

COMPAGNIE DE FINANCEMENT FONCIER

Euro 125,000,000,000

Euro Medium Term Note Programme

for the issue of *Obligations Foncières* due from one month from the date of original issue

Under the Euro Medium Term Note Programme (the “**Programme**”) described in this base prospectus (the “**Base Prospectus**”), Compagnie de Financement Foncier (the “**Issuer**” or “**Compagnie de Financement Foncier**”), subject to compliance with all relevant laws, regulations and directives, may from time to time issue *obligations foncières* (the “*Obligations Foncières*” or the “**Notes**”), benefiting from the statutory *privilège* created by Article L.513-11 of the French *Code monétaire et financier*, as more fully described herein. No credit linked Notes will be issued under the Programme.

The aggregate nominal amount of Notes outstanding will not at any time exceed Euro 125,000,000,000 (or the equivalent in other currencies).

This Base Prospectus constitutes a base prospectus for the purposes of article 8 of Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”).

This Base Prospectus has been approved by the French *Autorité des marchés financiers* (the “**AMF**”) in France, in its capacity as competent authority pursuant to the Prospectus Regulation and, at the same time for the notification of a certificate of approval released to the *Commission de surveillance du secteur financier* in Luxembourg for Notes issued under the Programme to be admitted to trading on the Regulated Market (as defined below) of the Luxembourg Stock Exchange, both of approval and notification being made in its capacity as competent authority under the Prospectus Regulation. The AMF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of either the Issuer or the quality of the Notes that are the subject of this Base Prospectus and investors should make their own assessment as to the suitability of investing in the Notes.

Application may be made to Euronext Paris for Notes issued under the Programme for the period of 12 months after the date of the approval granted by the AMF on this Base Prospectus to be admitted to trading on Euronext Paris and/or any other Regulated Market (as defined below) and/or to be offered to the public pursuant to a non-exempt offer in accordance with the Prospectus Regulation in any member state (the “**Member State(s)**”) of the European Economic Area (the “**EEA**”) or in the United Kingdom (the “**UK**”). Euronext Paris is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014, as amended, appearing on the list of regulated markets issued by the European Commission (a “**Regulated Market**”). Notes which are not admitted to trading on a Regulated Market, or which are not offered to the public pursuant to a non-exempt offer, in a Member State of the EEA or in the UK may be issued under the Programme and may also be admitted to trading on an alternative stock exchange or may not be admitted to trading at all. The relevant final terms (the “**Final Terms**”) in respect of the issue of any Notes will specify whether or not such Notes will be admitted to trading and/or offered to the public pursuant to a non-exempt offer in a Member State of the EEA or in the UK and, if so, the relevant market or jurisdiction.

Each time the Notes will be admitted to trading on Euronext Paris, the Notes will also be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange.

This Base Prospectus shall be valid for the admission to trading of Notes on a Regulated Market and/or the offering of Notes to the public pursuant to a non-exempt offer in accordance with the Prospectus Regulation until 11 June 2021, provided that it is completed by any supplement, pursuant to Article 23 of the Prospectus Regulation, following the occurrence of a significant new factor, a material mistake or a material inaccuracy relating to the information included (or incorporated by reference) in this Base Prospectus which may affect the assessment of an investment in the Notes. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Notes may be issued either in dematerialised form (“**Dematerialised Notes**”) or in materialised form (“**Materialised Notes**”) as more fully described herein.

Dematerialised Notes will at all times be in book entry form in compliance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier*. No physical documents of title will be issued in respect of the Dematerialised Notes.

Dematerialised Notes may, at the option of the Issuer, be in bearer dematerialised form (*au porteur*) inscribed as from the issue date in the books of Euroclear France (“**Euroclear France**”) (acting as central depository) which shall credit the accounts of Account Holders (as defined in “Terms and Conditions of the Notes - Form, Denomination, Title and Redenomination”) including, Euroclear Bank SA/NV (“**Euroclear**”) and the depository bank for Clearstream Banking S.A. (“**Clearstream**”), or in registered dematerialised form (*au nominatif*) and, in such latter case, at the option of the relevant holder, in either fully registered dematerialised form (*nominatif pur*), in which case they will be inscribed with a registration agent (appointed in the relevant Final Terms) for the Issuer, or in administered registered dematerialised form (*nominatif administré*) in which case they will be inscribed in the accounts of the Account Holders (as defined in “Terms and Conditions of the Notes - Form, Denomination, Title and Redenomination”) designated by the relevant holder of Notes.

Materialised Notes will be in bearer materialised form only and may only be issued outside France. A temporary global certificate in bearer form without interest coupons attached (a “**Temporary Global Certificate**”) will initially be issued in relation to Materialised Notes. Such Temporary Global Certificate will subsequently be exchanged for definitive Materialised Notes in bearer form (the “**Definitive Materialised Notes**”) on or after a date expected to be on or about the 40th day after the issue date of the Notes (subject to postponement as described in “Temporary Global Certificates issued in respect of Materialised Notes”) upon certification as to non-US beneficial ownership with, where applicable, coupons for interest attached.

The Programme has been rated Aaa by Moody’s France SAS (“**Moody’s**”), AAA by S&P Global Ratings Europe Limited (“**S&P**”) and AAA by Scope Ratings AG (“**Scope**”). It is expected that the Notes issued under the Programme will be rated AAA by S&P, Aaa by Moody’s and AAA by Scope. Each of S&P, Moody’s and Scope is established in the European Union, registered under Regulation (EC) No.1060/2009 on credit ratings agencies, as amended (the “**CRA Regulation**”) and included in the list of registered credit rating agencies published on the website of the European Securities and Markets Authority (<http://www.esma.europa.eu/supervision/credit-rating-agencies/risk>). The relevant Final Terms will specify whether or not such credit ratings are issued by a credit rating agency established in the European Union or in the United Kingdom and registered under the CRA Regulation. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

The final terms of the Notes will be determined at the time of the offering of each Tranche and will be set out in the relevant Final Terms.

This Base Prospectus (together with any supplements thereto published from time to time (each a “Supplement” and together the “Supplements”)) constitutes a base prospectus for the purposes of Article 8 of the Prospectus Regulation in respect of, and for the purpose of giving information with regard to the Issuer and the Notes which is necessary information material to an investor for making an informed assessment of the assets and liabilities, profit and losses, financial position, and prospects of the Issuer, the rights attaching to the Notes, the reasons for the issuance and its impact on the Issuer and may only be used for the purposes for which it has been published.

This Base Prospectus is to be read in conjunction with any Supplement that may be published from time to time and with all documents which are incorporated herein by reference (see “Documents Incorporated by Reference”) and in relation to any Series (as defined herein) of Notes, should be read and construed together with the relevant Final Terms.

No person has been authorised to give any information or to make any representation other than those contained in this Base Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or any of the Dealers or the Arranger. Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that there has been no adverse change in the financial position of the Issuer since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The Issuer has undertaken with the Dealers to amend or supplement this Base Prospectus or publish a new Base Prospectus following the occurrence of a significant new factor, a material mistake or a material inaccuracy relating to the information included (or incorporated by reference) in this Base Prospectus which may affect the assessment of an investment in the Notes.

Other than in relation to the documents which are deemed to be incorporated by reference (see "DOCUMENTS INCORPORATED BY REFERENCE"), the information on the websites to which this Base Prospectus refers does not form part of this Base Prospectus unless that information is incorporated by reference into the Base Prospectus and has not been scrutinised or approved by the AMF.

Each prospective investor of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

A prospective investor may not rely on the Issuer, the Arranger or any of the Dealers or any of their affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Potential purchasers and sellers of the Notes should be aware that payments of interest on the Notes, or profits realised by a holder of Notes upon the disposal or repayment thereof, may be subject to taxation or documentary charges or duties in its home jurisdiction or in other jurisdictions in which it is required to pay taxes or where the Notes are transferred. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial obligations such as Notes. Potential investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the subscription,

acquisition, ownership, disposal and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor.

IMPORTANT NOTICE RELATING TO GREEN BONDS OR SOCIAL BONDS

Prospective investors should have regard to the information set out in the relevant Final Terms regarding use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in green bonds (the "Green Bonds") or social bonds (the "Social Bonds"), as the case may be, together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer or the Dealers that the use of proceeds for any loan will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by the Issuer's own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental or social impact of any loan or uses related to any loan. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes a "green", a "social", "sustainable" or an equivalently-labelled asset is currently under development. In addition the requirements of any such label may evolve from time to time, accordingly, no assurance is or can be given to investors that any loan or use(s) the subject of, or related to, any loan will meet any or all investor expectations regarding such "green", "social" or other equivalently-labelled performance objectives.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Green Bonds or Social Bonds, as the case may be, and in particular with any loan, to fulfil any environmental, social and/or other criteria. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Green Bonds or such Social Bonds, as the case may be. For the avoidance of doubt, neither the second party opinions, nor any such other opinion or certification is, or shall be deemed to be, incorporated in and/or form part of this Base Prospectus.

No Dealer makes any representation as to the suitability of the Green Bonds or Social Bonds, as the case may be, to fulfil any environmental, social and/or other criteria required by prospective investors. The Dealers have not undertaken, nor are responsible for, any assessment of the eligibility criteria, any verification of whether the Green Bonds or Social Bonds, as the case may be, meet the eligibility criteria, or the monitoring of the use of proceeds. Investors should refer to the Issuer's website or any third-party opinion.

CERTAIN SELLING RESTRICTIONS

The distribution of this Base Prospectus and the offering or sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer, the Dealers and the Arranger to inform themselves about and to observe any such restriction. The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act") or with any security regulation authority of any state or other jurisdiction of the United States and include Materialised Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered or sold to U.S. persons (as defined in Regulation S under the Securities Act ("Regulation S")) or, in the case of Materialised Notes in bearer form, delivered within the United States or to United States persons (as defined under the U.S. Internal Revenue Code of 1986, as amended).

THE NOTES ARE BEING OFFERED OUTSIDE THE UNITED STATES TO NON-U.S. PERSONS IN RELIANCE ON REGULATION S.

For a description of certain restrictions on offers and sales of Notes and on distribution of this Base Prospectus, see “Subscription and Sale”.

IMPORTANT – EEA AND UK RETAIL INVESTORS - If the Final Terms in respect of any Notes include a legend entitled “Prohibition of Sales to EEA and UK Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”) or in the United Kingdom (“UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); or (ii) a customer within the meaning of Directive 2016/97/EU (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No 1286/2014 (the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

MIFID II product governance / target market – The Final Terms in respect of any Notes will include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration such determination; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “MiFID Product Governance Rules”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

SINGAPORE SFA PRODUCT CLASSIFICATION – In connection with Section 309B of the Securities and Futures Act (Chapter 289) of Singapore, as modified or amended from time to time (the “SFA”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “CMP Regulations 2018”), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are ‘prescribed capital markets products’ (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

This Base Prospectus does not constitute an offer of, or an invitation by or on behalf of the Issuer, the Arranger or the Dealers to subscribe for, or purchase, any Notes.

The Arranger and the Dealers have not separately verified the information or representations contained in this Base Prospectus. None of the Dealers or the Arranger makes any representation, express or implied, or accepts any responsibility, with respect to the sincerity, accuracy or completeness of any of the information or representations in this Base Prospectus. Neither this Base Prospectus nor any other financial statements nor any other information incorporated by reference are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuer, the Arranger or the Dealers that any recipient of this Base Prospectus or any other financial statements or any information

incorporated by reference should purchase the Notes. Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Dealers or the Arranger has reviewed or undertakes to review the financial condition or affairs of the Issuer during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

No Redemption for Taxation Reasons:

The Notes will not be redeemed early for taxation reasons.

Taxation (withholding tax):

All payments of principal, interest and other assimilated revenues by or on behalf of the Issuer in respect of the Notes or Coupons shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

Interest Periods and Interest Rates:

The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. In no event shall the interest rate (including, for the avoidance of doubt, any applicable margin) be less than zero. The use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period. All such information will be set out in the relevant Final Terms.

Fixed interest will be payable in arrear on the date or dates in each year specified in the relevant Final Terms.

Floating Rate Notes:

Floating Rate Notes will bear interest determined separately for each Series as follows:

- in each case as adjusted for any applicable margin.

Fixed/Floating Rate Notes: Fixed/Floating Rate Notes for which a change of interest basis is specified to be applicable may be issued by the Issuer, such change of interest being either at the option of the Issuer or automatic.

Zero Coupon Notes: Zero Coupon Notes may be issued at their nominal amount or at a discount and will not bear interest.

Inflation Linked Notes: Inflation Linked Notes may be issued by the Issuer where the interest and/or principal in respect of such Notes will be calculated by reference to an inflation index ratio (in each case, the “**Inflation Index Ratio**”) derived from:

- (i) the consumer price index (excluding tobacco) for all households in France or the relevant substitute index, as calculated and published monthly by the Institut National de la Statistique et des Etudes Economiques (“INSEE”) (the “CPI”) (the “CPI Linked Notes”); or
- (ii) the harmonised index of consumer prices (excluding tobacco), or the relevant substitute index, measuring the rate of inflation in the European Monetary Union as calculated and published monthly by Eurostat (the “HICP”) (the “HICP Linked Notes”).

The rate of interest for Inflation Linked Notes can be calculated on the same basis as for the Fixed Rate Notes or in accordance with the CPI or HICP.

Issuer Rate Switch Option and Rate Lock-In:

The Final Terms issued in respect of each issue of Notes will specify whether the Issuer will have an interest rate switch option and/or whether interest rate lock-in will apply.

Representation of Holders:

In respect of the representation of the Noteholders, the following shall apply:

- (a) In respect of Notes (i) with an initial denomination of, or which can only be traded in amounts of, less than €100,000 or its equivalent in other currencies at the time of issue and (ii) issued outside France, and if the relevant Final Terms specify that “Contractual *Masse*” is applicable and the Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a *masse* (the “*Masse*”). The *Masse* will be governed by the provisions of the French *Code de commerce* with the exception of Articles L.228-65 II, L.228-71, R.228-63, R.228-69 and R.228-72 and by the terms and conditions of the Notes.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. All of these factors are contingencies which may or may not occur.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. The risks described below are not the only risks the Issuer faces. Additional risks and uncertainties not currently known to the Issuer or that it currently believes to be immaterial could also have a material impact on its business operations. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision. In particular, investors should make their own assessment as to the risks associated with the Notes prior to investing in Notes issued under the Programme.

In each sub-category below, the Issuer sets out first the most material risk, in its assessment, taking into account the expected magnitude of their negative impact and the probability of their occurrence.

RISK FACTORS RELATING TO THE ISSUER

The banking and financial environment in which Compagnie de Financement Foncier operates exposes it to many types of risk and requires it to implement a demanding and rigorous policy to monitor and control these risks.

Compagnie de Financement Foncier's business model is, by its very nature, highly secured. The legislative framework prevents it from holding a trading book, which protects it against market risks associated with proprietary trading, and from holding interests in affiliates.

Some of the risks faced by Compagnie de Financement Foncier are described below. This is not an exhaustive list of all the risks faced by Compagnie de Financement Foncier, but the risks considered as the most significant.

1 CREDIT AND COUNTERPARTY RISK

1.1. Default and counterparty risk

A substantial increase in expenses for depreciation of assets recognized in the portfolio of loans and receivables of Compagnie de Financement Foncier could impact its income and its financial situation.

As part of its activities, Compagnie de Financement Foncier conducts regular asset impairments in order to reflect, if necessary, actual or potential losses in its portfolio of loans and receivables, which are recognized in its income statement under "Cost of risk". The overall level of asset impairment is based on the valuation of the guarantees associated with the loans, Compagnie de Financement Foncier's assessment of the history of loan losses, the volumes and the types of loans made, industry standards, arrears on loans, economic conditions and other factors related to the degree of recovery of various types of loans.

Compagnie de Financement Foncier is exposed to any substantial increase in charges for losses on loans, material change in its risk of loss estimate associated with the portfolio of unimpaired loans, or any loss on loans exceeding

the recognized charges. These variations could have an adverse impact on Compagnie de Financement Foncier's results and profitability.

However, this risk is limited because as a *société de crédit foncier*, Compagnie de Financement Foncier must respect strict rules regarding the choice of the assets it holds, by verifying in particular the credit quality of its counterparties and ensuring that guarantees are in place.

In addition to these risk management procedures, Compagnie de Financement Foncier could, under certain extreme circumstances, be forced to recognize significant losses:

- on its portfolio of real estate loans to private individuals in the event of a sharp rise in defaults combined with a sudden and significant drop in the value of the properties used to guarantee these loans;
- in the case of the default of a public entity to which Compagnie de Financement Foncier has significant exposure, in particular Italy, the United States, Switzerland, and some Canadian and Japanese public entities.

Further, the cost of risk of Compagnie de Financement Foncier was a reversal of €11.5 million at 31 December 2019.

For further information, please refer to the 2019 Universal registration document of Compagnie de Financement Foncier (page 147).

The degradation of the financial stability and performance of other financial institutions and market players could have an unfavorable impact on Compagnie de Financement Foncier.

The ability of Compagnie de Financement Foncier to carry out its transactions could be affected by the financial stability of other financial institutions and market players. The financial institutions are closely interconnected, in particular due to their compensation, counterparty and financing activities. The default of an industry player, even simple rumors or questions concerning one or more financial institutions or the financial industry in general, can cause a generalized shrinking of liquidity in the market and thereafter lead to additional losses or defaults.

Compagnie de Financement Foncier is exposed to different financial counterparties such as commercial or investment banks and central counterparties with which it ordinarily conducts transactions whose default or failure to meet any of its commitments could have an unfavorable impact on the financial situation of Compagnie de Financement Foncier. This risk would be exacerbated if the assets held as collateral by Compagnie de Financement Foncier cannot be sold or if their price would not make it possible to cover all of the exposure of Compagnie de Financement Foncier for the exposures to derivative products in default.

At 31 December 2019, Compagnie de Financement's balance sheet stood at €71.5 billion. Assets and liabilities of Compagnie de Financement Foncier towards credit institutions and central banks break down as follows:

ASSET

<i>Of which :</i>	(€M)
Cash and amounts due from central banks	1,564
Loans and receivables due from credit institutions	23 067

LIABILITIES

<i>Of which :</i>	(€M)
Amounts due to central banks	0
Amounts due to credit institutions	4,436

1.2. Concentration risk

The volume of exposures in the Public sector is mainly concentrated in France, while abroad, the exposure of Compagnie de Financement Foncier on Public sector is subject to a few significant individual concentrations, particularly Italy for sovereigns and the Jehdra agency in Japan. As a reminder, Compagnie de Financement Foncier has no longer been purchasing Public sector loans abroad for several years. Real estate loans recognized in Compagnie de Financement Foncier's balance sheet are mainly composed of residential loans (assets with high granularity) produced in France. In the event that the French real estate market suffers a significant downturn, this could have adverse consequences on the quality of Compagnie de Financement Foncier's portfolio of real estate assets.

As of 31 December 2019, Compagnie de Financement Foncier's international exposure added up to €8,782 million, compared to €9,306 million on 31 December 2018, and is mainly distributed between Italy (€3.1 billion), North America (€1.9 billion), Switzerland (€1.1 billion) and Japan (€1.1 billion).

All of the outstanding assets of Compagnie de Financement Foncier's international sovereign portfolio (€2,581 million) have an internal rating at least equal to A-.

1.3. Country risk

Compagnie de Financement Foncier could be vulnerable to political, societal, macroeconomic and financial risk or to special situations in the countries in which it operates.

Compagnie de Financement Foncier is exposed to country risk, which is the risk that a foreign country's economic, financial, political or social conditions impact their financial interests. Due to the nature of its activity, Compagnie de Financement Foncier is particularly sensitive to the economic environment in France or elsewhere in Europe.

The European markets can experience disturbances that impact economic growth and can impact the financial markets.

Notably, a serious economic disruption (such as the 2008 financial crisis) can have a significant negative impact on the operations of Compagnie de Financement Foncier, in particular if the disruption is marked by a lack of market liquidity, making it difficult to carry out the funding activity provided by Compagnie de Financement Foncier on behalf of Crédit Foncier and Groupe BPCE.

Some risks are not the result of the immediate cycle due to their exogenous origin: the development of a global pandemic such as the Covid-19 coronavirus is a case in point.

The very recent emergence of Covid-19 and the rapid spread of the pandemic around the world have caused a significant deterioration in the economic situation in various business and financial sectors for economic actors. This has also resulted in significant disturbances in financial markets as the affected countries have had to institute quarantine measures for their populations, resulting in a sharp decline in the activities of many businesses. Massive budgetary policy initiatives have been implemented to support business activity in reaction to these events. This has particularly been the case for the French government (system of State-secured loans for businesses and professionals, private individuals, partial unemployment measures as well as numerous other tax, social and invoice payment measures) and the European Central Bank (greater and cheaper access to significant amounts of funding).

The Covid-19 pandemic poses a risk to Compagnie de Financement Foncier to the extent that:

- it is causing organizational changes (e.g. remote work) which could bring about an operational risk;
- it is slowing down exchanges in money markets and could have an impact on the liquidity supply;
- it is increasing customers' liquidity requirements and in particular the amounts loaned to these customers to enable them to withstand the crisis;

- it could cause an increase in corporate default, particularly among the more fragile corporations or in the sectors with the highest exposure;
- it is causing violent upheavals in the valuation of market assets, which could impact market activities and therefore funding activities.

