the Issue Terms to be applicable to any date on which the price of such Share is required to be determined, then the Fallback Valuation Date for such Share and such date shall be the second Business Day prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the price of such Share on such day.

"First Entry Level Observation Date" means such date as is specified in the relevant Issue terms, or if such day is not a Scheduled Trading Day for a Share or a Common Scheduled Trading Day for all Shares, as specified in the relevant Issue Terms, the first following Scheduled Trading Day for such Share or Common Scheduled Trading Day for all Shares, as specified in the relevant Issue Terms.

"Gross Cash Dividend" means, in respect of a Share, any gross dividend amount in cash for one such Share that would be received by a holder of record before the withholding or deduction of taxes at the source by or on behalf of any relevant authority having power to tax in respect of such a dividend or distribution, and excludes any imputation or other credits, refunds or deductions granted by any applicable authority having power to tax in respect of such a dividend or distribution and any taxes, credits, refunds or benefits imposed, withheld, assessed or levied thereon, provided that, if such Gross Cash Dividend is denominated in a currency other than the Share Currency for such Share, then the Calculation Agent shall convert the amount of such Gross Cash Dividend into the Reference Currency using the Dividend FX Rate on the relevant Ex-Dividend Date for such Gross Cash Dividend.

"Gross Cash Equivalent Dividend" means, in respect of a Share, an amount per Share being the cash value of any stock dividend (whether or not such stock dividend comprises of shares of the Share Issuer of such Share) declared by the Share Issuer of the Share. Where the Share Issuer of the Share does not

declare a cash value of such stock dividend, an amount determined by the Calculation Agent on the basis of the closing price of the share comprising such stock dividend as published by the relevant primary exchange on the Ex-Dividend Date for such stock dividend (being "Stock Dividend Closing Price" for such Gross Cash Equivalent Dividend). If the Stock Dividend Closing Price for a Gross Cash Equivalent Dividend is not available for any reason, the value of such Gross Cash Equivalent Dividend shall be determined by the Calculation Agent. Further, if such Gross Cash Equivalent Dividend is denominated in a currency other than the Share Currency for such Share, then the Calculation Agent shall convert the value of such Gross Cash Equivalent Dividend into the Share Currency on the relevant Ex-Dividend Date for such Gross Cash Equivalent Dividend.

"Initial Averaging Date" means, in respect of a Share, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as an Averaging Reference Date) in accordance with these Share Linked Conditions.

"Initial Valuation Date" means, in respect of a Share, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as a Reference Date) in accordance with these Share Linked Conditions.

"Insolvency" means, in respect of a Share and the Share Issuer, that either (a) by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution, or winding-up of or any analogous proceeding affecting the Share Issuer, (i) all the Shares of such Share Issuer are required to be transferred to a trustee, liquidator, or other similar official, or (ii) holders of the Shares of such Share Issuer become legally prohibited from transferring them; or (b) an Insolvency Event occurs in respect of such Share Issuer.

"Insolvency Event" means, in respect of a Share and the Share Issuer, that the Share Issuer: (a) institutes, or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head office or home office, or consents to a proceeding seeking a judgment of insolvency or bankruptcy law or similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such petition; and/or (b) either has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person not described in (a) above and either (i) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (ii) is not dismissed, discharged, stayed or restrained, in each case within 15 days of such institution or presentation.

"Last Averaging Date" means, in respect of a Share, the Averaging Date for the Share scheduled to fall on the date specified as the "Last Averaging Date" in the relevant Issue Terms or, if "Modified Postponement" is specified to be applicable in the relevant Issue Terms, the Averaging Date for the Share (after any adjustments) falling latest in time shall be the Last Averaging Date.

"Last Initial Averaging Date" means, in respect of a Share, the Initial Averaging Date for the Share scheduled to fall on the date specified as the "Last Initial Averaging Date" in the relevant Issue Terms or, if "Modified Postponement" is specified to be applicable in the relevant Issue Terms, the Initial Averaging Date for the Share (after any adjustments) falling latest in time shall be the Last Initial Averaging Date.

"Latest Reference Date" means, in respect of a single Share and an Averaging Reference Date or a Reference Date, such Averaging Reference Date or Reference Date, and in respect of a Share Basket and an Averaging Reference Date or a Reference Date (being, for the purposes of this definition, the **"Relevant Reference Date"**):

- (a) if, as a result of the Relevant Reference Date not being a Scheduled Trading Day for one or more Shares or as a result of the occurrence of a Disrupted Day for one or more Shares, the Relevant Reference Date for two or more Shares falls on different dates, the date corresponding to the Relevant Reference Date which is the latest to occur, as determined by the Calculation Agent; or

- (b) if the Relevant Reference Date for all of the Shares falls on the same date (after adjustment, if any, for non-Scheduled Trading Days or Disrupted Days for such Shares), such same date corresponding to the Relevant Reference Date.

"Market Disruption Event" means, in respect of a Share, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time, (iii) an Early Closure, (iv) any change in national or international financial, political or economic conditions or currency exchange rates or exchange controls, the effect of which is, in the determination of the Calculation Agent, so material and adverse as to make it impracticable or inadvisable to proceed with the calculation or determination of any amount payable or deliverable under the terms and conditions of the Share Linked Securities, or (v) where the Share is a share of an Exchange Traded Fund, a NAV Temporary Publication Suspension.

"Maturity Date" means:

- (a) in respect of Share Linked Instruments other than Nordic Registered Instruments, Euroclear France Registered Instruments or French Law Instruments, the Scheduled Maturity Date specified in the relevant Issue Terms, and if the Relevant Determination Date is adjusted in accordance with the Conditions, the Maturity Date shall instead be the day falling the number of Business Days equal to the Number of Settlement Period Business Days after the Latest Reference Date in respect of the Relevant Determination Date;
- (b) in respect of Share Linked Notes, the Scheduled Maturity Date specified in the relevant Issue Terms, and if the Relevant Determination Date is adjusted in accordance with the Conditions, the Maturity Date shall instead be the day falling the number of Business Days equal to the Number of Settlement Period Business Days after the Latest Reference Date in respect of the Relevant Determination Date.

"Maximum Days of Disruption" means in respect of Share Linked Securities that relate to:

- (a) a single Share, eight Scheduled Trading Days; or
- (b) a Share Basket and the relevant Issue Terms do not specify that "Basket Valuation (Common Scheduled Trading Day and Common Disrupted Day)" to be applicable to any two or more Common Basket Shares, eight Scheduled Trading Days; or
- (c) a Share Basket and the relevant Issue Terms specify that "Basket Valuation (Common Scheduled Trading Day and Common Disrupted Day)" to be applicable to any two or more Common Basket Shares, eight Common Scheduled Trading Days,

or, in each case, such other number of Scheduled Trading Days or Common Scheduled Trading Days, as applicable (or other type of days) specified in the relevant Issue Terms.

"Merger Date" means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

"Merger Event" means, in respect of any relevant Shares, any (i) reclassification or change of such Shares that results in a transfer of, or an irrevocable commitment to transfer all such Shares outstanding to another entity or person, (ii) consolidation, amalgamation, merger, or binding share exchange of a Share Issuer with or into another entity or person (other than a consolidation, amalgamation, merger, or binding share exchange in which such Share Issuer is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding), (iii) takeover offer, tender offer, exchange offer, solicitation, proposal, or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares of the Share Issuer that results in a transfer of, or an irrevocable commitment to transfer, all such Shares (other than such Shares owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger, or binding share exchange of the Share Issuer or its subsidiaries with or into another entity in which the Share Issuer is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such

event, in each case if the Merger Date is on or before, (a) in the case of a Security to which Physical Settlement applies, the Physical Settlement Date, or (b) in any other case, the Final Reference Date or Last Averaging Date (as applicable).

"Nationalisation" means that all the Shares or all or substantially all the assets of the Share Issuer are nationalised, expropriated, or are otherwise required to be transferred to any governmental agency, authority, entity, or instrumentality thereof.

"NAV Publication Suspension" means that, in the determination of the Calculation Agent, the management company of the Exchange Traded Fund, or any other entity who has been delegated the responsibility to publish the net asset value of the Share, has failed to or will fail to, or has not published or will not publish, the net asset value of the Share, and such failure to publish or non-publication will, in the determination of the Calculation Agent, in its sole and absolute discretion, have a material effect on the Securities and will be for more than a short period and/or will not be of a temporary nature.

"NAV Temporary Publication Suspension" means that, in the determination of the Calculation Agent, the management company of the Exchange Traded Fund, or any other entity who has been delegated the responsibility to publish the net asset value of each Share, fails to or does not publish, the net asset value of each Share, and such failure to publish or non-publication will, in the determination of the Calculation Agent, in its sole and absolute discretion, have a material effect on the Securities.

"Observation Date (closing valuation)" means, unless otherwise provided in the relevant Issue Terms, (a) in respect of a Share Linked Security referencing a single Share and (i) an Observation Period that is not an Autocall Observation Period, each Scheduled Trading Day falling in the Observation Period regardless of whether such day is a Disrupted Day for such Share; or (ii) an Autocall Observation Period, each Scheduled Trading Day falling in such Autocall Observation Period regardless of whether such day is a Disrupted Day for such Share, or (b) in respect of a Share Linked Security referencing a Share Basket and (i) an Observation Period that is not an Autocall Observation Period, each Common Scheduled Trading Day falling in the Observation Period regardless of whether such day is a Disrupted Day for any Share in the Share Basket; or (ii) an Autocall Observation Period, each Common Scheduled Trading Day falling in such Autocall Observation Period regardless of whether such day is a Disrupted Day for any Share in the Share Basket.

"Observation Date (intra-day valuation)" means, (a) in respect of a Share Linked Security referencing a single Share and an Observation Period, each Scheduled Trading Day falling in the Observation Period regardless of whether such day is a Disrupted Day for such Share, or (b) in respect of a Share Linked Security referencing a Share Basket and an Observation Period, each Common Scheduled Trading Day falling in the Observation Period regardless of whether such day is a Disrupted Day for any Share in the Share Basket.

"Observation Period" means, in respect of a Share, a Barrier Observation Period, a Trigger Observation Period, an Autocall Observation Period, a Coupon Barrier Observation Period, a Dropback Lock-in Observation Period, a Dropback Trigger Observation Period or a Dropback Barrier Observation Period.

"Options Exchange" means the exchange or quotation system specified as such in the relevant Issue Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system, to which trading in options contracts relating to the relevant Share has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such options contracts on such temporary substitute exchange or quotation system as on the original Options Exchange) or, if no such exchange or quotation system is specified in the relevant Issue Terms, the Related Exchange (if such Related Exchange trades options contracts relating to the relevant Share) or, if more than one such Related Exchange is specified in the relevant Issue Terms, the Related Exchange selected by the Calculation Agent as the primary market for listed options contracts relating to the relevant Share.

"Potential Adjustment Event" means

- (a) a subdivision, consolidation or reclassification of relevant Shares (unless resulting in a Merger Event) or a free distribution or dividend of any such Shares to existing holders of the Shares by way of bonus, capitalisation, or similar issue;

- (b) a distribution, issue, or dividend to existing holders of the relevant Shares of (i) such Shares, or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Issuer equally or proportionately with such payments to holders of such Shares, or (iii) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Share Issuer as a result of a spin-off or other similar transaction, or (iv) any other type of securities, rights, or warrants, or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price, all as determined by the Calculation Agent;
- (c) an Extraordinary Dividend, unless the relevant Issue Terms provide that, for a Share, that "Include Extraordinary Dividends" shall be applicable, in which case, this sub-paragraph (c) shall be deemed not to constitute a Potential Adjustment Event for such Share;
- (d) a call by a Share Issuer in respect of relevant Shares that are not fully paid;
- (e) a repurchase by a Share Issuer or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities, or otherwise;
- (f) in respect of a Share Issuer, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Share Issuer pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments, or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (g) any other event having a diluting or concentrative effect on the theoretical value of the relevant Shares, as determined by the Calculation Agent.

"Reference Date" means, in respect of a Share, the Dividend Period Start Date, each Initial Valuation Date or Valuation Date, in each case, subject to adjustment in accordance with these Share Linked Conditions.

"Related Exchange" means, in respect of a Share, each exchange or quotation system, if any, specified in the relevant Issue Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Share has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Share on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where **"All Exchanges"** is specified as the Related Exchange, **"Related Exchange"** shall mean each exchange or quotation system (as determined by the Calculation Agent) where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Share or, in any such case, any transferee or successor exchange of such exchange or quotation system (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Share on such temporary substitute exchange or quotation system as on the original Related Exchange).

"Relevant Date" has the meaning given thereto in Share Linked Condition 2 (*Fallback Valuation Date*).

"Relevant Dividend" means, in respect of a Share, and any relevant date, the Gross Cash Dividend or the Gross Cash Equivalent Dividend for such date, provided that, if the holders of record of each Share may elect between receiving a Gross Cash Dividend or a Gross Cash Equivalent Dividend the Relevant Dividend for such Share shall be deemed to be the Gross Cash Dividend.

"Scheduled Averaging Date" means, in respect of a Share, any original date that, but for such day not being a Scheduled Trading Day for such Share or for such day being a Disrupted Day for such Share, would have been an Averaging Date.

"Scheduled Averaging Reference Date" means, in respect of a Share, each Scheduled Averaging Date or Scheduled Initial Averaging Date.

"Scheduled Closing Time" means, in respect of a Share and in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

"Scheduled Dividend Period Start Date" means, in respect of a Share, any original date that, but for such day not being a Scheduled Trading Day for such Share or for such day being a Disrupted Day for such Share, would have been the Dividend Period Start Date.

"Scheduled Initial Averaging Date" means, in respect of a Share, any original date that, but for such day not being a Scheduled Trading Day for such Share or for such day being a Disrupted Day for such Share, would have been an Initial Averaging Date.

"Scheduled Initial Valuation Date" means, in respect of a Share, any original date that, but for such day not being a Scheduled Trading Day for such Share or for such day being a Disrupted Day for such Share, would have been an Initial Valuation Date.

"Scheduled Reference Date" means, in respect of a Share, the Scheduled Dividend Period Start Date, each Scheduled Initial Valuation Date or Scheduled Valuation Date.

"Scheduled Trading Day" means, in respect of a Share, any day on which each Exchange and each Related Exchange for such Share specified in the relevant Issue Terms are scheduled to be open for trading for their respective regular trading sessions.

"Scheduled Valuation Date" means, in respect of a Share, any original date that, but for such day not being a Scheduled Trading Day for such Share or for such day being a Disrupted Day for such Share, would have been a Valuation Date.

"Settlement Cycle" means, in respect of a Share, the period of Share Clearance System Business Days following a trade in the Share on the Exchange in which settlement will customarily occur according to the rules of such Exchange.

"Settlement Disruption Event" means, in respect of a Share, an event that the Calculation Agent determines is beyond the control of the Issuer and/or its affiliates as a result of which the relevant Share Clearance System cannot clear the transfer of such Share.

"Share" means, in respect of an issue of Share Linked Securities relating to a single Share, the share (including the share of an Exchange Traded Fund), and in respect of an issue of Share Linked Securities relating to a Share Basket, each share (including the share of each Exchange Traded Fund), in each case, as specified in the relevant Issue Terms, and related expressions shall be construed accordingly.

"Share Basket" means a basket composed of Shares, as specified in the relevant Issue Terms.

"Share Clearance System" means, in respect of a Share, the principal domestic clearance system customarily used for settling trades in the relevant Shares on any relevant date.

"Share Clearance System Business Day" means, in respect of a Share Clearance System, any day on which such Share Clearance System is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions, as determined by the Calculation Agent.

"Share Currency" means, in respect of a Share, the currency specified as such in the relevant Issue Terms, or if not specified, the currency in which the relevant price of the Share is denominated.

"Share Issuer" means, in respect of a Share, the issuer of such Share, as specified in the relevant Issue Terms (or as may otherwise be determined by the Calculation Agent).

"Share Linked Securities" means Share Linked Notes or Share Linked Instruments, as the case may be.

"Share Price" means, in respect of a Share, the price of the Share as of the relevant time on the relevant date, as determined by the Calculation Agent.

"Substitute Shares" has the meaning given thereto in Share Linked Condition 3.2(c) (*Occurrence of an Extraordinary Event*).

"Substitution Date" has the meaning given thereto in Share Linked Condition 3.2(c)(i) (*Occurrence of an Extraordinary Event*).

"Successor Fund" has the meaning given thereto in Share Linked Condition 6 (*Delisting, Discontinuance or Modification of a Share that is a share of an Exchange Traded Fund*).

"Tender Offer" means a takeover offer, tender offer, exchange offer, solicitation, proposal, or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining, or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of a Share Issuer, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent determines to be relevant.

"Tender Offer Date" means, in respect of a Tender Offer, or, the date on which voting Shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained, as determined by the Calculation Agent.

"Termination of Listed Derivatives" means, in respect of any listed futures or options contracts relating to a Share (the **"Listed Derivatives Contract"**):

- (a) the termination or indefinite suspension of the Listed Derivatives Contract from listing on the Related Exchange and/or trading on the Relevant Exchange and/or price quotation on the Related Exchange; or
- (b) any material adjustment (as determined by the Calculation Agent) made to the Listed Derivatives Contract by the Related Exchange; or
- (c) the announcement by the Related Exchange (or other relevant entity or body, as determined by the Calculation Agent) of any of the events in (a) above (whether effective immediately or effective as at a date following the announcement).

"Trading Disruption" means, in respect of a Share, any suspension of, or limitation imposed on, trading by the relevant Exchange or Related Exchange or otherwise, and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise, (i) relating to the Share on the relevant Exchange or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.

"Valid Date" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Reference Date does not or is not deemed to occur.

"Valuation Date" means, in respect of a Share, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, and/or in the relevant Issue Terms subject to adjustment (as a Reference Date) in accordance with these Share Linked Conditions.

"Valuation Time" means the time in the place as specified in the relevant Issue Terms, unless **"Default Valuation Time"** is specified in the relevant Issue Terms, in which case the "Valuation Time" means the Scheduled Closing Time on the relevant Exchange on the relevant day in relation to each Share to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

INTRODUCTION TO THE INDEX LINKED CONDITIONS

The following introduction to, and overview of, the Index Linked Conditions is a description and overview only of the actual Index Linked Conditions set forth herein, and is intended to be a guide only to potential purchasers to facilitate a general understanding of such provisions. Accordingly, this overview must be read as an introduction only to the actual Index Linked Conditions and any decision to purchase Index Linked Securities should be based on a consideration of the Base Prospectus as a whole, including the actual Index Linked Conditions (as may be completed by the relevant Issue Terms).

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Index Linked Securities on page 52.

Payments, Scheduled Trading Days and Disrupted Days

There are three types of Indices:

- **Unitary** – the underlying Components (typically Shares) are deemed to trade on a single Exchange;
- **Multi-Exchange** and **Modified Unitary** – the underlying Components (typically Shares) are deemed to trade on more than one Exchange; and
- **Proprietary** – the index is composed by the relevant Issuer or by any legal entity belonging to the same group.

Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Index Linked Securities will be calculated by reference to the level of a single Index or the level of one or more Indices in an Index Basket or a formula based upon the level of one or more Indices at a specified time or times on one or more Reference Dates or Averaging Reference Dates (as set out in the Issue Terms).

However, it may not be possible, practical or desirable for the Calculation Agent to determine the level of an Index at a specified time on a Reference Date or Averaging Reference Date if such date is (i) not a Scheduled Trading Day or (ii) a Disrupted Day.

Scheduled Trading Day has different meanings for different types of Indices:

- **Unitary** and **Modified Unitary** – a day on which each Exchange (on which the underlying Components trade), and each specified Related Exchange (on which trading in futures or options contracts relating to such Index occurs), are scheduled to be open;
- **Multi-Exchange** – a day on which the Index Sponsor is scheduled to publish the **Index Level** and on which the specified Related Exchange is scheduled to be open; and
- **Proprietary** – a Strategy Trading Day, as such term is defined in the **Index Rules**.

Disrupted Day has different meanings for different types of Indices:

- **Unitary** and **Modified Unitary** – a Scheduled Trading Day on which any Exchange or any Related Exchange fails to open or is otherwise subject to a Market Disruption Event during such day; and
- **Multi-Exchange** – a Scheduled Trading Day on which (i) the Index Sponsor fails to publish the Index Level, (ii) the Related Exchange fails to open or (iii) a Market Disruption Event has occurred during such day.

Market Disruption Events has different meanings for different types of Indices:

- **Unitary** – can be classified broadly as the occurrence or existence of the following events:
 - (i) an **Early Closure**, which is an unannounced closure of (i) the Exchange relating to the Shares that comprise 20 per cent. of the Index or (ii) any Related Exchange;
 - (ii) an **Exchange Disruption**, which is a material event (other than an Early Closure) that disrupts the ability of market participants effecting transactions in, or obtaining market values, during the one-hour period before the valuation time (typically the closing time), for, (i) the Shares that comprise 20 per cent. of the Index Level or (ii) futures or options contracts relating to such Index on any relevant Related Exchange; and
 - (iii) a **Trading Disruption**, which is the suspension of, or limitation imposed on, trading, by the Exchange relating to the Shares or by the Related Exchange relating to the Shares that comprise 20 per cent. of the Index Level on the Exchange or by the Related Exchange relating to the futures and options contracts.
- **Multi-Exchange and Modified Unitary** – can be classified broadly as the occurrence or existence of the following events:

EITHER

- (i) an **Early Closure**, which is an unannounced closure of (i) the Exchange relating to any Share or (ii) the Related Exchange;
- (ii) an **Exchange Disruption** is a material event (other than an Early Closure) that disrupts the ability of market participants effecting transactions in, or obtaining market values, during the one-hour period before the valuation time (typically the closing time), for, (i) any Share, or (ii) futures or options contracts relating to such Index on any relevant Related Exchange; and
- (iii) a **Trading Disruption**, which is the suspension of, or limitation imposed on, trading, during the one-hour period before the valuation time (typically the closing time), by the Exchange relating to the Shares or by the Related Exchange relating to the futures and options contracts

AND the aggregate number of Shares affected by such events comprises 20 per cent. of the Index Level,

OR the occurrence, relating to futures or options contracts relating to such Index, of an Early Closure, Exchange Disruption which is material at any time during the one hour period before the Valuation Time (typically the closing time), or Trading Disruption

- (iv) an Early Closure, Exchange Disruption or Trading Disruption relating to futures or options contracts relating to such Index occurs, which is material.

Any change in conditions or controls which make it impracticable to determine the amount payable.

Potential Postponement of Reference Date or Averaging Reference Date

In the circumstances described above, the Reference Date or Averaging Reference Date may, or may not, be postponed until a day on which the level of the relevant Index is published or can otherwise be determined by the Calculation Agent, subject to a long-stop date (designated by reference to the term "**Maximum Days of Disruption**") by which a level must be determined for the purpose of calculating the payments in respect of the Index Linked Securities.

The occurrence of a Scheduled Trading Day or a Disrupted Day may differ in respect of two or more Indices in an Index Basket, and in such circumstances, the Reference Date or Averaging Reference Date for such Indices may remain different or may be postponed so that each Index in the Index Basket has the same Reference Date or Averaging Reference Date.

Overview of Consequences

The Index Linked Conditions define the circumstances in which the determination of a level of an Index or Indices may be postponed and stipulate how such level or levels should be determined by reference to Index Linked Securities that relate to a single Index or an Index Basket and Reference Dates or Averaging Reference Dates.

The following overviews set out the default consequence in respect of each type of Index Linked Security if the Scheduled Reference Date or Scheduled Averaging Reference Date is not a Scheduled Trading Day or is a Disrupted Day, though such overviews are subject to, and must be read in conjunction with, the more detailed contents of the Index Linked Conditions.

Calculation Agent Determinations and Calculations

The Calculation Agent, which will be Goldman Sachs International (unless otherwise specified in the relevant Issue Terms), may be required to make certain determinations and calculations pursuant to the Index Linked Conditions relating to, among others, the occurrence of a Scheduled Trading Day or a Disrupted Day, the calculation of an Index Level, the methodology of a replacement index, the occurrence, and materiality, or of an Index Adjustment Event (such term is described below), adjustments to the terms and conditions of Index Linked Securities following the occurrence of such events and the calculation of early redemption amounts. In all circumstances, the Calculation Agent must make such determinations and calculations in good faith and in a commercially reasonable manner.

Single Index and Reference Date

- (a) Unless specified otherwise, the Reference Date will be the first succeeding Scheduled Trading Day that is not a Disrupted Day, with a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (b) The Issue Terms may, however, specify that no adjustment should be made in the event of a Disrupted Day occurring on the Scheduled Reference Date and that the Calculation Agent shall determine the Index Level on the Scheduled Reference Date.

Single Index and Averaging Reference Date

There are four options that can be specified in the relevant Issue Terms:

- (a) **Omission** – the Scheduled Averaging Reference Date is discarded from the valuation process, provided that there must be at least one Averaging Reference Date, upon which an Index Level can be determined, otherwise the sole Averaging Reference Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day following the final Scheduled Averaging Reference Date, with a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (b) **Postponement** – the Averaging Reference Date in respect of a Scheduled Averaging Reference Date will be the first succeeding Scheduled Trading Day that is not a Disrupted Day, with a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (c) **Modified Postponement** – the Averaging Reference Date will be the first succeeding Valid Date, i.e. a Scheduled Trading Day that is not a Disrupted Day and is not another Averaging Reference Date, subject to a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (d) **No Adjustment** – the Calculation Agent shall determine the Index Level on the Scheduled Averaging Reference Date.

The Issue Terms in respect of Index Linked Securities that are linked to an Index Basket will specify which of the following elections will be applicable.

Index Basket and Reference Dates – Individual Scheduled Trading Day and Individual Disrupted Day

- (a) If the Scheduled Reference Date for an Index is a Scheduled Trading Day and not a Disrupted Day, then the Scheduled Reference Date will be the Reference Date for such Index.
- (b) If the Scheduled Reference Date for an Index is not a Scheduled Trading Day or is a Disrupted Day, then the Reference Date will be the first succeeding Scheduled Trading Day that is not a Disrupted Day, with a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level, provided that, if the Issue Terms specify that no adjustment should be made, then the Calculation Agent shall determine the Index Level on the Scheduled Reference Date.

Index Basket and Averaging Reference Dates – Individual Scheduled Trading Day and Individual Disrupted Day

If the Scheduled Averaging Reference Date for any Share is not a Scheduled Trading Day or is a Disrupted Day, then one of the following four options may be selected:

- (a) **Omission** – the Scheduled Averaging Reference Date is discarded from the valuation process, provided that there must be at least one Averaging Reference Date, upon which each Index Level in the Index Basket can be determined: (i) if the final Scheduled Averaging Reference Date for an Index is a Scheduled Trading Day and is not a Disrupted Day, then the Scheduled Averaging Reference Date will be the Averaging Reference Date for such Index, and (ii) if the final Scheduled Averaging Reference Date for an Index is not a Scheduled Trading Day or is a Disrupted Day, then the standard eight Scheduled Trading Day postponement provisions will apply to the final Scheduled Averaging Reference Date, upon which the Calculation Agent will determine the Index Level.
- (b) **Postponement** – (i) if the Scheduled Averaging Reference Date for an Index is a Scheduled Trading Day and is not a Disrupted Day, then the Scheduled Averaging Reference Date will be the Averaging Reference Date for such Index, and (ii) if the Scheduled Averaging Reference Date for an Index is not a Scheduled Trading Day or is a Disrupted Day, the Averaging Reference Date for such Index will be the first succeeding Scheduled Trading Day that is not a Disrupted Day, a long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (c) **Modified Postponement** – (i) if the Scheduled Averaging Reference Date for an Index is a Scheduled Trading Day and is not a Disrupted Day, then the Scheduled Averaging Reference Date will be the Averaging Reference Date for such Index, and (ii) if the Scheduled Averaging Reference Date for an Index is not a Scheduled Trading Day or is a Disrupted Day, the Averaging Reference Date for such Index will be the first Valid Date, i.e. a Scheduled Trading Day that is not a Disrupted Day and is not another Averaging Reference Date, subject to a long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (d) **No Adjustment** – the Scheduled Averaging Reference Date for an Index will be the Averaging Reference Date for such Index, and the Calculation Agent shall determine the Index Level on the Scheduled Averaging Reference Date.

Index Basket and Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day

- (a) If the Scheduled Reference Date for each Index is a Scheduled Trading Day (the "**Common Scheduled Trading Day**") and not a Disrupted Day, then the Scheduled Reference Date will be the Reference Date for each Index.
- (b) (I) If the Scheduled Reference Date is a Common Scheduled Trading Day but is a Disrupted Day for one or more Indices, or (II) if the Scheduled Reference Date is not a Common Scheduled Trading Day, in which case the Reference Date for each Index will be the first succeeding Common Scheduled Trading Day, provided that,

- (i) if the Common Scheduled Trading Day for an Index is not a Disrupted Day, then the Common Scheduled Trading Day will be the Reference Date for such Index; and
- (ii) if the Common Scheduled Trading Day for an Index is a Disrupted Day, then the Reference Date for such Index will be the first succeeding Scheduled Trading Day that is not a Disrupted Day, with a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level, provided that, if the Issue Terms specify that no adjustment should be made, then the Calculation Agent shall determine the Index Level on the Scheduled Reference Date.

Index Basket and Averaging Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day

If the Scheduled Averaging Reference Date for any Index is not a Scheduled Trading Day or is a Disrupted Day, then one of the following four options may be selected:

- (a) **Omission** – the Scheduled Averaging Reference Date is discarded from the valuation process, provided that there must be at least one Averaging Reference Date, upon which each Index Level in the Index Basket can be determined: (i) if the final Scheduled Averaging Reference Date is a Scheduled Trading Day for each Index (the "**Common Scheduled Trading Day**") and not a Disrupted Day, then such Scheduled Averaging Reference Date will be the Averaging Reference Date for each Index, and (ii) if (A) the final Scheduled Reference Date is a Common Scheduled Trading Day but is a Disrupted Day for one or more Indices, or (B) if the Scheduled Averaging Reference Date is not a Common Scheduled Trading Day, in which case the Averaging Reference Date for each Index will be the first succeeding Common Scheduled Trading Day, provided that:
 - (i) if such Common Scheduled Trading Day is not a Disrupted Day for an Index, then such Common Scheduled Trading Day will be the Averaging Reference Date for such Index; and
 - (ii) if such Common Scheduled Trading Day is a Disrupted Day for an Index, then the Averaging Reference Date for such Index will be the first succeeding Scheduled Trading Day that is not a Disrupted Day, with a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (b) **Postponement** – (i) if the Scheduled Averaging Reference Date is a Scheduled Trading Day for each Index (the "**Common Scheduled Trading Day**") and not a Disrupted Day, then such Scheduled Averaging Reference Date will be the Averaging Reference Date for each Index, and (ii) if (A) the Scheduled Reference Date is a Common Scheduled Trading Day but is a Disrupted Day for one or more Indices, or (B) if the Scheduled Averaging Reference Date is not a Common Scheduled Trading Day, in which case the Averaging Reference Date for each Index will be the first succeeding Common Scheduled Trading Day, provided that:
 - (i) if such Common Scheduled Trading Day is not a Disrupted Day for an Index, then such Common Scheduled Trading Day will be the Averaging Reference Date for such Index; and
 - (ii) if such Common Scheduled Trading Day is a Disrupted Day for an Index, then the Averaging Reference Date for such Index will be the first succeeding Scheduled Trading Day that is not a Disrupted Day for an Index, with a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (c) **Modified Postponement** – (i) if the Scheduled Averaging Reference Date is a Scheduled Trading Day for each Index (the "**Common Scheduled Trading Day**") and not a Disrupted Day, then such Scheduled Averaging Reference Date will be the Averaging Reference Date for each Index, and (ii) if (A) the Scheduled Reference Date is a Common Scheduled Trading Day but is a Disrupted Day for one or more Indices, or (B) if the Scheduled Averaging Reference Date is not a Common Scheduled Trading Day, in which case the Averaging Reference Date

for each Index will be the first succeeding Common Scheduled Trading Day that is not another Averaging Reference Date, provided that:

- (i) if such Common Scheduled Trading Day is not a Disrupted Day for an Index, then such Common Scheduled Trading Day will be the Averaging Reference Date for such Index; and
 - (ii) if such Common Scheduled Trading Day is a Disrupted Day for an Index, then the Averaging Reference Date for such Index will be the first Valid Date, i.e. a Scheduled Trading Day that is not a Disrupted Day and is not another Averaging Reference Date, subject to a long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Index Level.
- (d) **No Adjustment** – the Scheduled Averaging Reference Date for each Index will be the Averaging Reference Date, and the Calculation Agent shall determine the Index Level on the Scheduled Averaging Reference Date.

Index Basket and Reference Dates – Common Scheduled Trading Day and Common Disrupted Day

- (a) If the Scheduled Reference Date for each Index is a Scheduled Trading Day and not a Disrupted Day, then the Scheduled Reference Date will be the Reference Date for each Index.
- (b) If the Scheduled Reference Date for any Index is not a Scheduled Trading Day or is a Disrupted Day, then the Reference Date for each Index will be the first succeeding Scheduled Trading Day that is a Scheduled Trading Day for each Index (the "**Common Scheduled Trading Day**"), which is not a Disrupted Day for any Index, unless each of the eight consecutive Common Scheduled Trading Days is a Disrupted Day for any Index. In such circumstances:
 - (i) the last consecutive Common Scheduled Trading Day shall be the Reference Date for each Index;
 - (ii) if the last consecutive Common Scheduled Trading Day for an Index is not a Disrupted Day, then such Index Level will be determined by reference to the relevant screen pages; and
 - (iii) if the last consecutive Common Scheduled Trading Day for an Index is a Disrupted Day, then the Calculation Agent shall determine the Index Level,

provided that, if the relevant Issue Terms specify that no adjustment should be made, then the Calculation Agent shall determine the Index Level on the Scheduled Reference Date.

Index Basket and Averaging Reference Dates – Common Scheduled Trading Day and Common Disrupted Day

If the Scheduled Averaging Reference Date for any Index is not a Scheduled Trading Day or is a Disrupted Day for any Index, then one of the following four options may be selected:

- (a) **Omission** – the Scheduled Averaging Reference Date is discarded from the valuation process, provided that there must be at least one Averaging Reference Date, upon which each Index Level in the Index Basket can be determined: (i) if the final Scheduled Averaging Reference Date is a Scheduled Trading Day for each Index (the "**Common Scheduled Trading Day**") and not a Disrupted Day for any Index, then such Scheduled Averaging Reference Date will be the Averaging Reference Date for each Index, and (ii) if the final Scheduled Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day for one or more Indices, then the Averaging Reference Date for each Index will be the first succeeding Scheduled Trading Day that is not a Disrupted Day for any Index, unless each of the eight consecutive Common Scheduled Trading Days is a Disrupted Day for any Index. In such circumstances:
 - (i) if the last consecutive Common Scheduled Trading Day shall be the Averaging Reference Date for each Index;

- (ii) if the last consecutive Common Scheduled Trading Day for an Index is not a Disrupted Day, then such Index Level will be determined by reference to the relevant screen pages; and
 - (iii) if the last consecutive Common Scheduled Trading Day is a Disrupted Day for an Index, then the Calculation Agent shall determine the Index Level.
- (b) **Postponement** – (i) if the Scheduled Averaging Reference Date is a Scheduled Trading Day for each Index (the "**Common Scheduled Trading Day**") and not a Disrupted Day for any Index, then such Scheduled Averaging Reference Date will be the Averaging Reference Date for each Index, and (ii) if the Scheduled Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day for one or more Indices, then the Averaging Reference Date for each Index will be the first succeeding Scheduled Trading Day that is not a Disrupted Day for any Index, unless each of the eight consecutive Common Scheduled Trading Days following the Scheduled Averaging Reference Date is a Disrupted Day for any Index. In such circumstances:
 - (i) the last consecutive Common Scheduled Trading Day shall be the Averaging Reference Date for each Index;
 - (ii) if the last consecutive Common Scheduled Trading Day for an Index is not a Disrupted Day, then such Index Level will be determined by reference to the relevant screen pages; and
 - (iii) if the last consecutive Common Scheduled Trading Day is a Disrupted Day for an Index, then the Calculation Agent shall determine the Index Level.
- (c) **Modified Postponement** – (i) if the Scheduled Averaging Reference Date is a Scheduled Trading Day for each Index (the "**Common Scheduled Trading Day**") and not a Disrupted Day for any Index, then such Scheduled Averaging Reference Date will be the Averaging Reference Date for each Index, and (ii) if the Scheduled Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day for one or more Indices, then the Averaging Reference Date for each Index will be the first succeeding **Common Valid Date**, i.e. a Common Scheduled Trading Day that is not a Disrupted Day for any Index and is not another Averaging Reference Date, unless each of the eight consecutive Common Scheduled Trading Days following such Scheduled Averaging Reference Date is a Disrupted Day for any Index or is another Averaging Date. In such circumstances:
 - (i) the last consecutive Common Scheduled Trading Day shall be the Averaging Reference Date for each Index;
 - (ii) if the last consecutive Common Scheduled Trading Day for an Index is not a Disrupted Day, then such Index Level will be determined by reference to the relevant screen pages; and
 - (iii) if the last consecutive Common Scheduled Trading Day is a Disrupted Day for an Index, then the Calculation Agent shall determine the Index Level.
- (d) **No Adjustment** – the Scheduled Averaging Reference Date for each Index will be the Averaging Reference Date, and the Calculation Agent shall determine the Index Level on the Scheduled Averaging Reference Date.

Adjustments to terms of Index Linked Securities

Following the occurrence of an Index Adjustment Event or Change in Law specified as applicable in the relevant Issue Terms, the Calculation Agent may (depending on the terms and conditions of the applicable Securities) determine itself the Index Level, rebase the Index Linked Securities against another comparable index or basket of indices or make adjustments to the terms of the Index Linked Securities and calculations as described in the Conditions. In the event that the proposed actions (a) would be unlawful or contravene any applicable licensing requirements, or (b) would not achieve a commercially reasonable result, the Index Linked Securities may be redeemed early.

Index Adjustment Event includes, in respect of an Index other than a Proprietary Index (i) **Index Modification**, which means that the relevant Index Sponsor makes a material non-prescribed change in the formula or composition of the Index; (ii) **Index Cancellation**, which means that the Index has been cancelled and no successor exists; (iii) **Index Disruption**, which means that the relevant Index Sponsor fails to calculate and announce the Index (though this may be deemed to be a Disrupted Day by the Calculation Agent); or (iv) an **Administrator/Benchmark Event**, which means that any relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, inclusion in any official register or similar regulatory or legal requirement, in respect of the relevant Index or the administrator or sponsor of the Index, has not been or will not be obtained or has been or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use the Index to perform its or their respective obligations under the Index Linked Securities.

Index Adjustment Event includes, in respect of a Proprietary Index (i) **Index Cancellation**, which means that the Index has been cancelled and no successor exists; (ii) **Index Sponsor Exit Event**, Goldman Sachs International has ceased to be the Index Sponsor of the Index or has generally exited or has ceased to engage in the business of being the index sponsor for proprietary strategies and indices similar to the Index; or (iii) an **Administrator/Benchmark Event**, which means that any relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, inclusion in any official register or similar regulatory or legal requirement, in respect of the relevant Index or the administrator or sponsor of the Index, has not been or will not be obtained or has been or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use the Index to perform its or their respective obligations under the Index Linked Securities.

Change in Law results in the relevant Issuer incurring material costs for performing its obligations under the Index Linked Securities.

INDEX-LINKED DERIVATIVES CONTRACTS ON INDICES

Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of certain Securities may be calculated by reference to, or a formula based upon, the Final Settlement Price or the Daily Settlement Price of a single Index-Linked Derivatives Contract relating to an Index, with an expiration date that matches the maturity date of such Securities, published by the exchange or quotation system in respect of such Index-Linked Derivatives Contract, on one or more Reference Dates or Averaging Reference Dates (as set out in the Issue Terms).

If the relevant Issue Terms specify that "Index-Linked Derivatives Contract Provisions" shall be applicable:

If neither the Final Settlement Price nor the Daily Settlement Price is published on the Scheduled Reference Date or Averaging Reference Date, then the Securities may be calculated by reference to, or a formula based upon, the index level of the related Index and the relevant Index Linked Conditions, as described above, will apply.

Following the occurrence of an Index Modification in respect of an Index, the Calculation Agent shall (if "Calculation Agent Adjustment" is specified in the relevant Issue Terms) determine if such Index Modification has a material effect on the Index Linked Securities and, if so, may in its discretion take one of, or both of, or neither of, the following actions: (i) continue to calculate the relevant Index Level using the published level for such Index; and/or (ii) make the appropriate adjustments, if any, to any one or more of the terms of the Index Linked Securities, including, without limitation, any variable or term relevant to the settlement or payment under the Index Linked Securities, as the Calculation Agent determines appropriate.

Early Redemption pursuant to the occurrence of an Index-Linked Derivatives Contract Adjustment Event or a Change in Law

Following the determination by the Calculation Agent that an Index-Linked Derivatives Contract Adjustment Event or a Change in Law has occurred, the Calculation Agent will make the adjustments to the terms of the Securities and/or the Securities may be redeemed early.

Index-Linked Derivatives Contract Adjustment Event means that any term of the relevant Index-Linked Derivatives Contract is changed or modified by the Derivatives Exchange (including if it is permanently discontinued) and such change or modification could have a material effect on the Securities.

Change in Law results in the relevant Issuer incurring material costs for performing its obligations under the Securities.

INDEX LINKED CONDITIONS

**Adjustment, Modification and Disruption Provisions for
Index Linked Notes and Index Linked Instruments**

1.	Consequences of Non-Scheduled Trading Days, Non-Common Scheduled Trading Days or Disrupted Days
1.1	Single Index and Reference Dates
1.2	Single Index and Averaging Reference Dates
1.3	Index Basket and Reference Dates – Individual Scheduled Trading Day and Individual Disrupted Day
1.4	Index Basket and Averaging Reference Dates – Individual Scheduled Trading Day and Individual Disrupted Day
1.5	Index Basket and Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day
1.6	Index Basket and Averaging Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day
1.7	Index Basket and Reference Dates – Common Scheduled Trading Day and Common Disrupted Day
1.8	Index Basket and Averaging Reference Dates – Common Scheduled Trading Day and Common Disrupted Day
2.	Fallback Valuation Date
3.	Adjustments
3.1	Successor Index Sponsor or Successor Index
3.2	Occurrence of an Index Adjustment Event
3.3	Occurrence of a Change in Law
4.	Correction of Index Level
5.	Index Disclaimer
6.	Index-Linked Derivatives Contract Provisions
6.1	Early Redemption pursuant to the occurrence of an Index-Linked Derivatives Contract Adjustment Event
6.2	Corrections to price of Index-Linked Derivatives Contract
7.	Proprietary Index Provisions
7.1	Occurrence of an Index Adjustment Event
7.2	Correction of Index Level
8.	Definitions

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus which includes general risk factors in relation

to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Index Linked Securities on page 549.

These Index Linked Provisions shall apply to Instruments for which the relevant Issue Terms specify that the Index Linked Instruments are applicable and to Notes for which the relevant Issue Terms specify that the Index Linked Notes are applicable.

1. Consequences of Non-Scheduled Trading Days, Non-Common Scheduled Trading Days or Disrupted Days

1.1 Single Index and Reference Dates

Where the Index Linked Securities are specified in the relevant Issue Terms to relate to a single Index and such Issue Terms specify "**Single Index and Reference Dates**" to be applicable to the Index (and, if the Issue Terms specify that this provision shall apply to particular Reference Dates, then this provision shall apply to such Reference Dates only), and, if the Calculation Agent determines that any Scheduled Reference Date in respect of such Index is not a Scheduled Trading Day or is a Disrupted Day, then the Reference Date for such Index shall be the first succeeding Scheduled Trading Day that the Calculation Agent determines is not a Disrupted Day in respect of such Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption in respect of such Index immediately following such Scheduled Reference Date is a Disrupted Day for such Index. In that case:

- (a) that last consecutive Scheduled Trading Day shall be deemed to be the Reference Date for such Index, notwithstanding the fact that such day is a Disrupted Day for such Index; and
- (b) the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (b) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Reference Date for such Index shall be the Scheduled Reference Date, notwithstanding the fact that the Scheduled Reference Date is not a Scheduled Trading Day or is a Disrupted Day for such Index, and the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on such Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (a) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Reference Date.

1.2 Single Index and Averaging Reference Dates

Where the Index Linked Securities are specified in the relevant Issue Terms to relate to a single Index and such Issue Terms specify "**Single Index and Averaging Reference Dates**" to be applicable to the Index (and, if the Issue Terms specify that this provision shall apply to particular Averaging Reference

Dates, then this provision shall apply to such Averaging Reference Dates only), and, if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of such Index is not a Scheduled Trading Day or is a Disrupted Day and, if the relevant Issue Terms specify:

- (a) **"Omission"** to be applicable, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Dates, then the Averaging Reference Date for such Index shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Calculation Agent determines is not a Disrupted Day in respect of such Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption in respect of such Index immediately following such final Scheduled Averaging Reference Date is a Disrupted Day for such Index. In that case:
 - (i) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Index, notwithstanding the fact that such day is a Disrupted Day for such Index; and
 - (ii) the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date);
- (b) **"Postponement"** to be applicable, then the relevant Averaging Reference Date for such Index shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date that the Calculation Agent determines is not a Disrupted Day for such Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption in respect of such Index immediately following such Scheduled Averaging Reference Date is a Disrupted Day for such Index. In that case:
 - (i) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Index, notwithstanding the fact that such day is a Disrupted Day for such Index; and
 - (ii) the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date. For the avoidance of doubt, an Averaging Reference Date determined in accordance with this Index Linked Condition 1.2 in respect of a Scheduled Averaging Reference Date may fall on the same day that another Averaging Reference Date in respect of another Scheduled Averaging Reference Date falls, whether or not such latter

Averaging Reference Date was also determined in accordance with this Index Linked Condition 1.2;

- (c) **"Modified Postponement"** to be applicable, then the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date that, but for the occurrence of another Averaging Reference Date or a Disrupted Day for such Index, would have been the relevant Averaging Reference Date, then:
- (i) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Index, notwithstanding the fact that such day is already an Averaging Reference Date or is a Disrupted Day for such Index; and
 - (ii) the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date),

provided that,

- (d) if the relevant Issue Terms specify **"No Adjustment"** to be applicable, then the relevant Averaging Reference Date for such Index shall be such Scheduled Averaging Reference Date, notwithstanding the fact that such Scheduled Averaging Reference Date is not a Scheduled Trading Day or is a Disrupted Day for such Index, and the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on such Averaging Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Averaging Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Averaging Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Averaging Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Averaging Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (d) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date);
- (e) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Scheduled Trading Day or is a Disrupted Day in respect of such Index and, the relevant Issue Terms do not specify the consequence, then **"Postponement"** will apply.

1.3 Index Basket and Reference Dates – Individual Scheduled Trading Day and Individual Disrupted Day

Where the Index Linked Securities are specified in the relevant Issue Terms to relate to an Index Basket and such Issue Terms specify **"Basket Valuation (Individual Scheduled Trading Day and Individual Disrupted Day)"** to be applicable to the Indices (and, if the Issue Terms specify that this provision shall apply to particular Reference Dates, then this provision shall apply to such Reference Dates only), and, if the Calculation Agent determines that any Scheduled Reference Date in respect of any Index in the Index Basket is not a Scheduled Trading Day or is a Disrupted Day for such Index, then:

- (a) if the Calculation Agent determines that such Scheduled Reference Date for an Index is a Scheduled Trading Day that is not a Disrupted Day, then the Reference Date for such Index shall be such Scheduled Reference Date;
- (b) if the Calculation Agent determines that such Scheduled Reference Date for an Index is not a Scheduled Trading Day or is a Disrupted Day, then the Reference Date for such Index shall be the first succeeding Scheduled Trading Day which the Calculation Agent determines is not a Disrupted Day for such Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day for such Index. In that case:
 - (i) that last consecutive Scheduled Trading Day shall be deemed to be the Reference Date for such Index, notwithstanding the fact that such day is a Disrupted Day for such Index; and
 - (ii) the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the Index Level at the relevant Valuation Time in respect of such Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Reference Date for such Index shall be the Scheduled Reference Date, notwithstanding the fact that such Scheduled Reference Date is not a Scheduled Trading Day or is a Disrupted Day for such Index, and the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on such Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (c) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Reference Date;

1.4 Index Basket and Averaging Reference Dates – Individual Scheduled Trading Day and Individual Disrupted Day

Where the Index Linked Securities are specified in the relevant Issue Terms to relate to an Index Basket and such Issue Terms specify "**Basket Valuation (Individual Scheduled Trading Day and Individual Disrupted Day)**" to be applicable to the Indices (and, if the Issue Terms specify that this provision shall apply to particular Averaging Reference Dates, then this provision shall apply to such Averaging Reference Dates only), and, if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of any Index in the Index Basket is not a Scheduled Trading Day or is a Disrupted Day for such Index and:

- (a) if the relevant Issue Terms specify "**Omission**" to be applicable, such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Index in the Index Basket, provided that, if through the operation of this provision there would not be

any Averaging Reference Dates, then the sole Averaging Reference Date for such Indices shall be determined by reference to the final Scheduled Averaging Reference Date as follows:

- (i) for each Index in the Index Basket for which the Calculation Agent determines that such final Scheduled Averaging Reference Date is a Scheduled Trading Day that is not a Disrupted Day, the Averaging Reference Date for such Index shall be such final Scheduled Averaging Reference Date; and
 - (ii) for each Index in the Index Basket for which the Calculation Agent determines that such final Scheduled Averaging Reference Date is not a Scheduled Trading Day or is a Disrupted Day, then the Averaging Reference Date for such Index shall be the first succeeding Scheduled Trading Day following the final Scheduled Averaging Reference Date that the Calculation Agent determines is not a Disrupted Day in respect of such Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption in respect of such Index immediately following such final Scheduled Averaging Reference Date is a Disrupted Day for such Index. In that case:
 - (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Index, notwithstanding the fact that such day is a Disrupted Day for such Index; and
 - (B) the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of each Index, such determination by the Calculation Agent pursuant to this paragraph (B) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date);
- (b) if the relevant Issue Terms specify "**Postponement**" to be applicable, then:
- (i) for each Index in the Index Basket for which the Calculation Agent determines that such Scheduled Averaging Reference Date is a Scheduled Trading Day that is not a Disrupted Day, the Averaging Reference Date for such Index shall be such Scheduled Averaging Reference Date; and
 - (ii) for each Index in the Index Basket for which the Calculation Agent determines that such Scheduled Averaging Reference Date is not a Scheduled Trading Day or is a Disrupted Day, then the Averaging Reference Date for such Index shall be the first succeeding Scheduled Trading Day following such Scheduled Averaging Reference Date that the Calculation Agent determines is not a Disrupted Day in respect of such Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption in respect of such Index immediately following such final Scheduled Averaging Reference Date is a Disrupted Day for such Index. In that case:
 - (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Index, notwithstanding the fact that such day is a Disrupted Day for such Index; and
 - (B) the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in

effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of each Index, such determination by the Calculation Agent pursuant to this paragraph (B) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date). For the avoidance of doubt, an Averaging Reference Date determined in accordance with this Index Linked Condition 1.4 in respect of a Scheduled Averaging Reference Date may fall on the same day that another Averaging Reference Date in respect of another Scheduled Averaging Reference Date falls, whether or not such latter Averaging Reference Date was also determined in accordance with this Index Linked Condition 1.4;

- (c) if the relevant Issue Terms specify "**Modified Postponement**" to be applicable, then:
- (i) for each Index in the Index Basket for which the Calculation Agent determines that such Scheduled Averaging Reference Date is a Scheduled Trading Day that is not a Disrupted Day, the Averaging Reference Date for such Index shall be such Scheduled Averaging Reference Date; and
 - (ii) for each Index in the Index Basket for which the Calculation Agent determines that such Scheduled Averaging Reference Date is not a Scheduled Trading Day or is a Disrupted Day, the relevant Averaging Reference Date shall be the first succeeding Valid Date for such Index. If the first succeeding Valid Date for such Index has not occurred as of the relevant Valuation Time on the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date that, but for the occurrence of another Averaging Reference Date or a Disrupted Day for such Index, would have been the relevant Averaging Reference Date, then:
 - (A) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Index, notwithstanding the fact that such day is already an Averaging Reference Date or is a Disrupted Day for such Index; and
 - (B) the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using, the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (B) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date),
- provided that,
- (d) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Averaging Reference Date for each Index in the Index Basket shall be such Scheduled Averaging Reference Date, notwithstanding the fact that such Scheduled Averaging Reference Date is not a Scheduled Trading Day or is a Disrupted Day for such Index, and the Calculation Agent shall determine the Index Level of such Index as of the relevant Valuation Time on such Averaging Reference Date in accordance with the formula for and method of, calculating such Index last in effect

prior to the occurrence of such Averaging Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Averaging Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Averaging Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Averaging Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (d) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date); and

- (e) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Scheduled Trading Day or is a Disrupted Day in respect of any Index in the Index Basket and, the relevant Issue Terms do not specify the consequence, then "**Postponement**" will apply.

1.5 Index Basket and Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day

Where the Index Linked Securities are specified in the relevant Issue Terms to relate to an Index Basket and such Issue Terms specify "**Basket Valuation (Common Scheduled Trading Day but Individual Disrupted Day)**" to be applicable to any two or more Indices (such Indices being "**Common Basket Indices**" and each a "**Common Basket Index**" for the purposes of this Index Linked Condition 1.5) (and, if the Issue Terms specify that this provision shall apply to particular Reference Dates, then this provision shall apply to such Reference Dates only), the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Reference Date is a Common Scheduled Trading Day that is not a Disrupted Day for any Common Basket Index, then the Reference Date for each Common Basket Index shall be such Scheduled Reference Date;
- (b) if (i) the Calculation Agent determines that any Scheduled Reference Date is a Common Scheduled Trading Day but is a Disrupted Day for one or more Common Basket Indices, or (ii) the Calculation Agent determines that any Scheduled Reference Date is not a Scheduled Trading Day for any Common Basket Index, in which case the Reference Date for each Common Basket Index shall be the first succeeding Common Scheduled Trading Day following such Scheduled Reference Date, provided that if such Common Scheduled Trading Day is a Disrupted Day for one or more Common Basket Indices, then, in respect of (i) and (ii), the following provisions shall apply:
 - (A) if the Calculation Agent determines that such Common Scheduled Trading Day is not a Disrupted Day for a Common Basket Index, then the Reference Date for such Common Basket Index shall be such Common Scheduled Trading Day; and
 - (B) if the Calculation Agent determines that such Common Scheduled Trading Day is a Disrupted Day for a Common Basket Index, then the Reference Date for such Common Basket Index shall be the first succeeding Scheduled Trading Day which the Calculation Agent determines is not a Disrupted Day for such Common Basket Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Common Scheduled Trading Day is a Disrupted Day for such Common Basket Index. In that case:
 - (1) that last consecutive Scheduled Trading Day shall be deemed to be the Reference Date for such Common Basket Index, notwithstanding the fact that such day is a Disrupted Day for such Common Basket Index; and
 - (2) the Calculation Agent shall determine the Index Level of such Common Basket Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Common Basket Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share

Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (2) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Reference Date),

provided that,

- (C) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Reference Date for each Common Basket Index shall be such Scheduled Reference Date, notwithstanding the fact that such Scheduled Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day for any Common Basket Index, and the Calculation Agent shall determine the Index Level of such Common Basket Index as of the relevant Valuation Time on such Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (C) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Reference Date.

1.6 Index Basket and Averaging Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day

Where the Index Linked Securities are specified in the relevant Issue Terms to relate to an Index Basket and such Issue Terms specify "**Basket Valuation (Common Scheduled Trading Day but Individual Disrupted Day)**" to be applicable to any two or more Indices (such Indices being "**Common Basket Indices**" and each a "**Common Basket Index**" for the purposes of this Index Linked Condition 1.6) (and, if the Issue Terms specify that this provision shall apply to particular Averaging Reference Dates, then this provision shall apply to such Averaging Reference Dates only), the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Averaging Reference Date is a Common Scheduled Trading Day that is not a Disrupted Day for any Common Basket Index, then the Averaging Reference Date for each Common Basket Index shall be such Scheduled Averaging Reference Date;
- (b) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day for one or more Common Basket Indices, the following provisions shall apply:
 - (i) if the relevant Issue Terms specify "**Omission**" to be applicable, such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Common Basket Index, provided that, if through the operation of this provision there would not be any Averaging Reference Dates, then the sole Averaging Reference Date for each Common Basket Index shall be determined by reference to the final Scheduled Averaging Reference Date as follows:
 - (A) if the Calculation Agent determines that such final Scheduled Averaging Reference Date is a Common Scheduled Trading Day that is not a Disrupted Day for any Common Basket Index, then the sole Averaging Reference Date for each Common Basket Index shall be such final Scheduled Averaging Reference Date;
 - (B) if (1) the Calculation Agent determines that such final Scheduled Averaging Reference Date is a Common Scheduled Trading Day but is a Disrupted Day for one or more Common Basket Indices, or (2) the Calculation Agent determines that such final Scheduled Averaging Reference Date is not a Scheduled Trading

Day for any Common Basket Index, in which case the sole Averaging Reference Date for each Common Basket Index shall be the first succeeding Common Scheduled Trading Day following such final Scheduled Averaging Reference Date (the final Scheduled Averaging Reference Date, following adjustment of such date owing to such final Scheduled Averaging Reference Date not being a Common Scheduled Trading Day, if applicable, the "**Final Averaging Reference Date**"), provided that if such Common Scheduled Trading Day is a Disrupted Day for one or more Common Basket Indices, then, in respect of (1) or (2), the following provisions shall apply:

- (a) if the Calculation Agent determines that the Final Averaging Reference Date is not a Disrupted Day for a Common Basket Index, then the sole Averaging Reference Date for such Common Basket Index shall be the Final Averaging Reference Date; and
 - (b) if the Calculation Agent determines that the Final Averaging Reference Date is a Disrupted Day for a Common Basket Index, then the sole Averaging Reference Date for such Common Basket Index shall be the first succeeding Scheduled Trading Day following the Final Averaging Reference Date that the Calculation Agent determines is not a Disrupted Day for such Common Basket Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following the Final Averaging Reference Date is a Disrupted Day for such Common Basket Index. In that case:
 - (x) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Common Basket Index, notwithstanding the fact that such day is a Disrupted Day for such Common Basket Index; and
 - (y) the Calculation Agent shall determine the Index Level of such Common Basket Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Common Basket Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Common Basket Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (y) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date);
- (ii) if the relevant Issue Terms specify "**Postponement**" to be applicable, then if (A) the Calculation Agent determines that such Scheduled Averaging Reference Date is a Common Scheduled Trading Day but is a Disrupted Day for one or more Common Basket Indices, or (B) the Calculation Agent determines that such Scheduled Averaging Reference Date is not a Scheduled Trading Day for any Common Basket Index, in which case the Averaging Reference Date for each Common Basket Index shall be the first succeeding Common Scheduled Trading Day following such Scheduled Averaging Reference Date (such Scheduled Averaging Reference Date, following adjustment of such date owing to such Scheduled Averaging Reference Date not being a Common Scheduled Trading Day, if applicable, the "**Adjusted Averaging Reference Date**"), provided that if such Adjusted Averaging Reference Date is a Disrupted Day for one or

more Common Basket Indices, then, in respect of (A) and (B), the following provisions shall apply:

- (1) if the Calculation Agent determines that such Adjusted Averaging Reference Date is not a Disrupted Day for a Common Basket Index, then the Averaging Reference Date for such Common Basket Index shall be such Adjusted Averaging Reference Date; and
 - (2) if the Calculation Agent determines that such Adjusted Averaging Reference Date is a Disrupted Day for a Common Basket Index, then the Averaging Reference Date for such Common Basket Index shall be the first succeeding Scheduled Trading Day following such Adjusted Averaging Reference Date that the Calculation Agent determines is not a Disrupted Day for such Common Basket Index, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Adjusted Averaging Reference Date is a Disrupted Day for such Common Basket Index. In that case:
 - (a) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Common Basket Index, notwithstanding the fact that such day is a Disrupted Day for such Common Basket Index; and
 - (b) the Calculation Agent shall determine the Index Level of such Common Basket Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Common Basket Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Common Basket Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of each Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (b) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date).
 - (3) For the avoidance of doubt, an Averaging Reference Date determined in accordance with this Index Linked Condition 1.6 in respect of a Scheduled Averaging Reference Date may fall on the same day that another Averaging Reference Date in respect of another Scheduled Averaging Reference Date falls, whether or not such latter Averaging Reference Date was also determined in accordance with this Index Linked Condition 1.6;
- (iii) if the relevant Issue Terms specify "**Modified Postponement**" to be applicable, then if (A) the Calculation Agent determines that such Scheduled Averaging Reference Date is a Common Scheduled Trading Day but is a Disrupted Day for one or more Common Basket Indices, or (B) such Scheduled Averaging Reference Date is not a Scheduled Trading Day for any Common Basket Index, in which case the Averaging Reference Date for each Common Basket Index shall be the first succeeding Common Scheduled Trading Day on which another Averaging Reference Date does not or is not deemed to occur immediately following such Scheduled Reference Date (such Scheduled Averaging Reference Date, following adjustment of such date owing to such Scheduled Averaging Reference Date not being a Common Scheduled Trading Day, if applicable, the "**Adjusted Averaging Reference Date**"), provided that if such Adjusted Averaging Reference Date is a Disrupted Day for one or more Common Basket Indices, then, in respect of (A) and (B), the following provisions shall apply:

- (1) if the Calculation Agent determines that such Adjusted Averaging Reference Date is not a Disrupted Day for a Common Basket Index, then the Averaging Reference Date for such Common Basket Index shall be such Adjusted Averaging Reference Date; and
- (2) if the Calculation Agent determines that such Adjusted Averaging Reference Date is a Disrupted Day for a Common Basket Index, then the relevant Averaging Reference Date for such Common Basket Index shall be the first succeeding Valid Date for such Common Basket Index. If the first succeeding Valid Date for such Common Basket Index has not occurred as of the relevant Valuation Time on the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Adjusted Averaging Reference Date, then:
 - (a) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Common Basket Index, notwithstanding the fact that such day is already an Averaging Reference Date or is a Disrupted Day for such Common Basket Index; and
 - (b) the Calculation Agent shall determine the Index Level of such Common Basket Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Common Basket Index last in effect prior to the occurrence of the first Disrupted Day, using, the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Common Basket Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (b) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Averaging Reference Date for each Common Basket Index shall be such Scheduled Averaging Reference Date, notwithstanding the fact that such Scheduled Averaging Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day for any Common Basket Index, and the Calculation Agent shall determine the Index Level of such Common Basket Index as of the relevant Valuation Time on such Averaging Reference Date in accordance with the formula for and method of, calculating such Common Basket Index last in effect prior to the occurrence of such Averaging Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Averaging Reference Date of each Component comprised in such Common Basket Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Averaging Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Averaging Reference Date) and, in respect of such Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (c) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date); and
- (d) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day in respect of any Common Basket Index and, the relevant Issue Terms do not specify the consequence, then "**Postponement**" will apply.

1.7 Index Basket and Reference Dates – Common Scheduled Trading Day and Common Disrupted Day

Where the Index Linked Securities are specified in the relevant Issue Terms to relate to an Index Basket and such Issue Terms specify "**Basket Valuation (Common Scheduled Trading Day and Common Disrupted Day)**" to be applicable to any two or more Indices (such Indices being "**Common Basket Indices**" and each a "**Common Basket Index**" for the purposes of this Index Linked Condition 1.7) (and, if the Issue Terms specify that this provision shall apply to particular Reference Dates, then this provision shall apply to such Reference Dates only), the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Reference Date is a Common Scheduled Trading Day that is not a Disrupted Day for any Common Basket Index, then the Reference Date for each Common Basket Index shall be such Scheduled Reference Date;
- (b) if the Calculation Agent determines that any Scheduled Reference Date is not a Scheduled Trading Day for any Common Basket Index or is a Common Scheduled Trading Day and a Disrupted Day for any Common Basket Index, then the Reference Date for each Common Basket Index shall be the first succeeding Common Scheduled Trading Day following such Scheduled Reference Date which the Calculation Agent determines is not a Disrupted Day for any Common Basket Index, unless the Calculation Agent determines that each of the consecutive Common Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Disrupted Day for one or more Common Basket Indices. In that case:
 - (i) that last consecutive Common Scheduled Trading Day shall be deemed to be such Reference Date for each Common Basket Index, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Indices, (such Common Basket Indices being "**Affected Common Basket Indices**" for such Reference Date, and each such Common Basket Index being an "**Affected Common Basket Index**" for such Reference Date);
 - (ii) for each Common Basket Index other than an Affected Common Basket Index, the relevant Index Level shall be determined by reference to the relevant screen pages by the Calculation Agent at the applicable Valuation Time on such last consecutive Common Scheduled Trading Day; and
 - (iii) for each Affected Common Basket Index, the Calculation Agent shall determine the Index Level of such Affected Common Basket Index as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day in accordance with the formula for and method of, calculating such Affected Common Basket Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day) and, in respect of such Affected Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (iii) shall be deemed to be the Index Level at the relevant Valuation Time in respect of such Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Reference Date for each Common Basket Index shall be such Scheduled Reference Date, notwithstanding the fact that such Scheduled Reference Date is not a Scheduled Trading Day or is a Disrupted Day for such Index, and the Calculation Agent shall determine the Index Level of such Common Basket Index as of the relevant Valuation Time on such Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Reference Date of each Component comprised in such Index (or, if an event giving rise

to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (c) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Reference Date.

1.8 Index Basket and Averaging Reference Dates – Common Scheduled Trading Day and Common Disrupted Day

Where the Index Linked Securities are specified in the relevant Issue Terms to relate to an Index Basket and such Issue Terms specify "**Basket Valuation (Common Scheduled Trading Day and Common Disrupted Day)**" to be applicable to any two or more Indices (such Indices being "**Common Basket Indices**" and each a "**Common Basket Index**" for the purposes of this Index Linked Condition 1.8) (and, if the Issue Terms specify that this provision shall apply to particular Averaging Reference Dates, then this provision shall apply to such Averaging Reference Dates only), the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Averaging Reference Date is a Common Scheduled Trading Day that is not a Disrupted Day for any Common Basket Index, then the Averaging Reference Date for each Common Basket Index shall be such Scheduled Averaging Reference Date;
- (b) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Scheduled Trading Day for any Common Basket Index or is a Common Scheduled Trading Day that is a Disrupted Day for any Common Basket Index and, if the relevant Issue Terms specify:
 - (i) "**Omission**" to be applicable, such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each Common Basket Index, provided that, if through the operation of this provision there would not be any Averaging Reference Dates, then the sole Averaging Reference Date for each Common Basket Index shall be the first succeeding Common Scheduled Trading Day following such final Scheduled Averaging Reference Date which the Calculation Agent determines is not a Disrupted Day for any Common Basket Index, unless the Calculation Agent determines that each of the consecutive Common Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such final Scheduled Averaging Reference Date is a Disrupted Day for one or more Common Basket Indices. In that case:
 - (A) that last consecutive Common Scheduled Trading Day shall be deemed to be the sole Averaging Reference Date for each Common Basket Index, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Indices, (such Common Basket Indices being "**Affected Common Basket Indices**" for such Averaging Reference Date, and each such Common Basket Index being an "**Affected Common Basket Index**" for such Averaging Reference Date);
 - (B) for each Common Basket Index other than an Affected Common Basket Index, the relevant Index Level shall be determined by reference to the relevant screen pages by the Calculation Agent at the applicable Valuation Time on such last consecutive Common Scheduled Trading Day; and
 - (C) for each Affected Common Basket Index, the Calculation Agent shall determine the Index Level of such Affected Common Basket Index as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day in accordance with the formula for and method of, calculating such Affected Common Basket Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day of each Component comprised in such Common Basket Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last

consecutive Common Scheduled Trading Day) and, in respect of such Affected Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (C) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date);

- (ii) **"Postponement"** to be applicable, then the Averaging Reference Date for each Common Basket Index shall be the first succeeding Common Scheduled Trading Day following such Scheduled Averaging Reference Date which the Calculation Agent determines is not a Disrupted Day for any Common Basket Index, unless the Calculation Agent determines that each of the consecutive Common Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Disrupted Day for one or more Common Basket Indices. In that case:
 - (A) that last consecutive Common Scheduled Trading Day shall be deemed to be the Averaging Reference Date for each Common Basket Index, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Indices, (such Common Basket Indices being **"Affected Common Basket Indices"** for such Averaging Reference Date, and each such Common Basket Index being an **"Affected Common Basket Index"** for such Averaging Reference Date);
 - (B) for each Common Basket Index other than an Affected Common Basket Index, the relevant Index Level shall be determined by reference to the relevant screen pages by the Calculation Agent at the applicable Valuation Time on such last consecutive Common Scheduled Trading Day; and
 - (C) for each Affected Common Basket Index, the Calculation Agent shall determine the Index Level of such Affected Common Basket Index as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day in accordance with the formula for and method of, calculating such Affected Common Basket Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day of each Component comprised in such Common Basket Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day) and, in respect of such Affected Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (C) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date).
- (iii) For the avoidance of doubt, an Averaging Reference Date determined in accordance with this Index Linked Condition 1.8 in respect of a Scheduled Averaging Reference Date may fall on the same day that another Averaging Reference Date in respect of another Scheduled Averaging Reference Date falls, whether or not such latter Averaging Reference Date was also determined in accordance with this Index Linked Condition 1.8;
- (iv) **"Modified Postponement"** to be applicable, then the relevant Averaging Reference Date for each Common Basket Index shall be the first succeeding Common Valid Date immediately following such Scheduled Averaging Reference Date. If the first succeeding Common Valid Date has not occurred as of the relevant Valuation Time on the consecutive Common Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date, then:
 - (A) that last consecutive Common Scheduled Trading Day shall be deemed to be the Averaging Reference Date for each Common Basket Index, notwithstanding the fact that such day is already an Averaging Reference Date or is a Disrupted Day for one or more Common Basket Indices, (such Common Basket Indices being **"Affected Common Basket Indices"** for such Averaging Reference Date, and

each such Common Basket Index being an "**Affected Common Basket Index**" for such Averaging Reference Date);

- (B) for each Common Basket Index other than an Affected Common Basket Index, the relevant Index Level shall be determined by reference to the relevant screen pages by the Calculation Agent at the applicable Valuation Time on such last consecutive Common Scheduled Trading Day; and
- (C) for each Affected Common Basket Index, the Calculation Agent shall determine the Index Level of such Affected Common Basket Index as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day in accordance with the formula for and method of, calculating such Affected Common Basket Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day of each Component comprised in such Affected Common Basket Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Scheduled Trading Day) and, in respect of each Affected Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (C) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date);

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Averaging Reference Date for each Common Basket Index shall be such Scheduled Averaging Reference Date, notwithstanding the fact that such Scheduled Averaging Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day for one or more Common Basket Indices, and the Calculation Agent shall determine the Index Level of such Common Basket Index as of the relevant Valuation Time on such Averaging Reference Date in accordance with the formula for and method of, calculating such Common Basket Index last in effect prior to the occurrence of such Averaging Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Averaging Reference Date of each Component comprised in such Common Basket Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Averaging Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Averaging Reference Date) and, in respect of such Common Basket Index, such determination by the Calculation Agent pursuant to this paragraph (c) shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Averaging Reference Date); and
- (d) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Common Scheduled Trading Day or is a Disrupted Day in respect of any Common Basket Index and, the relevant Issue Terms do not specify the consequence, then "**Postponement**" will apply.

2. Fallback Valuation Date

Notwithstanding any other terms of these Index Linked Conditions (subject as provided in Index Linked Condition 6 if the relevant Issue Terms specify that the "Index-Linked Derivatives Contract Provisions" to be applicable), if a Fallback Valuation Date is specified in the relevant Issue Terms to be applicable to any Reference Date or Averaging Reference Date (any such date being, for the purposes of this Index Linked Condition 2, a "**Relevant Date**") for an Index, and if, following adjustment of such Relevant Date pursuant to Index Linked Condition 1 (*Consequences of Non-Scheduled Trading Days, Non-Common Scheduled Trading Days or Disrupted Days*) above (for the purposes of this Index Linked Condition 2, an "**Affected Index**") the Relevant Date would otherwise fall after the specified Fallback Valuation Date in respect of such Affected Index, then such Fallback Valuation Date shall be deemed to be such Relevant Date for such Affected Index.

If such Fallback Valuation Date is not a Scheduled Trading Day or a Common Scheduled Trading Day or is a Disrupted Day in respect of such Affected Index, as the case may be, then the Calculation Agent shall determine the Index Level of such Affected Index as of the relevant Valuation Time on such Fallback Valuation Date in accordance with the formula for and method of, calculating such Affected Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on such Fallback Valuation Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Fallback Valuation Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Fallback Valuation Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this Index Linked Condition 2 shall be deemed to be the Index Level at the relevant Valuation Time in respect of the relevant Reference Date or Averaging Reference Date.

3. Adjustments

3.1 Successor Index Sponsor or Successor Index

If an Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor index sponsor acceptable to the Calculation Agent (a "**Successor Index Sponsor**") or (b) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for, and method of, calculation as used in the calculation of such Index, then in each case such index (the "**Successor Index**") will be deemed to be the Index.

3.2 Occurrence of an Index Adjustment Event

If the Calculation Agent determines in respect of an Index that, (a) on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, the relevant Index Sponsor or Successor Index Sponsor, if applicable, makes or announces that it will make a material change in the formula for, or the method of, calculating a relevant Index, or in any other way materially modifies such Index (other than a modification prescribed in that formula or method to maintain such Index in the event of changes in the Components, capitalisation and/or other routine events) (an "**Index Modification**"), or permanently cancels a relevant Index and no Successor Index exists as at the date of such cancellation (an "**Index Cancellation**"), (b) on any Reference Date, Averaging Reference Date, Observation Date or other relevant date, the Index Sponsor or Successor Index Sponsor, if applicable, fails to calculate and announce a relevant Index (an "**Index Disruption**", together with Index Modification, Index Cancellation and Index Disruption, an Index Adjustment Event), provided that, in respect of a Multi-Exchange Index, the Calculation Agent may, in its discretion, determine that such event instead results in the occurrence of a Disrupted Day, or (c) on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, an Administrator/Benchmark Event Date has occurred in respect of a relevant Index, the Calculation Agent may determine to take any of the following actions in (a), (b) or (c) below:

- (a) "**Calculation Agent Adjustment**": the Calculation Agent, may calculate the relevant Index Level using, in lieu of a published level for that Index, the level for such Index as at the Valuation Time on that Reference Date, Averaging Reference Date, Observation Date or other relevant date, as the case may be, as determined by the Calculation Agent in accordance with the formula for, and method of, calculating such Index last in effect prior to the relevant Index Adjustment Event, but using only those Components that comprised such Index immediately prior to such Index Adjustment Event (other than those Components that have since ceased to be listed on the relevant Exchange); or
- (b) "**Index Substitution**": The Calculation Agent may rebase the Index Linked Securities against another index or basket of indices, as applicable, selected by the Calculation Agent to be reasonably comparable to the relevant Index, and, following such rebasing, the Calculation Agent will make such adjustment(s) that it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Index Linked Securities to account for such rebasing; or
- (c) "**Related Exchange Adjustment**": the Calculation Agent may make the appropriate adjustments, if any, to any one or more of the terms of the Index Linked Securities, including without limitation, any variable or term relevant to the settlement or payment under the Index

Linked Securities, as the Calculation Agent determines appropriate, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment to the exercise, settlement, payment, or other terms of options or futures contracts on the Index traded on any Options Exchange;

provided that if:

- (a) it (I) is or would be unlawful at any time under any applicable law or regulation; or (II) would contravene any applicable licensing requirements for the Calculation Agent, to perform the actions prescribed in paragraphs (a), (b) or (c) above (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time); or
- (b) the Calculation Agent determines that none of the actions set out in paragraphs (a), (b) or (c) above, as is applicable, would achieve a commercially reasonable result for any of the Issuer, the Calculation Agent or the Holders,

on giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be, the Issuer shall redeem the Index Linked Securities in whole but not in part, each Index Linked Security being redeemed by payment of an amount equal to the Non-scheduled Early Repayment Amount of such Index Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be.

3.3 Occurrence of a Change in Law

Following the determination by the Calculation Agent that a Change in Law, if specified as being applicable in the relevant Issue Terms, has occurred, the Calculation Agent will:

- (a) determine the appropriate adjustment, if any, to be made to any one or more of the terms of the Index Linked Securities, including without limitation, any variable or term relevant to the settlement or payment under such Index Linked Securities, as the Calculation Agent determines appropriate to account for the Change in Law, and determine the effective date of that adjustment; or
- (b) redeem all, but not some only, of the Index Linked Securities by giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be. If the Index Linked Securities are so redeemed in whole, the Issuer will pay to each Holder in respect of each Index Linked Security held by such Holder an amount equal to the Non-scheduled Early Repayment Amount of such Index Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be.

4. Correction of Index Level

If the relevant Issue Terms specify that "**Correction of Index Level**" to be applicable for an Index, then, in the event that any Index Level published by the Index Sponsor on any date which is utilised for any calculation or determination is subsequently corrected and the correction is published, by the Index Sponsor within one Settlement Cycle after the original publication, the Calculation Agent will make any determination or determine the amount that is payable or deliverable as a result of that correction, and, to the extent necessary, will adjust any relevant terms of the Index Linked Securities to account for such correction, provided that, if a Correction Cut-off Date is applicable for a relevant Index for any relevant date, corrections published after such Correction Cut-off Date will be disregarded by the Calculation Agent for the purposes of determining or calculating any relevant amount, and/or whether any event specified in the Conditions has occurred.

5. Index Disclaimer

If "**Index Disclaimer**" is specified in the relevant Issue Terms to be applicable to an Index, then each of the Issuer, the relevant Guarantor and the Holders agrees and acknowledges, in respect of such Index, that the Index Linked Securities are not sponsored, endorsed, sold, or promoted by the Index or the Index Sponsor and no Index Sponsor makes any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Index and/or the levels at which the Index stands at any particular time on any particular date or otherwise. No Index or Index Sponsor shall be liable (whether in negligence or otherwise) to any person for any error in the Index and the Index Sponsor is under no obligation to advise any person of any error therein. No Index Sponsor is making any representation whatsoever, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with the Index Linked Securities. The Issuer and the relevant Guarantor shall have no liability to the Holders for any act or failure to act by the Index Sponsor in connection with the calculation, adjustment, or maintenance of the Index. None of the Issuer, the relevant Guarantor, the Calculation Agent or any of their respective affiliates has any affiliation with or control over the Index or Index Sponsor or any control over the computation, composition, or dissemination of the Indices. Although the Calculation Agent will obtain information concerning the Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty, or undertaking (express or implied) is made and no responsibility is accepted by the Issuer, the relevant Guarantor, their affiliates, or the Calculation Agent as to the accuracy, completeness, and timeliness of information concerning the Index.

6. Index-Linked Derivatives Contract Provisions

If the relevant Issue Terms specify that the "**Index-Linked Derivatives Contract Provisions**" to be applicable, the following terms shall apply, and Index Linked Condition 1 (*Consequences of Non-Scheduled Trading Days, Non-Common Scheduled Trading Days or Disrupted Days*) shall not apply, save in relation to determining the Final Index Level, if applicable:

6.1 Early Redemption pursuant to the occurrence of an Index-Linked Derivatives Contract Adjustment Event

If the relevant Issue Terms specify that the "**Index-Linked Derivatives Contract Provisions**" shall be applicable then following the determination by the Calculation Agent that an Index-Linked Derivatives Contract Adjustment Event has occurred, the Calculation Agent will:

- (a) determine the appropriate adjustment, if any, to be made to any one or more of the terms of the Securities, including without limitation, any variable or term relevant to the settlement or payment under the Securities, as the Calculation Agent determines appropriate to account for such Index-Linked Derivatives Contract Adjustment Event, and determine the effective date of that adjustment; or
- (b) redeem all, but not some only, of the Securities by giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as applicable. If the Securities are so redeemed in whole, the Issuer will pay to each Holder in respect of each Security held by such Holder an amount equal to the Non-scheduled Early Repayment Amount of the Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as applicable.

6.2 Corrections to price of Index-Linked Derivatives Contract

If the relevant Issue Terms specify that the "**Index-Linked Derivatives Contract Provisions**" shall be applicable then in the event that the relevant price of an Index-Linked Derivatives Contract which is utilised for any calculation or determination in relation to such Index-Linked Derivatives Contract is subsequently corrected and the correction is published by the Derivatives Exchange no later than the second Business Day prior to the Maturity Date, the Calculation Agent will make any determination or determine the amount that is payable or deliverable as a result of that correction, and, to the extent necessary, will adjust any relevant terms of the Securities to account for such correction.

7. Proprietary Index Provisions

If the relevant Issue Terms specify that the relevant Index is a "**Proprietary Index**", the following terms shall apply and Index Linked Condition 3.2 (*Occurrence of an Index Adjustment Event*) and Index Linked Condition 4 (*Correction of Index Level*) shall not apply to such Index.

7.1 Occurrence of an Index Adjustment Event

If the Calculation Agent determines in respect of a Proprietary Index that on or prior to any Reference Date, Averaging Reference Date, Observation Date or other relevant date, (a) the relevant Index Sponsor or Successor Index Sponsor, if applicable, permanently cancels such Proprietary Index and no Successor Index exists as at the date of such cancellation (an "**Index Cancellation**"), (b) Goldman Sachs International has ceased to be the Index Sponsor of the Index and has generally exited or has ceased to engage in the business of being the index sponsor for proprietary strategies and indices similar to such Proprietary Index (an "**Index Sponsor Exit Event**"), or (c) an Administrator/Benchmark Event Date has occurred in respect of such Proprietary Index, upon the Calculation Agent giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be, the Issuer shall (or, in respect of an Index Sponsor Exit Event, may (but is not obliged to)) redeem the Index Linked Securities in whole but not in part, each Index Linked Security being redeemed by payment of an amount equal to the Non-scheduled Early Repayment Amount of such Index Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be.

7.2 Correction of Index Level

If the relevant Issue Terms specify that "**Correction of Index Level**" to be applicable for a Proprietary Index, then, in the event that any Closing Index Level published by the Index Sponsor on any date which is utilised for any calculation or determination is subsequently corrected and the correction is published no later than two Business Days prior to the next date upon which any payment shall be made by the Issuer, the Calculation Agent will make any determination or determine the amount that is payable or deliverable as a result of that correction, and, to the extent necessary, will adjust any relevant terms of the Index Linked Securities to account for such correction, provided that, if a Correction Cut-off Date is applicable for such Proprietary Index for any relevant date, corrections published after such Correction Cut-off Date will be disregarded by the Calculation Agent for the purposes of determining or calculating any relevant amount, and/or whether any event specified in the Conditions has occurred.

8. Definitions

The following terms and expressions shall have the following meanings in relation to Index Linked Securities to which these Index Linked Conditions apply:

"**Adjusted Index Level**" or "**AIL**" means, in respect of an Index and a relevant date:

- (i) if the "Adjusted Index Level Type" is specified in the relevant Issue Terms to be "Decrement in Point", an amount calculated in accordance with the following formula:

$$\text{Max} \left[0; \left(\text{AIL} (t - 1) \times \frac{\text{CIL} (t)}{\text{CIL} (t - 1)} - \text{Decrement} \times \frac{n}{\text{Day Count Divisor}} \right) \right]; \text{ or}$$

- (ii) if the "Adjusted Index Level Type" is specified in the relevant Issue Terms to be "Decrement in Percentage 1", an amount calculated in accordance with the following formula:

$$\text{AIL} (t - 1) \times \frac{\text{CIL} (t)}{\text{CIL} (t - 1)} \times \left(1 - \frac{\text{Decrement}}{\text{Day Count Divisor}} \right)^n; \text{ or}$$

- (iii) if the "Adjusted Index Level Type" is specified in the relevant Issue Terms to be "Decrement in Percentage 2", an amount calculated in accordance with the following formula:

$$\text{AIL} (t - 1) \times \frac{\text{CIL} (t)}{\text{CIL} (t - 1)} \times \left(1 - n \times \frac{\text{Decrement}}{\text{Day Count Divisor}} \right)$$

"Adjusted Index Level (t-1)" or "AIL (t-1)" means, in respect of an Index and a relevant date, the Adjusted Index Level for such Index in respect of the Decrement Index Level Observation Date immediately preceding such date, or, if there is no Decrement Index Level Observation Date immediately preceding such date, the Decrement Index Level Period Start Date Level of such Index.

"Adjusted Index Level Applicable Date" means each day or date or type of day or date specified as such in the relevant Issue Terms or deemed to be an Adjusted Index Level Applicable Date in these Index Linked Conditions.

"Administrator/Benchmark Event" means, in respect of any Index Linked Securities and an Index, the occurrence or existence, as determined by the Calculation Agent, of any of the following events in respect of such Index:

- (a) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of an Index or the administrator or sponsor of an Index has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, or any prohibition by a relevant competent authority or other relevant official body, in each case with the effect that the Issuer and/or the Calculation Agent (as applicable) and/or any other relevant entity is not, or will not be, permitted under any applicable law or regulation to use the Index to perform its or their respective obligations under the Index Linked Securities; or
- (b) any material change to the methodology or formula for the Index or any other means of calculating the Index, as determined by the Calculation Agent ("**Material Methodology Change Event**").

"Administrator/Benchmark Event Date" means, in respect of an Index, the date determined by the Calculation Agent to be:

- (a) in the case of paragraph (a) of the definition of "Administrator/Benchmark Event", the date from which the Index may no longer be used under any applicable law or regulation by Issuer and/or the Calculation Agent (as applicable) and/or any other relevant entity to perform its or their respective obligations under the Index Linked Securities; or
- (b) in the case of paragraph (b) of the definition of "Administrator/Benchmark Event", the date on which the change to the methodology or formula for the Index becomes effective,

or, in each case, if such date occurs before the Strike Date, the Strike Date.

"Affected Common Basket Index" and **"Affected Common Basket Indices"** have the meaning given thereto in Index Linked Condition 1.7 (*Index Basket and Reference Dates – Common Scheduled Trading Day and Common Disrupted Day*) or Index Linked Condition 1.8 (*Index Basket and Averaging Reference Dates – Common Scheduled Trading Day and Common Disrupted Day*), as applicable.

"Affected Index" has the meaning given thereto in Index Linked Condition 2 (*Fallback Valuation Date*).

"Automatic Early Exercise Date" means such date as is specified in the relevant Issue Terms (each, a **"Scheduled Automatic Early Exercise Date"**), provided that, if the relevant Applicable Date is adjusted in accordance with the Conditions, the corresponding Automatic Early Exercise Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Exercise Settlement Period Business Days after the Latest Reference Date corresponding to such Applicable Date.

"Automatic Early Redemption Date" means such date as is specified in the relevant Issue Terms (each, a **"Scheduled Automatic Early Redemption Date"**), provided that, if the relevant Applicable Date is adjusted in accordance with the Conditions, the corresponding Automatic Early Redemption Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Redemption Settlement Period Business Days after the Latest Reference Date corresponding to such Applicable Date.

"Averaging Date" means:

- (a) in respect of a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as an Averaging Reference Date) in accordance with these Index Linked Conditions; and
- (b) in respect of a Proprietary Index, each date specified as such in the relevant Issue Terms (each a "**Scheduled Averaging Date**"), provided that if such Scheduled Averaging Date is not a Strategy Valuation Day, then the Averaging Date scheduled to fall on such Scheduled Averaging Date shall be the earlier to occur of:
 - (i) the first Strategy Valuation Day following such Scheduled Averaging Date; and
 - (ii) the Strategy Business Day that falls the Specified Number of Strategy Business Days after such Scheduled Averaging Date,

provided further that if, following the adjustments in (i) and (ii) above, such Averaging Date falls on the Strategy Business Day that falls the Specified Number of Strategy Business Days after such Scheduled Averaging Date and such date is not a Strategy Valuation Day, then the Closing Index Level of such Proprietary Index in respect of such Averaging Date shall be determined by the Calculation Agent, acting in good faith and in a commercially reasonable manner.

"Averaging Reference Date" means, in respect of an Index, each Initial Averaging Date or Averaging Date, in each case, subject to adjustment in accordance with these Index Linked Conditions.

"Change in Law" means that, on or after the Issue Date, due to (i) the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law) or (ii) the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines that the Issuer and/or any of its affiliates will incur a materially increased cost in performing its obligations under the Index Linked Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit, or other adverse effect on its tax position).

"Closing Index Level" means:

- (a) in respect of an Index and any relevant day, the official closing level of the Index (expressed in relevant Index Currency (if specified in the relevant Issue Terms) applicable to the Index) as at the Valuation Time on such relevant day as calculated and published by the Index Sponsor, as determined by the Calculation Agent;
- (b) in respect of a Proprietary Index and:
 - (i) any day falling within paragraph (a) of the definition of "Strategy Valuation Day", the Strategy Value published on the Relevant Screen Page in respect of such day; and
 - (ii) any day falling within paragraph (b) of the definition of "Strategy Valuation Day", the level determined by the Calculation Agent, acting in good faith and in a commercially reasonable manner, to be the Closing Index Level for such day.

"Closing Index Level (t)" or **"CIL(t)"** means, in respect of an Index and a relevant date, the Closing Index Level of the Index on such date, provided that, if such date is not a Scheduled Trading Day or is a Disrupted Day for such Index, and the Closing Index Level or the Index Level cannot otherwise be determined for such Index for such day using the other provisions of the Index Linked Conditions, then it shall be deemed that the CIL(t) for such day cannot be determined.

"Closing Index Level (t-1)" or **"CIL (t-1)"** means, in respect of an Index and a relevant date, the Closing Index Level for such Index in respect of the Decrement Index Level Observation Date immediately preceding such date, or, if there is no Decrement Index Level Observation Date immediately preceding such date, the Closing Index Level of such Index in respect of the Decrement Index Level Period Start Date.

"Common Basket Index" and **"Common Basket Indices"** have the meaning given thereto in Index Linked Condition 1.5 (*Index Basket and Reference Dates – Common Scheduled Trading Day but*

Individual Disrupted Day), Index Linked Condition 1.6 (*Index Basket and Averaging Reference Dates – Common Scheduled Trading Day but Individual Disrupted Day*), Index Linked Condition 1.7 (*Index Basket and Reference Dates – Common Scheduled Trading Day and Common Disrupted Day*), or Index Linked Condition 1.8 (*Index Basket and Averaging Reference Dates – Common Scheduled Trading Day and Common Disrupted Day*), as the case may be.

"Common Scheduled Trading Day" means, in respect of an Index Basket comprising Common Basket Indices, each day which is a Scheduled Trading Day for all Common Basket Indices in such Index Basket.

"Common Valid Date" means, in respect of an Index Basket comprising Common Basket Indices, a Common Scheduled Trading Day that is not a Disrupted Day for any Common Basket Index and on which another Averaging Reference Date does not or is not deemed to occur.

"Component" means:

- (i) in respect of a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, any share, security, commodity, rate, index or other component included in such Index, as determined by the Calculation Agent; or
- (ii) in respect of a Proprietary Index, a Strategy Component.

"Component Clearance System" means, in respect of a Component of an Index, the principal domestic clearance system customarily used for settling trades in the relevant Component on any relevant date, as determined by the Calculation Agent.

"Component Clearance System Business Day" means, in respect of a Component Clearance System, any day on which such Component Clearance System is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions.

"Correction Cut-off Date" means, if specified in the relevant Issue Terms to be applicable to any date on which the price of an Index is required to be determined, the date(s) specified as such in the relevant Issue Terms, or such number of Business Days as specified in the relevant Issue Terms prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the price of such Index on such day, unless "Default Correction Cut-off Date" is specified in the Issue Terms to be applicable in respect of any date on which the price of such Index is required to be determined, then the Correction Cut-off Date for such Index and such date shall be the second Business Day prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the price of such Index on such day.

"Daily Settlement Price" means, in respect of an Index-Linked Derivatives Contract and any day, the official settlement price of the relevant Index-Linked Derivatives Contract (howsoever described under the rules of the relevant Derivatives Exchange or its clearing house) for such day published by the Derivatives Exchange or its clearing house, as determined by the Calculation Agent.

"Day Count Divisor" means, in respect of an Index, either of (i) or (ii) as specified in the relevant Issue Terms: (i) 360, or (ii) 365.

"Derivatives Exchange" means each exchange or quotation system specified as such in the relevant Issue Terms in respect of the Index-Linked Derivatives Contract, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Index-Linked Derivatives Contract has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the Index-Linked Derivatives Contract on such temporary substitute exchange or quotation system as on the original Derivatives Exchange).

"Decrement" means, in respect of an Index, the amount or percentage as specified in the relevant Issue Terms for such Index.

"Decrement Index Level Observation Date" means, in respect of an Index and the Decrement Index Level Period for such Index, each Scheduled Trading Day for such Index that is not a Disrupted Day for such Index falling within such Decrement Index Level Period, as determined by the Calculation Agent (and, unless specified to the contrary in the relevant Issue Terms, each Decrement Index Level Observation Date shall be deemed to be an Adjusted Index Level Applicable Date).

"Decrement Index Level Period" means, in respect of an Index, the period commencing on (and excluding) the Decrement Index Level Period Start Date in respect of such Index and ending on (and including) the Decrement Index Level Period End Date in respect of such Index.

"Decrement Index Level Period End Date" means, in respect of an Index, the date specified as such in the relevant Issue Terms.

"Decrement Index Level Period Start Date" means, in respect of an Index, the date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as a Reference Date) in accordance with these Index Linked Conditions (and, unless specified to the contrary in the relevant Issue Terms, the Decrement Index Level Period Start Date shall be deemed to be an Adjusted Index Level Applicable Date).

"Decrement Index Level Period Start Date Level" means, in respect of an Index, either of (i) or (ii) as specified in the relevant Issue Terms: (i) the Closing Index Level of such Index in respect of the Decrement Index Level Period Start Date, or (ii) the amount set forth in the relevant Issue Terms as being the "Decrement Index Level Period Start Date Level" for such Index.

"Disrupted Day" means:

- (a) for any Unitary Index or Modified Unitary Index, any Scheduled Trading Day on which (i) a relevant Exchange or any Related Exchange fails to open for trading during its regular trading session or (ii) a Market Disruption Event has occurred; or
- (b) for any Multi-Exchange Index, any Scheduled Trading Day on which (i) the Index Sponsor fails to publish the level of the Index (provided that the Calculation Agent may, in its discretion, determine that such event instead results in the occurrence of an Index Disruption), (ii) the Related Exchange fails to open for trading during its regular trading session or (iii) a Market Disruption Event has occurred.

"Early Closure" means:

- (a) for any Unitary Index, the closure on any Exchange Business Day of any relevant Exchange relating to Components that comprise 20 per cent. or more of the level of the relevant Index or any Related Exchange prior to its Scheduled Closing Time, unless such earlier closing time is announced by such Exchange or Related Exchange at least one-hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange or Related Exchange on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day; or
- (b) for any Multi-Exchange Index or Modified Unitary Index, the closure on any Exchange Business Day with respect to such Multi-Exchange Index or Modified Unitary Index of the Exchange in respect of any Component, or the Related Exchange, prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange or Related Exchange, as the case may be, at least one-hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution as at the relevant Valuation Time on such Exchange Business Day.

