unsecured and unconditionally and irrevocably guaranteed as to payments of interest and principal by

ISP CB Ipotecario S.r.l.

(incorporated as a limited liability company under the laws of the Republic of Italy)

The €25,000,000,000 Covered Bond Programme (the **Programme**) described in this base prospectus (the **Base Prospectus**) has been established by Intesa Sanpaolo S.p.A. (**Intesa Sanpaolo**, the **Bank**, or the **Issuer**) for the issuance of *obbligazioni bancarie garantite* (the **Covered Bonds**) which term includes, for avoidance of doubt the Registered Covered Bonds as defined below) guaranteed by ISP CB Ipotecario S.r.l. pursuant to Article 7-bis of law No. 130 of 30 April 1999 (**Law 130**) and regulated by the Decree of the Ministry of Economy and Finance No. 310 of 14 December 2006 (the **MEF Decree**) and the supervisory instructions of the Bank of Italy relating to covered bonds under Third Part, Chapter 3, of the Circular No. 285 of 17 December 2013, containing the “*Disposizioni di vigilanza per le banche*” as further implemented and amended (the **BoI OBG Regulations** and, together with Law 130 and the MEF Decree, the **OBG Regulations**).

ISP CB Ipotecario S.r.l. (**ISP CB Ipotecario** or the **Covered Bond Guarantor**) issued a first demand (*a prima richiesta*), autonomous, unconditional and irrevocable (*irrevocabile*) guarantee (*garanzia autonoma*) securing the payment obligations of the Issuer under the Covered Bonds (the **Covered Bond Guarantee**), in accordance with the provisions of Law 130 and of the MEF Decree. The obligation of payment under the Covered Bond Guarantee shall be limited recourse to the Portfolio and the Available Funds (as defined in the section headed “*Terms and Conditions of the Covered Bonds*”).

This Base Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* (the **CSSF**), which is the competent authority under Regulation EU 2017/1129 (the **Prospectus Regulation**) in the Grand Duchy of Luxembourg, as a base prospectus for the purpose of article 8 of the Prospectus Regulation.

The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the CSSF should not be considered as an endorsement of the Issuer or the Guarantor or the quality of the Covered Bonds that are subject to this Base Prospectus. Potential investors should make their own assessment as to the suitability of investing in Covered Bonds.

Application has also been made for Covered Bonds issued under the Programme during the period of 12 (twelve) months from the date of this Base Prospectus to be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange, which is a regulated market for the purposes of Directive 2014/65/EU. As referred to in Article 6(4) of the Luxembourg law on prospectuses for securities of 16 July 2019, by approving this Base Prospectus, in accordance with Article 20 of the Prospectus Regulation, the CSSF does not engage in respect of the economic or financial opportunity of the operation or the quality and solvency of the Issuer.

This Base Prospectus is valid for 12 months from its date in relation to Covered Bonds (until 22 December 2021) which are to be admitted to trading on a regulated market in the European Economic Area (the EEA). The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Capitalised terms used in this Base Prospectus shall have the meaning ascribed to them in the section headed “*Glossary*”, unless otherwise defined in the specific section of this Base Prospectus in which they are used.

Under the Programme, the Issuer may issue Covered Bonds denominated in any currencies, including Euro, UK Sterling, Swiss Franc, Japanese Yen and US Dollar. Interest on the Covered Bonds shall accrue monthly, quarterly, semi-annually, annually or on such other basis as specified in the relevant Final Terms, in arrears at fixed or floating rate, increased or decreased by a margin. The Issuer may also issue Covered Bonds at a discounted price with no interest accruing and repayable at nominal value (zero-coupon Covered Bonds).

The terms of each Series will be set forth in the Final Terms relating to such Series prepared in accordance with the provisions of this Base Prospectus and, if listed, to be delivered to the Luxembourg Stock Exchange on or before the date of issue of such Series.

Application has been made for Covered Bonds (other than Registered Covered Bonds) to be admitted to listing on the official list and trading on the regulated market of the Luxembourg Stock Exchange, which is a regulated market for the purposes of Directive 2014/65/UE. In addition, the Issuer and each Relevant Dealer named under the section headed “*Subscription and Sale*” may agree to make an application to list a Series on any other stock exchange as specified in the relevant Final Terms. The Programme also permits Covered Bonds to be issued on an unlisted basis.

Covered bonds will be issued in dematerialised form and the Issuer reserves the right to issue also Covered Bonds as German governed registered covered bonds (*Gedekte Namensschuldverschreibung*) (the **Registered Covered Bonds**). This Base Prospectus does not relate to the Registered Covered Bonds which may be issued by the Issuer under the Programme pursuant to either separate documentation or the documents described in this Base Prospectus after having made the necessary amendments and the approval of this Base Prospectus by the CSSF does not cover any Registered Covered Bonds which may be issued by the Issuer.

Where Covered Bonds (other than Registered Covered Bonds) issued under the Programme are admitted to trading on a regulated market within the European Economic Area or offered to the public in a Member State of the European Economic Area or the United Kingdom in circumstances which require the publication of a prospectus under the Prospectus Regulation, such Covered Bonds will have a denomination of not less than €100,000 (or, where the Covered Bonds are issued in a currency other than euro, the equivalent amount in such other currency). The terms and conditions of the Registered Covered Bonds (the **Registered Covered Bond Conditions**), which will differ from the terms and conditions set out in the section headed “*Terms and Conditions of the Covered Bonds*”, will specify the minimum denomination for Registered Covered Bonds, which might not be listed.

Amounts payable under the Covered Bonds may be calculated by reference to EURIBOR, or to LIBOR, in each case as specified in the relevant Final Terms. As at the date of this Base Prospectus, the ICE Benchmark Administration (as administrator of LIBOR) and the European Money Markets Institute (**EMMI**, as administrator of EURIBOR) are included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority pursuant to article 36 of Regulation (EU) 2016/1011 (the **BMR**).

The Covered Bonds to be issued on or after the date hereof will be held in dematerialised form or in any other form as may be set out in the Final Terms. The Covered Bonds issued in dematerialised form will be held on behalf of their ultimate owners, until redemption or cancellation thereof, by Monte Titoli S.p.A. (**Monte Titoli**) for the account of the relevant Monte Titoli Account Holders. The expression **Monte Titoli Account Holders** means any authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli and includes any depositary banks appointed by Euroclear Bank S.A./N.V., 1 Boulevard du Roi Albert II, B-1210 Bruxelles as operator of the Euroclear System (**Euroclear**) and Clearstream Banking, *société anonyme*, 42 Avenue JF Kennedy, L-1855, Luxembourg (**Clearstream**). Each Series of Covered Bonds issued in dematerialised form will be deposited with Monte Titoli on the relevant Issue Date (as defined in the section headed “*Terms and Conditions of the Covered Bonds*”). Monte Titoli shall act as depositary for Clearstream and Euroclear. The Covered Bonds issued in dematerialised form will at all times be held in book entry form and title to the Covered Bonds issued in dematerialised form will be evidenced by book entries in accordance with the provisions of Italian Legislative Decree No. 58 of 24 February 1998 (the **Financial Law**) and implementing regulation and with the joint regulation of the *Commissione Nazionale per le Società e la Borsa* (**CONSOB**) and the Bank of Italy dated 13 August 2018 and published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) No. 201 of 30 August 2018, as subsequently amended and supplemented. No physical document of title will be issued in respect of the Covered Bonds issued in dematerialised form.

Before the Maturity Date the Covered Bonds will be subject to mandatory and optional redemption in whole or in part in certain circumstances, as set out in Condition 9 (*Redemption and Purchase*).

Each Series is expected, upon the relevant issue, to be assigned a rating as specified in the relevant Final Terms by Moody’s France S.A.S. (**Moody’s**). Conditions precedent to the issuance of any Series include that a rating letter assigning the rating to such Series of Covered Bonds is issued by the Rating Agency. Whether or not the credit rating applied for in relation to relevant Series of Covered Bonds will be issued by a credit rating agency established in the European Union or in the United Kingdom (**UK**) and registered under Regulation (EC) No. 1060/2009 (as amended, the **CRA Regulation**) will be disclosed in the Final Terms. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union or the UK and registered under the CRA Regulation (or is endorsed and published or distributed by subscription by such a credit rating agency in accordance with the CRA Regulation) unless (1) the rating is provided by a credit rating agency not established in the EEA or the UK but endorsed by a credit rating agency established in the EEA or the UK and registered under the CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA or the UK which is certified under the CRA Regulation. The European Securities and Markets Authority (the **ESMA**) is obliged to maintain on its website, <https://www.esma.europa.eu/page/List-registered-and-certified-CRAs>, a list of credit rating agencies registered and certified in accordance with the CRA Regulation. **A credit rating is not a recommendation to buy, sell or hold Covered Bonds and may be subject to revision or withdrawal by the Rating Agency.**

For a discussion of certain risks and other factors that should be considered in connection with an investment in the Covered Bonds, see the section headed “*Risk Factors*” of this Base Prospectus.

In connection with the issue of any Series or Tranche under the Programme, the Dealer (if any) which is specified in the relevant Final Terms as the stabilising manager (the Stabilising Manager) or any person acting for the Stabilising Manager may over-allot any such Series or Tranche or effect transactions with a view to supporting the market price such Series or Tranche at a level higher than that which might otherwise prevail for a limited period. Such stabilising shall be in compliance with all applicable laws, regulations and rules.

IMPORTANT – EEA AND UK RETAIL INVESTORS - If the Final Terms in respect of any Cover Bonds include a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Covered Bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**) or in the United Kingdom (**UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (**MiFID II**); or (ii) a customer within the meaning of Directive (UE) 2016/97 (**IDD**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the **PRIIPs Regulation**) for offering or selling the Covered Bonds or otherwise making them available to retail investors in the EEA or the UK has been prepared and therefore offering or selling the Covered Bonds or otherwise

making them available to any retail investor in the EEA or the UK may be unlawful under the PRIIPs Regulation.

MIFID II product governance / target market – The Final Terms in respect of any Covered Bonds will include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Covered Bonds and which channels for distribution of the Covered Bonds are appropriate. Any person subsequently offering, selling or recommending the Covered Bonds (a "distributor") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Covered Bonds (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

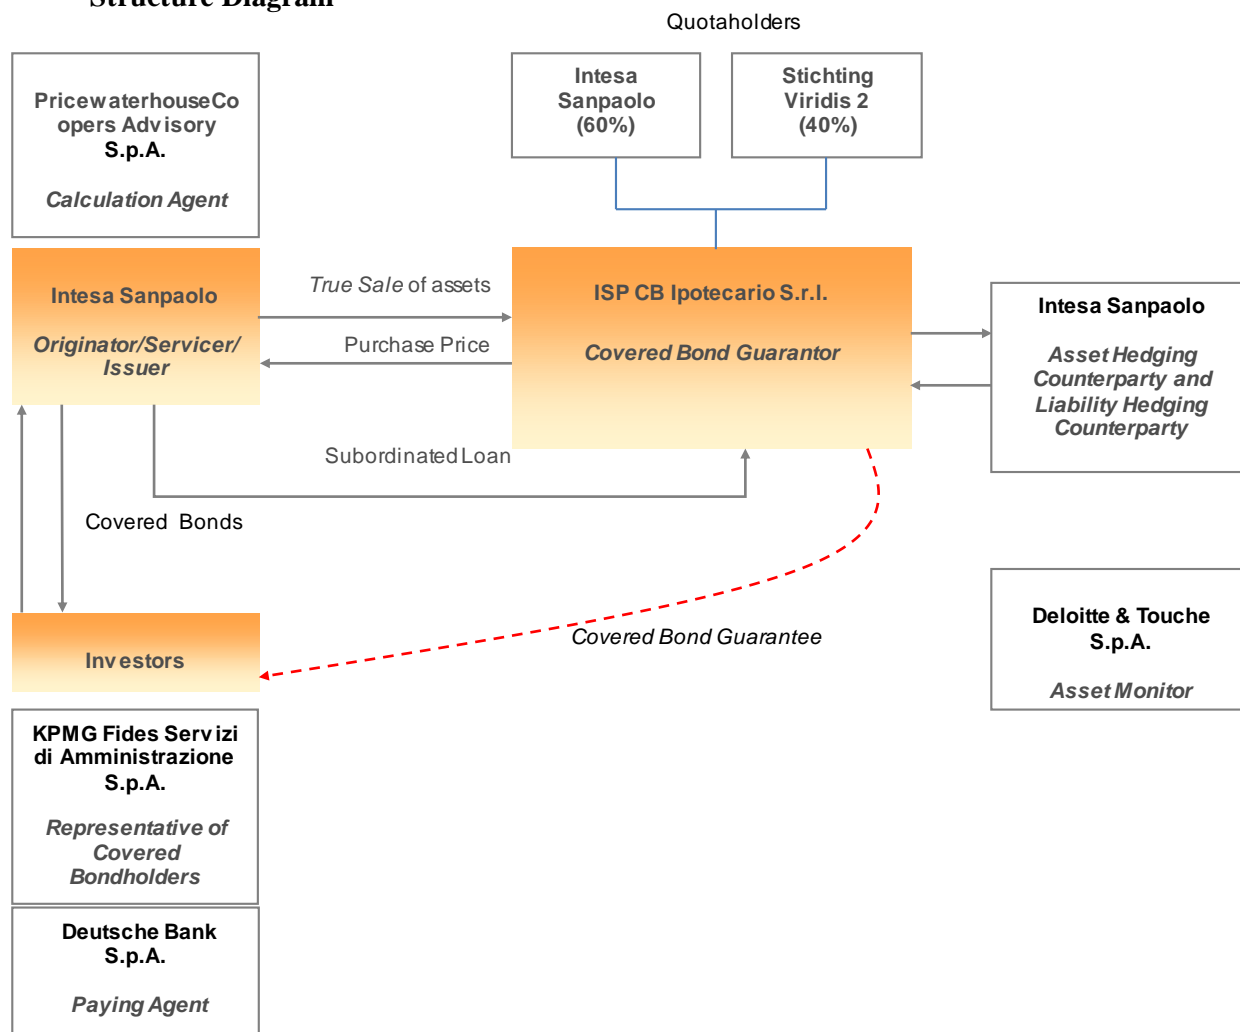

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Covered Bonds is a manufacturer in respect of such Covered Bonds, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

OVERVIEW OF THE PROGRAMME

Words and expressions defined elsewhere in this Base Prospectus shall have the same meaning in this overview. An index of certain defined terms is contained at the end of this Base Prospectus.

Structure Overview

The Programme

Under this Euro 25,000,000,000 Covered Bond Programme (the **Programme**), the Issuer may from time to time issue Covered Bonds to one or more of the Dealers indicated on the cover page, and any additional Dealers appointed from time to time under the Programme by the Issuer, in accordance with the Dealer Agreement (the **Dealers**), whose appointment may be for a specific issue or on an ongoing basis.

The maximum aggregate principal amount of all Covered Bonds outstanding at any time under the Programme will not exceed Euro 25,000,000,000 (or its equivalent in other currencies). The Issuer may, from time to time, increase the amount of the Programme in accordance with the terms of the Dealer Agreement.

The Covered Bonds will be issued on a continuing basis to one or more of the Dealers.

Covered Bonds may be distributed on a syndicated or non-syndicated basis, in each case only in accordance with the relevant selling restrictions. The method of distribution of each Series or Tranche will be stated in the relevant Final Terms.

Covered Bonds will be issued in Series, but on different terms from each other, and each Series may comprise one or more Tranches, subject to the terms set out in the relevant Final Terms in respect of such Series or Tranche.

Status of the Covered Bonds

The Covered Bonds will constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer, guaranteed by the Covered Bond Guarantee and will rank *pari passu* without any preference among themselves, except in respect of maturities of each Series or Tranche, and (save for any applicable statutory provisions) at least equally with all other present and future unsecured, unsubordinated obligations of the Issuer having the same maturity of each Series or Tranche of the Covered Bonds, from time to time outstanding.

The Covered Bond Guarantee and the Portfolio

In accordance with Law 130, by virtue of the Covered Bond Guarantee, the Covered Bondholders will benefit from a guarantee issued by the Covered Bond Guarantor which will, in turn, hold a portfolio consisting of some or all of the following assets:

- (a) residential mortgage loans (*mutui ipotecari residenziali*) that have a loan to value (LTV) that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;
- (b) commercial mortgage loans (*mutui ipotecari commerciali*) that have an LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;
- (c) asset backed securities for which a risk weight not exceeding 20 per cent. is applicable in accordance with the Bank of Italy's prudential regulations for banks — standardised approach — provided that at least 95 per cent. of the relevant securitised assets are:
 - (i) residential mortgage loans that have an LTV that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;
 - (ii) commercial mortgage loans that have an LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;
- (d) securities issued by central governments meeting the requirements of Article 2, Paragraph 1 (c) of the MEF Decree,

provided that the cumulative amount of the assets described under items (b), (c)(ii) and (d) above may not amount to more than 10 per cent. of the aggregate nominal value of the Portfolio.

In addition, the Portfolio may comprise Integration Assets, having the characteristics described under the section headed "*Description of the Portfolio*", subject to the limitations set out in the MEF Decree.

Under the terms of the Covered Bond Guarantee, if the Issuer defaults in the payment on the due date (subject to any applicable grace periods) of any monies due and payable under or pursuant to the Covered Bonds, or if any other Issuer Event of Default occurs, the Covered Bond Guarantor has agreed (subject to as described below) to pay, or procure to be paid, following service by the Representative of the Covered Bondholders of a Notice to Pay, unconditionally and irrevocably to the Covered Bondholders, any amounts due under the Covered Bonds on the Due for Payment Date. The obligations of the Covered Bond Guarantor under the Covered Bond Guarantee constitute direct and (following the occurrence of an Issuer Event of Default, the service of a Notice to Pay on the Issuer and the Covered Bond Guarantor or, if earlier, the service on the Covered Bond Guarantor of a

Covered Bond Guarantor Acceleration Notice) unconditional, unsubordinated and limited recourse obligations of the Covered Bond Guarantor, backed by the Portfolio, as provided under the OBG Regulations. Payments made by the Covered Bond Guarantor under the Covered Bond Guarantee will be made subject to, and in accordance with, the relevant Priority of Payments, as applicable.

Subordinated Loan Agreement

Pursuant to the Subordinated Loan Agreement, the Seller has granted to the Covered Bond Guarantor the Subordinated Loan with a maximum amount equal to the Programme Limit, plus any other amounts necessary to ensure that the Mandatory Tests are met. Under the provisions of such agreement, upon the relevant disbursement notice being filed by the Covered Bond Guarantor, the Seller shall make advances to the Covered Bond Guarantor in amounts equal to the relevant price of the Initial Portfolio and of any Further Portfolio transferred from time to time to the Covered Bond Guarantor in view of (a) collateralising the issue of further Covered Bonds or (b) carrying out an integration of the Portfolio, whether through Eligible Assets or through Integration Assets, in order to cure a breach of the Mandatory Tests and of the other tests provided for in the Portfolio Administration Agreement.

Amounts owed to the Seller by the Covered Bond Guarantor under the Subordinated Loan Agreement will be subordinated to amounts owed by the Covered Bond Guarantor under the Covered Bond Guarantee. Any such amounts will be repaid on each Guarantor Payment Date prior to the delivery of a Notice to Pay according to the relevant Pre-Issuer Event of Default Principal Priority of Payments and within the limits of the then Available Funds, provided that such repayment does not result in a breach of any of the Tests. Following the service of a Notice to Pay, amounts owed under the Subordinated Loan Agreement shall be repaid within the limits of the Available Funds, in accordance with the relevant Priority of Payments.

Servicing

Under the terms of the Servicing Agreement (i) the Servicer has agreed to administer and service the Receivables (with the exception of the Defaulted Receivables classified as *in sofferenza*) and the Securities and to carry out the collection activities relating to the Receivables and the Securities, on behalf of the Covered Bond Guarantor; and (ii) the Special Servicers have agreed to administer and service the Defaulted Receivables classified as *in sofferenza*. Under the Servicing Agreement, the Servicer has agreed to be responsible for verifying that the transaction complies with the law and this Base Prospectus, in accordance with the requirements of Law 130.

Cashflows

Prior to service of a Notice to Pay on the Covered Bond Guarantor the Covered Bond Guarantor will:

- (a) apply Interest Available Funds to pay (subject to compliance with the Tests) interest due on the Subordinated Loan, but only after payment of certain items ranking higher in the Pre-Issuer Event of Default Interest Priority of Payments (including, but not limited to, payments due to the Hedging Counterparties); and
- (b) apply Principal Available Funds towards (subject to compliance with the Tests) repaying the Subordinated Loan, but only after payment of certain items ranking higher in the relevant Pre-Issuer Event of Default Principal Priority of Payments (including, but not limited to, payments, if any, due to the Hedging Counterparties).

For further details of the Pre-Issuer Event of Default Interest Priority of Payments and the Pre-Issuer Event of Default Principal Priority of Payments, see the section headed “*General Description of the Programme*” below.

Following service of a Notice to Pay on the Covered Bond Guarantor (but prior to a Covered Bond Guarantor Event of Default and service of a Covered Bond Guarantor Acceleration Notice on the Covered Bond Guarantor) the Covered Bond Guarantor will use all monies to pay the Guaranteed Amounts in respect of the Covered Bonds when due for payment subject to paying certain higher ranking obligations of the Covered Bond Guarantor in the Post-Issuer Default Priority of Payments. In such circumstances, the Seller will only be entitled to receive from the Covered Bond Guarantor payment of interest and repayment of principal under the Subordinated Loan after all amounts due

under the Covered Bond Guarantee in respect of the Covered Bonds have been paid in full or have otherwise been provided for.

Following the occurrence of a Covered Bond Guarantor Event of Default and service of a Covered Bond Guarantor Acceleration Notice on the Covered Bond Guarantor, the Covered Bonds will become immediately due and repayable and Covered Bondholders will then have a claim against the Covered Bond Guarantor under the Covered Bond Guarantee for an amount equal to the Early Redemption Amount in respect of each Covered Bonds, together with accrued interest and any other amounts due under the Covered Bonds, and the Available Funds will be distributed according to the Post-Guarantor Default Priority of Payments.

Mandatory Tests

The Programme provides that the assets of the Covered Bond Guarantor are subject to the statutory tests provided for under Article 3 of the MEF Decree (the **Mandatory Tests**), which are intended to ensure that the Covered Bond Guarantor can meet its obligations under the Covered Bond Guarantee. Accordingly, for so long as Covered Bonds remain outstanding, the Issuer must always ensure that the following tests are satisfied on each Calculation Date:

- (1) the Nominal Value Test;
- (2) the NPV Test; and
- (3) the Interest Coverage Test.

Amortisation Test

The Amortisation Test is intended to ensure that if, following the occurrence of an Issuer Event of Default and service of a Notice to Pay by the Representative of the Covered Bondholders, the assets of the Covered Bond Guarantor available to meet its obligations under the Covered Bond Guarantee fall to a level where Covered Bondholders may not be repaid, a Covered Bond Guarantor Event of Default will occur and all obligations owing under the Covered Bond Guarantee may be accelerated. Under the Portfolio Administration Agreement, the Covered Bond Guarantor must ensure that, on each Calculation Date following service of a Notice to Pay on the Issuer and the Covered Bond Guarantor, but prior to a Covered Bond Guarantor Event of Default and service of a Covered Bond Guarantor Acceleration Notice, the Amortisation Test Aggregate Portfolio Amount will be in an amount at least equal to the Outstanding Principal Balance of the Covered Bonds as calculated on the relevant Calculation Date.

Extendable obligations under the Covered Bond Guarantee

An Extended Maturity Date may be specified as applying in relation to a Series of Covered Bonds in the applicable Final Terms. This means that if the Issuer fails to pay the Final Redemption Amount of the relevant Series of Covered Bonds on the relevant Maturity Date and if the Covered Bond Guarantor has, on the Extension Determination Date, insufficient Available Funds (in accordance with the Post-Issuer Default Priority of Payments) to pay in full the relevant Final Redemption Amount, then payment of the unpaid amount pursuant to the Covered Bond Guarantee shall be automatically deferred and shall become due and payable on the Extended Maturity Date. However, any amount representing the Final Redemption Amount due and remaining unpaid on the Extension Determination Date may be paid by the Covered Bond Guarantor on any CB Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. Interest will continue to accrue on any unpaid amount and be payable on each CB Payment Date during such extended period up to (and including) the Extended Maturity Date or, if earlier, the CB Payment Date on which the Final Redemption Amount is paid in full.

Asset Monitoring

Pursuant to an engagement letter entered into on or about the Programme Date, the Issuer has appointed the Asset Monitor in order to perform, subject to receipt of the relevant information from the Issuer, specific monitoring activities concerning, *inter alia*, (i) the fulfilment of the eligibility criteria set out under the MEF Decree with respect to the Eligible Assets and Integration Assets included in the Portfolio; (ii) the compliance with the limits on the transfer of the Eligible Assets set out under the MEF Decree; and (iii) the effectiveness and adequacy of the risk protection provided

by any Swap Agreement entered into in the context of the Programme. Furthermore, under the terms of the Asset Monitor Agreement entered into between the Issuer, the Calculation Agent, the Asset Monitor, the Covered Bond Guarantor and the Representative of the Covered Bondholders, the Asset Monitor has agreed with the Issuer and, upon delivery of an Article 74 Notice to Pay (and until the date of its withdrawal) and a Notice to Pay, with the Covered Bond Guarantor, to verify, subject to due receipt of the information to be provided by the Calculation Agent to the Asset Monitor, the arithmetic accuracy of the calculations performed by the Calculation Agent under the Mandatory Tests and the Amortisation Test carried out pursuant to the Portfolio Administration Agreement, with a view to confirming whether such calculations are accurate.

Types of Covered Bonds

In accordance with the Conditions, the Covered Bonds may be Fixed Rate Covered Bonds, Floating Rate Covered Bonds, Zero Coupon Covered Bonds or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms. The Covered Bonds may be repayable in one or more instalments depending on the Redemption/Payment Basis shown in the applicable Final Terms. Each Series shall be comprised of Fixed Rate Covered Bonds only or Floating Rate Covered Bonds only or Zero Coupon Covered Bonds only or such other Covered Bonds accruing interest on such other basis and at such other rate as may be so specified in the relevant Final Terms only.

Fixed Rate Covered Bonds: fixed interest on the Covered Bonds will be payable in accordance with the relevant Final Terms, on such date as may be agreed between the Issuer and the Relevant Dealers and on redemption, and will be calculated on the basis of such Day Count Fraction provided for in the Conditions and the relevant Final Terms.

Floating Rate Covered Bonds: Floating Rate Covered Bonds will bear interest at a rate determined in accordance with the Conditions and the relevant Final Terms. The margin (if any) relating to such floating rate will be agreed between the Issuer and the Relevant Dealers for each Series of Floating Rate Covered Bonds.

Other provisions in relation to Floating Rate Covered Bonds: Floating Rate Covered Bonds may also have a maximum interest rate, a minimum interest rate or both.

Interest on Floating Rate Covered Bonds in respect of each CB Interest Period, as agreed prior to issue by the Issuer and the Relevant Dealer, will be payable on such CB Payment Dates, and will be calculated on the basis of such Day Count Fraction provided for in the Conditions and the relevant Final Terms.

Partly-Paid Covered Bonds: Covered Bonds may be issued on a partly-paid basis in which case interest will accrue on the paid-up amount of such Covered Bonds or on such other basis as may be agreed between the Issuer and the relevant Dealer(s) and set out in the applicable Final Terms.

Amortising Covered Bonds: Covered Bonds may be issued with a predefined, prescheduled amortisation schedule where, in addition to interest, the Issuer will pay, on each relevant CB Payment Date, a portion of principal up to the relevant Maturity Date (as set out in the applicable Final Terms) in instalments.

Zero Coupon Covered Bonds: Zero Coupon Covered Bonds will be offered and sold at a discount to their nominal amount and will not bear interest.

The issuance of certain types of Covered Bonds may require a prior

amendment to the Transaction Documents.

Issuance in Series	<p>Covered Bonds will be issued in Series, but on different terms from each other, subject to the terms set out in the relevant Final Terms in respect of such Series. Covered Bonds of different Series will not be fungible among themselves. Each Series (excluding any Series of Registered Covered Bonds, which may be issued only in Series) may be issued in more than one Tranche which are identical in all respects, but having, inter alia, different issue dates, interest commencement dates, issue prices, dates for first interest payments, maturity dates and may be issued in different currencies (provided that Tranches issued in different currencies will not be fungible among themselves). The Issuer will issue Covered Bonds without the prior consent of the holders of any outstanding Covered Bonds, but subject to certain conditions (see “<i>Conditions Precedent to the Issuance of a new series of Covered Bonds</i>” below).</p> <p>Notwithstanding the foregoing, the term “Series” shall mean in the case of Registered Covered Bonds, each Registered Covered Bonds made out in the name of a specific Registered Covered Bondholder.</p>
Final Terms	<p>Specific final terms will be issued and published in accordance with the generally applicable terms and conditions of the Covered Bonds (the Conditions) prior to the issue of each Series detailing certain relevant terms thereof which, for the purposes of that Series only, complete the Conditions and the Base Prospectus and must be read in conjunction with the Base Prospectus (such specific final terms, the Final Terms). The terms and conditions applicable to any particular Series are the Conditions as supplemented, amended and/or replaced by the relevant Final Terms.</p> <p>In the case of Registered Covered Bonds, each other reference to Final Terms in the Prospectus shall be construed and read as a reference to such Registered Covered Bond (<i>Gedekte Namensschuldverschreibung</i>), the Registered Covered Bond Conditions and any other related agreements.</p>
Interest on the Covered Bonds	<p>Except for Zero Coupon Covered Bonds, and unless otherwise specified in the Conditions and the relevant Final Terms, the Covered Bonds will be interest-bearing and interest will be calculated on the Outstanding Principal Balance of the relevant Covered Bonds. Interest will be calculated on the basis of such Day Count Fraction in accordance with the Conditions and in the relevant Final Terms. Interest may accrue on the Covered Bonds at a fixed rate or a floating rate or on such other basis and at such rate as may be so specified in the relevant Final Terms and the method of calculating interest may vary between the Issue Date and the Maturity Date of the relevant Series.</p>
Interest Rate Conversion	<p>The relevant Final Terms may specify, with respect to a Series of Covered Bonds which are Fixed Rate Covered Bonds, that, in the event such Covered Bonds are not redeemed in full on the Maturity Date, the interest rate payable on such Covered Bonds converts to a floating rate index plus a conversion margin in accordance with the terms specified in the relevant Final Terms.</p>
Redemption of the Covered Bonds	<p>The applicable Final Terms will indicate either (a) that the Covered Bonds cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or in other specified cases, e.g. taxation reasons, or Covered Bond Guarantor Events of Default, as specified in the paragraph <i>Early Redemption of the Covered Bonds</i> below), or (b) that such Covered Bonds will be redeemable at the option of the Issuer upon giving notice to the Representative of the Covered Bondholders on behalf of the holders of the Covered Bonds (the Covered Bondholders), or at the option of the Covered Bondholders upon deposit of a notice by the Representative of the</p>

Covered Bondholders, on behalf of the Covered Bondholders, with the Paying Agent, and in accordance with the provisions of Condition 9 (*Redemption and Purchase*) and of the relevant Final Terms, (i) on a date or dates specified prior to such maturity and (ii) at a price or prices, and on such other terms as may be agreed between the Issuer and the Relevant Dealers (as set out in the applicable Final Terms).

Early Redemption of the Covered Bonds

In certain circumstances indicated under the Conditions (including an early redemption (i) for tax reasons or illegality, or (ii) following a delivery by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice upon the Covered Bond Guarantor), the Covered Bonds may be early redeemed at their Early Redemption Amount.

Early Redemption Amount means, in respect of any Series of Covered Bonds, the principal amount of such Series or such other amount as may be specified in, or determined in accordance with, the relevant Final Terms.

Tax Gross Up and Redemption for taxation reasons

Payments in respect of the Covered Bonds to be made by the Issuer will be made without deduction for or on account of withholding taxes imposed by Italy, subject as provided in Condition 11 (*Taxation*).

In the event that any such withholding or deduction is to be made, the Issuer will be required to pay additional amounts to cover the amounts so deducted. In such circumstances and provided that such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Covered Bonds will be redeemable (in whole, but not in part) at the option of the Issuer. See Condition 9(c) (*Redemption for tax reasons*).

All payments in respect of the Covered Bonds will be made subject to any withholding or deduction required pursuant to FATCA, as provided in Condition 10 (*Payments*).

The Covered Bond Guarantor will not be liable to pay any additional amount due to taxation reasons following an Issuer Event of Default.

Maturity Date

The final maturity date for each Series (the **Maturity Date**) will be specified in the relevant Final Terms, and in any event the determination of the Maturity Date will be subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant regulatory body or by any laws or regulations applicable to the Issuer or the currency of the Covered Bonds. Unless previously redeemed as provided in Condition 9 (*Redemption and Purchase*), and subject to any provision regarding extendable maturity which may be included in the Final Terms, the Covered Bonds of each Series will be redeemed at their Outstanding Principal Balance on the relevant Maturity Date.

Extendable Maturity

The applicable Final Terms may also provide that the obligations of the Covered Bond Guarantor to pay all or (as applicable) part of the Final Redemption Amount payable on the Maturity Date may be deferred to a later date pursuant to Condition 9(b) (*Extension of maturity*) (the **Extended Maturity Date**). Such deferral may occur, if so stated in the relevant Final Terms, automatically if:

- (a) an Article 74 Event or an Issuer Event of Default has occurred; and
- (b) the Covered Bond Guarantor has, on the date falling four Business Days prior to the Maturity Date (the **Extension Determination Date**), insufficient Available Funds (in accordance with the Post-Issuer Default Priority of Payments) to pay in full any amount representing the Guaranteed Amounts corresponding to the amount due (subject to the applicable grace period) in respect of the relevant Series of Covered Bond as set out in the relevant Final Terms (the **Final Redemption Amount**) on the Maturity Date

(a **Maturity Extension**).

In these circumstances, to the extent that the Covered Bond Guarantor has sufficient Available Funds to pay in part the Final Redemption Amount in respect of the relevant Series of Covered Bonds, the Covered Bond Guarantor shall make partial payment of the relevant Final Redemption Amount, in accordance with the Post-Issuer Default Priority of Payments, without any preference among the Covered Bonds outstanding, except in respect of maturities of each Series or Tranche.

Payment of all unpaid amounts shall be deferred automatically until the applicable Extended Maturity Date, provided that, any amount representing the Final Redemption Amount due and remaining unpaid on the Maturity Date may be paid by the Covered Bond Guarantor on any CB Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. Interest will continue to accrue and be payable on any unpaid amount up to the Extended Maturity Date in accordance with Condition 9(b) (*Extension of maturity*).

Notwithstanding the above, if the Covered Bonds are extended as a consequence of the occurrence of an Article 74 Event, upon termination of the suspension period and withdrawal of the Article 74 Notice to Pay, the Issuer shall resume responsibility for meeting the payment obligations under any Series of Covered Bonds in respect of which a Maturity Extension has occurred, and any Final Redemption Amount shall be due for payment by no later than 15 calendar days following the day on which the Article 74 Notice to Pay has been withdrawn.

Long Dated Covered Bonds

If the Extended Maturity Date is set at the Long Date Due for Payment Date in the relevant Final Terms, the relevant Covered Bonds will be considered **Long Dated Covered Bonds**.

Long Date Due For Payment Date means the CB Payment Date immediately following the tenth anniversary of the latest maturity date in respect of the Eligible Assets or Integration Assets contained in the Portfolio as of the Extension Determination Date.

Hard Bullet Covered Bonds

If no Extended Maturity Date is specified in the relevant Final Terms, the Final Redemption Amount in respect of a Series of Covered Bonds (the **Hard Bullet Covered Bonds**) will be due for payment on the Maturity Date. Hard Bullet Covered Bonds may be offered and will be subject to a Pre-Maturity Liquidity Test. The purpose of the Pre-Maturity Liquidity Test is to provide liquidity for the Hard Bullet Covered Bonds if the Issuer's credit ratings have fallen below a certain level.

Ranking of the Covered Bonds

The Covered Bonds will constitute direct, unconditional, unsubordinated obligations of the Issuer – guaranteed by the Covered Bond Guarantor by means of the Covered Bond Guarantee – and will rank *pari passu* without any preference among themselves, except in respect of maturities of each Series or Tranche, and (save for any applicable statutory provisions) at least equally with all other present and future unsecured, unsubordinated obligations of the Issuer having the same maturity of each Series or Tranche of the Covered Bonds, from time to time outstanding.

Recourse

In accordance with the legal framework established by Law 130 and the MEF Decree and with the terms and conditions of the relevant Transaction Documents, the Covered Bondholders will benefit from full recourse to the Issuer and limited recourse to the Covered Bond Guarantor (see the section headed "*Credit Structure*"). The obligation of the Covered Bond Guarantor under the Covered Bond Guarantee shall be limited recourse to the Available Funds.

Substitution of the Issuer

The Representative of the Covered Bondholders may (and in the case of an Approved Reorganisation, shall) agree with the Issuer (or any previous substitute) and the Covered Bond Guarantor at any time without the consent of the Covered Bondholders:

- (a) to the substitution in place of Intesa Sanpaolo (or of any previous substitute) as principal debtor under the Covered Bonds by any bank Subsidiary of Intesa Sanpaolo (the **Substitute Obligor**) by way of an obligation transfer agreement without recourse to the Issuer (*accollo liberatorio*); or
- (b) to an Approved Reorganisation; or
- (c) that Intesa Sanpaolo (or any previous substitute) may, other than by means of an Approved Reorganisation, consolidate with, merge into or amalgamate with any successor company,

provided that:

- (i) the obligations of the Substitute Obligor or the Resulting Entity under the Covered Bonds shall be irrevocably and unconditionally guaranteed by Intesa Sanpaolo or its successor company (on like terms as to subordination, if applicable, to those of the Covered Bond Guarantee);

- (iii) the Substitute Obligor or the Resulting Entity agrees, in form and manner satisfactory to the Representative of the Covered Bondholders, to be bound by the terms and conditions of the Covered Bonds and all the Transaction Documents in respect of any Series of Covered Bonds still outstanding, by means of executing agreements and documents substantially in the same form and substance of the Transaction Documents; and
- (iv) the Representative of the Covered Bondholders is satisfied that (a) the Resulting Entity or Substituted Obligor has obtained all governmental and regulatory approvals and consents necessary for its assumption of liability as principal debtor in respect of the Covered Bonds in place of the Issuer (or such previous substitute as aforesaid), and (b) such approvals and consents are, at the time of substitution, Approved Reorganisation or consolidation, merger, amalgamation other than by means of an Approved Reorganisation, as the case may be, in full force and effect.

Upon the assumption of the obligations of the Issuer by a Substitute Obligor or a Resulting Entity or a successor company, Intesa Sanpaolo shall have no further liabilities under or in respect of the Covered Bonds.

Any substitution as described above shall be notified by the Issuer to the Rating Agency.

Provisions of Transaction Documents

The Covered Bondholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all provisions of the Transaction Documents applicable to them. In particular, each Covered Bondholder, by reason of holding Covered Bonds, recognises the Representative of the Covered Bondholders as its representative and accepts to be bound by the terms of each of the Transaction Documents signed by the Representative of the Covered Bondholders as if such Covered Bondholder was a signatory thereto.

Rating

Each Series issued under the Programme may be assigned a rating by the Rating Agency. Whether or not a rating in relation to any Series of Covered Bonds will be issued by a credit rating agency established in the European Union or in the UK and registered under the CRA Regulation, will be disclosed in the relevant Final Terms. **All credit ratings assigned to the Covered Bonds issued under the Programme will be disclosed in the relevant Final Terms.**

Rating Agency Confirmation

The issue of any Series of Covered Bonds, in each case as specified in the applicable Final Terms, and the increase of the Programme Limit, may be subject to Rating Agency Confirmation.

By subscribing for or purchasing the Covered Bond(s), each Covered Bondholder will be deemed to have acknowledged and agreed that a credit rating of a Series of Covered Bonds is an assessment of credit risk and does not address other matters that may be of relevance to Covered Bondholders, including, without limitation, in the case of a Rating Agency Confirmation, whether such action is either (i) permitted by the terms of the relevant Transaction Document, or (ii) in the best interest of, or not prejudicial to, some or all of the Covered Bondholders.

In being entitled to have regard to the fact that the Rating Agency has confirmed that the then current rating of the relevant Series of Covered Bonds would not be adversely affected or withdrawn, each of the Issuer, the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Covered Bondholders and the other Secured Creditors is deemed to have acknowledged and agreed that a Rating Agency Confirmation does not impose or extend any actual or contingent liability on the Rating Agency to the Issuer, the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Covered Bondholders and the other Secured Creditors or any other person or create any legal relations between the Rating Agency and the Issuer, the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Covered Bondholders and the other Secured Creditors or any other person whether by way of contract or otherwise.

By subscribing for or purchasing the Covered Bond(s), each Covered Bondholder will be deemed to have acknowledged and agreed that:

- (a) a Rating Agency Confirmation may or may not be given at the sole discretion of the Rating Agency;
- (b) depending on the timing of delivery of the request and any information needed to be provided as part of any such request, it may be the case that the Rating Agency cannot provide a Rating Agency Confirmation in the time available, or at all, and the Rating Agency will not be responsible for the consequences thereof;
- (c) a Rating Agency Confirmation, if given, will be given on the basis of the facts and circumstances prevailing at the relevant time, and in the

context of cumulative changes to the transaction of which the Covered Bonds form a part; and

(d) a Rating Agency Confirmation represents only a restatement of the opinions given, and will not be construed as advice for the benefit of any Covered Bondholder or any other party.

Purchase of the Covered Bonds by the Issuer

The Issuer may at any time purchase any Covered Bonds in the open market or otherwise and at any price. If the purchase is made by tender, tenders must be available to all holders of the Series which the Issuer intends to buy.

3. COVERED BOND GUARANTEE

Security for the Covered Bonds

In accordance with Law 130, by virtue of the Covered Bond Guarantee, the Covered Bondholders will benefit from a guarantee issued by the Covered Bond Guarantor which will, in turn, hold the Portfolio consisting of some or all of the following assets:

(a) residential mortgage loans (*mutui ipotecari residenziali*) that have LTV that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(b) commercial mortgage loans (*mutui ipotecari commerciali*) that have LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(c) asset backed securities for which a risk weight not exceeding 20 per cent. is applicable in accordance with the Bank of Italy's prudential regulations for banks — standardised approach — provided that at least 95 per cent. of the relevant securitised assets are:

(i) residential mortgage loans that have LTV that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(ii) commercial mortgage loans that have LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(d) securities issued by central governments meeting the requirements of Article 2, Paragraph 1 (c) of the MEF Decree,

provided that the cumulative amount of the assets described under items (b), (c)(ii) and (d) above may not amount to more than 10 per cent. of the aggregate nominal value of the Portfolio.

Under the terms of the Covered Bond Guarantee, the Covered Bond Guarantor will be obliged to pay any amounts due under the Covered Bonds on the relevant Due for Payment Date and in accordance with the relevant Priority of Payments.

In view of ensuring timely payment by the Covered Bond Guarantor, a Notice to Pay will be served on the same as a consequence of an Issuer Event of Default.

The obligations of the Covered Bond Guarantor under the Covered Bond Guarantee shall constitute a first demand, unconditional and independent guarantee (*garanzia autonoma*) and certain provisions of Italian civil code relating to non-autonomous personal guarantees (*fidejussioni*), specified in the MEF Decree, shall not apply. Accordingly, such obligation shall be a direct, unconditional, unsubordinated obligation of the Covered Bond Guarantor, with limited recourse to the Available Funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the Issuer.

**Temporary
transfer of
payment
obligations to the
Covered Bond
Guarantor**

If an Article 74 Event occurs, the Covered Bond Guarantor, in accordance with Article 4, Paragraph 4, of the MEF Decree, shall be responsible for the payments of the amounts due and payable under the Covered Bonds during the Suspension Period and each Series of Covered Bonds will accelerate against the Issuer.

Following to an Article 74 Event, the Representative of the Covered Bondholders will serve an Article 74 Notice to Pay on the Issuer and the Covered Bond Guarantor that an Article 74 Event has occurred. Unless and until such Article 74 Notice to Pay has been withdrawn:

(i) *Temporary Acceleration against the Issuer:* each Series or Tranche of Covered Bonds will accelerate against the Issuer and the Covered Bonds will rank *pari passu* amongst themselves against the Issuer, provided that: (a) such Article 74 Events shall not trigger an acceleration against the Covered Bond Guarantor, and (b) in accordance with Article 4, Paragraph 4, of the MEF Decree, the Covered Bond Guarantor shall be responsible for the payments of the amounts due and payable under the Covered Bonds during the Suspension Period;

(ii) *Delegation:* the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the right of the Covered Bondholders *vis-à-vis* the Issuer in accordance with the provisions of the Covered Bond Guarantee in the context of which the Covered Bondholders have irrevocably delegated – also in the interest and for the benefit of the Covered Bond Guarantor – to the Covered Bond Guarantor the exclusive right to proceed against the Issuer to enforce the performance of any of the payment obligations of the Issuer under the Covered Bonds including any rights of enforcing any acceleration of payment provisions provided under the Conditions or under the applicable legislation. For this purpose, upon request of the Covered Bond Guarantor, the Representative of the Covered Bondholders on behalf of the Covered Bondholders shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

In accordance with the Covered Bond Guarantee, the Representative of the Covered Bondholders on behalf of the Covered Bondholders has confirmed such delegation and waived any rights of the Covered Bondholders to revoke such delegation and take any such individual action against the Issuer;

(iii) *Payments by the Covered Bond Guarantor:* the Covered Bond Guarantor will pay any amounts due under the Covered Bonds on the Due for Payment Date in accordance with (i)(a) above and subject in any case to the provisions of the Conditions;

(iv) *Mandatory Tests:* the Mandatory Tests shall continue to be applied; and

(v) *Pre-Maturity Liquidity Test:* the Pre-Maturity Liquidity Test shall be deemed to be failed with respect to any Hard Bullet Covered Bonds for which the Maturity Date falls within 12 months.

Upon the termination of the Suspension Period, the Article 74 Notice to Pay shall be withdrawn and the Issuer shall be responsible for meeting the payment obligations under the Covered Bonds (and for the avoidance of doubt, the Covered Bonds then outstanding will no longer be deemed to be accelerated against the Issuer) in accordance with the relevant Priority of Payments.

Suspension Period means the period of time following an Article 74 Event, in which the Covered Bond Guarantor, in accordance with the MEF Decree, shall be responsible for the payments of the Guaranteed Amounts due and payable within the entire Period in which the suspension continues.

Issuer Events of Default

Each of the following events with respect to the Issuer shall constitute an **Issuer Event of Default**:

- (i) *Non-payment*: default is made by the Issuer for a period of 7 days or more in the payment of any principal or redemption amount, or for a period of 14 days or more in the payment of any interest on the Covered Bonds of any Series or Tranche when due, unless an Article 74 Event has occurred and the relevant suspension period is continuing; or
- (ii) *Breach of other obligations*: the Issuer is in breach of material obligations under or in respect of the Covered Bonds (of any Series or Tranche outstanding) or any of the Transaction Documents to which it is a party (other than any obligation for the payment of principal or interest on the Covered Bonds and/or any obligation to ensure compliance of the Portfolio with the Tests)) and such failure remains unremedied for 30 days after the Representative of the Covered Bondholders has given written notice thereof to the Issuer, certifying that such failure is, in its opinion, materially prejudicial to the interests of the Covered Bondholders and specifying whether or not such failure is capable of remedy; or
- (iii) *Cross-default*: any of the events described in paragraphs (i) and (ii) above occurs in respect of any other Series or Tranche of Covered Bonds; or
- (iv) *Insolvency*: an Insolvency Event occurs in respect of the Issuer; or

- (vi) *Breach of Pre-Maturity Liquidity Test*: in relation to Hard Bullet Covered Bonds, breach of the Pre-Maturity Liquidity Test which is not remedied by the earlier of:
 - (a) 20 Business Days from the date on which the Issuer is notified of the breach of the Pre-Maturity Liquidity Test; and
 - (b) the Maturity Date of that Series or Tranche of Covered Bonds; or
- (vii) *Breach of Mandatory Test*: breach of any of the Mandatory Tests which is not remedied by the Calculation Date immediately following the notification of such breach.

If an Issuer Event of Default occurs, the Representative of the Covered Bondholders will serve a Notice to Pay on the Issuer and Covered Bond Guarantor that an Issuer Event of Default has occurred and, upon service of such Notice to Pay:

- (a) *No further Series or Tranche of Covered Bonds*: the Issuer may not issue any further Series or Tranche of Covered Bonds;
- (b) *Acceleration against the Issuer*: each Series or Tranche of Covered Bonds will accelerate against the Issuer and the Covered Bonds will rank *pari passu* amongst themselves against the Issuer, provided that (i) such events shall not trigger an acceleration against the Covered Bond Guarantor, and (ii) in accordance with Article 4, Paragraph 3, of the MEF Decree and pursuant to the relevant provisions of the Transaction Documents, the

Covered Bond Guarantor shall be solely responsible for the exercise of the rights of the Covered Bondholders vis-à-vis the Issuer and any Excess Proceeds will be part of the Available Funds;

(c) *Delegation*: the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the rights of the Covered Bondholders vis-à-vis the Issuer in accordance with the provisions of the Covered Bond Guarantee, in the context of which the Covered Bondholders have irrevocably delegated – also in the interest and for the benefit of the Covered Bond Guarantor – to the Covered Bond Guarantor the exclusive right to proceed against the Issuer to enforce the performance of any of the payment obligations of the Issuer under the Covered Bonds including any rights of enforcing any acceleration of payment provisions provided under the Conditions and/or under the applicable legislation. For this purpose, upon request of the Covered Bond Guarantor, the Representative of the Covered Bondholders on behalf of the Covered Bondholders shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

In accordance with the Covered Bond Guarantee, the Representative of the Covered Bondholders on behalf of the Covered Bondholders has confirmed such delegation and waived any rights of the Covered Bondholders to revoke such delegation and take any such individual action against the Issuer;

(d) *Payments by the Covered Bond Guarantor*: the Covered Bond Guarantor will pay any amounts due under the Covered Bonds on the Due for Payment Date in accordance with (b)(i) above and subject in any case to the provisions of the Conditions;

(e) *Disposal of Assets*: the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, shall sell the Eligible Assets and Integration Assets (other than cash deposits) included in the Portfolio in accordance with the provisions of the Portfolio Administration Agreement;

(f) *Amortisation Test*: the Amortisation Test shall be applied.

Covered Bond Guarantor Events of Default

Following an Issuer Event of Default, each of the following events shall constitute a **Covered Bond Guarantor Event of Default**:

(i) *Non-payment*: non-payment of principal and/or interest in respect of the relevant Series or Tranche of Covered Bonds by the Covered Bond Guarantor in accordance with the Covered Bond Guarantee, subject to a 7 day cure period in respect of principal or redemption amounts and a 14 day cure period in respect of interest payment or non-payment or non setting aside for payment of costs or amounts due to any Hedging Counterparties by the Covered Bond Guarantor;

(ii) *Breach of Amortisation Test*: the Amortisation Test is breached;

(iii) *Breach of other obligations*: breach by the Covered Bond Guarantor of the other binding obligations under the Dealer Agreement, the Intercreditor Agreement, the Covered Bond Guarantee or any other Transaction Document to which the Covered Bond Guarantor is a party, which is not remedied within 30 days after the Representative of the Covered Bondholders has given written notice of such breach to the Covered Bond Guarantor;

(iv) *Insolvency*: an Insolvency Event occurs in respect of the Covered

Bond Guarantor;

(v) *Invalidity of the Covered Bond Guarantee*: the Covered Bond Guarantee is not in full force and effect.

If a Covered Bond Guarantor Event of Default occurs and is continuing, the Representative of the Covered Bondholders shall serve a Covered Bond Guarantor Acceleration Notice on the Covered Bond Guarantor and, upon service of such Covered Bond Guarantor Acceleration Notice:

(i) *Acceleration of Covered Bonds*: each Series or Tranche of Covered Bonds will accelerate against the Covered Bond Guarantor, becoming immediately due and payable, and the Covered Bonds will rank *pari passu* amongst themselves;

(ii) *Disposal of assets*: the Representative of the Covered Bondholders shall, in the name and on behalf of the Covered Bond Guarantor, direct the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, to sell all assets included in the Portfolio in accordance with the provisions of the Portfolio Administration Agreement; and

(iii) *Enforcement*: the Representative of the Covered Bondholders may, at its discretion and without further notice, take such steps and/or institute such proceedings against the Issuer or the Covered Bond Guarantor (as the case may be) as it may think fit, but it shall not be bound to take any such proceedings or steps unless requested or authorised by an Extraordinary Resolution of the Covered Bondholders.

Cross Acceleration If a Covered Bond Guarantor Event of Default is triggered with respect to a Series, all outstanding series of Covered Bonds will cross accelerate at the same time against the Covered Bond Guarantor, provided that the Covered Bonds will not otherwise contain a cross default provision and will thus not cross accelerate against the Covered Bond Guarantor in case of an Issuer Event of Default.

Pre-Maturity Liquidity Test The Pre-Maturity Liquidity Test is intended to provide liquidity for Hard Bullet Covered Bonds when the Issuer's long-term credit ratings fall below the Pre-Maturity Liquidity Required Rating.

On any Business Day (each a **Pre-Maturity Liquidity Test Date**) falling during the Pre-Maturity Rating Period prior to the occurrence of an Issuer Event of Default, the Calculation Agent will determine if the Pre-Maturity Liquidity Test has been breached, and if so, it shall immediately notify the Issuer, the Seller, the Hedging Counterparties and the Representative of the Covered Bondholders.

For the purpose of this paragraph the **Pre-Maturity Liquidity Test** is complied with on any Pre-Maturity Liquidity Test Date if, during the Pre-Maturity Rating Period, the Issuer's short-term credit rating is greater than or equal to the Pre-Maturity Liquidity Required Rating.

Following a breach of the Pre-Maturity Liquidity Test in respect of a Series or Tranche of Covered Bonds:

- (i) the Issuer shall:
 - (a) make a cash deposit in an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates on the Pre-Maturity Liquidity Account, opened in its name with a bank whose ratings are at least equal to the

Minimum Required Account Bank Rating provided for under the Transaction Documents and pledged in favour of the Covered Bondholders; or

- (b) obtain a first demand, autonomous guarantee (meeting the criteria set forth by the Rating Agency) for an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates, by an eligible entity whose ratings are at least equal to the Minimum Required Pre-Maturity Liquidity Guarantor Rating; or
- (c) take action in the form of a combination of the foregoing which in aggregate add up to an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates;

and/or

- (ii) the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, on behalf of the Covered Bond Guarantor, shall sell, subject to any pre-emption right of the Seller or any Additional Seller (as the case may be) pursuant to the relevant Master Transfer Agreement, Selected Assets and Integration Assets in accordance with the procedures set out in the Portfolio Administration Agreement, for an amount equal to the Adjusted Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates.

If the Pre-Maturity Liquidity Test in respect of any Series of Covered Bonds is breached and the Issuer or the Servicer (on behalf of the Covered Bond Guarantor) has not taken the required actions (as described above) following the breach by the earlier to occur of:

- (a) 20 Business Days from the date on which the Issuer is notified of the breach of the Pre-Maturity Liquidity Test, and
- (b) the Maturity Date of that Series of Covered Bonds,

an Issuer Event of Default shall occur and the Representative of the Covered Bondholders will serve a Notice to Pay to the Issuer and the Covered Bond Guarantor.

Pre-Issuer Default Interest Priority of Payments

On each Guarantor Payment Date, prior to the service of an Article 74 Notice to Pay or a Notice to Pay (or following the withdrawal of an Article 74 Notice to Pay), the Covered Bond Guarantor will use Interest Available Funds to make payments due on such Guarantor Payment Date or to make provisions towards payments due after such Guarantor Payment Date in the order of priority set out below (in each case only if and to the extent that payments of a higher priority have been made in full):

- (i) *first*, to pay *pari passu* and *pro rata* according to the respective amounts thereof any and all taxes due and payable by the Covered Bond Guarantor;

- (ix) *ninth*, to pay any amount arising out of any termination event under any Swap Agreements not provided for under item (iv) above;
- (x) *tenth*, to pay any other amount due and payable to the Seller, the Additional Sellers (if any) or the Issuer under any Transaction Document (other than the Subordinated Loan Agreement);
- (xi) *eleventh*, to pay, *pari passu* and *pro rata* according to the respective

amounts thereof any amount due and payable as Base Interest Amount under the Subordinated Loan;

(the **Pre-Issuer Default Interest Priority of Payments**).

**Pre-Issuer Default

- (iv) *fourth*, to deposit on the Investment Account any residual Principal Available Funds in an amount sufficient to ensure that, taking into account the other resources available to the Covered Bond Guarantor, the Tests are met;
- (v) *fifth*, if a Servicer Termination Event has occurred, all residual Principal Available Funds to be credited to the Investment Account until such event of default of the Servicer is either remedied by the Servicer or waived by the Representative of the Covered Bondholders or a new servicer is appointed to service the Portfolio;

(the **Pre-Issuer Default Principal Priority of Payments**).

**Post-Issuer
Default Priority of
Payments**

On each Guarantor Payment Date, following either an Article 74 Notice to Pay (which has not been withdrawn) or an Issuer Event of Default, but prior to the occurrence of a Covered Bond Guarantor Event of Default, the Covered Bond Guarantor will use the Available Funds, to make payments due on such Guarantor Payment Date or to make provisions towards payments due after such Guarantor Payment Date in the order of priority set out below (in each case only if and to the extent that payments of a higher priority have been made in full):

RISK FACTORS

In purchasing Covered Bonds, investors assume the risk that the Issuer and the Covered Bond Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Covered Bonds. There is a wide range of factors which individually or together could result in the Issuer and the Covered Bond Guarantor becoming unable to make all payments due in respect of the Covered Bonds.

Certain risks which it currently deems not to be material as at the date of this Base Prospectus may become material as a result of the occurrence of events outside the Issuer's and the Covered Bond Guarantor's control. The Issuer and the Covered Bond Guarantor have identified in this Base Prospectus a number of factors which could materially adversely affect their businesses and ability to make payments due under the Covered Bonds.

In addition, risks which are material for the purpose of assessing the market risks associated with the Covered Bonds issued under the Programme are also described below.

The Issuer believes that the risks described below are the main risks inherent in the holding of Covered Bonds of any Series issued under the Programme but the inability of the Issuer to pay interest or repay principal on the Covered Bonds of any Series may occur for other reasons and the Issuer does not represent that the above statements of the risks of holding Covered Bonds are exhaustive. While the various structural elements described in this Base Prospectus are intended to lessen some of the risks for holders of Covered Bonds of any Series, there can be no assurance that these measures will be sufficient or effective to ensure payment to the holders of Covered Bonds of any Series of interest or principal on such Covered Bonds on a timely basis or at all.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision.

Risks related to legal proceedings;

Risks related to the business sector of Intesa Sanpaolo;

Risks related to the entry into force of new accounting principles and the amendment of the applied accounting principles.

Risks related to the financial situation of Intesa Sanpaolo Group

Risk exposure to debt Securities issued by sovereign States

As at 30 June 2020, the exposure to securities issued by Italy amounted to approximately € 90 billion, increased compared to approximately € 86 billion as at 31 December 2019. On the same date, the investments in sovereign debt securities issued by EU Countries corresponded to € 125 billion, compared to € 120 billion at the end of 2019.

The market tensions regarding government bonds and their volatility, as well as Italy's rating downgrading or the forecast that such downgrading may occur, might have negative effects on the assets, the economic and/or financial situation, the operational results and the perspectives of the Bank.

Intesa Sanpaolo Group results is and will be exposed to sovereign debtors, in particular to Italy and certain major European Countries.

As at 30 June 2020, the exposure to securities issued by Italy amounted to approximately € 90 billion (10.4% of the total assets of the Group), to which should be added approximately € 10 billion represented by investments. On the same date, the investments in sovereign debt securities issued by EU Countries corresponded to € 125 billion (14.6% of the total assets of the Group), to which should be added approximately € 12 billion represented by loans.

At the end of 2019, the exposure to securities issued by Italy corresponded to approximately €86 billion (10.5% of the total assets of the Group), to which should be added approximately €11 billion represented by investments. On the same date, the investments in sovereign debt securities issued by EU Countries corresponded to €121 billion (14.8% of the total assets of the Group), to which should be added approximately €12 billion represented by loans. On the whole, the securities issued by governments, central banks and other public entities represented approximately 46% of the total financial assets.

At the end of 2018, the exposure to securities issued by Italy corresponded to approximately € 76 billion (9.6% of the total assets of the Group), to which should be added approximately 12 billion represented by investments. On the same date, the investments in sovereign debt securities issued by EU Countries corresponded to € 101 billion (12.8% of the total assets of the Group), to which should be added approximately € 13 billion represented by loans. On the whole, the securities issued by governments, central banks and other public entities represented approximately 44.4% of the total financial assets.

The tensions in the market of Government Bonds and their volatility, in particular with reference to the spread of the performance of Italian bonds compared to other benchmark government bonds may have negative effects on the activities and the economic and/or financial situation of the Bank.

Furthermore, the downgrading of Italy's rating, or the forecast that such downgrading may occur, could make the markets unstable and have negative impacts on the operational results, financial conditions and perspectives of the Bank.

For further information please refer to Part E of the Explanatory Note of the consolidated financial statements for 2019, incorporated by reference in this Base Prospectus.

Risks related to legal proceedings

As at 30 June 2020, there were a total of about 26,000 disputes pending, other than tax disputes, (excluding those involving Risanamento S.p.A. and Autostrade Lombarde S.p.A., which are not subject to management and coordination by Intesa Sanpaolo) with a total remedy sought of 5,622 million euro.

This amount includes all outstanding disputes, regardless of the estimated risk of a disbursement of financial resources resulting from a potential negative outcome and therefore also includes disputes with a remote risk.

