In the first nine months of 2019, China accounted for 28.8%, Asia other than China and Japan accounted for 20.9% and Japan accounted for 11.0% of our total steel export revenue from steel products produced and exported by us.

We also engage in businesses that complement our steel manufacturing operations as well as carefully seek out promising investment opportunities to diversify our businesses both vertically and horizontally, in part to prepare for the eventual maturation of the Korean steel market. POSCO International is a global trading company that primarily engages in the trading of steel and raw materials as well as investing in energy and mineral development projects throughout the world. POSCO E&C is one of the leading engineering and construction companies in Korea that primarily engages in the planning, design and construction of industrial plants and architectural works and civil engineering. RISK FACTORS

An investment in the Notes involves various risks and uncertainties. If you are considering purchasing the Notes, you should carefully consider the risks described below (which in some cases supplements or replaces certain information under the headings below in the POSCO 2018 Annual Report on Form 20-F) and in the POSCO 2018 Annual Report on Form 20-F under the section entitled “Item 3. Key Information — Item 3.D. Risk Factors,” in addition to the other information contained in or incorporated by reference into this offering circular, before making an investment decision. The risks described below and in the POSCO 2018 Annual Report on Form 20-F are not the only risks that may be relevant to us or the Notes. Additional risks and uncertainties, including those of which our management is not currently aware or deems immaterial, may also have an adverse effect on our business, results of operations, financial condition or future prospects or may result in other events that could cause investors to lose all or part of their investment.

Risks Relating to the Company

We are dependent on imported raw materials, and significant increases in market prices of essential raw materials could adversely affect our margins and profits.

We purchase substantially all of the principal raw materials we use from sources outside Korea, including iron ore and coal. POSCO imported approximately 40 million dry metric tons of iron ore and 22 million wet metric tons of coal in the first nine months of 2019. Iron ore is imported primarily from Australia, Brazil and Canada. Coal is imported primarily from Australia, Canada and Russia. Although we have not experienced significant unanticipated supply disruptions in the past, supply disruptions, which could be caused by political or other events in the countries from which we import these materials, could adversely affect our operations. In addition, we are particularly exposed to increases in the prices of coal, iron ore and nickel, which represent the largest components of our cost of goods sold. The prices of our key raw materials have fluctuated significantly in recent years. For example, the average market price of coal per wet metric ton (Premium Low Vol Coking Coal, FOB Australia Index announced by Platts) was US\$202 in the first nine months of 2018 and US\$190 in the first nine months of 2019. The average market price of iron ore per dry metric ton (Iron Ore 62% Fe, CFR China Index announced by Platts) was US\$69 in the first nine months of 2018 and US\$95 in the first nine months of 2019.

Our long-term supply contracts generally have terms of three to ten years and provide for periodic price adjustments to the then-market prices. We typically adjust the prices on a quarterly basis and maintain approximately one month of inventory of raw materials. Such price adjustments are driven by various factors, including the global economic outlook, global market prices of raw materials and steel products, supply and demand outlook of raw materials and production costs of raw materials. For both coal and iron ore, we typically agree on the purchase price with the suppliers primarily based on the spot market price periodically announced by Platts (Premium Low Vol Coking Coal, FOB Australia Index and Iron Ore 62% Fe, CFR China Index). As of September 30, 2019, 93 million tons of iron ore and 12 million tons of coal remained to be purchased under long-term supply contracts. Future increases in prices of our key raw materials and our inability to pass along such increases to our customers could adversely affect our margins and profits. Increased prices may also cause potential customers to defer purchase of steel products, while rapidly falling prices may increase loss on valuation of raw material inventory purchased when prices were higher, either of which could have an adverse effect on our business, financial condition and results of operations.

Risks Relating to Korea

Escalations in tensions with North Korea could have an adverse effect on us and the market value of the Notes.

Relations between Korea and North Korea have been tense throughout Korea's modern history. The level of tension between the two Koreas has fluctuated and may increase abruptly as a result of

current and future events. In particular, there have been heightened security concerns in recent years stemming from North Korea's nuclear weapon and ballistic missile programs as well as its hostile military actions against Korea. Some of the significant incidents in recent years include the following:

- North Korea renounced its obligations under the Nuclear Non-Proliferation Treaty in January 2003 and conducted six rounds of nuclear tests since October 2006, including claimed detonations of hydrogen bombs, which are more powerful than plutonium bombs, and warheads that can be mounted on ballistic missiles. Over the years, North Korea has also conducted a series of ballistic missile tests, including missiles launched from submarines and intercontinental ballistic missiles that it claims can reach the United States mainland. In response, the Government has repeatedly condemned the provocations and flagrant violations of relevant United Nations Security Council resolutions. In February 2016, the Government also closed the inter-Korea Gaesong Industrial Complex in response to North Korea's fourth nuclear test in January 2016. Internationally, the United Nations Security Council has passed a series of resolutions condemning North Korea's actions and significantly expanding the scope of sanctions applicable to North Korea, most recently in December 2017 in response to North Korea's intercontinental ballistic missile test in November 2017. Over the years, the United States and the European Union have also expanded their sanctions applicable to North Korea.
- In March 2010, a Korean naval vessel was destroyed by an underwater explosion, killing many of the crewmen on board. The Government formally accused North Korea of causing the sinking, while North Korea denied responsibility. Moreover, in November 2010, North Korea fired more than one hundred artillery shells that hit Korea's Yeonpyeong Island near the Northern Limit Line, which acts as the de facto maritime boundary between Korea and North Korea on the west coast of the Korean peninsula, causing casualties and significant property damage. The Government condemned North Korea for the attack and vowed stern retaliation should there be further provocation.

North Korea's economy also faces severe challenges, which may further aggravate social and political pressures within North Korea.

Although bilateral summit meetings were held between Korea and North Korea in April, May and September 2018 and between the United States and North Korea in June 2018, February 2019 and June 2019, there can be no assurance that the level of tensions affecting the Korean peninsula will not escalate in the future. Any increase in tensions, which may occur, for example, if North Korea experiences a leadership crisis, high-level contacts between Korea or the United States and North Korea break down or further military hostilities occur, could have a material adverse effect on the Korean economy and on our business, financial condition and results of operations and the market value of the Notes.

Risks Relating to the Notes

The Notes are unsecured obligations.

Because the Notes are unsecured obligations, their repayment may be compromised if:

- we enter into bankruptcy, liquidation, rehabilitation or other winding-up proceedings;
- there is a default in payment under our future secured indebtedness or other unsecured indebtedness; or
- there is an acceleration of any of our indebtedness.

If any of these events occurs, our assets may not be sufficient to pay amounts due on any of the Notes. In addition, any secured indebtedness incurred by us would have priority over our unsecured indebtedness to the extent of the assets securing such indebtedness.

The Notes are subject to transfer restrictions.

The Notes will not be registered under the Securities Act or any state securities laws and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except to QIBs in reliance on the exemption provided by Rule 144A, to certain persons in offshore transactions in reliance on Regulation S, or, if available, pursuant to another exemption from, or in another transaction not subject to, the registration requirements of the Securities Act and, in each case, in accordance with applicable state securities laws. In addition, subject to the conditions set forth in the applicable Fiscal Agency Agreement (as defined in “Description of the Euro-denominated Notes” and “Description of the U.S. dollar-denominated Notes”), a Note may be transferred only if the principal amount of Notes transferred is at least €100,000 for Euro-denominated Notes and US\$200,000 for U.S. dollar-denominated Notes. For a further discussion of the transfer restrictions applicable to the Notes, see “Description of the Euro-denominated Notes,” “Description of the U.S. dollar-denominated Notes” and “Transfer Restrictions.”

The Notes have not been and will not be registered with the FSC under the FSCMA. Accordingly, the Notes may not be offered, sold, delivered or transferred, directly or indirectly in Korea or to any resident of Korea (as defined in the Foreign Exchange Transaction Act of Korea and the Enforcement Decree thereof) or to others for re-offering or resale directly or indirectly in Korea or to any resident of Korea, except as otherwise permitted by applicable Korean laws and regulations. In addition, within one year following the issuance of the Notes, the Notes may not be transferred to any resident of Korea other than a Korean QIB registered with the KOFIA as a Korean QIB, provided that the amount of the Notes acquired by such Korean QIBs in the primary market is limited to no more than 20% of the aggregate issue amount of the Notes.

The Notes are subject to prescription regulations in Korea.

Failure to exercise a right of action for more than a certain period of time may operate as a bar to exercise of such right. Under Korean laws, claims against the issuer in respect of the payment of principal of notes or bonds are prescribed upon the expiry of ten years, and claims for payment of interest in respect of notes or bonds are prescribed upon the expiry of five years, in each case, from the relevant due date as adjusted by any acceleration or otherwise, in respect thereof. If the Note holders fail to exercise his or her right of payment for more than the period set forth above, the Korean courts may not enforce a claim for payment for principal or interest in respect of the Notes.

The Notes may have limited liquidity.

The Notes constitute a new issue of securities for which there is no existing market. Approvals in-principle have been received from the Singapore Stock Exchange for the listing and quotation of the Notes on the Singapore Stock Exchange. The offer and sale of the Notes is not conditioned on obtaining a listing and quotation of the Notes on the Singapore Stock Exchange or any other exchange. Although the Initial Purchasers have advised us that they currently intend to make a market in the Notes, they are not obligated to do so, and any market-making activity with respect to the Notes, if commenced, may be discontinued at any time without notice in their sole discretion. For a further discussion of the Initial Purchasers' planned market-making activities, see “Plan of Distribution.”

No assurance can be given as to the liquidity of, or the development and continuation of an active trading market for, the Notes. If an active trading market for the Notes does not develop or is not maintained, the market price and liquidity of the Notes may be adversely affected. If such a market were to develop, the Notes could trade at prices that may be higher or lower than the price at which the Notes are issued depending on many factors, including:

- prevailing interest rates;

- our results of operations and financial condition;
- the rate of exchange between Won and the currency of the Notes;
- political and economic developments in and affecting Korea and other regions;
- the market conditions for similar securities; and
- the financial condition and stability of the Korean financial and other sectors.

The credit ratings assigned to us and the Notes are limited in scope.

We and our debt securities, including the Notes, are subject to periodic review by independent credit rating agencies. Accordingly, increases in the level of our outstanding indebtedness, a deterioration in our operating performance or other events could cause the rating agencies to downgrade our credit ratings generally and the ratings on the Notes, which could adversely impact the trading prices for, or the liquidity of, the Notes. Any such downgrade could also adversely affect our cost of borrowing, limit our access to the capital markets or result in more restrictive covenants in future debt agreements.

The Notes are expected to be rated Baa1 by Moody's and BBB+ by S&P. The credit ratings assigned to the Notes are limited in scope, and may not reflect the potential impact of all risks related to structure and other factors that may affect the value of the Notes. Each agency's rating should be evaluated independently of any other agency's rating. A credit rating is not a recommendation to buy, sell or hold the Notes and may be subject to revision, suspension or withdrawal at any time by the assigning rating agency. There can be no assurance that these ratings will remain in effect for a given period or that these ratings will not be revised by the rating agencies in the future.

The Euro-denominated Notes may not be a suitable investment for all investors seeking exposure to "green," "social," or "sustainability" assets.

We will allocate an amount equivalent to the net proceeds from the issuance of the Euro-denominated Notes to finance or refinance, in whole or in part, Eligible Sustainability Bond Projects (as defined in "Use of Proceeds") in accordance with the POSCO Sustainable Financing Framework, which is in alignment with the Green Bond Principles 2018, the Social Bond Principles 2018 and the Green Loan Principles 2018 published by the International Capital Markets Association. See "Use of Proceeds." The examples of Eligible Sustainability Bond Projects provided in "Use of Proceeds" are for illustrative purposes only and no assurance can be provided that disbursements for projects with these specific characteristics will be made by us during the term of the Euro-denominated Notes. The POSCO Sustainable Financing Framework and the Second Party Opinion (as defined in "Use of Proceeds") are not incorporated into, and do not form a part of, this offering circular.

There is currently no market consensus on what precise attributes are required for a particular project or series of notes to be defined as "green," "social" or "sustainability" and therefore no assurance can be provided to potential investors that selected Eligible Sustainability Bond Projects will meet all investor expectations regarding environmental or social performance. Although the Eligible Sustainability Bond Projects are expected to be selected in accordance with the categories recognized under the POSCO Sustainable Financing Framework and are expected to be developed in accordance with relevant legislation and standards, there can be no guarantee that the projects will deliver the environmental or social benefits as anticipated, or that adverse environmental or social impacts will not occur during the design, construction, commissioning or operation of any such projects. In addition, where any negative impacts are insufficiently mitigated, the projects may become controversial and may be criticized by activist groups or other stakeholders.

The Second Party Opinion may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed above and other factors that may affect the value of

the Euro-denominated Notes. The Second Party Opinion is not a recommendation to buy, sell or hold securities and is only current as of the date that the Second Party Opinion was initially issued. In addition, although we have agreed to certain reporting and use of proceeds obligations in connection with certain environmental and social criteria, our failure to comply with such obligations does not constitute a breach or an event of default under the Euro-denominated Notes. A withdrawal of the Second Party Opinion or any failure by us to use an amount equivalent to the net proceeds from the issuance of the Euro-denominated Notes on the Eligible Sustainability Bond Projects or to meet or continue to meet the investment requirements of certain environmentally- or socially-focused investors with respect to the Euro-denominated Notes may affect the value of the Euro-denominated Notes and may have consequences for certain investors with portfolio mandates to invest in “green,” “social” or “sustainability” assets.

No assurance can be provided with respect to the suitability of the Second Party Opinion or that the Euro-denominated Notes will fulfill the environmental, social and sustainability criteria to qualify as “green,” “social” or “sustainability” bonds. Each potential purchaser of the Euro-denominated Notes should determine for itself the relevance of the information contained in this offering circular regarding the use of proceeds and its purchase of the Euro-denominated Notes should be based upon such investigation as it deems necessary.

Our revenue decreased by 0.1%, or Won 33 billion, from Won 48,356 billion in the first nine months of 2018 to Won 48,324 billion in the first nine months of 2019 due to decreases in external revenues from the Trading Segment and the Construction Segment, which were offset in part by increases in revenues from the Others Segment and the Steel Segment. Specifically:

Steel Segment. External revenue from the Steel Segment, which does not include internal revenue from inter-company transactions that are eliminated during consolidation, increased slightly by 0.1%, or Won 34 billion, from Won 24,444 billion in the first nine months of 2018 to Won 24,478 billion in the first nine months of 2019 primarily due to an increase in the average unit sales price per ton of the principal steel products produced by us and sold to external customers, which was partially offset by a decrease in our sales volume of such products. The weighted average unit sales price per ton of the principal steel products produced by us and directly sold to external customers increased by 1.5% from Won 929,543 per ton in the first nine months of 2018 to Won 943,950 per ton in the first nine months of 2019, while the overall sales volume of the principal steel products produced by us and directly sold to external customers decreased by 0.2% from 23.7 million tons in the first nine months of 2018 to 23.6 million tons in the first nine months of 2019. Such factors were principally attributable to the following:

- The unit sales prices in Won of plates and cold rolled products increased from the first nine months of 2018 to the first nine months of 2019. The unit sales prices in Won of plates and cold rolled products produced by us and directly sold to external customers increased by 6.1% and 1.2%, respectively, from the first nine months of 2018 to the first nine months of 2019. On the other hand, the unit sales prices in Won of stainless steel products, silicon steel sheets, hot rolled products and wire rods produced by us and directly sold to external

customers decreased by 2.0%, 1.9%, 1.3% and 0.2% from the first nine months of 2018 to the first nine months of 2019. For a discussion of changes in the unit sales prices of each of our principal product lines, see “— Operational Data for First Nine Months of 2018 and First Nine Months of 2019 — Steel Segment — Unit Sales Prices” above.

- The sales volume of silicon steel sheets, hot rolled products, wire rods and cold rolled products produced by us and directly sold to external customers decreased by 7.2%, 4.2%, 3.3% and 0.8%, respectively, from the first nine months of 2018 to the first nine months of 2019. On the other hand, the sales volume of stainless steel products and plates produced by us and directly sold to external customers increased by 7.7% and 5.9%, respectively, from the first nine months of 2018 to the first nine months of 2019. For a discussion of changes in the sales volume of each of our principal product lines, see “— Operational Data for First Nine Months of 2018 and First Nine Months of 2019 — Steel Segment — Sales Revenues and Sales Volume” above.

Total revenue from the Steel Segment, which includes internal revenue from inter-company transactions, decreased by 1.1%, or Won 434 billion, from Won 38,224 billion in the first nine months of 2018 to Won 37,790 billion in the first nine months of 2019 as internal revenue from inter-company transactions decreased by 3.4%, or Won 467 billion, from Won 13,780 billion in the first nine months of 2018 to Won 13,313 billion in the first nine months of 2019 primarily due to a decrease in our steel sales activities through trading subsidiaries, particularly POSCO International.

Trading Segment. External revenue from the Trading Segment, which does not include internal revenue from inter-company transactions that are eliminated during consolidation, decreased by 1.1%, or Won 181 billion, from Won 16,697 billion in the first nine months of 2018 to Won 16,516 billion in the first nine months of 2019 primarily due to decreases in POSCO International’s export trading sales of automobiles and machinery parts as well as steel and metal products, which was offset in part by an increase in revenue from the natural resources development activities of POSCO International.

Total revenue from the Trading Segment, which includes internal revenue from inter-company transactions, decreased by 1.6%, or Won 457 billion, from Won 28,850 billion in the first nine months of 2018 to Won 28,393 billion in the first nine months of 2019 as internal revenue from inter-company transactions decreased by 2.3%, or Won 276 billion, from Won 12,153 billion in the first nine months of 2018 to Won 11,876 billion in the first nine months of 2019 primarily due to a decrease in our steel sales activities through trading subsidiaries.

Construction Segment. External revenue from the Construction Segment, which does not include internal revenue from inter-company transactions that are eliminated during consolidation, decreased by 0.6%, or Won 31 billion, from Won 4,932 billion in the first nine months of 2018 to Won 4,901 billion in the first nine months of 2019 primarily due to a decrease in external revenue from construction projects abroad.

Total revenue from the Construction Segment, which includes internal revenue from inter-company transactions, increased by 1.8%, or Won 96 billion, from Won 5,303 billion in the first nine months of 2018 to Won 5,398 billion in the first nine months of 2019 as internal revenue from inter-company transactions increased by 34.2%, or Won 127 billion, from Won 370 billion in the first nine months of 2018 to Won 497 billion in the first nine months of 2019. Such increase in internal revenue reflected an increase in the amount of construction activities for member companies of the POSCO Group in the first nine months of 2019 compared to the first nine months of 2018.