Nevertheless, the impact of these various risks will be strongly mitigated by the massive corporate support measures implemented by the States and by the central banks' infusions of additional liquidity in markets and banks.

The evolution of the Covid-19 pandemic is a source of significant uncertainty; as of the approval date of the Base Prospectus, the impact of this situation and taking into account the aforementioned support measures, the impact on Compagnie de Financement Foncier's business lines (particularly funding for Groupe BPCE), its results (particularly net banking income and cost of risk) and its financial position (liquidity and solvency) is difficult to quantify.

Compagnie de Financement Foncier has significant exposure in international public entities, in particular in Italy, the United States, Switzerland and certain Canadian and Japanese public entities. These are subject to different macroeconomic influences, in particular through the actions of local central banks or structural reforms carried out therein, that could, in the long term, affect the quality of the loans concerned.

Nevertheless, the direct impact on Compagnie de Financement Foncier is expected to be moderate.

The international exposure of Compagnie de Financement Foncier was €8,782 million at 31 December 2019, compared with €9,306 million at 31 December 2018 and is divided between:

- the Italian and Polish sovereigns reaching €2.6 billion (before hedging swaps) following the disposals made. All of the outstanding assets of Compagnie de Financement Foncier's international sovereign portfolio have an internal rating at least equal to A- ;
- the outstanding balance of the International public sector (“IPS”) (excluding the sovereign) and large companies for €4.7 billion, down compared to 31/12/2018 (-0.6 billion) following the various disposals and amortization of these assets. Note that 71% of the portfolio has an internal rating at least equal to A;
- a portfolio outstanding counter-guaranteed by monolines on IPS, large companies and sovereigns exposures for €1.5 billion. Compagnie de Financement Foncier does not have any direct exposure to monolines but benefits from enhancements subscribed from them on certain assets in the portfolio.

2 FINANCIAL RISKS

2.1. Interest rate and options risks

Significant volumes of early repayments could unfavorably impact the net banking income and the profitability of Compagnie de Financement Foncier.

The prolonged period of decline in interest rates over the last few years increases the number of borrowers renegotiating their interest rates, generating therefore an interest rate downturn of the balance sheet exposures or early repayments.

Compagnie de Financement Foncier buys via its true sale model mortgages to private individuals at market prices. Although Compagnie de Financement Foncier hedges the interest rate risk of its exposures and resources at the macro and/or micro level, in the event of very high levels of interest-rate renegotiations or early repayments, Compagnie de Financement Foncier's net banking income would fall because the average rate of its asset exposures would fall faster than the average rate of its resources, and the early repayment penalties received would not fully cover the cost of adjusting the interest rate hedges.

In addition, Compagnie de Financement Foncier hedges all its assets and liabilities when they enter the balance sheet through the implementation of micro-hedging and/or macro-hedging derivatives. In the event of early repayment, the commission received may not cover the entire cost of this hedge and Compagnie de Financement Foncier will then be exposed to a cost that affects its net interest margin.

Early repayments and renegotiations of Compagnie de Financement Foncier represented 11.3% of loans at 31 December 2019, compared with 11.9% at 31 December 2018. The ongoing low interest rates explain the number of requests for early repayment and renegotiations.

2.2. Credit spread risks

Compagnie de Financement Foncier’s refinancing cost could be affected by a drop in the credit rating levels of its assets, its obligations foncières or its parent company.

In order to maintain a very competitive refinancing cost, Compagnie de Financement Foncier aims for the AAA credit rating of its obligations foncières: it carefully selects quality assets (acquired or assigned) and carefully controls the coverage ratio of its balance sheet compared to outstanding obligations foncières.

In the event of a severe financial crisis, the downgrading of the credit ratings of assets on the balance sheet or provided as collateral to Compagnie de Financement Foncier could negatively affect the AAA rating of its obligations foncières. In addition, the deterioration in the credit rating of Crédit Foncier or Groupe BPCE could also ultimately impact the AAA rating of the obligations foncières.

The decline in the credit rating of the obligations foncières would increase the refinancing cost of Compagnie de Financement Foncier and could potentially impair its profitability.

At 31 December 2019, the obligations foncières of Compagnie de Financement Foncier were rated AAA/Aaa/AAA with stable outlooks by three rating agencies (S&P, Moody’s and Scope Ratings).

Compagnie de Financement Foncier's outstandings have a good level of credit quality.

- Outstanding mortgage loans to individuals (internal rating):

- Portfolio of domestic public operators (Basel II rating)

- Social Housing portfolio (Basel II rating)

- Breakdown of exposures by internal rating on international public sector and large public sector corporations

* Net carrying amount before taking swaps into account.

2.3. Liquidity risk

Compagnie de Financement Foncier's liquidity could be affected in the event of a major financial crisis.

Compagnie de Financement Foncier derives its liquidity from several sources:

- the issue of *obligations foncières* on the market;
- the assignment of eligible assets for ECB refinancing and/or repo operations;
- the liquidity lines granted by Crédit Foncier and/or Groupe BPCE.

In the event of a major financial crisis, these sources of liquidity could dry up:

- closure of bond issuance markets;
- deterioration of the credit rating of assets acquired or pledged to Compagnie de Financement Foncier making them ineligible for ECB refinancing and/or repo operations;
- reduction of liquidity lines granted by Crédit Foncier and/or Groupe BPCE.

Nevertheless, at 31 December 2019, Compagnie de Financement Foncier held €9.9 billion in assets eligible for ECB operations. In addition, Compagnie de Financement Foncier has committed to having sufficient short-term cash to meet, at any time, the contractual maturities of its preferred debt for a period of one year in a run-off situation.

The Company's excess liquidity situation can also be identified using the Liquidity Coverage Ratio (LCR), which illustrates the institution's ability to cope with short-term liquidity stress.

Compagnie de Financement Foncier's Liquidity Coverage Ratio (LCR) complies with the regulatory threshold of 100% applicable since 1 January 2018. As of 31 December 2019, the Company had a liquidity reserve of €6.1 billion and a 30 days Net Cash Outflow (NCO) of €0.4 billion.

3 STRATEGIC, ACTIVITY AND ECOSYSTEM RISKS

3.1. Strategic and activity risks

Compagnie de Financement Foncier could be affected by an operational risk linked to Crédit Foncier's failure to adhere to the agreements it has entered into.

Given its status as a *société de crédit foncier*, Compagnie de Financement Foncier depends on resources supplied by its parent company to pursue its current activities and in particular, for management of mortgage loans. In accordance with agreements concluded between Crédit Foncier and Compagnie de Financement Foncier (including an agreement on debt management and recovery, an administrative and accounting management agreement, a service agreement on internal control and compliance, an agreement related to the implementation of information technology services, an agreement concerning human resources, an agreement related to settlement of bank services), Crédit Foncier is responsible for monitoring Compagnie de Financement Foncier's credit risks, counterparty risks, interest rate and foreign exchange risks, market risk, operational risk and liquidity and settlement risk.

Despite the risk being potentially remote, Compagnie de Financement Foncier could be exposed to the risk of noncompliance by Crédit Foncier with the agreements binding it to Compagnie de Financement Foncier.

However, this risk is well managed in the relations between the two establishments. Operational risks, as defined by the decree of 3 November 2014, are monitored by Crédit Foncier in the name and on behalf of Compagnie de Financement Foncier. This is represented on the Operational Risk Committee. Operational Risk Incidents concerning it and relating to an amount greater than €150,000 are also presented to the Executive Risk Committee of Compagnie de Financement Foncier. The volumes are minimal. Thus, in 2019, 5 incidents were presented for a total amount of €708 thousands.

The performance of Crédit Foncier on the matter is subject to a set of controls defined at the beginning of the year by every direction of Crédit Foncier. These control plans are validated by the Internal Control Committee chaired by the Chief Executive Officer. The control results are presented to this Internal Control Committee.

In addition, the Specific Controller of Compagnie de Financement Foncier performs controls in addition to the aforementioned controls and those carried out by the statutory auditors.

Finally, the Risk and Compliance Department and the staff in charge of monitoring Compagnie de Financement Foncier meet regularly and at least during quarterly meetings.

3.2. Ecosystem risks

MACROECONOMIC RISKS

In Europe, the recent economic and financial context has an impact on Compagnie de Financement Foncier and the markets on which it operates and this trend will continue.

If the economic or market conditions in France or elsewhere in Europe were to deteriorate, the markets in which Compagnie de Financement Foncier operates could experience disruptions and its activity, its results and its financial position could be unfavorably affected.

Compagnie de Financement Foncier's core activity is to raise liquidity on international markets. On average, 85% of its investors are foreign investors. A deterioration in the international macroeconomic environment may impact the refinancing model of Compagnie de Financement Foncier by modifying the asset allocation of investors toward a more prudent approach with more liquid assets: Compagnie de Financement Foncier would then potentially issue more limited volumes of covered bonds with higher margin levels, which would reduce Compagnie de Financement Foncier's net margin. On the asset side, Compagnie de Financement Foncier has a portfolio of €71.5 billion, exposed to France (88% of outstandings as of 31 December 2019) and abroad (12% of outstandings as of 31 December 2019), mainly of a public nature. A deterioration in the international macroeconomic situation would weaken the financial situation of certain borrowers who could then be faced with situations of arrears or defaults, which would affect the net margin of Compagnie de Financement Foncier.

REGULATORY RISK

In essence, the activity of Compagnie de Financement Foncier, which is essentially geared towards the issuance of covered bonds, is framed by strict and specific regulations whose respect must be ensured. Regulatory risk could weigh on the business prospects of Compagnie de Financement Foncier.

Laws and regulatory measures proposed in response to the global financial crisis could have a financial impact on Compagnie de Financement Foncier and on the financial and economic environment in which it operates.

Laws and regulations have been enacted or proposed to introduce a series of changes to the global financial framework, some of which are permanent. Although such new measures are intended to prevent a new global financial crisis, they are likely to radically alter the environment in which Compagnie de Financement Foncier and other financial institutions operate. Some of these measures could also increase the financing costs of Compagnie de Financement Foncier.

Without being exhaustive, one can cite the following measures, either approved or being considered: changes in regulations relating to covered bonds, new methodologies for credit risk weighting, creation of regulatory bodies or enhancement of the resources of existing bodies, taxes on financial transactions, etc. Some of these measures are only at the draft stage and their contents will probably be revised and interpreted, in particular for reasons of compliance with national prudential policies in each country.

Some of these measures could also increase the issuer's fixed costs.

Compagnie de Financement Foncier may be subject to additional constraints.

Compagnie de Financement Foncier's core activity consists in issuing covered bonds on the markets to refinance its own production and the one from Groupe BPCE entities. Among the new rules defined in the regulations above-mentioned, one of which being the new Covered Bond Directive ((EU) 2019 2162), there may be some leading to an increase in capital requirements, higher provisioning, the need for a new liquidity reserve to cover for the expected winding-down costs in case of liquidation, the need to provide some more reportings with more detailed data requiring more human resources that will increase the fixed costs of the company.

4 NON-FINANCIAL RISKS

4.1. Legal and reputation risks

Reputation risk, risk of misconduct and legal risk could impact the profitability and the business outlook of Compagnie de Financement Foncier.

The reputation of Compagnie de Financement Foncier is primordial for ensuring its loan refinancing activity – mainly in the Public sector – originated by the Group. As such, inadequate management of potential conflicts of interest, legal and regulatory requirements, ethical problems, poor conduct, laws concerning money laundering, the fight against terrorism, the requirements of economic sanctions, policies regarding data security and practices linked to methods of managing its activity, or any other poor conduct, could stain the reputation of Compagnie de Financement Foncier.

Any inappropriate behavior of an employee of Crédit Foncier, any fraud, misappropriation of funds or any other wrongdoing committed by any player in the financial sector to which Compagnie de Financement Foncier is exposed, any decrease, restatement or correction of financial results, or any other legal or regulatory action with a potentially unfavorable outcome could also damage its reputation. Any harm to the reputation of Compagnie de Financement Foncier could be accompanied by a loss of business, which could threaten its results and its financial position.

Compagnie de Financement Foncier's activity is based on the confidence of the financial markets and investors. Improper management of reputation risk could impact the conditions under which it issues covered bonds on the international market.

In the "dossier concerning a DOM operator", the procedures are multiple but the first decisions rendered were to the advantage of Compagnie de Financement Foncier. Also, the situation may still evolve, recourse having been exercised.

Concerning the effective annual interest rate (TEG rate), almost all of the court decisions delivered are favorable to the lender, the few unfavorable decisions being limited to imposing very weak or even symbolic sanctions. At this stage, the situation suggests that the legal and reputation risk is contained.

Inadequate management of these aspects could also increase the legal risk of Compagnie de Financement Foncier or expose it to sanctions from an authority.

For further information, please refer to the 2019 Universal registration document of Compagnie de Financement Foncier (page 131).

Groupe Crédit Foncier's ability to attract and retain qualified employees is crucial to the success of Compagnie de Financement Foncier's business, and any failure in this respect could affect its performance.

Groupe Crédit Foncier's employees are the most important resource for Compagnie de Financement Foncier, because Crédit Foncier is its sole service provider. Competition for qualified personnel is intense in many areas of the financial services sector. The results and performance of Compagnie de Financement Foncier depend directly on Crédit Foncier's ability to attract new employees and retain and motivate its current employees.

In addition to the risks presented above, other risks not identified to date or considered today as non-material for Compagnie de Financement Foncier could have an unfavorable impact on its activity, financial position, and/or results.

4.2 Security and information technology risk

An interruption or failure of computer systems of Compagnie de Financement Foncier or of third parties could lead to losses and costs.

Compagnie de Financement Foncier is highly dependent on its communication and information systems provided by IT-CE and BPCE-IT (Groupe BPCE service providers). These occur at the scope of groupe Crédit Foncier and are envisioned as part of a third-party applicative maintenance (see Risk Management Report - 7.5 "IT risk").

The Head of Information Systems Security for group Crédit Foncier is also in charge of the Compagnie de Financement Foncier scope.

Governance in terms of Information Systems Security at group Crédit Foncier is organized around:

- an Information Systems Security Policy (ISSP) specific to Crédit Foncier, and its thematic variations underpinned by the Security Policy and the rules of Groupe BPCE;
- bodies such as the Internal Information Systems Security Committee (IISSC) chaired by an Executive Director;
- outreach plan to raise awareness about cyber attacks and security risks among all employees;
- a permanent control mechanism for Information Systems Security, combined with a half-yearly security report (security indicators);
- indicators on the state of the security level of Crédit Foncier's Information System and, by extension, Compagnie de Financement Foncier.

This system is usefully supplemented by the resources of Groupe BPCE, which reinforce it with:

- use of the BPCE IT Operational Security Center, which has surveillance tools and devices to supervise atypical or threatening security events;
- the VIGIE system, community of IT Security players from Groupe BPCE;
- the CERT Groupe BPCE (Center for alert and reaction to computer attacks) which monitors and intervenes on identified external threats.

Thus, the main risk factors in terms of Information System Security can be addressed through the following items:

- availability of Information System and resources: in order to control this risk factor, a Contingency and Business Continuity Plan was implemented and then deployed. It is currently in the Maintenance in Operational Condition phase. It undergoes minimum annual tests and has demonstrated its effectiveness in the face of the Covid-19 pandemic. The residual risk relating to the availability of the service is low, given the organizational and operational measures put in place and tested regularly. However, the risk of flooding moderates this risk very slightly upward in light of the location of the Crédit Foncier premises which house Compagnie de Financement Foncier;
- integrity of the Information System, processing and data: with the outsourcing of its IT within Groupe BPCE, the integrity of its Information System is ensured by its two IT providers, BPCE IT and IT-CE. However, the Head of Information Systems Security exercises assiduous control over the processing and actions carried out in terms of Information System security of these two providers. The summary of this security monitoring is presented in the appropriate governance bodies. The residual integrity risk is rated as low: the integrity guarantee systems implemented by the IT Factory (BPCE IT and IT-CE) are likely to provide reasonable

assurance in terms of robustness and coverage of this factor. The tests conducted and control devices returned by the operator abound in this direction;

- confidentiality of processing and data: this factor is the subject of ongoing action and monitoring, both operationally by measures to restrict access to data and processing and in terms of control, with regular reviews of access to treatments and data. This monitoring is subject to supervision by the ISS Governance body of Crédit Foncier. The residual confidentiality risk is low taking into account the provisions presented above. Controlling rights reviews according to the principle of least privilege and separation of functions and the provisions for controlling data leaks (closing USB ports, strengthening password policies, managing high-privileged accounts, etc.) are also likely to further control this risk;
- proof device: this risk is dealt with through the implementation, by these two IT service providers, of traceability devices for transactions carried out on Crédit Foncier's Information System and therefore of Compagnie de Financement Foncier joined to a history of operations carried out by users. The residual risk relating to the evidence is low: the mechanisms for historicizing operations, both technical and business, are regularly tested for operational needs. Note that the GDPR rules are likely to accentuate the control of this risk.

In summary, the residual risk, taking into account measures in place and being monitored, is rated as low for Crédit Foncier and therefore by extension for Compagnie de Financement Foncier.

For further information, please refer to the 2019 Universal registration document of Compagnie de Financement Foncier.

4.3. Execution, delivery and process management risks

The failure or the unsuitability of Compagnie de Financement Foncier's risk management policies, procedures and strategies could expose it to unidentified or unanticipated risks leading to losses.

Crédit Foncier group's risk policy aims to mitigate these risks and allow for the development of activities across all its businesses and entities, in a framework that secures profitability and equity. It expresses the establishment's risk tolerance in compliance with BPCE standards and limits and, as a result, is available according to the various risk standards, umbrella charters and delegations.

The risk policy is consistent with the risk macro-mapping and the Risk Appetite Framework. These three documents are approved by the Supervisory Body.

The risk management procedures as well as the measures to reduce the various risk typologies regarding Crédit Foncier group, including Compagnie de Financement Foncier, are standardized.

The risk policy must imperatively be translated by the business lines through their operational procedures.

In addition, it is specified that the role of the Specific Controller is in particular to assess the quality of the risk management and the monitoring procedures implemented by Compagnie de Financement Foncier.

These risk reduction methodologies, including in particular procedures, macro mapping, which are reviewed regularly, as well as Comitology, lead us to consider that the risk is low.

RISK FACTORS RELATING TO THE NOTES

1 RISKS RELATED TO ALL SERIES OF NOTES

1.1 Risks related to the legal framework applicable to the Issuer

(a) Risk arising from the implementation of Basel III Risk-Weighted Asset Framework

On 16 December 2010 and 13 January 2011, the Basel Committee on Banking Supervision (the “**Basel Committee**”) published a revised framework (“**Basel III**”), including new capital and liquidity standards for credit institutions such as the Issuer.

In particular, the changes introduced by Basel III refer to, amongst other things:

- a complete review of the capital standards;
- the introduction of a leverage ratio; and
- the introduction of short-term and longer-term standards for funding liquidity (referred to as the “*Liquidity Coverage Ratio*” and the “*Net Stable Funding Ratio*”).

In December 2017, the Basel Committee’s finalised Basel III reforms have complemented these improvements to the global regulatory framework. The revisions seek to restore credibility in the calculation of risk-weighted assets (RWAs) and improve the comparability of banks’ capital ratios by:

- enhancing the robustness and risk sensitivity of the standardised approaches for credit risk, credit valuation adjustment (CVA) risk and operational risk;
- constraining the use of the internal model approaches, by placing limits on certain inputs used to calculate capital requirements under the internal ratings-based (IRB) approach for credit risk and by removing the use of the internal model approaches for CVA risk and for operational risk;
- introducing a leverage ratio buffer to further limit the leverage of global systemically important banks (G-SIBs); and
- replacing the existing Basel II output floor with a more robust risk-sensitive floor based on the Committee’s revised Basel III standardised approaches.

Implementation dates and transitional arrangements related to the standards described above have been included with a main trigger in January 2023, and they will be fully phased in by 1 January 2028.

The European authorities have indicated that they support the work of the Basel Committee on the approved changes made in 2011 in general. Banking regulations implementing the Basel III reforms were adopted on 26 June 2013: Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the “**CRD IV Directive**”) and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the “**CRD IV Regulation**” and together with the CRD IV Directive, “**CRD IV**”). A number of new requirements arising from the CRD IV was implemented under French law through Law no. 2013-672 dated 26 July 2013 relating to the separation and regulation of banking activities. The implementation of the CRD IV at the legislative level was finalized under French law by Ordinance n°2014-158 dated 20 February 2014 and subsequent implementing decrees and “*arrêtés*”.

Banking regulations amending CRD IV were adopted on 20 May 2019: Directive (EU) 2019/878 of the European Parliament and of the Council of 20 May 2019 amending the CRD IV Directive as regards exempted entities,

financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures (the “**CRD IV Directive Revision**” and together with the CRD IV Directive, the “**CRD V Directive**”) and Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending the CRD IV Regulation as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and Regulation (EU) 648/2012 (the “**CRD IV Regulation Revision**” and together with the CRD IV Regulation, the “**CRD V Regulation**” and together with the CRD V Directive, “**CRD V**”), both entering into force on 27 June 2019. The CRD IV Directive Revision will be implemented under French law within 18 months from 27 June 2019. Certain portions of the CRD IV Regulation Revision will apply immediately as from 27 June 2019 (including those applicable to capital instruments and TLAC instruments) while others shall apply as from 28 June 2021. CRD V will implement the Basel Committee’s finalised Basel III reforms dated December 2017.