The risks associated with the above disputes have been thoroughly analysed by the parent company and Group companies involved. Specific and appropriate provisions have been made to the Allowances for Risks and Charges in the event of disputes for which there is an estimated probability of a disbursement of more than 50% and where the amount of the disbursement may be reliably estimated (disputes with likely risk).

These disputes amount to around 11,600 with a remedy sought of 1,815 million euro and provisions of 589 million euro. The part relating to the parent company is around 5,100 disputes with a remedy

sought of 1,451 million euro and provisions of 441 million euro, the part relating to other Italian subsidiaries is around 500 disputes with a remedy sought of 254 million euro and provisions of 93 million euro, and the part relating to the international subsidiaries is around 6,000 disputes with a remedy sought of 110 million euro and provisions of 55 million euro.

The risk arising from legal proceedings consists of the possibility of the Bank being obliged to pay any sum in case of unfavourable outcome.

The most common legal disputes are related to invalidity, cancellation, inefficacy actions or compensation for damages as a consequence of transactions related to the ordinary banking and financial activity carried out by the Bank.

For any individual assessment regarding legal disputes please refer to the paragraph titled "Legal Proceedings" on page 100 of this Base Prospectus. Such paragraph also includes information concerning the disputes on the marketing of convertible and/or subordinated shares/bonds issued by *Banca Popolare di Vicenza* or *Veneto Banca*, which filed against respectively *Banca Nuova* and *Banca Apulia* (both subsequently merged by incorporation in *Intesa Sanpaolo*).

In this respect, the Bank would like to highlight that, as of 31 December 2018, the Arbitrator for Financial Controversies accepted no. 88 appeals from *Banca Nuova*'s clients, whose claims aimed the shares of *Banca Popolare di Vicenza*, as well as no. 108 appeals submitted by the clients of *Banca Apulia* whose claims aimed the shares of *Veneto Banca*. *Banca Nuova* and *Banca Apulia* (both now *Intesa Sanpaolo*) have not executed the decisions as – in compliance with the provisions of Decision C(2017) 4501 of the European Commission on State Aid – every liability in relation to the marketing of shares of ex Venetian banks shall be borne exclusively by *Veneto Banca S.p.A.* in compulsory administrative liquidation and *Banca Popolare di Vicenza* in compulsory administrative liquidation.

Risks related to the business sector of Intesa Sanpaolo

Risks related to the economic/financial crisis and the impact of current uncertainties of the macro-economic context

The future development in the macro-economic context may be considered as a risk as it may produce negative effects and trends in the economic and financial situation of the Bank and/or the Group.

Any negative variations of the factors described hereafter, in particular during periods of economic-financial crisis, could lead the Bank and/or the Group to suffer losses, increases of financing costs, and reductions of the value of the assets held, with a potential negative impact on the liquidity of the Bank and/or the Group and its financial soundness.

The trends of the Bank and the Group are affected by the general, national and economic situation of the Eurozone, the dynamics of financial markets and the soundness and growth prospects of the economy of other geographic areas in which the Bank and/or the Group operates.

In particular, the profitability capacity and solvency of the Bank and/or the Group are affected by the trends of certain factors, such as the investors' expectations and trust, the level and volatility of short-term and long-term interest rates, exchange rates, financial markets liquidity, availability and cost of capital, sustainability of sovereign debt, household incomes and consumer spending, unemployment levels, business profitability, inflation and housing prices.

The macro-economic framework is currently characterised by significant profiles of uncertainty, in relation to: (a) the outbreak of COVID-19, which caused a major decline in economic activity in 2020 and may originate further economic downturns in the near future, in addition to more persistent effects on default rates, unemployment rates and country risk; (b) the future developments of ECB monetary policies in the Euro area and of the FED in the dollar area; (c) the tensions observed, on a more or less recurrent basis, on the financial markets; (d) the risk that in the future holders of Italian

government debt lose confidence in the credit standing of Republic of Italy, owing to the uncertainty of budgetary policies and the high debt ratio; (e) the exit of the United Kingdom from the single market on 1 January 2021.

With specific reference to point (e), the relationship of the UK with the EU may affect the business of the Issuers. On 29 March 2017, the UK invoked Article 50 of the Treaty on the European Union and officially notified the EU of its decision to withdraw from the EU. On 31 January 2020, the UK withdrew from the EU. According to Articles 126 and 127 of the Article 50 Withdrawal Agreement (approved by the European Parliament on 29 January 2020), the UK entered an implementation period during which it will negotiate its future relationship with the EU. During such implementation period – which is due to operate until 31 December 2020 – most EU rules and regulations shall continue to apply in the UK. During the transition period, the UK and the EU may not reach an agreement on the future relationship between them or may reach a significantly narrower agreement than that envisaged by the political declaration of the European Commission and the UK Government. To minimise the risks for firms and businesses the UK Government continues preparations (including the UK Government publishing further draft secondary legislation under powers provided in the European Union (Withdrawal) Act 2018 (as amended by the European Union (Withdrawal Agreement) Act 2020)) to ensure that there is a functioning statute book at the end of the transition period. Due to the on-going political uncertainty as regards the structure of the future relationship between UK and EU, the precise impact on the business of the Issuer is difficult to determine. As such, no assurance can be given that such matters would not adversely affect the market value and/or the liquidity of the Notes in the secondary market.

Credit risk

We would like to remark that, as of 30 September 2020, Intesa Sanpaolo recorded a gross NPL ratio (based on EBA metrics) of 5.9%. On 31 December 2019, the same data corresponded to 6.8%, compared to 7.5% recorded on 31 December 2018. The credit institutions which recorded a gross NPL ratio higher than 5% are required – on the grounds of the "Guidelines on management of non performing and forborne exposures" of EBA – to prepare specific strategic and operative plans for the management of such exposures.

Taking into consideration the pattern of the main credit risk indicators in 2018–2019, in the first nine months of 2020 and the assignment of non-performing loans mentioned hereafter, Intesa Sanpaolo deems that the risk related to credit quality is not significant.

The economic and financial activity and soundness of the Bank depend on its borrower's creditworthiness.

The Bank is exposed to the traditional risks related to credit activity. Therefore, the clients' breach of the agreements entered into and of their underlying obligations, or any lack of information or incorrect information provided by them as to their respective financial and credit position, could have negative effects on the economic and/or financial situation of the Bank.

Furthermore, any exposures in the bank portfolio towards counterparties, groups of connected counterparties and counterparties of the same economic sector, which perform the same activity or belong to the same geographic area, could increase the Bank concentration risk.

More generally, the counterparties may not satisfy their respective obligations towards the Bank by reason of bankruptcy, absence of liquidity, operational disruption or any other reason. The bankruptcy of an important stakeholder, or any concerns about its default, could cause serious liquidity issues, losses or defaults by other institutions, which, in turn, could negatively affect the Bank. The Bank may also be subject to the risk, under specific circumstances, that some of its credits towards third parties are no longer collectable. Furthermore, a decrease of the creditworthiness of third parties, including sovereign States, of which the Bank holds securities or bonds, might cause losses and/or negatively affect the ability of the Bank to invest again or use in a different way such securities or bonds for liquidity purposes. A significant decrease of the creditworthiness of the

counterparties of the Bank might, therefore, have a negative impact on the results of the same Bank's performance. Albeit, in many cases, the Bank could require further guarantees to the counterparties which are in financial difficulties, certain disputes may arise with respect to the amount of guarantee that the Bank is entitled to receive and the value of the assets which are object of guarantee. The default rates, counterparties rating deterioration and disputes in relation to counterparties on the guarantee appraisal could be significantly increased during periods of market tensions and illiquidity.

In compliance with the provisions of the "ECB Guidance to banks on non-performing loans" published in March 2017 through which the ECB calls on banks to implement realistic and ambitious strategies to work towards a holistic approach regarding the problem of NPLs, Intesa Sanpaolo submitted to the ECB a plan for the reduction of its non-performing loans.

Subsequently, building on the overall strategy and targets outlined in the 2018-21 Business Plan published in February 2018, Intesa Sanpaolo has developed a solid 4-year plan, at no costs to shareholders, to reach an NPL level in line with European peers, continuing to maintain a lower leverage and a stronger balance sheet. The 2018-21 Group NPL Plan leverages the excellent performance achieved in 2017, where the bank outperformed vs plan targets by the strengthening of the proactive management of bad loans performed by each division, by the results achieved in the recovery activities, by the accomplishment of the planned disposals, but also thanks to the supervision and monitoring activities performed by the "Group NPL Plan Control Room".

For more information on European legislative initiatives on Non-Performing Loans, please refer to "Regulatory Section" on page 129 of this Base Prospectus.

Italy was the first European country being hit by COVID-19 outbreak, which has been leading to a strong GDP contraction with negative effects in all economic sectors. Nevertheless, results for the first nine months of 2020 confirmed Intesa Sanpaolo's ability to effectively face the challenging aftermath of the COVID-19 pandemic. Group Gross NPL stock decreased by roughly €2,3 billion from 31 December 2019, and of approximately €23 billion from December 2017, therefore already achieving 90% of the target set for the entire four-year period of the 2018 2021 Business Plan. For further information on the management of the "credit risk", please refer to Part E of the Explanatory Note of the consolidated financial statements for 2019, included by reference in this Base Prospectus.

Market risk

In the first nine months of 2020, net of the UBI Group, the Group's average managerial VaR was 273.1 million euro, up compared to 161.8 million euro in the same period of 2019. The performance of this indicator – mainly determined by the IMI Corporate & Investment Banking Division (which comprises the operations of Banca IMI, now merged into Intesa Sanpaolo) – once again derives from an increase in the risk measures, mainly attributable to the health emergency caused by the COVID-19 pandemic. By analysing its composition we observe, with respect to the different factors, the prevalence of credit spread risk. It should be specified that in IMI Corporate & Investment Banking Division, the VaR limit also includes the HTCS (Held To Collect and Sell) component.

As to the bank portfolio risks, the market risk, measured in terms of VaR, has recorded in the first six months of 2020 an average value of € 579 million (€103 million was the average value on 30 June 2019). On 30 June 2020, the VaR was equal to €814 million, compared to €126 million on 30 June 2019. On 31 December 2019, the VaR was equal to €227 million, compared to €91 million on 31 December 2018.

The market risk is the risk of losses in the value of financial instruments, including the securities of sovereign States held by the Bank, due to the movements of market variables (by way of example and without limitation, interest rates, prices of securities, exchange rates), which could determine a deterioration of the financial soundness of the Bank and/or the Group. Such deterioration could be produced either by negative effects on the income statement deriving from positions held for trading purposes, or from negative changes in the FVOCI (*Fair Value through Other Comprehensive Income*) reserve, generated by positions classified as financial Activities evaluated at fair value, with an impact on the overall profitability.

The Bank is therefore exposed to possible changes of the financial instruments value, including the securities issued by sovereign States, due to fluctuations of interest rates, exchange rates of currencies, prices of the securities listed on the markets, commodities and credit spreads and/or other risks. Such fluctuations could be caused by changes in the general economic trend, the investors' propensity to investments, monetary and tax policies, liquidity of the markets on a global scale, availability and capital cost, interventions of rating agencies, political events both at social and international level, war conflicts and acts of terrorism. The market risk occurs both with respect to the trading book, which includes the financial trading instruments and derivative instruments related thereto, and the banking book, which includes the financial assets and liabilities that are different from those contained in the trading book.

For further information please see Part E of the Explanatory Note of the consolidated financial statements, incorporated by reference to this Base Prospectus.

Liquidity risk of Intesa Sanpaolo

The ratio between the credits towards customers and the direct deposit taking, as reported in the consolidated financial statement ("Loan to deposit ratio") on 30 September 2020 was at 90%, compared to 93% on 31 December 2019.

The "Liquidity Coverage Ratio" (LCR) on 30 September 2020 was higher than 100% against a minimum regulatory threshold equal to 100%.

The "Net Stable Funding Ratio" (NSFR) on 30 September 2020 was higher than 100% against a minimum regulatory threshold of 100% to be respected starting from 2021.

The participation of the Group to TLTRO funding transactions with ECB at the end of September 2020 was equal to approximately € 82.9 billion (of which Intesa Sanapolo: € 70.9 and UBI Banca: € 12 billion).

Although the Bank constantly monitors its own liquidity risk, any negative development of the market situation and the general economic context and/or creditworthiness of the Bank, possibly accompanied by the need to adapt the liquidity situation of the Bank to the regulatory requirements updated from time to time in implementation of the European rules, may have negative effects on the activities and the economic and/or financial situation of the Bank and the Group.

The liquidity risk is the risk that the Bank is not able to satisfy its payment obligations at maturity, both due to the inability to raise funds on the market (funding liquidity risk) and of the difficulty to disinvest its own assets (market liquidity risk).

The liquidity of the Bank may be prejudiced by the temporary impossibility of accessing capital markets by the issuance of debt securities (both guaranteed and not guaranteed), the inability to receive funds from counterparties which are external to or of the Group, the inability to sell certain assets or redeem its investments, as well as unexpected cash outflows or the obligation to provide more guarantees. Such a situation may occur by reason of circumstances that are independent from the control of the Bank, such as a general market disruption or an operational issue which affects the Bank or any third parties, or also by reason of the perception among the participants in the market that the Bank or other participants in the market are experiencing a higher liquidity risk. The liquidity crisis and the loss of trust in the financial institutions may increase the Bank's cost of funding and limit its access to some of its traditional liquidity sources.

Examples of liquidity risk manifestation are the bankruptcy of an important participant to the market, or concerns about its possible default, which may cause serious liquidity issues, losses or defaults of other banks which, in turn, could negatively affect the Bank; and a decrease of the creditworthiness of third parties of which the Bank holds securities or bonds, that may determine losses and/or

negatively affect the ability of the Bank to invest again or use in a different way such securities or bonds for liquidity purposes.

The participation of the Group to the TLTRO funding transactions with the ECB as at 31 December 2019 is equal to approximately Euro 49 billion. In particular, the Group has participated to 7 TLTRO funding transactions, starting from 24 June 2016. As at 30 September 2020, such transactions amounted to approximately Euro 70,9 billion (excluding the contribution of Euro 12 billion of UBI Banca), consisting entirely of TLTROs III.

For further information please see Part E of the Explanatory Note of the consolidated financial statements, incorporated by reference in this Base Prospectus.

Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, in March 2019 ECB announced a new series of quarterly targeted longer-term refinancing operations (TLTROIII) to be launched in September 2019 to March 2021, each with a maturity of two years, recently shifted by an additional 1 year. On March 2020 new long term refinancing operations (LTROs) were announced to provide a bridge until the TLTRO III window in June 2020 and ensure liquidity and regular money market conditions. These measures were integrated with temporary collateral easing measures.

Operational risk

The Bank is exposed to several categories of operational risk which are intrinsic to its business, among which those mentioned herein, by way of example and without limitation: frauds by external persons, frauds or losses arising from the unfaithfulness of the employees and/or breach of control procedures, operational errors, defects or malfunctions of computer or telecommunication systems, computer virus attacks, default of suppliers with respect to their contractual obligations, terrorist attacks and natural disasters. The occurrence of one or more of said risks may have significant negative effects on the business, the operational results and the economic and financial situation of the Bank. The capital absorption amounts to 2,103 million euro as at 30 September 2020 and represents approximately 7% of the total value of the ISP Group requirement. The increase compared to 1,781 million euro as at 30 June 2020 is due to the addition of the operational risk requirements of the acquired UBI Group.

The operational risk may be defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational risk includes legal risk and compliance risk, model risk, ICT risk and financial reporting risk; strategic and reputational risk are not included.

The Bank has defined a framework for the operational risks management which consists of the following phases:

- Identification: the detection and description of potential operational risk areas (e.g. operational events, presence of issues, applicability of risk factors, significant risk scenarios);
- Assessment and measurement: determination of operational risk exposure;
- Monitoring and control: continuous management of changes in the operational risk exposure, also to prevent the occurrence of harmful events and to promote active risk management;
- Mitigation: operational risk containment through appropriate mitigation actions and suitable risk transfer strategies, based on a risk-driven approach;
- Reporting: preparation of information flows related to operational risk management, designed to ensure adequate knowledge of the exposure to this risk.

Although the Bank constantly supervises its own operational risks, certain unexpected events and/or events out of the Bank's control may occur (including those mentioned above by way of example and without limitation), with possible negative effects on the business and the economic and/or financial situation of the Bank and the Group, as well as on its reputation.

For further information please see Part E of the Explanatory Note of the consolidated financial statements for 2018, incorporated by reference in this Base Prospectus.

Foreign exchange risk

The Bank is exposed to several categories of foreign exchange risk which are intrinsic to its business and are lied in foreign currency loans and deposits held by customers, purchases of securities, equity investments and other financial instruments in foreign currencies, conversion to domestic currency of assets, liabilities and income of branches and subsidiaries abroad, trading of foreign currencies and banknotes, and collection and/or payment of interest, commissions, dividends and administrative costs in foreign currencies. Although the Bank constantly monitors its exposure to foreign currencies, any negative development of the foreign rates may have negative effects on activities and the economic and/or financial situation of the Bank and the Group.

“Foreign exchange risk” is defined as the possibility that foreign exchange rate fluctuations produce significant changes, both positive and negative, in the Group’s balance sheet aggregates. The key sources of exchange rate risk lie in:

- foreign currency loans and deposits held by corporate and/or retail customers;
- purchases of securities, equity investments and other financial instruments in foreign currencies;
- conversion into domestic currency of assets, liabilities and income of branches and subsidiaries abroad;
- trading of foreign currencies and banknotes;
- collection and/or payment of interest, commissions, dividends and administrative costs in foreign currencies.

More specifically, “structural” foreign exchange risk refers to the exposures deriving from the commercial operations and the strategic investment decisions of the Intesa Sanpaolo Group.

Foreign exchange transactions, spot and forward, are carried out mostly by IMI Corporate & Investment Banking Division (which comprises the operations of Banca IMI, now merged into Intesa Sanpaolo), which also operates in the name and on behalf of the Intesa Sanpaolo with the task of guaranteeing pricing throughout the Bank and the Intesa Sanpaolo Group while optimizing the proprietary risk profile deriving from brokerage of foreign currencies traded by customers.

The main types of financial instruments traded include spot and forward exchange transactions in foreign currencies, forex swaps, domestic currency swaps, and foreign exchange options.

Risk related to the development of the banking sector regulation and the changes in the regulation on the solution of banking crises

The Bank is subject to a complex and strict regulation, as well as to the supervisory activity performed by the relevant institutions (in particular, the European Central Bank, the Bank of Italy and CONSOB). Both aforementioned regulation and supervisory activity are subject, respectively, to continuous updates and practice developments.

Furthermore, as a listed Bank, the Bank is required to comply with further provisions issued by CONSOB.

The Bank, besides the supranational and national rules and the primary or regulatory rules of the financial and banking sector, is also subject to specific rules on anti-money laundering, usury and consumer protection.

Although the Bank undertakes to comply with the set of rules and regulations, any changes of the rules and/or changes of the interpretation and/or implementation of the same by the competent authorities could give rise to new burdens and obligations for the Bank, with possible negative impacts on the operational results and the economic and financial situation of the Bank.

Regulatory framework

Starting from 1 January 2014, a part of the Supervisory Rules has been amended on the grounds of the Directions deriving from the so called Basel III agreements, mainly with the purpose to significantly strengthen the minimum capital requirements, the restraint of the leverage degree and the introduction of policies and quantitative rules for the mitigation of the liquidity risk of the banks.

As for the capital requirements, the prudential provisions in force provide for minimum capitalisation levels. In particular, the banks are required to have a Common Equity Tier 1 (CET 1) ratio at least equal to 7% of the risk-weighted assets, a Tier 1 ratio equal at least to 8.5% of the risk-weighted assets and a Total Capital ratio equal at least to 10.5% of said risk-weighted assets (such minimum levels include the so called "capital conservation buffer", namely a "buffer" of further mandatory capitalisation).

As known, *Intesa Sanpaolo*, as a bank of significant importance for the European financial system, is subject to direct supervision of the European Central Bank (ECB). Following the Supervisory Review and Evaluation Process (SREP) the ECB provides, on an annual basis, a final decision of the capital requirement that *Intesa Sanpaolo* must comply with a consolidated level. On 8 February 2019, *Intesa Sanpaolo* received the final decision of the ECB concerning the capital requirement that must be respected in terms of Common Equity Tier 1 ratio starting from 1 March 2019, which was fixed at 8.88% according to the transitional criteria in force for 2019 and at 9.35% according to the criteria currently in force.

The following requirements match the determination of the requirement related to the Common Equity Tier 1 ratio for 2019: a) the SREP requirement in terms of Total Capital ratio equal to 9.5%, which includes the Pillar I minimum requirement of 8%, in whose context a 4.5% in terms of Common Equity Tier 1 ratio and 1.5% of additional requirement of Pillar II, entirely in terms of Common Equity Tier 1 ratio; b) the additional requirement related to the Capital Conservation Buffer, equal to 2.5% according to the criteria in force in 2019 and the O-SII Buffer (Other Systematically Important Institutions Buffer) additional requirement, equal to 0.38% according to the transitional criteria in force for 2019 and 0.75% according to the criteria in force in 2021.

It should be noted that, on 12 March 2020, the ECB, taking into account the economic effects of the coronavirus (COVID-19), announced certain measures aimed at ensuring that banks, under its direct supervision, are still able to provide credit support to the real economy.

Considering that the European banking sector acquired a significant amount of capital reserves (with the aim of enabling banks to face with stressful situations such as the COVID-19), the ECB allows banks to operate temporarily below the capital level defined by the "Pillar 2 Guidance (P2G)" and the "capital conservation buffer (CCB)". Furthermore, the ECB expects these temporary measures to be further improved by an appropriate revision of the countercyclical capital buffer (CCyB) by the competent national authorities.

Moreover, due to the COVID -19 outbreak, with the recommendation of March 27, 2020 the ECB recommended that at least until 1 October 2020 no dividends are paid out and no irrevocable

commitment to pay out dividends is undertaken by the credit institutions for the financial year 2019 and 2020 and that credit institutions refrain from share buy-backs aimed at remunerating shareholders. ECB has decided to extend the recommendation on dividends until 1 January 2021 with the New recommendation BCE/2020/35 that repeals Recommendation ECB 2020/19 of March 27.

By taking into account the additional requirement made by the *Institution specific Countercyclical Capital Buffer*, the requirement of Common Equity Tier 1 ratio to be respected by Intesa Sanpaolo is equal to 8.96% according to the transitional criteria in force for 2019 and to 9.36% according to the criteria currently in force.

As at 31 December 2019, by taking into account the transitional treatment adopted to mitigate the impact of the IFRS 9 (**IFRS 9 Transitional**), the total solvency coefficient of the Intesa Sanpaolo Group (Total Capital Ratio) is at 17.7%; and the ratio between the Class I Capital (Tier 1) of the Group and the set of risk-weighted assets (Tier 1 ratio) is at 15.2%. The ratio between the Primary Capital of Class 1 (CET1) and the risk-weighted assets (Common Equity Tier 1 ratio) is equal to 13.5%.

By taking into consideration the full inclusion of the impact of IFRS 9 (**IFRS 9 Fully Loaded**), the solvency coefficients as of 31 December 2019 are the following: Total capital ratio 17.00%; Tier 1 ratio 14.3%; and Common Equity Tier 1 ratio 13.00%.

As for the liquidity, the European rules envisage, inter alia, a short-term indicator (Liquidity Coverage Ratio or **LCR**), aimed at creating and maintaining a liquidity buffer able to allow the survival of the bank for a period of thirty days in case of serious market stress, and a structural liquidity indicator (Net Stable Funding Ratio or **NSFR**) with a temporal horizon longer than a year, introduced to ensure that the assets and liabilities have a sustainable maturity structure.

Both indicators of the Group are widely above the minimum limits provided by the Rules.

The slowdown in economic activity caused by lockdowns across Europe and the measures the Governments have taken to face the effects of the current health and economic emergency impacted the Group operations in the different countries of its perimeter. The business continuity management plans were activated in order to ensure the regular execution of Treasury activities and the proper information flows to the senior management and the Supervisors.

Despite the overall liquidity situation of the Group is more than safe and under constant control, some risks may materialize in the coming months, depending on the length of the current lockdown and expected economic recovery. An important mitigating factor to these risks are the contingency management policies in place in the Group system of rules and the measures announced by the European Central Bank, which have granted a higher flexibility in the management of the current liquidity situation by leveraging on the available liquidity buffers.

Furthermore, the Prudential Basel III Regulation introduced the financial Leverage Ratio, which measures the coverage degree of Class 1 Capital compared to the total exposure of the Bank Group. Such index is calculated by considering the assets and exposures out of the budget. The objective of the indicator is to contain the degree of indebtedness in the balance sheets of the banks. The ratio is subject to a minimum regulatory limit of 3%.

Although the above-mentioned regulatory evolution (further described under the "*Regulatory Section*" on page 125 of this Base Prospectus) envisages a gradual adaptation to the new prudential requirements, the impacts on the management dynamics of the Bank could be significant.

In this context, a few other relevant provisions are the implementation of Directives 2014/49/EU (*Deposit Guarantee Schemes Directive*) of 16 April 2014 and the adoption of the (EU) Regulation no. 806/2014 of the European Parliament and the Council of 15 July 2014 (*Single Resolution Mechanism Regulation*, – so called **SRMR**), which may determine a significant impact on the economic and financial position of the Bank and the Group, as such rules set the obligation to create specific funds with financial resources that shall be provided, starting from 2015, by means of contributions by the credit institutions.

Moreover, the Directive 2014/59/EU of the European Parliament and the Council (Bank Recovery and Resolution Directive, **BRRD**, as amended by Directive 879/2019/EU, **BRRD II**), which, *inter alia*, introduced the so called "bail-in", Regulation 2019/876/EU of the European Parliament and the Council, which amends Regulation 575/2013/EU (s.c. "CRR II") and the Directive of the Parliament and the Council 2019/878/EU, which amends Directive 2013/36/EU (s.c. "CRD V") must be taken into consideration and put in force by Intesa Sanpaolo Group.

The Intesa Sanpaolo Group is subject to the BRRD, as amended from time to time, which is intended to enable a wide range of actions that could be taken towards institutions considered to be at risk of failing (i.e. the sale of business, the asset separation, the bail-in and the bridge bank). The execution of any action under the BRRD towards the Intesa Sanpaolo Group could materially affect the value of, or any repayments linked to the Covered Bonds.

Notwithstanding the above, it should be noted that pursuant to Article 44 (2) of the BRRD, as implemented in Italy by Article 49 of Legislative Decree No. 180 of 16 November 2015, resolution authorities shall not exercise the write down or conversion powers in relation to secured liabilities, including covered bonds or their related hedging instruments, save to the extent that these powers may be exercised in relation to any part of a secured liability (including covered bonds and their related hedging instruments), that exceeds the value of the assets, pledge, lien or collateral against which it is secured.

On 15 October 2013, the Council of the European Union adopted the Council Regulation (EU) No. 1024/2013 granting specific tasks to the ECB as per prudential supervision policies of credit institutions (the **SSM Regulation**) in order to establish a single supervisory mechanism (the **Single Supervisory Mechanism** or **SSM**). From 4 November 2014, the SSM Regulation has given the ECB, in conjunction with the national regulatory authorities of the Eurozone and participating Member States, direct supervisory responsibility over "banks of significant importance" in the Eurozone.

In this respect, "banks of significant importance" include any Eurozone bank in relation to which (i) the total value of its assets exceeds €30 billion or – unless the total value of its assets is below €5 billion – the ratio of its total assets over the national gross domestic product exceeds 20%; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism; (iv) is considered by the ECB to be of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities.

Notwithstanding the fulfilment of the relevant criteria, the ECB, on its own initiative after consulting with each national competent authority or upon request by a national competent authority, may declare an institution significant to ensure the consistent application of high-quality supervisory standards. Intesa Sanpaolo and the Intesa Sanpaolo Group have been classified, respectively, as a significant supervised entity and a significant supervised group within the meaning of Regulation (EU) No. 468/2014 of the European Central Bank of 16 April 2014 establishing the framework for co-operation within the Single Supervisory Mechanism between the European Central Bank and each national competent authority and with national designated authorities (the **SSM Framework Regulation**) and, as such, are subject to direct prudential supervision by the ECB in respect of the functions granted to ECB by the SSM Regulation and the SSM Framework Regulation.

Risks related to the entry into force of new accounting principles and the amendment of the applied accounting principles

The Bank is exposed, as well as any other entity operating within the bank sector, to the effects deriving from both the entry into force of new accounting principles and the amendment of the

existing ones, in particular with respect to the international IAS/IFRS accounting principles, as approved and adopted within the European legal system. On the date of first implementation of the IFRS 9 principle (31 March 2018), the main impacts for the Intesa Sanpaolo Group arose from the application of the new impairment accounting model (based on the "expected loss" concept instead of the "incurred loss" approach, which was previously envisaged by IAS 39), which has led to an increase of the value adjustments. The first implementation of the IFRS 16 principle, on 31 March 2019, caused an impact on the CET 1, equal to -8 base points.

It is important to highlight that a particular attention should be given towards other interventions on the accounting regulations, particularly the new international principle IFRS 9 "Financial Instruments", which replaced the IAS 39 as per the classification and measurement of the financial instruments. Such principle, which has been approved by means of Regulation (EU) 2067/2016, entered into force on 1 January 2018.

For an in depth analysis of the IFRS 9, the relevant implementation project and the effects of its first application (FTA) we refer to the chapter on "The transition to the international accounting principle IFRS 9" included in the balance sheet as of 31 December 2018. We would like to underline that, upon the first application of the principle, the main impacts for Intesa Sanpaolo Group arised from the enforcement of the new impairment accounting model (based on the concept of "expected loss" instead of the approach of the "incurred loss", previously envisaged by IAS 39), which caused an increase of the value adjustments.

Also with reference to the application of the IFRS 9, we observe that the Intesa Sanpaolo Group, as mainly a banking financial conglomerate, has decided to avail itself of the option of application of the so called "Deferral Approach" (or Temporary Exemption), by virtue of which the financial assets and liabilities of the insurance subsidiary Companies continue to be registered on the balance sheet under the provisions of IAS 39, awaiting the entry into force of the new international accounting principle on insurance agreements (IFRS 17), which is scheduled for 2022.¹

For further details on the first adoption of the new principle please refer to the specific qualitative and quantitative information included in the chapter "Criteria for the preparation of the Annual Report as of 31 December 2019".

2. RISKS RELATED TO COVERED BONDS

The risks below have been classified into the following categories:

Risks related to Covered Bonds generally

Risks related to the Guarantor;

Risks related to the underlying; and

Risk related to the market.

Risks related to Covered Bonds generally

The Covered Bonds may not be a suitable investment for all investors

Each potential investor in the Covered Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Covered Bonds, the merits and risks of investing in the Covered Bonds and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;

¹ Please note that in June 2019 IASB published the Exposure Draft Amendments to IFRS 17 which includes the proposal to postpone the date of first application to 2022

- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Covered Bonds and the impact the Covered Bonds will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Covered Bonds, including Covered Bonds where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Covered Bonds and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Covered Bonds are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Covered Bonds which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Covered Bonds will perform under changing conditions, the resulting effects on the value of the Covered Bonds and the impact this investment will have on the potential investor's overall investment portfolio.

Obligations to make payments when due on the Covered Bonds

The Issuer is liable to make payments when due on the Covered Bonds. The obligations of the Issuer under the Covered Bonds are direct, unsecured, unconditional and unsubordinated obligations, ranking *pari passu* without any preference amongst themselves and equally with its other direct, unsecured, unconditional and unsubordinated obligations. Consequently, any claim directly against the Issuer in respect of the Covered Bonds will not benefit from any security or other preferential arrangement granted by the Issuer. The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts payable under the Covered Bond Guarantee until the service on the Covered Bond Guarantor of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay. Failure by the Covered Bond Guarantor to pay amounts due under the Covered Bond Guarantee in respect of any Series or Tranche would constitute a Covered Bond Guarantor Event of Default which would entitle the Representative of the Covered Bondholders to serve a Covered Bond Guarantor Acceleration Notice and accelerate the obligations of the Covered Bond Guarantor under the Covered Bond Guarantee and entitle the Representative of the Covered Bondholders to enforce the Covered Bond Guarantee. The occurrence of an Issuer Event of Default does not constitute a Covered Bond Guarantor Event of Default.

The Covered Bonds will not represent an obligation or be the responsibility of any of the Dealers, the Arrangers, the Representative of the Covered Bondholders or any other party to the Transaction Documents, their officers, members, directors, employees, security holders or incorporators, other than the Issuer and, upon service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, the Covered Bond Guarantor. The Issuer and the Covered Bond Guarantor will be liable solely in their corporate capacity and, as to the Covered Bond Guarantor, limited recourse to the Available Funds, for their obligations in respect of the Covered Bonds and such obligations will not be the obligations of their respective officers, members, directors, employees, security holders or incorporators.

Extendable obligations under the Covered Bond Guarantee

With respect to the Series of Covered Bonds in respect of which the Extendable Maturity is specified in the relevant Final Terms, if the Covered Bond Guarantor is obliged under the Covered Bond Guarantee to pay a Guaranteed Amount and has insufficient funds available under the relevant Priority of Payments to pay such amount on the Maturity Date, then the obligation of the Covered Bond Guarantor to pay such Guaranteed Amounts shall automatically be deferred to the relevant Extended Maturity Date. However, to the extent the Covered Bond Guarantor has sufficient monies available to pay in part the Guaranteed Amount in respect of the relevant Series of Covered Bonds,

the Covered Bond Guarantor shall make such partial payment in accordance with the relevant Priorities of Payments, as described in Condition 9 (*Redemption and Purchase*) on the relevant Maturity Date and any subsequent CB Payment Date falling prior to the relevant Extended Maturity Date. Payment of the unpaid amount shall be deferred automatically until the applicable Extended Maturity Date. Interest will continue to accrue and be payable on the unpaid Guaranteed Amount on the basis set out in the applicable Final Terms or, if not set out therein, in Condition 9 (*Redemption and Purchase*), *mutatis mutandis*. In these circumstances, except where the Covered Bond Guarantor has failed to apply money in accordance with the relevant Priorities of Payments in accordance with Condition 9 (*Redemption and Purchase*), failure by the Covered Bond Guarantor to pay the relevant Guaranteed Amount on the Maturity Date or any subsequent CB Payment Date falling prior to the Extended Maturity Date (or the relevant later date following any applicable grace period) shall not constitute a Covered Bond Guarantor Event of Default. However, failure by the Covered Bond Guarantor to pay any guaranteed amount or the balance thereof, as the case may be, on the relevant Extended Maturity Date and/or pay any other amount due under the Covered Bond Guarantee will (subject to any applicable grace period) constitute a Covered Bond Guarantor Event of Default.

Risks related to the structure of a particular issue of Covered Bonds

Covered Bonds issued under the Programme will either be fungible with an existing Series (in which case they will form part of such Series) or have different terms to an existing Series (in which case they will constitute a new Series). All Covered Bonds issued from time to time will rank *pari passu* with each other in all respects and will share equally in the security granted by the Covered Bond Guarantor under the Covered Bond Guarantee. If an Issuer Event of Default and/or a Covered Bond Guarantor Event of Default occurs and results in acceleration, all Covered Bonds of all Series will accelerate at the same time.

A wide range of Covered Bonds may be issued under the Programme. A number of these Covered Bonds may have features which contain particular risks for potential investors. Under no circumstances shall the interest payments for the Covered Bondholders be less than zero. Set out below is a description of the most common of such features:

(a) Covered Bonds subject to optional redemption by the Issuer

An optional redemption feature of Covered Bonds is likely to limit their market value. During any period when the Issuer may elect to redeem Covered Bonds, the market value of those Covered Bonds generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Covered Bonds when its cost of borrowing is lower than the interest rate on the Covered Bonds. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Covered Bonds being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(b) Zero Coupon Covered Bonds

The Issuer may issue Covered Bonds which do not pay current interest but are issued at a discount from their nominal value or premium from their principal amount. Such Covered Bonds are characterised by the circumstance that the relevant covered bondholders, instead of benefitting from periodical interest payments, shall be granted an interest income consisting in the difference between the redemption price and the issue price, which difference shall reflect the market interest rate. A holder of a zero coupon covered bond is exposed to the risk that the price of such covered bond falls as a result of changes in the market interest rate. Prices of zero coupon Covered Bonds are more volatile than prices of fixed rate Covered Bonds and are likely to respond to a greater degree to market interest rate changes than interest bearing Covered Bonds with a similar maturity. Generally, the longer the remaining terms of such Covered Bonds, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

(c) Fixed/Floating Rate Covered Bonds

Fixed/Floating Rate Covered Bonds may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to

convert the interest rate will affect the secondary market and the market value of the Covered Bonds since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Covered Bonds may be less favourable than then prevailing spreads on comparable Floating Rate Covered Bonds tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Covered Bonds. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Covered Bonds.

(d) Partly-paid Covered Bonds

The Issuer may issue Covered Bonds where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of his investment.

(e) Covered Bonds issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Certain decisions of Representative of the Covered Bondholders taken without the consent or sanction of any of the Covered Bondholders

Pursuant to the Rules of the Organisation of the Covered Bondholders, the Representative of the Covered Bondholders may, without the consent or sanction of any of the Covered Bondholders concur with the Issuer and/or the Covered Bond Guarantor and any other relevant parties in making or sanctioning any modifications to the Rules of the Organisation of the Covered Bondholders, the Conditions and/or the other Transaction Documents:

- (i) provided that in the opinion of the Representative of the Covered Bondholders such modification is not materially prejudicial to the interests of any of the Covered Bondholders of any Series; or
- (ii) which in the opinion of the Representative of the Covered Bondholders are made to correct a manifest error or an error established as such to the satisfaction of the Representative of the Covered Bondholders or of a formal, minor or technical nature, or are made to comply with mandatory provisions of law.

In establishing whether an error is established as such, the Representative of the Covered Bondholders may have regard to any evidence on which the Representative of the Covered Bondholders considers reasonable to rely on, and may, but shall not be obliged to, have regard to all or any of the following:

- (i) a certificate from a Relevant Dealer, stating the intention of the parties to the relevant Transaction Document, confirming nothing has been said to, or by, the investors or any other parties which is in any way inconsistent with such stated intention and stating the modification to the relevant Transaction Document that is required to reflect such intention;
- (ii) confirmation from the Rating Agency that, after giving effect to such modification, the Covered Bonds shall continue to have the same credit ratings as those assigned to them immediately prior to the modification.

Covered Bondholders are bound by Extraordinary Resolutions and Programme Resolutions

A meeting of Covered Bondholders may be called to consider matters which affect the rights and interests of Covered Bondholders. These include (but are not limited to): (i) instructing the Representative of the Covered Bondholders to take enforcement action against the Issuer and/or the Covered Bond Guarantor; (ii) reduction or cancellation of the amount payable or, where applicable, modification of the method of calculating the amount payable or modification of the date of payment or, where applicable, modification of the method of calculating the date of payment in respect of any principal or interest in respect of the Covered Bonds; (iii) alteration of the currency in which payments under the Covered Bonds are to be made; (iv) alteration of the majority required to pass an

Extraordinary Resolution; and (v) any amendments to the Covered Bond Guarantee or the Pledge Agreement (except in a manner determined by the Representative of the Covered Bondholders not to be materially prejudicial to the interests of the Covered Bondholders of any Series).

Certain decisions of Covered Bondholders shall be taken at a Programme level by means of Programme Resolution. A Programme Resolution will bind all Covered Bondholders, irrespective of whether they attended the meeting or voted in favour of the Programme Resolution. No Resolution, other than a Programme Resolution, passed by the holders of one Series of Covered Bonds will be effective in respect of another Series unless it is sanctioned by an Ordinary Resolution or an Extraordinary Resolution, as the case may require, of the holders of that other Series. Any Resolution passed at a meeting of the Covered Bondholders of a Series shall bind all other holders of that Series, irrespective of whether they attended the meeting and whether they voted in favour of the relevant Resolution.

It should also be noted that after the delivery of a Notice to Pay, the protection and exercise of the Covered Bondholders' rights against the Issuer will be exercised by the Covered Bond Guarantor (or the Representative of the Bondholders on its behalf). The rights and powers of the Covered Bondholders may only be exercised in accordance with the Rules of the Organisation of the Covered Bondholders. In addition, after the delivery of a Covered Bond Guarantor Acceleration Notice, the protection and exercise of the Covered Bondholders' rights against the Covered Bond Guarantor and the security under the Covered Bond Guarantee is one of the duties of the Representative of the Covered Bondholders. The Conditions limit the ability of each individual Covered Bondholder to commence proceedings against the Covered Bond Guarantor by conferring on the meeting of the Covered Bondholders the power to determine in accordance with the Rules of the Organisation of the Covered Bondholders, whether any Covered Bondholder may commence any such individual actions.

Representative of the Covered Bondholders' powers may affect the interests of the Covered Bondholders

In the exercise of its powers, trusts, authorities and discretions the Representative of the Covered Bondholders shall only have regard to the interests of the Covered Bondholders and the other Secured Creditors but if, in the opinion of the Representative of the Covered Bondholders, there is a conflict between these interests, the Representative of the Covered Bondholders shall have regard solely to the interests of the Covered Bondholders.

If, in connection with the exercise of its powers, trusts, authorities or discretions, the Representative of the Covered Bondholders is of the opinion that the interests of the Covered Bondholders of any one or more Series would be materially prejudiced thereby, the Representative of the Covered Bondholders shall not exercise such power, trust, authority or discretion without the approval of such Covered Bondholders by Extraordinary Resolution or by a direction in writing of such Covered Bondholders of at least 25 per cent. of the Outstanding Principal Balance of the Covered Bonds of the relevant Series.

Credit rating of the Covered Bonds may not reflect all risks

The rating assigned to the Covered Bonds address, *inter alia*:

- (i) the likelihood of full and timely payment to Covered Bondholders of all payments of interest on each CB Payment Date;
- (ii) the likelihood of timely payment of principal in relation to the Hard Bullet Covered Bonds on the Maturity Date; and
- (iii) the likelihood of ultimate payment of principal in relation to Covered Bonds on (a) the Maturity Date thereof, or (b) if the Covered Bonds are subject to an Extended Maturity Date in accordance with the applicable Final Terms, the Extended Maturity Date thereof.

Whether or not a rating in relation to any Series of Covered Bonds will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the relevant Final Terms. The credit ratings included or referred to in this Base Prospectus have been issued by Moody's France S.A.S.. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating

agency established in the European Union or the UK and registered under the CRA Regulation (or is endorsed and published or distributed by subscription by such a credit rating agency in accordance with the CRA Regulation) unless (1) the rating is provided by a credit rating agency not established in the EEA or the UK but endorsed by a credit rating agency established in the EEA or the UK and registered under the CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA or the UK which is certified under the CRA Regulation. The European Securities and Markets Authority (the ESMA) is obliged to maintain on its website, <https://www.esma.europa.eu/page/List-registered-and-certified-CRAs>, a list of credit rating agencies registered and certified in accordance with the CRA Regulation. Certain information with respect to the credit rating agencies and ratings will be disclosed in the Final Terms.

The expected rating of the Covered Bonds is set out in the relevant Final Terms for each Series of Covered Bonds. The Rating Agency may lower its ratings or withdraw its rating if, in its sole judgement, the credit quality of the Issuer or the Covered Bonds has declined or is in question, and the Issuer has not undertaken to maintain a rating. In addition, at any time the Rating Agency may revise its relevant rating methodology with the result that, amongst other things, any rating assigned to the Covered Bonds may be lowered. If any rating assigned to the Covered Bonds is lowered or withdrawn, the market value of the Covered Bonds may reduce.

A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. The ratings may not reflect the potential impact of all risks related to the structure, market, additional factors discussed above and other factors that may affect the value of the Covered Bonds.

The return on an investment in Covered Bonds will be affected by charges incurred by investors

An investor's total return on an investment in any Covered Bonds will be affected by the level of fees charged by the nominee service provider and/or clearing system used by the investor. Such a person or institution may charge fees for the opening and operation of one or more investment accounts, transfers of Covered Bonds, custody services and on payments of interest, principal and other amounts. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Covered Bonds. Certain information in that respect are available under the section headed "General Information".

Law 130

Law 130 was enacted in Italy in April 1999 and amended to allow for the issuance of covered bonds in 2005. Law 130 was further amended during the following years.

As at the date of this Base Prospectus, no interpretation of the application of Law 130 as it relates to covered bonds has been issued by any Italian court or governmental or regulatory authority, except for (i) the MEF Decree setting out the technical requirements of the guarantee which may be given in respect of covered bonds, (ii) the BoI OBG Regulations concerning guidelines on the valuation of assets, the procedure for purchasing integration assets and controls required to ensure compliance with the legislation, and (iii) the clarifications, provided for by the Bank of Italy, to certain queries concerning the OBG Regulations submitted to the such authority by Italian banks and the Italian Banking Association (*Associazione Bancaria Italiana*). Consequently, it is possible that such or different authorities may issue further regulations relating to Law 130 or the interpretation thereof, the impact of which cannot be predicted by the Issuer as at the date of this Base Prospectus.

Change of law

The structure of the Programme and, *inter alia*, the issue of the Covered Bonds and the rating assigned to the Covered Bonds are based on the relevant law, tax and administrative practice in effect at the date of this Base Prospectus, and having due regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given as to the impact of any possible change to the law (including any change in regulation which may occur without a change in primary legislation), tax or administrative practice or its interpretation will not change after the Issue Date of any Series or that such change will not adversely impact the structure of the Programme and the treatment of the Covered Bonds. This Base Prospectus will not be updated to reflect any such changes or events.

The regulation and reform of “benchmarks” may adversely affect the value of Covered Bonds linked to such “benchmarks”

The London Interbank Offered Rate (**LIBOR**), the Euro Interbank Offered Rate (**EURIBOR**) and other indices which are deemed to be “benchmarks” are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Covered Bonds linked to such a “benchmark”.

Regulation (EU) No. 2016/1011 (the **Benchmarks Regulation**) on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment fund became applicable from 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU.

The Benchmarks Regulation could have a material impact on any Covered Bonds linked to LIBOR, EURIBOR or another benchmark rate or index, in particular, if the methodology or other terms of the “benchmark” are changed in order to comply with the terms of the Benchmarks Regulation and such changes could (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level of the “benchmark”.

More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of “Benchmarks”, could increase the costs and risks of administering or otherwise participating in the setting of a “Benchmark” and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain “benchmarks,” trigger changes in the rules or methodologies used in certain “benchmarks” or lead to the discontinuance or unavailability of quotes of certain “benchmarks”.

As an example of such benchmark reforms, on 27 July 2017 the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 and, on 12 July 2018, announced that the LIBOR benchmark may cease to be a regulated benchmark under the Benchmark Regulation. Such announcements indicate that the continuation of LIBOR on the current basis (or at all) cannot and will not be guaranteed after 2021.

In addition, on 29 November 2017, the Bank of England and the FCA announced that, from January 2018, its Working Group on Sterling Risk-Free Rates has been mandated with implementing a broad-based transition to the Sterling Overnight Index Average (**SONIA**) over the next four years across sterling bond, loan and derivative markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021.

Separate workstreams are also underway in Europe to provide a fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). On 13 September 2018, the working group on Euro risk-free rates recommended the new Euro short-term rate (**€STR**) as the new risk free rate for the area euro. The €STR was published for the first time on 2 October 2019. The euro risk free-rate working group for the euro area has also published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system.

Actually, although EURIBOR has been reformed in order to comply with the terms of the Benchmark Regulation, it remains uncertain as to systemhow long it will continue in its current form, or whether it will be further reformed or replaced with €STR or an alternative benchmark. It is not possible to predict with certainty whether, and to what extent, LIBOR and EURIBOR will continue to be supported going forwards. This may cause LIBOR and EURIBOR to perform

differently than they have done in the past and may have other consequences which cannot be predicted. Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Covered Bond linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

The Terms and Conditions of the Covered Bonds provide that, if the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Event (as defined in the Conditions) has occurred (including, but not limited to, a Reference Rate (as defined in the Conditions) ceasing to be provided or upon a material change of a Reference Rate, if applicable, then the Issuer shall use reasonable endeavours to appoint an Independent Adviser for the purposes of determining a Successor Rate or an Alternative Benchmark Rate (as further described in Condition 6(f) (*Fallback Provisions*) of the Terms and Conditions of the Covered Bonds and, if applicable, an Adjustment Spread. If the Issuer is unable to appoint an Independent Adviser or if the Independent Adviser and the Issuer cannot agree upon, or cannot select, the Successor Rate or Alternative Benchmark Rate, the Issuer may determine the replacement rate, provided that if the Issuer is unable or unwilling to determine the Successor Rate or Alternative Benchmark Rate, the further fallbacks described in the Terms and Conditions of the Covered Bonds shall apply. In certain circumstances, including but not limited to where the Issuer is unable or unwilling to determine an Alternative Benchmark Rate and Alternative Relevant Screen Page, the ultimate fallback for the purposes of calculation of interest for a particular Interest Period may result in the rate of interest of the last preceding Interest Period being used. This may result in effective application of a fixed rate of interest for Covered Bonds initially designated to be Floating Rate Covered Bonds. In addition, due to the uncertainty concerning the availability of Successor Rates and Alternative Reference Rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time.

The use of a Successor Rate or an Alternative Benchmark Rate may result in interest payments that are substantially lower than or that do not otherwise correlate over time with the payments that could have been made on the Covered Bonds if the relevant benchmark remained available in its current form. Furthermore, if the Issuer is unable to appoint an Independent Adviser or if the Issuer fails to agree a Successor Rate or an Alternative Benchmark Rate or adjustment spread, if applicable with the Independent Adviser, the Issuer may have to exercise its discretion to determine (or to elect not to determine) an Alternative Benchmark Rate or adjustment spread, if applicable in a situation in which it is presented with a conflict of interest. In addition, while any Adjustment Spread may be expected to be designed to eliminate or minimise any potential transfer of value between counterparties, the application of the Adjustment Spread to the Covered Bonds may not do so and may result in the Covered Bonds performing differently (which may include payment of a lower interest rate) than they would do if the Reference Rate were to continue to apply in its current form.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmark Regulation or any of the international or national reforms and the possible application of the benchmark replacement provisions of the Covered Bonds, investigations and licensing issues in making any investment decision with respect to the Covered Bonds linked to or referencing such a “benchmark”.

Controls over the transaction

The BoI OBG Regulations require that certain controls be performed by the Issuer (see paragraph headed “*Controls over the transaction*” under the section headed “*Selected aspects of Italian law*”), aimed, *inter alia*, at mitigating the risk that any obligation of the Issuer or the Covered Bond Guarantor under the Covered Bonds is not complied with. Whilst the Issuer believes that it has implemented the appropriate policies and controls in compliance with the relevant requirements, investors should note that there is no assurance that such compliance ensures that the aforesaid controls are actually performed and that any failure to properly implement the relevant policies and

controls could have an adverse effect on the Issuer's or the Covered Bond Guarantor's ability to perform their obligations under the Covered Bonds.

Risks related to the Guarantor

Covered Bond Guarantor only obliged to pay the Guaranteed Amounts on the Due for Payment Date

The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts payable under the Covered Bond Guarantee until service by the Representative of the Covered Bondholders:

- (i) on the Covered Bond Guarantor, following the occurrence of an Article 74 Event or an Issuer Event of Default, respectively, of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay; and
- (ii) following the occurrence of a Covered Bond Guarantor Event of Default, on the Covered Bond Guarantor of a Covered Bond Guarantor Acceleration Notice.

An Article 74 Notice to Pay can only be served if an Article 74 Event occurs and results in service by the Representative of the Covered Bondholders of an Article 74 Notice to Pay on the Issuer and the Covered Bond Guarantor. A Notice to Pay can only be served if an Issuer Event of Default occurs and results in service by the Representative of the Covered Bondholders of a Notice to Pay on the Issuer and the Covered Bond Guarantor. A Covered Bond Guarantor Acceleration Notice can only be served if a Covered Bond Guarantor Event of Default occurs.

Following service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay on the Covered Bond Guarantor (provided that (i) an Article 74 Event or an Issuer Event of Default has occurred and (ii) no Covered Bond Guarantor Acceleration Notice has been served) under the terms of the Covered Bond Guarantee, the Covered Bond Guarantor will be obliged to pay the Guaranteed Amounts as on the Due for Payment Date. Such payments will be subject to and will be made in accordance with the Post-Issuer Default Priority of Payments. In these circumstances, other than the Guaranteed Amounts, the Covered Bond Guarantor will not be obliged to pay any amount, for example in respect of broken funding indemnities, penalties, premiums, default interest or interest on interest which may accrue on or in respect of the Covered Bonds.

Pursuant to the Covered Bond Guarantee, following the occurrence of an Article 74 Event or an Issuer Event of Default and service, respectively, of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, but prior to the occurrence of any Covered Bond Guarantor Event of Default, the Covered Bond Guarantor shall substitute the Issuer in every and all obligations of the Issuer towards the Covered Bondholders, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration of the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the right of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

Furthermore, please note that the above restrictions are provided for by either the MEF Decree or contractual agreements between the parties of the Covered Bond Guarantee, and there is no case-law or other official interpretation on this issue. Therefore, we cannot exclude that a court might uphold a Covered Bondholder's right to act directly against the Issuer.

Limited resources available to the Covered Bond Guarantor

The Covered Bond Guarantor's ability to meet its obligations under the Covered Bond Guarantee will depend on the realisable value of the Portfolio, the amount of principal and revenue proceeds generated by the Portfolio and/or the Eligible Investments and the timing thereof and amounts received from the Hedging Counterparties and the Relevant Account Bank. The Covered Bond Guarantor will not have any other source of funds available to meet its obligations under the Covered Bond Guarantee.

If a Covered Bond Guarantor Event of Default occurs, the proceeds of the Portfolio, the Eligible Investments and the amounts received from the Hedging Counterparties and the Relevant Account Bank, may not be sufficient to meet the claims of all the Secured Creditors, including the Covered Bondholders. If the Secured Creditors have not received the full amount due to them pursuant to the terms of the Transaction Documents, then they may still have an unsecured claim against the Issuer for the shortfall. There is no guarantee that the Issuer will have sufficient funds to pay that shortfall.

Covered Bondholders should note that the Nominal Value Test and the Amortisation Test have been structured to ensure that the Nominal Value of the Portfolio and the Amortisation Test Aggregate Portfolio Amount, as applicable, shall be greater than or equal to the Outstanding Principal Balance of the Covered Bonds. In addition, the MEF Decree provide for certain further tests aimed at ensuring that (a) the net present value of the Eligible Portfolio (net of certain costs) shall be greater than or equal to the net present value of the Covered Bonds; and (b) the amount of interest and other revenues generated by the Portfolio (net of certain costs) shall be greater than or equal to the interest and costs due by the Issuer under the Covered Bonds.

However there is no assurance that there will not be a shortfall in the amounts available to the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Reliance of the Covered Bond Guarantor on third parties

The Covered Bond Guarantor has entered into agreements with a number of third parties, which have agreed to perform services for the Covered Bond Guarantor. In particular, but without limitation, the Servicer and the Special Servicers have been appointed, in accordance with the terms of the Servicing Agreement as to their respective duties and obligations, to service the Receivables and the Securities included in the Portfolio and the Asset Monitor has been appointed to monitor compliance with the Tests. In the event that any of those parties fails to perform its obligations under the relevant agreement to which it is a party, the realisable value of the Portfolio or any part thereof may be affected, or, pending such realisation (if the Portfolio or any part thereof cannot be sold), the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee may be affected. For instance, if the Servicer has failed to adequately administer the Portfolio, this may lead to higher incidences of non-payment or default by Debtors. The Covered Bond Guarantor is also reliant on the Hedging Counterparties to provide it with the funds matching its obligations under the Covered Bond Guarantee.

If an event of default occurs in relation to the Servicer and/or any relevant Special Servicer pursuant to the terms of the Servicing Agreement, then the Covered Bond Guarantor, with the prior written consent of the Representative of the Covered Bondholders, will be entitled to terminate the appointment of the Servicer and/or the relevant Special Servicer (as the case may be) and appoint a Successor Servicer and/or a Successor Special Servicer (as the case may be). There can be no assurance that a successor with sufficient experience in carrying out the activities of the Servicer and/or the relevant Special Servicer would be found and would be willing and able to carry out the relevant activities on the terms of the Servicing Agreement. The ability of a Successor Servicer and/or a Successor Special Servicer to perform fully the required services would depend, among other things, on the information, software and records available at the time of the appointment. Any delay or inability to appoint a Successor Servicer and/or a Successor Special Servicer may affect the realisable value of the Portfolio or any part thereof, and/or the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee.

The Representative of the Covered Bondholders is not obliged in any circumstances to act as Servicer and/or Special Servicer nor shall the Representative of the Covered Bondholders be under any obligation to monitor or supervise the observance and performance by the Servicer and/or the Special Servicers of their respective obligations under the Transaction Documents, pursuant to paragraph 28.2.2 of the Rules.

Reliance on Hedging Counterparties

To provide a hedge against interest rate risks and/or currency risk in respect of each Series of the Covered Bonds issued under the Programme, the Covered Bond Guarantor may enter into the Liability Swaps with the Liability Hedging Counterparty. Additionally, to provide a hedge against

interest rate risk and/or currency risk on the Portfolio, the Covered Bond Guarantor entered into the Asset Swaps with the Asset Hedging Counterparty.

If the Covered Bond Guarantor fails to make timely payments of amounts due under any Swap Agreement, then it will (unless otherwise stated in the relevant Swap Agreement) have defaulted under that Swap Agreement. A Hedging Counterparty is (unless otherwise stated in the relevant Master Agreement) only obliged to make payments to the Covered Bond Guarantor as long as the Covered Bond Guarantor complies with its payment obligations under the relevant Swap Agreement. In circumstances where non-payment by the Covered Bond Guarantor under a Swap Agreement does not result in a default under that Swap Agreement, the Hedging Counterparty shall make payments to the Covered Bond Guarantor pursuant to the Master Agreement as if payment had been made by the Covered Bond Guarantor. Any amounts not paid by the Covered Bond Guarantor to a Hedging Counterparty may in such circumstances incur additional amounts of interest by the Covered Bond Guarantor, which would rank senior to amounts due on the Covered Bonds. If the Hedging Counterparty is not obliged to make payments or if it defaults in its obligations to make payments of amounts in the relevant currency equal to the full amount to be paid to the Covered Bond Guarantor on the payment date under the Master Agreement, the Covered Bond Guarantor will be exposed to changes in the relevant currency exchange rates to Euro and to any changes in the relevant rates of interest.

If a Swap Agreement terminates, then the Covered Bond Guarantor may be obliged to make a termination payment to the relevant Hedging Counterparty. There can be no assurance that the Covered Bond Guarantor will have sufficient funds available to make a termination payment under the relevant Swap Agreement, nor can there be any assurance that the Covered Bond Guarantor will be able to enter into a subsequent swap agreement.

If the Covered Bond Guarantor is obliged to pay a termination payment under any Master Agreement, such termination payment may rank ahead of amounts due on the Covered Bonds and with amounts due under the Covered Bond Guarantee. Accordingly, the obligation to pay a termination payment may adversely affect the ability of the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

No Gross-up for Taxes by the Covered Bond Guarantor

Notwithstanding anything to the contrary in this Base Prospectus, if withholding of, or deduction of any present or future taxes, duties, assessments or charges of whatever nature is imposed by or on behalf of Italy, any authority therein or thereof having power to tax, the Covered Bond Guarantor will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Covered Bondholders, as the case may be, and shall not be obliged to pay any additional amounts to the Covered Bondholders.

Value of the Portfolio

The Covered Bond Guarantee granted by the Covered Bond Guarantor in respect of the Covered Bonds will be backed by the Portfolio and the recourse against the Covered Bond Guarantor will be limited to such assets. The value of the Covered Bond Guarantor's assets may decrease (for example if there is a general decline in property values). The Seller makes no representation, warranty or guarantee that the value of a real estate asset will remain at the same level as it was on the date of the origination of the related Mortgage Loan or at any other time. If the residential and/or commercial property market in Italy experiences an overall decline in property values, the value of the Mortgage Loan could be significantly reduced and, ultimately, may result in losses to the Covered Bondholders if such security is required to be enforced.

Risks related to the underlying

Limits to the integration

Under the BoI OBG Regulations, any integration, whether through Eligible Assets or Integration Assets shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations (see paragraph headed "*Tests set out in the MEF Decree*" under the section headed "*Selected aspects of Italian law*").

More specifically, under the BoI OBG Regulations, integration is allowed exclusively for the purpose of (i) complying with the tests provided for under the MEF Decree; (ii) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements; or (iii) complying with the Integration Assets Limit.

Investors should note that the integration is not allowed in circumstances other than as set out in the BoI OBG Regulations and specified above.

Limited description of the Portfolio

Covered Bondholders may not receive detailed statistics or information in relation to the Eligible Assets and Integration Assets included in the Portfolio, because it is expected that the constitution of the Portfolio will frequently change due to, for instance:

- (i) the Seller selling further Eligible Assets and Integration Assets;
- (ii) the Seller (for as long as it acts as the Servicer in the context of the Programme) being granted by the Covered Bond Guarantor with wide powers to renegotiate the terms and conditions of the Receivables and the Securities included in the Portfolio; and
- (iii) the Seller repurchasing certain Eligible Assets and Integration Assets in the limited circumstances provided for under the Master Transfer Agreement.

However, each Receivable and Security being, from time to time, part of the Portfolio, will be required to meet the Criteria and/or the characteristics (as applicable) set out in the Master Transfer Agreement and to conform to the representations and warranties granted by the Seller under the Master Transfer Agreement (see paragraph headed “*Master Transfer Agreement*” under the section headed “*Description of the Transaction Documents*”). In addition, the Tests are intended to ensure, *inter alia*, that the ratio of the Covered Bond Guarantor’s assets to the Covered Bonds is maintained at a certain minimum level and the Asset Cover Report to be provided by the Calculation Agent on each Calculation Date will set out, *inter alia*, certain information in relation to the Tests.

