(incorporated with limited liability as a "Società a responsabilità limitata" under the laws of the Republic of Italy)

Under the €35,000,000,000 Obbligazioni Bancarie Garantite Programme (the "Programme") described in this prospectus (the "Prospectus"), UniCredit S.p.A. (in its capacity as issuer of the OBG, as defined below, the "Issuer"), subject to compliance with all relevant laws, regulations and directives, may from time to time issue *obbligazioni bancarie garantite* (the "OBG" which term includes, for the avoidance of doubt, Registered OBG, as defined below) guaranteed by UniCredit BpC Mortgage S.r.l. (the "OBG Guarantor") pursuant to Article 7-bis of Italian law No. 130 of 30 April 1999 (*Disposizioni sulla cartolarizzazione dei crediti*), as amended from time to time (the "Law 130") and regulated by the Decree of the Ministry of Economy and Finance of 14 December 2006, No. 310, as amended from time to time (the "MEF Decree") and the supervisory guidelines of the Bank of Italy set out in Title V, Chapter 3 of the "Nuove Disposizioni di Vigilanza Prudenziale per le Banche" (Circolare No. 263 of 27 December 2006), as amended and supplemented from time to time (the "BoI OBG Regulations").

The payment of all amounts due in respect of the OBG will be unconditionally and irrevocably guaranteed by the OBG Guarantor. Recourse against the OBG Guarantor is limited to the Available Funds (both as defined below).

The maximum aggregate nominal amount of OBG from time to time outstanding under the Programme will not at any time exceed €35,000,000,000 (or its equivalent in other currencies calculated as described herein), subject to increase as provided for under the Dealer Agreement.

The OBG issued under the Programme (other than Registered OBG) will have a minimum denomination of €100,000 and integral multiples of €1,000 in excess thereof (or, if the relevant Series of OBG is denominated in a currency other than euro, the equivalent amount in such currency) or such other higher denomination as may be specified in the relevant Final Terms (or its equivalent in another currency as at the date of issue of the relevant Series of OBG).

OBG may be issued in dematerialised form or in registered form also as German law governed registered covered bonds (*Namenschuld verschreibung*) (the "Registered OBG"). The terms and conditions of the relevant Registered OBG (the "Registered OBG Conditions") are not subject to the generally applicable terms and conditions of the OBG contained in the section headed "Terms and Conditions of the OBG" and will specify the terms and conditions (including minimum denomination) applicable to the relevant Registered OBG, which will not be listed. This Prospectus does not relate to the Registered OBG which may be issued by the Issuer under the Programme pursuant to either separate documentation or the documents described in this Prospectus after having made the necessary amendments. **The approval of this Prospectus by the CSSF does not cover any Registered OBG which may be issued by the Issuer.**

The OBG may be issued on a continuing basis to the Dealer(s) appointed under the Programme in respect of the OBG from time to time by the Issuer (each a "Dealer" and together the "Dealers"), the appointment of which may be for a specific issue or on an on-going basis. References in this Prospectus to the "relevant Dealer" shall, in the case of an issue of OBG being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such OBG.

This Prospectus constitutes a base prospectus for the purposes of Article 5.4 of Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003, as amended (which includes the amendments made by Directive 2010/73/EU, to the extent that such amendments have been implemented in the relevant Member State of the European Economic Area) (the "Prospectus Directive") and the relevant implementing measures in the Grand Duchy of Luxembourg. This Prospectus will be available on the Luxembourg Stock Exchange website at www.bourse.lu.

This Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* (the "CSSF"), which is the Luxembourg competent authority for the purposes of the Prospectus Directive and relevant implementing measures in Luxembourg, as a base prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in Luxembourg for the purposes of giving information with regard to the issue of OBG under the Programme during the period of twelve (12) months after the date hereof.

By approving this Prospectus, the CSSF assumes no responsibility as to the economic and financial soundness of the transaction and the quality and solvency of the Issuer in accordance with the provisions of Article 7 (7) of the Luxembourg law on prospectuses for securities.

Application has also been made to the Luxembourg Stock Exchange for the OBG (other than the Registered OBG) issued under the Programme to be admitted during the period of 12 months from the date of this Prospectus to the official list of the Luxembourg Stock Exchange (the "Official List") and to be admitted to trading on the Luxembourg Stock Exchange's regulated market. References in this Prospectus to OBG being "listed" (and all related references) shall mean that such OBG (other than the Registered OBG) have been admitted to the Official List and admitted to trading on the Luxembourg Stock Exchange's regulated market. The Luxembourg Stock Exchange's regulated market is a regulated market for the purposes of Directive 2004/39/EC of the European Parliament and of the Council on markets in financial instruments. However, unlisted OBG may be issued pursuant to the Programme. The relevant Final Terms (as defined below) in respect of the issue of any OBG (other than the Registered OBG) will specify whether or not such OBG will be listed on the Official List and admitted to trading on the Luxembourg Stock Exchange's regulated market (or any other stock exchange).

Each Series or Tranche (both as defined below) of OBG may be issued without the consent of the holders of any outstanding OBG, subject to certain conditions. OBG of different Series may have different terms and conditions, including, without limitation, different maturity dates. Notice of the aggregate nominal amount of OBG, interest (if any) payable in respect of OBG, the issue price of OBG and any other terms and conditions not contained herein which are applicable to each Tranche will be set out in final terms (the "Final Terms") which, with respect to OBG to be listed on the Luxembourg Stock Exchange, will be delivered to the Luxembourg Stock Exchange on or before the date of issue of the OBG of such Series or Tranche.

The OBG will be issued in dematerialised form (*emesse in forma dematerializzata*), will be subject to the generally applicable terms and conditions of the OBG (contained in the section headed "Terms and Conditions of the OBG") and the applicable Final Terms and will be held in such form on behalf of the beneficial owners, until redemption and cancellation thereof, by Monte Titoli S.p.A. with registered office at Piazza degli Affari, 6, 20123 Milan, Italy ("Monte Titoli") for the account of the relevant Monte Titoli Account Holders. The expression "Monte Titoli Account Holders" means any authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli (and includes any Relevant Clearing System which holds account with Monte Titoli or any depository banks appointed by the Relevant Clearing System). The expression "Relevant Clearing Systems" means any of Clearstream Banking, *société anonyme* ("Clearstream, Luxembourg") and Euroclear Bank S.A./N.V. as operator of the Euroclear System ("Euroclear"). The OBG of each Series or Tranche, issued in dematerialised form, will be deposited by the Issuer with Monte Titoli on the relevant Issue Date (as defined herein), will be in bearer form, will be at all times be in book entry form and title to the relevant OBG of each Series or Tranche will be evidenced by book entry in accordance with the provisions of Article 83-bis of Italian legislative decree No. 58 of 24 February 1998, as amended and supplemented (the "Financial Services Act"), and with regulation issued by the Bank of Italy and the *Commissione Nazionale per le Società e la Borsa* ("CONSOB") on 22 February 2008, as subsequently amended. No physical document of title will be issued in respect of the OBG of each Series or Tranche.

Each Series or Tranche of OBG may be assigned, on issue, a rating by one or more of Fitch Ratings Limited ("Fitch"), Moody's Investors Service Limited ("Moody's") and Standard & Poor's Ratings Services, a subsidiary of The McGraw-Hill Companies, Inc. ("S&P") and, together with Fitch and Moody's, the "Rating Agencies", which expression shall include any successor thereof) or may be unrated as specified in the relevant Final Terms. Where a Tranche or Series of OBG is to be rated, such rating will not necessarily be the same as the rating assigned to the OBG already issued. Whether or not a rating in relation to any Tranche or Series of OBG will be treated as having been issued by a credit rating agency established in the European Union and registered under Regulation (EC) No 1060/2009 on credit rating agencies as amended by Regulation (EU) No 513/2011 (the "CRA Regulation") will be disclosed in the relevant Final Terms. The credit ratings included or referred to in this Prospectus have been issued by Fitch, Moody's or S&P, each of which is established in the European Union and registered under the CRA Regulation as set out in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the European Securities and Markets Authority ("ESMA") pursuant to the CRA Regulation (for more information please visit the ESMA webpage <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>). In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation (and such registration has not been withdrawn or suspended). Conditions precedent to the issuance of any Tranche include that S&P confirms (where applicable) that the issuance of such Tranche will not result in a reduction or withdrawal of the then current ratings by S&P of any of the then outstanding Series or Tranches.

A credit rating is not a recommendation to buy, sell or hold OBG and may be subject to revision, suspension or withdrawal by any or all of the Rating Agencies and each rating shall be evaluated independently of any other.

The OBG of each Series or Tranche will mature on the date mentioned in the applicable Final Terms (each a "Maturity Date"). Before the relevant Maturity Date, the OBG of each Series or Tranche will be subject to mandatory and/or optional redemption in whole or in part in certain circumstances (as set out in the Conditions (as defined below)).

Subject to certain exceptions as provided for in Condition 10 (*Taxation*), payments in respect of the OBG to be made by the Issuer will be made without deduction for or on account of withholding taxes imposed by any tax jurisdiction. In the event that any such withholding or deduction is made the Issuer will be required to pay additional amounts to cover the amounts so deducted. In such circumstances and provided that such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the OBG will be redeemable (in whole, but not in part) at the option of the Issuer. See Condition 8(c). The OBG Guarantor will not be liable to pay any additional amount due to taxation reasons in case an Issuer Event of Default (as defined below) has occurred. See "Taxation", below.

Prospective investors should have regard to the factors described under the section headed "Risk Factors" in this Prospectus.

RISK FACTORS

Each of the Issuer and the OBG Guarantor believes that the following factors may affect their ability to fulfil their obligations under the OBG issued under the Programme. All of these factors are contingencies which may or may not occur and neither the Issuer nor the OBG Guarantor are in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which the Issuer and the OBG Guarantor believe may be material for the purpose of assessing the market risks associated with OBG issued under the Programme are also described below.

Each of the Issuer and the OBG Guarantor believes that the factors described below represent the principal risks inherent in investing in the OBG issued under the Programme, but the inability of the Issuer or the OBG Guarantor to pay interest, principal or other amounts on or in connection with any OBG may occur for other unknown reasons and neither the Issuer nor the OBG Guarantor represents that the risks of holding any OBG are exhaustive. Prospective investors should also read the detailed information set out elsewhere in the Prospectus (including any document incorporated by reference) and reach their own views prior to making any investment decision.

1. Factors that may affect the Issuer's ability to fulfil its obligations under or in connection with the OBG issued under the Programme

Risks concerning liquidity which could affect the UniCredit Group's ability to meet its financial obligations as they fall due

The UniCredit Group (as defined below in the section headed “*Description of the Issuer*” below) is subject to liquidity risk, which can be split between funding liquidity risk and market liquidity risk. Funding liquidity risk is the risk that the bank will be unable to meet its obligations, including funding commitments and deposit withdrawals, as they fall due. In this context, the procurement of liquidity for business activities and the ability to access long-term financing are necessary to enable the Group to meet its payment obligations in cash, scheduled or unscheduled, and avoid prejudice to its current activities and financial situation.

The global financial crisis and resulting financial instability have significantly reduced the levels and availability of liquidity provided by private placements which led to a significant intervention of government guaranteed bonds that have been pledged with the European Central Bank to access open market operations.

The perception of banking industry riskiness remained high even though reduced interbank lending implies a lower funding liquidity risk. It should be noted that market speculative behaviour, in particular towards peripheral countries, has been successfully dealt with by government intervention. Should this government support vanish, the Group would be forced to rely on higher recourse to the wholesale market, which seems to be feasible in case of a normalisation of the macroeconomic conditions. Also retail customers are expected to benefit from a more stable liquidity context. Indeed retail customers are interwoven with the banking system, since they invest in network bonds as well as place the deposits and other funding sources which grew significantly in the last period.

In this context, the Group has announced, as part of its Strategic Plan (as defined below), its intention to decrease the proportion of wholesale funding in favour of retail funding. However, reduced customer confidence could result in the Group's inability to access retail funding and to increased deposit outflows, which in turn could further limit the Group's ability to fund its operations and meet its minimum liquidity requirements. This strategy is in line with the expected requirements of the Basel Committee which favours banks to leverage on more stable funding sources such as core-retail.

UniCredit also borrows from the European Central Bank (the "ECB"). Thus, any adverse change to the ECB's lending policy, including changes to collateral requirements (particularly those with retroactive effect), or any changes to the funding requirements set by the ECB, could significantly affect the Group's results of operations, business and financial condition.

In terms of market liquidity, the effects of the immediate liquidity of the assets held as cash reserves should be considered. Sudden changes in market conditions (interest rates and creditworthiness in particular) can impact significantly on the time to sell even for high quality assets such as government bonds. "Size effects" play an important role for the Group as it is likely that a liquidation of significant amounts of assets, even if high quality ones, would affect the overall market conditions. Additionally possible ratings downgrades and the resulting effects on the securities value as well as the consequent difficulty in ensuring immediate liquidity in unfavourable economic conditions could also affect the Group's ability to meet its financial obligations as they fall due.

Finally, it must be noted that the Group, in the management of short-term liquidity, adopted metrics that preserve its stability over a period of three months, while maintaining adequate liquidity reserves in terms of eligible and marketable securities. As defined in the Strategic Plan, the Group expects to achieve the objectives of compliance with the liquidity indicators that are going to be defined by Basel III regulations (i.e. Liquidity Coverage Ratio and Net Stable Funding Ratio) by 2015. The observation period related to the application of the rules, was delayed by one year, from 2013 to 2014, subject to the entry into force of the first part of the legislation in 2015, with a gradual phase-in which will be completed in 2019 (when the Liquidity Coverage Ratio requirement will be 100%).

The UniCredit Group's results of operations, business and financial condition have been and will continue to be affected by adverse macroeconomic and market conditions

The Group's performance is influenced by the financial markets conditions and the macroeconomic situations of the countries in which it operates. In recent years, the global financial system has been subject to considerable turmoil and uncertainty and, as at the date of this Prospectus, the short and medium term outlook for the global economy remains uncertain.

The repricing of sovereign risk following the recent crisis has contributed to keep volatility and uncertainty high, weighing negatively on the global financial system.

High uncertainty and risk aversion have led to significant distortions in global financial markets, including critically low levels of liquidity and availability of financing (resulting in high funding costs), historically high credit spreads, volatile capital markets and declining asset prices. In

addition, the international banking system has been imperilled with unprecedented issues, which have led to sharp reductions in and, in some cases, the suspension of, interbank lending.

The businesses of many leading commercial banks, investment banks and insurance companies have been subject to significant pressure. Some of these institutions have failed or have become insolvent, have been integrated with other financial institutions, or have required capital injections from governmental authorities and supranational organisations. Additional adverse effects of the global financial crisis include the deterioration of loan portfolios, decreasing consumer confidence towards financial institutions, high levels of unemployment and a general decline in the demand for financial services.

Furthermore, the uncertain economic outlook in the countries in which the Group operates has had, and could continue to have, adverse effects on its operations, financing costs, share price and the value of its assets and has led to, and could continue to lead to, additional costs relating to devaluations and decreases in asset value.

All of the above could be further impacted by policy measures affecting the currencies of countries where the Group operates as well as by political instability in such countries and/or the inability of the governments thereof to take prompt action to confront the financial crisis.

The European sovereign debt crisis has adversely affected, and may continue to, adversely affect the Group's results of operations, business and financial condition

The sovereign debt crisis has raised concerns about the long-term sustainability of the European Monetary Union. In the last years, Greece, Ireland and Portugal have requested financial aid from European authorities and from the International Monetary Fund (the "IMF") and are currently pursuing an ambitious programme of reforms. Cyprus has also requested financial help. In March 2012, Greece has restructured its debt after inserting retroactively the so-called "Collective Action Clauses". The decision represented a credit event and has triggered credit default swaps (CDS). While the risk of a sharp upward repricing in sovereign credit spreads has significantly diminished after the ECB launched the "Outright Monetary Transactions" (OMT), it has not completely faded.

Persistent market tensions might affect negatively the funding costs and economic outlook of some euro member countries. This, together with the risk that some countries (even if not very significant in terms of gross domestic product ("GDP")) might leave the euro area, would have a material and negative impact on the Group and/or on the Group's clients, with negative implications for the Group's business, results and financial position.

Lingering market tensions might affect negatively the global economy and hamper the recovery of the euro area. Moreover, the tightening fiscal policy by some countries might weigh on households disposable income and on corporate profits with negative implications for the Group's business, results and financial position. This trend will likely continue in the coming quarters.

Any deterioration of the Italian economy would have a material adverse effect on the Group's business, in light of the Group's significant exposure to the Italian economy. In addition, if any of the countries in which the Group operates witnessed a significant deterioration in economic activity,

the Group's results of operations, business and financial condition would be materially and adversely affected.

The ECB's unconventional monetary policy (including a security market programme, the provision of liquidity via "Longer Term Refinancing Operations" (*LTRO*) with full allotment and the OMT) has contributed to ease tensions, limiting the refinancing risk for the banking system and leading to a tightening of credit spreads. The possibility that the ECB could halt or reconsider the current set up of unconventional measures would impact negatively the value of sovereign debt instruments. This would have a materially negative impact on the Group's business, results and financial position.

Despite several initiatives of supranational organisations to deal with the heightened sovereign debt crisis in the euro area, global markets remain characterised by high volatility. Any further acceleration of the European sovereign debt crisis could likely significantly affect, among other things, the recoverability and quality of the sovereign debt securities held by the Group as well as the financial resources of the Group's clients holding similar securities. The occurrence of any of the above events could have a material adverse effect on the Group's business, results and financial condition.

More recently, geopolitical tensions related to the developments in Crimea have resurfaced. These tensions have already created volatility in the CEE region and are expected to weigh negatively on economic developments in the region. An escalation of these tensions would likely boost demand for safe assets, creating volatility in the level of credit risk premia in Europe – especially in the periphery.

The Group has exposure to European sovereign debt

With reference to the Group's sovereign exposures¹, the book value of sovereign debt securities as at 30 September 2013 amounted to €102,121 million, of which about 90 per cent. was concentrated in eight countries of which: Italy, with €45,814 million, represents about 45 per cent. of the total; Germany €23,291 million (23 per cent.); Poland €8,099 million (8 per cent.); Austria €6,172 million (6 per cent.); Turkey² €2,733 million (3 per cent.); Czech Republic €2,651 million (3 per cent.); Hungary €1,861 million (2 per cent.) and Romania €1,092 (1 per cent.). The remaining 10 per cent. of the total of sovereign debt securities, amounting to €10,408 million with reference to the book values as at 30 September 2013 is divided into 64 countries, among which Spain (€403 million), Slovenia (€194 million), the United States (€97 million), Ireland (€52 million), and Portugal (€30 million). The sovereign debt securities exposures towards Cyprus and Greece are immaterial. These exposures were not subject to impairment as at 30 September 2013. In addition to the exposures to sovereign debt securities, loans³ given to central and local governments and governmental bodies must be taken into account. The total amount as at 30 September 2013 of loans given to countries towards which the overall exposure exceeds €150 million amounted to €25,757 million, representing more

than 96 per cent. of the total: Germany €8,032 million (of which €873 million represented by financial assets held-for-trading or at fair value through P&L); Italy €6,565; Austria €5,387 million (of which €222 million represented by financial assets held-for-trading or at fair value through P&L); Croatia €2,609 million; Poland €1,553 million, and others.

The book value of sovereign debt securities as at 30 June 2013 amounted to €106,052 million, of which about 90 per cent. concentrated in eight countries of which: Italy, with €49,272 million, represents over 46 per cent. of the total; Germany €23,258 million (22 per cent.); Poland €8,351 million (8 per cent.); Austria €6,184 million (6 per cent.); Turkey⁴ €2,962 million (3 per cent.); Czech Republic €2,374 million (2 per cent.); Hungary €1,759 million (2 per cent.) and Romania €1,116 (1 per cent.). The remaining 10 per cent. of the total of sovereign debt securities, amounting to €10,777 million with reference to the book values as at 30 June 2013 is divided into 45 countries, among which Spain (€379 million), Slovenia (€191 million), the United States (€142 million), Ireland (€52 million), and Portugal (€30 million). As at 30 June 2013, the sovereign debt securities exposure to Greece is immaterial; with respect to these exposure, as at 30 June 2013, there were no indications that impairment may have occurred.

In addition to the exposures to sovereign debt securities, loans⁵ given to central and local governments and governmental bodies must be taken into account. The total amount as at 30 June 2013 of loans given to countries towards which the overall exposure exceeds €150 million amounted to €27,155 million, representing more than 96 per cent. of the total: Germany €8,330 million (of which €976 million represented by financial assets held-for-trading or at fair value through P&L); Italy €7,502 million; Austria €5,725 million (of which €227 million represented by financial assets held-for-trading or at fair value through P&L); Croatia €2,665 million; Poland €1,505 million, and others.

Lastly, it should be noted that derivatives are traded within the ISDA master agreement and accompanied by Credit Support Annexes, which provide for the use of cash collaterals or low-risk eligible securities.

Financial regulators have requested that UniCredit Group companies reduce their credit exposure to other UniCredit Group entities, particularly their upstream exposure to UniCredit, which could have a material adverse effect on the way in which the UniCredit Group funds its operations and provides liquidity to members of the Group.

In common with other multi-jurisdictional banking groups, the UniCredit Group companies have historically provided funding to other members of the Group, resulting in the transfer of excess cash liquidity from one member of the Group to another. In the past, one of the largest such outstanding exposures was from UniCredit Bank AG (“UCB AG”) to UniCredit, although UCB AG also has exposures to other UniCredit Group members. In addition, as the UniCredit Group’s investment banking activities are centralised within UCB AG, significant non-cash intra-group credit exposures exist on a day-to-day basis between UCB AG and other Group members resulting from, among other things, UCB AG acting as an intermediary between such

Group members, on the one hand, and external counterparties, on the other hand, in connection with various financial risk hedging transactions. Due to the nature of this business, the intra-group credit exposure of UCB AG is volatile and can change significantly on a daily basis.

As a result of the on-going global financial crisis, banking regulators in many of the jurisdictions in which the Group operates have sought, and continue to seek, to reduce the exposure of banks operating within their jurisdictions to other affiliated banks operating in jurisdictions over which they have no legal and/or regulatory control. This could have a material adverse effect on the way in which the UniCredit Group funds its operations and provides liquidity to members of the Group. Accordingly, the Group begun an active improvement of regional self-sufficiency aimed mainly at improving the funding gap.

Furthermore, under applicable German regulations, credit institutions may be exempted from including intra-group exposures in their overall limit for large exposures if certain conditions are met. UCB AG relies on this exemption with respect to the intra-group exposures described above. The recent adoption of the CRR and its local implementation may modify the existing exemption. If this would be the case, UCB AG may need to either reduce or balance its risk-weighted assets by allocating additional qualifying regulatory capital to remain in compliance with its statutory minimum solvency ratio, as well as the higher ratio it has agreed with the *Bundesanstalt für Finanzdienstleistungsaufsicht* (the German Federal Financial Supervisory Authority, “**BaFin**”) to maintain.

In Germany, as a result of the level of UCB AG’s intra-group cash and non-cash exposures and consequent discussions between UniCredit, UCB AG and BaFin, UniCredit and UCB AG have undertaken to reduce UCB AG’s net intra-group exposure to the UniCredit Group, including through the use of collateral, based on on-going discussions with BaFin and the Bank of Italy.

The exposure of UCB AG towards UniCredit Group is expected to reduce further as a consequence of the maturing intercompany financing deals that will not be renewed fully. The adoption of a self-sufficiency principle by Group sub-holdings led to the adoption of strict policy in terms of funding gap control and reduction, not only in Italy but in all subsidiaries.

Systemic risk could adversely affect the Group’s business

In light of the relatively reduced liquidity and relatively high funding costs that have prevailed in the interbank lending market since the onset of the global financial crisis, the Group is exposed to the risk that the financial viability (actual or perceived) of the financial institutions with whom, and the countries in which, it carries out its activities could deteriorate. The Group routinely executes a high volume of transactions with numerous counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks and other institutional clients. Financial services institutions that transact with each other are interrelated as a result of trading, investment, clearing, counterparty and other relationships; concerns about the stability of anyone or more of these institutions or the countries in which they operate could lead to significant constraints on the availability of liquidity (including completely frozen interbank funding markets), losses or other institutional failures. In addition, should one of the counterparties of a certain financial institution suffer losses due to the actual or perceived threat of default of a sovereign country, that counterparty may be unable to satisfy its obligations to the above financial institution. The above

risks, commonly referred to as “systemic” risks, could adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges, with whom the Group interacts on a daily basis, which in turn could adversely affect the Group’s ability to raise new funding. The occurrence of any “systemic” risks could adversely affect the Group’s results of operations, business and financial condition.

In addition, in many of the countries in which the Group operates, it is required to participate in deposit guarantee and investor protection schemes. As a result, the insolvency of one or more of the participants in these schemes could result in UniCredit, or one of its banking subsidiaries’, obligation to settle guaranteed customer claims against such insolvent participant(s) or to pay increased or additional contributions, which could materially adversely affect the Group’s results of operations, business and financial condition.

Risks connected to an economic slowdown and volatility of the financial markets – credit risk

The Group is exposed to potential losses linked to credit risk, in connection with the granting of financing, commitments, credit letters, derivative instruments, currency transactions and other kinds of transactions. Credit risk typically resides in the assets of the banking book (loans and bonds held to maturity). The risk for banks in issuing loans is that the borrowers will not repay the amount that is owed in the time and in accordance with the terms specified by the loan agreement. If a substantial number of customers were to default on their loans, this could have an adverse effect on the Group.

The loss could be complete or partial and could arise in a number of circumstances, e.g.: failure to make a payment due by a consumer or a business on a mortgage loan, credit card, line of credit or other loan; with reference to the Group’s sovereign exposure, a loss could occur when a government becomes unwilling or unable to meet its loan obligations.

Any deterioration of a borrower’s creditworthiness and financial standing, or of the performance of loans and other receivables, as well as any wrong assessment of creditworthiness or country risks may have an adverse effect on the Group’s business, financial condition and results of operations, since these assets must be written off (in whole or in part).

Credit risk is present in both the traditional on-balance sheet uncollateralised and collateralised lending business and off-balance sheet business, for example when extending credit by means of a bank guarantee.

Credit risks have historically been aggravated during periods of economic downturn or stagnation, which are typically characterised by higher rates of insolvencies and defaults.

The banking and financial markets in which the Group operates have been hit by an unprecedented economic crisis, since 2007, which has seriously affected the economic growth, the fiscal and monetary policies, the market liquidity, the capital market’s expectations and subsequently the consumers’ behaviour in terms of investments and savings. The demand for financial products in traditional lending operations decreased and could further lessen if the economic downturn continues in the next months. This situation has impacted negatively the solvency of mortgage debtors and, in general, all Group’s borrowers and their overall financial condition. As a

consequence of that situation, the level of insolvent clients compared to outstanding loans and obligations has increased, impacting on the levels of credit risk.

As part of their respective businesses, entities of the Group operate in countries (emerging markets) with a generally higher country risk profile than in their respective home markets, often directly holding assets located in these countries. However, the financial crisis and economic recession, and policymakers' responses to these events, have raised sovereign risk concerns also in a number of advanced economies. This has increased the cost and reduced the stability of funding for banks. It has also meant that decisions about maturity of government debt have become important to the dynamics of systemic financial distress.

The Group's future earnings could also be adversely affected by depressed asset valuations resulting from a deterioration of market conditions in any of the markets in which the Group companies operate. As a result, volumes, revenues and net profits in banking and financial services business could be significantly volatile over time.

The Group monitors credit quality, manages specific risk of each counterparty and assesses the overall risk of the respective loan portfolios, and it will continue to do so. However, the market volatility and the prolonged economic slowdown can negatively affect the Group risk management ability to keep the Group's exposure to credit risk at acceptable levels.

In addition, protracted or steep declines in the stock or bond markets in Italy and elsewhere may have an adverse impact on the Group's investment banking, securities trading and brokerage activities, the Group's asset management and private banking services, as well as the Group's investments and sales of products linked to financial assets performance.

Deteriorating asset valuations resulting from poor market conditions may adversely affect the Group's future earnings

The global economic slowdown and economic crisis in certain countries of the Euro-zone have exerted, and may exert downward pressure on asset prices, which has an impact on the credit quality of the Group's customers and counterparties. This may cause the Group to incur losses or to experience reductions in business activity, increases in non-performing loans, decreased asset values, additional write-downs and impairment charges, resulting in significant changes in the fair values of the Group's exposures.

A substantial portion of the Group's loans to corporate and individual borrowers are secured by collateral such as real estate, securities, ships, term deposits and receivables. In particular, as mortgage loans are one of the Group's principal assets, it is highly exposed to developments in real estate markets.

A general deterioration in economic conditions in the countries in which the Group operates, in any industry in which its borrowers operate or in other markets in which the collateral is located, may result in decreases in the value of collateral securing the loans to levels below the outstanding principal balance on such loans. A decline in the value of collateral securing these loans or the inability to obtain additional collateral may require the Group to reclassify the relevant loans, establish additional provisions for loan losses and increase reserve requirements. In addition, a failure to recover the expected value of collateral in the case of foreclosure may expose the Group

to losses which could have a material adverse effect on its business, financial condition and results of operations. Moreover, an increase in financial market volatility or adverse changes in the liquidity of its assets could impair the Group's ability to value certain of its assets and exposures or result in significant changes in the fair values of these assets and exposures, which may be materially different from the current or estimated fair value. Any of these factors could require the Group to recognise write-downs or realise impairment charges, any of which may adversely affect its financial condition and results of operations.

The economic conditions of the geographic markets in which the Group operates have had, and may continue to have, adverse effects on the Group's results of operations, business and financial condition

While the Group operates in many countries, Italy is the primary country in which it operates. Thus, the Group's business is particularly linked to the macroeconomic situation existing in Italy and could be materially adversely affected by any changes thereto. Recently, economic forecasts have suggested considerable uncertainty over the future growth of the Italian economy.

In addition to other factors that may arise in the future, declining or stagnating Italian GDP, rising unemployment and unfavourable conditions in the financial and capital markets in Italy could result in declining consumer confidence and investment in the Italian financial system, increases in the number of impaired loans and/or loan defaults, leading to an overall reduction in demand for the products and services offered by the Group.

Thus, a persistence of adverse economic conditions, political and economic uncertainty and/or a slower economic recovery in Italy compared with other Organisation for Economic Co-operation and Development countries could materially adversely affect the Group's results of operations, business and financial condition.

The Group also has significant operations in several Central and Eastern European countries ("**CEE countries**"), including Poland, Turkey, Russia, Croatia, Czech Republic, Bulgaria and Hungary. Within the CEE countries, the risks and uncertainties to which the UniCredit Group is exposed differ in nature and intensity, and a CEE country's membership in the European Union, or lack thereof, is only one of the key distinguishing factors that must be considered in assessing such risks and uncertainties. In addition, CEE countries, as a whole, have historically been characterised by highly volatile capital markets and exchange rates, a certain degree of political, economic and financial instability, as the most recent set back between Ukraine and Russia also shows. In some cases, CEE countries are characterised by less developed political, financial and judicial systems.

Although the global financial crisis has exacerbated certain of these risks and uncertainties in those CEE countries in which the Group operates, economic recovery in the region has been consolidating over recent years, albeit at varying levels of significance. The timing of full economic recovery in some of the CEE countries remains however uncertain and subject to, among others, developments in Western European economies and the global economy as a whole.

In recent years, with the aim of managing the effects of the global financial crisis, the Group recapitalised certain of its subsidiaries in several CEE countries. These increases of capital have

been made in order to align the financial situation of the Group to the regulatory requirements as well as to the market expectations.

Nevertheless, given the more restrictive regulations than those prevailing at the international level, the Group may need to continue strengthening the equity of and/or transfer an increasing amount of funds to its subsidiaries located in CEE countries, also considering the risk of being exposed to, among other things, regulatory or legal initiatives of local authorities in those countries. In addition, similar to the risks present in all countries in which the Group operates, local authorities in CEE countries could also adopt measures and/or initiatives such as: (a) requiring the waiver or reduction of loan repayment obligations, resulting in a level of risk provisions more significant than would normally apply under Group policies; (b) demanding additional capital; (c) increasing levies on banking activities. The Group may also be required to ensure that its subsidiaries located in CEE countries have greater levels of liquidity, in a context where access to liquidity worldwide may be increasingly difficult to obtain. An increase in loan impairments could be necessary in connection with levels of credit risk estimated by the Group. Furthermore, unfavourable developments in the growth rates of CEE countries compared to historical levels, together with the uncertainties surrounding Western European economies, could adversely affect the Group's achievement of its strategic goals.

Non-traditional banking activities expose the Group to additional credit risks

In addition to traditional banking activities such as lending and deposit-taking, the Group carries out non-traditional banking activities, which may expose the Group to additional credit and/or counterparty risk. Such additional risk may originate, for example, from: executing securities, futures, interest rate, currency or commodity trades that fail to settle in a timely manner due to non-delivery by the counterparty or alternatively due to system failures by clearing agents, exchanges, clearing houses or other financial intermediaries (including the Group); owning securities of third parties; and extending credit through other arrangements.

Parties to these transactions, such as trading counterparties or counterparties issuing securities held by entities of the Group, may default on their obligations due to insolvency, political and economic events, lack of liquidity, operational failure or other reasons. Defaults by counterparties with respect to a significant number of transactions or one or more transactions that involve significant volumes would have a material adverse effect on the Group's results of operations, business and financial condition.

The Group has made a series of significant investments in other companies, including those resulting from the conversion of debt into equity in the context of restructuring processes. Any losses or risks, operational or financial, to which the invested companies may be exposed may restrict the Group's ability to dispose of the above mentioned investments, and may cause considerable reductions in their value, with possible adverse effects to the Group's results of operations, business and financial condition.

In addition, the Group, as a result of executing guarantees and/or signing agreements to restructure debt, holds, and could acquire in the future, control or minority stakes in companies operating in industries other than those in which the Group currently operates, including, for example, real estate, oil, transport and consumer goods. These industries require specific skills in terms of

knowledge and management that are not among those skills currently held by the Group. Nevertheless, in the course of any disposals, the Group may have to deal with such companies. This exposes the Group to the risks inherent in the activities of an individual company or subsidiary and to the risks arising from the inefficient management of such shareholdings, which could have adverse effects on the Group's results of operations, business and financial condition.

Unidentified or unanticipated risks, by their nature, might not be captured in the current Group's risk management policies

Banks belonging to the Group are subject to the risks inherent to banking and financial activities. The Group has structures, processes and human resources aimed at developing risk management policies, procedures and assessment methods for its activities in line with best market practices in the industry.

The Group's Risk Management Division provides strategic direction and defines the risk management policies implemented, locally, by the Group's risk management entities. Some of the methods used to monitor and manage these risks involve observations of historic market conditions and the use of statistical models for identifying, monitoring, controlling and managing risk.

However, these methods and strategies may be inadequate for the monitoring and management of certain risks, such as the risks attached to some complex financial products that are traded on unregulated markets (e.g., OTC derivatives), and, as a result, the Group could suffer greater losses than those contemplated by the methods or suffer losses not previously considered.

In addition, the occurrence of unforeseeable events or of events outside of the historical observation window, which have not been considered by the Risk Management Division and which may affect the performance of the markets in which the Group operates, could adversely affect the Group's results of operations, business and financial condition. These risks, and their effects, may be further aggravated by the complexities of integrating risk management policies into the Group's acquired entities.

At the date of this Prospectus, some of the relevant supervisory authorities are carrying out procedures to validate internal risk measurements that will be used for internal and regulatory purposes by UniCredit and other companies belonging to the Group. These procedures apply to models awaiting initial implementation as well as models already adopted, but for which the Group must demonstrate its maintenance of regulatory requirements.

In order to ensure the integrity and accuracy of the above measurement and risk management models, the Group employs a governance policy that is consistent with current applicable regulations in each of the markets in which it operates (for example, Bank of Italy, Circular No. 263 of 27 December 2006, as amended) as well as with international best practices.

Despite the maintenance and upgrading of these models, it is possible that, after investigation or verification by the supervisory authorities, the Group's internal models might no longer be adequate with respect to risks undertaken, which could adversely affect the Group, particularly with respect to its capital requirements.

Some regulators have conducted audits and/or reviews of risk management and internal control systems, and highlighted concerns (which were also the subject of additional internal and external

audits) about the extent to which such systems are fully compliant with applicable legal and regulatory requirements. Progress on actions undertaken have been, and will continue to be, regularly reported to the relevant regulators.

Nevertheless, even if UniCredit plans, system improvements and robust monitoring process are acknowledged by the relevant regulators, there can be no assurance that the actions taken, and planned to be taken, by UniCredit will be fully satisfactory to the relevant regulators that have oversight of these matters. While UniCredit will address all the material concerns raised, there is a risk that the relevant regulators could take additional measures against UniCredit and its management, including issuing fines, imposing limitations on the conduct, outsourcing or the expansion of certain business activities.

Fluctuations in interest and exchange rates may affect the Group's results

Fluctuations in interest rates in Europe and in the other markets in which the Group operates may influence the Group's performance. The results of the Group's banking operations are affected, inter alia, by the Group's management of interest rate sensitivity. Interest rate sensitivity refers to the relationship between changes in market interest rates and changes in net interest income. A mismatch of interest-earning assets and interest-bearing liabilities in any given period, which tends to accompany changes in interest rates, may have a material effect on the Group's financial condition and results of operations.

The interest rate risk position estimates include assumptions for assets and liabilities that do not have a well-defined maturity. Examples are listed below:

- sight and savings accounts: maturity assumptions are in place as these amounts are to some extent assumed to be irresponsive to movements in the interest rates. For these maturity assumptions several considerations are taken into account including: the volatility of sight item volume, as well as the observed and perceived correlation between market and client rates. Both statistical as well as qualitative evidence is taken into account in order to evaluate which hedge maturity profile would best eliminate the potential interest rate risk arising from the sight items. The maturity mapping aims to obtain a replicating profile that would minimise the margin volatility.
- residential real estate mortgages: the model estimates the future volumes of redemptions on an ongoing basis, in order to limit the risk that the bank is not appropriately hedged for the interest rate risk resulting from the outstanding fixed interest rate mortgages. The assumptions on early loan repayments are based on historical data as well as a qualitative assessment.

The relevance and the approach to capture this event varies per region.

Rising interest rates along the yield curve can increase the cost of the Group's borrowed funds faster and at a higher rate than the yield on its assets, due to, for example, a mismatch in the maturities of its assets and liabilities that are sensitive to interest rate changes or a mismatch in the degree of interest rate sensitivity of assets and liabilities with similar maturities. At the same time, decreasing interest rates can also reduce the yield on the Group's assets at a rate which may not correspond to the decrease in the cost of funding.

Furthermore, a significant portion of the UniCredit Group's operations, mainly capital investments, are conducted in currencies other than the Euro, principally the Polish Zloty, the Turkish Lira, the U.S. Dollar, the Swiss Franc and the Japanese Yen. Unfavourable movements in foreign exchange rates could, therefore, influence the Group's results of operations, business, financial condition and prospects. As a result, the Group is exposed to foreign currency exchange rates and foreign currency transaction risks.

The Group's consolidated financial statements (including its interim financial statements) are prepared in Euro and carry out the necessary currency translations in accordance with applicable international accounting standards.

The Group employs a hedging policy with respect to the profits and dividends of its subsidiaries operating outside the Euro area. The Group takes prevailing market conditions into account in implementing its hedging policy. Any negative change in exchange rates and/or a hedging policy that is ineffective at covering risk could significantly adversely affect the Group's results of operations, business and financial condition.

Changes in the Italian and European regulatory framework could adversely affect the Group's business

The UniCredit Group is subject to extensive regulation and supervision by several bodies in all jurisdictions in which it operates, including the Bank of Italy (which is also responsible for supervision at a consolidated level), CONSON, BaFin, PFSA, ESMA, IFRIC and the FMA. The rules applicable to banks and other entities in banking groups are mainly provided by implementation of measures consistent with the regulatory framework set out by the Basel Committee on Banking Supervision ("BCBS") and aim at preserving their stability and solidity and limiting their risk exposure. The UniCredit Group is also subject to regulations applicable to financial services that govern, among other things, the sale, placement and marketing of financial instruments as well as to those applicable to its bank-assurance activities. In particular, the UniCredit Group is subject to the supervision of CONSOB and the Institute for the Supervision of Private Insurance. The Issuer is also subject to the rules applicable to it as an issuer of shares listed on the Milan, Frankfurt and Warsaw Stock Exchanges.

In accordance with the regulatory frameworks defined by the supervisory authorities mentioned above and consistent with the regulatory framework being implemented at the European Union, the UniCredit Group has in place specific procedures and internal policies to monitor, among other things, liquidity levels and capital adequacy, the prevention and contrast of money laundering, privacy protection, transparency and fairness in customer relations and registration and reporting obligations. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the UniCredit Group's results of operations, business and financial condition. In addition, as at the date of this Prospectus, certain laws and regulations have only been recently approved and the relevant implementation procedures are still in the process of being developed.

The various regulatory requests may affect the activities of the UniCredit Group, including its ability to grant loans, or result in the need for further capital injections in order to meet capital requirements as well as require other sources of funding to satisfy liquidity requirements, which

could result in adverse effects to the UniCredit Group's results of operations, business, assets, cash flows and financial condition, the products and services offered by the UniCredit Group as well as the UniCredit Group's ability to pay dividends.

In carrying out its activities, the UniCredit Group is subject to numerous regulations of general application such as those concerning taxation, social security, pensions, occupational safety and privacy. Any changes to these laws and regulations and/or changes in their interpretation and/or their application by the supervisory authorities could adversely affect the UniCredit Group's results of operations, business and financial condition.

Basel III and CRD IV

In the wake of the global financial crisis that began in 2008, the BCBS approved, in the fourth quarter of 2010, revised global regulatory standards ("**Basel III**") on bank capital adequacy and liquidity, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. The Basel III framework adopts a gradual approach, with the requirements to be implemented over time, with full enforcement in 2019. Minimum common equity tier 1 ("**CET1**") will be increased from broadly 2% of risk-weighted assets to 7.0%. The 7.0% includes a "capital conservation buffer" of 2.5% to ensure that banks maintain a buffer of capital that can be used to absorb losses during periods of financial and economic stress. An additional "countercyclical buffer requirement" of 0-2.5% will be implemented according to national circumstances. The countercyclical buffer requirement will apply in periods of excess lending growth in the economy and can vary for each jurisdiction.

In January 2013 the BCBS revised its original proposal in respect of the liquidity requirements in light of concerns raised by the banking industry, providing for a gradual phasing-in of the Liquidity Coverage Ratio (i.e. annual increases of 10%, starting with 60% in 2015 and ending with 100% in 2019), and BCBS expanding the definition of high quality liquid assets to include lower quality corporate securities, equities and residential mortgage backed securities.

In addition, as discussed further below under paragraph headed "*ECB Single Supervisory Mechanism*", if it is still on the list of global systemically important banks ("**G-SIBs**") at November 2014, UniCredit will also be subject to an additional loss absorbency requirement of between 1% and 3.5%, but subject to the phase in period. The additional loss absorbency requirement will be determined according to specific indicators (size, interconnectedness, lack of substitutes for the services provided, global activity and complexity). The G-SIBs capital buffer will be phased-in in parallel with the capital conservation and countercyclical buffers, i.e. between 1 January 2016 and year end 2018, becoming fully effective on 1 January 2019.

The Basel III framework has been implemented in the EU through new banking regulations adopted on 26 June 2013: Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the "**CRD IV Directive**") and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the "**CRD IV Regulation**" and together with the CRD IV Directive, "**CRD IV Package**"). Full implementation began on 1 January 2014, with particular

elements being phased in over a period of time (the requirements will be largely fully effective by 2019 and some minor transitional provisions provide for the phase-in until 2024) but it is possible that in practice implementation under national laws be delayed until after such date.

The Bank of Italy published new supervisory regulations on banks in December 2013 (Circular of the Bank of Italy No. 285 of 17 December 2013 (the “**Circular No. 285**”)) which came into force on 1 January 2014, implementing CRD IV Package, and setting out additional local prudential rules concerning matters not harmonised on EU level. As of January 1, 2014, Italian banks are required to comply with a minimum CET1 Capital ratio of 4.5%, Tier I Capital ratio of 6% and Total Capital Ratio of 8%. These minimum ratios are complemented by the following capital buffers to be met with CET1 Capital:

- *Capital conservation buffer*: set at 2.5% of risk weighted assets and applies to UniCredit from 1 January 2014 pursuant to Title II, Chapter I, Section II of Circular No. 285);
- *Counter-cyclical capital buffer*: is set by the relevant competent authority between 0% - 2.5% (but may be set higher than 2.5% where the competent authority considers that the conditions in the member state justify this), with gradual introduction from 1 January 2016 and applying temporarily in the periods when the relevant national authorities judge the credit growth excessive (pursuant to Article 130 of the CRD IV Directive);
- *Capital buffers for globally systemically important banks*: as mentioned above, the “additional loss absorbency” buffer ranging from 1.0% to 3.5%; to be phased in from 1 January 2016 (Article 131 of the CRD IV Directive); and
- *Capital buffers for systemically important banks at a domestic level*: up to 2.0% as set by the relevant competent authority and must be reviewed at least annually from 1 January 2016), to compensate for the higher risk that such banks represent to the financial system (Article 131 of the CRD IV Directive). The capital buffer for important banks at domestic level belonging to a group which is a global SIFI is limited. This buffer shall not exceed the higher of 1% of the total risk exposure amount and the G-SIFI buffer rate applicable to the group at consolidated level.

In addition to the above listed capital buffers, under Article 133 of the CRD IV Directive each Member State may introduce a Systemic Risk Buffer of Common Equity Tier 1 for the financial sector or one or more subsets of the sector, in order to prevent and mitigate long term non-cyclical systemic or macro-prudential risks with the potential of serious negative consequences to the financial system and the real economy in a specific Member State. Until 2015, in case of buffer rates of more than 3%, Member States will need prior approval from the Commission, which will take into account the assessments of the European Systemic Risk Board (ESRB) and the EBA. From 2015 onwards and for buffer rates between 3 and 5 % the Member States setting the buffer will have to notify the Commission, the EBA, and the ESRB. The Commission will provide an opinion on the measure decided and if this opinion is negative, the Member States will have to "comply or explain". Buffer rates above 5% will need to be authorized by the Commission through an implementing act, taking into account the opinions provided by the ESRB and by the EBA.

Failure to comply with such combined buffer requirements triggers restrictions on distributions and the need for the bank to adopt a capital conservation plan on necessary remedial actions (Articles

140 and 141 of the CRD IV Directive). At this stage no provision is included on the systemic risk buffer under Article 133 of the CRD IV Directive as the Italian level-1 rules for the CRD IV Directive implementation on this point have not yet been enacted.

