Industry Overview

Cruising is considered a well-established vacation sector in the North American market, a growing sector in the European market and a competitive sector in other emerging markets. Industry data indicates that a significant portion of cruise guests carried are first-time cruisers. We believe this presents a potential for increased profitability.

We estimate that the global cruise industry carried 20.2 million cruise guests in 2011 compared to 18.8 million cruise guests carried in 2010. The industry was served by approximately 417,000 berths on approximately 285 ships at the end of 2011. There are approximately 20 ships with an estimated 20,000 berths to be placed in service in the global cruise market between 2012 and 2016, although it is also possible that ships could be taken out of service during this period. Cruise guests have historically been sourced from North America and Europe.

North America

Although the North American cruise market historically experienced significant growth, the compound annual growth rate in cruise guests carried in the market from 2007 to 2011. This more limited growth is attributable in large part to the recent emphasis on international growth within the cruise industry. The market was served by 138 ships with approximately 201,000 berths at the beginning of 2007 and by 143 ships with approximately 248,000 berths at the end of 2011. There are approximately 10 ships with an estimated 34,000 berths that are expected to be placed in service in the North American cruise market between 2012 and 2016.

Europe

In Europe, cruising represents a smaller but growing sector of the vacation industry. It has experienced a compound annual growth rate in cruise guests carried in the market from 2007 to 2011 and we believe this market has continued growth potential. We estimate that Europe was served by 104 ships with approximately 155,000 berths at the beginning of 2007 and by 121 ships with approximately 155,000 berths at the end of 2011. There are approximately 10 ships with an estimated 28,000 berths that are expected to be placed in service in the European cruise market between 2012 and 2016.

Other Markets

In addition to expected industry growth in North America and Europe as discussed above, we expect the Asia/Pacific region to demonstrate continued growth in the long term, although it will continue to represent a relatively small sector compared to North America and Europe.

Markets and itineraries

In an effort to penetrate untapped markets, diversify our consumer base and respond to changing economic and geopolitical market conditions, we will optimally deploy ships to new markets and itineraries throughout the world. The portability of our ships and our investment in infrastructure also helps us reduce our dependency on any one market by allowing us to create "home ports" around the world. In addition, it allows us to readily enter our existing cruise markets.

Our ships offer a wide selection of itineraries that call on approximately 460 ports in 96 countries, spanning all seven continents. We are focused on long-term shareholder returns by operating in established markets while growing our presence in developing markets. New capacity allows us to offer new itineraries. Our brands have expanded their mix of itineraries while strengthening our ability to penetrate the Asian, Caribbean, European and African markets. In an effort to secure desirable berthing facilities for our ships, and to provide new or enhanced cruise destinations for our guests, we act to enhance the enhancement of certain port facilities and infrastructure, including mixed-use commercial properties, located in strategic ports of call.

Enhance technological capabilities to support ongoing operations and initiatives

The need to develop and use technology continues to be increasingly important, even as we manage through difficult economic times. To support our operations, we use technology in virtually every business process we use and must perform well on a consistent basis in order to support our strategic focus and provide a quality experience for our guests after their cruise. Moreover, as the use of our various websites and social media platforms continue to increase along with the increasing use of technology by our guests and crew, we continually need to upgrade our systems, infrastructure and technologies to facilitate this growth.

As part of our Royal Caribbean International and Celebrity Cruises revitalization programs, we are incorporating many of the technological innovations from the Solstice-class ships, respectively, across our fleet. In addition, to position ourselves for the future, we have embarked on several multi-year initiatives to ensure that we can continue to innovate and respond to the ever increasing expectations of our guests in a scalable and cost effective manner.

Travel agency support and direct business

Travel agencies continue to be the primary source of ticket sales for our ships. We believe in the value of this distribution channel and invest in our relationships with our travel agents. To accomplish this goal, we seek to ensure that our commission rates and incentive structures remain competitive. In addition, our sales teams focus on the unique qualities of each brand and provide support to the travel agency community through a number of programs, including service representatives, call centers, exclusive website offerings, online training tools and virtual tradeshow.

To support our direct sales initiatives, we have established a Consumer Outreach department, which provides 24 hour access to our certified travel planners and customer service agents in our call centers throughout the world. We also maintain and invest in our websites which allow guests to book a cruise as well as encourage guests to book their next cruise vacations onboard our ships. Net Cruise Costs and Net Cruise Costs Excluding Fuel to be the most relevant indicators of our performance. Net Cruise Costs and Net Cruise Costs Excluding Fuel are based on our measurement of capacity and represent double occupancy per cabin multiplied by the number of cruise days for the period. - (4) Net Yields represent Net Revenues per APCD. Net Revenues represent total revenues less commissions, transportation and other expenses and onboard and other expenses. We utilize Net Revenue and Net Yields in our capacity and rate analysis to identify our main non-capacity drivers which cause our cruise revenue and expenses to vary. We believe that it is the most relevant measure of our pricing performance because it reflects the cruise revenues earned by us net of our most significant variable expenses and onboard and other expenses. A reconciliation of Gross Yields to Net Yields is as follows:

RISK FACTORS

You should carefully consider the specific risk factors set forth below and in "Item 1A—Risk Factors" of our Annual Report on Form 10-K for 2011, as well as the other information contained and incorporated by reference in this prospectus supplement and the accompanying prospectus for the Senior Notes. This prospectus supplement and the accompanying prospectus contain and incorporate statements that constitute forward-looking information, including matters, our intent, belief or current expectations about our business. These forward-looking statements are subject to risks, uncertainties and other factors. See "Risk Factors" in this prospectus supplement.