In accordance with the Portfolio Administration Agreement, an Additional Seller may sell to the Covered Bond Guarantor, and the latter shall purchase, Eligible Assets and Integration Assets, subject to, *inter alia*: (i) the execution of a master transfer agreement by such Additional Seller, substantially in the form of the Master Transfer Agreement, and (ii) the granting of a subordinated loan by such Additional Seller for the purpose of financing the purchase of Eligible Assets or Integration Assets from it, in accordance with the provision of a subordinated loan agreement to be executed substantially in the form of the Subordinated Loan Agreement.

Sale of Selected Assets and/or Integration Assets following the occurrence of an Article 74 Event or an Issuer Event of Default

Following the service of an Article 74 Notice to Pay (which has not been withdrawn) or of a Notice to Pay and prior to the occurrence of a Covered Bond Guarantor Event of Default (if necessary in order to effect timely payments under the Covered Bonds, as determined by the Calculation Agent) the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, shall sell Selected Assets and/or Integration Assets, in accordance with, and subject to, the terms of the Portfolio Administration Agreement.

There is no guarantee that a buyer will be found to acquire Selected Assets and/or Integration Assets at the times required and there can be no guarantee or assurance as to the price which may be able to be obtained for such Selected Assets and/or Integration Assets, which may affect payments under the Covered Bond Guarantee. However, the Selected Assets and/or Integration Assets may not be sold by the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor for an amount lower than the Adjusted Required Redemption Amount for the relevant Series of Covered Bonds until 6 (six) months prior to the Maturity Date in respect of such Covered Bonds or (if the same is specified as applicable in the relevant Final Terms) the Extended Maturity Date in respect of such Covered Bonds. If, *inter alia*, Selected Assets and/or Integration Assets have not been sold (in whole or in part) in an amount equal to the Adjusted Required Redemption Amount by the date which is 6 (six) months prior to the Maturity Date or Extended Maturity Date of a Series of Covered Bonds which are not Long Dated Covered Bonds, the Servicer, or any other third party appointed by the

Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, is obliged to sell the Selected Assets and/or the Integration Assets for the best price reasonably available notwithstanding that such price may be less than the Adjusted Required Redemption Amount (see paragraph headed “*Portfolio Administration Agreement*” under the section headed “*Description of the Transaction Documents*”).

Realisation of assets following the occurrence of a Covered Bond Guarantor Event of Default

If a Covered Bond Guarantor Event of Default occurs and a Covered Bond Guarantor Acceleration Notice is served on the Covered Bond Guarantor, then the Representative of the Covered Bondholders shall, in the name and on behalf of the Covered Bond Guarantor, direct the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, to sell the Selected Assets and/or the Integration Assets as quickly as reasonably practicable taking into account the market conditions at that time (see paragraph headed “*Portfolio Administration Agreement*” under the section headed “*Description of the Transaction Documents*”).

There is no guarantee that the proceeds of realisation of the Portfolio will be in an amount sufficient to repay all amounts due to creditors (including the Covered Bondholders) under the Covered Bonds and the Transaction Documents. If a Covered Bond Guarantor Acceleration Notice is served on the Covered Bond Guarantor, then the Covered Bonds may be repaid sooner or later than expected or not at all.

Factors that may affect the realisable value of the Portfolio or the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee

Following the occurrence of an Issuer Event of Default, the service of a Notice to Pay on the Issuer and on the Covered Bond Guarantor, the realisable value of the assets included in the Portfolio may be reduced (which may affect the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee) by, *inter alia*:

- (i) default by the Debtors on amounts due in respect of Eligible Assets and Integration Assets;
- (ii) set-off risks in relation to some types of Eligible Assets and Integration Assets included in the Portfolio;
- (iii) limited recourse to the Covered Bond Guarantor;
- (iv) possible regulatory changes by the Bank of Italy, CONSOB and other regulatory authorities;
- (v) adverse movement of the interest rate;
- (vi) unwinding cost related to the hedging structure; and
- (vii) regulations in Italy that could lead to some terms of the Eligible Assets and Integration Assets being unenforceable.

Each of these factors is considered in more detail below. However, it should be noted that the Amortisation Test is intended to ensure that there will be an adequate amount of Eligible Assets and Integration Assets in the Portfolio and monies standing to the credit of the Accounts to enable the Covered Bond Guarantor to repay the Covered Bonds following an Issuer Event of Default, service of a Notice to Pay on the Issuer and on the Covered Bond Guarantor and, accordingly, it is expected (although there is no assurance) that Selected Assets and/or Integration Assets could be realised for sufficient values to enable the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Default by Debtors in paying amounts due on Receivables or Securities

Debtors may default on their obligations due under the Receivables or the Securities for a variety of reasons. The Eligible Assets and Integration Assets are affected by credit, liquidity and interest rate risks. Various factors influence delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies.

Certain factors may lead to an increase in default by the Debtors, and could ultimately have an adverse impact on the ability of the Debtors to repay the Receivables or the Securities.

Changes to the lending criteria of the Seller

The Receivables originated by the Seller will have been originated in accordance with its lending criteria at the time of origination. It is expected that the Seller's lending criteria will generally consider term of loan, indemnity guarantee policies, status of applicants and credit history. In the event of the sale or transfer of any Receivable to the Covered Bond Guarantor, the Seller will warrant that such Receivables were originated in accordance with the Seller's lending criteria applicable at the time of origination. The Seller retains the right to revise its lending criteria from time to time, subject to the terms of the Master Transfer Agreement. However, if such lending criteria change in a manner that affects the creditworthiness of the Receivables, that may lead to increased defaults by Debtors and may affect the realisable value of the Portfolio and the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee. However, Defaulted Assets in the Portfolio will be given a zero weighting for the purposes of the calculation of the Tests.

Mortgage Loans performance

The Receivables which shall be included in the Portfolio will be performing as at the relevant Selection Date. There can be no guarantee that the relevant Debtors will not default under the Mortgage Loans and that they will therefore continue to perform. The recovery of amounts due in relation to non-performing loans will be subject to the effectiveness of enforcement proceedings in respect of the Mortgage Loans, which in the Republic of Italy can take a considerable time, depending on the type of action required and where such action is taken and on several other factors, including the following: proceedings in certain courts involved in the enforcement of the Mortgage Loans and the relevant mortgages may take longer than the national average; obtaining title deeds from land registries which are in the process of computerising their records can take up to two or three years; further time is required if it is necessary to obtain an injunction decree (*decreto ingiuntivo*) and if the relevant Debtor raises a defence or counterclaim to the proceedings. According to statistics published by the Ministry of Justice in 2013 with regard to data as at 2011, the recovery period for loans in respect of which recovery is by foreclosure proceedings on the related mortgaged real estate usually lasts three years and six months, although such period may vary significantly depending upon, *inter alia*, the type and location of the related mortgaged real estate and the other factors described above.

Recently, new legal provisions have been introduced in order to speed up legal proceedings. In particular, Law Decree no. 59 of 2 May 2016, as converted into Law no. 119 of 30 June 2016, implemented new provisions, which interested:

- (i) the Italian Insolvency Law, by introducing the possibility of using electronic technologies for hearings and for meetings of creditors. Furthermore, failure to comply with the time limits for the proceedings, established in Article 110, Paragraph 1 of the Italian Insolvency Law, is envisaged as a fair reason for removing the receiver; and
- (ii) the Italian Code of Civil Procedure, providing for:
 - (a) the inadmissibility of opposing the forced sale once the sale or allocation of the asset has been decreed;
 - (b) the immediate enforceability of the judge's order when the debtor's opposition is not based on documentary proof;
 - (c) simplification of the procedure for the transfer of the property;
 - (d) the possibility for the debtor's assets to be allocated to a third party, yet to be nominated;
 - (e) the obligation to proceed with sales on the basis of electronic modalities, and the right for the judge, after three auctions without bidders, to lower the basic price up to a half;

- (f) the possibility, for the judge and for the professionals entrusted with selling, to proceed with partial distributions of the sums obtained from the forced sales.

The above provisions are expected to reduce the length of the enforcement proceedings.

Prepayment and renegotiations

Debtors are generally entitled to prepay their loans at any time. In the case of *mutui fondiari* the right to prepay the loan is provided for by Article 40 of the Banking Law.

In addition, pursuant to Legislative Decree No. 141 enacted on 13 August 2010, Article 120-quater has been added to the Banking Law for the purposes of providing debtors with certain rights and benefits, including the right to prepay their loans at any time, funding such prepayment by a loan granted by another lender (bank or other financial intermediary) which will be subrogated pursuant to article 1202 of the Italian Civil Code, into the rights of the original lender (*surrogazione per volontà del debitore*). The subrogation is effective regardless of the fact that the credit is still not due or that a term of payment in favour of the original lender had been agreed between the debtor and the original lender itself. Further to the subrogation, the lender will automatically replace the original lender also in relation to all guarantees to the relevant loan and no costs and expenses may be charged on the debtor.

Article 120-quater of the Banking Law was subsequently amended by Article 8, paragraph 8 of Law Decree No. 70 of 13 May 2011, converted into Law No. 106 enacted on 12 July 2011, according to which the provisions of Article 120-quater apply to loan agreements entered into between the bank or other financial intermediary and individuals or small companies (*micro-imprese*). Article 120-quater was further amended by Law 24 March 2012, n. 27 and Law Decree No. 179 of 18 October 2012, converted into Law No. 221 enacted on 17 December 2012, which respectively have introduced certain amendments (including, *inter alia*, to the timing for completion of the prepayment transactions and manner of calculating the penalty due by the bank).

Legal risks relating to the Mortgage Loans

The ability of the Guarantor to recover payments of interest and principal from the Mortgage Loans is subject to a number of legal risks. Further details on certain considerations in relation to the regulation of mortgages in Italy are set out in the section headed "*Selected Aspects of Italian law*" and certain specific risks are set out below:

Mortgage borrower protection: Certain legislations enacted in Italy, have given new rights and certain benefits to mortgage debtors and/or reinforced existing rights, including, *inter alia*, (i) the right of prepayment of the principal amount the mortgage loan, without incurring a penalty, (ii) the right to the substitution (*portabilità*) of a mortgage loan with another mortgage loan and (iii) the right to suspend instalment payments relating to mortgage loans. Further details are set out in the section headed "*Selected Aspects of Italian law – Mortgage Borrower protection*". These legislations constitutes an adverse effect on the cover pool and, in particular, on any cash flow projections concerning the cover pool as well as on the over-collateralisation required. However, as this legislation is relatively new, as at the date of this Base Prospectus, the Issuer is not in a position to predict its impact.

Mortgage Credit Directive: Directive 2014/17/EU of the European Parliament and of the Council of 4 February 2014 on credit agreements for consumers relating to residential immovable property and amending Directives 2008/48/EC and 2013/36/EU and Regulation (EU) No 1093/2010 (the **Mortgage Credit Directive**) sets out a common framework for certain aspects of the laws, regulations and administrative provisions of the Member States concerning agreements covering credit for consumers secured by a mortgage or otherwise relating to residential immovable property. In Italy the Government has approved the Legislative Decree no. 72 of 21 April 2016, implementing the Mortgage Credit Directive and published on the Official Gazette of the Republic of Italy on 20 May 2016 (the **Mortgage Legislative Decree**), which, moreover, sets forth certain rules of correctness, diligence and transparency and information undertakings applicable to the lenders and intermediaries which offer loans to the consumers and provides that the parties may agree under the loan agreements that in case of breach of the borrower's payment obligations under the agreement

(i.e. non-payment of at least eighteen loan instalments due and payable by the debtor) the property of the debtor subject to security or the proceeds deriving from the sale thereof can be transferred to the creditor in discharge of the entire debt even if the value of the assets or the proceeds deriving from the sale of the assets is lower than the remaining amount due by the debtor in relation to the loan. Given the absence of any jurisprudential interpretation, the impact of such new legislation may not be predicted as at the date of this Base Prospectus. Further details are set out in the section headed "*Selected Aspects of Italian law –Mortgage Credit Directive*". No assurance can be given that the implementation of the Mortgage Legislative Decree will not adversely affect the ability of the Guarantor to make payments under the Covered Bond Guarantee.

Patto Marciano: On 4 May 2016, Law Decree 3 May 2016, no. 59 (**Decree 59**) came into force introducing, *inter alia*, a new article 48-bis into the Banking Law (**Article 48-bis**). The Decree 59 has been converted into Law No. 119 of 30 June 2016, as published in the Official Gazette of the Republic of Italy No. 153 of 2 July 2016. Pursuant to Article 48-bis, a loan agreement entered into between an entrepreneur and a bank, or another entity authorised to grant loans to the public pursuant to article 106 of the Banking Law, may be secured by transferring to the creditor (or to a company of the creditor's group authorised to purchase, hold, manage and transfer rights in rem in immovable property), the ownership of a property or of another immovable right of the entrepreneur or of a third party (which is not the main home of the owner, of the spouse or of his relatives and in-laws up to the third degree). Such transfer is subject to the condition precedent of the debtor defaulting (so-called "*Patto Marciano*", hereafter the **Covenant**). Given the novelty of this new legislation and the absence of any jurisprudential interpretation, the impact of Article 48-bis may not be predicted as at the date of this Base Prospectus. Further details are set out in the section headed "*Selected Aspects of Italian law – Patto Marciano*".

Risks related to the MBS Notes

The Initial Portfolio consists of the Initial MBS Notes (for a detailed description of the Initial MBS Notes see the section headed "*Description of the Portfolio*") and Further Portfolios may comprise MBS Notes.

Each potential investor in Covered Bonds should refer to the section headed "Risk Factors" and any other relevant section contained in the prospectus of the relevant MBS Notes for a description of those factors which may affect the ability of the relevant MBS Notes Issuer under the relevant securitisation transaction to fulfil its obligations under the relevant MBS Notes, including but not limited to (a) the risks relating to the relevant MBS Portfolio; (b) the risks relating to the relevant MBS Notes Issuer; and (c) the risk relating to the MBS Notes.

In particular, the MBS Notes are obligations solely of the relevant MBS Notes Issuer. In order to make payments of amounts due and payable under the relevant MBS Notes, the MBS Notes Issuer does not have any significant assets other than the relevant MBS Portfolio and its rights under the transaction documents of the relevant MBS Transaction to which it is a party. The capacity of the MBS Notes Issuer to meet its obligations in respect of the relevant MBS Notes will be dependent, *inter alia*, on the receipt by the MBS Notes Issuer of amounts collected on its behalf by the servicer(s) appointed under the relevant MBS Transaction and any other amounts to be received by the MBS Notes Issuer pursuant to the provisions of the transaction documents of the relevant MBS Transaction. However, there can be no guarantee that funds available to the MBS Notes Issuer will be sufficient to repay the MBS Notes in full.

Other risks regard the fact that any MBS Notes may be affected by credit, liquidity and interest rate risks relating to the mortgage loans securing the MBS Notes. Various factors influence mortgage delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic or housing conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies. Other factors with respect to mortgage loan borrowers' individual, personal or financial circumstances may affect the ability of such borrowers to make the required payments under the relevant mortgage loans which subsequently may affect the ability of the MBS Notes Issuer to make the necessary payments under

the MBS Notes. Loss of earnings, illness, divorce and other similar factors may lead to an increase in delinquencies by and bankruptcies of the mortgage loan borrowers, and could ultimately have an adverse impact on the ability of such borrowers to make the required payments under each mortgage loan which subsequently may affect the ability of the MBS Notes Issuer to make the necessary payments under the MBS Notes. In addition, the ability of a mortgage loan borrower to sell a property secured by a mortgage at a price sufficient to repay the amounts outstanding under the relevant mortgage loan will depend upon a number of factors, including the availability of buyers for that property secured by a mortgage, the value of that property and property values in general at the time.

Each of the risks associated with an MBS Note may affect the rights in respect of those MBS Notes transferred by the Seller (or any Additional Seller) to the Covered Bond Guarantor.

To mitigate such risk, pursuant to the Portfolio Administration Agreement, the Seller (or any Additional Seller) is obliged to, *inter alia*, transfer new Eligible Assets and/or Integration Assets to the Covered Bond Guarantor should the MBS Notes included in the Portfolio become Defaulted Assets, and, as set forth therein, Defaulted Assets will be excluded from the calculation of the Nominal Value Test. Moreover, pursuant to the Portfolio Administration Agreement, if the aggregate Outstanding Principal Balance of the Non-Eligible Underlying Assets exceeds 5% of the Outstanding Principal Balance of the MBS Assets issued under any relevant MBS Transaction, the Outstanding Principal Balance of such MBS Notes shall be reduced for an amount equal to the aggregate Outstanding Principal Balance of such Non-Eligible Underlying Assets in excess of the above mentioned percentage. However, in the event of a termination of the Covered Bond Guarantor's obligation to purchase Further Portfolios in the circumstances indicated under the Master Transfer Agreement (see paragraph headed "*Master Transfer Agreement*" under the section headed "*Description of the Transactions Documents*"), the Seller (or any Additional Seller, as the case may be) will not be authorised to transfer new Eligible Assets and/or Integration Assets to the Covered Bond Guarantor and, as a consequence, the Nominal Value of the Portfolio may become lower than the aggregate Outstanding Principal Balance of the Covered Bonds.

Risk related to the market

Limited secondary market

Covered Bonds may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Covered Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Covered Bonds that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Covered Bonds generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Covered Bonds. In addition, Covered Bonds issued under the Programme might not be rated or listed on a stock exchange or regulated market and, in these circumstances, pricing information may be more difficult to obtain and the liquidity and market prices of such Covered Bonds may be adversely affected. In an illiquid market, an investor might not be able to sell his Covered Bonds at any time at fair market prices. The possibility to sell the Covered Bonds might additionally be restricted by country specific reasons. In addition, liquidity may be limited if the Issuer makes large allocations to a limited number of investors.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Covered Bonds in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Covered Bonds, (2) the Investor's Currency equivalent value of the principal payable on the Covered Bonds and (3) the

Investor's Currency equivalent market value of the Covered Bonds. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal and/or tax advisers to determine whether and to what extent (1) Covered Bonds are legal investments for it, (2) Covered Bonds can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Covered Bonds. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Covered Bonds under any applicable risk-based capital or similar rules.

DESCRIPTION OF THE ISSUER

History and organisation of the Intesa Sanpaolo Group

Intesa Sanpaolo Origins

Intesa Sanpaolo is the result of the merger by incorporation of Sanpaolo IMI S.p.A. with Banca Intesa S.p.A. (effective 1 January 2007).

Banca Intesa S.p.A.

Banca Intesa S.p.A. was originally established in 1925 under the name of La Centrale and invested in the business of the production and distribution of electricity. After the nationalisation of companies in this sector in the early 1960s, the company changed its name to La Centrale Finanziaria Generale, acquiring equity investments in various companies in the banking, insurance and publishing sector. The company merged by incorporation with Nuovo Banco Ambrosiano in 1985 and assumed its name and constitutional objects. Following the acquisition of Cassa di Risparmio delle Provincie Lombarde S.p.A. (**Cariplo**) in January 1998, the Intesa Sanpaolo Group's name was changed to Gruppo Banca Intesa. Then, in 2001, Banca Commerciale Italiana S.p.A. was merged into the Gruppo Banca Intesa and the Intesa Sanpaolo Group's name was changed to "Banca Intesa Banca Commerciale Italiana S.p.A.". On 1 January 2003 the corporate name was changed to "Banca Intesa S.p.A.".

Sanpaolo IMI S.p.A.

Sanpaolo IMI S.p.A. (**Sanpaolo IMI**) was formed in 1998 through the merger of Istituto Mobiliare Italiano S.p.A. (**IMI**) and Istituto Bancario San Paolo di Torino S.p.A. (**Sanpaolo**).

Sanpaolo originated from the "Compagnia di San Paolo" brotherhood, which was set up in 1563 to help the needy. The "Compagnia di San Paolo" began undertaking credit activities and progressively developed into a banking institution during the nineteenth century, becoming a public law credit institution (Istituto di Credito di Diritto Pubblico) in 1932. Between 1960 and 1990, Sanpaolo expanded its network nationwide through a number of acquisitions of local banks and medium-sized regional banks, ultimately reaching the level of a multifunctional group of national importance in 1991 after its acquisition of Crediop. On 31 December 1991, Sanpaolo became a stock corporation (*società per azioni*) with the name Istituto Bancario San Paolo di Torino Società per Azioni.

IMI was established as a public law entity in 1931 and during the 1980s it developed its specialist credit and investment banking services and, with Banca Fideuram, its professional asset management and financial consultancy services. IMI became a joint stock corporation (*società per azioni*) in 1991.

The merger between Banca Intesa and Sanpaolo IMI and the creation of Intesa Sanpaolo S.p.A.

The boards of directors of Banca Intesa and Sanpaolo IMI unanimously approved the merger of Sanpaolo IMI with Banca Intesa on 12 October 2006 and the merger became effective on 1 January 2007. The surviving entity changed its name to Intesa Sanpaolo S.p.A., the parent company of the Intesa Sanpaolo Group.

Intesa Sanpaolo in the last two years

Intesa Sanpaolo in 2019 – Highlights

During the first nine months of 2019, the corporate simplification process envisaged by the business plan continued according to the established schedule.

Specifically, the deed of merger by incorporation of Intesa Sanpaolo Group Services into Intesa Sanpaolo was signed on 11 January. The merger took effect with respect to third parties on 21 January 2019, while the operations conducted by the incorporated company were posted to the financial statements of the absorbing company, including for tax purposes, effective from 1 January 2019.

On 1 February 2019, the merger between Intesa Sanpaolo Private Banking (Suisse) S.A. and Banque Morval S.A. was completed. After obtaining the authorisations from the competent supervisory authorities, the new bank was renamed Intesa Sanpaolo Private Bank (Suisse) Morval S.A.. It was created to contribute to the strategic initiative outlined in the 2018-2021 business plan of the Intesa Sanpaolo Private Banking Division. The new company, which the London branch also reports to, is continuing the process of international expansion already begun by Fideuram – Intesa Sanpaolo Private Banking. The main branches (Geneva and Lugano) and the international network of private bankers will enable the expansion of the geographical footprint to high-potential countries, particularly in the Middle East and South America.

On 5 February 2019, the deeds were also signed for the merger by incorporation of Cassa di Risparmio di Pistoia e della Lucchesia into Intesa Sanpaolo, with an increase in the absorbing company's share capital of €64,511.72 through the issue of 124,061 ordinary shares without nominal value, and for the merger by incorporation of Cassa di Risparmio in Bologna and Cassa di Risparmio di Firenze. The legal effects of the transactions started from 25 February 2019, while the accounting and tax effects started from 1 January 2019.

On 15 January 2019, Intesa Sanpaolo published a press release with the following wording:

“With reference to recent news in the press regarding communication from the ECB to the banks supervised about their gradual reaching in the next few years of a coverage ratio of NPL stock in line with that set for inflows in the Addendum to the ECB Guidance on NPLs as of 1 April 2018, Intesa Sanpaolo does not envisage any significant impact in respect of targets and forecasts concerning its income statement and balance sheet for the 2018 financial year and the 2018-2021 Business Plan, already disclosed to the market.”

On 8 February 2019, Intesa Sanpaolo received notification of the ECB's final decision concerning the capital requirement that the Bank has to meet, on a consolidated basis, as of 1 March 2019, following the results of the Supervisory Review and Evaluation Process (SREP). The overall capital requirement ISP has to meet in terms of Common Equity Tier 1 ratio is 8.96% under the transitional arrangements for 2019 and 9.38% on a fully loaded basis.

The overall capital requirement ISP has to meet in terms of Common Equity Tier 1 ratio is 8.96% under the transitional arrangements for 2019 and 9.38% on a fully loaded basis.

In February 2019, Intesa Sanpaolo announced the invitation to the holders or beneficial owners of the following series of notes outstanding: (i) U.S.\$1,000,000,000 5.25% Section 3(a)(2) Notes Due 2024, (ii) U.S.\$1,250,000,000 3.875% Rule 144A Notes Due July 14, 2027, (iii) U.S.\$1,000,000,000 3.875% Rule 144A Notes Due 2028, and (iv) U.S.\$500,000,000 4.375% Rule 144A Notes Due 2048 or the global receipts representing beneficial interests in any Series of Notes issued through Citibank N.A. as the receipt issuer, to tender their notes for the cash purchase by the Issuer, as described in the Tender Offer Memorandum of 7 February 2019. The offers, not subject to any future issue on the capital markets, form part of the liability management transactions carried out by the Issuer. At the close of the transaction, the total nominal amount tendered and accepted was USD 2,100,761,000.

On 30 April 2019, the Ordinary Shareholders' Meeting of Intesa Sanpaolo – in addition to approving its financial statements, the allocation of the net income for the year and the distribution of the dividend to shareholders, the financial statements of the merged companies Intesa Sanpaolo Group Services and Cassa di Risparmio di Pistoia e della Lucchesia – appointed EY S.p.A. as the independent auditors for the financial years 2021-2029, determining their fee. The Shareholders' Meeting also appointed the members of the Board of Directors and the Management Control

Committee for financial years 2019-2021 on the basis of slates of candidates submitted by the shareholders.

The Shareholders' Meeting then passed specific resolutions on the remuneration and own shares. Specifically, it:

- approved the remuneration policies in respect of the Board of Directors of Intesa Sanpaolo;
- determined the remuneration of the Board of Directors;
- approved the remuneration and incentive policies for 2019 and voted in favour of the procedures used to adopt and implement the remuneration and incentive policies, as described in the Report on Remuneration;
- approved the increase in the variable-to-fixed remuneration cap for personnel operating exclusively in the Investment Management units belonging to Intesa Sanpaolo Group Asset Management entities, both in Italy and abroad;
- authorised the purchase and disposal of own shares to service the 2018 annual incentive plan.

Lastly, the Shareholders' Meeting approved the proposal for the settlement of the liability action brought against Alberto Guareschi and Roberto Menchetti in their capacity as former Chairman and former General Manager of Banca Monte Parma, with proceeds of €4.35 million.

On 2 May 2019, the Board of Directors unanimously appointed Carlo Messina as Managing Director and CEO, granting him the powers necessary and appropriate to ensure consistent management of Intesa Sanpaolo.

The first sell-back of high-risk loans deriving from the Venetian banks in compulsory administrative liquidation was launched on 11 May 2019, following notification of Intesa Sanpaolo on 11 March 2019 from the Ministry of the Economy and Finance of the issue of the decree formalising the high-risk guarantee for a total of €4 billion. The high-risk positions reclassified as "bad loans" and/or "unlikely to pay loans" were sold back for €456 million, calculated per the contract on the basis of the gross carrying value of the reclassified high-risk loans, less (i) provisions at the date of execution and (ii) 50% of the impairment losses which under IAS/IFRS the Intesa Sanpaolo Banking Group would have recognised had the Banks in compulsory administrative liquidation not had the obligation to purchase. Since the Intesa Sanpaolo Banking Group had already reclassified the loans in question as discontinued operations at a carrying amount consistent with the above consideration, no differences between the net value of the loans sold and their sell-back price emerged. As at 30 June 2019, discontinued operations included the residual high-risk loans classified in the interim as "bad loans" and/or "unlikely-to-pay loans" and to be sold back by the end of 2019.

On 14 May 2019, the deed was signed for the merger by incorporation of Banca Apulia S.p.A. into Intesa Sanpaolo, with the issue of 247,398 Intesa Sanpaolo ordinary shares bearing regular dividend rights, without nominal value, and an increase in share capital from 9,085,534,363.36 to 9,085,663,010.32. The deed of merger by incorporation of Banca Prossima S.p.A. into Intesa Sanpaolo was then signed on 24 May 2019. The legal effects of these two operations started on 27 May 2019 and were posted to the financial statements of the absorbing company from 1 January 2019 also for tax purposes. Lastly, the merger plan for the merger by incorporation of Mediocredito Italiano into the Issuer was filed on 14 June 2019. Such merger has been effective as at 11 November 2019.

As at 30 June 2019, discontinued operations included the residual high-risk loans classified in the interim as “bad loans” and/or “unlikely-to-pay loans” and to be sold back by the end of 2019.

As a result of the acquisition of certain assets and liabilities and certain legal relationships of the former Venetian banks in compulsory administrative liquidation and the resulting provisions of the European Competition Authority to the Italian government, in the agreements dated 13 July and 12 October 2017, the Intesa Sanpaolo Banking Group resolved to reduce staff by 4,000 resources (of which at least 1,000 within the scope of the former Venetian banks) by 30 June 2019.

As around 6,850 applications had been received, a number much higher than the 3,000 expected (in addition to the 1,000 applications regarding the former Venetian banks), also with a view to the business plan under preparation, the subsequent integration agreement of 21 December 2017 confirmed the acceptance of the “public offer” of the protocol dated 12 October 2017 for all staff that applied, extending the validity of the agreement for voluntary access to the Solidarity Fund to 30 June 2020.

The postponement of the exits to 30 June 2020 and the reduction in the average time drawing on the Solidarity Fund made it possible to optimise the charges for voluntary exits to be borne by the Intesa Sanpaolo Banking Group.

At the start of 2019, as a result of the effects of the legislative changes regarding pensions, the trade unions requested the assessment of the possibility of re-opening the terms for access to the Solidarity Fund and the retirement schemes set out in those agreements also to staff that, as a result of said legislative measures, could now fall within the scope of addressees of the protocol dated 12 October 2017.

In that context, without prejudice to the overall amounts allocated to the Solidarity Fund and the exits for retirement pursuant to the agreements of 13 July, 12 October and 21 December 2017, and considering the full completion of the process of integrating the businesses of the former Venetian banks which, as a result of the achievement of synergies improved the measurement of excess production capacity, the Group confirmed its willingness to permit the voluntary exits also of people who were previous excluded, as an alternative to the required professional reallocation envisaged in the business plan.

In order to allow for incentives for the retirement of up to 1,000 people and for up to 600 people to participate in the Solidarity Fund, the agreement extended to 30 June 2021 the option to access the Solidarity Fund.

In the second quarter, the Intesa Sanpaolo Banking Group carried out the voluntary realignment of some tax values. Specifically, Intesa Sanpaolo exercised the option set out in Law no. 145/2018 (Budget Act 2019) to realign tax values to their higher carrying amounts, with regard to owned real estate assets, for which values to realign were identified for €1,955.6 million. These mainly derive from the revaluations carried out starting with the 2017 financial statements, following the adoption of the criteria for revaluation of the value of owner-occupied properties (IAS 16) and of the fair value for investment property (IAS 40). These correspond to a substitute tax of €269.4 million. At consolidated level, the exercise of this option resulted in: i) the recognition of substitute tax of €269.4 million, of which €93.9 million posted to the income statement for the period and €175.5 million to shareholders' equity; ii) the derecognition of net deferred tax liabilities of €622.6 million, of which €217.1 million through profit or loss and €405.5 million through shareholders' equity, with a positive impact on the income statement of the period of € 123.2 million and an additional €230

million in shareholders' equity. The Board of Directors identified the share premium reserve in the financial statements to be classified as the suspended tax reserves, in an amount equal to the difference between the higher values realigned and the substitute tax due (€1,686.2 million), which will be subject to approval by the ordinary shareholders' meeting of Intesa Sanpaolo at the next possible meeting, presumably on approval of the 2019 Financial Statements.

On 31 July 2019, Intesa Sanpaolo and Prelios reached a binding agreement to form a strategic partnership in respect of loans classified as unlikely to pay (UTP).

The agreement reached with a leading player in the UTP segment, which adds to the strategic partnership with Intrum in respect of bad loans finalised in 2018, will enable the Intesa Sanpaolo Group to focus - also thanks to the redeployment of skilled employees, in the region of a few hundred people - on the proactive credit management of early delinquency loan portfolio (specifically, the Pulse initiative) using the best external platforms for the management of subsequent stages, and to further accelerate the achievement of the NPL reduction target set out in the 2018-2021 Business Plan.

The agreement consists of the two transactions outlined below.

- A 10-year contract for the servicing of UTP Corporate and SME loans of the Intesa Sanpaolo Group to be provided by Prelios initially covering a portfolio worth around €6.7 billion of gross book value, with terms and conditions in line with market standards and a fee structure mostly composed of a variable component specifically aimed at maximising the return of positions to performing status;

- the disposal and securitisation of a portfolio of UTP Corporate and SME loans of the Intesa Sanpaolo Group worth around €3 billion of gross book value, at a price of around €2 billion which is in line with the carrying value. Taking this disposal into consideration with reference to the figures as at the end of June 2019, the NPL to total loan ratio would be down from 8.4% to 7.6% gross, from 4.1% to 3.6% net, and the NPL reduction achieved in the first 18 months of the 2018-2021 Business Plan would be as much as around 80% of the target set for the entire four-year period, at no extraordinary cost to shareholders. The capital structure of the securitisation vehicle will be the following, in order to obtain full accounting and regulatory derecognition of the portfolio at the closing date:

- a Senior Tranche equivalent to 70% of the portfolio price, to be underwritten by Intesa Sanpaolo;
- Junior and Mezzanine Tranches equivalent to the remaining 30% of the portfolio price, to be underwritten to the tune of 5% by Intesa Sanpaolo and the remaining 95% by Prelios and third-party investors.

The finalisation of the transactions above is subject to authorisation being received from the competent authorities. The transactions are compliant with the Group's income statement and balance sheet targets and forecasts which have already been disclosed to the market for the 2019 financial year and the 2018-2021 Business Plan. They do not affect the strategic partnership in place with Intrum.

On 9 September 2019, Intesa Sanpaolo has received notification of the ECB's permission to calculate the Group's consolidated capital ratios applying the so-called Danish Compromise – under which insurance investments are risk weighted instead of being deducted from capital – as of the regulatory filings for 30 September 2019.

On 18 September 2019, Intesa Sanpaolo communicated that it concluded the ordinary share buy-back programme launched on 17 September 2019 and announced to the market in a press release dated 16 September 2019. The programme executes a plan that assigns, free of charge, ordinary shares of Intesa Sanpaolo to the Group's employees; this covers the share-based incentive plan for 2018 reserved for Risk Takers who accrue a bonus in excess of the so-called "materiality threshold", as well as for those who, among Managers or Professionals that are not Risk Takers, accrue "relevant bonuses". In addition, the programme has been implemented in order to grant, when certain conditions occur, severance payments to Risk Takers upon early termination of employment. The programme has been carried out in accordance with the terms approved at the Shareholders' Meeting of Intesa Sanpaolo on 30 April 2019. Moreover, the Bank's subsidiaries indicated in the aforementioned press release have concluded their purchase programmes of the Issuer's shares to be assigned, free of charge, to their employees. The programmes were approved by their respective corporate bodies within their remits and are analogous to the programme approved at the Issuer's Shareholders' Meeting.

In compliance with Article 113-*ter* of Legislative Decree 58 of 24 February 1998, Article 5 of the Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014, and Article 2 of the Commission Delegated Regulation (EU) 2016/1052 of 8 March 2016, details concerning the purchases executed are provided below. Information is also given by Intesa Sanpaolo on behalf of the aforementioned subsidiaries.

On the two days of execution of the programme (17 and 18 September 2019), the Intesa Sanpaolo Group purchased a total of 17,137,954 Intesa Sanpaolo ordinary shares through Banca IMI (now Corporate and Investment Banking Division post merger into Intesa Sanpaolo S.p.A.) (which was responsible for the programme execution). These represent approximately 0.10% of the share capital of Intesa Sanpaolo. The average purchase price was 2.129 euro per share, for a total countervalue of 36,481,543 euro. The Issuer purchased 12,393,958 shares at an average purchase price of 2.129 euro per share, for a countervalue of 26,388,935 euro.

Purchase transactions were executed in compliance with provisions included in Articles 2357 and following and 2359-*bis* and following of the Italian Civil Code and within the limits of number of shares and consideration as determined in the resolutions passed by the competent corporate bodies. Pursuant to Article 132 of *TUF* and Article 144-*bis* of the Issuers' Regulation and subsequent amendments, purchases were executed on the regulated market MTA managed by Borsa Italiana in accordance with trading methods laid down in the market rules for these transactions.

Moreover, purchases have been arranged in compliance with the conditions and the restrictions under Article 5 of the Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014, and Articles 2, 3, and 4 of the Commission Delegated Regulation (EU) 2016/1052 of 8 March 2016.

The total number of shares purchased and, therefore, the daily volume of purchases executed, did not exceed 25% of the daily average volume of the Intesa Sanpaolo ordinary shares traded in August 2019, which was equal to 127.3 million shares.

On 26 November 2019, Intesa Sanpaolo has received notification of the ECB's final decision concerning the capital requirement that the Bank has to meet, on a consolidated basis, as of 1 January 2020, following the results of the Supervisory Review and Evaluation Process (SREP).

The overall capital requirement the Bank has to meet in terms of Common Equity Tier 1 ratio is 9.18% under the transitional arrangements for 2020 and 9.38% on a fully loaded basis.

This is the result of:

- a SREP requirement in terms of Total Capital ratio of 9.5% comprising a minimum Pillar 1 capital requirement of 8%, of which 4.5% is Common Equity Tier 1 ratio, and an additional Pillar 2 capital requirement of 1.5% made up entirely of Common Equity Tier 1 ratio;
- additional requirements, entirely in terms of Common Equity Tier 1 ratio, relating to:
 - a Capital Conservation Buffer of 2.5% on a fully loaded basis from 2019,
 - an O-SII Buffer (Other Systemically Important Institutions Buffer) of 0.56% under the transitional arrangements for 2020 and 0.75% on a fully loaded basis in 2021,
 - a Countercyclical Capital Buffer of 0.1%²

Intesa Sanpaolo's capital ratios as at 30 September 2019 on a consolidated basis - net of €2,648 million dividends accrued in the first nine months of 2019 - were as follows:

- 14% in terms of Common Equity Tier 1 ratio^{3 4}
 - 17.8% in terms of Total Capital ratio^{5 6}
- calculated by applying the transitional arrangements for 2019, and
- 14.2% in terms of pro-forma Common Equity Tier 1 ratio calculated on a fully loaded basis^{5 5}
 - 18.2% in terms of pro-forma Total Capital ratio calculated on a fully loaded basis^{5 7}

On 3 December 2019, concerning the Prelios agreement, Intesa Sanpaolo published a press release with the following wording:

"Having received the required authorisations from the relevant authorities, Intesa Sanpaolo and Prelios have finalised the agreement concerning the strategic partnership in respect of loans classified as unlikely to pay (UTP), which was signed on 31 July 2019 and disclosed to the market on the same day. The agreement consists of a contract for servicing activities to be provided by Prelios aimed at maximising the return of positions to performing status and the disposal and securitisation of a portfolio, in respect of UTP Corporate and SME loans of the Intesa Sanpaolo Group."

On 19 December 2019, Intesa Sanpaolo and Nexi reached a strategic agreement which provides for:

- the transfer to Nexi of the Intesa Sanpaolo business line consisting of the acquiring activities currently carried out for over 380,000 points of sale, with Intesa Sanpaolo retaining the sale force dedicated to acquiring new customers; and

² Calculated taking into account the exposures as at 30 September 2019 in the various countries where the Group has a presence, as well as the respective requirements set by the competent national authorities and relating either to 2019-2020, where available, or to the latest update of the reference period (requirement was set at zero percent in Italy for 2019).

³ After the deduction of accrued dividends, equal to 80% of net income for the first nine months of the year, and the coupons accrued on the Additional Tier 1 issues.

⁴ Excluding the mitigation of the impact of the first time adoption of IFRS 9, capital ratios are 13.1% for the Common Equity Tier 1 ratio and 17.1% for the Total Capital ratio.

⁵ Estimated by applying the fully loaded parameters to the financial statements as at 30 September 2019, taking into account the total absorption of deferred tax assets (DTAs) related to goodwill realignment, loan adjustments, the first time adoption of IFRS 9 and the non-taxable public cash contribution of €1,285 million covering the integration and rationalisation charges relating to the acquisition of the Aggregate Set of Banca Popolare di Vicenza and Veneto Banca, the expected absorption of DTAs on losses carried forward and the expected distribution of the 9M 2019 net income of insurance companies that exceeds the amount of reserves already distributed in the first quarter.

- a long-term partnership, with Nexi to become the sole partner of Intesa Sanpaolo in the acquiring activities and the latter to distribute the acquiring services provided by Nexi and maintain the relationship with its customers.

The strategic agreement was finalised on 30 June 2020 after having obtained the necessary authorisations from the competent authorities. Pursuant to the agreement, the business line was transferred through contribution to a Nexi subsidiary for €1,000 million. Intesa Sanpaolo sold the shares received from the contribution to Nexi for a corresponding cash consideration and then used part of this consideration to purchase shares of Nexi from the latter's reference shareholder, Mercury UK HoldCo Limited, for an amount of €653 million, equal to a 9.9% shareholding of Intesa Sanpaolo in the share capital of Nexi.

The transaction enables Intesa Sanpaolo to extract proper value from the acquiring activities currently carried out internally, through the contribution of its business line – taking into account that operating efficiently in this sector, in a competitive scenario of international scope, requires greater investment and economies of scale – while retaining an interest in a business with significant growth prospects.

In 2018, the business activities contributed to Nexi generated operating income of around €74 million, operating margin of around €72 million and net income of around €48 million.

The transaction generates a net capital gain in the region of €1.1 billion for the Intesa Sanpaolo Group's consolidated income statement in the second quarter of 2020. This figure has been calculated including the effect attributable to the difference between the purchase price of the 9.9% of the Nexi share capital and the corresponding value resulting from the stock exchange price of the Nexi shares. This capital gain might not be reflected in the net income entirely if, over the course of 2020, allocations are identified that are appropriate to strengthen sustainable profitability.

Intesa Sanpaolo in 2020 – Highlights

Integration of the UBI Group.

The acceptance period for the voluntary public purchase and exchange offer (below “Offer” or “Public Offer”) launched by Intesa Sanpaolo for a maximum of 1,144,285,146 ordinary shares of Unione di Banche Italiane S.p.A. (“UBI Banca”), representing all subscribed and paid-in share capital, ended on 30 July 2020. The private placement of UBI Banca shares reserved for “qualified institutional buyers” launched by Intesa Sanpaolo in the United States also ended on that date (the “Private Placement”).

Detailed information about the Offer is provided in the offer document, the information document and all the legally-required documentation made available, together with the individual announcements made regarding the progress of the Offer and its outcome. The Offer was amended on 17 July 2020 following the increase in the consideration per share, through the establishment of a cash consideration of €0.57 for each UBI Banca share tendered in acceptance, and that the acceptance period was extended ex officio by CONSOB from 28 July 2020 to 30 July 2020, pursuant to Article 40, paragraph 4, of the Issuers' Regulation, through Resolution No. 21460 of 27 July 2020.

Furthermore, to prevent possible antitrust concerns, on 17 February 2020 Intesa Sanpaolo and BPER Banca (below also “BPER”) entered into a binding agreement, conditional on the success of the Public Offer (“BPER Agreement”), which provides for the purchase by BPER of a going concern consisting of a pool of branches of the entity resulting from the combination of Intesa Sanpaolo with UBI Banca. The original agreement provided for the sale of around 400/500 branches of the combined entity and the related assets and liabilities for a consideration equal to a multiple of 0.55 times the CET 1 of UBI Banca allocated to the branches identified as being subject of the sale. Subsequently, to take appropriate account of the economic situation generated by the outbreak of the COVID-19 pandemic, and following discussions held between Intesa Sanpaolo and BPER, the pricing mechanism described above was modified by establishing a consideration for the above-mentioned going concern equal to 0.38 times the value of the fully-loaded CET 1 at the reference

date allocated to the risk-weighted assets of the branches to be sold. In order to remove the specific antitrust concerns raised by the Italian Antitrust Authority (“AGCM”), on 15 June 2020 Intesa Sanpaolo negotiated and signed an agreement supplementing the BPER Agreement under which the number of branches to be transferred was increased (from 400/500 to 532, of which 501 of UBI Banca and 31 of Intesa Sanpaolo) with the precise identification of the details and consequent redefinition of the estimated values. By decision adopted at the meeting of 14 July 2020 and notified to Intesa Sanpaolo on 16 July 2020, AGCM approved the transaction for the acquisition of control of UBI Banca subject to the execution of structural sales in accordance with the BPER Agreement and the commitments made by Intesa Sanpaolo. Through a specific press release on 30 September 2020, it was announced that the parties had identified as the period currently envisaged for the closing of the sale to BPER the second half of February 2021 with regard to the UBI Banca branches and the second quarter of 2021 with regard to the Intesa Sanpaolo branches.

Based on the final results – announced to the market on 3 August 2020 – a total of 1,031,958,027 UBI Banca shares were tendered in acceptance of the Offer during the acceptance period (including those tendered in acceptance through the Private Placement), equal to approximately 90.184% of the share capital of UBI Banca. As a result of the settlement of the Offer (and of the Private Placement) and on the basis of the results of the Offer (and of the Private Placement), the offeror came to hold a total of 1,041,458,904 UBI Banca shares, representing approximately 91.0139% of the share capital of UBI Banca, given that (i) the offeror Intesa Sanpaolo held, directly and indirectly (including through fiduciary companies or nominees) a total of 249,077 ordinary shares of the Issuer, equal to 0.0218% and (ii) UBI Banca held 9,251,800 own shares equal to 0.8085% of the share capital of the Issuer.

Lastly, acceptances “with reserves” were also received in respect of a total number of 334,454 UBI Banca shares from 103 acceptors. These acceptances have not been counted for determining the percent acceptance of the Offer. Based on the final results indicated above, the Percentage Threshold Condition (i.e. the condition that the offeror comes to hold an overall interest at least equal to 66.67% of the Issuer’s share capital) was fulfilled and all the other conditions precedent of the Offer were fulfilled or, as the case may be, waived by Intesa Sanpaolo. As a result, the Offer was effective and was able to be completed.

On 5 August 2020, in exchange for the transfer of the ownership of the UBI Banca shares, Intesa Sanpaolo issued and assigned the acceptors of the Offer a total of 1,754,328,645 new Intesa Sanpaolo shares, representing 9.107% of the share capital of Intesa Sanpaolo, based on the ratio of 1.7000 Intesa Sanpaolo shares to 1 UBI Banca share. In addition, on 19 August 2020, Intesa Sanpaolo paid the entitled parties the cash consideration (i.e. €0.57 for each UBI Banca share tendered in acceptance) which amounted to a total of €588,216,075.39.

The interest held directly or indirectly by Intesa Sanpaolo in the share capital of UBI Banca at the end of the acceptance period was more than 90%, but less than 95%, which meant that the conditions were met for the compulsory squeeze-out pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, with Intesa Sanpaolo having already declared in the offer document that it would not implement measures to restore the minimum free float conditions for normal trading of the UBI Banca ordinary shares. Therefore, pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, Intesa Sanpaolo was required to purchase the remaining ordinary shares from the shareholders of UBI Banca who requested it, for a total amount of 112,327,119 UBI Banca shares and representing 9.8163% of the share capital. The consideration per remaining share, identified in accordance with the provisions of Article 108, paragraphs 3 and 5, of the Consolidated Law on Finance, was determined as follows:

- a consideration equal to that offered to the acceptors of the Public Purchase and Exchange Offer, namely 1.7000 newly issued Intesa Sanpaolo ordinary shares and €0.57 for each UBI Banca share tendered in acceptance; or, alternatively,
- only to the shareholders so requesting, a cash consideration in full whose amount for each UBI Banca share, calculated in accordance with Article 50-ter, paragraph 1, letter a) of the Issuers’ Regulations, was equal to the sum of (x) the weighted average of the official prices of the ISP

shares recorded on the Mercato Telematico Azionario (electronic stock exchange) during the five trading days prior to the payment date (i.e. on 29, 30 and 31 July, and 3 and 4 August 2020) multiplied by the exchange ratio (€2.969) and (y) €0.57, for a total consideration of €3.539 per remaining share.

The compulsory squeeze-out procedure, pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, which was carried out between 24 August and 11 September 2020, resulted in sale requests for a total of 90,691,202 remaining shares, representing 7.9256% of the share capital of UBI Banca and 80.7385% of the remaining shares. With reference to the 90,691,202 remaining shares:

- for 87,853,597 remaining shares, the owners have requested the consideration established for the Public Offer; and
- for the other 2,837,605 remaining shares, the owners have requested the cash consideration in full, i.e. 3.539 per remaining share.

Taking into account (a) the 1,031,958,027 shares tendered in acceptance of the Offer, (b) the 90,691,202 remaining shares purchased through the procedure pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, (c) the 131,645 ordinary shares of the Issuer held directly or indirectly by Intesa Sanpaolo and (d) the 8,903,302 own shares held by UBI Banca, Intesa Sanpaolo, following the procedure pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, came to hold a total of 1,131,684,176 UBI Banca shares, equal to 98.8988% of the share capital of UBI Banca. Intesa Sanpaolo made the payment of the consideration for the compulsory squeeze-out pursuant to Article 108 paragraph 2 of the Consolidated Law on Finance on 17 September 2020 through:

- the issuance of 149,351,114 new Intesa Sanpaolo shares, representing 0.77% of the bank's share capital, and the payment of a consideration of €50,076,550.29 to the accepting shareholders who chose the consideration established for the Offer;
- the payment of €10,042,284.10 for the accepting shareholders that requested the cash consideration in full.

Subsequent to the procedure pursuant to Article 108, paragraph 2 of the Consolidated Law on Finance, Intesa Sanpaolo, having come to hold more than 95% of the share capital of UBI Banca, exercised its right of squeeze-out pursuant to Article 111 of the Consolidated Law on Finance and, at the same time, carried out the compulsory squeeze-out pursuant to Article 108, paragraph 1 of the Consolidated Law on Finance for the shareholders of UBI Banca that requested it, through a specific joint procedure that, as agreed with CONSOB and Borsa Italiana (the "Joint Procedure"), was carried out in the period 18 - 29 September 2020. The Joint Procedure targeted a maximum of 21,635,917 UBI Banca residual shares. The consideration established in the Joint Procedure was the same as that paid for the shares purchased in the procedure pursuant to Article 108, paragraph 2 of the Consolidated Law on Finance. During the Joint Procedure, sale requests were submitted for a total of 3,013,070 remaining shares, i.e. 13.9262% of the shares subject to the procedure.

More specifically:

- for 408,474 shares, the owners requested the consideration established for the Public Offer; and
- for the other 2,604,596 shares, the owners requested the cash consideration in full, i.e. 3.539 per remaining share.

No sale requests were submitted by the owners of the 18,622,847 remaining shares. Such residual shares also include 8,877,911 own shares (representing 0.7758% of the Issuer's share capital) held by UBI Banca and 120,985 UBI Banca ordinary shares held on own account by Intesa Sanpaolo before 17 February 2020, the announcement date of the Offer. The UBI Banca own shares and UBI Banca ordinary shares held on own account by Intesa Sanpaolo were not transferred to Intesa

Sanpaolo under the Joint Procedure. Intesa Sanpaolo made the payment of the consideration for the Joint Procedure on 5 October 2020 through:

- the issuance of 17,055,121 new Intesa Sanpaolo shares, representing 0.09% of the bank's share capital and the payment of a consideration of €5,718,482.25 to the accepting shareholders who chose the consideration established for the Offer and to the shareholders that did not submit any sale requests;
- the payment of €9,217,655.24 for the accepting shareholders that requested the cash consideration in full.

Following the conclusion of the Joint Procedure, Intesa Sanpaolo came to hold 100% of the share capital of UBI Banca.

Lastly, with resolution no. 8693 of 17 September 2020, Borsa Italiana ordered the delisting of UBI Banca shares from trading on the Mercato Telematico Azionario (electronic stock exchange) as of 5 October 2020 (settlement date of the Joint Procedure), subject to suspension of the share during the sessions of 1 and 2 October 2020.

Merger of Banca IMI

Intesa Sanpaolo announced on 2 April 2020 that following authorisation given by the European Central Bank, the plan for the merger by incorporation of Banca IMI S.p.A. into Intesa Sanpaolo was filed with the Companies Register of Turin. The merger, which was approved by the Board of Directors of Intesa Sanpaolo on 5 May 2020 and by the shareholders' meeting of Banca IMI, was completed on 20 July 2020.

2020 Annual General Meeting

On 27 April 2020, the annual general meeting of the shareholders of Intesa Sanpaolo approved, inter alia, the parent company's 2019 financial statements and, further to the Board of Directors' decision to suspend the proposal regarding dividend distribution to shareholders, allocation to reserves of the net income for the 2019 financial year. The shareholders' meeting also resolved to grant powers to the Board of Directors to implement a share capital increase by 31 December 2020 by a maximum total amount of €1,011,548,072.60 to serve the UBI Banca voluntary public exchange offer.

Agreement with Trade Unions in respect of at least 5,000 voluntary exits and up to 2,500 new hires by 2023

On 30 September 2020 Intesa Sanpaolo announced that Intesa Sanpaolo signed an agreement with the national Secretariats and Group Trade Delegations FABI, FIRST CISL, FISAC/CGIL, UILCA and UNISIN, which aims at enabling generational change at no social cost, while continuing to ensure an alternative to the possible paths for staff reskilling and redeployment as well as the enhancement of the skills of people of the Intesa Sanpaolo Group resulting from the acquisition of UBI Banca finalised on 5 August 2020.

The agreement identifies ways and criteria to reach the target of at least 5,000 exits on a voluntary basis by 2023, with Intesa Sanpaolo Group's people either to retire or access the solidarity fund.

Furthermore, by 2023, indefinite-term employment contracts will be signed according to the proportion of one hire for each two voluntary exits, up to 2,500 hires, against a minimum of 5,000 envisaged voluntary exits, a calculation which does not include the exits of people who will be moved due to the transfers of business lines. The new hires will support the Intesa Sanpaolo Group's growth and its new activities, with a focus on the branch Network and on the disadvantaged areas of the country, including through the "stabilisation" of people currently on fixed-term contracts. The Intesa Sanpaolo Group envisages that at least half of the hires will concern the provinces in which UBI Banca has its historical roots (Bergamo, Brescia, Cuneo and Pavia) and the South of Italy. The

agreement has been signed well ahead of the deadline originally planned for year-end, thus highlighting the effective progress of the integration process.

Specifically, the agreement provides that:

- the offer relating to the voluntary exits is addressed to all the people of the Intesa Sanpaolo Group's Italian companies which apply the CCNL Credito (bank employees National Collective Labour Contract), including the managers;
- people who meet the retirement requirements by 31 December 2026, including by applying the so-called calculation rules "Quota 100" and "Opzione donna", may subscribe to the offer in accordance with the ways communicated by the Group;
- people who subscribed to the Intesa Sanpaolo 29 May 2019 Agreement or the UBI 14 January 2020 Agreement but were not included in the lists can submit requests for voluntary exit under defined terms;
- in the event that applications for retirement or access to the Solidarity Fund are in excess of the number of 5,000, a single list will be drawn up at Group level based on the date when the retirement requirement is met. The list will give priority to those people who have previously subscribed to the former Intesa Sanpaolo Group 29 May 2019 agreement or to the former UBI Group 14 January 2020 agreement and have not been included among the envisaged exits, as well as to people entitled to provisions under art. 3, paragraph 3 of Law 104/1992 for themselves, and to disabled people with a disability of at least 67%.

The overall capital requirement the Bank has to meet in terms of Common Equity Tier 1 ratio is 8.44% under the transitional arrangements for 2020 and 8.63% on a fully loaded basis.

This is the result of:

- a SREP requirement in terms of Total Capital ratio of 9.5% comprising a minimum Pillar 1 capital requirement of 8%, of which 4.5% is Common Equity Tier 1 ratio, and an additional Pillar 2 capital requirement of 1.5%, of which 0.844% is Common Equity Tier 1 ratio applying the regulatory amendment introduced by the ECB and effective from 12 March 2020;
- additional requirements, entirely in terms of Common Equity Tier 1 ratio, relating to:
 - a Capital Conservation Buffer of 2.5% on a fully loaded basis from 2019,
 - an O-SII Buffer (Other Systemically Important Institutions Buffer) of 0.56% under the transitional arrangements for 2020 and 0.75% on a fully loaded basis in 2021,
 - a Countercyclical Capital Buffer of 0.032% under the transitional arrangements for 2020 and 0.037% on a fully loaded basis in 2021 ⁽¹⁾.

Intesa Sanpaolo's capital ratios as at 30 September 2020 on a consolidated basis - net of around €2.3 billion dividends accrued in the first nine months of 2020 - were as follows:

- 14.7% in terms of Common Equity Tier 1 ratio ⁽²⁾⁽³⁾
 - 19.6% in terms of Total Capital ratio ⁽²⁾⁽³⁾
- calculated by applying the transitional arrangements for 2020, and
- 15.2% in terms of pro-forma Common Equity Tier 1 ratio calculated on a fully loaded basis ⁽²⁾⁽⁴⁾
 - 20.6% in terms of pro-forma Total Capital ratio calculated on a fully loaded basis ⁽²⁾⁽⁴⁾.

(1) Calculated taking into account the exposures as at 30 September 2020 in the various countries where the Group has a presence, as well as the respective requirements set by the competent national authorities and relating either to 2020-2021, where available, or to the latest update of the reference period (requirement was set at zero per cent in Italy for 2020).

(2) After the deduction of accrued dividends, equal to 75% of net income for the first nine months of the year excluding the negative goodwill, and the coupons accrued on the Additional Tier 1 issues.

(3) Excluding the mitigation of the impact of the first time adoption of IFRS 9, capital ratios are 14% for the Common Equity Tier 1 ratio and 19.2% for the Total Capital ratio.

(4) Estimated by applying the fully loaded parameters to the financial statements as at 30 September 2020, taking into account the total absorption of deferred tax assets (DTAs) related to goodwill realignment, to an

adjustments, the first time adoption of IFRS 9 and the non-taxable public cash contribution of €1,285 million covering the integration and rationalisation charges relating to the acquisition of the Aggregate Set of Banca Popolare di Vicenza and Veneto Banca, the expected absorption of DTAs on losses carried forward and on the sale of the going concern to BPER Banca in relation to the acquisition of UBI Banca, and the expected distribution of the 9M 2020 net income of insurance companies.

Disposal and state-guarantee securitization of a bad loan portfolio of the parent company

On 18 December 2020 Intesa Sanpaolo finalised a securitisation of a bad-loan portfolio of the Bank, which was previously sold to a vehicle under Law 130/99, worth around €4.3 billion gross and around €1.2 billion net. This securitisation complies with the regulatory requirements for bearing a guarantee of the Republic of Italy (GACS).

The securitisation vehicle has as at the date of this Base Prospectus issued senior notes equivalent to 81% of the portfolio price and subordinated notes for the remaining 19%. The senior notes have been fully underwritten, and will be retained, by Intesa Sanpaolo. These notes, which have received an investment grade rating from DBRS Morningstar (BBB), Moody's (Baa2) and Scope Ratings (BBB), are expected to bear a GACS by the first quarter of 2021.

The subordinated notes, underwritten by Intesa Sanpaolo as well, will be sold to the tune of 95% to third party investors with Intesa Sanpaolo retaining the remaining 5% in compliance with current regulatory requirements in order to obtain full accounting and regulatory derecognition of the portfolio at the date of finalisation of the notes sale, which is expected to take place by the end of 2020.

The transaction, which envisages a disposal price of the portfolio - also taking the disposal price of the notes into account - in line with the carrying value, enables Intesa Sanpaolo, one year early, to exceed its 2018- 2021 Business Plan target of halving, at no extraordinary cost to shareholders, gross NPLs to €26.4 billion and the gross NPL ratio to 6% in the four years. Considering the Intesa Sanpaolo Group's figures as at the end of September 2020 excluding UBI Banca, the finalisation of the notes sale results in gross NPLs at €24.6 billion and gross NPL ratio at 5.9%.

Sovereign risk exposure

As at 30 September 2020, Intesa Sanpaolo Group's exposure in securities to Italian sovereign debt - including the insurance business - amounted to a total of €93,353 million, in addition to receivables for €9,795million. The security exposures increased compared to €85,826million as at the 31 December 2019.

Legal Proceedings

Disputes relating to anatocism and other current account and credit facility conditions, as well as usury

In 2019, the disputes of this type – which for many years have been a significant part of the civil disputes brought against the Italian banking industry – decreased both in number and in total value of claims made compared to the previous year. Overall, the remedy sought with likely risk, including mediations, amounted to around €475 million with provisions of €134 million. As is the case for the

other civil disputes, the assessment of the risk related to this type of litigation is carried out individually, taking into account the claims made, the defences submitted, the progress of the proceedings and case-law decisions, for each dispute.

You are reminded that in 2014 and 2016, Article 120 of the Consolidated Law on Banking, which governs the compounding of interest in banking transactions, was amended with the establishment of the ban on anatocism and the delegation of the CICR (Interdepartmental Committee for Credit and Savings) to regulate this matter. In February 2017, the Italian Antitrust Authority initiated proceedings against Intesa Sanpaolo for alleged unfair business practices involving, among other things, the methods used to request the above-mentioned authorisation from customers for the charging of the interest to the account imposed by the new regulations introduced in 2016. The Authority completed the proceedings in October 2017, ruling that Intesa Sanpaolo had implemented an “aggressive” policy aimed at acquiring the authorisation, by soliciting customers to provide it through various means of communications and without putting them in a position to consider the consequences of that choice in terms of the interest calculation on the compounded debt interest. As a result, the Authority issued a fine of €2 million against Intesa Sanpaolo. Intesa Sanpaolo has submitted an appeal with the Lazio Regional Administrative Court, on the grounds that the ruling was unfounded. The proceedings are still pending

Disputes relating to investment services

Disputes relating to investment services – Also in this area, the disputes decreased in terms of number compared to the previous year. The most significant sub-group was disputes concerning derivatives, which remained substantially stable in number and value, but were nevertheless not significant in amount overall. The total remedy sought for the disputes with likely risk for this type of litigation amounted to around €150 million with provisions of €51 million. As is the case for the other civil disputes, the assessment of the risk related to this type of litigation is carried out individually, taking into account the claims made, the defences submitted, the progress of the proceedings and the case-law guidance, for each dispute

Disputes relating to loans in CHF against the Croatian subsidiary Privredna Banka Zagreb Dd

As already noted in the financial statements for the years 2013-2015, Privredna Banka Zagreb (“PBZ”) and seven other Croatian banks were jointly sued by the plaintiff Potrošač (Croatian Union of the Consumer Protection Association), which claimed - in relation to loans denominated or indexed in Swiss francs granted in the past – that the defendants engaged in an unfair practice by allegedly using unfair contractual provisions on variable interest rate changed unilaterally by the banks and by linking payments in local currency to Swiss franc, without (allegedly) appropriately informing the consumers of all the risks prior to entering into a loan agreement.