As part of the CRD IV Package transitional arrangements, regulatory capital recognition of outstanding instruments which qualified as Tier I and Tier II capital instruments under the framework which CRD IV Package has replaced (CRD III) that no longer meet the minimum criteria under CRD IV Package will be gradually phased out. Fixing the base at the nominal amount of such instruments outstanding on 1 January 2013, their recognition is capped at 80% in 2014, with this cap decreasing by 10% in each subsequent year.

The new liquidity requirements introduced under CRD IV Package will also be phased in: the Liquidity coverage ratio, as discussed above, will apply from 1 January 2015 and be gradually phased in and the European Commission intends to develop the net stable funding ratio with the aim of introducing it from 1 January 2018.

CRD IV Package may also introduce a new leverage ratio with the aim of restricting the level of leverage that an institution can take on to ensure that an institution's assets are in line with its capital. Institutions are required to disclose their leverage ratio from 1 January 2015. Full implementation and European harmonisation, however, is not expected until 1 January 2018 following the European Commission's review in 2016 of whether or not the ratio should be introduced. There is therefore uncertainty as to regulatory requirements that UniCredit will be required to comply with.

Forthcoming regulatory changes

In addition to the substantial changes in capital and liquidity requirements introduced by Basel III and CRD IV Package, there are several other initiatives, in various stages of finalisation, which represent additional regulatory pressure over the medium term and will impact the EU's future regulatory direction. These initiatives include, amongst others, a revised Markets in Financial Instruments EU Directive, Markets in Financial Instruments EU Regulation, and the Bank Recovery and Resolution EU Directive (with the bail-in provisions becoming applicable as of 1 January 2016). The Basel committee has also published certain proposed changes to the current securitisation framework which may be accepted and implemented in due course.

ECB Single Supervisory Mechanism

On 15 October 2013, the Council of the European Union adopted regulations establishing a single supervisory mechanism (the “**ECB Single Supervisory Mechanism**”) for eurozone banks and other credit institutions, which will, beginning in November 2014, give the ECB, in conjunction with the national regulatory authorities of the eurozone states, direct supervisory responsibility over “banks of systemic importance” in the eurozone. Banks of systemic importance include, *inter alia*, any eurozone bank that has: (i) assets greater than €30 billion; (ii) assets constituting at least 20% of its home country's gross domestic product; or (iii) requested or received direct public financial assistance from the European Financial Stability Facility or the European Stability Mechanism. The ECB will also have the right to impose pecuniary sanctions and set binding regulatory standards.

Prior to November 2014, the EBA will conduct a series of tests on the financial and liquidity condition of selected banks, including stress tests and asset quality tests, and will ensure that, once the ECB begins exercising its supervisory powers in November 2014, regular stress-tests will continue to be carried out to assess the resilience of European banks. See *“The ECB is in the process of performing a comprehensive assessment of the Issuer and other European banks, the outcome of which is uncertain”*, below.

National regulatory authorities will continue to be responsible for supervisory matters not conferred on the ECB, such as consumer protection, money laundering, payment services, and branches of third country banks. The ECB, on the other hand, will be exclusively responsible for prudential supervision, which includes, inter alia, the power to: (i) authorise and withdraw authorisation from all “banks of systemic importance” in the eurozone; (ii) assess acquisition and disposal of holdings in other banks; (iii) ensure compliance with all prudential requirements laid down in general EU banking rules; (iv) set, where necessary, higher prudential requirements for certain banks to protect financial stability under the conditions provided by EU law; (v) impose robust corporate governance practices and internal capital adequacy assessment controls; and (vi) intervene at the early stages when risks to the viability of a bank exist, in coordination with the relevant resolution authorities.

In order to foster consistency and efficiency of supervisory practices across the eurozone, the EBA is continuing to develop a single supervisory handbook applicable to EU Member States (the “**EBA Rulebook**”). However, the EBA Rulebook has not yet been finalised.

The CRD IV Package contains specific mandates for the EBA to develop draft regulatory or implementing technical standards as well as guidelines and reports related to liquidity in order to enhance regulatory harmonisation in Europe through the Single Rule Book. Specifically, the CRD IV Package tasks the EBA with advising on appropriate uniform definitions of liquid assets for the Liquidity Coverage Ratio buffer. In addition, the CRD IV Package states that the EBA shall report to the Commission on the operational requirements for the holdings of liquid assets. Furthermore the CRD IV Package also tasks the EBA with advising on the impact of the liquidity coverage requirement, on the business and risk profile of institutions established in the European Union, on the stability of financial markets, on the economy and on the stability of the supply of bank lending.

The above topics were addressed by the EBA in two reports published in December 2013: (i) the impact assessment for liquidity coverage requirements and b) appropriate uniform definitions of extremely high quality assets and high quality liquid assets and on operational requirements for liquid assets. These two reports provide specific recommendations to the European Commission for the purpose of the forthcoming delegated act in June 2014. There is therefore some uncertainty as to the final form of these delegated acts. Also, the Basel Committee’s oversight body issued in January 2013 additional contributions to the “Basel III Liquidity Coverage Ratio Agreement and Liquidity Risk Monitoring Tools”, defining, amongst other issues, certain specific aspects in relation to the interaction between the Liquidity Coverage Ratio and the use of the Central Bank Committed Liquidity Facility. In this respect, the proposed quantitative minimum fee on Committed Liquidity Facilities is a point of concern from UniCredit’s perspective.

The ECB is in the process of performing a comprehensive assessment of the Issuer and other European banks, the outcome of which is uncertain

The ECB announced in October 2013 that it would commence a comprehensive assessment, including stress tests and an asset quality review, of certain large European banks, including UniCredit. The findings from this assessment, expected to be published in November 2014, may result in recommendations for additional supervisory measures and corrective actions affecting UniCredit and the banking environment generally. It is not yet possible to assess the impact of such measures, if any, on UniCredit or on the treatment of capital instruments. Furthermore, the disclosure of the ECB's findings or the implementation of additional supervisory measures that are viewed by the market as unfavourable to the Issuer or the OBG could adversely affect the trading price of the OBG.

The UniCredit Group may be subject to the provisions of the EU Recovery and Resolution Directive, once finalised and implemented, in the future

On 18 December 2013, the Council of the European Union published a revised draft of the legislative proposal for a directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the “**Recovery and Resolution Directive**” or “**Draft RRD**”). The final text is expected to be approved by the European Parliament by April 2014. The Draft RRD provides competent authorities with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimise taxpayers' exposure to losses.

Except for the Bail-In Tool with respect to eligible liabilities, which is expected to apply as from 1 January 2016, the Draft RRD contemplates that the measures set out therein, including the Bail-In Tool with respect to capital instruments, will apply as from 1 January 2015.

The powers provided to “resolution authorities” in the Draft RRD include write down/conversion powers to ensure that capital instruments (including Additional Tier 1 Instruments) and eligible liabilities (including senior debt instruments) fully absorb losses at the point of non-viability of the issuing institution (referred to as the “**Bail-In Tool**”). Accordingly, the Draft RRD contemplates that resolution authorities may require the write down of such capital instruments and eligible liabilities in full on a permanent basis, or convert them in full into common equity tier 1 instruments (“**RRD Non-Viability Loss Absorption**”). The Draft RRD provides, inter alia, that resolution authorities shall exercise the write down power in a way that results in (i) common equity tier 1 instruments being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (including Additional Tier 1 Instruments) being written down or converted into common equity tier 1 instruments on a permanent basis and (iii) thereafter, eligible liabilities being written down or converted in accordance with a set order of priority.

The point of non-viability under the Draft RRD is the point at which the national authority determines that:

- (a) the institution is failing or likely to fail, which includes situations where:
 - (i) the institution has incurred/will incur in a near future losses depleting all or substantially all its own funds;

- (ii) the assets are/will be in a near future less than its liabilities;
 - (iii) the institution is/will be in a near future unable to pay its debts or other liabilities when they fall due; and/or
 - (iv) the institution requires public financial support;
- (b) there is no reasonable prospect that a private action would prevent the failure; and
- (c) a resolution action is necessary in the public interest.

The Draft RRD currently represents the official proposal at the EU level for the implementation in the European Union of the non-viability requirements set out in the press release dated 13 January 2011 issued by the Basel Committee on Banking Supervision (the “**Basel Committee**”) entitled “Minimum requirements to ensure loss absorbency at the point of non-viability” (the “**Basel III Non-Viability Requirements**”), which forms a part of the broader Basel III requirements, implemented in the European Union through the CRD IV Package. The CRD IV Regulation contemplates that the Basel III Non Viability Requirements will be implemented in the European Union by way of the Draft RRD and the RRD Non Viability Loss Absorption.

It is currently unclear whether RRD Non-Viability Loss Absorption, when implemented, will apply to capital instruments that are already in issue at that time or whether certain grandfathering rules will apply.

In addition to RRD Non-Viability Loss Absorption, the Draft RRD provides resolution authorities with broader powers to implement other resolution measures with respect to banks which reach non-viability, which may include (without limitation) the sale of the bank’s business, the separation of assets, the replacement or substitution of the bank as obligor in respect of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments) and discontinuing the listing and admission to trading of financial instruments.

The powers currently set out in the draft RRD would impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. However, the proposed directive is not in final form and changes may be made to it in the course of the legislative procedure. As such, it is too early to anticipate the full impact of the draft directive but there can be no assurance that, once it is agreed upon and implemented, OBG Holders will not be adversely affected by actions taken under it. In addition, there can be no assurance that, once the draft RRD is agreed upon and implemented, its application will not have a significant impact on the UniCredit Group’s results of operations, business, assets, cash flows and financial condition, as well as on funding activities carried out by the UniCredit Group and the products and services offered by the UniCredit Group.

The UniCredit Group may be subject to a proposed EU regulation on mandatory separation of certain banking activities

On 29 January 2014, the European Commission adopted a proposal for a new regulation following the recommendations released on 31 October 2012 by the High Level Expert Group (the Liikanen Group) on the mandatory separation of certain banking activities. The proposed regulation contains

new rules to stop the biggest and most complex banks from engaging in the activity of proprietary trading. The new rules would also give supervisors the power to require those banks to separate certain trading activities from their deposit-taking business if the pursuit of such activities compromises financial stability. Alongside this proposal, the Commission has adopted accompanying measures aimed at increasing transparency of certain transactions in the shadow banking sector.

The proposed regulation will apply to European banks that will eventually be designated as global systemically important banks (G-SIBs) or that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets. The banks that meet either one of the aforementioned conditions will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation.

The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018.

Should a mandatory separation be imposed, additional costs at Group level are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits. Due to a relatively limited trading activity, Italian banks could be penalized and put at a relative disadvantage in comparison with their main global and European competitors. As a result, the proposal could lead to the creation of an oligopoly where only the biggest players will be able to support the separation of the trading activities and the costs that will be incurred. An additional layer of complexity, leading to uncertainty, is the high risk of diverging approaches throughout Europe on this issue.

The UniCredit Group may be affected by a proposed EU Financial Transactions Tax

On 14 February 2013 the European Commission published a legislative proposal on a new Financial Transactions Tax (the “FTT”). The proposal followed the Council's authorisation to proceed with the adoption of the FTT through enhanced cooperation, i.e. adoption limited to 11 countries - among which Italy, France, Germany and Austria. Although implementation was originally envisaged for 1 January 2014, the process has been delayed.

Given the concerns voiced by both the financial sector and business associations, it is unclear how the FTT will proceed and when it will be implemented. If adopted, the impact on the ‘real economy’ of the FTT as currently envisaged – especially for corporations – could be severe as many financial transactions are made on behalf of businesses that would bear the additional costs of the tax. For example, a transaction tax would raise the cost of the sale and purchase of corporate bonds in a time where it is widely acknowledged that access to capital markets by corporate issuers has to be incentivised.

Moreover, it is a matter of concern for the UniCredit Group that the proposal does not exempt the transfers of financial instruments within a group. Thus, if a financial instrument is not purchased for a client but only moved within a banking group, each transaction would be subject to taxation. Also, the inclusion of derivatives and repos/lending transactions in the taxation scope clashes with the efficiency of financial markets.

The UniCredit Group may be affected by new accounting standards

Following the entry into force and subsequent application of new accounting standards, regulatory rules and/or the amendment of existing standards and rules (including the ECB's comprehensive assessment of European banks), the UniCredit Group may have to revise the accounting and regulatory treatment of certain outstanding assets and liabilities (eg. deferred tax assets) and transactions (and the related income and expense). This may have potentially negative effects on the estimates contained in the financial plans for future years and may cause the UniCredit Group to have to restate previously published financials.

In this regard, it should be pointed out that new IFRS 10, IFRS 11 and IFRS 12 entered into force on 1 January 2014, while a relevant change is also expected in future periods from the finalisation of IFRS 9:

- IFRS 10 “*Consolidated Financial Statements*”, IFRS 11 “*Joint Arrangements*” and IFRS 12 “*Disclosure of Interests in Other Entities*” govern respectively the definition of “control” and the consolidation of subsidiaries (IFRS10), the definition of “joint venture” (IFRS11) and the information to be provided on the scope of consolidation and on “structured entities” not subject to consolidation (IFRS12). With the new IFRS 11 coming into effect, the equity method of accounting will be adopted for investments currently consolidated proportionately, with no effects on the Group's net equity. As a consequence, this item will be excluded from the total assets of the consolidated financial statements. Neither the Group's total assets nor net equity are expected to be significantly impacted by the determination of the scope of consolidation under the new rules laid down by IFRS 10;
- IFRS 9 is currently being finalised. This new standard will introduce significant changes with regard to classification, measurement, impairment and hedge accounting of instruments, including financial instruments, replacing IAS 39. At the present time, IASB decided that the mandatory effective date of IFRS 9 will be no earlier than 2017, following the IASB's enactment and the endorsement by the European Union.

In October 2013 the ECB and national competent authorities responsible for conducting banking supervision announced a “Comprehensive Assessment of Significant Banks”, in line with the provisions of the regulation on the ECB Single Supervisory Mechanism (see “*ECB Single Supervisory Mechanism*” and “*The ECB is in the process of performing a comprehensive assessment of the Issuer and other European banks, the outcome of which is uncertain*”, above). Accordingly, UniCredit Group will be subject to this assessment, whose first phase in 2014 will be an asset quality review. As a result of this prudential exercise, the Group may have to revise its accounting and regulatory treatment of certain transactions.

At a national level the Italian competent authorities approved new regulations that could adversely affect the business and the profitability of the Group.

Firstly, paragraph 629 of Italian Law 147/2013 (*Legge di Stabilità 2014*) provides that the Interministerial Committee for Credit and Savings (“**ICRC**”) establishes procedures and criteria with reference to the calculation of interest in banking activities.

The procedures have to be compliant with the following conditions:

- it is mandatory, in current account transactions, to have the same calculation frequency in a) the calculation for charging interest and b) the calculation for awarding interest;
- the interest periodically charged, cannot produce further interest: in subsequent accounting periods, interest can be calculated only on the outstanding debt.

Therefore, the aim of the rule is to prohibit accrued interest from producing further interest charges (so-called “interest on interest due”). The bank could be obliged to account separately capital (debt) and accrued interest in order to calculate further interest only on the capital part.

The exact impact of such provision will be determined only when the ICRC releases the resolution, but it is possible that it will affect the possibility to charge “compound interests” (i.e. interest on capital plus interest on accrued interest).

Secondly, Italian Law 5/2014 provided an increase of the corporate tax rate (IRES) for bank and insurance companies. The increase is only temporary, since it applies only for 2014, but it could considerably increase the tax burden of the banks.

Finally the Italian Revenue Agency (*Agenzia delle Entrate*) implemented provisions regarding the new paragraph 4 of Italian Law Decree 167/1990 (as modified by art. 9 par. 1 of European Law 97/2013). According to such provisions all income from investments held abroad and from financial investments is subject to a withholding tax or to a substitute tax of income tax applied by resident investment companies, not only when they are in charge of managing, safekeeping and administration those investments, but also when they intervene in the collection of cash movements or of income from investments held abroad.

The Italian Revenue Agency implemented such provision but, due to the difficulties in the application of the new rules, the effectiveness of the substitute tax has been postponed to 1 July 2014 with Italian Revenue Agency Provision No. 2014/24663 of 19 February 2014.

Operational and IT risks are inherent in the Group's business

The Group's operations are complex and geographically diverse, and require the ability to efficiently and accurately process a large number of transactions while complying with applicable laws and regulations in the countries in which it operates. The Group is exposed to operational risks and losses that can result from, among other things, internal and external fraud, unauthorized activities in the capital markets, inadequate or faulty systems and controls, telecommunications and other equipment failures, data security system failures, errors, omissions or delays of employees, including with respect to the products and services offered, unsuitable Group policies and procedures, including those related to risk management, customer complaints, natural disasters, terrorist attacks, computer viruses and violations of law.

In addition, recent acquisitions and organisational restructuring in Italy, Germany, Austria and Central and Eastern Europe, has led to the integration of the information, internal audit and accounting systems of the companies acquired, some of which were profoundly different from those used by the Group. As of the date of this Prospectus, the Group's commercial banking activities in Italy, Germany and Austria are integrated on the EuroSIG platform.

While the Group actively employs procedures to contain and mitigate operational risk and related adverse effects, the occurrence of certain unforeseeable events, wholly or partly out of the Group's control, could substantially limit their effectiveness. As a result, there can be no assurance that the Group will not suffer future material losses due to the inadequacy or failure of the above procedures. The occurrence of one or more of above risks could adversely affect the Group's results of operations, business and financial position.

Intense competition, especially in the Italian market, where the Group has a substantial part of its businesses, could have a material adverse effect on the Group's results of operations and financial condition

UniCredit and the companies belonging to the UniCredit Group are subject to risks arising from competition in the markets in which they operate, particularly in Italy, Germany, Austria, Poland and the CEE countries.

In particular, the Italian market represents the main market in which the Group operates. As at 30 September 2013, 48.6 per cent. of direct funding and 45.2 per cent. of the revenues of the Group are related to the Italian market.

In general, the international banking and financial services industry is extremely competitive. Competitive pressure could increase as a result of regulatory actions, the behaviour of competitors, consumer demand, technological advances, aggregation processes which involve large groups like the UniCredit Group requiring ever larger economies of scale, the entry of new competitors and other factors not entirely within the Group's control. In addition, the aforementioned aggregation processes could intensify if instability in the financial markets persists. A worsening of the macroeconomic situation may also result in increased competitive pressure due to, for example, increased pressure on prices and lower volumes of activity.

In the event that the Group is not able to respond to increasing competitive pressure through, among other things, providing innovative and profitable products and services to meet the needs of customers, the Group could lose market share in the various sectors in which it is active.

In addition, as a result of such competition, the Group may fail to maintain or increase business volumes and profit levels that have been achieved in the past, resulting in adverse effects on the Group's results of operations, business and financial condition.

Risks connected with failure to implement the Strategic Plan

On 11 March 2014, the Board of Directors of UniCredit approved the 2013-2018 Strategic Plan (the "**Strategic Plan**"), which contains the following actions and objectives:

- The Strategic Plan envisages a separate reporting of the Italian non-core portfolio which includes assets lines defined as not strategic and not in line with Group risk appetite,

managed through a dedicated team and tailored credit process (the “**Non Core Portfolio**”); the Non Core Portfolio consists of approximately €87 billion⁶ in gross loans, including both performing (33 per cent.) and impaired loans (67 per cent.), of which more than 80 per cent. originated before 2009. UniCredit is the first bank in Italy to be fully operative on a segregated portfolio and to provide full transparency on the run-down process on a quarterly basis.

- The Strategic Plan of the core bank business is based on three key pillars:
 1. the multi-channel transformation of commercial bank in western European markets and UniCredit's position as a European leader in corporate banking in order to further enhance non lending business;
 2. a strong focus on growth businesses such as selected CEE regions and capital-light businesses (like Asset Management and Asset Gathering), and
 3. consolidation of leadership position for the Corporate and Investment Banking (CIB) segment and of operational excellence
- Investments spread through the Strategic Plan will drive network restructuring and digitalization in Western Europe, foster growth in CEE and achieve group synergies
- Strict cost control will lead to cost savings on the time horizon of the Strategic Plan, thanks to dedicated initiatives targeting business simplification which include FTEs reductions.

The Strategic Plan is based on a series of estimates and projections relating to the occurrence of future events and actions that will have to be undertaken by the management on the time horizon of the Strategic Plan.

The main projections on which the Strategic Plan is based include those relating to the macroeconomic scenario, which cannot be influenced by the management, as well as hypothetical assumptions relating to the effects of specific actions or concerning future events which can only be partially influenced by the management and which may not happen or may change over the period of time covered in the plan. These circumstances could therefore mean that the actual results achieved may differ considerably from the forecasts, and could have significant repercussions on the Group's prospects.

In light of the uncertainty that characterises not only the projected data, but also the potential effects of the actions and managerial choices of the Group's management based on the Strategic Plan, investors are reminded that they should not make their investment decisions based exclusively on this data.

Risks related to the Goodwill Impairment Test

As communicated in its press release of 11 March 2014, UniCredit booked €9,3 billion of impairment losses (of which € 8.0 billion of goodwill and o €1.3 billion of customer relationships) in the fourth quarter of the 2013 financial year; as a result of these write-downs, the goodwill

⁶ Pro-forma as including Trevi to be consolidated since January 2014

allocated to the Commercial Banking Italy, Commercial Banking Austria and Central Eastern Europe CGUs was written down in its entirety.

The main reasons that have led to the need for a goodwill impairment are related to the Group's new Group Strategic Plan and the underlying macro scenario, which has been reviewed versus the one used in previous impairment test taking into consideration the recent developments of macro and financial KPIs. On top of that also the increase of the Core Tier 1 ratio target to 10 per cent. in 2018, consistently with the Strategic Plan target, has been a key determinant of goodwill impairment.

It must also be emphasised that the parameters and information used to verify the recoverability of goodwill (in particular the expected cash flows for the various cash generating CGU⁷, and the discount rates used) are significantly influenced by the macroeconomic and market situation, which may be subject, to currently unpredictable changes. The effect that these changes may have on the estimated cash flows of the different CGU, as well as on the main assumptions made, could therefore lead to different results in the coming financial years with respect to those reported in UCG consolidated annual report at December 31, 2013; consequently the results of the next sustainability tests on goodwill could show a recoverable amount less than the carrying value and therefore highlight the need to perform a further goodwill impairment.

Ratings

UniCredit is rated by Fitch Italia S.p.A. ("**Fitch**"), by Moody's Italia S.r.l. ("**Moody's**") and by Standard & Poor's Credit Market Services Italy S.r.l. ("**Standard & Poor's**"), each of which is established in the European Union and registered under Regulation (EC) No 1060/2009 on credit rating agencies as amended by Regulation (EU) No 513/2011 (the "**CRA Regulation**") as set out in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the European Securities and Markets Authority pursuant to the CRA Regulation (for more information please visit the ESMA webpage <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>).

In determining the rating assigned to UniCredit, these rating agencies consider and will continue to review various indicators of the Group's performance, UniCredit's profitability and its ability to maintain its consolidated capital ratios within certain target levels. If UniCredit fails to achieve or maintain any or a combination of more than one of the indicators, including if UniCredit is unable to maintain its consolidated capital ratios within certain target levels, this may result in a downgrade of UniCredit's rating by Fitch, Moody's or Standard & Poor's.

Any rating downgrades of UniCredit or other entities of the Group would increase the re-financing costs of the Group and may limit its access to the financial markets and other sources of liquidity, all of which could have a material adverse effect on its business, financial condition and results of operations.

Risks in connection with legal proceedings

⁷ The CGU (Cash Generating Unit) are the Business Segments related to Segment Reporting reported in Integrative Note Section L of UCG Consolidated Report at 30.06.2013 and at 31.12.2013

As at the date of this Prospectus, there are certain legal proceedings pending against UniCredit and other companies belonging to the Group.

In many cases there is significant uncertainty as to the possible outcome of the proceedings and the amount of possible losses. These cases include criminal proceedings and administrative proceedings brought by supervising authorities as well as civil litigation where damages have not been specified (as is the case in the putative class actions in the United States).

To cover liabilities that may arise from pending lawsuits (other than those concerning employment matters, taxes or the recovery of loans), the Group has set aside, as at 30 June 2013, a provision for risks and charges of €1,126 million. An estimated liability is based on information available from time to time, but it is also based on estimates because of the many uncertainties connected to litigation. Therefore, it is possible that provisions may be insufficient to fully deal with the charges, expenses, penalties, damages and other requests relating to pending proceedings, and, therefore the actual costs upon completion of pending proceedings may be significantly higher than previously anticipated. There are also proceedings, some of which have substantial amounts in issue, for which the Group did not consider it necessary to make, or for which the Group was not able to quantify, a provision.

The Group must also comply with various legal and regulatory requirements concerning, among others, conflicts of interest, ethical issues, anti-money laundering, sanctions imposed by the United States or international bodies, privacy rights and information security. In particular, a member of the UniCredit Group is currently responding to a third-party witness subpoena from the New York County District Attorney's Office in connection with an ongoing investigation regarding certain, persons and/or entities believed to have engaged in conduct that violated applicable sanctions promulgated by the US Treasury Department Office of Foreign Assets Control. Failure to comply with these requirements may lead to additional litigation and/or investigations and may subject the Group to claims for damages, fines, penalties as well as subject it to reputational damage.

The Group is involved in pending tax proceedings

At the date of the Prospectus, there are different tax proceedings pending against UniCredit and other companies belonging to the UniCredit Group.

For example, over the past decade, several Group banks have carried out structured finance transactions, including the “DB Vantage” transaction. In connection with such structured finance transactions, UniCredit and several Group banks have been audited or investigated by the Italian Tax Agency (*Agenzia delle Entrate*). Those audits and investigations presented tax and legal risks to the Group. Several of the above audits resulted in the issuance of tax assessment notices to UniCredit and other Group banks, with reference to the fiscal years 2004 and 2005. As regards the fiscal year 2005, UniCredit settled the tax assessment notices for amounts lower than originally assessed, while the fiscal year 2004 was challenged and the related tax proceedings are still pending.

There can be no assurance that UniCredit Group will not be subject to an adverse outcome of one or more of the tax proceedings to which it is subject or may be subject in the future. Such an adverse outcome could have a material adverse effect on the Group's results of operations, business and

financial condition. In addition, should a member of the Group breach or allegedly breach tax legislation in one or more of the countries in which the Group operates, the Group could be exposed to increased tax risks, which in turn could increase the likelihood of further tax litigation and result in reputational damage.

2. Factors that may affect the OBG Guarantor's ability to fulfil its obligations under or in connection with the OBG issued under the Programme

OBG Guarantor only obliged to pay guaranteed amounts when the same are due for Payment

The OBG Guarantor has no obligation to pay any Guaranteed Amounts payable under the OBG Guarantee until service by the Representative of the OBG Holders on the Issuer and the OBG Guarantor of a Notice to Pay.

A Notice to Pay can only be served by the Representative of the OBG Holders if an Issuer Event of Default has occurred. A Guarantor Acceleration Notice can only be served if a Guarantor Event of Default has occurred.

Following service of a Notice to Pay under the terms of the OBG Guarantee (provided that (a) an Issuer Event of Default has occurred and (b) no Guarantor Acceleration Notice has been served), the OBG Guarantor will be obliged to pay any Guaranteed Amounts as and when the same are due for payment. Such payments will be subject to, and will be made in accordance with, the Post-Issuer Event of Default Priority. In these circumstances, other than the Guaranteed Amounts the OBG Guarantor will not be obliged to pay any amount, for example in respect of broken funding indemnities, penalties, premiums, default interest or interest on interest which may accrue on or in respect of the OBG.

Extendable obligations under the OBG Guarantee

If the Extended Maturity Date is applicable to a Series (or Tranche) and if the OBG Guarantor is obliged under the OBG Guarantee to pay any Guaranteed Amounts and has insufficient funds available under the relevant priority of payments to pay such amount on the relevant Maturity Date, then the obligation of the OBG Guarantor to pay such Guaranteed Amounts shall automatically be deferred to the relevant Extended Maturity Date. However, to the extent the OBG Guarantor has sufficient moneys available to pay in part the Guaranteed Amounts in respect of the relevant Series or Tranche of OBG, the OBG Guarantor shall make such partial payment in accordance with the relevant Priority of Payments, as described in Condition 8 (*Redemption and Purchase*) on the relevant Maturity Date and any subsequent Payment Date falling prior to the relevant Extended Maturity Date. Payment of the unpaid amount shall be deferred automatically until the applicable Extended Maturity Date. Interest will continue to accrue and be payable on the unpaid Guaranteed Amount on the basis set out in the applicable Final Terms or, if not set out therein, Condition 8 (*Redemption and Purchase*), *mutatis mutandis*. In these circumstances, except where the OBG Guarantor has failed to apply money in accordance with the relevant Priority of Payments in accordance with Condition 8 (*Redemption and Purchase*), failure by the OBG Guarantor to pay the relevant Guaranteed Amount on the Maturity Date or any subsequent OBG Payment Date falling prior to the Extended Maturity Date (or the relevant later date in case of an applicable grace period) shall not constitute a Guarantor Event of Default. However, failure by the OBG Guarantor to pay

any Guaranteed Amount or the balance thereof, as the case may be, by the relevant Extended Maturity Date and/or pay any other amount due under the OBG Guarantee will (subject to any applicable grace period) constitute a Guarantor Event of Default.

No gross-up for taxes by the OBG Guarantor

Notwithstanding anything to the contrary in this Prospectus, if withholding of, or deduction of any present or future taxes, duties, assessments or charges of whatever nature is imposed by or on behalf of Italy, any authority therein or thereof having power to tax, the OBG Guarantor will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the OBG Holders, as the case may be, and shall not be obliged to pay any additional amounts to the OBG Holders.

Limited resources available to the OBG Guarantor

The obligation of the OBG Guarantor to fulfil its obligation under the OBG Guarantee will be limited recourse to the Available Funds

The OBG Guarantor's ability to meet its obligations under the OBG Guarantee will depend on the realisable value of the Portfolio and of the Eligible Investments (if any), the amount of principal and revenue proceeds generated by the Portfolio and Eligible Investments (if any) and the timing thereof and amounts received from the Hedging Counterparties (if any) and the Account Bank or in accordance with the Transaction Documents. The OBG Guarantor will not have any other source of funds available to meet its obligations under the OBG Guarantee.

The proceeds of the Portfolio, the Eligible Investments (if any), any amount received from the Hedging Counterparties (if any), the Account Bank (as defined below) or in accordance with the Transaction Documents may not be sufficient to meet the claims of all the Secured Creditors, including the OBG Holders. If the Secured Creditors have not received the full amount due to them pursuant to the terms of the Transaction Documents, then they may still have an unsecured claim against the Issuer for the shortfall. There is no guarantee that the Issuer will have sufficient funds to pay that shortfall.

OBG Holders should note that the Amortisation Test - which applies after the occurrence of an Issuer Event of Default - has been structured to ensure that the outstanding nominal amount of the Eligible Portfolio, together with any Eligible Investments (if any), any amount received from the Hedging Counterparties (if any), the Account Bank or in accordance with the Transaction Documents, shall be higher than or equal to the nominal amount of the outstanding OBG, which should reduce the risk of there ever being a shortfall. In addition the MEF Decree and the BoI OBG Regulations provide for certain mandatory tests aimed at ensuring, *inter alia*, that (a) the net present value of the Portfolio (net of certain costs) shall be higher than or equal to the net present value of the OBG; and (b) the amount of interests and other revenues generated by the Portfolio (net of certain costs) shall be higher than the interests and costs due by the Issuer under the OBG (see "*Credit Structure*" below for more details on the Mandatory Tests, the Over-Collateralisation Test and the Amortisation Test).

However there is no assurance that there will not be any shortfall in the amounts available to the OBG Guarantor to meet its obligations under the OBG Guarantee.

Reliance of the OBG Guarantor on third parties

The OBG Guarantor has entered into agreements with a number of third parties, which have agreed to perform services for the OBG Guarantor. In particular, but without limitation, the Servicer has been appointed to service the Portfolio and the Asset Monitor has been appointed to monitor compliance with the Over-Collateralisation Test, the Amortisation Test and the Mandatory Tests. In the event that any of those parties fails to perform its obligations under the relevant agreement to which it is a party, the realisable value of the Portfolio or any part thereof may be affected, or, pending such realisation (if the Portfolio or any part thereof cannot be sold), the ability of the OBG Guarantor to make payments under the OBG Guarantee may be affected. For instance, if the Servicer has failed to adequately administer the Portfolio, this may lead to higher incidences of non-payment.

The ability of the OBG Guarantor to make payments in respect of the OBG, where applicable, will depend upon the due performance by the parties to the Transaction Documents of their respective various obligations under the Transaction Documents to which they are each a party. In particular, without limitation, the punctual payment of amounts due on the OBG will depend on the ability of the Servicer to service the Portfolio, the Hedging Counterparties complying with their obligation under the relevant Swap Agreement and the continued availability of hedging under the relevant Swap Agreement. The performance of such parties of their respective obligations under the relevant Transaction Documents is dependent on the solvency of each relevant party. In each case, the performance by the OBG Guarantor of its obligations under the Transaction Documents is also dependent on the solvency of, *inter alios*, the Servicer and the Hedging Counterparties.

If a Servicer Termination Event (as defined below) occurs the OBG Guarantor, upon indication by the Issuer and subject to the approval in writing of the Representative of the OBG Holders, shall appoint another entity which shall be an eligible entity as successor servicer (the “**Successor Servicer**”) which shall perform the servicing activities required to be performed by the Servicer, in accordance with the terms of the Intercreditor Agreement and of the Servicing Agreement.

Upon the occurrence of a Servicer Termination Event, the obligors under the Portfolio will be instructed to pay all the amounts due in respect of the Portfolio directly on a bank account opened with an Eligible Institution in the name of the OBG Guarantor. The Representative of the OBG Holders is not obliged in any circumstances to act as a servicer or to monitor the performance by any servicer of its obligations.

Reliance on Hedging Counterparties

To provide a hedge against any interest rate risk on the Portfolio, the OBG Guarantor entered into the Portfolio Front Swap Agreements with the relevant Hedging Counterparty. In addition, to provide a hedge against interest rate risks and currency risk (if any) in respect of each Series or Tranche of the OBG issued under the Programme, the Issuer entered into the OBG Front Swap Agreements with the relevant Hedging Counterparty. In addition to the above, on the same date of execution of the Portfolio Front Swap Agreements, the OBG Guarantor will enter, from time to time, in a relevant mirror swap agreements (the “**Portfolio Mirror Swap Agreements**”) and, on the same date of execution of each OBG Front Swap Agreements the OBG Guarantor will enter, from time to time, in a relevant mirror swap agreement (the “**OBG Mirror Swap Agreements**”). The

Portfolio Mirror Swap Agreements and the OBG Mirror Swap Agreements will be terminated at zero cost for the OBG Guarantor upon occurrence of an Issuer Event of Default.

If the OBG Guarantor fails to make timely payments of amounts due under any Swap Agreement, then it will (unless otherwise stated in the relevant Swap Agreement) have defaulted under that Swap Agreement. A Hedging Counterparty is (unless otherwise stated in the relevant Swap Agreement) only obliged to make payments to the OBG Guarantor as long as the OBG Guarantor complies with its payment obligations under the relevant Swap Agreement. If the Hedging Counterparty is not obliged to make payments or if it defaults in its obligations to make payments of amounts in the relevant currency equal to the full amount to be paid to the OBG Guarantor on the payment date under the Swap Agreements, the OBG Guarantor will be exposed to changes in the relevant currency exchange rates to Euro and to any changes in the relevant rates of interest. In addition, subject to a confirmation from the Rating Agencies (where applicable) that the then current ratings of the OBG would not be adversely affected, the OBG Guarantor may hedge only part of the possible risk and, in such circumstances, may have insufficient funds to make payments under the OBG Guarantee.

If a Swap Agreement terminates, then the OBG Guarantor may be obliged to make a termination payment to the relevant Hedging Counterparty according to the relevant Priority of Payments. There can be no assurance that the OBG Guarantor will have sufficient funds available to make a termination payment under the relevant Swap Agreement, nor can there be any assurance that the OBG Guarantor will be able to enter into a replacement swap agreement, or if one is entered into, that the credit rating of the replacement hedging counterparty will be sufficiently high to prevent a downgrade of the then current ratings of the OBG by the Rating Agencies. In addition, the Swap Agreements may provide that notwithstanding the relevant Hedging Counterparty ceasing to be assigned the requisite ratings and the failure by the Hedging Counterparty to take any of the remedial actions set out in the relevant Swap Agreement, the OBG Guarantor may terminate the swap until a replacement hedging counterparty has been found. However, there can be no assurance that the OBG Guarantor will be able to enter into a replacement swap agreement with a replacement hedging counterparty with the required ratings.

If the OBG Guarantor is obliged to pay a termination payment under any Swap Agreement, any payment due under the relevant Swap Agreement, including any termination payment arising out of a termination event, other than termination payments where the relevant Hedging Counterparty is the defaulting party or the sole affected party, but including, in any event, the amount of any termination payment due and payable to the relevant Hedging Counterparty in relation to the termination of the swap transactions to the extent of any premium received (net of any costs reasonably incurred by the OBG Guarantor to find a replacement swap counterparty), if any, by the OBG Guarantor from a replacement swap counterparty in consideration for entering into swap transactions with the OBG Guarantor on the same terms as the relevant Swap Agreement will rank ahead of amounts due on the OBG (the “**Hedging Senior Payments**”).

With respect to the Additional Provisions “Mark to Market Payment” in the Portfolio Front Swap, also any termination payment under this clause will be part of the Hedging Senior Payments for an amount up to the difference (if positive) on each Guarantor Payment Date between the purchase

price paid by any purchaser/s of the Selected Asset and the Principal Amount Outstanding of the Asset and Integrative Asset sold to such purchaser/s.

Limited description of the Portfolio

OBG Holders will not receive detailed statistics or information in relation to the Assets in the Portfolio, because it is expected that the constitution of the Portfolio will frequently change due to, for instance:

- (i) UniCredit (as Seller and Issuer) or the Additional Seller (if any) selling further Assets (or Assets, which are of a type that have not previously been comprised in the Portfolio to the OBG Guarantor);
- (ii) UniCredit (as Seller and Issuer) or the Additional Seller (if any) repurchasing certain Assets in accordance with the Master Transfer Agreement (as defined below); and
- (iii) UniCredit (as Seller and Servicer) or the Additional Seller (if any) being granted by the OBG Guarantor with a wide power to renegotiate the terms and conditions of the Assets or further Assets.

However, each Mortgage Receivables or further Mortgage Receivables will be required to meet the Criteria and to conform with the representations and warranties set out in the Warranty and Indemnity Agreement — see “*Description of the Transaction Documents — Warranty and Indemnity Agreement*” below. In addition, the Mandatory Tests and the Over-Collateralisation Test are intended to ensure that the Outstanding Principal Balance of the Eligible Portfolio is higher than or equal to the Outstanding Principal Balance of the OBG for so long as OBG remain outstanding and the Calculation Agent will provide on each relevant OC Calculation Date a basis reports that will set out certain information in relation to the Mandatory Tests and the Over-Collateralisation Test.

In addition to the above, according to the Master Transfer Agreement, the Warranty and Indemnity Agreement and the Servicing Agreement, (i) UniCredit (as Seller and Issuer) (or the Additional Seller (if any) as the case may be) and the OBG Guarantor may, without the prior consent of the Representative of the OBG Holders or the OBG Holders approval, amend the General Criteria and the Specific Criteria (ii) UniCredit (as Seller and Issuer) (or the Additional Sellers (if any) as the case may be) and the OBG Guarantor may, without the prior consent of the Representative of the OBG Holders or the OBG Holders, amend certain representations and warranties granted in relation to newly assigned Mortgage Receivables if such amendment are necessary as a consequence of a change in the lending policies of the Seller (or the Additional Seller (if any) as the case may be), (iii) the Seller and the OBG Guarantor may, without the prior consent of the Representative of the OBG Holders or the OBG Holders’ approval, amend the Specific Criteria and the representation and warranties in relation to the sale of further assets originated by entities belonging to the UniCredit Banking Group other than the Seller (and included within the Capitalia Group banks) and (iv) the Seller and the OBG Guarantor may, without the prior consent of the Representative of the OBG Holders or the OBG Holders approval, amend the Master Transfer Agreement and the other relevant Transaction Documents in case of a change in law or new interpretations, amendments or further guidelines issued by the Bank of Italy or any competent regulator, provided that any such above

amendment will be subject to notification to the Rating Agencies and the Representative of the OBG Holders and, if provided for under the relevant agreement, confirmation by the same Rating Agencies that the relevant amendment does not impact the rating assigned to the OBG.

In accordance with the Portfolio Administration Agreement, any Additional Seller may sell to the OBG Guarantor, and the latter shall purchase, Assets and Integration Assets without the prior consent of the Representative of the OBG Holders or the OBG Holders and, *inter alia*, subject to (i) the written approval by UniCredit (as Issuer and Seller) in relation to such sale, (ii) with respect to the purchase of Assets and Integration Assets, confirmation by the Rating Agencies that the assignment by the Additional Sellers would not adversely affect the then current ratings of the existing OBG, (iii) the execution of a master transfer agreement by the Additional Seller, substantially in the form of the Master Transfer Agreement (as amended to take into account the characteristics of the Assets or the Integration Assets sold by it) or in such other form as may be agreed amongst the Additional Seller and the OBG Guarantor and (iv) the granting of a subordinated loan by the Additional Seller for the purpose of financing the purchase of Assets or Integration Assets from it in accordance with the provision of a subordinated loan agreement to be executed substantially in the form of the Subordinated Loan Agreement (as defined below).

Sale of Selected Assets following the service of a Notice to Pay

If a Notice to Pay is served on the OBG Guarantor, then the OBG Guarantor shall (if necessary in order to effect timely payments under the OBG, as determined by the Calculation Agent in consultation with the Portfolio Manager) sell Selected Assets (selected on a Random Basis) in accordance with, and subject to, the terms of the Portfolio Administration Agreement in order to make payments to the OBG Guarantor's creditors including making payments under the OBG Guarantee, see "*Description of the Transaction Documents — Portfolio Administration Agreement*" below.

There is no guarantee that a buyer will be found to acquire Selected Assets at the times required and there can be no guarantee or assurance as to the price which may be able to be obtained for such Selected Assets, which may affect payments under the OBG Guarantee. However, the Selected Assets may not be sold by the OBG Guarantor for less than an amount equal to the Required Redemption Amount for the relevant Series or Tranche of OBG until six months prior to the Maturity Date in respect of such OBG or (if the same is specified as applicable in the relevant Final Terms) the Extended Maturity Date in respect of such OBG. In the six months prior to, as applicable, the Maturity Date or Extended Maturity Date, the OBG Guarantor is obliged to sell the Selected Assets for the best price reasonably available notwithstanding that such price may be less than the Required Redemption Amount.

Realisation of assets following the service of a Guarantor Acceleration Notice

If a Guarantor Acceleration Notice is served on the OBG Guarantor, then the OBG Guarantor is obliged to sell the Selected Assets as quickly as reasonably practicable taking into account the market conditions at that time (see "*Description of the Transaction Documents — Portfolio Administration Agreement*" below).

There is no guarantee that the proceeds of realisation of the Portfolio will be in an amount sufficient to repay all amounts due to creditors (including the OBG Holders) under the OBG and the Transaction Documents. If a Guarantor Acceleration Notice is served on the OBG Guarantor then the OBG may be repaid sooner or later than expected or not at all.

Factors that may affect the realisable value of the Portfolio or the ability of the OBG Guarantor to make payments under the OBG Guarantee

Following the occurrence of an Issuer Event of Default, the service of a Notice to Pay on the Issuer and on the OBG Guarantor, the realisable value of Selected Assets comprised in the Portfolio may be reduced (which may affect the ability of the OBG Guarantor to make payments under the OBG Guarantee) by:

- (i) default by borrowers on the amounts due in respect of Assets and Integration Assets;
- (ii) changes to the lending criteria of UniCredit (or the Additional Seller (if any) as the case may be);
- (iii) set-off risks in relation to some types of Mortgage Receivables in the Portfolio;
- (iv) limited recourse to the OBG Guarantor;
- (v) possible regulatory changes by the Bank of Italy, Consob and other regulatory authorities;
- (vi) regulations in Italy that could lead to some terms of the Mortgage Receivables being unenforceable;
- (vii) timing for the relevant sale of Assets; and
- (viii) status of the real estate market in the areas where the Issuer operates.

Each of these factors is considered in more detail below. However, it should be noted that the Mandatory Tests, the Over-Collateralisation Test and the Amortisation Test are intended to ensure that there will be an adequate amount of Mortgage Receivables in the Portfolio and moneys standing to the credit of the Accounts (including any amount invested in Eligible Investments (if any) and without duplication to the above) to enable the OBG Guarantor to repay the OBG following an Issuer Event of Default, service of a Notice to Pay on the Issuer and on the OBG Guarantor and accordingly it is expected (although there is no assurance) that Selected Assets could be realised for sufficient values to enable the OBG Guarantor to meet its obligations under the OBG Guarantee.

Priority of Payments

The validity of contractual priority of payments such as those contemplated in this transaction has been challenged recently in the English and U.S. courts. The hearings have arisen due to the insolvency of a secured creditor (in that case, a swap counterparty) and have considered whether such payment priorities breach the “anti-deprivation” principle under English and U.S insolvency law. This principle prevents a party from agreeing to a provision that deprives its creditors of an asset upon its insolvency. It was argued that, where a secured creditor subordinates itself to bondholders in the event of its insolvency, that secured creditor effectively deprives its own creditors. The Supreme Court of the United Kingdom in Belmont Park Investments PTY Limited

(Respondent) v BNY Corporate Trustee Services Limited and Lehman Brothers Special Financing Inc [2011] UKSC 38 (the “**Perpetual Case**”) unanimously upheld the decision of the Court of Appeal in dismissing this argument and upholding the validity of a flip clause contained in an English-law governed security document, stating that, provided that such clause forms part of a commercial transaction entered into in good faith which does not have as its predominant purpose, or one of its main purposes, the deprivation of one of the properties of one of the parties on bankruptcy, the anti-deprivation principle was not breached by such provision.