The implementation of Basel III, the CRD IV, the CRD V and any of their expected amendments have and will continue to bring about a number of substantial changes to the current capital requirements, prudential oversight and risk-management systems, including those of the Issuer. The direction and the magnitude of the impact of Basel III will depend on the particular asset structure of each credit institution and its precise impact on the Issuer cannot be quantified with certainty at this time. The Issuer may operate its business in ways that are less profitable than its present operation in complying with the guidelines resulting from the transposition of the CRD IV and of the CRD V.

The implementation of Basel III, the CRD IV, the CRD V and any of their expected amendments could affect the risk weighting of the Notes in respect of certain Noteholders to the extent that those Noteholders are subject to the new guidelines resulting from the implementation of the Capital Requirements Directives. This could materially affect the current capital requirements of the Issuer and could have a significant adverse effect on the market value of the Notes and Noteholders may, as a result, lose all or part of the investment in the Notes.

(b) Risks arising from the implementation of the Bank Recovery and Resolution Directive

Directive 2014/59/EU of the European Parliament and of the Council of the European Union dated 15 May 2014 establishing a EU-wide framework for the recovery and resolution of credit institutions and investment firms (the “**Bank Recovery and Resolution Directive**” or “**BRRD**”), supplemented by Regulation 806/2014/EU (called the Single Resolution Mechanism or “**SRM**”) and transposed in France by the Ordinance No. 2015-1024 of 20 August 2015. The BRRD has been amended by Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 which shall be implemented under French law within 18 months from the date of its entry into force on 27 June 2019. The regime provided for by the BRRD is, among other things, stated to be needed to provide the authority designated by with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimizing the impact of an institution's failure on the economy and financial system.

The measures available to banking institutions aim to ensure the continuity of the critical financial and economic functions of the latter, while minimizing the overall impact of their possible failure so as to:

- protect customer funds and assets, and in particular those of depositors;
- safeguard the resources of the Member State on which the institution depends by minimizing the need for extraordinary public financial support; and
- avoid serious adverse effects on financial stability.

Four resolution tools are provided for this purpose: the transfer of some activities, the use of a bridge bank, the separation of assets and a bail-in. This last option provides resolution authorities with the ability to depreciate (even

down to zero) some rights of subordinated creditors of a failing institution and to convert certain subordinated debt into equity.

The obligations foncières issued by Compagnie de Financement Foncier are explicitly excluded from this bail-in mechanism, except, where appropriate, for the fraction of the issuer's outstanding obligations foncières that would exceed the value of the hedging portfolio guaranteeing them. This amount should be zero in the vast majority of possible scenarios, due to the existing collateralization between the hedging portfolio and the obligations foncières outstanding, and to this portfolio's margin. However, the occurrence of the risk cannot be completely excluded at a given time, the hedging portfolio being no longer sufficient to ensure all the obligations foncières outstanding. This risk, if it were to materialize, could nevertheless only concern an insignificant fraction of the outstanding obligations foncières involved.

(c) Potential conflicts of interest with the Dealers and/or the Calculation Agent

Certain of the Dealers and, as the case may be, the calculation agent and their respective affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of Notes. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

In addition, potential conflicts of interest may exist between Noteholders and the calculation agent (including where a Dealer acts as a calculation agent) or any agent appointed for a Tranche of Notes, including with respect to certain determinations and judgements that such agent may make pursuant to the Terms and Conditions of the Notes that may influence amounts receivable by the Noteholders during the term of the Notes and upon their redemption. If the Issuer appoints a Dealer as calculation agent in respect of an issuance of Notes under the Programme, the calculation agent is likely to be a member of an international financial group that is involved, in the ordinary course of its business, in a wide range of banking activities out of which conflicting interests may arise. Whilst such a calculation agent will, where relevant, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by Noteholders during the term and on the maturity of the Notes or the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

1.2 Risks related to the terms and conditions of the Notes

(a) The Notes may be issued with a specific use of proceeds

The Issuer may issue Notes the proceeds of which are intended to be used to finance or refinance, in part or in full, new and/or existing (i) eligible loans for social assets and/or projects, (ii) eligible loans for green assets and/or projects and (iii) any other category specified in the applicable Final Terms (together, the “**Eligible Assets**”) falling within the framework of the sustainable development bond program of Groupe BPCE (as amended from time to time) published in the dedicated section of the website of BPCE.

For the avoidance of doubt, payment of principal and interest (as the case may be) in respect of such Notes will be made from general funds of the Issuer and will not be directly or indirectly linked to the performance of Eligible Assets.

There is currently no market consensus on what precise attributes are required for a particular asset to be defined as "green", "social" or "sustainable", and the Eligible Assets will satisfy, whether in whole or in part, any present or future Noteholder's expectations or requirements as regards any investment criteria or guidelines with which such Noteholder or its investments are required to comply.

Any failure to use the net proceeds from such Notes on Eligible Assets or to meet or continue to meet the investment requirements of certain environmentally, socially or sustainably focused Noteholders with respect to such Notes may affect the value of the Notes and/or may have consequences for certain Noteholders with portfolio mandates to invest in green, social and/or sustainable assets and consequently, Noteholders could be adversely affected.

(b) Modification and waivers and substitution

Condition 10 of the Terms and Conditions of the Notes contains provisions for calling General Meetings of Noteholders or consulting them by way of a Written Resolution (each as defined and described in Condition 10 of the Terms and Conditions of the Notes) to consider certain matters affecting their interests generally (if the relevant Final Terms specify "*No Masse*", Noteholders will not be grouped in a *masse* having legal personality governed by the provisions of the French *Code de commerce* and will not be represented by a representative of the *masse*), including without limitation the modification of the Terms and Conditions of the Notes. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant general meeting or consultation by way of a resolution in writing and Noteholders who voted in a manner contrary to the majority. General Meetings may deliberate or Written Resolutions may be adopted on proposals relating to the modifications of the Terms and Conditions of the Notes subject to the limitation provided by French law.

However, the Issuer has the option to decide that Noteholders with an initial denomination of, or which can only be traded in amounts of, at least €100,000 or its equivalent in other currencies at the time of issue will not be grouped in a *masse* having legal personality governed by the provisions of the French *Code de commerce* and will not be represented by a representative of the *masse*.

If a decision is adopted by a majority of Noteholders and such modifications were to impair the rights of Noteholders, this may have a negative impact on the market value of the Notes.

2 RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES

2.1 Redemption Risks

(a) Extendible Notes may be redeemed after their initial maturity

As contemplated in Condition 6 (a) of the Terms and Conditions of the Notes, the Maturity Date of Extendible Notes may be extended automatically until the Extended Maturity Date (as specified in the applicable Final Terms). The payment of the unpaid Final Redemption Amount may be automatically deferred and shall become due and payable on the Extended Maturity Date, provided that the Final Redemption Amount unpaid on the Maturity Date may be paid by the Issuer on any Interest Payment Date occurring thereafter up to and including the Extended Maturity Date. In addition, interest payable in respect of Extendible Notes may differ after the initial Maturity Date.

The extension of the maturity of the Notes from the Maturity Date to the Extended Maturity Date will not result in any right of the Noteholders to accelerate payments or take action against the Issuer and will result in a delay of payments of principal on the relevant Notes.

The situation of the Issuer may change between the initial Maturity Date and the Extended Maturity Date. Investors may not be repaid in full at the initial Maturity Date but at the Extended Maturity Date and the market value of the Notes between the initial Maturity Date and the Extended Maturity Date might be significantly affected.

(b) Notes subject to optional redemption by the Issuer

Pursuant to Condition 6 (e) and if the relevant Final Terms specifies that the Notes are redeemable at the Issuer's option in certain circumstances, the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. During a period when the Issuer may elect, or has elected, to redeem Notes, such Notes may feature a market value not substantially above the price at which they can be redeemed. In such circumstances a Noteholder may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the Notes.

If the Issuer decides to redeem the Dematerialised Notes in part only, such partial redemption shall be effected by reducing the nominal amount of all such Dematerialised Notes in proportion to the aggregate nominal amount redeemed. Depending on the proportion of the principal amount of all of the Dematerialised Notes so reduced, any trading market in respect of those Dematerialised Notes in respect of which such option is not exercised may become illiquid.

Furthermore, as a consequence of an early redemption, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. The Noteholder may thus not receive the total amount of the capital invested. In addition, investors that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the redeemed Notes.

2.2 Interest Rate Risks

(a) Fixed Rate Notes

Condition 5(b) of the Terms and Conditions of the Notes allows for the issuance of Notes that pay a fixed rate of interest to Noteholders. Investment in Notes which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of Notes and Noteholders may lose all or part of their investment in the Notes and therefore their interests may be negatively altered. While the nominal interest rate of the fixed rate Notes is fixed during the term of such Notes, the current interest rate on the capital markets ("**market interest rate**") typically varies on a daily basis. As the market interest rate changes, the market value of the Fixed Rate Notes would typically change in the opposite direction. If the market interest rate increases, the market value of the Fixed Rate Notes would typically fall, until the yield of such Notes is approximately equal to the market interest rate. If the market interest rate falls, the market value of the Notes would typically increase, until the yield of such Notes is approximately equal to the market interest rate. The degree to which the market interest rate may vary presents a significant risk to the market value of the Fixed Rate Notes if a Noteholder were to dispose of the Notes. Therefore, the price of the Notes at any particular time may be lower than the purchase price of the Notes paid by the Noteholder. As a consequence, part of the capital invested by the Noteholder may be lost on any transfer of the Notes, so that the Noteholder in such case would not receive the total amount of the capital invested.

(b) Floating Rate Notes

Condition 5(c) of the Terms and Conditions of the Notes allows for the issuance of Notes that pay a floating rate of interest to Noteholders. A key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, Noteholders are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the relevant Final Terms provide for

frequent interest payment dates, Noteholders are exposed to reinvestment risk if market interest rates decline. That is, Noteholders may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to also issue Fixed Rate Notes may affect the market value and the secondary market (if any) of the Floating Rate Notes (and *vice versa*).

Investment in Notes which bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the Final Terms) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate Notes may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate. The interest amount payable on any Interest Payment Date may be different from the amount payable on the initial or previous Interest Payment Date and may negatively impact the return under the Notes and result in a reduced market value of the Notes if a Noteholder were to dispose of its Notes.

(c) Fixed/Floating Rate Notes

Condition 5(d) of the Terms and Conditions of the Notes allows the issue of Fixed/Floating Rate Notes. Fixed/Floating Rate Notes initially bear interest at a rate, which may be a Fixed Rate or a Floating Rate or which is linked to a Product of Spread Formula, as specified in the relevant Final Terms; conversion to another rate, which may be a Fixed Rate or a Floating Rate or which is linked to a Product of Spread Formula, as specified in the relevant Final Terms then takes place either automatically or at the option of the Issuer on a date set out in the relevant Final Terms. The conversion (whether it be automatic or optional) of the interest rate will affect the secondary market and the market value of the Notes since the conversion may lead to a lower overall cost of borrowing. If a fixed rate is converted to a floating rate or a rate linked to a formula, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes or Formula Linked Notes tied or linked, as applicable, to the same reference rate. In addition, the new floating rate or rate linked to a formula at any time may be lower than the rates on other Notes and could affect the market value of an investment in the relevant Notes. Therefore, Noteholders could receive a lower return on the Notes and, as a result, lose all or part of the investment in the Notes.

(d) Notes issued at a substantial discount or premium

The relevant Final Terms will specify the relevant issue price. The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. It is difficult to anticipate future market volatility in interest rates, but any such volatility may have a significant adverse effect on the value of the Notes. Therefore, Noteholders issued at a substantial discount or premium could be exposed to greater losses on their investment than holders of conventional interest bearing securities.

(e) Zero Coupon Notes are subject to higher price fluctuations than non-discounted bonds

Condition 5(e) of the Terms and Conditions of the Notes allows for the issuance of Notes that pay no interest to Noteholders. Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary Notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other Notes having the same maturity and credit rating. Due to their leverage effect, Zero Coupon Notes are a type of investment associated with a particularly high price risk. Therefore, in similar market conditions the holders of Zero Coupon Notes could be

subject to higher losses on their investments than the holders of other instruments such as Fixed Rate Notes or Floating Rate Notes. Any such volatility may have a significant adverse effect on the market value of the Notes and Noteholders may, as a result, lose all or part of the investment in the Notes.

(f) Inflation Linked Notes

As per Condition 5(c)(iv) of the Terms and Conditions of the Notes, the Issuer may issue Notes with principal or interest determined by reference to the rate of inflation in a country or in the European Monetary Union (“**Inflation Linked Notes**”), where interest amounts and/or principal are dependent upon the performance of an inflation index, which will be one of (i) the consumer price index (excluding tobacco) for all households in France or the relevant substitute index (the “**CPI**”), as calculated and published monthly by the *Institut National de la Statistique et des Etudes Economiques* (“**INSEE**”), or (ii) the harmonised index of consumer prices (excluding tobacco), or the relevant substitute index, measuring the rate of inflation in the European Monetary Union as calculated and published monthly by Eurostat (the “**HICP**”). If the value of the relevant index calculated at any time prior to the maturity is lower than the value of the relevant index at the time of the issue of the Notes or at the time of purchase by the Noteholders, then the amount of interest payable by the Issuer and/or the principal of Inflation Linked Notes may vary. Noteholders may receive no interest. However, if the nominal amount to be repaid at maturity is below par, the Inflation Linked Notes will be redeemed at par.

Neither the current nor the historical levels of any of the inflation indices should be taken as an indication of future performance of such index during the term of any Inflation Linked Notes. Noteholders are exposed to the risk that changes in the levels of the inflation index may adversely affect the value of such Notes and as a result, Noteholders could lose part of their investment. Inflation Linked Notes can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features.

An investment in structured Notes (such as Inflation Linked Notes), the premium and/or the interest on or principal of which is determined by reference to one or more values, interest rates or other indices or formulae, either directly or inversely, therefore entail significant risks not associated with similar investments in a conventional debt security, including the risks that the resulting interest rate will be less than that payable on a conventional debt security at the same time and/or that a Noteholder may lose the value of its entire investment or part of it, as the case may be.

(g) Variable rate Notes with a multiplier or other leverage factor

As per Condition 5(c) of the Terms and Condition of the Notes, a leverage or other factor may be applied to certain Notes in order to determine the Rate of Interest and/or redemption amount. Such leverage factor will magnify any negative performance of the underlying.

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features. Variable rate Notes with a multiplier or other leverage factor can be particularly volatile investments and such volatility may have a significant adverse effect on the market value of the Notes.

(h) Structured Notes

As per Condition 5(c) of the Terms and Condition of the Notes, an investment in Notes, the premium and/or the interest on or principal of which is determined by reference to one or more values, interest rates or other indices or formulae, either directly or inversely, may entail significant risks not associated with similar investments in a conventional debt security, including the risks that the resulting interest rate will be less than that payable on a conventional debt security at the same time and/or that a Noteholder may lose the value of its entire investment or part of it, as the case may be. Neither the current nor the historical value of the relevant interest rates or other indices

or formulae should be taken as an indication of future performance of such currencies, commodities, interest rates or other indices or formulae during the term of any Note. Accordingly, an investment in any such Notes may entail significant risks not associated with similar investments in convention debt securities. Any such volatility may have a significant adverse effect on the market value of the Notes and Noteholders may, as a result, lose all or part of the investment in the Notes.

(i) Notes subject to inverse exposure

As per Condition 6 of the Terms and Condition of the Notes, one factor in the determination of the Final Redemption Amount or Optional Redemption Amount of Variable Zero Coupon Redemption Notes and the Rate of Interest of Reverse Floater Formula Notes is fixed rate minus the underlying rate. The market value of those Notes typically are more volatile than market values of other conventional debt securities based on the same underlying rate (and with otherwise comparable terms). Those types of Notes are more volatile because an increase in the value of the underlying rate not only decreases the Final Redemption Amount or Optional Redemption Amount of the Notes and therefore Noteholders could receive a lower return on the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of such Notes.

(j) Caps and floors (including Minimum and Maximum Rate of Interest)

As specified in the relevant Final Terms, Notes may be subject to a cap and a floor. The Noteholder, therefore, will not fully participate in the positive performance of the underlying rate where the cap applies and the interest rate and/or redemption amount may be lower than it would have been without a cap. Conversely, the Noteholder will be protected, to the extent of any applicable floor, from the negative performance of the underlying rate. Any cap or floor may be specified as 'not applicable' in the applicable Final Terms. In such circumstances, the cap will be infinity and the floor will be zero (0) and the Noteholder will be more exposed to the positive and negative performance of the underlying. Any such volatility may have a significant adverse effect on the market value of the Notes and Noteholders may, as a result, lose all or part of the investment in the Notes.

(k) Maximum-Minimum VolBond Formula

As per Condition 5(c)(v)(G) of the Terms and Conditions of the Notes, one factor in the determination of the interest rate for Notes for which the Maximum-Minimum VolBond Formula is applicable is the lowest level of the underlying rate observed during the relevant reference period subtracted from the highest level of the underlying rate observed during the relevant reference period. A Noteholder will not therefore fully benefit from the highest level of the underlying rate during the relevant reference period. Changes in the level of the underlying rate may have disproportionate consequences on the interest amounts paid in respect of the Notes and Noteholders may not receive any interest amounts reflecting any positive performance of the underlying rate. Such volatility may have a significant adverse effect on the market value of the Notes. Please also see risk factors 2.2 (g) (*Variable rate Notes with a multiplier or other leverage factor*), 2.2 (h) (*Structured Notes*) and 2.2 (j) (*Caps and floors (including Minimum and Maximum Rate of Interest)*), which may also be applicable to such Notes.

(l) Pre/Post VolBond Formula

As per Condition 5(c)(v)(H) of the Terms and Conditions of the Notes, one factor in the determination of the interest rate for Notes for which the Pre/Post VolBond Formula is applicable is the difference between the level of the underlying rate on two specified days within the relevant reference period. A Noteholder may not therefore benefit from the highest level of the underlying rate during the relevant reference period and may not receive any interest amounts reflecting any positive performance of the underlying rate. Changes in the level of the underlying rate may have disproportionate consequences on the interest amounts paid in respect of the Notes and Noteholders may not receive any interest amounts reflecting any positive performance of the underlying rate. Such volatility may have a significant adverse effect on the market value of the Notes.

Please also see risk factors 2.2 (g) (*Variable rate Notes with a multiplier or other leverage factor*), 2.2 (h) (*Structured Notes*) and 2.2 (j) (*Caps and floors (including Minimum and Maximum Rate of Interest)*), which may also be applicable to such Notes.

(m) Digital Formula

As per Condition 5(c)(v)(I) of the Terms and Conditions of the Notes, the interest rate for Notes for which the Digital Formula is applicable is linked to the value of an underlying rate, and in particular, whether the value of the underlying rate on a relevant observation date falls within a specified range. If the value of the underlying rate falls within the range, a different interest rate will apply (the “**Formula Rate**”) than the rate that would have applied if the value of the underlying rate had not fallen within the range (the “**Fixed Percentage**”). When the Fixed Percentage applies, (1) the Fixed Percentage may be lower than the Formula Rate (with the result that the return on the Notes, and the value of the Notes, falls) and (2) any increases in market interest rates may adversely affect the value of the Notes. When the Formula Rate applies, (1) the Formula Rate may be lower than the Fixed Percentage (with the result that the return on the Notes, and the value of the Notes, falls) and (2) the spread on the Notes may be less favourable than the spread on other floating rate securities issued by the Issuer which are linked to the same underlying rate.

Please also see the risk factor 2.2 (o) (*Product of Spread Formula*) (as the interest rate for Notes for which the Formula Rate is applicable is determined in a similar way to the interest rate for Notes for which the Product of Spread Formula is applicable).

Small changes in the value of the underlying rate may have disproportionate consequences on the interest amounts paid in respect of the Notes and Noteholders may not receive any interest amounts reflecting any positive performance of the underlying rate. Any such volatility may have a significant adverse effect on the market value of the Notes and Noteholders may, as a result, lose all or part of the investment in the Notes.

Please also see risk factors 2.2 (g) (*Variable rate Notes with a multiplier or other leverage factor*), 2.2 (h) (*Structured Notes*) and 2.2 (j) (*Caps and floors (including Minimum and Maximum Rate of Interest)*), which may also be applicable to such Notes.

(n) Range Accrual Formula

As per Condition 5(c)(v)(K) of the Terms and Conditions of the Notes, one factor in the determination of the interest rate for Notes for which the Range Accrual Formula is applicable is the number of Range Accrual Days in the relevant observation period in respect of which the value of the underlying rate falls within a specified range. Such number of Range Accrual Days is divided by the total number of Range Accrual Days in the relevant observation period to give the relevant accrual factor. In the event that the value of the underlying rate is not within the range on any Range Accrual Day during the relevant observation period, the accrual factor will be zero (0). If the accrual factor is zero (0), the interest rate relevant to the Notes could also be zero (0). It is difficult to anticipate future market volatility in interest rates, but any such volatility may have a significant adverse effect on the value and marketability of the Notes and Noteholders could lose all or part of their investment.

