#### **Selected Risk Considerations**

An investment in the securities involves significant risks. These risks are explained in more detail in the "Risk Factors" section of supplement.

- THE SECURITIES ARE SUBJECT TO THE CREDIT RISK OF CREDIT SUISSE Although the return on the securities, the payment of any amount due on the securities, including any applicable interest payments and the redemption risk of Credit Suisse. Investors are dependent on our ability to pay all amounts due on the securities and, therefore, risk. In addition, any decline in our credit ratings, any adverse changes in the market's view of our creditworthiness of its likely to adversely affect the value of the securities prior to maturity.
- CERTAIN BUILT-IN COSTS ARE LIKELY TO ADVERSELY AFFECT THE VALUE OF THE SECURITIES PRIOR T
  at maturity described in this pricing supplement is based on the full principal amount of your securities, the original is
  the agent's commission and the cost of hedging our obligations under the securities through one or more of our affilia
  which Credit Suisse (or its affiliates), will be willing to purchase securities from you in secondary market transactions
  the original issue price, and any sale prior to the Maturity Date could result in a substantial loss to you. The securitie
  trading instruments. Accordingly, you should be able and willing to hold your securities to maturity.
- LACK OF LIQUIDITY The securities will not be listed on any securities exchange. Credit Suisse (or its affiliates) securities in the secondary market but is not required to do so. Even if there is a secondary market, it may not provi trade or sell the securities when you wish to do so. Because other dealers are not likely to make a secondary market which you may be able to trade your securities is likely to depend on the price, if any, at which Credit Suisse (or its a securities. If you have to sell your securities prior to maturity, you may not be able to do so or you may have to sell to sell to sell to do so or you may have to sell to sell to do so or you may have to sell to sell to do so or you may have to sell to sell to do so or you may have to sell to sell to do so or you may have to sell to sell to do so or you may have to sell to sell to do so or you may have to sell to sell to do so or you may have to sell to sell to do so or you may have to sell to sell to sell to sell to do so or you may have to sell to se
- POTENTIAL CONFLICTS We and our affiliates play a variety of roles in connection with the issuance of the securagent and hedging our obligations under the securities. In performing these duties, the economic interests of the calculations are potentially adverse to your interests as an investor in the securities.
- MANY ECONOMIC AND MARKET FACTORS WILL AFFECT THE VALUE OF THE SECURITIES The value of number of economic and market factors that may either offset or magnify each other, including:
  - the time to maturity of the securities;
  - changes in U.S. interest and swap rates;
  - o interest and yield rates in the market generally;
  - o investors' expectations with respect to the rate of inflation;
  - o geopolitical conditions and a variety of economic, financial, political, regulatory or judicial events that affect markets generally; and
  - o our creditworthiness, including actual or anticipated downgrades in our credit ratings.