In parallel proceedings in New York, the U.S. Bankruptcy Court for the Southern District of New York in *Lehman Brothers Special Financing Inc.'s v. BNY Corporate Trustee Services Limited*. (In re *Lehman Brothers Holdings Inc.*), Adv. Pro. No. 09-1242-JMP (Bankr. S.D.N.Y. May 20, 2009) examined the same flip clause and held that such a provision, which seeks to modify one creditor's position in a priority of payments when that creditor files for bankruptcy, is unenforceable under the U.S. Bankruptcy Code. Whilst leave to appeal was granted, the proceedings in the United States were settled before an appeal was heard. Therefore concerns still remain that the U.S. courts will diverge in their approach.

There remains the issue whether, in respect of the foreign insolvency proceedings relating to a creditor located in a foreign jurisdiction, an English court will exercise its discretion to recognise the effects of the foreign insolvency proceedings, whether under the Cross Border Insolvency Regulations 2006 or any similar common law principles. Given the current state of U.S. law, this is likely to be an area of continued judicial focus in respect of multi-jurisdictional insolvencies.

Additionally, as a result of the conflicting statements of the English and New York courts there is uncertainty as to whether the English courts will give any effect to any New York court judgment. Similarly, if the Priorities of Payments are the subject of litigation in any jurisdiction outside England and Wales and such litigation results in a conflicting judgment in respect of the binding nature of the Priorities of Payments it is possible that termination payments due to that Hedging Counterparty would not be subordinated as envisaged by the Priorities of Payments and as a result, the OBG Guarantor's ability to repay the OBG Holders in full may be adversely affected. There is a particular risk of conflicting judgments where an Hedging Counterparty (if any) is the subject of bankruptcy or insolvency proceedings outside of England and Wales.

Value of the Portfolio

The OBG Guarantee granted by the OBG Guarantor in respect of the OBG will be backed by the Portfolio and the recourse against the OBG Guarantor will be limited to such assets. Since the economic value of the Portfolio may increase or decrease, the value of the OBG Guarantor's assets may decrease (for example if there is a general decline in property values). The Issuer makes no representation, warranty or guarantee that the value of a Real Estate will remain at the same level as it was on the date of the origination of the related Mortgage Receivable or at any other time. If the residential property market in Italy experiences an overall decline in property values, the value of the Mortgage Receivable could be significantly reduced and, ultimately, may result in losses to the holders of the OBG if such security is required to be enforced.

No representations or warranties to be given by the OBG Guarantor if Selected Assets and their related security interests are to be sold

After the service of a Notice to Pay on the Issuer and the OBG Guarantor, but prior to service of a Guarantor Acceleration Notice, the OBG Guarantor shall, if necessary in order to effect timely payments under the OBG, sell the Selected Assets and their related security interests included in the Portfolio, subject to a right of pre-emption of the Seller and of any Additional Seller (if any) pursuant to the terms of the Master Transfer Agreement and of the Portfolio Administration Agreement. In respect of any sale of Selected Assets and their related security interests to third parties, however, the OBG Guarantor will not provide any warranties or indemnities in respect of such Selected Assets and related security interests and there is no assurance that the Seller and any Additional Seller (if any) would give or repeat any warranties or representations in respect of the Selected Assets and related security interests or if it has not consented to the transfer of such warranties or representations. Any representations or warranties previously given by the Seller in respect of the Mortgage Receivables in the Portfolio may not have value for a third party purchaser if the Seller or the relevant Additional Seller (if any) is then insolvent. Accordingly, there is a risk that the realisable value of the Selected Assets and related security interests could be adversely affected by the lack of representations and warranties which in turn could adversely affect the ability of the OBG Guarantor to meet its obligations under the OBG Guarantee.

Default by borrowers in paying amounts due on their Assets

Borrowers may default on their obligations due under the Assets or the Integration Assets for a variety of reasons. The Assets and Integration Assets are affected by credit, liquidity and interest rate risks. Various factors influence delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies. Certain factors may lead to an increase in default by the borrowers, and could ultimately have an adverse impact on the ability of borrowers to repay the Assets or Integration Assets. Loss of earnings, illness, divorce and other similar factors may lead to an increase in default by and bankruptcies of borrowers, and could ultimately have an adverse impact on the ability of borrowers to repay the Mortgage Receivables. In addition, the ability of a borrower to sell a property given as security for a Mortgage Receivable at a price sufficient to repay the amounts outstanding under that Mortgage Receivable will depend upon a number of factors, including the availability of buyers for that property, the value of that property and property values in general at the time. The recovery of amounts due in relation to a Mortgage Receivable classified as a Defaulted Receivables will be subject to the effectiveness of enforcement proceedings in respect of the Portfolio which in Italy can take a considerable time depending on the type of action required and where such action is taken and on several other factors, including the following: proceedings in certain courts involved in the enforcement of the Mortgage Receivables and Mortgages may take longer than the national average; obtaining title deeds from land registries which are in process of computerising their records can take up to two or three years; further time is required if it is necessary to obtain an injunction decree (*decreto ingiuntivo*) and if the relevant Debtor raises a defence to or counterclaim in the proceedings; and it takes an average of six to eight years from the time lawyers commence enforcement proceedings until the time an auction date is set for the forced sale of any Real Estate.

Italian Law No. 302 of 3 August 1998, Italian Law No. 80 of 14 May 2005, Italian Law No. 263 of 28 December 2005 and the Italian Civil Procedure Code permit notaries, chartered accountants or lawyers duly registered with the relevant register kept and updated from time to time by the president of the relevant court (*Presidente del Tribunale*). to conduct certain stages of the enforcement procedures in place of the courts in order to reduce the length of enforcement proceedings by between two and three years.

Changes to the lending criteria of the Seller

Each of the Mortgage Receivables originated by the Seller will have been originated in accordance with its lending criteria at the time of origination. Each of the Mortgage Receivables sold to the OBG Guarantor by the Seller, but originated by a person other than the Seller (an “**Originator**”), will have been originated in accordance with the lending criteria of such Originator at the time of origination. It is expected that the Seller’s or the relevant Originator’s, as the case may be, lending criteria will generally consider term of loan, indemnity guarantee policies, status of applicants and credit history. In the event of the sale or transfer of any Mortgage Receivables to the OBG Guarantor, the Seller will warrant that (a) such Mortgage Receivables as were originated by it were originated in accordance with the Seller’s lending criteria applicable at the time of origination and (b) such Mortgage Receivables as were originated by an Originator, were originated in accordance with the relevant Originator’s lending criteria applicable at the time of origination. The Seller retains the right to revise its lending criteria from time to time subject to the terms of the Master Transfer Agreement. An Originator may additionally revise its lending criteria at any time. However, if such lending criteria change in a manner that affects the creditworthiness of the Mortgage Receivables, that may lead to increased defaults by borrowers and may affect the realisable value of the Portfolio and the ability of the OBG Guarantor to make payments under the OBG Guarantee.

Legal risks relating to the Assets

The ability of the OBG Guarantor to recover payments of interest and principal from the Assets is subject to a number of legal risks. These include the risks set out below.

Set-off risks

The assignment of receivables under Law 130 is governed by Article 58, paragraphs 2, 3 and 4, of the Banking Law (as defined below). According to the prevailing interpretation of such provision, such assignment becomes enforceable against the relevant debtors as of the later of (i) the date of the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), and (ii) the date of registration of the notice of assignment in the competent companies’ register. Consequently, the rights of the OBG Guarantor may be subject to the direct rights of the borrowers against the Seller or, as applicable the relevant Originator, including rights of set-off on claims arising existing prior to notification in the Official Gazette and registration at the competent companies’ register. Some of the Assets in the Portfolio may have increased risks of set-off, because the Seller or, as applicable, the relevant Originator is required to make payments under them to the borrowers. In addition, the exercise of set-off rights by borrowers may adversely affect the proceeds which may be realised from the sale of the Portfolio and, ultimately, the ability of the OBG Guarantor to make payments under the OBG Guarantee.

Usury Law

Italian Law number 108 of 7 March 1996, as amended, (the “**Usury Law**”) introduced legislation preventing lenders from applying interest rates equal to or higher than rates (the “**Usury Rates**”) set every three months on the basis of a decree issued by the Italian Treasury (the last such Decree having been issued on 19 December 2013). In addition, even where the applicable Usury Rates are not exceeded, interest and other advantages and/or remuneration may be held to be usurious if: (i) they are disproportionate to the amount lent (taking into account the specific circumstances of the transaction and the average rate usually applied for similar transactions) and (ii) the person who paid or agreed to pay was in financial and economic difficulties. The provision of usurious interest, advantages or remuneration has the same consequences as non-compliance with the Usury Rates. In certain judgements issued during 2000, the Italian Supreme Court (*Corte di Cassazione*) ruled that the Usury Law applied both to loans advanced prior to and after the entry into force of the Usury Law.

On 29 December 2000, the Italian Government issued law decree No. 394 (the “**Decree 394**”), converted into law by the Italian Parliament on 28 February 2001, which clarified the uncertainty about the interpretation of the Usury Law and provided, *inter alia*, that interest will be deemed to be usurious only if the interest rate agreed by the parties exceeded the Usury Rates at the time when the loan agreement or any other credit facility was entered into or the interest rate was agreed. The Decree 394, as interpreted by the Italian Constitutional Court by decision No. 29 of 14 February 2002, also provided that as an extraordinary measure due to the exceptional fall in interest rates in 1998 and 1999, interest rates due on instalments payable after 31 December 2000 on fixed rate loans (other than subsidised loans) already entered into on the date such decree came into force (such date being 31 December 2000) are to be substituted, except where the parties have agreed to more favourable terms, with a lower interest rate set in accordance with parameters fixed by such decree by reference to the average gross yield of multiannual treasury bonds (*Buoni Tesoro Poliennali*) in the period from January 1986 to October 2000.

According to recent court precedents of the Italian Supreme Court (*Corte di Cassazione*), the remuneration of any given financing must be below the applicable Usury Rate from time to time applicable. Based on this recent evolution of case law on the matter, it will constitute a breach of the Usury Law if the remuneration of a financing is lower than the applicable Usury Rate at the time the terms of the financing were agreed but becomes higher than the applicable Usury Rate at any point in time thereafter. Furthermore, those court precedents have also stated that default interest rates are relevant and must be taken into account when calculating the aggregate remuneration of any given financing for the purposes of determining its compliance with the applicable Usury Rate. That interpretation is in contradiction with the current methodology for determining the Usury Rates, considering that the relevant surveys aimed at calculating the applicable average rate never took into account the default interest rates. On 3 July 2013, also the Bank of Italy has confirmed in an official document that default interest rates should be taken into account for the purposes of the Statutory Usury Rates and has acknowledged that there is a discrepancy between the methods utilised to determine the remuneration of any given financing (which must include default rates) and the applicable Statutory Usury Rates against which the former must be compared.

Compounding of interest (anatocismo)

Pursuant to Article 1283 of the Italian Civil Code, accrued interest in respect of a monetary claim or receivable may be capitalised after a period of not less than six months only (i) under an agreement subsequent to such accrual or (ii) from the date when any legal proceedings are commenced in respect of that monetary claim or receivable. Article 1283 of the Italian Civil Code allows derogation from this provision in the event that there are recognised customary practices (*usi*) to the contrary. Banks and financial companies in the Republic of Italy have traditionally capitalised accrued interest on a three-monthly basis on the grounds that such practice could be characterised as a customary practice (*uso normativo*). However, a number of recent judgments from Italian courts (including judgments from the Italian Supreme Court (*Corte di Cassazione*) No. 2374/99, No. 2593/2003, No. 21095/2004, No. 4094/2005 and No. 10127/2005) have held that such practices are not *uso normativo*. Consequently, if customers of the Originator or of the Seller were to challenge this practice and such interpretation of the Italian Civil Code were to be upheld before other courts in the Republic of Italy, there could be a negative effect on the returns generated from the Mortgage Loans. UCI has, however, represented in the Warranty and Indemnity Agreement that the Mortgage Loans comply with Article 1283 of the Italian Civil Code

In this respect, it should be noted that Article 25, paragraph 3, of legislative decree No. 342 of 4 August 1999 (“**Law No. 342**”), enacted by the Italian Government under a delegation granted pursuant to law No. 142 of 19 February 1992, has considered the capitalisation of accrued interest (*anatocismo*) made by banks prior to the date on which it came into force (19 October 1999) to be valid. After such date, the capitalisation of accrued interest is no longer possible upon the terms established by a resolution of the CICR issued on 22 February 2000. Law No. 342 has been challenged and decision No. 425 of 17 October 2000 of the Italian Constitutional Court has declared as unconstitutional under the provisions of Law No. 342 regarding the validity of the capitalisation of accrued interest made by banks prior to the date on which Law No. 342 came into force.

Mortgage borrower protection

Article 120-ter of the Banking Law

Article 120-ter of the Banking Law provides that any provisions imposing a prepayments penalty in case of early redemption of mortgage loans is null and void with respect to loan agreements entered into, with an individual as borrower for the purpose of purchasing or restructuring real estate properties destined to residential purposes or to carry out the borrower's own professional or business activities. For a description of the main terms of the article 120-ter of the Banking Law, see section headed “*Selected aspects of Italian law – Certain Aspects of Italian Law relevant to mortgage loans*”.

The Italian banking association (“**ABI**”) and the main national consumer associations have reached an agreement (the “**Prepayment Penalty Agreement**”) regarding the equitable renegotiation of prepayment penalties with certain maximum limits calculated on the outstanding amount of the loans (the “**Substitutive Prepayment Penalty**”) containing the following main provisions: (i) with respect to variable rate loan agreements, the Substitutive Prepayment Penalty should not exceed 0.50 per cent. and should be further reduced to (a) 0.20 per cent. in case of early redemption of the

loan carried out within the third year from the final maturity date and (b) zero, in case of early redemption of the loan carried out within two years from the final maturity date, (ii) with respect to fixed rate loan agreements entered into before 1 January 2001, the Substitutive Prepayment Penalty should not exceed 0.50 per cent., and should be further reduced to: (a) 0.20 per cent., in case of early redemption of the loan carried out within the third year from the final maturity date; and (b) zero, in case of early redemption of the loan carried out within two years from the final maturity date, (iii) with respect to fixed rate loan agreements entered into after 31 December 2000, the Substitutive Prepayment Penalty should be equal to: (a) 1.90 per cent. if the relevant early redemption is carried out in the first half of loan's agreed duration; (b) 1.50 per cent. if the relevant early redemption is carried out following the first half of loan's agreed duration, provided however that the Substitutive Prepayment Penalty should be further reduced to: (x) 0.20 per cent., in case of early redemption of the loan carried out within three years from the final maturity date; and (y) zero, in case of early redemption of the loan carried out within two years from the final maturity date.

The Prepayment Penalty Agreement introduces a further protection for borrowers under a “safeguard” equitable clause (the “**Clausola di Salvaguardia**”) in relation to those loan agreements which already provide for a prepayment penalty in an amount which is compliant with the thresholds described above. In respect of such loans, the Clausola di Salvaguardia provides that: (1) if the relevant loan is either: (x) a variable rate loan agreement; or (y) a fixed rate loan agreement entered into before 1 January 2001; the amount of the relevant prepayment penalty shall be reduced by 0.20 per cent.; (2) if the relevant loan is a fixed rate loan agreement entered into after 31 December 2000, the amount of the relevant prepayment penalty shall be reduced by (x) 0.25 per cent. if the agreed amount of the prepayment penalty was equal or higher than 1.25 per cent.; or (y) 0.15 per cent., if the agreed amount of the prepayment penalty was lower than 1.25 per cent.

Finally the Prepayment Penalty Agreement sets out specific solutions with respect to hybrid rate loans which are meant to apply to the hybrid rates the provisions, as more appropriate, relating respectively to fixed rate and variable rate loans.

Prospective OBG Holders’ attention is drawn to the fact that, as a result of the entry into force of the Prepayment Penalty Agreement, the rate of prepayment in respect of Mortgage Receivables can be higher than the one traditionally experienced by the Seller for mortgage loans and that the OBG Guarantor may not be able to recover the prepayment fees in the amount originally agreed with the borrowers.

Article 120-quater of the Banking Law

Article 120-quater of the Banking Law provides that any borrower may at any time prepay the relevant loan funding such prepayment by a loan granted by another lender which will be subrogated pursuant to article 1202 of the Italian civil code (*surrogato per volontà del debitore*) in the rights of the former lender, including the mortgages (without any formalities for the annotation of the transfer with the land registry, which shall be requested by enclosing a certified copy of the deed of subrogation (*atto di surrogazione*) to be made in the form of a public deed (*atto pubblico*) or of a deed certified by a notary public with respect to the signature (*scrittura privata autenticata*) without prejudice to any benefits of a fiscal nature.

In the event that the subrogation is not completed within thirty days from the relevant request from the succeeding lender to the former lender to start the relevant cooperation procedures, the original lender shall pay to the borrower an amount equal to 1 per cent. of the amount of the loan for each month or part thereof of delay, provided that if the delay is due to the succeeding lender, the latter shall repay to the former lender the delay penalty paid by it to the borrower.

As a consequence of the above and, as a result of the subrogation, the rate of prepayment of the Mortgage Receivables might materially increase.

Borrower's right to suspend payments under a mortgage loan

Pursuant to Article 2, paragraph 475 and ff. of Italian law number 244 of 24 December 2007 (the “**2008 Budget Law**”) any borrower under a mortgage loan agreement executed for the purposes of acquiring a “first home” real estate property (*unità immobiliare da adibire ad abitazione principale*) giving evidence of its incapability to pay any instalments falling due under a mortgage loan is entitled to suspend payment of any such instalments for no more than two times during the life of the relevant mortgage loan and for a maximum duration of 18 months (the “**Borrower Payment Suspension Right**”). Upon exercise of the Borrower Payment Suspension Right the duration of the relevant mortgage loan will be extended to a period equal to the duration of the relevant suspension period.

The 2008 Budget Law also provided for the establishment of a fund (so called “*Fondo di solidarietà*”, the “**Fund**”) created for the purpose of bearing certain costs deriving from the suspension of payments and refers to implementing regulation to be issued for the determination of: (i) the requirements that the borrowers must comply with in order to have the right to the aforementioned suspension and the subsequent aid of the Fund; and (ii) the formalities and operating procedures of the Fund.

On 21 June 2010, the Ministry of Treasury and Finance (*Ministro dell'economia e delle finanze*) adopted ministerial decree No. 132 (“**Decree 132/2010**”) detailing the requirements and formalities which any Borrower must comply with in order to exercise the Borrower Payment Suspension Right.

Pursuant to Decree 132/2010, the Ministry of Economy and Finance, on 27 October 2010, issued the guidelines (*Linee Guida*) (the “**Guidelines**”) – published on the website www.dt.tesoro.it (for the avoidance of doubt, such website does not constitute part of this Prospectus) which establish the procedures that borrowers must follow in order to exercise the Borrower Payment Suspension Right.

As specified in the Guidelines, pursuant to the provision of Decree 132, the Borrower Payment Suspension Right can be granted also in favour of mortgage loans which have been subject to covered bonds transactions pursuant to Law 130.

In light of the above, pursuant to the Decree of the General Director of Treasury Department of the Ministry of Economy and Finance issued on 14 September 2010, CONSAP (*Concessionaria Servizi Assicurativi S.p.A.*), was selected as managing company of the Fund. The request to access to the aid granted by the Fund must be presented by borrowers starting from 15 November 2010, by using

the relevant form of suspension-request duly prepared in compliance with the Guidelines and accompanied by the relevant documentation indicated therein.

Any borrower who complies with the requirements set out in Decree 132 and the Guidelines, has the right to suspend the payment of the instalments of its Mortgage Receivables up to 18 months.

The agreement entered into on 18 December 2009 between the Italian Banking Association (*Associazione Bancaria Italiana - ABI*) and the Consumers Associations (*Associazioni dei Consumatori*) along with the relevant technical document attached therein adhered by the Issuer on 27 January 2010 (the “**Piano Famiglie**”) provides for a 12-month period suspension of payment of instalments relating to mortgage loans, where requested by the relevant Debtor during the period from 1 February 2010 to 31 January 2013. The suspension is allowed only where the following events have occurred: (i) termination of employment relationship; (ii) termination of employment relationships regulated under Article 409 No. 3 of the Italian civil procedure code; (iii) death or the occurrence of conditions pertaining to non-self sufficiency; and/or (iv) suspension from work or reduced working hours for a period of at least 30 days. The relevant events satisfying the subjective requirements must have occurred in respect of the relevant Debtor during the period from 1 January 2009 to 31 December 2012. The suspension can be requested on one occasion only, provided that the mortgage loans are granted for amounts not exceeding €150,000, granted for the purchase, construction or renovation of a primary residence (*mutui prima casa*), including: (i) mortgage loans assigned under securitisation or covered bond transactions pursuant to Law 130, (ii) renegotiated mortgage loans and (iii) mortgage loans whereby the relevant lender was subrogated. Finally, in order to obtain such suspension of payments, the borrower shall have an income not exceeding €40,000 per year. The document clarifies that, in the context of a securitisation or covered bond transaction, the special purpose vehicle, or the Issuer acting on its behalf, can adhere to the Piano Famiglie. The suspension can be limited to principal instalments only or can encompass both principal and interest instalments.

On 31 January 2012 ABI and the consumers' associations entered into a convention (*Nuovo Accordo*) that provides that the suspension of payment of instalments relating to mortgage loans may be applied for by 31 July 2012. Such convention amended the following conditions to be met in order to benefit from the suspension: (i) the conditions to benefit from the Piano Famiglie must be met by 30 June 2012; and (ii) the in payment delays of instalments cannot exceed 90 days (instead of 180 days).

On 31 July 2012 ABI and the consumers' associations entered into a Protocollo d'intesa, amending the “Nuovo Accordo” above mentioned as follows:

- 1) the final term to apply for the suspension of payment has been postponed to the earlier between (i) the date on which regulations implementing the Art. 2, paragraph 475 and followings of Law number 244 of 24 December 2007 relating to the Fund (as defined in the paragraph below) will be issued, and (ii) 31 January 2013.
- 2) the final term to meet the conditions necessary to benefit from the suspension of payment has been postponed to the earlier between (i) the date on which regulations implementing the Art. 2, paragraph 475 and followings of Law number 244 of 24 December 2007 relating to the Fund (as defined above) will be issued, and (ii) 31 December 2012.

Furthermore, on 30 January 2013 ABI and the consumers' associations entered into a new Protocollo d'intesa amending the aforementioned conventions, which provided that the suspension of payment of instalments relating to mortgage loans may be applied for no later than 31 March 2013 and, in order to benefit from the suspension, (i) the conditions must be met by 28 February 2013 and (ii) the payment delays of instalments cannot exceed 90 days.

Finally, pursuant to Article 8, paragraph 6, of Law Decree No. 70 of 13 May 2011, converted into law by law No. 106 of 12 July 2011 (the “**Decreto Sviluppo**”), certain borrowers may achieve (i) a renegotiation of mortgage loans which may result in the amendment of the interest calculation method from floating rate to fixed rate and (ii) the extension of the applicable amortisation plan of the relevant mortgage loan for a period not longer than five years, provided that, as a result of such extension, the residual duration of the relevant mortgage loan does not exceed a period equal to 25 years.

Prospective investors' attention is drawn to the fact that the potential effects of the suspension schemes and the impact thereof on the amortisation and prepayment profile of the Portfolio cannot be predicted by the Issuer as at the date of this Prospectus.

Renegotiations of floating rate Mortgage Loans

Law Decree No. 93 of 27 May 2008 (“**Law Decree 93**”), converted into law No. 126 of 24 July 2008 (“**Law 126**”) which came into force on 29 May 2008, regulates the renegotiation of floating rate mortgage loans granted for the purposes of purchasing, building or refurbishing real estate assets used as main houses.

According to Law 126, the *Ministero dell'Economia e delle Finanze (Minister of Economy and Finance)* and the ABI entered into a convention providing for the procedures for the renegotiation of such floating rate mortgage loans (the “**Convention**”).

The Convention applies to floating rate mortgage loan agreements entered into or taken over (*accollati*), also further to the parcelling (*frazionamento*) of the relevant mortgages, before 29 May 2008. Pursuant to the Convention, the instalments payable by a borrower under any of such mortgage loan agreements will be recalculated applying (a) a fixed interest rate (equal to the average of the floating rate interest rates applied under the relevant mortgage loan agreement during 2006) on the initial principal amount and for the original final maturity date of the relevant mortgage loan, or (b) if the mortgage loan has been entered into, renegotiated or taken over (*accollato*) after 31 December 2006, the parameters used for the calculation of the first instalment due after the date on which the mortgage loan has been entered into, renegotiated or taken over (*accollato*). The difference between the amount to be paid by the borrower as a result of such recalculation and the amount that the borrower would have paid on the basis of the original instalment plan will be (a) if negative, debited to a bank account on which interest will accrue in favour of the lender at the lower of (i) the rate equal to 10 (ten) IRS (interest rate swap) plus a spread of 0.50, and (ii) the rate applicable pursuant to the relevant mortgage loan, each of them calculated, in a fixed amount, on the renegotiation date, or (b) if positive, credited to such bank account. After the original final maturity date of the mortgage loan, the outstanding debt on the bank account will be repaid by the borrower through constant instalments equal to the ones resulting from the renegotiation, and the amortisation plan will be determined on the basis of the

lower of (a) the rate applicable on the bank account, and (ii) the rate applicable pursuant to the relevant mortgage loan, as calculated, in a fixed amount, on the original final maturity date of the mortgage loan.

The Seller has adhered to the Convention sending to its clients a renegotiation proposal in accordance with the Convention. Borrowers eligible for the renegotiation who have received the renegotiation proposal can accept the proposal by way of a written notification to be sent not later than 28 November 2008 (the “**Final Adhesion Term**”).

The renegotiation becomes effective on the third month following the date when such proposal has been accepted by the relevant client, with reference to the instalments which fall due after 1 January 2009.

The pieces of legislation referred to in each subparagraph under section “*Mortgage borrower protection*” above may have an adverse effect on the Portfolio and, in particular, on any cash flow projections concerning the Portfolio as well as on the over-collateralisation required in order to maintain the then current ratings of the OBG. However, as this legislation is relatively new, as at the date of this Prospectus, the Issuer is not in a position to predict its impact. For further information, see “*Selected Aspects of Italian Law*”, below.

3. Factors which are material for the purpose of assessing the market risks associated with OBG issued under the Programme

The OBG may not be a suitable investment for all investors

Each potential investor in the OBG must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the OBG, the merits and risks of investing in the OBG and the information contained or referred to in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the OBG and the impact the OBG will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the OBG, including OBG with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor’s currency;
- (iv) understand thoroughly the terms of the OBG and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some OBG are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex

financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in OBG which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the OBG will perform under changing conditions, the resulting effects on the value of the OBG and the impact this investment will have on the potential investor's overall investment portfolio. Investors may lose some or all of their investment in the OBG.

Risks related to the structure of a particular issue of OBG

OBG issued under the Programme will either be fungible with an existing Series or have different terms to an existing Series (in which case they will constitute a new Series). All OBG issued from time to time will rank *pari passu* with each other in all respects and will share equally in the security granted by the OBG Guarantor under the OBG Guarantee. If an Issuer Event of Default and a Guarantor Event of Default occur and result in acceleration, all OBG of all Series or Tranche will accelerate at the same time.

A wide range of OBG may be issued under the Programme. A number of these OBG may have features which contain particular risks for potential investors. Set out below is a description of the most common of such features.

OBG subject to optional redemption by the Issuer

An optional redemption feature of OBG is likely to limit their market value. During any period when the Issuer may elect to redeem OBG, the market value of those OBG generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem OBG when its cost of borrowing is lower than the interest rate on the OBG. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the OBG being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Zero Coupon OBG

The Issuer may issue OBG which do not pay current interest but are issued at a discount from their nominal value or premium from their principal amount. Such OBG are characterised by the circumstance that the relevant OBG holders, instead of benefitting from periodical interest payments, shall be granted an interest income consisting in the difference between the redemption price and the issue price, which difference shall reflect the market interest rate. A holder of a zero coupon OBG is exposed to the risk that the price of such bond falls as a result of changes in the market interest rate. Prices of zero coupon OBG are more volatile than prices of fixed rate OBG and are likely to respond to a greater degree to market interest rate changes than interest bearing OBG with a similar maturity. Generally, the longer the remaining terms of such OBG, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Variable Rate OBG with a multiplier or other leverage factor

OBG with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps, floors or collars (or any combination of those features or other similar related features), their market values may be even more volatile than those for securities that do not include those features.

Fixed/Floating Rate OBG

Fixed/Floating Rate OBG may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the OBG since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate OBG may be less favourable than then prevailing spreads on comparable Floating Rate OBG tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other OBG. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its OBG.

OBG issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks related to OBG generally

Set out below is a brief description of certain risks relating to the OBG generally.

Certain decisions of OBG Holders taken at Programme level

Any Programme Resolution to direct the Representative of the OBG Holders to serve a Notice to Pay or a Guarantor Acceleration Notice, and any direction to the Representative of the OBG Holders to take any enforcement action must be passed at a single meeting of the holders of all OBG of all Series then outstanding as set out in the Rules of the Organisation of OBG Holders attached to the Conditions as Schedule 1 and cannot be decided upon at a meeting of OBG Holders of a single Series or Tranche. A Programme Resolution will be binding on all OBG Holders including OBG Holders who did not attend and vote at the relevant meeting and OBG Holders who voted in a manner contrary to the majority.

The Representative of the OBG Holders may agree to modifications to the Transaction Documents without the OBG Holders' or other Secured Creditors' (as defined below) prior consent.

The Representative of the OBG Holders may, without the consent or sanction of any of the OBG Holders or any of the other Secured Creditors, concur with the Issuer and/or the OBG Guarantor and any relevant parties in making any modification as follows:

- (i) to the Conditions and/or the other Transaction Documents which in the opinion of the Representative of the OBG Holders may be expedient to make provided that the Representative of the OBG Holders is of the opinion that such modification will be proper to

make and will not be materially prejudicial to the interests of any of the OBG Holders of any Series or Tranche; and

- (ii) to the Conditions or the other Transaction Documents which is of a formal, minor or technical nature or, which in the opinion of the Representative of the OBG Holders is to correct a manifest error or an error established as such to the satisfaction of the Representative of the OBG Holders or for the purpose of clarification or to comply with mandatory provisions of law and regulation or in general interpretation of laws and regulations.

The transaction documents provide that under certain circumstances (e.g. changes in the portfolio composition, changes in laws or in general interpretation of laws, amendments to the eligibility criteria, etc.) certain provisions of the Transaction Documents may be amended without the prior approval of the Representative of the OBG Holders and of the OBG Holders. For further details please refer to “*Limited description of the Portfolio*” in this Section and the “*Description of the Transaction Documents*”.

Controls over the transaction

The BoI OBG Regulations require that certain controls be performed by the Issuer (also in its capacity as Seller) (see “*Selected aspects of Italian law - Controls over the transaction*” below), aimed, *inter alia*, at mitigating the risk that any obligation of the Issuer or the OBG Guarantor under the OBG is not complied with. Whilst the Issuer (also in its capacity as Seller) believes it has implemented the appropriate policies and controls in compliance with the relevant requirements, investors should note that there is no assurance that such compliance ensures that the aforesaid payment obligations are actually performed and that any failure to properly implement the relevant policies and controls could have an adverse effect on the Issuers’ or the OBG Guarantor’s ability to perform their obligations under the OBG.

Limits to the Integration

Under the BoI OBG Regulations, the Integration (as defined below), whether through Assets or through Integration Assets shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations (see “*Selected aspects of Italian law - Tests set out in the MEF Decree*”).

More specifically, under the BoI OBG Regulations, the Integration is allowed exclusively for the purpose of (a) complying with the Mandatory Tests (as defined below); (b) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements or (c) complying with the 15 per cent. maximum amount of Integration Assets within the Portfolio.

Investors should note that the Integration is not allowed in circumstances other than as set out in the BoI OBG Regulations and specified above.

Tax consequences of holding the OBG

Potential investors should consider the tax consequences of investing in the OBG and consult their tax adviser about their own tax situation.

Prospectus to be read together with applicable Final Terms

The terms and conditions of the OBG and the terms and conditions of the Registered OBG apply to the different types of OBG which may be issued under the Programme. The full terms and conditions applicable to each Series or Tranche of OBG (other than the Registered OBG) can be reviewed by reading the Conditions as set out in full in this Prospectus, which constitute the basis of all OBG to be offered under the Programme (other than the registered OBG), together with the applicable Final Terms which applies and/or disappplies and/or completes the generally applicable Terms and Conditions of the OBG in the manner required to reflect the particular terms and conditions applicable to the relevant Series of OBG (or Tranche thereof).

The full terms and conditions applicable to each Series of Registered OBG can be reviewed by reading the relevant Registered OBG, the relevant Registered OBG Conditions and any schedule or ancillary agreement attached or relating thereto. For the avoidance of doubt, Registered OBG are not and will not be subject to the generally applicable terms and conditions of the OBG (contained in the section headed “*Terms and Conditions of the OBG*”). No Final Terms will be issued in respect of Registered OBG.

Liability to make payments when due on the OBG

The Issuer is liable to make payments when due on the OBG. The obligations of the Issuer under the OBG are direct, unsecured, unconditional and unsubordinated obligations, ranking *pari passu* without any preference amongst themselves and equally with its other direct, unsecured, unconditional and unsubordinated obligations. Consequently, any claim directly against the Issuer in respect of the OBG will not benefit from any security or other preferential arrangement granted by the Issuer. The OBG Guarantor has no obligation to pay the Guaranteed Amounts payable under the OBG Guarantee until the service on the OBG Guarantor of a Notice to Pay. Failure by the OBG Guarantor to pay amounts due under the OBG Guarantee in respect of any Series or Tranche would constitute a Guarantor Event of Default which would entitle the Representative of the OBG Holders to serve a Guarantor Acceleration Notice and accelerate the obligations of the OBG Guarantor under the OBG Guarantee and entitle the Representative of the OBG Holders to enforce the OBG Guarantee.

The OBG will not represent an obligation or be the responsibility of any of the Dealers, the Representative of the OBG Holders or any other party to the Transaction Documents, their officers, members, directors, employees, security holders or incorporators, other than the Issuer and, upon service of a Notice to Pay, the OBG Guarantor. The Issuer and the OBG Guarantor will be liable solely in their corporate capacity for their obligations in respect of the OBG and such obligations will not be the obligations of their respective officers, members, directors, employees, security holders or incorporators.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk.

Secondary Market

OBG may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their OBG

easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for OBG that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of OBG generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of OBG. In addition, OBG issued under the Programme might not be listed on a stock exchange or regulated market and, in these circumstances, pricing information may be more difficult to obtain and the liquidity and market prices of such OBG may be adversely affected. In an illiquid market, an investor might not be able to sell his OBG at any time at fair market prices. The possibility to sell the OBG might additionally be restricted by country specific reasons.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the OBG in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the OBG, (2) the Investor's Currency equivalent value of the principal payable on the OBG and (3) the Investor's Currency equivalent market value of the OBG. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate OBG involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate OBG.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the OBG. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the OBG.

The ratings assigned to the OBG address the expectation of timely payment of interest and principal on the OBG on or before any payment date falling one year after the Maturity Date.

According to Fitch and Standard & Poor's, the ratings assigned to the OBG may address:

- (i) the likelihood of full and timely payment to OBG Holders of all payments of interest on each Interest Payment Date; and
- (ii) the likelihood of ultimate payment of principal in relation to OBG on (a) the Maturity Date thereof or (b) if the OBG are subject to an Extended Maturity Date in respect of the OBG in accordance with the applicable Final Terms, the Extended Maturity Date thereof.

The ratings that may be assigned by Fitch incorporate both an indication of the probability of default and of the recovery given a default of the relevant OBG.

For Moody's, the ratings assigned to the OBG address the expected loss that OBG Holders may suffer.

The expected ratings of the OBG are set out in the relevant Final Terms for each Series of OBG. Whether or not a rating in relation to any OBG will be treated as having been issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the relevant Final Terms.

Any Rating Agency may lower its rating or withdraw its rating if, in the sole judgment of the Rating Agency, the credit quality of the OBG has declined or is in question. If any rating assigned to the OBG is lowered or withdrawn, the market value of the OBG may reduce.

Furthermore, in accordance with the current rating criteria of each of the Rating Agencies, the rating of the OBG may be linked, under certain circumstances, to the then current rating of the Issuer.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating agency. A credit rating may not reflect the potential impact of all of the risks related to the structure, market, additional factors discussed above and other factors that may affect the value of the OBG.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended).

The return on an investment in OBG will be affected by charges incurred by investors

An investor's total return on an investment in any OBG will be affected by the level of fees charged by the nominee service provider and/or clearing system used by the investor. Such a person or institution may charge fees for the opening and operation of an investment account, transfers of OBG, custody services and on payments of interest, principal and other amounts. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant OBG.

EU Savings Directive

Legislative Decree No. 84 of 18 April 2005 implemented in Italy, as of 1 July 2005, the European Council Directive No. 2003/48/EC on the taxation of savings income. Under the Directive, Member States, if a number of important conditions are met, are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. However, for a transitional period,

Luxembourg and Austria will instead be required (unless during that period they elect otherwise) to operate a withholding tax system in relation to such payments. The withholding tax system applies for a transitional period with the rate of withholding currently at 35 per cent. The transitional period is to terminate at the end of the first full tax year following agreement by certain non-EU countries to the exchange of information relating to such payments. Same details concerning payment of interest (or similar income) shall be provided to the tax authorities of a number of non-EU countries and territories, which have agreed to adopt similar measures with effect from the same date. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of this automatic information exchange.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor the OBG Guarantor or any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any OBG as a result of the imposition of such withholding tax. The Issuer will be required to maintain a Paying Agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

Change of law

The structure of the Programme and, *inter alia*, the issue of the OBG and the ratings assigned to the OBG are based on Italian law, tax and administrative practice in effect at the date of this Prospectus, and having due regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given that Italian law, tax or administrative practice or its interpretation will not change after the Issue Date of any Series or Tranche or that such change will not adversely impact the structure of the Programme and the treatment of the OBG. This Prospectus will not be updated to reflect any such changes or events.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) OBG are legal investments for it, (2) OBG can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any OBG. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of OBG under any applicable risk-based capital or similar rules.

U.S. Foreign Account Tax Compliance Withholding

Pursuant to the foreign account tax compliance provisions of the Hiring Incentives to Restore Employment Act of 2010 (“**FATCA**”), the Issuer and other non-U.S. financial institutions through which payments on the OBGs are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, payments made after 31 December 2016 in respect of (i) any OBGs issued or materially modified on or after the date that is six months after the date on which the final regulations applicable to “foreign passthru payments” are filed in the Federal Register and (ii) any OBGs that are treated as equity for U.S. federal tax purposes, whenever issued. Under existing guidance, this withholding tax may be triggered on payments on the OBGs if (i) the Issuer is a

foreign financial institution (“**FFI**”) (as defined in FATCA, including any accompanying U.S. regulations or guidance) which enters into and complies with an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide certain information on its account holders (making the Issuer a “**Participating FFI**”), (ii) the Issuer is required to withhold on “foreign passthru payments”, and (iii)(a) an investor does not provide information sufficient for the relevant Participating FFI to determine whether the investor is subject to withholding under FATCA, or (b) any FFI to or through which payment on such OBGs is made is not a Participating FFI or otherwise exempt from FATCA withholding.

The application of FATCA to amounts paid with respect to the OBGs is not completely clear. In particular, Italy entered into an intergovernmental agreement with the United States to help implement FATCA for certain Italian entities on 10 January 2014. The full impact of such an agreement on the Issuer and the Issuer’s reporting and withholding responsibilities under FATCA is – at this stage - not completely clear. The Issuer will be required to report certain information on its U.S. account holders to the government of Italy in order (i) to obtain an exemption from FATCA withholding on payments it receives and/or (ii) to comply with any applicable Italian law. However, it is not yet certain how the United States and Italy will address withholding on “foreign passthru payments” (which may include payments on the OBGs) or if such withholding will be required at all.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the OBGs as a result of FATCA, none of the Issuer, the OBG Guarantor, any paying agent or any other person would, pursuant to the terms and conditions of the OBGs be required to pay additional amounts as a result of the deduction or withholding. As a result, investors may receive amounts that are less than expected.

EACH HOLDER OF OBGs SHOULD CONSULT ITS OWN TAX ADVISER TO OBTAIN A MORE DETAILED EXPLANATION OF FATCA AND TO LEARN HOW FATCA MIGHT AFFECT EACH HOLDER IN ITS PARTICULAR CIRCUMSTANCE.

“**Interest Commencement Date**” means, in relation to any Series or Tranche of OBG, the Issue Date of the relevant Series or Tranche of OBG or such other date as may be specified as the Interest Commencement Date in the relevant Final Terms.

Types of OBG

In accordance with the relevant Final Terms, the relevant Series or Tranche of OBG may be Fixed Rate OBG, Floating Rate OBG, Zero Coupon OBG or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms. The relevant Series or Tranche of OBG may be OBG repayable in one or more instalments or a combination of any of the foregoing, depending on the Redemption/Payment Basis shown in the applicable Final Terms. Each Series shall be comprised of Fixed Rate OBG only or Floating Rate OBG only or Zero Coupon OBG only as may be so specified in the relevant Final Terms.

Fixed Rate OBG: fixed interest on the Fixed Rate OBG will be payable in arrear on such date or dates specified in the relevant Final Terms and as may be agreed between the Issuer and the relevant Dealers. Fixed interest will be calculated on the basis of such Day Count Fraction provided for in the Conditions and the relevant Final Terms.

Floating Rate OBG: Floating Rate OBG will bear interest determined separately for each Series as follows:

- (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc., or
- (ii) by reference to LIBOR, LIBID, LIMEAN, CMS or EURIBOR (or such other benchmark as may be specified in the relevant Final Terms) as adjusted for any applicable Margin, in each case as provided for in the relevant Final Terms.

The applicable OBG Interest Periods will be specified in the relevant Final Terms.

The Margin (if any) relating to such floating rate OBG will be agreed between the Issuer and the relevant Dealer(s) for each Series of Floating Rate OBG and will be specified in the relevant Final Terms.

Interest on Floating Rate OBG in respect of each OBG Interest Period, as agreed prior to issue by the Issuer and the relevant Dealers, will be payable on each OBG Payment Date, and will be calculated on the basis of such Day Count Fraction provided for in the Conditions and the relevant Final Terms.

Zero Coupon OBG: Zero Coupon OBG may be issued and sold at their nominal value or at a discount and will not bear interest.

The issuance of certain types of OBG may require a prior amendment to the Transaction Documents by means of the written agreement among the relevant parties thereto and will not require the consent of the Representative of the OBG Holders or the approval of the OBG Holders, but may require, where applicable, confirmation from the Rating Agencies that such amendments would not adversely affect the then current ratings of the outstanding OBG.

Issuance in Series

OBG will be issued in series (each a “**Series**”), but on different terms from each other, subject to the terms set out in the relevant Final Terms in respect of such Series. OBG of different Series will not be fungible among themselves. Each Series (excluding any Series of Registered OBG, which may be Issued only in Series) may be issued in tranches (each a “**Tranche**”) which will be identical in all respects, but having different issue dates, interest commencement dates and issue prices. The specific terms of each Tranche will be completed in the relevant Final Terms. The Issuer will issue OBG without the prior consent of the holders of any outstanding OBG but subject to certain conditions (See “*General Description of the Programme - Conditions Precedent to the Issuance of a new series of OBG*”

below).

Notwithstanding the foregoing, the term “Series” shall mean in the case of Registered OBG, each Registered OBG made out in the name of a specific Registered OBG Holder.

Final Terms

Specific final terms will be issued and published in accordance with the generally applicable terms and conditions of the OBG (the “**Conditions**”) prior to the issue of each Series or Tranche detailing certain relevant terms thereof which, for the purposes of that Series only or Tranche only (as the case may be), completes the Conditions and the Prospectus and must be read in conjunction with the Conditions and the Prospectus (each a “**Final Terms**”). The terms and conditions applicable to any particular Series or Tranche of OBG are the Conditions as completed by the relevant Final Terms.

The terms and conditions applicable to any particular Registered OBG shall be the Registered OBG (*Namensschuld verschreibung*), the Registered OBG Conditions attached thereto, the relevant Registered OBG Agreement and any other document expressed to govern such particular Registered OBG.

Interest on the OBG

Except for the Zero Coupon OBG and unless otherwise specified in the Conditions and the relevant Final Terms, the OBG will be interest-bearing and interest will be calculated, on the relevant dates, on the principal amount outstanding of the relevant OBG (the “**Principal Amount Outstanding**”). Interest will be calculated on the basis of the relevant Day Count Fraction as provided for in the Conditions and in the relevant Final Terms. Interest may accrue on the OBG at a fixed rate or a floating rate and at such rate as may be so specified in the relevant Final Terms and the method of calculating interest may vary between the Issue Date and the Maturity Date of the relevant Series or Tranche.

The length of the interest period for the OBG and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series or Tranche. OBG may have a maximum interest rate, a minimum interest rate, or both. All such information will be set out in the relevant Final Terms.

Redemption of the OBG

The applicable Final Terms will indicate either (a) that the

OBG cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or in other specified cases, e.g. taxation reasons, or Guarantor Events of Default), or (b) that such OBG will be redeemable at the option of the Issuer upon giving prior written notice to the Representative of OBG Holders on behalf of the holders of the OBG (the “**OBG Holders**”) and in accordance with the provisions of Condition 8 (*Redemption and Purchase*) and of the relevant Final Terms, on a date or dates specified prior to such maturity and at a price or prices and on such other terms as may be agreed between the Issuer and the relevant Dealer(s) (as set out in the applicable Final Terms) or (c) that such will be redeemable at the option of the OBG Holders in accordance with Condition 8(f).

The relevant Final Terms will specify the basis for calculating the redemption amounts payable.

Any reference to the OBG Holders shall include reference to the holders of the OBG and/or the registered holder for the time being of a Registered OBG (the “**Registered OBG Holders**”) as the context may require.

Redemption by instalments

The Final Terms issued in respect of each issue of OBG that are redeemable in two or more instalments will set out the dates on which, and the amounts in which, such OBG may be redeemed.

Optional Redemption

The Final Terms issued in respect of each issue of OBG will state whether such OBG may be redeemed prior to their stated maturity at the option of the Issuer (either in whole or in part) and/or the OBG Holders, and if so the terms applicable to such redemption.

Early redemption

Except as provided in “Optional Redemption” above, OBG will be redeemable at the option of the Issuer prior to maturity only for tax reasons. See Condition 8 (*Redemption and Purchase*), below.

Tax gross up and redemption for taxation reasons

Subject to certain exceptions as provided for in Condition 10 (*Taxation*), payments in respect of the OBG to be made by the Issuer will be made without deduction for or on account of withholding taxes imposed by any tax jurisdiction, subject as provided in Condition 10 (*Taxation*).