Despite our current indebtedness levels, we and our subsidiaries may be able to incur substantially more debt and take other actions that could affect our ability to make payments on the Senior Notes when due, which could further exacerbate the risks associated with our substantial indebtedness.

Despite our current indebtedness levels, we and our subsidiaries may be able to incur substantially more additional indebtedness in the future under the terms of the indenture governing the Senior Notes from incurring additional debt, or recapitalizing our debt, and we have substantial capacity to incur a number of other actions, not prohibited by the terms of the indenture governing the Senior Notes, that could have the effect of diminishing our ability to make payments on the Senior Notes when due and further exacerbate the risks associated with our substantial indebtedness. In particular, as of September 30, 2012 and October 31, 2012, we have approximately \$2.2 billion and \$1.5 billion, respectively, available for future ships under construction (not including TUI Cruises' newbuilds).

The Senior Notes will not be guaranteed by any of our subsidiaries or secured by any of our assets and will be effectively junior to any secured debt and structurally junior to indebtedness of our subsidiaries.

The Senior Notes will be our general unsecured obligations ranking effectively junior in right of payment to all of our existing and future secured obligations secured by assets securing such indebtedness. As of September 30, 2012, we did not have any secured debt (excluding capital leases). However, we may incur secured debt in the extent we do, in the event that we are declared bankrupt, become insolvent or are liquidated or reorganized, creditors whose debt is secured by our assets will have a claim available to secured holders under applicable laws with respect to such assets, including the foreclosure of the collateral securing such debt, before we have any claim with respect to Senior Notes.

In addition, the Senior Notes are not guaranteed by any of our subsidiaries, and therefore, the Senior Notes will be structurally subordinated to the unsecured indebtedness and other liabilities of our subsidiaries. As of September 30, 2012, our ship-owning and non ship-owning subsidiaries had approximately \$0 and \$29.9 million, respectively (excluding operating leases, trade payables and intercompany indebtedness). The terms of the Senior Notes prohibit our subsidiaries from incurring indebtedness.

Our debt exposes us to various risks.

At September 30, 2012, our total indebtedness was approximately \$7.8 billion. Our indebtedness has the potential to affect us adversely in a number of ways, including our vulnerability to adverse economic, industry or competitive developments, requiring us to devote a substantial portion of our cash flow to debt service, which may not be available for other purposes or otherwise.

[Table of Contents](#)

constrain our financial flexibility, affecting our ability to obtain additional financing, subjecting us to various financial and operating covenants and cash flow.

In addition, a portion of our indebtedness bears interest at variable rates that are linked to changing market interest rates. As a result, an increase in interest rates could increase our interest expense and our debt service obligations. At September 30, 2012, we had approximately \$4.4 billion of indebtedness that bears interest at variable rates. This amount represented approximately 58% of our total indebtedness. A 1% increase in prevailing interest rates would increase our interest expense by approximately \$44 million on an annualized basis.

If we experience a Change of Control Triggering Event, we will be required to make offers to repurchase the Senior Notes. However, we may not have sufficient funds or covenant restrictions.

If we experience a Change of Control Triggering Event, which requires both a Change of Control and a Ratings Downgrade associated therewith (as defined in the indenture governing the Senior Notes), we will be required to make offers to repurchase all outstanding Senior Notes (including the notes offered hereunder), plus accrued but unpaid interest, if any, to the date of repurchase. However, we may be unable to do so because:

- we might not have enough available funds, particularly since a change of control could cause part or all of our other indebtedness to be repurchased;
- some agreements governing our credit facilities and other indebtedness could prohibit us from repurchasing the Senior Notes, unless we first refinance such indebtedness.

A failure to make an offer to repurchase the Senior Notes upon the occurrence of a Change of Control Triggering Event would give rise to an acceleration of amounts due thereunder governing the Senior Notes and could result in an acceleration of amounts due thereunder. In addition, if we experience a Change of Control Triggering Event and we are unable to make offers to purchase certain of our other outstanding notes, and our failure to make such offers would give rise to a default and possible acceleration of amounts due thereunder. Any such default could trigger a cross default under the indenture governing the Senior Notes.

Certain changes of control would require us to prepay much of our outstanding indebtedness but may not require us to engage in a Change of Control Offer with respect to Senior Notes.

We may be required to prepay a majority of our debt facilities if (i) any person other than A. Wilhelmsen AS. and Cruise Associates and their applicable group ("Applicable Group") acquires ownership of more than 33% of our common stock and the Applicable Group owns less of our common stock than such person or group owned during any 24-month period, a majority of our Board of Directors is no longer comprised of individuals who were members of the Board of Directors of the Applicable Group during any 24-month period, or (ii) the Applicable Group ceases to be a member of the Applicable Group.

If this were to occur, it could have an adverse impact on our liquidity and operations. These prepayment provisions may be triggered by our failure to make offers to repurchase the Senior Notes. These provisions may require us to engage in a Change of Control Offer with respect to the Senior Notes. See "Description of Senior Notes—Change of Control". In the event we are unable to prepay other outstanding indebtedness, we would not be obligated to offer to repurchase the Senior Notes.

Our credit ratings may not reflect all of the risks of an investment in the Senior Notes.

Our credit ratings are an independent assessment of our ability to pay debt obligations as they become due. Consequently, real or anticipated changes in our credit ratings may generally affect the market value of the Senior Notes. Our credit ratings, however, may not reflect the potential impact that

[Table of Contents](#)

risks related to structural, market or other factors discussed in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference, may affect the value of your Senior Notes.

The trading price for Senior Notes will be directly affected by many factors, including our credit rating.

