beyond our control, incident to the exploration for and development, production, and sale of crude oil and natural gas. These risks include commodity price volatility, inflation, lack of availability of drilling and production equipment and services, environmental risks, drilling and production regulatory changes, the uncertainty inherent in estimating crude oil and natural gas reserves and in projecting future rates of production, timing of development expenditures, and the other risks described under “Risk Factors” in this prospectus and in our Annual Report on Form 10-K for the year ended December 31, 2009 and our Quarterly Reports on Form 10-Q for the periods ended March 31, 2010, June 30, 2010 and September 30, 2010 in any subsequently filed reports.

Reserve engineering is a process of estimating underground accumulations of crude oil and natural gas that cannot be measured in place. A reserve estimate depends on the quality of available data, the interpretation of such data, and price and cost assumptions made by reserves engineers. Changes in the price of oil and gas, changes in drilling, testing, and production activities may justify revisions of estimates that were made previously. If significant, such revisions could affect the quantities of crude oil and natural gas that are expected to be recovered. Accordingly, reserve estimates may differ significantly from the quantities of crude oil and natural gas that are ultimately recovered.

Should one or more of the risks or uncertainties described or incorporated by reference in this prospectus occur, or should underlying assumptions prove incorrect, our actual results and plans could differ materially from those expressed in any forward-looking statements.

All forward-looking statements, expressed or implied, included in this prospectus, or in the documents incorporated by reference in this prospectus, are qualified in their entirety by this cautionary statement. This cautionary statement should also be considered in connection with any subsequent forward-looking statements that we or persons acting on our behalf may issue.

Except as otherwise required by applicable law, we disclaim any duty to update any forward-looking statements, all of which are qualified in their entirety by this cautionary statement, to reflect events or circumstances after the date of this prospectus. Ratio of Earnings to Fixed Charges

The following table sets forth our ratio of earnings to fixed charges for the periods presented:

	Nine Months Ended September 30,		Year Ended		
	Pro forma		Pro forma		
	2010	2010	2009	2009	2008
Ratio of earnings to fixed charges	6.8x(1)	11.4x	1.8x(1)	5.7x	43.5x

(1) Adjusted to give effect to a pro forma increase in interest expense resulting from the issuance of the notes on September 16, 2009 of our 8 1/4% Senior Notes due 2019, and the April 2010 issuance of our 7 3/8% Senior Notes due 2020 and the utilization of the proceeds of those notes to repay indebtedness that was outstanding under our revolving credit facility during the nine months ended September 30, 2009, December 31, 2009, as applicable, as if the issuance of those notes had occurred on January 1, 2010 and January 1, 2009, respectively.

For purposes of computing the ratio of earnings to fixed charges, “earnings” consists of income before income taxes plus fixed charges (interest). “Fixed charges” represents interest incurred (whether expensed or capitalized), amortization of debt expense and that portion of lease expense on operating leases deemed to be the equivalent of interest.

We did not have any preferred stock outstanding and there were no preferred stock dividends paid or accrued during the periods presented.

RISK FACTORS

Investing in the notes involves risks. You should carefully consider the information included or incorporated by reference in this prospectus supplement, including the information addressed under “Cautionary Statement Regarding Forward-Looking Statements,” and the following risks before investing in the notes. The risks discussed below, and the risk factors in our Annual Report on Form 10-K for the year ended December 31, 2009 and our Quarterly Reports on Form 10-Q for the periods ended March 31, 2010, June 30, 2010 and September 30, 2010, which are incorporated by reference in this prospectus and, to the extent applicable, any subsequent reports, are not the only risks you should consider.

We are subject to certain risks and hazards due to the nature of the business activities we conduct. The risks discussed below, and the risk factors in our Annual Report on Form 10-K for the year ended December 31, 2009 and our Quarterly Reports on Form 10-Q for the periods ended March 31, 2010, June 30, 2010 and September 30, 2010, which are incorporated by reference in this prospectus and, to the extent applicable, any subsequent reports, are not the only risks you should consider. We may experience risks and hazards not currently known to us; or, as a result of developments occurring in the future, conditions that we currently deem to be immaterial may become material and adversely affect our business, financial condition, cash flows, and results of operations.

Risks Relating to the Notes

If you do not properly tender your old notes, you will continue to hold unregistered old notes and your ability to transfer old notes will be adversely affected.

We will only issue new notes in exchange for old notes that you timely and properly tender. Therefore, you should allow sufficient time to tender the old notes and you should carefully follow the instructions on how to tender your old notes. Neither we nor the exchange agent is required to accommodate irregularities with respect to your tender of old notes.

If you do not exchange your old notes for new notes pursuant to the exchange offer, the old notes you hold will continue to be subject to the restrictions. In general, you may not offer or sell the old notes except under an exemption from, or in a transaction not subject to, the Securities Act of 1933 unless our registration rights agreement with the issuer of the old notes requires us to do so. Further, if you continue to hold any old notes after the exchange offer is consummated, you may have trouble selling a few of these notes outstanding.

We may not be able to generate sufficient cash to service all of our indebtedness, including the notes, and may be forced to take other actions to reduce our indebtedness, which may not be successful.

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We may not be able to generate cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness, including the notes.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay our capital expenditures, or to sell assets, seek additional capital or restructure or refinance our indebtedness, including the notes. Our ability to restructure or refinance our indebtedness will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may comply with more onerous covenants, which could further restrict our business operations. The terms of existing or future debt instruments, including the notes, may restrict us from adopting some of these alternatives. In addition, any failure to make payments of interest and principal on our debt obligations on a timely basis would likely result in a reduction of our credit rating, which could harm our ability to incur additional indebtedness. In the event of a

FINAL PROSPECTUS SUPPLEMENT

Table of Contents

such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or other obligations. Our revolving credit facility, the indentures governing our 8 1/4% Senior Notes due 2019 and our 7 3/8% Senior Notes due 2020, and the indentures governing the notes offered hereby restrict our ability to dispose of assets and use the proceeds from the disposition. We may not be able to obtain the proceeds that we could realize from them and these proceeds may not be adequate to meet any debt service obligations that may not be successful and may not permit us to meet our scheduled debt service obligations.

If we are unable to comply with the restrictions and covenants in the agreements governing our notes, including the notes offered hereby, this could be a default under the terms of these agreements, which could result in an acceleration of payment of funds that we have borrowed to make principal and interest payments on the notes.

If we are unable to comply with the restrictions and covenants in the agreements governing our notes or in current or future debt financing agreements, this could be a default under the terms of these agreements. Our ability to comply with these restrictions and covenants, including meeting financial obligations, may be affected by events beyond our control. As a result, we cannot assure you that we will be able to comply with these restrictions and covenants or meet our obligations under the agreements governing our indebtedness, including a default under our revolving credit facility or under the indentures governing the Senior Notes due 2019 and our 7 3/8% Senior Notes due 2020, that is not waived by the required lenders, and the remedies sought by the lenders could prevent us from paying principal, premium, if any, and interest on the notes and substantially decrease the market value of the notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our debt, we may fail to comply with the various covenants, including financial and operating covenants in the instruments governing our indebtedness (including our revolving credit facility and the indenture governing the notes), we could be in default under the terms of the agreements governing such indebtedness, and we could be in default under our revolving credit facility and the indenture governing the notes. In the event of such default:

- the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with interest;
- the lenders under our revolving credit facility could elect to terminate their commitments thereunder, cease making further advances, and institute proceedings against our assets; and
- we could be forced into bankruptcy or liquidation.

If our operating performance declines, we may in the future need to obtain waivers from the required lenders under our revolving credit facility. If we breach our covenants under our revolving credit facility and seek a waiver, we may not be able to obtain a waiver from the lenders. If we are in default under our revolving credit facility, the lenders could exercise their rights, as described above, and we could be forced into bankruptcy or liquidation. Our revolving credit facility contains certain covenants that may inhibit our ability to make certain investments, incur additional indebtedness, or enter into certain transactions, which could adversely affect our ability to meet our future goals.

Your ability to transfer the notes may be limited by the absence of an active trading market, and there is no assurance that any active market will develop for the notes.

The old notes have not been registered under the Securities Act of 1933, and may not be resold by holders thereof unless the old notes qualify for an exemption from the registration requirements of the Securities Act is available. However, we cannot assure you that, even following our offering of new notes for new notes, that an active trading market for the old notes or the new notes will exist, and we will have no obligation to create such a market. In a private placement of the old notes, the initial purchasers advised us that they intended to make a market in the old notes and, if issued, they are not obligated, however, to make a market in the old notes or the new notes and any market

making may be discontinued at any time at their sole discretion. No assurance can be given as to the liquidity of or trading market for the

The liquidity of any trading market for the notes and the market price quoted for the notes will depend upon the number of holders for high yield securities, our financial performance or prospects or the prospects for companies in our industry generally, the interest of the market in the notes and other factors.

We may not be able to repurchase the notes in certain circumstances.

Under the terms of the indenture, you may require us to repurchase all or a portion of your notes if we sell certain assets or in the event of a change of control. In these circumstances holders of our outstanding 8 1/4% Senior Notes due 2019 and our 7 3/8% Senior Notes due 2020 and lenders under our revolving credit facility have the right to require us to repurchase those notes or repay borrowings under our revolving credit facility. As a result, we may not have the ability to repurchase the notes at the repurchase price of the notes offered hereby on a purchase date (in which case, we could be required to issue common stock to pay the repurchase price). Any future credit agreements or other debt agreements to which we become a party may provide that our obligation to purchase or redeem the notes is subject to default under such agreement. As a result, we may be restricted or prohibited from repurchasing or redeeming the notes. If we are prohibited from repurchasing or redeeming the notes, we could seek the consent of our then-existing lenders to repurchase or redeem the notes or we could attempt to refinance the debt in violation of such prohibition. If we are unable to obtain a consent or refinance the debt, we could not repurchase or redeem the notes. Our failure to repurchase or redeem the notes could constitute a default under the Indenture and might constitute a default under the terms of other indebtedness that we incur.

