[Table of Contents](#)**PROSPECTUS SUMMARY**

The following summary is qualified in its entirety by the more detailed information included elsewhere or incorporated by reference into this prospectus supplement or the accompanying prospectus. Because this is a summary, it may not contain all the information that is important to you. You should read this entire prospectus supplement and the accompanying prospectus, including the information incorporated by reference herein and therein, before making an investment decision. When used in this prospectus supplement, the terms “BlackRock,” “Company,” “we,” “our” and “us” refer to BlackRock, Inc. and its subsidiaries, unless otherwise specified.

BLACKROCK**General**

BlackRock is the world’s largest publicly-traded investment management firm with employees in 27 countries that serve clients in over 100 countries across the globe. We provide a broad range of investment and risk management services and had \$3.684 trillion and \$3.513 trillion of assets under management (“AUM”) as of March 31, 2012 and December 31, 2011, respectively. Our clients include taxable, tax-exempt and official institutions (including pension funds, endowments, insurance companies, corporations, financial institutions, central banks and sovereign wealth funds) as well as retail investors and high net worth individuals. The Company is highly regulated, serves its clients as a fiduciary and derives all of its revenues from client business. We do not engage in proprietary trading or other activities that could conflict with the interests of our clients.

The December 2009 combination of BlackRock and Barclays Global Investors (“BGI”) created a firm with unsurpassed breadth of investment expertise and risk management capabilities across the global capital markets. Our unique platform enables us to offer active (alpha) investments with index (beta) products and risk management to develop tailored solutions for clients. Our product range includes single- and multi-asset class portfolios investing in equities, fixed income, alternatives and/or money market instruments. We offer our products directly and through intermediaries in a variety of vehicles, including open-end and closed-end mutual funds, *iShares*® exchange-traded funds (“ETFs”) and other exchange-traded products (together with ETFs, “ETPs”), collective investment funds and separate accounts. We also offer our *BlackRock Solutions*® (“BRS”) investment systems, risk management and advisory services to institutional investors.

Clients

BlackRock serves institutional and retail and high net worth (“HNW”) investors in more than 100 countries through the efforts of professionals located in 27 countries. We strive to leverage our global investment expertise and scale, together with our understanding of local requirements and business customs, to most effectively serve our clients. Portfolios may be invested in local, regional or global capital markets. Products may be structured to address location-specific issues, such as regulations, taxation, operational infrastructure and market liquidity, and client-specific issues, such as investment policy, liability structure and ratings.

BlackRock’s matrix organizational structure facilitates strong teamwork globally across both functions and regions in order to enhance our ability to leverage best practices to serve our clients and continue to develop our talent. The global functions—Portfolio Management, BRS, Global Client Groups and Corporate & Business Operations—are key to driving coordination and consistency and to further enhancing the benefits of scale. The regions—Americas, Europe, the Middle East and Africa (“EMEA”) and Asia-Pacific—support local clients, employees, regulators and business strategy. We also serve both institutional and retail and high net worth investors who acquire *iShares* on exchanges worldwide (see *iShares* section below).

[Table of Contents](#)

Institutional

BlackRock serves a diverse mix of institutional investors worldwide through separate accounts and publicly registered and private investment vehicles. Clients include tax-exempt institutions, such as defined benefit and defined contribution pension plans; charities, foundations and endowments; official institutions, such as central banks, sovereign wealth funds, supranationals and other government entities; and taxable institutions, including insurance companies, financial institutions, corporations and third-party fund sponsors. We also serve institutional investors who acquire *iShares* on exchanges worldwide.

Institutional Active

BlackRock offers two types of active strategies: those that rely primarily on fundamental research and those that utilize primarily quantitative models to drive portfolio construction; the goal of both strategies is to generate alpha for BlackRock clients. Active fundamental portfolios offer medium or higher levels of tracking error and feature a high degree of manager discretion over investment strategies. Active quantitative portfolios employ a model-driven strategy that is created by BlackRock and require a lower level of manager discretion.

BlackRock's institutional active AUM totaled \$831.3 billion, or 26% of long-term AUM, at December 31, 2011 and was diversified by product, with 60% in fixed income, 16% in multi-asset class, 15% in equity and 9% in alternatives. Americas clients accounted for 56% of institutional active AUM, with an additional 32% and 12% of AUM managed for clients in EMEA and Asia-Pacific, respectively. In 2011, we earned \$1.8 billion of base fees from institutional active strategies, representing 24% of long-term base fees.

Institutional Index

BlackRock utilizes an index or passive approach for both equity portfolios and fixed income products. Index and enhanced index equity products are most heavily constrained, and apply rigorous processes in order to replicate the performance of the related index, while minimizing the effect of trading and other costs on investment returns. Index and enhanced index fixed income products are designed to replicate the performance of the related market index. A rigorous investment and portfolio construction process is used to ensure minimal tracking error, while seeking to limit transaction costs.

At December 31, 2011, BlackRock managed \$1.350 trillion of institutional index AUM, with 64% in equity, 35% in fixed income and the remaining 1% split between multi-asset class and alternatives products. In 2011, we earned \$0.7 billion of base fees from institutional index offerings. Institutional index AUM is diversified globally, with 47%, 37% and 16% managed for clients in the Americas, EMEA and Asia-Pacific, respectively. While institutional index comprises 43% of long-term AUM, it represents only 10% of long-term base fees.

Retail/HNW

BlackRock serves retail and high net worth investors globally through separate accounts, open-end and closed-end funds, unit trusts and private investment funds. Retail and high net worth investors are served principally through intermediaries, including broker-dealers, banks, trust companies, insurance companies and independent financial advisors. Clients invest primarily in mutual funds, with the remainder invested in private investment funds and separately managed accounts. The vast majority of long-term AUM is invested in active products, although this is partially inflated by the fact that *iShares* is shown as a separate client type, since we do not identify all of the underlying investors. The client base is also diversified geographically, with our regional footprints reflecting strong relationships with intermediaries and an established ability to deliver our global investment expertise in funds and other products tailored to local regulations and requirements.

Table of Contents

At December 31, 2011, long-term assets managed for retail and high net worth investors totaled \$363.4 billion and represented 12% of long-term AUM, down 3%, or \$10.6 billion, versus year-end 2010. The product mix is well diversified, with 43% of long-term AUM in equities, 32% in fixed income, 23% in multi-asset class and 2% in alternatives. In 2011, we earned \$2.7 billion of base fees on retail and high net worth AUM, comprising 36% of long-term base fees. The client base is also diversified geographically, with 73% of long-term AUM managed for investors based in the Americas and the remaining 27% managed for international clients.

iShares

iShares is the leading ETP provider in the world and offers the most diverse product set in the industry with 504 ETPs at year-end 2011, which served the broadest client base, covering 25 countries on five continents including North America, South America, Europe, Asia and Australia. The market for ETPs continues to grow globally, with investor preference driven to varying degrees by performance (as measured by tracking error, which is the difference between net returns on the ETP and the corresponding index), liquidity (bid-ask spread), tax-efficiency, transparency and client service.

iShares also introduced 45 new ETPs during 2011, maintaining our dual commitment to innovation and responsible product structuring. Our broad product range offers investors a precise, transparent and low-cost way to tap market returns and gain access to a full range of asset classes and global markets that have been difficult or expensive for many investors to access, as well as the liquidity required to make adjustments to their exposures quickly and cost-efficiently. We continue to look for opportunities to further diversify product offerings in key strategic focus areas.

At year-end 2011, *iShares* AUM of \$593.4 billion represented 19% of long-term AUM and included \$419.7 billion, or 71%, in equity offerings, \$153.8 billion, or 26%, in fixed income ETPs and \$19.9 billion, or 3%, in multi-asset class and alternative investments. *iShares* offerings were diversified geographically with 75% of AUM listed in the United States and the remaining 25% listed internationally. In 2011, *iShares* generated \$2.3 billion of revenue, or 30%, of long-term base fees.

Cash Management and Securities Lending

BlackRock offers a wide variety of cash management mandates to clients worldwide. We believe our leadership position reflects both a conservative investment philosophy and an array of choices available to investors. Products include money market funds and customized separate accounts in both taxable and tax-exempt strategies in multiple currencies, including U.S. dollar, Euro or British pound. The acquisition of BGI significantly enhanced our growing non-U.S. cash management platform. We manage portfolios for individuals, corporate and municipal treasurers, and bank, hospital and university operating funds. BlackRock is committed to a conservative investment style that emphasizes quality, liquidity, and superior client service through market cycles. Our disciplined approach is closely tied to rigorous credit risk management. Cash management AUM decreased 9% to \$254.7 billion at year-end 2011, generating \$0.4 billion of base fees.

The cash management team also invests the cash we receive as collateral for securities on loan in other portfolios. Securities lending, which is offered as a potential source of incremental returns on long-term portfolios, is managed by a dedicated team, supported by quantitative analysis, proprietary technology and disciplined risk management. Fees for securities lending can be structured as a share of earnings and/or a percentage of the value of the cash collateral. The value of the securities on loan and the revenue earned is captured in the corresponding asset class being managed. The value of the collateral is not included in AUM.

BlackRock Solutions and Advisory

BlackRock provides a variety of risk management, investment analytic and investment system and advisory services under the *BlackRock Solutions* brand name to financial institutions, pension funds, asset

managers, foundations, consultants, mutual fund sponsors, real estate investment trusts and government agencies worldwide. The BRS proprietary technology platform, *Aladdin*®, serves as the investment system for BlackRock and a growing number of sophisticated institutional investors. BRS also uses *Aladdin* to support risk management, advisory services, including long-term liquidation advisory mandates (reported as advisory AUM) and a wide range of global clients, such as valuation of illiquid assets, portfolio restructuring, workouts and dispositions. BRS further offers comprehensive risk reporting capabilities via the Green Package® and risk management advisory services, interactive fixed income analytics through our web-based calculator, AnSer®, middle and back office outsourcing services and investment accounting.

