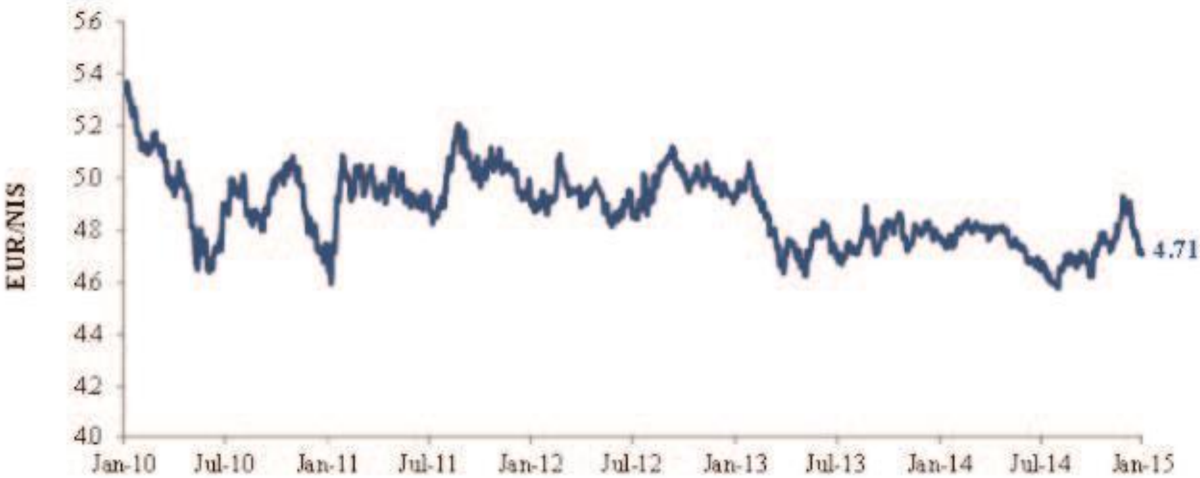
Israel has a developed market economy. In 2010, Israel joined the Organization for Economic Co operation and Development ("OECD") and in 2013 had a GDP per capita (based on purchasing power parity) of $36,926, compared to other European countries such as $44,999 for Germany, $44,099 for France and $39,372 for the UK, according to the IMF. Since 1991, Israeli real GDP has grown at a rate of 4.4%, according to IMF. This compares favorably as against the average real GDP growth rate in other European countries such as 1.3% for Germany, 1.6% for France and 2.3% for UK, and 2.6% for in the U.S. in the same period. During this period, Israel faced a decline in real GDP for only one year, in 2002. Since the beginning of the global economic slowdown in 2007, the Israeli economy has witnessed a high level of resilience: Israeli real GDP has grown at an average rate of 3.6%. Israel maintains a sovereign A+ and A1 rating from S&P and Moody's, respectively. Israel's real GDP is expected to grow at an average rate of 2.8% per annum from 2013 to 2016 versus an average of 2.8% for the UK and 1.0% for France according to the IMF. Israel also enjoys high levels of literacy, life expectancy and disposable income as attested by it being ranked at 19 on the Human Development Index

("HDI"), ahead of countries such as Belgium, France and Austria. Israel's economy is diversified and competitive on an international platform with a significant level of exports focused around high technology equipment, cut diamonds and agricultural products. Israel usually posts sizable trade deficits, as it imports crude oil, grains, raw materials, and military equipment, predominately offset by tourism and other service exports, as well as significant foreign investment inflows, which contribute to the balance of payments, and a relatively stable currency.

Evolution of the EUR / NIS Exchange Rate over the last 5 Years



Source: Capital IQ data as at January 6, 2015

The Israeli media and telecommunications markets have, over the past several years, slowly been converging as customers were inclined to subscribe to their media and telecommunications services from a single provider. Israel currently has relatively high estimated penetration rates for pay television, broadband internet infrastructure access and mobile telephony of 67.9% (for 2014), 87.9% (for 2014) and 126.8% (as of September 30, 2014), respectively, according to Ovum Research. This environment fosters a market for packaged offerings or "multiple-play", whereby television, broadband internet infrastructure access and fixed-line telephony services are bundled into integrated offerings referred to as "dual-play" or "double-play" (two services provided together), or "triple-play" (three services provided together). When mobile telephony subscriptions are added to triple-play packages, these are known as "quad-play" or "quadruple-play" packages, but currently such packages are prohibited by law in Israel under certain operators' licenses, including ours.

Side by Side Comparison of Bundles in Israel

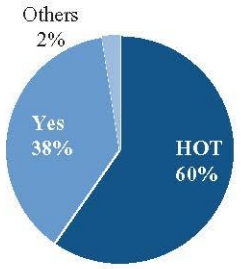
Offer	Hot (Cable)	Bezeq (xDSL / DTH)	DTT
Bundling	✓ Triple play ✓ Mobile offered separately	x No triple play packages currently allowed [1] ✓ Mobile offered separately	x No multiple play

(1) Subject to imminent change.

The only operator currently offering triple play packages including pay television, broadband internet infrastructure access and fixed-line telephony in Israel is HOT, with approximately 40% and 44% of its Cable Customer Relationships subscribing to its triple play offerings, as of December 31, 2013, and September 30, 2014, respectively. While convergence has occurred at a relatively fast pace in a number of Western European markets, notably in France and in the UK, a series of regulations, notably those affecting the integrated telecommunications operator Bezeq's ability to bundle products, have historically prevented such convergence to occur en masse in Israel, and still are a significant impediment to a broader convergence. On March 26, 2014, the Israeli Anti Trust Commissioner approved the merger between Bezeq and YES and we forsee that following such decision, Bezeq will begin to offer triple play in the near future. We believe that offering bundled services allows media and telecommunication service providers to meet customers' communication and entertainment requirements increases customer loyalty and attracts new customers as the value proposition of the offering is enhanced.

Competitive Overview

Cable based Services Market Shares by Subscribers in Israel (2013)



1.5m total subscribers

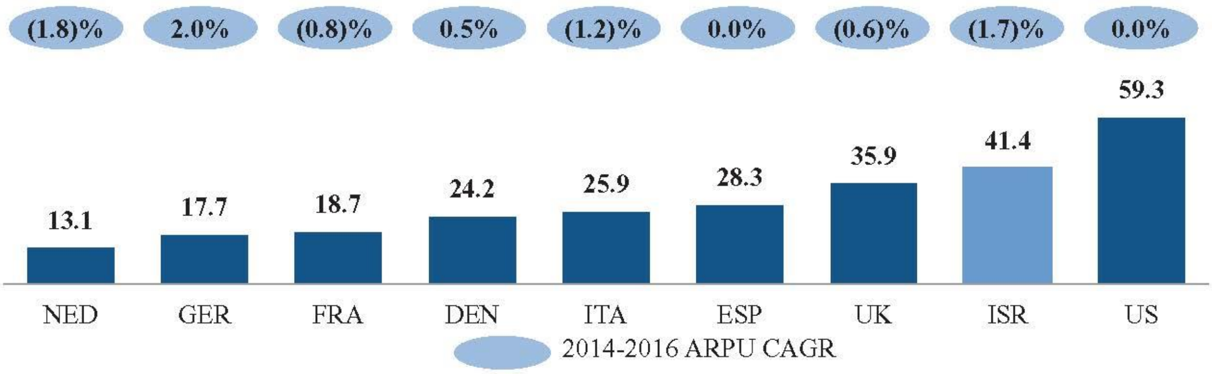
(1) Other include Netvision, Partner/Smile and others, all with relatively small market shares

3.1. Pay Television

Introduction

Israel's primary television platforms are dominated by pay television with relatively limited penetration of free platforms such as terrestrial television or free DTH. As a result of the free-to-air platforms being relatively unattractive (given their access to only six channels offered by DTT) and limited local content for free DTH, Israel's pay television market currently has an estimated penetration level of approximately 68% compared to 46%, 54%, 86% and 88% in France, Germany, Portugal and Finland, respectively, according to Ovum Research (estimated for the year ending December 31, 2014). The Israeli pay television market has been stable by the number of subscribers since 2009 at approximately 1.5 million subscribers. Similar to Western European markets, television consumer behavior in Israel is currently focused on digital, innovative, HDTV and interactive television services such as VoD and "start over".

Israel Pay-TV ARPUs vs. Peer Countries (€ per month) (2014 to 2016 CAGR)



Source: Ovum Research

Most Israeli households subscribe to pay television packages via cable or satellite, mostly digital, provided by HOT and YES, an associate of Bezeq, respectively. Free DTT service started in 2009, but has achieved a limited primary penetration of TV households of approximately 18% based on Ovum Research's current estimates (estimated for the year ending December 31, 2014), although we believe these numbers include numerous Haredi or ultra orthodox Jewish households who do not watch television. The established pay television operators face competition from free television (including DTT) and alternative ways of accessing television channels (such as "over the top" ("OTT") television), the competitive advantage of pay television via cable or DTH (reliability, image quality, diversified international and local language content and the ability to offer advanced interactive services among others) and the loyalty of the existing customer base lead to the pay television industry having relatively stable subscription revenues when compared to other countries where competition from other platforms is more prevalent. As of December 31, 2013, the Israeli pay television market had 1.5 million subscribers, 59% of which accessing through cable (HOT) and 41% through satellite (YES).

The penetration of pay television could increase in the coming years as cheaper packages with fewer channels have been recently introduced by HOT and YES.

Offer	Hot (Cable)	Bezeq (xDSL / DTH)	DTT
Television	✓ 78 basic TV channels/20 HDTV channels/67 Premium TV/13 Interactive channels ✓ Standalone VoD ✓ A la carte/"TV Everywhere" second screen ✓ Startover function ✓ Latest generation set-top-box being introduced in 2014 ("LaBox")	✓ 45 basic TV channels/19 HDTV channels/50 Premium TV ✓ Pay per view x No standalone VoD (without internet) x No Startover function	✓ 6 basic channels x No VoD x No foreign language channels x No premium content
Internet	✓ Up to 200Mbs download speed advertised ✓ Up to 2Mbs upload speeds ✓ Effective speed advertised is typically achieved	✓ Up to 16-100Mbs download speed advertised ✓ Up to 1Mbs upload speeds x Effective speed advertised based on an 'Up to Basis'	x No internet
Telephony	✓ Digital telephony	✓ Digital telephony	x No telephony
Bundling	✓ Triple play ✓ Mobile offered separately	x No triple play packages allowed ✓ Mobile offered separately	x No multiple play

Source: Company information and Bezeq website

Cable

HOT is the sole cable operator in Israel with a network covering nearly all Israeli homes (a unique situation in OECD countries) and generates revenues principally from subscription fees paid by customers for the services provided. HOT co-develops and co-owns a number of popular shows, movies and series. It offers a number of proprietary channels as part of its packages giving them a competitive advantage. Cable's share of the pay television market has remained relatively stable over the last three years at approximately 60% with total pay-TV subscribers also remaining relatively stable.

Satellite

Satellite television is the main alternative to cable television in Israel. Television viewers can receive free to air or paid satellite television, which is offered by YES. Satellite's share of the pay television market has remained relatively stable over the last three years at approximately 40%. The ARPU generated by satellite television customers has historically expanded at a slower pace than cable ARPU, with forecasts showing a stable satellite ARPU, while cable ARPU is expected to expand, according to Ovum Research, based upon on the digitalization and the emergence of a broader offering of channels and additional services. Satellite and Cable ARPUs are expected to grow at 0.1% and 1.3% CAGR respectively from 2014 to 2016, according to Ovum Research estimates.

DTT

Subscribers are also able to receive television services through DTT, an alternative way of watching certain television channels. Current penetration rates of DTT are low due to several reasons: (i) DTT currently offers access to six channels only; (ii) there is no access to premium or thematic content, such as sports, movies or children's programming; (iii) DTT has no interactive functionalities such as VoD or "start over"; (iv) DTT has limited capacity to transfer significant number of channels simultaneously; and (v) the quality of its transmission can be affected by weather. DTT could become more attractive in the future as a total of two multiplexers (MUXes) allowing for 18 channels have recently been approved by the Israeli government and are being rolled out. The Ministry of Communications expects that in 2014 the DTT platform will offer 18 channels, up from six, for free. The expanded service will use three multiplexes up from the current one. However, we believe that cable television will maintain its advantage over DTT as the increase in the number of channels does not fundamentally address some of the key customer requirements such as interactivity and ability to choose individualized content packages, and DTT channels have struggled to be successful without the revenue generated by customer subscription charges.

Other Emerging Technologies

We face a growing but limited competition from other technologies in Israel when compared to the European markets. Our incumbent competitor is currently lobbying to offer IPTV which is currently prohibited by law. Other players, such as websites and online aggregators of content that deliver broadcasts OTT of existing broadband internet networks may become significant competitors in the future. The full extent to which these alternative technologies will compete effectively with our cable television system is not yet known; however we believe that the international IPTV market will have difficulty impacting the Israeli multichannel TV market due to various reasons, including: (i) the availability of certain local language content available through cable or satellite only; (ii) the quality of the signal on certain DSL enabled connections located far from exchanges; (iii) the inability to access HDTV content on most DSL connections during peak times; and (iv) the ability of cable operators to bundle pay television with other fixed-line products.

3.2. Broadband internet

Introduction

Israel is a mid-sized broadband internet market based on penetration compared to the large Western European or North American peer countries, with approximately 2.0 million broadband internet subscriptions (residential and business) as of December 31, 2013, and 2.0 million as of June 30, 2014. The current broadband internet penetration rate in Israel (being the number of broadband internet subscriptions per 100 households in Israel) is 88%, according to Ovum Research estimates (estimated for the year ending December 31, 2014), compared to 85% as of December 31, 2010. This level is above the Western Europe average of 80% and that observed in Italy (54%), Portugal (77%), and Germany (75%), according to Ovum Research (estimated for the year ending December 31, 2014).

Broadband internet in Israel is uniquely structured as households wishing to subscribe to broadband internet are required to purchase an internet access service from a licensed internet Service Provider (“ISP”) and a broadband internet infrastructure access service from HOT or Bezeq, the only telecommunication operators which own a nationwide physical fixed-line infrastructure.

Side by Side Comparison of Cable based Services Offerings in Israel

HOT (Cable)		Bezeq (xDSL / DTH)		DTT	
✓	Up to 200Mb/s download speed advertised	✓	Up to 60-100Mb/s download speed advertised	**x**	No Internet
✓	Up to 2Mb/s upload speeds	✓	Up to 1Mb/s upload speeds		
✓	Effective speed advertised is typically achieved	**x**	Effective speed advertised based on an ‘Up to Basis’		

Broadband Internet Infrastructure Access

Currently HOT and Bezeq are the only fixed-infrastructure owners nationwide. HOT uses cable, while Bezeq’s network is mainly composed of DSL technology, although it is currently also building out a fiber network. Growth in the Israel broadband internet infrastructure access market has been driven by (i) the number of subscribers to broadband internet infrastructure access increasing steadily from 1.8 million in 2010 to 2.0 million as of June 30, 2014, and (ii) a significant growth in broadband internet ARPUs.

Bezeq, through DSL, is the leading broadband internet infrastructure access provider in Israel, with 1.3 million subscriptions as of September 30, 2014, including business and residential customers are excluded. Including business customers, Bezeq represents approximately 64% of the total broadband internet infrastructure access market by total number of subscribers as of June 30, 2014 (Source: Tele Geography), which has remained relatively stable over the last three years.

Based on the company's public filings, Bezeq is currently rolling out a Fiber-to-the-Cabinet ("FTTC") infrastructure and provides advanced network services such as Next Generation Network, an advanced communication network covering over 98% of Israeli households.

On August 29, 2012, Bezeq announced it has decided to broaden the deployment of the optical fibers so that they will arrive as close as possible to the customers through Fiber-to-the-Home (FTTH) or Fiber-to-the-Building (FTTB), to form the basis for the future supply of advanced communication services and with greater bandwidth than currently provided. As of December 31, 2013, Bezeq had already deployed FTTx to 400,000 households and businesses in Israel and it is planning to have covered 1,000,000 homes and businesses with fiber by the end of 2014.

Our ability to offer the highest speeds in Israel on a large scale allows our customers to connect several devices (such as computers, tablets and smartphones (via Wi Fi connection)) simultaneously without impairing the quality of television signals or the speed and quality of the internet connections. We believe that this differentiates us from our nearest competitors.

As of June 30 2014, we had a market share of 36% of the broadband internet infrastructure market, as compared to a 39% share as of June 30, 2013. Our market share has nonetheless remained stable throughout 2014, and is consistent with our focus on higher ARPU triple-play subscribers.

3.3. Fixed-line Telephony

As of December 31, 2013, there were approximately 3.0 million fixed-line telephony lines in Israel. Subscribers to fixed-line telephony services include households and enterprises. The number of lines has been declining slowly since 2010, which is in line with most Western European countries where fixed-line penetration of households has declined on the back of an increase in number of individuals who use mobile phones only. Bezeq, the incumbent fixed-line telephony service provider in Israel, is the largest provider of fixed-line telephony services, with 2.2 million fixed telephony lines or approximately 73% market share as of December 31, 2013. Also, in line with Western European trends, the incumbent Bezeq saw a decline in its market share over the past years. In addition to Bezeq and HOT, who are by far the largest operators, fixed-line telephony can also be purchased from VOBs who cumulatively hold approximately 4% of the market share. HOT had approximately 22% of the fixed-line telephony market share as of December 31, 2013.

Fixed-Line Telephony Subscribers and Market Share Among Top Two Israeli Players Since 2010

Source: TeleGeography

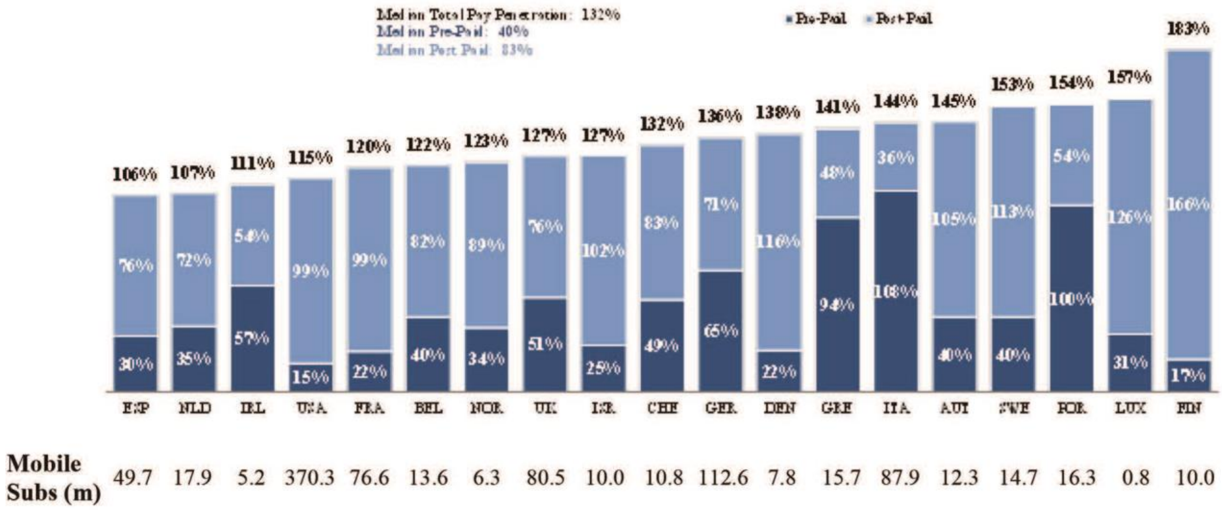
(1) HOT market share illustratively based on HOT and Bezeq total markets shares

The market for residential telephony in Israel faces pressure from alternative carriers, declining mobile termination and interconnection rates, as well as alternative access technologies such as Voice over Internet Protocol (VoIP) (e.g. Skype). In recent years, fixed-line telephony services have been largely a commodity and uptake has become increasingly dependent on a quality broadband internet offering by the same provider. Fixed-line telephony is increasingly included in bundles which benefit HOT as a result of its ability to provide attractive bundles offerings. Fixed-line telephony has experienced some price erosion over the past few years, partly driven by a reduction in termination fees and pressure from to bundle discount, and resulted in the decline in Bezeq and HOT's fixed-line telephony ARPUs.

3.4. Mobile Telephony

There were approximately 9.9 million mobile telephony customers in Israel (excluding MVNOs) as of December 31, 2013, and approximately 10.0 million as of September 30, 2014. Penetration was estimated to be 127% as of September 30, 2014 (Source: Company filings, Ovum Research), broadly in line with countries such as Norway, the UK, Switzerland. Approximately 80% of the customers were "post paid" (purchased subscriptions rather than pre paid cards fixed number of minutes of use), according to Ovum Research as of September 30, 2014. On average Israeli mobile phone users spent approximately €17 per month (excluding VAT) on their mobile telephony services in 2013, according to Ovum Research, a relatively modest figure when compared to most Western European and US markets.

2014 Israeli Cellular Telephony Penetration vs. Western European and US (September 2014)



Source: Ovum Research, ARCEP (France)

There are currently five licensed Mobile Network Operators ("MNOs") which offer mobile telephony services to the public and several players who operate MVNOs, although MVNOs currently have insignificant market share of the mobile telephony market. Market shares of the top three mobile operators, Cellcom, Partner Communications and Pelephone (Bezeq), have been relatively stable over the past years at approximately 30% each. New entrants, HOT Mobile (previously MIRS) and Golan Telecom, were granted UMTS licenses in 2011 with services launched in the second quarter of 2012 through a combination of proprietary networks and national roaming agreements with existing operators. As of September 30, 2014, HOT Mobile had approximately 932,000 mobile subscribers, corresponding to a market share of approximately 10% compared to 4% as of December 31, 2011. As of June 30, 2014, the combined ARPU for mobile telephony subscribers of all mobile operators in Israel declined to €16.5 per month primarily driven by a new mobile termination fee regulation in September 2010 which reduced mobile termination rates from NIS 0.25 to NIS 0.0687 per minute from the beginning of 2011, with further reductions to NIS 0.0634 per minute from January 1, 2012 and to NIS 0.0591 per minute from January 1, 2013. The final reduction, to NIS 0.0555 is set to come into force on or about January 1, 2014.

The Israeli mobile communications market is more competitive than some of the markets in Western Europe, notably given the recent legislation, enacted in April 2012, preventing operators from charging exit fees, except in limited circumstances. As a result, the Israeli mobile market now offers fewer barriers to entry for the new mobile license owners HOT Mobile and Golan Telecom.

Ovum Research estimates that the Israeli mobile telephony market will decline at 4.5% per annum between 2014 and 2016, which is consistent with the markets of other countries such as Germany, France, UK and Italy whose mobile markets are expected to achieve declines at 0.6%, 2.5%, 2.6% and 4.0%, respectively.

The Israeli market features lower ARPUs than in most of the other developed markets, which makes mobile telecom services more attractive to consumers.

Mobile Broadband Internet

As of December 31, 2013, there were 5.8 million active 3G mobile subscribers in the Israeli market, according to Ovum Research. Mobile operators' network capability can be further enhanced by Long Term Evolution ("LTE") network roll out, although the Ministry of Communications has not yet tendered for the frequencies necessary for LTE based services, which would enable higher speeds for mobile broadband internet. Mobile broadband internet operators however currently only offer speeds and capacities that are significantly lower than those offered by cable and DSL operators. As a result, we believe that, in the medium term, HFC cable will be the only broadband internet infrastructure access alternative to DSL with an extensive coverage and high bandwidth for the foreseeable future.

4. Dominican Republic

Industry Overview

The Dominican Republic is the third largest economy in the Caribbean and Central America after Cuba and Puerto Rico, with a GDP of $61.3 billion according to the IMF, and the third largest country in terms of population after Haiti and Cuba, with a population of 10.4 million according to the IMF. According to the IMF and La Oficina Nacional de Estadistica, 32% of the population was living in the Dominican Republic's two main cities, Santo Domingo and Santiago, in 2010. According to the IMF, between 2009 and 2013, the GDP of the Dominican Republic grew at an average rate of 10.3%. The economy is predominantly based on services, in particular tourism. Its GDP per capita, however, is lower than other countries in the region, including Trinidad & Tobago, Panama and Costa Rica, and GDP is expected to grow at 8.3% per annum between 2014 and 2017 according to the IMF. In addition, the Dominican Republic enjoys a strong commercial relationship with the United States, its largest export and import partner. The number of Dominicans residing in the United States has increased by 0.27 million between 2000 and 2012, while remittances into the Dominican Republic from the United States have doubled. These factors are expected to continue help drive personal consumption and usage of telecommunications products and services.

The Dominican Republic telecommunications markets is dominated by Claro, the incumbent owned by the Mexican telecom operator America Movil, and its main challengers, Tricom and Orange, in the fixed and mobile markets, respectively. All three operators own and operate multiple fixed and mobile technologies running in parallel to ensure maximum coverage and reliability to their customers. Other players in the Dominican Republic telecommunications market are relatively small, with less advanced networks and more limited coverage. These include Wind Telecom, a wireless operator, Viva, a mobile operator and Aster, a cable operator.

Mobile Telephony

The mobile market is the largest telecom market in the Dominican Republic. Compared to other Western European markets, the Dominican Republic is characterised by a young population with lower purchasing power. According to Ovum Research, the mobile penetration rate in the Dominican Republic is approximately 111% (as estimated for the year ending December 31, 2014), lower than mobile penetration rates in Brazil, Argentina or Chile. Claro enjoys a 51% market share as of June 30, 2014, followed by Orange (34%), Tricom (8%) and Viva (7%), who re-launched its mobile operations earlier this year. Due to lack of space in the spectrum currently assigned to Altice Hispaniola and Claro, 4G deployment has been slower than initially expected as the two leading mobile operators are currently unable to offer nationwide 4G mobile offers.

The regulator INDOTEL regulates the sector based on what management perceives as an ex-post approach focused on achieving consensus among the various stakeholders. Telecom concession attributions are decided by the regulator based on certain administrative criteria and the renewal of these concessions generate no meaningful incremental fees. Frequency licenses attribution and renewal processes typically occur concomitantly with the telecom concession processes. New frequencies are tendered with several parties typically bidding and the new license attributed to the highest bidder while renewal of frequency licenses gives rise to no incremental fees for telecom operators. Mobile termination rates are determined by bilateral discussions between operators and have decreased by 3.5% annually since 2010. The regulator does not typically impose MTR reductions and favors such bilateral agreements between operators. The law provides for the possibility of MVNOs. From a telecom infrastructure standpoint, the regulator favors passive and active sharing with bilateral negotiation being the preferred route.

In the fourth quarter of 2011, INDOTEL launched an auction for the spectrum in the 900 and 1,700 MHz bands, however that process was put on hold in the first quarter of 2012, following ownership claims of certain frequencies by local TV channels (Arcoiris TV, Colorvision, Supercanal and Satel). The 2011 auction was a sealed bid process in which there was only one round. The auction was to be awarded to the bidder that offered the highest price, together with the best technical offer. In case of equal offers for the same block, a new round of bids was to be launched within two hours. The winning bidder's obligations included providing minimum population coverage of 50% within 18 months and 88% within 36 months in addition to social free lines for five years. Also, the winning bidder was to be obligated to pay the technical migration of existing frequency users in the granted blocks. Further, the winning bidder was to pay 10% of the offer as a three year guarantee. In 2014, Orange won the 900 MHz auction and Claro the 1,700 Mhz / 2,100 Mhz auction, though the award is under investigation for alleged irregularities in the process.

Pay Television, Broadband and Fixed-Line Telephony

According to SNL Kagan, the Dominican Republic has an estimated 31.3% pay television penetration rate for 2014, and an estimated 24.6% broadband penetration rate for 2014 according to Ovum Research. These penetration rates are typically lower than those measured in a number of Latin American countries and evidence significant potential for growth in the Dominican Republic, with penetration rates expected to increase to 33.9% by 2020, according to SNL Kagan. Mobile will play an increasingly important role, with only a third of broadband uptake expected to be attributable to fixed broadband, according to Analysys Mason. In addition, fixed-line telephony is expected to continue to decline going forward, in particular due to ongoing substitution of fixed-line by mobile services, in line with trends seen in other developed economies.

The pay television market in the Dominican Republic is highly fragmented with over 6 pay television operators, although only a limited number operate a two way network, and a handful of other players have a subscriber base exceeding 10,000. Claro and Tricom together represent over 90% market share (66% and 25% market share respectively), as of September 30, 2014, delivering services over IPTV and DTH and cable respectively. Other smaller players include Wind through its MMDS technology (9%), as of the same period.

Broadband internet access is typically delivered by a mix of fixed-line infrastructure and mobile access, with the use of mobile broadband being primarily driven by the availability of fixed-line infrastructure in a given location. In fact, approximately 41% of households have access to copper-based line telephony in the Dominican Republic, primarily in the large agglomerations, which means that wireless solutions are effectively the only way for the rural population to get access to broadband.

The broadband and fixed telephony markets are relatively concentrated, with Claro and Tricom together accounting for approximately 91% market share (67% and 24% respectively in the broadband market excluding mobile, and 65% and 22% respectively in the fixed telephony market) according to TeleGeography, as of December 31, 2013. Claro delivers broadband services through its xDSL and FTTx networks, while Tricom uses its xDSL and cable infrastructure. Both Claro and Tricom offer fixed-line telephony services using VoiP and PSTN. Other smaller players have a limited presence, with Wind Telecom taking an 8.3% market share in the broadband market through its wireless technology.

5. Other Territories

Belgium

We believe that Belgium is one of Europe's most attractive cable markets due to, among other things, a relatively high population density and cable penetration rate. The population density of Belgium reached 370 inhabitants per square kilometer in 2013, one of the highest in Europe, according to World Bank data, and is surpassed only by the Netherlands and some microstates such as Malta.

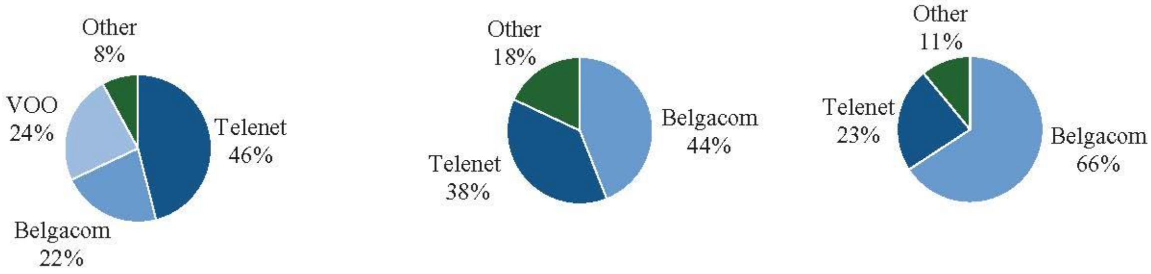
According to Ovum Research estimates, Belgium has an estimated 98% penetration rate in pay television (for 2014), significantly above the average Western European penetration rate of 68%. According to Ovum Research estimates, cable is expected to capture 72% of the pay television market, followed by IPTV (24% of the pay television market) and satellite (4% of the pay television market). Competition in the pay television market is currently limited due to a lack of overlap among cable operators. Telenet operates predominantly in Flanders, VOO in the French speaking part of Belgium and Numericable Group in Brussels (with Telenet and VOO also present in the capital). Belgacom, through its DSL-based network, is the only operator that offers national coverage, although we believe its IPTV technology currently provides an inferior product to cable players who have already upgraded their networks to EuroDocsis 3.0 throughout Belgium. Currently, Telenet, Belgacom and VOO have pay-TV market shares of 46%, 22% and 24% respectively according to Ovum Research (as of December 31, 2013), while Numericable Group has a 2% market share nationally (and a 62% market share within its footprint), according to management estimates. The importance of cable operators in pay television may be affected going forward by changes to the regulatory regime allowing third-party access to cable networks, with wholesale offers required to be in place by autumn 2013, although such wholesale access would provide cable operators with stable, albeit somewhat lower, wholesale revenues.

Broadband internet access in Belgium is well established, with penetration rates of approximately 87% compared to 80% in Western Europe, according to Ovum Research (estimated for the year ending December 31, 2014). Cable is the leading broadband internet access platform in Belgium, with approximately 51% of the total broadband internet market, with DSL (predominantly offered by Belgacom) taking up 48%, according to Ovum Research estimates. FTTH is yet to be widely deployed in Belgium, as this technology is intensive as to both capital and time, requiring significant digging and re-wiring. The largest operators are Belgacom (44%), Telenet (38%), according to Ovum Research and Numericable Group 1% nationally and 36% within its footprint, according to management estimates.

The Belgian mobile telephony market is valued at approximately € 2.9 billion as of December 31, 2013, according to Ovum Research. The Belgian mobile telephony market is advanced with an estimated active penetration rate of 122% according to Ovum Research. According to the BIPT, Belgacom had an estimated national market share of 41% in terms of active mobile subscribers followed by Mobistar (27%) and BASE (25%), as of December 31, 2013. In recent years, however, the number of MVNOs in the Belgian market has increased steadily, reaching approximately 2.1 million subscribers as of December 31, 2013, according to data gathered by the BIPT.

Triple play products are offered by all of the main cable operators (Telenet, VOO and Numericable Group), as well as the incumbent, Belgacom. Quadruple play products are also becoming increasingly popular, with already successful MVNO strategies deployed by cable operators such as Telenet and Numericable Group.

2013 Market Shares by Subscribers



Source: Ovum Research, TeleGeography

Luxembourg

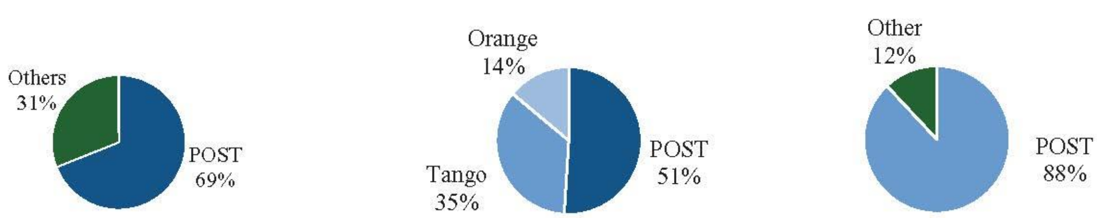
Luxembourg has a modest pay television penetration, which is slightly lower than the average Western European pay television penetration.

DSL is the leading broadband internet access platform in Luxembourg. POST, the incumbent, is the largest player, capturing 69% market share as at December 31, 2013 (Source: TeleGeography). The other providers are Belgacom, Eltrona and Numericable Group. There is increasing pressure from consumers for greater speed and lower prices, in particular as Luxembourg is the only country in the EU where the regulator does not set wholesale prices for DSL access, enabling POST to dictate the terms. Furthermore, the government announced plans in 2010 for FTTH to be implemented nationally and to provide at least 100 Mbs connectivity by 2015. In practice, POST is the only operator able to undertake these investments, leading the regulator to put in place measures guaranteeing access to fiber infrastructure for alternative operators. Despite these developments, FTTH deployment remains very limited in Luxembourg.

Due to POST's significant market power in the fixed-line market in Luxembourg, it is prohibited from bundling its television offering with its broadband internet and fixed-line telephony services. Only Eltrona and Numericable Group, together with some smaller operators, are able to offer triple-play bundles.

Similar to Belgium, Luxembourg enjoys a high and stable GDP (GDP CAGR of 2.0% from 2014 to 2017 according to IMF, as well as positive demographics (population CAGR of 2.0% from 2014 to 2017, according to IMF and a significant number of expatriates and foreign communities. Together with Luxembourg's topology and high population density, this makes it an attractive market in which to operate.

2013 Market Shares by Subscribers



Source: TeleGeography, Ovum Research

French Overseas Territories

The French Overseas Territories markets are characterized by a young population (approximately 35% of the population is under the age of 20 in the French Overseas Territories, in comparison to 24% in mainland France, according to the United Nations database as of June 2013), price sensitivity and a strong demand for access technologies. Furthermore, infrastructure improvements are supported by subsidies from mainland. Importantly, mobile telephony licenses have so far been granted for free to the various operators and the upcoming grants of 4G licenses are expected to be no different.

Mobile telephony, the most important market in the French Overseas Territories telecom sector, is relatively mature with a current penetration rate of approximately 126%, according to management estimates. However, the young population and high price sensitivity results in lower mobile ARPUs and higher churn than for operators in continental Europe. The main players in the mobile telephony market include Orange, OMT, Digicel (only in Caribbean area) and SRR (only in Indian Ocean area).

Broadband internet access in the French Overseas Territories remains underpenetrated (55% according to The French Telecom Authority). DSL is by far the dominant technology, with limited announced plans for technology upgrades. The main players are Orange and OMT (and SRR to some extent in the Indian Ocean area), although there are a significant number of local DSL players, most of which offer unbundled local loop DSL services while renting Orange last mile on a wholesale basis. Presence of cable is so far limited but is growing rapidly in Martinique and Guadeloupe where Le Cable, the only cable operator with a network covering approximately half of the households, is rapidly upgrading its network to Docsis 3.0.

Demand for pay television is strong in the French Overseas Territories, with penetration rates at approximately 67%, according to ARCEP. The market is dominated by satellite TV, with Canal Plus and Parabole Réunion among the strongest players, and cable, with Le Cable. We believe growing demand for bandwidth and triple play packages is likely to increase demand for alternative access technologies with the ability to provide interactive services such as video on demand.

As in mainland France and Western Europe, multiple play and convergence have increasingly become important. However, triple play penetration lags behind that of more developed economies. Currently, we are the only operator that can currently offer quadruple play bundles and we expect this to become a way for us to differentiate our offering in Martinique and Guadeloupe, where other players are either only mobile or DSL operators (Digicel, MediaServ), while large players are considered dominant and are not allowed by local regulation to bundle products (Orange, SRR).

DESCRIPTION OF OUR BUSINESS

In this section, unless the context requires, the term "Numericable Group" refers to Numericable-SFR S.A. and its subsidiaries (but without giving effect to the 2014 SFR Acquisition). In the rest of this section from and including "—History" to and including "—Legal Proceedings", the terms "Group", "we", "us" and "our" refers to the Issuer and its subsidiaries (excluding SFR and PT Portugal). For an overview of our business, our competitive strengths and our strategy, see "General Description of our Business and the Offering—Altice Group—Overview", "—Our Competitive Strengths" and "—Our Strategy".

History

Since our inception, we have made significant investments in a number of cable and telecommunications businesses in Israel, Western Europe, the French Overseas Territories and the Dominican Republic. Set forth below is a list of the significant investments we have made in the businesses that currently constitute the Group:

- In March 2005, Ypso France ("Ypso"), an entity controlled by our Group together with Cinven, acquired the cable businesses of France Telecom Cable, TDF Cable and NC Numericable, making Ypso the largest French cable operator. In 2007, all cable activities of Ypso were brought together under a single brand name, Numericable. In September 2007, together with Cinven, we acquired all of the outstanding shares of Completel, which added DSL and fiber metropolitan area networks, a corporate sector business and a nationwide backbone. In March 2008, the investment fund Carlyle acquired a 38% stake in Ypso and Completel. By the end of 2008, we had fully integrated the historical Numericable business and the historical Completel business. In November 2013, Numericable, the holding company of the Numericable Group and Completel, completed its initial public offering of shares and listing of such shares on Euronext Paris. Further to the 2014 Numericable Group Transactions, Altice France S.A. has the majority of votes in the board of directors and holds 60.3% of the share capital of Numericable. On November 27, 2014, Numericable completed its acquisition of SFR. For a description of the business of SFR, see "*Description of SFR's Business*".

- In 2008, we acquired Le Cable Martinique and Le Cable Guadeloupe, well-established cable providers that have been operating in the French Overseas Territories of Martinique and Guadeloupe, respectively, since 1994.

- In May 2010, we acquired MIRS Communications Ltd. ("MIRS"), an Israeli company providing iDEN-based mobile services. In July 2009, we began acquiring equity interests in HOT and its subsidiaries, the sole cable operator in Israel, and in March 2011 acquired a controlling interest. In November 2011, HOT acquired MIRS from us and renamed the company as HOT Mobile Ltd. In May 2012, we began marketing our UMTS-based 3G mobile services in Israel under our "HOT" brand. In December 2012, we completed the take-private transaction of HOT whereby we acquired substantially all of the equity interests in HOT that we did not previously own.

- In December 2009, we acquired substantially all of the equity interests in Green, a Swiss provider of B2B solutions. In 2010, we acquired substantially all of the equity interests in Green Datacenter and launched a greenfield project to build out a 11,000 square meter datacenter in the Zurich region. We began providing datacenter services in 2011. We have completed the construction of 3,600 square meters and a new build-out phase is currently in progress.

- In 2011, we acquired approximately 44.4% of the equity interests in Coditel Belgium and Coditel Luxembourg from an affiliated entity, and in November 2013 we acquired an additional 40% stake from one of the minority shareholders.

- In February 2012, we acquired a controlling interest in the Portuguese cable provider Cabovisão and, in February 2013, we completed the acquisition of substantially all of the equity interests in Cabovisão that we did not already own.

- In 2012, we purchased a 17% stake in Wananchi, a cable telecommunications provider with operations in Kenya, Tanzania and Uganda. On October 2, 2014, we invested an additional $10.8 million into Wananchi through Altice Africa as part of a subordinated notes issuance by Wananchi. Altice Africa has pledged to fund up to $40 million in three tranches, with the next tranche of $20 million due within six months from the date of the payment of the first tranche (April 2, 2015). The Group obtained a new board seat as part of the funding, and the Notes are convertible. If fully converted, the new tranche, when fully funded, will give Altice Africa an approximate 21% shareholding in Wananchi.

- In July 2013, we expanded our presence in the French Overseas Territories by acquiring Outremer, a leading mobile services provider and xDSL provider of telecommunications services.

- In August 2013, we entered the Portuguese B2B market through the acquisition of the ONI Group.

- In October 2013, we acquired Ma Chaîne Sport and SportV (both producers of sports-related content).

- On November 1, 2013, the Numericable Group (through our subsidiary Altice B2B France SAS), acquired 100% of the share capital of LTI Télécom SA ("LTI Télécom") and its parent and holding company Invescom SAS.

- On January 15, 2014, we completed (through our subsidiary Altice Blue Two), the acquisition of the Mobius Group, a telecommunications operator in the Overseas Territory of La Reunion which provides internet access to professional clients under the "Mobius Technology" brand and double-play and triple-play services based on xDSL technology to residential customers under the "IZI" brand.

- On March 12, 2014, we completed (through our subsidiary Altice Caribbean), the acquisition of Tricom, a provider of telecommunications services operating in the Dominican Republic.

- On April 9, 2014, we acquired substantially all of the outstanding capital of ODO, a provider of telecommunications services operating in the Dominican Republic.

- On October 28, 2014, Numericable and Vivendi entered into (i) a share purchase agreement pursuant to which Numericable agreed to acquire from Vivendi (a) a portion of the shares it held in SFR, (b) all of the outstanding shares in SIG 50, and (c) the shareholder loans of Vivendi to SFR and SIG 50, and (ii) a contribution agreement pursuant to which Vivendi agreed to contribute the rest of the shares it held in SFR to Numericable in exchange for shares representing 20% of Numericable's share capital. The 2014 SFR Acquisition was completed on November 27, 2014. The total cash consideration for the 2014 SFR Acquisition is €13,366 million ((x) €8,540 million for the shares and (y) €4,826 million for the shareholder loans). Further, Vivendi is entitled to an earn-out of €750 million, payable in cash if the operational cash flow of the Altice Group resulting from the 2014 SFR Acquisition reaches certain predefined targets. As a result of the 2014 SFR Acquisition, the capital of Numericble, the parent company of the Altice France Group, is owned as follows: (i) Vivendi: 20%, (ii) Altice France S.A.: approximately 60.3% and (iii) free float: approximately 19.7%.

- On October 28, 2014, Altice France S.A. acquired the shares of Fiberman held by Carlyle and Cinven. Fiberman is a Luxembourg company that held the investments of certain of the Numericable Group's executives and employees in the Numericable Group alongside Altice France S.A., Carlyle and Cinven. Further, on November 10, 2014, the executives and employees of the Group either sold the shares they held in Fiberman to Altice France S.A. or exchanged it for shares of the Numericable Group held by Altice France S.A. As a result of the above, Altice France S.A. now holds 100% of the capital of Fiberman.

- On December 4, 2014, Numericable acquired 100% of the shares of Omer Telecom (the holding company of the telecom operator providing services under the Virgin Mobile brand in France) from its shareholders on the basis of an enterprise value of €325 million, following regulatory antitrust approval in France obtained on November 27, 2014.

Products and Services

We offer a variety of services over our fixed-line and mobile infrastructure, including, but not limited to, pay-TV, broadband internet access, fixed-line telephony and mobile telephony to residential customers, and, to a lesser extent and depending on the geography, B2B telecom services to corporate customers. We provide our residential cable-based services primarily as part of double-play or triple-play packages and, in France, the French Overseas Territories, the Dominican Republic, and Belgium, quadruple-play packages which include mobile services in addition to our cable-based services. Available cable-based service offerings depend on the bandwidth capacity of our cable networks, which consist primarily of hybrid fiber-coaxial ("HFC") cable infrastructure.

Our television service offerings include basic and premium programming, and, in most markets, incremental product and service offerings such as enhanced pay-per-view programming, including video-on-demand ("VoD") and near-video-on-demand ("NVoD"), digital video recorders ("DVR"), high definition ("HD") television ("HDTV") services and, in some cases, exclusive content. We tailor both our basic channel line-up and our additional channel offerings to each country of operation according to culture, demographics, programming preferences and local regulation.

We offer broadband internet access services and fixed-line telephony in all of our broadband internet communications markets. We also own and operate mobile infrastructure in Israel, the Dominican Republic and the French Overseas Territories, and offer mobile services through MVNO arrangements in France and Belgium.

We offer some B2B telecom services in all our geographies. However, we service large corporate customers with a focused B2B offering only in France, Portugal, Switzerland, Belgium, the Dominican Republic and the French Overseas

Territories. In Israel, our B2B services primarily consist of enhanced versions of our residential products which are adapted to the needs of small- and medium-sized businesses.

Furthermore, in France, we also sell wholesale cable-based and xDSL-based services to other telecommunications operators who resell such services under their own brands.

In 2014 we expanded our operations to the Dominican Republic through the acquisition of telecommunications providers ODO and Tricom. We intend to run our Dominican Republic operations under a single operating entity through the merger of ODO and Tricom. However, as of this date, we have not yet received the regulatory approval required for the merger. As such, ODO and Tricom continue to operate as distinct legal and commercial entities and this is reflected in the presentation of key operating measures and discussions of our businesses below.

Cable-based Services

Multiple-Play

We offer our customers bundled triple-play services comprising pay television, broadband internet access and fixed-line telephony services at what we believe are attractive prices. We also offer various double-play packages comprising a combination of two of these services. Furthermore, we continue to introduce quadruple-play services, which include a combination of cable-based triple-play and mobile packages, in a growing number of geographies, which currently consists of France, Belgium, the Dominican Republic and the French Overseas Territories.

We believe the demand for our multiple play packages is primarily driven by the inherent quality of the various products included in them, which we believe are among the best available in the markets in which we operate. Although we believe our products offer the best value for money when purchased as part of triple-play packages, we typically also offer most of these services on a standalone basis in most of our geographies.

Our digital television offering includes theme and premium content packages, HDTV channels, channels with start-over functionality, radio channels, VoD services and premium digital services such as DVR. Our cable networks enable us to offer interactive digital services to most of our customers. Our digital television offering includes content and channels purchased from a variety of local and foreign producers. We continue to focus on broadcasting high-quality content over all of our cable networks and seek to ensure we cater to local demand for content. In Israel, we co-develop leading original local content together with local producers and broadcast it on our proprietary suite of channels which, along with our distinctive brand, enables us to attract new subscribers to our cable-based services.

We offer broadband internet access services across our cable footprint and a majority of homes passed by our cable networks benefit from download speeds of at least 100 Mbps. Our networks benefit from substantial spectrum availability and, on a blended basis, the majority of the homes we pass are Docsis 3.0-enabled, including 100% in Israel and approximately 60% in France. In the short-to medium term, we expect that the portions of our networks that are Docsis 3.0-enabled can offer download speeds of up to 360 Mbps with limited network and customer premises equipment upgrades given the existing technological capability of our networks. This technological capability can be realized with relatively low levels of capital expenditure and will enable us to better meet the needs of our residential and corporate customers who demand higher download speeds. In France, the FTTB/Docsis 3.0-enabled portion of our network passes approximately 5.2 million homes as of December 31, 2013, and 5.8 million homes as of September 30, 2014, which we believe is higher than the number of homes passed by the FTTH roll out of any of our competitors, and enables us to offer download speed of up to 200 Mbps with the potential capacity to support download speeds of up to 400 Mbps with limited capital expenditure. Even the portion of our network that has not been upgraded and is only Docsis 2.0-enabled (3.3 million and 2.7 million homes in France as of December 31, 2013, and September 30, 2014, respectively) provides customers with a download speed of up to 30 Mbps, which is faster than the highest speed of our competitors' DSL networks. We intend to continue upgrading our cable network in the coming years. As opposed to some of our competitors, we do not generally restrict maximum volume of data or the speed at which our customers can access the internet. We also offer broadband internet access services based on xDSL technology in areas of the French Overseas Territories which are not passed by our HFC networks.

Our fixed-line telephony services are based on either PacketCable or VoIP technologies. We offer a wide range of telephony packages, and our triple-play offers tend to include flat-rate telephony packages with a significant number of minutes of use included in the price. We provide national and international connectivity to our customers either through our own interconnection capabilities or through our partners. We tend to phase out standalone telephony packages as our strategy is to offer fixed-line telephony as an add-on product in our triple-play packages rather than as a standalone product.

Our customers can achieve significant savings by purchasing pay television, broadband internet and fixed-line telephony as part of our bundles as opposed to separately from us or from our competitors. For example, our Israeli customers currently save approximately NIS 100 per month by subscribing to one of our top-tier triple-play packages, Triple iTop, currently priced at NIS 352, instead of separately purchasing the same products the price of which would amount to approximately NIS 452 in the aggregate.

While a focus on multiple-play offerings constitutes an integral part of our customer acquisition strategy, we also continue to offer stand-alone pay television, broadband internet access and fixed-line telephony services to our customers.

Pay Television

Western Europe

France. As of December 31, 2013, we delivered digital pay-TV services to approximately 1.14 million residential subscribers in France, including approximately 1.04 million multiple-play subscribers and 193,000 stand alone television subscribers. As of September 30, 2014, these figures stood at an estimated 1.13 million, 1.08 million, and 171,000 million, respectively.

We believe that we offer residential subscribers one of the best digital pay television packages currently available in France, with the highest number of HD channels and the most attractive package of premium channels, with the same content as that available in CanalSat offers. Customers of our DSL competitors must commit to two separate subscriptions (ISP and CanalSat) in order to access the same premium content that we are able to offer direct access to without the need for an additional subscription. Our television services include between 200 and 400 digital television channels (including between 10 and 54 HDTV channels) depending on the package selected, more than 40 digital radio channels, interactive television services such as VoD, catch up television and innovative features such as 3D TV. VoD enables viewers to watch programs of their choice instantly, without the need for buffering, and to pause, fast forward and rewind the content at will. Our VoD catalogue, which comprises over 30,000 shows and movies, is one of the largest available in France. We offer a VoD pass to our subscribers beginning at €4 per month. Films are generally available on VoD four months after their release in theatres (as compared to six months on premium pay television (e.g. Canal+)). Our revenue from VoD in France has increased from €9 million in 2011 to €12 million in 2012. We also make 40 selected channels accessible live from multiple devices (including smartphones and tablets) for a small monthly fee to low end pay television subscribers and at no extra charge to our high end pay television subscribers. We believe that our mid-tier and high-end packages, including Power+Family which is currently priced at €55 per month, represent a better value proposition than the comparable packages offered by our competitors.

Our television offerings include a variety of public and private channels from broadcasters around the world, as well as special interest channels covering all customer segments, including information, sports, music and home shopping channels. We believe that our high end quadruple play package (the “Platinum” package) which includes 320 channels (including 54 HDTV channels) is one of the most comprehensive television channel packages currently available in France. Our customers may also purchase up to six additional themed and bundled packages including digital channels and bundled channels, such as Pass Cinema and Pass Sport. Customers may also add on additional channels, such as the Orange Cinema Series packages, BeIn Sport and Canal+. The Platinum package also includes broadband internet access, fixed line telephony and mobile telephony services.

In France, we license our television programming content from third party content providers, entering into agreements directly with authors’ groups in France, including SACEM (*Société des auteurs, compositeurs et editeurs de musique*, or the French Society of Music Authors, Composers and Editors), broadcasters and distributors. In general, we pay license fees based on subscriber numbers to these content providers and the agreements with certain providers require us to pay minimum guaranteed amounts. We also pay royalties based on our subscribers’ usage of on demand content, such as VoD. In addition to third party content, we also produce some of the content we offer in France through Ma Chaîne Sport and SportV, our sports themed pay television content provider subsidiaries.

We provided our analog television package, which includes 30 analog channels, to approximately 81,000 households as of December 31, 2013, and 68,000 as of September 30, 2014 (located mainly in small and mid sized cities in eastern France), which are connected to our network but are not digital television enabled. We also continue to provide analog television services to legacy customers on the remainder of our network in France who have chosen not to upgrade to one of our digital packages. We expect our analog customer base in France to continue to decrease in the coming years and ultimately to phase out this service.

Portugal. In Portugal, we offer subscribers analog and both basic and premium digital television services under our “Cabovisão” brand. Our analog television service includes access to over 33 television channels. Subscribers to our basic digital television service have access to 95 digital television channels (including all of the analog television channels) and access to certain premium content and interactive services, such as VoD and catch-up TV. Our premium television service provides customers with access to 142 digital television channels, together with certain optional interactive features such as VoD, access to additional HD channels and HD premium content and certain other premium services. We provided cable television services to approximately 224,000 RGUs in Portugal as of December 31, 2013, and an estimated 214,000 RGUs as of September 30, 2014.

Belgium and Luxembourg. We offer subscribers analog and both basic and premium digital television services in the Brussels region of Belgium and Luxembourg under the "Numericable" brand. We believe we are the leading provider of pay television services within our footprint in Belgium. Subscribers to our basic digital television service can choose from a range of approximately 130 digital television channels in Brussels and approximately 110 channels in Luxembourg and are also able to access certain premium content and interactive services, such as VoD, HDTV and catch-up TV. Our premium television service provides customers with approximately 110-175 digital channels in Belgium and approximately 110-130 digital channels in Luxembourg, together with certain optional interactive features such as VoD, access to additional HD channels and HD premium content and certain other premium services, including exclusive rights to football matches from the Belgian league. To cater to culturally and linguistically diverse customers in the region, we include in our pay television packages various foreign language channels, including English, Arabic, Spanish, Italian and Turkish-speaking channels in Belgium, and English, Italian and Portuguese-speaking channels in Luxembourg. We provided cable television services to 129,000 RGUs in Belgium and Luxembourg as of December 31, 2013, and approximately 120,000 RGUs as of September 30, 2014.

Israel

We are the largest provider of pay-TV services in Israel based on number of subscribers. We offer primarily digital television services in Israel under the HOT brand. While we continue to offer analog television services to a decreasing number of customers (11,643, and 4,751, as of December 31, 2013, and September 30, 2014, respectively), we are in the process of phasing out this service which will free up bandwidth over our network enabling us to expand our digital services. We have developed targeted promotional offers to migrate our existing analog customers to digital television.

Our standard digital television package consists of 81 base television channels, two extra content packages, each of which adds five to 16 channels to the subscription depending on the content packages chosen by the customer, and 33 radio channels. Subscribers to our standard digital package can also purchase extra content packages giving them access to additional channels. We believe our standard offering includes more channels than the number of channels offered by our competitor in its standard pay television offering. Our standard television package contains a range of Israeli and international sports, current affairs, entertainment, music, film, documentaries, children, and adult channels as well as channels in Arabic and in Russian to address demand from the culturally diverse population of Israel. We include in our standard package the HOT suite of channels and others such as Eurosport, Fox News, MSNBC, BBC Entertainment, MTV and Zee TV as well as all the "must carry" channels that we are required to carry on our network under existing regulation. We regularly update our standard digital television package to reflect changes in viewer interest. Our higher-end packages include all six of our extra content packages as standard and include 32 to 43 premium channels, depending on the subscription. We also offer up to 21 television channels in HD that have enhanced picture and sound quality compared to regular television channels. Under Israeli regulation, we are required to include in our portfolio of pay television offerings a low-priced basic package. This package currently provides subscribers with access to approximately 25 basic channels.

In addition to a high quality and diversified linear television offering, we offer our customers a variety of advanced services featuring interactivity, which are available even to customers not purchasing our broadband internet services. We also provide our digital customers with a start-over service for over 25 television channels, which is included in all of our digital television packages, enabling the viewer who misses the start of a program to go back to the beginning of the program while the broadcast is in progress. Our digital television offering also includes VoD. Our VoD library is extensive containing over 27,000 titles as of December 31, 2013, and 31,000 titles as of September 30, 2014. In addition, we offer access to additional content libraries not included in our standard VoD service on a pay-per-view or monthly subscription basis. Our VoD penetration rate was 57% of our pay television RGUs as of September 30, 2014, which we believe is the highest in Israel. We also offer digital customers our Personal Video Recorder ("PVR") service, HOT Magic, for a monthly subscription fee by means of a set-top box that, in addition to receiving the regular digital broadcasts, enables digitally recording television programs to a hard disk in real-time. In 2011, we commenced offering digital customers the HOT Magic HD set-top box, which combines VoD functionality, HD technology and recording capabilities in a single set-top box. We rolled out LaBox, an advanced set-top box, in Israel under the commercial name of "FiberBox" at the beginning of March 2014.

As the result of an order issued by the Israeli Minister of Communications, since February 23, 2014, we and local satellite company, "Yes", have been required to offer a fixed-price, narrow-base package at a price not to exceed NIS 120 (approximately €25) per month. Our current offering pursuant to this order provides subscribers access to more than 20 basic channels.

We bolster our Israeli pay television service offering by significant investment in procurement and, uniquely to our Israeli business, co-development of content which we undertake in partnership with local production partners. We package such original and purchased content into a range of television channels that we own and broadcast under the HOT brand to our television customers. The HOT suite of channels includes HOT 3, where we broadcast our co-developed local content, HOT Family, seven movie channels, the Israeli Entertainment Channel, sports channels and more than 10 children's channels, which we believe are highly popular in Israel and run shows with top television ratings such as Haborer, Asfur 2, Split 2 Wedding Season, TLV, Redband and Mehubarot 2. We also purchase rights to broadcast popular foreign channels over our network. Our total spend on television programming content during 2013 was NIS 598 million, and NIS 409 for the year ended December 31, 2013, and the nine months ended September 30, 2014 (€126.4 million, and €86.4 million equivalent, respectively, calculated based on the average exchange rate for September 30, 2014, of €0.2113 = NIS 1.00). We believe the quality of content we provide over our network generally and the HOT television channels in particular, has been a critical factor in attracting new customers, maintaining our existing customers and minimizing churn. Under existing regulations, we are subject to certain ownership restrictions that limit the number of television channels we are permitted to own. In addition, we are required by regulation to invest a minimum of 8% of our annual pay television revenues from subscriber fees in the production of original local content. We have been in compliance with these regulatory requirements in all material respects. For further details, see "*Regulatory—Television—Minimum Investment in Local Content Productions*".

We had 875,000 pay television RGUs in Israel as of December 31, 2013, and approximately 862,000 as of September 30, 2014, representing approximately 77% and 79% of our Cable Customer Relationships in Israel, respectively.

French Overseas Territories

We currently offer analog and both basic and premium digital television services via our cable networks in Guadeloupe and Martinique under the "Numericable" brand. We provided cable television services to approximately 40,000 RGUs in Guadeloupe and Martinique as of December 31, 2013, and approximately 44,000 RGUs as of September 30, 2014. Our pay television offering includes up to 200 channels and radio stations including 40 HDTV channels. Our basic cable-based pay television package, Prima, priced at €49 per month, provides our subscribers with 106 channels and radio stations, including nine HD channels. Our premium cable-based pay television package, Premium+, offered for €69 per month, provides our subscribers with 201 channels and radio stations, including 35 HD channels.

We also offer, primarily outside of our cable footprint, our broadband internet subscribers IPTV services via an unbundled xDSL network across the French Overseas Territories. Our xDSL-based pay television offering is offered as part of a triple-play package, Prima ADSL, priced at €49 per month. This package provides our subscribers with 91 television channels and radio stations, broadband internet access with download speeds of up to 20 Mbps and unlimited fixed-line calls to landline and mobile numbers in the French Antilles region, French Guiana, mainland France and 100 international destinations. The premium package, priced at €59 per month, provides 130 television channels and radio stations.

Dominican Republic

We offer pay television services through our cable, xDSL and GPON networks in the Dominican Republic. Under the "Tricom" brand we offer over 300 channels through a choice of three different plans. Within those channels, 85 are available in HD, which represents the most extensive HD offering available in the Dominican Republic as of September 30, 2014.

Tricom is the second largest pay television operator in the Dominican Republic and the largest cable television operator, serving approximately 114,000 pay television subscribers as of September 30, 2014. Tricom is present in both the B2B segment and residential consumer market as a pay television provider.

Broadband Internet Access and Fixed-Line Telephony

We provide broadband internet access and fixed-line telephony services across our cable (and in certain areas xDSL) footprint. We typically sell these services as components of our triple-play bundles which we believe are cheaper than the comparable services currently offered by our competitors.

Western Europe

France. In France, we offer "always on" high speed broadband internet with a download speed of up to 200 Mbps in the EuroDocsis 3.0-enabled part of our cable network and up to 30 Mbps in the EuroDocsis 2.0 enabled part of our cable network. Our broadband internet offerings typically include a free wireless broadband internet router, an account with up to 30 e mail addresses, up to 200 Mb of personal webpage space and parental control services. We believe that our broadband internet offerings are the most advanced available in France. Our strategy is to provide a superior product with premium pricing by outperforming competitors in terms of upstream and downstream speed, product features and service quality. We are well positioned to be a broadband internet market leader in those parts of France where our services are available. We also offer DSL double play services that include internet access to our subscribers moving to homes that are not connected to our cable network in France. We had 8,340 double-play DSL customers in France as of December 31, 2012, and 24,871 double-play DSL customers in France as of December 31, 2013. We also recently introduced a new DSL triple-play package open to subscribers outside our cable network area. As of December 31, 2013, we delivered broadband internet services to approximately 1.4 million residential subscribers in France, including approximately 1.0 million multi-play subscribers and 274,000 stand-alone subscribers.

We primarily sell fixed-line telephony services as part of our triple-play and quadruple-play packages because most installed cable broadband internet routers are equipped with, or can be easily exchanged for, a broadband internet router with two voice ports. These packages include unlimited calls from the fixed line telephone to fixed and mobile phones in France as well as to fixed phones in certain international destinations (and mobile phones in a few international destinations), which is the market standard for triple-play and quadruple-play packages in France. We had approximately 1.0 million fixed-line telephony subscribers as of December 31, 2013, and 1.1 million as of September 30, 2014.

Portugal. In Portugal, we offer customers various broadband internet packages under our "Cabovisão" brand with advertised download speeds ranging from 30 Mbps in our low-tier packages to 200 Mbps in our top-tier packages. Our cable network is approximately 99% upgraded to EuroDocsis 3.0. We also offer subscribers local, national and international long distance fixed-line telephony services and a variety of value-added telephony features using VoIP under the "Cabovisão" brand. We provided broadband internet access services to approximately 156,000 RGUs in Portugal as of December 31, 2013, and 152,000 RGUs as of September 30, 2014. We provided fixed-line telephony services to approximately 223,000 RGUs in Portugal as of December 31, 2013, and 213,000 RGUs as of September 30, 2014.

Belgium and Luxembourg. We are a leading provider of broadband internet access services in our footprint in Belgium and Luxembourg. We offer customers various broadband internet packages under the "Numericable" brand with advertised download speeds ranging from 50 Mbps in our low-tier packages to 200 Mbps in our top-tier packages. Our cable network is fully upgraded to EuroDocsis 3.0, allowing us to provide up to 200 Mbps download speeds to all upgraded households. Within our network areas in both Belgium and Luxembourg, we are currently the largest fixed-line telephony competitor to the incumbent national telecommunications operators, Belgacom and P&T Luxembourg. Our fixed-line telephony offering includes local, national and international long distance fixed-line telephony services, as well as value-added telephony features using voice over internet protocol ("VoIP") under the "Numericable" brand. We use VoIP technology, which utilizes the open standards EuroDocsis 3.0 protocol in Brussels and EuroDocsis 2.0 (currently being upgraded to EuroDocsis 3.0) in Luxembourg, through which we are able to provide both internet and fixed-line telephony services. Customers in both Belgium and Luxembourg who subscribe to our broadband internet access or fixed-line telephony services as part of a triple-play package, in the mid-tier segment, benefit from lower prices than those currently offered by our main competitors. We provided broadband internet access services to approximately 57,000 RGUs in Belgium and Luxembourg (of which approximately 48,546 were in Belgium and approximately 8,806 were in Luxembourg) as of December 31, 2013, and 59,000 RGUs as of September 30, 2014 (of which approximately 50,362 were in Belgium and 8,654 were in Luxembourg). We provided fixed-line telephony services to approximately 53,000 RGUs in Belgium and Luxembourg (of which approximately 45,748 were in Belgium and 7,463 were in Luxembourg) as of December 31, 2013, and 52,000 as of September 30, 2014 (of which approximately 45,172 were in Belgium and 7,139 were in Luxembourg).

Israel

Internet service in Israel is structured such that it is segregated into two separate elements comprised of infrastructure or network access services and internet service provider ("ISP") services. Infrastructure access service relates to access to the physical network infrastructure within Israel that is required to connect the customer's device to the infrastructure access provider's operator. This service is provided exclusively by us and Bezeq, the only telecommunication operators in Israel that own a national fixed-line network infrastructure. ISP services, which can be provided by any licensed provider, consist of providing access to the customer from the infrastructure provider's operator, through its own operator, to the local and global internet network. ISPs generally also provide certain value-added services such as data protection services, security solutions, e-mail services and system administration services. A customer wishing to subscribe to internet services in Israel effectively needs to purchase each of these services and accordingly retains the choice with regards to providers for both services, i.e. it may choose to subscribe to the broadband internet infrastructure access facilities of us or Bezeq while using a separate ISP provider. Under the terms of our ISP license, we are required to provide ISP services to any customer or other ISP license holder, including to customers of other broadband internet infrastructure access providers, on equal terms. For further details, see "*Regulatory—Internet Service Provider*".

We offer broadband internet infrastructure access services to our residential customers under our "HOT" brand over our U.S. Docsis 3.0-enabled cable network which allows us to provide ultra-fast services with limited or no degradation in speed. Our U.S. Docsis 3.0-enabled cable network can theoretically support download speeds of up to 360 Mbps with new CPEs and certain limited modification to network equipment, which will allow us to easily upgrade our services in the future. Approximately 50% of our Israeli cable customers have customer services equipment in their homes which could support download speeds up to 270 Mbps. We currently provide our customers with options to purchase broadband internet infrastructure access services with advertised download speeds ranging from 30 Mbps up to 100 Mbps subject to certain time or data volume restrictions which are not currently enforced, although we reserve the right to restrict usage to prevent abuse, at competitive prices. Our customers can also choose from our triple-play and double-play packages which include broadband internet infrastructure access services along with our television and fixed-line telephony services. We had approximately 744,000 RGUs to our broadband internet infrastructure access service in Israel as of December 31, 2013, and 727,000 as of September 30, 2014, representing approximately 66% and 67% of our Cable Customer Relationships in Israel, respectively. As of December 31, 2013, we had approximately 37% market share of the broadband internet infrastructure access market in Israel, and 36% as of June 30, 2014, based on the total number of subscribers.

In February 2012, we started providing ISP services to our customers under the "HOTnet" brand. Unlike our competitors who generally offer ISP services at prices that increase depending on the access speeds desired by the subscriber, we offer our ISP services at NIS 20 (equivalent of €4.23, calculated on the basis of the September 30, 2014, exchange rate of € 0.2113 = NIS 1.00) per month irrespective of access speeds, which we believe make our ISP offerings very attractive. We are currently permitted to provide ISP services on a stand alone basis and as part of a package with mobile services, and not as a part of our other multiple-play packages.

We provide fixed-line telephony services using PacketCable™ technology on our secure cable network by offering individual lines to our residential customers under our "HOT" brand. Our services include several ancillary value-added features for end users such as caller identity, call waiting and call waiting with caller identity, follow me (a call forwarding service enabling the user to be reached at any of several phone numbers), conference calling, last call return, blocking of calls with no caller identity, blocking of caller identity for outgoing calls and voicemail services. We provide our fixed-line telephony services on a stand-alone basis or as a component of our triple-play and double-play packages allowing customers to choose from a range of pricing options based on their expected usage. We offer a fixed-line telephony package of 1,000 free minutes to land lines and mobiles for NIS 101. We had 676,000 RGUs to our fixed-line telephony service in Israel as of December 31, 2013, and 681,000 RGUs as of September 30, 2014, representing approximately 59% and 63% of our Cable Customer Relationships in Israel, respectively. As of December 31, 2013, we had a 30% market share of the fixed-line telephony market in Israel (Source: TeleGeography).

Customers who subscribe to our broadband internet infrastructure access or fixed-line telephony services as part of a triple-play package benefit from lower prices than those currently offered by our main competitor.

We seek to maximize the use of our own cable network when routing calls in order to minimize interconnection costs and capitalize on our control over quality of service. We have reciprocal interconnection arrangements with all the domestic telephony operators, international long-distance operators and mobile operators in Israel pursuant to which we pay interconnection fees to such other service providers when our subscribers connect with another network and receive similar fees from providers when their users connect with our network through interconnection points. The Israeli Ministry of Communications has recently reviewed the interconnection fees paid to domestic fixed-line operators and set the interconnection rate at 0.99 agorot per minute irrespective of whether calls are made during peak or off-peak times.

Fixed-line telephony in Israel is segregated into two separate services comprised of domestic fixed-line telephony services and international long-distance services, each of which requires a separate license. We are currently licensed to provide both domestic and international long distance telephony services. The domestic license is valid until 2023 and the international license is valid until 2032, and both may be extended for additional ten-year periods subject to the approval of the Israeli Ministry of Communications.

French Overseas Territories

We provide broadband internet access services within our network area offering subscribers monthly rate plans. In Martinique and Guadeloupe, we offer such services over both our cable and xDSL networks. In French Guiana, Mayotte and La Réunion, we only provide broadband internet access services over our xDSL network. We offer advertised maximum download speeds of 30 Mbps and 20 Mbps over our cable and xDSL networks, respectively. Within our footprint, the download speeds of our broadband internet and xDSL internet access services are at least on par with those offered by our competitors since all of our competitors rely exclusively on xDSL technologies. Further, our product portfolio also includes narrowband internet access (dial-up) services. We provided broadband internet services to approximately 73,000 subscribers (including 17,000 cable-based and 56,000 xDSL subscribers), as of December 31, 2013, and 95,000 subscribers (including 26,000 cable-based and 54,000 xDSL subscribers) as of September 30, 2014.

In Guadeloupe and Martinique, we offer subscribers local, national and international long-distance fixed-line telephony services on monthly rate plans and a variety of value-added telephony features over our cable network and, following the acquisition of Outremer, our unbundled xDSL network. We offer the same services in French Guiana, Mayotte and La Réunion solely over our unbundled xDSL network since we do not own a cable network in those territories. We provided fixed-line telephony services to approximately 95,000 RGUs in the French Overseas Territories (including 17,000 cable-based and 78,000 xDSL subscribers) as of December 31, 2013, and 115,000 RGUs (including 26,000 cable-based and 90,000 xDSL subscribers) as of September 30, 2014.

Dominican Republic

In the Dominican Republic we offer consumers broadband internet access and fixed-line telephony services through ODO and Tricom. Based on revenues for the year ended December 31, 2013, and for the nine months ended September 30, 2014, ODO was the Dominican Republic's second largest telecommunications provider, according to management estimates. According to management estimates, ODO is the third largest broadband wireless provider in the country, with approximately 37% market share as of September 30, 2014.

ODO offers a range of wireless broadband internet services through nomadic broadband internet (through dongles and WiFi devices) and Flybox, its customer premises equipment (CPE), as well as capacity-based plans and voice and data bundles on 3G and 4G-LTE. Though ODO offers fixed broadband services in the business segment, these are relatively limited. ODO offers both pre-paid and post-paid packages to business customers, as well as digital services, including in-house platform agnostic applications development, fixed-voice and internet and other data offerings such as cloud services, mobile-to-mobile and premium non-voice services, post-paid.

Approximately 107,000 residential customers take up broadband services through post-paid capacity-based plans as of September 30, 2014. In the B2B segment, ODO also offers packages including capacity-based offers and speed-based offers for SOHOs and SME/large companies, respectively. As of September 30, 2014, approximately 75,000 business customer lines subscribe to broadband internet services offered by ODO, of which approximately 42% are SMEs and large companies which can also benefit from ODO's fiber and WiMax technologies and other value-added services.

In addition to broadband internet services, ODO also provides selected SME and large business customers with fixed-voice services via SIP trunking (VoIP). ODO plans to provide SOHO customers with similar services in the future.

Tricom is the second largest broadband internet and fixed-line telephony provider with a national market share of approximately 27% (fixed broadband internet market) and 25%, respectively, according to management estimates, as of September 30, 2014.

As of September 30, 2014, Tricom had approximately 114,000 pay television subscribers, 138,000 broadband internet subscribers (including xDSL and cable), 281,000 fixed-line telephony subscribers (including DSL, VoIP, fiber and WLL) and 243,000 (including internet mobile) mobile subscribers. Tricom's activity in the B2B segment, which accounted for just under 19.8% of its revenue for the nine months ended September 30, 2014, mainly comprises fixed-line services, but also includes (to a lesser extent) broadband internet services.

Tricom provides internet access primarily through its xDSL network, although its cable broadband internet product is currently experiencing strong growth, and it has launched mobile broadband internet services leveraging on its recent 4G-LTE launch. Tricom offers both prepaid and post-paid fixed-line telephony plans, which include unlimited calls within its network. While Tricom continues to utilize its xDSL network to provide fixed-line telephony services, it also offers VoIP to homes passed by its cable network. Tricom also leverages its wireless network to transmit fixed-line voice services.

With respect to fixed services, Tricom benefits from an integrated platform which includes networks based on HFC, copper and fiber technologies while it prioritizes the modernization and expansion of its entirely digital cable network. As of December 31, 2013, Tricom had upgraded 77% of its cable network to bi-directional capability. Tricom has upgraded a further 10% of its cable network to bi-directional capability as of September 30, 2014, with a substantial majority of homes passed on 750 MHz or 1,000 MHz. Up to a maximum of 750 homes are served by each optical node in Tricom's network. Tricom's entire cable network is digital and capable of supporting HD and DVR services, and Tricom is continuing the expansion of its cable network into key cities that are still underpenetrated and where proprietary fiber optic is already present, which provides opportunities for meaning significant growth potential. To this end, it relies on an in-house team which designs approximately 80 kilometers of network each month, as well as third-party construction teams which implement in-house design and build approximately 70 kilometers of network each month. Tricom has in-house capability to activate, and perform quality control procedures on, its network. In addition, Tricom has focused on maintaining its xDSL network to serve customers in areas not reached by its cable network.

We believe that we will benefit from cross-selling Tricom's high-speed broadband and pay television offerings to ODO's existing customers and ODO's mobile services to Tricom's customers in addition to offering new services that utilize both companies' product sets and networks. We believe the combination of Tricom and ODO will create a fixed mobile integrated player in the Dominican Republic. We believe that Tricom's and ODO's network infrastructures are complementary and we intend to progressively migrate the existing fixed-line DSL customer base in the Dominican Republic to Tricom's cable network where possible. We expect to generate savings by reducing maintenance costs and unbundled local loop ("ULL") and bitstream fees as well as realizing operational synergies. ODO's mobile business will also benefit from Tricom's network, which is expected to provide transmission capacity for ODO's base stations at lower cost than prevailing market rates for leased capacity. We also believe there is potential for savings by combining overlapping regional and national fixed backbones as well as optimizing mobile frequencies and networks, including utilizing Tricom's excess 4G spectrum which should allow for a cost efficient roll out of 4G services.

Bulk Services in France

In France, we offer bulk services to housing associations and multiple dwelling unit managers, such as managers of government-subsidized housing, who in turn on sell individual service packages to their residents. Our bulk service offerings include a bulk triple-play package which includes a basic digital television package of 48 channels, 30 radio channels, unlimited broadband internet access with download speeds up to 2 Mbps, unlimited inbound fixed telephone calls, and free internet and telephony modems. We also offer a stand-alone analog television package to our bulk subscribers, though the subscription rate of this package is far below our bulk triple play-offering. We collect subscription fees directly from the multiple dwelling unit managers, generally on a quarterly basis, irrespective of whether our services are actually used by the residents, thereby limiting collection risk. Approximately 70% of the homes serviced by our bulk services division are in government-subsidized housing.

We provided services to approximately 1.8 million individual subscribers under bulk contracts as of December 31, 2013, and September 30, 2014. We do not, however, have any direct contact with such individual subscribers, as these contracts are entered into between the subscribers and the building managers or the housing associations.

Despite our bulk services customer-base having decreased, it has proven resilient over the years, providing us with a steady revenue stream. Bulk services offered in France generated combined revenue of €70.0 million in 2011, €70.1 million in 2012, €68.0 million in 2013, and €50.0 million as of September 30, 2014. Although our contact with bulk individual subscribers is limited, we believe there are opportunities to up-sell individual triple-play and quadruple-play packages to the end users of our bulk services. We use a targeted sales force to encourage more of our end users to switch from a bulk subscription to an individual subscription. In buildings where there is a bulk contract, our sales teams utilize targeted sales approaches including door-to-door sales and suggested neighbor meetings to discuss Numericable Group services.

Customer Premises Equipment

We believe that advanced customer premises equipment is playing an increasingly crucial role in our cable-based business as it enhances the customer experience in various ways including by facilitating access to a wide range of user-friendly features and services, it offers a reliable channel for selling add-on and on-demand services, it allows for multi-screen television viewing and broadband internet usage by multiple parties and, when the set-top box and the modem are combined in one box, it allows cable operators to significantly reduce customer service expenses. We optimize the customer premises equipment we purchase by relying on our in-house design and development capability to build the user interface of our set-top boxes.

Accordingly, we have continued to roll out "LaBox", our most advanced set top box, in our Western European businesses ("One Box" in Portugal) and Israel. In May 2012, we launched LaBox in France and have already rolled out approximately 300,000 units as of December 31, 2013, and 420,000 units as of September 30, 2014, bringing the total percentage of set top boxes deployed in France that are capable of supporting download speeds of at least 100 Mbps to 29% in 2013 and 38.6% in 2014 respectively. Since its introduction in the first half of 2013, we have already installed approximately 21,000 LaBoxes in Belgium and Luxembourg. We rolled out LaBox in Israel under the commercial name of "FiberBox" in March 2014. LaBox is an innovative integrated set-top box and cable router offered to customers subscribed to our premium multiple-play packages. We believe that LaBox is one of the most powerful and interactive set-top boxes currently available in the markets where it is offered. It can deliver very-high-speed internet, digital television services with a capacity up to 300 channels and fixed-line telephony with two telephone lines. LaBox has four tuners that allow subscribers to record two television programs simultaneously while watching a television program, as well as watching different channels in different parts of a house. Television can also be streamed to different kinds of screens (such as tablets and mobile devices). It has HD and 3D capability and also includes an 802.11n Wi-Fi router, and a removable 160 Gb PVR or optional 500 Gb PVR which allows it to hold over 125 hours of HD or approximately 190 hours of SD programming. Additional features include an optional Blu-Ray DVD player, access to social networking features such as Facebook and Twitter on television and a VoD price comparison engine and intelligent content search.

Smart phones and tablets can act as “remote controls” for LaBox, allowing users to navigate the interface with their personal handheld device as well as to switch on and off the recording of television programs remotely through the application “TV Mobile”. We expect that the introduction of LaBox will result in the increase of our ARPU by attracting new premium package customers and prompting existing customers to upgrade to our premium packages which offer LaBox as standard. We expect that LaBox will also promote the sales of our other premium services.

Mobile Services

Western Europe

France. In France, we offer mobile telephony services under the “Numericable” brand through the nationwide network of Bouygues Télécom pursuant to several MVNO agreements in place since 2010 and 2014, respectively. Our agreements with Bouygues Télécom relating to voice transmission services are due to expire in 2017 and those relating to data transmission expired in 2012 and were automatically renewed for an indefinite term, subject to termination by either party upon twelve months’ notice. The voice transmission services agreements will be automatically renewed in 2017 for an indefinite term, subject to either party providing notice of termination six months prior to the original expiration date. Once automatically renewed, the agreements may then be terminated by either party upon twelve months’ notice. While we pay a fee to Bouygues Télécom in exchange for access to the their wholesale networks, the mobile market is one where lower cost unlimited calling contracts are becoming the norm and where margins are thus structurally limited, in particular following Free’s entry into the market at the beginning of 2012. Our mobile telephony business is dependent on our contractual relationship with our providers; however, since we have not installed the necessary equipment, we do not have full fledged MVNO status.

Our MVNO agreements in France enabled us to introduce a quadruple-play offer in 2011 and our MVNO contract with SFR enabled us to offer 4G services from February 2014. We currently offer a broad range of mobile telecommunications products and services, including mobile voice services and data services, such as SMS, MMS, games, news and music services. While our mobile services customer base is small and our core focus remains on our other offerings, we believe that our ability to offer mobile services is an important marketing and competitive tool that contributes to our brand image and helps to reduce churn.

We had approximately 113,000 mobile subscribers in France as of December 31, 2012, and approximately 186,000 mobile subscribers in France as of December 31, 2013. As of September 30, 2014, we had approximately 236,000 mobile subscribers compared to 167,000 subscribers as of September 30, 2013. Nearly all such subscribers were quadruple play subscribers. Approximately 20% of our new subscribers in 2013 subscribed to quadruple play offers. Stand alone mobile telephony services are offered at prices ranging from €1.99 to €19.99 per month. In January 2012, following Free’s entry into the mobile telephony market, we revised our quadruple play packages. We began offering a SIM card and additional mobile telephony services as part of a quadruple play package for an additional fee ranging from no charge (Basic Mobile Package) to €15.99 per month (Ultra Mobile Monde Package). These packages are the same as those offered to our stand alone mobile telephony customers but are offered at a discount when part of a quadruple play package. They include unlimited calls in France and to 40 international destinations in Europe and North America, unlimited text messages and up to 3 Gb of mobile internet. Subscribers do not have to commit to a minimum contractual period. This is the only unlimited mobile service at this price available in stores, with in person customer service, unlike Free, B&You (Bouygues Télécom’s “low cost” mobile offerings), Sosh (Orange’s “low-cost” mobile offerings) and Red (SFR’s “low-cost” mobile offering), which are only available online. We believe that we provide our customers with one of the best value for money mobile telephony offers in France with unlimited national calls (both to fixed and mobile telephones), unlimited text messaging and unlimited national data access.

Belgium

We began providing mobile services in Belgium in September 2012 under the “Numericable” brand through an MVNO agreement with Mobistar. The MVNO agreement with Mobistar has been terminated and replaced with a MVNO agreement with BASE. Our portfolio of mobile packages includes basic as well as premium offerings. Our basic package, Mobile Start, is attractively priced at €9.95 and includes 60 minutes of domestic calls, 50 text messages and 5 Mb of internet data. Customers may elect to purchase certain add-on packages to increase their allowance, including 100 text messages or 50 Mb for €5 per month, or 1000 text messages or 500 Mb of data for €10. Our higher-end packages include Mobile Extra which is currently priced at €26 and comes with an allowance for 5000 domestic texts, 150 minutes of national calls and 1 Gb of internet data, and Mobile Max, which currently costs €59.90 and includes unlimited domestic texts and calls and 2 Gb of internet data. When purchased along with any one of our triple-play packages, Mobile Max costs only €29.95 which we believe to be one of the best-value-for-money mobile packages currently offered on the Belgian mobile telephony market. As of September 30, 2014, we had approximately 3,400 mobile RGUs in Belgium, compared to some 3,000 RGUs as of September 30, 2013.

Israel

We provide mobile services in Israel to residential subscribers under the "HOT Mobile" brand on our UMTS-based 3G network, which we launched in May 2012, and mobile services targeted primarily at business subscribers under the "MIRS" brand on our iDEN network. Due to current regulations, we currently offer our mobile services only on a stand-alone basis and in a bundle with ISP services.

Our UMTS network is based on the HSPA+ technology and we believe that, when completed, it will be one of the most advanced nationwide networks in Israel. The roll-out of our 3G mobile services has enabled us to compete effectively in the mobile services market in Israel as we are able to provide up-to-date services to customers, including faster data transmission services (up to 42 Mbps) with a higher traffic capacity. Our customers also have the option of using a wider range of devices compatible with our network, including Android based and Apple branded handsets. Consequently, we will also be able to expand the range of value-added services we offer to include a wide variety of applications and content requiring higher data bandwidth and more advanced devices. Our UMTS network already extends to approximately 56% of the inhabited territory of Israel and covers approximately 71% of the Israeli population. Since we launched our mobile services in Israel in May 2012, we had relied on Pelephone's network to provide in-country roaming services to our customers in areas not covered by our UMTS network. In December 2013, HOT Mobile and Pelephone amended the underlying agreement repealing the exclusivity clause which HOT Mobile was subject to. This amendment will allow HOT Mobile to exercise its rights under the Network Sharing Agreement with Partner, which has been approved by the Israeli Antitrust Authority (subject to certain minor conditions), but remains subject to final approval from the Israeli Ministry of Communications. The Network Sharing Agreement with Partner is valid until December 31, 2028, and provides for automatic renewals in five year increments after December 31, 2028. See "*Description of Our Business—Material Contracts—Mobile Network Sharing Agreement with Partner in Israel*". In the interim period while we await final regulatory approval for the Network Sharing Agreement, we have also entered into a RoU Agreement with Partner which will expire in 2017. The RoU Agreement with Partner gives HOT Mobile a right of use over Partner's mobile communication network for the purpose of providing nation-wide mobile coverage to our customers. We have also entered into a roaming contract with Vodafone pursuant to which Vodafone provides our 3G customers with international roaming capabilities. For further details, see "*Description of Our Business—Material Contracts—Agreement with Pelephone, Vodafone and Belgacom relating to mobile roaming services*" and "*Description of Our Business—Material Contracts—Mobile Network Sharing Agreement with Partner in Israel*". Our Israeli cable-based business, which we run under the "HOT" brand, has allowed our mobile business to benefit from certain synergies including in respect of retail distribution and brand awareness.

We currently offer to private subscribers unlimited local calls, text messaging and internet access for what we believe to be an attractive monthly fixed price as well as unlimited international calls to selected destinations for an additional fee. We believe our monthly fixed prices are more competitive than those offered by our large incumbent competitors. These prices are subject to changes, predominantly driven by the competitive nature of the Israeli telecommunications market. We also offer users pay-as-you-use packages which charge customers on a per unit used basis. Our 3G services are targeted at post-paid subscribers who account for approximately 84% of the mobile market in Israel as of December 31, 2012, according to Informa Telecoms & Media. Since the launch of our UMTS based 3G mobile services in May 2012, we added approximately net 592,000 UMTS RGUs as of December 31, 2013 and approximately 746,000 UMTS RGUs as of September 30, 2014.

We also continue to provide mobile services using iDEN technology. As of December 31, 2013, we had approximately 218,000 RGUs, and as of September 30, 2014 approximately 186,000 RGUs, who subscribed to this service, most of whom are business customers. We expect the number of iDEN customers to continue to decline in future periods.

The Israeli Ministry of Communications has initiated a tender process for 4G-LTE frequencies comprising a total of eight frequency bands in the area of 1,800 MHz that will enable delivery of mobile services using LTE technology. On November 18, 2014, HOT Mobile submitted its offer for part of the spectrum in response to the tender. On January 12, 2015, the Israeli Ministry of Communications informed HOT Mobile that based on the results of the tender it would be awarded a frequency bandwidth of 2X5MHz in the 1.8 GHz spectrum, for a license fee of NIS 34.5 million (up to half of which may be paid by way of provision of a bank guarantee, which may be refunded, in whole or in part, upon HOT Mobile reaching certain market share milestones). The tender results will be brought before the Minister of Communications for approval. In the event that such approval is awarded, we expect to begin developing infrastructure within the arrangements we have entered into with Partner (subject to regulatory approvals) that would allow us to commercialize such services. Furthermore, we believe that upgrading our UMTS 3G network to 4G-LTE capability would be possible with limited incremental capital expenditure or investment in the newly formed limited partnership to be set up in Israel pursuant to the Network Sharing Agreement between HOT Mobile and Partner. The Ministry has allowed existing operators wishing to upgrade their systems immediately to temporarily use the frequency bandwidth of 5 MHz (X2) in the area of 1,800 MHz LTE technology (subject to certain conditions), and, as such, HOT Mobile is intending to launch such 4G-LTE services to customers in the coming months. For more detail, see "*Network—Israel*".

French Overseas Territories

Prior to its acquisition by us, Outremer launched its mobile services in December 2004 and has increased its market share, in part, through its attractively priced propositions. We currently provide subscribers 2G and 3G mobile services relying on HSDPA 13 Mbps Single Carrier technology. We plan to apply for licenses to provide 4G services which are expected to be awarded via an application process that it is expected to begin in the first quarter of 2015 in the Caribbean area and by the beginning of the third quarter of 2015 in the Indian Ocean. We currently offer mobile subscribers a variety of monthly rate plans and pay-as-you-go plans. For example, our basic monthly mobile plan in Guadeloupe is priced at €14.99 (not including a handset) and has a 24-month lock-in period. This monthly plan includes 60 free minutes and pay-as-you-go internet data. Our high-end monthly plan in Guadeloupe is priced at €59.99 (including a handset), has a 24-month lock-in period and includes unlimited calls to other mobiles in Guadeloupe, 24/7 unlimited calls to landline and mobile numbers in the French Antilles, mainland France, French Guiana and 100 other international destinations, 24/7 unlimited texts to all mobile numbers in the French Antilles, mainland France and French Guiana as well as 2 Gb of internet data. As of December 31, 2013, we had approximately 375,000 total mobile subscribers in the French Overseas Territories, consisting of approximately 197,000 post-paid subscribers (including approximately 12,000 business mobile subscribers) and approximately 178,000 pre-paid subscribers. As of September 30, 2014, we had approximately 365,000 total mobile subscribers in the French Overseas Territories, consisting of approximately 205,000 post-paid subscribers (including approximately 13,000 business mobile subscribers) and approximately 160,000 pre-paid subscribers. Our mobile ARPU in the French Overseas Territories was €27.10 (including pre-paid subscribers) for the year ended December 31, 2013, and €28.40 for the nine months ended September 30, 2014.

Following the French Competition Authority's conditional approval of the purchase of SFR by Numericable, and, indirectly, Altice, we have agreed to dispose of our mobile business in the Reunion Islands and Mayotte, including the 2G and 3G licenses and frequencies in Reunion Island and Mayotte.

Dominican Republic

ODO was launched in 2000 as the first GSM network in the Dominican Republic. It is now the second largest mobile operator in the residential segment, holding approximately 37% market share as of September 30, 2014, according to management estimates. ODO also has a significant presence in the B2B market, having captured approximately 26% of the market share as of September 30, 2014, in the mobile B2B segment measured by volume, according to management estimates. As a result of the strong "Orange" brand under which ODO has historically marketed its mobile voice and data services, its focus on customer experience and its efficient distribution channels, ODO captured the largest share of net mobile subscriber additions in the Dominican Republic market during the seven months ended July 31, 2014. During the nine months ended September 30, 2014, the market lost 316,000 lines, mainly due to the disconnection of prepaid users without identification on Indotel's request, which impacted all Dominican Republic operators.

ODO offers residential and business mobile subscribers a variety of pay-as-you-go plans and monthly-rate plans through its 2G and 3G networks. ODO had approximately 3.2 million total mobile subscribers of which approximately 2.5 million subscribe through pre-paid plans and 685,000 subscribe through post-paid plans as of September 30, 2014.

To service the Dominican Republic's significant tourist traffic, ODO also provides users of foreign mobile connections with international roaming services. ODO has entered into roaming agreements with various international telecom service providers for voice, internet, data, pre-paid, roaming hub and 3G services. Currently, ODO has agreements in place with leading international telecom companies from over 140 countries. ODO also attracts international incoming traffic through its long-distance business, providing international call termination to other local operators.

In the B2B segment, ODO offered services to 212,000 customer lines, with over 72% taking up plans aimed at SOHOs. ODO also offers plans to over 3,400 SMEs and large companies as of September 30, 2014. In the past, ODO's most successful offerings have been in the pre-paid consumer business. However, ODO is growing its post-paid and business offerings and continues to roll-out new products and services. ODO set up a dedicated business customer team in January 2011, and, since 2012, has expanded its offerings to include data packages for pre-paid, new post-paid tariffs including unlimited data and launched value-added services. ODO has also expanded its business services with features such as mobile-to-mobile (M2M) connection services, enhanced data security and telepresence.

In the mobile services sector, ODO benefits from what we believe to be efficient distribution channels through its homogeneous store network across the Dominican Republic, comprising more than 519 shops and 66,300 top-up points of sale. We believe ODO's strong footprint in areas with low mobile penetration makes it well-positioned to capture future growth. ODO also benefits from strong brand recognition from the "Orange" brand and a focus on customer service. As of September 30, 2014, ODO captured an approximate 47.2% share of mobile gross-adds for the previous nine months, based on management estimates, while operating only 17.5% of the approximately 2,900 points of sale in the Dominican Republic. In connection with the ODO Acquisition, we have entered into a Brand License Agreement providing for the right for ODO to continue to use the "Orange" brand for a period of three to five years after the ODO

Acquisition in respect of its current activities in the Dominican Republic. For further details see "*Description of Our Business—Material Contracts—Agreements with Orange in the Dominican Republic*".

Tricom also provides mobile telephony services through its wireless network. Tricom's mobile offering includes 3G as well as 4G-LTE plans (depending on the handset) and mobile customers who subscribe to one of Tricom's triple-play offers benefit from a free 4G-enabled smartphone under the current service plan.

Business-to-Business Services

France

In France, we provide business customers with a comprehensive service offering, which includes voice services, either traditional switched voice or VoIP, and data services, such as very high speed broadband internet, worksite connection and housing (IP VPN, LAN to LAN, SAN to SAN) and cloud services and hosting. As of September 30, 2014, our fiber network served more than 10,000 business and public sector sites directly (and approximately 800 additional sites through third-party fiber connections), and our DSL network served more than 80,000 business and public sector sites. In addition to approximately 12,000 mid sized business clients, as of December 31, 2013, we had approximately 600 large corporate clients in France as of September 30, 2014, including corporations such as EDF, Air France, M6, Groupama and Société Générale and public entities such as the French Ministry of the Interior and ten other ministries of a total of twenty ministries in France, the University of Rennes and the Paris City Hall (*Mairie de Paris*). We provide services to approximately 70% of the companies listed on the CAC 40. Although we have historically focused on large B2B clients, we now intend to focus increasingly on the midmarket whose demand for value added services (IP, cloud services, security services, etc.) and broadband internet data services (data centers, VPNs, Ethernet ports, etc.) is growing. We offer our B2B services in France under the Completel brand. We are the second largest alternative operator to the incumbent Orange, after SFR. We believe we are the fastest growing B2B operator in France, with 4% B2B market share captured as of December 31, 2012, since June 30, 2007. We estimate that our B2B market share in France in 2013 amounted to approximately 7%, compared to Orange's 70% market share and SFR's 12% market share. We believe that we are well positioned to increase our market share in both the large corporates and mid market segments in which our estimated market shares in 2013 were 8% and 4% respectively. One of the key drivers of our B2B business in France is our collection of powerful fiber networks connected to our backbone, covering large metropolitan areas. Our B2B network is supported by 80 MANs, covering the main business areas in France. In addition, the combination of our fiber MANs and our DSL networks gives us a key technological edge in the French B2B market, enabling us to deliver customized products and services at competitive pricing. Our fiber network is also flexible due to its high-capacity bandwidths ready for future services that will require an even greater bandwidth capacity and reliability. We also have three datacenters located in Paris, Rouen and Lyon to support our cloud and hosting services.

Fixed Voice Services. Our B2B service offerings cover all fixed voice needs of our clients, including standard inbound and outbound calls using our switched voice network and, increasingly, VoIP technology, as well as our customized network architecture solutions based on fully digitalized technologies including IP. While large corporates generally have their own infrastructure for fixed voice solutions installed, medium sized companies often seek solutions that minimize the need to install such infrastructure. For example, large corporates typically install servers at their sites to enable them to use VoIP services provided by us. This offering enables customers to centralize their telephony needs on their principal sites by centralizing all of their telephony equipment on the customer's central site. This solution enables companies to rationalize costs of equipment and to route all of their internal calls through their data network. VoIP services may also be used as a back up. Mid-sized companies often choose to use our Centrex IP service, which uses a server owned by us located in a datacenter, rather than relying on an on site server. This service provides mid-sized businesses with a cost optimal solution as the cost of the server is spread among our other B2B customers using our Centrex IP service. We enhanced our Centrex IP offering in 2009 through the acquisition of B3G, a French leader in Centrex and IP telephony for businesses. In addition, we provide B2B customers with tools to manage their telephone services, such as routing and intelligent management of incoming calls to customer service lines. Our Extranet service provides customers with access to detailed traffic reports and billing. Furthermore, we also offer free-phone services and premium rate services (known as "800 numbers" in France), although we expect this product to decline in the near future as we focus on more profitable segments. We provided fixed voice services to more than 15,000 corporate and public institutions and managed more than 70,000 Centrex lines in France as of December 31, 2013, and, as of September 30, 2014, respectively. We believe we are the leading provider of IP Centrex services in France. We believe that we transport over 12 billion minutes of voice traffic per year in France.

Fixed Data Services. We offer a wide range of fixed data services including broadband internet access, transport, multi site data connectivity, VPN, LAN to LAN, security, messaging and hosting and other value-added services to our French business customers. We rely on our three datacenters to provide hosting services. We rely on two of our three datacenters in France to provide our cloud service offering. Along with our own IP network, we have access to a "peering" network with other operators and internet providers present in France as well as with major international players. As with fixed voice services, customers may connect their central site to our cable network, which offers the best quality, and to our DSL network if no access to our cable network is available.