In the event that any such withholding or deduction is made the Issuer will be required to pay additional

amounts to cover the amounts so deducted. In such circumstances and provided that such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the OBG will be redeemable (in whole, but not in part) at the option of the Issuer. See Condition 8(c). The OBG Guarantor will not be liable to pay any additional amount due to taxation reasons in case an Issuer Event of Default (as defined below) has occurred.

Maturity Date

The final maturity date for each Series or Tranche (the “**Maturity Date**”) will be specified in the relevant Final Terms, subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the currency of the OBG. Unless previously redeemed as provided in Condition 8 (*Redemption and Purchase*), the OBG of each Series will be redeemed at their Principal Amount Outstanding on the relevant Maturity Date.

Extendable maturity

The applicable Final Terms may also provide that the obligations of the OBG Guarantor to pay all or (as applicable) part of the Final Redemption Amount (as defined below) payable on the Maturity Date will be deferred pursuant to Condition 8(b) (*Extension of maturity*) for a maximum period of 12 calendar months following the Maturity Date (the “**Extended Maturity Date**”). Such deferral will occur automatically if:

- (a) an Issuer Event of Default has occurred; and
- (b) the OBG Guarantor has insufficient moneys available under the relevant Priority of Payments to pay the Guaranteed Amounts (as defined below) corresponding to the Final Redemption Amount in full in respect of the relevant Series of OBG as set out in the relevant Final Terms (the “**Final Redemption Amount**”) on the Maturity Date.

In these circumstances, to the extent that the OBG Guarantor has sufficient Available Funds (as defined below) to pay in part - on the relevant Maturity Date - the Final Redemption Amount in respect of the relevant Series or Tranche of OBG, the OBG Guarantor shall make partial payment of the relevant Final Redemption Amount, in accordance with the Post-Issuer Event of Default Priority (as defined below), without any

The UniCredit Banking Group, registered with the Register of Banking Groups held by the Bank of Italy pursuant to Article 64 of the Banking Law under number 02008.1 (the “**Group**” or the “**UniCredit Group**”) is a leading financial services group with a well established commercial network in 17 countries, including Italy, Germany, Austria, Poland and several other Central and Eastern European (“**CEE**”) countries. As at 31 December 2013, UniCredit Group is present in roughly 50 markets with almost 148,000 full time equivalent employees. The Group’s portfolio of activities is highly diversified by segments and geographical areas, with a strong focus on commercial banking. Its wide range of banking, financial and related activities includes deposit-taking, lending, asset management, securities trading and brokerage, investment banking, international trade finance, corporate finance, leasing, factoring and the distribution of certain life insurance products through bank branches (*bancassurance*). (*bancassurance*).

The Group is one of the leading banks in Italy, in terms of number of branches, and among the leading banks, in terms of total assets, in many of the CEE countries in which it operates.

HISTORY

Formation of the Group

UniCredit (formerly Unicredito Italiano S.p.A.) and the Unicredit Group of which UniCredit is the parent are the result of the October 1998 business combination between the Credito Italiano national commercial banking group (established in 1870 with the name of *Banca di Genova*) and Unicredito S.p.A. (at the time the holding company owning a controlling interest in Banca CRT (*Banca Cassa di Risparmio di Torino S.p.A.*), CRV (*Cassa di Risparmio di Verona Vicenza Belluno e Ancona Banca S.p.A.*) and Cassamarca (*Cassa di Risparmio della Marca Trevigiana S.p.A.*).

Since its formation, the Group has continued to expand in Italy and Eastern Europe through both organic growth and acquisitions, consolidating its role also in relevant sectors outside Europe, such as the asset management sector in the United States.

Such expansion has been characterised, in particular:

- by the business combination with HypoVereinsbank, realised through a public tender offer launched in summer 2005 by Unicredit to acquire the control over Bayerische Hypo- und

Vereinsbank AG (“**HVB**”) – subsequently renamed UniCredit Bank AG – and its subsidiaries, such as Bank Austria Creditanstalt AG, subsequently renamed “UniCredit Bank Austria AG” (“**BA**” or “**Bank Austria**”). At the conclusion of the offer perfected during 2005, UniCredit acquired a shareholding for an amount equal to 93.93 per cent. of the registered share capital and voting rights of HVB. On 15 September 2008 the squeeze-out of HVB’s minority shareholders, resolved upon by the bank’s shareholders’ meeting in June 2007, was registered with the Commercial Register of Munich . Therefore, the HVB shares held by the minority shareholders – equal to 4.55 per cent. of the share capital of the company – were transferred to UniCredit by operation of law and HVB became a UniCredit wholly-owned subsidiary. In summer 2005 UniCredit also conducted an exchange offer for the acquisition of all shares of BA not held by HVB at the time. At the conclusion of the offer, the Group held 94.98 per cent. of the aggregate share capital of BA. In January 2007, UniCredit –which at the time held 96.35 per cent. of the aggregate share capital of BA, including a stake equal to 77.53 per cent. transferred to UniCredit by HVB – resolved to commence the procedures to effect the squeeze-out of the minority shareholders of BA. As at the date of this Prospectus, UniCredit’s interest in BA is equal to 99.996 per cent.

- by the business combination with Capitalia S.p.A. (“**Capitalia**”) - the holding company of the Capitalia banking group (the “**Capitalia Group**”), realised through a merger by way of incorporation of Capitalia into UniCredit effective as of 1 October 2007.

In 2008 the squeeze outs⁸ of the ordinary BA and HVB shares held by minority shareholders were completed.

Proceedings as to the adequacy of the squeeze-out price and in relation to the challenge to the relevant shareholders’ resolutions promoted by certain BA and SVB shareholders are still pending. For more details please refer to the Issuer’s unaudited condensed interim consolidated financial statements (including review report) as of and for the year ended 31 December 2012 incorporated by reference herein.

UniCredit S.p.A. ordinary shares are listed on the Milan Stock Exchanges organised and managed by Borsa Italiana S.p.A., on the Frankfurt Stock Exchanges, segment *General Standard* and on the Warsaw Stock Exchanges.

LEGAL AND ARBITRATION PROCEEDINGS

UniCredit S.p.A. and other UniCredit group companies are involved in legal proceedings. From time to time, past and present directors, officers and employees may be involved in civil or criminal proceedings the details of which the UniCredit group may not lawfully know about or communicate.

The Group is also required to deal appropriately with various legal and regulatory requirements in relation to issues such as conflicts of interest, ethical issues, anti-money laundering laws, US and

international sanctions, privacy and information security rules and others. Failure to do so may lead to additional litigation and investigations and subject the Group to damages claims, regulatory fines, other penalties or reputational damage. In addition, one or more Group companies is subject to investigations by the relevant supervisory authority in a number of countries in which it operates. These include investigations relating to aspects of systems and controls and instances of actual and potential regulatory infringement by the relevant Group companies or its clients.

In many cases, there is substantial uncertainty regarding the outcome of the proceedings and the amount of any possible losses. These cases include criminal proceedings, administrative proceedings brought by the relevant supervisory authority and claims in which the petitioner has not specifically quantified the penalties requested (for example, in putative class action in the United States). In such cases, given the infeasibility of predicting possible outcomes and estimating losses (if any) in a reliable manner, no provisions have been made. However, where it is possible to reliably estimate the amount of possible losses and the loss is considered likely, provisions have been made in the financial statements based on the circumstances and consistent with international accounting standards IAS.

To protect against possible liabilities that may result from pending lawsuits (excluding labour law, tax cases or credit recovery actions), the UniCredit Group has set aside a provision for risks and charges of €1,126 million as at June 30, 2013. The estimate for reasonably possible liabilities and this provision are based upon currently available information but, given the numerous uncertainties inherent in litigation, involve significant elements of judgment. In some cases it is not possible to form a reliable estimate, for example where proceedings have not yet been initiated or where there are sufficient legal and factual uncertainties to make any estimate purely speculative. Therefore, it is possible that this provision may not be sufficient to entirely meet the legal costs and the fines and penalties that may result from pending legal actions, and the actual costs of resolving pending lawsuits may prove to be substantially higher.

Consequently it cannot be excluded that an unfavourable outcome of such legal proceedings or such investigations may have a negative impact on the results of the UniCredit group and/or its financial situation.

Set out below is a summary of information relating to matters involving the UniCredit group which are not considered groundless or in the ordinary course. Please note that labour law, tax and credit recovery actions are excluded from this section.

Madoff

Background

In March 2009 Bernard L. Madoff (“**Madoff**”), former chairman of the NASDAQ Exchange and owner of Bernard L. Madoff Investment Securities LLC (“**BLMIS**”), a broker-dealer registered with the Securities Exchange Commission (the “**SEC**”) and the Financial Industry Regulatory Authority (“**FINRA**”), pled guilty to crimes, for which he was sentenced to 150 years in prison, that included securities fraud, investment adviser fraud, and providing false information to the SEC in connection with his operation of what has been described as a Ponzi scheme. In December of 2008, shortly after Madoff’s arrest, a bankruptcy administrator (the “**SIPA Trustee**”) for the

liquidation of BLMIS was appointed in accordance with the U.S. Securities Investor Protection Act of 1970.

Following Madoff's arrest, several criminal and civil suits were filed in various countries against financial institutions and investment advisers by, or on behalf of, investors, intermediaries acting as brokers for investors and public entities in relation to losses incurred.

As at the date of Madoff's arrest, and since mid-2007, the Alternative Investments division of Pioneer ("PAI"), an indirect subsidiary of UniCredit S.p.A. acted as investment manager and/or investment adviser for the Primeo funds (including the Primeo Fund Ltd (now in Official Liquidation), "Primeo") and various funds-of-funds ("FoFs"), which were non-U.S. funds that had invested in other non-U.S. funds with accounts at BLMIS. PAI also owned the founder shares of Primeo since 2007. Previously, the investment advisory functions had been performed by BA Worldwide Fund Management Ltd ("BAWFM"), an indirect subsidiary of UniCredit Bank Austria AG ("BA"). For a period of time, BAWFM had previously performed investment advisory functions for Thema International Fund plc, a non-U.S. fund that had an account at BLMIS.

UniCredit Bank AG (formerly Bayerische Hypo- Und Vereinsbank AG) issued tranches of notes whose potential yield was linked to the yield of a hypothetical investment in Primeo. Some BA customers purchased shares in Primeo funds that were held in their accounts at BA. BA owned a 25 percent stake in Bank Medici AG ("Bank Medici"), a defendant in certain proceedings described below. Bank Medici is alleged to be connected, inter alia, to the Herald Fund SPC, a non-U.S. fund that had an account at BLMIS.

Proceedings in the United States

Purported Class Actions

UniCredit S.p.A., BA, PAI and Pioneer Global Asset Management S.p.A. ("PGAM"), a UniCredit S.p.A. subsidiary, were named among some 70 defendants in three putative class action lawsuits filed in the United States District Court for the Southern District of New York (the "**Southern District**") between January and March 2009, purporting to represent investors in three investment fund groups (the "**Herald**" funds, "**Primeo**" and the "**Thema**" funds) which were invested, either directly or indirectly, in BLMIS.

The three cases were later consolidated for pre-trial purposes and in February 2010 amended complaints were filed in each case. In April 2011, permission was sought from the Southern District to amend further each of the three complaints, principally to withdraw certain claims under the United States federal securities laws, and, in one case, to add a claim under the United States Racketeer Influenced and Corrupt Organizations Act ("**RICO**"), as further described below.

The amended "Herald" complaint claimed on behalf of investors in Herald Fund SPC-Herald USA Segregated Portfolio One and/or Herald (Lux) on December 10, 2008, or who invested in those funds from January 12, 2004 to December 10, 2008. It was principally alleged that defendants, including UniCredit S.p.A., BA and Bank Medici breached common law duties by failing to safeguard the claimants' investment in the face of "red flags" that, it is claimed, should have alerted them to Madoff's fraud. The plaintiffs also requested the Court's permission to add claims that

defendants, including UniCredit S.p.A., violated RICO by allegedly participating in a plan to enrich themselves by feeding investors' money into Madoff's Ponzi scheme.

The plaintiffs alleged that the proposed class lost approximately \$2.0 billion in the Madoff Ponzi scheme, which they sought to recover trebled under RICO.

The amended "Primeo" complaint claimed on behalf of investors in Primeo Select Fund and/or Primeo Executive Fund on 10 December 2008, or who invested in those funds from January 12, 2004 to December 12, 2008. It was principally alleged that the defendants, including UniCredit S.p.A., BA, Bank Medici, BAWFM, PAI and PGAM breached common law duties misrepresenting the monitoring that would be done of Madoff and claimants' investments and disregarding "red flags" of Madoff's fraud.

The amended "Thema" complaint claimed on behalf of investors in Thema International Fund plc and/or Thema Fund on 10 December 2008, or who invested in those funds from January 12, 2004 to December 14, 2008. It was principally alleged that defendants including UniCredit S.p.A., BAWFM and Bank Medici committed common law torts by, inter alia, recklessly or knowingly making or failing to prevent untrue statements of material fact and/or failing to exercise due care in connection with the claimants' investments in the Thema fund.

In the Herald, Primeo and Thema cases, the plaintiffs sought damages in unspecified amounts (other than under RICO in the case of the Herald complaint, as noted above), interest or lost profits punitive damages, costs and attorneys' fees, as well as an injunction preventing defendants from using fund assets to defend the action or otherwise seeking indemnification from the funds.

On November 29, 2011, the Southern District dismissed, at the request of UniCredit S.p.A., PGAM, PAI, BA and other defendants, all three purported class action complaints on grounds, with respect to UniCredit S.p.A., PGAM, PAI and BA, that the United States is not the most convenient forum for resolution of plaintiffs' claims.

On or about January 11, 2012, all three groups of plaintiffs appealed the judgment of the Southern District to the United States Court of Appeals for the Second Circuit (the "**Second Circuit**"). The appeals are now in progress.

Claims by the SIPA Trustee

In December 2010, the SIPA Trustee filed two cases (the "**HSBC**" and the "**Kohn**" case, respectively) in the United States Bankruptcy Court in the Southern District of New York (the "**Bankruptcy Court**") against several dozen defendants. Both cases were later removed to the non-bankruptcy federal trial court in the Southern District at the request of UniCredit S.p.A., PAI and certain other defendants.

In the HSBC case, the SIPA Trustee sought to recover from some 60 defendants, including UniCredit S.p.A., BA, BAWFM, PAI, and Bank Medici amounts to be determined at trial, allegedly representing so-called avoidable transfers to initial transferees of funds from BLMIS, subsequent transfers of funds originating from BLMIS (in the form of alleged management, performance, advisory, administrative and marketing fees, among other such payments, said to exceed \$400 million in aggregate for all defendants), and compensatory and punitive damages against certain defendants on a joint and several basis, including the five abovementioned, alleged to be in excess

of \$2 billion. In addition to avoidable transfers, the SIPA Trustee sought to recover in the HSBC action unspecified amounts (said to exceed several billion dollars) for common law claims of money had and received, unjust enrichment, aiding and abetting BLMIS's breach of fiduciary duty and BLMIS's fraud and contribution. However, on July 28, 2011, the Southern District Court dismissed, at the request of UniCredit S.p.A., PAI, BA and certain other defendants the common law claims. On June 20, 2013, the Second Circuit affirmed the Southern District's dismissal of the common law claims. Certain claims brought by the SIPA Trustee which were not addressed in the motion to dismiss remain pending in the Bankruptcy Court.

On March 22, 2012 UniCredit S.p.A., BA and PAI requested that the Southern District withdraw the reference from the Bankruptcy Court in respect of the claims that the Southern District had returned to the Bankruptcy Court following the decision by the Southern District Court on July 28, 2011 to dismiss the common law claims.

In the Kohn case, the SIPA Trustee seeks to recover from more than 70 defendants, including UniCredit S.p.A., BA, PGAM, BAWFM, Bank Medici, Bank Austria Cayman Islands, and several persons affiliated with UniCredit S.p.A. and BA, unspecified avoidable transfers from BA as an initial transferee from BLMIS and as from UniCredit S.p.A, BA and other UniCredit S.p.A. affiliated defendants as subsequent transferees of funds likewise originating from BLMIS. The complaint further asserts common law claims, including unjust enrichment and conversion, as well as violations of the RICO statute as the alleged result of the defendants' directing investors' money into Madoff's Ponzi scheme. The SIPA Trustee seeks treble damages under RICO (three times the reported net \$19.6 billion losses allegedly suffered by all BLMIS investors), alleged retrocession fees, management fees, custodial fees, compensatory, exemplary and punitive damages, and costs of suit as against the defendants on a joint and several basis.

On July 25, 2011, UniCredit S.p.A., BA, PGAM and Alessandro Profumo (former CEO of UniCredit S.p.A.) moved to dismiss the common law and RICO claims.

On February 21, 2012, the Southern District dismissed the RICO and common law claims asserted in the Kohn action, and returned to the Bankruptcy Court the remaining avoidance claims. On March 21, 2012, the SIPA Trustee filed a notice of appeal to the Second Circuit of the decision. He procedurally withdrew that appeal on April 10, 2012, subject to potential reinstatement at any party's request by April 2014.

On March 22, 2012 UniCredit S.p.A., BA and PGAM requested that the Southern District withdraw the reference from the Bankruptcy Court in respect of the claims that the Southern District had returned to the Bankruptcy Court following the decision by the Southern District to dismiss the RICO and common law claims, as noted above. UniCredit S.p.A. and its affiliated defendants intend to continue defending these proceedings vigorously.

Proceedings Outside the United States

On July 22 2011, the Joint Official Liquidators of Primeo (the “**Primeo Liquidators**”) issued a writ of summons against PAI in the Grand Court of the Cayman Islands, Financial Services Division. In that claim the Primeo Liquidators allege that PAI is liable under the terms of an investment advisory agreement between Primeo and PAI as a result of alleged breaches of duties by

PAI and also as a result of alleged acts and omissions by BLMIS for which PAI is alleged to be vicariously liable. The Primeo Liquidators also allege that fees paid to PAI were paid under a mistake of fact and claim restitution from PAI of those fees. In aggregate, the Primeo Liquidators claim approximately \$262 million plus additional unquantified damages, as well as interest and costs.

Numerous civil proceedings (with a claimed amount totalling about Euro 130 million) have been initiated in Austria by numerous investors related to Madoff's fraud in which BA, among others, has been named as defendant. The plaintiffs invested in funds that, in turn, invested directly or indirectly with BLMIS. Several judgments have been issued in favour of BA in various instances, some are already legally binding. Other judgments have been handed down against BA, but none of them is final so far as appeals are pending. With respect to those cases currently on appeal no estimate can be made as to their potential outcomes nor the effects, if any, which the appeal decisions may have on other cases pending against BA.

In respect of the Austrian civil proceedings pending as against BA, which relates to Madoff's fraud, BA has made provisions for an amount considered appropriate to the current risk.

Bank Austria has been named as a defendant in criminal proceedings in Austria which concern the Madoff case. These proceedings were initiated by a complaint filed by the FMA (the Austrian Financial Market Authority) to the Austrian prosecutor. Subsequently complaints were filed by purported investors in funds which were invested, either directly or indirectly, in BLMIS and Bernard L. Madoff Securities LLC. These complaints allege, amongst other things, that BA breached provisions of the Austrian Investment Fund Act as prospectus controller of the Primeo Fund. These criminal proceedings are still at the pre-trial stage. In addition the fee structure and the prospectuses themselves have been examined by an expert appointed by the prosecution.

Legal proceedings were brought in Germany against UniCredit Bank AG regarding index-linked notes issued by UniCredit Bank AG referencing Primeo. One of these lawsuits has since been abandoned by the plaintiff, the second lawsuit was rejected in its entirety by the Munich Regional Court. The plaintiff's appeal was also rejected by the Higher Regional Court of Munich, and the Higher Regional Court also denied the plaintiff a right of appeal to the Federal Court of Justice. The plaintiff made a special motion to the Federal Court of Justice so as to be granted a right of appeal; that motion is currently pending. Prior to the appellate decision being handed down a further lawsuit in relation to the same notes was brought against UniCredit Bank AG. This lawsuit has also been rejected in its entirety by the Munich Regional Court; the plaintiffs have lodged an appeal against this decision with the Higher Regional Court of Munich.

A Chilean investor in notes index-linked to Primeo has filed a complaint with the Chilean prosecutor. There was an investigative phase only where testimony had been taken from employees or former employees of UniCredit S.p.A. or its affiliates. The investigation was then closed. An application has since been made to dismiss the complaint with prejudice. This application was granted by the court on June 25, 2012 and the case has been closed.

Subpoenas and Investigations

UniCredit S.p.A. and several of its subsidiaries have received subpoenas orders and requests to produce information and documents from the SEC, the U.S. Department of Justice and the SIPA Trustee in the United States, the Austrian Financial Market Authority, the Irish Supervisory Authority for financial markets and BaFin in Germany related to their respective investigations into Madoff's fraud. Similar such subpoenas, orders and requests may be received in the future by UniCredit S.p.A. its affiliates, and some of their employees or former employees, in the foregoing markets or in places where proceedings related to Madoff investments are pending.

Certain Potential Consequences

In addition to the foregoing proceedings stemming from the Madoff case against UniCredit S.p.A., its subsidiaries and some of their respective employees and former employees, additional Madoff-related actions have been threatened and are in the process of being and may be filed in the future in said countries or in other countries by private investors or local authorities. The pending or future actions may have negative consequences for the UniCredit group.

UniCredit S.p.A. and its subsidiaries intend to defend themselves vigorously against the Madoff-related claims and charges.

Save as described above, for the time being it is not possible to estimate reliably the timing and results of the various actions, nor determine the level of responsibility, if any responsibility exists. Presently, and save as described above, in compliance with international accounting standards, no provisions have been made for specific risks associated with Madoff disputes.

Cirio

In April 2004, the extraordinary administration of Cirio Finanziaria S.p.A. (formerly Cirio S.p.A.) ("**Cirio**") served notice on Sergio Cagnotti and various banks, including Capitalia S.p.A. (absorbed by UniCredit S.p.A.) and Banca di Roma S.p.A. (now UniCredit S.p.A.), of a petition to declare invalid an allegedly illegal agreement with Cirio S.p.A. regarding the sale of the dairy company Eurolat to Dalmata S.r.l. ("**Parmalat**"). The extraordinary administration subsequently requested that Capitalia S.p.A. and Banca di Roma S.p.A. jointly refund €168 million and that all defendants jointly pay damages of €474 million. In the alternative, it sought the revocation of the settlement made by Cirio S.p.A. and/or repayment by the banks of the amount paid for the agreement in question, on the grounds of "undue profiteering".

Despite no preliminary investigation being conducted, in February 2008, the Court ordered Capitalia S.p.A. and Sergio Cagnotti to pay €223.3 million plus currency appreciation and interest from 1999. UniCredit S.p.A. appealed the decision. It also requested a stay of execution of the lower court's judgment which was successfully obtained in January 2009. The next hearing is scheduled on November 11, 2014.

Provisions have been made for an amount considered appropriate to the current risk of the proceedings.

In April 2007, certain Cirio group companies in extraordinary administration filed a petition against Capitalia S.p.A. (now UniCredit S.p.A.), Banca di Roma S.p.A., UBM (now UniCredit S.p.A.) and

other banks for compensation for damage resulting from their role as arrangers of bond issues by Cirio group companies, although, according to the claimants, they were already insolvent at the time.

Damages were quantified as follows:

- the damages incurred by the petitioners due to a worsening of their financial condition were calculated within a range of €421.6 million to €2.082 billion (depending upon the criteria applied);
- the damages incurred because of the fees paid to the lead managers for bond placements were calculated at a total of €9.8 million;
- the damages, to be determined during the proceedings, incurred by Cirio Finanziaria S.p.A. (formerly Cirio S.p.A.), for losses related to the infeasibility of recovering, through post-bankruptcy clawback, at least the amount used between 1999 and 2000 to cover the debt exposure of some of the Cirio group companies;

plus interest and currency revaluation from the date owed to the date of payment.

In the ruling of November 3, 2009, the judge denied the claimants' claim that the companies of the Cirio group in extraordinary administration be held jointly liable for reimbursement of legal expenses, in favour of the defendant banks. The extraordinary administration has appealed against the ruling and the hearing for the conclusions is set for January 27, 2016.

UniCredit S.p.A. believes the action to be groundless. Accordingly, no provisions have been made.

Merckle

In February 2012 two customers belonging to the same group of companies have filed claims against UCB AG with a total amount in dispute of € 491.4 million (plus interest). The dispute results from the termination of their repo-transactions with UCB AG. The claimants assert that the compensation paid by UCB AG to the clients following the clients' default was insufficient. UCB AG is defending itself against said claims.

New Mexico CDO-Related Litigations

In August 2006, the New Mexico Educational Retirement Board (“**ERB**”) and the New Mexico State Investment Council (“**SIC**”), both state funds, invested US\$ 90 million in Vanderbilt Financial, LLC (“**VF**”), a vehicle sponsored by Vanderbilt Capital Advisors, LLC (“**VCA**”). The purpose of VF was to invest in the equity tranche of various collateralized debt obligations (“**CDOs**”) managed primarily by VCA. The equity investments in VF, including those by the ERB and SIC, became worthless. VF was later liquidated.

Several lawsuits were filed or threatened relating to the losses suffered by the ERB and SIC on their VF investments and additional losses suffered by SIC on its earlier investments in other VCA-managed CDOs. As described below, VCA has now reached an agreement in principle with the ERB, SIC and State of New Mexico to settle all claims brought or threatened by or on behalf of the state or any of its agencies or funds.

Foy Litigation

In January 2009, a lawsuit entitled Frank Foy v. Vanderbilt Capital Advisors, LLC, et al., was filed in New Mexico state court. Foy is a former employee of the ERB, and brings his suit under the New Mexico Fraud Against Taxpayers Act (“**FATA**”), a statute that allows private citizens to sue in a representative capacity on behalf of the state, and to collect a share of any recovery. The statute also provides for treble damages, penalties and other remedies.

Foy asserts that the ERB and SIC investments were procured by fraud in that false or misleading statements about the nature and risk of the VF investment were allegedly made to induce the state funds to invest in VF. Foy also alleges that the investment was induced by political favoritism, and that political contributions to the then Governor of New Mexico, Bill Richardson, and/or other payments made by or on behalf of Vanderbilt inappropriately influenced the boards of the ERB and SIC to authorize the investment in VF.

The Foy lawsuit seeks in excess of \$ 365 million, comprising the lost investment of USD 90 million and claimed lost profits of \$30 million, which when trebled comes to USD 360 million, plus attorneys fees, interest and other costs and penalties.

The complaint names as defendants VCA; its parent company, Pioneer Investment Management USA Inc. (“**PIM US**”), PIM US’s parent company, Pioneer Global Asset Management S.p.A. (“**PGAM**”) UniCredit S.p.A; various officers and directors of VCA, VF and/or PIM US; law firms, external auditors, investment banks and State of New Mexico officials.

The defendants filed motions to dismiss the lawsuit on various substantive and procedural grounds, including their contention that FATA may not be applied retroactively to conduct that had already occurred before the statute was enacted, as the challenged investments here had occurred before FATA became effective. In a parallel action brought by Foy against other defendants, the New Mexico Court of Appeals ruled in December 2012 that that statute may not be applied retroactively. Foy has appealed that ruling to the New Mexico Supreme Court.

The court has ruled that Foy may proceed with the lawsuit to the extent that it challenges conduct occurring after FATA’s effective date, and that the complaint adequately alleges conduct after that date.

Foy sought to amend his complaint to add over 50 additional legal theories of wrongdoing and to put in issue other VCA-managed CDO transactions in which the SIC had previously invested, and thereby to increase the claimed damages (after trebling) to \$864 million. He has thus far been unsuccessful in expanding the case.

In January 2012, the defendants’ other motions to dismiss were denied or deferred by the court to a later stage of the case, and as a result, the parties have begun initial discussions aimed at clarifying the scope and timing of permitted discovery. The defendants also filed an answer denying the material allegations of the complaint.

Class and Derivative Actions

In January and February 2010, two purported class or derivative actions entitled Donna J. Hill v. Vanderbilt Capital Advisors, LLC, et al., and Michael J. Hammes v. Vanderbilt Capital Advisors, LLC, et al, were filed in New Mexico state court, in which the plaintiffs seek to recover, on behalf of ERB or its retirement plan participants, the \$40 million that ERB lost on its investment in VF.

The Hill and Hammes cases make factual allegations similar to those in Foy, but they bring their claims under different legal theories, primarily involving common law claims of fraud, breach of fiduciary duty (against the ERB board members), aiding and abetting breaches of duty by the ERB board members, and violations of the securities laws.

As amended, the Hill and Hammes cases name as defendants VCA, a former officer of VCA, and several current or former ERB board members. In February 2010, the Hill case was removed to the United States District Court for the District of New Mexico. The defendants moved to dismiss the Hill complaint, and in September 2011, the federal court ruled that it lacked subject matter jurisdiction and remanded the case to state court. In December 2012, the United States Court of Appeals for the Tenth Circuit determined that it lacked jurisdiction to review that ruling. Hill has since been transferred to a New Mexico state court judge.

Deadlines in the Hammes case have been extended several times. The defendants are not yet due to answer or move against the Hammes complaint.

SIC Claim Letter

In July 2012, VCA received a letter from the SIC's attorneys asserting that the SIC is prepared to file its own lawsuit against VCA concerning both the \$ 50 million investment it lost in VF and concerning earlier investments it made in other VCA-managed CDOs. The letter claims that the SIC's aggregate damages are in excess of \$ 100 million, and requests a meeting to discuss the threatened claims before a lawsuit is filed. Because no complaint has been filed, the precise nature of the claims the SIC may assert, and what defenses may be available to VCA, are not yet known.

Settlement

In December 2012, VCA reached an agreement in principle with the SIC, ERB and State of New Mexico to settle all claims brought or threatened by or on behalf of the state or any of its agencies or funds relating to any investments made in VF or other VCA-managed CDO products. Settlement papers were signed in February 2013. The settlement must be approved by the courts, but, if approved and implemented in accordance with its terms, will result in the dismissal of the Foy, Hill and Hammes cases, as well as resolving the SIC's threatened claim. As part of the settlement, releases will be issued in favor of VCA, PIM US, PGAM, UniCredit, and all of their affiliated personnel who were named as defendants in any of the cases. On July 12, 2013, the Foy court issued an order deferring considering of the settlement until after the New Mexico Supreme Court decides in Foy's parallel case, which is against a different set of defendants, whether the FATA statute may be applied retroactively, and it stayed further proceedings in VCA's Foy case pending that appeal. It is expected that the Court will now review the proposed settlement in 2014.

Malott Litigation

In November 2011, Bruce Malott, the former chairman of the ERB, brought suit in New Mexico state court against a number of persons and entities allegedly involved with improper "pay to play" or kickback practices at the ERB. Among the defendants are VCA, VF, PIM US and two former officers of VCA. The factual allegations against VCA are similar to those asserted in Foy, Hill, and Hammes except that Malott seeks to recover for alleged damages that he claims to have suffered personally when the challenged transactions and practices were publicly reported in the New

Mexico press, leading Malott to resign from the ERB and allegedly to lose his investment in his accounting firm.

The complaint alleges that the defendants' actions violated the New Mexico Racketeering Act and the New Mexico Unfair Practices Act and constitute fraud, breach of fiduciary duty, negligent misrepresentation, and other torts. No damages amount is specified, but the plaintiff seeks treble damages and punitive damages (as applicable) on top of whatever actual damages he can prove.

The defendants moved to dismiss the complaint in March 2012, In June 2013 Malott's claims were dismissed without prejudice, and Malott has until the end of September 2013 to file an amended Complaint.

Divania S.r.l.

In 2007, Divania S.r.l. (now in bankruptcy) ("**Divania**") filed a suit in the Court of Bari Italy against UniCredit Banca d'Impresa S.p.A. (then UniCredit Corporate Banking S.p.A. and now UniCredit S.p.A.) alleging violations of law and regulation in relation to certain rate and currency derivative transactions created between January 2000 and May 2005 first by Credito Italiano S.p.A. and subsequently by UniCredit Banca d'Impresa S.p.A. (now UniCredit S.p.A.).

The petition requests that the contracts be declared non existent, or failing that, null and void or to be cancelled or terminated and that UniCredit Banca d'Impresa S.p.A. (now UniCredit S.p.A.) pay the claimant a total of €276.6 million as well as legal fees and interest. It also seeks the nullification of a settlement the parties reached in 2005 under which Divania S.r.l had agreed to waive any claims in respect of the transactions.

UniCredit S.p.A. rejects Divania S.r.l.'s demands. Without prejudice to its rejection of liability, it maintains that the amount claimed has been calculated by aggregating all the debits made (for an amount much larger than the actual amount), without taking into account the credits received that significantly reduce the claimant's demands.

In 2010 the report of the Court named expert witness submitted a report which broadly confirms UniCredit's position stating that there was a loss on derivatives amounting to about €6,400,000 (which would increase to about €10,884,000 should the out-of-court settlement, challenged by the claimant, be judged unlawful and thus null and void). The expert opinion states that interest should be added in an amount between €4,137,000 (contractual rate) and €868,000 (legal rate). A hearing was held on December 10, 2012, a decision of the Court was then expected, but, instead, the Court ordered the expert witness to supplement his opinion.

Another two lawsuits have also been filed by Divania, one for €68.9 million (which was subsequently increased up to Euro 80,5 million ex art 183 c.p.c.) and the second for €1.6 million; the first one was adjourned for the trial and the second one was adjourned for the conclusions.

UniCredit S.p.A. has made a provision for an amount consistent with the lawsuit risk.

Acquisition of Cerruti Holding Company S.p.A. by Fin.Part S.p.A.

At the beginning of August 2008, the Trustee in Bankruptcy of Fin.Part S.p.A. ("**Fin.Part**") brought a civil action against UniCredit S.p.A., UniCredit Banca S.p.A. (now UniCredit S.p.A.), UniCredit Corporate Banking S.p.A. (now UniCredit S.p.A.) and one other bank not belonging to

the UniCredit group for contractual and tortious liability. Fin.Part's claim against each of the defendant banks, jointly and severally or alternatively, each to the extent applicable, is for damage allegedly suffered by Fin.Part and its creditors as a result of the acquisition of Cerruti Holding Company S.p.A. ("**Cerruti**") by Fin Part.

The claimant alleges that the financial obligations arising out of the Cerruti acquisition financing brought about Fin Part's bankruptcy and that the banks therefore acted unlawfully.

The claim is for €211 million plus all fees, commissions and interest earned in connection with the allegedly unlawful activities.

On December 23, 2008 the Trustee in Bankruptcy of C Finance S.A. ("**C Finance**") intervened in the case. It maintains that C Finance S.A. was insolvent at the time of its establishment because of the transfer of bond loan income to Fin.part obtaining in exchange valueless assets and that it was the banks and their executives, in devising and executing the transaction, who contributed in causing C Finance S.A. to become insolvent. Accordingly, it seeks damages as follows: a) the total bankruptcy liabilities (€308.1 million); or, alternatively, b) the amounts disbursed by C Finance S.A. to Fin.Part and Fin.Part International (€193 million); or, alternatively, c) the amount collected by UniCredit S.p.A. (€123.4 million).

The banks are also requested to pay damages for the amounts collected (equivalent to €123.4 million, plus €1.1 million in fees and commissions) for the alleged invalidity and illegality of the transaction in question and the payment of Fin.Part's debts to UniCredit S.p.A. using the proceeds from the C Finance S.A. bond issue. In addition, the claimant alleges that the transaction was a means for evading Italian law regarding limits and procedures for bond issues.

In January 2009, the judge rejected a writ of attachment against the defendant not belonging to UniCredit group.

In addition, on October 2, 2009, the receivership of Fin.Part subpoenaed in the Court of Milan UniCredit Corporate Banking S.p.A. (now UniCredit S.p.A.), in order that (i) the invalidity of the "payment" of €46 million made in September 2001 by Fin.Part to the former Credito Italiano be recognised and consequently, (ii) the defendant be sentenced to return such amount in that it relates to an exposure granted by the bank as part of the complex financial transaction under dispute in the prior proceedings.

At the hearing held on February 21, 2012 the two lawsuits were joined and in April 2013 these have been settled.

Valauret S.A.

In 2001, Valauret S.A. and Hughes de Lasteyrie du Saillant, bought shares in the French company Rhodia S.A. They filed a civil claim in 2004 for losses resulting from the drop in the Rhodia S.A. share price between 2002 and 2003, allegedly caused by earlier fraudulent actions by members of the company's board of directors and others.

BA (as successor to Creditanstalt) was joined as the fourteenth defendant in 2007 on the basis that Creditanstalt was banker to one of the defendants.

Valauret S.A. is seeking damages of €129.8 million in addition to legal costs and Hughes de Lasteyrie du Saillant damages of €4.39 million.

In 2006, before the action was extended to BA, the civil proceedings were stayed following the opening of criminal proceedings by the French State that are on going. In December 2008, the civil proceedings were also stayed against BA.

In BA's opinion, the claim is groundless and no provisions have been made.

Association of Small Shareholders of NAMA d.d. in bankruptcy; Slobodni sindiKat.

Zagrebačka Banka D.D. ("**Zagrebačka**") is being sued before the Zagreb Municipal Court by two parties: (i) the association of small shareholders of NAMA d.d. in bankruptcy; and (ii) Slobodni SindiKat.

It is said that Zagrebačka violated the rights of NAMA d.d., as minority shareholder of Zagrebačka until 1994 by, inter alia, not distributing to NAMA d.d. profits in the form of Zagrebačka shares. The claimants seek shares in compensation or alternatively damages of approximately €124 million.

Zagrebačka maintains that the claimants do not have legal standing in that they have never been Zagrebačka shareholders, nor the holders of the rights allegedly violated.

On November 16, 2009, the judge rejected the claimants' claim, without dealing with the merits, on the basis that the claimants did not have standing.

The decision has been appealed.

No provisions have been made.

GBS S.p.A.

At the beginning of February 2008, General Broker Service S.p.A. ("**GBS S.p.A.**") initiated arbitration proceedings against UniCredit S.p.A. for the alleged unlawful behaviour of the Bank with regards to the insurance brokerage relationship allegedly deriving from the exclusive agreement signed in 1991.

In a decision issued on 18 November 2009, UniCredit S.p.A. was ordered to pay GBS S.p.A. €144 million, as well as legal costs and the costs of an expert's report. UniCredit S.p.A. determined that the decision ordered by the arbitrator was unsound and groundless, and has lodged an appeal together with a request for a stay of execution.

On 8 July 2010, the Court granted a stay of execution in respect of amounts exceeding €10 million. UniCredit S.p.A. paid such amount in favour of GBS S.p.A., pending the outcome of the appeal. The next hearing is scheduled for 5 November 2013.

A provision has been made for an amount consistent with what currently appears to be the risk resulting from the award issued.

ADDITIONAL RELEVANT INFORMATION

The following section sets out further pending proceedings against UniCredit S.p.A. and other companies of the UniCredit group that UniCredit considers relevant and which, at present, are not characterised by known economic demand or for which the economic request cannot be quantified.

Proceedings arising out of the purchase of HVB by UniCredit S.p.A. and the group reorganisation

Voidance action challenging the transfer of shares of Bank Austria Creditanstalt AG (BA) held by HVB to UniCredit S.p.A. (Shareholders' Resolution of 25 October 2006)

Numerous minority shareholders of HVB have filed petitions challenging the resolutions adopted by HVB's Extraordinary Shareholders' Meeting of October 25, 2006 approving various Sale and Purchase Agreements ("SPA") transferring the shares held by HVB in BA and in HVB Bank Ukraine to UniCredit S.p.A. and the shares held by HVB in International Moscow Bank and AS UniCredit Bank Riga to BA and the transfer of the Vilnius and Tallin branches to AS UniCredit Bank Riga, asking the Court to declare these resolutions null and void. The actions are based on purported defects in the formalities relating to the calling for and conduct of the Extraordinary Shareholders' Meeting held on October 25, 2006, and on the allegation that the sale price for the shares was too low. In the course of this proceeding, certain shareholders asked the Regional Court of Munich to state that the business combination agreement, entered into between HVB and UniCredit S.p.A. ("BCA"), should be regarded as a de facto domination agreement.

In the judgment of January 31, 2008, the Court declared the resolutions passed at the Extraordinary Shareholders' Meeting of 25 October 2006 to be null and void for formal reasons. The Court did not express an opinion on the issue of the alleged inadequacy of the purchase price but expressed the opinion that the BCA entered into between UniCredit S.p.A. and HVB in June 2005 should have been submitted to HVB's Shareholders' Meeting as it represented a "concealed" domination agreement.

HVB filed an appeal against this judgment since it is believed that the provisions of the BCA would not actually be material with respect to the purchase and sale agreements submitted to the Extraordinary Shareholders' Meeting of October 25, 2006, and that the matter concerning valuation parameters would not have affected the purchase and sales agreements submitted for the approval of the shareholders' meeting. HVB also believes that the BCA is not a "concealed" domination agreement, due in part to the fact that it specifically prevents entering into a domination agreement for five years following the purchase offer.

The HVB shareholder resolution can only become null and void if and when the Court's decision becomes final.

Moreover, it should be noted that, in using a legal tool recognised under German law, and pending the aforementioned proceedings, HVB asked the Shareholders' Meeting held on July 29 and 30, 2008 to reconfirm the resolutions that were passed by the Extraordinary Shareholders' Meeting of October 25, 2006 and which were contested (so-called Confirmatory Resolutions). If these Confirmatory Resolutions became final and binding, they would make the alleged improprieties in the initial resolutions irrelevant.

The Shareholders' Meeting approved these Confirmatory Resolutions. These, however, were in turn challenged by several shareholders in August 2008.

In February 2009, an additional resolution was adopted by HVB that confirmed the adopted resolutions.

In the judgment of December 10, 2009, the Court rejected the voidance action against the first Confirmatory Resolutions adopted on July 29 and 30, 2008. Appeals filed by several former shareholders against this judgment were rejected by Higher Regional Court (Oberlandesgericht) of Munich on December 22, 2010. In a decision taken on June 26, 2012 the German Federal Supreme Court (Bundesgerichtshof) set aside the judgment of the Higher Regional Court and referred the case back to the Higher Regional Court for reassessment. In June 2013, the Higher Regional Court set directions for the future conduct of the matter. A judgment is not expected this year.

In light of the above events, the appeal proceedings initiated by HVB against the judgment of January 31, 2008 were suspended until a final judgment is issued in relation to the Confirmatory Resolutions adopted by HVB's Shareholders' Meeting of July 29 and 30, 2008.

Squeeze-out of HVB minority shareholders (Appraisal Proceedings)

Approximately 300 former minority shareholders of HVB filed a request to have a review of the price obtained in the squeeze-out (Appraisal Proceedings). The dispute mainly concerns the valuation of HVB.

The first hearing took place on April 15, 2010. The proceedings are still pending and are expected to last for a number of years.

Squeeze-out of Bank Austria's minority shareholders

After a settlement was reached on all legal challenges to the squeeze-out in Austria, the resolution passed by the BA shareholders' meeting approving the squeeze-out of the ordinary shares held by minority shareholders (with the exception of the so-called "golden shareholders" holding the registered shares in BA) was recorded in the Vienna Commercial Register on 21 May 2008 and UniCredit S.p.A. became the owner of 99.995% of BA's share capital.

The minority shareholders received the squeeze-out payment of approximately €1,045 million including the related interest.

Several shareholders then initiated proceedings before the Commercial Court of Vienna claiming that the squeeze-out price was inadequate, and asking the Court to review the adequacy of the amount paid (appraisal proceedings).

At present the proceedings are pending before the Commercial Court of Vienna which appointed a panel, the so called "Gremium", to investigate the facts of the case in order to review the adequacy of the cash compensation. The expert appointed by the Gremium, employing six different methods, determined that the adequate compensation would have been in a range from an amount lower than that actually paid by UniCredit S.p.A. and an amount that is € 10 per share higher than that amount. UniCredit, considering the nature of the valuation methods employed, still believes that the amount paid to the minority shareholders was adequate. Nevertheless, it is not possible to predict how the Gremium will decide upon concluding its investigation.

Should the parties fail to reach an agreement, the Commercial Court will issue a decision (which is appealable), which could result in UniCredit S.p.A. having to pay a greater cash compensation.

Cirio and Parmalat criminal proceedings

Between the end of 2003 and the beginning of 2004, criminal investigations of some former Capitalia group (now UniCredit group) officers and managers were conducted in relation to the insolvency of the Cirio group. This resulted in certain executives and officers of the former Capitalia S.p.A. (now UniCredit S.p.A.) being committed to trial.

Cirio S.p.A.'s extraordinary administration and several bondholders/shareholders joined the criminal proceedings as civil complainants without quantifying the damages claimed. UniCredit S.p.A., also as the universal successor of UniCredit Banca di Roma S.p.A., was cited as "legally liable".

On December 23, 2010, UniCredit S.p.A.– without any admission of responsibility – proposed a settlement to approximately 2,000 bondholders.

In March 2011, Cirio S.p.A.'s extraordinary administration filed its conclusions against all defendants and against UniCredit S.p.A. as "legally liable"– all the defendants jointly and severally – requesting damages in an amount of €1.9 billion. UniCredit S.p.A. believes the request is groundless both in fact and law and the officers involved in the proceedings in question maintain that they performed their duties in a legal and proper manner.

On July 4, 2011 the Court of Rome ordered UniCredit, together with the individuals involved, to pay CIRIO S.p.A.'s extraordinary administration €200 million as provisional payment and to pay the bondholders and the shareholders – civil complainants in the criminal proceedings – an amount equal to 5% of the nominal value of the securities owned.

Taking into account the transaction with bondholders occurred in 2010, this decision applies only to a limited number of investors.

UniCredit, as "legally liable", and the other defendants appealed the decision and requested a stay of execution.

Negotiations with Cirio S.p.A.'s extraordinary administration aimed at settling the whole Cirio matter are ongoing.

With regard to the insolvency of the Parmalat group, from the end of 2003 to the end of 2005, investigations were conducted against certain executives and officers of the former Capitalia S.p.A. (now UniCredit S.p.A.), who had been committed for trial within the scope of three distinct criminal proceedings known as "Ciappazzi", "Parmatour" and "Eurolat".

Companies of the Parmalat group in extraordinary administration and numerous Parmalat bondholders are the claimants in the civil suits in the aforementioned proceedings. All of the civil claimants' lawyers have reserved the right to quantify damages at the conclusion of the first instance trials.

In the "Ciappazzi" and "Parmatour" proceedings, several companies of the UniCredit group have been cited as legally liable.

