- 100% of the principal amount of the notes to be redeemed, and
- as determined by the quotation agent (as defined below), the sum of (a) the present value of the payment of principal on the notes to be redeemed and (b) the present values of the scheduled payments of interest on such notes to be redeemed that would have been payable from the date of redemption to the Applicable Par Call Date (not including any portion of such payments of interest accrued to the date of redemption, each discounted to the redemption date on a semi-annual basis assuming a 360-day year consisting of twelve 30-day months at the treasury rate (as defined below) plus, in the case of the 2.250% Notes due 2023, 10 basis points, in the case of the 2.875% Notes due 2027, 12.5 basis points or in the case of the 3.625% Notes due 2047, 15 basis points,

plus, in the case of both clauses above, accrued and unpaid interest on the notes to be redeemed to the redemption date.

In addition, at any time on or after the Applicable Par Call Date, each of the 2.250% Notes due 2023, the 2.875% Notes due 2027 and the 3.625% Notes due 2047 will be redeemable, in whole but not in part at the Company's option, at a redemption price equal to 100% of the principal amount of the notes plus accrued interest thereon to the date of redemption.

reference treasury dealer quotations so obtained.

"Quotation agent" means the reference treasury dealer appointed by the Company.

"Reference treasury dealer" means (i) each of J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC, and their respective successors; however, if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a "primary treasury dealer"), the Company will substitute another primary treasury dealer; and (ii) any other primary treasury dealer(s) selected by the Company.

“Reference treasury dealer quotations” means, with respect to each reference treasury dealer and any redemption date, the average, as determined by the Company, of the bid and asked prices for the comparable treasury issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by the reference treasury dealer at 5:00 p.m., New York City time, on the third business day preceding the redemption date.

Accordingly, purchasers who wish to trade notes on any date prior to two business days before delivery will be required, by virtue of the fact that the notes initially will settle in T+7, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisors.

Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation by entering into positions in the Company’s securities, including potentially the notes offered hereby.