(a) Worksites Connection and Housing (IP VPN, LAN to LAN, SAN to SAN)

We provide a wide range of services to connect work sites through secured internet and database housing. A customer can connect its various work sites and affiliates through LAN to LAN Ethernet or with IP (IP VPN) and have high speed internet access combined with safe solutions for the housing system and easily manageable selling platforms. Our housing solutions are backed by a high flow telecommunications structure that improves the availability of applications. We offer IP VPN services that enable businesses to send and receive data across a private, secure network, through a virtual point to point connection. Our services are adaptable to the technical and functional requirements of the customer's infrastructure, with flexibility in terms of bandwidth, connection technology and management of strategic flows (VoIP, Visio) and the customer's network. We bolstered our IP VPN offering in 2010 through the acquisition of Altitude Télécom, a French specialist in IP VPN with the know how to connect a multitude of sites. Prior to its acquisition by us, Altitude Télécom connected approximately 30,000 sites in France on approximately 1,000 VPNs. This know how has recently enabled us to secure contracts with the French Notaries Association (Notaires de France), connecting thousands of notary offices across France, and Volkswagen, connecting hundreds of dealerships across France. We offer LAN to LAN services that are adaptable to the business' specific protocols, which allow customers' LAN to operate as if they were located within the same building. We also offer SAN to SAN services that enable customers to securely interconnect and synchronize their information technology platforms in remote locations. Our customers thus benefit from data disaster recovery solutions through redundancy on separately located sites and flexibility, permitting both simple copies as well as total and synchronized redundancy.

(b) Cloud Services and Hosting

We offer a full range of cloud services, including external flexible telephony services, messaging and security solutions and hosting services (i.e. servers and platforms). We focus in particular on providing "infrastructure as a service" ("IaaS"), which provides customers with the benefits of infrastructure without having to invest in it. Combining IaaS with our broadband internet network uses the power of fiber and contributes to customer loyalty, while leveraging our expertise in critical network architecture (Business Continuity Solutions, or disaster recovery plans). We have three major datacenters, of which two are able to provide its IaaS package. In France, the security of information systems and the data included therein requires careful management, including hosting in datacenters located in France in order to benefit from French data protection laws, and hosting in a private, secure, closed network in order to lock and control access from all points. In addition, our cloud solution provides information systems hosted on IaaS platforms located in one of our datacenters, which are completely secured through our private network. Data is hosted within an infrastructure and network that is completely closed (LAN to LAN or VPN), independent from the internet, in our datacenters located in France and therefore not subject to any foreign jurisdiction.

(c) Completude and Completude Max Offers for Mid Sized Businesses

Originally focused on large corporates, our B2B business in France has recently begun to target mid sized enterprises. Our packaged offering aimed at the mid sized businesses, Completude, bundles fixed voice, data and additional services, offering a global solution for B2B customers for internet access, unlimited telephone calls to fixed lines, and more than 40 international fixed destinations and other technical solutions such as type fax to mail and email voicemail. Our Completude offer generates relatively high margins despite its low price. Our premium package, Completude Max, offers broadband internet at symmetrical speeds of up to 100 Mbps through our FTTB network for the same price as the slower DSL offers of our competitors. Over 500 corporate and public institution sites in France used Completude Max as of December 31, 2013.

Israel

We provide broadband internet access, pay television, fixed-line and mobile telephony services and a range of advanced telecommunications solutions to our business customers in Israel. Other than our iDEN-based mobile services which we market under the "MIRS" brand, we market all of our business-to-business services in Israel under the "HOT" brand. Our fixed-line telephony services include offering individual lines to businesses as well as PRI trunks (consisting of up to 30 voice lines per trunk) to our business customers. We also provide business numbering services allowing for toll-free calls from anywhere in Israel to 1-800 numbers and a split billing calling service to businesses (1-700). Our portfolio of advanced telecommunications services include data and video transmission and VPN services aimed at business customers and other telecommunication providers using synchronous digital hierarchy SDH technology or IP technology. Among the solutions we offer are network services for transferring data from point to point, transferring data between computers and between different communications networks, communications network connection to the internet and remote business access services. As our Israeli B2B business remains operationally integrated in our residential cable business and mobile business, we recognize Israeli B2B revenue within revenues from cable-based services and revenues from mobile services, as applicable.

In addition, we also license the pay television content formats that we create and own to other telecommunications providers around the world. For example, we have in the past sold our popular television series Split to providers in 72 countries.

Portugal

The acquisition of ONI in 2013, a leading B2B services provider in Portugal, has brought a strong B2B sales and marketing force and diverse customer base as well as attractive service offerings and distribution capabilities to our Group. As a result of the acquisition, we are one of the leading providers in the Portuguese B2B market since ONI is the sole telecoms operator exclusively focused in serving the Portuguese enterprise market. We believe that this acquisition will continue to allow us to expand our fixed-line product offering to a broader set of B2B customers at a lower cost as a result of our existing, extensive fully-owned last mile cable network throughout Portugal. Our B2B services offered in Portugal include broadband internet access, telephony, virtual private network, leased lines, datacenter services and other corporate fixed-line services to small and large businesses. Our customers include EDP (Electricity of Portugal), CEPSA, José de Mello Group, Roff, Transportes Sul do Tejo, the Portuguese Ministry of Agriculture, the Portuguese Ministry of Finance, Tourism of Portugal, EFACEC, Continental Hotels, INATEL, ANA Group, HOVIONE, and Auto Sueco Group.

Belgium and Luxembourg

In Belgium and Luxembourg, we offer a range of dark fiber, internet links and other fiber-based network services to telecommunications operators, financial institutions, public service customers and multinational companies. Our customers include Telenet, Verizon, Colt, Dexia and the European Central Bank in Luxembourg and the EU, NATO and the Brussels police in Belgium. We do not directly provide value-added services. Our business customers evaluate our offerings based on price, technology, security, reliability and customer service. We are the only operator with a fully secured backbone between Paris/Luxembourg and Brussels with excess capacity which we sell to our business customers who may require enhanced capacity or security.

Switzerland

We are one of the leading providers of information and communications technology services aimed at business customers in Switzerland. Our portfolio of service offerings includes broadband internet access, hosting, multimedia and data backup solutions. We conduct our B2B business in Switzerland under the “green.ch” brand, with the exception of our datacenter services which we also provide under the “Green Datacenter” brand.

Dominican Republic

We provide significant B2B telecommunication services in the Dominican Republic through both ODO and Tricom. ODO’s presence in the B2B mobile market is significant, with approximately 26% of the market share as of September 30, 2014, according to management estimates.

In the B2B segment, as of September 30, 2014, ODO offers mobile services to over some 212,000 customer lines, with over 72% of business customers taking up plans aimed at SOHOs. ODO also offers plans to over 3,400 SMEs and large companies as of September 30, 2014. In the past, ODO’s most successful offerings have been in the pre-paid consumer business market. However, ODO is growing its post-paid and business offerings and continues to roll out new products and services. ODO set up a dedicated business customer team in January 2011 and since 2012 has expanded its offerings to include data packages for pre-paid, new post-paid tariffs including unlimited data and launched value-added services. ODO has also expanded its business services with features such as mobile-to-mobile (M2M) connection services, enhanced data security and telepresence.

ODO also offers fixed broadband internet packages in the B2B segment, although this is relatively limited. As of September 30, 2014, approximately 75,000 business customer lines subscribe to broadband internet services offered by ODO (of which approximately 42% are SMEs and large companies). Such customers can also benefit from ODO’s fiber and WiMax technologies and other value-added services.

ODO has been opportunistically deploying fiber to support the 4G-LTE roll-out and to be in a position to offer fixed services to targeted B2B clients. As an example, ODO began to offer B2B services in the Eastern area of the Dominican Republic in Bavaro/Punta Cana following the roll-out of fiber along the East route to Punta Cana, which was finalized at the end of 2013. ODO has also focused on IP multimedia (IMS) projects to support fixed-line services (GSM technology-based fixed offers, e.g. GSM deskphone) and new multimedia services, including fixed-line voice services for B2B customers, Rich Communication Services, voice-over-LTE and other collaborative multimedia. The B2B segment has been a key focus area for ODO since it first launched dedicated services to business customers in January 2011 and ODO is currently in the process of moving from a mobile-centric offering to a full-service provider with various enhancements being made to its network.

Tricom also engages in significant activity in the B2B segment in which it mainly offers fixed-line services, but is also present in the broadband, data, pay television and wireless segments. B2B activity accounted for 22% of its revenue for the nine months ended September 30, 2014, with Tricom serving a large portfolio of over 10,300 corporate including banks, international telecom operators and government offices, as of the same date. Additionally, Tricom has a well-diversified customer portfolio with its top ten customers accounting for less than 17% of its B2B revenue in the nine months up to September 30, 2014.

Content Subsidiaries

In October 2013, we acquired the French and Luxembourg operators of sports-themed television channels Ma Chaîne Sport and SportV. Ma Chaîne Sport produces and assembles a diverse range of content including live broadcasts of sports events and other programs relating to football, tennis, handball, boxing and other sports as well as general health and well being. It broadcasts such content via four specialized French channels, Ma Chaîne Sport, Ma Chaîne Tennis, Ma Chaîne Extreme and Ma Chaîne Bien Etre. SportV produces and assembles pay television content focused primarily on extreme and combat sports for distribution via its French television channel, Kombat Sport. We offer the channels distributed by Ma Chaîne Sport and SportV as part of our pay television packages in several of our geographies. In addition, Ma Chaîne Sport and SportV also distribute their television channels to third party service providers including Numericable France, Zeop, Canal Plus, Orange, Startime, Maroc Telecom, Naxoo and Netdream.

Wholesale Services in France

While we offer some wholesale services, including interconnection services to other operators, across our geographies, we run a focused wholesale business in France which we consider to be a key part of our global operations.

We offer a full range of wholesale products and services, including wholesale carrier services (voice and data), wholesale infrastructure services (dark fiber) and white label services.

Following the combination of Numericable Group's and Completel's networks in 2008, we have been able to leverage the extensive footprint of our cable and DSL networks in France. Our wholesale business in France allows us to accelerate the payback period of our network investments. We have evolved from being a local wholesale player to being a wholesale player with international and national customers. We have a wide product portfolio and customer base, with more than 200 national and international operators as customers. Our key customers include Paritel Operateur, SCT Telecom, Tata, BT and Bouygues Télécom. Our wholesale business benefits from cross selling opportunities that arise in our B2B business. For example, we are a wholesale provider to British Telecom, which provides B2B services to Société Générale. Société Générale required an international telecommunications operator and we were best suited for providing the portion of the services to be delivered in the French territory. Our French wholesale business enabled us to target this category of services.

We address the whole spectrum of the wholesale market in France, providing local, national and virtual operators in France as well as international operators with an alternative to Orange and SFR, which are the two main wholesale suppliers in France. We believe our overall wholesale market share in France is approximately 10-20%, as of September 30, 2014. Our wholesale customers include Bouygues Télécom, AT&T, Data Communications and Level 3 Communications.

Wholesale Carrier Services—Voice

We provide voice termination of national and international traffic and fixed and mobile interconnection for operators with no or limited fixed network capability, including national and virtual operators in France and international operators in France. Fixed termination services enable an operator to use our network to connect to another operator's network to which the customer is not connected. Fixed and mobile interconnection services enable an operator to use our network to terminate communications on a third party operator's fixed or mobile network to which it is not interconnected. This business is a legacy business from Completel. Call termination charges in France are regulated by the ARCEP and have decreased in recent years for landline networks. Therefore, our termination charges invoiced by other landline operators have decreased and, in turn, our revenues from call termination charges invoiced to other landline operators have also decreased in the same time frame.

Wholesale Carrier Services—Data

We also sells circuits based on SDH and Ethernet technologies (i.e. copper or fiber) and optical fiber or DSL network (unbundling) connections to international operators or local operators with sub scale networks in France, principally using our own network and less often reselling the use of other operators' networks. These services are generally invoiced per circuit (covering both bandwidth and speed). The setting up of a direct connection with a client favors higher margins. In our wholesale data business we typically employ a project based approach whereby each circuit must provide a minimum return after a pre defined payback period. Our data wholesale activity has shown regular growth since 2009, and we expect strong growth from this business in the future due to increasing worldwide data traffic and migration from legacy SDH or DSL technologies to Ethernet and fiber technologies. We believe we will be able to benefit from future growth in data traffic by leveraging our extensive fiber footprint and the combination of Numericable Group's and Completel's interconnected networks. Key customers of our wholesale data business in France include international and local operators with sub scale networks in France, including AT&T, BT, Global Crossing Level(3) and Verizon.

Infrastructure Wholesale Services

We optimize our network utilization by selling network infrastructure based wholesale services, including renting IRUs and bandwidth capacity on our network to other telecommunications operators. We also offer related maintenance services.

We market local loop (intra city) connections to connect client sites and datacenters, in exchange for connection fees and a price per meter under an IRU (which includes high initial connection costs, but lower annual maintenance costs) or a lease agreement (which includes a lower payment at the beginning of the contractual period, but higher annual rental payments).

Following the adoption by the ARCEP of new regulations in 2009, we also started acting as a building operator (*opérateur d'immeuble*), deploying vertical FTTH networks within apartment buildings and making such networks available to third party operators and access providers under long term IRUs. We are able to provide this service given our experience in deploying coaxial cables in buildings as a cable operator and our existing relationships with multiple dwelling unit managers and housing associations. Our relationships with local authorities are also important, as subsidies in the deployment of the network provide a commercial advantage in selling fiber optic connections to consumers as well as support in enabling us to deploy fiber on public property. Through December 31, 2013, we had connected approximately 164,000 homes in France through vertical FTTH networks. Deployment costs are shared with the telecommunications operators seeking access to the network in accordance with regulated tariffs and, during the term of the IRU, we provide maintenance services and charge maintenance fees to the operators who have access to the network.

We also carry out wholesale activities in France through our 95% owned subsidiary Sequalum, the remaining 5% of equity interests in which are held by SFR Collectivités, a telecommunications infrastructure subsidiary of SFR. Sequalum was established in 2008 to plan, deploy and operate an FTTH very high speed fiber network under a French law scheme known as *délégation de service public* ("DSP") in an affluent district adjacent to Paris (Hauts de Seine), which includes the major business center La Défense. This DSP project is called DSP 92. A DSP is a form of public private partnership under French law pursuant to which a public entity entrusts private entities to operate a public service in return for remuneration that is based on the results of operations of the service in question. Fiber deployment started in October 2009 and the first customers were connected in 2010. In July 2013 we were notified by the Hauts de Seine General Council of the approval of phase II of this project which is expected to continue until 2016. Pursuant to DSP 92, Sequalum has a 25 year concession, starting from January 20, 2009, to operate the relevant fiber network. The Sequalum network, when fully deployed, will cover 100% of the territory of Hauts de Seine via 2,600 kilometers of fiber cables and reach 827,900 apartments and offices. It is open to all retail telecommunications operators, for a fee per connected household. Sequalum also charges fees for various services rendered to operators, such as the connection and disconnection of plugs, network capacity increases and the maintenance of the network, and sells capacity on its network to wholesale telecommunications operators. The access fees charged to retail telecommunications operators in a portion of the Hauts de Seine district that is classified as a "very dense area" are regulated by the ARCEP. Other fees charged by Sequalum are not regulated. Since 2009, Sequalum has connected approximately 500,000 homes in horizontal fiber and, since 2011, approximately 200,000 homes in vertical fiber, as of September 30, 2014.Revenue generated by this project has been minimal, to date, and principally generated from the granting of IRUs to other operators.

Furthermore, we also sell point-to-point connections. This includes backhauling radio sites for 3G and 4G deployment to other French national operators. We expect this business to grow, as higher bandwidth is needed and more antennas are built in connection with the roll out of 4G by operators. Between 2010 and 2012, the Numericable Group connected approximately 200 sites for Bouygues Télécom and, between 2012 and 2013, connected approximately 1,000 sites for SFR. Between 2013 and 2014 the Numericable Group expects to have connected approximately 1,000 sites for SFR.

White Label Services

White Label Services (Cable). We provide white label dual play or triple play access lines to third party operators through our cable network in France. We first began providing triple play white label cable services in October 2009 to mobile phone operator Bouygues Télécom. We also provide white label dual play and triple play access lines to third party operators through DSL (mainly unbundling). For more information on our white label (DSL) services. See "*White Label Services (DSL)*".

We sell white label triple play services under long term contracts and tailor them to the needs and requirements of each of our customers. Bouygues Télécom is currently our sole cable white label customer, following its acquisition of Darty's telecommunications business in July 2012. Services provided to Bouygues Télécom include pay television and broadband internet access white label access lines, but do not include customer premises equipment. We continually adapt the particulars of our services to the evolving needs of our clients: for example, in 2013, an amendment to our contract with Bouygues Télécom increased the maximum internet download speed to 200 Mbps as from 100 Mbps.

White label services allow us to leverage our network, benefit from the significant distribution networks of our partners and reach customers we would not otherwise reach through our residential cable based offerings. This in turn enables us to acquire end users without the associated acquisition costs under long term commercial terms. We provided fiber white label triple play services to approximately 363,000 end users as of December 31, 2013.

White Label Services (DSL). In addition to white label cable services, we provide white label double play and triple play access lines through our DSL network in France (mainly unbundling) to third-party operators. We first began providing triple play white label DSL services in 2006 in connection with the launch by the French retailer Darty of its own branded triple play offering, the "Darty Box". Under this contract, we sold triple play services to Darty, which resold them to its own customers under its own brand. We also entered into white label contracts with the French retailer Auchan in 2008.

We sell DSL white label triple play services under long term contracts and tailor them to the needs and requirements of each of our customers. Our contracts with each of Darty and Auchan include and included, respectively, pay television, broadband internet access and fixed line telephony services. We also provide our customers with certain other products and services such as set top boxes. Our DSL white label contracts provide us with the same benefits as our fiber white label contracts in terms of leveraging our network and acquiring end users without associated acquisitions costs.

Bouygues Télécom acquired Darty's telecommunications business in July 2012. We expect that this acquisition will continue to lead to the migration of Darty's customer base to Bouygues Télécom's network over the long term. According to the agreement with Bouygues Télécom, a certain number of white label customers were migrated in 2012 to Bouygues Télécom's network (as such customers were only partially unbundled on our network and could be fully unbundled on Bouygues Télécom's network), but the remaining clients have not been automatically migrated to Bouygues Télécom's DSL network. However, Bouygues Télécom has successfully recruited new subscribers onto its own DSL network and churn at Darty has led to fewer and fewer white label customers on our DSL network. Our white label contract with Auchan terminated in March 2013 when we acquired Auchan's television, broadband internet and fixed telephony service business, with customers migrating to Numericable Group in April 2013.

We provided DSL white label triple play services to approximately 18,704 end users in France as of December 31, 2013, and approximately 41,420 as of September 30, 2014. Although our DSL white label business has been a key component of our growth since 2009, we expect a decline in this business due to our focus on growing our own branded customer base and related development of fiber access, and Bouygues Télécom's take over of Darty. However, we believe that there is a potential for development in white label DSL services among small operators in France. We also believe that development opportunities exist for the creation of a platform for third party operators providing services to SoHos and SMEs.

Marketing and Sales

While historically the marketing and sales functions of our Group were carried out entirely by locally managed teams, we are currently in the process of establishing a monitoring and benchmarking system at Group level which will allow us to better track monthly marketing and sales performance metrics on a Group-wide basis. We expect that this initiative will allow us to tailor our marketing and sales strategy in better accordance with the trends in the markets in which we compete.

Our businesses' marketing departments are responsible for strategic brand positioning and developing and monitoring our advertising campaigns. Working in conjunction with our sales and customer care divisions, our marketing divisions use a combination of individual and segmented promotions and general brand marketing to attract and retain subscribers. We target our marketing efforts at residential customers in single-dwelling units and multiple-dwelling units such as apartment buildings. We also market our B2B services to institutional customers and businesses such as large corporates, governmental and administrative agencies, small- and medium-sized businesses, nursing homes, hospitals and hotels. Our primary marketing channels are media advertising including commercial television, telemarketing, e-marketing, door-to-door marketing, billboards, newspaper advertising and targeted mail solicitation. We continuously evaluate our marketing channels to allocate our resources most efficiently. Marketing is a key focus of our businesses, with €87.9 million (excluding ODO) spent on sales and marketing efforts by the Group in the year ended December 31, 2013, and €66.5 million (excluding ODO) spent in the nine months ended September 30, 2014. Out of these totals, our businesses in Israel, Belgium & Luxembourg, Portugal and the French Overseas Territories accounted for €49.9 million, €3.4 million, €10.0 million and €20.0 million, respectively, in 2013, and €38.9 million, €1.2 million, €7.6 million and €12.0 million, respectively, in the nine months ended September 30, 2014. The Numericable Group spent €96.9 million on sales and marketing efforts in the year ended December 31, 2013 and has spent €70.5 million in the nine months listed September 30, 2014.

In France, our marketing department is responsible for designing and promoting new products and services to customers, with a particular focus on campaigns for triple play and quadruple play packages. We market and sell our services under our "Numericable" brand.

In Israel, we market and sell our cable-based services under the "HOT" brand and in 2012 we began to also market our 3G mobile services aimed at residential customers under the "HOT Mobile" brand which allows us to leverage the recognition associated with the "HOT" brand. We continue to market our iDEN-based mobile services to business customers under the "MIRS" brand. As part of our commercial television advertising strategy, we contract with popular Israeli celebrities, including actors associated with local content that we broadcast, to market our services and increase customer awareness of the "HOT" brand.

In Portugal, we market and sell our cable-based services under our "Cabovisão" brand. Our marketing department at Cabovisão is divided into two groups: a communication team responsible for designing our advertising and a product management team responsible for developing our product offerings and overall marketing strategy. Our marketing efforts leverage our strong local presence and the reliability of our customer service functions, and are focused on a simplified new offer for easier comparison with our peers' products. In Portugal, we market and sell our B2B services under our "ONI" brand. Our marketing is based on the attributes of our brand, a differentiated promotion effort and product offering by market segment. We offer a global and integrated portfolio of tailor-made B2B services to customers operating in multiple locations with often complex business requirements as well as communications services packages to SME/SMBs. In addition to our website, we promote our services to the corporate and public sectors through one-to-one marketing, business and technological events and publications and selective corporate publications. To complement this, we develop tactical regional approaches to market our offerings to SME/SMBs. Our go-to-market approach is based on direct and indirect channels and our sales team is organized by market segment.

In Luxembourg and Belgium, we market and sell our cable-based services under the "Coditel" brand and the "Numericable" brand, the latter of which we have licensed from Numericable France. Our primary marketing channels include internet and radio advertisements and billboard advertisements.

We began to market our cable-based and xDSL-based services in the French Overseas Territories of Martinique and Guadeloupe under the "Numericable" brand name in September 2013. We continue to use the "ONLY" brand to market our mobile services across the French Overseas Territories and our xDSL-based services in French Guiana, La Réunion and Mayotte. In the French Overseas Territories, we use comparative adverts and promotions as part of our mass media advertising campaign to promote our low prices, proximity and quality.

In the Dominican Republic we market and sell all our ODO telecommunications services under the "Orange" brand. In connection with our acquisition of ODO, we have entered into a Brand License Agreement providing for the right for ODO to continue to use the "Orange" brand for its current Dominican Republic activities for a period of three to five years after closing of the ODO Acquisition. As a result, ODO benefits from strong brand recognition in the Dominican Republic. In the Dominican Republic we also offer pay television services through under the "Tricom" brand.

Our marketing strategy is based on increasing the penetration of multiple-play services within our subscriber base, increasing distribution of television-based value-added services and ensuring a high level of customer satisfaction in order to maintain a low churn rate. We highlight our multiple-play offerings in our marketing efforts and focus on transitioning our analog and digital video-only customers to multiple-play packages. We believe that customers who subscribe for more than one service from us are significantly more loyal to us.

We use a broad range of distribution channels to sell our products and services throughout our operations, including retail outlets owned and run by the Group, retail outlets owned and run by third parties, dedicated sales booths, counters and other types of shops, door-to-door sales agents who are either employed by us or are paid a commission based on sales closed, inbound and outbound telesales and, in certain countries, our websites.

In France, we have in recent years revamped our sales strategy, focusing on maximizing returns from our investments in network upgrades and in innovative products and technology. We have divided our residential sales network in France into four regions and 165 selling zones, each under the responsibility of a local manager. Each zone has its own detailed monthly reporting system which provides regular updates on, among other metrics, numbers of new customers, churn rates, revenue generation and customer satisfaction and we rely on these reports to determine sales strategies relating to increasing ARPUs and customer acquisition. We employ a mix of sales channels, ranging from websales to retail partnerships to telesales, using retail stores to demonstrate and sell our high end products, including, in particular, our premium services that offer LaBox as standard, and relying primarily on websales and telesales to increase our penetration rate among lower end customers. In order to encourage websales of our lower end packages, we sell certain of our products and services at a lower price online. We market certain of our offerings, such as the iStart package, which includes access to very high speed broadband internet and DTT channels, exclusively through our website. We had 148 Numericable stores in France as of December 31, 2013 (60% of which were run as franchises under exclusive distribution agreements), and approximately 147 as of September 30, 2014 (60% of which were run as franchises under exclusive distribution agreements). The following map illustrates our selling zones and store presence in France including franchise locations.

Source: Numericable Management

We continue to establish retail partnerships with leading French retail outlets (including Boulanger, Carrefour and Cora) as part of our proximity sales strategy. We had 250 retail sales points operating through such retail partnerships as of December 31, 2013, and September 30, 2014. We expect to increase our number of own stores and decrease the number of retail sales points. We use different channels in each retail zone depending on our presence and success in that zone. For example, in areas where we have a low penetration rate, door to door sales can be a way for us to become a better known operator, with this marketing method resulting in increased sales through other channels. We also have a separate sales team in charge of selling our bulk services to building managers or housing associations. Our B2B business relies on a sales team that includes both direct and indirect channels. Our direct sales channel includes 170 sales engineers dedicated to the midmarket and 55 sales engineers dedicated to large corporates. We established our indirect sales channels in 2012 and these include 250 distributors led by 46 sales managers employed by us (who manage indirect sales through distributors), increasing our footprint and accelerating order intake. We address large corporates through dedicated sales engineers as well as indirect salespeople offering integrated services. We address the midmarket through dedicated sales engineers and a network of distributors managed by salespeople employed by us. Indirect sales channels people are managed by our sales engineers and are intended to help us better connect with the midmarket where local contacts are important. Indirect sales people include our B2B offers in the selection of offers that they market to mid sized companies, along with the offers of our competitors. We have also successfully leveraged our residential and B2B operations by taking advantage of cross selling opportunities in the wholesale segment.

Our sales distribution channels in Israel include 38 dedicated sales booths owned by the Group and operated by external dealers (the “HOT Booths”), other dealer outlets, telemarketing, and a door-to-door sales team. We have an in-house sales department for cable services, which is responsible for our sales, and we also hire external sales agents to facilitate our sales who earn a commission based on number of sales closed. Our largest distribution channel is telemarketing, while door-to-door sales and dealer sales also account for a significant portion of our sales. In Israel, we target our marketing efforts for our 3G mobile services primarily at individual customers and our iDEN mobile services primarily at institutional and business customers. We use a broad range of distribution channels to sell our mobile services, with the majority of our sales through the HOT Booths and approximately 15 sales and service centers, and a smaller portion through other dealer outlets such as branches of the Israel Postal Corporation and Menta stores Electric Warehouse, our HOT Mobile website, telesales and door-to-door sales. In the ultra orthodox sector, we market our mobile services through an external distributor. Additionally, we focus on recruiting individual customers through our business customers by offering attractive packages and plans to their employees.

In the French Overseas Territories, we have attractive distribution capabilities with 72 points of sale for approximately 2 million inhabitants across the region. Our recent acquisition of Outremer has allowed us to gain access to this high-density distribution network with excellent cross-selling and up-selling opportunities. While most of our competitors externalize distribution, we believe our distribution network is a key competitive advantage as it enables us to better control sales and costs and to better service our customers as our service offerings become increasingly more complex, while also facilitating cross-selling. We have progressively increased the range of products we sell in our retail outlets starting from mobile, fixed-line telephony and xDSL-based services to, more recently, mobile accessories, handset insurance and new subscription-based services payment services. We have also integrated our cable and mobile distribution networks following our acquisition of Outremer which allows us to sell cable-based services in our shops in Martinique and Guadeloupe.

We have a distribution network of 29 retailers in Belgium and eight retailers in Luxembourg. We make both inbound and outbound telesales through our customer call centers in Casablanca, Morocco, and Differdange, Luxembourg. We encourage customers to purchase our products and services through our website, which we believe provides customers a clear understanding of our product prices and features, and results in lower subscriber acquisition costs.

In Portugal, we have two different sales teams with one focused on residential cable customers and the other one targeting B2B customers. For the year ended December 31, 2013, and the nine months ended September 30, 2014, door-to-door sales accounted for the majority of our sales of residential cable television services, followed by sales through our 20 retail stores, followed closely by our inbound/outbound telesales. We have opened an online store and the initial results are encouraging. We incentivize our sales force through progressive commission rates based on number of sales closed while at the same time being able to reduce our fixed costs in pursuit of increased productivity. We are adopting measures to shift our distribution channels from door-to-door channels to call centers and stores (physical and online). We believe that this will help us to better serve the needs of our target customers. Our B2B sales force consists of a dedicated team of 53 (including 13 presales agents) covering our entire footprint and focuses on small offices, home offices, small and medium enterprises, large corporates and public entities. Our B2B sales team is supported by a call center function.

In the Dominican Republic, ODO benefits from what we believe to be efficient distribution channels through its homogeneous store network across the Dominican Republic, comprising more than 519 shops and 66,300 top-up points of sale. We believe ODO's strong footprint in areas with low mobile penetration makes it well-positioned to capture future growth. For example, ODO captured approximately 47% share of mobile gross-adds for the nine months ended September 30, 2014, based on management estimates, while only operating 18% of the approximate 2,900 points of sale in the Dominican Republic.

Likewise in the Dominican Republic, Tricom has developed a multi-channel distribution approach to provide its range of services to residential and business clients. It owns a network of 144 stores throughout the Dominican Republic which plays a critical part in its distribution strategy relating to its re-launched wireless business services. Approximately 127 dealer stores, with which Tricom has partnered up, account for the vast majority of its wireless services sales. The two key distribution channels for fixed services are (i) telemarketing where a dedicated team reaches out to clients to offer Tricom's services and products, and (ii) door-to-door sales where the sales force of approximately 115 physically visit clients at their homes and offices. Although still a minor channel, online sales are expected to grow as traffic on Tricom's website has been experiencing strong growth.

Customer Contracts and Billing

We typically enter into standard-form contracts with our residential customers. We review the standard rates for our services on an on-going basis. In certain of our geographies, in addition to the monthly fees we charge, customers generally pay an installation fee upon connecting or re-connecting to our cable network. The terms and conditions of our contracts, including duration, termination rights and the ability to increase prices during the life of the contract, differ across our operations primarily due to the different regulatory regimes our business is subject to in each of the jurisdictions in which we operate.

In France, we offer residential subscribers contracts with a duration of 12 months. Contracts with our B2B customers are generally entered into for an initial minimum period of one year for voice services and three years for data services, but are renewable for an indefinite period of time unless terminated by the customer or renegotiated. Contracts with public sector entities generally have a maturity of three to five years following mandatory tender processes. Our bulk contracts have an average duration of five years.

In Israel, we offer our residential cable customers commitment-free contracts meaning that they can terminate the contract at any time without paying an exit fee. Our residential customers are charged a monthly fee based on our standard rates at the time of subscription, which includes a monthly rental fee for end-user equipment such as set-top boxes. We have recently become subject to new regulations which require that the monthly fee for our pay television can only be collected at the end of the month for the services delivered during the preceding month. Previously we offered contracts with a duration of 12 or 18 months. Although in Israel we are generally locked into the prices we offer for the duration of a contract, we are not necessarily committed to maintain the prices at which we currently offer our products indefinitely. For example, we are permitted to increase prices based on an increase of the CPI index used to measure inflation and, in certain offers, subject to certain other terms. However, the price of our analog television services is subject to a maximum tariff, which is determined by the Israeli Broadcasting Council from time to time. Analog television accounted for 11,643 pay television RGUs in Israel as of December 31, 2013, and 4,751 as of September 30, 2014. The prices of our other cable-based services are subject to general oversight of the regulatory authorities, including notification requirements for price changes, but are not subject to a maximum tariff. Our contracts with business customers are generally not commitment-free, provided the amount exceeds NIS 5,000 per month, and pricing is based on our standard rates for the services subscribed to or in certain cases on individually negotiated rates.

We also offer our HOT Mobile residential mobile customers commitment-free contracts meaning that they can terminate the contract without paying an exit fee at any time. We were among the first mobile operators in Israel to unbundle our services from the purchase of handsets by offering customers our 3G services on handsets of their choice which they need not have purchased from us. Our mobile customers are generally charged a monthly fee based on our standard rates at the time of subscription and a one-time fee relating to SIM cards, and if purchased from us, the sale of handsets which we do not subsidize.

In Portugal, for our residential cable customer contracts, we offer standard contracts with a duration generally of 24 months and in certain cases 12 months. New customers are typically locked in for a 24-month period. Monthly fees include our rates as of the date of subscription plus a rental fee for end-user equipment. While we typically provide customers with modems free of charge, we offer set-top boxes either free of charge or subject to a discount, depending on the offer. In line with market practices in Portugal, we usually do not charge our customers any connection fees. We are permitted to increase prices without any limitation imposed by the regulatory authority; however, we are required to provide our customers with one month's prior notice. Contracts with business customers are individually negotiated, and the fees charged are typically agreed upfront and generally remain fixed for the entire duration of the contract. Business customer retention is high compared to the retention of residential customers as switching service providers in the short term can be difficult and costly especially for large corporate customers. Long-term business customer contracts have terms ranging between six to 60 months (with most contracts being for 24 or 36 months).

In Belgium and Luxembourg, we offer our residential cable contracts with a maximum duration of six months due to regulation. We are permitted to increase prices during the term of our customer contracts subject to an obligation on our part to afford customers the right to terminate their subscriptions should we decide to raise prices (and subject to the approval of such price increase by the Minister of Economy in Belgium). For regulatory reasons, we do not charge our customers early exit fees if they decide to terminate their contracts with us prior to expiration.

In the French Overseas Territories, we typically offer residential cable and xDSL customers contracts with a duration of 12 months, while our mobile customer contracts typically have a duration for up to 24 months. We are permitted to increase prices during the term of our customer contracts subject to an obligation on our part to afford customers the right to terminate their subscriptions should we decide to raise prices. We charge our customers early exit fees if they decide to terminate their contracts with us prior to expiration.

Our billing system for cable-based services in Israel has been developed by Convergys Solutions Limited ("Convergys") and we receive certain consulting, support and maintenance services from Convergys. Our billing system for our 3G mobile operations in Israel is an integrated billing and customer contact management system developed by Comverse Ltd. ("Comverse"). Our billing system for our iDEN mobile operations has been developed by Motorola Israel Ltd. Our billing system, ProCable, used in our cable operations in Portugal, Belgium and Luxembourg has been developed by InfoCABLYS, a Canadian provider of customer care and billing systems. In our French B2B operations, we rely on Arbor's billing software. In our Portuguese B2B operations, we use Stratus RedKnee's billing system as well as our own in-house billing system to a smaller extent. Our business in the French Overseas Territories continues to use a billing system which it has developed in-house.

In the Dominican Republic through our ODO operations, we bill our post-paid mobile subscribers directly. SIM cards, mobile phones and other devices can either be purchased directly from us or from one of our indirect distributors who, in turn, purchase them from us. We send monthly bills to our post-paid mobile customers, payable within seven to 25 days, and we monitor customer collections and payments. Overdue receivables in excess of 90 days are transferred to a third-party factoring agency. Pre-paid mobile customers purchase SIM cards, mobile phones and other devices directly from us or from retailers and dealers who, in turn, purchase them from us. We bill these retailers, dealers and distributors shortly after we deliver these products. These customers then have the ability to top-up their accounts through a number of payment channels, either directly with us (through the internet or in one of our stores), via Unstructured Supplementary Service Data ("USSD") or through any of our indirect distribution partners.

In all the jurisdictions in which we operate, we generally offer our customers the choice between electronic and paper statements and the ability to pay by bank order or credit card. We monitor payments and the debt collection process internally. We perform credit evaluation of our residential and business subscribers and undertake a wide range of bad debt management activities to control our bad debt levels, including direct collections executed by our employees, direct collections executed in co-operation with third party collection agencies and pursuing legal remedies in certain cases.

Customer Service

We aim to increase our customer satisfaction and decrease churn with high product quality and dedicated service. The customer service function for our cable-based and mobile services is carried out by approximately five call centers located in Yakum, Beer Shera, Haifa, Nazareth and Migdal Ha'omek, Israel (servicing our Israeli customers), a call center in each of Tunisia and Morocco (servicing our customers in France), a call center located in Casablanca, Morocco (servicing our French-speaking customers in Belgium), a call center located in Brussels (servicing our Dutch-speaking customers in Belgium), a call center in Differdange, Luxembourg (servicing our customers in Luxembourg), two call centers in Palmela, Portugal and Caldas de Rainha, Portugal (servicing our residential customers in Portugal), one call center in Lisbon, Portugal (servicing our business customers in Portugal) and a call center in Mauritius (servicing our customers in the French Overseas Territories). We also provide our customers with access to technical support help desks which operate at substantially all times.

Visits to customers' premises are performed by a mix of in-house and outsourced technicians. We aim to increase the extent to which this function is outsourced as we believe it optimizes our operational risks and costs.

In geographies where we offer B2B services, our institutional and business subscribers are served by dedicated business service and technical centers. For example, in France, our B2B segment has put in place customer service functions specifically adapted to the service quality requirements of business customers, including in respect of technical and administrative matters. Our computerized customer operations were upgraded through a specific program introduced in early 2012, which provides for a centralized and adapted approach to customer relations. Our standard service contract for B2B customers in France includes an undertaking to re establish service within four hours. Our annual availability has been greater than 99.98% during each of the past six years. Our highly secure network and customer service are available 24 hours a day.

We have launched and partially implemented initiatives aimed at improving our customers' experience. These initiatives include enhanced Customer Relationship Management ("CRM") systems, which allow us to better manage new subscribers, identify customers at risk of churning, handle complex customer issues, offer special retention offers to potential churners and repayment plans to insolvent customers.

In France, recent surveys have shown high customer satisfaction rates for our products and services. We were also ranked first in several online surveys on French broadband internet providers carried out in June 2013 by the website 01net. The quality of our broadband internet offering in France has also been confirmed by NetIndex.com, a website that anonymously compiles global internet speed data, which ranked us ahead of SFR, Bouygues Télécom, Free, Colt and Orange in France for the speed of our broadband internet offering over the period from January 2012 to June 2013. IP Label Newtest, which measures the performance of broadband internet providers in Paris and in the French provinces for 01net, ranked us first in terms of the quality of our triple play services provided in June 2013. In February 2013, the French magazine Capital designated LaBox as the best set top box in the French market. In addition, in a study conducted by the ARCEP in 2013, we were recognized as having the lowest failure rates (0.6% for Numericable Group, compared to 1.4%, 1.2%, 2.2% and 1.2% for Orange, SFR, Bouygues Télécom and Free, respectively), the best time for setting an initial connection (7 days for Numericable Group, compared to 9 days, 13 days, 14 days and 17 days for Orange, SFR, Bouygues Télécom and Free, respectively) and one of the best voice qualities in France. We believe that our high customer satisfaction levels are in part due to the ease with which our customers are able to self install our services. For a significant portion of our service offerings, we typically send all the necessary equipment to our customers who are able to simply "plug and play" thanks to the reach of our network. In 2013, 70% of our installations in France were carried out by our customers themselves, compared to 57% in 2009.

In Israel, we believe we have substantially improved customer care as a result of the introduction of new processes resulting in shorter waiting times in call centers, new ways of servicing customers such as via Facebook and live chat functions, the development of self-service applications, increased automation, a closer relationship with our subscribers through an increased number of interactions and the 24/7 availability of our technical support representatives. We believe a large proportion of our customers are loyal to our brands thereby reducing churn. As of September 30, 2014, approximately 63%, 52% and 41% of our Israeli pay television, broadband internet infrastructure access and fixed-line telephony customers respectively have been our customers for over four years, and approximately 57%, 55% and 57% of our Portuguese residential pay television, broadband internet access and fixed- line telephony customers respectively have been our customers for over four years.

With respect to the majority of our operations, we outsource our customer service functions to third-party providers. Such providers use operating procedures, tools and training that are provided by the Group. However, in some of our geographies, including France, a team of in-house specialists handles the most complex customer care issues. We see limited potential for further improvements in the efficiency of our customer care operations, as we have focused on optimizing these for several years.

We believe that the high-density distribution network we have in the French Overseas Territories as a result of the recent acquisition of Outremer enables us to provide better service to our customers as they can easily reach our stores. This will be particularly useful as our product and service offerings become increasingly broad and complex. As part of Outremer's integration into our Group, we are currently in the process of rolling out our customer service practices, including customer service functions relating to quadruple-play services, across our retail network.

Network

France

In France, we have an extensive network, covering both switched voice and data. Both our residential and B2B operations benefit from our extensive backbone. The total length of fiber cables that make up the national long distance network is approximately 13,000 kilometers as of December 31, 2013, and September 30, 2014. Our network has approximately 83 end points and approximately 30 amplification sites as of September 30, 2014, and is mainly based on dark fibers owned by us, lit with DWDM optical wavelength equipment. As of September 30, 2014, our network includes hybrid fiber and coaxial cable connections to residential homes, 80 fiber metropolitan area networks connecting corporate and public sector sites in France's dense business areas and an extensive DSL network over our switched voice lines with 700 network subscriber access nodes. Covering around 35% of homes in metropolitan France (as of September 30, 2014), our network is concentrated in densely populated areas and does not cover the entire French territory.

Our cable network is one of two core end to end French networks with extensive local loop infrastructure, the other being owned by Orange. Our cable network in France passed 9.9 million, or approximately 35% of French homes as of December 31, 2013 (with further 1.6 million passed by SFR) and 10 million, or approximately 35% of French homes, as of September 30, 2014. This included approximately 5.2 million homes passed by our FTTB/EuroDocsis 3.0-enabled network, 3.3 million homes by our EuroDocsis 2.0 enabled network and 1.4 million homes by our standard coaxial cable network (the latter without bi directional capability and thus limited to television services) as of December 31, 2013, and 5.8 million, 2.7 million, and 1.4 million homes, as of September 30, 2014, respectively.

Over 85% of the homes passed by our cable network in France are EuroDocsis 2.0-enabled or EuroDocsis 3.0-enabled as of December 31, 2013, and September 30, 2014. In addition, as of September 30, 2014, approximately 85% of the homes connected to our network benefits from a frequency of 862 MHz and is therefore triple-play capable. The portion of our network that has already been upgraded to FTTB and uses EuroDocsis 3.0 technology currently provides a download speed of up to 200 Mbps, which is the highest available in France on a large scale and allows our customers to connect several devices, such as computers, televisions, tablets and smartphones, simultaneously without impairing the quality of the television signal. We believe this download speed and our separate streams of television and internet give us an advantage over our competitors. In addition, this portion of our cable network in France has the potential capacity to support download speeds of up to 400 Mbps with limited capital expenditure. The portion of our network that uses EuroDocsis 2.0 technology provides a download speed of up to 30 Mbps, which, we believe, is higher than speeds offered by our DSL competitors. Both the EuroDocsis 3.0 and the EuroDocsis 2.0 television encoding technologies benefit from an 862 MHz frequency and enable us to offer our residential customers triple play or quadruple play and interactive services requiring large bandwidths. We believe that the picture quality of our television products, especially for HDTV channels, is superior to that of the IPTV technology used by our competitors on DSL lines and that this will become an increasingly important differentiator, especially for customers with wide screen television sets. In addition, we believe we are well positioned to respond to competitive pressure from FTTH and VDSL technologies, given the technological superiority of our network and the low coverage overlap between our fiber/cable network and those networks. With respect to areas covered by our cable network, less than approximately 15% of DSL lines will benefit from increased download speeds due to VDSL2+ technology.

Our B2B business in France relies on our fiber optic cable metropolitan area networks ("MANs") located in large urban areas installed in 80 dense business areas in France. Among other things, our MANs enable us to connect new B2B customers with limited capital expenditure. Our DSL network connects our business customers' more remote sites. Our fiber cable network in France passed over 10,000 corporate and public sector sites, and our DSL network passed over 80,000 corporate and public sector sites as of December 31, 2013, and September 30, 2014.

Our MANs and DSL network provide complementary access technologies to address our business customers' needs, which vary depending upon the bandwidth and security requirements of their sites. Generally, we connect our business customers' main and/or critical sites with fiber, provided that they are located within 500 meters of our MANs. Secondary sites of large business customers, as well as mid sized companies subscribing to our standard "Completude" service, are connected to our DSL network, except for "Completude Max" customers, who are connected through fiber. Customers' secondary sites outside of our DSL network's reach are connected through DSL lines or leased lines from other telecommunications operators. We believe that direct connections based on complementary fiber and DSL access are the best technical response to customer needs in terms of bandwidth requirements, technological and geographical complementarities and end to end control of service quality. Our national CORE IP network is one of the few "100 Giga ready" French networks to be up and running and runs from Paris to Lyon, and our VoIP network (which we believe is one of the most technologically advanced networks in France) can adapt to multiple technologies, providing the agility required to respond to customers' needs.

We own the hybrid fiber and coaxial cable in our network as well as the equipment, head ends, hubs and certain other parts of the access network, including our long distance backbone. The physical infrastructure into which our cables are placed, such as ducts and poles, are either owned by us or by Orange. Ducts and poles used by us but owned by Orange are accessed under long term IRUs. See "*—Network History and Ownership*". Several telecommunications operators can occupy or use the same physical infrastructure, or even the same telecommunications equipment, without affecting the quality of service being provided.

We expect to continue to selectively deploy fiber on a continual basis, where a densification of our fiber network in France is necessary to improve service to our customers. We generally upgrade the network to EuroDocsis 3.0 when the network is upgraded to FTTB at the latest. We continuously upgrade and renovate B2B connections in order to remain in line with customer expectations and requirements.

We have increased the number of homes in France connected with FTTB/EuroDocsis 3.0 over the past several years. We upgraded 658,000 homes in the year ended December 31, 2010, 114,000 homes in the year ended December 31, 2011, 503,000 homes in the year ended December 31, 2012, 408,000 homes in the year ended December 31, 2013.

For our B2B customers, one of the advantages of our network in France is that it is scalable with both fiber and DSL providing a key technological edge. We are able to use our fiber network to establish a direct connection to customer sites that have very high capacity requirements, with an average capacity of greater than 125 Mbps and a growing number of gigabit sites, and DSL to secondary customer sites with lower capacity requirements.

Network History and Ownership. Our network was built through the acquisition and combination of entities which themselves had built cable networks under various legal frameworks, in particular the 1982 Cable Plan (Plan Câble) and the 1986 New Deal Plan (Plan Nouvelle Donne). For a detailed description of the history and ownership of our network, see "*Risk Factors—Risks Relating to Our Business, Technology and Competition—There are uncertainties about the legal framework under which we own and operate our network in France, Belgium and Luxembourg*" and "*—We rely on third parties for access to and the operation of certain parts of our network*", and "*Description of Our Business—Material Contracts—Agreements relating to the installation and operation of our cable network in France*".

Technical Characteristics. We use the backbone, which refers to the principal voice and data routes between large, strategically interconnected networks and core routers, to transport all digital signals to our subscribers throughout France. The total length of fiber cables that make up our national long-distance network is approximately 13,000 kilometers as of December 31, 2013, and September 30, 2014. Our data backbone is currently running "All IP" and carries all of our communications traffic by using dedicated specific bandwidths for each of our digital television, high speed broadband internet, B2B data and residential fixed line telephony services. The voice backbone carries our switched voice communications traffic. We consider this backbone to have full capacity to meet our subscribers' needs.

The part of our network that uses standard coaxial cable to provide analog and digital television to approximately 1.4 million homes, as of September 30, 2014, is not connected to our backbone.

Routers put in place before 2007 (i.e. before EuroDocsis 3.0) allow for download speeds of up to 100 Mbps, and routers with EuroDocsis 3.0 allow for download speeds of up to 400 Mbps.

The distribution of our services within dense metropolitan areas is supported by local loops which are connected to the backbone and can address increased capacity needs. We own the local loops connected to our network.

Our residential subscribers connect to the network through a coaxial cable connection from one of our nodes. On average, approximately 1,000 homes (for the portion of the network equipped with EuroDocsis 2.0) and 200 homes (for the portion of the network equipped with EuroDocsis 3.0) are served by one of the approximately 400,000 optical nodes in our network. In the portion of our network upgraded to EuroDocsis 3.0, approximately 43% of homes are located within approximately 100 meters from the fiber connection on average (with fewer than 100 homes per node on average), approximately 16% of homes are located within approximately 200 meters from the fiber connection on average (with between 50 and 100 homes per node on average) and approximately 41% of homes are located within approximately 300 meters from the fiber connection on average (with more than 500 homes per node on average).

Network quality can deteriorate as customer penetration rates on any particular node increase above a certain threshold. When required, the scalability of our network enables it to address this problem, within limits, through node "splits" in which we install additional equipment at the node so that the same capacity serves approximately half of the initial homes. We use amplifiers on a portion of our coaxial lines to strengthen both downstream and return path signals on the local loop, but not on the EuroDocsis 3.0-enabled portion of our network to which subscribers are connected by an FTTB connection. The FTTB technology allows for fiber deployment to generally reach the boundary of our subscribers' building, such as the basement in a multi dwelling unit, with the final connection to the individual living space being made via alternative, non optical means, typically through a coaxial cable. By relying on existing coaxial cable within each building to reach each customer's apartment, the FTTB technology allows us to vertically integrate more customers at low cost and more quickly than operators deploying FTTH. However, as the number of subscribers in a building increases, FTTH can become necessary to ensure the same speeds.

We monitor the performance levels of our networks in France on a continuous basis. The backbone network has been designed to include redundant features to minimize the risk of network outages and disasters and reroute traffic in the opposite direction around the backbone in the event that a section of the backbone is cut. Even though we have insured our buildings, head end stations, nodes and related network equipment against fire, floods, earthquakes and other natural disasters, they are not insured against war, terrorism (except to a limited extent under our general property insurance) and cyber risks. We carry insurance on our fiber optic network and property damage insurance for our coaxial network up to a capped amount and subject to exclusions.

Israel

We provide our pay television, broadband internet infrastructure access and fixed-line telephony services through our extensive fully-owned cable network which we believe is one of most technologically advanced networks in the EMEA region. Our cable network passes most of Israel's 2.3 million households. The fiber-rich characteristic of our network generally gives it inherent capacity, speed and quality advantages as compared to copper-based xDSL networks. In particular, a fiber and coaxial cable offers a larger bandwidth than copper cable and, unlike the latter, it is not significantly affected by attenuation (i.e. a reduction in the strength of the signal) or distortion (i.e. a reduction in quality of the signal) when the signal is carried over a long distance. Our cable network allows the provision of fiber optic transmission services using DWDM technology, SDH technology or IP technology. In addition, our cable network backbone includes two national and regional strategically interconnected head-ends that enable transmission of signals over our cable network. We are in the final migration process of switching telephony customers from 4 Nortel CS2K telephony switches to the new telephony environment based on Genband (Class 4) and Broadsoft (Class 5) switches with advanced Session Initiation Protocol ("SIP") switch which is used to create and control communication sessions over an IP network. Our network supports minimum capacity per household of 862MGhz in approximately 45% of our homes passed, 750 MGhz in approximately 40% of our homes passed, and 600 MGhz in approximately 15% our homes passed, respectively.

Our cable network enables us to deliver broadband internet infrastructure access, fixed-line telephony and other interactive services, such as VoD, to our customers throughout our cable network in addition to regular digital and analog television services. Our entire cable network is also U.S. Docsis 3.0-enabled allowing us to provide ultra-fast broadband internet infrastructure access services at a download speed of up to 100 Mbps with limited or no degradation in speed throughout our network, which we believe is the fastest in Israel on a large scale and can support theoretical download speeds of up to 300 Mbps with certain limited modification to network equipment, which will allow us to easily upgrade our network to increase download speeds in the future. In 2011 and 2012, we also began selectively deploying FTTx network upgrades to certain households, which involved replacing existing copper wires used for local loop connectivity with optical fiber to reach the end user's building or last amplifier. We plan to continue the selective deployment of FTTx at our discretion which will enable an expansion in the traffic capacity over our cable network and improve our VoD services, increase the number of television channels we are able to offer and increase the speed of our internet services.

Our cable network is fully owned by HOT Telecom. Part of our cable network runs through ducts and poles owned by Bezeq. We are party to certain continuing arrangements with Bezeq relating to the installation and maintenance of such parts of our cable network. We incurred total costs of NIS 46 million, NIS 48 million and NIS 47 million in 2011, 2012 and 2013, respectively, for services provided by Bezeq under these arrangements. For further details, see "*Description of Our Business—Agreements with Bezeq relating to installation and maintenance of portions of our cable network—Material Contracts*".

HOT Mobile historically provided mobile services using an iDEN-based mobile network infrastructure, which, as of December 31, 2013, comprised of approximately 635 network sites, and as of September 30, 2014, consisted of approximately 630 network sites, distributed throughout Israel providing nationwide coverage. In relation to the roll-out of our UMTS-based 3G mobile services, we are in the process of building and expanding a UMTS network based on modern HSPA+ technology. We have committed to the State of Israel to achieve the following periodic coverage milestones for our UMTS network based on total Israeli population: by September 2015, coverage of 40% of the settled area of Israel and where at least 40% of the Israeli population is residing; by September 2016, coverage of 55% of the settled area of Israel and where at least 55% of the Israeli population is residing; by September 2017, coverage of 75% of the settled area of Israel and where at least 75% of the Israeli population is residing; and, by September 2018, coverage of 90% of the settled area of Israel and where at least 90% of the Israeli population is residing and coverage of 90% of the roads in Israel. We have expanded our UMTS network coverage through a combination of modifying our existing mobile network sites by installing UMTS equipment enabling the use of the new frequencies and building new UMTS enabled sites. Our UMTS network already extends to approximately 56% of the inhabited territory of Israel and covers approximately 71% of the Israeli population. We have deployed approximately 1,000 sites as of September 30, 2014.

We believe that the Network Sharing Agreement between HOT Mobile and Partner will reduce the need for new sites, resulting in the slowing down of the roll-out of the new sites. Previously, we relied on an agreement with Pelephone, a subsidiary of Bezeq, pursuant to which we used Pelephone's in- country roaming services to service our customers while we built out our UMTS network. In November 2013 we entered into the Network Sharing Agreement with Partner pursuant to which HOT Mobile and Partner will own equal shares of a newly formed limited partnership, which shall hold, develop and operate an advanced shared mobile network for both companies. Furthermore, in December 2013, HOT Mobile and Pelephone amended their underlying agreement repealing the exclusivity clause which HOT Mobile was subject to. This amendment will allow HOT Mobile to exercise its rights under Network Sharing Agreement. The Network Sharing Agreement has received approval from the Israeli Antitrust Authority (subject to certain conditions), but remains subject to final approval from the Israeli Ministry of Communications. In the interim, HOT Mobile has entered into the RoU Agreement with Partner which gives HOT Mobile a right of use over Partner's mobile communication network for the purpose of providing nation- wide mobile coverage to our customers.

The Network Sharing Agreement with Partner is valid until December 31, 2028, and provides for automatic renewals in five-year increments after December 31, 2028. We have also entered into a roaming contract with Vodafone pursuant to which Vodafone provides our 3G customers with international roaming capabilities. For further details see "*Description of our Business—Material Contracts—Agreement with Pelephone, Vodafone and Belgacom relating to mobile roaming services*" and "*—Material Contracts—Mobile Network Sharing Agreement with Partner in Israel*". Our Israeli cable-based business, which we run under the "HOT" brand, has allowed our mobile business to benefit from certain synergies including in respect of retail distribution and brand awareness.

Currently, our UMTS network permits data transfer at speeds of up to 42 Mbps which we are seeking to increase to 84 Mbps in the future. In addition, the Israeli Ministry of Communications has initiated a tender process for a total of eight frequency bands in the area of 1,800 MHz that will enable delivery of mobile services using 4G-LTE technology. On November 18, 2014, HOT Mobile submitted its offer in response to the tender. On January 12, 2015, the Israeli Ministry of Communications informed HOT Mobile that based on the results of the tender it would be awarded a frequency bandwidth of 2X5MHz in the 1.8 GHz spectrum, for a license fee of NIS 34.5 million (up to half of which may be paid by way of provision of a bank guarantee, which may be refunded, in whole or in part, upon HOT Mobile reaching certain market share milestones). The tender results will be brought before the Minister of Communications for approval. In the event that such approval is awarded and we acquire such frequencies, we expect to begin developing infrastructure within the arrangements we have entered into with Partner (subject to regulatory approvals) that would allow us to commercialize such services. The conditions to the 4G-LTE tender also clarified that a licensee may enter into a network sharing agreement with another licensee subject to certain conditions. As a result, HOT Mobile has updated its request for approval by the Ministry of Communication of the Network Sharing Agreement with Partner. It was also clarified that Golan Telecom and HOT Mobile may request to replace the deployment plan they attached to the tender for the UMTS frequencies with a deployment plan for 4G, provided investment in the 4G network is equivalent to investment in the original deployment plan they committed to, and that they will only use frequencies assigned to them in the 4G tender for the provision of 4G services.

We believe that, because of our extensive fixed-line network and our advanced UMTS network, upgrading our mobile network to the 4G standard will involve significantly less capital expenditure (or investment in the newly formed limited partnership to be set up in Israel pursuant to the Network Sharing Agreement between HOT Mobile and Partner) than we incurred to roll- out our 3G network because our mobile network infrastructure will require minimal upgrading as compared to some of our competitors. We believe these factors will allow us to quickly market the latest 4G-LTE-based packages to our customers. The Ministry of Communications has allowed existing operators wishing to upgrade their systems immediately to temporarily use the frequency bandwidth of 5 MHz (X2) in the area of 1,800 MHz LTE technology (subject to certain conditions), and, as such, HOT Mobile is intending to launch such 4G-LTE services to customers in the coming months.

The following table sets forth details regarding the spectrum allocated to us and our competitors for the provision of mobile services.

Service Provider	**UMTS Bandwidth (Mhz)**	**GSM Bandwidth (Mhz)**
HOT Mobile	2,100	—
Pelephone	850 - 2,100	—
Cellcom	850 - 2,100	1,800
Partner	900 - 2,100	900 - 1,800
Golan	2,100	—

Portugal

In Portugal, we benefit from a state-of-the-art HFC cable network that passed 908,000 homes as of December 31, 2013, and 909,000 homes and covered certain Portuguese cities in over 13 districts and 70 municipalities, as of September 30, 2014. The company is licensed by ANACOM to provide public cable television services in 233 Portuguese municipalities, as well as public telecommunication network and fixed telecommunication services. We use this network to provide residential pay television, broadband internet access and fixed-line telephony services. It extends over 12,000 kilometers and includes 3,600 kilometers of optical fiber. We have upgraded approximately 99% of our network to Docsis 3.0 and expect to reach 100% following certain upgrades that are currently underway. We fully own our distribution networks, head-ends and drops, which gives us significant flexibility to deploy and constantly improve our product offering.

Our acquisition of ONI enriched our assets base with the second largest B2B cable network in Portugal covering approximately 85% of the Portuguese population. We operate a nationwide backbone supported by approximately 9,150 kilometers of fiber pairs and 431 points of presence supporting 9,605 customer sites, using OTN (Optical Transport Network) connections comprising several 10 Gbit/s signals over a single optic-fiber pair with speeds between 155 Mbit/s and 10 Gbit/s. Radio links complement our access portfolio, with 172 point- to-point systems in service. In addition, our network is connected to Spain through the 10G SDH Iberian ring and a new 10G PTN connection. Furthermore, we use SDH to support Ethernet services using its wide coverage (1200 NE) and the intrinsic automatic protection in case of failure by switching to an alternative route in less than 50 ms. In the two main metropolitan regions, Lisbon and Porto, Packet Transport Network (PTN) technology backbones are providing native Ethernet clients accesses through optic-fiber, usually with 1 Gbit/s of bandwidth. Within the cities and in the B2B environment, FTTH is deployed with direct extension of PTN, enabling up to 100 Mbps and 1G VPN/VLAN services. A wider coverage is attained with xDSL technologies in operation in 139 co- location sites and, since June 2013, symmetric Ethernet services are supported through Ethernet Last Mile (EFM) technology with a theoretical reach of 120 Mbps but being deployed for 10 Mbps (four pairs).

Belgium and Luxembourg

We provide our pay television, broadband internet access and fixed telephony services to both residential and business customers who reside in our service area through our combined broadband HFC network which consists of a fiber backbone with local loop connections constructed of coaxial cable with a minimum capacity of 860 MHz in Brussels and 550 MHz in Luxembourg. We are the only operator with a fully secured backbone between Paris/Luxembourg and Brussels with excess capacity, which can be used to exchange all channels carried in France, Belgium or Luxembourg.

In Brussels, our network assets include approximately 513 kilometers of fiber backbone. We own the primary and secondary fiber backbone and the fiber and coaxial cable. In Luxembourg, our network assets include approximately 450 kilometers of fiber backbone. We own the primary and secondary fiber backbone and the fiber and coaxial cable.

Our fiber backbone is currently running All-IP and carries all of our communications traffic with dedicated bandwidth for the various types of traffic. Customers connect to the network through a coaxial connection from one of our nodes.

Amplifiers are used on the coaxial lines to strengthen both downstream and return path signals on the local loop. On average, approximately 171,000 homes in Brussels and 42,000 homes in Luxembourg are served by each of the approximately 240 optical nodes in the Brussels region, approximately 30 optical nodes in the AIESH region and approximately 96 optical nodes in Luxembourg. Network quality can deteriorate as customer penetration rates on any particular node increase above a certain number. When required, the scalability of our network enables us to address this problem, within limits, through node "splits" in which we install additional equipment at the node so that the same capacity serves approximately half of the initial homes.

In Brussels and in Luxembourg, we built our network pursuant to agreements with municipalities which authorized us to build and operate a television cable network over the territory of the municipality. In Luxembourg, in certain municipalities, we directly acquired the network from private owners, while in other instances the network is owned by the municipality which we operate pursuant to a concession agreement. Ownership of the network between the cable operator and the municipality during the term of the agreement can also depend on who originally invested in the network.

Our HFC cable network passed 171,000 homes in Brussels and 42,000 homes in Luxembourg as of December 31, 2013, and 171,000 and 42,000 homes as of September 30, 2014, respectively.

Our entire cable network in Brussels and Luxembourg is nearly fully EuroDocsis 3.0-enabled. Within the network we acquired in late 2012 in the County of Hainaut in Belgium, we have already upgraded approximately 100% of homes passed to triple-play capability, approximately 19% of our subscribers in the area are already subscribed to one of our multiple-play products and approximately 39% now receive digital services. We provide mobile services utilizing the mobile network of Mobistar in Belgium (the second largest mobile service provider in Belgium) pursuant to mobile virtual network operator ("MVNO") agreements.

French Overseas Territories

Following our acquisition of Outremer, our proprietary infrastructure in the French Overseas Territories now includes mobile networks based on GSM/GPRS/EDGE and UMTS/HSPA technologies enabling us to deliver 2G and 3G services respectively, with coverage throughout the French Overseas Territories. Our acquisition of Outremer also enriched our asset base with fixed-line xDSL networks, over which we provide internet, fixed-line telephony and IP television services which are available to most households in the region. In Guadeloupe, Martinique and La Réunion, our fixed-line xDSL network is supplemented by WiMAX capability enabling the delivery of last-mile wireless broadband internet access. In addition, we have invested in IRUs and leases of submarine cable capacity, which connect our terrestrial mobile and xDSL fixed-line networks to international routes.

In addition to mobile and fixed-line xDSL networks, we also own a HFC cable network in Martinique and Guadeloupe, which, as of December 31, 2013, passed 73,312 homes in Martinique (covering approximately 57% of Martinique by homes passed) and 80,831 homes in Guadeloupe (covering approximately 53% of Guadeloupe by homes passed). As of September 30, 2014, our HFC cable network passed 73,601 homes in Martinique (covering approximately 57% of Martinique by homes passed) and 104,663 homes in Guadeloupe (covering approximately 69% of Guadeloupe by homes passed). We are currently in the process of upgrading our network to EuroDocsis 3.0 and have upgraded 95% of our network as of September 30, 2014, compared to 49% as of September 30, 2013. We expect to complete this process by the end of the first half of 2015, following CMTS capacity roll-out over the second half of 2014.

It is expected that ARCEP will initiate an application process to award spectrum for the provision of 4G-LTE mobile telephony services in the French Overseas Territories in the final quarter of 2015 in the Caribbean area and by the beginning of the third quarter of 2015 in the Indian Ocean. In the event we are awarded such 4G-LTE spectrum, our ability to provide 4G-LTE mobile services to complement our existing 2G and 3G mobile services in the French Overseas Territories will depend in part on our ability to upgrade our mobile network and roll-out a 4G-LTE network, which could involve a significant amount of capital expenditure. Based on current plans, we expect that we would need to invest approximately €27 million (net of tax subsidies) from 2014 through to 2016 to upgrade our networks to roll-out LTE mobile services. In the Indian Ocean (Reunion and Mayotte), Outremer will dispose of its mobile operations. In those territories, expected 4G investments represented €6.5 million in 2015 and €5.1 million in 2016.

Dominican Republic

Through ODO, we own the highest quality 3G mobile network in the Dominican Republic, based on a public analysis by an independent consultant. Our previous capital expenditures have resulted in what we believe to be superior coverage and network reliability.

We offer our mobile services through our 2G GSM/GPRS, 3G UMTS/HSPA and 4G-LTE mobile access network comprising approximately 1,205 antenna sites with approximately 1,378 2G GSM/GPRS base stations (BTS), approximately 880 3G UMTS/HSPA base stations (node-B) and, 180 4G-LTE mobile base stations as of September 30, 2014.

ODO has nationwide coverage through its high quality 2G network (96% and 96.4% population coverage as of September 30, 2014) which is fully EDGE capable. ODO installed five new 2G sites during the nine-month period ended September 30, 2014. Additional sites have also been identified for future installations. ODO achieved 77.1% population coverage through its 3G network as of September 30, 2014, offering download speeds of up to 42 Mbps. The roll-out of the 3G network is on-going and ODO aims to cover approximately 80% of the population by 2015.

In July 2012, ODO became the first operator in the Dominican Republic to commercially launch its 4G-LTE network. However, certain disputes with competitors (over allegations of anti-competitive practices) resulted in restrictions being imposed on ODO's 4G-LTE network by Indotel, thus slowing its 4G-LTE deployment plans. These disputes have now been resolved and the Indotel-imposed restrictions have been removed, and as a result ODO now offers nationwide 4G-LTE services on mobile devices through the 4G-LTE spectrum it offered services through prior to the ODO Acquisition. It is our intention, once the ODO and Tricom merger receives the required regulatory approval, to migrate ODO's 4G-LTE services onto the spectrum in the 1,900 MHz frequency licensed to Tricom since the conclusion of the 4G-LTE public frequency auction in May 2014. Pursuant to this, ODO has filed a technical pilot application with the relevant regulatory body which, if approved, would allow ODO and Tricom to work on the technical logistics of the proposed 4G-LTE migration ahead of their merger.

As of September 30, 2014, ODO had 180 4G-LTE-enabled mobile sites (offering approximately 32% population coverage). In light of the favorable resolution of the spectrum capacity issues, ODO now plans to increase its 4G-LTE population coverage. ODO benefits from a scalable multimode 3G network, which is easily upgradable to 4G. The 4G-LTE roll-out has been predominantly driven by demand in the B2B segment, with the focus of coverage on the Santo Domingo and Santiago regions, where a majority of clients are based.

We are rolling out a backbone transmission optic fiber to connect high density areas and progressively decommission the SDH microwave links while sustaining future traffic growth. ODO owns an optical backbone that management believes will allow ODO to meet future increases in data traffic. Our transmission backbone includes underground fiber along the main communication axis in the Dominican Republic (Santo Domingo, Santiago and Puerto Plata). Additionally, ODO has identified other high density traffic locations to be connected with fiber in the future. Fiber is being rolled-out both below and above ground, in an on-going effort to optimize cost and deployment time. At the same time, in remote areas where the deployment of fiber is expensive, ODO is making use of microwave backhaul.

Tricom provides its pay television, broadband internet and fixed-line telephony services through its HFC cable, xDSL and GPON networks. With respect to fixed services, Tricom benefits from an integrated platform which includes networks based on HFC, copper and fiber technologies while it prioritizes the modernization and expansion of its entirely digital cable network. As of December 31, 2013, Tricom had upgraded 77% of its cable network to bi-directional capability. Tricom has upgraded a further 10% of its cable network to bi-directional capability as of September 30, 2014, with a substantial majority of homes passed on 750 MHz or 1,000 MHz. Up to a maximum of 750 homes are served by each optical node in Tricom's network. Tricom's entire cable network is digital and capable of supporting HD and DVR services. Tricom is continuing the expansion of its cable network into key cities that are still underpenetrated and where proprietary fiber optic is already present, offering growth potential. To this end, it relies on an in- house team which designs approximately 80 kilometers of network each month, as well as third-party construction teams which implement in-house design and build approximately 70 kilometers of network each month. Tricom has in-house capability to activate, and perform quality control procedures on its network. In addition, Tricom has focused on maintaining its xDSL network to serve customers in areas not reached by its cable network.

Tricom provides its mobile telephony services separately through its wireless network and has 25 MHz of spectrum in the 850 MHz frequency, allowing it to offer its customers 3G mobile services, and 30 MHz of spectrum in the 1,900 MHz frequency, allowing it to offer 4G-LTE mobile services. Tricom has an additional 30 MHz of spectrum in the 3,500 MHz frequency where it offers some WiMAX coverage (East coast). Tricom launched 4G mobile services in May 2013. Tricom's network in the 850 MHz and 1,900 MHz frequencies cover approximately 86% and 60% of the Dominican Republic population, respectively, as of September 30, 2014. Tricom's 4G and 3G services are capable of supporting mobile download speeds of up to 70 Mbps and 3 Mbps, respectively.

Suppliers

While, historically, purchasing activities were typically carried out locally at the various entities comprising our business, we have recently begun to globalize and streamline our procurement processes by combining our aggregate purchasing power. The purpose of our centralization efforts is to leverage the combined scale of the Altice Group operations located in different geographies and thus negotiate more favorable pricing and other commercial terms from suppliers of certain hardware, software, pay television content and other products used in all of our operations than each of our businesses could individually secure. In order to put the centralization process on a more formal footing, we are currently in the process of establishing a global purchasing subsidiary. We believe that the continued integration and streamlining of our global procurement processes will allow us to realize significant cost savings going forward.

We have relationships with several suppliers that provide us with hardware, software and various other products and services necessary to operate our businesses. We use a limited number of subcontractors to maintain our network, operate our call centers and supply, install and maintain installed consumer and on-site business and public sector terminals, with Group employees performing only a small portion of installations. Certain services can be self-installed by our customers, but most still require a professional installer. Our agreements with third-party providers generally require that the subcontractors maintain certain quality levels and use trained personnel, and we monitor the efficiency and quality of service provided by our subcontractors on a regular basis.

We currently deploy the set-top box LaBox in our operations in Belgium, Luxembourg and Portugal, and we also introduced LaBox in Israel in March 2014. We purchase LaBox set-top boxes from Sagemcom for use across our operations. We also continue to procure set-top boxes for use in certain of our operations from Technicolor. The Altice Group generally weighs in on the negotiation of each individual contract entered into by our businesses in order to leverage its combined purchasing power and generally ensure the same terms and conditions are agreed upon across its operations. While we progress the globalization of our procurement functions, our businesses continue to purchase certain of the products and services required for their operation under locally negotiated contracts for a variety of reasons, including the need for such products and services being specific to each locality.

In our French residential business, our main hardware and software suppliers are Sagemcom, Castlenet and Netgear, which equip us with set top boxes and broadband internet routers in which we own the intellectual property rights; Cisco, which provides us with cable router termination systems (i.e. equipment typically located in the head end or hubsite which we use to provide high speed data services); Pro Cable, which supplies us with billing and related software and hardware; and Nagra France, which sells us its conditional access system. The main hardware and software suppliers of our French B2B segment are Cisco, which provides us with data network parts and customer premises equipment, such as servers; Huawei, which supplies us with voice network components and voice related customer services equipment; Genbad, which provides voice network maintenance; Ciena, which provides fiber and data network components; and Arbor, which sells us its billing software. Other than in respect of Nagra France, we do not believe we have any material supplier dependencies. Our contract with Nagra France was entered into in October 1999 and expired in 2007. Upon expiration, the contract is tacitly renewed for successive five year periods, subject to termination by either party upon six months' notice prior to the end of any such five year period. The last tacit renewal took place on January 1, 2012, and the contract will therefore be up for renewal again in December 31, 2017.

In Israel, our key infrastructure, hardware and software suppliers for our cable-based operations include Bezeq which provides us with design, installation and maintenance services relating to certain parts of our cable network which pass through ducts and poles owned by Bezeq; Genband, Bynet and BroadSoft which provide us with equipment and services relating to telephony switches; NDS Limited, a subsidiary of Cisco, which provides us with equipment and services relating to unified encryption systems; Technicolor and Sagemcom, which provide us with set-top boxes including, in respect of Sagemcom, the HOT Box; and Nagravision, which provides us with software for set-top boxes.

We have entered into a number of reciprocal interconnection agreements with fixed-line telephony providers in Israel, mobile operators in Israel and internal long-distance telephony operators. We have also entered into an agreement with Convergys in relation to certain billing-related services for our cable services. In addition, we contract with suppliers for the purchase of television programming content that we package and broadcast under the HOT suite. We also purchase rights to broadcast independent Israeli and international channels on our network and content for our VoD service. We use a limited number of subcontractors to install broadband internet, telephony and digital television equipment in customer homes. Our agreements require that the subcontractors maintain certain quality levels and use trained personnel, and we monitor the efficiency and quality of the service provided by our subcontractors on a regular basis. With respect to our mobile operations, we have engaged Nokia Solutions and Networks ("NSN") as a turnkey contractor to plan and build the new UMTS network. We have entered into an agreement with Pelephone, which has provided us with in-country roaming services for our 3G mobile operations since we began offering mobile services in Israel in May 2012 and also have roaming agreements with several foreign mobile operators. In November 2013 we entered into the Network Sharing Agreement with Partner pursuant to which HOT Mobile and Partner will own equal shares of a newly formed limited partnership, which shall hold, develop and operate an advanced shared mobile network for both companies. The Network Sharing Agreement, which has received approval from the Israeli Antitrust Authority (subject to certain conditions), but remains subject to final approval from the Israeli Ministry of Communications, will enable HOT Mobile and Partner to share antennas and frequencies and facilitate optimum utilization of the spectrum. In the interim, HOT Mobile has entered into the RoU Agreement with Partner which gives HOT Mobile a right of use over Partner's mobile communication network for the purpose of providing nation-wide mobile coverage to our customers. In December 2013, HOT Mobile and Pelephone amended their underlying agreement repealing the exclusivity clause to which HOT Mobile was subject to. This agreement will allow HOT Mobile to exercise its rights under the Network

Sharing Agreement with Partner once final regulatory approval by the Ministry of Communications is received. We have agreements with various suppliers for the purchase of 3G compatible handsets. Comverse supplies us with certain services relating to an integrated billing and customer relation management ("CRM") system for our 3G mobile operations. The main suppliers for our iDEN-based mobile operations are Motorola Solutions, which owns the rights to the iDEN technology and is the primary manufacturer of infrastructure equipment for iDEN technology, and Motorola Mobility which manufactures end- user equipment for iDEN technology.

The suppliers to our residential business in Portugal include Portugal Telecom and EDP, which provide us with services relating to certain parts of our cable network which pass through ducts and poles owned by them; Fibnet and Aveicabo, which provide us with installation services and services relating to the maintenance of our network; Randstad, which provides us with contract and payroll management services relating to our sales agents as well as call center functions; as well as NSN and Genband, which provide us with hardware as well as maintenance and support for network equipment. For our recently-acquired Portuguese B2B business, we have a set of long-term contracts for our main infrastructure (sites and fiber) with Rede Eléctrica Nacional and Electricidade de Portugal, in addition to the use of our own fibers, a contract for ducts and land with BRISA, the main Portuguese highway operator, and also leased circuits from PT Portugal. In Spain, we lease bandwidth and optical wave-lengths from British Telecom and UFINET enabling our presence in the Iberian Peninsula and Madrid. Further key suppliers of our Portuguese B2B business include Alcatel-Lucent, Cisco, Corient, Sonus.HP, Ruckus, Dell and Axis.

In Belgium and Luxembourg, Numericable France is our main supplier of hardware and software necessary to operate our business. Pursuant to a services agreement we entered into with Numericable France on the date of the acquisition of Coditel by us, Numericable France provides us with technical, engineering and support services, while also allowing us to benefit from its purchasing power for equipment, in particular set-top boxes, content and IP traffic. Other key suppliers of our IT needs include InfoCABLYS, which provides us with hardware and the billing and customer care software "ProCable", and Sage, which provides us with support for its enterprise resource planning system that we use. In Belgium, we use subcontractors to install internet, fixed-line telephony and digital TV equipment in subscriber homes, in addition to having a small portion of installations performed by our own employees. In Luxembourg, we use both our own employees and subcontractors to perform installation services. Certain services can be self-installed by our customers but most require a professional installer. Our agreements require that the subcontractors maintain certain quality levels and use trained personnel, and we monitor the efficiency and quality of service provided by our subcontractors on a regular basis.

In the French Overseas Territories, our key suppliers are the telecom operators France Telecom/Orange, SRR and Digicel to which we pay interconnection fees and purchase capacities from for both our cable-based and mobile activities. With respect to our recently acquired mobile operations, we historically source our handsets from Samsung and Alcatel and purchase our network infrastructure and 2G/3G base stations from ZTE. In anticipation of the potential release of frequencies for 4G-LTE, we requested quotes from major original equipment manufacturers. Regarding our cable-based operations, we purchase rights to broadcast channels on our network and content for our TV service and we use only one subcontractor, ERT, to install broadband internet, telephony and digital television equipment in subscriber homes. We procure our xDSL modems and set-top boxes from Pace (formerly known as Bewan) and Sagemcom, while we purchase our cable modems and set-top boxes from Numericable France which sources from Netgear and Technicolor, respectively.

In the Dominican Republic, ODO has entered into agreements with a variety of service and outsourcing suppliers to conduct our ongoing business. These services include supply of software licenses, call center support, data management and human resources consulting, among others.

Material Contracts

The agreements described below are of material importance to our Group. The overview of each agreement set forth below is an overview of the material terms of such agreements as in effect as of the date of these Listing Particulars.

Agreements relating to the installation and operation of our cable network in France

Our overall cable network in France, which comprises a combination of networks we inherited from different French cable operators we acquired, is operated as a single network pursuant to long term agreements with Orange and certain public authorities for the use of Orange's ducts and the occupation of public domains, respectively.

Orange IRUs

We entered into non exclusive IRUs with Orange on May 6, 1999, May 18, 2001, July 2, 2004, and December 21, 2004, in connection with the acquisition of certain companies that operated cable networks built by Orange. These cable networks, accessible only through the civil engineering installations of Orange (mainly its ducts), are made available to us by Orange through these non exclusive IRUs. These IRUs each cover a specified geographical area and were entered into for a 20 year term. The IRUs are neither subject to early termination nor provide for automatic or tacit renewal. Under the IRUs, we are granted access to some of Orange's civil engineering installations to maintain and upgrade our network, provided we comply with certain predefined operating procedures, but are not permitted to extend our network by using such existing civil engineering installations. Furthermore, Orange remains in charge of the maintenance of its civil engineering installations.

In 2008, ARCEP ruled that Orange had to offer access to its ducts to other telecommunications operators to allow them to roll out their own fiber networks. The terms on which Orange makes its ducts available to other operators are less favorable than the terms we benefit from under the IRUs. On November 4, 2010, ARCEP ruled that the operational procedures of our IRUs should be modified and aligned with the operational procedures granted by Orange to other operators. Our IRUs with Orange were accordingly amended in December 2011.

Agreements with Public Authorities under the New Deal Plan

In 1986, the French government launched the New Deal Plan (*Plan Nouvelle Donne*) (Law 86 1067 of September 30, 1986, relating to freedom of communication). Under this new regulatory framework, local authorities could themselves set up networks or authorize private companies to set up these networks. Several private companies (which we later acquired) set up new networks and were granted occupancy rights and operating concessions to operate these networks for 20 to 30 years. The networks belonging to the New Deal Plan represent approximately 38% of our overall network in France.

There is no form of contract in connection with the New Deal Plan and, as a result, there has been a certain degree of uncertainty over the network ownership under certain long term agreements entered into with local authorities. We entered into approximately 500 agreements in connection with New Deal Plan networks.

In this context, law 2004 669 dated July 9, 2004, which implemented the 2002 European directives, "2002 Telecoms Package" (the "*Paquet Télécoms 2002*"), into French law, imposed an obligation to conform agreements through terminating exclusive rights over the installation and/or operation of networks.

In order to clarify the conditions for conforming the agreements currently in place with public authorities (primarily local authorities) in accordance with this obligation, in May 2010, we made a proposal to ARCEP to novate the agreements under the following approach: the ownership of physical infrastructure (the ducts) reverts back to local authorities, while ownership of all existing telecommunications equipment and cables expressly reverts back to us through a transfer process.

This approach led to the conforming of transactional agreements (i) containing the aforementioned provisions and (ii) including a right to the use of public land (*convention d'occupation du domaine public*), comprising a non exclusive right for us to use the ducts which had become the property of the local authorities on the terms of such new agreements, with our own telecommunications equipment. One of the key features of these agreements is our right to use the ducts on a non exclusive basis and our competitors' ability to install their own equipment on such ducts.

We have signed nearly 80 agreements, 25 of which follow the approach agreed to by ARCEP, with various local authorities, and we are currently in the process of negotiating the implementation of its proposal with certain other local authorities.

Ad hoc Agreements with Public Authorities

A limited portion of our current network in France (approximately 7%) is governed by legal agreements such as long term leases of public property, or *conventions d'affermage*, a type of operating concession through which we lease an entire network, or public land use agreements, or *conventions d'occupation du domaine public*, through which we install the necessary network equipment on certain public property with no underlying property transfer.

These agreements are entered into with local authorities, primarily municipalities, for terms ranging from 10 to 30 years. In accordance with the terms of Articles L. 2122 2 and L. 2122 3 of the *Code général de la propriété des personnes publiques*, local authorities may terminate these public land use agreements at any time by demonstrating that doing so is in the public interest.

Upon termination of such agreements, we must, in accordance with our contractual obligations, (i) return the entire network to the local authorities, in some cases against the payment by the local authorities of an amount equal to the market value of the network, and in some cases free of charge, (ii) remove at either our cost or at the cost of the local authorities the equipment installed by us on the local authorities' premises, (iii) transfer the network to another operator with the approval of local authorities, or (iv) repurchase the network. In accordance with the law applicable to these agreements, upon expiration of long term leases, the network reverts back to the local authorities.

Fees are generally paid on an annual basis, and vary depending on the size of the network, the number of users connected to the network and, if applicable, the extent of the deployment of our own network on public land.

Other Infrastructure and Network Agreements

We have entered into several agreements in connection with the maintenance, extension and upgrade of our network, including maintenance agreements, fiber lease agreements and use of dark fiber link agreements. Most of our maintenance agreements are with various French network construction and marketing companies in the context of delegation of public services (*délégation de service public*) agreements with public authorities, have a term of one to three years and are renewed either annually or for an indefinite term. Completel has entered into an IRU agreement with SFR expiring in 2021. The fiber lease and dark fiber link agreements have been set up mainly with other network owners in France, including Orange and SFR, and have a duration of three years or more. Certain of these contracts must be renewed within the next few years. In addition, we have entered into agreements with various suppliers for the delivery of hardware and software in connection with our continuous efforts to upgrades and modify our French cable network.

Agreement with the State of Israel relating to ownership of our cable network

In July 2001, our predecessor companies entered into an agreement with the State of Israel pursuant to which they agreed to waive all claims against the State of Israel arising out of the grant of a satellite broadcast license to D.B.S. Satellite Services (1998) Ltd, an associate of Bezeq which provides satellite technology based multi channel television services under the YES brand. In exchange, the State of Israel agreed to waive all of its claims and rights concerning the cable infrastructure, such that our predecessor companies would hold all rights and title to the cable infrastructure in their respective concession areas and have the right to operate the cable network even after the end of the concession periods. The agreement, which was transferred to our Group as part of the Israeli cable consolidation process, sets out a payment mechanism based on revenues deriving from the use of the cable infrastructure pursuant to which we are required to make annual payments to the State of Israel until January 1, 2015. In addition, we are required to pay certain amounts to the State of Israel, as provided in the agreement, in the event we sell any of our cable network assets or operations carried out via the cable infrastructure or in the event we issue securities through a public offering, investment or similar transaction. In each year ended December 31, 2011, 2012 and 2013, and in the nine months ended September 30, 2014, we incurred expense related to the agreement with the State of Israel of NIS 57 million, NIS 58 million, NIS 58 million and NIS 41 million. We have provided a second ranking floating charge over all of the assets of HOT to the State of Israel to secure our payment obligations under the agreement.

Provision of certain bank guarantees to the State of Israel relating to performance of certain license terms

In relation to the addition of frequencies to our mobile license enabling us to provide UMTS-based 3G services, we were required to pay to the State of Israel a total license fee of NIS 705 million, out of which we paid NIS 10 million at the time of receiving the license. For the remaining NIS 695 million, we were required to provide the State of Israel with a bank guarantee. Under the terms of the license, such remaining license fee was to be reduced by one-seventh for every per cent. of market share gained by HOT Mobile since the date of the license. The market share of HOT Mobile is calculated as the average of: (i) the ratio of HOT Mobile subscribers (including UMTS and iDEN) in the private sector to the total number of mobile subscribers in the private sector; (ii) the ratio of the number of outgoing mobile call minutes initiated by subscribers (including UMTS and iDEN and call minutes in the same network) of HOT Mobile in the private sector to the total number of outgoing mobile call minutes (including call minutes in the same network) by all mobile subscribers in the private sector; and (iii) the ratio of revenues from HOT Mobile subscribers (including UMTS and iDEN) to the total revenues from all mobile subscribers in the private sector. In April 2013, HOT Mobile received a notification from the Israeli Ministry of Communications clarifying the meaning of certain components of the market share calculation, namely "subscribers in the private sector", "number of outgoing mobile call minutes" and "revenues". The two measuring periods for market share gain run from the date of the license to September 26, 2013, and September 26, 2016, respectively and the remaining license fee, which is the lowest fee as calculated on each of the testing dates, would be payable three months after the second testing date. As a condition for the bank guarantee, HOT Mobile and HOT signed an irrevocable letter of undertaking in favor of the bank that issued the guarantee, which is secured by a pledge of all of the assets of HOT Mobile which HOT Mobile is permitted by law to pledge. In addition, we have agreed to indemnify the State of Israel for any monetary liability that it incurs as a result of our use of the mobile license and have entered into an insurance agreement to be insured for any such liability. As of the first testing date on September 26, 2013, we have achieved a market share calculated in accordance with the license agreement that entitles us to a deduction of the entire amount of the NIS 695 million license fee outstanding. Accordingly, we requested the Israeli Ministry of Communications to reduce the amount of the bank guarantee to an amount of NIS 80 million as guarantee of our obligation to achieve certain territorial coverage requirements under our license. On November 21, 2013, the Israeli Ministry of Communications notified HOT Mobile that the license fees shall be decreased to NIS

10 million (which has already been paid) and the bank guarantee shall be decreased from the amount of NIS 695 million to an amount of NIS 80 million. We have also provided bank guarantees to the State of Israel for an amount of approximately NIS 27 million and $8.4 million as surety for the compliance with the terms of our broadcasting licenses and fixed-line licenses, respectively.

Agreements with Bezeq relating to installation and maintenance of portions of our cable network

In the 1990s, certain of our predecessor companies entered into agreements with Bezeq for the purpose of the planning, installation and maintenance of the cable networks pursuant to which they intended to provide cable television services. The cable networks and the related agreements with Bezeq were transferred to our Group as part of the cable consolidation process. The agreements are valid until we have valid broadcasting licenses. For further details regarding the term of our broadcasting licenses, see "*Regulatory—Israel—Television—Overview*".

Under the terms of the agreements, Bezeq is required to maintain the portion of our cable network that passes through its ducts on an on-going basis and is also responsible for repairing breakdowns in the network. The scope of the agreements extends to the possibility of expanding the cable network to additional sites, connecting new homes and connecting new neighborhoods. Bezeq is permitted to terminate the agreement if we breach the agreement and have not cured such breach within six months of written notice from Bezeq. The agreements set forth a payment mechanism pursuant to which we pay Bezeq an annual amount representing capital expenditure and maintenance costs based on the length of the cable network passing through its ducts as well as one-time payments in respect of certain services provided by Bezeq. Capital expenditure costs are staggered over a 12-year period and the amounts payable to Bezeq are accordingly reduced by approximately 65% after 12 years of the delivery of each segment of the cable network. We incurred total costs of NIS 46 million, NIS 48 million, NIS 47 million, and NIS 36 million in 2011, 2012, 2013, and the nine months ended September 30, 2014, respectively, for services provided by Bezeq under these agreements.

Agreement with Nokia Solutions and Networks relating to installation of the UMTS network

In June 2011 we entered into an agreement with NSN for the establishment of the new UMTS network infrastructure pursuant to which we provide 3G mobile services to our customers. Under the terms of the agreement, NSN has agreed to plan and erect the new network infrastructure on a turnkey basis. NSN has also agreed to provide maintenance with respect to our mobile network.

In the first stage, completed in 2012, NSN met its requirement to complete the network with coverage extending to 20% of the Israel population according to our mobile license requirements regarding the first check point. During 2013 and 2014, several amendments were made to the agreement with NSN postponing payments due under the agreement, in return for a debt obligation which was issued in favor of NSN and guaranteed by HOT. In this framework of agreements HOT Mobile also confirmed receipt of a final installment of key parts in relation to the aforementioned project.

In July 2014, an agreement was signed between HOT Mobile and NSN for the provision of equipment, hardware and software. In addition, HOT Mobile acquired construction and integration services of the LTE core network for the provision of domestic roaming services and for adapting its network to the requirements of the Networks Sharing Agreement with Partner. Under this agreement, the maintenance agreement between HOT Mobile and the vendor was renewed for 2014-2015.

We expect that the total amount payable under the agreement with NSN to be lower than originally anticipated due to our Network Sharing Agreement with Partner as a result of which our need to build out a new UMTS network will reduce.

White Label Contracts in France

We are party to long term contracts with the French appliance retail company Darty (white label DSL and fiber contract) and the French telecommunications operator Bouygues Télécom (white label fiber contract), pursuant to which we sell certain of our television, broadband internet and/or telephony services to each of these counterparties, which then resell them as double play or triple play packages over our network under their own brand and to their own subscribers. We provide telephony services to Darty, who does not own a fixed network, but not to Bouygues Télécom. We continue to explore opportunities to enter into additional white label agreements.

Under our white label contracts, we are committed to certain standards of quality and efficiency, and penalties may be charged by our white label customers if these commitments are not met. Each of our white label customers pays us monthly fees based on the number of end users to whom they sell our bundled packages and, in the case of certain voice services contracts, based on usage. Additional fees are payable by our customers that require additional services, such as customer care and billing. The fees charged include (i) a fee per subscriber which depends on the type of package subscribed to, (ii) telephony charges and (iii) VoD charges. By way of exception, digital television services provided to Darty customers are invoiced by Darty on behalf of us and are paid directly by Darty to us.

We entered into our first white label contract in February 2006 with Darty. We entered into two subsequent white label contracts with Darty: (i) in October 2008, for the provision of very high speed broadband internet services, and (ii) in November 2009, for the distribution of television services. In addition, we entered into a white label fiber contract with Bouygues Télécom in May 2009 for very high speed broadband internet services. Our contracts entered into with Darty and Bouygues Télécom are due to expire in 2021 and 2019, respectively. Upon reaching the initial expiration date, the terms of each of the Darty contracts provide for automatic renewal for successive periods of five years, unless otherwise notified by either party upon 12 months' prior notice. The Bouygues Télécom contract provides that upon reaching the initial expiration date, the contract will be automatically renewed for an indefinite period, unless otherwise terminated by (i) Bouygues Télécom upon 24 months' prior notice, or (ii) us upon 12 months' prior notice.

In May 2012, Bouygues Télécom acquired Darty. Accordingly, our existing Darty and Bouygues Télécom white label contracts have been amended, most recently in December 2012, to reflect Darty and Bouygues Télécom's new commercial relationship.

Interconnection Agreements

Interconnection is the means by which users of one telephony network are able to communicate with users of another telephony network and, as the case may be, through a third telephony network. For a subscriber located on one telephony network to complete a telephone call to an end-user served by another telephony network, the subscriber's network service provider must interconnect either to the end-user's network, or to the network that transfers the call to the end-user's network. Typically, the network transferring the call and the end-user's network charge the subscriber's service provider a fee to transfer or to terminate the communication. Interconnection fees are typically regulated by the telecommunications regulator in each of the countries in which we operate. Regulators also commonly impose on all participants in the fixed-line telephony and mobile telephony markets an obligation to negotiate in good faith interconnection agreements with every requesting operator who is seeking to provide a publicly available electronic communication service. Generally, the cost of interconnection fees that we pay is taken into account in the price we charge our subscribers.

We have entered into various domestic and international reciprocal interconnection agreements for our fixed-line telephony, mobile operations and ILD services with other providers of electronic communications services. Our interconnection agreements generally have terms that continue for the duration of the parties' licenses to pursue telecommunication activities and may be terminated in the event of a material breach or the commencement of liquidation or insolvency proceedings. For the year ended December 31, 2013, on a historical consolidated basis, we incurred interconnection fees of €89.8 million (excluding France). In the nine months ended September 30, 2014, we incurred interconnection fees of €74.8 million (excluding France).

Agreement with Pelephone, Vodafone and Belgacom relating to mobile roaming services

In November 2011, HOT Mobile entered into an agreement with the mobile operator Pelephone, a subsidiary of Bezeq, pursuant to which Pelephone agreed to provide domestic roaming services for 3G users to HOT Mobile and HOT Mobile agreed to exclusively purchase such services from Pelephone. The agreement enabled us to provide 3G mobile services to our mobile customers while we continued to build-out our UMTS network in Israel. The cost for the services provided by Pelephone was based on agreed rates and depends on the actual usage of Pelephone's mobile network by our 3G customers in Israel. The agreement with Pelephone is scheduled to expire in December 2014, subject to notice.

In December 2013, HOT Mobile and Pelephone amended their underlying agreement repealing the exclusivity clause which HOT Mobile was subject to. See "*Description of Our Business—Material Contracts—Mobile Network Sharing Agreement with Partner in Israel*".

In addition, we have entered into a roaming agreement with Vodafone through which we receive roaming services for 3G around the world including approximately 500 mobile networks. We are also in the process of negotiating and signing roaming contracts directly with individual mobile operators in various countries. Our roaming agreement with Vodafone enables our Israeli 3G mobile customers to access other mobile networks while abroad. Although the particular terms depend on the country in which roaming services are accessed, the agreement regulates billing and accounting, settlement procedures, customer care, technical aspects of the roaming agreement, security and connectivity. The agreement automatically renews until one of the parties gives written notice of termination and may be terminated in the event of a material breach or the commencement of liquidation or insolvency proceedings.

In November 2012, our French Overseas Territories business entered into an international roaming agreement with Belgacom International Carrier Services ("BICS") for the benefit of our 2G and 3G subscribers. The agreement is scheduled to expire in November 2015. The cost for the services provided by BICS is based on agreed rates and depends on the actual usage of BICS' mobile network by our customers travelling abroad.

We have also entered into international roaming agreements with various operators of GSM networks around the world, allowing our Israeli iDEN customers to make calls while overseas using a GSM compatible phone which we provide.

Mobile Network Sharing Agreement with Partner in Israel

On November 8, 2013, HOT Mobile entered into a network sharing agreement (the "Network Sharing Agreement") with Partner pursuant to which HOT Mobile and Partner will own equal shares of a newly formed limited partnership ("JV Entity") that will hold, develop and operate an advanced shared mobile network for both companies. Each party is required to maintain and operate its own core network and independently provide mobile communication services, including marketing and sales of such services, to its respective customer base.

The Network Sharing Agreement has received approval from the Israeli Antitrust Authority subject to certain conditions including, among others, the prevention of the transmission of business information and technology (which does not require joint activity), and conditions relating to the management of the JV Entity. The decision further stipulated that each party shall be entitled at all times, and at its sole discretion, to call a third party for provision of mobile communication services which are used in the core network of such party, and that the JV Entity will not be a party to the agreement and shall not be entitled to payments made thereunder.

Further, from May 22, 2021, or six years from the date on which final approval of the Ministry of Communications is given, whichever is earlier, the Commissioner may notify the membership in writing that the decision to approve the application for the Network Sharing Agreement is revoked if the Commissioner finds the partnership, its existence or its actions harms competition. The Network Sharing Agreement remains subject to final approval from the Israeli Ministry of Communications, the decision of which is expected to be made after the outcome of the 4G-LTE tender process is decided.

The Network Sharing Agreement, among other things, regulates the management and development of the shared network and the management and governance of the JV Entity (including a mechanism for appointing directors, the approval of business plans and certain decisions that require the approval of both parties). As consideration, HOT Mobile is required to pay Partner a specified one-time amount by January 1, 2017, and, thereafter, each party will bear half of the capital expenditures required for the purpose of the establishment and upgrade of the shared network, while the shared network operational expenditures will be allocated in accordance with a prescribed mechanism based, *inter alia,* on the traffic volume usage of each party of the shared network. HOT has issued a guarantee for HOT Mobile's obligations under the Network Sharing Agreement and the Group may be required to provide an additional guarantee or a bank guarantee to Partner in the event of the downgrade of the Group's corporate rating by certain specified levels.

The Network Sharing Agreement with Partner is valid until December 31, 2028, and provides for automatic renewals in five-year increments after December 31, 2028 (unless either party notified its intention to terminate the agreement by 24 months' notice prior to each extension period). However, at any time after the eighth anniversary of the effective date of the Network Sharing Agreement, either party may terminate the agreement by providing 24 months' prior notice. The Network Sharing Agreement may also be terminated by a non-defaulting party upon certain specified events, including a material breach, failure of a party to meet its funding obligations, termination of a party's license by the Israeli Ministry of Communications and the occurrence of certain insolvency events. The Network Sharing Agreement also provides for an exit plan upon termination.

HOT Mobile and Partner have also entered into a right of use agreement (the "RoU Agreement") granting HOT Mobile a right of use over Partner's mobile communication network for the purpose of providing nation-wide mobile coverage to our customers pending implementation of the Network Sharing Agreement. In connection with our entry into the Network Sharing Agreement and the RoU Agreement, we have recently entered into an agreement with Pelephone pursuant to which we are no longer tied exclusively to Pelephone.