Credit rating agencies continually revise their ratings for companies they follow, including us. Any ratings downgrade could adversely affect the trading market for the Senior Notes, to the extent a trading market for the Senior Notes develops. The condition of the financial and credit markets has fluctuated in the past and are likely to fluctuate in the future, and any such fluctuation may impact the trading price of Senior Notes.

Our business operations may not generate the cash needed to service and repay Senior Notes or our other indebtedness.

Our ability to make payments on Senior Notes and service our other indebtedness will depend on our ability to generate cash in the future, which is subject to various risks and uncertainties, many of which are beyond our control. At each maturity, the entire outstanding principal amount of the maturing Senior Notes will be due. We may not have sufficient funds to pay the principal of, or the premium (if any) or interest on, the notes or amounts due on our other indebtedness. If we do not have cash on hand or available through existing borrowing facilities or through cash generated from our operations, we will need to seek additional financing. If we are unable to obtain financing available to us in the amounts necessary on terms that are satisfactory to us or at all. If we default in the payment of amounts due on the Senior Notes (or our other indebtedness), it would give rise to an event of default under such indenture governing the Senior Notes (or the agreements governing our other indebtedness), and any such default under one indenture or agreement could trigger a cross default under the other indentures (or those other agreements), and any such default under one indenture or agreement could trigger a cross default under the other indentures. In the event of any acceleration, there can be no assurance that we will have enough cash to repay our outstanding indebtedness, including the Senior Notes.

An active trading market may not develop for the Senior Notes, which could limit their market price or your ability to sell the Senior Notes.

The Senior Notes constitute a new issue of debt securities for which there currently is no trading market. As a result, we cannot provide any assurance that there will be a market for the Senior Notes or that you will be able to sell your Senior Notes. We have no plans to list the Senior Notes on any national securities exchange. If any of the Senior Notes are traded after their initial issuance, they may trade at a discount to their initial offering price depending on prevailing market conditions, general economic conditions, our financial condition, performance and prospects and other factors. The underwriters have advised us that they will not make a liquid trading market for the Senior Notes, but they are not obligated to do so, and may discontinue any market-making in the Senior Notes at any time at their sole discretion. We cannot provide any assurance that a liquid trading market will develop for the Senior Notes, that you will be able to sell your Senior Notes at a particular time or that the price you receive for your Senior Notes will be at least equal to the price you paid for them. To the extent an active trading market does not develop, the liquidity and trading price of the Senior Notes may be harmed. Accordingly, you may not be able to sell your Senior Notes for an indefinite period of time.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of earnings to fixed charges for each of the periods presented. In calculating this ratio, we take earnings before income taxes and income (loss) from equity investees, net of distributions, plus fixed charges and excluding capitalized interest. Fixed charges include gross interest, amortization of deferred financing expenses and an amount equivalent to interest included in rental charges. We have included actual interest expense for *Seas* operating lease and, for all other rentals, we have assumed that one-third of rental expense is representative of the interest factor. The ratios are presented for the correction of errors in the manner in which we were amortizing certain guarantee fees related to three outstanding export credit agency guarantees to the extent, fees associated with our revolving credit facilities. Refer to Note 1. "General—Revision of Prior Period Financial Statements" to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2011.

Except as described above with respect to a Change of Control Triggering Event, and as described in the accompanying prospectus under "Description of the Senior Notes—Restrictions on Consolidation, Merger and Certain Sales of Assets", the Indenture does not contain provisions that permit the holders to require us to repurchase Senior Notes or otherwise impose obligations upon us in the event of a takeover, recapitalization or similar transaction.

We will not be required to make a Change of Control Offer upon a Change of Control Triggering Event if a third party makes the Change of Control Offer and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by us and purchases all Senior Notes withdrawn under such Change of Control Offer.

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations applicable to the Senior Notes pursuant to this covenant. Our ability to repurchase the Senior Notes pursuant to a Change of Control Offer may be limited by a number of factors. Our current indebtedness may contain, prohibitions of certain events that would constitute a Change of Control Triggering Event or require such indebtedness to be repurchased upon the occurrence of a Triggering Event. Moreover, the exercise by the holders of the Senior Notes of their right to require us to repurchase the Senior Notes could cause us to incur additional indebtedness, even if the Change of Control Triggering Event itself does not, due to the financial effect of such repurchase on us. Finally, our ability to pay cash for a repurchase may be limited by our then-existing financial resources. There can be no assurance that sufficient funds will be available when needed.

Euroclear was created in 1968 to hold securities for participants of Euroclear ("Euroclear Participants") and to clear and settle transactions simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from securities and cash. Euroclear includes various other services, including securities lending and borrowing, and interfaces with domestic markets. Euroclear is operated by Euroclear Bank S.A./N.V. (the "Euroclear Operator"), under contract with Euro-clear Clearance Systems S.C., a Belgian "Cooperative". All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are operated by the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is achieved through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking Commission.

Links have been established among the Depositary, Clearstream and Euroclear to facilitate the initial issuance of the Senior Notes sold outside the United States and the transfers of the Senior Notes associated with secondary market trading.

Although the Depositary, Clearstream and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are understood to be subject to change. These procedures may be modified or discontinued at any time.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as the Depositary, and the Depositary will record the ownership interests of each of the U.S. agents of Clearstream and Euroclear, as participants in the Depositary. When Senior Notes are to be transferred from the account of a Clearstream participant or a Euroclear participant, the purchaser must send instructions to Clearstream or Euroclear through a participant in the Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive Senior Notes against payment. After settlement, Clearstream or Euroclear will credit the account. Credit for the Senior Notes will appear on the next day (European time).