In September 2019, the Croatian Supreme Court rendered a ruling in the collective action proceedings, rejecting the appeals filed by the sued banks against the High Commercial Court ruling from 2018 and confirming the position of courts of lower instance that banks had breached collective interests and rights of consumers by incorporating unfair and null and void provisions on CHF currency clause.

Being of the opinion that the claim does not have meritorious grounds, PBZ filed a constitutional complaint against the decision reached by the Supreme Court of the Republic of Croatia. In connection with the mentioned proceedings for the protection of the collective interests of consumers, numerous individual proceedings have been brought by clients against PBZ, despite the fact that most of them voluntarily accepted the offer to convert their CHF loans into EUR denominated loans retroactively, in accordance with the Act on the Amendments to the Consumer Credit Act (Croatian Official Gazette 102/2015).

In 2019, the number of such individual lawsuits filed against PBZ increased to a low single digit thousands. It cannot be excluded the possibility that additional lawsuits might be filed against PBZ in the future in connection with CHF loans. The amount of provisions recognized as at 31 December

2019 is reasonably adequate – according to available information to meet the obligations arising from the claims filed against the subsidiary so far.

In March 2020, the Croatian Supreme Court, within a model case proceedings (a Supreme Court proceedings with obligatory effect on lower instance courts with the aim of unifying/harmonising case law), ruled that the conversion agreements concluded between banks and borrowers under the Croatian Conversion Law of 2015 produce legal effects and are valid even in the case when the provisions of the underlying loan agreements on variable interest rate and currency clause are null and void. Such decision is binding on all Croatian courts and will positively impact the individual proceedings related to converted loans in Swiss francs (or indexed to that currency), which should be settled, then, in favour of the Croatian subsidiary.

ENPAM lawsuit

In June 2015 Fondazione ENPAM – Ente Nazionale di Previdenza ed Assistenza dei Medici e degli Odontoiatri (ENPAM) sued Cassa di Risparmio di Firenze (subsequently merged into Intesa Sanpaolo), along with other defendants including JP Morgan Chase & Co and BNP Paribas, before the Court of Milan. ENPAM's claims related to the trading (in 2005) of several complex financial products, and the subsequent "swap" (in 2006) of those products with other similar products; the latter were credit linked notes, i.e. securities whose repayment of principal at maturity was tied to the credit risk associated with a tranche of a synthetic CDO. Due to the defaults on the CDO portfolio, the investment allegedly resulted in significant losses.

In the writ of summons, ENPAM submitted several petitions for enquiries and rulings, in particular for contractual and tort liability and breach of Articles 23, 24 and 30 of the Consolidated Law on Finance, asking for the repayment of an amount of around €222 million and compensation for damages on an equitable basis; the part relating to Cassa di Risparmio di Firenze's position should be around €103 million (plus interest and purported additional damages). Cassa di Risparmio di Firenze was sued as the transferee of the Italian branch of Cortal Consors S.A. (subsequently merged into BNP Paribas), which had provided ENPAM with the investment services within which the above-mentioned securities had been subscribed.

Cassa di Risparmio di Firenze raised various objections at the preliminary stage (including a lack of standing to be sued and the time bar). On the merits, it argued, among other positions, that the provisions of the Consolidated Law on Finance cited were not applicable and that there was no evidence of the damages. If an unfavourable judgement is rendered, Cassa di Risparmio di Firenze has requested that the court determine its internal share of the total liability of the defendants and that the other defendants be ordered to hold it harmless.

In February 2018, the judge ordered a court-appointed expert's review aimed at determining, among other matters:

- whether the securities were fit for the purpose indicated in the entity's Charter and Investment Guidelines;
- the difference, if any, between the performance achieved by ENPAM and the performance that would have resulted if other investments consistent with the entity's Charter and Investment Guidelines had been undertaken (also considering the need for diversification of the risk).

In December 2019, the court-appointed expert submitted the draft report, which compared the return generated by the securities purchased with that of a hypothetical "counterfactual scenario" of the purchase of securities in line with those indicated in the entity's Charter and the Guidelines and found that the damage in terms of principal for the security that Cassa di Risparmio di Firenze was involved in trading was allegedly €14.1 million, which, together with interest, amounted to around €15 million or €18.7 million (depending on the calculation method used).

Following the filing of the court-appointed expert's report, at the hearing of 4 June 2020 the judge presented a settlement proposal to the parties. After negotiations between the parties, the Chairman of ENPAM's Board of Directors informed JP Morgan Chase, BNP Paribas and Intesa Sanpaolo that he was willing to settle the dispute for an amount slightly lower than that proposed by the judge. This solution was accepted by the three banks; Intesa Sanpaolo's share was limited to the amount that had been provisioned the previous year precisely in view of a possible settlement.

As a consequence, the judge adjourned the case until 21 October 2020 to allow the settlement agreement to be finalised.

Florida 2000

In 2018, Florida 2000 s.r.l. (together with two directors of the company) challenged the legitimacy of the contractual terms and conditions applied to the accounts held with the Bank, requesting that the latter be ordered to pay back €22.6 million in interest and fees that were not due, plus compensation for damages quantified as an additional amount of €22.6 million.

Based on the results of the court-appointed expert review and case-law, it appears likely that the claim for repayment of the sums involved will be upheld, but only for a very small amount, whereas the claim for damages is unlikely to be upheld.

The case is now pending a decision by the court.

Alitalia Group: Claw-back actions

In August 2011, companies of the Alitalia Group – namely Alitalia Linee Aeree, Alitalia Servizi, Alitalia Airport and Alitalia Express – brought five bankruptcy claw-back proceedings against the Bank before the Court of Rome, requesting the repayment of a total of €44.6 million.

When the proceedings were initiated, a line of defence was adopted based mainly on the grounds that the actions were invalid due to the vagueness of the claims, that the condition of knowledge of the Alitalia Group's state of insolvency (subject first of the Air France plan and then of the subsequent rescue conducted by the Italian Government) did not apply, and that the credited items were not eligible for claw back, due to the specific nature of the account movements.

In March 2016, the Court of Rome upheld Alitalia Servizi's petition and ordered the Bank to repay around €17 million, plus accessory costs. In addition to being contestable on the merits, the ruling was issued before the deadline for filing of the final arguments.

Accordingly, in the appeal subsequently lodged, a preliminary objection was made regarding the invalidity of the judgment, together with an application for suspension of its provisional enforceability, which was upheld by order of 15 July 2016 of the Court of Appeal. The final arguments have been filed in the case and the judgment is pending. In contrast, the Bank won the Alitalia Linee Aeree and Alitalia Express cases at first instance and the appeal proceedings are underway, whereas for Alitalia Airport, which was also won at first instance, the favourable judgment has become final.

The lawsuit against the former Cassa di Risparmio di Firenze also ended favourably on first instance and is now pending an appeal.

Tirrenia di Navigazione in A.S. (Extraordinary Administration): Claw-back actions

In July 2013, Tirrenia di Navigazione in A.S. filed two bankruptcy claw-back actions before the Court of Rome against the former Cassa di Risparmio di Venezia for €2.7 million and against the former Banco di Napoli for €33.8 million.

In both cases, the plaintiff claimed that there was knowledge of the state of insolvency for the entire half year prior to admission to extraordinary administration on the basis of media reports, the non-renewal of shipping concessions, the absence of state subsidies (because they were considered state aid), and the information from the central credit register.

The claim was quantified on the same basis as the so-called “return of profits” earned on Tirrenia’s accounts, corresponding to the difference between the maximum debt exposure and the final balance of the accounts generated in the half year prior to the declaration of insolvency. The case against the former CR Venezia was concluded at first instance in 2016 with an order for payment of €2.8 million and is pending an appeal brought by the Bank. In the case against the former Banco di Napoli, the most significant dispute concerns a currency adjustment of €28 million, whose recognition has a substantial impact on the total amounts that can be clawed back, and a court-appointed expert review is now underway. The hearing for the submission of the final arguments has been set for 16 April 2020. Discussions were initiated during the period aimed at settling both disputes. The parties have been requested to deposit their final conclusions and the court’s final decision on the matters remain outstanding.

Dargent lawsuit (Raulet Tirmant Dispute, formerly Dargent Morange Tirmant)

The claim was filed before a French Court in 2001 by the trustee in bankruptcy for the bankruptcy of the real estate entrepreneur Philippe Vincent, which made a request to the Bank for compensation of € 55.6 million for the alleged “improper financial support” provided to the entrepreneur.

The claim of the trustee in bankruptcy has consistently been rejected by the courts of different instance which dealt with the case over 17 years, until the Court of Colmar, on 23 May 2018, ordered the Bank to pay compensation of around €23 million (equal to the insolvency liabilities, minus the bank’s credit claim and the proceeds from the sale of several assets). An appeal against the Court of Colmar ruling has been lodged with the French Court of Cassation. The amount of the payment ordered has been temporarily deposited with the appropriate “Caisse des Reglements Pecuniaires des Avocats”.

A hearing before the Court of Cassation was held in November 2019, no significant elements arose. On 22 January 2020, the French Supreme Court of Cassation quashed the decision of the Court of Appeal of Colmar and referred the matter to the Court of Appeal of Metz, because, in particular:

- it failed to demonstrate and, in any case, justify the reasons why it considered the entire asset shortfall to be reparable damage rather than only the part attributable to the Bank’s alleged fault and used an incorrect criterion for determining any damage that might be compensable (if need be);
- even if the Bank were required to pay damages, that circumstance would not prevent it from being allowed to participate in the insolvency distribution for the recovery of its preferential claim.

As a result of this, in the first quarter of 2020 the Bank requested and obtained the repayment of the sum of about € 23 million paid following the decision of the Court of Appeal of Colmar then annulled and quashed, which was deposited with the “Caisse des Reglements Pecuniaires des avocats”.

Then, the bankruptcy receiver referred the dispute to the Court of Appeal of Metz and filed its brief at the end of July 2020, through which it requested again the payment of € 55.6 million (equal to the entire amount of insolvency liabilities, minus the amount obtained from the sale of the property whose purchase was financed by the Bank).

In turn, the Bank filed its own reply brief, challenging the opposing party’s claims. This will be followed by the exchange of additional briefs, a hearing for discussion will be scheduled thereafter, then the court will rule on the dispute.

Disputes regarding tax-collection companies

In the context of the government's decision to reassume responsibility for tax collection, Intesa Sanpaolo sold to Equitalia S.p.A. now the Italian Revenue Agency - Collections Division, full ownership of Gest Line and ETR/ESATRI, companies that managed tax-collection activities, undertaking to indemnify the buyer against any expenses associated with the collection activity carried out up to the time of purchase of the equity interests.

In particular, such expenses refer to liabilities for disputes (with tax authorities, taxpayers and employees) and out-of-period expenses and capital losses with respect to the financial situation at the time of the sale.

Overall, the claims made amount to €80 million. A technical roundtable has been formed with the Italian Revenue Agency - Collections Division in order to assess the parties' claims.

Monte dei Paschi di Siena

In 2014, Fondazione Monte Paschi di Siena brought an action for compensation for the damages allegedly suffered as a result of a loan granted in 2011 by a pool of 13 banks and intended to provide it with the resources to subscribe for a capital increase of Monte Paschi di Siena. The damages claimed were allegedly due to the reduction in the market value of the Monte Paschi di Siena shares purchased with the sums disbursed by the banks. In the proceedings, Fondazione Monte Paschi di Siena summoned 8 former directors of the foundation that were in office in 2011 and the 13 banks in the pool (including Intesa Sanpaolo and Banca IMI (now Corporate and Investment Banking Division post merger into Intesa Sanpaolo S.p.A.)).

The banks have been charged with non-contractual liability due to their participation in the alleged violation by the former directors of the debt-equity ratio limit set in the charter. The claim for damages has been quantified at around €286 million, jointly and severally for all the defendants. The defence adopted by the banks included the argument that the alleged breach of the aforementioned charter limit did not

apply, because it was based on an incorrect valuation of the Foundation's balance sheet items. In addition, in the loan agreement, Fondazione Monte Paschi di Siena itself assured the banks that the charter limit had not been breached and, therefore, any breach of the charter would at most give rise to the sole responsibility of the former directors of the Foundation. And, lastly, there was no causal link between the alleged misconduct and the damaging event.

In November 2019, the Court of Florence rejected a number of the preliminary objections made by the banks and scheduled a hearing for March 2020 to decide on the petitions for preliminary rulings. To be able to make a risk assessment of the proceedings, we need to wait for the court's decision on the matter, as well as the completion of any preliminary investigation.

Private banker (Sanpaolo Invest)

An inspection conducted by the Audit function identified serious irregularities by a private banker of Sanpaolo Invest. The checks carried out revealed serious irregularities affecting several customers, including misappropriation of funds and reports with false incremental amounts. On 28 June 2019, the company terminated the agency contract with the private banker due to just cause and communicated the findings to the Judicial Authority and the Supervisory Body for financial advisors, which first suspended and then removed the private banker from the Register of Financial Advisors in December 2019.

The Judicial Authority, at the company's request, confiscated a total amount of around €7 million from several customers that had unduly benefited from the sums misappropriated by the private banker from his other customers. At the same time, the company initiated out-of-court and legal actions against the unlawful beneficiaries for the recovery of the amounts misappropriated.

Sanpaolo Invest, at the end of June the subsidiary had received a total of 272 complaints with a total remedy sought of approximately €54 million. Of these, 61 complaints relate to misappropriations

(with a remedy sought of approximately €17 million, for which the checks conducted determined the lesser amount of €13 million) and other types of damages (€10 million). A further 211 claims for a total remedy of around €27 million relate to false accounting and unauthorised transactions, as well as requests for reimbursement of fees. During the half-year, the subsidiary accepted and reimbursed more than €4 million in claims, in addition to the amount of around €1 million already paid in 2019. At the same time, the company continued the out-of-court and legal actions against the unlawful beneficiaries for the recovery of the amounts misappropriated.

The residual risk of disbursement resulting from the illegal acts committed by the private banker is covered by a provision of approximately €9 million. This provision was determined on the basis of an assessment of the claims for the confirmed appropriations and the claims relating to incorrect reports and unauthorised transactions, without considering the discovery orders issued and the coverage provided by the insurance policy, which the company promptly triggered in accordance with the policy conditions.

Ruling of the EU Court of Justice of 11 September 2019 on credit agreements for consumers - so-called Lexitor ruling

Article 16, paragraph 1 of Directive 2008/48 on credit agreements for consumers states that in the event of early repayment of the loan the consumer is “entitled to a reduction in the total cost of the credit, such reduction consisting of the interest and the costs for the remaining duration of the contract”. According to the Lexitor ruling, this provision must be interpreted as meaning that the right to a reduction in the total cost of the credit includes all the costs incurred by the consumer and therefore also includes the costs relating to services prior to or connected with the signing of the contract (upfront costs such as processing costs or agency fees).

Article 16, paragraph 1 of Directive 2008/48 has been transposed in Italy through Article 125 sexies of the Consolidated Law on Banking, according to which in the event of early repayment “the consumer is entitled to a reduction in the total cost of the credit, equal to the amount of interest and costs due for the remaining life of the contract”. On the basis of this rule, the Bank of Italy, the Financial Banking Arbitrator and case law have held that the obligation to repay only relates to the charges that have accrued during the course of the relationship (recurring costs) and have been paid in advance by the customer to the lender. In the event of early repayment, these costs must be repaid in the amount not yet accrued and the obligation to repay does not include the upfront costs.

Following the Lexitor judgment, the question has arisen as to whether Article 125 sexies of the Consolidated Law on Banking should be interpreted in accordance with the principle laid down therein or whether the new principle requires a legislative amendment. According to the EU principle of “consistent interpretation”, national courts are required to interpret the rules in their own jurisdiction in a manner consistent with the European provisions. However, if the national rule has an unambiguous interpretation, it cannot be (re)interpreted by the court in order to bring it into line with the various provisions of a European directive: the principles recognised by European Union law prevent the national court from being required to make an interpretation that goes against the provisions of the domestic law. In this regard, we note that Article 125 sexies of the Consolidated Law on Banking is clear in its wording and its scope: it states that, in the event of early repayment, the obligation to repay relates only to recurring costs and therefore does not include upfront costs. The unambiguity of the scope of the provision is confirmed by the fact that – as stated above – it has always been interpreted and applied in this way.

However, in December 2019 the Bank of Italy issued “guidance” for the implementation of the principle established by the EU Court of Justice, to the effect that all costs (including upfront costs) should be included among the costs to be refunded in the event of early repayment, both for new relationships and for existing relationships. Intesa Sanpaolo has decided to follow the Bank of Italy “guidance”, even though it believes that the legal arguments set out above regarding the fact that Article 125 sexies of the Consolidated Law on Banking cannot be interpreted in a manner that complies with the Lexitor ruling are well founded. Accordingly, Intesa Sanpaolo reserves the right to reconsider this operational stance in the light of future developments. A provision has therefore been

made in the Allowance for Risks and Charges corresponding to the estimated higher charges resulting from the decision to follow the Bank of Italy “guidance”.

With regard, on the other hand, to disputes relating to terminated relationships, the few court decisions have been discordant and no prevailing case-law has emerged. In view of this and in light of the legal arguments set out above (which will be broadened and included in the defences presented in the above-mentioned disputes), at this stage there is no evidence to consider that a negative outcome will be likely.

Offering of diamonds

In October 2015, the Bank signed a partnership agreement with Diamond Private Investment (DPI) governing how diamond offerings were made by DPI to the customers of Intesa Sanpaolo. The aim of this initiative was to provide customers with a diversification solution with the characteristics of a "safe haven asset" in which to allocate a marginal part of their assets over the long-term. Diamonds had already been sold for several years by other leading national banking networks.

This recommendation activity was carried out primarily in 2016, with a significant decline starting from the end of that year. A total of around 8,000 customers purchased diamonds, for a total of around €130 million. The marketing process was based on criteria of transparency, with safeguards progressively enhanced over time, including quality controls on the diamonds and the fairness of the prices applied by DPI.

In February 2017, the AGCM (the Italian Competition Authority) brought proceedings against companies that marketed diamonds, (DPI and other companies), for alleged conduct in breach of the provisions on unfair business practices. In April, those proceedings were extended to the intermediaries that carried out the recommendation of the services of those companies.

At the end of those proceedings, on 30 October 2017, the AGCM notified the penalties imposed for the alleged breach of the Consumer Code through the conduct of DPI and of the banks which the proceedings had been extended to, consisting - in short - of having provided partial, deceptive and misleading information on the characteristics of the diamond purchases, the methods used to calculate the price - presented as being the market price - and the performance of the diamond market. The Authority issued a fine of €3 million against Intesa Sanpaolo, reduced from the initial fine of €3.5 million, after the Authority had recognised the value of the measures taken by Intesa Sanpaolo from 2016 to strengthen the safeguards on the offering process aimed, in particular, at ensuring proper information to customers.

Following the order by the AGCM, the Bank paid the amount of the fine and filed an appeal with the Lazio Regional Administrative Court against the order. The proceeding is still pending.

From November 2017, Intesa Sanpaolo:

- terminated the partnership agreement with DPI and ceased the activity, which had already been suspended in October 2017;
- started a process that provides for the payment to customers of the original cost incurred for the purchase of the diamonds and the withdrawal of the stones, in order to satisfy the customers' resale needs which, due to the illiquidity that had arisen in the market, are not met by DPI;
- sent a communication in January 2018 to the diamond-holding customers reiterating the nature of the stones as durable goods, and also confirming the Bank's willingness to intervene directly in relation to any realisation needs expressed by the customers and not met by DPI.

As at 31 December 2019, a total of 6,595 repurchase requests had been received from customers and met by Intesa Sanpaolo, for a total value of € 111,9 million with the flow of requests steadily decreasing in the second half of 2019. The valuation of the repurchased diamonds is carried out

using the values provided by the IDEX Diamond Retail Benchmark, one of the main online trading platforms used in the main markets by over 7,000 traders.

In February 2019, an order for preventive criminal seizure of €11.1 million was served, corresponding to the fee and commission income paid by DPI to Intesa Sanpaolo. The preliminary investigations initiated by the Public Prosecutor's Office of Milan also concern four other banks (more involved) and two companies that sell diamonds. In early October, the notice of conclusion of the investigation was served, which stated that two of Intesa Sanpaolo's operators were currently under investigation for alleged aggravated fraud (in collusion with other parties to be identified) and other persons are being identified for allegations of self-laundering, while ISP is being charged with the administrative offence pursuant to Italian Legislative Decree 231/2001 in relation to this latter predicate offence.

Disputes arising from the acquisition of certain assets, liabilities and legal relationships of Banca Popolare di Vicenza S.p.A. in compulsory administrative liquidation and Veneto Banca S.p.A. in compulsory administrative liquidation

With regard to the possible outcomes for the Intesa Sanpaolo Group of the lawsuits relating to Banca Popolare di Vicenza and Veneto Banca (and/or their directors and top management), the following is noted:

- a) based on the agreements between the two Banks in compulsory administrative liquidation and Intesa Sanpaolo (sale contract of 26 June 2017 and Second Acknowledgement Agreement of 17 January 2018), two distinct categories of disputes can be identified (also relating to the subsidiaries of the former Venetian banks included in the sale):
 - the Previous Disputes, included among the liabilities of the Aggregate Set transferred to Intesa Sanpaolo, which include civil disputes relating to judgements already pending at 26 June 2017, with some exceptions, and in any case different from those included under the Excluded Disputes (see the point below);
 - the Excluded Disputes, which remain under the responsibility of the Banks in compulsory administrative liquidation and which concern, among other things, disputes brought (also before 26 June 2017) by shareholders and convertible and/or subordinate bondholders of one of the two former Venetian banks, disputes relating to non-performing loans, disputes relating to relationships terminated at the date of the transfer, and all disputes (whatever their subject) arising after the sale and relating to acts or events occurring prior to the sale;
- b) the relevant allowances were transferred to Intesa Sanpaolo along with the Previous Disputes; in any case, if and to the extent the provisions transferred prove insufficient, Intesa Sanpaolo will be entitled to be indemnified by the Banks in compulsory administrative liquidation, at the terms provided for in the sale contract of 26 June 2017.
- c) after 26 June 2017, a number of lawsuits included within the Excluded Disputes were initiated or resumed against Intesa Sanpaolo. With regard to these lawsuits:
 - Intesa Sanpaolo is pleading and will plead its non-involvement and lack of capacity to be sued, both on the basis of the provisions of Decree Law 99/2017⁶ (Article 3), the sale contract signed with the two Banks in compulsory administrative liquidation on 26 June 2017 (Articles 3.1.1, 3.1.4 and 3.2), the First Acknowledgement Agreement signed on 19 December 2017, and the Second Acknowledgement Agreement signed on 17 January 2018 (Article 3 and Attachment 1.1), and in compliance with the European Commission provisions on State Aid (Decision C(2017) 4501 final and Attachment B to the sale contract of 26 June 2017), which prohibit Intesa

⁶ Published in the Official Gazette no. 146 of 25 June 2017 and converted by Law 121 of 31 July 2017.

Sanpaolo from taking responsibility for any claims made by the shareholders and subordinated bondholders of the former Venetian Banks;

- if there were to be a ruling against Intesa Sanpaolo (and in any event for the charges incurred by Intesa Sanpaolo for any reason in relation to its involvement in any excluded disputes), it would have the right to be fully reimbursed by the Banks in compulsory administrative liquidation;
- the banks in compulsory administrative liquidation have contractually acknowledged their capacity to be sued with respect to the excluded disputes, such that, they have entered appearances in various proceedings initiated (or re-initiated) by various shareholders and convertible and/or subordinate bondholders against Intesa Sanpaolo (or in any case included in the category of excluded disputes), asking for the declaration of their exclusive capacity to be sued and the consequent exclusion of Intesa Sanpaolo from those proceedings;
- pursuant to the agreements between the two banks in compulsory administrative liquidation and Intesa Sanpaolo, the disputes regarding the marketing of shares/convertible and/or subordinated bonds initiated against Banca Nuova (subsequently merged by incorporation into Intesa Sanpaolo) and Banca Apulia are also included in the excluded disputes (and therefore have the same treatment as described above, as a result of the abovementioned provisions and based on the criteria set out in the retransfer agreements signed on 10 July 2017, as subsequently supplemented).

The above-mentioned disputes in the Excluded Disputes include 63 disputes (for a total remedy sought of around €87 million) involving claims relating to loans sold to Intesa Sanpaolo and deriving from so-called “operazioni bacciate”; this term refers to loans granted by the former Venetian banks (or their Italian subsidiaries Banca Nuova/Banca Apulia) for the purpose of, or in any case related to, investments in shares or convertible and/or subordinated bonds of the two former Venetian Banks.

The most recurrent claims relate to:

- the violation by the former Venetian banks (or their subsidiaries) of the requirements of the rules on investment services; the customers claim that they were induced to purchase the shares on the basis of false or misleading information on the product’s risk characteristics;
- the invalidity of the “bacciate” transaction due to the breach of Article 2358 of the Italian Civil Code, which prohibits companies from granting loans for the purchase of treasury shares, except in certain limited cases.

The first ruling on this matter was issued in early 2020, which declared that the loan sold was invalid; an appeal will be filed against this ruling. Since this is the only decision on this matter for the time being, it is not possible to draw any legal conclusions regarding the validity of this type of loan sold to Intesa Sanpaolo.

With regard to the risks arising from these disputes, it should be borne in mind that the Sale Contract establishes the following:

- that any liability, charge and/or negative effect that may arise to Intesa Sanpaolo from shares, disputes or claims made by shareholders and subordinated bondholders constitutes an Excluded Liability under the Contract and, as such, must be subject to indemnification by the Banks in compulsory administrative liquidation;
- the obligation of each Bank in compulsory administrative liquidation to indemnify ISP against any damage arising from, or connected to, the violation or non-compliance of the Representations and Warranties issued by the two Banks in compulsory administrative liquidation with respect to the Aggregate Set transferred to Intesa Sanpaolo, and, in particular, those relating to the full propriety, validity and effectiveness of the loans and contracts transferred.

On the basis of these provisions, Intesa Sanpaolo is entitled to be indemnified by the Banks in compulsory administrative liquidation against any negative effect incurred if these loans are totally or partially invalid, unrecoverable, or in any case not repaid as a result of legal disputes.

Intesa Sanpaolo has already made a formal reservation in this regard to the two Banks in compulsory administrative liquidation for all the loans acquired and arising from loans potentially qualifying as “operazioni baciate”, even if they have not (yet) been formally contested by customers (see below “Initiatives undertaken with respect to the compulsory administrative liquidations”).

In this regard, it should also be noted that Paragraph 11.1.9 of the Sale Contract establishes that “the precise and timely payment of any obligations and liabilities assumed in favour of the ISP by BPVi and/or VB shall be guaranteed by the issuing body (i.e. the Ministry of the Economy and Finance): (i) with regard to the indemnification obligations assumed by BPVi and/or VB and relating to the Previous Disputes, up to the maximum amount of the remedy sought for each of the Previous Disputes as indicated in the case documents, net of the specific risk allowances transferred to ISP with the Aggregate Set; and (ii) with regard to the remaining obligations and liabilities assumed by BPVi and/or VB, up to the maximum amount of €1.5 billion” (the “Indemnification Guarantee”).

This provision is consistent with and implements Article 4, paragraph 1, letter c) of Law Decree no. 99/2017: the Ministry of the Economy and Finance “grants the Government independent first demand guarantee on the performance of the obligations of the entity in liquidation arising from commitments, representations and warranties issued by the entity in liquidation in the sale contract, for a maximum amount equal to the sum of €1,500 million plus the result of the difference between the value of the past disputes of the entities in liquidation, as indicated in the case documents, and the related risk provision, up to a maximum of €491 million”.

The Indemnification Guarantee is therefore an essential prerequisite of the Sale Contract. To date, this guarantee has not yet been formalised by a specific Decree from the Ministry of the Economy and Finance. The issuance of the guarantee by the government is a required procedure that is envisaged, not only by the Sale Contract of 26 June 2017, but also by the abovementioned Law Decree 99/2017.

In January 2018, as part of a criminal proceeding before the Court of Rome for the alleged market rigging and obstructing the Supervisory Authorities in the performance of their functions with respect to officers and executives of Veneto Banca, the preliminary hearing judge decided that Intesa Sanpaolo could be charged with civil liability. According to the judge, the exclusion from the sale to Intesa Sanpaolo of the debts, responsibilities and liabilities deriving from the sale of shares and subordinated bonds – envisaged by Decree Law 99/2017 – would not be objectionable by third parties, while Article 2560 of the Italian Civil Code would be applicable in the case in question and Intesa Sanpaolo should therefore take on those liabilities.

As a result of this decision, more than 3,800 civil plaintiffs joined the proceedings as shareholders or subordinated bondholders of Veneto Banca. Intesa Sanpaolo entered an appearance requesting its exclusion from the proceedings, in application of the provisions of Decree Law 99/2017, of the rules established for the compulsory administrative liquidation of banks and, before that, of the principles and rules contained in the bankruptcy law, in addition to the constitutional principles and decisions made at EU level. Veneto Banca in compulsory administrative liquidation intervened voluntarily affirming its exclusive, substantial and procedural capacity to be sued.

In March 2018, the preliminary hearing judge declared his lack of territorial jurisdiction, transferring the files to the Public Prosecutor’s Office of Treviso. The charge of civil liability and the joinders of the civil parties were therefore removed. On the other hand, in a criminal proceeding before the Court of Vicenza against the officers and executives of Banca Popolare di Vicenza, the preliminary hearing judge rejected the request for authorisation to charge Intesa Sanpaolo with civil liability, on

the basis of the sale contract of 26 June 2017 and the special provisions contained in Decree Law 99/2017.

In June 2019, Intesa Sanpaolo sent the Banks in compulsory administrative liquidation a number of letters containing claims for compensation of already incurred or potential damages, which Intesa Sanpaolo is entitled to under the sale agreement (compensation obligation secured by government guarantee). To enable the Banks in compulsory administrative liquidation to perform a more thorough examination of the claims made, Intesa Sanpaolo, in the letters sent in June 2019, granted an extension of the contractual deadline to 22 November 2019 for contesting the claims made. Subsequently, upon request from the Banks in compulsory administrative liquidation, Intesa Sanpaolo granted a further extension of this initial deadline up to 31 March 2020 and then to 30 November 2020.

IMI/SIR Dispute

Following the final judgement establishing the criminal liability of the corrupt judge Metta (and his accomplices Rovelli, Acampora, Pacifico, and Previti), the defendants were ordered to pay compensation for damages, with the determination of those damages referred to the civil courts. Intesa Sanpaolo then brought a case before the Court of Rome to obtain an order of compensation for damages from those responsible.

In its ruling of May 2015, the Court of Rome quantified the financial and non-financial damages for Intesa Sanpaolo and ordered Acampora and Metta – the latter also jointly liable with the Prime Minister’s Office (pursuant to Law no. 117/1988 on the accountability of the judiciary) – to pay Intesa Sanpaolo €173 million net of tax, plus legal interest accruing from 1 February 2015 to the date of final payment, plus legal expenses. The amount ordered took account of the amounts received in the meantime by the Bank as part of the settlements with the Rovelli family and with the counterparties Previti and Pacifico.

In July 2016, the Rome Court of Appeal stayed the enforcement of the judgment of first instance with respect to the amount in excess of €130 million, in addition to ancillary charges and expenses, and adjourned the hearing of the final pleadings to June 2018. As a result of this decision, in December 2016 the Office of the President of the Council of Ministers credited Intesa Sanpaolo with the sum of €131,173,551.58 (corresponding to the €130 million of the order, in addition to legal interest and reimbursement of expenses). To avoid dispute, only the exact amount of the order, without applying the gross-up, was demanded and collected.

On 16 April 2020, the ruling of the Court of Appeal of Rome was filed, which essentially upheld the Court’s ruling, while reducing the amount of non-financial damages to €8 million (compared to €77 million that had been quantified by the court of first instance), and set the amount to be paid at €108 million, to be considered net of tax, plus legal interest and expenses. A petition for the correction of a material error contained in the judgment of the Court of Appeal of Rome was filed by the Bank in the second quarter. The hearing for discussion has been set for 17 September 2020. On 3 December 2020, a reject ordinance has been released against such judgment of the Court of Appeal due to a material error.

Judgement of the Court of Council of the European Union on derivatives with local entities

By way of judgement no. 8770/2020, handed down by its Joint Sections on 12 May 2020, the Court of Cassation affirmed the nullity of several OTC derivative contracts (Interest Rate Swaps with upfront payments) entered into by an Italian bank and a Municipality, essentially establishing that: 1) the upfront payment was a type of new debt resulting in long-term expenditure borne by the entity and, therefore, derivative contracts that comprise an upfront payment require the authorisation of the Municipal Council (not the Municipal Executive Committee), which, if lacking, shall invalidate the derivatives; 2) swap contracts constitute a “legal bet”, permitted only in the amount in which these contracts acquire the form of a “rational bet”, concluded in terms which enable both parties to

understand the risks underlying the contract, which thus, must indicate the mark to market, implicit costs and probabilistic scenario.

The judgement of the Court of Cassation was issued with regard to derivative contracts governed by Italian law. Thus, it should not have significant effects on derivative contracts governed pursuant to the ISDA general agreement (subject to UK law) and referred to the jurisdiction of UK courts (as regards the issues of index-linking the mark to market, implicit costs and probabilistic scenarios).

The decision has already been criticised by many authors and several lower courts have already deviated from the principles confirmed by the Court of Cassation.

Nonetheless, in September, two decisions unfavourable to the Bank in this sense were issued: 1) the Court of Pavia ordered the Bank to refund approximately 9.3 million euro, in addition to ancillary charges, to the Province of Pavia, stating the grounds for the ruling of the Court of Cassation, word-for-word; 2) the Court of Appeal of Milan rejected the appeal lodged by the Bank in the proceedings promoted by the Municipality of Mogliano Veneto. That ruling (which is only partially based on the arguments of the Court of Cassation) confirmed the first instance ruling which had ordered the Bank to refund the Municipality 5.8 million euro, a payment made in 2018. Both decisions are being challenged.

In light of the evolution of case-law, a specific reassessment was conducted of risks connected with the disputes regarding derivative contracts entered into with local entities and, where deemed appropriate, specific provisions were allocated.

UBI Group

With regard to the UBI Group, in referring to the 2019 Consolidated Financial Statements and the Interim Statements for 2020 of the acquired entity for a detailed illustration of the main disputes pending and their evolution, it is noted that no significant events occurred in the third quarter.

Labour litigation

There were no significant cases of labour litigation from either a qualitative or quantitative standpoint as at 30 June 2020. In general, all labour litigation is covered by specific provisions adequate to meet any outlays.

Tax litigation

The Intesa Sanpaolo Group's tax litigation risks are covered by adequate provisions to the allowances for risks and charges.

In addition, the suspension of trial time limits until 11 May was established, first by the so-called "Cura Italia" Law Decree no. 18 of 17 March 2020, and then by Law Decree no. 23 of 8 April 2020. Furthermore, Law Decree no. 34 of 19 May 2020 provides that notices of assessment, settlement, claims, penalties and recovery of tax credits, for which the time limits are set to expire between 9 March and 31 December 2020, shall be issued until 31 December 2020 and validly served on the taxpayer during the period from 1 January to 31 December 2021. Finally, the time limits for conducting administrative proceedings on the petition of a party or on an ex officio basis that were pending on 23 February 2020 or commenced after that date have been suspended until 15 May 2020.

As at 30 June 2020, Intesa Sanpaolo had 668 pending litigation proceedings (612 as at 31 December 2019) for a total amount claimed (taxes, penalties and interest) of €141 million (€146 million as at 31 December 2019, including the former Banco Sudameris Brasil dispute with a value of €35 million at the current exchange rate), considering both administrative and judicial proceedings at various instances.

In relation to these proceedings, the actual risks were quantified for Intesa Sanpaolo at €52 million as at 30 June 2020 (€54 million as at 31 December 2019).

The dispute with the Provincial Department of Florence on the VAT applied in 2014 by Infogroup Informatica e Servizi Telematici S.c.p.A., a consortium company wholly represented by Intesa Sanpaolo Group companies and sold to Engineering - Ingegneria Informatica S.p.A. on 28 December 2017, was resolved during the period. In 2019, a settlement agreement had been reached for the year 2014 (approximately €2 million), whereas in the first half of 2020 the IRES, IRAP and VAT findings for the years 2015, 2016 and 2017 were settled by filing an amended return and paying a total of €7.7 million, of which €0.6 million contractually borne by Engineering, already set aside in the 2019 Financial Statements. The total settlement cost was €7.1 million, considering the positive effect of €2 million arising from the deduction of the VAT paid for the settlement, recovered from ISP, for the purposes of IRES and IRAP.

With regard to the disputes still pending, in June the Attorney General filed an appeal before the Court of Cassation against the judgment of the court of second instance, favourable to Intesa Sanpaolo, in the matter of registration tax, assessed by the Italian Revenue Agency of Milan in the amount of €6.7 million, in addition to interest (no penalty was levied). The Agency reclassified the overall transaction whereby Manzoni s.r.l. transferred a private equity business line that it had acquired through two different contributions of business lines by the Bank and the former IMI Investimenti S.p.A. to Melville S.r.l. through a partial, non-proportional demerger as the sale of a business line, levying registration tax on the transaction at 3% of the economic value declared in the de-merger deed. The Bank retained a major law firm to represent it at trial.

Mention should also be made of the filing by the Regional Tax Commission of Piedmont of judgment no. 125/4/2020, unfavourable to Intesa Sanpaolo, regarding the lawfulness of a payment notice of €1.7 million. This notice, served in 2016, follows the unfavourable judgment of the Court of Cassation no. 25463/2015 regarding solely the penalties for tax periods 1986 and 1988 on IRPEG and ILOR findings not cancelled in the various instances of the trial on the merits, which concluded a complex, lengthy trial, arising from the merger of Istituto Bancario Sanpaolo di Torino with Banca Popolare dell'Agricoltura.

In addition, another set of proceedings had unfolded in parallel, regarding the amnesty pursuant to Law 413/1991, in which the Istituto had participated for the years in dispute, also disputed by the tax authorities, which had yielded a favourable outcome for the Bank in the first and second instances. Given the complexity of the matters at issue in the trial and the legal questions on the merits, it is currently being evaluated whether an appeal of the aforementioned unfavourable judgment before the Court of Cassation would be tenable. The amount of the notice was already paid in full in the course of the trial on a provisional basis; if this claim becomes definitive, there will be no impact on the income statement, since the tax authorities' claim is fully covered by the allowance for tax litigation.

With regard to the merged company Banca Nuova (formerly a member of the Banca Popolare di Vicenza Group), on 20 December 2019 the Italian Revenue Agency served Intesa Sanpaolo, as the surviving company, with a tax audit report regarding tax period 2015 containing findings for a total of €1.6 million of taxable profit and IRES and IRAP taxes for a total of €0.46 million, in addition to penalties and interest. The alleged violations relate to: i) unlawful deduction of contingent losses on receivables due for invoices to be issued; ii) unlawful deduction due to decreases in the allowance for credit losses arising from the write-off of loans; and iii) unlawful off-balance sheet deduction of the "super depreciation". As the party responsible for making decisions regarding the findings formulated in the tax audit report by the Italian Revenue Agency, Intesa Sanpaolo conducted all document research and follow-up activities, on the basis of which it prepared defence briefs that are in the process of being filed. The dispute will be reported to Banca Popolare di Vicenza in compulsory administrative liquidation - and to the Ministry of the Economy and Finance for their consideration and in view of the guarantees provided under Art. 2, paragraph c), of Ministerial Decree 187 of 25 June 2017, in accordance with Art. 4, paragraph 1, letter c), of Decree-Law 99 of 25 June 2017 - which has the obligation to indemnify Intesa Sanpaolo against any liability, pursuant

to Article 11 of the contract entered into on 26 June 2017, for the acquisition of certain assets, liabilities and legal relationships.

With regard to the Intesa Sanpaolo branches located abroad, tax audits are underway in relation to: i) VAT on the London branch for the years 2016, 2017 and 2018; and ii) federal direct taxes at the New York branch for the tax periods 2015, 2016 and 2017. No claims have been made for the time being.

In addition, a general audit by the German tax authority will be launched at the Frankfurt branch in August 2020 with regard to the following areas relating to the tax periods from 2016 to 2018: i) income taxes; ii) VAT; iii) withholding taxes; iv) tax losses carried forward; v) transfer pricing; and vi) German trade tax.

At the Group's other Italian companies, tax disputes totalled €53 million as at 30 June 2020, unchanged compared to 31 December 2019, covered by specific provisions of 1 million euro (1 million euro in the 2019 financial statements). Of these €53 million: i) €9.3 million refers to claims involving Fideuram concerning the failure to withhold 27% of the interest accrued in 2009, 2010 and 2011 on foreign bank accounts held at Fideuram Bank (Luxembourg) by two "historic" Luxembourg mutual funds (Fonditalia and Interfund SICAV), for which in the years assessed Fideuram was only the placement bank and correspondent bank. The risk has been deemed not probable; ii) €42.2 million is attributable to the IRES and IRAP disputes involving Intesa Sanpaolo Private Banking, relating to the deduction (in 2011 and the following years) of the amortisation charge for the goodwill arising from the transfers of the private banking business lines of Intesa Sanpaolo and Cassa dei Risparmi di Forlì e della Romagna in 2009, Banca di Trento e Bolzano and Cassa di Risparmio di Firenze in 2010 and Cassa di Risparmio Pistoia e Lucchesia and Cassa di Risparmio dell'Umbria in 2013, realigned by the transferee in accordance with Article 15, paragraph 10, of Law Decree no. 185 of 29 November 2008. The risk of incurring liabilities is considered to be remote.

The amount of tax disputes involving international subsidiaries is limited and almost entirely provisioned. These consisted of claims for a total value of €9 million (11 million euro at the end of 2019) covered by provisions of €7 million (€7 million at the end of 2019). The decrease in the claimed amount was mainly due to a dispute involving Intesa Sanpaolo Bank Albania, settled without any impact on the income statement in 2020 (total remedy sought of €0.5 million), and the reduction in the value of the lawsuit involving Intesa Sanpaolo Brasil S.A., regarding direct taxes for the years 2015 and 2016, due to the negative performance of the Brazilian currency (-€0.6 million). The dispute in which the most significant amount is at issue relates to the Egypt-based Alexbank and concerns the non-payment of stamp duty by the branches of the Egyptian bank amounting to approximately €4.8 million for the tax periods from 1984 to 2006. The potential liability arising from the litigation has been provisioned.

In addition, in March Exelia was subject to a VAT audit by the Romanian tax authority (ANAF) with regard to tax periods 2014 - 2019. This audit has been concluded and ANAF has determined that the services rendered by Exelia may be classified as services of a financial nature for VAT purposes and are thus exempt, resulting in the full non-deductibility of the VAT on purchases of goods and services. The revenue authority thus claimed non-payment of VAT for €369 thousand, in addition to penalties of €146 thousand, for the tax periods subject to audit, but the company could have the penalties cancelled in full.

Finally, the tax audit on IMI SEC is still underway for the years 2015 and 2016, for which the US tax authorities are contesting the composition of the company's revenues, which have a high level of income originating from outside the State of New York and subject to lower tax. In 2019 the audit was also extended to 2017. No claims have been made for the time being.

Certain balance sheet 2018 comparative data has been restated, in accordance with IFRS 3, with respect to the data previously presented in the 2018 Audited Financial Statements to account for the final allocation of the cost of acquiring the subsidiary Autostrade Lombarde.

Also, certain income statement 2018 comparative data has been restated, in accordance with IFRS 5, with respect to the data previously presented in the 2018 Audited Financial Statements to account for the reclassification to the item “Income (Loss) after tax from discontinued operations” of the income effects of the acquiring business line to be contributed to Nexi, pursuant to the agreement signed in December 2019 and finalized in the first half of 2020.

Half-Yearly Financial Statements

The half yearly financial information below as at and for the six months ended on 30 June 2020 has been derived from the unaudited condensed consolidated half yearly financial statements of the Intesa Sanpaolo Group as at and for the six months ended on 30 June 2020 (the **2020 Half-Yearly Unaudited Financial Statements**) that include comparative balance sheet figures as at 31 December 2019 and income statement figures for the six months ended on 30 June 2019. Certain income statement 2019 comparative data has been restated with respect to the data previously presented in the 2019 Half-Yearly Unaudited Financial statements in order to account for the reclassification to the item “Income (Loss) after tax from discontinued operations” of the income effects of the acquiring business line to be contributed to Nexi, pursuant to the agreement signed in December 2019 and finalized in the first half of 2020.

Incorporation by Reference

Both the audited consolidated annual and the unaudited consolidated half-yearly financial statements referred to above are incorporated by reference in this Base Prospectus (see “*Documents Incorporated by Reference*”). The financial information set out below forms only part of, should be read in conjunction with and is qualified in its entirety by reference to the above-mentioned audited consolidated annual and unaudited consolidated half-yearly financial statements, together with the accompanying notes and auditors' reports.

Accounting Principles

The audited consolidated annual and unaudited consolidated half-yearly financial statements referred to above have been prepared in accordance with the accounting principles issued by the International Accounting Standards Board and the relative interpretations of the International Financial Reporting Interpretations Committee, otherwise known as International Financial Reporting Standards, as adopted by the European Union under Regulation (EC) 1606/2002. The half-yearly condensed consolidated financial statements referred to above have been prepared in compliance with the IAS/IFRS issued by the International Accounting Standards Board (IASB) and the relative interpretations of the International Financial Reporting Interpretations Committee (IFRIC) endorsed by the European Commission, as provided for by EU Regulation 1606 of 19 July 2002 and in force as at 30 June 2020.

In particular, the 2020 Half-Yearly Unaudited Financial Statements are prepared in compliance with IAS 34 requirements, which regulate interim financial reporting.

The accounting standards adopted in preparation of these 2020 Half-Yearly Unaudited Financial Statements, with regard to the classification, recognition, measurement and derecognition of the

financial assets and liabilities, and the recognition methods for revenues and costs, have remained unchanged compared to those adopted for the Intesa Sanpaolo Group 2019 Audited Financial Statements, which should be consulted for the complete details.

In addition, the indications provided by the authorities and the IASB, together with the application decisions made by Intesa Sanpaolo, as described in the chapter "The first half of 2020", should be consulted on the consequences of the impact of the COVID-19 health emergency. Some amendments to existing accounting standards, endorsed by the European Commission in 2019 and 2020, are applicable on a mandatory basis for the first time starting in 2020, but none of them is particularly significant for the Intesa Sanpaolo Group.

A summary of the endorsing Regulations is provided below:

- **Regulation 2075/2019:** this regulation of 29 November 2019 adopted several amendments to the IFRS relating to references to the Conceptual Framework. The amendments are designed to update the references – in the various IAS/IFRS and interpretations – to the previous framework, by replacing them with the references to the framework revised in March 2018. The Conceptual Framework is not an accounting standard and is therefore not subject to endorsement, whereas this particular document is subject to endorsement because it amends some IAS/IFRS;
- **Regulation 2104/2019:** this regulation of 29 November 2019 adopts several amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors in order to clarify the definition of material information and to improve its understandability. The materiality depends on the nature and significance of the information or both. An entity shall also verify whether an item of information, either individually or in combination with other information, is material in the overall context of the financial statements;
- **Regulation 551/2020:** the Regulation dated 21 April 2020 adopted several amendments to IFRS 3 Business Combination introduced with the IASB publication of 22 October 2018 "Definition of a Business (Amendments to IFRS 3)" in order to facilitate the practical application of the definition of the term "business". These clarifications do not entail any changes to the practices already followed by the Intesa Sanpaolo Group with regard to the definition of a business.

In addition, the Intesa Sanpaolo Group has exercised the option of early adoption of Regulation (EU) 34/2020 of 15 January 2020 for the 2019 Audited Financial Statements, which adopted the document issued by the IASB in September 2019 on "Interest Rate Benchmark Reform (amendments to IFRS 9 Financial Instruments, IAS 39 Financial Instruments: Recognition and Measurement and IFRS 7 Financial Instruments: Disclosures)", application of which is mandatory with effect from 1 January 2020. This regulation introduced several amendments regarding hedges (hedge accounting) designed to prevent uncertainties about the amount and timing of the cash flows arising from the rate reform from resulting in the discontinuation of existing hedges and difficulties in designating new hedging relationships.

As disclosed in the 2019 Audited Financial Statements, this relates to recent developments concerning the revision or replacement of certain interest rate benchmarks used to set interest rates in various jurisdictions, such as LIBOR, TIBOR and, in Europe, EONIA and Euribor, based on the indications from the G20 and the Financial Stability Board. The IASB is working on the possible accounting impacts of the IBOR Reform through a project divided into two phases: the first phase focused on the possible accounting impacts in the period prior to the replacement of the existing benchmark rates with new rates (pre-replacement issues); and the second phase of the project, still under way, involves the analysis of the possible accounting impacts deriving from the application of the new rates and other less urgent issues (replacement issues). Phase 1 of the project, which ended with the publication of the above-mentioned Regulation 34/2020, introduced several changes to prevent the discontinuation of existing hedges. The IASB considers that, in this scenario, the discontinuation of hedges solely due to the effect of uncertainty does not provide useful information

for the readers of financial statements and has therefore decided to make some temporary exceptions to the existing regulations to prevent these distortions, which can be applied until the reform of the interest rate benchmarks has been completed.

The IASB has identified several hedge accounting provisions that could be affected by the reform of the benchmarks in the “pre-replacement” phase and introduced a simplification for each of them, assuming that the interest rate benchmarks used to set existing interest rates will not be changed as a result of the interbank rate reform. The amendments are applicable on a mandatory basis from 1 January 2020, with the option of early application, as exercised by the Intesa Sanpaolo Group, which applied these provisions when preparing its 2019 Audited Financial Statements.

The 2020 Half-Yearly Unaudited Financial Statements, drawn up in euro as the functional currency, are prepared in condensed form as permitted by IAS 34, and contain the consolidated Balance sheet, the consolidated Income statement, the Statement of consolidated comprehensive income for the period, the Changes in consolidated shareholders’ equity, the consolidated Statement of cash flows and the explanatory notes. They are also complemented by information on significant events which occurred in the period, on the main risks and uncertainties to be faced in the remaining months of the year, as well as information on significant related party transactions. With effect from the 2018 Audited Financial Statements, following the Intesa Sanpaolo Group’s decision to exercise the option of adopting the deferral approach, also provided for banking-led financial conglomerates, specific balance sheet and income statement captions have been added to the consolidated financial statement layouts established in Circular 262 to present the valuation of assets and liabilities pertaining to insurance companies and the related profit or loss effects measured in accordance with IAS 39. The amounts indicated in the financial statements and explanatory notes are expressed in millions of euro, unless otherwise specified.

With regard to assets held for sale, as stated above in the chapter “The first half of 2020” of this report, on 26 June 2020 Intesa Sanpaolo and Aleàtica S.A.U., a Spanish company specialised in infrastructure investments that is 100% owned by the Australian fund IFM Global Infrastructure Fund, reached an agreement regarding the sale of the entire equity investment held in Autostrade Lombarde (in which Intesa Sanpaolo holds a 55.8% interest) and its operating subsidiary Brebemi, the company that holds the concession to the Milan-Brescia motorway segment (A35). The transaction is expected to be completed by the end of 2020 and is subject to the usual authorisations from the competent authorities. As a result of the transaction described above, the assets and liabilities attributable to the two subsidiaries, controlled within the meaning given in IFRS 10 and consolidated line by line in the Intesa Sanpaolo Group’s consolidated financial statements, have been reclassified with effect from the 2020 Half-Yearly Unaudited Financial Statements among assets and liabilities held for sale and discontinued operations in accordance with IFRS 5. The assets held for sale also include a residual portion of the non-performing credit exposures arising from leasing activity and contemplated in the agreement with Prelios, for which the transfer has yet to be completed in view of the inability, relating to the restrictions imposed by the COVID-19, to proceed with the inspections required to allow the sale deeds to be prepared for the properties; according to the conditions agreed between the parties, the transfer of this portion of the portfolio will occur within the third month from the date on which the restrictions imposed by the current health emergency are lifted. Assets held for sale also include the pledge lending business line, for which Intesa Sanpaolo reached an agreement for sale to ProntoPegno at the end of 2019, which was entered into on 13 July 2020. The transfer of Intesa Sanpaolo’s acquiring business line, previously included among discontinued operations, to Nexi was completed on 30 June. For detailed information, see the sections “The first half of 2020” and “Balance sheet aggregates” in the Notes to the 2020 Half-Yearly Unaudited Financial Statements.

Finally, with regard to the “high-risk” loans originating from the Venetian banks in compulsory administrative liquidation, as indicated above in the chapter “The first half of 2020” of this Report, on 13 June 2020 the final retrocession was performed for positions reclassified as “bad loans” and/or “unlikely-to-pay loans”, considering that the decree whereby the Ministry of the Economy and Finance formalised the “high risk” guarantee and Law Decree 99/2017 (the “Venetian Banks” Law Decree) establish that Intesa Sanpaolo’s right to retrocede the “high risk” loans must be exercised

within three years of the original transfer of the Aggregate Set, a transaction that was closed on 26 June 2017. The retrocession applied to a total portfolio with a gross value of €201 million, for a retrocession price of €176 million. In the second quarter of 2020, on 18 April 2020, another retrocession event had occurred, involving a total portfolio with a gross value of €121 million, for a retrocession price of €103 million. Both retrocessions occurred at a price aligned with the net book value, which already incorporated the contractual mechanism for determining the retrocession consideration, according to which 50% of adjustments are borne by the Banks in compulsory administrative liquidation. Accordingly, at 30 June 2020 there are no longer any "high risk" loans reclassified to assets held for sale in accordance with IFRS 5.

The Half-yearly condensed consolidated financial statements as at 30 June 2020 are complemented by certification of the Managing Director – CEO and the Manager responsible for preparing the Intesa Sanpaolo Group's financial reports pursuant to Article 154-bis of the Consolidated Law on Finance and are subject to limited review by the Independent Auditors KPMG.

Transition to IFRS 16

The regulations

The new accounting standard IFRS 16, issued by the IASB in January 2016 and endorsed by the European Commission through Regulation no. 1986/2017, replaced IAS 17 "Leases", IFRIC 4 "Determining whether an arrangement contains a lease", SIC 15 "Operating leases – Incentives" and SIC 27 "Evaluating the substance of transactions involving the legal form of a lease", with effect from 1 January 2019, and established the requirements for accounting for lease contracts.

In accordance with the new standard, entities are required to decide whether a contract is (or contains) a lease, based on the concept of control of the use of an identified asset for a set period of time. As a result, rental, hire or free loan agreements come under the scope of the new rules.

In view of the above, significant changes have been made to the accounting for lease transactions in the financial statements of the lessee/user, with the introduction of a single accounting model for lease contracts for the lessee, based on the right-of-use model. Specifically, the main change consists of the elimination of the distinction between operating and finance leases, established by IAS 17: all lease contracts must therefore be accounted for in the same way with the recognition of an asset and a liability. Unlike the standards in force until 31 December 2018, the accounting model envisages the recognition of the right of use of the leased asset under the Balance Sheet Assets and the liabilities for lease payments not yet paid to the lessor under the Balance Sheet Liabilities. The method of recognition of the profit or loss components has also changed: in IAS 17 lease payments were shown under the caption Administrative Expenses, whereas under IFRS 16 the charges relating to the amortisation of the "right of use" and the interest expense on the payable are recognised.

In terms of disclosure, the minimum information required from the lessees includes:

- the sub-division of the leased assets among different "classes";
- an analysis by due date of the liabilities related to the leases;
- the information that is potentially helpful for a better understanding of the entity's activities with regard to the lease contracts (for example, prepayment or extension options).

However, there are no substantial changes, other than some additional disclosure requirements, for the accounting for leases by the lessors, where the current distinction is maintained between operating leases and finance leases.

In addition, in accordance with the requirements of IFRS 16 and the IFRIC clarifications ("Cloud Computing Arrangements" document of September 2018), software has been excluded from the scope of IFRS 16 and is therefore accounted for in accordance with IAS 38 and its requirements.

From 1 January 2019, the effects on the financial statements resulting from the adoption of IFRS 16 can be identified for the lessee – with the same income and final cash flows – as an increase in the assets recorded in the financial statements (leased assets), an increase in the liabilities (the payable for the leased assets), a reduction in administrative expenses (lease payments) and an accompanying increase in financial costs (the remuneration of the payable recognised) and depreciation (relating to the right of use). With regard to the income statement, when the entire term of the contracts is considered, the economic impact does not change over the period of the lease, both when the former IAS 17 or the new IFRS 16 are applied, but its distribution over time is different.

In 2018, the Intesa Sanpaolo Group initiated a specific project for the implementation of IFRS 16 – Leases, aimed at examining and determining the qualitative and quantitative impacts, and identifying and implementing the practical and organisational measures required for consistent, systematic and effective adoption within the Group as a whole and for each of its individual subsidiaries. From a procedural perspective, a specific application has been implemented at Group level (except for some companies located abroad, which have adopted a solution specific to their circumstances) for the determination of values according to IFRS 16.

The choices made by the Intesa Sanpaolo Group

It is worth noting some “general” choices made by the Intesa Sanpaolo Group regarding the methods of presentation of the effects of first-time adoption of the standard, as well as some rules to be applied upon full adoption for the accounting for lease contracts.

The Intesa Sanpaolo Group has chosen to carry out the first-time adoption (FTA) of IFRS 16 through the modified retrospective approach, which provides the option, established by the standard, of recognising the cumulative effect of the adoption of the standard at the date of first-time adoption and not restating the comparative information of the financial statements of first-time adoption of IFRS 16. As a result, the financial statement figures for 2019 will not be comparable with regard to the valuation of the rights of use and the corresponding lease liability. However, in the Report on Operations, the income statement and balance sheet figures affected by the standard have been restated – as at 1 January 2019 – to enable like-for-like comparison.

Upon first-time adoption, the Intesa Sanpaolo Group has adopted some of the practical expedients provided for in the standard in paragraph C10 and following. In particular, contracts with a remaining lease term of 12 months or less (“short term”) have not been included. The Group has not made any provisions for onerous leases measured pursuant to IAS 37 and recognised in the Financial Statements as at 31 December 2018.

Also after full adoption, the Group has also decided not to apply the new standard to contracts with a total lease term of 12 months or less and to contracts with a value of the underlying asset, when new, of 5,000 or less (“low value”). In this case, the lease payments for these leases are recognised as an expense – in the same way as in the past – on a straight-line basis for the lease term or on another systematic basis if that basis is more representative of the pattern of the lessee’s benefit.

With regard to the sale and leaseback agreements outstanding as at the date of first-time adoption, the Intesa Sanpaolo Group has applied to the leases resulting from these transactions, and previously classified as operating leases according to IAS 17 requirements, the same transition model for the other lease contracts as required by the IFRS 16.

A summary is provided below of some of the choices made by the Group regarding the treatment of leases on the lessee side, such as, for example, the contractual term, discount rate, and lease and non-lease components.

Contractual term

The lease term is determined by the non-cancellable period for which the Group has the right to use the underlying asset, also considering: (i) the periods covered by the option to extend the lease, if the lessee is reasonably certain to exercise that option; and (ii) the periods covered by the option to terminate the lease, if the lessee is reasonably certain not to exercise that option.

At the transition date and at the commencement date of each contract entered into after 1 January 2019, each Group Company has established the term of the lease, based on the facts and circumstances that exist at that date and that have an impact on the reasonable certainty of exercising the options included in the lease arrangements.

With regard to the real estate leases, the Group has decided to consider only the first renewal period for all new contracts (and as at the FTA date) as reasonably certain, unless there are particular contractual clauses, facts or circumstances that suggest that additional renewals should be considered or that determine the end of the lease.

On the basis of the characteristics of the Italian lease contracts and the provisions of Law 392/1978, in the event of the signing of a new lease contract with a contractual term of six years and the option to automatically renew the contract after six years for another six years, the total term of the lease will be at least twelve years. This general rule is superseded if there are new elements or specific situations within the contract.

For the international companies, each Legal Entity will apply the general rule of considering a renewal in the first period, unless local regulations and business decisions lead to different choices. In the latter case, the company must assess the reasonable certainty of exercising the option, taking into account both the requirements of the Standard and the strategy regarding the Real Estate contracts, the general business plan and the local laws and customs.

In line with the choice made for the real estate contracts, for the other types of leases, in which the contract includes a renewal clause, the Group has decided – for all the new contracts (and also at the FTA date) – to assess the reasonable certainty of exercising the option, taking into account both the requirements of the Standard and the strategy regarding the individual contracts.

Discount rate

With regard to the discount rate, based on the requirements of IFRS 16, the Group uses the implicit interest rate for each lease contract, when it is available. For leases from the lessee's point of view, in some cases, for example for rental agreements, the implicit interest rate cannot always be readily determined without using estimates and assumptions (the lessee does not have enough information about the unguaranteed residual value of the leased asset). In these cases, the Group has developed a methodology for setting the incremental interest rate as an alternative to the implicit interest rate and has decided to adopt the Funds Transfer Pricing (FTP) method. This is based on an unsecured and amortising rate curve, which envisages lease payments for the lease contract that are typically constant over the lease term, rather than a single payment upon maturity. The FTP method takes into account the creditworthiness of the lessee, the term of the lease, the Nature and quality of the collateral provided and the economic environment in which the transaction takes place and is therefore in line with the requirements of the standard.