We expect that arrangements we have entered into with Partner will result in savings relating to roaming, network and maintenance expenses and optimize the amount of capital expenditures we are required to incur in relation to the build-out of our UMTS network. We have already experienced savings relating to roaming costs under our RoU Agreement for the nine months ended September 30, 2014. However, there can be no assurance that we will be able to obtain the final, outstanding regulatory approvals or otherwise be able to implement the arrangements we have entered into with Partner in a timely or cost-effective manner.

Agreement with NDS relating to purchase of a unified encryption system

In February 2007 HOT entered into an agreement with NDS ("NDS") pursuant to which NDS supplies certain software and services for the implementation of a unified encryption system which enables HOT to provide pay-television services, control access to particular pay-programming packages and charge fees on an individual subscriber basis. This system encrypts transmitted signals sent to customers and customers decrypt the signals using a set-top box which allows them to receive the pay programming offered. The agreement also requires NDS to provide certain support and maintenance services related to the encryption system. The agreement is for a term of 10 years although HOT has the right to terminate the agreement with respect to the support and maintenance services after five years. In April 2011 the agreement was amended to expand the range of services to be provided by NDS in order to include encryption systems for a new type of set-top box provided by Technicolor. HOT is required to pay NDS an annual fixed amount for delivery of the encryption systems and related software licenses and provision of support services in addition to royalties and a fee for each set-top box with encryption technology. On February 17, 2013, HOT sent a notice of termination of the agreement to NDS. The notice was sent in view of negotiations between the Group and the Cisco group ("Cisco"), the parent of NDS, regarding a new global contract. In response to the notice, HOT received a letter from NDS on March 5, 2013, stating that in its view the agreement could not be cancelled before July 2015. The parties are currently in the process of negotiating revised terms.

We are party to similar agreements with subsidiaries of Cisco, the parent company of NDS, across our operations in other regions. While we have not yet entered into a Group-wide supply contract with Cisco, we continue to weigh in on the negotiations of each of these contracts in order to achieve better prices by leveraging the Altice Group's combined purchasing power and to ensure that the same terms and conditions are entered into by each of our businesses.

Agreement with Nagra France relating to the purchase of a unified encryption system

In October 1999, we entered into a contract with Nagra France for the purchase of a unified encryption system which expired in 2007. Upon expiration, the contract is tacitly renewed for successive five year periods, subject to termination by either party upon six months' notice prior to the end of any such five year period. The last tacit renewal took place on January 1, 2012, and the next renewal, if any, will take place in December 31, 2017. We believe that a failure on Nagra France's part to continue supplying us its unified encryption system could disrupt, and have an adverse effect on, our business in France.

Agreements with Technicolor relating to purchase of set-top boxes

In October 2007 HOT entered into a memorandum of understanding with Technicolor for the purchase of set-top boxes manufactured by Technicolor. HOT formalized the understanding by entering into an agreement in 2009 and subsequently amended the agreement in June 2011 to include the purchase of set-top boxes that combine HD technology and recording capability functionality (known as the HD-PVR set-top box). Technicolor is responsible for the design, production and delivery of the set-top boxes and to ensure compatibility with the software developed for the "HD-PVR" set top-box. In consideration, HOT is obligated to pay Technicolor a fixed amount for each set-top box. The price of set-top boxes includes a warranty extending for three years covering the hardware and 12 months covering the software elements of the HD-PVR box. Technicolor is also required to provide hardware and software support and maintenance services after the expiry of the warranty period. The agreement is valid until May 2016.

We are party to similar agreements with Technicolor for the purchase of set-top boxes across our operations. While we have not yet entered into a Group-wide supply contract with Technicolor, we continue to weigh in on the negotiations of each of these contracts in order to achieve better prices by leveraging the Altice Group's combined purchasing power and to ensure that the same terms and conditions are entered into by each of our businesses.

Agreements with Sagemcom relating to purchase of equipment

In March 2011 in Israel, HOT entered into an agreement with Sagemcom Broadband SAS for the development and purchase of a product which combines the functionality of an internet modem, telephony modem and wireless router (known as the HOT Box). Under the terms of the agreement, Sagemcom has agreed to develop the product and to grant licenses to use the product software. In consideration, HOT is obligated to pay Sagemcom a fixed amount for each set top box. Sagemcom is also required to provide a warranty and maintenance services under the agreement. The agreement is for a term of four years and is automatically renewed for periods of one year at a time unless one party notifies the other of its intention to terminate the agreement upon expiry of the current term.

In October 2011 in France, we entered into a supply agreement with Sagemcom for our most technologically advanced set top box to date, LaBox. The initial term of this contract is until April 2014, and it is automatically renewable for successive terms of five years, subject to prior notice of termination. It contains commitments from Sagemcom to deliver the ordered set top boxes within a set schedule and a non exclusive commitment from us to order minimum quantities of set top boxes over the term of the contract. Since August 2011, Sagemcom has been owned by Carlyle.

We are also party to agreements with Sagemcom for the purchase of set-top boxes in Portugal, Belgium and Luxembourg. We introduced LaBox in Israel in March 2014. While we have not yet entered into a Group-wide supply contract with Sagemcom, we continue to weigh in on the negotiations of each of these contracts in order to achieve better prices by leveraging the Altice Group's combined purchasing power and to ensure that the same terms and conditions are entered into by each of its businesses.

Sagemcom was acquired by funds managed by Carlyle on August 17, 2011. Carlyle currently owns less than 5% of the Issuer. We believe that the price we pay Sagemcom for the purchase of its set top boxes is a market price. Jonathan Zafrani represents Carlyle on Numericable's board of directors. In the context of his role at Carlyle, Mr. Zafrani is a member of the board of directors of a certain number of Carlyle investment portfolio companies, including Sagemcom Holding, the parent company of Sagemcom.

Agreement with Bezeq for the Provision of Transmission Services

In December 2012, an agreement was signed between HOT Mobile and Bezeq for the supply of various transmission services required for the purpose of providing radio mobile telephone services provided by HOT Mobile. The agreement's validity is for a period of five years from April 1, 2013. HOT Mobile is entitled to terminate the agreement upon 120 days' prior written notice subject to an early termination fee.

In exchange for all of the services provided to HOT Mobile by Bezeq, HOT Mobile agreed to pay Bezeq a total of approximately NIS 62.2 million which will be paid over the term of the agreement.

Agreement with Comverse

In October 2011, an agreement was signed between HOT Mobile and Comverse Ltd.("Comverse"), pursuant to which Comverse would provide a BSS system (an integrated billing system with a customer contact management (CRM) system) and related hardware, software and services to HOT Mobile, including operation and maintenance of the CRM system. In exchange for Comverse's services, hardware and software, we agreed to pay a total of $12.5 million. The agreement is expected to be in effect for a period of approximately five years. In January 2012, the parties signed an addendum to this agreement, whereby Comverse committed to make seven additional employees available for the project (in lieu of the manpower that should have been made available for the project by us), against payment of $500,000.

Content Purchase Agreements

Several different relationships govern the content that we provide to our cable television subscribers. Alongside original content produced for HOT, in Israel we also purchase transmission or retransmission rights for channels and content produced by third parties. We pay copyright and carriage fees to the foreign, national and thematic broadcasters carried on our cable television networks. In general, these fees are paid in part to copyright collection agencies and to broadcasters based on a combination of per program fees and the number of subscribers to our cable service. We also typically pay royalties based on our subscribers' usage of on-demand content.

In France, we generally enter into agreements directly with authors' rights societies, including ANGOA and SACEM, broadcasters and distributors. Our agreement with ANGOA was entered into in February 2011 and was renewed automatically at the end of its initial term on December 31, 2013, for a successive one year period. It will be automatically renewed for successive one year periods unless terminated by either party upon six months' notice. The fees charged by ANGOA are based on our overall revenues in France and are paid on a quarterly basis. We also guarantee a minimum fee per customer to ANGOA. We entered into a similar agreement with the SACEM in October 2003 that expired in December 2004, was extended until December 2009 and has since been automatically renewed for successive one year periods. Pursuant to this contract, we pay quarterly fees to SACEM based on our overall revenues in France. This contract can be terminated at the end of each renewal period by either party, subject to a three month notice period. In Israel, we have entered into agreements with two authors' right societies, namely AKUM Association of Music Composers, Writers and Producers in Israel Ltd. (AKUM) and Israel Screen and Television Artists Royalties Company Ltd (TALI). We entered into agreements with AKUM in 2011 following an arbitration proceeding initiated by AKUM to resolve the mechanism for calculating annual royalties for the use of works whose rights are protected by AKUM. Under the present arrangements, which are valid until 2016, we have a license to broadcast works whose rights are protected by AKUM in consideration for which we have agreed to settle all of AKUM's claims from 2003 until 2010 with respect to past royalties and have also agreed on royalty rates for 2011 to 2016. In 2011, we signed an agreement with TALI providing for the payment of royalties between 2003 and 2014. As of the date of these Listing Particulars, this agreement has not been renewed.

The terms and conditions of our contracts governing the payments and content providers of copyright fees to broadcasters vary by jurisdiction. We also enter into transportation and distribution agreements with the commercial broadcasters. Through transportation contracts, we agree to carry a commercial broadcaster's signal across our fiber backbone to our head-end stations, where the signal is subsequently delivered to our subscribers. Broadcasters who transmit their signal to us by satellite can elect to deliver their signal directly to our head-end stations and, as a result, do not need to enter into a transportation agreement with us. We also enter into distribution arrangements with all of the commercial broadcasters whose channels we carry on our networks, pursuant to which we agree to carry the broadcaster's signal from the head-end station to our cable television subscribers. A variety of compensation arrangements have been made in respect of the contracts we enter into with the commercial broadcasters. In some situations, we do not charge the broadcasters any fee for transmitting their signal to our subscribers. Instead, the broadcasters benefit from increased advertising revenue they receive from reaching our basic cable television subscribers and we benefit by providing our subscribers added content. In certain situations, we pay broadcasters for the channels they transmit over our network. In other instances, we have entered into revenue-sharing arrangements or subscriber-based fixed fees. In addition to these arrangements, we have also entered into contracts with certain broadcasters pursuant to which we currently pay a fee in order to have the right to broadcast their signal on any digital cable television service that we may offer in the future.

Additionally, in Israel we purchase stand-alone programming from third-party content providers, for the purpose of including such programming in our "home" linear channels and/or our VOD services.

In France, on September 26, 2013, we entered into an agreement with the Canal+ Group. Pursuant to this agreement, Multithématiques, an affiliate of Canal+ France, licensed to us distribution and marketing rights, on a non exclusive basis, relating to certain television channels including CINE+, in SD and/or HD, and catch up television version, if such version is available. The financial terms set forth under this agreement expired on December 31, 2013, and have been amended. The agreement expires in July 2017, and does not provide for automatic renewal. The early termination option may be exercised upon two months' prior notice (i) by us in case of the rejection by us of the financial terms for the period from 2014 to 2017, and (ii) by Multithématiques subject to Canal+ obtaining the lifting of the injunction rendered by the French Competition Authority (*Autorité de la concurrence*) (decision number 12 DCC 100) requiring the Canal+ Group to make available to all distributors who so request, on a non exclusive basis, all of the movie channels that Canal+ Group operates or may operate (with the exception of the channels Canal+, Canal+ Sport, Canal+ Cinéma, Canal+ Décalé and Canal+ Family), and to maintain the quality of the unbundled channels. On November 12, 2013, we entered into an agreement with Canal + Group. This agreement takes effect retroactively from January 1, 2012, for a period of two years until December 31, 2014, without tacit renewal. Under this agreement, we must distribute on our network channels including Canal +, Canal + TV services, Canal + The Channel, Canal + weekend and certain football and rugby channels. As of the date of these Listing Particulars, the we are engaged in negotiations relating to the renewal of the agreement, though no new agreement has been made.

In addition to content purchasing, in Israel, we have co-developed shows and have also developed several show platforms for our HOT suite of channels. We believe that our involvement with local content production companies has allowed the HOT brand to benefit from the significant popularity of our television series, movies and shows among the Israeli population by leveraging the fame of the local actors and actresses in our marketing campaigns to promote our offerings. Further, in October 2013, we acquired Ma Chaîne Sport and SportV, French and Luxembourg operators of sports-themed Francophone television channels which produce and assemble their content.

Content Distribution Agreements

In October 2013, we acquired Ma Chaîne Sport and SportV. Ma Chaîne Sport and SportV entered into agreements with Numericable, Valvision, as well as certain of our subsidiaries, for the non-exclusive distribution of Kombat Sport, Ma Chaîne Sport, Ma Chaîne Sport Extreme, Ma Chaîne Sport Bien Etre and Ma Chaîne Sport Tennis television channels in Belgium, Luxembourg, Portugal, France, Martinique and Guadeloupe. The contracts have a duration of five years with retroactive effect from January 1, 2013. Pursuant to these agreements, Ma Chaîne Sport and SportV receive annual fees, which are either fixed or subject to gradual yearly increases, from each of the operators. In addition, Ma Chaîne Sport and SportV are entitled to advertising revenues received from the broadcast of their television channels. The contracts can be terminated by any party in case of a breach of the contract by the other party not remedied within 60 days.

Shareholders' Agreement between Altice France S.A. and Vivendi

On November 27, 2014, the Issuer, Altice France S.A. and Vivendi entered into a shareholders' agreement governing the relationship between Altice France S.A. and Vivendi as shareholders of Numericable (the "Altice Vivendi Shareholders' Agreement").

The Altice Vivendi Shareholders' Agreement provides, in particular, that (i) Altice France S.A. has the majority of seats on the Board of Directors of Numericable, (ii) Vivendi has limited veto rights as long as it holds a certain minimum percentage of the Numericable Group's shares and (iii) while Altice France S.A. holds the majority of the share capital in Numericable, Vivendi will vote as directed by Altice France S.A. on dividend distributions. The Altice Vivendi Shareholders' Agreement also provides that (subject to certain conditions being met) the parties will cause Numericable to distribute each year a minimum level of dividends.

In addition, Vivendi's governance rights are limited by Vivendi's commitments with respect to the review by the French Competition Authority of the acquisition of SFR by Numericable. The purpose of these commitments is to prevent Vivendi from obtaining commercially sensitive information, through the board members that it will appoint.

The Altice Vivendi Shareholders' Agreement also contains certain restrictions on the sale of shares held by Vivendi in Numericable (the "Vivendi's Numericable Group Shares") including (i) a lock-up period expiring 12 months after the completion of the 2014 SFR Acquisition and (ii) preemption rights for Altice France S.A. to purchase Vivendi's Numericable Group Shares for a specified period, these preemption rights being governed by specific arrangements in the event of block trades (such as accelerated book-building processes) or distributions of Vivendi's Numericable Group Shares to Vivendi's shareholders. In addition, Altice France S.A. has been granted a call option over Vivendi's Numericable Group Shares, exercisable within specified windows over a period of 43 months (it being specified that Vivendi will not be prohibited from selling shares outside the call option exercise windows, but subject to Altice France S.A.'s preemption rights as mentioned above). The call option price will be based on the market price of the Numericable's stock, subject to certain specific arrangements (including certain minimum price provisions). Should Altice France S.A. not exercise any of the options, it shall nonetheless retain a right of first refusal exercise upon Vivendi selling any Vivendi's Numericable Group Shares.

The Altice Vivendi Shareholders' Agreement grants Vivendi (i) a proportional tag-along right and (ii) a full tag-along right exercisable in particular (x) if Altice France S.A. no longer controls Numericable, and (y) in case of a merger between the Issuer and Numericable. Further, until the expiration of the call options and preemption rights mentioned above. Altice France S.A. may not acquire for cash shares in the Numericable's stock from other shareholders (as an exception, Altice France S.A. may freely acquire the Numericable's shares held by the former shareholders of Fiberman).

HOT Minority Shareholder Agreements

In October 2010, Cool Holding entered into separate agreements with Yedioth Communications Ltd. ("Yedioth") and companies from the Fishman Group (collectively, "Fishman" and, together with Yedioth, the "HOT Minority Shareholders"), pursuant to which (i) Cool Holding acquired 4,565,493 shares of HOT from Fishman in March 2011 and 10,012,003 shares of HOT from Yedioth in November 2011 and (ii) Cool Holding agreed that, until the date that is three years from each such acquisition date, Cool Holding would not take any action which would cause HOT to become a private company or for its shares to be delisted from the Tel Aviv Stock Exchange, without receiving the consent of each HOT Minority Shareholder (the "Take-Private Consent Right").

On November 5, 2012, in connection with the Take-Private Transaction, Cool Holding entered into separate agreements (each a "HOT Minority Shareholder Agreement") with the HOT Minority Shareholders, pursuant to which (i) Cool Holding agreed to acquire directly or through one of its subsidiaries from each of the HOT Minority Shareholders all of their respective shares in HOT, representing approximately 11% of the outstanding shares of HOT (the "HOT Minority Shareholder Shares"), in consideration for a payment of NIS 41 per share, (ii) each of the HOT Minority Shareholders agreed to waive its Take-Private Consent Right, and (iii) as additional consideration for the waiver of the Take-Private Consent Right, Cool Holding granted each HOT Minority Shareholder the right to purchase the HOT Minority Shareholder Shares from Cool Holding or one of its subsidiaries (the "HOT Minority Shareholder Call Options") at a price per share equal to NIS 48 (the "Call Consideration") during the 24-month period commencing on the first anniversary of the Take-Private Transaction. The Take-Private Transaction was completed on December 27, 2012. The HOT Minority Shareholder Call Options may be exercised by the relevant HOT Minority Shareholder in up to three transactions, each of which shall cover at least 30% of the shares sold by such HOT Minority Shareholder to Cool Holding or one of its subsidiaries in the Take-Private Transaction.

The HOT Minority Shareholder Agreements contain anti-dilution rights and consent rights with respect to changes in business prior to the exercise of the HOT Minority Shareholder Call Option and certain minority shareholder rights, which will become applicable if the HOT Minority Shareholder Call Options are exercised after the Take-Private Transaction, including tag-along rights with respect to any sale of HOT shares by Cool Holding; pre-emptive rights with respect to issuance of HOT shares; restrictions on HOT's ability to effect transactions outside of the ordinary course of business (including a transaction resulting in the sale by HOT of a material asset); subject to certain exceptions, restrictions on entering into transactions with any shareholder, director or officer of HOT or any affiliate thereof; restrictions on the incurrence of any material indebtedness; and, subject to certain exceptions, the right to require HOT to re-register and list its shares on the Tel Aviv Stock Exchange. In addition, Cool Holding has certain drag-along rights with respect to the shares sold to the HOT Minority Shareholders upon the exercise of the HOT Minority Shareholder Call Options.

French Overseas Territories

On July 5, 2013, Altice International, through its wholly owned subsidiary Altice Caribbean consummated the Outremer Transaction. In connection with the Outremer Transaction certain members of Outremer's management at the time (the "Outremer Minority Shareholders") received certain equity interests in Altice Blue Two.

In addition, on January 15, 2014, Altice Blue Two completed the Mobius Acquisition. In connection with the Mobius Transaction certain members of Mobius' management (the "Mobius Managers") received certain equity interests in Altice S.A. Pursuant to contribution agreements dated January 30, 2014, (i) the Mobius Managers have contributed to Altice S.A. vendors' notes they hold against Altice Blue Two, against Ordinary Shares of Altice S.A., and (ii) in March 2014, the Outremer Minority Shareholders contributed to Altice S.A. the shares they hold in Altice Blue Two (other than ratchet shares described further below) against Ordinary Shares in Altice S.A. valued at the Offer Price, i.e. €28.25 (the "Managers' Roll Over). The contribution agreements also contemplate a 2014 financial-performance-based earnout payable to the Outremer Minority Shareholders by way of an additional issue of Ordinary Shares of Altice S.A. in early 2015, up to a value of €10 million. As a result of the above, Altice S.A. issued approximately 2,111,909 new Ordinary Shares subscribed by the Outremer Minority Shareholders and the Mobius Managers, leading to a dilution of Altice S.A. shareholders by approximately 1.0%.

In addition, Altice S.A., the Outremer Minority Shareholders and the Mobius Managers have entered on March 11, 2014, into agreements pursuant to which (i) the Outremer Minority Shareholders transferred ratchet shares tracking the performance of Altice Blue Two to Altice Caribbean, in exchange for warrants issued by Altice Caribbean and tracking the performance of Altice Caribbean and its subsidiaries (together with the underlying shares, the "Altice Caribbean Warrants"), (ii) Altice Caribbean Warrants were awarded to the Mobius Managers, and (iii) existing shareholders' arrangement at the level of Altice Blue Two were replaced by shareholders arrangements at the level of Altice S.A., Altice Caribbean and Altice Blue Two (the "New Outremer Shareholders' Arrangements").

The New Outremer Shareholders' Arrangements include certain limitations on the rights of the majority shareholders of Altice Caribbean and of Altice Blue Two (but not of Altice) to transfer the shares of the relevant entity and grant liquidity rights to the Outremer Minority Shareholders and the Mobius Managers (collectively referred to below as the "ABT Managers"), including those described below.

At the level of Altice, the New Outremer Shareholders' Arrangements provide (i) for specific lock-up commitments on the shares held by the ABT Managers in the Company (lapsing partially in 2016 and 2017, and in full in 2018) and (ii) a pre-emption right on those shares in favor of Next L.P. The New Outremer Shareholders' Arrangements do not provide for specific rights in favor of the ABT Managers relating to the corporate governance of Altice.

At the level of Altice Caribbean, the New Outremer Shareholders' Arrangements provide certain limitations on Altice Holding's rights as a majority shareholder of Altice Caribbean, including specific veto and consent rights in favor of the ABT Managers. Further, Mr. Jean Michel Hegesippe (who is one of the ABT Managers), shall be appointed as CEO of Altice Caribbean. The New Shareholders' Arrangements also contain certain restrictions to the transfer of Altice Caribbean's shares (including the Altice Caribbean Warrants) and, in particular, (i) an inalienability period lapsing in 2019 on shares held by the ABT Managers (subject to certain exceptions), (ii) the prior approval by Altice Holdings of any transfer of shares of Altice Caribbean held by the ABT Managers, (iii) a pre-emption right in favor of Altice Holdings, (iv) a proportional tag along right in favor of the ABT Managers and (v) a drag along right in favor of Altice Holdings (and, as from 2018, in favor of the ABT Managers) in case of a contemplated transfer of at least 95% of Altice Caribbean's capital. The New Outremer Shareholders' Arrangements also provide that all investments of the Altice group in an area covering the Caribbean, the Indian Ocean and Mauritius shall be completed through Altice Caribbean (or one of its subsidiaries). Further, the New Outremer Shareholders' Arrangements contain put and call arrangements exercisable on the Altice Caribbean Warrants in 2018, at a price determined in order to allow the ABT Managers (subject to certain bad leaver situations) to capture a fraction of the potential value-added to the investment of the Altice group in Altice Caribbean since July 2013 (or, regarding the Mobius Managers), since March 2014.

At the level of Altice Blue Two, the New Outremer Shareholders' Arrangements provide certain limitations on Altice Caribbean's rights as a majority shareholder, including specific veto and consent rights in favor of the ABT Managers.

Dominican Republic Acquisitions

Tricom Acquisition Shareholders' Agreement

Pursuant to an agreement dated October 31, 2013, between Altice Caribbean (a wholly-owned indirect subsidiary of Altice International) and Hispaniola Telecom Holdings, Ltd. (the "Tricom Sellers"), a company controlled by Amzak Capital Management and Inversiones Bahía, (the "Tricom Purchase Agreements"), on March 12, 2014, Altice Caribbean, through one of its subsidiaries purchased all of the outstanding equity interests in each of Tricom S.A. and Global

Interlinks Ltd. (together, "Tricom") from the Tricom Sellers (the "Tricom Acquisition"). The aggregate purchase price payable by Altice Caribbean for the Tricom Acquisition was $405 million. The Tricom Sellers agreed to reinvest approximately $20 million of proceeds of the Tricom Acquisition in Altice Bahamas, through the subscription of Class B Shares representing 2.8% of the outstanding shares of Altice Bahamas. Furthermore, the Tricom Sellers entered into a shareholders' agreement with Altice Caribbean which, among other things, included certain restrictions on the transfer of Class B Shares, as well as put and call options on all of the Class B Shares held by the Tricom Sellers, exercisable three, four and five years after the execution of the shareholders' agreement.

Agreements with Orange in the Dominican Republic

Brand License Agreement

In respect of our use of the "Orange" brand in the Dominican Republic, in November 2013 (in connection with our acquisition of ODO) we entered into a brand license agreement with Orange Brand Services Limited. Under the terms of the agreement, we have a license to use the Orange brand for three to five years effective from the completion of the ODO Acquisition in the Dominican Republic for the current activities of ODO. We currently intend to continue to use the Orange brand and to carry out a rebranding process within approximately eighteen months of acquiring ODO. Royalties under the brand license agreements will be paid to Orange S.A. on a quarterly basis. The brand license agreement may be terminated by either party in certain circumstances, including if we or Orange Brand Services Limited commit a material breach of the agreement, if we do not satisfy certain minimum investment requirements in the Orange brand, if we undergo certain change of control events or if a competitor purchases shares in us.

It is our intention to negotiate the extension of the Brand License Agreement with Orange Brand Services Limited such as to allow the inclusion of new services to be provided by ODO (and therefore outside the scope of the Brand License Agreement) in the Dominican Republic.

Transitional Services Agreement

Pursuant to the ODO Acquisition, ODO, Altice Dominican Republic II, S.A.S. and Orange S.A. entered into a transitional services agreement (the "Transitional Services Agreement") on April 9, 2014. The Transitional Services Agreement identified those products and services provided by Orange S.A. (and its related entities) prior to the ODO Acquisition which were to be maintained, modified or terminated, as well as set forth the conditions under which certain products and services were to continue to be provided. Such products and services included, amongst others, intra-group inter-operator roaming services (and related tariffs), the supply of international voice services over VoIP, carrier services, connection services, and back-haul services.

The Transitional Services Agreement automatically terminates twelve months following completion of the ODO Acquisition, unless otherwise agreed by the parties, and as such is valid until April 9, 2015.

Service Agreements in the Dominican Republic

We have entered into agreements with a variety of service and outsourcing suppliers to conduct our ongoing business. These services include supply of software licenses, call center support, data management and human resources consulting, among others. Certain of these agreements terminated upon the consummation of the ODO Acquisition due to change of control clauses included therein, as a result of which we switched suppliers or have entered into negotiations for renewal. Our service agreements with TechComm and Transunion S.A. did not contain a change in control but both required us to notify TechComm and Transunion S.A., respectively, in the event of a change of control in our corporate structure. On the consummation of the ODO Acquisition we successfully notified TechComm and Transunion S.A. of the change in our control and both parties have continued their respective performance under each contract.

Supply Agreements in the Dominican Republic

Following the completion of the ODO Acquisition, the supply agreements entered into by Orange S.A., on our behalf, with Alcatel, Apple Gemalto, Huawei, Motorola, LG, Nokia, Oberthur, RIM, Samsung, Sony Ericsson and ZTE for the supply of handset devices have. We are currently working to establish new centralized sourcing agreements for all vendors. We are still in the early stages of negotiations, and in the meantime we are working on individual purchase order basis until new contracts are agreed.

MVNO Agreements

In France and Belgium, we offer mobile telephony services to our customers as MVNO operators.

In 2010 in France, we entered into several MVNO agreements with Bouygues Télécom for voice and data transmission, pursuant to which we introduced our quadruple play offering in 2011. The agreements relating to voice transmission services are due to expire in 2017 and will be automatically renewed unless otherwise notified by either party with six months' notice prior to their respective initial expiration dates. Upon renewal, they will be valid until further notice and may be terminated by either party upon twelve months' notice. The agreements relating to data transmission services expired in 2012, but were renewed at their expiration for an indefinite term. They may be terminated by either party upon twelve months' notice.

The financial terms of these agreements include a flat fee that corresponds to minimum levels of consumption by our end customers and a variable fee based on actual consumption (i.e. number of end customers, amount of voice and data transmission services used). Bouygues Télécom must use its best efforts to comply with its obligations under these MVNO agreements and has a right to unilaterally modify these agreements should it be become unable to perform all or part of its obligations due to technical or regulatory reasons.

In Belgium, we offer mobile telephony services to our customers as MVNO operators. Our MVNO agreement with Mobistar is valid for an initial term of three years expiring at the end of December 2014. We have entered into an MVNO agreement with BASE to provide us with MVNO services as from the date of the expiry of the Mobistar agreement. The term of the agreement is for three years, with it being valid until December 2017.

Shareholders' Agreement between Next L.P., Penta and Valemi .

Next L.P., Penta and Valemi entered into a shareholders' agreement prior to the initial public offering of the Issuer pursuant to which each of Penta and Valemi agreed to grant to Next L.P. a right of first refusal with respect to any proposed transfer of ordinary shares of the Issuer by Penta and/or Valemi. Other members of management may also become parties to this shareholders' agreement and grant to Next L.P. the same right of first refusal with respect to ordinary shares held by them.

Seasonality

Although our businesses are not subject to significant seasonal effects, revenue from our pay television, broadband internet access and fixed-line telephony operations tend to be slightly higher in the fourth quarter of the year and slightly lower in the third quarter of the year.

Intellectual Property

We use a variety of trade names and trademarks in our business, including "HOT" in Israel, "Numericable" and "Coditel" in Belgium and Luxembourg, "Numericable" and "ONLY" in the French Overseas Territories, "Cabovisão" and "ONI" in Portugal, "Orange" and "Tricom" in the Dominican Republic and, in each case, several associated trademarks. We use the "Numericable" brand, a trade mark belonging to Numericable France, in Belgium, Luxembourg and the French Overseas Territories, pursuant to a trademark licensing agreement. Other than "Numericable" and certain associated trademarks, we own all of the trademarks we use. All of our trademarks are protected in the jurisdictions in which we operate. We license the "Altice" brand from our founder and executive chairman Patrick Drahi for a nominal annual fee.

In respect of our use of the "Orange" brand in the Dominican Republic, in November 2013 (in connection with our acquisition of ODO) we entered into a brand license agreement with Orange Brand Services Limited that has now become effective as of the completion of the ODO Acquisition. Under the terms of the agreement, we have a license to use the Orange brand for three to five years effective after the closing of the ODO Acquisition in the Dominican Republic for the current activities of ODO. We currently intend to continue to use the Orange brand and to carry out a rebranding process within approximately eighteen months of the acquisition date. Royalties under the brand license agreements will be paid to Orange S.A. on a quarterly basis. The brand license agreement may be terminated by either party in certain circumstances, including if we or Orange Brand Services Limited commit a material breach of the agreement, if we do not satisfy certain minimum investment requirements in the Orange brand, if we undergo certain change of control events or if a competitor purchases shares in us.

We do not possess any material patents, nor do we believe that patents play a material role in our business.

We license some of the television programming content for our pay television offering from third-party providers. In addition, in Israel, we co-develop shows and have also developed several show platforms for our "HOT" suite of channels. Further, we have acquired Ma Chaîne Sport and SportV, French and Luxembourg producers of sports-themed pay television content which they distribute via their television channels. We own the copyright that subsists in the content developed or co-developed by us.

Employees

The following tables show our employees by country of employment.

	As of September 30, 2014	As of December 31, 2013	As of December 31, 2012	As of December 31, 2011
France	2,158	2,077	1,910	1,599

French Overseas Territories	998	930	830	910
Dominican Republic	2,111	3,078	3,078	2,838
Total	**8,273**	**9,410**	**12,573**	**12,044**

Certain of our subsidiaries also use contract and temporary employees, which are not included in the above number, for various projects.

We are subject to various labor laws in each of the jurisdictions in which we operate. Labor laws typically govern the length of the workday, minimum wages for employees, procedures for hiring and dismissing employees, determination of severance pay, annual leave, sick days, advance notice of termination of employment, equal opportunity and anti-discrimination laws and other conditions of employment. Further, we are generally required to provide severance pay upon the retirement, death or dismissal of an employee. We are also required to make national insurance payments on behalf of our employees to the government in each of the jurisdictions in which we operate.

Some of our employees currently belong to organized unions and works councils. In France, we have faced several strikes by our personnel between 2005 and 2007 when, in connection with our merger with former cable operators, we completed several rounds of headcount optimization; in early 2009, when we terminated the employment of a number of our salespersons; and during the spring of 2010 in response to our amendment of certain of our door to door salespersons' employment terms and conditions. The strikes which took place in 2009 disrupted our headquarters' operations and generated adverse publicity. In France, we plan to negotiate with the unions representing Numericable and Completel to create a group committee out of the existing workers' committees. As such, there would be an additional level of negotiation with the unions at the Numericable Group level, which we expect would lead to Numericable Group level agreements on matters of common interest that would apply to all of the Numericable Group's companies. As a result, a subsidiarity principle would be applied and any areas not addressed at the Numericable Group level would be negotiated at the level of each of the Numericable Group entities and Completel.

In Israel in August 2013, Power to the Workers, a democratic workers organization, claimed a collective dispute and requested declaratory reliefs that Power to the Workers is the representative organization of HOT (not including HOT Mobile), and that the group must conduct negotiations regarding a collective bargaining agreement. On September 11, 2014 the labor tribunal gave its verdict, ruling that Power to the Workers did not sign the minimum number of employees required by law (33.3%) in order to become a representative workers organization in HOT (either including or excluding HOT Mobile).

On September 23, 2014, the Regional Labor Court in Tel Aviv ruled that the relevant entity for negotiation with respect to the Collective Agreements Law, 5717-1957 (the "Collective Agreements Law") is HOT Mobile and that the representative organization is the New General Histadrut of Employees (the "General Histadrut"). It was further determined that HOT Mobile breached the provisions of the Collective Agreements Law in a series of actions that were intended to harm its employees' freedom of assembly, and HOT Mobile was ordered to pay compensation of NIS 1 million to the General Histadrut. HOT Mobile has filed an appeal of this judgment to the National Labor Court.

On October 29, 2014, the National Labor Court dismissed, by consent of the parties, the motions filed by the General Histadrut and Power to the Workers, seeking to prevent HOT Mobile from entering into negotiations regarding a collective agreement with the General Histadrut, after HOT Mobile gave notice that it recognized the General Histadrut as a representative organization.

Other than as disclosed in these Listing Particulars, we consider our employee relations to be good.

Properties

We lease and own certain properties for our corporate offices, sales offices, broadcast centers, communication rooms, customer service centers, sales stores, mobile network sites, hubs, switches and head-end sites. Our registered office is located at 3, boulevard Royal, L-2449 Luxembourg. With respect to our French operations, our main corporate offices are located in Paris, France. With respect to our Israeli operations, our main corporate offices are located in Yakum which is located in proximity to Tel Aviv. With respect to our Belgian operations, our main corporate offices are located in Brussels, Belgium. With respect to our Luxembourg operations, our main corporate offices are located in Strassen, Luxembourg. With respect to our Portuguese operations, our main corporate offices are located in Lisbon, Portugal and Palmela, Portugal. With respect to our operations in the French Overseas Territories, our main corporate offices are located in Paris, France. With respect to our operations in the Dominican Republic, our main corporate offices are located in Santo Domingo.

We believe that our properties meet our present needs and are generally well-maintained and suitable for their intended use. We believe that we generally have sufficient space to conduct our operations but maintain flexibility to move certain operations to alternative premises.

Environmental Matters

We are subject to a variety of laws and regulations relating to land use, environmental protection and health and safety in connection with our ownership of real property and other operations, including laws regulating non-ionic radiations emitted as a result of our mobile services. While we could incur costs, such as clean-up costs, fines and third party claims for property damage or personal injury, as a result of violations of or liabilities under such laws or regulations, we believe we substantially comply with the applicable requirements of such laws and regulations and follow standardized procedures to manage environmental risks. Given our activities and our current property, plant and equipment, we believe that there are no environmental factors likely to have a significant impact on the use of our current property, plant and equipment, other than as disclosed in these Listing Particulars in "*Risk Factors—Risks Relating to Our Business, Technology and Competition—Our business may be adversely affected by actual or perceived health risks and other environmental requirements relating to exposure to electromagnetic fields through telecommunications equipment*".

Furthermore, we are also careful to offer our subscribers ecologically responsible products and services in order to reduce their energy consumption. Due to its versatility and multifunctionality, the LaBox represents a significant advance, since it combines several functions (Blu-Ray TM reader, TV-HD decoder and removable hard drive).

Insurance

We maintain a property insurance policy with wide coverage based on "extended fire" wording to cover our property on a new replacement basis. In certain of our geographies, including France and Israel, we also maintain a business interruption policy based upon the same perils. The property coverage is supported by coverage for electronic equipment. We maintain various liability insurance policies including general liability, comprehensive third-party liability, products liability and professional liability, multimedia liability and employer's liability insurance policies. In addition to these policies we maintain motor vehicle insurance policies, heavy equipment policy, open policy for contract works to cover maintenance and development works and few other small policies. We have directors' and officers' liability insurance policies that cover all members of our Group executive management and the members of the majority of our local management boards. We do not insure against certain operational risks for which insurance is unavailable or which can only be insured at what we believe to be on unreasonable terms.

In our view, the sum insured, the limits of liability, the deductibles and scope of cover in our policies are satisfactory and suitable for companies acting in the telecommunications sector (subject to the wording of the policies, conditions and exclusions). However, we cannot guarantee that no losses will be incurred or that no claims will be filed against us which go beyond the type and scope of the existing insurance coverage. With respect to the majority of our businesses, we do not insure against war and terrorism risks, but we believe we are covered in Israel by the Property Tax and Compensation Fund Law 1961.

Legal Proceedings

We are involved in a number of legal and administrative proceedings arising in the ordinary course of our business. The legal proceedings initiated against us include, amongst others, the following categories of claims: claims by or on behalf of customers on various grounds such as alleged misrepresentation or breach of service or license terms or breach of telecommunication, broadcasting, consumer or health and safety regulations, intellectual property claims primarily relating to alleged copyright infringement brought by copyright collection societies, claims by suppliers and other telecommunications providers, claims by employees and claims by the regulatory bodies whose jurisdiction we are subject to in the countries in which we operate. In Israel, a majority of legal proceedings against us are suits seeking certification as class action suits. The Israeli Class Action Law that was enacted in 2006 significantly expanded the grounds for certification of class action suits as well as the persons entitled to submit a class action suit as a result of which the number of such proceedings against us has increased significantly and may continue to increase in the future.

We proactively manage our litigation risks by assessing disputes where we believe the claimant may have merit and attempting to settle such disputes on favorable terms, including in the case of suits seeking certification as class action suits at a stage prior to such certification, and contesting others where we believe the claim does not have merit. We record a provision when there is a sufficient probability that a dispute will result in a loss for the Group and the amount of such a loss can be reasonably estimated. Other than as discussed below, as of the date of these Listing Particulars, we are not aware of any administrative, judicial or arbitral proceedings (including any pending or threatened proceedings) that are likely to have, or have had, over the course of the last twelve months a material adverse effect on our financial condition or results of operations. The outcome of legal proceedings, however, can be extremely difficult to predict with certainty, and we can offer no assurances in this regard.

Litigation Relating to Coditel Network in Luxembourg

In 2006 and 2010, respectively, the municipalities of Roeser and Junglinster in Luxembourg terminated Coditel's network operation agreements. Coditel refused to comply with the municipalities' request to stop operating the network as it deemed that Coditel acquired ownership of the network from a private individual prior to entering into the agreements with the municipalities, which only pertain to the network operations, and that such authorization is no longer required since the implementation of the telecommunication package in Luxembourg. The municipalities of Roeser and Junglinster each sued Coditel, claimed ownership of the network and demanded that Coditel cease network operations. In December 2012, the District Court of Luxembourg (First Instance) ruled, in each case, that Coditel should cease operations within three months subject to a daily €100 fine. The court also ruled that Coditel is the owner of the network in Roeser. The court did not order provisional enforcement of the proceedings. In February 2013, Coditel filed an appeal against the decision rendered by the Court of Luxembourg. The proceedings are still pending.

Coditel is involved in a number of other legal proceedings in the ordinary course of its business.

Tax Matters in France

The French tax authorities have conducted audits on various companies of the Numericable Group since 2005 with respect to the VAT rates applicable to the Numericable Group's multiple play offerings. Under French tax law, television services are subject to a 5.5% VAT rate, which increased to 7% as of January 1, 2012, and to 10% as of January 1, 2014, while internet and telephony services are subject to a 20% VAT rate, up from 19.6% due to an increase effective January 1, 2014. When marketing multiple play offerings, the Numericable Group allocates a price reduction compared to the price it would charge for such services on a stand alone basis. This price reduction is primarily applied to the Numericable Group's internet and telephony services in multiple play offerings, because such services are newer products. As a result, the VAT the Numericable Group charged to its multiple play subscribers was lower than the VAT that would have been charged if it had deemed the price reduction to apply primarily to the television services portion of its packages.

The French tax authorities assert that these price reductions should have been computed pro rata of the stand alone prices of each of the services (television, broadband internet, fixed and/or mobile telephony) included in the Numericable Group's multiple play packages and proposed adjustments for the fiscal years 2006 to 2010.

The Numericable Group has formally contested the tax adjustments for fiscal years 2006 to 2009. The Numericable Group asked the Ministry of Finance in December 2011 for a settlement of all the rectifications proposed by the Administration for all the companies of the Numericable Group for fiscal years 2006 to 2009. Further to these requests, the tax authorities revised downwards the amounts of rectifications for years 2008 and 2009 by including in its calculation a limitation based on the 50/50 rule applicable on the composite VAT which was effective from 2008 to 2010. The new amounts of rectifications, amounting to €17.1 million (not including penalties of 40%) for fiscal years 2006 to 2009 were communicated to the Numericable Group at the end of August 2012.

Furthermore, in 2012, the tax authorities have also initiated a tax audit of fiscal year 2010, in the same matters and scope as the audits described above. These procedures gave rise to proposed adjustments at the end of June 2013 for a total amount of €6.1 million (except penalties of 40%). The Numericable Group responded on August 21, 2013, in order to contest the proposed assessments. The tax authorities responded to our observations in October 2013 maintaining their position with respect to the proposed adjustments. To date, no tax audit has been initiated for 2011 and subsequent years.

The tax authorities also placed into collection the rectification of fiscal year 2006 on NC Numericable (approximately €2 million (out of the €17.1 million mentioned above for the 2006-2009 period)). The Numericable Group asked for a payment deferral and filed a complaint in September 2012 which was rejected by the tax authorities on June 27, 2013. The Numericable Group filed an additional request on August 20, 2013.

VAT rules applicable to multi play offerings changed as of January 1, 2011. For a description of the practices and situation of the Numericable Group since January 1, 2011 (*Risk Factors—Risks Relating to Legislative and Regulatory*

Matters—Adverse decisions of tax authorities or changes in tax treaties, laws, rules or interpretations could have a material adverse effect on our results of operations and cash flow).

Finally, in 2013, the tax authorities initiated tax audits on the Altice B2B France and Completel entities in respect of fiscal years 2010 and 2011, giving rise to proposed adjustments on December 19, 2013. These proposed adjustments relate to certain charges for services the companies received in 2009, 2010 and 2011. In addition, the proposed adjustments resulted in a €28.5 million reduction of reportable deficit. The Group contested all of the proposed adjustments on February 17, 2014. On December 31, 2013, a tax provision for a total amount of €36.3 million was recognized covering all VAT risks (excluding €7.1 million of penalties) in respect of proposed adjustments for fiscal years 2006 to 2010 (€23.2 million) and the risks associated with the proposed adjustments with respect to charges for services rendered in fiscal years 2009 to 2011 (€11.4 million).

European Commission's in-depth inquiry into the transfer of cable infrastructure by certain municipalities in France

On July 17, 2013, the European Commission announced that it had opened an in depth inquiry into whether the transfer of certain public cable infrastructure during such period by several French local authorities to the Numericable Group was in accordance with European competition laws on State aid. The European Commission, in announcing the opening of the inquiry, noted that it believed the transfer of public goods to a private enterprise without appropriate compensation provides such enterprise with an economic advantage from which its competitors did not benefit and thus constitutes state aid under European Union rules, and that the free transfer of cable networks and ducts to the Numericable Group effected by approximately 45 French municipalities, according to the estimates of the Numericable Group, conferred such an advantage and thus constituted state aid. The Group firmly contests the existence of any state aid. In addition, this inquiry relates to a relatively small number of network plugs (approximately 200,000), the bulk of which have not been upgraded to EuroDocsis 3.0 and provide access only to a limited number of its pay television services. The European Commission's decision of July 17, 2013, was published in the Official Journal of the European Union on September 17, 2013. The case is currently in a comment period during which we and third parties may make observations in relation to the allegations, with the Group still firmly contesting the existence of any state aid.

Disputes with Orange in France

The Numericable Group entered into four non exclusive IRUs with Orange on May 6, 1999, May 18, 2001, July 2, 2004, and December 21, 2004, in conjunction with the Numericable Group's acquisition of certain companies which operated cable networks built by Orange. These cable networks, which are only accessible through the civil engineering installations, including primarily ducts, of Orange, are made available to the Numericable Group by Orange through these non exclusive IRUs over such civil engineering installations. Each of these IRUs covers a different geographical area and was entered into for a 20 year term.

Following ARCEP's decision 2008 0835 of July 24, 2008, Orange published on September 15, 2008, a technical and commercial offer made to telecommunication operators pursuant to which such operators could roll out their own fiber networks in Orange's ducts. The terms of this mandatory technical and commercial offer are more restrictive than the terms the Numericable Group benefited from under the Orange IRUs. As a result, Orange requested the Numericable Group to comply with the general procedures regarding the access to Orange's ducts to maintain and upgrade its network. ARCEP and the Paris Court of Appeal ruled in favor of Orange on November 4, 2010, and June 23, 2011, respectively. The Numericable Group appealed the decision in the French Supreme Court (*Cour de Cassation*) but on September 25, 2012, the Court upheld, for the most significant part, the decision of the Paris Court of Appeal.

Moreover, on October 21, 2011, ARCEP initiated a sanctions procedure against the Numericable Group for not having complied with its November 4, 2010 decision. Consequently, in December 2011, the Numericable Group executed amendments to the IRUs in order to comply with the November 4, 2010, ARCEP decision and to align the operating procedures set forth in the IRUs with the procedures set forth in Orange's generic technical and commercial offer.

In the meantime, the sanctions procedure initiated by ARCEP was not settled with the execution of the amendments to the IRUs and the Numericable Group was sentenced on December 20, 2011, to a fine of €5.0 million for noncompliance with ARCEP's November 4, 2010, decision. This fine was paid in its entirety in 2012. The Numericable Group appealed this decision before the *Conseil d'Etat*. On October 21, 2013, the *Conseil d'Etat* annulled the penalty.

Further, the Numericable Group initiated parallel proceedings against Orange before the Commercial Court of Paris on October 7, 2010, and before the ICC in Paris on October 22, 2010, claiming damages in the total amount of €3.1 billion (€2.6 billion before the Commercial Court and €542 million before the ICC) for breach and modification of the IRUs by Orange. On April 23, 2012, the Commercial Court of Paris ruled in favor of Orange and dismissed the Numericable Group's claims for damages, ruling that there were no material differences between the original operational procedures and the new operational procedures published by Orange on September 15, 2008. The ICC rendered a final award on February 25, 2013, dismissing Numericable Group of its claims and ordering Numericable Group to pay the arbitration costs and other related costs in a total amount of €1.2 million. By judgment rendered on June 20, 2014, the Court of Appeal of Paris confirmed the first instance judgment issued by the Commercial Court of Paris and awarded €90,000 to Orange for damages and court costs. Numericable Group filed an appeal before the French Supreme Court, the decision of which is expected to be rendered sometimes during the first quarter of 2016. Both the Court of Appeal of Paris and the ICC dismissed Orange of its claims in the amount of €100 million for abusive legal action.

Dispute with Free relating to the advertising of mobile services in France

On August 3, 2011, Free filed a claim against Numericable SAS and NC Numericable before the Commercial Court of Paris following the launch of a mobile offer by the Numericable Group in Spring 2011 through an advertising campaign entitled "The mobile revolution".

Free, who used the term "revolution" to refer to its initial launch of mobile phone services and whose latest offering was named the "Freebox Revolution", argues that the Numericable Group's campaign led to customer confusion and damaged its brand and image. Free claims €10.0 million in damages.

After the hearing, the Court asked the opinion of the *Direction Générale de la Concurrence, de la Consommation et de la Répression des Fraudes* (the "DGCCRF") as to whether Free's assertions were justified with regard to the laws of advertising.

The DGCCRF issued an opinion in which it indicated that the Numericable Group's campaign did not constitute misleading or irregular advertising inconsistent with applicable advertising law. However, despite this opinion, the Commercial Court of Paris rendered a decision in December 2013 awarding damages of €6.0 million to Free. The Numericable Group has duly filed an appeal on December 20, 2013. The ruling of the Court of Appeal is expected by the end of 2015. At this stage, Free has not filed any submissions with the Court.

Dispute with the Ligue de Football Professionnel (Professional Soccer League)

On April 26, 2013, the *Ligue de Football Professionnel* (the "LFP") asked the Commercial Court of Nanterre to rule that Numericable and NC Numericable had abused their dominant position and breached their non discrimination obligation to the LFP when the LFP was producing its channel CFoot. The LFP is claiming €4.1 million in damages. More specifically, the LFP is complaining of the low level of remuneration received to market its CFoot channel by comparison with the remuneration of certain sports channels marketed in its bundles. Numericable will file its submission with the Court by January 22, 2015. The Commercial Court of Nanterre is expected to render its decision during the second quarter of 2015.

Disputes with various providers of value added services ("VAS") in France

By related complaints dated February 19, 2013, five providers of added value telephony services that offer their services to the public through Completel's premium rate (0899) telephone numbers commenced litigation against Completel, in the Commercial Court of Nanterre, requesting that Completel be ordered to pay a total of €350,000 in repayment of amounts withheld by Completel out of amounts collected on their behalf. Completel withheld these amounts in response to the practices of these companies, which in Completel's view violate their agreements with Completel as well the industry's ethics rules. Moreover, these companies seek a total of € 12 million in damages for prejudice they claimed to have suffered as a result of the withholding of amounts due by Completel.

In addition, because Completel decided in November 2012 to terminate this activity, it suspended certain repayments and applied various contractual penalties to companies marketing this type of value added telephony service. Certain of these companies brought action against Completel in various commercial courts, asking for payment of the amounts withheld by Completel or the cancellation of the penalties applied by Completel. The total amount claimed is approximately €400,000, including primarily amounts collected on behalf of the providers.

Actions of Colt, Free and Orange before the General Court of the European Union Regarding DSP 92

Colt, Free and Orange, through three distinct actions, sought for the General Court of the European Union to annul the September 30, 2009 decision of the European Commission (decision no. C (2009) 7426), which considered that the granting of €59 million in compensation for the public service costs for the establishment and operation of a network of very-high-speed electronic communications in the Hauts de Seine department did not constitute state aid under the rules of the European Union. The Numericable Group was not a party to these actions; however, its subsidiary, Sequalum, intervened in the proceedings, as did the French State and the Hauts de Seine department. By three orders dated September 16, 2013, the General Court of the European Union rejected the claims of the three claimants and confirmed the aforementioned decision of the European Commission approving such public financing. Free and Orange duly appealed the decision.

Claim by Bouygues Télécom against Numericable, Completel, and NC Numericable

In late October 2013, Numericable, Completel and NC Numericable received a letter from Bouygues Télécom claiming damages with respect to the white label contract entered into on May 14, 2009, initially for a period of five years and extended once for an additional five years, among these companies and Bouygues Télécom, for the supply to Bouygues Télécom of double-play and triple play high-speed services. In this letter, Bouygues Télécom claims damages in a total amount of €53 million including (i) €17.3 million for pre contractual fraud (provision of erroneous information prior to the signature of the contract), (ii) €33.3 million for breaches by the Company in the performance of the contract, and (iii) €2.4 million for harm to Bouygues Télécom's image. Numericable Group considers Bouygues Télécom's claims unfounded, both factually and contractually, and contests both Bouygues Télécom's allegations as well as the amount of damages claimed. However, Numericable intends to continue operational discussions that occur regularly between the parties relating to the performance of the contract. In this respect, Bouygues Télécom has also requested certain modifications to the contract as part of its claims. Notwithstanding the above, the diary collaboration between the parties remains similar to the pre October 2013 schedule. This contract, which runs until 2019, generated €37.3 million of revenues in 2012, representing 49.6% of total B2C white label revenues in France of € 75.3 million and 2.8% of total Numericable revenues.

Investigation by the Regional Chamber accounts of Ile-de-France DSP 92

In November 2013, a number of articles reported that the Regional Chamber Accounts of Ile-de-France has opened an investigation into the management of the Hauts de Seine region between 2004 and 2007. The articles reported that the investigation would focus primarily on project DSP 92 granted to Numericable and in particular a grant of €59 million to Numericable in compensation for public service costs for the establishment and operation of an electronic communications network at very-high-speed in the region. We have no information about the object or the timing of this investigation, its exact nature or its potential impact on the Group. However, we note that the DSP 92 project has been validated by the French administrative court, the European Commission and the Court of the European Union to which the DSP 92 has been referred to for review and, in addition, the Regional Chamber Accounts of Ile de France has no power to act against non governmental entities.

Dispute Settlement Proceedings Concerning the DSP 92

A dispute arose between the department of Hauts-de-Seine and Sequalum concerning the conditions of execution of the Service Concession agreement entered into on March 13, 2006, between Sequalum, a subsidiary of the Group and the department of Hauts-de-Seine. This public service concession arrangement is aimed at building a high-capacity fiber network throughout the department of the Hauts-de-Seine. As of September 30, 2014, the net book value of the network built by Sequalum represents approximately €123 million and the Group received €25 million of subsidies from the department of Hauts-de-Seine.

During its assembly on October 17, 2014, the department of Hauts- de-Seine decided to terminate the Service Concession agreement signed with Sequalum for "fault and full responsibility of the delegatee". The department of Hauts-de-Seine also asked Sequalum to pay penalties for a total amount of approximately €45 million euros, arguing there were delays in the construction of the network, a claim which is contested by Sequalum.

Within the framework of the Service Concession Agreement, the department of Hauts-de-Seine also asked the financial institution involved to implement the guarantee granted by Sequalum for €10 million, this amount corresponding to the maximum amount that could be guaranteed with respect to the Service Concession Agreement. So far, the bank has not responded favorably to this request, arguing that the request was not sufficient, in terms of its form and documentation, to allow the implementation of the guarantee.

The penalties were contested through a request recorded by the administrative court on September 3, 2014. The execution and the payment of the penalties are suspended until a decision is made on this litigation.

The decision of the department of Hauts-de-Seine to terminate the agreement has not yet been notified to Sequalum who intends to contest it before the competent courts. Sequalum continues to perform the contract, subject to potential requests the delegator may impose. Should the courts decide in favor of the department of Hauts-de-Seine, Sequalum could be obliged to reimburse the grants it has received. The department of Hauts-de-Seine, for its part, would receive all the assets built within the framework of the DSP 92 on July 1, 2015. The department of Hauts-de-Seine would have to indemnify Sequalum at a level corresponding to the net book value of the assets.

On October 16, 2014 Sequalum made a request before the administrative court of Cergy Pontoise seeking to end the Service Concession agreement due to "force majeure" in the context of irreversible changes in the contractual economy.

The Group's management have examined the risks relating to these procedures and have found, at this stage, that there are too many uncertainties to measure the ultimate risk they pose to the Group.

Dispute with Call In Europe

On October 24, 2014, Call In Europe filed a claim against Completel before the Commercial Court of Nanterre on the grounds of unfair competition. Call In Europe is claiming €6.0 million in damages. In its submissions, Completel is claiming 500,000 euros for abusive legal action. Call In Europe will file its submissions with Court by December 19, 2014.

On November 17, 2014, Completel filed a complaint before the Public Prosecutor of Nanterre for blackmail.

Certain class action suits in Israel

In March 2010, a suit seeking certification as a class action was filed against HOT in the Central District Court regarding an alleged breach of provisions of the Communications Law regarding the disconnection of subscribers from its services. The applicant has claimed damages of NIS 105 million. As of the date of these Listing Particulars, a settlement agreement including a contribution to the community valued at NIS 7.5 million and certain benefits to subscribers was filed to the Central District Court but has been denied by the Central District Court. A motion to appeal on the same decision was filed to the Supreme Court. On September 1, 2013, the Court decided to appoint an auditor to examine the settlement agreement. The auditor recommended approval of the settlement agreement, subject to certain changes, and, in July 2014, HOT and the plaintiff submitted an amended agreement in accordance with the auditor's recommendations. The Israeli Attorney General filed an objection to the amended agreement, and HOT intends to submit its response to the Government's position. The matter is still pending.

In October 2010, a suit seeking certification as a class action was filed against HOT in the Central District Court relating to alleged breach of HOT's Broadcasting License and certain provisions of its agreements with subscribers when collecting subscribers' fees in respect of the month in which the company's services were provided to subscribers, rather than charging the following month. The applicant has estimated damages in the suit of NIS 433 million. In June 2014, the Central District Court denied the suit and the motion to approve it as class action. In September 2014, the applicant filed a motion to the Supreme Court to extend the date to file an appeal on the case and to replace the plaintiff. The matter is still pending.

On December 11, 2011, HOT received a claim and request to certify a class action filed with the Central District Court. The applicant claims that HOT violated its license and was unjustly enriched because it collected from subscribers "handling fees" in connection with the collection of debts higher than allowed by law. The Applicant asked the court to approve the class action and to rule in favor of the group in which the reliefs sought, including compensation totaling NIS 27.3 million or any other amount at the discretion of the Court. On September 2, 2012, the Court filed its reply to the request and on October 22, 2012, held a preliminary hearing request, and stated that there is no need to process evidence and that the parties submit their summations. The matter is still pending.

In February 2011, a suit seeking certification as a class action was filed against HOT by two applicants to the Central District Court, relating to alleged breaches of certain subscribers' agreements by increasing the price of services to subscribers, including alleged misleading of subscribers when increasing the prices of services. The applicants estimated damages in the suit of NIS 666 million. Following preliminary proceedings, on January 14, 2013, the Court decided that the hearing of the case will be delayed until a decision is reached with regards to the class action which was filed on December 11, 2011, as detailed above.

In March 2012, a suit seeking certification as a class action was filed against HOT to the Haifa District Court. The applicant claims, *inter alia*, that HOT acted unlawfully when it did not pay CPI linkage differentials and interest to disconnecting subscribers with respect to the period beginning on the disconnection date until the refund date. The applicants estimate damages of approximately NIS 112.4 million. The matter is still pending.

In April 2012, a suit seeking certification as a class action was filed against HOT and against HOT Telecom in the Tel Aviv District Court regarding alleged breach of certain provisions of the law regarding the supply of frontal services. The applicant has claimed damages in the suit of NIS 186 million. On January 16, 2014, the Court was asked to approve the settlement agreement. The matter is still pending.

In November 2012, a purported shareholder of HOT filed a suit seeking certification as a class action against Cool Holding, the HOT Minority Shareholders, HOT and members of its board of directors in the Economic Division of the Tel Aviv District Court. The suit claims that, among other things, the consideration for the Take-Private Transaction has been allocated in a manner that prejudices the public shareholders of HOT, by providing the HOT Minority Shareholders with consideration in excess of the consideration received by the other public shareholders and that certain conflicts of interest existed. The suit calls for the parties other than HOT to reallocate the consideration, in a manner that would result in the public shareholders (other than the HOT Minority Shareholders) whose shares of HOT will be acquired in the Take-Private Transaction receiving an additional aggregate amount in excess of NIS 54 million. A similar claim, also seeking certification as a class action, was filed on behalf of another purported shareholder on November 26, 2012, challenging the allocation of consideration in the Take-Private Transaction, alleging that the share price in the transaction was unfair and asking the court to appoint an expert to determine a fair price. This claim sought total damages of up to NIS 195 million. In December 2014, HOT approved a settlement agreement with the plaintiffs in the aforementioned class actions. The settlement agreement, which was approved by the Audit Committee and the Board of Directors as fair and reasonable under the circumstances, states that against full and final waiver and dismissal of the claim, the plaintiffs will be paid an amount of NIS 2 (including legal fees and VAT) for every share that was purchased in the merger agreement, that one plaintiff will be refunded part of the VAT applicable to it and that both plaintiffs' legal fees will be paid. The total amount of the settlement is approximately NIS 30 Million. The Company and the controlling shareholder will share the settlement equally without admitting or agreeing with any allegation raised by the plaintiffs in their legal statements. The terms of the final settlement agreement remain subject to Court approval.

In November 2013, a class action suit was filed against HOT and certain other telecommunications operators by Roli Kleiman and certain others, alleging breach by HOT and the other defendants of certain Israeli laws including the Equality Law, the Regulations of Equality for People with Disabilities, the Torts Ordinance and the Consumer Protection Law by failing to provide cellular or stationary phone devices and/or services suitable for people with disabilities. The plaintiffs are representing all people with disabilities who were customers of HOT and the other defendants during the period at issue. The compensation being sought from HOT is NIS 97 million. The proceedings are still pending.

In November 2013, HOT received notice of an application for a class action suit, whereby the applicant is seeking to represent every customer who received telephone calls from HOT representatives that amounted to harassment during the 7-year period preceding the date of the claim. According to the applicant, HOT's sales representatives harass potential customers through the volume of telephone calls it places, which allegedly resulted in a breach of HOT's obligation stipulated in the Communications Act (Telecommunications & Transmissions), 5742-1982. The applicant is also claiming invasion of privacy and a breach by HOT of its good faith duty at the pre-contract stage. The applicant estimates the damage to each member of the class action suit to be no less than NIS 250. In addition, the applicant has requested an injunction, prohibiting HOT from continuing to make telephone calls that amount as harassment. HOT is studying the details of the claim and application for a class action. The matter is currently in its preliminary stages.

On December 12, 2013, HOT received notice of an application for a class action suit, filed by two of its customers ("the application" and "the applicants", respectively) in the Tel Aviv District Court. The applicants wish to represent all of HOT's customers who do not benefit from the monthly discount on VOD services ("the monthly television discount") or a discount on certain channels. According to the applicants, HOT offers various benefits selectively to some of its customers, in order to retain them or incentivize them to subscribe to more of its services, contrary to HOT's obligation pursuant to the provisions of the license for cable broadcasts granted to HOT, to offer its services on equal and non-discriminatory terms. In addition, the applicants allege that HOT is misleading its customers regarding the accepted price by not revealing the existence of the aforesaid benefits. The amount of the claim is NIS 100 million. The applicants are seeking to obtain a declarative junction. The matter is still pending, and HOT is studying the details of the claim and the application for this class action suit.

On January 16, 2014, HOT received notice of a claim filed in the Jerusalem District Court by B-Point Systems Ltd against HOT, HOT Telecom, HOT Net, Tel Aviv Telecom Ltd and their respective officers and controlling shareholders. According to B-Point Systems Ltd, under an agreement to supply HOT and its associated companies with installation and maintenance services, HOT, its associated companies and its and their respective officers breached the agreement by acting in bad faith and negligently, and unlawfully enriching themselves. The amount of the claim was estimated at approximately NIS 45 million. Pursuant to such claim being filed, both parties agreed to resolve the matter through mediation which has not yet taken place.

On October 7, 2014, HOT Mobile received a claim, and a motion to approve it as a class action, filed by customers of HOT Mobile at the District Court in Tel Aviv. The Plaintiffs claim that on September 28, 2014, HOT Mobile did not provide a necessary time synchronization service for its cellular devices, and failed to updated devices to "winter" time at the necessary time. They claim that HOT Mobile should have prepared in advance for the synchronization and repair the system defect and/or notified them in advance regarding the possibility of the occurrence of the failure. The Plaintiffs allege causes of action in contracts law, tort, unjust enrichment and breach of legal obligation under the Consumer Protection Act. The Plaintiffs estimate that each of the group members suffered damage of an average of NIS 500. The group includes half of the company's customers. The entire claim is estimated by the plaintiffs to be NIS 175 million. HOT Mobile is studying the details of the claim and the motion.

On December 18, 2014, HOT received a claim, and motion to approve it as a class action, filed against it in the District Court in Tel Aviv. The plaintiffs allege that HOT breached its statutory obligations, its duty of good faith and contractual faithfulness and has been unlawfully enriched at consumers' expense by linking the price of its services to subscribers to CPI and increasing costs accordingly. The plaintiffs include all those who have been charged by linkage to CPI in monthly invoices during the last seven years and claim damages totaling NIS 70 million plus linkage and interest payments. HOT is studying the details of the claim and the motion.

Dominican Republic Legal Proceedings

On October 1, 2013, Servicio Ampliado de Teléfonos, C. por A. ("Satel") filed a complaint for damages against ODO in the Dominican Republic, claiming violation by ODO of Satel's spectrum entitlements relating to frequencies 941-960Mhz and an alleged violation of articles 105, 103 of Law 153 98 and Article 47 of General Regulation of Use of the Radioelectric Spectrum No. 128 04. Satel sought $298 million DOP in damages from ODO, however, on October 23, 2013, Satel voluntarily withdrew its claim and filed it again for $373 million DOP in December 2013. A settlement was reached among the parties and executed on April 8, 2014. On October 8, 2014, Satel and ODO entered into an Assignment Agreement in favor of Fundacion Prodigio, a trust set in favor of Satel, Juan Ramon Gomez Diaz and Corporacion Rafa for purpose of executing a first payment.

The payments relating to the abovementioned settlement in favor of Fundacion Prodigio will be triggered after execution of an amendment to the assignment agreement the purpose of which is to reflect tax obligations of Satel and Juan Ramon Gomez Diaz. The schedules of payments is to pay 42% of the settlement consideration to Prodigio once the amendment is executed. The remaining 58% (minus the tax obligations owed by Satel and Juan Ramon Gomez Diaz) are owed once the conditions precedents set forth in the settlement agreement are satisfied. We are currently in the process of negotiating the amendment to the assignment agreement.

DESCRIPTION OF PT PORTUGAL'S BUSINESS

In this section, references to "we", "us" and "our" refers to PT Portugal and its subsidiaries.

Overview

We are the largest telecommunications service provider in Portugal. Our operations are mainly conducted through two key subsidiaries: PTC (which generated €1,765.8 million of revenues on a standalone basis, the contribution of which, after intercompany eliminations, represents 60.7% of our *pro forma* combined revenues in the year ended December 31, 2013) and Meo, Serviços de Comunicações e Multimédia, S.A. ("*Meo, S.A.*") (which generated €1,064.3 million of revenues on a standalone basis, the contribution of which, after intercompany eliminations, represents 36.4% of our *pro forma* combined revenues in the year ended December 31, 2013). PTC provides fixed line services, Pay- TV services (through IPTV, FTTH and DTH platforms), ISP services to residential customers and small and medium size companies ("SMEs") and small office/home office ("SOHOs"), as well as data transmission services and is also an ISP for large commercial clients. Meo, S.A. provides mobile services under a GSM license, a UMTS license, and a fourth generation mobile license ("4G license") through the Long Term Evolution ("LTE") technology.

We manage our business along customer segments with cross-functional collaboration to deliver the best customer experience. We provide telecommunication services in the following customer categories:

- *Residential services*, which are mainly provided by PTC and include integrated networks inside the customer's home enabling the simultaneous connection of multiple devices, including fixed line telephones, TVs (including Internet Protocol Television and direct-to-home satellite Pay-TV services), game consoles, PCs, laptops, tablets and smartphones.

- *Personal services*, which are provided by Meo, S.A. and include mobile telecommunications services, including voice, data and internet- related multi-media services across several access devices, such as mobile phones, smartphones and tablets, as well as wireless datacards and dongles (devices that attach to the USB port of a laptop/computer to provide mobile broadband service) for internet access.

- *Enterprise services*, which are provided by PTC and Meo, S.A. include Corporate and SME/SoHo services, which provide our corporate and medium and small business customers with data and business solutions, as well as IT/IS and business process outsourcing (BPO) services:

    - *Corporate services*, which targets large companies and provides data, internet, video and voice communications, services, fixed-mobile convergence solutions and selected information technology services, network managing and outsourcing; and

    - *SME/SoHo services*, which targets (i) SMEs, providing vertical data and business solutions that are similar to our corporate services and (ii) SOHOs, customers and provides cost-effective data and business solutions for those working in small businesses or at home.

- *Wholesale and other services*, which are essentially provided by PTC, and primarily include wholesale telecommunications services to other telecommunications operators, public pay telephones, the production and distribution of telephone directories and other services in Portugal.

For the year ended December 31, 2013, we had over 12.6 million RGUs, and our *pro forma* combined operating revenues and EBITDA were €2,627.4 million and €1,026.4 million, respectively. For the nine months ended September 30, 2014, we had over 13.1 million RGUs, and our *pro forma* combined operating revenues and EBITDA were €1,900.9 million and €746.6 million, respectively.

History

PT Portugal was incorporated by Portugal Telecom SGPS, S.A. in March 2006 as part of a corporate reorganization of the Portugal Telecom group's businesses into geographic areas. In connection with this reorganization, in September 2006, PT Portugal subsequently acquired the investments in PTC and Meo, S.A., which were previously held by Portugal Telecom. In 2009, Portugal Telecom continued the reorganization of its group by geography by transferring to PT Portugal the Portuguese support companies (which render services mainly to PTC and Meo, S.A.), in order to improve the corporate structure and obtain efficiency gains in the businesses managed by PT Portugal. In connection with this 2009 reorganization, PT Portugal acquired the investments in PT Cloud e Data Centers, S.A. ("PT Cloud e Data Centers"), PT Inovação e Sistemas, S.A. ("PT Inovação"), PT Pro—Serviços Administrativos e de Gestão Partilhados, S.A. ("PT Pro"), PT Sales—Serviços de Telecomunicações e Sistemas de Informação, S.A. ("PT Sales") and

PT Contact—Telemarketing e Serviços de Informação, S.A. (“PT Contact”), which were previously held by Portugal Telecom.

PTC renders fixed line services, initially under the provisions of the Concession Contract entered into with the Portuguese State on March 20, 1995, in accordance with Decree Law 40/95, for an initial period of thirty years, subject to renewal for subsequent periods of 15 years. On December 11, 2002, according to the terms of the Modifying Agreement to the Concession Contract, PTC acquired the property of the Basic Network of Telecommunications and Telex (“Basic Network”). Both these contracts were revoked by the Decree Law 35/2014 of March 7, 2014, effective as of June 1, 2014. On May 9, 2014, ANACOM issued to PTC a declaration that allows PTC to continue providing those fixed line services. PTC also renders Pay-TV services, through IPTV, FTTH and DTH platforms and Internet Service Provider (“ISP”) services to residential and small and medium size companies, as well as data transmission services and is also an ISP for large clients.

Meo, S.A. renders mobile services under a GSM license granted by the Portuguese State in 1992 for an initial period of 15 years, which was renewed in 2007 until March 16, 2022, and a UMTS license obtained on December 19, 2000 for an initial period of 15 years, renewable for an additional period of another 15 years. In March 2012, Meo, S.A. acquired a fourth generation mobile license (“4G license”), under which it provides services as from 2012 through the Long Term Evolution (“LTE”) technology, which represents an evolution from the GSM technology that allows for higher levels of bandwidth and speed. This license has an initial period of 15 years, renewable for an additional period of another 15 years.

In January 2013, PT Portugal launched the first quadruple play offer, through the brand name M_4O, representing a fixed-mobile convergent service, including television, internet, and fixed and mobile telephone services.

On May 5, 2014, Portugal Telecom subscribed to a share capital increase at Oi, S.A. through the contribution in kind of its 100% interest in PT Portugal and, as a result, PT Portugal is since a wholly-owned subsidiary of Oi, S.A.

Our Services

Primarily through PTC and Meo, S.A., we offer our services to each of four customer segments: residential services, personal services, enterprise services, and wholesale and other services.

Residential

Our residential services, which are mainly provided by PTC, focus on offering customers (both fiber and satellite) a differentiated TV experience, which capitalizes on the increased capacity of our new generation access network. We provide integrated networks inside the customer’s home, anchored on premium content and a multi-screen strategy which enables simultaneous and seamless access to content on multiple devices (including PCs, TVs and smartphones). Our triple-play service, *Meo*, offers a differentiated customer experience through (i) a non-linear experience with video-on-demand, pause and restart-TV, (ii) a complete ecosystem for TV apps (Facebook, games, music, Kids and Sapo), (iii) interactive features providing additional depth over key channels and contents, and (iv) user generated content with *Meo Kanal*, an application that allows users to produce, edit and share multimedia user content on television with other *Meo* customers that created the first network effect on TV. We also successfully launched a quadruple-play service, M_4O, which offers Pay-TV, broadband internet, fixed telephone and mobile telephone services. Our television services and fixed line services are further described below.

Pay-TV Services

Our television strategy is based on a multiplatform concept that aims to provide similar content and user experiences across television, PCs and mobile phones. Launched in 2008, *Meo* is our TV brand across the various platforms, primarily at home (through IPTV and satellite), through mobile telephones (through *Meo Go! Mobile*) or through personal computers (through *Meo Go!*). *Meo* provides access to a comprehensive content offering, with more than 160 TV channels and thousands of video-on- demand titles. We offer tiered packages of channels, as well as on-demand availability that can be subscribed for, in real time, directly through the TV set. *Meo* also provides access to advanced features, such as digital recording and pause live-TV. The set-top boxes in the *Meo* service are all HD-compliant, using MPEG4. We were the first operator in Portugal to introduce HDTV and have the most extensive video-on-demand offer in the market. As of December 31, 2013, *Meo* had 1,315 thousand customers and a 41.5% market share, according to ANACOM.

In January 2013, we announced the launch of a quadruple-play offer of converged fixed-mobile services by *Meo*, which includes TV, internet, fixed telephone and mobile telephone services under the brand M_4O. We designed this product after studying recent trends in the Portuguese market, which revealed rising consumer preference for quadruple-play services all reflected on the same invoice, a desire to include the entire family in a single plan, and the importance of high- quality connectivity to the internet. *M_4O* offers 120 TV channels, 100 Mbps broadband speed, unlimited calls and two to four mobile SIM cards, including free of charge calls and text messages to all wireline and wireless networks, using our 3G and 4G networks. The launch of *M_4O* enabled us to reach a household penetration of 1.7 million RGUs and to promote customer migration from prepaid to post- paid by approximately 190 thousand customers.

Meo continues to innovate and, in the first quarter of 2013, added a new exclusive channel, *Correio da Manhã* TV, in partnership with Cofina, the owner of several newspapers and magazines in Portugal, including *Correio da Manhã*. These channels are available on several platforms, including PCs, smartphones and tablets, through the *Meo* GO! service. *Meo*'s content offering also includes thousands of video-on-demand titles and includes interactivity based on anchor programs (e.g. *Idols*, *Secret Story*, *Biggest Loser*). With respect to content, we continue to focus on the intensification of partnerships with content providers, on two-way collaborations to improve content quality, and on the renegotiation of existing content deals aimed at further adapting the content cost structure to the current environment and thereby generating savings in content costs.

Meo also offers advanced interactive applications accessed through the remote control and covering multiple categories, such as (i) News, including a personalized newscast app, developed in partnership with RTP, the state-owned free-to-air channel, and the *Sapo Kiosk* application featuring the daily covers of all local and several international newspapers and magazines, (ii) Sports, including a soccer app, a surf app and specific sports channel applications, such as the *BenficaTV* app and the *SportTV* app, (iii) Music, including *MusicBox*, a multiscreen music streaming service, *Meo Radios*, a radio streaming app, and *Meo Karaoke*, an application that offers *Meo* customers the ability to subscribe and sing from a wide catalog of local and international hits, (iv) Kids, including a comprehensive children's portal where kids can access video-on-demand content, music clips, karaoke, games and tailored educational content, (v) Convenience, including apps for weather, traffic and pharmacies and (vi) Personal content, including an online photo storage app. In 2012, *Meo* launched eight new apps of this type, including *Sapo Voucher*, the first interactive TV app allowing financial transactions and interactions with TV advertisements.

In line with our strategy for content differentiation through interactivity that *Meo* has been pursuing since its launch, we initiated two new "red button" interactive applications in the third quarter of 2013, linked to two popular TV programs in Portugal: (i) "X Factor," developed in partnership with SIC, and (ii) "I love it", a youth TV series, developed in partnership with TVI. Leveraging the fourth edition of "Secret Story," a reality show on TVI, *Meo* launched an exclusive Secret Story channel in late September 2013, airing live 24 hours a day from the Secret Story house, with an interactive application that allowed customers to select the camera from which they wanted to follow contestants in the show and delivered exclusive content.

In January 2013, *Meo* also launched *Gravações Automáticas*, a recording feature that allows customers to record programs and access those recordings up to seven days after the programs were broadcast. We have also developed new and innovative interactive solutions, such as *Meo Energy*, a service for monitoring home energy consumption, which includes rate recommendations based on one's actual consumption profile and suggestions on how to lower a consumer's energy bill.

Fixed Line Services

We had approximately 3,830 thousand fixed retail accesses in service as of December 31, 2013, excluding external supplementary lines, direct extensions and active multiple numbers. Within retail accesses, we track and report:

- traffic-generating lines held by subscribing customers;
- carrier pre-selection lines, which are lines of competitors for which those customers have elected to use our services;
- fixed broadband retail lines; and
- IPTV, FTTH and DTH customers using our *Meo* Pay-TV services.

As of September 30, 2014, we are able to reach 2.1 million homes in Portugal with our FTTH network, after giving effect to the fiber sharing agreement with Vodafone (which is further described below under "*—Material Contracts—Fiber Sharing Agreement with Vodafone Portugal*"). Our network, which is developed in urban areas, is a strategic investment to improve our competitiveness among residential customers, where we can offer distinctive Pay-TV and bundled offers.

Over the last decade, total traffic on our fixed line network has decreased, primarily because consumers have increasingly used mobile services instead of fixed line services and because of the migration of dial-up internet users to Asymmetric Digital Subscriber Lines ("ADSL"). The number of active mobile cards (the mobile equivalent of main lines) exceeds the number of fixed line main lines in Portugal. We have responded to this trend by encouraging the use of our fixed line network for bundled services, including triple-play packages that include fixed-line telephone services, broadband internet access and Pay-TV services.

Additionally, we are required to provide carrier selection to our customers for all kinds of traffic. See "*Regulatory—Portugal—Areas of Recent Regulation and Updates—Number Portability and Carrier Selection*." Carrier selection has been an additional factor that has contributed to the reduction in traffic on our network.

Personal

Through Meo, S.A. in our personal services customer segment, we offer a range of products and services, including (i) a variety of voice and data tariff plans, both prepaid and post-paid, designed to integrate unlimited voice and data plans targeted at high-value post-paid customers and, in the prepaid market, to discourage migration to low-value tariff plans by offering additional voice and data services; (ii) a portfolio of approximately 50 smartphones, including exclusive handsets, with the capability to use an array of value-added and convergent services (mobile TV, music on demand, navigation app, social network aggregator, cloud storage, etc.); and (iii) mobile broadband offers of up to 150 Mbps speed, using 4G technology and offering free access to our national Wi-Fi network. We were the first operator in the world to offer prepaid services, and our prepaid and discount products remain popular. As of December 31, 2013 approximately 75.4% of our subscribers were using prepaid products.

We launched a 4G offering in 2012, and we continuously invest in new services. Our 4G offering currently allows (i) speeds of up to 150 Mbps; (ii) access to live TV channels through Meo Go!, a service that allows access to live TV channels on PCs, tablets and smartphones; (iii) a music streaming service through *Meo Music*, a multiplatform music streaming service, providing access to a catalog of millions of music tracks, which recently underwent a platform upgrade, (iv) *Multi-SIM*, for sharing of traffic among various devices, including PCs, through wireless dongles, tablets and smartphones and (v) *Meo Drive*, a navigation app available in iOS and Android Marketplaces.

At its launch in March 2012, our 4G service was available to 20% of the Portuguese population and was expanded to 93% of the population by the end of 2013. We market our 4G mobile broadband services through *Meo*'s *4G* and *Meo 4G* brands. These offerings range in speed from 50 Mbps to 150 Mbps, with monthly retail prices starting €34.99 (with discounts for early subscribers under a month loyalty program) and include *Meo Music* for free. *Meo 4G* or *Meo 4G* customers that are also *Meo* customers have free access to more than 60 live *TV* channels through the *Meo Go* service.

In January 2013, following the launch of the *M_4O* quadruple-play offering, *Meo* repositioned its voice and data tariff plans. In the post-paid category, unlimited plans now have four different price points, or sizes: (i) the *unlimited S*, for €15.9 per month, offers 600 MB of mobile internet (*internetnotelemóvel*), unlimited Wi-Fi access plus 100 minutes or SMS on all other networks; (ii) the *unlimited M*, for €29.90 per month, offers 1 Gb of mobile internet, unlimited Wi-Fi access plus unlimited voice and SMS, and 120 minutes or SMS on all other networks; (iii) the *unlimited L*, for €39.90 per month, offers 1 Gb of mobile internet and unlimited Wi-Fi plus unlimited voice and SMS on all other networks; and (iv) the *unlimited XL*, for €69.90 per month, offers 5 Gb of mobile internet and unlimited Wi-Fi access plus all net unlimited voice and SMS. All of these plans include the *Meo Music*, which is otherwise priced at €4.99 or €6.99 per month, depending on whether it is an existing *Meo* customer.

In the prepaid market, *Meo* extended the all-day version of the "*e nunca mais acaba*" tariff plan to include unlimited all-day voice and SMS for *Meo* and fixed networks, while being able to apply, monthly, the equivalent of €20.00 toward voice minutes and SMS on other mobile networks. This tariff plan also includes unlimited in-network video calls and can be configured with a 500 MB mobile internet option for €25.00 per month. *Meo* also extended the *Moche* offering, for customers younger than 25 years of age, to include 1 Gb of mobile internet in the case of the monthly fee, and if the customer recharges the card with at least €11.00. The *Moche* tariff plans also include SMS options with respect to other networks. These changes in *Meo*'s tariff structure were in response to price movements in the market and were aimed at maintaining *Meo*'s competitive position in the market.

Pricing

We believe that mobile services in Portugal are priced lower than the European average and are among the lowest in Europe. Fixed-to-mobile and mobile-to-mobile interconnection charges are regulated by ANACOM and have a significant impact on our business. Since 2005, when ANACOM declared all mobile operators to have significant market power in call termination in mobile networks market, ANACOM has accordingly imposed price controls on interconnection rates for the termination of calls on mobile networks. Since the imposition of price controls, interconnection rates have been reduced steadily. ANACOM has issued successive decisions that have reduced mobile termination rates over time. Most recently, in March 2012, ANACOM issued a final decision reducing mobile termination rates progressively to €0.0127 by December 2012. These reductions have had, and are expected to continue to have, a significant impact on our interconnection revenues and consequently our cash flows and earnings.

Enterprise

Our enterprise services which are provided by PTC and Meo, S.A. comprise (i) network and voice services, which include fixed voice services, fixed and mobile convergence services, broadband data, Ethernet services, digital leased lines and VSAT services, business high band fiber-based internet, VPN accesses and applications, and global services for multinational customers; (ii) IT services, which include data center services (such as housing and hosting), cloud-based solutions (primarily public and private virtual servers, remote backup and storage, hosted e-mail and web hosting), security managed services based on a Security Operations Center, business continuity services and disaster recovery, IT infrastructure outsourcing and IT and security consultancy; and (iii) business solutions and applications, which include unified communications, IP Centrex and voice servers, digital signage—Corporate TV, messaging and interaction solutions, business video communications and telepresence solutions, machine-to-machine managed connectivity and vertical end-to-end solutions, business process outsourcing (BPO), vertical solutions for special business market customer categories (health care, the public sector), special bundling services for small and medium-size enterprises, using the "Office Box" brand name, and outsourcing.

We provide these services to our enterprise customers using a three-tiered approach: (i) *Residential+* customers, with an offering based on the convergence of voice and broadband services, (ii) *Connected+* customers, served mainly with multi-employee connectivity services, including mobility solutions for traveling employees, and simple software solutions and (iii) *Integrated+* customers, served with a full range of telecommunications and technological services, such as unified communications, outsourcing of information and communications technology ("ICT") services, application integration, machine-to-machine and specific IT/IS solutions, BPO and IT consultancy.

The provision of services to our corporate customers is guided by the following strategic objectives: (i) maximize value from traditional telecommunications services by upselling additional services, including fixed- mobile convergence on FTTH, VPN, LAN management and video services, (ii) IT transformation accelerated by cloud computing, where we aim to build upon partnerships with key suppliers to enable business process transformation and cost reductions to our corporate customers, with a special focus on "system on a chip," ("SOC"), based security solutions, (iii) capture mobile data growth through 4G-based solutions and new machine-to-machine projects, (iv) use specialization to achieve gains from scale, including by focusing on outsourcing and BPO to improve productivity and (v) introduce a business consulting approach in order to extend the services provided to corporations to video, multiscreen and other convergent services.

As part of our enterprise services, we provide a broad offer of integrated and vertical solutions. We continue to market our *Office-box* product for SMEs, which allows integrated solutions with one bill and on a pay-per-employee basis bundling voice and data communication needs: (i) connectivity: mobile and fixed voice and broadband, (ii) devices: PCs, phones and mobile phones, routers and switches and (iii) mobility: cloud solutions including customized domains, e-mail accounts, hosting sites and optional software. We provide vertical solutions through our *Office- box* product which includes tailored software systems for health clinics, restaurants, hotels, including access to an online marketing and booking system and a full suite of hotel-management software. For large corporations, we provide (i) integrated solutions, bundling customized connectivity and IT needs coupled with dedicated account managers, and (ii) a unified communications integrated offering without requiring capital expenditures on a pay-per-employee basis, including a flat voice rate, customer equipment and a full set of collaboration functionalities. Our secure cloud offering provides a broad portfolio of services, including (i) web services, such as webhosting, instant website, database hosting and e-mail relay, (ii) security services, comprising e-mail security, remote backup, video surveillance and clean pipes, and (iii) IT resources, including remote desktop, public and private servers, SAP HANA and virtual drives. We have developed this end-to-end offering with strategic partnerships that enable us to leverage our technological skills and integration capacity in key markets in Portugal, Brazil and Africa.

The IT and business process outsourcing for corporate customers leverages PT Cloud and Data Centres, a wholly-owned subsidiary of PT Portugal, which provides an integrated ICT service and IT/IS outsourcing capabilities, and PT Pro, *Serviços Administrativos e de Gestão Partilhados*, S.A., or PT PRO, a wholly owned subsidiary of PT Portugal, which allows the provision of BPO and shared services. See "*—Shared Services Companies*."

Wholesale

In addition to the services we provide through PTC and Meo, S.A., in our primary customer categories of residential services, personal services and enterprise services, we provide wholesale services to other telecommunications operators and generate a small amount of revenue from other activities, such as public pay phones and the production and distribution of telephone directories. We report revenues from these services and products, together with eliminations for transactions among our residential, personal and enterprise customers, as "Wholesale, other and eliminations" in our consolidated financial statements.

Wholesale services provided €469.9 million, €476.0 million and €461.7 million to our operating revenues in 2011, 2012 and 2013, respectively. Our wholesale services consist of: (i) domestic and international interconnection telephone services that we provide to other telecommunications operators in Portugal; (ii) provision of carrier pre- selection and number portability; (iii) leasing of domestic and international lines to other telecommunications services providers and operators; (iv) provision of ADSL (including "naked" DSL) on a wholesale basis to other ISPs; (v) provision of unbundled access (including shared access) to metallic loops and sub-loops to provide broadband and voice services to other telecommunications operators in Portugal; (vi) provision of wholesale line rental to other telecommunications service providers in Portugal; (vii) provision of co-location services and access to ducts, submarine cable landing stations, poles and associated facilities to other telecommunications operators in Portugal; (viii) transmission of television and radio signals for major broadcast television companies in Portugal; (ix) narrowband internet access origination services, which we provide to ISPs; (x) international carrier services (transport, transit and/or termination) for international switched traffic; and (xi) other services provided to telecommunications services providers and operators, such as IP international connectivity.

Interconnection Traffic.

Interconnection traffic comprised about 40% of our wholesale business in terms of revenues in 2013. The service providers who purchase interconnection services include fixed and mobile network operators, voice and data communications service providers, ISPs, value-added service providers and service providers whose international calls are terminated on or carried by our network. Providing interconnection services means allowing third parties to connect their networks to our network, and vice versa. We have interconnection rates primarily for call termination, call origination, transits and international interconnection.

Interconnection Prices.

Domestic interconnection revenue per minute for calls terminated on our network decreased around 72% as of October 2013, from €0,0040 to €0,0011. International interconnection revenue per minute for wholesale operators' outgoing traffic decreased by 18% in nominal terms in 2013 compared to 2012 and decreased by 8% in 2012 compared to 2011. In accordance with EU and Portuguese regulations, our national interconnection prices are cost-oriented, applying a pure Bottom Up Long-Run Average Incremental Cost, or BU-LRIC, cost model for call termination.

Leased Lines.

We lease lines to other telecommunications providers for fixed, mobile and data communications services, including our competitors. Leased line services involve making a permanent point-to-point connection with dedicated and transparent capacity between two geographically separate points. We offer both national terminating segments and trunk segments at the wholesale level. We also lease international circuits to national and international operators to allow them to complete their circuits (often circuits that pass through Portugal before linking to other countries), and we sell segments of international circuits to international operators. The three current mobile telephone operators in Portugal, which include our subsidiary *Meo*, Vodafone Portugal and NOS, are among our wireline business's largest leased line customers.

Telephone Directories

Under a Concession Contract dated February 20, 2014, we provide telephone directory universal services. We subcontract to Páginas Amarelas for the publication and distribution of telephone directories throughout Portugal in return for an annual payment of approximately 78% of its gross revenues from the sale of advertising space. Our revenues from our directories business amounted to €25.2 million, €34.7 million and €45.9 million in 2013, 2012 and 2011, respectively. We completed the disposal of our 25% interest in Páginas Amarelas to a third party in January 2014.

Digital Terrestrial Television Services

In 2008, pursuant to the European Commission's proposal to cease analogue transmissions in all member states by 2012, ANACOM launched a public tender to grant the rights of use of frequencies allocated to the transmission of digital terrestrial television, or DTT, signals. Following a public tender launched by ANACOM in 2008, our subsidiary PTC was granted the frequency usage rights for DTT associated with the transmission of the signal for free-to-air television programs (the RTP1, RTP2, SIC and TVI broadcast channels), the so-called "Multiplex A" or "Mux A". In 2008, the Portuguese media regulatory authorities (*Entidade Reguladora para a Comunicação Social* (ERC) and ANACOM) notified us of their final decision to grant us a license to act as a TV distribution operator. As a consequence, ANACOM assigned a right of frequency use to PTC. This right allows us to have national geographic extension and is valid until December 2023. There is a coverage obligation associated to the right of frequency use, namely 87.2% of national territory covered by terrestrial platform (Mux A) and 12.8% by complementary means (satellite). On July 10, 2014, ANACOM published a draft decision related to the coverage obligations above, specifically on the evaluation methodology and technical parameters to be measured. The final decision, expected in 2015, may result in PTC bearing additional costs and undertaking additional investments. Moreover, as early as May 2013, ANACOM decided that the Single Frequency Network ("SFN"), due to changes in spectrum international planning (700 MHz band), will evolve to a Multi Frequency Network ("MFN") topology. Migration is to be concluded by 2017 and may also result in additional costs. In September 2014, when adopting the temporary licensing of four transmitters, ANACOM determined the presentation of a plan relating to the installation of additional MFN transmitters in areas with coverage problems. So far, the Authority has not yet formally ruled on the plan.

We launched DTT (using DVB-T, or terrestrial signals) in 2009, initially covering 29 municipalities and over 40% of the population. By the end of 2011 we achieved 100% coverage of the Portuguese population (approximately 90% using DVB-T and 10% using DVB-H (satellite)). The switch-off of the analogue television network in Portugal occurred on April 26, 2012.

DTT only encompasses broadcasting of free-to-air television programs, while our *Meo* offer comprises both free-to-air television programs, as well as Pay-TV channels, being provided over FTTH, ADSL and DTH technologies.

Marketing and Sales

We market our services through several different distribution channels, so as to meet our different customer segment needs and expectations.

From 2012 onwards, the focus of our marketing strategy has been on the brands in our personal segment. *Meo* is our primary and pre-existing brand and a leader in mobile telecommunications in Portugal, which we expect to continue using to serve the broader market and focuses on the growth of our post-paid base through dedicated tariff plans and attractive pricing policies in smartphones. *Meo* marketing campaigns continue to draw attention in the Portuguese Pay-TV market. In the third quarter of 2013, *Meo* aired a new campaign, *Mundo Meo*, to strengthen its market position as an innovative brand. This campaign describes *Meo*'s key differentiating features: (i) *Meo Kanal*, an application that allows users to produce, edit and share multimedia user content on television with other *Meo* customers; (ii) *Meo* Karaoke; (iii) PVR-experience; (iv) interactive apps, and (v) *Meo Music* (formerly *Music Box*), a music streaming service. Following our continuous investment in the *Meo* brand, in September 2013, *Meo* was named the brand of the year by *Meios e Publicidade*, an independent Portuguese specialized magazine.

We developed *Moche*, our new youth brand, to encourage a broad-based use of mobile internet. *Moche* employs a different business model and is supported by a new brand positioning and values and is tailored to the target youth demographic. We market personal services through more than 3,179 points of sale, including our sales force, retail shops, supermarket chains and independent dealers.

On January 27, 2014, we announced that all services rendered by TMN—Telecomunicações Móveis Nacionais, S.A. ("TMN") would be provided under the *Meo* brand and that TMN had changed its corporate name to *Meo—Serviços de Comunicações e Multimédia*, S.A. This change is part of our convergence strategy and builds on our 2013 launch of *M_4O*.

We also have a low-cost brand, Uzo that targets low-cost subscribers and uses our GSM network. Uzo focuses primarily on selling SIM cards and low-cost mobile phones to its customers. Uzo's products and services are offered through the internet, Uzo's call centers (which are separate from *Meo*'s call centers) and independent news stands and shops located throughout Portugal.

Customer Contract, Billing and Customer Service

We typically enter into standard form contracts with our residential and personal customers. The terms and conditions of our contract, including duration, termination rights and the ability to increase prices during the life of the contract differ across our segments. We aim to increase our customer satisfaction and decrease churn with high product quality and dedicated service. We provide our residential and personal customers with access to technical support help desks which operate at substantially all times. For our enterprises services, our institutional and business customers are also served by dedicated business service and customer care centers.

Network

For our fixed line network, we are focused on increasing our investment in FTTH, with 1.6 million homes passed in Portugal as of December 31, 2013, which represented about 46% of the population. As of September 30, 2014 we had 2.1 million homes passed in Portugal, after giving effect to the fiber sharing agreement with Vodafone (as further described below in "*—Material Contracts—Fiber Sharing Agreement with Vodafone Portugal*").

The deployment of new access technologies and networks continues to be an overriding trend across the sector, with operators announcing plans, trials and investments in Next Generation Access Networks ("NGAN"), namely fiber-to-the-home (FTTH) networks in the fixed business and Long Term Evolution in the mobile business. Both technologies offer more speed, lower latencies and higher reliability. FTTH improves customer experience by providing higher and guaranteed speed, download and upload symmetry and lower latency. Moreover, fiber investment also supports an enhanced mobile network, with high-quality fiber connections for mobile base stations.

We provide mobile telephone services using the GSM, UMTS, and LTE technologies (2G, 3G and 4G, respectively). Within our GSM offering, we provide services in the 900 MHz and 1800 MHz band spectrums. GSM, UMTS and LTE are European and worldwide standards using digital technology.

In March 2012, ANACOM formally allocated to *Meo* rights to the following spectrum for 15 years following a multiband auction for the provision of electronic communications services based on LTE technology:

- 2 × 10 MHz in the 800 MHz band for a final price of €90.0 million;

- 2 × 14 MHz in the 1800 MHz band for a final price of €11.0 million; and

- 2 × 20 MHz in the 2.6 GHz band for a final price of €12.0 million.

Meo chose to pay these amounts in installments, as set forth in the auction regulation, which provided for an initial payment of €83.0 million, with the remainder €30.0 million being paid in five equal instalments for five-year period, from January 2013 to January 2017, and covered by a bank guarantee valid for that same period. This guarantee is released partially, on an annual basis, according to the payments made by *Meo*.

These rights are reflected in a license that includes and supersedes the previous GSM and UMTS licenses issued by ANACOM. The license imposes certain requirements on *Meo*, including the following:

- Mobile network obligations for 800 MHz: *Meo* must enter into agreements with Mobile Virtual Network Operators and national roaming agreements with operators with rights of use on frequencies greater than 1 GHz.

- Coverage obligations for 800 MHz: For each lot of 2 × 5 MHz in the 800 MHz band, *Meo* must cover a maximum of 80 parish areas out of 480 parish areas without adequate broadband coverage.

For more information about our licenses, see "Regulatory—*Portugal—Our Concession and Existing Licenses and Authorizations*".

We paid spectrum fees in 2013, 2012 and 2011 of €14 million, €15 million and €17 million, respectively, for the use of our 900 MHz and 1800 MHz GSM network and our UMTS network. These spectrum fees are recorded as an operating expense in our consolidated financial statements.

In addition, through roaming agreements, our subscribers can make and receive mobile calls throughout Europe and in many other countries around the world. Roaming agreements between operators allow their subscribers to make and receive voice calls automatically, send and receive data, or access other services when traveling outside the geographical coverage area of the home network, by using the networks of other operators abroad. As of the end of 2013, we had entered into GSM roaming agreements with a total of 631 operators (in 231 countries) and 312 UMTS roaming agreements (in 139 countries).

In our Enterprise segment, we provide services over the largest IP/Multiprotocol Label Switching backbone in Portugal. We have a fully owned fibre backbone, with a total capacity of more than 100 Tbps and high speed 100 Gbps interfaces, and a metro network with 2,658,000 km of fibre and 761 points of presence covering all major cities throughout Portugal, and we link our network to our customers' premises through switches and access points that we own. This broadband data transmission network provides high capacity, flexibility and security and can progressively incorporate current voice and data infrastructures at lower costs than alternative networks. We also provide high speed internet access through ADSL and Ethernet.

Suppliers and Partnerships

We have implemented a multi-sourcing procurement policy for some technologies and continually monitor the role of suppliers in the chain.

In our Residential segment, for our fixed line network and Pay-TV services in 2013, we obtained telephones and equipment for our voice, broadband and Pay-TV services from several suppliers, including Novabase, Alcatel- Lucent and Motorola, and we obtain television content, including premium channels, from several national and international suppliers.

We do not manufacture handsets for our Mobile services, but we have agreements with a number of manufacturers to sell handsets in Portugal, including Nokia, Samsung, ZTE, Huawei, Apple, Sony, LG and RIM.

In our Enterprise segment, we have a strong and competitive position in the development of information technology solutions where communications are an integral part of the services provided. To reinforce our position as a leader in this area, we are pursuing a partnership strategy with the primary information technology suppliers in the market, particularly software and hardware providers.