"Entry Level Observation Date" means, in respect of (i) an Index or an Index Basket, each date specified as such in the relevant Issue Terms, (ii) an Index or an Index Basket, each Entry Level Observation Specified Date falling in the Entry Level Observation Period, (iii) in respect of an Index or an Index Basket, the First Entry Level Observation Date and each of the number of Scheduled Trading Days specified in the relevant Issue Terms for such Index following the First Entry Level Observation Date, or (iv) in respect of an Index Basket, the First Entry Level Observation Date and each of the number of Common Scheduled Trading Days specified in the relevant Issue Terms for all Indices in the Index Basket following the First Entry Level Observation Date, each as specified in the relevant Issue Terms and, in each case, subject to adjustment (as if each Entry Level Observation Date were an Averaging

Reference Date) in accordance with the Index Linked Conditions as specified to be applicable in the relevant Issue Terms.

"Entry Level Observation Period" if specified to be applicable, means, in respect of an Index:

- (a) if the relevant Issue Terms specify the consequence of "Extension", the period commencing on the Entry Level Observation Period Start Date in respect of such Index, following adjustment of such date pursuant to the Index Linked Conditions (and including or excluding such Entry Level Observation Period Start Date, as specified in the relevant Issue Terms) and ending on the Entry Level Observation Period End Date for such Index, following adjustment of such date pursuant to the Index Linked Conditions (and including or excluding such Entry Level Observation Period End Date, as specified in the relevant Issue Terms); or
- (b) if the relevant Issue Terms specify the consequence of "No Extension", the period commencing on the Entry Level Observation Period Start Date, prior to any adjustment of such date pursuant to the Index Linked Conditions (and including or excluding such Entry Level Observation Period Start Date for such Index, as specified in the relevant Issue Terms) and ending on the Entry Level Observation Period End Date for such Index, prior to any adjustment of such date pursuant to the Index Linked Conditions (and including or excluding such Entry Level Observation Period End Date, as specified in the relevant Issue Terms),

and in each case, where the Securities relate to an Index Basket, there shall be a separate Entry Level Observation Period in respect of each Index in the Index Basket.

"Entry Level Observation Period End Date" means, in respect of an Index, the date specified as such in the relevant Issue Terms (which date may, for the avoidance of doubt, be an Initial Valuation Date), which shall be the last day of the Entry Level Observation Period in respect of such Index, and shall be included or excluded from the Entry Level Observation Period, as specified in the relevant Issue Terms.

"Entry Level Observation Period Start Date" means, in respect of an Index, the date specified as such in the relevant Issue Terms (which date may, for the avoidance of doubt, be an Initial Valuation Date), which shall be the first day of the Entry Level Observation Period in respect of such Index, and shall be included or excluded from the Entry Level Observation Period, as specified in the relevant Issue Terms.

"Entry Level Observation Specified Date" means, if Entry Level Observation Period is specified to be applicable in the relevant Issue Terms, either (a) or (b) below as specified in the relevant Issue Terms:

- (a) "Scheduled Trading Day", in respect of each Index, each Scheduled Trading Day for such Index falling in the Entry Level Observation Period; or
- (b) "Common Scheduled Trading Day", in respect of each Common Basket Index, each Common Scheduled Trading Day falling in the Entry Level Observation Period.

"Exchange" means:

- (a) for any Unitary Index or Modified Unitary Index, each exchange or quotation system specified as such in the relevant Issue Terms for such Unitary Index or Modified Unitary Index, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Components underlying such Unitary Index or Modified Unitary Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the Components underlying such Unitary Index or Modified Unitary Index on such temporary substitute exchange or quotation system as on the original Exchange); or
- (b) for any Multi-Exchange Index, each exchange on which any Component of such Multi-Exchange Index is, in the determination of the Calculation Agent, principally traded, or as otherwise determined by the Calculation Agent, any successor to such Exchange or quotation system or any substitute exchange or quotation system to which trading in the Components underlying such Multi-Exchange Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity to the Components underlying such Multi-Exchange Index on such temporary substitute exchange or quotation system as on the original Exchange).

"Exchange Business Day" means:

- (a) for any Unitary Index or Modified Unitary Index, any Scheduled Trading Day on which each Exchange and each Related Exchange for such Unitary Index or Modified Unitary Index are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange for such Unitary Index or Modified Unitary Index closing prior to its Scheduled Closing Time; or
- (b) for any Multi-Exchange Index, any Scheduled Trading Day on which (i) the Index Sponsor calculates and publishes the level of such Multi-Exchange Index and (ii) the Related Exchange for such Multi-Exchange Index is open for trading during its regular trading session, notwithstanding the Related Exchange for such Multi-Exchange Index closing prior to its Scheduled Closing Time.

"Exchange Disruption" means:

- (a) for any Unitary Index, any event (other than an Early Closure) that disrupts or impairs, as determined by the Calculation Agent, the ability of market participants in general to effect transactions in, or obtain market values for, (i) any Component(s) on any relevant Exchange that comprise 20 per cent. or more of the level of such Unitary Index or (ii) futures or options contracts relating to such Unitary Index on any relevant Related Exchange; or
- (b) for any Multi-Exchange Index or Modified Unitary Index, any event (other than an Early Closure) that disrupts or impairs, as determined by the Calculation Agent, the ability of market participants in general to effect transactions in, or obtain market values for (i) any Component on the relevant Exchange in respect of such Component or (ii) futures or options contracts relating to such Multi-Exchange Index or Modified Unitary Index on the relevant Related Exchange.

"Expected Common Scheduled Trading Day" means, in respect of an Index Basket comprising Common Basket Indices, each day which is an Expected Scheduled Trading Day for all Common Basket Indices in such Index Basket.

"Expected Scheduled Trading Day" means, for the purposes of the Calculation Agent's determination of the day on which a Valuation Date is scheduled to fall in order to calculate the amount (if any) payable or deliverable on the Maturity Date:

- (a) in respect of any Unitary Index, any day on which the Calculation Agent anticipates, as of the date that it has determined that such Valuation Date should be scheduled to fall, that each Exchange and each Related Exchange for such Unitary Index specified in the relevant Issue Terms are scheduled to be open for trading for their respective regular trading sessions, falling in the period commencing on, and including, such date and ending on, but excluding, the Maturity Date; or
- (b) in respect of any Multi-Exchange Index, any day on the Calculation Agent anticipates, as of the date that it has determined that such Valuation Date should be scheduled to fall, that (i) the Index Sponsor is scheduled to publish the level of such Multi-Exchange Index and (ii) the Related Exchange for such Multi-Exchange Index is scheduled to be open for trading for its regular trading session falling in the period commencing on, and including, such date and ending on, but excluding, the Maturity Date.

"Fallback Valuation Date" means, in respect of any Index and if Fallback Valuation Date is specified in the relevant Issue Terms to be applicable to any date on which the level of such Index is required to be determined, the date(s) specified as such in the relevant Issue Terms or such number of Business Days as specified in the relevant Issue Terms prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the level of such Index on such day, unless "Default Fallback Valuation Date" is specified in the Issue Terms to be applicable to any date on which the level of such Index is required to be determined, then the Fallback Valuation Date for such Index and such date shall be the second Business Day prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the level of such Index on such day.

"Final Index Level" means an amount equal to the official closing level of the Index as at the Valuation Time on the relevant Valuation Date, as determined by the Calculation Agent and where the "Index Multiplier" is specified in the Issue Terms to be applicable, multiplied by the Index Multiplier.

"Final Reference Price" means, in respect of the relevant Index-Linked Derivatives Contract:

- (a) if the Final Settlement Price in respect of such Index-Linked Derivatives Contract is published by the Derivatives Exchange on the Scheduled Valuation Date corresponding to the relevant Valuation Date, such Final Settlement Price; or
- (b) if the Final Settlement Price is not published by the Derivatives Exchange in respect of the Index-Linked Derivatives Contract on the Scheduled Valuation Date corresponding to the relevant Valuation Date, but the Daily Settlement Price in respect of the Scheduled Valuation Date corresponding to the relevant Valuation Date is published by the Derivatives Exchange on such Scheduled Valuation Date, such Daily Settlement Price, provided that if neither the Final Settlement Price nor the Daily Settlement Price in respect of the Scheduled Valuation Date corresponding to the relevant Valuation Date is published (whether or not this results from trading in the Index-Linked Derivatives Contract not commencing or being permanently discontinued at any time on or prior to the Scheduled Valuation Date), the Final Index Level shall be deemed to be the Final Reference Price for such Valuation Date, as determined by the Calculation Agent,

provided that, if the "Special Quotation Price" is specified to be applicable in respect of an Index-Linked Derivatives Contract and any Valuation Date, the "Final Reference Price" shall mean, in respect of the relevant Index-Linked Derivatives Contract, the Special Quotation Price for such day, provided that if such Special Quotation Price in respect of the Scheduled Valuation Date corresponding to the relevant Valuation Date is not published (whether or not this results from trading in the Index-Linked Derivatives Contract not commencing or being permanently discontinued at any time on or prior to the Scheduled Valuation Date), the Final Index Level shall be deemed to be the Final Reference Price for such Valuation Date, as determined by the Calculation Agent.

"Final Settlement Price" means, in respect of an Index-Linked Derivatives Contract and any day, the final official settlement price of such Index-Linked Derivatives Contract (howsoever described under the rules of the relevant Derivatives Exchange or its clearing house) for such day published by the Derivatives Exchange or its clearing house.

"First Entry Level Observation Date" means such date as is specified in the relevant Issue terms, or if such day is not a Scheduled Trading Day for an Index or a Common Scheduled Trading Day for all Indices, as specified in the relevant Issue Terms, the first following Scheduled Trading Day for such Index or Common Scheduled Trading Day for all Indices, as specified in the relevant Issue Terms.

"Force Majeure Event" in respect of a Proprietary Index, shall have the meaning given to such term in the relevant Index Rules.

"Hedging Disruption" in respect of a Proprietary Index, shall have the meaning given to such term in the relevant Index Rules.

"Index" and **"Indices"** mean, subject to adjustment in accordance with these Index Linked Conditions, the index or indices specified in the relevant Issue Terms, and related expressions shall be construed accordingly.

"Index Adjustment Event" means, (a) for any Index other than a Proprietary Index, each of an Index Cancellation, an Index Disruption, an Index Modification and an Administrator/Benchmark Event; and (b) in respect of Proprietary Indices, each of an Index Cancellation, an Index Sponsor Exit Event and an Administrator/Benchmark Event.

"Index Basket" means, subject to adjustment in accordance with these Index Linked Conditions, a basket composed of Indices, as specified in the relevant Issue Terms.

"Index Cancellation" has the meaning given thereto in Index Linked Condition 3.2 (*Occurrence of an Index Adjustment Event*).

"Index Currency" means, in respect of an Index, the currency specified as such in the relevant Issue Terms, or if not specified, the currency which the relevant level of the Index is reported or published, if applicable.

"Index Disruption" has the meaning given thereto in Index Linked Condition 3.2 (*Occurrence of an Index Adjustment Event*).

"Index Level" means in respect of an Index, the level of the Index as determined by the Calculation Agent as of the relevant time on the relevant date, as calculated and published by the relevant Index Sponsor provided that, where the Underlying Asset is an Index-Linked Derivatives Contract, the official closing level of the Index as at the Valuation Time on the relevant date as calculated and published by the Index Sponsor.

"Index-Linked Derivatives Contract" means any futures, options or other derivatives contract relating to one or more Indices as specified in the relevant Issue Terms, and related expressions shall be construed accordingly.

"Index-Linked Derivatives Contract Adjustment Event" means, and shall have occurred if, the Calculation Agent determines that, any term of the relevant Index-Linked Derivatives Contract is changed or modified by the Derivatives Exchange (including if it is permanently discontinued), and the Calculation Agent determines that such change or modification could have a material effect on the Securities.

"Index-Linked Derivatives Contract Price" means in respect of an Index-Linked Derivatives Contract and any day:

- (a) the last traded price of such Index-Linked Derivatives Contract on the Derivatives Exchange in respect of such Index-Linked Derivatives Contract on such day;
- (b) if the price referred to in (a) above is not available on such day, then the Index-Linked Derivatives Contract Price shall be the arithmetic mean of the last bid price and the last offer price of such Index-Linked Derivatives Contract on the Derivatives Exchange on such day;
- (c) if (i) the price referred to in (a) above is not available on such day and (ii) one or both of the last bid price and/or the last offer price of such Index-Linked Derivatives Contract on the Derivatives Exchange are also not available on such day, then the Index-Linked Derivatives Contract Price shall be the Daily Settlement Price of such Index-Linked Derivatives Contract for such day; and
- (d) if none of the prices referred to in (a), (b) or (c) is available on such day, then the Index-Linked Derivatives Contract Price shall be an amount determined by the Calculation Agent acting in good faith and in a commercially reasonable manner,

all as determined by the Calculation Agent.

"Index Linked Securities" means Index Linked Notes or Index Linked Instruments, as the case may be.

"Index Modification" has the meaning given thereto in Index Linked Condition 3.2 (*Occurrence of an Index Adjustment Event*).

"Index Multiplier" means, in respect of the relevant Valuation Date and an Index, an amount determined by the Calculation Agent in its discretion by reference to the realised dividend yield of the relevant Index.

"Index Rules" means, in respect of a Proprietary Index, the index rules setting out the rules, methodology and other information applicable to such Proprietary Index, as amended and supplemented from time to time, a copy of which may be provided to a Holder by the Calculation Agent upon request by such Holder and/or made available on the website specified in the relevant Issue Terms.

"Index Sponsor" means, (a) for any Index other than a Proprietary Index, the entity specified in the relevant Issue Terms, and, if not specified, the corporation or other entity that, as determined by the Calculation Agent, (i) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to such Index, and (ii) announces (directly or through an

agent) the level of such Index on a regular basis during each Scheduled Trading Day; and (b) for a Proprietary Index, Goldman Sachs International or any affiliate within the Goldman Sachs group.

"Index Sponsor Exit Event" has the meaning given thereto in Index Linked Condition 7.1 (*Occurrence of an Index Adjustment Event*).

"Initial Averaging Date" means:

- (a) in respect of a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as an Averaging Reference Date) in accordance with these Index Linked Conditions; or
- (b) in respect of a Proprietary Index, each date specified as such in the relevant Issue Terms (each a **"Scheduled Initial Averaging Date"**), provided that if such Scheduled Initial Averaging Date is not a Strategy Valuation Day, then the Initial Averaging Date scheduled to fall on such Scheduled Initial Averaging Date shall be the earlier to occur of:
 - (i) the first Strategy Valuation Day following such Scheduled Initial Averaging Date; and
 - (ii) the Strategy Business Day that falls the Specified Number of Strategy Business Days after such Scheduled Initial Averaging Date,

provided further that if, following the adjustments in (i) and (ii) above, such Initial Averaging Date falls on the Strategy Business Day that falls the Specified Number of Strategy Business Days after such Scheduled Initial Averaging Date and such date is not a Strategy Valuation Day, then the Closing Index Level of such Proprietary Index in respect of such Initial Averaging Date shall be determined by the Calculation Agent, acting in good faith and in a commercially reasonable manner.

"Initial Valuation Date" means:

- (a) in respect of a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as a Reference Date) in accordance with these Index Linked Conditions;
- (b) in respect of a Proprietary Index, each date specified as such in the relevant Issue Terms (each a **"Scheduled Initial Valuation Date"**), provided that if such Scheduled Initial Valuation Date is not a Strategy Valuation Day, then the Initial Valuation Date scheduled to fall on such Scheduled Initial Valuation Date shall be the earlier to occur of:
 - (i) the first Strategy Valuation Day following such Scheduled Initial Valuation Date; and
 - (ii) the Strategy Business Day that falls the Specified Number of Strategy Business Days after such Scheduled Initial Valuation Date,

provided further that if, following the adjustments in (i) and (ii) above, such Initial Valuation Date falls on the Strategy Business Day that falls the Specified Number of Strategy Business Days after such Scheduled Initial Valuation Date and such date is not a Strategy Valuation Day, then the Closing Index Level of such Proprietary Index in respect of such Initial Valuation Date shall be determined by the Calculation Agent, acting in good faith and in a commercially reasonable manner.

"Last Averaging Date" means:

- (a) in respect of a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, the Averaging Date for the Index specified as the "Last Averaging Date" in the relevant Issue Terms or, if "Modified Postponement" is specified to be applicable in respect of the Averaging Dates in the relevant Issue Terms, the Averaging Date for the Index (after any adjustments) falling latest in time shall be the Last Averaging Date; or

- (b) in respect of a Proprietary Index, the Averaging Date for such Proprietary Index specified as the "Last Averaging Date" in the relevant Issue Terms or, if later, the Averaging Date for such Proprietary Index (after any adjustments) falling latest in time shall be the Last Averaging Date.

"Last Initial Averaging Date" means:

- (a) in respect of a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, the Initial Averaging Date for the Index specified as the "Last Initial Averaging Date" in the relevant Issue Terms or, if "Modified Postponement" is specified to be applicable in respect of the Initial Averaging Dates in the relevant Issue Terms, the Initial Averaging Date for the Index (after any adjustments) falling latest in time shall be the Last Initial Averaging Date; or, the Initial Averaging Date for the Index (after any adjustments) falling latest in time shall be the Last Initial Averaging Date.
- (b) in respect of a Proprietary Index, the Initial Averaging Date for such Proprietary Index specified as the "Last Initial Averaging Date" in the relevant Issue Terms or, if later, the Initial Averaging Date for the Index (after any adjustments) falling latest in time shall be the Last Initial Averaging Date.

"Latest Reference Date" means:

- (a) in respect of a single Index and an Averaging Reference Date or a Reference Date, such Averaging Reference Date or Reference Date, and in respect of an Index Basket and an Averaging Reference Date or a Reference Date (being, for the purposes of this definition, the **"Relevant Reference Date"**):
 - (i) if, as a result of the Relevant Reference Date not being a Scheduled Trading Day for one or more Indices or as a result of the occurrence of a Disrupted Day for one or more Indices, the Relevant Reference Date for two or more Indices falls on different dates, the date corresponding to the Relevant Reference Date which is the latest to occur, as determined by the Calculation Agent; or
 - (ii) if the Relevant Reference Date for all of the Indices falls on the same date (after adjustment, if any, for non-Scheduled Trading Days or Disrupted Days for such Indices), such same date corresponding to the Relevant Reference Date; or
- (b) in respect of a single Index-Linked Derivatives Contract and a Reference Date, such Reference Date, and in respect of an Index Basket comprising Index-Linked Derivatives Contracts and a Reference Date, the date corresponding to the Reference Date which is the latest to occur, as determined by the Calculation Agent.

"Market Disruption Event" means:

- (a) for any Unitary Index, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time, or (iii) an Early Closure.

For the purposes of determining whether a Market Disruption Event in respect of any Unitary Index exists at any time, if a Market Disruption Event occurs in respect of a Component included in such Unitary Index at any time, then the relevant percentage contribution of such Component to the level of such Unitary Index shall be based on a comparison of (x) the portion of the level of such Unitary Index attributable to such Component) and (y) the overall level of such Unitary Index, in each case immediately before the occurrence of such Market Disruption Event;

- (b) for any Multi-Exchange Index or Modified Unitary Index:

Either:

- (i) (A) the occurrence or existence, in respect of any Component, of:
 - (1) a Trading Disruption in respect of such Component, which the Calculation Agent determines is material, at any time during the one-hour period that

ends at the relevant Valuation Time in respect of the Exchange on which such Component is principally traded;

- (2) (an Exchange Disruption in respect of such Component, which the Calculation Agent determines is material at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component is principally traded; or
- (3) an Early Closure in respect of such Component;

and

- (B) the aggregate of all Components in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of such Multi-Exchange Index or Modified Unitary Index;

or

- (ii) the occurrence or existence, in each case in respect of futures or options contracts relating to such Multi-Exchange Index or Modified Unitary Index, of (I) a Trading Disruption, or (II) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one-hour period that ends at the Valuation Time in respect of the Related Exchange, or (III) an Early Closure.

For the purposes of determining whether a Market Disruption Event exists in respect of a Multi-Exchange Index or Modified Unitary Index at any time, if an Early Closure, an Exchange Disruption, or a Trading Disruption occurs in respect of a Component at that time, then the relevant percentage contribution of such Component to the level of such Multi-Exchange Index or Modified Unitary Index shall be based on a comparison of (x) the portion of the level of such Multi-Exchange Index or Modified Unitary Index attributable to that Component and (y) the overall level of such Multi-Exchange Index or Modified Unitary Index, in each case immediately before the occurrence of such Market Disruption Event; or

- (iii) any change in national or international financial, political or economic conditions or currency exchange rates or exchange controls, the effect of which is, in the determination of the Calculation Agent, so material and adverse as to make it impracticable or inadvisable to proceed with the calculation or determination of any amount payable or deliverable under the terms and conditions of the Index Linked Securities.

"Maturity Date" means:

- (a) in respect of Index Linked Instruments other than Nordic Registered Instruments, Euroclear France Registered Instruments or French Law Instruments, the Scheduled Maturity Date specified in the relevant Issue Terms, and if the Relevant Determination Date is adjusted in accordance with the Conditions, the Maturity Date shall instead be the day falling the number of Business Days equal to the Number of Settlement Period Business Days after the Latest Reference Date in respect of the Relevant Determination Date;
- (b) in respect of Index Linked Notes, the Scheduled Maturity Date specified in the relevant Issue Terms, and if the Relevant Determination Date is adjusted in accordance with the Conditions, the Maturity Date shall instead be the day falling the number of Business Days equal to the Number of Settlement Period Business Days after the Latest Reference Date in respect of the Relevant Determination Date.

"Max" followed by a series of amounts inside brackets, means whichever is the greater of the amounts separated by a semi-colon inside those brackets.

"Maximum Days of Disruption" means in respect of Index Linked Securities that relate to:

- (a) a single Index, eight Scheduled Trading Days; or

- (b) an Index Basket and the relevant Issue Terms do not specify "Basket Valuation (Common Scheduled Trading Day and Common Disrupted Day)" to be applicable to any two or more Common Basket Indices, eight Scheduled Trading Days; or
- (c) an Index Basket and the relevant Issue Terms specify "Basket Valuation (Common Scheduled Trading Day and Common Disrupted Day)" to be applicable to any two or more Common Basket Indices, eight Common Scheduled Trading Days,

or, in each case, such other number of Scheduled Trading Days or Common Scheduled Trading Days, as applicable (or other type of days) specified in the relevant Issue Terms.

"Modified Unitary Index" means any Index specified as such in the relevant Issue Terms, or, if not specified, any Index the Calculation Agent determines as such.

"Multi-Exchange Index" means any Index specified as such in the relevant Issue Terms, or, if not specified, any Index the Calculation Agent determines as such.

"n" means, in respect of an Index and a relevant date, the number of calendar days falling in the period commencing on, but excluding, the Decrement Index Level Observation Date immediately preceding such date (or, if there is no Decrement Index Level Observation Date immediately preceding such date, the Decrement Index Level Period Start Date) and ending on, and including, such date.

"Observation Date (closing valuation)" means, unless otherwise provided in the relevant Issue Terms (a) in respect of an Index Linked Security referencing a single Index (other than a Proprietary Index) and (i) an Observation Period which is not an Autocall Observation Period, each Scheduled Trading Day regardless of whether such day is a Disrupted Day for such Index; or (ii) an Autocall Observation Period, each Scheduled Trading Day falling in such Autocall Observation Period regardless of whether such day is a Disrupted Day for such Index, or (b) in respect of an Index Linked Security referencing an Index Basket and (i) an Observation Period which is not an Autocall Observation Period, each Common Scheduled Trading Day falling in the Observation Period regardless of whether such day is a Disrupted Day for any Index in the Index Basket; or (ii) an Autocall Observation Period, each Common Scheduled Trading Day falling in such Autocall Observation Period regardless of whether such day is a Disrupted Day for any Index in the Index Basket; or (c) in respect of an Index Linked Security referencing a single Proprietary Index, each Strategy Valuation Day falling in the Observation Period.

"Observation Date (intra-day valuation)" means, (i) in respect of an Index Linked Security referencing a single Index and an Observation Period, each Scheduled Trading Day falling in the Observation Period regardless of whether such day is a Disrupted Day for such Index, or (ii) in respect of an Index Linked Security referencing an Index Basket and an Observation Period, each Common Scheduled Trading Day falling in the Observation Period regardless of whether such day is a Disrupted Day for any Index in the Index Basket.

"Observation Period" means in respect of an Index, a Barrier Observation Period, a Trigger Observation Period, an Autocall Observation Period, a Coupon Barrier Observation Period, a Dropback Lock-in Observation Period, a Dropback Trigger Observation Period or a Dropback Barrier Observation Period.

"Options Exchange" means the exchange or quotation system specified as such in the relevant Issue Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system, to which trading in options contracts relating to the relevant Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such options contracts on such temporary substitute exchange or quotation system as on the original Options Exchange) or, if no such exchange or quotation system is specified in the relevant Issue Terms, the Related Exchange (if such Related Exchange trades options contracts relating to the relevant Index) or, if more than one such Related Exchange is specified in the relevant Issue Terms, the Related Exchange selected by the Calculation Agent as the primary market for listed options contracts relating to the relevant Index.

"Other Disruption" in respect of a Proprietary Index, shall have the meaning given to such term in the relevant Index Rules.

"Proprietary Index" means any Index specified as such in the relevant Issue Terms, or, if not specified, any Index the Calculation Agent determines as such.

"Reference Date" means, in respect of an Index, each Initial Valuation Date or Valuation Date, in each case, subject to adjustment in accordance with these Index Linked Conditions.

"Related Exchange" means for any Unitary Index, a Modified Unitary Index or Multi-Exchange Index, each exchange or quotation system, if any, specified in the relevant Issue Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Unitary Index, a Modified Unitary Index or Multi-Exchange Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Unitary Index, a Modified Unitary Index or Multi-Exchange Index on such temporary substitute exchange or quotation system as on the original Related Exchange), provided, however, that where "All Exchanges" is specified as the Related Exchange, **"Related Exchange"** shall mean each exchange or quotation system where trading has a material effect on the overall market for futures or options contracts relating to such Unitary Index, a Modified Unitary Index or Multi-Exchange Index, as determined by the Calculation Agent, or, in any such case, any transferee or successor exchange of such exchange or quotation system (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange).

"Relevant Date" has the meaning given thereto in Index Linked Condition 2 (*Fallback Valuation Date*).

"Relevant Screen Page" or **"Relevant Screen Pages"** means the Bloomberg Page or the Refinitiv Screen (or both) specified as the Relevant Screen Page or the Relevant Screen Pages in the relevant Issue Terms.

"Scheduled Averaging Date" in respect of:

- (a) a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, means any original date that, but for such day not being a Scheduled Trading Day for such Index or for such day being a Disrupted Day for such Index, would have been an Averaging Date; or
- (b) a Proprietary Index, has the meaning given to such term in the definition of "Averaging Date" in these Index Linked Conditions.

"Scheduled Averaging Reference Date" means, in respect of an Index, each Scheduled Averaging Date or Scheduled Initial Averaging Date.

"Scheduled Closing Time" means, in respect of an Index and in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

"Scheduled Initial Averaging Date" in respect of:

- (a) a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, means any original date that, but for such day not being a Scheduled Trading Day for such Index or for such day being a Disrupted Day for such Index, would have been an Initial Averaging Date; or
- (b) a Proprietary Index, has the meaning given to such term in the definition of "Initial Averaging Date" in these Index Linked Conditions.

"Scheduled Initial Valuation Date" in respect of:

- (a) a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, means any original date that, but for such day not being a Scheduled Trading Day for such Index or for such day being a Disrupted Day for such Index, would have been an Initial Valuation Date; or
- (b) a Proprietary Index, has the meaning given to such term in the definition of "Initial Valuation Date" in these Index Linked Conditions.

"Scheduled Reference Date" means, in respect of an Index, each Scheduled Initial Valuation Date or Scheduled Valuation Date.

"Scheduled Trading Day" means:

- (a) in respect of any Unitary Index or Modified Unitary Index, any day on which each Exchange and each Related Exchange for such Unitary Index or Modified Unitary Index specified in the relevant Issue Terms are scheduled to be open for trading for their respective regular trading sessions;
- (b) in respect of any Multi-Exchange Index, any day on which (i) the Index Sponsor is scheduled to publish the level of such Multi-Exchange Index and (ii) the Related Exchange for such Multi-Exchange Index is scheduled to be open for trading for its regular trading session; or
- (c) in respect of any Proprietary Index, a Strategy Trading Day.

"Scheduled Valuation Date" in respect of:

- (a) a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, any original date that, but for such day not being a Scheduled Trading Day for such Index or for such day being a Disrupted Day for such Index, would have been a Valuation Date (and subject as provided in Index Linked Condition 6 if the relevant Issue Terms specify "Index-Linked Derivatives Contract Provisions" to be applicable); or
- (b) a Proprietary Index, has the meaning given to such term in the definition of "Valuation Date" in these Index Linked Conditions.

"Settlement Currency" has the meaning given in the relevant Issue Terms, or if not so given, the Specified Currency.

"Settlement Cycle" means for any Unitary Index, a Modified Unitary Index or Multi-Exchange Index, the period of Component Clearance System Business Days following a trade in the Components underlying such Unitary Index, a Modified Unitary Index or Multi-Exchange Index on the Exchange in which settlement will customarily occur according to the rules of such Exchange (or, if there are multiple Exchanges in respect of an Index, the longest such period).

"Settlement Disruption Event" means, in respect of a Component of an Index, an event that the Calculation Agent determines is beyond the control of the Issuer and/or its affiliates as a result of which the relevant Component Clearance System cannot clear the transfer of such Component.

"Special Quotation Price" means, in respect of an Index-Linked Derivatives Contract and any day, the special quotation price of such Index-Linked Derivatives Contract (howsoever described under the rules of the relevant Derivatives Exchange or its clearing house) for such day published by the Derivatives Exchange or its clearing house.

"Specified Number of Strategy Business Days" means the number of Strategy Business Days specified as such in the relevant Issue Terms.

"Strategy Business Day" means, in respect of a Proprietary Index, a "Strategy Business Day" or an "Index Business Day", as the case may be, as defined in the relevant Index Rules.

"Strategy Calculation Agent" means, in respect of a Proprietary Index, the "Strategy Calculation Agent" or the "Index Calculation Agent", as the case may be, as defined in the relevant Index Rules.

"Strategy Component" means, in respect of a Proprietary Index, a "Strategy Component", an "Index Component" or a "Component", as the case may be, as defined in the relevant Index Rules.

"Strategy Trading Day" means, in respect of a Proprietary Index, a Strategy Business Day or an Index Business Day, as the case may be.

"Strategy Valuation Day" means a Strategy Trading Day:

- (a) (i) on which the Strategy Calculation Agent has calculated and published a Strategy Value (indicative or otherwise) in accordance with the relevant terms set out in the Index Rules, and

- (ii) on which the Calculation Agent has determined that, in respect of each Strategy Component, no Hedging Disruption, Force Majeure Event or Other Disruption applicable to such Proprietary Index which the Calculation Agent considers material has occurred; or
- (b) that does not satisfy one or more of subparagraphs (i) and (ii) of paragraph (a) above but which the Calculation Agent nonetheless in its sole and absolute discretion deems to be a Strategy Valuation Day.

"Strategy Value" means, in respect of a Proprietary Index, the "Strategy Value" or the "Index Value", as the case may be, as defined in the relevant Index Rules.

"Successor Index" has the meaning given thereto in Index Linked Condition 3.1 (*Successor Index Sponsor or Successor Index*).

"Successor Index Sponsor" has the meaning given thereto in Index Linked Condition 3.1 (*Successor Index Sponsor or Successor Index*).

"Trading Disruption" means:

- (a) in respect of any Unitary Index, any suspension of, or limitation imposed on, trading by the relevant Exchange or Related Exchange or otherwise, and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise, (i) relating to Components that comprise 20 per cent. or more of the level of such Unitary Index on any relevant Exchange or (ii) in futures or options contracts relating to such Unitary Index on any relevant Related Exchange; or
- (b) in respect of any Multi-Exchange Index or Modified Unitary Index, any suspension or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) relating to any Component on the Exchange in respect of such Multi-Exchange Index or Modified Unitary Index or (ii) in futures or options contracts relating to Multi-Exchange Index or Modified Unitary Index on the Related Exchange.

"Unitary Index" means any Index specified as such in the relevant Issue Terms, or, if not specified, any Index the Calculation Agent determines as such.

"Valid Date" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Reference Date does not or is not deemed to occur.

"Valuation Date" means:

- (a) in respect of a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions and/or in the relevant Issue Terms, subject to adjustment (as a Reference Date) in accordance with these Index Linked Conditions (and subject as provided in Index Linked Condition 6 if the relevant Issue Terms specify "Index-Linked Derivatives Contract Provisions" to be applicable); or
- (b) in respect of a Proprietary Index, each date specified as such in the relevant Issue Terms (each a **"Scheduled Valuation Date"**), provided that if such Scheduled Valuation Date is not a Strategy Valuation Day, then the Valuation Date scheduled to fall on such Scheduled Valuation Date shall be the earlier to occur of:
 - (i) the first Strategy Valuation Day following such Scheduled Valuation Date; and
 - (ii) the Strategy Business Day that falls the Specified Number of Strategy Business Days after such Scheduled Valuation Date,

provided further that if, following the adjustments in (i) and (ii) above, such Valuation Date falls on the Strategy Business Day that falls the Specified Number of Strategy Business Days after such Scheduled Valuation Date and such date is not a Strategy Valuation Day, then the

Closing Index Level of such Proprietary Index in respect of such Valuation Date shall be determined by the Calculation Agent, acting in good faith and in a commercially reasonable manner; or

- (c) in respect of an Index-Linked Derivatives Contract, the final settlement day of such Index-Linked Derivatives Contract (as determined by the Derivatives Exchange according to the rules of the Derivatives Exchange) (the "**Scheduled Valuation Date**"), provided that, only for the purposes of determining the Final Index Level (if applicable), the Scheduled Valuation Date may be subject to adjustment (as a Reference Date) in accordance with Index Linked Condition 1,

and further provided that if the Securities are Open-ended Instruments, then sub-paragraphs (a) to (c) above shall not apply and the Valuation Date shall be:

- (a) in respect of a Unitary Index, a Modified Unitary Index or a Multi-Exchange Index:
- (i) in respect of each Open-ended Instrument which has not yet been redeemed pursuant to General Instrument Condition 18 (*Optional Early Redemption*), if such Open-ended Instrument is exercised pursuant to General Instrument Condition 9(a), the Scheduled Trading Day immediately following the Exercise Date for such Open-ended Instrument, and subject to adjustment (as a Reference Date) in accordance with these Index Linked Conditions; and
 - (ii) each Open-ended Instrument which is redeemed pursuant to General Instrument Condition 18 (*Optional Early Redemption*), the Scheduled Trading Day immediately following the Call Option Effective Date, and subject to adjustment (as a Reference Date) in accordance with these Index Linked Conditions (and such day, after such adjustment, shall be the "**Call Valuation Date**"), unless such Open-ended Instrument is exercised pursuant to General Instrument Condition 9(a), in which case sub-paragraph (i) above applies.
- (b) in respect of a Proprietary Index:
- (i) in respect of each Open-ended Instrument which has not yet been redeemed pursuant to General Instrument Condition 18 (*Optional Early Redemption*), if such Open-ended Instrument is exercised pursuant to General Instrument Condition 9(a), the Strategy Valuation Day immediately following the Exercise Date for such Open-ended Instrument; and
 - (ii) each Open-ended Instrument which is redeemed pursuant to General Instrument Condition 18 (*Optional Early Redemption*), the Strategy Valuation Day immediately following the Call Option Effective Date (the "**Call Valuation Date**"), unless such Open-ended Instrument is exercised pursuant to General Instrument Condition 9(a), in which case sub-paragraph (i) above applies.

"Valuation Time" means the time in the place as specified in the relevant Issue Terms, unless "**Default Valuation Time**" is specified in the relevant Issue Terms, in which case the "Valuation Time" means:

- (a) in respect of any Unitary Index, (i) for the purposes of determining whether a Market Disruption Event has occurred in respect of (A) any Component, the Scheduled Closing Time on the Exchange in respect of such Component (provided that, if the relevant Exchange closes prior to its Scheduled Closing Time, then the Valuation Time shall be such actual closing time), and (B) any options contracts or futures contracts on such Unitary Index, the close of trading on the Related Exchange, and (ii) in all other circumstances, the time at which the official closing level of such Unitary Index is calculated and published by the Strategy Calculation Agent;
- (b) in respect of any Multi-Exchange Index or Modified Unitary Index, (i) for the purposes of determining whether a Market Disruption Event has occurred in respect of (A) any Component, the Scheduled Closing Time on the Exchange in respect of such Component (provided that, if the relevant Exchange closes prior to its Scheduled Closing Time, then the Valuation Time shall be such actual closing time), and (B) any options contracts or futures contracts on such Multi-Exchange Index or Modified Unitary Index, the close of trading on the Related Exchange, and

- (ii) in all other circumstances, the time at which the official closing level of such Multi-Exchange Index or Modified Unitary Index is calculated and published by the Index Sponsor;
- (c) in respect of any Proprietary Index, the time at which the official closing level of such Proprietary Index is calculated and published by the Strategy Calculation Agent.

INTRODUCTION TO THE COMMODITY LINKED CONDITIONS

The following introduction to, and overview of, the Commodity Linked Conditions is a description and overview only of the actual Commodity Linked Conditions set forth herein, and is intended to be a guide only to potential purchasers to facilitate a general understanding of such provisions. Accordingly, this overview must be read as an introduction only to the actual Commodity Linked Conditions and any decision to purchase Commodity Linked Securities should be based on a consideration of the Base Prospectus as a whole, including the actual Commodity Linked Conditions (as may be completed by the relevant Issue Terms).

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Commodity Linked Securities on pages 120 to 129.

The Commodity Linked Conditions deal with Commodity Linked Securities linked to (i) a single Commodity, (ii) a basket of Commodities, (iii) a Commodity Index or (iv) a basket of Commodity Indices. The approaches relating to disruptions to the valuation process differ between (a) single Commodities and baskets of Commodities, and (b) Commodity Indices and baskets of Commodity Indices. The Commodity Linked Conditions, and this overview, are divided accordingly.

Single Commodities and Baskets of Commodities

Payments, Scheduled Commodity Business Days and Disrupted Days

Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of certain Commodity Linked Securities will be calculated by reference to the price of a single Commodity, or the price of one or more Commodities in a Commodity Basket, or a formula based upon the price of one or more Commodities at a specified time or times on one or more Pricing Dates (as set out in the Issue Terms).

However, it may not be possible, practical or desirable for the Calculation Agent to determine the price of a Commodity at a specified time on a Pricing Date, which must be a **Scheduled Commodity Business Day**, i.e. a day on which the Trading Facility on which such Commodity trades is scheduled to be open or the price of such Commodity is scheduled to be published, if such date is a **Disrupted Day**, i.e. a Scheduled Commodity Business Day on which a Disruption Event occurs.

Summary of Disruption Events

Disruption Events for Commodities can be classified broadly as the occurrence or existence of the following events:

- (a) **Disappearance of Commodity Reference Price** – (i) trading in the relevant Commodity Contract permanently ceases, (ii) the disappearance of, or of trading in, the Commodity, or (iii) the disappearance of the Commodity Reference Price, i.e. the specified price on a specified day of a specified quantity of the Commodity for delivery on a particular date;
- (b) **Material Change in Content** – a material change in the content of the Commodity or relevant Commodity Contract;
- (c) **Material Change in Formula** – a material change in the formula for or method of calculating the Commodity Reference Price;
- (d) **Price Source Disruption** – (i) the failure of the **Price Source** (typically the relevant Trading Facility or publication) to announce the **Specified Price** (i.e. the type of price specified in the Commodity Reference Price), (ii) the temporary or permanent unavailability of the Price Source, (iii) where applicable, the failure to obtain at least three quotations, or (iv) where applicable, a **Price Materiality Percentage** is reached, i.e. the Specified Price differs from the price reached by reference dealers by the maximum amount permitted;

- (e) **Tax Disruption** – the imposition of, or a change to, a tax, which has the direct effect of raising or lowering the price per unit of a Commodity;
- (f) **Trading Disruption** – the material suspension of, or material limitation on, trading in the Commodity Contract or the Commodity: this includes where the relevant Trading Facility establishes limits on the range within which the price of the Commodity Contract or the Commodity may fluctuate and the closing or settlement price of the Commodity Contract or the Commodity has increased or decreased from the previous day's settlement price by the maximum amount permitted under the rules of the relevant Trading Facility; and
- (g) **Administrator/Benchmark Event** – any relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, inclusion in any official register or similar regulatory or legal requirement in respect of the Commodity Reference Price or the administrator or sponsor of the Commodity Reference Price has not been or will not be obtained or has been or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use the Commodity Reference Price to perform its or their respective obligations under the relevant Commodity Linked Securities.

Potential Postponement of Pricing Date

In the circumstances described above, the Pricing Date may, or may not, be postponed until a day on which the price of the relevant Commodity is published or can otherwise be determined by the Calculation Agent, subject to a long-stop date (designated by reference to the term, "**Maximum Days of Disruption**") by which a price must be determined for the purpose of calculating the payments in respect of the relevant Commodity Linked Securities.

The occurrence of a Scheduled Commodity Business Day or a Disrupted Day may differ in respect of two or more Commodities in a Commodity Basket, and in such circumstances, the Pricing Date for such Commodities may remain different or may be postponed so that each Commodity in the Commodity Basket has the same Pricing Date.

Overview of Consequences

The Commodity Linked Conditions define the circumstances in which the determination of a price of a Commodity or Commodities may be postponed and stipulate how such price or prices should be determined in respect of Commodity Linked Securities that relate to a single Commodity or a Commodity Basket and Pricing Dates.

The following overviews set out the default consequence in respect of each type of Commodity Linked Security linked to a Commodity or a Commodity Basket if the Pricing Date is a Disrupted Day, though such overviews are subject to, and must be read in conjunction with, the more detailed contents of the Commodity Linked Conditions.

Single Commodity and Pricing Date

The Issue Terms will specify which of the following **Disruption Fallbacks** should apply:

- (a) **Calculation Agent Determination** – the Calculation Agent will determine the Relevant Price;
- (b) **Delayed Publication or Announcement** – the Relevant Price will be determined based on the Specified Price (or, if there is no Specified Price for a Commodity Reference Price, such Commodity Reference Price) in respect of the Pricing Date that is published or announced by the Price Source retrospectively on the first succeeding Scheduled Commodity Business Day that is not a Disrupted Day in respect of such Commodity, with a standard long-stop date of five consecutive Scheduled Commodity Business Days (being the standard Maximum Days of Disruption), upon which the next Disruption Fallback shall apply (the default position being Calculation Agent Determination);
- (c) **Fallback Reference Dealers** – the Commodity Reference Price will be determined on the basis of at least three quotations provided by reference dealers, with the highest and lowest values

being discarded, provided that if fewer than three quotations are provided, the next Disruption Fallback shall apply (the default position being Calculation Agent Determination);

- (d) **Fallback Reference Price** – the Calculation Agent will base its determination on the first alternate Commodity Reference Price and the Pricing Date will be the first succeeding Scheduled Commodity Business Day that is not a Disrupted Day, with a standard long-stop date of five Scheduled Commodity Business Days, upon which the next Disruption Fallback shall apply (the default position being Calculation Agent Determination);
- (e) **Postponement** – the Pricing Date will be the first succeeding Scheduled Commodity Business Day that is not a Disrupted Day, with a standard long-stop date of five Scheduled Commodity Business Days (being the standard Maximum Days of Disruption), upon which Calculation Agent Determination shall apply on the Scheduled Commodity Business Day immediately following the expiry of the Maximum Days of Disruption;
- (f) **No Adjustment** – the Calculation Agent shall determine the Relevant Price on the Scheduled Pricing Date.

The Issue Terms in respect of Commodity Linked Securities that are linked to a Commodity Basket will specify which of the above elections will be applicable. In the event that the Disruption Fallbacks specified: (a) would be unlawful or contravene any applicable licensing requirements, or (b) would not achieve a commercially reasonable result, the Commodity Linked Securities may be redeemed early.

Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day

- (a) If the Scheduled Pricing Date for a Commodity is a Scheduled Commodity Business Day that is not a Disrupted Day for such Commodity, then the Pricing Date for such Commodity shall be such Scheduled Pricing Date.
- (b) If the Scheduled Pricing Date for a Commodity is not a Scheduled Commodity Business Day, then the Pricing Date will be the first succeeding Scheduled Commodity Business Day for such Commodity.
- (c) If the Pricing Date for a Commodity is a Disrupted Day, then one or more of the Disruption Fallbacks described above will apply. If no Disruption Fallback is specified, then the Pricing Date will be the first succeeding Scheduled Commodity Business Day that is not a Disrupted Day, with a long-stop date of five Scheduled Commodity Business Days, following the expiry of which the Calculation Agent will determine the Relevant Price on the immediately following Scheduled Commodity Business Day.

Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day

- (a) If the Scheduled Pricing Date for each Commodity is a Scheduled Commodity Business Day (the "**Common Scheduled Commodity Business Day**") and not a Disrupted Day, then the Scheduled Pricing Date will be the Pricing Date for each Commodity.
- (b) (i) If the Scheduled Pricing Date is a Common Scheduled Commodity Business Day but is a Disrupted Day for one or more Commodities, or (ii) if the Scheduled Pricing Date is not a Common Scheduled Commodity Business Day, in which case the Pricing Date for each Commodity will be the first succeeding Common Scheduled Commodity Business Day, provided that if such Common Scheduled Commodity Business Day is a Disrupted Day for one or more Commodities, then in respect of (i) and (ii), the following provisions apply:
 - (A) if the Common Scheduled Commodity Business Day for a Commodity is not a Disrupted Day, then the Common Scheduled Commodity Business Day will be the Pricing Date for such Commodity; and
 - (B) if the Common Scheduled Commodity Business Day for a Commodity is a Disrupted Day, then one or more of the Disruption Fallbacks described above will apply. If no Disruption Fallback is specified, then the Pricing Date for such Commodity will be the

first succeeding Scheduled Commodity Business Day that is not a Disrupted Day, with a long-stop date of five Scheduled Commodity Business Days, following the expiry of which the Calculation Agent will determine the Relevant Price on the immediately following Scheduled Commodity Business Day, provided that, if the Issue Terms specify that no adjustment should be made, then the Calculation Agent shall determine the Relevant Price of each Commodity in the Commodity Basket on the Scheduled Pricing Date.

Commodity Indices

Payments, Scheduled Commodity Trading Days and Disrupted Days

Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of certain Commodity Linked Securities will be calculated by reference to the level of a single Commodity Index or a basket of Commodity Indices and/or a formula based upon the level of one or more Commodity Indices at a specified time or times on one or more Reference Dates or Averaging Reference Dates.

However, it may not be possible for the Calculation Agent to determine the price of a Commodity Contract included in a Commodity Index at a specified time on a Reference Date or an Averaging Reference Date if a Disruption Event has occurred in respect of such Commodity Contract on such date.

Summary of Disruption Events in respect of a Commodity Index

Disruption Events for a Commodity Index can be classified broadly as the occurrence or existence of the following events:

- (a) the settlement price for the Commodity Contract included in a Commodity Index for a day has increased or decreased from the previous day's settlement price by the maximum amount permitted under the rules of the relevant Trading Facility (a "**limit price**");
- (b) trading in any Commodity Contract included in such Commodity Index is suspended or interrupted subsequent to the opening of trading and trading in such Commodity Contract does not recommence at least ten (10) minutes prior to the regular scheduled close of trading in such Commodity Contract, or in the event trading does recommence at least ten (10) minutes prior to the regular scheduled close of trading on the relevant Trading Facility, trading does not continue on an uninterrupted basis until the regular scheduled close of trading in such Commodity Contract; or
- (c) failure by the relevant Trading Facility to announce or publish the settlement price for the Commodity Contract included in a Commodity Index.

Potential Postponement of the Commodity Contract Determination Date corresponding to a Reference Date or an Averaging Reference Date

In the circumstances described above, the date on which a price of a Commodity Contract is determined (the "**Commodity Contract Determination Date**") may, or may not, be postponed until a day on which the price of the relevant Commodity Contract is published or can otherwise be determined by the Calculation Agent, subject to a long-stop date by which a price or level must be determined for the purpose of calculating the payments in respect of the relevant Commodity Linked Securities.

The occurrence of a Disruption Event may differ in respect of two or more Commodity Contracts in a Commodity Index and in such circumstances, the Commodity Contract Determination Date for such Commodity Contracts may or may not be different.

Overview of Consequences

The Commodity Linked Conditions define the circumstances in which the determination of a level of a Commodity Index may be postponed and stipulate how such levels should be determined by reference to Commodity Linked Securities that relate to a Commodity Index and Reference Dates or Averaging Reference Dates.

The following overviews set out the default consequence in respect of each type of Commodity Linked Security linked to a Commodity Index if a Disruption Event has occurred in respect of a relevant Commodity Contract on the Reference Date or Averaging Reference Date, though such overviews are subject to, and should be read in conjunction with, the more detailed contents of the Commodity Linked Conditions.

Single Commodity Index and Reference Dates

If a Disruption Event in respect of a Commodity Index occurs on a Reference Date (which must be a **Scheduled Commodity Business Day** (i.e. a day (i) that is (or but for the occurrence of a Disruption Event, would have been) a day on which all the Trading Facilities, on which the contracts included in the Commodity Index are traded, are open for trading during their regular trading session, notwithstanding any such Trading Facility closing prior to its scheduled closing time and (ii) on which the offices of Goldman, Sachs & Co. L.L.C are open for business) the Calculation Agent shall determine the closing level for such Commodity Index not by reference to the published value but in accordance with the then current calculation methodology for such Commodity Index using:

- (a) the settlement price of each Commodity Contract included in a Commodity Index unaffected by a Disruption Event on such Reference Date; and
- (b) the settlement price of each Commodity Contract included in a Commodity Index affected by a Disruption Event on the first **Scheduled Commodity Trading Day** (i.e. a day on which the relevant Trading Facility on which such Commodity Contract are traded is scheduled to be open for trading for its regular trading session) following such Reference Date on which no Disruption Event is occurring, with a standard long-stop date of five Scheduled Commodity Trading Days (being the standard Maximum Days of Disruption), following the expiry of which the Calculation Agent shall determine the price of such Commodity Contract affected by such Disruption Event on the immediately following Scheduled Commodity Trading Day (and such date being the Commodity Contract Determination Date).

Commodity Index Basket and Reference Dates

- (a) If the Scheduled Reference Date for any Commodity Index is a Scheduled Commodity Business Day, then the Reference Date for such Commodity Index will be such Scheduled Reference Date;
- (b) If the Scheduled Reference Date for a Commodity Index in the basket is not a Scheduled Commodity Business Day for such Commodity Index, then the Reference Date for such Commodity Index will be the first succeeding day that is a Scheduled Commodity Business Day.

In each case, if a Disruption Event occurs in respect of the relevant Commodity Index on the Reference Date, then the Calculation Agent will determine the closing level for such Commodity Index in accordance with the methodology described in the paragraph entitled "Single Commodity Index and Reference Dates" above.

Single Commodity Index and Averaging Reference Dates

- (a) If a Scheduled Averaging Date in respect of the Commodity Index is not a Scheduled Commodity Business Day, then the Averaging Reference Date will be the first succeeding day that is a Scheduled Commodity Business Day.
- (b) If a Disruption Event occurs in respect of the Commodity Index on an Averaging Reference Date, then the Calculation Agent will determine the closing level for such Commodity Index in accordance with the methodology described in the paragraph entitled "Single Commodity Index and Reference Dates" above.

Commodity Index Basket and Averaging Reference Dates

- (a) if the Scheduled Averaging Reference Date for any Commodity Index in the Basket is a Scheduled Commodity Business Day, then the Averaging Reference Date for such Commodity Index will be such Scheduled Averaging Reference Date;

- (b) if such Scheduled Reference Date for any Commodity Index in the basket is not a Scheduled Commodity Business Day for such Commodity Index, then the Averaging Reference Date for such Commodity Index will be the first succeeding day that is a Scheduled Commodity Business Day.

In each case, if a Disruption Event occurs in respect of the relevant Commodity Index on the Averaging Reference Date, then the Calculation Agent will determine the closing level for such Commodity Index in accordance with the methodology described in the paragraph entitled "Single Commodity Index and Reference Dates" above.

Adjustments in terms of Commodity Linked Securities linked to a Commodity Index

Following the occurrence of a Commodity Index Adjustment Event, the Calculation Agent may determine the closing level for such Commodity Index, rebase the Commodity Linked Securities against another comparable commodity index or basket of commodity indices or make adjustments to the terms of the Commodity Linked Securities and calculations as described in the Conditions. In the event that the proposed actions (a) would be unlawful or contravene any applicable licensing requirements, or (b) would not achieve a commercially reasonable result, the Commodity Linked Securities may be redeemed early.

Commodity Index Adjustment Event includes (i) a **Commodity Index Modification**, which means that the relevant Commodity Index Sponsor makes a material non-prescribed change in the formula for determining the composition of the Commodity Index; (ii) a **Commodity Index Cancellation**, which means that the Commodity Index has been cancelled and no successor exists; (iii) a **Commodity Index Failure**, which means that the relevant Commodity Index Sponsor fails to calculate and announce the Commodity Index or a successor, and (iv) an **Administrator/Benchmark Event**, which means that any relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, or inclusion in any official register or similar regulatory or legal requirement, in respect of the relevant Commodity Index or the administrator or sponsor of the Commodity Index, has not been or will not be obtained or has been or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use the Commodity Index to perform its or their respective obligations under the Commodity Linked Securities.

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Commodity Linked Securities on pages 120 to 129.

These Commodity Linked Provisions shall apply to Instruments for which the relevant Issue Terms specify that the Commodity Linked Instruments are applicable and to Notes for which the relevant Issue Terms specify that the Commodity Linked Notes are applicable.

1. Consequences of Non-Scheduled Commodity Business Days, Non-Common Scheduled Commodity Business Days or Disrupted Days

1.1 Single Commodity and Pricing Dates

Where the Commodity Linked Securities are specified in the relevant Issue Terms to relate to a single Commodity, and such Issue Terms specify "**Single Commodity and Pricing Dates**" to be applicable to the Commodity (and, if the relevant Issue Terms specify that this provision shall apply to particular Initial Pricing Dates or Pricing Dates, then this provision shall apply to such Initial Pricing Dates or Pricing Dates only):

- (a) if the Calculation Agent determines that any Scheduled Pricing Date in respect of any Commodity is a Scheduled Commodity Business Day that is not a Disrupted Day for such Commodity, then the Pricing Date for such Commodity shall be such Scheduled Pricing Date;
- (b) if the Calculation Agent determines that any Scheduled Pricing Date in respect of such Commodity is not a Scheduled Commodity Business Day, then the Pricing Date in respect of such Commodity shall be the first succeeding day that is a Scheduled Commodity Business Day for such Commodity;
- (c) if the Calculation Agent determines that the Pricing Date in respect of such Commodity is a Disrupted Day and, if the relevant Issue Terms specify the consequence ("**Disruption Fallback**"):
 - (i) "**Calculation Agent Determination**" to be applicable, then the Calculation Agent will determine the Relevant Price (or a method for determining a Relevant Price), taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that it deems relevant on such Pricing Date;
 - (ii) "**Delayed Publication or Announcement**" to be applicable, then the Relevant Price for a Pricing Date will be determined based on the Specified Price (or, if there is no Specified Price for a Commodity Reference Price, such Commodity Reference Price) in respect of such Pricing Date that is published or announced by the Price Source retrospectively on the first succeeding Scheduled Commodity Business Day that the Calculation Agent determines is not a Disrupted Day in respect of such Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Commodity immediately following such Pricing Date is a Disrupted Day or the Relevant Price continues to be unavailable for consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption. In that case, the next Disruption Fallback specified in the relevant Issue Terms will apply, or, if no such Disruption Fallback is specified or is deemed to be specified, the price for the Pricing Date will be subject to Calculation Agent Determination;
 - (iii) "**Fallback Reference Dealers**" to be applicable, then the Relevant Price will be determined in accordance with the Commodity Reference Price, "**Commodity — Reference Dealers**";
 - (iv) "**Fallback Reference Price**" to be applicable, then the Calculation Agent will determine the Relevant Price based on the price for that Pricing Date of the first alternate Commodity Reference Price, if any, specified in the relevant Issue Terms that the Calculation Agent determines is not a Disrupted Day in respect of such Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Commodity immediately following such Pricing Date is a Disrupted Day. In that case, the next Disruption Fallback specified in the relevant Issue Terms will apply,

or, if no such Disruption Fallback is specified or is deemed to be specified, the price for the Pricing Date will be subject to Calculation Agent Determination; or

- (v) **"Postponement"** to be applicable, then the Pricing Date for such Commodity shall be postponed to the first succeeding Scheduled Commodity Business Day that the Calculation Agent determines is not a Disrupted Day in respect of such Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Commodity immediately following such Pricing Date is a Disrupted Day for such Commodity. In that case:

- (A) the Scheduled Commodity Business Day immediately following the expiry of the Maximum Days of Disruption shall be deemed to be the Pricing Date for such Commodity, notwithstanding the fact that such day may, or may not, be a Disrupted Day for such Commodity; and

- (B) the Relevant Price for the Pricing Date will be subject to Calculation Agent Determination;

provided that,

- (vi) if the relevant Issue Terms specify **"No Adjustment"** to be applicable, then the Pricing Date for such Commodity shall be the Scheduled Pricing Date, notwithstanding that such Scheduled Pricing Date is not a Scheduled Commodity Business Day or is a Disrupted Day for such Commodity, and the Relevant Price shall be subject to Calculation Agent Determination on such Pricing Date, and such determination by the Calculation Agent pursuant to this paragraph (vi) shall be deemed to be the Relevant Price in respect of the relevant Pricing Date;
- (d) the relevant Issue Terms may provide that one or more of the Disruption Fallbacks may apply to any Pricing Date, and that such applicable Disruption Fallbacks may apply concurrently or sequentially, in such manner as specified in the relevant Issue Terms;
- (e) the relevant Issue Terms may provide that different Disruption Fallbacks may apply in respect of different Pricing Dates;
- (f) if the relevant Issue Terms provide that both **"Delayed Publication or Announcement"** and **"Postponement"** shall be applicable Disruption Fallbacks for a Pricing Date, then, unless otherwise specified in the relevant Issue Terms, both such Disruption Fallbacks are to operate concurrently with the other and each shall be subject to the applicable Maximum Days of Disruption, and the price determined by Postponement will be the Relevant Price only if Delayed Publication or Announcement does not yield a Relevant Price within the Maximum Days of Disruption;
- (g) if the Calculation Agent determines that any Pricing Date is a Disrupted Day in respect of such Commodity and, the relevant Issue Terms do not specify a Disruption Fallback, then the Disruption Fallback of **"Postponement"** (with five (5) Scheduled Commodity Business Days as the Maximum Days of Disruption) will be deemed to have been specified;
- (h) if **"Initial Pricing Date Adjustment"** is specified in the relevant Issue Terms to be applicable, the Initial Pricing Date shall be deemed to be a Pricing Date for the purposes of this Commodity Linked Condition 1.1; and
- (i) if:
 - (A) it (A) is or would be unlawful at any time under any applicable law or regulation; or (B) would contravene any applicable licensing requirements, for the Calculation Agent to perform the actions prescribed in this Commodity Linked Condition 1.1 (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time); or

- (B) the Calculation Agent determines that the Disruption Fallback would not achieve a commercially reasonable result for any of the Issuer, the Calculation Agent or the Holders,

then on giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be, the Issuer shall redeem the Commodity Linked Securities in whole but not in part, each Commodity Linked Security being redeemed by payment of an amount equal to the Non-scheduled Early Repayment Amount of such Commodity Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be.

1.2 Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day

Where the Commodity Linked Securities are specified in the relevant Issue Terms to relate to a Commodity Basket and such Issue Terms specify "**Basket Valuation (Individual Scheduled Commodity Business Day and Individual Disrupted Day)**" to be applicable to any two or more Commodities (and, if the Issue Terms specify that this provision shall apply to particular Initial Pricing Dates or Pricing Dates, then this provision shall apply to such Initial Pricing Dates or Pricing Dates only), and,

- (a) if the Calculation Agent determines that any Scheduled Pricing Date in respect of any Commodity in the Commodity Basket is a Scheduled Commodity Business Day that is not a Disrupted Day for such Commodity, then the Pricing Date for such Commodity shall be such Scheduled Pricing Date;
- (b) if the Calculation Agent determines that any Scheduled Pricing Date in respect of any Commodity in the Commodity Basket is not a Scheduled Commodity Business Day for such Commodity, then the Pricing Date in respect of such Commodity shall be the first succeeding day that is a Scheduled Commodity Business Day for such Commodity;
- (c) if the Calculation Agent determines that the Pricing Date for a Commodity is a Disrupted Day for such Commodity, and, if the relevant Issue Terms specify the consequence ("**Disruption Fallback**"):
 - (i) "**Calculation Agent Determination**" to be applicable, then the Calculation Agent will determine the Relevant Price (or a method for determining a Relevant Price), taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that it deems relevant on such Pricing Date;
 - (ii) "**Delayed Publication or Announcement**" to be applicable, then the Relevant Price for a Pricing Date will be determined based on the Specified Price (or, if there is no Specified Price for a Commodity Reference Price, such Commodity Reference Price) in respect of such Pricing Date that is published or announced by the Price Source retrospectively on the first succeeding Scheduled Commodity Business Day that the Calculation Agent determines is not a Disrupted Day in respect of such Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Commodity immediately following such Pricing Date is a Disrupted Day or the Relevant Price continues to be unavailable for consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption. In that case, the next Disruption Fallback specified in the relevant Issue Terms will apply, or, if no such Disruption Fallback is specified or is deemed to be specified, the price for the Pricing Date will be subject to Calculation Agent Determination;
 - (iii) "**Fallback Reference Dealers**" to be applicable, then the Relevant Price will be determined in accordance with the Commodity Reference Price, "**Commodity — Reference Dealers**";

- (iv) **"Fallback Reference Price"** to be applicable, then the Calculation Agent will determine the Relevant Price based on the price for that Pricing Date of the first alternate Commodity Reference Price, if any, specified in the relevant Issue Terms that the Calculation Agent determines is not a Disrupted Day in respect of such Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Commodity immediately following such Pricing Date is a Disrupted Day. In that case, the next Disruption Fallback specified in the relevant Issue Terms will apply, or, if no such Disruption Fallback is specified or is deemed to be specified, the price for the Pricing Date will be subject to Calculation Agent Determination; or
- (v) **"Postponement"** to be applicable, then the Pricing Date for such Commodity shall be postponed to the first succeeding Scheduled Commodity Business Day that the Calculation Agent determines is not a Disrupted Day in respect of such Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Commodity immediately following such Pricing Date is a Disrupted Day for such Commodity. In that case:
 - (A) the Scheduled Commodity Business Day immediately following the expiry of the Maximum Days of Disruption shall be deemed to be the Pricing Date for such Commodity, notwithstanding the fact that such day may, or may not, be a Disrupted Day for such Commodity; and
 - (B) the Relevant Price for the Pricing Date will be subject to Calculation Agent Determination;

provided that,

- (vi) if the relevant Issue Terms specify **"No Adjustment"** to be applicable, then the Pricing Date for such Commodity shall be the Scheduled Pricing Date, notwithstanding the fact that such Scheduled Pricing Date is not a Scheduled Commodity Business Day or is a Disrupted Day for any Commodity, and the Relevant Price shall be subject to Calculation Agent Determination on such Pricing Date, and such determination by the Calculation Agent pursuant to this paragraph (vi) shall be deemed to be the Relevant Price in respect of the relevant Pricing Date;
- (d) the relevant Issue Terms may provide that one or more of the Disruption Fallbacks may apply to any Pricing Date, and that such applicable Disruption Fallbacks may apply concurrently or sequentially, in such manner as specified in the relevant Issue Terms;
- (e) the relevant Issue Terms may provide that different Disruption Fallbacks may apply in respect of different Pricing Dates;
- (f) if the relevant Issue Terms provide that both **"Delayed Publication or Announcement"** and **"Postponement"** shall be applicable Disruption Fallbacks for a Pricing Date, then, unless otherwise specified in the relevant Issue Terms, both such Disruption Fallbacks are to operate concurrently with the other and each shall be subject to the applicable Maximum Days of Disruption, and the price determined by Postponement will be the Relevant Price only if Delayed Publication or Announcement does not yield a Relevant Price within the Maximum Days of Disruption;
- (g) if the Calculation Agent determines that any Pricing Date is a Disrupted Day in respect of any Commodity and, the relevant Issue Terms do not specify a Disruption Fallback, then the Disruption Fallback of **"Postponement"** (with five (5) Scheduled Commodity Business Days as the Maximum Days of Disruption) will be deemed to have been specified;
- (h) if **"Initial Pricing Date Adjustment"** is specified in the relevant Issue Terms to be applicable, the Initial Pricing Date shall be deemed to be a Pricing Date for the purposes of this Commodity Linked Condition 1.2; and
- (i) if:

- (A) it (A) is or would be unlawful at any time under any applicable law or regulation; or (B) would contravene any applicable licensing requirements, for the Calculation Agent to perform the actions prescribed in this Commodity Linked Condition 1.2 (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time); or
- (B) the Calculation Agent determines that the Disruption Fallback would not achieve a commercially reasonable result for any of the Issuer, the Calculation Agent or the Holders,

then on giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be, the Issuer shall redeem the Commodity Linked Securities in whole but not in part, each Commodity Linked Security being redeemed by payment of an amount equal to the Non-scheduled Early Repayment Amount of such Commodity Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be.

1.3 Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day

Where the Commodity Linked Securities are specified in the relevant Issue Terms to relate to a Commodity Basket and such Issue Terms specify "**Basket Valuation (Common Scheduled Commodity Business Day but Individual Disrupted Day)**" to be applicable to any two or more Commodities (such Commodities being "**Common Basket Commodities**" and each a "**Common Basket Commodity**" for the purposes of this Commodity Linked Condition 1.3) (and, if the Issue Terms specify that this provision shall apply to particular Initial Pricing Dates or Pricing Dates, then this provision shall apply to such Initial Pricing Dates or Pricing Dates only), the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Pricing Date is a Common Scheduled Commodity Business Day that is not a Disrupted Day for each Common Basket Commodity, then the Pricing Date for each Common Basket Commodity shall be such Scheduled Pricing Date;
- (b) if the Calculation Agent determines that (i) any Scheduled Pricing Date is a Common Scheduled Commodity Business Day but is a Disrupted Day for one or more Common Basket Commodities, or (ii) any Scheduled Pricing Date is not a Common Scheduled Commodity Business Day, in which case the Pricing Date for each Common Basket Commodity shall be the first succeeding Common Scheduled Commodity Business Day following such Scheduled Pricing Date, provided that if such Common Scheduled Commodity Business Day is a Disrupted Day for one or more Common Basket Commodities, then, in respect of (i) and (ii) the following provisions shall apply:
 - (A) if the Calculation Agent determines that such Common Scheduled Commodity Business Day is not a Disrupted Day for a Common Basket Commodity, then the Pricing Date for such Common Basket Commodity shall be such Common Scheduled Commodity Business Day;
 - (B) if the Calculation Agent determines that such Common Scheduled Commodity Business Day is a Disrupted Day for a Common Basket Commodity (such Common Basket Commodities being "**Affected Common Basket Commodities**" for such Pricing Date, and each such Common Basket Commodity being an "**Affected Common Basket Commodity**" for such Pricing Date), and, if the relevant Issue Terms specify the consequence ("**Disruption Fallback**"):
 - (1) "**Calculation Agent Determination**" to be applicable, then the Calculation Agent will determine the Relevant Price (or a method for determining a Relevant Price), for such Affected Common Basket Commodity taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that it deems relevant on such Pricing Date;

- (2) **"Delayed Publication or Announcement"** to be applicable, then the Relevant Price for a Pricing Date for such Affected Common Basket Commodity will be determined based on the Specified Price (or, if there is no Specified Price for a Commodity Reference Price, such Commodity Reference Price) in respect of such Pricing Date that is published or announced by the Price Source retrospectively on the first succeeding Scheduled Commodity Business Day that the Calculation Agent determines is not a Disrupted Day in respect of such Affected Common Basket Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Affected Common Basket Commodity immediately following such Pricing Date is a Disrupted Day or the Relevant Price continues to be unavailable for consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption. In that case, the next Disruption Fallback specified in the relevant Issue Terms will apply, or, if no such Disruption Fallback is specified or is deemed to be specified, the price for the Pricing Date will be subject to Calculation Agent Determination;
- (3) **"Fallback Reference Dealers"** to be applicable, then the Relevant Price will be determined in accordance with the Commodity Reference Price, **"Commodity — Reference Dealers"**;
- (4) **"Fallback Reference Price"** to be applicable, then the Calculation Agent will determine the Relevant Price for such Affected Common Basket Commodity based on the price for that Pricing Date of the first alternate Commodity Reference Price, if any, specified in the relevant Issue Terms that the Calculation Agent determines is not a Disrupted Day in respect of such Affected Common Basket Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Commodity immediately following such Pricing Date is a Disrupted Day. In that case, the next Disruption Fallback specified in the relevant Issue Terms will apply, or, if no such Disruption Fallback is specified or is deemed to be specified, the price for the Pricing Date will be subject to Calculation Agent Determination; or
- (5) **"Postponement"** to be applicable, then the Pricing Date for such Affected Common Basket Commodity shall be postponed to the first succeeding Scheduled Commodity Business Day that the Calculation Agent determines is not a Disrupted Day in respect of such Affected Common Basket Commodity, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Business Days equal in number to the Maximum Days of Disruption in respect of such Affected Common Basket Commodity immediately following the Common Scheduled Commodity Business Day is a Disrupted Day for such Affected Common Basket Commodity. In that case:
 - (a) the Scheduled Commodity Business Day immediately following the expiry of the Maximum Days of Disruption shall be deemed to be the Pricing Date for such Affected Common Basket Commodity, notwithstanding the fact that such day may, or may not, be a Disrupted Day for such Affected Common Basket Commodity; and
 - (b) the Relevant Price for the Pricing Date will be subject to Calculation Agent Determination;

provided that,

- (6) if the relevant Issue Terms specify **"No Adjustment"** to be applicable, then the Pricing Date for each Common Basket Commodity shall be the Scheduled Pricing Date, notwithstanding the fact that such Scheduled Pricing Date is not a Scheduled Commodity Business Day or is a Disrupted Day for any Common Basket Commodity, and the Relevant Price shall be subject to Calculation Agent

Determination on such Pricing Date, and such determination by the Calculation Agent pursuant to this paragraph (6) shall be deemed to be the Relevant Price in respect of the relevant Pricing Date;

- (c) the relevant Issue Terms may provide that one or more of the Disruption Fallbacks may apply to any Pricing Date, and that such applicable Disruption Fallbacks may apply concurrently or sequentially, in such manner as specified in the relevant Issue Terms;
- (d) the relevant Issue Terms may provide that different Disruption Fallbacks may apply in respect of different Pricing Dates;
- (e) if the relevant Issue Terms provide that both "**Delayed Publication or Announcement**" and "**Postponement**" shall be applicable Disruption Fallbacks for a Pricing Date, then, unless otherwise specified in the relevant Issue Terms, both such Disruption Fallbacks are to operate concurrently with the other and each shall be subject to the applicable Maximum Days of Disruption, and the price determined by Postponement will be the Relevant Price only if Delayed Publication or Announcement does not yield a Relevant Price within the Maximum Days of Disruption;
- (f) if the Calculation Agent determines that any Pricing Date is a Disrupted Day in respect of any Commodity and, the relevant Issue Terms do not specify a Disruption Fallback, then the Disruption Fallback of "**Postponement**" (with five (5) Scheduled Commodity Business Days as the Maximum Days of Disruption) will be deemed to have been specified;
- (g) if "**Initial Pricing Date Adjustment**" is specified in the relevant Issue Terms to be applicable, the Initial Pricing Date shall be deemed to be a Pricing Date for the purposes of this Commodity Linked Condition 1.3; and
- (h) if:
 - (i) it (A) is or would be unlawful at any time under any applicable law or regulation; or (B) would contravene any applicable licensing requirements, for the Calculation Agent to perform the actions prescribed in this Commodity Linked Condition 1.3 (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time); or
 - (ii) the Calculation Agent determines that the Disruption Fallback would not achieve a commercially reasonable result for any of the Issuer, the Calculation Agent or the Holders,

then on giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be, the Issuer shall redeem the Commodity Linked Securities in whole but not in part, each Commodity Linked Security being redeemed by payment of an amount equal to the Non-scheduled Early Repayment Amount of such Commodity Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be.

2. Successor Entity Calculates and Reports a Commodity Reference Price

If in respect of any relevant Pricing Date or any other relevant date which is utilised for any calculation or determination, either a Commodity Reference Price is (i) not announced or published by the Price Source but is calculated and announced by a successor entity acceptable to the Calculation Agent or (ii) replaced by a successor commodity price calculated using, as determined by the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Commodity Reference Price, then in each case, such price as so calculated will be deemed to be the Commodity Reference Price.

3. Corrections to Published Commodity Reference Prices

If a Commodity Reference Price published or announced on a given day and used or to be used by the Calculation Agent to determine a Relevant Price or other amount on any Pricing Date or any other

relevant date which is utilised for any calculation or determination is subsequently corrected and the correction is published or announced by the Trading Facility or any other person responsible for such publication or announcement (i) by the second Scheduled Commodity Business Day prior to the date on which any payment is due (or such other time frame as may be specified in the relevant Issue Terms; provided that different time frames may be specified in the relevant Issue Terms for different days or Pricing Dates) after the original publication or announcement, or (ii) if a Correction Cut-off Date is specified in the relevant Issue Terms to be applicable to such Pricing Date, if earlier, by such Correction Cut-off Date, such corrected price shall be the Commodity Reference Price, and the Calculation Agent, to the extent it deems necessary, may determine to make appropriate adjustments to any of the terms of the Commodity Linked Securities to account for such correction.

4. Fallback Pricing Date for a Single Commodity or Commodity Basket

Where the Commodity Linked Securities are specified in the relevant Issue Terms to relate to a Commodity or a Commodity Basket, and notwithstanding any other terms of these Commodity Linked Conditions, if a Fallback Pricing Date is specified in the relevant Issue Terms to be applicable to any Pricing Date or any other relevant date (as specified in the relevant Issue Terms) (any such date being, for the purposes of this Commodity Linked Condition 4, a "**Relevant Date**") for a Commodity, and if, following adjustment of such Relevant Date pursuant to Commodity Linked Condition 1 (*Consequences of Non-Scheduled Commodity Business Days, Non-Common Scheduled Commodity Business Days or Disrupted Days*) above (for the purposes of this Commodity Linked Condition 4, an "**Affected Commodity**"), the Pricing Date would otherwise fall after the specified Fallback Pricing Date in respect of such Affected Commodity, then (unless otherwise, and to the extent, specified in the relevant Issue Terms) such Fallback Pricing Date shall be deemed to be such Relevant Date for such Affected Commodity.

If such Fallback Pricing Date is not a Scheduled Commodity Business Day or a Common Scheduled Commodity Business Day or is a Disrupted Day in respect of such Affected Commodity, the Relevant Price of such Affected Commodity shall be subject to Calculation Agent Determination on such Fallback Pricing Date, and such determination by the Calculation Agent pursuant to this Commodity Linked Condition 4 shall be deemed to be the Relevant Price in respect of the relevant Pricing Date.

5. Consequences of Disruption Days and Disruption Events in respect of a Commodity Index

5.1 Single Commodity Index and Reference Dates

Where the Commodity Linked Securities are specified in the relevant Issue Terms to relate to a single Commodity Index and such Issue Terms specify "**Single Commodity Index and Reference Dates**" to be applicable to the Commodity Index (and, if the Issue Terms specify that this provision shall apply to particular Reference Dates, then this provision shall apply to such Reference Dates only), and:

- (a) if the Calculation Agent determines that any Scheduled Reference Date in respect of such Commodity Index is a Scheduled Commodity Business Day that is not a Disrupted Day for such Commodity Index, then the Reference Date for such Commodity Index shall be such Scheduled Reference Date;
- (b) if the Calculation Agent determines that any Scheduled Reference Date in respect of such Commodity Index is not a Scheduled Commodity Business Day, then the Reference Date in respect of such Commodity Index shall be the first succeeding day that is a Scheduled Commodity Business Day for such Commodity Index;
- (c) if the Calculation Agent determines that the Reference Date in respect of such Commodity Index is a Disrupted Day, then the Closing Level of such Commodity Index shall not be determined by reference to the Relevant Screen Page but shall be determined by the Calculation Agent as follows:
 - (i) if the Calculation Agent determines that such Reference Date is not a Disrupted Day in respect of a Commodity Contract included in such Commodity Index (an "**Unaffected Commodity Contract**"), the Closing Level of such Commodity Index will be based on the settlement price of such Unaffected Commodity Contract published by the relevant Trading Facility on such Reference Date;

- (ii) if the Calculation Agent determines that such Reference Date is a Disrupted Day in respect of a Commodity Contract included in such Commodity Index (an "**Affected Commodity Contract**"), the Closing Level of such Commodity Index will be based on the settlement price of such Affected Commodity Contract published by the relevant Trading Facility on the first succeeding Scheduled Commodity Trading Day which the Calculation Agent determines is not a Disrupted Day for such Affected Commodity Contract, unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Trading Days relating to such Affected Commodity Contract equal in number to the Maximum Days of Disruption immediately following such Reference Date is a Disrupted Day for such Affected Commodity Contract, then the price of such Affected Commodity Contract to be used in calculating the Closing Level of such Commodity Index for such Reference Date shall be determined by the Calculation Agent on the Scheduled Commodity Trading Day relating to such Affected Commodity Contract immediately following the expiry of the Maximum Days of Disruption, notwithstanding that such day may, or may not, be a Disrupted Day for such Affected Commodity Contract; and
- (iii) the Calculation Agent shall determine the Closing Level of the Commodity Index by reference to the settlement price or other prices of each Commodity Contract included in such Commodity Index determined pursuant to sub-paragraphs (i) and (ii) above using the then current method for calculating the Commodity Index on the Latest Determination Date for such Reference Date; and
- (d) if the offices of the Calculation Agent are not open for business on any relevant Commodity Contract Determination Date, then such calculation will be made by Goldman, Sachs & Co. L.L.C or another affiliate of the Calculation Agent.

5.2 Commodity Index Basket and Reference Dates

Where the Commodity Linked Securities are specified in the relevant Issue Terms to relate to a Commodity Index Basket, the provisions of Commodity Linked Condition 5.1 shall apply to each Commodity Index in the Commodity Index Basket as though the Securities were specified in the relevant Issue Terms to relate to a single Commodity Index.

5.3 Single Commodity Index and Averaging Reference Dates

Where the Commodity Linked Securities are specified in the relevant Issue Terms to relate to a single Commodity Index and such Issue Terms specify "**Single Commodity Index and Averaging Reference Dates**" to be applicable to the Commodity Index (and, if the Issue Terms specify that this provision shall apply to particular Averaging Reference Dates, then this provision shall apply to such Averaging Reference Dates only), and:

- (a) if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of such Commodity Index is a Scheduled Commodity Business Day that is not a Disrupted Day for such Commodity Index, then the Averaging Reference Date for such Commodity Index shall be such Scheduled Averaging Reference Date;
- (b) if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of such Commodity Index is not a Scheduled Commodity Business Day, then the Averaging Reference Date in respect of such Commodity Index shall be the first succeeding day that is a Scheduled Commodity Business Day for such Commodity Index, notwithstanding that such day may fall on another Averaging Reference Date (and whether or not such other Averaging Reference Date was also determined in accordance with this Commodity Linked Condition 5.3);
- (c) if the Calculation Agent determines that the Averaging Reference Date in respect of such Commodity Index is a Disrupted Day, then the Closing Level of such Commodity Index shall not be determined by reference to the Relevant Screen Page but shall be determined by the Calculation Agent as follows:
 - (i) if the Calculation Agent determines that such Averaging Reference Date is not a Disrupted Day in respect of a Commodity Contract included in such Commodity Index

(an "**Unaffected Commodity Contract**"), the Closing Level of such Commodity Index will be based on the settlement price of such Unaffected Commodity Contract published by the relevant Trading Facility on such Averaging Reference Date;

- (ii) if the Calculation Agent determines that such Averaging Reference Date is a Disrupted Day in respect of a Commodity Contract included in such Commodity Index (an "**Affected Commodity Contract**"), the Closing Level of such Commodity Index will be based on the settlement price of such Affected Commodity Contract published by the relevant Trading Facility on the first succeeding Scheduled Commodity Trading Day which the Calculation Agent determines is not a Disrupted Day for such Affected Commodity Contract (regardless of whether such settlement price of the Affected Commodity Contract is also used to determine the Closing Level of such Commodity Index on another Averaging Reference Date), unless the Calculation Agent determines that each of the consecutive Scheduled Commodity Trading Days relating to such Affected Commodity Contract equal in number to the Maximum Days of Disruption immediately following such Averaging Reference Date is a Disrupted Day for such Affected Commodity Contract, then the price of such Affected Commodity Contract to be used in calculating the Closing Level of such Commodity Index for such Averaging Reference Date shall be determined by the Calculation Agent on the Scheduled Commodity Trading Day relating to such Affected Commodity Contract immediately following the expiry of the Maximum Days of Disruption, notwithstanding that such day may, or may not, be a Disrupted Day for such Affected Commodity Contract (regardless of whether such price of the Affected Commodity Contract is also used to determine the Closing Level of such Commodity Index on another Averaging Reference Date); and
- (iii) the Calculation Agent shall determine the Closing Level of the Commodity Index by reference to the settlement price or other prices of each Commodity Contract included in such Commodity Index determined pursuant to sub-paragraphs (i) and (ii) above using the then current method for calculating the Commodity Index on the Latest Determination Date for such Averaging Reference Date; and
- (d) if the offices of the Calculation Agent are not open for business on any relevant Commodity Contract Determination Date, then such calculation will be made by Goldman, Sachs & Co. L.L.C or another affiliate of the Calculation Agent.

5.4 Commodity Index Basket and Averaging Reference Dates

Where the Commodity Linked Securities are specified in the relevant Issue Terms to relate to a Commodity Index Basket, the provisions of Commodity Linked Condition 5.3 shall apply to each Commodity Index in the Commodity Index Basket as though the Securities were specified in the relevant Issue Terms to relate to a single Commodity Index.

6. Adjustments for a Commodity Index

6.1 Successor Commodity Index Sponsor or Successor Commodity Index

If a Commodity Index is (a) not calculated and announced by the Commodity Index Sponsor but is calculated and announced by a successor commodity index sponsor acceptable to the Calculation Agent (the "**Successor Commodity Index Sponsor**"), or (b) replaced by a successor commodity index using, in the determination of the Calculation Agent, the same or a substantially similar specification or formula for, and method of, calculation as used in the calculation of such Commodity Index (the "**Successor Commodity Index**"), then in the case of (a), the Successor Commodity Index Sponsor will be deemed to be the Commodity Index Sponsor for such Commodity Index; and in the case of (b), the Successor Commodity Index will be deemed to be the Commodity Index.

6.2 Occurrence of a Commodity Index Adjustment Event

If, in respect of a Commodity Index, the Calculation Agent determines that,

- (a) on or prior to any Reference Date, Averaging Reference Date or other relevant date, (i) the relevant Commodity Index Sponsor makes, in the determination of the Calculation Agent, a material change in the weighting or composition of the Commodity Index or the formula for, or

the method of, calculating or determining the composition of such Commodity Index, as the case may be, or in any other way materially modifies such Commodity Index (other than a change or modification prescribed in that formula or method relating to the weighting or composition of such Commodity Index, the weighting of the components of such Commodity Index and/or other routine events or modifications as determined by the Calculation Agent) (a "**Commodity Index Modification**"), (ii) the relevant Commodity Index Sponsor permanently cancels or ceases to calculate the relevant Commodity Index and no Successor Commodity Index exists as at the date of such cancellation or cessation (a "**Commodity Index Cancellation**"); or (iii) an Administrator/Benchmark Event Date has occurred in respect of such Commodity Index, or

- (b) on any Reference Date, Averaging Reference Date or other relevant date, (i) in the determination of the Calculation Agent, the Closing Level of the relevant Commodity Index contains a manifest error, or (ii) in the absence of a Disruption Event, the Commodity Index Sponsor fails to calculate and announce the Closing Level of such Commodity Index and a Successor Commodity Index is not calculated and announced (a "**Commodity Index Failure**" and, together with a Commodity Index Modification, a Commodity Index Cancellation and an Administrator/Bench Event, each a "**Commodity Index Adjustment Event**"), then the Calculation Agent shall determine if such Commodity Index Adjustment Event has a material effect on the Commodity Linked Securities and, if so,

(A) shall calculate the relevant Closing Level using, in lieu of a published level for that Commodity Index, the level for such Commodity Index as at that Reference Date, Averaging Reference Date or other relevant date, as the case may be, in accordance with the formula for, and method of, calculating the Closing Level of such Commodity Index last in effect prior to the relevant Commodity Index Adjustment Event, utilising any adjustment to such formula for or the method of calculating the Closing Level of such Commodity Index as it determines to be commercially reasonable, or

(B) may rebase the Commodity Linked Securities against another commodity index or basket of indices, as applicable, selected by the Calculation Agent to be reasonably comparable to the relevant Commodity Index, and, following such rebasing, the Calculation Agent will make such adjustment(s) that it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms of the Commodity Index Linked Securities to account for such rebasing; or

(C) may determine the appropriate adjustment, if any, to be made to any one or more of the terms of the Commodity Linked Securities, including without limitation, any variable or term relevant to the settlement or payment under the Commodity Linked Securities, as the Calculation Agent determines appropriate to account for such Commodity Index Adjustment Event, and shall determine the effective date of that adjustment but,

if:

- (1) it (aa) is or would be unlawful at any time under any applicable law or regulation; or (bb) would contravene any applicable licensing requirements for the Calculation Agent to perform the actions prescribed in paragraphs (A) or (B) above (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time); or
- (2) the Calculation Agent determines that neither paragraph (A), (B) nor (C) above, as is applicable, would achieve a commercially reasonable result for any of the Issuer, the Calculation Agent or the Holders,

then on giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be, the Issuer shall redeem the Commodity Linked Securities in whole but not in part, each Commodity Linked Security being redeemed by payment of an amount equal to the Non-scheduled Early Repayment Amount of such Commodity Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the

Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be.

- (D) Notwithstanding paragraphs (A), (B) and (C) above, if such Commodity Index Adjustment Event has a material effect on the Commodity Linked Securities, the Calculation Agent may, in its discretion, instead determine the relevant level of the Commodity Index, in lieu of a published level for the Commodity Index, in a commercially reasonable manner.

In any such circumstances as described in the preceding paragraph or in paragraphs (A), (B), (D) and (E) above, the Calculation Agent will have no responsibility (in the absence of manifest error) to any person for errors or omissions made in the calculation of the Commodity Index. The Calculation Agent shall not act as agent of the Holders.

7. Corrections to Published Closing Levels in respect of a Commodity Index

If a Closing Level in respect of a Commodity Index published on a Reference Date or Averaging Reference Date is subsequently corrected and the correction is published by the Commodity Index Sponsor or the Successor Commodity Index Sponsor, as the case may be, not later than 12.00 noon (New York City time) on the Scheduled Commodity Business Day immediately following such Reference Date or Averaging Reference Date then the corrected closing level for such Reference Date or Averaging Reference Date shall be deemed to be the Closing Level for such Reference Date or Averaging Reference Date and the Calculation Agent shall use the corrected closing level in accordance with the above provisions, provided that the foregoing provisions shall not apply to any correction to the Closing Level published on or after (a) the Scheduled Commodity Business Day immediately preceding the Maturity Date or, (b) if a Correction Cut-off Date is specified in the relevant Issue Terms to be applicable to such Reference Date or Averaging Reference Date, if earlier, such Correction Cut-off Date.

8. Change of applicable law

Upon an Issuer becoming aware of the occurrence of a Change in Law, such Issuer may in its sole and absolute discretion (a) make such amendments or adjustments to the Conditions as may be required such that its performance under the Commodity Linked Securities shall no longer be unlawful or impracticable under applicable law, provided that such amendments or adjustments are effected in such a manner as to preserve insofar as possible and practicable the commercial terms of the Commodity Linked Securities prior to such amendments or adjustments (and provided further that any proposed substitution of the Issuer may only be effected in accordance with General Instrument Condition 25 (*Substitution*) or General Note Condition 25 (*Substitution*) (as applicable)), or (b) redeem the Commodity Linked Securities on such day as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*) (as applicable) (such notice shall be the "**Early Redemption Notice**" and such notice may specify the date when the Change in Law occurred (such date, the "**Change in Law Effective Date**") and will, if and to the extent permitted by applicable law, pay to the Holder in respect of each Commodity Linked Security the Non-scheduled Early Repayment Amount on such day.

The preceding paragraph shall apply in respect of each Commodity Linked Security which has not been redeemed on or prior to the Change in Law Effective Date, and, for the avoidance of doubt, if an Instrument has been exercised pursuant to General Instrument Condition 7 and General Instrument Condition 8 on or prior to the Change in Law Effective Date in respect of such Instrument, but such Instrument has not yet been redeemed on or prior to such date, then such exercise pursuant General Instrument Condition 7 and General Instrument Condition 10 shall be deemed to be void and of no effect, and such Instrument shall be redeemed in accordance with and pursuant to the preceding paragraph.

General Instrument Condition 20 (*Change in law*) and General Note Condition 19 (*Change in law*) shall not apply to Commodity Linked Securities. However, this Commodity Linked Condition 8 shall not affect the validity of any other change of law provisions in other Underlying Asset Conditions which also apply in respect of any particular Securities: in the event of a conflict between the terms of this Commodity Linked Condition 8 and any such change of law provision of other applicable Underlying Asset Conditions, the Calculation Agent may resolve such conflict in its sole and absolute discretion.

9. General Definitions

The following terms and expressions shall have the following meanings in relation to Commodity Linked Securities to which these Commodity Linked Conditions apply:

"Adjusted Delivery Date" means, in respect of any relevant date, the First Nearby Month, unless such date falls on or after the final day during which trading may take place for the Commodity Contract that expires on the First Nearby Month (but prior to the date of expiry of such Commodity Contract), as determined by the Calculation Agent, in which case the "Adjusted Delivery Date" in relation to such relevant date and the Commodity Contract shall be the Second Nearby Month.

"Administrator/Benchmark Event" means, in respect of a Commodity Reference Price or a Commodity Index, the occurrence or existence, as determined by the Calculation Agent, of any of the following events in respect of such Commodity Reference Price or Commodity Index:

- (a) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of a Commodity Reference Price or a Commodity Index or the administrator or sponsor of a Commodity Reference Price or a Commodity Index has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, or any prohibition by a relevant competent authority or other relevant official body, in each case with the effect that the Issuer and/or the Calculation Agent (as applicable) and/or any other relevant entity is not, or will not be, permitted under any applicable law or regulation to use the Commodity Reference Price or the Commodity Index to perform its or their respective obligations under the Securities; or
- (b) any material change to the methodology or formula for the Commodity Reference Price or the Commodity Index or any other means of calculating the Original Primary Rate, as determined by the Calculation Agent ("**Material Methodology Change Event**");.

"Administrator/Benchmark Event Date" means, in respect of a Commodity Reference Price or a Commodity Index, the date determined by the Calculation Agent to be:

- (a) in the case of paragraph (a) of the definition of "Administrator/Benchmark Event", the date from which the Commodity Reference Price or the Commodity Index may no longer be used under any applicable law or regulation by Issuer and/or the Calculation Agent (as applicable) and/or any other relevant entity to perform its or their respective obligations under the Securities; or
- (b) in the case of paragraph (b) of the definition of "Administrator/Benchmark Event", the date on which the change to the methodology or formula for the Commodity Reference Price or the Commodity Index becomes effective,

or, in each case, if such date occurs before the Trade Date, the Trade Date.

"Affected Commodity" has the meaning given thereto in Commodity Linked Condition 4 (*Fallback Pricing Date for a Single Commodity or Commodity Basket*).

"Affected Common Basket Commodity" and **"Affected Common Basket Commodities"** have the meaning given thereto in Commodity Linked Condition 1.3(b)(B) (*Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day*).

"Affected Commodity Contract" has the meaning given thereto in Commodity Linked Condition 5.1(c)(ii) (*Consequences of Disruption Days and Disruption Events in respect of a Commodity Index*).

"Automatic Early Exercise Date" means, unless otherwise specified in the relevant Issue Terms in respect of any Applicable Date, such date as is specified in the relevant Issue Terms (each, a "**Scheduled Automatic Early Exercise Date**"), provided that:

- (a) in respect of a single Commodity or a Commodity Basket, if the relevant Applicable Date is adjusted in accordance with the Conditions, the corresponding Automatic Early Exercise Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Exercise Settlement Period Business Days after the Latest Pricing Date corresponding to such Applicable Date; or

- (b) in respect of a Commodity Index or a Commodity Index Basket, if the relevant Applicable Date is adjusted in accordance with the Conditions, or if the relevant Applicable Date is a Disrupted Day, the corresponding Automatic Early Exercise Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Exercise Settlement Period Business Days after the Latest Reference Date in respect of such Applicable Date.

"Automatic Early Redemption Date" means, unless otherwise specified in the relevant Issue Terms in respect of any Applicable Date, such date as is specified in the relevant Issue Terms (each, a **"Scheduled Automatic Early Redemption Date"**), provided that:

- (a) in respect of a single Commodity or a Commodity Basket, if the relevant Applicable Date is adjusted in accordance with the Conditions, the corresponding Automatic Early Redemption Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Redemption Settlement Period Business Days after the Latest Pricing Date corresponding to such Applicable Date; or
- (b) in respect of a Commodity Index or a Commodity Index Basket, if the relevant Applicable Date is adjusted in accordance with the Conditions, or if the relevant Applicable Date is a Disrupted Day, the corresponding Automatic Early Redemption Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Redemption Settlement Period Business Days after the Latest Reference Date in respect of such Applicable Date.

"Averaging Date" means, in respect of a Commodity Index, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as an Averaging Reference Date) in accordance with these Commodity Linked Conditions.

"Averaging Reference Date" means, in respect of a Commodity Index, each Initial Averaging Date or Averaging Date, in each case, subject to adjustment in accordance with these Commodity Linked Conditions.

"Calculation Agent Determination" has the meaning given thereto in Commodity Linked Condition 1.1(c)(i) (*Single Commodity and Pricing Dates*), Commodity Linked Condition 1.2(c)(i) (*Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day*) and Commodity Linked Condition 1.3(b)(B)(1) (*Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day*), as applicable.

"CBOT" means the Chicago Board of Trade or its successor, as determined by the Calculation Agent.