Upon execution of the settlement of August 1, 2008 between UniCredit group and Parmalat S.p.A., and as Parmalat group companies are in extraordinary administration, all civil charges were either waived or revoked.

The officers involved in the proceedings in question maintain that they performed their duties in a legal and proper manner.

On June 11, 2010, UniCredit S.p.A. reached an agreement with the Association of Parmalat Bondholders of the Sanpaolo IMI group (the “**Association**”) aimed at settling, without any admission of responsibility, the civil claims brought against certain banks of the UniCredit group by the approximately 32,000 Parmalat bondholders who are members of the Association. In October 2010, that agreement has been extended to the other bondholders who had joined the criminal proceedings as civil complainants (approximately 5,000).

On October 4, 2011 UniCredit S.p.A. reached a settlement agreement with the trustee of Cosal S.r.l.

On November 29, 2011 (Ciappazzi) and on December 20, 2011 (Parmatour) the Court of Parma issued a judgment ordering UniCredit, severally with other involved parties, a provisional payment, in favor of the bondholders and shareholders of Parmalat – civil complainants in the criminal proceedings – in an amount equal to 4% of the nominal value of the securities owned.

Both UniCredit and the individuals involved appealed the decisions.

Taking into account the above mentioned transactions with bondholders in 2010, these decisions apply only to a limited number of investors.

On 7 June 2013 the Court of Appeal of Bologna confirmed the decision of the Court of Parma of 29 November 2011 (Ciappazzi).

The “Eurolat” proceeding is in the trial phase.

For the Parmalat and Cirio cases provisions have been made for an amount consistent with what currently appears to be the potential risk of liability for UniCredit S.p.A. as legally liable.

Medienfonds/ closed end funds

Various customers bought shares in VIP Medienfonds 4 Gmbh & Co. KG (“**Medienfonds**”).

HVB did not sell shares in the fund, but granted loans to all private investors for a part of the amount invested in the fund; moreover, to collateralize the fund, HVB assumed specific payment obligations of certain film distributors with respect to the fund.

When certain expected tax benefits associated with this type of investment were revoked, many investors brought various kinds of legal proceedings against HVB and others. The investors argue that HVB did not disclose to them the risks of the tax treatment being revoked and assert HVB, together with other parties, including the promoter of the fund, is responsible for the alleged errors in the prospectus used to market the fund. Additionally some plaintiffs invoke also rights under German consumer protection laws.

The courts of first and second instance have passed various sentences, of which several were unfavourable for HVB.

On December 30, 2011 The District Higher Court of Munich decided the issue relating to prospectus liability through a specific procedure pursuant to the Capital Markets Test Case Act (*Kapitalanleger-Musterverfahrensgesetz*). The Court stated that the prospectus was incorrect concerning the description of tax risks, loss risk and the fund's forecast; the Court further holds HVB liable along with the promoter of Medienfons for such errors. HVB filed an appeal to the Federal Court. . HVB's appeal against the first instance decision pursuant to the German Capital Markets Model Case Act (*Kapitalanleger-Musterverfahrensgesetz*) to the Federal Court is still pending. An outstanding final decision with respect to the question of HVB's liability for the prospectus in this proceeding will affect only few remaining pending cases since with the vast majority of the investors a general settlement has already been closed.

In the fiscal proceeding of the fund which is pending beside the civil proceedings and concerning the tax declaration of the fund for the fiscal year 2004 no final decision has been issued as to whether the tax benefits were rightfully revoked in the first place.

Furthermore, HVB is defending lawsuits concerning other closed-end funds. The economic background of these lawsuits is often linked to a modified view of the tax authorities with regard to tax benefits originally envisaged. Plaintiffs claim from HVB recovery of their capital investment and offer transfer of the respective shares in the fund in return.

With regard to a mutual fund investing in heating plants, a test case proceeding has been filed against HVB pursuant to the *Kapitalanleger-Musterverfahrensgesetz*.

HVB has made provisions which are, at present, deemed appropriate.

Derivatives

In Germany and Italy, there is a tendency for derivative contracts to be challenged most notably by non-institutional investors where those contracts are out of the money. This is affecting the financial sector generally and is not specific to UniCredit and its group companies. Due to the current uncertainty, it is impossible to assess the full impact of such challenges on the Group.

Other Significant Events

There has been increasing scrutiny of the financial institutions sector, especially by US authorities, with respect to combating money laundering and terrorist financing and enforcing compliance with economic sanctions. In March 2011, UCB AG received a subpoena from the New York District Attorney's Office ("**NYDA**") relating to historic transactions involving certain Iranian entities. UCB AG has provided data in response to NYDA and the US Treasury Department Office of Foreign Assets Control ("**OFAC**") and continues to cooperate with those authorities, inter alia, by conducting an ongoing review of accounts and transactions subject to the investigation. In June 2012, the US Department of Justice ("**DOJ**") opened an investigation of OFAC compliance by UCB AG generally, with which UCB AG is also cooperating. Although we cannot at this time determine the form, extent or the timing of any resolution with the US authorities, the investigation costs, remediation required and/or payment or other legal liability incurred could have a material adverse effect on the net assets, operating results and/or cash flows of UCB AG and/or UCI in any particular period. In recent years, alleged violations of US sanctions have resulted in financial

institutions paying substantial fines, penalties or settlements to the US authorities, depending on the individual circumstances of each case.

Proceedings related to German Tax Credits

During the years 2006 to 2008, a client of UniCredit Bank Ag (“UCB AG”) entered into various transactions based on the expectation of receiving withholding tax credits on dividends from German equities which were traded around dividend dates. UCB AG issued tax certificates in respect of the withholding tax.

In the context of a tax audit of the client, the German tax authorities demanded payment from the client, of withholding tax credits that were previously granted. The demand, together with interest, amounted to circa € 124 million. The client and its tax advisor are challenging the tax authorities' position. The client has also made a claim against UCB AG and has claimed a full indemnity from UCB AG.

While the client has the primary liability to pay, the tax authorities also served upon UCB AG a secondary liability notice demanding payment of the circa €124 million sum on the basis of alleged issuer liability for tax certificates. UCB AG has challenged the notice. UCB AG has also claimed a full indemnification from the client.

In order to avoid accruing further potential interest and / or potential late payment penalties UCB AG and the client made preliminary payments to the competent tax authorities on a without prejudice basis. Up to now, an amount of around € 120 million has been paid with respect to the liability notice. The dispute remains pending.

In November 2012 the General Public Prosecutor (*Generalstaatsanwaltschaft*) Frankfurt am Main searched the Munich premises of UCB AG and its IT-provider, among other locations, in a Preliminary Investigation (*Ermittlungsverfahren*) against the client and others (including former and current employees of UCB AG). UCB AG is fully cooperating with the prosecutor and the tax-police (*Steuerfahndung*). There is a risk that UCB AG could be held liable for damages to the client in the civil proceeding or for payments to the tax authorities with respect to the outstanding claims of the tax authorities (especially on the basis of the liability notice and further interest and / late payment penalties). In addition, UCB AG could be subject to other penalties, fines and profit claw backs, and/or criminal exposure.

In addition, UCB AG has notified the competent tax authorities (and in the course of the Preliminary Investigation also the public prosecutor) of the possibility of certain proprietary trading of UCB AG undertaken close to dividend dates and related withholding tax credits claimed or applications for refund of related taxes by UCB AG.

In this context, the Supervisory Board of UCB AG has commissioned external advisors to conduct an audit of such matters which is fully supported by UniCredit. An interim report by the external advisors carrying out the audit suggests there is evidence of trading patterns in parts of the proprietary trading of UCB AG that are similar to the client case described above. The audit the external advisors have been commissioned to perform is under way and the findings are expected to be available by the end of the year. In addition the Management Board of UCB AG has been and will be working with the external advisors on all relevant aspects of the matter which includes a full

review of the matters described above to the extent this does not compromise the independence or integrity of the Supervisory Board investigation.

In the context of open tax audits of UCB AG for the past fiscal years, the Munich tax authorities and the German Central Federal Tax Authority (*Bundeszentralamt für Steuern*) are currently especially examining above mentioned proprietary transactions close to dividend dates in which withholding tax credits were claimed or applications for refunds of related taxes have been made. Also in this respect UCB AG with the support of external advisors is actively reviewing its tax filings as well as supporting the tax audit and has an ongoing dialogue and exchange of information with the relevant authorities. In light of the findings of the ongoing Supervisory Board Audit and Management Board review UCB AG has written off a portion of withholding taxes previously booked in respect of its own book trading and, albeit to a lesser extent, paid part of them. Additional adjustments may be arranged given that German tax authorities denied withholding tax credits or refund of taxes in certain types of trades undertaken near dividend dates. The related questions on the tax treatment of such transactions have not been ruled out in higher German tax courts so far. The impact of any review by the competent tax authorities regarding above mentioned proprietary tradings is currently open. In relation to the above-described securities transactions, UCB AG could be subject to substantial tax, damages and interest claims in relation to these matters, as well as penalties, fines and profit claw backs, and/or other tax – or criminal – or administrative exposure. In addition UCB AG could be exposed to damages claims from third parties, whose amount cannot currently be quantified.

UCB AG is in communication with its relevant regulators regarding these matters.

Foreign Currency Loans

In Central and Eastern Europe, in the last decade, a significant number of customers took out mortgages denominated in a foreign currency. There is a now growing trend for customers – or consumer associations acting on their behalf – to seek to renegotiate the terms of such foreign currency mortgages, including having the loan principal and associated interest payments redenominated in the local currency at the time the loan was taken out, and floating rates retrospectively changed to fixed rates. This is resulting in litigation against subsidiaries of UniCredit in a number of countries including Croatia, Hungary and Serbia. Specifically in Croatia, a consumer association sued 8 of the largest banks in 2012 (including Zagrebačka banka) claiming that:

- for loans linked to Swiss francs, consumers had not been given adequate information prior to taking out the loan and had not therefore been able to make a fully informed decision about the risks of such loans; and
- a variable interest rate was unlawful, as it was set by reference to a unilateral decision of the relevant bank and without the factors affecting the setting of the rate being clearly defined.

On 4 July 2013 the first instance court in Zagreb upheld the complaint of the consumer association in a decision which is as yet not binding. All 8 banks have appealed. Were the judgment to be upheld in a court of final determination the banks would, within 60 days of such a determination, have to offer the customers amended terms, converting the outstanding principal amount to Croatian

kuna (HRK) at the CHF/HRK rate prevailing on the date the loan agreement was signed and substituting the variable interest rate for the fixed rate applicable at the date the loan in question was drawn down.

At this time, it is not possible to assess the timing of any final decisions, how successful any such litigation may ultimately be or what financial impact it or any associated legislative or regulatory initiatives might ultimately have on the individual subsidiaries or the Group.

Brontos – criminal proceeding

With regard to the transactions known as “Brontos” there is a criminal proceeding pending before the Procura della Repubblica of Bologna also in respect of present and former officers/employees of UniCredit.

Labour Related Litigation

UniCredit is involved in employment law disputes. In general, for all employment law disputes provisions have been made in order to meet any disbursements incurred and in any case Unicredit does not believe that any liabilities related to the outcome of the pending proceedings could have a significant impact on its economic and/or financial standing.

Lawsuits filed against Unicredit S.p.A. by some members of the former Cassa di Risparmio di Roma Fund

Lawsuits are pending before the Court of Rome whose main purpose is to request that the funding level of the former Cassa di Risparmio di Roma Fund be restored and that the individual social security accounts of each member be assessed and quantified. With reference to the main claim, the relief sought is estimated at Euro 384 million. No provisions were made as these actions are considered to be unfounded.

Lawsuit filed against Unicredit S.p.A. by some members of the former Credito Romagnolo's Supplementary Pension Fund

A lawsuit – currently pending before the Court of Rome – was filed by 16 members of the former Credito Romagnolo's Supplementary pension Fund to challenge UniCredit's reduction of the funds of the aforementioned former Credito Romagnolo's Supplementary Pension Fund in breach of art. 2117 of the Civil Code and to request that UniCredit be ordered to reallocate Euro 48,243,820 plus interest to the Fund. No provisions were made as this action is considered to be unfounded.

Proceedings Related to Tax Matters

Proceedings Before Italian Tax Authorities

At the date of this Prospectus, the following tax proceedings are pending: (i) challenge of a tax credit in the amount of approximately €25.6 million for corporate income tax (then called IRPEG) resulting from the annual tax return for the year 1984 of Cassa Centrale di Risparmio V.E. per le Province Siciliane (now Banco di Sicilia); (ii) challenge of a tax credit in the amount of approximately €21.1 million for corporate income tax resulting from the annual tax return for the

year 1984 of Banco di Sicilia; and (iii) challenge of a tax credit in the amount of approximately €24.3 million resulting from the annual tax return for the year 1985 of Banco di Sicilia.

The total value of the challenges, taking into account accrued and recorded interest, is approximately €177 million.

The proceedings sub (i) and (ii) are still pending at the Italian Tax Supreme Court (*Corte di Cassazione*); the proceeding sub (iii) was heard in front of Italian Tax Supreme Court and was decided in favour of Banco di Sicilia with decision filed on 11 March 2013.

On 12 June 2007, the Provincial Tax Commission of Palermo rejected the motions to dismiss by Banco di Sicilia. Banco di Sicilia filed appeals against the decision. Two of the appeal hearings were heard in front of the Regional Tax Commission and were decided in favour of Banco di Sicilia. The decisions were filed on 28 January 2010. The Financial Administration has filed appeals against these decisions to the Italian Supreme Court (*Corte di Cassazione*) and, at the date of this Base Prospectus, one judgments is still pending.

On 23 April 2010, a third appeal was heard in front of the same section of the Regional Tax Commission of Palermo. The appeal was resolved in favour of the Banco di Sicilia and the judgment was filed on 4 June 2010. As a result of a mistake in the filed version of the judgment, which stated a different value than that contained in the original version of the judgment, a special procedure to correct the mistake was required. An order for correction was published on 20 April 2011. The Financial Administration filed an appeal of the order with the Italian Supreme Court (*Corte di Cassazione*) on 6 July 2011. As at the date of this Base Prospectus, the judgment is pending and no provisions were made.

In addition on 5 January 2011, the Revenue Agency served UniCredit Leasing S.p.A. (“**UniCredit Leasing**”) with a notice of assessment. The notice of assessment concerns IRAP and VAT taxes connected to certain real estate leasing operations carried out by UniCredit Leasing during the 2005 financial year.

The IRAP assessment equals €694,412 plus interest and penalties of €772,786. The VAT assessment equals €31,839,466 plus penalties of €70,866,012.50.

On 31 May 2011, UniCredit appealed the notice of assessment to the Provincial Tax Commission of Bologna. Further to this appeal, the Provincial Tax Commission of Bologna registered the judgment on 6 August 2012. The judgment was favourable to UniCredit Leasing. The Tax Authorities appealed, on March 2013, the said Sentence to the competent Regional Tax Commission and the judgment is still pending.

On 29 December 2011 the Revenue Agency notified UniCredit Leasing of the tax assessment concerning IRAP and VAT for the fiscal year 2006, for an amount of €41,461,209.34 related to other real estate leasing contracts. The tax assessment has been appealed to the competent Provincial Tax Commission. The last hearing was held on 21 May 2013 and the ruling is due to be delivered shortly.

Tax Audits and Other Investigations Relating to Structured Finance Transactions

At the end of December 2010, the Regional Revenue Agency Departments of Liguria, Emilia Romagna, Latium and Sicily issued various notices of assessment for IRES and IRAP taxes (on corporate income and regional income, respectively) against UniCredit (both individually and as the incorporating company of Capitalia, UniCredit Banca, UniCredit Banca di Roma and Banco di Sicilia) in relation to structured finance transactions completed in the 2005 tax year. With respect to UniCredit Banca, the Regional Revenue Agency Department of Emilia Romagna issued notices of assessment against UniCredit for the 2004 tax year. The overall assessed amount of the above notices was €614.2 million, of which €136.3 million related to the 2004 tax year.

All the above banks carried out a transaction denominated in Turkish lira called “DB Vantage”, which consisted of a repo transaction with an underlying bond issued by a British company of the Deutsche Bank group. In addition, in 2004 and 2005, UniCredit Banca carried out a repo transaction on the securities of a New Zealand company belonging to the Deutsche Bank group. Although, in the Company’s view, these transactions generated higher profits for the banks compared to investments of a similar nature, UniCredit maintains that such transactions were carried out in the course of ordinary treasury operations and were not carried out for tax purposes.

All of the above notices of assessment alleged that the Group banks were “abusing rights”. UniCredit Banca challenged the notices of assessment for IRES and IRAP taxes for the 2004 tax year. In May 2011, the Revenue Agency reduced the sanction for IRES tax from €82.8 million to €41.4 million. The total assessment thereafter was equal to €94.9 million. In addition, the act through which sanctions were imposed was challenged. All proceedings are pending before the Provincial Tax Court of Bologna (the next hearing is scheduled for 7 April 2014).

With respect to the 2005 fiscal year, UniCredit paid €106.4 million (comprehensive of tax, interest and penalties) to settle the total assessment of €479 million.

Other pending tax cases

During 2013 UniCredit, on its own behalf and in its capacity as the incorporating company and/or holding company, as the case may be, of various Group companies, was served with some notices of assessment related to taxes, interests and sanctions for approximately € 49 million.

All such notices of assessment have been challenged before the competent Provincial Tax Courts.

The key assessments relates to:

- 1) substitute tax on medium- and long-term financings and registration tax for an aggregate amount equal to €13.3 million (including tax and accessory items), in relation to financing executed outside Italy;
- 2) higher registration tax allegedly due in connection with two transfers of businesses perfected with UBIS S.C.p.A. and UniCredit Bank AG, Italian branch, respectively. The aggregate amount claimed (including tax and accessory items) is equal to €8.5 million;
- 3) higher IRES allegedly due by Capitalia S.p.A. in connection with structured finance transaction (so-called “DB Vantage) perfected by Capitalia in 2004 and having the same nature as those assessed in respect of UniCredit Banca S.p.A. for the same tax period (as described above in sub-paragraph headed “*Tax Audits and Other Investigations Relating to Structured Finance*”).

Transactions”). The aggregate amount claimed (including tax and accessory items) is equal to € 20 million;

- 4) higher IRES and IRAP for the tax year 2008 in relation to UniCredit Private Banking S.p.A. for assessments relating to differences in transfer pricing and alleged undeductibility of passive interest for an aggregate amount claimed (including tax and accessory items) equal to € 2.6 million;
- 5) IRES tax for the tax year 2008, claimed towards UniCredit S.p.A. as holding company of FincoBank S.p.A., for an aggregate amount equal to € 0.7 million, in connection with the alleged undeductibility of sums paid to clients as damages caused by financial promoters or bank’s employees,

UniCredit believes that the risk represented by the above mentioned liabilities is remote and only potential, nevertheless it made further provisions of approximately € 10.5 million.

Proceedings related to actions by the Regulatory Authorities

Italy

The UniCredit Group is subject to a significant degree of regulation and supervision by the Bank of Italy, CONSOB, the European Banking Authority (EBA), the European Central bank (ECB) within the European System of Central Bank (ESCB) as well as local banking regulators. As a consequence, the UniCredit Group is subject to normal supervisory activities by the relevant authorities. Some of these ordinary course supervisory activities have resulted in investigations and alleged irregularities, which are still pending as of the date of this Base Prospectus. In such circumstances, the UniCredit Group has endeavoured to demonstrate the correctness of its conduct. The UniCredit Group believes these investigations will not have material adverse effects on its business.

In particular, during recent years, some Group companies¹², including UniCredit, have been subject to inspections by CONSOB concerning Cirio bonds, sovereign bonds issued by the Republic of Argentina and certain operations with derivative financial instruments. Following the completion of such inspections and reviews, CONSOB commenced certain administrative proceedings against managers of the banks involved.

Some of these proceedings regarding the alleged failure to comply with regulations and internal procedures concerning investment services are still pending. The UniCredit Group has acted to demonstrate the correctness of the actions by the companies and managers involved. In some of these cases, however, the proceedings have led to fines against managers, some of whom also hold offices at UniCredit, who are jointly and severally responsible together with the banks involved.

Furthermore, in 2008, CONSOB investigated a Group company for its role as placement manager and sponsor in connection with the offer and listing of shares in an Italian company. Notwithstanding the allegations by CONSOB, the Group defended its actions and disputed the facts. However, the proceeding, which resulted in the imposition of a pecuniary administrative

¹² Some of which have been incorporated into UniCredit as of 1 November 2010.

penalty against an employee of the Group in July 2009, is still pending as at the date of this Prospectus.

On 26 March 2012, CONSOB initiated an investigation against UniCredit S.p.A. aimed at ascertaining, in relation to specific profiles, the effective adoption by the Bank of certain corrective measures subsequent to the order of call pursuant to article 7, para 1, letter b), of the Legislative Decree n. 58 dated 24 February 1998 made by the same Supervisory Authority in a letter dated 23 April 2010. At the same time, the Supervisory Authority has also carried out specific checks related to the procedures for the assessment of the adequateness/appropriateness of the organisational and administrative arrangements to manage conflicts of interest, on transactions in place with retail clients, regarding the rights issue of new shares in the capital increase resolved on 15 December 2011 by the extraordinary shareholders' meeting, as well as other financial instruments identified during the investigation. Such investigation ended on 15 May 2013 and, further to the same, Consob – through an order of call pursuant to article 7, para 1, letter b), of the Legislative Decree n. 58 dated 24 February 1998 made by letter dated 20 November 2013- has asked the Bank to define and adopt certain corrective measures aimed at allowing a more correct operating activity in the context of the provision of investment services.

On 18 June 2013, CONSOB started an investigation on UniCredit S.p.A., under art. 187- octies, subparagraph 3, letter. e), of Legislative Decree 24 February 1998, n. 58, relating to the overall project for the restructuring of its stake in the capital share of Gruppo Partecipazioni Industriali S.p.A., Camfin S.p.A. and Pirelli S.p.A., disclosed to the market on June 5th, 2013, in order to acquire data, information and documents concerning procedures and operational practices for the management of sensitive information and the Insider List. The investigation ended on August 8th, 2013. Consob has sent to the Bank a counterclaim, under art. 195 TUF, violation of art. 115-bis of the Decree, as of art. 152-ter of the Issuers' Regulations, to which the Bank has presented its rebuttal by the due date of April 2, 2014.

From 2011 up to the date of this Base Prospectus, the Bank of Italy, pursuant to its above-mentioned ordinary supervisory activities, carried out inspections in the following areas: governance, management and control of credit risk, focusing on the small and medium business segment; transparency, usury and anti-money laundering; validation process for internal models on credit risk and Counterparty Credit Risk (“**CCR**”), the latter jointly with the relevant German and Austrian supervisory Authorities; governance, management and control of liquidity risks and interest rate risk at consolidated level with an analogous initiative carried out in parallel the German Federal Financial Supervisory Authority (“**Bafin**”); adequacy of information systems and back office processes of the Group, in cooperation with the German Federal Financial Supervisory Authority (Bafin); validation of the revision of the internal model for operational risk; governance and coordination in Finance area (CIB Markets) and assessment of market risk internal models (IRC and VAR) in cooperation with BaFin; adequacy of loan loss provisions for credit positions classified as “sofferenze”, “incaglio” and “ristrutturati”; administrative accounting groupwide processes, with focus on information flows finalized to produce consolidated financial statement. Furthermore, a general inspection has been carried out against the Group company FinecoBank S.p.A.

In light of the above investigations, the Group implemented corrective measures intended to overcome any negative findings. The action plans prepared by the Group to correct such negative

findings have been substantially in compliance with applicable deadlines. The action plans are monitored by managers with certain corporate or control functions and periodically brought to the attention of the supervisory authority.

In relation to the investigations carried out in the areas of i) governance, management and control of credit risk, focusing on the small and medium business segment ii) transparency and correctness with customers, Bank of Italy ascertained certain irregularities and, as a result, imposed pecuniary administrative penalties, pursuant to article 114 of the Banking Law, against some of the Group's corporate representatives.¹³

In December 2008, the AGCM sanctioned UniCredit Banca (now UniCredit) for approximately €1.5 million for having entered allegedly harmful competition agreements, dating back to 1996, relating to the management of the cash flows of INAIL, the Italian workers compensation authority. While the company appealed the sanctions, the proceedings are still pending as at the date of this Prospectus.

In July 2009, the AGCM initiated an investigation to ascertain if UniCredit, together with MasterCard™ and other banks¹⁴, have entered into agreements that restrict competition in the credit card industry. In November 2010, the AGCM imposed pecuniary administrative penalties¹⁵ against UniCredit and other banks for anti-competition violations relating to credit cards. UniCredit and the other banks appealed the penalties to the regional court of Lazio, which in July 2011 overturned the penalties. In November 2011, the AGCM appealed to the Italian Council of State against the above judgment of the regional court of Lazio; the appeal is still pending as at the date of this Prospectus.

In December 2009, the AGCM commenced proceedings against UniCredit Banca di Roma (now UniCredit) alleging unfair trade practices with respect to mortgage forgiveness. The AGCM subsequently added UniCredit Family Financing Bank S.p.A. (now UniCredit) to the proceedings. In May 2010, pecuniary administrative penalties of €150,000 were imposed against only UniCredit Banca di Roma, which appealed to the regional court. The proceedings are still pending as at the date of this Prospectus.

In February 2010, the AGCM commenced proceedings against UniCredit Banca di Roma (now UniCredit) alleging unfair trade practices with respect to the closing of bank accounts. In July 2010, pecuniary administrative penalties of €50,000 were imposed. Thereafter, UniCredit Banca di Roma appealed to the regional court. The proceedings are still pending as at the date of this Prospectus.

In April 2010, the AGCM commenced proceedings against a Group company, FinecoBank, alleging unfair trade practices with respect to internet advertising. In August 2010, pecuniary administrative penalties of € 140,000 were imposed. Thereafter, FinecoBank appealed to the regional court. The proceedings are still pending as at the date of this Prospectus.

¹³ Regarding “governance, management and control of credit risk” three managers – at the time in charge to GRM – were sanctioned for a total amount equal to €91,000. Regarding “transparency and correctness with customers” four managers – at the time in charge to Legal & Compliance and Commercial Banking Italy – were sanctioned for a total amount equal to € 116,000..

¹⁴ Particularly, Banca Monte dei Paschi di Siena S.p.A., Banca Nazionale del Lavoro S.p.A., Banca Sella Holding S.p.A., Barclays Bank plc, Deutsche Bank S.p.A., Intesa Sanpaolo S.p.A. and Istituto Centrale delle Banche Popolari Italiane S.p.A.

¹⁵ The total amount of sanctions was €6,030,00 of which €380,000 applied to UniCredit.

In August 2011, the AGCM commenced proceedings against and requested related information from UniCredit and another Group company, Family Credit Network S.p.A., alleging unfair trade practices in connection with an advertisement offering funding. In September 2011, UniCredit and Family Credit Network S.p.A. presented some written memos and responded to the AGCM's information requests. In November 2011, pecuniary administrative penalties of € 70,000 and € 50,000 were imposed against UniCredit and Family Credit Network S.p.A., respectively. Thereafter UniCredit and Family Credit Network S.p.A. appealed to the regional court. The proceedings are still pending as at the date of this Prospectus.

In December 2012, the AGCM commenced proceeding against UniCredit and requested related information from UniCredit alleging unfair trade practices in connection with the advertising of the deposit account named "*Conto Risparmio Sicuro*". In July 2013, pecuniary administrative penalties of €250,000 were imposed against UniCredit, which appealed to the regional court. The proceedings are still pending as at the date of this Prospectus.

Germany

Various regulators exercising oversight of operations of UniCredit Bank AG ("**UCB AG**"), including German Central Bank (*Bundesbank*), Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht – BaFin*, UK *Prudential Regulation Authority* ("**PRA**") and UK *Financial Conduct Authority* ("**FCA**"), have conducted audits and/or reviews of UCB AG's risk management and internal control systems. They highlighted concerns (which were also the subject of additional internal and external UCB AG audits) about the extent to which such systems are fully compliant with applicable legal and regulatory requirements in Germany. At the beginning of 2010, UCB AG began a comprehensive programme to address those risks it deemed to be material. UCB AG continues to work in strict coordination with external auditors and respective Group functions to rectify the concerns raised and to ensure that Group-wide risk management policies are deployed in accordance with UniCredit policy. Such comprehensive programme promotes a stringent steering and monitoring of corrective measures related to the inspections on adequacy of information systems and back office processes referred to above and Finance (CIB Markets). The programme is part of the recently established Regulatory Affairs function.

Besides the joint initiatives with Banca d'Italia, BaFin conducted in May and June 2013 an on-site audit on remuneration policies (e. g. on the institutional compensation act) and in autumn on operational risk.

In August 2013, furthermore, BaFin started an inspection on the processes for contributing ISDAfix system, subsequently extended to exchange rates.

UCB AG has been contacted by the U.S. Commodity Futures Trading Commission, the FCA and Bundesbank as part of an industry-wide investigation in order to look into allegations mentioned in media reports of possible manipulation of the foreign exchange ("**FX**") market, including a leading FX benchmark published by Reuters. UCB AG has promptly started an internal investigation into the matter which is lead by UCB AG's Internal Audit function.

Poland

In the course of its business activity, Bank Pekao is subject to various inspections, controls and investigations or explanatory proceedings carried out by different regulatory authorities, including, in particular: (i) the Polish Financial Supervision Authority (“**PFSA**”), (ii) the anti-trust authority (“**UOKiK**”) within the scope of the protection of market competition and consumers’ collective rights, (iii) the relevant authority for the supervision of personal data protection (“**GIODO**”), and (iv) the relevant authorities for preventing and combating money-laundering and the financing of terrorism.

The PFSA conducts on a regular basis periodical audits with respect to the entire activity and financial condition of the bank.

In 2012 the PFSA conducted an extensive inspection that covered, in particular: (i) credit risk management; (ii) liquidity risk management; (iii) market risk management; (iv) operational risk management; (v) capital adequacy; and (vi) management of the bank and its compliance with the laws that govern its business and with its constitutional documents. During the inspection certain irregularities were discovered and specific recommendations were issued; however, neither fines nor other penalties were imposed against Bank Pekao. The PFSA raised 44 recommendations, where, as at the date of this Prospectus, 43 have already been implemented according to the schedule agreed with the PFSA and the remaining one recommendation is planned to be completed by the end of 2014.

Between 2012 and 2013, the PFSA conducted other regulatory inspections focusing on specific issues: (i) the activity related to the custody of assets of certain open pension funds and employer pension funds; (ii) verification of the conditions specified by Bank of Italy and PFSA for using by Bank Pekao of AMA approach for operational risk; (iii) the activity of Bank Pekao’s brokerage house; (iv) the activity related to the fulfilment of the obligation as a depositary; (v) the compliance with the regulations on preventing and combating money-laundering and the financing of terrorism.

As a result of these inspections, the PFSA issued certain recommendations which were followed by Bank Pekao.

From 24 June 2013 till 19 July 2013 the PFSA conducted the inspection regarding, (i) quality of assets and credit risk management; (ii) engagement in distribution of investment and insurance products (bancassurance); (iii) internal control system, in particular audit and compliance areas; (iv) co-operation with the holding company and costs of such co-operation borne by the Bank; (v) functioning on interbank market; (vi) rules and policies regarding variable parts of remuneration of persons holding key managerial positions; (vii) implementation of recommendations in credit risk area issued after comprehensive inspection of 2012. Post-inspection protocol raised no major issues to the Bank Pekao. In October 2013, Bank Pekao received 29 detailed post-inspection recommendations. The action plan regarding completion of the recommendations was prepared by Bank Pekao and shared with the PFSA. As of the date of this Prospectus, 15 recommendations have already been implemented according to the schedule, while all remaining are planned to be implemented within end of 2014, with vast majority still within the first half of 2014.

The other regulatory proceedings were also initiated, including:

- anti-trust proceedings against operators of Visa™ and Europay™ systems and Polish banks issuing Visa™ and MasterCard™ payment cards in relation to joint determination of interchange fee influencing the competition on the acquiring services market in Poland. The UOKiK ruled that such practices restricted the competition on the relevant market, ordered the banks for refrain from these practices and imposed sanctions. The sanctions imposed on Bank Pekao amounted to approximately PLN 16.6 million (approximately €3.7 million). Bank Pekao appealed the UOKiK's decision. On 12 November 2008, the Antimonopoly Court withdrew the UOKiK's sentence. The UOKiK then filed an appeal against the Antimonopoly Court's decision. On 22 April 2010, the Court of Appeal reversed the decision of the Antimonopoly Court and transferred the case to the Antimonopoly Court for re-examination. On 8 May 2012 the Antimonopoly Court suspended the proceedings until the final resolution of the matter constituted in MasterCard's appeal against the European Commission's decision of 19 December 2007. As a result of Bank Pekao's complaint, on 25 October 2012 the Court of Appeal repealed the decision on the suspension of the proceedings. By the verdict of 21 November 2013 the Antimonopoly Court reduced the sanction imposed on Bank Pekao from 16,6 mln PLN to 14 mln PLN (approximately €3.1 million). On 7 February 2014 Bank Pekao filed an appeal against the Antimonopoly Court's decision with regard to the sanction in amount of 14 mln PLN;
- an investigation by the UOKiK regarding the compliance with consumers' law of the transfer to the Credit Bureau ("BIK") of information on expiration of consumers' obligations. By decision of 28 December 2012 the UOKiK fined Bank Pekao for 1,8 million Zloty (approximately € 450,000). In January 2013, Bank Pekao appealed to the Antimonopoly Court;
- an administrative proceeding initiated by decision of the PFSA of 31 October 2013 to impose an administrative sanction on Bank Pekao in relation to the suspected failure by Bank Pekao as a depositary of the open investment fund, to fulfil obligations stipulated in the Investment Funds Act. The proceeding is expected to be completed in March 2014;
- an administrative proceeding initiated by decision of the PFSA of 5 February 2014 to impose an administrative sanction on Centralny Dom Maklerski Pekao S.A. ("**CDM Pekao**"), subsidiary of Bank Pekao, in relation to the suspected breach of the Trading in Financial Instruments Act.

In September 2013, the Court of Appeal overruled the decision of the UOKiK of December 2010 in part imposing on Bank Pekao the fine in amount 1.9 milion PLN (approximately €500,000) for non – compliance with the consumer law of the cash loan agreement models used in Bank Pekao. The verdict of the Court of Appeal is final and legally binding.

Austria

As a licensed credit institution, Bank Austria ("**BA**") is subject to the Austrian banking act (*Bankwesengesetz* – "**BWG**") and hence, to the detailed regulation of and supervision by the

Austrian financial market authority (*Finanzmarktaufsicht* - “**FMA**”) and the *Oesterreichische Nationalbank* (“**OeNB**”).

In 2010, OeNB and FMA jointly audited the credit portfolio of BA and certain of its subsidiaries in CEE countries and found several of the then applicable risk management and risk control mechanisms regarding credit risk in the CEE countries to be insufficient. As a result, OeNB and FMA concluded, in their audit report, that comprehensive credit risk management of the overall BA Group was not possible.

To address the deficiencies set out in the regulator’s report, BA drew up, and is currently in the process of implementing, an action plan. The success of the action plan at systematically reducing the deficiencies is being monitored by the management board and the supervisory board of BA on a regular basis and by the FMA on the basis of quarterly reports prepared by BA. Starting from December 2012 to February 2013 OeNB staged a follow-up on-site inspection where they recognised that progress has been made with respect to 2010, basically in all the improvement areas. However, the regulator stated as well that UCBA does not fully meet their expectations yet. Therefore BA filed a plan with further improvement-measures to be implemented. UCBA reports on regular basis to the FMA and the OeNB on the progress made regarding the implementation of the improvement-measures.

Furthermore, in 2012 Bank Austria has been subject to two on-site examinations by the OeNB, both related to Bank Austria’s control environment. The OeNB stated several deficiencies and Bank Austria reacted by setting up a comprehensive action plan which has been submitted to the OeNB. The progress of the action plan is now reported on a regular basis to the FMA and the OeNB.

In April 2013 OeNB started an on-site-examination focused on IT-Risk and Outsourcing. The inspection of OeNB was finalized in September 2013. OeNB states that the outsourcing activities of BA in general meet the regulatory requirements. However OeNB highlights in its report several deficiencies – especially related to information-flows between service providers and BA, monitoring of service providers and involvement of BA in group wide projects. BA has filed a comprehensive action plan and submitted it to OeNB.

Lastly in September 2013 OeNB started an on-site examination on Liquidity- Risk. The on-site-presence of OeNB was finalized in January 2014. As to the date of this Prospectus, the report including the supervisory findings has not been submitted to BA yet.

UK

UniCredit S.p.A. and UCB AG branches in the UK are subject to the supervision of local regulators, in particular to the supervision of PRA and FCA.

The FCA (then *Financial Supervisory Authority* – FSA) audited the London branches of UniCredit and UCB AG at the end of 2010 in connection with their investment banking activities.

The FCA found irregularities in the reporting and control activities of UCB AG and imposed operating limits subject to UCB AG’s successful remediation of those irregularities.

UCB AG adopted an action plan to remedy those irregularities. In 2013 the FCA instructed a follow up audit – by requiring an independent third party for an “expert opinion” – which made further recommendations for improvement in the reporting and control activities of UCB AG. UCB AG management has made significant progress to remediate the issues identified and the FCA has lifted the operating limits imposed.

Other countries

Group companies operating in the other countries where the Group is present are subject to regular oversight activities, including inspections, audits and investigations or other fact-finding proceedings, by local regulatory authorities. These authorities carry out their activities with varying frequencies and methods, depending, among other things, on the country and the financial condition of Group company. As a result, local regulatory authorities may require Group companies to adopt certain organizational measures and/or impose sanctions or fines.

Russian Federation

From May to August 2013, the OeNB conducted an on-site examination on Credit-Risk in ZAO UniCredit Bank and, at the same time, in cooperation with the Bank of Italy, the validation of the internal rating model for Multinational counterparties. The report was submitted in January 2014 and shows some deficiencies to be improved related to credit approval process and underwriting as well as rating models and processes. As to date of this Prospectus, BA is – within the granted timeframe by OeNB - filing a statement regarding OeNB’s report including the planned remedial measures.

The amount of the fine imposed on YKB resulting from the investigation is TL149,961,870. Notwithstanding YKB firmly believes that it has complied with applicable laws, the bank has benefitted from the early payment option pursuant to Turkish laws and paid TL 112,471,402 (75 per cent. of the administrative fine) to the relevant directorate of revenues in August 2013. In September 2013, YKB also filed an appeal against the decision of TCA for the annulment of the relevant decision and recovery of the paid amount. Conflicts of Interest

As at the date of the Prospectus, and to the best of UniCredit’s knowledge, no member of UniCredit managing and controlling bodies has any interest conflicting with the obligations arising from the office or position held within UniCredit, except for those that may concern operations put before the relevant bodies of UniCredit, in accordance with the applicable procedures and in strict compliance with existing laws and regulations. Members of the UniCredit managing and controlling bodies must indeed comply with the following provisions aimed at regulating instances where there exists a specific interest concerning the implementation of an operation:

- Article 136 of the Italian Consolidated Banking Act, which requires a particular authorisation procedure (a unanimous decision by the supervisory body and the favourable vote of all members of the controlling body) should a bank enter into obligations of any kind or enter, directly or indirectly, into purchase or sale agreements with its company officers;
- Article 2391 of the Italian Civil Code, which obliges directors to notify fellow directors and the Board of Statutory Auditors of any interest that they may have, on their own behalf or on behalf of a third party, in a specific company transaction, with the concerned member of the Board of Directors having to abstain from carrying out the transaction if he/she is also the CEO; and
- Article 2391-bis of the Italian Civil Code, CONSOB Regulation No. 17221 dated 12 March 2010 (and subsequent updates) concerning transactions with related parties, as well as the new provisions issued by the Bank of Italy for the prudential supervision of banks concerning risk activities and conflicts of interest of banks and banking groups with associated persons (Circular no. 263/2006 of the Bank of Italy and subsequent updates). In accordance with the aforementioned provisions, the most significant transactions with related parties or with associated persons fall within the exclusive responsibility of the

UniCredit Board of Directors, with the exception of the transactions falling under the responsibility of the UniCredit Shareholders' Meeting.

For information on related-party transactions, please see Part H of the Notes to the consolidated financial statements of UniCredit S.p.A. as at 30 June 2013, incorporated by reference herein.

External Auditors

UniCredit's annual financial statements must be audited by external auditors appointed by its shareholders, under reasoned proposal by UniCredit's Board of Statutory Auditors. The shareholders' resolution and the Board of Statutory Auditors' reasoned proposal are communicated to CONSOB. The external auditors examine UniCredit's annual financial statements and issue an opinion regarding whether its annual financial statements comply with the IAS/IFRS issued by the International Accounting Standards Board as endorsed by the European Union governing their preparation; which is to say whether they are clearly stated and give a true and fair view of the financial position and results of the Group. Their opinion is made available to UniCredit's shareholders prior to the annual general shareholders' meeting.

Since 2007, following a modification of Legislative Decree No. 58 of 24 February 1998 (the "**Financial Services Act**"), listed companies may not appoint the same auditors for more than nine years. At the annual general shareholders' meeting of UniCredit held on 4 May 2004, KPMG S.p.A. ("**KPMG**") was appointed to act as UniCredit's external auditor for a period of three years and during the general shareholders' meeting of UniCredit held on 10 May 2007 KPMG's engagement was extended for a further six years, to complete the nine-year period allowed by the Financial Services Act. KPMG has audited and issued unqualified audit opinions on the consolidated financial statements of the Issuer for the years ended 31 December 2011 and 31 December 2012. KPMG has also reviewed and issued unqualified review reports on the unaudited consolidated Financial Statements of the Issuer as of and for the six-month periods ended 30 June 2012.

KPMG is registered on the roll of chartered accountants held by the Ministry of Justice and in the register of Auditing Firms held by CONSOB.

At the ordinary and extraordinary shareholders' meeting of UniCredit held on 11 May 2012, Deloitte & Touche S.p.A. ("**Deloitte**") has been appointed to act as UniCredit's external auditor for the 2013-2021 nine-year period, pursuant to Article 13, paragraph 1, of Legislative Decree no. 39/2010 and to CONSOB Communication 97001574 dated 20 February 1997.

Deloitte is a company incorporated under the laws of Italy, enrolled with the Companies' Register of Milan under number 03049560166 and registered with the Register of Statutory Auditors (*Registro dei Revisori Legali*) maintained by Minister of Economy and Finance effective from 7 June 2004 with registration number no: 132587, having its registered office at via Tortona 25, 20144 Milan, Italy.

RECENT DEVELOPMENTS

Strategic Plan 2013-2018

On 11 March 2014, the Board of Directors approved the Strategic Plan. A summary of information regarding the Strategic Plan published by UniCredit in the press release dated 11 March 2014 is set out below.

Since 2010, UniCredit's main focus has been on strengthening its capital, de-risking its balance sheet, restoring a sound liquidity profile and reducing complexity and costs.

At year-end 2013, UniCredit had a strong capital base with a CET1 ratio Basel III phased-in of 10.4 per cent. (9.4 per cent. fully loaded¹⁷ including the gain from the valuation of the stake in the Bank of Italy), a sound balance sheet (19x leverage ratio¹⁸ vs. 32x in 2008), a reduced funding gap (€29 billion vs. €163 billion in 2008) and an impaired loan coverage ratio of 52 per cent..

A revised risk management framework has been put in place, with more prudent underwriting processes, disciplined monitoring and streamlined workout processes. The Non-Core Portfolio is segregated in a new dedicated organisational structure, which has been up and running since April 2013 and engages 1,100 dedicated professionals

The Strategic Plan envisages a separate reporting of the Non-Core Portfolio which consists of approximately €87 billion¹⁹ in gross loans, including both performing (33 per cent.) and impaired loans (67 per cent.) of which more than 80 per cent. originated before 2009. UniCredit is the first bank in Italy to be fully operative on a segregated portfolio and to provide full transparency on the rundown process on a quarterly basis.

The three key pillars supporting the core bank are: 1) the multi-channel transformation of commercial bank in Western European markets and UniCredit's positioning as a European leader in corporate banking; 2) a strong focus on growth businesses such as selected CEE regions and capital-light businesses, and 3) consolidation of CIB leadership and of operational excellence.

The Strategic Plan provides for investments of €4.5 billion spread throughout the 2013-2018 period, to drive network restructuring and digitalization in Western Europe, foster growth in CEE and achieve group synergies.

The Strategic Plan also provides for strict cost control measures including dedicated initiatives targeting business simplification, which include FTEs reductions.

As part of its active portfolio management, the Strategic Plan envisions that UniCredit will list Fineco on the market to further accelerate its growth. In parallel, it will explore the potential disposal of UniCredit Credit Management Bank (UCCMB), the largest collections platform in Italy, to a specialised player, enabling UniCredit to extract additional value by enhancing collections. The effects of these potential transactions are not factored into the Strategic Plan.

2013 Group Results

¹⁷ CET1 ratio Basel III phased-in (10.4% as of December 2013) is an estimate based on the current understanding of the regulatory framework in force in 2014 and on the outputs of certain models not yet formally approved by the Competent Authorities. CET1 ratio Basel 3 fully loaded (9.4% as of December 2013) is estimated on the basis of current understanding of the regulatory framework which will be in force starting from 2019, hence anticipating all the effects that will gradually be factored in.

¹⁸ Calculated as the ratio of Total Assets et of Goodwill and Other Intangible Assets (numerator) and Equity (including Minorities) net of Goodwill and Other Intangible Assets (denominator).

¹⁹ Pro-forma for the inclusion of Trevi which will be consolidated starting from 1 January 2014.

On 11 March 2014, the UniCredit Board of Directors approved, *inter alia*, the Group consolidated results as of and for the year ended 31 December 2013 (the “**Group 2013 Consolidated Financial Statements**”).

The Group 2013 Consolidated Financial Statements will be audited by Deloitte, UniCredit external auditors and are subject to the approval of UniCredit shareholders at the general meeting to be held on 13 May 2014.

THE CREDIT AND COLLECTION POLICIES

Foreword

Hereunder, in section 1, a general description of the credit policies adopted by the Seller is provided, including those used in the framework of the agreement with Tecnocasa (Kiron – Epicas).

Issuance procedures are described with more details in section 2 of this document.

Collection policies are provided in section 3.

SECTION 1 - MORTGAGE LOAN ISSUANCE PROCESS

Business sources

Mortgage loans granted by the Seller can be originated from the following channels:

- a) Covenant Channel with involvement of a partner of the Seller, together with UniCredit has entered into an ‘ad hoc’ covenant, enabling identification of potential new borrowers. The covenant channel also includes the agreement with Tecnocasa (Kiron – Epicas), bank’s main partner;
- b) Semi-direct channel, i.e. through individual real estate agencies or loan brokers, who refer to Financial Salesmen of the Seller;
- c) Direct Channel, i.e. through branches of the Seller, Financial salesmen of the Seller, CRC or the official website.

