

Base Prospectus dated 11 June 2021

CAISSE FRANÇAISE DE FINANCEMENT LOCAL
(société de crédit foncier duly licensed as a French specialised credit institution)
Euro 75,000,000,000 Euro Medium Term Note Programme
for the issue of *Obligations Foncières*
Due from one month from the date of original issue

Under the Euro Medium Term Note Programme (the "**Programme**") described in this Base Prospectus (as defined below), Caisse Française de Financement Local (the "**Issuer**", "**Caisse Française de Financement Local**" or "**CAFFIL**"), subject to compliance by the Issuer with all relevant laws, regulations and directives applicable to the Issuer and the *Obligations Foncières*, may from time to time issue *obligations foncières* (the "**Obligations Foncières**") benefiting from the statutory *privilege* created by Article L.513-11 of the French *Code monétaire et financier*, as more fully described herein. The aggregate nominal amount of *Obligations Foncières* (issued under the Programme) outstanding will not at any time exceed Euro 75,000,000,000 (or the equivalent in other currencies at the date of signing of the documentation relating to the issue of any *Obligations Foncières*).

This document constitutes a base prospectus (the "**Base Prospectus**") for the purpose of Article 8 of the Regulation (EU) 2017/1129 of the European Parliament and of the Council dated 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, as amended (the "**Prospectus Regulation**").

This Base Prospectus has been approved by the *Autorité des marchés financiers* (the "**AMF**") in France in its capacity as competent authority under the Prospectus Regulation. The AMF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of either the Issuer or the quality of the *Obligations Foncières* that are the subject of this Base Prospectus and investors should make their own assessment as to the suitability of investing in the *Obligations Foncières*.

Application may be made for *Obligations Foncières* issued under the Programme during a period of twelve (12) months after the date of the approval granted by the AMF on the Base Prospectus to be admitted to trading on Euronext Paris and/or any other Regulated Market (as defined below) and/or to be offered to the public pursuant to a non-exempt offer in accordance with the Prospectus Regulation in any member state (the "**Member State(s)**") of the European Economic Area (the "**EEA**"). Euronext Paris is a regulated market for the purposes of Directive 2014/65/EU of the European Parliament and of the Council dated 15 May 2014 on markets in financial instruments, as amended ("**MiFID II**"), appearing on the list of regulated markets issued by the European Securities and Markets Authority (each, a "**Regulated Market**"). The *Obligations Foncières* may also be admitted to trading on any other stock exchange, or may not be admitted to trading on any market. The relevant final terms (the "**Final Terms**") (forms of which are contained herein) in respect of the issue of any *Obligations Foncières* will specify whether or not such *Obligations Foncières* will be admitted to trading and/or offered to the public pursuant to a non-exempt offer in a Member State of the EEA and, if so, the relevant market and/or jurisdiction.

This Base Prospectus shall be valid for the admission to trading of *Obligations Foncières* on a Regulated Market and/or the offering of *Obligations Foncières* to the public pursuant to a non-exempt offer in accordance with the Prospectus Regulation until 10 June 2022, provided that it is completed by any supplement, pursuant to Article 23 of the Prospectus Regulation, following the occurrence of a significant new factor, a material mistake or a material inaccuracy relating to the information included (or incorporated by reference) in this Base Prospectus which may affect the assessment of an investment in the *Obligations Foncières*. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Obligations Foncières may be issued either in dematerialised form ("**Dematerialised Obligations Foncières**") or in materialised form ("**Materialised Obligations Foncières**") as more fully described herein. Dematerialised *Obligations Foncières* will at all times be in book entry form in compliance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier*. No physical documents of title will be issued in respect of the Dematerialised *Obligations Foncières*.

It is expected that the *Obligations Foncières* issued under the Programme will be rated AA+ by S&P Global Ratings Europe Limited ("**S&P**") and/or Aaa by Moody's France SAS ("**Moody's**") and/or AAA by DBRS Ratings GmbH or any entity that is part of DBRS and any successor to the relevant rating activity ("**DBRS**") and by their respective successors and/or any other rating agency. The rating (if any) will be specified in the relevant Final Terms. The credit ratings included or referred to in this Base Prospectus or in any Final Terms have been issued by S&P, Moody's and/or DBRS, which are established in the European Union and registered under Regulation (EC) No. 1060/2009 on credit ratings agencies, as amended (the "**CRA Regulation**"), and included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the European Securities and Markets Authority's website (<https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>) as of the date of this Base Prospectus. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

The final terms of the *Obligations Foncières* will be determined at the time of the offering of each Tranche based on then prevailing market conditions and will be set out in the relevant Final Terms.

Since 1 January 2013, Caisse Française de Financement Local benefits for all its *obligations foncières* from the Covered Bond Label granted by the Covered Bond Label Foundation.

This Base Prospectus, any supplements thereto (if any) and the Final Terms related to the *Obligations Foncières* admitted to trading on any Regulated Market in the EEA and/or offered to the public pursuant to a non-exempt offer in accordance with the Prospectus Regulation will be published on the websites of the Issuer (www.caffil.fr) and of the AMF (www.amf-france.org).

Prospective investors should have regard to the factors described under the section headed "Risk factors" in this Base Prospectus before deciding to invest in the *Obligations Foncières* issued under the Programme.

This Base Prospectus (together with any supplements to this Base Prospectus published from time to time (each a "Supplement" and together the "Supplements")) constitutes a base prospectus for the purposes of Article 8 of the Prospectus Regulation in respect of, and for the purpose of giving information with regard to the Issuer and the *Obligations Foncières* which is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuer, the rights attaching to the *Obligations Foncières*, the reasons for the issuance and its impact on the Issuer and may only be used for the purposes for which it has been published.

This Base Prospectus should be read and construed in conjunction with any Supplement that may be published from time to time and with all documents incorporated by reference (see section entitled "Documents Incorporated by Reference" below) and in relation to any Series (as defined herein) of *Obligations Foncières*, should be read and construed together with the relevant Final Terms.

No person has been authorised to give any information or to make any representation other than those contained in this Base Prospectus in connection with the issue or sale of the *Obligations Foncières* and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or the Arranger or any of the Dealers. Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that there has been no adverse change in the financial position of the Issuer since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Base Prospectus and the offering or sale of the *Obligations Foncières* in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer, the Arranger and the Dealers to inform themselves about and to observe any such restriction. For a description of certain restrictions on offers and sales of *Obligations Foncières* and on distribution of this Base Prospectus, see section entitled "Subscription and Sale".

NOTICE

Each prospective investor of *Obligations Foncières* must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the *Obligations Foncières* is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the *Obligations Foncières*.

A prospective investor may not rely on the Issuer, the Arranger or the Dealers or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the *Obligations Foncières* or as to the other matters referred to above.

Neither the Issuer, the Arranger or the Dealers nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the *Obligations Foncières* by a prospective investor of the *Obligations Foncières*, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

OBLIGATIONS FONCIÈRES ISSUED UNDER THE PROGRAMME MAY NOT BE A SUITABLE INVESTMENT FOR ALL INVESTORS

Each potential investor in the *Obligations Foncières* must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant *Obligations Foncières*, the merits and risks of investing in the relevant *Obligations Foncières* and the information contained (or incorporated by reference) in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant *Obligations Foncières* and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the *Obligations Foncières*, such as instances where *Obligations Foncières* have principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the relevant *Obligations Foncières* issued under the Programme and be familiar with the behavior of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial advisor) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.
- (vi) consult its own advisers as to legal, tax and related aspects of an investment in the *Obligations Foncières* (in particular to determine whether and to what extent (i) *Obligations Foncières* are legal investments for it, (ii) *Obligations Foncières* can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase of any *Obligations Foncières*).

Obligations Foncières are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, and appropriate addition of risk to their overall portfolios. A potential investor should not invest in *Obligations Foncières* which are complex financial instruments unless it has the expertise (either alone or with the assistance of a financial advisor) to evaluate how the *Obligations Foncières* will perform under changing conditions, the resulting effects on the value of such *Obligations Foncières*, and the impact this investment will have on the overall investment portfolio of the potential investor.

A number of Member States of the European Union are currently negotiating to introduce a financial transactions tax ("FTT") in the scope of which transactions in the *Obligations Foncières* may fall. If the proposed directive is adopted and implemented in local legislation, holders of *Obligations Foncières* may be exposed to increased transaction costs with respect to financial transactions carried out with respect to the *Obligations Foncières* and the liquidity of the market for the *Obligations Foncières* may be diminished. Prospective investors should consult their own tax advisers in relation to the consequences of the FTT associated with subscribing, purchasing, holding and disposing the *Obligations Foncières*.

The Materialised *Obligations Foncières* are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations.

This Base Prospectus does not constitute an offer of, or an invitation by or on behalf of the Issuer or the Arranger or the Dealers to subscribe for, or purchase, any *Obligations Foncières*.

The Arranger and the Dealers have not separately verified the information contained or incorporated by reference in this Base Prospectus. None of the Arranger or the Dealers makes any representation, express or implied, or accepts any responsibility, with respect to the accuracy or completeness of any of the information in this Base Prospectus. Neither this Base Prospectus nor any other financial statements nor any other information incorporated by reference are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuer, the Arranger or the Dealers that any recipient of this Base Prospectus or any other financial statements or any other information incorporated by reference should purchase the *Obligations Foncières*. Each potential purchaser of *Obligations Foncières* should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of *Obligations Foncières* should be based upon such investigation as it deems necessary. None of the Arranger

or the Dealers undertakes to review the financial condition or affairs of the Issuer during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the *Obligations Foncières* of any information coming to the attention of any of the Arranger or the Dealers.

One or more independent credit rating agencies may assign credit ratings to the *Obligations Foncières*. A rating assigned to the *Obligations Foncières* is based on the Issuer's financial situation, but takes into account other relevant structural features of the transaction, including, inter alia, the terms of the *Obligations Foncières*, and reflects only the views of the rating agency. The ratings may not reflect the potential impact of all risks related to structure, market and other factors that may affect the value of the *Obligations Foncières*. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

IMPORTANT NOTICE RELATING TO INFLATION LINKED INTEREST *OBLIGATIONS FONCIÈRES*

Obligations Foncières linked to an inflation index, which will be one of (i) the consumer price index (excluding tobacco) for all households in France or the relevant substitute index, as calculated and published monthly by the *Institut National de la Statistique et des Etudes Economiques* ("INSEE"), or (ii) the harmonised index of consumer prices (excluding tobacco), or the relevant substitute index, measuring the rate of inflation in the European Monetary Union as calculated and published monthly by Eurostat (each an "Inflation Index" and together, the "Inflation Indices") (the "Inflation Linked *Obligations Foncières*") are not in any way sponsored, endorsed, sold or promoted by the INSEE or Eurostat, as the case may be, and the INSEE or Eurostat makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of any of the Inflation Indices and/or the figure at which such indices stand at any particular time. The Inflation Indices are determined, composed and calculated by the INSEE or Eurostat, as the case may be, without regard to the Issuer or the *Obligations Foncières*. The INSEE or Eurostat, as the case may be, is not responsible for or has not participated in the determination of the timing of, prices of, or quantities of the Inflation Linked *Obligations Foncières* to be issued or in the determination or calculation of the interest payable under such *Obligations Foncières*.

None of the Issuer, the Arranger, the Dealers or any of their respective affiliates makes any representation as to the Inflation Indices. Any of such persons may have acquired, or during the term of the *Obligations Foncières* may acquire, non-public information with respect to any of the Inflation Indices that is or may be material in the context of Inflation Linked *Obligations Foncières*. The issue of Inflation Linked *Obligations Foncières* will not create any obligation on the part of any such persons to disclose to the holders of *Obligations Foncières* or any other party such information (whether or not confidential).

Neither the current nor the historical levels of any of the Inflation Indices should be taken as an indication of future performance of such index during the term of any Inflation Linked *Obligations Foncières*.

IMPORTANT NOTICE RELATING TO GREEN *OBLIGATIONS FONCIÈRES* OR SOCIAL *OBLIGATIONS FONCIÈRES*

Prospective investors should have regard to the information set out in the relevant Final Terms regarding use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in green *Obligations Foncières* (the "Green *Obligations Foncières*") or social *Obligations Foncières* (the "Social *Obligations Foncières*"), as the case may be, together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer or the Dealers that the use of proceeds for any loan will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by the Issuer's own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental or social impact of any loan or uses related to any loan. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes a "green", a "social" or an equivalently-labelled asset. In addition the requirements of any such label may evolve from time to time, accordingly, no assurance is or can be given to investors that any

loan or use(s) the subject of, or related to, any loan will meet any or all investor expectations regarding such "green", "social" or other equivalently-labelled performance objectives.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Green *Obligations Foncières* or Social *Obligations Foncières*, as the case may be, and in particular with any loan, to fulfil any environmental, social and/or other criteria. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Green *Obligations Foncières* or such Social *Obligations Foncières*, as the case may be. For the avoidance of doubt, neither the second party opinions, nor any such other opinion or certification is, or shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

No Dealer makes any representation as to the suitability of the Green *Obligations Foncières* or the Social *Obligations Foncières* to fulfil environmental or social criteria required by prospective investors. The Dealers have not undertaken, nor are responsible for, any assessment of the eligibility criteria, any verification of whether the Green *Obligations Foncières* or the Social *Obligations Foncières*, as the case may be, meet the eligibility criteria, or the monitoring of the use of proceeds.

For the avoidance of doubt, it is however specified that payments of principal and interest (as the case may be) on the Green *Obligations Foncières* or the Social *Obligations Foncières*, as the case may be, shall not depend on the performance of the relevant loan.

PRIIPS REGULATION - PROHIBITION OF SALES TO EEA RETAIL INVESTORS – In respect of (i) any *Obligations Foncières* with a denomination of less than €100,000 for which the Final Terms specify the "Prohibition of sales to EEA retail investors" as "Applicable" and (ii) any *Obligations Foncières* with a denomination of at least €100,000, the *Obligations Foncières* are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU of the European Parliament and of the Council dated 20 January 2016 on insurance distribution, as amended (the "Insurance Distribution Directive") where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No 1286/2014 of the European Parliament and of the Council dated 26 November 2014 on key information documents for packaged retail and insurance-based investment products (as amended, the "PRIIPs Regulation") for offering or selling the *Obligations Foncières* or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the *Obligations Foncières* or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

UK PRIIPS REGULATION – PROHIBITION OF SALES TO UK RETAIL INVESTORS – In respect of (i) any *Obligations Foncières* with a denomination of less than €100,000 for which the Final Terms specify the "Prohibition of sales to UK retail investors" as "Applicable" and (ii) any *Obligations Foncières* with a denomination of at least €100,000, the *Obligations Foncières* are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the "UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Commission Delegated Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "EUWA"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (the "FSMA") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor

as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the *Obligations Foncières* or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the *Obligations Foncières* or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II product governance / target market – The Final Terms in respect of any *Obligations Foncières* may include a legend entitled "MiFID II product governance" which will outline the target market assessment in respect of the *Obligations Foncières*, taking into account the five (5) categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority (ESMA) on 5 February 2018 and which channels for distribution of the *Obligations Foncières* are appropriate. Any person subsequently selling or recommending the *Obligations Foncières* (a "distributor" as defined in MiFID II) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the *Obligations Foncières* (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "MiFID II Product Governance Rules"), any Dealer subscribing for any *Obligations Foncières* is a manufacturer as defined in MiFID II in respect of such *Obligations Foncières*, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules. For the avoidance of doubt, the Issuer is not a MiFID II regulated entity and does not qualify as a distributor or a manufacturer under MiFID II Product Governance Rules.

UK MiFIR product governance / target market – The Final Terms in respect of any *Obligations Foncières* may include a legend entitled "UK MiFIR product governance" which will outline the target market assessment in respect of the *Obligations Foncières*, taking into account the five (5) categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 (in accordance with the FCA's policy statement entitled "Brexit our approach to EU non-legislative materials") and which channels for distribution of the *Obligations Foncières* are appropriate. Any person subsequently offering, selling or recommending the *Obligations Foncières* (a "distributor") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the *Obligations Foncières* (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any *Obligations Foncières* is a manufacturer in respect of such *Obligations Foncières*, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

SINGAPORE SFA PRODUCT CLASSIFICATION – In connection with Section 309B of the Securities and Futures Act (Chapter 289) of Singapore (the "SFA") and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the "CMP Regulations 2018"), unless otherwise specified before an offer of *Obligations Foncières*, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the *Obligations Foncières* are "capital markets products other than prescribed capital markets products" (as defined in the CMP Regulations 2018) and Specified Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

1 Legal and tax risks

1.1. Risk arising from implementation of Basel III Risk-Weighted Asset Framework

The Issuer and the Group are subject to prudential regulations applicable to credit institutions and have to comply with the current capital requirements, prudential oversight and risk-management systems. As a société de crédit foncier, the Issuer is not subject to the leverage ratio nor the solvency ratio. Nevertheless, it calculates and discloses quarterly its CET1 ratio in its activity reports. As of 31 December 2020, Caisse Française de Financement Local's capital level is high (CET1 capital ratio: 28.8%). On 16 December 2010 and 13 January 2011, the Basel Committee on Banking Supervision (the "**Basel Committee**") published a revised framework ("**Basel III**"), including new capital and liquidity standards for credit institutions.

In particular, the changes introduced by Basel III refer to, amongst other things:

- a complete review of the capital standards (with for example a loss given default for institution at 45% instead of less than 10%);
- the introduction of a leverage ratio; and
- the introduction of short-term and longer-term standards for funding liquidity (referred to as the "Liquidity Coverage Ratio" and the "Net Stable Funding Ratio").

In December 2017, the Basel Committee finalised Basel III reforms. The revisions seek to restore credibility in the calculation of risk-weighted assets (RWAs) and improve the comparability of banks' capital ratios by:

- enhancing the robustness and risk sensitivity of the standardised approaches for credit risk, credit valuation adjustment (CVA) risk and operational risk;
- constraining the use of the internal model approaches, by placing limits on certain inputs used to calculate capital requirements under the internal ratings-based (IRB) approach for credit risk and by removing the use of the internal model approaches for CVA risk and for operational risk;
- introducing a leverage ratio buffer to further limit the leverage of global systemically important banks (G-SIBs); and
- replacing the existing Basel II output floor with a more robust risk-sensitive floor based on the Committee's revised Basel III standardised approaches.

Implementation dates and transitional arrangements related to the standards described above have been included with a main trigger in January 2023. Basel III was implemented under EU legislation through the "**CRD IV package**" which consists of the Capital Requirements Directive n° 2013/36/EU dated 26 June 2013, the Capital Requirements Regulation n°575/2013 dated 26 June 2013 and the relevant subsequent Delegated Regulations. A number of new requirements arising from the CRD IV package was implemented under French law through Law no. 2013-672 dated 26 July 2013 relating to the separation and regulation of banking activities. The implementation of the CRD IV package at the legislative level was finalized under French law by Ordinance n°2014-158 dated 20 February 2014 and subsequent implementing decrees and "*arrêts*".

The CRD IV package has been amended by Directive (EU) 2019/878 of the European Parliament and of the Council dated 20 May 2019 (the "**CRD V Directive**") and Regulation (EU) 2019/876 of the European Parliament and of the Council dated 20 May 2019 (the "**CRR II Regulation**" and, together with the CRD V Directive, the "**CRD V package**"), which were published in the European Union's Official Journal on 7 June 2019.

They notably provide for:

- leverage ratio calculation rules tailored to the specific nature of public development banks;
- a weighting of the Net Stable Funding Ratio tailored to encumbered assets included in the covered bond issuer's cover pool.

The CRD V package came into force on 27 June 2019. The CRD V Directive has been implemented under French law by an ordinance n°2020-1635 dated 21 December 2020 and a decree n°2020-1637 dated 22 December 2020. Certain portions of the CRR II Regulation apply since 27 June 2019 (including those applicable to the new requirements for own funds and eligible liabilities) while others shall apply several years after the date of its entry into force.

The implementation of Basel III and the CRD future packages, and any of their expected amendments, have and will continue to bring about a number of substantial changes to the current capital requirements, prudential oversight and risk-management systems of the Issuer and the Group. The direction and the magnitude of the impact of Basel III will depend on the particular asset structure of each bank and its precise impact on the Issuer cannot be quantified with certainty at this time. The Issuer is not subject to the leverage ratio nor the solvency ratio but the SFIL Group is subject to these ratios and the Issuer's business may therefore be indirectly adversely affected. The Issuer may operate its business in ways that are less profitable than its present operation in complying with the new guidelines resulting from the transposition of the CRD future packages. This could materially affect the current capital requirements of the Issuer. In addition, the implementation of Basel III, the CRD V package, and any of their expected amendments could affect the risk weighting of the covered bonds in respect of certain investors to the extent that those investors are subject to the new guidelines resulting from the implementation of the CRD V package.

1.2. Risk arising from European and French laws and regulations and harmonization of the existing rules on covered bonds throughout the European Union

Caisse Française de Financement Local's business operations are governed by European and French laws and regulations and are subject to supervision by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*) ("**ACPR**") and also by the European Central Bank at the consolidated level of SFIL. Any changes to the current legislation (in particular legislation relating to the issuance of *obligations foncières* and the privilège attached to such *obligations foncières*) could adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

Furthermore, any measure could have an impact on the legal and regulatory framework applicable to the *obligations foncières* in force at the date of this Base Prospectus. In particular, on 12 March 2018, the European Commission has published a proposal for a Directive and for a Regulation on the issue of covered bonds and covered bond public supervision (COM(2018) 94 final), which has been subject to a European Parliament legislative resolution on 18 April 2019.

On 27 November 2019, Directive (EU) 2019/2162 of the European Parliament and of the Council dated 27 November 2019 (the "**Covered Bond Directive**") and Regulation (EU) 2019/2160 of the European Parliament and of the Council dated 27 November 2019 (the "**Covered Bond Regulation**") were adopted.

The Covered Bond Directive and Covered Bond Regulation aim for the establishment of a framework to enable a more harmonised covered bond market in the EU. The Covered Bond Directive covers in particular requirements for issuing covered bonds, requirements for marketing covered bonds as "European Covered Bonds", structural features of covered bonds (asset composition, derivatives, liquidity, etc.) and regulatory supervision. The Covered Bond Regulation mainly amend Article 129 of Regulation (EU) No 575/2013 (Capital Requirements Regulation) and add requirements on minimum overcollateralisation and substitution assets. A minimum 5%

overcollateralisation is required, based on a nominal calculation method. Member states are allowed to reduce this level to a minimum of 2% under certain conditions.

At this stage, no significant impact is identified in this new European framework for Caisse Française de Financement Local. Members States of the European Union will have to (i) implement the Covered Bond Directive into national legislation by 8 July 2021 (the French law n°2020-1508 dated 3 December 2020 authorises the French government to take the measures necessary to transpose the Covered Bond Directive by means of an ordinance by 8 July 2021 at the latest) and (ii) apply those measures at the latest from 8 July 2022. The final outcome is not yet known and, depending on the transposition, could adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

1.3. Risks relating to any litigation with a counterparty/borrower or tax authority

Caisse Française de Financement Local is exposed to legal and tax risk which can be defined as the risk of any litigation with a counterparty/borrower or tax authority resulting from any misunderstanding, lack or insufficiency that may be attributed to the Issuer in the exercise of its activities. Certain legal and legislative changes in the EU local government and municipal lending market may expose Caisse Française de Financement Local to financial and reputational risk.

Caisse Française de Financement Local has, in its portfolio, some structured loans considered as sensitive, which had been granted to French public sector entities by Dexia Crédit Local before the acquisition of Caisse Française de Financement Local by SFIL. Certain of these customers initiated legal proceedings against Dexia Crédit Local, Caisse Française de Financement Local and/or SFIL claiming notably that such loans, including their annual rate of charge (TEG), were not valid and that Dexia Crédit Local did not provide mandatory information and advice prior to their signature.

Even if the number of lawsuits with borrowers is very limited at the date of this Base Prospectus (10 for around 13,500 borrowers for the sensitive loans portfolio, being noted that more than 213 borrowers cancelled their litigation proceedings since 2013) and that with two rulings dated 28 March 2018 and 26 June 2019 and two judgments dated 20 May 2020 and 12 November 2020, the *Cour de cassation* confirmed the validity of the structured loans carried on Caisse Française de Financement Local's balance sheet, there is a risk that one of linked court decision may be unfavourable to Caisse Française de Financement Local. Two partially unfavorable rulings were issued by the *Cour de cassation* during the year 2021. Insofar as these rulings sanctioned insufficient substantiation of the appeal rulings, they do not prejudge the outcome of the proceedings in question, which have been transferred back to the *Cour d'appel*.

Such adverse court decision may have a negative impact on the reputation of Caisse Française de Financement Local. In the worst case, such litigation may lead to certain loans in the Cover Pool being declared void or voidable in whole or in part, reducing the amount of collateral. It could also lead to a decrease of the contractual interest rate with retroactive effect and thus affect the hedging derivatives and the hedge relationship. In such cases, it may adversely affect cash flows, results of operations and financial condition of Caisse Française de Financement Local.

2 Credit and counterparty risk

Credit risk represents the potential loss that Caisse Française de Financement Local may incur as the result of the decline in a counterparty's solvency.

2.1. Risk of default in the Cover Pool

Caisse Française de Financement Local is exposed to the risk of default on the pool of public sector assets included in its portfolio used as cover for the issuance of *Obligations Foncières* under the Programme (the "**Cover Pool**"). The classes of assets that Caisse Française de Financement Local may own within its Cover Pool are restricted to specific categories narrowly defined by French law, and for Caisse Française de Financement Local these categories are further limited to transactions with public sector entities or entities guaranteed by public sector entities under the license granted by the CECEI (*Comité des établissements de crédit et des entreprises d'investissement*) (an institution now merged into the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de*

résolution)). Consequently, almost all of the Cover Pool comprises loans to, or bonds purchased from, local governments, municipalities and sovereigns. The ability of public sector borrowers, including local governments, municipalities and sovereigns, to meet their payment obligations may be affected by their levels of indebtedness, social spending obligations, interest rates, tax revenue collections and transfers of subsidies from the central governments, each of which could be adversely affected by a deterioration of general economic conditions.

Risk weighting of Caisse Française de Financement Local's portfolio as of 31 December 2020

Deteriorating economic conditions could therefore have a material adverse effect on the probability of default of these assets in the Cover Pool. Arrears fell sharply in 2020 (-43%) from EUR 64 million to EUR 36 million (excluding technical arrears). In addition, as of 31 December 2020, the balance of deferred payments represented a very small number of customers (eight) and a very low amount (EUR 0.8 million).

While the eligibility and suitability of assets is vetted by SFIL's risk management and permanent control departments, on behalf of Caisse Française de Financement Local, certain default scenarios such as losses on assets representing a significant portion of the Cover Pool may exist, which would ultimately affect the ability of Caisse Française de Financement Local to comply with the terms of the Obligations Foncières issued under the Programme. Adverse changes affecting the local economies of countries from which Caisse Française de Financement Local sources its assets, such as the economic and financial impact of the Covid-19 crisis, could result in, among other things, higher rates of credit defaults on loans and bonds. The materialisation of any of the foregoing factors or a divergence in the appreciation of these risks by the banking supervisory authorities or financial markets could lead to significant losses or provisions and could adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations, and may result in Caisse Française de Financement Local having insufficient funds to meet its obligations under the Obligations Foncières.

In its business of refinancing large export credits, Caisse Française de Financement Local grants loans to its parent company SFIL, to refinance its export credits. These refinancing loans benefit from an unconditional and irrevocable 100% guarantee provided by the French State. Bpifrance Assurance Export manages and delivers this guarantee under the State's control, on its behalf and in its name. These refinancing loans are thus considered as exposures to the French State. The French State's ability to meet its payment obligations may be affected by its levels of indebtedness, social spending obligations, interest rates and tax revenue collections, each of which could be adversely affected by a deterioration in general economic conditions. Deteriorating economic conditions, such as the economic and financial impact of the Covid-19 crisis, could therefore have an adverse effect on the probability of default of these assets in the Cover Pool.

In addition, certain geographic regions of Europe to which Caisse Française de Financement Local has credit exposure through its lending to local authorities and municipalities may, from time to time, experience weaker regional economic conditions. Assets originated in such areas may experience higher rates of loss and the ability of borrowers to make payments may also be affected by factors such as adverse economic conditions (e.g.: the economic and financial impact of the Covid-19 crisis) in particular geographic areas or industries, or perceptions in financial markets as to the creditworthiness of certain borrowers. Such occurrences may accordingly have a material adverse impact on the credit quality of certain assets included in the Cover Pool.