Because settlement is taking place during New York business hours, the Depositary's participants will be able to employ their usual procedures for the settlement of relevant U.S. agent acting for the benefit of Clearstream or Euroclear participants. The sale proceeds will be available to the Depositary seller or the Depositary participant, a cross-market transaction will settle no differently than a trade between two Depositary participants. When a Clearstream participant transfers Senior Notes to a Depositary participant, the seller will be required to send instructions to Clearstream or Euroclear through a participant in the Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to transfer these Senior Notes against payment for them. The payment will be made to the Clearstream or Euroclear participant the following day, with the proceeds back valued to the value date, which would be the preceding day if settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear participant's account on the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving the Senior Notes on the days when those clearing systems are open for business. Those systems may not be open for business on days when banks, brokers and other financial institutions are closed in the United States. In addition, because of

time zone differences there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the

UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following discussion summarizes certain United States federal income tax consequences of ownership and disposition of the Senior Notes "United States Holders" (as defined below) that meet all of the following conditions:

- the United States Holders purchase Senior Notes in this offering at the "issue price", which will equal the first price to the public (or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) at which a substantial amount of money; and
- the United States Holders hold the Senior Notes as capital assets (generally, property held for investment).

This discussion does not describe tax considerations arising under the laws of any foreign, state or local jurisdiction, nor does it describe all consequences that may be relevant to United States Holders in light of their particular circumstances or to United States Holders subject to special

- certain financial institutions;
- insurance companies;
- dealers in securities or foreign currencies;
- traders in securities that have elected mark-to-market accounting for their securities;
- persons holding Senior Notes as part of a constructive sale, wash sale, conversion transaction or a hedge or other integrated transaction;
- United States Holders whose functional currency is not the U.S. dollar;
- entities that are tax-exempt for United States federal income tax purposes and retirement plans, individual retirement accounts and annuities;
- partnerships and other entities or arrangements classified as partnerships for United States federal income tax purposes; or
- United States Holders subject to the alternative minimum tax.

If an entity or arrangement classified as a partnership for United States federal income tax purposes holds Senior Notes, the United States federal income tax consequences of ownership and disposition of the Senior Notes will generally depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level and partners in such partnerships, should consult their own tax advisors regarding the United States federal income tax consequences of owning and disposing of the Senior Notes.

This summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), administrative pronouncements, judicial decisions and Treasury Regulations, all as in effect or in existence as of the date hereof and all of which are subject to changes or differing interpretations subsequent to the date hereof that may affect (possibly on a retrospective basis) the tax consequences described herein. We have not sought, and will not seek, any ruling from the Internal Revenue Service (the "IRS") regarding the matters discussed herein. There can be no assurance that the IRS will not take positions concerning the tax consequences of ownership and disposition of the Senior Notes that are different from those discussed below or that a court will not agree with any such positions. Persons considering

should consult their tax advisers with regard to the application of the United States federal income tax

laws to their particular situations as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

As used herein, the term "United States Holder" means a beneficial owner of a Senior Note that, for United States federal income tax purposes

- a citizen or individual resident of the United States;
- a corporation, or other entity taxable as a corporation for United States federal income tax purposes, created or organized in or under the laws of any State thereof or the District of Columbia; or
- an estate or trust the income of which is subject to United States federal income taxation regardless of its source.

Payments of Interest

Stated interest paid on a Senior Note will be taxable to a United States Holder as ordinary interest income at the time it accrues or is received. The United States Holder's method of accounting for United States federal income tax purposes.

Interest income with respect to a Senior Note should constitute foreign source income for United States federal income tax purposes, which may be taken into account by the United States Holder in calculating the holder's foreign tax credit limitation.

Additional amounts (if any) paid pursuant to the obligations described under "Description of Debt Securities—Tax Related Considerations—Additional Amounts" in the accompanying prospectus would be treated as ordinary interest income.

Sale, Exchange or Retirement of the Notes

Upon the sale, exchange or retirement of a Senior Note, a United States Holder will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange or retirement and the United States Holder's tax basis in the Senior Note. A United States Holder's tax basis in a Senior Note will generally be the amount paid to the holder. For these purposes, the amount realized does not include any amount attributable to accrued but unpaid interest. Amounts attributable to accrued but unpaid interest will be treated as interest as described under "—Payments of Interest" above. Any gain or loss will generally be United States source income for purposes of the holder's foreign tax credit limitation.

Gain or loss recognized on the sale, exchange or retirement of a Senior Note will generally be capital gain or loss and will be long-term capital gain or loss if the United States Holder held the Senior Note for more than one year. Long-term capital gains recognized by individual and certain other United States Holders generally are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

Medicare Tax on Investment Income

Legislation enacted in 2010 generally will impose, beginning in 2013, a new 3.8% Medicare contribution tax on all or a portion of the "net investment income" (including certain interest and capital gains) of certain U.S. individuals, estates and trusts.

Backup Withholding and Information Reporting

Information returns may be filed with the IRS in connection with payments on the Senior Notes and the proceeds from a sale or other disposition of a Senior Note. The United States Holder may be

subject to United States backup withholding on these payments if the United States Holder fails to provide its taxpayer identification number to the person and comply with certain certification procedures or otherwise establish an exemption from backup withholding. The amount of any backup withholding on these payments if the United States Holder will be allowed as a credit against the United States Holder's United States federal income tax liability and may entitle the United States Holder to a refund of such amount provided that the required information is timely furnished to the IRS.