The scope of the portfolio subject of securitisation concerns exclusively originators at item a).

Loan application process

The first step in the process aimed at assessing loan application is the initial interview with the client, carried out by the Sales Network, where, on the one hand the loan broker provides precise details as to the steps to be taken and documents required for obtaining the loan, on the other hand, an initial general assessment is made of the prospective borrower's suitability (collection of information on the income level of the applicant and guarantors if any, intended use of the loan and location of the property to be mortgaged etc).

Drafting the application

If the information collected during the interview produces a positive assessment, the loan broker will accept the loan application, duly completed and subscribed by each subject participating in the loan as borrower or guarantor, also in order to obtain authorisation for the processing of personal data - with specific reference to forwarding of the same to external Credit Bureaux CRIF and EXPERIAN (such personal data will be forwarded to external Credit Bureaux CRIF and EXPERIAN by the Seller and not by the relevant loan broker)- as required by Law 196/03 (Privacy).

During the application preparation process, information assessed concerns:

- personal master data,
- social/demographic data,
- income details,
- records in public archives (protests, prejudicial recordings),
- contracts present on External Credit Bureaux (Experian, CRIF),
- evidence of delinquent accounts with *Centrale Rischi (Risk Sorting House)* (Banca d'Italia and SIA),
- other dealings with the Seller (evidence of Global Position).

Entering of said information into the system is carried out both manually and by querying other data-bases.

In particular, main inputs come from acquisition of:

- information taken from the application form filled in and submitted by the client/potential client,
- information on "global position with the Seller" arising from the sum total of debt positions (i.e. "aggregate global position"),
- information on "Group Global Position" arising from the sum total of the debt position provided by the other Group Companies,
- information provided by external Bureaux (Crif and Experian).

Rating calculations

The credit scoring system provides an assessment of the risk profiles of loan applications, based on evaluation of social/demographic information, together with information on the applicant's/guarantor's past behaviour obtained from the Credit Bureaux.

The system is made up of two elements:

1. S.E.M. (Strategic Execution Module), a credit scoring algorithm which, based on social/demographic parameters, provides a final score originating from three different algorithms, depending on whether the application concerns a subject at risk of default or if the subject has an Italian citizenship. This score may be above or below a threshold value (cut off point).
2. Policy rules, a set of credit policy rules non-compliance with which is checked automatically. Credit worthiness assessment rules supplement and complete credit scoring as part of the loan application assessment process. They may be broken down into two categories:
 - o Structural objections, checked together with scoring; they highlight situations requiring manual assessment.
 - o Credit rules, checked together with scoring; they highlight situations which as a rule, lead to rejection of the application in the absence of further details, enabling, through manual assessment, reappraisal of the situation.

Outcome of the procedure

The outcome of credit scoring and application of credit rules taken together automatically produce a specific result for each application file.

The system can yield the following responses:

- **Submissible White**: the application is submissible since it involves no hazardous credit elements; it is deemed to imply low default risk and will be decided upon by the appointed body and officials based on autonomous decision-making powers defined by the bank.
- **Submissible with structural objections** (aka at the discretion of the Loan Department), the application involves situations concerning the applicants and/or transaction whose assessment rests with the General Credit Department.
- **Non Submissible Black**: the application involves risk aspects that advise against acceptance of the transaction, in the absence of further appraisal elements enabling, through manual assessment, reappraisal of the situation.

Note: The application whose outcome is “black” due to non-compliance with the above mentioned rules, may continue to be processed through the assessment system by submission to experienced staff with decision-making powers in these matters.

Technical assessment of the mortgaged property

The mortgaged property is for residential use and located in the territory of Italy.

Cadastral categories for property types for which loans are admissible are as follows:

- A/1: High class residential property;
- A/2: Standard residential property;
- A/3: Economy class residential property;

- A/4: Low class residential property;
- A/5: Very low class residential property;
- A/6: Rural residential property;
- A/7: Small residential independent units;
- A/8: Residential detached units.

Cadastral categories which together with the residential unit can be financed as appurtenances, apart from land plots and associated urban areas are as follows:

- C/2: for basements and attics;
- C/6: for garages and car parking slots;
- C/7: enclosed or non-enclosed porches;

Assessment of the market value of the mortgaged property inclusive of all its appurtenances if any, can be performed through:

- Appraisal by an expert registered in the roll of surveyors or engineers and who, at the time of the appraisal was not an employee of the Seller and at no time has had any direct or indirect interest in the Property and/or the loans under scrutiny and whose fee is not dependent on or influenced by approval of the loan application in question. Said appraisal is deemed valid for the purpose of loan issuance for six months from submission.
- Estimate by the party holding a covenant or by a third party appointed by it, with reference to loans entered into under national covenants of the Seller, where the amount to be issued is not in excess of €100,000.

Note

In particular circumstances it is possible to take as guarantee a property other than the one subject of the specific loan transaction, or in addition to it, when current conditions and/or the value of the property to be mortgaged are not such as to provide adequate capital guarantee for loan issuance.

Decision, Stipulation And Loan Issuance

Each file processed is submitted to the judgement (granted\rejected) of a decision-making body, whose selection is based on the decision-making policy in force at the bank.

Once issuance of the loan has been approved, the bank will prepare documents to stipulate the agreement, which may be of two types:

- Unilateral deed (in most cases) in public form by way of acceptance. The contract is finalised by means of notary deed confirming the prior contract proposal, executed at the notary's office without the bank proxy being present. The notary hands over to the borrower the cashier's cheques or the accounting report indicating that the sum has been released - it will subsequently be issued by bank transfer once execution of the deed has been confirmed.
- Bilateral deed: The contract is entered into in the presence of a bank proxy, who hands over to the borrower the cashier's cheques or the accounting report showing the sum has been released

- it will subsequently be issued by bank transfer once the execution of the deed has been confirmed.

The property subject of the loan is under:

- Substantial first degree mortgage, with the bank as beneficiary
- Insurance policy against the risk of fire, lightning and explosion, and including an encumbrance (*vincolo*) in favour of the bank.

Issuance can take place concurrently or non-concurrently with deed conclusion.

If the loan is not issued concurrently with deed conclusion, the bank will release the loan amount to the client only after the mortgage has been consolidated according to the Italian law.

Fondiario loans: a loan can be qualified as *fondiario* under Article 38 of the Banking Law and the relevant implementing regulations, if the amount disbursed under the loan does not exceed 80 per cent. - or 100 per cent. whenever there are additional eligible guarantees - – of the value of the property to be mortgaged or of the cost of the work to be made on the same.

The ratio relating the amount of the loan disbursed by the Seller is determined, under its internal procedures, as the ratio between the amount of the loan to be disbursed and the lower of (i) the purchase price of the property and (ii) the appraised value of such property.

SECTION 2 - ISSUANCE PROCESS FOR LOANS

INTRODUCTION

The issuance of the mortgage applications is carried out by an electronic platform developed by web called European Mortgage Platform (EMP).

The platform is based on a workflow system, which permits the passage of the application in the different steps of the processing, with different roles in the weaving factory, assuring the safeguard of every channel/ally specificity.

Chapter 1

1. MORTGAGE ISSUANCE PROCESS

The first step in the process is the initial interview, or initial perusal of the documents forwarded by real estate agents with which a covenant is in place, with the aim of collecting and screening all information needed to grant the application, in particular to establish whether:

- the applicant's income is adequate to cover payment of loan instalments;
- there is no counter-indications as to intended use of the loan money and the location of the mortgaged property;
- property value is adequate to allow issuance of the loan amount requested.
- the birth certificate of the applicant and of any joint-owners of the property;
- certificate of civil status or extract of marriage deed;

Once all documents is collected, the file is checked by the credit analyst, who verifies:

- identity of the applicant and of any guarantors;
- the correctness of the documentation;
- the quality of data with a verify of the balance between documentation and system files;
- absence of protested bills, checking, where it is not possible to obtain information from an information agency, the bulletins issued by the Chamber of Commerce.

Checking said information is a necessary step before any further assessment on the credit worthiness of the applicant and any guarantors.

2. EVALUATION OF THE PROPERTY

After completing the collection and screening of the information on the subjects involved in the loan application, it is necessary to complete the investigation on the file as regards information on the property.

This stage also included collection of the loan application together with documents needed for subsequent assessments, *inter alia*:

- the ground plan of the property;
- certified true copy of the last purchase deed of the property;
- historical cadastral certificate for the past twenty years, plus an authentic extract of the cadastral map, both issued recently;
- copy of the certificate of suitability for habitation, issued by the competent city office.

The bank uses three kind of assessments of the property:

- Appraisal: an assessment carried out by a surveyor belonging to a list of professionals.
- Pledged appraisal: an assessment carried out by a surveyor not belonging to a list of professionals, but belonging to determined professionals (i.e. architects or engineers).
- Estimate: an assessment carried out by a different subject foreseen for the surveys and that bank accepts only in limited cases.

3. APPROVAL OF THE APPLICATION FOR A LOAN

After collection of required documentation, including the appraisal and the first draft of the contract prepared by the notary public, the duly authorised officer in possession of the necessary powers re-examines all the documentation produced and if he detects no grounds for reservations, in particular with regards to full title to the property as well as the same being free and clear from prejudicial registrations and transcriptions he proceeds with the acceptance of the credit/loan application.

4. DISBURSEMENT OF THE LOAN

Issuance of the loan, which is as a rule disbursed as a single payment, is subordinate to:

- registration of the mortgage on the pledged property and taking out of an insurance policy:

- with term equal to the length of the mortgage,
- for a value equal to the estimate from the property appraisal.

In particular, the mortgaged property has to be covered by an insurance policy including the risk of fire, lightning and explosion and include an encumbrance (vincolo) in favour of the Bank.

Chapter 2

1. APPLICATION DRAFTING PHASE

In the application drafting phase, the data needed for feeding the calculation algorithm are collected.

Information to be analysed is of the following types:

- personal details/master data;
- socio/demographic;
- income;
- records in public archives (protests, prejudicial registrations);
- contracts present on External Credit Bureaux;
- evidence of delinquent accounts with *Centrale Rischi* (BKI, SIA);
- other relations with UCB.

Information is fed into the system :

- manually, as regards information on applicant and guarantor taken from the data contained in the completed application form submitted by the client/prospective client together with personal documents (ID, taxpayer's code, etc.) and income documents (Mod. Unico (*income tax return*), pay sheet, etc.) making possible an initial check on the correctness of inputted information.
- by querying data-bases:
 - internal: (general master data, request for Chamber of Commerce certificate);
 - external: (Credit Bureaux) subject to authorisation from the subjects named in the application form, respectively as applicant(s) and guarantor(s), as required by privacy legislation. The Credit Bureaux provide for each name being vetted, a summary report of pending contracts and payment status as to pending contracts as well as a summary historical report on payments of paid off contracts.

2. INFORMATION ON THE TRANSACTION

To obtain final production of the rating assessment, it is first necessary to also input into the system the parameters of the transaction for which the loan is sought, in particular, the transaction must be recorded in the internal UniClient system in order to identify the financial repayment plan against the catalogue of products offered.

For mortgage loans, it is also necessary to complete, in the designated screens in the system, the fields pertaining to the following informations:

- type of building;
- building's surface area in square meters;
- province where the building is located;

- Postcode;
- commercial value of the property;
- whether commercial value was established by a reliable expert, estimated by the Director of a Market Agency, Branch etc., or appraised by the partner;
- source of the property (sale and purchase, gift, inheritance/succession, *usucapione*, ...);
- presence of any encumbrances on the property (asset fund, habitation right,...).

3. RATING CALCULATION

Once this stage of the examination has been reached, the system has obtained all the information it needs to establish a rating score and to identify who within the Seller body can approve the loan application.

The rating score may be:

- “white rating”: i.e. the score is higher than the minimum acceptance threshold;
- “black rating”: i.e. the score is lower than or equal to the minimum acceptance threshold.

Concurrently with calculation of the rating score, if the rating is “white”, the so-called “policy rules” apply; they are divided into:

- “black rules”: these point out the risk/income aspects, which advise against acceptance of the application, unless they are accompanied by appropriate reasons and are subject to the opinion of the Credit Department (*Direzione Crediti*);
- “insufficient income”: a sub-rule of the “black rule” identifying applications that can only be accepted if review of terms of the loan (duration and amount) or addition of a further guarantor enable the applicant(s) to meet the minimum income conditions required.
- “power of Credit Department rules”: these show situations relating to those borrowers and/or transactions, the evaluation of which is the responsibility of the Credit Department (*Direzione Crediti*).

4. OUTCOME OF THE PROCEDURE

The outcome of the procedure may be as follows:

- Admissible Outcome: when the application for a loan has obtained a white rating, and no decision-making rules are required. If the credit scoring assesses the application as admissible, concurrent identification takes place of the department empowered to authorise granting of the loan;
- Negative Outcome: this may stem from black rating or white rating plus one or more black policy rules. Decision-making power rests with the Credit Department (*Direzione Crediti*);
- Credit Department Faculty Outcome: this takes place every time even if a “white” credit rating has been issued, a Credit Department Faculty takes place. Decision-making power rests with the Credit Department (*Direzione Crediti*).

5. PREPARATION OF FINAL DOCUMENTATION AND STIPULATION OF THE MORTGAGE LOAN AGREEMENT

Together with the detailed technical and identification documentation, appraisal of the property to be mortgaged, and credit worthiness assessment, a notary public is asked to draw up a preliminary report, which should be delivered before the date set for executing the mortgage contract, allowing sufficient time for checking possible doubtful elements which may be included in the report as regards full title to the property by the mortgagor, the existence of liens or charges on the property subject of the mortgage and the inexistence of bankruptcy proceedings against the applicants and the guarantors.

Once property identification and technical details have been obtained, the bank secures, if it has not already done so in the previous phase, the mortgaged property appraisal.

The mortgage loan agreement is then signed with a single bilateral or unilateral deed.

At the time of execution of the loan agreement, an insurance policy covering the property against damage from fire, lightning and explosion must be requested as a mandatory condition; the insurance policy must contain an encumbrance (*vincolo*) in favour of the bank and must be entered into with an insurance company of the group or a leading insurance company.

Any mortgage on the relevant property must be assessed for an amount exceeding the amount of the loan, since also interest accruing, default interest, if any, and all expenses connected with the start of legal proceedings aimed at the recovery of the claim covered by the mortgage must be guaranteed.

SECTION 3 - COLLECTION POLICIES

The terms with initial capital below, unless otherwise defined, will have the same meaning as that given them in the Servicing Agreement.

Methodology of instalments payment

The payment of the instalments is carried out by direct debit on account, by R.I.D. or by bank transfer.

Direct debit account

It's a payment method based on the direct debit of the instalments on an account opened in a branch belonging to the Retail Division of UniCredit Banking Group.

R.I.D. (Rimessa Interbancaria Diretta)

The payment method is based on the transmission by an interbank procedure, of the proceeds of the instalment from the debtor bank to the creditor bank.

Bank transfer

The payment is based on the execution of a transfer by the customer to the Seller account.

Management of credits in the case of arrears

The credits on the basis of the regularity of the payments are classified in:

Performing Loans: no arrears;

Monitored Loans: loans with a number of arrears between 1 and 6;

Default Loans: (past due loans, Incagli, Sofferenze).

Collection

The procedures of collection are carried out according to the length of default.

For the monitored loans the collection is developed by an IT System managed in “Customer Recovery” an Unicredit Holding Department specialised in collection activities for the whole Retail Division. The collection is splitted in two on the basis of the arrears: from 1 to 3 is carried out a Direct Payment Reminder; from 4 arrears is carried out a Home Collection.

A – Direct Payment Reminder

This phase of the collection process consists of a friendly collection activity and has the scope to identify the reasons for the delay in the payment of the instalments and to return to a regular situation (payment of overdue instalments). Direct reminders, in the event of negative outcome, are as a rule stopped within 105 days from maturity of the unpaid instalment.

B – Home Collection

After the terms established for direct reminder have expired, if non-performance persists, outstanding payments are forwarded on behalf of the Servicer for collection to any other specialised credit recovery agency.

Within the usual management process of the external agencies, the activities consist in the creation of homogeneous positions of consecutive first recovery step and second recovery step (each step having a duration of 45 days plus 30 days extension in case of a positive outcome).

During the reference period for the management of the home collection it was developed, within predetermined perimeters of positions not delegated to external agencies, a concurrent process aimed at maximising the recovery possibilities of the client by introducing an asset management approach.

This implies a “one to one” management of the client, the launch of specific campaigns with advanced collection products (Salto rata, Arca 12 months extendible for additional 12 months).

The process of management, allocation to each phase and the maintenance of the loan in each phase does not depend from the number of instalments in arrears but from the number of days of arrears.

Management of Defaulted Receivables

If the terms established have expired without attempts at recovery without judicial recourse (either direct and/or home collection) having borne fruit, or even before then, if conditions/events occur that, in the Servicer’s opinion show a worsening of the debtor’s credit worthiness, the positions will be classified by the Servicer as being *Crediti ad Incaglio* or *Crediti in Sofferenza*. In the event of classification of a claim as being *Credito ad Incaglio*, the Servicer shall ask for the payment of the overdue instalments increased by default interest in relation to the original repayment schedule. If the claim is classified as being a *Credito in Sofferenza*, the Servicer shall terminate the loan agreement asking for the full payment of all amounts outstanding.

The doubtful classification is done according to a global evaluation about the total exposure of the customer. If the customer is eligible to doubtful classification due to arrears on consumer loans, but he is regular for a mortgage, the evaluation will be applied considering the customer global exposure and collection activities in place.

A claim shall be classified by the Servicer as *Credito ad Incaglio* when the position of the assigned debtor is assessed as temporary in nature and it is expected that the situation may be corrected within a reasonable period of time.

For the purpose of securitisation and associated reporting, credit classified as defaulting will not be recorded as a performing loan (*in bonis*), even after the borrower has corrected his position.

The Servicer, besides performing correct classification, will assess credit and manage credit protection and recovery in collaboration with the sub-servicer.

In particular, the sub-servicer shall implement any and all out of court and/or judicial initiatives that appear feasible and/or appropriate for the management of the relevant claims in compliance with the procedures described below. The sub-servicer shall analyse in detail the documents relating to the claim received by the Servicer and shall transfer to its claim monitoring system all data relating to the file.

The file will be assigned by the management system to an internal manager on the basis of several criteria, such as, by way of example, the geographic location of the assigned debtor, its sector of activity, type of exposure and amount of the same. The selected Sub-Servicer manager shall attempt to contact the client by phone or letter or other suitable means, including personal contact. In certain cases, an external adviser/third company selected according to certain pre-established criteria may be retained to assist the in-house manager. Any such adviser/third company shall work under close supervision of the internal manager and its appointment shall normally be established in 60 days, which may be extended; upon expiry of the appointment, the external provider shall be replaced by another external adviser/third company.

The Sub-Servicer manager, also via external advisers/third company, shall attempt to settle the relevant file through an out-of-court settlement, based on negotiation of repayment (*rientro*) with the Assigned Debtor.

Proposed settlement of the debt position formulated by the Sub-Servicer manager will be in line with the powers provided for in the Servicing Agreement.

The proposal thus put forward will be submitted for approval to the Sub-Servicer's competent body, based on the delegation system established by the same Sub-Servicer, and the final outcome will be communicated to the Assigned Debtor.

If the proposal is accepted by the competent body, data on the newly agreed repayment plan will be uploaded on the management system, which will automatically flag the manager in the event of irregularity. If the Assigned Debtor fails to effect payments due under the negotiated solution, as reported by the management system the resolution will be annulled.

If the competent body does not accept the proposal and the restructured loan proposal is rejected by the relevant department of the Sub-Servicer and no alternative negotiated solutions are reached,

legal action shall be initiated if deemed appropriate or suitable, by means of service of a payment order (*precetto*) to the assigned debtor followed by seizure of the mortgaged property, and by subsequent enforcement process with sale of the mortgaged property in accordance with the legal procedures. For its legal activity, the Sub-Servicer shall use external legal advisers of its choice with proven experience in debt collection judicial proceedings, using the same management system enabling on-going monitoring of judicial activities.

However, also during legal proceedings, the Sub-Servicer will explore and utilise all options available, including out-of-court settlements, to maximise collections and minimise costs associated with loan recovery.

Once all the activities and attempts to renegotiate the loan with the client have proven unsuccessful and in the Sub-Servicer's opinion no further actions are viable for collection of the overdue amount, the Sub-Servicer may proceed with the sale of the *Credito in Sofferenza*, in compliance with precise conditions established under the Servicing Agreement. After the judicial or out-of-court proceedings have been completed, sums recovered will be collected, or, if no recovery was achieved the mandate will be closed.

In any event, the Sub-Servicer shall notify the Servicer of the successful full or partial collection of the receivable or of the impossibility or inconvenience of conducting any additional judicial or out-of-court activities.

Possible full or partial write-off shall be decided upon by the competent department of the Servicer

Early Repayment

Similarly to the provisions in place for the Servicer's clients, under the terms of the mortgage loan agreement, a borrower can fully or partially pre-pay its mortgage loan at any time.

Full Early Repayment

If the borrower wishes to pre-pay his/her mortgage loan in full, he/she shall pay the amount of the residual debt on the principal account, after settling any instalments fallen due and unpaid, as well as any interest accrued from the due date of the last instalment up to the date of final settlement. In addition to these sums, a penalty for early repayment, if applicable according to the law, will also be charged, calculated as a percentage of outstanding debt at the time of repayment.

Partial Early Repayment

The case of partial early repayment, also called partial reduction, provides for payment of a sum by the borrower as advanced repayment of part of the principal. The partial reduction of the residual debt shall entail recalculation of the repayment schedule, which in turn shall entail, leaving due dates unchanged, a reduction in the instalments to be collected.

Under both full and partial pre-payment, the fee schedule usually, if applicable according to the law, makes provision for the payment of a fixed percentage applied to the amount of residual debt.

One mandatory condition for the borrower to avail him/herself of early full or partial repayment is the inexistence of any outstanding unpaid instalments; moreover, in the event of loans with index-linked rate (if any), any adjustments possibly due by the debtor must have already been paid.

CREDIT STRUCTURE

The OBG will be direct, unsecured, unconditional obligations of the Issuer. The OBG Guarantor has no obligation to pay the Guaranteed Amounts under the OBG Guarantee until the occurrence of an Issuer Event of Default, service by the Representative of the OBG Holders on the Issuer and on the OBG Guarantor of a Notice to Pay or, if earlier, following the occurrence of a Guarantor Event of Default, service by the Representative of the OBG Holders of a Guarantor Acceleration Notice on the OBG Guarantor. The Issuer will not be relying on payments by the OBG Guarantor in respect of the Subordinated Loans or receipt of Interest Available Funds or Principal Available Funds from the Portfolio in order to pay interest or repay principal under the OBG.

There are a number of features of the Programme which enhance the likelihood of timely and, as applicable, ultimate payments to OBG Holders, as follows:

- (i) the OBG Guarantee provides credit support to the Issuer;
- (ii) the Mandatory Tests are intended to ensure that the Eligible Portfolio is at all times sufficient to repay the OBG;
- (iii) the Over-Collateralisation Test is intended to test the asset coverage of the OBG Guarantor's assets in respect of the OBG for so long the OBG remain outstanding;
- (iv) the Amortisation Test is intended to test the asset coverage of the OBG Guarantor's assets in respect of the OBG following the occurrence of an Issuer Event of Default, and the service of a Notice to Pay on the Issuer and the OBG Guarantor; and
- (v) the Reserve Account established to trap, from time to time, any amount of excess spread available to cover an amount equal to the sum of (A) and (B)

where

(A) means the difference, if positive, between (i) the amount of interest accrued on the OBG until that Guarantor Payment Date (inclusive) and not yet paid by the Issuer and (ii) the amount accrued until that Guarantor Payment Date (inclusive) with respect to any payment to be made by the OBG Hedging Counterparty under the OBG Front Swap Agreements on the subsequent OBG Payment Date; (B) if the Issuer has a short term debt rating equal or higher than F1 and a long-term debt rating equal or higher than A by Fitch means 0 (zero), otherwise the sum of (x) and (y)

where

(x) means (a) with regards to all those OBG whose OBG Swaps are in place with the Issuer, the amount of interest due and payable on the OBG on the immediately succeeding Guarantor Payment Date, or (b) with regards to all those OBG whose OBG Swaps are in place with a Hedging Counterparty other than the Issuer, the amount due and payable by the OBG Guarantor under the OBG Front Swap Agreements on the immediately succeeding Guarantor Payment Date; and

(y) means an amount equal to 0.50% of the Outstanding Principal Balance of Portfolio as at the end of the immediately preceding Collection Period. Certain of these factors are considered more fully in the remainder of this section.

OBG Guarantee

The OBG Guarantee provided by the OBG Guarantor guarantees the payment of Guaranteed Amounts (as defined in the Conditions) on the relevant Scheduled Due for Payment Date (as defined in the Conditions) in respect of all OBG issued under the Programme. The OBG Guarantee will not guarantee any other amount becoming payable in respect of the OBG for any other reason, including any accelerated payment, following the occurrence of an Issuer Event of Default. In this circumstance (and until a Guarantor Event of Default occurs and a Guarantor Acceleration Notice is served), the OBG Guarantor's obligations will only be to pay the Guaranteed Amounts as they fall Due for Payment.

See further "*Description of the Transaction Documents — OBG Guarantee*", as regards the terms of the OBG Guarantee and see "*Accounts and Cashflows — Priority of Payments*", as regards the payment of amounts payable by the OBG Guarantor to OBG Holders and the other Secured Creditors following the occurrence of an Issuer Event of Default.

Under the terms of the Portfolio Administration Agreement, UniCredit (as Seller and Issuer), the Additional Seller (if any) must ensure that, on each Calculation Date and on each OC Calculation Date prior to service of a Notice to Pay, the Eligible Portfolio and the OC Adjusted Eligible Portfolio, as at the immediately preceding Reconciliation Date, is in compliance with the Mandatory Tests and the Over-Collateralisation Test, respectively. If on any Calculation Date or any OC Calculation Date (as the case may be) the Eligible Portfolio is not in compliance with the Mandatory Tests or, as the case may be, the OC Adjusted Eligible Portfolio is not in compliance with the Over-Collateralisation Test, then UniCredit (as Seller and Issuer) and the Additional Seller (if any) shall sell to the OBG Guarantor Assets or Integration Assets in an amount sufficient to allow the Mandatory Tests and the Over-Collateralisation Test (as applicable) to be satisfied, in accordance with, as appropriate, the Master Transfer Agreement and the Portfolio Administration Agreement (including the transfer agreement(s) to be entered into by the Additional Seller (if any), if applicable). To this extent the UniCredit (as Issuer and Seller), the Additional Seller (if any), as the case may be, shall provide, in accordance with the Subordinated Loan or, as the case may be, with any additional subordinated loan, the funds necessary the purposes of funding the purchase of Assets or Integration Assets.

USE OF PROCEEDS

The net proceeds to the Issuer from the issue of all OBG will be applied by the Issuer for general funding purposes of the Group (including funding of the mortgage loans business of the Group).

DESCRIPTION OF THE TRANSACTION DOCUMENTS

Master transfer agreement

Pursuant to a master transfer agreement entered into on 29 August 2008, as from time to time amended, (the “**Master Transfer Agreement**”), between the Seller and the OBG Guarantor, the Seller assigned to the OBG Guarantor the Initial Portfolio and the parties thereto agreed that the Seller may assign and transfer Mortgage Receivables satisfying the General Criteria and the Specific Criteria and other Assets and/or Integration Assets to the OBG Guarantor from time to time, in the cases and subject to the limits for the transfer of further Assets and/or Integration Assets, on a revolving basis.

The purchase price in respect of the Initial Portfolio has been determined pursuant to the Master Transfer Agreement. Under the Master Transfer Agreement the relevant parties thereto have acknowledged that the purchase price in respect of the Initial Portfolio shall be funded through the proceeds granted in accordance with the Subordinated Loan Agreement.

Further Assignments

For the assignment of each New Portfolio comprised of Mortgage Receivables, the OBG Guarantor shall pay the Seller an amount equal to the aggregate of the individual receivable price (equal to the value of each Receivable as it results from the Seller’s latest balance sheet) of all the Mortgage Receivables in such New Portfolio.

Each New Portfolio shall be composed exclusively of Assets or Integration Assets, which comply with the General Criteria and (if applicable in relation to the relevant issuance, the Specific Criteria) on the relevant purchase date, provided that, pursuant to the BoI OBG Regulations, the Master Transfer Agreement and the Portfolio Administration Agreement, total Integration Assets shall not exceed the Limit to the Integration.

The Further Assignments shall be aimed at:

- (a) collateralising and allowing the issue of further series of OBG by the Issuer, subject to the Limits to the Assignment (the “**Issuance Collateralisation Assignment**”);
- (b) investing the Principal Available Funds in the purchase of further Assets or Integration Assets, provided that a Programme Suspension Period is not continuing (the “**Revolving Assignment**”); and/or
- (c) comply with the Over-Collateralisation Test and the Mandatory Tests in accordance with the Portfolio Administration Agreement (the “**Integration Assignment**”), subject to the limits referred to the Limit to the Integration.

The obligation of the OBG Guarantor to purchase any New Portfolio shall be:

- (i) conditional upon (a) the existence of sufficient Principal Available Funds to be applied under item (iii) of the Pre-Issuer Default Principal Priority of Payments for the perfection of Revolving Assignments, or (b) the funding of the requested amounts under the Subordinated Loan Agreement for the perfection of Issuance Collateralisation Assignments or Integration Assignments; and

- (ii) subject to certain conditions subsequent set out in the Master Transfer Agreement.

Criteria

Each of the receivables forming part of the Portfolio shall comply with all the General Criteria, while, in the context of the sale of further portfolios of Mortgage Receivables shall comply also with the relevant Specific Criteria.

Price Adjustments

The Master Transfer Agreement provides a price adjustment mechanism pursuant to which:

- (i) if, following the relevant Effective Date, any mortgage receivable which is part of the Initial Portfolio or of a New Portfolio does not meet the Criteria, then such mortgage receivable will be deemed not to have been assigned and transferred to the OBG Guarantor pursuant to the Master Transfer Agreement; and
- (ii) if, following the relevant Effective Date, any Mortgage Receivable which meets the Criteria but it is not part of the Initial Portfolio or of a New Portfolio, then such Mortgage Receivable shall be deemed to have been assigned and transferred to the OBG Guarantor as of the Evaluation Date of the relevant Portfolio, pursuant to the Master Transfer Agreement.

In accordance with the above, the Seller and the OBG Guarantor have set up a proper mechanism to manage the necessary settlements for the substitution or acquisition of the relevant Mortgage Receivables and the increase or decrease, as the case may be, of the amounts already paid as Purchase Price.

Repurchase of receivables and pre-emption right

The Seller is granted an option right, pursuant to Article 1331 of Italian Civil Code, to repurchase the Mortgage Receivables and/or Securities individually or in block, also in different tranches. In order to exercise the option right, the Seller is required to pay the OBG Guarantor an amount equal to the sum of: (a) the purchase price paid to the Seller with reference to such Mortgage Receivable and/or Security, *less* (b) the total amount of the principal amounts collected in the period between the Evaluation Date (excluded) concerning such Mortgage Receivable and/or Security and the Date of Carve Out, *plus* (d) the possible damages and losses borne by the OBG Guarantor as consequences of any claim raised by third parties and referred to such Mortgage Receivable and/or Security.

The Seller is granted a pre-emption right to repurchase Mortgage Receivables and Securities to be sold by the OBG Guarantor to third parties, at the same terms and conditions provided for such third parties. Such pre-emption rights shall cease if the Seller is submitted to any of the procedures set forth in Title V of the Banking Law.

Termination of the OBG Guarantor's obligation to purchase and termination of the agreement

Pursuant to the Master Transfer Agreement, the obligation of the OBG Guarantor to purchase New Portfolios shall terminate upon the occurrence of any of the following: (i) a breach of the undertakings and duties assumed by the Seller pursuant to the Transaction Documents, in the event such breach is not cured within the period specified in the Master Transfer Agreement, or it is

otherwise not curable; (ii) a breach of the Seller's representations and warranties given in any of the Transaction Documents; (iii) a Seller's material adverse change; (iv) an enforcement against the Sellers' assets, winding-up of the Seller, opening of a bankruptcy or insolvency proceeding; (v) the Seller being submitted to judicial proceeding which may cause the occurrence of a material adverse change of the Seller; or (vi) the Programme Termination Date has occurred. Further to the occurrence of an event described above, the OBG Guarantor shall no longer be obliged to purchase New Portfolios.

Undertakings

The Master Transfer Agreement also contains a number of undertakings by the Seller in respect of its activities in relation to the Mortgage Receivables, the Securities, the Guarantees and the Loan Agreements. The Seller has undertaken, *inter alia*, to refrain from carrying out activities with respect to the Mortgage Receivables, the Securities and the Guarantees which may prejudice the validity or recoverability of the same and in particular not to assign or transfer the Mortgage Receivables, the Securities and the Guarantees to any third party or to create any security interest, charge, lien or encumbrance or other right in favour of any third party in respect of the Mortgage Receivables, the Securities and the Guarantees. The Seller also has undertaken to refrain from any action which could cause any of the Mortgage Receivables or Guarantees to become invalid or to cause a reduction in the amount of any of the Receivables or the Guarantee. The Master Transfer Agreement also provides that the Seller shall waive any set off rights in respect of the Mortgage Receivables, and cooperate actively with the OBG Guarantor in any activity concerning the Mortgage Receivables.

Governing Law

The Warranty and Indemnity Agreement is governed by Italian Law.

Subordinated Loan Agreement

Pursuant to a subordinated loan agreement entered into on 14 October 2008, by the Seller and the OBG Guarantor (the “**Subordinated Loan Agreement**”), the Seller granted the OBG Guarantor a subordinated loan (the “**Subordinated Loan**”) with a maximum amount equal to €7,500,000,000, save for further increases to be determined by the Seller as subordinated loan provider. Following the determination to that effect by the Seller, the maximum amount of the Subordinated Loan has been increased and is currently equal to €35,000,000,000. Under the provisions of such agreement, upon the relevant disbursement notice being filed by the OBG Guarantor, the Seller shall make advances to the OBG Guarantor in amounts equal to the relevant price of the Initial Portfolio and each New Portfolios transferred from time to time to the OBG Guarantor in view of (a) collateralising the issue of further OBG or (b) carrying out an integration of the Portfolio, through Assets or Integration Assets, in order to prevent a breach of the Over-Collateralisation Test or/and of the Mandatory Tests.

The OBG Guarantor shall pay any amounts due under the Subordinated Loan in accordance with the relevant Priority of Payments. The OBG Guarantor shall use the proceeds arising from the Subordinated Loan Agreement: (i) as consideration in part for the acquisition of Assets from the Seller pursuant to the terms of the Master Transfer Agreement, as described above, and/or (ii) to invest in Integration Assets in an amount not exceeding the prescribed limit.

The Subordinated Loan shall bear interest in an amount equal to the algebraic sum of:

Governing Law

The Subordinated Loan Agreement is governed by Italian law.

OBG Guarantee

Pursuant to a guarantee entered into on 14 October 2008 between the OBG Guarantor and the Representative of the OBG Holders, the OBG Guarantor issued a guarantee securing the payment obligations of the Issuer under the OBG (the “**OBG Guarantee**”), in accordance with the provisions of Law 130 and of the MEF Decree.

Under the terms of the OBG Guarantee, if the Issuer defaults in the payment on the due date (subject to any applicable grace periods) of any moneys due and payable under or pursuant to the OBG, or if any other Issuer Event of Default occurs, the OBG Guarantor has agreed (subject as described below) to pay, or procure to be paid, following the service by the Representative of the OBG Holders of a Notice to Pay, unconditionally and irrevocably to or to the order of the Representative of the OBG Holders (for the benefit of the OBG Holders), any amounts due under the OBG as and when the same were originally due for payment by the Issuer, as of any Maturity Date or, if applicable, Extended Maturity Date.

Pursuant to Article 7-*bis*, paragraph 1, of Law 130 and Article 4 of the MEF Decree, the guarantee provided under the OBG Guarantee is a first demand (*a prima richiesta*), unconditional, irrevocable (*irrevocabile*) and independent guarantee (*garanzia autonoma*) and therefore provides for direct and independent obligations of the OBG Guarantor vis-à-vis the OBG Holders and with limited recourse to the Available Funds, irrespective of any invalidity, irregularity, unenforceability or genuineness of any of the guaranteed obligations of the Issuer. The provisions of the Italian Civil Code relating to *fideiussione* set forth in Articles 1939 (*Validità della fideiussione*), 1941, paragraph 1 (*Limiti della fideiussione*), 1944, paragraph 2 (*Escussione preventiva*), 1945 (*Eccezioni opponibili dal fideiussore*), 1955 (*Liberazione del fideiussore per fatto del creditore*), 1956 (*Liberazione del fideiussore per obbligazione futura*) and 1957 (*Scadenza dell'obbligazione principale*) shall not apply to the OBG Guarantee.

Following the service of a Notice to Pay on the OBG Guarantor, but prior to the occurrence of a Guarantor Event of Default, payment by the OBG Guarantor of the Guaranteed Amounts pursuant to the OBG Guarantee will be made, subject to and in accordance with the Post-Issuer Event of Default Priority, on the relevant Scheduled Due for Payment Date, provided that, if an Extended Maturity Date is envisaged under the relevant Final Terms and actually applied, any amount representing the Final Redemption Amount due and remaining unpaid on the Maturity Date may be paid by the OBG Guarantor on any Scheduled Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. In addition, where the OBG Guarantor is required to make a payment of a Guaranteed Amount in respect of a Final Redemption Amount payable on the Maturity Date of the relevant Series of OBG, to the extent that the OBG Guarantor has insufficient moneys available after payment of higher ranking amounts and taking into account amounts ranking *pari passu* therewith in the relevant Priority of Payments, to pay such Guaranteed Amounts, it shall make partial payments of such Guaranteed Amounts in accordance with the Post-Issuer Event of Default Priority.

If, following the service of a Notice to Pay served as a result of the taking of a resolution pursuant to Article 74 of the Banking Law, the Issuer Event of Default consisting of a resolution pursuant to Article 74 of the Banking Law issued in respect of the Issuer that had caused the service of such notice is cured and no other Issuer Event of Default or Guarantor Event of Default has occurred and is continuing, the Representative of the OBG Holders will deliver to the OBG Guarantor a notice (the “**Cure Notice**”) informing the OBG Guarantor that the Issuer Event of Default (consisting of a resolution pursuant to Article 74 of the Banking Law issued in respect of the Issuer) then outstanding has been revoked and the OBG Guarantor’s obligation to make payment of the Guaranteed Amounts in accordance with the OBG Guarantee shall cease to apply until the OBG Guarantee has newly enforced by the Representative of the OBG Holders.

Following the service of a Guarantor Acceleration Notice all OBG of all Series will accelerate, in accordance with the Conditions, against the OBG Guarantor becoming due and payable, and they will rank *pari passu* amongst themselves and the Available Funds shall be applied in accordance with the Post-Guarantor Events of Default Priority.

All payments of Guaranteed Amounts by or on behalf of the OBG Guarantor will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other governmental charges of whatever nature unless such withholding or deduction of such taxes, assessments or other governmental charges are required by law or regulation or administrative practice of any jurisdiction. If any such withholding or deduction is required, the OBG Guarantor will pay the Guaranteed Amounts net of such withholding or deduction and shall account to the appropriate tax authority for the amount required to be withheld or deducted. The OBG Guarantor will not be obliged to pay any amount to any OBG Holder in respect of the amount of such withholding or deduction.

Exercise of rights

Following the occurrence of an Issuer Event of Default and service of a Notice to Pay on the OBG Guarantor, but prior to the occurrence of any Guarantor Event of Default, and with reference and as of the date of administrative liquidation (*liquidazione coatta amministrativa*) of the Issuer in accordance with the provisions of Article 4, paragraph 3 of the MEF Decree, the OBG Guarantor, shall substitute the Issuer in all obligations of the Issuer towards the OBG Holders in accordance with the terms and conditions originally set out for the OBG, so that the rights of payment of the OBG Holders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the OBG Guarantor on the Scheduled Due for Payment Date. In consideration of the substitution of the OBG Guarantor in the performance of the payment obligations of the Issuer under the OBG, the OBG Guarantor (directly or through the Representative of the OBG Holders) shall exercise, on an exclusive basis and, to the extent applicable, in compliance with the provisions of Article 4, paragraph 3 of the MEF Decree, the rights of the OBG Holders vis-à-vis the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

As a consequence and as expressly indicated in the Conditions, the OBG Holders have irrevocably delegated to the OBG Guarantor (also in the interest and for the benefit of the OBG Guarantor) the exclusive right to proceed against the Issuer to enforce the performance of any of the payment

obligations of the Issuer under the OBG including any rights of enforcing any acceleration of payment provisions provided under the Conditions or under the applicable legislation. For this purpose the OBG Holders upon request of the OBG Guarantor, shall provide the OBG Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

For the purposes of the OBG Guarantee:

“**Due for Payment Date**” means: (i) a Scheduled Due for Payment Date or (ii) following the occurrence of a Guarantor Event of Default, the date on which the Guarantor Acceleration Notice is served on the OBG Guarantor. If the Due for Payment Date is not a Business Day, the Due for Payment Date will be the next following Business Day. For the avoidance of doubt, Due for Payment Date does not refer to any earlier date upon which payment of any Guaranteed Amounts may become due under the guaranteed obligations, by reason of prepayment, mandatory or optional redemption or otherwise.

“**Guaranteed Amounts**” means: (i) prior to the service of a Guarantor Acceleration Notice, with respect to any Guarantor Payment Date, the sum of amounts equal to the Scheduled Interest and the Scheduled Principal, in each case, payable on that Guarantor Payment Date and all amounts payable by the OBG Guarantor under the Transaction Documents ranking senior to any payment due in respect to the OBG according to the applicable Priority of Payments, or (ii) after the service of a Guarantor Acceleration Notice, an amount equal to the relevant Early Redemption Amount (as defined and specified in the Conditions) plus all accrued and unpaid interest and all other amounts due and payable in respect of the OBG, including all Excluded Scheduled Interest Amounts and all Excluded Scheduled Principal Amounts (whenever the same arose) and all amounts payable by the OBG Guarantor under the Transaction Documents ranking senior to any payment due in respect to the OBG according to the applicable Priority of Payments, provided that any Guaranteed Amounts representing interest paid after the Maturity Date (or Extended Maturity, as the case may be) shall be paid on such dates and at such rates as specified in the relevant Final Terms. The Guaranteed Amounts include any Guaranteed Amount that was timely paid by or on behalf of the Issuer to the OBG Holders to the extent it has been clawed back and recovered from the OBG Holders by the receiver or liquidator, in bankruptcy or other insolvency or similar official for the Issuer named or identified in the order, and has not been paid or recovered from any other source (the “**Clawed Back Amounts**”).

“**Scheduled Due for Payment Date**” means:

- (i) (a) the date on which the Scheduled Payment Date in respect of such Guaranteed Amounts is reached, and (b) only with respect to the first Scheduled Payment Date immediately after the occurrence of an Issuer Event of Default, the later of (i) the day which is two Business Days following service of the Notice to Pay on the OBG Guarantor in respect of such Guaranteed Amounts and (ii) the relevant Scheduled Payment Date; or
- (ii) if the applicable Final Terms specified that an Extended Maturity Date is applicable to the relevant series of OBG, the OBG Payment Date that would have applied if the Maturity Date of such series of OBG had been the Extended Maturity Date or such other OBG Payment Date(s) as specified in the relevant Final Terms.

“**Scheduled Interest**” means in respect of each OBG Payment Date (i) following an Issuer Event of Default and the service of a Notice to Pay on the OBG Guarantor, an amount equal to the amount in respect of interest which would have been due and payable under the OBG on such OBG Payment Date as specified in the Conditions falling on or after service of a Notice to Pay on the OBG Guarantor (but excluding any additional amounts relating to premiums, default interest or interest upon interest, which are hereinafter referred to as the “**Excluded Scheduled Interest Amounts**”) payable by the Issuer and (ii) following the service of a Guarantor Acceleration Notice, an amount equal to the amount in respect of interest which would have been due and payable under the OBG on each OBG Payment Date as specified in the Conditions falling on or after the service of a Guarantor Acceleration Notice and including such Excluded Scheduled Interest Amounts (whenever the same arose), less any additional amounts the Issuer would be obliged to pay as result of any gross-up in respect of any withholding or deduction made under the circumstances set out in the Conditions.

“**Scheduled Payment Date**” means, in relation to payments under the OBG Guarantee, each OBG Payment Date.

“**Scheduled Principal**” means in respect of each OBG Payment Date (i) following an Issuer Event of Default and the service of a Notice to Pay on the OBG Guarantor, an amount equal to the amount in respect of principal which would have been due and repayable under the OBG on such OBG Payment Dates or the Maturity Date (as the case may be) as specified in the Conditions (but excluding any additional amounts relating to prepayments, early redemption, broken funding indemnities, penalties or premiums, which are hereinafter referred to as the “**Excluded Scheduled Principal Amounts**”) payable by the Issuer and (ii) following the service of a Guarantor Acceleration Notice, an amount equal to the amount in respect of principal which would have been due and repayable under the OBG on each OBG Payment Dates or the Maturity Date (as the case may be) as specified in the Conditions and including such Excluded Scheduled Principal Amounts (whenever the same arose).

any other Transaction Documents. The proceeds of any such sale shall be credited to the Principal Collection Account and invested in accordance with the terms of the Cash Management and Agency Agreement.

For so long as there are OBG outstanding, following service of a Notice to Pay (but prior to the occurrence of a Guarantor Event of Default) UniCredit (as Seller and Issuer) and the Additional Seller (if any) shall procure to verify on a continuing basis, and on each Calculation Date, the compliance of the Amortisation Test. The Asset Monitor will be required to conduct such tests no later than the relevant Asset Monitor Report Date (as defined under the Asset Monitor Agreement). On each Asset Monitor Report Date, the Asset Monitor shall deliver to the OBG Guarantor, the Calculation Agent, the Representative of the OBG Holders, the Issuer and the Rating Agencies a report substantially in the form set forth under the Asset Monitor Agreement.

The OBG Guarantor will pay to the Asset Monitor a fee per test for the tests to be performed by the Asset Monitor in the amount set out in the Asset Monitor Agreement from time to time.