Others Segment. The Others Segment primarily includes power generation, LNG logistics, manufacturing of various industrial materials and information technology service. External revenue from the Others Segment, which does not include internal revenue from inter-company transactions that are eliminated during consolidation, increased by 6.4%, or Won 145 billion, from Won 2,283 billion in the first nine months of 2018 to Won 2,428 billion in the first nine months of 2019, primarily due to

increases in revenue of POSCO Energy Corporation and POSCO Chemical Co., Ltd. Revenue of POSCO Energy Corporation increased primarily due to a temporary decrease in production in the first half of 2018 due to planned maintenance at a byproduct processing facility, compared to no such maintenance in the first nine months of 2019, as well as a general increase in electricity price in the third quarter of 2019. Revenue of POSCO Chemical Co., Ltd. increased primarily due to a general increase in price of chemical products in the first nine months of 2019, which was impacted by an increase in oil price, as well as an increase in sales volume of burned lime.

Total revenue from the Others Segment, which includes internal revenue from inter-company transactions, increased by 2.7%, or Won 117 billion, from Won 4,315 billion in the first nine months of 2018 to Won 4,432 billion in the first nine months of 2019 as internal revenue from inter-company transactions decreased by 1.4% or Won 28 billion, from Won 2,032 billion in the first nine months of 2018 to Won 2,004 billion in the first nine months of 2019.

Our cost of sales increased by 2.2%, or Won 946 billion, from Won 42,338 billion in the first nine months of 2018 to Won 43,284 billion in the first nine months of 2019 due to increases in cost of sales of the Steel Segment, the Construction Segment and the Others Segment, which were offset in part by a decrease in cost of sales of the Trading Segment. Specifically:

Steel Segment. The cost of sales of our Steel Segment increased by 3.9%, or Won 802 billion, from Won 20,490 billion in the first nine months of 2018 to Won 21,292 billion in the first nine months of 2019 primarily due to an increase in the average prices in Won terms of certain raw materials used to manufacture our steel products, which was offset in part by a slight decrease in our sales volume of principal steel products produced by us and sold to external customers.

Trading Segment. The cost of sales of our Trading Segment decreased by 0.4%, or Won 61 billion, from Won 15,367 billion in the first nine months of 2018 to Won 15,306 billion in the first nine months of 2019 primarily due to a general decrease in our trading activities, which was offset in part by an increase in our natural resources development activities.

The cost of sales of our Others Segment increased by 4.2%, or Won 86 billion, from Won 2,038 billion in the first nine months of 2018 to Won 2,124 billion in the first nine months of 2019 primarily due to an increase in production of POSCO Energy Corporation and POSCO Chemical Co., Ltd. as described above.

The following table presents our gross profit by segment and changes therein for the first nine months of 2018 and the first nine months of 2019.

	For the Nine Months Ended September 30,		Changes	
	2018	2019	First Nine Months of 2018 versus First Nine Months of 2019	
	(In billions of Won)		Amount	%
Steel Segment	₩ 3,954	₩ 3,186	₩ (768)	(19.4)%
Trading Segment	1,330	1,211	(119)	(8.9)

Others Segment	246	304	57	23.2
Gross profit	₩ 6,019	₩ 5,040	(979)	(16.3)

Our gross profit decreased by 16.3%, or Won 979 billion, from Won 6,019 billion in the first nine months of 2018 to Won 5,040 billion in the first nine months of 2019 primarily due to decreases in gross profit of the Steel Segment, the Construction Segment and the Trading Segment, which were offset in part by an increase in gross profit of the Others Segment. Our gross margin, which is gross profit as a percentage of total revenue, decreased from 12.4% in the first nine months of 2018 to 10.4% in the first nine months of 2019.

Steel Segment. The gross profit of our Steel Segment decreased by 19.4%, or Won 768 billion, from Won 3,954 billion in the first nine months of 2018 to Won 3,186 billion in the first nine months of 2019 primarily due to an increase in the average prices in Won terms of certain raw materials used to manufacture our finished steel products that outpaced an increase in the average unit sales price per ton of the principal steel products produced by us and sold to external and internal customers during the period. In particular, the average market price of iron ore per dry metric ton (Iron Ore 62% Fe, CFR China Index announced by Platts) was US\$69 in the first nine months of 2018 and US\$95 in the first nine months of 2019. The gross margin of our Steel Segment decreased from 16.2% in the first nine months of 2018 to 13.0% in the first nine months of 2019.

Trading Segment. The gross profit of our Trading Segment decreased by 8.9%, or Won 119 billion, from Won 1,330 billion in the first nine months of 2018 to Won 1,211 billion in the first nine months of 2019 primarily due to a decrease in gross profit from trading activities of POSCO International, which was partially offset by an increase in gross profit from its natural resources development activities. The gross margin of our Trading Segment decreased from 8.0% in the first nine months of 2018 to 7.3% in the first nine months of 2019.

Construction Segment. The gross profit of our Construction Segment decreased by 30.5%, or Won 149 billion, from Won 489 billion in the first nine months of 2018 to Won 340 billion in the first nine months of 2019 primarily reflecting a decrease in POSCO E&C's participation in higher margin construction projects in the first nine months of 2019. The gross margin of our Construction Segment decreased from 9.9% in the first nine months of 2018 to 6.9% in the first nine months of 2019.

Others Segment. The gross profit of our Others Segment increased by 23.2%, or Won 57 billion, from Won 246 billion in the first nine months of 2018 to Won 304 billion in the first nine months of 2019 primarily due to increases in gross profit of POSCO Energy Corporation and POSCO Chemical Co., Ltd. The gross margin of our Others Segment improved from 10.7% in the first nine months of 2018 to 12.5% in the first nine months of 2019.

(1) N.A. means not applicable.

Our selling and administrative expenses decreased by 1.1%, or Won 19 billion, from Won 1,748 billion in the first nine months of 2018 to Won 1,729 billion in the first nine months of 2019, primarily due to an impairment loss on trade accounts and notes receivable in the first nine months of 2018 compared to a reversal of such impairment loss in the first nine months of 2019 as well as decreases in rental and advertising expenses, which were offset in part by increases in depreciation expenses and wages and salaries. Such factors were principally attributable to the following:

- We recognized impairment loss on trade accounts and notes receivable of Won 39 billion in the first nine months of 2018 primarily related to impairment loss on trade accounts and notes receivables of POSCO E&C and its subsidiary in Vietnam. However, we recognized reversal of such impairment loss of Won 14 billion in the first nine months of 2019 primarily due to a reversal of impairment loss on trade accounts and notes receivables of POSCO E&C.
- Our rental expenses decreased by 43.1%, or Won 23 billion, from Won 53 billion in the first nine months of 2018 to Won 30 billion in the first nine months of 2019 primarily due to decreases in rental expenses of POSCO E&C and our subsidiary in Japan.
- Our advertising expenses decreased by 22.1%, or Won 18 billion, from Won 81 billion in the first nine months of 2018 to Won 63 billion in the first nine months of 2019 primarily reflecting our advertising activities in the first nine months of 2018 related to our sponsorship of the 2018 PyeongChang Olympic Games compared to no such advertising activities in the first nine months of 2019.

- Our depreciation expenses increased by 33.4%, or Won 25 billion, from Won 75 billion in the first nine months of 2018 to Won 99 billion in the first nine months of 2019 primarily due to our adoption of K-IFRS 1116 in the first nine months of 2019, under which we recognized depreciation expenses related to our right-of-use assets. See Note 3 of Notes to the Condensed Consolidated Interim Financial Statements.
- Our wages and salaries increased by 2.8%, or Won 17 billion, from Won 599 billion in the first nine months of 2018 to Won 616 billion in the first nine months of 2019 primarily due to increases in base salaries at our domestic subsidiaries.

Operating Profit

Due to the factors described above, our operating profit decreased by 22.5%, or Won 960 billion, from Won 4,271 billion in the first nine months of 2018 to Won 3,311 billion in the first nine months of 2019. Our operating margin decreased from 8.8% in the first nine months of 2018 to 6.9% in the first nine months of 2019.

Share of Profit of Equity-Accounted Investees

Our share of profit of equity-accounted investees increased by 205.1%, or Won 155 billion, from Won 75 billion in the first nine months of 2018 to Won 230 billion in the first nine months of 2019.

In the first nine months of 2018, we recognized a net gain for our proportionate share of equity-accounted investees of Won 75 billion primarily due to our share of gains of Won 56 billion of POSCO Mitsubishi Carbon Technology, Won 54 billion of KOBRASCO, Won 47 billion of Roy Hill Holdings Pty Ltd and Won 23 billion of AES-VCM Mong Duong Power Company Limited, which were offset in large part by our share of loss of Won 132 billion of CSP — Companhia Siderurgica do Pacem.

In the first nine months of 2019, we recognized a net gain for our proportionate share of equity-accounted investees of Won 230 billion primarily due to our share of gains of Won 109 billion of Roy Hill Holdings Pty Ltd., Won 52 billion of South-East Asia Gas Pipeline Company Ltd., Won 49 billion of KOBRASCO and Won 24 billion of POSCO Mitsubishi Carbon Technology, which were offset in part by our share of loss of Won 58 billion of CSP — Companhia Siderurgica do Pacem. See Note 9 of Notes to the Condensed Consolidated Interim Financial Statements.

In terms of the market average exchange rates announced by Seoul Money Brokerage Services, Ltd., the Won depreciated from Won 1,071.4 to US\$1.00 as of December 31, 2017 to Won 1,112.7 to US\$1.00 as of September 30, 2018 and further depreciated from Won 1,118.1 to US\$1.00 as of December 31, 2018 to Won 1,201.3 to US\$1.00 as of September 30, 2019. Our dividend income increased by 32.9%, or Won 17 billion, from Won 50 billion in the first nine months of 2018 to Won 67 billion in the first nine months of 2019 primarily due to an increase in dividends from Congonhas Minerios S.A. Our interest expense increased by 7.0%, or Won 37 billion, from Won 534 billion in the first nine months of 2018 to Won 571 billion in the first nine months of 2019 primarily due to an increase in the level of long-term borrowings, as well as our adoption of K-IFRS 1116 in the first nine months of 2019, under which we recognized additional interest expenses from our lease liabilities. See Note 3 of Notes to the Condensed Consolidated Interim Financial Statements.

Other Non-operating Income and Expenses

The following table presents our impairment loss on other receivables and changes therein for the first nine months of 2018 and the first nine months of 2019.

Our impairment loss on other receivables increased by 42.2%, or Won 8 billion, from Won 18 billion in the first nine months of 2018 to Won 26 billion in the first nine months of 2019 primarily due to a decrease in our reversals on other receivables, as well as an increase in allowance for bad debt of POSCO International's subsidiary in China.

The following table presents a breakdown of our other non-operating income and changes therein for the first nine months of 2018 and the first nine months of 2019.

Our other non-operating income decreased by 37.6%, or Won 164 billion, from Won 436 billion in the first nine months of 2018 to Won 272 billion in the first nine months of 2019, primarily due to decreases in gain on disposal of intangible assets and our recognition of a tax refund in the first nine months of 2018, which were partially offset by increases in reversal of other provisions and gain on valuation of emission rights in the first nine months of 2019. Such factors were principally attributable to the following:

- Our gain on disposal of intangible assets decreased by 98.8%, or Won 109 billion, from Won 111 billion in the first nine months of 2018 to Won 1 billion in the first nine months of 2019 primarily due to a gain from exchange or disposal of emission allowances in the first nine months of 2018, compared to no such gain in the first nine months of 2019.
- In the first nine months of 2018, we recognized a tax refund of Won 55 billion (which we included in "others"), compared to no such refund in the first nine months of 2019.
- Our reversal of other provisions increased by 1,097.9%, or Won 32 billion, from Won 3 billion in the first nine months of 2018 to Won 35 billion in the first nine months of 2019 primarily due to a reversal of other provisions related to a lawsuit involving POSCO E&C.

- We recognized gain on valuation of emission rights of Won 25 billion in the first nine months of 2019 compared to no such gain in the first nine months of 2018.

The following table presents a breakdown of our other non-operating expenses and changes therein for the first nine months of 2018 and the first nine months of 2019.

Total other non-operating expenses	₩ 418	₩ 594	176	42.0

Our other non-operating expenses increased by 42.0%, or Won 176 billion, from Won 418 billion in the first nine months of 2018 to Won 594 billion in the first nine months of 2019, primarily due to an increase in impairment loss on property, plant and equipment and write-offs of intangible assets related to POSCO International, which were offset in part by a decrease in increase to provisions. Such factors were principally attributable to the following:

- Our impairment loss on property, plant and equipment increased by 930.6%, or Won 176 billion, from Won 19 billion in the first nine months of 2018 to Won 195 billion in the first nine months of 2019 primarily due to impairment losses recognized in the first nine months of 2019 related to a ferro silicon facility in Pohang Works and a compact endless cast-rolling mill in Gwangyang Works.
- In the first nine months of 2019, we recognized write-offs of intangible assets of Won 118 billion related to the termination of an exploration project in Myanmar of POSCO International, compared to no such write-offs in the first nine months of 2018.
- Increase to provisions decreased by 84.0%, or Won 69 billion, from Won 82 billion in the first nine months of 2018 to Won 13 billion in the first nine months of 2019. In the first nine months of 2018, we recognized provisions of Won 74 billion in connection with a lawsuit of POSCO ICT, compared to no such provisions in the first nine months of 2019.

Profit before Income Taxes

Due to the factors described above, our profit before income taxes decreased by 23.0%, or Won 888 billion, from Won 3,858 billion in the first nine months of 2018 to Won 2,971 billion in the first nine months of 2019.

The following table presents our profit and loss by segment, prior to adjusting for corporate fair value adjustments, elimination of inter-segment profits and income tax expense, and changes therein for the first nine months of 2018 and the first nine months of 2019.

Income Tax Expense

Our income tax expense decreased by 10.8%, or Won 123 billion, from Won 1,137 billion in the first nine months of 2018 to Won 1,014 billion in the first nine months of 2019, primarily reflecting a decrease in profit before income tax described above. However, our effective tax rate increased from 29.5 % in the first nine months of 2018 to 34.1% in the first nine months of 2019 primarily due to a transfer of a certain business division from POSCO Energy to POSCO, which resulted in additional income tax expenses without impacting our consolidated profit before income tax. See Note 32 of Notes to the Condensed Consolidated Interim Financial Statements.

Profit

Due to the factors described above, our profit decreased by 28.1%, or Won 765 billion, from Won 2,722 billion in the first nine months of 2018 to Won 1,957 billion in the first nine months of 2019.

Liquidity and Capital Resources for the First Nine Months of 2018 and the First Nine Months of 2019

The following table sets forth the summary of our cash flows for the periods indicated.

	For the Nine Months Ended September 30,	
	2018	2019
	(In billions of Won)	
Net cash provided by operating activities	₩ 4,219	₩ 3,940
Net cash used in investing activities	(2,652)	(1,538)
Net cash used in financing activities	(944)	(2,297)

Cash and cash equivalents at beginning of period	2,613	2,644
Cash and cash equivalents at end of period	3,237	2,841
Net increase in cash and cash equivalents	625	197

Capital Requirements

Historically, uses of cash consisted principally of purchases of property, plant and equipment and other assets and repayments of outstanding debt and payments of dividends.

Net cash used in investing activities was Won 2,652 billion in the first nine months of 2018 and Won 1,538 billion in the first nine months of 2019. Our cash outflows for acquisition of property, plant

and equipment amounted to Won 1,354 billion in the first nine months of 2018 and Won 1,610 billion in the first nine months of 2019. We plan to spend approximately Won 1,851 billion in capital expenditures in the fourth quarter of 2019, which we may adjust on an ongoing basis subject to market demand for our products, the production outlook of the global steel industry and global economic conditions in general. We may delay or not implement some of our current capital expenditure plans based on our assessment of such market conditions. We had net acquisitions of short-term financial instruments, after adjusting for proceeds from disposal of short-term financial instruments, of Won 1,541 billion in the first nine months of 2018, and we had net proceeds from disposal of short-term financial instruments, after adjusting for acquisition of short-term financial instruments, of Won 431 billion in the first nine months of 2019.

In our financing activities, our repayments of borrowings were Won 1,448 billion in the first nine months of 2018 and Won 2,459 billion in the first nine months of 2019. We paid cash dividends on common stock in the amount of Won 570 billion in the first nine months of 2018 and Won 786 billion in the first nine months of 2019.

In recent years, we have also selectively considered various opportunities to acquire or invest in companies that may complement our businesses, as well as invest in overseas resources development projects. We may require additional capital for such acquisitions or entering into other strategic relationships. Other than capital required for such activities, we anticipate that capital expenditures, repayments of outstanding debt and payments of cash dividends will represent the most significant uses of funds for the next several years.

Payments of contractual obligations and commitments will also require considerable resources. In our ordinary course of business, we routinely enter into commercial commitments for various aspects of our operations, as well as issue guarantees for indebtedness of our related parties and others. For our contingent liabilities on outstanding guarantees provided by us, see Note 35(a) of Notes to the Condensed Consolidated Interim Financial Statements. The following table sets forth certain of our contractual obligations and commitments as of September 30, 2019.

(a) Includes the current portion and premium on bond redemption but excludes amortization of discount on debentures and issuance costs.

(b) As of September 30, 2019, a portion of our long-term debt carried variable interest rates. We used the interest rate in effect as of September 30, 2019 in calculating the interest payments on long-term debt for the periods indicated.

(c) Our purchase obligations include supply contracts to purchase iron ore, coal, nickel, LNG and other raw materials. These contracts generally have terms of one to ten years and the long-term contracts provide for periodic price adjustments according to the market prices. As of September 30, 2019, 93 million tons of iron ore and 12 million tons of coal remained to be purchased under long-term contracts. In addition, we entered into an agreement with Tangguh LNG Consortium in Indonesia to purchase 550 thousand tons of LNG for 20 years commencing in August 2005. The purchase price under the agreement with Tangguh LNG Consortium is variable based on the monthly standard oil price (as represented by the Japan Customs cleared Crude Price), subject to a ceiling. We used the market price and exchange rate in effect as of September 30, 2019 in calculating the iron ore, coal and LNG purchase obligations described above for the periods indicated.

The following table presents, as of December 31, 2018, the expected amount of severance benefits that we will be required to pay under applicable Korean law to all of our employees when they reach their normal retirement age. The amounts were determined based on the employees' current

salary rates and the number of service years that will be accumulated upon their retirement. These amounts do not include amounts that may be paid to employees who cease to work at the company before their normal retirement age.

	Payments Due by Period				
	Total	Less than 1 Year	1 to 3 Years	4 to 5 Years	More than 5 Years
			(In billions of Won)		
Accrued severance benefits	₩2,961	₩110	₩326	₩408	₩2,117

Capital Resources

We have traditionally met our working capital and other capital requirements principally from cash provided by operations while raising the remainder of our requirements primarily through long-term debt and short-term borrowings. We expect that these sources will continue to be our principal sources of cash in the future. From time to time, we may also generate cash through issuance of hybrid bonds and sale of treasury shares and our holdings in available-for-sale securities.