Clients have retained BRS for a variety of financial markets advisory engagements, such as valuation and risk assessment of illiquid assets, portfolio restructuring, workouts and dispositions of distressed assets and financial and balance sheet strategies. In the face of increasing regulatory scrutiny, clients have increased their focus on risk management, and demand for BRS services continues to be robust. Growth has been well balanced across *Aladdin*, risk management and financial markets advisory services.

Fees for BRS and advisory services may be structured as a fixed rate, percentages of various attributes of advisory AUM or value of positions on the *Aladdin* platform, performance fees based on contractual thresholds, or a combination of the foregoing. At year-end, BRS served 166 clients, including banks, insurance companies, official institutions, pension funds, asset managers and other institutional investors across North America, Europe, Asia and Australia, generating \$0.5 billion of revenues.

Transition Management Services

We also offer transition management services, involving the temporary oversight of a client's assets as they transition from one manager to another or from one strategy to another. We provide a comprehensive service that includes project management and implementation based on achieving best execution consistent with the client's risk management tolerances. We use state-of-the-art tools and work closely with BlackRock's global trading research team to manage four dimensions of risk throughout the transition: exposure, execution, process and operational risk. The average transition assignment is executed within three weeks, although the duration can be longer or shorter depending on the size, complexity and liquidity of the related assets. These portfolios are not included in AUM unless BlackRock has been retained to manage the assets after the transition phase.

[Table of Contents](#)**Recent Developments****Barclays Offering**

On May 21, 2012, we commenced an underwritten public secondary offering of shares of our common stock, par value \$0.01 per share, by Barclays (the “Barclays Offering”). Barclays also granted the underwriters a 30-day option to purchase additional shares of our common stock. We will not receive any of the proceeds from the sale of shares of our common stock. The Barclays Offering includes shares of our common stock issuable upon conversion of our Series B Convertible Participating Preferred Stock, par value \$0.01 per share (the “Series B Preferred Stock”). Barclays Capital Inc., Morgan Stanley & Co. LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated are serving as joint book-running managers for the Barclays Offering. We believe that Barclays intends, subject to exercise in full of the underwriters’ option to purchase additional shares, to sell its entire holdings via the Barclays Offering and the share repurchase described below.

Share Repurchase

On May 21, 2012, we entered into a stock repurchase agreement with Barclays pursuant to which we have agreed to purchase \$1 billion of common stock and Series B Preferred Stock from Barclays and another subsidiary of Barclays at the price at which the shares of common stock are sold to the public in the Barclays Offering, less the underwriting discount (the “Repurchase”), subject to the condition that the number of shares sold in the Barclays Offering, without giving effect to the exercise by the underwriters of their option to purchase additional shares, be not less than 90% of Barclays’ total ownership of BlackRock capital stock after subtracting the \$1 billion of common stock and Series B Preferred Stock to be repurchased by BlackRock (the “Minimum Condition”). Closing of the Repurchase is conditioned on, and is expected to occur immediately after, the completion of the Barclays Offering and is subject to other customary closing conditions. Any shares bought in the Repurchase will thereafter be cancelled. We intend to use a portion of the net proceeds from this offering to fund the Repurchase. If immediately following the Barclays Offering and the Repurchase Barclays and its affiliates collectively beneficially own more than one percent of our outstanding common stock, we have agreed to issue an equal number of shares of our Series B Preferred Stock to such parties in exchange for such shares of our common stock in excess of one percent of our outstanding common stock. The Repurchase is in addition to our existing share repurchase program.

Pursuant to our stockholder agreement with Barclays and two of its subsidiaries (together, the “Barclays Parties”), the Barclays Parties currently have the right to designate two individuals to our board of directors. Immediately upon completion of the Barclays Offering and the Repurchase, and assuming that the underwriters exercise their option to purchase additional shares in full with settlement of the option occurring simultaneously with the closing for the Barclays Offering, we do not expect Barclays and its affiliates to own any shares of our capital stock. Once the Barclays Parties and their affiliates have beneficially owned less than five percent of our capital stock for a period of 90 consecutive days, the Barclays Parties will be required to promptly cause their remaining designee to our board of directors, currently Robert E. Diamond, Jr., to resign and will no longer have the right to designate individuals to our board of directors.

Termination Agreement and Acknowledgement Relating to Barclays Stockholder Agreement and Barclays Registration Rights Agreement

In connection with the Barclays Offering and the Repurchase, BlackRock and the Barclays Parties have entered into a termination agreement and acknowledgement, pursuant to which, if the Barclays Parties and their affiliates cease to own five percent or more of our outstanding capital stock as a result of the Barclays Offering

Table of Contents

and/or the Repurchase, (1) the stockholder agreement that was entered into among BlackRock and the Barclays Parties will terminate and (2) the Barclays Parties will acknowledge that they no longer have registration rights with respect to our capital stock.

For more information regarding our stockholder agreement and registration rights agreement with the Barclays Parties, see “Certain Relationships and Related Transactions—Stockholder Agreements with Merrill Lynch, PNC and Barclays Bank” and “Certain Relationships and Related Transactions—Stockholder Registration Rights Agreements with Merrill Lynch, PNC and Barclays,” respectively, in our definitive Proxy Statement on Schedule 14A filed April 11, 2012, which is incorporated by reference into this prospectus supplement.

PNC Exchange

Following the closing of the Barclays Offering, the Repurchase and any exchange by Barclays of shares of our common stock for our Series B Preferred Stock, BlackRock will issue common stock to PNC Bancorp, Inc. (“PNC Bancorp”), a wholly owned subsidiary of PNC, in exchange for an equal number of shares of our Series B Preferred Stock (the “PNC Exchange”) in an amount equal to the lesser of 2 million shares and such number of shares that will result in PNC owning 23.75% of our outstanding common stock. Assuming Barclays disposes of all of the shares of our capital stock beneficially owned by it as a result of the Barclays Offering and the Repurchase, following such exchange PNC will own approximately 21.0% of our outstanding common stock. Unless the context otherwise requires, the number of shares of our common stock and our Series B Preferred Stock to be outstanding after the Barclays Offering and the Repurchase reflected elsewhere in this prospectus supplement also gives effect to the exchange by PNC of 2 million of PNC’s shares of our Series B Preferred Stock.

Our principal office is located at 55 East 52nd St., New York, N.Y. 10055. Our telephone number is (212) 810-5300.

Any additional debt securities having the same terms as a series of notes will constitute a single series of debt securities under the senior indenture with previously issued notes of that series.</p>
Use of Proceeds	<p>We estimate the net proceeds from this offering will be approximately \$1.49 billion after deducting the underwriting discount and before deducting other estimated offering expenses payable by us. We intend to use the net proceeds from this offering to fund the Repurchase and for general corporate purposes, which may include repayments of our outstanding indebtedness. See “Use of Proceeds” in this prospectus supplement.</p>
Denominations and Form	<p>The notes will be book entry only and registered in the name of a nominee of The Depository Trust Company (“DTC”). Investors may elect to hold interests in the notes through Clearstream Banking, <i>société anonyme</i>, or Euroclear Bank S.A./N.V., as operator of the Euroclear System, if they are participants in these systems, or indirectly through organizations that are participants in these systems. The notes will be issued only in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.</p>
Risk Factors	<p>Investing in the notes of any series involves substantial risks. See “Risk Factors” beginning on page S-9 of this prospectus supplement and the sections entitled “Risk Factors” beginning on page 27 of our most recent Annual Report on Form 10-K for the year ended December 31, 2011 and beginning on page 80 of our most recent Quarterly Report on Form 10-Q for the quarter ended March 31, 2012, each of which is incorporated by reference herein, for a description of certain risks that you should consider before investing in the notes of any series.</p>
Conflicts of Interest	<p>Certain of our underwriters and their affiliates own our capital stock. Specifically, as of March 31, 2012, Barclays and its affiliates, including Barclays Capital Inc., owned approximately 3.0 million shares, or 2.2%, of our voting common stock and approximately 32.2 million shares of our Series B Preferred Stock, or 80.8% of our outstanding preferred equity, representing in the aggregate a 19.6% economic interest in BlackRock.</p> <p>Under Rule 5121 of the Financial Industry Regulatory Authority, Inc. (“FINRA”), we may be considered to be under common control with Barclays Capital Inc. Because of this relationship, the offering will be conducted in accordance with FINRA Rule 5121. In accordance with that rule, no “qualified independent underwriter” is required because the notes are investment grade rated, as that term is defined in the rule. To comply with FINRA Rule 5121, Barclays Capital Inc. will not confirm sales to any account over which Barclays Capital Inc. exercises discretionary authority without the specific written approval of the accountholder.</p>

RISK FACTORS

Any investment in our notes involves a high degree of risk. You should carefully consider the risks described below and all of the information contained in this prospectus supplement and the accompanying prospectus before deciding whether to purchase our notes. In addition, you should carefully consider, among other things, the matters discussed under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2011, our Quarterly Report on Form 10-Q for the quarter ended March 31, 2012, and other documents that we subsequently file with the SEC, all of which are incorporated by reference into this prospectus supplement. The risks and uncertainties described below, in our Annual Report on Form 10-K for the year ended December 31, 2011 and in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2012 are not the only risks and uncertainties we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any such risks actually occur, our business, financial condition and results of operations would suffer.