As an illustration, the Cover Pool is broken down below by country and by category of counterparty. Figures are presented in EUR millions of EAD (exposure at default):

2.2. Risk of geographic concentration in the Cover Pool

The vast majority of the Cover Pool (near 90%, excluding replacement assets and cash), measured by principal amount of the assets, is concentrated in France. The ability of French State and local authorities and municipal borrowers and guarantors, like other public sector borrowers, to meet their obligations will be affected by the economic factors noted above. Adverse changes in the financial, economic and fiscal conditions within France, such as the economic and financial impact of the Covid-19 crisis, may have significant consequences for the French public sector borrowers whose obligations are included in the Cover Pool, and consequently, on the credit quality of such obligations. In addition, since 2013 all of Caisse Française de Financement Local's new assets relate to French borrowers, with the exception of certain bonds purchased for cash investment purposes.

Furthermore, Caisse Française de Financement Local holds a significant amount of assets representing lending to borrowers in other countries than France and in particular in Italy. These assets are now managed in a run-off mode with the exception of certain bonds purchased for cash investment purposes. Adverse financial, economic and fiscal conditions in these economies, such as the economic and financial impact of the Covid-19 crisis, and perceived weaknesses of a country's financial situation may also have an adverse impact on the credit quality of the assets in the Cover Pool.

2.3. Risk of default of bank counterparties

Caisse Française de Financement Local is exposed to bank counterparties risk of default for transactions it enters into as part of its currency and interest rate hedging operations, of its liquidity management and excess liquidity investment.

For hedging transactions, Caisse Française de Financement Local enters into master agreements with a large number of bank counterparties and these agreements provide for asymmetrical collateralisation arrangements (with the counterparties unilaterally posting collateral to Caisse Française de Financement Local). While having hedging relationships with a large number of counterparties is designed to mitigate risk, Caisse Française de Financement Local is nonetheless exposed to the risk of default of its bank counterparties. Some of these counterparties are not required to post collateral to Caisse Française de Financement Local as long as they benefit from the highest credit

rating. If certain of these hedge counterparties, that don't have to post collateral, would default as to payment, Caisse Française de Financement Local may be likely to experience losses and reduced liquidity.

In order to maintain its liquidity position, Caisse Française de Financement Local is also allowed to hold exposures to certain bank counterparties as issuers of its replacement assets, including securities, instruments and deposits which are sufficiently safe and liquid, defined as certain high quality assets eligible for inclusion in its Cover Pool (up to 15% of the nominal amount of all of *obligations foncières* and registered covered bonds allowed by applicable legislation).

Replacement assets issued by banks expose Caisse Française de Financement Local to credit and liquidity risk from such banks (including its parent company SFIL) should their financial condition deteriorate. Thus, Caisse Française de Financement Local may experience losses in the form of reduced value of assets, due to a decrease in a bank counterparty's or issuers of replacement assets' financial position.

Exposure on financial institutions is primarily comprised of counterparties in hedging derivatives and replacement assets. As of 31 December 2020, the amount is EUR 2.6 billion.

Moreover, the financial situation of certain of these counterparties could be adversely affected by the Covid-19 crisis or by the climate change. Any such losses could adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations, and may result in Caisse Française de Financement Local having insufficient funds to meet its obligations with respect to the *Obligations Foncières*.

3 Financial risks

3.1 Credit rating of Caisse Française de Financement Local's *Obligations Foncières* may be affected by the credit rating of SFIL and the French State

Caisse Française de Financement Local is currently wholly-owned by SFIL. In the rating agencies' methodologies, the credit rating of a covered bond programme is linked to the credit rating attributed to the Issuer's parent. The rating criteria for Caisse Française de Financement Local include both the financial health of its parent, SFIL, as well as the strength of parental support.

The credit rating of SFIL is closely linked to the credit rating of the French State due to its shareholding structure. In fact, since 30 September 2020, SFIL's sole shareholder is the Caisse des Dépôts et Consignations ("**CDC**") (holding 99.99% of SFIL's share capital). The French State retained one ordinary share and continues to be present on SFIL's Board of Directors through a non-voting member, given the public interest missions entrusted to SFIL.

As of 31 December 2020, the French State has been assigned a rating of Aa2 with a stable outlook by Moody's France SAS ("**Moody's**"), AA with a stable outlook by S&P Global Ratings Europe Limited ("**S&P**") and AA (high) with a stable outlook by DBRS Ratings GmbH or any entity that is part of DBRS and any successor to the relevant rating activity ("**DBRS**"). CDC has been assigned a rating of Aa2 with a stable outlook by Moody's and AA with a stable outlook by S&P. SFIL's long term senior debt has been assigned a rating of Aa3 with a stable outlook by Moody's, AA with a stable outlook by S&P and AA (high) with a stable outlook by DBRS and CAFFIL's *Obligations Foncières* are expected to be rated Aaa by Moody's, AA+ by S&P and AAA by DBRS.

SFIL's shareholding structure is thus still fully public. Its shareholders will ensure that SFIL's financial solidity is preserved and its economic base protected and will continue to provide it with the necessary support, in accordance with the applicable regulations. CDC, SFIL's new reference shareholder, confirmed its commitment in a letter of support, completed by a letter of support from the State, in the context of SFIL's continuing status as a State-owned development bank.

This commitment, made with the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*), underlines its involvement to ensure oversight and to influence strategic decisions, as well as its determination to ensure Caisse Française de Financement Local's and SFIL's ongoing financial transactions and to comply with regulatory requirements, if so required.

Deteriorating economic conditions, such as those that could result from the Covid-19 crisis, can lead to a downgrade of the credit rating of the French State, CDC and SFIL. Decreases in the credit rating of SFIL or the French State may cause a decrease in the credit rating of Caisse Française de Financement Local's *obligations foncières*, or a requirement that Caisse Française de Financement Local obtain funding in order to achieve a higher level of overcollateralisation. A variety of factors may make obtaining such higher level of overcollateralisation impossible for Caisse Française de Financement Local in the event of a downgrade of SFIL. If the credit rating of Caisse Française de Financement Local's *obligations foncières* were reduced due to these factors, such downgrade may adversely affect the value of Caisse Française de Financement Local's outstanding *obligations foncières*, including the *Obligations Foncières*, increase Caisse Française de Financement Local's cost of borrowing and adversely affect Caisse Française de Financement Local's ability to issue new *obligations foncières*.

3.2. Liquidity risk

Liquidity risk is defined as the risk that the institution may not be able to find the necessary liquidity, on a timely basis and at a reasonable cost, to cover the financing needs related to its activity, including the redemption of its *Obligations Foncières*.

3.2.1. Risk of a liquidity shortfall that may affect the Issuer's ability to settle its debt commitments in a timely fashion

Caisse Française de Financement Local is exposed to liquidity risk arising from the gap between the date it is reimbursed, in connection with various assets it holds, and the date it is required to pay out loans or to settle its liabilities. The maturity and amortization profile of the Cover Pool does not perfectly match the repayment profile and the maturity schedule of the privileged debt.

This mismatch creates a liquidity need at certain periods of time in the future as illustrated in the following graph which presents the need/excess of liquidity resulting from the amortization of assets and liabilities (without any new asset or liability).

Liquidity needs as of 31 December 2020

The duration gap between the Cover Pool and the privileged liabilities is currently low, but may widen in the future. As a matter of management policy, Caisse Française de Financement Local has limited the maximum duration gap between the assets and the resources benefiting from the *privilège* to three (3) years. Moreover, the regulation of covered bonds in France imposes a great congruence between asset/liability maturities with an annual cover plan and with the limitation to 18 months of the gap between the weighted average life of eligible assets, considered up to their minimum amount required to satisfy a 105% overcollateralisation ratio, and the weighted average life of the privileged liabilities. This requires Caisse Française de Financement Local to have appropriate liquidity positions to cover its liability commitments as they become due to avoid any shortfall in liquidity.

As Caisse Française de Financement Local turns to the market for medium- or long-term financing, prolonged disruptions, uncertainty or volatility in the debt markets may limit its ability to access funding, particularly its ability to issue longer-dated new *obligations foncières*. In case of such adverse market conditions, as those caused by the Covid-19 crisis which has severely impacted financial markets in 2020, Caisse Française de Financement Local's ability to replace, in a timely manner, maturing liabilities may be limited. It may also be forced to delay raising longer term funding.

To maintain its liquidity in case of market disruptions that prevent Caisse Française de Financement Local from issuing new *obligations foncières*, Caisse Française de Financement Local relies on non-privileged debt provided by its parent, SFIL, and, if needed, on secured financings it can borrow from the *Banque de France* or from a bank counterparty (through a repo transactions), by using some assets from the Cover Pool (including those considered as replacement assets), a significant part of which is eligible as collateral for such liquidity operations. However, any gap between receipt of funds and funding of its commitments may lead to Caisse Française de Financement Local not settling its debt commitments on time. If Caisse Française de Financement Local's ability to access funds from its parent, SFIL, is diminished, and if it no longer maintains sufficient assets eligible for refinancing with the *Banque de France*, a liquidity shortfall may occur that will adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations and may result in Caisse Française de Financement Local having insufficient funds to meet its obligations with respect to the *Obligations Foncières*.

As of 31 December 2020, the Liquidity Coverage Ratio reaches to 176%.

3.2.2. Dependence on SFIL for the unsecured funding of its over-collateral

SFIL is the main provider of unsecured funding to Caisse Française de Financement Local, which finances the over-collateral, i.e. assets of Caisse Française de Financement Local that are not financed by the issuance of *Obligations Foncières*.

Caisse Française de Financement Local's overcollateralization is financed by equity contributions, by a current account agreement granted to it by SFIL and mainly through a long-term revolving credit facility extended to it by SFIL that put in place the support received from SFIL and its reference shareholder. As of 31 December 2020, the funds borrowed from SFIL are EUR 6.6 billion. The long-term credit facility agreement or the current account agreement from SFIL may not continue to be in force for the term of the *Obligations Foncières*. To the extent that this facility is discontinued, the amount of over-collateralization of the Cover Pool could be reduced, which could adversely affect the ability of Caisse Française de Financement Local to make payments on the *Obligations Foncières* as they become due, the rating assigned to the *Obligations Foncières*, and consequently the market value of Caisse Française de Financement Local's existing *obligations foncières*, including the *Obligations Foncières*.

3.3. Risks linked to financial conditions offered for export credit refinancing loans

In its business of refinancing large export credit, Caisse Française de Financement Local grants loans to its parent company SFIL, to refinance its export credits. These refinancing loans benefit from an unconditional and irrevocable 100% guarantee provided by the French State.

The particular features of these loans lead Caisse Française de Financement Local to give a commitment on financial conditions several months before the signing of the loan contract. The financial conditions at the time of the offer might no longer be in line with the refinancing and hedging conditions of Caisse Française de Financement Local at the time and after the signing date of the contract. As of 31 December 2020, the financing commitments of Caisse Française de Financement Local for such contracts (amounts remaining to be paid to the counterparty) amounted to EUR 4.7 billion. Changes in market conditions could therefore adversely affect its results of operations, financial condition and business prospects and its ability to perform its obligations under the *Obligations Foncières*.

In order to reduce its currency and spread risks, Caisse Française de Financement Local may enter into hedging operations or may prefinance, in full or in part, the future drawdown of the credit as soon as a firm offer for a credit refinancing has been delivered. In some cases, the credit may not be signed or may be delayed and related hedging operations may have to be cancelled with a material cost, and prefunding may be allocated to other assets with a potentially lower margin, which could adversely affect Caisse Française de Financement Local's results of

operations, financial condition and business prospects and its ability to perform its obligations under the *Obligations Foncières*.

Moreover, certain loans to refinance large export credits denominated in USD may cause a limited risk of foreign exchange during their drawing phase; this risk could be more material in case of credit restructuring. For these loans, foreign exchange risks exist and adverse evolution on this market could have an adverse effect on the financial situation, operations and cash flows of Caisse Française de Financement Local.

3.4. Caisse Française de Financement Local may be exposed to risks linked to its hedging operations

After hedging, residuals positions remain and are monitored by narrow limits. Nevertheless, Caisse Française de Financement Local is exposed to a residual interest rate risk as a result of unanticipated changes in the Cover Pool due to, for example, the default, pre-payment or renegotiation of loans. The level of this exposure may increase in the future with new commercial loans entering the Cover Pool. These unanticipated changes in the Cover Pool, or in interest rate curve may adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations. The limits in place allow a maximum loss of EUR 80 billion (*i.e.* 6% of share equity).

Market risk is limited to the market risk of a trading portfolio. Caisse Française de Financement Local does not carry out trading operations and is therefore not subject to market risk in the regulatory sense of the term. Moreover, all swaps are carried out for hedging purposes. Nonetheless, for loans hedged using derivatives and becoming non-performing, the corresponding derivatives become subject to market risk in the regulatory sense of the term if the accounting hedge relationship is broken. In addition, the positions or activities of the banking book, which are monitored in terms of non-regulatory market risks, pose a risk resulting from exposure to the volatility of market parameters. There also are other non regulatory market risks such as changes in accounting value based on derivatives. This risk has to be assessed considering that global debt markets have experienced historic levels of volatility and the outlook is uncertain. Besides, some derivatives are not recorded in a hedging relationship. That result from derivatives that hedge the foreign exchange risk related to export credit refinancing loans denominated in a currency other than the euro, and that are concluded before the end of the drawing phase of the hedged loans. Hedging of currency risk relating to monetary assets or liabilities cannot be documented, in accordance with IAS 39, before they are recorded in the entity's balance sheet.

Therefore, these market risks exist and could have an adverse effect on the financial situation, operations and cash flows of Caisse Française de Financement Local. As an illustration, the impacts of hedge accounting on the IFRS net banking income of the Issuer amounted to EUR -6 million in 2020.

4 Operational and non-compliance risks

4.1. Non-compliance risk

The risk of non-compliance is the risk of a legal, administrative or disciplinary sanction, of a significant financial loss or of a denigration of reputation caused by the non-respect of procedures specific to banking and financial activities, whether they are of legislative or regulatory nature.

SFIL and Caisse Française de Financement Local strive to comply with all laws, regulations, professional standards or recommendations that apply to them. However, as compliance requirements become more stringent, Caisse Française de Financement Local is exposed to the risk of non-compliance, *i.e.* the inability to comply with them in full.

The SFIL Group's non-compliance risks are divided into two major categories: regulatory compliance risks and financial security risks:

Regulatory compliance risks						Financial security risks		
Ethics and prevention of conflicts of interest	Integrity markets	Protection of customers' interests	Fight against corruption	Protection of personal data	Tax transparency	Know your Customer (KYC)	AML/CFT	Sanctions, asset freezes and embargoes

In addition to the damage to its reputation, non-compliance would expose Caisse Française de Financement Local to various types of litigation, sanctions, fines or costs relating to failure to comply with above mentioned provisions, that may adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations. This risk is further enhanced by the increased level of supervision of financial institutions by the relevant authorities.

4.2. Operational risk

4.2.1. Risk of failure or malfunction of the operational risk management systems put in place by SFIL

SFIL, as a servicer, has put in place risk control procedures intended to identify and map operational risks at the level of Caisse Française de Financement Local. 62 key risk indicators have been defined by SFIL to control operational risk for SFIL and Caisse Française de Financement Local. Operational risk can be defined as the risk of loss due to inappropriate, or failure of, procedures, individuals or systems, or loss resulting from external events.

The main operational risks can be divided into the following categories:

- risk of internal or external fraud: from an employee or a third party, especially in case of cyber-attack;
- human resources and skills risk: the risk of skills management is a risk identified as high due to several factors:
 - an activity requiring expertise in certain fields linked to the specificity of Caisse Française de Financement Local (local public sector, balance sheet management, covered bonds, etc.) associated with the limited number of key skills in certain teams of SFIL due to their reduced size,
 - a company present on the banking job market but with a lack of notoriety on this market in the first years of its existence due to its youth and fact,
 - complex recruitments accentuated in certain areas by a tension on certain skills (in particular on internal models, on balance sheet management or on financial security),
 - structuring development projects both in the extension of the activity, in the regulatory evolution but also in the recasting of the informatics service which required the integration of external skills, parties at the end of the project and whose the expertise then had to be internalized, in a context of managing overhead costs under control.

The consequences of this risk are mainly operational in nature through errors, malfunctions and delays in the performance of activities. This risk is regularly monitored via controls and indicators (such as the turnover rate or the percentage of people with experience of more than 1 year in certain teams);

- risks relating to information systems which include risks relating to the planning of systems development, risk of design, development, maintenance and security of applications, and risks related to the use of applications and softwares;
- risks relating to the conduct of operations (in particular, risks relating to the EU local authority and municipal lending market): information reliability, compliance with procedures, reliability of deliverables, human errors and inadequate monitoring of activities;
- risks relating to operational organisation: this risk relates to the inadequacy of the strategy and organisation of SFIL, the inefficiency of defined processes or inappropriate definition of interfaces;
- risks relating to compensation delays in relation to insurance policies, including insurance on export credit;

- security risks: this risk relates to the continuity and resumption of activities (including the establishment of a business continuity plan), goods and individuals;
- commercial and partnership risks: risks regarding the default of a partner, the sharing of responsibilities, commissioning, products distribution, knowledge of clients' needs and ethics;
- risks relating to professional conduct: the risk of a failure to comply with professional conduct when dealing with clients and the reputational risk linked to this failure to comply. In particular, this could be linked to a failure to comply with the laws governing EU local authority and municipal lending or a failure by Caisse Française de Financement Local to comply with the legislation applicable in France to covered bonds (*obligations foncières*) or a failure to comply with export credit regulations;
- risks relating to failure of anti-money laundering policies; and
- model risk: risk relating to decisions based on internal model results due to errors in their development implementation or use.

The occurrence of any such above mentioned operational risks may affect negatively Caisse Française de Financement Local's business, profits and financial situation.

4.2.2. Risks relating to dependence on SFIL for its operations

As a result of its status as a *société de crédit foncier*, Caisse Française de Financement Local is not permitted to have its own employees and is therefore dependent on the resources dedicated to it by its parent company, SFIL, for the day-to-day operation of its business and, in particular, the servicing of its asset portfolio. SFIL, in accordance with the terms of the management agreement entered into with Caisse Française de Financement Local (which also covers loan origination, servicing and recovery, administrative and accounting management, internal control and compliance, information technology services, human resources, compensation for services and current account services), monitors and controls risks relating to credit, counterparties, market, operations, exchange rates, interest rates, liquidity, and settlement at the level of Caisse Française de Financement Local. Accordingly, Caisse Française de Financement Local is subject to the risk of non-performance or poor performance by SFIL under this management agreement. Any such non-performance or poor performance could have an adverse impact on Caisse Française de Financement Local's ability to operate and administer its Cover Pool, which could in turn have a material adverse impact on Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

If Caisse Française de Financement Local were to terminate the management agreement or otherwise if SFIL fails to provide such services, a new servicer would have to be appointed. The transfer of the servicing function to a new servicer may result in delays, increased costs and/or losses in collections under the assets in the Cover Pool, could create operational and administrative difficulties for Caisse Française de Financement Local and could adversely affect its results of operations, financial condition and business prospects and its ability to perform its obligations under the *Obligations Foncières*.

5 Business activity risks

5.1. Caisse Française de Financement Local may face a decrease in its activity and its margins in the local authority and municipal lending market or in the refinancing of export credit

Caisse Française de Financement Local may face increasing competition in the local government lending market or in the refinancing of export credit from which Caisse Française de Financement Local sources its Cover Pool. In France, where it will source its new assets, competition may increase from French universal banks. Within the context of Covid-19 crisis, Caisse Française de Financement Local continued its two missions of financing the local public sector and refinancing large export credits. As an illustration, in 2020, SFIL and La Banque Postale partnership consolidated their leadership position with EUR 5.6 billion loans production (source: *Observatoire Finance Active*, March 2021). The activity related to export refinancing was slowed down by the health situation in 2020. In the short term, the Covid-19 crisis has led to a general slowdown in the pace of credit export contract

negotiations in 2020. Only one file was signed in 2020 for EUR 0.2 billion in the renewable energy sector in Europe. However, in 2020, the public financing system entrusted to SFIL and to Caisse Française de Financement Local was in great demand for projects in the preliminary study phase, with an increase of 40% compared to 2019.

Even if competitive pressure seems to have lowered in 2019 and 2020, certain of Caisse Française de Financement Local's, SFIL's and La Banque Postale's competitors may be larger and better capitalized than Caisse Française de Financement Local, or benefit from other funding sources at a different cost than market funding used by the SFIL group. Consequently, Caisse Française de Financement Local may face pricing pressure in certain areas of its operations in the future as competitors seek to increase market share by reducing prices, or offering new services at low prices. The municipal market competition could intensify, which may result in narrower lending spreads. This could make it more difficult for Caisse Française de Financement Local to purchase or originate new eligible loans and credit exposures with a sufficient margin to be refinanced by *obligations foncières*. Existing or increased competition in the French municipal banking sector or in the refinancing of export credit may lead to a reduction of margins for new commitments and ultimately to a strong reduction of new assets lending for Caisse Française de Financement Local, or otherwise materially affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

The amounts of loans to the local authorities and municipalities bought from La Banque Postale or the export credit market guaranteed by the French State may not remain at their current level, particularly in the uncertain environment that will prevail in the context of exiting the Covid-19 crisis.

5.2. Risk relating to the public policy missions with which Caisse Française de Financement Local has been entrusted by the French State and risk that the authorisation to operate or the agreements with the assets providers may not be extended

SFIL and Caisse Française de Financement Local have been entrusted by the French State, with the two following public policy missions:

- in 2013, to fund the needs of the French local public sector and public hospitals. La Banque Postale, which will retain a central role in the system, decided to renew its partnership early with SFIL until end 2026 for the commercialization of medium- and long term loans to local authorities and public hospitals;
- in 2015, to refinance large French export contracts, with the objective to support French exports in terms of financial competitiveness. In this context, loans granted by Caisse Française de Financement Local to SFIL benefit from an irrevocable and unconditional 100% guarantee by the French State. The European Commission's authorization for the export credit refinancing activity carried out by Bpifrance Assurance Export on behalf of the State was renewed on 7 May 2020 based on the maintained diagnosis of a market failure for export credit refinancing and the appropriate and necessary nature of the intervention of a public development bank, such as SFIL, to remedy it. The duration of this authorization was extended to 7 years (instead of 5 years for the first), expiring in 2027. In addition to this, on 9 March 2018, the French government announced its plan to create a new guarantee analogous to export credit insurance, which will cover the financing of large projects deemed strategic for France's economy. The financing of these projects will benefit from a French State guarantee with no precondition of underlying exports. After obtaining the necessary authorisations, SFIL will be able to participate in the scheme and be refinanced by Caisse Française de Financement Local using the enhanced guarantee mechanism (irrevocable and unconditional 100% guarantee by the French State). Since 2015, SFIL's market share of this activity has remained above 40% (source: <https://www.txfnews.com/>).

If one of these two public policy missions of Caisse Française de Financement Local were to be modified by the French State, it could lead to a strong reduction of new assets and of the Cover Pool's over-collateralisation. And more generally it could materially affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

Moreover, changes in regulation could lower advantage for collateral providers of using Caisse Française de Financement Local as a refinancing tool. More generally, the authorisation to operate or the agreements with the assets providers may not be renewed. In such a case, this could make it more difficult for Caisse Française de

Financement Local to purchase or originate new eligible loans and credit exposures and lead to a strong reduction of new assets, or otherwise adversely affect Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

6 Société de crédit foncier specific risk

6.1 Risks linked to compliance with the coverage ratio required of it under French law

The coverage ratio of Caisse Française de Financement Local, or the ratio between the Cover Pool assets and the debt benefiting from the *privilège* issued by Caisse Française de Financement Local, may be subject to fluctuation in the future. Fluctuation may be driven by factors such as the purchase or origination of assets at a different pace than issuances of *obligations foncières*, the use of certain assets as collateral for liquidity operations with the Banque de France and to obtain financing from credit institution in the form of repurchase agreement, or the changes in the requirements of the rating agencies. French law requires that the total amount of assets of *sociétés de crédit foncier* must be at least equal to 105% of the amount of liabilities benefiting from the *privilège*. Credit rating agencies may request higher coverage ratios in order to maintain the current ratings assigned to Caisse Française de Financement Local's *obligations foncières*. On 31 December 2020, the coverage ratio was equal to 114.2%.

As the Cover Pool is limited to credits to or guaranteed by public sector entities, including various local governments and municipalities, the coverage ratio may decline in the event of a decrease in the value of those interests, such as in the case of significant defaults in payment. The coverage ratio is monitored by the Specific Controller (the "*Contrôleur Spécifique*") to confirm compliance with French law upon each issuance of *obligations foncières*. If a material amount of assets in the Cover Pool were to default, Caisse Française de Financement Local may not be able to purchase new assets as a substitute for the defaulting assets and thus to maintain the required level of assets within the Cover Pool. Non-compliance with the required coverage ratio would lead the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*) to ask the management of Caisse Française de Financement Local to remedy the situation, and ultimately could lead to the institution of substitute management by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*), or a loss of Caisse Française de Financement Local's status as a *société de crédit foncier*. Failure to maintain the required coverage ratio could also result in Caisse Française de Financement Local being unable to issue further *Obligations Foncières* or refinance existing *Obligations Foncières*, adversely affecting its business, financial condition, cash flows and results of operations.

6.2 Compliance of the assets in the Cover Pool with the eligibility criteria

For all French loans contained in Caisse Française de Financement Local's Cover Pool, the eligibility is verified through a daily control carried out by SFIL. Nevertheless, assets in the Cover Pool at the time of acquisition or at any given time may not comply with the applicable eligibility criteria. As an illustration, the Cover Pool comprises bonds issued by banks eligible as replacement assets if only their rating is above a certain threshold. In case of rating downgrade, these bonds would lose their eligibility. In addition, loans to certain clients could be automatically transferred to other entities that are not eligible, in case of reorganisation of public services. Were there to be material non-compliance as to a large enough portion of Caisse Française de Financement Local's Cover Pool assets, Caisse Française de Financement Local would be required to sell its non-compliant assets, leading to losses and, in certain circumstances, to a reduction in the coverage ratio, and it may be unable to issue further *Obligations Foncières* or meet payment obligations on existing *Obligations Foncières*, adversely affecting Caisse Française de Financement Local's business, financial condition, cash flows and results of operations.

In its business of refinancing large export credit, Caisse Française de Financement Local grants loans to its parent company SFIL, to refinance its export credit. These refinancing loans benefit from a 100% guarantee of the French State which entitles such loans to be eligible to the Cover Pool. Should a refinancing loan lose the benefit of the guarantee, it could become not eligible to the Cover Pool, and Caisse Française de Financement Local would either notify SFIL a mandatory redemption of the loan or reclassify the asset as a replacement asset within the regulatory limit and subject to a sufficient rating of SFIL. In certain circumstances, SFIL may not be able to redeem the loan or the reclassification may not be possible; in such cases, Caisse Française de Financement Local would not be

compliant with regulation and this could deteriorate its reputation or lead to an interdiction of issuing new *obligations foncières*.

II. RISKS RELATING TO THE *OBLIGATIONS FONCIÈRES*

1 Risk relating to the nature of the Programme and the parties involved in its functioning

1.1. The Issuer has sole liability under the *Obligations Foncières*

The Issuer has traditionally benefitted from the financial support of its parent company, including arrangements designed to ensure its continued liquidity and viability, including large amounts of equity, long-term loan financing and further liquidity through a current account agreement. None of the various arrangements, including the "declaration of support" from SFIL, constitutes a guarantee of the Issuer's obligations to its creditors. The Issuer is solely responsible for its obligations to its creditors, is the only entity with the obligation to pay principal and interest in respect of the *Obligations Foncières* and cannot legally rely on any other entity to this end. The *Obligations Foncières* are not guaranteed by SFIL or any other person.

As of 31 December 2020, the Cover Pool comprised EUR 49.7 billion in loans, EUR 7.0 billion in securities and the cash surplus placed with the *Banque de France* amounted to EUR 1.8 billion. The Cover Pool may not be sufficient to pay in full the amounts payable under the *Obligations Foncières*, especially for *Obligations Foncières* with the longest maturities.

Should the Issuer default from its obligations under the *Obligations Foncières*, holders of *Obligations Foncières* will have no other external remedies than to request such payment from the Issuer. As a consequence, the situation of the holders of *Obligations Foncières* may be adversely and materially affected and holders of *Obligations Foncières* could lose all of their investments in the *Obligations Foncières*.