In a recent decision, the Chancery Court of Delaware raised the possibility that a change of control put right occurring as a result of a change of control by the directors comprising a majority of a board of directors may be unenforceable on public policy grounds.

The term “change of control” is limited to certain specified transactions and may not include other events that might adversely affect our ability to repurchase the notes. Our obligation to repurchase the notes upon a change of control would not necessarily afford holders of notes protection in the event of a high yield reorganization, merger or similar transaction involving us.

Any guarantees of the notes by our subsidiaries could be deemed fraudulent conveyances under certain circumstances, and a court may void such subsidiary guarantees.

Our only existing subsidiary, Banner Pipeline Company, L.L.C., is the sole initial subsidiary guarantor of the notes. In certain circumstances, our subsidiaries may be required to guarantee the notes. A court could subordinate or void the subsidiary guarantees under various fraudulent conveyance laws. Generally, to the extent that a U.S. court was to find that at the time one of our subsidiaries entered into a subsidiary guarantee and

- the subsidiary incurred the guarantee with the intent to hinder, delay, or defraud any present or future creditor, or contemplated the transfer of assets to favor one or more creditors to the exclusion of others; or
- the subsidiary did not receive fair consideration or reasonably equivalent value for issuing the subsidiary guarantee and, at the time the subsidiary guarantee was issued, the subsidiary:
 - was insolvent or became insolvent as a result of issuing the subsidiary guarantee,
 - was engaged or about to engage in a business or transaction for which the remaining assets of the subsidiary constituted an unreasonably small capital, or

- intended to incur, or believed that it would incur, debts beyond its ability to pay those debts as they matured,

then the court could void or subordinate the subsidiary guarantee in favor of the subsidiary's other obligations.

A legal challenge of a subsidiary guarantee on fraudulent conveyance grounds may focus, among other things, on the benefits, if any, to the subsidiary as a result of our issuing the notes. To the extent a subsidiary guarantee is voided as a fraudulent conveyance or held unenforceable for any other reason, we would not have any claim against that subsidiary and would be creditors solely of us and any other subsidiary guarantors whose guarantees are not voided.

Many of the covenants contained in the indenture will terminate if the notes are rated investment grade by both Standard & Poor's Ratings Services and Moody's Investors Service, Inc.

Many of the covenants in the indenture governing the notes will terminate if the notes are rated investment grade by both Standard & Poor's Ratings Services and Moody's Investors Service, Inc., provided at such time our revolving credit facility is unsecured and no default under the indenture has occurred. These covenants will restrict, among other things, our ability to pay dividends, to incur debt and to enter into certain other transactions. There can be no assurance that we will ever be rated investment grade, or that if they are rated investment grade, that the notes will maintain such ratings. However, terminating these covenants will allow us to engage in certain transactions that would not be permitted while these covenants were in force. Please read "Description of Notes - Covenant Termination."

EXCHANGE OFFER

Purpose and Effect of the Exchange Offer

At the closing of the offering of the old notes, we entered into a registration rights agreement with the initial purchasers pursuant to the registration rights agreement of the holders of the old notes, at our cost, to do the following:

- file an exchange offer registration statement with the SEC with respect to the exchange offer for the new notes, and
- use commercially reasonable efforts to have the exchange offer completed by the 400th day following issuance of the notes.

Additionally, we agreed to offer the new notes in exchange for surrender of the old notes upon the SEC's declaring the exchange offer effective. We agreed to use commercially reasonable efforts to cause the exchange offer registration statement to be effective continuously open for a period of not less than 20 business days.

For each old note surrendered to us pursuant to the exchange offer, the holder of such old note will receive a new note having a principal amount equal to the principal amount of the surrendered old note. Interest payments on the new notes will be made semi-annually in cash, on April 1 and October 1 of each year, commencing on the date of the exchange offer. The registration rights agreement also provides an agreement to include in the prospectus for the exchange offer certain information necessary for a broker-dealer who holds old notes that were acquired for its own account as a result of market-making activities or other ordinary course trading activities (including, but not limited to, directly from us or one of our affiliates) to exchange such old notes pursuant to the exchange offer and to satisfy the prospectus delivery requirements for the resale of new notes received by such broker-dealer in the exchange offer. We agreed to use commercially reasonable efforts to maintain the exchange offer registration statement for these purposes for a period of 180 days after the completion of the exchange offer, which period may be extended in certain circumstances.

The preceding agreement is needed because any broker-dealer who acquires old notes for its own account as a result of market-making activities is required to deliver a prospectus meeting the requirements of the Securities Act. This prospectus covers the offer and sale of the old notes in the exchange offer and the resale of new notes received in the exchange offer by any broker-dealer who held old notes acquired for its own account as a result of market-making activities or other trading activities other than old notes acquired directly from us or one of our affiliates.

Based on interpretations by the staff of the SEC set forth in no-action letters issued to third parties, we believe that the new notes issued in the exchange offer would in general be freely tradable after the exchange offer without further registration under the Securities Act. However, any purchaser of new notes (including a broker-dealer) who is an "affiliate" of ours or who intends to participate in the exchange offer for the purpose of distributing the related new notes

- will not be able to rely on the interpretation of the staff of the SEC,
- will not be able to tender its old notes in the exchange offer, and
- must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or transfer of such sale or transfer is made pursuant to an exemption from such requirements.

Each holder of the old notes (other than certain specified holders) who desires to exchange old notes for the new notes in the exchange offer should read the representations described below under "—Procedures for Tendering—Your Representations to Us."

FINAL PROSPECTUS SUPPLEMENT

Table of Contents

We further agreed to file with the SEC a shelf registration statement to register for public resale of old notes held by any holder with the following information for inclusion in the shelf registration statement if:

- the exchange offer is not permitted by applicable law or SEC policy, or
- the exchange offer is not for any reason completed by the 400th day following the date of issuance of the notes, or
- upon completion of the exchange offer, any initial purchaser shall so request in connection with any offering or sale of notes.

We have agreed to use commercially reasonable efforts to keep the shelf registration statement continuously effective until the earliest date after the effective date and such time as all notes covered by the shelf registration statement have been sold. We refer to this period as the “shelf effectiveness period.”

The registration rights agreement provides that, in the event that either the exchange offer is not completed or the shelf registration statement is not declared effective (or does not automatically become effective) on or prior to the 400th calendar day following the date of issuance of the notes, the interest rate on the old notes will be increased by 1.00% per annum until the exchange offer is completed or the shelf registration statement is declared effective (or automatically becomes effective) under the Securities Act, at which time the increased interest shall cease to accrue.

If the shelf registration statement has been declared effective (or automatically becomes effective) and thereafter either ceases to be effective or the information contained therein ceases to be usable for resales of the notes at any time during the shelf effectiveness period, and such failure to remain effective or usable for resales of the notes exists for more than 30 calendar days (whether or not consecutive) in any 12-month period, then the interest rate on the old notes will be increased by 1.00% per annum commencing on the 31st day in such 12-month period and ending on such date that the shelf registration statement has again been declared effective (or automatically becomes effective) or the prospectus again becomes usable, at which time the increased interest shall cease to accrue.

Holders of the old notes will be required to make certain representations to us (as described in the registration rights agreement) in connection with the exchange offer and will be required to deliver information to be used in connection with the shelf registration statement and to provide certain information to the shelf registration statement within the time periods set forth in the registration rights agreement in order to have their old notes included in the shelf registration statement.

If we effect the registered exchange offer, we will be entitled to close the registered exchange offer 20 business days after its completion and we will have accepted all old notes validly rendered in accordance with the terms of the exchange offer and no brokers or dealers continue to hold any old notes.

This summary of the material provisions of the registration rights agreement does not purport to be complete and is subject to, and in full reference to, all the provisions of the registration rights agreement, a copy of which is incorporated by reference into this prospectus.

Except as set forth above, after consummation of the exchange offer, holders of old notes which are the subject of the exchange offer will not have any exchange rights under the registration rights agreement. See “—Consequences of Failure to Exchange.”

Terms of the Exchange Offer

Subject to the terms and conditions described in this prospectus and in the letter of transmittal, we will accept for exchange any old notes not withdrawn prior to 5:00 p.m. New York City time on the expiration date. We will issue new notes in principal amount equal to the principal amount of the old notes.

surrendered in the exchange offer. Old notes may be tendered only for new notes and only in minimum denominations of \$1,000 and interest thereon.

The exchange offer is not conditioned upon any minimum aggregate principal amount of old notes being tendered for exchange.

As of the date of this prospectus, \$400,000,000 in aggregate principal amount of the old notes is outstanding. This prospectus and the exchange offer are being sent to all registered holders of old notes. There will be no fixed record date for determining registered holders of old notes entitled to participate in the exchange offer.

We intend to conduct the exchange offer in accordance with the provisions of the registration rights agreement, the applicable requirements of the Securities Exchange Act of 1933 and the Securities Exchange Act of 1934 and the rules and regulations of the SEC. Old notes that the holders thereof do not tender for exchange will remain outstanding and continue to accrue interest. These old notes will continue to be entitled to the rights and benefits such holders are entitled to on the notes.

We will be deemed to have accepted for exchange properly tendered old notes when we have given oral (promptly followed in writing) acceptance to the exchange agent and complied with the applicable provisions of the registration rights agreement. The exchange agent will deliver the new notes to the holders for the purposes of receiving the new notes from us.

If you tender old notes in the exchange offer, you will not be required to pay brokerage commissions or fees or, subject to the letterhead note, respect to the exchange of old notes. We will pay all charges and expenses, other than certain applicable taxes described below, in connection with the exchange offer. It is important that you read the section labeled “—Fees and Expenses” for more details regarding fees and expenses incurred in the exchange offer.