"Change in Law" means any event or action or announcement of the intention to take any action, on or after the Trade Date, that in the reasonable determination of the Calculation Agent adversely affects the ability of the Issuer or any of its affiliates (together **"GS"**) to establish or maintain Hedging Positions with respect to the Commodity Linked Securities, that are reasonably necessary to the management of risk arising from the Commodity Linked Securities, including, but not limited to, any relevant law, regulation, ruling, rule, procedure or order (**"Applicable Laws"**) or the amendment, reinterpretation or promulgation of an interpretation of any such Applicable Laws by any regulatory, self-regulatory or legislative body, judicial authority, tax authority with competent jurisdiction (**"Regulatory Authority"**) (including, without limitation, as implemented by any United States, European or Asian Regulatory Authority (including the Commodity Futures Trading Commission and the Relevant European Authorities) or exchange, trading facility, central counterparty or other clearing organisation that results in (a) the elimination, limitation, withdrawal or unavailability for any reason of any hedge exemptions from applicable position limits previously granted to GS by any such Regulatory Authority or any such exchange, trading facility, central counterparty or other clearing organisation, or any hedge exemptions otherwise available to GS under Applicable Laws; or (b) a restriction or revision of existing position limits applicable to GS in respect of, or the imposition of position limits to, any Hedging Positions established by GS in connection with the Commodity Linked Securities to the extent that such application prevents or adversely affects GS from establishing or maintaining Hedging Positions that are reasonably necessary in order for it to manage the risk arising from or in connection with the Commodity Linked Securities, or such other Applicable Laws of any jurisdiction which have an analogous affect to any events specified in (a) and (b) above; or (c) the Issuer or any of its affiliates incurring a materially

increased cost in performing the Issuer's obligations under the Commodity Linked Securities or in acquiring, establishing, re-establishing, substituting, unwinding, maintaining or disposing of any Hedge Positions with respect to the Commodity Linked Securities (including, without limitation, due to any mandatory margining or clearing requirement, any increase in capital charges, taxes or level of capital that is required to be set aside in respect of the Commodity Linked Securities or such Hedge Positions).

"Closing Level" means, in respect of a Commodity Index and a Reference Date, Averaging Reference Date or any other relevant date, the official closing level of the Commodity Index as announced and published on the Relevant Screen Page on such Reference Date, Averaging Reference Date or such other relevant date, as determined by the Calculation Agent, or, if a Disruption Event occurs or is continuing in respect of a Commodity Index and a relevant date, as calculated by the Calculation Agent in accordance with Commodity Linked Condition 5 (*Consequences of Disruption Days and Disruption Events in respect of a Commodity Index*), as determined by the Calculation Agent.

"CME" means the Chicago Mercantile Exchange or its successor, as determined by the Calculation Agent.

"Commodity" means each commodity as specified in the relevant Issue Terms.

"Commodity Basket" means a basket comprising Commodities, as specified in the relevant Issue Terms.

"Commodity Contract" means:

- (a) in respect of a Commodity and a Commodity Reference Price, the contract for future delivery of a contract size in respect of the relevant Delivery Date relating to the Commodity referred to in that Commodity Reference Price;
- (b) in respect of a Commodity Index, each of the contracts that is traded on a Trading Facility and that provides for future delivery of, or provides for cash settlement based on the price of, a deliverable commodity included in such Commodity Index.

"Commodity Contract Determination Date" means, in respect of an Affected Commodity Contract included in a Commodity Index the day on which the settlement price of such Affected Commodity Contract is determined in accordance with Commodity Linked Condition 5.1(c)(ii) (*Consequences of Disruption Days and Disruption Events in respect of a Commodity Index*).

"Commodity Index" means an index that includes Commodity Contracts in respect of Commodities specified in the relevant Issue Terms.

"Commodity Index Adjustment Event" means each of Commodity Index Cancellation, Commodity Index Failure and Commodity Index Modification.

"Commodity Index Basket" means a basket composed of Commodity Indices, as specified in the relevant Issue Terms.

"Commodity Index Cancellation" has the meaning given thereto in Commodity Linked Condition 6.2(a) (*Occurrence of a Commodity Index Adjustment Event*).

"Commodity Index Failure" has the meaning given thereto in Commodity Linked Condition 6.2(b) (*Occurrence of a Commodity Index Adjustment Event*).

"Commodity Index Level" means, in respect of a Commodity Index and any relevant time on any relevant day, the level of the Commodity Index as of the relevant time on the relevant date, as calculated and published by the relevant Commodity Index Sponsor, as determined by the Calculation Agent.

"Commodity Index Modification" has the meaning given thereto in Commodity Linked Condition 6.2(a) (*Occurrence of a Commodity Index Adjustment Event*).

"Commodity Index Sponsor" means, in respect of a Commodity Index, the entity specified in the relevant Issue Terms, that the Calculation Agent determines is (a) responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to such

Commodity Index, and (b) announces (directly or through an agent) the level of such Commodity Index on a regular basis, or its successor as determined by the Calculation Agent.

"Commodity Linked Securities" means Commodity Linked Notes or Commodity Linked Instruments, as the case may be.

"Commodity Price" means, in respect of a Commodity and any time on any relevant day, the official price of such Commodity on the relevant Trading Facility at such time on such day as determined and made public by the relevant Price Source on that day.

"Commodity — Reference Dealers" means that the price for a Pricing Date will be determined on the basis of quotations provided by Reference Dealers on that Pricing Date of that day's Specified Price (or, if there is no Specified Price for a Commodity Reference Price, such Commodity Reference Price) for a Unit of the Relevant Commodity for delivery on the Delivery Date (or, if there is no Delivery Date for a Commodity Reference Price, for delivery on such date that forms the basis on which such Commodity Reference Price is quoted). If four quotations are provided as requested, the price for that Pricing Date will be the arithmetic mean of the Specified Prices (or, if there is no Specified Price for a Commodity Reference Price, of such Commodity Reference Prices for the relevant date and time) for that Commodity provided by each Reference Dealer, without regard to the Specified Prices (or, as the case may be, Commodity Reference Prices for the relevant date and time) having the highest and lowest values. If exactly three quotations are provided as requested, the price for that Pricing Date will be the Specified Price (or, as the case may be, Commodity Reference Price for the relevant date and time) provided by the relevant Reference Dealer that remains after disregarding the Specified Prices (or, as the case may be, Commodity Reference Prices for the relevant date and time) having the highest and lowest values. For this purpose, if more than one quotation has the same highest or lowest value, then the Specified Price (or, as the case may be, Commodity Reference Price for the relevant date and time) of one of such quotations shall be disregarded. If fewer than three quotations are provided, then the next Disruption Fallback specified in the relevant Issue Terms will apply, or, if no such Disruption Fallback is specified or is deemed to be specified, the price for the Pricing Date will be subject to Calculation Agent Determination.

"Commodity Reference Price" means, in respect of a Commodity, any of the reference price set forth in Commodity Linked Condition 10 (*Commodity Reference Price and Related Definitions*) specified as such in the relevant Issue Terms or if the relevant Issue Terms specify **"Commodity Reference Price Framework Determination"**, the Commodity Reference Price in respect of a Commodity and a Pricing Date or any other relevant date as determined by the Calculation Agent will be:

- (a) the Specified Price per Unit of the Commodity on the relevant Exchange and if a Delivery Date is specified in the relevant Issue Terms, for delivery on the Delivery Date, stated in the relevant currency of such Specified Price, as made public by the Trading Facility on that Pricing Date or such other relevant date; or
- (b) the Specified Price per Unit of the Commodity and if a Delivery Date is specified in the relevant Issue Terms, for the Delivery Date, stated in the relevant currency of such Specified Price, published or displayed on the Price Source that publishes or displays prices effective on that Pricing Date or such other relevant date,

in each case, specified as such in the relevant Issue Terms for that Commodity and subject to adjustment in accordance with the Commodity Linked Conditions.

"Common Basket Commodity" and **"Common Basket Commodities"** have the meaning given thereto in Commodity Linked Condition 1.3 (*Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day*).

"Common Scheduled Commodity Business Day" means, in respect of Common Basket Commodities, each day which is a Scheduled Commodity Business Day for all Common Basket Commodities.

"Correction Cut-off Date" means, if specified in the relevant Issue Terms to be applicable to any date on which the price of a Commodity or a Commodity Index is required to be determined, the date(s) specified as such in the relevant Issue Terms, or such number of Business Days as specified in the relevant Issue Terms prior to the next following date upon which any payment or delivery of assets may

have to be made by the Issuer by reference to the price of such Commodity or Commodity Index on such day, unless **"Default Correction Cut-off Date"** is specified in the Issue Terms to be applicable in respect of any date on which the price of such Commodity or Commodity Index is required to be determined, then the Correction Cut-off Date for such Commodity or Commodity Index and such date shall be the second Business Day prior to the next following date upon which any payment or delivery of assets may have to be made by the Issuer by reference to the price of such Commodity or Commodity Index on such day.

"Delayed Publication or Announcement" has the meaning given thereto in Commodity Linked Condition 1.1(c)(ii) (*Single Commodity and Pricing Dates*), Commodity Linked Condition 1.2(c)(ii) (*Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day*) and Commodity Linked Condition 1.3(b)(B)(2) (*Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day*), as applicable.

"Delivery Date" means, in respect of a Commodity Reference Price, such delivery date as is specified in the relevant Issue Terms.

"Disappearance of Commodity Reference Price" means, in respect of a Commodity,

- (a) the permanent discontinuation of trading in the relevant Commodity Contract on the relevant Trading Facility;
- (b) the disappearance of, or of trading in, such Commodity; or
- (c) the disappearance or permanent discontinuation or unavailability of the Commodity Reference Price, notwithstanding the availability of the Price Source or the status of trading in the relevant Commodity Contract or the relevant Commodity.

"Disrupted Day" means, in respect of:

- (a) a Commodity or a Commodity Basket, any Scheduled Commodity Business Day on which a Disruption Event has occurred; and
- (b) a Commodity Index, a day on which a Disruption Event is occurring with respect to a Commodity Contract included in such Commodity Index.

"Disruption Event" means:

- (a) in respect of a Commodity, the occurrence on any day of any one or more of the following, as determined by the Calculation Agent:
 - (i) Disappearance of Commodity Reference Price;
 - (ii) Material Change in Content;
 - (iii) Material Change in Formula;
 - (iv) Price Source Disruption;
 - (v) Tax Disruption;
 - (vi) Trading Disruption; or
 - (vii) Administrator/Benchmark Event; and
- (b) in respect of a Commodity Index, the occurrence on any day of any one or more of the following, as determined by the Calculation Agent:
 - (i) the settlement price for any Commodity Contract included in such Commodity Index is a "limit price" which means that the settlement price for such Commodity Contract for a day has increased or decreased from the previous day's settlement price by the maximum amount permitted under the rules of the relevant Trading Facility;

- (ii) trading in any Commodity Contract included in such Commodity Index is suspended or interrupted subsequent to the opening of trading and trading in such Commodity Contract does not recommence at least ten (10) minutes prior to the regular scheduled close of trading in such Commodity Contract, or in the event trading does recommence at least ten (10) minutes prior to the regular scheduled close of trading on the relevant Trading Facility, trading does not continue on an uninterrupted basis until the regular scheduled close of trading in such Commodity Contract; or
- (iii) failure by the relevant Trading Facility to announce or publish the settlement price for any Commodity Contract included in such Commodity Index.

"Disruption Fallback" has the meaning given thereto in Commodity Linked Condition 1.1(c) (*Single Commodity and Pricing Dates*), Commodity Linked Condition 1.2(c) (*Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day*) and Commodity Linked Condition 1.3(b) (*Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day*), as applicable.

"Fallback Pricing Date" means, in respect of a Commodity or a Commodity Basket and any relevant date, the date(s) specified as such in the relevant Issue Terms.

"Fallback Reference Dealers" has the meaning given thereto in Commodity Linked Condition 1.1(c)(iii) (*Single Commodity and Pricing Dates*), Commodity Linked Condition 1.2(c)(iii) (*Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day*) and Commodity Linked Condition 1.3(b)(B)(3) (*Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day*), as applicable.

"Fallback Reference Price" has the meaning given thereto in Commodity Linked Condition 1.1(c)(iv) (*Single Commodity and Pricing Dates*), Commodity Linked Condition 1.2(c)(iv) (*Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day*) and Commodity Linked Condition 1.3(b)(B)(4) (*Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day*), as applicable.

"Final Pricing Date" means, in respect of a Commodity, the Pricing Date for the Commodity scheduled to fall on the date specified as the "Final Pricing Date" in the relevant Issue Terms.

"Hedging Positions" means, for the purposes of the "Change in Law" definition, any position, including, without limitation, any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in futures, options, swaps or other derivatives or foreign exchange, securities or (ii) other instruments or arrangements (howsoever described) established or maintained by GS in order to hedge, individually or on a portfolio basis, the Commodity Linked Securities.

"ICE" means the Intercontinental Exchange™ or its successor, as determined by the Calculation Agent.

"Initial Averaging Date" means, in respect of a Commodity Index, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as an Averaging Reference Date) in accordance with these Commodity Linked Conditions.

"Initial Pricing Date" means, in respect of a Commodity or a Commodity Basket, each date specified as such or otherwise determined as provided in the relevant Issue Terms.

"Initial Valuation Date" means, in respect of a Commodity Index, each date specified as such or otherwise determined as provided in the relevant Issue Terms subject to adjustment (as a Reference Date) in accordance with these Commodity Linked Conditions.

"KCBOT" means the Kansas City Board of Trade or its successor, as determined by the Calculation Agent.

"Last Averaging Date" means, in respect of a Commodity Index, the Averaging Date for the Commodity Index scheduled to fall on the date specified as the "Last Averaging Date" in the relevant Issue Terms.

"Latest Determination Date" means, in respect of a Commodity Index, and a Reference Date or an Averaging Reference Date, and all Commodity Contracts included in the Commodity Index, on such

Reference Date or Averaging Reference Date, if (i) no Disruption Event has occurred for any such Commodity Contracts on such Reference Date or Averaging Reference Date, such Reference Date or Averaging Reference Date, or (ii) if a Disruption Event has occurred for one or more such Commodity Contracts on the Reference Date or Averaging Reference Date, the Commodity Contract Determination Date to fall latest in time.

"Latest Pricing Date" means, in respect of a single Commodity and a Pricing Date, such Pricing Date, and in respect of all the Commodities included in a Commodity Basket and a Pricing Date, if (i) the Scheduled Pricing Date corresponding to such Pricing Date is a Scheduled Commodity Business Day for each such Commodity and no Disruption Event has occurred for any such Commodity on such Pricing Date, such Pricing Date, or (ii) as a result of the Scheduled Pricing Date corresponding to such Pricing Date not being a Scheduled Commodity Business Day for one or more such Commodities or the occurrence of a Disruption Event for one or more Commodities in the Commodity Basket on the Pricing Date, the Pricing Date for two or more Commodities in the Commodity Basket falls on different dates, the date corresponding to the Pricing Date which is the latest to occur, as determined by the Calculation Agent.

"Latest Reference Date" means, in respect of:

- (a) a single Commodity Index and a Reference Date or an Averaging Reference Date, and all Commodity Contracts included in the Commodity Index on such Reference Date or Averaging Reference Date, the Latest Determination Date in respect of such Reference Date or Averaging Reference Date; or
- (b) a Commodity Index Basket and a Reference Date or Averaging Reference Date, and all Commodity Contracts included in each Commodity Index in the Commodity Index Basket on such Reference Date or Averaging Reference Date (being for the purposes of this definition, the **"Relevant Reference Date"**):
 - (i) if, as a result of the Relevant Reference Date not being a Scheduled Commodity Business Day for one or more Commodity Indices in the Commodity Index Basket or as a result of the occurrence of a Disruption Event for any Commodity Contract included in any Commodity Index on the Relevant Reference Date, the Latest Determination Date in respect of the Relevant Reference Date for two or more Commodity Indices falls on different dates, the date corresponding to the Latest Determination Date in respect of the Relevant Reference Date to fall latest in time, as determined by the Calculation Agent; or
 - (ii) if the Latest Determination Date in respect of the Relevant Reference Date for all of the Commodity Indices in the Commodity Index Basket falls on the same date, such date.

"LBMA" means The London Bullion Market Association or its successor, as determined by the Calculation Agent.

"LME" means The London Metal Exchange Limited or its successor, as determined by the Calculation Agent.

"Material Change in Content" means, in respect of a Commodity, the occurrence since the Issue Date of a material change in the content, composition or constitution of the Commodity or relevant Commodity Contract.

"Material Change in Formula" means, in respect of a Commodity, the occurrence since the Issue Date of a material change in the formula for or the method of calculating the relevant Commodity Reference Price.

"Maturity Date" means:

- (a) in respect of Commodity Linked Instruments other than Nordic Registered Instruments, Euroclear France Registered Instruments or French Law Instruments, the Scheduled Maturity Date specified in the relevant Issue Terms, and, unless otherwise specified in the relevant Issue Terms, (i) in respect of a single Commodity or a Commodity Basket, if the Relevant Determination Date is adjusted in accordance with the Conditions, the Maturity Date will

instead be the day falling the number of Business Days equal to the Number of Settlement Period Business Days after the Latest Pricing Date corresponding to the Relevant Determination Date, or (ii) in respect of a Commodity Index or a Commodity Index Basket, if the Relevant Determination Date is adjusted in accordance with the Conditions, or if the Relevant Determination Date is a Disrupted Day in respect of any Commodity Contract included in any Commodity Index on such Relevant Determination Date, the Maturity Date will instead be the day falling the number of Business Days equal to the Number of Settlement Period Business Days after the Latest Reference Date corresponding to the Relevant Determination Date; or

- (b) in respect of Commodity Linked Notes, the Scheduled Maturity Date specified in the relevant Issue Terms, and, unless otherwise specified in the relevant Issue Terms, (i) in respect of a single Commodity or a Commodity Basket, if the Relevant Determination Date is adjusted in accordance with the Conditions, the Maturity Date will instead be the day falling the number of Business Days equal to the Number of Settlement Period Business Days after the Latest Pricing Date corresponding to the Relevant Determination Date, or (ii) in respect of a Commodity Index or a Commodity Index Basket, if the Relevant Determination Date is adjusted in accordance with the Conditions, or if the Relevant Determination Date is a Disrupted Day in respect of any Commodity Contract included in any Commodity Index on such Relevant Determination Date, the Maturity Date will instead be the day falling the number of Business Days equal to the Number of Settlement Period Business Days after the Latest Reference Date corresponding to the Relevant Determination Date.

"Maximum Days of Disruption" means in respect of Commodity Linked Securities that relate to:

- (a) a single Commodity or a Commodity Basket, five Scheduled Commodity Business Days; or
- (b) a Commodity Index or a Commodity Index Basket, five Scheduled Commodity Trading Days,

or, in each case, such other number of Scheduled Commodity Business Days or Scheduled Commodity Trading Days, as applicable specified in the relevant Issue Terms.

"Nearby Month", when preceded by a numerical adjective, means, in respect of a Delivery Date and a Pricing Date or other relevant date, the month of expiration of the Commodity Contract identified by that numerical adjective, so that, for example, (a) "First Nearby Month" means the month of expiration of the first Commodity Contract to expire following the Pricing Date or other relevant date; (b) "Second Nearby Month" means the month of expiration of the second Commodity Contract to expire following the Pricing Date or other relevant date; and (c) "Sixth Nearby Month" means the month of expiration of the sixth Commodity Contract to expire following the Pricing Date or other relevant date.

"No Adjustment" has the meaning given thereto in Commodity Linked Condition 1.1(c)(vi) (*Single Commodity and Pricing Dates*) or Commodity Linked Condition 1.2(c)(vi) (*Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day*), as applicable.

"NYMEX" means the New York Mercantile Exchange, Inc. or its successor, as determined by the Calculation Agent.

"Observation Date (closing valuation)" means, if specified to be applicable in the relevant Issue Terms, in respect of a Commodity or a Commodity Index and an Observation Period, each Scheduled Commodity Business Day which is not a Disrupted Day in respect of such Commodity or Commodity Index falling in the Observation Period for such Commodity or Commodity Index, as determined by the Calculation Agent.

"Observation Date (intra-day valuation)" means, if specified to be applicable in the relevant Issue Terms, in respect of:

- (a) a Commodity and an Observation Period, each Scheduled Commodity Business Day on which the relevant Price Source publishes the Commodity Price in respect of such Commodity, regardless of whether such day is a Disrupted Day and; or

- (b) a Commodity Index and an Observation Period, each Scheduled Commodity Business Day on which the relevant Commodity Index Sponsor calculates and publishes the Commodity Index Level, regardless of whether such day is a Disrupted Day.

"Observation Hours" means, in respect of a Commodity and any relevant day in an Observation Period, the period commencing on the Observation Hours Start Time (and including or excluding such Observation Hours Start Time as specified in the relevant Issue Terms) and ending on the Observation Hours End Time (and including or excluding such Observation Hours End Time as specified in the relevant Issue Terms). If "Observation Hours Disruption Events" is specified to be applicable in the relevant Issue Terms, then any period on which a Disruption Event in respect of such Commodity has occurred or is continuing shall be deemed to be excluded from the Observation Hours.

"Observation Hours End Time" means, in respect of a Commodity, such time specified as such in the relevant Issue Terms.

"Observation Hours Start Time" means, in respect of a Commodity, such time specified as such in the relevant Issue Terms.

"Observation Period" means a Barrier Observation Period, a Trigger Observation Period, an Autocall Observation Period or a Coupon Barrier Observation Period.

"Postponement" has the meaning given thereto in Commodity Linked Condition 1.1(c)(v) (*Single Commodity and Pricing Dates*), Commodity Linked Condition 1.2(c)(v) (*Commodity Basket and Pricing Dates – Individual Scheduled Commodity Business Day and Individual Disrupted Day*), Commodity Linked Condition 1.3(b)(B)(5) (*Commodity Basket and Pricing Dates – Common Scheduled Commodity Business Day but Individual Disrupted Day*), as applicable.

"Price Materiality Percentage" means the percentage specified as such in the relevant Issue Terms.

"Price Source" means the publication (or such other origin of reference, including a Trading Facility) containing (or reporting) the Specified Price (or prices from which the Specified Price is calculated).

"Price Source Disruption" means, in respect of a Commodity:

- (a) the failure of the Price Source to announce or publish the Specified Price (or the information necessary for determining the Specified Price) for the relevant Commodity Reference Price (or, if there is no Specified Price for a Commodity Reference Price, the failure of the Price Source to announce or publish such Commodity Reference Price for any relevant day (or the information necessary for determining such Commodity Reference Price for such day));
- (b) the temporary or permanent discontinuance or unavailability of the Price Source;
- (c) if the Commodity Reference Price is "Commodity – Reference Dealers", the failure to obtain at least three quotations as requested from the relevant Reference Dealers; or
- (d) if a Price Materiality Percentage is specified in the relevant Issue Terms, the Specified Price for the relevant Commodity Reference Price differs from the Specified Price determined in accordance with the Commodity Reference Price, "Commodity – Reference Dealers", by such Price Materiality Percentage.

"Pricing Date" means, in respect of a Commodity, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions.

"Reference Date" means, in respect of a Commodity Index, each Initial Valuation Date or Valuation Date, in each case, subject to adjustment in accordance with these Commodity Linked Conditions.

"Reference Dealers" means, if the relevant Commodity Reference Price is "**Commodity – Reference Dealers**", the four dealers specified in the relevant Issue Terms or, if dealers are not so specified, four leading dealers in the relevant market as determined by the Calculation Agent.

"Relevant Commodity" means, in respect of a Commodity Linked Security, such commodity as is so specified in the relevant Issue Terms, and, if more than one commodity is so specified in the relevant Issue Terms, then all such commodities shall be referred to as the **"Relevant Commodities"**.

"Relevant Date" has the meaning given thereto in Commodity Linked Condition 4 (*Fallback Pricing Date for a Single Commodity or Commodity Basket*).

"Relevant European Authorities" means, for the purposes of the "Change in Law" definition, the European Commission, the European Parliament, the Council of the European Union, the European Securities and Markets Authority, the European Banking Authority, the European Insurance and Occupational Pensions Authority, the European Central Bank, and any competent authority of a member state of the European Economic Area.

"Relevant Price" means, for any Pricing Date, the price, expressed as a price per Unit, determined by the Calculation Agent with respect to the Pricing Date for the relevant Commodity Reference Price.

"Relevant Screen Page" means the Bloomberg page or ticker as specified in the Issue Terms or any official successor thereto.

"Scheduled Averaging Date" means, in respect of a Commodity Index, any original date that, but for such day not being a Scheduled Commodity Business Day for such Commodity Index or for the occurrence of a Disruption Event causing a Disrupted Day on such date, would have been an Averaging Date.

"Scheduled Averaging Reference Date" means, in respect of a Commodity Index, each Scheduled Averaging Date or Scheduled Initial Averaging Date.

"Scheduled Commodity Business Day" means

- (a) in respect of a single Commodity or a Commodity Basket; and:
 - (i) where the Commodity Reference Price for a Commodity is a price announced or published by a Trading Facility, a day that is (or, but for the occurrence of a Disruption Event, would have been) a day on which such Trading Facility is open for trading during its regular trading session, notwithstanding any such Trading Facility closing prior to its scheduled closing time; and
 - (ii) where the Commodity Reference Price for a Commodity is not a price announced or published by a Trading Facility, a day that is (or, but for the occurrence of a Disruption Event, would have published) a day in respect of which the relevant Price Source published a price.
- (b) in respect of a Commodity Index any day:
 - (i) that is (or, but for the occurrence of a Disruption Event, would have been) a day on which all the Trading Facilities on which the Commodity Contracts included in the Commodity Index are traded, are open for trading during their regular trading session, notwithstanding any such Trading Facility closing prior to its scheduled closing time; and
 - (ii) the offices of Goldman, Sachs & Co. LLC in New York City are open for business.

"Scheduled Commodity Trading Day" means, in respect of an Affected Commodity Contract, a day on which the relevant Trading Facility on which such Affected Commodity Contract is traded is scheduled to be open for trading for its regular trading session.

"Scheduled Initial Averaging Date" means, in respect of a Commodity Index, any original date that, but for such day not being a Scheduled Commodity Business Day for such Commodity Index or for the occurrence of a Disruption Event causing a Disrupted Day on such date, would have been an Initial Averaging Date.

"Scheduled Initial Valuation Date" means, in respect of a Commodity Index, any original date that, but for such day not being a Scheduled Commodity Business Day in respect of such Commodity Index or for the occurrence of a Disruption Event causing a Disrupted Day on such date, would have been an Initial Valuation Date.

"Scheduled Pricing Date" means, in respect of a Commodity, any original date that, but for such day not being a Scheduled Commodity Business Day in respect of such Commodity or for the occurrence of a Disruption Event causing a Disrupted Day on such date, would have been a Pricing Date.

"Scheduled Reference Date" means, in respect of a Commodity Index, each Scheduled Initial Valuation Date or Scheduled Valuation Date.

"Scheduled Valuation Date" means in respect of a Commodity Index, any original date that, but for such day not being a Scheduled Commodity Business Day in respect of such Commodity Index or for the occurrence of a Disruption Event causing a Disrupted Day on such date, would have been a Valuation Date.

"Specified Price" means, in respect of a Commodity Reference Price,

- (a) the price specified in the relevant Commodity Reference Price in Commodity Linked Condition 9 (*General Definitions*); or
- (b) as otherwise specified in the relevant Issue Terms, being any of the following prices (which must be a price reported in or by, or capable of being determined from information reported in or by, the relevant Price Source), and, if applicable, as of the time so specified: (A) the high price; (B) the low price; (C) the average of the high price and the low price; (D) the closing price; (E) the opening price; (F) the bid price; (G) the asked price; (H) the average of the bid price and the asked price; (I) the settlement price; (J) the official settlement price; (K) the official price; (L) the morning fixing; (M) the afternoon fixing; or (N) the spot price.

"Successor Commodity Index" has the meaning given thereto in Commodity Linked Condition 6.1 (*Successor Commodity Index Sponsor or Successor Commodity Index*).

"Successor Commodity Index Sponsor" has the meaning given thereto in Commodity Linked Condition 6.1 (*Successor Commodity Index Sponsor or Successor Commodity Index*).

"Tax Disruption" means, in respect of a Commodity, the imposition of, change in or removal of an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, such Commodity (other than a tax on, or measured by reference to overall gross or net income) by any government or taxation authority after the Issue Date or such other date as may be specified in the relevant Issue Terms, if the direct effect of such imposition, change, or removal is to raise or lower the Relevant Price on the day that would otherwise be a Pricing Date (or such other relevant date as may be specified in the relevant Issue Terms) from what it would have been without that imposition, change, or removal.

"Trade Date" means the Strike Date, unless otherwise specified in the relevant Issue Terms.

"Trading Disruption" means, in respect of a Commodity, the material suspension of, or the material limitation imposed on, trading in the Commodity Contract or the Commodity on the Trading Facility, or in any additional futures contract, options or swap contract, or commodity on any Trading Facility as specified in the relevant Issue Terms or as determined by the Calculation Agent. For these purposes:

- (a) a suspension of the trading in the Commodity Contract or the Commodity on any Pricing Date or other relevant date shall be deemed to be material only if:
 - (i) all trading in the Commodity Contract or the Commodity is suspended for the entire Pricing Date or such other relevant date; or
 - (ii) all trading in the Commodity Contract or the Commodity is suspended subsequent to the opening of trading on the Pricing Date or such other relevant date, trading does not recommence prior to the regularly scheduled close of trading in such Commodity

Contract or Commodity on such Pricing Date or such other relevant date and such suspension is announced less than one-hour preceding its commencement; and

- (b) a limitation of trading in the Commodity Contract or the Commodity on any Pricing Date or other relevant date shall be deemed to be material only if the Trading Facility establishes limits on the range within which the price of the Commodity Contract or the Commodity may fluctuate and the closing or settlement price of the Commodity Contract or the Commodity on such day is at the upper limit of that range or at the lower limit of that range.

"Trading Facility" means, in respect of a Commodity or relevant Commodity Contract, the exchange or trading facility or principal trading market on which such Commodity or Commodity Contract is traded, and in respect of Securities linked to a single Commodity or basket of Commodities, as specified in the relevant Issue Terms or Commodity Reference Price, or any successor to such exchange or trading facility or principal trading market to which trading in such Commodity or Commodity Contract has temporarily relocated, as determined by the Calculation Agent.

"Unaffected Commodity Contract" has the meaning given thereto in Commodity Linked Condition 5.1(c)(i) (*Consequences of Disruption Days and Disruption Events in respect of a Commodity Index*).

"Unit" means the unit of measure of the Relevant Commodity, as specified in the relevant Commodity Reference Price or the relevant Issue Terms.

"Valuation Date" means, in respect of a Commodity Index, each date specified as such or otherwise determined herein or as provided in the relevant Issue Terms, subject to adjustment (as a Reference Date) in accordance with these Commodity Linked Conditions, provided that if the Securities are Open-ended Instruments, then notwithstanding the above, the Valuation Date shall be:

- (a) in respect of each Open-ended Instrument which has not yet been redeemed pursuant to General Instrument Condition 18 (*Optional Early Redemption*), if such Open-ended Instrument is exercised pursuant to General Instrument Condition 9(a), the Scheduled Commodity Business Day immediately following the Exercise Date for such Open-ended Instrument, and subject to adjustment (as a Reference Date) in accordance with these Commodity Linked Conditions; and
- (b) in respect of each Open-ended Instrument which is redeemed pursuant to General Instrument Condition 18 (*Optional Early Redemption*), the Scheduled Commodity Business Day immediately following the Call Option Effective Date, and subject to adjustment (as a Reference Date) in accordance with these Commodity Linked Conditions (and such day, after such adjustment, shall be the **"Call Valuation Date"**), unless such Open-ended Instrument is exercised pursuant to General Instrument Condition 9(a), in which case sub-paragraph (a) above applies.

10. Commodity Reference Price and Related Definitions

Unless otherwise stated in the relevant Issue Terms, the Commodity Reference Price and related definitions for each specified Commodity shall be as set out below:

10.1 Aluminium

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Aluminium, the ALUMINIUM-LME CASH in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"ALUMINIUM-LME CASH" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per metric tonne of Aluminium on the LME for the applicable Delivery Date, stated in United States dollars, as determined by the LME and displayed on the Price Source that displays prices effective on such Pricing Date or other relevant date,

where:

"Aluminium" means high grade primary aluminium; and

"**Specified Price**" means, in respect of any Pricing Date or other relevant date, the official cash settlement price per tonne of Aluminium.

10.2 Brent Crude Oil

"**Commodity Reference Price**" means, in respect of any Pricing Date or other relevant date and Brent Crude Oil, the OIL-BRENT-ICE in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"**OIL-BRENT-ICE**" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per barrel of Brent Crude Oil on the ICE of the Brent Crude Oil Commodity Contract for the Delivery Date, stated in United States dollars, as made public by the ICE and displayed on the Price Source that displays prices effective on that Pricing Date or other relevant date,

where:

"**Brent Crude Oil**" means Brent blend crude oil;

"**Brent Crude Oil Commodity Contract**" means the contract for future delivery in respect of the relevant Delivery Date relating to Brent Crude Oil; and

"**Specified Price**" means, in respect of any Pricing Date or other relevant date, the official settlement price.

10.3 Coal

"**Commodity Reference Price**" means, in respect of any Pricing Date or other relevant date and Coal, the "COAL-TFS API 2-ARGUS/MCCLOSKEY'S" in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"**COAL-TFS API 2-ARGUS/MCCLOSKEY'S**" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per tonne of Coal, stated in United States dollars published in the Price Source that reports prices effective on that Pricing Date or other relevant date,

where:

"**Coal**" means steam coal 6,000 kcal/kg, up to 1 per cent. sulphur NAR basis, cif ARA; and

"**Specified Price**" means in respect of any Pricing Date or other relevant date, the official settlement price.

10.4 Cocoa

"**Commodity Reference Price**" means, in respect of any Pricing Date or other relevant date and Cocoa, the "COCOA-ICE" in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"**COCOA-ICE**" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per metric tonne of Cocoa on the ICE of the Cocoa Commodity Contract for the Delivery Date, stated in United States dollars, as made public by the ICE and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"**Cocoa**" means deliverable grade cocoa beans;

"**Cocoa Commodity Contract**" means the contract for future delivery in respect of the relevant Delivery Date relating to Cocoa; and

"**Specified Price**" means, in respect of any Pricing Date or other relevant date, the official settlement price.

10.5 Coffee

"**Commodity Reference Price**" means, in respect of any Pricing Date or other relevant date and Coffee, the "**COFFEE ARABICA-ICE**", in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"**COFFEE ARABICA-ICE**" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per pound of Coffee on the ICE of the Coffee Commodity Contract for the Delivery Date, stated in United States cents, as made public by the ICE and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"**Coffee**" means deliverable grade washed arabica coffee;

"**Coffee Commodity Contract**" means the contract for future delivery in respect of the relevant Delivery Date relating to Coffee; and

"**Specified Price**" means, in respect of any Pricing Date or other relevant date, the official settlement price.

10.6 Copper

"**Commodity Reference Price**" means, in respect of any Pricing Date or other relevant date and Copper, and if in the relevant Issue Terms the price specified is:

- (a) **COPPER-LME CASH**, then COPPER-LME CASH¹ in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"**COPPER-LME CASH**" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per tonne of Copper on the LME for the Delivery Date, stated in United States dollars, as determined by the LME and displayed on the Price Source that displays prices effective on that Pricing Date or other relevant date,

where:

"**Copper**" means copper – Grade A or high grade copper; and

"**Specified Price**" means, in respect of any Pricing Date or other relevant date, the official cash settlement price per tonne of Copper;

- (b) **COPPER-COMEX**, then COPPER-COMEX² in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

¹ For information purposes, this is the Commodity Reference Price in the GSCIER Index.

² For information purposes, this is the Commodity Reference Price in the DJAIG Index.

"COPPER-COMEX" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per pound of high grade copper on the COMEX of the Commodity Contract for the Delivery Date, stated in United States cents, as determined and made public by the COMEX on that Pricing Date or other relevant date,

where:

"Copper" means copper – Grade A or high grade copper;

"Copper Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Copper; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official cash settlement price per pound of Copper.

10.7 Corn

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Corn, the CORN-CBOT in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"CORN-CBOT" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per bushel of Corn on the CBOT of the Corn Commodity Contract for the Delivery Date, stated in United States cents, as made public by the CBOT and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Corn" means deliverable grade corn;

"Corn Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Corn; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price per bushel of Corn.

10.8 Cotton

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Cotton, the **"COTTON NO. 2-ICE"**, in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"COTTON NO. 2-ICE" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per pound of Cotton on the ICE of the Cotton Commodity Contract for the Delivery Date, stated in United States cents, as made public by the ICE and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Cotton" means deliverable grade cotton No. 2;

"Cotton Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Cotton; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price.

10.9 Feeder Cattle

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Feeder Cattle, the FEEDER CATTLE-CME in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"FEEDER CATTLE-CME" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per pound of Feeder Cattle on the CME of the Feeder Cattle Commodity Contract for the Delivery Date, stated in United States cents, as made public by the CME and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Feeder Cattle" means deliverable grade medium and large #1 feeder steers;

"Feeder Cattle Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Feeder Cattle; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price per pound of Feeder Cattle.

10.10 Gas Oil

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Gas Oil, the GAS OIL-ICE in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"GAS OIL-ICE" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per metric tonne of Gas Oil on the ICE of the Gas Oil Commodity Contract for the Delivery Date, stated in United States dollars, as made public by the ICE and displayed on the Price Source that displays prices effective on that Pricing Date or other relevant date,

where:

"Gas Oil" means gas oil;

"Gas Oil Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Gas Oil; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price.

10.11 Gold

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Gold, and if in the relevant Issue Terms the price specified is:

- (a) **"GOLD-COMEX"**, then GOLD-COMEX in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"GOLD-COMEX" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per troy ounce of Gold on the COMEX of the Gold Commodity Contract for the Delivery Date, stated in United States dollars, as determined and made public by the COMEX on that Pricing Date or other relevant date,

where:

"Gold" means gold bars or unallocated gold complying with the rules of the LBMA relating to good delivery and fineness from time to time in effect (minimum 0.995 fine), unless otherwise specified in the relevant Issue Terms;

"Gold Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Gold; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official fixing price;

- (b) **"GOLD-LBMA PRICE-PM"**, then GOLD LBMA PRICE-PM in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"GOLD-LBMA PRICE-PM" means, in respect of any Pricing Date or other relevant date, that day's afternoon Gold price per troy ounce of Gold for delivery in London through a member of the LBMA authorised to effect such delivery, stated in United States dollars, as calculated and administered by independent service provider(s) pursuant to an agreement with the LBMA, and published by the LBMA and displayed on the Price Source effective for that Pricing Date or other relevant date,

where:

"Gold" means gold bars or unallocated gold complying with the rules of the LBMA relating to good delivery and fineness from time to time in effect (minimum 0.995 fine), unless otherwise specified in the relevant Issue Terms; and

10.12 Heating Oil

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Heating Oil, the HEATING OIL-NEW YORK-NYMEX in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"HEATING OIL-NEW YORK-NYMEX" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per gallon of Heating Oil on the NYMEX of the Heating Oil Commodity Contract for the Delivery Date, stated in United States dollars, as made public by the NYMEX and displayed on the Price Source that displays prices effective on that Pricing Date or other relevant date,

where:

"Heating Oil" means New York Harbor No. 2 heating oil;

"Heating Oil Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Heating Oil; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price.

10.13 Kansas Wheat

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Kansas Wheat, the WHEAT HRW-KCBOT in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"WHEAT HRW-KCBOT" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per bushel of Kansas Wheat on the KCBOT of the Kansas Wheat

Commodity Contract for the Delivery Date, stated in United States cents, as made public by the KCBOT and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Kansas Wheat" means deliverable grade hard red winter wheat;

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price per bushel of Kansas Wheat; and

"Wheat Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Kansas Wheat.

10.14 Lead

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Lead, the LEAD-LME CASH in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"LEAD-LME CASH" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per metric tonne of Lead on the LME for the applicable Delivery Date, stated in United States dollars, as determined by the LME and displayed on the Price Source on that Pricing Date or other relevant date that displays prices effective on that Pricing Date or other relevant date,

where:

"Lead" means standard lead; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official cash settlement price per tonne of Lead.

10.15 Lean Hogs

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Lean Hogs, the LEAN HOGS-CME in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"LEAN HOGS-CME" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per pound of Lean Hogs on the CME of the Lean Hogs Commodity Contract for the Delivery Date, stated in United States cents, as made public by the CME and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Lean Hogs" means deliverable grade lean value hog carcasses;

"Lean Hogs Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Lean Hogs; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price per pound of Lean Hogs.

10.16 Live Cattle

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Live Cattle, the LIVE CATTLE-CME in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"LIVE CATTLE-CME" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per pound of Live Cattle on the CME of the Live Cattle Commodity Contract for the Delivery Date, stated in United States cents, as made public by the CME and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Live Cattle" means deliverable grade live steers;

"Live Cattle Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Live Cattle; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price per pound of Live Cattle.

10.17 Natural Gas

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Natural Gas, the NATURAL GAS-NYMEX in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"NATURAL GAS-NYMEX" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per Million British Thermal Units (MMBTU) of Natural Gas on the NYMEX of the Natural Gas Commodity Contract for the Delivery Date, stated in United States dollars, as made public by the NYMEX and displayed on the Price Source that displays prices effective on that Pricing Date or other relevant date,

where:

"Natural Gas" means natural gas;

"Natural Gas Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Natural Gas; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price.

10.18 Nickel

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Nickel, the NICKEL-LME CASH in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"NICKEL-LME CASH" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per metric tonne of Nickel on the LME for the applicable Delivery Date, stated in United States dollars, as determined by the LME and displayed on the Price Source on that Pricing Date or other relevant date that displays prices effective on that Pricing Date or other relevant date,

where:

"Nickel" means primary nickel; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official cash settlement price per tonne of Nickel.

10.19 Palladium

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Palladium, the LONDON-PALLADIUM-PRICE-P.M. in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"LONDON-PALLADIUM-PRICE-P.M." means, in respect of any Pricing Date or other relevant date, that afternoon's London Palladium price (which may also be referred to as the LBMA Palladium Price) per troy ounce of Palladium for delivery in London through a member of the LPPM authorised to effect such delivery, stated in United States dollars, as calculated and administered by the LME, and published by the LME on its website at www.lme.com that displays prices effective on the Pricing Date,

where:

"Palladium" means palladium complying with the rules of the LBMA relating to good delivery and fineness from time to time in effect, unless otherwise specified in the relevant Issue Terms; and

"London Palladium" means the market in London for delivery of Palladium in London;

10.20 Platinum

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Platinum, the LONDON-PLATINUM-PRICE-P.M. in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"LONDON-PLATINUM-PRICE-P.M." means, in respect of any Pricing Date or other relevant date, that afternoon's London Platinum price (which may also be referred to as the LBMA Platinum Price) per troy ounce of Platinum for delivery in London through a member of the LPPM authorised to effect such delivery, stated in United States dollars, as calculated and administered by the LME, and published on the LME on its website at www.lme.com that displays prices effective on that Pricing Date,

where:

"Platinum" means platinum complying with the rules of the LPPM relating to good delivery and fineness from time to time in effect, unless otherwise specified in the relevant Issue Terms; and

"London Platinum" means the market in London for delivery of Platinum in London

10.21 RBOB Gasoline

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and RBOB Gasoline, the GASOLINE RBOB-NEW YORK-NYMEX in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"GASOLINE RBOB-NEW YORK-NYMEX" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per gallon of RBOB Gasoline on the NYMEX of the RBOB Gasoline Commodity Contract for the Delivery Date, stated in United States dollars, as made public by the NYMEX and displayed on the Price Source that displays prices effective on that Pricing Date or other relevant date,

where:

"RBOB Gasoline" means New York Harbor Reformulated Gasoline Blendstock for Oxygen Blending;

"RBOB Gasoline Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to RBOB Gasoline; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price.

10.22 Silver

"Commodity Reference Price" means, in respect of any Pricing Date or any other relevant date and Silver, and if in the relevant Issue Terms the price specified is:

- (a) **"SILVER-COMEX"**, then SILVER-COMEX in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"SILVER-COMEX" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per troy ounce of Silver on the COMEX of the Commodity Contract for the Delivery Date, stated in United States cents, as determined and made public by the COMEX on that Pricing Date or other relevant date,

where:

"Silver" means silver complying with the rules and specification of the Commodity Contract, unless otherwise specified in the relevant Issue Terms;

"Silver Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Silver; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price;

- (b) **"SILVER-LBMA PRICE"**, then SILVER-LBMA PRICE in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"SILVER-LBMA PRICE" means, in respect of any Pricing Date or other relevant date, that day's price per troy ounce of Silver for delivery in London through a member of the LBMA authorised to effect such delivery, stated in U.S. dollars, as calculated and administered by independent service provider(s), pursuant to an agreement with the LBMA, and published by the LBMA and displayed on the Price Source effective for that Pricing Date or other relevant date,

where:

"Silver" means silver bars or unallocated silver complying with the rules of the LBMA relating to good delivery and fineness from time to time in effect.

10.23 Soybeans

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Soybeans, the SOYBEANS-CBOT in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"SOYBEANS-CBOT" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per bushel of Soybeans on the CBOT of the Soybeans Commodity Contract for the Delivery Date, stated in United States cents, as made public by the CBOT and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Soybeans" means deliverable grade soybeans;

"Soybeans Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Soybeans; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price per bushel of Soybeans.

10.24 Soybean Oil

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Soybean Oil, the SOYBEAN OIL-CBOT in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"SOYBEAN OIL-CBOT" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per pound of Soybean Oil on the CBOT of the Soybean Oil Commodity Contract for the Delivery Date, stated in United States cents, as made public by the CBOT and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Soybean Oil" means deliverable grade soybean oil;

"Soybean Oil Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Soybean Oil; and

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price per bushel of Soybean Oil.

10.25 Sugar

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Sugar, the "SUGAR #11 (WORLD)-ICE" in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"Sugar #11 (World)-ICE" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per pound of Sugar on the ICE of the Sugar Commodity Contract for the Delivery Date, stated in United States cents, as made public by the ICE and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price;

"Sugar" means deliverable grade cane sugar; and

"Sugar Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Sugar.

10.26 Wheat

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Wheat, the WHEAT-CBOT in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"WHEAT-CBOT" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per bushel of Wheat on the CBOT of the Wheat Commodity Contract for the Delivery Date, stated in United States cents, as made public by the CBOT and displayed on the Price Source on that Pricing Date or other relevant date,

where:

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price per bushel of Wheat;

"Wheat" means deliverable grade wheat; and

"Wheat Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to Wheat.

10.27 WTI Crude Oil

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and WTI, the OIL-WTI-NYMEX in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"OIL-WTI-NYMEX" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per barrel of WTI on the NYMEX of the WTI Commodity Contract for the Delivery Date, stated in United States dollars, as made public by the NYMEX and displayed on the Price Source that displays prices effective on that Pricing Date or other relevant date,

where:

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official settlement price;

"WTI" or **"WTI Crude Oil"** means West Texas Intermediate light sweet crude oil; and

"WTI Commodity Contract" means the contract for future delivery in respect of the relevant Delivery Date relating to WTI.

10.28 Zinc

"Commodity Reference Price" means, in respect of any Pricing Date or other relevant date and Zinc, the ZINC-LME CASH in respect of such Pricing Date or other relevant date, as determined by the Calculation Agent,

where:

"ZINC-LME CASH" means, in respect of any Pricing Date or other relevant date, that day's Specified Price per metric tonne of Zinc on the LME for the applicable Delivery Date, stated in United States dollars, as determined by the LME and displayed on the Price Source on that Pricing Date or other relevant date that displays prices effective on that Pricing Date or other relevant date,

where:

"Specified Price" means, in respect of any Pricing Date or other relevant date, the official cash settlement price per tonne of Zinc; and

"Zinc" means special high grade zinc.

INTRODUCTION TO THE FX LINKED CONDITIONS

The following introduction to, and summary of, the FX Linked Conditions is a description and overview only of the actual FX Linked Conditions set forth herein, and is intended to be a guide only to potential purchasers to facilitate a general understanding of such provisions. Accordingly, this overview must be read as an introduction only to the actual FX Linked Conditions and any decision to purchase FX Linked Securities should be based on a consideration of the Base Prospectus as a whole, including the actual FX Linked Conditions (as may be completed by the relevant Issue Terms).

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to FX Linked Securities on page 56.

Payments, Reference Dates and Fixing Days

Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of certain FX Linked Securities will be calculated by reference to a single FX Rate or one or more FX Rates in an FX Rate Basket or a formula based upon one or more FX Rates at a specified time or times on one or more Reference Dates or Averaging Reference Dates (as set out in the Issue Terms).

However, it may not be possible, practical or desirable for the Calculation Agent to determine an FX Rate at a specified time on a Reference Date or Averaging Reference Date if such date is not a **Fixing Day**, which will be set out in the Issue Terms as either a day on which (a) the entity responsible for setting the official fixing rate for such FX Rate publishes such fixing rate (a "**Publication Fixing Day**") or (b) transactions in the FX Rate are occurring in the global foreign exchange spot markets and foreign exchange markets are settling payments in the specified principal financial centres (a "**Transaction Fixing Day**"), and, in each case, on which no event has occurred or is continuing, such that the relevant currency is not available to the Issuer (an "**FX Linked Conditions Disruption Event**").

Potential Postponement of Reference Date or Averaging Reference Date

In the circumstances described above, the Reference Date or Averaging Reference Date may, or may not, be postponed until a day on which the relevant FX Rate is published or can otherwise be determined by the Calculation Agent, subject to a long-stop date (designated by reference to the term, "**Maximum Days of Postponement**") by which an FX Rate must be determined for the purpose of calculating the payments in respect of the FX Linked Securities.

The occurrence of a Fixing Day may differ in respect of two or more FX Rates in an FX Rate Basket, and in such circumstances, the Reference Date or Averaging Reference Date for such FX Rates may remain different.

Overview of Consequences

The FX Linked Conditions define the circumstances in which the determination of an FX Rate or FX Rates may be postponed and stipulate how such FX Rate or FX Rates should be determined by reference to FX Linked Securities that relate to a single FX Rate or an FX Rate Basket and Reference Dates or Averaging Reference Dates.

The following overviews set out the default consequence in respect of each type of FX Linked Security if the Scheduled Reference Date or Scheduled Averaging Reference Date is not a Fixing Day for an FX Rate, though such overviews are subject to, and must be read in conjunction with, the more detailed contents of the FX Linked Conditions.

Calculation Agent Determinations and Calculations

The Calculation Agent, which will be Goldman Sachs International (unless otherwise specified in the relevant Issue Terms), may be required to make certain determinations and calculations pursuant to the FX Linked Conditions relating to, among others, the occurrence of a Fixing Day, the calculation of an FX Rate and the occurrence of an FX Linked Conditions Disruption Event (such term is described

below). In all circumstances, the Calculation Agent must make such determinations and calculations in good faith and in a commercially reasonable manner.

Single FX Rate and Reference Date

- (a) Unless specified otherwise, the Reference Date will be the first succeeding FX Business Day that is a Fixing Day, with a standard long-stop date of five FX Business Days, upon which the Calculation Agent will determine the FX Rate.
- (b) The Issue Terms may, however, specify that no adjustment should be made in the event of a non-Fixing Day occurring on the Scheduled Reference Date and that the Calculation Agent shall determine the FX Rate on the Scheduled Reference Date.

Single FX Rate and Averaging Reference Date

There are four options that can be specified in the relevant Issue Terms:

- (a) **Omission** – the Scheduled Averaging Reference Date is discarded from the valuation process, provided that there must be at least one Averaging Reference Date upon which an FX Rate can be determined, otherwise the sole Averaging Reference Date shall be the first succeeding FX Business Day that is a Fixing Day following the final Scheduled Averaging Reference Date, with a standard long-stop date of five FX Business Days, upon which the Calculation Agent will determine the FX Rate.
- (b) **Postponement** – the Averaging Reference Date will be the first succeeding FX Business Day that is a Fixing Day, with a standard long-stop date of five FX Business Days, upon which the Calculation Agent will determine the FX Rate.
- (c) **Modified Postponement** – the Averaging Reference Date will be the first Valid Date, i.e. a Fixing Day that is not another Averaging Reference Date, subject to a standard long-stop date of five FX Business Days, upon which the Calculation Agent will determine the FX Rate.
- (d) **No Adjustment** – the Calculation Agent shall determine the FX Rate on the Scheduled Averaging Reference Date.

FX Rate Basket and Reference Dates – Individual Fixing Day

- (a) If the Scheduled Reference Date for an FX Rate in the FX Rate Basket is a Fixing Day, then the Scheduled Reference Date will be the Reference Date for such FX Rate.
- (b) If the Scheduled Reference Date for an FX Rate is not a Fixing Day, then the Reference Date will be the first succeeding FX Business Day that is a Fixing Day, with a standard long-stop date of five FX Business Days, upon which the Calculation Agent will determine the FX Rate, provided that, if the Issue Terms specify that no adjustment should be made, then the Calculation Agent shall determine the FX Rate on the Scheduled Reference Date.

FX Rate Basket and Averaging Reference Dates Day – Individual Fixing Day

If the Scheduled Averaging Reference Date for any FX Rate in the FX Rate Basket is not a Fixing Day, then one of the following four options may be selected:

- (a) **Omission** – the Scheduled Averaging Reference Date is discarded from the valuation process, provided that there must be at least one Averaging Reference Date, upon which each FX Rate in the FX Rate Basket can be determined: otherwise (i) if the final Scheduled Averaging Reference Date for an FX Rate is a Fixing Day, then such final Scheduled Averaging Reference Date will be the Averaging Reference Date for such FX Rate, and (ii) if the final Scheduled Averaging Reference Date for an FX Rate is not a Fixing Day, then the Averaging Reference Date for such FX Rate will be the first succeeding FX Business Day that is a Fixing Day, with a standard long-stop date of five FX Business Days, upon which the Calculation Agent will determine such FX Rate.

- (b) **Postponement** – (i) if the Scheduled Averaging Reference Date for an FX Rate is a Fixing Day, then the Scheduled Averaging Reference Date will be the Averaging Reference Date for such FX Rate, and (ii) if the Scheduled Averaging Reference Date for an FX Rate is not a Fixing Day, then the Averaging Reference Date for such FX Rate will be the first succeeding FX Business Day that is a Fixing Day, with a standard long-stop date of five FX Business Days, upon which the Calculation Agent will determine such FX Rate.
- (c) **Modified Postponement** – (i) if the Scheduled Averaging Reference Date for an FX Rate is a Fixing Day, then the Scheduled Averaging Reference Date will be the Averaging Reference Date for such FX Rate, and (ii) if the Scheduled Averaging Reference Date for an FX Rate is not a Fixing Day, then the Averaging Reference Date for such FX Rate will be the first Valid Date, subject to a standard long-stop date of five FX Business Days, upon which the Calculation Agent will determine such FX Rate.
- (d) **No Adjustment** – the Scheduled Averaging Reference Date for an FX Rate will be the Averaging Reference Date, and the Calculation Agent shall determine such FX Rate on the Scheduled Averaging Reference Date.

FX Rate Basket and Reference Dates – Common Fixing Day

- (a) If the Scheduled Reference Date for each FX Rate in the FX Rate Basket is a Fixing Day (the "**Common Fixing Day**"), then the Scheduled Reference Date will be the Reference Date for each FX Rate.
- (b) If the Scheduled Reference Date is not a Common Fixing Day, then the Reference Date for each FX Rate will be the first succeeding FX Business Day that is a Common Fixing Day, unless the standard of each of the five consecutive FX Business Days is not a Common Fixing Day. In such circumstances:
 - (i) the last consecutive FX Business Day shall be the Reference Date for each FX Rate;
 - (ii) if the last consecutive FX Business Day for an FX Rate is a Fixing Day, then such FX Rate will be determined by reference to the relevant screen pages; and
 - (iii) if the last consecutive FX Business Day for an FX Rate is not a Fixing Day, then the Calculation Agent shall determine the FX Rate,

provided that, if the relevant Issue Terms specify that no adjustment should be made, then the Calculation Agent shall determine the FX Rate on the Scheduled Reference Date.

Administrator/Benchmark Event

Following the occurrence of an Administrator/Benchmark Event in respect of an FX Rate, the Calculation Agent will base its determination on the Fallback Reference Rate, or if no Fallback Reference Rate is specified, the FX Linked Securities may be redeemed early.

Administrator/Benchmark Event means any relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, or inclusion in any official register or similar regulatory or legal requirement in respect of the relevant FX Rate or the administrator or sponsor of the FX Rate has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer or the Calculation Agent is not, or will not be, permitted under any applicable law or regulation to use the FX Rate to perform its or their respective obligations under the relevant FX Linked Securities.

FX LINKED CONDITIONS

**Adjustment, Modification and Disruption Provisions
for FX Linked Notes and FX Linked Instruments**

1. Consequences of Non-Fixing Days
 - 1.1 Single FX Rate and Reference Dates
 - 1.2 Single FX Rate and Averaging Reference Dates
 - 1.3 FX Rate Basket and Reference Dates – Individual Fixing Day
 - 1.4 FX Rate Basket and Averaging Reference Dates – Individual Fixing Day
 - 1.5 FX Rate Basket and Reference Dates – Common Fixing Day
2. BRL FX Conditions
3. Administrator/Benchmark Event
4. Definitions

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to FX Linked Securities on page 56.

These FX Linked Conditions shall apply to Instruments for which the relevant Issue Terms specify that the FX Linked Instruments are applicable and to Notes for which the relevant Issue Terms specify that the FX Linked Notes are applicable.

1. **Consequences of Non-Fixing Days**
 - 1.1 **Single FX Rate and Reference Dates**

Where the FX Linked Securities are specified in the relevant Issue Terms to relate to a single FX Rate, and if the Calculation Agent determines that any Scheduled Reference Date in respect of such FX Rate is not a Fixing Day, then the Reference Date for such FX Rate shall be the first succeeding Fixing Day, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement in respect of such FX Rate immediately following such Scheduled Reference Date is not a Fixing Day for such FX Rate. In that case:

- (a) that last consecutive FX Business Day shall be deemed to be the Reference Date for such FX Rate, notwithstanding the fact that such day is not a Fixing Day for such FX Rate; and
- (b) the Calculation Agent shall determine such FX Rate as of the relevant Valuation Time on that last consecutive FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent pursuant to this paragraph (b) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Reference Date for the FX Rate shall be such Scheduled Reference Date, notwithstanding the fact that such day is not a Fixing Day for the FX Rate, and the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on such Reference Date in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent

pursuant to this paragraph (c) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Reference Date).

1.2 Single FX Rate and Averaging Reference Dates

Where the FX Linked Securities are specified in the relevant Issue Terms to relate to a single FX Rate, and if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of such FX Rate is not a Fixing Day and, if the relevant Issue Terms specify the consequence:

- (a) **"Omission"** to be applicable, then such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Dates, then the Averaging Reference Date for such FX Rate shall be the first succeeding FX Business Day following the final Scheduled Averaging Reference Date that the Calculation Agent determines is a Fixing Day for such FX Rate, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement in respect of such FX Rate immediately following such final Scheduled Averaging Reference Date is not a Fixing Day for such FX Rate. In that case:
 - (i) that last consecutive FX Business Day shall be deemed to be the Averaging Reference Date for such FX Rate, notwithstanding the fact that such day is not a Fixing Day for such FX Rate; and
 - (ii) the Calculation Agent shall determine the FX Rate as of the Valuation Time on that last consecutive FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Averaging Reference Date);
- (b) **"Postponement"** to be applicable, then the relevant Averaging Reference Date for such FX Rate shall be the first succeeding FX Business Day following such Scheduled Averaging Reference Date that the Calculation Agent determines is a Fixing Day for such FX Rate, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement in respect of such FX Rate immediately following such Scheduled Averaging Reference Date is not a Fixing Day for such FX Rate. In that case:
 - (i) that last consecutive FX Business Day shall be deemed to be the Averaging Reference Date for such FX Rate, notwithstanding the fact that such day is not a Fixing Day for such FX Rate; and
 - (ii) the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on that last consecutive FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Averaging Reference Date);
- (c) **"Modified Postponement"** to be applicable, then the relevant Averaging Reference Date for such FX Rate shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the consecutive FX Business Days equal in number to the Maximum Days of Postponement immediately following such Scheduled Averaging Reference Date that, but for the occurrence of another Averaging Reference Date or non-Fixing Day for such FX Rate, would have been the relevant Averaging Reference Date, then
 - (i) that last consecutive FX Business Day shall be deemed to be the Averaging Reference Date for such FX Rate, notwithstanding the fact that such day is already an Averaging Reference Date or is not a Fixing Day for such FX Rate; and
 - (ii) the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on that last consecutive FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent

pursuant to this paragraph (ii) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Averaging Reference Date),

provided that,

- (d) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Averaging Reference Date for the FX Rate shall be such Scheduled Averaging Reference Date, notwithstanding the fact that such day is not a Fixing Day for the FX Rate, and the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on such Averaging Reference Date in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Averaging Reference Date); and
- (e) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Fixing Day in respect of such FX Rate and, the relevant Issue Terms do not specify the consequence, then the consequence of "**No Adjustment**" shall apply.

1.3 FX Rate Basket and Reference Dates – Individual Fixing Day

Where the FX Linked Securities are specified in the relevant Issue Terms to relate to an FX Rate Basket and such Issue Terms specify "**Individual Fixing Day**" to be applicable to the FX Rates in the FX Rate Basket, and if the Calculation Agent determines that any Scheduled Reference Date in respect of any FX Rate in the FX Rate Basket is not a Fixing Day for such FX Rate:

- (a) for each FX Rate in the FX Rate Basket for which the Calculation Agent determines that such Scheduled Reference Date is a Fixing Day, the Reference Date for such FX Rate shall be such Scheduled Reference Date;
- (b) for each FX Rate in the FX Rate Basket for which the Calculation Agent determines that such Scheduled Reference Date is not a Fixing Day, the Reference Date for such FX Rate shall be the first succeeding FX Business Day which the Calculation Agent determines is a Fixing Day for such FX Rate, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement immediately following such Scheduled Reference Date is not a Fixing Day for such FX Rate. In that case:
 - (i) that last consecutive FX Business Day shall be deemed to be the Reference Date for such FX Rate, notwithstanding the fact that such day is not a Fixing Day for such FX Rate; and
 - (ii) the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on that last consecutive FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent pursuant to this paragraph (ii) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of such Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Reference Date for each FX Rate shall be such Scheduled Reference Date, notwithstanding the fact that such day is not a Fixing Day for any FX Rate, and the Calculation Agent shall determine such FX Rate as of the relevant Valuation Time on such Reference Date in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Reference Date).

1.4 FX Rate Basket and Averaging Reference Dates – Individual Fixing Day

Where the FX Linked Securities are specified in the relevant Issue Terms to relate to an FX Rate Basket and if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of any FX Rate in the FX Rate Basket is not a Fixing Day for such FX Rate, and:

- (a) if the relevant Issue Terms specify the consequence "**Omission**" to be applicable, such Scheduled Averaging Reference Date will be deemed not to be a relevant Averaging Reference Date for each FX Rate in the FX Rate Basket, provided that, if through the operation of this provision there would not be any Averaging Reference Dates, then the sole Averaging Reference Date for such FX Rates shall be determined by reference to the final Scheduled Averaging Reference Date as follows:
- (i) for each FX Rate in the FX Rate Basket for which the Calculation Agent determines that such final Scheduled Averaging Reference Date is a Fixing Day, the Averaging Reference Date for such FX Rate shall be such final Scheduled Averaging Reference Date; and
 - (ii) for each FX Rate in the FX Rate Basket for which the Calculation Agent determines that such final Scheduled Averaging Reference Date is not a Fixing Day, then the Averaging Reference Date for such FX Rate shall be the first succeeding FX Business Day following such final Scheduled Averaging Reference Date that the Calculation Agent determines is a Fixing Day in respect of such FX Rate, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement in respect of such FX Rate immediately following such final Scheduled Averaging Reference Date is not a Fixing Day for such FX Rate. In that case:
 - (A) that last consecutive FX Business Day shall be deemed to be the Averaging Reference Date for such FX Rate, notwithstanding the fact that such day is not a Fixing Day for such FX Rate; and
 - (B) the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on that last consecutive FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent pursuant to this paragraph (B) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Averaging Reference Date);
- (b) if the relevant Issue Terms specify the consequence "**Postponement**" to be applicable, then,
- (i) for each FX Rate in the FX Rate Basket for which the Calculation Agent determines that such Scheduled Averaging Reference Date is a Fixing Day, the Averaging Reference Date for such FX Rate shall be such Scheduled Averaging Reference Date; and
 - (ii) for each FX Rate in the FX Rate Basket for which the Calculation Agent determines that such Scheduled Averaging Reference Date is not a Fixing Day, the relevant Averaging Reference Date for such FX Rate shall be the first succeeding FX Business Day following such Scheduled Averaging Reference Date that the Calculation Agent determines is a Fixing Day for such FX Rate, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement in respect of such FX Rate immediately following such Scheduled Averaging Reference Date is not a Fixing Day for such FX Rate. In that case:
 - (A) that last consecutive FX Business Day shall be deemed to be the Averaging Reference Date for such FX Rate, notwithstanding the fact that such day is not a Fixing Day for such FX Rate; and
 - (B) the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on that last consecutive FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent pursuant to this paragraph (B) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Averaging Reference Date);
- (c) if the relevant Issue Terms specify the consequence "**Modified Postponement**" to be applicable, then

- (i) for each FX Rate in the FX Rate Basket for which the Calculation Agent determines that such Scheduled Averaging Reference Date is a Fixing Day, the Averaging Reference Date for such FX Rate shall be such Scheduled Averaging Reference Date; and
- (ii) for each FX Rate in the FX Rate Basket for which the Calculation Agent determines that such final Scheduled Averaging Reference Date is not a Fixing Day, the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the relevant Valuation Time on the consecutive FX Business Days equal in number to the Maximum Days of Postponement immediately following such Scheduled Averaging Reference Date that, but for the occurrence of another Averaging Reference Date or not being a Fixing Day for such FX Rate, would have been the relevant Averaging Reference Date, then:
 - (A) that last consecutive FX Business Day shall be deemed to be the Averaging Reference Date for such FX Rate, notwithstanding the fact that such day is already an Averaging Reference Date or is not a Fixing Day for such FX Rate; and
 - (B) the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on that last consecutive FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent pursuant to this paragraph (B) shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Averaging Reference Date),

provided that,

- (d) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Averaging Reference Date for each FX Rate shall be such Scheduled Averaging Reference Date, notwithstanding the fact that such day is not a Fixing Day for any FX Rate, and the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on such Averaging Reference Date in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Averaging Reference Date); and
- (e) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Fixing Day in respect of any FX Rate in the FX Rate Basket and, the relevant Issue Terms do not specify the consequence, then the consequence of "No Adjustment" shall apply.

1.5 FX Rate Basket and Reference Dates – Common Fixing Day

Where the FX Linked Securities are specified in the relevant Issue Terms to relate to an FX Rate Basket and such Issue Terms specify that "Common Fixing Day" applies to any two or more FX Rates (such FX Rates being "**Common Basket FX Rates**" and each a "**Common Basket FX Rate**" for the purposes of this FX Linked Condition 1.5), the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Reference Date is a Common Fixing Day, then the Reference Date for each Common Basket FX Rate shall be such Scheduled Reference Date; and
- (b) if the Calculation Agent determines that any Scheduled Reference Date is not a Common Fixing Day, then the Reference Date for each Common Basket FX Rate shall be the first succeeding FX Business Day following such Scheduled Reference Date which the Calculation Agent determines is a Common Fixing Day, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement immediately following such Scheduled Reference Date is not a Common Fixing Day. In that case:
 - (i) that last consecutive FX Business Day shall be deemed to be such Reference Date for each Common Basket FX Rate, notwithstanding the fact that such day is not a Fixing Day for one or more Common Basket FX Rates, (such Common Basket FX Rates being "**Affected Common Basket FX Rates**" for such Reference Date, and each such Common Basket FX Rate being an "**Affected Common Basket FX Rate**");

- (ii) for each Common Basket FX Rate other than an Affected Common Basket FX Rate, the FX Rate shall be the relevant rate for such FX Rate published by the relevant Fixing Price Sponsor on such FX Business Day, as determined by the Calculation Agent; and
- (iii) for each Affected Common Basket FX Rate, the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on such FX Business Day in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent pursuant to this paragraph (iii) shall be deemed to be the FX Rate at the relevant time in respect of the relevant Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Reference Date for each Common Basket FX Rate shall be the Scheduled Reference Date, and the Calculation Agent shall determine the FX Rate as of the relevant Valuation Time on such Reference Date in its discretion, acting in good faith and in a commercially reasonable manner (and such determination by the Calculation Agent shall be deemed to be the FX Rate at the relevant Valuation Time in respect of the relevant Reference Date).

2. BRL FX Conditions

2.1 BRL Valuation Date Adjustments

- (a) Where the relevant Issue Terms specify "**BRL FX Conditions**" to be applicable, if:
 - (i) the Scheduled BRL Valuation Date for a BRL Valuation Date is not a USD/BRL FX Business Day and is not an Unscheduled Holiday, then such BRL Valuation Date shall be brought forward to the first USD/BRL FX Business Day immediately preceding such Scheduled BRL Valuation Date (such day being the "**Adjusted Scheduled BRL Valuation Date**" for such BRL Valuation Date);
 - (ii) the Scheduled BRL Valuation Date for a BRL Valuation Date is an Unscheduled Holiday, then the BRL Valuation Date in respect of such date shall be postponed to the first following day that is a USD/BRL FX Business Day (such day being the "**Adjusted Scheduled BRL Valuation Date**" for such BRL Valuation Date), unless the first USD/BRL FX Business Day would fall after the Last Deferred Day for such BRL Valuation Date. In that case, the Adjusted Scheduled BRL Valuation Date for such BRL Valuation Date (and such BRL Valuation Date) shall be the first Scheduled USD/BRL FX Business Day falling after the Last Deferred Day,

and each BRL Valuation Date shall also be subject to further adjustment as set out in Disruption Fallback 1, Disruption Fallback 2, Disruption Fallback 3 and Disruption Fallback 4 as described in the FX Linked Condition 2.2 (*BRL Disruption Event Fallbacks*).

- (b) For the purpose of this FX Linked Condition 2.1, the following terms shall have the following meanings:

"Last Deferred Day" means, in respect of the Scheduled BRL Valuation Date for a BRL Valuation Date, ten calendar days or such other Specified Day(s) after the Scheduled BRL Valuation Date for such BRL Valuation Date; and

"Specified Day(s)" means such number of Business Day(s), Clearing System Business Day(s) or calendar days as specified in the relevant Issue Terms.

2.2 BRL Disruption Event Fallbacks

- (a) Where the relevant Issue Terms specify "**BRL FX Conditions**" to be applicable, if in respect of a BRL Valuation Date, a Price Source Disruption Event has occurred or exists in respect of the BRL PTAX or BRL09 Rate on the Scheduled BRL Valuation Date for such BRL Valuation Date (if such Scheduled BRL Valuation Date is a USD/BRL FX Business Day) or on the Adjusted Scheduled BRL Valuation Date for such BRL Valuation Date (if such Scheduled BRL Valuation Date is not a USD/BRL FX Business Day or is an Unscheduled Holiday), the

Calculation Agent shall first attempt to obtain the USD/BRL FX Rate for such BRL Valuation Date by applying the provisions of Disruption Fallback 1. If the application of the provisions of Disruption Fallback 1 fails to produce a USD/BRL FX Rate for such BRL Valuation Date, the Calculation Agent shall attempt to determine such USD/BRL FX Rate by applying the provisions of Disruption Fallback 2. If the application of the provisions of Disruption Fallback 2 fails to produce a USD/BRL FX Rate for such BRL Valuation Date, the Calculation Agent shall attempt to determine such USD/BRL FX Rate by applying the provisions of Disruption Fallback 3. If the subsequent application of the provisions of Disruption Fallback 3 fails to produce a USD/BRL FX Rate, the Calculation Agent shall attempt to determine such USD/BRL FX Rate by applying the provisions of Disruption Fallback 4.

- (b) For the purpose of this FX Linked Condition 2.2, the following terms shall have the following meanings:

"Disruption Fallback 1" means, in respect of a BRL Valuation Date, that the Calculation Agent shall determine the USD/BRL FX Rate for such BRL Valuation Date in accordance with the EMTA BRL Industry Survey Rate applicable in respect of the Scheduled BRL Valuation Date for such BRL Valuation Date (if such Scheduled BRL Valuation Date is a USD/BRL FX Business Day) or the Adjusted Scheduled BRL Valuation Date for such BRL Valuation Date (if such Scheduled BRL Valuation Date is not a USD/BRL FX Business Day or is an Unscheduled Holiday) (and such day shall be deemed to be such BRL Valuation Date, unless Disruption Fallback 2 applies).

"Disruption Fallback 2" means, in respect of a BRL Valuation Date, if a Price Source Disruption Event has occurred or exists in respect of the EMTA BRL Industry Survey Rate on the Scheduled BRL Valuation Date for such BRL Valuation Date (if such Scheduled BRL Valuation Date is a USD/BRL FX Business Day) or the Adjusted Scheduled BRL Valuation Date for such BRL Valuation Date (if such Scheduled BRL Valuation Date is not a USD/BRL FX Business Day or is an Unscheduled Holiday), the Calculation Agent shall determine the USD/BRL FX Rate for such BRL Valuation Date in accordance with the provisions of the EMTA BRL Industry Survey Rate on the USD/BRL FX Business Day first succeeding the day on which such Price Source Disruption Event ceases to exist (and such day shall be deemed to be such BRL Valuation Date, unless Disruption Fallback 3 applies), unless such Price Source Disruption Event shall have occurred or existed throughout the Maximum Period of Postponement or unless the Adjusted Scheduled BRL Valuation Date falls after the Last Deferred Day for such BRL Valuation Date.

"Disruption Fallback 3" means, in respect of a BRL Valuation Date, if a Price Source Disruption Event has occurred or exists in respect of the EMTA BRL Industry Survey Rate throughout the Maximum Period of Postponement or if the Adjusted Scheduled BRL Valuation Date falls after the Last Deferred Day for such BRL Valuation Date, the Calculation Agent shall determine the USD/BRL FX Rate for such BRL Valuation Date in accordance with the provisions of the EMTA BRL Indicative Survey Rate:

- (i) if a Price Source Disruption Event has occurred or exists in respect of the EMTA BRL Industry Survey Rate throughout the Maximum Period of Postponement, on the first Scheduled USD/BRL FX Business Day following the end of the Maximum Period of Postponement; or
- (ii) if such Adjusted Scheduled BRL Valuation Date falls after the Last Deferred Day for such BRL Valuation Date, on such Adjusted Scheduled BRL Valuation Date,

and, in each case, such day shall be deemed to be such BRL Valuation Date.

"Disruption Fallback 4" means, in respect of a BRL Valuation Date, if a Price Source Disruption Event has occurred or exists in respect of the EMTA BRL Indicative Survey Rate on such BRL Valuation Date as stated in Disruption Fallback 3, the Calculation Agent shall determine the USD/BRL FX Rate for such BRL Valuation Date taking into consideration all available information that in good faith it deems relevant.

"EMTA" means the Emerging Markets Trading Association.

"EMTA BRL Indicative Survey Rate" for any relevant day means the BRL/USD offered spot foreign exchange rate for USD, expressed as the amount of BRL per U.S.\$ 1.00, for settlement in two USD/BRL FX Business Days, as published on EMTA's website (www.emta.org) at approximately 12.00 noon (São Paulo time), or as soon thereafter as practicable (or if not published by such time or soon thereafter as practicable, such other time when the rate is published as determined by the Calculation Agent) on such day. Such rate shall be calculated by EMTA (or a service provider EMTA may select in its sole discretion) pursuant to the EMTA BRL Indicative Survey Methodology (which means a methodology, dated as of 1 March 2004, as amended from time to time, for a centralized industry-wide survey of financial institutions that are active participants in the BRL/USD markets for the purpose of determining the EMTA BRL Indicative Survey Rate).

"EMTA BRL Industry Survey Rate" for any relevant day means the BRL/USD offered spot foreign exchange rate for USD, expressed as the amount of BRL per U.S.\$ 1.00, for settlement in two USD/BRL FX Business Days, as published on EMTA's website (www.emta.org) at approximately 3.45 p.m. (São Paulo time), or as soon thereafter as practicable (or if not published by such time or soon thereafter as practicable, such other time when the rate is published as determined by the Calculation Agent) on such day. Such rate shall be calculated by EMTA (or a service provider EMTA may select in its sole discretion) pursuant to the EMTA BRL Industry Survey Methodology (which means a methodology, dated as of 1 March 2004, as amended from time to time, for a centralized industry-wide survey of financial institutions in Brazil that are active participants in the BRL/USD spot markets for the purpose of determining the EMTA BRL Industry Survey Rate).

"Maximum Period of Postponement" means, in respect of a BRL Valuation Date, the period commencing on, and including, the Scheduled BRL Valuation Date for such BRL Valuation Date (if such Scheduled BRL Valuation Date is a USD/BRL FX Business Day) or the Adjusted Scheduled BRL Valuation Date for such BRL Valuation Date (if such Scheduled BRL Valuation Date is not a USD/BRL FX Business Day or is an Unscheduled Holiday) and ending on, and including, the Maximum Period of Postponement End Date.

"Maximum Period of Postponement End Date" means, in respect of a BRL Valuation Date and the Maximum Period of Postponement for such BRL Valuation Date, the tenth (10th) calendar day or other Specified Day(s) following the Scheduled BRL Valuation Date for such BRL Valuation Date (or, if the Adjusted Scheduled BRL Valuation Date for such BRL Valuation Date falls prior to the Scheduled BRL Valuation Date for such BRL Valuation Date, the tenth (10th) calendar day or other Specified Day(s) following such Adjusted Scheduled BRL Valuation Date).

"Price Source Disruption Event" means the occurrence or existence of an event on any day, the result or consequence of which is that it is impossible or impracticable to obtain the BRL PTAX or BRL09 Rate, the EMTA BRL Industry Survey Rate or the EMTA BRL Indicative Survey Rate, as is applicable, on such day (or, if different, the day on which rates for such day would, in the ordinary course be published or announced by the relevant price source).

"Scheduled BRL Valuation Date" has the meaning given to it in the Coupon Payout Conditions.

3. **Administrator/Benchmark Event**

If, in respect of an FX Rate, the Calculation Agent determines that, on or prior to any Reference Date, Averaging Reference Date or other relevant date, an Administrator/Benchmark Event Date has occurred in respect of such FX Rate and such Administrator/Benchmark Event has a material effect on the FX Linked Securities, then the FX Rate for the relevant date will be the exchange rate determined by reference to the Alternative Price Source(s) specified in the relevant Issue Terms for such FX Rate (the **"Fallback Reference Rate"**), and FX Linked Condition 1 shall apply to such Fallback Reference Rate and such relevant date as if each reference to "FX Rate" were a reference to such Fallback Reference Rate, provided that if no Fallback Reference Rate is specified in the relevant Issue Terms, or the Calculation Agent determines that:

- (a) it (i) is or would be unlawful at any time under any applicable law or regulation, or (ii) would contravene any applicable licensing requirements, for the Calculation Agent to perform the actions prescribed in this FX Linked Condition 3 (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time); or
- (b) the first paragraph above would not achieve a commercially reasonable result for any of the Issuer, the Calculation Agent or the Holders,

then on giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be, the Issuer shall redeem the FX Linked Securities in whole but not in part, each FX Linked Security being redeemed by payment of an amount equal to the Non-scheduled Early Repayment Amount of such FX Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be.

4. Definitions

"Adjusted Final FX Valuation Date" has the meaning given in the Payout Condition 5.

"Adjusted Initial FX Valuation Date" has the meaning given in the Payout Condition 5.

"Adjusted Initial Valuation Date" means, in respect of an FX Rate, the date specified as such in the relevant Issue Terms (the **"Scheduled Adjusted Initial Valuation Date"**) or, if the relevant Issue Terms specify:

- (a) **"Individual Publication Fixing Day Adjustment"** to be applicable and such Scheduled Adjusted Initial Valuation Date is not a Publication Fixing Day for such FX Rate, the earlier to occur of (a) the next following Publication Fixing Day for such FX Rate and (b) the FX Specified Day(s) following such Scheduled Adjusted Initial Valuation Date (unless the relevant Issue Terms specify "FX Specified Day(s)" to be not applicable, in which case sub-paragraph (b) shall not apply); or
- (b) **"Common Publication Fixing Day Adjustment"** to be applicable and such Scheduled Adjusted Initial Valuation Date is not a Common Publication Fixing Day, the earlier to occur of (a) the next following Common Publication Fixing Day and (b) the FX Specified Day(s) following such Scheduled Adjusted Initial Valuation Date (unless the relevant Issue Terms specify "FX Specified Day(s)" to be not applicable, in which case sub-paragraph (b) shall not apply),

provided that if the relevant Issue Terms specify "No Publication Fixing Day Adjustment" to be applicable, then the Adjusted Initial Valuation Date shall be such Scheduled Adjusted Initial Valuation Date, notwithstanding the fact that such day is not a Publication Fixing Day or a Common Publication Fixing Day.

"Adjusted Valuation Date" means, in respect of an FX Rate, the date specified as such in the relevant Issue Terms (the **"Scheduled Adjusted Valuation Date"**) or, if the relevant Issue Terms specify:

- (a) **"Individual Publication Fixing Day Adjustment"** to be applicable and such Scheduled Adjusted Valuation Date is not a Publication Fixing Day for such FX Rate, the earlier to occur of (a) the next following Publication Fixing Day for such FX Rate and (b) the FX Specified Day(s) following such Scheduled Adjusted Valuation Date (unless the relevant Issue Terms specify "FX Specified Day(s)" to be not applicable, in which case sub-paragraph (b) shall not apply); or
- (b) **"Common Publication Fixing Day Adjustment"** to be applicable and such Scheduled Adjusted Valuation Date is not a Common Publication Fixing Day, the earlier to occur of (a) the next following Common Publication Fixing Day and (b) the FX Specified Day(s) following such Scheduled Adjusted Valuation Date (unless the relevant Issue Terms specify "FX Specified Day(s)" to be not applicable, in which case sub-paragraph (b) shall not apply),

provided that if the relevant Issue Terms specify "No Publication Fixing Day Adjustment" to be applicable, then the Adjusted Valuation Date shall be such Scheduled Adjusted Valuation Date, notwithstanding the fact that such day is not a Publication Fixing Day or a Common Publication Fixing Day.

"Administrator/Benchmark Event" means, in respect of any Securities and an FX Rate, the occurrence or existence, as determined by the Calculation Agent, of any of the following events in respect of such FX Rate:

- (a) any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of an FX Rate or the administrator or sponsor of an FX Rate has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, or any prohibition by a relevant competent authority or other relevant official body, in each case with the effect that the Issuer and/or the Calculation Agent (as applicable) and/or any other relevant entity is not, or will not be, permitted under any applicable law or regulation to use the FX Rate to perform its or their respective obligations under the Securities; or
- (b) any material change to the methodology or formula for the FX Rate or any other means of calculating the FX Rate, as determined by the Calculation Agent (**"Material Methodology Change Event"**).

"Administrator/Benchmark Event Date" means, in respect of an FX Rate, the date determined by the Calculation Agent to be:

- (a) in the case of paragraph (a) of the definition of "Administrator/Benchmark Event", the date from which the FX Rate may no longer be used under any applicable law or regulation by Issuer and/or the Calculation Agent (as applicable) and/or any other relevant entity to perform its or their respective obligations under the Securities; or
- (b) in the case of paragraph (b) of the definition of "Administrator/Benchmark Event", the date on which the change to the methodology or formula for the FX Rate becomes effective,

or, in each case, if such date occurs before the Trade Date, the Trade Date.

"Affected Common Basket FX Rate" and **"Affected Common Basket FX Rates"** have the meaning given thereto in FX Linked Condition 1.5(b)(i) (*FX Rate Basket and Reference Dates – Common Fixing Day*).

"Affected Currency" means the Settlement Currency, the Reference Currency, the Converted Currency or any other currency specified as an "Affected Currency" in relevant Issue Terms.

"Averaging Date" means, in respect of an FX Rate, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as an Averaging Reference Date) in accordance with these FX Linked Conditions.

"Averaging Reference Date" means, in respect of an FX Rate, each Initial Averaging Date or Averaging Date, in each case, subject to adjustment in accordance with these FX Linked Conditions.

"Barrier Event Determination Date" means, unless otherwise specified in the relevant Issue Terms, any time in the Observation Period in respect of which a Spot Exchange Rate may be determined pursuant to the definition of "Spot Exchange Rate".

"Base Currency" means the Settlement Currency or such currency other than the Settlement Currency specified as a "Base Currency" in relevant Issue Terms, unless the relevant Issue Terms specify "Asset FX" to be applicable, in which case, "Base Currency" has the meaning given to it in the Payout Conditions.

"Base Currency/Subject Currency Price" means, in respect of any relevant day, the Specified Rate of the Base Currency/Subject Currency exchange rate, expressed as an amount of the Subject Currency per unit of the Base Currency, as reported or published by the Fixing Price Sponsor at or around the Valuation Time on such day, as published on the FX Price Source for such day.

"Bloomberg Page" means, in respect of an FX Rate and any designated page, the display page so designated on the Bloomberg® service (or such other page as may replace that page on that service (or replace such services) for the purpose of displaying a currency exchange rate comparable to such FX Rate, as determined by the Calculation Agent).

"CNY FX Disruption Event" means the occurrence of any of the following events:

- (a) **CNY Inconvertibility Event:** An event that makes it impossible or impractical for the Issuer to convert any amounts in CNY due in respect of the Securities in the general CNY foreign exchange market in the CNY Financial Centre, other than where such impossibility or impracticality is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the relevant Trade Date, and it is impossible or impractical for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);
- (b) **CNY Non-Transferability Event:** An event that makes it impossible or impractical for the Issuer to deliver CNY (i) between accounts inside the CNY Financial Centre or (ii) from an account inside the CNY Financial Centre to an account outside the CNY Financial Centre, other than where such impossibility or impracticality is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any CNY Governmental Authority (unless such law, rule or regulation is enacted after the Trade Date and it is impossible or impractical for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation); and
- (c) **CNY Illiquidity Event:** The general CNY foreign exchange market in the CNY Financial Centre becomes illiquid as a result of which the Issuer cannot obtain sufficient CNY in order to satisfy its payment obligations (in whole or in part) under the Securities.

"CNY Financial Centre" means the financial centre(s) specified as such in the relevant Issue Terms.

"CNY Governmental Authority" means any de facto or de jure government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of the People's Republic of China, the Hong Kong Special Administrative Region and any other CNY Financial Centre.

"Common Basket FX Rate" and **"Common Basket FX Rates"** have the meaning given thereto in FX Linked Condition 1.5 (*FX Rate Basket and Reference Dates – Common Fixing Day*).

"Common Fixing Day" means, in respect of Common Basket FX Rates, each day which is a Fixing Day for all Common Basket FX Rates.

"Common Publication Fixing Day" means, in respect of an FX Rate Basket, each day which is a Publication Fixing Day for all FX Rates in such FX Rate Basket.

"Currency Conversion Disruption Event" means the occurrence of any of the following events:

- (a) **Dual Exchange Rate Event:** Any Currency Conversion Rate splits into dual or multiple currency exchange rates;
- (b) **Inconvertibility Event:** An event has occurred in or affecting any jurisdiction that generally makes it impossible to convert any Calculation Currency into the Converted Currency through customary legal channels;
- (c) **Non-Transferability Event:** An event has occurred in or affecting any Currency Conversion Reference Country that generally makes it impossible to deliver (i) the Converted Currency from accounts inside the Currency Conversion Reference Country to accounts outside the Currency Conversion Reference Country or (ii) the Converted Currency between accounts inside the Currency Conversion Reference Country for the Calculation Currency or to a party that is a non-resident of the Currency Conversion Reference Country;
- (d) **Governmental Authority Default:** A default, event of default, or other similar Condition or event (however described) with respect to any security or indebtedness for borrowed money of, or

guaranteed by, any governmental authority (as defined below), including, but not limited to, (i) the failure of timely payment in full of any principal, interest, or other amounts due (without giving effect to any applicable grace periods) in respect of any such security, indebtedness, or guarantee, (ii) a declared moratorium, standstill, waiver, deferral, repudiation, challenge of the validity, or rescheduling of any principal, interest, or other amounts due in respect of any such security, indebtedness, or guarantee, or (iii) the amendment or modification of the terms and conditions of payment of any principal, interest, or other amounts due in respect of any such security, indebtedness, or guarantee without the consent of all holders of such obligation. For these purposes, the determination of the existence or occurrence of any default, event of default, or other similar Condition or event shall be made without regard to any lack or alleged lack of authority or capacity of such governmental authority to issue or enter into such security, indebtedness, or guarantee. "Governmental authority" means any de facto or de jure government (or any agency or instrumentality thereof), court, tribunal, administrative, executive, legislative or other governmental authority, or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of a Currency Conversion Reference Country (which with respect to the Euro shall include the European Union as well as any member state thereof from time to time whose currency is the Euro);

- (e) *Exchange Rate Unavailability or Illiquidity Event*: It is or becomes impossible or not reasonably practicable for the Issuer or its affiliates to obtain a Currency Conversion Rate from the source typically used for that rate, or to obtain a firm quote for any Currency Conversion Rate;
- (f) *Nationalisation Event*: Any expropriation, confiscation, requisition, nationalisation or other action by a relevant governmental authority which deprives the Issuer or its affiliates of all or substantially all of its assets in any relevant jurisdiction; and
- (g) *Currency Merger*: If a relevant currency ceases to exist and is replaced by a new currency.

"Currency Conversion Reference Country" means, in respect of a Calculation Currency, the country specified as such in the relevant Issue Terms.

"Currency Pair" means, in respect of any FX Linked Security, the Reference Currency and the Base Currency.

"Currency Price" means, in respect of any relevant day, the Specified Rate of the Base Currency/Reference Currency exchange rate, expressed as an amount of the Reference Currency per unit of the Base Currency, as reported or published by the Fixing Price Sponsor at or around the Valuation Time on such day, as published on the FX Price Source for such day.

"Derived Exchange Rate" means, in respect of any relevant day, the Base Currency/Reference Currency exchange rate, expressed as an amount of the Reference Currency per unit of the Base Currency, determined by the Calculation Agent as, if the relevant Issue Terms specify:

- (a) "Derived Exchange Rate 1" to be applicable, the quotient of (a) the Subject Currency/Reference Currency Price, divided by (b) the Subject Currency/Base Currency Price, in each case, in respect of such day; or
- (b) "Derived Exchange Rate 2" to be applicable, the quotient of (a) the Base Currency/Subject Currency Price, divided by (b) the Reference Currency/Subject Currency Price, in each case, in respect of such day; or
- (c) "Derived Exchange Rate 3" to be applicable, the product of (a) the Base Currency/Subject Currency Price, multiplied by (b) the Subject Currency/Reference Currency Price, in each case, in respect of such day;
- (d) "Derived Exchange Rate 4" to be applicable, the quotient of (a) one, divided by (b) the product of (I) the Reference Currency/Subject Currency Price, multiplied by (II) the Subject Currency/Base Currency Price, in each case, in respect of such day; or
- (e) "Derived Exchange Rate 5" to be applicable, the quotient of (a) one, divided by (b) the Reference Currency/Base Currency Price in respect of such day.

"Fixing Day" means, in respect of an FX Rate, either (a) a Publication Fixing Day (or a day that would otherwise be a Publication Fixing Day but for the occurrence of a FX Linked Conditions Disruption Event) or (b) a Transaction Fixing Day, as specified in the relevant Issue Terms, in each case on which no FX Linked Conditions Disruption Event has occurred or is continuing.

"FX Price Source" means, in respect of an FX Rate which is: (a) an Asset FX Rate, an Asset FX Price Source, or (b) an FX Rate other than an Asset FX Rate, the display page(s) or price source(s) specified as such in the relevant Issue Terms for such FX Rate, or if the relevant rate is not published or announced by such FX Price Source at the relevant time, the successor or alternative price source, display page or publication for the relevant rate as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

"Fixing Price Sponsor" means, in respect of (a) an Asset FX Rate, an Asset FX Fixing Price Sponsor, or (b) an exchange rate used in the determination of the Currency Conversion Rate, the applicable Currency Fixing Price Sponsor (c) an FX Rate other than an Asset FX Rate or an exchange rate used in the determination of the Currency Conversion Rate, an entity specified as such in the relevant Issue Terms, or its successor or replacement, as determined by the Calculation Agent, that is responsible for setting the relevant rate for such FX Rate, and in each case, if not specified, the corporation or other entity that, as determined by the Calculation Agent, is responsible for setting the relevant rate for such FX Rate.

"FX Business Day" means, in respect of an FX Rate:

- (a) each day (other than Saturday or Sunday) on which commercial banks are open for business (including dealings in foreign exchange in accordance with the practice of the foreign exchange market) in the principal financial centre of the Reference Currency and the Base Currency; and
- (b) to the extent that the Reference Currency or the Base Currency is euro, a day that is also a TARGET Settlement Day,

unless the relevant Issue Terms specify "Non-Default FX Business Day for euro" to be applicable, in which case paragraph (b) shall not apply.

"FX Linked Conditions Disruption Event" means the occurrence of any of the following events:

- (a) *Dual Exchange Rate Event*: Any FX Rate splits into dual or multiple currency exchange rates;
- (b) *Inconvertibility Event*: An event has occurred in or affecting any jurisdiction that generally makes it impossible to convert any Reference Currency into the Settlement Currency through customary legal channels;
- (c) *Non-Transferability Event*: An event has occurred in or affecting any Reference Country that generally makes it impossible to deliver (i) the Settlement Currency from accounts inside the Reference Country to accounts outside the Reference Country or (ii) the Settlement Currency between accounts inside the Reference Country for the Reference Currency or to a party that is a non-resident of the Reference Country;
- (d) *Governmental Authority Default*: A default, event of default, or other similar condition or event (however described) with respect to any security or indebtedness for borrowed money of, or guaranteed by, any Governmental Authority (as defined below), including, but not limited to, (i) the failure of timely payment in full of any principal, interest, or other amounts due (without giving effect to any applicable grace periods) in respect of any such security, indebtedness, or guarantee, (ii) a declared moratorium, standstill, waiver, deferral, repudiation, challenge of the validity, or rescheduling of any principal, interest, or other amounts due in respect of any such security, indebtedness, or guarantee, or (iii) the amendment or modification of the terms and conditions of payment of any principal, interest, or other amounts due in respect of any such security, indebtedness, or guarantee without the consent of all holders of such obligation. For these purposes, the determination of the existence or occurrence of any default, event of default, or other similar condition or event shall be made without regard to any lack or alleged lack of authority or capacity of such Governmental Authority to issue or enter into such security, indebtedness, or guarantee. **"Governmental Authority"** means any de facto or de jure government (or any agency or instrumentality thereof), court, tribunal, administrative,

executive, legislative or other governmental authority, or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of a Reference Country (which with respect to the Euro shall include the European Union as well as any member state thereof from time to time whose currency is the Euro);

- (e) *Exchange Rate Unavailability or Illiquidity Event*: It is or becomes impossible or not reasonably practicable for the Issuer or its affiliates to obtain an FX Rate from the source typically used for that rate, or to obtain a firm quote for any FX Rate;
- (f) *Nationalisation Event*: Any expropriation, confiscation, requisition, nationalisation or other action by a relevant governmental authority which deprives the Issuer or its affiliates of all or substantially all of its assets in any relevant jurisdiction; and
- (g) *Currency Merger*: If a relevant currency ceases to exist and is replaced by a new currency.

