**ADDITIONAL INFORMATION ABOUT THE NOTES**

***Book-Entry System***

We will issue the notes as a master global note registered in the name of DTC, or its nominee. The sale of the notes will be made through DTC using available funds through DTC. You will not be permitted to withdraw the notes from DTC except in the limited situations described in the prospectus under “Legal Ownership and Book-Entry Issuance — What Is a Global Security? — Holder’s Option to Obtain a Physical Security — Situations When a Global Security Will Be Terminated”. Investors may hold interests in a master global note through organization or indirectly, in the DTC system.

***Survivor’s Option to Request Repayment***

Following the death of the beneficial owner of a note, so long as that note was owned by that beneficial owner or the estate of that owner for at least six months prior to the request, if requested by the authorized representative of the beneficial owner of that note (as described below), we agree to redeem any notes prior to the stated maturity unless the notes:

- have been previously redeemed or otherwise repaid, or
- have been declared due and payable before their stated maturity by reason of an event of default under the 2007 Notes Indenture described in the accompanying prospectus under “Description of Debt Securities We May Offer — Default, Redemption and Events of Default”.

Upon the valid exercise of the option to request repayment described in the preceding paragraph (Survivor’s Option) a note for repayment (subject to the limitations described below), we will redeem that note, in whole or in part (but in amounts not less than the principal amount of the note plus any unpaid interest accrued to (but excluding) the date of repayment) at a price equal to 100% of the principal amount of the note plus any unpaid interest accrued to (but excluding) the date of repayment.

Incapital LLC has advised that it intends to make a market in the notes. Depending on market conditions, including changes in the creditworthiness, the value of the notes may be greater than their principal amount plus any unpaid interest accrued. **Accordingly, the authorized representative should contact Incapital LLC to determine the market price of the notes and should otherwise carefully monitor the market price of the notes to Incapital LLC or another market participant rather than redeeming the notes at the principal amount plus any unpaid interest to a request for redemption.**

To be valid, the Survivor’s Option must be exercised by or on behalf of the person who has:

- authority to act on behalf of the deceased beneficial owner of the note, including, without limitation, the personal representative of the deceased beneficial owner or the surviving joint owner with the deceased beneficial owner, under the laws of the state of New York;
- the right to sell, transfer or otherwise dispose of an interest in a note and the right to receive the proceeds from the sale, transfer or disposition and interest payable to the holder of the note.

Table of Contents

The following will be deemed the death of a beneficial owner of a note, and the entire principal amount of the note so redeemed by us upon request (with the limitations described below):

- death of a person holding a beneficial ownership interest in a note as a joint tenant or tenant by the entirety with common with the deceased holder's spouse or a tenant in common with a person other than such deceased person;
- death of a person who at the time of his or her death was a beneficiary of a revocable or irrevocable trust that holds an interest in a note may, in the discretion of the Trustee, be deemed the death of a beneficial owner of that note, if it can be established to the satisfaction of us and the Trustee; and
- death of a person who, at the time of his or her death, was entitled to substantially all of the beneficial ownership interest in a note, of whether that beneficial owner was the registered holder of that note, if entitlement to those interests can be established to the satisfaction of us and the Trustee.

In addition, a beneficial ownership interest will be deemed to exist:

- in typical cases of nominee ownership, ownership under the Uniform Transfers to Minors Act or Uniform Gifts to Minors Act, or other joint ownership arrangements between a husband and wife; and
- in custodial and trust arrangements where one person has all of the beneficial ownership interests in the applicable note at the time of death.

We have the discretionary right to limit the aggregate principal amount of notes as to which exercises of the Survivor's Option may be made from authorized representatives:

- of *all* deceased beneficial owners in any calendar year to an amount equal to 2% of the principal amount of all outstanding notes in the pricing supplement as of the end of the most recent calendar year (two percent aggregate limitation); and
- of *any* individual deceased beneficial owner of notes to \$250,000 in any calendar year (\$250,000 limitation).