Please also see risk factors 2.2 (g) (*Variable rate Notes with a multiplier or other leverage factor*), 2.2 (h) (*Structured Notes*) and 2.2 (j) (*Caps and floors (including Minimum and Maximum Rate of Interest)*) which may also be applicable to such Notes.

(o) Product of Spread Formula

As per Condition 5(c)(v)(J) of the Terms and Conditions of the Notes, one factor in the determination of the interest rate for Notes for which the Product of Spread Formula is applicable is the difference between the level of two different underlying rates on a specified day. A Noteholder will not therefore benefit from the highest level of either underlying rate during the relevant reference period. Therefore, Noteholders could receive a lower return on the Notes and, as a result, lose part of the investment in the Notes.

Please also see risk factors 2.2 (g) (*Variable rate Notes with a multiplier or other leverage factor*), 2.2 (h) (*Structured Notes*) and 2.2 (j) (*Caps and floors (including Minimum and Maximum Rate of Interest)*), which may also be applicable to such Notes.

(p) Issuer Rate Switch Option

As per Condition 5(m)(i) of the Terms and Conditions of the Notes and where Issuer Rate Switch Option is applicable in the Final Terms, the Issuer may elect that the interest rate for the relevant Notes will be changed such that the relevant interest rate is determined as though such Notes were Fixed Rate Notes or Floating Rate Notes, as specified in the Final Terms (such changed method of determining the relevant interest rate being the **Post Switch Rate**).

Noteholders will have no control over whether or not this option is exercised by the Issuer. If the Issuer elects to exercise such option this may negatively affect the interest rate and therefore the value of the Notes. As a result, the return under the Notes may be negatively impacted and this would result in a reduced market value of the Notes if the Noteholders were to dispose of their Notes.

(q) Rate Lock-In

As per Condition 5(m)(ii) of the Terms and Conditions of the Notes and where Rate Lock-In is applicable in the Final Terms, if the interest rate of the relevant Notes is equal to or greater than a specified percentage on an interest observation date, the interest rate for the relevant interest accrual period and for each subsequent interest accrual period shall be equal to the rate of interest on such date plus or minus a margin, as specified in the relevant Final Terms.

Noteholders will have no control over whether or not such lock-in will occur which is dependent on the value of an underlying rate. The lock-in may or may not be beneficial for Noteholders and this feature may negatively impact the value of the Notes.

(r) Reform and regulation of “benchmarks”

As per Condition 5(c) of the Terms and Conditions of the Notes and where the relevant Final Terms for a Series of Floating Rate Notes identifies that the Rate of Interest for such Floating Rate Notes will be determined by reference to interest rates and indices which are deemed to be “benchmarks” (such as CMS Rate, EURIBOR, EONIA, LIBOR, TEC 10 or any other reference rate specified in the relevant Final Terms), such “benchmarks” are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such Benchmarks to perform differently from the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences that cannot be predicted. Any such consequence could have a material adverse effect on the liquidity and value on any Notes linked to or referencing such a “benchmark”.

Regulation (EU) 2016/1011 of the European Parliament and of the Council on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the “**Benchmark Regulation**”) was published in the European official journal on 29 June 2016 and applicable since 1 January 2018.

The Benchmark Regulation applies to “contributors”, “administrators” and “users” of “benchmarks” in the EU, and among other things, (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based and non-UK based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of “benchmarks” (or, if non EU based, to be subject to equivalent requirements) and (ii) prevents certain uses by EU supervised entities of “benchmarks” of administrators that are not authorised/registered (or, if non EU based and non-UK based, deemed equivalent or recognised or endorsed). The scope of the Benchmark Regulation is wide and, in addition to so-called “critical benchmark” indices, applies to many interest rate and foreign exchange rate indices, equity indices and other indices (including “proprietary” indices or strategies) where used to determine the amount payable under or the value or performance

of certain financial instruments traded on a trading venue or via a systematic internaliser, financial contracts and investment funds.

The Benchmark Regulation could have an adverse impact on any Notes linked to a rate or index deemed to be a “benchmark”, in particular if the methodology or other terms of the “benchmark” are changed in order to comply with the requirements of the Benchmark Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark. More broadly, any of the international, national or other proposals for reform or the general increased regulatory scrutiny of “benchmarks” or any further uncertainty in relation to the timing and manner of implementation of such changes could increase the costs and risks of administering or otherwise participating in the setting of a “benchmark” and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain “benchmarks”, trigger changes in the rules or methodologies used in certain “benchmarks” or lead to the disappearance of certain “benchmarks”.

Any of the above changes or any other consequential changes as a result of international, national or other proposals for reform or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to a “benchmark”.

Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 has amended the existing provisions of the Benchmarks Regulation by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2021.

Whilst alternatives to certain IBORs for use in the bond market (including SONIA (for Sterling LIBOR) and rates that may be derived from SONIA) are being developed, outstanding Notes linked to or referencing an IBOR may transition away from such IBOR in accordance with the particular fallback arrangements set out in their Terms and Conditions. The operation of these fallback arrangements could result in a different return for Noteholders and Couponholders (which may include payment of a lower Rate of Interest) than they might receive under other similar securities which contain different or no fallback arrangements (including which they may otherwise receive in the event that legislative measures or other initiatives (if any) are introduced to transition from any given IBOR to an alternative rate). Where Screen Rate Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes or Formula Linked Notes is to be determined, and LIBOR, EURIBOR, EONIA or another Reference Rate (each, an “**Original Reference Rate**”) has been selected as the Reference Rate, the Terms and Conditions of the Notes provide that the Rate of Interest shall be determined by reference to the Relevant Screen Page (or its successor or replacement). In circumstances where the Original Reference Rate is discontinued, neither the Relevant Screen Page, nor any successor or replacement may be available.

Where the Relevant Screen Page is not available, the Terms and Conditions of the Notes provide for the Rate of Interest to be determined by the Calculation Agent by reference to offered quotations from banks communicated to the Calculation Agent. Where such offered quotations are not available (as may be the case if the relevant banks are not submitting rates for the determination of such Original Reference Rate), the Rate of Interest may ultimately revert to the Rate of Interest applicable as at the last preceding Interest Determination Date before the Original Reference Rate was discontinued. If such Original Reference Rate is permanently discontinued, the same Rate of Interest will continue to be the Rate of Interest for each successive Interest Period until the maturity of the Floating Rate Notes or Formula Linked Notes so that such Notes will, in effect, become fixed rate notes utilising the last available relevant Reference Rate and, as a result, Noteholders will not benefit from an increase (if any) in market interest rates which may have occurred since the preceding Interest Period. Uncertainty as to the continuation of such Original Reference Rate, the availability of offered quotations from reference banks, and the rate that would be applicable if such Original Reference Rate is discontinued may adversely affect the value of, and return on, the Floating Rate Notes or Formula Linked Notes.

If a Benchmark Event (as defined in Condition 5(a)) (which, amongst other events, includes the permanent discontinuation of an Original Reference Rate) occurs, the Issuer shall use its reasonable endeavours to appoint an

Independent Adviser. The Independent Adviser shall endeavour to determine a Successor Rate or Alternative Rate to be used in place of the Original Reference Rate. The use of any such Successor Rate or Alternative Rate to determine the Rate of Interest is likely to result in Notes initially linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply in its current form.

Furthermore, if a Successor Rate or Alternative Rate for the Original Reference Rate is determined by the Independent Adviser, the Terms and Conditions of the Notes provide that the Issuer may vary the Terms and Conditions of the Notes, as necessary to ensure the proper operation of such Successor Rate or Alternative Rate, without any requirement for consent or approval of the Noteholders.

If a Successor Rate or Alternative Rate is determined by the Independent Adviser, the Terms and Conditions of the Notes also provide that an Adjustment Spread may be determined by the Independent Adviser and applied to such Successor Rate or Alternative Rate. The aim of the Adjustment Spread is to reduce or eliminate, to the extent reasonably practicable, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate. However, it may not be possible to determine or apply an Adjustment Spread and even if an Adjustment Spread is applied, such Adjustment Spread may not be effective to reduce or eliminate economic prejudice to Noteholders and Couponholders. If no Adjustment Spread can be determined, a Successor Rate or Alternative Rate may nonetheless be used to determine the Rate of Interest. The use of any Successor Rate or Alternative Rate (including with the application of an Adjustment Spread) may still result in Notes linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

The Issuer may be unable to appoint an Independent Adviser or the Independent Adviser may not be able to determine a Successor Rate or Alternative Rate in accordance with the Terms and Conditions of the Notes.

Where the Issuer is unable to appoint an Independent Adviser in a timely manner, or the Independent Adviser is unable, to determine a Successor Rate or Alternative Rate before the next Interest Determination Date, the Rate of Interest for the next succeeding Interest Period will be the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, or, where the Benchmark Event occurs before the first Interest Determination Date, the Rate of Interest will be the initial Rate of Interest.

Where the Issuer has been unable to appoint an Independent Adviser or, the Independent Adviser has failed, to determine a Successor Rate or Alternative Rate in respect of any given Interest Period, the Issuer will continue to attempt to appoint an Independent Adviser in a timely manner before the next succeeding Interest Determination Date and/or to determine a Successor Rate or Alternative Rate to apply the next succeeding and any subsequent Interest Periods, as necessary.

Applying the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event is likely to result in Notes linked to or referencing the relevant benchmark performing differently (which may include payment of a lower Rate of Interest) than they would do if the relevant benchmark were to continue to apply, or if a Successor Rate or Alternative Rate could be determined.

If the Issuer is unable to appoint an Independent Adviser or, the Independent Adviser fails to determine a Successor Rate or Alternative Rate for the life of the relevant Notes, the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, will continue to apply to maturity. This will result in the floating rate Notes, in effect, becoming fixed rate Notes. Noteholders may, in such circumstances, be materially affected and receive a lower interest as they would have expected if an Independent Adviser had been determined or if such Independent Adviser did not fail to determine such Successor or Alternative Rate.

3 RISKS RELATED TO THE MARKET OF THE NOTES

3.1 No active secondary/trading market for the Notes

Notes issued under the Programme will be new securities which may not be widely distributed and for which there may be no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although in relation to Notes to be admitted to trading on Euronext Paris and/or any other Regulated Market in the EEA or in the UK and/or offered to the public in the EEA or in the UK, the Final Terms of the Notes will be filed with the AMF in France and with the competent authority of the Regulated Market of the EEA or the UK where the Notes will be admitted to trading, such admission to trading or offer to the public may not occur, that any particular Tranche of Notes will be so admitted or that an active trading market will develop.

As a consequence, Noteholders may not be able to sell Notes readily or at prices that will enable them to realise their anticipated yield. This could have a material adverse impact on the Noteholders and as a result, Noteholders could lose part of their investment in the Notes.

3.2 Market Value of the Notes

Application may be made to admit any Tranche of Notes issued hereunder to trading on Euronext Paris and/or on any other Regulated Market, as it shall be specified in the relevant Final Terms. Therefore, the market value of the Notes will be affected by the creditworthiness of the Issuer and a number of additional factors, including, but not limited to, the value and the volatility of an index, or the dividend on the securities taken up in the index, market interest and yield rates and the time remaining to the maturity date.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, and including also factors affecting capital markets generally and the stock exchanges on which the Notes, the securities taken up in the index, or the index are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such Noteholder. Accordingly, all or part of the capital invested by the Noteholder may be lost upon any transfer of the Notes, so that the Noteholder in such case would receive significantly less than the total amount of capital invested.

CONDITIONS ATTACHED TO THE CONSENT OF THE ISSUER TO USE THE BASE PROSPECTUS

Certain tranches of Notes with a specified denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the requirement to publish a prospectus under the Prospectus Regulation (a “**Non-Exempt Offer**”) in any Member State of the EEA or in the UK (a “**Non-Exempt Offer Jurisdiction**”).

In the context of a Non-Exempt Offer, in relation to any person (an “**Investor**”) to whom an offer of any Notes is made, the Issuer may, if so specified in the relevant Final Terms, consent to the use of the Base Prospectus together with any supplement with respect thereto that may be published from time to time and the relevant Final Terms (together, the “**Prospectus**”) in connection with a Non-Exempt Offer of any Notes during the offer period specified in the relevant Final Terms (the “**Offer Period**”) and in the Non-Exempt Offer Jurisdiction(s) specified in the relevant Final Terms by:

- (1) subject to conditions set out in the relevant Final Terms, any financial intermediary designated in such Final Terms; or
- (2) if so specified in the relevant Final Terms, any financial intermediary which satisfies the following conditions:
 - (a) acts in accordance with all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the “**Rules**”), from time to time including, without limitation and in each case, Rules relating to both the appropriateness or suitability of any investment in the Notes by any person and disclosure to any potential investor; (b) complies with the restrictions set out under “*Subscription and Sale*” in this Base Prospectus which would apply as if it were a Dealer; (c) complies with the target market and distribution channels identified under the “MiFID II product governance” legend set out in the relevant Final Terms; (d) ensures that any fee (and any commissions or benefits of any kind) received or paid by that financial intermediary in relation to the offer or sale of the Notes is fully and clearly disclosed to investors or potential investors; (e) holds all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the Notes under the Rules; (f) retains investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the relevant Dealer(s) and the Issuer or directly to the appropriate authorities with jurisdiction over the Issuer and/or the relevant Dealer(s) in order to enable the Issuer and/or the relevant Dealer(s) to comply with anti-money laundering, anti-bribery and “know your client” rules applying to the Issuer and/or the relevant Dealer(s); (g) does not, directly or indirectly, cause the Issuer or the relevant Dealer(s) to breach any Rule or any requirement to obtain or make any filing, authorisation or consent in any jurisdiction; and (h) satisfies any further conditions specified in the relevant Final Terms (in each case an “**Authorised Offeror**”). For the avoidance of doubt, none of the Dealers or the Issuer shall have any obligation to ensure that an Authorised Offeror complies with applicable laws and regulations and shall therefore have no liability in this respect.

The Issuer accepts responsibility, in the Non-Exempt Offer Jurisdiction(s) specified in the Final Terms, for the content of the Base Prospectus in relation to any Investor in such Non-Exempt Offer Jurisdiction(s) to whom an offer of any Notes is made by any Authorised Offeror and where the offer is made during the period for which that consent is given. However, neither the Issuer nor any Dealer has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

The consent referred to above relates to Offer Periods (if any) ending no later than the date falling 12 months from the date of the approval of the Base Prospectus by the AMF.

In the event the Final Terms designate financial intermediary(ies) to whom the Issuer has given its consent to use the Base Prospectus during an Offer Period, the Issuer may also give consent to additional Authorised Offerors after the

date of the relevant Final Terms and, if it does so, it will publish any new information in relation to such Authorised Offerors who are unknown at the time of the approval of this Base Prospectus or the filing of the relevant Final Terms at <https://www.foncier.fr>.

If the Final Terms specify that any financial intermediary may use the Base Prospectus during the Offer Period, any such Authorised Offeror is required, for the duration of the Offer Period, to publish on its website that it is using the Base Prospectus for the relevant Non-Exempt Offer with the consent of the Issuer and in accordance with the conditions attached thereto.

Other than as set out above, neither the Issuer nor any of the Dealers has authorised the making of any Non-Exempt Offer by any person in any circumstances and such person is not permitted to use the Base Prospectus in connection with its offer of any Notes. Any such offers are not made on behalf of the Issuer or by any of the Dealers or Authorised Offerors and none of the Issuer or any of the Dealers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers.

An Investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price allocations and settlement arrangements (the “Terms and Conditions of the Non-Exempt Offer”). The Issuer will not be a party to any such arrangements with Investors (other than Dealers) in connection with the offer or sale of the Notes and, accordingly, the Base Prospectus and any Final Terms will not contain such information. The Terms and Conditions of the Non-Exempt Offer shall be provided to Investors by that Authorised Offeror at the time of the Non-Exempt Offer. Neither the Issuer nor any of the Dealers or other Authorised Offerors has any responsibility or liability for such information.

SUPPLEMENT TO THE BASE PROSPECTUS

If at any time the Issuer shall be required to prepare a supplement to the Base Prospectus pursuant to Article 23 of the Prospectus Regulation, the Issuer will prepare and make available an appropriate supplement to this Base Prospectus or a restated Base Prospectus, which in respect of any subsequent issue of Notes to be admitted to trading on Euronext Paris or on a Regulated Market of a Member State of the EEA or the UK, shall constitute a supplement to the Base Prospectus for the purpose of the relevant provisions of the Prospectus Regulation.

In accordance with and pursuant to Article 23.2 of the Prospectus Regulations, where the relevant Final Terms relate to a Non-Exempt Offer of Notes in any Member State of the EEA or in the UK, investors who have already agreed to purchase or subscribe for Notes before any supplement is published shall have the right, exercisable within two working days after the publication of such supplement, to withdraw their acceptance provided that the new factor, material mistake or material inaccuracy referred to in Article 23.1 of the Prospectus Regulation arose before the final closing of the Non-Exempt Offer or the delivery of the Notes, whichever occurs first. The period may be extended by the Issuer or, if any, the relevant offeror(s). The final date of the right of withdrawal shall be stated in the supplement. On 11 June 2021, this Base Prospectus, as supplemented (as the case may be), will expire and the obligation to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies will no longer apply.

Any supplement to the Base Prospectus shall be (a) published on the websites of the AMF (<https://www.amf-france.org/en>) and the Issuer (<https://www.foncier.fr>) and (b) available for inspection and obtainable, upon request and free of charge, during usual business hours, on any weekday at the registered office of the Issuer (19, rue des Capucines, 75001 Paris, France).

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of Part A of the relevant Final Terms, shall be applicable to the Notes. In the case of Dematerialised Notes, the text of the terms and conditions will not be endorsed on physical documents of title but will be constituted by the following text as completed by Part A of the relevant Final Terms. In the case of Materialised Notes, either (i) the full text of these terms and conditions together with the provisions of Part A of the Final Terms or (ii) these terms and conditions as so completed (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on Definitive Materialised Notes. References in the Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

An amended and restated agency agreement dated 12 June 2020 has been agreed between Compagnie de Financement Foncier (the “**Issuer**”), Deutsche Bank AG, London Branch as fiscal agent and the other agents named in it (the “**Amended and Restated Agency Agreement**”). The fiscal agent, the paying agents, the redenomination agent, the consolidation agent and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Fiscal Agent**”, the “**Paying Agents**” (which expression shall include the Fiscal Agent), the “**Redenomination Agent**”, the “**Consolidation Agent**” and the “**Calculation Agent(s)**”.

For the purpose of these Terms and Conditions, “**Regulated Market**” means any regulated market situated in a Member State of the European Economic Area (“**EEA**”) or in the United Kingdom (“**UK**”) as defined in the Markets in Financial Instruments Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014, as amended.

References below to “**Conditions**” are, unless the context requires otherwise, to the numbered paragraphs below.

All capitalised terms that are not defined in these Conditions will have the meanings given to them in Part A of the relevant Final Terms.

Certain defined terms contained in the 2013 FBF Master Agreement relating to transactions on forward financial instruments as supplemented by the Technical Schedules published by the AFB or the FBF (together, the “**FBF Master Agreement**”) and in the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc., have either been used or reproduced in Condition 5 (*Interest and other Calculations*) below.

Copies of the FBF Master Agreement are available for inspection at the specified offices of each of the Paying Agents.

1 Form, Denomination, Title and Redenomination

- (a) **Form:** Notes may be issued either in dematerialised form (“**Dematerialised Notes**”) or in materialised form (“**Materialised Notes**”).
 - (i) Title to Dematerialised Notes will be evidenced in accordance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier* by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the French *Code monétaire et financier*) will be issued in respect of the Dematerialised Notes.
 - (a) Dematerialised Notes are issued, at the option of the Issuer and as specified in the final terms (the “**Final Terms**”), in either bearer dematerialised form (*au porteur*), which will be inscribed in the books of Euroclear France (“**Euroclear France**”) (acting as central depository) which shall credit the accounts of Account Holders, or in registered dematerialised form (*au nominatif*) and, in such latter case, at the option of the relevant holder in either administered registered dematerialised form

(*au nominatif administré*) inscribed in the books of an Account Holder designated by the relevant holder of Notes or in fully registered dematerialised form (*au nominatif pur*) inscribed in an account in the books of a registration agent (designated in the relevant Final Terms) acting on behalf of the Issuer (the “**Registration Agent**”).

- (b) For the purpose of these Conditions, “**Account Holder**” means any intermediary institution entitled to hold directly or indirectly accounts on behalf of its customers with Euroclear France, Euroclear Bank SA/NV (“**Euroclear**”) and the depository bank for Clearstream Banking S.A. (“**Clearstream**”).

The Issuer may request from the central depository the identification of the holders of Dematerialised Notes in bearer form (*au porteur*) unless such right is expressly excluded in the relevant Final Terms.