"FX Linked Securities" means FX Linked Notes or FX Linked Instruments, as the case may be.

"FX Rate" means an Asset FX Rate, a Currency Price, a Derived Exchange Rate, the EUR/USD FX Rate, the USD/BRL FX Rate, as specified in the relevant Issue Terms.

"FX Rate Basket" means a basket composed of each FX Rate specified in the relevant Issue Terms.

"impractical" or **"impracticability"** means, in relation to a CNY FX Disruption Event, that the Issuer (or any affiliate of the Issuer) would incur a materially increased amount of taxes, duties, expenses or fees (as compared with circumstances existing on the Trade Date and determined by the Calculation Agent) to perform the relevant action described in this definition.

"impossible", in relation to a CNY FX Disruption Event, shall include (but shall not be limited to) any act which, if done or performed by the Issuer (or any affiliate of the Issuer) would be or result in the breach of any applicable law, rule, or regulation.

"Initial Valuation Date" means, in respect of an FX Rate, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as a Reference Date) in accordance with these FX Linked Conditions.

"Interest Valuation Date" means, in respect of an FX Rate, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as a Reference Date) in accordance with these FX Linked Conditions.

"Maximum Days of Postponement" means five FX Business Days or such other number of FX Business Days specified in the relevant Issue Terms.

"Modified Postponement" has the meaning given thereto in FX Linked Condition 1.2(c) (*Single FX Rate and Averaging Reference Dates*) or FX Linked Condition 1.4 (*FX Rate Basket and Averaging Reference Dates – Individual Fixing Day*), as the case may be.

"No Adjustment" has the meaning given thereto in FX Linked Condition 1.1(c) (*Single FX Rate and Reference Dates*), FX Linked Condition 1.2(d) (*Single FX Rate and Averaging Reference Dates*), FX Linked Condition 1.3(c) (*FX Rate Basket and Reference Dates – Individual Fixing Day*), FX Linked Condition 1.4(d) (*FX Rate Basket and Averaging Reference Dates – Individual Fixing Day*) or FX Linked Condition 1.5(c) (*FX Rate Basket and Reference Dates – Common Fixing Day*), as the case may be.

"Observation Period" means the period commencing on, and including, the Observation Period Start Date and Time, and ending on, and including, the Observation Period End Date and Time.

"Observation Period End Date and Time" means the date specified as such in the relevant Issue Terms and 5 p.m. New York City time.

"Observation Period Start Date and Time" means the date specified as such in the relevant Issue Terms and 5.00 a.m. Sydney time.

"Omission" has the meaning given thereto in FX Linked Condition 1.2(a) (*Single FX Rate and Averaging Reference Dates*) or FX Linked Condition 1.4(a) (*FX Rate Basket and Averaging Reference Dates – Individual Fixing Day*), as the case may be.

"Postponement" has the meaning given thereto in FX Linked Condition 1.2(b) (*Single FX Rate and Averaging Reference Dates*) or FX Linked Condition 1.4(b) (*FX Rate Basket and Averaging Reference Dates – Individual Fixing Day*), as the case may be.

"Publication Fixing Day" means, in respect of an FX Rate, each day on which the Fixing Price Sponsor publishes the relevant rate for such FX Rate, as determined by the Calculation Agent (provided that, for an FX Rate that is a Derived Exchange Rate, a Publication Fixing Day shall be each day on which all the respective Fixing Price Sponsor for the components of such Derived Exchange Rate publish the relevant rate for each such component).

"Reference Country" means, in respect of a Reference Currency, the country specified as such in the relevant Issue Terms.

"Reference Currency" means any currency specified as such in the relevant Issue Terms.

"Reference Currency/Base Currency Price" means, in respect of any relevant day, the Specified Rate of the Reference Currency/Base Currency exchange rate, expressed as an amount of the Base Currency per unit of the Reference Currency, as reported or published by the Fixing Price Sponsor at or around the Valuation Time on such day, as published on the FX Price Source for such day.

"Reference Date" means, in respect of an FX Rate, each Initial Valuation Date, Valuation Date, or such other date as specified in the relevant Issue Terms.

"Reference Dealers" means four leading dealers in the relevant foreign exchange market, as determined by the Calculation Agent.

"Refinitiv Screen" means, in respect of an FX Rate and any designated page, the display page so designated on the Refinitiv service (or such other page as may replace that page on that service (or replace such services) for the purpose of displaying a currency exchange rate comparable to such FX Rate, as determined by the Calculation Agent).

"Scheduled Averaging Date" means, in respect of an FX Rate, any original date that, but for such day not being a Fixing Day for such FX Rate, would have been an Averaging Date.

"Scheduled Averaging Reference Date" means, in respect of an FX Rate, each Scheduled Averaging Date or Scheduled Initial Averaging Date.

"Scheduled Initial Averaging Date" means, in respect of an FX Rate, any original date that, but for such day not being a Fixing Day for such FX Rate, would have been an Initial Averaging Date.

"Scheduled Initial Valuation Date" means, in respect of an FX Rate, any original date that, but for such day not being a Fixing Day for such FX Rate, would have been an Initial Valuation Date.

"Scheduled Reference Date" means, in respect of an FX Rate, each Scheduled Initial Valuation Date or Scheduled Valuation Date, provided that if the Adjusted Initial FX Valuation Date or the Adjusted Final FX Valuation Date is specified in the relevant Issue Terms, in respect of an FX Rate and (i) the Initial Valuation Date or the Adjusted Asset Initial Reference Date, the Scheduled Reference Date shall be the Adjusted Initial FX Valuation Date, and (ii) the Valuation Date or the Adjusted Asset Final Reference Date, the Scheduled Reference Date shall be the Adjusted Final FX Valuation Date.

"Scheduled Valuation Date" means, in respect of an FX Rate, any original date that, but for such day not being a Fixing Day for such FX Rate, would have been a Valuation Date.

"Settlement Currency" has the meaning given in the relevant Issue Terms, or if not so given, the Specified Currency.

"Specified Rate" means the official fixing rate, official mid closing rate, spot rate, mid rate, fixing rate, as specified in the relevant Issue Terms.

"Spot Exchange Rate" means a rate that is based on the price for one or more actual foreign exchange transactions in the Spot Market involving the Currency Pair (or cross-rates constituting such Currency Pair) for settlement in accordance with the convention for the Currency Pair (such transactions being **"Qualifying Transactions"**), as determined on each Barrier Event Determination Date by the Calculation Agent. The Spot Exchange Rate of the Currency Pair shall be expressed as a fraction in terms of the amount of the Reference Currency that can be exchanged for one unit of the Base Currency, provided that:

- (a) transactions between parties who are not dealing at arm's length or who are otherwise not providing good-faith fair market prices shall not be Qualifying Transactions; and
- (b) transactions executed at off-market prices or between affiliates (even if such transactions are entered into at arm's length and in good faith) shall not be Qualifying Transactions.

"Spot Market" means the global spot foreign exchange market, open continuously from 5.00 a.m., Sydney time, on a Monday in any week to 5.00 p.m., New York City time, on the Friday of that week.

"Subject Currency" means any currency specified as such in the relevant Issue Terms.

"Subject Currency/Base Currency Price" means, in respect of any relevant day, the Specified Rate of the Subject Currency/Base Currency exchange rate, expressed as an amount of the Base Currency per unit of the Subject Currency, as reported or published by the Fixing Price Sponsor at or around the Valuation Time on such day, as published on the FX Price Source for such day.

"Subject Currency/Reference Currency Price" means, in respect of any relevant day, the Specified Rate of the Subject Currency/Reference Currency exchange rate, expressed as an amount of the Reference Currency per unit of the Subject Currency, as reported or published by the Fixing Price Sponsor at or around the Valuation Time on such day, as published on the FX Price Source for such day.

"Trade Date" means the date specified as such in the relevant Issue Terms, or if no date is specified as the "Trade Date", the Strike Date.

"Transaction Fixing Day" means, in respect of an FX Rate, each day (a) on which transactions in such FX Rate are occurring in the global foreign exchange spot markets, as determined by the Calculation Agent, and (b) which is a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments in the principal financial centres of the Reference Currency and the Base Currency, and to the extent that the Reference Currency or the Base Currency is euro, a day that is also a TARGET Settlement Day.

"USD/Affected Currency FX Rate" means, in respect of any relevant day, the spot USD/Affected Currency exchange rate, expressed as an amount of Affected Currency per unit of USD, determined by the Calculation Agent as follows:

- (a) if "USD/Affected Currency FX Rate Fixing Price Sponsor Determination" is specified to be applicable in the relevant Issue Terms, the rate reported or published by the Fixing Price Sponsor at the Valuation Time on such day; or
- (b) if either (i) "USD/Affected Currency FX Rate Fixing Price Sponsor Determination" is specified to be applicable in the relevant Issue Terms and the rate specified in paragraph (a) is not available on such day, or (ii) "USD/Affected Currency FX Rate Fixing Price Sponsor Determination" is specified to be not applicable in the relevant Issue Terms, the Calculation Agent shall request each of the Reference Dealers to provide a firm quotation of the rate (expressed as an amount of Affected Currency per unit of USD) at which the Calculation Agent is able to sell an amount of Affected Currency equal to the aggregate amount of Affected Currency payable in respect of the Securities for an amount of USD at the relevant time on such day, based upon each Reference Dealer's experience in the foreign exchange market for the Affected Currency and the general activity in such market on such day. If at least two quotations are provided, the relevant rate will be the arithmetic mean of such quotations. If fewer than two quotations are provided, the Calculation Agent shall request each of the major banks (as selected by the Calculation Agent) in the relevant market to provide a quotation of the rate (expressed as an amount of Affected Currency per unit of USD) at which the Calculation Agent is able to sell an amount of Affected Currency equal to the aggregate amount of Affected Currency payable

in respect of the Securities for an amount of USD at the relevant time on such day. If fewer than two quotations are provided, then the Calculation Agent shall determine the USD/Affected Currency FX Rate on such day in its discretion, acting in good faith and in a commercially reasonable manner.

"USD/CNY Exchange Rate" means, in respect of any relevant day, the spot USD/CNY exchange rate, expressed as an amount of CNY per unit of USD, as reported or published by the Fixing Price Sponsor at the Valuation Time on such day, provided that if no such rate is available on such day, then the Calculation Agent shall request each of the Reference Dealers to provide a firm quotation of the rate at which it will buy one unit of USD in an amount of CNY at the applicable Valuation Time on such day, based upon each Reference Dealer's experience in the foreign exchange market for CNY and general activity in such market on such day. If at least two quotations are provided, the relevant rate will be the arithmetic mean of such quotations. If fewer than two quotations are provided, the Calculation Agent shall request each of the major banks (as selected by the Calculation Agent) in the relevant market to provide a quotation of the rate at which it will buy one unit of USD in an amount of CNY at the applicable Valuation Time on such day. If fewer than two quotations are provided, then the Calculation Agent shall determine the USD/CNY Exchange Rate as of the Valuation Time on such day in its discretion, acting in good faith and in a commercially reasonable manner.

"USD Equivalent Amount" means, if the relevant Issue Terms specify:

- (a) "FX Linked Conditions Disruption Event" or "Currency Conversion Disruption Event" to be applicable, following the occurrence of an FX Linked Conditions Disruption Event or a Currency Conversion Disruption Event, as the case may be, and in respect of the relevant Interest Amount, Settlement Amount, Redemption Amount or other amount payable (if applicable) on the relevant Affected Payment Date (for these purposes, the **"Affected Currency Amount"**), an amount in USD determined by the Calculation Agent by converting the Affected Currency Amount into USD using the USD/Affected Currency FX Rate for the relevant FX Disruption Event Cut-off Date; or
- (b) **"CNY FX Disruption Event"** to be applicable, following the occurrence of a CNY FX Disruption Event and in respect of the relevant Interest Amount, Settlement Amount, Redemption Amount or other amount payable (if applicable) on the relevant Affected Payment Date (for these purposes, the **"CNY Relevant Amount"**), an amount in USD determined by the Calculation Agent by converting the CNY Relevant Amount into USD using the USD/CNY Exchange Rate for the relevant Affected Payment Date.

"Valid Date" means a calendar day on which an FX Linked Conditions Disruption Event has not occurred and on which another Averaging Reference Date does not or is not deemed to occur.

"Valuation Date" means, in respect of an FX Rate, each date specified as such in the relevant Issue Terms.

"Valuation Time" means, in respect of an FX Rate which is: (a) an Asset FX Rate, an Asset FX Valuation Time or (b) a Currency Price or Derived Exchange Rate, each time in the place specified as such in the relevant Issue Terms (or such other time when the relevant rate of the FX Rate is published, as determined by the Calculation Agent).

INTRODUCTION TO THE INFLATION LINKED CONDITIONS

The following introduction to, and summary of, the Inflation Linked Conditions is only a description and overview of the actual Inflation Linked Conditions set forth herein, and is only intended to be a guide to potential purchasers to facilitate a general understanding of such provisions. Accordingly, this overview must be read only as an introduction to the actual Inflation Linked Conditions and any decision to purchase Inflation Linked Securities should be based on a consideration of the Base Prospectus as a whole, including the actual Inflation Linked Conditions (as may be completed by the relevant Issue Terms).

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Inflation Linked Securities on page 130.

Payments

Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of certain Inflation Linked Securities will be calculated by reference to the level of a single Inflation Index or the level of one or more Inflation Indices in an Inflation Index Basket or a formula based upon the level of one or more Inflation Indices in respect of one or more Reference Months (as set out in the Issue Terms).

Observation Dates and Delay in Publication

However, the **Relevant Level** in respect of a **Reference Month** for an Inflation Index, i.e. the specified calendar month for which the level of the Inflation Index was reported, may not be published or announced by a relevant **Observation Date**, i.e. a day which is typically five business days prior to the corresponding payment date. In such circumstances the Calculation Agent will determine a **Substitute Level**, by reference to either:

- (a) action taken by the calculation agent of the **Related Bond**, i.e. typically a bond issued on or prior to the issue date of the Inflation Linked Securities by the government of the country to whose level of inflation the Inflation Index relates, which pays a coupon or other amount which is calculated by reference to the Inflation Index and which has a similar maturity date to the maturity date of the Inflation Linked Securities, or
- (b) the **Base Level** of the Inflation Index, i.e. the level of the Inflation Index in respect of the month that is 12 calendar months prior to the Reference Month for which the Substitute Level is being determined, the **Latest Level**, i.e. the latest published level of the Inflation Index and the **Reference Level**, i.e. the level of the Inflation Index in respect of the month that is 12 calendar months prior to the month referred to in the Latest Level.

Cessation of Publication and Successor Inflation Index

If (a) a level of the Inflation Index has not been published or announced for a period of two consecutive months or (b) the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index, then, in each case, the Calculation Agent shall determine a Successor Inflation Index for an Observation Date.

The Successor Inflation Index may be:

- (a) a successor inflation index designated by the calculation agent of the Related Bond; or
- (b) a replacement inflation index specified by the sponsor of the Inflation Index which uses substantially the same formula or method of calculation used for the Inflation Index; or
- (c) a replacement inflation index selected by leading independent dealers; or
- (d) an alternative inflation index determined by the Calculation Agent.

If the Calculation Agent determines that there is no appropriate alternative inflation index, then the Inflation Linked Securities shall be redeemed early.

Rebasing of an Inflation Index

If the Inflation Index is rebased at any time before maturity, the Calculation Agent shall make adjustments as are made by the calculation agent of the Related Bond, if any, or in its own discretion so that the levels of the rebased Inflation Index reflect the same rate of inflation as the Inflation Index before it was rebased.

Material Modification prior to Observation Date

If the sponsor of the Inflation Index announces that it will make a material change to the Inflation Index, then the calculation agent shall make adjustments as are made by the calculation agent of the Related Bond, if any, or adjustments that are necessary for the modified Inflation Index to continue as the Inflation Index. In addition, the Calculation Agent may make adjustments to the terms of the Inflation Linked Securities.

Change in Law

Following the occurrence of a Change in Law, which results in the relevant Issuer incurring material costs for performing its obligations under the Inflation Linked Securities, if specified as being applicable in the relevant Issue Terms, the Calculation Agent may determine to make adjustments to the terms of the Inflation Linked Securities and/or the Inflation Linked Securities may be redeemed early.

Calculation Agent Determinations and Calculations

The Calculation Agent, which will be Goldman Sachs International (unless otherwise specified in the relevant Issue Terms), may be required to make certain determinations and calculations pursuant to the Inflation Linked Conditions relating to, among others, the calculation of a level of an Inflation Index following a delay in publication, the determination of a successor inflation index following the cessation of publication of the level of the inflation index, the determination of the occurrence of a rebasing or material modification of an inflation index. In all circumstances, the Calculation Agent must make such determinations and calculations in good faith and in a commercially reasonable manner.

INFLATION LINKED CONDITIONS

Adjustment, Modification and Disruption Provisions for Inflation Linked Notes and Inflation Linked Instruments

- | | |
|-----|---|
| 1. | Delay in Publication |
| 2. | Cessation of Publication |
| 2.1 | Successor Inflation Index |
| 2.2 | Early redemption of Inflation Linked Securities |
| 3. | Rebasing of Inflation Index |
| 4. | Material Modification prior to Observation Date |
| 5. | Manifest Error in Publication |
| 6. | Occurrence of a Change in Law |
| 7. | Definitions |

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Inflation Linked Securities on page 130.

These Inflation Linked Provisions shall apply to Instruments for which the relevant Issue Terms specify that the Inflation Linked Instruments are applicable and to Notes for which the relevant Issue Terms specify that the Inflation Linked Notes are applicable.

1. Delay in Publication

Subject to Inflation Linked Condition 2 (*Cessation of Publication*), if any Relevant Level in respect of any Observation Date (the "**Affected Observation Date**") has not been published or announced by the Affected Observation Date, the Calculation Agent shall determine a substitute level ("**Substitute Level**") by using the following methodology:

- (a) if applicable, the Calculation Agent will take the same action to determine the Substitute Level for the Affected Observation Date as that taken by the Related Bond Calculation Agent pursuant to the terms and conditions of the Related Bond (if any); and
- (b) if (a) does not result in a Substitute Level for the Affected Observation Date for any reason, then the Calculation Agent shall determine the Substitute Level as the product of (i) the Base Level and (ii) the quotient of the Latest Level divided by the Reference Level.

If a Relevant Level is published or announced at any time after the Affected Observation Date, such Relevant Level will not be used in any calculations in respect of such Affected Observation Date. The Substitute Level so determined pursuant to this Inflation Linked Condition 1 will be the definitive level of the Inflation Index for that Reference Month (subject to Inflation Linked Condition 2 (*Cessation of Publication*)).

2. Cessation of Publication

2.1 Successor Inflation Index

If (a) a level of the Inflation Index (whether or not used for any calculation on an Observation Date) has not been published or announced for a period of two consecutive months or (b) the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index, then, in

each case, the Calculation Agent shall determine a successor inflation index (the "**Successor Inflation Index**") (in lieu of any previously applicable Inflation Index) for an Observation Date for the purpose of the Securities by using the following methodology:

- (i) if at any time (other than after the determination by the Calculation Agent that there is no appropriate alternative inflation index in accordance with Inflation Linked Condition 2.2 (*Early redemption of Inflation Linked Securities*)), a successor index has been designated by the Related Bond Calculation Agent pursuant to the terms and conditions of the Related Bond (if applicable), such successor index shall be deemed a "Successor Inflation Index" for the purposes of such Observation Date and all subsequent Observation Dates in relation to the Securities, notwithstanding that any other Successor Inflation Index may previously have been determined under Inflation Linked Condition 2.1(ii), 2.1(iii) or 2.1(iv) below; or
- (ii) if a Successor Inflation Index has not been determined under Inflation Linked Condition 2.1(i) above (and there has been no determination by the Calculation Agent that there is no appropriate alternative inflation index in accordance with Inflation Linked Condition 2.2 (*Early redemption of Inflation Linked Securities*)), and a notice has been given or an announcement has been made by an Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement inflation index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement inflation index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, then such replacement inflation index shall be deemed the Successor Inflation Index from the date that such replacement Inflation Index comes into effect; or
- (iii) if a Successor Inflation Index has not been determined under Inflation Linked Condition 2.1(i) or 2.1(ii) above (and there has been no determination by the Calculation Agent that there is no appropriate alternative inflation index in accordance with Inflation Linked Condition 2.2 (*Early redemption of Inflation Linked Securities*)), the Calculation Agent shall ask five leading independent dealers to state what the replacement inflation index for the Inflation Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same inflation index, that inflation index will be deemed the "Successor Inflation Index". If three responses are received, and two or more leading independent dealers state the same inflation index, that inflation index will be deemed the "Successor Inflation Index" in respect of the Securities from the date such inflation index is deemed the "Successor Inflation Index". If fewer than three responses are received, the "Successor Inflation Index" will be determined under Inflation Linked Condition 2.1(iv) below; or
- (iv) if a Successor Inflation Index has not been determined under Inflation Linked Condition 2.1(i), 2.1(ii) or 2.1(iii) above by such Observation Date, the Calculation Agent will determine an appropriate alternative inflation index for such Observation Date, and such inflation index will be deemed a "Successor Inflation Index" (from the date, such inflation index is deemed to be the "**Successor Inflation Index**").

2.2 Early redemption of Inflation Linked Securities

If the Calculation Agent determines that there is no appropriate alternative inflation index, on giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as applicable, the Issuer shall redeem the Inflation Linked Securities in whole but not in part, each Inflation Linked Security being redeemed by payment of an amount equal to the Non-scheduled Early Repayment Amount of such Inflation Linked Security, as determined by the Calculation Agent. Payments will be made in such a manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as applicable.

3. Rebasing of Inflation Index

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Inflation Index**") will be used for purposes of determining the level of the Inflation Index from the date of such rebasing; provided, however, that the Calculation Agent shall make adjustments as are made by the Related Bond Calculation Agent pursuant to the terms

and conditions of the Related Bond, if any, to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Securities.

4. Material Modification prior to Observation Date

In respect of each Observation Date, if, on or prior to such Observation Date, the Inflation Index Sponsor for the Inflation Index announces that it will make a material change to the Inflation Index then the Calculation Agent shall make any such adjustments to the Inflation Index consistent with adjustments made to the Related Bond, if any, or, if there is no Related Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index. In addition, the Calculation Agent may, but shall not be obliged to, make such adjustments that it determines (in its sole and absolute discretion) to be appropriate to any variable, calculation methodology, valuation, settlement, payment terms or any other terms or conditions in respect of the Securities.

5. Manifest Error in Publication

In respect of each Observation Date, if, within 30 days of publication and in any event prior to such Observation Date, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent will determine the amount that is payable as a result of that correction and, to the extent necessary, will adjust any relevant terms of the Securities to account for any such correction.

6. Occurrence of a Change in Law

Following the determination by the Calculation Agent that a Change in Law, if specified as being applicable in the relevant Issue Terms, has occurred, the Calculation Agent will:

- (i) determine the appropriate adjustment, if any, to be made to any one or more of the terms of the Inflation Linked Securities, including without limitation, any variable or term relevant to the settlement or payment under such Inflation Linked Securities, as the Calculation Agent determines appropriate to account for the Change in Law, and determine the effective date of that adjustment; or
- (ii) redeem all, but not some only, of the Inflation Linked Securities by giving notice to Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as the case may be. If the Inflation Linked Securities are so redeemed in whole, the Issuer will pay to each Holder in respect of each Inflation Linked Security held by such Holder an amount equal to the Non-scheduled Early Repayment Amount of such Inflation Linked Security, as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Holders in accordance with General Instrument Condition 24 (*Notices*) or General Note Condition 22 (*Notices*), as applicable.

7. Definitions

"Affected Observation Date" has the meaning given thereto in Inflation Linked Condition 1 (*Delay in Publication*).

"Base Level" means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Level is being determined.

"Change in Law" means that, on or after the Issue Date, due to (i) the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law) or (ii) the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines that the Issuer and/or any of its affiliates will incur a materially increased cost in performing its obligations under the Inflation Linked Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit, or other adverse effect on its tax position).

"Fallback Bond" means, for any Inflation Index, the bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. The Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

"Inflation Index" and **"Inflation Indices"** mean, subject to adjustment in accordance with these Inflation Linked Conditions, the inflation index or indices specified in the relevant Issue Terms, and related expressions shall be construed accordingly.

"Inflation Index Level (x)" means, in respect of a Coupon Payment Date and an Inflation Index, the Relevant Level of such Inflation Index for the Reference Month (x) in respect of such Coupon Payment Date, as determined by the Calculation Agent.

"Inflation Index Level (y)" means, in respect of a Coupon Payment Date and an Inflation Index, the Relevant Level of such Inflation Index for the Reference Month (y) in respect of such Coupon Payment Date, as determined by the Calculation Agent.

"Inflation Index Sponsor" means, for any Inflation Index, the entity specified in the relevant Issue Terms, and, if not specified, the corporation, governmental agency or other entity that, as determined by the Calculation Agent, publishes or announces (directly or through an agent) the level of such Inflation Index.

"Inflation Linked Securities" means the Inflation Linked Notes or Inflation Linked Instruments, as the case may be.

"Inflation Performance" means, in respect of a Coupon Payment Date and an Inflation Index, an amount calculated in accordance with the following formula:

$$\frac{(\text{Inflation Index level } (x))}{(\text{Inflation Index Level } (y))}$$

"Latest Level" means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor prior to the month in respect of which the Substitute Level is being calculated.

"Observation Date" means, for any Inflation Index and a Relevant Level, five Business Days, or such other number of Business Days as specified in the relevant Issue Terms, immediately prior to any payment date.

"Rebased Inflation Index" has the meaning given thereto in Inflation Linked Condition 3 (*Rebasing of Inflation Index*).

"Reference Level" means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in the relevant "Latest Level".

"Reference Month" means the specified calendar month for which the level of the Inflation Index was reported, regardless of when such information is published or announced (subject as provided in Inflation Linked Condition 1 (*Delay in Publication*)). If the period for which the level of the Inflation Index was reported is a period other than a month, the Reference Month is the period for which the level of the Inflation Index was reported (as determined by the Calculation Agent).

"Reference Month (x)" means in respect of a Coupon Payment Date and an Inflation Index, the calendar month specified as such in the relevant Issue Terms. Each Reference Month (x) shall be deemed to be a "Reference Month" for the purposes of these Inflation Linked Conditions.

"Reference Month (y)" means in respect of a Coupon Payment Date and an Inflation Index, the calendar month specified as such in the relevant Issue Terms. Each Reference Month (y) shall be deemed to be a "Reference Month" for the purposes of these Inflation Linked Conditions.

"Related Bond" means, for any Inflation Index, the Fallback Bond.

"Related Bond Calculation Agent" means, for any Related Bond, the calculation agent for such Related Bond, as determined by the Calculation Agent.

"Relevant Level" means, for any Inflation Index, any level of such Inflation Index for a Reference Month which is relevant for the calculation of a payment under the Securities, provided that if "Relevant Level (excluding "flash" estimates)" is specified to be applicable for any Inflation Index in the relevant Issue Terms, the "Relevant Level" in respect of such Inflation Index shall mean the level of such Inflation Index (excluding any "flash" estimates) published or announced for a Reference Month which is relevant for the calculation of a payment under the Securities..

"Substitute Level" has the meaning given thereto in Inflation Linked Condition 1 (*Delay in Publication*).

"Successor Inflation Index" has the meaning given thereto in Inflation Linked Condition 2 (*Cessation of Publication*).

INTRODUCTION TO THE FUND LINKED CONDITIONS

The following introduction to, and summary of, the Fund Linked Conditions is only a description and overview of the actual Fund Linked Conditions set forth herein, and is only intended to be a guide to potential purchasers to facilitate a general understanding of such provisions. Accordingly, this overview must be read only as an introduction to the actual Fund Linked Conditions and any decision to purchase Fund Linked Securities should be based on a consideration of the Base Prospectus as a whole, including the actual Fund Linked Conditions (as may be completed by the relevant Issue Terms).

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Fund Linked Securities on page 130.

Determinations and Calculations

The Calculation Agent may exercise discretion to take one or more actions available to it in order to deal with the impact on the Securities of the occurrence of certain events outside of its control. Such actions include certain determinations and calculations relating to, among others, the occurrence of a Fund Calculation Day or a Fund Market Disruption Event, the calculation of the Fund Reference Price of a Fund, the occurrence and materiality of a Change in Law Event, a Crystallisation Event or (save in respect of Belgian Securities) an Adjusted NAV Event (such terms are described below). In all circumstances, the Calculation Agent must make such determinations and calculations in good faith and in a commercially reasonable manner.

Fund Calculation Days and Fund Market Disruption Events

Payments in respect of the Securities will be calculated by reference to the net asset value per unit or share of: (a) in the case of Fund Linked Securities linked to a single Fund, the Fund or (b) in the case of Fund Linked Securities linked to a Fund Basket, each Fund in the Fund Basket, as reported by each such Fund or its relevant service provider (the "NAV"), as adjusted to take into account subscription or redemption costs or dealing charges (the "**Fund Reference Price**"), on the relevant Reference Date (as set out in the relevant Issue Terms).

However, it may not be possible, practical or desirable for the Calculation Agent to determine the NAV of a Fund on the relevant Reference Date if such date:

- (a) is not a Fund Calculation Day, i.e., a day on which the NAV of such Fund is scheduled to be calculated and reported by such Fund or its relevant service provider; or
- (b) is a day on which a Fund Market Disruption Event has occurred or is continuing in respect of such Fund, i.e., a day on which there is a suspension or limitation of subscriptions or redemptions in, or a failure to receive valuations for (which includes the non-publication or non-availability of the NAV) such Fund on any day.

Potential Postponement of Reference Dates - Securities linked to one or more Funds only

In the case of Securities linked to one or more Funds, if the day on which the relevant Reference Date is scheduled to fall is not (a) in the case of Fund Linked Securities linked to a single Fund, a Fund Calculation Day or (b) in the case of Fund Linked Securities linked to a Fund Basket, a Common Fund Calculation Day, such Reference Date will be the next following Fund Calculation Day or Common Fund Calculation Day, as the case may be.

If the day on which the relevant Reference Date is scheduled to fall (following any adjustment above) is a day on which a Fund Market Disruption Event has occurred or is occurring in respect of any relevant Fund, then such Reference Date for such Fund will be postponed until the first Fund Calculation Day following the date on which such Fund Market Disruption Event ceases, subject to a long-stop date by which the NAV will be determined by the Calculation Agent in a commercially reasonable manner for the purpose of calculating payments in respect of the Securities.

Potential Postponement of Reference Dates - Securities linked to a basket comprising one or more Funds and one or more Indices

In the case of Securities linked to a basket comprising one or more Funds and one or more Indices, if the day on which the relevant Reference Date is scheduled to fall is not a Scheduled Trading Day in respect of any such Indices or a Fund Calculation Day in respect of any such Funds, such Reference Date will be the next following day that is both a Scheduled Trading Day in respect of the Indices and Fund Calculation Day in respect of the Funds.

If the day on which the relevant Reference Date is scheduled to fall (following any adjustment above) is a day on which a Fund Market Disruption Event has occurred or is occurring in respect of any relevant Fund, then such Reference Date for such Fund will be postponed until the first Fund Calculation Day following the date on which such Fund Market Disruption Event ceases, subject to a long-stop date by which the NAV will be determined by the Calculation Agent in a commercially reasonable manner for the purpose of calculating payments in respect of the Securities.

If the day on which the relevant Reference Date is scheduled to fall (following any adjustment above) is a Disrupted Day in respect of any relevant Index, then such Reference Date for such Index will be postponed until a day on which the level of the relevant Index is published or can otherwise be determined by the Calculation Agent, subject to a long-stop date (designated by reference to the term "**Maximum Days of Disruption**") by which a level must be determined for the purpose of calculating the payments in respect of the Securities.

For the meanings of **Reference Date**, **Scheduled Trading Day** and **Disrupted Day**, in each case in relation to an Index, please refer to the Index Linked Conditions above.

Change in Law Event

Where the Calculation Agent determines that, due to a change in law event, the Issuer or its affiliate's performance under the Securities or any hedge positions relating to the Securities has become (or there is a substantial likelihood in the immediate future that it will become) illegal or impractical, the Issuer may, in its discretion, redeem the Securities early by payment of the Non-Scheduled Early Repayment Amount. If an event described in sub-clause (c) of the Potential Crystallisation Events below has occurred, then the amount that might otherwise be payable under the Securities due to a change in law event may be significantly reduced, and/or the payment date may be postponed.

Crystallisation Event

A Crystallisation Event will occur if the Calculation Agent determines that the occurrence of a Potential Crystallisation Event (as described below) could either (a) materially interfere with the ability of the Issuer or its affiliates to unwind, maintain or establish all or a material portion of its hedge positions in respect of a Fund and the Securities, or (b) materially change the risks associated with maintaining those hedge positions.

Upon the occurrence of a Crystallisation Event, the Calculation Agent may determine that a replacement asset or basket of assets that preserves as closely as commercially practicable the original economic and investment objective of a Fund will be substituted in place of such Fund, and may make such adjustments to the terms of the Securities as the Calculation Agent determines appropriate to account for the economic effect on the Securities of the replacement of such Fund by the replacement asset(s) and to preserve the original economic objective and rationale of the Fund Linked Securities. If the Calculation Agent determines that it is not able to determine appropriate replacement asset(s), then the Issuer may at its discretion redeem all, but not some only, of the Fund Linked Securities by payment to investors on the scheduled maturity date of an amount equal to (a) (1) if a protection level is specified in the relevant Issue Terms, the specified denomination or nominal amount, as the case may be, of such Security multiplied by the protection level, otherwise, (2) zero plus (b) the value of the derivative component of such Fund Linked Security, plus (c) the sum of the overnight interest amounts calculated in respect of the remaining term of the Fund Linked Securities (without compounding).

Potential Crystallisation Events include:

- (a) winding up, insolvency or liquidation of a Fund or its investment adviser;

- (b) termination of any relevant service provider or agreement, a breach of any obligation by a service provider or any significant change in the original fund prospectus, in each case, resulting in increased costs of certain agreements between a Fund and its service providers;
- (c) one or more key individuals involved with, or having supervision over, a relevant service provider ceases to act and such relevant service provider fails to appoint a replacement with similar qualifications;
- (d) a failure to execute subscriptions or redemptions in units or shares of a Fund wholly in cash or on time;
- (e) the Issuer or its affiliates incur subscription or redemption costs or dealing charges in relation to their hedging activities that exceed a specified threshold;
- (f) termination or potential termination or unilateral amendment of any agreement or arrangement made by the Issuer or its affiliates in respect of a Fund which results in the Issuer or its affiliates becoming liable to an increase in costs in relation to trading or holding units or shares in such Fund or a breach by a counterparty of such an agreement or arrangement;
- (g) dealing restrictions are introduced in relation to the shares or units of a Fund or such Fund fails to accept subscriptions or redemptions;
- (h) events affecting shares or units of a Fund which make it impossible to determine the value of the units or shares in such Fund or any failure by a Fund or relevant service provider to deliver information or valuation it has agreed to deliver, in each case, where such event is occurring or subsisting for at least five consecutive fund calculation days;
- (i) a material deviation from the investment guidelines or breach of the investment restrictions of a Fund;
- (j) a material change to the investment guidelines of a Fund which changes the investment objective or a material change to the investment style and/or risk level of such Fund;
- (k) regulatory or legal action is taken against a Fund that has a material adverse effect on such Fund;
- (l) a Fund, its investment adviser or other service provider loses its licence or regulatory authorisation and this has material adverse effect on such Fund;
- (m) due to a change in law (i) it has or will imminently become illegal for the Issuer or its affiliates to hold interests in a Fund or acquire, hold or dispose of instruments or arrangements used to provide exposure to such Fund, (ii) the regulatory status of such Fund has changed or (iii) the Issuer or its affiliates will incur a materially increased cost in performing its obligations or executing hedging transactions in respect of such Fund;
- (n) any change in tax law which would affect payments to investors in a Fund;
- (o) the total exposure of the Issuer and its affiliates to a Fund exceeds a specified threshold; and
- (p) one or more of certain specified ratios of the net asset value of a Fund, the assets under management of such Fund or the annualised realised volatility of such Fund over a specified lookback period exceed or are less than specified thresholds.

If an event described in sub-clause (c) above has occurred, then the amount that might otherwise be payable under the Securities may be significantly reduced and/or the payment date may be postponed.

Adjusted NAV Event

If the Calculation Agent determines that there is a failure to execute subscriptions or redemptions in units or shares of a Fund wholly in cash or on time in relation to a Scheduled Reference Date, it may determine that an "Adjusted NAV Event" has occurred instead of a Crystallisation Event, or that both an Adjusted NAV Event and Crystallisation Event have occurred. In such case, the Calculation Agent may take one or more of the following actions:

- (a) if the Calculation Agent determines that both an Adjusted NAV Event and a Crystallisation Event have occurred, then the Calculation Agent may make any adjustments to the terms of the Fund Linked Securities or calculate the relevant amount payable by taking into consideration an adjusted net asset value of such Fund; and/or
- (b) the Calculation Agent may determine the amount(s) payable under the Fund Linked Securities by reference to an adjusted net asset value of such Fund, and any such amount(s) shall be paid on the tenth business day following the relevant determination date.

FUND LINKED CONDITIONS

Adjustment, Modification and Disruption Provisions for Fund Linked Notes and Fund Linked Instruments

- | | |
|----|--|
| 1. | Consequences of Fund Market Disruption Days |
| 2. | Early Exercise Event or Early Redemption Event |
| 3. | Consequences of a Potential Adjustment Event |
| 4. | Correction of Prices |
| 5. | Consequences of a Crystallisation Event |
| 6. | Consequences of an Adjusted NAV Event |
| 7. | Definitions |

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Fund Linked Securities on page 130.

These Fund Linked Conditions shall apply to Instruments for which the relevant Issue Terms specify that the Fund Linked Instruments are applicable and to Notes for which the relevant Issue Terms specify that the Fund Linked Notes are applicable.

1. Consequences of Fund Market Disruption Days

If the Calculation Agent determines that any Scheduled Reference Date is a Fund Market Disruption Day in respect of a Fund, then the relevant Reference Date for such Fund shall be the first Fund Calculation Day for such Fund following the Fund Market Disruption Event End Date for the relevant Reference Date for such Fund, unless the Calculation Agent determines that each of the 60 consecutive calendar days following such Scheduled Reference Date is either a Fund Market Disruption Day for such Fund or not a Fund Calculation Day for such Fund, or both, in which case:

- (a) the Business Day immediately following the 60th calendar day shall be deemed to be the relevant Reference Date for such Fund, notwithstanding the fact that such day is a Fund Market Disruption Day for such Fund and/or is not a Fund Calculation Day for such Fund; and
- (b) the Calculation Agent may determine the net asset value per share or unit of such Fund on such last consecutive Business Day acting in good faith and in a commercially reasonable manner (which may be zero and which may be by reference to a notional portfolio of transactions that synthetically creates an economic equivalent to such Fund), and such net asset value shall be the Reference Price for the Reference Date for the relevant Reference Date.

2. Early Exercise Event or Early Redemption Event

If the Calculation Agent determines that an Early Exercise Event (in the case of Instruments) or an Early Redemption Event (in the case of Notes) has occurred or is occurring, and in addition to, and without prejudice to, any other rights the Issuer may have under the Conditions, the Issuer may (but shall not be obliged to), by giving notice to the Holders in accordance with General Instrument Condition 24 (Notices) or General Note Condition 22 (Notices), as the case may be (the "**Early Exercise Notice**") (in the case of Instruments) or the "**Early Redemption Notice**" (in the case of Notes), redeem all, but not some only, of the Fund Linked Securities by payment, for each Fund linked Security, of an amount equal to the Non-scheduled Early Repayment Amount determined in respect of the EE Valuation Date (in the case of Instruments) or the ER Valuation Date (in the case of Notes) on the Early Exercise Date (in the case of Instruments) or the Early Redemption Date (in the case of Notes), subject to adjustment in accordance with the provisions of Fund Linked Condition 6 (Consequences of an Adjusted NAV Event)

if the Calculation Agent determines that an Adjusted NAV Event has occurred in respect of such EE Valuation Date or ER Valuation Date, as the case may be.

Notwithstanding the preceding paragraph, if the Early Exercise Date or the Early Redemption Date, as the case may be, would otherwise fall on or after the Scheduled Maturity Date, the Early Exercise Notice or the Early Redemption Notice, as the case may be, shall be deemed to be void and of no effect.";

3. Consequences of a Potential Adjustment Event

Following the determination by the Calculation Agent that a Potential Adjustment Event has occurred in respect of a Fund, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of such Fund and, if so, will (a) make the corresponding adjustment, if any, to any one or more of the terms of the Fund Linked Securities, including without limitation, any variable or term relevant to the settlement or payment under such Fund Linked Securities, as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility or liquidity relative to such Fund), and (b) determine the effective date of that adjustment.

4. Correction of Prices

If the NAV of a Fund (or the net asset value per unit or share of such Fund, as estimated by the Calculation Agent) in respect of any relevant day is subsequently corrected by or on behalf of such Fund on or prior to the second Business Day immediately preceding the date in respect of which any amount may be payable under the Fund Linked Securities, where whether such amount is payable or the quantity of such amount is determined by reference to such NAV or net asset value per unit or share of such Fund, as estimated by the Calculation Agent for such relevant day, then the corrected NAV of such Fund shall be deemed to be the NAV or net asset value per unit or share of such Fund, as estimated by the Calculation Agent in respect of such relevant day, provided, however, that the Calculation Agent shall not be required to use such corrected NAV of such Fund to make or revise any calculations which it has made.

5. Consequences of a Crystallisation Event

5.1 A "**Crystallisation Event**" shall have occurred in respect of a Fund if the Calculation Agent, acting in good faith and in a commercially reasonable manner, determines that:

- (i) a Potential Crystallisation Event has occurred or is continuing in relation to such Fund (a "**Affected Fund**") (including, for the purposes of this Fund Linked Condition 5 only, any cell, compartment or any segregated portfolios of such Fund) or any shares or units issued by such Fund, on any day in the period commencing on, and including, the Trade Date and ending on, and including, (a) in respect of any Potential Crystallisation Event other than a Non-full Cash Redemption Proceeds Event, the final Scheduled Reference Date, or (b) in respect of a Potential Crystallisation Event that is a Non-full Cash Redemption Proceeds Event, the Maturity Date; and
- (ii) such Potential Crystallisation Event could (a) materially interfere with the ability of the Issuer and/or any of its affiliate(s) to unwind, maintain or establish all or a material portion of the hedge positions of the Issuer (and/or its affiliates) in respect of the Fund Linked Securities, and/or (b) materially change the risks associated with maintaining such hedge positions,

and the date on which the Calculation Agent makes the determinations under sub-paragraphs (i) and (ii) above in relation to such Potential Crystallisation Event and such Crystallisation Event shall be the "**Crystallisation Event Date**" for such events, provided that, if the Calculation Agent, acting in good faith and in a commercially reasonable manner:

- (A) any event amounts to both a Fund Market Disruption Event and also a Crystallisation Event, then the Calculation Agent may in its discretion determine that such event shall be a Fund Market Disruption Event and that the provisions of Fund Linked Condition 1 (Consequences of Fund Market Disruption Days) shall apply to such event, and that the provisions of this Fund Linked Condition 5 shall not apply to such event; or

- (B) in respect of a Potential Crystallisation Event that is a Non-full Cash Redemption Proceeds Event, the Calculation Agent may in its discretion determine that (I) such event shall be an Adjusted NAV Event instead and the provisions of Fund Linked Condition 6 (Consequences of an Adjusted NAV Event) shall apply to such event, and that the provisions of this Fund Linked Condition 5 shall not apply to such event, or (II) such event shall be both an Adjusted NAV Event and a Crystallisation Event, and the provisions of this Fund Linked Condition 5 shall apply to such event, subject to adjustment in accordance with the provisions of Fund Linked Condition 6 (Consequences of an Adjusted NAV Event).
- 5.2 Subject to the provisos in Fund Linked Condition 5.4 below, on the occurrence of a Crystallisation Event in respect of a Fund, the Issuer shall as soon as reasonably practicable, acting in good faith and in a commercially reasonable manner, (i) replace such Fund with a replacement asset or basket of assets that preserves as closely as commercially practicable the original economic and investment objective of such Fund (the "Substitution Asset") with effect from the Substitution Date, and (ii) make such adjustments to the terms of the Fund Linked Securities (including, without limitation, any variable or term relevant to the calculation or payment under the Fund Linked Securities) as the Calculation Agent determines appropriate to account for the economic effect on the Fund Linked Securities of the occurrence or existence of such Crystallisation Event and the replacement of such Fund with the Substitution Asset and to preserve the original economic objective and rationale of the Fund Linked Securities.
- 5.3 Following the Substitution Date for an Affected Fund and in respect of any relevant day, any reference to such Affected Fund shall be deemed to be a reference to the Substitution Asset and any reference to the NAV of such Affected Fund on such day shall be deemed to be a reference to the net asset value of the Substitution Asset (as determined by the Calculation Agent) on such day.
- 5.4 Provided that:
- (i) if the date that would be selected by the Calculation Agent, acting in good faith and in a commercially reasonable manner, to be the "Substitution Date" in respect of such Crystallisation Event falls or would fall, as is applicable, after the relevant Scheduled Reference Date, the replacement of such Affected Fund with the Substitution Asset shall not take place; or
 - (ii) if the Calculation Agent, acting in good faith and in a commercially reasonable manner, determines that the Issuer is unable, for whatever reason, to replace such Affected Fund with a Substitution Asset,

then, in either case, the Issuer may (but shall not be obliged to) redeem all, but not some only, of the Fund Linked Securities on the Maturity Date (Crystallisation Event) by payment of the Settlement Amount (Crystallisation Event) (in the case of Instruments) or the Final Redemption Amount (Crystallisation Event) (in the case of Notes) on the Maturity Date (Crystallisation Event) by giving notice to the Holders in accordance with General Instrument Condition 24 (*Notices*) (the "Crystallisation Event Exercise Notice") or General Note Condition 22 (*Notices*), (the "Crystallisation Event Redemption Notice"), as the case may be, that the Fund Linked Securities shall be so redeemed.

For the avoidance of doubt, if the Fund Linked Securities are redeemed on the Maturity Date (Crystallisation Event) by payment of the Settlement Amount (Crystallisation Event) or the Maturity Date (Crystallisation Event), as the case may be, in respect of each Fund Linked Security, the Settlement Amount (in the case of Instruments) or the Final Redemption Amount (in the case of Notes) specified in the relevant Issue Terms shall not be payable on the Maturity Date.

The Issuer may give more than one Crystallisation Event Exercise Notice or Crystallisation Event Redemption Notice, as the case may be, subject to the above provisions, and the latest valid Crystallisation Event Exercise Notice or Crystallisation Event Redemption Notice, as the case may be, will prevail and the Fund Linked Securities will be redeemed by payment of the Settlement Amount (Crystallisation Event) or Final Redemption Amount (Crystallisation

Event), as the case may be, or determined by reference to the latest valid Crystallisation Event Exercise Notice or Crystallisation Event Redemption Notice, as the case may be.

6. Consequences of an Adjusted NAV Event

If the Calculation Agent determines that an Adjusted NAV Event has occurred, the Calculation Agent may (but shall not be obliged to) take one or more of the actions described in paragraph (i), (ii) or (iii) below, as applicable:

- (i) if the Calculation Agent determines that both an Adjusted NAV Event and a Crystallisation Event have occurred, then (a) the Calculation Agent may make any adjustments to the terms of the Fund Linked Securities pursuant to Fund Linked Condition 5.2(ii) or calculate the Settlement Amount (Crystallisation Event) or Final Redemption Amount (Crystallisation Event), as the case may be, by taking into consideration the Adjusted NAV of the Fund, and (b) all adjustments and/or calculations referred to in sub-paragraph (a) immediately above shall be determined by the Calculation Agent no later than the Adjusted NAV Determination End Date;
- (ii) if the Calculation Agent determines that an Adjusted NAV Event has occurred in respect of a Fund on any day from, and including, a Reference Date to, and including, the Actual Proceeds Observation Date corresponding to such Reference Date, (a) the Calculation Agent shall determine, no later than the Adjusted NAV Determination End Date, the amount(s) payable under the Fund Linked Securities in respect of such Reference Date by reference to the Adjusted NAV of such Fund instead of the NAV of such Fund, and (b) any such amount(s) shall be paid on the tenth Business Day following the Adjusted NAV Determination Date (or if there is an Adjusted NAV Event has occurred in respect of two or more Funds, the latest Adjusted NAV Determination Date to occur); and/or
- (iii) if the Calculation Agent determines that (a) an Early Exercise Event (in the case of Instruments) or an Early Redemption Event (in the case of Notes) has occurred, and (b) an Adjusted NAV Event has occurred in respect of a Fund in respect of the relevant EE Valuation Date or the relevant ER Valuation Date, as the case may be, then (I) the Calculation Agent shall determine, no later than the Adjusted NAV Determination End Date, the Non-scheduled Early Repayment Amount by taking into consideration the Adjusted NAV of such Fund instead of the NAV of such Fund, and (II) such Non-scheduled Early Repayment Amount shall be paid on the tenth Business Day following the Adjusted NAV Determination Date (or if there is an Adjusted NAV Event has occurred in respect of two or more Funds, the latest Adjusted NAV Determination Date to occur).

The date on which a determination is made pursuant to paragraph (i), paragraph (ii)(a) or paragraph (iii)(a) above shall be the "**Adjusted NAV Determination Date**".

7. Definitions

The following terms and expressions shall have the following meanings in relation to Fund Linked Securities to which these Fund Linked Conditions apply:

"Actual Proceeds Observation Date" means, in respect of a Fund and any date, the last day on which a hypothetical investor in such Fund is scheduled to receive the proceeds of redemption of its investment pursuant to the Original Fund Prospectus of such Fund (without giving effect to any gating, deferral, suspension or other provisions permitting such Fund to delay or refuse redemption wholly in cash) if such hypothetical investor has complied with the requirements pursuant to the Original Fund Prospectus so as to redeem its investment at its valuation as of such date.

"Adjusted NAV" means, in respect of a Fund and any day, the net asset value per unit or share of such Fund determined by the Calculation Agent in good faith and in a commercially reasonable manner, taking into account any Crystallisation Event and/or such other factors as the Calculation Agent considers to be appropriate, including, but not limited to:

- (i) market prices or values of shares or other assets in such Fund and other relevant economic variables (such as interest rates, dividend rates, financing costs, the value, price or level of any futures or options relating to shares or assets in such Fund, the volatility of such Fund or other reference asset(s), and exchange rates (if applicable)); and

- (ii) any adjustment of or reduction to the net asset value per unit or share of such Fund, as determined by the Calculation Agent in good faith and in a commercially reasonable manner, by applying its own valuation models, provided that any proceeds from such Fund not received or liquidated in cash by the Adjusted NAV Determination End Date shall be deemed to be zero.

"Adjusted NAV Determination End Date" means in respect of a Fund and an Adjusted NAV Event Date, the Business Day immediately following the earlier of (i) 60 consecutive calendar days following the Actual Proceeds Observation Date in respect of such Fund and such Adjusted NAV Event Date, and (ii) the 60 consecutive calendar days following the final Scheduled Reference Date.

"Adjusted NAV Event" means (and an Adjusted NAV Event shall be deemed to have occurred if), in respect of a Fund, if a Non-full Cash Redemption Proceeds Event is or would have been deemed to be a Crystallisation Event but for the application of proviso (B) to Fund Linked Condition 5.1 (and the date on which the Calculation Agent makes such determination shall be the **"Adjusted NAV Event Date"**).

"AUM" means, in respect of a Fund, the assets under management of the relevant Reference Fund as calculated and published by the relevant Reference Fund or the Fund Service Provider of such Fund, as determined by the Calculation Agent.

"AUM Threshold" means 75 per cent. (75%), unless a different percentage is specified in the relevant Issue Terms.

"AUM(t)" means, in respect of a Fund, the AUM of the relevant Reference Fund in respect of the relevant day.

"Automatic Early Exercise Date" means such date as is specified in the relevant Issue Terms (each, a **"Scheduled Automatic Early Exercise Date"**), provided that if the relevant Applicable Date is adjusted in accordance with the Conditions, the corresponding Automatic Early Exercise Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Exercise Settlement Period Business Days after the Latest Reference Date corresponding to such Applicable Date.

"Automatic Early Redemption Date" means such date as is specified in the relevant Issue Terms (each, a **"Scheduled Automatic Early Redemption Date"**), provided that if the relevant Applicable Date is adjusted in accordance with the Conditions, the corresponding Automatic Early Redemption Date in respect of such Applicable Date will instead be the day falling the number of Business Days equal to the Number of Automatic Early Redemption Settlement Period Business Days after the Latest Reference Date corresponding to such Applicable Date.

"Averaging Date" means, in respect of a Fund, each date specified as such in the relevant Issue Terms, and (i) in the case of Fund Linked Securities linked to a single Fund, if any such day is not a Fund Calculation Day, the next following day that is a Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Averaging Date"**), or (ii) in the case of Fund Linked Securities linked to a Fund Basket, if any such day is not a Common Fund Calculation Day, the next following day that is a Common Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Averaging Date"**), subject to adjustment in accordance with these Fund Linked Conditions.

"Common Fund Calculation Day" means, in respect of a Fund Basket, a day that is a Fund Calculation Day for each of the Funds included in such Fund Basket.

"Common Scheduled Trading Day/Fund Calculation Day" means, in the case of Fund Linked Securities in respect of which "Hybrid Fund and Index Basket" is specified to be applicable, a day that is both (i) a Scheduled Trading Day for each Index, and (ii) a Fund Calculation Day for each Fund, in each case in the Hybrid Fund and Index Basket. For this purpose, "Scheduled Trading Day" has the meaning given to it in the Index Linked Conditions.

"Dealing Charge Threshold" means 0.20 per cent. (0.20%), unless a different percentage is specified in the relevant Issue Terms.

"Early Exercise Date" means the tenth Business Day following the EE Valuation Date, subject to adjustment in accordance with the provisions of Fund Linked Condition 6 (*Consequences of an Adjusted*

NAV Event) if the Calculation Agent determines that an Adjusted NAV Event has occurred in respect of such EE Valuation Date.

"Early Exercise Event" means a Change in Law Event (as defined in General Instrument Condition 20 (*Change in law*)).

"Early Redemption Date" means the tenth Business Day following the ER Valuation Date, subject to adjustment in accordance with the provisions of Fund Linked Condition 6 (*Consequences of an Adjusted NAV Event*) if the Calculation Agent determines that an Adjusted NAV Event has occurred in respect of such ER Valuation Date.

"Early Redemption Event" means a Change in Law Event (as defined in General Note Condition 19 (*Change in law*)).

"EE Valuation Date" means such day as is selected by the Calculation Agent, acting in good faith and in a commercially reasonable manner and specified in the Early Exercise Notice, to determine the Non-scheduled Early Repayment Amount following the occurrence of an Early Exercise Event, provided that such date must fall on or after the date on which the Early Exercise Event occurred and on or after the date of the Early Exercise Notice.

"Entry Level Observation Date" means, in respect of a Fund or a Fund Basket, (i) each date specified as such in the relevant Issue Terms, and (a) in the case of Fund Linked Securities linked to a single Fund, if any such day is not a Fund Calculation Day, the next following day that is a Fund Calculation Day, or (b) in the case of Fund Linked Securities linked to a Fund Basket, if any such day is not a Common Fund Calculation Day, the next following day that is a Common Fund Calculation Day, or (ii) each Entry Level Observation Specified Date falling in the Entry Level Observation Period, each as specified in the relevant Issue Terms and, in each case, subject to adjustment in accordance with the Fund Linked Conditions.

"Entry Level Observation Period" if specified to be applicable, means, in respect of a Fund:

- (a) if the relevant Issue Terms specify the consequence of "Extension", the period commencing on the Entry Level Observation Period Start Date in respect of such Fund, following adjustment of such date pursuant to the Fund Linked Conditions (and including or excluding such Entry Level Observation Period Start Date, as specified in the relevant Issue Terms) and ending on the Entry Level Observation Period End Date for such Fund, following adjustment of such date pursuant to the Fund Linked Conditions (and including or excluding such Entry Level Observation Period End Date, as specified in the relevant Issue Terms); or
- (b) if the relevant Issue Terms specify the consequence of "No Extension", the period commencing on the Entry Level Observation Period Start Date, prior to any adjustment of such date pursuant to the Fund Linked Conditions (and including or excluding such Entry Level Observation Period Start Date for such Fund, as specified in the relevant Issue Terms) and ending on the Entry Level Observation Period End Date for such Fund, prior to any adjustment of such date pursuant to the Fund Linked Conditions (and including or excluding such Entry Level Observation Period End Date, as specified in the relevant Issue Terms),

and in each case, where the Securities relate to a Fund Basket, there shall be a separate Entry Level Observation Period in respect of each Fund in the Fund Basket.

"Entry Level Observation Period End Date" means, in respect of a Fund, the date specified as such in the relevant Issue Terms (which, for the avoidance of doubt, may be an Initial Valuation Date), which shall be the last day of the Entry Level Observation Period in respect of such Fund, and shall be included or excluded from the Entry Level Observation Period, as specified in the relevant Issue Terms.

"Entry Level Observation Period Start Date" means, in respect of a Fund, the date specified as such in the relevant Issue Terms (which, for the avoidance of doubt, may be an Initial Valuation Date), which shall be the first day of the Entry Level Observation Period in respect of such Fund, and shall be included or excluded from the Entry Level Observation Period, as specified in the relevant Issue Terms.

"Entry Level Observation Specified Date" means, if Entry Level Observation Period is specified to be applicable in the relevant Issue Terms, either:

- (a) **"Fund Calculation Day"**, in respect of each Fund, each Fund Calculation Day for such Fund falling in the Entry Level Observation Period; or
- (b) **"Common Fund Calculation Day"**, in respect of each Fund in the Fund Basket, each Common Fund Calculation Day falling in the Entry Level Observation Period.

"ER Valuation Date" means such day as is selected by the Calculation Agent, acting in good faith and in a commercially reasonable manner and specified in the Early Redemption Notice, to determine the Non-scheduled Early Repayment Amount following the occurrence of an Early Redemption Event, provided that such date must fall on or after the date on which the Early Redemption Event occurred and on or after the date of the Early Redemption Notice.

"Final Redemption Amount (Crystallisation Event)" means, in respect of each Note (of the Specified Denomination), an amount in the Specified Currency equal to the *sum* of (i) (a) if a Protection Level is specified in the relevant Issue Terms, the *product* of (I) the Specified Denomination, *multiplied* by (II) the Protection Level, otherwise (b) zero, *plus* (ii) the Option Value, *plus* (iii) the Option Value Accrued Interest.

"First Entry Level Observation Date" means such date as specified in the relevant Issue Terms, or if such day is not a Fund Calculation Day for a Fund or a Common Fund Calculation Day, the first following Fund Calculation Day for such Fund or Common Fund Calculation Day, as specified in the relevant Issue Terms.

"Fund" means, subject to adjustment and/or substitution in accordance with these Fund Linked Conditions, each fund specified in the relevant Issue Terms, and related expressions shall be construed accordingly.

"Fund Basket" means a basket composed of Funds, as specified in the relevant Issue Terms.

"Fund Calculation Day" means, in respect of a Fund, a day on which the NAV of such Fund is scheduled to be calculated and reported by such Fund or the Fund Service Provider of such Fund, as determined by the Calculation Agent.

"Fund Prospectus" means, in respect of a Fund and any relevant date, the prospectus of such Fund as of the Trade Date, as amended, updated and/or supplemented from time to time up to, and including, such date.

"Fund Market Disruption Day" means, in respect of a Fund, any Fund Calculation Day for such Fund on which a Fund Market Disruption Event in respect of such Fund has occurred or is continuing.

"Fund Market Disruption Event" means, in respect of a Fund, (a) a suspension or limitation of subscriptions or redemptions in such Fund on any Fund Calculation Day, or (b) a failure to receive valuations for (which, for the avoidance of doubt, shall include the non-publication or non-availability of the NAV or any relevant net asset value) such Fund on any Fund Calculation Day, as determined by the Calculation Agent in good faith and in a commercially reasonable manner, and provided that, if the Calculation Agent, acting in good faith and in a commercially reasonable manner, determines that any event amounts to both a Fund Market Disruption Event and also a Crystallisation Event, then the Calculation Agent may in its discretion determine that such event shall be a Crystallisation Event and that the provisions of Fund Linked Condition 5 (*Consequences of a Crystallisation Event*) shall apply to such event, and that the provisions of Fund Linked Condition 1 (*Consequences of Fund Market Disruption Days*) shall not apply to such event.

"Fund Market Disruption Event End Date" means, in respect of a Fund, the day on which the relevant Fund Market Disruption Event in respect of such Fund ceases to exist.

"Fund Reference Price" means, in respect of a Fund and any relevant date, the NAV of such Fund for such date, adjusted to account for any subscription or redemption costs or dealing charges that would have been charged to the Issuer and/or any of its affiliate(s) by such Fund, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

"Fund Service Provider" means, in respect of a Fund, any person who is appointed to provide services, directly or indirectly, for such Fund, including the investment manager, investment adviser, fund

administrator, trustee, depository, custodian, prime broker, registrar, transfer agent, and any other person specified as such in the relevant Fund Prospectus.

"Fund Service Provider Agreement" means, in respect of a Fund, an agreement entered into by, or on behalf of, such Fund and a Fund Service Provider of such Fund.

"Holding Threshold" means 10 per cent. (10%), unless a different percentage is specified in the relevant Issue Terms.

"Hybrid Fund and Index Basket" means a basket composed of one or more Funds and one or more Indices, as specified in the relevant Issue Terms.

"Initial Averaging Date" means each date specified as such in the relevant Issue Terms, and (i) in the case of Fund Linked Securities linked to a single Fund, if any such day is not a Fund Calculation Day, the next following day that is a Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Initial Averaging Date"**), or (ii) in the case of Fund Linked Securities linked to a Fund Basket, if any such day is not a Common Fund Calculation Day, the next following day that is a Common Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Initial Averaging Date"**), subject to adjustment in accordance with these Fund Linked Conditions.

"Initial Valuation Date" means in respect of a Fund (and, in respect of (iii) below, an Index), each date specified as such in the relevant Issue Terms, and (i) in the case of Fund Linked Securities linked to a single Fund, if any such day is not a Fund Calculation Day, the next following day that is a Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Initial Valuation Date"**), subject to adjustment in accordance with these Fund Linked Conditions, or (ii) in the case of Fund Linked Securities linked to a Fund Basket, if any such day is not a Common Fund Calculation Day, the next following day that is a Common Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Initial Valuation Date"**), subject to adjustment in accordance with these Fund Linked Conditions, or (iii) in the case of Fund Linked Securities in respect of which "Hybrid Fund and Index Basket" is specified to be applicable in the relevant Issue Terms, if any such day is not a Common Scheduled Trading Day/Fund Calculation Day, the next following day that is a Common Scheduled Trading Day/Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Initial Valuation Date"**), subject to adjustment in accordance with these Fund Linked Conditions (in the case of a Fund) and the Index Linked Conditions (in the case of an Index).

"Last Averaging Date" means, in respect of a Fund, the Averaging Date for such Fund scheduled to fall on the date specified as the "Last Averaging Date" in the relevant Issue Terms.

"Last Initial Averaging Date" means, in respect of a Fund, the Initial Averaging Date for such Fund scheduled to fall on the date specified as the "Last Initial Averaging Date" in the relevant Issue Terms.

"Latest Reference Date" means, (i) in the case of Fund Linked Securities linked to a single Fund and a Reference Date, such Reference Date, or (ii) in the case of Fund Linked Securities linked to a Fund Basket and a Reference Date, (a) if as a result of the occurrence of a Fund Market Disruption Day for one or more Funds in such Fund Basket, such Reference Date for one or more Funds falls on different dates, the latest of such dates to occur, or (b) if such Reference Date for all of the Funds falls on the same date (after adjustment, if any, for Fund Market Disruption Days for such Funds), such same date corresponding to such Reference Date, or (iii) in the case of Fund Linked Securities in respect of which "Hybrid Fund and Index Basket" is specified to be applicable in the relevant Issue Terms, (a) if as a result of the occurrence of a Fund Market Disruption Day for one or more Funds or a Disrupted Day for one or more Indices in such Hybrid Fund and Index Basket, such Reference Date for one or more Funds and/or Indices falls on different dates, the latest of such dates to occur, or (b) if such Reference Date for all of the Funds and Indices falls on the same date (after adjustment, if any, for Fund Market Disruption Days for the relevant Funds and/or Disrupted Days for the relevant Indices), such same date corresponding to such Reference Date. For this purpose, each of "Disrupted Day" and "Reference Date", in each case in relation to an Index, has the meaning given to it in the Index Linked Conditions.

"Maturity Date" means the later of (i) the Scheduled Maturity Date specified in the relevant Issue Terms, and (ii) the last Business Day in the Maturity Settlement Period following the Latest Reference Date in respect of the Relevant Determination Date, subject to adjustment pursuant to the provisions of Fund

Linked Condition 5 (*Consequences of a Crystallisation Event*) and/or Fund Linked Condition 6 (*Consequences of an Adjusted NAV Event*), as applicable.

"Maturity Date (Crystallisation Event)" means the later of (i) the Scheduled Maturity Date or such later date as determined by the Calculation Agent, provided that such later date shall not be later than the tenth Business Day after the date on which the Crystallisation Event Exercise Notice (in the case of Instruments) or the Crystallisation Event Redemption Notice (in the case of Notes) is given, and (ii) if an Adjusted NAV Event occurred, the tenth Business Day following the Adjusted NAV Determination Date (or if there is an Adjusted NAV Event in respect of two or more Funds, the latest Adjusted NAV Determination Date to occur).

"Maturity Settlement Period" means five Business Days, unless a different number of Business Days is specified in the relevant Issue Terms.

"Maximum AUM" means, in respect of a Fund and any relevant day and the relevant Reference Fund, the highest AUM (which may include any estimated AUM by the Calculation Agent) in the six-month period ending on the day immediately preceding such day.

"Maximum NAV" means, in respect of a Fund and any relevant day, the highest NAV (which may include any estimated net asset value by the Calculation Agent) of such Fund in the six-month period ending on the day immediately preceding such day.

"NAV" means, in respect of a Fund, the net asset value per unit or share of such Fund as calculated and reported by such Fund or the Fund Service Provider of such Fund.

"NAV Threshold" means, in respect of a Fund, 85 per cent. (85%), unless a different percentage is specified in the relevant Issue Terms.

"NAV(t)" means, in respect of a Fund, the NAV of such Fund in respect of the relevant day.

"Non-full Cash Redemption Proceeds Event" shall have the meaning given to it in sub-paragraph (iv) (*Non-full Cash Redemption Proceeds Event*) in the definition of "Potential Crystallisation Event".

"Observation Date (closing valuation)" means, in respect of (i) in respect of Fund Linked Securities linked to a single Fund, and (a) an Observation Period that is not an Autocall Observation Period, each Fund Calculation Day falling in such Observation Period regardless of whether such day is a Fund Market Disruption Day, or (b) an Autocall Observation Period, each Fund Calculation Day falling in such Autocall Observation Period which is not a Fund Market Disruption Day, or (ii) in respect of Fund Linked Securities linked to a Fund Basket, and (a) an Observation Period that is not an Autocall Observation Period, each Common Fund Calculation Day falling in such Observation Period regardless of whether such day is a Fund Market Disruption Day for any Fund in the Fund Basket, or (b) an Autocall Observation Period, each Fund Calculation Day falling in such Autocall Observation Period which is not a Fund Market Disruption Day for any Fund in the Fund Basket.

"Observation Period" means, in respect of a Fund, a Barrier Observation Period, a Trigger Observation Period, an Autocall Observation Period or a Coupon Barrier Observation Period.

"Option" means, in respect of a Fund Linked Security, the option component or embedded derivative(s) in respect of the Nominal Amount (in the case of Instruments) or the Specified Denomination (in the case of Notes) which provides exposure to the Fund or each Fund in the Fund Basket or other reference asset(s), as the case may be, the terms of which are fixed on the Issue Date in order to enable the Issuer to issue such Fund Linked Security at the relevant price and on the relevant terms, all as determined by the Calculation Agent in a commercially reasonable manner and acting in good faith. For the avoidance of doubt, the bond component in respect (if any) of the Nominal Amount (in the case of Instruments) or the Specified Denomination (in the case of Notes) of the Fund Linked Securities is excluded from the Option.

"Option Value" means, in respect of each Fund Linked Security, the value (if any) of the Option, subject to a minimum of zero, as calculated by the Calculation Agent on such day and time as selected by the Calculation Agent at or around the date the Crystallisation Event Exercise Notice or the Crystallisation Event Redemption Notice, as the case may be, is given by reference to such factors as the Calculation Agent considers to be appropriate including, without limitation:

- (A) market prices or values of shares or other assets in the Fund or each Fund in the Fund Basket, as the case may be, and other relevant economic variables (such as interest rates, dividend rates, financing costs, the value, price or level of any futures or options relating to shares or other assets in the Fund or each Fund in the Fund Basket, as the case may be, the volatility of the Fund or each Fund in the Fund Basket, as the case may be, or other reference asset(s) and exchange rates (if applicable));
- (B) the time remaining to maturity of such Fund Linked Security had it remained outstanding to scheduled maturity;
- (C) internal pricing models;
- (D) prices at which other market participants might bid for the Option, which for the avoidance of doubt may take into account, but not limited to, the actual or anticipated subscription or redemption costs or dealing charges in relation to the Affected Underlying Fund, and
- (E) the event leading to the determination of the Option Value,

and converted into the Settlement Currency (in the case of Instruments) or the Specified Currency (in the case of Notes) at a rate of exchange determined by the Calculation Agent in a commercially reasonable manner. If an Adjusted NAV Event has occurred pursuant to an occurrence of a Non-full Cash Redemption Proceeds Event, then such determination of the Option Value shall be subject to adjustment in accordance with the provisions of Fund Linked Condition 6 (Consequences of an Adjusted NAV Event).

"Option Value Accrued Interest" means, in respect of each Fund Linked Security, an amount in the Settlement Currency or Specified Currency (as applicable) equal to the sum of the interest amounts calculated in respect of each day in the period commencing on, but excluding, the day on which the Option Value is determined and ending on, but excluding, the Scheduled Maturity Date, where each such interest amount is determined as the *product* of (i) the Option Value, (ii) an overnight interest rate or an achievable market rate of interest for the Settlement Currency or Specified Currency (as applicable) and the relevant day and (iii) a day count fraction customary for calculation of overnight interest in respect of the Settlement Currency (in the case of Instruments) or the Specified Currency (in the case of Notes), all as determined by the Calculation Agent in a commercially reasonable manner and acting in good faith.

"Original Fund Prospectus" means, in respect of a Fund, the prospectus of such Fund as of the Trade Date (including any supplements up to such date), excluding any subsequent amendments, updates and/or supplements.

"Potential Adjustment Event" means, in respect of a Fund, any of the following events, as determined by the Calculation Agent:

- (i) a subdivision, consolidation or reclassification of the relevant number of units, shares or interests of such Fund or amount of such unit, share or interest, or a free distribution or dividend by such Fund to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of such Fund of (a) an additional amount per unit, share or interest of such Fund, or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of such Fund or of another issuer acquired or owned (directly or indirectly) by such Fund as a result of spin-off or (c) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (iii) an extraordinary dividend as determined by the Calculation Agent;
- (iv) a repurchase by such Fund whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption of such Fund initiated by an investor of such Fund; or
- (v) any other event that may have a diluting or concentrative effect on the theoretical value of such Fund as determined by the Calculation Agent.

provided that if the relevant Issue Terms specify "Extraordinary Dividend – Non-Potential Adjustment Event" to be applicable, and if the Calculation Agent determines that any such event constitutes and/or will amount to an extraordinary dividend, the Calculation Agent may determine that such event shall not constitute a Potential Adjustment Event.

"Potential Crystallisation Event" means the occurrence of any of the following events listed specified as applicable in the relevant Issue Terms in relation to a Fund, as determined by the Calculation Agent:

- (i) *Winding-Up of a Fund or Investment Adviser*: either (a) such Fund or its investment adviser is unable to pay its debts as they fall due or otherwise becomes insolvent or goes into liquidation (other than for the purpose of reconstruction or amalgamation) or if a liquidator, administrator or equivalent is appointed in respect of such party or a substantial part of its assets or (b) such Fund is the subject of a court order for its winding up or liquidation or other cessation of trading of such Fund or any units or shares issued by such Fund;
- (ii) *Fund Service Provider and Fund Agreements*: any of (a) the termination of the relevant Fund Service Provider Agreement, unless a replacement Fund Service Provider has been appointed, (b) the breach of any contractual obligations by a Fund Service Provider under the relevant Fund Service Provider Agreement which results in an increase in any of the costs or fees from that set out in the relevant Original Fund Prospectus, (c) in respect of the investment management or investment advisory agreement, any actual or potential termination of the investment management or investment advisory agreement, in each case, as notified by the management company or directors of such Fund or (d) any other significant change from that set out in the relevant Original Fund Prospectus, which would have significant impact on the investors, including (but not limited to) change in currency, incorporation, domicile, or a significant change in any Fund Service Provider including any of the affiliates of the investment manager or investment adviser taking over such duties;
- (iii) *Key individuals*: one or more key individuals involved with, or having supervision over, a Fund Service Provider ceases to act in such capacity and the relevant Fund Service Provider fails to appoint a replacement having similar qualifications to those of the key individual(s) ceasing to act;
- (iv) *Non-full Cash Redemption Proceeds Event*: such Fund, or the Fund Service Provider acting on behalf of such Fund, to effect subscriptions and redemptions in units or shares issued by such Fund, fails to accept or execute subscriptions or redemptions wholly in cash and/or in accordance with any settlement schedule provided in the relevant Original Fund Prospectus, (which, for the avoidance of doubt, shall disregard any gating, deferral, suspension or other provisions permitting such Fund to delay or refuse redemption in full) (including the Calculation Agent becoming aware that the redemption proceeds that would be paid to an investor (being a financial institution or its affiliates based in the same jurisdiction as the Issuer) of such Fund in respect of redemption of a fund share differs from the NAV of such fund share), as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner;
- (v) *Application of Recurrent Cost and Charges on a Fund*: in respect of any day, the aggregate subscription or redemption costs or dealing charges incurred by the Issuer and/or any of its affiliates over the preceding twelve-month period ending on the day immediately preceding such day, relating to the units or shares issued by such Fund, exceeds an amount equal to the aggregate of the Dealing Charge Threshold of the NAV of each unit or share of such Fund that is subscribed for, redeemed or otherwise dealt with by the Issuer and/or any of its affiliates in unwinding, maintaining or establishing a hedge in respect of the Fund Linked Securities;
- (vi) *Agreements with the Issuer and/or its Affiliates*: any actual or potential termination, removal or unilateral amendment by any party of any agreement or arrangement made by the Issuer and/or any of its affiliates in respect of a Fund, or amendments to fee levels of various share classes of such Fund, which results in either (a) the Issuer and/or any of its affiliates becoming liable to (I) an increase in any costs or fees related to trading or holding units or shares of the Fund specified in the Original Fund Prospectus, or (II) any entry and/or exit fees related to trading units or shares of the Fund; or (b) breach of any terms and/or the early termination by a counterparty to any agreement or arrangement (including, but not limited to, any cooperation agreement or swap agreement) made by the Issuer and/or any of its affiliates in respect of such

Fund (including, but not limited to, any failure by a counterparty to pay any fee rebate or other payment owed to the Issuer and/or any of its affiliates under such agreement);

- (vii) *Dealing Restrictions*: any of (a) a decrease in the frequency of dealing in any units or shares issued by such Fund from the frequency stipulated in relation to such Fund in the relevant Original Fund Prospectus, (b) the imposition of any dealing restrictions in relation to any units or shares issued by such Fund not specified in the relevant Original Fund Prospectus including, without limitation, a minimum or maximum dealing size (including any increase in dealing size, whether or not applicable solely to the Issuer and/or any of its affiliates), a delay (partial or otherwise) in dealing, an extension of the notice period, or material change in the notice times, for dealing, a suspension or termination of subscription, redemption (including by way of redemption in specie) or settlement, (c) a failure by such Fund to accept subscriptions or execute redemptions in full, (d) any comparable restriction imposed on any similar method for increasing or decreasing exposure to such Fund not specified in the relevant Original Fund Prospectus;
- (viii) *Reporting Disruption Event*: either (a) the occurrence of any event affecting the units or shares of a Fund that in the determination of the Calculation Agent acting in good faith and in a commercially reasonable manner would make it impossible for the Calculation Agent to determine the value of such units or shares, or (b) any failure by such Fund or a Fund Service Provider to deliver information or valuation that such Fund has agreed to deliver (including the non-publication or non-availability of the NAV or any relevant net asset value by such Fund or the relevant Fund Service Provider that it is obliged to deliver), in each case, where such event is occurring or subsisting in respect of at least five consecutive Fund Calculation Days;
- (ix) *Breach of Investment Guidelines and Restrictions*: any material deviation from the investment guidelines or breach of the investment restrictions of such Fund set out in relation to such Fund in the relevant Original Fund Prospectus;
- (x) *Change to Investment Guidelines or Investment Style*: either (a) an official, announced, material change to the investment guidelines of such Fund which changes the investment objective of such Fund as specified in the relevant Original Fund Prospectus or (b) a material change to the investment style and/or risk level of such Fund;
- (xi) *Regulatory or Legal Action*: regulatory action, litigation, dispute or legal proceedings against such Fund, or its investment adviser or any Fund Service Provider of such Fund that has a material adverse effect on the functioning, operations, inflows or outflows of such Fund;
- (xii) *Loss of licence or Authority*: such Fund, or its investment adviser or any Fund Service Provider of such Fund (a) loses any relevant licence or new conditions are imposed on such licence or (b) has any regulatory authorisation, registration or approval cancelled, suspended, revoked or removed for whatever reason, which has a material adverse effect on the functioning, operations, inflows or outflows of such Fund;
- (xiii) *Regulatory Event*: either (a) the Calculation Agent determines at any time, acting in good faith and in a commercially reasonable manner, that as a result of (I) the adoption of or any change in any relevant law or regulation (or any interpretation thereof) or any change to the regulatory capital treatment of the Issuer and/or any of its affiliates or its obligations under the Fund Linked Securities or any hedging transactions in respect of the Fund Linked Securities, (II) the promulgation of or any change in the interpretation by any court, tribunal, government or regulatory authority with competent jurisdiction of any relevant law or regulation (including without limitation the Wall Street Transparency and Accountability Act of 2010), or (III) the public or private statement or action by, or response of, any relevant authority or regulatory agency or any official or representative thereof acting in an official capacity, in each case from the circumstances in existence as at the Trade Date, (A) the regulatory treatment of the Issuer and/or any of its affiliates in respect of its obligations under or exposure to the Fund Linked Securities or such Fund or any hedging transactions in respect of the Fund Linked Securities or such Fund has become materially less favourable to the Issuer and/or any of its affiliates than was originally contemplated, (B) the Issuer and/or any of its affiliates have incurred or there is a reasonable likelihood that the Issuer and/or any of its affiliates will incur a materially increased cost, or will be subject to materially increased regulatory capital requirements, in the

performance of its obligations under or execution of any hedging transactions in respect of the Fund Linked Securities or such Fund (including any increase in capital charges or decrease in capital or capital ratios) than was originally contemplated or (C) that the Issuer and/or any of its affiliates will incur an obligation to post margin or other collateral, or the ability of the Issuer and/or any of its affiliates to perform its obligations under or execution of any hedging transactions in respect of the Fund Linked Securities or such Fund would otherwise be materially adversely affected; or (b) due to the promulgation of any rule, regulation or guideline under the Dodd-Frank Wall Street Reform and Consumer Protection Act (including, without limitation, Section 619 thereof), the Issuer determines in good faith that, (I) it is or will within the next 30 calendar days become illegal and/or a breach of any rule or guideline for it to purchase or hold interest in such Fund, or to perform its obligations under or to execute any hedging transactions in respect of the Fund Linked Securities or such Fund; (II) continuing to perform its obligations under or to execute any hedging transactions in respect of the Fund Linked Securities or such Fund will impose significant unanticipated costs or compliance burdens on it and/or its affiliates; and/or (III) there is or will within the next 30 calendar days be a material restriction on it purchasing or holding interest in such Fund or performing its obligations under or executing any hedging transactions in respect of the Fund Linked Securities or such Fund;

- (xiv) *Tax Event*: any change in tax law or interpretation of tax law which would affect payments made to investors in, or an investor having exposure to, such Fund;
- (xv) *Maximum AUM Event*: on any day at any time, the total exposure of the Issuer and/or any of its affiliates to the relevant Reference Fund (in physical and synthetic form) is greater than the Holding Threshold of the AUM of the relevant Reference Fund, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner;
- (xvi) *Material Adverse Fund Event*: In respect of an Fund on any relevant day, as determined by the Calculation Agent, any of the following specified as applicable in the relevant Issue Terms occurs:
 - (a) Material Adverse Fund Event 1: the quotient of (I) the NAV(t) of such Fund, divided by (II) the Maximum NAV of such Fund, is less than the NAV Threshold, adjusted for any Potential Adjustment Event, as determined by the Calculation Agent;
 - (b) Material Adverse Fund Event 2: the quotient of (I) the AUM(t) of such Fund, divided by (II) the Maximum AUM of such Fund, is less than the AUM Threshold, adjusted for any Potential Adjustment Event, as determined by the Calculation Agent;
 - (c) Material Adverse Fund Event 3: the annualised daily realised volatility of such Fund calculated over the six-month period ending on the day immediately preceding such day is greater than the Volatility Threshold, as determined by the Calculation Agent;
 - (d) Material Adverse Fund Event 4: the AUM(t) of such Fund is less than the AUM Threshold, adjusted for any Potential Adjustment Event, as determined by the Calculation Agent;
 - (e) Material Adverse Fund Event 5: the absolute *difference* between (I) the annualised daily realised volatility of such Fund calculated over the six-month period ending on the day immediately preceding such day; and (II) the lesser of (A) the Volatility Percentage and (B) the annualised daily realised volatility of the Volatility Reference Asset calculated over the same period of time is greater than the Volatility Threshold, as determined by the Calculation Agent.

"Protection Level" has the meaning given in the Payout Conditions, provided that if a Protection Level is not specified in the relevant Issue Terms, the Protection Level shall be zero for the purposes of these Fund Linked Conditions.

"Reference Date" means in respect of a Fund, each Initial Valuation Date, Initial Averaging Date, an Entry Level Observation Period Date or Valuation Date, in each case, subject to adjustment in accordance with these Fund Linked Conditions.

"Reference Fund" means, in respect of a Fund, the fund specified as the "Reference Fund" in respect of such Fund in the relevant Issue Terms.

"Scheduled Reference Date" means in respect of a Fund, any original date that, but for such day being a Fund Market Disruption Day for such Fund, would have been an Initial Valuation Date, an Initial Averaging Date, an Entry Level Observation Date or a Valuation Date, as the case may be.

"Settlement Amount (Crystallisation Event)" means, in respect of an Instrument (of the Nominal Amount), an amount in the Settlement Currency equal to the sum of (i) (a) if a Protection Level is specified in the relevant Issue Terms, the *product* of (I) the Nominal Amount, *multiplied* by (II) the Protection Level, otherwise (b) zero, *plus* (ii) the Option Value, *plus* (iii) the Option Value Accrued Interest.

"Substitution Date" means the date as determined by the Calculation Agent on which the replacement of an Affected Fund with a Substitution Asset and any relevant adjustments to the terms of the Fund Linked Securities shall be deemed to be effective.

"Trade Date" means the date specified as such in the relevant Issue Terms.

"Valuation Date" means in respect of a Fund (and, in respect of (iii) below, an Index), each date specified as such in the relevant Issue Terms, and (i) in the case of Fund Linked Securities linked to a single Fund, if any such day is not a Fund Calculation Day, the next following day that is a Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Valuation Date"**), subject to adjustment in accordance with these Fund Linked Conditions, or (ii) in the case of Fund Linked Securities linked to a Fund Basket, if any such day is not a Common Fund Calculation Day, the next following day that is a Common Fund Calculation Day (each such day, following such adjustment, a **"Scheduled Valuation Date"**), subject to adjustment in accordance with these Fund Linked Conditions, or (iii) in the case of Fund Linked Securities in respect of which "Hybrid Fund and Index Basket" is specified to be applicable in the relevant Issue Terms, if any such day is not a Common Scheduled Trading Day/Fund Calculation Day, the next following day that is a Common Scheduled Trading Day/Fund Calculation Day (each such day, following such adjustment, a "Scheduled Valuation Date"), subject to adjustment in accordance with these Fund Linked Conditions (in the case of a Fund) and the Index Linked Conditions (in the case of an Index).

"Volatility Threshold" means 10 per cent. (10%), unless a different percentage is specified in the relevant Issue Terms.

"Volatility Percentage" means 15 per cent. (15%), unless a different percentage is specified in the relevant Issue Terms.

"Volatility Reference Asset" means the reference asset specified as such in the relevant Issue Terms.

INTRODUCTION TO THE MULTI-ASSET BASKET LINKED CONDITIONS

The following introduction to, and overview of, the Multi-Asset Basket Linked Conditions is only a description and overview of the actual Multi-Asset Basket Linked Conditions set forth herein, and is only intended to be a guide to potential purchasers to facilitate a general understanding of such provisions. Accordingly, this overview must be read only as an introduction to the actual Multi-Asset Basket Linked Conditions and any decision to purchase Multi-Asset Basket Linked Instruments should be based on a consideration of the Base Prospectus as a whole, including the actual Multi-Asset Basket Linked Conditions (as may be completed by the relevant Issue Terms).

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk Factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Index Linked Securities on page 549 and Share Linked Securities on pages 71 to 74.

Payments, Scheduled Trading Days and Disrupted Days

Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Multi-Asset Basket Linked Instruments will be calculated by reference to the price or level of two or more **Shares** or **Indices** (or both) (the "**Underlying Assets**") in a Multi-Asset Basket or a formula based upon the price or level of two or more Underlying Assets at a specified time or times on one or more Reference Dates or Averaging Reference Dates (as set out in the Issue Terms).

However, it may not be possible or practical for the Calculation Agent to determine the price or level of an Underlying Asset at a specified time on a Reference Date or Averaging Reference Date if such date:

- is not a **Scheduled Trading Day**; or
- is a Disrupted Day.

For the meanings of **Scheduled Trading Day** and **Disrupted Day** respectively in relation to an Underlying Asset that is:

- a Share, please refer to the section entitled "Introduction to the Share Linked Conditions" above; and
- an Index, please refer to the section entitled "Introduction to the Index Linked Conditions" above.

Potential Postponement of Reference Date or Averaging Reference Date

In the circumstances described above, the Reference Date or Averaging Reference Date may, or may not, be postponed until a day on which the price or level of the relevant Underlying Asset is published or can otherwise be determined by the Calculation Agent, subject to a long-stop date (designated by reference to the term "**Maximum Days of Disruption**") by which a price must be determined for the purpose of calculating the payments in respect of the Multi-Asset Basket Linked Instruments.

The occurrence of a Scheduled Trading Day or a Disrupted Day may differ in respect of two or more Underlying Assets in a Multi-Asset Basket, and in such circumstances, the Reference Date or Averaging Reference Date for such Underlying Assets may remain different or may be postponed so that each Underlying Asset in the Multi-Asset Basket has the same Reference Date or Averaging Reference Date.

Overview of Consequences

The Multi-Asset Basket Linked Conditions define the circumstances in which the determination of a price or level of Underlying Assets may be postponed and stipulate how such prices or levels should be determined by reference to Multi-Asset Basket Linked Instruments that relate to Reference Dates or Averaging Reference Dates.

The following overviews set out the default consequence in respect of each type of Multi-Asset Basket Linked Instrument if the Scheduled Reference Date or Scheduled Averaging Reference Date is not a Scheduled Trading Day for all the Underlying Assets in the Multi-Asset Basket or is a Disrupted Day for one or more Underlying Assets in the Multi-Asset Basket, though such overviews are subject to, and must be read in conjunction with, the more detailed contents of the Multi-Asset Basket Linked Conditions.

Calculation Agent Determinations and Calculations

The Calculation Agent, which will be Goldman Sachs International (unless another entity is specified in the relevant Issue Terms), may be required to make certain determinations and calculations pursuant to the Multi-Asset Basket Linked Conditions relating to, among others, the occurrence of a Scheduled Trading Day or a Disrupted Day, the calculation of a Closing Share Price (in the case the Underlying Asset is a Share) or a Closing Index Level (in the case the Underlying Asset is an Index), the occurrence, and materiality, of a Potential Adjustment Event, an Extraordinary Event or a Change in Law (such terms are described in section entitled "Introduction to the Share Linked Conditions" above (in the case the Underlying Asset is a Share) and section entitled "Introduction to the Index Linked Conditions" above (in the case the Underlying Asset is an Index)), adjustments to the terms and conditions of Multi-Asset Basket Linked Instruments following the occurrence of such events and the calculation of early redemption amounts. In all circumstances, the Calculation Agent must make such determinations and calculations in good faith and in a commercially reasonable manner.

Multi-Asset Basket and Averaging Reference Dates – Common Trading Day but Individual Disrupted Day

If the Scheduled Averaging Reference Date for any Underlying Asset is not a Common Trading Day or is a Disrupted Day, then one of the following three options may be selected:

- (a) **Postponement** – (i) if the Scheduled Averaging Reference Date is a Scheduled Trading Day for each Underlying Asset in a Multi-Asset Basket (the "**Common Trading Day**") and not a Disrupted Day, then such Scheduled Averaging Reference Date will be the Averaging Reference Date for each Underlying Asset, and (ii) if (A) the Scheduled Reference Date is a Common Trading Day but is a Disrupted Day for one or more Underlying Assets, or (B) if the Scheduled Averaging Reference Date is not a Common Trading Day, in which case the Averaging Reference Date for each Underlying Asset will be the first succeeding Common Trading Day, provided that:
 - (1) if such Common Trading Day is not a Disrupted Day for an Underlying Asset, then such Common Trading Day will be the Averaging Reference Date for such Underlying Asset; and
 - (2) if such Common Trading Day is a Disrupted Day for an Underlying Asset, then the Averaging Reference Date for such Underlying Asset will be the first succeeding Scheduled Trading Day that is not a Disrupted Day for such Underlying Asset, with a standard long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Share Price or Index Level (as the case may be) of such Underlying Asset.
- (b) **Modified Postponement** – (i) if the Scheduled Averaging Reference Date is a Scheduled Trading Day for each Underlying Asset in a Multi-Asset Basket (the "**Common Trading Day**") and not a Disrupted Day, then such Scheduled Averaging Reference Date will be the Averaging Reference Date for each Underlying Asset, and (ii) if (A) the Scheduled Averaging Reference Date is a Common Trading Day but is a Disrupted Day for one or more Underlying Assets, or (B) if the Scheduled Averaging Reference Date is not a Common Trading Day, in which case the Averaging Reference Date for each Underlying Asset will be the first succeeding Common Trading Day that is not another Averaging Reference Date, provided that:
 - (1) if such Common Trading Day is not a Disrupted Day for an Underlying Asset, then such Common Trading Day will be the Averaging Reference Date for such Underlying Asset; and

- (2) if such Common Trading Day is a Disrupted Day for an Underlying Asset, then the Averaging Reference Date for such Underlying Asset will be the first Valid Date, i.e. a Scheduled Trading Day that is not a Disrupted Day and is not another Averaging Reference Date, subject to a long-stop date of eight Scheduled Trading Days, upon which the Calculation Agent will determine the Share Price or the Index Level (as the case may be).
- (c) **No Adjustment** – the Scheduled Averaging Reference Date for each Underlying Asset will be the Averaging Reference Date, and the Calculation Agent shall determine the Share Price or Index Level (as the case may be) on the Scheduled Averaging Reference Date.

Multi-Asset Basket and Averaging Reference Dates – Common Trading Day and Common Disrupted Day

If the Scheduled Averaging Reference Date is not a Scheduled Trading Day for all the Underlying Assets in a Multi-Asset Basket (a "**Common Trading Day**") or is a Disrupted Day for one or more Underlying Assets in such Multi-Asset Basket (a "**Common Disrupted Day**"), then one of the following three options may be selected:

- (a) **Postponement** – the Averaging Reference Date for each Underlying Asset will be the first succeeding Common Trading Day that is not a Common Disrupted Day, subject to a standard long-stop date of eight Common Trading Days (or such other number of Common Trading Days as specified in the Issue Terms). In such circumstances,
 - (i) the last consecutive Common Trading Day shall be the Averaging Reference Date for each Underlying Asset;
 - (ii) if the last consecutive Common Trading Day is not a Disrupted Day for an Underlying Asset, then the relevant price or level of such Underlying Asset will be determined by reference to screen pages; and
 - (iii) if the last consecutive Common Trading Day is a Disrupted Day for an Underlying Asset, then the Calculation Agent shall determine the relevant Closing Share Price or Closing Index Level (as the case may be) of such Underlying Asset,
- (b) **Modified Postponement** – the Averaging Reference Date for each Underlying Asset will be the first **Common Valid Date**, i.e. a Common Trading Day that is not a Common Disrupted Day, and which is not another Averaging Reference Date, subject to a standard long-stop date of eight Common Trading Days (or such other number of Common Trading Days as specified in the Issue Terms). In such circumstances,
 - (i) the last consecutive Common Trading Day shall be the Averaging Reference Date for each Underlying Asset;
 - (ii) if the last consecutive Common Trading Day is not a Disrupted Day for an Underlying Asset, then the relevant price or level of such Underlying Asset will be determined by reference to screen pages; and
 - (iii) if the last consecutive Common Trading Day is a Disrupted Day for an Underlying Asset, then the Calculation Agent shall determine the relevant Closing Share Price or Closing Index Level (as the case may be) of such Underlying Asset.
- (c) **No Adjustment** – the Scheduled Averaging Reference Date for each Underlying Asset will be the Averaging Reference Date, and the Calculation Agent shall determine the relevant Closing Share Price or Closing Index Level (as the case may be) of each Underlying Asset on the Scheduled Averaging Reference Date.

Multi-Asset Basket and Reference Dates – Common Trading Day but Individual Disrupted Day

- (a) If the Scheduled Reference Date is a Scheduled Trading Day for all the Underlying Assets in a Multi-Asset Basket (a "**Common Trading Day**") and is not a Disrupted Day for each of the

Underlying Assets in the Multi-Asset Basket, then the Scheduled Reference Date will be the Reference Date for each Underlying Asset.