Our net cash provided by operating activities decreased by 6.6%, or Won 279 billion, from Won 4,219 billion in the first nine months of 2018 to Won 3,940 billion in the first nine months of 2019. Our gross cash flow from our sales activities decreased slightly as discussed above. We recorded cash inflow related to our management of trade accounts and notes payable of Won 84 billion in the first nine months of 2018 compared to cash outflow of Won 673 billion in the first nine months of 2019, which in turn negatively impacted our net cash provided by operating activities. In addition, our cash outflow related to income taxes paid increased from Won 803 billion in the first nine months of 2018 to Won 1,295 billion in the first nine months of 2019. Partially offsetting such impact, we recorded cash outflow related to our management of the buildup of inventories of Won 903 billion in the first nine months of 2018 compared to cash inflow of Won 20 billion in the first nine months of 2019, which in turn positively impacted our net cash provided by operating activities. In addition, our cash outflow related to our management of trade accounts and notes receivable decreased from Won 621 billion in the first nine months of 2018 to Won 59 billion in the first nine months of 2019, which in turn positively impacted our net cash provided by operating activities.

Our net cash used in financing activities increased by 143.4%, or Won 1,354 billion, from Won 944 billion in the first nine months of 2018 to Won 2,297 billion in the first nine months of 2019. Our net repayments of short-term borrowings were Won 194 billion in the first nine months of 2018 and Won 1,466 billion in the first nine months of 2019. We recorded cash inflow of Won 1,048 billion in the first nine months of 2018 and Won 163 billion in the first nine months of 2019 for net proceeds from borrowings, after adjusting for repayment of borrowings. Partially offsetting such impact, we recorded repayment of hybrid bonds of Won 1,160 billion in the first nine months of 2018 compared to no such repayment in the first nine months of 2019. We paid cash dividends on common stock in the amount of Won 570 billion in the first nine months of 2018 and Won 786 billion in the first nine months of 2019.

Long-term borrowings, excluding current installments, were Won 9,920 billion as of December 31, 2018 and Won 11,497 billion as of September 30, 2019. Total short-term borrowings and current installments of long-term borrowings were Won 10,290 billion as of December 31, 2018 and Won 8,358 billion as of September 30, 2019. Our outstanding hybrid bonds remained constant at Won 199 billion as of December 31, 2018 and September 30, 2019.

We periodically increase our short-term borrowings and adjust our long-term debt financing levels depending on changes in our capital requirements. From time to time, we also generate cash from the sale of our treasury shares. We believe that we have sufficient working capital for our current requirements and that we have a variety of alternatives available to us to satisfy our liquidity requirements to the extent that they are not met by funds generated by operations, including the issuance of debt and equity securities and bank borrowings denominated in Won and various foreign currencies. However, our ability to rely on some of these alternatives could be affected by factors such

as the liquidity of the Korean and the global financial markets, prevailing interest rates, our credit rating and the Government's policies regarding Won currency and foreign currency borrowings.

Liquidity

We had working capital (current assets minus current liabilities) of Won 14,713 billion as of December 31, 2018 and Won 17,948 billion as of September 30, 2019. Our holdings of cash and cash equivalents were Won 2,644 billion as of December 31, 2018 and Won 2,832 billion as of September 30, 2019. Our holdings of other short-term financial assets were Won 8,081 billion as of December 31, 2018 and Won 7,912 billion as of September 30, 2019. On a non-consolidated basis, we had total available credit lines of Won 1,175 billion as of September 30, 2019, none of which was used as of such date. We have not had, and do not believe that we will have, difficulty gaining access to short-term financing sufficient to meet our current requirements.

USE OF PROCEEDS

The net proceeds from the issuance of the Euro-denominated Notes are expected to be approximately €497 million, the net proceeds from the issuance of the 2023 U.S. dollar-denominated Notes are expected to be approximately US\$497 million, and the net proceeds from the issuance of the 2025 U.S. dollar-denominated Notes are expected to be approximately US\$435 million, in each case after deducting underwriting commissions but not estimated expenses of the Offering.

The net proceeds from the Euro-denominated Notes (“Sustainability Bond Proceeds”) will be allocated toward the financing or refinancing, in whole or in part, of new or existing projects related to (i) electric vehicle batteries, (ii) renewable energy, (iii) employment for the underprivileged, (iv) supporting small- and medium-sized enterprises and (v) financing new business ventures and start-ups (“Eligible Sustainability Bond Projects”) in accordance with the POSCO Sustainable Financing Framework, which is in alignment with the Green Bond Principles 2018, the Social Bond Principles 2018 and the Green Loan Principles 2018 published by the International Capital Markets Association. Under such principles published by the International Capital Markets Association, only the notes allocated exclusively to financing or refinancing “green eligible categories,” “social eligible categories” or a combination of the two categories may be designated as “green bonds,” “social bonds” or “sustainability bonds,” respectively.

Examples of Eligible Sustainability Bond Projects include the following:

Project Evaluation and Selection Process

Under our project evaluation and selection process, Eligible Sustainability Bond Projects will be identified and assessed using the criteria indicated above by our Sustainable Financing Working Group, which is composed of leadership from our finance department, corporate sustainability department, operations department and audit department. The Sustainable Financing Working Group will review and approve the allocation of proceeds on an annual basis.

Management of Proceeds

The Sustainability Bond Proceeds will be deposited in our general funding accounts and earmarked for allocation for Eligible Sustainability Bond Projects. The allocation of the Sustainability

Bond Proceeds will be recorded and monitored by our Sustainable Financing Register. Any balance of the Sustainability Bond Proceeds not yet allocated to Eligible Sustainability Bond Projects will be managed in accordance with our general liquidity management policies and may be invested domestically or internationally in money market instruments with satisfactory credit ratings and market liquidity until allocation to Eligible Sustainability Bond Projects.

Reporting

We will publish Sustainable Financing Reports on an annual basis. Such reports will include allocation information, such as the aggregate amount allocated to Eligible Sustainability Bond Projects, the specifics of such Eligible Sustainability Bond Projects and the remaining balance of unallocated proceeds. The reports will also include the analysis of the environmental and social impacts of the Eligible Sustainability Bond Projects through key performance indicators such as the sales volume of electric vehicle batteries, the amount of renewable energy generated, the amount of greenhouse gas reduced and the number of jobs created.

Sustainalytics, an external consultant, issued an opinion dated April 18, 2018 (the “Second Party Opinion”) regarding the POSCO Sustainable Financing Framework’s alignment with the Green Bond Principles 2018, the Social Bond Principles 2018 and the Green Loan Principles 2018 issued by the International Capital Markets Association. Such opinion and the POSCO Sustainable Financing Framework are publicly available on the following website: <http://www.posco.co.kr/homepage/docs/eng6/jsp/invest/archive/s91b6010070l.jsp>.

DESCRIPTION OF THE EURO-DENOMINATED NOTES

The Euro-denominated Notes will be issued under a fiscal agency agreement to be dated as of January 17, 2020 (the “Euro Fiscal Agency Agreement”), between the Company and Citibank, N.A., London Branch, as fiscal agent (the “Fiscal Agent”), paying agent, transfer agent and registrar. The following summaries of certain provisions of the Euro-denominated Notes and the Euro Fiscal Agency Agreement do not purport to be complete and are qualified in their entirety by reference to the provisions of the Euro-denominated Notes and the Euro Fiscal Agency Agreement.

General

The Euro-denominated Notes will be issued in an initial aggregate principal amount of EUR500,000,000 and will mature on January 17, 2024. The Euro-denominated Notes are the direct, unconditional, unsecured and unsubordinated general obligations of the Company. The Euro-denominated Notes will rank *pari passu* among themselves, without any preference one over the other by reason of priority of date of issue or otherwise, and at least equally with all other outstanding unsecured and unsubordinated general obligations of the Company (subject to certain statutory exceptions under the laws of the Republic of Korea).

The Euro-denominated Notes will bear interest at the rate of 0.500% per annum from and including January 17, 2020, payable in arrears on January 17 of each year, commencing January 17, 2021, to the holders of record (“Holders”) as of the close of business on the fifteenth day preceding such interest payment date. Interest on the Euro-denominated Notes will be calculated on the basis of the Actual/Actual (ICMA) business day convention. In any case where the date for the payment of any principal or interest on any Note is not a day on which banking institutions at any place of payment, including London and the Trans-European Automated Real Time Gross Settlement Express Transfer System, are open for business (a “Business Day”), then payment of such principal or interest need not be made on such date at such place of payment but may be made on the next succeeding day at such place of payment which is a Business Day with the same force and effect as if made on the date for such payment of principal or interest, and no interest shall accrue for the period after such date.

The Euro-denominated Notes may be redeemed at the option of the Company in whole, but not in part, at any time prior to maturity under the circumstances described under “— Optional Tax Redemption.” The Euro-denominated Notes do not have the benefit of any sinking fund.

Payments

Payments of interest and principal of the Euro-denominated Notes will be made in such coin or currency of the member states of the European Union that adopted the single currency pursuant to the Treaty on the Functioning of the European Union on a bank that processes payments in Euros, by wire transfer to a bank account designated by such Holder in writing (such designation to be signed by two authorized officers of such Holder if it is not an individual) to the Fiscal Agent at least ten days prior to the relevant payment date.

Book-Entry System and Form of Notes

Upon issuance, the Euro-denominated Notes are expected to be represented by Global Notes in fully registered form. The Global Notes will be deposited with or on behalf of a common depositary for Euroclear and Clearstream (the “Common Depositary”) and registered in the name of a nominee of the Common Depositary. A Global Note may not be transferred except as a whole by the Common Depositary to a nominee of the Common Depositary or by a nominee of the Common Depositary to the Common Depositary or another nominee of the Common Depositary or by the Common Depositary or any such nominee to a successor of or a nominee of such successor.

Upon the issuance of the Global Notes, the Common Depositary will credit, on its book-entry registration and transfer system, the respective principal amounts of the Euro-denominated Notes represented by such Global Notes to the accounts of persons that have accounts with Euroclear and Clearstream (“participants”). The accounts to be initially credited shall be designated by the Initial Purchasers participating in the initial offer and sale of the Euro-denominated Notes. Ownership of beneficial interests in the Global Notes will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in such Global Notes will be shown on, and the transfer of that ownership will be effected only through, records maintained by the Common Depositary for such Global Notes (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants).

The Common Depositary or their nominee, as the case may be, as registered Holder of the Global Notes will be considered the sole owner or holder of the Euro-denominated Notes represented by each Global Note for all purposes under the Euro-denominated Notes and the Euro Fiscal Agency Agreement.

Principal and interest payments on Euro-denominated Notes represented by the Global Notes registered in the name of the Common Depositary or their nominee will be made to the Common Depositary or their nominee, as the case may be, as the registered owner of such Global Notes. None of the Company, the Fiscal Agent or any paying agent for such Euro-denominated Notes will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in such Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Company expects that the Common Depositary, upon receipt of any payment of principal or interest, will credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Global Notes as shown on the records of the Common Depositary. The Company also expects that payments by participants to owners of beneficial interests in such Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the account of customers registered in “street names,” and will be the responsibility of such participants.

If (i) both Euroclear and Clearstream have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so, or (ii) the Euro-denominated Notes have become immediately due and payable pursuant to the Euro Fiscal Agency Agreement, the Company will issue Euro-denominated Notes in definitive registered form in exchange for the Global Notes representing such Euro-denominated Notes. The Euro-denominated Notes will be issued only in fully registered form without coupons in denominations of EUR100,000 and integral multiples of EUR1,000 in excess thereof. If the Euro-denominated Notes are issued in definitive registered form, the Company will make payments of principal of and interest on the Euro-denominated Notes, and transfers and exchanges of the Euro-denominated Notes will be affected, subject to the terms of the Euro Fiscal Agency Agreement and the Euro-denominated Notes (without any service charge) upon surrender of the Euro-denominated Notes at the offices of the Fiscal Agent.

Same-Day Settlement

Initial settlement for the Euro-denominated Notes will be made in same-day funds.

Restrictions on Transfer

The Euro-denominated Notes may not be sold or otherwise transferred except in accordance with the restrictions described under “Transfer Restrictions.”

Meetings of Holders; Modification and Amendment

The Company may at any time, and the Fiscal Agent shall at any time after the Euro-denominated Notes shall have become immediately due and payable due to a default upon a request in writing made by Holders holding not less than 10% of the aggregate outstanding principal amount of the Euro-denominated Notes, convene a meeting of the Holders. At a meeting of the Holders, persons entitled to vote a majority in aggregate principal amount of the Euro-denominated Notes at the time outstanding shall constitute a quorum. In the absence of a quorum at any such meeting, the meeting may be adjourned for a period of not less than ten days; in the absence of a quorum at any such adjourned meeting, such adjourned meeting may be further adjourned for a period of not less than ten days; at the reconvening of any meeting further adjourned for lack of a quorum, the persons entitled to vote 25% in aggregate principal amount of the Euro-denominated Notes at the time outstanding shall constitute a quorum for the taking of any action set forth in the notice of the original meeting. Any resolution at a meeting of the Holders to modify or amend, or to waive compliance with, any of the covenants or conditions (other than those set forth below as requiring the consent of each Holder of a Note affected thereby) shall be effectively passed if passed by the lesser of (i) a majority in aggregate principal amount of Euro-denominated Notes then outstanding or (ii) 75% in aggregate principal amount of the Euro-denominated Notes represented and voting at the meeting.

Modifications and amendments to the Euro Fiscal Agency Agreement or the Euro-denominated Notes requiring consent of Holders may be made, and future compliance therewith or past defaults by the Company may be waived, with the consent of the Company and the Holders of more than 50% in aggregate principal amount of the Euro-denominated Notes at the time outstanding, or of such lesser percentage as may act at a meeting of the Holders held in accordance with the provisions of the Euro Fiscal Agency Agreement; *provided* that no such modification, amendment or waiver of the Euro Fiscal Agency Agreement or any Note may, without the consent of each Holder affected thereby, (i) change the stated maturity of the principal of, or the date for the payment of interest on, any such Note; (ii) reduce the principal of or interest on any such Note; (iii) change the currency of payment of the principal of or interest on any such Note; or (iv) reduce the above-stated percentage of aggregate principal amount of Euro-denominated Notes outstanding or reduce the quorum requirements or the percentage of votes required for the taking of any action.

The Euro Fiscal Agency Agreement and the terms and conditions of the Euro-denominated Notes may be modified, supplemented or amended, without the consent of the Holders, for the purposes of (i) adding to the covenants of the Company for the benefit of such Holders, (ii) surrendering any right or power conferred upon the Company, (iii) securing the Euro-denominated Notes, (iv) curing any ambiguity or correcting or supplementing any defective provision contained in the Euro Fiscal Agency Agreement or the Euro-denominated Notes, (v) implementing the provisions described under “— Meetings of Holders; Modification and Amendment” herein, (vi) evidencing and providing for the acceptance of appointment of a successor Fiscal Agent with respect to the Euro-denominated Notes and to add to or change any provisions of the Euro Fiscal Agency Agreement that shall be necessary to provide for or facilitate the administration of the trusts by more than one Fiscal Agent or (vii) in any other manner which the Company may deem necessary or desirable, *provided* that such action, in the opinion of the Company, shall not adversely affect in any material respect the interests of the Holders of such Euro-denominated Notes at the time outstanding. In all other cases, any amendment of the Euro Fiscal Agency Agreement will require the consent of the Holders pursuant to a resolution of the Holders adopted in accordance with the provisions of the Euro Fiscal Agency Agreement. Any determination as to material adverse effect with respect to the interest of Holders pursuant to in this paragraph will be made by the Company, and the Fiscal Agent shall not have any responsibility or liability whatsoever with respect to such determination. Any modification shall be binding on the Holders and any modification shall be notified by the Company to the Holders as soon as reasonably practicable thereafter in accordance with the provisions of the Euro Fiscal Agency Agreement.

Any modifications, amendments or waivers consented to or approved at a meeting will be conclusive and binding on all Holders whether or not they have given such consent or were present at such meeting, and on all future Holders whether or not notation of such modifications, amendments or waivers is made upon the Euro-denominated Notes. Any instrument given by or on behalf of any Holder of a Note in connection with any consent to any such modification, amendment or waiver will be irrevocable once given and will be conclusive and binding on all subsequent Holders of such Note.

Certain Covenants

Limitation on Liens

So long as any of the Euro-denominated Notes are outstanding, the Company will not itself, and will not permit any Material Subsidiary to, create, incur, issue or assume or guarantee any External Indebtedness secured by any mortgage, charge, pledge, encumbrance or other security interest (a "Lien") on any Principal Property without in any such case effectively providing that the Euro-denominated Notes (together with, if the Company shall so determine, any other indebtedness of the Company or such Material Subsidiary then existing or thereafter created) shall be secured equally and ratably with or prior to such secured External Indebtedness, so long as such secured External Indebtedness shall be so secured, unless, after giving effect thereto, the aggregate principal amount of all such secured External Indebtedness then outstanding *plus* Attributable Debt of the Company and its Material Subsidiaries in respect of Sale/Leaseback Transactions as described under "— Limitation on Sale and Leaseback Transactions" below (other than such Sale/Leaseback Transactions permitted under clause (b) of the covenant described in such section) would not exceed an amount equal to 15% of Consolidated Net Tangible Assets.

The foregoing restriction will not apply to External Indebtedness secured by:

- (i) any Lien existing on any Principal Property prior to the acquisition thereof by the Company or any of its Material Subsidiaries or arising after such acquisition pursuant to contractual commitments entered into prior to and not in contemplation of such acquisition;
- (ii) any Lien on any Principal Property securing External Indebtedness incurred or assumed for the purpose of financing the purchase price thereof or the cost of construction, improvement or repair of all or any part thereof, provided that such Lien attaches to such Principal Property concurrently with or within 12 months after the acquisition thereof or completion of construction, improvement or repair thereof;
- (iii) any Lien existing on any Principal Property of any Material Subsidiary prior to the time such Material Subsidiary becomes a Subsidiary of the Company or arising after such time pursuant to contractual commitments entered into prior to and not in contemplation thereof;
- (iv) any Lien securing External Indebtedness owing to the Company or to a Subsidiary; or
- (v) any Lien arising out of the refinancing, extension, renewal or refunding of any External Indebtedness secured by any Lien permitted by any of the foregoing clauses or existing as of the date of the Euro Fiscal Agency Agreement, provided that such External Indebtedness is not increased and is not secured by any additional Principal Property.