Risks Related to the Offering

Our indebtedness could limit cash flow available for our operations, could adversely affect our ability to service debt or obtain additional financing if necessary, or reduce our flexibility in planning for, or reacting to, changes in the market.

As of March 31, 2012, we had outstanding \$4.7 billion of unsecured long-term indebtedness and \$100 million of short-term indebtedness. Our indebtedness could limit our flexibility in planning for, or reacting to, changes in the market in which we compete. Although we believe we have adequate sources of liquidity to meet our anticipated requirements for working capital, debt service, capital expenditures and cash dividend payments, there can be no assurance that our cash flow from operations will be sufficient to service our debt, which may require us to borrow additional funds for that purpose, restructure or otherwise refinance our debt.

The notes are obligations exclusively of BlackRock, Inc. and not of our subsidiaries and payment to holders of the notes will be structurally subordinated to the claims of our subsidiaries’ creditors.

The notes are not guaranteed by any of our subsidiaries. As a result, liabilities, including indebtedness or guarantees of indebtedness, of each of our subsidiaries will rank effectively senior to the indebtedness represented by the notes, to the extent of such subsidiary’s assets. In addition, the indenture governing the notes does not restrict the future incurrence of liabilities or issuances of preferred stock, including unsecured indebtedness or guarantees of indebtedness, by our subsidiaries.

The notes will be effectively junior to secured indebtedness that we may issue in the future.

The notes are unsecured. Holders of any secured debt that we may issue in the future may foreclose on the assets securing such debt, reducing the cash flow from the foreclosed property available for payment of unsecured debt, including the notes. Holders of our secured debt also would have priority over unsecured creditors in the event of our bankruptcy, liquidation or similar proceeding. As a result, the notes will be effectively junior to any secured debt that we may issue in the future.

There is no public market for the notes, which could limit their market price or your ability to sell them.

We can give no assurances concerning the liquidity of any market that may develop for the notes offered hereby, the ability of any investor to sell the notes, or the price at which investors would be able to sell them. If a market for the notes does not develop, investors may be unable to resell the notes for an extended period of time, if at all. If a market for the notes does develop, it may not continue or it may not be sufficiently liquid to allow holders to resell any of the notes. Consequently, investors may not be able to liquidate their investment readily, and lenders may not readily accept the notes as collateral for loans.

Table of Contents**DESCRIPTION OF THE NOTES**

Set forth below is a description of the specific terms of the notes. This description supplements, and should be read together with, the description of the general terms and provisions of the debt securities set forth in the accompanying prospectus under the caption “Description of Debt Securities.” In addition to reading the description of the notes in this prospectus supplement and in the accompanying prospectus, you should also read the senior indenture under which the notes are to be issued. If the description of the notes in this prospectus supplement differs from the description of debt securities in the accompanying prospectus, the description of the notes in this prospectus supplement supersedes the description of debt securities in the accompanying prospectus. When used in this section, the terms “BlackRock,” “we,” “our” and “us” refer solely to BlackRock, Inc. and not to its subsidiaries.

General

The 2015 Notes will initially be limited to \$750,000,000 in aggregate principal amount and the 2022 Notes will initially be limited to \$750,000,000 in aggregate principal amount. The notes will be issued in fully registered form only, in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The 2015 Notes will mature on June 1, 2015 and the 2022 Notes will mature on June 1, 2022.

The 2015 Notes and 2022 Notes will be issued as two separate series of senior debt securities under the senior indenture referred to in the accompanying prospectus. The senior indenture does not limit the amount of other debt that we may incur. We may, from time to time, without the consent of the holders of the notes of any series, issue other debt securities under the senior indenture in addition to the notes. We may also, from time to time, without the consent of the holders of the notes of a series, issue additional debt securities having the same ranking and the same interest rate, maturity and other terms (except for the issue date, public offering price and, in some cases, the first interest payment date) as the notes of that series. Any additional debt securities, together with the previously issued notes of a series with the same terms, will constitute a single series of debt securities under the senior indenture.

The notes will bear interest from May 25, 2012, at the annual rate of 1.375% in the case of the 2015 Notes and 3.375% in the case of the 2022 Notes. Interest on the notes will be payable semi-annually on June 1 and December 1 of each year, commencing December 1, 2012 to the persons in whose names the notes are registered at the close of business on the immediately preceding May 15 and November 15, respectively, subject to certain exceptions.

The notes will be unsecured and unsubordinated obligations of BlackRock and will rank equal in right of payment to each other and to all our other unsubordinated indebtedness.

The notes do not provide for any sinking fund.

The provisions of the senior indenture described under “Description of Debt Securities—Discharge, Defeasance and Covenant Defeasance” in the accompanying prospectus apply to the notes.

Optional Redemption of the Notes

Each series of notes will be redeemable in whole or in part, at our option at any time, at a redemption price equal to the greater of (i) the principal amount of the notes to be redeemed and (ii) the sum of the present values of the remaining scheduled payments of principal and interest thereon (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 15 basis points in the case of the 2015 Notes and 25 basis points in the case of the 2022 Notes, plus in each case accrued and unpaid interest thereon to the date of redemption.

“Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

Table of Contents

“Comparable Treasury Issue” means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such notes.

“Independent Investment Banker” means one of the Reference Treasury Dealers appointed by the trustee after consultation with us.

“Comparable Treasury Price” means, with respect to any redemption date, (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (2) if the trustee obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by such Reference Treasury Dealer at 3:30 p.m. New York time on the third business day preceding such redemption date.

“Reference Treasury Dealer” means (i) Citigroup Global Markets Inc., J.P. Morgan Securities LLC and a Primary Treasury Dealer (as defined herein) selected by Wells Fargo Securities, LLC or any of their affiliates that are primary U.S. Government securities dealers, and their respective successors; provided that if the foregoing or any of their affiliates shall cease to be a primary U.S. Government securities dealer in The City of New York (a “Primary Treasury Dealer”), we shall substitute therefor another Primary Treasury Dealer; and (ii) one other Primary Treasury Dealer selected by us.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of notes of the series to be redeemed.

Unless we default in payment of the redemption price, on and after the redemption date interest will cease to accrue on the notes or portions thereof called for redemption.

Ranking

The notes are our obligations exclusively, and are not obligations of our subsidiaries. We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our cash flow and our ability to service our debt, including the notes, depend upon the earnings of our subsidiaries. In addition, we depend on the distribution of earnings, loans or other payments by our subsidiaries to us.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes or to provide us with funds for our payment obligations. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us could be subject to statutory or contractual restrictions. Payments due to us by our subsidiaries will also be contingent upon our subsidiaries’ earnings and business considerations.

Our right to receive any assets of any of our subsidiaries, as an equity holder of such subsidiaries, upon their liquidation or reorganization, and therefore the right of the holders of the notes to participate in those assets, would be structurally subordinated to the claims of that subsidiary’s creditors, including trade creditors. The notes do not restrict the ability of our subsidiaries to incur additional indebtedness. In addition, the notes are unsecured. Thus, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us.

Book-Entry System; Delivery and Form

The notes will be issued in the form of one or more fully registered global securities which will be deposited with, or on behalf of, The Depository Trust Company, New York, New York, which we refer to as DTC, and registered in the name of Cede & Co., DTC's nominee. We will not issue notes in certificated form. Beneficial interests in the global securities will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may elect to hold interests in the global securities through either DTC in the United States, or Clearstream Banking, *société anonyme*, or Euroclear Bank S.A./N.V., as operator of the Euroclear System in Europe, referred to as Clearstream and Euroclear, if they are participants of those systems, or, indirectly, through organizations that are participants in those systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream's and Euroclear's names on the books of their respective depositories, which in turn will hold such interests in customers' securities accounts in the depositories' names on the books of DTC. Beneficial interests in the global securities will be held in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Except as set forth below, the global securities may be transferred, in whole but not in part, only to another nominee of DTC or to a successor to DTC or its nominee.

DTC, the world's largest depository, is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). DTC holds and provides asset servicing for issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments that DTC's participants, which we refer to as direct participants, deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between direct participants' accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to the DTC system also is available to others, such as U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. We refer to those entities as indirect participants.

Purchases of notes under the DTC system must be made by or through direct participants, who receive a credit for the notes on DTC's records. The ownership interest of each actual purchaser of each note, who we refer to as a beneficial owner, is in turn recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase. Beneficial owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through whom the beneficial owner entered into the transaction. Transfers of ownership interests in the notes will be accomplished by entries made on the books of direct and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the notes, except in the event that use of the book entry system for the notes is discontinued.

To facilitate subsequent transfers, all notes deposited by direct participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of notes with DTC and their registration in the name of Cede & Co. or another DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the notes. DTC's records reflect only the identity of the direct participants to whose accounts the notes are credited, which may or may not be the beneficial owners. The direct and indirect participants remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Table of Contents

Redemption notices will be sent to DTC. If less than all of the notes of a series are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in the notes to be redeemed.

Neither DTC, Cede & Co. nor any other DTC nominee will consent or vote with respect to the notes unless authorized by a direct participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts notes are credited on the record date.

Redemption proceeds, distributions and interest payments on the notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detail information from us or the exchange agent on the payable date in accordance with their respective holdings shown on DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of such participant and not of DTC or its nominee, us, the trustee or the exchange agent, subject to any statutory or regulatory requirements in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC, is the responsibility of us or the exchange agent. Disbursement of such payments to direct participants will be the responsibility of DTC, and disbursement of such payments to the beneficial owners will be the responsibility of direct and indirect participants.