- (b) If (i) the Scheduled Reference Date is a Common Trading Day but is a Disrupted Day for one or more Underlying Assets in such Multi-Asset Basket (a "**Common Disrupted Day**"), or (ii) the Scheduled Reference Date is not a Common Trading Day, in which case the Reference Date for each Underlying Asset will be the first succeeding Common Trading Day, provided that,
 - (A) if such Common Trading Day is not a Disrupted Day for an Underlying Asset, then such Common Trading Day will be the Reference Date for such Underlying Asset; or
 - (B) if such Common Trading Day is a Disrupted Day for an Underlying Asset, then the Reference Date for such Underlying Asset will be the first succeeding Scheduled Trading Day that is not a Disrupted Day for such Underlying Asset, subject to a standard long-stop date of eight Scheduled Trading Days (or such other number of Scheduled Trading Days as specified in the Issue Terms), after which the Calculation Agent will determine the relevant Closing Share Price or Closing Index Level (as the case may be) of such Underlying Asset,

provided that, if the Issue Terms specify that no adjustment should be made, then the Calculation Agent shall determine the relevant the relevant Closing Share Price or Closing Index Level (as the case may be) of each Underlying Asset on the Scheduled Reference Date.

Multi-Asset Basket and Reference Dates – Common Trading Day and Common Disrupted Day

- (a) If the Scheduled Reference Date for each Underlying Asset is a Scheduled Trading Day for all the Underlying Assets in a Multi-Asset Basket (such Scheduled Trading Day, a "**Common Trading Day**") and not a Disrupted Day for one or more Underlying Assets (such Disrupted Day, a "**Common Disrupted Day**") then the Scheduled Reference Date will be the Reference Date for each Underlying Asset.
- (b) If the Scheduled Reference Date is not a Common Trading Day or is a Common Disrupted Day, then the Reference Date for each Underlying Asset will be the first succeeding Common Trading Day which is not a Common Disrupted Day, subject to a standard long-stop date of eight Common Trading Days (or such other number of Common Trading Days as specified in the Issue Terms). In such circumstances,
 - (i) the last consecutive Common Trading Day shall be the Reference Date for each Underlying Asset;
 - (ii) if the last consecutive Common Trading Day is not a Disrupted Day for an Underlying Asset, then such relevant price or level of such Underlying Asset will be determined by reference to screen pages; and
 - (iii) if the last consecutive Common Trading Day is a Disrupted Day for an Underlying Asset, then the Calculation Agent shall determine the relevant Closing Share Price or Closing Index Level (as the case may be) of such Underlying Asset,

provided that, if the relevant Issue Terms specify that no adjustment should be made, then the Calculation Agent shall determine the relevant Closing Share Price or Closing Index Level (as the case may be) of such Underlying Asset on the Scheduled Reference Date.

Adjustments to terms of Multi-Asset Basket Linked Instruments

Please refer to sections entitled "Introduction to the Share Linked Conditions" (in the case an Underlying Asset is a Share) and "Introduction to the Index Linked Conditions" (in the case an Underlying Asset is an Index) above for an overview of the circumstances in which the Calculation Agent may make adjustments to the terms of the Multi-Asset Basket Linked Instruments and calculations as described in the Conditions, may substitute any Underlying Asset which is a Share and/or the Multi-Asset Basket Linked Instruments may be redeemed or terminated early.

MULTI-ASSET BASKET LINKED CONDITIONS

Adjustment and Disruption Provisions for Multi-Asset Basket Linked Instruments

1.	Consequences of Non-Common Trading Days and/or Common Disrupted Days
1.1	Multi-Asset Basket and Averaging Reference Dates – Common Trading Day but Individual Disrupted Day
1.2	Multi-Asset Basket and Averaging Reference Dates – Common Trading Day and Common Disrupted Day
1.3	Multi-Asset Basket and Reference Dates – Common Trading Day but Individual Disrupted Day
1.4	Multi-Asset Basket and Reference Dates – Common Trading Day and Common Disrupted Day
2.	Definitions

Prospective purchasers of, and investors in, Securities should refer to the section entitled "Risk Factors" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Index Linked Securities on page 549 and Share Linked Securities on pages 71 to 74.

These Multi-Asset Basket Linked Conditions shall apply to Instruments for which the relevant Issue Terms specify that the Multi-Asset Basket Linked Instruments are applicable.

1. **Consequences of Non-Common Trading Days and/or Common Disrupted Days**
- 1.1 **Multi-Asset Basket and Averaging Reference Dates – Common Trading Day but Individual Disrupted Day**

If the relevant Issue Terms specify "**Multi-Asset Basket and Averaging Reference Dates –Basket Valuation (Common Trading Day and Individual Disrupted Day)**" to be applicable to the Common Basket Assets, the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Averaging Reference Date is a Common Trading Day that is not a Disrupted Day for any Common Basket Asset, then the Averaging Reference Date for each Common Basket Asset shall be such Scheduled Averaging Reference Date; and
- (b) if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Common Trading Day or is a Disrupted Day for one or more Common Basket Assets, the following provisions shall apply:
 - (i) if the relevant Issue Terms specify "**Postponement**" to be applicable, then if (A) the Calculation Agent determines that any Scheduled Averaging Reference Date is a Common Trading Day but is a Disrupted Day for one or more Common Basket Assets, or (B) the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Common Trading Day, in which case the Averaging Reference Date for each Common Basket Asset shall be the first succeeding Common Trading Day following such Scheduled Averaging Reference Date (such Scheduled Averaging Reference Date, following adjustment of such date owing to such Scheduled Averaging Reference Date not being a Common Trading Day, if applicable, the "**Adjusted Averaging Reference Date**"), provided that if such Adjusted Averaging Reference Date is a Disrupted Day for one or more Common Basket Assets, then, in respect of (A) and (B), the following provisions shall apply:

- (A) if the Calculation Agent determines that such Adjusted Averaging Reference Date is not a Disrupted Day for a Common Basket Asset, then the Averaging Reference Date for such Common Basket Asset shall be such Adjusted Averaging Reference Date; and
- (B) if the Calculation Agent determines that such Adjusted Averaging Reference Date is a Disrupted Day for a Common Basket Asset, then the Averaging Reference Date for such Common Basket Asset shall be the first succeeding Scheduled Trading Day following such Adjusted Averaging Reference Date which the Calculation Agent determines is not a Disrupted Day for such Common Basket Asset, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Adjusted Averaging Reference Date is a Disrupted Day for such Common Basket Asset. In that case:
 - (a) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for such Common Basket Asset;
 - (b) where such Common Basket Asset is:
 - (x) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on that last consecutive Scheduled Trading Day (and such determination by the Calculation Agent pursuant to this paragraph (x) shall be deemed to be the relevant Closing Share Price of such Share at the relevant Valuation Time of such Share in respect of such Averaging Reference Date);
 - (y) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day), and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (y) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of such Averaging Reference Date).

For the avoidance of doubt, an Averaging Reference Date determined in accordance with this Multi-Asset Basket Linked Condition 1.1 in respect of a Scheduled Averaging Reference Date may fall on the same day that another Averaging Reference Date in respect of another Scheduled Averaging Reference Date falls, whether or not such latter Averaging Reference Date was also determined in accordance with this Multi-Asset Basket Linked Condition 1.1.

- (ii) if the relevant Issue Terms specify that "**Modified Postponement**" to be applicable, then if (A) the Calculation Agent determines that any Scheduled Averaging Reference Date is a Common Trading Day but is a Disrupted Day for one or more Common Basket Assets, or (B) the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Common Trading Day, in which case the Averaging Reference Date for each Common Basket Asset shall be the first succeeding Common Trading Day on which

another Averaging Reference Date does not or is not deemed to occur following such Scheduled Averaging Reference Date (such Scheduled Averaging Reference Date, following adjustment of such date owing to such Scheduled Averaging Reference Date not being a Common Trading Day, if applicable, the "**Adjusted Averaging Reference Date**"), provided that if such Adjusted Averaging Reference Date is a Disrupted Day for one or more Common Basket Assets, then, in respect of (A) and (B), the following provisions shall apply:

- (1) if the Calculation Agent determines that such Adjusted Averaging Reference Date is not a Disrupted Day for a Common Basket Asset, then the Averaging Reference Date for such Common Basket Asset shall be such Adjusted Averaging Reference Date; and
- (2) if the Calculation Agent determines that such Adjusted Averaging Reference Date is a Disrupted Day for a Common Basket Asset, then the Averaging Reference Date for such Common Basket Asset shall be the first succeeding Valid Date for such Common Basket Asset following such Adjusted Averaging Reference Date. If the first succeeding Valid Date for such Common Basket Asset has not occurred as of the relevant Valuation Time on the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Adjusted Averaging Reference Date, then:
 - (a) that last consecutive Scheduled Trading Day shall be deemed to be the Averaging Reference Date for such Common Basket Asset, notwithstanding the fact that such day is already an Averaging Reference Date or is a Disrupted Day for such Common Basket Asset;
 - (b) where such Common Basket Asset is:
 - (x) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on that last consecutive Scheduled Trading Day (and such determination by the Calculation Agent pursuant to this paragraph (x) shall be deemed to be the relevant Closing Share Price of such Share at the relevant Valuation Time of such Share in respect of such Averaging Reference Date);
 - (y) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day), and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (y) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of such Averaging Reference Date).

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Averaging Reference Date for each Common Basket Asset shall be the Scheduled Averaging Reference Date, notwithstanding the fact that such Scheduled Averaging Reference Date is not a Common

Trading Day or is a Disrupted Day for one or more Common Basket Assets, and where such Common Basket Asset is:

- (i) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on such Averaging Reference Date (and such determination by the Calculation Agent pursuant to this paragraph (c)(i) shall be deemed to be the relevant Closing Share Price of such Share at the relevant Valuation Time in respect of the relevant Averaging Reference Date); or
- (ii) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on such Averaging Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Averaging Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Averaging Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Averaging Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Averaging Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (c)(ii) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of the relevant Averaging Reference Date.

1.2 Multi-Asset Basket and Averaging Reference Dates – Common Trading Day and Common Disrupted Day

If the relevant Issue Terms specify "**Multi-Asset Basket and Averaging Reference Dates – Basket Valuation (Common Trading Day and Common Disrupted Day)**" to be applicable to the Common Basket Assets, if the Calculation Agent determines that any Scheduled Averaging Reference Date is not a Common Trading Day for any Common Basket Asset or is a Common Trading Day that is a Common Disrupted Day and:

- (a) if the relevant Issue Terms specify "**Postponement**" to be applicable, then the Averaging Reference Date for each Common Basket Asset shall be the first succeeding Common Trading Day following such Scheduled Averaging Reference Date which the Calculation Agent determines is not a Common Disrupted Day, unless the Calculation Agent determines that each of the consecutive Common Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date is a Common Disrupted Day. In that case:
 - (i) that last consecutive Common Trading Day shall be deemed to be the Averaging Reference Date for such Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Assets (such Common Basket Assets being "**Affected Common Basket Assets**" for such Averaging Reference Date, and each such Common Basket Asset being an "**Affected Common Basket Asset**" for such Averaging Reference Date);
 - (ii) for each Common Basket Asset other than an Affected Common Basket Asset, where such Common Basket Asset is:
 - (A) a Share, the Calculation Agent shall determine the relevant price of such Share by reference to the relevant screen pages at the applicable Valuation Time on such last consecutive Common Trading Day; or
 - (B) an Index, the Calculation Agent shall determine the relevant level of such Index by reference to the relevant screen pages at the applicable Valuation Time on such last consecutive Common Trading Day; or
 - (iii) for each Affected Common Basket Asset which is:
 - (A) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on that last

consecutive Common Trading Day (and such determination by the Calculation Agent pursuant to this paragraph (iii)(A) shall be deemed to be the relevant Closing Share Price of such Share at the relevant Valuation Time of such Share in respect of such Averaging Reference Date);

- (B) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on that last consecutive Common Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Common Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Trading Day), and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (iii)(B) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of such Averaging Reference Date).

For the avoidance of doubt, an Averaging Reference Date determined in accordance with this Multi-Asset Basket Linked Condition 1.2 in respect of a Scheduled Averaging Reference Date may fall on the same day that another Averaging Reference Date in respect of another Scheduled Averaging Reference Date falls, whether or not such latter Averaging Reference Date was also determined in accordance with this Multi-Asset Basket Linked Condition 1.2.

- (b) if the relevant Issue Terms specify that "**Modified Postponement**" to be applicable, then the relevant Averaging Reference Date for each Common Basket Asset shall be the first succeeding Common Valid Date. If the first succeeding Common Valid Date has not occurred as of the relevant Valuation Time on the consecutive Common Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Averaging Reference Date that, but for the occurrence of another Averaging Reference Date or a Common Disrupted Day, would have been the relevant Averaging Reference Date, then:
 - (i) that last consecutive Common Trading Day shall be deemed to be the Averaging Reference Date for each Common Basket Asset, notwithstanding the fact that such day is already an Averaging Reference Date or is a Disrupted Day for one or more Common Basket Assets (such Common Basket Assets being "**Affected Common Basket Assets**" for such Averaging Reference Date, and each such Common Basket Asset being an "**Affected Common Basket Asset**" for such Averaging Reference Date); and
 - (ii) for each Common Basket Asset other than an Affected Common Basket Asset, where such Common Basket Asset is:
 - (A) a Share, the Calculation Agent shall determine the relevant price of such Share by reference to the relevant screen pages at the applicable Valuation Time on such last consecutive Common Trading Day; or
 - (B) an Index, the Calculation Agent shall determine the relevant level of such Index by reference to the relevant screen pages at the applicable Valuation Time on such last consecutive Common Trading Day; or
 - (iii) for each Affected Common Basket Asset which is:
 - (A) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on that last consecutive Common Trading Day (and such determination by the Calculation Agent pursuant to this paragraph (iii)(A) shall be deemed to be the relevant Closing Share Price of such Share at the relevant Valuation Time of such Share in respect of such Averaging Reference Date);

- (B) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on that last consecutive Common Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Common Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Common Trading Day), and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (iii)(B) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of such Averaging Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then the Averaging Reference Date for each Common Basket Asset shall be the Scheduled Averaging Reference Date, notwithstanding the fact that such Scheduled Averaging Reference Date is not a Common Trading Day or is a Disrupted Day for one or more Common Basket Assets, and where such Common Basket Asset is:
 - (i) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on such Averaging Reference Date (and such determination by the Calculation Agent pursuant to this paragraph (c)(i) shall be deemed to be the relevant Closing Share Price of such Share at the relevant Valuation Time in respect of the relevant Averaging Reference Date); or
 - (ii) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on such Averaging Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Averaging Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Averaging Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Averaging Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Averaging Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (c)(ii) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of the relevant Averaging Reference Date.

1.3 Multi-Asset Basket and Reference Dates – Common Trading Day but Individual Disrupted Day

If the relevant Issue Terms specify "**Multi-Asset Basket and Reference Dates – Basket Valuation (Common Trading Day but Individual Disrupted Day)**" to be applicable to the Common Basket Assets, the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Reference Date is a Common Trading Day that is not a Disrupted Day for each Common Basket Asset, then the Reference Date for each Common Basket Asset shall be such Scheduled Reference Date;
- (b) if (i) the Calculation Agent determines that any Scheduled Reference Date is a Common Trading Day but is a Common Disrupted Day, or (ii) the Calculation Agent determines that any Scheduled Reference Date is not a Common Trading Day, in which case the Reference Date for each Common Basket Asset shall be the first succeeding Common Trading Day following such Scheduled Reference Date, provided that if such Common Trading Day is a Disrupted Day for one or more Common Basket Assets, then, in respect of (i) and (ii), the following provisions shall apply:

- (A) if the Calculation Agent determines that such Common Trading Day is not a Disrupted Day for a Common Basket Asset, then the Reference Date for such Common Basket Asset shall be such Common Trading Day;
 - (B) if the Calculation Agent determines that such Common Trading Day is a Disrupted Day for a Common Basket Asset, then the Reference Date for such Common Basket Asset shall be the first succeeding Scheduled Trading Day which the Calculation Agent determines is not a Disrupted Day for such Common Basket Asset, unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal in number to the Maximum Days of Disruption immediately following such Common Trading Day is a Disrupted Day for such Common Basket Asset. In that case:
 - (1) that last consecutive Scheduled Trading Day shall be deemed to be the Reference Date for such Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for such Common Basket Asset; and
 - (2) where such Common Basket Asset is:
 - (a) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on that last consecutive Scheduled Trading Day (and such determination by the Calculation Agent pursuant to this paragraph (2)(a) shall be deemed to be the relevant Closing Share Price for such Share at the relevant Valuation Time in respect of the relevant Reference Date); or
 - (b) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on that last consecutive Scheduled Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Scheduled Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that last consecutive Scheduled Trading Day) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (2)(b) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of the relevant Reference Date),
- provided that,
- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then in respect of a Reference Date and a Common Basket Asset, the Reference Date for such Common Basket Asset shall be the Scheduled Reference Date, notwithstanding the fact that such Scheduled Reference Date is not a Common Trading Day or is a Disrupted Day for any Common Basket Asset, and where such Common Basket Asset is:
 - (i) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on such Reference Date (and such determination by the Calculation Agent pursuant to this paragraph (c)(i) shall be deemed to be the Closing Share Price of such Share at the relevant Valuation Time in respect of the relevant Reference Date); or
 - (ii) an Index, and the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on such Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7

(*Definitions*)) has occurred in respect of any relevant Component that is a share on such Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (c)(ii) shall be deemed to be the Closing Index Level of such Index at the relevant Valuation Time in respect of the relevant Reference Date.

1.4 Multi-Asset Basket and Reference Dates – Common Trading Day and Common Disrupted Day

If the relevant Issue Terms specify "**Multi-Asset Basket and Reference Dates – Basket Valuation (Common Trading Day and Common Disrupted Day)**" to be applicable to the Common Basket Assets, the following provisions shall apply:

- (a) if the Calculation Agent determines that any Scheduled Reference Date is a Common Trading Day that is not a Common Disrupted Day, then the Reference Date for each Common Basket Asset shall be such Scheduled Reference Date;
- (b) if the Calculation Agent determines that any Scheduled Reference Date is not a Common Trading Day or is a Common Trading Day that is a Common Disrupted Day, then the Reference Date for each Common Basket Asset shall be the first succeeding Common Trading Day following such Scheduled Reference Date which the Calculation Agent determines is not a Common Disrupted Day, unless the Calculation Agent determines that each of the consecutive Common Trading Days equal in number to the Maximum Days of Disruption immediately following such Scheduled Reference Date is a Common Disrupted Day. In that case:
 - (i) that last consecutive Common Trading Day shall be deemed to be such Reference Date for each Common Basket Asset, notwithstanding the fact that such day is a Disrupted Day for one or more Common Basket Assets (such Common Basket Assets being "**Affected Common Basket Assets**" for such Reference Date, and each such Common Basket Asset being an "Affected Common Basket Asset" for such Reference Date);
 - (ii) for each Common Basket Asset other than an Affected Common Basket Asset, where such Common Basket Asset is:
 - (A) a Share, the Calculation Agent shall determine the relevant price of such Share by reference to the relevant screen pages at the applicable Valuation Time on such last consecutive Common Trading Day; or
 - (B) an Index, the relevant level of such Index by reference to the relevant screen pages by the Calculation Agent at the applicable Valuation Time on such last consecutive Common Trading Day; and
 - (iii) for each Affected Common Basket Asset which is:
 - (A) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on that last consecutive Common Trading Day (and such determination by the Calculation Agent pursuant to this paragraph (iii)(A) shall be deemed to be the relevant Closing Share Price of such Share at the relevant Valuation Time of such Share in respect of such Reference Date);
 - (B) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on that last consecutive Common Trading Day in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of the first Common Disrupted Day, using the Exchange traded or quoted price as of the relevant Valuation Time on that last consecutive Common Trading Day of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on that last consecutive Common Trading Day, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on that

last consecutive Common Trading Day), and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (iii)(B) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of such Reference Date),

provided that,

- (c) if the relevant Issue Terms specify "**No Adjustment**" to be applicable, then in respect of a Reference Date and a Common Basket Asset, the Reference Date for such Common Basket Asset shall be the Scheduled Reference Date, notwithstanding the fact that such Scheduled Reference Date is not a Common Trading Day or is a Common Disrupted Day, and where such Common Basket Asset is:
- (i) a Share, the Calculation Agent shall determine its good faith estimate of the relevant price for such Share as of the relevant Valuation Time on such Reference Date (and such determination by the Calculation Agent pursuant to this paragraph (c)(i) shall be deemed to be the relevant Closing Share Price of such Share at the relevant Valuation Time in respect of the relevant Reference Date); or
 - (ii) an Index, the Calculation Agent shall determine the relevant level of such Index as of the relevant Valuation Time on such Reference Date in accordance with the formula for and method of, calculating such Index last in effect prior to the occurrence of such Reference Date, using the Exchange traded or quoted price as of the relevant Valuation Time on such Reference Date of each Component comprised in such Index (or, if an event giving rise to a Disrupted Day (as defined in Share Linked Condition 7 (*Definitions*)) has occurred in respect of any relevant Component that is a share on such Reference Date, its good faith estimate of the value for the relevant Component as of the relevant Valuation Time on such Reference Date) and, in respect of such Index, such determination by the Calculation Agent pursuant to this paragraph (c)(ii) shall be deemed to be the relevant Closing Index Level of such Index at the relevant Valuation Time in respect of the relevant Reference Date.

2. Definitions

In these Multi-Asset Basket Linked Conditions, unless the context otherwise requires, the following terms shall have the respective meanings set out below:

"**Averaging Reference Date**" in respect of an Underlying Asset which is:

- (a) a Share, has the meaning given to it in the Share Linked Conditions; or
- (b) an Index, has the meaning given to it in the Index Linked Conditions.

"**Common Basket Assets**" means the Underlying Assets in a Multi-Asset Basket (each, a "**Common Basket Asset**").

"**Common Disrupted Day**" means a day which is a Disrupted Day for one or more Underlying Assets in a Multi-Asset Basket.

"**Common Trading Day**" means, in respect of a Multi-Asset Basket, a day which is Scheduled Trading Day for all the Underlying Assets in such Multi-Asset Basket.

"**Common Valid Date**" means a Common Trading Day that is not a Common Disrupted Day and on which another Averaging Reference Date does not or is not deemed to occur.

"**Disrupted Day**" in respect of an Underlying Asset which is:

- (a) a Share, has the meaning given to it in the Share Linked Conditions; or
- (b) an Index, has the meaning given to it in the Index Linked Conditions.

"**Maximum Days of Disruption**" means, in respect of Multi-Asset Basket Linked Instruments:

- (a) where the relevant Issue Terms specify "Multi-Asset Basket and Reference Dates – Basket Valuation (Common Trading Day but Individual Disrupted Day)" to be applicable, eight Scheduled Trading Days; or
- (b) where the relevant Issue Terms specify "Multi-Asset Basket and Averaging Reference Dates –Basket Valuation (Common Trading Day and Common Disrupted Day)" or "Multi-Asset Basket and Reference Dates – Basket Valuation (Common Trading Day and Common Disrupted Day)" to be applicable, eight Common Trading Days,

or, in each case, such other number of Scheduled Trading Days or Common Trading Days, as applicable, as specified in the relevant Issue Terms.

"Multi-Asset Basket" means, subject to adjustment in accordance with the Share Linked Conditions or Index Linked Conditions (as applicable), a basket composed of Underlying Assets in the relative proportions or numbers of Underlying Assets, as specified in the relevant Issue Terms, other than a Share Basket or an Index Basket.

"Reference Date" in respect of an Underlying Asset which is:

- (a) a Share, has the meaning given to it in the Share Linked Conditions; or
- (b) an Index, has the meaning given to it in the Index Linked Conditions.

"Scheduled Averaging Reference Date" in respect of an Underlying Asset which is:

- (a) a Share, has the meaning given to it in the Share Linked Conditions; or
- (b) an Index, has the meaning given to it in the Index Linked Conditions.

"Scheduled Reference Date" in respect of an Underlying Asset which is:

- (a) a Share, has the meaning given to it in the Share Linked Conditions; or
- (b) an Index, has the meaning given to it in the Index Linked Conditions.

"Scheduled Trading Day" in respect of an Underlying Asset which is:

- (a) a Share, has the meaning given to it in the Share Linked Conditions; or
- (b) an Index, has the meaning given to it in the Index Linked Conditions.

"Underlying Asset" means an Index or a Share (and collectively the **"Underlying Assets"**).

"Valid Date" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Reference Date does not or is not deemed to occur.

"Valuation Time" in respect of an Underlying Asset which is:

- (a) a Share, has the meaning given to it in the Share Linked Conditions; or
- (b) an Index, has the meaning given to it in the Index Linked Conditions.

SWAP RATE LINKED CONDITIONS

Adjustment and Modification Provisions for Swap Rate Linked Notes and Swap Rate Linked Instruments

1.	Adjustments to Reference Dates
1.1	Single Swap Rate and Reference Dates
2.	Original Primary Rate Cessation, Administrator/Benchmark Event and Corrections to Published and Displayed Rates
3.	Definitions

Prospective purchasers of, and investors in, Securities should refer to the section entitled "*Risk Factors*" on pages 19 to 156 of the Base Prospectus, which includes general risk factors in relation to the Securities and the Issuer and (if applicable) the relevant Guarantor, and specific risk factors relating to Securities that reference one or more Underlying Asset(s) on pages 130 to 147.

These Swap Rate Linked Conditions shall apply to Instruments which are specified to be Swap Rate Linked Instruments in the relevant Issue Terms and to Notes which are specified to be Swap Rate Linked Notes in the relevant Issue Terms. All defined terms used herein and not otherwise defined herein shall have the meaning given in General Instrument Condition 2 (*Definitions and Interpretation*) and General Note Condition 2 (*Definitions and Interpretation*), as applicable.

1. Adjustments to Reference Dates

1.1 Single Swap Rate and Reference Dates

Where the Swap Rate Linked Securities are specified in the relevant Issue Terms to relate to a single Swap Rate and such Issue Terms specify "Single Swap Rate and Reference Dates" to be applicable to the Swap Rate (and, if the relevant Issue Terms specify that this provision shall apply to particular Reference Dates, then this provision shall apply to such Reference Dates only), and, if the Calculation Agent determines that any Scheduled Reference Date in respect of such Swap Rate is:

- (a) a Relevant Swap Rate Business Day for such Swap Rate then the Scheduled Reference Date will be the Reference Date corresponding to such Scheduled Reference Date for such Swap Rate;
- (b) not a Relevant Swap Rate Business Day for such Swap Rate then the relevant Reference Date corresponding to such Scheduled Reference Date for such Swap Rate shall be the earlier of (i) the next following Relevant Swap Rate Business Day, and (ii) the number of Business Days equal to the Number of Swap Rate Valuation Cut-Off Business Days preceding the Scheduled Maturity Date,

provided that,

- (c) if the relevant Issue Terms specify "No Adjustment" to be applicable, then the Reference Date for such Swap Rate shall be the Scheduled Reference Date, notwithstanding the fact that such Scheduled Reference Date is not a Relevant Swap Rate Business Day for such Swap Rate.

2. Original Primary Rate Cessation, Administrator/Benchmark Event and Corrections to Published and Displayed Rates

General Instrument Condition 14(l) (*Original Primary Rate Cessation*), General Instrument Condition 14(m) (*Administrator/Benchmark Event*), General Instrument Condition 14(n) (*Interim Measures*), General Instrument Condition 14(o) (*Hierarchy if both an Original Primary Rate Cessation Event and an Administrator/Benchmark Event occur*) and General Instrument Condition 14(p) (*Corrections to Published and Displayed Rates*) or General Note Condition 10(l) (*Original Primary Rate Cessation*), General Note Condition 10(m) (*Administrator/Benchmark Event*), General Note Condition 10(n) (*Interim Measures*), General Note Condition 10(o) (*Hierarchy if both an Original Primary Rate*

Cessation Event and an Administrator/Benchmark Event occur) and General Note Condition 10(p) (*Corrections to Published and Displayed Rates*), as applicable, shall apply to each Original Rate, and each Original Rate shall be deemed to be an "Original Primary Rate" and a "Reference Rate" for the purposes of those Conditions, and those Conditions shall apply *mutatis mutandis* to the relevant payment or delivery of assets which may have to be made by the Issuer by reference to the value of such Swap Rate (or any relevant variable used to determine such payment or delivery or relevant payment or delivery date) as determined by the Calculation Agent in its discretion and acting in good faith and in a commercially reasonable manner.

3. Definitions

The following terms and expressions shall have the following meanings in relation to Swap Rate Linked Securities to which these Swap Rate Linked Conditions apply:

"Initial Valuation Date" means, in respect of a Swap Rate, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, subject to adjustment (as a Reference Date) in accordance with these Swap Rate Linked Conditions.

"New York Business Day" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in New York City.

"Number of Swap Rate Valuation Cut-off Business Days" means the number of Business Days specified in the relevant Issue Terms.

"Reference Date" means, in respect of a Swap Rate, each Initial Valuation Date or Valuation Date, in each case, subject to adjustment in accordance with these Swap Rate Linked Conditions.

"Relevant Designated Maturity" means, in respect of the Relevant USD SOFR Swap Rate, a specific maturity as specified in the relevant Issue Terms.

"Relevant USD SOFR Swap Rate" means a USD SOFR Swap Rate with a specific Relevant Designated Maturity.

"Relevant Reuters Screen" means, in respect of the Relevant USD SOFR Swap Rate, the Reuters Screen page specified in the relevant Issue Terms corresponding to the Relevant USD SOFR Swap Rate.

"Relevant Swap Rate Business Day" means, in respect of a Swap Rate, a U.S. Government Securities Business Day, a New York Business Day or a Business Day as specified in the relevant Issue Terms.

"Scheduled Initial Valuation Date" means, in respect of a Swap Rate, any original date that, but for such day not being a Relevant Swap Rate Business Day for such Swap Rate, would have been an Initial Valuation Date.

"Scheduled Reference Date" means, in respect of a Swap Rate, each Scheduled Initial Valuation Date or Scheduled Valuation Date.

"Scheduled Valuation Date" means, in respect of a Swap Rate, any original date that, but for such day not being a Relevant Swap Rate Business Day for such Swap Rate, would have been a Valuation Date.

"Swap Rate" means each Relevant USD SOFR Swap Rate specified in the relevant Issue Terms, and related expressions shall be construed accordingly.

"Swap Rate Linked Securities" means Swap Rate Linked Notes or Swap Rate Linked Instruments, as the case may be.

"USD SOFR Swap Rate" means, in respect of any relevant day (the **"Relevant Day"**), the rate (the **"Original Rate"**) for USD swaps with a maturity equal to the Relevant Designated Maturity, expressed as a percentage, which appears on the Relevant Reuters Screen as of 11:00 a.m., New York City time (the **"Relevant Time"**), on the Relevant Day. If such rate does not appear on the Relevant Reuters Screen at or around such time on such day, the USD SOFR Swap Rate for the Relevant Day shall be such rate as is determined by the Calculation Agent in its discretion, acting in good faith and in a commercially

reasonable manner, based on the Calculation Agent's or its affiliates' internal mid rate (derived from externally executable bid and ask prices) at the Relevant Time on the Relevant Day, and applying principles that are recognised in the financial services industry for determining the value of such rate.

"U.S. Government Securities Business Day" has the meaning given in the General Note Conditions or the General Instrument Conditions, as applicable.

"Valuation Date" means, in respect of a Swap Rate, each date specified as such in the relevant Issue Terms or otherwise determined as provided in the Conditions, and/or in the relevant Issue Terms subject to adjustment (as a Reference Date) in accordance with these Swap Rate Linked Conditions.

INTRODUCTION TO THE CREDIT LINKED CONDITIONS

The Credit Linked Conditions shall apply to Certificates for which the relevant Issue Terms specify that the Securities are Credit Linked Certificates and to Notes for which the relevant Issue Terms specify that the Securities are Credit Linked Notes (the Credit Linked Certificates together with the Credit Linked Notes, the "**Credit Linked Securities**").

Prospective purchasers of, and investors in, Securities should refer to the section entitled "*Risk factors*" on pages 19 to 156 of the Base Prospectus which includes general risk factors in relation to the Securities and the Issuer and the relevant Guarantor, and specific risk factors relating to Credit Linked Securities on pages 28 to 32.

Prospective purchasers should also refer to the section entitled "Additional Considerations relating to Investments in Credit Linked Securities" below.

OVERVIEW

The following overview (this "Overview") should be read together with the section of the Base Prospectus headed "General Description of the Programme" as it relates to Securities which are Credit Linked Certificates or Credit Linked Notes. This Overview should be read as an introduction to the Credit Linked Conditions and is qualified in its entirety by the more detailed information appearing elsewhere in this Introduction to the Credit Linked Conditions section and the Credit Linked Conditions.

Credit Linked Securities

The Credit Linked Securities are issued in series (each, a "**Series**"), comprised of one or more tranches (each, a "Tranche"). Each Tranche will be issued pursuant to the Base Prospectus and the relevant Issue Terms. The relevant Issue Terms will specify, amongst other things, the issue price and currency of denomination of the Credit Linked Securities. The Credit Linked Securities may bear interest at a fixed or floating rate, as specified in the relevant Issue Terms.

In respect of Credit Linked Certificates that are not French Law Instruments, Goldman Sachs International acts as Calculation Agent and Citibank N.A., London Branch acts as Principal Programme Agent. Unless otherwise specified in the relevant Issue Terms, the Credit Linked Certificates will be represented at all times by a global certificate in registered form registered in the name of a nominee for a common depositary for Euroclear Bank S.A./N.V. and Clearstream Banking S.A.

In respect of Credit Linked Notes that are not French Law Notes, Goldman Sachs International acts as Calculation Agent, Citibank N.A., London Branch acts as Fiscal Agent, Citibank Europe PLC acts as Registrar and Banque Internationale à Luxembourg, société anonyme and Citibank, N.A., London Branch act as Transfer Agents. Unless otherwise specified in the relevant Issue Terms, the Credit Linked Notes will be represented at all times by a global note certificate in registered form registered in the name of a nominee for a common depositary for Euroclear Bank S.A./N.V. and Clearstream Banking S.A.

In respect of Credit Linked Certificates that are French Law Instruments and Credit Linked Notes that are French Law Notes (French Law Instruments together with French Law Notes, ("**French Law Securities**"), Goldman Sachs International acts as Calculation Agent. Unless otherwise specified in the relevant Issue Terms, the Credit Linked Securities that are French Law Securities, will be issued in bearer dematerialised form (*au porteur*) inscribed in the books of an authorised financial intermediary institution entitled to hold accounts, directly or indirectly, on behalf of its customers with Euroclear France. Credit Linked Securities that are French Law Securities shall not be issued in or exchangeable into Securities in definitive form.

Credit exposure to Reference Entities

Holders of the Credit Linked Securities assume credit exposure to a credit risk entity, a basket of credit risk entities or the credit risk entities comprised in a credit index, which may be corporate, sovereign or supra-national entities (referred to as "**Reference Entities**").

The amount of credit risk relating to each Reference Entity is the "**Notional Amount**". If the Credit Linked Securities are:

- (i) Single Name Credit Linked Securities such Securities will be linked to a single Reference Entity, the initial Notional Amount for the Reference Entity and each Credit Linked Security will initially be equal to the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) specified for such Credit Linked Security in the Issue Terms (or Zero Coupon Notional Amount in the case of a Zero Coupon Credit Linked Note); or
- (ii) If the Credit Linked Securities are linked to a basket of Reference Entities or the credit risk entities comprised in a credit index (including, as applicable, Linear Basket Credit Linked Securities, Untranch Index Credit Linked Securities, Tranch Index Credit Linked Securities or Tranch Basket Credit Linked Securities), in each case, the initial Notional Amount for each Reference Entity and each Credit Linked Security will be equal to the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) for such Credit Linked Security (or Zero Coupon Notional Amount in the case of a Zero Coupon Credit Linked Note) multiplied by the percentage weighting specified in the Issue Terms or the relevant Index Annex or (if no weighting is specified) divided by the number of Reference Entities and (in respect of Tranch Index Credit Linked Securities or Tranch Basket Credit Linked Securities) divided by the Tranche Size.

A Reference Entity may be replaced by one or more successors following a merger, de-merger or similar. Where there are multiple successors, each such successor will be allocated a Notional Amount, being a portion of the Notional Amount of the initial Reference Entity.

Reference CDS

Certain determinations for the purposes of the Credit Linked Securities, including the occurrence of a Credit Trigger in relation to a Reference Entity (see below), are made by reference to a hypothetical credit default swap transaction entered into in relation to (i) the applicable Reference Entity in respect of Single Name Credit Linked Securities; or (ii) the basket of Reference Entities in respect of Linear Basket Credit Linked Securities or Tranch Basket Credit Linked Securities; or (iii) the Reference Entities comprised in a credit index in respect of Tranch Index Credit Linked Securities or Untranch Index Credit Linked Securities, (in each case, the "**Reference CDS**"). The Reference CDS is hypothetical only, and is assumed to exist only for the purposes of making calculations and determinations under the Credit Linked Securities.

Credit Trigger and Credit Event

A "**Credit Trigger**" will occur if certain conditions would be satisfied such that an "Event Determination Date" would occur under the Reference CDS in relation to a Reference Entity following the occurrence of a "**Credit Event**", being one of a number of specified events which may include for example a failure to make payments when due, insolvency or restructuring of indebtedness.

Notice Delivery Period

The Notice Delivery Period is the period during which a Credit Trigger may occur with respect to the Reference CDS. The Notice Delivery Period will commence on the Trade Date of the Reference CDS (as specified in the Issue Terms) and expire on the date that is 14 calendar days after the Scheduled Termination Date of the Reference CDS or (only if applicable) after the expiry of any relevant extension period if there is a continuing risk that a Credit Trigger may occur after the Scheduled Termination Date.

Redemption or Settlement of Credit Linked Securities linked to a single Reference Entity following a Credit Trigger

If the Credit Linked Security is linked to a single Reference Entity and a Credit Trigger occurs, the Credit Linked Security will, unless "Maturity Capital Protection" is specified to be applicable in the relevant Issue Terms, be redeemed or (if applicable) settled by payment of the Credit Event Amount (unless "Zero Recovery" is applicable, in which event no Credit Event Amount shall be payable). The Credit Event Amount will be an amount (i) (if Credit Event Amount (1) is specified to be applicable in the relevant Issue Terms) equal to the amount of a hypothetical security on the same terms as the Credit Linked Security, (save that the hypothetical security is not a Credit Linked Security) reduced by the related credit losses in respect of the Reference Entity; or (ii) (if Credit Event Amount (2) is specified to be applicable in the relevant Issue Terms) equal to the Triggered Amount multiplied by the value of a hypothetical security on the same terms as the Credit Linked Security, (but without taking account of the credit linked nature of such Credit Linked Security) further multiplied by the minimum of 100 per cent. and the Final Price or (iii) (if Credit Event Amount (3) is specified to be applicable in the relevant Issue Terms) equal to the Triggered Amount as reduced by the related credit losses in respect of the Reference Entity. The Credit Event Amount is therefore likely to be significantly less than the amount invested by the holder of a Credit Linked Security and may be zero. Accordingly, holders of the Credit Linked Securities are likely to suffer a loss of investment following the occurrence of a Credit Trigger.

If:

- (i) "Settlement following Credit Trigger" is specified to apply in the Issue Terms in respect of the Single Name Credit Linked Security, the Credit Event Amount will be payable on the date falling not later than 10 Business Days following the determination of the related Final Price.
- (ii) "Settlement at Maturity" is specified to apply in the Issue Terms in respect of the Single Name Credit Linked Security, the Credit Event Amount will be payable on the later of the Scheduled Maturity Date and a date selected by the Issuer and falling not later than 10 Business Days following the determination of the related Final Price.

If the Credit Linked Securities are linked to a single Reference Entity and "Maturity Capital Protection" has been specified to apply in the related Issue Terms, the redemption amount (in the case of a Credit Linked Note) or the settlement amount (in the case of a Credit Linked Certificate) of each Credit Linked Security upon redemption or settlement (as applicable) shall (i)

if the "Capital Protection Percentage" is specified to be 100 per cent. in the relevant Issue Terms, be equal to the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) regardless of whether a Credit Trigger has or has not occurred or (ii) if the "Capital Protection Percentage" is specified to be less than 100 per cent. in the relevant Issue Terms, and (A) if a Credit Trigger has not occurred, be an amount equal to the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) or (B) if a Credit Trigger has occurred, be an amount equal to the higher of the Maturity Capital Protected Amount (determined by the Calculation Agent by multiplying the Triggered Amount by the Capital Protection Percentage) and the Credit Event Amount (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event the Maturity Capital Protected Amount shall be payable).

Interest will (unless otherwise specified in the related Issue Terms for Exempt Securities only) cease to accrue on the Calculation Amount of each Credit Linked Security corresponding to the Triggered Amount of the affected Reference Entity upon and with effect from and including (A) (if "No Interest Accrual on a Credit Trigger" is specified to be applicable in the relevant Issue Terms) the first day of the Interest Period in which such Credit Trigger occurs or (B) (if "Interest accrual on a Credit Trigger " is specified to be applicable in the relevant Issue Terms) the date of the occurrence of a Credit Trigger, (or, in each case, if such Credit Trigger occurs (i) after the final Interest Period, from but excluding the last day of the final Interest Period, or (ii) prior to the first Interest Period, from and including the first day of the first Interest Period).

In certain circumstances (following an M(M)R Restructuring Credit Event, or where multiple successor Reference Entities have previously been determined), redemption or (if applicable) settlement of Credit Linked Securities following a Credit Trigger may be in part only.

Redemption or Settlement of Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities following a Credit Trigger

If the Credit Linked Securities are Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities, in respect of which "Maturity Capital Protection" has not been specified to apply in the related Issue Terms, and a Credit Trigger occurs in relation to any particular Reference Entity, if:

- (i) "Settlement at Maturity" is specified to apply in respect of the Credit Linked Securities, the amount payable on final redemption (in the case of a Credit Linked Note) or final settlement (in the case of a Credit Linked Certificate) of each Credit Linked Security at maturity will be reduced by, the related Credit Event Loss Amount and the Credit Linked Security will be redeemed by payment of the Final Redemption Amount (if any) (in respect of a Credit Linked Note) or settled by payment of the Settlement Amount (if any) (in respect of a Credit Linked Certificate); or
- (ii) "Settlement following Credit Trigger" is specified to apply in respect of the Credit Linked Securities, the amount payable on final redemption (in the case of a

Credit Linked Note) or final settlement (in the case of a Credit Linked Certificate) of each Credit Linked Security will be reduced by, the Triggered Amount of the affected Reference Entity, and the related Credit Event Amount (if any) will be payable on the Credit Linked Security on the date falling not later than 10 Business Days following the determination of the related Final Price (unless "Zero Recovery" is applicable, in which event no Credit Event Amount shall be payable on the Credit Linked Security). If "Delayed Settlement" is specified to apply in respect of the Credit Linked Securities, the Credit Event Amount will payable on the later of the Scheduled Maturity Date and the date falling not later than 10 Business days following the determination of the related Final Price. The Credit Event Amount will be an amount equal to:

(A) (if Credit Event Amount (1) is specified to be applicable in the relevant Issue Terms) the amount of a hypothetical security on the same terms as the Credit Linked Security (save that the hypothetical security is not a Credit Linked Security) reduced by the related credit losses in respect of a Reference Entity; or

(B) (if Credit Event Amount (2) is specified to be applicable in the relevant Issue Terms) the Triggered Amount multiplied by the value of a hypothetical security on the same terms as the Credit Linked Security, (but without taking account of the credit linked nature of such Credit Linked Security) further multiplied by the minimum of 100 per cent. and the Final Price or

(C) (if Credit Event Amount (3) is specified to be applicable in the relevant Issue Terms) the Triggered Amount as reduced by the related credit losses in respect of a Reference Entity.

Accordingly (save where "Maturity Capital Protection" is specified to apply in accordance with the relevant Issue Terms), the redemption amount (in the case of a Credit Linked Note) or the settlement amount (in the case of a Credit Linked Certificate) of each Credit Linked Security may be less than the actual invested amount, and could be zero. Therefore holders of the Credit Linked Securities are likely to suffer a loss of a pro rata proportion of their invested amount following the occurrence of one or more Credit Trigger(s).

If the Credit Linked Securities are Linear Basket Credit Linked Securities or Untranching Index Credit Linked Securities, in respect of which "Maturity Capital Protection" has been specified to apply in the related Issue Terms, the redemption amount (in the case of a Credit Linked Note) or the settlement amount (in the case of a Credit Linked Certificate) of each Credit Linked Security upon (i) redemption or settlement (as applicable) shall, if the "Capital Protection Percentage" is specified to be 100 per cent. in the relevant Issue Terms and "Early Settlement" does not apply, be an amount equal to the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) regardless of whether a Credit Trigger has or has not

occurred (if "Early Settlement" is applicable in respect of the Credit Linked Securities, the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) will be reduced by an amount equal to the Notional Amount attributable to each Reference Entity in respect of which a Credit Trigger has occurred and the latter amount will be paid to the holders on the earlier of the Scheduled Maturity Date and the date falling 10 Business Days following the date of the Credit Trigger) or (ii) maturity shall, if the "Capital Protection Percentage" is specified to be less than 100 per cent. in the relevant Issue Terms, be an amount equal to (A) the Settlement Amount (if any) (in respect of a Credit Linked Certificate) or the Final Redemption Amount (if any) (in respect of a Credit Linked Note), in each case, subject to reduction following the occurrence of each Credit Trigger and (B) if a Credit Trigger has occurred in respect of a Reference Entity, the Issuer will pay to the holder of a Credit Linked Security an amount equal to the higher of the Maturity Capital Protected Amount (determined by the Calculation Agent by multiplying the Triggered Amount by the Capital Protection Percentage) and the Credit Event Amount in respect of such Reference Entity (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event the Maturity Capital Protected Amount shall be payable).

Interest will (unless otherwise specified in the related Issue Terms for Exempt Securities only) cease to accrue on the Calculation Amount of each Credit Linked Security corresponding to the Triggered Amount of the affected Reference Entity upon and with effect from and including (A) (if "No Interest accrual on a Credit Trigger" is specified to be applicable in the relevant Issue Terms), the first day of the Interest Period in which such Credit Trigger occurs or (B) (if "Interest accrual on a Credit Trigger" is specified to be applicable in the relevant Issue Terms) the date of the occurrence of a Credit Trigger, (or, in each case, if such Credit Trigger occurs (i) after the final Interest Period, from but excluding the last day of the final Interest Period or (ii) prior to the first Interest Period, from and including the first day of the first Interest Period).

Following an M(M)R Restructuring Credit Event, we may elect to trigger settlement in respect of part only of the Notional Amount of the affected Reference Entity.

Redemption or settlement of Tranching Basket Credit Linked Securities or Tranching Index Credit Linked Securities following a Credit Trigger

If the Credit Linked Securities are Tranching Basket Credit Linked Securities or Tranching Index Credit Linked Securities, in respect of which "Maturity Capital Protection" has not been specified to apply in the related Issue Terms, and a Credit Trigger occurs in relation to any particular Reference Entity, the amount payable on final redemption (in the case of a Credit Linked Note) or final settlement (in the case of a Credit Linked Certificate) of each Credit Linked Security at maturity will be reduced by the relevant Incurred Loss Amount(s) once the aggregate losses exceed the "attachment point" specified in the relevant Issue Terms.

If the Credit Linked Securities are Tranching Basket Credit Linked Securities or Tranching Index Credit Linked Securities, in respect of which "Maturity Capital Protection" has been specified to apply in the related Issue Terms, the redemption

amount (in the case of a Credit Linked Note) or the settlement amount (in the case of a Credit Linked Certificate) of a Credit Linked Security upon maturity shall (i) if the "Capital Protection Percentage" is specified to be 100 per cent. in the relevant Issue Terms, be an amount equal to the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) regardless of whether a Credit Trigger has or has not occurred or (ii) if the "Capital Protection Percentage" is specified to be less than 100 per cent. in the relevant Issue Terms, be an amount equal to the Settlement Amount (in respect of a Credit Linked Certificate) or the Final Redemption Amount (in respect of a Credit Linked Note) and once the aggregate losses exceed the "attachment point" specified in the relevant Issue Terms, such amount will be reduced by the relevant Incurred Loss Amount(s), , subject to a minimum of the Maturity Capital Protected Amount.

Interest will (unless otherwise specified in the related Issue Terms for Exempt Securities only) cease to accrue on the Incurred Loss Amount determined in respect of the affected Reference Entity, once the aggregate losses exceed the "attachment point" specified in the relevant Issue Terms, upon and with effect from and including (A) (if "No Interest accrual on a Credit Trigger" is specified to be applicable in the relevant Issue Terms), the first day of the Interest Period in which such Credit Trigger occurs or (B) (if "Interest accrual on a Credit Trigger" is specified to be applicable in the relevant Issue Terms) the date of the occurrence of a Credit Trigger, (or, in each case, if such Credit Trigger occurs (i) after the final Interest Period, from but excluding the last day of the final Interest Period or (ii) prior to the first Interest Period, from and including the first day of the first Interest Period).

Following an M(M)R Restructuring Credit Event, we may, elect to determine a Credit Trigger in respect of a part of the Notional Amount attributable to the affected Reference Entity.

Credit Event Loss Amount

The Credit Event Loss Amount following a Credit Trigger will be an amount (subject to a minimum of zero) equal to the product of the triggered Notional Amount of the relevant Reference Entity (the "**Triggered Amount**") and a value equal to 100 per cent. minus a price determined by reference to a credit derivatives market auction or, if there is no relevant auction, to a poll of market dealers and as such will be reflective of the prevailing market price of eligible direct or indirect debt obligations of the relevant Reference Entity (save where "Zero Recovery" is specified to apply in the relevant Issue Terms, in which case the Final Price will be deemed to be 0).

Following an M(M)R Restructuring Credit Event, we may elect to trigger settlement in respect of part only of the Notional Amount of the affected Reference Entity.

Credit Event Loss Amounts (save where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent are specified to be applicable in the relevant Issue Terms may in certain cases be determined after the Scheduled Maturity Date of the Credit Linked Securities. Holders will not be compensated for any such delay.

Redemption or settlement (as applicable) in the absence of a Credit Trigger	The Credit Linked Securities will be either redeemed at par (in the case of a Credit Linked Note) or settled by payment of the settlement amount (in the case of a Credit Linked Certificate) if no Credit Trigger has occurred or may subsequently occur under the terms of the Reference CDS. The earliest date on which the Credit Linked Securities will be redeemed in such case is the "Scheduled Maturity Date".
Deferral of Redemption or Settlement (as applicable)	Save in respect of Credit Linked Securities where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to be applicable in the relevant Issue Terms, redemption or (if applicable) settlement of the Credit Linked Securities may be substantially deferred beyond the Scheduled Maturity Date, even in the absence of a Credit Trigger, if there is a continuing risk that such a Credit Trigger may subsequently occur. The redemption or (if applicable) settlement of the Securities, in such circumstances, may be deferred up until the "Final Maturity Date" specified in the Issue Terms, being the date falling six months following the Scheduled Termination Date of the Reference CDS (or, if such date is not a Business Day, the following Business Day). If, following the deferral of redemption (in the case of Notes) or deferral of settlement (in the case of Certificates) as described above, we are required to redeem or settle (as applicable) the Credit Linked Securities in circumstances where the Reference CDS would not yet have terminated, payments to holders of the Credit Linked Securities will be reduced by any costs which we would incur in terminating the Reference CDS. These costs will reflect the market's expectation that a Credit Trigger may eventually occur and/or the likely market value of the direct or indirect obligations of the relevant Reference Entity following such Credit Trigger. Such costs may also reflect the spread charged by market counterparties in relation to any such termination.

THE CREDIT LINKED SECURITIES: KEY FACTS

The following introduction to, and summary of, the Credit Linked Conditions is only a description and overview of the actual Credit Linked Conditions set forth herein, and is divided into Key Facts about the Credit Linked Securities and a Description of the Credit Linked Securities and Reference CDS. Accordingly, this section must be read as an introduction to the actual Credit Linked Conditions contained herein and any decision to purchase Credit Linked Securities should be based on a consideration of the Base Prospectus as a whole, including the actual Credit Linked Conditions (as completed by the relevant Issue Terms).

1. Credit Linked Securities

Credit Linked Securities will be issued as Certificates (if the relevant Issue Terms specify that the Securities are Credit Linked Certificates) or Notes (if the relevant Issue Terms specify that the Securities are Credit Linked Notes), in each case, the value of which is linked to the credit risk of one or more entities (including entities comprised in a credit index), which may be corporate, sovereign or supra-national entities (each a "**Reference Entity**") (and possibly successors thereof). Following the occurrence of a Credit Trigger with respect to a Reference Entity to which the Credit Linked Securities are linked, holders may lose some or all of their investment in the Credit Linked Securities. A Credit Linked Security is broadly intended to give the investor access to a credit default swap on certain Reference Entity(y)(ies) in funded format. Therefore many of the features and risks applicable to a market standard credit default swap referencing the relevant Reference Entity(y)(ies) will be equally applicable to the Credit Linked Securities.

By investing in the Credit Linked Securities, an investor will be a seller of credit protection (and hence a buyer of credit risk) and the Issuer will be a buyer of credit protection (and therefore a seller of credit risk).

2. Credit risk of a Reference Entity(y)(ies)

Credit risk with respect to a Reference Entity is the risk that the Reference Entity fails to perform its obligations under certain borrowed money, bond or loan (as applicable) obligations, a specified reference obligation of the Reference Entity or the risk that the Reference Entity enters into bankruptcy or insolvency proceedings. Borrowed money obligations include any incurred loan obligations of the Reference Entity, obligations under any debt securities issued by the Reference Entity and certain qualifying guarantees of the Reference Entity related to such borrowed money obligations. In addition, failure to perform with respect to certain specified reference obligations will also be captured.

The failure of the Reference Entity to perform its obligations is generally (but not exclusively) as a result of a deterioration of its financial condition.

The financial condition and creditworthiness of a Reference Entity may change over time. Public information which is available in relation to a Reference Entity may be incomplete, misleading or out of date. The identity of each Reference Entity is subject to change as a result of successions where there are debt transfers or where another entity issues bonds or incurs a loan obligation in exchange for bonds or loans of the Reference Entity. The risks associated with a successor Reference Entity may be greater than the risks associated with the original Reference Entity.

If the Credit Linked Securities are linked to multiple Reference Entities, the probability that a Credit Trigger will occur may be increased. The credit risk to investors may further be increased if the Reference Entities are concentrated in a particular industry sector or geographic area, or if they have exposure to similar financial or other risks.

3. A Credit Linked Security versus an ordinary debt security

Credit Linked Securities are similar to an ordinary debt security in that they provide the investors with regular streams of interest payments, if applicable, and the return of par (in respect of Credit Linked Note) or the accreted principal amount (in the case of a Credit Linked Note in respect of which the Zero Coupon provisions are applicable) or the payment of a settlement amount which

is equal to the investor's original investment (in the case of a Credit Linked Certificate) in the ordinary course. However, Credit Linked Securities have the added feature not present in ordinary debt securities of an exposure to the credit of one or more Reference Entities. If a Credit Trigger occurs in relation to the relevant Reference Entity, an investor may lose all or part of its investment in the Credit Linked Securities.

4. **Not the same as investment in a bond issued by the Reference Entity**

Credit Linked Securities give an investor exposure to the credit risk of the Reference Entity without having to own a bond, loan or other type of borrowed money obligation of such Reference Entity. The Reference Entity itself is not a party to and has no direct involvement in the Credit Linked Securities and an investor will not be able to claim against the Reference Entity or Issuer for any losses it suffers from a Credit Trigger, in respect of the relevant Reference Entity. The investor will also not have any interest in, or rights under, any obligation of such Reference Entity. An investment in Credit Linked Securities is not equivalent to an investment in the obligations of a Reference Entity.

The Issuer is not obliged to hold any obligation of the Reference Entity or otherwise have credit risk exposure to the Reference Entity. In addition to the credit risk of the relevant Reference Entity to which the Credit Linked Securities are linked, an investor will also be exposed to the credit risk of the Issuer and/or Guarantor, as applicable. Therefore, even if the Reference Entity is performing well, an investor may still suffer a loss if the Issuer's and/or the Guarantor's, as applicable, creditworthiness declines.

5. **Changes in share prices of any Reference Entity and the value of the Credit Linked Securities**

Taking credit risk on the Reference Entity by purchasing Credit Linked Securities is different from taking equity risk by investing in shares of the Reference Entity. There are a number of reasons for this. For example:

- (a) the Credit Linked Securities reference borrowed money obligations of the Reference Entity or specified guarantees of the Reference Entity in respect of borrowed money obligations, and a Reference Entity must generally pay amounts due to the creditors on these debt obligations before paying dividends or capital to shareholders;
- (b) the obligations of the Reference Entity referenced by the Credit Linked Securities consist of borrowed money obligations or specified guarantees of the Reference Entity in respect of borrowed money obligations; holders of this type of debt will generally rank ahead of holders of ordinary shares in the insolvency of a Reference Entity, and so may have (but are not guaranteed) a higher rate of recovery of moneys due to them;
- (c) the Credit Linked Securities reference these borrowed money obligations and accordingly, the market value of the Credit Linked Securities is related to (although not necessarily equal to) the value of these borrowed money obligations; and
- (d) there is no direct link between share prices and the value of the Credit Linked Securities.

However, in some circumstances, change in the share price of the Reference Entity may result in or from, at a general level, a change in the market value of its debt and vice versa.

6. **No assurance that principal (in respect of a Credit Linked Note) will be repaid or a settlement amount (in respect of a Credit Linked Certificate) will be paid**

There is no assurance that the principal invested in the Credit Linked Notes will be repaid or that a settlement amount will be paid under the Credit Linked Certificates. Holders could lose all (save where "Maturity Capital Protection" applies in respect of the Credit Linked Securities) (or, if applicable, some (save where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. apply in respect of the Credit Linked Securities)) of their investment if a Credit Trigger occurs in respect of a Reference Entity.

7. **Credit exposure to Reference Entities starts on the Trade Date**

Holders of the Credit Linked Securities assume exposure to the credit risk of the relevant Reference Entity/Entities from and including the Trade Date of the Reference CDS. A Credit Trigger may occur as a result of a Credit Event occurring at any time after the Trade Date, including prior to the Issue Date of the Securities.

8. **Period during which a Credit Trigger may occur**

A Credit Trigger may occur at any time during the Notice Delivery Period, which will commence on the Trade Date of the Reference CDS and expire on the date that is 14 calendar days after the Scheduled Termination Date of the Reference CDS or (only if applicable) after the expiry of any relevant extension period if there is a continuing risk that a Credit Trigger may occur after the Scheduled Termination Date.

9. **Potential pay-out to holders determined by occurrence of a Credit Trigger**

The occurrence of a Credit Event with respect to a Reference Entity and the consequent determination that a Credit Trigger has occurred will affect the amount of interest and principal (in the case of a Credit Linked Note), or if applicable, the amount of interest and the settlement amount (in the case of a Credit Linked Certificate) that holders will receive. Following the occurrence of a Credit Trigger, the amount payable on redemption of the Credit Linked Notes, or on the settlement of Credit Linked Certificates (save in each case, where "Maturity Capital Protection" is specified as being applicable in the relevant Issue Terms), will be reduced by the related credit loss and accordingly, will be less than the par value of the Credit Linked Securities and may be zero.

In the case of Single Name Credit Linked Securities, Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities (save in each case, where "Maturity Capital Protection" is specified as being applicable in the relevant Issue Terms), the Credit Event Amount will (i) where either Credit Event Amount (1) or Credit Event Amount (2) are specified as being applicable in the relevant Issue Terms, be calculated by reference to the fair market value of a hypothetical security issued by the Issuer on the same terms as the Credit Linked Securities but without taking account of the credit linked nature of such Credit Linked Securities and hence will be affected by any increase or decrease in our cost of funding or (ii) where Credit Event Amount (3) is specified to be applicable in the relevant Issue Terms, the Credit Event Amount will not be affected by any increase or decrease in our cost of funding. If "Zero Recovery" applies (in respect of a Credit Linked Security) in accordance with the Issue Terms, the Credit Event Amount will be zero.

In the case of Credit Linked Securities which are Tranch Index Credit Linked Securities or Tranch Basket Credit Linked Securities (save in each case, where "Maturity Capital Protection" is specified as being applicable in the relevant Issue Terms), the final redemption amount (in the case of a Credit Linked Note) or the settlement amount (in the case of a Credit Linked Certificate) will, once the aggregate losses (in respect of all affected Reference Entities which have been the subject of a Credit Trigger) exceed the "attachment point" specified in the relevant Issue Terms, be reduced by the incurred loss amount in respect of an affected Reference Entity. No Credit Event Amounts will be payable in respect of any Reference Entity affected by a Credit Trigger. If "Zero Recovery" applies in accordance with the Issue Terms, the Credit Event Loss Amount will be equal to the Triggered Amount in respect of an affected Reference Entity.

In the case of Credit Linked Securities in respect of which "Maturity Capital Protection" is applicable in accordance with the relevant Issue Terms, the redemption amount (in the case of a Credit Linked Note) or the settlement amount (in the case of a Credit Linked Certificate) of a Credit Linked Security upon (i) redemption or settlement (as applicable) shall (provided that in respect of Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities "Early Settlement" does not apply and) if the "Capital Protection Percentage" is specified to be 100 per cent., be an amount equal to the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) (if "Early Settlement" applies and the Credit Linked Securities are Linear Basket Credit Linked Securities

or Untranch Index Credit Linked Securities, the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) will be reduced by an amount equal to the Notional Amount attributable to each Reference Entity in respect of which a Credit Trigger has occurred and the latter amount will be paid to the holders on the earlier of the Scheduled Maturity Date and the date falling 10 Business Days following the date of the Credit Trigger) or (ii) where the "Capital Protection Percentage" is specified to be less than 100 per cent., and (A) the securities are Single Name Credit Linked Securities, be an amount equal to the higher of the Maturity Capital Protected Amount and the Credit Event Amount (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event the Maturity Capital Protected Amount shall be payable), or (B) the securities are Linear Basket Credit Linked Securities and Untranch Index Credit Linked Securities, be an amount equal to the Final Redemption Amount (if any) (in respect of a Credit Linked Note) or the Settlement Amount (if any) (in respect of a Credit Linked Certificate) and the Issuer will, if a Credit Trigger has occurred in respect of a Reference Entity, pay to the holder an amount equal to the higher of the Maturity Capital Protected Amount and the Credit Event Amount (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event the Maturity Capital Protected Amount shall be payable), or (C) the securities are Tranch Index Credit Linked Securities or Tranch Basket Credit Linked Securities, be an amount equal to the Final Redemption Amount (in respect of a Credit Linked Note) or the Settlement Amount (in respect of a Credit Linked Certificate) subject to a minimum of the Maturity Capital Protected Amount.

Following the occurrence of a Credit Trigger, interest will cease to accrue on the relevant proportion of the calculation amount of the Credit Linked Securities (being in respect of (i) Single Name Credit Linked Securities, Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities, the relevant Triggered Amount of the affected Reference Entity or (ii) Tranch Index Linked Credit Linked Securities or Tranch Basket Credit Linked Securities, the relevant Incurred Loss Amount of the affected Reference Entity) from and including (A) (if "No Interest accrual on a Credit Trigger " is specified to be applicable in the relevant Issue Terms), the first day of the Interest Period in which such Credit Trigger occurs or (B) (if "Interest accrual on a Credit Trigger" is specified to be applicable in the relevant Issue Terms) the date of the occurrence of a Credit Trigger, (or, in each case, if such Credit Trigger occurs (i) after the final Interest Period, from but excluding the last day of the final Interest Period or (ii) prior to the first Interest Period, from and including the first day of the first Interest Period). Any payments to holders of such Credit Linked Securities may be subject to substantial delay without compensation.

10. Credit Linked Securities may be redeemed or settled (as applicable) early other than as a result of a Credit Trigger

If "Redemption at the option of the Issuer" is specified to apply in the relevant Issue Terms, and the relevant conditions set forth in the General Instrument Conditions or the General Note Conditions (as applicable) are satisfied, we may redeem the Credit Linked Securities prior to the Scheduled Maturity Date in accordance with the terms of the Call Option.

If "Credit Trigger prevails over Call Option" is specified to be applicable in the relevant Issue Terms, and a Credit Trigger occurs after the date of the notice from the Issuer to the holders but, prior to redemption or settlement (as applicable) of the Credit Linked Securities pursuant to the Call Option on the relevant Optional Redemption Date (Call), then such notice from the Issuer shall be deemed to be of no effect and the Issuer will redeem (in the case of a Credit Linked Note) or (settle in the case of a Credit Linked Certificate) the Credit Linked Securities in accordance with the Credit Linked Conditions.

If our or our affiliates' performance under the Credit Linked Securities or any related hedging arrangement, or our affiliates' performance under the Credit Linked Securities had they been an issuer thereof or any related hedging arrangement had they been a party thereto, has or will become unlawful or impractical in whole or in part or there is a substantial likelihood of the same in the immediate future, we may redeem the Credit Linked Securities prior to the Scheduled Maturity Date at par less any costs which we would incur in unwinding the Reference CDS.

In respect of Credit Linked Notes only, if "Redemption at the option of Noteholders" is specified to apply in the applicable Issue Terms, and the relevant conditions set forth in the General Note Conditions are satisfied, holders may redeem the Credit Linked Notes prior to the Scheduled Maturity Date in accordance with the terms of the Put Option.

If "Credit Trigger prevails over Put Option" is specified to be applicable in the relevant Issue Terms, and a Credit Trigger occurs after the date of the notice from the holders to the Issuer but, prior to redemption of the Credit Linked Notes pursuant to the Put Option on the relevant Optional Redemption Date (Put), then such notice from the holders shall be deemed to be of no effect and the Issuer will redeem the Credit Linked Notes in accordance with the Credit Linked Conditions.

11. Scheduled Maturity Date is earliest date on which the Securities may be redeemed or settled (as applicable)

Subject to any early redemption of the Credit Linked Securities, in accordance with their terms, the Credit Linked Securities will either be redeemed at par (in the case of a Credit Linked Note) or settled by payment of the settlement amount (in the case of a Credit Linked Certificate) if no Credit Trigger has occurred or may subsequently occur under the terms of the Reference CDS. The earliest date on which the Credit Linked Securities will be redeemed or settled (as applicable) in such case is the Scheduled Maturity Date.

12. Redemption or settlement (as applicable) of the Securities may be deferred beyond the Scheduled Maturity Date

Redemption or settlement (as applicable) of the Credit Linked Securities (save in respect of Credit Linked Securities where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to be applicable in the relevant Issue Terms), in whole or, if applicable, in part, may be substantially deferred beyond the Scheduled Maturity Date, even if no Credit Trigger occurs, if there is a continuing risk that a Credit Trigger may occur after the Scheduled Maturity Date, for example, pending a resolution of the CDDC as to whether a Credit Event has occurred or, where a potential Credit Event occurs prior to the Scheduled Maturity Date, pending determination of whether it will become an actual Credit Event within a specified period following the Scheduled Maturity Date. If redemption or settlement (as applicable) of the Securities is deferred beyond the Scheduled Maturity Date, it may be deferred up until the Final Maturity Date which will be a date as specified in the relevant Issue Terms, subject to a maximum of six months following the Scheduled Termination Date of the Reference CDS.

13. Interest will cease to accrue from (and including) the Scheduled Termination Date

Interest will cease to accrue from (and including) the Scheduled Termination Date, notwithstanding that the Credit Linked Securities may be redeemed or settled (as applicable) after such date.

14. The latest date on which the Credit Linked Securities may be redeemed or settled (as applicable) is the Final Maturity Date

If, by the date which is five Business Days prior to the Final Maturity Date, the Credit Linked Securities (save in respect of Credit Linked Securities where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to apply in the relevant Issue Terms) have not yet been redeemed or settled (as applicable) in full, the Credit Linked Securities will be redeemed or settled (as applicable) on the Final Maturity Date. If, as at the Final Maturity Date, the Reference CDS has terminated, each Credit Linked Security will either be redeemed at their remaining principal amount (in the case of a Credit Linked Note) or settled by payment of the settlement amount (in the case of a Credit Linked Certificate) (in each case, taking into account any previous reductions as a result of credit losses). If, as at the Final Maturity Date, the Reference CDS would not yet have terminated, each Credit Linked Security will either be redeemed at its remaining principal amount (in the case of a Credit Linked Note) or settled by payment of the settlement amount (in the case of a Credit Linked Certificate) (in each case, taking into account any previous reductions as a result of credit losses) less any

unwind costs which we would incur in terminating the Reference CDS, provided that, where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of less than 100 per cent. are specified to apply in the relevant Issue Terms, such amount shall be subject to a minimum amount.

If "Maturity Capital Protection" applies in respect of the Credit Linked Securities pursuant to the relevant Issue Terms and the "Capital Protection Percentage" is specified to be 100 per cent. in the relevant Issue Terms, the Credit Linked Securities will be redeemed or settled (as applicable) on the Scheduled Maturity Date (as specified in the relevant Issue Terms).

15. No Collateral

The Credit Linked Securities are not secured over any assets of the relevant Issuer or relevant Guarantor.

DESCRIPTION OF THE CREDIT LINKED CONDITIONS AND THE REFERENCE CDS

The description of the Credit Linked Conditions and the Reference CDS set out below should be read as a summary of certain provisions thereof, and does not contain all information that may be important to prospective investors.

The remainder of this Section is divided into the following parts:

- *Part 1 summarises certain terms set out in the Credit Linked Conditions which are specific to Credit Linked Securities,*
- *Part 2 summarises the terms of the hypothetical credit default swap transaction(s) to which the Credit Linked Securities are linked and describes aspects of the credit default swap market, including the Credit Derivatives Determinations Committees established by the International Swaps and Derivatives Association, Inc., and*
- *Part 3 describes certain relevant terms of such hypothetical credit default swaps in more detail, including as to applicable credit triggers and settlement.*

PART 1: THE CREDIT LINKED SECURITIES

Terms of the Credit Linked Securities

The terms of Credit Linked Securities are comprised of the General Instrument Conditions (in respect of Credit Linked Certificates) and the General Note Conditions (in respect of Credit Linked Notes), as modified, in each case, by provisions specific to Credit Linked Securities (referred to as the "Credit Linked Conditions" and set out in this Base Prospectus). The Issue Terms applicable to a particular issue of Credit Linked Securities will set out the elections which apply for the purposes of that issuance. Prospective investors in the Credit Linked Securities should ensure that they have read and understood each of the General Instrument Conditions or the General Note Conditions (as applicable), the Credit Linked Conditions and the relevant Issue Terms, and have taken any advice that they require in order to fully understand the terms of the Credit Linked Securities.

This Part 1 of this Section summarises certain aspects of the Credit Linked Conditions.

Types of Credit Linked Securities issuable under the Credit Linked Conditions

The Issuer can issue the following types of Credit Linked Securities pursuant to the Credit Linked Conditions:

(a) **Single Name Credit Linked Securities**

Single Name Credit Linked Securities represent an investment linked to the performance of only one Reference Entity (subject to the occurrence of a succession event) specified in the relevant Issue Terms.

Multiple Credit Triggers may occur in respect of Single Name Credit Linked Securities in accordance with the terms of the Reference CDS if a M(M)R Restructuring Credit Event has occurred or successors have been determined in respect of a Reference Entity.

(b) **Linear Basket Credit Linked Securities**

Linear Basket Credit Linked Securities represent an investment linked to the performance of a basket of Reference Entities specified in the relevant Issue Terms and holders are exposed to the credit risk of each Reference Entity in the basket in proportion to the weighting specified for such Reference Entity in the relevant Issue Terms.

Multiple Credit Triggers, may occur with respect to more than one Reference Entity in accordance with the terms of the Reference CDS if a M(M)R Restructuring Credit Event has occurred or successors have been determined in respect of a Reference Entity.

(c) **Untranch Index Credit Linked Securities**

Untranch Index Credit Linked Securities represent an investment linked to the performance of component Reference Entities of an Index specified in the relevant Issue Terms. Such Index may be either an iTraxx® Index or a CDX® Index. The Untranch Index Credit Linked Securities are exposed to the credit risk of each Reference Entity in the relevant Index in proportion to the weighting specified for such Reference Entity in the relevant Index Annex.

Multiple Credit Triggers, may occur with respect to more than one Reference Entity in accordance with the terms of the Reference CDS if a M(M)R Restructuring Credit Event has occurred or successors have been determined in respect of a Reference Entity.

(d) **Tranch Index Credit Linked Securities**

Tranch Index Credit Linked Securities represent an investment linked to the performance of component Reference Entities of an Index specified in the relevant Issue Terms, although such Tranch Index Credit Linked Securities are only exposed to the incurred losses in respect of a specified tranche of that Index. Such Index may be either an iTraxx® Index or a CDX® Index. Tranch Index Credit Linked Securities are accordingly exposed to the credit risk of each Reference Entity in the relevant Index in proportion to the weighting specified for such Reference Entity in the relevant Index Annex, to the extent that losses suffered by the affected Reference Entities fall within such prescribed tranche.

Multiple Credit Triggers, may occur with respect to more than one Reference Entity in accordance with the terms of the Reference CDS if a M(M)R Restructuring Credit Event has occurred or successors have been determined in respect of a Reference Entity.

(e) **Tranch Basket Credit Linked Securities**

Tranch Basket Credit Linked Securities represent an investment linked to the performance of component Reference Entities of a bespoke basket specified in the relevant Issue Terms, although such Tranch Basket Credit Linked Securities are only exposed to the incurred losses in respect of a specified tranche of that basket. Tranch Basket Credit Linked Securities are accordingly exposed to the credit risk of each Reference Entity in the relevant basket in proportion to the weighting specified for such Reference Entity in the relevant Issue Terms, to the extent that losses suffered by the affected Reference Entities fall within such prescribed tranche.

Multiple Credit Triggers, may occur with respect to more than one Reference Entity in accordance with the terms of the Reference CDS if a M(M)R Restructuring Credit Event has occurred or successors have been determined in respect of a Reference Entity.

Information on the Indices referenced under Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities

Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities may reference an index that is either an iTraxx® index or a CDX® index.

The iTraxx indices cover the most liquid names in the European, Asian, Middle Eastern and African markets and the selection methodology ensures that the indices represent the most liquid parts of the market. For instance, the benchmark iTraxx® Europe Main index comprises European names with sub-indices such as Markit iTraxx® Europe Senior Financials and Markit iTraxx® Subordinated Financials index. The iTraxx® Crossover index comprises the most liquid sub-investment grade entities. The Asia-Pacific iTraxx® indices cover the investment-grade iTraxx® Asia ex-Japan index, the iTraxx® Australia index and the iTraxx® Japan index. In addition, the iTraxx® CEEMEA index covers corporate and quasi-sovereign entities from Central & Eastern European, Middle Eastern and African countries.

The CDX indices are a family of credit indices covering North America and emerging markets having a selection methodology representing the markets most liquid segments. They cover sub-indices including CDX® North American Investment Grade, CDX® North American Investment Grade High Volatility, CDX® North American High Yield, CDX® North American High Yield High Beta, CDX® Emerging

Markets, CDX® Emerging Markets Diversified. Markit also publishes a CDS index of U.S. state and municipal Reference Entities commonly referred to as the MCDX® index.

More information relating to the various credit indices and standard documentation published by the Index Sponsor can be obtained from: <https://www.markit.com> (or any successor website).

Important information in respect of Markit Indices

Holders should note that Untranch Index Credit Linked Securities and Tranch Index Credit Linked Securities are linked to a Markit-published index via a hypothetical index linked credit derivative transaction and important information in respect of the relevant index may be found on Markit's website at www.markit.com (or any successor website). The information on Markit's website includes the standard terms supplement for the applicable credit derivative transaction, the most recent and archived annexes of Reference Entities for the applicable index and the rules of the applicable index. Markit publishes many of the most widely traded credit default swap indices. With respect to Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities based on a credit derivative transaction, the Issue Terms will specify the relevant terms for that credit derivative transaction published by Markit, the list of the relevant Index CDS (with the relevant annex date) to be incorporated as published by Markit and the effective date of that credit derivative transaction.

The Index Annex referenced in any relevant Issue Terms is the property of Markit Indices GmbH (or any successor) and has been licensed for use in connection with the relevant series of Untranch Index Credit Linked Securities and/or Tranch Index Credit Linked Securities. Each Investor acknowledges and agrees that the such Credit Linked Securities are not sponsored, endorsed or promoted by the Index sponsor. The Index sponsor makes no representation whatsoever, whether express or implied, and hereby expressly disclaims all warranties (including, without limitation, those of merchantability or fitness for a particular purpose or use), with respect to the Index Annex or any data included therein or relating thereto, and in particular disclaims any warranty either as to the quality, accuracy and/or completeness of the Index Annex or any data included therein, the results obtained from the use of the Index Annex and/or the composition of the Index Annex at any particular time on any particular date or otherwise and/or the creditworthiness of any entity, or the likelihood of the occurrence of a credit event or similar event (however defined) with respect to an obligation, in the Index Annex at any particular time on any particular date or otherwise. The Index sponsor shall not be liable (whether in negligence or otherwise) to the parties or any other person for any error in the Index Annex, and the Index sponsor is not under any obligation to advise the parties or any person of any error therein.

The Index sponsor makes no representation whatsoever, whether express or implied, as to the advisability of purchasing or selling the Credit Linked Securities, the ability of the Index Annex to track relevant markets' performances, or otherwise relating to the Index Annex or any transaction or product with respect thereto, or of assuming any risks in connection therewith. The Index Sponsor has no obligation to take the needs of any party into consideration in determining, composing or calculating the Index Annex. No party purchasing or selling the Credit Linked Securities, nor the Index sponsor, shall have any liability to any party for any act or failure to act by the Index sponsor in connection with the determination, adjustment, calculation or maintenance of the Index Annex.

The Goldman Sachs Group has an ownership interest in Markit Group Limited ("**Markit**"), the owner and manager of various indices including, but not limited to, the Markit iTraxx® indices, and as such may be able to influence the methodology and other features of such indices. In addition, members of the Goldman Sachs Group may provide pricing or other data that is directly used in the calculation of the level, coupon and/or components of the indices. The activities of the Goldman Sachs Group members as contributor to any index may be adverse to the interests of counterparties to swaps referencing such index and may have an impact on the performance of such index.

iTraxx® is a registered trade mark of Markit (formerly known as International Index Company Limited).

Credit Triggers

A Credit Trigger will occur if we (in our capacity as Calculation Agent) notify the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) that we have determined that an Event Determination Date would occur under a hypothetical credit default

swap referencing the relevant Reference Entity(ies) (such swap transaction being referred to in the Credit Linked Conditions and below as a "**Reference CDS**") following the occurrence of a Credit Event. The Reference CDS is hypothetical only, and is assumed to exist only for the purposes of making calculations under the Credit Linked Securities.

A Credit Event is, broadly speaking, an event which is regarded as being indicative of a decline in the creditworthiness of a Reference Entity, and may include, for example:

- default by a Reference Entity in making payments due on its debts;
- insolvency or similar proceedings in relation to a Reference Entity;
- the restructuring of a Reference Entity's debts;
- repudiation of the debts of a Reference Entity or a moratorium on payments;
- acceleration of the indebtedness of a Reference Entity following a default; and
- a government-initiated bail-in of a Reference Entity's debts.

The applicable Credit Events will vary depending on the identity of each Reference Entity, and will be determined by reference to market standards unless otherwise specified in the Issue Terms for Exempt Securities only. See Part 3 of this Section for further details as to those events and circumstances which may comprise Credit Events.

A Credit Trigger may occur as a result of the publication by DC Administrations Services, Inc. or any successor (the "**DC Secretary**") of a resolution by a Credit Derivatives Determination Committee (referred to as a "**CDDC**") that a Credit Event has occurred in relation to that Reference Entity, so long as that resolution would be effective for the purposes of the Reference CDS. See Part 2 of this Section for more information as to the International Swaps and Derivatives Association, Inc. ("**ISDA**") and CDDCs generally.

If the CDDC has not been convened to determine whether a Credit Event has occurred or if, notwithstanding a request being made to a CDDC to determine whether a Credit Event has occurred, the CDDC resolves not to make the determination or no determination is made by the CDDC, a Credit Trigger may also occur if we deliver a notice and supporting information to the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) equivalent to the notice and supporting information which a buyer of credit protection under the Reference CDS would be required to deliver in order to trigger settlement of that transaction following a Credit Event. However, unless the Credit Linked Securities have previously been redeemed (in the case of a Credit Linked Note) or settled (in the case of a Credit Linked Certificate) or a relevant Valuation Date has occurred, a resolution of a CDDC to the effect that a given event does not constitute a Credit Event will be binding for the purposes of the Credit Linked Securities and will prevail over a notice of a Credit Event given by us in our capacity as Calculation Agent, if such resolution would be binding on the parties to the Reference CDS.

Redemption or Settlement (as applicable) following a Credit Trigger

If we notify the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) that a Credit Trigger has occurred in relation to a Reference Entity, then unless previously cancelled, redeemed or, if applicable, settled in full:

- if the Credit Linked Securities are Single Name Credit Linked Securities (provided that "Maturity Capital Protection" is not specified to apply in the applicable Issue Terms), each Credit Linked Security will be, redeemed or settled, as applicable, in full by payment of a credit event amount (referred to as the "**Credit Event Amount**"), such amount will be less than the Specified Denomination (in the case of a Credit Linked Note) or the Nominal Amount (in the case of a Credit Linked Certificate). Upon payment of the Credit Event Amount we will have no further obligations under the Credit Linked Securities, provided that if the Credit Trigger relates to an M(M)R Restructuring Credit Event, we may elect to trigger redemption of such

Credit Linked Securities in whole or in part; if we elect to redeem the Credit Linked Securities in part only, the Credit Event Amount payable will be calculated accordingly and the Credit Linked Securities will remain outstanding in a reduced principal amount (in the case of a Credit Linked Note) or a reduced nominal amount (in the case of a Credit Linked Certificate) to the extent not so triggered. If "Zero Recovery" applies, the Credit Event Amount will be zero;

- in the case of Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities (provided that "Maturity Capital Protection" is not specified to apply in the applicable Issue Terms), if a Credit Trigger occurs in respect of any one of the Reference Entities (i) in the basket (in the case of a Linear Basket Credit Linked Security) or (ii) comprising the Index (in the case of an Untranch Index Credit Linked Security), the amount payable on final redemption (in the case of a Credit Linked Note) or settlement (in the case of a Credit Linked Certificate) of such Credit Linked Security at maturity will be reduced by:
 - (a) if "Settlement at Maturity" applies, the related Credit Event Loss Amount; or
 - (b) if "Settlement following Credit Trigger" applies, the Triggered Amount of the affected Reference Entity, and the related Credit Event Amount will be payable on the Credit Linked Securities following the determination of such amount (save where "Delayed Settlement" is specified to be applicable in the relevant Issue Terms, in which case any Credit Event Amount will not be payable until the later of the Scheduled Maturity Date and the date falling 10 Business Days following the determination of the related Final Price), (unless "Zero Recovery" is applicable, in which event no Credit Event Amount shall be payable);
- in the case of Tranch Index Credit Linked Securities or Tranch Basket Credit Linked Securities (provided that "Maturity Capital Protection" is not specified to apply in the applicable Issue Terms), if a Credit Trigger occurs in respect of any one of the Reference Entities (i) comprised in the Index specified in the relevant Issue Terms (in the case of a Tranch Index Credit Linked Security) or (ii) in the bespoke basket specified in the relevant Issue Terms (in the case of a Tranch Basket Credit Linked Security), and, in each case, the aggregate losses in respect of all of the Reference Entities which have been the subject of a Credit Trigger exceed the "attachment point" specified in the relevant Issue Terms, the amount payable on final redemption (in the case of a Credit Linked Note) or settlement (in the case of a Credit Linked Certificate) of such Credit Linked Security at maturity will be reduced by the related Incurred Loss Amount (Unless "Zero Recovery" is applicable, in which event it will be reduced by the applicable Triggered Amount).
- In the case of Credit Linked Securities where "Maturity Capital Protection" is specified to apply in the applicable Issue Terms, and:
 - (i) the "Capital Protection Percentage" is specified to be 100 per cent. in the relevant Issue Terms, the redemption amount (in the case of a Credit Linked Note) or the settlement amount (in the case of a Credit Linked Certificate) of a Credit Linked Security upon maturity shall be equal to the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) (if "Early Settlement" applies and the Credit Linked Securities are Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities, the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) will be reduced by an amount equal to the Notional Amount attributable to each Reference Entity in respect of which a Credit Trigger has occurred and the latter amount will be paid to the holders on the earlier of the Scheduled Maturity Date and the date falling 10 Business Days following the date of the Credit Trigger); or
 - (ii) the "Capital Protection Percentage" is specified to be less 100 per cent. in the relevant Issue Terms, and:
 - (A) the securities are Single Name Credit Linked Securities, each such Credit Linked Security will redeemed or settled (as applicable) at an amount equal to the higher of the Maturity Capital Protected Amount and the Credit Event Amount (unless

"Zero Recovery" is applicable in accordance with the Issue Terms, in which event the Maturity Capital Protected Amount shall be payable); or

- (B) the Securities are Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities, each Credit Linked Note will be redeemed by (x) payment of the Final Redemption Amount (if any) and each Credit Linked Certificate will be settled by payment of the Settlement Amount (if any), in each case, subject to reduction following a Credit Trigger, and (y) if a Credit Trigger has occurred in respect of a Reference Entity, payment of an amount equal to the higher of the Maturity Capital Protected Amount and the Credit Event Amount (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event the Maturity Capital Protected Amount shall be payable); or
- (C) the securities are Tranch Index Credit Linked Securities or Tranch Basket Credit Linked Securities, each such Credit Linked Note will be redeemed by payment of the Final Redemption Amount and each Credit Linked Certificate will be settled by payment of the Settlement Amount, in each case, as reduced following the occurrence of a Credit Trigger provided that, the Final Redemption Amount or the Settlement Amount (as applicable) shall be subject to a minimum equal to the relevant Maturity Capital Protected Amount.

Where a Credit Event Amount is payable and (i) such amount is specified in the applicable Issue Terms to be (A) Credit Event Amount (1), it will be determined by reference to the amount of a hypothetical security on the same terms as the Credit Linked Security, (save that the hypothetical security is not a Credit Linked Security) reduced by the related credit losses in respect of the Reference Entity or (B) Credit Event Amount (2), it will be determined by multiplying the Triggered Amount by the value of a hypothetical security on the same terms as the Credit Linked Securities but without taking account of the credit linked nature of such Credit Linked Securities and further multiplying the resulting figure by the minimum of 100 per cent. and the Final Price, which will, in each case, reflect the cost or gain to us of replacing the funding (or the relevant part of the funding) represented by the Credit Linked Securities, including any costs of unwinding underlying and/or related hedging and funding arrangements; or (ii) such amount is specified in the applicable Issue Terms to be Credit Event Amount (3) it will not reflect the cost or gain to us of replacing the funding (or the relevant part of the funding) represented by the Credit Linked Securities, including any costs of unwinding underlying and/or related hedging and funding arrangements. Accordingly, holders of the Credit Linked Securities should expect to suffer a material loss of investment following the occurrence of a Credit Trigger.

The part of the principal amount (in the case of a Credit Linked Note) or the nominal amount (in the case of a Credit Linked Certificate) of each Credit Linked Security which is subject to redemption or, if applicable, settlement, or in respect of which only a Credit Event Loss Amount is determined as set out above following a Credit Trigger is referred to as a "**Triggered Amount**".

The Triggered Amount may be less than the entire Notional Amount allocated to the credit risk of the affected Reference Entity, if we elect to trigger settlement in part only in respect of an M(M)R Restructuring Credit Event or if multiple successor Reference Entities have previously been determined resulting in the allocation of the Notional Amount amongst such successor Reference Entities.

The Credit Event Amount (which is likely to be significantly less than the outstanding principal amount (in the case of a Credit Linked Note) or the outstanding nominal amount (in the case of a Credit Linked Certificate) of each Credit Linked Security and may be zero) will reflect the prevailing market price of the relevant obligations of the affected Reference Entity and may (if a Credit Event Amount is payable and where the relevant Issue Terms specify Credit Event Amount (1) or Credit Event Amount (2) to be applicable) be reduced by an amount to reflect the cost to us of replacing the funding we received by issuing the Credit Linked Securities.

Final Price

Credit losses in respect of the Credit Linked Securities will be determined by reference to the "Final Price" determined in connection with the related Credit Trigger. Such Final Price may be specified as zero. Otherwise, the Final Price will be a price set by way of a credit derivatives auction (referred to in

the Credit Linked Conditions and below as an "**Auction**"), if the Calculation Agent determines that the price determined by way of such auction would form the basis for settlement of the Reference CDS.

There may be one or more auctions held concurrently, either as required for the purposes of settling credit default swaps of varying maturities following an M(M)R Restructuring Credit Event or where Auctions are conducted in relation to senior and subordinated obligations of the relevant Reference Entity. In such case we will select the Auction which will be relevant for the purposes of the Credit Linked Securities as that which would be relevant for the purposes of the Reference CDS. If the buyer of credit protection under the Reference CDS would be entitled to select from multiple Auctions, then the Calculation Agent will have a corresponding entitlement under the terms of the Credit Linked Securities. See Part 3 below for a description of credit derivatives auctions generally.

The price determined through an Auction is likely to be significantly lower than the par value of the eligible obligations of the relevant Reference Entity and will be reflective of a credit loss experienced by the holder of such eligible obligations or assets, as against the par value thereof. Moreover, the auction final price is likely to reflect the lowest prevailing market value of any eligible obligation or asset.

If we, in our capacity as Calculation Agent, determine that there is not and will not be a relevant Auction for the purposes of the Credit Linked Securities in relation to a particular Credit Trigger (or, in respect of Credit Linked Securities where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to be applicable in the relevant Issue Terms, the Auction will not occur prior to Scheduled Maturity Date), then the price by reference to which the Credit Event Loss Amount is calculated, will be determined on the basis of the bid quotations sought by us from third party dealers for obligations (direct or indirect) of the relevant Reference Entity, or assets, which would be eligible for delivery in settlement of the Reference CDS. In such case we will be entitled to, and will, select the cheapest eligible obligation or asset for valuation – that is, the obligation or asset which when valued will result in the greatest credit loss for holders of the Credit Linked Securities.

GS Credit, Hedge Termination and Funding Breakage Risk Costs

The following applies only to Single Name Credit Linked Securities, Linear Basket Credit Linked Securities and Untranch Index Credit Linked Securities where Credit Event Amount (1) or Credit Event Amount (2) are specified to apply in the relevant Issue Terms.

Where, following the occurrence of a Credit Trigger, we are required to redeem or settle (as applicable) the Credit Linked Securities, to the extent of the Triggered Amount of the principal amount (in the case of a Note) or the nominal amount (in the case of a Certificate) of the Credit Linked Securities, prior to the Scheduled Maturity Date of the Credit Linked Securities, the amount payable to the holders of the Credit Linked Securities will be determined (A) if Credit Event Amount (1) is specified to be applicable, by reference to the amount of a hypothetical security (being the fair market value of such security) which, for the avoidance the doubt, shall not be a credit linked security or (B) if Credit Event Amount (2) is specified to be applicable, by reference to the fair market value of a hypothetical security on the same terms as the Credit Linked Securities but without taking account of the credit linked nature of such Credit Linked Securities, which will, in each case reflect the cost or gain to us of replacing the funding (or the relevant part of the funding) represented by the Credit Linked Securities, including any costs of unwinding underlying and/or related hedging and funding arrangements.

As a result of the use of the concept of a hypothetical security in the determination of the Credit Event Amount (where Credit Event Amount (1) or Credit Event Amount (2) are specified to apply in respect of the Credit Linked Securities in the relevant Issue Terms), holders of the Credit Linked Securities will be exposed to the credit risk of The Goldman Sachs Group, Inc. following the occurrence of a Credit Trigger, even where we are able to, and do, continue to make all payments due in respect of the Credit Linked Securities.

Prospective investors in the Credit Linked Securities should be aware that a Credit Trigger may be more likely to occur in circumstances where our cost of funding increases (for example, where the credit risks associated with financial institutions generally are increased, or where funding markets in the currency of the Credit Linked Securities are illiquid) and hence a decrease in the value or amount (as applicable) of the hypothetical security determined above may itself result in market disruption leading to an increase in our cost of funding.

Prospective investors in the Credit Linked Securities should therefore consider the information which is set out in the Base Prospectus as to the risks associated with an investment in the debt obligations issued by The Goldman Sachs Group, Inc. and may wish to refer to public sources of information as to the credit spreads of such entity. However, prospective investors should note that the methodology for valuing or determining the amount (as applicable) of the hypothetical security may not reflect credit spreads of The Goldman Sachs Group, Inc. which are available from public sources of information.

Prospective investors should also be aware that the timing of a Credit Trigger may affect the value or amount (as applicable) of the hypothetical security. The value or amount (as applicable) of the hypothetical security will be calculated taking into account the period from the early redemption date or the early settlement date (as applicable) to the Scheduled Maturity Date of the Credit Linked Securities. Therefore, the earlier a Credit Trigger occurs, the lower the value or amount (as applicable) of the hypothetical security is likely to be.

Payment of the Credit Event Amount and/or the Settlement Amount (in the case of Certificates) and/or the Final Redemption Amount (in the case of Notes)

For Single Name Credit Linked Securities, Linear Basket Credit Linked Securities and Untranch Index Credit Linked Securities, in respect of which "Maturity Capital Protection" is not specified to be applicable in the relevant Issue Terms and where "Settlement following Credit Trigger" applies, the Credit Event Amount will be payable no later than ten Business Days following the date on which the related Final Price is determined, which may fall prior to the Scheduled Maturity Date (save where "Settlement at Maturity" is specified to apply in the applicable Issue Terms in respect of Single Name Credit Linked Securities or "Delayed Settlement" is specified to apply in the applicable Issue Terms in respect of Linear Basket Credit Linked Securities or Untranch Index Credit Linked Securities", in which case, the Credit Event Amount will be payable on the later of the Scheduled Maturity Date and the date falling 10 Business following the determination of the related Final Price). The Credit Event Amount may be payable after the Scheduled Maturity Date of the Credit Linked Securities, whether because the relevant Credit Trigger occurs shortly prior to or following the Scheduled Maturity Date of the Credit Linked Securities, because of a delay in holding an Auction or, if applicable, where circumstances apply which would result in delayed physical settlement of a Reference CDS.

For Linear Basket Credit Linked Securities and Untranch Index Credit Linked Securities, in respect of which "Maturity Capital Protection" is not specified to be applicable in the relevant Issue Terms, the final amount payable on the Credit Linked Securities (if any) (the "**Settlement Amount**" (in the case of Certificates)) or (the "**Final Redemption Amount**" (in the case of Notes)) will not be payable prior to the Scheduled Maturity Date and will only be payable following determination of the last Credit Event Loss Amount (or where "Settlement following Credit Trigger" applies, the last date for payment of any Credit Event Amount, if later, unless "Delayed Settlement" is specified to be applicable in the relevant Issue Terms, in which case the Final Redemption Amount or the Settlement Amount will not be payable prior to the Scheduled Maturity Date and will only be payable following the last date for payment of any Credit Event Amount), which may fall after the Scheduled Maturity Date.