Lease and non-lease components

The Group has also decided not to separate the service components from the lease components and to consequently recognise the entire contract as a lease, because the service components are not significant.

REGULATORY SECTION

Changes in regulatory framework

The Intesa Sanpaolo Group is subject to extensive regulation and supervision by the Bank of Italy, the Italian Securities and Exchange Commission (**CONSOB**), the European Central Bank (the **ECB**) and the European System of Central Banks and is also subject to the authority of the Single Resolution Board (**SRB**). Certain entities within the Intesa Sanpaolo Group are also subject to supervision by the Italian Institute for the Supervision of Insurance and the Issuer is also subject to rules applicable to it as an issuer of shares listed on the Milan Stock Exchange. The banking laws to which the Intesa Sanpaolo Group is subject govern the activities in which banks may engage and are designed to maintain the safety and soundness of such institutions and limit their exposure to risk. In addition, the Intesa Sanpaolo Group must comply with financial services laws that govern its marketing and selling practices. New acts of legislation and regulations are being introduced in Italy and the European Union that may affect the Intesa Sanpaolo Group, including proposed regulatory initiatives that could significantly alter the Intesa Sanpaolo Group's capital requirements.

The rules applicable to banks and other entities in banking groups include implementation of measures consistent with the regulatory framework set out by the Basel Committee on Banking Supervision (the **Basel Committee**).

In accordance with the regulatory frameworks described above and consistent with the regulatory framework being implemented at the European Union level, the Intesa Sanpaolo Group has in place specific procedures and internal policies to monitor, among other things, liquidity levels and capital adequacy, the prevention and detection of money laundering, privacy protection, ensuring transparency and fairness in customer relations and registration and reporting obligations. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the Intesa Sanpaolo Group's results of operations, business and financial condition. In addition, as at the date of this Base Prospectus, certain laws and regulations have only been recently approved and the relevant implementation procedures are still in the process of being developed.

The CRD IV Package

The Basel III framework began to be implemented in the EU from 1 January 2014 through Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the **CRD IV**) and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the **CRR** and together with the CRD IV, the **CRD IV Package**). Delegated Regulation (EU) 2015/61 and its supplements and the Implementing Regulation (EU) 2016/313. The CRD IV Package has been subsequently updated by Regulation (EU) No. 2019/876 (CRR II) and Directive (EU) No. 2019/878 ("**CRD V**").

Full implementation began on 1 January 2014, with particular elements being phased in over a period of time (the requirements have been largely fully effective by 2019 and some minor transitional provisions provide for phase-in until 2024). Further details on the implementation of the EU Banking Reform Package (as defined below) are provided in the paragraph "*Revisions to the CRD IV Package*" below.

In Italy the CRD IV has been implemented by Legislative Decree no. 72 of 12 May 2015 which impacts, *inter alia*, on:

- (a) proposed acquirers of credit institutions' holdings, shareholders and members of the management body requirements (Articles 22, 23 and 91 CRD IV);

- (b) competent authorities' powers to intervene in cases of crisis management (Articles 102 and 104 CRD IV);
- (c) reporting of potential or actual breaches of national provisions (so called whistleblowing, Article 71 CRD IV); and
- (d) administrative penalties and measures (Articles 64 and 65 CRD IV).

Moreover, the Bank of Italy published new supervisory regulations on banks in December 2013 (Circular of the Bank of Italy No. 285 of 17 December 2013 (the **Circular No. 285**)) which came into force on 1 January 2014, and has been amended over time in order to implement, inter alia, the CRD IV Package and set out additional local prudential rules concerning matters not harmonised at EU level. Circular No. 285 has been constantly updated after its first issue, the last update being the 34th update published on 22 September 2020. The CRD IV Package has also been supplemented in Italy by technical standards and guidelines relating to the CRD IV and the CRR finalized by the European Supervisory Authorities (ESAs), mainly the EBA and ESMA, and delegated regulations of the European Commission and guidelines of the EBA.

According to Article 92 of the CRR, institutions are required at all times to satisfy the following own funds requirements: (i) a Common Equity Tier 1 (**CET1**) capital ratio of 4.5%; (ii) a Tier 1 Capital ratio of 6%; and (iii) a Total Capital Ratio of 8%. According to Articles from 129 to 132 of CRD IV, these minimum ratios are complemented by the following capital buffers to be met with CET1 capital, reported below as applicable with reference to 31 December 2019:

- *Capital conservation buffer*: set at 2.5 per cent from 1 January 2019 (pursuant to Article 129 of the CRD IV and Part I, Title II, Chapter I, Section II of Circular No. 285, as amended in October 2016);
- *Counter-cyclical capital buffer (CCyB)*: set by the relevant competent authority between 0% - 2.5% of credit risk exposures towards counterparties each of the home Member State, other Member States and third countries (but may be set higher than 2.5 % where the competent authority considers that the conditions in the Member State justify this), with gradual introduction from 1 January 2016 and applying temporarily in the periods when the relevant national authorities judge the credit growth excessive (pursuant to Article 130 of the CRD IV and Part I, Title II, Chapter I, Section III of Circular No. 285). The Bank of Italy has set, and decided to maintain, the CCyB (relating to exposures towards Italian counterparties) at 0% for the fourth quarter of 2020;
- *Capital buffers for globally systemically important banks (G-SIBs)*: set as an "additional loss absorbency" buffer ranging from 1.0% to 3.5% determined according to specific indicators (size, interconnectedness, lack of substitutes for the services provided, global cross border activity and complexity); to be phased in from 1 January 2016 (pursuant to Article 131 of the CRD IV and Part I, Title II, Chapter I, Section IV of Circular No. 285) becoming fully effective on 1 January 2019. Based on the most recently updated list of globally systemically important institutions (**G-SIIs**) published by the Financial Stability Board (**FSB**) on 1 November 2020, neither the Issuer (nor any member of the Intesa Sanpaolo Group) is a G-SIB and therefore they do not need to comply with a G-SIB capital buffer requirement (or leverage ratio buffer); and
- *Capital buffers for other systemically important banks at a domestic level (O-SIIs)*: (the category to which Intesa Sanpaolo currently belongs): up to 2.0% as set by the relevant competent authority (reviewed at least annually), to compensate for the higher risk that such banks represent to the financial system (pursuant to Article 131 of the CRD IV and Title II, Chapter 1, Section IV of Circular No. 285. Recently, the Bank of Italy identified Intesa Sanpaolo Group as an O-SII authorised to operate in Italy in 2020, and has imposed on the Intesa Sanpaolo Group a capital buffer for O-SII of 0.75%, to be achieved according to a transitional period, as follows: 0.56% from 1 January 2020, 0.75% from 1 January 2021 and at 0.75% from 1 January 2022.

In addition to the above listed capital buffers, under Article 133 of the CRD IV each Member State may introduce a systemic risk buffer in order to prevent and mitigate long term non-cyclical systemic or macro-prudential risks not covered by the CRD IV Package. The Italian authorities have not introduced such a measure to date.

Failure by an institution to comply with the buffer requirements described above (the **Combined Buffer Requirement**) may trigger restrictions on distributions by reference to the so-called Maximum Distributable Amounts (**MDA**) and the need for the bank to adopt a capital conservation plan and/or take remedial action (Articles 141 and 142 of the CRD IV).

As part of the CRD IV Package transitional arrangements, as implemented by Circular No. 285, regulatory capital recognition of outstanding instruments which qualified as Tier 1 and Tier 2 capital instruments under the framework which the CRD IV Package has replaced that no longer meet the minimum criteria under the CRD IV Package are gradually being phased out. Fixing the base at the nominal amount of such instruments outstanding on 1 January 2013, their recognition was capped at 80% in 2014, with this cap decreasing by 10% in each subsequent year (see, in particular, Part Two, Chapter 14, Section 2 of Circular No. 285).

The CRD IV Package also introduced a Liquidity Coverage Ratio (the **LCR**). This is a stress liquidity measure based on modelled 30-day outflows. Commission Delegated Regulation (EU) 2015/61 of 10 October 2014 supplementing the CRR with regard to liquidity coverage requirement for credit institutions (the **LCR Delegated Act**) was adopted in October 2014 and published in the Official Journal of the European Union in January 2015. On 10 October 2018, amendments to the LCR Delegated Act were published in the Official Journal (Commission Delegated Regulation (EU) 2018/1620 of 13 July 2018) and has applied as of April 2020. Most of these amendments are related to the entry into force of the new securitisation framework on 1 January 2019. The Net Stable Funding Ratio (**NSFR**) is part of the Basel III framework and aims to promote resilience over a longer time horizon (one year) by creating incentives for banks to fund their activities with more stable sources of funding on an on-going basis. The NSFR has been introduced as a requirement in the CRR II published in June 2019 and will apply from June 2021.

Revisions to the CRD IV Package

On 23 November 2016, the European Commission presented a comprehensive package of reforms to further strengthen the resilience of EU banks and investment firms (the **EU Banking Reform Package**). The EU Banking Reform Package amends many existing provisions set out in the CRD IV Package, the BRRD and the SRM Regulation (as such terms are defined below). These proposals were agreed by the European Parliament, the Council of the EU and the European Commission and were published in the Official Journal of the EU on 7 June 2019, entering into force 20 days after, even though most of the provisions will apply as of 2 years from the entry into force, i.e. after the 28 June 2021, allowing for a smooth implementation of the new provisions.

The EU Banking Reform Package includes:

- (a) revisions to the standardised approach for counterparty credit risk;
- (b) changes to the market risk rules which include the introduction first of a reporting requirement, pending the implementation in the EU of the latest changes to the of the FRTB (as defined below) published in January 2019 by the BCBS and the application of own funds requirements as of 1 January 2023;
- (c) a binding leverage ratio (and related improved disclosure requirements) introduced as a backstop to risk-weighted capital requirements and set at 3% of an institution's Tier 1 capital;
- (d) a binding NSFR (which will require credit institutions and systemic investment firms to finance their long-term activities (assets and off-balance sheet items) with stable sources of funding (liabilities) in order to increase banks' resilience to funding constraints). This means that the amount of available stable funding will be calculated by multiplying an institution's liabilities and regulatory capital by appropriate factors that reflect their degree of reliability over a year.

The NSFR will be expressed as a percentage and set at a minimum level of 100%, indicating that an institution holds sufficient stable funding to meet its funding needs during a one-year period under both normal and stressed conditions. The NSFR will apply at a level of 100% at individual and a consolidated level starting from 28 June 2021, unless competent authorities waive the application of the NSFR on an individual basis as of two years after the date of entry into force of the EU Banking Reform Package

- (e) changes to the the large exposures limits, now calculated as the 25% of Tier 1; and
- (f) improved own funds calculation adjustments for exposures to SMEs and infrastructure projects.

In particular, on 7 June 2019, the legal acts of the “EU Banking Reform Package” regarding the banking sector have been published on the EU Official Journal. Such measures include, together with the amendments to the BRRD and to SRMR, (i) CRR II amending the CRR as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and (ii) CRD V amending the CRD IV as regards exempted entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures. The amendments proposed better align the current regulatory framework to international developments in order to promote consistency and comparability among jurisdictions.

Such measures entered into force on 27 June 2019, while a) the CRR II will be applicable from 28 June 2021, excluding some provisions with a different date of application (early or subsequent), b) the CRD V and BRRD 2 shall be implemented into national law by 28 December 2020 excluding some provisions which will be applicable subsequently (please see below).

Moreover, it is worth mentioning that the Basel Committee on Banking Supervision (**BCBS**) concluded the review process of the standardised models (for credit risk, counterparty risk, operational risk and market risk) for the calculation of minimum capital requirements, including constraints on the use of internal models and introducing the so-called "output floor" (setting a minimum level of capital requirements calculated on the basis of internal models equal, when fully implemented, to 72.5% of those calculated on the basis of the standardised methods). The main purpose is to enhance consistency and comparability among banks. The new framework was finalised for market risk in 2016 and finally revised in January 2019. The new framework for credit risk and operational risk was completed in December 2017. Prior to becoming binding on the European banking system, the European Commission, which conducted a public consultation (closed on 3 January 2020) is assessing the potential impacts on the European economy. It is expected that the future legislative proposal (**CRR III**), which should incorporate these new standards into EU legislation, will be published in the first half of 2021. Once agreed on the final text between the various stakeholders involved in the legislative process (European Commission, European Parliament and Council of the EU) and once implemented in the Union, these regulatory changes will impact the entire banking system and consequently could determine changes in the capital calculation and increase capital requirements. The analysis carried out by the European Banking Authority (EBA), published in December 2019 upon request of the European Commission, shows that the adoption of the new Basel III criteria would require banks to increase minimum capital requirements (**MCR**) by 23.6%, resulting in a current capital deficit of €124 billion. On 21 August 2020, the EBA has been requested by the European Commission to update further its figured and published the new impact analysis on 15 December 2020. The overall impact is presented under two implementation scenarios: the first one updates the impact presented in the previous CfA reports; the second one considers the additional features requested by the European Commission in its CfA, i.e. applying the SME supporting factors on top of the Basel SME preferential risk weight treatment; maintaining EU CVA exemptions; exercising the jurisdictional discretion contemplated in the Basel III framework to exclude the bank-specific historical loss component from the calculation of the capital for operational risk (ILM=1). Under the Basel III scenario, the steady-state implementation of the overall reform scheduled for January 2028 could increase the minimum required capital (MRC) amount, which includes Pillar 2

requirements and EU-specific buffers, by +18.5% with respect to the December 2019 baseline. Under the EU-specific scenario, steady-state implementation of the final Basel III framework (i.e. 2028) could increase the MRC amount by +13.1% with respect to the December 2019 baseline.

On 4 May 2020, EBA published its final draft technical standards on specific reporting requirements for market risk, in accordance with the mandate set out in the provisions of the CRR II.

In particular, the implementing technical standards (ITS) introduced uniform reporting templates, the template related instructions, the frequency and the dates of the reporting, the definitions and the IT solutions for the specific reporting for market risk. These ITS introduce the first elements of the Fundamental Review of the Trading Book (FRTB) into the EU prudential framework by means of a reporting requirement. The ITS are expected to apply from September 2021.

Revisions to the Basel III framework

In December 2017, the Basel Committee published its final set of amendments to its Basel III framework (known informally as **Basel IV**). Basel IV is expected to introduce a range of measures, including:

- (i) changes to the standardised approach for the calculation of credit risk;
- (ii) limitations to the use of IRB approaches, mainly banks will be allowed to use the F-IRB approach and the SA, only for specialised lending the A-IRB will be still used;
- (iii) a new framework for determining an institution's operational risk charge, which will be calculated only by using a new standardised approach;
- (iv) an amended set of rules in relation to credit valuation adjustment; and
- (v) an aggregate output capital floor that ensures that an institution's total risk weighted assets (**RWA**) generated by IRB models are no lower than 72.5% of those generated by the standardised approach.

According to the Basel Committee, Basel IV should be introduced as a global standard from January 2022, with the output capital floor being phased-in (starting at 50% from 1 January 2022 and reaching 72.5% as of 1 January 2025). In this occasion, the Basel Committee postponed the suggested implementation date for the Fundamental Review of the Trading Book (**FRTB**) to January 2022 to allow it to finalise the remaining elements of the framework and align the implementation date with the other Basel IV reforms.

Additional reforms to the banking and financial services sector

In addition to the substantial changes in capital and liquidity requirements introduced by Basel IV and the EU Banking Reform Package there are several other initiatives, in various stages of finalisation, which represent additional regulatory pressure over the medium term and have the potential to impact the Intesa Sanpaolo Group's business and operations. These initiatives include, amongst others, a revised EU securitisation framework. On 12 December 2017, the European Parliament adopted the Regulation (EU) 2017/2402 (the **Securitisation Regulation**) which entered into force in January 2019, while a number of underlying regulatory and implementing technical standards delivered by the EBA and European Securities and Markets Authority are being adopted. The Securitisation Regulation introduced changes to the existing securitisation framework in relation to the nature of the risk retention obligation and due diligence requirements, the introduction of an adverse selection test for certain assets and a new framework for so-called "simple transparent and standardised securitisations" which will receive preferential capital treatment subject to a number of conditions.

On 9 November 2015 the Financial Stability Board (**FSB**) published its final Total Loss-Absorbing Capacity (**TLAC**) Principles and Term Sheet, proposing that G-SIBs maintain significant minimum amounts of liabilities that are subordinated (by law, contract or structurally) to liabilities excluded from TLAC, such as guaranteed insured deposits, derivatives, etc. and which forms a new standard for G-SIBs. The TLAC Principles and Term Sheet contains a set of principles on loss absorbing and recapitalisation capacity of G-SIBs in resolution and a term sheet for the implementation of these principles in the form of an internationally agreed standard. The TLAC Principles and Term Sheet require a minimum TLAC requirement for each G-SIB at the greater of (a) 16% of RWA (as of 1 January 2019) and 18% of RWA (as of 1 January 2022), and (b) 6% of the Basel III Tier 1 leverage ratio requirement (as of 1 January 2019), and 6.75 % (as of 1 January 2022). Liabilities that are eligible for TLAC include capital instruments and instruments that are contractually, statutorily or structurally subordinated to certain "excluded liabilities" (including insured deposits and liabilities that cannot be effectively written down or converted into equity by relevant authorities) in a manner that does not give rise to a material risk of compensation claims or successful legal challenges.

With a view to ensuring full implementation of the TLAC standard in the EU, the EU Banking Reform Package and the BRRD2 (as defined below) introduces minimum requirements for own funds and eligible liabilities (**MREL**) applicable to G-SIIs (global systematically important institutions) with the TLAC standard and to allow resolution authorities, on the basis of bank-specific assessments, to require that G-SIIs comply with a supplementary MREL requirement strictly linked to the resolvability analysis of a given G-SII. Neither the Issuer nor any member of the Intesa Sanpaolo Group has been identified as a G-SIB in the 2019 list of global systematically important banks published by the FSB on 11 November 2020.

The BRRD2 includes important changes as it introduces a new category of banks, so called top-tier banks, being banks which are resolution entities that are not G-SIIs but are part of a resolution group whose total assets exceed EUR 100 billion (please see below). ISP is a top-tier bank for this purpose. At the same time, the BRRD2 introduces a minimum harmonised MREL requirement (also referred to as a **Pillar 1 MREL requirement**) which applies to G-SIIs and also top-tier banks. In addition, resolution authorities will be able, on the basis of bank-specific assessments, to require that G-SIIs and top-tier banks comply with a supplementary MREL requirement (a **Pillar 2 MREL requirement**). A subordination requirement is also generally required for MREL eligible liabilities under BRRD2, but exceptions apply.

In order to ensure compliance with MREL requirements, and in line with the FSB standard on TLAC, the BRRD2 provides that in case a bank does not have sufficient eligible liabilities to comply with its MREL requirements, the resultant shortfall is automatically filled up with CET1 Capital that would otherwise be counted towards meeting the combined capital buffer requirement. However, under certain circumstances, BRRD2 envisages a nine-month grace period before restrictions to discretionary payments to the holders of regulatory capital instruments, senior management of the bank and employees take effect due to a breach of the combined capital buffer requirement.

On 12 March 2018, the European Commission published a proposal for a directive on covered bonds (the **CB Directive Proposal**) laying down the conditions that these bonds have to respect in order to be recognised under EU law and a proposal for amendments to art. 129 of the CRR, concerning the prudential treatment of covered bonds. The CB Directive Proposal together with amendments to art 129 of the CRR have been approved and published in the Official Journal on 18 December 2019. Member States have 18 months to implement the directive. For further details, please see "*Covered Bond Legislative Package*" below.

At national level, on 14 June 2018, the Bank of Italy issued for consultation a revision of the Circular No. 285 to anticipate, in part, the provisions of the CB Directive Proposal. On 1 October 2018, the amendment no. 23 of 25 September 2018 to the Circular no. 285 entered into force, which revises the rules regarding covered bonds in order to allow smaller banking institutions to issue them.

ECB Single Supervisory Mechanism

On 15 October 2013, the Council of the European Union adopted Council Regulation (EU) No. 1024/2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the **SSM Regulation**) for the establishment of a single supervisory mechanism (the **Single Supervisory Mechanism** or **SSM**). The SSM Regulation provides the ECB, in conjunction with the national competent authorities of the Eurozone and participating Member States, with direct supervisory responsibility over "banks of significant importance" in those Member States. "Banks of significant importance" include any Eurozone bank in relation to which (i) the total value of its assets exceeds €30 billion or – unless the total value of its assets is below €5 billion – the ratio of its total assets over the national gross domestic product exceeds 20% ; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism and/or (iv) is considered by the ECB to be of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities. Intesa Sanpaolo S.p.A. and the Intesa Sanpaolo Group have been classified, respectively, as a significant supervised entity and a significant supervised group pursuant to the SSM Regulation and Regulation (EU) No. 468/2014 of the European Central Bank of 16 April 2014 (the **SSM Framework Regulation**) and, as such, are subject to direct prudential supervision by the ECB.

The relevant national competent authorities continue to be responsible, in respect of Intesa Sanpaolo and its subsidiaries, for supervisory functions not conferred on the ECB, such as consumer protection, money laundering, payment services, and supervision over branches of third country banks. The ECB is exclusively responsible for the prudential supervision of Intesa Sanpaolo Group, which includes, *inter alia*, the power to: (i) authorise and withdraw authorisation; (ii) assess acquisition and disposal of holdings; (iii) ensure compliance with all prudential requirements laid down in general EU banking rules; (iv) set, where necessary, higher prudential requirements to protect financial stability under the conditions provided by EU law; (v) ensure compliance with robust corporate governance practices and internal capital adequacy assessment controls and (vi) intervene at the early stages when risks to the viability of a bank exist, in coordination with the relevant resolution authorities. The ECB may exercise options and discretions under the SSM and SSM Framework Regulation in relation to the Intesa Sanpaolo Group.

The Intesa Sanpaolo Group is subject to the provisions of the EU Bank Recovery and Resolution Directive

On 2 July 2014, the directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU) (the **BRRD**) entered into force. The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an institution that is failing or likely to fail so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system. The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation - which enables resolution authorities to transfer assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only) and (iv) bail-in - which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims into shares or other instruments of ownership (i.e. other

instruments that confer ownership, instruments that are convertible into or give the right to acquire shares or other instruments of ownership, and instruments representing interests in shares or other instruments of ownership) (the **general bail-in tool**). Such shares or other instruments of ownership could also be subject to any exercise of such powers by a resolution authority under the BRRD.

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down/convert into shares or other instruments of ownership at the point of non-viability and before any other resolution action is taken (**non-viability loss absorption**). Any shares or other instruments of ownership issued upon any such conversion into shares or other instruments of ownership may also be subject to the application of the general bail-in tool. The point of non-viability under the BRRD is the point at which the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or that the institution or its group will no longer be viable unless the relevant capital instruments are written-down/converted or extraordinary public support is to be provided.

Resolution authorities have the power to amend or alter the maturity of certain debt instruments issued by an institution under resolution, amend the amount of interest payable under such instruments, the date on which the interest becomes payable (including by suspending payment for a temporary period) and to restrict the termination rights of holders of such instruments. The BRRD also provides for a Member State, after having assessed and exhausted the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. Resolution authorities may provide public equity support to an institution and/or take the institution into public ownership. Such measures must be taken in accordance with the EU state aid framework and will require a contribution to loss absorption from shareholders and creditors via write-down, conversion or otherwise, in an amount equal to at least 8 % of total liabilities (including own funds).

As an exemption from these principles, the BRRD allows for three kinds of extraordinary public support to be provided to a solvent institution without triggering resolution: 1) a State guarantee to back liquidity facilities provided by central banks according to the central banks' conditions; 2) a State guarantee of newly issued liabilities; or 3) an injection of own funds in the form of precautionary recapitalisation. In the case of precautionary recapitalization EU state aid rules require that shareholders and junior bond holders contribute to the costs of restructuring.

The BRRD requires all EU Member States to create a national, prefunded resolution fund (reaching a level of at least 1 % of covered deposits by 2024). The national resolution fund for Italy was created by the Bank of Italy on 18 November 2015 in accordance with Article 78 of Legislative Decree No. 180/2015 implementing the BRRD (the **National Resolution Fund**) and required both ordinary and extraordinary contributions to be made by Italian banks and investment firms, including the Issuer. In the Eurozone, the national resolution funds set up under the BRRD were replaced by the Single Resolution Fund in the relevant Member State (the **SRF** or the **Fund**), set up under the control of the SRB, as of 1 January 2016 and the national resolution funds are being pooled together gradually. The SRF is intended to ensure the availability of funding support while a bank is resolved and will contribute to resolution if, and only after, at least 8 % of the total liabilities (including own funds) of the bank have been subject to bail-in. The SRF is expected to reach a target of around €60 billion (the basis being 1 per cent. of the covered deposits in the financial institutions of the Eurozone). Once this target level is reached, in principle, institutions will have to contribute only if the resources of the SRF are used up in order to deal with resolution action taken by the relevant authorities. The BRRD has been implemented in Italy through the adoption of two Legislative Decrees by the Italian Government, namely, Legislative Decrees No. 180/2015 and 181/2015 (together, the **BRRD Decrees**), both of which were published in the Italian Official Gazette (*Gazzetta Ufficiale*) on 16 November 2015. Legislative Decree No. 180/2015 is a stand-alone law which implements the provisions of BRRD relating to resolution actions, while Legislative Decree No. 181/2015 amends the existing Banking Law (Legislative Decree No. 385 of 1 September 1993, as amended) and deals principally with recovery plans, early intervention and changes to the creditor hierarchy. The BRRD Decrees entered into force on 16 November, 2015, save that: (i) the bail-in tool applied from 1 January 2016; and (ii) a "depositor preference" granted for deposits other than those protected by the

deposit guarantee scheme and excess deposits of individuals and SME's applied from 1 January 2019.

It is important to note that, pursuant to Article 49 of Legislative Decree No. 180/2015, resolution authorities may not exercise the bail-in powers in relation to secured liabilities, including covered bonds or their related hedging instruments, save to the extent that these powers may be exercised in relation to any part of a secured liability (including covered bonds and their related hedging instruments) that exceeds the value of the assets, pledge, lien or collateral against which it is secured. The BRRD specifically contemplates that *pari passu* ranking liabilities may be treated unequally.

Certain categories of liability are subject to the mandatory exclusions from bail-in foreseen in Article 44(2)(g) of the BRRD. For instance, most forms of liability for taxes, social security contributions or to employees benefit from privilege under Italian law and as such are preferred to ordinary senior unsecured creditors in the context of liquidation proceedings. Article 108 of the BRRD requires that Member States modify their national insolvency regimes such that deposits of natural persons and micro, small and medium sized enterprises in excess of the coverage level contemplated by deposit guarantee schemes created pursuant to the BRRD have a ranking in normal insolvency proceedings which is higher than the ranking which applies to claims of ordinary, unsecured, non-preferred creditors. In addition, the BRRD does not prevent Member States, including Italy, from amending national insolvency regimes to provide other types of creditors, with rankings in insolvency higher than ordinary, unsecured, non-preferred creditors. Legislative Decree No. 181/2015 has amended the creditor hierarchy in the case of admission of Italian banks and investment firms to resolution as well as compulsory liquidation procedures by providing that, as from 1 January 2019, all deposits other than those protected by the deposit guarantee scheme and excess deposits of individuals and SMEs will benefit from a preference in respect of senior unsecured liabilities, though with a ranking which is lower than that provided for individual/SME deposits exceeding the coverage limit of the deposit guarantee scheme. On 25 October 2017 the European Parliament, the Council and the European Commission agreed on elements of the review of the BRRD. As part of this process Article 108 of the was amended by Directive (EU) 2017/2399. Member States were required to adopt and publish relevant laws, regulations and administrative provisions necessary to comply with the amendment to the creditor hierarchy by 29 December 2018. The recognition of the new class of so called "senior non-preferred debt" has been implemented in the EU through the Directive (EU) 2017/2399 of the European Parliament and of the Council of 12 December 2017 amending BRRD as regards the ranking of unsecured debt instruments in insolvency hierarchy. In Italy, the Directive has been implemented with the law No. 205/2017, modifying article 12bis of the Consolidated Banking Act.

Legislative Decree No. 181/2015 has also introduced strict limitations on the exercise of the statutory rights of set-off normally available under Italian insolvency laws, in effect prohibiting set-off by any creditor in the absence of an express agreement to the contrary.

The BRRD also established that institutions shall meet, at all times, their MREL requirement. Under Article 45 of the BRRD, MREL is to be calculated as the amount of own funds and eligible liabilities expressed as a percentage of total liabilities and own funds of the institution.

Revisions to the BRRD framework

The EU Banking Reform Package includes Directive (EU) 2019/879, which provides for a number of significant revisions to the BRRD (known as **BRRD2**). BRRD2 provides that Member States are required to ensure implementation into local law by 28 December 2020 with certain requirements relating to the implementation of the TLAC standard applying from January 2022 while the transitional period for full compliance with MREL requirements is foreseen until 1 January 2024, with interim targets for a linear build-up of MREL set at 1 January 2022. The EU Banking Reform Package includes, amongst other things:

- (a) full implementation of the FSB's TLAC standard in the EU and revisions to the existing MREL regime. Additional changes to the MREL framework include changes to the calculation methodology for MREL, criteria for the eligible liabilities which can be considered as MREL, the introduction of internal MREL and additional reporting and disclosure requirements on institutions;

- (b) introduction of a new category of "top-tier" banks, being banks which are resolution entities that are not G-SIIs but are part of a resolution group whose total assets exceed EUR 100 billion;
- (c) the introduction of a new moratorium power for resolution authorities and requirements on the contractual stays in resolution; and
- (d) amendments to the article 55 regime in respect of the contractual recognition of bail-in.

Changes to the BRRD under BRRD2 will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

Intesa Sanpaolo Group is subject to the provisions of the Regulation establishing the Single Resolution Mechanism

On 19 August 2014, the Regulation (EU) No. 806/2014 establishing a Single Resolution Mechanism (the **SRM Regulation**) entered into force. The SRM Regulation became operational on 1 January 2016. There are, however, certain provisions including those concerning the preparation of resolution plans and provisions relating to the cooperation of the SRB with national resolution authorities, which entered into force on 1 January 2015. The SRM Regulation was subsequently updated with the EU Banking Reform Package in June 2019. The SRM Regulation, which complements the SSM (as defined above), applies to all banks supervised by the SSM. It will mainly consist of the SRB and the SRF.

The Single Resolution Mechanism framework ensures that, instead of national resolution authorities, there will be a single authority – i.e. the SRB – which takes all relevant decisions for the resolution of banks being supervised by the SSM and part of the Eurozone. In line with the changes to BRRD2 described above, revisions to the provisions of the SRM Regulation (in relation to MREL) are due to change in due course.

Regulatory and supervisory framework on non-performing exposures

Among the measures adopted at European level in order to reduce non-performing exposures within adequate levels, worth mentioning the followings:

Guidance to banks on non-performing loans published by ECB on 20 March 2017 and Addendum to the Guidance to banks on non-performing loans published by ECB on 15 March 2018: the NPL guidance contains recommendations and lays out the bank's approach, processes and objectives regarding the effective management of the exposures. The guidance addresses all non-performing exposures (NPEs), as well as foreclosed assets, and also touches on performing exposures with an elevated risk of turning non-performing, such as "watch-list" exposures and performing forborne exposures. According to the guidance, the banks need to establish a strategy to optimize their management of NPLs based on a self assessment of the internal capabilities to effectively manage; the external conditions and operating environment; and the impaired portfolios specifications.

On 15 March 2018, the ECB published the Addendum to the Guidance on NPL which sets out supervisory expectations for the provisioning of exposures reclassified from performing to nonperforming exposures (NPEs) after 1 April 2018 (the ECB Addendum). In addition, the ECB's bank-specific supervisory expectations for the provisioning of the stock of NPLs (before 31 March 2018), was set out in its 2018 supervisory review and evaluation process (SREP) letters and the ECB will discuss any divergences from these prudential provisioning expectations with institutions as part of future SREP exercises.

On 22 August 2019, the ECB has decided to revise its supervisory expectations for prudential provisioning of new non-performing exposures. The decision was made after taking into account the adoption of Regulation (EU) 2019/630 amending the CRR (Regulation (EU) No 575/2013) as regards minimum loss coverage for non-performing exposures was published in the Official Journal of the EU on 25 April 2019, known as the "Pillar 1 backstop Regulation", that introduce Pillar 1 provisioning requirements, following principles similar to those already guiding the finalisation of the ECB Addendum.

The initiatives that originate from the ECB are strictly supervisory (Pillar II) in nature. In contrast, the European Commission's requirement is legally binding (Pillar I). Therefore, the above mentioned guidelines result in three "buckets" of NPEs based on the date of the exposure's origination and the date of NPE's classification:

- Loans classified as NPEs before 31 March 2018 (Pillar II - Stock): 2/7 years vintage buckets for unsecured/secured NPEs, subject to supervisory coverage recommendations and phase-in paths as communicated in SREP letters;
- Loans originated before 26 April 2019 (Pillar II – ECB Flows) and classified as NPEs after 31 March 2018: 3/7/9 years vintage buckets for unsecured/secured other than by immovable property/secured by immovable property, progressive path to 100%. NPEs guaranteed or insured by an official export credit agency are subject to a special treatment, i.e. coverage expectation of 100% is applicable to export credit exposures after more than 7 years of NPE status;
- Loans originated on or after 26 April 2019 (Pillar I – CRR Flows) and classified as NPEs: 3/7/9 years vintage buckets for unsecured/secured other than by immovable property/secured by immovable property, progressive path to 100%. NPEs guaranteed or insured by an official export credit agency are subject to a special treatment, i.e. coverage expectation of 100% is applicable to export credit exposures after more than 7 years of NPE status.

Action plan to address the problem of non-performing loans in the European banking sector published by the European Council on 11 July 2017: the action plan outlines an approach based on a mix of four policy actions: the bank supervision; the reform of insolvency and debt recovery frameworks; the development of secondary markets for NPLs; promotion of the banking industry restructuring. An updated Action Plan will be published in December 2020

Guidelines on management of non-performing and forborne exposures published by EBA on 31 October 2018: the Guidelines aim to ensure that credit institutions have adequate tools and frameworks in place to manage effectively their non-performing exposures (NPEs) and to substantially reduce the presence of NPEs in the financial statements. Only for significant credit institutions with a gross NPL ratio above 5%, EBA asked to introduce specific strategies, in order to achieve a reduction of NPEs, and governance and operational requirements to support them.

Guidelines on disclosure of non-performing and forborne exposures published by EBA on 17 December 2018: in force since 31 December 2019, the Guidelines set enhanced disclosure requirements and uniform disclosure formats applicable to credit institutions' public disclosure of information regarding nonperforming exposures, forborne exposures and foreclosed assets.

Regulation (EU) 2019/630 amending CRR as regards minimum loss coverage for non-performing exposures: the Regulation establishes, in the context of Pillar I, the prudential treatment of the non-performing exposures where loans were originated prior to 26 April 2019, requiring a deduction from own funds where NPEs are not sufficiently covered by provisions or other adjustments. The Regulation purpose is to encourage a timely and proactive management of the NPEs. Loans are divided in vintage buckets of 3/7/9 years and a progressive coverage path is applied for each bucket. A 100% coverage is applicable to: (i) unsecured exposures from the third year after the classification as NPE, (ii) exposures secured by immovable collateral and residential loans guaranteed by an eligible protection provider as defined in CRR, from the ninth year after the classification as NPE.

Opinion on the regulatory treatment of non-performing exposure securitisations published by EBA on 23 October 2019: the Opinion recommends to adapt the CRR and the Regulation (EU) 2017/2401 (**Securitisation Regulation**) to the particular characteristics of NPEs by removing

certain constraints imposed by the regulatory framework on credit institutions using securitisation technology to dispose of NPE holdings. In preparing its proposal to the Commission, the EBA outlines the fact that the securitisations can be used to enhance the overall market capacity to absorb NPEs at a faster pace and larger rate than otherwise possible through bilateral sales only, as a consequence of securitisations' structure in tranches of notes with various risk profiles and returns, which may attract a more diverse investor pool with a different Risk Appetite. The European Commission tabled a legislative proposal on 24 July 2020, on the basis of the EBA Opinion and the BCBS draft technical amendment for the capital treatment of the securitisation of NPEs (please see below). The BCBS published its final technical amendment on 26 November 2020 and the EU legislative procedure is expected to be completed by the end of 2020.

Measures to counter the impact of the "COVID-19" virus

In recent months, European and national authorities have undertaken several measures to support the banking and financial market to counter the economic effects of COVID-19.

On 10 March 2020, through an addendum to the 2019 credit agreement between ABI and the Business Associations, the possibility of requesting suspension or extension was extended to loans granted until 31 January 2020. The moratorium refers to loans to micro, small and medium-sized companies affected by COVID-19 outbreak. The capital portion of loan repayment instalments may be requested to be suspended for up to one year. The suspension is applicable to medium/long-term loans (mortgages), including those concluded through the issue of agricultural loans, and to property or business assets leasing transactions. In the latter case, the suspension concerns the implicit capital instalments of the leasing. On 21 April 2020, through an agreement entered into with the consumer associations, the moratorium was extended to credit to households, including the suspension of the principal portion of mortgage-backed loans and unsecured loans repayable in instalments.

On 11 March 2020, ESMA, considering the spread of COVID-19 and its impact on the EU financial markets, issued 4 recommendations on the following areas: (1) business continuity planning, (2) market disclosure, (3) financial reporting and (4) fund management.

Business Continuity Planning: ESMA has recommended all financial market participants to be ready to apply their contingency plans to ensure operational continuity in line with regulatory obligations.

Market disclosure: issuers should disclose as soon as possible any relevant significant information concerning the impacts of COVID-19 on their fundamentals, prospects or financial situation in accordance with their transparency obligations under the Regulation (EU) No. 596/2014 (MAR), as a disclosure obligation contained in Article 17, paragraph 1 of the MAR, pursuant to which issuers are required to disclose to the public without delay any inside information directly concerning them.

Financial reporting: ESMA has recommended issuers to provide transparency on the actual and potential impacts of COVID-19, to the extent possible based on both a qualitative and quantitative assessment on their business activities, financial situation and economic performance in their 2019 year-end financial report if these have not yet been finalised or otherwise in their interim financial reporting disclosures.

Fund Management: ESMA has encouraged fund managers to continue to apply the requirements on risk management and to react accordingly.

The European Central Bank (ECB), at its monetary policy meeting held on 12 March 2020, decided to adopt a comprehensive set of monetary policy measures, consisting of three key elements: first, safeguarding liquidity conditions in the banking system through a series of favourably-priced longer-term refinancing operations (LTROs); second, protecting the continued flow of credit to the real economy through a fundamental recalibration of targeted longer-term

refinancing operations (TLTROs); and, third, preventing financing conditions for the economy tightening in a pro-cyclical way via an increase in the asset purchase programme (APP).

As regards LTROs these will be carried out through a fixed rate tender procedure with full allotment. They will be priced very attractively, with an interest rate that is equal to the average rate on the deposit facility of ECB. These new LTROs will provide liquidity on favourable terms to bridge the period until the TLTRO III operation in June 2020.

As regards TLTRO, the Governing Council decided to apply considerably more favourable terms during the period from June 2020 to June 2021 to all TLTRO III operations outstanding during that time. Throughout this period, the interest rate on these TLTRO III operations will be 25 basis points below the average rate applied in the Eurosystem's main refinancing operations.

Lastly, the Governing Council also decided to add a temporary envelope of additional net asset purchases of €120 billion until the end of the year, ensuring a strong contribution from the private sector purchase programmes.

On 12 March 2020, the ECB Banking Supervision leg, the Single Supervisory Mechanism (SSM), published the first supervisory response to provide banks with a temporary capital and operational relief. According to the ECB statements: i) banks are allowed to operate temporarily below the level of capital defined by the Pillar 2 Guidance (P2G), the capital conservation buffer (CCB) and the liquidity coverage ratio (LCR) to release resources for financing households and undertakings; ii) the ECB encourages also national macroprudential authorities to relax the countercyclical capital buffer (CCyB); iii) banks are allowed to partially use capital instruments that do not qualify as Common Equity Tier 1 (CET1) capital to meet the Pillar 2 Requirements (P2R), for example Additional Tier 1 (AT1) or Tier 2 instruments; iv) banks will discuss with the ECB further individual measures, such as modified timetables, processes and deadlines (e.g. for on-site inspections or remedial actions); v) flexibility will be granted for the application of the ECB Guidance to banks on non-performing loans to adjust to bank's specific situation due to Covid-19.

Among the various measures adopted by the Italian government to address the epidemiological emergency due to COVID-19 outbreak, on 17 March 2020 Law Decree No. 18 (Cura Italia Decree) has been adopted. The Cura Italia Decree has introduced special measures derogating from the ordinary proceeding of the Guarantee Fund for SMEs in order to simplify the requirements for access to the guarantee and strengthen the intervention of the Guarantee Fund for SMEs itself, as well as the possibility of transforming the DTA relating to losses that can be carried forward but not yet deducted and to the amount of the ACE notional return exceeding the total net income, to the extent of 20% of the impaired loans sold by 31 December 2020.

On 20 March 2020, the ECB announced additional measures (in addition to those already undertaken on 12 March 2020 on temporary capital and operational relief for banks) to ensure that its directly supervised banks can continue to fulfil their role to fund households and corporations amid the coronavirus-related economic shock to the global economy. The ECB published also a detailed FAQ on the measures adopted with the aim of updating it as needed. In particular, the ECB recommends to:

- give banks further flexibility in prudential treatment of loans backed by public guarantees, by extending to them the preferential treatment foreseen in its Guidance for NPLs for loans guaranteed or insured;
- encourage banks to avoid excessive procyclical effects when applying the IFRS 9 international accounting standard;
- activate capital and operational relief measures announced on 12 March 2020.

On 25 March 2020, the EBA and ESMA published detailed statements to address IFRS 9 accounting issues due to the Covid-19 outbreak and linked to the exceptional measures taken by banks and Governments to address the situation, which affected compliance with the EBA Guidelines on the definition of default (DoD) and forbearance/past-due classifications of loans.

The EBA statement of 25 March explained the functioning of the prudential framework in relation to the exposures in default, the identification of forborne exposures and impaired exposures in accordance with IFRS 9. In particular, EBA has clarified some additional aspects of the operation of the prudential framework concerning:

- i. the classification of exposures in default;
- ii. the identification of forborne exposures;
- iii. the accounting treatment of the aforesaid exposures

Specifically, the EBA repeated the concept of flexibility in the application of the prudential framework, clarifying that an exposure should not be automatically reclassified as (i) exposure in default, (ii) forborne exposure, or (iii) impaired exposure under International Financial Reporting Standard - IFRS9, in case of adoption of credit tolerance measures (such as debt moratorium) by national governments.

The ESMA statement of 25 March 2020 provided guidance on the application of IFRS 9 (Financial Instruments) addressed to issuers and auditors with regard to the calculation of expected losses and related disclosure requirements, in particular, as regards, the suspension (or deferral) of payments established for credit agreements (e.g. moratorium on debt) that impact the calculation of Expected Credit Loss (ECL) under the principles set forth in IFRS 9. On 20 May 2020, ESMA published a Public Statement addressing the implications of the COVID-19 pandemic on the half-yearly financial reports of listed issuers (the **Public Statement**). The Public Statement provided recommendations on areas of focus identified by ESMA and highlighted: i) the importance of providing relevant and reliable information, which may require issuers to make use of the time allowed by national law to publish half-yearly financial reports while not unduly delaying the timing of publication; ii) the importance of updating the information included in the latest annual accounts to adequately inform stakeholders of the impacts of COVID-19, in particular in relation to significant uncertainties and risks, going concern, impairment of non-financial assets and presentation in the statement of profit or loss; and iii) the need for entity-specific information on the past and expected future impact of COVID-19 on the strategic orientation and targets, operations, performance of issuers as well as any mitigating actions put in place to address the effects of the pandemic. The Public Statement was conceived to be applicable also to financial statements in other interim periods when IAS 34 Interim Financial Reporting is applied. It called on the management, administrative and supervisory bodies, including audit committees, of issuers and, where applicable, their auditors, to take due consideration of the recommendations included within the statement.

On 27 March 2020, the Basel Committee's oversight body, the Group of Central Bank Governors and Heads of Supervision (GHOS), has deferred Basel III implementation to increase operational capacity of banks and supervisors to respond to the immediate financial stability priorities resulting from the impact of the Covid19 on the global banking system.

The measures endorsed by the GHOS comprise the following changes to the implementation timeline of the outstanding Basel III standards:

- the implementation date of the Basel III standards finalised in December 2017 has been deferred by one year to 1 January 2023. The accompanying transitional arrangements for the output floor has also been extended by one year to 1 January 2028.

- the implementation date of the revised market risk framework finalised in January 2019 has been deferred by one year to 1 January 2023.
- the implementation date of the revised Pillar 3 disclosure requirements finalised in December 2018 has been deferred by one year to 1 January 2023.

On 27 March 2020, the European Central Bank published a recommendation addressed to significant banks to refrain from paying dividends and from share buy-backs aimed at remunerating shareholders for the duration of the economic shock related to COVID-19. ECB has decided to extend the recommendation on dividends until 1 January 2021 with the New recommendation BCE/2020/35 that repeals Recommendation ECB 2020/19 of March 27.

On 1 April 2020, the ECB provided banks with further clarifications on the use of forecasts for the Expected Credit Loss (ECL) calculations under IFRS 9, after having invited banks to opt, if not done before, for applying the IFRS 9 five-year transitional arrangements included in the CRR to mitigate the First Time Application (FTA) capital impact of the new accounting principle.

On 2 April 2020, the EBA published more detailed guidance on the criteria to be fulfilled by legislative and non-legislative moratoria applied before 30 June 2020. The Guidelines acknowledged that Member States have implemented a broad range of support measures in order to minimise the medium- and long-term economic impacts of the efforts taken to contain the COVID-19 pandemic. In light of this, the EBA Guidelines clarify several aspects of payment moratoria, such as that they do not automatically trigger the classification as forborne or distressed restructuring if the measures taken are based on the applicable national law or on an industry or sector-wide private initiative agreed and applied broadly by the relevant credit institutions. In June 2020, the EBA further extended the application date of its Guidelines by three months, from until 30 September 2020, and on the 21 September, communicated its phasing-out. However, on 2 December 2020 the Guidelines were reactivated until 31 March 2021.

In continuity with the Cura Italia Decree, Law Decree no. 23 of 8 April 2020 (Liquidity Decree) was issued, a further measure deemed necessary to support Italian entrepreneurship. The Liquidity Decree, in addition to providing an additional guarantee managed by SACE Simest (SACE), a company of the Cassa Depositi e Prestiti group, aims to further strengthen the Guarantee Fund for SMEs by redrawing its rules for accessing, by including also companies with no more than 499 employees and professionals, as well as increasing the guarantee coverage percentages already provided by Article 49 of the Cura Italia Decree (provision that is repealed). In the wake of the latter provision, the Liquidity Decree makes further exceptions to the ordinary rules of the Guarantee Fund for SMEs, which will be applicable until 31 December 2020.

On 28 April 2020, the European Commission published a legislative proposal for amending the CRR to ease banking activity during the Covid-19 emergency and ensure the flow of loans to households and businesses.

The Commission proposed exceptional temporary measures to mitigate the immediate impact of coronavirus-related developments, which imply:

- a revision of transitional arrangements for the application of IFRS 9, adopted in the CRR II to mitigate its impact on banks' capital (IFRS9);
- preferential treatment for NPLs secured by public guarantees issued as a measure to address the COVID-19 crisis, for the purpose of the application of the prudential provisioning in line with the Regulation (EC) 630/2109;
- the postponement of the date of application of the additional reserve requirement for the leverage ratio of systemic banks ("G-SIB buffer");

- a change in the way of excluding certain exposures from the calculation of the leverage ratio, as of June 2021.

The Commission also proposed to advance by one year (as of 28 June 2020) the date of application of certain measures agreed in CRR II, i.e. the SMEs (Art. 501) and Infrastructure supporting factors (art.501a), as well as the preferential treatment of loans backed by pensions or salaries (Art. 123).

The Regulation (EU) 2020/873 was definitely adopted on 24 June and published on the Official Journal of the EU on 26 June 2020 and entered into force the day after. During the interinstitutional negotiation process additional measures were introduced by the co-legislators (i.e. the European Parliament and the Council of the EU), such as the reintroduction of the prudential filter for unrealised gain/losses from sovereign exposures valued at FVOCI; the exclusion of overshootings from the calculation of the back-testing; credit risk and large exposure transitional treatment of euro-denominated public debt issued by non-euro Member States.

On 24th of July 2020 the European Commission also adopted a Capital Markets Recovery Package regarding the Securitisation Framework, MIFID II and the Prospectus Regulation. The underlying rationale of these proposals is to help financial markets support Europe's economic recovery from the COVID-19 crisis. The package is currently being under discussion among EU co-legislators and is expected to be approved before end 2020.

Covered Bond Legislative Package

In March 2018, the European Commission proposed a dedicated EU legal and regulatory framework for covered bonds, consisting of a directive and a regulation (the **Covered Bond Legislative Package**).

On 18 December 2019, the Covered Bond Legislative Package was published in the Official Gazette of the European Union and the official entry into force of the Covered Bond Legislative Package occurred on 7 January 2020 – twenty days after the relevant publication. The Member States have now 18 months (after the entry into force) to transpose the directive into national law (indicatively, within July 2021), and the transposed law and the regulation will be applied throughout the European Union within the following 12 months.

More in particular, the directive is aimed at providing a common definition of covered bonds, defining the structural features of the instrument and identifying the assets that can be considered eligible in the pool backing the debt obligations. The directive is also aimed at establishing a special public supervision for covered bonds and setting out the rules allowing the use of the 'European Covered Bonds' label. The regulation is aimed at amending the CRR with the purpose of strengthening the conditions for granting preferential capital treatment to covered bonds, by adding further requirements.

On 29 October 2020, the Italian Senate approved the draft European Delegated Law 2019-2020, which is aimed – once formally adopted – to delegate the Italian Government to implement – *inter alia* – Directive (EU) 2019/2162. According to the draft European Delegated Law 2019:

- the Bank of Italy will be the competent authority for the supervision on covered bonds;
- the implementing provisions shall provide for the exercise of the option granted by Article 17 of Directive (EU) 2019/2162, allowing for the issue of covered bonds with extendable maturity structures; and
- the implementing provisions shall grant the Bank of Italy with the power to exercise the option to set for covered bonds a minimum level of overcollateralization lower than the

thresholds set out under Article 1 of Regulation (EU) 2019/2162 (*i.e.* 2% or 5% depending on the assets included in the cover pool).

Criteria applicable to the Eligible Assets constituted by MBS Notes

The MBS Portfolio shall be constituted, for at least 95 per cent., of receivables or securities indicated under Article 2, Paragraph 1 (a) and (b) of the MEF Decree or issued in the context of a securitisation transaction which fulfils the requirements as set out (i) in article 80 of the Guidelines (EU) 2015/510 of the European Central Bank of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (ECB/2014/60); (ii) in the regulation 575/2013/CE, in relation to covered bonds; and (iii) in the BoI OBG Regulations, (each of them as amended and/or replaced from time to time).

In addition, as of 2 August 2010, the Initial MBS Notes complied with the eligibility criteria provided by the Eurosystem in respect of assets to be accepted as collateral for a repurchase transaction with a national central bank of a Member State in the European Union.

Criteria applicable to Integration Assets constituted by Receivables

Each of the Receivables shall comply, as of the relevant Selection Date, with the criteria set out above under paragraph “*Criteria applicable to the Eligible Assets constituted by Receivables*”.

Characteristics applicable to Integration Assets constituted by MBS Notes

Each of the MBS Notes shall comply, as of the relevant Selection Date, with the characteristics set out above under paragraph “*Characteristics applicable to Eligible Assets constituted by MBS Notes*”.

Further Eligible Assets

Pursuant to the provisions of the Master Transfer Agreement, the Seller shall have the right to transfer to the Covered Bond Guarantor securities issued by central governments meeting the requirements of Article 2, Paragraph 1 (c) of the MEF Decree, provided that the aggregate amount of such assets, together with any assets referred to under Article 2, Paragraph 1 (b) of the MEF Decree and any MBS Notes whose underlying MBS Portfolio is constituted by assets indicated under Article 2, Paragraph 1 (b) of the MEF Decree, may not amount to more than 10 per cent. of the aggregate nominal value of the Portfolio.

Characteristics applicable to Integration Assets constituted by Securities other than MBS Notes

Each of the Securities (other than the MBS Notes) shall comply, as of the relevant Selection Date, with the following characteristics set out under the MEF Decree:

- (a) the issuing bank shall have its registered office in an Eligible State or in a State which attract a risk weight factor equal to 0 per cent. under the “standardised approach” to credit risk measurement; and
- (b) such Securities shall have a residual maturity not longer than one year.

Eligible States shall mean any States belonging to the European Economic Space, Switzerland and any other State attracting a zero per cent. risk weight factor in accordance with the Bank of Italy’s prudential regulations for banks - standardised approach.

“standardised approach” is the approach to credit risk measurements as defined under Directive 2006/48/EC.

For the purposes of this section, Intesa Sanpaolo Group means the banking group constituted by Intesa Sanpaolo S.p.A. and the banks or companies which were from time to time part of the “Gruppo Intesa” and the “Gruppo Sanpaolo IMI”.

COLLECTION AND RECOVERY PROCEDURES

1. REGULAR LOANS

Payment systems and the recording of collections

The repayment of almost all loans starts on the first day of the second month following the date of signature of the agreement (unless entire grace periods are stipulated by contract). Between the date of signature and the first repayment date, the client is covered by a grace period and only pays interest, which is usually collected together with the first repayment instalment.

By way of example, in the case of a loan with monthly repayment taken out on 5/10:

For companies, almost all loans have a grace period that can be quite long, up to 36/48 months. From the date of signature until the date of the first repayment, the client is in a technical grace period and pays only the interest, which is usually received together with the first repayment instalment. For this type of loan, repayment generally starts from the first full instalment following disbursement, according to the timescale of the instalment (monthly, quarterly, half-yearly, annual). Provision can also be made for a grace period, in addition to the technical grace period, the duration of which, defined at the time of approval of the loan, is commensurate with the term, type and purpose of the loan.

The terms of payment of the loan instalments essentially consist of:

- direct debit of the debtor's current account opened at any branch of the Bank
- payment by the debtor on the basis of a MAV (deposit slip) notice of payment of each instalment, to be made at the counters of the relevant Bank or any other credit institution adhering to the MAV circuit;
- direct debit of the debtor's current account opened at another Bank (SDD mandate);
- payment at the Bank counter and/or by Bank transfer through another Bank.

It is Bank practice, for current loans with payments of deferred instalments, to permit that payments made after the instalment deadline but less than one month before the subsequent due date, be subject to default interest charged at the following due date, or on the first accounting event of the loan (see repayment).

1.1 Payment by direct debit of current account

For the loan items that use this system of payment, the procedure identifies all instalments falling due on a specific day and provides for the current account to be debited (on the specific day). If the account does not have funds or its funds are only partially sufficient, the system makes the debits nonetheless, providing each branch (on the day of each instalment due date) with a list of instalment debits that have caused the current account to become overdrawn. The branch concerned has the option of cancelling instalments debited automatically by the system.

Any outstanding payments are recorded in the Bank's information system in real time. The operator can, however, check the accounting position of the loan at any time.

If an instalment is even only partially unpaid, the loan is not taken into consideration when preparing the debit flow for the following instalment.

Note that each week, the recovery of instalments in arrears is generated automatically, by monitoring the balances of clients' accounts in order to gradually reduce the arrears.

1.2 Payment by pre-authorised debit

In order to improve operability and offer clients services that are increasingly designed to meet their expectations, instalments may be paid by the pre-authorised debit of current accounts at other credit institutions.

A pre-authorised debit order issued to other banks, only to be used on the client's express request, provides an alternative to debiting a current account opened at the Bank. This option is of interest to clients who reside outside the area of operations of the Bank, and those operating with other credit institutions. This service serves to reduce loans with no supporting current account.

The flow of debits forwarded to the paying banks is generated automatically several days prior to the due date of the instalment, currently 8 business days for all items collectable by SDD mandate.

On the due date of the debit orders, the electronic procedure credits the collections "subject to collection" to a transit account and on that same day the "Loans" procedure debits the amount of the instalments due to the same account to balance the amount credited.

Unpaid orders returned by the correspondent banks are debited by the procedure from the transit account.

Reversals of payments made by SDD mandate attributable to outstanding sums are effected automatically by the procedure. An appropriate report on the event is also provided to the Operating Points. In view of the time taken by the Banks to return the sums credited "subject to collection" and the subsequent processing time, the effect of the collection (or outstanding sum) can only be verified approximately fifteen business days later. After the fifteenth day, the receipts to be sent to Clients are generated.

In the case of outstanding sums, the debit subject to collection is only guaranteed if the loan returns to performing status prior to generation of the debit flow for the subsequent instalment.

1.3 Payment by MAV deposit slip

In order to facilitate more rapid registration of the sums paid, for payment of loan instalments with other credit institutions and in order to automate the relevant flow, a notice of instalment due form has been produced in a standard interbank format, which enables the use of the MAV electronic banking circuit to credit the Bank with the sums received.

The MAV is a paper slip that can be paid at any bank forming part of the MAV circuit (in practice almost all Italian banks).

The Bank sends the slip to the client approximately 30 days prior to the due date of the instalment in the case of a half-yearly or quarterly loan, and 20 days prior to the due date in the case of a monthly loan. If the payment is made at a counter of the Bank itself, the relevant entry in the loan procedure takes place in real time; if the client makes the payment at another bank, an electronic data flow is sent, via the portfolio procedure, containing all the details of the payment.

In addition to the speed of data transmission and the resulting faster update of the loans ledger, the use of this procedure enables the reduction of manual payment allocation to a minimum.

Usually the result of the payment at another bank (electronic flow) is received within 3 days of the date of payment.

If a client fails to pay an instalment, for loans payable in half-yearly and quarterly instalments, a MAV reminder is sent.

For other due dates and for all payment procedures, a reminder letter is sent monthly summarising all the amounts payable by clients.

1.4 Collection by cheque or postal order

Instalments may also be paid, subject to collection, by banks drafts, bank cheques and postal orders. In this case too, the deadline for payment without default is that indicated on the notice of the instalment due that is only produced if the payment method is without domiciliation (MAV).

Cheques and postal orders must be issued to the order of the Bank. Exclusively for clients known to be of good standing by the Branch, checks and postal orders with one or more endorsements may be accepted, in all cases in accordance with applicable legislation. In such cases, the last endorsement must always correspond to that of the presenting client.

In the event of the return of unpaid or protested cheques or postal orders, the legislation provides that the branch:

- must attempt to recover from the transferor the amount of the unpaid/protested cheque and the relevant expenses, together with interest on late payment from instalment due date until the recovery date;
- if recovery is impossible, the branch must reverse the payment procedure, following recall of any receipts issued.

1.5. Collection by transfer

If the client pays an instalment by transfer, the payment is received in the procedure directly by the Operating Point. Any credits received by the MLT Loans Office are sent to the branch dealing with the loan.

If the client appears at a different Bank of the Group from that at which the loan is established, the collection of an instalment and/or execution of early payment is settled centrally by the Group's back office departments. With the new business plan, the case record is no longer significant. Any receivables are transferred to the relevant branches.

Collections must be made in the currency recognised by the correspondent Bank.

1.6. Tolerance periods for payments

The deadline for payment for all types of loan (monthly, quarterly, half-yearly or annual) is the instalment due date, irrespective of the payment procedure used by the client.

If the due date is a public holiday, the deadline is deferred to the first subsequent business day.

1.7. Loan renegotiation policies

- 1.7.1 In recent years, the loan market has seen a considerable increase in the granting of loans by “replacement/renegotiation”.

- 1.7.2 This phenomenon has been favoured both by structural factors, such as the liberalisation of the market following the legislative innovations introduced by the Bersani Decree Law (Legislative Decree No. 7 of 31 January 2007, converted into Law no. 40 of 2 April 2007, known as “loan transfer” and the abolition/reduction of settlement penalties) now Legislative Decree No. 70 of 13 May 2011, converted with amendments into Law no. 106 of 12 July 2011, and by cyclical factors related to interest rate trends.
- 1.7.3 In this changed regulatory and economic situation, and in the increasingly competitive context of the mortgage market, the Bank, in accordance with its legal obligations, has decided to undertake commercial initiatives mainly designed to increase attention to the needs of existing clients under the same competitive terms and ultimately establishing the conditions to hold onto clients. Accordingly, Branches may undertake ‘retention’ initiatives in defence of their portfolio, leading to a renegotiation of loans, without access to renegotiation requiring evidence of (i) the position being critical, (ii) alleged difficulty in servicing the debt, or (iii) a decision to settle the loan thanks to the new opportunities offered by the market arising from new mortgage transfer rules. Renegotiation is authorised within the limits of current autonomous powers.
- 1.7.4 The possible solutions consist of:
- a) lengthening the term of both variable-rate and fixed-rate loans: the final due date of the repayment plan may not exceed a term of 40 years and, solely with regard to private individuals, the relevant debtor may not be more than 75 years of age (or other limits in force from time to time based on the parent bank’s policy), except the cases indicated in letter e) below;
 - b) changing the indexing parameter or converting the loan from variable-rate to fixed-rate or vice versa, with a possible change in the frequency of instalments usually applied under standard catalogue conditions in force from time to time for the particular type of counterparty;
 - c) renegotiating the spread and/or the fixed rate;
 - d) shortening the term (only for private individuals only);
 - e) granting the option of suspending the payment of instalments on the basis of:
 - agreements promoted by the Italian Banking Association to support the credit market for small and medium-sized enterprises and retail credit, such as for example the “2019 Credit Agreement” signed on 15 November 2018;
 - legislative or regulatory provisions, such as:
 - a) the provisions contained in the Implementing Regulation (adopted by Ministerial Decree No. 132 of 21 June 2010) of the “Solidarity Fund” (the so-called Gasparrini Fund) for loans for the purchase of a first home, established by Article 2, paragraph 475 et seq. of Law No. 244/2007 (2008 Finance Act);
 - b) measures to combat natural disasters or humanitarian emergencies;
 - initiatives promoted from time to time by the Intesa Sanpaolo Group in favour of its clients or to support credit quality;
 - agreements established by contract.