1.2. Holders have access to a limited description of the Cover Pool

Save as provided in the Issuer's annual or semi-annual reports, quarterly activity reports, quarterly reports on assets quality or quarterly Harmonised Transparency Template of the Covered Bond Label, holders will not receive more detailed statistics or information in relation to the loans or other assets contained or to be contained in the Issuer's Cover Pool. Although the *Contrôleur Spécifique* will monitor the Issuer's compliance with asset portfolio requirements and the coverage ratio under French law, the report of the *Contrôleur Spécifique* is not publicly available. Furthermore, the composition of the Cover Pool is dynamic, and is expected to change during the term of any *Obligations Foncières*, details of which may not be available to holders of the *Obligations Foncières*.

As a consequence, the credit quality of the Cover Pool may be gradually adversely affected by new assets.

As of 31 December 2020, the Cover Pool comprised EUR 49.7 billion in loans, EUR 7.0 billion in securities and the cash surplus placed with the *Banque de France* amounted to EUR 1.8 billion. In addition, the average life of the Cover Pool was 7.05 years.

1.3. Holders of *Obligations Foncières* issued under the Programme may not declare the *Obligations Foncières* immediately due and payable under any circumstances, including a default in the payment by the Issuer of any interest or principal due in respect of the *Obligations Foncières*

Obligations Foncières issued under the Programme may not be declared immediately due and payable under any circumstances, including a default in the payment by the Issuer of any principal or interest due in respect of the *Obligations Foncières*. Certain events that are customarily considered events of default under debt instruments giving rise to a right on the part of the registered holder to declare such debt instrument immediately due and payable, such as the Issuer filing for bankruptcy, cross-defaults or insolvency proceedings, will not give rise to the right on the part of the holders of *Obligations Foncières* issued under the Programme to declare the *Obligations Foncières* immediately due and payable. Pursuant to the terms of

the French *Code monétaire et financier*, all cash flows generated by the Issuer's assets and by derivatives transactions together with deposits made by the Issuer with other credit institutions, that in each case are eligible assets within the meaning of Articles L.513-3 to L.513-10 of the French *Code monétaire et financier*, are allocated as a matter of absolute priority to servicing *Obligations Foncières* or other privileged liabilities of the Issuer as they fall due.

As a consequence, for the holders of *Obligations Foncières* with the longest maturity the situation may be adversely and materially affected and they could lose all of their investments in the *Obligations Foncières*.

2 Risks relating to the structure of a particular issue of *Obligations Foncières* under the Programme

2.1. Interest rate risks relating to the *Obligations Foncières*

2.1.1. Fixed Rate *Obligations Foncières*

Condition 5(b) of the Terms and Conditions of the *Obligations Foncières* allows for the issuance of *Obligations Foncières* that pay a fixed rate of interest to holders of *Obligations Foncières*. Investment in *Obligations Foncières* which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of *Obligations Foncières*.

While the nominal interest rate of a Fixed Rate *Obligation Foncière* is determined for the term of such *Obligation Foncière* or for a given period of time, the market interest rate typically varies on a daily basis. As the market interest rate changes, the price of the Fixed Rate *Obligation Foncière* varies in the opposite direction. If the market interest rate increases, the price of the Fixed Rate *Obligation Foncière* typically decreases, until the yield of such Fixed Rate *Obligation Foncière* equals approximately the market interest rate. If the market interest rate decreases, the price of the Fixed Rate *Obligation Foncière* typically increases, until the yield of such Fixed Rate *Obligation Foncière* equals approximately the market interest rate.

Movements of the market interest rate can adversely affect the price of the Fixed Rate *Obligation Foncière* and can lead to losses if they sell *Obligations Foncières* during the period in which the market interest rate exceeds the fixed rate of such *Obligation Foncière*. It is difficult to anticipate future market volatility in interest rates, but any such volatility may have a significant adverse effect on the price of the *Obligations Foncières* and cause holders of *Obligations Foncières* who sell *Obligations Foncières* on the secondary market to lose part of their initial investment.

2.1.2. Floating Rate *Obligations Foncières*

Condition 5(c) of the Terms and Conditions of the *Obligations Foncières* allows for the issuance of *Obligations Foncières* that pay a floating rate of interest to holders of *Obligations Foncières*. Investment in *Obligations Foncières* which bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the *Obligations Foncières* but there will be a periodic adjustment (as specified in the Final Terms) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate *Obligations Foncières* may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these *Obligations Foncières* upon the next periodic adjustment of the relevant reference rate.

A key difference between Floating Rate *Obligations Foncières* and Fixed Rate *Obligations Foncières* is that interest income on Floating Rate *Obligations Foncières* cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate *Obligations Foncières* at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the Terms and Conditions of the *Obligations Foncières* provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In

addition, the Issuer's ability to also issue Fixed Rate *Obligations Foncières* may affect the market value and the secondary market (if any) of the Floating Rate *Obligations Foncières* (and *vice versa*).

2.1.3. Fixed/Floating Rate *Obligations Foncières* and Fixed Rate/Formula *Obligations Foncières*

Condition 5(d) of the Terms and Conditions of the *Obligations Foncières* and Condition 5(e) of the Terms and Conditions of the *Obligations Foncières* respectively allow the issue of Fixed/Floating Rate *Obligations Foncières* and, in respect of *Obligations Foncières* having a denomination of at least EUR100,000, Fixed Rate/Formula *Obligations Foncières* which bear interest at a rate that converts either automatically or at the option of the Issuer from (i) a fixed rate to a floating rate, or a floating rate to a fixed rate or (ii) a fixed rate to a rate of interest linked to a formula, or a rate of interest linked to a formula to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market, the yield on, and the market value of, such *Obligations Foncières* as the change of interest basis may result in a lower interest return for holders of *Obligations Foncières*. Where the *Obligations Foncières* convert from a fixed rate to a floating rate or a rate of interest linked to a formula, the spread on the Fixed/Floating Rate *Obligations Foncières* may be less favourable than then prevailing spreads on comparable Floating Rate *Obligations Foncières* tied to the same reference rate or a rate of interest linked to a formula. In addition, the new floating rate at any time may be lower than the rates on other *Obligations Foncières*. Where the *Obligations Foncières* convert from a floating rate or a rate of interest linked to a formula to a fixed rate, the fixed rate may be lower than then prevailing rates on those *Obligations Foncières* and could affect the market value of an investment in the relevant *Obligations Foncières*. Therefore, investors could receive a lower return on the *Obligations Foncières* and, as a result, lose all or part of their investment in the *Obligations Foncières*. Where conversion is at the option of the Issuer, the Issuer may not exercise such option.

2.1.4. Inflation Linked *Obligations Foncières*

Condition 5(c) of the Terms and Conditions of the *Obligations Foncières* allows for the issuance of *Obligations Foncières* with principal or interest determined by reference to the rate of inflation in France or in the European Monetary Union ("**Inflation Linked *Obligations Foncières***"). Inflation Linked *Obligations Foncières* are securities which do not provide for predetermined redemption amounts and/or interest payments but amounts due in respect of principal and/or interest will be dependent upon the performance of one or more inflation indices, which themselves may contain substantial credit, interest rate, foreign exchange, time value, political and/or other risks and will be one of (i) the consumer price index (excluding tobacco) for all households in France or the relevant substitute index, as calculated and published monthly by the Institut National de la Statistique et des Etudes Economiques ("**INSEE**"), or (ii) the harmonised index of consumer prices (excluding tobacco), or the relevant substitute index, measuring the rate of inflation in the European Monetary Union as calculated and published monthly by Eurostat (each an "**Inflation Index**" and together, the "**Inflation Indices**"). If the value of the relevant index calculated at any time prior to the maturity date is lower than the value of the relevant index at the time of the issue of the *Obligations Foncières* or at the time of purchase by the holders of *Obligations Foncières*, then the amount of interest payable by the Issuer and/or the principal of Inflation Linked *Obligations Foncières* may vary. Holders of such *Obligations Foncières* may receive no interest.

Each holder of *Obligations Foncières* linked to an Inflation Index may receive a Final Redemption Amount in respect of any Inflation Linked *Obligations Foncières*, which will be determined on the basis of a formulae and by reference to an IIR (as defined in Condition 6(c) of the Terms and Conditions of the *Obligations Foncières*) ratio. If the calculated Final Redemption Amount is below par, the *Obligations Foncières* will be redeemed at par. An investment in Inflation Linked *Obligations Foncières* therefore entails significant risks which include, among other things, the possibility that:

- such inflation indices may be subject to significant changes, whether due to the composition of any such inflation index itself, or because of fluctuations in value of the inflation indices;

- the resulting interest rate will be less (or may be more) than that payable on a conventional debt security issued by the Issuer at the same time; and
- it may not be possible for investors to hedge their exposure to these various risks relating to Inflation Linked *Obligations Foncières*.

In addition, the value of Inflation Linked *Obligations Foncières* on the secondary market is subject to greater levels of risk than the value of other *Obligations Foncières* and the market price of such *Obligations Foncières* may be very volatile. The secondary market, if any, for Inflation Linked *Obligations Foncières* will be affected by a number of factors, independent of the creditworthiness of the Issuer and the value of the applicable inflation index, including the volatility of the applicable inflation index, the time remaining to the maturity of such *Obligations Foncières*, the amount outstanding of such *Obligations Foncières* and market interest rates. The value of the applicable inflation index depends on a number of interrelated factors, including economic, financial and political events, over which the Issuer has no control.

Holders of Inflation Linked *Obligations Foncières* are exposed to the risk that changes in the levels of the Inflation Indices may adversely affect the value of such *Obligations Foncières* and, as a result, investors could lose part of their investment.

2.1.5. Formulas relating to *Obligations Foncières*

Condition 5(c) of the Terms and Conditions of the *Obligations Foncières* allows for the issuance of *Obligations Foncières* having a denomination of at least EUR100,000 with interest determined by reference to the Index Formula, the Underlying Formula, the CPI Formula or the HICP Formula (together, the "**Formulas**"), where interest amounts are dependent upon a formula.

Obligations Foncières linked to Formulas can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features, and such volatility may have a significant adverse effect on the market value of the *Obligations Foncières*.

Holders of *Obligations Foncières* linked to Formulas are exposed to the risk that changes in the levels of the underlyings and/or indices of the Formulas may adversely affect the value of such *Obligations Foncières* and, as a result, investors could lose part of their investment.

Obligations Foncières linked to Formulas are securities which do not provide for predetermined interest payments but amounts due in respect of interest that will be dependent upon the performance of one or more underlyings and/or indices, which themselves may contain substantial credit, interest rate, foreign exchange, time value, political and/or other risks.

An investment in *Obligations Foncières* linked to Formulas therefore entails significant risks which include, among other things, the possibility that:

- such underlyings and/or indices may be subject to significant changes, whether due to the composition of any such underlying and/or indice itself, or because of fluctuations in value of the underlyings and/or indices;
- the resulting interest rate will be less (or may be more) than that payable on a conventional debt security issued by the Issuer at the same time; and
- it may not be possible for investors to hedge their exposure to these various risks relating to *Obligations Foncières* linked to Formulas.

2.1.6. Reform and regulation of Benchmarks

Pursuant to Condition 5(c) and where the relevant Final Terms for a Series of Floating Rate *Obligations Foncières* identifies that the Rate of Interest for such Floating Rate *Obligations Foncières* will be determined by reference to interest rates and indices which are deemed to be Benchmarks (such as CMS Rate, EURIBOR, €STR, LIBOR, SARON, SOFR, SONIA, TEC 10 or any other reference rate specified in the relevant Final

Terms), such Benchmarks are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such Benchmarks to perform differently from the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences that cannot be predicted. Any such consequence could have an adverse effect on any Floating Rate *Obligations Foncières* linked to or referencing such a Benchmark.

Regulation (EU) 2016/1011 of the European Parliament and of the Council dated 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmarks Regulation**") entered into force on 30 June 2016, with the majority of its provisions applying from 1 January 2018.

The Benchmarks Regulation (i) requires benchmark administrators to be authorised or registered (or, if non-EU based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of "benchmarks" (or, if non-EU based, to be subject to equivalent requirements) and (ii) prevents certain uses by EU supervised entities of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, deemed equivalent or recognised or endorsed). In the United Kingdom, the Benchmarks Regulations as it forms part of domestic law by virtue of European Union (Withdrawal) Act 2018 provides for equivalent sets of rules.

The Benchmarks Regulation could have a material impact on any Floating Rate *Obligations Foncières* traded on a trading venue or via a "systematic internaliser" linked to or referencing a Benchmark. Notably, the methodology or other terms of the Benchmark could be changed in order to comply with the terms of the Benchmarks Regulation, and such changes could, among other things, have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level of the Benchmark. This could potentially lead to the Floating Rate *Obligations Foncières* being de-listed, adjusted or redeemed early or otherwise impacted depending on the particular Benchmark and the applicable terms of the Floating Rate *Obligations Foncières* or have other adverse effects or unforeseen consequences.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of Benchmarks or any further uncertainty in relation to the timing and manner of implementation of such changes, could increase the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the following effects on certain Benchmarks (such as CMS Rate, EURIBOR, €STR, LIBOR, SARON, SOFR, SONIA, TEC 10 or any other reference rate specified in the relevant Final Terms): (i) discourage market participants from continuing to administer or contribute to such Benchmarks, (ii) trigger changes in the rules or the methodologies used in such Benchmarks or (iii) lead to the disappearance of such Benchmarks. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have an adverse effect on the market value of and return on any Floating Rate *Obligations Foncières* linked to or referencing a Benchmark.

In particular, on 5 March 2021, the United Kingdom Financial Conduct Authority (the "**FCA**") announced the future cessation or loss of representativeness of the 35 LIBOR benchmark settings published by ICE Benchmark Administration ("**IBA**"). In particular it announced that (i) the publication of 24 LIBOR settings (as detailed in the FCA announcement) will cease immediately after 31 December 2021, (ii) the publication of the overnight and 12-month U.S. dollar LIBOR settings will cease immediately after 30 June 2023, (iii) immediately after 31 December 2021, the 1-month, 3-month and 6-month sterling LIBOR settings will no longer be representative of the underlying market and economic reality that they are intended to measure and representativeness will not be restored (and the FCA will consult on requiring the IBA to continue to publish the three remaining sterling LIBOR settings for a further period after end-2021 on a synthetic basis) and (iv) immediately after 30 June 2023, the 1-month, 3-month and 6-month U.S. dollar LIBOR settings will no longer be representative of the underlying market and economic reality that they are intended to measure and representativeness will not be restored (and the FCA will consider the case for using its proposed powers to require IBA to continue publishing these settings on a synthetic basis, for a further period after end June 2023 taking into account views and evidence from the US authorities and other stakeholders).

If a benchmark were discontinued or otherwise unavailable, the rate of interest on Floating Rate *Obligations Foncières* which are linked to or which reference such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Floating Rate *Obligations Foncières* (it being specified that if the Reference Rate has been discontinued or a Benchmark Event has occurred, a specific fall-back shall apply - please refer to the risk factor entitled "*The occurrence of a Benchmark Event could have a material adverse effect on the value of and return on any such Obligations Foncières linked to or referencing such Benchmarks*" below). However, such fall-back provisions may be deviated from if deemed unsuitable by the Commission or the relevant national authority, as further explained below.

Depending on the manner in which a benchmark rate is to be determined under the Terms and Conditions, this may (i) if ISDA Determination or FBF Determination applies, be reliant upon the provision by reference banks of offered quotations for the benchmark rate which, depending on market circumstances, may not be available at the relevant time or (ii) if Screen Rate Determination applies, result in the effective application of a fixed rate based on the rate which applied in the previous period when the benchmark was available. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any *Obligations Foncières* linked to or referencing a Benchmark.

Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 has amended the existing provisions of the Benchmarks Regulation by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2021.

The Benchmarks Regulation was further amended by Regulation (EU) 2021/168 of the European Parliament and of the Council of 10 February 2021 which introduces a harmonised approach to deal with the cessation or wind-down of certain Benchmarks (such as EURIBOR or LIBOR) by conferring the power to designate a statutory replacement for said Benchmarks on the Commission or the relevant national authority, such replacement being limited to contracts and financial instruments (such as certain *Obligations Foncières* issued under the Programme) which contain no fallback provision or no suitable fallback provisions before the date of cessation of the Benchmark concerned. For instance, if pursuant to a fallback provision included in the Condition 5(c)(iii) of the Terms and Conditions of the *Obligations Foncières* a Benchmark is replaced by a Benchmark which no longer reflects or which significantly diverges from the underlying market or the economic reality that the Benchmark in cessation is intended to measure, a statutory replacement of such Benchmark may be designated. This replacement could have a negative impact on the value or liquidity of, and return on, certain *Obligations Foncières* issued under the Programme linked to or referencing such Benchmark and may not operate as intended at the relevant time or may perform differently from the discontinued or otherwise unavailable Benchmark.

In addition, Regulation (EU) 2021/168 is subject to further development through delegated regulations, the transitional provisions applicable to third-country Benchmarks are extended until the end of 2023 and the Commission is empowered to further extend this period until the end of 2025, if necessary. Such developments may create uncertainty regarding any future legislative or regulatory requirements arising from the implementation of delegated regulations.

2.1.7. Risks relating to *Obligations Foncières* which are linked to €STR, SARON, SOFR and SONIA

The market continues to develop in relation to adoption of risk-free rates (including overnight rates) as reference rates for Floating Rate *Obligations Foncières*. These new overnight risk-free rates are still however in very early stages of development and they may not be widely adopted by market users.

The Final Terms for a Series of Floating Rate *Obligations Foncières* may provide that the Rate of Interest for such *Obligations Foncières* will be determined by reference to such overnight risk-free rates such as the Euro short term rate ("**€STR**"), the Swiss Average Rate Overnight ("**the SARON**"), the Secured Overnight Financing Rate ("**SOFR**") or the Sterling Overnight Index Average ("**SONIA**").

The market or a significant part thereof may adopt an application of €STR, SARON, SOFR and SONIA that differs significantly from that set out in the Terms and Conditions of the *Obligations Foncières* and used in

relation to Floating Rate *Obligations Foncières* issued under this Base Prospectus that reference €STR, SARON, SOFR or SONIA.

The nascent development of these overnight risk-free rates as interest reference rates for the Eurobond markets, as well as continued development of such rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Floating Rate *Obligations Foncières*. The return on and value of €STR-, SARON-, SOFR- or SONIA-linked *Obligations Foncières* may fluctuate more than *Obligations Foncières* that are linked to less volatile rates. Since overnight risk-free rates are relatively new market indexes, the *Obligations Foncières* will likely have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Investors in the *Obligations Foncières* may not be able to sell the *Obligations Foncières* at all or may not be able to sell the *Obligations Foncières* at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

Interest on Floating Rate *Obligations Foncières* that reference €STR, SARON, SOFR or SONIA is only capable of being determined at the end of the relevant Interest Accrual Period and shortly prior to the relevant Interest Payment Date. It may be difficult for investors in Floating Rate *Obligations Foncières* that reference €STR, SARON, SOFR or SONIA to reliably estimate the amount of interest that will be payable on such Floating Rate *Obligations Foncières*.

The mismatch between the adoption of such reference rates across these markets may impact negatively any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Floating Rate *Obligations Foncières* referencing €STR, SARON, SOFR or SONIA.

2.1.8. The discontinuance of a reference rate or occurrence of a Benchmark Event could have a material adverse effect on the value of and return on any such *Obligations Foncières* linked to or referencing such Benchmarks

Where FBF Determination, ISDA Determination or Screen Rate Determination are specified as the manner in which the Rate of Interest in respect of Floating Rate *Obligations Foncières* is to be determined and the reference rate has been discontinued or a Benchmark Event (only applicable for Screen Rate Determination, as further described in Condition 5(c)(iii)(D) of the Terms and Conditions of the *Obligations Foncières*) has occurred, the Rate of Interest on the affected Floating Rate *Obligations Foncières* will be changed in ways that may be adverse to holders of such Floating Rate *Obligations Foncières*, without any requirement to obtain the consent of such holders.

Pursuant to the Terms and Conditions of any Floating Rate *Obligations Foncières* for which Screen Rate Determination is specified, such fallback arrangements include the possibility that the Rate of Interest could be set by reference to a Successor Rate or an Alternative Rate (both as defined in Condition 5(c)(iii)(D) of the Terms and Conditions of the *Obligations Foncières*), and may include concomitant changes to the Terms and Conditions of the *Obligations Foncières* necessary to make the Alternative Rate or the Successor Rate (as defined in Condition 5(c)(iii)(D) of the Terms and Conditions of the *Obligations Foncières*) as comparable as possible to the previous Reference Rate, all as determined by the Independent Adviser and without the consent of the holder of *Obligations Foncières*.

In certain circumstances, including where no Successor Rate or Alternative Rate (as applicable) is determined or due to the uncertainty concerning the availability of Successor Rates or Alternative Rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time and the Alternative Rate or Successor Rate may perform differently from the discontinued or otherwise unavailable Benchmark.

If the Independent Adviser is unable to determine an appropriate Alternative Rate or Successor Rate for any Reference Rate on or prior to the next following relevant Floating Rate Determination Date, then the provisions for the determination of the Rate of Interest on the affected Floating Rate *Obligations Foncières*

will not be changed. In such cases, the Terms and Conditions of the *Obligations Foncières* provide that the Rate of Interest on such Floating Rate *Obligations Foncières* shall be the Rate of Interest determined on the previous relevant Floating Rate Determination Date, as determined by the Calculation Agent (*i.e.* which may result in the effective application of a fixed rate). In such circumstances and a rising interest rate environment, holders of *Obligations Foncières* will, consequently, not benefit from any increase in rates. The trading value and return of such Floating Rate *Obligations Foncières* could therefore be adversely and materially affected.

Moreover, any of the above matters or any other significant change to the setting or existence of any relevant rate could affect the ability of the Issuer to meet its obligations under the Floating Rate *Obligations Foncières* or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate *Obligations Foncières*. Investors should note that, the Independent Adviser will have discretion to adjust the relevant Successor Rate or Alternative Rate (as applicable) in the circumstances described above. Any such adjustment could have unexpected commercial consequences and, due to the particular circumstances of each holder of *Obligations Foncières*, any such adjustment may not be favourable to each holder of *Obligations Foncières*.

2.1.9. Zero Coupon *Obligations Foncières*

Condition 5(f) of the Terms and Conditions of the *Obligations Foncières* allows for the issuance of *Obligations Foncières* that pay no interest to holders of *Obligations Foncières*. Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon *Obligations Foncières* than on the prices of ordinary *Obligations Foncières* because the discounted issue prices of Zero Coupon *Obligations Foncières* are generally substantially below their par value. If market interest rates increase, holders of Zero Coupon *Obligations Foncières* are exposed to greater price declines than holders of other securities with comparable maturity and credit rating. Zero Coupon *Obligations Foncières* are a type of investment associated with a particularly high risk of price fluctuation. Due to their leverage effect, Zero Coupon *Obligations Foncières* are a type of investment associated with a particularly high price risk and holders of *Obligations Foncières* may, as a result, lose all or part of their investment in the *Obligations Foncières*.

2.1.10. *Obligations Foncières* issued at a substantial discount or premium

The relevant Final Terms of a Tranche of *Obligations Foncières* will specify the relevant issue price. The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. It is difficult to anticipate future market volatility in interest rates, but any such volatility may have an adverse effect on the value of the *Obligations Foncières*. Therefore, holders of *Obligations Foncières* issued at a substantial discount or premium could be exposed to greater losses on their investment than holders of conventional interest-bearing securities.

2.2. Risk relating to the redemption at the option of the Issuer of the *Obligations Foncières*

Any optional redemption feature of *Obligations Foncières* (as provided in Condition 6(b) (Redemption at the Option of the Issuer and Partial Redemption), Condition 6(d) (Early Redemption), Condition 6(e) (No Redemption for Taxation Reasons) and Condition 6(i) (Illegality) of the Terms and Conditions of the *Obligations Foncières*) is likely to limit their market value. During a period when the Issuer may elect, or has elected, to redeem *Obligations Foncières*, such *Obligations Foncières* may feature a market value not substantially above the price at which they can be redeemed. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the *Obligations Foncières* and may only be able to do so at a lower rate.

If the Issuer decides to redeem the *Obligations Foncières* in part only, such partial redemption shall be effected by reducing the nominal amount of all such *Obligations Foncières* in proportion to the aggregate nominal amount redeemed. Depending on the proportion of the principal amount of all of the *Obligations*

Foncières so reduced, any trading market in respect of those *Obligations Foncières* in respect of which such option is not exercised may become illiquid.

2.3. Risk relating to the rating of the *Obligations Foncières*

Obligations Foncières issued under the Programme are expected to be rated AA+ by S&P and/or Aaa by Moody's and/or AAA by DBRS. The credit rating of the *Obligations Foncières* will be specified in the relevant Final Terms. Any such ratings may not continue for any period of time or may be reviewed, revised, suspended or withdrawn entirely by any of the rating agencies, such as S&P, Moody's, DBRS or their respective successors and/or by any other rating agency, without notice as a result of changes in or unavailability of information or if, in the judgment of the rating agencies, circumstances so warrant. A qualification, downgrade or withdrawal of any of the ratings mentioned above may adversely and materially affect both the value of the *Obligations Foncières* or their marketability in secondary market transactions and adversely affect the Issuer's ability to issue new *Obligations Foncières*.

The rating reflects the relative likelihood that the *Obligations Foncières* are repaid as per their Terms and Conditions as judged by one or more independent credit rating agencies. In addition, an investment in the *Obligations Foncières* involves (i) the risk that subsequent changes in the actual or perceived creditworthiness of the Issuer may adversely affect the market value of the relevant *Obligations Foncières* and (ii) taking credit risk on the Issuer because if the financial situation of the Issuer deteriorates, it may not be able to fulfil all or part of its payment obligations under the *Obligations Foncières*, and investors may lose all or part of their investment.

Please also refer to the risk factor 3.1 entitled "Credit rating of Caisse Française de Financement Local's *Obligations Foncières* may be affected by the credit rating of SFIL and the French State" above.

2.4. Risks relating to Green *Obligations Foncières* and to Social *Obligations Foncières*

The Final Terms relating to any specific Tranche of *Obligations Foncières* may provide that it will be the Issuer's intention to apply (i) an amount equal to the net proceeds of the issue of those *Obligations Foncières* into Eligible Green Loans as defined in the green bond framework (the "**SFIL Group Green Bond Framework**") (such *Obligations Foncières* being "**Green Obligations Foncières**") or (ii) an amount equal to the net proceeds of the issue of those *Obligations Foncières* into Eligible Health Loan Portfolio as defined in the social note framework (the "**SFIL Group Social Note Framework**") (such *Obligations Foncières* being "**Social Obligations Foncières**"), such SFIL Group Green Bond Framework and SFIL Group Social Note Framework being published on the website of the Issuer (<https://caissefrancaisedefinancementlocal.fr/en/investor/covered-bonds-issuance/>), as specified in the relevant Final Terms.

Regulation (EU) No 2020/852 of the European Parliament and of the Council dated 18 June 2020 on the establishment of a framework to facilitate sustainable investment, as amended (the "**Taxonomy Regulation**") has been adopted, establishing a single EU-wide classification system, or "taxonomy", which provides companies and investors with a common language for determining which economic activities can be considered environmentally sustainable (the "**EU Taxonomy**"). The EU Taxonomy is subject to further development through delegated regulations. The European Commission (i) launched on 12 June 2020 a public consultation on the creation of an EU Green Bond Standard and (ii) adopted on 21 April 2021 the first delegated act on sustainable activities for climate change adaptation and mitigation objectives under the Taxonomy Regulation (a second delegated act for the remaining objectives will be published in 2022). In light of the continuing development of legal, regulatory and market conventions in the green, sustainable and social market, there is a risk that the use of proceeds of any Green *Obligations Foncières* or Social *Obligations Foncières* will not satisfy, whether in whole or in part, any future legislative or regulatory requirements, or any present or future investor expectations or requirements with respect to investment criteria or guidelines with which any investor or its investments are required to comply under its own by-laws or other governing rules or investment portfolio mandates.

While it is the intention of the Issuer to apply the proceeds of any Green *Obligations Foncières* or Social *Obligations Foncières*, as the case may be, so specified for the relevant loan, in, or substantially in, the manner described in the relevant Final Terms, the relevant loan or use(s) the subject of, or related to, any loan, may not be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and accordingly such proceeds may not be totally or partially disbursed for such loan. Such loan may not be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by the Issuer. In addition, SFIL Group may change the SFIL Group Green Bond Framework and/or the SFIL Group Social Note Framework at any time, in particular, in order to adapt to any update that may be made to the ICMA's Green Bond Principles on which the SFIL Group Green Bond Framework is based and/or the ICMA's Social Bond Principles on which the SFIL Group Social Note Framework is based. Such changes may have a negative impact on the market value and the liquidity of any Green *Obligations Foncières* or Social *Obligations Foncières* issued prior to their implementation. Any such event or failure by the Issuer will not constitute an Event of Default under the Green *Obligations Foncières* or the Social *Obligations Foncières*, as the case may be.