For Tranch Index Credit Linked Securities and Tranch Basket Credit Linked Securities, in respect of which "Maturity Capital Protection" is not specified to be applicable in the relevant Issue Terms and, the amount payable on the Credit Linked Securities (if any) (the "**Settlement Amount**" (in the case of Credit Linked Certificates)) or (the "**Final Redemption Amount**" (in the case of Credit Linked Notes)) will not be payable prior to the Scheduled Maturity Date and will only be payable following the determination of the last Incurred Loss Amount, which may fall after the Scheduled Maturity Date.

For Credit Linked Securities where "Maturity Capital Protection" is specified to be apply in the relevant Issue Terms, the earliest date on which such Credit Linked Securities may be redeemed or settled (as applicable) is the Scheduled Maturity Date (unless each of "Early Settlement" and a "Capital Protection Percentage" of 100 per cent. are specified to apply in the relevant Issue Terms, in which case such Credit Linked Securities will be redeemed on the earlier of the Scheduled Maturity Date and the date falling 10 Business Days following the date of the related Credit Trigger) and where the "Capital Protection Percentage" is specified to be less than 100 per cent. in the relevant Issue Terms, the redemption or settlement (as applicable) of such securities may occur after the Scheduled Maturity Date.

Redemption or settlement (as applicable) in the absence of a Credit Trigger

If we determine, in our capacity as Calculation Agent, that no Credit Trigger or no further Credit Triggers can occur, because the permitted period for triggering settlement of a Reference CDS has expired, then (i) (save where the relevant Issue Terms specify "Maturity Capital Protection" to apply) the Credit Linked Securities will be redeemed at par by payment of the Final Redemption Amount (in the case of a Credit Linked Note) or the Settlement Amount (in the case of a Credit Linked Certificate), (in each case, to the extent not previously triggered) or (ii) (where the relevant Issue Terms specify "Maturity Capital Protection" to apply) and where (A) the "Capital Protection Percentage" is specified to be 100 per cent. in the relevant Issue Terms, will be redeemed by payment of an amount equal to the Specified Denomination (in the case of a Credit Linked Note) or settled by payment of an amount equal to the Nominal Amount (in the case of a Credit Linked Certificate), in each case to the extent not previously triggered or (B) the "Capital Protection Percentage" is specified to be less than 100 per cent. in the relevant Issue Terms, the Credit Linked Securities will, in each case, be redeemed at par by payment of the Final Redemption Amount (in the case of a Credit Linked Note) or the Settlement Amount (in the case of a Credit Linked Certificate), (in each case, to the extent not previously triggered). The earliest date on which the Credit Linked Securities will be redeemed or settled (as applicable) in accordance with the above is the Scheduled Maturity Date and the Credit Linked Securities (other than Credit Linked Securities in respect of which "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to be applicable in the relevant Issue Terms) may be redeemed or settled (as applicable) on a date falling after of the Scheduled Maturity Date. The Scheduled Termination Date of the Reference CDS and the Scheduled Maturity Date of the Credit Linked Securities will each be specified in the Issue Terms.

However, redemption of the Credit Linked Notes or settlement of the Credit Linked Certificates (other than Credit Linked Notes or Credit Linked Certificates in respect of which each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to be applicable in the relevant Issue Terms) may be substantially delayed even where no Credit Trigger is ultimately deemed to have occurred, for example, where:

- a request is made to a CDDC to determine the occurrence or non-occurrence of a Credit Event but the CDDC has not yet made a related resolution, for example pending an external review of available information or otherwise (see below);
- where "Repudiation/Moratorium" is an applicable Credit Event (see below), if a potential such Credit Event has occurred; or
- where "Grace Period Extension" is applicable, pending expiry of a relevant grace period.

It is possible that, as a result of an earlier Credit Trigger, a Credit Event Amount may remain to be paid in relation to a Triggered Amount of the Credit Linked Securities; any relevant Triggered Amounts will be deducted from the amount paid as set out above.

Redemption or settlement (as applicable) at Final Maturity Date

If redemption of the Credit Linked Notes or settlement of the Credit Linked Certificates (save in respect of Credit Linked Securities in respect of which each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to be applicable in the relevant Issue Terms) is deferred beyond the Scheduled Maturity Date it may be deferred up until the **"Final Maturity Date"** which will be a date specified in the Issue Terms for the Credit Linked Securities, being a date falling six months following the Scheduled Termination Date of the Reference CDS (or, if such date is not a Business Day, the next following Business Day).

If, by the date falling five Business Days prior to the Final Maturity Date, the Credit Linked Securities have not been redeemed (in the case of Credit Linked Notes) or settled (in the case of Credit Linked Certificates) in full, then the Credit Linked Securities will be redeemed or settled, as applicable, at their remaining principal amount (in the case of a Credit Linked Note) or their remaining nominal amount (in the case of a Credit Linked Certificate) (in each case, as reduced previously following the occurrence of Credit Triggers) to the extent that they remain outstanding, less (where the Reference CDS has not terminated as at such date) any costs which would be incurred by us in unwinding the Reference CDS. Such costs will be determined by reference to the lowest firm offer-side quotation received by us as Calculation Agent for the entry into a replacement transaction corresponding to the Reference CDS (referred to as **"Reference CDS Unwind Costs"**). For such purpose we will seek quotations from at least

five third party dealers on a date falling on or around five Business Days prior to the Final Maturity Date: If no such quotation is available on such date, we will determine Reference CDS Unwind Costs acting in good faith and in a commercially reasonable manner. Such costs may reflect the probability that a Credit Trigger will occur and/or the likely market value of the direct or indirect obligations of the relevant Reference Entity following such Credit Trigger. Such costs may also reflect the spread charged by market counterparties in relation to any such unwind.

Credit Linked Securities in respect of which each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to apply in accordance with the relevant Issue Terms will, subject to an early redemption or settlement of the Securities in accordance with the Conditions, settle or redeem (as applicable) on the Scheduled Maturity Date unless "Early Settlement" is specified to apply in the relevant Issue Terms, in which case the Credit Linked Securities will be redeemed on the earlier of the Scheduled Maturity Date and the date falling 10 Business Days following the date of the related Credit Trigger.

Early redemption in case of illegality

If our or our affiliates' performance under the Credit Linked Securities or any related hedging arrangement, or our affiliates' performance under the Credit Linked Securities had they been an issuer thereof or any related hedging arrangement had they been a party thereto, has or will become unlawful or impractical in whole or in part or there is a substantial likelihood of the same in the immediate future, we may notify the Principal Programme Agent (in the case of Certificates) or the Fiscal Agent (in the case of Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) accordingly stipulating a date for redemption of the Credit Linked Notes or settlement of the Credit Linked Certificates. In such case the Credit Linked Securities will be redeemed or settled, as applicable at their fair market value, adjusted to account fully for any reasonable expenses and costs we and/or our affiliates incur, including relating to the unwinding of any underlying and/or related hedging and funding arrangement.

Early redemption following the merger with a Reference Entity

If we consolidate or amalgamate with, or merge into, or transfer all or substantially all our assets to, a Reference Entity or we and a Reference Entity become affiliates, we may notify the Principal Programme Agent (in the case of Certificates) or the Fiscal Agent (in the case of Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) accordingly stipulating a date for redemption of the Credit Linked Notes or settlement of the Credit Linked Certificates. In such case the Credit Linked Securities will be redeemed or settled, as applicable at their fair market value, adjusted to account fully for any reasonable expenses and costs we and/or our affiliates incur, including relating to the unwinding of any underlying and/or related hedging and funding arrangement.

Interest is payable on a reduced amount if a Credit Trigger occurs

If a Credit Trigger occurs, the amount on which interest is calculated for the purposes of the Credit Linked Securities will be reduced by the related Triggered Amount (or in the case of Tranche Index Credit Linked Securities or Tranche Basket Credit Linked Securities, the Incurred Loss Amount determined in respect of the affected Reference Entity, once the aggregate losses exceed the "attachment point" specified in the relevant Issue Terms) upon and with effect from and including (A) (if "No Interest accrual on a Credit Trigger" is specified to be applicable in the relevant Issue Terms), the first day of the Interest Period in which such Credit Trigger occurs or (B) (if "Interest accrual on a Credit Trigger" is specified to be applicable in the relevant Issue Terms) the date of the occurrence of a Credit Trigger, (or, in each case, if such Credit Trigger occurs (i) after the final Interest Period, from but excluding the last day of the final Interest Period or (ii) prior to the first Interest Period, from and including the first day of the first Interest Period). If such Triggered Amount is equal to the full remaining principal amount outstanding (in the case of a Credit Linked Note) or the full remaining nominal amount outstanding (in the case of a Credit Linked Certificate) of the Credit Linked Securities, the interest calculation amount will accordingly be reduced to zero and no further interest will be payable on the Credit Linked Securities.

Accordingly, the occurrence of a Credit Trigger will result in a loss of interest for holders of the Credit Linked Securities.

Interest will cease to accrue from the Scheduled Termination Date

Unless otherwise specified in the Issue Terms in respect of Exempt Securities only, interest will cease to accrue from (and including) the Scheduled Termination Date.

Suspension of Obligations

If the Calculation Agent determines that, under the terms of the Reference CDS, the obligations of the parties would be suspended pending a resolution of a CDDC, then, subject to redemption or settlement (as applicable) on the Final Maturity Date (or the Scheduled Maturity Date where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to apply in the relevant Issue Terms), all of our obligations in respect of the Notional Amount (or, if applicable a lower amount) attributed to the relevant Reference Entity under each Credit Linked Security (including any obligation to deliver any notices, pay any interest, principal amount (in respect of a Credit Linked Note) or settlement amount (in respect of a Credit Linked Certificate) or to make any delivery) will, be and remain suspended until the Business Day following the day the DC Secretary publicly announces that the relevant CDDC has resolved the matter in question or not to determine such matters. No interest will accrue on the Notional Amount (or, if applicable a lower amount) attributed to the relevant Reference Entity during each portion of any interest accrual period during which the Issuer's obligations are suspended and if an interest payment date falls during such suspension period then, provided that the CDDC resolves that no Credit Trigger occurred (or resolves not to determine the question), such interest payment date will be deferred until the first interest payment date following such CDDC resolution or determination or, if none, the date on which each Credit Linked Note is redeemed in whole or each Credit Linked Certificate is settled in whole, following the end of the suspension period, or if none, a date determined in accordance with the Credit Linked Conditions.

PART 2: CREDIT DEFAULT SWAPS AND THE REFERENCE CDS

Overview

Payments on the Credit Linked Securities are linked to the Reference CDS, being a hypothetical credit default swap transaction. The Reference CDS is hypothetical only, and is assumed to exist only for the purposes of making calculations under the Credit Linked Securities. Events, discretions, determinations and payments which would occur under the terms of the Reference CDS may affect the amounts payable under the Credit Linked Securities, as well as the timing of such payments, and may result in losses for holders of the Credit Linked Securities. For example, in its determination of whether or not a Credit Trigger has occurred for the purposes of the Credit Linked Securities, the Calculation Agent will consider whether or not settlement of a Reference CDS would have been triggered as a result of a Credit Event. Accordingly, prospective holders of Credit Linked Securities should ensure that they understand the terms and operation of credit default swap transactions generally and of the Reference CDS in particular. In addition, prospective holders should be aware of the powers of determinations committees, as first established by ISDA, to make binding determinations in relation to credit default swaps generally, and that such determinations will additionally be binding on them as holders of the Credit Linked Securities if applicable for the purposes of the Reference CDS.

Credit derivatives and credit default swaps

A credit derivative transaction is a transaction which is entered into between two parties to transfer the credit risk of a third party. One of the parties to the transaction will be a purchaser of credit protection (and hence a seller of credit risk, whilst the other will be a seller of credit protection (and a purchaser of credit risk). The Credit Linked Securities represent a credit derivative transaction in the form of a security. Under the terms of the Credit Linked Securities, we in our capacity as the issuer will be the buyer of credit protection and you in your capacity as a holder will be the seller of credit protection.

Credit default swaps are transactions in which settlement is triggered by one of a specified number of events, which may include default, insolvency or distressed restructuring of a particular entity or entities referenced in the terms of such transaction. Credit default swaps are contracts, rather than securities, and are traded between the parties ("**over-the-counter**"), rather than through an exchange. A protection buyer will make one or more payments of premium to the protection seller. In exchange the protection seller agrees to make payment to the protection buyer following the occurrence of the relevant event in relation to the specified entity, subject to satisfaction of certain conditions. Alternatively, the protection seller may agree in such case to purchase at par bonds or loans of the specified entity (which are likely to be trading in the market at a discount to par). Credit default swaps are the most commonly-traded form of credit derivative transaction and many banks and financial institutions regularly quote prices for entering into credit default swaps. Credit default swaps may be entered into in relation to the credit risk of a single reference entity or a basket of reference entities.

Credit default swaps may reference a credit default swap index. Credit default swap indices are standard baskets of reference entities compiled by third party index sponsors such as Markit Group Ltd. Reference Entities will typically be required to meet specified parameters as at the date of their inclusion, relating to (for example) geography, sector or rating. Eligible reference entities will then be selected for inclusion in accordance with relevant index rules, including by a poll of contributing dealers. Settlement on a credit default swap referencing any such credit default swap index is triggered by one of a specified number of events relating to any such reference entity comprising such index, as described above in relation to credit default swaps generally.

Documentation and terms of CDS

CDS are typically entered into on the basis of standard definitions and provisions published by ISDA. ISDA is a trade association whose membership is comprised of participants in the over-the-counter derivatives markets. These definitions and provisions are primarily contained in the 2014 ISDA Credit Derivatives Definitions (the "**2014 Definitions**"). From time to time ISDA publishes supplements to such definitions, for example, the 2019 Narrowly Tailored Credit Event Supplement.

Certain terms of credit default swaps are subject to negotiation between the parties, for example the maturity of each transaction and the price of credit protection purchased. However, many key terms of credit default swaps - for example, applicable Credit Events - are determined by reference to a matrix of

market standard terms published by ISDA (referred to below as the "**Settlement Matrix**"). The Settlement Matrix recognises a variety of standard terms based on the nature of the relevant reference entity (corporate, sovereign etc.) and its location (Europe, North America, Latin America etc.). Each such set of standard terms is referred to as a "**Transaction Type**". The Settlement Matrix is available on ISDA's website at www.isda.org (or any successor website thereto).

Credit default swaps linked to baskets of reference entities may be traded on the basis of market-standard master confirmation agreements or standard terms supplements.

The Reference CDS is a hypothetical credit default swap

The Reference CDS is a hypothetical transaction, which may or may not correspond to an actual transaction entered into by us or any entity connected with us. It is hypothetical only and is treated as existing solely for the purposes of making determinations under the Credit Linked Securities and determining payments on the Credit Linked Securities. Accordingly, the Credit Linked Securities do not give rise to any ownership or other interest in any actual credit default swap transaction, and holders will not be treated as having any rights to give any notice or require performance of any obligation under the Reference CDS.

The Reference CDS is treated as existing between a notional buyer and a notional seller. Accordingly, there is no counterparty risk associated with the Reference CDS.

The Issue Terms will specify any additional terms which apply for the purposes of the Reference CDS. Certain terms of the Reference CDS may be determined by reference to the Settlement Matrix if the Issue Terms specifies a Transaction Type for such purpose with respect to the relevant Reference Entity.

Credit derivative determinations committees ("CDDCs") have the power to make binding determinations

CDDCs were established in March 2009 to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency. Prospective holders of Credit Linked Securities should note that a CDDC may have the power to make binding decisions for the purposes of the Reference CDS on critical issues such as whether a Credit Event has occurred and whether one or more auctions should take place. Consequently, holders will be bound by any such relevant decisions and the payments on the Credit Linked Securities and the timing of any such payments may be affected by any such relevant decisions or subsequent determinations.

With effect from 12 October 2018, DC Administration Services Inc., a Delaware Incorporated subsidiary of ISDA was appointed by ISDA to act as the DC Secretary. The DC Secretary is responsible for various administrative tasks, including distributing questions submitted by eligible market participants to the relevant CDDC members, convening CDDC meetings, and publishing the results of CDDC votes. The DC Secretary does not vote on whether Credit Events have occurred.

The proceedings of each CDDC will be governed by published rules (the "**Rules**"). A copy of the Rules and amendments to those rules is available at <https://www.cdsdeterminationscommittees.org> (or any successor website thereto). A CDDC will be convened upon referral of a question to the DC Secretary (as defined in the Rules) by an eligible market participant, subject to the agreement of a specified number of the voting members of the relevant CDDC. The CDDC will be convened for the region to which the referred question relates, as determined in accordance with the Rules. Holders of the Credit Linked Securities will not have the right to submit a question for resolution by a CDDC, and neither we nor any entity connected with us will have an obligation to submit a question on behalf of holders.

In resolving that a Credit Event has occurred, a CDDC must act by a super-majority of 80 per cent. of voting members. Certain other determinations, for example as to the initial list of eligible obligations or assets for the purposes of an Auction (see below) may be made by a majority of more than 50 per cent. of voting members. Where either a CDDC is required to resolve a particular matter by way of a super-majority, but having voted on such matter is unable to do so, or where a CDDC so resolves by a majority, questions may be submitted to an external review process. Although a CDDC may be convened and reach a resolution rapidly, the decision-making process may be subject to material delay, in particular where questions are submitted for external review. A CDDC may decline to resolve a particular issue. Questions referred to the CDDC, meeting statements and the results of binding votes will be published

by the DC Secretary on cdsdeterminationscommittees.org (or any successor website thereto). Neither we nor any entity connected with us will be obliged to inform the holders that a CDDC has been or is likely to be convened.

CDDC membership

Each CDDC is composed of fifteen voting members and three non-voting consultative members. Ten of the voting members are dealer institutions, with eight serving across all regions and two potentially varying by region. The other five voting members are non-dealer institutions that serve across all regions. The three non-voting consultative members consist of one dealer institution and one non-dealer institution that serve across all regions and one dealer institution that could potentially vary by region. Holders will have no role in the composition of the CDDC.

We or our affiliates are members of each CDDC. In reaching decisions, neither we nor any other member of a CDDC will take account of the interests of the holders of the Credit Linked Securities and for such purpose we may ignore any conflict of interest arising from our rights and obligations under, or in respect of, the Credit Linked Securities. Holders of the Credit Linked Securities will not have any recourse against ISDA, the DC Secretary or the members of any CDDC in relation to resolutions passed or not passed by such CDDC.

Changes to the terms of the Reference CDS

From time to time the terms of market standard credit default swap transactions may be subject to modification. Where such modifications are intended to affect existing transactions (in addition to transactions entered into after the date on which the relevant modification is announced), such modifications have previously been implemented by way of a protocol published by ISDA. Market participants may elect to adhere to such a protocol in order to confirm that they wish transactions to which they are a party to be subject to such modification.

The Reference CDS will be subject to modification in accordance with the above if and to the extent that (i) the relevant modification applies to market standard transactions entered into by us or our affiliates generally, and (ii) the Reference CDS would be within the scope of any such modification.

PART 3: TERMS OF THE REFERENCE CDS

Reference Entities and Successors

Holders of the Credit Linked Securities are exposed, through the Credit Linked Conditions, to the credit risk of the Reference Entity (or, if the Issue Terms specifies more than one such entity including via reference to an Index Annex, each Reference Entity). Holders should be aware that the creditworthiness of a Reference Entity may change over time. If the creditworthiness of a Reference Entity declines, then the market value of the Credit Linked Securities is likely to decline, and the likelihood of the occurrence of a Credit Trigger in relation to that Reference Entity will increase.

The identity of a Reference Entity, and hence the credit risk associated with the Credit Linked Securities may change as a result of a succession or a series of successions (forming part of a pre-determined plan), in respect of relevant obligations of that Reference Entity, or, in the case of a sovereign Reference Entity, events such as annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other similar event. If the DC Secretary publicly announces that a CDDC has resolved to treat a different entity or entities as the successor(s) to the original Reference CDS, and such resolution would apply to the Reference CDS, then the identity of the Reference Entity will be treated as having been amended accordingly for the purposes of the Credit Linked Securities. The credit risk associated with a successor Reference Entity may be different from and greater than the credit risk associated with the original Reference Entity.

The 2014 Definitions set out detailed rules for the determination of successor Reference Entities following a succession. This will involve a determination, on the basis of available information, as to the liability which has been assumed by any potential successor in relation to the outstanding bonds and loans of the relevant Reference Entity. It is possible that, based on such a determination, a single successor will be identified, or there may be multiple successors. The original Reference Entity may itself continue to be a Reference Entity, together with other successor entities. If multiple successor Reference Entities are identified, then the Reference CDS will be treated as having been split into multiple new transactions, each such transaction referencing one of the relevant successors. Accordingly, if a Reference Entity has more than one successor entity as the result of such a succession, then the holders of the Credit Linked Securities will be exposed to the creditworthiness of multiple Reference Entities.

Where "Financial Reference Entity Terms" apply to a Reference Entity, a senior Reference CDS (as determined in accordance with the terms thereof, being a Reference CDS for which (a) the Reference Obligation or prior reference obligation is a senior obligation or (b) there is no Reference Obligation or prior reference obligation) would follow the senior Bond or Loan Obligations of such Reference Entity, and a subordinated Reference CDS (as determined in accordance with the terms thereof, being a Reference CDS for which the Reference Obligation or prior reference obligation is a subordinated obligation) would follow the subordinated Bond or Loan Obligations of such Reference Entity (or if there are no such subordinated obligations, the senior Bond or Loan Obligations).

In determining successors, the CDDC will disregard a succession that occurred more than 90 days prior to the date of the relevant request to convene the CDDC, except in the case of a Universal Successor for non-sovereign Reference Entities. We are not obliged to make any such request to a CDDC on behalf of the holders of the Credit Linked Securities, and holders will have no ability to make such a request. Absent publication by the DC Secretary of a resolution of a CDDC, we will not make or be obliged to make any determination as to successor Reference Entities for the purposes of the Reference CDS.

The "**Universal Successor**" exception to the 90 day lookback period applies to an entity which assumes all obligations (including at least one relevant Bond or Loan Obligation) of the non-sovereign Reference Entity in circumstances where such Reference Entity ceases to exist or is in the process of being dissolved and has not issued or incurred any Borrowed Money obligation since the date of such assumption. Such entity will be the sole successor to the Reference Entity provided that the succession date occurred on or after a single lookback date of 1 January 2014.

Reference Obligations

One or more "**Reference Obligations**" may be specified in respect of the Reference Entity. A Reference Obligation may affect the credit risk represented by an investment in the Credit Linked Securities. Firstly,

a specified Reference Obligation under a Reference CDS will be capable of being an "Obligation" or "Deliverable Obligation" (see below) regardless of whether such Reference Obligation otherwise meets the stipulated parameters. Secondly, the specified Reference Obligation will be taken into account as a benchmark for the purposes of the application of the "Not Subordinated" Deliverable Obligation Characteristic (see below).

For more commonly traded Reference Entities, the Reference Obligation will be a **"Standard Reference Obligation"** (subject to replacement at maturity or otherwise) with the relevant seniority level of the Reference Entity as published by IHS Markit (or any successor) from time to time on a list of standard reference obligations ("**SRO List**"), unless specified otherwise in the relevant Issue Terms.

Where the Reference Obligation is not a Standard Reference Obligation (a **"Non-Standard Reference Obligation"**), the Calculation Agent may select a substitute Reference Obligation in certain circumstances, for example, where the Non-Standard Reference Obligation is redeemed in whole, the aggregate amounts due thereunder are reduced below USD 10,000,000 (or the equivalent in the obligation currency) or it ceases to be an obligation of the Reference Entity for any reason other than the occurrence of a Credit Event. Any such substitute Non-Standard Reference Obligation is required to satisfy a number of criteria including the requirement that where the original Non-Standard Reference Obligation satisfied the Deliverable Obligation Category and Deliverable Obligation Characteristics when issued or incurred and immediately prior to the substitution event, then the substitute Non-Standard Reference Obligation must also satisfy the Deliverable Obligation Category and Deliverable Obligation Characteristics. If the DC Secretary publicly announces that a CDDC has resolved to treat a different obligation or obligations as a substitute or substitutes for the original Reference Obligation or Reference Obligations, and such resolution would apply to the Reference CDS, then those substitute reference obligations that are identified by the relevant CDDC will replace one or more Reference Obligations. Absent publication of a resolution of a CDDC, we will not make or be obliged to make any determination as to any substitute Reference Obligation for the purposes of the Reference CDS.

Where the "Additional Provisions for Senior Non-Preferred Reference Obligations" are applicable under the Reference CDS, the Reference Obligation will be any obligation of the Reference Entity which is Subordinated only to any unsubordinated Borrowed Money Obligations of the Reference Entity but not further or otherwise, or which would be so Subordinated if any unsubordinated Borrowed Money Obligations of the Reference Entity existed ("**Senior Non-Preferred Obligation**"), and which ranks above "Traditional Subordinated Obligations" or which would so rank if Traditional Subordinated Obligations existed. In such circumstances, the Senior Non-Preferred Obligation shall constitute a Subordinated Obligation and such Traditional Subordinated Obligation shall constitute a Further Subordinated Obligation.

Where the "Additional Provisions for LPN Reference Entities" are applicable in accordance with the Transaction Type specified in the Issue Terms, among other things, the scope of the Reference Obligation is expanded to cover Loan Participation Notes ("**LPNs**") which, as of the Trade Date, are issued for the sole purpose of providing funds for the issuer(s) of such LPN to finance a loan or provide alternative finance to the relevant LPN Reference Entity. Accordingly, a Credit Event may occur in respect of obligations that are not direct obligations of the relevant LPN Reference Entity.

A redeemed Reference Obligation can be stipulated as a Reference Obligation, for the purposes of assessing the "Not Subordinated" Obligation Characteristic or the "Not Subordinated" Deliverable Obligations Characteristic.

Crédit Events and related terms

Settlement of a credit default swap, including the Reference CDS, is contingent on the occurrence of a Credit Event during the relevant credit risk period (referred to below as the "**Credit Risk Period**"). The Credit Risk Period will commence for the purposes of the Credit Linked Securities on the Trade Date of the Reference CDS, as specified in the Issue Terms and will terminate on the Scheduled Termination Date of the Reference CDS, as specified in the Issue Terms subject to extension as referred to at "Failure to Pay" and "Repudiation/Moratorium" below. The Credit Events which are applicable for the purposes of a particular Reference Entity may vary from Reference Entity to Reference Entity, and will be determined by reference to the Settlement Matrix (unless otherwise specified in the Issue Terms for Exempt Securities only). The selection of Credit Events as applicable or not applicable will materially affect the credit risk to which holders of the Credit Linked Securities are exposed.

The 2014 Definitions provide for a number of Credit Events, as follows:

Bankruptcy

"**Bankruptcy**" includes where the Reference Entity (i) is dissolved (other than pursuant to a consolidation, amalgamation or merger), (ii) becomes insolvent or is unable to pay its debts as they become due or admits its inability to do so, (iii) makes a general assignment, arrangement, scheme or composition with or for the benefit of its creditors generally, or such a general assignment, arrangement, scheme or composition becomes effective, (iv) institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other similar relief under any bankruptcy or insolvency law or other law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition results in a judgment of insolvency or bankruptcy or is not dismissed within 30 calendar days of the institution, (v) has a resolution passed for its winding-up or liquidation (other than pursuant to a consolidation, amalgamation or merger), (vi) seeks or becomes subject to the appointment of an administrator or equivalent official, (vii) has a secured party take possession of all or substantially all of its assets, or such assets are subject to attachment by a creditor.

Failure to Pay

A "Failure to Pay" will occur where, after the expiration of any applicable grace period (and after the satisfaction of any conditions precedent to such grace period), the Reference Entity fails to make, when and where due, any payments in an aggregate amount of not less than a specified amount under one or more Obligations (as defined below) in accordance with the terms of such Obligations at the time of such failure. The grace period, if any, will be as set out in the terms of the Obligation; if no such grace period is specified, a minimum grace period will be assumed to apply.

Note that in relation to certain Reference Entities, where "Grace Period Extension" is specified as being applicable in accordance with the Settlement Matrix or as set out in the Issue Terms in respect of Exempt Securities only, the Credit Risk Period may be extended if a failure to pay occurs without reference to any grace period prior to the scheduled expiry of such Credit Risk Period, pending a potential cure of such failure to pay within such grace period. Such extension of the Credit Risk Period may result in a delay in the redemption or settlement (as applicable) of the Credit Linked Securities. Where the NTCE Supplement (as defined below) and the "credit deterioration requirement" are applicable, the Failure to Pay must result from a deterioration in the creditworthiness of the Reference Entity (see section entitled "Narrowly Tailored Credit Events" below for further details).

Restructuring

"Restructuring" is, generally speaking, a process whereby a company or a sovereign entity facing cash flow problems or which is otherwise in financial distress, renegotiates its debts. A "Restructuring" for the purposes of the 2014 Definitions is any one of a number of specified events as agreed or announced in relation to a particular Obligation in a form which binds all of the holders of that Obligation (including, in the case of Bonds only, by way of an exchange) and where such event is not expressly provided for under the terms of that Obligation. Relevant events include a reduction in the rate or amount of interest (including by way of redenomination), a reduction in the amount of principal payable (including by way of redenomination), a postponement or other deferral of a date or dates for payment, a change in the ranking in priority of payment of an Obligation resulting in the subordination of claims, or a redenomination of an Obligation (other than to certain permitted currencies, and excluding a redenomination into Euro where the relevant currency jurisdiction joins the Euro-zone, and excluding a redenomination out of Euro where such redenomination out of Euro results from the action of a governmental authority, there is a freely available market rate of conversion between Euros and the other currency at the time of redenomination and there is no write-down of interest, principal or premium, as determined by reference to the rate of conversion at the time of redenomination)).

Unless "Multiple Holder Obligation" is specified as not applicable in the Settlement Matrix or the Issue Terms in respect of Exempt Securities only, a Restructuring will have occurred only if the event in question relates to an Obligation held by more than three non-affiliated holders and, where, in the case of Obligations other than bonds, the consent of at least two-thirds of the holders of the relevant Obligation is required.

Note that, under the terms of the Reference CDS, a resolution of a CDDC that a "M(M)R Restructuring" has occurred will only result in settlement of the Reference CDS if one of the parties elects to deliver a notice to the other party within a stipulated cut-off period. We, in our capacity as Calculation Agent, will be entitled to elect whether or not to treat settlement of the Reference CDS as having been triggered (and accordingly to elect whether a Credit Trigger occurs for the purposes of the Credit Linked Securities) as though we were the buyer of credit protection under the Reference CDS. Holders of the Credit Linked Securities will not have the right to elect the occurrence of a Credit Trigger in such circumstances; accordingly, where we do not make an election to trigger settlement, holders will be exposed to the risk that future Credit Events will occur and may result in larger credit losses than would otherwise have been the case.

Repudiation/Moratorium

A "Repudiation/Moratorium" will occur where a Reference Entity or a Governmental Authority repudiates or rejects, in whole or in part or challenges the validity of one or more Obligations, or declares or imposes a moratorium, standstill, roll-over or deferral and a Failure to Pay or a Restructuring occurs (determined without reference to specified minimum amounts) on or prior to the stipulated evaluation date. The Credit Risk Period will be extended pending the occurrence of that evaluation; in the case of obligations other than bonds such extension will be for a maximum of 60 days following the occurrence of the relevant event giving rise to such extension, whilst in the case of bonds such extension will be for a maximum of 60 days from the event or until the first payment date on the relevant bonds, if later.

Note that, if Repudiation/Moratorium is an applicable Credit Event in relation to a Reference Entity, the redemption or settlement (as applicable) of the Credit Linked Securities may be subject to material delay pending the occurrence of the relevant evaluation date as described above.

Obligation Default

An "Obligation Default" will occur where one or more Obligations have become capable of being declared due and payable early as a result of, or on the basis of, the occurrence of a default, event of default, or other similar condition or event (however described), other than a failure to make any required payment, in respect of a Reference Entity under one or more Obligations.

Obligation Acceleration

An "Obligation Acceleration" will occur where an Obligation Default occurs and Obligations have become due and payable under their terms.

Governmental Intervention

A "Governmental Intervention" will occur where, as a result of the action taken or announcement made by a governmental authority pursuant to, or by means of, a restructuring and resolution law or regulation (or any other similar law or regulation) applicable to the relevant Reference Entity, certain binding changes are made to the relevant obligations of the Reference Entity. The changes include, without limitation, a reduction in the rate or amount (as applicable) of interest, principal or premium payable when due, a postponement or other deferral of the date or dates for payment of interest, principal or premium, a change in the ranking in priority of payment of any obligation, or a mandatory cancellation, conversion or exchange.

Unlike a "Restructuring", "Governmental Intervention" is not subject to the requirement for a deterioration in creditworthiness or financial condition of the Reference Entity or to the "Multiple Holder Obligation" requirement, and applies regardless of whether the relevant event is expressly provided for under the terms of the Obligation (for example, debt with bail-in provisions).

Note that a given event or circumstance will constitute a Credit Event regardless of whether it arises from (for example) any lack of authority of the relevant Reference Entity to incur the relevant Obligation, the illegality or unenforceability of any Obligation, applicable law or regulation or an order of a competent court or tribunal or the imposition of exchange controls or capital requirements.

Obligations

The occurrence of Credit Events such as Failure to Pay will be determined by reference to eligible direct or indirect obligations of the Reference Entity, referred to as "**Obligations**". "Obligations" will be defined by reference to the Settlement Matrix or in the Issue Terms in respect of Exempt Securities only by way of specified "Obligation Categories" and "Obligation Characteristics". The applicable Obligation Category and Characteristics will vary from one Reference Entity to another, according to the trading terms which apply as set out in the Settlement Matrix or in the Issue Terms in respect of Exempt Securities only. Certain Obligations may be excluded from the determination as to whether or not a Credit Event has occurred (such Obligations, "**Excluded Obligations**"). For the purposes of determining whether a Governmental Intervention or Restructuring has occurred, where "Financial Reference Entity Terms" apply to a Reference CDS and (a) where the Reference CDS is specified as a "Senior Transaction", any subordinated obligation shall be an Excluded Obligation (and therefore, a Governmental Intervention or Restructuring of such subordinated obligation shall not trigger the senior Reference CDS); or (b) where the Reference CDS is specified as a "Subordinated Transaction", any obligation subordinated to the Reference Obligation or prior Reference Obligation thereof shall be an Excluded Obligation (and therefore a Governmental Intervention or Restructuring of such further subordinated obligation shall not trigger the subordinated Reference CDS).

The Obligation Category may be any of "Payment", "Borrowed Money", "Reference Obligation Only", "Bond", "Loan" or "Bond or Loan", only one of which will be specified in the Settlement Matrix in relation to the relevant Reference Entity or in the applicable Issue Terms in respect of Exempt Securities only.

Obligation Characteristics may be any one or more of "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency", "Not Domestic Law", "Listed", or "Not Domestic Issuance", as specified in the Settlement Matrix or in the applicable Issue Terms in respect of Exempt Securities only. The Listed Deliverable Obligation Characteristic will apply only to bonds.

A specified Reference Obligation will be an Obligation notwithstanding that it may not meet the requirements set out above.

Obligations may be indirect obligations of the relevant Reference Entity by way of an eligible guarantee. If "All Guarantees" applies to a particular Reference Entity, then an eligible guarantee will be any irrevocable guarantee of the Reference Entity of all amounts of principal and interest (except for amounts which are not covered due to the existence of a fixed cap) due to be paid by the relevant underlying obligor, subject to exceptions including, without limitation, (i) where the arrangement is structured as surety bond, financial guarantee insurance policy or letter of credit, or (ii) where the terms of the arrangement provide for the reduction or discharge or assignment of the obligations of the guarantor, other than by payment, by way of a permitted transfer, by operation of law, due to the existence of a fixed cap or due to (a) provisions permitting or anticipating a Governmental Intervention, if "Financial Reference Entity Terms" apply in respect of the Reference Entity or (b) any "Solvency Capital Provisions", if "Subordinated European Insurance Terms" apply in respect of the Reference Entity.

If "All Guarantees" is not specified as applicable, then eligible guarantees will additionally be restricted to those provided by the Reference Entity in respect of a subsidiary (broadly speaking, an entity in which the Reference Entity owns more than 50 per cent. of the shares or other interests which carry the power to elect the board of directors or other similar governing body).

In certain circumstances, where:

- (iii) the "Additional Provisions for the Russian Federation: Obligation Characteristics and Deliverable Obligation Characteristics" are applicable in accordance with the Transaction Type specified in the applicable Issue Terms, Obligations under the Reference CDS will exclude any obligations that are determined by the Calculation Agent to be floating rate interest notes due 2002 and 2015 issued by Vnesheconombank of the USSR pursuant to the Restructuring Agreement and an Exchange Agreement dated 6 October 1997 among Vnesheconombank of the USSR, the Closing Agent and Participating Creditors named therein "**IANs**", or Internal Government Hard Currency Bonds issued by the Ministry of Finance of the Russian Federation representing (i) restructured debt of the former USSR (Series II, III, IV, V and VIII) or (ii) debt of the Russian Federation issued in 1996 (Series VI and VII) (also known as 'OVVZs' or 'Taiga'

bonds) "**MinFins**" or Vnesheconombank's loans arising under a Restructuring Agreement and an Exchange Agreement dated 6 October 1997 among Vnesheconombank of the USSR, the Closing Agent and Participating Creditors named therein "**PRINS**".

- (iv) the 2014 CoCo Supplement is applicable in accordance with the Transaction Type specified in the applicable Issue Terms, if with respect to one or more Obligations and in relation to an aggregate amount of not less than a pre-determined amount, the operation of a provision results in (a) a permanent or temporary reduction of the amount of principal payable at redemption or (b) a conversion of principal into shares or another instrument, (in each case, if the capital ratio is at or below a trigger percentage which is specified to be 5.25 per cent., if no other trigger percentage is deemed to be specified under the Reference CDS) such event shall be deemed to constitute a Governmental Intervention.
- (v) the "Additional Provisions for Monoline Insurer Reference Entities" are applicable in accordance with the Transaction Type specified in the applicable Issue Terms, Obligations under the Reference CDS will include certain qualifying financial guarantee insurance policies or similar financial guarantees pursuant to which a Reference Entity irrevocably guarantees or insures certain borrowed money instruments of another party.
- (vi) the "Additional Provisions for the Republic of Hungary: Obligation Characteristics and Deliverable Obligation Characteristics" are applicable in accordance with the Transaction Type specified in the applicable Issue Terms, Obligations under the Reference CDS will include certain obligations of the National Bank of Hungary (either directly or as provider of a Relevant Guarantee) and any Successor.

Event Determination Date and Notice Delivery Period

Where a Credit Event has occurred, settlement of a market standard credit default swap and of the Reference CDS will be further subject to satisfaction of specified conditions resulting in the occurrence of an "**Event Determination Date**". If the DC Secretary publicly announces that a CDDC has resolved that a Credit Event has occurred, an Event Determination Date will occur with effect from the date on which the relevant request was made to convene the CDDC, provided that (i) the Credit Event in question occurred no earlier than 60 days prior to such request date, provided that, in respect of the Reference CDS no Credit Event will be deemed to occur if such event occurred prior to the Trade Date (as specified in the relevant Issue Terms) of the Credit Linked Securities, (ii) the date of such request fell within a specified period (referred to as the "**Notice Delivery Period**") and (iii) in the case of an M(M)R Restructuring Credit Event, that the Calculation Agent has elected to trigger settlement of the transaction in question (see above). The 2014 Definitions have removed the optionality for parties to trigger a Restructuring Credit Event which is not an M(M)R Restructuring Credit Event (often referred to as "Old R") so that it is automatically triggered, like any Credit Event other than M(M)R Restructuring.

If there is no relevant CDDC resolution, we in our capacity as Calculation Agent may trigger the settlement of the Reference CDS and hence the payment of the Credit Event Amount under the Credit Linked Securities by delivering notice of a Credit Event, together with supporting information derived from specified sources (that is, public news or information sources, the Reference Entity itself, court or other public filings or paying agents, trustees or other intermediaries appointed in respect of Obligations) as required under the terms of the Reference CDS, subject to the 60-day limitation period, provided that, in respect of the Reference CDS no Credit Event will be deemed to occur if such event occurred prior to the Trade Date (as specified in the relevant Issue Terms) of the Credit Linked Securities referred to above.

The Notice Delivery Period, in relation to the Reference CDS, will be the period commencing on the "**Trade Date**" of the Reference CDS (as specified in the relevant Issue Terms) and expiring on the date that is 14 calendar days after the Scheduled Termination Date of the Reference CDS or (only if applicable) the expiry of any relevant grace period if "Grace Period Extension" applies (see "Credit Events and related terms – Failure to Pay" above) or any evaluation date for the purposes of the Repudiation/Moratorium Credit Event (see "Credit Events and related terms – Repudiation/Moratorium" above).

Auction Settlement of Reference CDS

When a Credit Event occurs in respect of a Reference Entity that is referenced in a significant volume of credit derivative transactions, a CDDC may resolve that an Auction should be held in order to facilitate settlement of credit default swap transactions referencing such Reference Entity at the same time and at a fixed settlement price. The price determined through an Auction is referred to as an "**Auction Final Price**". Where an Auction is held and would be applicable for the purposes of the Reference CDS, the related Auction Final Price will be used to determine the Credit Event Loss Amount and such amount will then be used to determine the Credit Event Amount (if Credit Event Amount (2) is applicable, the Auction Final Price will be used to determine the Credit Event Amount) (if any) payable to the holders of the Credit Linked Securities.

During the Auction process primary credit derivatives dealers that choose to participate in the Auction submit prices at which they would buy and sell the eligible obligations of the relevant Reference Entity's debt obligations or eligible assets, together with requests to buy or sell such obligations that they have received from their customers.

As of the date hereof, we are a leading dealer in the credit derivatives market. There is a high probability that we will act as a participating bidder in any Auction held with respect to the Reference Entity. In such capacity, we may take certain actions which may influence the Auction Final Price including (without limitation) providing rates of conversion to determine the Auction currency rate and submitting bids and offers on behalf of ourselves or our customers. In deciding whether to take any such action (or whether to act as a participating bidder in any Auction), we will not be under any obligation to, and will not, consider the interests of the holders of the Credit Linked Securities.

If an Auction is held in respect of a Reference Entity, it is expected that the relevant Auction will occur on or around the third Business Day immediately prior to the 30th calendar day after which the relevant CDDC received the request from an eligible market participant (endorsed by a member of the relevant CDDC) to resolve whether a Credit Event has occurred with respect to such Reference Entity. However, Auctions may occur on an expedited basis where the relevant CDDC deems it appropriate, for example, in order to ensure that settlement of relevant obligations occurs prior to the implementation of any proposed bond exchange, or the Auction process may be substantially delayed, for example because the CDDC determines that there is insufficient information available to it to establish relevant auction terms. In such case the payment of the Credit Event Amount (if any) to the holders of the Credit Linked Securities may be substantially delayed.

Deliverable Obligations

An Auction will be conducted in relation to eligible obligations of the relevant Reference Entity, referred to as "**Deliverable Obligations**". Eligible Deliverable Obligations will be identified by the CDDC, as follows. Members of the relevant CDDC may propose obligations which they consider to be eligible for inclusion in an initial list to be published. Subsequently, market participants may propose additional obligations for inclusion in such list, or challenge the eligibility of obligations already included on such list, prior to publication of a final list of such eligible Deliverable Obligations. Holders of the Credit Linked Securities will not have the ability to propose eligible Deliverable Obligations for inclusion in the list, or to challenge the eligibility of obligations which are included on such list.

Eligible Deliverable Obligations will be defined by reference to the Settlement Matrix or in the Issue Terms in respect of Exempt Securities only by way of specified "Deliverable Obligation Categories" and "Deliverable Obligation Characteristics". The applicable Deliverable Obligation Category and Characteristics will vary from one Reference Entity to another, according to the trading terms which apply as set out in the Settlement Matrix or in the Issue Terms in respect of Exempt Securities only.

The Deliverable Obligation Category may be any of "Payment", "Borrowed Money", "Reference Obligation Only", "Bond", "Loan" or "Bond or Loan", only one of which will be specified in the Settlement Matrix in relation to the relevant Reference Entity or in the applicable Issue Terms in respect of Exempt Securities only.

Deliverable Obligation Characteristics may be any one or more of "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency", "Not Domestic Law", "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated or Matured" and "Not Bearer". Certain of such characteristics will be applicable only to Deliverable Obligations which are bonds (Listed, Not Domestic

Issuance, Not Bearer), which are not loans (Transferable) or which are loans (Assignable Loan, Consent Required Loan, Direct Loan Participation). In the case of Assignable Loan, Consent Required Loan and Direct Loan Participation, the relevant Deliverable Obligation is required to satisfy only one such characteristic.

A specified Reference Obligation will be a Deliverable Obligation notwithstanding that it may not meet the requirements set out above.

Deliverable Obligations may be indirect obligations of the relevant Reference Entity by way of an eligible guarantee. See "Obligations" above.

In certain circumstances where (a) "Financial Reference Entity Terms" and "Governmental Intervention" apply in respect of a Reference Entity and (i) there is a Governmental Intervention Credit Event; or (ii) a Restructuring Credit Event in respect of the Reference Obligation where such Restructuring does not constitute a Governmental Intervention or (b) a Restructuring Credit Event in respect of a Sovereign, then a related asset package resulting from a prior deliverable obligation (where "Financial Reference Entity Terms" apply) or package observable bond (where the Reference Entity is a sovereign) may also be deliverable. The asset package would be treated as having the same outstanding principal as the corresponding prior deliverable obligation or package observable bond. This applies even if the resulting asset package is deemed to be zero where there are no resulting assets, and, in such case, the buyer of credit protection would receive a 100 per cent. payout.

In certain circumstances, where:

- (i) the "2020 Limited Recourse Additional Provisions" are applicable in respect of a Reference Entity in accordance with the Transaction Type specified in the applicable Issue Terms, the "Not Subordinated" characteristic will be deemed to have been satisfied and when determining the "outstanding principal balance" or the "due and payable amount" of an obligation under the Reference CDS, the amounts determined will be required to take into account (and will therefore be reduced by) the application of any limited recourse provisions (being provisions which limit recourse in respect of the obligation to the proceeds of specified assets or the proceeds resulting from the enforcement of security or collateral arrangements; and/or extinguish any obligation that remains outstanding following the disposal of specified assets and/or the enforcement of the security or collateral arrangements, and, in each case, the application of the resulting proceeds).
- (ii) the "Additional Provisions for the Russian Federation: Obligation Characteristics and Deliverable Obligation Characteristics" are applicable in accordance with the Transaction Type specified in the applicable Issue Terms, Deliverable Obligations under the Reference CDS will exclude any obligations that are determined by the Calculation Agent to be IANs, MinFins or PRINs.
- (iii) the "Additional Provisions for Monoline Insurer Reference Entities" are applicable in accordance with the Transaction Type specified in the applicable Issue Terms, Deliverable Obligations under the Reference CDS will include certain qualifying financial guarantee insurance policies or similar financial guarantees pursuant to which a Reference Entity irrevocably guarantees or insures certain borrowed money instruments of another party.
- (iv) the "Additional Provisions for the Republic of Hungary: Obligation Characteristics and Deliverable Obligation Characteristics" are applicable in accordance with the Transaction Type specified in the applicable Issue Terms, Deliverable Obligations under the Reference CDS will include certain obligations of the National Bank of Hungary (either directly or as provider of a Relevant Guarantee) and any Successor.

Excluded Obligations, Excluded Deliverable Obligations and Additional provisions applicable to the Republic of Ecuador, the Argentine Republic, the Hellenic Republic, the Republic of Ukraine, certain Venezuelan entities or certain Russian entities

Where the "2020 Additional Provisions for the Republic of Ecuador: Excluded Obligations and Excluded Deliverable Obligations", the "2020 Additional Provisions for the Argentine Republic: Excluded Obligations and Excluded Deliverable Obligations", the "Additional Provisions for the Hellenic

Republic: Excluded Obligations and Excluded Deliverable Obligations", the "Additional Provisions for the Republic of Ukraine: Excluded Obligations and Excluded Deliverable Obligations", the "Additional Provisions for Certain Venezuelan Entities: Excluded Obligations and Excluded Deliverable Obligations" or the "Additional Provisions for certain Russian Entities" are applicable in accordance with the Transaction Type specified in the applicable Issue Terms, certain Bond or Loan obligations or Restricted Debt (as the case may be) are treated as Excluded Obligations and Excluded Deliverable Obligations under the Reference CDS, which:

- (i) in respect of an Ecuadorian Reference Entity means any obligation that is a "Bond" that was issued on or prior to 20 April 2020;
- (ii) in respect of an Argentine Reference Entity means any obligation that is a "Bond" that was issued on or prior to 31 August 2020;
- (iii) in respect of a Hellenic Reference Entity means any obligation that is a "Bond or a Loan" that was issued or incurred, as the case may be, on or prior to 1 February 2012;
- (iv) in respect of an Ukrainian Reference Entity means any obligation that is a "Bond" that was issued on or prior to 1 November 2015;
- (v) in respect of a Venezuelan Covered Reference Entity, for so long as sanctions imposed by any and all Venezuelan Orders continue to subsist with respect to such Venezuelan Covered Reference Entity (as determined by the CDDC), means any obligation that is Restricted Debt; or
- (vi) in respect of a Russian Covered Reference Entity for so long as any Relevant Sanctions on Secondary Trading apply in respect of debt issued or incurred by the relevant applicable Russian Covered Reference Entity on or after 24 February 2022 or any other relevant date.

Auction Settlement following an M(M)R Restructuring Credit Event

In relation to certain categories of Reference Entity and Restructuring Credit Events, limitations on the maturity of eligible obligations to be taken into account for the purposes of the related Auction(s) will apply. Such limitations will apply to a Reference Entity if either "Restructuring Maturity Limitation and Fully Transferable Obligation" (often referred to as "Modified Restructuring" or "Mod R") or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" (often referred to as "Modified Modified Restructuring" or "Mod Mod R") (together with "Modified Restructuring" or "Mod R" above, referred to in either case as "M(M)R") is expressed to be applicable to that Reference Entity in accordance with the Settlement Matrix or the Issue Terms in respect of Exempt Securities only.

In such case, several concurrent but separate auctions may occur with respect to such Reference Entity, as determined by the relevant CDDC, each such auction relating to credit default swaps with maturities falling within stipulated periods (so-called "maturity buckets") following the occurrence of the effective date of the event giving rise to the relevant Restructuring Credit Event. An Auction will only be held in relation to any particular maturity bucket if there is a sufficient volume of credit default swaps with maturities falling within that period. Failing that, no Auction will be held in relation to such bucket, and each party to a standard credit default swap transaction will have the ability to (but will not be obliged to) give a notice requiring that the Auction Final Price be determined based on the Auction conducted in relation to an alternative maturity bucket.

Where the buyer of credit protection gives such a notice, the relevant Auction will be the Auction for which a more limited number of obligations of the relevant Reference Entity are eligible or, where there are a number of such Auctions, the Auction with the widest range of such obligations (that is, the Auction corresponding to the next-shortest dated maturity bucket, which would tend to result in a higher Auction Final Price and hence a lower credit loss). Where the relevant notice is given by the seller of credit protection, the relevant Auction will be the Auction with the widest range of eligible obligations (that is the Auction corresponding to the longest-dated maturity bucket, which would tend to result in a lower Auction Final Price and hence a greater loss). If both parties deliver such a notice, then the credit protection buyer's notice will prevail.

For the purposes of determining the Auction which is relevant to the Credit Linked Securities, we will take into account the Auction, if any, which would be used for the purposes of settlement of the Reference

CDS. If no Auction is held for the relevant maturity bucket, then we will select a relevant Auction as though we were the buyer of credit protection under the Reference CDS. Holders of the Credit Linked Securities will not have the ability to give notice of selection of an Auction in such circumstances.

Fallback settlement

If a CDDC elects not to hold an Auction in relation to a particular Credit Event (or, in the case of a Restructuring Credit Event, in relation to particular maturity bucket and there is no election to apply an Auction relating to an alternative maturity bucket), or if an Auction is cancelled or abandoned, market standard credit default swaps, including the Reference CDS, will be subject to physical settlement – that is, the seller of credit protection will make payment of a cash amount corresponding to the par amount of eligible obligations of the affected Reference Entity which are transferred to it by the protection buyer. However, in such case, the Credit Linked Securities will be subject to cash settlement on the basis of a valuation process set out in the Credit Linked Conditions.

Note that settlement of a market standard credit default swap (including the Reference CDS) may be substantially delayed if there is a fallback to physical settlement. We, in our capacity as Calculation Agent, will where applicable, select a date for valuation of eligible obligations which would fall within the permitted settlement period for the purposes of the Reference CDS and, consequently, payment of the Credit Event Amount may be substantially delayed.

Narrowly Tailored Credit Events

In order to address concerns relating to so-called manufactured or narrowly tailored credit events, ISDA has published changes to the 2014 Definitions in the form of the 2019 Narrowly Tailored Credit Event Supplement (the "**NTCE Supplement**"). A manufactured or narrowly tailored credit event, broadly speaking, is where a buyer of credit protection under one or more credit default swaps enters into an arrangement with the Reference Entity referenced under such credit default swaps and such arrangement is tailored to trigger a credit event for the purposes of such credit default swaps whilst minimising the impact on the Reference Entity itself.

The NTCE Supplement amends the definition of "Failure to Pay" under the 2014 Definitions to include a requirement that the relevant payment failure must result from or in a deterioration in creditworthiness or financial condition of the Reference Entity. It applies when "Credit Deterioration Requirement" is specified as applicable. The exhibit to the NTCE Supplement provides guidance on the interpretation of the definition, including what constitutes credit deterioration. In addition to the amendment to the definition of "Failure to Pay", the NTCE Supplement makes certain technical changes to the "Outstanding Principal Balance" definition, including changes to prevent a Reference Entity from manufacturing the cheapest to deliver deliverable obligation in an Auction by issuing a bond at a substantial discount.

The applicability of the NTCE Supplement and the Credit Deterioration Requirement to a Reference Entity will be determined by reference to the Settlement Matrix (unless otherwise specified in the Issue Terms in respect of Exempt Securities only). If the NTCE Supplement and the Credit Deterioration Requirement are not specified as applicable in respect of a Reference Entity, a deterioration in the creditworthiness or financial condition of that Reference Entity will not be required for the purposes of determining a Failure to Pay Credit Event, which could increase the likelihood of a Credit Trigger and therefore losses occurring in respect of the relevant Credit Linked Securities. Similarly, if the NTCE Supplement is not specified as applicable in respect of a Reference Entity, cheaper Deliverable Obligations may be taken into account in the determination of the Final Price, which could result in a greater Credit Event Loss Amount (or where Credit Event Amount (2) is applicable a lower Credit Event Amount) and therefore a greater loss in respect of the relevant Credit Linked Securities.

CREDIT LINKED CONDITIONS

1	Application
2	Redemption or settlement (as applicable) of Credit Linked Securities
3	Interest on Credit Linked Securities
4	Miscellaneous Terms

1. Application

These Credit Linked Conditions shall apply to each Certificate which is specified in the relevant Issue Terms to be a Credit Linked Certificate and to each Note which is specified in the relevant Issue Terms to be a Credit Linked Note. References to Credit Linked Securities in the Credit Linked Conditions shall be to Credit Linked Notes and/or Credit Linked Certificates (as applicable).

The Credit Linked Conditions should be read together with the General Instrument Conditions (in the case of Credit Linked Certificates), the General Note Conditions (in the case of Credit Linked Notes), any other conditions set out in the Base Prospectus (if specified to be applicable to the Credit Linked Securities in the relevant Issue Terms) and the relevant Issue Terms.

2. Redemption or settlement (as applicable) of Credit Linked Securities

(a) *Single Name Credit Linked Securities*

The following applies in respect of Single Name Credit Linked Securities:

If the Calculation Agent determines that a Credit Trigger has occurred, then, unless previously redeemed, settled or cancelled in full:

- (i) if "Maturity Capital Protection" is specified to apply in accordance with the Issue Terms, and:
 - (A) if the "Capital Protection Percentage" is specified to be 100 per cent. in the applicable Issue Terms, each Credit Linked Security will be redeemed or settled (as applicable) on the Scheduled Maturity Date (unless "Early Settlement" is applicable in accordance with the Issue Terms, in which event each Credit Linked Security will be redeemed or settled (as applicable) on the earlier of the Scheduled Maturity Date and a date selected by the Issuer and falling not later than ten Business Days following the date of the related Credit Trigger), regardless of whether or not a Credit Trigger has occurred, at an amount equal to the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate); or
 - (B) if the "Capital Protection Percentage" is not specified to be 100 per cent. in the applicable Issue Terms, the Calculation Amount of each Credit Linked Security will be reduced, with effect from, and including, the date of determination of the related Final Price (or if "Zero Recovery" is applicable in accordance with the Issue Terms, the date of the Credit Trigger) by the Triggered Amount and each Credit Linked Security will be redeemed or settled (as applicable) at the higher of the Maturity Capital Protected Amount and the Credit Event Amount (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event the Maturity Capital Protected Amount shall be payable) on the later of the Scheduled Maturity Date and a date selected by the Issuer and falling not later than ten Business Days following such determination of the related Final Price. Unless previously redeemed, settled or cancelled in full, each Credit Linked Security will be redeemed or settled (as applicable) in full on the Maturity Date by payment of the Settlement Amount (in the case of a Credit Linked Certificate) or the Final Redemption Amount (in the case of a Credit Linked Note).

- (ii) if "Maturity Capital Protection" is not specified to apply in accordance with the Issue Terms and:
 - (A) if "Settlement following Credit Trigger" is specified to apply in accordance with the Issue Terms, the Calculation Amount of each Credit Linked Security will be reduced, with effect from, and including, the date of determination of the related Final Price (or if "Zero Recovery" is applicable in accordance with the Issue Terms, the date of the Credit Trigger), by the related Triggered Amount and (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event no Credit Event Amount shall be payable) the Issuer will pay the related Credit Event Amount to the holder of such Credit Linked Security on a date selected by the Issuer and falling not later than ten Business Days following such determination of the related Final Price; or
 - (B) if "Settlement at Maturity" is specified to apply in accordance with the Issue Terms, the Calculation Amount of each Credit Linked Security will be reduced, with effect from, and including, the date of determination of the related Final Price (or if "Zero Recovery" is applicable in accordance with the Issue Terms, the date of the Credit Trigger), by the related Triggered Amount and (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event no Credit Event Amount shall be payable) the Issuer will pay the related Credit Event Amount to the holder of such Credit Linked Security on the later of the Scheduled Maturity Date and a date selected by the Issuer and falling not later than ten Business Days following such determination of the related Final Price.

If the Calculation Amount of any Credit Linked Security is reduced to zero, such Credit Linked Security will, upon the payment by the Issuer of all amounts due in respect of such Credit Linked Security, be treated as having been redeemed or settled (as applicable) in full.

Unless previously redeemed, settled or cancelled in full, each Credit Linked Security will be redeemed or settled (as applicable) in full on the Maturity Date by payment of the Settlement Amount (in the case of a Credit Linked Certificate) or the Final Redemption Amount (in the case of a Credit Linked Note).

(b) *Linear Basket Credit Linked Securities and Untranching Index Credit Linked Securities*

The following applies in respect of Linear Basket Credit Linked Securities and Untranching Index Credit Linked Securities:

If the Calculation Agent determines that a Credit Trigger has occurred, then unless previously redeemed, settled or cancelled in full:

- (i) if "Maturity Capital Protection" is specified to apply in accordance with the Issue Terms, and:
 - (A) if the "Capital Protection Percentage" is specified to be 100 per cent. in the applicable Issue Terms and:
 - (1) if "Early Settlement" does not apply to the Credit Linked Securities in accordance with the Issue Terms, each Credit Linked Security will be redeemed or settled (as applicable) on the Scheduled Maturity Date regardless of whether or not a Credit Trigger has occurred, at an amount equal to the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate); or
 - (2) if "Early Settlement" applies to the Credit Linked Securities in accordance with the Issue Terms, each Credit Linked Security will be redeemed or settled (as applicable) in part following the occurrence of a Credit Trigger on the earlier of the Scheduled Maturity Date and a date selected by the Issuer and falling not later than ten Business Days following the date of the related Credit Trigger) at an amount equal to the Notional Amount (or,

if a lesser amount is applicable, an amount determined by the Calculation Agent) attributed to the affected Reference Entity. Unless previously redeemed, settled or cancelled in full, each Credit Linked Security will be redeemed or settled (as applicable) in full on the Scheduled Maturity Date by payment of an amount equal to the Specified Denomination (in the case of a Credit Linked Note) or the Nominal Amount (in the case of a Credit Linked Certificate) in each case, less any payments made under such Credit Linked Security as set out above prior to such date; or

- (B) if the "Capital Protection Percentage" is not specified to be 100 per cent. in the applicable Issue Terms, the Calculation Amount of each such Credit Linked Security will be reduced, for the purposes of determining the Settlement Amount (in the case of a Credit Linked Certificate) or the Final Redemption Amount (in the case of a Credit Linked Note) payable in respect of each Credit Linked Security with effect from, and including, the date of determination of the related Final Price (or if "Zero Recovery" is applicable in accordance with the Issue Terms, the date of the Credit Trigger) by the Triggered Amount and the Issuer will pay to the holder of the Credit Linked Security an amount equal to the higher of the Maturity Capital Protected Amount and the Credit Event Amount (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event the Maturity Capital Protected Amount shall be payable) on the later of the Scheduled Maturity Date and a date selected by the Issuer and falling not later than ten Business Days following such determination of the related Final Price. Unless previously redeemed, settled or cancelled in full, each Credit Linked Security will be redeemed or settled (as applicable) in full on the Maturity Date by payment of the Settlement Amount (in the case of a Credit Linked Certificate) or the Final Redemption Amount (in the case of a Credit Linked Note).
- (ii) if "Maturity Capital Protection" does not apply to the Credit Linked Securities in accordance with the Issue Terms and:
 - (A) if "Settlement at Maturity" is applicable in accordance with the Issue Terms, the Calculation Amount of each such Credit Linked Security will be reduced, for the purposes of determining the Settlement Amount (in the case of a Credit Linked Certificate) or the Final Redemption Amount (in the case of a Credit Linked Note) payable in respect of each Credit Linked Security with effect from, and including, the date of determination of the Credit Event Loss Amount by such Credit Event Loss Amount (or if "Zero Recovery" is applicable in accordance with the Issue Terms, the date of the Credit Trigger); or
 - (B) if "Settlement following Credit Trigger" is applicable in accordance with the Issue Terms, the Calculation Amount of each Credit Linked Security will be reduced, for the purposes of determining the Settlement Amount (in the case of a Credit Linked Certificate) or the Final Redemption Amount (in the case of a Credit Linked Note) payable in respect of each Credit Linked Security with effect from, and including, the date of determination of the related Final Price (or if "Zero Recovery" is applicable in accordance with the Issue Terms, the date of the Credit Trigger), by the related Triggered Amount, and (unless "Zero Recovery" is applicable in accordance with the Issue Terms, in which event no Credit Event Amount shall be payable) the Issuer will pay the related Credit Event Amount to the holder on a date selected by the Issuer and falling not later than ten Business Days following such determination of the related Final Price, unless "Delayed Settlement" is applicable in accordance with the Issue Terms, in which event the Issuer will pay the related Credit Event Amount to the holder on the later of the Scheduled Maturity Date and a date selected by the Issuer and falling not later than ten Business Days following such determination of the related Final Price.

If the Calculation Amount of any Credit Linked Security is reduced to zero, such Credit Linked Security will, upon the payment by the Issuer of all amounts due in respect of such Credit Linked Security, be treated as having been redeemed or settled (as applicable) in full.

Unless previously redeemed, settled or cancelled in full, each Credit Linked Security will be redeemed or settled (as applicable) in full on the Maturity Date by payment of the Settlement Amount (in the case of a Credit Linked Certificate) or the Final Redemption Amount (in the case of a Credit Linked Note).

(c) *Tranched Basket Credit Linked Securities and Tranched Index Credit Linked Securities*

The following applies in respect of Tranched Basket Credit Linked Securities and Tranched Index Credit Linked Securities:

If the Calculation Agent determines that a Credit Trigger has occurred in respect of a Reference Entity, then unless previously redeemed, settled or cancelled in full, "Settlement at Maturity" will be applicable (unless specified otherwise in the Issue Terms for Exempt Securities only), the Calculation Amount of each such Credit Linked Security will be reduced, for the purposes of determining the Final Redemption Amount (in respect of a Credit Linked Note) or the Settlement Amount (in respect of a Credit Linked Certificate) payable in respect of each Credit Linked Security with effect from, and including, the date of determination of the related Final Price (or if "Zero Recovery" is applicable in accordance with the Issue Terms, the date of the Credit Trigger) by the related Incurred Loss Amount, provided that, where "Maturity Capital Protection" is applicable in accordance with the relevant Issue Terms, and (i) where the "Capital Protection Percentage" is not specified to be 100 per cent. in the relevant Issue Terms, the Final Redemption Amount or the Settlement Amount (as applicable) shall be subject to a minimum equal to the relevant Maturity Capital Protected Amount as determined by the Calculation Agent, or (ii) where the "Capital Protection Percentage" is specified to be 100 per cent. in the relevant Issue Terms, the Final Redemption Amount (in respect of a Credit Linked Note) shall be equal to the Specified Denomination and the Settlement Amount (in respect of a Credit Linked Certificate) shall be equal to the Nominal Amount.

If the Calculation Amount of any Credit Linked Security is reduced to zero, such Credit Linked Security will, upon the payment by the Issuer of all amounts due in respect of such Credit Linked Security, be treated as having been redeemed (in respect of a Credit Linked Note) or settled (in respect of a Credit Linked Certificate) in full.

Unless previously redeemed, settled or cancelled in full, each Credit Linked Security will be redeemed or settled (as applicable) in full on the Maturity Date by payment of the Final Redemption Amount (in the case of a Credit Linked Note) or the Settlement Amount (in the case of a Credit Linked Certificate).

(d) *Early redemption or settlement (as applicable) in case of illegality*

Upon a Change in Law Event, the Issuer may notify the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) accordingly, specifying a date for redemption (in the case of Credit Linked Notes) or settlement (in the case of Credit Linked Certificates) of the Credit Linked Securities. Each Credit Linked Security shall thereupon be subject to redemption or settlement (as applicable) on such date, and the Issuer will, if and to the extent permitted by applicable law, pay on such date to the holder the Non-scheduled Early Repayment Amount per Credit Linked Security. General Instrument Condition 20 (*Change in law*) (in the case of Credit Linked Certificates) or General Note Condition 19 (*Change in law*) (in the case of Credit Linked Notes) (as applicable) shall not apply to the Credit Linked Securities.

(e) *Early redemption or settlement (as applicable) following the merger of the Issuer and a Reference Entity*

If the Issuer or a Reference Entity consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to, a Reference Entity or the Issuer, as applicable, or the Issuer and a Reference Entity become affiliates, as determined by the Calculation Agent, the Issuer may notify the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) accordingly, specifying a date for

redemption of the Credit Linked Notes or settlement of the Credit Linked Certificates. Each Credit Linked Security shall thereupon be subject to redemption or settlement (as applicable) on such date, and the Issuer will, if and to the extent permitted by applicable law, pay on such date to the holder the Non-scheduled Early Repayment Amount per Credit Linked Security.

(f) *Certain definitions*

For the purpose of these Credit Linked Conditions:

"Auction" means an auction in relation to market standard credit default swaps linked to the Reference Entity in question and the relevant Credit Trigger. The Calculation Agent shall select the auction which would form the basis for settlement of the Reference CDS as it relates to the Reference Entity which has been the subject of a Credit Trigger. Where, under the terms of the Reference CDS, the buyer of credit risk protection would be entitled to select a particular Auction as an alternative to physical settlement, the Calculation Agent shall select that Auction as the relevant Auction for the purposes of each Credit Linked Security.

"Aggregate Credit Event Loss Amount" means, in respect of each Tranching Index Credit Linked Security or each Tranching Basket Credit Linked Security, at any time on any day, the aggregate of all Credit Event Loss Amounts calculated in respect of all Reference Entities.

"Attachment Point" means, the percentage specified as such in the relevant Issue Terms.

"Calculation Amount" means, in respect of a Credit Linked Security (other than a Zero Coupon Credit Linked Note), the amount specified as such in the relevant Issue Terms, as reduced from time to time following the occurrence of a Credit Trigger in respect of a Reference Entity in accordance with the Credit Linked Conditions.

"Capital Protection Percentage" means, the percentage specified as such in the relevant Issue Terms.

A **"Change in Law Event"** shall be deemed to have occurred upon the Issuer becoming aware of (a) the adoption of, or any change in, any relevant law, rule, regulation, judgment, order, sanction, directive, designation or procedure of any governmental, administrative, legislative or judicial authority or power (including any tax law and any Sanction Rules as if applicable to the Issuer and each of its affiliates in relation to the Securities and/or any related Hedge Positions) (**"applicable law"**), or (b) the promulgation of, or any change in, the formal or informal interpretation of any applicable law by a court, tribunal governmental, administrative, legislative, regulatory or judicial authority with competent jurisdiction (including, without limitation, any taxing authority) or any relevant exchange or Relevant Clearing System of any applicable law or regulation or rule or requirement (including any tax law or rule or requirement), which has the effect (as determined by the Issuer in its discretion, acting in good faith and in a commercially reasonable manner) that:

- (i) its performance under the Credit Linked Securities or the relevant Guarantor's performance under the relevant Guarantee in whole or in part or its performance or that of the relevant Guarantor (if any) or any of its affiliates under any related Hedge Positions (whether with respect to the Reference CDS, any Reference Entity or any constituent thereof); or
- (ii) the performance of any of its affiliates under the Credit Linked Securities had such affiliate been an issuer of the Credit Linked Securities or under any related Hedge Positions (whether with respect to the Reference CDS, any Reference Entity or any constituent thereof) had such affiliate been a party to any such Hedge Positions,

has or will become unlawful or impractical in whole or in part or there is a substantial likelihood of the same in the immediate future.

"Credit Event" means the occurrence of any one or more of the events applicable to a Reference Entity pursuant to the Transaction Type specified in respect of such Reference Entity in the relevant Issue Terms (including as set out in an Index Annex if applicable) by cross-reference to a matrix published by the International Swaps and Derivatives Association, Inc. (**"ISDA"**),

which may include "Bankruptcy", "Failure to Pay", "Obligation Acceleration", "Obligation Default", "Repudiation/Moratorium", "Restructuring", "Governmental Intervention" or such other events or circumstance as may be specified as such in the Issue Terms for Exempt Securities only.

"Credit Event Loss Amount" means, for each Credit Trigger and each Credit Linked Security, an amount in the Settlement Currency (in the case of a Credit Linked Certificate) or the Specified Currency (in the case of a Credit Linked Note) determined in accordance with the following formula:

$$\text{Max } (0; [\text{Triggered Amount} \times (100 \text{ per cent.} - \text{Final Price})])$$

"Credit Event Amount" means either:

- (i) if Credit Event Amount (1) is specified as applicable in the relevant Issue Terms, for each Credit Linked Security and each Credit Trigger, an amount in the Settlement Currency (in the case of a Credit Linked Certificate) or the Specified Currency (in the case of a Credit Linked Note) determined in accordance with the following formula:

$$\text{Max } [0; (\text{Hypothetical GS Security Amount} - \text{Credit Event Loss Amount})]$$

- (ii) if Credit Event Amount (2) is specified as applicable in the relevant Issue Terms, for each Credit Linked Security and each Credit Trigger, an amount in the Settlement Currency (in the case of a Credit Linked Certificate) or the Specified Currency (in the case of a Credit Linked Note) (subject to a minimum of zero) determined in accordance with the following formula:

$$\begin{aligned} &\text{Triggered Amount} \times \text{Hypothetical GS Security Value} \\ &\times \text{Min } (100\%; \text{Final Price}) \end{aligned}$$

- (iii) if Credit Event Amount (3) is specified as applicable in the relevant Issue Terms, for each Credit Linked Security and each Credit Trigger, an amount in the Settlement Currency (in the case of a Credit Linked Certificate) or the Specified Currency (in the case of a Credit Linked Note) determined in accordance with the following formula:

$$\text{Max } [0; (\text{Triggered Amount} - \text{Credit Event Loss Amount})]$$

A **"Credit Trigger"** will occur if the Calculation Agent determines that an Event Determination Date (as defined under the terms of the Reference CDS) would occur under the terms of the Reference CDS following the occurrence of a Credit Event prior to or on the Scheduled Termination Date (or (save in respect of Credit Linked Securities where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to apply in the relevant Issue Terms), only if so permitted under the Reference CDS, following such date) (and, for the avoidance of doubt, the date of such Credit Trigger shall be the Event Determination Date). Such Event Determination Date (as defined under the Reference CDS) may occur as a result of a resolution of a relevant CDDC or as a result of a notice deemed to have been given by the buyer of credit risk protection to the seller of credit risk protection under the Reference CDS; in the latter case, the Calculation Agent shall provide an equivalent notice and supporting information as required under the terms of the Reference CDS to the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent). Where the parties to the Reference CDS would be entitled to elect whether to trigger settlement of the Reference CDS, the Calculation Agent may make such election for the purposes of redemption of each Credit Linked Security. Where the parties to the Reference CDS would be entitled to elect in respect of an M(M)R Restructuring Credit Event whether to trigger settlement of the Reference CDS in part only, the Calculation Agent may make such election for the purposes of redemption (in the case of a Credit Linked Note) or settlement (in the case of a Credit Linked Certificate) of each Credit Linked Security, provided that the Calculation Agent will only elect to trigger such settlement in part if the Issuer has made a corresponding election in its capacity as buyer of credit protection under relevant credit default

swaps which it has entered into for its own account generally. No Credit Trigger will occur in respect of any Credit Event occurring prior to the Trade Date.

"Currency Rate" means, in respect of a Valuation Obligation, the rate of conversion between the Specified Currency (in the case of a Credit Linked Note) or the Settlement Currency (in the case of a Credit Linked Certificate) and the currency in which the outstanding principal amount or, as applicable, due and payable amount of such Valuation Obligation (as defined under the terms of the Reference CDS) is denominated that is either (i) determined by reference to the mid-point rate of conversion published by WM/Reuters or any successor rate source approved by the relevant CDDC, as at a date selected by the Calculation Agent falling on or prior to the date on which the Final Price is determined, or (ii) if such rate is not available on such date, determined by the Calculation Agent in a commercially reasonable manner.

"Exhaustion Point" means, the percentage specified as such in the relevant Issue Terms.

"Final Price" means the price, expressed as a percentage, determined pursuant to the Auction or (only if the Calculation Agent determines that there is and will be no relevant Auction, whether because a relevant CDDC has resolved not to hold such an Auction or because any proposed Auction is cancelled or abandoned) the price, expressed as a percentage, determined by the Calculation Agent for the purposes of settlement of the Reference CDS as it relates to the Reference Entity which has been the subject of a Credit Trigger in accordance with its terms or, if the Reference CDS provides in such circumstances for settlement by physical delivery of obligations, as follows:

- (i) On any Business Day selected by the Calculation Agent during the period stipulated for physical settlement of the Reference CDS (the selected date, the **"Valuation Date"**), and, if necessary, on one or more of the succeeding five Business Days, at or about a time selected by the Calculation Agent as being the time at which the relevant market is likely to be most liquid (the selected time, the **"Valuation Time"**), the Calculation Agent shall attempt to obtain quotations in respect of any combination of the direct or indirect obligations of the Reference Entity and/or any other obligation, equity, amount of cash, security, fee (including any "early-bird" or other consent fee), right and/or other asset, whether tangible or otherwise and whether issued, incurred, paid or provided by the Reference Entity or a third party (or any value which was realised or capable of being realised in circumstances where the right and/or other asset no longer exists) (which may be or may be deemed to be zero) (each, an **"Asset"**), which the Calculation Agent determines would be eligible for delivery in settlement of the Reference CDS (each selected obligation or Asset, a **"Valuation Obligation"**) from five or more third party dealers in obligations such as the selected Valuation Obligations, as selected by the Calculation Agent.
- (ii) The Calculation Agent shall seek bid quotations for Valuation Obligations in the amount which would be permitted to be delivered under the Reference CDS.
- (iii) If at least two firm bid quotations for the entire selected amount of a Valuation Obligation are available on the same Business Day, the Final Price of that Valuation Obligation will be determined by using the highest such quotation received. If the Calculation Agent is unable to obtain two or more such quotations in relation to a Valuation Obligation on the same Business Day within five Business Days of the Valuation Date, then the Final Price for such Valuation Obligation will be an amount determined by the Calculation Agent in its commercially reasonable discretion.
- (iv) Quotations will be expressed as a percentage of the selected amount of each Valuation Obligation for the purposes of determining the Final Price (including where quotes actually received are expressed as a percentage of amounts payable at maturity of the relevant Valuation Obligation, if different).
- (v) If there is more than one selected Valuation Obligation, then the Final Price will be the average of the Final Prices determined in relation to each such Valuation Obligation, each such price being weighted by reference to the amount of each such Valuation Obligation (or, as the case may be, the amount of the obligation (to which such Asset

corresponds) immediately prior to the relevant Asset Package Credit Event (as defined under the terms of the Reference CDS)) valued for such purpose.

- (vi) Notwithstanding the above, where under the terms of the Reference CDS, the valuation of any Asset would be deemed to be zero or required to be determined by reference to an applicable specified valuation or CDDC determined methodology, the Final Price of such Asset will be the value determined accordingly.

Notwithstanding the above, where:

- (A) "Zero Recovery" applies in accordance with the relevant Issue Terms, the Final Price shall be zero and deemed to have been determined on the date of the relevant Credit Trigger; or
- (B) Each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to apply in respect of the Credit Linked Securities in the relevant Issue Terms, and the Calculation Agent determines that a price will not be determined pursuant to an Auction on or before the 2nd Business Day prior to the Scheduled Maturity Date, whether because a relevant CDDC has resolved not to hold such an Auction, or because any proposed Auction is cancelled or abandoned, or for any other reason, the price, expressed as a percentage, determined by the Calculation Agent as the price which would be applicable for the purposes of settlement of the Reference CDS as it relates to the Reference Entity which has been the subject of a Credit Trigger in accordance with its terms.

"Final Maturity Date" means if (i) "Maturity Capital Protection" is not specified as being applicable to the Credit Linked Securities in the applicable Issue Terms, or (ii) if each of "Maturity Capital Protection" and a "Capital Protection Percentage" of less than 100 per cent. are specified as being applicable to the Credit Linked Securities in the applicable Issue Terms, then in each case, the date specified as such in the relevant Issue Terms, being the date falling six calendar months following the Scheduled Termination Date (or, if such date is not a Business Day, the next following Business Day).

"Final Redemption Amount" means, in respect of any Credit Linked Note (other than a Credit Linked Note in respect of which each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified as being applicable in the relevant Issue Terms), its remaining Calculation Amount, provided that, where the Maturity Date is the Final Maturity Date:

- (i) if any Credit Trigger has occurred and the related Final Price has not been determined or, if applicable, the related Credit Event Amount has not become payable, in each case, as at the date falling five Business Days prior to the Maturity Date, the related reduction of the Calculation Amount following the occurrence of such Credit Trigger shall be disregarded and the Issuer shall have no obligation to pay any such Credit Event Amount; and
- (ii) such Calculation Amount shall be reduced by such Credit Linked Note's pro rata share of any Reference CDS Unwind Costs, provided that, where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of less than 100 per cent. are specified as being applicable in the relevant Issue Terms and if the Calculation Agent determines that a Final Redemption Amount is payable, the Final Redemption Amount shall be subject to a minimum amount equal to the Specified Denomination (or, if a lesser amount is applicable, following any prior determinations or payments made in accordance with the Credit Linked Conditions, such an amount as determined by the Calculation Agent) multiplied by the Capital Protection Percentage.

"Hypothetical GS Security" means, unless otherwise specified in the relevant Issue Terms, a senior, unsecured security issued by the Issuer and, if applicable, guaranteed by the Guarantor with the following parameters: (i) denominated in the currency specified in the relevant Issue Terms; (ii) interest (if applicable) calculated by reference to the rate specified in the relevant Issue Terms and paid on the basis specified in the relevant Issue Terms; (iii) an issue date that

is the same as the Issue Date of the Credit Linked Securities; (iv) an issue price as specified in the relevant Issue Terms; (v) a maturity date that is the same as the Scheduled Maturity Date of the Credit Linked Securities; (vi) interest payment dates that match the Interest Payment Dates of the Credit Linked Securities (if applicable); (vii) a bullet repayment of the principal amount on maturity; and (viii) a principal amount equal to the Triggered Amount in the case of the occurrence of a Credit Trigger. For the avoidance of doubt, the Hypothetical GS Security is not a credit linked security.

"Hypothetical GS Security Amount" means an amount, in the Settlement Currency (in the case of Certificates) or Specified Currency (in the case of Notes), which shall be determined by the Calculation Agent as the Fair Market Value of a Hypothetical GS Security (where Fair Market Value shall have the same meaning as defined in sub-paragraph (ii)(B) of the "Non-scheduled Early Repayment Amount" definition in the General Instrument Conditions (in the case of a Credit Linked Certificate) or the General Note Conditions (in the case of a Credit Linked Note), provided that each reference to "Instrument" (in the case of a Credit Linked Certificate) or "Note" (in the case of a Credit Linked Note) shall be construed as such "Hypothetical GS Security") (but excluding any accrued but unpaid interest), adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates, including relating to the unwinding of any underlying and/or related hedging and funding arrangements, as determined by the Calculation Agent in respect of such date as selected by the Calculation Agent falling on or after the date of the Credit Event or potential Credit Event (as determined by the Calculation Agent) but on or prior to the date on which the Credit Event Amount is payable.

"Hypothetical GS Security Value" means the value of a hypothetical security on the same terms as the Credit Linked Security but without taking account of the credit linked nature of the Credit Linked Security. The Hypothetical GS Security Value shall be determined by the Calculation Agent as the Fair Market Value of a hypothetical security (where Fair Market Value shall have the same meaning as defined in sub-paragraph (ii)(B) of the "Non-scheduled Early Repayment Amount" definition in the General Instrument Conditions (in the case of a Credit Linked Certificate) or the General Note Conditions (in the case of a Credit Linked Note), provided that each reference to "Instrument" (in the case of a Credit Linked Certificate) or "Note" (in the case of a Credit Linked Note) shall be construed as such "hypothetical security") (but excluding any accrued but unpaid interest), adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates, including relating to the unwinding of any underlying and/or related hedging and funding arrangements as determined by the Calculation Agent in respect of such date as selected by the Calculation Agent falling on or after the date of the Credit Event or potential Credit Event (as determined by the Calculation Agent) but on or prior to the date on which the Credit Event Amount is payable, expressed as a percentage of the outstanding principal amount of such hypothetical security (subject to a maximum of 100 per cent.).

"Incurred Loss Amount" means, in respect of each Tranching Index Credit Linked Security or each Tranching Basket Credit Linked Security, and each Credit Trigger, an amount in the Settlement Currency (in respect of a Credit Linked Certificate) or the Specified Currency (in respect of a Credit Linked Note), calculated by the Calculation Agent, equal to the lowest of:

- (i) the Credit Event Loss Amount;
- (ii) subject to a minimum of zero, (1) the Aggregate Credit Event Loss Amount (including, for the avoidance of doubt, the Credit Event Loss Amount related to such Credit Trigger) minus (2) the Loss Threshold Amount; and
- (iii) the outstanding Calculation Amount (prior to any reduction thereto in respect of such Credit Trigger).

"Implicit Notional" means, in respect of each Tranching Index Credit Linked Security or each Tranching Basket Credit Linked Security, an amount equal to (i) the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate); *divided by* (ii) the Tranche Size.

"Index" means, in respect of Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities, the relevant iTraxx® or CDX® index, as specified in the applicable Issue Terms.

"Index Annex" means, in respect of Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities, the list of the relevant Index with the relevant Index Annex Date or version identifier published by the Index Publisher specified in the relevant Issue Terms and which can be accessed at <http://www.markit.com> or any successor website thereto.

"Index Annex Date" means, in respect of Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities, the date specified as such in the relevant Issue Terms.

"Index Publisher" means, in respect of Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities and the related Index Annex, Markit Group Limited (or any replacement appointed by the Index Sponsor for the purposes of officially publishing the relevant Index) or the entity specified as such in the relevant Issue Terms.

"Index Sponsor" means, in respect of Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities, the entity specified as such in the relevant Issue Terms.

"Linear Basket Credit Linked Securities" are Credit Linked Securities specified as such in the relevant Issue Terms, in respect of which the Issuer purchases credit protection in respect of two or more Reference Entities.

"Loss Threshold Amount" means, in respect of each Tranch Index Credit Linked Security or Tranch Basket Credit Linked Security, an amount equal to the product of (i) the Implicit Notional; and the (ii) the Attachment Point.

"Maturity Capital Protected Amount" means (i) in respect of a Credit Linked Certificate, an amount in the Settlement Currency or (ii) in respect of a Credit Linked Note, an amount in the Specified Currency, in each case, as determined by the Calculation Agent in accordance with:

- (A) the following formula, in respect of a Single Name Credit Linked Security, a Linear Basket Credit Linked Security or an Untranch Index Credit Linked Security:

$$\text{Triggered Amount} \times \text{Capital Protection Percentage}$$

- (B) the following formula, in respect of a Tranch Index Credit Linked Security or a Tranch Basket Credit Linked Security:

$$\text{Notional Amount} \times \text{Capital Protection Percentage}$$

"Maturity Date" means the latest of (i) the Scheduled Maturity Date specified in the relevant Issue Terms, subject to adjustment in accordance with the Business Day Convention specified in the Issue Terms (if any), (ii) where a Credit Trigger occurs, the last date for payment of any Credit Event Amount (where a Credit Event Amount is payable following the occurrence of a Credit Trigger) or the date falling five Business Days following the day on which the Final Price is determined (otherwise) and (iii) the date falling five Business Days following the determination by the Calculation Agent that no Credit Trigger could subsequently occur under the terms of the Reference CDS, provided that if none of the dates referred to at (ii) or (iii) have occurred by the fifth Business Day prior to the Final Maturity Date, the Maturity Date shall be the Final Maturity Date.

"Max" followed by a series of amounts inside brackets, means whichever is the greater of the amounts separated by a semi-colon inside those brackets.

"Min" followed by a series of amounts inside brackets, means whichever is the lesser of the amounts separated by a semi-colon inside those brackets.

"M(M)R Restructuring" means a Restructuring Credit Event in respect of which either "Mod R" or "Mod Mod R" is specified as applicable in respect of the Reference Entity in accordance with the applicable Transaction Type.

"Notional Amount", for each Credit Linked Security and in relation to each Reference Entity, means:

- (i) where the Credit Linked Security is a Single Name Credit Linked Security, the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) specified in the relevant Issue Terms (or Zero Coupon Notional Amount in the case of a Zero Coupon Credit Linked Note); or
- (ii) where the Credit Linked Security is a Linear Basket Credit Linked Security or an Untranch Index Credit Linked Security, the Nominal Amount (in the case of a Credit Linked Certificate) or the Specified Denomination (in the case of a Credit Linked Note) specified in the relevant Issue Terms (or Zero Coupon Notional Amount in the case of a Zero Coupon Credit Linked Note) *multiplied* by the percentage weighting specified with respect to the relevant Reference Entity in the Issue Terms (or, if in respect of a Linear Basket Credit Linked Security no such weighting is specified, divided by the number of Reference Entities as at the Issue Date) or the Index Annex; or
- (iii) where the Credit Linked Security is a Tranch Index Credit Linked Security or a Tranch Basket Credit Linked Security, an amount equal to (i) the Nominal Amount (in respect of a Credit Linked Certificate) or the Specified Denomination (in respect of a Credit Linked Note) specified in the relevant Issue Terms (or Zero Coupon Notional Amount in the case of a Zero Coupon Credit Linked Note) *multiplied* by (ii) the percentage weighting of such Reference Entity specified with respect to the relevant Reference Entity in the Issue Terms (or, if in respect of a Tranch Basket Credit Linked Security no such weighting is specified, divided by the number of Reference Entities as at the Issue Date) or the Index Annex; *divided* by (iii) the Tranche Size.

In each case, where multiple successor Reference Entities are determined with respect to any single Reference Entity, the Calculation Agent will allocate a Notional Amount applicable to each such successor Reference Entity by reference to the terms of the Reference CDS.

"Reference CDS" means a hypothetical credit default swap transaction linked to, in respect of Single Name Credit Linked Securities, a Reference Entity or, in respect of Linear Basket Credit Linked Securities, Tranch Index Credit Linked Securities, Untranch Index Credit Linked Securities or Tranch Basket Credit Linked Securities, the Reference Entities. A Reference CDS is assumed to be documented on the basis of:

- (i) the Transaction Type specified in respect of a Reference Entity in the relevant Issue Terms or via the Index Annex specified in the relevant Issue Terms;
- (ii) unless otherwise specified in the Issue Terms for Exempt Securities only, the 2014 ISDA Credit Derivatives Definitions, as published by ISDA;
- (iii) any Standard Terms Supplement specified in the Issue Terms;
- (iv) any other terms specified in the relevant Issue Terms with respect to the Reference CDS,

and as further supplemented or amended as set out in the Issue Terms for Exempt Securities only. Any reference under the terms of a Reference CDS to determinations by the calculation agent made in or after consultation with the parties thereunder shall be construed as determinations by the Calculation Agent without consultation.

The terms of a Reference CDS shall be assumed to have been amended in accordance with any protocol published by ISDA which amends the terms of credit default swap transactions of the same type as the Reference CDS generally (and the Calculation Agent may make such adjustments or modifications to the terms of the Credit Linked Securities as the Calculation Agent determines in its commercially reasonable discretion may be required to account for any such amendment (where applicable (taking into account the terms of the Reference CDS as a

market standard transaction or otherwise) in order to preserve the effect of the Credit Linked Securities as a securitised credit derivative transaction which is capable of being adequately hedged by such an instrument)), provided that the Issuer and its affiliates have adhered to such protocol in respect of credit derivatives transactions to which they are a party generally. A Reference CDS is assumed to be subject to English law.

"Reference CDS Unwind Costs" means the cost to the Issuer (or the equivalent in the Specified Currency (in the case of a Credit Linked Note) or the Settlement Currency (in the case of a Credit Linked Certificate) converted at such rate as determined by the Calculation Agent in a commercially reasonable manner), as determined by the Calculation Agent on or around the date falling five Business Days prior to the relevant redemption date, of terminating a transaction on the same terms as the Reference CDS (and if **"Zero Recovery"** is applicable in accordance with the relevant Issue Terms, in respect of Credit Linked Securities, taking account of the zero recovery nature thereof), being the lowest offer-side firm quotation received by the Calculation Agent or, if no such quotations are received, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner. For such purpose the Calculation Agent shall seek quotations from at least five third party dealers in the credit derivatives market.

"Reference Entity" means, in respect of: (i) Single Name Credit Linked Securities, Linear Basket Credit Linked Securities or Trunched Basket Credit Linked Securities, each entity specified as such in the Issue Terms; or (ii) Trunched Index Credit Linked Securities or Untrunched Index Credit Linked Securities, each entity contained in the relevant Index and listed in the relevant Index Annex, and includes in each case, where applicable, any entity or entities which the DC Secretary (as defined under the Reference CDS) publicly announces that a relevant CDDC has resolved should be treated as the successor(s) to such original entity, where such resolution would apply to the Reference CDS, or otherwise any successors to such entity determined in accordance with the Reference CDS (including, where applicable, by the sponsor of a relevant credit default swap index).

Where there is more than one such successor to any Reference Entity and accordingly, the Reference CDS would be divided into a corresponding number of **"New Credit Derivative Transactions"** (as defined in the Reference CDS), the Credit Linked Securities shall be deemed to be divided into a corresponding number of notional Credit Linked Securities, in each case, in respect of which the Reference CDS shall be the relevant New Credit Derivative Transaction.

"Scheduled Expiration Date" means, in respect of Credit Linked Certificates, the date specified as such in the relevant Issue Terms, if the relevant Issue Terms specify that such date shall be adjusted in accordance with the Business Day Convention, such date as adjusted in accordance with the Business Day Convention (if applicable).

"Scheduled Termination Date" means the scheduled date for termination of the Reference CDS, being the date specified as such in the relevant Issue Terms.

"Settlement Amount" means, in respect of any Credit Linked Certificate (other than a Credit Linked Certificate in respect of which each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified as being applicable in the relevant Issue Terms), its remaining Calculation Amount, provided that, where the Maturity Date is the Final Maturity Date:

- (i) if any Credit Trigger has occurred and the related Final Price has not been determined or, if applicable, the related Credit Event Amount has not become payable, in each case, as at the date falling five Business Days prior to the Maturity Date, the related reduction of the Calculation Amount following the occurrence of such Credit Trigger shall be disregarded and the Issuer shall have no obligation to pay any such Credit Event Amount; and
- (ii) such Calculation Amount shall be reduced by such Credit Linked Certificate's pro rata share of any Reference CDS Unwind Costs, provided that, where each of "Maturity Capital Protection" and a "Capital Protection Percentage" of less than 100 per cent. are specified as being applicable in the relevant Issue Terms and if the Calculation Agent determines that a Settlement Amount is payable, the Settlement Amount shall be subject

to a minimum amount equal to the Nominal Amount (or, if a lesser amount is applicable following any prior determinations or payments made in accordance with the Credit Linked Conditions, such amount as determined by the Calculation Agent) multiplied by the Capital Protection Percentage.

"Single Name Credit Linked Securities" are Credit Linked Securities specified as such in the relevant Issue Terms, in respect of which the Issuer purchases credit protection in respect of one Reference Entity only.

"Standard Terms Supplement" means the standard terms supplement (if any) specified as such in the relevant Issue Terms.

"Tranched Basket Credit Linked Securities" means Credit Linked Securities which are specified as such in the relevant Issue Terms, which are linked to a tranche of the credit risk of a bespoke basket of two or more Reference Entities specified in the relevant Issue Terms.

"Tranched Index Credit Linked Securities" are Credit Linked Securities specified as such in the relevant Issue Terms, which are linked to a tranche of the losses in respect of the component Reference Entities of the Index specified in the relevant Issue Terms.

"Tranche Size" means, in respect of Tranched Index Credit Linked Securities or Tranched Basket Credit Linked Securities, the Exhaustion Point minus the Attachment Point. For the avoidance of doubt, the Tranche Size will be expressed as a percentage.