Suspensions generally have a maximum duration of 12 months, unless different terms are established in the contract, or are based on different legislative or regulatory provisions (such as, for example, the “Solidarity Fund”), with a shift in the repayment plan and the resulting extension of the final term of the loan by a period corresponding to the duration of the suspension.

The suspension may concern:

- the whole instalment (capital and interest), in which case the interest accruing during the suspension will be paid without out the application of default interest, on the resumption of repayment of the loan, according to the terms agreed with the borrower;
- the capital only, in which case the borrower, during the period of suspension, continues to pay the interest calculated according to the contractually established methods.

In the event of instalments in arrears, suspension runs from the first instalment falling due and unpaid that is included in the suspension and, if the suspension is total, the default interest accrued on that instalment will not be payable.

- 1.7.5 The branch - in accordance with the policy adopted by the Bank from time to time - may also propose to replace the loan with a new loan that meets the client's requirements, with a right of subrogation in favour of Intesa Sanpaolo.

1.8 Collection and management of Securities

Collections

1.8.1 Paymnets to the the Principal Securities Collection Account and to the Interest Securities Collection Account

All principal redemption amounts, interest payments and any other amounts due for any reason in relation to the Securities will be credited by Monte Titoli or Clearstream (as the case may be) to the custodian bank in favour of the securities account opened and maintained in the name of the Covered Bond Guarantor, through specific segregated liquidator account, properly opened with Monte Titoli or Clearstream. The custodian bank automatically and promptly pays the collected amounts as follows:

- any principal amount to the Principal Securities Collection Account; and
- any interest amount to the Interest Securities Collection Account

(jointly, the Securities Collection Accounts).

1.8.2 Further payments

If, for any reason, the Servicer receives any collections other than those described above, the Servicer shall carry out a reconciliation of the amounts received within 20 (twenty) days from the receipt of such amounts by the Debtors and credit to the relevant Securities Collection Account, in respect of principal and interest, such sums received and reconciled within 3 (three) Business Days following the reconciliation of such amounts and with value date corresponding to the collection date by the Servicer.

1.8.3 Collection verification

Further to any payment date of each Security, as set forth under the relevant Securities documents, the Servicer will verify that the amounts due as principal, interest or for any other reason due in relation to each Security have been credited on the relevant Securities Collection Account, in respect

of principal and interest, with value date corresponding to the relevant payment date of each Securities, as set forth under the relevant Security documents.

2. THE CREDIT MANAGEMENT PROCESS

2.1. Proactive Credit

Proactive Credit is defined as the set of processes for loans to clients who have difficulties that at the time are potential and not yet openly apparent, but which could, if not promptly resolved, lead to the breach of contract, with the consequent deterioration in the quality of the risks assumed by the Bank. The occurrence of such a default could, depending on its severity and duration, result in the subsequent classification of all positions as non-performing.

2.2 Processes

Objectives and guiding principles

The Proactive Credit management processes is a model for the management of clients with potential problems, which is designed to correctly and promptly identify and address anomalies from the moment they first appear. The model is based on the following guiding principles:

- the responsibility of the branch in the monitoring of positions;
- differentiation of processes according to their regulatory segment;
- the establishment of dedicated structures, both peripheral and central, that intervene in the process when the associated risk becomes increasingly serious;
- the streamlining of credit management processes and management statuses, with a consequent simplification of the workflow and of activities focused on an effective solution to detected anomalies;
- review of intervention criteria to ensure greater efficiency and effectiveness of the new processes, anticipating as much as possible the detection of situations that could lead to a deterioration of positions;
- review of the interception systems with a view to complete automation of entry and exit from the process, reducing subjective evaluations to a minimum;
- the supplement of processes with Early Warning (EW) interception systems to make interception increasingly predictive and intervention increasingly anticipatory;
- the use of the ratings to support decision-making;
- the use of external companies specialising in recovery (only for the Private Retail);
- the use of an Internal Collection Unit for clients belonging to the Private Retail (RE) regulatory segment. equipped with tools and processes for proposing autonomous negotiating solutions.

Credit Value Management Office

As indicated above, Proactive Credit for the management of intercepted clients draws on the support of dedicated teams in the Loans Offices at the Regional Headquarters of the LBN (Local Bank Networks) and of the office of the CLO (Chief Lending Officer), with the task of supporting the Network in the management of clients that are showing initial signs of difficulty.

2.2.1 Proactive Credit Process

The processes involved in Proactive Credit, which are designed to manage intercepted clients in a timely and optimal manner, are differentiated by regulatory segment and are divided into:

- Corporate, SME Corporate and SME Retail Processes
- Banking and Non-Banking Financial Institutions Processes
- Retail Process

The intervention system is guided by an early warning system which, through the collation of a series of indicators, enables classification of credit positions according to the counterparty's state of default. The state of impairment of a counterparty is represented/summarised through the attribution of a colour (a 'traffic light' result). The calculation engine produces six categories:

- green
- light green
- orange
- red
- light blue
- dark blue

Counterparties intercepted in the Proactive Credit process are:

- for the Private Retail (RE) regulatory segment, counterparties with a red traffic light outcome, with an "alerted criticality" form;
- for the SME Retail regulatory segment, counterparties with orange and red traffic lights generated by "alerted" criticalities, and
- for the Corporate, Banks and Non-Banking Financial Institutions regulatory segments, counterparties with orange and red traffic lights.

SME Retail, Corporate, Banks and Non-Banking Financial Institutions regulatory segments upon a forbore resolution are managed in the Proactive Credit Process with a "Forborne Performing" status.

Management phases

Proactive credit processes are divided into management phases, which in turn are differentiated according to process type/client segment.

A) For Corporate Clients, Corporate SMEs, Retail SMEs, Banks and Non-Banking Financial Institutions the process involves:

- the “Branch Management” (BF) phase
- the “Branch Management – Non-settled” (BU) phase
- the “Proactive Management” (PM) phase.

1) The “**Branch Management**” phase is operational for positions intercepted as a result of an EWS orange traffic light (criticalities alerted⁷ for the SME Retail segment only), i.e. counterparties with less serious risk alerts.

This phase involves the intervention of the branch/relationship manager responsible for the commercial relationship and consists of verification with the client of the reasons for the intervention with the aim of reaching, where possible, an agreement for the regularisation of the position and/or settlement of an automatically detected anomaly.

The phase involves the compilation by the manager of a check list in which the actions taken are entered into the system. Each action will be subject to automatic or manual control, with varying frequencies depending on the type of action taken. During monitoring, if the action is not fulfilled or is ineffective, the manager will be automatically asked to re-analyse the position and again indicate the actions taken in consultation with the client.

This processing phase is referred to as “Branch Management – Non-settled” (BU) and is described in greater detail below.

In the event of difficulties that cannot be resolved in the short term, or of significant complexity, the account manager has the option of requesting an override of the traffic light indicator to a more serious category by accelerating the classification to a status of “Proactive Credit” and the attribution of a “red” traffic light indicator, with consequent intervention of the specialist Credit Value Management Office. In the most serious cases, it is also possible to proceed directly with a request for classification as a non-performing loan.

The management phase does not have a minimum duration, but within 30 days of intervention, the operator is required to analyse the counterparty and report actions taken to the system by filling in a check list.

Positions that have not been processed within 30 days, together with positions processed ineffectively, enter the “Branch Management – Non-settled” management phase and are subject to automatic reporting to the competent loans office.

2) The “Branch Management – Non-settled” management phase applies to positions:

- that have not been settled, or with a management action that has not been performed, or with an ineffective action;

In this phase, the relationship manager, who is responsible for identifying and implementing actions necessary to support the counterparty in overcoming the stated or potential difficulties, is assisted by the specialist Credit Value Management Office. This Office does not intervene directly in the position, but is responsible for the “Governance of the BU portfolio”, i.e. it is responsible for

⁷ Criticalities alerted means an unpaid overdue (back payment) or a current account overrun.

monitoring volumes, processes and recycling, ensuring that branches adequately supervise the positions for which they are responsible.

3) The “**Proactive Management**” phase applies to positions:

- intercepted through an EWS “red light” (only criticalities alerted for the SME Retail segment), or
- Branch Management states for which the manager requests an override to a more serious category.

This phase does not have a defined duration. It ends with the regularisation of the positions and a change in the EWS traffic light indicator, or classification as a non-performing loan. On entering this phase, the Branch draws up a specific Action Plan, which may be complete or a general outline, in which, in addition to assessing the client’s situation, initiatives for regularising the position are identified.

The action plan must be submitted to the competent specialist Credit Unit for validation. The competent unit is automatically identified on the basis of Risk Weighted Assets (RWA) concession mandates; in particular, clients with:

- ✓ exposure less than €15 million: validation is the responsibility of the Regional Headquarters of the Local Bank Networks Division;
- ✓ exposure of more than €15 million: validation is the responsibility of the Proactive Units of the Credit Value Management Offices of the CLO Area. For the clients of the Corporate & Investment Banking Division, validation is the exclusive responsibility of the CLO Area.

This phase provides for 30-day cycles for the monitoring of the Action Plan. In particular, the same loans office that is responsible for validation of the plan is also responsible for the task of monitoring, on the said pre-defined expiry, whether the plan is being implemented by the methods agreed with the reporting office, while at the same time verifying that no new anomalies have arisen that could undermine the maintenance of the position in that state.

Even in the Proactive Management Phase, for less complex counterparties, the operator has the option to compile an intervention check list, replacing the action plan, with the same content and function as indicated above for the BF phase. However, the obligation to monitor every 30 days remains, in order to ensure and verify compliance with what was agreed between the manager and the client.

The objective of the management is to eliminate anomalies with a view to continuing relations with the counterparty, helping it to avoid the loan from slipping into the category of a non-performing.

Positions for which the regularisation is not achieved remain classified in this state until a subjective assessment results in a classification in a state of higher risk, by a request submitted to the competent management offices. Positions also leave the state with a worsening of the risk in the event that conditions of objective deterioration occur (conditions for classification among past due loans and/or impaired overruns, detection of a prejudicial ‘dark blue’ status, etc.) leading to automatic classification as an overdue or probable default.

Therefore, performing positions which are attributed an automatic assessment of high risk, which is confirmed over time, or which present early signs of potential difficulties, are promptly and automatically intervened in proactive management processes.

Such positions, for the purposes of credit quality, are classified to all intents and purposes as “performing” and responsibility for their management remains with the organisational structure in which the counterparty is port folioed.

In order to guarantee objectivity, cases are placed in or removed from Proactive Credit processes automatically. Only the relevant control bodies (such as for example the Internal Auditing Department) are entitled, in the event of serious anomalies detected during the course of their duties, to classify positions manually with the status of “Proactive Management” on their own initiative.

B) With respect to Private Retail, a dedicated “Retail Prevention and Management” Process (also known as “Pulse”) was defined and gradually implemented by the Chief Lending Officer Governance Area.

The process is applicable for the management of Private Individuals (RE regulatory segment) with predefined characteristics and it utilizes homogeneous and specialized methods of contact and negotiation for the settlement of the debt.

The process includes both performing counterparties detected by the EWS scoring engine at the first signs of difficulty (e.g. excess utilization and / or arrears in debt repayment) and those subsequently classified to non-performing (Past Due or Unlikely to Pay categories).

The main features of the Retail Prevention and Management Process are as follows:

- differentiated process for Retail customers (RE segment) according to the characteristics of the borrower and the underlying position, also with recourse to external resources
- use of advanced routing logics based on the EWS Retail model
- structured, centralized and highly automated management process, with differentiated actions based on the riskiness of the position, governed by a specialized unit
- progressiveness in contacting customers, i.e. phone collection and home collection
- management of all the customer’s transactions at ISP Group level
- extensive use of negotiation solutions for customer regularization, when in presence of eligible “candidates”, and implemented by a dedicated Bank structure
- integrated, unique and, whenever possible, automated procedures
- constant monitoring of the management process through dedicated reporting
- constant interaction of counterparties with the Bank's internal specialized structures
- dedicated workflows and differentiated contact tools, supported by decision-making engines and standardized products
- clustering of customers from a management perspective
- presence of an algorithm for selecting the most appropriate negotiation solution
- set-up of a single management platform with integration and interaction between the management and recovery functionalities within the tool

The governance of the activities and the credit delegated prerogatives are centralized within the Remediation function – part of the Credit Value Preservation Head Office Department - Chief Lending Officer Governance Area, while the relationship with customers through telephone contacts (the so-called *Phone Collection*) is mainly delegated to the corresponding Pulse Function (part of the above mentioned Head Office Department) and to Outsourcers specialized in the collection of debts; the latter are also in charge of the Home Collection activities

The Remediation function – as governance structure of the Retail Management process - manages the quotas of customers to be contacted by Pulse and the Outsourcers and monitors their activity. The process and information exchanges with the Outsourcers are managed through a dedicated tool,

which defines the steps between the various operational and management phases and which incorporates the results of the activities carried out through the service platforms.

Based on pre-established rules relating to the characteristics of the customer, its riskiness (calculated by the EWS) and the underlying products, an evolved algorithm (the Routing Engine) directs the counterparties to the various actors in the process, including to the relevant branches.

The Remediation function thus:

- oversees and monitors the entire portfolio intercepted and routed into the process, also in relation to the other actors involved in the process
- provides strategic support and coordination of the activities performed by Pulse and the Outsourcers
- manages end-to-end the most critical positions (i.e. from contact with the customer and identification of the negotiation solution to the credit proposal and decision-making)
- processes the assigned portfolio, divided into predefined management phases, with a focus on renegotiation and in observance of the applicable credit delegated prerogatives;
- elaborates the credit analysis and decides on the negotiation solutions proposed by Pulse or the Branches.
- monitors the implementation of the negotiation solutions agreed with the client by the other actors involved in the process
- decides on the classification (including massive) to Unlikely to Pay or Bad Loans in case of positions that are not regularized

Pulse is the internal function within Credit Value Preservation Head Office Department (Chief Lending Officer Area) in charge of phone collection and investigation. It maintains "direct contact with customers, according to a standardization of processing cycles (e.g. assignment to specific profiles in the collection unit) and its focus is on proposed solutions to "normalize" the credit facilities; this structure makes use of dedicated workflow tools, decision-making engines and products specifically designed.

Pulse is therefore in charge of:

- the first telephone contact and interview with the customer;
- the identification and simulation of a negotiation solution;
- the verification of the sustainability of the solution identified;
- the preparation and submission of requests for renegotiation / suspension of the instalments;
- the update of the data set on the basis of the documentation received.

Both Pulse and Remediation functions use dedicated IT procedures that allow:

- to promptly identify possible financial difficulties of borrowers - Private Individuals and
- to centrally manage a significant part of the rescheduling/ restructuring operations, thus limiting the involvement of the Network.

Commercial collaborations were also initiated aimed at the outsourcing of collection activities with partners specialized in both phone and home collection to streamline the management of delinquencies (i.e. positions with overdue and / or arrears). As per Bank of Italy's guidelines, the outsourcing of these activities is considered an outsourcing of an Important Operational Function.

The Outsourcers do not directly carry out negotiation and / or proposal of rescheduling products; they gather information on the client's interest in any negotiation solutions, which are subsequently structured and deliberated by the Remediation Function.

2.3 Non-performing exposures

The 10th update of Bank of Italy Circular No. 272 (hereinafter “Circular 272”) introduced further clarifications to the definitions and types of “non-performing financial assets” to implement the provisions of the EBA 2016/07 Guidelines of 18 January 2017 (“EBA DoD Guidelines”) on the application of the Definition of Default contained in Article 178 of Regulation 575/2013 (the Capital Requirements Regulation).

The various types of credit statuses that come within the category of “non-performing financial assets”, referring to the overall exposure of the debtor, are discussed below.

“Non-performing financial assets” consist of cash assets (loans and debt securities) and off-balance sheet assets⁸ (guarantees given, irrevocable and revocable undertakings to disburse funds, etc.) from debtors:

- 1) which have significant exposures which are past due by more than 90 days, or
- 2) for which full fulfilment of the credit obligations is considered unlikely without enforcement of guarantees, irrespective of the existence of overdue sums or the number of days in arrears.

No account is taken of any guarantees (real or personal) put in place to protect assets. The category of “Non-performing financial assets” does not include financial instruments included in a “Financial assets held for trading” portfolio or derivative contracts.

In order to identify non-performing loans, the Bank has selected a criterion that involves an approach by “Individual debtor”.

“Non-performing financial assets” are classified, in accordance with the principle of increasing gravity, in the following three categories:

- non-performing past due exposures
- unlikely-to-pay loans
- bad loans

With respect to the classification of “in default”, the recent European legislation on the subject (the so-called “new definition of default”) will be applied, with particular reference to the EBA guidelines on the application and definition of default pursuant to Article 178 of Regulation (EU) No 575/2013.

Again in accordance with the regulatory provisions, the details of the categories of non-performing exposures, with regard to specific exposure, include the classification of “Non-Performing Forborne Exposures”.

Non-performing financial assets are subject to analytical-statistical or analytical valuations for financial reporting purposes.

⁸ An “off balance sheet” transaction is considered impaired if, in the case of use, it can give rise to an exposure that presents the risk of not being fully repaid, respecting the contractual conditions. The guarantees must, in any case, be classified as impaired if the guaranteed exposure meets the conditions for being classified as impaired.

The process of assessing non-performing exposures to counterparties classified among past due loans and unlikely-to-pay loans, in accordance with the reference accounting principles and the applicable regulatory provisions, arises from the presence of objective loss elements that lead to the conclusion that the amount contractually expected from each individual asset is no longer fully recoverable.

In general terms, receivables classified:

- among past due and/or impaired overruns (regardless of the amount of exposure) and those classified as unlikely-to-pay and bad loans (of an amount not exceeding a significant pre-established threshold, currently €2 million) are subject to automatic analytical assessment based on statistical grids produced by Risk Management on the basis of a historical series of changes in risk status and recovery times
- among unlikely-to-pay and Bad loans (above the threshold of €2 million), are subject to a specific analytical evaluation process based on a reliable qualitative and quantitative analysis of the economic, financial and asset situation of the counterparty, together with the relevant exogenous factors, such as for example the performance of the relevant economic sector. The assessment is performed analytically for each individual receivable, considering the implicit riskiness of the relative technical form of use, the relevant degree of dependence on any mitigating factors and, if significant, the financial effect of the realistically estimated time required for its recovery.

Non-performing past due exposures (Overrun)

This category includes “cash exposures other than those subsequently defined as bad loans or unlikely-to-pay loans which, on the reference date of the report, are due” for more than 90 consecutive days.

The overall exposure to a debtor must be recognised as past due and/or overrun if, at the reporting date, the amount of principal, interest and/or commission not paid at the date on which it was due exceeds both of the following thresholds (hereinafter jointly referred to as the “Relevance Thresholds”):

- a) an absolute limit of €100 for retail exposures and €500 for exposures other than retail exposures (the so-called “Absolute Threshold”) to be compared with the debtor's total amount overdue and/or overrun;
- b) a relative limit of 1% compared with the ratio between the total amount overdue and/or overrun and the total amount of all exposures recorded in the balance sheet to the same debtor⁹ (the so-called “Relative Threshold”).

Classification in this status takes place automatically, at the level of the banking group, on the persistence of a credit situation that is past due and/or overrunning the Relevance Thresholds for a period of more than 90 consecutive days.

The classification in status also occurs automatically as a result of ‘dragging’ of a default status from joint holders to a joint account, or from the joint account to joint holders, according to specific rules as specified in the relevant paragraph.

Unlikely to pay

This category includes a debtor's entire cash and “off-balance-sheet” exposures, in relation to which the bank concludes that it is unlikely that he will fulfil all his credit obligations (in terms of capital

⁹ For the purposes of calculating the relative limit, it is necessary to consider, both in the numerator and in the denominator, the exposures transferred and not canceled for the purposes of the financial statements towards the same debtor towards the bank and the intermediaries included in the prudential consolidation perimeter. Equity exposures are excluded.

and/or interest) without recourse to actions such as the enforcement of guarantees. This valuation does not take account of any amounts (or instalments) that are due and outstanding.

It is not therefore necessary to wait for a specific sign of the problem (for example failure to repay), if factors exist that imply a situation of risk of default on the part of the debtor (e.g. a crisis in the business sector in which the debtor operates). All the cash and “off-balance-sheet” exposures of the same debtor in such a situation are known as “unlikely-to-pay”, unless the conditions exist for the loans to be classified as bad loans.

Unlikely-to-pay loans also include all exposures to issuers that have not promptly met their payment obligations (principal and/or interest) in respect of listed debt securities. To this end, a “grace period” stipulated by contract or, in its absence, recognised by the market that lists the security, is recognised.

In addition, unlikely-to-pay loans include “all exposures to debtors that have lodged an application for a so-called “blank” arrangement with creditors” (Article 161 of the Bankruptcy Act), notification of which can be made from the date of submission of the application until the evolution of the application is known. However, the exposures in question should still be classified as bad loans if: a) new objective factors exist that lead intermediaries, as responsible independent parties, to classify the debtor in that category; b) the exposures were already classified as bad loans at the time of submission of the application.

The same criteria apply in the case of an application for an arrangement with creditors on a going concern basis (Article 186-*bis* of the Bankruptcy Act), as of the date of submission and until the outcome of the application is known. In the latter case, the classification of exposures is amended on the basis of the ordinary rules.

In particular, in the event that an arrangement with creditors is instigated on a going concern basis with the transfer of the going concern or with the transfer of its assets to one or more companies (even newly formed companies) not belonging to the debtor’s economic group, the exposure should be reclassified among performing assets.

This is not possible, however, in the case of sale or transfer to a company belonging to the same economic group as the debtor, due to the presumption that the parent company/controlling company has been involved in the decision-making process that led the company to file an application for an arrangement with creditors in the interests of the entire group. In such a situation, the exposure to the transferee continues to be indicated as impaired assets; it should also be reported among exposures subject to impaired concessions.”

The following positions are automatically categorised as “unlikely to pay”:

- positions in the state of “About to Expire”, on passing the expiry date of this state and with a relative threshold of materiality in excess of 5%;
- positions presenting a misaligned SAG for more than 30 consecutive days as “unlikely-to-pay” or “non-performing” loans with an exposure classified in one of the above situations, equal to or exceeding 20% of overall exposure at banking group level (except positions which, at the level of each individual bank/group company, show an exposure of less than €1,000);
- in the state of “unlikely-to-pay - forborne” upon exceeding 90 days of continuous overrun above the threshold;

- positions presenting one of the following prejudicial events, i.e. bankruptcy, arrangement with creditors, extraordinary administration, forced liquidation, settlement of bankruptcy proceedings, receivership, insolvency proceedings;
- as a result of ‘dragging’ of a default status from joint holders to a joint account, or from the joint account to joint holders, according to specific rules as detailed in the relevant paragraph.

For management purposes, the Bank has also made provision for a further classification within “Unlikely to pay”, identified as “unlikely-to-pay-forborne”¹⁰, which may include counterparties that show at least one exposure subject to a measure of “forbearance” that is duly complied with or that remain in a state of risk pending the start of the ‘Cure Period’ required by law (minimum 12 months).

The following positions are automatically categorised as “unlikely-to-pay-forborne”:

- forborne performing positions, arising from non-performing positions, subject to a subsequent tolerance measure on the same credit line as the previous intervention in the so-called “probation period”;
- forborne performing positions, arising from non-performing positions, with a unreported overrun of more than 30 continuous days (applying a minimum tolerance threshold and with verification undertaken on the Forborne line) occurring during the Probation Period;
- positions with a forborne flag arising from closed bad loans positions with existing agreed/used residues;
- positions in the state of “non-performing past due exposures” for which forbearance measures have been granted with an overrun of zero or less than 30 days or below the threshold;
- positions presenting a misaligned SAG for more than 30 consecutive days as “unlikely-to-pay forborne” and with an exposure classified in that state as equal to or exceeding 20% of overall exposure at banking group level (except positions which, at the level of each individual bank/group company, show an exposure of less than €1,000);
- performing counterparty positions, if the calculation of the diminished obligation (in the case of a new forborne labelling) - at the time of execution of the operation on the legacy of reference - registers a value above a threshold set at 1%.

A manual classification as “unlikely to pay” - a decision on which is the responsibility of the decision-making body - is possible at any time if, in accordance with the regulatory provisions, this classification better represents the deterioration of the debtor's creditworthiness.

OBSERVATION PERIOD FOR NON-PERFORMING PAST DUE OVERRUNS AND FOR UNLIKELY TO PAY EXPOSURES

Impaired exposures must continue to be classified as such until at least 3 months have passed - the so-called Probation Period - from the time when they no longer meet the conditions to be classified as non-performing past due exposures, or as unlikely to pay, as the case may be.

An exception is made for counterparties classified as unlikely-to-pay forborne, for a 12-month “cure period” applies, during which the counterparty is prevented from being re-classed as performing, even if the financial difficulty is overcome.

¹⁰ State to which LGD grids appropriate to the risk levels of the exposures apply

During the probation period, the conduct of the counterparty must be assessed in the light of the relevant financial situation (in particular, by verifying the absence of overruns above the relevance thresholds)¹¹.

EFFECT OF CLASSIFICATION ON OTHER ENTITIES

Consideration must be given to the possibility of a contagion effect upon the occurrence of an event which results in the classification of a counterparty within a group indicating a worsening risk status, with consequences in terms of potential default by other entities within the same group.

In view of the consequences (in terms of materiality) that the classification of a counterparty could have on the ability to cover the indebtedness of the other parties of group entities, the evidence of the event is classed as a negative symptom or among the prejudicial event, with the relevant consequences.

Any repercussions for other entities arising from the classification of a counterparty therefore presuppose that they are separate and financially autonomous legal entities. In particular, in the case of relationships established with a sole proprietorship and with the natural person who operates it, given the absence of separate legal entities, any classification among non-performing loans will relate to the overall exposure.

With exclusive reference to counterparties with retail exposures (Retail and SME Retail Segments) that are linked to counterparties classified as Unlikely To Pay or among Non-performing past due exposures, automatic classification criteria are applied if linked relationships exist and where certain conditions are met.

In particular, in the case of the classification of a linked relationship among impaired exposures, the exposures of the individual joint holders will also be automatically classified, unless at least one of the following conditions has been met:

- a) the delay in payment is the result of a dispute between the co-holders which has been brought before a court or has been dealt with in another extrajudicial conciliation procedure which has resulted in a binding decision, and there is no concern about the financial situation of the individual co-holders;
- b) the credit obligation of the linked relationship represents a minor part¹² of the overall exposure of the co-holder.

Outside of these automatic systems, the effects that the classification of a linked relationship among non-performing loans may have on the individual co-holders and on any other joint relationships with third parties attributable to them must in any case be assessed.

Exposures Subject to Impaired Concessions

The category of “Forbearance”, relating to exposures subject to re-negotiation due to the client’s financial difficulties, is a subset of both non-performing exposures and of performing loans, relating to the state of risk of exposure at the time of renegotiation.

Individual cash exposures and revocable and irrevocable commitments to disburse funds that are, as the case may be, bad loans, unlikely-to-pay or among the non-performing past due exposures and

¹¹ Specifically, in the event of a continuous overdraft exceeding 5 days, calculated when both the Relevance Thresholds are exceeded, the count of days spent in the Probation Period is reset to zero. The counting of the 3-month Probation Period will resume on the first day in which the overrun returns below at least one of the two Relevance Thresholds.

¹² The term “insignificant part of the overall exposure of the joint holder” means the circumstance in which the exposure of the joint holder does not exceed 20% of the total exposure of the joint holder for a period of time at least equal to 10 continuous days.

that are subject to Forbearance measures are referred to as “exposures subject to impaired concessions”.

This category includes exposures for which the application of tolerance measures has resulted in conditions for classification as impaired assets (e.g. debt write-offs).

The category of “exposures subject to impaired concessions” includes those that come within the definition of “Non-performing exposures with forbearance measures” as set out in Annex V, Part 2, paragraph 180 of the ITS.

Concessions do not include agreements - reached between the debtor and a pool of creditor banks - whereby existing credit lines are temporarily “frozen” with a view to formal restructuring.

In the case of restructuring operations carried out by a pool of banks, those not party to the restructuring agreement are required to verify whether the conditions for the classification of their exposure as non-performing or unlikely-to-pay are met.

Exposures to debtors who have made an application for a so-called “blank” arrangement with creditors are to be classified among those subject to impaired concessions if the application for an arrangement is transformed into a debt restructuring agreement pursuant to Article 182-bis of the Bankruptcy Act.

Also in the case of approval of the application for composition with creditors on a going concern basis, the exposure must be recognised in the context of exposures subject to impaired concessions, except in the case described above of the sale of the business as a going concern or its transfer to one or more companies (including newly established companies) that do not belong to the economic group of the debtor, in which case the exposure must be reclassified underperforming assets, provided that the buyer/transferee is not already classified among the impaired exposures at the time of sale/transfer.

In order to eliminate the forbore label from exposures granted to impaired counterparties, a period of 36 months must elapse for the positions classified as impaired, consisting of:

- a 12-month ‘Cure Period’, calculated from the date of application of the forbearance measure or, if later, from the date of entry into a deteriorated state. It should be noted that, in the event that the restructuring agreement classed as a forbearance measure provides for a period of suspension of payments, a so-called ‘Grace Period’, the calculation of the days of Cure Period will start from the date of resumption of payments by the client (i.e. from the date of the end of the period of suspension). During the Cure Period, the counterparty's return to performing status will be prevented, even if the financial difficulty has been overcome.

During the Cure Period, the regularity of payments on the line covered by the forbearance measure must be verified.

At the end of the 12-month period, the position may be reclassified as performing (by means of a specific resolution), provided that:

- the debtor has not incurred any overruns
 - the debtor has paid a significant amount of principal and interest
- a further 24 months of the probation period has passed, starting from the counterparty's return to ‘performing’ status. In this period, exposures are placed in a special category called “*forborne performing from non-performing*”. At the end of the 24-month Probation Period,

the exposure can cease to be monitored - and the Forborne label may be cancelled - provided that the above conditions are met.

2.4 Categorisation as bad loans

The category of bad loans includes cash and off-balance sheet exposures to a client that is insolvent (even if not legally confirmed) or in comparable situations, independently of any loss forecasts by the bank. No account is therefore taken of any guarantees (real or personal) put in place to protect the exposures. Exposures that are in an anomalous situation due to country risk profiles are excluded.

The following are included:

- exposures to local authorities (Municipalities and Provinces) in a state of financial instability with respect to the portion subject to the relevant liquidation procedure;
- receivables acquired from third parties whose main debtors are non-performing, regardless of the portfolio accounting allocation.

A client must be classified as having a bad loan:

- in any event, where one of the following circumstances has occurred:
 - a) a declaration of bankruptcy or of forced liquidation;
 - b) initiation of legal proceedings by the Bank in accordance with the procedure laid down in the applicable legislation and without prejudice to the specific nature of the positions arising from Intesa Sanpaolo Personal Finance;
 - c) when the number of outstanding instalments exceeds objective limits (12 monthly instalments unpaid for all technical forms) with reference to counterparties with instalment financing, except in the presence of out-of-court agreements and/or formalised repayment plans;
- following a thorough evaluation, if the following events have occurred:
 - d) admission to an extraordinary administration procedure, in the event that there are no real prospects of restoring the economic-financial and asset equilibrium of entrepreneurial activities;
 - e) legal proceedings brought by third parties;
 - f) cessation of business activities;
 - g) placement in voluntary liquidation;
 - h) application/admission to composition with creditors if the state of crisis can in fact be considered to coincide with the state of insolvency.

As a general rule, in accordance with regulatory provisions (Risk Centre - Instructions for Participating Intermediaries - the Supervisory Authority), recognition as bad loans implies an assessment by the intermediary of the overall financial situation of the client and cannot automatically result from a mere delay on the part of the client in paying the debt. The assertion of a receivable is not in itself a sufficient condition for it to be classed as a bad loan.

For the purposes of the Transaction, the category of **Defaulted Loans** will be assigned to loans classified as non-performing or those with an **Arrears Ratio** greater than or equal to:

- ⇒ 10, in the case of loans with a monthly instalment;
- ⇒ 4, in the case of loans with a quarterly instalment;

⇒ 2, in the case of loans with a half-yearly instalment.

Also in the context of the Transaction and this Collection Policy, the “**Arrears Ratio**” indicates at the end of each reference month, the ratio between (a) all amounts due but not paid by way of principal and interest (excluding default interest) in relation to the Receivable and (b) the amount of the instalment relating to the Receivable itself due immediately before the end of the month. A classification as a **Defaulted Loan** is reversible.

The “Prevention and Retail Management” process - *Externa collection*

For extrajudicial recovery of Proactive and Non-performing loans that are not non-performing, and specifically for the process called "Retail Prevention and Management" (RE regulatory segment), Intesa Sanpaolo can avail itself not only of the competent internal offices of the bank itself, but also of external specialist companies that meet the necessary regulatory requirements.

Separate contractual conditions govern the collaboration, which is described in greater detail in the commercial collaboration agreement (“Collaboration Agreement”), concluded with external companies.

In general, the external company will perform the services by organising and managing all factors and production resources at its own expense and with entrepreneurial autonomy.

Without prejudice to the provisions of the Collaboration Agreement, the external company represents and warrants that it has - and will have for the entire term of the Collaboration Agreement - the authorisations, licenses and permits necessary to undertake its commercial activities and to fulfil its obligations with the utmost professionalism and diligence, in compliance with legislation in force from time to time and as provided in the “General and Special Conditions”.

In particular, the service will cover the activities of:

- **Phone Collection:** understood as an extrajudicial debt recovery activity performed through telephone contacts.

The activity is divided into two successive phases (Phone Collection 1 and Phone Collection 2), depending on the criticality of the client. The mandate to manage cases and to perform the recovery activity will last thirty days, commencing from the date of award of the mandate unless extended, and concerns individual cases which must be agreed from time to time.

The time granted may in exceptional cases be altered following assessment by the Bank, which will communicate it to the external company with a specific indication of the new expiry date of the mandate, including by a specific indication in the management portal.

By way of non-exhaustive indication, the activities that the external company may perform in the Phone Collection phase may be:

- a) communication of the problem to the client
- b) a request to regularise the situation and instruction on how to proceed
- c) communication of the possibility of a negotiated solution, subject to a creditworthiness assessment by the company
- d) directing the client to the Bank office for the application of a negotiated solution.

- **Home Collection:** understood as extrajudicial debt collection activities which may include a home visit by the external company to the third party debtor. The activity is divided into three successive phases (Home Collection 1, Home Collection 2 and Home Collection 3), depending on the criticality of the client. The mandate to manage cases and to perform the recovery activity will

last sixty days for the so-called Home Collection 1 and Home Collection 2 phases, and for ninety days for Home Collection 3 phases, commencing from the date of award of the mandate unless extended, and concerns individual cases which must be agreed from time to time.

The time granted may in exceptional cases be altered following assessment and an order of the Bank, which will communicate it to the external company with a specific indication of the new expiry date of the mandate, including by a specific indication in the management portal.

By way of non-exhaustive indication, in the Home Collection phases the external company may perform the following activities:

- a. communication of the problem to the client
- b. a request to regularise the situation and instruction on how to proceed
- c. communication of the possibility of a access to negotiated solutions, subject to a creditworthiness assessment by the Bank
- d. obtention of an expression of interest from the client in defining a strategy for regularisation with the Bank
- e. directing the client to the Bank office for the application of a negotiated solution.

The Service will consist in performing the Phone Collection and/or Home Collection activities for extrajudicial recovery of outstanding claims in the following categories:

- receivables relating to overdue and unpaid instalments
- receivables relating to overdue and unpaid sums
- receivables relating to default interest
- receivables arising from use of current accounts without a credit line or in excess of the granted credit limit
- receivables for expenses, accessories and any other amounts due in relation to the type of receivables claimed and for which a mandate is granted.

The process of granting a mandate, i.e. the creation of outsourced lots with a mandate to operate, takes place on a daily basis. The management process is also supported by a dedicated IT procedure that enables, again on a daily basis, viewing of the recovery actions implemented by external companies and precise monitoring of the evolution of the positions entrusted to external collection.

The cooperation agreement for the provision of extrajudicial credit recovery services, signed with external companies, provides for the determination of specific operational SLAs and management KPIs.

In particular, service levels are broken down into “high significance” and “medium significance”. The main “high significance” service levels are:

- misappropriation / delay in the consignment of values
- justified complaints / lawsuits concerning privacy violation and money laundering
- failure to comply with rules established by the Italian Data Protection Authority
- proven aggressive conduct toward clients

The main “medium significance” service levels are:

- prompt commencement of telephone and home recovery activities
- punctual performance of activities

- punctual issue of invoices according to operating instructions given.

Failure to comply with Service levels may result in the application of specific penalties/actions that vary according to the type of Service level not complied with and the extent of the violation.

The Bank will also constantly monitor the performance indicators (management KPIs) underlying the commission model and the logic of outsourced positions in the various phases, in accordance with the timeframes used to govern the outsourcing process, such as, by way of example but not limited to:

- net performance (amounts collected/amounts entrusted): the ratio between the volumes of sums collected (excluding expected collection values due after the mandate) compared to all transactions included the scope of the mandate and the volumes of overdue sums in the same mandate;
- regularisation: for instalment products, number of contracts which at the end of the credit period have zero overdue and unpaid instalments; for current account overdrafts, contracts with a final overdraft amount of zero;
- redemption: percentage of cases which, at the end of the credit line, have a lower number of overdue and unpaid instalments than at the beginning of the credit line compared to the total number of cases entrusted;
- duration of management: average duration of cases of management.

2.5 Renegotiation and restructuring of the loan if payments are not up to date

2.5.1 Renegotiation of outstanding loans - Individuals

The renegotiation of the interest rate and/or the term of the repayment plan is permitted for clients with loans/financing both secured by mortgages and unsecured loans and that are in arrears in terms of payments.

For positions classified as Proactive Credit, past due loans and/or impaired overruns and unlikely-to-pay/unlikely-to-pay-forborne, an initial agreement must be reached with the competent Credit and/or Management Department on the basis of the relevant concession or management powers, on the possibility of proposing renegotiation of the loan/financing to the client.

The renegotiation enables the loan to be brought back into line and favours its future sustainability by restructuring the repayment plan for the residual debt, possibly extending its term, in order to adapt its commitments to the client's actual cash flows.

The renegotiation operation must be approved by the body responsible for the concession, regardless of the status of the position. If the renegotiation also involves a waiver, the position must have been classified beforehand as unlikely-to-pay and the transaction must be approved by the competent body both in terms of concession and management powers.

- For positions classified as non-performing past due exposures, unlikely to pay and unlikely to pay forborne, renegotiation can be decided at a minimum level by the Credit Specialist for credit management at Regional Headquarters/Divisional Bank of the Local Bank Network.

The characteristics of this measure are as follows:

- the option of including the amount of the instalments due and outstanding together with the residual debt with a restructuring of the repayment plan; the client has the option of

extending the term of the loan up to a further 10 years beyond the original due date, observing the limits indicated below;

- overall term of the loan, including the extension, of not more than 40 years and, for private clients, provided that the principal debtor is not more than 80 years of age on the new due date;
- exclusively for positions classified as Proactive Credit, overrun/past due, unlikely to pay/unlikely to pay forborne, provision can be made for a grace period of not more than 36 months in which interest-only instalments will be paid, with specific minimum authorisation issued by the Regional Headquarters of the Local Bank Networks solely for to private individual counterparties;
- for all types of clients, without prejudice to the need as a matter of priority to collect at the same time as the renegotiation, in addition the portion of interest accrued since the last due date up to the day of conclusion of the transaction, of contractual interest accrued on the instalments falling due in the last six months and all default interest, with specific minimum authorization issued by the Regional Headquarters of the Local Bank Networks and, exclusively for positions classified as undergoing reorganization, overrun and unlikely-to-pay/unlikely-to-pay forborne, the latter two items (interest accrued in the last 6 months and default interest) may be deferred on the renegotiated loan. In this case, the deferment period may have a maximum term of 36 months and in any event not more than the residual term of the renegotiated loan. These items are non-interest-bearing, not subject to default even in the event of subsequent insolvency, and will be collected in instalments as of the first instalment following that of any interest-only instalment (in the event of a grace period). However, no exception to collection is permitted for performing loans or Proactive Credit.

This solution has significant implications, since:

- ✓ it allows the burden of repayment of the loan to be remodelled by extending the residual term, rendering payment of the relevant instalments sustainable and more consistent with actual spending capacity, and is characterised by simplicity and flexibility;
- ✓ it enables the carrying over of irregular situations in compliance with current legislation, with particular reference to the recent legislative changes introduced by the Community regulator on the subject of “Forborne” exposures.

In view of the various types of loans and the numerous possibilities for renegotiation, specific measures are assessed and decided on in each individual case, specifically taking the borrower’s creditworthiness into account, as well as the particular characteristics of the individual loan agreements.

In addition to the usual options to change the duration and type of repayment plan, it is also possible:

- for positions classified as overrun, unlikely-to-pay and forborne unlikely-to-pay, the restructuring of mortgage/purchase loans with payment of part of the principal at the maturity date of the last repayment instalment (the so-called balloon plan).

Use of the balloon plan enables customisation of the repayment plan based on the client's current and prospective cash flows. A repayment plan with final balloon payment therefore provides for the

payment of part of the capital on the last instalment of the repayment plan. The interest generated periodically by the balloon fee will be reimbursed together with the loan repayment instalment.

A renegotiation with a balloon option can only be decided on only by the competent Central Office of the Chief Lending Officer.

- for positions classified as unlikely-to-pay/unlikely-to-pay-forborne, the renegotiation of mortgage/land loans with partial write-off of the loan:

- if the position is subject to a specific analytical evaluation, the write-off is allowed within the limits of the value adjustments already applied to the position, and without prejudice to the limits of the management powers relating to the waiver of receivables;

- if the position is subject to an analytical evaluation on a statistical basis, the write-off is allowed within the limits of the value adjustments applied by automatic methods to the position, without prejudice to the limits of the management powers relating to the waiver of receivables.

As a matter of priority, the write-off must always concern the default interest component. The rules for reducing any further written off sums follow the accounting rules for collection of the instalment.

- the LTV ratio of the renegotiated loan must be above 70%.

A renegotiation with write-off can be decided at the minimum level of Credit Specialist for the management of loans of the Regional Headquarters/Divisional Bank of the Local Bank Network.

2.5.2 Renegotiation of loans to companies and retail businesses (SME) in arrears

The renegotiation of the interest rate and/or the term of the repayment plan is permitted for clients with loans/financing both secured by mortgages and unsecured loans and that are in arrears in terms of payments.

For positions classified as Proactive Credit, past due loans and/or impaired overruns and unlikely-to-pay/unlikely-to-pay-forborne, an initial agreement must be reached with the competent Credit and/or Management Department on the basis of the relevant concession or management powers, on the possibility of proposing renegotiation of the loan/financing to the client.

The renegotiation enables the loan to be brought back into line and favours its future sustainability by restructuring the repayment plan for the residual debt, possibly extending its term, in order to adapt its commitments to the client's actual cash flows.

The renegotiation operation must be approved by the body responsible for the concession, regardless of the status of the position. If the renegotiation also involves a waiver, the position must have been classified beforehand as unlikely-to-pay and the transaction must be approved by the competent body both in terms of concession and management powers.

The characteristics of this measure are as follows:

- the option of including the amount of the instalments due and outstanding together with the residual debt with a restructuring of the repayment plan; the client has the option of extending the term of the loan up to a further 10 years beyond the original due date, with a total residual term, including the extension, that does not exceed 30 years;
- the renegotiation can be re-proposed up to a maximum of 2 times during the life of the loan with a total residual term, including the extension, that does not exceed 30 years. The second renegotiation is to be considered only in the event of a further deterioration of the clients capacity to repay, and is authorised at the minimum level by the Band II Credit Specialist of the Regional Headquarters of the Local Bank Networks/Band I Credit Specialist of the Local Bank Network.

- a grace period of not more than 36 months may be provided (the period included in the extension of the duration granted) during which interest-only instalments are paid. This facility can be decided at the minimum level of the Credit Specialist of the Regional Headquarters of the Local Bank Networks/Credit Specialist of the Local Bank Network;
- without prejudice to the need as a matter of priority to collect at the same time as the renegotiation, in addition the portion of interest accrued since the last due date up to the day of conclusion of the transaction, of contractual interest accrued on the instalments falling due in the last six months and all default interest, with specific minimum authorization issued by the Regional Headquarters of the Local Bank Networks and, exclusively for positions classified as past due loans and/or impaired overruns and unlikely-to-pay/unlikely-to-pay-forborne, the latter two items (interest accrued in the last 6 months and default interest) may be deferred on the renegotiated loan. In this case, the deferment period may have a maximum term of 36 months and in any event not more than the residual term of the renegotiated loan. These items are non-interest-bearing, not subject to default even in the event of subsequent insolvency, and will be collected in instalments as of the first instalment following that of any interest-only instalment (in the event of a grace period). However, no exception to collection is permitted for performing loans or Proactive Credit
- The renegotiation is subject to confirmation of the guarantees pertaining to the operation.

3. MANAGEMENT OF BAD LOANS

Once classified as bad loans, positions are taken over by the relevant internal or external credit recovery unit, which immediately adopts the most appropriate recovery initiatives.

At the time of deciding on credit recovery measures, both the judicial solutions and the extrajudicial solutions are carefully assessed in terms of cost-benefit analyses, also taking the financial effect of the estimated recovery times into consideration.

The analysis takes account of all available information, in particular:

- the verification of the correct formalisation of the contractual forms certifying the existence of credit relations with the client (correct conclusion of the loan and guarantees);
- the risks of revocation/inefficacy of guarantees and/or payments;
- the up-to-date value of the guarantees;
- the financial and economic/asset position of the client and any guarantors;
- the outcome of any initiatives undertaken by the Bank to dialogue with the client (meeting, responses to any written communications);
- the existence of insolvency proceedings.

The wide-ranging powers conferred, particularly for settlements, on the Head of Direzione Centrale NPE and on the managers of the recovery units that report to him and to the Servicer (for externally managed positions), enables flexible and effective management of the recovery activities.

Legal actions for the recovery of bad loans are taken:

- directly, where possible, by ex parte claims (prompt inclusion in the liabilities, declarations of receivables in insolvency proceedings, etc.);

and

- by the appointment of external legal counsel for legal actions (e.g. payment orders, levy of execution against movable and immovable property, etc.).

The decision to grant a mandate to an external lawyer is, in principle, a matter for the heads of the competent units. As a general rule, any new assignment can only be entrusted to lawyers who are listed on the Register and who are signatories to the most recent convention.

Furthermore, in the case of high-value positions, and in the higher instances of proceedings than the first, specific authorisations are required for the choice of an external lawyer and for the procedural strategy to be adopted.

The relationship with the external legal counsel (governed, including in economic aspects, by an agreement) provides for (i) a frequent documentary and informative update on the main aspects of interest to the Bank (e.g. debtor's interest in an extrajudicial settlement of the dispute or the admission of the claim to the statement of liabilities) as well as (ii) monitoring of the work of the external counsel by legal practitioners, under the supervision and with the aid of the their heads of department.

With particular regard to recovery procedures typical of positions for a significant amount, when such a position is taken, an immediate review is conducted, taking all urgent and necessary measures to optimise the possibility of recovery of the loan, including through the acquisition of new guarantees (e.g. judicial liens).

The advisability of submitting an urgent bankruptcy application is also assessed, if it is useful to prevent the consolidation of guarantees or measures (e.g. payments) taken by the debtor in favour of third parties.

Following a necessary initial stage dedicated to the more urgent measures of protecting the loan, the best operating strategy to be implemented is drawn up in order to maximise recovery of the loan as soon as possible.

From this standpoint, it may be decided:

- to proceed with direct recovery of the individual loan (judicially or extra judicially);
- to proceed to 'without recourse' assignment of portfolios "en bloc" and of individual receivables of a significant amount, to leading national and international operators.

The choice of one of the above solutions does not, of course, preclude recourse to the others.

With reference to a possible assignment without recourse, the Bank's heads of management department maintain regular contact with the main investors operating in the sector of acquisitions of non-performing loans (NPLs).

This knowledge of the market makes it possible, also in the case of assignment of individual loans, to conclude the assignment agreement in very short timescales and under the best possible conditions.

However, if it is deemed preferable and more appropriate to proceed with direct recovery of the loan, the following options are available:

- extrajudicial proceedings

or

- judicial proceedings (aimed at individual enforcement and/or insolvency proceedings).

With regard to loans involving a significant sum, it is often the case that extrajudicial solutions, which do not rule out simultaneous recourse to judicial proceedings, are proposed by the debtor itself to the entire circle of lending banks.

During these meetings, the parent company's policy is generally to avoid recourse to "new finance", as it always prefers solutions that enable (if possible, also with the contribution of third party

financial resources) a prompt settlement of the matter, since the time necessary to recover a loan obviously represents a burden for the Group banks.

If extrajudicial recovery is not considered possible or advisable, the advisability of undertaking individual enforcement or insolvency proceedings is assessed, depending on the specific situation (risks of revocation of guarantees and/or payments or advisability of bankruptcy in order to avoid the consolidation of guarantees acquired by third parties).

If the path of individual enforcement is preferred, every effort is made to enable a prompt sale of assets (including the option of assigning the compulsory sale procedure to a notary or other professionals).

In the event of insolvency proceedings, the timescales are less easily controlled but, in such cases also, attempts are made to speed up the sale and distribution of the assets, insofar as permitted by bankruptcy legislation.

For the management of bad loans entrusted to the First Special Servicer, ISP CB Ipotecario S.r.l. is granted powers to be exercised independently within the scope of the rights indicated below, including filings and appearance in any type of legal action.

The First Special Servicer will be entitled to perform part of its activities also through the structures of Intesa Sanpaolo.

Collections relating to the loans insured by AmTrust International Ltd

The payment of indemnities by the insurance company AmTrust International Ltd for high LTV loans (LTV from 80.01% to 100% at the time of disbursement of the loan) covered by an insurance policy is requested by the Servicer and normally only once all the activities for recovery of the receivables concerned have been performed (such as, for example, enforcement actions on the assets covered by the real estate guarantee, enforcement of any other accessory guarantees, practices relating to the compensation of other insured damages and related disputes).

Rights attributed to the First Special Servicer on bad loans transferred to ISP CB Ipotecario S.r.l. by Intesa Sanpaolo S.p.A.

A) Rights regarding settlements and waivers of irrecoverable loans

The First Special Servicer shall be entitled, through its own units and its own employees specifically mandated for the purpose, even if seconded by Intesa Sanpaolo Group companies, to:

- authorise, in respect of individual loans, the write-off of bad loans and settlements involving cash or non-cash collections (non-cash settlements are understood as those involving taking over of a debt) provided that the waiver (gross amount of the loan minus collection provided for, including the possible financial effect of discounting of repayment plans/moratoria) does not exceed the sum of €200,000 (two hundred thousand Euro); this condition does not apply in the event of the write-off of bad debts following the closure of individual insolvency and/or arrangement proceedings, in the context of value adjustments already approved, which may be authorised without any limits on the amount.

All of the foregoing authorising:

- waivers of any condition, within the limits set out above (including by means of the assignment of receivables to third parties in any manner and condition), terminations of loans, adherence to procedures for composition with creditors, bankruptcy and extraordinary administration, as well as debt restructuring agreements, including those provided for in Article 182 bis of Royal Decree No. 267 of 16 March 1942 (the Bankruptcy Act),

agreements to recovery plans pursuant to Article 67, paragraph 3 letter d) of the said Bankruptcy Law, as well as payment extensions/moratoria, or the application of preferential rates (including at a zero rate);

- waivers of deeds of enforcement, substitutions, cancellations, subordinations, reductions, restrictions, divisions into portions of loans or divisions of the relevant mortgages with a reduction in guarantee, any other formality relating to the mortgages, registrations, including repossession, and liens placed in favour of the Bank, even if the loan has not been discharged and the authorisation itself has not been subjected to full settlement of the loan;
- return of sums as due;
- waivers relating to the gross value of the loans (sum entered in the accounts gross of any write-downs), as disbursements to be made in settlement of third party claims and entry in the accounts of sums comprising contingent liabilities and/or non-existence of the claim, when it does not constitute a due act.

B) Rights regarding value adjustments

The First Special Servicer is entitled, through its own units and its own employees specifically delegated by it, even if seconded by Intesa Sanpaolo Group companies, to authorise adjustments to the value of the loans, in accordance with the powers granted to Intesa Sanpaolo from time to time.

C) Rights regarding reported tax, judicial and extrajudicial losses

The First Special Servicer shall be entitled, through its own units and its own employees specifically mandated for the purpose, even if seconded by Intesa Sanpaolo Group companies, to:

- authorise financial statement provisions for judicial and extrajudicial claims made by third parties or in the event of risks of loss, up to a maximum amount, per individual litigation, of 200,000 (two hundred thousand Euro);
- settle judicial or extrajudicial disputes, or prevent them, by means of disbursements in settlement of third party claims, and order the possible entry in the accounts of contingent liabilities or waivers of loans (without prejudice in any event to the rights regarding settlements and waivers of irrecoverable loans) up to a maximum limit, including interest, legal expenses and ancillary costs, per individual case, of €1,000,000 (one million Euro);
- order payments relating to the aforesaid charges due following orders issued by the judicial, administrative or tax authorities up to a maximum amount of €10,000,000 (ten million Euro) per individual case.

D) Rights regarding the payment of duties and taxes

The First Special Servicer is entitled, through its own units and its own employees specifically delegated by it, even if seconded by Intesa Sanpaolo Group companies, to order payments in favour of the tax authorities for indirect taxes associated with bad loans (“sofferenze”).

E) Further rights

The First Special Servicer is also entitled to authorise any judicial, administrative and enforcement action in any competent place and at any level of jurisdiction, with the right to abandon it, to withdraw from acts and actions and to accept similar withdrawals or waivers by other parties to the proceedings, with all resulting rights and, more generally, to take all necessary measures, in any place, for the best protection, including judicial protection, of the loans.

F) Rights regarding legal expenses

The First Special Servicer may order expense facilities of up to a limit of €60,000 (sixty thousand Euro) per individual facility.

Rights attributed to the Second Special Servicer (if any) on bad loans transferred to ISP CB Ipotecario S.r.l. by Intesa Sanpaolo S.p.A.

Once the receivables are recorded as Defaulted Loans classified as “*in sofferenza*”, the Servicer communicates the credit position to the Second Special Servicer (if any) by providing information on the financial situation of the debtor and/or any guarantors and submits all the documentation needed to activate the recovery. In communicating to the Second Special Servicer the credit position of the Defaulted Loans classified as “*in sofferenza*”, the Servicer highlights, *inter alia*, that the relevant Defaulted Loans classified as “*in sofferenza*” relate to the Programme.

The powers of the Second Special Servicer (if any) in relation to Defaulted Loans classified as “*in sofferenza*” that it manages itself are the same as the powers conferred upon the Second Special Servicer in respect of individual customers by certain agreements between Intesa Sanpaolo and the Second Special. Such management powers shall be deemed to be amended from time to time in the event of subsequent agreements between the companies of Intesa Sanpaolo Group and the Second Special Servicer, provided that such powers may not be wider than the powers of the First Special Servicer as provided by the Collection Policies. In case of amendments of these powers, the First Special Servicer will promptly inform ISP CB Ipotecario S.r.l. and the Representative of the Covered Bondholders.

As specified under the Servicing Agreement, the Second Special Servicer (if any) may also avail itself of third parties, who will act under its responsibility, to carry out specific services relating to the management of defaulted loans classified as “*in sofferenza*”. The power to delegate to such third parties is regulated by certain agreements between Intesa Sanpaolo and the Second Special Servicer. Even in this case, such powers shall be deemed amended from time to time in the event of subsequent agreements between the First Special Servicer and the Second Special Servicer. In case of amendments of these powers, the First Special Servicer will promptly inform ISP CB Ipotecario S.r.l. and the Representative of the Covered Bondholders.

4. DEFAULTED SECURITIES – MONITORING OF EVENT OF DEFAULTED

The Servicer shall monitor on a continuing basis the financial performance of the Securities and the fulfilment of the Debtors’ obligations in respect of the Securities, and shall classify as Defaulted Securities the Securities (i) whose issuer has been classified as “in default”; (ii) that may be considered “in default” in accordance with the provisions of the relevant Securities documents provided that an acceleration notice has been served by the relevant representative of the noteholders or trustee, and (iii) that have been delinquent for more than 30 Business Days starting from the maturity date provided for under the relevant Securities documents.”

CREDIT STRUCTURE

The Covered Bonds (*obbligazioni bancarie garantite*) will be direct, unsecured, unconditional obligations of the Issuer guaranteed by the Covered Bond Guarantor. The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts under the Covered Bond Guarantee until (i) the occurrence of an Article 74 Event or an Issuer Event of Default, service by the Representative of the Covered Bondholders on the Covered Bond Guarantor of either an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, or (ii) the occurrence of a Covered Bond Guarantor Event of Default and service by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice on the Covered Bond Guarantor. The Issuer will not be relying on payments by the Covered Bond Guarantor under the Subordinated Loan in order to pay interest or repay principal under the Covered Bonds.

There are a number of features of the Programme which enhance the likelihood of timely and, as applicable, ultimate payments to Covered Bondholders:

- (i) the Covered Bond Guarantee provides credit support to the Issuer;
- (ii) the Tests are intended to ensure that the Portfolio is sufficient to repay the Covered Bonds at all times;
- (iii) among the Tests: (i) the Nominal Value Test is intended to maintain the sufficiency of the Covered Bond Guarantor's assets in respect of the Covered Bonds and (ii) the Amortisation Test is intended to test the sufficiency of the Covered Bond Guarantor's assets in respect of the Covered Bonds following the occurrence of an Issuer Event of Default and service of a Notice to Pay on the Covered Bond Guarantor;
- (iv) the Pre-Maturity Liquidity Test is intended to trigger the provision of liquidity for Hard Bullet Covered Bonds when the Issuer's credit ratings fall below a certain level;
- (v) extendable maturity provisions are applicable to all Series of Covered Bonds other than Hard Bullet Covered Bonds as specified in the relevant Final Terms.

Certain of these factors are considered in more detail in the remainder of this section.

Covered Bond Guarantee

The Covered Bond Guarantee provided by the Covered Bond Guarantor guarantees payment of the Guaranteed Amounts on the Due for Payment Date in respect of all Covered Bonds issued under the Programme. The Covered Bond Guarantee will not guarantee any other amount payable in respect of the Covered Bonds for any other reason, including any accelerated payment following the occurrence of an Issuer Event of Default or an Article 74 Event. In this circumstance (and until a Covered Bond Guarantor Event of Default occurs and a Covered Bond Guarantor Acceleration Notice is served), the Covered Bond Guarantor's obligations will only be to pay the Guaranteed Amounts on the Due for Payment Date.

See paragraph headed "*Covered Bond Guarantee*" under the section headed "*Description of the Transaction Documents*", as regards the terms of the Covered Bond Guarantee.

Under the terms of the Portfolio Administration Agreement, the Issuer must ensure that the Portfolio is in compliance with the Tests described below on each Calculation Date or on any other date on which the verification of the Tests is required pursuant to the Transaction Documents.

If on any Calculation Date the Portfolio is not in compliance with the Mandatory Tests, then the Seller and, should the Seller fail to do so, any Additional Sellers, provided that the conditions indicated under the relevant Master Transfer Agreement are met, shall sell Eligible Assets or Integration Assets to the Covered Bond Guarantor in an amount sufficient to allow the Mandatory Tests to be met as soon as possible, in accordance with the relevant Master Transfer Agreement. To facilitate such a sale, the Seller and/or any Additional Seller shall grant additional amounts under the relevant Subordinated Loan for the purposes of funding the purchase of Eligible Assets or Integration Assets. If a breach of the Mandatory Tests is not remedied and for so long as such breach is continuing, no further Series of Covered Bonds will be issued and no payments under the Subordinated Loan will be effected.

Tests

For so long as any Covered Bond remains outstanding and provided that no Issuer Event of Default has occurred, the Issuer shall procure that, on a continuing basis (provided that such obligation shall be deemed to be complied with if the following mandatory tests are satisfied on each Calculation Date and/or on each other date on which those mandatory tests are to be carried out pursuant to the provisions of the Portfolio Administration Agreement and the other Transaction Documents), the following mandatory tests are satisfied and verified on each Calculation Date or any other date on which the verification of the Mandatory Tests is required pursuant to the Transaction Documents.

1. *Nominal Value Test*

Prior to the occurrence of an Issuer Event of Default, the Nominal Value of the Portfolio shall be greater than or equal to the aggregate Outstanding Principal Balance of all Series of Covered Bonds (the **Nominal Value Test**).