In addition, we will not permit the exercise of the Survivor's Option except in principal amounts of \$1,000 and in excess thereof.

We may, at our option, redeem interests of any deceased beneficial owner in the notes in any calendar year in excess of the \$250,000 limitation, optional redemption by us of this kind, to the extent it exceeds the \$250,000 limitation for any deceased beneficial owner, will not be considered in the computation of the two percent aggregate limitation for redemption of the notes for that or any other calendar year.

We may also, at our option, redeem interests of deceased beneficial owners in the notes in any calendar year in an amount exceeding the two percent aggregate limitation. Any optional redemption by us of this kind, to the extent it exceeds the two percent aggregate limitation, will not be considered in calculating the two percent aggregate limitation for any other calendar year.

Furthermore, any optional redemption by us with respect to a deceased beneficial owner's interest in the notes is inapplicable to any other deceased beneficial owner's interest in the notes. In

[Table of Contents](#)

other words, we may waive any applicable limitations with respect to a deceased beneficial owner but not make the same or other deceased beneficial owners.

Each election to exercise the Survivor's Option will be accepted in the order that elections are received by the Trustee in acceptance of which would contravene either the two percent aggregate limitation or the \$250,000 limitation. Upon any determination in excess of the \$250,000 limitation or the two percent aggregate limitation, notes will be redeemed in the order of receipt of the Trustee. Each tendered note that is not accepted in any calendar year due to the application of either the two percent aggregate limitation will be deemed to be tendered in the following calendar year in the order in which all such notes were originally tendered.

Notes accepted for repayment through the exercise of the Survivor's Option normally will be redeemed on the earlier of the December 15<sup>th</sup> interest payment date that occurs 60 or more calendar days after the date of the acceptance. For example, if a note tendered through a valid exercise of the Survivor's Option is May 1, 2011, and interest on that note is paid monthly on the 15<sup>th</sup> of each month, normally, at our option, repay that note on the interest payment date occurring on December 15, 2011, because the June 15<sup>th</sup> interest payment date would occur less than 60 days from the date of acceptance. Any redemption request may be withdrawn by the person(s) presenting the note upon delivery of a written request for withdrawal given by the participant on behalf of the person(s) to the Trustee not less than 30 calendar days prior to the date. If a note tendered through a valid exercise of the Survivor's Option is not accepted, the Trustee will deliver a notice by first-class mail to the person(s) through whom the note was tendered that states the reason that note has not been accepted for redemption.

With respect to notes represented by a master global note (such as these notes), DTC or its nominee is the depository for the notes and the institution that has an account with the depository of the notes is referred to as the "participant".

To obtain redemption pursuant to exercise of the Survivor's Option for a note, the deceased beneficial owner's authorized representative must deliver the following items to the participant in DTC through which the beneficial interest in the note is held by the deceased beneficial owner:

- a written request for redemption signed by the authorized representative of the deceased beneficial owner with the representative being a member firm of a registered national securities exchange or of the Financial Institution Regulatory Authority, Incorporated, or trust company having an office or correspondent in the United States and a written instruction to notify the Trustee of the representative's desire to obtain redemption pursuant to exercise of the Survivor's Option;
- appropriate evidence satisfactory to us and the Trustee:
  - (a) that the deceased was the beneficial owner of the note at the time of death and his or her interest in the note was held by the deceased beneficial owner or his or her estate for at least six months prior to the request for redemption;
  - (b) that the death of the beneficial owner has occurred,
  - (c) of the date of death of the beneficial owner, and
  - (d) that the representative has authority to act on behalf of the beneficial owner;

Table of Contents

- if applicable, a properly executed assignment or endorsement;
- tax waivers and any other instruments or documents that we or the Trustee reasonably require in order to establish ownership of the note and the claimant's entitlement to payment;
- any additional information we or the Trustee reasonably require to evidence satisfaction of any conditions to the Option or to document beneficial ownership or authority to make the election and to cause the redemption of the note;
- if the interest in the note is held by a nominee of the deceased beneficial owner, a certificate satisfactory to us and the nominee attesting to the deceased's beneficial ownership of such note.