We will return any old notes that we do not accept for exchange for any reason without expense to their tendering holder promptly after the exchange offer.

Expiration Date

The exchange offer will expire at 5:00 p.m., New York City time, on February 24, 2011, unless, in our sole discretion, we extend the expiration date.

Extensions, Delays in Acceptance, Termination or Amendment

We expressly reserve the right, at any time or various times, to extend the period of time during which the exchange offer is open by giving oral (promptly followed in writing) or written notice of such extension to their holders. During any such extensions, old notes will remain subject to the exchange offer, and we may accept them for exchange.

In order to extend the exchange offer, we will notify the exchange agent orally (promptly followed in writing) or in writing of any extension to the registered holders of old notes of the extension no later than 9:00 a.m., New York City time, on the business day after the previously scheduled expiration date.

If any of the conditions described below under “—Conditions to the Exchange Offer” have not been satisfied, we reserve the right to:

- to delay accepting for exchange any old notes,
- to extend the exchange offer, or
- to terminate the exchange offer,

by giving oral (promptly followed in writing) or written notice of such delay, extension or termination to the exchange agent. Subject to the agreement, we also reserve the right to amend the terms of the exchange offer in any manner.

Any such delay in acceptance, extension, termination or amendment will be followed promptly by oral (promptly followed in writing) to the registered holders of old notes. If we amend the exchange offer in a manner that we determine to constitute a material change, we will promptly provide notice by means of a prospectus supplement. The supplement will be distributed to the registered holders of the old notes. Depending upon the manner of disclosure to the registered holders, we may extend the exchange offer. In the event of a material change in the exchange offer or a material condition, we will extend the exchange offer period if necessary so that at least five business days remain in the exchange offer period in the event of a change.

Conditions to the Exchange Offer

We will not be required to accept for exchange, or exchange any new notes for, any old notes if the exchange offer, or the making of the exchange offer, would violate applicable law or any applicable interpretation of the staff of the SEC. Similarly, we may terminate the exchange offer before accepting old notes for exchange in the event of such a potential violation.

In addition, we will not be obligated to accept for exchange the old notes of any holder that has not made to us the representations and warranties in the “Effect of the Exchange Offer,” “—Procedures for Tendering” and “Plan of Distribution” and such other representations as may be reasonable in light of the SEC rules, regulations or interpretations to allow us to use an appropriate form to register the new notes under the Securities Act.

We expressly reserve the right to amend or terminate the exchange offer, and to reject for exchange any old notes not previously accepted in the occurrence of any of the conditions to the exchange offer specified above. We will give prompt oral (promptly followed in writing) or written notice of amendment, non-acceptance or termination to the holders of the old notes as promptly as practicable.

These conditions are for our sole benefit, and we may assert them or waive them in whole or in part at any time or at various times. At any time to exercise any of these rights, this failure will not mean that we have waived our rights. Each such right will be deemed an ongoing right at any time or at various times.

In addition, we will not accept for exchange any old notes tendered, and will not issue new notes in exchange for any such old notes if a violation has been threatened or is in effect with respect to the registration statement of which this prospectus constitutes a part or the qualification of the old notes under the Trust Indenture Act of 1939.

Procedures for Tendering

In order to participate in the exchange offer, you must properly tender your old notes to the exchange agent as described below. It is your responsibility to tender your notes. We have the right to waive any defects. However, we are not required to waive defects and are not required to notify you of any defects.

If you have any questions or need help in exchanging your notes, please call the exchange agent, whose address and phone number are set forth in the Summary—The Exchange Offer—Exchange Agent.”

All of the old notes were issued in book-entry form, and all of the old notes are currently represented by global certificates held for the account of the issuer, confirmed with DTC that the old notes may be tendered

using the Automated Tender Offer Program (“ATOP”) instituted by DTC. The exchange agent will establish an account with DTC for you promptly after the commencement of the exchange offer and DTC participants may electronically transmit their acceptance of the exchange offer and transfer their old notes to the exchange agent using the ATOP procedures. In connection with the transfer, DTC will send an “agent’s message” to the exchange agent’s message will be deemed to state that DTC has received instructions from the participant to tender old notes and that the participant has approved the letter of transmittal.

By using the ATOP procedures to exchange old notes, you will not be required to deliver a letter of transmittal to the exchange agent by its terms just as if you had signed it.

There is no procedure for guaranteed late delivery of the notes.

Determinations Under the Exchange Offer

We will determine in our sole discretion all questions as to the validity, form, eligibility, time of receipt, acceptance of tendered old notes. Our determination will be final and binding. We reserve the absolute right to reject any old notes not properly tendered or any old notes that would, in the opinion of our counsel, be unlawful. We also reserve the right to waive any defect, irregularities or conditions of tender as to which our interpretation of the terms and conditions of the exchange offer, including the instructions in the letter of transmittal, will be final and binding. All defects or irregularities in connection with tenders of old notes must be cured within such time as we shall determine. Although we will cure irregularities with respect to tenders of old notes, neither we, the exchange agent nor any other person will incur any liability for failure to cure irregularities with respect to tenders of old notes until such defects or irregularities have been cured or waived. Any old notes received by the exchange agent and as to which the defects or irregularities have not been cured or waived will be returned to the tendering holder, unless otherwise provided in the letter of transmittal, promptly following the expiration date.

When We Will Issue New Notes

In all cases, we will issue new notes for old notes that we have accepted for exchange under the exchange offer only after the exchange agent has received:

- a book-entry confirmation of such old notes into the exchange agent’s account at DTC; and
- a properly transmitted agent’s message.

Return of Old Notes Not Accepted or Exchanged

If we do not accept any tendered old notes for exchange or if old notes are submitted for a greater principal amount than the holder has tendered, unaccepted or non-exchanged old notes will be returned without expense to their tendering holder. Such non-exchanged old notes will be returned to the holder with DTC. These actions will occur promptly after the expiration or termination of the exchange offer.

Your Representations to Us

By agreeing to be bound by the letter of transmittal, you will represent to us that, among other things:

- any new notes that you receive will be acquired in the ordinary course of your business;
- you have no arrangement or understanding with any person or entity to participate in the distribution of the new notes;

FINAL PROSPECTUS SUPPLEMENT

- you are not our “affiliate,” as defined in Rule 405 of the Securities Act of 1933; and

- if you are a broker-dealer that will receive new notes for your own account in exchange for old notes, you acquired those notes through trading activities or other trading activities and you will deliver a prospectus (or to the extent permitted by law, make available a prospectus) for the resale of such new notes.

Withdrawal of Tenders

Except as otherwise provided in this prospectus, you may withdraw your tender at any time prior to 5:00 p.m. New York City time. For your withdrawal to be effective you must comply with the appropriate procedures of DTC's ATOP system. Any notice of withdrawal must specify the account at DTC to be credited with withdrawn old notes and otherwise comply with the procedures of DTC.

We will determine all questions as to the validity, form, eligibility and time of receipt of notice of withdrawal. Our determination will be final and binding on all parties. We will deem any old notes so withdrawn not to have been validly tendered for exchange for purposes of the exchange offer.

Any old notes that have been tendered for exchange but are not exchanged for any reason will be credited to an account maintained by DTC. Crediting will take place as soon as practicable after withdrawal, rejection of tender or termination of the exchange offer. You may re-tender old notes following the procedures described under "—Procedures for Tendering" above at any time prior to 5:00 p.m., New York City time, on the day of the exchange offer.

We will bear the expenses of soliciting tenders. The principal solicitation is being made by mail; however, we may make additional solicitations by telephone, electronic mail or in person by our officers and regular employees and those of our affiliates.

We have not retained any dealer-manager in connection with the exchange offer and will not make any payments to broker-dealers in connection with the exchange offer. We will, however, pay the exchange agent reasonable and customary fees for its services and reimburse it for its related expenses.

We will pay the cash expenses to be incurred in connection with the exchange offer. They include:

- all registration and filing fees and expenses;
- all fees and expenses of compliance with federal securities and state "blue sky" or securities laws;
- accounting fees, legal fees incurred by us, disbursements and printing, messenger and delivery services, and telephone costs;
- related fees and expenses.

We will record the new notes in our accounting records at the same carrying value as the old notes. This carrying value is the aggregate carrying value of the old notes less any bond discount, as reflected in our accounting records on the date of exchange. Accordingly, we will not recognize any gain or loss in connection with the exchange offer.

Other

Participation in the exchange offer is voluntary, and you should carefully consider whether to accept. You are urged to consult your advisor in making your own decision on what action to take.

USE OF PROCEEDS

The exchange offer is intended to satisfy our obligations under the registration rights agreement. We will not receive any proceeds in the exchange offer. In consideration for issuing the new notes as contemplated by this prospectus, we will receive old notes in a like proportion. Old notes surrendered in exchange for the new notes will not be reissued. Accordingly, the issuance of the new notes will not result in any change in outstanding indebtedness.

DESCRIPTION OF NOTES

You can find the definitions of certain terms used in this description under the caption “—Certain Definitions.” In this description only to Continental Resources, Inc. and not to any of its subsidiaries.

General

The Company will issue the new notes under the indenture dated as of September 16, 2010 (the “Indenture”) among itself, the Guarantor (a federal savings bank), as trustee (the “Trustee”). The terms of the new notes will include those stated in the Indenture and those made to the Trust Indenture Act of 1939, as amended.

The following is a summary of the material provisions of the Indenture. It does not restate the Indenture in its entirety. We urge you to read the Indenture and not this description, defines your rights as holders of the new notes. A copy of the Indenture is incorporated by reference into this prospectus. Terms used in this description but not defined below under “—Certain Definitions” have the meanings assigned to them in the Indenture.

The registered holder of a new note will be treated as the owner of it for all purposes. Only registered holders of the new notes will be entitled to vote and all references to “holders” in this description are to registered holders of the new notes.