DTC may discontinue providing its services as depository with respect to the notes of a series at any time by giving reasonable notice to us or the exchange agent. Under such circumstances, in the event that a successor depository is not obtained, certificates representing the affected notes are required to be printed and delivered. In addition, we may decide to discontinue use of the system of book-entry transfers through DTC or a successor securities depository with respect to the notes of a series. In that event, certificates representing the notes of the affected series will be printed and delivered. In the event that individual certificates are issued, holders of the notes will be able to receive payments, including principal and interest on the notes, and effect transfer of the notes at the offices of our paying and transfer agent.

Similar to DTC, Euroclear and Clearstream hold securities for participating organizations. They also facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in the accounts of such participants. Euroclear and Clearstream provide various services to their participants, including the safekeeping, administration, clearance, settlement, lending and borrowing of internationally traded securities. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions such as underwriters, securities brokers and dealers, banks, trust companies and certain other organizations. Indirect access to Euroclear and Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Euroclear and Clearstream participant, either directly or indirectly.

Distributions with respect to notes held beneficially through Euroclear or Clearstream will be credited to the cash accounts of participants in Euroclear or Clearstream, as the case may be, in accordance with their respective procedures, to the extent received by the common depository for Euroclear or Clearstream.

The information in this section concerning DTC, Euroclear and Clearstream have been obtained from sources that we believe to be reliable, but neither we nor the trustee take any responsibility for the accuracy of the information.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between participants will occur in the ordinary way in accordance with DTC's rules and will be settled in

immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream participants and Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional Eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream or Euroclear participants, on the other, will be effected within DTC in accordance with DTC's rules on behalf of the relevant European international clearing system by its U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the participant in such system in accordance with its rules and procedures and within its established deadlines. The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream participants and Euroclear participants may not deliver instructions directly to their respective U.S. depositories. Because of time-zone differences, credits of notes received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits, or any transactions in the notes settled during such processing, will be reported to the relevant Euroclear participants or Clearstream participants on that business day. Cash received in Clearstream or Euroclear as a result of sales of notes by or through a Clearstream participant or a Euroclear participant to a DTC participant will be received with value on the business day of settlement in DTC but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following DTC settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of securities among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and they may discontinue the procedures at any time.

Table of Contents**CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS**

The following is a discussion of certain material U.S. federal income tax consequences of the purchase, ownership and disposition of the notes by an initial holder of the notes that is a non-U.S. holder (as defined below) that acquires the notes pursuant to this offering at the initial sale price and holds the notes as capital assets for U.S. federal income tax purposes. This discussion is based upon the Internal Revenue Code of 1986, as amended (the “Code”), the Treasury regulations promulgated thereunder (the “Treasury Regulations”), judicial decisions and current administrative rulings and practice, all as in effect and available as of the date hereof and all of which are subject to change, possibly with retroactive effect. This discussion does not address all aspects of U.S. federal income taxation that may be applicable to holders in light of their particular circumstances, or to holders subject to special treatment under U.S. federal income tax law, such as brokers, banks, financial institutions, insurance companies, tax-exempt entities or qualified retirement plans, entities that are treated as partnerships for U.S. federal income tax purposes, dealers in securities or currencies, certain U.S. expatriates, persons deemed to sell the notes under the constructive sale provisions of the Code and persons that hold the notes as part of a straddle, hedge, conversion transaction or other integrated transaction. Furthermore, this discussion does not address any other U.S. federal tax consequences (e.g., estate or gift tax) or any state, local or foreign tax laws. This discussion is not intended to constitute a complete analysis of all tax consequences of the purchase, ownership and disposition of the notes. Holders are urged to consult their tax advisers regarding the U.S. federal, state, local and foreign income and other tax consequences to them in their particular circumstances.

For purposes of this discussion, the term “non-U.S. holder” means a beneficial owner of a note that, for U.S. federal income tax purposes, is not (i) a citizen or individual resident of the United States; (ii) a corporation or other entity treated as a corporation for U.S. federal income tax purposes that is created or organized under the laws of the United States, any state or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source; (iv) a trust if (A) a court within the United States is able to exercise primary control over its administration and one or more United States persons, within the meaning of Section 7701(a)(30) of the Code, have the authority to control all substantial decisions of such trust, or (B) the trust has made an election under the applicable Treasury Regulations to be treated as a United States person; or (v) a partnership or other entity treated as a partnership for U.S. federal income tax purposes. If a partnership (including any entity or arrangement treated as a partnership for U.S. federal income tax purposes) beneficially owns the notes, the tax treatment of a partner in the partnership will depend upon the status of the partner and the activities of the partnership. Partners in a partnership that beneficially owns the notes should consult their tax advisers as to the particular U.S. federal income tax consequences applicable to them.

Interest

A non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on payments of interest on the notes provided that (i) such interest is not effectively connected with the conduct of a trade or business within the United States by the non-U.S. holder (or, if certain tax treaties apply, if such interest is not attributable to a permanent establishment or fixed base within the United States by the non-U.S. holder) and (ii) the non-U.S. holder (A) does not actually or constructively own 10% or more of the total combined voting power of all classes of our voting stock, (B) is not a controlled foreign corporation related to us directly or constructively through stock ownership, and (C) satisfies certain certification requirements. Such certification requirements will be met if (x) the non-U.S. holder provides its name and address, and certifies on an Internal Revenue Service (“IRS”) Form W-8BEN (or appropriate substitute form), under penalties of perjury, that it is not a United States person or (y) a securities clearing organization or one of certain other financial institutions holding the note on behalf of the non-U.S. holder certifies on IRS Form W-8IMY, under penalties of perjury, that the certification referred to in clause (x) has been received by it and furnishes us or our paying agent with a copy thereof. In addition, we or our paying agent must not have actual knowledge or reason to know that the beneficial owner of the notes is a United States person.

Table of Contents

If interest on the notes is not effectively connected with the conduct of a trade or business in the United States by a non-U.S. holder but such non-U.S. holder cannot satisfy the other requirements outlined in the preceding paragraph, interest on the notes generally will be subject to U.S. federal withholding tax (currently imposed at a 30% rate, or a lower applicable treaty rate).

If interest on the notes is effectively connected with the conduct of a trade or business within the United States by a non-U.S. holder and, if certain tax treaties apply, is attributable to a permanent establishment or fixed base within the United States, then the non-U.S. holder generally will be subject to U.S. federal income tax on such interest in the same manner as if such holder were a United States person and, in the case of a non-U.S. holder that is a foreign corporation, may also be subject to the branch profits tax (currently imposed at a rate of 30%, or a lower applicable treaty rate). Any such interest will not also be subject to U.S. federal withholding tax, however, if the non-U.S. holder delivers to us a properly executed IRS Form W-8ECI (or appropriate substitute form) in order to claim an exemption from U.S. federal withholding tax.

Disposition of the Notes

A non-U.S. holder generally will not be subject to U.S. federal income tax (or any withholding thereof) with respect to gain, if any, recognized on the disposition of the notes unless (i) the gain is effectively connected with the conduct of a trade or business within the United States by the non-U.S. holder and, if certain tax treaties apply, is attributable to a permanent establishment or fixed base within the United States, or (ii) in the case of a non-U.S. holder that is a nonresident alien individual, such holder is present in the United States for 183 or more days in the taxable year and certain other conditions are satisfied.

In the case of (i) above, any gain or loss recognized by the non-U.S. holder on the disposition of the notes generally will be subject to U.S. federal income tax in the same manner as if the non-U.S. holder were a United States person and, in the case of a non-U.S. holder that is a foreign corporation, may also be subject to the branch profits tax discussed above. In the case of (ii) above, the non-U.S. holder generally will be subject to a 30% tax on any capital gain recognized on the disposition of the notes (after being offset by certain U.S. source capital losses). These holders are urged to consult their tax advisers with respect to the U.S. tax consequences of the ownership and disposition of the notes.

Information Reporting and Backup Withholding

A non-U.S. holder generally will be required to comply with certain certification procedures to establish that such holder is not a United States person in order to avoid backup withholding with respect to payments on, or the proceeds of a disposition of, the notes. In addition, we must report annually to the IRS and to each non-U.S. holder the amount of any interest paid to such non-U.S. holder regardless of whether any tax was actually withheld. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules will be allowed as a refund or credit against a non-U.S. holder's U.S. federal income tax liability, provided the required information is correctly and timely provided to the IRS.

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the notes sold under the underwriting agreement if any of these notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriter may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”), or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer’s certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the notes to the public at the public offering price set forth on the cover page of this prospectus supplement and may offer the notes to certain dealers at such price less a concession not in excess of 0.15% of the principal amount of the 2015 Notes and 0.30% of the principal amount of the 2022 Notes. The underwriters may allow, and the dealers

may reallocate, a discount on the notes to other dealers not in excess of 0.09% the principal amount of the 2015 Notes and 0.18% of the principal amount of the 2022 Notes. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The following table shows the public offering price, underwriting discount and proceeds before expenses to us.

	Per 2015 Note	Per 2022 Note	Total
Public Offering Price	99.885%	99.469%	\$1,495,155,000
Underwriting Discount	0.250%	0.450%	\$ 5,250,000
Proceeds, before expenses, to BlackRock	99.635%	99.019%	\$1,489,905,000

The expenses of the offering, not including the underwriting discount, are estimated at \$1 million and are payable by us.