After the representative provides the information to the participant, the participant will then deliver each of these items to Goldman, Sachs & Co. in its capacity as administrator of the Survivor's Option on our behalf, together with evidence satisfactory to the participant stating that it represents the deceased beneficial owner. The participant will then need to deliver to the Trustee a certificate substantially in the form attached as Appendix A to this pricing supplement.

All questions regarding the eligibility or validity of any exercise of the Survivor's Option will be determined by us, in our sole discretion. Our determination will be final and binding on all parties.

Subject to arrangements with the depository, payment for interests in the notes to be redeemed will be made to the depository for the principal amount specified in the redemption requests submitted to the Trustee by the depository that are to be fulfilled in connection with the presentation of the notes to the Trustee for redemption.

Additional redemption request forms for the exercise of the Survivor's Option may be obtained from the Trustee at The Goldman Sachs Group, Inc., 2001 Bryan Street, 9th Floor, Dallas, TX 75201, Attention: Survivor Options Processing, telephone: (800) 254-2826, fax: (214) 761-1000.

During any time in which the notes are not represented by a master global note and are issued in definitive form:

- all references in this section of the pricing supplement to participants and the depository, including the depository's policies and procedures, will be deemed inapplicable;
- all determinations that the participants are required to make as described in this section will be made by us, including determining whether the applicable decedent is in fact the beneficial owner of the interest in the notes to be redeemed and whether the representative is duly authorized to request redemption on behalf of the applicable beneficial owner;
- all redemption requests, to be effective, must:
  - be delivered by the representative to the Trustee, with a copy to us;
  - if required by the Trustee and us, be in the form of the attached redemption request with appropriate changes and be signed by the Trustee and us to reflect the fact that the

[Table of Contents](#)

- redemption request is being executed by a representative, including provision for signature guarantees; be accompanied by the note that is the subject of the redemption request or, if applicable, a properly endorsed endorsement, in addition to all documents that are otherwise required to accompany a redemption request; if the note is a nominee of the deceased beneficial owner, a certificate or letter from the nominee attesting to the beneficial interest in the note must also be delivered.

***United States Federal Income Tax Consequences***

You should carefully consider, among other things, the matters set forth under “United States Taxation” in the accompanying prospectus and the accompanying prospectus. The following discussion supplements the section “United States Taxation” in the accompanying prospectus and the accompanying prospectus and is subject to the limitations and exceptions set forth therein.

***Purchase, Sale and Retirement.*** If you are a United States holder, please see the discussion under “United States Taxation — United States Holders — Purchase, Sale and Retirement of the Debt Securities” in the accompanying prospectus for a description of the tax treatment when you sell or retire your notes. In addition, capital gain of a non-corporate United States holder that is recognized before January 1, 2013 is generally taxed at a maximum rate of 15% where the holder has a holding period greater than one year.

***Medicare Tax.*** For taxable years beginning after December 31, 2012, a United States holder that is an individual or estate that is not a grantor trust, or a trust that is exempt from such tax, will be subject to a 3.8% tax on the lesser of (1) the United States holder’s “net investment income” for the relevant taxable year and (2) the excess of the United States holder’s modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual’s circumstances). Net investment income will generally include its interest income and its net gains from the disposition of notes, unless such interest payments are in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate or trust, you are urged to consult your tax advisors regarding the applicability of the Medicare tax and gains in respect of your investment in the notes.

***Backup Withholding and Information Reporting.*** Please see the discussion under “United States Taxation — Taxation of United States Holders — Backup Withholding and Information Reporting” in the accompanying prospectus for a description of the applicability of the backup withholding and information reporting rules to payments made on your notes. In addition, pursuant to recently enacted legislation, certain payments in respect of corporate United States holders after December 31, 2011 may be subject to information reporting and backup withholding.