Nominal Value of the Portfolio will be an amount calculated on each Calculation Date by applying the following formula (without double-counting):

$$A + R + B + D + C - X - Y - Z$$

where,

“**A**” stands for the aggregate **Adjusted Outstanding Principal Balance** of each Mortgage Loan, which shall be the lower of:

- (i) the Outstanding Principal Balance of the relevant Mortgage Loan as calculated by reference to the relevant Collection Date; and
- (ii) the Latest Valuation relating to the Real Estate Asset of the relevant Mortgage Loan multiplied by M,

where

- (a) for all Residential Mortgage Loans that are not Defaulted Loans, $M = 0.80$;
- (b) for all Commercial Mortgage Loans that are not Defaulted Loans, $M = 0.60$, subject in any case to the Aggregate Percentage Limitation (as defined under “D” below); and
- (c) for all Mortgage Loans that are Defaulted Loans $M = 0$;

minus

the aggregate sum of the following reductions to the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio:

- (1) a Mortgage Loan (or any Security relating thereto) in relation to which a breach of the representations and warranties contained in the relevant Master Transfer Agreement has occurred and has not been remedied or which is subject to any indemnity and/or repurchase obligation of the Seller or any relevant Additional Seller, and in each case the Seller or any relevant Additional Seller, has not repurchased the Mortgage Loan or Mortgage Loans (each an **Affected Loan**) of the relevant Debtor, to the extent required by the terms of the relevant Master Transfer Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the Adjusted Outstanding Principal Balance of the relevant Affected Loan or Affected Loans (as calculated on the relevant Calculation Date); and/or
- (2) the Seller or any Additional Seller is in breach of any other material warranty under the relevant Master Transfer Agreement and/or the Servicer is in breach of a material term of the Servicing Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the resulting financial loss incurred by the Covered Bond Guarantor (such financial loss to be calculated by the Covered Bond Guarantor or on its behalf by the Calculation Agent without double counting and to be

reduced by any amount paid (in cash or in kind) to the Covered Bond Guarantor by the Issuer, the Seller, any Additional Seller and/or the Servicer to indemnify the Covered Bond Guarantor for such financial loss);

the amount resulting from the calculations above, *multiplied by* the Asset Percentage;

“R” stands for the aggregate Outstanding Principal Balance of all MBS Notes, subject in any case to the Aggregate Percentage Limitation (as defined under “D” below), *minus* the sum of, without double counting:

(i) the aggregate Outstanding Principal Balance of all MBS Notes in relation to which a breach of any of the material representations and warranties contained in the relevant Master Transfer Agreement has occurred;

(ii) the aggregate Outstanding Principal Balance of all Defaulted Securities;

(iii) if the aggregate Outstanding Principal Balance of the Non-Eligible Underlying Assets exceeds 5% of the Outstanding Principal Balance of the Underlying Assets (both as calculated on the most recent calculation date of the relevant MBS Transaction), an amount equal to the aggregate Outstanding Principal Balance of such Non-Eligible Underlying Assets in excess of the above mentioned 5%, *multiplied by*, in respect of each relevant MBS Transaction, the ratio between (i) the Outstanding Principal Balance of the relevant MBS Notes which have been transferred to the Covered Bond Guarantor, and (ii) the Outstanding Principal Balance of all the MBS Assets of the same class,

the amount resulting from the calculations above, *multiplied by* the Asset Percentage;

“B” stands for the aggregate amount standing to the credit of each Relevant Investment Account and the principal amount of any Integration Assets (i) not exceeding the Integration Assets Limit and (ii) in relation to which a breach of any of the representations and warranties contained in the relevant Master Transfer Agreement has not occurred or has been remedied;

“D” stands for the principal amount of any other Eligible Asset not indicated under “A” and “R” above and included in the Portfolio (i) not exceeding (together with any Eligible Asset consisting of receivables indicated under Article 2, Paragraph 1 (b) of the MEF Decree and/or asset backed securities whose securities receivables are those indicated under Article 2, Paragraph 1 (b) of the MEF Decree) 10% of the aggregate Outstanding Principal Balance of the assets included in the Portfolio (the **Aggregate Percentage Limitation**), and (ii) in relation to which a breach of any of the representations and warranties contained in the relevant Master Transfer Agreement has not occurred or has been remedied;

“C” stands for the aggregate amount of all Eligible Investments;

“X” stands for an amount equal to the Supplemental Liquidity Reserve Amount (if any);

“Y” is equal to (i) nil, if (a) the portfolio consists of Securities only, and (b) in the event that the Portfolio includes Mortgage Loans, the Issuer’s ratings are at least “P-2/Baa2” by Moody’s, or (ii) the Potential Set-Off Amount; and

“Z” stands for the weighted average remaining maturity (expressed in years) of all Covered Bonds then outstanding multiplied by the aggregate Outstanding Principal Balance of the Covered Bonds multiplied by the Negative Carry Factor.

MBS Assets means the MBS Notes and the other notes issued under each relevant MBS Transaction.

Negative Carry Factor means a percentage (which will never be less than 0.5%) calculated by the Calculation Agent on each Calculation Date or any other date on which the verification of the Mandatory Tests is required pursuant to the Transaction Documents, with reference to the weighted average margin of the Covered Bonds.

Non-Eligible Underlying Assets means the assets included in an MBS Portfolio (as calculated on the most recent calculation date of the relevant MBS Transaction) which would not be eligible in accordance with the provisions of the MEF Decree.

Supplemental Liquidity Available Amount means (i) prior to the service of a Notice to Pay, an amount equal to the Supplemental Liquidity Reserve Amount *minus*, if a Supplemental Liquidity Event has occurred which is continuing, an amount equal to the aggregate Current Balance of Selected Assets sold to fund or replenish the Supplemental Liquidity Reserve Account, unless otherwise proposed to Moody's, and (ii) following the service of a Notice to Pay, an amount equal to the Supplemental Liquidity Reserve Amount.

Supplemental Liquidity Event means the event occurring when the Issuer's short-term credit rating from Moody's falls below the Pre-Maturity Liquidity Required Rating.

Supplemental Liquidity Reserve Amount means (i) prior to the service of a Notice to Pay, an amount calculated by, and at the option of, the Issuer on behalf of the Covered Bond Guarantor on the basis of a method proposed by the Servicer to Moody's in connection with the funding of the Supplemental Liquidity Reserve Account; and (ii) following the service of a Notice to Pay, an amount equal to the Supplemental Liquidity Reserve Amount immediately prior to the service of such Notice to Pay, *minus* an amount equal to the aggregate Current Balance of Selected Assets sold to fund or replenish the Supplemental Liquidity Reserve Account.

Underlying Assets means the assets included in an MBS Portfolio.

2. ***Net Present Value (NPV) Test***

The aggregate Net Present Value of (i) the Eligible Portfolio and (ii) each Asset Swap and Liability Swap, net of the Excluded Swaps and the transaction costs to be borne by the Covered Bond Guarantor (including the payments of any nature expected to be borne or due with respect to any Swap Agreement) shall be greater than or equal to the Net Present Value of all Series of the outstanding Covered Bonds (the **NPV Test**).

Discount Factor means the discount rate, implied in the relevant Swap Curve, calculated by the Servicer.

Net Present Value means, as of any relevant date, (i) in respect of (a) the Eligible Portfolio, (b) each Asset Swap and Liability Swap and (c) the transaction costs to be borne by the Covered Bond Guarantor, an amount equal to the algebraic sum of the product of each relevant Discount Factor and expected payments (or Euro Equivalent of the expected payments) to be received or to be effected by the Covered Bond Guarantor; and (ii) in respect of all Series of the outstanding Covered Bonds, an amount equal to the sum of the product of each relevant Discount Factor and expected interest and principal payments (or Euro Equivalent of such expected payments) to be effected in respect of such Series of outstanding Covered Bonds.

Swap Curve means the term structure of interest rates used by the Servicer in accordance with the best market practice and calculated based on market instruments.

3. ***Interest Coverage Test***

The Net Interest Collections from the Eligible Portfolio shall be greater than or equal to the Interest Payments and the Annual Net Interest Collections from the Eligible Portfolio shall be greater than or equal to the Annual Interest Payments (the **Interest Coverage Test**).

Annual Interest Payments means, as of a Calculation Date or any other relevant date and with reference to each of the four following Guarantor Interest Periods an amount equal to the aggregate of (a) expected interest payments (or the Euro Equivalent of the expected interest payments) in respect of the outstanding Series of Covered Bonds (other than floating rate Covered Bonds) and (b) Expected Floating Payments in respect of interest on floating rate Covered Bonds then outstanding under the Programme.

Annual Net Interest Collections from the Eligible Portfolio means, as of a Calculation Date or any other relevant date and with reference to each of (x) the four following Guarantor Payment Dates or (y) the four following Guarantor Interest Periods, and (z) the relevant Collection Periods, as the case may be, an amount equal to the difference between (i) and (ii), where:

- (i) is equal to the sum of:
 - (a) interest payments (or the Euro Equivalent of the interest payments) from the Fixed Component of the Eligible Portfolio and payments and Expected Floating Payments in respect of interest from the Floating Component of the Eligible Portfolio received or expected to be received by the Covered Bond Guarantor;
 - (b) any amount expected to be received by the Covered Bond Guarantor as payments under the Asset Swaps (which are not Excluded Swaps);
 - (c) with reference to Covered Bonds with semi-annual CB Payment Dates, any amount (or the Euro Equivalent of any amount) expected to be received by the Covered Bond Guarantor as payments under the Liability Swaps (which are not Excluded Swaps);
 - (d) with reference to Covered Bonds with annual CB Payment Dates, the amount (or the Euro Equivalent of the amount) to be received annually by the Covered Bond Guarantor as payment under the Liability Swaps (which are not Excluded Swaps); and
- (ii) is equal to the payments (or the Euro Equivalent of the payments) to be effected, in accordance with the relevant Priority of Payments, by the Covered Bond Guarantor in priority to, and including, payments under the Swap Agreements (which are not Excluded Swaps).

For the avoidance of doubt, items under (i)(a) above shall include (i) interest expected to be received from the investment, into Eligible Investments, of principal collections arising from the expected amortisation of the Eligible Portfolio and (ii) the Reserve Fund Required Amount outstanding as of the Calculation Date and with reference to the Guarantor Payment Date prior to the earliest Guarantor Payment Date included in the calculation.

Euro Equivalent means at any date, in relation to any amount or payment referred to a loan, a bond, an agreement or any other asset the amount or payment referred to such loan, bond, agreement or asset at such date denominated in Euro where the exchange rate corresponds to (i) the current exchange rate fixed by the Servicer in accordance with its usual practice at that time for calculating that equivalent should any currency hedging agreement be not in place or (ii) the exchange rate indicated in the relevant currency hedging agreement in place.

Expected Floating Payments means the amount (or the Euro Equivalent amount), determined on the basis of the Swap Curve, of expected principal and interest payments from the Floating Component of the Eligible Portfolio, the expected Swap Agreements floating leg payments, or the expected interest payments on outstanding Series of floating rate Covered Bonds, as the case may be.

Fixed Component of the Eligible Portfolio means the Eligible Assets or Integration Assets being part of the Eligible Portfolio remunerated on the basis of a fixed rate of interest.

Floating Component of the Eligible Portfolio means the Eligible Assets or Integration Assets being part of the Eligible Portfolio remunerated on the basis of a floating rate of interest.

Interest Payments means, as of a Calculation Date or any other relevant date, with reference to all following Guarantor Interest Periods up to the last Maturity Date, or Extended Maturity Date, as the case may be, an amount equal to the aggregate of (a) expected interest payments (or the Euro Equivalent of the expected interest payments) in respect of the outstanding Series of Covered Bonds (other than floating rate Covered Bonds) and (b) Expected Floating Payments in respect of interest on floating rate Covered Bonds.

Net Interest Collections from the Eligible Portfolio means, as of a Calculation Date or any other relevant date with reference to all (x) following Guarantor Payment Dates, or (y) the relevant Guarantor Interest Periods, and (z) the relevant Collection Periods, as the case may be, up to the last Maturity Date or Extended Maturity Date of any Series of Covered Bonds, as the case may be, an amount equal to the difference between (i) and (ii), where:

- (i) is equal to the sum of:
 - (a) interest payments (or the Euro Equivalent of the interest payments) from the Fixed Component of the Eligible Portfolio and payments and Expected Floating Payments in respect of interest from the Floating Component of the Eligible Portfolio received or expected to be received;

- (ii) is equal to the payments (or the Euro Equivalent of the payments) to be effected in accordance with the relevant Priority of Payments, by the Covered Bond Guarantor in priority to, and including, payments under the Swap Agreements (which are not Excluded Swaps).

For the avoidance of doubt, items under (i)(a) above shall include interest expected to be received from the investment, into Eligible Investments, of principal collections arising from the expected amortisation of the Eligible Portfolio.

The Nominal Value Test, the NPV Test and the Interest Coverage Test are jointly defined as the **Mandatory Tests**.

4. **Amortisation Test**

In accordance with the Portfolio Administration Agreement, the Issuer shall procure that, for so long as any Covered Bond remains outstanding and following the occurrence of an Issuer Event of Default, and service of a Notice to Pay by the Representative of the Covered Bondholders, on a continuing basis (provided that such obligation shall be deemed to be complied with if the following test is satisfied on each Calculation Date and/or on each other date on which that test is to be carried out pursuant to the provisions of the Portfolio Administration Agreement and the other Transaction Documents), the following test is satisfied and verified on each Calculation Date.

The Amortisation Test Aggregate Portfolio Amount shall be greater than or equal to the Outstanding Principal Balance of the Covered Bonds (the **Amortisation Test** and, together with the Mandatory Tests, the **Tests**).

Amortisation Test Aggregate Portfolio Amount will be an amount calculated on each Calculation Date by applying the following formula (without double-counting):

$$A + R + B + D + C - X - Z$$

where,

“**A**” stands for the aggregate **Amortisation Test Outstanding Principal Balance** of each Mortgage Loan then in the Portfolio, which shall be the lower of:

- (i) the Outstanding Principal Balance of the relevant Mortgage Loan as calculated by reference to the relevant Collection Date; and
- (ii) the Latest Valuation relating to the Real Estate Asset of the relevant Mortgage Loan multiplied by M,

where

- (a) for all Residential Mortgage Loans that are not Defaulted Loans, $M = 0.80$;

- (b) for all Commercial Mortgage Loans that are not Defaulted Loans, $M = 0.60$; and
- (c) for all Mortgage Loans that are Defaulted Loans $M = 0$;

minus

the aggregate sum of the following reductions to the aggregate Amortisation Test Outstanding Principal Balance of the Mortgage Loans in the Portfolio:

4. Covered Bond Guarantee

On or about the First Issue Date the Covered Bond Guarantor issued the Covered Bond Guarantee securing the payment obligations of the Issuer under the Covered Bonds, in accordance with the provisions of Law 130 and of the MEF Decree.

Under the terms of the Covered Bond Guarantee, if the Issuer defaults in the payment on the due date (subject to any applicable grace periods) of any monies due and payable under or pursuant to the Covered Bonds, or if any other Issuer Event of Default or an Article 74 Event occurs, the Covered Bond Guarantor has agreed (subject as described below) to pay, or procure to be paid, following service by the Representative of the Covered Bondholders of a Notice to Pay or an Article 74 Notice to Pay (which has not been withdrawn), unconditionally and irrevocably, any amounts due under the Covered Bonds as and when the same were originally due for payment by the Issuer, as of any Maturity Date or, if applicable, Extended Maturity Date.

Pursuant to Article 7-bis, paragraph 1, of Law 130 and Article 4 of the MEF Decree, the guarantee provided under the Covered Bond Guarantee is a first demand (*a prima richiesta*), unconditional, irrevocable (*irrevocabile*) and independent guarantee (*garanzia autonoma*) and therefore provides for direct and independent obligations of the Covered Bond Guarantor *vis-à-vis* the Covered Bondholders and with limited recourse to the Available Funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the Issuer. The provisions of the Italian Civil Code relating to *fideiussione* set forth in articles 1939 (*Validità della fideiussione*), 1941, paragraph 1 (*Limiti della fideiussione*), 1944, paragraph 2 (*Escussione preventiva*), 1945 (*Eccezioni opponibili dal fideiussore*), 1955 (*Liberazione del fideiussore per fatto del creditore*),

1956 (*Liberazione del fideiussore per obbligazione futura*) and 1957 (*Scadenza dell'obbligazione principale*) shall not apply to the Covered Bond Guarantee.

Following the occurrence of an Article 74 Event or an Issuer Event of Default and the service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, the Covered Bond Guarantor shall pay or procure to be paid on the relevant Scheduled Due for Payment Date to the Covered Bondholders an amount equal to those Guaranteed Amounts which shall become due for payment in accordance with the relevant Conditions, but which have not been paid by the Issuer to the relevant Covered Bondholder on the relevant Scheduled Payment Date.

Following the occurrence of a Covered Bond Guarantor Event of Default and the service by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice in respect of all Covered Bonds, which shall become immediately due and repayable, the Covered Bond Guarantor shall pay or procure to be paid on the Due for Payment Date to the Covered Bondholders, the Guaranteed Amounts for all outstanding Covered Bonds.

Following service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay on the Covered Bond Guarantor, but prior to the occurrence of a Covered Bond Guarantor Event of Default, payment by the Covered Bond Guarantor of the Guaranteed Amounts pursuant to the Covered Bond Guarantee will be made, subject to and in accordance with the Post-Issuer Default Priority of Payments, on the relevant Scheduled Due for Payment Date, provided that, if an Extended Maturity Date is envisaged under the relevant Final Terms and actually applied, any amount representing the Final Redemption Amount due and remaining unpaid on the Maturity Date may be paid by the Covered Bond Guarantor on any Scheduled Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. In addition, to the extent that the Covered Bond Guarantor has insufficient monies available after payment of higher ranking amounts and taking into account amounts ranking *pari passu* therewith in the relevant Priorities of Payments, the Covered Bond Guarantor shall make partial payments of the Guaranteed Amounts in accordance with the Post-Issuer Default Priority of Payments.

Following service of a Covered Bond Guarantor Acceleration Notice all Covered Bonds will accelerate against the Covered Bond Guarantor in accordance with the Conditions, becoming due and payable, and they will rank *pari passu* amongst themselves and the Available Funds shall be applied in accordance with the Post-Guarantor Default Priority of Payments.

All payments of Guaranteed Amounts by or on behalf of the Covered Bond Guarantor will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other governmental charges of whatever nature unless such withholding or deduction of such taxes, assessments or other governmental charges are required by law or regulation or administrative practice of any jurisdiction. If any such withholding or deduction is required, the Covered Bond Guarantor will pay the Guaranteed Amounts net of such withholding or deduction and shall account to the appropriate tax authority for the amount required to be withheld or deducted. The Covered Bond Guarantor will not be obliged to pay any amount to any Covered Bondholder in respect of the amount of such withholding or deduction.

Exercise of rights

Following the occurrence of an Article 74 Event and service of an Article 74 Notice to Pay (which has not been withdrawn) on the Covered Bond Guarantor, but prior to the occurrence of a Covered Bond Guarantor Event of Default, the Covered Bond Guarantor in accordance with the provisions of Article 4, Paragraph 4, of the MEF Decree shall temporarily substitute the Issuer with respect to all obligations of the Issuer towards the Covered Bondholders in accordance with the terms and conditions originally set out for the Covered Bonds, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration for the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the rights of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

Following the occurrence of an Issuer Event of Default (other than the event referred under Condition 12(c)(iv)) and service of a Notice to Pay on the Covered Bond Guarantor, but prior to the occurrence of any Covered Bond Guarantor Event of Default, the Covered Bond Guarantor, in accordance with the provisions set forth under the Covered Bond Guarantee (as well as in accordance with the provisions of Article 4, Paragraph 3, of the MEF Decree), shall substitute the Issuer with respect to all obligations of the Issuer towards the Covered Bondholders in accordance with the terms and conditions originally set out for the Covered Bonds, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration for the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the right of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

Following the occurrence of an Issuer Event of Default referred under Condition 12(c)(iv)) and service of a Notice to Pay on the Covered Bond Guarantor, but prior to the occurrence of a Covered Bond Guarantor Event of Default, as of the date of administrative liquidation (*liquidazione coatta amministrativa*) of the Issuer, the Covered Bond Guarantor in accordance with the provisions of Article 4, Paragraph 3, of the MEF Decree shall substitute the Issuer with respect to all obligations of the Issuer towards the Covered Bondholders in accordance with the terms and conditions originally set out for the Covered Bonds, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration for the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the rights of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

As a consequence and as expressly indicated in the Conditions, the Covered Bondholders have irrevocably delegated to the Covered Bond Guarantor (also in the interest and for the benefit of the Covered Bond Guarantor) the exclusive right to proceed against the Issuer to enforce the performance of any of the payment obligations of the Issuer under the Covered Bonds, including any rights of enforcing any acceleration of payment provisions provided under the Conditions or under the applicable legislation. For this purpose the Representative of the Covered Bondholders, on behalf of the Covered Bondholders, upon request of the Covered Bond Guarantor, shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

In each case the Guaranteed Amounts does not include any additional amounts payable under Condition 11(a) (*Gross up by Issuer*).

6. Intercreditor Agreement

According to the Intercreditor Agreement, the Representative of the Covered Bondholders will, subject to a Covered Bond Guarantor Event of Default having occurred, ensure that all the Available Funds are applied in or towards satisfaction of the Covered Bond Guarantee's payment obligations towards the Covered Bondholders and the Secured Creditors, in accordance with the Post-Guarantor Default Priority of Payments provided in the Intercreditor Agreement.

The obligations owed by the Covered Bond Guarantor to each of the Covered Bondholders and each of the Secured Creditors will be limited recourse obligations of the Covered Bond Guarantor. The Covered Bondholders and the Secured Creditors will have a claim against the Covered Bond Guarantor only to the extent of the Available Funds, in each case subject to and as provided for in the Intercreditor Agreement and the other Transaction Documents.

The Covered Bond Guarantor has granted a general irrevocable mandate to the Representative of the Covered Bondholders, also in the interest and for the benefit of the Covered Bondholders and the Secured Creditors, to act in the name and on behalf of the Covered Bond Guarantor on the terms and conditions specified in the Intercreditor Agreement, so that the Representative of the Covered Bondholders shall be entitled to exercise the rights of the Covered Bond Guarantor under the Transaction Documents to which it is a party, subject as provided for under the Intercreditor Agreement.

Pursuant to the Cash Management and Agency Agreement, it is a necessary requirement that the Account Banks shall always maintain the Minimum Required Account Bank Rating provided for under the Cash Management and Agency Agreement, provided that failure by Intesa Sanpaolo to so

On or prior to each Quarterly Report Date, the Cash Manager shall deliver a copy of its report to, inter alios, the Covered Bond Guarantor, the Representative of the Covered Bondholders and the Calculation Agent; such report shall include information on the Eligible Investments.

Pursuant to the Cash Management and Agency Agreement, it is a necessary requirement that the Paying Agent shall always maintain the Minimum Required Paying Agent Rating provided for under the Cash Management and Agency Agreement, and failure to so qualify shall constitute a termination event thereunder.

In particular, if the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, is required to sell Selected Assets, it will promptly select, through a tender process, and in the name and on behalf of the Covered Bond Guarantor will appoint, a bank or investment company or an auditing firm of a recognised standing, with a long experience in the management, sale and/or financing of portfolio of assets equivalent to Eligible Assets in the Portfolio, to act as portfolio manager (the **Portfolio Manager**), on a basis intended to incentivise the Portfolio Manager to achieve the best price for the sale of such Selected Assets, to advise the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the sale, in the name and on behalf of the Covered Bond Guarantor, of Selected Assets. The Servicer, or any other third party appointed by the Representative of the Covered Bondholders, will be required to comply with the advice given by the Portfolio Manager.

The Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, will instruct the Portfolio Manager to use all reasonable endeavours to procure that Selected Assets are sold as quickly as reasonably practicable taking into account the market conditions at that time and the scheduled repayment dates of the Covered Bonds, the Conditions and the terms of the Covered Bond Guarantee.

Before offering Selected Assets for sale in accordance with the Portfolio Administration Agreement, the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, on behalf of the Covered Bond Guarantor, shall ensure, also through the Portfolio Manager, that: (i) the Selected Assets have been selected from the Portfolio on a Random Basis; (ii) no more Selected Assets will be selected than necessary for the estimated sale proceeds to equal the Adjusted Required Redemption Amount, (iii) the Selected Assets have an aggregate Current Balance in an amount which is as close as possible to the amount calculated in accordance with the provisions of the Portfolio Administration Agreement.

In addition to any required sale of Selected Assets as described above, if the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, is required to sell Selected Assets as indicated above, or if a Supplemental Liquidity Event has occurred which is continuing, then the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, shall have the right (but shall not be under the obligation) to sell Selected Assets in order to fund or replenish the Supplemental Liquidity Reserve Account up to the Supplemental Liquidity Reserve Amount, provided that the aggregate Current Balance of such Selected Assets shall not exceed the Supplemental Liquidity Available Amount. The Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on

behalf of the Covered Bond Guarantor, will offer the Selected Assets for sale for the best price reasonably available. Any proceeds of such sale shall be credited to the Supplemental Liquidity Reserve Account.

Following the delivery of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay (and prior to the occurrence of any Covered Bond Guarantor Event of Default), if necessary in order to effect timely payments under the Covered Bonds, as determined by the Calculation Agent in consultation with the Portfolio Manager, all the Integration Assets (other than cash deposits) shall be sold by the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, at prevailing market conditions as quickly as reasonably practicable. The proceeds of any such sale shall be credited to the Investment Account.

Sale of Selected Assets and Integration Assets following a breach of the Pre-Maturity Liquidity Test

Following a breach of the Pre-Maturity Liquidity Test in accordance with Condition 9(m) (*Pre-Maturity Liquidity Test*), the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor shall (if such breach has not been already cured by the Issuer in accordance with the Conditions), sell, subject to any pre-emption right of the Seller or the Additional Sellers (if any) pursuant to the relevant Master Transfer Agreement, Selected Assets and Integration Assets in accordance with the Portfolio Administration Agreement for an amount equal to the Adjusted Required Redemption Amount of the Series of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates, by the earlier of (a) 20 Business Days from the date on which the Issuer is notified of the breach of the Pre-Maturity Liquidity Test, and (b) the Maturity Date of that Series of Hard Bullet Covered Bonds, it being understood that if not remedied, an Issuer Event of Default will occur and, accordingly, the Representative of the Covered Bondholders shall deliver a Notice to Pay in accordance with the Conditions. The proceeds of any such sale shall be credited to the Relevant Investment Account.

Sale of Selected Assets and Integration Assets following the occurrence of a Covered Bond Guarantor Event of Default

Following the occurrence of a Covered Bond Guarantor Event of Default and the delivery of a Covered Bond Guarantor Acceleration Notice, the Representative of the Covered Bondholders shall, in the name and on behalf of the Covered Bond Guarantor (so authorised by means of the execution of the Portfolio Administration Agreement), direct the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, to sell Selected Assets and Integration Assets in accordance with the Portfolio Administration Agreement, subject to any pre-emption right of the Seller or the Additional Sellers (if any) pursuant to the relevant Master Transfer Agreement. The Asset Monitor will be required to conduct such tests no later than the relevant Asset Monitor Report Date. On each Asset Monitor Report Date, the Asset Monitor shall deliver the Asset Monitor Report to, *inter alios*, the Covered Bond Guarantor, the Calculation Agent, the Representative of the Covered Bondholders and the Issuer.

Under the Asset Monitor Agreement, the Asset Monitor has acknowledged and accepted that its services will be carried out also for the benefit and in the interest of the Covered Bond Guarantor and the Representative of the Covered Bondholders.

The Issuer and (with effect as from the service of an Article 74 Notice to Pay (and until the date of its withdrawal) and/or a Notice to Pay) the Covered Bond Guarantor may, subject to the prior written consent of the Representative of the Covered Bondholders, terminate the appointment of the Asset Monitor in accordance with the termination provisions of the Asset Monitor Agreement. In any case, no revocation of the appointment of the Asset Monitor shall take effect until a successor has been duly appointed in accordance with the provisions of the Asset Monitor Agreement.

The Asset Monitor may, at any time, resign in accordance with the resignation provisions of the Asset Monitor Agreement. Such resignation will be subject to and conditional upon, *inter alia*, a substitute Asset Monitor being appointed by the Issuer or (upon delivery of an Article 74 Notice to Pay - and until the date of its withdrawal - or a Notice to Pay) the Covered Bond Guarantor.

The Asset Monitor Agreement, and any non-contractual obligations arising out of or in connection with the Asset Monitor Agreement, is governed by Italian law.

10. Quotaholders' Agreement

The Quotaholders' Agreement, and any non-contractual obligations arising out of or in connection with the Quotaholders' Agreement, is governed by Italian law.

11. Dealer Agreement

Pursuant to the Dealer Agreement, the parties thereto have agreed upon the conditions under which the Covered Bonds may be issued and sold, from time to time, by the Issuer to the Dealers or any other dealers and the Issuer and the Covered Bond Guarantor have undertaken to indemnify the Dealers for all costs, liabilities, charges, expenses and claims incurred by or made against the Dealers arising out of, in connection with or based on breach of duty or misrepresentation by the Issuer and/or the Covered Bond Guarantor.

The Dealer Agreement contains provisions relating to the resignation or termination of appointment of the existing Dealers and for the appointment of additional or other dealers acceding as new dealer (i) generally in respect of the Programme, or (ii) in relation to a particular issue of a Series of Covered Bonds.

The Dealer Agreement contains stabilisation provisions.

Pursuant to the Dealer Agreement, the Issuer and the Covered Bond Guarantor have given certain representations and warranties to the Dealers in relation to, *inter alia*, themselves and the information given by each of them in connection with this Base Prospectus.

Governing Law

The Dealer Agreement, and any non-contractual obligations arising out of or in connection with the Dealer Agreement, is governed by Italian law.

12. Subscription Agreement

The Dealer Agreement also contains the *pro forma* of the Subscription Agreement to be entered into in relation to each issue of Covered Bonds.

On or prior to the relevant Issue Date, the Issuer and the Relevant Dealers will enter into a subscription agreement under which the Relevant Dealers will agree to subscribe for the relevant tranche of Covered Bonds, subject to the conditions set out therein.

Under the terms of the Subscription Agreement, the Relevant Dealers will confirm the appointment of the Representative of the Covered Bondholders.

Governing Law

The Subscription Agreement, and any non-contractual obligations arising out of or in connection with the Subscription Agreement, will be governed by Italian law.

13. Pledge Agreement

Pursuant to the Pledge Agreement the Covered Bond Guarantor pledged in favour of the Secured Creditors all the monetary claims and rights and all the amounts payable from time to time (including payment for claims, indemnities, damages, penalties, credits and guarantees) to which the Covered Bond Guarantor is entitled pursuant or in relation to the Italian Law Transaction Documents.

Governing Law

The Pledge Agreement, and any non-contractual obligations arising out of or in connection with the Pledge Agreement, is governed by Italian law.

14. Deed of Charge and Assignment

Pursuant to the Deed of Charge and Assignment, the Covered Bond Guarantor has assigned by way of security to, and charged in favour of, the Representative of the Covered Bondholders (acting in its capacity as trustee for itself and the Secured Creditors), all of its rights, title, interest and benefit from time to time in and to the Swap Agreements.

Governing Law

The Deed of Charge and Assignment, and any non-contractual obligations arising out of or in connection with the Deed of Charge and Assignment, is governed by English law.

15. Swap Agreements

Swap Agreements

The Covered Bond Guarantor may enter into one or more swap transactions (each a **Swap Transaction**) with Hedging Counterparties in order to hedge certain risks. Each Swap Transaction with a Hedging Counterparty will be governed by a 1992 ISDA Master Agreement (Multicurrency-Cross Border), as published by the International Swap and Derivatives Association, Inc. (**ISDA**), the Schedule thereto (the **Master Agreement**) as supplemented by a 1995 Credit Support Annex (English Law) published by ISDA (the **CSA**) entered into with that Hedging Counterparty and a confirmation (the **Swap Confirmation**) evidencing the terms of such transaction, all governed by English law (the Master Agreement, the CSA and the Swap Confirmations, together the **Swap Agreement**).

Under the terms of each Swap Agreement, in the event that the rating(s) of the relevant Hedging Counterparty, or any guarantor of the relevant Hedging Counterparty's obligations, is downgraded by the Rating Agency below the rating(s) specified in the relevant Master Agreement for that Hedging Counterparty or any guarantor of that Hedging Counterparty, that Hedging Counterparty will, in accordance with the relevant Master Agreement, be required to take certain remedial measures which may include:

- (a) providing collateral for its obligations under the Swap Agreement, or
- (b) arranging for its obligations under the Swap Agreement to be transferred to an entity with the rating(s) required under the Swap Agreement, or
- (c) procuring another entity with the rating(s) required under the Swap Agreement to become co-obligor or guarantor in respect of its obligations under the Swap Agreement.

A failure to take such steps within the time periods specified in the Master Agreement will allow the Covered Bond Guarantor to terminate the relevant Swap Agreement.

The Swap Agreement may also be terminated in certain other circumstances pursuant to any other events of default and termination events set out in the Swap Agreement (each a **Swap Early Termination Event**), including, if there is a failure by the a party to make timely payments of any amounts due under the Swap Agreement and upon the occurrence of the insolvency of the Hedging Counterparty or any guarantor of that Hedging Counterparty.

Upon the termination of the Swap Agreement pursuant to a Swap Early Termination Event, the Covered Bond Guarantor or the relevant Hedging Counterparty may be liable to make a termination payment to the other in accordance with the provisions of the Swap Agreement. Such payment will be made in accordance with the Priority of Payments set out in the Intercreditor Agreement.

Collateralisation under the Credit Support Annex

Under the CSA, if required to do so following a downgrade of a Hedging Counterparty, or any guarantor of that Hedging Counterparty, as the case may be, and subject to the conditions specified in the CSA, such Hedging Counterparty will make transfers of collateral to the Covered Bond Guarantor in support of its obligations under the relevant Swap Agreement (the **Swap Collateral**) and the Covered Bond Guarantor will be obliged to return equivalent collateral in accordance with the terms of the CSA where there is a subsequent reduction in the exposure of the Covered Bond Guarantor to the Hedging Counterparty.

Any Swap Collateral required to be posted by the relevant Hedging Counterparty pursuant to the terms of the relevant CSA may be delivered in the form of cash or securities. Cash amounts will be paid into an account opened with respect to each Hedging Counterparty, designated a “**Collateral Account – Cash**” and securities will be transferred to an account opened with respect to each Hedging Counterparty, designated a “**Collateral Account – Securities**”.

If a Collateral Account – Cash and/or a Collateral Account – Securities are opened in relation to a Swap, cash and securities (and all income in respect thereof) transferred as collateral will only be available to be applied in returning collateral (and income thereon) or in satisfaction of amounts owing by the relevant Hedging Counterparty in accordance with the terms of the relevant CSA.

Any Swap Collateral will be returned by the Covered Bond Guarantor to the relevant Hedging Counterparty directly in accordance with the terms of the relevant CSA and not under the Priorities of Payments, provided that, in the event of early termination of the Swap Agreement, the Swap Collateral may be applied in accordance with the terms of the Master Agreement.

Asset Swap Transactions

The Covered Bond Guarantor may enter into one or more swap transactions on or about the date of the transfer of each Portfolio or on or about each Issue Date with the Hedging Counterparty in order to, *inter alia*, hedge the interest rate risks and/or currency risks related to the transfer of each Portfolio.

Some of the Mortgage Loans in each Portfolio will pay a floating rate of interest which may or may not be subject to a cap and some of the Mortgage Loans will pay a fixed rate of interest. However, the payments to be made by the Covered Bond Guarantor under the Liability Swap Transactions will be generally based on EURIBOR.

To provide a hedge against the possible variance between:

- (a) the rates of interest payable on the Mortgage Loans in each Portfolio; and
- (b) EURIBOR,

the Covered Bond Guarantor and the Hedging Counterparty may enter into Asset Swap Transactions in respect of the various Portfolios held by the Covered Bond Guarantor.

Liability Swap Transactions

Where Covered Bonds are issued in a currency and/or on an interest rate basis different to the Asset Swap Transactions, the Covered Bond Guarantor may enter into Liability Swap Transactions.

In respect of a Series of Covered Bonds denominated in Euros, the Covered Bond Guarantor will pay to the Hedging Counterparty an amount in Euros calculated with reference to a floating rate of interest and in return the Hedging Counterparty will pay to the Covered Bond Guarantor the amount of interest due on the relevant Series of Covered Bonds.

Each Liability Swap Transaction which may be entered into in connection with a Series of Covered Bond will terminate on the Maturity Date of the relevant Series of Covered Bond or, if applicable under the relevant Final Terms and agreed by the Parties, on the Extended Maturity Date or the Long Date Due For Payment Date, as the case may be, unless terminated earlier in accordance with its terms.

Governing Law

The Swap Agreements are governed by English law.

Notwithstanding the above, the Covered Bond Guarantor could enter into hedging agreements, other than the Swap Agreements, in order to hedge the interest rate and/or currency risk related to the transfer of each Portfolio or to the Covered Bonds.

16. Swap Service Agreements

Pursuant to the Swap Service Agreements, Intesa Sanpaolo and any other party which may enter in the Programme has agreed or will agree, as the case may be, to provide the Covered Bond Guarantor with certain services due under the Swap Agreement in order to implement the provisions relating, *inter alia*, to the reporting activities imposed by EMIR Regulation.

Pursuant to the Swap Service Agreements, no additional fees are due to Intesa Sanpaolo, in its capacity as Swap Service Provider, other than the fees due to the same entity in its capacity as Hedging Counterparty under the Swap Agreement.

Governing Law

The Swap Service Agreements, and any non-contractual obligations arising out of or in connection with the Swap Service Agreements, are governed by Italian law.

17. Master Definitions Agreement

Under the Master Definitions Agreement, the parties thereto have agreed upon the definitions of certain terms utilised in the Transaction Documents.

Governing Law

The Master Definitions Agreement, and any non-contractual obligations arising out of or in connection with the Master Definitions Agreement, is governed by Italian law.

18. Accounts Pledge Agreement

Under the terms of the Accounts Pledge Agreement, the Covered Bond Guarantor has agreed to pledge (i) the credit balance standing to the credit of each of the CA-CIB Investment Account, the CA-CIB Interest Securities Collection Account and the CA-CIB Principal Securities Collection Account and (ii) the CA-CIB Securities Account and the CA-CIB Eligible Investments Account, in favour of the Representative of the Covered Bondholders.

Governing Law

The Accounts Pledge Agreement is governed by French law.

SELECTED ASPECTS OF ITALIAN LAW

The following is an overview only of certain aspects of Italian law that are relevant to the transactions described in this Base Prospectus and of which prospective Covered Bondholders should be aware. It is not intended to be exhaustive and prospective Covered Bondholders should also read the detailed information set out elsewhere in this Base Prospectus.

Law 130, Article 7-bis thereof and BoI OBG Regulations. General remarks

Law 130 was enacted on 30 April 1999 and was conceived to simplify the securitisation process and to facilitate the increased use of securitisation as a financing technique in the Republic of Italy. Law 130 was further amended during the following years.

Law Decree No. 35 of 14 March 2005, converted with amendments into law by Law no. 80 of 14 May 2005, added articles 7-bis and 7-ter to Law 130, for the purpose of allowing Italian banks to use the securitisation techniques introduced by Law 130 in view of issuing covered bonds (*obbligazioni bancarie garantite*).

Pursuant to article 7-bis, certain provisions of Law 130 apply to transactions involving the “true” sale (by way of non-gratuitous assignment) of receivables or asset backed securities issued in the context of securitisation transactions meeting certain eligibility criteria set out in article 7-bis and in MEF Decree, where the sale is to a vehicle incorporated pursuant to article 7-bis and all amounts paid by the debtors are to be used by the special purpose vehicle exclusively to meet its obligations under a guarantee to be issued by it, in view of securing the payment obligations of the selling bank or of other banks in connection with the issue of covered bonds.

Pursuant to article 7-bis, the purchase price of the assets to be included in the portfolio shall be financed through the taking of a loan granted or guaranteed by the bank selling the assets or a different bank. The payment obligations of the special purpose vehicle under such loan shall be subordinated to the payment obligations *vis-à-vis* the covered bondholders, the counterparties of any derivative contracts hedging risks in connection with the assigned receivables and securities, the counterparties of any other ancillary contract and counterparties having a claim in relation to any payment of other costs of the transaction.

The covered bonds are further regulated by the Decree of the Ministry for the Economy and Finance No. 310 of 14 December 2006 (**MEF Decree**) and the supervisory instructions of the Bank of Italy relating to covered bonds under Third Part, Chapter 3, of the circular no. 285 of 17 December 2013, containing the “*Disposizioni di vigilanza per le banche*” as further implemented and amended, (the **BoI OBG Regulations**). Pursuant to the BoI OBG Regulations, the covered bonds may be issued also by banks which are member of banking groups meeting, as of the date of issuance of the covered bonds, certain requirements relating to the consolidated regulatory capital and the consolidated solvency ratio at the group’s level. Such requirements must be complied with, as of the date of issuance of the covered bonds, also by banks selling the assets, where the latter are different from the bank issuing the covered bonds and do not fall within the same banking group.

The Special Purpose Vehicle

On 8 May 2015, the Ministerial Decree No. 53/2015 (the “**Decree 53/2015**”) issued by the Ministry of Economy and Finance has been published in the Official Gazette of the Republic of Italy. The Decree 53/2015 came into force on 23 May 2015, repealing the Decree No. 29/2009. Pursuant to Article 7 of the Decree 53/2015, the assignee companies which guarantee covered bonds, belonging to a banking group as defined by Article 60 of the Banking Law (such as ISP CB Ipotecario S.r.l.), will no longer have to be registered in the general register held by the Bank of Italy pursuant to Article 106 of the Banking Law.

Eligibility criteria of the assets and limits to the assignment of assets

Under the MEF Decree, the following assets, *inter alia*, may be assigned to the purchasing company, together with any ancillary contracts aimed at hedging the financial risks embedded in the relevant assets: (a) residential and commercial mortgage loans having the characteristics set out under Article 2, Paragraph 1 (a) and (b), respectively, of the MEF Decree; (b) the public assets meeting the characteristics set out under Article 2, Paragraph 1(c) of the MEF Decree; (c) asset backed securities

issued in the context of securitisation transactions, meeting the following criteria: (i) the relevant securitised receivables comprise, for an amount equal at least to 95 per cent., loans referred to in (a) and (b) above; (ii) the relevant asset backed securities attract a risk weighting factor not exceeding 20 per cent. under the “standardised approach” to credit risk measurement.

For the purpose above, the relevant provisions define a guarantee “valid for purposes for the credit risk mitigation” as a guarantee eligible for the “credit risk mitigation”, in accordance with Directive 2006/48/EC of 14 June 2006 (the **Restated Banking Directive**). Similarly, the “Standardised Approach” shall provide a uniform approach to credit risk measurements as defined by the Restated Banking Directive.

The BoI OBG Regulations set out certain requirements for banks belonging to banking groups with respect to the issuance of covered bonds to be met at the time of the relevant issuance:

- (i) own funds (*fondi propri*) of not less than Euro 250,000,000.00; and
- (ii) a total capital ratio on a consolidated basis of not less than 9 per cent.

The above mentioned requirements must be complied with, as of the date of the assignment, also by the banks selling the assets, where the latter are different from the bank issuing the covered bonds and do not fall within the same banking group.

If the bank selling the assets does not belong to a banking group, the above mentioned requirements relate to the individual regulatory capital and/or overall capital ratio.

Banks not complying with the above mentioned requirements may set up covered bond programmes only prior notice to the Bank of Italy, which may start an administrative process to assess the compliance with the required requirements.

Moreover, the BoI OBG Regulations set out certain limits to the possibility for banks to assign eligible assets, which are linked to the tier 1 ratio (**T1R**) and common equity tier 1 ratio (**CET1R**) of the individual bank (or of the relevant banking group, if applicable), in accordance with the following grid, contained in the BoI OBG Regulations:

– Ratios		– Limits to the assignment
Group “a”	T1R \geq 9 % and CET1R \geq 8 %	No limits
Group “b”	T1R \geq 8 % and CET1R \geq 7 %	Assignment allowed up to 60% of the eligible assets
Group “c”	T1R \geq 7 % and CET1R \geq 6 %	Assignment allowed up to 25% of the eligible assets

The relevant T1R and CET1R set out in the grid relate to the aggregate of the covered bonds transactions launched by the relevant banking group or individual bank, as the case may be. If foreign entities belonging to the banking group of the bank selling the assets have issued covered bonds in accordance with their relevant jurisdiction and have therefore segregated part of their assets to guarantee the relevant issuances, the limits set out above shall be applied to the eligible assets held by the Italian companies being part of the assigning bank’s banking group.

In addition to the above, certain further amendments have been introduced in respect of the monitoring activities to be performed by the asset monitor.

The limits to the assignment set out above do not apply to Integration (as defined below) of the portfolio, provided that Integration is allowed exclusively within the limits set out by the BoI OBG Regulations.

The substitution of eligible assets included in the portfolio with other eligible assets of the same nature is also permitted, provided that certain conditions indicated under the BoI OBG Regulations are met.

Ring-Fencing of the assets

Under the terms of Article 3 of Law 130, all the receivables relating to a Law 130 transaction, the relevant collections and the financial assets purchased using the collections arising from the relevant receivables will by operation of law be segregated for all purposes from all other assets of the special purpose vehicle and from those relating to the other Law 130 transactions carried out by the same special purpose vehicle. On a winding up of the special purpose vehicle such assets will only be available to holders of the covered bonds in respect of which the special purpose vehicle has issued the covered bond guarantee and to the other secured creditors of the special purpose vehicle. In addition, the assets relating to a particular covered bond transaction will not be available to the holders of covered bonds issued under any other covered bond transaction or to general creditors of the special purpose vehicle.

However, under Italian law, any other creditor of the special purpose vehicle which is not a party to the transaction documents would be able to commence insolvency or winding up proceedings against the special purpose vehicle in respect of any unpaid debt.

The assignment

The assignment of receivables under Law 130 is governed by Article 58, paragraphs 2, 3 and 4 of the Banking Law. The prevailing interpretation of these provisions, which view has been strengthened by Article 4 of Law 130, is that:

(a) as from the date of publication in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) of the notice of assignment of the relevant receivables in accordance with the applicable provisions of Article 58 of the Banking Law, the assignment of the relevant receivables will become enforceable against:

- (i) any creditors of the seller of the relevant receivables who have not commenced enforcement by means of obtaining an attachment order (*pignoramento*) prior to the date of publication of the notice of assignment of the relevant receivables;
- (ii) a receiver in the insolvency of the seller of the relevant receivables; and
- (iii) prior assignees of the relevant receivables who have not perfected their assignment by way of (A) notifying the assigned debtors or (B) making the assigned debtors acknowledge the assignment by an acceptance bearing a date certain at law (*data certa*) prior to the date of publication of the notice of assignment of the relevant receivables or in any other way permitted under applicable law,

without the need to follow the ordinary rules under Article 1265 of the Italian Civil Code as to making the assignment effective against third parties; and

(b) as from the later of (A) the date of the publication of the notice of assignment of the relevant receivables, and (B) the date of registration (*iscrizione*) of such notice with the Companies' Register of the district where the issuer is enrolled, in accordance with the applicable provisions of Article 58 of the Banking Law, the assignment of the relevant receivables will also become enforceable against:

- (i) the assigned debtors; and
- (ii) a receiver in the insolvency of the assigned debtors (so that any payments made by an assigned debtor to the purchasing company may not be subject to any claw back action according to Article 65 and Article 67 of the Insolvency Law),

without the need to follow the ordinary rules under Article 1264 of the Italian Civil Code as to making the assignment effective against the assigned debtor.

The benefit of any privilege, guarantee or security interest guaranteeing or securing repayment of the relevant receivables will automatically be transferred to and perfected with the same priority in favour of the special purpose vehicle, without the need for any formality or annotations.

As from the date of publication of the assignment of the relevant receivables in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), no legal action may be

brought to attach the relevant receivables, or the sums derived therefrom, other than for the purposes of enforcing the rights of the holders of the covered bonds and to meet the costs of the transaction.

Notices of the assignment of the Initial Portfolio and of the Further Portfolios pursuant to the Master Transfer Agreement were published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) and were filed with the Companies' Register of Milan.

Exemption from claw-back

Assignments executed under Law 130 are subject to revocation on bankruptcy under Article 67 of the Insolvency Law, but only in the event that the transaction is entered into (i) in cases where paragraph 2 of article 67 applies, within three months of the adjudication of bankruptcy of the relevant party or (ii) in cases where paragraph 1 of Article 67 applies, within six months of the adjudication of bankruptcy.

The subordinated loans to be granted to the special purpose vehicle and the covered bond guarantee are subject to the provisions of Article 67, paragraph 4, of the Insolvency Law, pursuant to which the provisions of Article 67 relating to the claw back of for-consideration transactions, payments and guarantees do not apply to certain transactions.

In addition to the above, any payments made by an assigned debtor to the special purpose vehicle may not be subject to any claw back action according to Article 65 and 67 of the Insolvency Law.

Tests set out in the MEF Decree

Pursuant to Article 3 of the MEF Decree, the issuing bank and the assigning bank (to the extent different from the issuing bank), will have to ensure that, in the context of the transaction, the following tests are satisfied on an ongoing basis:

- (i) the outstanding aggregate nominal amount of the portfolio shall be greater than or equal to the aggregate nominal amount of the outstanding covered bonds;
- (ii) the net present value of the portfolio, net of the transaction costs to be borne by the special purpose vehicle, including therein the expected costs and the costs of any hedging arrangement entered into in relation to the transaction, shall be greater than or equal to the net present value of the outstanding covered bonds;
- (iii) the amount of interest and other revenues generated by the portfolio, net of the costs borne by the special purpose vehicle, shall be greater than or equal to the interest and costs due by the bank under the outstanding covered bonds, taking also into account any hedging arrangements entered into in relation to the transaction.

Integration Assets

For the purpose of ensuring compliance with the tests described above and pursuant to Article 2 of the MEF Decree, in addition to assets which are eligible in accordance with Article 2, Paragraph 1 of the MEF Decree, the following assets may be used for the purpose of the integration of the portfolio:

- (a) the creation of deposits with banks incorporated in Eligible States or in a State which attracts a risk weight factor equal to 0 per cent. under the "standardised approach" to credit risk measurement;
- (b) the assignment of securities issued by the banks referred to under (a) above, having a residual maturity not exceeding one year,

(the **Integration Assets**).

Integration through Integration Assets shall be allowed within the limits of 15 per cent. of the nominal value of the assets included in the portfolio.

In addition, pursuant to Article 7-bis of Law 130 and the MEF Decree, integration of the portfolio, whether through eligible assets or Integration Assets (the **Integration**) shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations.

More specifically, under the BoI OBG Regulations, Integration is allowed exclusively for the purpose of (a) complying with the tests set out in the MEF Decree; (b) complying with any

contractual overcollateralisation requirements agreed by the parties to the relevant agreements; and (c) complying with the 15 per cent. limitation of the Integration Assets included in the portfolio. The limits to the assignment indicated above do not apply to the Integration.

The Integration is not allowed in circumstances other than as set out in the BoI OBG Regulations.

The features of the covered bond guarantee

According to Article 4 of the MEF Decree, the covered bond guarantee shall be limited recourse to the portfolio, irrevocable, first demand, unconditional and autonomous from the obligations assumed by the issuer of the covered bonds. Accordingly, such obligations shall be a direct, unconditional, unsubordinated obligation of the special purpose vehicle, limited recourse to the special purpose vehicle's available funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the issuer of the covered bonds.

In order to ensure the autonomous and independent nature of the covered bond guarantee, Article 4 of the MEF Decree provides that the following provisions of the Italian Civil Code, generally applicable to personal guarantees (*fideiussioni*), shall not apply to the covered bond guarantee: (a) Article 1939, providing that a *fideiussione* shall not generally be valid where the guaranteed obligation is not valid; (b) Article 1941, paragraph 1, providing that a *fideiussione* cannot exceed the amounts due by the guaranteed debtor, nor can it be granted for conditions more onerous than those pertaining to the main obligation; (c) Article 1944, paragraph 2, providing, *inter alia*, that the parties to the contract pursuant to which the *fideiussione* is issued may agree that the guarantor shall not be obliged to pay before the attachment is carried out against the guaranteed debtor; (d) Article 1945, providing that the guarantor can raise against the creditor any objections (*eccezioni*) which the guaranteed debtor is entitled to raise, except for the objection relating to the lack of legal capacity; (e) Article 1955, providing that a *fideiussione* shall become ineffective (*estinta*) where, as a consequence of acts of the creditor, the guarantor is prevented from subrogating into any rights, pledges, mortgages, and liens (*privilegi*) of the creditor; (f) Article 1956, providing that the guarantor of future receivables shall not be liable where the creditor – without the authorisation of the guarantor – has extended credit to a third party, while being aware that the economic conditions of the principal obligor were such that recovering the receivable would have become significantly more difficult; (g) Article 1957, providing, *inter alia*, that the guarantor will be liable also after the guaranteed obligation has become due and payable, provided that the creditor has filed its claim against the guaranteed debtor within six months and has diligently pursued them.

The obligations of the covered bond guarantor following a liquidation of the Issuer

The MEF Decree also sets out certain principles which are aimed at ensuring that the payment obligations of the special purpose vehicle are isolated from those of the issuer of covered bonds. To that effect it requires that the covered bond guarantee contains provisions stating that the relevant obligations thereunder shall not accelerate upon the issuer's default, so that the payment profile of the covered bonds shall not automatically be affected thereby.

More specifically, Article 4 of the MEF Decree provides that in the event of a breach by the issuer of its obligations *vis-à-vis* the covered bondholders, the special purpose vehicle shall assume the obligations of the issuer – within the limits of the portfolio – in accordance with the terms and conditions originally set out for the covered bonds. The same provision applies where the issuer is subject to mandatory liquidation procedures (*liquidazione coatta amministrativa*).

In addition, the acceleration (*decadenza dal beneficio del termine*) provided for by Article 1186 of the Civil Code and affecting the issuer shall not affect the payment obligations of the special purpose vehicle under the covered bond guarantee. Pursuant to Article 4 of the MEF Decree, the limitation in the application of Article 1186 of the Civil Code shall apply not only to the events expressly mentioned therein, but also to any additional event of acceleration provided for in the relevant contractual arrangements.

In accordance with Article 4, Paragraph 3, of the MEF Decree, in case of a *liquidazione coatta amministrativa* of the issuer, the special purpose vehicle shall exercise the rights of the covered bondholders *vis-à-vis* the issuer in accordance with the legal regime applicable to the issuer. Any amount recovered by the special purpose vehicle as a result of the exercise of such rights shall be deemed to be included in the portfolio.

The Bank of Italy shall supervise on the compliance with the aforesaid provisions, within the limits of the powers vested with the Bank of Italy by the Banking Law.

Controls over the transaction

The BoI OBG Regulations lay down rules on controls over transactions involving the issuance of Covered Bonds.

Inter alia, in order to provide support to the resolutions passed on the assignment of portfolios to the special purpose vehicle, both in the initial phase of transactions and in later phases, the assigning bank shall request to an auditing firm a confirmation (*relazione di stima*) stating that, on the basis of the activities carried out by that auditing firm, there are no reasons to believe that the appraisal criteria utilised in order to determine the purchase price of the assigned assets are not in line with the criteria which the assigning bank must apply when preparing its financial statements. The above mentioned confirmation is not required if the assignment is made at the book value, as recorded in the latest approved financial statements of the assigning bank, on which the auditors have issued a clean opinion. The above mentioned confirmation is not required if any difference between the book value and the purchase price of the relevant assets is exclusively due to standard financial fluctuations of the relevant assets and is not in any way related to reductions in the qualitative aspects of those assets and/or the credit risk related to the relevant debtors.

The management body of the issuing bank must ensure that the internal structures delegated to the risk management verify at least every six months and for each transaction, *inter alia*:

- (i) quality and integrity of the assets sold to the special purpose vehicle securing the obligations undertaken by the latter;
- (ii) compliance with the maximum ratio between covered bonds issued and the portfolio sold to the special purpose vehicle for purposes of backing the issue, in accordance with the MEF Decree;
- (iii) compliance with the limits to the assignment and the limits to Integration set out by the BoI OBG Regulations;
- (iv) effectiveness and adequacy of the coverage of risks provided under derivative agreements entered into in connection with the transaction; and
- (v) completeness, accuracy and timeliness of information available to investors pursuant to art. 129, paragraph 7, of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013.

The bodies with management responsibilities of issuing banks and banking groups ensure that an assessment is carried out on the legal aspects (*profili giuridici*) of the activity on the basis of specially issued legal opinions setting out an in-depth analysis of the contractual structures and schemes adopted, with a particular focus on, *inter alia*, the characteristics of the covered bond guarantee.

The BoI OBG Regulations also contain certain provisions on the asset monitor, who is delegated to carry out controls over the regularity of the transaction (*regolarità dell'operazione*) and the integrity of the covered bond guarantee (*integrità della garanzia*) (the **Asset Monitor**). Due to the latest amendments to the BoI OBG Regulations, introduced by way of inclusion of new Third Part, Chapter 3 (*Obbligazioni Bancarie Garantite*) in Bank of Italy's Circular No 285 of 17 December 2013, the Asset Monitor is also requested to carry out controls over the information to be provided to investors (*informativa agli investitori*). Pursuant to the BoI OBG Regulations, the Asset Monitor shall be an auditing firm having adequate professional experience in relation to the tasks entrusted with the same and independent from (a) the bank entrusting the same and (b) the other entities which take part to the transaction. In order to meet this independence requirement the auditing firm entrusted with the monitoring must be different from the one entrusted with the auditing of the issuing bank and the selling bank (if different from the issuing bank) and the special purpose vehicle.

The Asset Monitor shall prepare annual reports on controls and assessments on the performance of transactions, to be addressed, *inter alia*, to the body entrusted with control functions of the bank which appointed the Asset Monitor. The BoI OBG Regulations refer to the provisions (Article 52

and 61, paragraph 5, of the Banking Law), which impose on persons responsible for such control functions specific obligations to report to the Bank of Italy. Such reference appears to be aimed at ensuring that any irregularities found are reported to the Bank of Italy.

In order to ensure that the special purpose vehicle can perform, in an orderly and timely manner, the obligations arising under the covered bond guarantee, the issuing banks shall use asset and liability management techniques for purposes of ensuring, including by way of specific controls at least every six months, that the payment dates of the cash-flows generated by the portfolio substantially match the payments dates with respect to payments due by the issuing bank under the covered bonds issued and other transaction costs.

Finally, in relation to the information flows, the parties to the covered bonds transactions shall assume contractual undertakings allowing the issuing bank (and the assigning bank, if different) also acting as servicer (and any third party servicer, if appointed) to hold the information on the portfolio which are necessary to carry out the controls described in the BoI OBG Regulations and for the compliance with the supervisory reporting obligations, including therein the obligations arising in connection with the participation to the central credit register (*Centrale dei Rischi*).

Set-off

The assignment of receivables under Law 130 is governed by Article 58, paragraph 2, 3 and 4, of the Banking Law. According to the prevailing interpretation of such provision, such assignment becomes enforceable against the relevant Debtors as of the later of: (i) the date of the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), and (ii) the date of registration of the notice of assignment in the Companies' Register of the place where the Covered Bond Guarantor has its registered office. Consequently, the rights of the Covered Bond Guarantor may be subject to the direct rights of the Debtors against the Seller, including rights of set-off on claims existing prior to publication in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) and registration in the Companies' Register of the place where the Covered Bond Guarantor has its registered office. In addition, the exercise of set-off rights by Debtors may adversely affect any sale proceeds of the Portfolio and, ultimately, the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee.

Law Decree No. 145 introduced, *inter alia*, certain amendments to article 4 of Law 130. As a consequence of such amendments, it is now expressly provided by Law 130 that the Debtors cannot exercise rights of set-off against the Covered Bond Guarantor on claims arising *vis-à-vis* the Seller after the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*).

Usury Law

Pursuant to the Usury Law, lenders are prevented from applying interest rates higher than those deemed to be usurious (the **Usury Rates**). Usury Rates are set on a quarterly basis by a decree issued by the Italian Treasury. With a view to limiting the impact of the application of the Usury Law to Italian loans executed prior to the entering into force of the Usury Law, Italian Law No. 24 of 28 February 2001 (**Law 24/2001**) provides (by means of interpreting the provisions of the Usury Law) that an interest rate is usurious if it is higher than the relevant limit in force at the time at which such interest rate is promised or agreed, regardless of the time at which interest is repaid by the borrower. A few commentators and debatable lower court decisions have held that, irrespective of the principle set out in Law 24/2001, if interest originally agreed at a rate falling below the then applicable usury limit (and thus, not usurious) were, at a later date, to exceed the usury limit from time to time in force, such interest should nonetheless be reduced to the then applicable usury limit. The Italian Supreme Court (*Corte di Cassazione*), under decision No. 24675 of 19 October 2017, rejected such interpretation and it clarified that only the moment of execution of the agreement is relevant to verify if the interest rate is usurious in the mortgage loans with fixed interest rate. In the last years, a number of objection have been raised on the basis of the excess of the usury limit from the sum of the default interest and the compensatory rate, based on the erroneous interpretation under decision of the Italian Supreme Court (*Corte di Cassazione*) no. 350 of 2013 that the default interest is relevant for the purposes of determining if an interest rate is usurious. Such interpretation has been constantly rejected by the Italian Courts. Other objections raised in the last years are based on the

violation of the Usury Law by, for example, the sole default interest exceeding the usury limit or making reference to additional components (such as penalties and insurance policies). In this respect, the Italian Courts have not reached an unanimous position.

Indeed, the Italian Supreme Court (*Corte di Cassazione*) joint sections (*Sezioni Unite*) (n. 19597 dated 18 September 2020) stated that, in order to assess whether a loan complies with the Usury Law, also default interest rates shall be included in the calculation of the remuneration to be compared with the Usury Rates. In this respect, should that remuneration be higher than the Usury Rates, only the ‘type’ of rate which determined the breach shall be deemed as null and void. As a consequence, the entire amount referable to the rate which determined the breach of said threshold shall be deemed as unenforceable according to the last interpretation of the Supreme Court.

In addition to the above and according to recent court precedents of the Italian Supreme Court (*Corte di Cassazione*), the remuneration of any given financing must be below the applicable Usury Rate from time to time applicable. Based on this recent evolution of case law on the matter, it will constitute a breach of the Usury Law if the remuneration of a financing is lower than the applicable Usury Rate at the time the terms of the financing were agreed but becomes higher than the applicable Usury Rate at any point in time thereafter.