Price Stabilization and Penalty Bids

In connection with the offering of the notes, the underwriters may purchase and sell the notes of each series in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes of a series in excess of the principal amount of notes of that series to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market prices of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the underwriters, in covering syndicate short positions or making stabilizing purchases, repurchase notes originally sold by that syndicate member.

Any of these activities may have the effect of preventing or retarding a decline in the market prices of the notes. They may also cause the prices of the notes to be higher than the prices that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

Other Relationships

The underwriters and their affiliates have provided, and may in the future provide, investment banking, commercial lending, financial advisory and other services for us. The underwriters have received customary fees and expenses for these services. In particular, affiliates of certain of the underwriters are dealers under our commercial paper program. In addition, affiliates of certain of the underwriters are lenders under our \$3.785 billion revolving credit facility maturing in 2017. Additional information regarding our relationships with Barclays Capital Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated, which are two of the underwriters, and their affiliates is found in this prospectus supplement under “Prospectus Summary—BlackRock—Recent Developments” and in our definitive Proxy Statement on Schedule 14A filed April 11, 2012 under “Certain Relationships and Related Transactions.”

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

[Table of Contents](#)**ABOUT THIS PROSPECTUS**

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, or SEC, using a “shelf” registration process. Under this shelf process, we and/or the selling stockholders may sell any combination of the securities described in this prospectus in one or more offerings. This prospectus provides you with a general description of the securities we and/or the selling stockholders may offer. We will provide the terms of these securities in supplements to this prospectus. The prospectus supplement may also add, update, or change information contained in this prospectus. We urge you to read both this prospectus and any prospectus supplement together with additional information described under the heading “Where You Can Find More Information” on page 3.

As used in this prospectus, “BlackRock,” “the Company,” “we,” “our,” “ours,” and “us” refer to BlackRock, Inc. and its consolidated subsidiaries, and “our board of directors” refers to the board of directors of BlackRock, Inc., except where the context otherwise requires or as otherwise clearly indicated.

BLACKROCK

BlackRock is the largest publicly traded investment management firm with \$3.151 trillion of assets under management at June 30, 2010. We focus exclusively on investment management and risk management; we do not engage in proprietary trading or other activities that could conflict with the interests of our clients. Our business is global—we invest in capital markets throughout the world, we have employees in 24 countries and we serve institutional and retail investors in more than 100 countries. We offer a broad array of equity, fixed income, multi-asset class, alternative investment and cash management products, as well as our BlackRock Solutions® investment systems, risk management and advisory services. We offer our investment products directly and through intermediaries in a variety of vehicles, including open-end and closed-end mutual funds, iShares® exchange-traded funds (“ETFs”), collective investment trusts and separate accounts. Our clients include taxable, tax-exempt and official institutions, high net worth individuals and retail investors.

On December 1, 2009, BlackRock acquired Barclays Global Investors (“BGI”) from Barclays Bank PLC (“Barclays”), referred to as the “BGI Transaction,” adding substantial investment and risk management capabilities and more than 3,500 new colleagues to the combined organization. BGI has long been recognized for product innovation in indexed and scientific investing, including pioneering iShares, the industry’s leading ETF platform, sophisticated retirement solutions and liability-driven investment strategies. These strengths complement BlackRock’s active fundamental portfolio management capabilities, global mutual fund platform, customized solutions, risk management and advisory services. Together, the combined firm is strongly distinguished by its scale, breadth of capabilities and depth of intellectual capital focused on helping clients address their investment challenges and achieve their financial objectives. Upon closing of the BGI Transaction, we commenced operations as a unified firm with the integration of corporate systems largely completed and implementation of our operating platform well underway. Substantial operating and cultural integration work is expected to continue over the course of the next two years.

BlackRock is an independent, publicly traded company, with no single majority stockholder and a majority of independent directors. At June 30, 2010, Merrill Lynch & Co., Inc. (“Merrill Lynch”), a wholly-owned subsidiary of Bank of America Corporation (“Bank of America”), owned approximately 3.6% of BlackRock’s voting common stock outstanding and held approximately 33.8% of our capital stock. The PNC Financial Services Group, Inc. (“PNC”) owned approximately 34.3% of BlackRock’s voting common stock outstanding and held approximately 24.2% of our capital stock. Barclays owned approximately 4.7% of BlackRock’s voting common stock outstanding and held approximately 19.6% of our capital stock.

USE OF PROCEEDS

Unless otherwise specified in connection with a particular offering of securities, the net proceeds from the sale of the securities offered by this prospectus will be used for general corporate purposes. Unless otherwise set forth in a prospectus supplement, we will not receive any proceeds in the event that the securities are sold by a selling security holder.

RATIO OF EARNINGS TO FIXED CHARGES

The ratio of earnings to fixed charges for the six months ended June 30, 2010 and for the years 2005-2009 are included as an exhibit to BlackRock's Quarterly Report on Form 10-Q for the quarter ended June 30, 2010 and are incorporated in this prospectus by reference.

DESCRIPTION OF DEBT SECURITIES

This prospectus describes certain general terms and provisions of the debt securities. The debt securities will constitute either unsecured senior debt or unsecured subordinated debt. We will issue debt securities that will be senior debt under an indenture between us and The Bank of New York Mellon, as trustee (the "senior indenture"), dated September 17, 2007. We will issue debt securities that will be subordinated debt under an indenture between us and The Bank of New York Mellon, as trustee ("subordinated indenture" and, together with the senior indenture, the "Indentures"). This prospectus refers to the senior indenture and the subordinated indenture individually as the "indenture" and collectively as the "indentures." The term "trustee" refers to the trustee under each indenture, as appropriate.

The indentures are subject to and governed by the Trust Indenture Act of 1939, as amended. The indentures are substantially identical, except for the provisions relating to subordination, which are included only in the subordinated indenture. The following summary of the material provisions of the indentures and the debt securities is not complete and is subject to, and is qualified in its entirety by reference to, all of the provisions of the indentures, each of which has been filed as an exhibit to the registration statement of which this prospectus is a part. We urge you to read the indenture that is applicable to you because it, and not the summary below, defines your rights as a holder of debt securities. You can obtain copies of the indentures by following the directions described under the heading "Where You Can Find More Information" on page 3.

General

The senior debt securities will rank equally with all of our other unsecured and unsubordinated debt. The subordinated debt securities will be subordinated in right of payment to our "Senior Indebtedness." For additional information, see "—Subordination" below. As of June 30, 2010, approximately \$3.191 billion aggregate principal amount of debt securities were outstanding under the Senior Indenture. As of June 30, 2010, approximately \$3.706 billion aggregate principal amount of BlackRock's existing debt would have ranked senior to the subordinated debt securities and equally with the senior debt securities. As of June 30, 2010, none of BlackRock's existing debt would have been subordinated to the senior debt securities and have ranked equally with the subordinated debt securities. The indentures do not limit the amount of debt, either secured or unsecured, which may be issued by us under the indentures or otherwise. The debt securities may be issued in one or more series with the same or various maturities and may be sold at par, a premium or an original issue discount. Debt securities sold at an original issue discount may bear no interest or interest at a rate which is below market rates. Since BlackRock is a holding company, the right of BlackRock, and hence the rights of the creditors and securityholders of BlackRock, to participate in any distribution of assets of any subsidiary upon its liquidation or reorganization or otherwise is accordingly subject to prior claims of creditors of the subsidiary, except to the extent that claims of BlackRock itself as a creditor of the subsidiary may be recognized. The

Table of Contents

indentures do not prohibit us or our subsidiaries from incurring debt or agreeing to limitations on their ability to pay dividends or make other distributions to us.

Each prospectus supplement will describe the terms relating to the specific series of debt securities being offered. These terms will include some or all of the following:

- the title of debt securities and whether they are subordinated debt securities or senior debt securities;
- any limit on the aggregate principal amount of the debt securities;
- the ability to issue additional debt securities of the same series;
- the price or prices at which we will sell the debt securities;
- the maturity date or dates of the debt securities;
- the rate or rates of interest, if any, which may be fixed or variable, at which the debt securities will bear interest, or the method of determining such rate or rates, if any;

- the dates on which we will pay interest on the debt securities and the regular record date for determining who is entitled to the interest payable on any interest payment date;
- the place or places where the principal of (and premium, if any) and interest on the debt securities will be payable, where any debt securities may be surrendered for registration of transfer, exchange or conversion, as applicable, and notices and demands may be delivered to or upon us pursuant to the indenture;

- whether any of the debt securities will be issued in global form and, if so, the terms and conditions upon which global debt securities may be exchanged for certificated debt securities;
- any change in the right of the trustee or the requisite holders of debt securities to declare the principal amount thereof due and payable because of an Event of Default;
- the depositary for global or certificated debt securities;
- any special tax implications of the debt securities;
- any trustees, authenticating or paying agents, transfer agents or registrars or other agents with respect to the debt securities;
- any other terms of the debt securities not inconsistent with the provisions of the indentures, as amended or supplemented;
- to whom any interest on any debt security shall be payable, if other than the person in whose name the security is registered, on the record date for such interest, the extent to which, or the manner in which, any interest payable on a temporary global debt security will be paid if other than in the manner provided in the applicable indenture;
- if the principal of or any premium or interest on any debt securities of the series is to be payable in one or more currencies or currency units other than as stated, the currency, currencies or currency units in which it shall be paid and the periods within and terms and conditions upon which such election is to be made and the amounts payable (or the manner in which such amount shall be determined); and
- if the principal amount payable at the stated maturity of any debt security of the series will not be determinable as of any one or more dates prior to the stated maturity, the amount which shall be deemed to be the principal amount of such securities as of any such date for any purpose, including the principal amount thereof which shall be due and payable upon any maturity other than the stated maturity or which shall be deemed to be outstanding as of any date prior to the stated maturity (or, in any such case, the manner in which such amount deemed to be the principal amount shall be determined).