For the purposes of the covenants described hereunder and under "— Limitation on Sale and Leaseback Transactions" below, the giving of a guarantee which is secured by a Lien on a Principal Property, and the creation of a Lien on a Principal Property to secure External Indebtedness which existed prior to the creation of such Lien, shall be deemed to involve the creation of indebtedness in an amount equal to the principal amount guaranteed or secured by such Lien; but the amount of indebtedness secured by Liens on Principal Properties shall be computed without cumulating the underlying indebtedness with any guarantee thereof or Lien securing the same.

Limitation on Sale and Leaseback Transactions

So long as any of the Euro-denominated Notes are outstanding, the Company will not itself, and will not permit any Material Subsidiary to, enter into any Sale/Leaseback Transaction after the date of the Euro Fiscal Agency Agreement (other than such Sale/Leaseback Transactions permitted under clause (b) below), unless either:

- (a) the Attributable Debt of the Company and its Material Subsidiaries in respect of such Sale/Leaseback Transaction and all other Sale/Leaseback Transactions entered into after the date of the Euro Fiscal Agency Agreement (other than such Sale/Leaseback Transactions permitted under clause (b) below) plus the aggregate principal amount of External Indebtedness secured by Liens on Principal Properties then outstanding (excluding any such External Indebtedness secured by Liens described in clauses (i) through (v) under “— Limitation on Liens” above or existing on the date of the Euro Fiscal Agency Agreement) without equally and ratably securing the Euro-denominated Notes, would not exceed 15% of Consolidated Net Tangible Assets; or
- (b) the Company, within 12 months after such Sale/Leaseback Transaction, applies or causes a Material Subsidiary, as the case may be, to apply an amount equal to the net proceeds of such sale or transfer of the Principal Property which is the subject of such Sale/Leaseback Transaction, to the retirement of External Indebtedness of the Company or a Material Subsidiary, as the case may be, which is not subordinate to the Euro-denominated Notes; provided that the amount to be so applied shall be reduced by (i) the principal amount of Euro-denominated Notes delivered within 12 months after such Sale/Leaseback Transaction to the Fiscal Agent for retirement and cancellation, and (ii) the principal amount of External Indebtedness of the Company or a Material Subsidiary, other than the Euro-denominated Notes, voluntarily retired by the Company or a Material Subsidiary within 12 months after such Sale/Leaseback Transaction. Notwithstanding the foregoing, no retirement referred to in this clause (b) may be effected by payment at maturity or pursuant to any mandatory prepayment provision.

Notwithstanding the foregoing, where the Company or any Material Subsidiary is the lessee in any Sale/Leaseback Transaction, Attributable Debt shall not include any External Indebtedness resulting from the guarantee by the Company or any other Material Subsidiary of the lessee's obligation in such Sale/Leaseback Transaction. The foregoing restrictions shall not apply to any transaction between the Company and a Subsidiary or between a Material Subsidiary and a Subsidiary.

Provision of Information to Holders

The Company covenants that for so long as the Euro-denominated Notes are “restricted securities” within the meaning of Rule 144 under the Securities Act, the Company will, at any time

when it is not subject to either the periodic reporting requirements of Section 13 or Section 15(d) of the Exchange Act or the requirements of Rule 12g3-2(b) thereunder, provide to any Holder or prospective purchaser of Euro-denominated Notes designated by such Holder, upon the request of such Holder or prospective purchaser, the information required to be provided by Rule 144A(d)(4) under the Securities Act.

Events of Default

The term “Event of Default” wherever used in the Euro Fiscal Agency Agreement with respect to the Euro-denominated Notes means any of the following events (whatever the reason for such Event of Default and whether it shall be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body) which shall have occurred and be continuing:

- (a) default in the payment of any installment of interest upon any of the Euro-denominated Notes when it becomes due and payable, and continuance of such default for a period of 30 days; or
- (b) default in the payment of all or any part of the principal of (or premium, if any, on) any of the Euro-denominated Notes as and when the same shall become due and payable, whether at maturity, upon redemption or otherwise; or
- (c) default in the performance, or breach, of the covenants or agreements on the part of the Company contained in the Euro-denominated Notes or in the Euro Fiscal Agency Agreement, and continuance of such default or breach for a period of 60 days after there has been given, by registered or certified mail, to the Company at the office of the Fiscal Agent by the Holders of at least 10% in aggregate principal amount of the Euro-denominated Notes at the time outstanding a written notice specifying such default or breach and requiring it to be remedied and stating that such notice is a “Notice of Default” under the Euro-denominated Notes; or
- (d) any External Indebtedness of the Company in the aggregate outstanding principal amount of US\$30,000,000 or more either (i) becoming due and payable prior to the due date for payment thereof by reason of acceleration thereof following default by the Company or (ii) not being repaid at, and remaining unpaid after, maturity as extended by the period of grace, if any, applicable thereto, or any guarantee given by the Company in respect of External Indebtedness of any other person not being honored when, and remaining dishonored after becoming, due and called; provided that, in the case of (i) above, if any such default under any such External Indebtedness shall be cured or waived, then the default under the Euro-denominated Notes by reason thereof shall be deemed to have been cured and waived; or
- (e) the entry of a decree or order for relief in respect of the Company by a court having jurisdiction in the premises in an involuntary case under any applicable bankruptcy, insolvency, rehabilitation or other similar law in effect on the date of the Euro-denominated Notes or thereafter, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Company or of any substantial part of its property, or ordering the winding up or liquidation of its affairs, and the continuance of any such decree or order unstayed and in effect for a period of 60 consecutive days; or
- (f) the commencement by the Company of a voluntary case under any applicable bankruptcy, insolvency, rehabilitation or other similar law in effect on the date of the Euro-denominated Notes or thereafter, or the consent by the Company to the entry of an order for relief in an involuntary case under any such law or to the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Company or of

any substantial part of its property, or the mailing by the Company of an assignment for the benefit of its creditors, or the admission by the Company in writing of inability to pay its debts generally as they become due, or the taking of corporate action by the Company in furtherance of any such action.

If an Event of Default with respect to the Euro-denominated Notes occurs and is continuing, the Holders of not less than 25% in aggregate principal amount of the Euro-denominated Notes then outstanding may declare the principal amount of and all accrued but unpaid interest on all the Euro-denominated Notes to be due and payable immediately, by a notice in writing to the Company at the office of the Fiscal Agent, and upon such declaration any such principal amount and interest shall become immediately due and payable. Upon such declaration, the Fiscal Agent shall give notice thereof to the Company and to the Holders, by mail and publication. If, after any such declaration and before any judgment or decree for the payment of the moneys due shall have been obtained or entered, the Company pays or deposits with the Fiscal Agent all amounts then due with respect to the Euro-denominated Notes (other than amounts due solely because of such declaration) and cures all other Events of Default with respect to the Euro-denominated Notes, such defaults may be waived and such declaration may be annulled and rescinded by the Holders of more than 50% in aggregate outstanding principal amount of the Euro-denominated Notes by written notice thereof to the Company at the office of the Fiscal Agent.

Consolidation, Merger and Sale of Assets

The Company, without the consent of the Holders of any of the Euro-denominated Notes, may consolidate with, or merge into, or sell, transfer, lease or convey its assets as an entirety or substantially as an entirety to any corporation organized under the laws of the Republic; *provided that* (a) any successor corporation expressly assumes the Company's obligations under the Euro-denominated Notes and the Euro Fiscal Agency Agreement, (b) after giving effect to the transaction, no Event of Default and no event which, after notice or lapse of time or both, would become an Event of Default, shall have occurred and be continuing, (c) if, as a result of such transaction, the Company or any successor corporation becomes subject to a Lien which would not be permitted by the Euro-denominated Notes, such steps shall have been taken as are necessary to secure the Euro-denominated Notes equally and ratably with (or prior to) all indebtedness secured thereby, and (d) certain other conditions as per the Euro Fiscal Agency Agreement are satisfied.

Defeasance and Discharge

The Euro Fiscal Agency Agreement provides that the Company need not comply with certain covenants ("covenant defeasance") of the Euro-denominated Notes (including those described under "— Certain Covenants — Limitation on Liens" and "— Certain Covenants — Limitation on Sale and Leaseback Transactions"), if:

- (i) the Company irrevocably deposits, in trust with a trustee (which may be the Fiscal Agent) for the benefit of the Holders, cash in Euros in an amount sufficient to pay all the principal of, and interest on, the Euro-denominated Notes on the dates such payments are due in accordance with the terms of such Euro-denominated Notes;
- (ii) no Event of Default or event which, with notice or lapse of time or both, would become an Event of Default with respect to the Euro-denominated Notes shall have occurred and be continuing on the date of such deposit;
- (iii) the Company delivers to such trustee an opinion of counsel in the United States reasonably acceptable to such trustee to the effect that the Holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the exercise of such covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the

same manner and at the same times as would have been the case if such covenant defeasance had not occurred;

- (iv) the Company delivers to such trustee an opinion of counsel in the Republic to the effect that such deposit and related covenant defeasance will not cause the Holders, other than the Holders (x) who are or who are deemed to be residents of the Republic or (y) who use or hold or are deemed to use or hold their Euro-denominated Notes in carrying on a business in the Republic, to recognize income, gain or loss for Korean income tax purposes, and to the effect that payments out of the trust fund will be free and exempt from any and all withholding and other income taxes of whatever nature of the Republic or any province or political subdivision thereof or therein having power to tax, except in the case of Euro-denominated Notes beneficially owned (x) by a person who is or is deemed to be a resident of the Republic or (y) by a person who uses or holds or is deemed to use or hold such Euro-denominated Notes in carrying on a business in the Republic; and
- (v) the Company delivers to such trustee a certificate executed by a duly authorized officer of the Company and an opinion of counsel, each stating that all conditions precedent provided for relating to the covenant defeasance have been complied with.

Additional Amounts

All payments of principal of and interest on the Euro-denominated Notes shall be made by the Company without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of the Republic or by or within any political subdivision thereof or any authority therein having power to tax ("Korean Tax"), unless deduction or withholding of such Korean Tax is required by law. In the event that the deduction or withholding of Korean Tax is required by law, the Company will pay such additional amounts ("Additional Amounts") as will result in the payment to the Holder of the amounts which would otherwise have been receivable in respect of principal and interest in the absence of such deduction or withholding, except that no such Additional Amount shall be payable in respect of the Euro-denominated Notes:

- (a) to or on behalf of a Holder who is subject to such Korean Tax in respect of such Note by reason of such Holder being or having been connected with the Republic (or any political subdivision thereof) otherwise than merely by holding such Note or receiving principal or interest in respect thereof; or
- (b) to or on behalf of a Holder who would not be liable for or subject to such deduction or withholding by making a declaration of non-residence or other similar claim for exemption to the relevant tax authority if, after having been requested in writing by the Company to make such a declaration or claim, such Holder fails to do so within 30 days; or
- (c) to or on behalf of a Holder who presents a Note (where presentation is required) more than 30 days after the Relevant Date except to the extent that the Holder thereof would have been entitled to such Additional Amounts on presenting a Note for payment on the last day of such 30-day period; for this purpose the "Relevant Date" in relation to any payments of interest on, or principal of, any Note means: (i) the due date for payment thereof; or (ii) if the full amount of the monies payable on such date has not been received by the Fiscal Agent on or prior to such due date, the date on which, the full amount of such monies having been so received, notice to that effect is duly given to the Holders in accordance with the Euro Fiscal Agency Agreement; or
- (d) to a Holder that is a fiduciary or partnership or a person other than the sole beneficial owner of any such payment, to the extent that a beneficiary or settlor with respect to such

fiduciary, a member of such a partnership or the beneficial owner of the payment would not have been entitled to the Additional Amounts had the beneficiary, settlor, member or beneficial owner been the Holder of the Euro-denominated Note; or

(e) any combination of (a), (b), (c) or (d) above.

The obligation of the Company to pay such Additional Amounts in respect of taxes, duties, assessments and governmental charges shall not apply to (i) any estate, inheritance, gift, sales, transfer, personal property or any similar tax, assessment or other governmental charge or (ii) any tax, assessment or other governmental charge which is payable otherwise than by deduction or withholding from payments of principal or interest on the Euro-denominated Notes; *provided that*, except as otherwise set forth in the Euro-denominated Notes and in the Euro Fiscal Agency Agreement, the Company shall pay all stamp and other taxes and duties, if any, which may be imposed by the Republic, the United States, or any respective political subdivision thereof or any taxing authority of or in the foregoing, with respect to the Euro Fiscal Agency Agreement or as a consequence of the initial issuance of the Euro-denominated Notes.

References to principal or interest in respect of the Euro-denominated Notes shall be deemed also to refer to any Additional Amounts which may be payable as set forth in the Euro-denominated Note.

Optional Tax Redemption

The Euro-denominated Notes may be redeemed at the option of the Company, in whole, but not in part, upon not less than 30 nor more than 60 days' notice, at any time at a redemption price equal to the principal amount thereof plus accrued interest to (but excluding) the date fixed for redemption if, as a result of any change in, expiration of or amendment to the laws of the Republic (or of any political subdivision or taxing authority thereof or therein) or any regulations or rulings promulgated thereunder or any change in the official interpretation or official application of such laws, regulations or rulings, or any change in the official application or interpretation of, or any execution of or amendment to, any treaty or treaties affecting taxation to which the Republic (or such political subdivision or taxing authority) is a party, which change, amendment, expiration or treaty becomes effective on or after January 13, 2020, the Company is or would be obligated on the next succeeding due date for a payment with respect to the Euro-denominated Notes to pay Additional Amounts with respect to the Euro-denominated Notes, and such obligation cannot be avoided by the use of reasonable measures available to the Company; *provided, however*, that (i) no such notice of redemption may be given earlier than 60 days prior to the earliest date on which the Company would be obligated to pay such Additional Amounts, and (ii) at the time such notice of redemption is given, such obligation to pay such Additional Amounts remains in effect. Before giving any notice of such redemption, the Company shall deliver to the Fiscal Agent a certificate of the Company stating that the Company is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of redemption have occurred.

Purchase of Notes

The Company may at any time purchase Euro-denominated Notes by tender (available to all Holders alike) or in the open market at any price. If the Company shall acquire any Euro-denominated Notes, such acquisition shall not operate as or be deemed for any purpose to be a satisfaction of the indebtedness represented by such Euro-denominated Notes unless and until such Euro-denominated Notes are delivered to the Fiscal Agent for cancelation and are canceled and retired by the Fiscal Agent. Euro-denominated Notes purchased or otherwise acquired by the Company may be held, resold or, at its discretion, surrendered to the Fiscal Agent for cancelation.

Fiscal Agent

The Fiscal Agent may resign at any time or may be removed by the Company. If the Fiscal Agent resigns, is removed or becomes incapable of acting as Fiscal Agent or if a vacancy occurs in the office of the Fiscal Agent for any cause, a successor Fiscal Agent shall be appointed in accordance with the provisions of the Euro Fiscal Agency Agreement.

The address of the relevant corporate trust office of the Fiscal Agent is Citibank, N.A., London Branch, 1 North Wall Quay, Dublin 1, Ireland.

Paying and Transfer Agents

The Fiscal Agent will serve as the initial paying agent and transfer agent (together with any additional paying agent and transfer agent, the “Paying and Transfer Agents”). The Paying and Transfer Agents may resign at anytime or may be removed by the Company. If any of the Paying and Transfer Agents is removed or becomes incapable of acting as a Paying and Transfer Agent or if a vacancy occurs in the office of any of the Paying and Transfer Agents for any cause, a successor Paying and Transfer Agent will be appointed in accordance with the provisions of the Euro Fiscal Agency Agreement.

For so long as the Euro-denominated Notes are listed on the Singapore Stock Exchange and the rules of the Singapore Stock Exchange so require, in the event that a Global Note is exchanged for definitive Euro-denominated Notes, the Company will appoint and maintain a paying agent in Singapore, where the Euro-denominated Notes may be presented or surrendered for payment or redemption. In addition, in the event that a Global Note is exchanged for definitive Euro-denominated Notes, an announcement of such exchange will be made by or on behalf of the Company through the Singapore Stock Exchange and such announcement will include all material information with respect to the delivery of the definitive Euro-denominated Notes, including details of the paying agent in Singapore.

Further Issues

Subject to the lock-up provisions, the Company may from time to time, without the consent of the existing Holders, create and issue further notes to the extent permitted under the applicable laws, having the same terms and conditions as the Euro-denominated Notes in all respects except for issue date and/or issue price; provided, however, that such additional notes shall be issued under a separate ISIN and Common Code unless the additional notes are issued pursuant to a “qualified reopening” of the Euro-denominated Notes, are otherwise treated as part of the same “issue” of debt instruments as the Euro-denominated Notes or are issued with no more than a *de minimis* amount of original issue discount, in each case for U.S. federal income tax purposes. Additional notes issued in this manner (other than additional notes issued under a separate ISIN or Common Code) may be consolidated with and form a single series with the Euro-denominated Notes outstanding at the time of such further issuance.

Notices

Except as otherwise expressly provided in the Euro Fiscal Agency Agreement, whenever the Euro Fiscal Agency Agreement or the Euro-denominated Notes require that the Company or the Fiscal Agent give notice to the Holders, the Company or the Fiscal Agent will cause such notice to be mailed to the Holders (at the expense of the Company) at their respective addresses as they appear on the Note Register (as defined in the Euro Fiscal Agency Agreement) of the Company.

Governing Law and Jurisdiction

The Euro Fiscal Agency Agreement and the Euro-denominated Notes will be governed by, and interpreted in accordance with, the laws of the State of New York.

The Company has consented to the jurisdiction of the state and federal courts in the Borough of Manhattan, the State and City of New York, United States of America with respect to any action that may be brought in connection with the Euro Fiscal Agency Agreement or the Euro-denominated Notes (except actions arising under the United States federal securities laws) and has appointed POSCO America Corp. at 6456 E. Johns Crossing, Suite 200, Johns Creek, GA 30097, as its authorized agent upon whom process may be served in any such action.

Foreign Exchange Controls

Korean law does not limit the right of non-Koreans to hold Euro-denominated Notes outside of the Republic. In order for the Company to issue the Euro-denominated Notes outside of the Republic, the Company is required to file a report with the Ministry of Economy and Finance through a designated foreign exchange bank for the issuance of the Euro-denominated Notes. Such report must be obtained prior to the offer and sale of the Euro-denominated Notes. Furthermore, in order for the Company to make payments of principal of or interest on the Euro-denominated Notes and other amounts as provided in the Euro Fiscal Agency Agreement and the Euro-denominated Notes, the Company is required to submit the relevant documents to a foreign exchange bank at the time of each actual payment. The purpose of this submission is to enable such foreign exchange bank to verify that the amount being remitted conforms to the amount required to be paid under the relevant documents and that any necessary requirement under the Foreign Exchange Transaction Act of Korea has been met. Under the Foreign Exchange Transaction Act of Korea, if the Government determines that intervention is unavoidable due to certain emergency circumstances such as natural disasters or sudden and severe adverse changes in domestic and foreign economic conditions, it may temporarily suspend payments, receipts or foreign exchange or impose other necessary restrictions. Furthermore, if the Government deems that extreme difficulty in stabilizing the balance of payments, substantial disturbance in international capital markets or other analogous condition is likely to occur, it may require the participants of capital transactions to comply with certain obligations including, but not limited to, an obligation to obtain prior approval from the relevant Korean authority.