We offer services in partnership with leading operators and service providers such as Telefónica, British Telecom and Orange. We use systems and networks in partnership with Nokia Solutions and Networks Portugal, Alcatel- Lucent, Ericsson, Huawei, Cisco Systems, Nortel Networks, Critical Software, Microsoft and SAP, among others. In 2012, we pursued partnerships with Microsoft and SAP, and in 2013 with Ericsson towards developing, implementing and continuously launching new services in our cloud computing offer, *SmartCloudPT*, which is intended to help companies adopt more efficient business models by reducing costs related to information technology.

In connection with the opening of the data center in Covilhã (further described below), we entered into a partnership with the University of Beira—Interior, and we are committed to attracting start-ups and technology companies into the Covilhã region in order to build an ecosystem of technological development that will turn our data center initiatives into an engine for business growth. Furthermore, we are also party to a number of EU grant agreements (including by way of accession to an existing grant agreement between the EU and a third-party, such as universities), each relating to a specific project, pursuant to which the EU agrees to provide grants towards the implementation of such projects.

Material Contracts

Fiber Sharing Agreement with Vodafone Portugal

In July 2014, we signed an agreement with Vodafone Portugal to deploy, swap of capacity and share fiber networks beginning in December 2014, for an initial term of 25 years. The initial term will be automatically renewed in additional periods of four years each, unless a party objects in writing to a renewal at least two years in advance of the termination date. The agreement includes sharing of dark fiber in approximately 900,000 homes, where each party grants to the other party an exclusive Indefeasible Right of Use (IRU) for certain PON network cells it owns (totalling approximately 450,000 homes each). Since the model is based on a swap of capacity through IRUs, the title to the PON network cells remains with the granting party, which allows both parties to maintain total autonomy and flexibility in designing retail offers, including the provision of RF (analogue) TV signal, and will ensure confidentiality of customer information. With this agreement, we expect to reach an additional 450,000 homes with fiber to the home technology by December 2015.

During the first ten years of the agreement, there is an undertaking of partnership between the parties for the construction of new PON network cells. A party must notify the other party if it wishes to build new PON network cells in any geographical area which does not correspond to the PON network cells already covered by the agreement. If the other party is also willing to build new PON network cells, both parties must then commit to the construction of new PON network cells in partnership with each other. This undertaking from each party does not apply after the first ten years of the agreement, nor does it apply when a party decides to build PON network cells in partnership with another operator (provided that such PON network cells are not covered by the agreement).

Additionally, each party to the agreement may transfer the entirety (but not part) of its PON network cells covered by the agreement to a third-party purchaser, provided that such purchaser also assumes the obligations of the selling party under the agreement. The non-selling party has a pre- emption right where the third party purchasers is a retail operator in the broadband market, which is not in the same 'economic group' as the seller. If the selling-party does not comply with the conditions to transfer and the pre-emption right, it will be subject to a penalty. In the event of a material and/or continuous default of one party, the other party may unilaterally terminate the agreement by exercising a call option.

Seasonality

Although our revenues and costs fluctuate from quarter to quarter, we do not experience large fluctuations due to seasonality. We tend to have higher revenues in the fourth quarter due to promotional campaigns centered on the Christmas holiday. To a lesser degree, promotional campaigns at the time of the Easter and Mother's Day holidays also tend to increase our revenues in the second quarter. In addition, our revenues from our operations tend to be lower during the third quarter when the Portuguese summer holidays occur.

Intellectual Property

We use a variety of trade names and trademarks in our business, including "*Meo*" and "*M_4O*", and several associated trademarks. All of our trademarks are protected in Portugal. Some of these trademarks also enjoy protection in the European Community and in African Portuguese speaking countries like Angola, Mozambique and Cape Verde. We possess a certain number of patents, designs and copyrights, but we believe that such industrial and intellectual property rights do not play a material role in our business. We license some of the television programming content for our pay television offering from third party providers. Certain of these licenses contain change of control provisions at the level of the operating subsidiaries, and certain licenses require the third party providers' consent should we wish to assign such licenses to other parties (with certain carve-outs for assignments to affiliates).

Employees

As of December 31, 2013, we employed 11,025 full-time permanent employees. As of September 30, 2014, we employed 10,751 full-time permanent employees. We also employ contract and temporary employees for various projects.

We are subject to various labor laws in Portugal, which govern the length of the workday, minimum wages for employees, procedures for hiring and dismissing employees, determination of severance pay, annual leave, sick days, advance notice of termination of employment, equal opportunity and anti discrimination laws and other conditions of employment. PTC, MEO—Serviços de Comunicações e Multimédia, S.A., PT Cloud e Data Centers, S.A., PT Inovação e Sistemas, S.A., PT ACS—Associação de Cuidados de Saúde, PT Centro Corporativo, S.A. and Fundação Portugal Telecom are also subject to a collective bargaining agreement executed between these companies and several trade unions.

We are also liable for certain post-retirement benefits, including: (i) pension supplements, (ii) healthcare, and (iii) remuneration of employees under suspension and pre-retirement agreements (which remuneration paid on a monthly basis until such suspended/pre-retired employees reach the statutory retirement age). Under several defined benefit plans, PTC and PT Cloud e Data Centers, S.A. are responsible to pay pension supplements to a group of employees. In order to finance these obligations, PTC incorporated various funds, which are supervised by the *Instituto de Seguros de Portugal* (Portuguese Insurance and Pension Funds Supervisory Authority) and are not entirely capitalized. Additionally, under a defined benefit plan, PTC and PT Cloud e Data Centers are responsible to pay health care expenses to a group of employees and its relatives. This health care plan (covering 23,402 beneficiaries, approximately 23% of which are still in service) is managed by Portugal Telecom—Associação de Cuidados de Saúde ("PT-ACS"). In 2004, the Group established PT Prestações—Mandatária de Aquisições e Gestão de Bens, S.A. ("PT Prestações") to manage an autonomous fund to finance these obligations. See "*Management's Discussion and Analysis of Financial Condition and Results of Operations of the PT Portugal Group—Post Retirement Benefits*". Further, we are generally required to provide severance pay upon the dismissal of an employee. We are also required to make national insurance payments on behalf of our employees to the Portuguese government.

Data Centers and Other Properties

We lease and own certain properties for our corporate offices, sales offices, broadcast centers, communication rooms, customer service centers, sales stores, mobile network sites, hubs, switches and head-end sites. Our registered office is located at Avenida Fontes Pereira de Melo, Lisbon, Portugal. We believe that our properties meet their present needs and are generally well—maintained and suitable for their intended use. We believe that we generally have sufficient space to conduct our operations but maintain flexibility to move certain operations to alternative premises.

Our data center network consists of seven data centers located in Lisbon, Oporto, the Azores, Madeira and Covilhã (which was opened in September 2013). The opening of the data center in Covilhã, a large, efficient and sustainable facility, is the culmination of five years of transforming our cultural, technological and business model. The center provides the base infrastructure for offering solutions that will serve the needs of national and international individuals and businesses, and we believe it marks a milestone in our transformation into a global operator. Against the backdrop of exponential growth in global data usage, we believe the Covilhã data center provides us with the technological means to respond to what customers want: coverage, speed, reliability and security. Furthermore, the opening of the data center in Covilhã also represents a boost for Portuguese technology and growth of cloud solutions in Portugal.

The Covilhã data center occupies a total area of 75,500 square meters and increases the total IT room space from 14,000 square meters to 26,000 square meters, the number of servers from 6,000 to 56,000, capacity storage from 3 Pbytes to 33 Pbytes. This data center is connected to our backbone network (100 Gbps), enabling the export of data storage capacity and technological services abroad. From a sustainability and energy efficiency point of view, the data center saves 144 thousand tons of CO2 and 40% in energy consumption, while using environmentally responsible cooling (free cooling) systems for 99% of the year and solar energy.

Environmental

We are subject to a variety of laws and regulations relating to land use, environmental protection and health and safety in connection with our ownership of real property and other operations, including laws regulating non-ionic radiations emitted as a result of our mobile services. While we could incur costs, such as clean-up costs, fines and third party claims for property damage or personal injury, as a result of violations of or liabilities under such laws or regulations, we believe we substantially comply with the applicable requirements of such laws and regulations and follow standardized procedures to manage environmental risks. Given our activities and our current property, plant and equipment, we believe that there are no environmental factors likely to have a significant impact on the use of our current property, plant and equipment, other than as disclosed in these Listing Particulars in "*Risk Factors—Risks Relating to Our Business, Technology and Competition—Our business may be adversely affected by actual or perceived health risks and other environmental requirements relating to exposure to electromagnetic fields through telecommunications equipment.*"

Insurance

We maintain a property insurance policy with wide coverage based on "extended fire" wording to cover our property on a new replacement basis. We also maintain a business interruption policy based upon the same perils. The property coverage is supported by coverage for electronic equipment. We maintain various liability insurance policies including general liability, comprehensive third party liability, products liability & professional liability, multimedia liability and employer's liability insurance policies. In addition to these policies we maintain motor vehicle insurance policies, heavy equipment policy, open policy for contract works to cover maintenance and development works and few other small policies. We have directors' and officers' liability insurance policies that cover all members of our executive management. We do not insure against certain operational risks for which insurance is unavailable or which can only be insured at what we believe to be on unreasonable terms.

In our view, the sum insured, the limits of liability, the deductibles and scope of cover in our policies are satisfactory and suitable for companies acting in the telecommunications sector (subject to the wording of the policies, conditions and exclusions). However, we cannot guarantee that no losses will be incurred or that no claims will be filed against us which go beyond the type and scope of the existing insurance coverage.

Legal Proceedings

We are involved in a number of legal and administrative proceedings arising in the ordinary course of our business. The legal proceedings initiated against us include, amongst others, the following categories of claims: claims by or on behalf of customers on various grounds such as alleged misrepresentation or breach of service or license terms or breach of telecommunication, broadcasting, consumer or health and safety regulations, intellectual property claims primarily relating to alleged copyright infringement brought by copyright collection societies, claims by suppliers and other telecommunications providers, claims by employees and claims by regulators.

We proactively manage our litigation risks by assessing disputes where we believe the claimant may have merit and attempting to settle such disputes on favorable terms, including in the case of suits seeking certification as class action suits at a stage prior to such certification, and contesting others where we believe the claim does not have merit. We record a provision when there is a sufficient probability that a dispute will result in a loss and the amount of such a loss can be reasonably estimated. Other than as discussed below or elsewhere in these Listing Particulars, as of the date of these Listing Particulars, we are not aware of any administrative, judicial or arbitral proceedings (including any pending or threatened proceedings) that are likely to have or have had over the course of the last twelve months a material adverse effect on our financial condition or results of operations. The outcome of legal proceedings, however, can be extremely difficult to predict with certainty, and we can offer no assurances in this regard.

Tax Proceedings

Claims for Municipal Taxes and Fees

Pursuant to a statute enacted on August 1, 1997, as an operator of a basic telecommunications network, we were exempt from municipal taxes and rights- of-way and other fees with respect to our network in connection with our obligations under our concession. The Portuguese government has advised us in the past that this statute confirmed the tax exemption under our concession. The Portuguese government has advised us it will continue to take the necessary actions in order for us to maintain the economic benefits contemplated by our concession.

Law 5/2004 of February 10, 2004 established a new rights-of-way regime in Portugal whereby each municipality may establish a fee, up to a maximum of 0.25% of each wireline services bill, to be paid by the customers of those wireline operators whose network infrastructures are located in each such municipality. This regime was implemented in 2005, but some municipalities interpret Law 5/2004 as having no effect on their authority to establish other taxes but rather interpret Law 5/2004 as affecting only federal and regional taxing authorities. In 2009, Decree Law 123/2009, of May 21, 2009, clarified that no other tax should be applicable by municipalities in addition to the regime established by Law 5/2004 of February 10, 2004. This interpretation was confirmed by the Supreme Administrative Court of Portugal in several cases. Some municipalities, however, continue to hold the position that the Law 5/2004 does not expressly revoke other taxes that the municipalities wish to establish, because Law 5/2004 is not applicable to the public municipality domain. We continue to be parties to legal proceedings in some municipalities regarding this matter.

Tax Contingencies

Certain of our subsidiaries are subject to tax claims that relate primarily to the deductibility of certain financial costs incurred between 2004 and 2010 (€241.0 million). As of September 30, 2014 we strongly disagree with these assessments and believe, based on the opinion of our tax advisors, that there are solid arguments to oppose the position of the tax authorities. We do not consider the losses related to these tax contingencies to be probable or possible.

Regulatory Proceedings

ANACOM

We are regularly involved in regulatory inquiries and investigations involving our operations, including from ANACOM regarding our compliance with applicable laws and regulations. See "*Risk Factors—Risks Relating to Legislative and Regulatory Matters—We are subject to significant government regulation and supervision, which could require us to make additional expenditures or limit our revenues and otherwise adversely affect our business, and further regulatory changes could also adversely affect our business—Portugal*" and "*Risk Factors—Risks Relating to Legislative and Regulatory Matters—We can only operate our business for so long as we have licenses from the relevant authorities in the jurisdictions in which we operate"*. As of September 30, 2014, we had on-going administrative offence procedures initiated by ANACOM in an aggregate amount of approximately €42.6 million (though the maximum possible fine for an individual proceeding is capped at €5 million), for which we have provisioned approximately €2.9 million.

In addition, the European Commission regularly make, and the Portuguese Competition Authority may make, inquiries and conduct investigations concerning our compliance with applicable laws and regulations, as further described below in "*—European Commission Investigations*".

We believe that we have consistently followed a policy of compliance with all relevant laws. We continually review our commercial offers in order to reduce the risk of competition law infringement. We believe that most of the complaints that have resulted in such investigations should be dismissed due to the nature of the alleged abuses. However, if we are found to be in violation of applicable laws and regulations in these or other regulatory inquiries and investigations, we could become subject to penalties, fines, damages or other sanctions.

European Commission Investigations

In January 2011, the European Commission opened an investigation into an agreement between Telefonica and Portugal Telecom SGPS allegedly not to compete in the Iberian telecommunications markets. In January 2013, the EC adopted a decision finding that Portugal Telecom SGPS, S.A. and Telefonica had infringed Article 101 of the Treaty on the Functioning of the European Union with reference to Portugal Telecom's July 28, 2010 agreement with Telefònica concerning the acquisition by Telefonica of Portugal Telecom SGPS., S.A. stake in Brazilian operator Vivo. In accordance with this decision, Portugal Telecom SGPS., S.A. was fined in the amount of €12.29 million. The January 2013 decision ended the investigation which began in January 2011, in which the European Commission analysed the relationship between both companies since 1996.

On April 9, 2013, Portugal Telecom SGPS brought an action for annulment before the General Court of European Union (the first level of appeal of the EU courts) and will continue to vigorously defend the matter. The matter is now waiting to be tried before the General Court. We note that the EU appeal courts have unlimited jurisdiction to review decisions where the EC has fixed a fine (including cancelling, reducing or increasing the fine).

Although the European Commission's decision was addressed to Portugal Telecom SGPS, PT Móveis, S.G.P.S, S.A. was expressly mentioned in the decision as being involved in the alleged infringement (even though it is not the addressee of the European Commission decision). Portugal Telecom SGPS is therefore solely responsible for the payment of the fine. While the appeal is pending the payment of the fine was secured with a bank guarantee (with an initial term of one year that is automatically extended for additional periods of one year each). While this bank guarantee is in place, the European Commission will not enforce their decision in order to collect the fine. Accordingly, no provision has been recorded with regards to this matter.

Civil Proceedings

Potential Claims

PTC is subject to a potential compensation claim of approximately €16.8 million by Estradas de Portugal relating to PTC's use of a technical road channel between 2007 and 2014. Portugal Telecom Data Center, S.A. is also subject to a potential compensation claim of approximately €16.2 million by ACE Opway/Somague concerning alleged losses relating to works carried out in Covilhã's Data Center. As of the date of these Listing Particulars no formal legal proceedings have been initiated with regards to these claims.

Sonaecom Claim

On March 19, 2010, Sonaecom—Serviços de Comunicações, S.A. ("Sonaecom") filed a claim against Meo, .S.A., in relation to interconnection agreements between Sonaecom and Meo, S.A. Sonaecom alleged that PTC's statement of compensation regarding the Optimus—Comunicações, S.A.'s credits assigned by TMN—Telecomunicações Móveis, S.A., are invalid. Sonaecom claimed an amount of approximately €25.4 million from Meo, S.A. PTC joined the proceedings as a defendant as it accepted the assignment of credits. We are currently waiting for the date of the final hearing to be set. Meo, S.A. has made a provision for approximately €9 million.

Zon TV Cabo Claim

On 2 November 2011, Zon TV Cabo Portugal, S.A. ("Zon TV Cabo") filed a claim against PTC, claiming compensation for damages arising from PTC's alleged refusal of portability requests between 2008 and 2009. The claim is for approximately €22.4 million, and we have not made any provisions for it. The proceeding is currently on-going.

Caixa Geral de Aposentações Claim

On July 26, 2010, Caixa Geral de Aposentações ("CGDA") filed an administrative procedure claim against PTC, alleging that PTC failed to pay monthly contributions to the pension fund equivalent to 3.75% of the salaries of staff subject to the quota discount, in an aggregate amount of approximately €16.3 million. On December 20, 2010, PTC acknowledged the debt and agreed to pay approximately €17.8 million to settle CGDA's claim. Additionally, PTC also agreed to pay approximately €1.8 million to settle a tax claim included in CGDA's filing. We are currently awaiting judicial decision on the extinction of the proceedings.

TV TEL Claim

In March 2004, TV TEL Grande Porto—Comunicações, S.A. ("TV TEL"), a telecommunications company based in Oporto, filed a claim against PTC in the Lisbon Judicial Court. TV TEL alleged that PTC, since 2001, has unlawfully restricted and/or refused access to the telecommunications ducts of PTC in Oporto, thereby undermining and delaying the installation and development of TV TEL's telecommunications network. TV TEL alleges that PTC intended to favor both itself and TV Cabo. TV TEL claimed an amount of approximately €15 million from PTC for damages and losses allegedly caused and yet to be sustained by that company as a result of the delay in the installation of its telecommunications network in Oporto. In addition, TV TEL demanded that PTC be required to give full access to its ducts in Oporto. PTC submitted its defense to these claims in June 2004, stating that (1) TV TEL did not have a general right to install its network in PTC's ducts, (2) all of TV TEL's requests were lawfully and timely responded to by PTC according to its general infrastructure management policy and (3) TV TEL's claims for damages and losses were not factually sustainable. The trial was concluded in 2011, and a judicial decision was issued which required PTC to accept all the access requests which were previously denied. Both TV TEL and PTC appealed the decision. On June 6, 2014, the Court of Appeals of Lisbon decided in favor of PTC, but also ordered a re-trial with regards to a specific set of new facts relating to the proceedings. The parties are currently waiting for the date of the re-trial to be set. We have made a provision of €1 million for this proceeding.

Optimus Claim

In March 2011, Optimus—Comunicações S.A. ("Optimus") filed a claim against PTC in the Judicial Court of Lisbon for the payment of approximately €11 million. Optimus supported its position by arguing that they suffered losses and damages as a result of abuse of dominant position and margins squeeze regarding the gross market of broadband. We are waiting for the trial to begin. Based on the opinion of our internal and external legal counsel, we have not recorded any provision for these matters.

DESCRIPTION OF SFR'S BUSINESS

In this section, references to "SFR", "it", and other similar terms are generally used to refer to the business of SFR. Revenues are with respect to the SFR Combined Group.

Overview of SFR's Business

SFR is the largest French alternative telecommunications operator to the incumbent Orange, with total revenue of €10.2 billion and EBITDA of nearly €2.8 billion for the year ended December 31, 2013, and total combined revenue of approximately €7.4 billion and EBITDA of approximately €1.8 billion for the nine months ended September 30, 2014. Created in 1987, SFR has gradually become an integrated operator offering diversified fixed and mobile telephony and internet services to residential ("B2C"), business ("B2B") and wholesale ("Wholesale and Other") customers. SFR's B2C market consists of individuals and businesses with fewer than three employees in mainland France, while SFR's B2B market consists of large accounts, SMEs, VSEs and governmental authorities in mainland France. Wholesale and Other includes (i) services offered to mobile virtual network operators ("MVNOs") or to foreign mobile operators whose customers use SFR's network; (ii) voice and data transmission services; (iii) wholesale services that rely on the fiber network infrastructure; and (iv) white label DSL services offered to telecommunications operators and internet access providers.

As of September 30, 2014, SFR had more than 21.4 million mobile customers and more than 5.2 million broadband internet customers.

SFR's B2C activities generated revenue of €6.9 billion (67% of SFR's total revenue) for the year ended December 31, 2013, and € 4.8 billion (65% of SFR's total revenue) for the nine months ended September 30, 2014. SFR offers a full range of mobile and fixed services to consumers. Mobile services include contract and no-contract mobile subscriptions, prepaid plans and data-only mobile internet plans, while fixed-line services include fixed internet plans and associated services. In addition, SFR offers a range of convergent quadruple-play offers integrating fixed and mobile telephony, high speed and very-high-speed internet and television. It also offers additional services such as home automation and cloud computing, through SFR Cloud. This product diversity has enabled SFR to develop a substantial customer base (almost 14.2 million mobile customers and more than 5.2 million broadband internet customers, including almost 249,000 FTTH customers in mainland France as of September 30, 2014).

SFR's B2B activities generated revenue of €1.8 billion (18% of SFR's total revenue) for the year ended December 31, 2013, and € 1.3 million (18% of SFR's total revenue) in the nine months ended September 30, 2014. SFR offers its business customers a wide range of mobile services, including voice, data, Machine-to-Machine ("MtoM") and management services, as well as fixed-line services, including internet, switched telephony and Voice over Internet Protocol ("VoIP"). SFR has integrated additional features into its existing packages to meet its business clients' increasing need for unified communications, security, cloud applications and mobility. This broad offering covers the various customer segments (corporate, SME/VSE and governmental authorities in mainland France) more efficiently and has given SFR a base of over 160,000 business customers at December 31, 2013.

SFR's Wholesale and Other activities generated revenue of €1.5 billion (15% of SFR's total revenue) for the year ended December 31, 2013, and €1.2 million (16% of SFR's total revenue) in the nine months ended September 30, 2014. Wholesale and Other includes revenue from (i) SFR's operator customers; (ii) SRR, which opeates in La Réunion and Mayotte; and (iii) local governmental authorities, through SFR Collectivisès and its subsidiaries. Inter-segment eliminations are also accounted for in this market. The size and quality of SFR's networks, together with its experience of over 15 years working with wholesale customers, have helped it attain significant market share, with more than 200 operator customers (both French and international). SFR offers its operator customers traffic routing services (fixed and mobile data and voice), infrastructure (hosting, bandwidth), call terminations in France and internationally and MVNO white label products. These offers enable SFR to optimize the use of its fixed and mobile network infrastructures through the resale of traffic to third party operators, while benefiting from economies of scale.

SFR's solid positions on the different segments of the telecommunications market (B2C, B2B and Wholesale), both in fixed and mobile, provide it with diversified sources of revenues and make it an integrated operator, which has the technologies and know-how needed to meet its customers' digital needs.

- As of September 30, 2014, in the fixed and mobile B2C market, SFR has over 20 million customers (14.2 million mobile customers, approximately 0.8 million fixed telephony (no internet) customers and over 5.2 million fixed internet customers), which represents a market share (in volume) of 23.2% on the mobile market and 20.5% on the high-speed internet market (source: ARCEP). SFR believes it is also one of the leaders of convergent mobile and fixed telephony, internet and television offers.

- As of September 30, 2014, in the B2B market, SFR has approximately 160,000 customers, including large accounts, SMEs and governmental authorities. Over 90% of CAC 40 companies are customers of SFR. SFR believes its value market share at the end of 2013 was approximately 33% on the mobile market and 14% on the fixed market, as of September 30, 2014.

- On the Wholesale market, SFR believes it is one of the leaders, benefiting from the confidence of over 200 customers including the main French and foreign operators; it serves 16 MVNO operators on its network. SFR believes its volume market share on the MVNO market to be more than 50% at the end of June 2014.

Created in 1987 by the *Compagnie Générale des Eaux* (CGE), SFR has evolved to become a convergent operator. Several external growth transactions together with internal developments have enabled SFR to successfully position itself as an integrated operator with high quality fixed and mobile networks.

In order to adapt to recent changes on the market (intense competition related to the arrival of a fourth operator on the mobile market in January 2012, decreases in call termination rates), SFR decided to launch a global transformation plan in 2012 aimed at adapting to these market changes and anticipating their impact on its business. This transformation plan is aimed at simplifying SFR's economic model and adapting it to the digital world.

SFR has redefined its catalogue of offers and services. SFR has streamlined its offers, with a reduction in the number of pricing plans and mobile handsets proposed (which were divided by two between 2011 and 2013). In parallel, in order to better respond to customer demand, the value of SFR's offers has been rearticulated around three principal axes: modification of the pricing and an enrichment of the content of its "Carrés" offers for the premium market, launching of "no-frills" offers under the "RED" brand for customers who are sensitive to price and less interested in additional services, and reinforcement of its partnerships (for example La Poste Mobile) to target specific markets.

SFR has also reviewed and simplified its interactions with its customers at each step of the customer journey (research of information, subscription, payment, account management, customer service, renewal, etc.). It has also optimized the use of its different distribution circuits while strengthening the digitalization of customer relations (in particular through the development of electronic billing and self-care customer service). IT platforms and systems as well as internal processes have been rationalized in order to increase operational efficiency and optimize costs. Finally, in 2013, SFR reviewed its internal organization and finalised a voluntary redundancy plan, which concerned 873 employees.

The first effects of these different initiatives were seen in 2013 on the B2C market with a return to a positive dynamic in fixed and mobile marketing. This transformation plan also contributed to a more than €1 billion reduction in operating costs between 2011 and 2013.

With respect to the mobile B2C market, SFR has been able to recruit new customers in 2013, with a customer base that is up 279,000 over the year, (excluding a technical purge of 92,000 inactive lines in relation to a migration of the B2C billing system), thanks in particular to a strong increase in the market share of net new customers (6% market share of net new customers in the fourth quarter of 2013 compared to a loss of 17% in 2012). In the nine months ended September 30, 2014, total mobile B2C subscribers slightly decreased by 66,000 subscribers.

With respect to the fixed B2C market, SFR has adapted to the strong competition thanks to its fiber optic network with the migration of a part of its ADSL customer base and the recruitment of new customers. As of September 30, 2014, SFR had approximately 249,000 fiber customers. Furthermore, the Numericable Group plans to provide wholesale services to allow for very-high-speed white label access so that SFR may provide IPTV and multi-play services to end-users.

With the objective of always offering a richer service to all of its customers, SFR is not satisfied with maintaining its recognized position in its core activities of telecommunications services. It has put an innovation policy in place aimed at improving the digital experience of its customers, both in its traditional services and it related sectors. This selective diversification focused on emerging uses, based on both internal development and key partnerships, positions SFR as a key actor able to better accompany its customers in the digital transportation and capture expected growth.

SFR has privileged partnerships (exclusive in certain cases) with OTT providers (namely those that use the infrastructure installed by others, including operators, to provide services which include, among others, the diffusion of audio and/or video streams), which has enabled it to provide innovative offers to its customers:

- in mobile, SFR has made additional content, in certain cases exclusive, available in its offers, contributing to SFR's image as an innovative operator that is attentive to customer needs. For its premium offers, these services include a digital newspaper stand (SFR Presse), a real-time digital road information service (iCoyote) and music (Napster), video (CanalPlay) and game (SFR Jeux) offers. Its no-frills range also has been enriched through SFR's partnership with YouTube, which allows for unlimited viewing of YouTube videos through the RED 5 Gb 4G offer.

- in fixed, SFR launched an innovative digital offer with the Google-play television set-top box, intended mainly for homes that do not have access, due to limited debit speed, to ADSL television offers, which represent one-third of French homes (source: ARCEP). This offer also provides access to the SFR Group's television services (TNT, television on demand, Club Vidéo SFR) and to Google's services (search engine, Chrome, Play Store applications). In June 2014, a convergent offer combining this set-top box and the Red mobile offer, "Red + Box" was launched, targeting the young and technophile ("Digital Natives"). In June 2014, SFR also launched "Box Home de SFR", a premium offer including the Triple-Play Evolution offer and the "Home" security and automation service (described below) as well as a selection of premium content or unlimited calls to mobiles in Europe.

SFR has also developed its own innovative solutions, after having tested them with a community of more than 60,000 technophiles in the Atelier SFR an SFR Web community platform of testing and co-creation on innovation and new uses:

- SFR has launched a new offer for its B2C customers related to the digital transformation which takes place in their home and which made SFR the first to launch a B2C home automation offer: Home by SFR, for homes that are looking for an integrated solution to home automation and security (in partnership with Europ Assistance and Legrand);

- In order to make information accessible at all times and in all places and from any terminal, SFR has enriched its offering of new services through the Cloud as well as convergent solutions, which erase the borders between fixed and mobile. SFR's fixed B2C customers have access to the SFR television service remotely from any terminal.

Description of SFR's Business

The SFR Group offers mobile telecommunication and internet/fixed services across three markets: B2C, B2B and Wholesale. As of September 30, 2014, SFR had approximately 21.4 million mobile customers and more than 5.2 million broadband internet customers.

The table below shows the changes in SFR's mobile customer base and broadband internet customer base between 2011 and 2013 (data is as of December 31, 2011, 2012 and 2013, respectively) and between September 30, 2013, and September 30, 2014:

	As of December 31,			As of September 30,	
	2013	2012	2011	2014	2013
	Customer base (in thousands)				
Mobile	21,354	20,690	21,463	21,414	21,144
% evolution compared to N-1	*3.2%*	*3.2%*		1.3%	
Broadband Internet[(a)]	5,257	5,075	5,019	5,271	5,209
% evolution compared to N-1	*3.6%*	*1.1%*		1.2%	
Of which B2C high-speed Internet	*5,209*	*5,309*	*4,994*	5,217	5,163
Of which Fiber	*197*	*126*	*97*	249	172

(a) Broadband internet base at December 31, 2011, has been restated to reflect a decrease of 23,000 customers following the deconsolidation of the Akeo 1P and 2P customers.

The table below shows the revenues of each of SFR's markets. Wholesale and Other also includes revenue generated by SRR (SFR's subsidiary in La Reunion and Mayotte, which serves B2C and B2B customers) and by SFR Collectivites and its subsidiaries, as well as inter-segment eliminations.

The table below shows the change in each market's revenues between 2011 and 2013 and between September 30, 2013, and September 30, 2014:

	Year ended December 31,			Nine months ended September 30,	
	2013	2012	2011	2014	2013
	€ in millions				
B2C	6,873	7,974	8,982	4,831	5,156

% of combined revenue represented by Wholesale and Other	*15%*	*13%*	*11%*	16%	15%

SFR's Products and Services

B2C Services

As of September 30, 3014, SFR had nearly 14.2 million B2C mobile customers and more than 5.2 million B2C broadband internet customers in mainland France, including approximately 5 million ADSL customers and approximately 249,000 fiber customers. SFR also offers convergent quadruple-play and related services, including cloud-based and home automation services, to its B2C customers. Finally, in order to attract and serve residential customers, SFR has implemented multi-channel distribution and customer relations.

The following table shows the changes in SFR's B2C revenue between 2011 and the nine months ended September 30, 2014:

	Year ended December 31,			Nine months ended September 30,	
	2013	2012	2011	2014	2013
	€ in millions				
Revenue—B2C	6,873	7,974	8,982	4,831	5,156
Change compared to prior year/period	*(13.8)%*	*(11.2)%*		(6.3)%	

Mobile Offers

SFR does business primarily in the post-paid subscriptions market, which represented 80% of its mobile customer base as of September 30, 2014. In response to recent changes in the market, SFR has differentiated its offerings and enriched its premium services. However, as the largest integrated alternative operator, SFR nevertheless serves the entire B2C market, including the no-frills segment.

Premium post-paid offers—"Formules Carrées"

The "*Formules Carrées"* consist of SFR's premium post-paid mobile telephony offers, which are divided into eight plans. Prices vary from €9.99 per month (including VAT) (the price for a SIM-only device for Carré 2H+50 MB with a 12-month commitment) to €149.9 per month (including VAT) (for Carré International Premium with a new subsidized device and a 24-month commitment). These offers all include unlimited SMS and MMS texting, but have voice and data limits that vary by plan. All subscribers benefit from SFR's very-high-speed internet network (Dual Carrier and/or 4G). The "Formules Carrées" provide the customer with a discounted device and a suite of services, including exclusive "Extra" content of their choice for eligible packages (iCoyote, Napster, CanalPlay, SFR Jeux, Le Kiosk, L'Equipe) and access to SFR cloud (with storage capacity of 10 or 100 Gb, depending on the plan). Some of the offers include SFR TV (access to direct or on-demand television from a mobile phone) or MultiSurf (additional SIM cards enabling data sharing with other devices). "Services Carrés" (Silver, Gold or Platinum) cover a collection of services or benefits such as loaned mobile phones or attractive renewal terms that vary by plan. Some of these offers are also available with capped call plans. Lastly, "Formules Carrées" customers receive "Multi-Pack" discounts if they also subscribe to an SFR box offer.

“No frills” post-paid offers—“RED”

SFR offers customers four post-paid RED plans with no commitment or device, and for which subscription and support are available primarily via a website. These plans are offered at between €4.99 and €25.99 per month, including tax. RED plan customers have access to the same network technologies as the “Formules Carrées” customers. In particular, they may opt for the RED 5 Gb plan, which offers access to the 4G network and unlimited access to YouTube videos. However, RED plan customers do not receive the services associated with the “Formules Carrées” and are not eligible for the “Multi-Pack” discounts.

Pre-paid offers—“SFR La Carte”

SFR offers prepaid packages at attractive prices under the “SFR La Carte” brand. The customer purchases a SIM card at a price of €9.90, including tax, and can then recharge the card by telephone, on the internet, by purchase of recharge coupons or tickets at a physical point of sale, or at ATM machines of SFR’s partner banks. Several lines of prepaid recharges are available to clients: they include voice, SMS and MMS as well as data plans. These cost between €5 and €95, depending on their type and on the period of validity of the credits (from one week to five months).

Remote access offers—“Connecté Partout (Connected Everywhere)”

SFR offers two plans for tablets giving customers access to its very-high-speed mobile network (Dual Carrier and/or 4G), as well as unlimited use of SFR WiFi. These offers include a selection of tablets at reduced prices (with a 24-month commitment and including the SFR TV option). With no commitment or tablet, they are offered at €14.99 per month for 5 Gb of data use (€24.99, including tax, for 12 Gb). With a 24-month commitment and a reduced-price tablet, they are offered at € 24.99, including tax, for 5 Gb of data use €34.99 including tax for 12 Gb).

SFR also offers a prepaid package for tablets intended for occasional use. The user buys a SIM card at a price of €7.99 including tax, and receives a 1 Gb credit that can be used for two weeks and recharged thereafter.

Finally, SFR offers prepaid “ready to surf” internet keys and kits (SFR “Connecté Partout” recharges).

Fixed telephony offers

As of September 30, 2014, approximately 762,000 of SFR’s customers were households in mainland France receiving fixed telephony services without associated internet access. SFR offers two types of services:

- Pre-selection offers (call-by-call selection or automatic pre-selection), in which customers keep their telephone-line subscriptions with Orange; and

- Offers that include the telephone-line subscription, in which customers obtain their telephone subscription from SFR rather than from Orange.

SFR’s fixed telephony offerings include options such as voicemail, three-way conference calls, telephone number portability, call forwarding, a call answering system and blocking of anonymous calls.

Fixed internet offers and related services

As of June 30, 3014, SFR had more than 5.2 million B2C broadband internet customers in mainland France, which have subscribed either to a high-speed connection (“LaBox de SFR” through either ADSL or VDSL, subject to eligibility) or a very-high-speed connection with download speeds of up to 1 Gbps (“La Fibre de SFR”, subject to eligibility). All of SFR’s fixed internet customers have unlimited access to the internet.

Stand-Alone Internet (single-play)

SFR offers stand-alone fixed internet, which provides high-speed internet access with pre-selection telephony service (without pre-selection, additional cost of 5 (taxes included) per month.

Bundled Internet and Telephony (double-play)

In addition, SFR offers internet access services as part of bundled double-play offers, which also include unlimited telephony services to fixed-line telephones in mainland France, in a number of France’s overseas departments (including, French Guiana, Guadeloupe, Martinique, La Réunion, Saint Barthélemy, Saint Martin, and Saint-Pierre-et-Miquelon), and to more than 100 destinations internationally, including mobile phones in China, the United States and Canada.

Customers may also opt for unlimited telephone calls to mobile phones in mainland France and the overseas departments (not including Mayotte) for €5 per month, with no commitment period, and a "2 hours Algeria" option that permits calls to fixed and mobile calls for an additional €7.50 per month, with no commitment period.

Bundled Internet, Telephony and IP Television (triple-play)

Two triple-play offers provide IPTV service in addition to internet and telephony services. The "LaBox de SFR" package costs €29.99 per month including tax for unbundled customers and €34.99 per month including tax for customers that are not unbundled, plus either €2 or €3 per month depending on the television option chosen. The triple-play offer "La Fibre de SFR" costs €39.99 per month including tax (of which € 3 is for television service). There are four television options at €2 or €3 including tax per month for customers subscribing for this triple-play offer:

- the €3 per-month Evolution package offers more than 170 channels, including 36 in HD; allows the television to be used as a Media-center platform; and includes an intuitive 3D navigation interface, a set-top box that enables remote digital recording on a 500 Gb hard drive as well as time shifting;

- the standard television offer is intended for customers who have subscribed online for SFR's box offers, for a set-top box rental fee of €2 per month. This offer does not permit time shifting or recording;

- the satellite television offer, available for €2 per month, includes more than 80 channels; and

- the Google Play television offer serves customers for whom enriched television services are unavailable due to the technical characteristics of their line (also included in the offer Red+Box). The dedicated "SFR with Google Play" set-top box, offered for €3, provides DTTV access to 25 channels, as well as to premium television services such as television and video on demand and a radio and television program guide. This offer also enables use of Google Play, YouTube, Google Chrome, Google Photos and the Google search engine, as well as of applications in the Google Play store and of monthly plans for BeIN SPORTS, Canal Play and Netflix VOD.

In addition, customers may subscribe for additional premium television services, including more than 200 additional channels, television on demand/replay, video on demand, program guide, radio, and games on demand.

All of these packages also permit access to television from a computer and access to the application SFR TV, through which customers can access television services from their mobile devices. The majority of SFR's internet customers have opted for triple-play. As of September 30, 2014, SFR had approximately 3.3 million subscribers to its television services (i.e. more than 63% of its high-speed and very-high-speed internet customers).

Since November 18, 2014, the "SFR Box TV Fibre" offer is available at €46.99 per month including tax. This package provides high-speed internet access, includes unlimited telephony services to fixed-lines in mainland France, in a number of France's overseas departments and to more than 100 international destinations, HD TV with more than 200 channels, 10 Gb online storage and other services. This offer relies on a wholesale contract between SFR and Numericable. A premium offer also including "Home by SFR" service (detailed below) is also available at €51.99 per month including tax.

Fixed/Mobile convergence (quadruple-play)

SFR offers quadruple-play packages to residential customers, through a catalogue of flexible offers for customers who wish to have both fixed and mobile premium subscriptions. These offers are competitively priced through the "Multi-Pack" discounts.

Additional services

SFR Cloud: All of SFR's mobile "Formules Carrées" and fixed internet packages offer an online storage service called "SFR Cloud" enabling customers to store their multimedia content (including music, photos and videos) in the cloud and to retrieve it on their connected devices (such as computers, smartphones and tablets) as well as to share it. SFR believes that its online storage space, which is hosted in France, is secure and confidential.

Home by SFR: SFR was the first telecommunications operator to offer automation to residential customers, with its innovative "Home by SFR" offering. Home by SFR works with all internet boxes, including those from other operators, and includes two subscription packages: the Home Security package, at €5 including tax per month, and the Premium Home Security pack at €10 including tax per month, which offers additional services such as video in real time or 24-hour on-site services, in addition to the services included in the basic package—(break-in prevention, unlimited alerts, and remote operation).

Box Home de SFR: In June 2014, SFR launched "Box Home by SFR", a premium offer including triple-play Evolution services, the "Home" automation and security services as well as a choice of premium content or unlimited calls to mobile phones in Europe. The complete offer is marketed at €45.99 per month (of which €2 or €3 is for television services) in unbundled zones (plus an additional €5 per month in unbundled zones).

Sales and Marketing

SFR markets its products through several distribution channels in order to meet customers' differing needs.

Espaces SFR

As of September 30, 2014, with respect to the B2C market, SFR managed (through distribution agreements) a retail network of approximately 743 brick-and-mortar stores in France, called "Espaces SFR" (SFR Spaces), including 8 "Experience stores" (stores of more than 150 square meters located in high-traffic and visibility zones, offering demonstrations and tests of the latest products and innovations). SFR continually invests to modernize this network and maintain the quality of the in-store customer experience.

SFR also offers the service "web to shop", which allows customers to order a product (for example, a mobile handset as part of subscription to an offering or the renewal of an offering) on-line, either on the web or by phone, and to go pick it up in the closest Espace SFR. Based on the availability of the product, it may be picked up within 48 hours (launched in 2013) or in two hours (launched during 2014).

SFR has also developed an "e-propale" service, which enables the issuance of estimates through all of the channels of customer contact. These estimates can then be used in a sale by the customer on-line or through all of the sales channels. This service has been available since November 2014.

Points of sale through partnerships with large French retailers

SFR also maintains a point-of-sale distribution network through partnerships with large French retailers, including specialized stores, general retail and convenience stores. For example, SFR has entered into a partnership with Fnac to distribute SFR products in a dedicated space inside Fnac's 24 largest stores.

Website

SFR sells its products on its website (www.sfr.fr), which receives more than 120 million visits per month. This website showcases all of SFR's B2C offerings and offers exclusive promotions on subscription offers and on mobile devices and accessories. SFR believes that this website is an effective tool, enabling SFR to respond to its customers' needs, both for premium offers (the "Formules Carrées") and for no-frills offers ("RED").

Telephony

Some offers are sold through call centers.

SFR is committed to enhancing synergies between the different networks it has developed to respond to its clients' different needs and expectations. For example, SFR has established an online ordering service for products which can then be picked up from a store.

B2B Market

Recent trends in the B2B market highlight the increasing importance of performance, reliability and, security. Increases in business travel, telecommuting and collaborative work have led to growth in B2B data use (in particular mobile data use) overall customer devices, and created a new need for application and data virtualization. SFR has responded to these needs through a catalogue of standardized solutions available to all of its business customers.

The following table shows the changes in SFR's B2B revenue between 2011 and the nine months ended September 30, 2014:

	Year ended December 31,			Nine months ended September 30,	
	2013	2012	2011	2014	2013
	€ in millions				
Revenue—B2B	1,789	1,871	1,868	1,349	1,341
Change compared to prior year/period	*(4.4)%*	*0.2%*		0.6%	

While certain trends are present throughout the B2B Market, different customer segments also have different needs. SFR's customers are divided into large accounts, SMEs/VSEs (with VSEs including businesses with between three and 19 employees) and local governmental authorities in mainland France.

- For large accounts, SFR's in-house sales force offers customized, reliable and secure solutions, based on a combination of standardized products and additional targeted services. Similar reliability and security solutions are offered within standardized products in the business sector through partner distribution networks;

- The high-potential SME/VSE segment is served through standardized, efficient and reliable solutions offering cost predictability.

The nature of business customers' activities and the growth in their complexity are leading to simplification of supplier offerings. SFR has responded fully to these needs through its unified "all-in-one" communications offerings.

Finally, SFR has developed a series of additional services to complement its standard offerings, as part of its strategy of targeting high-growth segments, such as cloud-based services and MtoM.

Voice and data offers

SFR's mobile offers for all segments of the B2B Market include five mobile voice and data packages and follow the same pattern as the B2C market offers, with additional options that include unlimited SMS/MMS texting and multiple data-use options, as well as four data-access packages for tablets and computers offering internet access ranging from 5 Mb to 12 Gb (and 4 Gb from Europe, Overseas France and the USA).

Management and telecommunication monitoring offers

SFR offers telecommunication-monitoring services to its business customers (i.e. the sale of the right to use SFR's optical fiber lines to other operators). These services provide simple tools such as a dashboard showing expenses and telecommunications use, enabling businesses to effectively manage their fleet of devices.

Device management and security services are offered to all customers. Mobile Device Management ("MDM") enables customers to manage and secure their smartphone and tablet fleets remotely, in particular by erasing business information in the event of theft. Devices are configured centrally through a cloud-based platform.

Fixed voice offers

SFR offers fixed telephone packages in the SFR Office line. These packages include calls to fixed telephones and mobile phones in the business' internal SFR fleet, with special support including dedicated customer service, guarantee of repair within less than four hours (including an onsite technician if necessary), and a choice of single, consolidated, or separate invoicing.

Fixed data offers

SFR offers all of its clients two fixed data packages:

- SFR DSL, an adapted high-speed internet solution that includes mono-site ADSL internet access up to 20 Mbps, as well as supply of a wireless router; and

- SFR Connect, which offers access to dedicated fiber or mono-site SDSL, with symmetric speeds guaranteed up to 1 Gbps in fiber or 16 Mbps in SDSL, and a primary router (router Cicsco IPv6 ready). The SFR Full Connect offer includes application visibility services and a second SDSL backup access.

Voice and data specific to SMEs/VSEs

For professionals and VSEs, SFR offers packages that parallel its B2C packages. The "Formules Carrées" also include specific additional benefits adapted to the needs of professionals and VSEs, such as priority appointments at SFR stores, dedicated customer service, Femto technology, a free second SIM card and a 10% reduction on each mobile line after the second line subscription to Carrée 4G.

Mobile offers for SMEs also provide professional telephony services (such as business directory services, fleet management customer areas, usage alerts and financial management solutions) with devices chosen to respond to the needs of professionals and 24-hour on-site exchange service.

Fixed Services for SMEs/VSEs

SFR offers a Pro version of its internet box for small businesses, which includes services adapted to the needs of this market segment. SFR also offers SMEs/VSEs high-speed and very-high-speed internet access solutions, with security services adapted to the needs of businesses, including connection security and filtering rules, availability of access with emergency access, and application visibility. Finally, the Cloud Business Store gives customers access to a catalogue of applications specifically intended for their business sector.

Solutions for Large Accounts

The SFR Ipnet offer for large accounts and businesses includes multi-site access in France and internationally (a virtual private network with guaranteed routing and prioritized data traffic). It enables businesses to transfer and secure data among all of the business' sites in France and abroad, thus improving the performance of its applications.

The SFR Ethernet offer, designed specifically for large accounts, includes access to a LAN enabling companies to link their local networks through a very-high-speed medium. This permits business customers to divide and share network resources (such as through LAN and servers) and to connect their primary sites (such as offices and data centers) through flexible point-to-point architecture, with an exhaustive line of speeds and access (from 6 Mbps to 1 Gbps).

Unified Communications Offers ("All-in-One")

SFR offers three unified communications solutions in the form of packages, guaranteeing a solution entirely hosted by SFR, with a centralized mono-site or multi-site telephone switchboard and fixed/mobile convergence services.

Corporate Business Pack

The Corporate Business Pack is offered specifically to large accounts. This is a unified cloud-based telephony and communications package, which can be adapted for each business, based on three primary characteristics: rich unified-communications functionality, payment based on usage, and the guarantee of a single contact person for the simplest possible management. This package is a global offer including a platform of services in the core network and centralized-operator voice access, built on the customer's SFR Ipnet network. It offers personalized end-to-end design, deployment and operational support, advanced business telephone functionalities, a unified messaging system, a single number to be used for both fixed and mobile, and softphone service. This package also gives access to high value-added functionalities including a unified messaging service and continuity of service regardless of the fixed or mobile device used. It also permits remote and mobile access.

Enterprise Business Pack

The Enterprise Business Pack includes availability of a dedicated project head during on-site placement and installation by licensed technicians. In addition to the advantages offered by a telephone switchboard (call transfer, call forwarding, conference calls, etc.), this package offers a series of innovative IP telephony services. SFR offers a single fixed and mobile message service, a single number to be used for both fixed and mobile, as well as a complete convergence service at a price of €53.10 excluding tax per month (including a telephone), and €32.4 excluding tax per month per additional line (based on a 48-month commitment).

Entrepreneurs Business Pack

The Entrepreneurs Business Pack, offered to VSEs, focuses on telecommunication and Cloud-based solutions. It is designed for businesses of fewer than 20 employees and is offered at a price of €159 excluding tax per month, with a 36-month commitment. Each fixed-line user beyond the first line costs €36 excluding tax per month, while each additional mobile user costs €59 excluding tax per month.

Related Services

Conference and Call-Sharing Offers

SFR offers a variety of conferencing and call-sharing solutions, adapted to the needs of its customers of all sizes:

SFR Business Audioweb Offer

The SFR Business Audioweb offer is an audio-conference service that also permits document sharing and transfer. It may also be combined with SFR Business Conferencing Visio, which includes unlimited video conferencing, sharing and transfer of documents, high-definition equipment (screen, camera, and microphone), and equipment operation and maintenance.

SFR Business Sfere Offer

SFR Business Sfere is offered to large account customers. It includes internet hosting and professional messaging. A business client may thus access site-visit statistics and have a complete business-messaging environment available anywhere, including email box, calendar, contacts and personalization of email addresses.

Machine-to-Machine offers

Machine-to-Machine offers ("MtoM") permit a group of fixed or mobile machines to exchange information using a central server. Examples include geolocation services and credit-card payments.

MtoM Connectivity Solutions

SFR offers standard connectivity services. To respond to specific needs tied to critical, sensitive and/or high-volume projects, SFR has developed an industrial management system of MtoM SIM cards, enabling it to offer different rates and functionalities for each phase of the customer's project and thus to optimize its chances of success.

MtoM Business Solutions

SFR offers packaged solutions for credit-card payment.

- The "Money Store" package offers fixed-location businesses a complete fixed or mobile payment solution including an electronic payment device. It offers an unlimited number of transactions, a monthly communications fee as well as maintenance service including 24-hour device replacement. These services are available for €34.90 excluding tax per month with a device.

The "Money-n-Go" package, designed for out-of-store payments, is also available at the same rate of €34.90 excluding tax per month. m-Alert Absolu Solution

SFR also offers security services for property and individuals. The "m-Alert Absolu" solution is a geolocation-based pocket alert system using a mini-GPS and intelligent networks installed by SFR. This innovative device is intended for all professionals in risky professions, for isolated professionals (such as travelling professionals, travelling technicians, doctors and/or nurses) and for dependent persons, who can be located if necessary. The m-Alert Abolu pack is available for €25 excluding tax per month for 24 months.

Cloud: Infrastructure and IaaS/SaaS offers

SFR is present on the cloud market both through its own offerings and through its investment in the Numergy "sovereign cloud" project, a consortium among SFR, Bull and the Caisse des Dépôts et Consignations in which SFR holds a 46.7% stake.

An on-demand IaaS service called Cloud Infrastructure Suite is offered to clients, in particular to large accounts. The offering is composed of a hosting service on virtual servers in a shared environment. It enables a business to manage, optimize and evolve a portion or even all of its information system structures on demand as needed. Thus, it externalizes computing resources in a secure environment. This IaaS solution covers Public cloud and Private cloud needs. Public cloud refers to application and/or website hosting in a secure environment intended for third-party use, while Private cloud refers to an infrastructure reserved for the exclusive use of a single organization in a secure and compartmentalized environment.

SFR offers a turnkey hosting service as well as content-acceleration and managed services. In addition, through its partnership with Hewlett-Packard, SFR is the largest French supplier of overflow services (when internal capacity is saturated) in the cloud for its customers using Hewlett-Packard technology.

SFR offers a cloud Storage Suite that responds to business' needs for secure data storage, sharing and safeguarding. This all-in-one solution, invoiced by usage, includes three complementary services:

- SFR Storage, a data storage service that works with the ergonomics of the business applications to which the business is accustomed;
- SFR Sync, an automatic data-synchronization service for businesses, made available at all workstations and for all employee work tools. Files are backed up and access to files is secured; and
- SFR Backup, an automatic data-backup service for businesses that makes data available from any device. Data security is ensured by an encryption service for access and storage, for optimum confidentiality.

Among its cloud-collaboration solutions, SFR also offers Collaboration Office 365, which regroups the Microsoft Office tools (professional email, conference and instant messaging, online document-sharing, and office management applications) and makes them available online at any time.

The Cloud Business Store is a sales portal for Saas (Software as a Service) solutions intended for companies, VSEs and professionals. It gives them access to an on-line catalogue of innovative and effective software solutions. In addition to office technology solutions (Microsoft Office 365), businesses and professionals can find client relationship management solutions, accounting, archiving, marketing, e-mailing, security solutions and even solutions for translating phone conversations. These solutions can be deployed flexibly, on all handsets and as mobile applications. These solutions include a system for sending 100% electronic registered letters (E-velop by SFR), an internet browsing security system (SFR Proxy cloud), a multichannel message broadcasting service (SFR Push Contact), a simplified web site publication tool (SFR Mon Site Business) and a cloud virtual office (SFR Explorateur de cloud).

Cybersecurity offers

Computer security is a core business of telecommunications and cloud operators. Bolstered by its experience in this field, SFR has constructed a security services catalogue.

Internet access protection and security

SFR launched its first managed internet access protection and security services in 2005. It now offers integrated and managed services and SaaS internet security solutions such as internet filtering (Proxy SaaS). It works in close collaboration with security specialists to meet its clients' security requirements. SFR also offers secured-device and remote-access management solutions with virtual private networks (VPN) and secured authentication services, particularly in connection with cloud-based solutions.

Reinforced protection for business data

SFR offers data synchronization, storage and backup solutions. SFR also provides responses to so-called "evolved threats" such as attempted system intrusions and denial of service attacks.

SFR's packaged computer data security service offers are structured around four themes: devices, networks, internet and cloud. SFR offers support and assistance by engineers certified by the creators of SFR's partners' solutions.

Customer Relations Offers "Special numbers"

SFR has been a "special numbers" (i.e. toll-free and special-rate numbers) operator for approximately 15 years, first via Cegetel and then through Neuf Cegetel. Some 6,000 companies are special numbers clients of SFR (No. 08AB, No. 09, No. 3BPQ, Proxinum). In all, over 150,000 active numbers in the SFR network have totalled over 2 billion minutes in 2013.

Telephone answering: Voice Portal range

The Voice Portal product range was designed to support and assist businesses in their effort to optimize and automate their telephone answering operations. It includes a set of packaged solutions adapted to the needs of each client and available through numerous offers (Contact Package, Interactive Package, VXML Package and Vocal Premium Package).

Call centers: "Genesys by SFR" solutions and "Cross-Channel Contracts Centre"

The "Genesys by SFR" and "Cross-Channel Call Center" solutions cover, respectively, call centers for very large accounts (over 1,000 call center agents) and middle market segment (50 to 500 call center agents). These hosted solutions allow businesses to manage their incoming contacts consistently whatever the channel used by the client (particularly telephone, e-mail, mail, fax, chat, social networks or avatars). Offering a 360-degree client view, these solutions require strong integration with the client's information system. They are thus highly personalized, on-demand solutions.

The Cross-Channel Call Center solution is also available in a packaged, non-customizable version for SMEs (fewer than 20 call center agents).

Marketing campaign management

SFR offers three solutions for managing multi-channel outgoing marketing campaigns: the "Diffusion MultiCanal" offer, intended for large corporations; the "Diffusion" package, for SMEs; and SFR Push Contact, marketed to professionals and VSEs. These three offers make it possible to send messages (unitary or in direct marketing mode) via the channel most suited to the target: SMS, MMS, email, fax or voice ads. These campaigns are managed via an on-line extranet or application programming interface.

The E-velop offer provides customers with a fully digitized registered letter service, with acknowledgement of receipt, to facilitate administrative management. A digitized registered letter sent using this service has the same legal effect as a traditional registered letter with respect to the execution or performance of a contract. Registered letters are sealed and identified by a unique identifier.

Integration Services

SFR offers integration services, in particular through the intermediary of Telindus France, which was acquired in the second quarter of 2014.

Telindus offers advisory, integration and operating services to businesses in the areas of business networks (LAN, WiFi), data centers (virtualization and operation), IT and unified communications security. Telindus' services are provided principally on-site and complete the services of SFR (unified communications, Iaas, Saas, cybersecurity) mainly in hosted mode ("cloud") and allow for growth in hybrid or integrated service offers.

Wholesale and Other

SFR is active in the Wholesale market, providing operators with service offers (fixed and mobile voice and data) for routing traffic or for providing "white label" products to the operators' own clients. In addition to service offers, SFR provides infrastructure offers (hosting, sheathing and fiber).

The table below shows the changes in Wholesale and Other revenues between 2011 and the first nine months ended September 30, 2014:

	Year ended December 31,			Nine months ended September 30,	
	2013	**2012**	**2011**	**2014**	**2013**
	€ in millions				
Sales Wholesale and Other	1,536	1,442	1,333	1,217	1,120
Change compared to prior year/period	*6.5%*	*8.2%*		8.7%	

SFR believes that the scope and the quality of its networks, combined with its 15 years of experience in the market, make it a leading operator for both fixed-device and MVNO solutions. A wide range of offers has been designed to meet operator needs: voice and data transfer and collection, termination of calls in France and to other countries, fiber network, DSL access, IP and Ethernet services, bandwidth and hosting.

These services are completed by the historical and privileged partnership with Vodafone, which enables SFR to continue to benefit from the same commercial, economic, technological and information sharing advantages as the local operators controlled by Vodafone.

Fixed voice solutions

SFR meets national and international voice transfer needs through transit, collection and call termination offers. These solutions allow third-party operators in France or abroad to use SFR's network to connect to networks of other operators to which their client is not connected directly.

SFR also offers turnkey options to innovative local players ("switchless" in particular) for pre-selection, fixed voice unbundling, reselling of subscriptions and value added services (08xx numbers) that allow them to be the sole points of contact for their client while managing its entire voice bill. SFR rounds out its proposal to these operators with VoIP offers (Voice over IP, telephone calls over the internet) and internet access that allow them to offer comprehensive solutions to meet the telecommunication needs of their corporate end clients.

Solutions for mobile operators

SFR provides solutions to mobile virtual network operators ("MVNOs") (operators who do not have their own networks but wish to offer mobile services). SFR has offers for full-service MVNOs (providing mobile voice, SMS and data collection), for non-full-service MVNOs (providing end-to-end mobile services such as national and international calls and roaming), and for MVNO integrators who supply turnkey solutions. SFR currently has 16 contracting MVNOs including three full MVNOs (Virgin Mobile, NRJ Mobile and Mundio).

MVNOs and foreign operators: roaming

SFR's mobile network accommodates the customers of foreign operators through roaming, providing them with continuity of voice and data service while in France. SFR's 571 agreements with foreign mobile operators allow SFR to offer an equivalent service to its own customers when they travel outside France, covering 275 destinations.

Data, bandwidth, hosting and infrastructure solutions

To meet internet connectivity needs, SFR offers end-to-end internet access to residential and business customers. These solutions allow other operators to take advantage of the SFR network and support. SFR also offers IP transit/Peering options.

SFR responds to the connectivity needs of international operators when their international clients want to connect their points of presence in France. This allows international operators to construct seamless offers integrating France in their offerings (International VPN IP).

Finally, SFR markets computer equipment and telecommunications hosting capabilities to international players, in addition to its connectivity and data transfer services. Its infrastructures offer also includes the marketing of access to its sheaths or the availability of fiber.

Based on its deployment of local FTTH loops, SFR plans to develop its wholesale services based on its fiber infrastructure via the sale of IRU offers in less dense populated areas. In very densely populated areas, SFR is active as a building operator, deploying fiber vertically in buildings and providing other operators with access to this infrastructure.

Activities of Société Réunionnaise du Radiotéléphone (SRR)

Société Réunionnaise du Radiotéléphone, an SFR subsidiary, operates on Reunion Island and in Mayotte in the B2C and B2B markets. In mobile, this subsidiary holds a GSM license (second generation) and a UMTS license (third generation) and covers approximately 99% of the population on Reunion Island with 2G and 96% of the population on Reunion Island with 3G.

SRR offers fixed and mobile B2C services. Its mobile offers under the brand "SFR Reunion" (as of September 2014) include four Formules Carrées plans, two capped Carrés plans, and a prepaid card. A prepaid card and capped plan are also offered under the NRJ Mobile brand targeting mainly the youth market.

- The Formules Carrées plans are available with or without commitment, and with or without a device. Rates (with a 12-month commitment and a device) range from €19 to €89, taxes included, per month, depending on the voice, SMS/MMS and data package.

- SFR also offers two capped Carrés plans, also available with or without commitment and with or without a device, at rates ranging from € 19 to €29, taxes included (with a 12-month commitment and a device).

- The prepaid, no commitment La Carte and NRJ Mobile cards cost € 15.
- Finally, SFR offers remote access options: the Carré tablet and key and SFR La Carte internet.
- Fixed offers for the B2C market include a triple-play offer at the rate of 49.90, taxes included, per month, as well as an offer that includes a telephone subscription and internet access for €24.90, taxes included, per month (with calls to landlines in mainland France and Reunion Island billed at €0.09 per minute).

SRR markets several B2B voice offers: the Carrés plans, ranging from € 19 to €89, excluding tax, per month (with mobile and commitment) and the Evidence meter for device fleets of fifteen or more lines. SRR also offers data options, which include MtoM solutions as well as Carrés plans for tablets and internet keys. Seven of its stores ("SRR Espaces") also have specific facilities dedicated to businesses.

Furthermore, via the internet site redbysfr.re, SRR offers no-frills offers including a customizable plan and a 1 Gb all-inclusive plan.

SRR also serves the B2C and B2B markets in Mayotte. In mobile, it covers more than 99% of the territory (more than 99% of the population) for 2G service, and more than 72% of the territory (more than 87% of the population) for 3G+ service. In the B2C market, under the SFR Mayotte brand, SRR has mobile (Halo capped or unlimited plans, capped 976 Mobile plan, prepaid Yangou La Carte cards and 976 Mobile cards, 3G+ internet key) and fixed offers (Neufbox offers, including a triple-play offer). In the B2B market, SRR offers voice (Halo Pro) and data solutions (3G+ mobile internet, MtoM internet) under the same brand as the one used in the B2C market.

Activities of SFR Collectivités

SFR Collectivités, a subsidiary dedicated to local governmental authorities, was created to support and assist SFR's networks and services deployment strategy to serve the needs of local authorities. Beyond the cooperative relationship between SFR and these local authorities, SFR Collectivités also manages major long-term partnerships such as the Public Initiative Networks. These physical networks, built by the governmental entities with the participation of the private sector, are for the most part managed as public service concessions (DSP). SFR Collectivités handles the deployment of fixed and mobile infrastructure networks in order to expand the attractiveness and coverage of the local areas and can support and assist communities from design through operation of these telecommunication networks. As of the date of these Listing Particulars, SFR is the leading operator in the field of public initiative networks, with 25 public initiative networks.

Activities of Equity-Accounted Affiliates

The main equity accounted affiliates are:

La Poste Telecom

SFR holds 49% of La Poste Telecom, which markets telephony subscription and prepaid offers under the La Poste Mobile brand, in the network of post offices. La Poste Mobile is an MVNO on the SFR network.

Synérail

SFR holds a 30% interest in Synérail, alongside Vinci (Vinci Energies and Vinci Concessions) and AXA (AXA Infrastructure Investissement SAS, AXA UK Infrastructure Investissement SAS, AXA Infrastructure Partners FCPR) (each at the 30% level) and TDF (which has a 10% interest). Synérail signed a public-private GSM-R partnership agreement with RFF. This agreement, which has a fifteen-year term from March 24, 2010, for a total amount of €1 billion, for the design, construction, deployment, operation, maintenance and financing of the GSM-R mobile communications network that will permit voice and data communications between trains and regulation teams on the ground in conference mode. It will enable the setting up of a European network with a unique communication system which is compatible and standardized across the rail networks, and replacing the existing national radio systems. This contract provides for the progressive deployment of this network, over 14,000 kilometers of traditional and high-speed rails in France. SFR also plays a part as services provider in the construction and exploitation phase of the GSM-R network through Synérail Construction and Synérail Exploitation held jointly with Vinci Energies.

Numergy

SFR holds a 46.7% interest in Numergy, in association with Bull (20%) and the Caisse des Dépôts (33.3%). The purpose of the company is to develop, operate and market cloud computing services.

SFR's Network

Through its network, SFR's objective is to provide a quality high-speed and very-high-speed experience to all of its individual, professional and business clients, for both fixed and mobile services, whatever the device used.

To this end, SFR has invested in its own network infrastructure in order to be able to develop quality innovative and convergent services, while at the same time controlling costs. These networks route fixed and mobile voice and data traffic over the entire French territory, and are also connected to networks worldwide through interconnection agreements or via forwarders.

SFR intends to continue to invest in cutting-edge technologies that anticipate market developments and cover future traffic needs. This strategy can be seen in SFR's mobile business, particularly via the deployment of 4G. As a result of recent investments in this technology, approximately 50% of the populations now have access to SFR's 4G network. This strategy is also evident in its fixed-line business through the development of very-high-speed fiber networks. In order to continue to control its costs while improving network coverage and quality, SFR relies on network-sharing partnerships relating to very-high-speed fixed networks (particularly with Orange) and more recently for mobile networks (with Bouygues Telecom).

General Presentation of SFR's Network

To offer its customers the best possible experience high quality, SFR has developed its own long-distance network to route all of its fixed and mobile traffic. This network is based on a modern backbone infrastructure and a best-in-class mobile and fixed access network and was made possible by SFR's investment in the deployment and maintenance of its networks over many years.

SFR owns one of the three major backbones in France (alongside Orange and Numericable-Completel). This backbone includes a long-distance network of nearly 50,000 kilometers of fiber, making it possible to connect more than 160 MAN in France. It is accompanied by a dense network of more than one hundred datacenters distributed over the entire territory. SFR's most significant site occupies more than 12,000 square meters, hosts more than 62 telecommunications operators which handle almost 50% of French internet traffic.

SFR's mobile access network counts some 18,800 radio sites, each consisting of broadcasting/receiving equipment (base station), transmission equipment and environment infrastructure (such as pylons, service rooms, power supply units, and antennas). These radio sites are connected to the fiber backbone via fiber or radio relay systems, through links leased from Orange or owned by SFR. SFR owns some 5,200 pylons, of which nearly 50% are installed on land belonging to SFR.

To operate this mobile network, SFR has made considerable investments in purchasing mobile frequencies during the various auctions organized by the regulatory authorities in the past. As a result, SFR has a comprehensive catalogue of frequencies (2G/3G/4G) and a sufficient spectrum allocation to cover its current and anticipated needs.

Frequencies	800 MHz	900 MHz	1800 MHz(1)	2.1 GHz	2.6 GHz
Allocation of SFR spectrum (MHz)	2x10	2x10	2x20	2x19.8 + 5	2x15
Expiration dates	17/01/2032	31/01/2021	31/01/2021	17/07/2021	11/10/2031
Current technologies(2)	4G (LTE)	2G (GSM), 3G (UMTS)	2G (GSM)	3G (UMTS)	4G (LTE)

(1) Refarming of 1800 MHz frequencies after May 25, 2016.

(2) Current technologies used for these frequencies.

On its fixed-access network, SFR relies on the largest unbundled DSL network among the alternative operators (approximately 6,500 Subscriber Access Nodes "NRA" unbundled as of September 30, 2014). This unbundled network allows it to establish an internet access provider business using the copper local loop connections of Orange.

Since 2007, SFR has also deployed its own subscriber access nodes through fiber (Fiber to the Home, "FTTH"), which allows the supply of speeds up to 1 Gbps. This deployment relies on a 270 Optical Connection Nodes ("NRO") network.

Mobile coverage

Through a significant roll-out of its radio sites involving the different 2G and 3G technologies, SFR believes that it now covers all of mainland France's mobile connectivity needs. As of September 30, 2014, SFR's GSM/GPRS (2G) network covered 99.7% of the French population. In order to support new mobile internet users (3G data traffic up 40% between 2012 and 2013 in SFR's network), SFR also continues to expand the coverage and the capacity of its 3G network. SFR believes that it has the most extensive coverage for UMTS/HSPA (3G/3G+) technologies, covering, as of September 30, 2014, more than 99% of the population. In addition, the SFR 4G network covers more than 30% of the population of mainland France as of September 30, 2014.

In order to provide very-high-speed coverage, SFR continues to expand its Dual Carrier technology (DC-HSDPA+ network, the latest evolution of 3G), thus covering more than 75% of the population and making it possible to double download speeds up to 42 Mbps.

Demonstrating its commitment to adapt to new usage and improve its users' experiences, SFR consistently works to expand the possibilities offered by its network infrastructure and its choice of technologies. In 2013 it was the first operator to deploy 4G service on Paris' RER A commuter train line, through a partnership with Paris' rapid transit authority, the RATP. SFR plans to extend this coverage to other Paris metro and RER lines.

Fixed Coverage

As of September 30, 2014, SFR's fixed network connected approximately 6,500 Subscriber Access Nodes and covered more than 28 million households capable of unbundling by SFR and receiving SFR's IP voice, internet or TV services, depending on the eligibility of the lines for these services (source: SFR). This makes SFR's network the largest unbundled network in France among the alternative operators, covering more than 87% of the population as of September 30, 2014. Furthermore, SFR has built an optical network to connect its 270 Optical Connection Nodes thus making around 2.0 million households in mainland France eligible for fiber as of September 30, 2014.

SFR's fixed very-high-speed coverage is reinforced by a WiFi network providing additional coverage to digital customers, with 4 million hotspots transmitted by the boxes of its fixed-service clients in France as well as 8 million hotspots in 100 countries, as of September 30, 2014, provided through an agreement with the international operator Fon. The SFR hotspots system is a community system that allows SFR clients to connect to WiFi through access to WiFi networks that are separate from the individual networks, transmitted by the boxes of SFR's clients.

DSL Coverage

Fiber Network in 2013

Mobile and fixed network performance meets users' principal needs

SFR has designed, developed and deployed its network to respond to its users' needs for both mobile and fixed telecommunications.

For the mobile network, where quality and failure rates are particularly significant for client experience and satisfaction, SFR has focused on deploying a network with varying speeds to address users' different needs. For example, SFR has been the first mobile operator in France to use "golden frequencies" (800 MHz) to optimize its network coverage and quality, while at the same time relying on high frequencies to provide speeds high enough to absorb the demand for voice and data traffic.

For the fixed network, connectivity and equipment reliability (particularly the box) are key for long-term user satisfaction. Therefore, SFR aims to offer high performance for all fixed services (internet, telephone and TV). In particular, SFR's DSL network has the lowest ADSL failure rates after 30 days (source: ARCEP, measures the quality of service access for the first quarter of 2014).

Mobile Network

Single-RAN Technology

SFR's mobile access network consists of approximately 18,800 radio sites equipped with one or more pieces of transmitting/receiving equipment (the base station) each dedicated to a single technology (2G or 3G) or latest generation "Single-RAN" equipment allowing the management of 2G, 3G and 4G technologies through the same equipment.

SFR takes advantage of its deployment of 4G technology to routinely replace its old antennas with Single-RAN technology, thus providing SFR clients with a quality, ultra-fast network while making the most of the technical and financial advantages of this technology.

Single-RAN technology offers several technical advantages. First, it provides enhanced performance (quality of 4G or 3G coverage and increased 3G capacity) due to its ability to use optimal (3G/4G) technologies and frequencies (900MHz, in particular). Efficiency and connectivity reliability are also optimized, due to the use of a single transmission technology (compared to the use of several technologies on alternating equipment, known as "overlay"). Finally, it facilitates technological developments (introduction of 3G 900 or 4G 1,800, for example) requiring only software developments, without any work needed on the physical components. It also has the prerequisites for evolving toward the LTE-Advanced technologies (4G+) that are expected to follow 4G in the future.

The use of the Single-RAN technology also generates economic benefits, in particular due to the reduction in amount of equipment. Thus, the reduction in maintenance operations creates operating cost savings, while the facilitation of technological developments and the reduction of the number of sites required lead to decreased capital expenditures over time.

Finally, this technology improves client experience due to better network fluidity (because of better coverage and availability) and increased capabilities over all frequencies covered by this technology (2G/3G/4G). This additional performance is also strengthened by SFR's use of fiber links ("backhaul link").

Golden Frequencies

In 2012, SFR was the first operator to offer 4G to B2C and B2B customers following its 2011 acquisition of 800 MHz frequencies, called "golden frequencies", in order to meet clients' coverage expectations. These frequencies offer better transmission properties (particularly inside buildings) than the higher frequencies like 1,800 MHz and 2,600 MHz, and also require fewer antennas to cover the same area.

For these 800 MHz frequencies, as of December 1, 2014, SFR had 3,647 authorized antennas, compared to 4,254 for Orange and 2,915 or Bouygues Telecom (source: ANFR). Free was not granted any golden frequencies (800 MHz) during the last auction held by the regulatory authority in 2011.

This focus on "golden frequencies" has allowed SFR to expand its 4G geographic coverage, while at the same time meeting its current capacity needs. During a second phase, SFR will focus on progressive investments in capacity to meet the needs of its clients. This increase in capacity will be facilitated by Single-RAN technology, which makes frequencies interchangeable, and by the activation of so-called "high" frequencies (1,800 MHz and 2,600 MHz), which will allow SFR to offer download speeds of up to 115 Mbps.

Fixed Network

SFR benefits from good historical coverage for DSL technology and plans to develop very-high-speed (speeds greater than 30 Mbps) in order to respond to the gradual growth in usage.

To do this, SFR chose to develop and deploy fiber technology, making it possible to address these needs due to superior performance, particularly with respect to bandwidth. As of the date of these Listing Particulars, over 2 million homes are covered by SFR's FTTH technology. SFR has also been a pioneer in the increase in fiber speeds, and was the first to market (in 2013) an offer with a theoretical download speed of 1 Gbps.

Fiber technology has a longer service life than other new-generation technologies, and has significant development potential. For example, since 2012, SFR has been deploying equipment capable of evolving toward the XGPON technology, which will make it possible to offer speeds up to 10 Gbps, i.e. 10 times more than the GPON technology currently used. Furthermore, the symmetry of the upload and download fiber streams, combined with enhanced speed, allows the development of advanced applications like telemedicine. Finally, it is not technically limited by the distances to the connection nodes, unlike other technologies such as VDSL where the actual speed decreases as this distance increases.

In order to respond even faster to users' growing needs, SFR has set out a pragmatic strategy for accelerating the deployment of ultra-fast offers.

First, SFR intends to focus on fiber deployment in very dense areas in order to maximize coverage of the French territory, as part of the agreement signed with Bouygues Telecom see "*Risk Factors—Regulatory and Legal Risks Relating to SFR—SFR's business depends in part on its ability to set up and maintain partnerships with other participants in the telecommunications sector—Network sharing agreements between Bouygues Telecom and SFR*"). Less dense areas are being addressed via the deployment agreement with Orange (see "*Risk Factors—Regulatory and Legal Risks Relating to SFR—SFR's business depends in part on its ability to set up and maintain partnerships with other participants in the telecommunications sector—Agreement for the deployment of fiber in average densely populated areas between SFR and Orange*"). In the B2B market, the deployment of fiber-access networks will also focus on high-potential areas, thus making it possible to share client connections and reduce connection costs. This optimization will be facilitated by the systematic use of a geo-marketing approach.

Simultaneously with the deployment of fiber, SFR intends to selectively develop alternative technologies. For example, it believes that deployment of VDSL technology, which has lower deployment costs compared to fiber, may allow it to accelerate its high-speed coverage. SFR therefore intends to offer it to households that can take advantage of the full potential of this technology (>30Mpbs). In this regard, SFR enriched its "box" offer with the VDSL option in 2013. The number of households eligible for very-high-speed access through VDSL2 has increased following the decision of ARCEP on July 10, 2014, but will, however, be limited by operational constraints (distance to the connection nodes).

Network Sharing Agreements

In order to optimize the quality and the coverage of its networks and with an aim toward optimal allocation of its investments, SFR has been one of the most active operators in developing partnerships dedicated to network sharing, for both mobile and fixed infrastructures.

Mobile network sharing agreement

On January 31, 2014, SFR and Bouygues Telecom entered into an agreement to share part of their mobile networks. This agreement will enable both operators to offer their respective customers better geographical coverage and better quality service, while optimizing the related costs and investments.

SFR and Bouygues Telecom will roll out a new shared network in an area covering 57% of the population (i.e. all of France excluding the 32 largest cities with more than 200,000 inhabitants and dead zones having no reception).

Two principles underpin the agreement:

- First, the creation of a joint venture to manage shared radio site assets, in particular passive infrastructure and geographical locations in which the infrastructure and telecom equipment are deployed. SFR and Bouygues Telecom will retain full ownership of their telecom equipment assets and their frequencies;

- Secondly, the provision of RAN-sharing services that the operators mutually provide in 2G, 3G and 4G on shared territory. Each operator is responsible for a percentage of the shared territory, in which it ensures the design, deployment, operation and maintenance of the RAN-sharing service.

SFR and Bouygues Telecom retain autonomous innovation capabilities, remain independent both commercially and with regard to pricing, and continue to offer differentiated services by managing their own network core and frequencies. The mobile network-sharing agreement between Bouygues Telecom and SFR resembles similar initiatives that have already been implemented in other European countries.

In a press release dated January 31, 2014, ARCEP favorably received the agreement subject to compliance with three conditions: (i) maintenance of the strategic and commercial autonomy of the operators; (ii) absence of an exclusion effect on certain market competitors; and (iii) improvement in the services provided to users in terms of coverage and service quality.

The first cell coverage plans were delivered by each party on April 30, 2014. At this date, each operator was able to review the other's deployment plan, since exchanging technical information on-site during the establishment of sharing agreements is prohibited by the ARCEP. This exchange of information led, on October 24, 2014, to the adaptation of the agreement and in particular regarding certain engineering choices that had been made at the time of negotiation when each party did not have all of the pertinent information about the other's network. The completion of the target network, initially expected for the end of 2017, has been delayed by one year to the end of 2018, to take into account the prior deployment delays.

Fixed network sharing agreements

In 2010, SFR signed a co-investment agreement with Bouygues Telecom concerning the deployment of fiber optics in certain municipalities in very densely populated areas. This agreement provides that the parties will pool horizontal fiber optic networks between their points of presence and each building in the selected municipalities. It is intended to help both operators accelerate and extend the deployment of their FTTH infrastructures for the benefit of their respective clients in the municipalities concerned, while at the same time reducing their deployment costs.

In 2011, SFR also signed a co-investment agreement with Orange for the deployment of fiber in less densely populated areas of mainland France, affecting 10 million households. This agreement provides that by the year 2020, the SFR Group will deploy FTTH in 2.4 million homes, and Orange in 7.6 million homes. Each operator will become the other's customer by signing IRUs in areas where it will not itself deploy fiber. Third-party operators will also have access to these infrastructures through Wholesale market agreements.

Technology and Infrastructure

In addition to "—SFR's Network" above, which discusses the current status and future evolutions of SFR's fixed and mobile networks, this section describes the general architecture of SFR's telecommunications network with respect to each of its main components (i.e. access networks, collection networks, core network and service platforms).

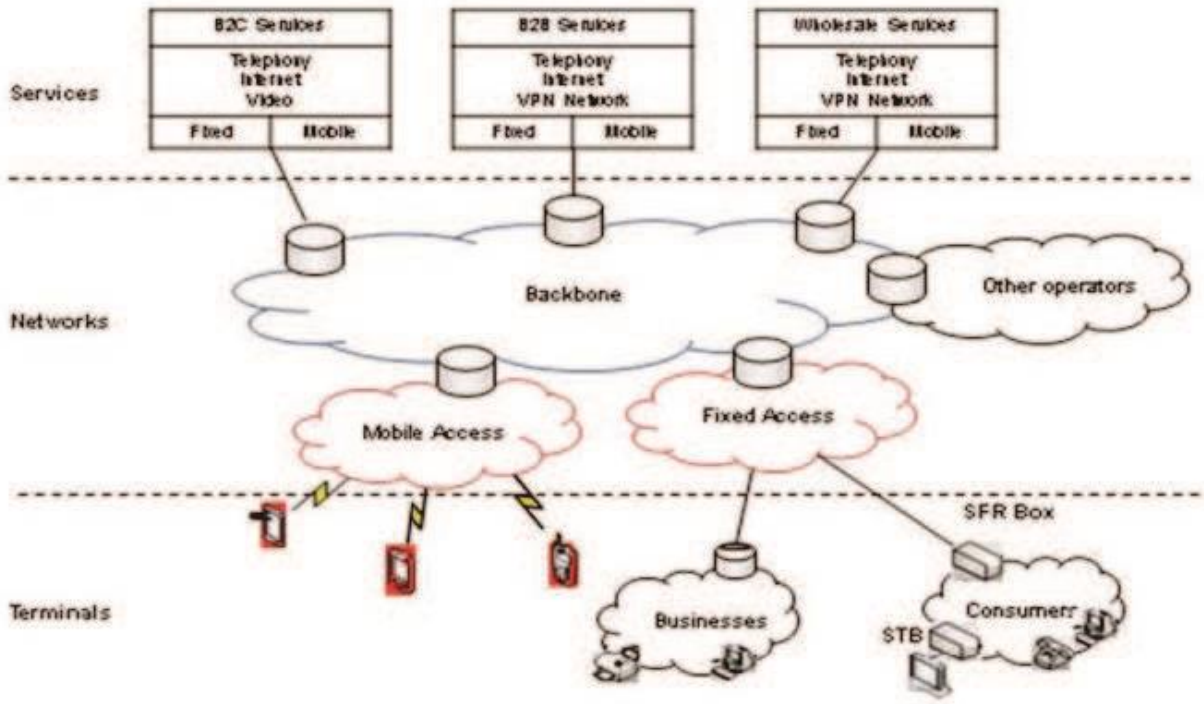
General Presentation

Simplified general architecture of a telecommunications network

(Source: SFR Group, diagram prepared internally).

The rhythm of major technological evolutions in the telecommunications sector is intense and will accelerate notably in light of the very rapid development of internet uses. As a result, SFR has for several years undertaken to streamline its networks, which were historically built by SFR for mobile and by Neuf Cegetel for fixed-lines.

Simplified diagram of the SFR Group's network



(Source: SFR Group, diagram prepared internally)

Traffic is collected through the access networks, dedicated to the connection of customers, and then routed through the collection network to the core network.

The service layer is borne by various platforms adapted to services (voice or data) and to each of the markets covered by the SFR Group: B2C, B2B and Wholesale.

Access Networks

Mobile access network

As partially explained under "*—SFR's Network—General Presentation of SFR's Network*", the SFR Group's mobile access network includes more than 18,800 radio access sites, as of September 30, 2014, composed of:

- one or more transmitting/receiving installations (base station) each dedicated to one single technology (2G or 3G), or latest generation "Single-RAN" equipment allowing for the management of 2G, 3G and 4G technologies through only one equipment;
- transmission equipment allowing to connect radio access equipment to the collection network and to the core network through fiber, radio-relay links or lines leased from Orange; and
- environment infrastructure, such as power workshops, antennae, a technical room, the pylon supporting the antennas, etc.

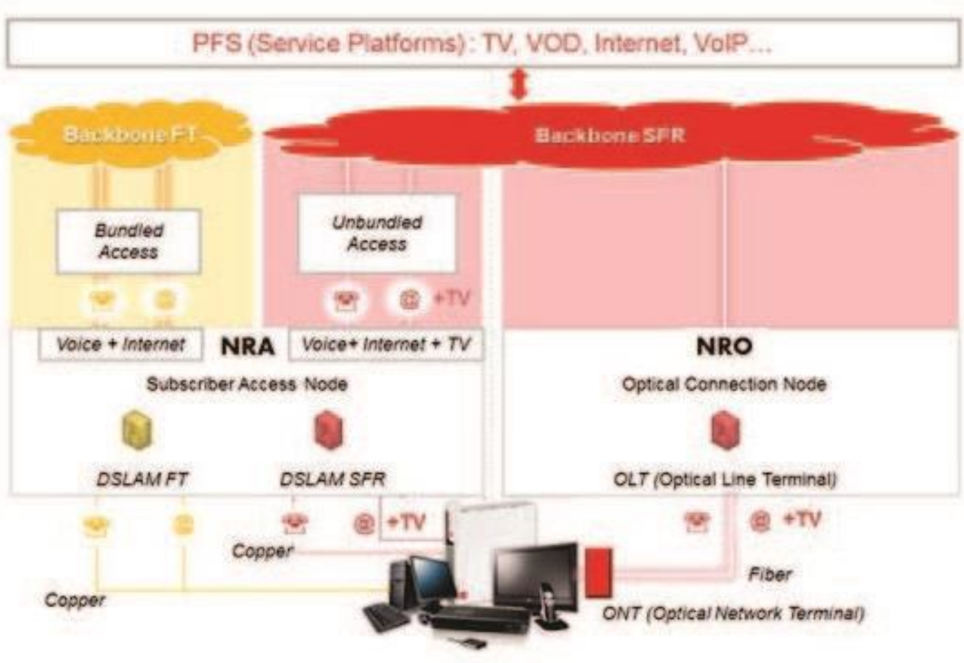
Fixed access network

Historically, the unbundling of the subscriber copper interconnection links of Orange enabled SFR Group to operate its business as an internet access provider.

SFR Group's Fixed access network is able to deliver voice or data traffic from the terminal equipment located at the customer's site to the collection points.

Since 1987, SFR has also deployed its own optical fiber subscriber links (FTTH), using the GPON technology.

Types of accesses on the fixed network



(Source: SFR Group, diagram prepared internally)

DSL (Digital Subscriber Line)

The subscriber access node is a building belonging to Orange in which all the copper telephone lines of a geographical area end. The size of the subscriber access node is highly variable, from a few hundred to several tens of thousands lines. In these subscriber access nodes, the SFR Group has installed equipment of the "DSLAM" (*Digital Subscriber Line Access Multiplexer*) type, allowing for the connection of customers mostly though the ADSL2+ technology. Since 2012, the SFR Group has deployed VDSL2 technology over more than 2,600 subscriber access nodes allowing for increased speed for customers located less than 1 kilometer away from the DSLAM.

The SFR Group ensures the provision of internet access using copper lines (DSL, "Digital Subscriber Line") in two ways:

- by the installation of active DSLAM equipment in the subscriber access nodes of Orange, on which the interconnection links of the subscribers of the SFR Group are then connected (the "unbundling" solution);
- by the purchase of a wholesale service from Orange which delivers the traffic from all of the customers concerned at collection points (the "bitstream" solution).

FTTH

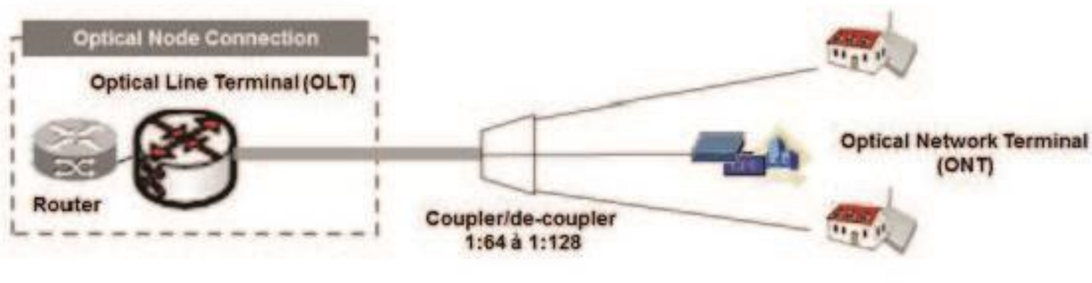
To connect homes to fiber, the SFR Group chose to deploy the GPON technology, which allows for multiplexing of 64 or 128 homes over a same fiber. This technology theoretically makes it possible to offer speeds up to 1 Gbps from the network to the customer and confers the advantage of an entirely passive distribution network between the optical connection node and the customer's installation, which reduces deployment and operation costs.

In very dense areas, the SFR Group builds its own optical connection nodes and deploys its fiber up to the shared access points (typically located at the bottom of each building). The connection of a customer to the shared access point is up to the building operator which alone manages the infrastructure deployed inside the building.

Outside of very dense areas, the shared portion of the optical network is more significant. Shared access points are defined for each geographical area and each serve approximately 1,000 homes with a shared infrastructure.

In both cases described below, optical couplers/splitters, located at the shared access points, allow for the multiplexing of customer flows on a same fiber.

Global diagram of an FTTH connection



(Source: SFR Group, diagram prepared internally)

Wimax (Worldwide Interoperability for Microwave Access)

Société du Haut Débit—SHD ("SHD"), a fully-owned subsidiary of the SFR Group, is the holder of a license in the 3.5 GHz spectrum range in the Ile-de-France and Provence-Alpes-Côte d'Azur regions for the Wimax technologies. These frequencies will be useful over time with technological neutrality (the principle of frequency bands being available to all types of technologies and all types of electronic communication services) of frequencies and services initiated by the European Commission.

Collection networks (Backhaul)

The collection of the fixed traffic, corresponding to the network components located between the access on the customer side and the backbone, is performed by means of optical fiber, leased lines and Wireless Beams. The collection network makes it possible to aggregate and convey the flows between the fixed or mobile access networks and the core network supporting the services. The flows are conveyed in IP through the Ethernet protocol.

SFR's collection network is based on 161 MAN built in the center of cities.

Transmission network and IP transport network

For its optical transmission network, the SFR Group has chosen a mesh architecture, i.e. built as interconnected loops in order to best secure traffic flow.

Historically, the SFR Group has built its optical transmission network based on two national agreements with Réseau Ferré de France ("RFF") and Voies Navigables de France ("VNF"). The SFR Group has extended this large transmission network by also leasing fiber from third parties (Réseau de Transport d'Electricité ("RTE"), motorway networks, metropolitan networks), as well as from Orange, notably for the connection of subscriber access nodes.

In order to respond to traffic growth, the SFR Group implemented the most efficient optical technologies to date, and notably the use of 100 Gbps flow rates on the main arteries.

Map of the transmission network

(Source: SFR Group)

The SFR Group built a multi-service and very-high capacity Internet Protocol ("IP") transport network. It is located above the optical transmission network. The core network routers are in "Nx100G" technology (i.e. supporting links with a 100 Gbps unit capacity).

The SFR Group's network makes it possible to manage internet access service using the addresses in the IPv4 or IPv6 format for B2C, B2B and Wholesale customers. It allows for the transmission of voice, data and video flows (television services on IP multicast or Video On Demand, "VOD").

Service networks: core network and service platforms

The networks supporting the voice or data services schematically consisting of several interconnected service platforms, differing based on the service concerned. For a given service, platforms and network equipment making it possible to interconnect them constitute a core network.

Core network for mobile voice

The mobile voice core network makes it possible to manage the voice traffic and the interconnections towards other operators. Since 2009, voice is supported in 2G and in 3G through the IP protocol on latest generation "R4" network architecture. The platforms supporting the short message ("SMS") and multimedia ("MMS") services are dimensioned to absorb exceptional peaks in traffic such as those reached during the end-of-year festive season. In addition, the SFR Group has implemented virtualized IaaS infrastructure enabling it to launch new and innovative services rapidly.

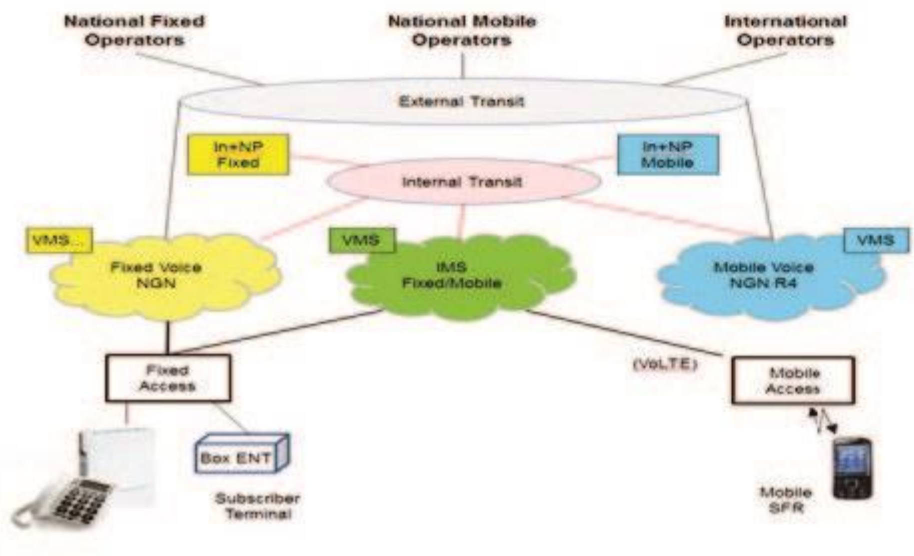
Core network for mobile data

The data transmission core network for mobile is currently being modernized to handle the traffic of all the customers using the 2G, 3G and 4G technologies. It is installed on three distinct sites and has a size and mechanisms ensuring the availability of the service, including in case of significant damage caused on one of the three sites. This data transmission core network manages the Wireless Application Protocol ("WAP") services, MMS, consumer and business internet access, parental supervision service, mobile television and VOD services.

Core network for fixed voice

The SFR Group has an IP voice core network for its fixed service customers, ensured since 2011 by two IMS ("IP Multimedia Subsystem") technology platforms in order to respond to the traffic growth. This IMS platform is notably used to date for consumer but also business telephony services, and to manage call continuity between fixed and mobile terminals.

The mobile voice network described above under "—*Core Network for Mobile Voice*" is currently evolving to be completed with an IMS core making it possible to transport voice directly on the 4G network (transported to date on the 2G and 3G networks). This IMS platform will notably contribute to improving voice quality significantly and will reduce fivefold the time of call set-up. Thus, in the medium term, the IMS technology will allow for a convergence of voice network infrastructures for fixed and mobile services as illustrated in the diagram below.



(Source: SFR Group, diagram prepared internally)

The SFR Group also initiated a modernization plan in IP based technology of its voice interconnections with other operators.

Content distribution service in fixed telephony

In addition to the various high capacity equipment existing in the network to process data flows, the SFR Group implemented a Content Delivery Network ("CDN") based on twelve regional sites making it possible to reduce the data traffic on its national transmission network. This CDN hosts in particular the Video On Demand services, the website sfr.fr, and is also open for third-party services.

Seasonality

A major failure in the information systems or any part of the production and logistics chain during the year-end period could have a significant adverse effect on revenues due to the concentration of sales during this period. Accordingly, SFR avoids working on its network and information systems during the period starting from mid-November to year-end.

Suppliers

SFR has implemented a multi-sourcing procurement policy for some technologies and continually monitors the role of suppliers in the chain.

The breakdown of its principal suppliers by category is as follows:

- eight main suppliers for mobile handsets;
- five main suppliers for telecommunications equipment;
- ten main suppliers for the deployment and maintenance of this equipment;
- fourteen main suppliers for information technology systems; and

- ten main suppliers for call centers.

With respect to mobile handsets, SFR works with the major brands on the market, as well as with original design manufacturers ("ODMs") for which SFR uses its own brand. It is very important for SFR to have access to all leading brands on the market for its supply needs. In addition, SFR may, for certain specific products or services, be dependent on certain suppliers. For example, SFR considers that it is commercially dependent on one handset supplier.

With respect to telecommunications equipment, SFR has a dual sourcing policy with leading companies in these sectors for the main SFR network equipment, and especially for radio equipment. As a result, SFR believes that there is no critical dependence on a single supplier. With regard to the core network, SFR has a single-source policy for certain types of equipment for reasons of simplicity and cost. The companies concerned are leaders in their respective sectors.

With respect to information technology systems equipment, SFR uses either well-known solutions on the market (Oracle and SAP) or more tailored solutions with specific contractual provisions to protect access to the source code. SFR believes that there is no critical dependence in this regard.

Furthermore, SFR's partnership with Vodafone covers procurement, particular with respect to mobile handsets.

SFR has developed and maintains relations with different suppliers that contribute to innovation, quality of service and operational excellence. The procurement process consists of five stages, covering the entire life cycle of the relationship between SFR and its suppliers.

Supplier selection is one of the most important stages for the deployment and maintenance of the network, as well as for SFR's offerings (handsets, etc.). Selection is based on objective criteria including the quality of products and services, delivery times and conditions, and total cost of ownership.

This assessment also takes into account supplier commitments concerning:

- compliance with applicable laws and regulations;
- maintenance of confidentiality and fairness; and
- the existence and application of Social and Environmental Responsibility policy suitable to the nature of the products and services provided.

These criteria are expressly mentioned in the contracts governing SFR's relations with its suppliers.

SFR aims to have a lasting and balanced relationship with its main suppliers. This effort involves monitoring performance, sharing and monitoring objectives, as well as exchanging information on market and technological trends.

For many years, SFR has implemented a procurement policy that takes into account the principles of social and environmental responsibility in its relations with its suppliers in order to better control risks.

The main principles are the following:

- To give preference to suppliers who meet these challenges;
- To take these criteria into account in supplier evaluations; and
- To promote and ensure compliance with SFR's code of commitment and ethics.

For the past two years, all new purchasing contracts have included clauses requiring compliance with laws and regulations on social responsibility. SFR engages a specialized company to evaluate its main suppliers regularly. This evaluation is performed on a documentary basis and is carried out in collaboration with the French Telecommunications Federation. As of the date of these Listing Particulars, 172 suppliers had been evaluated.

The use of companies in the protected worker sector (recycling of equipment, telephone contacts etc.) is part of SFR's procurement policy. Compliance with the policy is subject to regular monitoring. In 2013, SFR had more than €3 million in business with companies in the protected worker sector.

SFR regularly provides training to its buyers. An integration and training course on responsible purchasing is followed by each new person arriving at a buyer position.

Employees of SFR

Number and Breakdown of Employees of SFR

As of September 30, 2014, SFR's UES (defined below) employed a total of 9,366 people, compared to 9,396 people as of December 31, 2013, and 9,955 people as of December 31, 2012. The change between 2012 and 2013 was mainly due to SFR's reorganization project aimed at adapting itself from a telecommunications operator to a digital operator, which resulted in the implementation of a "Professional Mobility Plan" between April 11, 2013, and August 31, 2013, and the departure of 855 people as part of a voluntary redundancy plan. EFIXO was included in the SFR UES on January 6, 2014. It includes 38 employees as of September 30, 2014. At constant scope in 2012 and 2013, the UES SFR (excluding EFIXO) employed 9,328 employees as of September 30, 2014.

For 2013, payroll (excluding social charges) totalled €592 million, compared to approximately €510 million for 2012, representing an increase of 16%.

The following table presents the breakdown of SFR's "UES" (as defined below) employees that are on indefinite contracts, as well as those on defined term contracts and substitute contracts as of December 31, 2012 and 2013 and September 30, 2014:

Type of activity	As of December 31, 2012	As of December 31, 2013	As of September 30, 2014
Wholesale CE(1)	7,581	7,131	7,129
Customer Service CE(1)	1,948	1,844	1,824
Reunion Island CE(1)	426	421	413
TOTAL	**9,955**	**9,396**	**9,366**

(1) Includes SFR and SFR Collectivités.

