Other Provisions:

Interest

Interest on the notes will be payable in U.S. Dollars quarterly, in arrears, on each March 18, June 18, September 18 and December 18, beginning December 18, 2013 (each an “Interest Payment Date”); provided that, if any such day falls on a day that is not a business day, it will be postponed to the following business day and interest thereon will not continue to accrue, except that if such following business day would fall in the next calendar month, the Interest Payment Date will be the immediately preceding business day. The interest rate on the notes will be equal to the sum of three-month USD LIBOR plus 1.00%; provided that such interest rate shall at all times equal or exceed 1.05% per annum. The Initial Interest Rate will be determined two London banking days prior to September 18, 2013 based on three-month USD LIBOR plus 1.00%. The interest rate will be reset quarterly on each scheduled Interest Payment Date (the “Interest Reset Date”), and will be determined quarterly, two London banking days prior to each Interest Reset Date. Interest will be computed and paid on a 30/360 basis.

Calculation Agent: AIG Markets, Inc.

EMPLOYEE RETIREMENT INCOME SECURITY ACT

Any person acquiring or holding the notes on behalf of any pension, profit-sharing or other employee benefit plan subject to the U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”) (each, a “Plan”), or with any assets of a Plan shall be deemed to represent on behalf of itself and such Plan that (x) the Plan is paying no more than, and is receiving no less than, adequate consideration within the meaning of Section 408(b)(17) of ERISA in connection with the transaction or any redemption of the notes, (y) neither AIG nor any agent of AIG directly or indirectly exercises any discretionary authority or control or renders investment advice or otherwise acts in a fiduciary capacity with respect to the assets of the Plan within the meaning of ERISA and (z) in making the foregoing representations and warranties, such person has applied sound business principles in determining whether fair market value will be paid, and has made such determination acting in good faith.

The foregoing supplements the discussion under “Employee Retirement Income Security Act” in the prospectus dated June 29, 2012.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of the notes for general corporate purposes, which are currently expected to include the repayment of debt.

PLAN OF DISTRIBUTION

We estimate that the total offering expenses, excluding discounts or commissions paid to the Agent, will be approximately \$50,000.

We expect that delivery of the notes will be made against payment on September 18, 2013, which is 7 business days after the Trade Date. Under Rule 15c6-1 of the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle on the third business day following the date of any contract for sale (such settlement cycle referred to as “T+3”), unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on any date prior to three business days before delivery will be required, by virtue of the fact that the notes will settle in more than T+3, to specify an alternative settlement cycle at the time of the trade to prevent a failed settlement and should consult their own advisers in connection with that election.