Compounding of interest

Pursuant to article 1283 of the Italian Civil Code, in respect of a monetary claim or receivable, accrued interest may be capitalised after a period of not less than six months or from the date when any legal proceedings are commenced in respect of that monetary claim or receivable. Article 1283 of the Italian Civil Code allows derogation from this provision in the event that there are recognised customary practices to the contrary. Banks and other financial institutions in the Republic of Italy have traditionally capitalised accrued interest on a quarterly basis on the grounds that such practice could be characterised as a customary practice. In 1999, the Italian Court of Cassation reversed its stance and found the quarterly capitalisation of interest payable on current accounts to be unlawful. Following this decision, a series of disputes emerged on the subject of the capitalisation of interest for contracts executed prior to that date, whereas the problem was partly resolved for contracts executed after the amendment of Art. 120 of the Banking Law introduced in the interim by Legislative Decree No. 342/1999, which made it legal to capitalise interest payable and receivable, provided that both occur with the same frequency.

Article 17 bis of law decree 18 of 14 February 2016 as converted into Law No. 49 of 8 April 2016 amended article 120, paragraph 2, of the Banking Law, providing that the accrued interest shall not produce further interest, except for default interest, and is calculated exclusively on the principal amount. Paragraph 2 of article 120 of the Banking Law also requires the Comitato Interministeriale per il Credito e il Risparmio (**CICR**) to establish the methods and criteria for the compounding of interest. Decree No. 343 of 3 August 2016 of the CICR, implementing paragraph 2 of Article 120 of the Banking Law, has been published in the Official Gazette No. 212 of 10 September 2016.

Mortgage borrower protection

Certain legislations enacted in Italy, have given new rights and certain benefits to mortgage debtors and/or reinforced existing rights, including, *inter alia*:

- the right of prepayment of the principal amount of the mortgage loan, without incurring a penalty or, in respect of mortgage loan agreements entered into before 2 February 2007, at a reduced penalty rate (article 120-ter of the Consolidated Banking Act, introduced by Legislative Decree No. 141 of 13 August 2010 as amended by Legislative Decree No. 218 of 14 December 2010);
- the right to the substitution (*portabilità*) of a mortgage loan with another mortgage loan and/or the right to request subrogation by an assignee bank into the rights of their creditors in accordance with article 1202 (*surrogazione per volontà del debitore*) of the Civil Code, by eliminating the limits and costs previously borne by the borrowers for the exercise of such

right (article 120-quater of the Consolidated Banking Act, introduced by Legislative Decree No. 141 of 13 August 2010 as amended by Legislative Decree No. 218 of 14 December 2010);

- the right of first home-owners to suspend instalment payments under mortgage loans up to a maximum of two times and for a maximum aggregate period of 18 months (the **Suspension**) (originally introduced by Italian Law No. 244 of 24 December 2007, the **2008 Budget Law**), which has now been extended also to the circumstance of the suspension from work or reduction of working hours for a period of at least 30 days even where the issuance of measures of income support is pending (Law Decree No. 18 of 17 March 2020, as subsequently supplemented by Decree of the Ministry of Economy and Finance of 25 March 2020, amended by Law Decree no. 22 of 8 April 2020 and converted into law no. 27 of 24 April 2020, the **Covid Law**). In addition to the Suspension, the Covid Law has also introduced a 9-month temporary regime (the **Temporary Regime**), which provides for additional opportunities of suspension (*e.g.* in case of fall in turnover (*calo del fatturato*) of self-employed individuals with a VAT code number and independent contractors (*lavoratori autonomi* and *liberi professionisti*) during a quarter falling after (or within the shorter term between the date of request and) 21 February 2020). As a consequence of the COVID outbreak, the aforesaid measures have now been extended to loans outstanding as at 31 January 2020 and disbursed in favour of micro, small and medium-sized enterprises adversely affected by the pandemic (ABI *Addendum to the Accordo per il Credito 2019* of 6 March 2020) and in favour of large enterprises (ABI *Addendum to the Accordo per il Credito 2019* of 22 May 2020);

Mortgage Credit Directive

Directive 2014/17/EU of the European Parliament and of the Council of 4 February 2014 on credit agreements for consumers relating to residential immovable property and amending Directives 2008/48/EC and 2013/36/EU and Regulation (EU) No 1093/2010 (the **Mortgage Credit Directive**) sets out a common framework for certain aspects of the laws, regulations and administrative provisions of the Member States concerning agreements covering credit for consumers secured by a mortgage or otherwise relating to residential immovable property. The Mortgage Credit Directive provides for, amongst other things:

- standard information in advertising, and standard pre-contractual information;
- adequate explanations to the borrower on the proposed credit agreement and any ancillary service;
- calculation of the annual percentage rate of charge in accordance with a prescribed formula;
- assessment of creditworthiness of the borrower;
- a right of the borrower to make early repayment of the credit agreement; and
- prudential and supervisory requirements for credit intermediaries and non-bank lenders.

The Mortgage Credit Directive came into effect on 20 March 2014.

On 1 June 2015, in accordance with Article 18, Article 20(1) and Article 28 of the Mortgage Credit Directive, the EBA published its final Guidelines on creditworthiness assessment, as well as its final Guidelines on arrears and foreclosure, that support the national implementation by Member States of the Mortgage Credit Directive.

The Mortgage Credit Directive has been implemented in Italy by way of Legislative Decree no. 72 of 21 April 2016 (**Legislative Decree 72**). Legislative Decree 72 introduced into the Banking Law, under Title VI, a new Chapter 1-*bis* in relation to consumer mortgage credit, including, *inter alia*, a new Article 120 *quinquiesdecies*, pursuant to which a consumer and an entity authorised to grant

loans in a professional manner in the Republic of Italy who are parties to a mortgage credit agreement may expressly agree, subject to the provisions of Article 2744 of the Italian Civil Code, that, in case of non-payment of eighteen monthly instalments by the relevant debtor, the property of the debtor subject to security or the proceeds deriving from the sale thereof can be transferred to the creditor in discharge of all the outstanding obligations of the debtor vis-à-vis the creditor (even if the value of such property or the amount of such proceeds is lower than the residual debt). In the event that the value of the property of the debtor subject to security or amount of the proceeds deriving from the sale thereof is higher than the residual debt, the debtor will be entitled to receive the excess amount. The value of the property shall be determined by an independent expert chosen by the parties, or, if an agreement on the appointment of the expert is not reached between them, by the president of the competent court (*Presidente del Tribunale competente*).

The provisions introduced by the Legislative Decree 72 allow the automatic transfer of the property subject to security from the debtor to the relevant creditor in discharge of all the relevant outstanding obligations.

On 29 September 2016, the Ministry of Economy and Finance - Chairman of CICR (*Comitato Interministeriale per il Credito e il Risparmio*) issued decree no. 380 (the **Decree 380**) which implemented Chapter 1-*bis* of Title VI of the Banking Law, with the view to creating a transparent and efficient market for consumer mortgage credit and providing an adequate level of protection to consumers. Further to Decree 380, on 30 September 2016 the Bank of Italy has published an amended version of its regulations on transparency of banking and financial operations (*Trasparenza delle operazioni e dei servizi bancari e finanziari. Correttezza delle relazioni tra intermediari e clienti*).

Patto Marciano

On 4 May 2016, Law Decree 3 May 2016, no. 59 (**Decree 59**) came into force introducing, *inter alia*, a new article 48-*bis* into the Banking Law (**Article 48-*bis***). The Decree 59 has been converted into Law No. 119 of 30 June 2016, as published in the Official Gazette of the Republic of Italy No. 153 of 2 July 2016.

Pursuant to Article 48-*bis*, a loan agreement entered into between an entrepreneur and a bank, or another entity authorised to grant loans to the public pursuant to article 106 of the Banking Law, may be secured by transferring to the creditor (or to a company of the creditor's group authorised to purchase, hold, manage and transfer rights in rem in immovable property), the ownership of a property or of another immovable right of the entrepreneur or of a third party (which is not the main home of the owner, of the spouse or of his relatives and in-laws up to the third degree). Such transfer is subject to the condition precedent of the debtor defaulting (so-called "*Patto Marciano*", hereafter the **Covenant**).

The Covenant may be stipulated on entering into the loan agreement or, in respect of loan agreements in existence on the date of entry into force of Article 48-*bis*, under a notarial deed made in the context of subsequent amendments. If the loan is already secured by a mortgage, the transfer subject to the condition precedent of the default, once registered, prevails over annotations and registrations carried out after the mortgage entry.

The default occurs: (i) in case of repayment in monthly instalments, when the failure to pay continues for more than nine months after the expiry of at least three instalments, even if not consecutive, and (ii) in case of repayment in a single instalment or with instalments in periods of more than one month (e.g. quarterly or semi-annual instalments), once nine months have elapsed after the expiry of an unpaid instalment, provided that the aforesaid nine-month periods shall be extended to twelve months if the debtor has repaid at least 85 per cent. of the loan.

In the event of default, the creditor is entitled to avail itself of the effects of the Covenant provided that any difference between the valuation of the right - as assessed by an expert appointed by the court upon request of the creditor - and the total amount of outstanding debt and transfer costs is paid back to the debtor.

Use may be made of the transfer pursuant to article 2 of the Decree 59 even in cases where the right in rem in immovable property covered by the Covenant is subject to forced sale due to expropriation. In this case, the assessment of the debtor's default is carried out - at the creditor's request - by the enforcement court, and the valuation is made by the expert appointed by such court. The transfer to the creditor is subject - in accordance with the procedures established by the enforcement court - to the payment of enforcement charges and of any prior creditors or of any difference between the valuation of the asset and the amount of the unsettled debt. The same procedure applies, insofar as it is compatible, also in cases where the right in rem in immovable property is subject to enforcement in accordance with Presidential Decree D.P.R. no. 602/1973 or if, after the Covenant is registered, the debtor goes bankrupt.

The provisions introduced by the Decree 59 allow the automatic application of the Covenant upon the occurrence of a default (as described above) of the debtor.

TERMS AND CONDITIONS OF THE COVERED BONDS

*The following is the text of the terms and conditions of the Covered Bonds (other than Registered Covered Bonds) (the **Conditions** and, each of them, a **Condition**). - (b) *Accrual of interest:* Each Covered Bond bears interest on its Outstanding Principal Balance from (and including) the Interest Commencement Date at the Rate of Interest payable in arrears on each CB Payment Date, subject as provided in Condition 10 (*Payments*). Each Covered Bond will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 until whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Covered Bonds for each CB Interest Period will be determined by the Paying Agent on the following basis:
 - (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Paying Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (ii) in any other case, the Paying Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Paying Agent will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
 - (iv) if fewer than two such quotations are provided as requested, the Paying Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Paying Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Paying Agent, at

approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant CB Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant CB Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such CB Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Paying Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any CB Interest Period, the Rate of Interest applicable to the Covered Bonds during such CB Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Covered Bonds in respect of a preceding CB Interest Period.

- (d) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Covered Bonds for each CB Interest Period will be the sum of the Margin and the relevant ISDA Rate where **ISDA Rate** in relation to any CB Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Paying Agent under an interest rate swap transaction if the Paying Agent were acting as Paying Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:
- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
 - (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
 - (iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) for a currency, the first day of that CB Interest Period or (B) in any other case, as specified in the relevant Final Terms.
- (e) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (f) *Fallback Provisions:* Notwithstanding the foregoing provisions of this Condition 6, if the Issuer (in consultation with the Calculation Agent or the person specified in the relevant Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s))) determines that a Benchmark Event has occurred, when any Rate of Interest (or the relevant component part thereof) remains to be determined by reference to a Reference Rate, then the following provisions shall apply:
- (i) the Issuer shall use reasonable endeavours to appoint an Independent Adviser for the determination (with the Issuer's agreement) of a Successor Rate or, alternatively, if the Independent Adviser and the Issuer agree that there is no Successor Rate, an alternative rate (the **Alternative Benchmark Rate**) and, in either case, an alternative screen page or source (the **Alternative Relevant Screen Page**) and an Adjustment Spread (if applicable) no later than three (3) Business Days prior to the relevant Interest Determination Date relating to the next succeeding CB Interest Period (the **IA Determination Cut-off Date**) for purposes of determining the Rate of Interest applicable to the Covered Bonds for all future CB Interest Periods (as applicable) (subject to the subsequent operation of this Condition 6(f));
 - (ii) the Alternative Benchmark Rate shall be such rate as the Independent Adviser and the Issuer acting in good faith agree has replaced the relevant Reference Rate in customary market usage for the purposes of determining floating rates of interest or

reset rates of interest in respect of eurobonds denominated in the Specified Currency, or, if the Independent Adviser and the Issuer agree that there is no such rate, such other rate as the Independent Adviser and the Issuer acting in good faith agree is most comparable to the relevant Reference Rate, and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Benchmark Rate;

- (iii) if the Issuer is unable to appoint an Independent Adviser, or if the Independent Adviser and the Issuer cannot agree upon, or cannot select a Successor Rate or an Alternative Benchmark Rate and Alternative Relevant Screen Page prior to the IA Determination Cut-off Date in accordance with sub-paragraph (ii) above, then the Issuer (acting in good faith and in a commercially reasonable manner) may determine which (if any) rate has replaced the relevant Reference Rate in customary market usage for purposes of determining floating rates of interest or reset rates of interest in respect of eurobonds denominated in the Specified Currency, or, if it determines that there is no such rate, which (if any) rate is most comparable to the relevant Reference Rate, and the Alternative Benchmark Rate shall be the rate so determined by the Issuer and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Benchmark Rate; *provided however that* if (A) this sub-paragraph (iii) applies and the Issuer is unable or unwilling to determine an Alternative Benchmark Rate and Alternative Relevant Screen Page prior to the Interest Determination Date relating to the next succeeding CB Interest Period in accordance with this sub-paragraph (iii), *then* the Reference Rate applicable to such Interest Period shall be equal to the Reference Rate for a term equivalent to the Relevant Interest Period published on the Relevant Screen Page as at the last preceding Interest Determination Date (though substituting, where a different Relevant Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Relevant Margin relating to the relevant CB Interest Period, in place of the margin relating to that last preceding CB Interest Period). For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding CB Interest Period, and any subsequent CB Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, the first paragraph of this Condition 6(f);
- (iv) if a Successor Rate or an Alternative Benchmark Rate and an Alternative Relevant Screen Page is determined in accordance with the preceding provisions, such Successor Rate or Alternative Benchmark Rate and Alternative Relevant Screen Page shall be the benchmark and the Relevant Screen Page in relation to the Covered Bonds for all future CB Interest Periods (subject to the subsequent operation of this Condition 6(f);
- (v) if the Issuer, following consultation with the Independent Adviser and acting in good faith, determines that (A) an Adjustment Spread is required to be applied to the Successor Rate or Alternative Benchmark Rate and (B) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or Alternative Benchmark Rate for each subsequent determination of a relevant Rate of Interest and Interest Amount(s) (or a component part thereof) by reference to such Successor Rate or Alternative Benchmark Rate;
- (vi) if a Successor Rate or an Alternative Benchmark Rate and/or Adjustment Spread is determined in accordance with the above provisions, the Independent Adviser (with the Issuer's agreement) or the Issuer (as the case may be), may also specify changes to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date and/or the definition of Reference Rate applicable to the Covered Bonds, and the method for determining the fallback rate in relation to the Covered Bonds, in order to follow market practice in relation to the Successor Rate or Alternative Benchmark Rate and/or Adjustment Spread, which

changes shall apply to the Covered Bonds for all future Interest Periods (subject to the subsequent operation of this Condition 6(f)); and

- (vii) the Issuer shall promptly following the determination of any Successor Rate or Alternative Benchmark Rate and Alternative Relevant Screen Page and Adjustment Spread (if any) give notice thereof and of any changes pursuant to sub-paragraph (vi) above to the Calculation Agent, the Paying Agent, the Representative of the Covered Bondholders and the Covered Bondholders.
- (g) *Calculation of Interest Amount:* The Paying Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each CB Interest Period, calculate the Interest Amount payable in respect of each Covered Bond for such CB Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such CB Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Covered Bond divided by the Calculation Amount. For this purpose a **sub-unit** means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.
- (h) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Paying Agent, then the Paying Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Paying Agent in the manner specified in the relevant Final Terms.
- (i) *Publication:* The Paying Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant CB Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to each competent authority, stock exchange and/or quotation system (if any) by which the Covered Bonds have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and CB Payment Date) in any event not later than the first day of the relevant CB Interest Period. Notice thereof shall also promptly be given to the Covered Bondholders. The Paying Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant CB Interest Period. If the Calculation Amount is less than the minimum Specified Denomination, the Paying Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Covered Bond having the minimum Specified Denomination.
- (j) *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Paying Agent will (in the absence of manifest error) be binding on the Issuer, the Covered Bond Guarantor, the Covered Bondholders and (subject as aforesaid) no liability to any such Person will attach to the Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

7 Zero Coupon Provisions

- (a) *Application:* This Condition 7 is applicable to the Covered Bonds only if the Zero Coupon Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Late payment on Zero Coupon Covered Bonds:* If the Redemption Amount payable in respect of any Zero Coupon Covered Bond is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:
 - (i) the Reference Price; and

- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).

8 Partly-Paid Provisions

- (a) *Application:* This Condition 8 is applicable to the Covered Bonds only if the Partly-Paid Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Rate of Interest:* Interest will accrue on the paid up nominal amount of such Covered Bonds or as otherwise specified in the applicable Final Terms.

9 Redemption and Purchase

- (a) *Scheduled redemption:* Unless previously redeemed or purchased and cancelled as specified below, the Covered Bonds of each Series or Tranche will be redeemed at their Final Redemption Amount on the relevant Maturity Date, subject as provided in Condition 9(b) (*Extension of maturity*) and Condition 10 (*Payments*). If an Extended Maturity Date is not specified as applicable in the relevant Final Terms for a Series or Tranche of Covered Bonds, Condition 9(m) (*Pre-Maturity Liquidity Test*) shall apply.

The Issuer shall confirm to the Paying Agent as soon as reasonably practicable and in any event at least as of the Extension Determination Date as to whether payment will or will not be made in full of the Final Redemption Amount in respect of the Covered Bonds on that Maturity Date. Any failure by the Issuer to notify the Paying Agent shall not affect the validity or effectiveness of the extension.

- (b) *Extension of maturity:* Without prejudice to Condition 11 (*Taxation*), if (i) an Extended Maturity Date is specified as applicable in relation to the Covered Bond Guarantor in the relevant Final Terms for a Series or Tranche of Covered Bonds and an Article 74 Event or an Issuer Event of Default has occurred, following the service, respectively, of an Article 74 Notice to Pay or a Notice to Pay on the Covered Bond Guarantor, and (ii) the Calculation Agent (on behalf of the Covered Bond Guarantor) determines that the Covered Bond Guarantor has insufficient Available Funds under the Post-Issuer Default Priority of Payments to pay the Guaranteed Amounts corresponding to the Final Redemption Amount in full in respect of the relevant Series or Tranche of Covered Bonds on the Maturity Date, then (subject as provided below), payment of the unpaid amount by the Covered Bond Guarantor under the Covered Bond Guarantee shall be deferred until the Extended Maturity Date *provided that* any amount representing the Final Redemption Amount due and remaining unpaid after the Extension Determination Date may be paid by the Covered Bond Guarantor on any CB Payment Date thereafter up to (and including) the relevant Extended Maturity Date (a **Maturity Extension**). Notwithstanding the above, if the Covered Bonds are extended as a consequence of the occurrence of an Article 74 Event, upon termination of the suspension period and withdrawal of the Article 74 Notice to Pay, the Issuer shall resume responsibility for meeting the payment obligations under any Series or Tranche of Covered Bonds in respect of which an Extendable Maturity has occurred, and any Final Redemption Amount shall be due for payment by no later than 15 calendar days following the day on which the Article 74 Notice to Pay has been withdrawn.

The Covered Bond Guarantor shall notify the relevant Covered Bondholders (in accordance with Condition 19 (*Notices*)), any relevant Hedging Counterparty, the Rating Agency, the Representative of the Covered Bondholders and the Paying Agent as soon as reasonably practicable, and in any event at least one Business Day prior to the relevant Maturity Date, of any inability of the Covered Bond Guarantor to pay in full the Guaranteed Amounts corresponding to the Final Redemption Amount in respect of a Series or Tranche of Covered

Bonds pursuant to the Covered Bond Guarantee. Any failure by the Covered Bond Guarantor to notify such parties shall not affect the validity or effectiveness of the extension nor give rise to any rights in any such party.

In the circumstances outlined above, the Covered Bond Guarantor shall, on the relevant Due for Payment Date, pursuant to the Covered Bond Guarantee, apply the monies (if any) available (after paying or providing for payment of higher ranking or *pari passu* amounts in accordance with the relevant Priorities of Payments) *pro rata* in payment of an amount equal to the Final Redemption Amount in respect of the relevant Series or Tranche of Covered Bonds and shall pay Guaranteed Amounts constituting interest in respect of each such Covered Bond on such date. The obligation of the Covered Bond Guarantor to pay any amounts in respect of the balance of the Final Redemption Amount not so paid on such Due for Payment Date shall be deferred as described above.

Interest will continue to accrue on any unpaid amount during such extended period and be payable on each Guarantor Payment Date following the Maturity Date up to the Extended Maturity Date (inclusive).

Where an Extended Maturity Date is specified as applicable in the relevant Final Terms for a Series or Tranche of Covered Bonds and applied, failure to pay on the Maturity Date by the Covered Bond Guarantor shall not constitute a Covered Bond Guarantor Event of Default.

(c) *Redemption for tax reasons:* The Covered Bonds may be redeemed at the option of the Issuer in whole, but not in part:

- (i) at any time (if the Floating Rate Provisions are not specified in the relevant Final Terms as being applicable); or
- (ii) on any CB Payment Date (if the Floating Rate Provisions are specified in the relevant Final Terms as being applicable),

on giving not less than 30 nor more than 60 days' notice to the Covered Bondholders (which notice shall be irrevocable), at their Early Redemption Amount, together with interest accrued (if any) to the date fixed for redemption, if:

- (A) the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 11 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of Italy or any European law or regulation, or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction), which change or amendment becomes effective on or after the date of issue of the first Series or Tranche of Covered Bonds; and
- (B) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided, however, that no such notice of redemption shall be given earlier than:

- (1) where the Covered Bonds may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Covered Bonds were then due; or
- (2) where the Covered Bonds may be redeemed only on a CB Payment Date, 60 days prior to the CB Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Covered Bonds were then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Paying Agent, with a copy to the Luxembourg Listing Agent and the Representative of the Covered Bondholders, a certificate signed by a duly authorised officer of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to

redeem have occurred and such evidence shall be sufficient to the Paying Agent and the Representative of the Covered Bondholders and conclusive and binding on the Covered Bondholders. Upon the expiry of any such notice as is referred to in this Condition 9(c), the Issuer shall be bound to redeem the Covered Bonds in accordance with this Condition 9(c).

- (d) *Redemption at the option of the Issuer:* If the Call Option is specified in the relevant Final Terms as being applicable, the Covered Bonds may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer's giving not less than 15 nor more than 30 days' notice to the Covered Bondholders (which notice shall be irrevocable and shall oblige the Issuer to redeem the Covered Bonds on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date).
- (e) *Partial redemption:* If the Covered Bonds are to be redeemed in part only on any date in accordance with Condition 9(d) (*Redemption at the option of the Issuer*), the Covered Bonds to be redeemed in part shall be redeemed in the principal amount specified by the Issuer and the Covered Bonds will be so redeemed in accordance with the rules and procedures of Monte Titoli and/or any other Relevant Clearing System (to be reflected in the records of such clearing systems as a pool factor or a reduction in principal amount, at their discretion), subject to compliance with applicable law, the rules of each competent authority, stock exchange and/or quotation system (if any) by which the Covered Bonds have then been admitted to listing, trading and/or quotation. The notice to Covered Bondholders referred to in Condition 9(d) (*Redemption at the option of the Issuer*) shall specify the proportion of the Covered Bonds so to be redeemed. If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.
- (f) *Redemption at the option of Covered Bondholders:* If the Put Option is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of any Covered Bondholder, redeem such Covered Bonds held by it on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date. In order to exercise the option provided for under this Condition 9(f), the Covered Bondholder must, not less than 15 nor more than 30 days before the relevant Optional Redemption Date (Put), deposit with the Paying Agent a duly completed Put Option Notice in the form obtainable from the Paying Agent. The Paying Agent with which a Put Option Notice is so deposited shall deliver a duly completed Put Option Receipt to the depositing Covered Bondholder. Once deposited in accordance with this Condition 9(f), no duly completed Put Option Notice, may be withdrawn; *provided, however, that* if, prior to the relevant Optional Redemption Date (Put), any Covered Bonds become immediately due and payable or, upon due presentation of any such Covered Bonds on the relevant Optional Redemption Date (Put), payment of the redemption monies is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the Covered Bondholder at such address as may have been given by such Covered Bondholder in the relevant Put Option Notice and shall hold such Covered Bond against surrender of the relevant Put Option Receipt. For so long as any outstanding Covered Bonds are held by a Paying Agent in accordance with this Condition 9(f), the Covered Bondholder and not such Paying Agent shall be deemed to be the holder of such Covered Bonds for all purposes.
- (g) *No other redemption:* The Issuer shall not be entitled to redeem the Covered Bonds otherwise than as provided in Conditions 9(a) (*Scheduled redemption*) to (f) (*Redemption at the option of Covered Bondholders*) above.
- (h) *Early redemption of Zero Coupon Covered Bonds:* Unless otherwise specified in the relevant Final Terms, the Redemption Amount payable on redemption of a Zero Coupon Covered Bonds at any time before the Maturity Date shall be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Covered Bonds become due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 9(h) or, if none is so specified, a Day Count Fraction of 30E/360.

- (i) *Redemption by instalments*: If the Covered Bonds are specified in the relevant Final Terms as being amortising and redeemable in instalments they will be redeemed in such number of instalments, in such amounts (**Instalment Amounts**) and on such dates as may be specified in or determined in accordance with the relevant Final Terms and upon each partial redemption as provided by this Condition 9(i), the outstanding principal amount of each such Covered Bonds shall be reduced by the relevant Instalment Amount for all purposes.
- (j) *Purchase*: The Issuer or any of its Subsidiaries (other than the Covered Bond Guarantor) may at any time purchase Covered Bonds in the open market or otherwise and at any price. The Covered Bond Guarantor shall not purchase any Covered Bonds at any time.
- (k) *Legislative Exchange*: Following the coming into force in Italy, at any time after the Issue Date, of (i) any legislation similar to the OBG Regulation in force in any other European Union country or (ii) any rules, regulations or guidelines published by any governmental authority that provides for bonds issued by Italian issuers to qualify for the same benefits available to covered bonds issued under covered bond legislation in force in any other European Union country, the Issuer may, at its option and without the consent of the Representative of the Covered Bondholders, exchange all (but not some only) of the Covered Bonds of all Series or Tranche then outstanding (the **Existing Covered Bonds**) for new Covered Bonds which qualify as covered bonds under such new legislation, rules, regulations or guidelines (the **New Covered Bonds**) on the same economic terms and conditions as the Existing Covered Bonds (the **Legislative Exchange**) if not more than 60 nor less than 30 days' notice to the Covered Bondholders (in accordance with Condition 19 (*Notices*)) and the Representative of the Covered Bondholders is given and provided that:
 - (i) on the date on which such notice expires the Issuer delivers to the Representative of the Covered Bondholders a certificate signed by two authorised signatories of each of the Issuer and the Covered Bond Guarantor confirming that, in the case of the Issuer, no Issuer Event of Default and, in the case of the Covered Bond Guarantor, no Covered Bond Guarantor Event of Default, has occurred which is continuing;
 - (ii) the Rating Agency has confirmed in writing that the New Covered Bonds will be assigned the same ratings as are then applicable to the Existing Covered Bonds; and
 - (iii) if the Existing Covered Bonds are listed, quoted and/or traded on or by a competent and/or relevant listing authority, stock exchange and/or quotation system on or before the date on which such notice expires, the Issuer delivers to the Representative of the Covered Bondholders a certificate signed by two authorised signatories of the Issuer confirming that all applicable rules of such competent and/or relevant listing authority, stock exchange and/or quotation system have been or will be complied with.

The Existing Covered Bonds will be cancelled concurrently with the issue of the New Covered Bonds and with effect on and from the date of issue thereof all references herein to Covered Bonds shall be deemed to be references to the New Covered Bonds.

- (l) *Redemption due to illegality*: The Covered Bonds of all Series or Tranche may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than 30

nor more than 60 days' notice to the Representative of the Covered Bondholders and the Paying Agent and, in accordance with Condition 19 (*Notices*), all Covered Bondholders (which notice shall be irrevocable), if the Issuer satisfies the Representative of the Covered Bondholders immediately before the giving of such notice that it has, or will, before the next CB Payment Date of any Covered Bond of any Series or Tranche, become unlawful for the Issuer to make any payments under the Covered Bonds as a result of any change in, or amendment to, the applicable laws or regulations or any change in the application or official interpretation of such laws or regulations, which change or amendment has become or will become effective before the next such CB Payment Date.

Covered Bonds redeemed pursuant to this Condition 9(l) will be redeemed at their Early Redemption Amount together (if appropriate) with interest accrued to (but excluding) the date of redemption.

- (m) *Pre-Maturity Liquidity Test.* If an Extended Maturity Date is not specified as applicable in the relevant Final Terms for a Series or Tranche of Covered Bonds, on any Business Day falling during the Pre-Maturity Rating Period prior to the occurrence of an Issuer Event of Default (each a **Pre-Maturity Liquidity Test Date**), the Calculation Agent will determine if the Pre-Maturity Liquidity Test (as defined below) has been breached, and if so, it shall immediately notify the Issuer, the Seller, the Hedging Counterparties and the Representative of the Covered Bondholders.

For the purpose of this paragraph (m) the **Pre-Maturity Liquidity Test** is complied with on any Pre-Maturity Liquidity Test Date if, during the Pre-Maturity Rating Period, the Issuer's credit rating is greater than or equal to the Pre-Maturity Liquidity Required Rating.

Following a breach of the Pre-Maturity Liquidity Test in respect of a Series or Tranche of Covered Bonds:

- (i) the Issuer shall:
- (a) make a cash deposit in an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates on the Pre-Maturity Liquidity Account, opened in its name with a bank whose ratings are at least equal to the Minimum Required Account Bank Rating provided for under the Transaction Documents and pledged in favour of the Covered Bondholders; or
 - (b) obtain a first demand, autonomous guarantee (meeting the criteria set forth by the Rating Agency) for an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates, by an eligible entity whose ratings are at least equal to the Minimum Required Pre-Maturity Liquidity Guarantor Rating; or
 - (c) take action in the form of a combination of the foregoing which in aggregate add up to an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates;

and/or

- (ii) the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, on behalf of the Covered Bond Guarantor, shall sell, subject to any pre-emption right of the Seller or any Additional Seller (as the case may be) pursuant to the relevant Master Transfer Agreement, Selected Assets and Integration Assets in accordance with the procedures set out in the Portfolio Administration Agreement, for an amount equal to the Adjusted Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates.

10 Payments

- (a) *Payments through clearing systems:* Payment of interest and repayment of principal in respect of the Covered Bonds will be credited, in accordance with the instructions of Monte Titoli, by the Paying Agent on behalf of the Issuer or the Covered Bond Guarantor (as the case may be) to the accounts of those banks and authorised brokers whose accounts with Monte Titoli are credited with those Covered Bonds and thereafter credited by such banks and authorised brokers from such aforementioned accounts to the accounts of the beneficial owners of those Covered Bonds or through the Relevant Clearing Systems to the accounts with the Relevant Clearing Systems of the beneficial owners of those Covered Bonds, in accordance with the rules and procedures of Monte Titoli and of the Relevant Clearing Systems, as the case may be.
- (b) *Payments subject to fiscal laws:* All payments in respect of the Covered Bonds are subject in all cases to any applicable fiscal or other laws and regulations in the place of payment, but without prejudice to the provisions of Condition 11 (*Taxation*). No commissions or expenses shall be charged to Covered Bondholders in respect of such payments.
- (c) *Payments on business days:* If the due date for payment of any amount in respect of any Covered Bond is not a Business Day in the Place of Payment, the Covered Bondholder shall not be entitled to payment in such place of the amount due until the next succeeding Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.

11 Taxation

- (a) *Gross up by Issuer:* All payments of principal and interest in respect of the Covered Bonds by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Republic of Italy or any political subdivision therein or any authority therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, assessments, or governmental charges is required by law. In that event, the Issuer shall pay such additional amounts as will result in receipt by the Covered Bondholders after such withholding or deduction of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in respect of any Covered Bond:
 - (i) in respect to any payment or deduction of any interest or principal on account of *imposta sostitutiva* (at the then applicable rate of tax) pursuant to Decree 239 with respect to any Covered Bonds or, for the avoidance of doubt, Decree 461 or any related implementing regulations, and in all circumstances in which the procedures set forth in Decree 239 in order to benefit from a tax exemption have not been met or complied with except where such procedures have not been met or complied with due to the actions or omissions of the Issuer or its agents; or
 - (ii) with respect to any Covered Bond presented for payments:
 - (a) in the Republic of Italy; or
 - (b) by or on behalf of a holder who is liable for such taxes or duties in respect of such Covered Bond by reason of his having some connection with the Republic of Italy other than the mere holding of such Covered Bond; or
 - (c) by or on behalf of a holder who is entitled to avoid such withholding or deduction in respect of such Covered Bond by making, or procuring, a declaration of non-residence or other similar claim for exemption but has failed to do so; or
 - (d) more than 30 days after the Maturity Date except to the extent that the relevant holder would have been entitled to an additional amount on

presenting such Covered Bond for payment on such thirtieth day assuming that day to have been a Business Day; or

The Paying Agent and its initial Specified Office are set out in these Conditions. Any additional Paying Agent and its Specified Office (if any) are specified in the relevant Final Terms. - (b) to an Approved Reorganisation; or
- (c) that Intesa Sanpaolo (or any previous substitute) may, other than by means of an Approved Reorganisation, consolidate with, merge into or amalgamate with any successor company,

provided that:

- (i) the obligations of the Substitute Obligor or the Resulting Entity under the Covered Bonds shall be irrevocably and unconditionally guaranteed by Intesa Sanpaolo (on like terms as to subordination, if applicable, to those of the Covered Bond Guarantee); and
- (ii) (other than in the case of an Approved Reorganisation) the Representative of the Covered Bondholders has confirmed in writing that it is satisfied that the interests of the Covered Bondholders will not be materially prejudiced thereby; and
- (iii) the Substitute Obligor or the Resulting Entity agrees, in form and manner satisfactory to the Representative of the Covered Bondholders, to be bound by the terms and conditions of the Covered Bonds and all the Transaction Documents in respect to any Series or Tranche of Covered Bonds still outstanding, by means of executing agreements and documents substantially in the same form and substance of the Transaction Documents;

In the case of a substitution, the relevant Issuer shall notify the Luxembourg Stock Exchange thereof and prepare, or procure the preparation of, a supplement to the Base Prospectus in respect of the Programme.

In connection with the exercise of its powers, authorities or discretions above mentioned: (a) the Representative of the Covered Bondholders shall have regard to the interests of the Covered Bondholders as a class and in particular, but without prejudice to the generality of the foregoing, shall not have regard to the consequences of such exercise for individual Covered Bondholders resulting from them being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory; and (b) the Representative of the Covered Bondholders shall not be entitled to claim from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Covered Bondholders except to the extent already provided for by Condition 11 (*Taxation*).

For the avoidance of doubt, it is understood that if the Available Funds are insufficient to pay any amount due and payable on any Guarantor Payment Date in accordance with the relevant Priority of Payments, the shortfall then occurring will not be payable on that date but will become payable on the subsequent Guarantor Payment Dates if and to the extent that the Available Funds may be used for this purpose in accordance with the Priorities of Payments. Such shortfall will not cause the accrual of default interest unless otherwise provided in the relevant Transaction Document. If there are not Available Funds for payment to the Secured Creditors at the date the Covered Bonds are cancelled in accordance with the Conditions, the Secured Creditors shall have no further claim against the Covered Bond Guarantor in respect of any unpaid amount;

- (vi) undertakes to enforce any judgment obtained by it in any action brought under any of the Transaction Documents or any other document relating thereto only against the Portfolio and the Available Funds and not against any other assets or property or the contributed equity capital of the Covered Bond Guarantor or of any quotaholder, director, employee, officer, auditor or agent of the Covered Bond Guarantor;
- (vii) undertakes not to make any claim or bring any action in contravention of the provisions of this Condition 17; and

FORM OF FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Covered Bonds (other than Registered Covered Bonds) issued under the Programme. Text in this section appearing in italics does not form part of the Final Terms but denotes directions for completing the Final Terms.

[PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS] - The Covered Bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**) or in the United Kingdom (**UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (**MiFID II**); or (ii) a customer within the meaning of Directive (UE) 2016/97 (**IDD**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the **PRIIPs Regulation**) for offering or selling the Covered Bonds or otherwise making them available to retail investors in the EEA or the UK has been prepared and therefore offering or selling the Covered Bonds or otherwise making them available to any retail investor in the EEA or the UK may be unlawful under the PRIIPs Regulation.]

MIFID II Product Governance / Professional investors and ECPs only target market – Solely for the purposes of each of the manufacturer's product approval process, the target market assessment in respect of the Covered Bonds has led to the conclusion that: (i) the target market for the Covered Bonds is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, **MiFID II**)] [MiFID II]; and (ii) all channels for distribution of the Covered Bonds to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Covered Bonds (a **distributor**) should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Covered Bonds (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

MAIN FEATURES OF REGISTERED COVERED BONDS (*GEDECKTE NAMENSSCHULDVERSCHREIBUNGEN*)

Under the Programme the Issuer may issue Registered Covered Bonds (*Gedekte Namensschuldverschreibungen*), each issued with a minimum denomination indicated in the applicable Registered Covered Bond Conditions. The Registered Covered Bonds will not be listed and/or admitted to trading on any market and will not be settled through a clearing system.

The Registered Covered Bonds will be governed by the laws of the Federal Republic of Germany or by whatever law chosen by the Issuer (to be supplemented with the specific provisions required under German law in order for the Registered Covered Bonds to be a German law registered note (*Gedekte Namensschuldverschreibung*)) provided that, in any case, certain provisions, including those applicable to the Issuer and the Portfolio and those applicable to the status, limited recourse and the guarantee of the Registered Covered Bonds, shall be confirmed to be governed by Italian law.

The Registered Covered Bonds will be direct, unconditional, unsubordinated and unsecured obligations of the Issuer, guaranteed by the Guarantor pursuant to the terms of the Covered Bond Guarantee. The Registered Covered Bonds will rank *pari passu* and without any preference among themselves and, save for any applicable statutory provisions, at least equally with all other present and future unsecured and un-subordinated obligations of the Issuer from time to time outstanding.

In accordance with the Law 130, MEF Decree and the BoI OBG Regulations, the terms and conditions of each Series of Registered Covered Bonds together with the Transaction Documents, the Registered Covered Bondholders will have (i) recourse to the Issuer and (ii) limited recourse to the Guarantor limited to the Available Funds.

The Registered Covered Bonds shall be governed by a set of legal documentation in the form from time to time agreed with the relevant Dealer and will not be governed by the Conditions of the Covered Bonds set out in this Base Prospectus. Such legal documentation will include the relevant Registered Covered Bond certificate, the Registered Covered Bond Conditions, the Registered Covered Bond assignment agreement, any other ancillary documents and/or agreements. Notwithstanding the foregoing, the Issuer will be entitled to enter into a different or additional set of documentation as agreed with the relevant Dealer in relation to a specific issue of Registered Covered Bonds.

The full terms and conditions applicable to each Series of Registered Covered Bonds will be the relevant Registered Covered Bond Certificate, the Registered Covered Bond Conditions attached thereto and any other related agreements.

In connection with each Registered Covered Bond, each reference in the Base Prospectus to information being set out, specified, stated, shown, indicated or otherwise provided for in the applicable Final Terms shall be read and construed as a reference to such information being set out, specified, stated, shown, indicated or otherwise provided in the Registered Covered Bond Certificate, the Registered Covered Bond Conditions attached thereto or any other document expressed to govern such Registered Covered Bond and, as applicable, each other reference to Final Terms in the Base Prospectus shall be construed and read as a reference to such Registered Covered Bond, the Registered Covered Bond Conditions attached thereto or any other document expressed to govern such of Registered Covered Bond.

A transfer of Registered Covered Bonds is deemed to be not effective until the transferee has delivered to the Registrar a duly executed copy of the Registered Covered Bond certificate relating to such Registered Covered Bond along with a duly executed Registered Covered Bond assignment agreement. A transfer can only occur for the minimum denomination indicated in the applicable Registered Covered Bond Conditions or multiples thereof.

In connection of Registered Covered Bonds, any references in this Base Prospectus to the Conditions or a particularly numbered Condition shall be construed, where relevant and unless specified

otherwise, to include the equivalent Condition in the Registered Covered Bond Conditions as supplemented by any other applicable document.

TAXATION

Republic of Italy

The following is an overview of current Italian law and practice relating to the taxation of the Covered Bonds. The statements herein regarding taxation are based on the laws in force in Italy as of the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis.

The following overview does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Covered Bonds and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Covered Bonds are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Covered Bonds.

Tax treatment of the Covered Bonds

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, (**Decree 239**) provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from notes issued, *inter alia*, by Italian banks, falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*). For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity or redemption, an amount not lower than their nominal value with or without the payment of periodic interest, and do not give any right to directly or indirectly participate in the management of the issuer or to the business in connection to which the securities were issued, nor to control the same.

Taxation of Interest

Italian resident Covered Bondholders

Where an Italian resident Covered Bondholder is: (a) an individual not engaged in an entrepreneurial activity to which the Covered Bonds are connected, or (b) a non-commercial partnership, or (c) a non-commercial private or public institution (other than companies), a trust not carrying out mainly or exclusively commercial activities, the Italian State and public and territorial entities, or (d) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Covered Bonds, accrued during the relevant holding period, are subject to a withholding tax, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent (unless the Covered Bondholder described under (a), (b) and (c) have entrusted the management of their financial assets, including the Covered Bonds, to an authorized intermediary and they have opted for the application of the "*risparmio gestito*" regime - see "*Capital Gains Tax*" below).

Subject to certain conditions, interest in respect of Covered Bonds issued by Intesa Sanpaolo that qualify as *obbligazioni* or *titoli similari alle obbligazioni* received by Italian resident individuals holding the Covered Bonds not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Covered Bonds are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

In the event that the Covered Bondholders described under (a) or (c) above are engaged in an entrepreneurial activity to which the Covered Bonds are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Covered Bondholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Covered Bonds are effectively connected and the Covered Bonds are deposited with an authorised intermediary, interest, premium and other income from the Covered Bonds will not be subject to *imposta sostitutiva*, but must be included in the relevant Covered Bondholder's annual income tax return and are therefore subject to general Italian corporate taxation (**IRES**) (and, in certain circumstances, depending on the "*status*" of the Covered Bondholder, also to regional tax on productive activities (**IRAP**)).

If an investor is resident in Italy and is an open-ended or a closed-ended investment fund, a SICAF (an investment company with fixed capital) or a SICAV (an investment company with variable capital) established in Italy (together, the **Fund**), and either (i) the Fund, or (ii) its manager is subject to the supervision of a regulatory authority, and the relevant Covered Bonds are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Covered Bonds will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund accrued at the end of each tax period. The Fund will not be subject to taxation on such result, but a withholding tax up to 26 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders (the **Collective Investment Fund Tax**).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001 (**Decree 351**), Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010, and Legislative Decree No. 44 of 4 March 2014, all as amended, payments of interest, premiums or incomes in respect of the Covered Bonds made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998 or pursuant to Article 14-bis of Law No. 86 of 25 January 1994, and Italian real estate SICAFs (**Real Estate SICAFs**) are subject neither to *imposta sostitutiva*, nor to any other income tax in the hands of the real estate investment fund or the Real Estate SICAF to the extent the Covered Bonds are held by an authorised intermediary. The income of the real estate fund or Real Estate SICAFs is subject to tax, in the hands of the unitholder or shareholder, depending on the status and percentage of participation, or, when earned by the fund, through distribution and/or upon redemption or disposal of the units or shares.

Where an Italian resident Covered Bondholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Covered Bonds are deposited with an authorised intermediary, interest, premium and other income relating to the Covered Bonds and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent substitute tax on the increase in value of the managed assets accrued at the end of each year. Subject to certain conditions (including minimum holding period requirement) and limitations, interest, premium and other income relating to the Covered Bonds may be excluded from the taxable base of the 20 per cent. substitute tax if the Covered Bonds are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, *Società di intermediazione mobiliare* (SIMs), fiduciary companies, *Società di gestione del risparmio* (SGRs), stockbrokers and other entities identified by a Decree of the Ministry of Economy and Finance (each an **Intermediary**) as subsequently amended and integrated.

An Intermediary must: (a) be (i) resident in Italy or (ii) a permanent establishment in Italy of a non-Italian resident financial intermediary or (iii) an entity or a company not resident in Italy, acting through a system of centralised administration of securities and directly connected with the Department of Revenue of Italian Ministry of Finance having appointed an Italian representative for the purposes of Decree 239 and (b) intervene, in any way, in the collection of interest or in the transfer of the Covered Bonds. For the purpose of the application of the *imposta sostitutiva*, a transfer of Covered Bonds includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Covered Bonds or in a change of the Intermediary with which the Covered Bonds are deposited.

Where the Covered Bonds are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Covered Bondholder or, absent that, by the Issuer.

Non-Italian resident Covered Bondholders

Where the Covered Bondholder is a non-Italian resident, without a permanent establishment in Italy to which the Covered Bonds are connected, an exemption from the *imposta sostitutiva* applies provided that the non-Italian resident Covered Bondholder is either (a) a beneficial owner resident, for tax purposes, in a state or territory which allows for a satisfactory exchange of information with

Italy as listed in the Italian Ministerial Decree of 4 September 1996 as amended and supplemented, and subject to possible further amendments by future decree issued pursuant to Article 11 paragraph 4 (c) of Decree 239 (the **White List**); or (b) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (c) a Central bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) an “institutional investor” which is incorporated in a country included in the White List, even if it does not possess the status of a taxpayer in its own country of incorporation.

In order to ensure gross payment, non-resident investors must be the beneficial owners of payments of interest, premium or other income or qualify as certain types of institutional investors and must (a) deposit, directly or indirectly, the Covered Bonds, the Receipts or the coupons with a bank or a SIM or a permanent establishment in Italy of a non-resident bank or SIM or with a non-resident operator of a clearing system having appointed as its agent in Italy for the purposes of Decree 239 a resident bank or SIM or a permanent establishment in Italy or a non-resident bank or SIM which are in contact via computer with the Ministry of Economy and Finance and (b) file with the relevant depository, prior to or concurrently with the deposit of the Covered Bonds, a statement of the relevant Covered Bondholder, to be provided only once, until revoked or withdrawn, in which the Covered Bondholder declares to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy or in the case of foreign Central Banks or entities which manage the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree of 12 December 2001.

The *imposta sostitutiva* will be applicable at the rate of 26 per cent., or at the reduced rate provided for by any applicable double tax treaty, if any, to interest, premium and other income paid to Covered Bondholders other than those listed above or, even if listed, which failed to comply with the aforementioned requirements and procedures.

Payments made by an Italian resident guarantor

With respect to payments on the Covered Bonds made to certain Italian resident Covered Bondholders by an Italian resident guarantor, in accordance with one interpretation of Italian tax law, any payment of liabilities equal to interest and other proceeds from the Covered Bonds may be subject to a provisional withholding tax at a rate of 26 per cent. pursuant to Presidential Decree No. 600 of 29 September 1973, as subsequently amended. In case of payments to non-Italian resident Covered Bondholders, the withholding tax may be applied at 26 per cent. as a final tax.

Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax.

In accordance with another interpretation, any such payment made by the Italian resident guarantor will be treated, in certain circumstances, as a payment by the relevant Issuer and will thus be subject to the tax regime described in the previous paragraphs of this section.

Atypical Securities

Interest payments relating to Covered Bonds that are not deemed to be bonds (*obbligazioni*), debentures similar to bonds (*titoli similari alle obbligazioni*), shares or securities similar to shares pursuant to Article 44 of Presidential Decree No. 917 of 22 December 1986 may be subject to a withholding tax, levied at the rate of 26 per cent. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity or redemption, an amount not lower than their nominal value with or without the payment of periodic interest, and do not give any right to directly or indirectly participate in the management of the issuer or to the business in connection to which the securities were issued, nor to control the same.

Subject to certain conditions, interest in respect of Covered Bonds issued by Intesa Sanpaolo that do not qualify as *obbligazioni* or *titoli similari alle obbligazioni* and are treated as atypical securities received by Italian resident individuals holding the Covered Bonds not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Covered Bonds are included in a long-term individual

savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

Where the Covered Bondholder is (a) an Italian individual engaged in an entrepreneurial activity to which the Covered Bonds are connected, (b) an Italian company or a similar Italian commercial entity, (c) a permanent establishment in Italy of a foreign entity to which the Covered Bonds are connected, (d) an Italian commercial partnership or (e) an Italian commercial private or public institution, such withholding tax is a provisional withholding tax. In all other cases, including when the Covered Bondholder is a non-Italian resident, the withholding tax is a final withholding tax. For non-Italian resident Covered Bondholders, the withholding tax rate may be reduced by any applicable tax treaty.

Capital gains tax

Italian resident Covered Bondholders

Any gain obtained from the sale, early redemption or redemption of the Covered Bonds would be treated as part of the taxable income (and, in certain circumstances, depending on the “status” of the Covered Bondholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Covered Bonds are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Covered Bonds are connected.

Where an Italian resident Covered Bondholder is (i) an individual holding the Covered Bonds not in connection with an entrepreneurial activity, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, any capital gain realised by such Covered Bondholder from the sale early redemption or redemption of the Covered Bonds would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for taxation of capital gains realised by Italian resident Covered Bondholders under (i) to (iii) above, the *imposta sostitutiva* on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any incurred capital loss, realised by investors pursuant to all sales, early redemption or redemptions of the Covered Bonds carried out during any given tax year. Italian Covered Bondholders under (i) to (iii) above must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident Covered Bondholders under (i) to (iii) above may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale, early redemption or redemption of the Covered Bonds (the *risparmio amministrato* regime provided for by Article 6 of the Legislative Decree No. 461 of 21 November 1997, as a subsequently amended, the **Decree 461**). Such separate taxation of capital gains is allowed subject to (a) the Covered Bonds being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (b) an express and valid election for the *risparmio amministrato* regime being punctually made in writing by the relevant Covered Bondholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale, early redemption or redemption of the Covered Bonds (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the Covered Bondholder, deducting a corresponding amount from the proceeds to be credited to the Covered Bondholder or using funds provided by the Covered Bondholder for this purpose. Under the *risparmio amministrato* regime, where a sale, early redemption or redemption of the Covered Bonds results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Covered Bondholder is not required to declare the capital gains in the annual income tax return.

Any capital gains realised or accrued by Italian resident Covered Bondholders under (i) to (iii) above who have entrusted the management of their financial assets, including the Covered Bonds, to an authorised intermediary and have validly opted for the so-called *risparmio gestito* regime (regime provided by Article 7 of Decree 461) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under this *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Covered Bondholder is not required to declare the capital gains realised in the annual income tax return.

Any capital gains realised by a Covered Bondholder who is a Fund will be included in the result of the relevant portfolio accrued at the end of the tax period. Such result will not be taxed with the Fund, but subsequent distributions in favour of unitholders or shareholders may be subject to the Collective Investment Fund Tax.

Subject to certain conditions, capital gain in respect of Covered Bonds issued by Intesa Sanpaolo received by Italian resident individuals holding the Covered Bonds not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Covered Bonds are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

Any capital gains realised by a Covered Bondholder who is an Italian real estate fund or a Real Estate SICAF to which the provisions of Decree 351, Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010, and Legislative Decree No. 44 of 4 March 2014, all as amended, as subsequently amended, apply will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the real estate investment fund or the Real Estate SICAF. The income of the real estate investment fund or the Real Estate SICAF is subject to tax, in the hands of the unitholder or shareholder, depending on the status and percentage of participation, or, when earned by the fund, through distribution and/or upon redemption or disposal of the units or shares.

Any capital gains realised by a Covered Bondholder who is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains in respect of Covered Bonds realized upon sale, transfer or redemption by Italian Pension Fund may be excluded from the taxable base of the 20 per cent. substitute tax if the Covered Bonds are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

Non-Italian resident Covered Bondholders

Capital gains realised by non-Italian-resident Covered Bondholders, without a permanent establishment in Italy to which the Covered Bonds are effectively connected, from the sale, early redemption or redemption of Covered Bonds issued by an Italian resident Issuer are not subject to Italian taxation, provided that the Covered Bonds are traded on regulated markets and, in certain cases, subject to the timely filing of a self-declaration form with the Italian Intermediary with which the Covered Bonds are deposited attesting the status of the relevant Covered Bondholder.

Capital gains realised by non-Italian resident Covered Bondholders, without a permanent establishment in Italy to which the Covered Bonds are effectively connected, from the sale, early redemption or redemption of Covered Bonds not traded on regulated markets are not subject to the *imposta sostitutiva*, provided that the Covered Bondholder: (a) qualifies as the beneficial owner of the capital gain and is resident in a country included in the White List; or (b) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (c) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) is an institutional investor which is incorporated in a country included in the White List, even if it does not possess the status of a taxpayer in its own country of incorporation, in any case, to the

extent all the requirements and procedures set forth in Decree No. 239 and in the relevant implementation rules, as subsequently amended, in order to benefit from the exemption from *imposta sostitutiva* are met or complied with in due time, if applicable.

In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Covered Bonds are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale, early redemption or redemption of Covered Bonds are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale, early redemption or redemption of Covered Bonds.

If none of the conditions above are met, capital gains realised by non-Italian resident Covered Bondholders from the sale or redemption of Covered Bonds issued by an Italian resident Issuer are subject to the *imposta sostitutiva* at the current rate of 26 per cent.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006 (**Decree No. 262**), converted into Law No. 286 of 24 November 2006 as subsequently amended, the transfers of any valuable asset (including the Covered Bonds) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent on the value of the inheritance or the gift exceeding € 1,000,000, for each beneficiary;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent inheritance and gift tax on the value of the inheritance or the gift exceeding € 100,000, for each beneficiary; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (a), (b) and (c) on the value exceeding, for each beneficiary, €1,500,000.

Transfer tax

Contracts relating to the transfer of securities are subject to the registration tax as follows: (a) public deeds and notarized deeds are subject to fixed registration tax at rate of €200; (b) private deeds are subject to registration tax only in “case of use” (*caso d’uso*) or upon occurrence of an explicit reference (*enunciazione*) or voluntary registration.

Stamp duty

Pursuant to Article 13 par. 2-ter of Part I of the tariff attached to Presidential Decree No. 642 of 26 October 1972 (**Decree 642**), a proportional stamp duty applies, based on an annual basis, to any periodic reporting communications which may be sent by a financial intermediary to a Covered Bondholder in respect of any Covered Bond which may be deposited with such financial intermediary in Italy.

The stamp duty applies at the rate of 0.2 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – on the face value or redemption value, or in the case the face or redemption values cannot be determined, on the purchase value of the Covered Bond is held. The stamp duty cannot exceed € 14,000 if the Covered Bondholder is not an individual.

The stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that Covered Bonds are held with an Italian-based financial intermediary.

Wealth Tax on securities deposited abroad

According to the provisions set forth by Law Decree No. 201 of 6 December 2011, as amended and supplemented, Italian resident individuals, Italian non-commercial private or public institutions and

Italian non-commercial partnership, holding financial assets – including the Covered Bonds – outside the Italian territory are required to pay in their own annual tax return a wealth tax at the rate of 0.2 per cent. This tax cannot exceed € 14,000 if the taxpayer is not an individual.

This tax is calculated on the market value of the Covered Bonds at the end of the relevant year or – if no market value figure is available – on the nominal value or the redemption or in the case the face or redemption values cannot be determined, on purchase value of such financial assets held outside the Italian territory. The amount of tax due, based on the value indicated by the Covered Bondholder in its own annual tax return, must be paid within the same date in which payment of the balance of the annual individual income tax (**IRPEF**) is due.

Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Financial assets held abroad are excluded from the scope of the Wealth Tax if such assets are administered by Italian financial intermediaries pursuant to an administration agreement. In this case the above mentioned stamp duty provided for by Article 13 of the tariff attached to Decree 642 does apply.

Tax Monitoring Obligations

Italian resident individuals, non-commercial entities, non-commercial partnerships and similar institutions are required to report in their yearly income tax return, according to Law Decree No. 167 of 28 June 1990 converted with amendments by Law No. 227 of 4 August 1990, as amended from time to time, for tax monitoring purposes, the amount of Covered Bonds held abroad during each tax year. The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the actual owner of the instrument.

Furthermore, the above reporting requirement is not required to comply with respect to: (i) Covered Bonds deposited for management with qualified Italian financial intermediaries; (ii) contracts entered into through their intervention, upon condition that the items of income derived from the Covered Bonds have been subject to tax by the same intermediaries; or (iii) if the foreign investments are only composed by deposits and/or bank accounts and their aggregate value does not exceed a €15,000 threshold throughout the year.

Luxembourg Taxation

The following information is a general description of certain Luxembourg withholding tax considerations relating to the Covered Bonds. It does not purport to be a complete analysis of all tax considerations relating to the Covered Bonds, whether in Luxembourg or elsewhere. Prospective purchasers of the Covered Bonds should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and/or disposing of the Covered Bonds and receiving payments of interest, principal and/or other amounts under the Covered Bonds and the consequences of such actions under the tax laws of Luxembourg. This information is based on the laws, regulations and administrative and judicial interpretations presently in force in Luxembourg and is subject to any change in law that may take effect after such date.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Covered Bonds can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg tax laws currently in force and subject however to the application of the

Luxembourg law of 23 December 2005, as amended, (the **Relibi Law**) which has introduced a 20% withholding tax on certain payments of interest made to Luxembourg resident individuals.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Payments of interest under the Covered Bonds coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 20 %.

Responsibility for the withholding of tax in application of the above-mentioned Relibi Law is assumed by the Luxembourg paying agent within the meaning of the Relibi Law and not by the Issuer.

Foreign Account Tax Compliance Act ("FATCA")

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("foreign passthru payments") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes.

A number of jurisdictions, including the Republic of Italy, have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("IGAs"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Covered Bonds, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Covered Bonds, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Covered Bonds, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Covered Bonds characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. However, if additional Covered Bonds (as described under "Terms and Conditions of the Covered Bonds—Further Issues") that are not distinguishable from previously issued Covered Bonds are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Covered Bonds, including the Covered Bonds offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Covered Bonds. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Covered Bonds, no person will be required to pay additional amounts as a result of the withholding.

The proposed financial transactions tax (FTT)

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate and on 16 March 2016 it completed the formalities required to leave the enhanced co-operation on FTT.

The Commission's Proposed has very broad scope and could, if introduced in its current form, apply to certain dealings in Covered Bonds (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Covered Bonds where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Covered Bonds are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

Dealer Agreement

Covered Bonds may be sold from time to time by the Issuer to the Dealers. The arrangements under which Covered Bonds may from time to time be agreed to be sold by the Issuer to, and purchased by, the Dealers are set out in the Dealer Agreement. The Dealer Agreement provides for, *inter alia*, an indemnity to the Dealer against certain liabilities in connection with the offer and sale of the Covered Bonds. The Dealer Agreement also provides for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other dealers either generally in respect of the Programme or in relation to a particular Series. The Dealer Agreement contains, *inter alia*, stabilising provisions. In the Dealer Agreement it is stated that Intesa Sanpaolo may offer and sell the Covered Bonds to or through one or more underwriters, dealers and agents, including Intesa Sanpaolo, or directly to purchasers.

Subscription Agreements

Any Subscription Agreement between the Issuer and the Dealer and/or any additional or other dealers, from time to time, for the sale and purchase of Covered Bonds (each a **Relevant Dealer**) will, *inter alia*, provide for the price at which the relevant Covered Bonds will be subscribed for by the Relevant Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase.

Each Subscription Agreement will also provide for the confirmation of the appointment of the Representative of the Covered Bondholders by the Relevant Dealer as initial holder of the Covered Bonds then being issued.

Selling restrictions

Prohibition of Sales to EEA and UK Retail Investors

Unless the Final Terms (or Drawdown Prospectus, as the case may be) in respect of any Covered Bonds specifies the “Prohibition of Sales to EEA and UK Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Covered Bonds which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms (or are the subject of the offering contemplated by a Drawdown Prospectus) in relation thereto to any retail investor in the European Economic Area or the UK. For the purposes of this provision, the expression retail investor means a person who is one (or more) of the following:

- (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, **MiFID II**); or
- (ii) a customer within the meaning of Directive (UE) 2016/97 (as amended, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II.

If the Final Terms (or Drawdown Prospectus, as the case may be) in respect of any Covered Bonds specifies “Prohibition of Sales to EEA and UK Retail Investors” as “Not Applicable”, in relation to each Member State of the European Economic Area or the UK (each a **Relevant State**), each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not made and will not make an offer of Covered Bonds which are the subject of the offering contemplated by the Base Prospectus as completed by the Final Terms (or are the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) in relation thereto to the public in that Member State except that it may make an offer of such Covered Bonds to the public in that Relevant State:

- (a) Qualified investors: at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;

- (b) Fewer than 150 offerees: at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) Other exempt offers: at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Covered Bonds referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an offer of Covered Bonds to the public in relation to any Covered Bonds in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Covered Bonds to be offered so as to enable an investor to decide to purchase or subscribe the Covered Bonds. .

Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Covered Bonds, an offer or sale of such Covered Bonds within the United States of America by any Dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Dealers transacting with the Issuer

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and their affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in Covered Bonds issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and their affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. In addition, in the ordinary course of their business

activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Covered Bonds issued under the Programme. Any such short positions could adversely affect future trading prices of Covered Bonds issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For avoidance of doubts the term "affiliates" in this paragraph includes also parent companies. Moreover Intesa Sanpaolo S.p.A. will be acting as Issuer, Arranger and Dealer in the context of the Programme.