Labor Relations

An economic and social unit ("UES"), which covers SFR SA, SFR Collectivités, SFR Service Client , SRR and LTB-R has been created. It has:

- A central work committee;
- Three establishment committees;
- 20 health, safety and work conditions committees; and
- employee representatives in each entity.

The SIG 50 entities, which operate in distribution (5 sur 5 SA and SFD, Future Telecom), are, due to their shareholding structure (SFR holds less than 50% of the share capital), outside of the SFR UES scope and have their own employee representatives which negotiate their own collective agreements. SFD and 5 sur 5 are not part of the SFR group or the SIG 50 group. These two entities are simply consolidated pursuant to put and call options that exist between the majority shareholders of SFR and SIG 50.

In November 2012, SFR concluded an agreement on social dialogue which provides for the main principles for social dialogue in the company.

Within the SFR UES, union representation is made up of the following four unions that were recognized during the most recent professional elections (the next elections are scheduled for October 2015):

1. UNSA
2. CFE-CGC
3. CFDT
4. CGT

The SUD union is only represented in customer service.

In 2014, negotiations with the representative unions gave rise to the signing of 21 collective agreements by most of the organizations.

In addition, on November 28, 2012, SFR announced its reorganization project to adapt itself from being a telecommunications operator to a digital operator. In the context of this project, the labor representatives gave an opinion on the reorganization project and on an agreement providing for measures to accompany employees. All of these measures were included in a "Professional Mobility Plan" ("PMP") from April 11, 2013, to August 31, 2013, which defined the functioning and guarantees of an internal mobility plan and a voluntary redundancy plan, so that each voluntary employee could find a solution adapted to his or her professional plans.

Implementation of the "Professional Mobility Plan" resulted in 1,500 employees changing positions internally. Some 855 positions were eliminated and 158 jobs were created, with a net loss of 697 positions.

In connection with the 2014 SFR Acquisition, in a letter sent to Vivendi and SFR dated March 25, 2014, Altice and Numericable Group unilaterally undertook not to call into question the collective status of SFR and not to proceed with economic redundancies as part of a collective redundancy plan for three years from the end of the exclusivity period between Vivendi's supervisory board and Altice and Numericable (i.e. until April 4, 2017), except in the case of an unforeseen change in economic conditions. These undertakings were restated in connection with the establishment of the collective agreement related to employment, which was signed by all of SFR's union organizations and extends these guarantees until June 20, 2017.

Share ownership and subscription options of members of the Board of Directors, Management and Certain Employees of SFR

No employees hold shares in SFR's share capital (other than one who holds 10 shares). No members of the Board of Directors hold shares in SFR's share capital. None of the companies that are a part of the SFR Group have put in place any SFR share subscription options or free share grants.

Mandatory Employee Profit-Sharing (accord de participation)

A mandatory profit-sharing agreement was signed on December 17, 1999 for an indeterminate period. Amendments to this agreement were signed on June 30, 2005, June 30, 2006 and March 19, 2010.

A framework agreement providing for a supplemental €100 (gross) per beneficiary with respect to profit-sharing for 2013 was signed on June 21, 2014. This supplemental profit-sharing amount was distributed on July 30, 2014.

Optional profit-sharing agreements (accords d'intéressement)

Article L. 3312-1 of the French Labor Code provides for optional profit- sharing (intéressement), whose purpose is to give employees collectively a share in the business' success, and specifically in its performance and results, by using a formula to calculate immediately available bonuses. An optional profit-sharing agreement was entered into by the SFR UES on June 27, 2013, for 2013, 2014 and 2015.

This agreement includes profit-sharing criteria, with for each criteria, a minimum level and target, at the level of the UES but also at the level of each establishment (Wholesale, Customer Service and Reunion Island). For 2014 and 2015, the minimum levels and targets will be fixed by an amendment before June 30 of the relevant year. An amendment updating the levels and targets for 2014 was signed on June 21, 2014.

A framework agreement providing for a supplemental €2,000 (gross) per beneficiary with respect to profit-sharing for 2013 was signed on June 21, 2014, within the SFR UES. This supplemental profit-sharing amount was distributed on July 30, 2014.

Company savings plans and similar plans

Pursuant to Article L. 3332-3 of the French Labor Code, companies with mandatory and optional profit-sharing plans may maintain company savings plans. A group or company savings plan is a collective savings system offering employees of the companies belonging to the plan the ability, with the help of their employers, to build investment portfolios. In particular, amounts can be deposited on their behalf under a profit-sharing agreement, and employees can make voluntary contributions. Amounts invested in a company savings plan cannot be withdrawn for five years, except in the early-withdrawal cases provided for by law.

Following the acquisition of SFR SA by Numericable Group, the employees of the companies in the SFR UES will no longer benefit from the company savings plan put in place at Vivendi, but will keep their existing holdings. However, Numericable Group has a group savings plan that can be opened to new entities of the Combined Group.

In addition, the employees of the SFR UES benefit from a retirement savings plan put in place at the level of the SFR UES by an agreement dated February 25, 2008, and amended on July 13, 2011. This plan, the establishment of which is optional, gives employees the possibility to contribute to retirement savings with the help of the company. This plan can also receive contributions related to mandatory and optional profit-sharing, as well as voluntary contributions. The savings is invested in "open-ended company investment funds" (*fonds communs de placement d'entreprise*, "FCPE").

Material Contracts

The material contracts to which SFR is a party are set out below.

Partnership agreement between SFR and Vodafone Sales and Services Limited

On April 1, 2014, SFR signed an exclusive partnership agreement with the Vodafone Sales and Services Limited ("Vodafone"), which replaced the prior agreement signed in 2011.

This agreement has a term of four years, renewal for one year. It gives SFR access, in exchange for an annual fee to Vodafone, to certain brands, products, services, including of third parties, in France, in order to permit SFR to furnish Vodafone services and products on its own behalf and under its own brand name. Through this partnership, SFR also benefits from the commercial relationship Vodafone has with certain customers and suppliers.

This agreement also includes an international roaming agreement pursuant to which each party directs a part of its international traffic to the network of its partner.

This agreement allows each party to offer its business clients international telephony services.

Finally, this partnership includes a cooperation agreement with respect to the preparation of strategic initiatives in the areas covered by the agreement, notably for the improvement of operational efficiency of both parties, in particular through policies for the development of B2B services (convergent fixed-mobile, MtoM, Cloud and hosting services), cost reduction and differentiation.

Mobile network sharing agreement between Bouygues Telecom and SFR

For a description of this contract, see "—*SFR's Network—General Presentation of SFR's Network—Network Sharing Agreements—Mobile Network Sharing Agreement*".

Agreement for the deployment of fiber between SFR and Orange

On November 14, 2011, SFR concluded a co-investment agreement with Orange relating to the deployment of fiber for the coverage of less densely populated areas (ZMD) of mainland France, which represent 10 million homes. Pursuant to this agreement, SFR will deploy FTTH in 2.4 million homes and Orange in 7.6 million homes before 2020.

In order to avoid overlap, the agreement designates the operator that is in charge of deployment for each area in order to ensure the best timetable and coverage.

Each party will become a client of the other party by subscribing to IRUs in zones in which it does not deploy fiber. Other operators will have access to this infrastructure via the relevant agreements of the Wholesale market.

The undertaking of each party is to cover each locality within five years from the start of deployments. SFR has announced that it will be starting all horizontal deployments on the less densely populated areas (ZMD) that it is to cover before the end of 2015 and that it has undertaken to complete such deployments in the following five years at the latest.

Contract related to the GSM-R mobile communications network

SFR has a shareholding of 30% (alongside Vinci (Vinci Energies and Vinci Concessions) and AXA (AXA Infrastructure Investissement SAS, AXA, UK Infrastructure Investissement SAS, AZA Infrastructure Partners FCPR), which each hold a 30% stakes) and TDF (which has a 10% stake) in the Synérail company, which has concluded a partnership agreement with RFF for the design, construction, deployment, operation, maintenance and financing of the GSM-R mobile communications network. This agreement, which has a fifteen-year term from March 24, 2010 and a total amount of

€1 billion, for the design, construction, deployment, operation, maintenance and financing of the GSM-R mobile communications network that will permit voice and data communications between trains and regulation teams on the ground in conference mode. It will enable the setting up of a European network with a unique communication system which is compatible and standardized across the rail networks, and replacing the existing national radio systems.

This network will be progressively deployed over 14,000 kilometers of traditional and high-speed rails in France.

SFR also plays a part as services provider in the construction and exploitation phase of the GSM-R network through Synérail Construction and Synérail Exploitation held jointly with Vinci Energies. In the event of a change of control of SFR, Vinci Energies has a purchase option with respect to these two companies. By a letter dated November 2014, Vinci Energies waived this purchase option.

Mobile device supply contract

SFR has entered into various agreements for the supply of mobile devices and accessories. SFR also considers itself commercially dependent on one provider, whose well-known products are not substitutable in the eyes of customers.

MVNO Contracts

SFR has entered into several contracts for the provision of end-to-end mobile services to virtual network operators (MVNOs) whose activity depends on access to the network of one or more network operators. As of the date of these Listing Particulars, SFR has entered into contracts with 16 MVNOs, of which the most important are La Poste Telecom (of which 49% is owned by SFR and 51% by La Poste), Omer Telecom (Virgin Mobile) (owned by Numericable-SFR) and EI Telecom (NRJ Mobile) (see "*Risk Factors—Risks related to SFR's Business and Operations—SFR is dependent on its contracts with MVNOs*").

Agreement for the occupation of public domains with Réseau Ferré de France

SFR has entered into agreements for the occupation of public domains with Réseau Ferré de France pursuant to which SFR occupies the infrastructures that have enabled the establishment of its network. See "*—SFR's Network*".

Property, Plant and Equipment

SFR's real estate is based on four types of real estate assets:

- "office" sites made up of customer service centers or offices;
- "mixed" sites made up of both offices and technical sites;
- technical sites and premises for the hosting of telecommunications equipment and IT servers; and
- commercial premises and sites of brick-and-mortar stores.

SFR's real estate strategy is based on securing its location for the long-term, in particular through the acquisition of occupied assets. As of September 30, 2014, SFR held office, mixed and technical sites for a total book value of €4,413 million.

Office Sites

As of the date of these Listing Particulars, SFR directly or indirectly owned or leased office sites in mainland France, mainly in large cities outside of the Paris area (Saint Herblain, Toulouse, Rennes, Lyon Saint Priest, Lyon Bron, Metz Territoire de Borny, Aix le Sulky, Bordeaux lac, Marseille, Vénissieux, Vélizy). These sites are office buildings, in certain cases located next to technical sites (which are then "mixed" sites), with sizes ranging from 2,500 to 11,000 square meters, representing a total of approximately 70,000 square meters (excluding the technical part of the Venissieux site).

SFR also rents other office sites, which represent a total surface area of approximately 214,000 square meters, through commercial leases at usual market conditions. These sites include:

(1) the corporate headquarters "Campus SFR" in Saint-Denis, divided into two tranches representing a total useful surface area of 125,701 square meters. The site was owned by four companies held at the 50% level by the SFR Group and Vinci Immobilier. The two tranches were sold on April 4, 2014, to SCI Campus Medicis St Denis for

a total amount of €372 million, excluding taxes, for tranche 1 and in a sale before completion to SCI Campus Rimbaud St Denis for a total amount of €308 million, excluding taxes, for tranche 2. The site is rented to SFR under four leases:

(i) two leases for a firm term of 11 years and 9 months, which took effect on December 4, 2013, for the first tranche, corresponding to 61,474 square meters,

(ii) two leases before completion, for a firm term of 11 years and 9 months, to take effect in November 2015 for the second tranche, corresponding to 51,394 square meters, and intended for the transfer of the teams currently located at rented office sites in Meudon and Nanterre;

(2) mixed sites in Courbevoie, Strasbourg (approximately 55,145 square meters) and office sites in Massy, Gentilly, Lille République, Efixo Marseille, Grenoble (approximately 18,149 square meters), representing a total surface area of approximately 73,294 square meters.

Technical Sites

Technical sites can be put in three categories:

(1) Buildings for branch exchanges/mobile services switching centers ("MSC");

(2) Radio sites: emission/reception sites that hold emission and reception antennae;

(3) Optical fiber diffusion sites.

The SFR Group owns approximately 50 MSC sites, the principal sites of which are located in Trappes, Valenton, Mitry Mory, Toulouse, Lyon Bron, Saint Herblain and Corbas.

The radio sites represent approximately 20,000 sites of different types (existing buildings, empty land, water towers, pylons), approximately 2,000 of which are rented from large groups in accordance with leases concluded in accordance with framework agreements. The main framework agreements have been agreed with the TDF Group, Accord and SNCF.

The fiber optic diffusion sites mainly include the small NRO sites, which the SFR Group prefers to acquire.

Commercial sites and premises

The SFR Group has signed approximately 800 commercial leases for its smaller brick-and-mortar stores throughout France.

Legal Proceedings

In the normal course of its business, SFR is subject to various lawsuits, arbitrations, governmental, administrative or other proceedings.

The costs which may result from these proceedings are only recognized as provisions when they are likely to be incurred, and when the obligation can be reasonably quantified or estimated, in which case the amount of the provision represents SFR's best estimate of the risk, provided that SFR may, at any time, reassess such risk if events occur during such proceedings.

To SFR's knowledge, there is no lawsuit, arbitration and governmental or other proceedings, or exceptional event (including any proceedings of which the issuer is aware which are pending or threatened) which may have or which have had a significant impact on its and on its group's financial position, profit, business and property during the previous twelve months, other than those described below.

Bouygues Telecom's Complaint against SFR and Orange in connection with the wholesale mobile call termination and retail mobile telephony markets

Claim Before the French Competition Council

Bouygues Telecom brought a claim before the French Competition Council against SFR and Orange for certain alleged unfair trading practices on the call termination and mobile markets ("price scissoring"). On May 15, 2009, the French Competition Authority resolved to postpone its decision on the issue and remanded the case for further investigation. On

December 13, 2010, SFR was heard on these allegations by the instructing magistrate. On August 18, 2011, SFR received a notification of grievances in which the Competition Authority noted the existence of abusive price discrimination practices. On December 13, 2012, the Competition Authority fined SFR €66 million. SFR appealed against this decision. The case was argued before the Paris Court of Appeal on February 20, 2014. The Paris Court of Appeal gave its deliberation on June 19, 2014, under the terms of which it demanded *Amicus Curiae* at the European Commission on the economic and legal matters raised in this case, and postponed its decision on the merits of the case pending the opinion of the Commission. It furthermore dismissed SFR's procedural arguments. On July 10, 2014, SFR filed an appeal before the Cour de Cassation (French Supreme Court) regarding the procedural claims. The matter is still pending.

Third-Party Damages Litigation

Following the decision of the Competition Authority of December 13, 2012, Bouygues Telecom, OMEA and El Telecom (NRJ Mobile) brought a claim before the Paris Commercial Court against SFR for damages suffered. They are seeking damages of €623.6 million, €67.9 million and €28.6 million, respectively. In compliance with the settlement agreed between SFR and Bouygues Telecom in June 2014, the hearing to close the mediation process was held on September 5, 2014. Notification of the decision ended the litigation between the two companies.

With regards to OMEA and EI Telecom's claims, SFR asked the court to stay the damages proceedings pending a final decision or at least the decision of the Paris Court of Appeal. On October 14th, 2014, the Court decided to stay the proceeding until the Paris Court of Appeal rendered its decision. The matter is still pending

Complaint against Orange before the French Competition Authority (NRA ZO)

On December 9, 2009, SFR and SFR Collectivités brought a claim before the French Competition Authority against Orange for unfair practices. Following the filing of this claim, SFR brought a claim for damages before the Paris Commercial Court (NRA ZO) against Orange. Both matters are still pending.

Complaint against Orange before the Paris Commercial Court (call termination—call origination)

On February 22, 2010, SFR brought a claim against Orange seeking the rescindment of the Orange call origination charge during the period from 2006- to 2007 and its replacement by a charge that is 2% lower for 2006 and 15% lower for 2007.

On June 25, 2013, all of SFR's claims were dismissed. On July 25, 2013, SFR filed an appeal against the judgment of the Commercial Court. The matter is still pending.

Complaint by Orange Réunion, Orange Mayotte, and Outremer Télécom against Société Réunionnaise du Radiotéléphone (SRR)

Orange Réunion, Orange Mayotte and Outremer Télécom notified the French Competition Authority (the "Authority") of alleged unfair price differentiation practices by SRR in the consumer and business markets. On September 16, 2009, the Competition Authority delivered interim measures against SRR, pending its decision on the merits.

SRR had to end a price difference exceeding that of the costs borne by SRR according to the on-net/off-net network. As the Competition Authority found that SRR had not fully respected the order it had delivered on January 24, 2012, it imposed a fine of €2 million. With regard to the procedure on the merits, on July 31, 2013, SRR signed a statement of non- contestation of grievances and a letter of commitments. Consequently, the general reporting judge proposed a reduction in the fine incurred by SRR to the board of the Authority.

Following the Authority's decision of September 16, 2009, Outremer Telecom brought action for damages against SRR on June 17, 2013, before the Commercial Court of Paris for the loss it alleges it suffered owing to SRR's practices. On November 13, 2013, the Court postponed its decision until the decision on the merits by the Authority.

On June 13, 2014, the Authority handed down its decision on the consumer portion of the complaint, fining SFR and its subsidiary SRR €45.9 million. The business portion is still under investigation by the Authority.

On October 8, 2014, Orange brought an action for damages against SRR and SFR before the Commercial Court for the loss it alleges it suffered oweing to the practices of SRR. Orange is seeking damages of €135.2 million.

Complaint against Orange before the French Competition Authority regarding the mobile telephony services to professionals market

On August 9, 2010, SFR filed a complaint before the French Competition Authority against Orange for anti-competitive practices on the professional mobile market. The matter is still pending.

Complaint of Orange Against SFR ("Overflow" Case)

In a complaint filed on August 10, 2011, Orange asked the Paris Commercial Court to compel SFR to immediately stop its practices of unfair "overflow" of interconnection to their respective networks.

On December 10, 2013, SFR was ordered to pay €22.1 million to Orange. On January 10, 2014, SFR appealed against this decision. The case was argued before the Paris Court of Appeal on November 22, 2014. The matter is still pending.

Complaint against Orange (Abuse of Dominant Position on the Retail Mobile Telephony Secondary Home Market)

On April 24, 2012, SFR filed a complaint before the Commercial Court of Paris against Orange for practices constituting an alleged abuse of its dominant position in the secondary residence market. On February 12, 2014, the Commercial Court of Paris ordered Orange to pay €51 million in damages.

Orange appealed against this judgment. On April 2, 2014, Orange also asked for suspension of the provisional execution of the decision of the Commercial Court. On July 4, 2014, this request was rejected. The Paris Court of Appeal cancelled the Commercial Court's decision on October 8, 2014. On November 19, 2014, SFR decided to bring the case to the French Supreme Court.

Litigation with Free

On May 21, 2012, Free filed a complaint against SFR before the Paris Commercial Court. Free is challenging the subsidy model associated with SFR's *Carrées* offerings sold over the Internet from June 2011 to December 2012, claiming that it constitutes a consumer credit mechanism and that, as such, SFR is guilty of unfair practices that do not comply with the relevant rules applicable to consumer loans, including providing certain prior information to customers. Free has asked, among other things, that the Paris Commercial Court compel SFR to provide its customers with the required information and to award damages of €29 million. On January 15, 2013, the Paris Commercial Court dismissed all of Free's claims and awarded SFR the sum of €0.3 million in damages. On January 31, 2013, Free appealed this decision. The matter is still pending.

Litigation with the UFC

On June 7, 2012, the French Federal Union of Consumers (UFC) filed a complaint before the Paris Court of First Instance (Tribunal de Grande Instance) against SFR alleging that the general conditions of use of SFR's La Carte offering contain unfair clauses. The UFC is seeking the removal of these clauses and damages. The matter is still pending.

Complaint against Orange (Unbundled Zones Case)

On November 26, 2012, SFR notified the French Competition Authority of practices constituting an abuse of dominant position on the retail high- speed internet access market in non-unbundled areas by Orange. The complaints are still pending.

Complaint against Iliad, Free and Free Mobile

In June 2014, SFR filed a suit against Iliad, Free and Free Mobile before the Paris Commercial Court for acts of unfair competition, claiming defamation of SFR's services by Iliad, Free and Free Mobile, at the time of and following the launch of Free Mobile. The matter is still pending.

Claim of Orange Against SFR and Bouygues Telecom

On April 29, 2014, Orange filed a claim before the French Competition Authority with respect to the network sharing agreement between Bouygues Telecom and SFR, signed on January 31, 2014. Orange considered this agreement constituted a collusive practice, through concerted action and horizontal agreement, between rival companies. Orange demanded the immediate suspension of its implementation as an interim measure. The Competition Authority rejected

Orange's demand on September 25, 2014. Orange filed an appeal before the Paris court of Appeal against this decision which has subsequently been dismissed.

Litigation with the CLCV

On January 7, 2013, the French consumer protection association, CLCV (Consumption, Housing and Quality of Life) filed a complaint before the Commercial Court of Paris against SFR.

The CLCV considers certain clauses contained in the general conditions of subscription of SFR (as well as those of other telephone operators) to be unfair. It is also seeking compensation for the collective loss. The matter is still pending.

Employee litigation arising from the transfer of customer relations centers in Toulouse, Lyon, and Poitiers

Following the transfer of the customer relations centers located in Toulouse and Lyon to the company Infomobile, and of the center in Poitiers to a subsidiary of the Bertelsmann Group, former employees of these sites filed complaints with the industrial tribunals (*conseils des prud'hommes*) of each of these cities, claiming unfair execution of their employment contracts and fraudulent breach of Article L.1224-1 of the French Labor Code and of the legal provisions relating to dismissal on economic grounds. The findings of the courts on this issue in 2013 were not consistent: the Toulouse Court of Appeal sanctioned the SFR and Téléperformance groups in half the cases, while the courts of Lyon and Poitiers rendered judgments which were favorable to SFR. The cases are at different stages of the appeals process (industrial tribunal, Court of Appeal and Supreme Court). On June 18, 2014, the Court of Cassation confirmed the decision of the Court of Appeal of Toulouse.

Disputes with independent distributors (B2C and SFR Business Team)

SFR, like other companies that use an indirect distribution model, faces complaints by its distributors, and, almost systematically, by its former distributors. These recurring disputes revolve around the abrupt termination of the contractual relationship, the abuse of economic dependency and/or requests for reclassification of a distributor as a commercial agent and, more recently, applications for reclassification of a manager as a branch manager and reclassification of the employment contracts of the employees working at these points-of-sale as employment contracts with SFR. Following several adverse rulings of the Supreme Court in relation to the status of branch managers, various Courts of Appeal have recently issued a number of decisions favorable to SFR. With regard to the reclassification of employment and sales contracts in these disputes, apart from a few exceptions, SFR has benefited from decisions in its favour.

REGULATORY

General

Our business is subject to various regulatory requirements and obligations including communications and broadcasting laws, general antitrust law, environmental, health and safety laws, planning and construction laws, consumer protection laws as well as technical and other regulations in each of the jurisdictions in which we operate. Such laws and regulations are promulgated and enforced to varying degrees by supranational regulators such as the EC and national, state, regional and local authorities. The ever-changing regulatory environment can have a material effect on our activities. Certain key provisions of the regulations governing our activities in France and the French Overseas Territories, Israel, Portugal, Belgium, Luxembourg and the Dominican Republic as at the date of these Listing Particulars are set forth below. This description is not intended to be an exhaustive description of all regulation in this area nor a review of specific obligations which have been imposed on us.

France and the French Overseas Territories

Our business activities in both France and the French Overseas Territories are subject to the laws and regulations of France and the European Union governing the telecommunications sector and the information society.

The European Regulatory Framework for Electronic Communications

The majority of the regulatory provisions applicable in France to the telecommunications sector are set forth in the French Code for Postal and Electronic Communications (*Code des Postes et des Communications Electroniques* (the "CPCE")). The provisions of the CPCE are primarily based on the following five directives contained in the "2002 Telecoms Package" of the European Union, which apply to the seven relevant markets defined by European Commission's recommendation 2007/879/CE dated December 19, 2007:

- Directive 2002/21/EC dated March 7, 2002, regarding a common regulatory framework for electronic communications networks and services (the "Framework Directive");
- Directive 2002/19/EC dated March 7, 2002, concerning access to, and the interconnection of, electronic communications networks and associated facilities (the "Access Directive");
- Directive 2002/22/EC dated March 7, 2002, on universal services and users' rights relating to electronic communications networks and services (the "Universal Service Directive");
- Directive 2002/20/EC dated March 7, 2002, relating to the authorization of electronic communications networks and services (the "Authorization Directive"); and
- Directive 2002/58/EC dated July 12, 2002, concerning the processing of personal data and the protection of privacy in the electronic communications sector (the "Privacy and Electronic Directive").

In addition to the 2002 Telecoms Package, the following texts also apply to the telecommunications sector:

- Directive 2002/77/EC dated September 16, 2002, relating to competition in the markets for electronic communications networks and services (the "Competition Directive");
- Regulation (EC) 2887/2000 dated December 18, 2000, on unbundled access to the local loop, which provides that all operators with significant market power must offer unbundled access to their local loop and associated facilities, under transparent, fair and non discriminatory conditions; and
- Regulation (EU) 531/2012 dated June 13, 2012, on roaming on public mobile communications networks within the European Union (the "Roaming Regulation III"), which provides that all wholesale and retail (voice and SMS) roaming charges levied by mobile operators are subject to price caps. For network operators, the regulation also imposes an obligation to grant reasonable requests for wholesale access to roaming services and the opportunity for retail customers to choose an alternative roaming operator, separate from their national operator starting on July 1, 2014. The table below sets out the maximum roaming charges that may be applied by mobile operators:

	From July 1, 2012, to June 30, 2013	From July 1, 2013, to June 30, 2014	From July 1, 2014, to June 30, 2017
Retail prices			
Outgoing calls *(per minute)*	€0.29	€0.24	€0.19
Incoming calls *(per minute)*	€0.08	€0.07	€0.05
SMS *(per message)*	€0.09	€0.08	€0.06
Data *(per Mb of data transferred)*	€0.70	€0.45	€0.20
Wholesale prices			
Calls *(per minute)*	€0.14	€0.10	€0.05
SMS *(per message)*	€0.03	€0.02	€0.02(1)
Data *(per Mb of data transferred)*	€0.25	€0.15	€0.05(1)

(1) Remains applicable until June 30, 2022.

In 2009, the European Parliament and Council adopted a new regulation and two directives that slightly amended the 2002 Telecoms Package, without significantly changing the overall regulatory framework (the “2009 Directives”). These regulations, which round out the regulatory framework and provide additional powers to national regulatory authorities (“NRAs”) and the European Commission are as follows:

- Regulation (EC) 1211/2009 dated November 25, 2009, establishing the Body of European Regulators for Electronic Communications (the “BEREC”) and the Office, a community body which provides administrative and professional support services to the BEREC. Rather than operating as a European regulatory agency, the BEREC’s role is to act as a forum for cooperation between NRAs and the Commission. Its responsibilities include developing and relaying guidelines and regulatory best practices to NRAs as well as issuing reports and opinions to the European Commission, Parliament and Council. For example, on May 29, 2012, BEREC published a report on the neutrality of the internet and the management of internet traffic in Europe.

- Directive 2009/140/EC dated November 25, 2009, amending the Framework, Access and Authorization Directives. This new directive (i) introduces a last resort remedy of functional separation to overcome competition problems, (ii) gives the European Commission new powers to issue recommendations on draft measures proposed by NRAs, (iii) facilitates access to the radio spectrum by allowing spectrum users to transfer or lease their usage rights to third parties, and (iv) states that NRAs should have the power to ensure the effective use of the spectrum and to take action to prevent anticompetitive barriers by certain operators; and

- Directive 2009/136/EC dated November 25, 2009, amending the Universal Services and the Privacy and Electronic directives and Regulation 2006/2004/EC on cooperation between national authorities responsible for the enforcement of consumer protection laws, in order to (i) strengthen the rights of users of electronic communications services, (ii) extend the universal service to broadband, and (iii) ensure the quality of services offered as well as market transparency and fluidity.

These two directives were transposed into the CPCE by ordinance 2011 1012 dated August 24, 2011, decree 2012 436 dated March 30, 2012 and decree 2012 488 dated April 13, 2012. The French national regulatory framework was slightly amended by two other decrees in 2012:

- Decree 2012 513 dated April 18, 2012, concerning the reporting of information to the public authorities on infrastructure and networks set up in their areas. This decree sets down a procedural framework and lists the type of information that operators are required to provide to local government agencies; and

- Decree 2012 1266 dated November 15, 2012, relating to safety and integrity controls for the equipment, networks and services of electronic communications operators. This decree provides that the French government may carry out audits and controls on the safety and security of operators’ networks.

The European Commission regularly publishes recommendations aimed at the electronic communications sector, including Recommendation of September 11, 2013, on consistent non discrimination obligations and costing methodologies to promote competition and enhance the broadband investment environment. This recommendation provides that access prices should be calculated using a bottom up modeling approach based on a model that includes existing infrastructure (mainly ducts) as well as ones that will have to be constructed from scratch when building a next generation access network. The recommendation states that the European Commission expects the average monthly rental access price of the full unbundled copper local loop in the European Union which will result from the application of the recommended methodology to fall within a range of prices between €8 and €10 (consequently the €8.90 price currently applicable in France already falls into this range). The recommendation also establishes the cost accounting methodology to be used for the asymmetric regulation of fiber but does not set out the methodology for the symmetric regulation of fiber (see below for details on the symmetric model in force in France).

On June 17, 2013, the European Commission and its Vice President held a public information meeting to relaunch the implementation of the "single telecoms market" within the European Union, the key features of which would be the following: (i) creating a passport procedure within the European Union and a unique authorization for the provision of services within the European Union; (ii) granting operators harmonized access to the inputs necessary for the provision of services, coordinating spectrum assignment for mobile and wireless services, and offering harmonized "access products" to operators; and (iii) enabling consumers within the European Union to freely enjoy telecom services across Europe by ensuring open and non discriminatory access to internet services, transparency, ability to easily switch providers and eliminating differences in roaming charges applied to national and international calls/SMS.

On September 11, 2013, the European Commission published a proposal for a Regulation of the European Parliament and of the Council laying down the measures concerning the European single market for electronic communications and to achieve a Connected Continent, and amending Directives 2002/20/EC, 2002/21/EC and 2002/22/EC and Regulations (EC) 1211/2009 and (EU) 531/2012. On October 17, 2013, the BEREC published its views on this proposal. The proposed Regulation was discussed within the European Council on October 24 and 25, 2013, which expressed its concern on some points, particularly on legal uncertainty as regards roaming. The text as modified by the European Parliament includes the outright end of international roaming in Member States by the end of 2015 and was adopted on first reading on April 3, 2014.

French Regulatory Framework Applicable to Electronic Communications

Responsibility for the control and effective implementation of the European regulatory framework lies with NRAs.

Authority of the ARCEP

In France, the NRA for electronic communications is the *Autorité de Régulation des Communications Electroniques et des Postes* ("ARCEP"), created in January 1997. The ARCEP, an independent administrative authority, ensures that operators comply with the laws and regulations set forth in the CPCE and, where applicable, that they respect the conditions of any individual authorizations granted.

Authorisations for frequency use

The Altice France Group must declare its activities and register with the ARCEP. In addition, pursuant to individual authorizations granted to SFR as a declared mobile telephony operator, SFR has been allocated frequencies in various bands used for mobile services:

- Authorisation to establish and operate a second generation (GSM) mobile radio electric network open to the public in the 900 MHz and 1,800 MHz bands (ARCEP Decision no. 06 0140 of 31 January 2006);

- Authorisation to establish and operate a third generation (UMTS) mobile radio electric network open to the public in the 2.1 GHz band (see Decree of July 18, 2001 (NOR: ECOI0120177A), as amended by the decree of December 3, 2002 (NOR; INDI0220264A) for the 1,900 1,980 MHz and 2,110 2,170 MHz sub bands and ARCEP Decision no. 10 0633 of June 8, 2010, for the 1,959.9 1,964.9 MHz and 2,149.9 2,154.9 MHz channels);

- Authorisation to reuse the 900 MHz band for the purposes of establishing and operating a third generation mobile radio electric network open to the public (ARCEP Decision no. 2008 0228 of February 26, 2008, amending ARCEP Decision no. 06 0140 mentioned above);

- Authorisation to establish and operate a fourth generation ("4G" or "LTE") mobile radio electric network in the 800 MHz band (ARCEP Decision no. 2012 0039 of January 17, 2012) and 2.6 GHz band (ARCEP Decision no. 2011 1171 of October 11, 2011).

Article 59 III of Regulation no. 2011 1012 of August 14, 2011, relating to the introduction of technological neutrality in the 1800 MHz band, instituted a lifting, under certain conditions, of the technological restrictions in frequency bands effective from May 25, 2015. Pursuant to Article 59 II of this same regulation, mobile telephony operators nevertheless have the chance to request that the frequency usage restrictions appearing in their authorisations be re examined in advance (i.e. before May 24, 2016).

In France, the frequency usage authorisations in force in the 1,800 MHz band restrict frequency use to GSM technology and do not allow the implementation of LTE.

In this context, on March 12, 2013, the ARCEP published a guidance document for "the introduction of technological neutrality in the 1,800 MHz band" pursuant to which the following targets were set for the May 24, 2016, deadline:

- Lifting of the restriction to GSM technology in the 1,800 MHz band;
- Distribution, for purposes of meeting the requirement of equality between operators, of the 1,800 MHz band into four frequency usage authorisations, held by Orange, SFR, Bouygues Telecom (with 20 MHz duplex each) and Free Mobile (with 15 MHz duplex).

ARCEP Power of sanction

Until recently, the sanctions available to the ARCEP if an operator failed to comply with the regulatory framework, as set forth in Article L. 36-11 of the CPCE, included limiting the scope or reducing the term of the operator's license, as well as suspending or even fully withdrawing the operator's registration. It could also impose fines representing up to 3% of the operator's annual revenue, or 5% in the event of a repeated breach. Further, if the ARCEP identified a serious and immediate infringement of the rules governing the sector, it could order precautionary measures without any requirement for prior notice. In addition, if an infringement could cause serious harm to either an operator or the market, the ARCEP's Chairman could make an emergency application to the French Conseil d'Etat for an order requiring the party concerned to comply with the applicable rules and impose a daily fine until such party complies. On July 5, 2013, however, the Conseil constitutionnel (the constitutional court in France), ruling on a question by Numericable challenging the constitutionality of Article L. 36-11 of the CPCE through a procedure known as *question prioritaire de constitutionalité*, invalidated the power of sanction of the ARCEP set forth in Article L. 36-11, paragraphs 1 through 12, of the CPCE. An ordinance dated March 12, 2014, has restored the power of sanction of the ARCEP in a way that complies with the principle of separation of investigative and sanctioning powers.

The French regulatory framework is completed by ARCEP's decisions and regulations. ARCEP decisions may relate to asymmetric regulation (i.e. applying to operators that occupy a dominant market position) or symmetric regulation (i.e. applying to all operators). Certain symmetric regulation decisions have to be approved by the French Minister for Electronic Communications. Asymmetrical regulations mainly involve regulations on wholesale price levels for fixed voice, mobile voice, and SMS call termination and for wholesale high speed and very-high speed markets which are decisive in encouraging competition in retail markets.

In 2012 and 2013, the main decisions issued by ARCEP concerning the Numericable Group and SFR were as follows:

- ARCEP decision 2012 007 dated January 17, 2012, amending the depreciation periods used for Orange's copper local loop assets, as previously provided for in decision 05 0834 dated December 15, 2005. Decision 2012-007 led to a reduction in the unbundling fee from €9 to €8.80 in 2012. The impact of this decision will be partly offset, however, by the effect of ARCEP decision 2013 0001 dated January 29, 2013, concerning the rate of return on capital employed to be applied for accounting for costs, and controlling the fees for Orange's regulated landline activities for 2013 to 2015, which resulted in the unbundling fee being increased to €8.90 on May 1, 2013;
- ARCEP decision 2012 1546 dated December 4, 2012, establishing the provisional contributions of operators to the cost of the universal service for 2013 and ARCEP decision 2013 1212 dated October 8, 2013, establishing the rules for calculating the definitive contributions of operators to the cost of the universal service for the year 2012 (see below for details on the universal service).
- ARCEP decision 2012 0039 dated January 17, 2012, granted SFR authorization to use 10 MHz duplex frequencies in the 800 MHz band at a cost of €1.065 billion. SFR undertook to cover 98% of the population within 12 years, 90% in each department and 99.6% within 15 years. SFR also undertook to accommodate roaming by Free Mobile on its very high speed mobile broadband network in the 800 MHz band under certain conditions, to offer Mobile Virtual Network Offering ("MVNO") support and a "full MVNO" offering.

Market Analysis—Asymmetric Regulation

The analysis of markets is the cornerstone of the asymmetric regulation framework applicable to operators that occupy a dominant market position. Ex ante asymmetric regulation is focused on market segments (mainly wholesale markets) in which distortion of competition and dominant market positions have been identified. Pursuant to the Framework Directive, Regulation 1211/2009 establishing the BEREC and articles L. 37-1 to L. 38-1 of the CPCE, the ARCEP is required, under the supervision of the European Commission and the BEREC, and on the basis of the recommendation of the French antitrust authorities, to (i) define the relevant markets in France, (ii) analyze the relevant markets and identify companies that have significant market power in these markets, and (iii) decide whether or not to impose on these companies regulatory obligations commensurate with any competition problems identified.

The first and second phases of this market analysis were completed at the end of 2007 and 2010, respectively. The market analysis was carried out by the ARCEP in three distinct markets: the fixed line market, the mobile market and the broadband market. From 2010 to 2012, the ARCEP carried out and completed the third phase of its market analysis, covering the period from 2011 to 2014.

The regulatory measures that can be imposed by the ARCEP on operators identified as having significant market power in a relevant market (and, as applicable, on another market of the electronic communications sector that is tightly linked to the aforementioned market) are specified in Articles L. 38, L.38-2 (wholesale markets) and L. 38-1 (retail markets) of the CPCE. These measures include obligations to publish detailed technical and pricing specifications relating to interconnection and access, to provide interconnection or access services under non discriminatory conditions, to grant reasonable requests for access to network and associated facilities, not to charge excessive or predatory prices in the market in question and to charge prices which are oriented towards the corresponding costs, to separate the accounting of certain activities, to provide retail services under non discriminatory conditions, not to unreasonably bundle these services, to comply with the price cap mechanism set by ARCEP, and to obtain ARCEP's approval of prices prior to their application. For wholesale markets, in case the foregoing measures are not sufficient to resolve competition issues, the ARCEP may, in addition, impose a functional separation of the wholesale activities of the electronic communications operator in question.

Neither Numericable Group and Completel nor SFR are considered by the ARCEP as an operator with significant market power in any relevant market, except in the market of calls terminating on their network, like all other operators (ARCEP decision 2010 1149 dated November 2, 2010). This implies that Numericable Group, Completel and SFR must comply with the regulations applicable to call termination charges on landline networks. In fact, landline operators, including Numericable Group, Completel and SFR, are considered to have significant power in the market for the termination of geographic calls on their networks and, pursuant to Articles L. 38 and L. 38-1 of the CPCE, are subject to obligations relating to access, interconnection, non discrimination and transparency, as well as an obligation not to engage in excessive pricing.

The regime governing the call termination charges on landline networks has evolved in recent years. From October 1, 2010, to October 1, 2011, the call termination charges applied by operators were set at €0.05 per minute. Pursuant to decision 2011 0926 of the ARCEP dated July 26, 2011, the maximum call termination charge was set at €0.03 from October 1, 2011, to July 1, 2012, at €0.01 from July 1, 2012, to January 1, 2013, and at €0.008 onwards. Therefore, the Numericable Group's termination charges invoiced by other landline operators have decreased as from October 1, 2011. In turn, the Numericable Group's revenues from call termination charges invoiced to other landline operators have also decreased in the same time frame. Similarly, pursuant to ARCEP decision 2010 0892 dated July 22, 2010, maximum rates that will reach €1 per SMS as of July 2012 have been set for SMS terminations on mobile networks.

Pursuant to decisions adopted in the summer of 2011 and applicable until the summer of 2014 concerning the regulation of the broadband and ultra fast broadband markets, the ARCEP identified Orange as the sole operator with significant power in the landline market and imposed specific obligations on it concerning access to its infrastructures (unbundling the copper local loop and access to infrastructure). The provisions relating to the asymmetric regulation system for ducts were extended to overhead infrastructures and the regulations on passive access to the unbundled copper local loop have been maintained and extended to cover access to the local sub loop in order to increase the speeds available for subscribers. Furthermore, the ARCEP stated that bit stream pricing is now required to be cost oriented. In 2012, the ARCEP issued an interim scorecard in which it stated that there was no need to make any adjustments to the applicable regulations until the end of the current round of market reviews in mid 2014. On June 26, 2014, the ARCEP issued decision No. 2014-0734, applicable for a maximum period of three years, that identified Orange as the sole operator with significant power in the wholesale market of activated broadband and ultra-fast broadband offers delivered at sub-national level and imposed specific obligations on orange as concerns the DSL submarket, including among others the obligation for orange to allow its competitors to have access to its infrastructures, under reasonable, non-discriminatory and transparent conditions (including a published SLA) and at a controlled price. The access services and operational and technical processes that Orange offers to other operators on this market must be comparable to those it uses for its own needs.

In 2013, the ARCEP launched a new market analysis on the following markets to determine possible adjustments to the regulatory framework for the period from 2014 through 2016, through the launch of a first public consultation open from April 3 to May 15, 2013, and for which it published a summary on its website. On July 4, 2013, the ARCEP published a press release on its website and submitted to public consultation a scorecard of current regulation and possible pathways for development from mid-2014 to mid-2017. The relevant markets are the following: "wholesale (physical) network infrastructure access (including shared or fully unbundled access) at a fixed location", and "wholesale broadband access", which comprises non-physical or virtual network access including "bit stream" access at a fixed location and "capacity services". The public consultation ran until September 16, 2013. A draft decision regarding the first two abovementioned markets was issued by the ARCEP on February 19, 2014, which is subject to review by the French Competition Authority and to a public consultation during the first quarter of 2014 (until March 26, 2014) before submission to the European Commission. Based on the draft decision, neither Numericable Group, Completel nor SFR has been identified by the ARCEP as having significant market power in one of those markets and, as a result, the ARCEP will not impose additional regulatory measures on them. See "*Risk Factors*".

Symmetric Regulation

The ARCEP also regulates the telecommunications sector in a symmetrical way, i.e. by imposing the same obligations on all operators, through a number of decisions, including:

- Decision 06 0639 dated November 30, 2006, on supplying subscriber lists for the purpose of publishing universal directories or providing universal information services;
- Decision 07 0213 dated April 16, 2007, on obligations imposed on operators that control access to end users for routing communications used for value added services;
- Decision 2008 1362 dated December 4, 2008, on publishing measures of service quality indicators for landline networks;
- Decision 2009 0637 dated July 23, 2009, on the implementation of fixed numbers portability and the routing of communications to the ported fixed and mobile numbers;
- Decision 2009 1106 dated December 22, 2009, and decision 2010 1312 dated December 14, 2010, on the methods of access to the terminal section of optical fiber networks; and
- Decision 2010 1314 dated December 14, 2010, on the eligibility of optical fiber networks for grants from the French digital development fund.

Interconnection Access

Regulations governing the interconnection of each operator to the networks of the incumbent operator and of other operators are essential for opening up the market and ensuring the quality of services provided to each operator's subscribers (Article L.34 8 of the CPCE). Interconnection agreements are subject to private law but the main tariffs are set by the ARCEP. These agreements must be disclosed to the ARCEP on request. The ARCEP has the power to rule on disputes between operators but its decisions may be appealed before the Paris Court of Appeal (*Cour d'appel*). Any such appeal lodged against an ARCEP decision does not suspend application of the ARCEP's ruling.

Numericable Group has interconnection agreements mainly on call termination on its network and on the networks of other operators, peering or interconnection of internet traffic, the use of ducts or fiber, and access to its fiber network by other operators. Completel has similar agreements, as well as other interconnection agreements, among others, in voice transit services for other operators, leased lines or data services and traffic gathering for editors of voice and data added value services. SFR has also entered into interconnection agreements on call termination on its fixed and mobile networks with the principal national carriers as well as the networks of other carriers. SFR has established reciprocal SMS and MMS interconnection agreements with France's three main mobile carriers. MMS tariffs are not regulated. Exchange flows amongst carriers are generally quasi symmetrical.

Specific Regulatory Framework Applicable to the Access to New Generation Optical Fiber Networks

The French Economic Modernization Law dated August 4, 2008, included several provisions designed to establish a regulatory framework for the roll out of very high speed optical fiber networks. This regulatory framework contains three key concepts: (i) no ex ante regulation on retail prices; (ii) the same obligations regarding access to the terminal portion of FTTH networks apply to all operators equipping buildings with optical fiber; and (iii) non discriminatory access to the incumbent underground civil works systems at a rate that reflects costs.

To this effect, the law comprises a number of measures intended to foster such roll outs, including: (i) an obligation for private and public landlords to facilitate the installation of FTTH optical fiber networks in their buildings; (ii) rules for sharing optical fiber access in order to avoid several FTTH networks being set up within the same building (only one "building operator" (*opérateur d'immeuble*) may therefore set up a network in its building); (iii) a requirement for each operator offering very high speed access to be able to connect to the network; and (iv) provisions stating that the access point to the shared network must be located outside the limits of a private property (unless the ARCEP approves the access point being inside such a property).

In addition to the implementing decrees, the ARCEP has been given decision making powers to set the terms and conditions relating to the application of this law. Accordingly, for the optical fiber networks located in France's 148 most densely populated cities, the ARCEP decision 2009 1106 dated December 22, 2009, regulates access to the terminal section of networks installed by telecommunications operators in buildings. If they wish, operators can co invest in FTTH networks installed by other operators and can consequently get a dedicated fiber. The ARCEP decision 2010 1312 of December 14, 2010, sets forth the terms and conditions for access to very high speed optical fiber electronic communications lines in less densely populated areas. Under this decision, operators are required to establish shared access points that are sufficiently large to enable other operators to obtain access at reasonable prices. It also requires operators rolling out a network to store the active or passive network devices of other operators at these shared access points.

Lastly, in February 2013, the French government announced a plan for the development of very-high-speed networks to succeed the national program launched in 2010. In a speech given on February 20, 2013, the President of the Republic announced the mobilization of €20 billion over the next ten years to increase access to ultra-fast broadband, including a government grant of approximately €3 billion to support the projects of local authorities. On April 29, 2013, an order of the Prime Minister defined the specifications of the call for proposals for "France ultra-fast broadband—Public Initiative Networks".

The Numericable Group intends to pursue an opportunistic strategy in relation to the governmental program.

Individual requirements under SFR mobile telephony licenses

In addition to the general requirements, there are individual requirements associated with the commitments made by SFR when the respective authorisations were granted for use of the frequencies of which it is the licensee. These individual requirements are chiefly the following:

- 3G coverage commitments:

The table below provides an overview of 3G network coverage commitments applicable to SFR:

Due dates	**December 31, 2010**	**December 31, 2011**	**December 31, 2013**
Coverage requirement (as a % of the population)	88%	98%	99.3%

Source: ARCEP

- Coverage commitments in very-high-speed mobile:

The timetable below summarises the deployment requirements stipulated under SFR's 4G licenses in the 800 MHz and 2.6 GHz bandwidths:

As a % of the population	**October 11, 2015**	**January 17, 2017**	**October 11, 2019**	**January 17, 2022**	**October 11, 2023**
In the priority deployment zone (18% of the population and 63% of the territory)		40% (800 MHz band)		90% (800 MHz band)	
In each Department					
Throughout all of metropolitan France	25% (2.6 GHz band)		60% (2.6 GHz band)		75% (2.6 GHz band)

Source: ARCEP

- MVNO (Mobile Virtual Network Carriers) hosting commitments

At the time of the procedure for awarding residual frequencies of the 2.1 GHz frequency band, SFR agreed to host MVNOs on its network under conditions "that shall not without objective justification restrict competition on the wholesale market for MVNO hosting or the commercial autonomy of MVNOs on the retail market".

In addition, under its 4G license in the 800 MHz frequency band, SFR committed to the following:

(i) to allow "any reasonable requests for hosting on its very high speed mobile network open to the public";

(ii) to provide to any MVNOs hosted by it on its network with "hosting under reasonable financial terms, with reference to the terms prevailing on the wholesale and retail markets on which SFR operates, and compatible with the exercise of actual and fair competition on those markets"; and

(iii) to offer "a product based on a so called 'full MVNO''', which includes providing access to its radio local loop "under conditions allowing its actual use, particularly under non discriminatory conditions, in terms of quality of service compared with the conditions enjoyed by SFR for its own services".

Legal Status of the Numericable Group's Cable Networks

A telecommunications network is comprised essentially of the physical infrastructure (ducts, head ends, switches) into which the telecommunications equipment (mainly the cables) are placed. These components can be governed by different legal frameworks (as described below). Since the Numericable Group's physical infrastructure is not built on its own premises (but, rather, on public land and private property), the Numericable Group has entered into concession or lease agreements, or benefits from easements, or IRU agreements with landlords. The telecommunications equipment itself can be directly owned by the telecommunications operator or owned by a third party (which may be itself a telecommunications operator). Several telecommunications operators can occupy or use the same physical infrastructure or even the same telecommunications equipment. The Numericable Group has built its network by acquiring and combining entities which themselves had built their networks under different legal frameworks, with different combinations of the legal frameworks described below.

Network Using the Ducts of Orange

In 1982, the French State launched the Cable Plan (*Plan Câble*) (established by the laws dated July 29, 1982, and August 1, 1984). Under the Cable Plan, the cable network was built by the French State and later transferred to Orange, the incumbent telecom operator. The network was initially operated by certain of the Numericable Group's predecessors, local entities financed by both private and public funding, which the Numericable Group later acquired. At the time of these acquisitions, Orange granted the Numericable Group several IRUs on its infrastructure (mainly ducts). These IRUs, which were entered into at various dates, were granted to the Numericable Group for terms of 20 years each and the renewal of the first of these will have to be negotiated between the parties in 2019. For a description of the Numericable Group's IRU agreement with Orange, see "—*Material Contracts*". The network using the ducts of Orange represents 55% of the Numericable Group's overall cable network.

Pursuant to the ARCEP decision 2008 0835 dated July 24, 2008, Orange published on September 15, 2008, a commercial offer allowing telecommunications operators to roll out their own fiber networks in the ducts of Orange. Orange then asked Numericable to modify the IRUs granted in order to align the operational procedures set forth in the IRUs with some of the operational procedures of this commercial offer. In particular, Orange asked Numericable to follow the general rules of access to the physical infrastructures of Orange, for the purpose of maintaining and upgrading its network. This issue was litigated and the ARCEP (on November 4, 2010) and the Paris Court of Appeal (on June 23, 2011) ruled in favor of Orange. Numericable appealed the decision before the French Supreme Court (*Cour de cassation*) but it upheld, for the most part, the decision of the Paris Court of Appeal on September 25, 2012.

Moreover, on October 21, 2011, the ARCEP initiated penalty proceedings against Numericable, arguing that it had not complied with its November 4, 2010, decision. Consequently, in December 2011, Numericable executed with Orange amendments to the IRUs in order to comply with the November 4, 2010, ARCEP decision and to align the operating procedures set forth in the IRUs with the procedures set forth in the Orange generic commercial offer.

In the meantime, the penalty proceedings initiated by the ARCEP were not suspended by the execution of the amendments to the IRUs and Numericable and NC Numericable were fined €5.0 million on December 20, 2011, for non compliance with the ARCEP's November 4, 2010, decision. However, on October 21, 2013, the *Conseil d'Etat* annulled the ARCEP's decision to impose the above mentioned penalty.

Lastly, Numericable initiated proceedings against Orange before the Paris Commercial Court on October 7, 2010, and before the ICC in Paris on October 22, 2010, claiming damages in the total amount of €3.1 billion (€2.6 billion before the Commercial Court and €542 million before the ICC) for breach of these contracts by Orange and for the modification of the IRUs. The Paris Commercial Court ruled on April 23, 2012, in favor of Orange and dismissed Numericable's claims for damages, ruling that there were no material differences between the original operational procedures and the new operational procedures imposed on Numericable by Orange under its generic commercial offer published on September 15, 2008. The ICC rendered a final award on February 25, 2013, dismissing Numericable Group of its claims and ordering Numericable Group to pay the arbitration costs and other related costs in a total amount of €1.2 million. By judgment rendered on June 20, 2014, the Court of Appeal of Paris confirmed the first instance judgment issued by the Commercial Court of Paris and awarded €90,000 to Orange for damages and court costs. Numericable Group filed an appeal before the French Supreme Court, the decision of which is expected to be rendered sometimes during the first quarter of 2016. Both the Court of Appeal of Paris and the ICC dismissed Orange of its claims in the amount of €100 million for abusive legal action.

Networks Set Up Following the New Deal Plan

In 1986, the government launched the New Deal Plan (*Plan Nouvelle Donne*) (Law 86 1067 of September 30, 1986, relating to freedom of communication). Under this new regulatory framework, local authorities could themselves set up networks or authorize private companies to set up these networks. Several private companies (which the Numericable Group later acquired) set up new networks and were granted occupancy rights and operating concessions to operate these networks for 20 to 30 years. The networks belonging to the New Deal Plan represent 38% of the Numericable Group's overall cable network. The Numericable Group entered into approximately 500 agreements in connection with New Deal Plan networks.

There is no standard form of contract in connection with the New Deal Plan and, as a result, there has been a certain degree of uncertainty over the network ownership under certain long term agreements entered into with local authorities. The issue relates to the identification of agreements that can be categorized as agreements with a local authority for the delegation of public services (*délégation de service public*). Under such an agreement, the infrastructure and equipment used to carry out the public services (*biens de retour*) revert back to the local authorities upon the expiration or termination of the agreement.

In this context, Law 2004-669 dated July 9, 2004, which implemented the 2002 European directives, "2002 Telecoms Package" (the "*Paquet Télécoms 2002*") into French law, imposed the termination of exclusive rights over the installation and/or operation of networks contained in these agreements. Moreover, Law 2008-776 of August 4, 2008, authorized local authorities to grant equal rights of access on their networks to the Group's competitors even if the agreement with such local authorities says otherwise. In a report dated July 2007, the ARCEP was of the opinion that, although final determination on the categorization of these agreements may only be made by the judge on a case by case basis depending on the wording of each agreement, agreements concluded with local authorities after the enactment of Law 90-1170 dated December 29, 1990, which authorized municipalities to operate New Deal Plan telecommunications networks themselves, are to be categorized as agreements for the delegation of public services and therefore contain the concept of reversion (*biens de retour*).

In order to clarify the conditions for implementing such termination of exclusive rights over the installation and/or operation of networks in the agreements currently in place with public authorities (primarily local authorities), in May 2010, the Group made a proposal to the ARCEP to novate the agreements such that the ownership of physical infrastructure (the ducts) reverts back to local authorities, while ownership of all existing telecommunications equipment and cables expressly reverts back to the Group through a transfer process. This approach led to the conclusion of transactional agreements that are in line with the above mentioned requirement (i) containing the aforementioned provisions and (ii) including a right to the use of public land (*convention d'occupation du domaine public*), comprising a nonexclusive right for the Group to use the ducts which had become the property of the local authorities on the terms of such new agreement, with the Group's own telecommunications equipment. One of the key features of these agreements is the Group's right to use the ducts on a nonexclusive basis and its competitors' ability to install their own equipment on such ducts.

The Numericable Group has signed nearly 80 agreements, 25 of which follow the approach acknowledged by the ARCEP, with various local authorities and is currently negotiating the implementation of its proposal with certain local authorities. The Numericable Group is currently negotiating the implementation of its proposal with certain local authorities.

See "*Risk Factors—Regulatory and Legal Risks—The legal status of the Numericable Group's network is complex and, in some instances, subject to renewal or challenge*" for a description of the risks associated with the New Deal Plan.

Other Networks

A limited portion of Numericable Group's current network (7%) is governed by legal agreements such as long term leases of public property, *conventions d'affermage* (i.e. a type of operating concession through which the Group leases an entire network) or public land use agreements (*conventions d'occupation du domaine public*, through which the Group installs the necessary network equipment on public property with no underlying property transfer).

These agreements are entered into with local authorities, primarily municipalities, for terms from ten to 30 years. In accordance with the terms of Articles L. 2122-2 and L. 2122-3 of the *Code général de la propriété des personnes publiques*, local authorities may terminate these public land use agreements at any time by demonstrating that doing so is in the public interest.

Upon termination of such agreements, the Numericable Group must, in accordance with its contractual requirements, (i) return the entire network to the local authorities, in some cases in return for the payment by the local authorities of an amount equal to the market value of the network, and in some cases free of charge, (ii) remove, at the cost of either the Numericable Group or the local authorities, the equipment installed by the Numericable Group on the local authorities' premises, (iii) transfer the network to other operators, with the approval of local authorities, or (iv) repurchase the network. In accordance with the law applicable to these agreements, upon expiration of long term leases, the network reverts back to the local authorities.

Fees are generally paid on an annual basis, and vary depending on the size of the network, the number of users connected to the network and, if applicable, the extent of the deployment of the Numericable Group's own network on public land.

Mobile Network pooling

As noted by the ARCEP, although competition through infrastructure is an important element for ensuring a competitive dynamic and a high level of investment, network pooling is not incompatible with this competition goal (see in particular ARCEP Opinion no. 2012-1627 of December 20, 2012). In a context of increased competitive pressure, and although investment needs remain significant in particular for the deployment of 4G, network pooling can constitute a means for operators to reduce their costs and provide benefits to users, in terms of extended operator coverage and improved quality of service.

Network pooling is implemented in France through several specific mechanisms that have the common objective of strengthening mobile coverage within the country:

- The "white spots" programme begun in 2003 under the aegis of the Ministry for Regional Planning and the ARCEP to enable 2G network coverage in the town centres of approximately 3,300 municipalities;

- A 3G network infrastructure sharing agreement, in accordance with ARCEP decision no. 2009 329 of April 9, 2009, entered into on February 11, 2010, by three mobile operators (SFR, Orange and Bouygues Telecom), which provides for the sharing of 3G network facilities between mobile operators in lower density areas within the country. This agreement was supplemented with the signing on July 23, 2010, of an agreement with Free Mobile providing the terms for its deferred arrival into the mechanism; and

- The pooling obligations resulting from the 4G frequency usage authorisations, which provide that their holders must jointly implement network and frequency pooling in the 800 MHz band in order to cover the town centres of municipalities located in white spots within a maximum time period of 15 years (January 2027).

In addition to these specific mechanisms, the conditions under which network or frequency pooling agreements may be implemented in general by mobile operators were specified by the Competition Authority in an opinion dated March 11, 2013.

In this context, SFR and Bouygues Telecom announced an agreement on January 31, 2014, for the pooling of part of their mobile networks. In a press release dated January 31, 2014, the ARCEP welcomed this agreement subject to three conditions: (i) the operators' continued strategic and commercial independence; (ii) the lack of an eviction effect on some market competitors; and (iii) improved services provided to users in terms of coverage and quality of service. Orange challenged the agreement before the Competition Authority seeking its suspension on interim measures and its prohibition on the merits. Based on an opinion delivered by the ARCEP on the agreement, the Competition Authority rejected Orange's request for interim measures on September 25, 2014 (Decision no. 14-D-10). Orange brought an appeal before the Paris Court of Appeal. Its decision is expected at the end of January 2015. The proceeding on the merits before the Competition Authority is ongoing.

Roaming

Roaming is another form of infrastructure sharing between operators under which an operator hosts another operator's customers on its network. Only the host operator's frequencies are used here.

As with network pooling, roaming is implemented in France through several series of specific measures, including, in particular, the abovementioned "white spot" programme begun in 2003, as well as the mechanism relating to Free Mobile's right to 2G and 4G roaming.

SFR, which holds an authorisation aggregating two blocks in the 800 MHz band, must allow Free Mobile to enjoy roaming, if it makes a reasonable request, once Free Mobile's 2.6 GHz network has achieved (i) 25% coverage of the population, and (ii) if Free Mobile does not already have a roaming host on the very-high speed mobile network of another holder of frequencies in the 800 MHz band. This right concerns 4G in the priority deployment area in the 800 MHz band, i.e. 18% of the population and 63% of the country.

In its Opinion no. 13-A-08 of March 11, 2013, the Competition Authority specified the conditions under which roaming agreements in general may be deemed as compliant with competition law. In the specific case of Free Mobile, the Authority believes that if it retains its 2G roaming right beyond its expiration date in 2016, it may be limited only to customers with 2G handsets exclusively.

Operators are also prompted to enter into international roaming agreements with their foreign counterparts and may also be required, in connection with the frequency authorisations, to enter into roaming agreements with MVNOs in order to host the customers of the latter on their networks.

SFR's network

Similarly, SFR's telecommunications network is essentially made up of physical infrastructure (lines, network headends, switches and radio stations) in which the telecommunications equipment (mainly cables) is installed. These components of SFR's network are subject to different legal systems. Since SFR is only the owner of some of the sites hosting the physical infrastructure, if the infrastructure is on public land or on private property, concessions, easements, leases or even indefeasible rights of use ("IRU") have been agreed on with the owners of the sites.

For the establishment of a significant part of its telecommunications and terrestrial networks, SFR has thus concluded agreements with public corporations for the occupancy of public land or is the holder of permits for the occupancy of public land. By virtue of such agreements or permits, SFR may install the equipment for its network along, for example, roads, motorways, railways or canals. No transfer of property takes place in this context.

These agreements have been concluded for very different timeframes, varying from three to 25 years, with the agreements for the shortest time generally envisaging tacit renewal. Occupancy of public land by SFR is, as for all the occupants of public land, always precarious. The public corporations with which SFR has made these agreements or which have allocated these permits may terminate these agreements for occupancy of public land at any time due to default or for a motive of public interest, with some agreements also excluding any compensation in this case. SFR does not have a right to the renewal of these agreements.

Legal Status of the Le Cable Networks

As with Numericable Group's network in France, Le Cable's physical infrastructure in the French Overseas Territories is not built on its own premises (but, rather, on public land and private property). As a result, Le Cable has entered into concession, easement or lease agreements with landlords. Several telecommunications operators can occupy or use the same physical infrastructure or even the same telecommunications equipment.

One of Le Cable's cable networks (Point à Pitre, Guadeloupe) can be categorized as an agreement for the delegation of public services (*délégation de service public*). Under such agreement with a local authority for the delegation of public services, the infrastructure and equipment used to carry out the said public services revert back to the local authorities upon expiry or termination of the agreement (*biens de retour*). Renegotiations of these agreements were imposed by laws passed on July 9, 2004, and March 5, 2007, with a view to clarifying the legal classification of the agreements. Moreover, the law of August 4, 2008, authorized local authorities to grant equal rights of access on their network to our competitors even if the agreement with such local authorities says otherwise.

The rest of Le Cable's current cable network is governed by ad hoc legal agreements. Concerning such agreements with local authorities, Le Cable has initiated their transformation into agreements for the occupation of public domain (*conventions d'occupation du domaine public*). Occupation of public domain agreements, which are entered into with local authorities for terms ranging from 10 to 30 years, provide that, upon termination, we must, at the option of the local authority (i) return the entire network to the local authority, in some cases in return for the payment by the local authority of an amount equal to the market value of the network, in other cases free of charge, (ii) remove, either at our cost or at the cost of the local authority, the equipment installed by us on their land or premises, or (iii) transfer the network to another operator, provided it is approved by the local authority. In accordance with the law applicable to these agreements, upon expiration of long term leases, the network reverts to the local authorities.

Fees are typically paid on an annual basis, and in principle based on the size of the network deployed on public land or premises.

Fixed Number Portability

Number portability is the service offered by a telecommunications operator allowing its subscribers to keep their telephone number when they switch to another operator. Number portability is an obligation for all operators connecting end subscribers pursuant to Article L. 44 of the CPCE. Decree 2006 82 of January 27, 2006, extended this number portability obligation to alternative landline operators. The ARCEP decision 2009 0637 implementing this decree was issued on July 23, 2009, and approved by the Minister for Electronic Communications on October 22, 2009. This decision sets forth the portability obligations of operators, notably the maximum length of time that a service can be interrupted in the event of a portability request (four hours as from January 1, 2012). It also states that as from April 1, 2010, the same level of service must be provided for calls carried to ported numbers as for those carried to non-ported numbers, subject to the maximum length of service interruption in connection with a portability request. Pursuant to Article D. 406-18 of the CPCE, a portability request between two operators must be addressed within one day. Consumer contracts must include and detail the applicable penalties in the event of failure by the operators to meet this time frame.

In order to effectively manage the exchange of information between operators concerning portability requests, in January 2009 the main operators, including Completel, Numericable Group and SFR, set up a dedicated entity called *l'Association de la Portabilité des Numéros Fixes*.

An order published in the Journal official on November 1, 2013, confirmed ARCEP Decision No. 2013 0830 of June 25, 2013, specifying the new methods for allowing customers to keep fixed numbers. This decision establishes new requirements for operators in the B2C segment to be implemented gradually until October 1, 2015.

Directories and Provision of Subscriber Lists

Pursuant to Article L. 34 of the CPCE, anyone may freely publish lists of subscribers or users of networks or electronic communications services, subject to the protection of the rights of the persons. Therefore, all operators that connect end subscribers are required to disclose their subscriber lists for the purpose of publishing directories and/or providing information services.

The ARCEP decision 06 0639 dated November 30, 2006, sets forth further details on the conditions for supplying subscriber and user lists for the purpose of publishing universal directories or providing universal information services.

Contribution to Universal Service Funding

Pursuant to Articles L. 35 et seq. of the CPCE, implementing into French law the provisions of the Universal Service Directive as modified by Directive 2009/136 dated November 25, 2009, universal service obligations include (i) the universal services of electronic communications, (ii) services ancillary to the universal services and (iii) missions of general interest in the electronic communications sector in relation with defense and security, public research, and higher education. The universal services of electronic communications include the provision of the following services: (a) access to a fixed network open to the public and telephone services, including facsimile and data communications at speeds sufficient to allow internet access, and free emergency calls, at an affordable price; (b) information and universal directories services; (c) access to public telephones; and (d) specific measures for disabled end users.

Pursuant to law 2003 1365 dated December 31, 2003, the operator required to guarantee the provision of universal service is designated on the basis of calls for tender. Orange won the tender processes carried out in France and has been designated as the operator responsible for providing the components of the universal service, with the exception of directory services for subscribers which were granted to the company PagesJaunes by order dated December 6, 2012. The cost of the universal service is shared between operators with annual revenues above €5 million on the retail market *pro rata* to their revenues derived from telecommunication services.

The provisional and then definitive contributions by the carriers to the net cost of the universal service (telephony and low-speed internet access) are included in the decisions published every year by ARCEP.

On 26 November 2013, ARCEP published its Decision No. 2013-1406 setting the provisional contributions by the carriers to the financing of the universal service by electronic communications for the year 2014.

For the year 2014, these contributions amount to €152,962 for Numericable Group and €6,029,734 for SFR.

Broadcasting of Audiovisual Services

The transmission and broadcast of radio and television services (whatever the means of signal transmission) falls within the scope of the 2002 Telecoms Package and is consequently subject to the control of the NRAs.

The oversight powers of the French broadcasting regulator, the Conseil Supérieur de l'Audiovisuel ("CSA") were extended by Law 2004-669 dated July 9, 2004, to cover all radio and television services, irrespective of their method of transmission and broadcast. Rules governing powers and composition of the CSA have recently changed pursuant to Law 2013-1028 dated November 15, 2013, relating to the independence of public audiovisual services. The law contains the following main provisions: (i) granting to the CSA the power of appointing the presidents of France Télévision, Radio France and the company in charge of French audiovisual services overseas instead of the President of the French Republic; (ii) reducing the number of members of the CSA from nine to seven and limiting the power of the President of the French Republic to the appointment of the President of the CSA only; and (iii) amending the sanction proceedings before the CSA by the creation of an independent rapporteur and the instauration of a clear distinction between the inquiries and instructing body and the decision body. As a broadcaster of radio and television services, the Numericable Group must declare its activities and register with the CSA.

Pursuant to Articles 42-1 and 42-2 of Law 86-1067 dated September 30, 1986 (as amended by Laws 2004-669 dated July 9, 2004 and 2009-258 dated March 5, 2009, respectively), the sanctions available to the CSA if an operator fails to comply with the regulatory framework includes limiting the scope or reducing the term of the operator's registration, as well as suspending or even withdrawing that registration (for a maximum of one year). The CSA may also impose a fine representing up to 3% of an operator's annual revenue, or 5% in the case of a repeated breach.

In its capacity as a broadcaster of audiovisual services, the Numericable Group is subject to the regulatory "must carry" provisions, i.e. the obligation for a provider of services via cable, satellite or ADSL to carry certain audiovisual services on its network.

The must carry obligations are governed by Articles 34-2, 34-4 and 34-5 of Law 86-1067 dated September 30, 1986 (as amended by Laws 2011-901 dated July 28, 2011 or 2009-258 dated March 5, 2009, as applicable):

- Article 34-2 mainly states that for all types of networks the following channels must be provided to subscribers free of charge: public service channels broadcast over terrestrial hertzian waves, Arte, the Chaîne Parlementaire, TV5, and RFO services specifically aimed at the general public in mainland France (i.e. the RFO Sat program). Excluding satellite, the same rules apply to local cable channels.

- Article 34-4 introduces must carry rights on all means of transmission (cable, satellite and ADSL) for free to air, analog or digital channels broadcast via terrestrial hertzian waves, under fair, reasonable and non discriminatory conditions. Only the channels themselves can demand that their programs be carried by the distribution networks and not vice versa.

- Article 34-5 requires electronic communications networks in digital mode to carry all of France 3's regional programs, to the exception of those directed to French overseas departments, unless their technical capacities do not allow it.

Moreover, the CSA controls the content of the broadcast channels. In particular, under Article 15 of Law 86 1067 dated September 30, 1986 (as amended by Law 2010-769 dated July 9, 2010), the CSA must enact rules to protect minors against programs considered dangerous to their physical and mental health. The CSA has put in place strict rules in this respect, including the encryption of programs and embedding of special logos on programs considered inappropriate for minors. As an operator and distributor of TV channels, the Group and SFR ensure that they strictly comply with these rules.

Regulation of the Content of Electronic Communications

Content of Online Services and Liabilities of Internet Market Players

The liability provisions applicable to internet players are primarily set forth in Law 2004 575 dated June 21, 2004, the CPCE, Ordinance 2011 1012 of August 24, 2011, Decree 2011 219 of February 25, 2011, and Decree 2012-436 of March 30, 2012. They include the following:

- providers of online communications services must identify themselves, directly or indirectly. Access and hosting providers are required to keep data that could identify persons having participated in the creation of the content of the services that they provide, in order to be able to pass on such data to the legal authorities, if required;

- hosting providers can only be held civilly or criminally liable on the grounds of the activities or information stored at the request of a recipient of these services if they were aware of their unlawful nature or of any facts or circumstances in which this unlawful nature is made obvious, or if, when they became aware of such unlawful nature, they did not act promptly to withdraw the data or to prevent access to it;

- access providers cannot be held either civilly or criminally liable for the content to which they provide access, except in circumstances in which they have originated the request for the transmission of the content concerned, or they have selected the recipient of the transmission, or they have selected and/or modified the transmitted content; and

- electronic communications operators are obligated to keep the technical connection data necessary for criminal investigations or for the mission of the HADOPI (as defined below). They may also keep the technical data required to obtain payment of their invoices. Apart from these two specific cases, the operators concerned must delete or render anonymous all data concerning a communication once it is completed.

Statutory provisions were also introduced by Law 2010-476 of May 12, 2010, relating to the opening up to competition and the regulation of the betting and gaming sectors and Law 2011-267 of March 14, 2011, on the policy and programming of the performance of internal security processes requiring access providers to block access to certain websites and online content (such as illegal gaming sites or pedo pornographic content), when ordered by the Autorité de regulation des jeux en ligne (ARJEL) (i.e. the French online gaming regulator) or the Ministry of the Interior.

Copyright and the Internet

Under Law 2009 669 adopted on June 12, 2009, promoting the dissemination and protection of creative works on the internet, a specific "graduated response" system was introduced aimed at limiting illegal downloads. The first level of the system is a warning email sent to illegal downloaders. An independent administrative body (*Haute Autorité pour la Diffusion des Œuvres et la Protection des Droits sur Internet* (the "HADOPI")) was created to manage and send these e mails. On October 28, 2009, Law 2009 1311 was adopted to round out the graduated response system by providing that, in the event of repeated offenses, a judge can levy a fine or even suspend the illegal downloader's internet access. The latter sanction, however, was repealed by decree 2013 596 dated July 8, 2013.

These statutory provisions have also been supplemented by a number of regulatory provisions related to (i) types of data and interconnection of information systems (Decree 2010-236 of March 5, 2010) and (ii) the obligation for access providers to act as a vector for the recommendations issued by the HADOPI (Decree 2010-1202 of October 12, 2010).

In May 2012, the new government announced the creation of an ad hoc commission dedicated to the reform of the HADOPI. This commission, which issued its report on May 14, 2013, made recommendations in the following areas: (i) public access to work and online cultural offer, (ii) remuneration of creators and financing of creation, and (iii) protection and adaptation of intellectual property rights.

The legal framework on copyright and the internet is therefore expected to be modified in the near future, as was the case pursuant to Decree 2013-596 dated July 8, 2013, mentioned above and recently by Law 1014-315 dated March 11, 2014, reinforcing means to fight against infringement. It is also anticipated that the powers of the HADOPI may be transferred to the CSA.

Processing of Personal Data and Protection of Individuals

Law 2004-801 dated August 6, 2004, on the protection of individuals with respect to the processing of personal data amending Law 78-17 dated January 6, 1978, relating to IT, computer files and civil liberties ("Law 78-17") and Decree 2005-1309 of October 20, 2005, implementing Law 78-17, transposed into French law directive 95/46/EC dated October 24, 1995, on the protection of individuals with regard to the processing of personal data and on the free movement of such data and certain provisions of the Privacy and Electronic Directive. Law 2004-575 dated June 21, 2004, on confidence in the digital economy and Law 2004-669 dated July 9, 2004, on electronic communications and audiovisual communications services also implemented certain provisions of the Privacy and Electronic Directive into French law. Finally, French data privacy regulations have been adjusted by Ordinance 2011-1012 dated August 24, 2011, which implemented into French law the 2009 Directives (more specifically, the requirement that consent be obtained before cookies are placed on individual computers). On January 25, 2012, the European Commission published proposals for updating and modernizing the principles of Directive 95/46/EC mentioned above to reinforce individual's rights, give people more control over their personal data and more generally guarantee privacy rights. These proposals are designed to ensure that people's personal information is protected—no matter where it is sent, processed or stored—even outside the European Union. On March 13, 2014, the European Parliament approved the draft regulation based on the 2012 proposals by the European Commission.

The main applicable provisions of Law 78-17 (as amended) which is the cornerstone of the French data privacy regulations, are as follows:

- no personal data may be processed without the prior information and consent of the person concerned. However, a limited number of circumstances are defined in which such processing may be lawful, even without the consent of the person concerned (these exceptions do not apply to the processing of sensitive data);

- the right of the persons concerned to access, correct and object to the processing of their personal data must be ensured at all times;

- all processing of personal data must be notified to or duly authorized by the *Commission Nationale Informatique et Libertés* (CNIL), with very limited exceptions;

- electronic communications providers have an obligation to report to the French authorities a breach of personal data protection, which is detailed in Decree 2012-436 of March 30, 2012; and

- any failure to comply with the provisions of Law 78-17 (as amended) is subject to administrative and/or severe criminal sanctions. The possible offenses and related penalties are set forth in Articles 226-16 to 226 24 of the French Penal Code (*Code pénal*). Such offenses are punishable by a fine of up to €30,000 and five years' imprisonment, or, with respect to legal entities, a fine of up to €1.5 million.

Concerning data relating to the use of its services, since June 18, 2008, the Numericable Group has been required to store all user identification data for a period of five years following subscription termination. In accordance with Article L. 34 1 of the CPCE, technical data relating to connections has to be stored and then anonymized after a period of one year.

The Numericable Group may be required to pass on data it has in its possession on the identification, location and connection of a user of its services but such data may only be provided to duly authorized national legal and administrative authorities. The information passed on does not include any data concerning the content of any communications or information consulted. The categories of data covered by this requirement are currently set out in Decrees 2006-358 of March 24, 2006, and 2011-219 of February 25, 2011. In accordance with Law 91-646 of July 10, 1991, the Numericable Group may also be required to carry out legal interceptions of the electronic communications transmitted over their landline networks where required by the duly authorized legal and administrative authorities. This type of interception (for which the Numericable Group received financial compensation from the State following Decision 2000-441 DC of the French Conseil Constitutionnel dated December 28, 2000) is carried out in accordance with a strict supervisory framework by qualified professionals using equipment that is duly authorized and controlled by the relevant authorities.

Article 34 bis of Law 78-17 (as amended) resulting from Decree 2011-219 of February 25, 2011, stipulates an obligation of notification of security breaches for the providers of electronic communication services accessible to the public. This law was completed by European Regulation 611/2013 of June 24, 2013, which entered into effect in August 2013. Law 2013-1168 of December 18, 2013, on military planning for the years 2014 to 2019 with various provisions concerning defence and national security reinforced these obligations.

Decree 2012-488 of April 13, 2012 imposed additional obligations on operators to protect the safety of data on their networks. Operators must implement specific policies to protect the integrity of their networks.

In addition, the activity of hosting personal health data conducted by SFR is subject to a specific authorization obtained in March 2012 (published in the Official Bulletin of the Ministry of Health on November 15, 2012: Decision of March 6, 2012, authorising SFR for the hosting of applications provided by customers and a manager of personal health data via its "Isiad Infrastructure SI on demand" and "Dedicated Hosting service offers").

The legislative framework for the personal health data hosting activity is defined by Article L. 1111-8 of the Public Health Code, added by Law 2002-303 of March 4, 2002, the "Kouchner" law, which stipulates that health professionals or health institutions or the data subject may deposit personal health data collected or produced during prevention, diagnostic or care activities with individuals or legal entities authorized for this purpose. The authorization procedure implies compliance with the requirements formulated by Decree 2006-6 of January 4, 2006, codified in the regulatory portion of the Public Health Code. Article L. 1111-8 of the Public Health Code specifies that personal health care data may be hosted only with the express consent of the person concerned.

The exercise without authorization of the activity of hosting personal health care data is a criminal offense punishable by up to three years in prison and a fine of €45,000 (Article L. 1115-1 of the Public Health Code).

Domain names

Domain names are assigned to the digital addresses of the servers connected to the internet and constitute internet addresses. The legal provisions relating to the allocation and management of top level domain names (TLD) for the French national territory are set out in Law 2011-302 of March 22, 2011, as codified in Articles L.45 et seq. of the CPCE. The Numericable Group has registered a certain number of domain names in France which have been recognized as assets.

Tax Regime

Tax on Telecom Operators' Revenue

Law 2009 258 dated March 5, 2009, relating to audiovisual communication and the new television public service introduced a 0.9% tax assessed on the portion of the revenues (excluding VAT) of telecommunication operators relating to electronic communication services (subject to certain deductions and exclusions, and with a specific rebate for bundled offers) in excess of €5,000,000. This tax was implemented from March 7, 2009. In November 2009, the French Telecommunications Federation (*Fédération Française des Télécoms*) asked the European Commission to review the compatibility of this tax with EU Directive 2002/20/EC which specifies the taxes that may be imposed on telecommunications operators. On January 28, 2010, the European Commission began infringement proceedings against France with respect to this tax. On September 30, 2010, the Commission initiated the second phase of the infringement procedure by issuing a reasoned opinion stating that the tax is not compatible with EU Directive no. 2002/20/EC and decided to refer the matter to the European Court of Justice on March 14, 2011. The action was brought before the Court on September 22, 2011 (Case C 485 11). On June 27, 2013, the Court rendered a ruling dismissing the Commission's action on the ground that the tax on telecommunication operators' revenues did not fall within the scope of the EU Directive no. 2002/20/EC, and was, therefore, not incompatible with the Directive.

The Finance Law of 2011

Article 26 of the 2011 finance law, promulgated on December 28, 2010, eliminated the possibility of applying the VAT low rate to a lump base equal to half the price of bundled offers that provide access to both an electronic communications network and a television service. Since then, in the context of these offers, the reduced rate (7% as from January 1, 2012) is applicable, in proportion to the economic value of services corresponding to television distribution rights acquired by the supplier. Numericable Group has passed on this VAT increase into its retail offers.

The Finance Law of 2012

The VAT rate for television services has been increased from 5.5% to 7.0%, as from January 1, 2012. The third Amended Finance Law for 2012 provides for a further increase of this rate to 10% as from January 1, 2014.

Payment services regulations applicable to OPS

Payment services which Outremer plans to introduce through a fully-owned subsidiary, OPS, are governed in particular by Directive 2007/64/EC, Articles L. 522-1 to L. 522-20 and D.522-1 to D.522-1-2 of the French Monetary and Financial Code (the "FMFC"), as further detailed in a Decree dated October 29, 2009, setting out prudential requirements for payment institutions (the "Decree"). As a payment institution, such subsidiary is controlled by the *Autorité de Contrôle Prudentiel et de Résolution* (the "ACPR").

Prior Approval

Pursuant to the FMFC and the Decree, all payment institutions must be approved by the ACP. When reviewing the application form, the ACPR seeks to ensure that the payment institution has adequate resources (technical, material and human) and organization to operate in compliance with the relevant regulation and examines, in particular, if the company (i) has a sound system of corporate governance, (ii) has an adequate risk-management process and internal control, (iii) has implemented one of the safeguarding method in respect of the customers funds, hold initial capital and owns funds equal to a minimum amount determined by one of the three applicable methods, and (iv) complies with security and anti-money laundering requirements. Further, it seeks to verify that the individuals declared responsible for the effective management of the payment institution possess the respectability, competence and experience, as well as the status of the shareholders who have a qualified equity holding.

Changes requiring prior approval from or notice to the ACPR

The FMFC and the Decree provide that some changes require the prior approval of the ACPR, while others only need to be notified to the ACPR. In particular and without limitation the following changes require the ACPR's prior approval: (i) change in the corporate form, (ii) change in the types of payment services provided, or (iii) change in any element which the ACPR imposed as a condition to its prior approval.

The ACP's prior approval is also required for any direct or indirect acquisition, extension or sale of a shareholding in the payment institution by a person or group of persons (other than a person or entity within the same group) causing these persons to either (i) reach the thresholds of 10%, 20%, or $33^1/_3$% of the payment institution's voting rights, or (ii) acquire or give up the effective control over the payment institution's management. We have now obtained this approval from ACP.

Rules governing the management and organization of payment institutions

The FMFC and the Decree require payment institutions to abide by a series of management and financial requirements.

Payment agent and outsourcings

When a payment institution intends to provide payment services through an agent or outsources material services, it must previously get approval of this agent to the ACPR.

Control by the ACPR

A payment institution must at all times comply with the requirements set out in the ACPR's approval and the ACPR monitors the compliance of the activities conducted by payment institutions.

The FMFC and the Order provide that if a payment institution fails to comply with any of the requirements applicable to payment institutions, the ACPR may withdraw its approval. In such a case, the payment institution will be removed from the list of authorized payment institutions within a maximum of 15 months from the ACPR's decision and funds received in connection with payment services must be returned to the users of the payment services or transferred to a credit or payment institution or to the Caisse des Dépôts et Consignations within this 15-month period.

The ACPR may also impose disciplinary sanctions on payment institutions, including their removal from the list of authorized payment institutions. In such a case, the institution is banned from offering payment services and, in certain circumstances, this sanction entails the dissolution of the payment institution.

Israel

The communications and broadcasting industry in Israel is highly regulated and requires service providers to obtain licenses from, and comply with the terms of such licenses and policy statements of, the Israeli Ministry of Communications or the Council for Broadcasting by Cable and Sattelite (the "Broadcasting Council") with respect to the various communications and broadcasting services, respectively, before offering them to the public. The ever-changing regulatory environment can have a material effect on our activities. In this section only, references to "we", "us", "our", "HOT" and the "Company" may refer to HOT Telecommunication Systems Ltd, HOT Telecom, HOT Mobile, HOT Net, HOT Mobile International Ltd. or, collectively, HOT Telecommunication Systems Ltd. and its subsidiaries, as the context requires.

As a general matter, the regulatory principles are set forth in the laws enacted by the Israeli legislature (the "Knesset"), primarily the Communications Law (Telecommunication and Broadcasting), 5742 1982 (the "Communications Law"), as described below. These laws are amended from time to time upon enactment of the Knesset. The laws authorize the Israeli Ministry of Communications (in some cases with the approval of the Economic Affairs Committee of the Knesset) and the Broadcasting Council to issue regulations which provide for specific requirements based upon the principles set forth in the laws. The Israeli Ministry of Communications grants licenses in accordance with the Communications Laws and regulations. In addition to the regulations, the Israeli Ministry of Communications issues policy statements after a public review and consultation process. These policy statements expand upon the Israeli Ministry of Communication's policy with respect to certain basic issues in the relevant market.

Television

Overview

Our television operations are subject to extensive legislative and regulatory requirements that apply to the telecommunication industry in Israel, including the Communications Law, and the regulations enacted in accordance with it. We are also subject to specific legislation applying to the television broadcasting industry in Israel, such as the Harmful Broadcasts Classification, Marking and Prohibition of Damaging Broadcasts Law, 5761 2001 (which imposes certain classification and marking obligations with respect to television broadcasts) and the Television Broadcasts Law (Sub Titles and Sign Language), 5765 2005 (which imposes certain obligations regarding the accompaniment of television broadcasts with sub titles and translation into sign language).

We provide our television services pursuant to a non exclusive general cable broadcasting license issued by the Broadcasting Council that applies to all areas of the State of Israel and a non-exclusive general cable broadcasting license applying to Judea and Samaria (the "Broadcasting Licenses"). The Broadcasting Licenses contain certain conditions and restrictions relating to the provision of cable television services to our customers, including amongst others, a requirement to extend our services to customers in all areas of Israel which, in some cases, creates an obligation on us to provide services even though it would not be worthwhile economically to do so. There are certain places in Israel in which we do not currently provide services. In November 2014, the Israeli Ministry of Communications issued an order requiring us to provide services in some of those areas. The Broadcasting Licenses also stipulate the maximum fees that may be charged for our analog package. Our Broadcasting Licenses are valid until 2017 and may be extended for periods of 10 years at a time by the Broadcasting Council. We also have a special license (held by HOT Telecom) for operating a broadcasting hub which is valid until April 2017. As a general rule, the Broadcasting Licenses are non- transferable. In addition, the transfer of any means of control in the relevant license holders may be subject to prior approval of the Israeli Ministry of Communications and the Broadcasting Council.

Our operations in the pay television segment are subject to the supervision of the Israeli Ministry of Communications and the Broadcasting Council, including, among other things, in connection with the prices of analog services, broadcasting content, and launching of new channels or ceasing to broadcast existing channels. In addition, we have been declared a monopoly in the area of multi-channel television broadcasts for subscribers, and accordingly, the Anti Trust Commissioner (the "Commissioner") is permitted to issue instructions to us pursuant to the Restrictive Business Practices Law, 5748-1988. Accordingly, our ability to make acquisitions in the broadcasting sector will be limited. The Commissioner has set various conditions which apply to us as part of its decision to approve the Israeli cable consolidation. These conditions include, among others, separation of broadcasting and cable infrastructure activities, limitations on possessing means of control and relationships with producers of the channels, limitations on the purchase of, and the exclusivity in, programs and ownership of broadcast programs, limitations on agreements with producers of channels, a requirement to provide telephony services, investing in infrastructure, and the provision of bank guarantees. We are also subject to general antitrust law which prohibits certain restrictive agreements and the abuse of dominant market positions. Certain key features of the regulations and Broadcasting Licenses governing our television operations, including certain proposed regulatory changes that may have a significant impact on our operations, are set forth below.

Obligation to Extend Services

Under the terms of the Broadcasting Licenses, we are required to extend our cable television services to customers in all areas of Israel even where it would not be economically profitable to do so. Although we extend our services to most of Israel, there are currently certain areas of the country where we do not. In November 2014, the Israeli Ministry of Communications issued an order requiring us to provide services in some of these areas.

Access to DTT Channels

The Second Authority for Television and Radio (the "Second Authority"), a statutory body set up under the Second Television and Radio Authority Law (the "Second Authority Law"), is responsible for facilitating the development of, and regulating, commercially operated television and radio broadcasts in Israel. Pursuant to an amendment to the Second Authority Law, the Second Authority was charged with planning, establishing and operating, itself or via others, digital broadcasting stations for the free reception and distribution of television broadcasts ("DTT") to the general public. Accordingly, in August 2009, the Second Authority launched broadcasts on a nationwide basis, enabling the free distribution to the public of the following DTT channels: the Israeli Broadcasting Authority channels (Channels 1 and 33), the commercial television channels (Channels 2 and 10), the Knesset Channel (Channel 99) and, recently, the Educational Channel (Channel 23). The establishment of the digital broadcasting stations infrastructure enables subscribers to view the broadcasts of DTT channels free of charge upon purchasing a set-top box. We are also required to carry the DTT channels over our network.

In April 2012, the Distribution of Broadcasts through Digital Infrastructure Law, 5772 2012 was passed into law (the "DTT Law"). Pursuant to the DTT Law, the state will finance the first three multiplexes of the DTT array allowing the broadcast of up to 18 channels. Currently, the DTT has already been expanded to include all radio channels broadcasted in Israel and an educational television channel. Additional DTT channels due to be included in the DTT array may include, among others, the Israeli Russian language Channel (Channel 9), the Israeli Music Channel (Channel 24), the Israeli Arabic language Channel, three additional channels dedicated to specific themes and HD versions of any of the channels included in the DTT array.

The draft economic plan for 2013 2014, published by the Ministry of Finance in April 2013, and approved by the Government in May 2013 and by the Knesset in August 2013 (the "Economic Plan"), determined to amend the DTT Law in the following ways:

- The Minister of Communications (the "Minister") and the Minister of Finance will be authorized to appoint a body that will act as an operator of the DTT array under the law, and the Minister will be authorized to set limitations on holding and ownership of such an operator (subject to the approval of the Knesset Economic Committee), with respect to its activities, and regarding tying between services (which, according to the DTT Law, would otherwise be prohibited).

- The Minister and the Minister of Finance, subject to consultation with the Council for Cable and Satellite Broadcasting (the "Council"), was, by January 1, 2014, to establish criteria for the use of a multiplexer that has not been used for propagating broadcasts on the DTT Array. However, to date, no such criteria have been forthcoming.

- In general, a body whose broadcasts are distributed through the DTT array will pay the aggregate payments and costs as set forth in the law, and the State will not bear the costs for the unused capacity in the DTT array.

- To amend Article 13 of the DTT Law to provide that:

- The Council may grant a license for theme channel broadcasting which will be distributed through the DTT array. Such license shall be granted to the operator selected in a tender based solely on the price offered for DTT array, subject to the limitations on participation in the tender prescribed in section 13 (d) of the DTT Law.

- The winning bidder shall, after its selection, decide to which of the following its broadcasts will be devoted: sports, kids, movies, nature, series, documentary, news, music, history, culture or any other topic that the Minister, in consultation with the Second Authority for Television and Radio and the Council, with the approval of the government, determines to be a defined and specific issue for which there is justification to broadcast through a theme channel on the DTT array. Notwithstanding the aforementioned, the bidder will be required to notify in advance its intention to devote its broadcasts to news.

- A theme channel transmitter may finance its broadcasting (other than children's channels which may not be financed through commercials) through commercials or by charging subscribers a fee for receiving the broadcasts of the same channel.

- A holder of cable or satellite broadcasting license, in accordance as defined in the Communications Law (Telecommunications and Broadcasting) 1982 (the "Communications Law"), may not participate in the theme channel tender.

- An amendment to the Communications Law authorizes the Minister to promulgate regulations for determining the holdings of an Israeli citizen and resident in a Broadcasting Licensee pursuant to the Communications Law (currently, 26% of each of the "Means of Control", as defined in the Law, in a licensee). Granting such authority to the Minister may simplify the regulatory requirements applicable to HOT in this regard.

Narrow Package Proposal

In September 2012, the Broadcasting Council made a decision to compel both multi-channel television broadcasters to offer, in parallel with a basic package of channels, a more limited basic package of channels (the "Narrow Package") on a pilot basis, with the goal of reducing the cost of the most basic pay television services. We launched our Narrow Package on December 2, 2012, which included all the channels distributed through the DTT array and 10 other channels (16 channels in total), which included sport, children and youth, series and movies and global news in accordance with the Broadcasting Council's decision.

The Communications Law has been amended in the following manner to regulate the introduction of a narrow broadcasts package:

- The Minister shall be authorized to determine, for a limited period not exceeding three years (subject to extension in consultation with the Broadcasting Council), provisions regarding the obligation of a cable and satellite broadcasting license holders ("a Broadcasting Licensee") to generally offer a narrow package containing a limited number of channels (the "Basic Narrow Package"), in accordance with the guidelines determined by the Minister regarding the mix of channels therein, and under a price determined by him. The Narrow Package will be offered in addition to the basic broadcasts package that Broadcasting Licensees must offer to all subscribers by law.

- The Broadcasting Council will be empowered to set the channels to be included in the Basic Narrow Package in accordance with the guidelines, and to set instructions regarding the publication of a Basic Narrow package.

- A Broadcasting Licensee shall not charge a subscriber of the Narrow Package payments, beyond the price thereof, for ancillary services such as installation fees, installation costs, etc. (the "Related Services"), if it does not charge payment for those Related Services from subscribers of other packages. If a Broadcasting Licensee charges fees for such Related Services, the payment charged to Basic Narrow Package subscribers shall not exceed the payment charged to subscribers of other packages.

- If the Minister exercises his authority to require a Broadcasting Licensee to offer a Basic Narrow Package, the Council will not be authorized to set rules with regard to a Broadcasting Licensee's obligation to offer such a package.

- In August 2013, the Council published a proposal regarding a Basic Narrow Package to be offered by a Broadcasting Licensee. As of the date of these Listing Particulars, no final policy has been determined.

- On February 20, 2014, HOT and the satellite company began to offer new basic packages to their subscribers at a tariff of NIS 120 that included a range of channels including DTT channels and the designated channels, as well as additional channels. In addition the companies will permit every customer to add, at his choice, single channels at the list price.

- As part of the new basic packages, HOT began to offer two plans: one aimed at children and the other intended for sports fans.

- HOT estimates that the basic packages offered by it are likely to lead to a significant increase in the number of subscribers to the basic package in a way that may harm HOT's business results.

Ownership of Television Channels

We are subject to regulatory limitations in connection with the ownership and production of television channels, including the rules set forth in the Communications Rules (Telecommunication and Broadcasting) (Broadcasting Licensees), 5748 1987 ("Communications Rules"). Pursuant to the provisions of the Communications Rules we are subject to restrictions regarding the number of channels that we can produce ourselves or in collaboration with another broadcasting license holder, such that the number of such television channels does not exceed two fifths of the number of independent channels that we broadcast on our network. However, we are subject to more restrictive ownership rules pursuant to the decision of the Broadcasting Council approving the Israeli cable companies merger in 2006. Accordingly, the number of channels that we can produce, including channels produced by our predecessor companies at the date of approval, must not exceed 20% of the independent channels that we broadcast. In addition to those channels, we are also permitted to hold controlling interests in additional channels so long as the number of such channels does not exceed 4% of the total independent channels that we broadcast and we are not the controlling shareholder of such independent channels.

We are also subject to the decision of the Commissioner approving the cable merger in 2006, pursuant to which we are only permitted to hold means of control in the HOT 3 Channel and the HOT Movies Channel (previously Channels 3 and 4) and four additional channels which were not broadcasted in the cable infrastructure as of January 2005, or a similar channel to these channels, unless we obtain prior approval of the Commissioner.

Minimum Investment in Local Content Productions

In accordance with the Communications Law, the Communications Rules and decisions of the Broadcasting Council, we are required to invest at least 8% of our annual television revenues from subscriber fees in local productions to be broadcast for the first time over our network. During 2010, 2011, 2012, and 2013 we fulfilled the required rate of investment. In 2011, the Broadcasting Council notified our Group that with effect from 2012, the revenues from subscription fees forming the basis for calculating the minimum investment requirement must also include all payments made by customers for the purpose of receiving their broadcasts, including revenues from the rental of set top boxes. We disputed this stipulation in writing to the Broadcasting Council. In response, the Broadcasting Council has permitted us to deploy the additional investment amount required in 2012 as a result of the new basis of calculation over the next three years in equal proportions.

The Israeli Ministry of Communications has appointed two committees to review the regulation of commercial broadcasting and local content production on commercial channels. See "*Proposed Changes in the Regulation of Audio-Visual Content*" below.

Special Licenses for Cable Broadcasts

Under the Communications Law, the Broadcasting Council is permitted to grant special licenses for cable broadcasts with a view to increasing the number of competitors involved in the broadcasting industry. In such cases, the general broadcasting licensees will be required to transmit the special licensee's broadcasts over their networks subject to the condition that the capacity available to the general broadcasting licensee will not fall below five sixths of the total capacity available over its network. In August 2007, the Israeli Minister of Communications determined the minimum carriage fee to be paid by a special licensee for distribution of its channel by a general cable broadcasting licensee. We are also required to maintain a minimum level of capacity for transmitting special licensee broadcasts pursuant to the conditions established for approving the Israeli cable consolidation. In addition, in accordance with the Communications Law, the Broadcasting Council is permitted to grant special licenses to the broadcasters of designated channels. Unlike other special licensees, the designated channel licensees are not obliged to pay a carriage fee to the general broadcasting licensee although the parties are free to agree to such consideration contractually.

Prohibition of Termination Fees

In 2011, the Communications Law was amended to prohibit a license holder from collecting an exit or termination fee from residential and business subscribers whose monthly bill is under NIS 5,000 who terminate their agreement with the license holder before the end of the minimum term of such agreement. While a license holder is permitted to collect the balance of the payment in respect of end user equipment purchased by the subscriber and debts accumulated by the subscriber, if payment for end user equipment is due in installments, the license holder is not permitted to demand immediate repayment of the entire balance. With regards to some residential and small business subscribers with contracts which predate the effectiveness of the amendment, the termination fee is limited to a maximum of 8% of the subscriber's monthly account, multiplied by the number of months remaining until the end of the commitment period. The maximum amount does not include the purchase price or rental amount of end user equipment.

In addition, pursuant to a decision of the Broadcasting Council in 2011, we are permitted to collect payments from new subscribers only in respect of services provided in the past month and cannot collect payment for service in advance. This decision has had an impact on our cash flows as we transition customers to a post-services billing basis.