- (ii) Materialised Notes are issued in bearer form. Definitive Materialised Notes are printed on security paper, are serially numbered and are issued with coupons (the “**Coupons**”) (and, where appropriate, a talon (the “**Talons**”) attached), save in the case of (A) Zero Coupon Notes, (B) Resetable Zero Coupon Notes (other than in relation to interest payable on the designation of a Reset Date) and (C) Zero Coupon/ Fixed Rate Notes (other than in relation to any interest payable on or after the designation of a Switch Date) in which case references to interest (other than in relation to interest due after the Maturity Date or the Extended Maturity Date, if any), Coupons and Talons in these Conditions are not applicable.

In accordance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier*, securities (including the Notes) in materialised form and governed by French law must be issued outside the French territory.

- (b) **Denomination:** Notes shall be issued in the Specified Denomination(s) as set out in the relevant Final Terms provided that such denomination shall be equal to such minimum amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency. Dematerialised Notes shall be issued in one Specified Denomination only.
- (c) **Title:**
- (i) Title to Dematerialised Notes in bearer dematerialised form (*au porteur*) and in administered registered dematerialised form (*au nominatif administré*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of Account Holders. Title to Dematerialised Notes in fully registered dematerialised form (*au nominatif pur*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of the Registration Agent.
- (ii) Title to Definitive Materialised Notes and Coupons and Talons shall pass by delivery.
- (iii) Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

- (iv) In these Conditions, “**holder of Notes**”, “**holder of any Note**” or “**Noteholder**” means (i) in the case of Dematerialised Notes, the person whose name appears in the account of the relevant Account Holder or the Registration Agent (as the case may be) as being entitled to such Notes and (ii) in the case of Materialised Notes, the bearer of any definitive Materialised Note and the Coupon or Talon relating to it, and capitalised terms have the meanings given to them in the relevant Final Terms, the absence of any such meaning indicating that such term is not applicable to the Notes.

(d) **Redenomination:**

- (i) The Issuer may (if so specified in the relevant Final Terms), on any Interest Payment Date, without the consent of the holder of any Note, Coupon or Talon, by giving at least 30 days’ notice in accordance with Condition 13 (*Notices*) and on or after the date on which the European Member State in whose national currency the Notes are denominated has become a participating Member State in the third stage (or any further stage) of the European Economic and Monetary Union (as provided in the Treaty establishing the European Community (the “**EC**”, as amended from time to time (the “**Treaty**”)) or events have occurred which have substantially the same effects (in either case, “**EMU**”), redenominate all, but not some only, of the Notes of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) set out in the relevant Final Terms accordingly, as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the “**Redenomination Date**”.
- (ii) The redenomination of the Notes pursuant to Condition 1(d)(i) (*Redenomination*) shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to applicable regulations of the Treaty and rounding the resulting figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Notes so determined shall be notified to holders of Notes in accordance with Condition 13 (*Notices*). Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euros on the Redenomination Date in the manner notified to holders of Notes by the Issuer.
- (iii) Upon redenomination of the Notes, any reference hereon to the relevant national currency shall be construed as a reference to Euro.
- (iv) The Issuer may, with the prior approval of the Redenomination Agent and the Consolidation Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 12 (*Further Issues and Consolidation*), without the consent of the holder of any Note, Coupon or Talon, make any changes or additions to these Conditions or Condition 12 (*Further Issues and Consolidation*) (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated Euromarket debt obligations and which it believes are not prejudicial to the interests of such holders. Any such changes or additions shall, in the absence of manifest error, be binding on the

holders of Notes, Coupons and Talons and shall be notified to holders of Notes in accordance with Condition 13 (*Notices*) as soon as practicable thereafter.

- (v) Neither the Issuer nor any Paying Agent shall be liable to the holder of any Note, Coupon or Talon or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of Euros or any currency conversion or rounding effected in connection therewith.

2 Conversions and Exchanges of Notes

(a) Dematerialised Notes

- (i) Dematerialised Notes issued in bearer dematerialised form (*au porteur*) may not be converted for Dematerialised Notes in registered dematerialised form, whether in fully registered dematerialised form (*au nominatif pur*) or in administered registered dematerialised form (*au nominatif administré*).
- (ii) Dematerialised Notes issued in registered dematerialised form (*au nominatif*) may not be converted for Dematerialised Notes in bearer dematerialised form (*au porteur*).
- (iii) Dematerialised Notes issued in fully registered dematerialised form (*au nominatif pur*) may, at the option of the holder of such Notes, be converted into Notes in administered registered dematerialised form (*au nominatif administré*), and *vice versa*. The exercise of any such option by such holder shall be made in accordance with Article R.211-4 of the French *Code monétaire et financier*. Any such conversion shall be effected at the cost of such holder.

- (b) Pursuant to Article L.513-11 of the French *Code monétaire et financier*, all amounts payable to the Issuer in respect of loans, assimilated receivables, exposure and securities referred to in Article L.513-3 to L.513-7 of the French *Code monétaire et financier* and the forward financial instruments referred to in Article L.513-10 of the French *Code monétaire et financier* (in each case after any applicable netting), together with the claims in respect of deposits made by the Issuer with credit institutions, are allocated in priority to the payment of any sums due in respect of the *obligations foncières* issued by the Issuer and any other resources raised by the Issuer pursuant to the *Privilège*.

It should be noted that not only Notes benefit from the *Privilège*; other resources (such as loans) and derivative transactions for hedging Notes and such other resources may also benefit from the *Privilège*.

- (c) Article L.513-11 of the French *Code monétaire et financier* provides that, notwithstanding any legislative provisions to the contrary and in particular those contained in the French *Code de commerce* (relating to conciliation (*conciliation*), preservation (*sauvegarde*), judicial reorganisation (*redressement judiciaire*) and judicial liquidation (*liquidation judiciaire*)), the amounts due regularly under *obligations foncières* and any other resources benefiting from the *Privilège*, are paid on their contractual due date, and in priority to all other debts, whether or not preferred, including interest resulting from agreements whatever their duration. Accordingly, until all creditors benefiting from the *Privilège* have been fully paid, no other creditor of the Issuer may exercise any right over the assets and rights of the Issuer.

The amount of interest payable shall be determined in accordance with Condition 5(j) (*Calculations*).

If a Fixed Coupon Amount or a Broken Amount is specified in the relevant Final Terms, the amount of interest payable on each Interest Payment Date will amount to the Fixed Coupon Amount or, if applicable, the Broken Amount so specified and in the case of the Broken Amount will be payable on the particular Interest Payment Date(s) specified in the relevant Final Terms.

- (c) **Interest on Floating Rate Notes, Inflation Linked Notes and Formula Linked Notes:**

(i) *Interest Payment Dates:* Subject to Condition 5(m) (*Rate Switch and Rate Lock-In Options*), each Floating Rate Note, Inflation Linked Note and Formula Linked Note bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest (subject to adjustment in accordance with Condition 5(i) (*Margin, Maximum/Minimum Rates of Interest/Final Redemption Amount/Optional Redemption Amounts and Rounding*)), such interest being payable in arrear on each Interest Payment Date. The amount of interest payable shall be determined in accordance with Condition 5(j) (*Calculations*). Such Interest Payment Date(s) is/are either shown in the relevant Final Terms as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are shown in the relevant Final Terms, Interest Payment Date shall mean each date which falls the number of months or other period shown in the relevant Final Terms as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

(ii) *Business Day Convention:* If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Following Business Day Convention, such date shall be carried forward to the following Business Day, (B) the Following Business Day except the Following Month Convention,

such date shall be carried forward to the following day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be carried back to the previous Business Day or (C) the Preceding Business Day Convention, such date shall be carried back to the previous Business Day.

(iii) *Rate of Interest for Floating Rate Notes*: The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined according to the relevant Final Terms and the provisions below relating to either FBF Determination, ISDA Determination or Screen Rate Determination, depending upon which is specified in the relevant Final Terms.

(A) FBF Determination for Floating Rate Notes

Where FBF Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant FBF Rate. For the purposes of this sub-paragraph (A), “**FBF Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Transaction under the terms of an agreement incorporating the FBF Definitions and under which:

- (a) the Floating Rate is as specified in the relevant Final Terms and
- (b) the relevant Floating Rate Determination Date (*Date de Détermination du Taux Variable*) is the first day of that Interest Accrual Period or such other date as specified in the relevant Final Terms

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Determination Date** (*Date de Détermination du Taux Variable*)” and “**Transaction**” have the meanings given to those terms in the FBF Definitions, provided that “Euribor” means the rate calculated for deposits in Euro which appears on Reuters page EURIBOR01, as more fully described in the relevant Final Terms.

(B) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (B), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Final Terms
- (b) the Designated Maturity is a period specified in the relevant Final Terms and
- (c) the relevant Reset Date is the first day of that Interest Accrual Period or such other date as specified in the relevant Final Terms.

For the purposes of this sub-paragraph (B), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(C) Screen Rate Determination for Floating Rate Notes

(a) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below or to Condition 5(c)(iii)(D)(Benchmark Discontinuation) below, be either:

- (i) the offered quotation; or
- (ii) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page (or any other such page as may replace that page on the relevant service, or such other service as may be nominated as the information vendor, for the purpose of displaying comparable rates) (the “**Relevant Screen Page Reference Rate**”) as at either (i) 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR) or, (ii) if otherwise, the Relevant Screen Page Time, on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the relevant Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided hereon.

- (b) if the Relevant Screen Page is not available or, if sub-paragraph (a)(i) applies and no such offered quotation appears on the Relevant Screen Page or, if sub-paragraph (a)(ii) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Issuer, or an appointed agent on its behalf, shall request, (i) if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks, (ii) if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks or, (iii) if otherwise, each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time, on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and
- (c) if paragraph (b) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00

a.m. (London time), if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time, on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market, if the Reference Rate is EURIBOR, the Euro zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).

- (d) Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being EONIA, the Rate of Interest for each Interest Accrual Period will, subject as provided below or to Condition 5(c)(iii)(D)(Benchmark Discontinuation) below, be the rate of return of a daily compound interest investment (with the arithmetic mean of the daily rates of the day-to-day Euro-zone interbank euro money market as reference rate for the calculation of interest) plus or minus (as indicated in the applicable Final Terms) the Margin (if any) and will be calculated by the Calculation Agent on the Interest Determination Date as follows, and the resulting will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{EONIA_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

Where:

“**i**” is a series of whole numbers from one to **d_o**, each representing the relevant TARGET Business Day in chronological order from, and including, the first TARGET Business Day in the relevant Interest Accrual Period;

“**d_o**” for any Interest Accrual Period, is the number of TARGET Business Days in the relevant Interest Accrual Period;

“**EONIA_i**”, for any day “**i**” in the relevant Interest Accrual Period, is a reference rate equal to the overnight rate as calculated by the European Central Bank and appearing on the Reuters Screen EONIA Page or such other page or service as may replace such page for the purposes of displaying Euro overnight index average rate of leading reference banks for deposits in Euro (the “**EONIA Page**”) in respect of that day provided that, if, for any reason, by 11.00 a.m. (Brussels time) on any such day “**i**”, no rate is published on the EONIA Page, the Issuer, or an appointed agent on its behalf will request any four major banks selected by it (but which shall not include the Calculation Agent) in the Euro-zone inter-bank market to provide it with their respective quotations of the rates offered by such banks at approximately 11.00 a.m. (Brussels time) on such day “**i**” to prime banks in the Euro-zone inter-bank market for Euro overnight index average rate for deposits in Euro in an amount that is, in the reasonable opinion of the Issuer, or an appointed agent on its behalf, representative for a single transaction in the relevant market at the relevant time. The applicable reference rate for such day “**i**” shall be the arithmetic mean (rounded if necessary, to the nearest hundredth of a percentage point, with 0.005 being rounded upwards) of at least two of the rates so quoted, it being provided that if less than two rates are provided to the Calculation Agent, the applicable reference rate shall be determined by the Issuer, or an appointed agent on its behalf after consultation of an independent expert;

“**n_i**” is the number of calendar days in the relevant Interest Accrual Period on which the rate is EONIA_i; and

“**d**” is the number of calendar days in the relevant Interest Accrual Period.

- (e) Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being CMS Rate, the Rate of Interest for each Interest Accrual Period will, subject as provided below or to Condition 5(c)(iii)(D)(Benchmark Discontinuation) below, be determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

If the Relevant Screen Page is not available at the Specified Time on the relevant Interest Determination Date: (i) the Issuer, or an appointed agent on its behalf shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Specified Time on the relevant Interest Determination Date; (ii) if at least three of the CMS Reference Banks provide the Calculation Agent with such quotations, the CMS Rate for such Interest Accrual Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest quotations and

the lowest quotation (or, in the event of equality, one of the lowest quotations) and (iii) if on any Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Issuer, or an appointed agent on its behalf on such commercial basis as considered appropriate by the Issuer, or an appointed agent on its behalf in its absolute discretion, in accordance with the then prevailing standard market practice.

For the purposes of this sub-paragraph (i):

“**CMS Rate**” shall mean the applicable swap rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as at the Specified Time on the relevant Interest Determination Date in question, all as determined by the Calculation Agent.

“**CMS Reference Banks**” means (i) where the Reference Currency is Euro, the principal office of five leading swap dealers in the inter-bank market, (ii) where the Reference Currency is Sterling, the principal London office of five leading swap dealers in the London inter-bank market, (iii) where the Reference Currency is United States dollars, the principal New York City office of five leading swap dealers in the New York City inter-bank market, or (iv) in the case of any other Reference Currency, the principal Relevant Financial Centre office of five leading swap dealers in the Relevant Financial Centre inter-bank market, in each case selected by the Issuer, or an appointed agent on its behalf.

“**Reference Currency**” means the currency specified as such in the applicable Final Terms.

“**Reference Financial Centre**” means, with respect to a Reference Currency, the financial centre specified as such in the applicable Final Terms.

“**Designated Maturity**”, “**Specified Time**” and “**Relevant Screen Page**” shall have the meaning given to those terms in the applicable Final Terms.

“**Margin**” has the meaning set out in Condition 5(i) (*Margin, Maximum/Minimum Rates of Interest/Final Redemption Amount/Optional Redemption Amounts and Rounding*).

“**Relevant Swap Rate**” means:

- (i) where the Reference Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions, as amended and updated as at the Issue Date of the first Tranche of the Notes) with a designated maturity determined by the Calculation Agent by reference to the then prevailing standard market practice or the ISDA Definitions;

- (ii) where the Reference Currency is Sterling, the mid-market semi-annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the semi-annual fixed leg, calculated on an Actual/365 (Fixed) day count basis, of a fixed-for-floating Sterling interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/365 (Fixed) day count basis, is equivalent (A) if the Designated Maturity is greater than one year, to GBP-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of six months or (B) if the Designated Maturity is one year or less, to GBP-LIBOR-BBA with a designated maturity of three months;
- (iii) where the Reference Currency is United States dollars, the mid-market semi-annual swap rate determined on the basis of the mean of the bid and offered rates for the semi-annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating United States dollar interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Accrual Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to USD-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of three months; and
- (iv) where the Reference Currency is any other currency of if the Final Terms specify otherwise, the mid-market swap rate as determined in accordance with the applicable Final Terms.

“**Representative Amount**” means an amount that is representative for a single transaction in the relevant market at the relevant time, as determined by the Calculation Agent.

- (f) Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being the TEC10, the Rate of Interest for each Interest Accrual Period will be, subject as provided below, determined by the Calculation Agent by reference to the following formula: TEC10 + Margin.

“**TEC10**” means the offered quotation (expressed as a percentage rate per annum) for the EUR-TEC10-CNO¹, calculated by the *Comité de Normalisation Obligatoire* (“**CNO**”), which appears on the Relevant Screen Page, being the caption “TEC10” on the Reuters Screen CNOTEC10 Page or any successor page, as at 10.00 a.m. Paris time on the Interest Determination Date in question.

¹ All potential users of the EUR-TEC10-CNO must first enter into a trademark licence agreement available from the CNO.

If, on any Interest Determination Date, TEC10 does not appear on Reuters Screen CNOTEC Page or any successor page, (i) it shall be determined by the Calculation Agent on the basis of the mid-market prices for each of the two reference OAT (*Obligation Assimilable du Trésor*) which would have been used by the *Comité de Normalisation Obligataire* for the calculation of the relevant rate, quoted in each case by five *Spécialistes en Valeurs du Trésor* at approximately 10:00 a.m. Paris time on the Interest Determination Date in question; (ii) the Calculation Agent will request each *Spécialiste en Valeurs du Trésor* to provide a quotation of its price; and (iii) TEC10 will be the redemption yield of the arithmetic mean of such prices as determined by the Calculation Agent after discarding the highest and lowest of such quotations. The above mentioned redemption yield shall be determined by the Calculation Agent in accordance with the formula that would have been used by the *Comité de Normalisation Obligataire* for the determination of the relevant rate.

For information purposes only, the EUR-TEC10-CNO, established in April 1996, is the percentage yield (rounded to the nearest second decimal point, 0.005 per cent. being rounded upwards) of a notional 10 year French Treasury Bond (Obligation Assimilable du Trésor, "OAT") corresponding to the linear interpolation between the yield to maturity of the two actual OATs (the "Reference OATs") whose periods to maturity are closest in duration to the notional 10 year OAT, one Reference OAT's duration being of less than 10 years and the other Reference OAT's duration being greater than 10 years.

In these Conditions, Deutsche Bank, AG London Branch will not be calculation agent for the purposes of selecting any reference banks or obtaining quotations from such reference banks.

(D) Benchmark discontinuation

If a Benchmark Event occurs in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the following provisions shall apply and shall prevail over other fallbacks specified in Condition 5(c)(iii)(C). For the avoidance of doubt, the following provisions shall not apply and shall not prevail over other fallbacks specified in Conditions 5(c)(iii)(A) and 5(c)(iii)(B).

(a) Independent Adviser

The Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with Condition 5(c)(iii)(D)(b)) and, in either case, an Adjustment Spread if any (in accordance with Condition 5(c)(iii)(D)(c)) and any Benchmark Amendments (in accordance with Condition 5(c)(iii)(D)(d)) and notify the above to the Paying Agent, Calculation Agent, Fiscal Agent as soon as possible and, to the extent reasonably practicable due to the availability of the necessary information on the market, no later than ten (10) Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period. In making such determination, the Independent Adviser appointed pursuant to this Condition 5(c)(iii)(D) shall act in good faith in a commercially reasonable manner as an expert. In the absence of bad faith, manifest error or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Paying Agents, the

Noteholders or the Couponholders for any determination made by it, pursuant to this Condition 5(c)(iii)(D).

If (i) the Issuer is unable to appoint an Independent Adviser; or (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 5(c)(iii)(D)(a) prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period. If there has not been a first Interest Payment Date, the Rate of Interest shall be the initial Rate of Interest. Where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period. For the avoidance of doubt, this Condition 5(c)(iii)(D)(a) shall apply to the relevant next succeeding Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 5(c)(iii)(D)(a).

(b) Successor Rate or Alternative Rate

If the Independent Adviser, determines that:

- (i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 5(c)(iii)(D)(c)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(c)(iii)(D)); or
- (ii) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 5(c)(iii)(D)(c)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(c)(iii)(D)).

(c) Adjustment Spread

If the Independent Adviser, determines (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

(d) Benchmark Amendments

If any Successor Rate, Alternative Rate and, in either case, the applicable Adjustment Spread is determined in accordance with this Condition 5(c)(iii)(D) and the Independent Adviser, determines (i) that amendments to these Conditions are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and/or (in either case) the applicable Adjustment Spread (such amendments, the “**Benchmark Amendments**”) and (ii) the terms of the Benchmark

Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(c)(iii)(D)(e), without any requirement for the consent or approval of Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice.

For the avoidance of doubt, and in connection with any such variation in accordance with this Condition 5(c)(iii)(D)(d), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being admitted to trading.

(e) Notices

The occurrence of a Benchmark Event shall be determined by the Issuer and promptly notified to the Fiscal Agent, the Calculation Agent and the Paying Agents. For the avoidance of doubt, neither the Fiscal Agent, the Calculation Agent nor the Paying Agents shall have any responsibility for making such determination.

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5(c)(iii)(D) will be notified as soon as possible and, to the extent reasonably practicable due to the availability of the necessary information on the market, no later than ten (10) Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period by the Issuer, after receiving such information from the Independent Adviser, to the Fiscal Agent, the Calculation Agent, the Paying Agents, the Representative of the Masse and, in accordance with Condition 13, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

The Issuer shall deliver to the Fiscal Agent a certificate signed by an authorised signatory of the Issuer and the Independent Adviser:

- (i) confirming, on the basis of the determination of the Independent Adviser (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate and, (iii) where applicable, any Adjustment Spread and (iv) the specific terms of the Benchmark Amendments (if any), in each case as determined by the Independent Adviser in accordance with the provisions of this Condition 5(c)(iii)(D); and
- (ii) certifying that the Independent Adviser has confirmed Benchmark Amendments (if any) are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and (in either case) the applicable Adjustment Spread.

Each of the Fiscal Agent, the Calculation Agent and the Paying Agents shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Fiscal Agent's, the Calculation Agent's or the Paying Agent's ability to rely on such certificate as

aforesaid) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agent and the Noteholders.