If the exchange offer contemplated by this prospectus is consummated, holders of old notes who do not exchange those notes for new notes will vote together with holders of new notes for all relevant purposes under the Indenture. In that regard, the Indenture requires that certain actions must be taken, and certain rights must be exercised, by specified minimum percentages of the aggregate principal amount of the outstanding notes under the Indenture. In determining whether holders of the requisite percentage in principal amount have given any notice, consent or waiver or taken any action under the Indenture, any old notes that remain outstanding after the exchange offer will be aggregated with the new notes, and the holders of old notes will vote together as a single class for all such purposes. Accordingly, all references herein to specified percentages in aggregate principal amount of outstanding shall be deemed to mean, at any time after the exchange offer is consummated, such percentages in aggregate principal amount of notes then outstanding.

Principal, Maturity and Interest

The New Notes

The new notes:

- will be general unsecured senior obligations of the Company;
- will be issued in this exchange offer in an aggregate principal amount of up to \$400,000,000 but, subject to compliance with the “Certain Covenants—Limitation on Indebtedness,” additional notes may be issued in an unlimited principal amount (the “Aggregate Principal Amount”);

- will mature on April 1, 2021;

- will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Interest on the new notes will be payable commencing on April 1, 2011.

The principal, premium, if any, and interest on the notes will be payable and the notes will be exchangeable and transferable, at the option of the Company, maintained for such purposes or, at the option of the Company, payment of interest may be paid by check mailed to the address of the payee as that address appears in the security register. No service charge will be made for any registration of transfer or exchange or redemption of notes. Payment in certain circumstances of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with the redemption of notes is required to transfer or exchange any note for a period of 15 days before a selection of notes to be redeemed.

We have initially designated the corporate trust office of the Trustee in Wilmington, Delaware to act as our Paying Agent and Registrar. We reserve the right to designate the Paying Agent or Registrar without prior notice to the Holders of the notes, and the Company or any of its Restricted Subsidiaries may be required to indemnify the Paying Agent or Registrar.

We will pay principal, premium, if any, and interest on the notes in global form registered in the name of or held by The Depository Trust Company or its nominee, as the case may be, as the registered holder of such global notes.

Guarantees

Payment of the principal, premium, if any, and interest on the notes, when and as the same become due and payable, will be fully and jointly and severally, on a senior unsecured basis (the “Guarantees”) by the Guarantors. The Company’s only existing Subsidiary, Bannek, is the sole initial Guarantor, which currently has no independent assets or operations. However, in the circumstances described under “—Certain Guarantees by Restricted Subsidiaries,” the Company will cause certain future Restricted Subsidiaries to enter into a supplemental indenture with the Trustee. Each Restricted Subsidiary shall agree to guarantee the Company’s obligations under the notes jointly and severally with any other Guarantors on a senior unsecured basis. Unrestricted Subsidiaries will not become Guarantors. The Company currently has no Unrestricted Subsidiaries.

(2) if such Guarantor is a Restricted Subsidiary, the Company properly designates such Guarantor as an Unrestricted Subsidiary;

(3) if the Guarantee was required pursuant to the terms of the Indenture described under “—Certain Covenants—Issuances and Payments by Restricted Subsidiaries,” the cessation of the circumstances requiring such Guarantee;

(4) if the notes are discharged in accordance with the procedures described below under “—Defeasance or Covenant Defeasance—Satisfaction and Discharge;” or

(5) upon the liquidation or dissolution of such Guarantor;

Optional Redemption

On or after April 1, 2016, the Company may redeem, at any time, all or, from time to time, a portion of the notes issued under the Indenture, not more than 60 days prior notice, in amounts of \$1,000 or whole multiples of \$1,000 in excess thereof at the following redemption price (100% of the principal amount), set forth below plus accrued and unpaid interest, if any, thereon, to the applicable redemption date (subject to the right of the Company to record dates to receive interest due on an interest payment date), if redeemed during the twelve-month period beginning on April 1 of the year indicated below:

At least 65% of the aggregate principal amount of notes (including the principal amount of any Additional Notes issued under the Indenture) must remain outstanding immediately after the occurrence of such redemption. In order to effect such redemption, the Company must mail a notice of redemption no later than 60 days after the closing of the related Equity Offering and must complete such redemption by the closing of the Equity Offering.

At any time prior to April 1, 2016, the Company may also redeem all or a part of the notes, upon not less than 30 nor more than 60 days prior to the date of redemption, at a price equal to 100% of the principal amount of notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to the rights of holders of record on relevant record dates to receive interest due on an interest payment date.

Selection

If less than all of the notes are to be redeemed, the Trustee shall select the notes to be redeemed in compliance with the requirements of the applicable stock exchange, if any, on which the notes are listed, or if the notes are not listed, on a pro rata basis, by lot or by any other method the Trustee may determine (subject to the procedures of DTC or any other depository). Notes redeemed in part must be redeemed only in amounts of \$1,000 or whole multiples thereof. Redemption of the notes pursuant to the provisions relating to an Equity Offering must be made on a pro rata basis or on as nearly as practicable (subject to the procedures of DTC or any other depository).

Mandatory Redemption

The Company is not required to make mandatory redemption or sinking fund payments with respect to the notes.

Change of Control

If a Change of Control occurs, each holder of notes will have the right to require that the Company purchase all or any part (in an amount of \$1,000 in excess thereof) of such holder's notes pursuant to the offer described below (the "Change of Control Offer"). In the Change of Control Offer, the Company will offer to purchase all of the notes, at a purchase price (the "Change of Control Purchase Price") in cash in an amount equal to 101% of the principal amount of the notes plus accrued and unpaid interest, if any, to the date of purchase (the "Change of Control Purchase Date"), subject to the rights of holders of notes to receive interest due on an interest payment date.

Within 30 days after any Change of Control or, at the Company's option, prior to such Change of Control but after it is publicly announced, the Company will notify the Trustee and give written notice of the Change of Control to each holder of notes, by first-class mail, postage prepaid, at his address in the register. The notice must state, among other things,

- that a Change of Control has occurred or will occur and the date of such event;
- the circumstances and relevant facts regarding such Change of Control;
- the Change of Control Purchase Price and the Change of Control Purchase Date, which shall be fixed by the Company on a date not more than 30 days nor later than 60 days from the date the notice is mailed, or such later date as is necessary to comply with requirements of the Indenture, *provided* that the Change of Control Purchase Date may not occur prior to the Change of Control;

- that any note not tendered will continue to accrue interest;
- that, unless the Company defaults in the payment of the Change of Control Purchase Price, any notes accepted for payment under the Change of Control Offer shall cease to accrue interest after the Change of Control Purchase Date; and
- other procedures that a holder of notes must follow to accept a Change of Control Offer or to withdraw acceptance of the Change of Control Offer.

If a Change of Control Offer is made, the Company may not have available funds sufficient to pay the Change of Control Purchase Price. The Change of Control Purchase Price might be delivered by holders of the notes seeking to accept the Change of Control Offer. The failure of the Company to make or consummate the Change of Control Offer or to pay the Change of Control Purchase Price when due will give the Trustee and the holders of the notes the rights described under “—Events of Default.”

The Senior Credit Agreement provides that the occurrence of certain change of control events with respect to the Company would constitute an Event of Default under the Senior Credit Agreement, which would permit the lenders under the Senior Credit Agreement to accelerate the maturity of such Indebtedness. If such acceleration occurs, the Company will be obligated to repay amounts outstanding under such Indebtedness and a default would result under the Indenture. Any future credit agreements or other Indebtedness to which the Company becomes a party may contain similar restrictions and provisions. In the event a Change of Control occurs, the Company is prohibited from purchasing notes, the Company could seek the consent of the lenders under those agreements to the purchase of such notes or to refinance the borrowings that contain such prohibition. If the Company does not obtain such a consent or repay such borrowings, the Company will be prohibited from purchasing the notes. In such case, the Company’s failure to purchase tendered notes would constitute an Event of Default under the Indenture and likely constitute a default under such other Indebtedness. See “Risk Factors—Risks Relating to Investment in the Notes—We may not be able to repay the Notes in certain circumstances.”

The definition of Change of Control includes a phrase relating to the sale, lease, transfer, conveyance or other disposition of “all or substantially all of the assets of the Company.” The term “all or substantially all” as used in the definition of “Change of Control” has not been interpreted under New York law (the law of the Indenture) to represent a specific quantitative test. Therefore, if holders of the notes elected to exercise their rights under the Indenture in connection with a contest such election, it is not clear how a court interpreting New York law would interpret the phrase.

The existence of a holder’s right to require the Company to repurchase such holder’s notes upon a Change of Control may deter a holder from tendering notes to the Company in a transaction which constitutes a Change of Control.

The provisions of the Indenture will not afford holders of the notes the right to require the Company to repurchase the notes in connection with a Change of Control transaction or certain transactions with the Company’s management or its affiliates, including a reorganization, restructuring, merger or acquisition of the Company (in certain circumstances, an acquisition of the Company by management or its affiliates) involving the Company that may adversely affect the Company. A transaction is not a transaction defined as a Change of Control. A transaction involving the Company’s management or its affiliates, or a recapitalization of the Company, will result in a Change of Control if it is the type of transaction specified by such definition.

The Company will comply with the applicable tender offer rules, including Rule 14e-1 under the Exchange Act, and any other applicable securities laws and regulations in connection with a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture in connection with a Change of Control Offer, the Company will comply with the applicable securities laws and regulations and will not be deemed to have been affected or exempted therefrom above by virtue thereof.

FINAL PROSPECTUS SUPPLEMENT

The Company will not be required to make a Change of Control Offer (1) upon a Change of Control if a third party makes the Change of Control Offer in the same manner, at the times and otherwise in compliance with the requirements described in the Indenture applicable to a Change of Control Offer or (2) if the third party purchases all notes validly tendered and not withdrawn under such Change of Control Offer or (2) if notice of redemption for 100% of the outstanding notes has been given pursuant to the Indenture as described under the caption “—Optional Redemption,” unless and until the third party pays the applicable redemption price.