Unless otherwise specified in the applicable prospectus supplement, the debt securities will not be listed on any securities exchange. Unless otherwise specified in the applicable prospectus supplement, debt securities will be issued in fully-registered form without coupons.

Debt securities may be sold at a substantial discount below their stated principal amount, bearing no interest or interest at a rate which at the time of issuance is below market rates. The applicable prospectus supplement will describe the federal income tax consequences and special considerations applicable to any such debt securities. The debt securities may also be issued as indexed securities or securities denominated in foreign currencies, currency units or composite currencies, as described in more detail in the prospectus supplement

Table of Contents

relating to any of the particular debt securities. The prospectus supplement relating to specific debt securities will also describe any special considerations and certain additional tax considerations applicable to such debt securities.

Subordination

The prospectus supplement relating to any offering of subordinated debt securities will describe the specific subordination provisions. However, unless otherwise noted in the prospectus supplement, subordinated debt securities will be subordinate and junior in right of payment to any existing Senior Indebtedness.

Under the subordinated indenture, "Senior Indebtedness" means all amounts due on obligations in connection with any of the following, whether outstanding at the date of execution of the subordinated indenture or thereafter incurred or created:

- the principal of (and premium, if any) and interest due on our indebtedness for borrowed money and indebtedness evidenced by securities, debentures, bonds or other similar instruments issued by us;
- all of our capital lease obligations;
- any of our obligations as lessee under leases required to be capitalized on the balance sheet of the lessee under generally accepted accounting principles;
- all of our obligations for the reimbursement on any letter of credit, banker's acceptance, security purchase facility or similar credit transaction;
- all of our obligations in respect of interest rate swap, cap or other agreements, interest rate future or options contracts, currency swap agreements, currency future or option contracts and other similar agreements;
- all obligations of the types referred to above of other persons for the payment of which we are responsible or liable as obligor, guarantor or otherwise; and
- all obligations of the types referred to above of other persons secured by any lien on any property or asset of ours (whether or not such obligation is assumed by us).

However, Senior Indebtedness does not include:

- any indebtedness which expressly provides that such indebtedness shall not be senior in right of payment to the subordinated debt securities, or that such indebtedness shall be subordinated to any other of our indebtedness, unless such indebtedness expressly provides that such indebtedness shall be senior in right of payment to the subordinated debt securities;
- any of our indebtedness in respect of the subordinated debt securities;
- any indebtedness or liability for compensation to employees, for goods or materials purchased in the ordinary course of business or for services;
- any of our indebtedness to any subsidiary; and
- any liability for federal, state, local or other taxes owed or owing by us.

Senior Indebtedness shall continue to be Senior Indebtedness and be entitled to the benefits of the subordination provisions irrespective of any amendment, modification or waiver of any term of such Senior Indebtedness.

Unless otherwise noted in the accompanying prospectus supplement, if we default in the payment of any principal of (or premium, if any) or interest on any Senior Indebtedness when it becomes due and payable, whether at maturity or at a date fixed for prepayment or by declaration or otherwise, then, unless and until such

Table of Contents

default is cured or waived or ceases to exist, we will make no direct or indirect payment (in cash, property, securities, by set-off or otherwise) in respect of the principal of or interest on the subordinated debt securities or in respect of any redemption, retirement, purchase or other requisition of any of the subordinated debt securities.

In the event of the acceleration of the maturity of any subordinated debt securities, the holders of all senior debt securities outstanding at the time of such acceleration, subject to any security interest, will first be entitled to receive payment in full of all amounts due on the senior debt securities before the holders of the subordinated debt securities will be entitled to receive any payment of principal (and premium, if any) or interest on the subordinated debt securities.

If any of the following events occurs, we will pay in full all Senior Indebtedness before we make any payment or distribution under the subordinated debt securities, whether in cash, securities or other property, to any holder of subordinated debt securities:

- any dissolution or winding-up or liquidation or reorganization of BlackRock, Inc., whether voluntary or involuntary or in bankruptcy, insolvency or receivership;
- any general assignment by us for the benefit of creditors; or
- any other marshaling of our assets or liabilities.

In such event, any payment or distribution under the subordinated debt securities, whether in cash, securities or other property, which would otherwise (but for the subordination provisions) be payable or deliverable in respect of the subordinated debt securities, will be paid or delivered directly to the holders of Senior Indebtedness in accordance with the priorities then existing among such holders until all Senior Indebtedness has been paid in full. If any payment or distribution under the subordinated debt securities is received by the trustee of any subordinated debt securities in contravention of any of the terms of the subordinated indenture and before all the Senior Indebtedness has been paid in full, such payment or distribution or security will be received in trust for the benefit of, and paid over or delivered and transferred to, the holders of the Senior Indebtedness at the time outstanding in accordance with the priorities then existing among such holders for application to the payment of all Senior Indebtedness remaining unpaid to the extent necessary to pay all such Senior Indebtedness in full.

The subordinated indenture does not limit the issuance of additional Senior Indebtedness.

Consolidation, Merger, Sale of Assets and Other Transactions

We may not (i) merge with or into or consolidate with another corporation or sell, assign, transfer, lease or convey all or substantially all of our properties and assets to, any other corporation other than a direct or indirect wholly-owned subsidiary of ours, and (ii) no corporation may merge with or into or consolidate with us or, except for any direct or indirect wholly-owned subsidiary of ours, sell, assign, transfer, lease or convey all or substantially all of its properties and assets to us, unless:

- we are the surviving corporation or the corporation, partnership or trust formed by or surviving such merger or consolidation or to which such sale, assignment, transfer, lease or conveyance has been made, if other than us, is organized under the laws of the United States, any state of the United States or the District of Columbia and has expressly assumed by supplemental indenture all of our obligations under the indentures;
- immediately after giving effect to such transaction and treating any indebtedness which becomes an obligation of the Company or any subsidiary as a result of such transaction as having been incurred by the Company or such Subsidiary at the time of such transaction, no Event of Default, and no event which, after notice or lapse of time or both, would become an Event of Default, shall have happened and be continuing;

Table of Contents

- if properties or assets of the Company would become subject to a mortgage, pledge, lien, security interest or other encumbrance not permitted by the indentures, we take such steps as shall be necessary effectively to secure the debt securities equally and ratably with (or prior to) all indebtedness secured thereby; and
- we deliver to the trustee an officers' certificate stating that such consolidation, merger, conveyance, transfer or lease comply with the indentures and that all conditions precedent herein provided for relating to such transaction have been complied with and, if a supplemental indenture is required in connection with such transaction, an officers' certificate and an opinion of counsel stating that such supplemental indenture complies with the indentures.

Events of Default, Notice and Waiver

Unless an accompanying prospectus supplement states otherwise, the following shall constitute "Events of Default" under the indentures with respect to each series of debt securities:

- our failure to pay any interest on any debt security of such series when due and payable, continued for 30 days;
- our failure to pay principal (or premium, if any) on any debt security of such series when due, regardless of whether such payment became due because of maturity, redemption, acceleration or otherwise, or is required by any sinking fund established with respect to such series;
- our failure to observe or perform any other of our covenants or agreements with respect to such debt securities for 60 days after we receive notice of such failure;
- certain events of bankruptcy, insolvency or reorganization of BlackRock, Inc.; and
- any other Event of Default provided with respect to securities of that series.

If an Event of Default with respect to any debt securities of any series outstanding under either of the indentures shall occur and be continuing, the trustee under such indenture or the holders of at least 25% in aggregate principal amount of the debt securities of that series outstanding may declare, by notice as provided in the applicable indenture, the principal amount (or such lesser amount as may be provided for in the debt securities of that series) of all the debt securities of that series outstanding to be due and payable immediately; *provided* that, in the case of an Event of Default involving certain events of bankruptcy, insolvency or reorganization, acceleration is automatic; and, *provided further*, that after such acceleration, but before a judgment or decree based on acceleration, the holders of a majority in aggregate principal amount of the outstanding debt securities of that series may, under certain circumstances, rescind and annul such acceleration if all Events of Default, other than the nonpayment of accelerated principal, have been cured or waived. Upon the acceleration of the maturity of original issue discount securities, an amount less than the principal amount thereof will become due and payable. Reference is made to the prospectus supplement relating to any original issue discount securities for the particular provisions relating to acceleration of maturity thereof.

Any past default under either indenture with respect to debt securities of any series, and any Event of Default arising therefrom, may be waived by the holders of a majority in principal amount of all debt securities of such series outstanding under such indenture, except in the case of (i) default in the payment of the principal of (or premium, if any) or interest on any debt securities of such series or (ii) default in respect of a covenant or provision which may not be amended or modified without the consent of the holder of each outstanding debt security of such series affected.

The trustee is required within 90 days after the occurrence of a default (which is known to the trustee and is continuing), with respect to the debt securities of any series (without regard to any grace period or notice requirements), to give to the holders of the debt securities of such series notice of such default.

Table of Contents

The trustee, subject to its duties during default to act with the required standard of care, may require indemnification by the holders of the debt securities of any series with respect to which a default has occurred before proceeding to exercise any right or power under the indentures at the request of the holders of the debt securities of such series. Subject to such right of indemnification and to certain other limitations, the holders of a majority in principal amount of the outstanding debt securities of any series under either indenture may direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee with respect to the debt securities of such series, *provided* that such direction shall not be in conflict with any rule of law or with the applicable indenture or result in the incurrence of liability by the trustee and the trustee may take any other action deemed proper by the trustee which is not inconsistent with such direction.

