General Information

Additional Information Regarding the Notes

1. The language set out under the heading “Use of Proceeds” in the Prospectus shall be deleted in its entirety and replaced by the following:

“The net proceeds from the sale of the Notes will be included in the ordinary capital resources of the Bank and, will not be committed or earmarked for lending to, or financing of, any specific loans, projects or programs. The Bank, in partnership with its member countries, works to reduce poverty and inequalities in Latin America and the Caribbean by promoting economic and social development in a sustainable, climate friendly way.

The Bank’s strategic priorities include social inclusion and equality, productivity and innovation and economic integration along with three cross-cutting issues: gender equality and diversity, climate change and environmental sustainability, and institutional capacity and the rule of law. Each strategic priority of the Bank aligns to at least one of the United Nations Sustainable Development Goals (“SDGs”), with all goals covered within the Bank’s institutional strategy, which may be adapted from time to time should the United Nations SDGs definition evolve.

All projects undertaken by the Bank go through the Bank’s rigorous sustainability framework. The framework tracks measurable results, adherence to lending targets and the effectiveness of its environmental and social safeguards. The Bank’s administrative and operating expenses are currently covered entirely by the Bank’s various sources of revenue, consisting primarily of net interest margin and investment income (as more fully described in the Bank’s Information Statement).”

2. Matters relating to MiFID II

The Bank does not fall under the scope of application of the MiFID II regime. Consequently, the Bank does not qualify as an “investment firm”, “manufacturer” or “distributor” for the purposes of MiFID II.

MiFID II product governance / Retail investors, professional investors and ECPs target market – Solely for the purposes of the manufacturers’ product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturers’ target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers’ target market assessment) and determining appropriate distribution channels.

For the purposes of this provision, the expression MiFID II means Directive 2014/65/EU, as amended.

3. United States Federal Income Tax Matters

The following supplements the discussion under the “Tax Matters” section of the Prospectus regarding the United States federal income tax treatment of the Notes, and is subject to the limitations and exceptions set forth therein. Any tax disclosure in the Prospectus or this pricing supplement is of a general nature only, is not exhaustive of all possible tax considerations and is not intended to be, and should not be construed to be, legal, business or tax advice to any particular prospective investor. Each prospective investor should consult its own tax advisor as to the particular tax consequences to it of the acquisition, ownership, and disposition of the Notes, including the effects of applicable United States federal, state, and local tax laws, non-U.S. tax laws and possible changes in tax laws.

Upon a sale or retirement of the Notes, a United States holder will generally recognize capital gain or loss equal to the difference, if any, between (i) the amount realized on the sale or retirement (other than amounts attributable to accrued but unpaid interest, which would be treated as such) and (ii) the United States holder’s adjusted tax basis in the Notes. A United States holder’s adjusted tax basis in the Notes generally will equal the cost of the Notes to the United States holder. Capital gain of individual taxpayers from the sale or retirement of Notes held for more than one year may be eligible for reduced rates of taxation. The deductibility of a capital loss is subject to significant limitations.

Due to a change in law since the date of the Prospectus, the second paragraph of “— Payments of Interest” under the “United States Holders” section should be updated to read as follows: “Interest paid by the Bank on the Notes constitutes income from sources outside the United States and will generally be “passive” income for purposes of computing the foreign tax credit.”

Information with Respect to Foreign Financial Assets. Owners of “specified foreign financial assets” with an aggregate value in excess of U.S.\$50,000 (and in some circumstances, a higher threshold) may be required to file an information report with respect to such assets with their tax returns. “Specified foreign financial assets” may include financial accounts maintained by foreign financial institutions, as well as the following, but only if they are held for investment and not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts that have non-United States issuers or counterparties, and (iii) interests in foreign entities. Holders are urged to consult their tax advisors regarding the application of this reporting requirement to their ownership of the Notes.

Medicare Tax. A United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, is subject to a 3.8% tax (the “Medicare tax”) on the lesser of (1) the United States holder’s “net investment income” (or “undistributed net investment income” in the case of an estate or trust) for the relevant taxable year and (2) the excess of the United States holder’s modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals is between U.S.\$125,000 and U.S.\$250,000, depending on the individual’s circumstances). A holder’s net investment income will generally include its interest income and its net gains from the

disposition of Notes, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). United States holders that are individuals, estates or trusts are urged to consult their tax advisors regarding the applicability of the Medicare tax to their income and gains in respect of their investment in the Notes.