In the event that holders of not less than 90% of the aggregate principal amount of the outstanding notes accept a Change of Control Offer, the third party purchases all of the notes held by such holders, the Company will have the right, upon not less than 30 nor more than 60 days prior notice following the purchase pursuant to the Change of Control Offer described above, to redeem all of the notes that remain outstanding following the purchase at a price equal to 101% of the aggregate principal amount of notes redeemed plus accrued and unpaid interest, if any, thereon to the date of the purchase, to the holders of record on relevant record dates to receive interest due on an interest payment date.

Certain Covenants

Covenant Termination

In the event that at any time (a) the rating assigned to the notes by both S&P and Moody’s is at least an Investment Grade Rating, (b) the Credit Agreement cease to be secured and (c) no Default has occurred and is continuing under the Indenture, the Company and its Restricted Subsidiaries, subject to the provisions of the Indenture described below under “—Incurrence of Indebtedness and Issuance of Disqualified Stock,” “—Transactions with Affiliates,” “—Asset Sales,” “—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries” and “—Liens,” the Company will no longer be subject to the conditions in clauses (1) and (3) described below under “—Sale Leaseback Transactions” and “—Consolidation, Merger and Sale of Assets.” However, the Company will remain subject to the provisions of the Indenture described below under “—Issuances of Guarantees by Restricted Subsidiaries,” “—Liens,” “—Sale Leaseback Transactions” and “—Change of Control.”

The Indenture contains covenants including, among others, the following:

Incurrence of Indebtedness and Issuance of Disqualified Stock

(a) The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, create, issue, incur, assume, guarantee, or become directly or indirectly liable for the payment of or otherwise incur, contingently or otherwise (collectively, “incur”), any Indebtedness (including the issuance of Disqualified Stock), unless such Indebtedness is incurred by the Company or any Guarantor and, in each case, the Company’s Charge Coverage Ratio for the most recently ended four full fiscal quarters for which internal financial statements are available immediately prior to such Indebtedness taken as one period is at least equal to or greater than 2.25:1.

(b) Notwithstanding the foregoing, the Company and, to the extent specifically set forth below, the Restricted Subsidiaries may incur Indebtedness (collectively, the “Permitted Debt”):

(1) Indebtedness of the Company or any Guarantors (whether as borrowers or guarantors) under one or more Credit Facilities, the aggregate amount at any one time outstanding under this clause (1) not to exceed the greater of (x) \$1,000.0 million and (y) the sum of \$650 million and the Company’s Consolidated Net Tangible Assets;

- (3) Indebtedness of the Company or any Restricted Subsidiary outstanding on the Issue Date, and not otherwise referred to as "Debt;"
- (4) intercompany Indebtedness between or among the Company and any of its Restricted Subsidiaries; *provided, however*, any transfer of Capital Stock that results in any such Indebtedness being held by a Person other than the Company or a Restricted Subsidiary, or any other transfer of any such Indebtedness to a Person that is not either the Company or a Restricted Subsidiary thereof, shall be deemed to be the incurring of such Indebtedness by the Company or such Restricted Subsidiary, as the case may be, that was not permitted by this prospectus supplement;
- (5) guarantees of any Indebtedness of the Company or any of its Restricted Subsidiaries which is permitted to be incurred under the prospectus supplement;
- (6) Indebtedness of the Company or any Restricted Subsidiary that constitutes: (a) obligations pursuant to Interest Rate Agreements, provided that such obligations do not, on a net basis, exceed 105% of the aggregate principal amount of the Indebtedness covered by such Interest Rate Agreements; (b) obligations under currency exchange contracts and related hedging arrangements entered into in the ordinary course of business, provided that such hedging arrangements (including, without limitation, swaps, caps, floors, collars, options and similar agreements) entered into in the ordinary course of business for the purpose of mitigating against risks encountered in a Permitted Business;
- (7) Indebtedness of the Company or any Restricted Subsidiary represented by Capital Lease Obligations (whether or not in connection with leaseback transactions) or Purchase Money Obligations or other Indebtedness incurred or assumed in connection with the acquisition, development of real or personal, movable or immovable, property in each case incurred for the purpose of financing, refinancing, or the purchase price or cost of acquisition, construction, improvement or development of property used in the business of the Company or its Restricted Subsidiaries; *provided that* the aggregate principal amount incurred by the Company or any Restricted Subsidiary pursuant to this clause (7) shall not exceed the greater of (x) \$25.0 million and (y) 1.5% of Adjusted Consolidated Net Tangible Assets; *provided further that* the Indebtedness permitted under this clause (7) did not in each case at the time of incurring exceed the Fair Market Value, as determined under the definition of such term, of the acquired or constructed asset or improvement so financed;
- (8) Indebtedness of the Company or any Restricted Subsidiary under (a) one or more standby letters of credit issued by or for the benefit of a Restricted Subsidiary in the ordinary course of business and (b) other letters of credit, surety, bid, performance, appeal or similar letters of credit, completion guarantees or similar instruments; *provided that*, in each case contemplated by this clause (8), upon the drawing of such instrument, such obligations are reimbursed within 60 days following such drawing; *provided, further*, that with respect to clauses (a) and (b) above, such obligations are not in connection with the borrowing of money or the obtaining of advances or credit;
- (9) Indebtedness of the Company or any Restricted Subsidiary with respect to obligations relating to oil or gas balancing payments in the ordinary course of business;
- (10) Indebtedness of the Company to the extent the net proceeds thereof are promptly deposited to defease or satisfy the non-reliance on "Deafeasance or Covenant Defeasance of Indenture" or "—Satisfaction and Discharge;"
- (11) Indebtedness of the Company or any Restricted Subsidiary arising from agreements for indemnification or purchase price adjustments or similar obligations, earn-outs or other similar obligations or from guarantees or letters of credit, surety bonds or performance bonds of the Company or a Restricted Subsidiary pursuant to such an agreement, in each case incurred or assumed in connection with the acquisition of the business, assets or Capital Stock of a

Restricted Subsidiary or a Person that, contemporaneously with such acquisition or disposition, becomes a Restricted Subsidiary;

(12) Permitted Refinancing Indebtedness of the Company or any Restricted Subsidiary issued in exchange for, or the net proceeds of, the extension, substitution, defease, refund, refinance or replacement of any Indebtedness, including any Disqualified Stock, incurred pursuant to paragraphs (1) through (11) of this definition of "Permitted Debt;"

(13) if the Company could incur \$1.00 of additional Indebtedness pursuant to paragraph (a) above after giving effect to such Indebtedness;

(14) Indebtedness of the Company or any Restricted Subsidiary in addition to that described in clauses (1) through (13) above, including substitutions, refinancings or replacements of such Indebtedness, so long as the aggregate principal amount of all such Indebtedness shall not exceed the greater of (x) \$50.0 million and (y) 3.0% of Adjusted Consolidated Net Tangible Assets.

For purposes of determining compliance with this "Incurrence of Indebtedness and Issuance of Disqualified Stock" covenant, in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness permitted by this covenant, the Company in its sole discretion may from time to time, reclassify all or any portion of such item of Indebtedness and only be required to include the amount of such Indebtedness in the aggregate amount of Indebtedness (and not divide such Indebtedness between two or more of such types); *provided* that Indebtedness under a Credit Facility which was incurred on or after the Issue Date (after giving effect to the application of proceeds of notes), the Issue Date, and any renewals, extensions, substitutions, refundings, refinancings or replacements shall be deemed to have been incurred pursuant to clause (1) of paragraph (b) above rather than paragraph (a) above.

Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness but may be permitted by such provision and in part by one or more other provisions of this covenant permitting such Indebtedness.

Accrual of interest, accretion or amortization of original issue discount and the payment of interest on any Indebtedness in the form of Disqualified Stock or Preferred Stock on the same terms, and the accretion or payment of dividends on any Disqualified Stock or Preferred Stock in the form of additional shares of Disqualified Stock or Preferred Stock will not be deemed to be an incurrence of Indebtedness for purposes of this covenant; *provided*, in each such case, the amount of interest accrued shall be included as required in the calculation of the Consolidated Fixed Charge Coverage Ratio of the Company.

For purposes of determining compliance with any dollar-denominated restriction on the incurrence of Indebtedness denominated in a foreign currency, the equivalent principal amount of such Indebtedness incurred pursuant thereto shall be calculated based on the relevant currency exchange rate in effect at the time the Indebtedness was incurred.

If Indebtedness is secured by a letter of credit that serves only to secure such Indebtedness, then the total amount deemed incurred pursuant to this covenant by such letter of credit shall be equal to the greater of (x) the principal of the Indebtedness so secured by such letter of credit and (y) the amount of the letter of credit.

The amount of Indebtedness issued at a price less than the amount of the liability thereof shall be determined in accordance with the terms of the Indebtedness.

Restricted Payments

(a) The Company will not, and will not cause or permit any Restricted Subsidiary to, directly or indirectly:

(1) pay any dividend on, or make any distribution to holders of, any shares of the Company's Capital Stock (other than dividends payable solely in shares of the Company's Qualified Capital Stock);

The amount of all Restricted Payments (other than cash Restricted Payments) shall be valued on the date of the transfer, incurrence or issuance of such non-cash Restricted Payment.