If termination of the appointment of the Asset Monitor would otherwise take effect less than 30 days before or after any Calculation Date immediately after which an Asset Monitor Report shall be delivered, then such termination shall not take effect until the tenth day following such Calculation Date. In any case, no revocation of the appointment of the Asset Monitor shall take effect until a successor, approved by the Representative of the OBG Holders, has been duly appointed.

The Asset Monitor may, at any time, resign by giving not less than six months (or such shorter period as the Representative of the OBG Holders may agree) prior written notice of termination to the Issuer, the OBG Guarantor and the Representative of the OBG Holders, provided that such resignation will not take effect unless and until, *inter alia*: (i) a substitute Asset Monitor being appointed by the Issuer and (upon delivery of a Notice to Pay) the OBG Guarantor, with the prior written approval of the Representative of the OBG Holders, on substantially the same terms as those set out in this Agreement; (ii) the Asset Monitor being not released from its obligations under the Asset Monitor Agreement until a substitute Asset Monitor has entered into such new agreement and it has become a party to the Intercreditor Agreement; and (iii) the then current ratings of each Series of OBG by the Rating Agencies not being adversely affected as a result of such resignation.

Deed of Pledge

Pursuant to a deed of pledge entered into on 14 October 2008 between the OBG Guarantor, the Representative of the OBG Holders and the other Secured Creditors (the “**Deed of Pledge**”), which

the OBG Guarantor pledged in favour of the OBG Holders and the Secured Creditors all the monetary claims and rights and all the amounts payable from time to time (including payment for Mortgage Receivables, indemnities, damages, penalties, credits and guarantees) to which the Issuer is entitled pursuant or in relation to the Transaction Documents (other than the English Law Documents, the Deed of Pledge and the Conditions), including the monetary claims and rights relating to the amounts standing to the credit of the Accounts and any other account established by the OBG Guarantor in accordance with the provisions of the Transaction Documents.

Governing Law

The Deed of Charge and the Supplemental Deed of Charge are governed by English law.

Portfolio Swaps

In order to hedge the interest rate and/or currency risks related to the transfer of each Portfolio, the OBG Guarantor will enter into one or more swap transactions with the Portfolio Hedging Counterparty, on the date of each transfer, subject to a 1992 International Swaps and Derivatives Association Inc. (ISDA) Master Agreement (Multicurrency - Cross Border), including Schedule and Credit Support Annex (each a “**Portfolio Swap**” and together the “**Portfolio Swaps**”).

With respect to a swap transaction (herein referred to as a “**Portfolio Front Swap Agreement**”), the respective Portfolio Hedging Counterparty will, *inter alia*, be required to have certain minimum required ratings provided for under the Portfolio Front Swap Agreement. If the rating of a Portfolio Hedging Counterparty falls below such minimum required ratings or if the Portfolio Hedging Counterparty fails to perform its obligations under the respective Portfolio Front Swap Agreement resulting in the OBG Guarantor being entitled to terminate such Portfolio Front Swap Agreement, the Portfolio Hedging Counterparty will be required to either (a) transfer all of its rights and

obligations with respect to the Portfolio Front Swap Agreement to a replacement swap counterparty having adequate ratings; or (b) activate an appropriate mark-to-market collateral agreement; or (c) obtain a guarantee from a third party having adequate ratings in relation to its obligations under the Portfolio Front Swap Agreement.

A Portfolio Front Swap Agreement may also be terminated upon the occurrence of any Event of Default, Termination Event or Additional Termination Event, each as defined in the respective Portfolio Swap (each such event a “**Portfolio Swap Early Termination Event**”).

Upon the termination of such Portfolio Swap, the OBG Guarantor or the Portfolio Hedging Counterparty may be liable to make a termination payment to the other in accordance with the provisions of the respective Portfolio Swap.

In order to match the respective cash flows to be exchanged between the OBG Guarantor and the respective Portfolio Hedging Counterparty, each such Portfolio Front Swap Agreement will be replicated by a swap transaction which mirrors the economic terms of the Portfolio Front Swap Agreement but with reversed payment flows (herein referred to as a “**Portfolio Mirror Swap Agreement**”). The Portfolio Hedging Counterparty for such Portfolio Mirror Swap Agreement, however, is not, *inter alia*, required to have any minimum required ratings provided for in the Portfolio Front Swap Agreement. In addition, a Portfolio Mirror Swap Transaction terminates at zero cost following to occurrence of (i) the substitution of the Portfolio Hedging Counterparty under the Portfolio Front Swap Agreement, (ii) the service of a Notice to Pay following an Issuer Event of Default or (iii) a redemption for tax reasons pursuant to Condition 8(c).

Governing Law

The Portfolio Swaps are governed by English law.

OBG Swaps

In order to hedge the currency and/or interest rate exposure in relation to its floating or fixed rate obligations under the OBG, the OBG Guarantor will enter into one or more swap transactions with the OBG Hedging Counterparty on each Issue Date subject to a 1992 International Swaps and Derivatives Association Inc. (ISDA) Master Agreement (Multicurrency - Cross Border), including Schedule and Credit Support Annex (each a “**OBG Swap**” and jointly the “**OBG Swaps**”). In addition, a confirmation will be executed in respect of each tranche, as applicable, of OBG whose Specified Currency is different to then applicable currency in respect of the Loans in the respective Portfolio, to hedge certain interest rate, currency and/or other risks in respect of amounts received by the OBG Guarantor under the Loans, the Portfolio Swaps and amounts payable by the OBG Guarantor under the Subordinated Loan Agreement (prior to the occurring of a Guarantor Events of Default) and under the OBG Guarantee in respect of OBG (after the service of a Guarantor Events of Default). Where required to hedge such risks, there will be one (or more) OBG Swap(s) in relation to each tranche, as applicable, of OBG.

With respect to swap transaction (herein referred to as an “**OBG Front Swap Agreement**”) the OBG Hedging Counterparty will, *inter alia*, be required to have certain minimum required ratings provided for under the OBG Front Swap Agreement. If the rating of a OBG Hedging Counterparty falls below such minimum required ratings or if the OBG Hedging Counterparty fails to perform its

obligations under the respective OBG Front Swap Agreement resulting in the OBG Guarantor being entitled to terminate such OBG Front Swap Agreement, the OBG Hedging Counterparty will be required to either (a) transfer all of its rights and obligations with respect to the OBG Front Swap Agreement to a replacement swap counterparty having adequate ratings; or (b) activate an appropriate mark-to-market collateral agreement; or (c) obtain a guarantee from a third party having adequate ratings in relation to its obligations under the OBG Front Swap Agreement.

An OBG Front Swap Agreement may also be terminated upon the occurrence of any Event of Default, Termination Event or Additional Termination Event, each as defined in the respective OBG Swap (each such event a “**OBG Swap Early Termination Event**”).

In order to match the respective cash flows to be exchanged between the OBG Guarantor and the respective OBG Hedging Counterparty, each such OBG Front Swap Agreement will be replicated by a swap transaction which mirrors the economic terms of the OBG Front Swap Agreement but with reversed payment flows (herein referred to as an “**OBG Mirror Swap Agreement**”). The OBG Hedging Counterparty for such OBG Mirror Swap Agreement, however, is not, *inter alia*, required to have any minimum required ratings provided for in the OBG Front Swap Agreement. In addition, an OBG Mirror Swap Transaction terminates at zero cost following to occurrence of (i) the substitution of the OBG Hedging Counterparty under the OBG Front Swap Agreement, (ii) the service of a Notice to Pay following an Issuer Event of Default, (iii) a redemption for tax reasons pursuant to Condition 8(c), or (iv) a redemption pursuant to Condition 8(d).

Governing Law

The OBG Swaps are governed by English law.

Master Definition Agreement

Pursuant to a master definition agreement entered into on 14 October 2008 (as subsequently amended) between the OBG Guarantor and the other parties to the Transaction Documents (the “**Master Definition Agreement**”), the parties thereto agreed the definitions and constructions of certain terms used in the Transaction Documents.

Governing Law

The Master Definition Agreement is governed by Italian law.

SELECTED ASPECTS OF ITALIAN LAW

The following is a summary only of certain aspects of Italian law that are relevant to the transactions described in this Prospectus and of which prospective OBG Holders should be aware. It is not intended to be exhaustive and prospective OBG Holders should also read the detailed information set out elsewhere in this Prospectus.

Law 130 was enacted on 30 April 1999 and was conceived to simplify the securitisation process and to facilitate the increased use of securitisation as a financing technique in the Republic of Italy.

Law Decree of 14 March 2005, No. 35, converted into law by law 14 May 2005, No. 80, added Articles 7-*bis* and 7-*ter* to Law 130, in view of allowing Italian banks to use the securitisation techniques introduced by Law 130 in view of issuing covered bonds (*obbligazioni bancarie garantite*).

Pursuant to Article 7-*bis*, certain provisions of Law 130 apply to transactions involving the “true” sale (by way of non-gratuitous assignment) of receivables meeting certain eligibility criteria set out in Article 7-*bis* and in the Decree of the Ministry of Economy and Finance No. 310 of 14 December 2006 (the “**MEF Decree**”), where the sale is to a special purpose vehicle created in accordance with Article 7-*bis* and all amounts paid by the debtors are to be used by the relevant special purpose vehicle exclusively to meet its obligations under a guarantee to be issued by it, in view of securing the payment obligations of the selling bank or of other banks in connection with the issue of covered bonds (the “**OBG Guarantee**”).

Pursuant to Article 7-*bis*, the purchase price of the assets to be comprised in the cover pool shall be financed through the taking of a loan granted or guaranteed by the banks selling the assets. The payment obligations of the special purpose vehicle under such loan shall be subordinated to the payment obligations of the special purpose vehicle *vis-à-vis* the OBG holders, the counterparties of any derivative contracts hedging risks in connection with the assigned receivables and securities, the counterparties of any other ancillary contract and counterparties having a claim in relation to any payment of other costs of the transaction.

Under the BoI OBG Regulations, the covered bonds may be issued by banks which individually satisfy, or which belong to banking groups which on a consolidated basis satisfy, certain requirements relating to the regulatory capital and the solvency ratio. Such requirements must also be complied with by banks selling the assets, where the latter are different from the bank issuing the covered bonds.

Eligibility criteria of the assets and limits to the assignment of assets

Under the MEF Decree, the following assets, *inter alia*, may be assigned to the purchasing company, together with any ancillary contracts aimed at hedging the financial risks embedded in the relevant assets: (i) residential mortgage receivables, where the relevant amount outstanding added to the principal amount outstanding of any previous mortgage loans secured by the same property by the seller, does not exceed 80 per cent. of the value of the mortgaged property (the “**Residential Mortgage Receivables**”), (ii) non residential mortgage receivables, where the relevant amount outstanding added to the principal amount outstanding of any previous mortgage loans secured by the same property by the seller, does not exceed 60 per cent. of the value of the property (the “**Non-**

Residential Mortgage Receivables” and, together with the Residential Mortgage Receivables, the **“Mortgage Receivables”**), (iii) securities satisfying the requirements set forth under Article 2, paragraph 1, letter c) of the MEF Decree (as define below) (the **“Public Securities”**) and (iv) securities issued in the framework of securitisations with 95% of the underlying assets of the same nature as in (i) and (ii) above and having a risk weighting non higher than 20% under the standardised approach (the **“ABS Securities”** and, together with the Mortgage Receivables and the Public Securities, the **“Assets”**), and, within certain limits, Integration Assets.

The BoI OBG Regulations provides that covered bonds may be issued by banks which satisfy, on a consolidated basis, the following requirements:

- (i) surveillance capital (*patrimonio di vigilanza*) at least equal to €500,000,000; and
- (ii) overall capital ratio (*coefficiente patrimoniale complessivo*) at least equal to 9 per cent.

The BoI OBG Regulations set out certain limits to the possibility for banks to assign eligible assets, which are based on the level of the consolidated solvency ratio (the **“CSR”**) and the **“tier 1 ratio”** (the **“T1R”**), in accordance with the following table, contained in the BoI OBG Regulations:

Capital adequacy condition		Limits to the assignment
Group "A"	CSR ≥ 11 per cent. and T1R ≥ 7 per cent.	No limits
Group "B"	CSR ≥ 10 per cent. and < 11 per cent. and T1R ≥ 6.5 per cent.	Assignment allowed up to 60 per cent. of the eligible assets
Group "C"	CSR ≥ 9 per cent. and < 10 per cent. and T1R ≥ 6 per cent.	Assignment allowed up to 25 per cent. of the eligible assets

The relevant CSR and T1R set out in the table relate to the aggregate of the OBG transactions launched by the relevant banking group.

The Limits to the Assignment do not apply to Integration (as defined below) of the portfolio, provided that Integration is allowed exclusively within the limits set out by the BoI OBG Regulations.

Ring-Fencing of the Assets

Under the terms of Article 3 of Law 130, the assets relating to each transaction will by operation of law be segregated for all purposes from all other assets of the special purpose vehicle which purchases the receivables. On a winding-up of such a special purpose vehicle such assets will only be available to holders of the covered bonds in respect of which the special purpose vehicle has issued a guarantee and to the other secured creditors of the special purpose vehicle. In addition, the assets relating to a particular transaction will not be available to the holders of OBG issued in relation to any other transaction or to general creditors of the special purpose vehicle.

However, under Italian law, any other creditor of the special purpose vehicle would be able to commence insolvency or winding up proceedings against the special purpose vehicle in respect of any unpaid debt.

The Assignment

The assignment of the receivables under Law 130 will be governed by Article 58 paragraphs 2, 3 and 4, of the Legislative Decree No. 385 of 1 September 1993 (the **“Banking Law”**). The

prevailing interpretation of this provision, which view has been strengthened by Article 4 of Law 130, is that the assignment can be perfected against the selling bank, assigned debtors and third party creditors by way of publication of a notice in the Italian Official Gazette and by way of registration of such notice in the register of enterprises (*registro delle imprese*) at which the special purpose vehicle is registered, so avoiding the need for notification to be served on each debtor.

As from the latest to occur between the date of publication of the notice of the assignment in the Italian Official Gazette and the date of registration of such notice with the Register of Enterprises, the assignment becomes enforceable against:

- (a) the debtors and any creditors of the selling bank who have not, prior to the date of publication of the notice, commenced enforcement proceedings in respect of the relevant receivables;
- (b) the liquidator or any other bankruptcy officials of the debtors (so that any payments made by a debtor to the special purpose vehicle may not be subject to any claw-back action according to Article 65 and Article 67 of Royal Decree no. 267 of 16 March 1942 (*Legge Fallimentare*); the “**Bankruptcy Law**”); and
- (c) other permitted assignees of the seller who have not perfected their assignment prior to the date of publication.

Upon the completion of the formalities referred to above, the benefit of any privilege, guarantee or security interest guaranteeing or securing repayment of the assigned receivables will automatically be transferred to and perfected with the same priority in favour of the special purpose vehicle, without the need for any formality or annotation.

As from the latest to occur between the date of publication of the notice of the assignment in the Italian Official Gazette and the date of registration of such notice with the competent Register of Enterprises, no legal action may be brought against the receivables assigned or the sums derived therefrom other than for the purposes of enforcing the rights of the holders of the OBG and to meet the costs of the transaction.

However, Article 7-bis, paragraph. 4, also provides that where the role of servicer (*soggetto incaricato della riscossione dei crediti*) is attributed, in the context of covered bonds transaction, to an entity other than the assigning bank (whether from the outset or eventually), notice of such circumstance shall be given by way of publication in the Italian Official Gazette and registered mail with return receipt to the relevant public administrations.

Assignments under Law 130 Assignments executed under Law 130 are subject to revocation on bankruptcy under Article 67 of the Bankruptcy Law, but only in the event that the transaction is entered into within three months of the adjudication of bankruptcy of the relevant party or in cases where paragraph 1 of Article 67 applies, within six months of the adjudication of bankruptcy.

The subordinated loans to be granted to the special purpose vehicle and the OBG Guarantee are subject to the provisions of Article 67, paragraph 4, of the Bankruptcy Law, pursuant to which the provisions of Article 67 relating to the claw back of for-consideration transactions, payments and guarantees do not apply to certain transactions.

Tests set out in the MEF Decree

Pursuant to Article 3 of the MEF Decree, the issuing bank and the assigning bank (to the extent different from the issuer) will have to ensure that, in the context of the transaction, the following mandatory tests are complied with on an on-going basis:

- (i) the outstanding aggregate nominal amount of the cover pool shall be equal to, or greater than, the aggregate nominal amount of the outstanding covered bonds;
- (ii) the net present value of the cover pool, net of the transaction costs to be borne by the special purpose vehicle, including therein the expected costs and the costs of any hedging arrangement entered into in relation to the transaction, shall be equal to, or higher than, the net present value of the outstanding covered bonds; and
- (iii) the amount of interests and other revenues generated by the assets included in the portfolio, net of the costs borne by the special purpose vehicle, shall be equal to, or greater than the interests and costs due by the issuer under the outstanding covered bonds, also taking into account any hedging arrangements entered into in relation to the transaction;

(the above tests are jointly defined as the “**Mandatory Tests**”).

For the purpose of ensuring compliance with the tests described above and pursuant to Article 2 of the MEF Decree, in addition to eligible assets which are generally eligible, the following assets may be used for the purpose of the integration of the cover pool:

- (a) the creation of deposits with banks incorporated in public administrations of States comprised in the European Union, the European Economic Space and the Swiss Confederation (the “**Admitted States**” or in a State which attract a risk weight factor equal to 0 per cent. under the “**Standardised Approach**” to credit risk measurement;
- (b) the assignment of securities issued by the banks referred to under (a) above, having a residual maturity not exceeding one year.

(the “**Integration Assets**”).

Integration through Integration Assets shall be allowed within the limits of 15 per cent. of the nominal value of the assets included in the portfolio.

In addition, pursuant to Article 7-bis and the MEF Decree, integration of the cover pool-whether through assets or through Integration Assets - (the “**Integration**”) shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations.

More specifically, under the BoI OBG Regulations, the Integration is allowed exclusively for the purpose of (a) complying with the Mandatory Tests; (b) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements or (c) complying with the 15 per cent. maximum amount of Integration Assets within the portfolio. Limits to the Assignment do not apply to the Integration Assignment.

The Integration is not allowed in circumstances other than as set out in the BoI OBG Regulations. In any event, Integration Assets may be replaced at any time without any limitation with Eligible Assets.

The features of the OBG Guarantee

According to Article 4 of the MEF Decree the OBG Guarantee shall be limited recourse to the cover pool, irrevocable, first-demand, unconditional and autonomous from the obligations assumed by the issuer of the covered bonds. Accordingly, such obligations shall be a direct, unconditional, unsubordinated obligation of the special purpose vehicle, limited recourse to the special purpose vehicle's available funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the issuer of the covered bonds.

In order to ensure the autonomous nature of the OBG Guarantee, Article 4 of the MEF Decree provides that the following provisions of the Italian Civil Code, generally applicable to personal guarantees (*fideiussioni*), shall not apply to the OBG Guarantee (a) Article 1939, providing that a *fideiussione* shall not generally be valid where the guaranteed obligation is not valid; (b) Article 1941, paragraph. 1, providing that a *fideiussione* cannot exceed the amounts due by the guaranteed debtor, nor can it be granted for conditions more onerous than those pertaining to the main obligation; (c) Article 1944, paragraph. 2, providing, *inter alia*, that the parties to the contract pursuant to which the *fideiussione* is issued may agree that the guarantor shall not be obliged to pay before the attachment is carried out against the guaranteed debtor; (d) Article 1945, providing that the guarantor can raise against the creditor any objections (*eccezioni*) which the guaranteed debtor is entitled to raise, except for the objection relating to the lack of legal capacity on the part of the guaranteed debtor; (e) Article 1955, providing that a *fideiussione* shall become ineffective (*estinta*) where, as a consequence of acts of the creditor, the guarantor is prevented from subrogating into any rights, pledges, mortgages, and liens (*privilegi*) of the creditor; (f) Article 1956, providing that the guarantor of future receivables shall not be liable where the creditor - without the authorisation of the guarantor - has extended credit to a third party, while being aware that the economic conditions of the principal obligor were such that recovering the receivable would have become significantly more difficult; and (g) Article 1957, providing, *inter alia*, that the guarantor will be liable also after the guaranteed obligation has become due and payable, provided that the creditor has filed its claim against the guaranteed debtor within six months and has diligently pursued them.

The obligations of the OBG Guarantor following a liquidation of the Issuer

The MEF Decree set out also certain principles which are aimed at ensuring that the payment obligations of the special purpose vehicle are isolated from those of the issuer of the OBG. To that effect it requires that the OBG Guarantee contains provisions stating that the relevant obligations thereunder shall not accelerate upon the issuer's default, so that the payment profile of the covered bonds shall not automatically be affected thereby.

More specifically, Article 4 of the MEF Decree provides that in case of breach by the issuer of its obligations *vis-à-vis* the covered bonds holders, the special purpose vehicle shall assume the obligations of the issuer - within the limits of the cover pool - in accordance with the terms and conditions originally set out for the covered bonds. The same provision applies where the issuer is subjected to mandatory liquidation procedures (*liquidazione coatta amministrativa*).

In addition, the acceleration (*decadenza dal beneficio del termine*) provided for by Article 1186 of the Civil Code and affecting the issuer shall not affect the payment obligations of the special purpose vehicle under the OBG Guarantee. Pursuant to Article 4 of the MEF Decree, the limitation

in the application of Article 1186 of the Civil Code shall apply not only to the events expressly mentioned therein, but also to any additional event of acceleration provided for in the relevant contractual arrangements.

In accordance with Article 4, paragraph. 3, of the MEF Decree, in case of *liquidazione coatta amministrativa* of the issuer, the special purpose vehicle shall exercise the rights of the covered bonds holders *vis-à-vis* the issuer in accordance with the legal regime applicable to the issuer. Any amount recovered by the special purpose vehicle as a result of the exercise of such rights shall be deemed to be included in the cover pool.

The Bank of Italy shall supervise on the compliance with the aforesaid provisions, within the limits of the powers vested with the Bank of Italy by the Banking Law.

Controls over the transaction

The BoI OBG Regulations lay down rules on controls over transactions involving the issuance of OBG.

Inter alia, the resolutions of the selling banks approving the assignment of portfolios to the special purpose vehicle are passed in relation to each transfer of assets on the basis of appraisal reports on the assets prepared by an auditing firm. Such report are not required where the assignment is carried out at the book values set out in the most recent approved financial statements of the selling bank, or in its most recent six month report (*situazione patrimoniale semestrale*).

The management body of the issuing bank must ensure that the structures delegated to the risk management verify at least every six months and for each transaction, *inter alia*:

- (i) the quality and integrity of the assets sold to the SPV securing the obligations undertaken by the latter;
- (ii) compliance with the maximum ratio between covered bonds issued and the cover pool sold to the SPV for purposes of backing the issue, in accordance with the MEF Decree;
- (iii) compliance with the Limits to the Assignment and the on, and Limits to the Integration set out by the BoI OBG Regulations;
- (iv) the effectiveness and adequacy of the coverage of risks provided under derivative agreements entered into in connection with the transaction.

The bodies with management responsibilities of issuing banks and banking groups ensure that an assessment is carried out on the legal aspects of the activity on the basis of specially issued legal reports setting out an in-depth analysis of the contractual structures and schemes adopted, with a particular focus on, *inter alia*, the characteristics of the OBG Guarantee.

The BoI OBG Regulations also contain certain provisions on the asset monitor, who is delegated to carry out controls over the regularity of the transaction (*regolarità dell'operazione*) and the integrity of the OBG Guarantee (*integrità della garanzia*) (the “**Asset Monitor**”). Pursuant to the BoI OBG Regulations the Asset Monitor shall be an auditing firm having adequate professional experience in relation to the tasks entrusted with the same and independent from (a) the audit firm entrusted with

the auditing of the issuing bank, (b) the issuing bank and (c) the other entities taking part to the transaction.

The Asset Monitor shall prepare annual reports on controls and assessments on the performance of transactions, to be addressed, *inter alia*, to the body entrusted with control functions of the bank which appointed the Asset Monitor. The BoI OBG Regulations refer to the provisions (art. 52 and 61, paragraph 5, of the Banking Law), which impose on persons responsible for conducting controls specific obligations to report to the Bank of Italy. Such reference appears to be aimed at ensuring that any irregularities found are reported to the Bank of Italy pursuant to Article 52, paragraph 2, of the Banking Law.

In order to ensure that the special purpose vehicle can perform, in an orderly and timely manner, the obligations arising under the OBG Guarantee, the issuing banks shall use asset and liability management techniques for purposes of ensuring, including by way of specific controls at least every six months, that the payment dates of the cash-flows generated by the cover pool match the payments dates with respect to payments due by the issuing bank under the covered bonds issued and other transaction costs.

Finally, in relation to the information flows, the parties to the covered bonds transactions shall assume contractual undertakings allowing the issuing and the assigning bank also acting as servicer (and any third party servicer, if appointed) to hold the information on the cover pool which are necessary to carry out the controls described in the BoI OBG Regulations and for the compliance with the supervisory reporting obligations, including therein the obligations arising in connection with the membership to the central credit register (*Centrale dei Rischi*).

Insolvency proceedings

Insolvency proceedings (*procedure concorsuali*) conducted under Italian law may take the form of, *inter alia*, an involuntary liquidation (*fallimento*) or creditors' agreements (*concordato preventivo* and *accordi di ristrutturazione dei debiti*). Insolvency proceedings are only applicable to businesses (*imprese*) either run by companies, partnerships or by individuals. An individual who is not a sole entrepreneur or an unlimited partner in a partnership is not subject to insolvency.

A debtor can be declared bankrupt (*fallito*) and subject to *fallimento* (at its own initiative, or at the initiative of any of its creditors or the public prosecutor) if it is not able to fulfil its obligations in a timely manner. The debtor loses control over all its assets and of the management of its business, which is taken over by a court appointed receiver (*curatore fallimentare*). Once judgment has been made by the court and the creditors' claims have been approved, the sale of the debtor's property is conducted in accordance with a liquidation plan (approved by the delegated judge and the creditors' committee) which may provide for the dismissal of the whole business or single business units, even through competitive procedures.

A qualifying insolvent debtor may avoid being subject to *fallimento* by proposing to its creditors a creditors' agreement (*concordato preventivo*). Such proposal must contain, *inter alia*: (a) an updated statement of the financial and economic situation of the insolvent company; (b) a detailed list of the creditors and their respective credit rights and related security interest; (c) a detailed evaluation of the assets of the insolvent company; and (d) a restructuring plan. The offer may be structured as an offer to transfer all of the assets of the insolvent debtor to the creditors or an offer to undertake other

restructuring plan such as, *inter alia*, the allocation to the creditors of shares, quotas, and other debt instruments of the company. The feasibility of the proposal must be accompanied by an expert's report. An entrepreneur may also execute with the creditors representing almost the 60 per cent. of the credits a settlement providing for debt rescheduling (*accordo di ristrutturazione dei debiti*). A report of an expert certifying the feasibility of the settlement shall be attached to the latter and the settlement shall be approved by the Court.

The creditors' agreement may, subject to certain conditions, be proposed by the qualifying insolvent debtor also as a "blank proposal" (*concordato in bianco*). In this case, the proposal (which has to include the last three financial statements and a detailed list of the creditors and their respective credit rights) will request to the competent tribunal a term comprised between 60 and 120 days (with the possibility to obtain, in case of grounded reasons, additional 60 days) for the submission of all the relevant documents, plans and reports described in the paragraph above. The competent tribunal in awarding such term for the submission of the relevant documents, plans and reports may appoint a judicial commissioner overseeing the procedure and set out periodic information duties (including as to the financial situation and as to the activity performed for the preparation of the relevant plan) to be carried out by the qualifying insolvent debtor.

After insolvency proceedings are commenced, no legal action can be taken against the debtor and no foreclosure proceedings may be initiated. Moreover, all actions taken and proceedings already initiated by creditors are automatically stayed.

Law No. 3 of 27 January 2012 provides that consumers and other entities which cannot be subject to insolvency proceedings may benefit from special proceedings for the restructuring of their debts. Law No. 3 of 27 January 2012 provides that such persons may file a recovery plan for the restructuring of their debts with a special authority and with the competent court and that in the case of approval of the plan, it will become binding on all the creditors of such persons.

Description of *Amministrazione Straordinaria delle Banche*

A bank may be submitted to the *amministrazione straordinaria delle banche* where (a) serious administrative irregularities, or serious violations of the provisions governing the bank's activity provided for by laws, regulations or the bank's bylaws activity are found; (b) serious capital losses are expected to occur; (c) the dissolution has been the object of a request by the administrative bodies or an extraordinary company meeting providing the reasons for the request.

According to the Banking Law, the procedure is initiated by decree of the Minister of economy and finance, acting on a proposal by the Bank of Italy, which shall terminate the board of directors and the board of statutory auditors of the bank. Subsequently the Bank of Italy shall appoint (a) one or more special administrator (*commissari straordinari*); (b) an oversight committee composed of between three and five members (*comitato di sorveglianza*). The *commissari straordinari* are entrusted with the duty to assess the situation of the bank, remove the irregularities which may have been found and promote solutions in the best interest of the depositors of the bank. The *comitato di sorveglianza* exercises auditing functions and provides to the *commissari straordinari* the opinions requested by the law or by the Bank of Italy. However, it should be noted that the Bank of Italy may

instruct in a binding manner the *commissari straordinari* and the *comitato di sorveglianza* providing specific safeguards and limits concerning the management of the bank.

In exceptional circumstances, the *commissari straordinari*, in order to protect the interests of the creditors, in consultation with the *comitato di sorveglianza* and subject to an authorisation by the Bank of Italy, may suspend payment of the bank's liabilities and the restitution to customers of financial instruments. Payments may be suspended for a period of up to one month, which may be extended for an additional two months.

The *amministrazione straordinaria delle banche* shall last for one year from the date of issue of the decree of the Minister of the economy and finance. In exceptional cases, the procedure may be extended for a period of up to six months. The Bank of Italy may extend the duration of the procedure for periods of up to two months, in connection with the acts and formalities related to the termination of the procedure, provided that the relevant acts to be executed have already been approved by the Bank of Italy.

At the end of the procedure, the *commissari straordinari* shall undertake the necessary steps for the appointment of the bodies governing the bank in the ordinary course of business. After the appointment, the management and audit functions shall be transferred to the newly appointed bodies. It should however be noted that, should at the end of the procedure or at any earlier time the conditions for the declaration of the *liquidazione coatta amministrativa* (described in the following section) be met, then the bank may be subject to such procedure.

Description of *Liquidazione Coatta Amministrativa delle Banche*

According to the Banking Law, when the conditions for the *Amministrazione straordinaria delle banche* and described in the preceding paragraph are exceptionally serious (*di eccezionale gravità*), or when a court has declared the state of insolvency of the bank, the Minister of economy and finance, acting on a proposal from the Bank of Italy, by virtue of a decree, may revoke the authorisation for the carrying out of banking activities and submit the bank to the compulsory winding up (*liquidazione coatta amministrativa*).

From the date of issue of the decree the functions of the administrative and control bodies, of the shareholders meetings and of every other governing body of the bank shall cease. The Bank of Italy shall appoint (a) one or more liquidators (*commissari liquidatori*); (b) an oversight committee composed of between three and five members (*comitato di sorveglianza*).

From the date the *commissari liquidatori* and the *comitato di sorveglianza* have assumed their functions and in any case from the third day following the date of issue of the aforesaid decree of the Minister of economy and finance, the payment of any liabilities and the restitution of assets owned by third parties shall be suspended.

The *commissari liquidatori* shall act as legal representatives of the bank, exercise all actions that pertain to the bank and carry out all transactions concerning the liquidation of the bank's assets. The *comitato di sorveglianza* shall (i) assist the *commissari liquidatori* in exercising their functions, (ii) control the activities carried out by *commissari liquidatori*; and (iii) provide to the *commissari straordinari* the opinions requested by the law or by the Bank of Italy. The Bank of Italy may issue directives concerning the implementation of the procedure and establish that some categories of

operations and actions shall be subject to its authorisation and to preliminary consultation with the *comitato di sorveglianza*.

The Banking Law regulates the procedure for the assessment of the bank's liabilities (*accertamento del passivo*), and the procedures which allow creditors whose claims have been excluded from the list of liabilities (*stato passivo*) to challenge the list of liabilities.

The liquidators, with the favourable opinion of the *comitato di sorveglianza* and subject to authorisation by the Bank of Italy, may assign assets and liabilities, going concerns, assets and legal relationships identifiable *en bloc*. Such assets may be assigned at any stage of the procedure, even before the *stato passivo* has been deposited. The assignor shall however be liable exclusively for the liabilities included in the *stato passivo*. Subject to prior authorisation of the Bank of Italy and for the purpose of maximising profits deriving from the liquidation of the assets, the *commissari liquidatori* may continue the banks' activity or of specific going concerns of the bank, in compliance with any indications provided for by the *comitato di sorveglianza*. In such case the provision of the Bankruptcy Law concerning the termination of legal relationships shall not apply.

Once the assets have been realised and before the final allotment to the creditors or to the last restitution to customers, the *commissari liquidatori* shall present to the Bank of Italy the closing statement of accounts of the liquidation, the financial statement and the allotment plan, accompanied by their own report and a report by the oversight committee.

Certain Aspects of Italian Law relevant to mortgage loans

Article 120-ter of the Banking Law provides that any provisions imposing a prepayments penalty in case of early redemption of mortgage loans is null and void with respect to loan agreements entered into, with an individual as borrower for the purpose of purchasing or restructuring real estate properties destined to residential purposes or to carry out the borrower's own professional or business activities.

The Italian banking association (“**ABI**”) and the main national consumer associations have reached an agreement (the “**Prepayment Penalty Agreement**”) regarding the equitable renegotiation of prepayment penalties with certain maximum limits calculated on the outstanding amount of the loans (the “**Substitutive Prepayment Penalty**”) containing the following main provisions: (i) with respect to variable rate loan agreements, the Substitutive Prepayment Penalty should not exceed 0.50 per cent. and should be further reduced to (a) 0.20 per cent. in case of early redemption of the loan carried out within the third year from the final maturity date and (b) zero, in case of early redemption of the loan carried out within two years from the final maturity date, (ii) with respect to fixed rate loan agreements entered into before 1 January 2001, the Substitutive Prepayment Penalty should not exceed 0.50 per cent., and should be further reduced to: (a) 0.20 per cent., in case of early redemption of the loan carried out within the third year from the final maturity date; and (b) zero, in case of early redemption of the loan carried out within two years from the final maturity date, (iii) with respect to fixed rate loan agreements entered into after 31 December 2000, the Substitutive Prepayment Penalty should be equal to: (a) 1.90 per cent. if the relevant early redemption is carried out in the first half of loan's agreed duration; (b) 1.50 per cent. if the relevant early redemption is carried out following the first half of loan's agreed duration, provided however that the Substitutive Prepayment Penalty should be further reduced to: (x) 0.20 per cent., in case of

early redemption of the loan carried out within three years from the final maturity date; and (y) zero, in case of early redemption of the loan carried out within two years from the final maturity date.

The Prepayment Penalty Agreement introduces a further protection for borrowers under a “safeguard” equitable clause (the “**Clausola di Salvaguardia**”) in relation to those loan agreements which already provide for a prepayment penalty in an amount which is compliant with the thresholds described above. In respect of such loans, the Clausola di Salvaguardia provides that: (1) if the relevant loan is either: (x) a variable rate loan agreement; or (y) a fixed rate loan agreement entered into before 1 January 2001; the amount of the relevant prepayment penalty shall be reduced by 0.20 per cent.; (2) if the relevant loan is a fixed rate loan agreement entered into after 31 December 2000, the amount of the relevant prepayment penalty shall be reduced by (x) 0.25 per cent. if the agreed amount of the prepayment penalty was equal or higher than 1.25 per cent.; or (y) 0.15 per cent., if the agreed amount of the prepayment penalty was lower than 1.25 per cent.

Finally the Prepayment Penalty Agreement sets out specific solutions with respect to hybrid rate loans which are meant to apply to the hybrid rates the provisions, as more appropriate, relating respectively to fixed rate and variable rate loans.

Article 120-quater of the Banking Law provides that any borrower may at any time prepay the relevant loan funding such prepayment by a loan granted by another lender which will be subrogated pursuant to article 1202 of the Italian civil code (*surrogato per volontà del debitore*) in the rights of the former lender, including the mortgages (without any formalities for the annotation of the transfer with the land registry, which shall be requested by enclosing a certified copy of the deed of subrogation (*atto di surrogazione*) to be made in the form of a public deed (*atto pubblico*) or of a deed certified by a notary public with respect to the signature (*scrittura privata autenticata*) without prejudice to any benefits of a fiscal nature.

In the event that the subrogation is not completed within thirty days from the relevant request from the succeeding lender to the former lender to start the relevant cooperation procedures, the original lender shall pay to the borrower an amount equal to 1 per cent. of the amount of the loan for each month or part thereof of delay, provided that if the delay is due to the succeeding lender, the latter shall repay to the former lender the delay penalty paid by it to the borrower.

Pursuant to Article 2, paragraph 475 and ff. of Italian law number 244 of 24 December 2007 (the “**2008 Budget Law**”) any borrower under a mortgage loan agreement executed for the purposes of acquiring a “first home” real estate property (*unità immobiliare da adibire ad abitazione principale*) giving evidence of its incapability to pay any instalments falling due under a mortgage loan is entitled to suspend payment of any such instalments for no more than two times during the life of the relevant mortgage loan and for a maximum duration of 18 months (the “**Borrower Payment Suspension Right**”). Upon exercise of the Borrower Payment Suspension Right the duration of the relevant mortgage loan will be extended to a period equal to the duration of the relevant suspension period.

The 2008 Budget Law also provided for the establishment of a fund (so called “*Fondo di solidarietà*”, the “**Fund**”) created for the purpose of bearing certain costs deriving from the suspension of payments and refers to implementing regulation to be issued for the determination of:

(i) the requirements that the borrowers must comply with in order to have the right to the aforementioned suspension and the subsequent aid of the Fund; and (ii) the formalities and operating procedures of the Fund.

On 21 June 2010, the Ministry of Treasury and Finance (*Ministro dell'economia e delle finanze*) adopted ministerial decree No. 132 (“**Decree 132/2010**”) detailing the requirements and formalities which any Borrower must comply with in order to exercise the Borrower Payment Suspension Right.

Pursuant to Decree 132/2010, the Ministry of Economy and Finance, on 27 October 2010, issued the guidelines (*Linee Guida*) (the “**Guidelines**”) – published on the website *www.dt.tesoro.it* (for the avoidance of doubt, such website does not constitute part of this Prospectus) which establish the procedures that borrowers must follow in order to exercise the Borrower Payment Suspension Right.

As specified in the Guidelines, pursuant to the provision of Decree 132, the Borrower Payment Suspension Right can be granted also in favour of mortgage loans which have been subject to covered bonds transactions pursuant to Law 130.

In light of the above, pursuant to the Decree of the General Director of Treasury Department of the Ministry of Economy and Finance issued on 14 September 2010, CONSAP (*Concessionaria Servizi Assicurativi S.p.A.*), was selected as managing company of the Fund. The request to access to the aid granted by the Fund must be presented by borrowers starting from 15 November 2010, by using the relevant form of suspension-request duly prepared in compliance with the Guidelines and accompanied by the relevant documentation indicated therein.

Any borrower who complies with the requirements set out in Decree 132 and the Guidelines, has the right to suspend the payment of the instalments of its Mortgage Receivables up to 18 months.

Law Decree No. 93 of 27 May 2008 (“**Law Decree 93**”), converted into law No. 126 of 24 July 2008 (“**Law 126**”) which came into force on 29 May 2008, regulates the renegotiation of floating rate mortgage loans granted for the purposes of purchasing, building or refurbishing real estate assets used as main houses.

According to Law 126, the *Ministero dell'Economia e delle Finanze (Minister of Economy and Finance)* and the ABI entered into a convention providing for the procedures for the renegotiation of such floating rate mortgage loans (the “**Convention**”).

The Convention applies to floating rate mortgage loan agreements entered into or taken over (*accollati*), also further to the parcelling (*frazionamento*) of the relevant mortgages, before 29 May 2008. Pursuant to the Convention, the instalments payable by a borrower under any of such mortgage loan agreements will be recalculated applying (a) a fixed interest rate (equal to the average of the floating rate interest rates applied under the relevant mortgage loan agreement during 2006) on the initial principal amount and for the original final maturity date of the relevant mortgage loan, or (b) if the mortgage loan has been entered into, renegotiated or taken over (*accollato*) after 31 December 2006, the parameters used for the calculation of the first instalment due after the date on which the mortgage loan has been entered into, renegotiated or taken over

(accollato). The difference between the amount to be paid by the borrower as a result of such recalculation and the amount that the borrower would have paid on the basis of the original instalment plan will be (a) if negative, debited to a bank account on which interest will accrue in favour of the lender at the lower of (i) the rate equal to 10 (ten) IRS (interest rate swap) plus a spread of 0.50, and (ii) the rate applicable pursuant to the relevant mortgage loan, each of them calculated, in a fixed amount, on the renegotiation date, or (b) if positive, credited to such bank account. After the original final maturity date of the mortgage loan, the outstanding debt on the bank account will be repaid by the borrower through constant instalments equal to the ones resulting from the renegotiation, and the amortisation plan will be determined on the basis of the lower of (a) the rate applicable on the bank account, and (ii) the rate applicable pursuant to the relevant mortgage loan, as calculated, in a fixed amount, on the original final maturity date of the mortgage loan.

The Seller has adhered to the Convention sending to its clients a renegotiation proposal in accordance with the Convention. Borrowers eligible for the renegotiation who have received the renegotiation proposal can accept the proposal by way of a written notification to be sent not later than 28 November 2008 (the “**Final Adhesion Term**”).

The renegotiation becomes effective on the third month following the date when such proposal has been accepted by the relevant client, with reference to the instalments which fall due after 1 January 2009.

As of today it is unclear what impact this legislation will have on the residential mortgages loan market in Italy and on the level of prepayments which the OBG Guarantor may experience.

1 Introduction

(a) Programme

Unicredit S.p.A. (the “**Issuer**”) has established an OBG Programme (the “**Programme**”) for the issuance of up to €35,000,000,000 in aggregate principal amount of *obbligazioni bancarie garantite* (the “**OBG**”) guaranteed by UniCredit BpC Mortgage S.r.l. (the “**OBG Guarantor**”). OBG are issued pursuant to Article 7-bis of Law No. 130 of 30 April 1999 (as amended, the “**Law 130**”), Decree of the Ministry for the Economy and Finance of 14 December 2006 No. 310 (“**MEF Decree**”) and the supervisory instructions of the Bank of Italy set out in Title V, Chapter 3 of the “Nuove Disposizioni di Vigilanza Prudenziale per le Banche” (Circolare No.

263 of 27 December 2006), as amended and supplemented from time to time (the "**BoI OBG Regulations**").

(b) *Final Terms*

OBG are issued in series (each a "**Series**") and each Series may comprise one or more tranches whether or not issued on the same date, that (except in respect of the Interest Commencement Date and their Issue Price) have identical terms on issue and are expressed to be consolidated and have the same Series number (each a "**Tranche**") of OBG. The Tranches are the subject of final terms (the "**Final Terms**") which complete these terms and conditions (the "**Conditions**"). The terms and conditions applicable to any particular Tranche or more Tranches of OBG are these Conditions as completed by the relevant Final Terms. References to the "**relevant Final Terms**" are to the Final Terms (or the relevant provisions thereof) pursuant to which the relevant Tranches are issued.

(c) *OBG Guarantee*

Each Series of OBG is the subject of a guarantee dated on or about the Initial Issue Date (the "**OBG Guarantee**") entered into by the OBG Guarantor for the purpose of guaranteeing the payments due from the Issuer in respect of the OBG of all Series issued under the Programme. The OBG Guarantee will be collateralised by a portfolio constituted by certain assets assigned from time to time to the OBG Guarantor pursuant to the Master Transfer Agreement (as defined below) and in accordance with the provisions of the Law 130, the MEF Decree and the BoI OBG Regulations. The payment obligations of the OBG Guarantor under the OBG Guarantee are secured over certain assets of the OBG Guarantor pursuant to the Deed of Pledge and the Deeds of Charge.

(d) *Dealer Agreement and Subscription Agreement*

In respect of each Tranche of OBG issued under the Programme, the Relevant Dealer(s) (as defined below) has or have agreed to subscribe for the OBG and pay the Issuer the Issue Price for the OBG on the Issue Date under the terms of a Dealer Agreement dated on or about the Initial Issue Date (the "**Dealer Agreement**") between the Issuer, the OBG Guarantor and the dealer(s) named therein (the "**Dealers**"), as supplemented (if applicable) by a subscription agreement entered into between the Issuer, the OBG Guarantor and the Relevant Dealer(s) (as defined below) on or around the date of the relevant Final Terms (the "**Subscription Agreement**"). In the Dealer Agreement or such other document as may be agreed between the Issuer, the OBG Guarantor and the Relevant Dealer(s), the Relevant Dealer(s) has or have appointed Securitisation Services S.p.A. as representative of the OBG Holders (in such capacity, the "**Representative of the OBG Holders**"), as described in Condition 13 (*Representative of the OBG Holders*).

(e) *Master Definitions Agreement*

The OBG will be issued in bearer form and in dematerialised form (*emesse in forma dematerializzata*) and will be wholly and exclusively deposited with Monte Titoli in accordance with Article 83-*bis* of Italian legislative decree No. 58 of 24 February 1998, as amended, through the authorised institutions listed in Article 83-*quater* of such legislative decree. Monte Titoli shall act as depository for Clearstream, Luxembourg and Euroclear. No physical documents of title will be issued in respect of the OBG. Except as ordered by a court of competent jurisdiction or as required by law, the Issuer, the Representative of the OBG Holders, the OBG Guarantor and the Paying Agent may (to the fullest extent permitted by applicable laws) deem and treat the Monte Titoli Account Holder, whose account is at the relevant time credited with an OBG, as the absolute owner of such OBG for the purposes of payments to be made to the holder of such OBG (whether or not the OBG is overdue and notwithstanding any notice to the contrary, any notice of ownership or writing on the OBG or any notice of any previous loss or theft of the OBG) and shall not be liable for doing so.

4 Status and Guarantee

(a) Status of the OBG

The OBG constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer and will rank *pari passu* without preference among themselves and (save for any applicable statutory provisions) at least equally with all other present and future unsecured and unsubordinated obligations of the Issuer from time to time outstanding. In the event of a compulsory winding-up (*liquidazione coatta amministrativa*) of the Issuer, any funds realised and payable to the OBG Holders will be collected by the OBG Guarantor on their behalf.

