FORWARD LOOKING STATEMENTS

Certain of the statements contained in this Annual Report on Form 18-K, as amended (the "Amended 18-K") may be statements of future expectations and other forward-looking statements that are based on management's views and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. In addition to statements, which are forward-looking by reason of context, the words "may, will, should, plans, intends, anticipates, believes, estimates, potential, or continue" and similar expressions identify forward-looking statements. Actual results, performance or events may differ materially from those in such statements due to, without limitation, general economic conditions, including in particular economic conditions and markets, performance of financial markets, interest rates, currency exchange rates, changing levels of competition, changes in laws and regulations, changes in the policies of central banks and/or foreign governments, and general competitive factors, in each case on a local, regional, national and/or global basis. Nordic Investment Bank ("NIB" or the "Bank") assumes no obligation to update any forward-looking information contained in this Amended 18-K.

EXPLANATORY NOTE

NIB, in connection with its Registration Statement under the Securities Act of 1933 (Schedule B) relating to Debt Securities and/or Warrants to Purchase Debt Securities, Registration No. 333-250159, hereby amends its Annual Report on Form 18-K for the fiscal year ended December 31, 2024 (the "Annual Report") as follows:

The following additional exhibits are added to the Annual Report:

Exhibit XI	Interim Management Statement January - September 2025

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, Nordic Investment Bank has duly caused this amendment to its annual report on Form 18-K to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Helsinki, Finland on the 12th day of November, 2025.

Interim Management Statement

January–September 2025

Table of contents

On 17 September, members of NIB's Control Committee, together with NIB's President, André Küüsvek, the Bank's Executive Committee, and the NIB Board Chair Merle Wilkinson, had the opportunity to visit one of NIB's long-standing clients, and Iceland's biggest energy company, Landsvirkjun.

President and CEO's comments

During the third quarter, the Nordic-Baltic region continued to operate in a complex geopolitical landscape. Despite the prevailing uncertainties, NIB continued to deliver very strong results. Net profit for first nine months reached EUR 229 million, reflecting an increase of 16% compared to the same period prior year.

Demand for NIB's financing continued to grow with new financing reaching EUR 2.7 billion during the first nine months. 97% of new projects fulfilled our mandate to a level of good or excellent. Higher financing volumes had a positive impact on NIB's core earnings, with net interest income increasing by 7% compared to the same period last year.

NIB's financing remains distributed across various sectors and countries. New loans included projects enabling carbon capture and storage, research and development investments in battery electric vehicles, and investments in electricity grids. During the quarter, NIB also invested EUR 6 million in a EUR 25 million, four-year bond to support regional defence capabilities. This investment followed the revision of NIB's Sustainability Policy Exclusion List in July 2025.

We reached another milestone during the quarter, as we introduced a Sustainability-linked Loans financing Bond (SLLB) Framework. It complements and expands our sustainability offering to support our clients transition efforts while offering investors an opportunity to engage in Nordic-Baltic companies transition pathways. The framework enables NIB to issue bonds to finance a portfolio of selected sustainability-linked loans (SLLs).

Building on this, the Bank issued its inaugural SLLB later in September, and became the first supranational, sovereign and agency (SSA) issuer to launch such an instrument in the global capital markets.

To meet the demand for our financing, a total of EUR 8.5 billion was raised in new funding during the first nine months of the year. This included a record breaking USD 1 billion three-year global benchmark bond. The transaction drew exceptional demand of more than USD 4.4 billion from over 100 investors, over four times oversubscribed—the highest ratio ever for an NIB USD benchmark.

I am truly honoured that the Board of Directors of NIB announced in September the extension of my appointment as President and CEO of NIB until the end of August 2029. As we approach the Bank's 50th anniversary, we will gather in Copenhagen with our Board and key stakeholders to mark the signing of NIB's founding agreement in December 1975. This moment offers an opportunity to reflect on our achievements and further explore how we can serve our region even better.

André Küüsvek, President & CEO

Operating and financial review

Total comprehensive income

January–September 2025 compared to January–September 2024

NET PROFIT

The net profit for the period January–September 2025 amounted to EUR 229.2 million, which was EUR 31.4 million higher than the corresponding period in 2024. Total operating income increased from EUR 241.5 million to EUR 278.7 million. Net interest income increased by EUR 17.8 million while net fee and commission income decreased by EUR 2.1 million. The net profit on financial operations was EUR 15.0 million compared to a loss of EUR 6.5 million in the same period in 2024. Net loan losses ended at EUR 4.9 million compared to a loss of EUR 0.7 million in the same period in 2024. There have been no realised loan losses year to date.

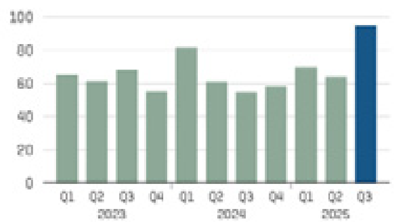
NET INTEREST INCOME

Net interest income for the period amounted to EUR 261.6 million compared to EUR 243.8 million in the same period in 2024, an increase of EUR 17.8 million. Net interest income on lending activities amounted to EUR 160.9 million and was EUR 18.4 million higher than in 2024 mainly due to a higher amount of loans outstanding. The interest income on treasury activities decreased slightly from EUR 101.3 million to EUR 100.7 million.