Any failure to use the net proceeds from such Green *Obligations Foncières* or Social *Obligations Foncières*, as the case may be, with any loan or to meet or continue to meet the investment requirements of certain environmentally or socially focused investors with respect to such Green *Obligations Foncières* or Social *Obligations Foncières*, as the case may be, may affect the value of such Green *Obligations Foncières* or Social *Obligations Foncières*, as the case may be, and/or may have consequences for certain investors with portfolio mandates to invest in green and/or social assets and consequently, holders of Green *Obligations Foncières* or Social *Obligations Foncières*, as the case may be, could lose all or part of their investment in the Green *Obligations Foncières* or Social *Obligations Foncières*, as the case may be.

3 Risks relating to all Series of *Obligations Foncières*

3.1. Credit Risk

As contemplated in Condition 3 of the Terms and Conditions of the *Obligations Foncières*, the *Obligations Foncières* are direct, unconditional and, pursuant to the provisions of Condition 4 of the Terms and Conditions of the *Obligations Foncières*, privileged obligations of the Issuer and rank, and will rank *pari passu* and without any preference among themselves and equally and rateably with all other present or future *obligations foncières* of the Issuer (including the *Obligations Foncières* of all other Series) and other resources raised by the Issuer benefiting from the *privilège* referred to in Article L.513-11 of the French *Code monétaire et financier*.

However, an investment in the *Obligations Foncières* involves taking credit risk on the Issuer. If the financial situation of the Issuer deteriorates, it may not be able to fulfil all or part of its payment obligations under the *Obligations Foncières*, and investors may lose all or part of their investment.

3.2. French insolvency laws

The Issuer having its registered office in France, French insolvency laws apply to the Issuer. Under French insolvency law, holders of debt securities are automatically grouped into a single assembly of holders (the "**Assembly**") if a safeguard procedure (*procédure de sauvegarde*), an accelerated safeguard procedure (*procédure de sauvegarde accélérée*), an accelerated financial safeguard procedure (*procédure de sauvegarde financière accélérée*), a judicial reorganisation procedure (*procédure de redressement judiciaire*) or an accelerated preservation procedure (*procédure de sauvegarde accélérée*) is opened in France with respect to the Issuer. The Issuer, as *société anonyme*, is subject to French legal provisions relating to insolvency proceedings, affecting creditors' rights and in particular the provisions of book VI (*Livre VI*) of the French *Code de commerce* relating to the difficulties of companies (*difficultés des entreprises*).

The Assembly deliberates on the draft safeguard plan (*projet de plan de sauvegarde*), draft accelerated safeguard plan (*projet de plan de sauvegarde accélérée*), draft accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*) or draft judicial reorganisation plan (*projet de plan de redressement*) applicable to the Issuer and may further agree to:

- increase the liabilities (*charges*) of holders of debt securities (including the holders of *Obligations Foncières*) by rescheduling payments which are due and/or partially or totally writing-off debts;
- establish an unequal treatment between holders of debt securities (including the holders of *Obligations Foncières*) as appropriate under the circumstances; and/or
- decide to convert debt securities (including the *Obligations Foncières*) into securities that give or may give the right to share capital.

As specialised credit institution (*établissement de crédit spécialisé*), the Issuer is also subject to the provisions of Article L.613-25 *et seq.* of the French *Code monétaire et financier*, which include, *inter alia*, specific rules concerning the opening of insolvency proceedings against credit institutions (*établissements de crédit*) or financing companies (*sociétés de financement*), a specific involvement of the ACPR in the event of bankruptcy of a credit institution or financing company, an overriding concept of suspension of payment (*cessation des paiements*) and other specific rules of liquidation.

However, the Issuer, as *société de crédit foncier*, benefits from a regime which derogates in many ways from the French legal provisions relating to insolvency proceedings, including:

- (i) in accordance with Article L.513-18 of the French *Code monétaire et financier*, the provisions of Article L.632-2 of the French *Code de commerce*, allowing an administrative receiver to render certain transactions entered into during the hardening period (*période suspecte*) null and void, are not applicable to contracts executed by *sociétés de crédit foncier*, or to legal transactions in favour of *sociétés de crédit foncier*, provided that those contracts or transactions are, without fraud, made in accordance with their exclusive legal purpose (as defined by Article L.513-2 of the French *Code monétaire et financier*);
- (ii) in accordance with Article L.513-20 of the French *Code monétaire et financier*, precludes the extension of insolvency proceedings in respect of the *société de crédit foncier* parent company to the *société de crédit foncier*;
- (iii) in accordance with Article L.513-21 of the French *Code monétaire et financier*, in case of the opening of any safeguard proceedings (*procédure de sauvegarde*), judicial reorganisation (*redressement judiciaire*) or judicial liquidation (*liquidation judiciaire*) against the credit institution which is acting as manager and servicer of the assets and liabilities of the Issuer (such as the cash manager), the recovery, management and servicing contract pursuant to which the Issuer has delegated to such credit institution the management or recovery of its assets may be immediately terminated by the Issuer notwithstanding any legal provisions to the contrary; and
- (iv) pursuant to Article L.513-11 of the French *Code monétaire et financier*, notwithstanding any legal provisions to the contrary and in particular the provisions of book VI (*Livre VI*) of the French *Code de commerce* relating to the difficulties of companies (*difficultés des entreprises*):
 - (a) the sums resulting from loans or assimilated receivables, exposures, titles and securities referred to in Articles L.513-3 to L.513-7 of French *Code monétaire et financier* and from the financial instruments used for hedging as referred to in Article L.513-10 of the French *Code monétaire et financier* (as the case may be, after any applicable set-off), together with the claims in respect of deposits made by a *société de crédit foncier* with credit institutions, are allocated by way of priority to the payment of any sums due in relation to the *obligations foncières*, to other resources benefiting from the *Privilège*, as mentioned in paragraph 2 of the I of Article L.513-2 of the French *Code monétaire et financier*;
 - (b) when a *société de crédit foncier* (such as the Issuer) is subject to conciliation proceedings (*procédure de conciliation*), safeguard proceedings (*procédure de sauvegarde*), judicial reorganisation (*redressement judiciaire*) or judicial liquidation (*liquidation judiciaire*) with its creditors, the amounts regularly originated from the operations referred to in the second paragraph of I of Article L.513-2 of the French *Code monétaire et financier* (i.e. resources benefiting from the *Privilège*) are paid to their respective creditors, on their respective contractual due date and by way of priority to all other receivables, whether or not preferred or secured, including interests resulting from agreements whatever their duration is. No other creditor of a *société de crédit foncier* (such as the Issuer) may avail itself of any right over the assets and rights of such *société*

de crédit foncier until creditors benefiting from the *Privilège* defined in Article L.513-11 of the French *Code monétaire et financier* have been fully paid off; and

- (c) the judicial liquidation of a *société de crédit foncier* will not result in the acceleration of payment of *Obligations Foncières* and other debts benefiting from the *Privilège*.

In the case of insolvency proceedings in respect of the Issuer, the ability of holders of *Obligations Foncières* to enforce their rights under the *Obligations Foncières* may be limited. In addition, the value of the *Obligations Foncières* would be adversely affected.

3.3. Modification and waivers

The holders of *Obligations Foncières* will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *Masse* and a General Meeting can be held or Written Decisions can be taken, each as defined in Condition 10 of the Terms and Conditions of the *Obligations Foncières*. The Terms and Conditions of the *Obligations Foncières* permit in certain cases defined majorities to bind all holders of *Obligations Foncières* including holders of *Obligations Foncières* who did not attend and vote at the relevant General Meeting or did not consent to the Written Decision or holders of *Obligations Foncières* who voted in a manner contrary to the majority. Holders of *Obligations Foncières* may through Collective Decisions (as defined in as defined in Condition 10 of the Terms and Conditions of the *Obligations Foncières*) deliberate or vote on any proposal relating to the modification of the Terms and Conditions including any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions, as more fully described in Condition 10 of the Terms and Conditions of the *Obligations Foncières*. The modification of the Terms and Conditions of the *Obligations Foncières* adopted by a majority of holders of *Obligations Foncières* may adversely and materially affect the market value of the *Obligations Foncières* and these holders of *Obligations Foncières* may lose all or part of their investment in the *Obligations Foncières*.

3.4. Withholding taxes - No additional amounts

Pursuant to Condition 8 of the Terms and Conditions of the *Obligations Foncières*, if any law should require that any payments in respect of any *Obligation Foncière* or Coupon be subject to withholding or deduction in respect of any taxes, duties, assessments or governmental charges of whatever nature, the Issuer will not pay any additional amounts in respect of any such withholding or deduction. Therefore, the corresponding risk shall be borne by the holders of *Obligations Foncières* or, if applicable, the Couponholders.

In addition, pursuant to Condition 6(e) of the Terms and Conditions of the *Obligations Foncières*, if French law should require that payments of principal, interest or other revenues in respect of any *Obligation Foncière* or Coupon be subject to withholding or deduction in respect of any present or future taxes, duties, assessments or governmental charges of whatever nature, such *Obligation Foncière* will not, unless otherwise specified in the relevant Final Terms, be redeemed early. If such early redemption is provided in the relevant Final Terms, the Issuer may redeem such *Obligation Foncière*.

Such risk could adversely and materially affect the investment in the *Obligations Foncières*.

3.5. Bank Recovery and Resolution Directive

Directive 2014/59/EU of the European Parliament and of the Council of the European Union dated 15 May 2014 establishing an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the "**Bank Recovery and Resolution Directive**" or "**BRRD**"), entered into force on 2 July 2014, and Regulation (EU) No. 806/2014 of the European Parliament and of the Council dated 15 July 2014 as amended by Regulation (EU) 2019/877 of the European Parliament and of the Council dated 20 May 2019 (the "**SRM Regulation**") provide for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms. The regime provided for by the BRRD is, among other things, stated to be needed to provide the authority designated by each EU member state (the "**Resolution Authority**") with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so

as to ensure the continuity of the institution's critical financial and economic functions, while minimizing the impact of an institution's failure on the economy and financial system (including taxpayers' exposure to losses). Under the SRM Regulation a centralized power of resolution is established and entrusted to the Single Resolution Board (the "**SRB**") and to the national resolution authorities.

Since 1st January 2016, French credit institutions (such as the Issuer) have to meet, at all times, a minimum requirement for own funds and eligible liabilities ("**MREL**") pursuant to Article L.613-44 of the French *Code monétaire et financier*. The BRRD has been amended by Directive (EU) 2019/879 of the European Parliament and of the Council dated 20 May 2019 and has been implemented under French law by French ordinance n° 2020-1636 (*ordonnance relative au régime de résolution dans le secteur bancaire*) dated 21 December 2020.

The powers provided to the Resolution Authority in the BRRD and the SRM Regulation include write-down/conversion powers to ensure that capital instruments (including subordinated debt instruments) and eligible liabilities (including senior debt instruments such as the *Obligations Foncières* if junior instruments prove insufficient to absorb all losses) absorb losses of the issuing institution under resolution in accordance with a set order of priority (the "**Bail-in Tool**"). They also include write-down/conversion powers with respect to institutions or groups which viability would otherwise be at threat or who require extraordinary financial support.

In addition to the Bail-in Tool, the BRRD provides the Resolution Authority with broader powers to implement other resolution measures with respect to institutions that meet the conditions for resolution, which may include (without limitation) the sale of the institution's business, the creation of a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), removing management, appointing an interim administrator, and discontinuing the listing and admission to trading of financial instruments.

With respect to the *obligations foncières* and other privileged notes, the BRRD provides that the Resolution Authority shall not exercise the write down or conversion powers in relation to secured liabilities including covered bonds and liabilities in the form of financial instruments used for hedging purposes which form an integral part of the cover pool and which according to national law are secured in a way similar to covered bonds, whether they are governed by the law of a member state or of a third country. Nevertheless, relevant claims for the purposes of the Bail-in Tool would still include the claims of the holders in respect of any *Obligations Foncières* issued under the Programme, only if and to the extent that the notes liability exceeded the value of the cover pool collateral against which it is secured. In such case, the write-down or conversion requirements could result in the full (i.e., to zero) or partial write-down or conversion into ordinary shares or other instruments of ownership of the notes, or the variation of the terms of notes (for example, the maturity and/or interest payable may be altered and/or a temporary suspension of payments may be ordered). Pursuant to Articles L.513-12 and R.513-8 of the French *Code monétaire et financier*, *sociétés de crédit foncier* must, at all times, maintain a ratio of at least one hundred and five per cent (105%) between its eligible assets (including substitution assets (*valeurs de remplacement*)) and the total amount of its liabilities benefiting from the *Privilège*, as calculated pursuant to Articles 6 to 11 of the regulation no. 99-10 of the Committee of banking and financial regulation, as amended from time to time (the *Comité de la réglementation bancaire et financière*). On 31 December 2020, the coverage ratio was equal to 114.2%.

The holders of *Obligations Foncières* have very limited rights to contest and/or ask for the suspension of the exercise of the relevant competent authorities' resolution powers.

The application of any resolution measure under the French BRRD implementing provisions, or any suggestion of such application, with respect to the Issuer could adversely affect the rights of the holders of *Obligations Foncières*, the price or value of an investment in the *Obligations Foncières* and/or the ability of the Issuer to satisfy its obligations under the *Obligations Foncières*. As a result, holders of *Obligations Foncières* could lose all or part of their investment in the *Obligations Foncières*.

3.6. Change of law or regulations

The Terms and Conditions of the *Obligations Foncières* are based on French law in effect as at the date of this Base Prospectus. Any possible judicial decision or change in French law or the official application or interpretation of French law after the date of this Base Prospectus could be unfavourable to creditors' rights, including those of the holder of *Obligations Foncières*.

Any *Obligations Foncières* issued or to be issued may be affected by any new regulation produced by any European or French supervisory, such as the recently adopted EU directive on covered bonds. Any possible decision or change in European or French regulations or interpretation of such regulations could be unfavourable to creditors' rights, including those of the holders of *Obligations Foncières*.

If any change in law or regulations was unfavourable to the Issuer or the holders of *Obligations Foncières*, it could have an adverse effect on the market value of the *Obligations Foncières* (depending on the nature of the change) and could have potentially negative repercussions on the holders of *Obligations Foncières* investment in the *Obligations Foncières*.

4 Risks relating to the market

4.1. An active trading market for *Obligations Foncières* issued under the Programme may never develop

The *Obligations Foncières* may have no established trading market when issued and an active trading market for the *Obligations Foncières* issued under the Programme may not develop (even where the *Obligations Foncières* are listed), or, if one does develop, it may not be maintained or may not be liquid. If an active trading market for the *Obligations Foncières* does not develop, or is not maintained, the market or trading price and liquidity of the *Obligations Foncières* may be adversely affected.

Therefore, holders of *Obligations Foncières* may not be able to sell their *Obligations Foncières* easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. These types of *Obligations Foncières* generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a material adverse impact on the market value of *Obligations Foncières* and, as a result, holders of *Obligations Foncières* could lose part of their investment in the *Obligations Foncières*.

Although application has been made for the *Obligations Foncières* issued under the Programme to be admitted to trading on Euronext Paris and/or, subject to the notification of a certificate of approval to any relevant competent authority as may be requested by the Issuer, on any other regulated market of the European Economic Area, such application may not be accepted, any particular Tranche of *Obligations Foncières* may not be admitted to trading or an active trading market may not develop.

In addition, the Issuer is entitled to buy the *Obligations Foncières* and it may issue further *Obligations Foncières*. Such transactions by the Issuer may adversely affect the price development of *Obligations Foncières* issued under the Programme. If additional and competing products are introduced in the markets, this may adversely affect the value of the *Obligations Foncières* issued under the Programme.

4.2. Market value of the *Obligations Foncières*

The Programme allows for *Obligations Foncières* to be admitted to trading on Euronext Paris and/or, subject to the notification of a certificate of approval to any relevant competent authority as may be requested by the Issuer, on any other regulated market of the European Economic Area.

The market value of the *Obligations Foncières* will be affected by the creditworthiness of the Issuer and/or the rating of the *Obligations Foncières* and a number of additional factors, including but not limited to, the volatility of market interest and yield rates and the time remaining to the maturity date. The value of the *Obligations Foncières* depends on a number of additional factors, including economic, financial and political events in France, Europe or elsewhere, including factors affecting capital markets generally and the stock

exchanges on which the *Obligations Foncières* are traded, which may cause market volatility. Such volatility may adversely affect the price of *Obligations Foncières* or economic and market conditions may have any other adverse effect. The price at which holders of *Obligations Foncières* will be able to sell the *Obligations Foncières* prior to maturity may be at a discount, which could be substantial and adverse, from the issue price or the purchase price paid by such purchaser and result in losing all or part of their investment in the *Obligations Foncières*.

4.3. Exchange rate risks and exchange controls

The Programme allows for *Obligations Foncières* to be issued in a range of currencies (each, a "**Specified Currency**" as defined in Condition 5(a) of the Terms and Conditions of the *Obligations Foncières*). The Issuer will pay principal and interest on the *Obligations Foncières* issued under the Programme in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency equivalent yield on the *Obligations Foncières*, (ii) the Investor's Currency-equivalent value of the principal payable on the *Obligations Foncières*, and (iii) the Investor's Currency-equivalent market value of the *Obligations Foncières*. In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely and materially affect applicable exchange rates. As a result, investors may receive an amount of interest or principal that is less than expected, or no interest or principal. This may adversely and materially affect the holders of *Obligations Foncières* who could lose part of their investment in the *Obligations Foncières*.

4.4. Potential conflicts of interest

Potential conflicts of interest may arise between the various parties (including the Issuer, the Arranger, the Dealers and their respective affiliates) operating under the Programme and the investor.

The Arranger, certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer in the ordinary course of business. The Arranger, certain of the Dealers and their affiliates may have positions, deal or make markets in the *Obligations Foncières*, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. In such cases, the interest of any of those parties or their affiliates or the interest of other parties for whom they perform servicing functions may differ from, and compete with, the interest of the Issuer or the holders of *Obligations Foncières*.

In addition, in the ordinary course of their business activities, the Arranger, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and may enter into hedging strategies on behalf of the Issuer or investor clients, or as principal, in order to manage their exposure, their general risk or other trading activities. Such activity may affect future trading prices. Such investments and securities activities may involve securities and/or instruments of the Issuer. The Arranger, certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Arranger, Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the *Obligations Foncières*. Any such short positions could adversely affect future trading prices of *Obligations Foncières*. The Arranger, the Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect

of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments, which could be deemed to be adverse to the interests of the holders of *Obligations Foncières*.

In addition, potential conflicts may arise between the holders of *Obligations Foncières* and the calculation agent (including where the Arranger or a Dealer acts as a calculation agent) or any agent appointed for a Tranche of *Obligations Foncières*, including with respect to certain discretionary determinations and judgments that such agent may make pursuant to the Terms and Conditions of the *Obligations Foncières* that may influence the amount receivable upon redemption of the *Obligations Foncières*. In particular, whilst a calculation agent will, as the case may be, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by holders of *Obligations Foncières* during the term and on the maturity of the *Obligations Foncières* or the market price, liquidity or value of the *Obligations Foncières* and which could be deemed to be adverse to the interests of the holders of *Obligations Foncières*.

CONDITIONS ATTACHED TO THE CONSENT OF THE ISSUER TO USE THE PROSPECTUS

This Base Prospectus has been prepared on a basis that permits offers that are not made within an exemption from the requirement to publish a prospectus under article 1(4) of the Regulation (EU) 2017/1129 of the European Parliament and of the Council dated 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, as amended (the "**Prospectus Regulation**") (a "**Non-Exempt Offer**") in France and in the Grand Duchy of Luxembourg (a "**Non-Exempt Offer Jurisdiction**").

The consent referred to above relates to Offer Periods (if any and as defined below) beginning within twelve (12) months from the date of the approval of the Base Prospectus by the AMF.

In the context of a Non-Exempt Offer, in relation to any person (an "**Investor**") to whom an offer of any *Obligations Foncières* is made, the Issuer may, if so specified in the relevant Final Terms, consent to the use of the Base Prospectus together with any supplement with respect thereto that may be published from time to time and the relevant Final Terms (together, the "**Prospectus**") in connection with a Non-Exempt Offer of any *Obligations Foncières* during the offer period specified in the relevant Final Terms (the "**Offer Period**") and in the Non-Exempt Offer Jurisdiction(s) specified in the relevant Final Terms by:

- (1) any financial intermediary authorised to make such offers pursuant to Directive 2014/65/EU of the European Parliament and of the Council dated 15 May 2014 on markets in financial instruments, as amended, as designated and subject to conditions set out in the relevant Final Terms; or
- (2) if so specified in the relevant Final Terms, any financial intermediary which satisfies the following conditions: (a) acts in accordance with all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the "**Rules**"), from time to time including, without limitation and in each case, Rules relating to both the appropriateness or suitability of any investment in the *Obligations Foncières* by any person and disclosure to any potential investor; (b) complies with the restrictions set out under section entitled "*Subscription and Sale*" which would apply as if it were a Dealer; (c) considers the relevant manufacturer's target market assessment and distribution channels identified under the "MiFID II Product Governance" legend set out in the relevant Final Terms; (d) ensures that any fee (and any commissions or benefits of any kind) received or paid by that financial intermediary in relation to the offer or sale of the *Obligations Foncières* is fully and clearly disclosed to investors or potential investors; (e) holds all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the *Obligations Foncières* under the Rules; (f) retains investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the relevant Dealer(s) and the Issuer or directly to the appropriate authorities with jurisdiction over the Issuer and/or the relevant Dealer(s) in order to enable the Issuer and/or the relevant Dealer(s) to comply with anti-money laundering, anti-bribery and "know your client" rules applying to the Issuer and/or the relevant Dealer(s); (g) does not, directly or indirectly, cause the Issuer or the relevant Dealer(s) to breach any Rule or any requirement to obtain or make any filing, authorisation or consent in any jurisdiction; and (h) satisfies any further conditions specified in the relevant Final Terms,

(in each case an "**Authorised Offeror**"). For the avoidance of doubt, none of the Dealers or the Issuer shall have any obligation to ensure that an Authorised Offeror complies with applicable laws and regulations and shall therefore have no liability in this respect.

The Issuer accepts responsibility, in the Non-Exempt Offer Jurisdiction(s) specified in the Final Terms, for the content of the Prospectus in relation to any Investor in such Non-Exempt Offer Jurisdiction(s) to whom an offer of any *Obligations Foncières* is made by any Authorised Offeror and where the offer is made during the period for which that consent is given. However, neither the Issuer nor any Dealer has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

The consent referred to above relates to Offer Periods (if any) occurring in the periods beginning and ending on the dates specified for such purpose in the relevant Final Terms relating to such Non-Exempt Offers and provided that the relevant Final Terms have been duly published and specify that Non-Exempt Offers may be made in Non-Exempt Offer Jurisdictions, all in accordance with the Prospectus Regulation.

In the event the Final Terms designate financial intermediary(ies) to whom the Issuer has given its consent to use the Prospectus during an Offer Period, the Issuer may also give consent to additional Authorised Offerors after the date of the relevant Final Terms and, if it does so, it will publish any new information in relation to such Authorised Offerors who are unknown at the time of the approval of this Base Prospectus or the filing of the relevant Final Terms at <http://www.caffil.fr>.

If the Final Terms specify that any financial intermediary may use the Prospectus during the Offer Period, any such Authorised Offeror is required, for the duration of the Offer Period, to publish on its website that it is using the Prospectus for the relevant Non-Exempt Offer with the consent of the Issuer and in accordance with the conditions attached thereto.

Other than as set out above, neither the Issuer nor any of the Dealers has authorised the making of any Non-Exempt Offer by any person in any circumstances and such person is not permitted to use the Prospectus in connection with its offer of any *Obligations Foncières*. Any such offers are not made on behalf of the Issuer or by any of the Dealers or Authorised Offerors and none of the Issuer or any of the Dealers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers.

An Investor intending to acquire or acquiring any *Obligations Foncières* from an Authorised Offeror will do so, and offers and sales of the *Obligations Foncières* to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price allocations and settlement arrangements (the "Terms and Conditions of the Non-Exempt Offer"). The Issuer will not be a party to any such arrangements with Investors (other than Dealers) in connection with the offer or sale of the *Obligations Foncières* and, accordingly, the Base Prospectus and any Final Terms will not contain such information. The Terms and Conditions of the Non-Exempt Offer shall be provided to Investors by that Authorised Offeror at the time of the Non-Exempt Offer. Neither the Issuer nor any of the Dealers or other Authorised Offerors has any responsibility or liability for such information.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time between the date on which this Base Prospectus has been approved and 10 June 2022, a significant new factor, material mistake or material inaccuracy relating to the information contained in this Base Prospectus which may affect the assessment of the *Obligations Foncières* arises or is noted, the Issuer shall prepare and make available a supplement to this Base Prospectus (each a "**Supplement**") as required by Article 23 of the Regulation (EU) 2017/1129 of the European Parliament and of the Council dated 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, as amended (the "**Prospectus Regulation**") or a restated Base Prospectus.

In accordance with and pursuant to Article 23.2 (bis) of the Prospectus Regulation, where the relevant Final Terms relate to an offer of *Obligations Foncières* to the public, investors who have already agreed to purchase or subscribe for *Obligations Foncières* before any supplement is published shall have the right, exercisable within three (3) working days after the publication of this supplement, to withdraw their acceptances provided that the new factor, material mistake or material inaccuracy referred to in Article 23.1 of the Prospectus Regulation arose or was noted before the final closing of such offer or the delivery of the *Obligations Foncières*, whichever occurs first. That period may be extended by the Issuer or, if any, the relevant Authorised Offeror(s). The final date of the right of withdrawal shall be stated in the supplement. On 10 June 2022, this Base Prospectus, as supplemented (as the case may be), will expire and the obligation to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies will no longer apply.

Any supplement to the Base Prospectus shall be (a) published on the websites of the AMF (www.amf-france.org) and the Issuer (www.caffil.fr) and (b) available for inspection and obtainable, upon request and free of charge, during usual business hours, on any weekday at the registered office of the Issuer (1-3 rue du Passeur de Boulogne, 92130 Issy-les-Moulineaux, France).

TERMS AND CONDITIONS OF THE *OBLIGATIONS FONCIÈRES*

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of the relevant Final Terms, shall be applicable to the Obligations Foncières. In the case of Dematerialised Obligations Foncières the text of the terms and conditions will not be endorsed on physical documents of title but will be constituted by the following text as completed by the relevant Final Terms. In the case of Materialised Obligations Foncières, either (i) the full text of these terms and conditions together with the relevant provisions of the Final Terms or (ii) these terms and conditions as so completed (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on Definitive Materialised Obligations Foncières.

All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Final Terms.

Unless the context requires otherwise, references below to (i) "**Conditions**" are to the numbered paragraphs below and (ii) "**Obligations Foncières**" are to the Obligations Foncières of one Series only, not to all Obligations Foncières that may be issued under the Programme.

The Obligations Foncières will be issued by Caisse Française de Financement Local (the "**Issuer**"). An amended and restated agency agreement dated 11 June 2021 has been agreed between the Issuer and Banque Internationale à Luxembourg, société anonyme as fiscal agent, paying agent, redenomination agent, consolidation agent and calculation agent and the other agents named therein (the "**Amended and Restated Agency Agreement**"). The fiscal agent, the paying agent, the redenomination agent, the consolidation agent and the calculation agent(s) for the time being (if any) are referred to below respectively as the "**Fiscal Agent**", the "**Paying Agents**" (which expression shall include the Fiscal Agent), the "**Redenomination Agent**", the "**Consolidation Agent**" and the "**Calculation Agent(s)**".

(30) days' notice in accordance with Condition 13 and on or after the date on which the European Member State in whose national currency the *Obligations Foncières* are denominated has become a participating Member State in the single currency of the European Economic and Monetary Union (as provided in the Treaty establishing the European Community, as amended from time to time (the "**Treaty**")) or events have occurred which have substantially the same effects, redenominate all, but not some only, of the *Obligations Foncières* of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) set out in the relevant Final Terms accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the "**Redenomination Date**".