Transactions with Affiliates

The Company will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, enter into any transactions (including, without limitation, the sale, purchase, exchange or lease of assets, property or services) with or for the benefit of any Affiliate (other than the Company or a Restricted Subsidiary of the Company) unless such transaction or series of related transactions is entered into:

(2) with respect to any transaction or series of related transactions involving aggregate consideration in excess of \$25.0 million, such transaction or series of related transactions has been approved by a majority of the Disinterested Directors of the board of directors of the Company, or in the case of a Restricted Subsidiary, by such Disinterested Director, or

(3) with respect to any transaction or series of related transactions involving aggregate consideration in excess of \$50.0 million, the Company or such Restricted Subsidiary has obtained a written opinion of an investment banking firm of national standing or other recognized independent expert with experience in the type of transaction or series of related transactions for which an opinion is required stating that the transaction or series of related transactions is in the best interests of the Company or such Restricted Subsidiary from a financial point of view;

such Asset Sale at least equal to the Fair Market Value of the assets and property subject to such Asset Sale and (ii) at least 75% of the cash proceeds of such Asset Sale or such Restricted Subsidiary in connection with such Asset Sale and all other Asset Sales since the Issue Date, on a cumulative basis, is used to pay Cash Equivalents, Liquid Securities, Exchanged Properties (including pursuant to asset swaps) or the assumption by the purchaser of liabilities (including the liabilities of the Company that are by their terms subordinated to the notes) or liabilities of any Guarantor that made such Asset Sale (other than liabilities that are by their terms subordinated to such Guarantor's Guarantee), or any combination of the foregoing, in each case as a result of which such Restricted Subsidiaries are no longer liable for such liabilities, or, solely in the case of any Asset Sale of Production Facility or Pipeline, *provided*, that any Asset Sale pursuant to a condemnation, appropriation or other similar taking, including by deed in lieu of condemnation, or the other enforcement of a Lien incurred not in breach of the covenant described above under the caption "—Liens" or exercise by the related party with respect thereto, including by deed or assignment in lieu of foreclosure shall not be required to satisfy the conditions set forth in clauses (i) and (ii).

(b) Within 365 days after the receipt by the Company or a Restricted Subsidiary of Net Available Cash from an Asset Sale, such Net Available Cash shall be used by the Company or such Restricted Subsidiary, to the extent the Company or such Restricted Subsidiary elects (or is required by the terms of the Indenture) to the Company or a Restricted Subsidiary), to

provided, that the Company or the applicable Restricted Subsidiary will be deemed to have complied with clause (2) of this paragraph (b) if, after such Asset Sale, the Company or such Restricted Subsidiary shall have commenced and not completed or abandoned an expenditure or Investment, or shall have made an expenditure or Investment, in compliance with such clause (2), and that expenditure or Investment is substantially completed within 365 days after the date of such Asset Sale. Pending the final application of any such Net Available Cash, the Company may temporarily reduce Investment in a Production Facility or otherwise expend or invest such Net Available Cash in any manner that is not prohibited by the Indenture.

(c) Any Net Available Cash from an Asset Sale not applied in accordance paragraph (b) above within 365 days (or within one year after the date of such Asset Sale) shall constitute "Excess Proceeds." When the aggregate amount of Excess Proceeds exceeds \$20.0 million, the Company shall be required to make an offer to purchase notes having an aggregate principal amount equal to the aggregate amount of Excess Proceeds (the purchase price equal to 100% of the principal amount of such notes plus accrued and unpaid interest, if any, to the Asset Sale Purchase Date (as determined in accordance with the procedures (including prorating in the event of over subscription) set forth in the Indenture, but, if the terms of any Pari Passu Offer be made contemporaneously with the Prepayment Offer, then the Excess Proceeds shall be prorated between the Prepayment Offer and the Pari Passu Offer in accordance with the aggregate outstanding principal amounts of the notes and such Pari Passu Indebtedness, and the aggregate principal amount of the notes tendered to the Prepayment Offer is made shall be reduced accordingly. To the extent that any portion of the amount of Excess Proceeds remains after compliance with paragraph (c) and provided that all holders of notes have been given the opportunity to tender their notes for purchase as described in paragraph (c) with the Indenture, the Company and its Restricted Subsidiaries may use such remaining amount for purposes not prohibited by the Indenture. Proceeds will be reset to zero.

(d) Within 30 days after the 365th day following, or the date one year and six months following, the date of an Asset Sale (as the Company is obligated to make an offer to purchase the notes pursuant to paragraph (c) above, send a written Prepayment Offer notice, by first-class mail, and to the Trustee (the "Prepayment Offer Notice"), accompanied by such information regarding the Company and its Subsidiaries as the Company deems appropriate, to such holders of the notes to make an informed decision with respect to the Prepayment Offer. The Prepayment Offer Notice will state, among other things,

- (1) that the Company is offering to purchase notes pursuant to the provisions of the Indenture;
- (2) that any note (or any portion thereof) accepted for payment (and duly paid on the Asset Sale Purchase Date) pursuant to the provisions of the Indenture will not accrue interest on the Asset Sale Purchase Date;
- (3) that any notes (or portions thereof) not properly tendered will continue to accrue interest;

The Company will be deemed to have furnished such reports to the Trustee and the holders of notes if it has filed such reports with the EDGAR filing system and such reports are publicly available.

Consolidation, Merger and Sale of Assets

The Indenture provides that the Company will not, in a single transaction or through a series of related transactions, consolidate with any Person or sell, assign, convey, transfer, lease or otherwise dispose of all or substantially all of its properties and assets to any Person or group of its Restricted Subsidiaries to enter into any such transaction or series of transactions, if such transaction or series of transactions, in the aggregate, results in an assignment, conveyance, transfer, lease or disposition of all or substantially all of the properties and assets of the Company and its Restricted Subsidiaries on a basis to any other Person or group of Persons (other than the Company or a Guarantor), unless at the time and after giving effect thereto:

(1) either (a) the Company will be the continuing corporation or (b) the Person (if other than the Company) formed by such transaction if the Company is merged or the Person which acquires by sale, assignment, conveyance, transfer, lease or disposition all or substantially all of the Company and its Restricted Subsidiaries on a Consolidated basis (the "Surviving Entity") will be a corporation, limited liability company or partnership (provided that in the event the Surviving Entity is a limited partnership, then a Subsidiary of the Surviving Entity that is a corporation shall execute a supplemental indenture pursuant to which it shall become a co-obligor of the Surviving Entity's obligations under the Indenture) organized and validly existing under the laws of the United States of America, any state thereof or the District of Columbia and such supplemental indenture, in a form reasonably satisfactory to the Trustee, all the obligations of the Company under the notes and the Indenture will remain in full force and effect as so supplemented (and any Guarantees will be confirmed as applying to such Surviving Entity);

(2) immediately after giving effect to such transaction on a pro forma basis (and treating any Indebtedness not previously assumed by any of its Restricted Subsidiaries which becomes the obligation of the Company or any of its Restricted Subsidiaries as a result of such transaction) incurred at the time of such transaction), no Default or Event of Default will have occurred and be continuing;

(3) except in the case of a merger of the Company with or into a Restricted Subsidiary or a Restricted Subsidiary with or into the Company, or a sale, assignment, conveyance, transfer, lease or other disposition of properties or assets to the Company;

(4) unless the Company is the continuing obligor under the Indenture, at the time of the transaction, each Guarantor, if any, in connection with the transactions described above, will have by supplemental indenture confirmed that its Guarantee shall apply to such Person’s obligations under the notes;

(5) at the time of the transaction, if any of the property or assets of the Company or any of its Restricted Subsidiaries would be subject to a Lien, the provisions of “—Certain Covenants—Liens” are complied with; and

(6) at the time of the transaction, the Company or the Surviving Entity will have delivered, or caused to be delivered, to the lender an opinion of counsel, each to the effect that such consolidation, merger, transfer, sale, assignment, conveyance, transfer, lease or disposition of all or substantially all of the assets of the Company or any of its Restricted Subsidiaries, as described in the supplemental indenture in respect thereof comply with the Indenture.

Except as provided under the third paragraph of “Guarantees,” each Guarantor will not, and the Company will not permit a Guarantor to, through a series of related transactions, (x) consolidate with or merge with or into any other Person (other than the Company or any other Person) or convey, transfer, lease or otherwise dispose of all or substantially all of its properties and assets to any Person or group of Persons (other than the Company or any other Person) or permit any of its Restricted Subsidiaries to enter into any such transaction or series of transactions if such transaction or series of transactions, in the aggregate, in the case of clause (y) would result in a sale, assignment, conveyance, transfer, lease or disposition of all or substantially all of the assets of the Guarantor and its Restricted Subsidiaries on a Consolidated basis to any other Person or group of Persons (other than the Company or any other Person) after giving effect thereto:

(1) either (a) the Guarantor or the Company or another Guarantor will be the continuing Person in the case of a merger involving the Guarantor or the Company or another Guarantor (if other than the Guarantor) formed by such consolidation or into which such Guarantor is merged or the Person which acquires the Guarantor or the Company or another Guarantor by conveyance, transfer, lease or disposition of all or substantially all of the properties and assets of the Guarantor and its Restricted Subsidiaries on a Consolidated basis (the “Surviving Guarantor Entity”) expressly assumes, by a supplemental indenture, in a form reasonably satisfactory to the lender, the Guarantor under its Guarantee of the notes and the Indenture, and such Guarantee and the Indenture will remain in full force and effect;

(2) immediately before and immediately after giving effect to such transaction on a pro forma basis, no Default or Event of Default shall have occurred and be continuing; and

(3) at the time of the transaction such Guarantor or the Surviving Guarantor Entity will have delivered, or caused to be delivered, to the lender a certificate and an opinion of counsel, each to the effect that such consolidation, merger, transfer, sale, assignment, conveyance, transfer, lease or disposition of all or substantially all of the assets of the Guarantor and its Restricted Subsidiaries, as described in the supplemental indenture in respect thereof comply with the Indenture;

provided, however, that this paragraph shall not apply to any Guarantor whose Guarantee of the notes is unconditionally released under the terms of the Indenture.

In the event of any transaction (other than a lease) described in and complying with the conditions listed in the two immediately preceding paragraphs, if the Company or any Guarantor, as the case may be, is not the continuing Person, the successor Person formed or remaining or to which such

Notwithstanding the foregoing, the Company or any Guarantor may merge with an Affiliate of it incorporated or organized solely in or reorganizing the Company or Guarantor in another jurisdiction to realize tax or other benefits.