No holder of a debt security of any series may institute any action against us under either of the indentures (except actions for payment of overdue principal of (and premium, if any) or interest on such debt security or for the conversion or exchange of such debt security in accordance with its terms) unless (i) the holder has given to the trustee written notice of an Event of Default and of the continuance thereof with respect to the debt securities of such series specifying an Event of Default, as required under the applicable indenture, (ii) the holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding under such indenture shall have requested the trustee to institute such action and offered to the trustee reasonable indemnity satisfactory to it against the costs, expenses and liabilities to be incurred in compliance with such request; (iii) the trustee shall not have instituted such action within 60 days of such request and (iv) no direction inconsistent with such written request has been given to the trustee during such 60-day period by the holders of a majority in principal amount of the debt securities of that series.

We are required to furnish annually to the trustee statements as to our compliance with all conditions and covenants under each indenture.

Discharge, Defeasance and Covenant Defeasance

We may discharge or defease our obligations under the indentures as set forth below, unless otherwise indicated in the applicable prospectus supplement.

We may discharge certain obligations to holders of any series of debt securities issued under either the senior indenture or the subordinated indenture that have not already been delivered to the trustee for cancellation and which have either become due and payable or are by their terms due and payable within one year (or scheduled for redemption within one year) by irrevocably depositing with the trustee money in an amount sufficient to pay and discharge the entire indebtedness on such debt securities not previously delivered to the trustee for cancellation, for principal and any premium and interest to the date of such deposit (in the case of debt securities which have become due and payable) or to the stated maturity or redemption date, as the case may be and we have paid all other sums payable under the applicable indenture.

If indicated in the applicable prospectus supplement, we may elect either (i) to defease and be discharged from any and all obligations with respect to the debt securities of or within any series (except as otherwise provided in the relevant indenture) (“defeasance”) or (ii) to be released from our obligations with respect to certain covenants applicable to the debt securities of or within any series (“covenant defeasance”), upon the deposit with the relevant indenture trustee, in trust for such purpose, of money and/or government obligations which through the payment of principal and interest in accordance with their terms will provide money in an amount sufficient to pay the principal of (and premium, if any) or interest on such debt securities to maturity or redemption, as the case may be, and any mandatory sinking fund or analogous payments thereon. As a condition to defeasance or covenant defeasance, we must deliver to the trustee an opinion of counsel to the effect that the holders of such debt securities will not recognize income, gain or loss for federal income tax purposes as a result of such defeasance or covenant defeasance and will be subject to federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such defeasance or covenant defeasance

Table of Contents

had not occurred. Such opinion of counsel, in the case of defeasance under clause (i) above, must refer to and be based upon a ruling of the Internal Revenue Service or a change in applicable federal income tax law occurring after the date of the relevant indenture. In addition, in the case of either defeasance or covenant defeasance, we shall have delivered to the trustee (i) an officers' certificate to the effect that the relevant debt securities exchange(s) have informed us that neither such debt securities nor any other debt securities of the same series, if then listed on any securities exchange, will be delisted as a result of such deposit and (ii) an officers' certificate and an opinion of counsel, each stating that all conditions precedent with respect to such defeasance or covenant defeasance have been complied with.

We may exercise our defeasance option with respect to such debt securities notwithstanding our prior exercise of our covenant defeasance option.

Modification and Waiver

Under the indentures, we and the applicable trustee may supplement the indentures for certain purposes which would not materially adversely affect the interests or rights of the holders of debt securities of a series without the consent of those holders. We and the applicable trustee may also modify the indentures or any supplemental indenture in a manner that affects the interests or rights of the holders of debt securities with the consent of the holders of at least a majority in aggregate principal amount of the outstanding debt securities of each affected series issued under the indenture. However, the indentures require the consent of each holder of debt securities that would be affected by any modification which would:

- change the fixed maturity of any debt securities of any series, or reduce the principal amount thereof, or reduce the rate or extend the time of payment of interest thereon, or reduce any premium payable upon the redemption thereof;
- reduce the amount of principal of an original issue discount debt security or any other debt security payable upon acceleration of the maturity thereof;
- change the currency in which any debt security or any premium or interest is payable;
- impair the right to enforce any payment on or with respect to any debt security;
- reduce the percentage in principal amount of outstanding debt securities of any series, the consent of whose holders is required for modification or amendment of the indentures or for waiver of compliance with certain provisions of the indentures or for waiver of certain defaults; or
- modify any of the above provisions.

The indentures permit the holders of at least a majority in aggregate principal amount of the outstanding debt securities of any series issued under the indenture which is affected by the modification or amendment to waive our compliance with certain covenants contained in the indentures.

Payment and Paying Agents

Unless otherwise indicated in the applicable prospectus supplement, payment of interest on a debt security on any interest payment date will be made to the person in whose name a debt security is registered at the close of business on the record date for the interest.

Unless otherwise indicated in the applicable prospectus supplement, principal, interest and premium on the debt securities of a particular series will be payable at the office of such paying agent or paying agents as we may designate for such purpose from time to time. Notwithstanding the foregoing, at our option, payment of any interest may be made by check mailed to the address of the person entitled thereto as such address appears in the security register.

Table of Contents

Unless otherwise indicated in the applicable prospectus supplement, a paying agent designated by us will act as paying agent for payments with respect to debt securities of each series. All paying agents initially designated by us for the debt securities of a particular series will be named in the applicable prospectus supplement. We may at any time designate additional paying agents or rescind the designation of any paying agent or approve a change in the office through which any paying agent acts, except that we will be required to maintain a paying agent in each place of payment for the debt securities of a particular series.

All moneys paid by us to a paying agent or held by us in trust for the payment of the principal, interest or premium on any debt security which remain unclaimed at the end of two years after such principal, interest or premium has become due and payable will be repaid to us upon request, and the holder of such debt security thereafter may look only to us for payment thereof.

Denominations, Registrations and Transfer

Unless an accompanying prospectus supplement states otherwise, debt securities will be represented by one or more global certificates registered in the name of a nominee for The Depository Trust Company, or DTC. In such case, each holder's beneficial interest in the global securities will be shown on the records of DTC and transfers of beneficial interests will only be effected through DTC's records.

A holder of debt securities may only exchange a beneficial interest in a global security for certificated securities registered in the holder's name if:

- DTC notifies us that it is unwilling or unable to continue serving as the depository for the relevant global securities or DTC ceases to maintain certain qualifications under the Exchange Act and no successor depository has been appointed for 90 days; or
- we determine, in our sole discretion, that the global security shall be exchangeable.

If debt securities are issued in certificated form, they will only be issued in the minimum denomination specified in the accompanying prospectus supplement and integral multiples of such denomination. Transfers and exchanges of such debt securities will only be permitted in such minimum denomination. Transfers of debt securities in certificated form may be registered at the trustee's corporate office or at the offices of any paying agent or trustee appointed by us under the indentures. Exchanges of debt securities for an equal aggregate principal amount of debt securities in different denominations may also be made at such locations.

Governing Law

The indentures and debt securities will be governed by, and construed in accordance with, the internal laws of the State of New York, without regard to its principles of conflicts of laws.

Trustee

The trustee under the indentures is The Bank of New York Mellon.

Conversion or Exchange Rights

The prospectus supplement will describe the terms, if any, on which a series of debt securities may be convertible into or exchangeable for our common stock, preferred stock or other debt securities. These terms will include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at our option. These provisions may allow or require the number of shares of our common stock or other securities to be received by the holders of such series of debt securities to be adjusted.

Anti-Takeover Considerations

The Delaware General Corporation Law, our certificate of incorporation and our by-laws contain provisions which could serve to discourage or to make more difficult a change in control of us without the support of our board of directors or without meeting various other conditions.

Extraordinary Corporate Transactions

Delaware law provides that the holders of a majority of the shares entitled to vote must approve any fundamental corporate transactions such as mergers, sales of all or substantially all of a corporation’s assets, dissolutions, etc.

State Takeover Legislation

Section 203 of the Delaware General Corporation Law, in general, prohibits a business combination between a corporation and an interested stockholder within three years of the time such stockholder became an interested stockholder, unless (a) prior to such time, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder, (b) upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, exclusive of shares owned by directors who are also officers and by certain employee stock plans or (c) at or subsequent to such time, the business combination is approved by the board of directors and authorized by the affirmative vote at a stockholders’ meeting, and not by written consent, of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder. The restrictions of Section 203 of the Delaware General Corporation Law do not apply to certain business combinations or to corporations that have elected, in the manner provided therein, not to be subject to Section 203 of the Delaware General Corporation Law or, with certain exceptions, which do not have a class of voting stock that is listed on a national securities exchange or held of record by more than 2,000 stockholders. We have elected to be governed by Section 203 of the Delaware General Corporation Law.

Rights of Dissenting Stockholders

Delaware law does not afford appraisal rights in a merger transaction to holders of shares that are either listed on a national securities exchange or held of record by more than 2,000 stockholders, *provided* that such shares will be converted into stock of the surviving corporation or another corporation, which corporation in either case must also be listed on a national securities exchange or held of record by more than 2,000 stockholders. In addition, Delaware law denies appraisal rights to stockholders of the surviving corporation in a merger if the surviving corporation’s stockholders weren’t required to approve the merger.