Certain Reporting Requirements

Legislation enacted in 2010 generally requires individual United States Holders (and to the extent specified in future Treasury regulations, corporations and other entities) that own "specified foreign financial assets," whose aggregate value exceeds \$50,000 on the last day of the taxable year or \$75,000 at any time during the taxable year, to file a report on IRS Form 8938 with information relating to the assets for each such taxable year. (These thresholds are increased to \$100,000 and \$125,000, respectively, and are further increased for taxpayers living outside the United States.) The Senior Notes will constitute "specified foreign financial assets" unless the United States Holder is a United States "financial institution" (as defined), such as a bank or brokerage firm. Substantial penalties apply to any failure to timely file a required Form 8938, but such penalties may be due to reasonable cause and not due to willful neglect. Additionally, in the event a person that is required to file IRS Form 8938 fails to do so, the statute of limitations on assessment of United States federal income taxes for such a person for the related tax year generally would not close until the required information is ultimately filed. United States Holders should consult their own tax advisors regarding their Form 8938 reporting obligations.

ABOUT THIS PROSPECTUS

This prospectus is part of an automatic registration statement that we filed with the SEC as a "well-known seasoned issuer" as defined in Rule 405 under the Securities Act, and is being filed as part of a "shelf" registration process for the delayed offering and sale of securities pursuant to Rule 415 under the Securities Act. Under this shelf registration process, the selling shareholders may offer and sell, from time to time, any combination of the securities described in this prospectus in one or more offerings. This prospectus provides a general description of the securities we and/or the selling shareholders may offer. If required by applicable law, each time we or one or more selling shareholders offer securities pursuant to this prospectus, we will provide a prospectus supplement that will contain specific information about the terms of that offering. We may also add, update or delete information to any prospectus supplement any information contained in this prospectus. To the extent any statement made in a prospectus supplement or a document incorporated by reference into this prospectus is inconsistent with the statements made in this prospectus, the statements made in this prospectus will be deemed to prevail.

You should read both this prospectus with additional information incorporated herein and therein described under the heading "Where You Can Find More Information" before you make any investment decision.

ENFORCEABILITY OF CIVIL LIABILITIES

We are a Liberian corporation. Certain of our directors and controlling persons are residents of jurisdictions other than the United States, and certain of our assets and a significant portion of our assets are located outside the United States. As a result, it may be difficult for investors to serve process on our directors or to enforce against us or them judgments obtained in United States courts based upon civil liability provisions of the federal securities laws. We have been advised by the law firm of Watson, Farley & Williams (New York) LLP (as to Liberian law), that, both in original actions and in actions for the enforcement of judgments in United States courts, there is doubt as to whether civil liabilities based solely upon the United States federal securities laws are enforceable in Liberia.

Our directors generally have the power to cause shares of any authorized class of our common stock to be issued for any corporate purpose.

[Table of Contents](#)

Holders of our common stock are entitled to one vote per share on all matters submitted to our shareholders, and unless the Business Corporation Act requires a supermajority, the presence in person or by proxy of the holders of a majority of all of our outstanding common stock at any meeting of shareholders will constitute a quorum for the transaction of business at that meeting. We cannot subject the holders of our common stock to further calls or assessments. Under our Articles of Incorporation, holders of our common stock do not have preemptive, subscription or conversion rights.

Neither Liberian law nor our Articles of Incorporation nor any of our other organizational documents limit the right of persons who are not our shareholders to vote our common stock. However, in May 2000, our Articles of Incorporation were amended to prohibit any person, other than our two existing shareholders, from acquiring more than 4.9% of the aggregate more than 4.9% of the relevant class or classes of our common stock.

Dividends

Holders of our common stock have an equal right to receive dividends when declared by our board of directors out of funds legally available for that purpose.

Sales of Assets, Liquidation and Mergers

Under the Business Corporation Act, the holders of 66% of the outstanding shares of our common stock need to approve the sale of all or substantially all of our assets, decisions by us to liquidate or dissolve. However, holders of only one-half of the outstanding shares of our common stock may elect to institute such a sale on our behalf under the Business Corporation Act. In the event of our liquidation or dissolution, the holders of our common stock will be entitled to share in the distribution to them, after we have paid amounts owed to all creditors and we have paid holders of our outstanding preferred stock the liquidation preference.

Under the Business Corporation Act, the holders of a majority of the outstanding shares of our common stock need to approve a merger or consolidation with any of our subsidiaries of which we own at least 90%.

Call of Meetings

Our By-Laws provide that special meetings of our shareholders can be called at any time by either our board of directors, the Chief Executive Officer or any shareholder holding at least 50% of our outstanding common stock. In addition, our shareholders may call for meetings of shareholders if there has been a failure to call a meeting for a period of 90 days.

Election of Directors

Our directors are elected, at either any annual meeting or any special meeting, by a majority of the votes cast by shareholders entitled to vote at the meeting. Vacancies on our board of directors are filled by the vote of a majority of the remaining board members for the unexpired term.

Our board of directors is divided into three classes: Class I, Class II and Class III, with the directors in each class holding office for staggered terms of three years.

[Table of Contents](#)

Amendments to Our Articles of Incorporation and By-Laws

Any amendment to our Articles of Incorporation or any shareholder proposal to amend our By-Laws generally requires the authorization by a majority of, but not less than two-thirds of all outstanding shares entitled to vote. This requirement does not apply to (1) an amendment to change our registered agent; (2) an amendment to change the authorized number of shares of stock; or (3) an amendment for establishing and designating the shares of any class or of classes, our Articles of Incorporation can be amended by the affirmative vote of the holders of a majority of all of our outstanding shares entitled to vote. Our board of directors has the power to establish and designate new classes of preferred stock. In addition, our board of directors has the power to adopt, amend or repeal our By-Laws.