DESCRIPTION OF THE U.S. DOLLAR-DENOMINATED NOTES

The 2023 U.S. dollar-denominated Notes will be issued under a fiscal agency agreement to be dated as of January 17, 2020 (the “2023 US\$ Fiscal Agency Agreement”), between the Company and the Fiscal Agent and the 2025 U.S. dollar-denominated Notes will be issued under a fiscal agency agreement to be dated as of January 17, 2020 (the “2025 US\$ Fiscal Agency Agreement” and together with the 2023 US\$ Fiscal Agency Agreement, the “US\$ Fiscal Agency Agreements”), between the Company and the Fiscal Agent. The following summaries of certain provisions of the U.S. dollar-denominated Notes and the US\$ Fiscal Agency Agreements do not purport to be complete and are qualified in their entirety by reference to the provisions of the U.S. dollar-denominated Notes and the US\$ Fiscal Agency Agreements.

General

The 2023 U.S. dollar-denominated Notes will be issued in an initial aggregate principal amount of US\$500,000,000 and will mature on January 17, 2023. The 2025 U.S. dollar-denominated Notes will be issued in an initial aggregate principal amount of US\$440,000,000 and will mature on January 17, 2025. The U.S. dollar-denominated Notes are the direct, unconditional, unsecured and unsubordinated general obligations of the Company. Each of the U.S. dollar-denominated Notes will rank *pari passu* among themselves, without any preference one over the other by reason of priority of date of issue or otherwise, and at least equally with all other outstanding unsecured and unsubordinated general obligations of the Company (subject to certain statutory exceptions under the laws of the Republic of Korea).

The 2023 U.S. dollar-denominated Notes will bear interest at the rate of 2.375% per annum and the 2025 U.S. dollar-denominated Notes will bear interest at the rate of 2.500% per annum from and including January 17, 2020. Interest on each of the U.S. dollar-denominated Notes will be payable semi-annually in arrears on January 17 and July 17 of each year, commencing July 17, 2020, to the holders of record (“Holders”) as of the close of business on the fifteenth day preceding such interest payment date. Interest on the U.S. dollar-denominated Notes will be calculated on the basis of a 360-day year consisting of twelve 30-day months. In any case where the date for the payment of any principal or interest on any Note is not a day on which banking institutions at any place of payment, including New York and London, are open for business (a “Business Day”), then payment of such principal or interest need not be made on such date at such place of payment but may be made on the next succeeding day at such place of payment which is a Business Day with the same force and effect as if made on the date for such payment of principal or interest, and no interest shall accrue for the period after such date.

The U.S. dollar-denominated Notes may be redeemed at the option of the Company in whole, but not in part, at any time prior to maturity under the circumstances described under “— Optional Tax Redemption.” The U.S. dollar-denominated Notes do not have the benefit of any sinking fund.

Payments

Payments of interest and principal of the U.S. dollar-denominated Notes will be made in such coin or currency of the United States of America on a bank that processes payments in Dollars, by wire transfer to a bank account designated by such Holder in writing (such designation to be signed by two authorized officers of such Holder if it is not an individual) to the Fiscal Agent at least ten days prior to the relevant payment date.

Book-Entry System and Form of Notes

Upon issuance, the U.S. dollar-denominated Notes are expected to be represented by Global Notes in fully registered form. The Global Notes will be deposited with or on behalf of DTC and registered in the name of a nominee of DTC. A Global Note may not be transferred except as a whole

by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or by DTC or any such nominee to a successor of or a nominee of such successor.

Upon the issuance of the Global Notes, DTC will credit, on its book-entry registration and transfer system, the respective principal amounts of the U.S. dollar-denominated Notes represented by such Global Notes to the accounts of persons that have accounts with DTC (“participants”), including depositaries for Euroclear and Clearstream. The accounts to be initially credited shall be designated by the Initial Purchasers participating in the initial offer and sale of the U.S. dollar-denominated Notes. Ownership of beneficial interests in the Global Notes will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in such Global Notes will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC for such Global Notes (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants).

DTC or its nominee, as the case may be, as registered Holder of the Global Notes will be considered the sole owner or holder of the U.S. dollar-denominated Notes represented by each Global Note for all purposes under the U.S. dollar-denominated Notes and the US\$ Fiscal Agency Agreements.

Principal and interest payments on U.S. dollar-denominated Notes represented by the Global Notes registered in the name of DTC or its nominee will be made to DTC or its nominee, as the case may be, as the registered owner of such Global Notes. None of the Company, the Fiscal Agent or any paying agent for such U.S. dollar-denominated Notes will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in such Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Company expects that DTC, upon receipt of any payment of principal or interest, will credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Global Notes as shown on the records of DTC. The Company also expects that payments by participants to owners of beneficial interests in such Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the account of customers registered in “street names”, and will be the responsibility of such participants.

If (i) at any time DTC notifies the Company in writing that it is unwilling or unable to continue as depositary or ceases to be a “clearing agency” under the Exchange Act, and a successor depositary is not appointed by the Company within 90 days after the Company is notified by DTC or becomes aware of such condition, or (ii) the U.S. dollar-denominated Notes have become immediately due and payable pursuant to the US\$ Fiscal Agency Agreements, the Company will issue U.S. dollar-denominated Notes in definitive registered form in exchange for the Global Notes representing such U.S. dollar-denominated Notes. The U.S. dollar-denominated Notes will be issued only in fully registered form without coupons in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof. If the U.S. dollar-denominated Notes are issued in definitive registered form, the Company will make payments of principal of and interest on the U.S. dollar-denominated Notes, and transfers and exchanges of the U.S. dollar-denominated Notes will be affected, subject to the terms of the US\$ Fiscal Agency Agreements and the U.S. dollar-denominated Notes (without any service charge) upon surrender of the U.S. dollar-denominated Notes at the offices of the Fiscal Agent.

Same-Day Settlement

Initial settlement for the U.S. dollar-denominated Notes will be made in same-day funds.

Restrictions on Transfer

The U.S. dollar-denominated Notes may not be sold or otherwise transferred except in accordance with the restrictions described under “Transfer Restrictions.”

Meetings of Holders; Modification and Amendment

The Company may at any time, and the Fiscal Agent shall at any time after the U.S. dollar-denominated Notes shall have become immediately due and payable due to a default upon a request in writing made by Holders holding not less than 10% of the aggregate outstanding principal amount of the respective U.S. dollar-denominated Notes, convene a meeting of the Holders. At a meeting of the Holders, persons entitled to vote a majority in aggregate principal amount of the respective U.S. dollar-denominated Notes at the time outstanding shall constitute a quorum. In the absence of a quorum at any such meeting, the meeting may be adjourned for a period of not less than ten days; in the absence of a quorum at any such adjourned meeting, such adjourned meeting may be further adjourned for a period of not less than ten days; at the reconvening of any meeting further adjourned for lack of a quorum, the persons entitled to vote 25% in aggregate principal amount of the respective U.S. dollar-denominated Notes at the time outstanding shall constitute a quorum for the taking of any action set forth in the notice of the original meeting. Any resolution at a meeting of the Holders to modify or amend, or to waive compliance with, any of the covenants or conditions (other than those set forth below as requiring the consent of each Holder of a Note affected thereby) shall be effectively passed if passed by the lesser of (i) a majority in aggregate principal amount of respective U.S. dollar-denominated Notes then outstanding or (ii) 75% in aggregate principal amount of the respective U.S. dollar-denominated Notes represented and voting at the meeting.

Modifications and amendments to the US\$ Fiscal Agency Agreements or the U.S. dollar-denominated Notes requiring consent of Holders may be made, and future compliance therewith or past defaults by the Company may be waived, with the consent of the Company and the Holders of more than 50% in aggregate principal amount of the respective U.S. dollar-denominated Notes at the time outstanding, or of such lesser percentage as may act at a meeting of the Holders held in accordance with the provisions of the US\$ Fiscal Agency Agreements; *provided* that no such modification, amendment or waiver of the US\$ Fiscal Agency Agreements or any Note may, without the consent of each Holder affected thereby, (i) change the stated maturity of the principal of, or the date for the payment of interest on, any such Note; (ii) reduce the principal of or interest on any such Note; (iii) change the currency of payment of the principal of or interest on any such Note; or (iv) reduce the above-stated percentage of aggregate principal amount of respective U.S. dollar-denominated Notes outstanding or reduce the quorum requirements or the percentage of votes required for the taking of any action.

The US\$ Fiscal Agency Agreements and the terms and conditions of the U.S. dollar-denominated Notes may be modified, supplemented or amended, without the consent of the Holders, for the purposes of (i) adding to the covenants of the Company for the benefit of such Holders, (ii) surrendering any right or power conferred upon the Company, (iii) securing the U.S. dollar-denominated Notes, (iv) curing any ambiguity or correcting or supplementing any defective provision contained in the US\$ Fiscal Agency Agreements or the U.S. dollar-denominated Notes, (v) implementing the provisions described under “— Meetings of Holders; Modification and Amendment” herein, (vi) evidencing and providing for the acceptance of appointment of a successor Fiscal Agent with respect to the U.S. dollar-denominated Notes and to add to or change any provisions of the US\$ Fiscal Agency Agreements that shall be necessary to provide for or facilitate the administration of the trusts by more than one Fiscal Agent or (vii) in any other manner which the Company may deem necessary or desirable, *provided* that such action, in the opinion of the Company, shall not adversely affect in any material respect the interests of the Holders of such U.S. dollar-denominated Notes at the time outstanding. In all other cases, any amendment of the US\$ Fiscal Agency Agreements will require the consent of the Holders pursuant to a resolution of the Holders

adopted in accordance with the provisions of the US\$ Fiscal Agency Agreements. Any determination as to material adverse effect with respect to the interest of Holders pursuant to in this paragraph will be made by the Company, and the Fiscal Agent shall not have any responsibility or liability whatsoever with respect to such determination. Any modification shall be binding on the Holders and any modification shall be notified by the Company to the Holders as soon as reasonably practicable thereafter in accordance with the provisions of the US\$ Fiscal Agency Agreements.

Any modifications, amendments or waivers consented to or approved at a meeting will be conclusive and binding on all Holders whether or not they have given such consent or were present at such meeting, and on all future Holders whether or not notation of such modifications, amendments or waivers is made upon the U.S. dollar-denominated Notes. Any instrument given by or on behalf of any Holder of a Note in connection with any consent to any such modification, amendment or waiver will be irrevocable once given and will be conclusive and binding on all subsequent Holders of such Note.

Certain Covenants

Limitation on Liens

So long as any of the U.S. dollar-denominated Notes are outstanding, the Company will not itself, and will not permit any Material Subsidiary to, create, incur, issue or assume or guarantee any External Indebtedness secured by any mortgage, charge, pledge, encumbrance or other security interest (a "Lien") on any Principal Property without in any such case effectively providing that the U.S. dollar-denominated Notes (together with, if the Company shall so determine, any other indebtedness of the Company or such Material Subsidiary then existing or thereafter created) shall be secured equally and ratably with or prior to such secured External Indebtedness, so long as such secured External Indebtedness shall be so secured, unless, after giving effect thereto, the aggregate principal amount of all such secured External Indebtedness then outstanding *plus* Attributable Debt of the Company and its Material Subsidiaries in respect of Sale/Leaseback Transactions as described under "— Limitation on Sale and Leaseback Transactions" below (other than such Sale/Leaseback Transactions permitted under clause (b) of the covenant described in such section) would not exceed an amount equal to 15% of Consolidated Net Tangible Assets.

The foregoing restriction will not apply to External Indebtedness secured by:

- (i) any Lien existing on any Principal Property prior to the acquisition thereof by the Company or any of its Material Subsidiaries or arising after such acquisition pursuant to contractual commitments entered into prior to and not in contemplation of such acquisition;
- (ii) any Lien on any Principal Property securing External Indebtedness incurred or assumed for the purpose of financing the purchase price thereof or the cost of construction, improvement or repair of all or any part thereof, provided that such Lien attaches to such Principal Property concurrently with or within 12 months after the acquisition thereof or completion of construction, improvement or repair thereof;
- (iii) any Lien existing on any Principal Property of any Material Subsidiary prior to the time such Material Subsidiary becomes a Subsidiary of the Company or arising after such time pursuant to contractual commitments entered into prior to and not in contemplation thereof;
- (iv) any Lien securing External Indebtedness owing to the Company or to a Subsidiary; or
- (v) any Lien arising out of the refinancing, extension, renewal or refunding of any External Indebtedness secured by any Lien permitted by any of the foregoing clauses or existing as of the date of the US\$ Fiscal Agency Agreements, provided that such External Indebtedness is not increased and is not secured by any additional Principal Property.

For the purposes of the covenants described hereunder and under "— Limitation on Sale and Leaseback Transactions" below, the giving of a guarantee which is secured by a Lien on a Principal

Property, and the creation of a Lien on a Principal Property to secure External Indebtedness which existed prior to the creation of such Lien, shall be deemed to involve the creation of indebtedness in an amount equal to the principal amount guaranteed or secured by such Lien; but the amount of indebtedness secured by Liens on Principal Properties shall be computed without cumulating the underlying indebtedness with any guarantee thereof or Lien securing the same.

Limitation on Sale and Leaseback Transactions

So long as any of the U.S. dollar-denominated Notes are outstanding, the Company will not itself, and will not permit any Material Subsidiary to, enter into any Sale/Leaseback Transaction after the date of the US\$ Fiscal Agency Agreements (other than such Sale/Leaseback Transactions permitted under clause (b) below), unless either:

- (a) the Attributable Debt of the Company and its Material Subsidiaries in respect of such Sale/Leaseback Transaction and all other Sale/Leaseback Transactions entered into after the date of the US\$ Fiscal Agency Agreements (other than such Sale/Leaseback Transactions permitted under clause (b) below) plus the aggregate principal amount of External Indebtedness secured by Liens on Principal Properties then outstanding (excluding any such External Indebtedness secured by Liens described in clauses (i) through (v) under “— Limitation on Liens” above or existing on the date of the US\$ Fiscal Agency Agreements) without equally and ratably securing the respective U.S. dollar-denominated Notes, would not exceed 15% of Consolidated Net Tangible Assets; or
- (b) the Company, within 12 months after such Sale/Leaseback Transaction, applies or causes a Material Subsidiary, as the case may be, to apply an amount equal to the net proceeds of such sale or transfer of the Principal Property which is the subject of such Sale/Leaseback Transaction, to the retirement of External Indebtedness of the Company or a Material Subsidiary, as the case may be, which is not subordinate to the U.S. dollar-denominated Notes; provided that the amount to be so applied shall be reduced by (i) the principal amount of respective U.S. dollar-denominated Notes delivered within 12 months after such Sale/Leaseback Transaction to the Fiscal Agent for retirement and cancellation, and (ii) the principal amount of External Indebtedness of the Company or a Material Subsidiary, other than the respective U.S. dollar-denominated Notes, voluntarily retired by the Company or a Material Subsidiary within 12 months after such Sale/Leaseback Transaction. Notwithstanding the foregoing, no retirement referred to in this clause (b) may be effected by payment at maturity or pursuant to any mandatory prepayment provision.

Notwithstanding the foregoing, where the Company or any Material Subsidiary is the lessee in any Sale/Leaseback Transaction, Attributable Debt shall not include any External Indebtedness resulting from the guarantee by the Company or any other Material Subsidiary of the lessee's obligation in such Sale/Leaseback Transaction. The foregoing restrictions shall not apply to any transaction between the Company and a Subsidiary or between a Material Subsidiary and a Subsidiary.

Certain Definitions

All accounting terms used in the US\$ Fiscal Agency Agreements and the U.S. dollar-denominated Notes and not expressly defined shall have the meanings given to them in accordance with Korean IFRS, and the term “Korean IFRS” shall mean the International Financial Reporting Standards as adopted by the Republic at the date or time of any computation.

“*Attributable Debt*” means, with respect to any Sale/Leaseback Transaction, the lesser of:

- (i) the fair market value of the Principal Property subject to the Sale/Leaseback Transaction; and

- (ii) the present value (discounted at a rate per annum equal to the discount rate of a capital lease obligation with a like term in accordance with Korean IFRS) of the obligations of the lessee for net rental payments (excluding amounts on account of maintenance and repairs, insurance, taxes, assessments and similar charges) during the term of the lease.

“Consolidated Net Tangible Assets” means, at any date, the total amount of assets of the Company and its consolidated Subsidiaries, including investments in unconsolidated Subsidiaries, after deducting therefrom:

- (i) all current liabilities (excluding any current liabilities constituting Long-term Debt by reason of their being renewable or extendible at the option of the Company);
- (ii) all goodwill, trade names, trademarks, patents, unamortized debt discount and expense and other like intangible assets; and
- (iii) all write-ups of fixed assets, net of accumulated depreciation thereon, after December 31, 2018, other than as permitted under the Asset Revaluation Law, or successor law, of the Republic, all as set forth on the most recent balance sheet of the Company and its consolidated Subsidiaries and computed in accordance with Korean IFRS.

“External Indebtedness” means any obligation for the payment or repayment of money borrowed which is denominated in a currency other than the currency of the Republic and which has a final maturity of one year or more from its date of incurrence or issuance.

“Long-term Debt” means any note, bond, debenture or other similar indebtedness for money borrowed having a maturity of more than one year from the date such indebtedness was incurred or having a maturity of less than or equal to one year but by its terms being renewable or extendible, at the option of the borrower, beyond one year from the date such indebtedness was incurred.

“Material Subsidiary” means any Subsidiary that owns a Principal Property.

“person” means any individual, corporation, partnership, joint venture, association, joint stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

“Principal Property” means:

- (i) Pohang Works, Gwangyang Works and any other steel producing or processing facility located in the Republic, whether at the date of the US\$ Fiscal Agency Agreements owned or thereafter acquired, including any land, buildings, structures or machinery and other fixtures that constitute any such facility, or portion thereof, other than any such facility, or portion thereof, reasonably determined by the Company’s Board of Directors not to be of material importance to the total business conducted by the Company and its Subsidiaries as a whole; and
- (ii) any share of common or participating preferred stock of a Material Subsidiary.

“Sale/Leaseback Transaction” means any arrangement with any person which provides for the leasing by the Company or any Material Subsidiary, for an initial term of three years or more, of any Principal Property, whether now owned or hereafter acquired, which is to be sold or transferred by the Company or any Material Subsidiary after the date of the US\$ Fiscal Agency Agreements to such person for a sale price of US\$30,000,000 (or the equivalent thereof) or more where the rental payments are denominated in a currency other than the currency of the Republic.