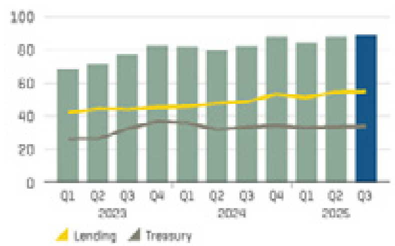
NET FEE AND COMMISSION INCOME

Net fee and commission income for the period January–September 2025 of EUR 2.2 million was EUR 2.1 million lower than the same period in 2024.

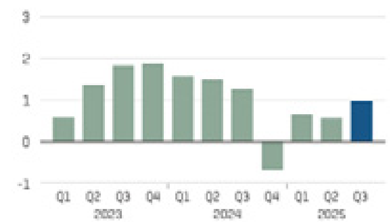
Net profit
In millions of euro



Net interest income
In millions of euro



Net commission income and fees
In millions of euro



NET PROFIT/LOSS ON FINANCIAL OPERATIONS

The net profit/loss on financial operations for the the period ended 30 September 2025 amounted to a profit of EUR 15.0 million compared to a loss of EUR 6.5 million in the same period last year. The result in the first three quarters of 2025 comprised of unrealised profit of EUR 12.7 million and realised gains of EUR 2.3 million.

Unrealised valuation gains and losses on assets in the Bank's liquidity portfolio of high quality bonds arise from changes in credit spreads. When credit spreads tighten, this results in positive valuations on the bonds. If the Bank holds the bonds to maturity, so that they are not sold based on the current exit market value, any valuation gains and losses will reverse, as the bonds will settle at par. Unrealised valuation gains and losses can also relate to the interest rate hedges of the Bank's funding and lending transactions. When the Bank raises funds with fixed rates or offers borrowers fixed rate loans, it hedges the resulting interest rate risk using swaps, in which the fixed rate is swapped to short term floating rates. The valuation of the swap hedges and underlying transactions use different rates and is therefore exposed to spread changes between those rates. As the Bank intends to hold these hedging transactions to maturity these valuation gains and losses are expected to reverse in full.

TOTAL OPERATING EXPENSES

Total operating expenses amounted to EUR 44.6 million which is EUR 1.6 million higher than for the corresponding period in 2024. The Bank continues to invest in people and technology to remain relevant and fulfil the Bank's mandate. The cost/income ratio for period January-September 2025 was 16.0% compared to 17.8% in the same period in 2024.

The Bank's main expenses comprise personnel costs, cost related to IT and depreciations of past investments in IT and its fixed assets like equipments and property. Personnel costs of EUR 28.6 million were EUR 0.5 million higher in the first three quarters of 2025 compared to the same period in 2024 due to annual salary adjustments and a higher head count. The other operating expenses were EUR 1.1 million higher in the first nine months of 2025 compared to the same period in 2024.

In millions of euro

NET LOAN LOSSES

For the period ended 30 September 2025, the Bank recorded net loan losses of EUR 4.9 million compared to a loss of EUR 0.7 million for the corresponding period in 2024. The increase in expected credit losses was mainly driven by new loan commitments and credit migration. Overall asset quality remained stable and there were no realised losses during the period.

OTHER COMPREHENSIVE INCOME

The Bank separates the foreign currency basis spread from financial instruments used in fair value hedge accounting and this separated amount is recorded in Other comprehensive income (OCI). This unrealised amount was a loss of EUR 15.8 million for the first nine months of 2025 compared to a loss of EUR 4.3 million in the same period last year. The loss recorded is mainly due to the widening of the Cross Currency Basis Spreads, which negatively affect the valuation of basis swaps used to convert funding currencies into lending currencies. As the fair value hedges are kept to maturity the gains and losses in OCI are expected to reverse in full.

For financial liabilities recorded at fair value through the profit and loss, valuation changes due to changes in own credit spreads are also recorded in OCI. For the nine month period ended 30 September 2025, the Bank recorded unrealised losses of EUR 1.8 million from these changes compared to an unrealised gain of EUR 2.6 million in the same period in 2024.

TOTAL COMPREHENSIVE INCOME

All in all, NIB had a 7.9% higher total comprehensive income in the first nine months of 2025 compared to the same period in 2024. Total comprehensive income ended at EUR 211.6 million compared to EUR 196.0 million in the same period in 2024.

MISSION FULFILMENT

NIB's vision is for a prosperous and sustainable Nordic–Baltic region and the Bank has a mission formulated as a dual mandate to provide lending that benefits the environment and/or improves productivity. All projects proposed for financing undergo a thorough assessment of their potential impact on productivity and the environment of the member country area. The mandate fulfilment is rated on a six-grade scale from "negative" to "excellent". During the first nine months of 2025, projects achieving a "good" or "excellent" mandate rating accounted for 97.5% of the total amount of loans disbursed thereby exceeding the target defined by NIB's Board of Directors of 95%. New financing with a "good" or "excellent" rating on both mandates was maintained at a record high level of 58.6% in the first nine months of 2025.