(b) Status of the OBG Guarantee

The payment of Guaranteed Amounts in respect of each Series of OBG when due for payment will be unconditionally and irrevocably guaranteed by the OBG Guarantor in

accordance with the OBG Guarantee and these Conditions. The payment obligations of the OBG Guarantor under the OBG Guarantee constitute direct and unconditional obligations of the OBG Guarantor, recourse in respect of which is limited in the manner described in Condition 16 (*Limited Recourse and non-Petition*). The payment obligations of the OBG Guarantor under the OBG Guarantee are secured over certain assets of the OBG Guarantor pursuant to the Deed of Pledge and the Deeds of Charge. The OBG Holders acknowledge that the limited recourse nature of the OBG Guarantor under the OBG Guarantee produces the effects of a *contratto aleatorio* under Italian law and they accept the consequences thereof, including, but not limited to, the provisions of Article 1469 of the Italian Civil Code.

(c) *Priority of Payments*

Amounts due from the OBG Guarantor pursuant to the OBG Guarantee shall be paid in accordance with the Priority of Payments, as set out in the Intercreditor Agreement.

5 Fixed Rate Provisions

(a) *Application*

This Condition 5 is applicable to the OBG only if the "Fixed Rate Provisions" are specified in the relevant Final Terms as being applicable.

(b) *Accrual of interest*

The OBG bear interest on their outstanding nominal principal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest payable, such interest being payable in arrear on each OBG Payment Date, subject as provided in Condition 9 (*Payments*). Each OBG will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5 until whichever is the earlier of (i) the day on which all sums due in respect of such OBG up to that day are received by or on behalf of the relevant OBG Holder and (ii) the day which is seven days after the Paying Agent has notified the OBG Holders that it has received all sums due in respect of the OBG up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) *Fixed Coupon Amount*

The amount of interest payable in respect of each OBG for any OBG Interest Period shall be the relevant Fixed Coupon Amount and, if the OBG are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination.

(d) *Calculation of interest amount*

The amount of interest payable in respect of each OBG for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction,

rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such OBG divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

6 Floating Rate

(a) Application

This Condition 6 is applicable to the OBG only if the "Floating Rate Provisions" are specified in the relevant Final Terms as being applicable.

(b) Accrual of interest

The OBG bear interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each OBG Payment Date, subject as provided in Condition 9 (*Payments*). Each OBG will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 until whichever is the earlier of (i) the day on which all sums due in respect of such OBG up to that day are received by or on behalf of the relevant OBG Holder and (ii) the day which is seven days after the Paying Agent has notified the OBG Holders that it has received all sums due in respect of the OBG up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) Screen Rate Determination

If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the OBG for each OBG Interest Period will be determined by the Paying Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Paying Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) in any other case, the Paying Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Paying Agent will:

- (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Paying Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Paying Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Paying Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant OBG Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant OBG Interest Period and in an amount that is representative for a single transaction in that market at that time, and the Rate of Interest for such OBG Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; provided, however, that if the Paying Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any OBG Interest Period, the Rate of Interest applicable to the OBG during such OBG Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the OBG in respect of a preceding OBG Interest Period.

(d) *ISDA Determination*

If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the OBG for each OBG Interest Period will be the sum of the Margin and the relevant ISDA Rate where "ISDA Rate" in relation to any OBG Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Paying Agent under an interest rate swap transaction if the Paying Agent were acting as Paying Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
- (iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter-bank offered rate

(LIBOR) for a currency, the first day of that OBG Interest Period or (B) in any other case, as specified in the relevant Final Terms.

(e) *Maximum or Minimum Rate of Interest*

If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

(f) *Calculation of Interest Amount*

The Paying Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each OBG Interest Period, calculate the Interest Amount payable in respect of each OBG for such OBG Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such OBG Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant OBG divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

(g) *Calculation of other amounts*

If the relevant Final Terms specifies that any other amount is to be calculated by the Paying Agent, then the Paying Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Paying Agent in the manner specified in the relevant Final Terms.

(h) *Publication*

The Paying Agent shall cause each Rate of Interest and Interest Amount determined by it, together with the relevant OBG Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agent and each competent authority, stock exchange and/or quotation system (if any) by which the OBG have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and OBG Payment Date) in any event not later than the first day of the relevant OBG Interest Period. Notice thereof shall also promptly be given to the OBG Holders. The Paying Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant OBG Interest Period, provided that it shall immediately notify the Paying Agent thereof. If the Paying Amount is less than the minimum Specified Denomination, the Paying Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a OBG having the minimum Specified Denomination.

(i) *Notifications etc*

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Paying Agent will (in the absence of manifest error) be final binding on the Issuer, the OBG Guarantor, the Paying Agent, the OBG Holders and (subject as aforesaid) no liability to any such Person will attach to the Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes, save for the case of *dolo* or *colpa grave* of the Paying Agent.

(j) *Failure by the Paying Agent*

If the Paying Agent fails to make the relevant calculations in accordance with this Condition, the Representative of the OBG Holders shall make the relevant calculation in place of the Paying Agent and shall notify the same to all the relevant parties in accordance with these Conditions.

7 Zero Coupon Provisions

(a) *Application*

This Condition 7 is applicable to the OBG only if the "Zero Coupon Provisions" are specified in the relevant Final Terms as being applicable.

(b) *Late payment on Zero Coupon OBG*

If the Redemption Amount payable in respect of any Zero Coupon OBG is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such OBG up to that day are received by or on behalf of the relevant OBG Holder and (ii) the day which is seven days after the Paying Agent has notified the OBG Holders that it has received all sums due in respect of the OBG up to such seventh day (except to the extent that there is any subsequent default in payment).

8 Redemption and Purchase

(a) *Scheduled redemption*

- (i) Unless previously redeemed, purchased and cancelled as provided in this Condition 8, if redemption by instalments is specified as applicable in the relevant Final Terms for a Series of OBG, each such shall be partially redeemed on each instalment date at the related instalment amount specified in the relevant Final Terms. The outstanding nominal amount of each such OBG shall

be reduced by the instalment amount (or, if such instalment amount is calculated by reference to a proportion of the nominal amount of such OBG, such proportion) for all purposes with effect from the related instalment date, unless payment of the instalment amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the date on which payment in full of the instalment amount outstanding is made.

- (ii) Unless previously redeemed, purchased and cancelled as provided below, the OBG will be redeemed on the Maturity Date at their Final Redemption Amount, or in the case of OBG falling within paragraph (i) above at their final instalment amount, subject as provided in Condition 8(b) (*Extension of maturity*) and Condition 9 (*Payments*).

(b) *Extension of maturity*

Without prejudice to Condition 11 (*Events of Default*), if an Extended Maturity Date is specified as applicable in the relevant Final Terms for a Series of OBG and the Issuer has failed to pay the Final Redemption Amount on the Maturity Date specified in the relevant Final Terms and, the OBG Guarantor or the Calculation Agent on its behalf determines that the OBG Guarantor has insufficient moneys available under the relevant Priority of Payments to pay the Guaranteed Amounts corresponding to the Final Redemption Amount in full in respect of the relevant Series of OBG on the date falling on the Extension Determination Date, then (subject as provided below), payment of the unpaid amount by the OBG Guarantor under the OBG Guarantee shall be deferred until the Extended Maturity Date provided that any amount representing the Final Redemption Amount due and remaining after the Extension Determination Date may be paid by the OBG Guarantor on any OBG Payment Date thereafter up to (and including) the relevant Extended Maturity Date (the "**Extendable Maturity**").

The Issuer shall confirm to the Paying Agent as soon as reasonably practicable and in any event at least four Business Days prior to the Maturity Date as to whether payment of the Final Redemption Amount in respect of the relevant Tranche of OBG will or will not be made in full on that Maturity Date. Any failure by the Issuer to notify the Paying Agent shall not affect the validity or effectiveness of the extension.

The OBG Guarantor shall notify the relevant holders of the OBG (in accordance with Condition 17 (*Notices*)), any relevant Hedging Counterparties, the Rating Agencies, the Representative of the OBG Holders and the Paying Agent as soon as reasonably practicable and in any event at least four Business Day prior to the Maturity Date of any inability of the OBG Guarantor to pay in full the Guaranteed Amounts corresponding to the Final Redemption Amount in respect of the OBG pursuant to the OBG Guarantee. Any failure by the OBG Guarantor to notify such parties shall not affect the validity or effectiveness of the extension nor give rise to any rights in any such party.

In the circumstances outlined above, the OBG Guarantor shall on the Extension Determination Date, pursuant to the OBG Guarantee, apply the moneys (if any) available (after paying or providing for payment of higher ranking or *pari passu* amounts in

accordance with the relevant Priority of Payments) *pro rata* in part payment of an amount equal to the Final Redemption Amount in respect of the OBG and shall pay the Guaranteed Amounts constituting interest in respect of each such OBG on such date. The obligation of the OBG Guarantor to pay any amounts in respect of the balance of the Final Redemption Amount not so paid shall be deferred as described above.

Interest will continue to accrue on any unpaid amount during such extended period and be payable on each Guarantor Payment Date following the Maturity Date up to the Extended Maturity Date (inclusive).

(c) *Redemption for tax reasons*

The OBG may be redeemed at the option of the Issuer in whole, but not in part:

- (i) at any time (if the Floating Rate Provisions are not specified in the relevant Final Terms as being applicable); or

- (B) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided, however, that no such notice of redemption shall be given earlier than:

- (1) where the OBG may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the OBG were then due; or
- (2) where the OBG may be redeemed only on an OBG Payment Date, 60 days prior to the OBG Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the OBG were then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Paying Agent and the Representative of the OBG Holders (A) a

Upon the expiry of any such notice as is referred to in this Condition 8(c), the Issuer shall be bound to redeem the OBG in accordance with this Condition 8(c).

(d) *Redemption at the option of the Issuer*

If the "Call Option" is specified in the relevant Final Terms as being applicable, the OBG may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) together with interest accrued but unpaid (if any) on the Issuer's giving (i) not less than 15 nor more than 30 days' notice to the OBG Holders and (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Representative of the OBG Holders and the Paying Agent, (which notices shall be irrevocable and shall oblige the Issuer to redeem the OBG on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued (but unpaid) interest (if any) to such date). Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Paying Agent and the Representative of the OBG Holders a certificate signed by two directors of the Issuer stating that the Issuer shall have the amounts necessary in order to effect the early repayment at the date fixed for the redemption.

Payment of interest and repayment of principal in respect of the OBG will be credited, in accordance with the instructions of Monte Titoli, by the Paying Agent on behalf of the Issuer or the OBG Guarantor (as the case may be) to the accounts of those banks and authorised brokers whose accounts with Monte Titoli are credited with those OBG and thereafter credited by such banks and authorised brokers from such aforementioned accounts to the accounts of the beneficial owners of those OBG or through the Relevant Clearing Systems to the accounts with the Relevant Clearing Systems of the beneficial owners of those OBG, in accordance with the rules and procedures of Monte Titoli and of the Relevant Clearing Systems, as the case may be.

(b) Payments subject to fiscal laws

All payments in respect of the OBG are subject in all cases to any applicable fiscal or other laws, directives and regulations in the place of payment or other laws to which the Issuer, the OBG Guarantor or their agents agree to be subject and neither Issuer nor the OBG Guarantor will be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements, but without prejudice to the provisions of Condition 10 (*Taxation*). No commissions or expenses shall be charged to OBG Holders in respect of such payments.

(c) Payments on business days

If the due date for payment of any amount in respect of any OBG is not a Payment Business Day in the Place of Payment, the OBG Holder shall not be entitled to payment in such place of the amount due until the next succeeding Payment Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.

10 Taxation

(a) Gross up by Issuer

All payments of principal and interest in respect of the OBG by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Republic of Italy or any political subdivision therein or any authority therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties,

assessments, or governmental charges is required by law. In that event, the Issuer shall pay such additional amounts as shall be necessary in order that the net amounts received by the OBG Holders after such withholding or deduction of such amounts shall be equal to the respective amounts which would otherwise have been receivable by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in respect of any OBG:

- (i) in respect to any payment or deduction of any interest or principal for or on account of *imposta sostitutiva* (at the then applicable rate of tax) pursuant to Legislation Decree No. 239 of 1 April 1996, as amended ("**Decree No. 239**") with respect to any OBG and in all circumstances in which the procedures set forth in Decree No 239 have not been met or complied with except where such procedures have not been met or complied with due to the actions or omissions of the Issuer or its agents; or
- (ii) held by or on behalf of an OBG Holder which is liable to such taxes, duties, assessments or governmental charges in respect of such OBG by reason of it having some connection with the jurisdiction by which such taxes, duties, assessments or charges have been imposed, levied, collected, withheld or assessed other than the mere holding of the OBG; or
- (iii) held by or on behalf of an OBG Holder who is entitled to avoid such withholding or deduction in respect of such OBG by making a declaration or any other statement to the relevant tax authority, including, but not limited to, a declaration of residence or non/residence or other similar claim for exemption; or
- (iv) in the event of payment to a non-Italian resident legal entity or a non-Italian resident individual, to the extent that interest or any other amount is paid to a non-Italian resident legal entity or a non-Italian resident individual which is resident in a country which does not allow for a satisfactory exchange of information with the Italian authorities; or
- (v) where the OBG Holder would have been able to lawfully avoid (but has not so avoided) such deduction or withholding by complying, or procuring that any third party complies, with any statutory requirements; or
- (vi) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (vii) in respect of any OBG where such withholding or deduction is required pursuant to Italian Law Decree No. 512 of 30 September 1983, converted into Law No. 649 of 25 November 1983 as amended from time to time; or

(viii) held by or on behalf of an OBG Holder who would have been able to avoid such withholding or deduction by presenting the relevant OBG to another Paying Agent in a Member State of the EU.

For the avoidance of doubt, if an amount were to be deducted or withheld from interest, principal or other payments on the OBGs as a result of an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code and any regulations or agreements thereunder or official interpretations thereof (“**FATCA**”), none of the Issuer, the OBG Guarantor, any paying agent or any other person would, pursuant to the terms and conditions of the OBGs be required to pay additional amounts as a result of the deduction or withholding.

(b) *Taxing jurisdiction*

If the Issuer becomes subject at any time to any taxing jurisdiction other than the Republic of Italy, references in these Conditions to the Republic of Italy shall be construed as references to the Republic of Italy and/or such other jurisdiction. For the avoidance of doubt, for the purposes of this paragraph (b), the Issuer will not be considered to become subject to the taxing jurisdiction of the United States should the Issuer be required to withhold amounts in respect any withholding tax imposed by the United States on any payments the Issuer makes.

(c) *No Gross-up by the OBG Guarantor*

If withholding of, or deduction of any present or future taxes, duties, assessments or charges of whatever nature is imposed by or on behalf of Italy, any authority therein or thereof having power to tax, the OBG Guarantor will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the OBG Holders, as the case may be, and shall not be obliged to pay any additional amounts to the OBG Holders.

KEY FEATURES OF REGISTERED OBG (*NAMENSSCHULD VERSCHREIBUNG*)

The Issuer may issue, under the Programme, Registered OBG (*Namensschuldverschreibung*), each issued with a minimum denomination indicated in the applicable Registered OBG Conditions.

The Registered OBG shall be governed by a set of legal documentation in the form from time to time agreed with the relevant Dealer and will not be governed by the Conditions of the OBG set out in this Prospectus. Such legal documentation will comprise the relevant Registered OBG Conditions, Assignment Agreement and Registered OBG Agreement. Notwithstanding the foregoing, the Issuer will be entitled to enter into a different or additional set of documentation as agreed with the relevant Dealer in relation to a specific issue of Registered OBG.

The relevant Registered OBG, together with the related Registered OBG Conditions attached thereto, the relevant Registered OBG Agreement and any other document expressed to govern such Series of Registered OBG, will constitute the full terms and conditions of the relevant Series of Registered OBG. For the avoidance of doubt, Registered OBG are not and will not be subject to the generally applicable terms and conditions of the OBG (contained in the section headed “Terms and Conditions of the OBG”). No Final Terms will be issued in respect of Registered OBG.

The Registered OBG will constitute direct, unconditional, unsubordinated obligations of the Issuer, guaranteed by the OBG Guarantor pursuant to the terms of the OBG Guarantee with limited recourse to the Available Funds. The Registered OBG will rank *pari passu* and without any preference among themselves and with the OBG, except in respect of the applicable maturity of each Series or Tranche (as applicable), and (save for any applicable statutory provisions) at least equally with all other present and future unsecured, unsubordinated obligations of the Issuer having the same maturity of each Series of Registered OBG or Series or Tranche of OBG, from time to time outstanding.

In accordance with the legal framework established by Law 130 and the MEF Decree and with the terms and conditions of the relevant Registered OBG Agreement and Transaction Documents, the Registered OBG Holders will have (i) recourse to the Issuer and (ii) limited recourse to the OBG Guarantor limited to the Available Funds.

The Registered OBG will not be listed and/or admitted to trading on any market and will not be settled through a clearing system. Registered OBG will be issued in such denominations indicated in the applicable Registered OBG Conditions.

The Registered OBG will be governed by the laws of the Federal Republic of Germany or by whatever law chosen by the Issuer (to be supplemented with the specific provisions required under German law in order for the registered OBG to be a German law registered note (*Namensschuldverschreibung*) save that, in any case, certain provisions (including those relating to status, limited recourse of the Registered OBG and those applicable to the Issuer and the Portfolio) shall be governed by Italian law.

In connection with each Registered OBG, each reference in the Prospectus to information being set out, specified, stated, shown, indicated or otherwise provided for in the applicable Final Terms shall be read and construed as a reference to such information being set out, specified, stated, shown, indicated or otherwise provided in the relevant Registered OBG (*Namensschuldverschreibung*), the relevant Registered OBG Conditions, the Registered OBG Agreement relating thereto or any other document

expressed to govern such Registered OBG and, as applicable, each other reference to Final Terms in the Prospectus shall be construed and read as a reference to such Registered OBG (*Namenschuldverschreibung*), the relevant Registered OBG Conditions, the Registered OBG Agreement thereto or any other document expressed to govern such of Registered OBG.

A transfer of Registered OBG shall not be effective until the transferee has delivered to the Registered OBG Registrar a duly executed Assignment Agreement. A transfer can only occur for the minimum denomination indicated in the applicable Registered OBG Conditions or multiples thereof.

In connection with Registered OBG, references in this Prospectus to the Conditions or a particularly numbered Condition shall be construed, where relevant (and unless specified otherwise), as references to the equivalent Condition in the relevant Registered OBG Conditions as supplemented by the relevant Registered OBG Agreement and/or any other applicable document.

TAXATION IN THE REPUBLIC OF ITALY

The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the OBG and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

Prospective purchasers of the OBG are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the OBG.

This summary is based upon the laws and/or practice in force as at the date of this Prospectus, which are subject to any changes in law and/or practice occurring after such date, which could be made on a retroactive basis. This summary will not be updated to reflect changes in laws and if such a change occurs the information in this summary could become invalid.

Italian Tax Treatment of the OBG – General

Legislative Decree No. 239 of 1 April 1996 (“**Decree. No. 239**”) regulates the tax treatment of interest, premiums and other income (including the difference between the redemption amount and the issue price) from certain securities issued, inter alia, by Italian resident banks (hereinafter collectively referred to as “Interest”). The provisions of Decree No. 239 only apply to OBG issued by the Issuer which qualify as *obbligazioni* (bonds) or *titoli similari alle obbligazioni* (securities similar to bonds) pursuant to Article 44 of Presidential Decree No. 917 of 22 December 1986.

Taxation of Interest

Italian Resident OBG holders

Pursuant to Decree No. 239, where the Italian resident holder of the OBG that qualify as *obbligazioni* or *titoli similari alle obbligazioni* who is the beneficial owner of such OBG, is:

- (a) an individual holding OBG otherwise than in connection with entrepreneurial activity (unless he has entrusted the management of his financial assets, including the OBG, to an authorised intermediary and has opted for the so-called *risparmio gestito* regime according to Article 7 of Italian Legislative Decree No. 461 of 21 November, 1997, as amended (“**Decree No. 461**” – – the “**Asset Management Option**”); or
- (b) a partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership) or *de facto* partnership not carrying out commercial activities or professional association; or
- (c) a private or public institution not carrying out mainly or exclusively commercial activities (including the Italian state and public entities); or
- (d) an investor exempt from Italian corporate income taxation.

Interest payments relating to the OBG are subject to a tax, referred to as *imposta sostitutiva*, levied at the rate of 20 per cent. (either when Interest is paid or when payment thereof is obtained by the holder on a sale of the OBG). All the above categories are qualified as “net recipients”.

Where the resident holders of the OBG described above under (a) and (c) are engaged in an entrepreneurial activity to which the OBG are effectively connected, *imposta sostitutiva* applies as a provisional income tax and may be deducted from the taxation on income due.

Pursuant to Decree No. 239, the *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* (so called “SIMs”), fiduciary companies, *società di gestione del risparmio* (SGRs), stock brokers and other qualified entities resident in Italy, or by permanent establishments in Italy of banks or authorised intermediaries resident outside Italy (“**Intermediaries**” and each an “**Intermediary**”), that must intervene in any way in the collection of Interest or, also as transferees, in transfers or disposals of the OBG.

Where the OBG and the relevant coupons are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld:

- (a) by any intermediary paying Interest to the OBG holders; or
- (b) by the Issuer.

Payments of Interest in respect of OBG that qualify as *obbligazioni* or *titoli similari alle obbligazioni*, are not subject to the 20 per cent. *imposta sostitutiva* if made to beneficial owners who are: (i) Italian resident companies or similar commercial entities or permanent establishments in Italy of foreign companies to which the OBG are effectively connected; (ii) Italian collective investment funds, SICAVs, Italian pension funds referred to in Legislative Decree No. 252 of 5 December, 2005 (“**Decree No. 252**”), Italian real estate investment funds; and (iii) Italian resident individuals holding OBG not in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the OBG, to an authorised financial intermediary and have opted for the Asset Management Option. Such categories are qualified as “gross recipients”.

To ensure payment of Interest in respect of the OBG without the application of 20 per cent. *imposta sostitutiva*, gross recipients indicated above under (i) to (iii) must (a) be the beneficial owners of payments of Interest on the OBG and (b) timely deposit the OBG together with the coupons relating to such OBG directly or indirectly with an Intermediary.

Where the OBG and the relevant coupons are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld:

- (a) by any intermediary paying Interest to the OBG holder; or
- (b) by the Issuer,

and gross recipients that are Italian resident companies or similar commercial entities or permanent establishments in Italy of foreign companies to which the OBG are effectively connected are entitled to deduct *imposta sostitutiva* suffered from income taxes due.

Interest accrued on the OBG would be included in the corporate taxable income (and in certain circumstances, depending on the “status” of the OBG holder, also in the net value of production for purposes of regional tax on productive activities – IRAP) of beneficial owners who are Italian resident companies or similar commercial entities or permanent establishments in Italy of foreign

companies to which the OBG are effectively connected, subject to tax in Italy in accordance with ordinary tax rules.

Italian resident individuals holding OBG not in connection with entrepreneurial activity who have opted for the Asset Management Option are subject to a 20 per cent annual substitute tax (the “**Asset Management Tax**”) on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the OBG). The Asset Management Tax is applied on behalf of the taxpayer by the managing authorised intermediary.

Italian collective investment funds and SICAVs are not subject to *imposta sostitutiva* on the Interest and other proceeds accrued during the holding period on the OBG.

Italian pension funds subject to the regime provided by Article 17 Decree No. 252, as subsequently amended, are not subject to *imposta sostitutiva*. They are subject to an 11 per cent. annual substitute tax (the “**Pension Fund Tax**”) on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the OBG).

According to the current regime provided by Law Decree No. 351 dated 25 September 2001 as subsequently amended, Italian real estate funds created under Article 37 of the Financial Services Act and Article 14-*bis* of Law No. 86 dated 25 January 1994 (the “**Real Estate Funds**”), are not subject to any substitute tax at the fund level nor to any other income tax in the hands of the fund.

Non-Italian resident OBG holders

According to Decree No. 239, payments of Interest in respect of OBG that qualify as *obbligazioni* or *titoli similari alle obbligazioni* will not be subject to the *imposta sostitutiva* at the rate of 20 per cent. provided that:

- (a) the payments are made to non-Italian resident beneficial owners of the OBG with no permanent establishment in Italy to which the OBG are effectively connected;
- (b) such beneficial owners are resident, for tax purposes (i) in a White-list State listed into Italian Ministerial Decree dated 4 September 1996, as amended from time to time, or (ii) as from the tax year in which the decree pursuant to Article 168-*bis* of Presidential Decree No. 917 of 22 December 1986 (“**Decree No. 917**”) is effective, in a State or territory that is included (or deemed to be included, pursuant to Article 1, paragraph 90 of the Law No. 244 of 24 December 2007, the “**Budget Law for 2008**”) in the list of States allowing for an adequate exchange of information with the Italian tax authorities; and
- (c) all the requirements and procedures set forth in Decree No. 239 and in the relevant implementation rules, as subsequently amended, in order to benefit from the exemption from *imposta sostitutiva* are timely met or complied with.

Decree No. 239 also provides for additional exemptions from the *imposta sostitutiva* for payments of Interest in respect of the OBG made to (i) international entities and organisations established in accordance with international agreements ratified in Italy; (ii) certain foreign institutional investors established in countries which allow for an adequate exchange of information with Italy; and (iii) Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State.

To ensure payment of Interest in respect of the OBG without the application of *imposta sostitutiva*, non-Italian resident investors indicated above must:

- (a) be the beneficial owners of payments of Interest on the OBG;
- (b) timely deposit the OBG together with the coupons relating to such OBG directly or indirectly with an Italian resident bank or SIM or a permanent establishment in Italy of a non-Italian bank or investment firm, or with a non-Italian resident operator participating in a centralised securities management system which is in contact via computer with the Ministry of Economy and Finance; and
- (c) timely file with the relevant depository a self-assessment (*autocertificazione*) stating, *inter alia*, that he or she is resident, for tax purposes, in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information. Such self-assessment (*autocertificazione*) is valid until withdrawn or revoked and need not be submitted where a certificate, declaration or other similar document meant for equivalent uses was previously submitted to the same depository. The self-assessment (*autocertificazione*) is not requested for non-Italian resident investors that are international entities and organisations established in accordance with international agreements ratified in Italy and Central Banks or entities which manage, *inter alia*, the official reserves of a foreign state.

Failure of a non-resident OBG holder to timely comply with the procedures set forth in Decree No. 239 and in the relevant implementation rules will result in the application of *imposta sostitutiva* on Interests payments to such non-resident OBG holder.

The *imposta sostitutiva* will be applicable to interest, premium and other income accrued during the holding period when the OBG holders are resident, for fiscal purposes, in countries which do not allow for a satisfactory exchange of information with Italy or who do not comply with the above mentioned requirement. The *imposta sostitutiva* may be reduced or reduced to zero under certain applicable double tax treaties entered into by Italy, subject to timely filing of required documentation.

Atypical securities

Interest payments relating to OBG that are not deemed to fall within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) may be qualified as “*atypical securities*” and subject to a withholding tax, levied at the rate of 20 per cent. For this purpose, securities similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value.

Interest payments received by: (a) Italian resident companies or similar commercial entities or permanent establishments in Italy of foreign companies to which the OBG are effectively connected, (b) Italian resident commercial partnerships and (c) Italian resident individuals carrying out a commercial activity to which the OBG are connected form part of their aggregate income subject to income tax in Italy according to ordinary rules. In certain cases, said Interest may also be included in the taxable net value of production for IRAP purposes. In this case, the withholding tax applies as a provisional income tax and may be deducted from the taxation on income due.

Payments made by the OBG Guarantor

The Italian tax authorities have never expressed their view on the Italian tax regime applicable to payments on OBG made by an Italian resident guarantor in a ruling available to the public. Accordingly, there can be no assurance that the Italian tax authorities will not assert an alternative treatment of such payments than that set forth herein or that the Italian court would not support such an alternative treatment.

With respect to payments on the OBG made to certain Italian resident OBG holders by an Italian resident guarantor, in accordance with one interpretation of Italian tax law, any payment of liabilities equal to interest and other proceeds from the OBG may be subject to an advance withholding tax at a rate of 20 per cent. pursuant to Presidential Decree No. 600, as subsequently amended. Also in the case of payments to non-Italian resident, a final withholding tax may be applied at 20 per cent.

Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax.

In accordance with another interpretation, any such payment made by the Italian resident guarantor will be treated as a payment by the relevant Issuer and will thus be subject to the tax regime described in the previous paragraphs of this section.

Capital Gains

Italian resident OBG holders

Pursuant to Decree No. 461, a 20 per cent. capital gains tax (referred to as “*imposta sostitutiva*”) is applicable to capital gains realised by Italian resident individuals, not engaged in entrepreneurial activities to which the OBG are connected, on any sale or transfer for consideration of the OBG or redemption thereof. In respect of the application of *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the so called “tax declaration regime”, which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in entrepreneurial activities, the 20 per cent. *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains net of any relevant incurred capital losses realised by Italian resident individuals not engaged in entrepreneurial activities pursuant to investment transactions carried out during any given fiscal year. The capital gains realised in a year net of any relevant incurred capital losses must be detailed in the relevant annual tax return to be filed with Italian tax authorities and *imposta sostitutiva* must be paid on such capital gains by Italian resident individuals together with any balance income tax due for the relevant tax year. Capital losses in excess of capital gains may be carried forward against capital gains of the same kind for up to the fourth subsequent fiscal year.

Alternatively to the tax declaration regime, holders of the OBG who are Italian resident individuals not engaged in entrepreneurial activities to which the OBG are connected, may elect to pay *imposta sostitutiva* separately on capital gains realised on each sale or transfer or redemption of the OBG (“*risparmio amministrato*” regime). Such separate taxation of capital gains is allowed subject to (i) the OBG being deposited with banks, SIMs and any other Italian qualified intermediary (or permanent establishment in Italy of foreign intermediary) and (ii) an express election for the so-called *risparmio amministrato* regime being timely made in writing by the relevant holder of the OBG. The intermediary is responsible for accounting for *imposta sostitutiva* in respect of capital

gains realised on each sale or transfer or redemption of the OBG, as well as on capital gains realised as at revocation of its mandate, net of any relevant incurred capital losses, and is required to pay the relevant amount to the Italian fiscal authorities on behalf of the holder of the OBG, deducting a corresponding amount from proceeds to be credited to the holder of the OBG. Where a sale or transfer or redemption of the OBG results in a capital loss, the intermediary is entitled to deduct such loss from gains of the same kind subsequently realised on assets held by the holder of the OBG within the same relationship of deposit in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the OBG holder is not required to declare capital gains in its annual tax declaration and remains anonymous.

Special rules apply if the OBG are part of a portfolio managed in a regime of Asset Management Option (“*risparmio gestito*” regime) by an Italian asset management company or an authorised intermediary. In that case, the capital gains realised upon sale, transfer or redemption of the OBG will not be subject to *imposta sostitutiva* on capital gains but will contribute to determine the taxable base of the Asset Management Tax applicable at the rate of 20 per cent.

In particular, under the Asset Management Option, any appreciation of the OBG, even if not realised, will contribute to determine the annual accrued appreciation of the managed portfolio, subject to the Asset Management Tax. Any depreciation of the managed portfolio accrued at yearend may be carried forward against appreciation accrued in each of the following years up to the fourth. Also under the Asset Management Option the realised capital gain is not requested to be included in the annual income tax return of the OBG holder and the OBG holder remains anonymous.

The capital gains realised by an Italian collective investment fund or a SICAV are not subject to *imposta sostitutiva* nor to any other income tax in the hands of the relevant Fund.

Any capital gains accrued to OBG holders who are Italian pension funds subject to the regime provided by Article 17 of Decree No. 252, as subsequently amended will be included in the computation of the taxable basis of Pension Fund Tax.

According to Article 41-*bis* of Law Decree No. 269 dated 30 September 2003, as subsequently amended, Italian real estate funds created under Article 37 of Italian Legislative Decree No. 58 of 24 February 1998 and Article 14 bis of Italian Law No. 86 of 25 January 1994, are not subject to any substitute tax at the fund level nor to any other income tax in the hands of the fund.

Any capital gains realised by Italian resident individuals carrying out a commercial activity to which the OBG are connected or Italian resident companies or similar commercial entities or permanent establishments in Italy of non-Italian resident companies to which the OBG are connected, will be included in their business income (and, in certain cases, may also be included in the taxable net value of production for IRAP purposes), subject to tax in Italy according to the relevant ordinary tax rules.

Non-Italian resident OBG holders

The 20 per cent. final “*imposta sostitutiva*” may in certain circumstances be payable on capital gains realised upon sale for consideration or redemption of the OBG by non-Italian resident persons

or entities without a permanent establishment in the Republic of Italy to which the OBG are effectively connected, if the OBG are held in the Republic of Italy.

However, pursuant to Article 23 of Decree No. 917, any capital gains realised by non-Italian residents without a permanent establishment in Italy to which the OBG are effectively connected through the sale for consideration or redemption of the OBG are exempt from taxation in Italy to the extent that the OBG are listed on a regulated market in Italy or abroad, and in certain cases subject to timely filing of required documentation (in the form of a self-assessment (*autocertificazione*) of non-residence in Italy) with the Italian qualified intermediaries (or permanent establishments in Italy of foreign intermediaries) with which the OBG are deposited, even if the OBG are held in Italy and regardless of the provisions set forth by any applicable double tax treaty.

Where the OBG are not listed on a regulated market in Italy or abroad:

- (a) pursuant to the provisions of Decree No. 461 non-Italian resident beneficial owners of the OBG with no permanent establishment in Italy to which the OBG are effectively connected are exempt from the *imposta sostitutiva* in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of the OBG if they are resident, for tax purposes:
 - (i) in a White-list State listed into Italian Ministerial Decree dated 4 September 1996, as amended from time to time, or (ii), as from the tax year in which the decree pursuant to Article 168-bis of Decree No. 917 is effective, in a State or territory that is included (or deemed to be included, pursuant to Article 1, paragraph 90 of Law of 24 December 2007, No. 244) in the list of States allowing for an adequate exchange of information with the Italian tax authorities listed in the decree referred to in Article 168-bis, paragraph 1 of Decree No. 917. The same exemption applies in case the beneficial owners of the OBG are (i) international entities or organisations established in accordance with international agreements ratified by Italy; (ii) certain foreign institutional investors established in countries which allow for an adequate exchange of information with Italy; or (iii) Central Banks or entities which manage, inter alia, the official reserves of a foreign State; and
- (b) in any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the OBG are effectively connected that may benefit from a double taxation treaty with Italy, providing that capital gains realised upon sale or redemption of OBG are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon sale for consideration or redemption of OBG.

Under these circumstances, if non-Italian residents without a permanent establishment in Italy to which the OBG are effectively connected hold OBG with an Italian authorised financial intermediary and elect for the Asset Management Option or are subject to the *risparmio amministrato* regime, in order to benefit from exemption from Italian taxation on capital gains such non-Italian residents may be required to file in time with the authorised financial intermediary appropriate documents which include *inter alia* a certificate of residence from the competent tax authorities of the country of residence of the non-Italian residents.

Inheritance and gift tax

Pursuant to Law Decree No. 262 of 3 October, 2006, converted with amendments by Law No. 286 of 24th November, 2006 effective from 29 November, 2006, and Law No. 296 of 27 December, 2006, the transfers of any valuable assets (including the OBG) as a result of death or donation (or other transfers for no consideration) and the creation of liens on such assets for a specific purpose are taxed as follows:

- (a) 4 per cent. if the transfer is made to spouses and direct descendants or ancestors; in this case, the transfer is subject to tax on the value exceeding €1,000,000 (per beneficiary);
- (b) 6 per cent. if the transfer is made to brothers and sisters; in this case, the transfer is subject to the tax on the value exceeding €100,000 (per beneficiary);
- (c) 6 per cent. if the transfer is made to relatives up to the fourth degree, to persons related by direct affinity as well as to persons related by collateral affinity up to the third degree; and
- (d) 8 per cent. in all other cases.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (a), (b), (c) and (d) on the value exceeding €1,500,000.

Transfer tax

According to Law Decree No. 248 of 31 December 2007, converted with amendments by Law No. 31 of 28 February 2008, transfer tax has been repealed.

Following the repeal of the Italian transfer tax, as from 31 December 2007 contracts relating to the transfer of securities may be subject to the registration tax as follows: a) public deeds and notarised deeds are subject to fixed tax at a rate of €200,00; and b) private deeds are subject to registration tax at a rate of €200,00 only in the case of use or voluntary registration.

Stamp duty

Pursuant to Article 13 of the tariff attached to Presidential Decree No. 642 of 26 October 1972, a proportional stamp duty applies on an annual basis to any periodic reporting communications which may be sent by a financial intermediary to a OBG holder in respect of any OBG which may be deposited with such financial intermediary. The stamp duty applies at a rate of 0.20 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the OBG held. The stamp duty cannot exceed € 14.000.00 if the OBG holder is not an individual.

Under a certain interpretation of the law, it may be understood that the stamp duty applies both to Italian resident and non-Italian resident OBG holders, to the extent that OBG are held with an Italian-based financial intermediary.

Wealth Tax on securities deposited abroad

According to the provisions set forth by Law No. 214 of 22 December 2011, as amended and supplemented, Italian resident individuals holding the OBG outside the Italian territory are required to pay an additional tax at a rate of 0.20 per cent.

This tax is calculated on the market value of the OBG at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets

held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Tax Monitoring

According to the Law Decree No. 167 of 28 June 1990, converted with amendments into Law No. 227 of 4 August 1990, as amended from time to time, individuals, non-profit entities and certain partnerships (*società semplici* or similar partnerships in accordance with Article 5 of Presidential Decree No. 917 of 22 December 1986) resident in Italy for tax purposes, under certain conditions, are required to report for tax monitoring purposes in their yearly income tax the amount of investments (including the OBG) directly or indirectly held abroad.

European Savings Directive

On 3 June 2003, the Council of the European Union adopted the EU Directive No. 2003/48/EC regarding the taxation of savings income (the “**European Savings Directive**”). According to the European Savings Directive, each member State of the European Union (a “**Member State**”) is required to provide to the Tax Authorities of other States of the European Union details of the interest payments by a person within its jurisdiction to individuals resident in that other State. However, Austria and Luxembourg are required to apply a withholding tax system for a transitional period. The withholding tax system applies for a transitional period with the rate of withholding currently at 35 per cent. unless during this transitional period they elect to abolish the withholding system in favour of automatic information exchange under the European Savings Directive. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of this automatic information exchange.

In any case, the transitional period is to terminate at the end of the first full tax year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, including Switzerland and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent within its jurisdiction to, or collected by such a paying agent for an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a paying agent in a Member State to, or collected by such a paying agent for an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the EU Savings Directive, which may, if implemented, amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers.

Implementation in Italy of the Savings Directive

Italy has implemented the European Savings Directive through Legislative Decree No. 84 of 18 April 2005 (the “**Decree No. 84**”). Under Decree No. 84, subject to a number of important conditions being met, in the case of interest paid starting from 1 July 2005 (including the case of

interest accrued on the Certificates at the time of their disposal) to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State or in certain associated territories of Member States, Italian paying agents (i.e., banks, investment firms (“*società di intermediazione mobiliare – SIM*”), fiduciary companies, Italian management company (“*società di gestione del risparmio – SGR*”) resident for tax purposes in Italy, permanent establishments in Italy of non-resident persons and any other economic operator resident for tax purposes in Italy paying interest for professional or commercial reasons) shall report to the Italian tax authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian Tax Authorities to the competent foreign tax authorities of the State of residence of the beneficial owner. In certain circumstances, the same reporting requirements must be complied with also in respect of interest paid to an entity established in another Member State, other than legal persons (with the exception of certain Finnish and Swedish entities), whose profits are taxed under general arrangements for business taxation and, in certain circumstance, undertakings for collective investments in transferable securities (“**UCITS**”).

Either payments of interest on the OBG or the realisation of the accrued interest through the sale of the OBG would constitute "payments of interest" under Article 6 of the European Savings Directive and, as far as Italy is concerned, Article 2 of Decree No. 84. Accordingly, such payments of interest arising out of the OBG would fall within the scope of the European Savings Directive.

LUXEMBOURG TAXATION

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the OBG should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*) as well as personal income tax (*impôt sur le revenu*) generally. Investors may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax and the solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

Taxation of the OBG holders

Withholding Tax

Non-resident OBG holders

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005, as amended and/or supplemented from time to time (the “**Laws**”) mentioned below, there is no withholding tax on payments of principal, premium or interest made to non-residents OBG holders, nor on accrued but unpaid interest in respect of the OBG, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the OBG held by non-resident OBG holders.

Under the Laws implementing the European Council Directive 2003/48/EC of 3 June 2003, as amended (the “**EU Savings Directive**”) on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the “**Territories**”), payments of interest or similar income made or ascribed by a Paying Agent as defined in the Laws established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant Paying Agent to provide details of the relevant payments of interest or similar income to the Tax Authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the Tax Authorities of his/her country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it is levied at a current rate of 35 per cent. The withholding tax

system will only apply during a transitional period, the ending of which depends on the conclusion of certain agreements relating to information exchange with certain third Countries. Responsibility for the withholding of the tax will be assumed by the Luxembourg Paying Agent. Payments of interest under the OBG coming within the scope of the Laws would at present be subject to withholding tax at the rate of 35 per cent.

The European Commission has proposed certain amendments to the EU Savings Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

On 28 February 2014, the Luxembourg government passed a bill implementing the automatic exchange of information with regards to savings income as from 1 January 2015 based on the current scope of the EU Savings Directive.

Resident OBG holders

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the “**Law**”) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of OBG, neither on accrued but unpaid interest in respect of OBG, nor is any Luxembourg withholding tax payable upon redemption or repurchase of OBG held by Luxembourg resident OBG holders.

Under the Law, payments of interest or similar income made or ascribed by a Paying Agent established in Luxembourg to or for the benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 10 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg Paying Agent. Payments of interest under the OBG coming within the scope of the Law would be subject to withholding tax of 10 per cent.

Income Taxation

Non-resident OBG holders

Non-resident corporate OBG holders or non-resident individual OBG holders acting in the course of the management of a professional or business undertaking, who does not have a permanent establishment or permanent representative in Luxembourg to which such OBG are attributable, are not subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the OBG or on any gains realised upon the sale or disposal, in any form whatsoever, of the OBG.

Resident OBG holders

A resident corporate OBG Holder must include any interest accrued or received, any redemption premium or issue discount, as well as any gain realised on the sale or disposal, in any form whatsoever, of the OBG, in its taxable income for Luxembourg income tax assessment purposes. The same inclusion applies to an individual OBG Holder, acting in the course of the management of a professional or business undertaking.

An OBG Holder that is governed by the law of 11 May 2007 on family estate management companies, as amended, or by the law of 17 December 2010 on undertakings for collective

investment, as amended, or by the law of 13 February 2007 on specialised investment funds, as amended, is neither subject to Luxembourg income tax in respect of interest accrued or received, redemption premium or issue discount, nor on gains realised on the sale or disposal, in any form whatsoever, of the OBG.

A resident individual OBG Holder, acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax in respect of interest received, redemption premiums or issue discounts, under the OBG, except if (i) withholding tax has been levied on such payments in accordance with the Law, or (ii) the individual OBG Holder has opted for the application of a 10 per cent. (self-applied) tax in full discharge of income tax in accordance with the Law, which applies if a payment of interest has been made or ascribed by a paying agent established in a EU Member State (other than Luxembourg), or in a Member State of the European Economic Area (other than a EU Member State), or in a state that has entered into a treaty with Luxembourg relating to the EU Savings Directive. A gain realised by an individual OBG Holder, acting in the course of the management of his/her private wealth, upon the sale or disposal, in any form whatsoever, of the OBG is not subject to Luxembourg income tax, provided this sale or disposal took place more than six months after the OBG were acquired. However, any portion of such gain corresponding to accrued but unpaid interest income is subject to Luxembourg income tax, except if withholding tax has been levied on such interest in accordance with the Law.

Net Wealth Taxation

A corporate OBG Holder, whether it is resident of Luxembourg for tax purposes or, if not, it maintains a permanent establishment or a permanent representative in Luxembourg to which such OBG are attributable, is subject to Luxembourg wealth tax on these OBG, except if the OBG Holder is governed by (i) the law of 11 May 2007 on family estate management companies, as amended, (ii) the law of 17 December 2010 on undertakings for collective investment, as amended, (iii) the law of 13 February 2007 on specialised investment funds, as amended, (iv) the law of 22 March 2004 on securitisation, as amended, or (v) the law of 15 June 2004 on venture capital vehicles, as amended.

An individual OBG Holder, whether she/he is resident of Luxembourg or not, is not subject to Luxembourg wealth tax on such OBG.

Other Taxes

Neither the issuance nor the transfer of OBG will give rise to any Luxembourg stamp duty, value added tax, issuance tax, registration tax, transfer tax or similar taxes or duties, unless the documents relating to the OBG are voluntarily registered in Luxembourg.

Where a OBG Holder is a resident of Luxembourg for tax purposes at the time of her/his death, the OBG are included in his/her taxable estate for inheritance tax assessment purposes.

Gift tax may be due on a gift or donation of OBG if embodied in a Luxembourg deed or recorded in Luxembourg.

European Savings Directive

On 3 June 2003, the Council of the European Union adopted the EU Directive No. 2003/48/EC regarding the taxation of savings income (the “**European Savings Directive**”). According to the

European Savings Directive, each member State of the European Union (a “**Member State**”) is required to provide to the Tax Authorities of other States of the European Union details of the interest payments by a person within its jurisdiction to individuals resident in that other State. However, Austria and Luxembourg are allowed to apply a withholding tax system for a transitional period. The withholding tax system applies for a transitional period during which the withholding tax is applicable (from 1 July 2011) at rate of 35 per cent. The transitional period is to terminate at the end of the first full tax year following agreement by certain non-EU countries to the exchange of information relating to such payments.

The European Commission has proposed certain amendments to the EU Savings Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

On 28 February 2014, the Luxembourg government passed a bill implementing the automatic exchange of information with regards to savings income as from 1 January 2015 based on the current scope of the EU Savings Directive.

setting forth the restrictions on offers and sales of the OBG within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of OBG comprising any Tranche, any offer or sale of OBG within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Public Offer Selling Restriction Under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of OBG which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such OBG to the public in that Relevant Member State:

For the purposes of this provision, the expression an “offer of OBG to the public” in relation to any OBG in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the OBG to be offered so as to enable an investor to decide to purchase or subscribe the OBG, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State and the expression “**2010 PD Amending Directive**” means Directive 2010/73/EU.