(f) Survival of Original Reference Rate

Without prejudice to the obligations of the Issuer under Condition 5(c)(iii)(D) (a), (b), (c) and (d), the Original Reference Rate and the fallback provisions provided for in Condition 5(c)(iii)(C) will continue to apply unless and until a Benchmark Event has occurred.

(iv) *Rate of Interest for Inflation Linked Notes:*

Where the applicable Final Terms specify Inflation Linked Notes as applicable (“**Inflation Linked Notes**”) the Rate of Interest shall (i) if Inflation Linked Notes – Fixed Interest is applicable, be calculated in accordance with Condition 5(b) (*Interest on Fixed Rate Notes*), or (ii) if Inflation Linked Notes – Inflation Interest is applicable, be calculated in accordance with this Condition 5(c)(iv)

(A) Consumer Price Index (CPI)

Where the consumer price index (excluding tobacco) for all households in France, as calculated and published by the *Institut National de la Statistique et des Etudes Economiques* (the “**INSEE**”) (“**CPI**”) is specified as the Index in the relevant Final Terms, this Condition 5(c)(iv)(A) shall apply. Terms defined herein shall have the meanings set out below only when this Condition 5(c)(iv)(A) shall apply.

The Rate of Interest in respect of Inflation Linked Notes indexed to the CPI (the “**CPI Linked Interest**”) will be determined by the Calculation Agent on the following basis:

- (a) On the fifth Business Day before each Interest Payment Date (an “**Interest Determination Date**”) the Calculation Agent will calculate the Inflation Index Ratio.

For the purpose of this Condition 5(c)(iv)(A), the “**Inflation Index Ratio**” or “**IIR**” is the ratio between (i) the CPI Daily Inflation Reference Index (as defined below) applicable on any Interest Payment Date, as the case may be and (ii) the base reference defined as the CPI Daily Inflation Reference Index (as defined below) applicable on the date specified in the applicable Final Terms (the “**Base Reference**”). Notwithstanding Condition 5(i)(iii) (*Margin, Maximum/Minimum Rates of Interest/Final Redemption Amount/Optional Redemption Amounts and Rounding*), the IIR will be rounded if necessary to five significant figures (with halves being rounded up).

“**CPI Daily Inflation Reference Index**” means (i) in relation to the first day of any given calendar month, the CPI Monthly Reference Index of the third month preceding such month, and (ii) in relation to a day D (other than the first day) in any given calendar month (“**M**”), the linear interpolation of the CPI Monthly Reference Index pertaining respectively to the third calendar

month preceding such month (“M – 3”) and the second calendar month preceding such month (“M – 2”) calculated in accordance with the following formula:

CPI Daily Inflation Reference Index=

$$\text{CPI Monthly Reference Index}_{M-3} + \frac{D-1}{ND_M} \times (\text{CPI Monthly Reference Index}_{M-2} - \text{CPI Monthly Reference Index}_{M-3})$$

With:

“**ND_M**”: number of days in the relevant month M and, in the case of payment of principal or interest, shall be equal to 31;

“**D**”: actual day of payment in the relevant month M and, in the case of payment of principal or interest, shall be equal to 25;

“**CPI Monthly Reference Index_{M-2}**”: the level of the CPI Monthly Reference Index published in relation to month M - 2;

“**CPI Monthly Reference Index_{M-3}**”: the level of the CPI Monthly Reference Index published in relation to month M - 3.

Notwithstanding Condition 5(i)(iii) (*Margin, Maximum/Minimum Rates of Interest/Final Redemption Amount/Optional Redemption Amounts and Rounding*), the CPI Daily Inflation Reference Index will be rounded if necessary to five significant figures (with halves being rounded up).

For information purposes, such CPI Daily Inflation Reference Index appears on the Agence France Trésor Reuters page OATINFLATION01 or on Bloomberg TRESOR <GO> pages and on the website <https://www.aft.gouv.fr>. In the case of doubt in the interpretation of the methods used to calculate the Inflation Index Ratio, such methods shall be interpreted by reference to the procedures selected by the French Treasury (Trésor) for its obligations assimilables du Trésor indexées sur l'inflation.

“**CPI Monthly Reference Index**” means the definitive consumer price index excluding tobacco for all households in France, as calculated and published monthly by the INSEE as such index may be adjusted or replaced from time to time as provided herein.

- (b) The calculation method described below is based on the recommendation issued by the French Bond Association (*Comité de Normalisation Obligataire* – <https://www.cnofrance.org>) in its July 2011 Paper entitled “Inflation – linked bonds). In the case of any conflict between the calculation method provided below and the calculation method provided by the French Bond Association (*Comité de Normalisation Obligataire*), the calculation method provided by the French Bond Association (*Comité de Normalisation Obligataire*) shall prevail.

The CPI Linked Interest applicable from time to time for each Interest Accrual Period (as specified in the relevant Final Terms) will be equal to the fixed rate *per annum* specified in the relevant Final Terms multiplied by the Inflation Index Ratio (as defined above).

(c)

(1) If the CPI Monthly Reference Index is not published in a timely manner, a substitute CPI Monthly Reference Index (the “**Substitute CPI Monthly Reference Index**”) shall be determined by the Calculation Agent in accordance with the following provisions:

(x) If a provisional CPI Monthly Reference Index (*indice provisoire*) has already been published, such index shall automatically be used as the Substitute CPI Monthly Reference Index. Such provisional CPI Monthly Reference Index would be published under the heading “*indice de substitution*”. Once the definitive CPI Monthly Reference Index is released, it would automatically apply from the day following its release to all calculations taking place from this date.

(y) If no provisional CPI Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

Substitute CPI Monthly Reference Index_M=

$$\text{CPI Monthly Reference Index}_{M-1} \times \frac{\text{CPI Monthly Reference Index}_{M-1}}{\text{CPI Monthly Reference Index}_{M-13}} \times \frac{1}{12}$$

(2) In the event INSEE decides to proceed with one or more base changes for the purpose of calculating the CPI Monthly Reference Index, the two CPI Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the December CPI Monthly Reference Index of the last year of joint publications, which corresponds to the CPI Daily Inflation Reference Index for 1st March of the following year. Such chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{CPI Monthly Reference Index}_{\text{pertaining to December calculated on the new basis}}}{\text{CPI Monthly Reference Index}_{\text{pertaining to December calculated on the previous basis}}}$$

$$\text{CPI Monthly Reference Index}_{\text{Date D New Basis}} = \text{CPI Monthly Reference Index}_{\text{Date D Previous Basis}} \times \text{Key}$$

(B) Harmonised Index of Consumer Prices (HICP)

Where the harmonised index of consumer prices (excluding tobacco) measuring the rate of inflation in the European Monetary Union as calculated and published monthly by Eurostat (the “**HICP**”) is specified as the Index in the relevant Final Terms, this Condition 5(c)(iv)(B) shall apply. Terms defined herein shall have the meanings set out below only when this Condition 5(c)(iv)(B) shall apply.

The Rate of Interest in respect of Inflation Linked Notes indexed to the HICP (the “**HICP Linked Interest**”) will be determined by the Calculation Agent on the following basis:

- (a) On the fifth Business Day before each Interest Payment Date (an “**Interest Determination Date**”) the Calculation Agent will calculate the Inflation Index Ratio.

For the purpose of this Condition 5(c)(iv)(B), the “**Inflation Index Ratio**” or “**IIR**” is the ratio between (i) the HICP Daily Inflation Reference Index (as defined below) applicable on any Interest Payment Date or the redemption date, as the case may be and (ii) the base reference defined as the HICP Daily Inflation Reference Index (as defined below) applicable on the date specified in the applicable Final Terms (the “**Base Reference**”). Notwithstanding Condition 5(i)(iii) (*Margin, Maximum/Minimum Rates of Interest/Final Redemption Amount/Optional Redemption Amounts and Rounding*), the IIR will be rounded if necessary to five significant figures (with halves being rounded up).

“**HICP Daily Inflation Reference Index**” means (i) in relation to the first day of any given calendar month, the HICP Monthly Reference Index of the third calendar month preceding such month, and (ii) in relation to a day D (other than the first day) in any given month (“M”), the linear interpolation of the HICP Monthly Reference Index pertaining respectively to the third calendar month preceding such month (“M – 3”) and the second calendar month preceding such month (“M – 2”) calculated in accordance with the following formula:

HICP Daily Inflation Reference Index =

$$\text{HICP Monthly Reference Index}_{\text{M-3}} + \frac{\text{D}-1}{\text{ND}} \times (\text{HICP Monthly Reference Index}_{\text{M-2}} - \text{HICP Monthly Reference Index}_{\text{M-3}})$$

With:

“**ND_M**”: number of days in the relevant month M and, in the case of payment of principal or interest, shall be equal to 31;

Once the definitive HICP Monthly Reference Index is released, it would automatically apply from the day following its release to all calculations taking place from this date.

- (y) If no provisional HICP Monthly Reference Index is available, a substitute index shall be calculated on the basis of the most recently published figure adjusted as set out in the following formula:

Substitute HICP Monthly Reference Index_M =

$$\text{HICP Monthly Reference Index}_{M-1} \times \frac{\text{HICP Monthly Reference Index}_{M-1}}{\text{HICP Monthly Reference Index}_{M-12}}$$

- (2) In the event Eurostat decides to proceed with one or more base changes for the purpose of calculating the HICP Monthly Reference Index, the two HICP Monthly Reference Indexes which have been calculated on a different basis will be chained on the basis of the December HICP Monthly Reference Index of the last year of joint publications, which corresponds to the HICP Daily Inflation Reference Index for 1st March of the following year. Such chaining will be carried out in accordance with the following equation:

$$\text{Key} = \frac{\text{HICP Monthly Reference Index}_{\text{pertaining to December calculated on the new basis}}}{\text{HICP Monthly Reference Index}_{\text{pertaining to December calculated on the previous basis}}}$$

Such that:

$$\text{HICP Monthly Reference Index}_{\text{Date D New Basis}} = \text{HICP Monthly Reference Index}_{\text{Date D Previous Basis}} \times \text{Key}$$

If the Final Redemption Amount calculated as set out above is below par, the Notes will be redeemed at par.

For the purposes of this Condition 6(d) (*Final Redemption of Inflation Linked Notes*) only, “**IIR**” means the ratio determined on the date falling such number of Business Days (as specified in the relevant Final Terms) before the Maturity Date (or the Extended Maturity Date, if any) between (i) if the CPI is specified as the Index applicable in the Final Terms, the CPI Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(A) (*Consumer Price Index (CPI)*)) on the Maturity Date (or the Extended Maturity Date, if any) and the Base Reference on the date specified in the relevant Final Terms or (ii) if the HICP is specified as the Index applicable in the Final Terms, the HICP Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(B) (*Harmonised Index of Consumer Prices (HICP)*)) on the Maturity Date (or the Extended Maturity Date, if any) and the Base Reference on the date specified in the relevant Final Terms.

- (e) **Redemption at the Option of the Issuer and Partial Redemption:** If a Call Option is specified in the relevant Final Terms (a “**Call Option**”), the Issuer may, on giving not less than five (5) nor more than 30 days’ irrevocable notice in accordance with Condition 13 (*Notices*) to the holders of Notes (or such other notice period as may be specified in the relevant Final Terms) redeem, all or, if so provided, some, of the Notes on any Optional Redemption Date. Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption, if any.

For the purposes of Condition 6 (*Redemption, Purchase and Options*), “**Optional Redemption Amount**” means:

- (i) if ‘Redemption at par’ is specified in the relevant Final Terms, 100 per cent. of the nominal amount of the Note;
- (ii) if ‘Zero Coupon Redemption’ is specified in the relevant Final Terms, the Optional Redemption Amount determined in accordance with Condition 6(g)(i) (*Zero Coupon Notes*),
- (iii) if ‘Variable Zero Coupon Redemption’ is specified in the relevant Final Terms, the Optional Redemption Amount determined in accordance with Condition 6(b) (*Variable Zero Coupon Redemption*),
- (iv) if ‘Inflation Linked Notes – Inflation Redemption’ is specified in the relevant Final Terms, the Optional Redemption Amount determined in accordance with Condition 6(g)(ii) (*Inflation Linked Notes*),

subject in any case, to any maximum or minimum specified in the relevant Final Terms as provided in Condition 5(i) (*Margin, Maximum/Minimum Rates of Interest/Final Redemption Amount/Optional Redemption Amounts and Rounding*).

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the numbers of the Definitive Materialised Notes to be redeemed which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange requirements of the Regulated Market on which the Notes are admitted to trading.

In the case of a partial redemption of Dematerialised Notes, the redemption may be effected, at the option of the Issuer, by reducing the nominal amount of all such Dematerialised Notes in a Series in proportion to the aggregate nominal amount redeemed, subject to compliance with any other applicable laws and stock exchange requirements of the Regulated Market on which the Notes are admitted to trading.

So long as the Notes are admitted to trading on Euronext Paris and the rules applicable to that Stock Exchange so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in a leading newspaper of general circulation in the city where the Regulated Market on which such Notes are admitted to trading is located, which in the case of Euronext Paris is expected to be *Les Echos*, a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes a list of any Materialised Notes, drawn for redemption but not surrendered.

For the avoidance of doubt, a Call Option shall not apply in relation to Resettable Zero Coupon Notes.

- (f) **Redemption at the Option of Noteholders and Exercise of Noteholders' Options:** If Put Option is specified in the relevant Final Terms (a "**Put Option**"), the Issuer shall, at the option of any Noteholder, upon the Noteholder giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified in the relevant Final Terms) (the "**Notice Period**") redeem all or, if so provided in the Put Option Notice, some of the Notes on any Optional Redemption Date(s) at their Optional Redemption Amounts (as defined in Condition 6(e) (*Redemption at the Option of the Issuer and Partial Redemption*)) together with interest accrued to the date fixed for redemption.

To exercise such option the holder must deposit with the Paris Paying Agent at its specified office, and whichever of Euroclear, Clearstream, or, in the case of Notes held through Euroclear France, the relevant Account Holder who holds the Notes in respect of which the Put Option is being exercised, with a copy to the Fiscal Agent, a duly completed option exercise notice ("**Put Option Notice**") in the form obtainable from any Paying Agent within the Notice Period. In the case of Materialised Notes, the Put Option Notice shall have attached to it the relevant Notes (together with all unexpired Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Fiscal Agent or the Paying Agent with a specified office in Paris as specified in the Put Option Notice. No option so exercised and, where applicable, no Note so deposited or transferred, may be withdrawn without the prior consent of the Issuer.

For the avoidance of doubt, a Put Option shall not apply in relation to Resettable Zero Coupon Notes.

- (g) **Optional Redemption:**

- (i) **Zero Coupon Notes:**

- (A) The Optional Redemption Amount payable in respect of any Zero Coupon Note (other than a Resettable Zero Coupon Note and a Zero Coupon Note in respect of which Variable Zero Coupon Redemption is specified to apply in the relevant Final

Terms) shall be the Amortised Nominal Amount (calculated as provided below) of such Note.

- (B) Subject to the provisions of sub-paragraph (C) below, the “**Amortised Nominal Amount**” of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date (or the Extended Maturity Date, if any) discounted back to the due date for payment at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.
- (C) If the Optional Redemption Amount payable in respect of any such Note is not paid when due, the Optional Redemption Amount due and payable in respect of such Note shall be the Amortised Nominal Amount of such Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the reference therein to the “due date for payment” was replaced by a reference to the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this sub-paragraph shall continue to be made (both before and after judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date (or the Extended Maturity Date, if any), in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date (or the Extended Maturity Date, if any) together with any interest that may accrue in accordance with Condition 5(e) (*Zero Coupon Notes*).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction as provided in the relevant Final Terms.

(ii) **Inflation Linked Notes:**

- (A) If the relevant Final Terms provides that Condition 6(g)(ii) (*Inflation Linked Notes*) shall apply in respect of Inflation Linked Notes, the Optional Redemption Amount of such Notes in respect of such Notes, as the case may be, will be determined by the Calculation Agent on the following basis:

“**Optional Redemption Amount**” = IIR x nominal amount of the Notes

For the purpose of this Condition only, “**IIR**” means the ratio determined on the fifth Business Day before the date set for redemption between (i) if the CPI is specified as the Index applicable in the Final Terms, the CPI Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(A) (*Consumer Price Index (CPI)*)) on the date set for redemption and the Base Reference specified in the relevant Final Terms or (ii) if the HICP is specified as the Index applicable in the Final Terms, the HICP Daily Inflation Reference Index (as defined in Condition 5(c)(iv)(B) (*Harmonised Index of Consumer Prices (HICP)*)) on the date set for redemption and the Base Reference specified in the relevant Final Terms.

If the Optional Redemption Amount calculated as set out above is below par, the Notes will be redeemed at par.

- (B) If the Inflation Linked Notes (whether or not Condition 6(g)(ii) (*Inflation Linked Notes*) applies) fall to be redeemed for whatever reason before the Maturity Date (or the Extended Maturity Date, if any), the Issuer will pay the Optional Redemption Amount together with interest accrued to the date set for redemption. Such accrued

interest will be calculated by the Calculation Agent in respect of the period from, and including the immediately preceding Interest Payment Date or, as the case may be, the Interest Commencement Date to, but excluding, the date set for redemption of such Notes at a rate per annum on the basis of the provisions of Condition 5(c)(iv) (*Rate of Interest for Inflation Linked Notes*) above except that, for such purposes the relevant Interest Determination Date shall be the fifth Business Day prior to the relevant Optional Redemption Date.

- (h) **No Redemption for Taxation Reasons:** If French law should require that payments of principal or interest in respect of any Note be subject to deduction or withholding in respect of any present or future taxes or duties whatsoever, such Notes may not be redeemed early.
- (i) **Purchases:** The Issuer shall have the right at all times to purchase Notes (provided that, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price, in accordance with applicable laws and regulations. Unless the possibility of holding and reselling is expressly excluded in the Final Terms, all Notes so purchased by the Issuer may be held and resold in accordance with applicable French laws and regulations.
- (j) **Cancellation:** All Notes purchased for cancellation by or on behalf of the Issuer will forthwith be cancelled, in the case of Dematerialised Notes, by transfer to an account in accordance with the rules and procedures of Euroclear France and, in the case of Materialised Notes, by surrendering the Definitive Materialised Notes in question together with all unmatured Coupons and all unexchanged Talons to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with, in the case of Dematerialised Notes, all rights relating to payment of interest and other amounts relating to such Dematerialised Notes and, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.
- (k) **Subscription and use as collateral:** Notwithstanding this Condition 6 (*Redemption, Purchase and Options*), the Issuer may, pursuant to Article L.513-26 of the French *Code monétaire et financier*, subscribe its own Notes for the sole purpose of pledging them as collateral for the credit operations of the *Banque de France* in accordance with the procedures and conditions laid out by it for its monetary policy and intraday credit operations, in instances where the Issuer is unable to meet its cash-flow needs with other means available to it.
- (l) **Benchmark Rate:** Each Benchmark Rate Level shall be determined in the manner specified in the relevant Final Terms and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified to apply in the relevant Final Terms.

(A) ISDA Determination

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Benchmark Rate Level is to be determined in respect of a Benchmark Rate on any Observation Date, such Benchmark Rate shall be the rate determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this Condition 6(l)(A) (*ISDA Determination*), “**ISDA Rate**” means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Final Terms
- (b) the Designated Maturity is a period specified in the relevant Final Terms and
- (c) the relevant Reset Date is the first day of that Interest Accrual Period or such other date as specified in the relevant Final Terms.

For the purposes of this Condition 6(1)(A) (*ISDA Determination*), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination

- (a) where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Benchmark Rate Level is to be determined in respect of a Benchmark Rate on any date of determination, such Benchmark Rate shall, subject as provided below, be either:

- (i) the offered quotation; or
- (ii) the arithmetic mean (rounded if necessary in accordance with Condition 5(i) (*Margin, Maximum/Minimum Rates of Interest/Final Redemption Amount/Optional Redemption Amounts and Rounding*)) of the offered quotations,

(expressed as a percentage rate per annum) for the Benchmark Rate which appears or appear, as the case may be, on the Relevant Screen Page at the Relevant Screen Page Time on the relevant date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations;

- (b) if the Relevant Screen Page is not available or, if sub-paragraph (a)(i) applies and no such offered quotation appears on the Relevant Screen Page or, if sub-paragraph (a)(ii) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Benchmark Rate at the Relevant Screen Page Time on the relevant date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Benchmark Rate Level for the relevant date shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and
- (c) if on any Observation Date one only or none of the Reference Banks are providing offered quotations, subject as provided below, the Benchmark Rate Level shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at the Relevant Screen Page Time, deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate by leading banks in the Relevant Inter-Bank Market, or, if fewer

than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate, at which, at the Relevant Screen Page Time, on the relevant date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in the Relevant Inter-Bank Market, provided that, if the Benchmark Rate Level cannot be determined in accordance with the foregoing provisions of this paragraph, the Benchmark Rate Level shall be determined as at the last preceding date of determination.