Prohibition on Advertising

The Communications Law prohibits broadcasting licensees from including commercials in their broadcasts other than promotional advertisements for upcoming broadcasts. Commercial channels, including certain "must carry" channels, and foreign channels may be permitted to include commercials on their channels.

Proposed Transition from Franchises to Licenses for Television Broadcasts

Currently, the commercial DTT channels such as Channel 2 and Channel 10 are operated on an exclusive franchisee basis granted by the Second Authority. However, an amendment to the Second Authority Law, passed in February 2011, proposes to increase the number of broadcasters by transitioning from the exclusive franchisee system to a non-exclusive license system under which any entity which satisfies certain threshold conditions may apply for a commercial broadcasting license.

In September 2014, an additional proposed amendment to the Second Authority Law was published which provides for the transition from an exclusive franchisee system to a non-exclusive license system in April 2015.

Fees and Royalty Payments

The Communications Law obligates general telecommunications licensees to pay royalties to the State of Israel. The regulations enacted under the Communications Law provide for an ongoing decrease in the rate of royalties applicable to such licensees, which have been reduced to 0% commencing on January 2, 2013.

In addition, in accordance with an agreement dated July 2001 between HOT and the State of Israel regarding the consideration payable to the State of Israel for the cable infrastructure, HOT has undertaken to pay the State of Israel payments at a rate of up to 4% of its revenue until the end of 2014. Under this agreement, in each year ended December 31, 2011, 2012 and 2013, and in the nine months ended September 30, 2014, we incurred expenses with the State of Israel of NIS 57 million, NIS 58 million, NIS 58 million and NIS 41 million, respectively. See "*General Information—Material Agreements—Agreement with the State of Israel relating to ownership of our cable network*".

Proposed Changes in the Regulation of Audio-visual Content

On February 5, 2014, the Minister of Communications announced the creation of a public committee (the "Shecter Committee") for evaluating the future arrangement of commercial broadcasts against the background of technological developments, changes to viewing habits, and the move to broadcasts over the internet. The Committee will examine, and formulate its recommendations on, amongst other things, the principles and rules of regulation that should apply to all players (both new and traditional) that engage in the distribution of audio-visual contents.

The Schecter Committee published a public hearing for reference and positions focusing mainly on the principles of regulation and rules that apply to all bodies (new and traditional) engaged in distributing audio-visual content, including via the internet, and alternative models of supervision in the field of audio-visual content. HOT submitted its position to the Committee in writing on April 24, 2014, and presented its comments orally to the Committee. HOT believes that the entry of new competitors to the field of broadcasting over the internet, especially if they are not to be subject to regulation (or on the same terms as traditional broadcasters), may have an effect of intensifying competition in the sector and may have a negative impact on business operations in the broadcasting industry. The Committee has yet to publish its recommendations. On August 13, 2014, the Shecter Committee published an interim report proposing: (i) the current regulatory regime shall not be lightened until HOT market share decreases to a rate that will be recommended later by the Committee; (ii) to reduce certain content demands on the multichannel broadcasters but not the size of the commitment to invest in local content; and (iii) to regulate certain special obligations of multichannel broadcasters that own infrastructure, taking into account the licensees' ownership of both the infrastructure and the services provided. The Shecter Committee solicited additional responses from the public regarding its interim recommendations.

Broadband Internet Infrastructure Access and Fixed Line Telephony

Overview

Our broadband internet infrastructure access and fixed line telephony operations are subject to extensive legislative and regulatory requirements that apply to the telecommunications industry in Israel, including the Communications Law, and the regulations enacted in accordance with it. Our operations are subject to the supervision of the Israeli Ministry of Communications (the "Ministry").

We provide our broadband internet infrastructure access, fixed line telephony services and certain other communication services pursuant to a general domestic operator license for the provision of fixed line services in Israel and a general license for provision of telecom services in several towns in Judea and Samaria (the "Fixed Line Licenses"). Among other things, the Fixed Line Licenses prohibit disconnection of any subscriber from the services other than in certain specified cases listed in therein. Our Fixed Line Licenses are valid until 2023 and may be extended for periods of 10 years at a time upon approval by the Ministry. As a general rule, these Licenses are non transferable. In addition, the transfer of means of control in the relevant license holders may be subject to prior approval of the Ministry.

Certain key features of the regulations and licenses governing our broadband internet infrastructure access and fixed line telephony operations, including certain proposed regulatory changes that may have a significant impact on our operations, are set forth below.

Decision Regarding the Creation of a Wholesale Market

In February 2010, the Israeli Ministry of Communications ("the Ministry") and Ministry of Finance appointed a commission headed by the former General Manager of the Israeli Ministry of Industry, Trade and Labor, Amir Hayek (the "Hayek Committee"), to review and make recommendations with respect to Bezeq's retail telephony rates and the setting of rates for different segments with regard to provision of services in the broadband internet infrastructure access wholesale market. The Hayek Committee published its recommendations in October 2011. In May 2012, the Ministry published the final policy document on the subject of the expansion of the level of competition in the fixed line communications field, which primarily adopts the recommendations made by the Hayek Committee.

On May 2, 2012, the Ministry published the final policy document on the subject of the expansion of the level of competition in the fixed line communications field adopting the main recommendations made by the Hayek Committee in October 2011 with respect to the creation of a wholesale market for fixed-line communications. The Ministry adopted the following principles affecting the broadband internet infrastructure access market:

- In order to increase competition between providers of fixed line communications services, owners of nationwide fixed line access networks who also provide retail communications services ("infrastructure owners"), shall be obliged to sell wholesale services to communications license holders, who will provide services based on these infrastructures ("service providers"), including bitstream access, leasing of access elements (unbundling), leasing of dark fibers, duct access and transmission services (the "wholesale services"), on the basis of non discriminatory terms.

- A service provider may issue a request to the infrastructure owners to make use of their network elements, including wholesale services. Service providers and infrastructure owners will conduct commercial negotiations to reach a usage agreement or provision of the aforementioned services, and immediately upon the signing of such an agreement, each infrastructure owner shall publish a reference offer. The reference offer will include the services that are included in the agreement between the infrastructure owner and the service provider, according to the tariffs and the terms set in the agreement, as well as other wholesale services, in accordance with a list that will be published by the Ministry from time to time, including an offered price for each service. An infrastructure owner shall not be allowed to offer volume discounts to a service provider. This offer will be offered to anyone who requests, on equitable and non discriminatory terms, it will be available for perusal by any seeker, and will be presented on the website of the infrastructure owner, as well as on the website of the Israeli Ministry of Communications. For the purposes of this paragraph, an "agreement" means an agreement between an infrastructure owner and a significant service provider, which is not a related company to an infrastructure owner.

- Should the Minister of Communications (the "Ministry") see that a tariff or a term was demanded by an infrastructure owner, or a tariff or a term was agreed to, for a wholesale service, which is not reasonable, may harm competition, may harm the public interest, or may harm the interests of a service provider, the Minister shall set that tariff or term. In the absence of a demand or an agreement on one or more terms or on a tariff, as stated above, the Minister shall set them, provided that an agreement has been signed or 6 months have passed since the issuance of this document, whichever shall come first, according to his authority under the Communications Law.

- The ancillary activities, services and arrangements to the wholesale services (rental of space, maintenance, etc.), arrangements for ordering, payment terms, and provisioning, and their tariffs shall also be set in commercial negotiations between service providers and infrastructure owners, and infrastructure owners shall be allowed to demand reasonable and equitable prices. In the absence of agreement between the relevant license holders, the Minister shall decide according to his authority under the Communications Law.

- The Israeli Ministry of Communications shall make use of a model for enforcement and supervision, which will help the Ministry ensure that the tariffs set in the reference offers are in accordance with the conditions set out above, and to monitor the actual provision of the wholesale services in a reasonable and non discriminatory manner, and to track the level of implementation of the wholesale market.

- Infrastructure owners shall provide, on an on-going basis, information about ordering of wholesale services and the deployment of existing infrastructures, to other license holders, in accordance with the requirements of the Ministry and with exceptions that will be set by it.

- When a reference offer is published by an infrastructure owner, related corporations to that owner shall be allowed to purchase wholesale services in order to provide services according to the terms of their licenses, on the condition that such wholesale services are offered without discrimination to any seeker.

- When Bezeq publishes a reference offer, Bezeq shall be allowed to supply telephony services which are not provided over broadband networks, to its subsidiaries, in a wholesale arrangement. Should Bezeq decide to provide the aforementioned services, it shall provide them concurrently to any license holder who seeks them without discrimination, all subject to the relevant regulations regarding Bezeq subsidiaries.

- Within nine months of the publication of the reference offer, as described above, the Minister shall order the abolition of the structure separation between an infrastructure owner who published the reference offer, and providers of international calls and ISP services which are related corporations to that infrastructure owner, so that Bezeq, for example, will be allowed to provide to its subscribers bundles which are not disintegrable of all its services (local and international telephony, broadband internet access and ISP service), unless the Minister shall determine that in the situation of the wholesale market at that time, abolition of structural separation may cause significant harm to competition or to the public interest. Should the aforementioned structural separation be abolished, it will be replaced with accounting separation, in a format that will be set by the Minister.

- The Ministry shall set indicators or conditions under which the Minister may conclude that the level of development of the wholesale market and the level of development of competition based on bundles, including fixed and mobile services in the household sector, allows the granting of easements of the structural separation between an infrastructure owner and a radio telephone operator which is a related company, or the abolition of the said structural separation and its replacement with accounting separation.

- Should the Minister decide that the development of the wholesale market and the level of development of competition based on bundles of fixed and mobile services in the household sector allow it, the Minister shall consider the abolition of the structural separation between an infrastructure owner and a radio telephone operator which is a related company.

- The Minister shall review the matter of the disintegrability of television broadcasting services, included in service bundles which also include telecommunications services (whether fixed or mobile) or broadband internet services. The abolition of the structural separation between infrastructure owners and the multi-channel broadcasting sector will be done while providing a reasonable opportunity to provide a basic television broadcasting package on the internet by operators who do not have a fixed nationwide network.

- If the wholesale market will not develop in a sound and proper manner, according to indicators set for this purpose, within 24 months of the publication of this policy document, the Minister shall act to enforce structural separation between the infrastructure of a fixed domestic license holder and the services provided by that license holder to end users.

- Within six months of the publication of the reference offer, as described above, the Minister will act to change the tariff control mechanism over the tariffs of Bezeq, such that the control shall be exercised by setting a maximum tariff.

- The Ministry shall set, within nine months, a regulatory policy with the aim of increasing investment in, and upgrading the fixed communications infrastructure in Israel.

The Communications Law was amended in August 2013 in the following manner:

- The Minister's authority to determine payments under the law can include prices based on reference points (benchmark).

- The Minister may determine linkage payments by law based on indexes other than the CPI.

- To clarify the Minister's authority to obligate a license holder with respect to activities, services and ancillary arrangements related to interconnection or use of infrastructures.

- The Minister shall be authorized to issue instructions to immediately apply to a license holder for a limited period, if the actions of the licensee raise concern of immediate harm to competition, the public or the interests of another operator. The licensee will be given the opportunity to be heard as soon as possible, under the circumstances, after the instruction.

- The Minister may determine, with the consent of the Minister of Finance, the maximum or minimum charges for telecommunications services.

- The Minister may impose a structural separation between the infrastructure of a domestic operator and the services it provides to the end customers, if necessary.

Following publication of the policy document, on May 28, 2012, the Ministry of Communications initiated the establishment of an engineering forum, with the participation of the relevant telecommunications operators, which held a number of meetings regarding the wholesale services. In parallel, the company has conducted negotiations with various operators. Since in the Ministry's opinion the relevant time for conducting negotiations between the operators has elapsed, the issue has returned to the Ministry in order for a policy on the matter to be formulated.

On June 9, 2013, the Ministry published a hearing on the subject of the list of wholesale services for the shelf offer. HOT Telecom has submitted its position as part of the hearing. Furthermore, on June 19, 2013, the Ministry published a survey of retail costs in the form of a report defined by the Ministry. HOT Telecom has submitted its comments regarding the survey and the reporting format required.

On January 15, 2014, HOT Telecom received the decision of the Ministry regarding the list of wholesale services that the infrastructure owners (HOT Telecom and Bezeq) shall be obligated to offer to the suppliers of the services. In accordance with the decision, the list currently includes the following services:

- Managed bitstream access at the national connection level and at the regional or local connection level on the broadband internet route of the infrastructure owners.

- Dismantling into segments from the optical fibers/metal cable interface, as the case may be, and until the first socket in the end user's home (sub loop unbundling). At this stage the service shall be offered in the Bezeq network only and not in the HOT Telecom network.

- Leasing dark fibers in the access network, the collection network and the core network.

- Leasing optical wavelengths (virtual dark fiber) in the core network.

- Access to the physical infrastructure of ducts, micro ducts, manholes, boxes and poles in the access network, the collection network and the core network.

- Retail telephony services.

In addition, the Ministry has published hearings regarding the provision of wholesale services (including regarding service file for bitstream access services at the national, regional and local level and the services files for use in passive infrastructures (dark fibers, manholes, ducts and above ground network)), and regarding the maximum tariffs for wholesale services in the Bezeq network, to which HOT Telecom submitted comments. Following the review of the positions submitted with respect to the service file for bitstream access services, and additional hearings published by the Ministry in February and August 2014, on November 17, 2014, HOT Telecom received a decision of the Minister regarding the regulation of wholesale services, including the method of setting wholesale services rates on fixed-line networks. According to the decision, after the hearing on this matter, the Minister adopted recommendations to amend infrastructure owners' licenses and determined the service files for broadband access and wholesale telephony services. The regulated services of the service files are to be provided within three to six months of the decision.

In addition, the decision included final maximum rates that can be collected for wholesale services by Bezeq from other license holders who make use of its infrastructure for the years 2014 to 2018. The decision stated that the Minister intends to have the draft regulations, and the rates contained therein, approved promptly by the Minister of Finance. HOT is currently assessing the impact of the decision, but, at this stage, is unable to anticipate the full effect on its business.

Implementation of Universal Service Obligations and Deployment of Fixed Lines

Similar to the Broadcasting Licenses, the Fixed Line Licenses contain a requirement to extend our services to customers in all areas of Israel even where it would not be economically profitable to do so. Although we extend our services to most of Israel, there are currently certain areas of the country where we do not provide these services and we had applied for exemptions from the terms of the Fixed Line Licenses. Pursuant to the Fixed Line Licenses we are also required to provide network access service to other license holders on reasonable commercial terms so as to enable them to provide services to their subscribers and we must also avoid preferential provision of network access to our affiliated companies, including with regard to payment terms and service availability.

On June 22, 2014, a report (the "Report") was submitted to the Minister (the "Minister"), by an Advisory Committee to the Minister in accordance with the Communication Regulations (Telecommunications and Broadcasts) (Advisory Committee), 2011 (respectively, the "Committee" and "Regulations") recommending the considerations that should be applied in relation to applications submitted by Bezeq and HOT Telecom for exemption or deferral of the obligation to extend service. Amongst other things, the Committee recommended that there should be no justification to delay or limit the provision of telecommunications services in any area nationwide on the basis of cost-benefit considerations. The Report concludes that cost-benefit considerations should be taken into account only for applications to specifically restrict or deny the provision of communications services to specific customers (an "Individual Application"), rather than for a specific area or number of requests from the same area (a "General Request").

The Committee also recommended that limitations on the provision of communication services through exemptions or deferrals should, as a rule, be done only temporarily and recommended a temporary exemption for a fixed period of 24 months. It also recommended license holders must report any change in the circumstances surrounding an application for which an exemption was approved, and if the circumstances upon which the exemption was based no longer exist the universal obligation upon the licensee will apply immediately and without delay. In addition, the Committee recommended certain timelines for the implementation of the universal service obligation in case of rejection of an application for exemption or deferral.

The Committee further recommended the rejection of all existing applications made by HOT Telecom, except with regard to one specific application relating to a particular settlement for which it suggests a deferral for a period of 24 months, subject to the provision of an alternative solution by HOT Telecom.

On July 17, 2014, HOT Telecom filed its detailed response to the Committee's recommendations to the Minister of Communications.

On November 16, 2014, the Minister of Communications published his decision to adopt the recommendations of the Committee. As part of that decision, the Minister accepted the Committee's recommendations with respect to the rejection of all existing applications for deferral and/or exemption made by HOT Telecom (subject to the exception noted above). As a result, HOT is required to implement its universal service obligations with respect to the first stage of the deployment, in 60 local jurisdictions determined by the Minister, within 24 months from the date of the adoption of the Committee's recommendations. As noted above, the prescribed pace of implementation of the obligations will be reviewed annually, taking into account any technological and regulatory changes. It was further decided that the Committee shall submit to the Minister of Communications a list of recommended local jurisdictions for the next deployment stage, if required in accordance with the then-available technological alternatives.

In addition, in his decision the Minister applied to the Judea and Samaria Communications Headquarter Officer requesting that the Civil Administration act in order to adopt the Committee's recommendations in the areas of Judea and

Samaria, and the Minister instructed the Ministry of Communications to prescribe regulations that will impose the obligation to offer its services in the areas of Judea and Samaria on the broadcasting company.

HOT is currently unable to estimate the full impact of the Minister's decision on its business, but expects that implementation may have a negative impact on its results given that it will be required to expend additional capital expenditure for which it does not expect to derive a commensurate gain.

Hearing regarding "margin squeeze"

On November 17, 2014, the Ministry of Communications published a hearing regarding the creation of a process to examine the potential use of "margin squeeze" by owners of fixed telecommunications infrastructure. The purpose of the hearing is to examine whether fixed infrastructure owners engage in the practice of lowering retail price offerings in order to reduce the margin between retail prices and the wholesale price of using infrastructure for service providers who do not own fixed infrastructures. The consequence of this is the erosion of profitability for such service providers and their eventual exclusion from the market.

It is proposed that HOT and Bezeq will be required to provide the Ministry of Communications with every retail offer they intend to make to new or existing subscribers, and that the Ministry may notify the infrastructure owner, if there is a concern over "margin squeeze," that it is forbidden to offer the proposed package. HOT has been given the opportunity to respond and is currently studying the terms of the hearing. At this stage, HOT is unable to fully evaluate the consequences of the proposals on the Company.

Removal of Certain Restrictions on Bezeq

In 2010, following the reduction in the market share of Bezeq, the incumbent telephony services provider in Israel, in the field of land based communications below 85%, the Israeli Ministry of Communications announced that it was amending the licenses granted to Bezeq and its subsidiaries thus enabling it to commence marketing multiple play packages to residential customers and allowing it to market its ISP and fixed line telephony and broadband internet infrastructure access services together. To the best of our knowledge, Bezeq currently markets two communications multiple play packages which include: (i) internet infrastructure access services (ADSL) as well as ISP services from subsidiary Bezeq International; and (ii) internet infrastructure access services (ADSL), ISP services from subsidiary Bezeq International as well as fixed line telephony services. Bezeq also recently began to market bundles including its fixed line domestic services (both telephony and broadband internet infrastructure access) with mobile services provided by its subsidiary, Pelephone. Bezeq has recently been permitted to provide multiple play packages to business customers as well. However, Bezeq will not be permitted to discriminate with its internet infrastructure access services prices between a subscriber that uses the service together with telephone service and a subscriber that only uses the internet infrastructure access service.

Based on publicly available sources, Bezeq has filed a merger notice with the Israeli Antitrust Commissioner, regarding its proposed merger with YES. Based on publicly available information disclosed by Bezeq and the Israeli Antitrust Authority, the Israeli Antitrust Commissioner has published, on March 26, 2014, the new conditions for the approval of the merger between Bezeq and YES. The main conditions are as follows:

1. Bezeq will not set any limitation on internet services consumption, based on the customer's volume usage, including setting the price or quality of service in accordance with the customer's volume usage;

2. Bezeq will deduct from ISPs payments for GIGA connections the charges that stem from IPTV usage. For that purpose, the IPTV usage will be calculated by the number of TV subscribers reported by the IPTV provider multiplied by a 2 Mbps bandwidth;

3. Bezeq will not limit or block the customer's ability to use any service or application on the internet at any time, directly or in directly, including by way of pricing or by technological means;

4. Bezeq's TV services will be sold and provided under equal terms to all Bezeq customers, whether they purchase additional services from it or not. The TV price in the bundle will be presented separately from the other services. Bezeq's internet services will also be provided under equal terms to all its customers, whether they purchase additional services from it or not; and

5. Bezeq and YES will cancel all exclusivity agreements except original local productions, and shall not be parties to such agreements anymore. Furthermore, from the merger approval date and for a period of 2 years, Bezeq shall not prevent any party, except broadcasting license holders at the date of the decision, to purchase rights in original local productions. This provision shall not apply to news productions.

Israel Electric Company Infrastructure

In 2010, the Israeli Ministry of Communications (the "Ministry") announced that in order to leverage the existing infrastructure owned by the Israeli Electric Corporation (a government owned company and the principal owner of the electric transmission and distribution network in Israel), with a view to increasing competition in the fixed line telephony and broadband internet infrastructure access market, it intended to grant a license to a joint venture between the Israeli Electric Corporation (the "IEC") and a private-sector partner pursuant to which such joint venture would be permitted to provide various communication services, including wholesale products to other telecommunication licensees and fixed line telephony and broadband internet access to large business customers. The procedure to select the private sector partner to the Israeli Electric Corporation has also been initiated.

In June 2013, the committee for selecting an investor and a controlling shareholder in the joint communication project with the IEC announced that it chose a group of investors for the foundation of a communication venture designed to establish a network based on fiber optics, headed by Via Europe which holds 60% of the venture, along with the IEC which holds 40%.

On August 27, 2013, the Minister granted a general license to provide inner-country telecommunications services (Infrastructure) to I.B.C Israel Broadband Company (2013) Ltd. (hereinafter "IBC"). The permit requires IBC to set up a nationally deployed fiber-optics-based communication network, in accordance with the milestones set out in the license, additionally to the license to provide domestic wired telecommunications services through it to other license holders. IBC was also granted by the Ministry, on that date, to the best of the company's knowledge, a special license to provide a domestic wired data communications services which allows it to provide services to large business customers, with annual revenue of minimally NIS 30 million, as well as to government agencies and local authorities.

On May 27, 2014, the Minister of Communications announced the creation of an inter-ministerial committee headed by the Director General of the Ministry and attended by senior representatives from the Ministry of Interior, Ministry of Finance, Ministry of Justice, and the Energy and Water Resources Minister of Israel. The purpose of the committee is to discuss adopting regulation to enable IBC deploy an enterprise optical fiber infrastructure and remove barriers to entry in that sector.

We believe that the granting of such licenses could result in increased competition in the domestic wired telecommunications services sector and thus significantly affect the results of HOT. HOT's assessment by its nature is forward-looking information and may differ significantly from actual results due to factors outside of HOT's control.

Telephony Services over Broadband Internet

In 2007, the Israeli Ministry of Communications published the licensing policy for the provision of telephony services via broadband internet infrastructure or Voice Over Broadband. The policy stipulated that the provision of Voice Over Broadband services will be regulated via general specific licenses to be granted pursuant to the provisions of the Communications Regulations (Telecommunications and Broadcasting) (Processes and Conditions for Receipt of a General Specific License), 5764 2004. A general specific licensee will be permitted to provide telephony services using VoIP or VOB technology via the broadband internet infrastructure access service of a general fixed line licensee (currently only us and Bezeq). This policy thus permits a general specific licensee to provide services using a broadband licensee's network without the requirement to pay the owner of the network infrastructure charge, although they still must pay interconnection fees, whilst competing with it in providing fixed line telephony services.

Elimination of Gigabit Ethernet Transmissions Fees

In the Israeli broadband internet market, the broadband internet infrastructure access providers, Bezeq and us, receive payment from subscribers for access to the infrastructure and from ISPs for the Gigabit Ethernet (GBE) connections used as part of the connection to the internet. On June 26, 2012, the Israeli Ministry of Communications announced a hearing and request for comment on the subject of GBE connections for ISPs. The proposal was issued in light of the expectation that the use of the television broadcasting services via the open internet network (OTT) will increase, thus increasing the need for internet bandwidth. In order to ease the entry of additional players into the broadcasting field through OTT, the Israeli Ministry of Communications is considering changing the service files which describe the fee structure charged with respect to the broadband internet access services provided to customers, so that such fees and services include all of the components that are required to provide the connection speeds for the purchasers of the service, including the carrying of traffic on the access and core networks. Thus, the proposed legislation would eliminate the payments that are currently paid to the owners of the infrastructure by the ISPs for the GBE connections, other than the transmission from point to point segment which connects between the networks of the owners of the infrastructure and the facilities of the ISPs and which may be purchased from the owners of the infrastructure or from one of the other appropriate license holders, who provide GBE transmissions. It was also proposed that the owners of the infrastructure maintain a minimum number of connection points on the basis of geographic regions and regulate the ability of the ISP to select a certain number of connection points. The proposal also provides that the owners of the infrastructure will be required to provide GBE connections at a certain rate based on the aggregate connection rate that has been ordered by the subscribers of that ISP. The GBE proposal could reduce the revenue our broadband internet infrastructure access segment receives as a result of the prohibition on charging ISPs for the GBE connections.

Fees and Royalty Payments

The regulations enacted under the Communications Law obligate HOT Telecom to make royalty payments to the State of Israel in connection with its domestic fixed line operator license. These royalty payments were reduced to zero in January 2013.

Internet Service Provider

We provide our ISP services through our subsidiary, HOT Net, pursuant to a special license to provide internet access services (the "ISP License"). The ISP license permits us to provide various services, including internet access services, email services, installation and maintenance of a network for transmission of data, documents and electronic messages (EDI), processing, management and routing of messages and system administration services (including monitoring and handling malfunctions, information security, information systems and information compression and securing access to service recipient's computer). Under the terms of the ISP License, we are required to provide ISP services to any customer or other ISP license holders, including to customers of other broadband internet infrastructure access providers, without discrimination and under identical terms and conditions. Our ISP License is valid until December 31, 2015, and may be extended upon approval by the Israeli Ministry of Communications (the "Ministry"). As a general rule, the transfer of any means of control in a relevant license holder is subject to prior approval of the Ministry. On October 31, 2012, the Ministry published an amendment applicable to all licenses issued to ISP providers including our ISP License. The amendment introduced certain provisions mainly relating to consumer protection.

Mobile

Our mobile operations are subject to the Communications Law, the Telegraphy Ordinance New Version, 1972, and the regulations enacted in accordance with them. We are also subject to the Planning and Construction Act and regulations with regard to site construction, the Consumer Protection Law, 1981, the Non Ionising Radiation Law and the Law for the Prevention of Environmental Hazards (Civil Claims), 1992, which enables class action claims in cases of radiation contamination. We provide our mobile services pursuant to a non exclusive license to erect, maintain and operate a mobile system and to provide mobile services (the "Mobile License"). The Mobile License was amended in September 2011 to add additional frequencies in relation to the creation of a UMTS network. The Mobile License with respect to the main original frequencies which we use to deliver our iDEN-based mobile services is valid until February 2016. The Mobile License with respect to the additional frequencies which we will utilize to provide UMTS-based mobile services is valid until September 2031. The Mobile License may be extended for periods of six years at a time upon approval by the Israeli Ministry of Communications (the "Ministry"). As a general rule, the Mobile License is non transferable, and the transfer of any means of control in a relevant license holder is subject to prior approval of the Ministry.

Certain key features of the regulations and licenses governing our mobile operations, including certain proposed regulatory changes that may have a significant impact on our operations, are set forth below.

On July 2, 2014, the Ministry published a tender for a mobile phone license for the provision of advanced services using 4G-LTE technology, through which a total of eight frequency bands in the area of 1,800 MHz will be allocated (with a width of 5 MHz). On November 18, 2014, HOT Mobile submitted its offer in response to the tender.

The draft tender clarified that a licensee may enter into a network sharing agreement with another licensee subject to certain conditions. As a result, HOT Mobile has updated its request for approval by the Ministry of the Joint Network Agreement with Partner accordingly.

In connection with this tender process, the Ministry announced its decision to allow all existing mobile operators wishing to upgrade their systems immediately to use the frequency bandwidth of 5 MHz (X2) in the area of 1,800 MHz LTE technology. If the operator does not currently have such an allocation, the Ministry will assign them a temporary frequency bandwidth to use LTE technology until the end of the tender proceedings. However, companies will be required to avoid discrimination between operators that are being hosted on their networks, such as virtual operators or operators with domestic roaming agreements, in terms of the level of technology offered to their subscribers. In addition, companies will not be able to discriminate between subscribers with regards to the price of services, and will not be able to charge an additional cost for these 4G services, until such time as the launch of LTE after the publication of the tender winners and receiving their revised frequencies license. Companies may also not raise fares in light of this upgrade to customers, virtual operators or users of domestic roaming. During July and August 2014, Partner Communications Ltd., Cellcom Israel Ltd. and Pelephone Communications Ltd., announced the launch of LTE. HOT Mobile intends to launch such services in the coming months. The outcome of the 4G-LTE tender process is provisionally expected to be announced during the first quarter of 2015.

Further, in connection with the tender, Golan Telecom and HOT Mobile may request to replace the deployment plan they attached to the tender for the UMTS frequencies with a deployment plan for 4G, provided investment in the 4G network is equivalent to investment in the original deployment plan they committed to, and that they will only use frequencies assigned to them in the 4G tender for the provision of 4G services.

On January 12, 2015, the Israeli Ministry of Communications informed HOT Mobile that based on the results of the tender it would be awarded a frequency bandwidth of 2X5MHz in the 1.8 GHz spectrum, for a license fee of NIS 34.5 million (up to half of which may be paid by way of provision of a bank guarantee, which may be refunded, in whole or in part, upon HOT Mobile reaching certain market share milestones). The tender results will be brought before the Minister of Communications for approval.

Construction of Network Sites

The regulation of network site construction and operation are primarily set forth in the Israeli National Zoning Plan 36A for Communications which was published in May 2002 ("National Zoning Plan 36"). The construction of radio access devices, which are cell sites of smaller dimensions, is further regulated in the Planning and Building Law and the Communications Law.

National Zoning Plan 36A

National Zoning Plan 36A (the "Plan") includes guidelines for constructing cell sites in order to provide mobile broadcasting and reception communications coverage throughout Israel, while preventing radiation hazards and minimizing damage to the environment and landscape. Plan sets forth the considerations that the planning and building authorities should take into account when issuing building permits for cell sites. These considerations include the satisfaction of safety standards meant to protect the public's health from non ionizing radiation emitting from cell sites, minimizing damage to the landscape and examining the effects of cell sites on their physical surroundings. However, the Plan is in the process of being revised. Current proposed changes will impose additional restrictions and requirements on the construction and operation of cell sites. On June 1, 2010, the National Council for Planning and Building approved the National Zoning Plan No. 36/A/1 version that incorporates all of the amendments to the Plan (the "Amended Plan"). The main amendments to the Plan are: (a) the Amended Plan provides for full liability for depreciated property claims on the mobile operators; (b) the Amended Plan prohibits the erection of poles in urban areas (excluding industrial zones) and in rural areas (excluding next to existing infrastructure); (c) the Amended Plan grants to the municipalities the authority to approve local zoning plans that will regulate the deployment of site; and (d) the Amended Plan demands a minimum distance of four meters between antenna poles on a rooftop.

The Amended Plan is subject to governmental approval, in accordance with the Planning and Building Law. It is unknown if, and when, the government intends to approve the Amended Plan. If the Amended Plan is approved, it may have a significant impact on our ability to get permits for our mobile sites. In addition, we may need to change the location of our future mobile network sites to less suitable locations, which may have an adverse effect on the quality and capacity of our mobile network coverage. The cost of complying with the Amended Plan might be substantial and may adversely affect our revenues and profits. The Amended Plan has not yet received the required approval.

Radio Access Devices

Most mobile operators have historically relied on an exemption from obtaining a building permit under the Construction and Planning Law for constructing rooftop mobile radio access devices, which was consistent with the Israeli Attorney General opinion on the matter. In May 2008 the District Court of Tel Aviv Jaffa, in its capacity as court of appeals, ruled that mobile operators' devices do not meet the exemption's requirements and therefore the exemption may not be relied upon. An appeal was filed against this ruling to the Supreme Court and the Israeli government notified the Supreme Court that it concurs with the appeals against the District Court ruling. Furthermore, in July 2008, a petition seeking to annul the Attorney General's opinion and apply the District Court ruling was filed with the Supreme Court by the Union of Local Authorities in Israel and certain local planning and building authorities which also requested to join our appeal and argue against the position of the State. In June 2009, another petition seeking similar remedies was also filed with the Supreme Court. The Supreme Court decided to hear both petitions and our appeal together. In September 2009, following publication of the recommendations of an inter-ministry committee established to examine the appropriateness of the future application of the exemption, the Attorney General concluded that the application of the exemption does not balance properly the different interests involved and therefore cannot continue. In March 2010 draft regulations were issued setting conditions for the application of the exemption, which include significant limitations on the ability to construct radio access devices based on such exemption, including a limitation of the number of such radio access devices to 5% of the total number of cell sites constructed or to be constructed with a building permit in a certain area during a certain period (which will render the construction of radio access devices based on the exemption practically impossible), and circumstances in which a request for a building permit for the radio access device was filed and no resolution has been granted within the timeframe set in the regulations. In September 2010, the Supreme Court issued an interim order prohibiting further construction of radio access devices in mobile networks in reliance on the exemption. The interim order, that was issued pursuant to the Israeli Attorney General's request, will be in effect until the enactment of the proposed regulations or other decision by the court. A further decision of the Supreme Court in February 2011, states that the order will not apply to the replacement of existing radio access devices under certain conditions. In September 2010, pursuant to the Israeli Attorney General's request, the Supreme Court issued an interim order prohibiting further construction of radio access devices for mobile networks in reliance on the exemption mentioned above. In September 2011, the Supreme Court permitted HOT Mobile and Golan Telecom to use the exemption in order to erect their new UMTS networks until July 31, 2011 (subsequently extended several times, most recently on September 30, 2013), provided, however, that no more than 40% of the facilities that the operator erects are within the jurisdiction of any municipality, an affidavit is submitted in advance to the municipality's engineer and the safety zone does not exceed four meters and does not deviate from the boundaries of the lot.

The Supreme Court has given an order nisi in the petitions. The State replied to the petitions arguing that a perpetual injunction should be awarded by the court preventing the erection of access devices until the completion of legislation of the regulation by the Ministry and Ministry of Interior. The State also replied that the exemption for the erection of access devices for HOT Mobile and Golan should last until June 30, 2014. Until a final decision has been made by the Supreme Court, HOT Mobile will be allowed to continue the deployment of its UMTS network. If this exemption is not extended by the Supreme Court, we will have to seek permits, which could result in substantial delays and costs and, as a result, we may be unable to meet our license requirements.

Radio access devices also require permits from the Israeli Ministry of Environmental Protection. The local planning and building committee's engineer may object to the exemption for a permit requirement prior to installing radio access devices. An annulment of, or inability to rely on, or substantial limitation of, the exemption could adversely affect our existing network and network build out (particularly given the objection of some local planning and building authorities to grant due permits where required), could have a negative impact on our ability to obtain environmental permits for these sites, could negatively affect the extent, quality, capacity and coverage of our network and have a negative impact on our ability to continue to market our mobile services effectively.

Indemnification Obligations

In January 2006, the Planning and Building Law was amended to provide that as a condition for issuing a building permit for a cell site, local building and planning committees shall require letters of indemnification from mobile operators indemnifying the committees for possible depreciation claims under Section 197 of the Planning and Construction Law, in accordance with the directives of the National Council for Planning and Building. Section 197 establishes that a property owner whose property value has depreciated as a result of the approval of a building plan that applies to his property or neighboring properties may be entitled to compensation from the local building and planning committee. In February 2007, the Israeli Minister of Interior Affairs extended the limitation period within which depreciation claims may be brought under the Planning and Building Law from three years from approval of the building plan to the later of one year from receiving a building permit under National Zoning Plan 36 for a cell site and one year from the construction of a cell site. The Minister retains the general authority to extend such period further. This extension of the limitation period increases our potential exposure to depreciation claims.

The Non Ionising Radiation Law

The Non Ionising Radiation Law prohibits the construction and operation of cell sites without a permit from the Israeli Ministry of Environmental Protection. The Commissioner of Environmental Radiation, or the Commissioner, is authorized to issue two types of permits: construction permits for cell site construction, and operating permits for cell site operation. These permits contain various conditions that regulate the construction and operation of cell sites. A construction permit is valid for one year (and will allow us to operate a cell site for a period not exceeding three months), and an operating permit will allow us to operate a cell site for a period of five years. We are required to submit to the Commissioner annual reports regarding radiation surveys conducted on our cell sites and other facilities by third parties that were authorized to conduct such surveys by the Commissioner. In order to receive an operating permit from the Commissioner, certain conditions must be met, such as presenting a building permit or an exemption and means taken (including technological means) to limit exposure levels from each cell site or facility (relevant also for the receipt of a construction permit). The Non Ionising Radiation Law, grants the Commissioner authority to issue eviction orders if a cell site or other facility operates without complying with its permit, and it imposes criminal sanctions on a company and its directors and officers for violations of the law. Failure to comply with the Non Ionising Radiation Law or the terms of a permit can lead to revocation or suspension of the permit, as well as to withholding the grant of permits to additional cell sites.

The Ministry of Environmental Protection notified us of a new condition for all of our mobile network site operation permits in order to receive operating permits, according to which we must connect to a monitoring system of the Ministry of Environmental Protection that continuously monitors and reports the level of power created in real time from the operation of our mobile network sites.

Since May 2012, we started erecting our new UMTS cell sites according to construction permits received in November 2011. We have also made practical examinations of all our new UMTS cell sites. All of the examinations showed that our new UMTS cell sites comply with the safety standard determined by the Ministry of Environmental Protection. As of August 2012, we began to apply for operation permits to our sites to the Commissioner. We also applied for extended time to connect to the monitoring system to the commissioner. As of November 2012, we started receiving operation permits. On February 4, 2013, we were notified by the Ministry of Environmental Protection that we have complied with all of its requirements for connecting to the monitoring system.

Prohibition of Exit Fee

On March 21, 2012, the Knesset passed an amendment to the Communications Law in order to prohibit a license holder from collecting an exit or termination fee from new subscribers who cancel their agreement with the license holder. A license holder is still permitted to collect the balance of payment owed to it by the subscriber relating to the purchase of end user equipment. The amendment does not apply to large subscribers who have purchased 100 or more lines. Additionally, under the terms of the amendment, as of January 2013, it is not be possible to link a transaction for the purchase of end user equipment and the provision of mobile services.

Mobile Virtual Network Operator

A mobile virtual network operator, or MVNO, is a mobile operator that does not own its own spectrum and does not have its own radio network infrastructure. Instead, MVNOs have business arrangements with existing mobile operators to use their infrastructure and network for the MVNO's own customers. The Communications Law was amended in July 2009 to provide for MVNO licenses, and, in January 2010, the regulations necessary for the granting of an MVNO license were promulgated. The regulations regulate the operation of an MVNO pursuant to an agreement to be reached and entered between a mobile operator and an MVNO and sets, among others, the conditions for receiving an MVNO license, including a requirement to operate a mobile phone switch, a restriction on a mobile operator and a fixed line operator to receive an MVNO license and limitations on parties related to an existing mobile operator and on other communication licensees to receive an MVNO license. The amendment provides that in the event that an, MVNO and mobile operator will not have reached an agreement as to the provision of service by way of MVNO within six months from the date the MVNO has approached the mobile operator, and if the Ministry together with the Israeli Ministry of Finance determine that the failure to reach an agreement is due to unreasonable conditions imposed by the mobile operator, the Ministry will use its authority to provide instructions. Such instructions may include intervening in the terms of the agreement, including by setting the price of the service. To date the Ministry has granted nine MVNO licenses.

Fees and Royalty Payments

In accordance with our Mobile License, we were required to pay to the State of Israel a total license fee of NIS 705 million, out of which we paid NIS 10 million at the time of receiving the license. We then provided a bank guarantee to the State of Israel for the remaining NIS 695 million. As of the first testing date on September 26, 2013, we achieved a market share calculated in accordance with the license agreement that entitled us to a deduction of the entire amount of the NIS 695 million license fee outstanding. Accordingly, we requested the Ministry to reduce the amount of the bank guarantee to an amount of NIS 80 million as guarantee of our obligation to achieve certain territorial coverage requirements under our license. On November 21, 2013, the Ministry notified HOT Mobile that the license fees were to be decreased to NIS 10 million (which has already been paid) and the bank guarantee shall be decreased from the amount of NIS 695 to an amount of NIS 80 million. See "*Description of Our Business—Material Agreements—Provision of certain bank guarantees to the State of Israel relating to performance of certain license terms*".

Reduction of Interconnection Fees

Effective December 1, 2013, interconnection fees between fixed line telephony service providers (including Bezeq, VoIP or VOB providers and us) were reduced by 60% and set at NIS 0.01.

Copyright/Trademark Law

Israel grants copyright protection to original literary, dramatic, musical and artistic works, as well as sound recordings and computer programs under the Copyright Law, 5767 2007. Copyright protection automatically exists with respect to works which comply with the terms set forth in the Copyright Law. Under the Copyright Law, generally, protection of a work runs from the date of creation until the end of the seventieth year after the year of the death of the author. Israel is party to a number of multinational treaties relating to copyrights, including the Berne Convention.

In Israel, trademarks are governed by Trade Marks Ordinance (New Version), 5732 1972. A trademark registration is valid for 10 years from the date of the trademark application. The registration may be renewed for further periods of 10 years after each renewal. The legal protection of a trademark is conditioned on it having distinctive character. Israeli law also provides for legal protection to unregistered trademarks. Under the Trade Marks Ordinance an owner of a trademark that is well known in Israel can exclude others from using the mark, even when the trademark was not registered in Israel. Israel is also party to a number of multinational treaties relating to trademarks.

Structural Separation

In order to promote competition in the telecommunication and broadcasting industry in Israel the various licenses issued to us to conduct our business contain provisions that require us to maintain strict structural separation between the HOT group entities that hold the licenses, including separation of assets, management and employees. As a result, we generally operate our cable television services which are subject to the Broadcasting Licenses, our broadband internet infrastructure access and fixed-line telephony services which are subject to the Fixed Line Licenses, our ISP services which are subject to the ISP License and our mobile services which are subject to the Mobile License as separate businesses conducted by separate entities within our Group. In addition, pursuant to the license provisions, our cable network assets are owned by HOT Telecom and access to the network is provided to other HOT entities pursuant to certain inter-company arrangements and subject to legal requirements. Under the terms of the licenses, we are also prohibited from making any of our services conditional upon subscription to another service. For example, we are not allowed to force customers to opt for our multiple play packages and must continue to offer our various services on a stand-alone basis. However, notwithstanding the requirement to maintain such structural separation, we are permitted to offer our customers multiple play services and conduct related marketing, billing and collection activities of our pay television, broadband internet infrastructure access and fixed line telephony on the condition that only commercial information necessary for marketing, billing and collection activities of our multiple play services are shared between the relevant HOT entities.

On December 9, 2013, the Knesset Finance Committee approved the bill for promoting competition and reducing concentration. According to the bill, a committee will be established with the objective to supervise the attempts to limit concentration, headed by the Antitrust Commissioner and hosting members such as the General Director of the Ministry of Finance and the head of the National Economic Council or one of his deputies appointed by the prime minister. Under the bill, among other things, the regulator may decide not to assign any right, including the right to grant or extend a license, to a concentrated factor as it is defined in the bill, if it finds that it is unlikely that any real harm may be caused to the sector in which this rights is assigned and the regulation of such sector. Also, a regulator seeking to allow the assignment of a right, including the grant or extension of a license, will not do so, including not allowing any concentrated factor to participate in the assignment procedure of this right and not setting any conditions that allow its assignment, but only after taking into account considerations of cross market concentration in consultation with the entity in charge of the concentration reduction. In addition, the bill provides, *inter alia*, that when assigning a right and setting its terms the regulator must consider, in addition to any other vital consideration as specified by law, considerations of promoting competition in the sector, and, if the right is included in the list of rights issued by the Antitrust Commissioner in this regard, the regulator may assign this right only after considering promoting competition in the sector in consultation with the Antitrust Commissioner. Under the bill, the holder of a general license to broadcast through cables is defined as a concentrated factor. On October 16, 2013, the Ministry published a hearing regarding a recommendations report of an inter-departmental team aimed at examining the current regulations in the international telecommunication services sector, and the need to modify it in light of developments and changes in the telecommunication market. The ministry allowed such license holders and all relevant parties to submit their position regarding the hearing until December 1, 2013. On August 14, 2013, the Ministry published a hearing by which the Ministry began formulating a new regulatory framework, in which a version of one unified license will be determined, by which it will be possible to provide all the services provided today with a special general license for providing domestic wired telecommunication services, a license to provide radio mobile phone services through another operator, and a general license to provide international telecommunications service. The unified licensing framework will also enable the license holder to provide internet access services (ISP) and NTP. HOT Telecom submitted a response with respect to the hearing. In November 2014, the Minister of Communications approved the unified licensing framework.

Consumer Protection and Regulatory Bills

On July 24, 2014, an amendment to the Consumer Protection Law (effective from January 1, 2015, subject to regulations to be issued up to that date) was enacted permitting certain means of administrative enforcement against violations of the Consumer Protection Act, including monetary sanctions (including sanctions for both continuing and recurring violations), warnings and commitments to avoid a breach. The amendment also granted the Commissioner of Consumer Protection with the power to investigate breaches, certify inspectors and make administrative orders.

Further to such amendment, on August 18, 2014, the Council and the Ministry published hearings regarding proposed amendments to the licenses of HOT and other communication operators, including fully-owned subsidiaries of HOT. It is proposed that licenses will be amended to both add, and strengthen, requirements with respect to the quality of service provided by the service centers of the license owners, including, *inter alia,* with respect to maximum response and average daily response times, hours of operation, obligations to record calls and obligations to publish on the license-owners' websites detailed weekly reports regarding such response times. HOT has submitted its response to the hearings. In parallel, the Ministry of Communications has published a bill to amend the Communication Law to provide that, should a license holder fail to comply with the terms of its license with regard to the proposed amendments relating to response times, a subscriber may claim financial compensation at a fixed price without having to prove any damage. At this stage, HOT is unable to estimate the influence of the amendments, if implemented as currently proposed, on the company's operations and financial performance.

Luxembourg

Legislative framework applicable to the provision of telecommunications services and networks

The Luxembourg legislature implemented parts of the Directives on the Open Network Provision with the law of March 21, 1997, on telecommunications, which initiated the liberalization of the telecommunications market. This law set a new legislative framework for the provision of telecommunications services and networks and completed the separation of regulatory functions and service provision functions with the creation of an independent regulatory authority in charge of monitoring the telecommunications sector. The abovementioned law was substantively amended by the law of May 30, 2005, on electronic communications networks and services which constitute one of the four Acts of the Telecom Reform Package.

The Telecom Reform Package is effectively composed of four Acts:

- The Act of May 30, 2005, on networks and electronic communications services repealed by the Act of February 27, 2011, on the networks and electronic communications services (the "Telecom Act");

- The Act of May 30, 2005, on the organization of the management of radio frequency spectrum last amended by the Act of February 27, 2011 (the "Spectrum Act");

- The Act of May 30, 2005, on the organization of the Luxembourg Institute of Regulation amended on several occasions and;

- The Act of May 30, 2005, on the specific provisions regarding the protection of individuals as to the processing of personal data in the electronic communications sector (the "Personal Data in Electronic Communication Act").

Legal regime

Electronic communications services and network

Under article 2(27) of the Telecom Act, "electronic communications service" means a service normally provided for remuneration which consists wholly or mainly in the conveyance of signals on electronic communications networks, including telecommunications services and transmission services in networks used for broadcasting, but exclude services providing, or exercising, editorial control over, content transmitted using electronic communications networks and services. It does not include information society services which do not consist wholly or mainly in the conveyance of signals on electronic communications networks.

Under article 2(24) of the Telecom Act, "electronic communications network" means transmission systems and, where applicable, switching or routing equipment and other resources which permit the conveyance of signals by wire, by radio, by optical or by other electromagnetic means, including satellite networks, fixed (circuit and packet switched, including internet) and mobile terrestrial networks, electricity cable systems, to the extent that they are used for the purpose of transmitting signals, networks used for radio and television broadcasting, and cable television networks, irrespective of the type of information conveyed.

Under Luxembourg regulation, operators are free to provide electronic communications networks and services. Indeed, under article 7 of the law of February 27, 2011, the 2011 E Law, the provision of electronic communications services and networks can be freely exercised. Any undertaking, however, wishing to engage in such activities must first notify the Luxembourg Regulatory Institute ("LRI") which regulates electronic communications networks and services.

The undertaking must initiate the notification procedure at least 20 days before commencing. The LRI provides a standard notification form to the undertakings. Upon receipt of the notification, the LRI issues within one week, at the request of the concerned undertaking, a standardized certificate, proving that the entity has duly filed a notification.

In principle, the LRI regulates upstream by preventing any hindrance to competition in regulated sectors and freedom of economic activity while the Luxembourg Competition Council regulates downstream by sanctioning such anti competitive hindrances.

The LRI is also entrusted with the collection of notifications sent by undertakings planning to provide electronic communications networks and services ("notified undertakings") and maintains a registry of notified undertakings.

The LRI also has the possibility to impose sanctions on notified undertakings not complying with the related regulations, specifications made in their implementation, and the regulatory measures of the LRI.

The maximum fine that the LRI may impose on notified undertakings is of €1 million. The LRI may also impose a daily fine (penalty) of an amount between €200 and €2,000, fixed according to the economic capacity of the undertaking and the nature of the infringement. Such a fine may be doubled for a second offense.

The LRI may also take complementary or alternative disciplinary sanctions (e.g. warnings, prohibitions on carrying out certain operations, or temporary suspension of one or more managers or directors of an undertaking).

The LRI is entitled to suspend, temporarily or definitely, without giving rise to any right to compensation, the services provided by a notified undertaking after having notified such undertaking of its infringement of the law.

Content regulation and protection

Pursuant to the Personal Data in Electronic Communication Act, operators of electronic communication services and networks are compelled to ensure the confidentiality of communication exchanged by way of electronic communication means.

The general rule is that other than the user, no person is allowed to listen, intercept or store communications and data related to the traffic and location without the agreement of the user.

This prohibition does not apply to communication related to emergency calls, commercial transactions to the extent that they constitute proof of the transactions, authorities investigating and acting in relation to a *flagrante delicto* or within the scope of criminal offenses in order to ensure national and public security and cookies. In relation to data resulting from commercial transactions and cookies, the user or parties to the transaction must be informed that their data may be processed, the conditions (in particular the duration) and aim of the storage, and the possibility of the user opposing such data processing.

Radio Spectrum

The use of radio spectrum is regulated by the Spectrum Act and the Grand Ducal decree of April 7, 2011, on the administrative taxes applicable to telecommunications.

The frequencies are granted by the minister responsible for communications, in accordance with the national plan of allocation and assignment of frequencies. This plan allocates specific frequencies by type of use. The aim is to ensure the quality of the service and to avoid interferences. The Minister might consider technological neutrality where all the parameters ensuring service quality for shared channels are known.

Frequencies can be granted upon request or under certain circumstances (e.g. if several candidates request the exclusive use of the same frequency) through an open tendering allowing for the selection of the candidates on one of the following criteria: best offer, competition, or comparison.

The use of spectrum cannot be made license exempt. Nevertheless, spectrum can be made exempt from individual licensing. In this case, general conditions applicable to a certain type of application are pre defined and, as far as these conditions are met, no individual license is required.

The Grand Ducal decree of April 7, 2011, on the administrative taxes applicable to telecommunications set out the fees and levies that have to be paid. For some applications, the fees have been defined in the license itself. Generally, the fees are linked to the used amount of the spectrum.

Since the implementation of the law of February 27, 2011, allocating licenses are no longer personal. On that account it is currently possible to sell, transfer or sublease allocated spectrum, thus enhancing the flexibility of spectrum use.

Audio visual Media

Overview

The media sector is mainly governed by the Act of July 27, 1991, on electronic media as amended by the Act of December 17, 2010, and the law of April 8, 2011, (the "Electronic Media Act") and the law of April 11, 2010, on freedom of expression in electronic media amending the law of June 8, 2004 (as amended), on the freedom of expression in the media sector. A certain number of Grand ducal decrees also regulate the media sector.

In addition, two Acts governs the audiovisual production:

- the Act of December 21, 1998, establishing a temporary special tax regime for audiovisual investment certificates; and

- the Act of March 16, 1999, creating a national support fund for audiovisual production.

The media law creates several governmental commissions, the first of which is the Media and Communications Services which assists the Minister in the determination and the execution of the Luxembourg media policy. Its main responsibilities are to:

- promote the development of the programs viewable by the Luxembourg population;

- promote, in concert with other commissions and committees, Luxembourg as a European center for audio visual and communication activities;

- assist government representatives responsible for the supervision of the beneficiaries of licenses or authorization; and

- ensure communication with international organizations responsible for the supervision of the audio visual sector and ensure representative function within certain European committees.

In addition, there is also the Independent Radio broadcasting Commission which has three main functions:

- implementing provisions relating to authorizations of low powers transmitters;

- advising the government in authorization matters; and

- arbitration of specific potential disputes.

Finally, the National Programming Council is an independent body advising the government on matters of surveillance of certain specific television and radio programs and proposes a balanced content for socio-cultural radio programs.

A new bill of law presented on October 10, 2012, modifying the law of July 27, 1991, on electronic media aims at centralizing the competence of the three existing commissions into one single authority, "the Luxembourg Independent Audi visual Authority", which will gain disciplinary powers and adopt the status of a public institution.

Legal regime

The Media law has been recently amended in order to adapt itself to the newest sorts of audio visual and radio media. More importance is attributed to content regulation. Rules are set related to enhance the protection for children and non discriminatory content and the form and the content of commercials advertising are more regulated.

Licenses for distribution of audi visual media

Pursuant to article 2 of the Electronic Media Act, any program which is transmitted to the public through a Luxembourg broadcasting frequency is considered a television or radio program. Pursuant to article 3 of the Electronic Media Act, no one can transmit a radio or television program without having obtained prior permission or a license granted by the Prime Minister assisting by the Services of Media and Telecommunications.

Thus, a company willing to develop an audiovisual media service (either a television or an on demand audiovisual media service) would be required to notify to the Ministry of Economies of its intention to provide such a service either because it is considered as a Luxembourg provider or under some circumstances as a foreign media service provider by the amended Electronic Media Act which provides the applicable criteria in this respect. In that case, the company shall notify the Ministry of Economies at least 20 days prior to launching the service.

License for a Luxembourg satellite program

Applications for the granting of licenses are required to be sent by email to the Prime Minister and the Department of Media and Communication. Information about the applicant and the relevant program must be attached to the application.

The Department of Media and Communication conducts an initial review. If it is deemed complete, the license application is forwarded to the Independent Commission on broadcasting for advice. The final decision is taken by the government on the advice of the Prime Minister, and the license is granted by the Prime Minister on behalf of the government.

License for Luxembourg cable program (TV and Radio)

The same process as license for a Luxembourg satellite program is required to be conducted for a license for a Luxembourg cable program.

Permission for sound radio program

The allocation of frequency is subject to the condition that a terrestrial frequency is available in Luxembourg. In this case, terrestrial frequencies are granted following a public call nomination. The Independent Commission on broadcasting is the body that grants the permission for programs to low power transmitters and make the call for nomination for these frequencies.

Internet infrastructure

Overview

Internet access services as well as services provided through internet are regulated by the Telecom Act of May 30, 2005, which has been amended by the Act of February 27, 2011.

Internet services providers are subject to telecommunications regulation depending on the type of services that is considered (i.e. access services would be regulated by electronic communications laws whereas content would depend on a different set of legislation).

Further, cyber security is one of the priorities of the Luxembourg government. Individuals and companies are encouraged to take appropriate measures to defend themselves against cyber attacks. Similarly, the government has created "CASES Luxembourg" which is a project accessible by all internet users, the purpose of which is to make the public aware of a potential cyber attack inherent to internet use and advises on how to identify them.

In July 2011, the government created two new structures: the Luxembourgish Cybersecurity Board whose mission is to work on a strategic plan against attacks via the internet, and the governmental Computer Emergency Response Team which is responsible if an incident of cyber crime ever occurs in the public information systems.

To date there is no legal obligation for operators or internet service providers to assist content owners whose rights may be infringed. However, to be exempt of liability in such a case, internet services providers shall act promptly to remove or disable access to content upon knowledge of facts or circumstances that such content is obviously illegal.

To date, there are no restrictions blocking on service providers by operators. From a legislative point of view, Luxembourg is one of the countries which defended net neutrality in the framework adoption of the telecom package.

Legal regime

Pursuant to article 5 of the Telecom Act, the operation of electronic communication services or networks, notably internet services and IP services, is subject to a notification to the Luxembourg Institute of Regulation (*Institut Luxembourgeois de Régulation*) (the "ILR").

Concerning internet service providers, the law on electronic commerce as amended of August 14, 2000, provides the obligation for hosting and caching providers to stop the activity or information from the moment that it has an actual knowledge that the activity or information is illegal or from the moment that the facts and circumstances show apparently that the activity or information is unlawful.

Others

The laws listed below may be also applicable to the telecommunication, media and internet sector:

- the law of April 18, 2001, on copyrights as amended;
- the law of August 2 2002, as amended (for the last time by a law of July 28, 2011) regarding the protection of individuals as to the processing of personal data;
- the law of May 15, 2006, related to trademarks;
- the law of August 11, 1982, on privacy;
- the Consumer code introduced by the law of April 8, 2011.

General laws are applicable for all aspects not specifically regulated by laws or regulations, in particular the provisions of the Luxembourg Criminal Code (e.g. in relation to pornography, discrimination, racism, violence theft and privacy).

In addition, a large number of Grand Ducal regulations and other regulations (particularly from ILR) have been adopted in relation to the implementation of various laws.

Portugal

Liberalization of the Portuguese telecommunications market

The first Portuguese telecommunications regulatory framework was enacted in 1989 under Law 88/89 of September 11, 1989, to regulate the opening of the telecommunications network to private enterprises. This initial regulatory package divided the industry into two main areas: (i) a state owned and monopolistic basic telecommunications network and services, which meant the fixed national telephony services and some associated facilities, run by the publicly owned companies that in 1995 merged to form the PT Group; and (ii) the so called complementary services which assembled a large group of mainly private operators ranging from mobile wireless operators (using GSM), paging, trunking, VSAT and data transmission (using mainly Frame Relay and X25 protocols).

Following the 1996 revision of the European Unions' ONP Directives (e.g. Directives 96/2/EC, 96/19/EC and 97/13/EC), in August 1997 the Portuguese Government decided to revise the whole regulatory structure and submitted to Parliament a new Telecommunications Bill aimed at establishing "the general bases that regulate the establishment, management and exploitation of telecommunications networks and the provision of telecommunications services" later enacted as Law 91/97 of August 28, 1997 (the "1997 Telecommunications Law"). The adoption of a "full liberalization" principle accelerated the progressive opening of the Portuguese telecommunications market to new entrants, and was completed on January 1, 2000, with the end of the Portugal Telecom's legal monopoly over fixed-telephony services.

Legal framework

Following the major review of existing EU telecommunications law that resulted in the adoption of a new regulatory framework for electronic communications in 2002, known as the "Review 99" Directives, the Portuguese Parliament enacted Law 5/2004 of February 10, 2004 (the "2004 Communications Law"). The new legislation transposed the EU Review 99 package Directives and regulations to national law and revoked all previous regulations containing provisions related to general market framework, licensing, interconnection and all telecommunications networks and service provision, with the exception of radio communications, telecommunications infrastructure and supply of electronic equipment.

In 2011, Law 51/2011 of September 13, 2011, amended the 2004 Communications Law, transposing other EU Directives to national law. Although some provisions of the 2004 Communications Law already dealt with data privacy issues, the Data Protection Directive (Directive 2002/58/EC) was transposed by Law 41/2004 of August 18, 2004.

Regulatory Institutions

- *European Commission.* The Directorate General for Competition of the European Commission (the "EC"), is responsible for considering potential claims that our business activities or Portuguese government regulations are inconsistent with the key provisions of the Treaty on the Functioning of the European Union ("TFEU") relating to competition in the EU. Among other things, the TFEU prohibits (i) agreements or coordinated action between competitors that may affect trade between EU member states and have as their objective or effect the prevention, restriction or distortion of competition within the EU, and (ii) any abuse of a market-dominant position within the EU that may affect trade between EU member states. The Directorate General for Competition enforces these rules in cooperation with national competition authorities. In addition, national courts have jurisdiction over violations of EU competition law. The Directorate General for Communications Networks, Content & Technology (DG Connect) of the EC is responsible for, among others, coordinating the regulatory framework for competition and growth over the entire range of issues in the telecommunications field: economic analysis, impact assessment, policy development and regulatory compliance.

- *ANACOM. The Autoridade Nacional das Comunicações* (the "ANACOM") is the Portuguese telecommunications regulator. It advises the Portuguese government on telecommunications policy and legislation and monitors compliance with concessions, licenses and permits granted to telecommunications networks and services providers in Portugal. The Portuguese government has substantially increased the autonomy of ANACOM and has allowed it to become a more effective and independent regulatory body. ANACOM acts on complaints against us by our competitors, our customers and other interested parties. It can impose fines on us if we do not meet our obligations under the law or its determinations. ANACOM's decisions are subject to judicial review. The statutes of ANACOM were approved by Decree Law 309/2001 of December 7, 2001. Pursuant to Law 67/2013 of August 28, 2013, which establishes a general framework for regulatory authorities, ANACOM is expected to undergo statutory changes in the near future.

- *Portuguese Competition Authority.* Our activities are also overseen by the Portuguese Competition Authority (*Autoridade da Concorrência*), which is responsible for the enforcement of competition law in Portugal. It is also responsible for considering complaints relating to our business practices or other business arrangements. Under Portuguese law, we are permitted to appeal any adverse decision of the Portuguese Competition Authority to the courts. The Portuguese Competition Authority's decisions are subject to judicial review.

- *ERC.* The Entidade Reguladora para a Comunicação Social (the "ERC"), is the independent regulatory authority for the Portuguese media. ERC's primary responsibilities are the regulation and supervision of all entities that undertake media activities in Portugal. The ERC is a legal entity endowed with administrative and financial autonomy. The ERC oversees compliance with respect to fundamental rights such as freedom of the press, right to information, independence from political and economic power and freedom of speech. It is also responsible for monitoring compliance by all companies operating in the media sector, with standards for media and broadcast content, as well as for promoting the proper and effective functioning of the market where such companies operate. The ERC's decisions may affect, among others, news agencies, periodicals, radio or television operators, and radio and television distribution operators.

Key legislation

The key statutes and regulations setting the current telecommunications legal framework in Portugal are:

- The 2004 Communications Law, as amended;
- Law 67/2013 of August 28, 2013, which establishes a general framework for regulatory authorities;
- Law 42/2013 of July 3, 2013, which sets out rules on selective communication barring, namely regarding value added services;
- Law 10/2013 of January 28, 2013, on the strengthening of electronic communications services consumer protection;
- Law 55/2012 of September 6, 2012, on the financing of audio-visual and independent cinema works (the "Cinema Law");
- Decree Law 56/2010 of June 1, 2010, on the unlocking of terminal equipment to allow access to electronic communication services;

- Decree Law 123/2009 of May 21, 2009, as last amended by Law 47/2013, of July 10, 2013, setting up rules on the access to infrastructure suitable for usage by telecom services (ITUR and ITED regulations);
- Law 99/2009 of September 4, 2009, approving the legal framework of administrative offences within the communications sector;
- Administrative Rule 1473 B/2008 of December 17, 2008, as amended, on regulatory fees;
- ANACOM Regulation 58/2005 of August 18, 2005, as amended by Regulation 114/2012, of March 13, 2012, on number portability;
- Law 41/2004 of August 18, 2004, regulating the processing of personal data and the protection of privacy in the electronic communications sector, as amended;
- ANACOM Regulation 38/2004 of September 29, 2004, on the procedures for the collection and delivery of the MFRW to municipalities;
- Decree Law 7/2004 of January 7, 2004, on information society services and electronic commerce;
- Decree Law 309/2001 of December 7, 2001, which approved the statutes of ANACOM;
- The 2001 Radio Communications Law;
- Decree Law 151-A/2000 of 28 of September, 2000, as last amended by the Decree Law 264/2009 of 28 of September, 2009, regarding the licensing of the radiocomunications networks (article 19 amended by Law 20/2012 of May 14, 2012); and
- Decree Law 192/2000 of 18 of August, 2000, which approves the free movement of radio equipment and telecommunication terminals.

EU Regulatory Framework and Relevant Markets

The EU regulatory framework for electronic communications networks and services consists of five directives governing procedures, authorizations, access, universal service and data protection; a recommendation on relevant product and service markets within the electronic communications sector subject to “ex ante” regulation under a common regulatory framework for electronic communications networks and services; and two regulation, one concerning the Body of European Regulators for Electronic Communications (BEREC), the other concerning roaming on public mobile communications networks. EU directives, regulations and recommendations, which adopt competition law principles such as market dominance for the designation of significant market power and the definitions of relevant product and geographic markets, which may be subject to “ex ante” regulation, have involved constant changes and refinements to this framework. The framework focuses on issues such as reinforcing consumer rights, encouraging competitive conditions among operators to increase consumer choice, promoting investment in new communications infrastructure (such as by freeing spectrum for the provision of broadband services) and ensuring network security and integrity. Under the current regulatory framework, obligations can be imposed on operators having significant market power in any of the one retail and six wholesale markets identified by the EC. Because we are active in all of these markets, these regulatory measures have affected, and will affect, our businesses and operations.

Within the EU framework, ANACOM has identified, in the first round of analysis initiated in 2004, 19 retail and wholesale markets in Portugal. In a process it is required to undergo periodically, ANACOM has found Portugal Telecom to have significant market power in all but one of the analyzed markets, where ANACOM determined that no operator had significant market power (wholesale transit services). These markets included: (i) retail markets—access to the public telephone network at a fixed location (residential and business), publicly available local and/or national telephone services provided at a fixed location (residential and business), publicly available international telephone services provided at a fixed location (residential and business), telephone services at a fixed location using non-geographic numbers, such as toll-free numbers and leased lines; and (ii) wholesale markets—call origination on the fixed telephone network provided at a fixed location, call termination on individual public telephone networks provided at a fixed location and wholesale unbundled access to local metallic loops, wholesale leased lines (trunk segments and terminating segments) and wholesale broadband access.

In its second round of analysis, ANACOM conducted a market analysis to determine the regulatory obligations that should be imposed on operators with significant market power in the provision of wholesale (physical) network infrastructure access and wholesale broadband access. With respect to Wholesale Markets 4 and 5 (for the provision of wholesale (physical) network infrastructure access and wholesale broadband access), ANACOM has segmented the broadband market geographically between "C" (competitive) areas and "NC" (non-competitive) areas. In the "NC" areas we are obligated to provide a wholesale local loop unbundling reference offer (in relation to Market 4) and to provide a wholesale broadband (bitstream) reference offer (in relation to Market 5). Market 5 was deregulated in "C" areas, and hence all obligations in this market, including the wholesale bitstream reference offer, no longer apply. Nevertheless, while our obligation to provide a bitstream reference offer (Rede ADSL PT) in "C" areas expired after a transitional period, we have decided to maintain the bitstream reference offer. See "*Areas of Recent Regulation and Updates—Next Generation Access Networks*".

In addition to Portugal Telecom, all other fixed-line operators in Portugal were determined to have significant market power in the call termination on individual public telephone networks provided at a fixed-location wholesale market. Likewise, all mobile network operators were found to have significant market power in the call termination on individual mobile networks. ANACOM has found Portugal Telecom to have significant market power in the wholesale leased lines terminal market and segmented the transit segments between "C" and "NC" routes. In these wholesale markets, ANACOM included Ethernet connections and imposed the retail-minus rule over Ethernet solutions. In the "C" routes, Portugal Telecom has no significant market power. We expect that ANACOM will provide further analysis of the other relevant markets in the near future.

In December 2013, ANACOM launched a public consultation on a draft decision regarding the re-analysis of the retail markets for fixed-access and telephony services and of the wholesale market for call origination at a fixed location. ANACOM is proposing to withdraw the existing retail regulation in those markets while continuing to fully regulate the wholesale call origination market.

Our Concessions and Existing Licenses and Authorizations

General

The EU prohibits any limitation on the number of new entrants in telecommunications markets, except as required to ensure efficient use of radio frequencies. Pursuant to this directive, which is part of the EU electronic communications framework, an operator must have a general authorization for the provision of electronic communications networks or services. A license for individual rights of use can be required for the use of radio frequencies or numbering resources. The objective of this authorization regime is to introduce more flexibility into the licensing framework.

Currently, we hold two concessions, one regarding the provision of public payphone services, and another regarding the provision of directory services, which permit us to provide fixed-line publicly-available payphones and directory and directory inquiry services in Portugal. Until June 1, 2014, we were also the holders of the universal service public switched fixed-line concession, as described under "*—The Fixed-line Concession*" below.

We also operate a DTT platform and provide mobile telephone services, data communications services and television distribution services under the licenses granted and authorizations issued to our subsidiaries by the relevant authorities (the Portuguese government and ANACOM). The subsidiaries holding the licenses and authorizations are subject to separate financial reporting and other requirements.

The Ministry of Finance is responsible for monitoring financial issues with respect to our concessions. The Ministry of Economy is responsible for all other issues under our concessions. Disputes concerning the application and interpretation of our concessions are resolved through arbitration. ANACOM is responsible for issuing regulations and is authorized to monitor and apply administrative penalties up to a maximum of €5 million if we fail to fulfil our obligations under our concessions or other obligations imposed by law.

The Fixed-Line Concession

The Portuguese government granted us a concession, held by PTC, with an initial term expiring in 2025, which was terminated early after PTC and the Portuguese government reached an agreement in November 2013 on its revocation, following the designation of ZON and Optimus as the universal service provider of access to a publicly available electronic communications network and telephone services at a fixed location. On March 7, 2014, Decree Law 35/2014 was published in the Portuguese official gazette, formally revoking our concession agreement pursuant to the November 2013 revocation agreement signed by us and the Portuguese government and also pursuant to Resolution of the Council of Ministers n. 66-A/2013, of October 18, 2013, that authorized that revocation agreement. The revocation became effective on June 1, 2014. As of that date, the fixed-line universal services are being provided by ZON and Optimus. The revocation was due to, amongst other factors, a decision from the European Union Court of Justice, of October 7, 2010, on the grounds that Law 5/2004, of February 10, 2004, whilst keeping in force PTC's universal services concession until 2025, did not comply with Directive 2002/22/CE, of the European Parliament and the Council, of March 7, 2002, as amended by Directive 2009/36/CE, of the European Parliament and the Council, of November 25, 2009.

The fixed-line concession granted us the right to install, manage and operate the infrastructure that forms part of the basic telecommunications network. It also stipulated the provision of maritime mobile service, fixed telex service, fixed switched data transmission service and telegraph service, as services of public interest. Under the Electronic Communication Law of 2004, as the Universal Service Provider, PTC was also obligated to provide a comprehensive directory and directory inquiry services. However, other than our ceasing to be the Universal Service Provider (except with respect to public payphones and directory services, which we have been awarded under new concession contracts), as described in "—*Areas of Recent Regulation and Updates—Universal Service Obligations*" below, the revocation of the fixed-line concession will not cause any material change in the telecommunications services we are able to provide.

Prior to the revocation of the fixed-line concession, the Portuguese government, by resolution of the Council of Ministers of January 10, 2013, determined that the maritime mobile service should cease to be provided as a service of public interest from April 30, 2013. After informing the subscribers of this service of the termination in advance, PTC proceeded to terminate it. In addition, pursuant to the Resolution of the Council of Ministers published on October 18, 2013, fixed telex service, fixed switched data transmission service and telegraph service (telegrams) no longer had the nature of public services as of January 31, 2014, thus terminating PTC's legal obligation to assure their provision. The clients of the first two services were informed of such discontinuation in advance. PTC opted to commercially continue the provision of fixed telegraph service as of February 1, 2014.

Our Public Payphones and Directory Services Concessions

On October 12, 2012, in anticipation of the renegotiation of the fixed- line concession and following ANACOM's decision on the designation of a universal service provider under a competitive process, PTC submitted the lowest bid in the public tender for the provision of the publicly available telephones service and was awarded with the concession contract. The concession contract was entered into on February 20, 2014, for a period of five years. PTC and ANACOM have recently been exchanging letters concerning the evolution of PTC's fulfilment of its obligation to install the agreed quantity of public payphones in the areas covered by the Universal Service Contract.

On July 29, 2013, the Portuguese government decided to initiate a direct award procedure in respect of the provision of comprehensive directory and directory inquiry services for a period of 12 months, with the possibility of such period being extended for an additional six months. As the only company that presented a proposal, on November 7, 2013, the Portuguese government awarded PTC with the comprehensive directory and directory inquiry services concession. The concession contract was entered into on February 20, 2014.

DTT Services

For a summary of our usage rights for DTT, see "*Areas of Recent Regulation and Updates—DTT Services*" below.

Our Fixed-line, Data and Frequency Use Licenses

We also hold the following licenses: (i) a non-exclusive license to provide fixed-line telephone services; (ii) a non-exclusive license to be a "Public Telecommunications Networks" operator; (iii) the licenses formerly held by Telepac and other subsidiaries, including a data communications license; and (iv) frequency use licenses. Our current data communications license authorizes us to provide X.25/X.32 synchronous services and X.28 asynchronous services and other switched and non-switched data communications services, including frame relay and virtual private networks for data communications. The license also authorizes us to provide value-added services such as electronic data interchange and videotext services. In addition, the license authorizes us to construct certain network infrastructure in connection with licensed services. Licenses have also been granted to other providers of data communications and internet access services, including companies associated with major international telecommunications providers. However, companies are not required to have a license to provide data communications services and internet access. Instead, it is sufficient to register their intended services with ANACOM under its service registration scheme. Since 1997, we have also held a license to provide data communications services using satellite infrastructure and a license to offer voice services to corporate networks and other closed groups of users.

Meo, S.A. Mobile Service License

Portuguese mobile telephone service licenses are valid for 15 years and are issued by ANACOM. These licenses authorize the use of radio spectrum and the installation of base stations, base station controllers and control switching centers and require the licensee to construct networks capable of reaching at least 75% of Portugal's population within a specified period. Charges for the provision of mobile telephone services are not subject to regulation.

Through Meo, S.A. we hold a renewable license to provide traditional and GSM digital mobile telephone services throughout Portugal. The authorization for the use of GSM radio spectrum is valid until March 16, 2022. We are required to comply with a number of mobile telephone service criteria, including satisfying minimum quality standards regarding blocked call rates, network effectiveness and servicing time, and providing certain services. We are also required to provide ANACOM with information about our mobile telephone operations, including the number of customers, number and average duration of calls on a quarterly basis, and annual information about the development of infrastructure.

ANACOM also issues UMTS licenses, which are the European version of the globally accepted technical standards for 3G mobile communications. The broadband capacity of the frequency spectrum allocated under the UMTS licenses enables operators to supply video and internet content to mobile telephones at higher transmission speeds. On January 5, 2012, ANACOM issued a final report on an auction for the allocation of rights of use of frequencies in the 450, 800, 900, 1800 MHz and 2.1 and 2.6 GHz bands. Following that auction, on March 9, 2012, ANACOM issued the final renewable license to Meo, S.A., allowing the provision of electronic communications services based, among others, on LTE technology. This license is valid until March 2027, and it also unifies the previous GSM and UMTS licenses issued by ANACOM.

Areas of Recent Regulation and Updates

Number Portability and Carrier Selection

Number portability allows a subscriber at a specific location to change service providers without having to change telephone numbers. Under ANACOM regulations, we are required to allow number portability for both fixed-line and mobile services within one working day, save for in exceptional circumstances duly identified. ANACOM requires call-by-call carrier selection to be offered by us for long distance and international calls. Call-by-call carrier selection enables customers to select the carrier of their calls by dialing a code connecting them to the selected carrier. All fixed-line network operators with significant market power must offer carrier pre-selection. Carrier pre-selection allows customers to select the carrier that will be their default carrier. This removes the need for customers to dial any code to connect to their selected carrier when making calls.

DTT Services

PTC holds frequency usage rights for DTT associated with the transport of the signal of free-to-air television channels (the RTP, SIC and TVI broadcast channels), the so-called “Multiplex A” or “Mux A”. PTC is entitled to receive compensation or reimbursement, to be provided pursuant to a governmental ordinance, for the costs related to the channel update process. The switch-off of the analog television network in Portugal occurred on April 26, 2012. Designed to ensure equal access to DTT, the DTT usage rights require PTC to subsidize the installation and purchase of DTT-related equipment for individuals with special needs (e.g. the elderly, low income groups, etc.).

In July 2014, ANACOM published a draft decision relating to DTT coverage in which it defined coverage obligations by municipality depending on population as well as what constituted a period of unavailability. PTC replied to this consultation expressing its disagreement on certain matters, such as the definition of coverage obligations noted above, that, if implemented, may have a material impact on the fulfilment of its service obligations under its DTT license.

In September 2014, ANACOM issued a decision authorizing PTC to implement four additional MFN channels to function alongside its SFN network. In the decision ANACOM also expressed the view that in certain municipalities PTC’s network does not comply with its license and therefore PTC must implement an additional five MFN channels to function alongside its SFN network. PTC considers itself to have fulfilled its obligations with respect to the usage grant and to have successfully concluded the channel update process and therefore has expressed its disagreement to ANACOM over the alleged breach of its obligations under its DTT license and is awaiting a final decision by ANACOM on that matter and whether implementation of an additional five MFN channels is necessary.

Wholesale Reference Offers (Unbundling the Local Loop)

The EC requires fixed-line network operators found to have significant market power in the relevant wholesale market for physical network infrastructure access at a fixed location to make the local loops between their customers and the local switches on their networks available to competitors. This allows such competitors to connect their networks to the copper local loop and use it to provide their services directly to those customers without having to invest in the local loop or to rely upon the network operator’s relationship with the customers. Under this regulation, we are required to maintain a reference offer for unbundled access to our local loops and related facilities and to meet reasonable requests for unbundled access to our local loops and related facilities under transparent, fair and non-discriminatory conditions. Prices charged must be cost-oriented. The conditions under which the local loop unbundling services are provided are set forth in a published reference offer for unbundled access to our local loops in accordance with terms established by ANACOM. This reference offer covers all of our main distribution framework buildings where technical and space conditions allow co-location. Co-location means providing space and technical facilities to competitors to the extent necessary to reasonably accommodate and connect the relevant equipment of the competitor.

Leased Lines Reference Offers and Ethernet Access Reference Offers

Our Leased Lines Reference Offer (*oferta de referência de circuitos alugados*), or "ORCA", sets forth the characteristics and the technical and commercial conditions associated with the provision of leased circuits by PTC in the wholesale markets. Our Ethernet Accesses Reference Offer (*oferta de referência de circuitos Ethernet*), or "ORCE", sets forth the characteristics and the technical and commercial conditions associated with the provision of ethernet circuits by PTC in the wholesale markets.

Following a decision by ANACOM on leased line markets, the retail leased- line market was deregulated meaning that our prices in this market ceased to be subject to a 26% retail-minus rule. However, for the wholesale leased-line markets, in which we were declared an operator with significant market power, ANACOM decided to make Ethernet circuits subject to a retail-minus rule (which remains undefined by ANACOM). On July 14, 2012, ANACOM approved a final decision amending our ORCA and ORCE, the draft decision of which has been provided to the EC (which has subsequently stated it had no comment to the action), BEREC and national regulatory authorities of other Member States of the European Union. We have challenged this decision before the courts, arguing that the decision was illegal in certain respects. The court procedure is on- going.

On December 19, 2014, ANACOM issued a project decision regarding wholesale leased lines. Among other measures, ANACOM has determined a 50% reduction on the wholesale leased lines prices being charged by PTC for the Azores and Madeira traditional circuits (submarine cables) with a 25% price reduction to become effective within 30 days as from the final decision by ANACOM, and an additional 25% to become effective one year after the enforcement of the first 25% reduction. The project decision in question also aims to establish a fixed price for the lease by PTC of ehternet underwater circuits connecting the mainland to the Azores and Madeira, which is to be settled at €90,000 per year per Gbps within 30 days of the final ruling and at €56,000 per year per Gbps to become effective one year after the enactment of the first price reduction. PTC is entitled to issue its opinion on the project decision within 30 days as from December 19, 2014. ANACOM shall issue its final decision once the 30 days hearing right period has passed and taking into account the opinions conveyed by the market operators.

Co-installation Obligations

At the same time as the July 14, 2012, decision regarding PTC's ORCA and ORCE, ANACOM extended PTC's co-installation obligations under its regulated reference offers to its submarine cable landing stations. ANACOM has since requested information from PTC on the fulfilment of its obligation to provide access to its submarine cable landing stations to other operators for the purposes of co-location. PTC considers that it has fulfilled its obligation in this respect by allowing co-location in the local area exchanges closest to the submarine landing stations. To date, no formal proceedings on this issue have been initiated by ANACOM.

Wholesale Market for Voice Call Termination on Individual Mobile Networks

The regulation of the market for wholesale voice call termination establishes a price control obligation on wholesale voice call termination services. Following EC recommendations on the regulatory treatment of fixed and mobile termination rates in the EU, this price control results in a cost-oriented price cap determined by a pure Long-Range Average Incremental Cost, or "LRIC", bottom-up cost model.

On April 30, 2012, ANACOM set the termination rates to be applied in the wholesale market for voice call termination on individual mobile networks. In accordance with ANACOM's decision, the cost model for mobile termination set the maximum prices to be applied by the three mobile operators considered to have significant market power at €1.27 per minute, to be billed per second from the first second and independent of the origin of the call.

Next Generation Access Networks

ANACOM provides a segmented approach on the regulation of Next Generation Access Networks ("NGAs"), which addresses several issues, including market and technological issues, the impact of NGAs on existing networks, applicable development models, public policy considerations and regulatory models. In areas designated "C" (competitive) areas, the main obligation is access to ducts, and in areas designated "NC" (non-competitive) areas, the obligations are access to ducts, access to fiber and advanced bitstream, subject to conditions. On February 6, 2012, ANACOM approved a draft decision related to the definition of the markets of wholesale (physical) network infrastructure access ("Market 4") and wholesale broadband access ("Market 5"), evaluation of significant market power and the imposition, maintenance, modification or suppression of regulatory obligations. ANACOM proposes to maintain the national scope of Market 4 and the geographic segmentation in Market 5, which is divided into "NC" Areas and "C" Areas (the latter unregulated). According to this draft decision, we will continue to be considered to have significant market power in Markets 4 and 5.

According to the draft decision concerning access obligations in the market of wholesale (physical) network infrastructure access, in addition to the obligation of granting unbundled access to copper loops and subloops and to ducts and poles at the national level, ANACOM intends to impose a geographically differentiated obligation to grant virtual access to optical fiber (advanced bitstream). This obligation would not be imposed in 17 municipalities that are considered to have conditions for other operators to invest in fiber. In addition, we would also be required to demonstrate to ANACOM that the difference between our retail prices and the prices of the wholesale offers made available to other operators does not result in a margin squeeze. The review was not concluded, due to the changes that took place in the domestic market during 2013 (merger between Zon and Optimus and investments initiated by Vodafone and Altice for expansion of their fiber networks) and the publication, in September 2013, of the EC's recommendation on NGA non-discrimination and costing methodologies. In light of these developments, a new ANACOM consultation on Markets 4 and 5 is expected in the near future.

With respect to the roll-out of optic fiber networks, current Portuguese law establishes a legal framework for the construction of and access to infrastructure suitable for the accommodation of electronic communications networks and the construction of infrastructure for telecommunications in housing developments, urban settlements and concentrations of buildings. The law addresses access to the public domain, expropriation and the constitution of public easements, and amendments to existing law in 2009 introduced a new level of harmonization and transparency in procedures. In particular, the 2009 changes set forth several obligations in order to allow electronic communications operators to enjoy better conditions necessary for the installation and development of electronic communications networks.

The current legal framework also foresees the implementation of a Centralized Information System ("SIC"), to be managed and operated by ANACOM and whose main objective is to make available information on infrastructure appropriate for the installation of electronic communications networks based on information provided by the Portuguese government, autonomous regions, municipalities, publicly held companies or concessionaires, other entities owning or using infrastructure in the public domain, autonomous regions or municipalities and electronic communications undertakings. Other elements, such as the terms upon which objects will be geographically defined through the combination of their administrative location and georeferencing, are also set forth.

Since PTC already has reference offers under which it is required to provide a substantial amount of information to operators that wish to use its ducts, poles and associated infrastructure, we are paying close attention to the implementation of the SIC, since we do not wish for the SIC to compound PTC's obligation to provide information regarding its ducts and associated infrastructure.

Between April 27, 2012, and July 20, 2012, a public consultation was held on the reduction of NGA roll-out costs, highlighting the need for more coordination, information and transparency between the different stakeholders. According to the EC, 80% of the investment costs in NGA networks relate to the deployment of civil infrastructure, as is the case of trenching and laying of ducts, and up to 30% of these costs are due to inefficiencies. The EC is of the opinion that the NGAs and the Member States may intervene at this level, making infrastructure sharing mandatory, including those of utility companies. The EC published the report on this public consultation on November 22, 2012, and proposed a draft regulation on March 26, 2013. On November 28, 2013, the ITRE Committee of the European Parliament proposed a number of amendments to the European Commission proposal, suggesting that the measures to reduce the cost of broadband deployment should be addressed through an EU directive rather than a regulation, thus giving the Member States more flexibility to adjust to specific local or national rules on this matter.

Negotiations between the European Parliament and the European Council took place in early 2014. On April 15, 2014, the European Parliament plenary adopted the measures proposed in these negotiations to reduce the costs of deploying high-speed broadband networks with no substantial amendments to the final report published by the ITRE Committee of the European Parliament on March 20, 2014. In furtherance of the foregoing, on May 15, 2014, Directive 2014/61, on measures to reduce the cost of deploying high-speed electronic communications networks, was enacted. Transposition by Member-States shall occur no later than January 1, 2016, and the provisions set forth therein shall apply from July 1, 2016.

On December 5, 2012, the EC sent its draft recommendation on NGA non-discrimination and costing methodologies to BEREC. The draft recommendation expands on the principles set out by Commissioner Kroes, in July 2012, that price orientation to costs could be more flexible in certain circumstances in return of a tighter control of non-discrimination at the wholesale level. BEREC issued its opinion on this draft recommendation on March 26, 2013, endorsing the objectives of the EC, but criticizing and asking for amendments of some aspects of the draft recommendation. According to BEREC, the recommendation should not suggest a specific costing methodology but identify the fundamental principles to be respected. The EC did not take into account the opinion of BEREC in this matter and obtained, on July 11, 2013, the favorable opinion of COCOM (Communications Committee), enabling the final adoption of the recommendation.

On September 9, 2013, the EC formally published the final recommendation on non-discrimination and NGA cost models, included in the presentation and proposal of the so-called Connected Continent package. The (non-binding) recommendation aims to promote investment and innovation in new network infrastructures, while ensuring effective competition. In particular, it seeks to: (i) ensure an effective level playing field through the application of stricter rules on non-discrimination; (ii) set predictable and stable prices for access to copper networks; and (iii) increase regulatory certainty as to the circumstances that should lead to the non-imposition of regulated prices for wholesale access to next-generation networks. The Connected Continent package was approved by the European Parliament on April 3, 2014, and this recommendation may have an adverse effect on our business. See "*Connected Continent—Legislative Package*".

Cost Accounting System ("CAS")

PTC runs an activity-based, fully-distributed historical cost model, first developed following the privatization of the company in 1995. The CAS is also a regulatory obligation imposed on us within the scope of our concession and relevant market regulations. Following a set of ANACOM's determinations and recommendations concerning the improvement of PTC's CAS and the review and resubmission of the results of the CAS for 2007, and subsequently for 2008 and 2009, PTC sent the revised results of the CAS for these years to ANACOM (in February, April and May of 2013).

On June 6, 2013, ANACOM declared the conformity of PTC's CAS for the exercises of 2008 and 2009 with the applicable regulatory dispositions, and approved determinations and recommendations concerning the improvement of the CAS. Following a request submitted by PTC and a public consultation, ANACOM approved on December 5, 2013 the final decision concerning the methodology for the calculation of PTC's Weighted Average Cost of Capital applicable from 2012.

In a letter dated August 29, 2013, ANACOM informed PTC of the schedules for the auditing processes to the CAS and the Net Costs of the Universal Service, ("NCUS"), for 2010 to 2012, and for the works concerning the revision of the CAS.

Compensation for the Negative Operating of the Mandatory Services

Under the fixed-line concession, PTC has the right to be directly compensated by the Portuguese government for the negative operating margins resulting from the mandatory provision of fixed telex service, fixed switched data transmission service, telegram service, broadcasting and distribution service of telecommunications broadcasting signals and maritime mobile service.

ANACOM notified PTC of the approval of the final decision concerning the reformulated results of the operational margins of fixed telex service, telegram service, broadcasting and distribution service of telecommunications and broadcasting signal and maritime mobile service for 2007 (in its letter of April 8, 2013) and for 2008 and 2009 (in its letter of June 7, 2013). The corresponding notifications were sent by ANACOM to the General Inspection of Finance. In its letter of December 9, 2013, PTC submitted to ANACOM information on the operational margins of fixed telex service, telegram service and maritime mobile service for 2012.

In 2012, we initiated an arbitral proceeding in which we challenged the Portuguese government (General Inspection of Finances) regarding the view it expressed on the subject of negative operational margins of the mandatory services in 2006. According to the General Inspection of Finances, the negative margin should be compensated after deduction of the positive margins that some of the required services may eventually present. A final arbitral ruling in favour of PTC was issued on June 16, 2014. As a result of the ruling, we are entitled to receive the negative margins of the maritime mobile service and the overall net negative margins on the analogue terrestrial television, telegraph and telex services.

Regulation on the Settlement and Collection of Regulatory Fees

According to the Administrative Rule 1473-B/2008 of December 17, 2008, all providers are subject to the payment of a regulatory fee for the provision of electronic communications networks and services, through which they cover the administrative regulatory costs of ANACOM.

By a deliberation dated July 11, 2013, ANACOM approved the report concerning its administrative costs and the amount resulting from the collection of the fees owed by the suppliers of networks and electronic telecommunication services for 2012. It was also decided to reimburse to the suppliers of networks and electronic telecommunication services a total amount of €334,316.04 for 2012, and €22,426.21 for a correction for 2011. As a result of this last correction, the contributory percentage was set at 0.5505% for 2011. For 2012, the contributory percentage was set at 0.5475%.

By a deliberation dated July 25, 2013, ANACOM determined the value of the administrative costs, to be considered for purposes of the settlement of the fees due for the exercise of the activity of supplier of networks and electronic telecommunication services, in the amount of €24.5 million in 2013.

In its letter of October 1, 2013, in reply to a request by ANACOM, PTC submitted to ANACOM the revised declarations of the relevant profits for 2007 to 2009, following the adjustments resulting from the auditing process and calculation of the final NCUS values for those three years.

ANACOM, by a deliberation dated October 19, 2013, approved the revision of the settlement of the fees due for the exercise of the activity of supplier of publicly available networks and electronic communication services for 2009 and 2010, following the correction of the value of PTC's relevant revenues, according to the final values of the net costs of the universal service for 2007 to 2009. The upwards revision of PTC's relevant revenues resulted in an increase of the total amount of relevant revenues of the companies at "level 2", with an impact in the value of the contributory percentages for 2009 and 2010, which were set at 0.4827% and 0.4908%, respectively.

On October 31, 2013, ANACOM approved the revision of the settlement of fees due for the activity of provider of publicly available networks and electronic communications services, for 2011 and 2012. This decision followed the correction of the amount of relevant revenues of PTC resulting from the final values of the net costs of universal service for the years in question, submitted to ANACOM by PTC on October 16, 2013, in accordance with Article 9, paragraph 1 of Ordinance No. 1473-B/2008 of December 17, 2008, revised by Administrative Rule No. 296-A/2013 of October 2, 2013.

By a decision dated November 21, 2013, ANACOM approved the values to be considered in the formula for calculating the fees due for the activity of provider of publicly available networks and electronic communications services, having settled the value of the contributory percentage at 0.4880% for 2013.

Universal Service Obligations

Until June 1, 2014, we had obligations as a universal service provider under the fixed-line concession for public telecommunications service. Universal services are divided into three functions: (i) connection to a public telecommunications network at a fixed location and the provision of public telephone services; (ii) publicly available telephones; and (iii) comprehensive directory and directory inquiry services. Under the tender for designation of the Universal Service Provider described below, these functions are further divided into three geographic regions: North, Center and South and Islands. On October 12, 2012, following ANACOM's decision on the designation of a universal service provider, the Portuguese Ministries of Finance, Economy and Employment launched a public tender to designate universal service providers for each of the three functions described above (referred to as Tender 1, Tender 2 and Tender 3 respectively), which included a compensation fund for universal service providers, as described below, and a related renegotiation of our concession which led to its revocation. To select the company responsible for providing a comprehensive directory and a directory inquiry service, the criterion was the highest remuneration payable to the Portuguese government. The granting period for each of the services was set at five years. Pursuant to the qualifying report issued on February 2, 2013, PTC qualified for each of the Tender 1, Tender 2 and Tender 3 categories. The deadline for the submission of proposals for each of these tenders was March 15, 2013. PTC, ZON and Optimus presented bids for Tender 1, PTC presented the only bid for Tender 2, and no bids were presented for Tender 3.

On April 18, 2013, ANACOM published a preliminary report regarding the bids for Tenders 1 and 2, as there was no bidder in Tender 3. In accordance with this report, PTC did not present the lowest bid in Tender 1 (which was the relevant criterion for this tender) and, as such, it did not qualify to be designated as the universal service provider of access to a public telecommunications network at a fixed location. PTC's services in this regard ceased on June 1, 2014. See "—*Our Concessions and Existing Licenses and Authorizations—The Fixed-line Concession*" above.

PTC submitted the lowest bid for Tender 2.

On October 18, 2013, the Portuguese government confirmed these results and determined the designation of Optimus and ZON as the universal service providers for the connection to a public electronic communications network at a fixed location and the provision of publicly available telephone services, and of PTC as the universal service provider for publicly available telephone (payphones).

In addition, on November 7, 2013, PTC was awarded by the Portuguese government with the comprehensive directory and directory inquiry services concession. See "*Our Public Payphones and Directory Services Concessions*".

Furthermore, even in the cases where PTC is the universal services provider, we will be required to contribute to the compensation fund for universal services providers according to our share of the revenues of the national telecommunications sector.

By a deliberation dated August 1, 2013, ANACOM approved the draft decision on the final results of the audit to NCUS resubmitted by PTC for 2007 to 2009: €23,584,976.93 in 2007, €20,168,431.93 in 2008 and €23,057,573.48 in 2009. This draft decision was submitted to prior hearing of the interested parties and public consultation. On September 19, 2013, ANACOM approved the final decision having maintained the values proposed on the draft decision.

On August 19, 2013, following a deliberation by ANACOM dated June 20, 2013, regarding the decision on the results of the audit to NCUS for 2007 to 2009, PTC sent to ANACOM new values for the NCUS in 2010 and 2011, according to the final, settled methodology. According to Law 35/2012, which established the compensation fund for the universal service of electronic communications, for the financing of the NCUS, on October 31, 2013, PTC submitted to ANACOM the calculation of the NCUS for 2012, taking into account the deliberations of the Regulatory Authority concerning the methodology of calculation of the NCUS and the recommendations made in the audit of the NCUS for 2007 to 2009.

Network Security

On December 12, 2013, ANACOM approved a decision on the circumstances, format, and procedures applicable to reports regarding security breaches or loss of integrity with a significant impact on the functioning of electronic communications networks and services available to the public. This decision also sets forth the conditions under which ANACOM considers there is a public interest in disclosing information regarding those events to the public. Further, we will have to implement all the necessary measures to comply with this decision by June 12, 2014, which will require implementing new procedures and adapting information systems to produce the relevant information to notify to ANACOM.

Cloud Computing

The EC issued a review of cloud computing in Europe with the goal of enabling and facilitating its adoption throughout all sectors of the economy with the goal of cutting ICT costs and boosting productivity, growth and jobs. The EC put forward a set of measures that, in its view, are key to promoting cloud computing and ensuring users' rights.

On December 12, 2012, the Directorate General for Justice organized a workshop on cloud computing contracts, with the purpose of exploring stakeholders' experiences and views on cloud computing contracts with the EC. The EC and stakeholders discussed possible future developments of the market, issues relating to cloud computing contracts, based on existing practice, the economic impact of these issues in cloud computing contracts and the possible ways forward. The EC considered the workshop a first step to find a precise feasible mandate for an expert group that was formed in September 2013 to address cloud computing issues pertaining to fair and balanced contract terms, trust of consumers and users and increased legal certainty.

Cinema Law

Following the publication on September 6, 2012, of the Law No. 55/2012 (Cinema Law) that establishes the Portuguese government action principles in the promotion, development and protection of the art of cinema and cinematographic and audio-visual activities, which imposes obligations on television distributers and operators of video-on-demand services, two regulations of the Cinema Law were published.

Firstly, Decree Law No. 9/2013 of January 24, 2013, which foresees, among other issues, the obligation to reverse charge the annual fee for each subscription of television services by July 1 of the following year to which the data reported relates as well as the obligation to provide to the Portuguese Cinema and Audiovisual Institute (*Instituto do Cinema e do Audiovisual*), or "ICA", with the reports that were sent to ANACOM regarding the number of television services subscribers.

Secondly, Decree Law No. 124/2013 of August 30, 2013, which foresees, among other matters, the obligation to invest 1% of video-on-demand services revenues in film production and audio-visual ensured through an annual investment in national cinematographic works, the obligation to report to ICA until June 30 of each year the video-on-demand services revenues earned in the previous year, the obligation to report to ICA until January 31 of the following year to which the investment relates (i) the title, type and gender of each creative national film work object of investment, (ii) the identification of the independent producers and other author and neighboring rights holders over such works, (iii) the amount and type of investment made in each work, and (iv) the demonstration of the actual costs with the creation of an area devoted to national works and the loss of revenue by applying the conditions of remuneration of such rights holders foreseen in the Cinema Law (i.e. a 50% revenue share), subject to the demonstration that they are more disadvantaged in relation to the operator when compared with the agreed conditions with other content providers of the same type.

On October 17, 2013, we were notified by ICA of the official settlement regarding the abovementioned annual fee. Given that we believe such an annual fee to be unconstitutional, we have decided not to make any payment and to provide a bank guarantee under the tax enforcement process of which it was notified on December 5, 2013. We will also file a complaint.

Law 28/2014, of May 19, 2014, introduced certain changes regarding the Cinema Law, including (i) the reduction of the annual fee for TV subscriptions to €1.75 (to be increased up to a maximum of €2 from 2020 onwards) per subscription, and (ii) the transfer of funds from ANACOM to ICA in an amount equal to the total annual fee mentioned herein. In light of this legal change, we proceeded with the payment of the abovementioned annual fee. The bank guarantee and the tax enforcement process has thus been cancelled.