Dissenters' Rights of Appraisal and Payment

Under Liberian law, our shareholders have the right to dissent from various corporate actions, including any merger or sale of all or substantial part of our assets in the usual course of our business, and have the right to receive payment of the fair value of their shares. If we amend our Articles of Incorporation in a manner that would materially and adversely affect the interests of our shareholders, those shareholders have the right to dissent and receive payment for their shares. The dissenting shareholders may not receive the payment until the procedures set forth in the Business Corporation Act. Those procedures require that proceedings be instituted in the circuit court in the judicial district in which our principal office is situated if we cannot agree with our dissenting shareholders on a price for the shares. The value of the shares of any dissenting shareholder shall be determined if the court so elects, to the recommendations of a court-appointed appraiser.

Shareholders' Actions

Under Liberian law, any of our shareholders may bring an action in our name to procure a judgment in our favor, provided that shareholder is a shareholder at the time the action is commenced and at the time of the transaction to which the action relates.

Limitations Under Indebtedness

Agreements governing certain of our indebtedness contain covenants that impose restrictions (subject to some exceptions) on us and our subsidiaries with respect to our corporate actions.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company.

Preferred Stock

The material terms of any series of preferred stock that we offer through a prospectus supplement will be described in that prospectus supplement. We are authorized to provide for the issuance of preferred stock in one or more series with designations as may be stated in the resolution or resolutions authorizing the issuance of such stock. At the time that any series of our preferred stock is authorized, our board of directors will fix the dividend rights, any conversion rights, any liquidation preferences and any other rights, preferences, privileges and restrictions of that series, as well as the number of shares constituting that series. Our board of directors could, without shareholder approval, cause us to issue preferred stock which has voting, conversion and other rights that could be more favorable than those of our common stock or make it more difficult to effect a change in control. Our preferred stock could be

[Table of Contents](#)

used to dilute the stock ownership of persons seeking to obtain control of us and thereby hinder a possible takeover attempt which, if our sharehold market value of their shares, might be viewed as being beneficial to our shareholders. In addition, our preferred stock could be issued with voting preferences which would adversely affect the voting power and other rights of holders of our common stock.

Liability of Directors and Officers

Our Articles of Incorporation and By-Laws contain provisions which eliminate the personal liability of our directors and officers for monetary damages for their fiduciary duties other than liability for:

- breaches of the duty of loyalty;
- acts or omissions not in good faith;
- acts or omissions which involve intentional misconduct or a knowing violation of law; or
- any transactions in which the director derived an improper personal benefit.

We believe that these provisions are necessary to attract and retain qualified persons as our directors and officers.

DESCRIPTION OF DEBT SECURITIES

The following summarizes some of the general terms and conditions of the debt securities that we may issue under this prospectus. Each time we issue debt securities under this prospectus, we will file a prospectus supplement with the SEC. The prospectus supplement may contain additional terms of those debt securities. The terms contained in the prospectus supplement, will be a description of the material terms of the debt securities, but if there is any inconsistency between those in the prospectus supplement, those in the prospectus supplement will apply and will replace those presented here.

We will issue the debt securities under an indenture dated as of July 31, 2006 between us and The Bank of New York Trust Company, N.A., as trustee. The debt securities under the terms of a supplemental indenture or an officers' certificate delivered under the authority of resolutions adopted by our board of directors. The terms of any debt securities will include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended, subject to all those terms, and we refer the holders of debt securities to the indenture, which was filed as an exhibit to our Registration Statement of which this prospectus is incorporated by reference into the Registration Statement of which this prospectus is a part, and the Trust Indenture Act for a statement of those terms.

The following summaries of various provisions of the indenture and the debt securities are not complete. Unless we indicate otherwise, captions are not part of the indenture. All section references below are to sections of the indenture.

General

The debt securities will be unsecured senior obligations and will rank equally with all of our other unsecured and unsubordinated debt. The principal amount of debt securities that we may issue, and we may issue debt securities periodically in series. In addition, the indenture does not prohibit us from incurring debt other than secured debt. Any debt incurred by our subsidiaries ranks structurally senior to any debt incurred by us with respect to the assets of that subsidiary (subject to any subsidiary guarantee). We do not have to issue all the debt securities of one series at the same time and, unless we otherwise

on debt securities issued in book-entry form, a holder may surrender for conversion, if convertible, or register for transfer the debt securities of a series to the trustee. Every debt security surrendered for conversion or registration of transfer or exchange must be endorsed or accompanied by a written instrument. We may impose a service charge for any registration of transfer or exchange of any debt securities, but we may require payment of an amount that will cover the charge payable as a result of the transfer or exchange. (Section 305) If we designate a transfer agent for any series of debt securities, we may rescind that designation and approve a new location for that transfer agent to act, provided that we maintain a transfer agent in each place of payment for that series of debt securities. We may appoint additional transfer agents for any series of debt securities. (Section 1002)

In the event of any redemption of any series of debt securities in part, neither we nor the trustee will be required to:

- issue, register the transfer of or exchange debt securities of that series during the period beginning at the opening of business 15 days before the mailing date of the notice for those debt securities and ending at the close of business on the mailing date of the redemption notice; or
- register the transfer of or exchange any debt security or any portion of a debt security called for redemption, except the unredeemed portion of a debt security redeemed in part. (Section 305).

Covenants

We will describe any particular covenants relating to a series of debt securities in the prospectus supplement relating to that series. The "covenants" described below will apply to those covenants unless we provide otherwise in a prospectus supplement related to a particular series of debt securities.