“Subsidiary” means any corporation or other entity of which securities or other ownership interests having ordinary voting power to elect a majority of the board of directors or other persons performing similar functions are at the time directly or indirectly owned by the Company.

Provision of Information to Holders

The Company covenants that for so long as the U.S. dollar-denominated Notes are “restricted securities” within the meaning of Rule 144 under the Securities Act, the Company will, at any time when it is not subject to either the periodic reporting requirements of Section 13 or Section 15(d) of the Exchange Act or the requirements of Rule 12g3-2(b) thereunder, provide to any Holder or prospective purchaser of U.S. dollar-denominated Notes designated by such Holder, upon the request of such Holder or prospective purchaser, the information required to be provided by Rule 144A(d)(4) under the Securities Act.

Events of Default

The term “Event of Default” wherever used in the US\$ Fiscal Agency Agreements with respect to the U.S. dollar-denominated Notes means any of the following events (whatever the reason for such Event of Default and whether it shall be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body) which shall have occurred and be continuing:

- (a) default in the payment of any installment of interest upon any of the U.S. dollar-denominated Notes when they become due and payable, and continuance of such default for a period of 30 days; or
- (b) default in the payment of all or any part of the principal of (or premium, if any, on) any of the U.S. dollar-denominated Notes as and when the same shall become due and payable, whether at maturity, upon redemption or otherwise; or
- (c) default in the performance, or breach, of the covenants or agreements on the part of the Company contained in the U.S. dollar-denominated Notes or in the US\$ Fiscal Agency Agreements, and continuance of such default or breach for a period of 60 days after there has been given, by registered or certified mail, to the Company at the office of the Fiscal Agent by the Holders of at least 10% in aggregate principal amount of the respective U.S. dollar-denominated Notes at the time outstanding a written notice specifying such default or breach and requiring it to be remedied and stating that such notice is a “Notice of Default” under the U.S. dollar-denominated Notes; or
- (d) any External Indebtedness of the Company in the aggregate outstanding principal amount of US\$30,000,000 or more either (i) becoming due and payable prior to the due date for payment thereof by reason of acceleration thereof following default by the Company or (ii) not being repaid at, and remaining unpaid after, maturity as extended by the period of grace, if any, applicable thereto, or any guarantee given by the Company in respect of External Indebtedness of any other person not being honored when, and remaining dishonored after becoming, due and called; provided that, in the case of (i) above, if any such default under any such External Indebtedness shall be cured or waived, then the default under the U.S. dollar-denominated Notes by reason thereof shall be deemed to have been cured and waived; or
- (e) the entry of a decree or order for relief in respect of the Company by a court having jurisdiction in the premises in an involuntary case under any applicable bankruptcy, insolvency, rehabilitation or other similar law in effect on the date of the U.S. dollar-denominated Notes or thereafter, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Company or of any substantial part of its property, or ordering the winding up or liquidation of its affairs, and the continuance of any such decree or order unstayed and in effect for a period of 60 consecutive days; or

- (f) the commencement by the Company of a voluntary case under any applicable bankruptcy, insolvency, rehabilitation or other similar law in effect on the date of the U.S. dollar-denominated Notes or thereafter, or the consent by the Company to the entry of an order for relief in an involuntary case under any such law or to the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Company or of any substantial part of its property, or the mailing by the Company of an assignment for the benefit of its creditors, or the admission by the Company in writing of inability to pay its debts generally as they become due, or the taking of corporate action by the Company in furtherance of any such action.

If an Event of Default with respect to the U.S. dollar-denominated Notes occurs and is continuing, the Holders of not less than 25% in aggregate principal amount of the respective U.S. dollar-denominated Notes then outstanding may declare the principal amount of and all accrued but unpaid interest on all the respective U.S. dollar-denominated Notes to be due and payable immediately, by a notice in writing to the Company at the office of the Fiscal Agent, and upon such declaration any such principal amount and interest shall become immediately due and payable. Upon such declaration, the Fiscal Agent shall give notice thereof to the Company and to the Holders, by mail and publication. If, after any such declaration and before any judgment or decree for the payment of the moneys due shall have been obtained or entered, the Company pays or deposits with the Fiscal Agent all amounts then due with respect to the respective U.S. dollar-denominated Notes (other than amounts due solely because of such declaration) and cures all other Events of Default with respect to the respective U.S. dollar-denominated Notes, such defaults may be waived and such declaration may be annulled and rescinded by the Holders of more than 50% in aggregate outstanding principal amount of the respective U.S. dollar-denominated Notes by written notice thereof to the Company at the office of the Fiscal Agent.

Consolidation, Merger and Sale of Assets

The Company, without the consent of the Holders of any of the respective U.S. dollar-denominated Notes, may consolidate with, or merge into, or sell, transfer, lease or convey its assets as an entirety or substantially as an entirety to any corporation organized under the laws of the Republic; *provided that* (a) any successor corporation expressly assumes the Company's obligations under the U.S. dollar-denominated Notes and the US\$ Fiscal Agency Agreements, (b) after giving effect to the transaction, no Event of Default and no event which, after notice or lapse of time or both, would become an Event of Default, shall have occurred and be continuing, (c) if, as a result of such transaction, the Company or any successor corporation becomes subject to a Lien which would not be permitted by the U.S. dollar-denominated Notes, such steps shall have been taken as are necessary to secure the U.S. dollar-denominated Notes equally and ratably with (or prior to) all indebtedness secured thereby, and (d) certain other conditions as per the US\$ Fiscal Agency Agreements are satisfied.

Defeasance and Discharge

The US\$ Fiscal Agency Agreements provides that the Company need not comply with certain covenants ("covenant defeasance") of the U.S. dollar-denominated Notes (including those described under "— Certain Covenants — Limitation on Liens" and "— Certain Covenants — Limitation on Sale and Leaseback Transactions"), if:

- (i) the Company irrevocably deposits, in trust with a trustee (which may be the Fiscal Agent) for the benefit of the Holders, (a) cash in Dollars in an amount, or (b) U.S. Government Obligations (as defined below) which through the payment of interest thereon and principal thereof in accordance with their terms will provide cash in Dollars in an amount, or (c) any combination of (a) and (b), sufficient to pay all the principal of, and interest on, the

respective U.S. dollar-denominated Notes on the dates such payments are due in accordance with the terms of such U.S. dollar-denominated Notes;

- (ii) no Event of Default or event which, with notice or lapse of time or both, would become an Event of Default with respect to the U.S. dollar-denominated Notes shall have occurred and be continuing on the date of such deposit;
- (iii) the Company delivers to such trustee an opinion of counsel in the United States reasonably acceptable to such trustee to the effect that the Holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the exercise of such covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such covenant defeasance had not occurred;
- (iv) the Company delivers to such trustee an opinion of counsel in the Republic to the effect that such deposit and related covenant defeasance will not cause the Holders, other than the Holders (x) who are or who are deemed to be residents of the Republic or (y) who use or hold or are deemed to use or hold their U.S. dollar-denominated Notes in carrying on a business in the Republic, to recognize income, gain or loss for Korean income tax purposes, and to the effect that payments out of the trust fund will be free and exempt from any and all withholding and other income taxes of whatever nature of the Republic or any province or political subdivision thereof or therein having power to tax, except in the case of U.S. dollar-denominated Notes beneficially owned (x) by a person who is or is deemed to be a resident of the Republic or (y) by a person who uses or holds or is deemed to use or hold such U.S. dollar-denominated Notes in carrying on a business in the Republic; and
- (v) the Company delivers to such trustee a certificate executed by a duly authorized officer of the Company and an opinion of counsel, each stating that all conditions precedent provided for relating to the covenant defeasance have been complied with.

“U.S. Government Obligations” means securities which are (i) direct obligations of the United States government or are (ii) direct obligations of a person controlled or supervised by and acting as an agency or instrumentality of the United States government, the payment of which is unconditionally guaranteed by the United States government, which, in either case, are full faith and credit obligations of the United States government payable in Dollars and are not callable or redeemable at the option of the issuer thereof and shall also include a depositary receipt issued by a bank or trust company as custodian with respect to any such U.S. Government Obligation or a specific payment of interest on or principal of any such U.S. Government Obligation held by such custodian for the account of the holder of a depositary receipt; provided that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depositary receipt from any amount received by the custodian in respect of the U.S. Government Obligation or the specific payment of interest on or principal of the U.S. Government Obligation evidenced by such depositary receipt.

Additional Amounts

All payments of principal of and interest on the U.S. dollar-denominated Notes shall be made by the Company without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of the Republic or by or within any political subdivision thereof or any authority therein having power to tax (“Korean Tax”), unless deduction or withholding of such Korean Tax is required by law. In the event that the deduction or withholding of Korean Tax is required by law, the Company will pay such additional amounts (“Additional Amounts”) as will result in the payment to the Holder of the amounts which would otherwise have been receivable in respect of principal and interest in the absence of such

deduction or withholding, except that no such Additional Amount shall be payable in respect of the U.S. dollar-denominated Notes:

- (a) to or on behalf of a Holder who is subject to such Korean Tax in respect of such Note by reason of such Holder being or having been connected with the Republic (or any political subdivision thereof) otherwise than merely by holding such Note or receiving principal or interest in respect thereof; or
- (b) to or on behalf of a Holder who would not be liable for or subject to such deduction or withholding by making a declaration of non-residence or other similar claim for exemption to the relevant tax authority if, after having been requested in writing by the Company to make such a declaration or claim, such Holder fails to do so within 30 days; or
- (c) to or on behalf of a Holder who presents a Note (where presentation is required) more than 30 days after the Relevant Date except to the extent that the Holder thereof would have been entitled to such Additional Amounts on presenting a Note for payment on the last day of such 30-day period; for this purpose the "Relevant Date" in relation to any payments of interest on, or principal of, any Note means: (i) the due date for payment thereof; or (ii) if the full amount of the monies payable on such date has not been received by the Fiscal Agent on or prior to such due date, the date on which, the full amount of such monies having been so received, notice to that effect is duly given to the Holders in accordance with the US\$ Fiscal Agency Agreements; or
- (d) to a Holder that is a fiduciary or partnership or a person other than the sole beneficial owner of any such payment, to the extent that a beneficiary or settlor with respect to such fiduciary, a member of such a partnership or the beneficial owner of the payment would not have been entitled to the Additional Amounts had the beneficiary, settlor, member or beneficial owner been the Holder of the U.S. dollar-denominated Note; or
- (e) any combination of (a), (b), (c) or (d) above.

The obligation of the Company to pay such Additional Amounts in respect of taxes, duties, assessments and governmental charges shall not apply to (i) any estate, inheritance, gift, sales, transfer, personal property or any similar tax, assessment or other governmental charge or (ii) any tax, assessment or other governmental charge which is payable otherwise than by deduction or withholding from payments of principal or interest on the U.S. dollar-denominated Notes; *provided* that, except as otherwise set forth in the U.S. dollar-denominated Notes and in the US\$ Fiscal Agency Agreements, the Company shall pay all stamp and other taxes and duties, if any, which may be imposed by the Republic, the United States, or any respective political subdivision thereof or any taxing authority of or in the foregoing, with respect to the US\$ Fiscal Agency Agreements or as a consequence of the initial issuance of the U.S. dollar-denominated Notes.

References to principal or interest in respect of the U.S. dollar-denominated Notes shall be deemed also to refer to any Additional Amounts which may be payable as set forth in the U.S. dollar-denominated Note.

Optional Tax Redemption

The U.S. dollar-denominated Notes may be redeemed at the option of the Company, in whole, but not in part, upon not less than 30 nor more than 60 days' notice, at any time at a redemption price equal to the principal amount thereof plus accrued interest to (but excluding) the date fixed for redemption if, as a result of any change in, expiration of or amendment to the laws of the Republic (or of any political subdivision or taxing authority thereof or therein) or any regulations or rulings promulgated thereunder or any change in the official interpretation or official application of such laws, regulations or rulings, or any change in the official application or interpretation of, or any execution of

or amendment to, any treaty or treaties affecting taxation to which the Republic (or such political subdivision or taxing authority) is a party, which change, amendment, expiration or treaty becomes effective on or after January 13, 2020, the Company is or would be obligated on the next succeeding due date for a payment with respect to the U.S. dollar-denominated Notes to pay Additional Amounts with respect to the U.S. dollar-denominated Notes, and such obligation cannot be avoided by the use of reasonable measures available to the Company; *provided, however*, that (i) no such notice of redemption may be given earlier than 60 days prior to the earliest date on which the Company would be obligated to pay such Additional Amounts, and (ii) at the time such notice of redemption is given, such obligation to pay such Additional Amounts remains in effect. Before giving any notice of such redemption, the Company shall deliver to the Fiscal Agent a certificate of the Company stating that the Company is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of redemption have occurred.

Purchase of Notes

The Company may at any time purchase U.S. dollar-denominated Notes by tender (available to all Holders alike) or in the open market at any price. If the Company shall acquire any U.S. dollar-denominated Notes, such acquisition shall not operate as or be deemed for any purpose to be a satisfaction of the indebtedness represented by such U.S. dollar-denominated Notes unless and until such U.S. dollar-denominated Notes are delivered to the Fiscal Agent for cancellation and are canceled and retired by the Fiscal Agent. U.S. dollar-denominated Notes purchased or otherwise acquired by the Company may be held, resold or, at its discretion, surrendered to the Fiscal Agent for cancellation.

Fiscal Agent

The Fiscal Agent may resign at any time or may be removed by the Company. If the Fiscal Agent resigns, is removed or becomes incapable of acting as Fiscal Agent or if a vacancy occurs in the office of the Fiscal Agent for any cause, a successor Fiscal Agent shall be appointed in accordance with the provisions of the US\$ Fiscal Agency Agreements.

The address of the relevant corporate trust office of the Fiscal Agent is Citibank, N.A., London Branch, 1 North Wall Quay, Dublin 1, Ireland.

Paying and Transfer Agents

The Fiscal Agent will serve as the initial paying agent and transfer agent (together with any additional paying agent and transfer agent, the "Paying and Transfer Agents"). The Paying and Transfer Agents may resign at anytime or may be removed by the Company. If any of the Paying and Transfer Agents is removed or becomes incapable of acting as a Paying and Transfer Agent or if a vacancy occurs in the office of any of the Paying and Transfer Agents for any cause, a successor Paying and Transfer Agent will be appointed in accordance with the provisions of the US\$ Fiscal Agency Agreements.

For so long as the U.S. dollar-denominated Notes are listed on the Singapore Stock Exchange and the rules of the Singapore Stock Exchange so require, in the event that a Global Note is exchanged for definitive U.S. dollar-denominated Notes, the Company will appoint and maintain a paying agent in Singapore, where the U.S. dollar-denominated Notes may be presented or surrendered for payment or redemption. In addition, in the event that a Global Note is exchanged for definitive U.S. dollar-denominated Notes, an announcement of such exchange will be made by or on behalf of the Company through the Singapore Stock Exchange and such announcement will include all material information with respect to the delivery of the definitive U.S. dollar-denominated Notes, including details of the paying agent in Singapore.

Further Issues

Subject to the lock-up provisions, the Company may from time to time, without the consent of the existing Holders, create and issue further notes to the extent permitted under the applicable laws, having the same terms and conditions as the U.S. dollar-denominated Notes in all respects except for issue date and/or issue price; provided, however, that such additional notes shall be issued under a separate CUSIP, ISIN and Common Code unless the additional notes are issued pursuant to a “qualified reopening” of the U.S. dollar-denominated Notes, are otherwise treated as part of the same “issue” of debt instruments as the U.S. dollar-denominated Notes or are issued with no more than a *de minimis* amount of original issue discount, in each case for U.S. federal income tax purposes. Additional notes issued in this manner (other than additional notes issued under a separate CUSIP, ISIN or Common Code) may be consolidated with and form a single series with the U.S. dollar-denominated Notes outstanding at the time of such further issuance.

Notices

Except as otherwise expressly provided in the US\$ Fiscal Agency Agreements, whenever the US\$ Fiscal Agency Agreements or the U.S. dollar-denominated Notes require that the Company or the Fiscal Agent give notice to the Holders, the Company or the Fiscal Agent will cause such notice to be mailed to the Holders (at the expense of the Company) at their respective addresses as they appear on the Note Register (as defined in the US\$ Fiscal Agency Agreements) of the Company.

Governing Law and Jurisdiction

The US\$ Fiscal Agency Agreements and the U.S. dollar-denominated Notes will be governed by, and interpreted in accordance with, the laws of the State of New York.

The Company has consented to the jurisdiction of the state and federal courts in the Borough of Manhattan, the State and City of New York, United States of America with respect to any action that may be brought in connection with the US\$ Fiscal Agency Agreements or the U.S. dollar-denominated Notes (except actions arising under the United States federal securities laws) and has appointed POSCO America Corp. at 6456 E. Johns Crossing, Suite 200, Johns Creek, GA 30097, as its authorized agent upon whom process may be served in any such action.

Foreign Exchange Controls

Korean law does not limit the right of non-Koreans to hold U.S. dollar-denominated Notes outside of the Republic. In order for the Company to issue the U.S. dollar-denominated Notes outside of the Republic, the Company is required to file a report with the Ministry of Economy and Finance through a designated foreign exchange bank for the issuance of the U.S. dollar-denominated Notes. Such report must be obtained prior to the offer and sale of the U.S. dollar-denominated Notes. Furthermore, in order for the Company to make payments of principal of or interest on the U.S. dollar-denominated Notes and other amounts as provided in the US\$ Fiscal Agency Agreements and the U.S. dollar-denominated Notes, the Company is required to submit the relevant documents to a foreign exchange bank at the time of each actual payment. The purpose of this submission is to enable such foreign exchange bank to verify that the amount being remitted conforms to the amount required to be paid under the relevant documents and that any necessary requirement under the Foreign Exchange Transaction Act of Korea has been met. Under the Foreign Exchange Transaction Act of Korea, if the Government determines that intervention is unavoidable due to certain emergency circumstances such as natural disasters or sudden and severe adverse changes in domestic and foreign economic conditions, it may temporarily suspend payments, receipts or foreign exchange or impose other necessary restrictions. Furthermore, if the Government deems that extreme difficulty in stabilizing the balance of payments, substantial disturbance in international capital markets or other analogous condition is likely to occur, it may require the participants of capital transactions to comply with certain obligations including, but not limited to, an obligation to obtain prior approval from the relevant Korean authority.