- (ii) The redenomination of the *Obligations Foncières* pursuant to Condition 1(d)(i) shall be made by converting the principal amount of each *Obligation Foncière* from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to applicable regulations of the Treaty and rounding the resultant figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each *Obligation Foncière* using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the *Obligations Foncières* so determined shall be notified to holders of *Obligations Foncières* in accordance with Condition 13. Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euro on the Redenomination Date in the manner notified to holders of *Obligations Foncières* by the Issuer.
 - (iii) Upon redenomination of the *Obligations Foncières*, any reference in the relevant Final Terms to the relevant national currency shall be construed as a reference to Euro.
 - (iv) The Issuer may, with the prior approval of the Redenomination Agent and the Consolidation Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 12, without the consent of the holder of any *Obligation Foncière*, Coupon or Talon, make any changes or additions to these Conditions or Condition 12 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of such holders. Any such changes or additions shall, in the absence of manifest error, be binding on the holders of *Obligations Foncières*, Coupons and Talons and shall be notified to holders of *Obligations Foncières* in accordance with Condition 13 as soon as practicable thereafter.
 - (v) Neither the Issuer nor any Paying Agent shall be liable to the holder of any *Obligation Foncière*, Coupon or Talon or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euros or any currency conversion or rounding effected in connection therewith.
- (e) **Method of Issue:** The *Obligations Foncières* may be distributed on a syndicated or non-syndicated basis. The *Obligations Foncières* will be issued in series (each a "**Series**") having one or more issue date(s).

Each Series of *Obligations Foncières* may be issued in tranches (each a "**Tranche**") on the same or different issue dates and on terms identical to the terms of other Tranches of the same Series, save in respect of the issue date, issue price, first payment of interest and aggregate nominal amount of the Tranche. The specific terms of each Tranche of *Obligations Foncières* will be determined by the Issuer and the relevant Dealer(s) at the time of the issue and will be set out in the Final Terms of such Tranche.

For the purposes of this sub-paragraph (A), "FBF Rate" for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Transaction under the terms of an agreement incorporating the FBF Definitions and under which:

- a) the Floating Rate is as specified in the relevant Final Terms; and
- b) the relevant Floating Rate Determination Date (*Date de Détermination du Taux Variable*) is the first day of that Interest Accrual Period unless otherwise specified in the relevant Final Terms.

For the purposes of this sub-paragraph (A), "Floating Rate" (*Taux Variable*), "Floating Rate Determination Date" (*Date de Détermination du Taux Variable*) and "Transaction" (*Transaction*) have the meanings given to those terms in the FBF Definitions, provided that "Euribor" means the rate calculated for deposits in Euro

which appears on Reuters Page EURIBOR01, as more fully described in the relevant Final Terms.

In the relevant Final Terms, when the paragraph "Floating Rate" (*Taux Variable*) specifies that the rate is determined by linear interpolation, in respect of an Interest Accrual Period, the Rate of Interest for such Interest Accrual Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate, one of which shall be determined as if the maturity for which rates are available were the period of time of next shorter length as compared to the length of the relevant Interest Accrual Period, and the other of which shall be determined as if the maturity were the period of time of next longer length as compared to the length of the relevant Interest Accrual Period.

(B) ISDA Determination for Floating Rate *Obligations Foncières*

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the relevant Final Terms) the Margin (if any). For the purposes of this sub-paragraph (B), "ISDA Rate" for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Final Terms;
- (b) the Designated Maturity is a period specified in the relevant Final Terms; and
- (c) the relevant Reset Date is the first day of that Interest Accrual Period or such other date as specified in the relevant Final Terms.

For the purposes of this sub-paragraph (B), "Floating Rate", "Floating Rate Option", "Designated Maturity", "Reset Date" and "Swap Transaction" have the meanings given to those terms in the ISDA Definitions.

In the relevant Final Terms, when the paragraph Floating Rate Option specifies that the rate is determined by linear interpolation, in respect of an Interest Accrual Period, the Rate of Interest for such Interest Accrual Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Floating Rate Option, one of which shall be determined as if the Designated Maturity for which rates are available were the period of time of next shorter length as compared to the length of the relevant Interest Accrual Period, and the other of which shall be determined as if the Designated Maturity were the period of time of next longer length as compared to the length of the relevant Interest Accrual Period.

(C) Screen Rate Determination for Floating Rate *Obligations Foncières*

- (a) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of Floating Rate *Obligations Foncières* is specified as being EURIBOR or LIBOR, the Rate of Interest for each Interest Accrual Period will, subject as provided below or to Condition 5(c)(iii)(D) (*Benchmark discontinuation*) below, be either:

- (i) the offered quotation; or

- (ii) the arithmetic mean of the offered quotations, (expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR), on the Interest Determination Date in question plus or minus (as indicated in the relevant Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five (5) or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.
- (b) if the Relevant Screen Page is not available or if sub-paragraph (C)(a)(i) applies and no such offered quotation appears on the Relevant Screen Page, or, if sub-paragraph (C)(a)(ii) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Calculation Agent shall request, (i) if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks, (ii) if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) or, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time), on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Accrual Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent;
- (c) if paragraph (b) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time) if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time), on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market, or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), or if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time), on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market, or, if the Reference Rate is EURIBOR, the Euro zone inter-bank market, provided that, if the Rate of

Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date relating to such Rate of Interest calculation (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period);

- (d) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate *Obligations Foncières* is specified as being €STR, the Rate of Interest for each Interest Accrual Period plus or minus (as indicated in the applicable Final Terms) the Margin (if any) will, subject as provided below or (if applicable) to Condition 5(c)(iii)(D) (*Benchmark discontinuation*) below, be the rate of return of a daily compound interest investment (with the daily euro short-term rate as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent on the Interest Determination Date as follows, and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{€STR}_{i-p} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

If the €STR is not published, as specified above, on any particular TARGET Business Day and both an €STR Index Cessation Event and an €STR Index Cessation Effective Date (as defined below) have occurred, the rate of €STR for each TARGET Business Day in the relevant €STR Observation Period occurring on or after such €STR Index Cessation Effective Date will be determined as if references to €STR were references to the ECB Recommended Rate (as defined below).

If no ECB Recommended Rate has been recommended before the end of the first TARGET Business Day following the date on which the €STR Index Cessation Event occurs, then the rate of €STR for each TARGET Business Day in the relevant €STR Observation Period occurring on or after the €STR Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR (as defined below).

If an ECB Recommended Rate has been recommended and both an ECB Recommended Rate Index Cessation Event (as defined below) and an ECB Recommended Rate Index Cessation Effective Date (as defined below) subsequently occur, then the rate of €STR for each TARGET Business Day in the relevant €STR Observation Period occurring on or after that ECB Recommended Rate Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the Rate of Interest shall be determined as if the rate of €STR for each TARGET Business Day in the €STR Observation Period on or after such €STR Index Cessation Effective Date were references to the latest published €STR or, if ECB Recommended Rate is published on a later date than the latest published €STR, the ECB Recommended Rate or, if EDFR is published on a later date than the latest published ECB Recommended Rate, the Modified EDFR (but applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Accrual Period).

- (2) in the case of the occurrence of a SARON Index Cessation Event described in subparagraph (ii)(x) of the definition thereof, the latest of:
(i) the date of such statement or publication or (ii) the date, if any, specified in such statement or publication as the date on which the SARON will no longer be representative; or

has replaced the SARON as the reference rate for purposes of determining the applicable rate of interest thereon;

"SARON Recommended Replacement Rate" means the rate that has been recommended as the replacement for the SARON by any working group or committee in Switzerland organized in the same or a similar manner as the National Working Group on Swiss Franc Reference Rates that was founded in 2013 for purposes of, among other things, considering proposals to reform reference interest rates in Switzerland (any such working group or committee, the **"SARON Recommending Body"**);

- (f) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate *Obligations Foncières* is specified as being SOFR, the Rate of Interest for each Interest Accrual Period plus or minus (as indicated in the applicable Final Terms) the Margin (if any) will, subject as provided below or (if applicable) to Condition 5(c)(iii)(D) (*Benchmark discontinuation*) below, be calculated by the Calculation Agent on the SOFR Interest Determination Date as follows, with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, 0.00005 being rounded upwards:
- (1) if SOFR Arithmetic Mean is specified as applicable in the relevant Final Terms, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be the arithmetic mean of the SOFR rates for each day during such Interest Accrual Period; or
 - (2) if SOFR Lockout Compound is specified as applicable in the relevant Final Terms, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be USD-SOFR-LOCKOUT-COMPOUND; or

"USD-SOFR-LOOKBACK-COMPOUND" means the rate of return of a daily compound interest investment (with the SOFR as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent on the U.S. Government Securities Business Day following each SOFR Interest Determination Date, as follows:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{SOFR}_{i-\text{pUSGSBD}} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

If the Calculation Agent or another entity appointed by the Issuer determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the *Obligations Foncières* in respect of all determinations on such date and for all determinations on all subsequent dates.

In connection with the implementation of a Benchmark Replacement, the Calculation Agent or another entity appointed by the Issuer will have the right to make Benchmark Replacement Conforming Changes from time to time.

If the provisions of this Condition 5(c)(iii)(C)(f) fail to provide a means of determining the Rate of Interest, Condition 5(c)(iii)(D) (*Benchmark discontinuation*) below shall apply.

For the purpose of this Condition 5(c)(iii)(C)(f):

"**Benchmark**" means, initially, SOFR; provided that if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the SOFR or the then-current Benchmark, then "Benchmark" means the applicable Benchmark Replacement;

- (3) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Calculation Agent or another entity appointed by the Issuer giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate *obligations foncières* at such time;

"Benchmark Replacement Conforming Changes" means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Calculation Agent or another entity appointed by the Issuer decide may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Calculation Agent or another entity appointed by the Issuer decide that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent or another entity appointed by the Issuer determine that no market practice for use of the Benchmark Replacement exists, in such other manner as the Calculation Agent or another entity appointed by the Issuer determine is reasonably necessary);

"Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (1) in the case of paragraph (1) or (2) of the definition of "Benchmark Transition Event", the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark; or
- (2) in the case of paragraph (3) of the definition of "Benchmark Transition Event", the date of the public statement or publication of information referenced therein.

- (1) a public statement or publication of information by or on behalf of the administrator of the Benchmark (or such component) announcing that such administrator has ceased or will cease to provide the Benchmark (or such component), permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component);
- (2) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark (or such component), the central bank for the currency of the Benchmark (or such component), an insolvency official with jurisdiction over the administrator for the Benchmark (or such component), a resolution authority with jurisdiction over the administrator for the Benchmark (or such component) or a court

or an entity with similar insolvency or resolution authority over the administrator for the Benchmark (or such component), which states that the administrator of the Benchmark (or such component) has ceased or will cease to provide the Benchmark (or such component) permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or

- (2) if the rate specified in (1) above does not so appear, and unless both a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, the Secured Overnight Financing Rate as published in respect of the first preceding U.S. Government Securities Business Day for which the Secured Overnight Financing Rate was published on the SOFR Administrator's Website;
- (3) if a Benchmark Transition Event and its related Benchmark Replacement Date have occurred:

Any substitution of the SOFR, as specified above, will remain effective for the remaining term to maturity of the *Obligations Foncières* and shall be published by the Issuer in accordance with Condition 13.

- (g) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate *Obligations Foncières* is specified as being SONIA, the Rate of Interest for each Interest Accrual Period plus or minus (as indicated in the applicable Final Terms) the Margin (if any) will, subject as provided below or (if applicable) to Condition 5(c)(iii)(D) (*Benchmark discontinuation*) below, be the rate of return of a daily compounded interest investment (it being understood that reference rate for the calculation of interest is the Sterling daily overnight reference rate) and will be calculated by the Calculation Agent on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_i \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

"**d**" is the number of calendar days in the relevant SONIA Observation Period;

"**d₀**" is the number of London Banking Days in the relevant SONIA Observation Period;

"**p**" means in relation to any Interest Accrual Period, the number of London Banking Days as specified in the Final Terms under SONIA Observation Look-Back Period;

"**SONIA**", in respect of any London Banking Day, is a reference rate equal to the daily Sterling Overnight Index Average (SONIA) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors, on the London Banking Day immediately following such London Banking Day; and

"**SONIA_i**", means in respect of any London Banking Day "i" falling in the relevant SONIA Observation Period, the SONIA for such London Banking Day "i".

If, in respect of that London Banking Day in the relevant SONIA Observation Period, the Calculation Agent determines that the SONIA is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA shall be: (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at close of business on the relevant London Banking Day; plus (ii) the mean of the spread of the SONIA to the Bank Rate over the previous five days on which a SONIA has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate.

Notwithstanding the paragraph above, in the event the Bank of England publishes guidance as to (i) how the SONIA is to be determined or (ii) any rate that is to replace the SONIA, the Calculation Agent shall, to the extent that it is reasonably practicable, follow such guidance in order to determine SONIA for the purpose of the *Obligations Foncières* for so long as the SONIA is not available or has not been published by the authorised distributors.

Any substitution of the SONIA, as specified above, will remain effective for the remaining term to maturity of the *Obligations Foncières* and shall be published by the Issuer in accordance with Condition 13.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent, the Rate of Interest shall be (i) that determined as at the last preceding Interest Determination Date relating to such Rate of Interest calculation (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest

Determination Date, the initial Rate of Interest which would have been applicable to such *Obligations Foncières* for the first Interest Accrual Period, had the *Obligations Foncières* been in issue for a period equal in duration to the scheduled first Interest Accrual Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Accrual Period).

If the provisions of this Condition 5(c)(iii)(C)(g) fail to provide a means of determining the Rate of Interest, Condition 5(c)(iii)(D) (*Benchmark discontinuation*) below shall apply.

- (h) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate *Obligations Foncières* is specified as being CMS Rate, the Rate of Interest for each Interest Accrual Period plus or minus (as indicated in the relevant Final Terms) the Margin (if any) will, subject as provided below or to Condition 5(c)(iii)(D) (*Benchmark discontinuation*) below, be determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

If the Relevant Screen Page is not available at the Specified Time on the relevant Interest Determination Date: (i) the Calculation Agent shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Specified Time on the relevant Interest Determination Date; (ii) if at least three of the CMS Reference Banks provide the Calculation Agent with such quotations, the CMS Rate for such Interest Accrual Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest quotations and the lowest quotation (or, in the event of equality, one of the lowest quotations) and (iii) if on any Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with the then prevailing standard market practice.

For the purpose of this Condition 5(c)(iii)(C)(h):

"**CMS Rate**" shall mean the applicable swap rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as at the Specified Time on the relevant Interest Determination Date in question, all as determined by the Calculation Agent.

"**CMS Reference Banks**" means (i) where the Reference Currency is Euro, the principal office of five leading swap dealers in the inter-bank market, (ii) where the Reference Currency is Sterling, the principal London office of five leading swap dealers in the London inter-bank market, (iii) where the Reference Currency is United States dollars, the principal New York City office of five leading swap dealers in the New York City inter-bank market, or (iv) in the case of any other Reference Currency, the principal Relevant Financial Centre office of five leading swap dealers in the Relevant Financial Centre inter-bank market, in each case selected by the Calculation Agent.

"Reference Currency" means the currency specified as such in the relevant Final Terms.

"Reference Financial Centre" means, with respect to a Reference Currency, the financial centre specified as such in the relevant Final Terms.

"Designated Maturity", "Margin", "Specified Time" and "Relevant Screen Page" shall have the meaning given to those terms in the relevant Final Terms.

"Relevant Swap Rate" means:

- (i) where the Reference Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions) with a designated maturity determined by the Calculation Agent by reference to the then prevailing standard market practice or the ISDA Definitions;
- (ii) where the Reference Currency is Sterling, the mid-market semi-annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the semi-annual fixed leg, calculated on an Actual/365 (Fixed) day count basis, of a fixed-for-floating Sterling interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/365 (Fixed) day count basis, is equivalent (A) if the Designated Maturity is greater than one year, to GBP-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of six months or (B) if the Designated Maturity is one year or less, to GBP-LIBOR-BBA with a designated maturity of three months;
- (iii) where the Reference Currency is United States dollars, the mid-market semi-annual swap rate determined on the basis of the mean of the bid and offered rates for the semi-annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating United States dollar interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to USD-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of three months; and
- (iv) where the Reference Currency is any other currency or if the relevant Final Terms specify otherwise, the mid-market swap rate as determined in accordance with the relevant Final Terms.

"Representative Amount" means an amount that is representative for a single transaction in the relevant market at the relevant time, as determined by the Calculation Agent.

- (i) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate

in respect of the Floating Rate *Obligations Foncières* is specified as being TEC10, the Rate of Interest for each Interest Accrual Period plus or minus (as indicated in the applicable Final Terms) the Margin (if any) will, subject as provided below or to Condition 5(c)(iii)(D) (*Benchmark discontinuation*) below, be determined by the Calculation Agent by reference to the following formula:

TEC10 + Margin.

"TEC10" means the offered quotation (expressed as a percentage rate per annum) for the EUR-TEC10-CNO³, calculated by the *Comité de Normalisation Obligataire* ("CNO"), which appears on the Relevant Screen Page, being the caption "TEC10" on the Reuters Screen BDFCNOTEC Page or any successor page, as at 10.00 a.m. Paris time on the Interest Determination Date in question.

If, on any Interest Determination Date, TEC10 does not appear on Reuters Screen BDFCNOTEC Page or any successor page, (i) it shall be determined by the Calculation Agent on the basis of the mid-market prices for each of the two reference OAT (*Obligation Assimilable du Trésor*) which would have been used by the *Comité de Normalisation Obligataire* for the calculation of the relevant rate, quoted in each case by five *Spécialistes en Valeurs du Trésor* at approximately 10:00 a.m. Paris time on the Interest Determination Date in question; (ii) the Calculation Agent will request each *Spécialiste en Valeurs du Trésor* to provide a quotation of its price; and (iii) TEC10 will be the redemption yield of the arithmetic mean of such prices as determined by the Calculation Agent after discarding the highest and lowest of such quotations. The above-mentioned redemption yield shall be determined by the Calculation Agent in accordance with the formula that would have been used by the *Comité de Normalisation Obligataire* for the determination of the relevant rate.

For information purposes only, the EUR-TEC10-CNO, established in April 1996, is the percentage yield (rounded to the nearest second decimal point, 0.005 per cent. being rounded upwards) of a notional 10 year French Treasury Bond (Obligation Assimilable du Trésor, "OAT") corresponding to the linear interpolation between the yield to maturity of the two actual OATs (the "Reference OATs") whose periods to maturity are closest in duration to the notional 10 year OAT, one Reference OAT's duration being of less than 10 years and the other Reference OAT's duration being greater than 10 years.

In the relevant Final Terms, when the paragraph "Reference Rate" specifies that the rate is determined by linear interpolation, in respect of an Interest Accrual Period, the Rate of Interest for such Interest Accrual Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Benchmark, one of which shall be determined as if the maturity for which rates are available were the period of time of next shorter length as compared to the length of the relevant Interest Accrual Period, and the other of which shall be determined as if the maturity were the period of time of next longer length as compared to the length of the relevant Interest Accrual Period.

(D) Benchmark discontinuation

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, if (i) a Benchmark Event occurs in relation to an Original Reference Rate (other than €STR, SARON, SOFR and SONIA) at any time, or (ii) the fallback provisions relating to €STR, SARON, SOFR

³ All potential users of the EUR-TEC10-CNO must first enter into a trademark licence agreement available from the CNO.

and SONIA provided in Condition 5(c)(iii)(C)(d), Condition 5(c)(iii)(C)(e), Condition 5(c)(iii)(C)(f) and Condition 5(c)(iii)(C)(g), as applicable, fail to provide a means of determining the Original Reference Rate, when the Terms and Conditions of any *Obligations Foncières* provide for any remaining rate of interest (or any component part thereof) to be determined by reference to such Original Reference Rate, then the following provisions shall apply and prevail over the other fallback provisions set out in Condition 5(c)(iii)(C).

(a) Independent Adviser

The Issuer shall use reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with Condition 5(c)(iii)(D)(b)) and, in either case, an Adjustment Spread, if any (in accordance with Condition 5(c)(iii)(D)(c)) and any Benchmark Amendments (in accordance with Condition 5(c)(iii)(D)(d)).

An Independent Adviser appointed pursuant to this Condition 5(c)(iii)(D) shall act in good faith and in a commercially reasonable manner as an expert and (in the absence of bad faith or fraud) shall have no liability whatsoever to the Issuer, the Fiscal Agent, the Paying Agents, the Calculation Agent or any other party responsible for determining the Rate of Interest specified in the applicable Final Terms, or the holders of *Obligations Foncières* for any determination made by it pursuant to this Condition 5(c)(iii)(D).

(b) Successor Rate or Alternative Rate

If the Independent Adviser determines in good faith and in a commercially reasonable manner that:

- (1) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 5(c)(iii)(D)(d)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the *Obligations Foncières* (subject to the further operation of this Condition 5(c)(iii)(D)); or
- (2) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 5(c)(iii)(D)(d)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the *Obligations Foncières* (subject to the further operation of this Condition 5(c)(iii)(D)).

(c) Adjustment Spread

If the Independent Adviser, determines in good faith and in a commercially reasonable manner (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or a relevant component part thereof) by reference to such Successor Rate or Alternative Rate (as applicable).

(d) Benchmark Amendments

If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 5(c)(iii)(D) and the Independent Adviser determines in good faith and in a commercially reasonable manner (i) that amendments to the Terms and Conditions of the *Obligations Foncières* (including, without limitation, amendments to the definitions of Day Count Fraction, Business Days, or Relevant Screen Page) are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(c)(iii)(D)(e), without any requirement for the consent or approval of holders of *Obligations Foncières*, vary the Terms and Conditions of the *Obligations Foncières* to give effect to such Benchmark Amendments with effect from the date specified in such notice.

In connection with any such variation in accordance with this Condition 5(c)(iii)(D), the Issuer shall comply with the rules of any stock exchange on which the *Obligations Foncières* are for the time being admitted to trading.

(e) Notices, etc.

The Issuer shall, after receiving such information from the Independent Adviser, notify the Fiscal Agent, the Calculation Agent, the Paying Agents, the Representative (if any) and, in accordance with Condition 13, the holders of *Obligations Foncières*, promptly of any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5(c)(iii)(D). Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

(f) Fallbacks

If, following the occurrence of a Benchmark Event and in relation to the determination of the Rate of Interest on the immediately following Interest Determination Date, no Successor Rate or Alternative Rate (as applicable) is determined pursuant to this provision, the fallback provisions relating to the Original Reference Rate specified in Condition 5(c)(iii)(C) will continue to apply to such determination.

In such circumstances, the Issuer will be entitled (but not obliged), at any time thereafter, to elect to re-apply the provisions of this Condition 5(c)(iii)(D), *mutatis mutandis*, on one or more occasions until a Successor Rate or Alternative Rate (and, if applicable, any associated Adjustment Spread and/or Benchmark Amendments) has been determined and notified in accordance with this Condition 5(c)(iii)(D) (and, until such determination and notification (if any), the fallback provisions provided elsewhere in these Terms and Conditions including, for the avoidance of doubt, the other fallbacks specified in Condition 5(c)(iii)(C), will continue to apply in accordance with their terms.

(g) Definitions

In this Condition 5(c)(iii)(D):

"**Adjustment Spread**" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser determines and which is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) to reduce or eliminate, to the fullest extent reasonably practicable in the circumstances, any

economic prejudice or benefit (as the case may be) to holders of *Obligations Foncières* as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (1) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body;
- (2) in the case of an Alternative Rate (or in the case of a Successor Rate where (1) above does not apply), is in customary market usage in the international debt capital market for transactions which reference the Original Reference Rate, where such rate has been replaced by the Alternative Rate (or, as the case may be, the Successor Rate); or
- (3) if no such recommendation or option has been made (or made available), or the Independent Adviser determines there is no such spread, formula or methodology in customary market usage, the Independent Adviser, acting in good faith, determines to be appropriate;

"Alternative Rate" means an alternative benchmark or screen rate which the Independent Adviser determines in accordance with this Condition 5(c)(iii)(D) and which is customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for a commensurate interest period and in the same Specified Currency as the *Obligations Foncières*;

"Benchmark Event" means, with respect to an Original Reference Rate:

- (1) the Original Reference Rate ceasing to exist or be published;

- (iv) Rate of Interest for Inflation Linked *Obligations Foncières*:

- (A) Consumer Price Index (CPI)

Where the consumer price index (excluding tobacco) for all households in France, as calculated and published by the *Institut National de la Statistique et des Etudes Economiques* (the "INSEE") ("CPI") is specified as the Index in the relevant Final Terms, this Condition 5(c)(iv)(A) shall apply. Terms defined herein shall have the meanings set out below only when this Condition 5(c)(iv)(A) shall apply.

The Rate of Interest in respect of Inflation Linked *Obligations Foncières* indexed to the CPI (the "**CPI Linked Interest**") applicable from time to time for each Interest Accrual Period (as specified in the relevant Final Terms) will be equal to the fixed rate per annum specified in the relevant Final Terms multiplied by the Inflation Index Ratio (as defined below).

The CPI Linked Interest will be determined by the Calculation Agent on the following basis:

- (a) On the fifth Business Day before each Interest Payment Date (an "**Interest Determination Date**") the Calculation Agent will calculate the Inflation Index Ratio.

For the purpose of this Condition 5(c)(iv)(A), the "**Inflation Index Ratio**" or "**IIR**" is the ratio between (i) the CPI Daily Inflation Reference Index (as defined below) applicable on any Interest Payment Date, as the case may be and (ii) the base reference defined as the CPI Daily Inflation Reference Index (as defined below) applicable on the date specified in the relevant Final Terms (the "**Base Reference**"). Notwithstanding Condition 5(g)(iii), the IIR will be rounded if necessary to six significant figures (with halves being rounded up).

"**CPI Daily Inflation Reference Index**" means (i) in relation to the first day of any given calendar month, the CPI Monthly Reference Index of the third month preceding such month, and (ii) in relation to a day D (other than the first day) in any given calendar month ("M"), the linear interpolation of the CPI Monthly Reference Index pertaining respectively to the third calendar month preceding such month ("M - 3") and the second calendar month preceding such month ("M - 2") calculated in accordance with the following formula:

CPI Daily Inflation Reference Index=

$$\text{CPI Monthly Reference Index}_{M-3} + \frac{D-1}{ND_M} \times (\text{CPI Monthly Reference Index}_{M-2} - \text{CPI Monthly Reference Index}_{M-3})$$

With:

"**ND_M**:" number of days in the relevant month M and, in the case of payment of principal or interest, shall be equal to 31;

"**D**": actual day of payment in the relevant month M and, in the case of payment of principal or interest, shall be equal to 25;

"**CPI Monthly Reference Index_{M-2}**": the level of the CPI Monthly Reference Index published in relation to month M - 2;

"**CPI Monthly Reference Index_{M-3}**": the level of the CPI Monthly Reference Index published in relation to month M - 3.

Notwithstanding Condition 5(g)(iii), the CPI Daily Inflation Reference Index will be rounded if necessary to six significant figures (with halves being rounded up).

For information purposes, such CPI Daily Inflation Reference Index appears on the Agence France Trésor Reuters page OATINFLATION01 or on Bloomberg FRCPXTOB Index <GO> pages and on the website www.aft.gouv.fr. In the case of doubt in the interpretation of the methods used to calculate the Inflation Index Ratio, such methods shall be interpreted by reference to the procedures selected by the French Treasury (Trésor) for its obligations assimilables du Trésor indexées sur l'inflation.

"**CPI Monthly Reference Index**" means the definitive consumer price index excluding tobacco for all households in France, as calculated and published

monthly by the INSEE as such index may be adjusted or replaced from time to time as provided herein.

(b) The calculation method described below is based on the recommendation issued by the French Bond Association (*Comité de Normalisation Obligataire* – www.cnofrance.org) in its December 2010 Paper entitled "Inflation Indexed *Obligations Foncières*" (*Obligations et autres instruments de taux d'intérêt en euro, Normes et usages des marchés de capitaux – Chapitre II: Les obligations indexées sur l'inflation*). In the case of any conflict between the calculation method provided below and the calculation method provided by the French Bond Association (*Comité de Normalisation Obligataire*), the calculation method provided by the French Bond Association (*Comité de Normalisation Obligataire*) shall prevail.