"Transaction Type" means, each Reference Entity designated as one of the following in the relevant Issue Terms: (a) Standard North American Corporate; (b) Standard European Corporate; (c) Standard European Financial Corporate; (d) Standard European COCO Financial Corporate; (e) Standard European Senior Non-Preferred Financial Corporate; (f) Standard European Limited Recourse Corporate; (g) Standard Subordinated European Insurance Corporate; (h) Standard Emerging European Corporate LPN; (i) Standard Emerging European Corporate; (j) Standard Japan Corporate; (k) Standard Japan Financial Corporate; (l) Standard Japan Sovereign; (m) Standard Singapore Corporate; (n) Standard Singapore Financial Corporate; (o) Standard Singapore Sovereign; (p) Standard Asia Corporate; (q) Standard Asia Financial Corporate; (r) Standard Asia Sovereign; (s) Standard Emerging European & Middle Eastern Sovereign; (t) Standard Western European Sovereign; (u) Standard Latin America Corporate B; (v) Standard Latin America Corporate BL; (w) Standard Latin America Sovereign; (x) Standard Australia Corporate; (y) Standard Australia Financial Corporate; (z) Standard Australia Sovereign; (aa) Standard New Zealand Corporate; (bb) Standard New Zealand Financial Corporate; (cc) Standard New Zealand Sovereign, and any other Transaction Type which may be added to the "Credit Derivatives Physical Settlement Matrix" (as published by ISDA on its website at www.isda.org (or any successor website)) from time to time.

"Triggered Amount", for each Credit Linked Security and in relation to each Reference Entity and each related Credit Trigger, means either:

- (i) the relevant Notional Amount; or
- (ii) except where "Zero Recovery" applies in accordance with the Issue Terms in respect of the Credit Linked Securities, where the Calculation Agent is entitled to and elects to trigger the Credit Linked Security in part only, the part of the Notional Amount so triggered.

"Untranched Index Credit Linked Securities" are Credit Linked Securities specified as such in the relevant Issue Terms, which are linked to the losses in respect of the component Reference Entities of the Index specified in the relevant Issue Terms.

"Zero Coupon Credit Linked Notes" are Credit Linked Notes specified as "Zero Coupon Credit Linked Notes", or in respect of which the "Zero Coupon Note Conditions" are specified as applicable, in the relevant Issue Terms.

"Zero Coupon Notional Amount" for each Credit Linked Note, means, in respect of:

- (i) the Issue Date, the ZC Initial Notional Amount specified as such in the relevant Issue Terms or, if no ZC Initial Notional Amount is specified in the relevant Issue Terms, the Zero Coupon Reference Price of such Credit Linked Note (in either case, the "**ZC Initial Notional Amount**"); or
- (ii) any relevant day thereafter, an amount equal to the sum of:
 - (A) the ZC Initial Notional Amount; and
 - (B) the product of the Accrual Yield (compounded annually) being applied to the ZC Initial Notional Amount from (and including) the Issue Date to (but excluding) such relevant day. Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of the relevant Day Count Fraction as may be specified in the relevant Issue Terms or, if none is so specified, a Day Count Fraction of 30E/360.

Notwithstanding the above, where the Credit Linked Notes are Untranch Index Credit Linked Securities or Tranch Index Credit Linked Securities, the Zero Coupon Notional Amount shall be the Specified Denomination, unless otherwise specified in the relevant Issue Terms.

3. Interest on Credit Linked Securities

(a) Interest following Credit Trigger

For the purposes of determining interest payable on any Credit Linked Security (or the Final Redemption Amount payable on any Zero Coupon Credit Linked Note) following a Credit Trigger, the Calculation Amount will be treated as having been reduced by the relevant Triggered Amount (in respect of a Single Name Credit Linked Security or a Linear Basket Credit Linked Security or an Untranch Index Credit Linked Security) or the Incurred Loss Amount determined in respect of the relevant Reference Entity in respect of which a Credit Trigger has occurred (in respect of a Tranch Index Credit Linked Security or a Tranch Basket Credit Linked Security) (i) if "No Interest Accrual on a Credit Trigger" is applicable in accordance with the relevant Issue Terms, upon and with effect from, and including, the first day of the Interest Period in which such Credit Trigger occurs or (ii) if "Interest Accrual on a Credit Trigger" is applicable in accordance with the relevant Issue Terms, upon and with effect from and including the date of the Credit Trigger, (or, in each case, if such Credit Trigger occurs (A) after the final Interest Period, from but excluding the last day of the final Interest Period or (B) prior to the first Interest Period, from and including the first day of the first Interest Period).

If the relevant Incurred Loss Amount has not been determined in respect of a Tranch Index Credit Linked Security or a Tranch Basket Credit Linked Security on or before the last day of the relevant Interest Period during which such Credit Trigger occurs, the relevant Credit Event Loss Amount shall be deemed to be equal to the relevant Triggered Amount and the difference between the interest that would have been payable following the determination of such Incurred Loss Amount and the interest actually paid shall be paid on the earlier of (i) the first Interest Payment Date after the fifth Business Day following the date of determination of the Final Price, and (ii) if, such determination occurs after the last Interest Payment Date, on the fifth Business Day following the date of determination of the Final Price.

If "Zero Recovery" is specified to apply in respect of the Credit Linked Securities and "Interest Accrual on a Credit Trigger" is also specified to apply in respect of such Credit Linked Securities, any relevant Interest Amount will be payable on the next Interest Payment Date or, if none, the date falling five Business Days following the date of the relevant Credit Trigger.

No payments of interest (including, without limitation, any interest on the Credit Event Amount or, if applicable, the Maturity Capital Protected Amount) shall be made, or compensation otherwise provided, in respect of any deferral of settlement following the occurrence of a Credit Trigger.

(b) Suspension of interest in the event of deferral of redemption or settlement (as applicable)

If the redemption (in the case a Credit Linked Note) or settlement (in the case of a Credit Linked Certificate) of any Credit Linked Security (other than a Credit Linked Security in respect of which each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to be applicable in accordance with the relevant Issue Terms) is deferred until a date which is subsequent to the Scheduled Maturity Date, any payment of interest which would otherwise be due on the relevant Notional Amount (or, if a lesser amount is applicable, an amount determined by the Calculation Agent) attributed to the affected Reference Entity which is the subject of a potential Credit Trigger on such date and/or the Scheduled Termination Date will be suspended. If no Credit Trigger subsequently occurs, such suspended interest will be reinstated and paid on the date on which the Credit Linked Securities (other than Credit Linked Securities in respect of which each of "Maturity Capital Protection" and a "Capital Protection Percentage" of 100 per cent. are specified to be applicable in accordance with the relevant Issue Terms) are finally redeemed or settled (as applicable).

If the Calculation Agent determines that a Credit Trigger could occur under the terms of the Reference CDS on or prior to the last day of any Interest Period (and if the related Interest Payment Date is not the Scheduled Maturity Date and/or the Scheduled Termination Date referred to in the above paragraph), the Issuer may suspend any payment of interest which would otherwise be due on the relevant Notional Amount (or, if a lesser amount is applicable, an amount determined by the Calculation Agent) attributed to the affected Reference Entity which is the subject of a potential Credit Trigger on the related Interest Payment Date. If the Calculation Agent subsequently determines that no Credit Trigger could occur under the terms of the Reference CDS on or prior to the last day of such Interest Period, such suspended interest will be reinstated and paid on the next following Interest Payment Date (or, if none, the date on which the Credit Linked Securities are finally redeemed or settled (as applicable)).

No interest shall accrue on any payments which are suspended or delayed in accordance with the above.

- (c) *No interest from Scheduled Termination Date*

Interest will cease to accrue from (and including) the Scheduled Termination Date.

4. Miscellaneous Terms

- (a) *Credit Derivatives Determinations Committees*

Resolutions of the Credit Derivatives Determinations Committees ("CDDCs") as first established by ISDA will be binding on the Issuer and holders if and to the extent that such resolutions would be binding on the parties to a Reference CDS (as defined above), including for the purposes of determining, amongst other things, (i) whether or not a Credit Trigger has occurred, and (ii) whether any entity or entities should be treated as a successor to a Reference Entity. Neither the Issuer nor the Calculation Agent will have any liability to the holders or any other person as a result of relying on any CDDC resolution.

- (b) *Suspension of obligations*

If the Calculation Agent determines that, under the terms of the Reference CDS, the obligations of the parties would be suspended pending a resolution of a CDDC, then, all of the obligations of the Issuer (or, the *pro rata* proportion of the obligations of the Issuer in respect of the Notional Amount (or, if a lesser amount is applicable, an amount determined by the Calculation Agent) attributed to the relevant Reference Entity which is the subject of a potential Credit Trigger) under each Credit Linked Security (including any obligation to deliver any notices, pay any interest, principal or settlement amount or to make any delivery) shall, be and remain suspended until the Business Day following the day the DC Secretary publicly announces that the relevant CDDC has resolved the matter in question or not to determine such matters or, if earlier (i) if (A) "Maturity Capital Protection" is applicable in respect of the Credit Linked Security in accordance with the relevant Issue Terms, and (B) the "Capital Protection Percentage" is specified to be 100 per cent. in the relevant Issue Terms, the Scheduled Maturity Date, or (ii) if (A) "Maturity Capital Protection" is not applicable in respect of the Credit Linked Security in accordance with the relevant Issue Terms, or (B) "Maturity Capital Protection" is applicable in

respect of the Credit Linked Security in accordance with the relevant Issue Terms and the "Capital Protection Percentage" is specified to be less 100 per cent in the relevant Issue Terms, until the Final Maturity Date. The Calculation Agent will provide notice of such suspension to the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) as soon as reasonably practicable; however, any failure or delay by the Calculation Agent in providing such notice will not affect the validity or effect of such suspension. If no Credit Trigger occurs, any suspended interest shall be payable on the Interest Payment Date or, if none, the date on which each Credit Linked Security is redeemed (in the case of a Credit Linked Note) or settled (in the case of a Credit Linked Certificate) in whole, in each case, following such public announcement by the DC Secretary or, as applicable, (provided that "Maturity Capital Protection" is not applicable in respect of such Credit Linked Security in accordance with the relevant Issue Terms or if "Maturity Capital Protection", is applicable in respect of such Credit Linked Security, the "Capital Protection Percentage" is specified to be less than 100 per cent. in the relevant Issue Terms) the Final Maturity Date.

Notwithstanding any of the foregoing, no interest shall accrue on any payments which are suspended or delayed in accordance with the above.

(c) *Superseding resolutions; reversal of determinations*

If the Calculation Agent, having made any determination in relation to the Reference CDS, determines that the subsequent publication by the DC Secretary of a resolution of a CDDC would prevail over such determination for the purposes of such Reference CDS, then the relevant CDDC resolution will prevail for the purposes of the Credit Linked Securities unless a relevant Valuation Date has occurred or the Credit Linked Securities have previously been redeemed (in the case of Credit Linked Notes) or settled (in the case of Credit Linked Certificates) in full. If the DC Secretary, having published a resolution of a CDDC, subsequently publishes a reversal of such resolution, then such reversal will apply for the purposes of each Credit Linked Security to the extent a relevant Valuation Date has not occurred, if such reversal would be binding on the parties to the Reference CDS (unless the Credit Linked Securities have previously been redeemed (in the case of Credit Linked Notes) or settled (in the case of Credit Linked Certificates) in full).

If the Calculation Agent determines that a Credit Trigger as a result of a relevant CDDC resolution is deemed to have occurred on or prior to any Interest Payment Date, the Calculation Agent will determine the adjustments, if any, to any interest, redemption amount, settlement amount or other amount payable on the Credit Linked Securities to reflect any change that may be necessary to the amounts previously calculated and/or paid on the Credit Linked Securities and the date on which any such adjustment is to be made.

(d) *Determinations of the Index Sponsor*

In respect of Untranchéd Index Credit Linked Securities or Tranchéd Index Credit Linked Securities, determinations of the Index Sponsor under the terms of the Reference CDS) will be binding on the Issuer and holders if and to the extent that such resolutions would be binding on the parties to a Reference CDS, including for the purposes of determining, amongst other things, successor Reference Entities and substitute Reference Obligations. Neither the Issuer nor the Calculation Agent will have any liability to the holders or any other person as a result of relying on any such determination.

(e) *Calculation Agent and Principal Programme Agent (in the case of Certificates) or the Fiscal Agent (in the case of Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent)*

The Calculation Agent is responsible for making determinations in relation to the Credit Linked Securities. Absent manifest error, all determinations of the Calculation Agent will be final and binding on the Issuer and the holders, without any liability on the part of the Calculation Agent. The Calculation Agent acts solely on behalf of the Issuer. The Calculation Agent will notify the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in

the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) on or prior to the next Interest Payment Date or, if none, the date on which each Credit Linked Security is redeemed (in the case of a Credit Linked Note) or settled (in the case of a Credit Linked Certificate) in whole in each case, following any determination of a Credit Trigger or Credit Event Loss Amount.

The Principal Programme Agent (in the case of Credit Lined Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) does not have any responsibility to the Issuer, the holders or any other person to validate information or notices received from the Calculation Agent.

(f) *Effectiveness of Notices*

For the purposes of the Credit Linked Securities:

- (i) notwithstanding the General Instrument Conditions (in the case of Credit Linked Certificates) or the General Note Conditions (in the case of Credit Linked Notes) a notice delivered to the Principal Programme Agent (in the case of Certificates) or the Fiscal Agent (in the case of Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent) will be deemed "effective";
- (ii) any notice provided for herein may be delivered in writing or by electronic mail. A notice given by electronic mail will be deemed to have been delivered at the time it is sent to the electronic mail address provided to the Issuer by the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent). If the notice is delivered by electronic mail, no further written notice is required; and
- (iii) none of the failure of the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent), as applicable, (i) to deliver a notice to (a) Euroclear France in respect of Credit Linked Securities that are French Law Securities, or (b) Euroclear or Clearstream, Luxembourg in respect of any Credit Linked Securities issued (other than Credit Linked Securities that are French Law Securities), as the case may be, or, (ii) the failure of (a) Euroclear France in respect of Credit Linked Securities that are French Law Securities, or (b) Euroclear or Clearstream, Luxembourg in respect of any Credit Linked Securities issued (other than Credit Linked Securities that are French Law Securities), as the case may be, to notify their respective participants of a notice or a failure to post such notice on the appropriate website or the failure of any intermediary in the chain of ownership to notify the holder of any Credit Linked Securities or the next succeeding intermediary will affect the effectiveness of any notice delivered by the Issuer to the Principal Programme Agent (in the case of Credit Linked Certificates) or the Fiscal Agent (in the case of Credit Linked Notes) (or, in the case of Credit Linked Securities that are French Law Securities, the French Paying Agent), respectively.

(g) *Standard Elections for Credit Linked Securities*

For the purposes of the Credit Linked Securities the following elections shall be deemed to be made in the Issue Terms, unless otherwise specified:

- (i) the relevant "Underlying Asset(s)" shall be the relevant Reference Entity or Reference Entities (as applicable) via determinations made in respect of such Reference Entity or Reference Entities under the Reference CDS;
- (ii) in respect of a Zero Coupon Credit Linked Security:
 - (1) the Calculation Amount as at any relevant day shall be the Zero Coupon Notional Amount as at the relevant day, subject to reduction from time to time pursuant to the Credit Linked Conditions, and, for the avoidance of doubt, subject to each

reduction of the Calculation Amount pursuant to the Credit Linked Conditions on or prior to the relevant day; and

- (2) the Redemption Amount payable in respect of each Zero Coupon Credit Linked Note under General Note Condition 12(v) (*Late payment on Zero Coupon Notes*) and General Note Condition 12(u) (*Early Redemption of Zero Coupon Notes*) shall be its remaining Calculation Amount as of the relevant day;
- (iii) the final interest period shall end on, but exclude, the Scheduled Termination Date;
- (iv) the Scheduled Termination Date shall not be an Interest Payment Date unless such date is also the Scheduled Maturity Date;
- (v) the "Type of Certificates" (in respect of Credit Linked Certificates) or the "Redemption/Payment Basis" (in respect of Credit Linked Notes) shall be Credit Linked;
- (vi) the "Form of Certificates" shall be (i) in respect of Credit Linked Certificates (other than Credit Linked Certificates that are French Law Instruments), Euroclear/Clearstream Instruments; or (ii) in respect of Credit Linked Certificates that are French Law Instruments, bearer dematerialised form (au porteur) only and inscribed in the books of Euroclear France (acting as central securities depository) which shall credit the accounts of Euroclear France Account Holders;
- (vii) the "Form of Notes" shall be (i) in respect of Credit Linked Notes (other than Credit Linked Notes that are French Law Notes), Registered and a Global Registered Note shall be exchangeable for Individual Note Certificates in the limited circumstances described in the Global Registered Note; or (ii) in respect of Credit Linked Notes that are French Law Notes, bearer dematerialised form (au porteur) only and inscribed in the books of Euroclear France (acting as central securities depository) which shall credit the accounts of Euroclear France Account Holders;
- (viii) the "Settlement Currency" (in respect of Credit Linked Certificates) or the "Specified Currency" (in respect of Credit Linked Notes) shall be, as specified in the relevant Issue Terms;
- (ix) the "Maturity Date" shall be the date on which the Credit Linked Securities are required to be redeemed (in the case of Credit Linked Notes) or settled (in the case of Credit Linked Certificates) in full in accordance with these Credit Linked Conditions. The postponement referred to in the definition of "Maturity Date" in General Instrument Condition 2(a) (*Definitions*) (in the case of Credit Linked Certificates) or General Note Condition 2(a) (*Definitions*) (in the case of Credit Linked Notes) shall not apply;
- (x) the "Non-scheduled Early Repayment Amount" shall be Fair Market Value, adjusted to account fully for any reasonable expenses and costs of the Issuer and/or its affiliates, including relating to the unwinding of any underlying and/or related hedging and funding arrangements (determined in accordance with the General Instrument Conditions (in respect of Credit Linked Certificates) or the General Note Conditions (in respect of Credit Linked Notes)) and, only where determined for the purposes of General Instrument Condition 34 (*Events of Default*) (in the case of Credit Linked Certificates) or General Note Condition 16 (*Events of Default*) (in the case of Credit Linked Notes) determined without taking account of the creditworthiness of the relevant Issuer or the relevant Guarantor;
- (xi) the "Method of distribution" shall be Non syndicated;
- (xii) the "Minimum Trading Number" shall be one;
- (xiii) the "Permitted Trading Multiple" shall be Not Applicable; and
- (xiv) (a) if "Redemption at the option of the Issuer" and "Credit Trigger prevails over Call Option" are specified to be applicable in the relevant Issue Terms in respect of the Credit Linked Securities and/or, in respect of Credit Linked Notes only,

"Redemption at the option of Noteholders" and "Credit Trigger prevails over Put Option" are specified in the relevant Issue Terms as being applicable, if a Credit Trigger occurs after the date of the notice from the Issuer to the Holders (in the case of Credit Linked Certificates) or the Noteholders (in the case of Credit Linked Notes) in exercise of the Call Option or, as the case may be, the date of the Put Option Notice from any Noteholder but, in each case, prior to redemption (in the case of a Credit Linked Note) or settlement (in the case of a Credit Linked Certificate) of the Credit Linked Securities pursuant to the Call Option or, as the case may be in respect of Credit Linked Notes only, the Put Option, then such notice from the Issuer or, as the case may be in respect of Credit Linked Notes only, such Put Option Notice shall be deemed to be of no effect and notwithstanding any provisions relating to the Call Option in the General Instrument Conditions or the General Note Conditions (as applicable) or, in respect of Credit Linked Notes only, to the Put Option in the General Note Conditions, the provisions of Credit Linked Condition 2 (*Redemption or settlement (as applicable) of Credit Linked Securities*) and the other Credit Linked Conditions shall prevail and apply.

- (b) If "Redemption at the option of the Issuer" and "Call Option prevails Over Credit Trigger" are specified to be applicable in the relevant Issue Terms in respect of the Credit Linked Securities and/or, in respect of Credit Linked Notes only, "Redemption at the option of Noteholders" and "Put Option prevails Over Credit Trigger" are specified to be applicable in the relevant Issue Terms, where the Issuer has given notice to the Noteholders (in the case of Credit Linked Notes) or the Holders (in the case of Credit Linked Certificates) that it will redeem the Credit Linked Securities early on an Optional Redemption Date (Call) or, in respect of Credit Linked Notes only, where the Noteholder has delivered a Put Option Notice, any subsequent occurrence of a Credit Trigger will have no effect and the Credit Linked Securities will be redeemed or settled (as applicable) on such Optional Redemption Date (Call) or, in respect of Credit Linked Notes only, redeemed on such Optional Redemption Date (Put).

(h) *Calculation of Interest on Credit Linked Securities*

- (i) Interest on the Credit Linked Certificates and the Credit Linked Notes shall be calculated by reference to the Calculation Amount (as defined in the Credit Linked Conditions), the General Instrument Conditions and the General Note Conditions shall be deemed to be amended accordingly; and
- (ii) Interest on the Credit Linked Certificates and the Credit Linked Notes shall be calculated using the Calculation Amount as at the last day of the relevant Interest Period. The General Instrument Conditions and the General Note Conditions and any related condition and provision shall be deemed to be amended accordingly.

(i) *Exercise Style of Credit Linked Certificates:*

Credit Linked Certificates shall be European Style Certificates, provided that exercise shall be deemed to occur by operation of the provisions set out in these Credit Linked Conditions (including the provisions relating to Credit Triggers) only and accordingly General Instrument Condition 9(b) and related provisions of the General Instrument Conditions, including without limitation General Instrument Condition 9(k), shall not apply.

(j) *Extension of the Expiration Date (in the case of Credit Linked Certificates)*

If settlement of the Credit Linked Certificates is deferred beyond the Scheduled Maturity Date, the Expiration Date shall also be subject to deferral beyond the Scheduled Expiration Date as determined by the Calculation Agent. The General Instrument Conditions shall be deemed to be amended accordingly.

(k) *References to the term "holder"*

In these Credit Linked Conditions references to the term "holder" (as a non-defined term) shall be deemed to be references to the defined term "Holder" in the case of a Credit Linked Certificate or to the defined term "Noteholder" in the case of a Credit Linked Note.

(l) *No Frustration*

In the absence of other reasons, no Credit Linked Securities will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because any relevant Reference Entity or relevant obligation thereof does not exist on, or ceases to exist on or following, the Trade Date.

(m) *Early Settlement*

If "Early Settlement" is specified to apply in respect of the Credit Linked Securities, references in the Credit Linked Conditions and elsewhere to "Maturity Capital Protected" shall be deemed to be references to "Capital Protected" and all related expressions shall be construed accordingly.

(n) *Restructuring Credit Event*

If the Transaction Type in respect of a Reference Entity is specified to be "Standard North American Corporate", the relevant Issue Terms will, if applicable, specify if the "Restructuring Credit Event" applies in respect of such Reference Entity.

(o) *Italian Certificates*

If the Credit Linked Certificates are "Italian Certificates", each reference in these Credit Linked Conditions to:

- (i) "principal" and "principal amount", respectively, shall be construed to be to "invested amount";
- (ii) "Nominal Amount" shall be construed to be to "calculation amount";
- (iii) "settlement" and "settle" and "settled" shall be construed to be to, respectively, "termination" and "terminate" and "terminated";
- (iv) "redemption" and "redeem" and "redeemed" shall be construed to be to, respectively, "termination" and "terminate" and "terminated";
- (v) "interest", "Interest Payment Date" and "Interest Period" (and related expressions) shall be construed to be to, respectively, "premium", "premium payment date" and "premium period"; and
- (vi) "maturity" and "Maturity Date" shall be construed to be to, respectively, "final termination" and "final termination date";

and, in each case, all related expressions shall be construed accordingly.

ADDITIONAL CONSIDERATIONS RELATING TO INVESTMENTS IN CREDIT LINKED SECURITIES

Prospective purchasers of, and investors in, Credit Linked Securities should consider the information detailed below, together with the risk factors set out in the section entitled "Risk Factors" in the Base Prospectus.

1. **You are exposed to the credit risk of the relevant Guarantor even in the absence of our own default**

In addition to the credit risk of the Reference Entity or Reference Entities, you are exposed to the credit risk of the relevant Guarantor (if applicable) even in the absence of a default in making payment under the Credit Linked Securities. As to the risk of our inability to make payments on the Credit Linked Securities when due, see "*Credit Risks – applicable to all Securities*" in the section entitled "Risk Factors" in the Base Prospectus.

2. **A Credit Trigger may occur even if we do not suffer any loss**

Our obligations under the Credit Linked Securities are irrespective of any loss which we may suffer as a result of the circumstances giving rise to a Credit Trigger. We are not required to suffer any such loss as a condition to making a determination as to the occurrence of a Credit Trigger, or to have any credit exposure to any Reference Entity at any time.

3. **The Issue Terms will not provide detailed information with respect to any Reference Entity**

The Issue Terms will not provide detailed information with respect to any Reference Entity. Unless otherwise indicated in the Issue Terms, any information contained in an Issue Terms in relation to a Reference Entity will be obtained from publicly available filings. In particular, the Issue Terms will not describe any financial or other risks relating to the business or operations of any Reference Entity in general, or the debt obligations of each Reference Entity in particular. We do not make any representation or give any assurance as to the risks associated with the Reference Entity or an investment in the Credit Linked Securities.

PRIOR TO PURCHASING ANY CREDIT LINKED SECURITIES, YOU SHOULD ENSURE THAT YOU HAVE MADE ANY INVESTIGATIONS THAT YOU CONSIDER NECESSARY AS TO THE RISKS ASSOCIATED WITH EACH REFERENCE ENTITY.

4. **Payments on the Credit Linked Securities will be determined by reference to a hypothetical credit default swap referencing the Reference Entity or Reference Entities**

The terms of the Credit Linked Securities refer to a hypothetical market standard credit default swap referencing the Reference Entity(ies). Such hypothetical credit default swap transaction is referred to in the terms of the Credit Linked Securities as a "Reference CDS". The Calculation Agent will make determinations by reference to such Reference CDS, including:

- as to whether any one or more entities have succeeded to a Reference Entity for the purposes of the Credit Linked Securities as a result of (for example) a transfer or exchange of relevant obligations of a Reference Entity,
- as to whether any one or more obligations have replaced a Reference Obligation for the purposes of the Credit Linked Securities as a result of (for example) a redemption or reduction in the amounts due under such Reference Obligation,
- as to whether a Credit Trigger has occurred,
- as to whether any Auction with respect to the relevant Reference Entity should be taken into account for the purpose of redemption or settlement (as applicable) of the Credit Linked Securities,

- if there is no relevant Auction, as to the obligations which should be taken into account for the purposes of redemption or settlement (as applicable) of the Credit Linked Securities, and
- as to the date on which any Credit Event Amount is payable (if any).

Certain contractual terms of the Reference CDS may be unclear, or the views of market participants and legal counsel as to the correct application and interpretation of such terms may diverge.

The terms of the Reference CDS may be subject to modification if and to the extent that the terms of credit default swap transactions of the same type as the Reference CDS generally are so modified, provided that the Issuer and its affiliates have adhered to the relevant protocol in respect of credit derivatives transactions to which they are a party generally.

PRIOR TO PURCHASING ANY CREDIT LINKED SECURITIES, YOU SHOULD ENSURE THAT YOU UNDERSTAND THE TERMS OF THE REFERENCE CDS AND THE RISKS ASSOCIATED WITH ENTRY INTO SUCH A TRANSACTION. DEPENDING ON THE DETERMINATIONS MADE UNDER THE REFERENCE CDS, A CREDIT TRIGGER MAY OCCUR IN RESPECT OF YOUR CREDIT LINKED SECURITIES WHICH MAY MEAN THAT YOU LOSE SOME OR ALL OF YOUR INVESTMENT.

5. Additional considerations relating to Credit Derivatives Determinations Committees (CDDCs)

Institutions serving on a CDDC have no duty to research or verify the veracity of information on which a specific determination is based. Institutions serving on a CDDC are under no obligation to vote other than in accordance with their own interests. In addition, a CDDC is not obliged to follow previous determinations and, therefore, could reach a conflicting determination on a similar set of facts.

As a holder of Credit Linked Securities you will not have any right to submit questions to or provide information to a CDDC, to challenge any resolution or determination of a CDDC or to request that any such determination or resolution be submitted to external review. You will have no recourse against ISDA, the DC Secretary, the institutions serving on the CDDC or any external reviewers. None of ISDA, the DC Secretary, the institutions serving on the CDDC or the external reviewers owe any duty to you as a holder of Credit Linked Securities.

HOW THE RETURN ON YOUR CREDIT LINKED SECURITIES IS CALCULATED

THE WORKED EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY AND ARE IN NO WAY REPRESENTATIVE OF ACTUAL AMOUNTS PAYABLE. THE WORKED EXAMPLES ARE INTENDED TO DEMONSTRATE HOW AMOUNTS PAYABLE UNDER THE CREDIT LINKED SECURITIES ARE CALCULATED UNDER A VARIETY OF SCENARIOS. THE ACTUAL AMOUNTS PAYABLE WILL BE CALCULATED IN ACCORDANCE WITH THE TERMS OF YOUR CREDIT LINKED SECURITIES AS SET OUT IN THE TERMS AND CONDITIONS OF THE CREDIT LINKED SECURITIES SECTION OF THIS DOCUMENT AND THE RELEVANT ISSUE TERMS. THE ABSENCE OR INCLUSION OF ANY ASSUMPTION OR ANY OTHER FEATURE IN ANY OF THE WORKED EXAMPLES INCLUDED IN THIS SECTION IS NOT AN INDICATION THAT SUCH ASSUMPTION OR FEATURE WILL OR WILL NOT EXIST IN ANY CREDIT LINKED SECURITY. PROSPECTIVE PURCHASERS SHOULD CONDUCT THEIR OWN INDEPENDENT REVIEW AND OBTAIN SUCH PROFESSIONAL ADVICE AS THEY DEEM APPROPRIATE PRIOR TO ANY ACQUISITION OF THE CREDIT LINKED SECURITIES.

Credit Linked Securities issued pursuant to the Base Prospectus may (save in respect of Single Name Credit Linked Securities where "Zero Recovery" is specified to be applicable) pay a cash redemption amount (in respect of a Credit Linked Note) or a cash settlement amount (in respect of a Credit Linked Certificate) if a Credit Trigger has occurred in respect of a Reference Entity. Such Credit Linked Securities will (if interest is specified to be payable in the relevant Issue Terms) also pay interest during the life of such Securities, subject to the occurrence of a Credit Trigger.

The examples below demonstrate how the return on your investment in the Credit Linked Securities will be calculated following the occurrence of a Credit Trigger. The final price attributed to the relevant obligations of the affected Reference Entity will be calculated pursuant to the provisions of the Reference CDS (see the section entitled "*Introduction to the Credit Linked Conditions – DESCRIPTION OF THE CREDIT LINKED CONDITIONS AND THE REFERENCE CDS*" for further details).

Unless your Credit Linked Security is redeemed (in respect of a Credit Linked Note) or settled (in respect of a Credit Linked Certificate), early or is adjusted, the amount you will receive on the maturity date for a Credit Linked Security will be determined by the Calculation Agent in accordance with the Credit Linked Conditions. The cash redemption amount (in respect of a Credit Linked Note) may be less than the specified denomination per Credit Linked Note or the cash settlement amount (in respect of a Credit Linked Certificate) may be less than the nominal amount per Credit Linked Certificate, or, in each case, even be equal to zero.

Key assumptions made for each of the worked examples below (unless otherwise specified in the relevant example):

- **The Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) is assumed to be GBP 1,000 and the issue price is 100% of the nominal amount;**
- **The Calculation Amount is equal to the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) as of the Issue Date;**
- **The interest (if any) and redemption or settlement payments will be made in GBP;**
- **The interest amount payable (if any) is determined using the Calculation Amount (subject to reduction as specified above);**
- **The final price (whether determined by auction or a dealer poll) is a percentage;**
- **If interest is specified to be applicable, the interest rate shall be a fixed rate of 2% per annum and interest will be payable annually, subject to any suspension of obligations under the Credit Linked Conditions;**
- **The scheduled term (or "life") of a Credit Linked Security is 3 years; and**

- The Credit Linked Security has not previously been redeemed in full or purchased and cancelled.

All amounts payable/calculated in this section are calculated on a per Credit Linked Security basis. As such if an investor invests in more than one Credit Linked Security the relevant amounts lost/received will be payable/deductible in respect of each Credit Linked Security held by an investor.

Single Name Credit Linked Security

In this example 1:

- A "Failure to Pay" Credit Event has occurred in respect of the Reference Entity under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.
- The Triggered Amount in respect of a Credit Linked Security is 100% of the Specified Denomination (in respect of a Credit Linked Note) or 100% of the Nominal Amount (in respect of a Credit Linked Certificate).
- No succession event has occurred in respect of a Reference Entity.
- The Final Price is assumed to be 40%.
- The Credit Event Loss Amount (if applicable) is determined to be £600 (calculated as follows $£1000 \times (100\% - 40\%)$).
- The Hypothetical GS Security Amount (if applicable) is determined to be £900.
- The Hypothetical GS Security Value (if applicable) is determined to be 90%.

If:

- (a) "Credit Event Amount (1)" is specified to be applicable in the relevant Issue Terms, the amount payable to a holder of the Credit Linked Security would be **£300** (calculated as £900 (being the Hypothetical GS Security Amount) - £600 (being the Credit Event Loss Amount));
- (b) "Credit Event Amount (2)" is specified to be applicable in the relevant Issue Terms, the amount payable to the holder of the Credit Linked Security would be **£360** (calculated as £1000 (being the Triggered Amount) x 90% (being the Hypothetical GS Security Value) x the lower of (100%; 40% (being the Final Price)); or
- (c) "Credit Event Amount (3)" is specified to be applicable in the relevant Issue Terms, the amount payable to the holder of the Credit Linked Security would be **£400** (calculated as £1000 (being the Triggered Amount) - £600 (being the Credit Event Loss Amount)),

and, if:

- (a) "Settlement at Maturity" is specified to apply in respect of the Credit Linked Security such amount will be payable on the later of the Scheduled Maturity Date and the date falling 10 Business Days following the determination of the related Final Price; or
- (b) "Settlement following Credit Trigger" is specified to apply in respect of the Credit Linked Security such amount will be payable on the date falling 10 Business Days following the determination of the related Final Price.

No Final Redemption Amount (in the case of a Credit Linked Note) or Settlement Amount (in respect of a Credit Linked Certificate) will be payable in this scenario.

If interest is specified to be payable on the Credit Linked Security and:

- (a) "No Interest Accrual on a Credit Trigger" is specified to be applicable and:

- (i) a Credit Trigger occurs on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue from and including the Issue Date of the Credit Linked Security.

Interest Payable: No interest amounts will be payable to the holder of the Credit Linked Security; or

- (ii) a Credit Trigger occurs in year 2 of the life of the Credit Linked Security, interest will cease to accrue from and including the first day of the Interest Period in which such Credit Trigger occurs.

Interest Payable: £20 will be payable to the holder of the Credit Linked Security on the first Interest Payment Date. No further interest amounts will be payable in respect of years two and three.

- (b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue from and including the Issue Date of the Credit Linked Security.

Interest Payable: No interest amounts will be payable to the holder of the Credit Linked Security; or

- (ii) a Credit Trigger occurs one year and six months from the Issue Date of the Credit Linked Security, interest will cease to accrue from and including the date on which such Credit Trigger occurred.

Interest Payable: The holder of the Credit Linked Security will (i) on the first Interest Payment Date receive a payment of £20 in respect of year one of the life of the Credit Linked Security and (ii) on the next Interest Payment Date (if Settlement at Maturity is specified to be applicable) or the date on which the Credit Event Amount is payable to the holder of the Credit Linked Security (if "Settlement at Following Credit Trigger" is specified to be applicable) receive £10 in respect of the first 6 months of year two of the life of the Credit Linked Security. No further interest amounts will be payable to the holder of the Credit Linked Security following the occurrence of a Credit Trigger.

Single Name Credit Linked Security – M(M)R Restructuring

In this example 2:

- A "M(M)R Restructuring" Credit Event has occurred in respect of the Reference Entity under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.
- The Triggered Amount in respect of a Credit Linked Security is 30% of the Specified Denomination (in respect of a Credit Linked Note) or 30% of the Nominal Amount (in respect of a Credit Linked Certificate).
- No succession event has occurred in respect of a Reference Entity.
- The Final Price is assumed to be 40%.
- The Credit Event Loss Amount (if applicable) is determined to be £180 (calculated as follows $£300 \times (100\% - 40\%)$).
- The Hypothetical GS Security Amount (if applicable) is determined to be £200.
- The Hypothetical GS Security Value (if applicable) is determined to be 67%.

If:

How the return on your Credit Linked Securities is calculated

- (a) "**Credit Event Amount (1)**" is specified to be applicable in the relevant Issue Terms, the amount payable to a holder of the Credit Linked Security would be **£20** (calculated as £200 (being the Hypothetical GS Security Amount) - £180 (being the Credit Event Loss Amount));
- (b) "**Credit Event Amount (2)**" is specified to be applicable in the relevant Issue Terms, the amount payable to the holder of the Credit Linked Security would be **£80** (calculated as £300 (being the Triggered Amount) x 67% (being the Hypothetical GS Security Value) x the lower of (100%; 40% (being the Final Price)); or
- (c) "**Credit Event Amount (3)**" is specified to be applicable in the relevant Issue Terms, the amount payable to the holder of the Credit Linked Security would be **£120** (calculated as £300 (being the Triggered Amount) - £180 (being the Credit Event Loss Amount)),

in each case this will be a partial redemption (in respect of a Credit Linked Note) or a partial settlement (in respect of a Credit Linked Certificate) and, if:

- (a) "**Settlement at Maturity**" is specified to apply in respect of the Credit Linked Security such amount will be payable on the later of the Scheduled Maturity Date and the date falling 10 Business Days following the determination of the related Final Price; or
- (b) "**Settlement following Credit Trigger**" is specified to apply in respect of the Credit Linked Security such amount will be payable on the date falling 10 Business Days following the determination of the related Final Price.

If no further Credit Triggers occurs in respect of the Credit Linked Security, the Credit Linked Security will be redeemed (in respect of a Credit Linked Note) or settled (in respect of a Credit Linked Certificate) on the Final Maturity Date by payment of the Final Redemption Amount (in respect of a Credit Linked Note) or the Settlement Amount (in respect of a Credit Linked Certificate), such amount shall be equal to the remaining Calculation Amount (being in this example 2, **£700**).

If interest is specified to be payable on the Credit Linked Security and:

- (a) "**No Interest Accrual on a Credit Trigger**" is specified to be applicable and:
 - (i) the above Credit Trigger occurs on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on 30% of the Calculation Amount (being in this example 2, **£300**) of the Credit Linked Security and interest will continue to accrue on the remaining 70% of the Calculation Amount (being in this example 2, **£700**) of the Credit Linked Security.

Interest Payable: The holder of the Credit Linked Security will on each Interest Payment Date receive a payment of £14 per annum; or

- (ii) the above Credit Trigger occurs in year 2 of the life of the Credit Linked Security, interest will cease to accrue on 30% of the Calculation Amount (being in this example 2, **£300**) of the Credit Linked Security from and including the first day of the Interest Period in which such Credit Trigger occurs and interest will continue to accrue on the remaining 70% of the Calculation Amount (being in this example 2, **£700**) of the Credit Linked Security.

Interest Payable: The holder of the Credit Linked Security will on the (i) first Interest Payment Date receive a payment of £20 and (ii) second and third Interest Payment Dates, receive a payment of £14 per annum.

- (b) "**Interest Accrual on a Credit Trigger**" is specified to be applicable and:
 - (i) the above Credit Trigger occurs on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on 30% of the Calculation Amount (being in this example 2, **£300**) of the Credit Linked Security and interest will continue to accrue on the remaining 70% of the Calculation Amount (being in this example 2, **£700**) of the Credit Linked Security.

Interest Payable: The holder of the Credit Linked Security will on each Interest Payment Date receive a payment of £14 per annum; or

- (ii) the above Credit Trigger occurs one year and six months from the Issue Date of the Credit Linked Security, Interest will cease to accrue on 30% of the Calculation Amount (being in this example 2, **£300**) of the Credit Linked Security from and including the date on which such Credit Trigger occurred. Interest will continue to accrue on the remaining 70% of the Calculation Amount (being in this example 2, **£700**) until the Scheduled Maturity Date, subject to the occurrence of a further Credit Trigger.

Interest Payable: The holder of the Credit Linked Security will on (i) the first Interest Payment Date receive a payment of £20 for year one of the Credit Linked Security; (ii) on the second Interest Payment Date, receive a payment of £17 for year two of the Credit Linked Security; and (iii) the third Interest Payment Date receive a payment of £14 for the third year of the Credit Linked Security. The interest amounts will continue to be payable to the holder, on the relevant Interest Payment Dates.

Single Name Credit Linked Security – Succession Event

In this example 3:

- A succession event has occurred in respect of the original Reference Entity and two successors have been identified in respect of the original Reference Entity (being, for the purposes of this example 3, "RE A" and "RE B"). Based on this assumption the Calculation Agent will have adjusted the Notional Amount and it will now be divided equally between the two successors, with each being assigned 50% of the Notional Amount (being in this scenario £500 each).
- A "Failure to Pay" Credit Event has occurred in respect of RE A under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.
- The Triggered Amount in respect of the Credit Linked Security is 50% of the Specified Denomination (in respect of a Credit Linked Note) or 50% of the Nominal Amount (in respect of a Credit Linked Certificate).
- The Final Price is assumed to be 60%.
- The Credit Event Loss Amount (if applicable) is determined to be £200 (calculated as follows $£500 \times (100\% - 60\%)$).
- The Hypothetical GS Security Amount (if applicable) is determined to be £450.
- The Hypothetical GS Security Value (if applicable) is determined to be 90%.

If:

- (a) "Credit Event Amount (1)" is specified to be applicable in the relevant Issue Terms, the amount payable to a holder of the Credit Linked Security would be **£250** (calculated as £450 (being the Hypothetical GS Security Amount) - £200 (being the Credit Event Loss Amount));
- (b) "Credit Event Amount (2)" is specified to be applicable in the relevant Issue Terms, the amount payable to the holder of the Credit Linked Security would be **£270** (calculated as £500 (being the Triggered Amount) x 90% (being the Hypothetical GS Security Value) x minimum of (100%; 60% (being the Final Price))); or
- (c) "Credit Event Amount (3)" is specified to be applicable in the relevant Issue Terms, the amount payable to the holder of the Credit Linked Security would be **£300** (calculated as £500 (being the Triggered Amount) - £200 (being the Credit Event Loss Amount)),

and, if:

- (a) **"Settlement at Maturity"** is specified to apply in respect of the Credit Linked Security such amount will be payable on the later of the Scheduled Maturity Date and the date falling 10 Business Days following the determination of the related Final Price; or
- (b) **"Settlement following Credit Trigger"** is specified to apply in respect of the Credit Linked Security such amount will be payable on the date falling 10 Business Days following the determination of the related Final Price.

If no further Credit Triggers occur in respect of the Credit Linked Security, the Credit Linked Security will be redeemed (in respect of a Credit Linked Note) or settled (in respect of a Certificate) on the Final Maturity Date by payment of the Final Redemption Amount (in respect of a Credit Linked Note) or the Settlement Amount (in respect of a Credit Linked Certificate), such amount shall be equal to the remaining Calculation Amount (being in this example 3, £500).

If interest is specified to be payable on the Credit Linked Security and:

- (a) **"No Interest Accrual on a Credit Trigger"** is specified to be applicable and:
 - (i) a Credit Trigger occurs in respect of RE A on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on 50% of the Calculation Amount (being in this example 3, £500) of the Credit Linked Security from and including the Issue Date and interest will continue to accrue in respect of the remaining 50% of the Calculation Amount (being in this example 3, £500) attributable to RE B until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of RE B.

Interest Payable: The holder of the Credit Linked Security will on each Interest Payment Date receive a payment of £10 per annum; or

- (ii) a Credit Trigger occurs in respect of RE A in year 2 of the life of the Credit Linked Security, interest will cease to accrue on 50% of the Calculation Amount (being in this example 3, £500) of the Credit Linked Security from and including the first day of the Interest Period in which such Credit Trigger occurs. The Credit Linked Security will continue to accrue interest on the remaining 50% of the Calculation Amount (being in this example 3, £500) attributable to RE B until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of RE B.

Interest Payable: The holder of the Credit Linked Security will on (i) the first Interest Payment Date receive a payment of £20; and (ii) on each of the second and third Interest Payment Dates receive £10.

- (b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:
 - (i) a Credit Trigger occurs in respect of RE A on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on 50% of the Calculation Amount (being in this example 3, £500) of the Credit Linked Security from and including the Issue Date and interest will continue to accrue in respect of the remaining 50% of the Calculation Amount (being in this example 3, £500) attributable to RE B until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of RE B.

Interest Payable: The holder of the Credit Linked Security will on each Interest Payment Date receive a payment of £10 per annum; or

- (ii) a Credit Trigger occurs in respect of RE A one year and six months from the Issue Date of the Credit Linked Security, interest will cease to accrue on 50% of the Calculation Amount (being in this example 3, £500) of the Credit Linked Security from and including the date on which such Credit Trigger occurred and interest will continue to accrue in respect of the remaining 50% of the Calculation Amount (being in this example 3, £500) attributable to RE B until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of RE B.

Interest Payable: The holder of the Credit Linked Security will receive (i) on the first Interest Payment Date, a payment of £20; (ii) on the second Interest Payment Date, a

payment of £15; and (iii) on the third Interest Payment Date, a payment of £10. The interest amounts will continue to be payable to the holder, on the relevant Interest Payment Dates.

Single Name Credit Linked Security – Zero Recovery

In this example 4:

- A "Repudiation/Moratorium" Credit Event has occurred in respect of the Reference Entity under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.
- The Triggered Amount in respect of a Credit Linked Security is 100% of the Specified Denomination (in respect of a Credit Linked Note) or 100% of the Nominal Amount (in respect of a Credit Linked Certificate).
- The Credit Linked Security is a Zero Recovery Credit Linked Security.
- The Final Price is assumed to be 0%.
- The Credit Event Loss Amount (if applicable) is determined to be £1000.

If a Credit Trigger is determined to have occurred in respect of a Zero Recovery Credit Linked Security, no Credit Event Amount will be payable and the holder of the Credit Linked Security would lose 100% of the invested amount, being in this example 4, **£1,000**.

If interest is specified to be payable on the Credit Linked Security and:

- (a) **"No Interest Accrual on a Credit Trigger"** is specified to be applicable and:
- (i) a Credit Trigger occurs on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on the Credit Linked Security from and including the Issue Date.
Interest Payable: No interest amounts will be payable to the holder of the Credit Linked Security; or
 - (ii) a Credit Trigger occurs in year 2 of the life of the Credit Linked Security, interest will cease to accrue from and including the first day of the Interest Period in which such Credit Trigger occurs and no further interest amounts will be payable to the holder of the Credit Linked Security.
Interest Payable: The holder of the Credit Linked Security will receive a payment of £20 on the first Interest Payment Date and no further interest amounts will be payable.
- (b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:
- (i) a Credit Trigger occurs on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on the Credit Linked Security from and including the Issue Date.
Interest Payable: No interest amounts will be payable to the holder of the Credit Linked Security; or
 - (ii) a Credit Trigger occurs one year and six months from the Issue Date of the Credit Linked Security, interest will cease to accrue from and including the date on which such Credit Trigger occurred.
Interest Payable: The holder of the Credit Linked Security will receive (i) on the first Interest Payment Date £20; and (ii) £10 in respect of the first 6 months of year 2 and such amount will be payable to the Holder on the date determined in accordance with the

Credit Linked Conditions. No further interest amounts will be payable to the holder of the Credit Linked Security following the occurrence of a Credit Trigger.

Single Name Credit Linked Security – Maturity Capital Protection

In this example 5:

- **A "Bankruptcy" Credit Event has occurred in respect of the Reference Entity under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.**
- **The Triggered Amount in respect of a Credit Linked Security is 100% of the Specified Denomination (in respect of a Credit Linked Note) or 100% of the Nominal Amount (in respect of a Credit Linked Certificate).**
- **Maturity Capital Protection applies in respect of the Credit Linked Securities.**
- **"Early Settlement" shall not apply.**

If a Credit Trigger is determined to have occurred in respect of a Credit Linked Security where Maturity Capital Protection applies and the Capital Protection Percentage is specified to be 100% of the invested amount, the holder of such Credit Linked Security will receive 100% of the invested amount back on the Scheduled Maturity Date, being in this example 5, **£1,000**, subject to any early redemption or settlement (as applicable) and the credit risk of the Issuer and (if applicable) the Guarantor.

If interest is specified to be payable on the Credit Linked Security and:

(a) **"No Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on the Credit Linked Security from and including the Issue Date.

Interest Payable: No interest amounts will be payable to the holder of the Credit Linked Security; or

- (ii) a Credit Trigger occurs in year 2 of the life of the Credit Linked Securities, interest will cease to accrue from and including the first day of the Interest Period in which such Credit Trigger occurs. and no further interest amounts will be payable to the holder of the Credit Linked Security.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £20 on the first Interest Payment Date and no further interest amounts will be payable.

(b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on the Credit Linked Security from and including the Issue Date.

Interest Payable: No interest amounts will be payable to the holder of the Credit Linked Security; or

- (ii) a Credit Trigger occurs one year and six months from the Issue Date of the Credit Linked Security, interest will cease to accrue from and including the date on which such Credit Trigger occurred.

Interest Payable: The holder of the Credit Linked Security will receive (i) a payment of £20 on the first Interest Payment Date; and (ii) a payment of £10 (in respect of the first 6 months of the second year of the life of the Credit Linked Security) on the second Interest Payment Date. No further interest amounts will be payable to the holder of the Credit Linked Security on the third and final Interest Payment Date.

Linear Basket Credit Linked Security and Untranching Index Credit Linked Security

In this example 6:

- The investor is exposed to the credit risk of four equally weighted Reference Entities (in this scenario they will each have a weighting of 25% and will be labelled "RE A", "RE B", "RE C" and "RE D").
- A "Failure to Pay" Credit Event has occurred in respect of RE A under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.
- The Triggered Amount in respect of a Credit Linked Security is 25% of the Specified Denomination (in respect of a Credit Linked Note) or 25% of the Nominal Amount (in respect of a Credit Linked Certificate).
- No succession event has occurred in respect of any Reference Entity.
- The Final Price is assumed to be 40%.
- The Credit Event Loss Amount (if applicable) is determined to be £150 (calculated as follows $£250 \times (100\% - 40\%)$).
- The Hypothetical GS Security Amount (if applicable) is determined to be £200.
- The Hypothetical GS Security Value (if applicable) is determined to be 80%.

If:

- (a) "Credit Event Amount (1)" is specified to be applicable in the relevant Issue Terms, the amount payable to a holder of the Credit Linked Security would be £50 (calculated as £200 (being the Hypothetical GS Security Amount) - £150 (being the Credit Event Loss Amount));
- (b) "Credit Event Amount (2)" is specified to be applicable in the relevant Issue Terms, the amount payable to the holder of the Credit Linked Security would be £80 (calculated as £250 (being the Triggered Amount) $\times$ 80% (being the Hypothetical GS Security Value) $\times$ minimum of (100%; 40% (being the Final Price))); or
- (c) "Credit Event Amount (3)" is specified to be applicable in the relevant Issue Terms, the amount payable to the holder of the Credit Linked Security would be £100 (calculated as £250 (being the Triggered Amount) - £150 (being the Credit Event Loss Amount)),

and, if:

- (a) "Delayed Settlement" is specified to apply in respect of the Credit Linked Security, such amount will be payable on the later of the Scheduled Maturity Date and the date falling 10 Business Days following the determination of the related Final Price; or
- (b) "Settlement following Credit Trigger" is specified to apply in respect of the Credit Linked Security such amount will be payable on the date falling 10 Business Days following the determination of the related Final Price.

If "Settlement at Maturity" is specified to apply in respect of the Credit Linked Security, no Credit Event Amount will be payable and the Final Redemption Amount (in respect of a Credit Linked Note) or the Settlement Amount (in respect of a Credit Linked Certificate) will be reduced by the Credit Event Loss Amount.

If no further Credit Triggers occur in respect of the Credit Linked Security, the Credit Linked Security will be redeemed (in respect of a Credit Linked Note) or settled (in respect of a Certificate) on the Final Maturity Date by payment of the Final Redemption Amount (in respect of a Credit Linked Note) or the Settlement Amount (in respect of a Credit Linked Certificate), such amount shall be equal to the

remaining Calculation Amount (being in this example 6 (i) where "**Delayed Settlement**" or "**Settlement following Credit Trigger**" apply **£750** or (ii) where "**Settlement at Maturity**" applies **£850**).

If interest is specified to be payable on the Credit Linked Security and:

(a) "**No Interest Accrual on a Credit Trigger**" is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of RE A on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on 25% of the Calculation Amount (being in this example 6, **£250**) of the Credit Linked Security, attributed to RE A, from and including the Issue Date and interest will continue to accrue in respect of the remaining 75% of the Calculation Amount (being in this example 6, **£750**) attributable to the remaining three Reference Entities until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of such Reference Entities;

Interest Payable: The holder of the Credit Linked Security will receive a payment of £15.00 on each of three Interest Payment Dates; or

- (ii) a Credit Trigger occurs in respect of RE A in year 2 of the life of the Credit Linked Security, interest will cease to accrue on 25% of the Calculation Amount (being in this example 6, **£250**) of the Credit Linked Security, attributed to RE A, from and including the first day of the Interest Period in which such Credit Trigger occurs. The Credit Linked Security will continue to accrue interest on the remaining 75% of the Calculation Amount (being in this example 6, **£750**) attributable to the remaining three Reference Entities until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of such Reference Entities.

Interest Payable: The holder of the Credit Linked Security will (i) receive a payment of £20 on the first Interest Payment Date; and (ii) will receive a payment of £15.00 on each of the second and third Interest Payment Dates.

(b) "**Interest Accrual on a Credit Trigger**" is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of RE A on or prior to the Issue Date of the Credit Linked Security, interest will cease to accrue on 25% of the Calculation Amount (being in this example 6, **£250**) of the Credit Linked Security, attributed to RE A, from and including the Issue Date and interest will continue to accrue in respect of the remaining 75% of the Calculation Amount (being in this example 6, **£750**) attributable to the remaining three Reference Entities until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of such Reference Entities;

Interest Payable: The holder of the Credit Linked Security will receive a payment of £15 on each of three Interest Payment Dates; or

- (ii) a Credit Trigger occurs in respect of RE A one year and six months from the Issue Date of the Credit Linked Security, interest will cease to accrue on 25% of the Calculation Amount (being in this example 6, **£250**), attributed to RE A, of the Credit Linked Security from and including the date on which such Credit Trigger occurred and interest will continue to accrue in respect of the remaining 75% of the Calculation Amount being in this example 6, **£750**) attributable to the remaining Reference Entities until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of such Reference Entities.

Interest Payable: The holder of the Credit Linked Security will receive (i) a payment of £20 on the first Interest Payment Date; (ii) a payment of £17.50 on the second Interest Payment Date; and (iii) a payment of £15 on the third Interest Payment Date.

Linear Basket Credit Linked Security and Untranch Index Credit Linked Security – Zero Recovery

In this example 7:

- The investor is exposed to the credit risk of four equally weighted Reference Entities (in this scenario they will each have a weighting of 25% and will be labelled "RE A", "RE B", "RE C" and "RE D").
- A "Failure to Pay" Credit Event, has occurred in respect of RE A under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security in respect of RE A.
- A "M(M)R Restructuring" Credit Event has occurred in respect of RE B under the terms of the Reference CDS which in turn has resulted in the occurrence of another Credit Trigger under the Credit Linked Security.
- The Triggered Amount in respect of a Credit Linked Security is (i) 25% of the Notional Amount attributable to RE A which in turn is equal to 25% Specified Denomination (in respect of a Credit Linked Note) or 25% of the Nominal Amount (in respect of a Credit Linked Certificate) being £250 and (ii) 50% of the Notional Amount attributable to RE B which in turn is equal to 12.5% Specified Denomination (in respect of a Credit Linked Note) or 12.5% of the Nominal Amount (in respect of a Credit Linked Certificate) being £125.
- The Credit Linked Security is a Zero Recovery Credit Linked Security.
- The Final Price is assumed to be 0%.
- The Credit Event Loss Amount (if applicable) is determined to be £250 (in respect of RE A) and £125 (in respect of RE B).

Following the occurrence of the Credit Trigger in respect of (A) RE A, no Credit Event Amount will be payable and the Notional Amount of the Credit Linked Security attributed to RE A (being in this example 7, 25% of the Specified Denomination (in respect of a Credit Linked Note) or Nominal Amount (in respect of a Credit Linked Certificate), being £250) will be reduced to 0 and the holder of the Credit Linked Security would lose £250 of the invested amount and (B) RE B, no Credit Event Amount will be payable and the Triggered Amount of the Credit Linked Security attributed to RE B (being in this 12.5% of the Specified Denomination (in respect of a Credit Linked Note) or Nominal Amount (in respect of a Credit Linked Certificate), being £125) will be reduced to 0 and the holder of the Credit Linked Security would lose £125 of the invested amount. In total an investor will lose £375 of the invested amount.

If no further Credit Triggers occur in respect of the Credit Linked Security, the Credit Linked Security will be redeemed (in respect of a Credit Linked Note) or settled (in respect of a Certificate) on the Final Maturity Date by payment of the Final Redemption Amount (in respect of a Credit Linked Note) or the Settlement Amount (in respect of a Credit Linked Certificate), such amount shall be equal to the remaining Calculation Amount (being in this example 7, £625).

If interest is specified to be payable on the Credit Linked Security and:

(a) "No Interest Accrual on a Credit Trigger" is specified to be applicable and:

(i) a Credit Trigger occurs in respect of:

(A) RE A (as specified in this example 7); and

(B) RE B (as specified in this example 7),

in each case, on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on 37.5% of the Calculation Amount (being £375) of the Credit Linked Security, attributed to the affected Reference Entities (i.e. RE A and RE B), from and including the Issue Date and interest will continue to accrue in respect of the remaining 62.5% of the Calculation Amount (being £625) attributable to RE B, RE C and RE D until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £12.50 on each Interest Payment Dates, subject to the Credit Linked Conditions; or

- (ii) a Credit Trigger occurs in respect of:
- (A) RE A (as set out in this example 7) one year and three months into the life of the Credit Linked Security, interest will cease to on 25% of the Calculation Amount (being £250) attributable to RE A under the Credit Linked Security from and including the first day of the Interest Period in which such Credit Trigger occurred.
 - (B) RE B (as set out in this example 7) 1 year and 6 months into the life of the Credit Linked Security, interest will now also cease to accrue on 12.5% of the Calculation Amount (being £125) of the Credit Linked Security, attributed to RE B, from and including the first day of the Interest Period in which such Credit Trigger occurs.

The Credit Linked Security will continue to accrue interest on the remaining 62.5% of the Calculation Amount (being 625) attributable to the RE B, RE C and RE D until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of RE C and RE D and any further Credit Triggers in respect of RE B.

Interest Payable: The holder of the Credit Linked Security will receive (i) a payment of £20 on the first Interest Payment Date; and (ii) a payment of £12.50 on each of the second and third Interest Payment Dates, subject in each case to the Credit Linked Conditions.

- (b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of:
- (A) RE A (as specified in this example 7); and
 - (B) RE B (as specified in this example 7),

in each case, on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on 37.5% of the Calculation Amount (being £375) of the Credit Linked Security, attributed to the affected Reference Entities (i.e. RE A and RE B), from and including the Issue Date and interest will continue to accrue in respect of the remaining 62.5% of the Calculation Amount (being £625) attributable to RE B, RE C and RE D until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £12.50 on each Interest Payment Dates, subject to the Credit Linked Conditions; or

- (ii) a Credit Trigger occurs in respect of:
- (A) RE A (as specified in this example 7) one year and three months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on 25% of the Calculation Amount (being £250), attributed to RE A, under the Credit Linked Security from and including the date on which such Credit Trigger occurred; and
 - (B) RE B (as specified in this example 7) one year and six months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on 12.5% of the Calculation Amount (being £125), attributed to RE B, under the Credit Linked Security from and including the date on which such Credit Trigger occurred.

Interest will continue to accrue on the remaining 62.5% of the Calculation Amount (being in this example 7, ~~£625~~) attributable to RE B, RE C and RE D, in each case, until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of RE C and RE D and any further Credit Triggers in respect of RE B.

Interest Payable: The holder of the Credit Linked Security will receive (i) a payment of £20 on the first Interest Payment Date; and (ii) a payment of £15 on the second Interest Payment Date; and (iii) a payment of £12.50 third Interest Payment Date, subject in each case to the Credit Linked Conditions.

Linear Basket Credit Linked Security and Untranching Index Credit Linked Security – Maturity Capital Protection

In this example 8:

- The investor is exposed to the credit risk of four equally weighted Reference Entities (in this scenario they will each have a weighting of 25% and will be labelled "RE A", "RE B", "RE C" and "RE D").
- A "Failure to Pay" Credit Event, has occurred in respect of RE A under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security in respect of RE A.
- A "M(M)R Restructuring" Credit Event, has occurred in respect of RE B under the terms of the Reference CDS which in turn has resulted in the occurrence of another Credit Trigger under the Credit Linked Security.
- A succession event has occurred in respect of RE C and two successors have been identified in respect of the original Reference Entity (being RE C1 and RE C2). Based on this assumption the Calculation Agent will have adjusted the Notional Amount and it will now be divided equally between the two successors, each will be assigned 50% of the Notional Amount, being in this scenario £125 each.
- A "Failure to Pay" Credit Event has occurred in respect of RE C2 under the terms of the Reference CDS, which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.
- The Triggered Amount in respect of a Credit Linked Security is (i) 25% of the Notional Amount attributable to RE A which in turn is equal to 25% Specified Denomination (in respect of a Credit Linked Note) or 25% of the Nominal Amount (in respect of a Credit Linked Certificate) being £250, (ii) 50% of the Notional Amount attributable to RE B which in turn is equal to 12.5% Specified Denomination (in respect of a Credit Linked Note) or 12.5% of the Nominal Amount (in respect of a Credit Linked Certificate) being £125 and (iii) 50% of the Notional Amount attributable to RE C2 which in turn is equal to 12.5% Specified Denomination (in respect of a Credit Linked Note) or 12.5% of the Nominal Amount (in respect of a Credit Linked Certificate) being £125.
- Maturity Capital Protection applies in respect of the Credit Linked Securities.
- "Early Settlement" shall not apply.

If a Credit Trigger is determined to have occurred in respect of a Credit Linked Security where Maturity Capital Protection applies and the Capital Protection Percentage is specified to be 100%, the holder of such Credit Linked Security will receive 100% of the invested amount back on the Scheduled Maturity Date, being in this example 8, **£1,000**, subject to any early redemption or settlement (as applicable) and the credit risk of the Issuer and (if applicable) the Guarantor.

If interest is specified to be payable on the Credit Linked Security and:

(a) **"No Interest Accrual on a Credit Trigger"** is specified to be applicable and:

(i) a Credit Trigger occurs in respect of:

(A) RE A (as specified in this example 8);

(B) RE B (as specified in this example 8); and

(C) RE C2 (as specified in this example 8),

in each case, on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on 50% of the Calculation Amount (being £500) of the Credit Linked

Security, attributed to the affected Reference Entities (i.e. RE A, RE B and RE C2), from and including the Issue Date.

Interest will continue to accrue in respect of the remaining 50% of the Calculation Amount (being £500) attributable to RE B (remaining Calculation Amount of 12.5% (having previously been reduced by 50% in accordance with a M(M)R Credit Event and partial exercise of 50% of the Notional Amount attributed to RE B as per this example 8) being £125), RE C2 (remaining Calculation Amount of 12.5% (having previously been amended due to the occurrence of a succession event in respect of RE C), being £125) and RE D (25% of the Calculation Amount, being £250) until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £10 on each Interest Payment Date. The interest amounts will continue to be payable to the holder, on the relevant Interest Payment Dates, subject to the Credit Linked Conditions; or

- (ii) a Credit Trigger occurs in respect:
 - (A) RE A (as specified in this example 8) one year and three months into the life of the Credit Linked Security, interest will cease to on 25% of the Calculation Amount attributable to RE A (being in this example 8, **£250**) under the Credit Linked Security from and including the first day of the Interest Period in which such Credit Trigger occurred;
 - (B) RE B (as specified in this example 8) 1 year and 6 months into the life of the Credit Linked Security, interest will now also cease to accrue on 12.5% of the Calculation Amount (being in this example 8, **£125**) of the Credit Linked Security, attributed to RE B, from and including the first day of the Interest Period in which such Credit Trigger occurs; and
 - (C) RE C2 (as specified in this example 8) 1 year and 9 months into the life of the Credit Linked Security, interest will now also cease to accrue on 12.5% of the Calculation Amount (being in this example 8, **£125**) of the Credit Linked Security, attributed to RE C2, from and including the first day of the Interest Period in which such Credit Trigger occurs.

The Credit Linked Security will continue to accrue interest on the remaining 50% of the Calculation Amount (being in this example 8, **£500**) attributable to the RE B, RE C1 and RE D until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of RE C1, RE D and any further Credit Triggers in respect of RE B.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £20 on the first Interest Payment Date; and (ii) £10 on each of the second and third Interest Payment Dates, subject to the Credit Linked Conditions.

- (b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of:
 - (A) RE A (as specified in this example 8);
 - (B) RE B (as specified in this example 8); and
 - (C) RE C2 (as specified in this example 8),

in each case, on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on 50% of the Calculation Amount of the Credit Linked Security, attributed to the affected Reference Entities (i.e. RE A, RE B and RE C2), from and including the Issue Date.

Interest will continue to accrue in respect of the remaining 50% of the Calculation Amount attributable to RE B (remaining Calculation Amount of 12.5% (having previously been reduced by 50% in accordance with a M(M)R Credit Event and partial exercise of 50% of the Notional Amount attributed to RE B as per this example 8) being £125), RE C1 (remaining Calculation Amount of 12.5% (having previously been amended due to the occurrence of a succession event in respect of RE C), being £125)) and RE D (25% of the Calculation Amount, being £250) until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £10 on each Interest Payment Date, subject to the Credit Linked Conditions; or

- (ii) a Credit Trigger occurs in respect of:
- (A) RE A (as specified in this example 8) one year and three months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on 25% of the Calculation Amount (being £250), attributed to RE A, under the Credit Linked Security from and including the date on which such Credit Trigger occurred;
 - (B) RE B (as specified in this example 8) one year and six months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on 12.5% of the Calculation Amount (being £125), attributed to RE B which is the subject of the Credit Trigger (as set out in this example 8), under the Credit Linked Security from and including the date on which such Credit Trigger occurred; and
 - (C) RE C2 (as specified in this example 8) one year and nine months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on 12.5% of the Calculation Amount (being £125), attributed to RE C2 which is the subject of the Credit Trigger (as set out in this example 8), under the Credit Linked Security from and including the date on which such Credit Trigger occurred.

Interest will continue to accrue in respect of the remaining 50% of the Calculation Amount attributable to RE B (remaining Calculation Amount of 12.5% (having previously been reduced by 50% in accordance with a M(M)R Credit Event and partial exercise of 50% of the Notional Amount attributed to RE B as per this example 8), being £125), RE C2 (remaining Calculation Amount of 12.5% (having previously been amended due to the occurrence of a succession event in respect of RE C), being £125) and RE D (25% of the Calculation Amount, being £250) until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive (i) a payment of £20 on the first Interest Payment Date; (ii) a payment of £14.38 on the second Interest Payment Date; and (iii) a payment of £10 on the third Interest Payment Date, subject to the Credit Linked Conditions.

Tranched Basket Credit Linked Security and Tranched Index Credit Linked Security

In this example 9:

- The investor is exposed to the credit risk of 100 equally weighted Reference Entities (in this scenario they will each have a weighting of 1% and they will be labelled "RE 1", "RE 2" and so on).
- The Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) is £1,500.
- The Tranche is 0-3%.
- A Failure to Pay Credit Event has occurred in respect of RE 1 under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.

- **The Triggered Amount in respect of a Credit Linked Security is the Notional Amount attributable to RE 1.**
- **No succession event has occurred in respect of any Reference Entity.**
- **The Final Price is assumed to be 40%.**
- **The Attachment Point is 0%.**
- **The Exhaustion Point is 3%.**
- **The Tranche Size is 3% (being the Exhaustion Point – the Attachment Point).**
- **The Implicit Notional is £50,000 (being £1,500 and equal to the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate), divided by Tranche Size being 3%).**
- **The Notional Amount per Reference Entity is £500 (being the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate), (£1,500) multiplied by weighting (being 1%) divided by Tranche Size being 3%).**
- **Loss Threshold Amount is 0 (being Implicit Notional (£50,000) x Attachment Point (0%)).**
- **The Credit Event Loss Amount (if applicable) is determined to be £300 (calculated as follows £500 x (100% - 40%)).**

The Incurred Loss Amount is calculated as the *lowest* of (x) the Credit Event Loss Amount (**being in this example 9 and for this limb (x), £300**); (y) subject to a minimum of zero, (1) the Aggregate Credit Event Loss Amount (including, for the avoidance of doubt the Credit Event Loss Amount related to such Credit Trigger) (given that this is the first Credit Trigger, the Aggregate Credit Event Loss Amount in this example 9 would be **£300**) minus (2) the Loss Threshold Amount (being 0), (**being in this example 9 and for this limb (y), £300**) and (z) the outstanding Calculation Amount (prior to any reduction thereon in respect of such Credit Trigger) (**being in this example 9 and for this limb (z), £1,500**).

Based on the above calculations, the lowest of (x), (y) and (z) would be £300 and therefore the Incurred Loss Amount would be £300. The Final Redemption Amount (in respect of a Credit Linked Note) and the Settlement Amount (in respect of a Credit Linked Certificate) would be reduced by £300. If no further Credit Triggers occur the holder of the Credit Linked Security will receive the Final Redemption Amount (in respect of a Credit Linked Note) and the Settlement Amount (in respect of a Credit Linked Certificate) on the Final Maturity Date (being in this example 9 the remaining Calculation Amount of **£1,200 (£1,500 - £300)**).

If interest is specified to be payable on the Credit Linked Security and:

- (a) **"No Interest Accrual on a Credit Trigger"** is specified to be applicable and:
- (i) a Credit Trigger occurs in respect of RE 1 (as specified in this example 9), on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on the £300 (being the amount equal to the Incurred Loss Amount attributed to the affected Reference Entity following the occurrence of the relevant Credit Trigger), from and including the Issue Date and interest will continue to accrue in respect of the remaining £1,200 until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £24 on each Interest Payment Date, subject to the Credit Linked Conditions; or
 - (ii) a Credit Trigger occurs in respect in respect of RE 1 (as specified in this example 9) one year and one month into the life of the Credit Linked Security, interest will cease to accrue on the £300 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), from and including the first day of the Interest Period in which such Credit Trigger occurred.

The Credit Linked Security will continue to accrue interest on the remaining £1,200 until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of any other Reference Entity.

Interest Payable: The holder of the Credit Linked Security will receive (i) a payment of £30 on the first Interest Payment Date; and (ii) a payment of £24 on each of the second and third Interest Payment Dates, in each case subject to the Credit Linked Conditions.

(b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of RE 1 (as specified in this example 9), on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on the £300 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), from and including the Issue Date and interest will continue to accrue in respect of the remaining £1,200 until the Scheduled Maturity Date.

The holder of the Credit Linked Security will receive a payment of £24 on each Interest Payment Date, subject to the Credit Linked Conditions; or

- (ii) a Credit Trigger occurs in respect of RE 1 (as specified in this example 9) one year and three months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on £300 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), under the Credit Linked Security from and including the date on which such Credit Trigger occurred.

Interest will continue to accrue in respect of the remaining £1,200 until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of the other Reference Entities.

Interest Payable: The holder of the Credit Linked Security will receive (i) a payment of £30 on the first Interest Payment Date; (ii) a payment of £25.50 on the second Interest Payment Date; and (iii) a payment of £24 on the third Interest Payment Date, subject in each case to the Credit Linked Conditions.

Tranched Basket Credit Linked Security and Tranched Index Credit Linked Security

In this example 10:

- **The investor is exposed to the credit risk of 100 equally weighted Reference Entities (in this scenario they will each have a weighting of 1% they will be labelled "RE 1", "RE 2" and so on).**
- **The Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) is £1,500.**
- **The Tranche is 0-3%.**
- **5 Credit Events have occurred, one each in respect of RE 1, RE 2, RE 3, RE 4 and RE 5 under the terms of the Reference CDS which in turn has resulted in the occurrence of Credit Triggers under the Credit Linked Security. The Credit Triggers will all be deemed to have occurred on the same date of the purposes of this example 10.**
- **The Triggered Amount in respect of a Credit Linked Security is the Notional Amount attributable to each relevant Reference Entity.**
- **No succession event has occurred in respect of any Reference Entity.**
- **The Final Price is assumed to be 40%.**
- **The Attachment Point is 0%;**

- **The Exhaustion Point is 3%.**
- **The Tranche Size is 3% (being the Exhaustion Point – the Attachment Point).**
- **The Implicit Notional is £50,000 (being £1,500 and equal to the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate), divided by the Tranche Size being 3%).**
- **The Notional Amount per Reference Entity is £500 (being the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate), (£1,500) multiplied by the weighting (being 1%) divided by the Tranche Size being 3%).**
- **Loss Threshold Amount is 0 (being Implicit Notional (£50,000) x Attachment Point (0%)).**
- **The Credit Event Loss Amount (if applicable) is determined to be £300 (calculated as follows £500 x (100% - 40%)).**

The Incurred Loss Amount is calculated as the *lowest* of (x) the Credit Event Loss Amount in respect of each Reference Entity (**being in this example 10 and for this limb (x), £300**); (y) subject to a minimum of zero, (1) the Aggregate Credit Event Loss Amount (including, for the avoidance of doubt the Credit Event Loss Amount related to such Credit Trigger) (the Aggregate Credit Event Loss Amount in this example 10 for all 5 Credit Triggers would be **£1,500**) minus (2) the Loss Threshold Amount (being 0), (**being in this example 10 and for this limb (y), £300 for the first calculation in respect of RE 1, and being £600 in respect of the second calculation in respect of RE 2 and so on until RE 5 where it will be £1,500**) and (z) the outstanding Calculation Amount (prior to any reduction thereon in respect of such Credit Triggers) (**being in this example 10 and for this limb (z), £1,500 in respect of the first calculation in respect of RE 1, being £1,200 in respect of the second calculation in respect of RE 2 and so on until RE 5 where it will be £300**).

Based on the above calculations, the lowest of (x), (y) and (z) would be £300 and therefore the Incurred Loss Amount would be £300 in respect of each of RE 1, RE 2, RE 3, RE 4 and RE 5. The Final Redemption Amount (in respect of a Credit Linked Note) and the Settlement Amount (in respect of a Credit Linked Certificate) would be reduced by £300 in respect of each of the Credit Triggers relating to RE1, RE 2, RE 3, RE 4 and RE 5. No Final Redemption Amount (in respect of a Credit Linked Note) or Settlement Amount (in respect of a Credit Linked Certificate) will be payable on the Final Maturity Date, the Calculation Amount will have been reduced to zero following the occurrence of the above five Credit Triggers and the Aggregate Incurred Loss Amount in respect of such Credit Triggers will be equal to £1,500.

If interest is specified to be payable on the Credit Linked Security and:

- (a) **"No Interest Accrual on a Credit Trigger"** is specified to be applicable and:
- (i) the above Credit Triggers occur in respect of each of RE 1, RE 2, RE 3, RE 4 and RE 5 (as specified in this example 10), on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on the entire Calculation Amount of the Credit Linked Security, being in this example 10, **£1,500** (and such amount is equal to the Aggregate Incurred Loss Amount attributed to all of the affected Reference Entities following the occurrence of the relevant Credit Triggers), from and including the Issue Date. No interest will accrue on the Credit Linked Security since the Calculation Amount will have been reduced to zero from and including the Issue Date.
- Interest Payable:** The holder of the Credit Linked Security will receive no interest payments under the Credit Linked Securities; or
- (ii) the above Credit Triggers occur in respect of each of RE 1, RE 2, RE 3, RE 4 and RE 5 (as specified in this example 10), one year and three months into the life of the Credit Linked Security, interest will cease to accrue on the entire Calculation Amount of the Credit Linked Security, being in this example 10, **£1,500** (and such amount is equal to the Aggregate Incurred Loss Amount attributed to all of the affected Reference Entities

following the occurrence of the relevant Credit Triggers), from and including the first day of the Interest Period in which such Credit Trigger occurred. No further interest will accrue on the Credit Linked Security.

Interest Payable: The holder of the Credit Linked Security (i) will receive a payment of £30 on the first Interest Payment Date, subject to the Credit Linked Conditions; and (ii) will not receive any interest amounts on the second and third Interest Payment Dates.

(b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) the above Credit Triggers occur in respect of each of RE 1, RE 2, RE 3, RE 4 and RE 5 (as specified in this example 10), on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on the entire Calculation Amount of the Credit Linked Security, being in this example 10, **£1,500** (and such amount is equal to the Aggregate Incurred Loss Amount attributed to all of the affected Reference Entities following the occurrence of the relevant Credit Triggers), from and including the Issue Date. No interest will accrue on the Credit Linked Security since the Calculation Amount will have been reduced to zero from and including the Issue Date.

Interest Payable: The holder of the Credit Linked Security will receive no interest payments under the Credit Linked Securities; or

- (ii) the above Credit Triggers occur in respect of each of RE 1, RE 2, RE 3, RE 4 and RE 5 (as specified in this example 10), one year and three months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on the entire Calculation Amount of the Credit Linked Security, being in this example 10, **£1,500** (and such amount is equal to the Aggregate Incurred Loss Amount attributed to all of the affected Reference Entities following the occurrence of the relevant Credit Triggers), under the Credit Linked Security from and including the date on which such Credit Trigger occurred.

No further interest will accrue on the Credit Linked Security since the Calculation Amount will have been reduced to zero.

Interest Payable: The holder of the Credit Linked Security (i) will receive a payment of £30 on the first Interest Payment Date, subject to the Credit Linked Conditions; (ii) a payment of £7.50 on the date determined in accordance with the Credit Linked Conditions.

Tranched Basket Credit Linked Security and Tranched Index Credit Linked Security

In this example 11:

- **The investor is exposed to the credit risk of 100 equally weighted Reference Entities (in this scenario they will each have a weighting of 1% they will be labelled "RE 1", "RE 2" and so on).**
- **The Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) is £1,500.**
- **The Tranche is 70-80%.**
- **A Credit Event has occurred in respect of RE 1 under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.**
- **The Triggered Amount in respect of a Credit Linked Security is the Notional Amount attributable to RE 1.**
- **No succession event has occurred in respect of any Reference Entity.**
- **The Final Price is assumed to be 0%.**

- The Attachment Point is 70%;
- The Exhaustion Point is 80%.
- The Tranche Size is 10% (being the Exhaustion Point – the Attachment Point).
- The Implicit Notional is £15,000 (being the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate), being in this example 11, £1,500 divided by the Tranche Size being 10%).
- The Notional Amount per Reference Entity is £150 (being the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) (£1,500) multiplied by the weighting (being 1%) divided by the Tranche Size being 10%).
- Loss Threshold Amount is £10,500 (being Implicit Notional (£15,000) x Attachment Point (70%)).
- The Credit Event Loss Amount (if applicable) is determined to be £150 (calculated as follows $£150 \times (100\% - 0\%)$).

The Incurred Loss Amount is calculated as the *lowest* of (x) the Credit Event Loss Amount (**being in this example 11 and for this limb (x), £150**); (y) subject to a minimum of zero, (1) the Aggregate Credit Event Loss Amount (including, for the avoidance of doubt the Credit Event Loss Amount related to such Credit Trigger) (given that this is the first Credit Trigger, the Aggregate Credit Event Loss Amount in this example 11 would be **£150**) minus (2) the Loss Threshold Amount (being £10,500), (**being in this example 11 and for this limb (y), £0 because £150 minus £10,500 is a negative number and the sum for this limb is subject to a minimum of zero**) and (z) the outstanding Calculation Amount (prior to any reduction thereon in respect of such Credit Trigger) (**being in this example 11 and for this limb (z), £1,500**).

Based on the above calculations, the lowest of (x), (y) and (z) would be £0 and therefore the Incurred Loss Amount would be £0. The Final Redemption Amount (in respect of a Credit Linked Note) and the Settlement Amount (in respect of a Credit Linked Certificate) would be reduced by £0. If no further Credit Triggers occur the holder of the Credit Linked Security will receive the Final Redemption Amount (in respect of a Credit Linked Note) and the Settlement Amount (in respect of a Credit Linked Certificate) on the Final Maturity Date (being in this example 11 the remaining Calculation Amount of **£1,500**).

If interest is specified to be payable on the Credit Linked Security and:

- (a) "No Interest Accrual on a Credit Trigger" is specified to be applicable and:
- (i) a Credit Trigger occurs in respect of RE 1 (as specified in this example 11), on or prior to the Issue Date of the Credit Linked Security. Interest will continue to accrue on the entire invested amount (being in this example 11, **£1,500**) until the Scheduled Maturity Date. There would be no loss of interest in this example 11 because the Incurred Loss Amount is **£0**.
- Interest Payable:** The holder of the Credit Linked Security will receive a payment of £30 on each Interest Payment Dates (subject to the Credit Linked Conditions); or
- (ii) a Credit Trigger occurs in respect in respect of RE 1 (as specified in this example 11) one year and three months into the life of the Credit Linked Security, interest will continue to accrue on the entire invested amount (being in this example 11, **£1,500**) until the Scheduled Maturity Date. There would be no loss of interest in this example 11 because the Incurred Loss Amount is **£0**.
- Interest Payable:** The holder of the Credit Linked Security will receive a payment of £30 on each Interest Payment Dates (subject to the Credit Linked Conditions).
- (b) "Interest Accrual on a Credit Trigger" is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of RE 1 (as specified in this example 11), on or prior to the Issue Date of the Credit Linked Security. Interest will continue to accrue on the entire invested amount (being in this example 11, **£1,500**) until the Scheduled Maturity Date. There would be no loss of interest in this example 11 because the Incurred Loss Amount is £0.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £30 on each Interest Payment Dates (subject to the Credit Linked Conditions); or

- (ii) a Credit Trigger occurs in respect of RE 1 (as specified in this example 11) one year and three months from the Issue Date of the Credit Linked Security. Interest will continue to accrue on the entire invested amount (being in this example 11, **£1,500**) until the Scheduled Maturity Date. There would be no loss of interest in this example 11 because the Incurred Loss Amount is **£0**.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £30 on each Interest Payment Dates (subject to the Credit Linked Conditions).

Tranched Basket Credit Linked Security and Tranched Index Credit Linked Security – Zero Recovery

In this example 12:

- The investor is exposed to the credit risk of 100 equally weighted Reference Entities (in this scenario they will each have a weighting of 1% they will be labelled "RE 1", "RE 2" and so on).
- The Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) is **£1,500**.
- The Tranche is **0-3%**.
- A Failure to Pay Credit Event Credit Event has occurred in respect of RE 1 under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.
- The Triggered Amount in respect of a Credit Linked Security is the Notional Amount attributable to RE 1.
- No succession event has occurred in respect of any Reference Entity.
- The Final Price is assumed to be **0%**.
- The Attachment Point is **0%**;
- The Exhaustion Point is **3%**.
- The Tranche Size is **3%** (being the Exhaustion Point – the Attachment Point).
- The Implicit Notional is **£50,000** (being the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) (**£1,500**) divided by the Tranche Size being **3%**).
- The Notional Amount per Reference Entity is **£500** (being the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) (**£1,500**) multiplied by the weighting (being **1%**) divided by the Tranche Size being **3%**).
- Loss Threshold Amount is **0** (being Implicit Notional (**£50,000**) x Attachment Point (**0%**)).
- The Credit Event Loss Amount (if applicable) is determined to be **£500** (calculated as follows **£500 x (100% - 0%)**).

The Incurred Loss Amount is calculated as the *lowest* of (x) the Credit Event Loss Amount (**being in this example 12 and for this limb (x), £500**); (y) subject to a minimum of zero, (1) the Aggregate Credit Event Loss Amount (including, for the avoidance of doubt the Credit Event Loss Amount related to such Credit Trigger) (given that this is the first Credit Trigger, the Aggregate Credit Event Loss Amount in this example 12 would be **£500**) minus (2) the Loss Threshold Amount (being 0), (**being in this example 12 and for this limb (y), £500**) and (z) the outstanding Calculation Amount (prior to any reduction thereon in respect of such Credit Trigger) (**being in this example 12 and for this limb (z), £1,500**).

Based on the above calculations, the lowest of (x), (y) and (z) would be £500 and therefore the Incurred Loss Amount would be £500. The Final Redemption Amount (in respect of a Credit Linked Note) and the Settlement Amount (in respect of a Credit Linked Certificate) would be reduced by £500. If no further Credit Triggers occur the holder of the Credit Linked Security will receive the Final Redemption Amount (in respect of a Credit Linked Note) and the Settlement Amount (in respect of a Credit Linked Certificate) on the Final Maturity Date (being in this example 12 the remaining Calculation Amount of **£1,000 (£1,500 - £500)**).

If interest is specified to be payable on the Credit Linked Security and:

(a) **"No Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of RE 1 (as specified in this example 12), on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on the £500 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), from and including the Issue Date and interest will continue to accrue in respect of the remaining £1,000 until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £20 on each Interest Payment Date (subject to the Credit Linked Conditions); or

- (ii) a Credit Trigger occurs in respect in respect of RE 1 (as specified in this example 12) one year and three months into the life of the Credit Linked Security, interest will cease to on the £500 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), from and including the first day of the Interest Period in which such Credit Trigger occurred.

The Credit Linked Security will continue to accrue interest on the remaining £1,000 until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of any other Reference Entity.

Interest Payable: The holder of the Credit Linked Security will (i) receive a payment of £30 on the first Interest Payment Date; and (ii) receive a payment of £20 on the second and third Interest Payment Date, subject in each case to the Credit Linked Conditions.

(b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of RE 1 (as specified in this example 12), on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on the £500 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), from and including the Issue Date and interest will continue to accrue in respect of the remaining £1,000 until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £20 on each Interest Payment Date (subject to the Credit Linked Conditions); or

- (ii) a Credit Trigger occurs in respect of RE 1 (as specified in this example 12) one year and three months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on £500 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), under the Credit Linked Security from and including the date on which such Credit Trigger occurred.

Interest will continue to accrue in respect of the remaining £1,000 until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of the other Reference Entities.

Interest Payable: The holder of the Credit Linked Security will (i) receive a payment of £30 on the first Interest Payment Date; (ii) receive a payment of £22.50 on the second Interest Payment Date; and (iii) receive a payment of £20 on the third Interest Payment Date, in each case subject to the Credit Linked Conditions.

Tranched Basket Credit Linked Security and Tranched Index Credit Linked Security – Maturity Capital Protection

In this example 13:

- **The investor is exposed to the credit risk of 100 equally weighted Reference Entities (in this scenario they will each have a weighting of 1% they will be labelled "RE 1", "RE 2" and so on).**
- **The Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) is £1,500.**
- **The Tranche is 0-3%.**
- **A Credit Event has occurred in respect of RE 1 under the terms of the Reference CDS which in turn has resulted in the occurrence of a Credit Trigger under the Credit Linked Security.**
- **The Triggered Amount in respect of a Credit Linked Security is the Notional Amount attributable to RE 1.**
- **No succession event has occurred in respect of any Reference Entity.**
- **The Final Price is assumed to be 40%.**
- **The Attachment Point is 0%;**
- **The Exhaustion Point is 3%.**
- **The Tranche Size is 3% (being the Exhaustion Point – the Attachment Point).**
- **The Implicit Notional is £50,000 (being the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) £1,000 divided by the Tranche Size being 3%).**
- **The Notional Amount per Reference Entity is £500 (being the Specified Denomination (in respect of a Credit Linked Note) or the Nominal Amount (in respect of a Credit Linked Certificate) (£1,500) multiplied by the weighting (being 1%) divided by the Tranche Size being 3%).**
- **Loss Threshold Amount is 0 (being Implicit Notional (£50,000) x Attachment Point (0%)).**
- **The Credit Event Loss Amount (if applicable) is determined to be £300 (calculated as follows £500 x (100% - 40%)).**
- **"Early Settlement" shall not apply.**

If a Credit Trigger is determined to have occurred in respect of a Credit Linked Security where Maturity Capital Protection applies and the Capital Protection Percentage is 100% of the invested amount, the holder of such Credit Linked Security will receive 100% of the invested amount back on the Scheduled Maturity Date, being in this example 13, **£1,500**, subject to any early redemption or settlement (as applicable) of the Credit Linked Security and the credit risk of the Issuer and (if applicable) the Guarantor.

The Incurred Loss Amount for the purposes of interest amounts payable under the Credit Linked Security is calculated as the *lowest* of (x) the Credit Event Loss Amount (**being in this example 13 and for this limb (x), £300**); (y) subject to a minimum of zero, (1) the Aggregate Credit Event Loss Amount (including, for the avoidance of doubt the Credit Event Loss Amount related to such Credit Trigger) (given that this is the first Credit Trigger, the Aggregate Credit Event Loss Amount in this example 13 would be **£300**) minus (2) the Loss Threshold Amount (being 0), (**being in this example 13 and for this limb (y), £300**) and (z) the outstanding Calculation Amount (prior to any reduction thereon in respect of such Credit Trigger) (**being in this example 13 and for this limb (z), £1,500**).

Based on the above calculations, the lowest of (x), (y) and (z) would be £300 and therefore the Incurred Loss Amount would be £300. The Calculation Amount in respect of a Credit Linked Security would be reduced by £300 for the purposes of calculating interest amounts payable under such Security.

If interest is specified to be payable on the Credit Linked Security and:

(a) **"No Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of RE 1 (as specified in this example 13), on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on the £300 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), from and including the Issue Date and interest will continue to accrue in respect of the remaining £1,200 until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £24 on each Interest Payment Date, subject to the Credit Linked Conditions; or

- (ii) a Credit Trigger occurs in respect in respect of RE 1 (as specified in this example 13) one year and one month into the life of the Credit Linked Security, interest will cease to on the £300 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), from and including the first day of the Interest Period in which such Credit Trigger occurred.

The Credit Linked Security will continue to accrue interest on the remaining £1,200 until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of any other Reference Entity.

Interest Payable: The holder of the Credit Linked Security will receive a payment of (i) £30 on the first Interest Payment Date; and (ii) £24 on the second and third Interest Payment Dates, subject in each case to the Credit Linked Conditions.

(b) **"Interest Accrual on a Credit Trigger"** is specified to be applicable and:

- (i) a Credit Trigger occurs in respect of RE 1 (as specified in this example 13), on or prior to the Issue Date of the Credit Linked Security. Interest will cease to accrue on the £300 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), from and including the Issue Date and interest will continue to accrue in respect of the remaining £1,200 until the Scheduled Maturity Date.

Interest Payable: The holder of the Credit Linked Security will receive a payment of £24 on each Interest Payment Date, subject to the Credit Linked Conditions; or

- (ii) a Credit Trigger occurs in respect of RE 1 (as specified in this example 13) one year and three months from the Issue Date of the Credit Linked Security. Interest will cease to accrue on £300 (being the amount equal to the Incurred Loss Amount attributed to RE 1 following the occurrence of the relevant Credit Trigger), under the Credit Linked Security from and including the date on which such Credit Trigger occurred.

Interest will continue to accrue in respect of the remaining £1,200 until the Scheduled Maturity Date, subject to the occurrence of a Credit Trigger in respect of the other Reference Entities.

Interest Payable: The holder of the Credit Linked Security will receive a payment of (i) £30 on the first Interest Payment Date; (ii) £25.50 on the second Interest Payment Date; and (iii) £24 on the third Interest Payment Date, subject in each case to the Credit Linked Conditions.

FORM OF FINAL TERMS (INSTRUMENTS)

*[Include if applicable: **PROHIBITION OF SALES TO EEA RETAIL INVESTORS** –* The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the European Economic Area has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the European Economic Area may be unlawful under the EU PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to EEA Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the EU PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the EEA as described in the above paragraph and in such legend shall no longer apply in relation to any member state whose requirements for a key information document in relation to the relevant Securities have been satisfied.]

*[Include if applicable: **PROHIBITION OF SALES TO UK RETAIL INVESTORS** –* The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA and regulations made thereunder (the "**UK Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (as amended, the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to UK Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the UK PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the United Kingdom as described in the above paragraph and in such legend shall no longer apply.]

*[Insert the following additional language in case of an offer in Switzerland: The Securities do not constitute a participation in a Collective Investment Scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("**CISA**"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the relevant Issuer and the relevant Guarantor, if any, respectively.]*

*[Insert in case of a public offering in Switzerland requiring a prospectus or a listing on the SIX Swiss Exchange and/or the BX Swiss: These Final Terms must be read together with the Base Prospectus which was included as a foreign prospectus, which is deemed approved also in Switzerland pursuant to article 54 para. 2 of the Swiss Federal Act on Financial Services ("**Financial Services Act**"; "**FinSA**") by SIX Exchange Regulation Ltd. as reviewing body (*Prüfstelle*) in the list of approved prospectuses and deposited with it and published pursuant to article 64 FinSA. These Final Terms will also be deposited with SIX Exchange Regulation Ltd. as reviewing body and published pursuant to article 64 FinSA.]*

[Insert if applicable: The [Warrants/Certificates] are not intended to satisfy, in whole or in part, any present or future taxonomies, standards and/or other regulatory or index inclusion criteria or voluntary guidelines with which such investor or its investments may be expected to comply. For example and without limitation, the Securities are not Green Bonds and/or Social Bonds as defined under the International Capital Market Association's Green Bond Principles and/or Social Bond Principles and they do not take into account any of the EU criteria for environmentally sustainable investments, including as set out under the Regulation of the European Parliament and of the Council on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation (EU) 2020/852).]

[Where the Final Terms cover two or more Series of Securities, the identification numbers for each Series should be included in the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below, and should not be included here.]

Form of Final Terms (Instruments)

- (i) [Averaging Dates/Pricing Dates]: [●] [Not Applicable].
- (ii) [Initial Averaging Date(s)/Initial Pricing Date(s)]: [●] [Not Applicable].
- (iii) [Last Averaging Date/Final Pricing Date]: [●] [Not Applicable].
- (iv) [Last Initial Averaging Date/Last Initial Pricing Date]: [●] [Not Applicable].
- (v) [Final Set First Averaging Date/Final Set First Pricing Date]: [●] / [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraph of this paragraph)*
- Specified Number of [Scheduled Trading Days/Scheduled Commodity Business Days] for the purposes of ["Final Set of Averaging Dates"/"Final Set of Pricing Dates"]:
 - Common Scheduled Trading Days for the purposes of ["Final Set of Averaging Dates"/"Final Set of Pricing Dates"]:
[Applicable] / [Not Applicable]
 - Final Set of Averaging Dates (Discrete):
[Applicable] / [Not Applicable]
[The Final Set of Averaging Dates are [●]]
- (vi) Initial Average Price:
[Initial Average Share Price] [Initial Average Closing Share Price] [Initial Average Share Reference Price] [Initial Average Index Level] [Initial Average Closing Index Level] [Initial Average Index Reference Price] [Initial Average Commodity Price] [Initial Average Commodity Reference Price] [Initial Average Commodity Index Level] [Initial Average Commodity Index Closing Level]
[The arithmetic mean of the NAV on each of the Initial Averaging Dates] [Not Applicable].