UNITED STATES FEDERAL INCOME TAXATION

The following is a summary of certain U.S. federal income tax considerations that may be relevant to a U.S. Holder (as defined below) of a Note. This summary is based on provisions of the Internal Revenue Code of 1986, as amended, applicable Treasury regulations, laws, rulings and decisions as currently in effect, all of which are subject to change, possibly with retroactive effect. This summary deals only with beneficial owners of Notes that will hold Notes as capital assets and that acquired the Notes upon original issuance at their original offering price. It does not address particular tax considerations that may be applicable to investors that are subject to special tax rules, such as banks, tax-exempt entities, insurance companies, regulated investment companies, dealers in securities or currencies, traders in securities electing to mark to market, persons that will hold Notes as a position in a “straddle” or conversion transaction, or as part of a “synthetic security” or other integrated financial transaction, entities or arrangements taxed as partnerships for U.S. federal income tax purposes or the partners therein, U.S. expatriates or persons that have a “functional currency” other than the U.S. dollar.

This summary addresses only U.S. federal income tax consequences and does not address consequences arising under state, local, foreign tax laws, the alternative minimum tax or the Medicare tax on net investment income. Investors should consult their own tax advisors in determining the tax consequences to them of holding Notes under such tax laws, as well as the application to their particular situation of the U.S. federal income tax considerations discussed below.

As used herein, a “U.S. Holder” is a beneficial owner of a Note that is a citizen or resident of the United States or a U.S. domestic corporation or that otherwise will be subject to U.S. federal income taxation on a net income basis in respect of the Note.

U.S. Holders that use an accrual method of accounting for tax purposes (“accrual method holders”) generally are required to include certain amounts in income no later than the time such amounts are reflected on certain financial statements (the “book/tax conformity rule”). The application of the book/tax conformity rule thus may require the accrual of income earlier than would be the case under the general tax rules described below, although it is not clear to what types of income the book/tax conformity rule applies, or, in some cases, how the rule is to be applied if it is applicable. However, recently released proposed regulations generally would exclude, among other items, original issue discount (“OID”) and market discount (in either case, whether or not de minimis) from the applicability of the book/tax conformity rule. Although the proposed regulations generally will not be effective until taxable years beginning after the date on which they are issued in final form, taxpayers generally are permitted to elect to rely on their provisions currently. Accrual method holders should consult with their tax advisors regarding the potential applicability of the book/tax conformity rule to their particular situation.

Investors should consult their tax advisors concerning the particular U.S. federal income tax consequences of the purchase, ownership and disposition of the Notes, as well as the consequences under the laws of any other taxing jurisdiction.

Payments of Interest and Additional Amounts

The gross amount of stated interest and any Additional Amounts (i.e., without reduction for Korean withholding taxes determined utilizing the appropriate Korean withholding tax rate applicable to the U.S. Holder), excluding any pre-issuance accrued interest, will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is actually or constructively received, in accordance with the U.S. Holder’s method of accounting for U.S. federal income tax purposes. It is expected, and this discussion assumes, that the Notes will not be issued with more than a de minimis amount of OID. In general, however, if the Notes are issued with more than de minimis OID, a U.S. Holder will be required to include OID in gross income, as ordinary income, under a “constant-yield method” before

the receipt of cash attributable to such income, regardless of the U.S. Holder's regular method of accounting for U.S. federal income tax purposes.

As discussed in "Korean Taxation — Tax on Interest," interest paid on the Notes to a U.S. Holder is expected to be exempt from Korean taxes. If, however, that tax exemption were to cease to apply, then, subject to generally applicable restrictions and conditions under U.S. tax law, Korean withholding taxes paid at the appropriate rate applicable to the U.S. Holder will be treated as foreign income taxes eligible (i) for credit against the U.S. Holder's U.S. federal income tax liability, or (ii) if the U.S. Holder so elects, for deduction in computing the U.S. Holder's taxable income (provided that the U.S. Holder elects to deduct, rather than credit, all foreign income taxes paid or accrued for the relevant taxable year). Interest and Additional Amounts will constitute income from sources without the United States for foreign tax credit purposes. Such income generally will constitute "passive category income" or, in the case of certain U.S. Holders, "general category income." The calculation of foreign tax credits and, in the case of a U.S. Holder that elects to deduct foreign taxes, the availability of such deduction, involves the application of rules that depend on a U.S. Holder's particular circumstances. Investors should consult their tax advisors regarding the availability of foreign tax credits or deductions in their particular situation.

Sale, Exchange and Retirement of Notes

Upon the sale, exchange or retirement of a Note, a U.S. Holder generally will recognize gain or loss equal to the difference between the amount realized on the sale, exchange or retirement (less any accrued interest, which will be taxable as such) and the U.S. Holder's tax basis in such Note. A U.S. Holder's tax basis in a Note will generally equal the cost of the Note to the U.S. Holder. Gain or loss recognized upon a sale, exchange or retirement of a Note generally will be long-term capital gain or loss if the U.S. Holder has held the Note for more than one year at the time of disposition. Long-term capital gains recognized by an individual holder generally are subject to tax at a lower rate than short-term capital gains or ordinary income. The deduction of capital losses is subject to limitations.

As discussed in "Korean Taxation — Tax on Capital Gains," no Korean tax is currently expected to be imposed in respect of a sale or other disposition of Notes by a U.S. Holder (excluding sale or disposition to a Korean resident). If Korean tax were to be imposed on such a disposition of Notes, however, a U.S. Holder may not be able to credit the tax against the U.S. Holder's U.S. federal income tax liability, unless the credit can be applied (subject to applicable conditions and limitations) against tax due on other income treated as derived from foreign sources, because capital gains recognized by a U.S. Holder generally will be U.S.-source gains. Investors should consult their tax advisors as to the foreign tax credit implications of a disposition of the Notes.

Specified Foreign Financial Assets

Individual U.S. Holders that own "specified foreign financial assets" with an aggregate value in excess of \$50,000 on the last day of the taxable year or \$75,000 at any time during the taxable year are generally required to file an information statement along with their tax returns, currently on Form 8938, with respect to such assets. "Specified foreign financial assets" include any financial accounts held at a non-U.S. financial institution, as well as securities issued by a non-U.S. issuer (which may include Notes issued in certificated form) that are not held in accounts maintained by financial institutions. Higher reporting thresholds apply to certain individuals living abroad and to certain married individuals. Regulations extend this reporting requirement to certain entities that are treated as formed or availed of to hold direct or indirect interests in specified foreign financial assets based on certain objective criteria. U.S. Holders who fail to report the required information could be subject to substantial penalties. In addition, the statute of limitations for assessment of tax would be suspended, in whole or part. Prospective investors should consult their own tax advisors concerning the application of these rules to their investment in the Notes, including the application of the rules to their particular circumstances.

Information Reporting and Backup Withholding

Information returns will be filed with the IRS in connection with payments on the Notes made to, and the proceeds of dispositions of Notes effected by, certain U.S. Holders. In addition, certain U.S. Holders may be subject to backup withholding in respect of such amounts if they do not provide their taxpayer identification numbers to the person from whom they receive payments. Non-U.S. holders may be required to comply with applicable certification procedures to establish that they are not U.S. Holders in order to avoid the application of such information reporting requirements and backup withholding. The amount of any backup withholding from a payment to a holder will be allowed as a credit against the holder's U.S. federal income tax liability and may entitle the holder to a refund, provided that the required information is timely furnished to the IRS. Investors should consult their tax advisers about these rules and any other reporting obligations that may apply to their ownership or disposition of Notes.

KOREAN TAXATION

Republic of Korea

The information provided below does not purport to be a complete summary of Korean tax law and practice currently applicable. Prospective investors who are in any doubt as to their tax position should consult with their own professional advisers.

The taxation of non-resident individuals and non-Korean corporations (“Non-Residents”) depends on whether they have a “permanent establishment” (as defined under Korean law and applicable tax treaty) in Korea to which the relevant Korean source income is attributable or with which such income is effectively connected. Non-Residents without a permanent establishment in Korea are taxed in the manner described below. Non-Residents with permanent establishments in Korea are taxed in accordance with different rules.

Tax on Interest

Interest on the Notes paid to Non-Residents (excluding payments to their permanent establishment in Korea), being foreign currency denominated bonds issued outside of Korea, is exempt from income tax and corporation tax (whether payable by withholding or otherwise) pursuant to the Special Tax Treatment Control Law of Korea (the “STTCL”).

If the tax exemption under the STTCL referred to above were to cease to be in effect, the rate of income tax or corporation tax applicable to interest on the Notes, for a Non-Resident without a permanent establishment in Korea, would be 14% of income. In addition, a tax surcharge called a local income tax would be imposed at the rate of 10% of the income or corporation tax (raising the total tax rate to 15.4%).

The tax is withheld by the payer or us. Tax rates may be reduced or exempted by applicable tax treaties, conventions or agreements between Korea and the country of the recipient of the interest. The relevant tax treaties are summarized below.

Tax on Capital Gains

Korean tax laws currently exclude from Korean taxation gains made by a Non-Resident without a permanent establishment in Korea from the sale of the Notes to Non-Residents (other than to their permanent establishments in Korea). In addition, capital gains earned by Non-Residents with or without permanent establishments in Korea from the transfer taking place outside Korea of the Notes are currently exempt from taxation by virtue of STTCL, provided that the issuance of the Notes is deemed to be an overseas issuance under the STTCL.

If the exclusion or exemption from Korean taxation referred to above were to cease to be in effect, in the absence of an applicable treaty reducing or eliminating tax on capital gains, the applicable rate of tax would be the lower of 11% (including local income tax) of the gross realization proceeds and (subject to the production of satisfactory evidence of the acquisition cost and certain direct transaction costs of the relevant Note) 22% (including local income tax) of the realized gain (i.e., the excess of the gross realization proceeds over the acquisition cost and certain direct transaction costs) made. If such evidence shows that no gain (or a loss) was made on the sale, no Korean tax is payable. There is no provision under relevant Korean law for offsetting gains and losses or otherwise aggregating transactions for the purpose of computing the net gain attributable to sales of Notes issued by Korean companies. The purchaser or any other designated withholding agent of Notes is obliged under Korean law to withhold the applicable amount of Korean tax and make payment thereof to the relevant Korean tax authority. Unless the seller can claim the benefit of an exemption from tax under an applicable tax treaty or on the failure of the seller to produce satisfactory evidence of his acquisition cost and certain direct transaction costs in relation to the instruments being sold, the purchaser or such withholding

agent must withhold an amount equal to 11% of the gross realization proceeds. Any amounts withheld by the purchaser or withholding agent must be paid to the competent Korean tax office. The purchaser or withholding agent must pay any withholding tax no later than the tenth day of the month following the month in which the payment for the purchase of the relevant instruments occurred. Failure to transmit the withheld tax to the Korean tax authorities in time subjects the purchaser or the withholding agent to penalties under Korean tax laws. The Korean tax authorities may attempt to collect such tax from a Non-Resident who is liable for payment of any Korean tax on gains, as a purchaser or withholding agent who is obliged to withhold such tax, through proceedings against payments due to the Non-Resident from its Korean investments and the assets or revenues of any of the Non-Resident's branch or representative offices in Korea.

Inheritance Tax and Gift Tax

Korean inheritance tax is imposed upon (a) all assets (wherever located) of the deceased if at the time of his death he was domiciled in Korea or had resided in Korea continuously for at least 183 days immediately prior to his death and (b) all property located in Korea which passes on death (irrespective of the domicile of the deceased). Gift tax is imposed in similar circumstances to the above. The taxes are imposed if the value of the relevant property is above a certain limit and the rate varies according to the value of the relevant property and the identity of the persons involved. At present, Korea has not entered into any tax treaties regarding its inheritance or gift taxes.

Under Korean inheritance and gift tax laws, bonds issued by Korean corporations are deemed located in Korea irrespective of where they are physically located or by whom they are owned. And, consequently, the Korean inheritance and gift taxes will be imposed on transfers of the Notes by inheritance or gift. Holders should consult their personal tax advisers regarding the consequences of the imposition of the Korean inheritance or gift tax.

Stamp Duty and Securities Transaction Tax

No stamp, issue or registration duties will be payable in Korea by the Holders in connection with the issue of the Notes except for a nominal amount of stamp duty on certain documents executed in Korea which will be paid by us. No securities transaction tax will be imposed upon the transfer of the Notes.

Tax Treaties

At the date of this offering circular, Korea has tax treaties with, inter alia, Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Ireland, Italy, Japan, Luxembourg, The Netherlands, New Zealand, Norway, Singapore, Sweden, Switzerland, the United Kingdom and the United States of America under which the rate of withholding tax on interest is reduced, generally to between 5 and 16.5% (including local income tax), and the tax on capital gains is often eliminated.

Each Holder should inquire whether he is entitled to the benefit of a tax treaty with respect to any transaction involving the Notes. It is the responsibility of the party claiming the benefits of a tax treaty in respect of interest payments to file with the payer or us a certificate as to his residence. In the absence of sufficient proof, the payer or we must withhold taxes in accordance with the above discussion.

In order to claim the benefit of a tax rate reduction or tax exemption available under the applicable tax treaties, a non-resident holder should submit to the payer of such Korean source income an application (for a reduced withholding tax rate, the "application for entitlement to reduced tax rate," and for an exemption from withholding tax, the "application for exemption" under a tax treaty along with a certificate of the non-resident holder's tax residence issued by a competent authority of the non-resident holder's residence country) as the beneficial owner of such Korean source income ("BO

Application”). Such application should be submitted to the withholding agent prior to the payment date of the relevant income. Subject to certain exceptions, where the relevant income is paid to an overseas investment vehicle (which is not the beneficial owner of such income) (“OIV”), a beneficial owner claiming the benefit of an applicable tax treaty with respect to such income must submit its BO Application to such OIV, which must submit an OIV report and a schedule of beneficial owners to the withholding agent prior to the payment date of such income. In the case of a tax exemption application, the withholding agent is required to submit such application (together with the applicable OIV report in the case of income paid to an OIV) to the relevant district tax office by the ninth day of the month following the date of the payment of such income.

Withholding and Gross Up

As mentioned above, interest on the Notes is exempt from any withholding or deduction on account of income tax or corporation tax pursuant to STTCL. However, in the event that the payer or we are required by law to make any withholding or deduction for or on account of any Korean taxes (as more fully described in “Terms and Conditions of the Notes — Additional Amounts”) we have agreed to pay (subject to the customary exceptions as set out in “Terms and Conditions of the Notes — Additional Amounts”) such Additional Amounts as may be necessary in order that the net amounts received by the Holder of any Note after such withholding or deduction shall equal the respective amounts which would have been received by such Holder in the absence of such withholding or deduction.

PLAN OF DISTRIBUTION

Subject to the terms and conditions stated in the purchase agreement dated January 13, 2020 (the “Purchase Agreement”), each initial purchaser named below (each, an “Initial Purchaser” and collectively, the “Initial Purchasers”) has severally agreed to purchase from us, and we have agreed to sell to such Initial Purchaser, the principal amount of the Euro-denominated Notes and the U.S. dollar-denominated Notes set forth opposite the name of such Initial Purchaser.

Initial Purchaser	Principal Amount of the Euro- denominated Notes	Principal Amount of the 2023 U.S. dollar- denominated Notes	Principal Amount of the 2025 U.S. dollar- denominated Notes
BNP Paribas	EUR100,000,000	US\$100,000,000	US\$88,000,000
Citigroup Global Markets Inc.	100,000,000	100,000,000	88,000,000
The Hongkong and Shanghai Banking Corporation Limited	100,000,000	100,000,000	88,000,000
Merrill Lynch International	100,000,000	100,000,000	88,000,000
Standard Chartered Bank	100,000,000	100,000,000	88,000,000
Total	EUR500,000,000	US\$500,000,000	US\$440,000,000

The Purchase Agreement provides that the obligations of each of the Initial Purchasers to purchase the Notes are subject to approval of certain legal matters by counsel and to certain other conditions. Each of the Initial Purchasers must purchase all the Notes set forth opposite its name if they purchase any of the Notes.

We have been advised that the Initial Purchasers propose to resell the Notes at the issue price set forth on the cover page of this offering circular. The price at which the Notes are offered and other selling terms may be changed from time to time without notice by the Initial Purchasers. The Initial Purchasers may offer the Notes in various jurisdictions through certain of their affiliates.

We have agreed to indemnify the Initial Purchasers against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the Initial Purchasers may be required to make in respect thereof.

The Purchase Agreement provides that we will pay compensation to the Initial Purchasers consisting of management and underwriting commission as a percentage of the aggregate principal amount of the Notes.

We have agreed that we will not issue, offer, sell or contract to sell, or announce the offering of, any Dollar- or Euro-denominated debt securities issued or guaranteed by us (other than the Notes), without the prior written consent of the Initial Purchasers for a period of 30 days following the date of the Purchase Agreement. For the avoidance of doubt, we may, during such period, issue, offer, sell or contract to sell, or announce the offering of, any debt securities issued or guaranteed by us other than Dollar- or Euro-denominated debt securities.

We expect that the delivery of the Notes will be made against payment therefor on or about the date specified on the cover page of this offering circular, which will be the fourth business day following the date of pricing of the Notes (such settlement cycle being herein referred to as “T+4”). Under Rule 15c6-1 under the U.S. Exchange Act, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes on the date of pricing or the next two succeeding business days will be required, by virtue of the fact that the Notes initially will settle T+4, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of Notes who wish to trade Notes on the date of pricing should consult their advisors.

The Initial Purchasers or certain of their affiliates may purchase the Notes and be allocated the Notes for asset management and/or proprietary purposes but not with a view to distribution. The Initial

Purchasers or their respective affiliates may purchase Notes for its or their own account and enter into transactions, including credit derivatives, such as asset swaps, repackaging and credit default swaps relating to Notes and/or our other securities at the time as the offer and sale of the Notes or in secondary market transactions. Such transactions would be carried out as bilateral trades with selected counterparties and separately from any existing sale or resale of Notes to which this offering circular relates (notwithstanding that such selected counterparties may also be purchasers of Notes). We have been advised by the Initial Purchasers that they may offer and sell Notes to or through any of their respective affiliates and any such affiliate may offer and sell Notes purchased by it or through any Initial Purchaser.

In connection with the offering of the Notes, the Initial Purchasers are acting exclusively for us and no one else. Accordingly, in connection with the offering of the Notes, the Initial Purchasers will not be responsible to anyone other than us for providing the protections afforded to their clients or for giving of advice in relation to the offering of the Notes.

Selling Restrictions

General

No action has been taken or will be taken in any jurisdiction by us or any Initial Purchaser that would permit a public offering of the Notes, or the possession, circulation or distribution of this offering circular or any other material relating to the Notes or this offering, in any jurisdiction where action for that purpose is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this offering circular nor such other material may be distributed or published, in or from any country or jurisdiction except in compliance with any applicable rules and regulations of such country or jurisdiction.

United States

The Notes have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

Each Initial Purchaser has agreed that, except as permitted by the Purchase Agreement, it will not offer or sell the Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the Offering and the issue date, within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each dealer to which it sells Notes (other than a sale pursuant to Rule 144A) during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S.