Stockholder Action

Delaware law provides that, unless otherwise stated in the certificate of incorporation, any action which may be taken at an annual meeting or special meeting of stockholders may be taken without a meeting, if a consent in

Table of Contents

writing is signed by the holders of the outstanding stock having the minimum number of votes necessary to authorize the action at a meeting of stockholders. Our certificate of incorporation does not provide otherwise and thus permits action by written consent if such action has been approved in advance by the majority vote of our board of directors.

Meetings of Stockholders

Our amended and restated certificate of incorporation provides that special meetings of the stockholders may be called at any time by the chairman of the board of directors, the president, a majority of the board of directors, or any committee of the board of directors that has the power to call such meetings. No stockholder may call a special meeting.

Cumulative Voting

Delaware law permits stockholders to cumulate their votes and either cast them for one candidate or distribute them among two or more candidates in the election of directors only if expressly authorized in a corporation's certificate of incorporation. Our certificate of incorporation does not authorize cumulative voting.

Removal of Directors

Delaware law provides that, except in the case of a classified board of directors or where cumulative voting applies, a director, or the entire board of directors, of a corporation may be removed, with or without cause, by the affirmative vote of a majority of the shares of the corporation entitled to vote at an election of directors.

Our amended and restated certificate of incorporation provides that any or all of the directors may be removed, only for cause, by affirmative vote of at least (80%) of the stockholders.

Vacancies

Delaware law provides that vacancies and newly created directorships resulting from a resignation or any increase in the authorized number of directors elected by all of the stockholders having the right to vote as a single class may be filled by a majority of the directors then in office, unless the governing documents of a corporation provide otherwise.

Our amended and restated by-laws provide that newly created directorships resulting from an increase in the number of directors and vacancies occurring in the board of directors for any reason, may be filled by vote of a majority of the directors then in office, although less than a quorum, or by a sole remaining director or by the stockholders if the vacancy resulted from the action of stockholders.

No Preemptive Rights

Holders of common stock do not have any preemptive rights to subscribe for any additional shares of capital stock or other obligations convertible into or exercisable for shares of capital stock that we may issue in the future.

Staggered Boards

The board of directors is divided into three classes serving staggered terms. The number of directors is fixed by our board of directors, subject to our Bylaws and any Stockholder Agreement. Pursuant to our Stockholder Agreements with each of PNC, Merrill Lynch and Barclays, the number of directors will be no more than 19 directors, such that:

- not less than two and not more than 4 directors are members of BlackRock management;

Table of Contents

- two directors, each in a different class, are designated by PNC, provided that if for any period greater than 90 consecutive days, PNC and its affiliates beneficially own less than 10% of BlackRock Capital Stock issued and outstanding, PNC will cause one PNC designee to resign and provided that if PNC and its affiliates beneficially own less than 5% of BlackRock Capital Stock issued and outstanding, PNC will cause the second PNC designee to resign;
- two directors, each in a different class, are designated by Merrill Lynch;
- two directors, each in a different class, are designated by Barclays, provided that if for any period greater than 90 consecutive days, Barclays and its affiliates beneficially own less than 10% of BlackRock Capital Stock issued and outstanding, Barclays will cause one Barclays designee to resign and provided that if Barclays and its affiliates beneficially own less than 5% of BlackRock Capital Stock issued and outstanding, Barclays will cause the second Barclays designee to resign; and
- the remaining directors are independent directors.

Warrants sold with other securities may be attached to or separate from the other securities. We may issue subscription rights to purchase debt securities, preferred stock, common stock, or other securities. These subscription rights may be issued independently or together with any other security offered hereby and may or may not be transferable by the stockholder receiving the subscription rights in such offering. In connection with any offering of subscription rights, we may enter into a standby arrangement with one or more underwriters or other purchasers pursuant to which the underwriters or other purchasers may be required to purchase any securities remaining unsubscribed for after such offering.

The applicable prospectus supplement will describe the specific terms of any offering of subscription rights for which this prospectus is being delivered, including the following:

- the price, if any, for the subscription rights;
- the exercise price payable for each share of debt securities, preferred stock, common stock, or other securities upon the exercise of the subscription rights;
- the number of subscription rights issued to each stockholder;
- the number and terms of the shares of debt securities, preferred stock, common stock, or other securities which may be purchased per each subscription right;
- the extent to which the subscription rights are transferable;
- any other terms of the subscription rights, including the terms, procedures and limitations relating to the exchange and exercise of the subscription rights;
- the date on which the right to exercise the subscription rights shall commence, and the date on which the subscription rights shall expire;
- the extent to which the subscription rights may include an over-subscription privilege with respect to unsubscribed securities; and
- if applicable, the material terms of any standby underwriting or purchase arrangement entered into by us in connection with the offering of subscription rights.

The description in the applicable prospectus supplement of any subscription rights we offer will not necessarily be complete and will be qualified in its entirety by reference to the applicable subscription rights certificate, which will be filed with the SEC if we offer subscription rights. For more information on how you can obtain copies of any subscription rights certificate if we offer subscription rights, see “Where You Can Find More Information” on page 3. We urge you to read the applicable subscription rights certificate and any applicable prospectus supplement in their entirety.

DESCRIPTION OF STOCK PURCHASE CONTRACTS AND STOCK PURCHASE UNITS

We may issue stock purchase contracts representing contracts obligating holders to purchase from us, and us to sell to the holders, a specified or varying number of shares of our common stock, or preferred stock at a future date or dates. Alternatively, the stock purchase contracts may obligate us to purchase from holders, and obligate holders to sell to us, a specified or varying number of shares of common stock, or preferred stock. The price per share and the number of shares may be fixed at the time the stock purchase contracts are entered into or may be determined by reference to a specific formula set forth in the stock purchase contracts. The stock purchase contracts may be entered into separately or as a part of a stock purchase unit that consists of (a) a stock purchase contract; (b) warrants; and/or (c) debt securities or debt obligations of third parties (including United States treasury securities or other stock purchase contracts), that would secure the holders’ obligations to purchase or to sell, as the case may be, common stock, or preferred stock under the stock purchase contract. contracts may require us to make periodic payments to the holders of the stock purchase units or require the holders of the stock purchase units to make periodic payments to us. These payments may be unsecured or prefunded and may be paid on a current or on a deferred basis. The stock purchase contracts may require holders to secure their obligations under the contracts in a specified manner.

The applicable prospectus supplement will describe the terms of any stock purchase contract or stock purchase unit and will contain a summary of certain United States federal income tax consequences applicable to the stock purchase contracts and stock purchase units.

CERTAIN ERISA CONSIDERATIONS

The Employee Retirement Income Security Act of 1974, as amended (“ERISA”), and Section 4975 of the Code impose certain restrictions on (a) employee benefit plans (as defined in Section 3(3) of ERISA) that are subject to Title I of ERISA, (b) plans (as defined in Section 4975(e)(1) of the Code) that are subject to Section 4975 of the Code, including individual retirement accounts or Keogh plans, (c) any entities whose underlying assets include assets of a plan described in (a) or (b) by reason of such plan’s investment in such entities, including without limitation, an insurance company general account (each of (a), (b) and (c), a “Plan”) and (d) persons who have certain specified relationships to Plans (“parties in interest” under ERISA and “disqualified persons” under the Code). ERISA also imposes certain duties on persons who are fiduciaries of Plans subject to ERISA, and ERISA and the Code prohibit certain transactions between a Plan and “parties in interest” or “disqualified persons” with respect to such Plan. Violations of these rules may result in the imposition of excise taxes and other penalties and liabilities under ERISA and the Code. Governmental plans, certain church plans and non-U.S. plans, while not subject to Title I of ERISA or Section 4975 of the Code, may nevertheless be subject to similar laws.

Prohibited Transactions

The issuer, the trustee, the underwriters or certain affiliates thereof may be “parties in interest” or “disqualified persons” with respect to a number of Plans. Accordingly, investment in the notes by a Plan that has such a relationship could be deemed to constitute a transaction prohibited under Title I of ERISA or Section 4975 of the Code (e.g., an extension of credit to a “party in interest”). Such transactions may, however, be subject to one or more statutory or administrative exemptions such as Section 408(b)(17) of ERISA, which exempts certain transactions between a plan and a non-fiduciary service provider to such Plan, Prohibited Transaction Class Exemption (“PTCE”) 90-1, which exempts certain transactions involving insurance company separate accounts; PTCE 91-38 which exempts certain transactions involving bank collective investment funds; PTCE 84-14, which exempts certain transactions effected on behalf of a Plan by a “qualified professional asset manager”; PTCE 95-60, which exempts certain transactions involving insurance company general accounts; or PTCE 96-23, which exempts certain transactions effected on behalf of a Plan by an “in-house asset manager;” or another available exemption. Such exemptions may not, however, apply to all of the transactions that could be deemed prohibited transactions in connection with a Plan’s investment. If a purchase or transfer were to result in a non-exempt prohibited transaction, such purchase or transfer may have to be rescinded. By its purchase, each investor will be deemed to have represented that either (i) it is not a Plan that is subject to the prohibited transaction rules of ERISA or the Code or a governmental, church or non-U.S. plan subject to similar laws, or (ii) its investment will not constitute a non-exempt prohibited transaction by reason of application of one or more statutory or administrative exemptions under ERISA or the Code (or in the case of a governmental, church or non-U.S. plan, any similar exemption under any similar laws).

The sale of any notes to a Plan or plan subject to similar laws is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by any such plan generally or any particular plan, or that such investment is appropriate for such plans generally or any particular plan.