Where:

“**Benchmark Rates**” and “**Benchmark Rate**” means each of the rates or the rate specified as such in the relevant Final Terms;

“**Benchmark Rate Level**” means, in respect of a Benchmark Rate and any date of determination, the rate determined for such Benchmark Rate in accordance with this Condition in respect of such date of determination;

“**ISDA Definitions**” means the 2006 ISDA Definitions, as amended and supplemented and published by the International Swaps and Derivatives Association, Inc. (or as otherwise specified in the relevant Final Terms);

“**Observation Date**” means each date specified as an Observation Date in the relevant Final Terms or otherwise deemed to be an Observation Date in accordance with the Terms and Conditions;

“**Reference Banks**” means, (i) in the case of a determination of LIBOR, the principal London office of four (4) major banks in the London inter-bank market; (ii) in the case of a determination of EURIBOR, the principal Euro-zone office of four (4) major banks in the Euro-zone inter-bank market; and (iii) in the case of a determination of any other Benchmark Rate, the principal office of four (4) major banks in the manner specified in the relevant Final Terms, in each case selected by the Principal Paying Agent or as specified in the relevant Final Terms;

“**Relevant Inter-Bank Market**” means the London inter-bank market in the case of LIBOR, or EURO-zone inter-bank market in the case of EURIBOR or such other inter-bank market specified as such in the relevant Final Terms;

“**Relevant Screen Page**” means the screen page specified as such in the relevant Final Terms;

“**Relevant Screen Page Time**” means 11:00 a.m. (London time, in the case of LIBOR, or Brussels time in the case of EURIBOR) or such other time specified as such in the relevant Final Terms; and

“**Specified Currency**” means the currency specified as such in the relevant Final Terms.

7 Payments and Talons

- (a) **Dematerialised Notes:** Payments of principal and interest in respect of Dematerialised Notes shall (in the case of Dematerialised Notes in bearer dematerialised form or administered registered dematerialised form) be made by transfer to the account denominated in the relevant currency of the

relevant Account Holders for the benefit of the holders of Notes and, (in the case of Dematerialised Notes in fully registered dematerialised form), to an account denominated in the relevant currency with a Bank designated by the relevant holder of Notes. All payments validly made to such Account Holders will be an effective discharge of the Issuer in respect of such payments.

- (b) **Materialised Notes:** Payments of principal and interest in respect of Materialised Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Materialised Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(f)(v) (*Unmatured Coupons and unexchanged Talons*) or Coupons (in the case of interest, save as specified in Condition 7(f)(v) (*Unmatured Coupons and unexchanged Talons*), as the case may be, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the holder, by transfer to an account denominated in such currency with a Bank.
- (c) **Payments in the United States:** Notwithstanding the foregoing, if any Materialised Notes are denominated in U.S. Dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.
- (d) **Payments Subject to Fiscal Laws:** All payments are subject in all cases to (i) any applicable fiscal or other laws, regulations and directives in any jurisdiction, but without prejudice to the provisions of Condition 8 (*Taxation*) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or law implementing an intergovernmental approach thereto. No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.
- (e) **Appointment of Agents:** The Fiscal Agent, the Paying Agents, the Calculation Agent, the Redenomination Agent, the Consolidation Agent and the Registration Agent initially appointed by the Issuer and their respective specified offices are listed at the end of the Base Prospectus relating to the Programme of the Notes of the Issuer. The Fiscal Agent, the Paying Agents, the Redenomination Agent, the Consolidation Agent and the Registration Agent act solely as agents of the Issuer and the Calculation Agent(s) act(s) as independent experts(s) and, in each case such, do not assume any obligation or relationship of agency for any holder of Note or Coupon. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Redenomination Agent, the Consolidation Agent and the Registration Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) a Redenomination Agent and a Consolidation Agent where the Conditions so require, (iv) Paying Agents having specified offices in at least two major European cities (including Paris so long as the Notes are admitted to trading on Euronext Paris) (v), in the case of Dematerialised Notes in fully registered form, a Registration Agent, (vi) a Paying Agent with a specified office in a European Union member State other than Austria so long as Austria will be obliged to withhold or deduct tax pursuant to provisions of the Directive 2003/48/EC as maintained by the Council Directive

(EU) 2015/2060 or any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 or any law implementing or complying with, or introduced in order to conform to, such directive, and (vii) such other agents as may be required by the rules applicable to any other stock exchange on which the Notes may be listed.

In addition, the Issuer shall forthwith appoint a Paying Agent in New York City in respect of any Materialised Notes denominated in U.S. Dollars in the circumstances described in paragraph (c) above.

On a redenomination of the Notes of any Series pursuant to Condition 1(d) (*Redenomination*) with a view to consolidating such Notes with one or more other Series of Notes, in accordance with Condition 12 (*Further Issues and Consolidation*), the Issuer shall ensure that the same entity shall be appointed as both Redenomination Agent and Consolidation Agent in respect of both such Notes and such other Series of Notes to be so consolidated with such Notes.

Notice of any such change or any change of any specified office shall promptly be given to the holders of Notes in accordance with Condition 13 (*Notices*).

(f) Unmatured Coupons and unexchanged Talons:

- (i) Upon the due date for redemption of Materialised Notes which comprise Fixed Rate Notes should be surrendered for payment together with all unexpired Coupons (if any) relating thereto, failing which an amount equal to the face value of each missing unexpired Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unexpired Coupon that the sum of principal so paid bears to the total principal due) shall be deducted from the Final Redemption Amount, Amortised Nominal Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 9 (*Prescription*)).
- (ii) Upon the due date for redemption of any Materialised Note comprising a Floating Rate Note, unexpired Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Materialised Note, any unexpired Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Where any Materialised Note that provides that the relative unexpired Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unexpired Coupons, and where any Materialised Note is presented for redemption without any unexpired Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.
- (v) If the due date for redemption of any Materialised Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant definitive Materialised Note. Interest accrued on a Materialised Note that only bears interest after its Maturity Date (or the Extended Maturity Date, if any) shall be payable on redemption of such Materialised Note against presentation (and surrender if appropriate) of the relevant definitive Materialised Note.

- (g) **Talons:** On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 9 (*Prescription*)).
- (h) **Business Days for payment:** If any date for payment in respect of any Note or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day, nor to any interest or other sum in respect of such postponed payment. In this paragraph, “**business day**” means a day (other than a Saturday or a Sunday) (A) (i) in the case of Dematerialised Notes, on which Euroclear France is open for business or (ii) in the case of Materialised Notes, on which banks and foreign exchange markets are open for business in the relevant place of presentation, (B) in such jurisdictions as shall be specified as “**Financial Centres**” in the relevant Final Terms and (C) (i) in the case of a payment in a currency other than Euro, where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) in the case of a payment in Euro, which is a TARGET Business Day.
- (i) **Bank:** For the purpose of this Condition 7 (*Payments and Talons*), “**Bank**” means a bank in the principal financial centre of the relevant currency or, in the case of Euro, in a city in which banks have access to the TARGET System.

8 Taxation

- (a) **Tax exemption:** All payments of principal, interest and other assimilated revenues by or on behalf of the Issuer in respect of the Notes or Coupons shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.
- (b) **No Additional Amounts:** If French law should require that payments of principal or interest and other assimilated revenues in respect of any Note or Coupon relating thereto, be subject to deduction or withholding in respect of any present or future taxes or duties whatsoever, the Issuer will not be required to pay any additional amounts.

For the avoidance of doubt, the Issuer or any other person making payments on behalf of the Issuer shall be entitled to deduct and withhold as required, and shall not be required to pay any additional amounts with respect to any such withholding or deduction imposed on or in respect of any Note, pursuant to Sections 1471 through 1474 of the Code (“**FATCA**”), any treaty, intergovernmental agreement, law, regulation, implementing legislation or other official guidance enacted by any jurisdiction implementing FATCA, or any agreement between the Issuer or any other person and the United States or any jurisdiction implementing FATCA.

9 Prescription

Claims against the Issuer for payment in respect of the Notes and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or 5 years (in the case of interest) from the appropriate Relevant Date in respect of them.

10 Meeting and Voting Provisions

In this Condition 10 references to:

“**General Meeting**” are to a general meeting of Noteholders of all Tranches of a single Series of Notes and include, unless the context otherwise requires, any adjourned meeting thereof;

“**Notes**” and “**Noteholders**” are only to the Notes of one or several Series in respect of which a General Meeting has been, or is to be, called, and to the Notes of one or several Series in respect of which a Written Resolution has been, or is to be sought, and to the holders of those Notes, respectively;

“**outstanding**” has the meaning ascribed to it in Condition 5(n) (*Interest and other Calculations*); for the avoidance of doubt, in this Condition 10 (*Meeting and Voting Provisions*) the term “**outstanding**” shall not include those Notes subscribed or purchased by the Issuer pursuant to, respectively, Articles L. 513-26 and L. 213-0-1 of the French *Code monétaire et financier* that are held by it and not cancelled;

“**Resolution**” means a resolution on any of the matters described in paragraphs (a)(ii) or (b)(v) below passed (x) at a General Meeting in accordance with the quorum and voting rules described in paragraph (a)(vi) and (b)(vi) below or (y) by a Written Resolution as described in paragraph (h); and

“**Written Resolution**” means a resolution in writing signed or approved by or on behalf of the Noteholders representing not less than 80 per cent. in nominal amount of the Notes outstanding. References to a Written Resolution include, unless the context otherwise requires, a resolution approved by Electronic Consent.

(a) Contractual representation of Noteholders – No *Masse*

In respect of Notes with an initial denomination of, or which can only be traded in amounts of, at least €100,000 or its equivalent in other currencies at the time of issue, and if the relevant Final Terms specify “No *Masse*”, the following meeting and voting provisions shall apply.

(i) General

Pursuant to Article L.213-6-3 I of the French *Code monétaire et financier*, the Noteholders shall not be grouped in a *masse* having separate legal personality and acting in part through a representative of the noteholders (*représentant de la masse*) and in part through general meetings. However, the following provisions of the French *Code de commerce* relating to general meetings of noteholders shall apply:

- (A) Articles L.228-46-1, L.228-57, L.228-58, L.228-59, L.228-60, L.228-60-1, L.228-61 (with the exception of the first paragraph thereof), L.228-65 I (with the exception of sub-paragraph 4° and paragraph II), L.228-66, L.228-67, L.228-68, L.228-69, L.228-71 (with the exception of the second sentence of the first paragraph and the second paragraph thereof), L.228-72, L.228-73 (with the exception of the third paragraph thereof), L.228-76, L.228-88, R.228-65 to R.228-68, R.228-70 to R.228-76, R.228-79 and R.236-11 of the French *Code de commerce* relating to general meetings of noteholders, and
- (B) whenever the words “*de la masse*”, “*d’une même masse*”, “*par les représentants de la masse*”, “*d’une masse*”, “*et au représentant de la masse*”, “*de la masse intéressée*”, “*composant la masse*”, “*de la masse à laquelle il appartient*”, “*dont la masse est convoquée en assemblée*” or “*par un représentant de la masse*”, appear in the provisions of the French *Code de commerce* relating to general meetings of noteholders, they shall be deemed to be deleted,

and subject to the following provisions:

(ii) **Powers of the General Meetings**

The General Meeting may act with respect to any matter that relates to the common rights, actions and benefits which now or in the future may accrue with respect to the Notes.

The General Meeting may further deliberate on any proposal relating to the modification of the Conditions including any proposal, whether for compromise or settlement, relating to rights in controversy or which were the subject of judicial decisions, it being specified, however, that the General Meeting may not increase the liabilities (*charges*) of the Noteholders, nor establish any unequal treatment between the Noteholders, nor decide to convert Notes into shares.

Each Noteholder is entitled to bring a legal action against the Issuer for the defence of its own interests; such a legal action does not require the authorisation of the General Meeting.

(iii) **Convening of a General Meeting**

A General Meeting may be held at any time on convocation by the Issuer. One or more Noteholders, holding together at least one-thirtieth of the principal amount of the Notes outstanding, may address to the Issuer a demand for convocation of the General Meeting. If such General Meeting has not been convened within two (2) months after such demand, the Noteholders may commission one of them to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of any General Meeting relating to the date, hour, place, agenda and all other elements required by applicable French laws and regulations will be published as provided under Condition 13 (*Notices*) not less than 15 calendar days prior to the date of such General Meeting on first convocation, and 5 calendar days on second convocation.

(iv) **Arrangements for voting**

SUMMARY OF THE LEGISLATION AND REGULATIONS RELATING TO *SOCIÉTÉS DE CRÉDIT FONCIER*

FRENCH LAW AND COMPLIANCE WITH EUROPEAN REGULATIONS

In 1999, the French government passed legislation on the modernization of the *obligations foncières* framework. This law provides the French financial markets with a category of bond instruments, which are competitive and uniform in terms of risks and liquidity, controlled by the French Credit Institutions and Investment Companies Committee (CECEI - *Comité des Etablissements de Crédit et des Entreprises d'Investissements*, now known as *Autorité de contrôle prudentiel et de résolution (ACPR)* and by a Specific Controller. Until then, the legislation of 1852 on *sociétés de crédit foncier* allowed only *Crédit Foncier de France* or *Crédit Foncier et Communal d'Alsace et de Lorraine* to issue *obligations foncières*. Since 1999, *sociétés de crédit fonciers*' business activities have been governed by the French *Code monétaire et financier* (the "Code") which codified the provisions of the aforementioned law of 1999.

French law is the transposition of the European UCITS and CRR texts governing covered bonds:

- *sociétés de crédit foncier* are credit institutions having their registered office in a Member State of the European Union, France. They are legally subject to specific supervision protecting the holders of those bonds via a Specific Controller, whose appointment is approved by the ACPR;
- bondholders of *obligations foncières* are protected by a pool of underlying assets (whose eligibility criteria are defined by law) over which they have priority recourse in the event of the issuer's default: this is the legal *privilège* granted to bondholders.

The French legal framework also imposes additional requirements in terms of liquidity and reporting.

SOCIÉTÉS DE CRÉDIT FONCIER

Sociétés de crédit foncier are credit institutions whose sole purpose is defined in Article L. 513-2 of Code: granting or acquiring secured loans i.e. loans that are backed by first-rank mortgages or real property collateral conferring at least an equivalent guarantee, or exposures to public entities, and financing them by issuing *obligations foncières*. The business activities of a *société de crédit foncier* are restricted by law: they are not allowed to hold equity interests or share portfolios. *Obligations foncières*, which finance eligible assets, are covered bonds that have a legal *privilège* that confers to their holders a preferential claim on cash flows deriving from the underlying assets.

The eligibility criteria for *sociétés de crédit fonciers*' assets are defined in Articles L. 513-3 to L. 513-7 of the Code. The following assets are eligible:

- real estate loans secured by a first-rank mortgage or equivalent guarantee (European Union or European economic Area) or by an eligible guarantor (the real estate loans in question cannot account for more than 35% of the total assets);
- exposures on public entities or guarantees by public entities belonging to Member States of the EU or parties to the Agreement on the EEA, such as loans or off-balance sheet commitments. Eligible public entities are Member States, central governments, central banks, public institutions, local authorities or their associations. Apart from public entities located in the EU or the EEA, these exposures are eligible if the public entity has a top credit quality rating from an external credit rating body recognized by the ACPR in accordance with Article L. 511-445 (or a second-from-top rating under certain circumstances);
- replacement values (limited to 15% of the face value of the privileged resources): securities, and deposits that are sufficiently secure and liquid (Article R. 513-6 of the Code).

LEGAL PRIVILEGE OF HOLDERS OF OBLIGATIONS FONCIÈRES

According to Article L. 513-11 of the Code, which defines the legal *privilège* on cash flows from assets and the terms of the guarantee that it provides, the assets held by a *société de crédit foncier* allow the priority repayment of privileged debt, i.e. *obligations foncières*. The legal *privilège* is the fundamental principle of legal security for *obligations foncières*' holders. It remains valid even if the *société de crédit foncier* or its parent company goes bankrupt or goes into receivership. It thus affords investors the maximum protection. Privileged debts are paid on their contractual due date, in priority to all other debts, for both their interest and principal payments, until they have been fully repaid, under all circumstances. The bondholders of *obligations foncières* are also protected by the following legal and regulatory frameworks:

Overcollateralization

The total amount of the *société de crédit foncier*'s assets must be higher than the amount of their liabilities benefiting from the *privilège*. Article R. 513-8 of the Code sets the minimum legal overcollateralization ratio at 105%.

It should be noted that non-collateralized exposures in the Group may not exceed 25% of non-privileged resources. One of the Specific Controller's duties is to monitor compliance with this overcollateralization rule.

The regulatory overcollateralization ratio of *Compagnie de Financement Foncier* has always been above 108% since its establishment in 1999.

Asset-liability matching in terms of maturity and interest rates

Article 12 of CRBF (French Banking and Financial Regulation Committee) Regulation No. 99-10 requires that matching of maturity and interest rates of assets and liabilities has to be respected in *sociétés de crédit foncier*'s balance sheet management. It is subject to very close scrutiny by the Specific Controller, who instructs the executives and the ACPR if he or she determines that the matching of interest rates and maturity could create excessive risks for privileged creditors (Decree of February 23, 2011). The Decree of May 26, 2014 established a maximum duration gap of 18 months between assets and liabilities.

The average maturity for assets held to maintain a cover ratio of 105% and dealt with in all transparency in the case of collateralized assets (such as mortgage notes or mobilizations pursuant to Article L. 211-38 of the Code), may not exceed the average maturity of outstanding privileged liabilities by more than 18 months.

The Decree of May 26, 2014, also requires *sociétés de crédit foncier* to prepare an estimate, based on a yearly plan approved by the decision-making body and submitted to the ACPR, of the privileged resources' cover ratio up to their maturity, considering the available eligible assets and the forecast new production based on conservative assumptions.

180-day liquidity buffer

At all times, *sociétés de crédit foncier* must ensure that all cash requirements are covered for a period of 180 days.

In accordance with Article R. 513-7 of the Code, *sociétés de crédit foncier* must at all times cover all their cash requirements for the next 180 days. To do so, they may use replacement values or assets eligible for *Banque de France* intraday credit transactions.

NON-EXTENSION OF THE PARENT'S INSOLVENCY TO ITS SOCIÉTÉ DE CRÉDIT FONCIER SUBSIDIARY

Under French law, a *société de crédit foncier* has a specific legal framework guaranteeing that the holders of *obligations foncières* receive favorable treatment under normal management conditions and in the event of insolvency proceedings being initiated against its parent. The cash flows derived from *société de crédit foncier*'s

assets are, under all circumstances, used to repay privileged debt. In the event of default of its parent, the *société de crédit foncier* and the holders of *obligations foncières* are fully protected by virtue of this non-extension rule.

If a French company is subject to insolvency proceedings, there will be no vacuum in authority at its level, as a legal receiver is appointed to ensure the continuity of management.

As a separate legal entity, a *société de crédit foncier*'s subsidiary is not affected by the insolvency of its parent, the management of a *société de crédit foncier* is conducted *in bonis*, i.e. under normal management conditions, by its own managers.

If the parent is subject to preservation or insolvency proceedings, the *société de crédit foncier* may terminate its service and receivable management contracts if it determines this course to be appropriate. The *société de crédit foncier* may therefore change its service provider at any time to ensure the continued management of its assets and liabilities.

Under Article R. 513-4 of the Code, the *société de crédit foncier* must identify the personnel and resources needed to recover debts and enforce the agreements signed. Procedures for transferring all the technical resources and data needed to perform recovery actions must also be included in the preventive recovery plan.

IMMUNITY OF OBLIGATIONS FONCIÈRES HOLDERS

In the event of insolvency proceedings being initiated against a *société de crédit foncier*, holders of *obligations foncières* are entirely protected by the following procedures:

Repayment schedule of privileged debt is maintained

In the event of judicial liquidation, debt payment is not accelerated. The debts duly deriving from the transactions shall be paid on their contractual due date and repayment of debts that do not benefit from the *privilège* will only take place after repayment of *obligations foncières* and other privileged debts (Article L. 513-11-2 of the Code).

All other creditors (including the French State) are not paid until all *obligations foncières* holders' claims have been satisfied, as set out in the initial schedule. In contrast with the general law that transactions made when companies are in financial difficulty may be invalidated, *sociétés de crédit foncier*'s asset transfers made prior to a declaration of insolvency remain valid

Continuity of management in case of insolvency of a société de crédit foncier

Article L. 612-34 of the Code provides that, depending on the situation, a provisional administrator, appointed by the ACPR, may oversee or advise managers, or be given full powers. The administrator can use the same asset-liability management (ALM) tools that are usually available to a *société de crédit foncier*, such as:

- disposals of assets;
- assigning assets;
- issuing new *obligations foncières*;
- issuing non-privileged liabilities.

A *société de crédit foncier* continues its business according to the same rules, under all circumstances.

Thus, a *société de crédit foncier* carries out its business under normal management conditions because the provisional administrator has the same duties as the managers had previously. All activities are carried on to ensure the Company is well managed, and all privileged debts are repaid in compliance with existing commitments.

In the event of insolvency of a *société de crédit foncier*, the Specific Controller, as set out in Article L. 513-24 of the Code, must file claim statements with the court-appointed administrator on behalf of privileged creditors.

The Specific Controller continues to inform and notify the ACPR, just as he or she must do when the *société de crédit foncier* is operating normally.