The Notes are being offered and sold outside of the United States to non-U.S. persons in reliance on Regulation S. The Purchase Agreement provides that Initial Purchasers may directly or through their respective U.S. broker-dealer affiliates arrange for the offer and resale of Notes within the United States only to qualified institutional buyers in reliance on Rule 144A.

In addition, until 40 days after the commencement of the offering of the Notes, an offer or sale of Notes within the United States by a dealer that is not participating in the Offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A.

European Economic Area

provided that no such offer of Notes shall require the Company or any Initial Purchaser to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129.

- (b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to the Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made under the SFO.

Singapore

Each Initial Purchaser has acknowledged that this offering circular has not been and will not be registered as a prospectus with the Monetary Authority of Singapore under the Securities and Futures Act, Chapter 289 of Singapore (the "SFA"). Accordingly, each Initial Purchaser has represented and agreed that it has not offered or sold any Notes or caused the Notes to be made the subject of an invitation for subscription or purchase and will not offer or sell any Notes or cause the Notes to be made the subject of an invitation for subscription or purchase, and has not circulated or distributed, nor will it circulate or distribute, this offering circular or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor under Section 274 of the SFA, (ii) to a relevant person pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA and (where applicable) Regulation 3 of the Securities and Futures (Classes of Investors) Regulations 2018 of Singapore, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

In addition, within one year following the issuance of the Notes, the Notes may not be transferred to any resident of Korea other than a Korean QIB registered with the KOFIA as a Korean QIB, provided that the amount of the Notes acquired by such Korean QIBs in the primary market is limited to no more than 20% of the aggregate issue amount of the Notes.

Republic of Italy

The offering of the Notes has not been registered with the *Commissione Nazionale per le Società e la Borsa* (“CONSOB”) pursuant to Italian securities legislation and, accordingly, the Notes may not be offered, sold or delivered, nor may copies of this offering circular or of any other document relating to any Notes be distributed in Italy, except in accordance with any Italian securities, tax and other applicable laws and regulations.

Each Initial Purchaser has represented and agreed that it has not offered, sold or delivered, and will not offer, sell or deliver any Notes or distribute any copy of this offering circular or any other document relating to the Notes in Italy except:

- (a) to qualified investors (*investitori qualificati*), as defined pursuant to Article 100 of Legislative Decree No. 58 of February 24, 1998 (the “Financial Services Act”) and Article 34-ter, paragraph 1, letter (b) of CONSOB Regulation No. 11971 of May 14, 1999 (the “Issuers Regulation”), all as amended from time to time; or

Switzerland

This offering circular is not intended to constitute an offer or solicitation to purchase or invest in the Notes described herein. The Notes may not be publicly offered, sold or advertised, directly or indirectly, in, into or from Switzerland, and will not be listed on SIX Swiss Exchange (“SIX”) or on any other exchange or regulated trading facility in Switzerland. Neither this offering circular nor any other offering or marketing material relating to the Notes constitutes a prospectus as such term is understood pursuant to article 652a or article 1156 of the Swiss Code of Obligations or a listing prospectus within the meaning of the listing rules of the SIX or any other regulated trading facility in Switzerland or a

simplified prospectus or a prospectus as such term is defined in the Swiss Collective Investment Scheme Act, and neither this offering circular nor any other offering or marketing material relating to the Notes may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this offering circular nor any other offering or marketing material relating to the offering, nor the Company or the Notes have been or will be filed with or approved by any Swiss regulatory authority. The Notes are not subject to the supervision by any Swiss regulatory authority, e.g., the Swiss Financial Markets Supervisory Authority ("FINMA"), and investors in the Notes will not benefit from protection or supervision by such authority.

New Issue of Notes

The Notes will constitute a new class of securities with no established trading market. Approvals in-principle have been received from the Singapore Stock Exchange for the listing and quotation of the Notes on the Singapore Stock Exchange.

The Notes are eligible for trading in the National Association of Securities Dealers screen-based automated market for trading of securities eligible for resale under Rule 144A. The Initial Purchasers have advised us that they currently intend to make a market in the Notes as permitted by applicable law.

However, they are not obligated to do so and any market-making activities with respect to the Notes may be discontinued at any time without notice. In addition, such market-making activity will be subject to the limits imposed by the Securities Act and the Exchange Act. Accordingly, no assurance can be given as to the liquidity of, or trading market for, the Notes.

Price Stabilization and Short Positions

The Initial Purchasers may engage in over-allotment, stabilizing transactions, syndicate covering transactions and penalty bids to the extent permitted by applicable laws and regulations. Over-allotment involves sales in excess of the offering size, which creates a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Covering transactions involve purchase of the Notes in the open market after the distribution has been completed in order to cover short positions. Penalty bids permit the Initial Purchasers to reclaim a selling concession from a dealer when the Notes originally sold by such dealer are purchased in a stabilizing transaction or a covering transaction to cover short positions. Neither we nor any of the Initial Purchasers make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Notes. In addition, neither we nor any of the Initial Purchasers makes any representation that the Initial Purchasers will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

The Initial Purchasers and their affiliates are full service financial institutions engaged in various activities which may include securities trading, commercial and investment banking, financial advice, investment management, principal investment, hedging, financing and brokerage activities. Each of the Initial Purchasers may have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our subsidiaries, jointly controlled entities or associated companies and may be paid fees in connection with such services from time to time. In the ordinary course of their various business activities, the Initial Purchasers and

their affiliates may make or hold (on their own account, on behalf of clients or in their capacity of investment advisers) a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments and enter into other transactions, including credit derivatives (such as asset swaps, repackaging and credit default swaps) in relation thereto. Such transactions, investments and securities activities may involve securities and instruments of ours or our subsidiaries, jointly controlled entities or associated companies, including the Notes, may be entered into at the same time or proximate to offers and sales of Notes or at other times in the secondary market and be carried out with counterparties that are also purchasers, holders or sellers of Notes.

TRANSFER RESTRICTIONS

The Notes have not been and will not be registered under the Securities Act or any state securities laws and, subject to certain exceptions, may not be offered or sold directly or indirectly within the United States or to or for the account or benefit of U.S. persons, as defined in Regulation S. The Notes may be offered for sale only (i) in the United States, to QIBs within the meaning of, and in reliance on, Rule 144A or another available exemption from, or in a transaction not subject to, the registration requirements of the Securities Act; or (ii) outside the United States to non-U.S. persons in reliance on, and in accordance with, Regulation S, in each case, in compliance with applicable laws, regulations and directives.

The Notes have not been registered with the FSC under the FSCMA. Accordingly, the Notes have not been and will not be offered, delivered, or sold directly or indirectly in Korea or to any resident of Korea (as defined in the Foreign Exchange Transactions Act of Korea and the regulations thereunder) or to others for re-offering or resale directly or indirectly in Korea or to any resident of Korea except as otherwise permitted under applicable Korean laws and regulations. In addition, within one year following the issuance of the Notes, the Notes may not be transferred to any resident of Korea other than a Korean QIB registered with the KOFIA as a Korean QIB, provided that the amount of the Notes acquired by such Korean QIBs in the primary market is limited to no more than 20% of the aggregate issue amount of the Notes.

The Board of Directors and Shareholders
POSCO:

Management's responsibility

Management is responsible for the preparation and fair presentation of these condensed consolidated interim financial statements in accordance with Korean International Financial Reporting Standard ("K-IFRS") No. 1034 "Interim Financial Reporting." The Company's management is also responsible for the internal controls determined necessary to prepare condensed consolidated interim financial statements free of material misstatements due to error or fraud.

Auditor's review responsibility

Our responsibility is to issue a report on the condensed consolidated interim financial statements based on our reviews.

We conducted our reviews in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Securities and Futures Commission of the Republic of Korea. A review of interim financial statements consists of making inquiries primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Korean Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements referred to above are not prepared, in all material respects, in accordance with K-IFRS No. 1034 "Interim Financial Reporting."

Other matters

The procedures and practices utilized in the Republic of Korea to review such condensed consolidated interim financial statements may differ from those generally accepted and applied in other countries.

The consolidated statement of financial position of the Company as of December 31, 2018, and the related consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, which are not accompanying this report, were audited by us in accordance with Korean Standards on Auditing and our report thereon, dated March 7, 2019, expressed an unqualified opinion. The accompanying condensed consolidated statement of financial position of the Company as of December 31, 2018, presented for comparative purposes, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

2. Statement of Compliance

Statement of compliance

The condensed consolidated interim financial statements have been prepared in accordance with Korean International Financial Reporting Standards ("K-IFRS"), as prescribed in the *Act on External Audit of Companies, Etc.* in the Republic of Korea.

These condensed consolidated interim financial statements have been prepared in accordance with K-IFRS No. 1034 "Interim Financial Reporting" as part of the period covered by the Company's K-IFRS annual financial statements. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the last annual consolidated financial statements as of and for the year ended December 31, 2018. These condensed consolidated interim financial statements do not include all of the disclosures required for full annual financial statements.

The Company adopted K-IFRS No. 1116 "Leases" for the first time from January 1, 2019. Changes to significant accounting policies are described in Note 3.

Use of estimates and judgments

(a) Judgments, assumptions and estimation uncertainties

The preparation of the condensed consolidated interim financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period prospectively.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements, except for new significant judgments and key sources of estimation uncertainty related to the application of K-IFRS No. 1116 "Leases" which are described in Note 3.

(b) Measurement of fair value

The Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the financial officer.

POSCO and Subsidiaries

Notes to the Condensed Consolidated Interim Financial Statements, Continued As of September 30, 2019 (Unaudited)

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of K-IFRS including the level in the fair value hierarchy in which such valuation techniques should be classified.

Significant valuation issues are reported to the Company's Audit Committee.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1 - unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 - inputs other than quoted prices included in Level 1 that are observable for the assets or liabilities, either directly or indirectly.
- Level 3 - inputs for the assets or liabilities that are not based on observable market data.

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Information about the assumptions made in measuring fair value is included in Note 21.

3. Summary of Significant Accounting Policies

Except as described in K-IFRS No. 1034 "Interim Financial Reporting" and below, the accounting policies applied by the Company in these condensed consolidated interim financial statements are the same as those applied by the Company in its consolidated financial statements as of and for the year ended December 31, 2018.

K-IFRS No. 1116 "Leases"

The Company has initially adopted K-IFRS No. 1116 "Leases" from January 1, 2019. The Company also expects to apply the accounting policies set out below for their annual reporting period ending December 31, 2019.

K-IFRS No. 1116 "Leases" introduced a single accounting model for lessees. As a result, the Company, as a lessee, recognized right-of-use assets representing its rights to use the underlying assets and lease liabilities representing its obligation to make lease payments. Lessor accounting remains similar to previous accounting policies.

POSCO and Subsidiaries

Notes to the Condensed Consolidated Interim Financial Statements, Continued As of September 30, 2019 (Unaudited)

The Company applied K-IFRS No. 1116 "Leases" using the modified retrospective approach by recognizing the cumulative effect of initial application as of January 1, 2019, the date of initial application. Accordingly, the comparative information presented for 2018 has not been restated.

(a) Definition of a lease

Previously, the Company determined at contract inception whether an arrangement was or contained a lease under K-IFRS No. 2104 "Determining Whether an Arrangement Contains a Lease". The Company now assesses whether a contract is or contains a lease based on the new definition of a lease. Under K-IFRS No. 1116 "Leases", a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

On transition to K-IFRS No. 1116 "Leases", the Company elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Company applied K-IFRS No. 1116 only to contracts that were previously identified as leases. Contracts that were not identified as leases under K-IFRS No. 1017 "Leases" and K-IFRS No. 2104 "Determining Whether an Arrangement Contains a Lease" were not reassessed. Therefore, the definition of a lease under K-IFRS No. 1116 has been applied only to contracts entered into or changed on or after January 1, 2019.

At inception or reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices.

(b) As a lessee

The Company leases many assets, including land, warehouses, handling equipment and IT equipment. As a lessee, the Company previously classified leases as operating or finance leases based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under K-IFRS No. 1116 "Leases", the Company recognizes right-of-use assets and lease liabilities for most leases. That is, most leases are presented in the statement of financial position.

However, the Company has elected not to recognize right-of-use assets and lease liabilities for some leases of low-value assets (e.g. desktops, IT supplies, etc.). The Company recognizes lease payments associated with these leases as an expense on a straight-line basis over the lease term.

POSCO and Subsidiaries

Notes to the Condensed Consolidated Interim Financial Statements, Continued As of September 30, 2019 (Unaudited)

The Company presents right-of-use assets in the same line item as it presents underlying assets of the same nature that it owns, and lease liabilities are included in other payables on the consolidated statement of financial position. The carrying amounts of right-of-use assets as of January 1, 2019, the date of initial application, and September 30, 2019 are as follows:

(in millions of Won)

(in millions of Won)		Property, Plant and Equipment (*1)					
		Land	Buildings and structures	Machinery and equipment	Vehicles	Furniture, fixtures and others	Total
The date of initial application (January 1, 2019)	₩	310,555	194,382	222,512	20,202	28,308	775,959
September 30, 2019		342,101	169,182	217,116	21,365	40,272	790,036

(*1) Leases classified as a finance lease under K-IFRS No. 1017 "Leases" at the end of 2018 are included, and the carrying amounts of right-of-use assets and lease liabilities are equal to the carrying amounts of the finance lease assets and financial lease liabilities measured in accordance with K-IFRS 1017 "Leases" as of January 1, 2019, the date of initial application.

1) Significant accounting policies

The Company recognizes a right-of-use assets and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee or, as appropriate, a change in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

The Company applies judgment to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Company is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognized.

POSCO and Subsidiaries

Notes to the Condensed Consolidated Interim Financial Statements, Continued As of September 30, 2019 (Unaudited)

2) Transition

At transition, for leases classified as operating leases under K-IFRS No. 1017 "Leases", lease liabilities were measured at the present value of the remaining lease payments, discounted at the Company's incremental borrowing rate as of January 1, 2019, the date of initial application. Right-of-use assets are measured at amounts equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments.

In addition, the Company used the following practical expedients when applying K-IFRS No. 1116 "Leases" to leases previously classified as operating leases under K-IFRS No. 1017 "Leases".

- Applied the exemption not to recognize right-of-use assets and lease liabilities for leases with less than 12 months of lease term.
- Excluded initial direct costs from measuring the right-of-use asset at the date of initial application.
- Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

(c) As a lessor

The Company leases out its investment properties. The Company classified these leases as operating leases, and the accounting policies applicable to the Company as a lessor are not different from those under K-IFRS No. 1017 "Leases". However, when the Company is an intermediate lessor the sub-leases are classified with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset.

The Company provides sub-leases for leases of vessels classified as operating leases under K-IFRS No. 1017 "Leases" as an intermediate lessor, and classified the sub-leases as finance leases as of January 1, 2019, the date of initial application of K-IFRS No. 1116 "Leases". Accordingly, the Company recognized finance lease receivables amounting to ₩225,198 million. In addition, the Company did not make any adjustments to leases for which the Company is a lessor, except for sub-leases described above as of January 1, 2019, the date of initial application.

(d) Impact on financial statements

The Company recognized additional right-of-use assets, lease receivables and lease liabilities as of January 1, 2019, the date of initial application. The effect on the financial statements as of January 1, 2019, the date of initial application, is as follows:

(*1) During 2018, the Controlling Company evaluated future economic performance of its Synthetic Natural Gas (SNG) facility that was still in trial run stage. Considering the continuous decline in LNG price, increase in coal prices and the need for additional capital investment in the SNG facility, the Controlling Company concluded that the profitability of the SNG facility is unlikely to be sustainable and decided to terminate the operation of SNG facility as of December 31, 2018. The property, plant and equipment in the SNG facility are primarily comprised of machinery and equipment, among which assets with a carrying value of ₩167,054 million are expected to be reused in other facilities of the Controlling Company therefore no impairment test was conducted. For the remaining assets impairment test was performed by estimating the recoverable amount of each individual assets. For the assets which are determined to be technically obsolete and therefore sale is unlikely, recoverable amount is determined at their expected scrap value less cost of disposal. For the assets for which sale is probable, the recoverable amount is determined based on fair value less cost of disposal. Fair value was measured using cost approach, which is estimated based on the current cost to purchase or replace the asset less applicable depreciation and obsolescence.

Specifically, the Controlling Company used indirect cost approach to estimate the replacement cost for a new asset by applying asset specific inflation factors to the asset's historical cost and deducting depreciation for physical deterioration. Depreciation factors are applied primarily based on estimated useful life of the asset and declining balance depreciation method. The fair value measurement of assets in SNG facility is considered to be level 3 because significant inputs used in the estimate, such as asset specific inflation factors and estimated useful lives, are unobservable.

As a result of the impairment test, the Company recognized an impairment loss of ₩809,737 million in connection with the property, plant and equipment in the SNG facility.

The Controlling Company has recognized an impairment loss amounting to ₩61,787 million since recoverable amount on Strip Casting facilities and others is less than its carrying amount for the period ended December 31, 2018.

(*2) As of December 31, 2018, POSCO ENERGY CO., LTD., a subsidiary, performed the impairment test due to the consecutive operating losses of the fuel cell business, and recognized impairment losses amounting to ₩54,250 million.

- (d) Due to the factors causing the variation of costs for the nine-month period ended September 30, 2019, the estimated total contract costs have changed. Details of changes in estimated total contract costs and the impact on profits or loss for the nine-month period ended September 30, 2019 and future periods are as follows:

(in millions of Won)		Changes in estimated total contract costs	Changes in profit (loss) of contract		
			Net income (loss)	Future income (loss)	Total

	₩	445,395	(112,821)	20,112	(92,709)

The effect on the current and future profit is estimated based on the circumstances that have occurred from the commencement date of the contracts to September 30, 2019. The estimation is evaluated for the total contract cost and expected total contract revenue at the end of the reporting period. Also, it may change in future periods.

- (e) Uncertainty of estimates

1) Total contract revenues

Total contract revenues are measured based on contractual amount initially agreed. However, the contract revenues can increase due to additional contract work, claims and incentive payments, or decrease due to penalty when the completion of contract is delayed due to the Company's fault. Therefore, this measurement of contract revenues is affected by the uncertainty of the occurrence of future events.

2) Total contract costs

Contract revenues are recognized based on the percentage of completion, which is measured on the basis of the gross cost amount incurred to date against the estimated total cost of completion. Total contract costs are estimated based on estimates of future material costs, labor costs, outsourcing cost and others. There is uncertainty in estimates on future contract costs due to various internal and external factors such as fluctuation of market, the risk of business partner and the experience of project performance and others. The significant assumptions including uncertainty of the estimate of total contract costs are as follows:

	Method of significant assumption
Material cost	Assumption based on recent purchasing price and quoted market price
Labor cost	Assumption based on standard monthly and daily labor cost
Outsourcing cost	Assumption based on the past experience rate of similar project and market price

Management reviews the assumptions used in estimated contract costs at each reporting period end and adjusts them, if necessary.