Roaming

The EC regulates the roaming charges that may be charged in the wholesale market and the retail market in Europe. These regulations extend to data and SMS, or text messaging. On July 1, 2012, the previous roaming regulations were replaced by a new version, known as "Roaming III", which will expire on June 30, 2022. In addition to setting maximum voice roaming rates (subject to a glide path) that may be charged with respect to the wholesale market, retail market, data and SMS, Roaming III also features (i) extended transparency and consumer-protection measures ("bill-shock") that go beyond the EU territory, (ii) a cap on retail data roaming communications, (iii) the introduction of an obligation for mobile operators in the wholesale market to provide reasonable network access in order to allow roaming services and (iv) the decoupling of roaming services from other services, while enabling a consumer to use the same number, no later than July 1, 2014.

On July 1, 2013, the new price caps, valid until July 2014, entered into force:

- For voice calls, €0.24 per minute (retail) for outgoing calls and €0.07 per minute (retail) and €0.10 per minute (wholesale) for incoming calls;

- For outgoing SMS, €0.08 (retail) and €0.02 (wholesale); and

- For data traffic, €0.45 per MB (retail) and €0.15 per MB (wholesale).

As of July 1, 2014, the price caps, valid until June 30, 2017 (retail level), and June 30, 2022 (wholesale level), if not revised before, shall be:

- For voice calls, €0.19 per minute (retail) for outgoing calls and €0.05 per minute (retail and wholesale) for incoming calls;

- For outgoing SMS, €0.06 (retail) and €0.02 (wholesale); and

- For data traffic, €0.20/MB (retail) and €0.05/MB (wholesale).

On March 18, 2013, BEREC published its guidelines on the interpretation and implementation of Roaming Regulation III, except with regard to Articles 3, 4 and 5 concerning the wholesale access and the separate sale of roaming services. Issues concerning wholesale access had already been object of specific guidelines, published on September 27, 2012, and the separate roaming services (single IMSI and LBO—Local break-out) sale was also object of specific guidance, published on July 5, 2013.

In addition, the EC's proposed "Connected Continent" legislation could lead to the elimination of roaming charges for calls within the EU, as discussed in the next paragraph. The EC has stated that it believes roaming charges within the EU should end.

"Connected Continent" Legislative Package

The EC is finalizing its plans to pass a legislative package implementing a single telecommunications market (the so-called "Connected Continent" legislation) in order to stimulate the provision of cross-border European services. The draft legislation, in its initial wording, addresses matters such as a single European authorization and convergence of regulatory remedies, a standard EU wholesale broadband access product, the harmonization of spectrum authorization procedures, net neutrality and transparency, international mobile roaming and international calls and consumer protection.

In its latest form, the legislative package approved by the European Parliament on April 3, 2014, provides, among other things, for (i) the cancellation of retail market roaming tariffs by December 15, 2015, which would result in operators no longer being able to differentiate between retail domestic and roaming communications within EU mobile networks,

(ii) clear rules for traffic management and the obligation of operators to assure a certain quality of service and (iii) reinforced consumer rights.

From June 6, 2014, the draft legislation is being discussed at the level of the European Council and may be subject to additional revisions.

Pricing of Fixed-line Telephone Services

ANACOM has established a pricing regime for fixed-line telephone services. This pricing regime creates the following regulatory obligations for the retail market for telephone services at a fixed location:

- The price of fixed-to-mobile calls (residential and non-residential) is required to be cost-oriented, and a price control is in place in the form of a cap of €0.063 on the amount retained by the fixed operator with respect to fixed-mobile calls.

- The price of off-net fixed calls is also subject to a cap corresponding to the on-net prices, corrected for the existing asymmetry between the wholesale voice calls termination rates of Portugal Telecom and other operators.

- The tariffs for domestic payphone calls are required to correspond to a maximum of three times the tariff for a residential phone call.

- A requirement to grant a 50% discount on our monthly fee for retired people, a price accessibility obligation that was included under our universal service obligations.

In addition, general regulatory obligations of transparency, non-discrimination, cost orientation, cost accounting and account separation apply to access to the fixed-line network and to the telephone services at a fixed location.

Interconnection

The Interconnection Framework. The EU Access and Interconnection Directive requires that interconnection services be made available in a non-discriminatory manner. The EU Access and Interconnection Directive encourages commercial negotiations among operators but requires national regulatory authorities to establish mechanisms for effective dispute resolution. According to the EU Access and Interconnection Directive, all telecommunications companies with significant market power in the call origination or termination markets must:

- make interconnection access to their networks available to other network operators;

- not discriminate between interconnection customers;

- provide to those requesting interconnection the information and technical specifications necessary for them to interconnect their networks;

- offer interconnection prices that are transparent and cost-oriented and do not discriminate between interconnection customers; and

- maintain a separate accounting system for interconnection activities.

The EU Access and Interconnection Directive established the general conditions for access and interconnection among telecommunications operators in competitive markets. It guarantees the rights of new entrants to obtain interconnection from telecommunications operators with significant market power. ANACOM is entitled to review and modify our proposed interconnection rates and arrangements in our reference interconnection offer. ANACOM has established an overall interconnection framework based on cost that is consistent with the EU legal framework for both wireline and mobile services.

Wireline Interconnection. ANACOM regulates call origination on fixed-telephone networks provided at a fixed location and call termination on individual public telephone networks provided at a fixed location within the scope of market analysis and significant market power designations. ANACOM has declared the Portugal Telecom group to have significant market power in these markets. As a result, we are subject to price controls in these markets based on our costs and other factors and must publish a reference offer that includes these prices and quality of service standards.

Mobile Interconnection. All mobile operators are considered to have significant market power in call termination in mobile networks market. ANACOM has imposed price controls on interconnection rates for the termination of calls on mobile networks. These reductions have had, and are expected to continue to have, a significant impact on Meo, S.A.'s interconnection revenues and consequently its earnings.

Fixed Interconnection. On March 7, 2013, ANACOM launched a public consultation regarding the draft decision on the wholesale market for voice call termination on individual public telephone networks provided at a fixed location, under which it proposed to set fixed termination rates ("FTR"), at €0.001091, corresponding to the average FTR of the countries that had already defined their call termination rates at a fixed location based on the pure LRIC cost models recommended by the EC.

On July 12, 2013, ANACOM notified the EC of a draft decision on the same lines as the draft decision that it submitted to a public consultation in March 2013, but proposing therein an average termination rate of € 0.001114, which resulted from an update to the benchmark. In the draft decision notified to the EC, ANACOM imposed on PTC an obligation to submit, within 12 months, a proposal for access and IP interconnection. However, on August 14, 2013, ANACOM decided to withdraw its draft decision as a consequence of the serious doubts raised by the EC, particularly regarding the inexistence of a symmetric obligation of IP interconnection imposed upon all operators with significant market power operators. Having taken into consideration the EC comments, on August 27, 2013, ANACOM imposed provisional and urgent measures that determined the maximum average prices to be applied by the operators designated as having significant market power:

- On October 1, 2013, 0.1114 cents per minute (the prices to be applied by PTC in the three interconnection levels were calculated taking into account the weight of traffic in each level, so that, globally, this average price is reached); and

- From July 1, 2014, the price will be set using the pure LRIC cost model.

Some operators interpreted this decision in different ways, recreating situations of tariff asymmetry, which led ANACOM to adopt new and urgent provisional measures on November 27, 2013, with effect from December 1, 2013, clarifying that if operators choose to define a simplified tariff with only one price level, that price cannot be higher than the average reference price, and that if they choose a structured tariff, with various levels of interconnection, they must provide a local interconnection price level, so that it is possible to deliver on that level the termination traffic to all customers of the operator.

On July 10, 2014, ANACOM approved (i) a draft decision regarding the definition of the fix termination wholesale market, the evaluation of significant market power in that market and the imposition, maintenance, modification and suppression of regulatory obligations in that market; and (ii) a draft decision regarding the cost model for the fixed termination market. Pursuant to Portuguese law, both draft decisions were submitted for pulic consulation for a period of 30 business days. We expect a final report to be published by ANACOM in the near future.

ANACOM has issued successive decisions that have reduced mobile termination rates over time. The reductions in mobile termination rates have had, and will continue to have, a negative effect on our cash flows and revenues.

Pricing for Mobile Origination Rates

In January 2012, the Portuguese Competition Authority completed an analysis on mobile rates for originating calls, finding origination rates to be excessive and stating that mobile operators must reduce their rates to the level of their costs by July 2012 or face the possibility of being sanctioned. All three mobile network operators decided to reduce its mobile originating rates between €0.07 and €0.0975 and no subsequent action from the Authority is expected.

Internet Access

As a result of past ANACOM decisions, we offer two access regimes to ISPs: (i) the Reference Offer for internet Access, which includes two alternative pricing methods, primarily a monthly flat rate and a per minute origination charge, and under which the connection of the ISP's infrastructure to our fixed-line network is based on DSS1 signalling, and (ii) the Reference Interconnection Offer, which includes a pricing method based on call origination, under which the connection of the ISP's infrastructure to our fixed-line network is based on Signalling System No. 7 ("SS7") protocols. The ISPs determine which regime will apply to their arrangements to connect with our fixed-line network.

Internet and Related Services

Various regulatory developments may affect our internet business. A Data Protection Directive was adopted by the EC in 2006, that imposed data-retention obligations on operators. The law implementing this directive requires internet service providers and other electronic communications providers to preserve data for a specified period of time and imposes other obligations in this area.

Regulatory Proceedings

We are regularly involved in regulatory inquiries and investigations involving our operations. In addition, ANACOM, the EC, the Portuguese Competition Authority and ERC regularly make inquiries and conduct investigations concerning our compliance with applicable laws and regulations. These investigations are described in more detail in "*Description of PT Portugal' s Business—Regulatory Proceedings*".

Regulatory obligations

For both mobile and fixed telephony services, operators are obligated to ensure the effective transfer of the number within a maximum period of one business day from the presentation of the request by the subscriber before the new operator pursuant to ANACOM Regulation 114/2012 on number portability.

Under Decree Law 7/2004 of January 7, 2004, as amended, internet service providers are not liable for information transmitted over their electronic communications network provided that they are not the disclosing party of the transmitted information, do not select or modify neither the information nor its recipients. Storage providers can only become liable for unlawfully stored information provided that they become aware of the unlawful use of that information and, upon becoming aware, do not take action to remove or to disable access to the information.

Under Portuguese data protection law, it is necessary to obtain the prior consent of the user to store information and to access stored information in the user's equipment, as well as to send unrequested communications for direct marketing purposes. Electronic communications services providers are demanded to notify the *Comissão Nacional de Protecção de Dados* in cases of breach of personal data of the users.

Consumer protection

The Consumer Protection Law establishes that debts of consumers to electronic communications services providers are subject to a six month expiration period, starting from the moment the services were provided. Consumer protection was strengthened by Law 10/2013 of January 28, 2013, establishing rules of mandatory suspension and/or termination of the service provision in a short period of time in case the consumer fails to pay an invoice on the due date.

Fees and contributions

ANACOM collects an annual regulation fee from electronic communications services providers and other regulation fees that are directly related to its activity, such as a fee for granting the usage of certain numbers or certain frequencies. Such fees were recently revised by Administrative Rule 378 D/2013 of December 31, 2013, amending Administrative Rule 1473 B/2008 of December 17, 2008. Municipalities collect a municipal fee for rights of way (the "MFRW"), established in the 2004 Communications Law, based on the provider's turnover concerning end users in each municipality.

We are subject to a rights-of-way regime in Portugal whereby each municipality may establish a fee, up to a maximum of 0.25% of each wireline services bill, to be paid by the customers of those wireline operators whose network infrastructures are located in each such municipality. Our exemption from municipal taxes is currently being challenged in court.

Belgium

Overview

Under Belgian law, telecommunications and broadcasting activities are regulated separately. Telecommunications include telephony and internet and are regulated by the Federal Electronic Communications Act of June 13, 2005 (ECA). Television and radio broadcasting is regulated by decrees at community level (Decree of the Flemish Community of March 27, 2009; Coordinated Decree of the French Community of March 26, 2009; Decree of the German Community of June 27, 2005; and the Act of March 30, 1995, of the Federal State for broadcasting activities in the Brussels Capital region that due to their content cannot be linked exclusively to the Flemish Community nor to the French Community).

The sector is also regulated by decisions, resolutions and recommendations of BIPT (the federal postal and telecommunication services regulator) for telecommunications, as well as of radio and television regulatory authorities at community level. In addition, network infrastructure can be subject to local planning and other regulations issued by municipalities.

Specific requirements can also be imposed on entities that are deemed, by the BIPT and/or radio and television regulatory authorities, to have a significant power in relevant markets that are not sufficiently competitive, including non-discrimination and transparency obligations with respect to access, accounting, and price (Numericable Group has notably been recognized as an operator with significant market power on the Brussels retail market for the distribution of television and radio services by cable).

Market Practices

Joint offers, for example of telephony services, internet services and television services, are allowed under Belgian law, provided that such offers comply with EU and national competition legislations and that they do not constitute an unfair trade market practice prohibited by the market practices and consumer protection legislation set forth under book VI of the Economic Law Code. Network operators must also comply with all applicable consumer protection provisions set forth in this act, as well as, where applicable, other legislation, namely the Act of May 15, 2007, on the Protection of Consumers in respect of Radio Transmission Services and Radio Distribution.

Prior Notification

Under the ECA, companies must notify the BIPT electronic communications services and/or networks that they intend to provide or resale, in their own name, on the Belgian territory, as well as any change thereto.

Telephony Regulation

The ECA mandates that a minimum set of "universal services" be offered to all end-users, independently of their geographical location, at an affordable price and at a specified quality level, and contains, in addition to applicable general privacy protection regulations, several provisions that address privacy protection in the electronic communications sector, including, notably, the processing and use of traffic and location data, the confidentiality of communications, as well as the subscribers' rights with respect to telephone directories. The BIPT may issue specific regulations, for example with respect to the allocation of numbers and radio frequencies.

Internet Regulation

In addition to the provisions of the ECA, activities of internet service providers are also subject to e-commerce legislation set forth under Book XII of the Economic Law Code that provide that internet service providers may not be held liable for information transmitted over an electronic communications network, subject, however, to certain conditions and exceptions.

Broadcasting Regulation

The provision of radio and television broadcasting services are subject to prior notification to the relevant regulatory authority, namely the VRM, CSA and, BIPT for the Flemish Community, French Community and the Brussels Capital Region respectively. Pursuant to the Flemish and French Broadcasting Decrees as well as the Act regulating broadcasting activities in the Brussels Capital, network operators must also comply with must-carry obligations which require them to distribute specific radio stations and television channels in their respective communities. The same legislative acts also provide, in the relevant territorial areas, for a right of way for what concerns cable networks.

The Act of January 22, 1945, on economic regulation and pricing and the Ministerial Decree of April 20, 1993, regarding special regulation on prices impose on television services distributors the requirement of the Minister of Economy's prior consent for any price increase of their basic package. Jurisdiction over the pricing regulation has been transferred on July 1st, 2014 to the Communities and Regions, each with respect to their respective competences, as part of the sixth reform of the State; the aforementioned federal legislation, however, remains applicable until the adoption and implementation of new Community and/or Regional legislations.

Pursuant to the Act of June 30, 1994, on Authors' Rights and Neighboring Rights, cable companies must receive approval from the holders of the relevant author and related rights to distribute radio and television signals embedding protected works over their cable. A collective author society has initiated a law suit before a Brussels court to have internet service providers subject to the same regime.

Dominican Republic

Overview

The legal framework of the telecommunications sector in the Dominican Republic is set forth by General Telecommunications Law 153 98 of May 27, 1998 ("Law 153 98"), resolutions issued by the telecommunications regulator on the grounds of Law 153 98 and various decrees of the Executive Power on matters related to the National Plan of Attribution of Frequencies ("PNAF").

We believe that we hold all necessary licenses to operate our business. On July 15, 1996, ODO was awarded a nineteen-year universal telecom concession, which allows it to provide telecom services without any technological restrictions (e.g. fixed/wireless technologies, television and internet). An automatic twenty-year renewal process is set forth in the concession agreement unless either party served three years' notice of an intention not to renew. Since neither party served such a notice, the renewal process under the concession began automatically in August 2014. ODO is also subject to Law No. 153-98 which provides for a renewal process of the concession. However, Indotel has not yet provided a template of the agreed concession agreements with local operators which is a pre-requisite for renewal of the concession, and as such ODO has not yet made a formal request for the renewal of its concession. When ODO does submit a request for renewal, if it is accepted, the concession will be renewed with effect from August 2015. All of our frequency licenses are valid until August 1, 2015, but will have to be renewed at the same time as our concession agreement

The Constitution of the Dominican Republic guarantees the freedom of enterprise, trade and industry among other individual and social rights, in addition to the industry specific legal framework. The Constitution specifically sets forth that monopolies shall not be permitted except in favor of the Dominican State and must be created by law. The Dominican Constitution provides that the secrecy of the communication telegraphic, telephonic, cable graphic, electronic, telematics or established by another mean, shall not be breached, except by an order of a judge or competent authority, in accordance with the law. Also, the Dominican Constitution guarantees public services of radio, television, library and information networks, to allow universal access to the information.

General Telecommunications Law 153 98

Law 153 98 classifies telecommunications services as follows:

a) Carrier services to provide the necessary capacity to transport signals between two points of termination of a defined network;

b) Final services or teleservices to provide the complete capacity that makes communication possible among users (e.g. telephone, telex, telegraphic);

c) Value added services to work as support carrier services, adding some characteristic or facility to the service that is being used on the ground (e.g. internet/intranet systems, voice mail, SMS, electronic mail, digital transmission of information in general);

d) Broadcasting services: telecommunication services in which the communication takes place normally one way to various points of reception simultaneously (e.g. radio and television).

Law 153 98 provides a basic framework to regulate the installation, maintenance and operation of telecommunications networks and the rendering of telecommunications services. Law 153 98 reaffirms the "Universal Service Principle" by guaranteeing access to telecommunications services at affordable prices in low-income rural and urban areas. Law 153 98 created the "Contribution to the Development of Telecommunications" ("CDT") consisting of a 2% tax fund for the development of the telecommunications sector that is payable by customers and collected by telecommunications providers from customers based on billings to customers for telecommunications services.

According to Law 153 98 the *Instituto Dominicano de las Telecomunicaciones* ("Indotel") is the regulatory body created as a decentralized state entity, with operational, jurisdictional and financial autonomy, with its own patrimony and legal personality, responsible for guaranteeing the existence of sustainable, fair, and effective competition in the rendering of public telecommunications services as well as ensuring the efficient use of the public domain of the radio electric spectrum.

Law 153 98 sets forth the responsibilities, authorities and procedures of the regulator. Indotel is made up of a Board of Directors and an Executive Director. The Board of Directors is the highest authority of Indotel, composed of five members designated by the Executive Power.

Among other management powers, Indotel administers the entrance and participation of the telecommunications service providers in the Dominican telecommunications market, and has various functions including (i) granting, expanding and revoking concessions and licenses under the conditions provided for by the laws in force, allowing the entrance of new providers of telecommunications services; (ii) managing and administering the spectrum orbit resources, including the management of the orbital portions of the telecommunications satellites with their respective bands of frequencies, as well as the satellite orbits for Dominican satellites which may exist and coordinating their use and operation with international entities and organisms and with other countries; (iii) controlling the compliance with obligations of the concessionaires of public telecommunications services and of the users of the radio electric spectrum, protecting the right of defense of the parties in its actions.

Law 153 98 promotes competition in all telecommunications services by enforcing the right to interconnect with existing participants and ensuring against monopolistic practices, and at the same time upholding those concessions that are operational. Law 153 98 provides that the regulator shall ensure charges are non-discriminatory, strengthening effective and sustainable competition. In case of disagreement between the parties, the regulator shall intervene by means of a motivated resolution, taking as parameters the costs, including a reasonable remuneration for the investment, calculated according to the "Regulation of tariffs and costs of the services".

In accordance with Law 153 98 a concession granted by Indotel is required for providing public Telecommunications services to third parties, with the exceptions set forth in Law 153 98. The authorization process is governed by "Regulations governing on Concessions, Inscriptions in the Special Registries and Licenses to provide Telecommunications Services in the Dominican Republic" contained in Resolution No. 007 02, issued by the Board of Directors of Indotel (as amended by Resolution No. 129 04) ("Resolution 007 02").

Pursuant to Law 153 98 a license granted by Indotel shall be required for the use of the public radio electric domain, with the exceptions set forth in the corresponding regulations. The authorization process is governed by Resolution 007 02. When concessions and licenses are required for the rendering of a public telecommunications service, they shall be granted simultaneously.

According to Law No. 153 98 the transfer, assignment, lease or granting of rights of use of any title or the creation of a lien on licenses shall be performed, under penalty of forfeiture, prior to authorization of the regulating authority, which authorization may not be denied without justified cause. The acquirer shall meet all the conditions imposed on the grantor and shall be ruled by the same obligations as the concessionaire or licensee.

Law No. 153 98 constitutes the ratifying instrument of the Fourth Protocol attached to the General Agreement on Commerce of Services (GATS) concerning negotiations on basic telecommunications of the World Trade Organization (WTO), for liberalization of telecommunication services. Law No. 153 98 provides the corresponding regulatory framework to comply with the liberalization commitments undertaken pursuant to said agreement and to guarantee the efficient provision of telecommunications services.

Law 153 98 combined with technological advances and the sustained growth of private investment promotes the development of the telecommunications sector in the Dominican Republic.

Certain Relevant Resolutions of Indotel

On the grounds of Law 153 98 Indotel issued various resolutions. Some of such resolutions regulating certain areas of telecommunications in the Dominican Republic are as follows:

- Resolution 110 12 dated August 9, 2012, by means of which Indotel's Board of Directors approved the General Regulation for Telephone Services. The principal purpose of this Regulation is to set forth a regulatory framework governing relations between the public telephone service providers and their customers and users, in all its forms (post-paid or pre-paid), regardless of the technology used to provide the service, in order to guarantee the rights of each party explicitly maintaining their respective obligations.

Resolutions 10-12 will apply to all relations between users and telephone service providers. After a public consultation process, by Resolution 003 13, dated January 22, 2013, Indotel's Board of Directors approved the modification of Articles 1, 3, 6, 12, 14.2, 14.4, 15, 18.10 to 18.13, 21, 24.1 letter (i), 25.3 and 32 of the General Regulation for Telephone Service.

The abovementioned regulation sets forth basics rights, including: (i) access to telephone services in terms of continuity, generality, equality, neutrality, transparency and quality, in accordance with the principles of the Telecommunications General Law No. 153 98; (ii) their right to choose their service provider; (iii) their right to have a phone number and numeric portability; (iv) their right to sign a contract in accordance with terms, conditions and rights set forth in this regulation; (v) their right to cancel the service in accordance with the procedure indicated in this regulation.

This regulation considers as “abusive clauses” those imposing conditions on users that affect their interests and rights, and those that are disproportionate, or contrary to the laws, regulations and standards. According to Article 14.2, abusive clauses on contracts will be unenforceable. Indotel shall require the amendment of abusive clauses such as to make them conform to reasonable standards. If telecommunications service providers do not amend the contract, Indotel may unilaterally enforce the amendment.

- Resolution No. 64 11 dated July 27, 2011, approved the bill of the National Frequency Allocation Plan (PNAF) drafted by Indotel to be submitted to the Executive Power for its final approval. Decree 520 11 dated August 25, 2011, issued by the Executive Power approved the new PNAF and repealed Decree of the Executive Power No. 518 02 dated July 5, 2002. The new PNAF approved by Decree 520 11 seeks to optimize and rationalize the use of the radio electric spectrum to efficiently satisfy present and future frequency needs with regard to all systems, equipment and devices that send or receive radio electric waves within the national territory. According to the PNAF, migration of services shall not restrain the correct functioning of services provided. Indotel is in charge of deciding, applying and resolving all matters arising in connection with the frequencies allocation and migration.

- Resolution No. 156 06 dated August 30, 2006, issued by the Board of Directors of Indotel, that approves the General Regulation related to Numeric Portability, among other resolutions issued by the Board of Directors of Indotel related to numeric portability.

- Resolution No. 022 05 that approves Regulation on Free and Fair Competition for the Telecommunications Sector provides that Indotel will review, authorize, object or condition the operations related to economic concentration which must be previously informed pursuant to said Regulation, in order to comply with the purposes of Law 153 98. Indotel will also investigate and impose sanctions in the cases where the information obligation of the mentioned operations is not complied with.

- Resolution No. 022 05 defines economic concentration in the telecommunications sector as a juridical transaction by means of which the structure of direct or indirect control, total or partial, of one or more providers of public telecommunications services is modified permanently and stably, for the benefit of persons that control other providers of public telecommunications services, whenever such transaction has the potential to modify the structure and functioning of the markets in the telecommunications sector in accordance with the purposes set forth in article 3 of Law No. 153 98.

The providers of public telecommunications services, as well as any other persons subject to said Regulation must previously inform Indotel of all those operations that could result in an economic concentration in the telecommunications sector in the terms therein defined, in order to previously obtain the authorization of Indotel to do so.

In addition to the obligations set forth in Resolution 007 02, relating to requirements for the authorization to transfer the rights or permits, the assessment to determine if there is any economic concentration in the telecommunications sector, will be based in its restrictive, predictable and verified effects, mainly considering certain circumstances set forth in Resolution No. 022 05.

The failure to inform and/or apply for an authorization prior to an economic concentration operation in the telecommunications sector constitutes an infringement of Resolution No. 022 05 that will result in the sanctions set forth therein.

Application for an authorization related to economic concentration must be filed pursuant to the provisions set forth in Chapter VIII of Resolution 007 02, before the Executive Director of Indotel.

- Resolution No. 160 05 dated October 13, 2005, that approves the Regulation concerning Cable Broadcasts and Other Measures, including “Must Carry” provisions;

- Resolution No. 038 11 dated May 12, 2011 that amends the General Ruling concerning Interconnection;

- Resolution No. 025 10 dated March 2, 2010, that approves the Ruling concerning Resolution of Controversies between the Telecommunications Services Providers;

- Resolution No. 151 04 that approves the Regulation concerning the Installation and Use of Common Telecommunications Infrastructures in Properties of Joint Ownership;

- Resolution No. 128 04 that approves the General Regulation concerning the Use of the Radio Electric Spectrum;

- Resolution No. 120 04 that approves the Regulation concerning Television Broadcasting Service;

- Resolution No. 093 02 dated November 14, 2002, that amends several Articles of Resolution No. 045 02 that approved the Regulation concerning Sound Broadcasting Frequency Modulation (FM);

- Resolution No. 046 02 dated July 20, 2002, that approves the Regulation concerning Sound Broadcasting Amplitude Modulation (AM);

Trademark/Copyright Laws

From a technical standpoint, broadcasting services are essentially regulated by Law 153 98 and the regulations approved by the regulator. Now, in connection with the content of the broadcasting services, they shall be governed by the provisions of the specific legislation which regulates the social communications media and by the laws that regulate copyrights, whether they are national laws or resulting from international conventions or agreements signed and ratified by the Dominican Republic.

In the Dominican Republic, patents of invention, trademarks, service marks, commercial names, signs, logos and commercial slogans are governed by Industrial Property Law No. 20 00 dated May 8, 2000, modified by Law No.424 06 for the Implementation of the Free Trade Agreement between the Dominican Republic, Central America and the United States (DR CAFTA).

The Dominican Republic grants copyright protection to original literary, dramatic, musical and artistic work, under the Copyright Law No. 65 00 dated august 21, 2000, also modified by Law No.424 06 for the implementation of the free trade agreement between the Dominican Republic, Central America and the United States Of America (DR CAFTA).

MANAGEMENT AND GOVERNANCE

The Issuer

The Issuer was incorporated as a public limited liability company (*société anonyme*) under the laws of Luxembourg on January 3, 2014, under the name of "Altice S.A." The registered office (*siège social*) of the Issuer is at 3, Boulevard Royal, L 2449 Luxembourg, Grand Duchy of Luxembourg. The Issuer's telephone number is +352 278 58 901. The Issuer is registered with the Luxembourg Register of Commerce and Companies under number B183391.

Board of Directors

The members of the board of directors of the Issuer (the "Board") as of the date hereof are set forth below. The Executive Directors specified below are non-independent members of the Board and, except for Jérémie Bonnin, were all appointed on January 6, 2014. Jérémie Bonnin was appointed as a Director on January 3, 2014. The Non-Executive Directors specified below are the independent members of the Board. Michel Combes was appointed on January 6, 2014 and his term expires at the third annual general meeting following the date of his appointment and Scott Matlock was appointed on January 16, 2014 and his term expires at the third annual general meeting following the date of his appointment. Jean-Luc Allavena was appointed on September 10, 2014 and his term expires on December 31, 2017.

Name	Age	Position	Independent/ Non-Independent	Term (Years)
Patrick Drahi..........	50	Executive Chairman	Non-Independent	5
Dexter Goei............	41	Chief Executive Officer	Non-Independent	5
Dennis Okhuijsen....	43	Chief Financial Officer	Non-Independent	4
Jérémie Bonnin	40	General Secretary	Non-Independent	4
Michel Combes	51	Non-Executive Director	Independent	3
Scott Matlock..........	48	Non-Executive Director	Independent	3
Jean-Luc Allavena ..	51	Non-Executive Director	Independent	3

The business address of each Director is: 3, boulevard Royal, L-2449 Luxembourg.

Patrick Drahi, Executive Chairman

Patrick Drahi began his professional career with the Philips Group in 1988 where he was in charge of international marketing (UK, Ireland, Scandinavia, Asia) in satellite and cable TV (DTH, CATV, MMDS). In 1991, Patrick joined the US/Scandinavian group Kinnevik-Millisat, where he was in charge of the development of private cable networks in Spain and France and was involved in the launch of commercial TV stations in Eastern Europe. In 1993, Patrick Drahi founded CMA, a consulting firm specialized in telecommunications and media, which was awarded a mandate from BCTV for the implementation of Beijing's full service cable network. In addition, Patrick founded two cable companies, Sud Câble Services (1994) and Médiaréseaux (1995), where he was involved in several buy-outs. When Médiaréseaux was taken over by UPC at the end of 1999, Patrick Drahi advised UPC on its M&A activities until mid-2000. He then started Altice in 2002. Patrick Drahi graduated from the Ecole Polytechnique and Ecole Nationale Supérieure de Télécommunications de Paris (post graduate degree in Optics and Electronics) in 1986.

Dexter Goei, Chief Executive Officer

Dexter Goei joined Altice in 2009, after working for 15 years in investment banking. Dexter began his investment banking career with JP Morgan and joined Morgan Stanley in 1999 working in their Media & Communications Group. Over the years, Dexter has worked across all segments of the media industry in the US and EMEA region covering primarily cable, pay-TV, broadcasting, internet, content and gaming companies eventually becoming Co-Head of Morgan Stanley's European TMT Group. Dexter is a graduate of Georgetown University's School of Foreign Service with cum laude honors.

Dennis Okhuijsen, Chief Financial Officer

Dennis Okhuijsen joined as the CFO of the Altice Group in September 2012. Before joining Altice, he was the Treasurer for Liberty Global. From 1993-1996, he was a senior accountant at Arthur Andersen. He joined UPC in 1996 where he was responsible for accounting, treasury and investor relations up to 2005 before joining Liberty Global. In his previous capacities, he was also responsible for financial risk management, treasury and operational financing. Dennis holds a Master of Business Economics from Erasmus University, Rotterdam.

Jérémie Bonnin, General Secretary

Jérémie Bonnin joined Altice in May 2005 as Corporate Finance director. Before joining Altice, he was a Manager in the Transaction Services department at KPMG which he joined in 1998. At KPMG, he led several due diligence projects with a significant focus in the telecom area. Since his appointment at Altice, he has been involved in all of Altice's acquisitions which have increased its footprint (in France, Belgium, Luxembourg, Switzerland, Israel, the French Overseas Territories and the Dominican Republic). He has a long track record of successful cross-border transactions, and in financial management in the telecom sector. As General Secretary, he also focuses on the implementation of consistent operating policies and corporate structure across the Altice Group, where he holds various board positions. Jérémie received his engineering degree from the Institut d'Informatique d'Entreprise in France in 1998. He also graduated from the DECF in France, equivalent to the CPA.

Michel Combes, Independent Non-Executive Director

Michel Combes has been Chief Executive Officer of Alcatel-Lucent since April 2013. He has more than 20 years of experience in the telecommunications sector and a strong international background. Michel was previously Executive Director of the global mobile communications operator Vodafone plc, where he was appointed CEO, Europe Region in October 2008. In addition to his position as CEO of Alcatel-Lucent, Michel is also Chairman of the Supervisory Board of Assystem SA in France and non-executive board member of MTS. Michel graduated from the Ecole Polytechnique and Ecole Nationale Supérieure des Télécommunications in France.

Scott Matlock, Independent Non-Executive Director

Scott Matlock recently retired from Morgan Stanley & Co., where he was an investment banker for 25 years. He was the Global Head of Media and Communications M&A from 2005 to 2008, the Chairman of Asia M&A (including Australia, India and Japan) from 2008 through to 2010, and the Chairman of International M&A from 2010 to 2014. Scott started his career at Morgan Stanley focused on transportation, industrial and technology companies. In 1997, he switched his focus to the media and communications sectors. When he moved to London in 2002, he became the Head of European Media Coverage and then the Co-Head of European Media and Communications Coverage for the firm. Scott was responsible for some of Morgan Stanley's most important clients and transactions in the media and communication sectors. Sectors on which he has been particularly focused have included cable, mobile/cellular, satellite and broadcast. Scott graduated from the University of California, Berkeley in 1988.

Jean-Luc Allavena, Independent Non-Executive Director

Jean-Luc Allavena was elected as the Chairman of the Board of the French- American Foundation—France in December, 2010. He was selected as a "Young Leader" of the French-American Foundation in 2001 and has served as a member of the Board since 2008. Jean-Luc is a Partner in the investment fund Apollo Management. Jean-Luc graduated from the Hautes études commerciales (HEC Paris) in the class of 1986. He began his career at the Paribas Bank (1986-88), then at Lyonnaise des Eaux (1989-1992). He then went on to serve as Assistant General Manager of the group Techpack International (Pechiney-LBO France) from 1996 to 2000, and then served as CFO from 1992 to 1996. From 2000 to 2005, he was the Executive Vice-President of the Group Lagardère Media. At the same time, he was the acting administrator of Lagardère Active as well as the three other branches of the group: Hachette Livre, Hachette Filipacchi Médias, and Hachette Distribution Services.

A native of Monaco, Jean-Luc served as the Chief of Staff to Prince Albert II of Monaco from 2005 to 2006. In 2007, he joined Apollo Management in London, where he is responsible for the fund's investments in France. He engineered the purchase of Alcan Engineered Products by Apollo and the French Strategic Investment Fund. Jean-Luc is involved in a number of organizations. He serves on the international advisory board of HEC as served as Chairman of the HEC Alumni Association from 2001 to 2003 and the HEC Foundation from 2003 to 2005. He is currently honorary Chairman of both groups. Jean- Luc has sat on the board of the French Association of Capital Investors (AFIC) since 2009, and the Jacques Rougerie Foundation, under the patronage of the Institute of France, since 2010.

Senior Management

In addition to the executive members of our Board, our senior management includes:

Max Aaron, Company Secretary and General Counsel

Max Aaron became General Counsel of Altice in September 2013 and was appointed Company Secretary on January 13, 2014. Prior to joining Altice, Max was a partner for over 14 years at Allen & Overy focusing on capital markets and where he was one of the founding members of Allen & Overy's US law practice. Prior to joining Allen & Overy, Max worked at Shearman & Sterling in both their New York and London Offices. Consistently rated in Europe by the legal directories as one of the top practitioners in his area, Max has done transactions in over 30 countries in a wide variety of industry sectors, including telecoms, media, technology and utilities. Max received a BA from Brown University and a JD from Boston University School of Law where he was on the Law Review.

Eric Denoyer, Chairman and Chief Executive Officer, Numericable

Eric Denoyer has been chairman and chief executive officer of Numericable since January 2011. He was general manager of Completel's wholesale division from September 2008 to January 2011 and CEO of Numericable from April 2005 to September 2008. Eric is a graduate of the Ecole Nationale Supérieure de Télécommunications de Paris (class of 1988) and of the Ecole Polytechnique de Paris (class of 1986).

Hertzel Ozer, Chairman, HOT Telecommunication Systems Ltd.

Hertzel Ozer joined HOT-Telecommunication Systems Ltd. in December 2008. He served as the CEO of HOT and also served as chairman in a number of HOT subsidiaries. In April 2013 Hertzel was nominated Chairman of HOT. Hertzel has previously been employed as CEO of a number of companies in the telecommunication, retail, industry, food and consumers fields including the OSEM group (2004-2008), NESHER—Israel Cement Enterprises (2003- 2004). Between 1997-2003 Hertzel served as VP Marketing, Sales, Customer Care & Business Development of BEZEQ, the Israeli telecommunications company. Hertzel holds an MBA in Business Administration, and a BA in economics and statistics from the Hebrew University in Jerusalem.

Ilan Zachi, Chief Executive Officer, HOT Telecommunication Systems Ltd.

Ilan Zachi joined HOT Telecommunication Systems Ltd. in April 2010. He served as the VP for Customer Service. In June 2013, Ilan was nominated as the CEO of HOT Mobile, a subsidiary of HOT Telecommunication Systems Ltd., and, in March 2014, he was nominated as CEO of HOT Telecommunication Systems Ltd. Ilan has previously been employed in various roles in Cellcom, one of the leading Israeli cellular companies (2001-2010). Ilan holds an MBA in Business Administration from the College of Management of Rishon LeZion, and a BA in Business Administration from the Rupin Academic Center.

Jean-Michel Hegesippe, CEO of the French Overseas Territories

Jean-Michel Hegesippe founded his own company, Infotel, in 1986. Based in the French Overseas Territories, Infotel provided transaction processing services to the banking industry. In 1998, Infotel was awarded telecom licenses by the French regulatory authority to rollout fixed telecommunication networks. From 1998 to 2004, Infotel (renamed Outremer Telecom in 2000) developed fixed-line telephony and DSL services and reached a total turnover of €70 million. From 2004 to 2007, Outremer Telecom rolled out five independent mobile operations in French Guiana, Martinique, Guadeloupe, La Réunion and Mayotte. Today, the company is the only quadruple-play (fixed-line and mobile) alternative player to Orange and Vivendi, and the third mobile operator in the French Overseas Territories. Jean-Michel is an engineer in computer sciences with a master's degree and a diploma of advanced studies in information technology (Paris VII University).

Board Committees

The Board has two committees: the Audit Committee and the Remuneration Committee. The Committees may seek assistance from external experts for the fulfilment of its duties.

Audit Committee

The Audit Committee has been established to:

- supervise the activities of the Executive Directors with respect to:
- the operation of the internal risk management and control systems, including supervision of the enforcement of relevant primary and secondary legislation, and supervising the operation of codes of conduct;
- the provision of financial information by the Issuer (including choice of accounting policies, application and assessment of the effects of new rules, information about the handling of estimated items in the financial statements, forecasts, work of internal and external auditors);
- compliance with recommendations and observations of the internal audit function and external auditors;

- the role and functioning of the internal audit function;
- the policy of the Issuer on tax planning;
- relations with the external auditor, including, in particular, its independence and remuneration as well as the performance of any non audit services of the external auditor for the Issuer;
- the financing of the Issuer; and
- the applications of information and communication technology.
- regularly examine the effectiveness of the financial reporting, internal control and risk management system adopted by the Issuer;
- ensure that audits carried out and the subsequent audit reports comply with the audit plan approved by the Board and/or the Audit Committee; and
- present all material findings and recommendations to the Board for consideration.

The Audit Committee presents recommendations and reports on which the Board may base its decisions and actions. However, all members of the Board have the same responsibility for all decisions made, irrespective of whether the issue in question has been reviewed by such a committee or not.

The responsibilities of the audit committee are defined in the Audit Committee Regulations which have been approved by the Board. All decisions by the committee must be taken by unanimous vote.

The Audit Committee regularly evaluates its own effectiveness as a collective body and makes recommendations to the Board for the necessary adjustments in its internal regulations.

The Audit Committee consists of at least two and no more than three non executive members of the Board who are appointed prior to Admission and each of whom are independent. Once a third independent Director is appointed to the Board, such third independent Director is appointed to the Audit Committee thereby increasing the membership of the Audit Committee to three members of the Board. All members of the Audit Committee are independent. The Chairman of the Audit Committee is Michel Combes. The Audit Committee meets as frequently as necessary to ensure effective operation of the Audit Committee; as a minimum at least four times per year.

Remuneration Committee

The Board of Directors has established the Remuneration Committee to, in particular:

- make recommendations to the Board on the remuneration policy of the Executive Directors;
- prepare the remuneration report that the Board incorporates into the Corporate Governance Statement in the Issuer's Annual Report and to present the remuneration report at the Issuer's annual general meeting;
- meet annually with the CEO of the Board to discuss the functioning and performance of the Executive Directors, with a view to setting the variable remuneration;
- present all material findings and recommendations to the Board for consideration;
- check its operation and efficiency each year and provide the Board with clear regular information about the discharge of its functions. It informs the Board about any areas in which the Remuneration Committee considers action or improvement to be necessary. The Remuneration Committee prepares recommendations concerning the necessary steps to be taken;
- the CEO participates in the meetings of the Remuneration Committee when it deals with the remuneration of members of the executive management (other than the CEO).

The Remuneration Committee consists of two and not more than three Non Executive Directors who are appointed prior to Admission and each of whom are independent. Once a third independent Director is appointed to the Board, such third independent Director is appointed to the Remuneration Committee thereby increasing the membership of the Remuneration Committee to three members of the Board. The members of the Remuneration Committee have the requisite expertise in the area of remuneration policy to fulfil the Remuneration Committee's role effectively. The Remuneration Committee is chaired by an independent Non Executive Director designated by the Board.

Conflicts Management Framework

General Conflicts

Where a Director has an interest that conflicts with the interests of the Issuer, the Director must report such conflict(s) to the Board and is to be excluded from deliberations and voting on the conflicted matter. If the conflicted Director is Patrick Drahi and Patrick Drahi is appointed as Chairman, the Non Executive Vice Chairman acts as chairman of the meeting and in the event of a tied vote has a casting vote save where the conflict relates to the warrant, the warrant instrument or warrant shares, in which case the Executive Vice Chairman acts as chairman and in the event of a tied vote has a casting vote. The conflict is to be disclosed at the next general meeting and in the next annual accounts of the Issuer.

Conflicts and Related Party Transactions

The general conflicts procedures under Luxembourg law apply to all related party transactions. The conflicted Directors must not participate in deliberations concerning, and voting with respect to, the conflicted matter. The resulting Board considered the transaction, disclosing to the Audit Committee material conflicts and related party transactions. An independent expert was commissioned to opine to the Issuer that a transaction is entered into under normal market conditions.

If a related party commercial contract is an ordinary course arrangement that is to be entered into under normal market conditions and is the subject of arm's length negotiations then it is not deemed to give rise to a conflict of interest. However, the Issuer has established that, notwithstanding that a commercial contract is entered into under normal market conditions and is the subject of arm's length negotiations, in the event the value of the contract exceeds one per cent. of Group revenue, such contract is subject to a Board approval and the conflicted Director is not entitled to participate in the deliberations or vote on the subject matter. Disclosure to the Audit Committee is required where material.

There are no conflicts of interest between any duties to the Issuer of any member of the Board and their private interests and other duties.

Corporate Opportunities

For so long as Next L.P. or any other entity controlled by Patrick Drahi owns more than thirty per cent. (30%) in aggregate of the share capital of the Issuer, Patrick Drahi must present all new opportunities that he believes are capable of execution and relating to a relevant opportunity ("Corporate Opportunities") to the Board. Patrick Drahi and any other entity controlled by Patrick Drahi may, but without any obligation to do so, present opportunities other than relevant opportunities to the Board if Patrick Drahi and any such entity or entities think the opportunity is one which is in the interests of the Issuer or the Group and shareholders as a whole. Patrick Drahi and any other entity controlled by Patrick Drahi must be clear as to their intention to pursue the relevant opportunity in personal capacity in the event the Issuer does not pursue the relevant opportunity.

Subject to the application of law relating to directors' conflicts of interest procedures, the full Board considers the Corporate Opportunity having regard to the interests of the Issuer, the group and shareholders as a whole.

If the Board decides against pursuit of the Corporate Opportunity, Patrick Drahi and any other entity controlled by Patrick Drahi is entitled to pursue the Relevant Opportunity in a private capacity.

This obligation on Patrick Drahi and any other entity controlled by Patrick Drahi with respect to the disclosure of Corporate Opportunities terminates upon Next L.P.s shareholding falling below thirty per cent. (30%) of the Issuer's issued Ordinary Share capital.

Patrick Drahi and any other entity controlled by Patrick Drahi are not obliged to present to the Issuer any opportunities and interests relating to assets held by Patrick Drahi and any such entity or entities outside of the group prior to the Issuer's admission and listing on the Euronext in Amsterdam.

PRINCIPAL SHAREHOLDER

The Issuer's principal shareholder is Next L.P., which is controlled by Mr. Patrick Drahi. As of September 30, 2014, Next L.P. holds approximately 56.8% of the share capital of the Issuer. The public, along with Cinven and Carlyle hold the remaining 43.2% of the share capital of the Issuer.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

During the year ended December 31, 2011, 2012 and 2013 we incurred an aggregate of €3.6 million, €6.2 million, €0.6 million, in management fees to related parties. These fees are primarily related to consulting services provided on mergers and acquisitions and negotiations with vendors and banks. In addition, we pay a fee to broadcast the news channel i-24 over our networks. I-24 is majority-held by our principal shareholder, Next L.P. Also, except as disclosed in the notes to the Historical Consolidated Financial Information of the Issuer included in these Listing Particulars, we did not have any other material transactions with related parties during 2011, 2012, 2013, and the nine months up to September 30, 2014.

Acquisition of Notes

Certain board members and executives of the Issuer have placed a purchase order for and have been allocated Notes at a purchase price per Note equal to the issue prices set forth on the cover page of these Listing Particulars.

DESCRIPTION OF OTHER INDEBTEDNESS

The following contains a summary of the terms of our key items of indebtedness. It does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the underlying documents. Capitalized terms not otherwise defined in this section shall, unless the context otherwise requires, have the same meanings set out in the underlying debt documents, as applicable.

Indebtedness of the Altice International Group

The 2012 Notes

On December 12, 2012, and December 20, 2012, Altice Financing issued $460 million aggregate principal amount of its $7^7/_8$% senior secured notes due 2019 (the "2012 Dollar Senior Secured Notes") and €210 million aggregate principal amount of its 8% senior secured notes due 2019 (the "2012 Euro Senior Secured Notes" and together with the 2012 Dollar Senior Secured Notes, the "2012 Senior Secured Notes"), and Altice Finco issued $425 million aggregate principal amount of its $9^7/_8$% senior notes due 2020 (the "2012 Senior Notes", and together with the 2012 Senior Secured Notes, the "2012 Notes").

The 2012 Senior Secured Notes

The 2012 Senior Secured Notes mature on December 15, 2019. Interest on the 2012 Senior Secured Notes is payable semi-annually in cash in arrears on each June 15 and December 15, commencing June 15, 2013.

The 2012 Senior Secured Notes are general obligations of Altice Financing and (i) rank *pari passu* in right of payment with any future indebtedness of Altice Financing that is not subordinated in right of payment to the 2012 Senior Secured Notes, (ii) rank senior in right of payment to any future indebtedness of Altice Financing that is expressly subordinated in right of payment to the 2012 Senior Secured Notes, and (iii) are effectively subordinated to any future indebtedness of Altice Financing that is secured by property or assets that do not secure the 2012 Senior Secured Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2012 Senior Secured Notes are currently guaranteed on a senior basis (the "2012 Senior Secured Notes Guarantees") by Altice International and certain of subsidiaries, including Cool Holding and SPV1, Altice Holdings, Altice West Europe, Altice Caribbean, ABO, Green, Altice Portugal, Cabovisão, Winreason, ONI S.G.P.S., Onitelecom, and Knewon (the "2012 Senior Secured Notes Guarantors"). Each 2012 Senior Secured Notes Guarantee is a general obligation of the relevant 2012 Senior Secured Notes Guarantor and (i) ranks *pari passu* in right of payment with any existing and future indebtedness of the relevant 2012 Senior Secured Notes Guarantor that is not subordinated in right of payment to such 2012 Senior Secured Notes Guarantor's 2012 Senior Secured Notes Guarantee, (ii) ranks senior in right of payment to all existing and future indebtedness of the relevant 2012 Senior Secured Notes Guarantor that is expressly subordinated in right of payment to such 2012 Senior Secured Notes Guarantor's 2012 Senior Secured Notes Guarantee, (iii) is effectively subordinated to any existing and future indebtedness of the relevant 2012 Senior Secured Notes Guarantor that is secured by property or assets that do not secure such 2012 Senior Secured Notes Guarantor's 2012 Senior Secured Notes Guarantee, to the extent of the value of the property and assets securing such indebtedness; and (iv) is effectively subordinated to the indebtedness and other obligations of any member of the Group that does not guarantee the 2012 Senior Secured Notes. The 2012 Senior Secured Notes Guarantees are subject to the terms of the Intercreditor Agreement. The 2012 Senior Secured Notes Guarantees are subject to release under certain circumstances. The 2012 Senior Secured Notes currently benefit from the senior secured guarantees provided by the Existing Senior Secured Guarantors and, following regulatory approval of such guarantees, Tricom and ODO. Following the New Transactions, the 2012 Senior Secured Notes are expected to benefit from the Senior Secured Guarantee provided by PT Portugal and PT OpCo. See "*Corporate and Financing Structure*".

The 2012 Senior Secured Notes are currently secured on a first-ranking basis by (i) share pledges over all of the share capital of Altice Financing and the 2012 Senior Secured Notes Guarantors (other than Winreason) (subject to the non-pledged shares of Green's minority shareholders), (ii) a pledge over the bank accounts and all receivables of Altice Financing, including Altice Financing Pledged Proceeds Notes, (iii) subject to certain exceptions, a pledge over all of the material assets of each of the 2012 Senior Secured Notes Guarantors, including all of the share capital of HOT (other than certain minority shareholder call options and management options), (iv) a pledge over the Senior Notes Proceeds Loans, and (v) a pledge over the Cool Shareholder Loan. Following the Transactions, the 2012 Senior Secured Notes are expected to benefit from the collateral securing the 2015 Senior Secured Notes (the "Senior Secured Collateral"). See "*Simplified Corporate and Financing Structure*".

Prior to December 15, 2015, Altice Financing may redeem all or a portion of the 2012 Senior Secured Notes at a price equal to 100% of the principal amount plus a "make-whole" premium. Altice Financing may redeem some or all of the 2012 Senior Secured Notes at any time on or after December 15, 2015, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to December 15, 2015, Altice Financing may redeem up to 40% of the aggregate principal amount of each series of the 2012 Senior Secured Notes with the proceeds of certain public equity offerings at a redemption price equal to 107.875% of the principal amount of the 2012 Dollar Senior Secured Notes and 108.000% of the principal amount of the 2012 Euro Senior Secured Notes plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2012 Senior Secured Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering. Upon certain Minority Shareholder Option Exercises (as defined in the 2012 Senior Secured Notes Indenture), Altice Financing must offer to repurchase the Senior Secured Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with the net cash proceeds of such Minority Shareholder Option Exercises. In the event there are any remaining net cash proceeds after the completion of such offer, Altice Finco must offer to repurchase the 2012 Senior Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with such remaining net cash proceeds. Further, Altice Financing may redeem all of the 2012 Senior Secured Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If the Covenant Parties (as defined in the 2012 Senior Secured Notes Indenture) and their respective subsidiaries sell certain of their assets, or if Altice Financing or the Covenant Parties experience specific kinds of changes in control, Altice Financing may be required to make an offer to repurchase the 2012 Senior Notes.

The 2012 Senior Secured Notes Indenture, among other things, limits the ability of Altice Financing, the ability of certain other Group entities designated as Covenant Parties and the ability of the Restricted Subsidiaries (as defined therein) to (i) incur or guarantee additional indebtedness (subject to an incurrence-based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2012 Senior Secured Notes permit the incurrence of senior secured indebtedness by Altice Financing so long as the consolidated senior secured leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0. Subject to compliance with the same consolidated senior secured leverage ratio (pro forma for such transaction) and so long as there is no default or event of default outstanding, the 2012 Senior Secured Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2012 Senior Secured Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 2.75 to 1.0.

The 2012 Senior Secured Notes Indenture provides for certain events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates $20 million or more.

The 2012 Senior Secured Notes Indenture, the 2012 Senior Secured Notes and the 2012 Senior Secured Notes Guarantees are governed by the laws of the State of New York.

The 2012 Senior Notes

The 2012 Senior Notes mature on December 15, 2020. Interest on the 2012 Senior Notes is payable semi-annually in cash in arrears on each June 15 and December 15, commencing June 15, 2013.

The 2012 Senior Notes are general obligations of Altice Finco and (i) rank *pari passu* in right of payment with any future indebtedness of Altice Finco that is not subordinated in right of payment to the 2012 Senior Notes, (ii) rank senior in right of payment to any future indebtedness of Altice Finco that is expressly subordinated in right of payment to the 2012 Senior Notes, and (iii) are effectively subordinated to any future indebtedness of Altice Finco that is secured by property or assets that do not secure the 2012 Senior Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2012 Senior Notes are currently guaranteed on a senior subordinated basis (the “2012 Senior Notes Guarantees”) by Altice International and certain of its subsidiaries, including Cool Holding, SPV1, Altice Financing, Altice Holdings, Altice West Europe, Altice Caribbean, ABO, Green, Altice Portugal, Cabovisão, Winreason, ONI S.G.P.S., Onitelecom and Knewon (the "2012 Senior Notes Guarantors"). Each 2012 Senior Notes Guarantee is a general obligation of the relevant 2012 Senior Secured Notes Guarantor and (i) is subordinated in right of payment with any existing and future indebtedness of the relevant 2012 Senior Notes Guarantor that is not subordinated in right of payment to such 2012 Senior Notes Guarantor's 2012 Senior Notes Guarantee; (ii) ranks *pari passu* in right of payment to all existing and future senior subordinated indebtedness of the relevant 2012 Senior Notes Guarantor; (iii) ranks senior in right of payment to all existing and future indebtedness of the relevant 2012 Senior Notes Guarantor that is expressly subordinated in right of payment to such 2012 Senior Notes Guarantor's 2012 Senior Notes Guarantee; (iv) is effectively subordinated to any existing and future indebtedness of the relevant 2012 Senior Notes Guarantor that is secured by property or assets that do not secure such 2012 Senior Notes Guarantor's 2012 Senior Notes Guarantee, to the extent of the value of the property and assets securing such indebtedness; and (v) is effectively subordinated to the indebtedness and other obligations of any member of the Group that does not guarantee the 2012 Senior Notes. The 2012 Senior Notes Guarantees are subject to the terms of the Intercreditor Agreement, including payment blockage upon a senior default and standstills on enforcement. The 2012 Senior Notes Guarantees are subject to release under certain circumstances. The 2012 Senior Notes benefit from the senior notes guarantees provided by the entities guaranteeing the 2015 Senior Notes (the "Senior Notes Guarantors"). See "*Simplified Corporate and Financing Structure*".

The 2012 Senior Notes are currently secured by (i) a first-ranking share pledge over all of the share capital of Altice Finco, (ii) second-ranking share pledges over all of the share capital of the 2012 Altice Financing and Cool Holding, (iii) a second-ranking pledge over the Cool Shareholder Loan, and (iv) a second-ranking pledge over the 2012 Senior Notes Proceeds Loan. Following the Transactions, the 2012 Senior Notes are expected to benefit from the collateral securing the 2015 Senior Notes (the "Senior Notes Collateral"). See "*Simplified Corporate and Financing Structure*".

Prior to December 15, 2016, Altice Finco may redeem all or a portion of the 2012 Senior Notes at a price equal to 100% of the principal amount plus a "make-whole" premium. Altice Finco may redeem some or all of the 2012 Senior Notes at any time on or after December 15, 2016, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to December 15, 2015, Altice Finco may redeem up to 40% of the aggregate principal amount of the 2012 Senior Notes with the proceeds of certain public equity offerings at a redemption price equal to 109.875% of their principal amount plus accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of the 2012 Senior Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering. Further, Altice Finco may redeem all of the 2012 Senior Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If the Covenant Parties (as defined in the 2012 Senior Notes Indenture) and their respective subsidiaries sell certain of their assets, or if Altice Finco or the Covenant Parties experience specific kinds of changes in control, Altice Finco may be required to make an offer to repurchase the 2012 Senior Notes.

The 2012 Senior Notes Indenture, among other things, limits the ability of Altice Finco, the ability of certain other Group entities designated as Covenant Parties and the ability of the Restricted Subsidiaries (as defined therein) to (i) incur or guarantee additional indebtedness (subject to an incurrence-based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2012 Senior Notes permit the incurrence of indebtedness by Altice Finco so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding , the 2012 Senior Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2012 Senior Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 2.75 to 1.0.

The 2012 Senior Notes Indenture provides for certain events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates $20 million or more.

The 2012 Senior Notes Indenture, the 2012 Senior Notes and the 2012 Senior Notes Guarantees are governed by the laws of the State of New York.

The 2013 June Senior Notes

On June 14, 2013, Altice Finco issued €250 million aggregate principal amount of its 9% senior notes due 2023 (the "2013 June Senior Notes").

The 2013 June Senior Notes mature on June 15, 2023. Interest on the 2013 June Senior Notes is payable semi-annually in cash in arrears on each January 15 and July 15, commencing January 15, 2014.

The 2013 June Senior Notes are general obligations of Altice Finco and (i) rank *pari passu* in right of payment with any existing or future indebtedness of Altice Finco that is not subordinated in right of payment to the 2013 June Senior Notes, (ii) rank senior in right of payment to any future indebtedness of Altice Finco that is expressly subordinated in right of payment to the 2013 June Senior Notes, and (iii) are effectively subordinated to any future indebtedness of Altice Finco that is secured by property or assets that do not secure the 2013 June Senior Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2013 June Senior Notes benefit from guarantees from the 2013 June Senior Notes Guarantors on a senior subordinated basis and are secured by the same security applicable to the 2012 Senior Notes.

Prior to June 15, 2018, Altice Finco may redeem all or a portion of the 2013 June Senior Notes at a price equal to 100% of the principal amount plus a "make-whole" premium. Altice Finco may redeem some or all of the 2013 June Senior Notes at any time on or after June 15, 2018, at the redemption prices indicated below plus accrued and unpaid interest and additional amounts, if any.

In addition, prior to June 15, 2016, Altice Finco may redeem up to 40% of the aggregate principal amount of the 2013 June Senior Notes with the proceeds of certain public equity offerings at a redemption price equal to 109.000% of their principal amount, plus accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of the 2013 June Senior Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering. Further, Altice Finco may redeem all of the 2013 June Senior Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If Altice International and its restricted subsidiaries sell certain of their assets or if Altice Finco or Altice International experience specific kinds of changes in control, Altice Finco may be required to make an offer to repurchase the 2013 June Senior Notes at specified redemption prices.

The indenture governing the 2013 June Senior Notes (the "2013 June Senior Notes Indenture"), among other things, limits the ability of Altice Finco, the ability of certain other Group entities and the ability of the Restricted Subsidiaries (as defined therein) to (i) incur or guarantee additional indebtedness, (subject to an incurrence based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2013 June Senior Notes permit the incurrence of indebtedness by Altice Finco so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding , the 2013 June Senior Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2013 June Senior Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 2.75 to 1.0.

The 2013 June Senior Notes Indenture provides for certain events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to the expiration of the applicable grace period provided, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The 2013 June Senior Notes Indenture, the 2013 June Senior Notes and the 2013 June Senior Notes Guarantees are governed by the laws of the State of New York.

The 2013 December Notes

On December 12, 2013, Altice Financing issued $900 million aggregate principal amount of its $6^{1}/_{6}\%$ senior secured notes due 2022 (the "2013 December Dollar Senior Secured Notes") and €300 million aggregate principal amount of its $6^{1}/_{6}\%$ senior secured notes due 2022 (the "2013 December Euro Senior Secured Notes" and together with the 2013 December Dollar Senior Secured Notes, the "2013 December Senior Secured Notes"), and Altice Finco issued $400 million aggregate principal amount of its $8^{1}/_{8}$ senior notes due 2022 (the "2013 December Dollar Senior Notes", and together with the 2013 December Senior Secured Notes, the "December 2013 Notes").

The 2013 December Senior Secured Notes

The 2013 December Senior Secured Notes mature on January 15, 2022. Interest on the 2013 December Senior Secured Notes is payable semi-annually in cash in arrears on each July 15 and January 15, commencing July 15, 2014.

The 2013 December Senior Secured Notes are general obligations of Altice Financing and (i) rank *pari passu* in right of payment with any existing or future indebtedness of Altice Financing that is not subordinated in right of payment to the 2013 December Senior Secured Notes, (ii) rank senior in right of payment to any existing or future indebtedness of Altice Financing that is expressly subordinated in right of payment to the 2013 December Senior Secured Notes, and (iii) are effectively subordinated to any existing or future indebtedness of Altice Financing that is secured by property or assets that do not secure the 2013 December Senior Secured Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2013 December Senior Secured Notes are guaranteed on a senior basis by the 2012 Senior Secured Notes Guarantors (other than ABO) (the "2013 December Senior Secured Notes Guarantees"). The 2013 December Senior Secured Notes Guarantees are subject to release under certain circumstances.

Following the Transactions, the 2013 December Senior Secured Notes are expected to benefit from the senior secured guarantee provided by PT Portugal and PT OpCo. The 2013 December Senior Secured Notes are secured by (i) first-ranking pledges over all of the share capital of Altice Financing, all the 2012 Senior Secured Notes Guarantors (other than Altice International, ABO, Green, Altice Portugal, Cabovisão, Winreason, ONI S.G.P.S., Onitelecom and Knewon), the capital stock of HOT and, following regulatory approval of such pledge, Tricom and ODO, (ii) a first-ranking pledge over the bank accounts and all receivables of Altice Financing, (iii) subject to certain exceptions, first-ranking pledges over all of the material assets of each 2012 Senior Secured Notes Guarantor (other than ABO, Altice Portugal, Cabovisão, Winreason, ONI S.G.P.S., Onitelecom and Knewon) and ODO, (iv) a first-ranking pledge over the Senior Notes Proceeds Loans, (v) a first-ranking pledge over the Cool Shareholder Loan and, (vi) a first-ranking pledge over the Covenant Party Pledged Proceeds Loan (other than the Cabovisão Proceeds Notes and the Onitelecom Proceeds Notes) (collectively, the "2013 December Senior Secured Collateral"). Following the Transactions, the 2013 December Senior Secured Notes are expected to benefit from the Senior Secured Collateral. See "*Simplified Corporate and Financing Structure*".

Prior to December 15, 2016, Altice Financing may redeem all or a portion of the 2013 December Senior Secured Notes at a price equal to 100% of the principal amount plus a "make-whole premium". Altice Financing may redeem some or all of the 2013 December Senior Secured Notes at any time on or after December 15, 2016, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any.

In addition, prior to December 15, 2016, Altice Financing may redeem up to 40% of the aggregate principal amount of each series of the 2013 December Senior Secured Notes with the proceeds of certain public equity offerings at a redemption price equal to 106.500% of the principal amount of the relevant 2013 December Senior Secured Note and 106.500% of the principal amount of the 2013 December Euro Senior Secured Notes plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2013 December Senior Secured Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

Upon the exercise of certain Minority Shareholder Option Exercises (as defined in the 2013 December Senior Secured Notes Indenture) Altice Financing must offer to repurchase the 2013 December Senior Secured Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with the net cash proceeds of such Minority Shareholder Call Options Exercises. In the event there are any remaining net cash proceeds after the completion of such offer, Altice Financing must offer to repurchase the 2013 December Senior Secured Notes and the 2013 December Senior Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with such remaining net cash proceeds. Further, Altice Financing may redeem all of the 2013 December Senior Secured Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If Altice International and its respective subsidiaries sell certain of their assets, or if Altice Financing or Altice International experience specific kinds of changes in control, Altice Financing may be required to make an offer to repurchase the 2013 December Senior Secured Notes at specified redemption prices.

The indenture governing the 2013 December Senior Secured Notes (the "2013 December Senior Secured Notes Indenture") among other things, limits the ability of Altice Financing and the ability of the other subsidiaries of Altice International (other than Altice Finco) to (i) incur or guarantee additional indebtedness (subject to an incurrence-based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2013 December Senior Secured Notes permit the incurrence of senior secured indebtedness by Altice Financing so long as the consolidated senior secured leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0. Subject to compliance with the same consolidated senior secured leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding , the 2013 December Senior Secured Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2013 December Senior Secured Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0.

The 2013 December Senior Secured Notes Indenture provides for certain customary events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The 2013 December Senior Secured Notes Indenture, the 2013 December Senior Secured Notes and the related guarantees are governed by the laws of the State of New York.

The 2013 December Senior Notes

The 2013 December Senior Notes mature on June 15, 2024. Interest on the 2013 December Senior Notes is payable semi-annually in cash in arrears on each January 15 and July 15, commencing January 15, 2014.

The 2013 December Senior Notes are general obligations of Altice Finco and (i) rank *pari passu* in right of payment with any existing or future indebtedness of Altice Finco that is not subordinated in right of payment to the 2013 December Senior Notes, (ii) rank senior in right of payment to any future indebtedness of Altice Finco that is expressly subordinated in right of payment to the 2013 December Senior Notes, and (iii) are effectively subordinated to any existing or future indebtedness of Altice Finco that is secured by property or assets that do not secure the 2013 December Senior Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2013 December Senior Notes benefit from the 2012 Senior Notes Guarantors (except ABO) on a senior subordinated basis and are secured by the same security applicable to the 2012 Senior Notes.

Prior to December 15, 2018, Altice Finco may redeem all or a portion of the 2013 December Senior Notes at a price equal to 100% of the principal amount plus a make-whole premium. Altice Financing may redeem some or all of the 2013 December Senior Notes at any time on or after December 15, 2018, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any.

In addition, prior to December 15, 2016, Altice Finco may redeem up to 40% of the aggregate principal amount of the 2013 December Senior Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 108.125% of their principal amount, plus accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of the 2013 December Senior Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering. Further, Altice Finco may redeem all of the 2013 December Senior Notes at a price equal to their principal amount plus accrued and unpaid interest and any additional amount. If Altice International and its restricted subsidiaries sell certain of their assets or if Altice Finco or Altice International experience specific kinds of changes in control, Altice Finco may be required to make an offer to repurchase the 2013 December Senior Notes at specified redemption prices.

The indenture governing the 2013 December Senior Notes (the "2013 December Senior Notes Indenture"), among other things, limits the ability of Altice International and its subsidiaries to (i) incur or guarantee additional indebtedness (subject to an incurrence based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2013 December Senior Notes permit the incurrence of indebtedness by Altice Finco so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding , the 2013 December Senior Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2013 December Senior Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0.

The 2013 December Senior Notes Indenture provides for certain events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to the expiration of the applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The 2013 December Senior Notes Indenture, the 2013 December Senior Notes and the related guarantees are governed by the laws of the State of New York.

2015 Senior Secured Notes

On the Issue Date, Altice Financing issued €2,317 million (equivalent) in aggregate principal amount of senior secured notes, comprised of the following tranches: (i) $2,060 million aggregate principal amount of its Senior Secured Notes due 2023 denominated in U.S. dollars (the "*2015 Senior Secured Dollar Notes*") and (ii) €500 million aggregate principal amount of its Senior Secured Notes due 2023 denominated in euro (the "*2015 Senior Secured Euro Notes*" and, together with the 2015 Senior Secured Dollar Notes, the "*2015 Senior Secured Notes*"). The 2015 Senior Secured Notes mature on February 15, 2023. Interest on the New Altice Financing Senior Secured Notes is payable semi-annually in cash in arrears on each April 1 and October 1, commencing on October 1, 2015. The 2015 Senior Secured Notes are governed by an indenture to be entered into on or about the Issue Date (the "*2015 Senior Secured Notes Indenture*").

The 2015 Senior Secured Notes are general obligations of Altice Financing and (i) rank pari passu in right of payment with all existing and future indebtedness of Altice Financing that is not subordinated in right of payment to the 2015 Senior Secured Notes; (ii) rank senior in right of payment to all existing and future indebtedness of Altice Financing that is expressly subordinated in right of payment to the 2015 Senior Secured Notes; and (iii) will be effectively subordinated to any existing and future indebtedness of Altice Financing that is secured by property or assets that do not secure the 2015 Senior Secured Notes, to the extent of the value of the property and assets securing such indebtedness.

On the Issue Date, the Initial Purchasers deposited the gross proceeds from the offering of the 2015 Senior Secured Notes into segregated escrow accounts in the name of Altice Financing for the benefit of the holders of the 2015 Senior Secured Notes.

Prior to the date on which the proceeds of the 2015 Senior Secured Notes are released from escrow (the "*Completion Date*"), the 2015 Senior Secured Notes are not guaranteed. On the Completion Date, the 2015 Senior Secured Notes will be guaranteed on a senior basis by each of by Altice International, Altice Caribbean S.à r.l., Cool Holding Ltd., H. Hadaros 2012 Ltd., Altice Holdings S.à r.l., Altice West Europe S.à r.l., green.ch AG ("*Green*"), Altice Portugal, Cabovisão—Televisão por Cabo, S.A. ("*Cabovisao*"), Altice Bahamas S.à r.l., Tricom S.A., Global Interlink Ltd., Altice Hispaniola S.A., Winreason—S.A. ("*Winreason*"), ONI S.G.P.S., S.A. ("*ONI S.G.P.S.*"), Onitelecom—Infocomunicações, S.A. ("*Onitelecom*") and Knewon, S.A. (collectively, the "*SSN Completion Date Guarantors*"). Within 90 days of the Completion Date, the New Altice Financing Senior Secured Notes will be guaranteed by PT Portugal and PT OpCo (together, the "*Post-Completion Date Guarantors*").

Prior to the Completion Date, the 2015 Senior Secured Notes are secured by a first-ranking pledge over the assets in the respective escrow accounts and Altice Financing's rights under the escrow agreement governing such escrow accounts. On the Completion Date, the 2015 Senior Secured Notes will benefit from (i) first ranking pledges over all of the share capital of the Altice Financing and the Completion Date Guarantors (other than Altice International, Green, Altice Portugal, Winreason, ONI S.G.P.S., Onitelecom and Knewon), Altice Blue One ("*ABO*"), the capital stock of HOT, (ii) a first ranking pledge over the bank accounts and all receivables of Altice Financing, (iii) subject to certain exceptions, first ranking pledges (or assignments as applicable) over all of the material assets of each Completion Date Guarantor (other than Cabovisao, Altice Portugal, Winreason, ONI S.G.P.S., Onitelecom and Knewon) and an assignment of claims and rights under the acquisition agreement signed by Altice Portugal in connection with the PT Portugal Acquisition, (iv) a first ranking pledge over the Senior Notes Proceeds Loans, (v) a first ranking pledge over the Cool Shareholder Loan, (vi) a first ranking pledge over the Covenant Party Pledged Proceeds Loans (other than the Onitelecom Proceeds Notes and the Cabovisao Proceeds Notes) and (vii) a first ranking pledge over the receivables under the AWE Proceeds Loan.

Within 10 Business Days after the Completion Date, the 2015 Senior Secured Notes will benefit from first ranking pledges over all the share capital of PT Portugal, and within 90 days after the Completion Date, the share capital of PT OpCo, PT Cloud e Data Centers, S.A. ("*PT Cloud"*), and PT—Móveis—Serviços de Telecomunicações, SGPS, S.A. (&!#od;'*PT Moveis*").

Prior to February 15, 2018, Altice Financing may redeem all or a portion of the 2015 Senior Secured Notes at a price equal to 100% of the principal amount plus a make whole premium. Altice Financing may redeem some or all of the 2015 Senior Secured Notes at any time on or after February 15, 2018, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to February 15, 2018, Altice Financing may redeem up to 40% of each series of the aggregate principal amount of the 2015 Senior Secured Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 106.625% of the principal amount of the 2015 Senior Secured Dollar Notes and 105.250% of the principal amount of the 2015 Senior Secured Euro Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2015 Senior Secured Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

Upon the exercise of certain Minority Shareholder Option Exercises (as defined in the 2015 Senior Secured Notes Indenture) Altice Financing must offer to repurchase the 2015 Senior Secured Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with the net cash proceeds of such Minority Shareholder Call Options Exercises. In the event there are any remaining net cash proceeds after the completion of such offer, Altice Financing must offer to repurchase the 2015 Senior Secured Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts if any, which such remaining net cash proceeds. Further, Altice Financing may redeem all of the 2015 Senior Secured Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If Altice International and its respective subsidiaries sell certain of their assets, or if Altice Financing or Altice International experience specific kinds of changes in control constituting a Change of Control Trigger Event (as defined in the Description of Senior Secured Notes), Altice Financing may be required to make an offer to repurchase the 2015 Senior Secured Notes at specified redemption prices.

The 2015 Senior Secured Notes Indenture permits the incurrence of indebtedness by Altice Financing so long as the consolidated net senior secured leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0. Subject to compliance with the consolidated net leverage ratio (pro forma for such transactions) and so long as there is not default or event of default outstanding, the 2015 Senior Secured Notes Indenture permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on December 12, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the 2015 Senior Secured Notes Indentures are permitted so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0.

The 2015 Senior Secured Notes Indenture, among other things, further limits the ability of Altice Financing and the ability of the Restricted Subsidiaries (as defined therein), subject to a number of important exceptions and qualifications, to (i) incur or guarantee additional indebtedness (subject to the incurrence-based consolidated net senior secured leverage ratio test described above); (ii) make investments or other restricted payments; (iii) create liens; (iv) sell assets and subsidiary stock (subject to certain exceptions, including for disposals required by competition laws in relation to the Target Acquisition); (v) pay dividends or make other distributions or repurchase or redeem capital stock or subordinated debt; (vi) engage in certain transactions with affiliates; (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications, including those discussed in the preceding paragraph.

In addition, the 2015 Senior Secured Notes Indenture provides that, for so long as no payment block events (as defined in such instruments) have occurred and are continuing, Altice International may pay dividends or other distributions to Altice S.A. in an amount equal to the amount required by Altice S.A. for the payment of regularly scheduled interest as such amounts come due under the Notes.

The 2015 Senior Secured Notes Indentures provide for certain events of default, including, among others, a default due to the failure to promptly consummate the Target Acquisition after release of the escrowed proceeds (subject to a grace period), and defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The 2015 Senior Secured Notes Indenture is governed by the laws of the State of New York.

2015 Senior Notes

On or about the Issue Date, Altice Finco issued $385 million in aggregate principal amount of senior notes (the "*2015 Senior Notes*"). The 2015 Senior Notes mature on February 15, 2025. Interest on the 2015 Senior Notes is payable semi-annually in cash in arrears on each April 1 and October 1, commencing on October 1, 2015. The 2015 Senior Notes are governed by an indenture to be entered into on or about the Issue Date (the "*New Altice Finco Senior Notes Indenture*").

The 2015 Senior Notes are general obligations of Altice Finco and (i) rank pari passu in right of payment with all existing and future indebtedness of Altice Finco that is not subordinated in right of payment to the 2015 Senior Notes; (ii) rank senior in right of payment to all existing and future indebtedness of Altice Finco that is expressly subordinated in right of payment to the 2015 Senior Notes; and (iii) will be effectively subordinated to any existing and future indebtedness of Altice Finco that is secured by property or assets that do not secure the 2015 Senior Notes, to the extent of the value of the property and assets securing such indebtedness.

On the Issue Date, the Initial Purchasers deposited the gross proceeds from the offering of the 2015 Senior Notes into an escrow account in the name of Altice Finco for the benefit of the holders of the 2015 Senior Notes.

Prior to the Completion Date, the 2015 Senior Notes are not guaranteed. On the Completion Date, the 2015 Senior Notes will be guaranteed on a senior basis by each of by Altice Financing, Altice International, and the SSN Completion Date Guarantors (collectively, the "*Completion Date Guarantors*"). Within 90 days of the Completion Date, the 2015 Senior Notes will be guaranteed by PT Portugal and PT OpCo (together, the "*Post-Completion Date Guarantors*").

Prior to the Completion Date, the 2015 Senior Notes are secured by a first-ranking pledge over the assets in the escrow account and Altice Finco's rights under the escrow agreement governing such escrow account. On the Completion Date, the 2015 Senior Notes will be secured by (i) a first-ranking pledge over all of the share capital of the Altice Finco; (ii) second-ranking pledges over all of the share capital of the Altice Financing, Cool Holding and Altice Holdings; (iii) second-ranking pledges over the Senior Notes Proceeds Loans; and (iv) a second-ranking pledge over the Cool Shareholder Loan.

Prior to February 15, 2020, Altice Finco may redeem all or a portion of the 2015 Senior Notes at a price equal to 100% of the principal amount plus a make whole premium. Altice Finco may redeem some or all of the 2015 Senior Notes at any time on or after February 15, 2020, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to February 15, 2018, Altice Finco may redeem up to 40% of each series of the aggregate principal amount of the 2015 Senior Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 107.625% of the principal amount of the 2015 Senior Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2015 Senior Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

Upon the exercise of certain Minority Shareholder Option Exercises (as defined in the 2015 Senior Notes Indenture) Altice Finco must offer to repurchase the 2015 Senior Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with the net cash proceeds of such Minority Shareholder Call Options Exercises. In the event there are any remaining net cash proceeds after the completion of such offer, Altice Finco must offer to repurchase the 2015 Senior Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with such remaining net cash proceeds. Further, Altice Finco may redeem all of the 2015 Senior Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If Altice International and its respective subsidiaries sell certain of their assets, or if Altice Finco or Altice International experience specific kinds of changes in control constituting a Change of Control Trigger Event (as defined in the Description of Senior Notes), Altice Finco may be required to make an offer to repurchase the 2015 Senior Notes at specified redemption prices.

The 2015 Senior Notes Indenture permits the incurrence of indebtedness by Altice Financing so long as the consolidated net senior secured leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0, and also permits the incurrence of indebtedness by Altice Finco so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Subject to compliance with the consolidated net leverage ratio (pro forma for such transactions) and so long as there is not default or event of default outstanding, the 2015 Senior Notes Indenture permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on December 12, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the 2015 Senior Notes Indentures are permitted so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. In addition, the 2015 Senior Notes Indenture provides that, for so long as no payment block events (as defined in such instruments) have occurred and are continuing, Altice International may pay dividends or other distributions to Altice S.A. in an amount equal to the amount required by Altice S.A. for the payment of regularly scheduled interest as such amounts come due under the Notes.

The 2015 Senior Notes Indenture, among other things, further limits the ability of Altice Finco and the ability of the Restricted Subsidiaries (as defined therein), subject to a number of important exceptions and qualifications, to (i) incur or guarantee additional indebtedness (subject to the incurrenced-based net leverage ratio test described above), (ii) make investments or other restricted payments; (iii) create liens; (iv) sell assets and subsidiary stock (subject to certain exceptions, including for disposals required by competition laws in relation to the Target Acquisition); (v) pay dividends or make other distributions or repurchase or redeem capital stock or subordinated debt; (vi) engage in certain transactions with affiliates; (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications, including those discussed in the preceding paragraph.

The 2015 Senior Notes Indenture provides for certain events of default, including, among others, a default due to the failure to promptly consummate the Target Acquisition after release of the escrowed proceeds (subject to a grace period), and defaults under other debt instruments which (i) is caused by the failure to pay principal of, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The 2015 Senior Notes Indenture is governed by the laws of the State of New York.

The 2013 Altice Financing Term Loan

On June 24, 2013 a senior secured term loan credit facility (as amended from time to time, the “2013 Altice Financing Term Loan Facility”) which provide for U.S. dollar term loans (the “2013 Altice Financing Term Loans”) in an aggregate principal amount equivalent to $1,034 million, was entered into among Altice Financing, as borrower, certain lenders party thereto, Goldman Sachs International, Morgan Stanley Senior Funding, Inc., Crédit Agricole Corporate and Investment Bank, Credit Suisse AG, Cayman Islands Branch and Deutsche Bank Securities Inc., as joint lead arrangers and bookrunners, Goldman Sachs Lending Partners LLC, as administrative agent and Citibank, N.A., London Branch as security agent (the “2013 Altice Financing Term Loan Agreement”). The entire amount available under the 2013 Altice Financing Term Loan has been drawn.

Interest Rate and Fees

Borrowings under the 2013 Altice Financing Term Loan Facility bear interest at a rate per annum equal to an applicable margin plus, at Altice Financing’s option, either (a) a base rate determined by reference to the highest of (1) the U.S. Federal Funds Rate as published by the Federal Reserve Bank of New York, plus 0.50%, (2) the prime rate of interest per annum quoted in the print edition of The Wall Street Journal, Money Rates Section as the prime rate, (3) the LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% and (4) a floor of 2.00% (any such borrowing, an “ABR Loan”) or (b) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs, provided that such LIBOR rate shall not be lower than 1.00% (any such borrowing, a “Eurodollar Loan”).

The applicable margin is, for any day, (a) with respect to any ABR Loan, 3.50% per annum and (b) with respect to any Eurodollar Loan, 4.50% per annum.

Mandatory Prepayments

The 2013 Altice Financing Term Loan Agreement requires Altice Financing to prepay outstanding term loans thereunder, subject to certain exceptions, with (i) 100% of the net cash proceeds in excess of a specified threshold amount of certain asset sales, subject to reinvestment rights and certain other exceptions; (ii) commencing with the fiscal year ended December 31, 2014, 50% of the annual excess cash flow, which percentage will be reduced to 0% if the Consolidated Leverage Ratio is less than 4.0:1.0; and (iii) 100% of the net cash proceeds in excess of a specified threshold amount of certain Minority Shareholder Option Exercises (as defined in the 2013 Altice Financing Term Loan Agreement) at, in the case of such Minority Shareholder Option Exercise prepayments, a price for such term loans prepaid equal to 103% of the principal amount thereof plus accrued and unpaid interest and additional amounts, if any.

Voluntary Prepayments

Prepayments of the 2013 Altice Financing Term Loan Facility on or prior to the first anniversary of July 2, 2013 are subject to a make-whole provision and a minimum call premium of 2.00%. Voluntary prepayments (including any effective prepayment by way of a repricing amendment) of the 2013 Altice Financing Term Loan Facility after July 2, 2014 but on or prior to July 2, 2015, are subject to a call premium of 2.00%. Voluntary prepayments (including any effective prepayment by way of a repricing amendment) of the 2013 Altice Financing Term Loan Facility after July 2, 2015 but on or prior to July 2, 2016 are subject to a call premium of 1.00%. Otherwise, the 2013 Altice Financing Term Loan Facility may be voluntarily prepaid at any time subject to customary "breakage" costs with respect to Eurodollar Loans.

Amortization and Final Maturity

Beginning with the quarter ending March 31, 2014, Altice Financing is required to make scheduled quarterly payments each equal to 0.25% of the original principal amount of the term loans borrowed under the 2013 Altice Financing Term Loan Facility, with the balance due on July 2, 2019.

Guarantees

Each of the 2012 Senior Secured Notes Guarantors of the 2012 Senior Secured Notes guarantees, on a senior basis, the obligations of each other obligor under the 2013 Altice Financing Term Loan Agreement and related finance documents.

Security

The 2013 Altice Financing Term Loan Facility is secured by the same collateral securing, *inter alia,* the Existing Senior Secured Notes.

Certain Covenants and Events of Default

The 2013 Altice Financing Term Loan Agreement includes negative covenants that, among other things and subject to certain significant exceptions and qualifications, limit our ability and the ability of our restricted subsidiaries to: (i) incur or guarantee additional Indebtedness, subject to an incurrence-based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. The 2013 Altice Financing Term Loan Agreement permits the incurrence of senior secured indebtedness by Altice Financing so long as the consolidated senior secured leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0. Subject to compliance with the same consolidated senior secured leverage ratio (pro forma for such transaction) and so long as there is no default or event of default outstanding, the 2013 Altice Financing Term Loan Agreement permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2013 Altice Financing Term Loan Agreement are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 2.75 to 1.0.

The 2013 Altice Financing Term Loan Agreement also contains certain customary representations and warranties, affirmative covenants and events of default (including, among others, an event of default upon a change of control). If an event of default occurs, the lenders under the 2013 Altice Financing Term Loan Facility will be entitled to take various actions, including the acceleration of amounts due under the 2013 Altice Financing Term Loan Facility and all actions permitted to be taken by a secured creditor, subject to the Intercreditor Agreement.

New Altice Financing Term Loan

Overview

On or around the Issue Date, Altice Financing entered into a senior secured term loan credit facility (the "New Altice Financing Term Loan") which is expected to provide euro and U.S. dollar term loans in an aggregate principal amount equivalent to €841 million, with Altice Financing as borrower (the "Term Loan Borrower"), certain lenders party thereto and Deutsche Bank AG, London Branch and Deutsche Bank AG, New York Branch as the administrative agents and Citibank N.A., London Branch as the security agent (the "New Altice Financing Term Loan Agreement"). The New Altice Financing Term Loan Agreement permits the Term Loan Borrower, upon prior notice to the lenders thereunder, to draw term loans up to the committed principal amount on a single occasion prior to June 9, 2016. Availability of the New Altice Financing Term Loan on such date is subject to specified conditions precedent. Proceeds of the term loans, together with the other sources of funds described under "*Use of Proceeds*," will be used to finance a portion of the Transactions and related fees and expenses.

Altice Financing has drawn under the New Altice Financing Term Loan on February 4, 2015. The amounts drawn have been deposited into an escrow account and used on the Completion Date.

Interest Rate and Fees

Borrowings under the New Altice Financing Term Loan bear interest at a rate per annum equal to an applicable margin plus (i) in the case of U.S. dollar denominated loans, at our option, either (a) a base rate determined by reference to the highest of (1) the U.S. Federal Funds Effective Rate as published by the Federal Reserve Bank of New York plus 0.50%, (2) the prime rate determined from time to time by Deutsche Bank AG, New York Branch as the prime rate, (3) the LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% and (4) a floor of 2.00% or (b) a LIBOR rate equal to the greater of (A) a rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs, and (B) 1.00%, and (ii) in the case of euro-denominated loans, a EURIBOR rate determined by reference to the costs of funds for euro deposits for the interest period relevant to such borrowing adjusted for certain additional costs, provided that such EURIBOR rate shall not be less than 1.00%.

The applicable margin shall mean, for any day, (a) with respect to any alternative base rate loan, 3.25% per annum, (b) with respect to any Eurodollar loan, 4.25% per annum and (c) with respect to any Euro denominated loan, 4.25% per annum.

In addition to paying interest on outstanding principal under the New Altice Financing Term Loan, we are required to pay a ticking fee to the lenders in respect of the unutilized commitments thereunder, payable on the date of each drawing and upon any reduction or termination of the commitments.

Mandatory Prepayments

The New Altice Financing Term Loan Agreement requires us to prepay outstanding term loans, subject to certain exceptions, with (i) 100% of the net cash proceeds of certain asset sales, subject to thereunder reinvestment rights and certain other exceptions; and (ii) commencing with the later of (a) the fiscal year ended December 31, 2015 or (b) the first full fiscal year ended after the Completion Date, provided that if the Completion Date is after June 30, 2015, such period shall commence with the fiscal year ending December 31, 2016, 50% of our annual excess cash flow, which percentage will be reduced to 0% if our Consolidated Net Leverage Ratio is less than 4.5:1.0. We will not be required to make any such prepayments from the proceeds of asset sales made as a consequence of competition laws to the extent that such proceeds do not exceed 2% of the pro forma total assets of Altice International and its Restricted Subsidiaries.

Voluntary Prepayments

Prepayments of the New Altice Financing Term Loan on or prior to the six month anniversary of the closing date of the New Altice Financing Term Loan which are either (x) in connection with a Repricing Transaction (as defined in the New Altice Financing Term Loan) or (y) effects any amendment of the New Altice Financing Term Loan resulting in a Repricing Transaction, are subject to a call premium payable to the Administrative Agent on behalf of the lenders of, in the case of (x) 1% of the principal amount of the New Altice Financing Term Loan so repaid and in the case of (y) a payment equal to 1% of the aggregate amount of the New Altice Financing Term Loan subject to such Repricing Transaction.

Amortization and Final Maturity

Beginning with the first full fiscal quarter of Altice International after the Commitment Termination Date or, if earlier, the first date after the occurrence of the PT Portugal Acquisition, we will be required to make scheduled quarterly payments each equal to 0.25% of the original principal amount of the term loans borrowed under the New Altice Financing Term Loan, with the balance expected to be due on the sixth anniversary of the completion date.

Guarantees

Each Guarantor of the New Senior Secured Notes and Altice Financing guarantees, on a senior basis, the obligations of each other obligor under the New Altice Financing Term Loan Agreement and related finance documents subject to applicable guarantee limitations specified therein.

Security

The New Altice Financing Term Loan is secured by the same collateral securing, *inter alia*, the New Senior Secured Notes (other than any security over the proceeds of the New Senior Secured Notes in any escrow accounts).

Certain Covenants and Events of Default

The New Altice Financing Term Loan Agreement includes negative covenants that substantially reflect the covenants contained in the indenture governing the New Senior Secured Notes, and, among other things and subject to certain significant exceptions and qualifications, limit our ability and the ability of our restricted subsidiaries to: (i) incur or guarantee additional Indebtedness, subject to an incurrence based Consolidated Net Leverage Ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations.

The New Altice Financing Term Loan Agreement also contains certain customary representations and warranties, affirmative covenants and events of default (including, among others, an event of default upon a change of control trigger event). If an event of default occurs, the lenders under the New Altice Financing Term Loan will be entitled to take various actions, including the acceleration of amounts due under the New Altice Financing Term Loan and all actions permitted to be taken by a secured creditor, subject to the Intercreditor Agreement.

Following the Transactions, the New Altice Financing Term Loan will permit the incurrence of indebtedness so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0 and such indebtedness may be secured if the consolidated net leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0. Subject to compliance with the 4.0 to 1.0 consolidated net leverage ratio (pro forma for such transactions) and so long as there is not default or event of default outstanding, the New Altice Financing Term Loan Agreement permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on the first full fiscal quarter commencing prior to the Issue Date until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the New Altice Financing Term Loan Agreement are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0.

For so long as no default or event of default is outstanding under the relevant debt instrument, and while Altice International or a parent of Altice International is a public company, Altice International will also be permitted to pay dividends in an annual amount not to exceed (A) the greater of (i) 6% of the net cash proceeds received by Altice International from certain public equity offerings and (ii) the greater of 5% of the market capitalization of The Issuer at the time of its initial public offering and 5% of market capitalization of The Issuer at the time of the dividend, less (B) the amount of dividends or distributions paid pursuant to the preceding sentence, provided that dividends may only be paid in respect of this sentence if the consolidated net leverage ratio of Altice International is 4.0x or less and provided further that the net proceeds of any such dividend are used to fund a corresponding dividend in equal or greater amount on the capital stock of such parent.

AI Mandatory Convertible Notes

It is expected that the Issuer will contribute the proceeds of the Notes to Altice International in exchange for €2,055 million of mandatory convertible notes issued by Altice International (the "*AI Mandatory Convertible Notes*").

The AI Mandatory Convertible Notes are direct, unconditional, subordinated and unsecured obligations of Altice International and are non-transferable (other than in case of enforcement of the collateral over the AI Mandatory Convertible Notes). The proceeds of the AI Mandatory Convertible Notes will be used to finance the Target Acquisition and to pay any tax and operational expenses. The AI Mandatory Convertible Notes will bear interest corresponding to the weighted annual interest rate of the Senior Debt as defined under the Altice S.A. Intercreditor Agreement (see "*Description of Other Indebtedness—Altice S.A. Intercreditor Agreement*") plus an arm's length margin in accordance with OECD guidelines. The interest accrues on a semi-annual basis.

In case of an early reimbursement of the Senior Debt (as defined under the Altice S.A. Intercreditor Agreement), Altice International shall have the right (subject to notice requirements) to convert all or part of the AI Mandatory Convertible Notes into shares of Altice International ("*AI Shares")* up to the amount of the early reimbursement of the Senior Debt. In addition, the AI Mandatory Convertible Notes will be automatically converted into AI Shares upon the occurrence of certain insolvency, bankruptcy or related events of Altice International. The AI Mandatory Convertible Notes cannot be converted into cash and the Issuer cannot demand a cash reimbursement. The conversion of AI Mandatory Convertible Notes into AI Shares will be in such amount of ordinary AI Shares whose nominal value equals the sum of the nominal value of the AI Mandatory Convertible Notes so converted. Once converted, the AI Mandatory Convertible Notes will no longer be outstanding and the Issuer has no rights other than of the conversion shares (which shall be fully paid up) and the payment of any interest then due and unpaid.

The AI Mandatory Convertible Notes are governed by the laws of the Grand Duchy of Luxembourg and the terms and conditions thereof may be amended or waived with the written consent of Altice International, Altice S.A. and the creditors of any Senior Debt as defined under the Intercreditor Agreement or their representative or agent provided that the consent of Altice S.A. and the majority creditors of any Senior Debt or their representative or agent will not be required if such amendment or waiver (a) is not materially less favourable to the creditors of the Senior Debt as determined by an independent third party or (b) is of a minor, administrative or technical nature or to correct a technical or administrative error.

The Coditel Senior Facilities Agreement

The Coditel Senior Facilities Agreement consists of an aggregate of € 150 million of senior facilities and was entered into on November 29, 2011, between, among others, Coditel Holding Lux S.à r.l. as the parent, Coditel Holding S.A. as the company and the original borrower, and ING Bank N.V. as agent and security agent. On July 2, 2013, Altice Holdings purchased all of the remaining interests of the lenders under the Coditel Senior Facilities Agreement (the "Coditel Refinancing"). As of September 30, 2014, the amount outstanding under the Coditel Senior Facility was € 131 million.

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility

The Existing Altice Financing Revolving Credit Facility Agreements are comprised of: (1) a $80 million revolving credit facility (the "2012 Altice Financing Revolving Credit Facility") agreement entered into on November 27, 2012, as amended form time to time, between, among others, Altice Financing, as borrower and guarantor, certain lenders party thereto, BNP Paribas, Crédit Agricole Corporate and Investment Bank, Credit Suisse AG, London Branch, Goldman Sachs Bank USA, HSBC Bank plc, ING Bank N.V., J.P. Morgan Limited and Morgan Stanley Bank International Limited as mandated lead arrangers, Citibank International Plc as facility agent and Citibank, N.A., London Branch as Security Agent (the "2012 Altice Financing Revolving Credit Facility Agreement"), and (2) a €80 million revolving credit facility (the "2013 Altice Financing Revolving Credit Facility", together with the 2012 Altice Financing Revolving Credit Facility, the "Existing Altice Financing Revolving Credit Facilities") agreement entered into on July 1, 2013, as amended from time to time, between, among others, Altice Financing, as borrower and guarantor, certain lenders party thereto, Goldman Sachs Bank USA, Morgan Stanley Bank International Limited, Crédit Agricole Corporate and Investment Bank, Credit Suisse AG, London Branch, Deutsche Bank AG, London Branch and ING Bank N.V. as mandated lead arrangers, Citibank International Plc as Facility Agent and Citibank, N.A., London Branch as security agent (the "2013 Altice Financing Revolving Credit Facility Agreement" and together with the 2012 Altice Financing Revolving Credit Facility Agreement, the "Existing Altice Financing Revolving Credit Facility Agreements"). Each Existing Revolving Credit Facility Agreement provides for the accession of additional borrowers and guarantors subject to the requirements set out therein. References to the "borrower", "borrowers", "guarantor" or "guarantors" under this section refer to Altice Financing and any additional borrowers or guarantors (as applicable) who accede to the Existing Altice Financing Revolving Credit Facility Agreements in that capacity.

Structure of the Existing Altice Financing Revolving Credit Facility Agreements

The final maturity date of the 2012 Altice Financing Revolving Credit Facility Agreement is the earlier of (i) the date falling five years after December 27, 2012 (the "2012 Transaction Completion Date") and (ii) the date on which the 2012 Altice Financing Revolving Credit Facility has been fully repaid and cancelled. The final maturity date of the 2013 Altice Financing Revolving Credit Facility Agreement is the earlier of (i) the date falling five years after July 2, 2013 (the

"2013 Release Date") and (ii) the date on which the 2013 Altice Financing Revolving Credit Facility has been fully repaid and cancelled. The borrowers are permitted to make drawdowns under the Existing Altice Financing Revolving Credit Facility Agreements for terms of, at the relevant borrower's election, one, two, three or six months (or any other period agreed by Altice Financing and the relevant lenders), but no such period shall end beyond the final maturity date of the relevant Existing Altice Financing Revolving Credit Facility Agreement. Drawdowns under the Existing Altice Financing Revolving Credit Facility Agreements must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re-borrowed up to one month prior to the final maturity date (save for certain roll-over loans).

Limitations on Use of Funds

The Existing Altice Financing Revolving Credit Facilities and the 2013 Guarantee Facility (defined below) may be used by the borrowers for general corporate and working capital purposes of the Restricted Group, including, but not limited to, the refinancing of all or part of any existing financial indebtedness of the Restricted Group.

The commitments under the 2013 Altice Financing Revolving Credit Facility may be increased by up to an additional maximum amount of $80 million euro equivalent, provided that an amount equal to any such increase is simultaneously cancelled under the 2012 Altice Financing Revolving Credit Facility.

The 2013 Guarantee Facility

A guarantee facility agreement for an amount of up to €15 million (the "2013 Guarantee Facility") was entered into on July 1, 2013, as amended from time to time, among others, Altice Financing, as borrower and guarantor, certain lenders party thereto, Goldman Sachs Bank USA, Morgan Stanley Bank International Limited, Crédit Agricole Corporate and Investment Bank, Credit Suisse AG, London Branch, Deutsche Bank AG, London Branch, and ING Bank N.V. as mandated lead arrangers, Wilmington Trust (London) Limited as Facility Agent and Citibank, N.A., London Branch as security agent (the "2013 Guarantee Facility Agreement"). The 2013 Guarantee Facility has been made available to the borrowers for general corporate and working capital purposes of the Restricted Group, including, but not limited to, the refinancing of all or part of any existing financial indebtedness of the Restricted Group. The 2013 Guarantee Facility Agreement provides for the accession of additional borrowers and guarantors subject to the requirements set out therein. References to the "borrower", "borrowers", "guarantor" or "guarantors" under this section refer to the Altice Financing and any additional borrowers or guarantors (as applicable) who accede to the Guarantee Facility Agreement in that capacity.

The final maturity date of the 2013 Guarantee Facility is the earlier of (i) the date falling five years after the 2013 Release Date and (ii) the date on which the 2013 Guarantee Facility has been repaid and cancelled in full.