(c)

(1) If the CPI Monthly Reference Index is not published in a timely manner, a substitute CPI Monthly Reference Index (the "**Substitute CPI Monthly Reference Index**") shall be determined by the Calculation Agent in accordance with the following provisions:

(x) If a provisional CPI Monthly Reference Index (*indice provisoire*) has already been published, such index shall automatically be used as the Substitute CPI Monthly Reference Index. Such provisional CPI Monthly Reference Index would be published under the heading "*indice de substitution*". Once the definitive CPI Monthly Reference Index is released, it shall automatically apply from the day following its release to all calculations taking place from this date.

(y) If no provisional CPI Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

Substitute CPI Monthly Reference Index_M=

$$\text{CPI Monthly Reference Index}_{M-1} \times \frac{\text{CPI Monthly Reference Index}_{M-1}}{\text{CPI Monthly Reference Index}_{M-13}} \times \frac{1}{12}$$

(2) In the event INSEE decides to proceed with one or more base changes for the purpose of calculating the CPI Monthly Reference Index, the two CPI Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the December CPI Monthly Reference Index of the last year of joint publications, which corresponds to the CPI Daily Inflation Reference Index for 1st March of the following year. Such chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{CPI Monthly Reference Index}^{\text{pertaining to December calculated on the new basis}}}{\text{CPI Monthly Reference Index}^{\text{pertaining to December calculated on the previous basis}}}$$

Such that:

$$\text{CPI Monthly Reference Index}_{\text{Date D New Basis}} = \text{CPI Monthly Reference Index}_{\text{Date D Previous Basis}} \times \text{Key}$$

(B) Harmonised Index of Consumer Prices (HICP)

Where the harmonised index of consumer prices (excluding tobacco) measuring the rate of inflation in the European Monetary Union as calculated and published monthly by Eurostat (the "HICP") is specified as the Index in the relevant Final Terms, this Condition 5(c)(iv)(B) shall apply. HICP Daily Inflation Reference Index =

$$\text{HICP Monthly Reference Index}_{M-3} + \frac{D-1}{ND_M} \times (\text{HICP Monthly Reference Index}_{M-2} - \text{HICP Monthly Reference Index}_{M-3})$$

Notwithstanding Condition 5(g)(iii), the HICP Daily Inflation Reference Index will be rounded if necessary to five significant figures (with halves being rounded up).

For information purposes, such HICP Daily Inflation Reference Index appears on the Agence France Trésor Reuters Page OATEI01, on the website www.aft.gouv.fr and on Bloomberg page CPTFEMU Index <GO>.

"**HICP Monthly Reference Index**" means to the harmonised index of consumer prices excluding tobacco measuring the rate of inflation in the European Monetary Union excluding tobacco as calculated and published by Eurostat as such index may be adjusted or replaced from time to time as provided herein. The first publication or announcement of a level of such index for a given month shall be final and conclusive and later revisions to the level for such month will not be used in any calculations.

(b)

(1) If the HICP Monthly Reference Index is not published in a timely manner, a substitute HICP Monthly Reference Index (the "**Substitute HICP Monthly Reference Index**") shall be determined by the Calculation Agent in accordance with the following provisions:

Once the definitive HICP Monthly Reference Index is released, it shall automatically apply from the day following its release to all calculations taking place from this date.
- (y) If no provisional HICP Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

Substitute HICP Monthly Reference Index_M =

$$\text{HICP Monthly Reference Index}_{M-1} \times \frac{\text{HICP Monthly Reference Index}_{M-1}}{\text{HICP Monthly Reference Index}_M} \frac{1}{12}$$

(2) In the event Eurostat decides to proceed with one or more base changes for the purpose of calculating the HICP Monthly Reference Index, the two HICP Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the December HICP Monthly Reference Index of the last year of joint publications, which corresponds to the HICP Daily Inflation Reference Index for 1st March of the following year. Such chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{HICP Monthly Reference Index}_{\text{pertaining to December calculated on the new basis}}}{\text{HICP Monthly Reference Index}_{\text{pertaining to December calculated on the previous basis}}}$$

Such that:

$$\text{HICP Monthly Reference Index}_{\text{Date D New Basis}} = \text{HICP Monthly Reference Index}_{\text{Date D Previous Basis}} \times \text{Key}$$

Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(c)(ii), the Interest Amounts and the Interest Payment Date so published may

- (k) **Calculation Agent:** The Issuer shall procure that there shall at all times one or more Calculation Agents if provision is made for them in the relevant Final Terms and for so long as any *Obligation Foncière* is outstanding (as defined below). Where more than one Calculation Agent is appointed in respect of the *Obligations Foncières*, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Accrual Period or to calculate any Interest Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall appoint a leading bank or investment banking firm engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal Paris office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid. So long as the *Obligations Foncières* are admitted to trading on a Regulated Market and the rules of, or applicable to, that Regulated Market so require, notice of any change of Calculation Agent shall be given in accordance with Condition 13.

For the purpose of these Conditions, "**outstanding**" means, in relation to the *Obligations Foncières* of any Series, all the *Obligations Foncières* issued other than (a) those that have been redeemed in accordance with these Conditions, (b) those in respect of which the date for redemption has occurred and the redemption moneys (including all interest accrued on such *Obligations Foncières* to the date for such redemption and any interest payable after such date) have been duly paid (i) in the case of Dematerialised *Obligations Foncières* in bearer form and in administered registered form, to the relevant Account Holder on behalf of the holder of *Obligations Foncières*, (ii) in the case of Dematerialised *Obligations Foncières* in fully registered form, to the account of the holder of *Obligations Foncières* and (iii) in the case of Materialised *Obligations Foncières*, to the Fiscal Agent and remain available for payment against presentation and surrender of Materialised *Obligations Foncières* and/or Coupons, as the case may be, (c) those which have become void or in respect of which claims have become prescribed, (d) those which have been purchased and that are held or have been cancelled as provided in these Conditions, (e) in the case of Materialised *Obligations Foncières* (i) those mutilated or defaced Materialised *Obligations Foncières* that have been surrendered in exchange for replacement Materialised *Obligations Foncières*, (ii) (for the purpose only of determining how many such Materialised *Obligations Foncières* are outstanding and without prejudice to their status for any other purpose) those Materialised *Obligations Foncières* alleged to have been lost, stolen or destroyed and in respect of which replacement Materialised *Obligations Foncières* have been issued and (iii) any Temporary Global Certificate to the extent that it shall have been exchanged for one or more Definitive Materialised *Obligations Foncières*, pursuant to its provisions.

6 Redemption, Purchase and Options

- (a) **Final Redemption:** Unless previously redeemed, purchased and cancelled as provided below, each *Obligation Foncière* shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final Redemption Amount which is (i) its nominal amount (except in the case of Zero Coupon *Obligations Foncières*) or (ii) an amount determined in accordance with Condition 6(c) if specified as applicable in the relevant Final Terms.
- (b) **Redemption at the Option of the Issuer and Partial Redemption:** If Call Option is specified in the relevant Final Terms, the Issuer may, subject to compliance by the Issuer with all laws, regulations and directives applicable to the Issuer and the *Obligations Foncières* and on giving not less than 5 nor more than 30 days' irrevocable notice in accordance with Condition 13 to the holders of *Obligations*

Foncières (or such other notice period if specified in the relevant Final Terms), redeem all or, if so provided, some, of the *Obligations Foncières* on any Optional Redemption Date.

Any such redemption of *Obligations Foncières* shall be at their Optional Redemption Amount being (except with respect to Zero Coupon *Obligations Foncières*) the nominal amount together with interest accrued to the date fixed for redemption, if any.

Materialised *Obligations Foncières* may be redeemed in all or in part. In the case of a partial redemption the notice to holders of Materialised *Obligations Foncières* shall also contain the numbers of the Definitive Materialised *Obligations Foncières* to be redeemed which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and Regulated Market or stock exchange requirements.

In the case of a partial redemption of Dematerialised *Obligations Foncières*, the redemption may be effected by reducing the nominal amount of all such Dematerialised *Obligations Foncières* in a Series in proportion to the aggregate nominal amount redeemed. Any such redemption must relate to *Obligations Foncières* of a nominal amount at least equal to the Minimum Redemption Amount to be redeemed as specified in the relevant Final Terms and no greater than the Maximum Redemption Amount to be redeemed specified in the relevant Final Terms.

So long as the *Obligations Foncières* are admitted to trading on a Regulated Market and the rules of, or applicable to, such Regulated Market so require, the Issuer shall, each time there has been a partial redemption of the *Obligations Foncières*, cause to be published in accordance with Articles 221-3 and 221-4 of the *Règlement Général* of the *Autorité des marchés financiers* (the "AMF") and on the website of any other competent authority and/or Regulated Market where the *Obligations Foncières* are admitted to trading, a notice specifying the aggregate nominal amount of *Obligations Foncières* outstanding and, in the case of Materialised *Obligations Foncières* a list of any Materialised *Obligations Foncières*, drawn for redemption but not surrendered.

- (c) **Redemption of Inflation Linked *Obligations Foncières*:** If Condition 6(c) is specified as applicable in the relevant Final Terms, the Final Redemption Amount in respect of Inflation Linked *Obligations Foncières* will be determined by the Calculation Agent on the following basis:

Final Redemption Amount = IIR x nominal amount of the *Obligations Foncières*

If the Final Redemption Amount calculated as set out above is below par, the *Obligations Foncières* will be redeemed at par.

For the purpose of this Condition 6(c) only, "IIR" means the ratio determined on the fifth Business Day before the Maturity Date between (i) if the CPI is specified as the Index applicable in the Final Terms, the CPI Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(A)) on the Maturity Date and the Base Reference on the date specified in the relevant Final Terms or (ii) if the HICP is specified as the Index applicable in the Final Terms, the HICP Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(B)) on the Maturity Date and the Base Reference on the date specified in the relevant Final Terms.

- (d) **Early Redemption:**

- (i) Zero Coupon *Obligations Foncières*:

- (A) The Optional Redemption Amount or the Early Redemption Amount, as the case may be, payable in respect of any Zero Coupon *Obligation Foncière*, the Optional Redemption Amount or the Early Redemption Amount of which is not linked to an index and/or a formula, upon redemption of such *Obligation Foncière* pursuant to Condition 6(b), 6(e) and 6(i) if so specified in the relevant Final Terms shall be calculated as provided below.

- (B) Subject to the provisions of sub-paragraph (C) below, the Optional Redemption Amount or the Early Redemption Amount of any such *Obligation Foncière* shall be the scheduled Final Redemption Amount of such *Obligation Foncière* on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which, if none is specified in the relevant Final Terms, shall be such rate as would produce an Optional Redemption Amount or an Early Redemption Amount equal to the issue price of the *Obligations Foncières* if they were discounted back to their issue price on the Issue Date (the "**Amortisation Yield**")) compounded annually.
- (C) If the Optional Redemption Amount or the Early Redemption Amount payable in respect of any such *Obligation Foncière* upon its redemption pursuant to Condition 6(b), 6(e) and 6(i) is not paid when due, the Optional Redemption Amount or the Early Redemption Amount due and payable in respect of such *Obligation Foncière* shall be as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Optional Redemption Amount or the Early Redemption Amount becomes due and payable was the Relevant Date. The calculation of the Optional Redemption Amount or the Early Redemption Amount in accordance with this sub-paragraph shall continue to be made (both before and after judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such *Obligation Foncière* on the Maturity Date together with any interest that may accrue in accordance with Condition 5(f).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction specified in the relevant Final Terms.

(ii) Inflation Linked *Obligations Foncières*:

- (A) If the relevant Final Terms provides that Condition 6(d)(ii) shall apply in respect of Inflation Linked *Obligations Foncières*, the Early Redemption Amount of such *Obligations Foncières* in respect of such *Obligations Foncières* will be determined by the Calculation Agent on the following basis:

"Early Redemption Amount" = IIR x nominal amount of the *Obligations Foncières*

For the purpose of this Condition only, "**IIR**" means the ratio determined on the fifth Business Day before the date set for redemption between (i) if the CPI is specified as the Index applicable in the Final Terms, the CPI Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(A)) on the date set for redemption and the Base Reference specified in the relevant Final Terms or (ii) if the HICP is specified as the Index applicable in the Final Terms, the HICP Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(B)) on the date set for redemption and the Base Reference specified in the relevant Final Terms.

If the Early Redemption Amount calculated as set out above is below par, the *Obligations Foncières* will be redeemed at par.

- (B) If the Inflation Linked *Obligations Foncières* (whether or not Condition 6(d)(ii) applies) fall to be redeemed for whatever reason before the Maturity Date, the Issuer will pay the Early Redemption Amount together with interest accrued to the date set for redemption. Such accrued interest will be calculated by the Calculation Agent in respect of the period from, and including the immediately preceding Interest Payment Date or, as the case may be, the Interest Commencement Date to, but excluding, the date set for redemption of such *Obligations Foncières* at a rate per annum on the basis of the provisions of Condition 5(c)(iv) above except that, for such purposes the relevant Interest Determination Date shall be the fifth Business Day prior to the relevant Early Redemption Date.

- (iii) **Other *Obligations Foncières*:** The Early Redemption Amount payable in respect of any *Obligation Foncière* (other than *Obligations Foncières* described in (i) and (ii) above), upon redemption of such *Obligations Foncières* pursuant to Condition 6(e) or 6(i), if so provided in the relevant Final Terms), shall be the nominal amount of such *Obligation Foncière*.
- (e) **No Redemption for Taxation Reasons:** If French law should require that payments of principal, interest or other revenues in respect of any *Obligation Foncière* or Coupon be subject to withholding or deduction in respect of any present or future taxes, duties, assessments or governmental charges of whatever nature, such *Obligation Foncière* will not, unless otherwise specified in the relevant Final Terms, be redeemed early. If such early redemption is provided in the relevant Final Terms, the Issuer may redeem such *Obligation Foncière* at their Early Redemption Amount together with interest accrued to the date fixed for redemption and notice of such early redemption shall be given in accordance with Condition 13.
- (f) **Purchases:** The Issuer shall have the right at all times to purchase *Obligations Foncières* (provided that, in the case of Materialised *Obligations Foncières*, all unmatured Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price. All *Obligations Foncières* so purchased by the Issuer may either (i) be held and resold in accordance with applicable laws and regulations or (ii) be cancelled in accordance with Condition 6(g) below.
- (g) **Cancellation:** All *Obligations Foncières* purchased for cancellation by or on behalf of the Issuer will forthwith be cancelled, in the case of Dematerialised *Obligations Foncières*, by transfer to an account in accordance with the rules and procedures of Euroclear France and, in the case of Materialised *Obligations Foncières*, by surrendering Temporary Global Certificate or the Definitive Materialised *Obligations Foncières* in question together with all unmatured Coupons and all unexchanged Talons to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all *Obligations Foncières* redeemed by the Issuer, be cancelled forthwith (together with, in the case of Dematerialised *Obligations Foncières*, all rights relating to payment of interest and other amounts relating to such Dematerialised *Obligations Foncières* and, in the case of Materialised *Obligations Foncières*, all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith). Any *Obligations Foncières* so cancelled or, where applicable, transferred or surrendered for cancellation may not be re-issued or resold and the obligations of the Issuer in respect of any such *Obligations Foncières* shall be discharged.
- (h) **Subscription and use as collateral:** Notwithstanding this Condition 6, the Issuer may, pursuant to Article L.513-26 of the French *Code monétaire et financier*, subscribe its own *Obligations Foncières* for the sole purpose of pledging them as collateral for the credit operations of the *Banque de France* in accordance with the procedures and conditions laid out by it for its monetary policy and intraday credit operations, in instances where the Issuer is unable to meet its cash-flow needs with other means available to it.
- (i) **Illegality:** If, by reason of any change in French law, or any change in the official application of such law, becoming effective after the date on which agreement is reached to issue the first Tranche of any Series of the *Obligations Foncières*, it will become unlawful for the Issuer to perform or comply with one or more of its obligations under such *Obligations Foncières*, the Issuer will, subject to having given not more than forty-five (45) nor less than thirty (30) days' notice to the holders of *Obligations Foncières* (which notice shall be irrevocable), in accordance with Condition 13, redeem all, but not some only, of such *Obligations Foncières* at their Early Redemption Amount together with any interest accrued to the date set for redemption.

7 Payments and Talons

- (a) **Dematerialised *Obligations Foncières*:** Payments of principal and interest in respect of Dematerialised *Obligations Foncières* shall (in the case of Dematerialised *Obligations Foncières* in bearer form or

administered registered form) be made by transfer to the account denominated in the relevant currency of the relevant Account Holders for the benefit of the holders of *Obligations Foncières* and, (in the case of Dematerialised *Obligations Foncières* in fully registered form), to an account denominated in the relevant currency with a Bank designated by the holders of *Obligations Foncières*. - (b) **Materialised *Obligations Foncières*:** Payments of principal and interest in respect of Materialised *Obligations Foncières* shall, subject as mentioned below, be made against presentation and surrender of the relevant Materialised *Obligations Foncières* (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(e)(v)) or Coupons (in the case of interest, save as specified in Condition 7(e)(v)), as the case may be, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the holder, by transfer to an account denominated in such currency with, a Bank.
- (c) **Payments in the United States:** Notwithstanding the foregoing, if any Materialised *Obligations Foncières* are denominated in U.S. Dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed a Paying Agent with specified offices outside the United States with the reasonable expectation that such Paying Agent would be able to make payment of the amounts on the *Obligations Foncières* in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.
- (d) **Payments Subject to Fiscal Laws:** Payments will be subject in all cases, to (i) any fiscal or other laws and regulations applicable thereto, but without prejudice to the provisions of Condition 8, in the place of payment, and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. The Fiscal Agent, the Paying Agent, the Redenomination Agent, the Consolidation Agent and the Registration Agent act solely as agents of the Issuer and the Calculation Agent(s) act(s) as independent experts(s) and, in each case such, do not assume any obligation or relationship of agency for any holder of *Obligation Foncière* or Coupon. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Redenomination Agent, the Consolidation Agent and the Registration Agent or the Calculation Agent(s) and to appoint additional or other Paying Agent, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) a Redenomination Agent and a Consolidation Agent where the Conditions so require, (iv) a Paying Agent having specified offices in at least two major European cities provided that (A) so long as the *Obligations Foncières* are admitted to trading on the regulated market of the Luxembourg Stock Exchange and the rules applicable to that Regulated Market so require, the Issuer will maintain a Paying Agent in Luxembourg, and (B) so long as the *Obligations Foncières* are admitted to trading on Euronext Paris and the rules applicable to that Regulated Market so require, the Issuer will maintain a Paying Agent in France (v) a Registration Agent and (vi) such other agents as may be required by any other Regulated Market or stock exchange on which the *Obligations Foncières* may be admitted to trading.

In addition, the Issuer shall forthwith appoint a Paying Agent in New York City in respect of any Materialised *Obligations Foncières* denominated in U.S. Dollars in the circumstances described in paragraph (c) above.

On a redenomination of the *Obligations Foncières* of any Series pursuant to Condition 1(d) with a view to consolidating such *Obligations Foncières* with one or more other Series of *Obligations Foncières*, in accordance with Condition 12, the Issuer shall ensure that the same entity shall be appointed as both Redenomination Agent and Consolidation Agent in respect of both such *Obligations Foncières* and such other Series of *Obligations Foncières* to be so consolidated with such *Obligations Foncières*.

Notice of any such change or any change of any specified office shall promptly be given to the holders of *Obligations Foncières* in accordance with Condition 13.

(f) **Unmatured Coupons and unexchanged Talons:**

Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of ten (10) years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 9).
- (ii) Upon the due date for redemption of any Materialised *Obligation Foncière* comprising a Floating Rate *Obligation Foncière* or Inflation Linked *Obligation Foncière*, unexpired Coupons relating to such *Obligation Foncière* (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Materialised *Obligation Foncière*, any unexpired Talon relating to such *Obligation Foncière* (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Where any Materialised *Obligation Foncière* that provides that the relative unexpired Coupons are to become void upon the due date for redemption of those *Obligations Foncières* is presented for redemption without all unexpired Coupons, and where any Bearer *Obligation Foncière* is presented for redemption without any unexpired Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.
- (v) If the due date for redemption of any Materialised *Obligation Foncière* is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Definitive Materialised *Obligation Foncière* Materialised. Interest accrued on a Materialised *Obligation Foncière* that only bears interest after its Maturity Date shall be payable on redemption of such *Obligation Foncière* against presentation of the relevant Materialised *Obligation Foncière*.

- (g) **Talons:** On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised *Obligation Foncière*, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 9).

- (h) **Business Days for Payment:** Unless otherwise specified in these Conditions, if any date for payment in respect of any *Obligation Foncière* or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day (the "**Adjusted Payment Date**"), nor to any interest or other sum in respect of such postponed payment. In this paragraph, "**business day**" means a day (other than a Saturday or a Sunday) (A) (i) in the case of Dematerialised *Obligations Foncières*, on which Euroclear France is open for business or (ii) in the case of Materialised *Obligations Foncières*, on which banks and foreign exchange markets are open for business in the relevant place of presentation, (B) in such jurisdictions as shall be specified as "**Financial Center**" in the relevant Final Terms and (C) (i) in the case of a payment in a currency other than euro, where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) in the case of a payment in euro, which is a TARGET Business Day.
- (i) **Bank:** For the purpose of this Condition 7, "**Bank**" means a bank in the principal financial centre of the relevant currency or, in the case of euro, in a city in which banks have access to the TARGET System.

8 Taxation

- (a) **Withholding Taxes:** All payments of principal, interest and other revenues by or on behalf of the Issuer in respect of the *Obligations Foncières* or Coupons shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within any jurisdiction or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.
- (b) **No Additional Amounts:** If any law should require that payments of principal, interest or other revenues in respect of any *Obligation Foncière* or Coupon be subject to withholding or deduction in respect of any present or future taxes, duties, assessments or governmental charges of whatever nature, the Issuer will not be required to pay any additional amounts in respect of any such withholding or deduction.

9 Prescription

Claims against the Issuer for payment in respect of the *Obligations Foncières* and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within ten (10) years (in the case of principal) or five (5) years (in the case of interest) from the appropriate Relevant Date in respect of them.

10 Representation of holders of *Obligations Foncières*

Subject to the provisions of Condition 10(ix) below with respect to *Obligations Foncières* issued with a denomination of less than €100,000 (or its equivalent in any other currency), the holders of *Obligations Foncières* will, in respect of all Tranches of the relevant Series, be grouped automatically for the defence of their common interests in a masse (the "**Masse**") which will be governed by the provisions of Articles L.228-46 *et seq.* of the French *Code de commerce* as amended or supplemented by this Condition 10:

(i) Legal Personality

The *Masse* will be a separate legal entity and will act in part through a representative (the "**Representative**") and in part through collective decisions of the holders of *Obligations Foncières* (the "**Collective Decisions**").

The *Masse* alone, to the exclusion of all individual holders of *Obligations Foncières*, shall exercise the common rights, actions and benefits which may accrue with respect to the *Obligations Foncières*, without prejudice to the rights that holders of *Obligations Foncières* may exercise individually in accordance with, and subject to, the provisions of the Terms and Conditions of the *Obligations Foncières*.

(ii) Representative

The names and addresses of the Representative and its alternate (if any), will be set out in the relevant Final Terms. The Representative appointed in respect of the first Tranche of any Series of *Obligations Foncières* will be the Representative of the single *Masse* of all subsequent Tranches in such Series.

The Representative will be entitled to such remuneration in connection with its functions or duties as set out in the relevant Final Terms. No additional remuneration is payable in relation to any subsequent Tranche of any given Series.

In the event of death, liquidation, retirement, resignation or revocation of appointment of the Representative, such Representative will be replaced by its alternate, if any. Another Representative may be appointed.

All interested parties will at all times have the right to obtain the names and addresses of the Representative and the alternate Representative (if any) at the registered office of the Issuer.

(iii) Powers of the Representative

The Representative shall (in the absence of any Collective Decision to the contrary) have the power to take all acts of management necessary in order to defend the common interests of the holders of *Obligations Foncières*, with the capacity to delegate its powers.

All legal proceedings against the holders of *Obligations Foncières* or initiated by them, must be brought by or against the Representative; except that, should judicial reorganisation or liquidation (*redressement ou liquidation judiciaire*) proceedings be commenced against the Issuer the Specific Controller shall file the proof of debt of all the creditors of the Issuer benefiting from the *Privilège* (including the holders of *Obligations Foncières*).

(iv) Collective Decisions

Collective Decisions are adopted either in a general meeting (the "**General Meeting**") or by consent following a written consultation (the "**Written Decision**").

In accordance with Article R.228-71 of the French *Code de commerce*, the rights of each holder of an *Obligation Foncière* to participate in Collective Decisions will be evidenced by entries in the books of the relevant Account Holder or the Issuer or the Registration Agent (as the case may be) of the name of such holder of an *Obligation Foncière* as of 00:00 (Paris time) on the second business day in Paris preceding the date set for the Collective Decision.

Collective Decisions must be published in accordance with Condition 10(viii).

The Issuer shall hold a register of the Collective Decisions and shall make it available, upon request, to any subsequent holder of any of the *Obligations Foncières* of such Series.

(A) General Meetings

A General Meeting may be called at any time, either by the Issuer or by the Representative. One or more holders of *Obligations Foncières*, holding together at least one-thirtieth of the principal amount of *Obligations Foncières* outstanding, may address to the Issuer and the Representative a demand for a General Meeting to be called. If such General Meeting has not been called within two months after such demand, the holders of *Obligations Foncières* may commission one of them to petition the competent court to appoint an agent (*mandataire*) who will call the General Meeting.

General Meetings may deliberate validly on first convocation only if the holders of *Obligations Foncières* present or represented hold at least one-fifth of the principal amount of the *Obligations Foncières* then outstanding. On second convocation, no quorum shall be required. The decisions of the General Meeting shall be taken by a two-third majority of votes held by the holders of *Obligations Foncières* attending such General Meeting or represented thereat.

Notice of the date, time, place and agenda of any General Meeting will be published in accordance with Condition 10(viii) not less than fifteen calendar days prior to the date of the General Meeting on first convocation and not less than five calendar days prior to the date of the General Meeting on second convocation.

Each holder of *Obligations Foncières* has the right to participate in a General Meeting in person, by proxy or by correspondence.

Each holder of an *Obligation Foncière* or representative thereof will have the right to consult or make a copy of the text of the resolutions which will be proposed and of the reports, if any, which will be presented at the General Meeting, all of which will be available for inspection by the relevant holders of *Obligations Foncières* at the registered office of the Issuer and at any other place specified in the notice of the General Meeting, during the fifteen calendar day period preceding the holding of the General Meeting on first convocation, or during the five calendar day period preceding the holding of the General Meeting on second convocation.

(B) Written Decisions

At the initiative of the Issuer or the Representative, Collective Decisions may also be taken by a Written Decision.

Such Written Decision shall be signed by or on behalf of the holders of *Obligations Foncières* holding not less than 90 per cent. in nominal amount of the *Obligations Foncières* outstanding, without having to comply with formalities and time limits referred to in Condition 10(iv)(A). Any Written Decision shall, for all purposes, have the same effect as a resolution passed at a General Meeting of such holder of *Obligations Foncières*. Pursuant to Article L.228-46-1 of the French *Code de commerce*, approval of a Written Decision may also be given by way of electronic consent allowing the identification of the holders of *Obligations Foncières*.

(C) Exclusion of certain provisions of the French *Code de commerce*

The provisions of Article L.228-65 I. 1° (unless the Issuer is no longer a *société de crédit foncier* as a result of the change), 3° and 4° of the French *Code de commerce* and the related provisions of the French *Code de commerce* shall not apply to the *Obligations Foncières*, it being however specified for the avoidance of doubt that the holders of *Obligations Foncières* benefit from the same protection rights as non bondholder creditors (*créanciers non obligataires*).

(v) Expenses

The Issuer shall pay all expenses relating to the operation of the *Masse*, including all expenses relating to the calling and holding of Collective Decisions and, more generally, all administrative expenses resolved upon by the Collective Decisions, it being expressly stipulated that no expenses may be imputed against interest payable under the *Obligations Foncières*.

(vi) Single *Masse*

The holders of *Obligations Foncières* of the same Tranche, and the holders of *Obligations Foncières* of any other Tranche which have been assimilated with the *Obligations Foncières* of such first mentioned Tranche in accordance with Condition 12, shall, for the defence of their respective common interests, be grouped in a single *Masse*.

(vii) Sole holder of *Obligations Foncières*

If and for so long as the *Obligations Foncières* of a given Series are held by a sole holder of *Obligations Foncières*, and unless a Representative has been appointed in relation to such Series, such sole holder of *Obligations Foncières* shall exercise all the powers, rights and obligations entrusted to the *Masse* by the provisions of the French *Code de commerce*.