Restrictions on Consolidation, Merger and Certain Sales of Assets

Without the consent of the holders, we may consolidate with or merge with or into, or convey, transfer or lease our properties and assets substantially as an entirety to us and may permit any person to merge with or into, or convey, transfer or lease its properties and assets substantially as an entirety to us if:

- immediately after giving effect to that transaction, and treating any indebtedness that becomes our obligation as a result of the transaction as if it were our obligation at the time of the transaction, no event of default and no event which after notice or lapse of time or both would become an event of default or continuing; and
- the successor person assumes all our obligations under the indenture; *provided* that the successor person is a corporation, trust or partnership organized under the laws of the United States, any state of the United States, the District of Columbia, the Republic of Liberia or any country recognized by the United States.

Events of Default

Except as we may otherwise provide in a prospectus supplement for any particular series of debt securities, the following events are "events of default" relating to those debt securities:

- our failure to pay interest or any additional amounts on those debt securities for 30 days after that interest or those additional amounts are due;
- our failure to pay the principal or any premium on those debt securities when due at maturity;

<http://www.sec.gov/Archives/edgar/data/884>

Table of Contents

- our failure to deposit any sinking fund payment for those debt securities when due;
- our failure to perform any other covenants in the indenture for 60 days after written notice has been given as provided in the indenture;
- our failure to pay when due any payment on, or the acceleration of, any of our indebtedness for money borrowed that exceeds \$50 million, or any of our indebtedness for money borrowed, if that indebtedness is not discharged or the acceleration is not annulled or annulled has been given as provided in the indenture;
- the occurrence of certain events of bankruptcy, insolvency or reorganization; or
- the occurrence of any other event of default that we provide for debt securities of that series. (Section 501).

If an event of default affecting any series of debt securities occurs and continues, either the trustee or the holders of at least 25% of the aggregate principal amount of that series then outstanding may declare the principal amount (or, if the debt securities of that series are original issue discount securities, the principal amount specified in the terms of that series) of all of the debt securities of that series to be immediately due and payable. At any time after the acceleration of debt securities of any series has been made, but before a judgment or decree based on acceleration has been obtained, the holders of a majority in principal amount of the debt securities outstanding of that series may, under limited circumstances, rescind and annul that acceleration. (Section 502)

The indenture requires that we file annually with the trustee a certificate of our principal executive, financial or accounting officer as to his compliance with all conditions and covenants of the indenture. (Section 1005)

We refer you to the prospectus supplement relating to each series of debt securities that are original issue discount securities for the particular series of debt securities for the maturity of a portion of the principal amount of those original issue discount securities if an event of default occurs and continues.

Subject to the provisions of the indenture relating to the trustee's duties, if an event of default occurs and continues, the indenture provides that the trustee may exercise any of its rights or powers under the indenture at the request, order or direction of holders unless those holders have offered to the trustee reasonable security for the exercise of those provisions regarding indemnification and rights of the trustee, the indenture provides that the holders of a majority in principal amount of the debt securities of that series have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee.

Defeasance and Satisfaction and Discharge

The obligations that we have under the indenture will not apply to the debt securities of a series (except for our obligations to register any transfer of debt securities and provide for additional amounts) when all those debt securities:

- have been delivered to the trustee for cancellation;
- have become due and payable; or
- will upon their stated maturity or redemption within one year become due and payable,

and we have irrevocably deposited with the trustee as trust funds for that purpose an amount sufficient to pay and discharge the entire indebtedness

The prospectus supplement relating to the debt securities of any series will state if any additional defeasance provisions will apply to those

Defeasance and Discharge

The indenture allows us to elect to defease and be discharged from all of our obligations with respect to any series of debt securities then outstanding to pay additional amounts, register the transfer or exchange of the debt securities, replace stolen, lost or mutilated debt securities, maintain paying agent (in trust) provided the following conditions have been satisfied:

- We have deposited in trust with the trustee (a) funds in the currency in which the debt securities are payable, or (b) if the debt securities are payable in United States dollars, (A) United States Government Obligations or (B) a combination of United States dollars and United States Government Obligations in an amount sufficient to pay and discharge the principal, interest, premium and any mandatory sinking fund payments on the outstanding debt securities of the series.
- We have delivered to the trustee an opinion of counsel that states that the discharge will not be considered, or result in, a taxable event with respect to the series. (Section 403).

Defeasance of Certain Covenants

The indenture states that if the debt securities of a series so provide, we need not comply with some restrictive covenants applicable to those securities (including the obligation to pay additional amounts) and that our failure to comply with those covenants will not be considered events of default under the indenture provided the following conditions have been satisfied:

- We have deposited in trust with the trustee (a) funds in the currency in which the debt securities are payable, or (b) if those debt securities are payable in United States dollars, (A) United States Government Obligations or (B) a combination of United States dollars and United States Government Obligations in an amount sufficient to pay and discharge the principal, interest, premium and any mandatory sinking fund payments on the outstanding debt securities of the series.
- We have delivered to the trustee an opinion of counsel that states that the discharge will not be considered, or result in, a taxable event with respect to the series. (Section 1004).