Events of Default

The Indenture provides that an Event of Default will occur if:

(1) there shall be a default in the payment of any interest on any note when it becomes due and payable, and such default shall continue for 30 days;

(2) there shall be a default in the payment of the principal of (or premium, if any, on) any note at its Maturity (upon acceleration, redemption, if any, required repurchase or otherwise);

(3) there shall be a default in the performance or breach of the provisions described under “—Consolidation, Merger and Sale of Assets” if the Company or any Guarantor has failed to make or consummate a Prepayment Offer in accordance with the provisions of “—Certain Covenants—Asset Sales” or if the Company or any Guarantor has failed to make or consummate a Change of Control Offer in accordance with the provisions of “—Change of Control;”

(4) there shall be a default in the performance, or breach, of any covenant or agreement of the Company or any Guarantor under its Guarantee (other than a default in the performance, or breach, of a covenant or agreement which is specifically dealt with in clause (1) through (3)) and such default or breach shall continue for a period of 60 days (or 180 days in relation to the covenant described under “—Certain Covenants—Change of Control”) after notice has been given, by certified mail, (i) to the Company by the Trustee or (ii) to the Company and the Trustee by the holders of the principal amount of the outstanding notes;

(5)(a) any default in the payment of the principal, premium, if any, or interest on any Indebtedness shall have occurred under any indentures or instruments under which the Company, any Guarantor or any other Significant Subsidiary then has outstanding Indebtedness when the same shall become due and payable in full and such default shall have continued after any applicable notice or grace period has expired or waived or such amount repaid, and, if not already matured at its final maturity in accordance with its terms, the holder of such Indebtedness shall have accelerated such Indebtedness or (b) an event of default as defined in any of the agreements, indentures or instruments described in clause (1) through (4) shall have occurred and the Indebtedness thereunder, if not already matured at its final maturity in accordance with its terms, shall have been accelerated and such acceleration shall not have been rescinded or such Indebtedness repaid;

(6) any Guarantee shall for any reason cease to be, or shall for any reason be asserted in writing by any Guarantor or the Trustee, and such Guarantee shall not be enforceable in accordance with its terms, except to the extent contemplated by the Indenture and any such Guarantee;

(7) one or more judgments, orders or decrees of any court or regulatory or administrative agency for the payment of money (excluding amounts covered by enforceable insurance policies issued by solvent insurance carriers), either individually or in the aggregate, shall be entered against the Company, any Guarantor or any other Significant Subsidiary or any of their respective properties

and shall not be discharged and either (a) any creditor shall have commenced an enforcement proceeding upon such judgment, or (b) there has been a period of 60 consecutive days during which a stay of enforcement of such judgment or order, by reason of an appeal or other proceeding, has been in effect.

(8) the occurrence of certain events of bankruptcy, insolvency or reorganization with respect to the Company or any Significant Subsidiary.

If an Event of Default (other than as specified in clause (8) of the prior paragraph with respect to the Company) shall occur and be continuing at the time of the maturity of the Indenture, the Trustee or the holders of not less than 25% in aggregate principal amount of the notes then outstanding may, and the Trustee shall, declare all unpaid principal of, premium, if any, and accrued interest on all notes to be due and payable immediately, by a notice in writing to the Trustee if given by the holders of the notes), and upon any such declaration, such principal, premium, if any, and interest shall become immediately payable. If an Event of Default specified in clause (8) of the prior paragraph occurs and is continuing with respect to the Company, then all the notes then outstanding shall be immediately payable in an amount equal to the principal amount of the notes, together with accrued and unpaid interest, if any, to the date of such declaration, without any declaration or other act on the part of the Trustee or any holder of notes. Thereupon, the Trustee may, at its discretion, exercise the rights of the holders of notes by appropriate judicial proceedings.

After a declaration of acceleration, but before a judgment or decree for payment of the money due has been obtained by the Trustee, the holders of an aggregate principal amount of notes outstanding by written notice to the Company and the Trustee, on behalf of the holders of notes, may rescind such declaration and its consequences if:

(a) the Company has paid or deposited with the Trustee a sum sufficient to pay (1) all sums paid or advanced by the Trustee for the notes, plus reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, (2) all overdue interest on all notes, plus principal of, and premium, if any, on any notes then outstanding which have become due otherwise than by such declaration of acceleration, (3) the rate borne by the notes and (4) to the extent that payment of such interest is lawful, interest upon overdue interest at the rate borne by the notes;

(b) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction; and

(c) all Events of Default, other than the non-payment of principal of, premium, if any, and interest on the notes which have caused the declaration of acceleration, have been cured or waived as provided in the Indenture.

No such rescission shall affect any subsequent default or impair any right consequent thereon.

The holders of a majority in aggregate principal amount of the notes outstanding, by written notice to the Trustee and the Company, may waive all such outstanding notes waive any existing Default or Event of Default under the Indenture and its consequences, except a continuing covenant to pay the principal of, premium, if any, or interest on any note (which may only be waived with the consent of each holder of notes affected by such amendment or provision which under the Indenture cannot be modified or amended without the consent of the holder of each note affected by such amendment.

No holder of any of the notes has any right to institute any proceedings with respect to the Indenture or any remedy thereunder, unless, after being given the Trustee written notice that an Event of Default has occurred and is continuing, (i) the holders of at least 25% in aggregate principal amount of the notes have made written request to the Trustee to institute a proceeding or pursue a remedy, (ii) such holders

have offered reasonable security or indemnity to the Trustee to institute such proceeding or pursue such remedy as Trustee under the notes. If the Trustee has failed to institute such proceeding or pursue such remedy within 30 days after receipt of such notice and such offer of security or indemnity, and within such 30-day period, has not received directions inconsistent with such written request by holders of a majority in aggregate principal amount of the notes. Such limitations do not, however, apply to a suit instituted by a holder of a note for the enforcement of the payment of the principal of such note on or after the respective due dates expressed in such note.

The Company is required to notify the Trustee on or before the thirtieth day after it has knowledge of the occurrence and continuation of an Event of Default. The Company is required to deliver to the Trustee, on or before a date not more than 90 days after the end of each fiscal year, a written statement as to whether or not any Default has occurred during the previous year and is then continuing. Subject to the provisions of the Indenture, if an Event of Default has occurred and is continuing, the Trustee is under no obligation to exercise any of the rights or powers vested in it by the Indenture at the request or direction of any of the holders of the notes unless such holders offer to the Trustee security or indemnity satisfactory to the Trustee and liabilities which might be incurred thereby and complied with any other applicable provisions of the Indenture.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, manager, incorporator, member, partner or stockholder or other owner of Capital Stock of the Company, as such, will have any liability for any obligations of the Company, any Guarantor or any other Restricted Subsidiary under the notes, the Indenture or any agreement to which they are a party, or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder of notes by accepting such notes releases all such liability. The waiver and release are part of the consideration for issuance of the notes. The waiver may not be effective under certain federal securities laws, and it is the view of the Commission that such waiver is against public policy.

Defeasance or Covenant Defeasance of Indenture

The Company may, at its option and at any time, elect to have all obligations of the Company discharged with respect to the Indenture and all obligations of the Guarantors discharged with respect to the Guarantees with respect to the Indenture and such notes (“defeasance”). Should the Company, any such Guarantor and any other obligor under the Indenture, the notes and the Guarantees shall be deemed to have paid and performed all obligations represented by the outstanding notes and the Guarantees, and all shall be discharged from the payment and performance of all other obligations with respect to the notes and Guarantees, except for:

- (1) the rights of holders of such outstanding notes to receive payments in respect of the principal of, premium, if any, and interest on such notes if payments are scheduled to be due from Funds in Trust (as defined below),
- (2) the Company’s obligations with respect to the holders of notes concerning issuing temporary notes, registration of notes, stolen notes, and the maintenance of an office or agency for payment and money for security payments held in trust,
- (3) the rights, powers, trusts, duties and immunities of the Trustee and
- (4) the provisions of the Indenture with respect to defeasance.

In addition, the Company may, at its option and at any time, elect to have the obligations of the Company and any Guarantor released from the obligations that are described under “—Change of Control” and “—Certain Covenants” and the limitations in clause (3) of the covenant described under “—Sale of Assets” (“covenant defeasance”) and thereafter any omission to comply with such obligations

shall not constitute a Default or an Event of Default. In the event covenant defeasance occurs, the Events of Default described in clauses “—Events of Default” will no longer constitute an Event of Default with respect to the notes.

In order to exercise either defeasance or covenant defeasance with respect to the notes,

(a) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the holders of the notes cash in United States Dollars or Obligations or a combination thereof (“Funds in Trust”), in such amounts as, in the aggregate, will be sufficient, in the opinion of a nationally recognized independent public accountants or a nationally recognized investment banking firm, to pay and discharge the principal of, premium, if any, on the notes on the Stated Maturity (or the applicable redemption date, if at or prior to electing either defeasance or covenant defeasance, the Company gives an irrevocable notice to redeem all of the outstanding notes on such redemption date, and the Company must specify whether the notes are to be redeemed on a particular redemption date);

(b) in the case of defeasance, the Company shall have delivered to the Trustee an opinion of independent counsel in the United States confirming that (A) the Company has received from, or there has been published by, the Internal Revenue Service a ruling or (B) there has not been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion of counsel shall confirm that the outstanding notes will not recognize income, gain or loss for federal income tax purposes as a result of such defeasance and will be subject to the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred;

(c) in the case of covenant defeasance, the Company shall have delivered to the Trustee an opinion of independent counsel in the United States to the Trustee confirming that the holders of the outstanding notes will not recognize income, gain or loss for federal income tax purposes as a result of such defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred;

(d) no Default or Event of Default shall have occurred and be continuing on the date of such deposit (other than an Event of Default or the incurrence of Indebtedness or Liens securing such Indebtedness, all or a portion of the proceeds of which will be applied to such deposit) if the first paragraph under “—Events of Default” is concerned, at any time during the period ending on the 91st day after the date of deposit;

(e) such deposit shall not result in a breach of, or constitute a default under, any material agreement or instrument (other than the indenture) to which any Guarantor or any Restricted Subsidiary is a party or by which it is bound or if such breach or default would occur, which is not waived after, the date of such deposit;

(f) such deposit shall not result in the trust arising from such deposit constituting an investment company within the meaning of the Investment Company Act of 1940, as amended, unless such trust shall be registered under such Act or exempt from registration thereunder;

(g) the Company will have delivered to the Trustee an opinion of counsel in the United States reasonably acceptable to the Trustee confirming that no holder of the notes would be considered an insider of the Company or any Guarantor under any applicable bankruptcy or insolvency law (including any bankruptcy or insolvency of the Company or any Guarantor between the date of deposit and the 91st day following the deposit) after the date of deposit and the trust funds will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights.