From the date of appointment of the Representative in relation to any Series, if and for so long as the *Obligations Foncières* of such Series are held by a sole holder of *Obligations Foncières*, such holder of *Obligations Foncières* shall exercise all powers, rights and obligations entrusted to the holders of *Obligations Foncières* acting through Collective Decisions by the provisions of the French *Code de commerce*.

The Issuer shall hold a register of the decisions taken by the sole holder of *Obligations Foncières* in this capacity and shall make it available, upon request, to any subsequent holder of any of the *Obligations Foncières* of such Series.

(viii) Notices to holders of *Obligations Foncières*

Any notice to be given to the holders of *Obligations Foncières* in accordance with this Condition 10 shall be given in accordance with Condition 13.

(ix) Full Masse

For *Obligations Foncières* issued with a denomination of less than EUR100,000 (or its equivalent in any other currency), Condition 10 shall apply to the *Obligations Foncières* subject to the following modifications.

- (A) Condition 10(iv)(C) shall not apply to the *Obligations Foncières*; and

DESCRIPTION OF CAISSE FRANÇAISE DE FINANCEMENT LOCAL

Legal structure and name of the Issuer

The Issuer was created on 29 December 1998 for a period of 99 years. It was authorized to operate as a *société de crédit foncier* by the *Comité des établissements de crédit et des entreprises d'investissement* (now a part of the French Resolution and Prudential Control Authority (*Autorité de Contrôle Prudentiel et de Résolution*) ("ACPR")) at its meeting on 23 July 1999. The authorization became definitive on 1 October 1999.

On 31 January 2013, the Issuer was renamed Caisse Française de Financement Local to replace Dexia Municipal Agency, upon the sale of its sole shareholder, Société de Financement Local (renamed SFIL in June 2015), to the French State, Caisse des Dépôts et Consignations ("CDC") and La Banque Postale. Since 30 September 2020, SFIL's sole shareholder is the CDC (holding 99.99% of SFIL's share capital). The French State retained one ordinary share and continues to be present on SFIL's Board of Directors through a non-voting member, given the public interest missions entrusted to SFIL.

The Issuer's registered office is located at 1-3, rue du Passeur de Boulogne in Issy-les-Moulineaux (92130), France - (Telephone: +33 1 73 28 90 90). The Issuer is registered with the *Registre du commerce et des sociétés* of Nanterre under the number 421 318 064.

Caisse Française de Financement Local is a *société anonyme à Directoire et Conseil de Surveillance*, a joint-stock corporation with an Executive Board and a Supervisory Board, governed by the provisions of Articles L.210-1 and following of the *Code de commerce*. Its activity is regulated by Articles L.511-1 and following (credit institutions) and L.513-2 and following (*sociétés de crédit foncier*) of the French *Code monétaire et financier*.

Nature and activity of the Issuer

Caisse Française de Financement Local (also known by its acronym CAFFIL) is a credit institution active in the refinancing of loans to public sector entities or those they guarantee through the issue of covered bonds, which are called *obligations foncières*.

It is a specialised credit institution authorized to operate as a *société de crédit foncier*. As a credit institution, the Issuer is subject to all legal and regulatory provisions that apply to credit institutions. It conducts banking transactions in its ordinary course of business. As a *société de crédit foncier*, it engages in transactions that are specialised and have an exclusive purpose, as defined in Articles L.513-2 and following of the French *Code monétaire et financier*.

In the case of Caisse Française de Financement Local, this specialisation is exclusively limited to transactions with public sector entities or entities they guarantee as specified in its 1 October 1999, authorization by the ACPR and its own by-laws.

- The authorization mentions that the Issuer "is approved as a *société de crédit foncier*, the activities of which exclusively concern the granting or acquisition of loans to public sector entities or those they guarantee, as well as the holding of securitization units or shares of similar entities when the assets in these securitizations are for at least 90% composed of assets of the same nature as the above-mentioned loans, in accordance with Article 94-II and III of law 99-532".
- The purpose of the Issuer (Article 2 of the by-laws) specifies that the exclusive purpose of the Issuer is:
 - to grant or to acquire exposures on public sector entities as defined in Article L.513-4 of the French *Code monétaire et financier* as well as securitization units or shares of similar entities considered as exposures on public sector entities as defined in Article L.513-5 of the French *Code monétaire et financier*;
 - to hold securities and other assets under the conditions set by decree to be considered as replacement assets.

Sociétés de crédit foncier, which were created by the law of June 1999, are now well-known in the world of bond issuers and investors. They issue covered bonds called *obligations foncières* and contract other covered debt

negotiable or not in regulated markets. All these instruments are characterized by the legal privilege that primarily affects cash flows from the Issuer's assets to pay the interest and reimbursement of the *obligations foncières*. *Sociétés de crédit foncier* may also issue or contract non-covered debt. *Obligations foncières* constitute a significant element in the international covered bond market.

Shareholding structure of the Issuer

As of 31 December 2020, Caisse Française de Financement Local is currently wholly-owned by SFIL. Since 30 September 2020, SFIL's sole shareholder is the CDC (holding 99.99% of SFIL's share capital). The French State retained one ordinary share and continues to be present on SFIL's Board of Directors through a non-voting member, given the public interest missions entrusted to SFIL.

SFIL's shareholding structure is thus still fully public. Its shareholders will ensure that SFIL's financial solidity is preserved and its economic base protected and will continue to provide it with the necessary support, in accordance with the applicable regulations. CDC, SFIL's new reference shareholder, confirmed its commitment in a letter of support, completed by a letter of support from the State, in the context of SFIL's continuing status as a State-owned development bank.

This commitment, made with the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*), underlines its involvement to ensure oversight and to influence strategic decisions, as well as its determination to ensure Caisse Française de Financement Local's and SFIL's ongoing financial transactions and to comply with regulatory requirements, if so required.

In addition, on 5 November 2020, SFIL, the parent company of Caisse Française de Financement Local, signed an updated declaration of support of Caisse Française de Financement Local, ensuring that "*SFIL, its reference shareholder CDC and the French State, will ensure, subject to EU State Aid rules, that Caisse Française de Financement Local always be able to pursue its activity in an ongoing manner and that its economic base is protected and its financial strength preserved, in compliance with the requirements of banking regulations*". This declaration of support is reproduced on pages 133 and 134 of this Base Prospectus.

SFIL's shareholders remains firmly anchored in the public sphere, thus reflecting the missions the French State assigned it.

Areas of business of SFIL and Caisse Française de Financement Local

Caisse Française de Financement Local and its parent company SFIL (formerly Société de Financement Local) are key elements in the financing of local governments and public hospitals in France introduced by the French State in 2013. This organization is based on a commercial activity developed by La Banque Postale with refinancing provided by Caisse Française de Financement Local.

In 2015, the French State entrusted SFIL and Caisse Française de Financement Local with the responsibility to refinance large export credits with the guarantee of the State. Public guarantees for foreign trade, which in particular cover export credit insurance operations and enhanced guarantees, are granted by the Minister in charge of the Economy, once approved by the Guarantees and Foreign Trade Credit Commission. Their management is entrusted to Bpifrance Assurance Export that deliver these guarantees, under the State's control, on its behalf and in its name.

The objective is to enable large export credits as well as loans to French local governments and public hospitals to benefit from optimal financing conditions through a high rating and irreproachable risk management.

Legal and arbitration proceedings

Sensitivity reduction and decrease in litigation related to structured loans

The Issuer has, in its portfolio, some structured loans considered as sensitive which had been granted to French clients by Dexia Crédit Local before the acquisition of the Issuer by SFIL. Certain of these customers initiated legal proceedings against Dexia Crédit Local, the Issuer and/or SFIL.

Sensitive loans and reduction in loan sensitivity

The most structured loans according to the Gissler classification (categories 3E, 4E and 5E as well as "not in the charter" loans) may be classified as "sensitive". As of 31 December 2020, they now represent only EUR 0.7 billion (1.2% of the cover pool) compared with EUR 8.5 billion on SFIL's inception at the end of 2012, i.e. a decrease of almost 92%. The number of customers holding sensitive loans fell over the same period from 879 to 152.

The scope of sensitive structured loans is therefore extremely limited and the associated risk is no longer material for Caisse Française de Financement Local.

Legal risk

As regards litigation, relating to structured loans, at 31 December 2020, there were 10 borrowers who had brought lawsuits on structured loans, compared to 15 at the end of 2019, 18 at the end of 2018, 25 at the end of 2017, and 39 at the end of 2016. Since SFIL's creation, 213 borrowers have dropped their claims regarding these loans against the Group.

Since the entry into force on 30 July 2014 of the law on the securitization of structured loan contracts taken out by public legal entities and in accordance with a now established case law of the *Cour de cassation* (cf. judgments rendered on 28 March 2018, 26 June 2019, 20 May 2020 and 12 November 2020), more than 60 judicial decisions have dismissed claims by borrowers to invalidate the structured loans recorded on Caisse Française de Financement Local's balance sheet. Such case law has essentially retained that structured loans were not speculative financial products (which are prohibited for local authorities) but loan contracts whose validity was not questionable. In addition, most of these decisions held that the bank had not failed in its obligation to provide information on the characteristics of the contracts to borrowers who have been, in their majority, considered to be knowledgeable borrowers. In that respect, two rulings issued by the *Cour de cassation* during the year 2021 sanctioned insufficient substantiation of two appeal rulings and transferred both cases back to the *Cour d'appel* which will have to re-examine the admissibility of certain claims that were made by the borrowers.

As of 31 December 2020, to the Caisse Française de Financement Local's knowledge, there were no other lawsuits or disputes between SFIL or Caisse Française de Financement Local and its borrowers that were considered significant.

Tax risk

SFIL's Finance division is responsible for tax declarations and may consult the SFIL's General Secretary for tax advice. SFIL relies notably on tax advisory firms of excellent repute for managing its tax risk. There was no change during 2020 concerning the collection notice was issued at the end of 2018, for tax related to the inspection for 2012 and 2013, in relation to the taxation in Ireland of the income of the former Dexia Municipal Agency (CAFFIL's former name) branch in Dublin which closed in 2013 and which resulted in a tax adjustment notice from the French tax authorities. Caisse Française de Financement Local paid the duties assessed.

Other litigation

The Issuer is not or has not been involved in any other governmental litigation or proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) in the 12 months preceding the date of this Base Prospectus which may or have in such period had a significant effect on the financial position or profitability of the Issuer.

THE LEGAL REGIME APPLICABLE TO CAFFIL

Please note that the paragraphs below relating to the laws and regulations applicable to sociétés de crédit foncier are based on French laws and regulations in force as at the date of this Base Prospectus and should be read in conjunction with, as the case may be, any relevant instruction from the French Resolution and Prudential Control Authority (Autorité de contrôle prudentiel et de résolution) or ministerial order published in respect of sociétés de crédit foncier.

Legal Framework

The legal and regulatory regime applicable to sociétés de crédit foncier results from the following provisions:

- Articles L.513-2 to L.513-27 of the French *Code monétaire et financier*;
- Articles R.513-1 to R.513-18 of the French *Code monétaire et financier*;
- Regulation no. 99-10 of the Committee of banking and financial regulation (the *Comité de la Réglementation Bancaire et Financière* or "CRBF"); and
- Various regulations (*instructions*) relating to sociétés de crédit foncier issued by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*).

The *Privilège* (Statutory Priority in Right of Payment)

Obligations foncières are specialised covered bond products that can only be issued by credit institutions licensed and regulated in France as sociétés de crédit foncier. *Obligations foncières* benefit from the legal *privilège* under French law which provides a priority in right of payment on certain eligible assets and cash flow of CAFFIL to the holders of *obligations foncières* and other privileged debt. CAFFIL's total assets must always exceed liabilities benefiting from the *privilège*, in particular in accordance with Articles L.513-12 and R.513-8 of the French *Code monétaire et financier*.

The legal *privilège* is governed by Article L.513-11 of the French *Code monétaire et financier* and has the following characteristics:

- the sums resulting from loans, assimilated receivables, exposures, securities and instruments referred to in Articles L.513-3 to L.513-7 of French *Code monétaire et financier* and from the financial instruments used for hedging as referred to in Article L.513-10 of the French *Code monétaire et financier* (after any applicable set-off), together with the claims in respect of deposits made by the société de crédit foncier with credit institutions, are allocated in priority for the payment of any sums due in relation to the *obligations foncières* and other liabilities benefiting from the *privilège*, as mentioned in Article L.513-2 I 2° of the French *Code monétaire et financier*, including CAFFIL's derivative counterparties and payments to SFIL under the loan service agreements between them;
- when a société de crédit foncier is subject to bankruptcy proceedings (*procédure de sauvegarde, de redressement ou de liquidation judiciaires*) or to conciliation proceedings (*procédure de conciliation*), liabilities benefiting from the *privilège*, as described in Article L.513-2 I 2° of the French *Code monétaire et financier*, are paid on their contractual due date, and in priority to all other debts, whether or not preferred or secured, including interest resulting from agreements. No other creditor of a société de crédit foncier may exercise any right over the assets and rights of such société de crédit foncier until creditors benefiting from the *privilège* defined in Article L.513-11 of the French *Code monétaire et financier* have been fully paid off; and
- the judicial liquidation (*liquidation judiciaire*) of a société de crédit foncier will not result in the acceleration of payment of *obligations foncières* or other debts benefiting from the *privilège*.

CAFFIL does not have any employees. In accordance with Article L.513-15 of the French *Code monétaire et financier*, CAFFIL must, therefore, entrust the management or recovery of its loans, exposures, related receivables (*créances assimilées*), titles and securities, bonds or other resources, to a credit institution or financing company

(*société de financement*) with which it has signed an agreement. Payments arising under the loan service agreements with SFIL benefit from the *privilège* to the same extent as any privileged debt.

Legislation Relating to *sociétés de crédit foncier*

Article L.513-2 of the French *Code monétaire et financier* provides that the sole purpose of a *société de crédit foncier* is:

- to grant or acquire guaranteed loans, exposures to public sector entities and securities and instruments referred to in Articles L.513-3 to L.513-7 of the French *Code monétaire et financier*; and
- in order to finance such categories of loans, exposures, securities and instruments, to issue *obligations foncières* benefiting from the *privilège* and to issue other debt pursuant to the contract or the document made for the information of the public as provided for in Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, as amended or any equivalent document required for admission to any foreign regulated market, if such contract or document refers to the *privilège*.

Sociétés de crédit foncier may also fund the activities referred to above through the issue of bonds or other sources of financing which do not benefit from the *privilège*. They may also issue promissory notes (*billets à ordre*).

Sociétés de crédit foncier may carry out temporary transfers of securities; pledge a securities account and pledge or transfer all or part of the receivables held by them in accordance with the applicable provisions of the French *Code monétaire et financier*. The receivables or securities thus transferred or pledged are not included in the Cover Pool (as such term is defined in "Risk Factors – Risk Factors relating to the Issuer – Risk of default in the Cover Pool") defined in Article L.513-11 (*assiette du privilège*) and are not taken into account for the calculation of the overcollateralisation ratio.

According to Article L.513-4 of the French *Code monétaire et financier*, eligible exposures to public sector entities mentioned in Article L.513-2 of the French *Code monétaire et financier* that may be included in the Cover Pool, are assets such as loans, certain debt securities or off-balance sheet exposures to the entities listed below or fully guaranteed by them.

- Central governments, central banks, public institutions, local authorities or state-owned entities located in a Member State of the European Union or within the European Economic Area, in the United States of America, Switzerland, Japan, Canada, Australia or New Zealand (collectively, the "**Eligible States**");
- Central governments or central banks not located in an Eligible State, but who benefit from the highest level of credit quality⁵ established by a credit rating agency recognized by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*) in accordance with Article L.511-44 of the French *Code monétaire et financier*;
- The European Union, the International Monetary Fund, the Bank for International Settlements, multilateral development banks (the list of which has been set by decree of the Minister of the Economy), other international organizations and multilateral development banks benefiting from the highest level of credit quality established by a credit rating agency recognized by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*) in accordance with Article L.511-44 of the French *Code monétaire et financier*;
- Public institutions and local authorities not located in an Eligible State if financial exposure to such persons are subject, for the determination of capital adequacy, to the same requirements as those used for central governments, central banks or credit institutions, or fully guaranteed by such persons, and benefiting from the highest level of credit quality established by a credit rating agency recognized by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*); and

⁵ highest level of credit quality (or Step 1): AAA to AA (low) for DBRS Ratings GmbH or any entity that is part of DBRS and any successor to the relevant rating activity, Aaa to Aa3 for Moody's France SAS or AAA to AA- for S&P Global Ratings Europe Limited.

- Public institutions and local authorities mentioned in the bullet point above benefiting from the second-highest level of credit quality⁶ established by a credit rating agency recognized by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*), provided that such exposures are limited to 20% of the total outstanding nominal amount of the *obligations foncières* and other sources of financing benefiting from the *privilège*.

Eligible assets of the public sector entities described above include, among other things:

- debt securities issued, or fully guaranteed, by one or more of the public sector entities mentioned above;
- monetary claims, including those resulting from a successive performance contract, against the public sector entities referred to above, or fully guaranteed by one or more of such public sector entities;
- debt stemming from leasing contracts or equivalent contracts to which a public sector entity referred to above is party in the capacity of lessee or tenant, or debt stemming from leasing contracts or equivalent contracts fully guaranteed by one or more of those public sector entities. *Sociétés de crédit foncier* that acquire debt resulting from a leasing contract may also acquire all or part of the debt that results from the sale of the leased property.

Pursuant to Article L.513-5 of the French *Code monétaire et financier* and within the limits of Article R.513-3 of the French *Code monétaire et financier*, eligible assets also include units or notes (other than subordinated units or subordinated notes) issued by a securitization vehicle (*organisme de titrisation*) which are French securitisation vehicles, or other similar vehicles governed by the laws of a Member State of the European Union or of the European Economic Area, the United States of America, Switzerland, Japan, Canada, Australia or New Zealand provided that at least 90% of the assets held by these securitization vehicles must otherwise be eligible assets. These units or notes must benefit from the highest level of credit quality established by a credit rating agency recognized by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*).

In order to hedge its interest and currency risks on loans, exposures referred to in Articles L.513-3 to L.513-7 of the French *Code monétaire et financier*, *obligations foncières* and other sources of financing benefiting from the *privilège*, or its global interest rate risk, *sociétés de crédit foncier* may use derivative instruments as defined in Article L.211-1 of the French *Code monétaire et financier*. Any amounts payable pursuant to these financial instruments, after applicable set-off, contracted to hedge its eligible assets or replacement assets, its liability items benefiting from the *privilège* and to manage or hedge the global risk on its assets, its liabilities and its off-balance sheet, benefit from the *privilège*.

According to Article L.513-7 of the French *Code monétaire et financier*, *sociétés de crédit foncier* may hold as part of the Cover Pool replacement assets, including securities, instruments and deposits which are sufficiently safe and liquid. Article R.513-6 of the French *Code monétaire et financier* provides that these replacement assets shall be securities, instruments and deposits due from credit institutions, investment firms or portfolio management companies benefiting from the highest level of credit quality established by an external rating agency recognized by the Prudential Control Authority. If any debt has a maturity of less than one hundred (100) days, the rating can be the second highest level of credit quality for purposes of consideration as Replacement Assets. The total amount of the replacement assets is limited to 15% of the total outstanding nominal amount of the *obligations foncières* and other sources of financing benefiting from the *privilège*.

Pursuant to Articles L.513-8 and R.513-7 of the French *Code monétaire et financier*, *sociétés de crédit foncier* must ensure, at all times, the coverage of their treasury needs over a period covering the next one hundred and eighty (180) days, while taking into account forecast flows of the principal and interest on its assets and the amounts related to derivatives as mentioned in Article L.513-10 of the French *Code monétaire et financier*. Moreover, pursuant to Articles L.513-12 and R.513-8 of the French *Code monétaire et financier*, *sociétés de crédit foncier* must, at all times, maintain a ratio of at least one hundred and five per cent (105%) between its eligible assets (including substitution assets (*valeurs de remplacement*)) and the total amount of its liabilities benefiting from the *privilège*, as calculated pursuant to Articles 6 to 11 of the regulation no. 99-10 of the CRBF, and pursuant to Article 12 of

⁶ second-highest level of credit quality (or Step 2): A (high) to A (low) for DBRS Ratings GmbH or any entity that is part of DBRS and any successor to the relevant rating activity, A1 to A3 for Moody's France SAS or A+ to A- for S&P Global Ratings Europe Limited.

regulation no. 99-10 of the CRBF, the average life of the eligible assets held by the *société de crédit foncier*, up to the minimum required to comply with the cover ratio referred to in Article R.513-8 of the French *Code monétaire et financier*, shall not exceed by more than eighteen (18) months the average life of its liabilities benefitting from the *privilège*. Article L.513-26 of the French *Code monétaire et financier* provides that a *société de crédit foncier* may, by way of exception to the provisions of Articles 1349 of the French *Code civil* and L.228-44 and L.228-74 of the French *Code de commerce*, subscribe to its own *obligations foncières* for the sole purpose of pledging them as collateral for the credit operations of the *Banque de France* in accordance with the procedures and conditions laid out by it for its monetary and intraday credit policy, in instances where the *société de crédit foncier* is unable to cover its cash-flow needs by other means available to it. The *obligations foncières* thus subscribed must satisfy the following conditions:

- they may represent a maximum of 10% of the total outstanding debt benefitting from the *privilège* at the acquisition date;
- they are deprived of their voting rights in general meetings of bondholders, for so long as they are held by the *société de crédit foncier*;
- they must be posted as collateral to the *Banque de France*; in the absence of this allocation, they must be cancelled within eight (8) days; and
- they cannot be subscribed by third parties.

The *contrôleur spécifique* must certify that the above-mentioned conditions are fulfilled and submit a report on this matter to the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*).

In addition:

- according to Article L.513-18 of the French *Code monétaire et financier*, the provisions on bankruptcy which permit certain transactions entered into in the months preceding the bankruptcy to be declared void, do not apply to *sociétés de crédit foncier*;
- according to Article L.513-20 of the French *Code monétaire et financier*, the bankruptcy proceedings (*procédure de sauvegarde, de sauvegarde financière accélérée, de redressement, de liquidation judiciaires* or *procédure de sauvegarde accélérée*) of a shareholder of a *société de crédit foncier* cannot be extended to the *société de crédit foncier* itself;
- according to Article L.513-21 of the French *Code monétaire et financier*, in case of the opening of any safeguard proceedings (*procédure de sauvegarde*), judicial reorganisation (*redressement judiciaire*) or judicial liquidation (*liquidation judiciaire*) against the credit institution which is acting as manager and servicer of the assets and liabilities of the *société de crédit foncier*, the recovery, management and servicing contract pursuant to which the *société de crédit foncier* has delegated to such credit institution the management or recovery of its assets may be immediately terminated by the *société de crédit foncier* notwithstanding any legal provisions to the contrary;
- according to Article L.513-2 of the French *Code monétaire et financier*, a *société de crédit foncier* is not legally allowed to have a subsidiary or hold an equity interest in another company; and
- according to Article L.513-24 of the French *Code monétaire et financier*, in case of bankruptcy proceedings (*procédure de sauvegarde, de sauvegarde financière accélérée, de redressement, de liquidation judiciaires* or *procédure de sauvegarde accélérée*) of a *société de crédit foncier*, the *contrôleur spécifique* will be responsible for filing claims on behalf of creditors benefitting from the *privilège*.

Sociétés de crédit foncier submit their coverage ratio to the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*) on 31 March, 30 June, 30 September and 31 December of each year. Pursuant to Article 13 of regulation no. 99-10 of the CRBF, *sociétés de crédit foncier* must send to the French Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*) information relating to the quality of their assets. This report is published within forty five (45) days of a general meeting approving the financial

statements of the year then ended. In particular, the characteristics, details of the distribution of loans or exposures and guarantees, the total of any unpaid amounts, the distribution of debts by amount and by category of debtors, the proportion of early repayments, and the level and sensitivity of the position of rates are required to be included as part of the latter report.

Please note that, as a specialised credit institution (*établissement de crédit spécialisé*), the Issuer is subject to the Bank Recovery and Resolution Directive (see section entitled "*Risk factors*" above).

Covered Bonds European legislation

On 12 March 2018, the European Commission published proposals for a Directive and for a Regulation on the issue and supervision of covered bonds, under the ordinary legislative procedure, aiming at establishing a framework to enable a more harmonized covered bond market in the European Union as part of the capital markets union (that aims to unify capital markets across the EU's 27 Member States) action plan.

On 27 November 2019, Directive (EU) 2019/2162 of the European Parliament and of the Council dated 27 November 2019 (the "**Covered Bond Directive**") and Regulation (EU) 2019/2160 of the European Parliament and of the Council of 27 November 2019 (the "**Covered Bond Regulation**") were adopted. The Covered Bond Directive distinguishes between (i) the "European Covered Bonds Premium" which benefits from the most favourable prudential treatment pursuant to Article 129 of Regulation (EU) 2019/876 of the European Parliament and of the Council dated 20 May 2019 (the "**CRR II Regulation**") provided that these covered bonds would meet the conditions set forth by the Covered Bond Directive and (ii) the "European Covered Bonds" which benefit from a less favorable prudential treatment pursuant to Article 129 of CRR II Regulation.

The Covered Bond Directive also covers requirements for marketing covered bonds, structural features of covered bonds (asset composition, derivatives, liquidity...) and regulatory supervision. The Covered Bond Regulation mainly amends Article 129 of CRR II Regulation and adds requirements on minimum overcollateralisation and substitution assets. The minimum overcollateralization is set at 2% and 5% depending on the assets in the cover pool, based on a nominal calculation method.

The Covered Bond Directive must be implemented by each of the Member States of the European Union by 8 July 2021 and the Member States must apply those measures at the latest from 8 July 2022. In France, law n° 2020-1508 dated 3 December 2020 (*loi n°2020-1508 portant diverses dispositions d'adaptation au droit de l'Union européenne en matière économique et financière*) has authorised the French Government to implement the Covered Bond Directive by way of ordinance (*ordonnance*) at the latest on 8 July 2021. Potential impact of this new legal and regulatory framework on the Issuer and the *Obligations Foncières* cannot yet be fully estimated.

BUSINESS OVERVIEW

Caisse Française de Financement Local's exclusive purpose is (as per Article 2 of the by-laws):

- to grant or acquire exposures on public sector entities as defined in Articles L.513-4 of the French *Code monétaire et financier* as well as assets considered as exposures to public sector entities as defined in Article L.513-5 of the same code;
- to hold securities or other assets under the conditions set by decree to be considered as replacement asset (*valeurs de remplacement*);
- in order to finance the above-mentioned loans, to issue *obligations foncières*, benefiting from the *privilège* defined in Article L.513-11 of the French *Code monétaire et financier* and to raise other funds, under issue or subscription contract referring to the *privilège*.

Caisse Française de Financement Local may also fund the above-mentioned activities by issuing bonds or other sources or financing that do not benefit from the *privilège* defined in Article L.513-11 of the French *Code monétaire et financier*.

Pursuant to Articles L.313-23 to L.313-35 of the French *Code monétaire et financier* (previously French law n° 81-1 of 2 January 1981 facilitating corporate borrowing), Caisse Française de Financement Local may assign all the assets it owns, whatever the nature (whether professional or not).

The following paragraph summarises the Caisse Française de Financement Local's main general framework of activities:

General market considerations

Regarding the local public sector market: French local government debt reached a total amount of EUR 230 billion at the end of 2020.

Regarding the export credit financing market: after a 2019 year already characterized by a low activity (EUR 2.2 billion), the year 2020 is the lowest since 2014, with around EUR 1.6 billion of large export credit insured signed by BPIAE (excluding aviation sector).

Caisse Française de Financement Local as issuer of *obligations foncières* operates within the covered bond market. This market segment has shown dynamic activity over the past years and benefits from a favorable regulatory environment for covered bonds.

Assets

The assets held by Caisse Française de Financement Local are solely comprised of commitments on public sector entities that are eligible by the terms of Article L.513-4 of the French *Code monétaire et financier*, i.e. States, local governments or groups of such, public sector entities in the European Economic Area, Switzerland, the United States of America, Canada and Japan. These commitments are comprised of loans and bond issues representing a commitment on, or totally guaranteed by, these public bodies.

Other assets, which current legislation calls replacement assets, may be acquired if they correspond to exposures on credit institutions benefiting from at least a Step 1⁷ rating (level triple A or double A) or, when their maturity does not exceed 100 days, from a Step 2⁸ rating (level simple A), their total amount is limited to 15% of the total of outstanding *obligations foncières* and other debt benefiting from the legal *privilège* (registered covered bonds in the case of Caisse Française de Financement Local). This asset category is used for cash investments by the Caisse Française de Financement Local.