13. Asset Initial Price:

[In respect of [each/the] Underlying Asset,] [●] [, being] [the] [Initial Closing Price] [Initial Average Price] [Initial Price] [Entry Level] [of such Underlying Asset] [In respect of each Underlying Asset, as set forth in the Underlying Asset Table in the column entitled "Asset Initial Price" in the row corresponding to such Underlying Asset] [Not Applicable].

14. Adjusted Asset Final Reference Date:

[[Latest Reference Date / Latest Determination Date] in respect of the] [Final Reference Date / Last Averaging Date / Final Pricing Date] [Not Applicable].

- 15. Adjusted Asset Initial Reference Date:** [[Latest Reference Date / Latest Determination Date] in respect of the] [Initial Reference Date / Last Initial Averaging Date / Last Initial Pricing Date] [Not Applicable].
- 16. FX (Final) Valuation Date:** [Adjusted Final FX Valuation Date] [Final FX Valuation Date] [●] [FX Business Day(s) / Business Day(s) / calendar day(s) following [●]] [●] [(specify date)] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
- Publication Fixing Day Adjustment: [Applicable] [Not Applicable].
 - FX Specified Days for "Adjusted Final FX Valuation Date": [●] [Business Day(s) / Publication Fixing Day(s) / calendar days] [Not Applicable].
- 17. FX (Initial) Valuation Date:** [Adjusted Initial FX Valuation Date] [Initial FX Valuation Date] [[●] (specify number) [FX Business Day(s) / Business Day(s) / calendar days] following [●]] [[●] (specify date)] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
- Publication Fixing Day Adjustment: [Applicable] [Not Applicable].
 - FX Specified Days for "Adjusted Initial FX Valuation Date": [●] [Business Day(s) / Publication Fixing Day(s) / calendar days] [Not Applicable].
- 18. Final FX Valuation Date:** [In respect of each Underlying Asset,] [the Final Reference Date / the Last Averaging Date / the Final Pricing Date] for such Underlying Asset] [(specify date)] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraph of this paragraph)*
- Publication Fixing Day Adjustment: [Applicable] [Not Applicable].
- 19. Initial FX Valuation Date:** [In respect of each Underlying Asset,] [Initial Reference Date / the Last Initial Averaging Date / the Last Initial Pricing Date] [for such Underlying Asset] [●] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraph of this paragraph)*
- Publication Fixing Day Adjustment: [Applicable] [Not Applicable].

COUPON PAYOUT CONDITIONS

- 20. Coupon Payout Conditions:** [Applicable] [Not Applicable].
- 21. Interest Basis:** [[[●] per cent.] Fixed Rate] [and] [[LIBOR/EURIBOR/[●] (specify other)] [+/-[●] per cent.] Floating Rate] [and] [Alternative Fixed Coupon] [and] [Conditional Coupon] [and] [Range Accrual Coupon] [and] [Performance

- Coupon] [Dropback Security] [Inflation Index Linked Coupon] [Not Applicable] [subject as provided in the Coupon Payout Conditions].
- [(i)] [Fixed/Floating] Interest Commencement Date: [Issue Date] [[•] (*Specify*)] [Not Applicable].
- [(ii)] [Fixed/Floating] Interest Commencement Date: [Issue Date] [The [date on which the Interest Payment Date scheduled to fall on] [•] [is scheduled to fall]] [[•] (*Specify*)] [Not Applicable].
- 22. Fixed Rate Instrument Conditions (General Instrument Condition 13):** [Applicable] [Not Applicable]. (*If Not Applicable, delete the remaining subparagraphs of this paragraph*) [as amended by the Credit Linked Conditions] [*insert for Credit Linked Certificates only*]
- (i) Rate of Interest: [[•] per cent. [per annum] payable [annually/semi-annually/quarterly/bi-monthly/monthly/[•]] in arrear] [Not Applicable] [Determined in accordance with General Instrument Condition 13(d) [as amended by the Credit Linked Conditions] [and/or the Coupon Payout Conditions] and set forth in the Interest Rate Table below in the column entitled "Rate of Interest"].
- (ii) Interest Payment Date(s): [The [•] day of [month], [month] (*repeat as required*) in each calendar year from, and including, [•] to, and including, [•]] [•] (*specify date(s)*), subject to adjustment in accordance with the Business Day Convention[[•]]] [and subject to the Credit Linked Conditions].
- [The Interest Period[s] shall be ["Adjusted"/"Unadjusted"].]
- (iii) Fixed Coupon Amount: [[•] per Calculation Amount per Instrument] [As set forth in the Interest Rate Table below in the column entitled "Fixed Coupon Amount"] [Not Applicable].
- (iv) Broken Amount(s): [[•] per Calculation Amount per Instrument payable on the Interest Payment Date falling [in/on] [•] [and] [•] (*Insert particulars of any initial or broken interest amounts which do not correspond with the Fixed Coupon Amount(s) and the Interest Payment Date(s) to which they relate*)] [Not Applicable].
- (v) Day Count Fraction: [Actual/Actual (ICMA)] [Actual/Actual (ISDA)] [Actual/365] [Actual/365 (Fixed)] [Actual/360] [30/360] [30E/360] [Eurobond Basis].

- (vi) Step Up Fixed Rate Instrument [Applicable] [Not Applicable].
 Conditions (General Instrument Condition 13(d)):
- (vii) Business Day Convention: [Following Business Day Convention / Modified Following Business Day Convention / Modified Business Day Convention / Nearest/Preceding Business Day Convention / Floating Rate Convention / No Adjustment].

46. Trigger Event Conditions (Payout Condition 3): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*

- (i) Trigger Event: Applicable, for the purposes of the definition of "Trigger Event" in the Payout Conditions, Trigger Reference Value [greater than] [less than] [or equal to] the Trigger Level is applicable.
- (ii) Trigger Reference Value: [Trigger Closing Price] [Trigger Average Price] [Trigger Intraday Price] [Trigger Worst Closing Price] [Trigger Best Closing Price] [Trigger Basket Value] [Trigger Asset Performance] [Trigger Worst Asset Performance] [Trigger Best Asset Performance]. *(If Trigger Basket Value, Trigger Asset Performance, Trigger Worst Asset Performance or Trigger Best Asset Performance is not specified, delete the sub-paragraphs)*

- (a) Trigger Asset Price: [Trigger Closing Price] [Trigger Average Price].
- (b) Weighting: [In respect of each Underlying Asset, *(specify amount)*] / [In respect of [●], *(specify amount)*] / [In respect of each Underlying Asset,] as set forth in the Underlying Asset Table in the column entitled "Weighting" in the row corresponding to such Underlying Asset] [Not Applicable].
- (iii) Trigger Level: [(specify amount)][, being [●] per cent. of the Asset Initial Price] / [In respect of each Underlying Asset, [●] of the Asset Initial Price] / [In respect of each Underlying Asset, the [value] [percentage of the Asset Initial Price of such Underlying Asset] set forth in the Barrier and Trigger Table in the column entitled "Trigger Level" in the row corresponding to such Underlying Asset].
- Trigger Level Comparative Method: [Not Applicable] [Applicable]
(delete the following sub-paragraphs if "Trigger Level Comparative Method" is Not Applicable)
- Trigger Asset Comparative Price Observation Date: The Valuation Date scheduled to fall on [●].
- Trigger Level Floor: [In respect of [the/each] Underlying Asset,] [●] [In respect of each Underlying Asset, the [amount] [percentage] set forth in the Barrier and Trigger Table in the column entitled "Trigger Level Floor" in the row corresponding to such Underlying Asset].
- (iv) Trigger Observation Period: [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
[[No] Extension is Applicable].
- (a) Observation Date (closing valuation): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
- Reference Date/Pricing Date deemed to be Observation Date (closing valuation): [Applicable] [Not Applicable].
- (b) Observation Date (intra-day valuation): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
- Reference Price deemed to be Asset Intraday Price: [Applicable] [Not Applicable].

- (c) Trigger Observation Period Start Date: In respect of [each Underlying Asset/[●],] [●] (*specify date*) / the date specified in the Barrier and Trigger Table in the column entitled "Trigger Observation Period Start Date" in the row corresponding to such Underlying Asset (and such date shall be [included in] [excluded from] the Trigger Observation Period).
- (d) Trigger Observation Period End Date: In respect of [each Underlying Asset/[●],] [●] (*specify date*) / the date specified in the Barrier and Trigger Table in the column entitled "Trigger Observation Period End Date" in the row corresponding to such Underlying Asset (and such date shall be [included in] [excluded from] the Trigger Observation Period).
- (e) Trigger Lock-In Event Condition: [Applicable] [Not Applicable].
- 47. Currency Conversion:** [Applicable] [Not Applicable]. (*If Not Applicable, delete the remaining subparagraphs of this paragraph*)
- (i) Converted Currency: [●].
- (ii) Calculation Currency: [●].
- (iii) Currency Fixing Price Sponsor: [In respect of the [Cross Currency/Calculation Currency exchange rate,] [Cross Currency/Converted Currency exchange rate,] [●]. (*repeat as necessary*)
- (iv) Specified Rate: [In respect of the [Cross Currency/Calculation Currency exchange rate,] [Cross Currency/Converted Currency exchange rate,]
[Official fixing rate] [official mid closing rate] [spot rate] [mid rate] [fixing rate]. (*repeat as necessary*)
- (v) Currency Price Source: [In respect of the [Cross Currency/Calculation Currency exchange rate,] [Cross Currency/Converted Currency exchange rate,] [●].
- (vi) Currency Valuation Time: [In respect of the [Cross Currency/Calculation Currency exchange rate,] [Cross Currency/Converted Currency exchange rate,] [●].
- (vii) Currency Conversion Valuation Date: [●] [Adjusted Final FX Valuation Date] [Final FX Valuation Date] [(*specify number*) of [Currency Conversion Business Day[s] / Business Day[s] / calendar day[s] immediately following [Adjusted Asset Final Reference Date / Adjusted Final FX Valuation Date/ [●] [(*specify number*) of Currency Conversion

		Business Day(s) immediately preceding [the Maturity Date / [●]].
–	Publication Fixing Day Adjustment:	[Applicable] [Not Applicable].
–	Non-Default Currency Conversion Business Day for euro:	[Applicable] [Not Applicable].
(viii)	Currency Conversion Disruption Event:	[Applicable] [Not Applicable].
(ix)	Currency Conversion Derived Rate:	[Applicable] [Not Applicable]. <i>(If Not Applicable, delete the remaining sub- paragraphs of this paragraph)</i>
–	Cross Currency:	[●].
48. Physical Settlement (General Instrument Condition 9(e)):		[Applicable, General Instrument Condition 9(e) shall apply] [Not Applicable].
		[Single Asset] [Worst of Basket] is applicable.
		<i>(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)</i>
(i)	Physical Settlement Date:	[●].
(ii)	Deliverable Assets:	[As specified in Payout Condition 5] [In respect of [[●]/each Underlying Asset,] [●]. <i>(repeat as necessary)</i>
(iii)	Deliverable Assets Price:	[In respect of [[●]/each Underlying Asset,] [●] per cent. of the Initial Value]. <i>(repeat as necessary)</i>
(iv)	Lot size:	[Applicable] [Not Applicable].
(v)	Fractional Cash Amount:	[As specified in Payout Condition 5] [Not Applicable].
(vi)	Physical Settlement Disruption Amount:	[As specified in Payout Condition 5] [Not Applicable].
(vii)	Holder's Election for Physical Settlement (General Instrument Condition 9(f)):	[Applicable, General Instrument Condition 9(f) shall apply] [Not Applicable].
(viii)	Initial Value:	[[●] per cent. of the] [Initial Closing Price] [Initial Price] [Initial Average Price] [Entry Level] [<i>(specify amount)</i>] [In respect of each Underlying Asset, the amount specified in the Underlying Asset Table in the column entitled "Initial Value" in the row corresponding to such Underlying Asset].
(ix)	Final Value:	[Final Closing Price] [Final Average Price].
49. Non-scheduled Early Repayment Amount:		[Par plus accrued <i>(Do not specify for Warrants; and, if specified in relation to Certificates, include definition of</i>

"Calculation Amount")/Fair Market Value/Not Applicable – Supplementary Provisions for Belgian Securities is applicable] [As specified in the Credit Linked Conditions].

(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)

– Adjusted for Issuer Expenses and Costs: [Applicable] [Not Applicable].

EXERCISE PROVISIONS

50. Exercise Style of [Warrants / Certificates] (General Instrument Condition 9): [The [Warrants/Certificates] are American Style Instruments. General Instrument Condition 9(a) is applicable].

[The [Warrants/Certificates] are European Style Instruments. General Instrument Condition 9(b) is applicable].

[The [Warrants/Certificates] are Bermudan Style Instruments. General Instrument Condition 9(c) is applicable].

[– Specified Exercise Time: [●]. *(Insert if cut-off time for receipt of Exercise Notice is not 10.00 a.m. as specified in General Instrument Condition 10)*]

[– Local Exercise Place: [●]. *(Insert if appropriate)*]

[– Receipt of Exercise Notice by Calculation Agent (General Instrument Condition 10(s)): Applicable. *(Insert if appropriate)*]

51. Exercise Period: *(American Style Instruments only)* [The period beginning on (and including) [●] and ending on (and including) the Expiration Date] / *(Bermudan Style Instruments only)* [Each Specified Exercise Date and the Expiration Date] / *(For European Style Instruments)* [Not Applicable].

52. Specified Exercise Dates: *(Bermudan Style Instruments only – specify date and fallback if not a Business Day)* [The first Business Day in each month between the Issue Date and the Expiration Date / [●] *(specify date(s))*].

(For American Style Instruments or European Style Instruments) [Not Applicable].

53. Expiration Date[s]: [The Latest Reference Date in respect of [the Final Reference Date] [the Final Pricing Date] [the Last Averaging Date] [the Adjusted Final FX Valuation Date] [●] *(insert other date)*.] [Not Applicable - the [Warrants/Certificates] are Open-ended

Instruments.] [the Scheduled Expiration Date subject to the Credit Linked Conditions]

[If:

- (i) an Automatic Early Exercise Event does not occur on any Applicable Date, [the Latest Reference Date in respect of] [the Final Reference Date] [the Final Pricing Date] [the Last Averaging Date] [the Adjusted Final FX Valuation Date] [●] (*insert other date*); or
- (ii) an Automatic Early Exercise Event occurs on any Applicable Date, [the Latest Reference Date in respect of] [such Applicable Date] [the Latest Reference Date in respect of] [the Final Reference Date] [the Final Pricing Date] [the Last Averaging Date] [the Adjusted Final FX Valuation Date] [●] (*insert other date*).]

– Expiration Date is Business Day Adjusted: [Applicable] [Not Applicable].

54. Redemption at the option of the Issuer (General Instrument Condition 18):

[Applicable – General Instrument Condition 18 shall apply] [as amended by the Credit Linked Conditions] [Not Applicable]. (*If Not Applicable, delete the remaining sub-paragraphs of this paragraph*) [subject to the occurrence of a Credit Trigger] [*insert if applicable in respect of Credit Linked Certificates*]

- (i) Optional Redemption Date(s) (Call): [[●] [or, [in each case,] if later, the] [The] [●] Business Day following [each] [the corresponding] Call Option Notice Date]/[As specified in the Optional Redemption Table in the column entitled "Optional Redemption Date(s) (Call)"]].
- (ii) Call Option Notice Date(s): [[●]/Each date set forth in the Optional Redemption Table in the column entitled "Call Option Notice Date(s)"]].
- (iii) Optional Redemption Amount(s) (Call): [In respect of each Optional Redemption Date (Call), [[●] per Calculation Amount] [the amount set forth in the Optional Redemption Table in the column "Optional Redemption Amount(s) (Call)" in the row corresponding to such Optional Redemption Date (Call)]. [Accrued interest payable.]
- (iv) Call Option Notice Date Adjustment: [Applicable] [Not Applicable].

Form of Final Terms (Instruments)

- (v) One-Delta Open-Ended Optional [Applicable] [Not Applicable].
Redemption Payout:
- Number of Business Days: [●]
- (vi) [Credit Linked Certificates: [Credit Trigger prevails over Call Option]
[Call Option prevails Over Credit Trigger]
[delete this row if not applicable]

[Delete table or columns if not required]

1. LISTING AND ADMISSION TO TRADING

Application [has been/will be] made by [the Issuer (or on its behalf) / the placer] for the [Warrants/Certificates] to be listed on the Official List and admitted to trading on the [regulated market of the Luxembourg Stock Exchange]/[Luxembourg Stock Exchange's Euro MTF]/ NASDAQ Stockholm AB/ regulated unofficial market (*Freiverkehr*) of the Frankfurt Stock Exchange / NDX Nordic Derivatives Exchange / [●] (*Specify other regulated markets or unregulated markets or multilateral trading facilities or other trading platforms*) with effect from [at the earliest] [the Issue Date/specify other date]] / [Application is expected to be made by [the Issuer (or on its behalf) / placer] for the [Warrants/Certificates] to be listed on the Official List and admitted to trading on the [regulated market of the Luxembourg Stock Exchange]/[Luxembourg Stock Exchange's Euro MTF]/ [●] (*Specify other regulated markets or unregulated markets or multilateral facilities or other trading platforms*) with effect from [at the earliest] [the Issue Date/specify other date]] / [The [Warrants/Certificates] will not be listed or admitted to trading on any exchange].]

[No assurances can be given that such application for listing and admission to trading will be granted (or, if granted, will be granted by [the Issue Date/specify other date]).]

[Application [has been/ will be] made by [the Issuer (or on its behalf)/ the placer] [for admission to trading of the [Warrants/Certificates] on SeDeX, a multilateral trading facility organised and managed by Borsa Italiana S.p.A.] [for admission to trading of the [Warrants/Certificates] on the EuroTLX market, a multilateral trading facility organised and managed by EuroTLX SIM S.p.A.] The admission to trading of the [Warrants/Certificates] is expected to be by the Issue Date. [The effectiveness of the offer of the [Warrants/Certificates] is Conditional upon such admission to trading occurring by the Issue Date. In the event that admission to trading of the Instruments does not take place by the Issue Date for whatever reason, the Issuer will withdraw the offer, the offer will be deemed to be null and void and the relevant Instrument will not be issued.]]

[In the case of Securities listed on the SIX Swiss Exchange: Application will be made to list the Securities on the SIX Swiss Exchange for trading on the SIX Swiss Exchange. It is expected that the Securities will be admitted to trading on SIX Swiss Exchange as of [●].]

[In the case of Securities listed on the BX Swiss: Application will be made to list the Securities on the

BX Swiss for trading on the BX Swiss. It is expected that the Securities will be admitted to trading on BX Swiss as of [●].]

[The Issuer has no duty to maintain the [listing/trading] (if any) of the [Warrants/Certificates] on the relevant [stock exchange(s) / indicate other multilateral trading facilities or other trading platforms] over their entire lifetime. The [Warrants/Certificates] may be suspended from trading and/or de-listed at any time in accordance with applicable rules and regulations of the relevant [stock exchange(s) / indicate other multilateral trading facilities or other trading platforms.]

[Not Applicable].

(Where documenting a fungible issue need to indicate that original Securities are already admitted to trading.)

2. **LIQUIDITY ENHANCEMENT AGREEMENTS**

[Insert name and address of the entities which have a firm commitment to act as intermediaries in secondary trading, providing liquidity through bid and offer rates and description of the main terms of their commitment] / [Not Applicable].

3. **RATINGS**

[Applicable]/[Not Applicable].

(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)

Ratings:

[The [Warrants/Certificates] to be issued have been rated:

[S & P: [●]]

[Moody's: [●]]

[Fitch: [●]]

[[Other]: [●]].

(Need to include a brief explanation of the meaning of the ratings if this has previously been published by the rating provider)

(The above disclosure should reflect the rating allocated to Warrants/Certificates of the type being issued under the Programme generally or, where the issue has been specifically rated, that rating)

4. **INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE [ISSUE/OFFER]**

[A selling commission of [up to] [●] of the [Issue Price/other] has been paid to the [Managers/placer] in respect of this [issue/offer].]

[●]⁵

5. **REASONS FOR THE OFFER, ESTIMATED NET AMOUNT OF PROCEEDS AND TOTAL EXPENSES**

(i) Reasons for the offer

[●] [See "Use of Proceeds" in the Base Prospectus]

(See "Use of Proceeds" wording in Base Prospectus – if reasons for offer different from providing additional funds for the Issuer's operations and for other general corporate purposes, will need to include those reasons here. For example, specify here if may intend to allocate an amount equal to the net proceeds from the Securities to finance or refinance projects and assets made or held by any Goldman Sachs Group member that respond to critical environmental, social and/or sustainability issues, including any related terms and matters. The below is sample language only and is subject to change for any particular issuance.)

[The Securities are being issued subject to and in accordance with the Goldman Sachs Sustainability Issuance Framework. Accordingly, the Issuer intends to allocate an amount equal to the net proceeds from the Securities to finance or refinance projects and assets that respond to critical environmental, social and/or sustainability issues, including those related to climate transition and inclusive growth, as defined by the relevant Eligibility Criteria.] *(This may be tailored Green or Social issuances)*

[Proceeds from the Securities may be allocated across a combination of both environmentally and socially-focused Eligible Investments. *(This may be tailored Green or Social issuances)*.]

[Goldman Sachs will prioritise the use of proceeds from each issuance of Securities under its Sustainability Issuance Framework to finance new projects or assets that meet the Eligibility Criteria [of the respective type of issuance] and will aim to allocate all proceeds within two years following the issuance. Loans and investments that qualify under the relevant criteria made up to one year prior to the issuance are also eligible for refinancing with its proceeds. Goldman Sachs will track and manage an amount equivalent to the proceeds of each issuance of Securities under the Sustainability Issuance Framework via a separate internal ledger. Any portion of proceeds unallocated against Eligible Investments will be allocated against highly liquid instruments, until such amount can be allocated against Eligible Investments. During the term of the relevant Securities, if an asset that has been funded with the proceeds of such Securities either matures

⁵ Only include a description of any interest, including conflicting ones, that is material to the issue/offer, detailing the persons involved and the nature of the interest if any such interest or conflict interest that is material to the issue/offer is different from that set out in the section of the Base Prospectus entitled "Risks associated with conflicts of interest between Goldman Sachs and purchasers of Securities".

or is sold, Goldman Sachs will seek to reallocate the equivalent amount of proceeds into eligible projects and assets, where possible and feasible as described in Sustainability Issuance Framework.]

[Goldman Sachs will publish reports on an annual basis and the information will be updated annually until the proceeds of the Securities are fully allocated to Eligible Investments and as promptly as practicable in case of any material changes in the proceeds allocation thereafter. Each report will include a brief description of categories of Eligible Investments to which proceeds have been allocated, the total amount of proceeds allocated to such Eligible Investments and the total amount of unallocated proceeds (if any), and, to the extent feasible, the expected and realised environmental and/or social impact of the allocated Eligible Investments. Information about the allocation and impact of projects and assets may be presented on an aggregated basis due to applicable confidentiality obligations and the large number of Eligible Investments that may be allocated proceeds from the Securities.]

- (ii) Estimated net amount of proceeds: [Not Applicable/[●]].

(If proceeds are intended for more than one use will need to split out and present in order of priority. If proceeds insufficient to fund all proposed uses state amount and sources of other funding.)

- (iii) Estimated total expenses [related to the admission to trading]: [Not Applicable/[●]].

(Include breakdown of expenses)

(Insert only if the Instruments have a nominal amount of at least EUR 100,000 to which Annex 15 of the EU PR Regulation applies, then insert here the expenses in relation to the admission to trading if applicable.)

6. PERFORMANCE AND VOLATILITY OF THE UNDERLYING ASSET(S)

(If the Instruments are linked to one or more Underlying Assets and in respect of which Annex 14 and 17 of the EU Prospectus Regulation applies, then must include details of where information on each Underlying Asset can be obtained including an indication of where information about the past and future performance and volatility of such Underlying Asset can be obtained by electronic means, and whether or not it can be obtained free of charge.)

[Not Applicable/[●] (specify)].

[Insert if one or more Underlying Assets is a Goldman Sachs Single Stocks Static Basket Index:

The Component Stocks included in the [insert name of index] and their respective weights and transaction cost rates are as specified in the table below:

Weights	Component Stocks	Transaction Cost Rate
[●]	[●]	[●]

(Repeat for each Underlying Asset)]

Other Information

[Insert if one or more Underlying Assets is a Goldman Sachs Fund Basket Strategy:

The Assets included in the [insert name of index] and their respective Asset Weights[, Asset Servicing Cost Rates] [and] [Asset Transaction Cost Rates] are as specified in the table below:

	Asset	Asset Weight	[Asset Servicing Cost Rate]	[Asset Transaction Cost Rate]
1.	[●]	[●]	[●]	[●]

(Repeat for each Underlying Asset)]

7. OPERATIONAL INFORMATION

Any Clearing System(s) other than Euroclear Bank S.A./N.V. and Clearstream Banking S.A. and the relevant identification number(s): [Not Applicable/Euroclear France/ VPS/ Euroclear Sweden/Euroclear Finland/CREST/SIX SIS/ Monte Titoli/[●] (specify other, give name(s), address(es) and number(s))].

Delivery: Delivery [against/free of] payment.

Names and addresses of additional Paying Agent(s) (if any): [Not Applicable/[●] (specify)].

Operational contact(s) for Principal Programme Agent: [Not Applicable/[●] (specify)].

8. TERMS AND CONDITIONS OF THE OFFER

[Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*

[Offer Period: An offer of the [Warrants/Certificates] may be made by the [Managers/placers] [and] [the financial intermediary(ies) named below] other than pursuant to Article 1(4) of the EU Prospectus Regulation in the Public Offer Jurisdictions during the period commencing on ([and including]/[but excluding]) [●] and ending on ([and including]/[but excluding]) [●].

(Include any shorter offer periods to allow for the exercise of withdrawal rights by the relevant investors)

Offer Price: [Issue Price/[●] (specify)].

Conditions to which the offer is subject: [The offer of the [Warrants/Certificates] for sale to the public in [the] [Kingdom of] [Republic of] [Grand Duchy of Luxembourg / Austria / Belgium / Croatia / Czech Republic / Finland / France / Germany / Greece / Hungary / Ireland / Italy / Netherlands / Norway / Poland / Portugal / Romania / Slovak Republic / Slovenia / Spain / Sweden] is subject to the relevant regulatory approvals having been granted, and the [Warrants/Certificates] being issued/Not Applicable/[●] (give details)].

Description of the application process: [Not Applicable/[●] (give details)].

Description of possibility to reduce subscriptions and manner for refunding excess amount paid by applicants: [Not Applicable/[●] (give details)].

Other Information

Details of the minimum and/or maximum amount of application:	[The [minimum / maximum number of [Warrants/Certificates] which can be subscribed by the relevant investors is [●]/Not Applicable/[●] (<i>give details</i>)].
Details of the method and time limits for paying up and delivering the [Warrants/Certificates]:	[The [Warrants/Certificates] will be issued on the Issue Date against payment to the Issuer of the net subscription moneys/Not Applicable/[●] (<i>give details</i>)].
Manner in and date on which results of the offer are to be made public:	[The results of the offering will be available on the website of [the Issuer/the Luxembourg Stock Exchange (www.bourse.lu)/specify other] on or around the end of the Offer Period/Not Applicable/[●] (<i>give details</i>)].
Procedure for exercise of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised:	[Not Applicable/[●] (<i>give details</i>)].
Whether tranche(s) have been reserved for certain countries:	[Not Applicable/[●] (<i>give details</i>)].
Process for notification to applicants of the amount allotted and the indication whether dealing may begin before notification is made:	[Not Applicable/[●] (<i>give details</i>)].
Amount of any expenses and taxes specifically charged to the subscriber or purchaser. Where required and to the extent they are known, include those expenses contained in the price:	[Not Applicable/[●] (<i>give details</i>)].
Name(s) and address(es), to the extent known to the Issuer, of the placers in the various countries where the offer takes place:	[None/[●] (<i>give details</i>)].

Consent to use the Base Prospectus

Identity of financial intermediary(ies) that are allowed to use the Base Prospectus:	[<i>insert name and address of any financial intermediary which has consent to use the Base Prospectus</i>].
Offer period during which subsequent resale or final placement of Instruments by financial intermediaries can be made:	[<i>specify</i>]
Conditions attached to the consent:	The Issuer consents to the use of the Base Prospectus in connection with the making of an offer of the Securities to the public requiring the prior publication of a prospectus under the EU Prospectus Regulation (a " Non-exempt Offer ") by the financial intermediary/ies (each, an " Authorised Offeror ") in [the] [Kingdom of] [Republic of] [Grand Duchy of Luxembourg /Austria / Belgium / Croatia / Czech Republic / Finland / France / Germany / Greece / Hungary / Ireland / Italy / The Netherlands / Norway / Poland

/ Portugal / Romania / Slovak Republic / Slovenia / Spain / Sweden].

(Insert any other clear and objective conditions attached to the consent to use the Base Prospectus)

9. **UNITED STATES TAX CONSIDERATIONS**

Section 871(m) Withholding Tax

(If the Instruments are Share Linked Securities or Index Linked Securities, insert either of the following paragraphs, depending on whether the Instruments are subject to Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended. If the Instruments are not Share Linked Securities or Index Linked Securities, insert 'Not Applicable'.)

[If the Instruments are subject to Section 871(m): The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the [Warrants/Certificates], the [Warrants/Certificates] will be subject to withholding under these rules. The tax will be imposed at the full withholding tax rate even if you are otherwise eligible for a reduction in the rate under an applicable treaty. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the [Warrants/Certificates].]

[If the Instruments are not subject to Section 871(m): The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the [Warrants/Certificates], the [Warrants/Certificates] will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their [Warrants/Certificates] for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the [Warrants/Certificates].]

[Not Applicable.]

[Classification for U.S. Tax Purposes]

(If GSFCI is the Issuer, insert either of the following paragraphs, depending on whether the Instruments will be treated as debt or will not be treated as debt for U.S. Tax purposes.)

[If the Instruments are identified as "other income securities": We have determined that there is a material risk that the [Warrants/Certificates] will not be treated as a debt instrument, but will rather be treated as a forward or derivative contract, for United States federal income tax purposes. In light of this possibility, we intend to treat the [Warrants/Certificates] in the manner described under "*United States Tax Considerations – Securities Issued by GSFCI – Securities that are not Classified as Debt for United States Tax Purposes*" in the Base Prospectus. If the [Warrants/Certificates] bear periodic coupons, then, due to uncertainty regarding the U.S. withholding tax treatment of coupon payments on [Warrants/Certificates] that are not treated as debt, it is expected that withholding agents will (and we, if we are the withholding agent, intend to) withhold on coupon payments on the [Warrants/Certificates] at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such withholding tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the

[Warrants/Certificates] (other than any periodic coupons that are paid at such time) are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the [Warrants/Certificates].]

[If the Instruments are identified as debt: We intend to treat the [Warrants/Certificates], for United States federal income tax purposes, in the manner described under "United States Tax Considerations — Securities Issued by GSFCl — Securities that are Classified as Debt for United States Tax Purposes" in the Base Prospectus, which description includes details for United States alien holders eligible for an exemption from United States federal withholding tax on payments of principal and interest. However this determination is not binding on the United States Internal Revenue Service ("IRS") and the IRS may disagree with the treatment. In the case of [Warrants/Certificates] that bear periodic coupons, the consequences of the IRS disagreeing with the treatment include the possibility that coupon payments made to you (including any such coupon payments made at maturity) could be subject to tax at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the [Warrants/Certificates] are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the [Warrants/Certificates].]

10. BENCHMARKS REGULATION

[Specify benchmark] is provided by *[specify administrator legal name]*.] (Repeat as necessary)

[As at the date of these Final Terms, *[specify administrator legal name]* [appears]/[does not appear] in the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the EU Benchmarks Regulation.] (Repeat as necessary)

[Insert for Securities linked to LIBOR: As at the date of these Final Terms, ICE Benchmark Administration Limited does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the EU Benchmarks Regulation.]

[Insert for Securities linked to EURIBOR: As at the date of these Final Terms, European Money Markets Institute appears in the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the EU Benchmarks Regulation.]

[Insert for Securities linked to SOFR: SOFR is provided by the Federal Reserve Bank of New York. As at the date hereof, the Federal Reserve Bank of New York does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation]

[Insert for Securities linked to SONIA: SONIA is provided by the Bank of England. As at the date hereof, the Bank of England does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation]

[Insert for Securities linked to €STR: €STR is provided by the European Central Bank. As at the date hereof, the European Central Bank does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation]

[Insert for Securities linked to TONA: TONA is provided by the Bank of Japan. As at the date hereof, the Bank of Japan does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation]

(Additional explanatory language where the statement is negative:) [As far as the Issuer is aware, *[administrator legal name]*, as administrator of *[specify benchmark]* (repeat as necessary) [is/are] not required to be registered by virtue of Article 2 of the EU Benchmarks

Regulation.] OR [the transitional provisions in Article 51 of the EU Benchmarks Regulation apply, such that *[insert names(s) of administrator(s)]* [is/are] not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).]

11. **INDEX DISCLAIMER**

[(Include if applicable, include Index and Commodity Index disclaimer(s) as part of Annex 28 additional information) / Not Applicable].

12. **[SECURITIES AND FUTURES ACT [2001] [(CHAPTER 289)] SINGAPORE**

[The [Warrants/Certificates] are prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and are Excluded Investment Products (as defined in the Notice on the Sale of Investment Products (SFA 04–N12) and the Notice on Recommendations on Investment Products (FAA-N16) each issued by the Monetary Authority of Singapore).]

[The [Warrants/Certificates] are capital market products other than prescribed capital market products (as defined in the Securities and Futures (Capital Market Products) Regulations 2018) and are Specified Investment Products (as defined in the Notice on the Sale of Investment Products (SFA 04–N12) and the Notice on Recommendations on Investment Products (FAA-N16) each issued by the Monetary Authority of Singapore).]

[Insert if you wish to include the following additional information in accordance with Annex 28 of the EU PR Regulation]

[EXAMPLES

The Issuer may, but is not obliged to, include additional information here by way of examples of complex derivatives as referred to in recital 18 of the EU Prospectus Regulation.]

[ADDITIONAL PROVISIONS RELATING TO THE UNDERLYING

The Issuer may, but is not obliged to, include additional information here as to additional provisions, not required by the relevant securities note, relating to the Underlying Asset(s) including, if applicable, Index and Commodity Index disclaimer(s).]

[ISSUE-SPECIFIC SUMMARY OF THE SECURITIES]

[Insert]

FORM OF FINAL TERMS (NOTES)

*[Include if applicable: **PROHIBITION OF SALES TO EEA RETAIL INVESTORS** –* The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the European Economic Area has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the European Economic Area may be unlawful under the EU PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to EEA Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the EU PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the EEA as described in the above paragraph and in such legend shall no longer apply in relation to any member state whose requirements for a key information document in relation to the relevant Securities have been satisfied.]

*[Include if applicable: **PROHIBITION OF SALES TO UK RETAIL INVESTORS** –* The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA and regulations made thereunder (the "**UK Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended, the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to UK Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the UK PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the United Kingdom as described in the above paragraph and in such legend shall no longer apply.]

*[Insert the following additional language in case of an offer in Switzerland: The Securities do not constitute a participation in a Collective Investment Scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("**CISA**"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the relevant Issuer and the relevant Guarantor, if any, respectively.]*

*[Insert in case of a public offering in Switzerland requiring a prospectus or a listing on the SIX Swiss Exchange and/or the BX Swiss: These Final Terms must be read together with the Base Prospectus which was included as a foreign prospectus, which is deemed approved also in Switzerland pursuant to article 54 para. 2 of the Swiss Federal Act on Financial Services ("**Financial Services Act**"; "**FinSA**") by SIX Exchange Regulation Ltd. as reviewing body (*Prüfstelle*) in the list of approved prospectuses and deposited with it and published pursuant to article 64 FinSA. These Final Terms will also be deposited with SIX Exchange Regulation Ltd. as reviewing body and published pursuant to article 64 FinSA.]*

[Insert if applicable: The Notes are not intended to satisfy, in whole or in part, any present or future taxonomies, standards and/or other regulatory or index inclusion criteria or voluntary guidelines with which such investor or its investments may be expected to comply. For example and without limitation, the Securities are not Green Bonds and/or Social Bonds as defined under the International Capital Market Association's Green Bond Principles and/or Social Bond Principles and they do not take into account any of the EU criteria for environmentally sustainable investments, including as set out under the Regulation of the European Parliament and of the Council on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation (EU) 2020/852).]

[Where the Final Terms cover two or more Series of Securities, the identification numbers for each Series should be included in the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below, and should not be included here.]

CONTRACTUAL TERMS

Terms used herein shall have the same meaning as in the General Note Conditions [and] [, the [PSL Note] Payout Conditions] [, the Coupon Payout Conditions] [, the Autocall Payout Conditions] [and the applicable Underlying Asset Conditions] set forth in the base prospectus dated 13 January 2023 (expiring on 13 January 2024) (the "**Base Prospectus**") [as supplemented by the supplement[s] to the Base Prospectus dated [●], [●] and [●]] [[and] as [further] supplemented by any [further] supplements (if any) up to, and including, the Issue Date of the Notes] [[and] as [further] supplemented by any [further] supplements (if any) up to, and including, the date of these Final Terms, together with any further supplement(s) dated on or after the date of these Final Terms but prior to or on the Issue Date of the Notes (save for any such further supplement(s) which are expressed to apply only to Final Terms dated on or after the date of such further supplement(s))]. This document constitutes the Final Terms of the Notes described herein for the purposes of Article 8 of Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**") and must be read in conjunction with such Base Prospectus [as so supplemented] *[Insert for straddle offers: Subject as provided below, full]* [Full] information on the Issuer, the Guarantor and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus [as so supplemented] [as supplemented up to, and including, [the later of] [the closing of the Offer Period] [and] [the time when trading of the Notes on the relevant regulated market begins], which together constitute a base prospectus for the purposes of the EU Prospectus Regulation]. The Base Prospectus [and the supplement[s] to the Base Prospectus] [is] [are]

available for viewing at www.bourse.lu and during normal business hours at the registered office of the Issuer, and copies may be obtained from the specified office of the Luxembourg Paying Agent. [These Final Terms are available for viewing at [www.bourse.lu] [*Include where the Securities are to be admitted to trading on the Luxembourg Stock Exchange*] [and] [●] [*insert other website if the Securities will not be admitted to trading on the Luxembourg Stock Exchange and the Final Terms will be published elsewhere*].]

[*Insert the following additional language into the initial set of Final Terms for straddle offers for which two sets of Final Terms will be published:* **The Offer Period for the Notes extends beyond the validity of the Base Prospectus which will expire on 13 January 2024** (the "**Expiry Date**"). On or prior to this date, a successor base prospectus in respect of the Programme (the "**Successor Base Prospectus**") and successor Final Terms for the Notes (the "**Successor Final Terms**") will be published. From and including the date on which the Successor Base Prospectus is approved by the CSSF, (i) the Successor Final Terms shall constitute Final Terms for the Notes for the purposes of Article 8 of the EU Prospectus Regulation and (ii) full information on the Issuer, the Guarantor and the offer of the Notes shall only be available on the basis of the combination of the Successor Final Terms and the Successor Base Prospectus. The Successor Base Prospectus will be available for viewing at www.bourse.lu and during normal business hours at the registered office of the Issuer[, and copies may be obtained from the specified office of the Luxembourg Paying Agent / [●]]. The Successor Final Terms will be published at [www.bourse.lu] [*Include where the Securities are to be admitted to trading on the Luxembourg Stock Exchange*] [and] [●] [*insert other website if the Final Terms will be published elsewhere*].]

[*Insert the following additional language into the initial set of Final Terms for straddle offers for which a single set of Final Terms will be published:* [*for an annual update of the BP:* **The Offer Period for the Notes extends beyond the validity of the Base Prospectus which will expire on 13 January 2024** (the "**Expiry Date**"). On or prior to this date, a successor base prospectus in respect of the Programme (the "**Successor Base Prospectus**") will be published. From]/[*for an interim update of the BP:* The Offer Period for the Notes may extend beyond the validity of the Base Prospectus which will expire on the earlier of 13 January 2024 and the date on which the successor base prospectus in respect of the Programme (the "**Successor Base Prospectus**") is published (the "**Expiry Date**"). If the Offer Period extends beyond the Expiry Date, then from] and including the date on which the Successor Base Prospectus is approved by the CSSF, (i) these Final Terms must be read in conjunction with the Successor Base Prospectus and (ii) full information on the Issuer[, the Guarantor] and the offer of the Notes shall only be available on the basis of the combination of these Final Terms and the Successor Base Prospectus [as supplemented up to, and including, the closing of the Offer Period]. The Successor Base Prospectus will be available for viewing at www.bourse.lu and during normal business hours at the registered office of the Issuer, and copies may be obtained from the specified office of the Luxembourg Paying Agent. [*Include where the Securities are to be admitted to trading on the Luxembourg Stock Exchange*] / [●] [*insert other website if the Securities will not be admitted to trading on the Luxembourg Stock Exchange and the Final Terms will be published elsewhere*].]

[A summary of the Notes is annexed to these Final Terms.]

[*Use the alternative language set out under "Important Legal Information – Final Terms for certain fungible issuances" if the first tranche of an issue which is being increased was issued under the expired Base Prospectus, the terms of which are incorporated by reference into this Base Prospectus*]

[*Specify whether each of the items below is applicable or not applicable. Italics denote guidance for completing final terms.*]

[*Where the Final Terms cover two or more Series of Securities:*

- (i) *the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below should be completed for all variables which will differ across the different Series;*
- (ii) *the relevant line item for any such variable in the Conditions below should include the following language: "In respect of each Series, as specified in the table set out in "Specific Provisions for each Series" below"; and*
- (iii) *all other provisions in the Conditions below shall be construed as applying separately to each Series of Securities.*]

[These Final Terms cover two or more Series of Securities, as specified in the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below. Unless otherwise specified in these Final Terms or the Conditions, the provisions below and the Conditions shall be construed as applying separately to each Series of Securities.] *[Insert if Final Terms cover two or more Series of Securities.]*

- 1. Tranche Number:** [[●]/Not Applicable].
(If fungible with an existing Series, include the date on which the Notes become fungible)
- 2. Specified Currency or Currencies:** [●]. *(specify defined term for the currency if required)*
- 3. [Aggregate Nominal Amount / Aggregate number of Notes]:** *(If Applicable, specify Currency and Nominal Amount)*
 - (i) **Series:** [Up to] [●]. *(Specify Currency and Nominal Amount, or number of Notes if Trading in Units is specified as applicable below)*

[Insert, if applicable: Further to the partial redemption of the Note pursuant to General Note Condition 12(w) on the Initial Instalment Date, the Aggregate Nominal Amount in the Series on or after the Initial Instalment Date shall be deemed to be [●].]
 - (ii) **Tranche:** [Up to] [●]. *(Specify Currency and Nominal Amount, or number of Notes if Trading in Units is specified as applicable below)*

[Insert, if applicable: Further to the partial redemption of the Note pursuant to General Note Condition 12(w) on the Initial Instalment Date, the Aggregate Nominal Amount in the Tranche on or after the Initial Instalment Date shall be deemed to be [●].]
 - (iii) **[Trading in Units:** Applicable: One Note (of the Specified Denomination) equals one unit, and the Notes will be tradable by reference to the number of Notes being traded (each having the Specified Denomination).]

(Trading in Units may only be specified to be Applicable if the Notes have a single Specified Denomination equal to the Calculation Amount)
- 4. Issue Price:** [[Up to] [●] per cent. of the Aggregate Nominal Amount / [●] per Note [plus accrued interest from [insert date] (if applicable)].

*[Issue Price FX Conversion is applicable:]
(Insert if BRL FX Conditions or FX Security Conditions are applicable)*

[EUR Issue Price is: EUR [●]] [BRL FX (Initial) is: [insert amount]. (Insert as appropriate if BRL FX Conditions are applicable)]

OTHER INFORMATION

1. **LISTING AND ADMISSION TO TRADING** [Application [has been/will be] made by [the Issuer (or on its behalf) / the placer] for the Notes to be listed on the Official List and admitted to trading on the [regulated market of the Luxembourg Stock Exchange]/[Luxembourg Stock Exchange's Euro MTF]/ NASDAQ Stockholm AB / regulated unofficial market (Freiverkehr) of the Frankfurt Stock Exchange / NDX Nordic Derivatives Exchange / Borsa Italiana S.p.A.'s MOT (Electronic bond market) / [•] (*Specify other regulated markets or unregulated markets or multilateral trading facilities or other trading platforms*) with effect from [at the earliest] [the Issue Date/specify other date]] / [Application is expected to be made by the [Issuer (or on its behalf) / the placer] for the Notes to be listed on the Official List and admitted to trading on the [regulated market of the Luxembourg Stock Exchange]/[Luxembourg Stock Exchange's Euro MTF]/ [•] (*Specify other regulated markets or unregulated markets or multilateral trading facilities or other trading platforms*) with effect from [at the earliest] [the Issue Date/specify other date]] / [Application will be made by the Issuer for the Notes to be listed and admitted to trading on the Interest Rate Market of the JSE Limited] / [The Notes will not be listed or admitted to trading on any exchange].]
- [In the case of Securities listed on the SIX Swiss Exchange:** Application will be made to list the Securities on the SIX Swiss Exchange for trading on the SIX Swiss Exchange. It is expected that the Securities will be admitted to trading on SIX Swiss Exchange as of [•].]
- [In the case of Securities listed on the BX Swiss:** Application will be made to list the Securities on the BX Swiss for trading on the BX Swiss. It is expected that the Securities will be admitted to trading on BX Swiss as of [•].]
- [No assurances can be given that such application for listing and admission to trading will be granted (or, if granted, will be granted by the Issue Date)] [The Issuer has no duty to maintain the listing (if any) of the Notes on the relevant stock exchange(s) over their entire lifetime. The Notes may be suspended from trading and/or de-listed at any time in accordance with applicable rules and regulations of the relevant [stock exchange(s) / indicate other multilateral trading facilities or other trading platforms].]
- [The Issuer [will apply / has applied] for admission to trading of the Notes on the EuroTLX market, a multilateral trading facility organised and managed by EuroTLX SIM S.p.A.]

The admission to trading of the Notes is expected to be by the Issue Date.]

[Not Applicable].

2. ESTIMATED TOTAL EXPENSES RELATED TO THE ADMISSION TO TRADING

(If the Notes have a denomination of at least EUR 100,000 to which Annex 15 of the EU PR Regulation applies, then insert here the expenses in relation to the admission to trading if applicable.) / [Not Applicable].

(Where documenting a fungible issue need to indicate that original Notes are already admitted to trading.)

3. LIQUIDITY ENHANCEMENT AGREEMENTS *(If the Notes have a denomination of at least EUR 100,000 to which Annex 15 of the EU PR Regulation applies, then this paragraph should be "Not Applicable".)*

[Name and address of the entities which have a firm commitment to act as intermediaries in secondary trading, providing liquidity through bid and offer rates and description of the main terms of their commitment] / [Not Applicable].

4. RATINGS

[Applicable]/[Not Applicable].

(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)

Ratings:

[The Notes to be issued have been rated:

[S & P: [●]]

[Moody's: [●]]

[Fitch: [●]]

[[Other]: [●]].

(Need to include a brief explanation of the meaning of the ratings if this has previously been published by the rating provider)

(The above disclosure should reflect the rating allocated to Notes of the type being issued under the Programme generally or, where the issue has been specifically rated, that rating)

5. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE [ISSUE/OFFER]

[A selling commission of [up to] [●] of the [Issue Price/other] has been paid to the [Managers/placer] in respect of this [issue/offer].]

[●]⁷

6. REASONS FOR THE OFFER, ESTIMATED NET AMOUNT OF PROCEEDS AND TOTAL EXPENSES

⁷ Only include a description of any interest, including conflicting ones, that is material to the issue/offer, detailing the persons involved and the nature of the interest that is material to the issue/offer is different from that set out in the section of the Base Prospectus entitled "Risks associated with conflicts of interests between Goldman Sachs and purchasers of Securities".

(i) Reasons for the offer:

[See "Use of Proceeds" in the Base Prospectus]

[●] (See "Use of Proceeds" wording in Base Prospectus – if reasons for offer different from providing additional funds for the Issuer's operations and for other general corporate purposes, will need to include those reasons here. For example, specify here if may intend to allocate an amount equal to the net proceeds from the Securities to finance or refinance projects and assets made or held by any Goldman Sachs Group member that respond to critical environmental, social and/or sustainability issues, including any related terms and matters. The below is sample language only and is subject to change for any particular issuance.)

[The Securities are being issued subject to and in accordance with the Goldman Sachs Sustainability Issuance Framework. Accordingly, the Issuer intends to allocate an amount equal to the net proceeds from the Securities to finance or refinance projects and assets that respond to critical environmental, social and/or sustainability issues, including those related to climate transition and inclusive growth, as defined by the relevant Eligibility Criteria.] (This may be tailored Green or Social issuances)

[Proceeds from the Securities may be allocated across a combination of both environmentally and socially-focused Eligible Investments. (This may be tailored Green or Social issuances).

[Goldman Sachs will prioritise the use of proceeds from each issuance of Securities under its Sustainability Issuance Framework to finance new projects or assets that meet the Eligibility Criteria [of the respective type of issuance] and will aim to allocate all proceeds within two years following the issuance. Loans and investments that qualify under the relevant criteria made up to one year prior to the issuance are also eligible for refinancing with its proceeds. Goldman Sachs will track and manage an amount equivalent to the proceeds of each issuance of Securities under the Sustainability Issuance Framework via a separate internal ledger. Any portion of proceeds unallocated against Eligible Investments will be allocated against highly liquid instruments, until such amount can be allocated against Eligible Investments. During the term of the relevant Securities, if an asset that has been funded with the proceeds of such Securities either matures or is sold, Goldman Sachs will seek to reallocate the equivalent amount of proceeds into eligible projects and assets, where possible and feasible as described in Sustainability Issuance Framework.]

[Goldman Sachs will publish reports on an annual basis and the information will be updated

annually until the proceeds of the Securities are fully allocated to Eligible Investments and as promptly as practicable in case of any material changes in the proceeds allocation thereafter. Each report will include a brief description of categories of Eligible Investments to which proceeds have been allocated, the total amount of proceeds allocated to such Eligible Investments and the total amount of unallocated proceeds (if any), and, to the extent feasible, the expected and realised environmental and/or social impact of the allocated Eligible Investments. Information about the allocation and impact of projects and assets may be presented on an aggregated basis due to applicable confidentiality obligations and the large number of Eligible Investments that may be allocated proceeds from the Securities.]

(ii) Estimated net amount of proceeds: [Not Applicable/[●]].

(If proceeds are intended for more than one use will need to split out and present in order of priority. If proceeds insufficient to fund all proposed uses state amount and sources of other funding.)

(iii) Estimated total expenses: [Not Applicable/[●]].

(Include breakdown of expenses)

(If the Notes are derivative securities to which Annex 15, Item 3.2 of the EU PR Regulation applies it is only necessary to include disclosure of net proceeds and total expenses at (ii) and (iii) above where disclosure is included at (i) above.)

7. YIELD: (Fixed Rate Notes and Zero Coupon Notes only) [Not Applicable].

[Indication of yield: The yield is [●].]

8. HISTORIC INTEREST RATES: (Floating Rate Notes only) [Not Applicable] [Details of historic [LIBOR/EURIBOR/other] rates can be obtained from [Refinitiv]].

9. PERFORMANCE AND VOLATILITY OF THE UNDERLYING ASSET

(If the Notes are linked to one or more Underlying Assets and in respect of which Annex 14 and 17 of the EU Prospectus Regulation applies, then must include details of where information on each Underlying Asset can be obtained including an indication of where information about the past and future performance and volatility of such Underlying Asset can be obtained by electronic means and whether or not it can be obtained free of charge.)

[Not Applicable/ [●] (specify)].

[Insert if one or more Underlying Assets is a Goldman Sachs Single Stocks Static Basket Index:

The Component Stocks included in the [insert name of index] and their respective weights and transaction cost rates are as specified in the table below:

Weights	Component Stocks	Transaction Cost Rate
[●]	[●]	[●]

(Repeat for each Underlying Asset)]

[Insert if one or more Underlying Assets is a Goldman Sachs Fund Basket Strategy:

The Assets included in the [insert name of index] and their respective Asset Weights[, Asset Servicing Cost Rates] [and] [Asset Transaction Cost Rates] are as specified in the table below:

	Asset	Asset Weight	[Asset Servicing Cost Rate]	[Asset Transaction Cost Rate]
1.	[●]	[●]	[●]	[●]

(Repeat for each Underlying Asset)]

10. OPERATIONAL INFORMATION

Any Clearing System(s) other than Euroclear Bank S.A./N.V. and Clearstream Banking S.A. and the relevant identification number(s): [Not Applicable/Euroclear France/VPS/Euroclear Sweden/Euroclear Finland/CREST/Euroclear/SIX SIS/Clearstream (and CDIs in CREST)/[●] (specify other, give name(s), address(es) and number(s))]

Delivery: Delivery [against/free of] payment.

Names and addresses of additional Paying Agent(s) (if any): [Not Applicable/[●] (specify)].

Operational contact(s) for Fiscal Agent: [Not Applicable/[●] (specify)].

Intended to be held in a manner which would allow Eurosystem eligibility: [Yes/No].

[Note that the designation "yes" simply means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper, and registered in the name of a nominee of one of the ICSDs acting as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.] / [Whilst the designation is specified as "no" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes may then be deposited with one of the ICSDs as common safekeeper, and registered in the name of a nominee of one of the ICSDs acting as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]

11. TERMS AND CONDITIONS OF THE OFFER

(If the Notes pay par at redemption and have a denomination of at least EUR 100,000 to which Annex 17 of the EU PR Regulation applies, then insert 'Not Applicable' and delete the remaining sub-paragraphs of this paragraph.)

[Not Applicable.] *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*

Offer Period: An offer of the Notes may be made by the [Managers/placers] [and] [the financial intermediary(ies) named below] other than pursuant to Article 1(4) of the EU Prospectus Regulation in the Public Offer Jurisdictions during the period commencing on ([and including]/[but excluding]) [●] and ending on ([and including]/[but excluding]) [●].

(Include any shorter offer periods to allow for the exercise of withdrawal rights by the relevant investors)

Offer Price: [Issue Price/[●] (specify)].

Conditions to which the offer is subject: [The offer of the Notes for sale to the public in [the] [Kingdom of] [Republic of] [Grand Duchy of Luxembourg / Austria / Belgium / Croatia / Czech Republic / Finland / France / Germany / Greece / Hungary / Ireland / Italy / Netherlands / Norway / Poland / Portugal / Romania / Slovak Republic / Slovenia / Spain / Sweden] is subject to the relevant regulatory approvals having been granted, and the Notes being issued/Not Applicable/[●] (give details)].

Description of the application process: [Not Applicable/[●] (give details)].

Description of possibility to reduce subscriptions and manner for refunding excess amount paid by applicants: [Not Applicable/[●] (give details)].

Details of the minimum and/or maximum amount of application: [The [minimum/maximum number of Notes which can be subscribed by the relevant investors is [●]/Not Applicable/[●] (give details)].

Details of the method and time limits for paying up and delivering the Notes: [The Notes will be issued on the Issue Date against payment to the Issuer of the net subscription moneys/Not Applicable/[●] (give details)].

Manner in and date on which results of the offer are to be made public: [The results of the offering will be available on the website of [the Issuer/the Luxembourg Stock Exchange (www.bourse.lu)/specify other] on or around the end of the Offer Period/Not Applicable/[●] (give details)].

Procedure for exercise of any right of pre-emption, negotiability of subscription rights and treatment of subscription rights not exercised: [Not Applicable/[●] (give details)].

Whether tranche(s) have been reserved for certain countries: [Not Applicable/[●] (give details)].

Process for notification to applicants of the amount allotted and the indication whether dealing may begin before notification is made: [Not Applicable/[●] (*give details*)].

Amount of any expenses and taxes specifically charged to the subscriber or purchaser. Where required and to the extent they are known, include those expenses contained in the price: [Not Applicable/[●] (*give details*)].

Name(s) and address(es), to the extent known to the Issuer, of the placers in the various countries where the offer takes place: [None/[●] (*give details*)].

Consent to use the Base Prospectus

Identity of financial intermediary(ies) that are allowed to use the Base Prospectus: [*insert name and address of any financial intermediary which has consent to use the Base Prospectus*]

Offer period during which subsequent resale or final placement of Notes by financial intermediaries can be made: [*specify*]

Conditions attached to the consent: [The Issuer consents to the use of the Base Prospectus in connection with the making of an offer of the Securities to the public requiring the prior publication of a prospectus under the EU Prospectus Regulation (a "**Non-exempt Offer**") by the financial intermediary/ies (each, an "**Authorised Offeror**") in [the] [Kingdom of] [Republic of] [Grand Duchy of Luxembourg / Austria / Belgium / Croatia / Czech Republic / Finland / France / Germany / Greece / Hungary / Ireland / Italy / The Netherlands / Norway / Poland / Portugal / Romania / Slovak Republic / Slovenia / Spain / Sweden].

[*insert any other clear and objective conditions attached to the consent to use the Base Prospectus*]

12. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

(If the Notes are Share Linked Securities or Index Linked Securities, insert either of the following paragraphs, depending on whether the Notes are subject to Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended. If the Notes are not Share Linked Securities or Index Linked Securities, insert 'Not Applicable'.)

[If the Notes are subject to Section 871(m): The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Notes, the Notes will be subject to withholding under these rules. The tax will be imposed at the full withholding tax rate even if you are otherwise eligible for a reduction in the rate under an applicable treaty. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Notes.]

[If the Notes are not subject to Section 871(m): The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Notes, the Notes will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Notes for United States federal income tax purposes. See *"United States Tax Considerations – Dividend Equivalent Payments"* in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Notes.]

[Not Applicable.]

[Classification for U.S. Tax Purposes]

(If GSFCI is the Issuer, insert either of the following paragraphs, depending on whether the Notes will be treated as debt or will not be treated as debt for U.S. Tax purposes.)

[If the Notes are identified as "other income securities": We have determined that there is a material risk that the Notes will not be treated as a debt instrument, but will rather be treated as a forward or derivative contract, for United States federal income tax purposes. In light of this possibility, we intend to treat the Notes in the manner described under *"United States Tax Considerations – Securities Issued by GSFCI – Securities that are not Classified as Debt for United States Tax Purposes"* in the Base Prospectus. If the Notes bear periodic coupons, then, due to uncertainty regarding the U.S. withholding tax treatment of coupon payments on Notes that are not treated as debt, it is expected that withholding agents will (and we, if we are the withholding agent, intend to) withhold on coupon payments on the Notes at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such withholding tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the Notes (other than any periodic coupons that are paid at such time) are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the Notes.]

[If the Notes are identified as debt: We intend to treat the Notes, for United States federal income tax purposes, in the manner described under *"United States Tax Considerations – Securities Issued by GSFCI – Securities that are Classified as Debt for United States Tax Purposes"* in the Base Prospectus, which description includes details for United States alien holders eligible for an exemption from United States federal withholding tax on payments of principal and interest. However this determination is not binding on the United States Internal Revenue Service ("IRS") and the IRS may disagree with the treatment. In the case of Notes that bear periodic coupons, the consequences of the IRS disagreeing with the treatment include the possibility that coupon payments made to you (including any such coupon payments made at maturity) could be subject to tax at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the Notes are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the Notes.]]

13. BENCHMARKS REGULATION

[[Specify benchmark] is provided by [specify administrator legal name].] (Repeat as necessary)

[As at the date of these Final Terms, *[specify administrator legal name]* [appears]/[does not appear] in the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the EU Benchmarks Regulation.] (*Repeat as necessary*)

[*Insert for Securities linked to LIBOR*: As at the date of these Final Terms, ICE Benchmark Administration Limited does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the EU Benchmarks Regulation.]

[*Insert for Securities linked to EURIBOR*: As at the date of these Final Terms, European Money Markets Institute appears in the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the EU Benchmarks Regulation.]

[*Insert for Securities linked to SOFR*: SOFR is provided by the Federal Reserve Bank of New York. As at the date hereof, the Federal Reserve Bank of New York does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation]

[*Insert for Securities linked to SONIA*: SONIA is provided by the Bank of England. As at the date hereof, the Bank of England does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation]

[*Insert for Securities linked to €STR*: €STR is provided by the European Central Bank. As at the date hereof, the European Central Bank does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation]

[*Insert for Securities linked to TONA*: TONA is provided by the Bank of Japan. As at the date hereof, the Bank of Japan does not appear in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation]

(*Additional explanatory language where the statement is negative*:) [As far as the Issuer is aware, *[administrator legal name]*, as administrator of *[specify benchmark]* (*repeat as necessary*) [is/are] not required to be registered by virtue of Article 2 of the EU Benchmarks Regulation.] OR [the transitional provisions in Article 51 of the EU Benchmarks Regulation apply, such that *[insert names(s) of administrator(s)]* [is/are] not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).]

14. INDEX DISCLAIMER

[(Include if applicable, include Index and Commodity Index disclaimer(s) as part of Annex 28 additional information) / Not Applicable].

15. [SECURITIES AND FUTURES ACT [2001] [(CHAPTER 289)] SINGAPORE

[The Notes are prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and are Excluded Investment Products (as defined in the Notice on the Sale of Investment Products (SFA 04–N12) and the Notice on Recommendations on Investment Products (FAA-N16) each issued by the Monetary Authority of Singapore).]

[The Notes are capital market products other than prescribed capital market products (as defined in the Securities and Futures (Capital Market Products) Regulations 2018) and are Specified Investment Products (as defined in the Notice on the Sale of Investment Products (SFA 04–N12) and the Notice on Recommendations on Investment Products (FAA-N16) each issued by the Monetary Authority of Singapore).]

[*If additional information is to be included in accordance with the first two items of Annex 28 of the EU Prospectus Regulation*]

[EXAMPLES]

The Issuer may, but is not obliged to, include additional information here by way of examples of complex derivatives as referred to in recital 18 of the EU Prospectus Regulation. For PSL Notes, the Issuer may (but is not obliged to) include examples of potential payouts of the PSL Notes as a function of the value of the applicable Preference Shares.]

[ADDITIONAL PROVISIONS RELATING TO THE UNDERLYING]

The Issuer may, but is not obliged to, include additional information here as to additional provisions not required by the relevant securities note, relating to the Underlying Asset(s) including, if applicable, Index and Commodity Index disclaimer(s).

For PSL Notes, the Issuer may (but is not obliged to), include a copy of the completed Part B – Key Terms (variables) (and any other key terms) (see PSL Note Description – 3 Description of the Preference Shares Part B of Part 2 – Key Terms (variables) of the Base Prospectus) of the Preference Shares to which the PSL Notes are linked.]

[(Specify relevant information about the Reference Entities in Part B above)]

[ISSUE-SPECIFIC SUMMARY OF THE SECURITIES]

[Insert]

FORM OF PRICING SUPPLEMENT (INSTRUMENTS)

*[Include if applicable: **PROHIBITION OF SALES TO EEA RETAIL INVESTORS** –* The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the European Economic Area has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the European Economic Area may be unlawful under the EU PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to EEA Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the EU PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the EEA as described in the above paragraph and in such legend shall no longer apply in relation to any member state whose requirements for a key information document in relation to the relevant Securities have been satisfied.]

*[Include if applicable: **PROHIBITION OF SALES TO UK RETAIL INVESTORS** –* The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA and regulations made thereunder (the "**UK Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended, the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to UK Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the UK PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the United Kingdom as described in the above paragraph and in such legend shall no longer apply.]

*[Insert the following additional language in case of an offer in Switzerland: The Securities do not constitute a participation in a Collective Investment Scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("**CISA**"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the relevant Issuer and the relevant Guarantor, if any, respectively.]*

*[Insert if applicable: **The Notes are not intended to satisfy, in whole or in part, any present or future taxonomies, standards and/or other regulatory or index inclusion criteria or voluntary guidelines with which such investor or its investments may be expected to comply. For example and without limitation, the Securities are not Green Bonds and/or Social Bonds as defined under the International Capital Market Association's Green Bond Principles and/or Social Bond Principles, and they do not take into account any of the EU criteria for environmentally sustainable investments, including as set out under the Regulation of the European Parliament and of the Council on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation (EU) 2020/852).**]*

[Where the Pricing Supplement covers two or more Series of Securities, the identification numbers for each Series should be included in the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below, and should not be included here.]

CONTRACTUAL TERMS

Terms used herein shall have the same meaning as in the General Instrument Conditions [and] [, the Payout Conditions] [, the Coupon Payout Conditions] [, the Autocall Payout Conditions] [and the applicable Underlying Asset Conditions] set forth in the base prospectus dated 13 January 2023 (expiring on 13 January 2024) (the "**Base Prospectus**") [as supplemented by the supplement[s] to the Base Prospectus dated [●], [●] and [●]]. This document does not constitute a final terms of the [Warrants/Certificates] described herein for the purposes of Article 8 of Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). The Luxembourg Commission de Surveillance du Secteur Financier has neither approved nor reviewed the information contained in this Pricing Supplement and the Base Prospectus in connection with the Securities. The Issuer is not offering the Securities in any jurisdiction in circumstances which would require a prospectus pursuant to the EU Prospectus Regulation. Nor is any person authorised to make such an offer of the Securities on behalf of the Issuer in any jurisdiction. [In addition, no application has been made (nor is it proposed that any application will be made) for listing of the Securities on a regulated market for the purposes of Directive 2014/65/EU on Markets in Financial Instruments (as may be amended, from time to time).]

[Use the alternative language set out under "Important Legal Information – Issue Terms for certain fungible issuances" if the first tranche of an issue which is being increased was issued under the expired Base Prospectus, the terms of which are incorporated by reference into this Base Prospectus]

[Specify whether each of the items below is applicable or not applicable. Italics denote guidance for completing Pricing Supplement.]

[Where the Pricing Supplement cover two or more Series of Securities:

- (i) the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below should be completed for all variables which will differ across the different Series;*

Form of Pricing Supplement (Instruments)

- (ii) *the relevant line item for any such variable in the Conditions below should include the following language: "In respect of each Series, as specified in the table set out in "Specific Provisions for each Series" below"; and*
- (iii) *all other provisions in the Conditions below shall be construed as applying separately to each Series of Securities.]*

[This Pricing Supplement cover two or more Series of Securities, as specified in the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below. Unless otherwise specified in this Pricing Supplement or the Conditions, the provisions below and the Conditions shall be construed as applying separately to each Series of Securities.] *[Insert if Pricing Supplement cover two or more Series of Securities.]*

[Where the Instruments are Italian Certificates, consistent with General Instrument Condition 2(b)(vi), make the following changes to each of the following terms in this Pricing Supplement, as applicable: (i) "Nominal Amount" shall be construed to be "calculation amount"; (ii) "settlement" shall be construed to be "termination"; (iii) "interest", "Interest Payment Date", "Interest Period" and "Rate of Interest" (and related expressions) shall be construed to be, respectively, "premium", "premium payment date", "premium period" and "premium rate"; and (iv) "Maturity Date" shall be construed to be "final termination date" and, in each case, all related expressions shall be construed accordingly.]

- 37. Dual Currency Payout (Payout Condition 1.4):** [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) First Relevant Currency: [●]
 - (ii) Second Relevant Currency: [●]
 - (iii) First Currency Calculation Amount: [●]
 - (iv) Second Currency Calculation Amount: [●]
 - (v) Redemption Percentage: [●]
 - (vi) Minimum Percentage: [●].
- 38. Warrants Payout (Payout Condition 1.3):** [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) Ratio Call (Payout Condition 1.3(a)(i)): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
 - (a) Ratio: [●].
 - (b) Reference Price (Final): [Final Closing Price] [Final Average Price] [Lookback Price]. [For the purposes of the definition of Lookback Price, [highest] [lowest] is applicable.]
 - (c) Strike: [●].
 - (ii) Ratio Put (Payout Condition 1.3(a)(ii)): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
 - (a) Ratio: [●].
 - (b) Reference Price (Final): [Final Closing Price] [Final Average Price] [Lookback Price]. [For the purposes of the definition of Lookback Price, [highest] [lowest] is applicable.]
 - (c) Strike: [●].
 - (iii) Nominal Call (Payout Condition 1.3(a)(iii)): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
 - (a) Perf: [Underlying Performance] [Basket Performance] [Maximum Performance] [Minimum Performance] [Temple Basket Performance].
 - Final/Initial (FX): [Applicable] [Not Applicable]. *(If Not Applicable, delete the following sub-paragraph)*
 - Asset FX: [Non-Inverse Return] [Inverse Return].
 - Reference Price (Final): [Final Closing Price] [Final Average Price] [Lookback Price]. [For the purposes of the

- definition of Lookback Price, [highest]
[lowest] is applicable.]
- Reference Price (Initial): [[●] per cent. of the] [Initial Closing Price] [Initial Price] [Initial Average Price] [Entry Level] [(specify amount)] [In respect of each Underlying Asset, the amount specified in the Underlying Asset Table in the column entitled "Reference Price (Initial)" in the row corresponding to such Underlying Asset] [Not Applicable].
 - j: [●] [Not Applicable].
 - Replacement Performance: [●] [per cent.] [Not Applicable]
 - Local Cap: [●] [Not Applicable].
 - Local Floor: [●] [Not Applicable].
 - (b) FXR: [Non-Inverse Return] [Inverse Return] [Not Applicable].
 - (c) FX (Initial): [The Exchange Rate in respect of the FX (Initial) Valuation Date] [●].
 - (d) Participation: [●].
 - (e) Strike: [●].
 - (iv) Nominal Put (Payout Condition 1.3(a)(iv)): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining subparagraphs of this paragraph)*
 - (a) Perf: [Underlying Performance] [Basket Performance] [Maximum Performance] [Minimum Performance] [Temple Basket Performance].
 - Final/Initial (FX): [Applicable] [Not Applicable]. *(If Not Applicable, delete the following subparagraph)*
 - Asset FX [Non-Inverse Return] [Inverse Return].
 - Reference Price (Final): [Final Closing Price] [Final Average Price] [Lookback Price]. [For the purposes of the definition of Lookback Price, [highest] [lowest] is applicable.]
 - Reference Price (Initial): [[●] per cent. of the] [Initial Closing Price] [Initial Price] [Initial Average Price] [Entry Level] [(specify amount)] [In respect of each Underlying Asset, the amount specified in the Underlying Asset Table in the column entitled "Reference Price (Initial)" in the row corresponding to such Underlying Asset] [Not Applicable].
 - j: [●] [Not Applicable].
 - Replacement Performance: [●] [per cent.] [Not Applicable].

- Local Cap: [●] [Not Applicable].
 - Local Floor: [●] [Not Applicable].
 - (b) FXR: [Non-Inverse Return] [Inverse Return] [Not Applicable].
 - (c) FX (Initial): [The Exchange Rate in respect of the FX (Initial) Valuation Date] [●].
 - (d) Participation: [●].
 - (e) Strike: [●].
- 39. Barrier Event Conditions (Payout Condition 1.5):** [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) Barrier Event: Applicable, for the purposes of the definition of "Barrier Event" in the Payout Conditions, Barrier Reference Value [greater than] [less than] [or equal] to the Barrier Level [1] [or less than [or equal to] the Barrier Level 2] is applicable.
 - (ii) Barrier Reference Value: [Barrier Closing Price] [Barrier Average Price] [Barrier Intraday Price] [Barrier Worst Closing Price] [Barrier Best Closing Price] [Barrier Basket Value] [Barrier Asset Performance] [Barrier Worst Asset Performance] [Barrier Best Asset Performance] is applicable. *(If Barrier Basket Value, Barrier Asset Performance, Barrier Worst Asset Performance or Barrier Best Asset Performance is not specified, delete the sub-paragraphs)*
 - (a) Barrier Asset Price: [Final Closing Price] [Final Average Price].
 - (b) Weighting: [In respect of each Underlying Asset, (*specify amount*)] / [In respect of [●], (*specify amount*)] / [In respect of each Underlying Asset,] as set forth in the Underlying Asset Table in the column entitled "Weighting" in the row corresponding to such Underlying Asset] [Not Applicable].
 - (iii) Barrier Level: [*(specify amount)*][, being [●] per cent. of the Asset Initial Price] / [In respect of each Underlying Asset, [●] per cent. of the Asset Initial Price] / [In respect of each Underlying Asset, the [value] [percentage of the Asset Initial Price of such Underlying Asset] set forth in the Barrier and Trigger Table in the column entitled "Barrier Level" in the row corresponding to such Underlying Asset] [Not Applicable].
 - (a) Barrier Level 1: [*(specify amount)*][, being [●] per cent. of the Asset Initial Price] / [In respect of each Underlying Asset, [●] per cent. of the Asset Initial Price] / [In respect of each Underlying

- Asset, the [value] [percentage of the Asset Initial Price of such Underlying Asset] set forth in the Barrier and Trigger Table in the column entitled "Barrier Level 1" in the row corresponding to such Underlying Asset] [Not Applicable].
- (b) Barrier Level 2: [(specify amount)][, being [●] per cent. of the Asset Initial Price] / [In respect of each Underlying Asset, [●] per cent. of the Asset Initial Price] / [In respect of each Underlying Asset, the [value] [percentage of the Asset Initial Price of such Underlying Asset] set forth in the Barrier and Trigger Table in the column entitled "Barrier Level 2" in the row corresponding to such Underlying Asset] [Not Applicable].
- (iv) Barrier Observation Period: [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining subparagraphs of this paragraph)*
- [[No] Extension is Applicable].
- (a) Observation Date (closing valuation): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining subparagraphs of this paragraph)*
- Reference Date/Pricing Date deemed to be Observation Date (closing valuation): [Applicable] [Not Applicable].
- (b) Observation Date (intra-day valuation): [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining subparagraphs of this paragraph)*
- Reference Price deemed to be Asset Intraday Price: [Applicable] [Not Applicable].
- (c) Barrier Observation Period Start Date: In respect of [each Underlying Asset/[●],] [●] (specify date) / the date specified in the Barrier and Trigger Table in the column entitled "Barrier Observation Period Start Date" in the row corresponding to such Underlying Asset (and such date shall be [included in] [excluded from] the Barrier Observation Period).
- (d) Barrier Observation Period End Date: In respect of [each Underlying Asset/[●],] [●] (specify date) / the date specified in the Barrier and Trigger Table in the column entitled "Barrier Observation Period End Date" in the row corresponding to such Underlying Asset (and such date shall be [included in] [excluded from] the Barrier Observation Period).
- (v) Lock-In Event Condition: [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining subparagraphs of this paragraph)*

Form of Pricing Supplement (Instruments)

- (a) Lock-In Event: For the purposes of the definition of "Lock-In Event" in the Payout Conditions, Lock-In Reference Value [greater than] [less than] [or equal to] the Lock-In Level is applicable.
- (b) Lock-In Reference Value: [Lock-In Closing Price] [Lock-In Basket Value] is applicable.
- (c) Lock-In Level: [(specify amount)][, being [●] per cent. of the Asset Initial Price] / [In respect of each Underlying Asset, [●] per cent. of the Asset Initial Price] / [In respect of each Underlying Asset, the [value] [percentage of the Asset Initial Price of such Underlying Asset] set forth in the Barrier and Trigger Table in the column entitled "Lock-In Level" in the row corresponding to such Underlying Asset].
- (d) Lock-In Observation Dates: [The [Valuation / Pricing] Date[s] scheduled to fall on *[insert dates]* [Each Valuation Date other than the Final Reference Date].
- (vi) Star Event: [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining subparagraphs of this paragraph)*
- (a) Star Level: [In respect of [the/each] Underlying Asset,] [●] (specify amount)[, being] [[●] per cent. of the Asset Initial Price] [of such Underlying Asset].

[Delete table or columns if not required]

[BARRIER AND TRIGGER TABLE]

7. UNITED STATES TAX CONSIDERATIONS

7.1 Section 871(m) Withholding Tax

(If the Instruments are Share Linked Securities or Index Linked Securities, insert either of the following paragraphs, depending on whether the Instruments are subject to Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended. If the Instruments are not Share Linked Securities or Index Linked Securities, insert 'Not Applicable'.)

[If the Instruments are subject to Section 871(m): The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the [Warrants/Certificates], the [Warrants/Certificates] will be subject to withholding under these rules. The tax will be imposed at the full withholding tax rate even if you are otherwise eligible for a reduction in the rate under an applicable treaty. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the [Warrants/Certificates].]

[If the Instruments are not subject to Section 871(m): The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the [Warrants/Certificates], the [Warrants/Certificates] will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their [Warrants/Certificates] for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the [Warrants/Certificates].]

[Not Applicable.]

7.2 [Classification for U.S. Tax Purposes]

(If GSFCI is the Issuer, insert either of the following paragraphs, depending on whether the Instruments will be treated as debt or will not be treated as debt for U.S. Tax purposes.)

[If the Instruments are identified as "other income securities": We have determined that there is a material risk that the [Warrants/Certificates] will not be treated as a debt instrument, but will rather be treated as a forward or derivative contract, for United States federal income tax purposes. In light of this possibility, we intend to treat the [Warrants/Certificates] in the manner

described under "*United States Tax Considerations -- Securities Issued by GSFCI -- Securities that are not Classified as Debt for United States Tax Purposes*" in the Base Prospectus. If the [Warrants/Certificates] bear periodic coupons, then, due to uncertainty regarding the U.S. withholding tax treatment of coupon payments on [Warrants/Certificates] that are not treated as debt, it is expected that withholding agents will (and we, if we are the withholding agent, intend to) withhold on coupon payments on the [Warrants/Certificates] at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such withholding tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the [Warrants/Certificates] (other than any periodic coupons that are paid at such time) are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the [Warrants/Certificates].]

[If the Instruments are identified as debt: We intend to treat the [Warrants/Certificates], for United States federal income tax purposes, in the manner described under "*United States Tax Considerations -- Securities Issued by GSFCI -- Securities that are Classified as Debt for United States Tax Purposes*" in the Base Prospectus, which description includes details for United States alien holders eligible for an exemption from United States federal withholding tax on payments of principal and interest. However this determination is not binding on the United States Internal Revenue Service ("IRS") and the IRS may disagree with the treatment. In the case of [Warrants/Certificates] that bear periodic coupons, the consequences of the IRS disagreeing with the treatment include the possibility that coupon payments made to you (including any such coupon payments made at maturity) could be subject to tax at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the [Warrants/Certificates] are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the [Warrants/Certificates].]

8. INDEX DISCLAIMER

[Include if applicable, include Index and Commodity Index disclaimer(s) / Not Applicable].

9. [SECURITIES AND FUTURES ACT [2001] [(CHAPTER 289)] SINGAPORE

[The [Warrants/Certificates] are prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and are Excluded Investment Products (as defined in the Notice on the Sale of Investment Products (SFA 04-N12) and the Notice on Recommendations on Investment Products (FAA-N16) each issued by the Monetary Authority of Singapore).]

[The [Warrants/Certificates] are capital market products other than prescribed capital market products (as defined in the Securities and Futures (Capital Market Products) Regulations 2018) and are Specified Investment Products (as defined in the Notice on the Sale of Investment Products (SFA 04-N12) and the Notice on Recommendations on Investment Products (FAA-N16) each issued by the Monetary Authority of Singapore).]

[Insert if you wish to include the following additional information]

10. [EXAMPLES

The Issuer may, but is not obliged to, include additional information here by way of examples of complex derivatives]

11. [ADDITIONAL PROVISIONS RELATING TO THE UNDERLYING

The Issuer may, but is not obliged to, include additional information here as to additional provisions, not required by the relevant securities note, relating to the Underlying Asset(s) including, if applicable, Index and Commodity Index disclaimer(s).]

12. REASONS FOR THE OFFER, ESTIMATED NET AMOUNT OF PROCEEDS AND TOTAL EXPENSES

- (i) Reasons for the offer: [See "Use of Proceeds" in the Base Prospectus] / [●].

(See "Use of Proceeds" wording in Base Prospectus – if reasons for offer different from providing additional funds for the Issuer's operations and for other general corporate purposes, will need to include those reasons here. For example, specify here if may intend to allocate an amount equal to the net proceeds from the Securities to finance or refinance projects and assets made or held by any Goldman Sachs Group member that respond to critical environmental, social and/or sustainability issues, including any related terms and matters. The below is sample language only and is subject to change for any particular issuance.)

[The Securities are being issued subject to and in accordance with the Goldman Sachs Sustainability Issuance Framework. Accordingly, the Issuer intends to allocate an amount equal to the net proceeds from the Securities to finance or refinance projects and assets that respond to critical environmental, social and/or sustainability issues, including those related to climate transition and inclusive growth, as defined by the relevant Eligibility Criteria.] *(This may be tailored Green or Social issuances)*

[Proceeds from the Securities may be allocated across a combination of both environmentally and socially-focused Eligible Investments. *(This may be tailored Green or Social issuances)*].

[Goldman Sachs will prioritise the use of proceeds from each issuance of Securities under its Sustainability Issuance Framework to finance new projects or assets that meet the Eligibility Criteria [of the respective type of issuance] and will aim to allocate all proceeds within two years following the issuance. Loans and investments that qualify under the relevant criteria made up to one year prior to the issuance are also eligible for refinancing with its proceeds. Goldman Sachs will track and manage an amount equivalent to the proceeds of each issuance of Securities under the Sustainability Issuance Framework via a separate internal ledger. Any portion of proceeds unallocated against Eligible Investments will be allocated against highly liquid instruments, until such amount can be allocated against Eligible Investments. During the term of the relevant Securities, if an asset that has been funded with the proceeds of such Securities either matures or is sold, Goldman Sachs will seek to reallocate the equivalent amount of proceeds into eligible projects and assets, where possible and feasible as described in Sustainability Issuance Framework.]

[Goldman Sachs will publish reports on an annual basis and the information will be updated annually until the proceeds of the Securities are fully allocated to Eligible Investments and as promptly as practicable in case of any material changes in the proceeds allocation thereafter. Each report will include a brief description of categories of Eligible Investments to which proceeds have been allocated, the total amount of proceeds allocated to such Eligible Investments and the total amount of unallocated proceeds (if any), and, to the extent feasible, the expected and realised environmental and/or social impact of the allocated Eligible Investments. Information about the allocation and impact of projects and assets may be presented on an aggregated basis due to applicable confidentiality obligations and the large number of Eligible Investments that may be allocated proceeds from the Securities.]

- | | | |
|-------|--|--|
| (ii) | Estimated net amount of proceeds: | <p>[Not Applicable/[●]].</p> <p><i>(If proceeds are intended for more than one use will need to split out and present in order of priority. If proceeds insufficient to fund all proposed uses state amount and sources of other funding.)</i></p> |
| (iii) | Estimated total expenses [related to the admission to trading] | <p>[Not Applicable/[●]].</p> <p>(Include breakdown of expenses)</p> |

[(Specify relevant information about the Reference Entities in Part B above)]

FORM OF PRICING SUPPLEMENT (NOTES)

*[Include if applicable: **PROHIBITION OF SALES TO EEA RETAIL INVESTORS** –* The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the European Economic Area has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the European Economic Area may be unlawful under the EU PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to EEA Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the EU PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the EEA as described in the above paragraph and in such legend shall no longer apply in relation to any member state whose requirements for a key information document in relation to the relevant Securities have been satisfied.]

*[Include if applicable: **PROHIBITION OF SALES TO UK RETAIL INVESTORS** –* The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA and regulations made thereunder (the "**UK Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended, the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to UK Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the UK PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the United Kingdom as described in the above paragraph and in such legend shall no longer apply.]

*[Insert the following additional language in case of an offer in Switzerland: The Securities do not constitute a participation in a Collective Investment Scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("**CISA**"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the relevant Issuer and the relevant Guarantor, if any, respectively.]*

[Insert if applicable: The Notes are not intended to satisfy, in whole or in part, any present or future taxonomies, standards and/or other regulatory or index inclusion criteria or voluntary guidelines with which such investor or its investments may be expected to comply. For example and without limitation, the Securities are not Green Bonds and/or Social Bonds as defined under the International Capital Market Association's Green Bond Principles and/or Social Bond Principles, and they do not take into account any of the EU criteria for environmentally sustainable investments, including as set out under the Regulation of the European Parliament and of the Council on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation (EU) 2020/852).]

[Where the Pricing Supplement covers two or more Series of Securities, the identification numbers for each Series should be included in the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below, and should not be included here.]

**[GOLDMAN SACHS INTERNATIONAL/ GOLDMAN, SACHS & CO. WERTPAPIER
GMBH/ GOLDMAN SACHS FINANCE CORP INTERNATIONAL LTD/ THE GOLDMAN
SACHS GROUP, INC.]**

Series P Programme for the issuance

of Warrants, Notes and Certificates

Issue of [[●] Series of] [Aggregate Nominal Amount of Tranche] [Title of Notes] [, due [Maturity Date]] (the "Notes" or the "Securities")

[Guaranteed by [The Goldman Sachs Group, Inc.] / [Goldman Sachs International]]

CONTRACTUAL TERMS

Terms used herein shall have the same meaning as in the General Note Conditions [and] [, the [PSL Note] Payout Conditions] [, the Coupon Payout Conditions] [, the Autocall Payout Conditions] [and the applicable Underlying Asset Conditions] set forth in the base prospectus dated 13 January 2023 (expiring on 13 January 2024) (the "**Base Prospectus**") [as supplemented by the supplement[s] to the Base Prospectus dated [●], [●] and [●]]. This document does not constitute a final terms of the [Warrants/Certificates] described herein for the purposes of Article 8 of Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). The Luxembourg Commission de Surveillance du Secteur Financier has neither approved nor reviewed the information contained in this Pricing Supplement and the Base Prospectus in connection with the Securities. The Issuer is not offering the Securities in any jurisdiction in circumstances which would require a prospectus pursuant to the EU Prospectus Regulation. Nor is any person authorised to make such an offer of the Securities on behalf of the Issuer in any jurisdiction. [In addition, no application has been made (nor is it proposed that any application will be made) for listing of the Securities on a regulated market for the purposes of Directive 2014/65/EU on Markets in Financial Instruments (as may be amended, from time to time).]

[Use the alternative language set out under "Important Legal Information – Issue Terms for certain fungible issuances" if the first tranche of an issue which is being increased was issued under the expired Base Prospectus, the terms of which are incorporated by reference into this Base Prospectus]

[Specify whether each of the items below is applicable or not applicable. Italics denote guidance for completing the Pricing Supplement.]

[Where the Pricing Supplement cover two or more Series of Securities:

- (a) the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below should be completed for all variables which will differ across the different Series;*

Form of Pricing Supplement (Notes)

- (b) *the relevant line item for any such variable in the Conditions below should include the following language: "In respect of each Series, as specified in the table set out in "Specific Provisions for each Series" below"; and*
- (c) *all other provisions in the Conditions below shall be construed as applying separately to each Series of Securities.]*

[This Pricing Supplement covers two or more Series of Securities, as specified in the table(s) set out in the section entitled "SPECIFIC PROVISIONS FOR EACH SERIES" below. Unless otherwise specified in this Pricing Supplement or the Conditions, the provisions below and the Conditions shall be construed as applying separately to each Series of Securities.] *[Insert if Pricing Supplement cover two or more Series of Securities.]*

- (b) Second Automatic Early Redemption Date Specific Adjustment: [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraph of this paragraph)*
- Automatic Early Redemption Specified Day(s) for the purposes of "Second Automatic Early Redemption Date Specific Adjustment": [In respect of each Applicable Date corresponding to a Scheduled Automatic Early Redemption Date,] [●] [Business Day[s]] [Clearing System Business Day[s] / calendar day[s]] [●] [as specified in the Autocall Table in the column entitled "Automatic Early Redemption Specified Day(s)" in the row corresponding to such Applicable Date].
- Relevant Automatic Early Redemption Determination Date: [The] [Latest Reference Date in respect of the] [Last Autocall Averaging Date / Final Autocall Pricing Date] [Applicable Date corresponding to such Scheduled Automatic Early Redemption Date] [The Applicable Date falling latest in time corresponding to such Scheduled Automatic Early Redemption Date] [●] *(specify other date)*
- (iii) Automatic Early Redemption Amount(s): [●] [In respect of each Applicable Date, the Autocall Event Amount corresponding to such Applicable Date]
- 36. Autocall Payout Conditions:** [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining sub-paragraph of this paragraph)*
- (i) Autocall Event: Applicable, [for the purposes of the definition of "Autocall Event" in the Autocall Payout Conditions, [Best-of] [Worst-of] [Autocall Reference Value] [less than] [greater than] [or equal to] [the] [its] Autocall Level] [Targeted Accrual Autocall]

is applicable in respect of each Autocall Observation Date] [in respect of an Autocall Observation Date, the Autocall Event applicable to such Autocall Observation Date is set forth in the Autocall Table in the column "Autocall Event" in the row corresponding to such Autocall Observation Date].

[Autocall Event (Inverse) is applicable [to all Autocall Observation Dates] [to the following Autocall Observation Dates: *[specify]*.] [Autocall Event (Inverse) is applicable in respect of each Autocall Observation Date as set forth in the Autocall Table in the column "Autocall Event" in the row corresponding to such Autocall Observation Date.]

- No Coupon Amount payable following Autocall Event: [Applicable] [Not Applicable].
 - (ii) Daily Autocall Event Amount: [Applicable] [Not Applicable] *(If Not Applicable, delete the remaining sub-paragraphs of this paragraph)*
 - (a) Annual Rate: [●].
 - (b) Base Amount: [●].
 - (iii) Autocall Reference Value: [Autocall Closing Price] [Autocall Average Price] [Autocall Basket Value] [Autocall Asset Performance] [In respect of an Autocall Observation Date, the Autocall Reference Value applicable to such Autocall Observation Date is set forth in the Autocall Table in the column "Autocall Reference Value" in the row corresponding to such Autocall Observation Date]. *(If Autocall Basket Value is not specified or the definition of Autocall Reference Value does not require the determination of the Autocall Asset Performance, delete the remaining sub-paragraphs of this sub-paragraph)*

[Autocall Reference Value (Inverse) is applicable [to all Autocall Observation Dates] [to the following Autocall Observation Dates: *[specify]*.] [Autocall Reference Value (Inverse) is applicable in respect of each Autocall Observation Date as set forth in the Autocall Table in the column "Autocall Reference Value" in the row corresponding to such Autocall Observation Date.]

 - (a) Autocall Asset Price: [Autocall Closing Price] [Autocall Average Price] [Not Applicable].
 - (b) Weight: [In respect of [each/the] Underlying Asset, [●] (*specify amount*)] [In respect of [●], [●]

- (specify amount)] [as set forth in the Underlying Asset Table in the column entitled "Weighting" in the row corresponding to such Underlying Asset] [Not Applicable].
- (iv) Autocall Level: [In respect of each Autocall Observation Date and [the/each] Underlying Asset,] [(specify Underlying Asset)] [●] (specify amount)[, being] [[●] of the Asset Initial Price] [of such Underlying Asset] [(repeat for each Underlying Asset as required)] [In respect of an Autocall Observation Date [and an Underlying Asset], the [value] [percentage of the Asset Initial Price of such Underlying Asset] set forth in the Autocall Table in the column "Autocall Level" in the row corresponding to such Autocall Observation Date] [Not Applicable].
- Autocall Level Comparative Method: [Applicable in respect of [[each/the] Autocall Observation Date[s] [falling on the Valuation Date[s] scheduled to fall on [●]]] [Autocall Level Comparative Method is applicable in respect of each Autocall Observation Date as set forth in the Autocall Table in the column "Autocall Level Comparative Method" in the row corresponding to such Autocall Observation Date] [Not Applicable].
- (delete the following sub-paragraphs if "Autocall Level Comparative Method" is Not Applicable)
- Autocall Asset Comparative Price Observation Date: The Valuation Date scheduled to fall on [●].
- Autocall Level Floor: [In respect of [each/the] Autocall Observation Date[s] [falling on the Valuation Date[s] scheduled to fall on [●]]] [●] [In respect of an Autocall Observation Date and each Underlying Asset, the [amount] [percentage] set forth in the Autocall Table in the column "Autocall Level" in the row corresponding to such Autocall Observation Date].
- (v) TARN Amount: [●] [Not Applicable].
- (vi) Autocall Observation Date: [The [Valuation Date / Pricing Date/ Averaging Date] scheduled to fall on [●] (Specify applicable dates) [Each date set forth in the Autocall Table in the column entitled "Autocall Observation Date"]/[Each Observation Date (closing valuation) scheduled to fall in the Autocall Observation Period].

- Specified Number of [Scheduled Trading Days/Scheduled Commodity Business Days] for the purposes of ["Set of Autocall Averaging Dates"/"Set of Autocall Pricing Dates"]:
 - [●] [Scheduled Trading Days / Scheduled Commodity Business Days].
- (vii) Autocall Observation Period:
 - [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining subparagraphs of this paragraph)*
 - (a) Observation Date (closing valuation):
 - [Applicable] [Not Applicable]. *(If Not Applicable, delete the remaining subparagraphs of this paragraph)*
 - Reference Date/Pricing Date deemed to be Observation Date (closing valuation):
 - [Applicable] [Not Applicable].
 - (b) Autocall Observation Period Start Date:
 - In respect of [each Underlying Asset/[●],] [●] *(specify date)* / the date specified in the Autocall Table in the column entitled "Autocall Observation Period Start Date" in the row corresponding to such Underlying Asset.
 - (c) Autocall Observation Period End Date:
 - In respect of [each Underlying Asset/[●],] [●] *(specify date)* / the date specified in the Autocall Table in the column entitled "Autocall Observation Period End Date" in the row corresponding to such Underlying Asset.
 - (viii) Autocall Event Amount:
 - [In respect of each Autocall Observation Date, [[●] *(specify amount)* [the amount set forth in the Autocall Table in the column "Autocall Event Amount" in the row corresponding to such Autocall Observation Date]] / [the Daily Autocall Event Amount] [the Autocall Floored Weighted Basket Event Amount corresponding to such Autocall Observation Date] [Autocall Multiplier Method is applicable] [Autocall Floored Performance Method is applicable] [the Autocall Floored Single Asset Multiplier Performance Amount corresponding to such Autocall Observation Date]. *(if the Autocall Event Amount is not the Autocall Floored Weighted Basket Event Amount or the Autocall Floored Single Asset Multiplier Performance Amount and Autocall Multiplier Method or Autocall Floored Performance Method is not applicable, delete the remaining subparagraphs of this paragraph)*
 - (a) Autocall Protection Level:
 - [●] [Not Applicable].
 - (b) Autocall Event Floor Amount:
 - [●] [In respect of each Autocall Observation Date, the amount set forth in the Autocall

		Table in the column "Autocall Event Floor Amount" in the row corresponding to such Autocall Observation Date"] [Not Applicable].
(c)	Autocall Event Base Amount:	[●] [Not Applicable].