Affiliation to a central body

French cooperative banking groups have a central body and some of their subsidiaries may use a specific guarantee scheme: the affiliation scheme (Articles L. 512-106 to L. 512-108 of the Code), a system that requires the central body to guarantee the liquidity and solvency of the affiliates.

Compagnie de Financement Foncier benefits from affiliation with BPCE SA, Groupe BPCE's central body; holders of its *obligations foncières* enjoy an additional layer of security.

VI) THIRD PARTY INFORMATION AND STATEMENT BY EXPERTS AND DECLARATIONS OF ANY INTEREST

I. SPECIFIC CONTROLLER’S CERTIFICATION ON THE VALUATION AND PERIODIC REVIEW METHODS OF THE REAL ESTATE ASSET AT 31 DECEMBER 2019 AND THEIR RESULTS

To the Board of Directors of *Compagnie de Financement Foncier*,

In our capacity as the Specific Controller of *Compagnie de Financement Foncier*, and pursuant to the Article 5 of regulation No. 99-10 of the French Banking and Financial Services Regulatory Committee, we assessed the validity, in accordance with regulations in force, of the methods used to value the real estate assets underlying the loans and their results, and of the methods for periodically reviewing their value, as published together with the financial statements for the year ended 31 December 2019 and appended hereto.

The valuation methods and their results for real estate assets and the methods for periodically reviewing their value have been defined and implemented under the responsibility of your company's management.

Our responsibility is to assess the validity of this procedure in terms of its compliance with regulations in force as of 31 December 2019.

We performed the procedures that we deemed necessary in accordance with the professional standards applicable in France to such engagements. Our work consisted in checking the compliance of:

- valuation procedures, methods and results, as well as periodic review methods, in their design and application with regulations in force as at 31 December 2019;
- the information published together with the annual financial statements with, on one hand, the system for the valuation and periodic review implemented, and on the other hand, with the results arising from the implementation of the valuation system.

The work we have done calls for the following comments and observations:

- the property valuation methods and results and the methods for periodically reviewing their value, published simultaneously with the annual financial statements as of 31 December 2019, generally comply with Articles 2 to 4 of CRBF Regulation 99-10;
- It should be noted, however, that based on the tests carried out by ourselves and internal controls carried out by *Crédit Foncier* on behalf of *Compagnie de Financement Foncier*, the operational implementation in 2019

of the periodic review procedure of the value of pledges seems perfectible concerning the exhaustive application of the statistical methods used. Nevertheless, this observation does not affect the cautiousness of the valuation of pledges made in 2019.

II. PROCEDURE FOR THE VALUATION AND PERIODIC REVIEW OF THE ASSETS UNDERLYING THE LOANS FOR 2019

I - Valuation method applied to the assets underlying loans

General asset valuation principles

The procedure described below has been determined pursuant to Articles 1 and 2 of CRBF regulation No. 99-10, as amended by regulation No. 2002-02 and the decrees of 7 May 2007 and 23 February 2011 transposing European directive 2006/48/EC of 26 May 2014 and 3 November 2014 law into French law.

Real estate financed by eligible loans or posted as collateral for these loans is subject to cautions appraisal.

The valuation is performed taking into account the long-term sustainable aspects of the property, the normal and local market conditions, the current use and alternative appropriate uses of the property.

Derogation rule used by **Compagnie de Financement Foncier**

For loans originated between 1 January 2003 and 31 December 2006, in accordance with the provisions of CRBF regulation No. 99-10 and a decision by the Chairman of **Crédit Foncier de France's** Executive Board dated 28 July 2003, a cost of the transaction without discount is understood to be an estimated value of the asset for all transactions with individuals involving residential property where a transaction cost is less than €350,000.

Following the changes to CRBF regulation No. 99-10, this principle was extended to include:

- for the period between 7 May 2007 and 23 February 2011, all residential property transactions with individuals where a transaction cost is less than €450,000 or where an outstanding principal amount on the acquired loan or a total amount authorised is less than €360,000;
- beginning on 24 February 2011, all residential property transactions with individuals where a transaction cost is less than €600,000 or where an outstanding principal amount on the acquired loan or a total amount authorised is less than €480,000.

Above these thresholds, the appraised value is considered as the value of the property.

Summary

The above-mentioned rules, applied since 24 February 2011, are summarised in the following table:

Property types	Cost of transaction is less than €600,000 or acquired loan less than €480,000	Cost of transaction greater than or equal to €600,000 and acquired loan greater than or equal to €480,000
Residential Property for private individuals	Transaction cost	Appraisal
Residential Property for Professionals	Appraisal	Appraisal
Property for professional use ⁽¹⁾	Appraisal	Appraisal

(1) *Property for professional use means all properties other than residential and multiple-use properties where the value allocated to the residential part is less than 75% of the total value of the property.*

An appraisal is made of all collateral underlying authorised loans (*i.e.* signed by the parties) during the year, regardless of whether or not they are implemented.

Other collateral (securing loans authorised before 30 November 2018 and already valued or re-valued) is subject to a periodic review of its value as presented hereafter (see Sections II, III and IV).

II – Methods used for periodic review of residential assets for individuals and professionals

The methods described below apply to all loans granted or mobilized to Compagnie de Financement Foncier.

Two methods are used: a statistical method, sub-divided into two variants depending on the customer segment and property type, and an expert appraisal method:

A – Statistical method

Two variant statistical methods are used for periodic reviews of value of collateral/guarantees applicable to residential properties depending on the valuation engine used:

- **A1 Crédit Foncier statistical method** unchanged from previous years and implemented in the valuation engine in the Crédit Foncier's IT system. These valuations are based on value change indices derived from prices provided by Crédit Foncier Immobilier appraisers:
 - for individual residential properties,
 - annually.
- **A2 BPCE statistical method**, using an engine installed on the group's IT system. This permits valuation, using indices based on property prices
 - for professional residential properties,
 - semi-annually.

In the special case of collateral located in the Netherlands and Belgium, country-specific indices are used (Stadim for Belgium and the PBK indices, produced by the Dutch real estate registry, for the Netherlands).

A1 – Crédit Foncier periodic statistical review method

i) Principles

The model is based on the preparation of indices. The indices obtained are the changes observed from one year to the next in market values, clarifying that, in accordance with the relevant legislation, an appraisal is carried out, in compliance with the law, on the basis of a prudent assessment (which is then revalued by applying the indices).

The indices reflect four distinct geographical categories:

- (i) the 114 sites established by postal code by the INSEE (French National Institute for Statistics and Economic Studies). They are defined as being urban areas with more than 50,000 inhabitants. The list of these urban areas and their composition changes as the urban fabric and real estate markets evolve;
- (ii) outside these areas, the “non-urban” real estate market is divided into administrative regions that date from before the 1 January 2016 reforms (20 regions, not including Corsica and region Île-de-France);
- (iii) Île-de-France, excluding the city of Paris, is valued separately using specific indices for each of its seven departments;
- (iv) Paris is also valued separately using a specific index.

The indices for each of these four categories (urban, non-urban, region Île-de-France and Paris), are grouped according to postal codes, and broken down as follows:

- Urban areas: 114 Apartment indices / 114 House indices;

- Non-urban area: 20 House indices;
- Île-de-France (excluding Paris): 7 Apartment indices / 7 House indices;
- Paris: 1 Apartment index.

When the apartment/home distinction is not available for a particular item of collateral, the lower of the two indices for the corresponding postal code is used.

When the collateral is in Corsica or in the Dom-Toms (French overseas departments and territories) or its location is not known in the postal code table, the annual trend indices used for the corresponding type of housing are:

- for apartments: the average of the apartment indices for urban areas;
- for houses: the lower of the two averages for houses in urban areas and for regions.

ii) Revaluation cycle management

Real estate value indices are updated annually. New indices are established each November based on the period ending on 30 September.

The revaluation cycle is thus managed on a one year rolling period from 30 September of year “n-1” to 30 September of year “n”.

The pledges are revalued on an annual basis using the indices established in November. The processing of revaluations is recognized in the May and November accounts to revalue the pledges that have not been reviewed for over one year.

iii) Sources

These indices are based on an *ad hoc* survey and on expert appraiser estimates carried out each year by the Crédit Foncier Immobilier’s Research department with the network of regional real estate appraisers, quarterly gross statistical real estate information available in its database and regional indicators from www.marche-immo.com.

A2 – BPCE periodic statistical review method

i) Principles

The statistical review method used by BPCE applies to residential real estate assets granted to professionals and depends on the property's location.

It is based on average property prices in each department, and Paris district, supplied by Crédit Foncier Immobilier appraiser.

B – Appraiser estimate revaluation method

This category, in application of Basel II provisions (Article 208 of European Regulation no. 575/2013 of European Parliament and Council dated 26 June 2013), concerns residential real estate posted as collateral for a debt of over €3 million.

Each property in this category is individually revalued every three years by means of appraisal. The appraiser determines a mortgage value based on a thorough analysis of the type of asset and its specific aspects and on a prudent, forward-looking view of the market.

In each of the two years between each 3-year appraisal, the property is revalued using a statistical method:

- method A.1 for Individual customers;
- method A.2 for Professional customers (“Corporates”).

III - Methods used for periodic review of real estate for professional use (non-residential)

In accordance with CRBF regulation 99-10, the following revaluation method is used for properties for professional use:

B – Appraiser estimate reevaluation method

This category concerns property for professional use (non-residential) where the debt has been assigned or mobilized to the Compagnie de Financement Foncier.

Each property in this category is individually revalued every year by means of appraisal. The appraiser determines a cautious mortgage value based on a thorough analysis of the type of asset and its specific aspects and on a prudent, forward-looking view of the market.

IV - Summary table of methods

Type of asset	Individuals		Corporates	
	Loan less than €3m	Loan more than €3m	Loan less than €3m	Loan more than €3m
Residential	Method A.1 annually	Individual appraisal (method B) every 3 years and method A.1 in the other years	Method A.2 annually	Individual appraisal (method B) every 3 years and method A.2 in the other years
Non-residential	Individual appraisal (method B) annually		Individual appraisal (method B) annually	

STRINGENT RISK MANAGEMENT RULES AND COMMITMENTS TO THE MARKET

A. Overcollateralization

Overcollateralization, defined by law (Article L.513-12 of the Code), requires that the total weighted asset amount of *société de crédit foncier* (in accordance with the regulations set by CRBF¹) is always at least 105% of the total amount of liabilities benefiting from the legal privilege. One of the Specific Controller's duties is to monitor compliance with this regulatory overcollateralization rule.

With €3.2 billion in capital, €2.1 billion in subordinated debt and €4.6 billion in unsecured debt, Compagnie de Financement Foncier's overcollateralization is well above the legal minimum ratio of 105%, and is 111.4% at 31 December 2019.

Since the creation of Compagnie de Financement Foncier in 1999, this regulatory ratio has always been above 108%.

Overcollateralization ratio since 1999

Maintaining a high overcollateralization ratio specific to Compagnie de Financement Foncier

In addition to the safety provided by the institutional framework and to ensure the best ratings from the major rating agencies, Compagnie de Financement Foncier has initiated additional management measures.

These measures result in compliance with a specific collateralisation ratio for each rating agency based on its methodology.

In particular, since 2009, it set up measures to maintain at all times a volume of non-privileged liabilities at least equal to 5% of the liabilities that benefit from the legal privilege.

The holders of *obligations foncières* who benefit from the privilege are also protected by the relative weight of non-privileged resource holders, since these are not repaid in priority.

¹ Regulation No. 99-10 of 9 July 1999 concerning *sociétés de crédit foncier* and *sociétés de financement de l'habitat*, as amended by regulations No. 2001-02 of 26 June 2001 and 2002-02 of 15 July 2002, and by orders of 7 May 2007 and 23 February 2011

Continuous monitoring of overcollateralization levels

To ensure that compliance with the overcollateralization requirements is maintained at all times, it is monitored on an on-going basis.

In addition to the compliance of the regulatory ratio, if Compagnie de Financement Foncier observes on a quarterly basis, one of the above thresholds, all asset purchases are immediately suspended and non-privileged resources are used to increase overcollateralization above the minimum required amount.

B. Financed LTV for residential mortgage loans

Principle of financed LTV for residential mortgage loans

The Loan-to-Value ratio on residential mortgage loans is the ratio of the outstanding principal over the value of the underlying real estate asset. The present value of the asset is revalued annually to monitor compliance with this ratio.

To guarantee a minimum quality level for cover pool assets, the CRBF caps the maximum percentages that can be refinanced by issues of covered bonds. The regulatory annual valuation of assets, as required by the regulation, is based on a prudent assessment of the property's long-term characteristics, local market conditions, the current use of the property and other possible uses. All of this information is provided by Crédit Foncier Immobilier - Expertise, Crédit Foncier de France's subsidiary, Veritas-certified, of which experts are either certified by a court and/or qualified as Chartered Surveyors (MRICS²).

The Specific Controller monitors these appraisals each year to verify compliance with the real-estate market parameters used in the valuation process, as described in the Risk Management report section of the Universal Registration Document 2019.

C. Credit risk

Asset purchasing criteria by category

Although regulations require that a *société de crédit foncier* invest only in high quality assets, Compagnie de Financement Foncier sets up additional asset purchasing criteria for each asset category, so as to limit its exposure to credit risk. Compagnie de Financement Foncier selects the assets that it wishes to acquire based on their rating, probability of default, score at origination, expected loss and any hedging of assets, as well as yield curves. The assets that meet Compagnie de Financement Foncier's criteria are then purchased at a price determined by the previous study.

Furthermore, Compagnie de Financement Foncier replacement values have very good external credit ratings. The minimum acceptable credit rating for each asset (except for intragroup assets and assets guaranteed by collateral) depends on the investment horizon and must meet the minimum rating criteria of each of the three major rating agencies, as shown below:

	Standard & Poor's	Moody's
From 0 to 59 days	ST: A1	ST: P1
From 60 days to 6 months	ST: A1+	ST: P1 and LT: Aa3

² MRICS: Member accredited by the Royal Institution of Chartered Surveyors (RICS). The RICS is a professional organization whose mission is to regulate and promote the real estate profession.

	Standard & Poor's	Moody's
Over 6 months	LT: AAA	LT: Aaa

Limiting market counterparty risk

Crédit Foncier group's risk policy specifies permarket counterparty risk limits and Compagnie de Financement Foncier observes these limits in its decision process.

For its hedging transactions Compagnie de Financement Foncier executes a framework convention with each of its counterparties, with asymmetrical collateralization and other specific terms set forth in an appendix to this agreement. Each counterparty agrees to pay Compagnie de Financement Foncier on a daily basis (or on a weekly basis for some of them) a security deposit equal to its net debt position, without reciprocity from Compagnie de Financement Foncier.

D. Managing balance sheet risks

Managing interest rate risk

Compagnie de Financement Foncier has set itself the task of maintaining the level of its interest rate mismatches or gaps within the limits defined by the time horizon and of correcting any overruns by the end of the following quarter, at the latest:

Time period	Limits as a % of N-1 balance sheet (start of period)
Less than 2 years	2%

Liquidity risk hedging

Beyond the legislative constraints requiring that sociétés de crédit foncier ensure that, at all times, all of their cash flows are hedged for a period of 180 days, Compagnie de Financement Foncier has its own additional strict rules. These rules guarantee that it always maintains enough liquidity to honour its privileged liability commitments with no need for new resources for one year in a run-off scenario (i.e. with no new activity).

The high quality of its eligible securities and receivables enables Compagnie de Financement Foncier to have an immediate access to significant amounts of funding from central banks, such as the ECB.

The Compagnie de Financement Foncier cash position is thus sufficient at any given time to meet the contractual payments on its privileged debt over the coming twelve months.

No foreign exchange risk

Compagnie de Financement Foncier prohibits any open foreign exchange positions. As such, all asset purchases or refinancing transactions that are not denominated in euros are systematically hedged against foreign exchange risk.

In practice, Compagnie de Financement Foncier limits its residual foreign exchange positions to €3 million by currency with a €5 million cap for all currencies.

Information on group Crédit Foncier, to which Compagnie de Financement Foncier belongs

From its creation in 1852 and until 1999, Crédit Foncier de France held the special status as a *société de crédit foncier* and as such, issued *obligations foncières*.

Acting as a key player in the specialized real estate financing market and responsible for distributing French state subsidized loans, following the real estate crisis in the 1990's and the abolition of subsidised loans, in 1999 Crédit Foncier de France joined the private sector after its 90% acquisition by the Groupe Caisse d'Épargne.

In the legal context governing this acquisition, the Parliament created a specific new status for *sociétés de crédit foncier*. Compagnie de Financement Foncier was then founded and authorised as a *société de crédit foncier* by the *Comité des Etablissements de Crédit et des Entreprises d'Investissements* ("CECEI"). Crédit Foncier de France transferred all its property commitments and pledged assets to Compagnie de Financement Foncier pursuant to Article 110 of law 99-532 from 25 June 1999.

After having been affiliated with the Groupe Caisse d'Épargne between 1999 and 2009, Crédit Foncier de France became affiliated in 2009 to Groupe BPCE, which resulted from the merger of Caisses d'Épargne and Banques Populaire networks. Since 5 August 2010, Crédit Foncier de France is fully owned by the Central institution of BPCE.

Since 1 April 2019, as part of the implementation of the new industrial structure announced by Groupe BPCE on 26 June 2018, Crédit Foncier de France has been refocusing its efforts on the management of outstanding loans and on refinancing certain Groupe BPCE assets, through Compagnie de Financement Foncier.

Key events of Crédit Foncier group

Key features of the year 2018:

Acquisitions and disposals

During 2018, Compagnie de Financement Foncier acquired €6.4 billion in loans from Crédit Foncier including related receivables, plus €0.4 billion in financing commitments. Under Article L.211-38 of the Code, which allows an institution to grant a loan to another financial institution, the repayment of which is secured by a cover pool of receivables, Compagnie de Financement Foncier has arranged for a number of years several credit lines with its parent company, Crédit Foncier, amounting to €16.4 billion at 31 December 2018, and with certain Caisses d'Épargne or Banque Populaire banks, amounting to €169.1 million. The same facility was also granted to BPCE SA, in the amount of €8.9 billion at 31 December 2018 excluding related receivables. Total loans granted were collateralized for €25.8 billion.

Early repayments

The rate of early repayments fell sharply in 2018. The rate of early repayment at end-2018 was 8.3% compared with 16.5% at end-2017.

The impact of these early repayments on net banking income mainly resulted in:

- an accelerated amortization of acquisition premiums/discounts, for an estimated -€65.1 million over the fiscal year;
- the collection of prepayment penalties from individual customers of €40.8 million; as a reminder, according to the agreement on services rendered by Crédit Foncier, one third of these penalties is transferred to the latter (expense recognized under operating expenses).

Funding and cash management

In parallel, Compagnie de Financement Foncier issued €5.7 billion in *obligations foncières*, €968 million of which in private placements. These funds were raised with high maturities on average in anticipation of a widening of spreads at end-2018 – early 2019 and with a very low absolute spread.

All issuances in 2018 were denominated in euros. The high levels of oversubscription of public issues reflect the diversity and the vitality of Compagnie de Financement Foncier's investor base. Their placement shows strong interest from German investors as well as investors in France, the Benelux, Scandinavia and Asia.

In particular, 2018 was marked by four euro benchmark issuances for a total of €4.75 billion:

- €1.0 billion for 10 years in January;

SUBSCRIPTION AND SALE

Subject to the terms and the conditions contained in an amended and restated dealer agreement dated 12 June 2020 (the “**Amended and Restated Dealer Agreement**”) between the Issuer, the Permanent Dealers and the Arranger, the Notes will be offered on a continuous basis by the Issuer to the Permanent Dealers. However, the Issuer has reserved the right to sell Notes directly on its own behalf to Dealers that are not Permanent Dealers. The Notes may be sold by the Issuer through the Dealers, acting as agents of the Issuer. The Amended and Restated Dealer Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

The Issuer will pay each relevant Dealer a commission as agreed between them in respect of Notes subscribed by it. The Issuer has agreed to reimburse the Arranger for its expenses incurred in connection with the update of the Programme and the Dealers for certain of their activities in connection with the Programme. The commissions in respect of an issue of Notes having a Specified Denomination of less than Euro 100,000 will be stated in the relevant Final Terms.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Amended and Restated Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

Selling Restrictions

Prohibition of Sales to EEA and UK Retail Investors

(i) Prohibition of Sales to EEA and UK Retail Investors

If the Final Terms in respect of any Notes specifies the “Prohibition of Sales to EEA and UK Retail Investors” as “Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA or in the UK. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
 - (ii) a customer within the meaning of Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Regulation; and
- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

(ii) Non-Exempt Offer selling restriction under the Prospectus Regulation

If the Final Terms in respect of any Notes specifies “Prohibition of Sales to EEA and UK Retail Investors” as “Not Applicable”, each Dealer has represented and agreed that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in a member state of the EEA or in the UK (each, a “**Relevant State**”) except that it may make an offer of such Notes to the public in that Relevant State:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State (a “**Non-Exempt Offer**”), following the date of publication of a Base Prospectus in relation to such Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such Base Prospectus has subsequently been completed by the Final Terms contemplating such Non-Exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such Base Prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-Exempt Offer;

- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in paragraphs (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation, or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.