FINANCING OUTSTANDING

The financing outstanding amounted to EUR 24,267 million. This comprises EUR 23,541 million of loans outstanding and investments of EUR 726 million in lending bonds recorded in debt securities. The total new financing during the period amounted to EUR 2,686 million, which is EUR 244 million higher than for the same period in 2024. More information regarding new loans signed can be found on NIB's website.

FUNDING

By the end of September, the Bank had raised EUR 8.5 billion in new funding, which compares to EUR 8.2 billion in the same period last year. This corresponds to over 90% of the expected funding need for the year. During the third quarter the Bank launched a new Sustainability-linked Loans financing Bond (SLLB) framework and issued its inaugural five-year SEK 1.75 billion SLLB. Other notable transaction during the quarter was a USD 1 billion 3-year benchmark.

The Bank's funding strategy remains to complete benchmark transactions in US dollars and Euros, complemented with other public issuance and private placements with investors to maintain a diversified portfolio of currencies and a global investor base. The Bank will also continue issuing NIB Environmental Bonds (NEB) and new SLLBs.

Closing balance	**36,947,222**	**34,717,140**	**36,229,507**

[1] Unaudited figures.

Note 7: Basis of preparation

This interim management statement is not presented in accordance with IAS 34 Interim Financial Reporting, as this statement excludes number of disclosures. The accounting policies and methods of computation are the same as described in Note 1 Accounting policies of NIB's *Financial Report 2024*. This statement should be read in conjunction with NIB's 2024 audited IFRS financial statements. The International Accounting Standards Board (IASB) has amended a number of standards, however they have not had any significant impact on the Bank's financial statements.

There have been no material changes in the used accounting judgements, estimates and assumptions that may affect the Bank's profits, its financial position and other information presented. Significant judgements and estimates are applied mainly to loan impairment testing and valuations of financial assets and liabilities.

NIB's business model gives rise to credit, market and liquidity risks which are managed through sound banking principles and practices. There have been no significant changes in the Bank's exposures to these risks compared to those described in Note 2 Risk management in the 2024 IFRS financial statements.

There have been no material changes in relation to transactions with related parties compared to those described in Note 25 Related party disclosures in the 2024 IFRS financial statements.

In June 2025, the Bank made changes to the presentation of its Statement of financial position and Cash flow statement to enhance clarity, improve transparency, and ensure compliance with IFRS reporting standards. These changes were presentation-related only and had no impact on the reported total assets or total equity. As a result of the reclassification in the Statement of financial position, notes 5 and 6 have also been updated accordingly.

In the Statement of financial position, the line item previously titled *Cash and cash equivalents* has been renamed to *Cash and balances at banks*. This revised category now comprises bank accounts, short-term loans to banks, and cash balances related to futures. Additionally, items that were previously categorised under *Cash and cash equivalents*; collateral assets, short-term reverse repurchase agreements and short-term commercial papers have been reclassified under *Placements with credit institutions*. The total balances reclassified from *Cash and cash equivalents* to *Placements with credit institutions* as of 30 September 2024, 31 December 2024 and 31 March 2025 amounted to EUR 1,488 million, EUR 1,031 million and EUR 2,221 million, respectively.

In addition, *Accrued interest and fees receivables/payables* have also been reallocated to their respective financial instrument line items. The total balances reclassified from *Accrued interest and fees receivable* as of 30 September 2024, 31 December 2024 and 31 March 2025 amounted to EUR 548 million, EUR 612 million and EUR 591 million, respectively. The total balances reclassified from *Accrued interest and fees payable* as of 30 September 2024, 31 December 2024 and 31 March 2025 amounted to EUR 373 million, EUR 466 million and EUR 408 million, respectively. Also, the *Total equity* section has been enhanced to provide a more detailed breakdown. It now includes *Paid-in capital*, *Statutory reserve*, *General credit risk fund*, *Other reserves* and *Profit available for appropriation*.

In the Cash flow statement, the definition of *Cash and cash equivalents, net* has been updated to align with the revised classification. Furthermore, the presentation of changes in balance sheet items has been adjusted to reflect the new structure.

In addition to the above, the bank has revised certain terminology related to its lending activities. Specifically, the term *New lending disbursed* has been replaced with *New financing* to more accurately reflect the nature and scope of activities undertaken by the Bank's lending organisation.

There have been no material post balance sheet events that would require disclosure or adjustment to these financial statements.

This report was approved by the Executive Committee on 4 November 2025.

KEY RATIO DEFINITIONS

$$\text{Equity/total assets} = \frac{\text{Total equity at reporting date}}{\text{Total assets at reporting date}}$$

$$\text{Return on equity} = \frac{\text{Annualised profit for the period}}{\text{Average equity for the period}}$$

$$\text{Cost/income} = \frac{\text{Total operating expenses for the period}}{\text{Total operating income for the period}}$$