(i) the Company will have delivered to the Trustee an officers' certificate and an opinion of counsel, each stating that all conditions precedent to defeasance or the covenant defeasance, as the case may be, have been complied with.

The Indenture will be discharged and will cease to be of further effect (except as to surviving rights of registration of transfer or exchange otherwise expressly provided for in the Indenture) as to all such outstanding notes issued thereunder when

(a) either

(1) all such notes theretofore authenticated and delivered (except lost, stolen or destroyed notes which have been replaced or reissued) have been deposited in trust or segregated and held in trust by the Company and thereafter repaid to the Company or discharged from the Indenture) have been delivered to the Trustee for cancellation or

Governing Law

The Indenture, the notes and Guarantees are to be governed by, and construed in accordance with, the laws of the State of New York.

Concerning the Trustee

Wilmington Trust FSB, the Trustee under the Indenture, is also the initial paying agent and registrar for the notes. Such bank also serves as the paying agent and registrar for our 8^{1/4}% Senior Notes due 2019 and our 7^{3/8}% Senior Notes due 2020.

The Indenture contains certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other business with the Company, but if it acquires any conflicting interest while any Default exists it must eliminate such conflict within 90 days, apply to the Commission for approval, or resign as Trustee.

The holders of a majority in aggregate principal amount of the then outstanding notes will have the right to direct the time, method and place of proceeding for exercising any remedy available to the Trustee under the Indenture, subject to certain exceptions. The Indenture provides that if such remedy is not exercised within the time specified in the Indenture (which has not been cured), the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of such business. Under such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any holder of notes unless such holder shall have offered to the Trustee security or indemnity satisfactory to it against any loss, liability or expense.

Book-Entry; Delivery and Form

Global Notes

The new notes, like the old notes, will be issued in the form of one or more fully registered notes in global form, without interest coupons, and deposited with the Trustee, as custodian for The Depository Trust Company (“DTC”), and registered in the name of Cede & Co., as nominee for DTC.

Ownership of beneficial interests in each global note will be limited to persons who have accounts with DTC (“DTC participants”) and who hold such interests through DTC participants. We expect that under procedures established by DTC:

- upon deposit of each global note with DTC’s custodian, DTC will credit portions of the principal amount of the global note to the accounts of DTC participants that have tendered the old notes to the account designated by the exchange agent; and

- ownership of beneficial interests in each global note will be shown on, and transfer of ownership of those interests will be maintained by DTC (with respect to interests of DTC participants) and the records of DTC participants (with respect to other global notes).

Beneficial interests in the global notes may not be exchanged for notes in physical, certificated form except in the limited circumstances set forth in the indenture.

Book-Entry Procedures for the Global Notes

All interests in the global notes will be subject to the operations and procedures of DTC, including its participants, Euroclear Bank S.A. (the "Euroclear System"), and Clearstream Banking S.A. ("Clearstream"). We provide the following summaries of those operations and procedures for the convenience of investors. The operations and procedures of each settlement system are controlled by that settlement system and may be subject to change without notice.

- Neither we nor the Trustee is responsible for those operations or procedures.
- DTC has advised us that it is:
 - a limited purpose trust company organized under the laws of the State of New York;
 - a "banking organization" within the meaning of the New York State Banking Law;
 - a member of the Federal Reserve System;
 - a "clearing corporation" within the meaning of the Uniform Commercial Code; and
 - a "clearing agency" registered under Section 17A of the Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes to the accounts of its participants. DTC's participants include securities brokers and dealers, including the clearing companies, clearing corporations, and other organizations. Indirect access to DTC's system is also available to others such as banks, broker-dealers, and other financial institutions. These indirect participants clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. Investors may beneficially own securities held by or on behalf of DTC only through DTC participants or indirect participants in DTC.

So long as DTC's nominee is the registered owner of a global note, that nominee will be considered the sole owner or holder of the global note for all purposes under the indenture. Except as provided below, owners of beneficial interests in a global note:

- will not be entitled to have notes represented by the global note registered in their names;
- will not receive or be entitled to receive physical, certificated notes; and
- will not be considered the owners or holders of the notes under the indenture for any purpose, including with respect to the exercise of any rights or approval to the Trustee.

As a result, each investor who owns a beneficial interest in a global note must rely on the procedures of DTC to exercise any rights under the Indenture (and, if the investor is not a participant or an indirect participant in DTC, on the procedures of the DTC participant through which the investor holds its interest).

Payments of principal, premium (if any), and interest with respect to the new notes represented by a global note will be made by the Trustee to the registered holder of the global note. Neither we nor the Trustee is responsible for those operations or procedures.

the Trustee will have any responsibility or liability for the payment of amounts to owners of beneficial interests in a global note, for any payments made on account of those interests by DTC, or for maintaining, supervising, or reviewing any records of DTC relating to those

Payments by participants and indirect participants in DTC to the owners of beneficial interests in a global note will be governed by customary industry practice and will be the responsibility of those participants or indirect participants and DTC.

Transfers between participants in DTC will be effected under DTC's procedures and will be settled in same-day funds. Transfers to or Clearstream will be effected in the ordinary way under the rules and operating procedures of those systems.

Cross market transfers between DTC participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through the DTC participants that are acting as depositaries for Euroclear and Clearstream. To deliver or receive an interest in a global note to or from a Clearstream account, an investor must send transfer instructions to Euroclear or Clearstream, as the case may be, under the rules and procedures of the established deadlines of that system. If the transaction meets its settlement requirements, Euroclear or Clearstream, as the case may be, as depositary to take action to effect final settlement by delivering or receiving interests in the relevant global notes in DTC, and making or following the procedures for same-day funds settlement applicable to DTC. Euroclear and Clearstream participants may not deliver instructions directly to DTC acting for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant that purchases an interest in a global note will be credited on the business day for Euroclear or Clearstream immediately following the DTC settlement date. Cash received in Euroclear or Clearstream for an interest in a global note to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant cash account as of the business day for Euroclear or Clearstream following the DTC settlement date.

DTC, Euroclear, and Clearstream have agreed to the above procedures to facilitate transfers of interests in the global notes among the settlement systems. However, the settlement systems are not obligated to perform these procedures and may discontinue or change these procedures. The Trustee will have any responsibility for the performance by DTC, Euroclear, or Clearstream, or their participants or indirect participants, and procedures governing their operations.

Certificated Notes

New notes in physical, certificated form will be issued and delivered to each person that DTC identifies as a beneficial owner of the

- DTC notifies us at any time that it is unwilling or unable to continue as depositary for the global notes and a successor depositary is not appointed within 30 days;
- DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depositary is not appointed within 30 days;
- we, at our option, notify the Trustee that we elect to cause the issuance of certificated notes.

Each broker-dealer that receives new notes for its own account pursuant to the exchange offer in exchange for old notes that were acquired as a result of market-making or other trading activities must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. This prospectus may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for old notes that were acquired as a result of market-making activities or other trading activities.

If you wish to exchange new notes for your old notes in the exchange offer, you will be required to make representations to us as set forth in the “Purpose and Effect of the Exchange Offer” and “—Procedures for Tendering—Your Representations to Us” in this prospectus and in the exchange offer. MATERIAL UNITED STATES FEDERAL TAX CONSEQUENCES

The following discussion is a summary of the material federal income tax considerations relevant to the exchange of old notes for new notes. This discussion is not intended to be a complete analysis of all potential tax effects. The discussion is based upon the Internal Revenue Code of 1986, as amended (the “Code”), Internal Revenue Service rulings and pronouncements and judicial decisions now in effect, all of which may be subject to change at any time by legislative or administrative action. These changes may be applied retroactively in a manner that could adversely affect a holder of new notes. Some holders, such as banks, insurance companies, institutions, insurance companies, regulated investment companies, tax-exempt organizations, dealers in securities or currencies, persons who hold the notes in a foreign currency, the U.S. dollar, or persons who hold the notes as part of a hedge, conversion transaction, straddle or other risk reduction transaction may be affected differently than those discussed below. We recommend that each holder consult his own tax advisor as to the particular tax consequences of exchanging such notes, including the applicability and effect of any foreign, state, local or other tax laws or estate or gift tax considerations.

We believe that the exchange of old notes for new notes will not be an exchange or otherwise a taxable event to a holder for United States federal income tax purposes. Accordingly, a holder will not recognize gain or loss upon receipt of a new note in exchange for an old note in the exchange, and the holding period in the new note will be the same as its basis and holding period in the corresponding old note immediately before the exchange.

LEGAL MATTERS

The validity of the new notes offered in this exchange offer will be passed upon for us by Latham & Watkins LLP, Houston, Texas, based on the opinion of Donald P. Fischbach, our General Counsel, with respect to the due authorization, execution and delivery of the indenture by the issuer and its subsidiary guarantor under Oklahoma law.