Modification of the Indenture

We and the trustee may modify or amend the indenture if we obtain the consent of the holders of a majority in aggregate principal amount of the debt securities of any series affected by the modification or amendment. However, the indenture may not be modified or amended to:

- change the stated maturity of the principal of, or any installment of principal of or any interest on, any debt security;
- reduce the principal amount of any debt security;
- reduce the rate of interest on any debt security;
- reduce any additional amounts payable on any debt security;

- reduce any premium payable upon the redemption of any debt security;
- reduce the amount of the principal of an original issue discount security that would be due and payable upon a declaration of acceleration of the indenture;
- change any place of payment where, or the currency in which any debt security or any premium or interest on that debt security is payable;
- impair the right to institute suit for the enforcement of any payment of principal of or premium or any interest on any debt security or any interest on any debt security in the case of redemption, on or after the redemption date;

without the consent of the holders of each of the debt securities affected by that modification or amendment. (Section 902)

We and the trustee may amend the indenture without notice to or the consent of any holder of debt securities for any of the following purposes:

- to evidence that another person is our successor and that that person has assumed our covenants in the indenture and in the debt securities;
- to add to our covenants for the benefit of the holders of all or any series of debt securities;
- to surrender any right or power conferred upon us in the indenture;
- to add additional events of default;
- to add or change any provisions of the indenture to the extent necessary to permit or facilitate issuing debt securities in bearer form, in registered form, in principal, and with or without interest coupons;
- to permit or facilitate the issuance of debt securities in uncertificated form;
- to add to, change or eliminate any of the provisions of the indenture affecting one or more series of debt securities, provided that the amendment (X) shall not apply to debt securities of any series created before the execution of the supplemental indenture and entitled to the same rights as the debt securities to which the amendment (Y) modify the rights of any holder of those outstanding debt securities with respect to such provision or

- to secure the debt securities;
- to supplement any of the provisions of the indenture to the extent necessary to permit or facilitate the defeasance and discharge of the debt securities under the indenture if doing so does not adversely affect the interests of the holders of debt securities of that series or any other series in any material respect;
- to cure any ambiguity, to correct or supplement any provision in the indenture which may be inconsistent with any other provision in the indenture and which may adversely affect the interests of the holders of debt securities of that series or any other series in any material respect; or
- to make any other provisions regarding matters or questions arising under the indenture if doing so does not adversely affect the interests of the holders of debt securities of that series or any other series in any material respect. (Section 901).

Conversion Rights

We will describe any terms and conditions upon which the debt securities are convertible into our common stock or preferred stock in the applicable prospectus supplement. The terms will include:

- whether those debt securities are convertible into our common stock or preferred stock;
- the conversion price or manner of calculating the conversion price;
- the conversion period;
- provisions as to whether conversion will be at our option or the option of the holders;
- the events requiring an adjustment of the conversion price; and
- provisions affecting conversion in the event of the redemption of those debt securities. (Section 301).

Book-Entry Debt Securities

We may issue the debt securities of a series, in whole or in part, in the form of one or more global securities that will be deposited with, or for the benefit of, a custodian. We will identify the depositary in the applicable prospectus supplement relating to that series. If we issue one or more global securities, we will issue the debt securities in denominations equal to the portion of the aggregate principal amount of the outstanding debt securities of the series to be represented by that global security. We may issue global securities in either registered or bearer form and in either temporary or permanent form. We will describe the specific terms of the issue of debt securities in the applicable prospectus supplement relating to that series. (Sections 301, 304 and 305)

Tax Related Considerations

Payment of Additional Amounts

Any amounts that we pay with respect to any series of debt securities will be paid without deduction or withholding for any and all present or future assessment or other governmental charges imposed or levied by or on behalf of the Liberian government or the government of the jurisdiction of our organization in that government having power to tax ("Taxes"), unless we are required to withhold or deduct Taxes by law or by the interpretation or administration of that law. If we are required to deduct or withhold any amount for Taxes from any payment made with respect to any series of debt securities, we will pay any "additional amount" to be received by each holder, including additional amounts, after the withholding or deduction, will not be less than the amount the holder would have received had we not withheld or deducted. However, we will pay no additional amounts with respect to a payment made to a holder which is subject to those Taxes by the jurisdiction of the government of our jurisdiction of organization or any territory of that jurisdiction other than by merely holding the debt securities (an "excluded holder"). We will also pay no additional amounts with respect to a payment made to a holder, if we would not be required to pay those Taxes from any payment made to that holder, if that holder filed a form with the relevant government with no other consequence to that holder. We will pay the full amount deducted or withheld to the relevant authority according to applicable law. We will furnish the holders, within 30 days after the date of payment, under applicable law, certified copies of tax receipts evidencing our payment. We will indemnify and hold harmless each holder and upon written demand for the amount of any:

- Taxes levied or imposed on and paid by that holder as a result of payments with respect to the debt securities (other than for an excluded holder);
- liability, including penalties, interest and expense, arising from those Taxes; and
- Taxes imposed as a result of any reimbursement we make under this covenant. (Section 1007).

Redemption or Assumption of Debt Securities under Certain Circumstances

If we determine, based upon an opinion of counsel, that we would be required to pay an additional amount, because of any change in or amendment to:

- the laws and related regulations of Liberia or any political subdivision or taxing authority of Liberia; or
- the laws and related regulations of any jurisdiction in which we are organized or any political subdivision or taxing authority of that jurisdiction; or
- any official position regarding the application or interpretation of the above laws or regulations,

which is announced or becomes effective after the date of the indenture, then we may, at our option, on giving not less than 30 days' nor more than 90 days' notice of redemption to the holders of the debt securities in whole, but not in part, at any time at a redemption price equal to 100% of the principal amount of the debt securities plus accrued interest to the date of redemption. In the case of securities issued at a discount, at a redemption price equal to the offering price plus accrued original issue discount to the redemption date. This obligation will be irrevocable, and we may not give any notice of redemption more than 90 days before the earliest date on which we would be obligated to pay principal. If we give notice of redemption, the obligation to pay additional amounts remains in effect. (Section 1108).