⁷ Highest level of credit quality (or Step 1): AAA to AA (low) low for DBRS Ratings GmbH or any entity that is part of DBRS and any successor to the relevant rating activity, Aaa to Aa3 for Moody's France SAS and AAA to AA- for S&P Global Ratings Europe Limited

⁸ Second-highest level of credit quality (or Step 2): A (high) to A (low) for DBRS Ratings GmbH or any entity that is part of DBRS and any successor to the relevant rating activity, A1 to A3 for Moody's France SAS and A+ to A- for S&P Global Ratings Europe Limited.

Most of the assets on Caisse Française de Financement Local's balance sheet were generated by the Dexia Group's commercial activities. The new assets of Caisse Française de Financement Local primarily involve the following:

- since 2013, the activity of granting loans to French local governments and public hospitals through La Banque Postale, or new loans originated by Caisse Française de Financement Local in order to facilitate the decrease of its outstanding sensitive structured loans;
- since 2016, the activity of granting loans to refinance large export credits guaranteed by the French State.

Liabilities

The contracts of Caisse Française de Financement Local that benefit from the legal *privilège* are the *obligations foncières* and registered covered bonds that it issues, the hedging derivative contracts and the servicing agreement signed with SFIL.

In addition to its equity, Caisse Française de Financement Local uses two categories of debt to finance its assets:

- debt that benefits from the legal *privilège*, defined by law as *obligations foncières* or other resources benefiting from the legal *privilège* by reason of their contract. Caisse Française de Financement Local thus issues registered covered bonds benefiting from the legal *privilège* by reason of their contract in the same way as *obligations foncières*; intended for German institutional investors, these private placements governed by German law also benefit from the French legal *privilège* attached to issues of *sociétés de crédit foncier*;
- debt that does not benefit from the legal *privilège* includes debt that is not covered by the assets and which, for this reason, is subordinated vis-à-vis debt benefiting from the *privilège*. With equity, it finances over-collateralisation. It may be of two types:
 - debt negotiated according to the terms of a financing agreement signed with the parent company;
 - refinancing in its own name from the Banque de France. Caisse Française de Financement Local received the authorization and implemented the organizational and IT procedures required to participate in the refinancing operations of the Banque de France, and tests them regularly. The financing obtained does not benefit from the *privilège* specified by the legislation on *sociétés de crédit foncier*, but is guaranteed by assets (loans or bonds) assigned to the central bank. These pledged assets are temporarily excluded from the cover pool and the calculation of the over-collateralisation ratio.

In addition, on 5 November 2020, SFIL, the parent company of Caisse Française de Financement Local, signed an updated declaration of support of Caisse Française de Financement Local, ensuring that "*SFIL, its reference shareholder CDC and the French State, will ensure, subject to EU State Aid rules, that Caisse Française de Financement Local always be able to pursue its activity in an ongoing manner and that its economic base is protected and its financial strength preserved, in compliance with the requirements of banking regulations*". This declaration of support is reproduced in this Base Prospectus on pages 133 and 134.

Over-collateralisation ratio

The over-collateralisation ratio, which is calculated on the basis of regulatory standards governing *sociétés de crédit foncier*, is the ratio between the assets and the resources benefiting from the legal *privilège*. The legal minimum threshold is set at 105% and corresponds to the minimum level that Caisse Française de Financement Local had committed to maintain since its creation.

In practice, the over-collateralisation ratio is regularly higher than 105%. To maintain an adequate credit rating, a level of over-collateralisation of more than 5% may be required. This requirement depends on the method applied by each of the rating agencies and on the new assets and liabilities on Caisse Française de Financement Local's balance sheet, and it may vary over time. Caisse Française de Financement Local takes these particular requirements into account in the management of its activity in order to make sure they are constantly met and strives to maintain its over-collateralisation at a relatively stable level, as can be seen in the following graph.

Regulatory over-collateralisation may differ from nominal over-collateralisation. In fact, it is calculated on the basis of the rules determined by the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*). In particular, these rules require different weighting levels according to the assets. The assets in Caisse Française de Financement Local's cover pool are weighted at 100%. The small difference between the two ratios can be explained by the accrued interest not yet due taken into account in the regulatory over-collateralisation ratio

Any assets that Caisse Française de Financement Local may have assigned in guarantee to borrow funds from the Banque de France or any other banking institution would be excluded from the calculation of over-collateralisation.

The following graph on over-collateralisation presents the amortization curves of the assets and the issues benefiting from the legal *privilège* as of 31 December 2020.

Hedging interest rate risk

1. Definition

Interest rate structural risk is defined as the risk of loss incurred in the event of a change in interest rates that would lead to a loss in value of balance sheet and off-balance sheet transactions, excluding any trading portfolio transactions. Since Caisse Française de Financement Local does not have a trading portfolio, it is not concerned by this exception.

There are three types of interest rate risks, which are generally covered using derivatives as well as a risk related to any options:

Fixed interest rate risk	Results from the difference in volume and maturity between assets and liabilities with a fixed rate or an adjustable rate that has already been set. This risk can result in the case of yield curve parallel shifts, steepening, flattening or rotation.
Basis risk	Results from the gap that may exist in the matching of assets and liabilities which are indexed on variable rates of different types or index tenors.
Fixing risk	Results from the gap between the fixing dates applied to all the variable rate balance sheet and off-balance sheet items linked to the same index tenor.
Option risk	Results from the application of floors at 0 on adjustable rates of local public sector receivables.

2. Hedging strategy

To limit its impact, Caisse Française de Financement Local implements an interest rate risk hedging strategy consisting of:

- micro-hedging balance sheet items denominated in a currency other than the euro or indexed to a complex rate structure. Certain euro-denominated vanilla transactions may also be micro-hedged if their notional value or duration could lead to a sensitivity limit being exceeded. Micro-hedging is carried out exclusively by swap;
- macro-hedging all transactions that are not micro-hedged. The transactions concerned are mainly (i) loans to the local public sector and (ii) issues of *obligations foncières* denominated in euros. This macro-hedging is obtained as far as possible by matching fixed-rate assets and liabilities via the termination of swaps and, for the rest, by setting up new swaps against EURIBOR or €STR.

These hedges can be entered into either directly on the market by Caisse Française de Financement Local, or through SFIL, which in turn hedges its resulting position in the market.

Non-privileged debt is not concerned by these hedging operations. Debt contracted by Caisse Française de Financement Local with its shareholder to finance over-collateralization is borrowed either directly with an €STR index and does not need to be swapped, or with a EURIBOR index and thus finances assets also indexed on EURIBOR. Short-term debt owed to the Banque de France with a fixed rate (if any) is not hedged, but finances fixed rate assets.

These different kinds of interest rate risks are monitored, analyzed and managed through:

- the production of gaps (fixed rate index, basis and fixing respectively), calculated statically:

Fixed rate gap	Difference between balance sheet and off-balance sheet assets and liabilities for fixed-rate transactions or transactions for which the rate has been set. It is calculated every month until balance sheet run-off.
Index gaps	Difference between balance sheet and off-balance sheet assets and liabilities for a given index tenor that has not yet been fixed. This gap is calculated every month until balance sheet run-off.
Basis gaps	Gaps resulting from matching two index gaps. There are therefore as many basis gaps as there are index pairs.
Fixing gap	For a given index tenor: difference between floating rate balance sheet and off-balance sheet assets and liabilities, by fixing.

- the monthly production of net present value (NPV) sensitivity indicators, calculated for a rate shock of 100bp, which aim to regulate the fixed or set rate residual positions of Caisse Française de Financement Local (after setting up hedges). These indicators are calculated for 4 predefined time buckets (short-term,

medium-term, long-term, very long-term) regulated by limits which are calibrated to avoid losing more than 6% of equity (i.e. EUR 80 million) with a 99% quantile calculated on a 10-year history.

In the first half of 2020, the sensitivity limits to interest rate risk were adjusted, while keeping the overall value of interest rate risk appetite unchanged (EUR 80 million). The objective of this reallocation is to optimize the management of short-term interest rate risk by limiting the volume of swaps required. Thus, the sensitivity limit allocated:

Translation of the rate curve	EUR 25 million limit
Sloping/rotation of the Interest rate curve on distant points on the curve	EUR 15 million limit over Short-term time buckets EUR 10 million limit over Medium-term time buckets EUR 10 million limit over Long-term time buckets EUR 9 million limit over Very long-term time buckets
Sloping/rotation of the Interest rate curve inside a time bucket	EUR 30 million limit on the absolute value of the sensitivities inside each time bucket

Outlook for 2021

Since 30 September 2020, Caisse Française de Financement Local and its parent company SFIL have joined the new major French public finance hub formed around Caisse des Dépôts. The SFIL Group will be able to provide the major French public finance hub with its high-performance financing platform, which has continued to benefit from excellent access to financial markets despite the instability related to the health and economic crisis, as well as from its two business lines, in their respective markets, financing for the French local public sector and for large

export contracts. In particular, the crisis has strengthened SFIL's strategic positioning and shown its financial resilience, a strong characteristic of public development banks⁹.

In 2021, Caisse Française de Financement Local and its parent company SFIL will aim to maintain for the two activities entrusted to them by the French States:

- financing loans to French local authorities and public hospitals, within the framework of the partnership established with La Banque Postale. Caisse Française de Financement Local and its parent company, SFIL, will also provide their support for the post-Covid-19 economic recovery, and in particular to supplement the French government's economic recovery plans to promote investments by local authorities and health institutions, notably through their green loans;
- supporting French exporters by refinancing large export credits guaranteed by the State. Indeed, for projects in the preliminary study phase, market demand for SFIL's system is very high compared to last year. Thus, export credit is expected to play its counter-cyclical role in supporting certain sectors such as civil aviation, in which SFIL will be present. Moreover, the increased attention paid to sustainable development issues and the French economic recovery plans should support export business in the areas of infrastructure and equipment. In this context, the Caisse Française de Financement Local and its parent company, SFIL, will provide their support to the post-Covid-19 economic recovery for these various sectors. As part of its export refinancing mission, Caisse Française de Financement Local also intends to be able to intervene in the credit refinancing system covered by the new guarantee for projects with a strategic interest for the French overseas economy. Once the necessary authorizations have been obtained from the European Commission, this extension could come into operation as of 2021.

To cover its financing requirements, Caisse Française de Financement Local plans to issue between EUR 3.5 and 5.5 billion of covered bonds in 2021 with a long-dated average maturity, adapted to the profile of the assets financed. It will carry out this program mainly through a number of benchmark obligations foncières issued in euros on the primary market and private placements adapted to the needs of its broad investor base. Caisse Française de Financement Local's issue program should be carried out in a dynamic market context and low rates in view of:

- the interest taken by investors in this asset category which notably benefits from preferential regulatory treatment;
- the strong support provided by the European Central Bank with the continuation of its program to purchase covered bonds

In 2021, SFIL will continue its CSR measures, including the integration of climate risks into its methodological criteria and the issuance of bonds in the form of thematic "social" and/or "green" issues. These should become a permanent and significant source of refinancing to support the investments needed by French public hospitals and those of French local authorities dedicated to the ecological transition. These new types of financings will enable SFIL to fully exercise its role as a public development bank to support a sustainable future.

The macroeconomic context will be closely monitored in 2021:

- the geopolitical environment and the degree of market volatility;
- changes in the regulatory environment, with the finalization of Basel III and, with regard to Caisse Française de Financement Local, the transposition into national law of the European directive aimed at harmonizing the covered bonds regimes of Member States.

For its operations, Caisse Française de Financement Local will continue to rely on SFIL, whose teams have shown constant commitment since the beginning of the crisis. SFIL will continue to adapt its organization and its tools to the new operational context that will result in the long term from the Covid-19 crisis, and will continue to

strengthen its prevention system against new risks that have appeared or intensified during the Covid-19 crisis, such as cybercrime.

Moreover, the SFIL Group will continue to attentively monitor the potential short to medium-term impacts of the Covid-19 pandemic on the Caisse Française de Financement Local's current and forecast operations, on the financial situation of its counterparties (local authorities, hospitals, export credit counterparties, banks, partners) and on market conditions notably for covered bonds. The quality of SFIL's shareholding structure, its status as a public development bank, the resilience of its business model, the quality of CAFFIL's and SFIL's standings, the very rigorous risk management of Caisse Française de Financement and its solid solvency ratio are all advantages within the current context.

ORGANISATIONAL STRUCTURE

Shareholding structure of the Issuer

Caisse Française de Financement Local and its parent company SFIL are key elements in the financing of local governments and public hospitals in France. The organization, introduced by the French State in 2013, is based on a commercial activity developed by La Banque Postale with refinancing provided by Caisse Française de Financement Local.

Since 2015, the French State has entrusted SFIL and Caisse Française de Financement Local with a second mission that is the responsibility to refinance large export credits with the guarantee of the State. The objective is to enable large export credits, as well as French local governments and public hospitals to benefit from optimal financing conditions through a high rating and irreproachable risk management.

SFIL is also the institution managing Caisse Française de Financement Local, in accordance with article L.513-15 of the French *Code monétaire et financier*.

As of 31 December 2020, Caisse Française de Financement Local is currently wholly-owned by SFIL. Since 30 September 2020, SFIL's sole shareholder is the CDC (holding 99.99% of SFIL's share capital). The French State retained one ordinary share and continues to be present on SFIL's Board of Directors through a non-voting member, given the public interest missions entrusted to SFIL.

This operation enables the public financial institutions to continue to serve the French territory, by grouping them within a large public financial group, formed around CDC and La Poste.

SFIL's shareholding structure is still fully public. Its shareholders will ensure that SFIL's financial solidity is preserved and its economic base protected, and will continue to provide it with the necessary support, in accordance with the applicable regulations. CDC, SFIL's new reference shareholder, confirmed its commitment in a letter of support, completed by a letter of support from the State, in the context of SFIL's continuing status as a State-owned development bank.

This commitment, made with the French Resolution and Prudential Control Authority (*Autorité de contrôle prudentiel et de résolution*), underlines its involvement to ensure oversight and to influence strategic decisions, as well as its determination to ensure Caisse Française de Financement Local's and SFIL's ongoing financial transactions and to comply with regulatory requirements, if so required.

Shareholding structure of the Issuer since 30 September 2020

SFIL's shareholders remains firmly anchored in the public sphere, thus reflecting the missions the French State assigned it.

Servicing and financing provided by SFIL

The role of SFIL primarily involves the following:

- the complete operational management of the Issuer as defined by the regulations applicable to *sociétés de crédit foncier*, in particular Article L.513-15 of the French *Code monétaire et financier*;
- provision of Caisse Française de Financement Local with the non-privileged funding and derivatives it needs to carry out its activities. SFIL obtains these resources from the markets by issuing long-dated (bonds) debt and, to a lesser degree, short-dated (certificates of deposit) debt. It has gradually established its signature in the French agency segment by launching benchmark EMTN issues in euros and dollars. SFIL can also finance these needs under loan agreements signed with its shareholder, CDC, and its partner, La Banque Postale. The refinancing initially provided *via* these agreements has gradually been completely replaced since 2016 by the financing obtained by SFIL on the financial markets. Nevertheless, shareholder refinancing is still available particularly in the case of liquidity requirements generated under a situation of stress. The financing agreement signed between CDC and SFIL (initially signed in February 2013) was also revised in December 2020 to adapt it to the new shareholder environment and SFIL's current financial position.

In addition, on 5 November 2020, SFIL signed an updated declaration of support of CAFFIL, which is reproduced as follows:

"Since 31 January 2013, SFIL is the reference shareholder of Caisse Française de Financement Local, a société de crédit foncier, governed by Articles L.513-2 et seq. of the Monetary and Financial Code and holds 99.99% of its capital.

SFIL will continue to stand as reference shareholder and hold more than 99% of the capital of Caisse Française de Financement Local on a long-term basis.

SFIL, its reference shareholder CDC and the French State, will ensure, subject to EU State Aid rules, that Caisse Française de Financement Local always be able to pursue its activity in an ongoing manner and that its economic base is protected and its financial strength preserved, in compliance with the requirements of banking regulations.

SFIL continuera de jouer le rôle d'actionnaire de référence de la Caisse Française de Financement Local et détiendra durablement plus de 99% du capital.

SFIL, son actionnaire de référence la CDC et l'Etat français feront en sorte, sous réserve des règles de l'Union Européenne relatives aux aides d'Etat, de protéger la base économique de la Caisse Française de Financement Local et de préserver sa viabilité financière tout au long de son existence conformément aux obligations imposées par la réglementation bancaire en vigueur.

It should be noted that SFIL also supplies services for the business of lending to French public sector entities engaged by La Banque Postale (LBP) and its joint venture LBP/CDC, La Banque Postale Collectivités Locales. These services concern activities involving commercial support, financial oversight, the supply of data for risk analysis and back office operations.

Partnership between La Banque Postale and Caisse Française de Financement Local

In early 2013, Caisse Française de Financement Local and La Banque Postale signed an exclusive sale agreement to fund the needs of the French local public sector and public hospitals. The arrangement, set up under the aegis of the French State, works as follows: La Banque Postale markets loans to the French local public sector and public hospitals, then sells them to Caisse Française de Financement Local, which refinances them by issuing *obligations foncières* (covered bonds). The loans originated are exclusively in Euro with a vanilla interest rate.

La Banque Postale committed to propose to Caisse Française de Financement Local all the loans that would be eligible for its cover pool.

This partnership enables Caisse Française de Financement Local to maintain its control of the credit risk through a two-stage analysis.

- When the loan is originated, the initial analysis of the counterparty is carried out simultaneously at the two entities. The loans that do not meet the credit and eligibility criteria of Caisse Française de Financement Local cannot be transferred to its balance sheet.

Caisse Française de Financement Local's eligibility criteria are strictly monitored by internal management policies and limit eligible counterparties to French local public sector entities and public hospitals.

- Before loans originated by La Banque Postale are sold to Caisse Française de Financement Local, a new analysis of the assets is conducted, and Caisse Française de Financement Local may refuse a loan prior to the sale if the asset no longer meets the criteria.

As required by law, the sale of loans to Caisse Française de Financement Local is carried out by using a transfer form (*bordereau de cession*) that is specific to *sociétés de crédit foncier*.

Refinancing of export credit

In addition to their mission of refinancing French local governments and public hospitals, SFIL and Caisse Française de Financement Local have been entrusted with a second mission by the French State: to refinance large French export contracts, with the objective to support French exports in terms of financial competitiveness, in accordance with a public refinancing plan comparable to that of other OECD countries. In this context, SFIL signed a protocol agreement governing relations with 20 commercial banks, thereby confirming relations with almost all the banks active in the French export credit market. SFIL may acquire all or a part of the participation of each of these banks in an export credit.

In this context, Caisse Française de Financement Local grants loans to SFIL in order to refinance its export credits. Such loans benefit from an irrevocable and unconditional 100% guarantee by the French State (enhanced guarantee). This business brings Caisse Française de Financement Local closer to the French State, without modifying the risk profile of its cover pool. These new loans, like the new French public sector loans marketed by La Banque Postale, are added to the portfolio of Caisse Française de Financement Local, which is financed by the issue of *obligations foncières*.

1. Organization

The system functions as follows:

- SFIL contributes to the financial proposal made by one or more banks in the banking syndicate granting the buyer credit covered by the export credit insurance guaranteed by the French State.
- After the export contract finalisation, these banks sell a part of the loans (and the attached rights) to SFIL and keep at least the share of the export credit not covered by the insurance (usually 5%).
- Caisse Française de Financement Local grants a loan to SFIL to enable it to refinance the acquired export credit. This refinancing loan benefits from an irrevocable and unconditional 100% guarantee by the French State, referred to as an enhanced guarantee;

Loans granted by Caisse Française de Financement Local to SFIL to refinance the purchased export credits thus constitute exposures that are totally guaranteed by the French State and eligible for the cover pool of a société de crédit foncier. These loans also comply with the European CRR regulation (Article 129, which specifies the assets authorized for inclusion in a cover pool to ensure that the covered bonds will benefit from the best prudential treatment).

2. French State export guarantees

Previously granted by Coface, since late 2016, these guarantees have been managed by Bpifrance Assurance Export, in the name of, on behalf of, and under the control of the French State, pursuant to Article L.432.2 of the French *Code des assurances*.

- Guarantee-granting decisions are made by the Minister in charge of the Economy and Finances after instruction by Bpifrance Assurance Export and the opinion of the French Export Credit and Guarantee Commission (*Commission des garanties et du crédit au commerce extérieur*).
- Bpifrance Assurance Export issues insurance policies, as well as enhanced guarantees, in accordance with the decision made. In this context, Bpifrance Assurance Export is also tasked with collecting insurance and guarantee premiums, managing risks, payments, and collections on behalf of the French State.
- The risks related to these guarantees are borne by the French State and all financial flows (premiums, payments, repayments) are recorded in separate accounting entries by Bpifrance Assurance Export. Premiums and collections are received directly on the account of the French State, and payments are made directly from the same account, without passing through the accounts of Bpifrance Assurance Export.

3. The specific case of exports of civil aircraft and helicopters

Financing of export contracts for civil aircraft and helicopters benefits from a so-called "pure and unconditional" guarantee (GPI) aimed at unconditionally and fully guaranteeing at 100% the non-repayment of the loan by the debtor. This guarantee is managed by Bpifrance Assurance Export in the name, on behalf of and under the control of the French State.

For these transactions, no enhanced guarantee has been put in place to cover the refinancing loan of SFIL by Caisse Française de Financement Local. In effect, SFIL transfers to Caisse Française de Financement Local, with the agreement of Bpifrance Assurance Export, full ownership of the benefit of the unconditional guarantee at 100% from which the export credit benefits (GPI), under a financial guarantee contract provided for in the refinancing loan agreement.

RECENT DEVELOPMENTS

Within the context of Covid-19 crisis, Caisse Française de Financement Local continued its two missions of financing the local public sector and refinancing large export credits. The commercial activity relating to the financing of the local public sector (carried out in partnership with La Banque Postale) was very strong, while activity related to export refinancing was slowed down by the health situation. It showed its resilience capacity notably in terms of solvency and liquidity, thanks to the public development bank model of its parent company, SFIL.

On the operational side, SFIL was able to adapt its organization and IT systems in order to function almost entirely remotely and enable all of its activities, and notably its services for Caisse Française de Financement Local, to continue normally.

The SFIL Group was able to monitor and manage all of its risks, notably those related to market volatility and the economic situation of its customers.

For Caisse Française de Financement Local, the financial impacts of this crisis remained very limited, even if some temporary impacts were visible in its interim accounting results (first half of 2020) due to banking regulations and IFRS accounting rules.

In the short term, the Covid-19 crisis has led to a general slowdown in the pace of credit export contract negotiations in 2020. Only one file was signed in 2020 for EUR 0.2 billion in the renewable energy sector in Europe.

Since 2015, the total volume refinanced by the SFIL Group amounts to EUR 8.4 billion for EUR 15 billion in total export credits. On average, over the last four years, SFIL's contribution of liquidity to the refinancing of large export credits represents more than 40% of the market¹⁰.

In addition, in 2020, the public financing system entrusted to SFIL was in great demand for projects in the preliminary study phase, with an increase of 40% compared to 2019.

Moreover, one export contract for civil aircraft has been signed in 2021. It benefits from a so-called "pure and unconditional" guarantee (GPI) by Bpifrance Assurance Export in the name, on behalf of and under the control of the French State.

The Covid-19 pandemic had a limited impact on the SFIL Group's current export refinancing portfolio. The only business sector that required special action is the cruise ship financing sector, in which SFIL has been present since 2016. The cruise lines were impacted by the sudden interruption to their business and the need to continue to cover their fixed costs. The SFIL Group entered into the approach developed jointly by the European export credit guarantee agencies to provide liquidity support for export credits for cruise companies. This liquidity support consists of deferring the repayment of the principal amount of the loans due for a 12-month period and spreading repayment over four years. In this context, in 2020, Caisse Française de Financement Local agreed to postpone the payment of three contracts for a total amount of slightly less than EUR 68 million. In addition, the manufacture and delivery of certain cruise ships will be staggered over time, which will have an impact on the profile of the refinancing granted by CAFFIL to SFIL, which benefits from the French State guarantee.

Moreover, in May 2020, the European Commission renewed for seven years, *i.e.* until 2027, its agreement to the SFIL Group to carry out its activity of refinancing export credits provided by the French State; it confirmed its diagnosis of a market failure for the financing of export credits and the appropriateness and necessity of the intervention of a public development bank such as SFIL. An initiative is also underway to extend the scope of this activity to strategic projects: this involves allowing the SFIL Group to intervene in the mechanism for refinancing loans covered by the Strategic Projects Guarantee¹¹. This plan to expand the activity of the SFIL Group will enable France to propose to exporters a financing offer in line with the best practices in other large exporting countries, particularly in Asia.

The Issuer's debt securities (*Obligations Foncières* and registered covered bonds) decreased by an amount of EUR 499 million between 1 January 2021 and 9 June 2021.

FORM OF FINAL TERMS 2

FORM OF FINAL TERMS FOR USE IN CONNECTION WITH ISSUES OF *OBLIGATIONS FONCIÈRES* WITH A DENOMINATION OF AT LEAST €100,000 TO BE ADMITTED TO TRADING ON A REGULATED MARKET AND ISSUES OF *OBLIGATIONS FONCIÈRES* TO BE ADMITTED TO TRADING ONLY ON A REGULATED MARKET, OR SPECIFIC SEGMENT OF A REGULATED MARKET, TO WHICH ONLY QUALIFIED INVESTORS HAVE ACCESS

PRIIPS REGULATION - PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The *Obligations Foncières* are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the "EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU of the European Parliament and of the Council dated 15 May 2014 on markets in financial instruments (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU of the European Parliament and of the Council dated 20 January 2016 on insurance distribution, as amended (the "**Insurance Distribution Directive**") where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 of the European Parliament and of the Council dated 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, as amended (the "**Prospectus Regulation**"). Consequently, no key information document required by Regulation (EU) No 1286/2014 of the European Parliament and of the Council dated 26 November 2014 on key information documents for packaged retail and insurance-based investment products (as amended, the "**PRIIPs Regulation**") for offering or selling the *Obligations Foncières* or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the *Obligations Foncières* or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

UK PRIIPS REGULATION - PROHIBITION OF SALES TO UK RETAIL INVESTORS – The *Obligations Foncières* are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the "UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Commission Delegated Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**EUWA**"); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (the "**FSMA**") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the *Obligations Foncières* or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the *Obligations Foncières* or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Note that a programme which only envisages vanilla issuance is unlikely to require a negative target market placeholder. If a negative target market is deemed necessary, wording along the following lines could be included: "The target market assessment indicates that *Obligations Foncières* are incompatible with the needs, characteristic and objectives of clients which are [fully risk averse/have no risk tolerance or are seeking on-demand full repayment of the amounts invested]."

[⁵⁰**UK MiFIR product governance / Professional investors and eligible counterparties only target market** – Solely for the purposes of [the/each] manufacturer['s/s'] product approval process, the target market assessment in respect of the *Obligations Foncières*, taking into account the five (5) categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 (in accordance with the FCA's policy statement entitled "Brexit our approach to EU non-legislative materials") has led to the conclusion that: (i) the target market for the *Obligations Foncières* is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (the "**COBS**"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**UK MiFIR**"); and (ii) all channels for distribution of the *Obligations Foncières* to eligible counterparties and professional clients are appropriate. ⁴⁹ Legend to be included if the *Obligations Foncières* are not intended to be sold to retail clients.

⁵⁰ The legend may not be necessary if the managers in relation to the *Obligations Foncières* are not subject to UK MiFIR and therefore there are no UK MiFIR manufacturers. Depending on the location of the manufacturers, there may be situations where either the MiFID II product governance legend or the UK MiFIR product governance legend or where both are included.

⁵¹ ICMA 1 and ICMA 2 approaches envisage that a negative target market will be unlikely. Note that a programme which only envisages vanilla issuance is unlikely to require a negative target market placeholder. If a negative target market is deemed necessary, wording along the following lines could be included: "The target market assessment indicates that *Obligations Foncières* are incompatible with the needs, characteristic and objectives of clients which are [fully risk averse/have no risk tolerance or are seeking on-demand full repayment of the amounts invested]."

⁵² Legends to be included if the *Obligations Foncières* are not intended to be sold to retail clients.

⁵³ For any *Obligations Foncières* to be offered to Singapore investors, the Issuer to consider whether it needs to re-classify the *Obligations Foncières* pursuant to Section 309B of the SFA prior to the launch of the offer.