Conditions to Borrowings

Drawdowns under the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement are subject to certain customary conditions precedent on the date the drawdown is requested and on the drawdown date including the following (in the case of the Existing Altice Financing Revolving Facility Agreements): (i) no default continuing or occurring as a result of that drawdown; and (ii) certain representations and warranties specified in the Existing Altice Financing Revolving Credit Facility Agreements being true in all material respects.

Interest Rates and Fees

The interest rate on each loan under the Existing Altice Financing Revolving Credit Facility Agreements for each interest period is equal to the aggregate of: (x) the applicable margin; (y) (i) LIBOR, in respect of the 2012 Altice Financing Revolving Credit Facility Agreement, and (ii) LIBOR, or, in relation to any loan in Euro, EURIBOR, in respect of the 2013 Altice Financing Revolving Credit Facility Agreement; and (z) any mandatory cost (which is the cost of compliance with reserve asset, liquidity, cash margin, special deposit or other like requirements).

The initial margin under the 2012 Altice Financing Revolving Credit Facility Agreement is 4.25% per annum but if: (i) no event of default has occurred and is continuing under the 2012 Altice Financing Revolving Credit Facility Agreement; (ii) at least twelve months have elapsed since the 2012 Transaction Completion Date, then the margin will be adjusted depending on the Consolidated Leverage Ratio (as defined in the 2012 Altice Financing Revolving Credit Facility Agreement) of the Restricted Group so that: (a) if the Consolidated Leverage Ratio is greater than or equal to 3.0:1, the applicable margin under the 2012 Altice Financing Revolving Credit Facility Agreement will be 4.25% per annum; (b) if the Consolidated Leverage Ratio is less than 3.0:1 but greater than or equal to 2.0:1, the applicable margin under the 2012 Altice Financing Revolving Credit Facility Agreement will be 3.75% per annum; and (c) if the Consolidated Leverage Ratio is less than 2.0:1, the applicable margin under the 2012 Altice Financing Revolving Credit Facility Agreement will be 3.25% per annum. The margin under the 2013 Altice Financing Revolving Credit Facility Agreement is 3.50% per annum. The margin under the 2013 Guarantee Facility is 3.50% per annum.

Interest under the Existing Altice Financing Revolving Credit Facility Agreements accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six-month period) and is calculated on the basis of a 360- day year. With respect to any available but undrawn amounts under the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility, the borrowers are obligated to pay a commitment fee on such undrawn amounts at the rate of 40% of the margin calculated on undrawn and uncancelled commitments from the date falling 30 days after the date of the relevant Existing Altice Financing Revolving Credit Facility Agreement and the 2013 Guarantee Facility (as applicable) until one month prior to the final maturity date of the relevant Existing Altice Financing Revolving Credit Facility Agreement and the 2013 Guarantee Facility (as applicable). A guarantee fee is payable to the relevant issuing bank issuing guarantees under the 2013 Guarantee Facility in an amount equal to 0.125% of the face value of the relevant guarantee. Each guarantee issued under the 2013 Guarantee Facility carries an issuance/administration fee in the amount and at the times specified in a fee letter.

Guarantees

Each of the Existing Senior Secured Guarantors and ABO guarantees, on a senior basis, the obligations of each other obligor under the Existing Altice Financing Revolving Credit Facility Agreements, the 2013 Guarantee Facility Agreement and, in each case, related finance documents.

Security

The Existing Altice Financing Revolving Credit Facilities and the 2013 Guarantee Facility are secured by the same collateral securing, *inter alia,* the Existing Senior Secured Notes.

Mandatory Prepayment

For so long as an event of default has occurred and is continuing under the Existing Altice Financing Revolving Credit Facility Agreements, proceeds otherwise required to be applied in prepayment of the 2012 Senior Secured Notes shall instead be applied in cancellation and prepayment of the Existing Altice Financing Revolving Credit Facilities in priority to any other indebtedness.

Upon the occurrence of a Change of Control (as defined in each of the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement, as applicable), the borrowers must repay the Existing Altice Financing Revolving Credit Facilities and the 2013 Guarantee Facility in full together with accrued interest and all other amounts accrued under related finance documents and the Existing Altice Financing Revolving Credit Facilities and the 2013 Guarantee Facility will be cancelled.

If an amount in excess of 50% of the 2012 Senior Secured Notes (and, in respect of the 2013 Altice Financing Revolving Credit Facility, an amount in excess of 50% of the 2012 Senior Secured Notes and all utilizations outstanding under and the 2013 Altice Financing Term Loan as at the date of the 2013 Altice Financing Revolving Credit Facility) is repaid, prepaid, purchased, redeemed or defeased or acquired directly or indirectly by a member of the Restricted Group, the relevant borrowers must apply an amount equal to such excess in cancellation of the Existing Altice Financing Revolving Credit Facilities and, if applicable, prepayment of the loans drawn thereunder.

Certain excess proceeds received by the borrowers and guarantors from certain disposals of assets and not applied or invested or committed to be applied or invested to (i) prepay, repay, purchase or redeem certain indebtedness, (ii) invest in or purchase additional assets, or (iii) make certain capital expenditure, must be applied in prepayment of the Existing Altice Financing Revolving Credit Facilities.

Financial Covenants, Events of Default

Each of the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement requires Altice Financing and the Restricted Group to maintain a Consolidated Leverage Ratio (as defined in each of the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement), of no more than 5.25:1 to be tested at the end of each fiscal quarter.

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement contain certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications would allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts and/or (iii) declare that all or part of the loans be repayable on demand.

Pursuant to the terms of the Intercreditor Agreement, the proceeds of any enforcement of collateral will be applied towards repayment of the Existing Altice Financing Revolving Credit Facilities, the New Altice International Super

Senior Revolving Credit Facillity and certain hedging obligations prior to repayment of the 2012 Senior Secured Notes, the 2013 Altice Financing Term Loan, the 2012 Senior Notes, the 2013 June Senior Notes, the 2013 Guarantee Facility, the 2015 Senior Secured Notes and the New Altice International Pari Passu Revolving Credit Facility.

Representations and Warranties

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement contain certain representations and warranties customary for facilities of this type subject to certain exceptions and customary materiality qualifications.

Undertakings

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement contain certain restrictive covenants which substantially reflect the covenants contained in the 2012 Senior Secured Notes and the 2013 Altice Financing Term Loan.

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement also require the Restricted Group to observe certain affirmative undertakings subject to materiality and other customary and agreed exceptions. These affirmative undertakings, include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorizations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorization is not likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) *pari passu* ranking of all payment obligations under the relevant Existing Altice Financing Revolving Credit Facility Agreements or the 2013 Guarantee Facility, as appropriate, and related finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) the Facility Agent/Security Agent (as defined in the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement, as appropriate)/accountants/other professional advisers having access to investigate reasonably suspected events of default; (x) maintenance and protection of intellectual property rights; (xi) no amendments to constitutional documents that are likely to materially adversely affect the pledges over shares or partnership interests; (xii) an entity not moving its center of main interest from, or having an establishment in any jurisdiction other than, its jurisdiction of incorporation; (xiii) restricting the business and trading activities of and assets and liabilities held by Altice International, Cool Holding, SPV1 and Altice Financing; and (xiv) restricting the making of proceeds drawn under the Existing Altice Financing Revolving Credit Facility Agreements or the 2013 Guarantee Facility Agreement available to any sanctioned person or sanctioned country.

New Altice International Super Senior Revolving Credit Facility

On or about the Issue Date, Altice Financing entered into a super senior revolving facility agreement with, among others, Altice Financing, as original borrower and guarantor, certain lenders party thereto, Goldman Sachs Bank USA, J.P. Morgan Limited, Deutsche Bank AG, London Branch, Morgan Stanley Bank International Limited, Credit Suisse AG, London Branch, BNP Paribas Fortis SA/NV, Crédit Agricole Corporate and Investment Bank, Société Générale Corporate and Investment Bank, Nomura International plc, HSBC France and Citigroup Global Markets Limited as mandated lead arrangers, Citibank International Limited as facility agent and Citibank, N.A., London Branch as security agent (the "New Altice International Super Senior Revolving Credit Facility Agreement"). The New Altice International Super Senior Revolving Credit Facility Agreement comprises a €330 million revolving credit facility (the "New Altice International Super Senior Revolving Credit Facility"). The New Altice International Super Senior Revolving Credit Facility Agreement provides for the accession of additional borrowers and guarantors subject to the requirements set out therein. References to the "borrower", "borrowers", "guarantor" or "guarantors" under this section refer to Altice Financing and any additional borrowers or guarantors (as applicable) who accede to the New Altice International Super Senior Revolving Credit Facility Agreement in that capacity.

Structure of the New Altice International Super Senior Revolving Credit Facility Agreement

The final maturity date of the New Altice International Super Senior Revolving Credit Facility Agreement is the earlier of (i) the date falling five years after the date of closing in respect of the PT Portugal Acquisition and (ii) the date on which the New Altice International Super Senior Revolving Credit Facility has been fully repaid and cancelled. The borrowers are permitted to make drawdowns under the New Altice International Super Senior Revolving Credit Facility Agreement for terms of, at the relevant borrower's election, one, two, three or six months (or any other period agreed by Altice Financing and the relevant lenders), but no such period shall end beyond the final maturity date of the New Altice International Super Senior Revolving Credit Facility Agreement. Drawdowns under the New Altice International Super Senior Revolving Credit Facility Agreement must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re borrowed up to one month prior to the final maturity date (save for certain roll over loans).

Limitations on Use of Funds

The New Altice International Super Senior Revolving Credit Facility may be used by the borrowers for general corporate and working capital purposes of the Restricted Group.

The commitments under the New Altice International Super Senior Revolving Credit Facility may be increased by way of issuance of new commitment notices and compliance with the conditions set out in the New Altice International Super Senior Revoving Credit Facility Agreement. Furthermore, in connection with the PT Portugal Acquisition the proceeds of the New Altice International Super Senior Revolving Credit Facility may be deposited into an escrow account pending consummation of the PT Portugal Acquisition.

Conditions to Borrowings

Drawdowns under the New Altice International Super Senior Revolving Credit Facility Agreement are subject to certain customary conditions precedent on the date the drawdown is requested and on the drawdown date including the following: (i) no default (or, in the case of rollover loans, no event of default) continuing or occurring as a result of that drawdown; (ii) certain representations and warranties specified in the New Altice International Super Senior Revolving Credit Facility Agreement being true in all material respects and (iii) other than in respect of rollover loans, the facility agent having received certification from the Altice Financing that, pro forma for the drawdown, the consolidated leverage ratio for the ratio period immediately preceding the drawdown is not greater than 5.25:1.

Interest Rates and Fees

The interest rate on each loan under the New Altice International Super Senior Revolving Credit Facility Agreement for each interest period is equal to the aggregate of (i) the margin and (ii) LIBOR, or, in relation to any loan in Euro, EURIBOR.

The margin under the New Altice International Super Senior Revolving Credit Facility Agreement is 3.50% per annum.

Interest under the New Altice International Super Senior Revolving Credit Facility Agreement accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six month period) and is calculated on the basis of a 360 day year. With respect to any available but undrawn amounts under the New Altice International Super Senior Revolving Credit Facility Agreement and subject to the closing of the PT Portugal Acquisition having occurred, the borrowers are obligated to pay a commitment fee on such undrawn amounts at the rate of 40% of the margin calculated on undrawn and uncancelled commitments from the date falling 30 days after the date of the closing of the PT Portugal Acquisition until one month prior to the final maturity date of the relevant New Altice International Super Senior Revolving Credit Facility Agreement.

Guarantees

Each of the Existing Senior Secured Guarantors and ABO guarantees, on a senior basis, the obligations of each other obligor under the New Altice International Super Senior Revolving Credit Facility Agreement and related finance documents.

Security

The New Altice International Super Senior Revolving Credit Facility is secured by the same collateral securing, *inter alia*, the Existing Senior Secured Notes.

Mandatory Prepayment

Upon the occurrence of a Change of Control or Sale (each as defined in the New Altice International Super Senior Revolving Credit Facility Agreement), subject to certain conditions each lender shall be entitled to require repayment of all amounts payable under the New Altice International Super Senior Revolving Credit Facility and related finance documents. The borrowers must repay or procure the repayment of all utilizations provided by each lender which exercises such right and the commitments of each such lender under the New Altice International Super Senior Revolving Credit Facility will be cancelled.

Subject to certain exceptions, if an amount in excess of 50% of the Senior Secured Debt (as defined in the New Altice International Super Senior Revolving Facility Agreement) is repaid, prepaid, purchased, redeemed or defeased or acquired directly or indirectly by a member of the Restricted Group, the relevant borrowers must apply a pro rata amount of such excess in cancellation of the Revolving Credit Facilities and, if applicable, prepayment of the loans drawn thereunder.

Financial Covenants, Events of Default

The New Altice International Super Senior Revolving Credit Facility Agreement requires Altice Financing and the Restricted Group to maintain a Consolidated Net Leverage Ratio, (as defined in the New Altice International Super Senior Revolving Credit Facility Agreement), of no more than 5.25:1, only to be tested at each drawdown or to the extent there are loans outstanding under the New Altice International Super Senior Revolving Credit Facility Agreement at the end of each fiscal quarter.

The New Altice International Super Senior Revolving Credit Facility Agreement contains certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications would allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts and/or (iii) declare that all or part of the loans be repayable on demand.

Pursuant to the terms of the Intercreditor Agreement, the proceeds of any enforcement of collateral will be applied towards repayment of the Existing Altice Financing Revolving Credit Facilities, the New Altice International Super Senior Revolving Credit Facility and certain hedging obligations prior to repayment of the 2012 Senior Secured Notes, the 2013 Altice Financing Term Loan, the 2012 Senior Notes, the 2013 June Senior Notes, the 2013 Guarantee Facility, the 2015 Senior Secured Notes, the New Altice International Pari Passu Revolving Credit Facility and the New Altice Financing Term Loan.

Representations and Warranties

The New Altice International Super Senior Revolving Credit Facility Agreement contains certain representations and warranties customary for facilities of this type subject to certain exceptions and customary materiality qualifications.

Undertakings

The New Altice International Super Senior Revolving Credit Facility Agreement contains certain restrictive covenants which substantially reflect the covenants in respect of the 2013 December Senior Secured Notes.

The New Altice International Super Senior Revolving Credit Facility Agreement also requires the Restricted Group to observe certain affirmative undertakings subject to materiality and other customary and agreed exceptions. These affirmative undertakings include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorizations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorization is not likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) pari passu ranking of all payment obligations under the relevant finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) the Facility Agent/Security Agent (as defined in the New Altice International Super Senior Revolving Credit Facility Agreement)/accountants/other professional advisers having access to investigate reasonably suspected events of default; (x) maintenance and protection of intellectual property rights; (xi) no amendments to constitutional documents that are likely to materially adversely affect the pledges over shares or partnership interests; (xii) an entity not moving its center of main interest from, or having an establishment in any jurisdiction other than, its jurisdiction of incorporation; (xiii) restricting the making of proceeds drawn under the New Altice International Super Senior Revolving Credit Facility Agreement available to any sanctioned person or sanctioned country and (xiv) certain conditions subsequent undertakings customary for facilities of this type.

New Altice International Pari Passu Revolving Credit Facility

On December 9, 2014, Altice Financing entered into a revolving facility agreement with, among others, Altice Financing, as original borrower and guarantor, certain lenders party thereto, Morgan Stanley Bank International Limited, Deutsche Bank AG, London Branch, Goldman Sachs Bank USA, J.P. Morgan Limited, Credit Suisse AG, London Branch, BNP Paribas Fortis SA/NV, Crédit Agricole Corporate and Investment Bank, Barclays Bank plc and ING Bank France as mandated lead arrangers, Citibank International Limited as facility agent and Citibank, N.A., London Branch as security agent (as amended and restated on December 10, 2014, the "New Altice International Pari Passu Revolving Credit Facility Agreement"). The New Altice International Pari Passu Revolving Credit Facility Agreement comprises a €501 million revolving credit facility (the "New Altice International Pari Passu Revolving Credit Facility"). The New Altice International Pari Passu Revolving Credit Facility Agreement provides for the accession of additional borrowers and guarantors subject to the requirements set out therein. References to the "borrower", "borrowers", "guarantor" or "guarantors" under this section refer to the Altice Financing and any additional borrowers or guarantors (as applicable) who accede to the New Altice International Pari Passu Revolving Credit Facility Agreement in that capacity.

Structure of the New Altice International Pari Passu Revolving Credit Facility Agreement

The final maturity date of the New Altice International Pari Passu Revolving Credit Facility Agreement is the earlier of (i) date falling five years after the original date of the New Altice International Pari Passu Revolving Credit Facility Agreement and (ii) the date on which the New Altice International Pari Passu Revolving Credit Facility has been fully repaid and cancelled. The borrowers are permitted to make drawdowns under the New Altice International Pari Passu Revolving Credit Facility Agreement for terms of, at the relevant borrower's election, one, two, three or six months (or any other period agreed by Altice Financing and the relevant lenders), but no such period shall end beyond the final maturity date of the New Altice International Pari Passu Revolving Credit Facility Agreement. Drawdowns under the New Altice International Pari Passu Revolving Credit Facility Agreement must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re-borrowed up to one month prior to the final maturity date (save for certain roll over loans).

Limitations on Use of Funds

The New Altice International Pari Passu Revolving Credit Facility may be used by the borrowers for general corporate and working capital purposes of the Restricted Group, including, but not limited to (a) the refinancing of all or part of any existing financial indebtedness of the Restricted Group and (b) any financing of or payment of any costs, expenses and fees in connection with any acquisition of any person, business or undertaking of the Restricted Group.

The commitments under the New Altice International Pari Passu Revolving Credit Facility may be increased by way of issuance of new commitment notices and compliance with the conditions set out in the New Altice International Pari Passu Revolving Credit Facility Agreement.

Conditions to Borrowings

Drawdowns under the New Altice International Pari Passu Revolving Credit Facility Agreement are subject to certain customary conditions precedent on the date the drawdown is requested and on the drawdown date including the following: (i) no default (or, in the case of rollover loans, no event of default) continuing or occurring as a result of that drawdown; (ii) certain representations and warranties specified in the New Altice International Pari Passu Revolving Credit Facility Agreement being true in all material respects and (iii) other than in respect of rollover loans, the facility agent has received certification from Altice Financing that, pro forma for the drawdown, the consolidated leverage ratio for the ratio period immediately preceding the drawdown is not greater than 5.25:1.

Interest Rates and Fees

The interest rate on each loan under the New Altice International Pari Passu Revolving Credit Facility Agreement for each interest period is equal to the aggregate of (i) the margin and (ii) LIBOR, or, in relation to any loan in Euro, EURIBOR.

The margin under the New Altice International Pari Passu Revolving Credit Facility Agreement is 4.00% per annum.

Interest under the New Altice International Pari Passu Revolving Credit Facility Agreement accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six month period) and is calculated on the basis of a 360 day year. With respect to any available but undrawn amounts under the New Altice International Pari Passu Revolving Credit Facility Agreement, the borrowers are obligated to pay a commitment fee on such undrawn amounts at the rate of 40% of the margin calculated on undrawn and uncancelled commitments from the date falling 30 days after the date of the New Altice International Pari Passu Revolving Credit Facility Agreement until one month prior to the final maturity date of the relevant New Altice International Pari Passu Revolving Credit Facility Agreement.

Guarantees

Each of the Existing Senior Secured Guarantors and ABO guarantees, on a senior basis, the obligations of each other obligor under the New Altice International Pari Passu Revolving Credit Facility Agreement and related finance documents.

Security

The New Altice International Pari Passu Revolving Credit Facility is secured by the same collateral securing, inter alia, the Existing Senior Secured Notes.

Mandatory Prepayment

Upon the occurrence of a Change of Control (as defined in the New Altice International Pari Passu Revolving Credit Facility Agreement), the borrowers must repay the New Altice International Pari Passu Revolving Credit Facility in full together with accrued interest and all other amounts accrued under related finance documents and the New Altice International Pari Passu Revolving Credit Facility will be cancelled.

Certain excess proceeds received by the borrowers and guarantors from certain disposals of assets and not applied or invested or committed to be applied or invested to (i) prepay, repay, purchase or redeem certain indebtedness, (ii) invest in or purchase additional assets, or (iii) make certain capital expenditure, must be applied in prepayment of the New Altice International Pari Passu Revolving Credit Facility Agreement.

Financial Covenants, Events of Default

The New Altice International Pari Passu Revolving Credit Facility Agreement requires Altice Financing and the Restricted Group to maintain a Consolidated Leverage Ratio, calculated on a net basis (as defined in the New Altice International Pari Passu Revolving Credit Facility Agreement) of no more than 5.25:1, only to be tested at each drawdown or to the extent there are loans or bank guarantees outstanding under the New Altice International Pari Passu Revolving Credit Facility Agreement at the end of each fiscal quarter.

The New Altice International Pari Passu Revolving Credit Facility Agreement contains certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications would allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts and/or (iii) declare that all or part of the loans be repayable on demand.

Representations and Warranties

The New Altice International Pari Passu Revolving Credit Facility Agreement contains certain representations and warranties customary for facilities of this type subject to certain exceptions and customary materiality qualifications.

Undertakings

The New Altice International Pari Passu Revolving Credit Facility Agreement contains certain restrictive covenants which substantially reflect the covenants contained in the 2015 Senior Secured Notes.

The New Altice International Pari Passu Revolving Credit Facility Agreement also requires the Restricted Group to observe certain affirmative undertakings subject to materiality and other customary and agreed exceptions. These affirmative undertakings include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorizations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorization is not likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) pari passu ranking of all payment obligations under the relevant finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) the Facility Agent/Security Agent (as defined in the New Altice International Pari Passu Revolving Credit Facility Agreement)/accountants/other professional advisers having access to investigate reasonably suspected events of default; (x) maintenance and protection of intellectual property rights; (xi) no amendments to constitutional documents that are likely to materially adversely affect the pledges over shares or partnership interests; (xii) an entity not moving its centre of main interest from, or having an establishment in any jurisdiction other than, its jurisdiction of incorporation; and (xiii) restricting the making of proceeds drawn under the New Altice International Pari Passu Revolving Credit Facility Agreement available to any sanctioned person or sanctioned country.

The Existing HOT Unsecured Notes

On February 27, 2011, HOT entered into a trust deed between HOT and Ziv Haft Trust Co. Ltd with respect to the unsecured notes ("Existing HOT Unsecured Notes"), which were issued on March 30, 2011, in two series: (i) in a nominal value equal to NIS 825 million or €177 million (based on the exchange rate as of September 30, 2014) pursuant to a debenture dated March 30, 2011 (the "Existing Series A HOT Notes"), and (ii) in a nominal value equal to NIS 675 million or €145 million (based on the exchange rate as of September 30, 2014) pursuant to a debenture dated March 30, 2011 (the "Existing Series B HOT Notes"). The Existing Series A HOT Notes are linked to the Consumer Price Index in Israel ("CPI") and therefore actual amounts outstanding may vary from time to time and differ from the nominal amount outstanding. As of September 30, 2014, the CPI linked principal amount of Existing Series A HOT Notes outstanding was NIS 687 million or €148 million (based on the exchange rate as of September 30, 2014) and the principal amount of the Existing Series B HOT Notes outstanding was NIS 535 million or €115 million (based on the exchange rate as of September 30, 2014).

The Existing Series A HOT Notes and the Existing Series B HOT Notes mature on September 30, 2018. The amortization schedule for each of the Existing Series A HOT Notes is as follows: 8.3% in 2013; 8.3% in 2014; 8.3% in 2015; 8.3% in 2016; 8.3% in 2017 and 54.2% in 2018. Based on the CPI as of December 31, 2012 of 105.7, we estimate the amortization schedule, which includes estimated future increases in CPI of three points per year, under the Existing Series A HOT Notes is approximately: NIS 71 million in 2013, NIS 71 million in 2014, NIS 71 million in 2015, NIS 71 million in 2016, NIS 71 million in 2017 and NIS 461 million in 2018. The amortization schedule for the Existing Series B Notes is as follows approximately: NIS 56 million in 2013, NIS 56 million in 2014, NIS 56 million in 2015, NIS 56 million in 2016, NIS 56 million in 2017 and NIS 366 million in 2018. The Existing HOT Unsecured Notes are not redeemable by HOT prior to maturity.

The Existing Series A HOT Notes bear interest at a rate of 3.9% per annum, payable semi-annually. The Existing Series B HOT Notes bear interest at a rate of 6.9% per annum, payable semi-annually.

The Existing HOT Unsecured Notes contain certain financial covenants, which require maintenance by HOT of a maximum net debt to EBITDA ratio of 6.0 and maintenance of minimum equity equal to NIS 300 million. Further, in order for HOT to be able to distribute dividends, the maximum net debt to EBITDA ratio is 5.5. In addition, the Existing HOT Unsecured Notes provide that any failure to pay principal prior to expiration of any applicable grace period, or any acceleration of other HOT indebtedness of NIS 300 million or more in the aggregate, grants the holders the right to call for immediate payment of the Existing HOT Unsecured Notes.

The Existing HOT Unsecured Notes are senior obligations that rank equally with all of its existing and future senior debt and are senior to all of its existing and future subordinated debt. The Existing HOT Unsecured Notes are not secured by any assets of HOT or its subsidiaries.

The Existing HOT Unsecured Notes are not redeemable by HOT prior to maturity.

The Existing HOT Unsecured Notes will be:

a. effectively subordinated to the HOT Refinancing Notes and the guarantees thereof granted by the HOT Refinancing Note Guarantors to the extent of the lesser of (x) the value of the assets of HOT and the HOT Refinancing Note Guarantors securing the HOT Refinancing Notes and the guarantees thereof and (y) the amount owing under the HOT Refinancing Notes;

b. *pari passu* with the HOT Refinancing Notes to the extent the amount of the HOT Refinancing Notes exceeds the value of the assets of HOT and the HOT Refinancing Note Guarantors securing the HOT Refinancing Notes; and

c. structurally senior to the 2012 Senior Notes, the 2012 Senior Secured Notes, the 2013 June Senior Notes, the 2015 Senior Notes, the 2014 Senior Secured, the 2012 Senior Secured Notes Guarantees and the 2013 June Senior Notes Guarantees granted by the 2012 Senior Secured Notes Guarantors, the 2012 Senior Notes Guarantors and the 2013 June Senior Notes Guarantors.

The Existing HOT Unsecured Notes will not be subject to the Intercreditor Agreement and, as a result, in the event of an enforcement sale of the shares of Cool Holding or HOT pursuant to the Intercreditor Agreement, the debt claims of the holders of the Existing HOT Unsecured Notes are not required to be released or otherwise transferred.

License Guarantees

HOT and its subsidiaries are required to provide guarantees, often by way of a bank guarantee, to the Ministry of Communications and Broadcast Council in connection with various operating and broadcasting licenses, including providing a bank guarantee in the amount of NIS 695 million in connection with the HOT Mobile's winning a frequency allotment and receiving a mobile license in 2011. As of the first testing date on September 26, 2013, we have achieved a market share calculated in accordance with the license agreement that would entitle us to a deduction of the entire amount of the NIS 695 million license fee outstanding. Accordingly, we requested the Israeli Ministry of

Communications to reduce the amount of the bank guarantee to an amount of NIS 80 million as guarantee of our obligation to achieve certain territorial coverage requirements under our license. On November 21, 2013, the Israeli Ministry of Communications notified HOT Mobile that the license fees shall be decreased to NIS 10 million (which has already been paid) and the bank guarantee shall be decreased from the amount of NIS 695 to an amount of NIS 80 million. For more information "*Description of Our Business—Material Agreements—Provision of certain bank guarantees to the State of Israel relating to performance of certain license terms*".

HOT Mobile Earnout

In connection with the acquisition by HOT of HOT Mobile from Altice Securities S.à r.l. ("Altice Securities"), a subsidiary of Altice and affiliate of HOT, HOT agreed to pay to the managers of HOT Mobile and an unrelated third party ("Migad", and, together with the managers of HOT Mobile and Altice Securities, the "Earnout Recipients") additional consideration, in an amount of NIS 450 million, which is subject to future performance targets with respect to HOT Mobile (the "Earnout"). The Earnout includes (i) a contingent future payment of NIS 225 million, paid in four equal installments of NIS 56.25 million, conditioned upon achievement of certain EBITDA targets by HOT Mobile for the years 2013 to 2016, inclusive, and (ii) a contingent future payment of NIS 225 million conditioned on achievement of 7% market share, as defined in the HOT Mobile's mobile license, in the mobile market by 2016. There is a mechanism to reduce the payments required under the Earnout to the extent HOT Mobile is required to make payments to the Israeli Ministry of Communications pursuant to the mobile license. As of September 30, 2014, we estimate that the fair value of the Earnout is NIS 75 million and Altice Securities has pro rata rights to approximately 94% of the Earnout. Altice Securities has transferred its rights and entitlements to payments under the Earnout to Altice Finco (the assigned rights only include such payments that would actually have been received by Altice Securities). In June 2013, HOT paid NIS 90 million under the Earnout to the Earnout Recipients in accordance with the terms of the Earnout, out of which Altice Finco received NIS 86.4 million. Furthermore, in the months of August and September 2013, HOT transferred amounts of NIS 4.5 million and NIS 1.5 million to Migad Communications Ltd. and to the other parties, respectively on behalf their share of the above consideration. See "*Certain Relationships and Related Party Transactions—HOT Mobile Earnout*".

HOT Refinancing Note

The following contains a summary of the terms of the HOT Proceeds Term Note and the HOT Refinancing RCF Note. It does not purport to be complete and is subject to, and qualified in its entirety by reference to, the underlying documents.

HOT Proceeds Term Note

On the 2012 Transaction Completion Date, in connection with the 2012 Transaction, Altice Financing purchased an NIS 1,900 million (€408 million equivalent) intercompany term note (the "HOT Proceeds Term Note") issued by HOT.

Interest

The HOT Proceeds Term Note bears interest at a rate of 6.3% per annum, which is payable semi-annually in cash in arrears on the date which is two business days prior to each June 15 and December 15, commencing on the date which is two business days prior to June 15, 2013, and shall be calculated on the basis of a three hundred and sixty (360) day year composed of twelve (12) months of thirty (30) days each. Interest accrues from 2012 Transaction Completion Date. The maturity date of the HOT Proceeds Term Note is the same as the maturity date of the 2012 Senior Secured Notes.

Guarantees and Security

The HOT Proceeds Term Note is a senior obligation of HOT and is guaranteed on a senior basis by the HOT Refinancing Note Guarantors. The HOT Proceeds Term Note is secured by a pledge over substantially all of the assets of the HOT and the HOT Refinancing Note Guarantors (including all of the share capital of HOT Mobile) but, in each case, excluding (a) licenses issued by the Israeli Ministry of Communications, which are not assignable as a matter of law, and (b) certain end-user equipment (the "HOT Refinancing Note Collateral").

Repayment

HOT may not prepay the HOT Proceeds Term Note except (i) in the event of a Change of Control, as defined in the HOT Proceeds Term Note, (ii) upon certain asset sales and (iii) if duly approved by HOT and required in order to facilitate or accommodate a repayment of the 2012 Senior Secured Notes by Altice Financing.

Change of Control

If a change of control occurs, Altice Financing will have the right to require HOT to prepay all or any part of the HOT Proceeds Term Note, together with a premium of 1% of the principal amount of the HOT Proceeds Term Note prepaid, plus accrued and unpaid interest, to the date of prepayment.

Change of Control is defined as

(a) the consummation of any transaction (including, without limitation, any merger or consolidation), the result of which is that any Person (as defined in the HOT Proceeds Term Note, including any "person" (as that term is used in Section 13(d)(3) of the Exchange Act)) other than one or more Permitted Holders (as defined in the HOT Proceeds Term Note) becomes the Beneficial Owner, directly or indirectly, of more than 50% of the issued and outstanding Voting Stock of HOT, measured by voting power rather than number of shares; or

(b) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger, consolidation or other business combination transaction), in one or a series of related transactions, of all or substantially all of the assets of HOT and its restricted subsidiaries taken as a whole to a Person (including any "person" as defined above), other than a Permitted Holder.

Covenants and Events of Default

HOT has agreed, and has agreed to cause each of its subsidiaries, for the sole benefit of Altice Financing, (i) to be bound by the covenants in Article 4 (*Covenants*) and Article 5 (*Merger and Consolidation*) of the 2012 Senior Secured Notes Indenture that are applicable to HOT and its subsidiaries as Restricted Subsidiaries (as defined in the 2012 Senior Secured Notes Indenture), (ii) if duly appointed as Paying Agent under the 2012 Senior Secured Notes Indenture, to be bound by the obligations in the 2012 Senior Secured Notes Indenture relating thereto and (iii) to comply with the obligations set forth in the section to be titled "Collateral and Security Documents" in the 2012 Senior Secured Notes Indenture.

The HOT Proceeds Term Note contains events of default, substantially similar to those contained in the 2012 Senior Secured Notes Indenture which, if such event of default occurs, permits Altice Financing to declare the HOT Proceeds Term Note due and payable immediately. However, upon an event of default under the 2015 Senior Notes or the 2015 Senior Secured Notes (or any other senior secured debt), HOT and its subsidiaries shall not be liable in any way, including by way of cross-default, and shall not be required to repay any amounts outstanding, including any repayment premiums and accrued and unpaid interest thereon, under the 2015 Senior Notes or the 2015 Senior Secured Notes (or any other senior secured debt). Further, the HOT Refinancing Note Guarantors will only guarantee HOT's obligations under the HOT Refinancing Notes (the "HOT Refinancing Note Guarantees"). The HOT Refinancing Note Guarantees will be limited to an aggregate amount equal to the amount outstanding under the HOT Refinancing Notes which may vary from time to time in accordance with the terms of the HOT Refinancing Notes. HOT and the HOT Refinancing Note Guarantors will only have liability to the holders of the Senior Secured Notes in the event of an event of default under the HOT Refinancing Notes, in each case, indirectly as a result of an assignment of the HOT Refinancing Notes and/or the ability of the holders of the 2012 Senior Secured Notes to direct the actions of Altice Financing in connection with the HOT Refinancing Notes in accordance with the terms of the Intercreditor Agreement, to the extent permitted thereby. The 2012 Senior Notes, the 2013 June Senior Notes and the 2015 Senior Notes will not benefit from any assignment of the HOT Refinancing Notes.

Limitation of Liability

For the avoidance of doubt and without in any way limiting HOT's and the HOT Refinancing Note Guarantors' obligations to Altice Financing pursuant to the HOT Proceeds Term Note, in any event, including in the event of a default by HOT and/or the HOT Refinancing Note Guarantors under the HOT Proceeds Term Note, or by Altice Financing under the 2012 Senior Secured Notes or the 2012 Altice Financing Revolving Credit Facility or the relevant borrower under the Cool Proceeds Note, the Acquisition Proceeds Note or any documents related to any of the foregoing, HOT and the HOT Refinancing Note Guarantors shall not be liable in any way, including by way of cross default, and shall not be required to repay any amounts outstanding, any repayment premiums and accrued and unpaid interest thereon, under the 2012 Senior Secured Notes, the 2012 Altice Financing Revolving Credit Facility, the Cool Proceeds Note and the Acquisition Proceeds Note or any documents related to any of the foregoing. It is further clarified that the HOT Refinancing Note Guarantors serve as guarantors only with respect to the HOT's debt obligation under the HOT Proceeds Term Note.

Conflicts

For the avoidance of doubt, and despite HOT not being party to such agreements, other than with respect to the covenants described above, in the event that any of the other terms or provisions of this HOT Proceeds Term Note conflict with any terms or provisions of the 2012 Senior Secured Notes Indenture, Intercreditor Agreement or related agreements that are applicable to HOT and the HOT Proceeds Term Note, Altice Financing has agreed and acknowledged that (as between HOT and Altice Financing only) the terms or provisions of the HOT Proceeds Term Note shall prevail.

HOT Refinancing RCF Note

On the 2012 Transaction Completion Date, in connection with the 2012 Transaction, Altice Financing purchased an intercompany revolving credit facility note (the "HOT Refinancing RCF Note" and, together with the HOT Proceeds Term Note, the "HOT Refinancing Notes") issued by HOT pursuant to which Altice Financing may make available to HOT amounts borrowed by Altice Financing under the 2012 Altice Financing Revolving Credit Facility Agreement. The HOT Refinancing RCF Note contains substantially similar terms as the HOT Proceeds Term Note except that, in addition to the covenants contained in the HOT Proceeds Term Note, the HOT Refinancing RCF Note contains one leverage based maintenance covenant. The HOT Refinancing RCF Note is guaranteed by the HOT Refinancing Note Guarantors and secured by the same HOT Refinancing Note Collateral that secures the HOT Refinancing Term Note.

Senior Notes Proceeds Loans

The Senior Notes Proceeds Loans comprise of the following:

(i) On the 2012 Transaction Completion Date, in connection with the 2012 Transaction, Altice Finco made an intercompany loan (the "2012 Senior Notes Proceeds Loan") in aggregate principal amount of approximately $425 million pursuant to which it loaned the proceeds of the offering of the 2012 Senior Notes to Altice Financing;

(ii) On July 2, 2013, Altice Finco made an intercompany loan of €250 million pursuant to which the proceeds of the 2013 June Senior Notes were loaned to Altice Financing (the "2013 June Senior Notes Proceeds Loan");

(iii) On December 12, 2013, Altice Finco made an intercompany loan of €400 million pursuant to which the proceeds of the 2013 December Senior Notes were loaned to Altice Financing (the "2013 December Senior Notes Proceeds Loan", and, together with the 2012 Senior Notes Proceeds Loan and the 2013 June Senior Notes Proceeds Loan the "Existing Senior Notes Proceeds Loans").

(iv) Upon release of the proceeds of the 2015 Senior Notes from escrow, Altice Finco will make an intercompany loan to Altice Financing pursuant to which it will loan such proceeds to Altice Financing (the "2015 Senior Notes Proceeds Loan" and, together with the Existing Senior Notes Proceeds Loans, the "Senior Notes Proceeds Loans"). The terms of the Senior Notes Proceeds Loans are customary for intercompany proceeds loans. The 2012 Senior Notes Proceeds Loan accrues interest at a rate equal to the interest rate of the 2012 Senior Notes. The maturity date of the 2012 Senior Notes Proceeds Loan is the same as the maturity date of the 2012 Senior Notes. The 2013 June Senior Notes Proceeds Loan accrues interest at a rate equal to the interest rate of the 2013 June Senior Notes. The maturity date of the 2013 June Senior Notes Proceeds Loan is the same as the maturity date of the 2013 June Senior Notes. The 2013 December Senior Notes Proceeds Loan accrues interest at a rate equal to the interest rate of the 2013 December Senior Notes. The maturity date of the 2013 December Senior Notes Proceeds Loan will be the same as the maturity date of the 2013 December Senior Notes. The 2015 Senior Notes Proceeds Loan will accrue interest at a rate equal to the interest rate of the 2015 Senior Notes. The maturity date of the 2015 Senior Notes Proceeds Loan will be the same as the maturity date of the 2015 Senior Notes. Payments on the Senior Notes Proceeds Loans are subject to the Intercreditor Agreement.

Additional Intercompany Proceeds Loans

On the 2012 Transaction Completion Date, Altice Financing made intercompany proceeds loans, in addition to the HOT Refinancing Note, to certain entities in the Group with the proceeds of the 2012 Senior Secured Notes and the 2012 Senior Notes Proceeds Loan.

On July 2, 2013 Altice Financing made an intercompany loan to Altice Holdings with the proceeds of the 2013 June Senior Notes and the 2013 Altice Financing Term Loan. Altice Holdings made additional intercompany proceed loans (or subscribe to bonds), including the ABO Proceeds Loan, the New Cabovisão Proceeds Notes, the Altice West Europe Proceeds Loan, the Outremer Proceeds Loans, the Le Cable Proceeds Loans and the Onitelecom Proceeds Notes (together with the Original Cabovisão Proceeds Notes the "Covenant Party Pledged Proceeds Loans") to certain entities in the Group in connection with consummation of the 2013 June Transactions.

On December 12, 2013, Altice Financing made intercompany proceeds loans to certain entities in the Group with the proceeds of the 2013 December Senior Secured Notes and the 2013 June Senior Notes Proceeds Loan in connection with the consummation of the Tricom Acquisition and the ODO Acquisition.

On December 2, 2014, in connection with the repayment of the Existing Coditel Mezzanine Facility Agreement, Altice Financing made intercompany proceeds loans to Altice Holdings in an aggregate principal amount of €126 million. Altice Holdings further on-lent this amount through two intercompany proceeds loans of €19 million and approximately €107 million.

In connection with the Transactions, Altice Financing will use amounts borrowed under the 2015 Senior Notes Proceeds Loan and the proceeds of the offering of the 2015 Senior Secured Notes to make a proceeds loan (the "New AH Proceeds Loan") to Altice Holdings. Altice Holdings will use the proceeds under the New AH Proceeds Loan and the ASA Notes Proceeds Contribution to make the AWE Proceeds Loan to Altice West Europe which in turn will make the AP Proceeds Loan to Altice Portugal to consummate the PT Portugal Acquisition. Furthermore, Altice Portugal, PT Portugal, PT OpCo, PT Móveis and SIRESP intend to enter into the PT Group Loans as part of the PT Portugal Acquisition.

These loans (other than the AP Proceeds Loan and the PT Group Loans) are pledged as security for the Senior Secured Debt. The 2013 December Senior Notes and 2012 Senior Notes do not benefit from any security over the intercompany proceeds loans granted by Altice Financing. For further details, see "—*Simplified Corporate and Financing Structure*".

Indebtedness of the Numericable Group

Numericable Term Loan

Overview

On May 8, 2014, Numericable entered into a senior secured term loan credit facility (the "Numericable Term Loan") which provided euro and U.S. dollar term loans in aggregate principal amounts of €1,900 million and $2,600 million, with Numericable, Ypso France S.A.S and Numericable U.S. LLC as borrowers (the "Term Loan Borrowers"), certain lenders party thereto and Deutsche Bank AG, London Branch as the Administrative Agent and as the security agent (the "Numericable Term Loan Agreement"). As described above, the proceeds of the Numericable Term Loans were used to finance the 2014 Numericable Refinancing Transactions and certain related fees and expenses, and the remainder was placed in escrow until completion of the 2014 SFR Acquisition, with such amounts being released from escrow on November 27, 2014.

Numericable Term Loan Borrowers were permitted to draw under the Numericable Term Loan on a single occasion at any time on or prior to the earlier of (a) the date on which the portion of the lenders' commitments under the Numericable Term Loan not related to the Numericable Refinancing Transactions cease to exist by virtue of the 2014 SFR Acquisition being abandoned or funded by other means, (b) July 31, 2014, unless the exclusivity granted to Numericable in respect of the 2014 SFR Acquisition was extended, and (c) April 30, 2015 (the "Commitment Termination Date"). Amounts drawn but not used on the Numericable Refinancing Transactions were deposited into an escrow account and used on November 27, 2014 for the 2014 SFR Acquisition.

On May 21, 2014, the following drawdowns were made under the Numericable Term Loan Agreement: Numericable borrowed €635 million, Numericable U.S. LLC borrowed US$2,600 million and Ypso France borrowed €1,265 million. The entire amount available under the Numericable Term Loan Agreement has been drawn.

Interest Rate and Fees

Borrowings under the Numericable Term Loan bear an interest at a rate per annum equal to an applicable margin plus (i) in the case of U.S. dollar denominated loans, at our option, either (a) a base rate determined by reference to the highest of (1) the U.S. Federal Funds rate plus 0.50%, (2) the prime rate determined from time to time by Deutsche Bank AG, New York Branch as the prime rate, (3) the LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% and (4) a floor of 1.75%, or (b) a LIBOR rate equal to the greater of (A) a rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs, and (B) 0.75%, and (ii) in the case of euro-denominated loans, a EURIBOR rate determined by reference to the costs of funds for euro deposits for the interest period relevant to such borrowing adjusted for certain additional costs, provided that such EURIBOR rate shall not be less than 0.75%.

The applicable margin means, for any day, (a) with respect to any alternative base rate loan, 2.75% per annum, (b) with respect to any Eurodollar loan, 3.75% per annum, and (c) with respect to any Euro denominated loan, 3.75% per annum.

In addition to paying interest on outstanding principal under the New Numericable Term Loan, we were required to pay a ticking fee to the lenders in respect of the unutilized commitments thereunder, payable on the date of each drawing and upon any reduction or termination of the commitments.

Mandatory Prepayments

The Numericable Term Loan Agreement requires us to prepay outstanding term loans, subject to certain exceptions, with (i) 100% of the net cash proceeds of certain asset sales, subject to thereunder reinvestment rights and certain other exceptions, and (ii) commencing with the fiscal year ended December 31, 2014, 50% of our annual excess cash flow, which percentage will be reduced to 0% if our Consolidated Net Leverage Ratio is less than 4.0:1.0. We will not be required to make any such prepayments from the proceeds of asset sales made as a consequence of competition laws to the extent that such proceeds do not exceed 2% of the pro forma total assets of Numericable and its Restricted Subsidiaries.

Voluntary Prepayments

Prepayments of the Numericable Term Loan on or prior to November 21, 2014, which are either (x) in connection with a Repricing Transaction (as defined in the Numericable Term Loan) or (y) effects any amendment of the Numericable Term Loan resulting in a Repricing Transaction, are subject to a call premium payable to the Administrative Agent on behalf of the lenders of, in the case of (x) 1% of the principal amount of the Numericable Term Loan so repaid and in the case of (y) a payment equal to 1% of the aggregate amount of the Numericable Term Loan subject to such Repricing Transaction.

Amortization and Final Maturity

Numericable is required to make scheduled quarterly payments each equal to 0.25% of the original principal amount of the Numericable Term Loan Agreement, with the balance due on May 21, 2020. The first repayment will take place at the end of the first full quarter after November 27, 2014.

Guarantees

Each Guarantor of the Numericable Senior Secured Notes and Numericable guarantees, on a senior basis, the obligations of each other obligor under the Numericable Term Loan Agreement and related finance documents subject to applicable guarantee limitations specified therein.

Security

The Numericable Term Loan is secured by the same collateral securing, *inter alia*, the Numericable Senior Secured Notes (other than any security over the proceeds of the Numericable Senior Secured Notes in any escrow accounts).

Certain Covenants and Events of Default

The Numericable Term Loan Agreement includes negative covenants that substantially reflect the covenants contained in the indenture governing the Numericable Senior Secured Notes, and, among other things and subject to certain significant exceptions and qualifications, limit our ability and the ability of our restricted subsidiaries to: (i) incur or guarantee additional Indebtedness, subject to an incurrence based Consolidated Net Leverage Ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances, and (viii) engage in mergers or consolidations.

The Numericable Term Loan Agreement also contains certain customary representations and warranties, covenants and events of default (including, among others, an event of default upon a change of control trigger event). If an event of default occurs, the lenders under the Numericable Term Loan will be entitled to take various actions, including the acceleration of amounts due under the Numericable Term Loan and all actions permitted to be taken by a secured creditor, subject to the 2014 Numericable Group Intercreditor Agreement.

Following the 2014 Numericable Group Transactions, the Numericable Term Loan Agreement permits the incurrence of indebtedness so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0 and such indebtedness may be secured if the consolidated net leverage ratio (pro forma for such transaction) is not greater than 3.25 to 1.0. Subject to compliance with the 4.0 to 1.0 consolidated net leverage ratio (pro forma for such transactions) and so long as there is not default or event of default outstanding, the Numericable Term Loan Agreement permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on the first full fiscal quarter commencing prior to the Issue Date until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the Numericable Group Term Loan Agreement are permitted so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0.

The Numericable Term Loan Agreement also provides that, for so long as no payment block events have occurred and are continuing, Numericable may pay dividends or other distributions to its shareholders in an amount such that Altice France S.A.'s pro rata share of such dividends or other distributions is equal to the amount required by Altice S.A. for the payment of regularly scheduled interest as such amounts come due under the Notes and the 2014 Altice S.A. Revolving Credit Facility Agreement, less the amount of dividends or distributions paid under the provision described in the following sentence. For so long as no default or event of default is outstanding under the relevant debt instrument, and while Numericable is a public company, Numericable is also permitted to pay dividends in an annual amount not to exceed (A) the greater of (i) 6% of the net cash proceeds received from certain public equity offerings and (ii) the greater of 5% of the market capitalization of Numericable at the time of its initial public offering and 5% of market capitalization at the time of the dividend, less (B) the amount of dividends or distributions paid pursuant to the preceding sentence, provided that dividends may only be paid in respect of this sentence if the consolidated net leverage ratio of Numericable 4.0x or less.

Numericable Senior Secured Notes

On May 8, 2014, Numericable issued €7,873 million (equivalent) in aggregate principal amount of senior secured notes, comprised of the following tranches: (i) $2,400 million aggregate principal amount of its Senior Secured Notes due 2019 denominated in U.S. dollars (the "2019 Notes"), (ii) $4,000 million aggregate principal amount of its Senior Secured Notes due 2022 denominated in U.S. dollars (the "2022 Dollar Notes"), (iii) €1,000 million aggregate principal amount of its Senior Secured Notes due 2022 denominated in euro (the "2022 Euro Notes" and, together with the 2022 Dollar Notes, the "2022 Notes"), (iv) $1,375 million aggregate principal amount of its Senior Secured Notes due 2024 denominated in U.S. dollars (the "2024 Dollar Notes"), and (v) €1,250 million aggregate principal amount of its Senior Secured Notes due 2024 denominated in euro (the "2024 Euro Notes" and, together with the 2024 Dollar Notes, "2024 Notes" and the 2019 Notes, the 2022 Notes and the 2024 Notes collectively, the "Numericable Senior Secured Notes"). The 2019 Notes will mature on May 15, 2019 the 2022 Notes will mature on May 15, 2022 and the 2024 Notes will mature on May 15, 2024. Interest on the New Numericable Senior Secured Notes is payable semi-annually in cash in arrears on each February 15 and August 15, commencing on August 15, 2014. Each of the 2019 Notes, the 2022 Notes and the 2024 Notes are governed by an indenture to be entered into on or about the Issue Date (collectively, the "Numericable Senior Secured Notes Indentures").

The Numericable Senior Secured Notes are general obligations of Numericable and (i) rank *pari passu* in right of payment with all existing and future indebtedness of Numericable that is not subordinated in right of payment to the New Numericable Senior Secured Notes, including indebtedness under the Numericable Term Loan, the Numericable Group Revolving Credit Facilities Agreement and certain hedging obligations, (ii) rank senior in right of payment to all existing and future indebtedness of Numericable that is expressly subordinated in right of payment to the Numericable Senior Secured Notes, and (iii) will be effectively subordinated to any existing and future indebtedness of Numericable that is secured by property or assets that do not secure the Numericable Senior Secured Notes, to the extent of the value of the property and assets securing such indebtedness.

The Numericable Senior Secured Notes are guaranteed on a senior basis by each of Ypso France S.A.S., Coditel Debt S.à r.l., Ypso Finance S.à r.l., NC Numericable S.A.S., Altice B2B France S.A.S., Completel S.A.S., Numericable US S.A.S. and Numericable U.S. LLC (such guarantors, collectively, the "*Completion Date Guarantors*"). Within 90 days of the completion of the 2014 SFR Acquisition, the Numericable Senior Secured Notes are to be guaranteed by SFR and may be guaranteed by certain of its subsidiaries.

The Numericable Senior Secured Notes are secured by: (i) senior pledges over all of the capital stock of the Completion Date Guarantors; (ii) certain intercompany loans being entered into in connection with the 2014 Numericable Group Transactions; (iii) senior pledges over the business (*fonds de commerce*) of NC Numericable S.A.S.; (iv) senior pledges over certain bank accounts, intercompany receivables and intellectual property rights of the Completion Date Guarantors; and (v) certain bank accounts of the Issuer.

In addition, within 90 days after the completion of the 2014 SFR Acquisition, the Numericable Senior Secured Notes will benefit from: (i) senior pledges over all of the capital stock of SFR and any of its subsidiaries that become guarantors of the New Numericable Senior Secured Notes; (ii) a senior pledge over certain bank accounts of SFR; (iii) a senior pledge over the business (*fonds de commerce*) (including intellectual property) of SFR; and (iv) senior pledges over receivables owed to SFR by certain of its subsidiaries. Under the terms of the Numericable Group Intercreditor Agreement, in the event of an enforcement of the collateral securing the Numericable Senior Secured Notes, the holders of the Numericable Senior Secured Notes will receive proceeds from such collateral *pari passu* with the lenders under the Numericable Term Loan, the lenders under the Numericable Group Revolving Credit Facilities Agreement and counterparties to certain hedging agreements.

Prior to May 15, 2016, Numericable may redeem all or a portion of the 2019 Notes at a price equal to 100% of the principal amount plus a make whole premium. Numericable may redeem some or all of the 2019 Notes at any time on or after May 15, 2016, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to May 15, 2016, Numericable may redeem up to 40% of each series of the aggregate principal amount of the 2019 Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 104.875% of the principal amount of the 2019 Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2019 Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

Prior to May 15, 2017, Numericable may redeem all or a portion of the 2022 Notes at a price equal to 100% of the principal amount plus a make whole premium. Numericable may redeem some or all of the 2022 Notes at any time on or after May 15, 2017, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to May 15, 2017, Numericable may redeem up to 40% of each series of the aggregate principal amount of the 2022 Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 105.375% of the principal amount of the 2022 Euro Notes and 106.00% of the principal amount of the 2022 Dollar Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2022 Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

Prior to May 15, 2019, Numericable may redeem all or a portion of the 2024 Notes at a price equal to 100% of the principal amount plus a make whole premium. Numericable may redeem some or all of the 2024 Notes at any time on or after May 15, 2019, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to May 15, 2017, Numericable may redeem up to 40% of each series of the aggregate principal amount of the 2024 Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 105.625% of the principal amount of the 2024 Euro Notes and 106.250% of the principal amount of the 2024 Dollar Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2024 Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

The Numericable Senior Secured Notes Indentures permit the incurrence of indebtedness by Numericable or a guarantor of the Numericable Senior Secured Notes so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0 and such indebtedness may be secured if the consolidated net leverage ratio (pro forma for such transaction) is not greater than 3.25 to 1.0. Subject to compliance with the 4.0 to 1.0 consolidated net leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding, the Numericable Senior Secured Notes Indentures permit the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on the first full fiscal quarter commencing prior to the Issue Date until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the Numericable Senior Secured Notes Indentures are permitted so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Further, subject to certain payment blocking events (i.e. a payment default or acceleration of New Numericable Senior Secured Notes) the Numericable Senior Secured Notes Indentures permit Numericable to pay dividends or other distributions to its shareholders in an amount such that Altice France S.A.'s pro rata share of such dividends or other distributions is equal to the amount required by Altice S.A. for the payment of regularly scheduled interest as such amounts come due under the Notes and the 2014 Altice S.A. Revolving Credit Facility Agreement, less the amount of dividends or distributions paid under the 2014 provision described in the following sentence. For so long as no default or event of default is outstanding under the relevant debt instrument, and while Numericable is a public company, Numericable will also be permitted to pay dividends in an annual amount not to exceed (A) the greater of (i) 6% of the net cash proceeds received from certain public equity offerings and (ii) the greater of 5% of the market capitalization of Numericable at the time of its initial public offering and 5% of market capitalization at the time of the dividend, less (B) the amount of dividends or distributions paid pursuant to the preceding sentence, provided that dividends may only be paid in respect of this sentence if the consolidated net leverage ratio of Numericable 4.0x or less.

The Numericable Senior Secured Notes Indentures, among other things, further limit the ability of Numericable and the ability of the Restricted Subsidiaries (as defined therein) to (i) make investments or other restricted payments; (ii) create liens; (iii) sell assets and subsidiary stock; (iv) pay dividends or make other distributions or repurchase or redeem capital stock or subordinated debt; (v) engage in certain transactions with affiliates; (vi) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (vii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications.

The Numericable Senior Secured Notes Indentures provide for certain events of default, including, among others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The Numericable Senior Secured Notes Indentures are governed by the laws of the State of New York.

The 2014 Numericable Group Revolving Credit Facilities

Numericable entered into a €750 million revolving credit facilities agreement (the "Numericable Group Revolving Credit Facilities Agreement") on May 8, 2014, with, among others, the original lenders party thereto (the "Numericable RCF Lenders"), the mandated lead arrangers party thereto, Deutsche Bank AG, London Branch as facility agent and as security agent, pursuant to which the Numericable RCF Lenders agreed to provide Numericable and certain of its subsidiaries with a €750 million senior secured revolving credit facilities (the "Numericable Group Revolving Credit Facilities"), split into (i) a €300 million revolving facility (the "Numericable Group Facility A"), and (ii) a €450 million revolving facility (the "Numericable Group Facility B"), both of which are now available. Subject to certain requirements, the Numericable Group Revolving Credit Facilities may be utilized by way of cash drawings and guarantees.

Limitations on Use of Funds

The Numericable Group Revolving Credit Facilities Agreement were used by Numericable and certain of its subsidiaries for general corporate and working capital purposes of Numericable and its subsidiaries (excluding certain unrestricted subsidiaries) (the "Numericable Borrower Group"), including, but not limited to, the Numericable Refinancing Transaction and the 2014 SFR Acquisition.

Conditions to Borrowing

A drawdown under the Numericable Group Revolving Credit Facilities Agreement cannot be made until, among other things, the facility agent has received (or waived) certain customary conditions precedent documents and evidence in form and substance reasonably satisfactory to it. Drawdowns are subject to further customary conditions including, among other things, that on the date the drawdown is requested and on the drawdown date (i) no default is continuing or occurring as a result of that drawdown, (ii) certain specified representations and warranties are true in all material respects, and (iii) that the consolidated net senior secured leverage ratio is not greater than the ratio specified in the Numericable Group Revolving Credit Facilities Agreement.

Incremental Facility

Subject to the satisfaction of certain conditions set out in the Numericable Group Revolving Credit Facilities Agreement, a new commitment lender (selected by Numericable) may provide new or additional commitments under the Numericable Group Revolving Credit Facilities Agreement.

Interest Periods, Interest Rates and Fees

Numericable and certain of its subsidiaries are permitted to make a specified number of drawdowns under each Numericable Group Revolving Credit Facility for terms of one, two, three or six months (or any other period agreed by the Numericable and the facility agent), but no such period shall end beyond the final maturity date of the Numericable Group Revolving Credit Facilities Agreement. Drawdowns under the Numericable Group Revolving Credit Facilities must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re-borrowed up to one month prior to the final maturity date.

The interest rate on each loan under the Numericable Group Revolving Credit Facilities Agreement for each interest period is equal to the aggregate of: (x) the applicable margin and (y) EURIBOR. The margin under the Numericable Group Revolving Credit Facilities Agreement is between 3.25% and 3.50% per annum. Interest accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six-month period).

With respect to any available but undrawn amounts under the Numericable Group Revolving Credit Facilities Agreement, Numericable is obligated to pay a commitment fee on the available undrawn amounts at the rate of 40% of the margin calculated on undrawn and un-cancelled commitments from a date to be agreed between Numericable and the Lenders until one month prior to the final maturity date of the Numericable Group Revolving Credit Facilities Agreement.

Repayment

The final maturity date of the Numericable Group Revolving Credit Facilities Agreement will be the earlier of (i) the date falling five years after the date of the Refinancing Transaction, (ii) the date falling five years after November 27, 2014 are released, and (iii) the date on which the Numericable Group Revolving Credit Facilities are fully repaid and cancelled.

Automatic Cancellation

Customary partial or total cancellation events apply to the Numericable Group Revolving Cedit Facilities Agreement, including where it becomes unlawful for any Numericable RCF Lender to fund, issue or maintain its participation in the Numericable Group Revolving Cedit Facilities Agreement.

Mandatory Prepayment

Upon the occurrence of a Change of Control Triggering Event (as defined in the Numericable Group Revolving Credit Facilities Agreement), Numericable and the other borrowers thereunder must repay the Numericable Group Revolving Credit Facilities in full together with accrued interest and all other amounts accrued under related finance documents and the Numericable Group Revolving Credit Facilities Agreement will be cancelled.

Certain excess proceeds received by Numericable from certain disposals of assets and not applied or invested or committed to be applied or invested to (i) prepay, repay, purchase or redeem certain indebtedness, (ii) invest in or purchase additional assets, or (iii) make certain capital expenditure, must be applied in prepayment of the Numericable Group Revolving Credit Facilities.

Guarantees

Each of the guarantors of the Numericable Senior Secured Notes and Numericable will also guarantee the obligations of each obligor under the Numericable Group Revolving Credit Facilities Agreement and related finance documents subject to applicable guarantee limitations specified therein.

Security

The Numericable Group Revolving Credit Facilities Agreement is secured by the same collateral as the Numericable Senior Secured Notes (other than any security over proceeds of the Numericable Senior Secured Notes in any escrow accounts).

Representations and Warranties

The Numericable Group Revolving Credit Facilities Agreement contains representations and warranties usual for facilities of this type subject to certain exceptions and customary materiality qualifications.

Undertakings

The Numericable Group Revolving Credit Facilities Agreement contains certain restrictive covenants which substantially reflect the covenants contained in the indenture governing the Numericable Senior Secured Notes.

The Numericable Group Revolving Credit Facilities Agreement will also require Numericable and the Numericable Borrower Group to observe certain general undertakings subject to materiality and other customary and agreed exceptions. These general undertakings, include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorizations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorization is not likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) *pari passu* ranking of all payment obligations under the Numericable Group Revolving Credit Facilities Agreement and related finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) maintenance and protection of intellectual property rights; (x) no amendments to constitutional documents that are likely to materially adversely affect the collateral; (xi) an Obligor not moving its centre of main interest from, or having an "establishment" in any jurisdiction other than, its jurisdiction of incorporation; and (xii) restricting the making of proceeds drawn under the Numericable Group Revolving Credit Facilities available to any sanctioned person or sanctioned country.

Financial Covenants, Events of Default

The Numericable Group Revolving Credit Facilities Agreement requires Numericable and the Numericable Borrower Group to maintain a Consolidated Net Senior Secured Leverage Ratio (as defined in the Numericable Group Revolving Credit Facilities Agreement) of no more than 4.00:1.00 only to be tested at each drawdown or to the extent there are loans or bank guarantees outstanding under the Numericable Group Revolving Credit Facilities Agreement at the end of each financial quarter.

The Numericable Group Revolving Credit Facilities Agreement will contain certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications, will allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts; and/or (iii) declare that all or part of the loans be repayable on demand. The proceeds of any enforcement of collateral will be applied in accordance with the 2014 Numericable Group Intercreditor Agreement.

The Numericable Group Revolving Credit Facilities Agreement permits the incurrence of indebtedness so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0 and such indebtedness may be secured if the consolidated net leverage ratio (pro forma for such transaction) is not greater than 3.25 to 1.0. Subject to compliance with the 4.0 to 1.0 consolidated net leverage ratio (pro forma for such transactions) and so long as there is no default or event of default outstanding, the Numericable Group Revolving Credit Facilities Agreement permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to 100% of the consolidated EBITDA generated from the period beginning on the first full fiscal quarter commencing prior to the Issue Date until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the Numericable Group Revolving Credit Facilities Agreement are permitted so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. The Numericable Group Revolving Credit Facilities Agreement also provides that, for so long as no payment block events have occurred and are continuing, Numericable may pay dividends or other distributions to its shareholders in an amount such that Altice France S.A.'s pro rata share of such dividends or other distributions is equal to the amount required by Altice S.A. for the payment of regularly scheduled interest as such amounts come due under the Notes and the 2014 Altice S.A. Revolving Credit Facility Agreement, less the amount of dividends or distributions paid under the provision described in the following sentence. For so long as no default or event of default is outstanding under the relevant debt instrument, and while Numericable is a public company, Numericable is also permitted to pay dividends in an annual amount not to exceed (A) the greater of (i) 6% of the net cash proceeds received from certain public equity offerings and (ii) the greater of 5% of the market capitalization of Numericable at the time of its initial public offering and 5% of market capitalization at the time of the dividend, less (B) the amount of dividends or distributions paid pursuant to the preceding sentence, provided that dividends may only be paid in respect of this sentence if the consolidated net leverage ratio of Numericable is 4.0x or less.

Perpetual Subordinated Notes

In 2006, one of the Numericable Group's subsidiaries, NC Numericable S.A.S., issued a maximum €25 million principal amount (excluding capitalized interest) of perpetual subordinated notes (Titres Subordonnés à Durée Indéterminée) ("TSDI") to Vilorex, a subsidiary of GDF Suez of which a €23.65 million principal amount has been subscribed. The TSDI are subordinated by law pursuant to Article L.228-97 of the French Commercial Code and expressly subordinated to part of the financing of the investments referred to below which was made available by NC Numericable S.A.S. The proceeds of the TSDI have been earmarked for financing the construction of plugs in towns located in SIPPEREC's southern hub (Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication). The TSDI bear interest at 7% per annum. Interest has been capitalized, and accrued interest on the loan amounted to €14.0 million as of December 31, 2013. The TSDI were issued for an indefinite term, and are repayable in case of the liquidation or dissolution of NC Numericable S.A.S. as well as upon NC Numericable S.A.S. achieving a specified level of revenues with respect to the customers covered by the connectors. Such triggers have not been reached since the TSDI issue date. If those triggers are reached and the TSDI are not prepaid, the interest rate steps up to 9% per annum. The TSDI contain a safeguard clause in connection with these triggers. From September 1, 2015 to September 1, 2019 the parties can call for a meeting to adjust the triggers so as to restore the economic balance which was contemplated at the time of issuance of the TSDI. NC Numericable S.A.S. may elect to prepay all or part of the TSDI upon ten days' notice in a minimum amount of €5 million. The TSDI are not transferable without NC Numericable S.A.S.'s consent. NC Numericable has a call option to purchase all of the outstanding TSDI for €1 from September 1, 2035. The TSDI must be prepaid in full if the SIPPREC concessions are transferred to a third party and that third party does not assume all of the rights and obligations of NC Numericable S.A.S. under the TSDI.

Security Deposits Received from Customers

Security deposits received from customers amounted to €51.9 million, €44.5 million and €42.9 million as at December 31, 2013, 2012 and 2011 respectively. These deposits are made when customers receive equipment from the Numericable Group, and the increase in the amount of deposits from December 31, 2011, to December 31, 2013, reflects the increased deposits paid by customers for LaBox due to increased subscriptions including LaBox. Customer deposits are reimbursed when customers terminate their subscriptions, on condition that the customers have paid any outstanding invoices and have returned the equipment. The guarantee deposits are recorded in the balance sheet as items due within more than one year.

Indebtedness of Altice S.A.

2014 Senior Notes

On May 8, 2014, Altice S.A., (the "*Issuer*") issued € 4,172 million (equivalent) in aggregate principal amount of senior notes, comprised of the following tranches: (i) $2,900 million aggregate principal amount of its Senior Notes due 2022 denominated in U.S. dollars (the "*2014 Dollar Senior Notes*"), and (ii) €2,075 million aggregate principal amount of its Senior Notes due 2022 denominated in euro (the "*2014 Euro Senior Notes*" and, together with the 2014 Dollar Senior Notes, the "*2014 Senior Notes*"). The 2014 Senior Notes will mature on May 15, 2022. Interest on the 2014 Senior Notes is payable semi-annually in cash in arrears on each February 15 and August 15, commencing on August 15, 2014. The 2014 Senior Notes are governed by the indenture entered into on May 8, 2014 (the "*2014 Senior Notes Indenture*").

The 2014 Senior Notes are general obligations of the Issuer and (i) rank *pari passu* in right of payment with all existing and future indebtedness of the Issuer that is not subordinated in right of payment to the 2014 Senior Notes; (ii) rank senior in right of payment to all existing and future indebtedness of the Issuer that is expressly subordinated in right of payment to the 2014 Senior Notes; and (iii) will be effectively subordinated to any existing and future indebtedness of the Issuer that is secured by property or assets that do not secure the 2014 Senior Notes, to the extent of the value of the property and assets securing such indebtedness.

Prior to the date on which the proceeds of the 2014 Senior Notes were released from the 2014 Senior Notes were guaranteed by Altice France S.A.

The 2014 Senior Notes are senior obligations of the Issuer. The 2014 Senior Notes benefit from first ranking pledges (the "*Collateral*") over all of the share capital of Altice International and Altice France S.A. and, following the Completion Date, the AI Mandatory Convertible Notes.

The Collateral will also secure the obligations of the Issuer under the 2014 Altice S.A. Revolving Credit Facility Agreement and certain hedging agreements expected to be entered into by the Issuer in connection with the Transactions. Under the terms of the Altice S.A. Intercreditor Agreement, in the event of an enforcement of the Collateral, the holders of the Existing 2014 Notes will receive proceeds from such Collateral only after the lenders under the 2014 Altice S.A. Revolving Credit Facility Agreement and the counterparties to the aforementioned hedging agreements have been repaid in full.

At any time prior to May 15, 2017, the Issuer may redeem some or all of the 2014 Senior Notes at a price equal to 100% of the principal amount plus a "make whole" premium. At any time on or after May 15, 2017, the Issuer may redeem some or all of the 2014 Senior Notes at the redemption prices set forth herein. In addition, prior to November 15, 2015, the Issuer may redeem up to 40% of the aggregate principal amount of each series of the 2014 Senior Notes with the proceeds of certain public or private equity or equity-linked offerings at a redemption price equal to 103% of the principal amount of the 2014 Dollar Senior Notes and 103% of the principal amount of the 2014 Euro Senior Notes, and on or after November 15, 2015, and prior to May 15, 2017, the Issuer may redeem up to 40% of the aggregate principal amount of each series of the 2014 Senior Notes (less the percentage of each series of 2015 Senior Notes redeemed pursuant to this provision prior to November 15, 2015) with the proceeds of certain public or private equity offerings at a redemption price equal to 107.750% of the principal amount of the 2014 Dollar Senior Notes and 107.250% of the principal amount of the 2014 Euro Senior Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2014 Senior Notes remains outstanding after the redemption. Further, the Issuer may redeem all of the 2014 Senior Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If the Issuer and its restricted subsidiaries sell certain of their assets or, if the Issuer experiences specific kinds of changes of control, the Issuer may be required to make an offer to repurchase the 2014 Senior Notes at the prices set forth herein.

The 2014 Senior Notes Indenture, among other things, further limits the ability of the Issuer and the ability of the Restricted Subsidiaries to (i) make investments or other restricted payments, (ii) create liens, (iii) sell assets and subsidiary stock, (iv) pay dividends or make other distributions or repurchase or redeem capital stock or subordinated debt, (v) engage in certain transactions with affiliates, (vi) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances, (vii) engage in mergers or consolidations, and (viii) incur indebtedness. These covenants are subject to a number of important exceptions and qualifications.

The 2014 Senior Notes Indenture provides for certain events of default, including, among others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €50 million or more.

The 2014 Senior Notes Indenture is governed by the laws of the State of New York.

The 2014 Altice S.A. Revolving Credit Facility Agreement

The Issuer entered into the 2014 Altice S.A. Revolving Credit Facility Agreement on May 8, 2014, with, amongst others, the original lenders party thereto (the "Altice S.A. RCF Lenders"), the mandated lead arrangers party thereto, Deutsche Bank AG, London Branch, as facility agent and Deutsche Bank AG, London Branch, as security agent, pursuant to which the Altice S.A. RCF Lenders agreed to provide the Issuer with a €200 million senior secured revolving credit facility.

The description set forth below sets out the principal terms and conditions of the 2014 Altice S.A. Revolving Credit Facility Agreement.

Limitations on Use of Funds

The 2014 Altice S.A. Revolving Credit Facility can be used by the Issuer for general corporate and working capital purposes of the Issuer and its subsidiaries (excluding certain unrestricted subsidiaries) (the "Altice S.A. Borrower Group").

Conditions to Borrowing

A drawdown of the 2014 Altice S.A. Revolving Credit Facility cannot be made until, among other things, the facility agent has received (or waived) certain customary conditions precedent documents and evidence in form and substance reasonably satisfactory to it. Drawdowns are subject to further customary conditions including, among other things, that on the date the drawdown is requested and on the drawdown date (i) no default is continuing or occurring as a result of that drawdown, (ii) certain specified representations and warranties are true in all material respects, and (iii) that the consolidated leverage ratio is not greater than the specified ratio in the 2014 Altice S.A. Revolving Credit Facility Agreement.

Interest Periods, Interest Rates and Fees

The Issuer is permitted to make a specified number of drawdowns under the 2014 Altice S.A. Revolving Credit Facility Agreement with interest periods relating thereto of one, two, three or six months (or any other period agreed by the Issuer and the facility agent), but no such interest period shall end after the final maturity date of the 2014 Altice S.A. Revolving Credit Facility. Drawdowns under the 2014 Altice S.A. Revolving Credit Facility Agreement must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re-borrowed up to one month prior to the final maturity date.

The interest rate on each loan under the 2014 Altice S.A. Revolving Credit Facility Agreement for each interest period is equal to the aggregate of: (x) the applicable margin, and (y) EURIBOR. The margin under the 2014 Altice S.A. Revolving Credit Facility is between 4.25% and 5.00% per annum. Interest accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six-month period).

With respect to any available but undrawn amounts under the 2014 Altice S.A. Revolving Credit Facility Agreement, the Issuer is obligated to pay a commitment fee on such undrawn amounts calculated on undrawn and un-cancelled commitments from a date to be agreed between the Issuer and the Lenders until one month prior to the final maturity date of the 2014 Altice S.A. Revolving Credit Facility.

Repayment

The final maturity date of the 2014 Altice S.A. Revolving Credit Facility is the earlier of the date falling five years after the Issue Date and the date on which the 2014 Altice S.A. Revolving Credit Facility is fully repaid and cancelled.

Mandatory Prepayment

Upon the occurrence of a Change of Control (as defined in the 2014 Altice S.A. Revolving Credit Facility Agreement), the Issuer must repay the 2014 Altice S.A. Revolving Credit Facility in full together with accrued interest and all other amounts accrued under related finance documents and the 2014 Altice S.A. Revolving Credit Facility Agreement will be cancelled.

If an amount in excess of 50% of the 2014 Senior Notes is repaid, prepaid, purchased, redeemed or defeased or acquired directly or indirectly by a member of the Borrower Group, the Issuer must apply an amount equal to such excess in cancellation of the 2014 Altice S.A. Revolving Credit Facility and, if applicable, prepayment of the loans drawn thereunder.

Certain excess proceeds received by the Issuer from certain disposals of assets and not applied or invested or committed to be applied or invested to (i) prepay, repay, purchase or redeem certain indebtedness, (ii) invest in or purchase additional assets, or (iii) make certain capital expenditure, must be applied in prepayment of the 2014 Altice S.A. Revolving Credit Facility.

Guarantees

Each of the guarantors of the Notes and the Issuer will also guarantee the obligations of each Obligor under the 2014 Altice S.A. Revolving Creditor Facility.

Security

The 2014 Altice S.A. Revolving Credit Facility is secured by the same collateral as the 2014 Senior Notes (other than collateral in respect of the escrow property).

Representations and Warranties

The 2014 Altice S.A. Revolving Credit Facility Agreement contains representations and warranties usual for facilities of this type subject to certain exceptions and customary materiality qualifications.

Undertakings

The 2014 Altice S.A. Revolving Credit Facility Agreement contains certain restrictive covenants which substantially reflect the covenants contained in the Indenture.

The 2014 Altice S.A. Revolving Credit Facility Agreement also requires the Issuer and the Altice S.A. Borrower Group to observe certain affirmative undertakings subject to materiality and other customary and agreed exceptions. These affirmative undertakings, include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorizations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorization is not likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) *pari passu* ranking of all payment obligations under the 2014 Altice S.A. Revolving Credit Facility Agreement and related finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) permitting access to the facility agent, security agent and advisors in certain circumstances; (x) maintenance and protection of intellectual property rights; (xi) no amendments to constitutional documents that are likely to materially adversely affect the collateral; (xii) an Obligor not moving its center of main interest from, or having an “establishment” in any jurisidiction other than, its jurisdiction of incorporation; and (xiii) restricting the making of proceeds drawn under the 2014 Altice S.A. Revolving Credit Facility available to any sanctioned person or sanctioned country.

Financial Covenants, Events of Default

The 2014 Altice S.A. Revolving Credit Facility Agreement requires the Issuer and the Altice S.A. Borrower Group to maintain a Consolidated Net Senior Secured Leverage Ratio (as defined in the 2014 Altice S.A. Revolving Credit Facility Agreement) of no more than 5.50:1, tested prior to utilization and quarterly to the extent there are loans outstanding.

The 2014 Altice S.A. Revolving Credit Facility Agreement contains certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications would allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts; and/or (iii) declare that all or part of the loans be repayable on demand. The proceeds of any enforcement of collateral will be applied in accordance with the Altice S.A. Intercreditor Agreement.

The Altice S.A. Intercreditor Agreement

To establish the relative rights of certain creditors, on May 8, 2014, the Issuer entered into an Intercreditor agreement (the "Altice S.A. Intercreditor Agreement") with, amongst others:

- the creditors under the Altice S.A. Revolving Credit Facility Agreement (the "RCF Creditors");
- upon its accession, the Trustee for the Notes on its behalf and on behalf of the holders of the Notes (the "Senior Notes Creditors");
- any persons that accedes to the Altice S.A. Intercreditor Agreement as counterparties to certain hedging agreements (the "Hedging Agreements") in accordance with the terms of the Altice S.A. Intercreditor Agreement (the "Hedging Banks", together with the RCF Creditors, the "Super Priority Creditors");
- any persons that accedes to the Altice S.A. Intercreditor Agreement under any future term or revolving credit facility (other than the RCF Agreement) designated as a senior bank facility (a "Senior Bank Facility") in accordance with the terms of the Altice S.A. Intercreditor Agreement (the "Senior Bank Creditors", together with the Senior Notes Creditors, the "Senior Creditors"); and
- any person that accedes to the Altice S.A. Intercreditor Agreement in their capacity as a creditor (the "Shareholders") any shareholder indebtedness provided to the Issuer (the "Shareholder Debt");

The Altice S.A. Intercreditor Agreement provides that existing indebtedness of the Issuer may be refinanced and/or future indebtedness may be incurred by the Issuer subject to the terms of the Altice S.A. Intercreditor Agreement and each finance document then existing. Future debt designated under the Altice S.A. Intercreditor Agreement as ranking on enforcement the security in priority to liabilities owed to the Senior Creditors is subject to certain conditions, including that it may only be in the form of a revolving credit facility, which is a working capital facility, or hedging indebtedness, and to the extent permitted (or not prohibited) by the terms of each finance document.

For the purposes of the Altice S.A. Intercreditor Agreement, the creditors of each class of debt will vote together and a representative trustee or agent within that class of debt (a "Representative") may act on the instructions of the majority of creditors of that class of debt (or, in the case of the Super Priority Debt or Senior Bank Debt (as defined below), on the instructions of $66^2/_3\%$ of creditors of that class of debt) (a "Relevant Majority"). Hedging Banks will vote together with the Super Priority Debt. In addition, in certain circumstances (as set out in the Altice S.A. Intercreditor Agreement) certain classes of creditors will vote together as part of an instructing group (the "Instructing Group"), which is the Relevant Majority of (i) (if Senior Bank Debt has been discharged and while any Senior Notes Debt remains outstanding) the Senior Notes Creditors and (ii) (while Senior Bank Debt remains outstanding) the Senior Creditors.

By accepting a Note the relevant holder thereof shall be deemed to have agreed to and accepted the terms and conditions of the Altice S.A. Intercreditor Agreement.

The following description is a summary of certain provisions, among others, that are contained in the Altice S.A. Intercreditor Agreement that relate to the rights and obligations of the Senior Notes Creditors. It does not restate the Altice S.A. Intercreditor Agreement nor does it describe provisions relating to the rights and obligations of holders of other classes of our debt and you are urged to read that documents in its entirety because it, and not the discussions here, define certain rights of the parties to the Altice S.A. Intercreditor Agreement, including the Notes.

Order of Priority

Ranking & Priority

The Altice S.A. Intercreditor Agreement provides, subject to certain provisions, the liabilities of the Issuer (and any member of its group which accedes to the Altice S.A. Intercreditor Agreement as a new obligor (together with, amongst others, the Issuer, the "Obligors")) under or in respect of, amongst others, the (i) Altice S.A. Revolving Credit Facility Agreement (the "RCF Debt"), (ii) the Hedging Agreements (the "Hedging Debt" and together with the RCF Debt, the "Super Priority Debt"), (iii) the Notes (the "Senior Notes Debt"), (iv) the Senior Bank Facilities (the "Senior Bank Debt" and together with the Senior Notes Debt, the "Senior Debt") and (v) the Shareholder Debt will rank in right and order of payment in the following order:

i. first, the RCF Debt, Senior Bank Debt, Senior Notes Debt, Hedging Debt and any other Super Priority Debt, Senior Debt and amounts due to the Trustee, pari passu without any preference between them; and

ii. second, the Shareholder Debt.

Priority of Security

The Altice S.A. Intercreditor Agreement provides that the security provided by the Obligors (the "Security") for the Senior Debt and the Super Priority Debt (together, the "Senior Secured Debt") will rank the RCF Debt, Senior Bank Debt, Senior Notes Debt, Hedging Debt and any other Super Priority Debt and Senior Debt and amounts due to the Trustee pari passu without any preference between them.

Additional Secured Debt

The creditors party to the Altice S.A. Intercreditor Agreement acknowledge that the Obligors may wish to incur incremental Senior Secured Debt, which in any such case is intended to rank pari passu with any existing Secured Secured Debt and/or share pari passu with any existing Security. By execution of the Altice S.A. Intercreditor Agreement, the creditors confirm that if and to the extent such a financing and such ranking and such Security is permitted by the terms of the finance documents at such time, they will (at the cost of the Obligors) co operate with the Obligors with a view to enabling such financing and such sharing in the Security to take place. In particular, but without limitation, the Super Priority Creditors, the Senior Bank Creditors, the Hedging Banks, and the Senior Notes Creditors have authorised and directed its Representative to execute any amendment to the Altice S.A. Intercreditor Agreement and such other finance documents required to reflect such arrangements to the extent such financing and/or sharing is permitted by such finance documents.

Restrictions

Subject to certain limited exceptions and subject to, inter alia, the provisions set forth under the captions "*—Permitted Payments*" and "*—Restrictions on Enforcement*", while any Senior Secured Debt is outstanding, the Altice S.A. Intercreditor Agreement restricts (to the extent not otherwise consented to by the relevant Representative representing the Relevant Majority of: (i) Super Priority Creditors (while any Super Priority Debt is outstanding); (ii) Senior Bank Creditors (while any Senior Bank Debt is outstanding) and (only to the extent prohibited under the Indenture) the Senior Notes Creditors; and/or (iii) (only to the extent prohibited under the Indenture) the Senior Notes Creditors (while any Senior Notes Debt remains outstanding)):

- the ability of the Obligors and their subsidiaries to create or permit to subsist any security interest over any of their assets for any Shareholder Debt;

- the ability of the Obligors and their subsidiaries to pay, purchase, redeem or acquire any of the Shareholder Debt, or otherwise to provide financial support in relation to such liabilities; and

- the ability of the Obligors to discharge the Shareholder Debt by set off, any right of combination of accounts or otherwise.

Limitation of Credit Support

Pursuant to the Altice S.A. Intercreditor Agreement, the Obligors are prohibited from granting any security in favor of any Senior Secured Debt unless that security is given in favor of the Security Agent to hold for the benefit of all other Senior Secured Debt.

Permitted Payments

While any Senior Secured Debt is outstanding, Obligors will only be permitted to make payments of Shareholder Debt:

a. with the prior written consent of:

   i. (while any Super Priority Debt is outstanding) the relevant Representatives representing the Relevant Majority of the Super Priority Creditors;

   ii. (if any Senior Bank Debt is outstanding) the Representatives representing the Relevant Majority of the Senior Bank Creditors; and

   iii. (if any Senior Notes Debt is outstanding) (only to the extent prohibited by the Indenture) the relevant Representatives representing the Relevant Majority of the Senior Notes Creditors; or

b. such payments are not prohibited by the debt documents in respect of the Senior Secured Debt and if, at that time, no Senior Secured Creditor has accelerated any of the Senior Secured Debt.

Restrictions on Enforcement

Subject to certain limited exceptions, and except with the consent of the Relevant Majority of Super Priority Creditors, the Shareholders cannot: (i) demand payment of any Shareholder Debt; (ii) accelerate any of the Shareholder Debt or otherwise declare any of the aforementioned debt prematurely due or payable on an event of default or otherwise; (iii) enforce any of the Shareholder Debt by attachment, set off, execution or otherwise; (iv) petition for, initiate, support or take any steps with a view to any insolvency or any voluntary arrangement or assignment for the benefit of creditors or any similar proceedings involving an Obligor; (vi) sue or bring or support any legal proceedings against any Obligor or its subsidiaries; or (vii) otherwise exercise any remedy for the recovery of any Shareholder Debt.

A Shareholder will be allowed to bring or support proceedings to prevent the loss of any right to bring or support proceedings by reason of expiry of statutory limitation periods.

Enforcement Instructions

No Senior Secured Creditor has any independent power to enforce, or has recourse to, any Security except through the Security Agent and the Security Agent shall enforce Security (if then enforceable) if so instructed by the Relevant Majority of Super Priority Creditors or the Instructing Group. The Security Agent may disregard any instructions from any other person to enforce the Security and may disregard any instructions to enforce any Security if those instructions are inconsistent with the Altice S.A. Intercreditor Agreement. The Security Agent is not obliged to enforce the Security if it has not received security and/or indemnity to its satisfaction by the relevant creditors.

To the extent that the Super Priority Creditors or the Instructing Group wish to enforce Security, they must notify the Senior Agent and each other Senior Representative 10 business days prior to the date it issues the enforcement instructions (the "Proposed Enforcement Instruction Date"). To the extent any Super Priority Creditors or the Instructing Group wish to accelerate any debt owing to any Senior Secured Creditor, they must notify the Security Agent and each other Senior Representative at least three business days prior to the date it intends to accelerate. If the Security Agent receives conflicting enforcement instructions prior to the Proposed Enforcement Instruction Date, the Representatives of the Super Priority Creditors and the Representative of the Instructing Group shall consult with one another and with the Security Agent in good faith for 30 days (or such shorter date as may be agreed) (the "Consultation Period"). Consultation will not be required if the Security has become enforceable as a result of an insolvency event relating to an Obligor against whom such enforcement action is taken or if any of such instructing representatives determines in good faith that consultation (and thereby delay) could reasonably be expected to have a material adverse effect on the ability to enforce the Security or the realization of proceeds of enforcement.

While any Super Priority Debt is outstanding, if the Security Agent receives conflicting enforcement instructions from the Representatives of the Super Priority Debt or the Instructing Group, and the Consultation Period has passed, the Security Agent shall comply with the instruction from the Instructing Group. The failure by a creditor group to issue enforcement instructions will be deemed to be conflicting, provided that if the representatives of the Instructing Group fail to give instructions as to enforcement and the Consultation Period has elapsed, the Security Agent will comply with the instructions of the representative of the Super Priority Debt. The instructions of the Super Priority Creditors will prevail if (i) the Super Priority Creditors have not been fully and finally discharged in cash within six months of the Proposed Enforcement Instruction Date, or (ii) the Security Agent has not commenced any enforcement action within 3 months of the Proposed Enforcement Date. All enforcement instructions will need to comply with the following security enforcement principles:

1. It shall be the aim of any enforcement of the Security to achieve the Security Enforcement Objective. "Security Enforcement Objective" means maximizing, so far as is consistent with a prompt and expeditious enforcement of the Security, the recovery of the Super Priority Creditors and (without prejudice to the waterfall described in "Application of Proceeds" below) the Senior Creditors.

2. The security enforcement principles may be amended, varied or waived with the prior written consent of the Relevant Majority of Super Priority Creditors, an Instructing Group and the Security Agent.

3. Without prejudice to the Security Enforcement Objective, the Security will be enforced and other action as to enforcement of the Security will be taken such that either:

   (a) in the event enforcement is being effected in accordance with the instructions of the Instructing Group either:

      (i) all proceeds of enforcement are received by the Security Agent in cash for distribution in accordance with the waterfall described in "Application of Proceeds" below; or

      (ii) sufficient proceeds from enforcement will be received by the Security Agent in cash to ensure that when the proceeds are applied in accordance with the waterfall described in "Application of Proceeds" below), the Super Priority Debt is repaid and discharged in full (unless the Relevant Majority of Super Priority Creditors agree otherwise); or

   (b) in the event enforcement is being effected in accordance with the instructions of the Super Priority Creditors either:

      (i) all proceeds of enforcement are received by the Security Agent in cash for distribution in accordance with the waterfall described in "Application of Proceeds" below; or

      (ii) with the consent of the Instructing Group, the proceeds are received by the Security Agent in cash and non cash consideration for distribution in accordance with the waterfall described in "Application of Proceeds" below.

4. The enforcement must be prompt and expeditious it being acknowledged that, subject to the other provisions of the Altice S.A. Intercreditor Agreement, the time frame for realization of value from the enforcement of the Security pursuant to enforcement will be determined by (while any Super Priority Debt is outstanding) the Representatives representing the Relevant Majority of Super Priority Creditors or the relevant Representatives representing an Instructing Group provided that it is consistent with the Security Enforcement Objective.

5. On:

   (a) a proposed enforcement of any of the Security over assets other than shares in a member of the Group, where the aggregate book value of such assets exceeds \$3,000,000 (or its equivalent); or

   (b) a proposed enforcement of any of the Security over some, but not all, of the shares in a member of the Group over which Security exists;

   the Security Agent shall, if so requested by (while any Super Priority Debt is outstanding) the Representatives representing the Relevant Majority of Super Priority Creditors or the relevant Representatives representing an Instructing Group, and at the expense of such creditors, obtain an opinion from any (X) reputable and independent internationally recognized accounting firm, (Y) reputable and independent internationally recognized investment bank, or (Z) other reputable and independent professional services firm experience in restructuring and enforcement (a "Financial Advisor"), that the consideration for the sale is fair from a financial point of view after taking into account all relevant circumstances. If the Security Agent is unable to obtain an opinion pursuant to this paragraph 5, it shall notify the Super Priority Representatives and the Senior Representatives representing an Instructing Group and may proceed to enforce the Security without obtaining such opinion.

6. The Security Agent shall be under no obligation to appoint a Financial Advisor or to seek the advice of a Financial Advisor, unless expressly required to do so by the security enforcement principles or any other provision of the Altice S.A. Intercreditor Agreement.

7. The Financial Advisor's opinion will be conclusive evidence that the Security Enforcement Objective has been met.

8. If enforcement of any Security is conducted by way of public auction in any relevant jurisdiction, no Financial Advisor shall be required to be appointed in relation to such enforcement action. Nothing shall require the enforcement of Security to take place by way of public auction.

Release of Security and Guarantees

If a disposal of an asset owned by the Obligor is made to a person or persons outside of the Group and either (i) the disposal is not permitted or prohibited by the underlying finance documents, or (ii) the disposal is being effected at the request of the relevant creditor in circumstances where it is entitled to take enforcement action under the Altice S.A. Intercreditor Agreement (and such disposal is consistent with certain security enforcement principles), or (iii) the disposal is pursuant to enforcement action in accordance with the Altice S.A. Intercreditor Agreement, and, in each case, the Security Agent is authorized to release any Security and other claims (including guarantees) under any finance document over that asset and, if that asset comprises of the shares in the capital of an Obligor or any of its subsidiaries which are subject to Security, release on behalf of the relevant creditor and each Obligor and its Subsidiaries that subsidiary and its subsidiaries from all present and future obligations and liabilities under the relevant finance document provided that the proceeds of the disposal applied in accordance with the relevant finance document and with the Altice S.A. Intercreditor Agreement.

Where a disposal relates to (ii) or (iii) above, and the asset which is disposed of consists of shares in an Obligor or its holding company and the Security Agent decides to dispose of all or part of the liabilities of such Obligor, holding company or any subsidiary under the finance documents, the Security Agent may: (a) dispose of all or part of such liabilities such that the transferee shall not be treated as a Senior Secured Creditor or a secured party; and (b) dispose of all (and not part) of such liabilities owed to the Senior Creditors on behalf of the relevant creditors and Obligors such that the transferee be treated as a Senior Secured Creditor or a secured party.

Turnover

The Altice S.A. Intercreditor Agreement provides that if any Super Priority Creditor or Senior Creditor or Shareholder receives or recovers a payment which is prohibited by the Altice S.A. Intercreditor Agreement or not paid in accordance with the provisions described under "—*Application of Proceeds*", subject to certain exceptions, the receiving or recovering creditor will promptly notify the Security Agent and hold any amount on trust for the creditors and, upon demand by the Security Agent, pay that amount to the Security Agent or, if lower, the amount of debt owed to the relevant category of creditor, in each case less the third party costs and expenses (if any) reasonably incurred in receiving or recovering such amount, for application by the Security Agent in accordance with the order of priority described under "—*Application of Proceeds*". These provisions will not apply to any receipt or recovery by the Hedging Banks in relation to certain netting and set off arrangements with Obligors, permitted refinancing, or otherwise in accordance with the loss sharing provisions of the Altice S.A. Intercreditor Agreement.

Subordination on Insolvency

After the occurrence of an insolvency event in relation to any Obligor (the "Insolvent Obligor"), the Shareholder Debt owed by the Insolvent Obligor will be subordinated in right of payment to the Super Priority Debt and Senior Debt owed by such Insolvent Obligor.

Filing of Claims

While any Senior Secured Debt is outstanding, the Security Agent is authorized (acting on the instructions of (while any Super Priority Debt) the Relevant Majority of Super Priority Creditors or the Instructing Group) to: (i) claim, enforce and prove for any debt owed by the Insolvent Obligor (ii) only with respect to Shareholder Debt, exercise all powers of convening meetings, voting and representations in respect of the shareholder debt owed by the Insolvent Obligor and (iii) file claims and proofs, give receipts and take all such proceedings and do all such things as the Security Agent considers reasonably necessary to recover any debt owed by the Insolvent Obligor.

If the Security Agent is not entitled or does not take any of the actions referred to above, the Shareholders will do so promptly when requested by the Security Agent (acting on the instructions of the Relevant Majority of Super Priority Creditors or the Instructing Group).

Application of Proceeds

Subject to the rights of any creditor (other than a Secured Creditor) with prior security or preferential claims, all amounts from time to time received pursuant to the provisions described under "—Turnover" or otherwise recovered by the Security Agent (or any other creditors) in connection with the realization or enforcement of all or any part of the security in favor of the Senior Secured Debt, apply them at any time as the Security Agent sees fit, and to the extent permitted by law, in the following order:

- first, in payment of the following amounts in the following order of priority: (i) pari passu and pro rata to the Security Agent and thereafter to the Trustee to the Notes in respect of any amounts due to each such party, and (ii) pari passu and pro rata to each representative of Senior Secured Debt of the fees, costs, expenses and liabilities (and all interest thereon as provided in the relevant finance documents) of each such representative and any receiver, attorney or agent appointed by such representative under the security documents or the Altice S.A. Intercreditor Agreement;

- second, in payment pari passu and pro rata of the balance of the costs and expenses of each Super Priority Creditor and each Senior Creditor in connection with such enforcement;

- third, in payment pari passu and pro rata to the representative of the Super Priority Debt and the Hedging Banks for application towards the balance of the Super Priority Debt;

- fourth, in payment pari passu and pro rata to each representative of Senior Debt for application towards (i) Senior Bank Debt and (ii) Senior Notes Debt;

- fifth, in payment of the surplus (if any) to the Obligors or other person entitled to it.

Amendment

Prior consent of each Representative is required for any waivers, consents, or amendments in relation to any security documents if any such amendments, waivers or consents would adversely affect the nature or scope of the charged property or the manner in which the proceeds of enforcement of Security is distributed.

The Intercreditor Agreement may be amended by the Obligors and the Security Agent without consent of the other parties if the amendment is to cure defects, typographical errors, resolve ambiguities or reflect changes, in each case, of a minor technical or administrative nature. Where an amendment affects the rights and obligations of one or more parties to the Intercreditor Agreement, and could not reasonably be expected to be adverse to the interests of other parties or class of parties, only the parties affected by such amendment need to agree to the amendments.

Other than in respect of certain customary amendments and waivers (which require the consent of each of the Senior Secured Creditors, the Security Agent and the Issuer), the Intercreditor Agreement may be amended or waived or any consent may be given under it with the written agreement of the Majority Super Priority Creditors, the Majority Senior Bank Creditors, the Majority Senior Notes Creditors the Issuer and the Security Agent.

DESCRIPTION OF NOTES

You will find definitions of certain capitalized terms used in this "Description of Notes" under the heading "Certain Definitions". Certain capitalized terms used in this "Description of Notes" may have different definitions that the same term used in other sections of these Listing Particulars. For purposes of this "Description of Notes", references to the "Issuer" refer only to Altice S.A.

Altice S.A., a Luxembourg public limited liability company (*société anonyme*), with registered office at 3 Boulevard Royal, L 2449 Luxembourg (the "*Issuer*") will be the issuer of the Notes offered hereby.

The Issuer has issued $1,480 million aggregate principal amount of its 7.625% Senior Notes due 2025 (the "*Dollar Notes*") and € 750 million aggregate principal amount of its 6.250% Senior Notes due 2025 (the "*Euro Notes*" and, together with the Dollar Notes, the "*Notes*") under an indenture (the "*Indenture*"), between, *inter alios*, itself, Deutsche Bank AG, London Branch, as trustee (the "*Trustee*"), Deutsche Bank Trust Company Americas as US Paying Agent, US Transfer Agent and US Registrar, Deutsche Bank AG, London Branch as Principal Paying Agent and Deutsche Bank Luxembourg S.A. as Euro Transfer Agent and Euro Registrar and Deutsche Bank AG, London Branch as security agent (the "*Security Agent*"). The Notes were issued in a private transaction that is not subject to the registration requirements of the Securities Act.

The Issuer will contribute the net proceeds of the Notes, after deducting fees and expenses related thereto to Altice International in exchange for mandatory convertible notes to be issued by Altice International and to be subscribed by Altice S.A., and Altice International will in turn contribute such proceeds (the "*Altice Proceeds Contribution*") to Altice Holdings to enable Altice Holdings to consummate the Target Acquisition as described in these Listing Particulars under "The Transactions" and "Use of Proceeds". The Issuer Transactions (as defined herein) will only be completed if the Target Acquisition is consummated. The completion of the Target Acquisition is subject to the conditions set out in the Target Acquisition Agreement, including the approval by the competent regulatory authorities in Portugal. The date on which the Target Acquisition is consummated is herein referred to as the "*Completion Date*".

Pending consummation of the Target Acquisition and the satisfaction of certain other conditions as described below, the initial purchasers have, concurrently with the closing of the offering of the Notes on the Issue Date, deposited the gross proceeds of this offering of the Notes into segregated escrow accounts (the "*Escrow Accounts*") pursuant to the terms of an escrow agreement (the "*Escrow Agreement*") dated as of the Issue Date among, *inter alios*, the Issuer, the Trustee and Deutsche Bank AG, London Branch as escrow agent (the "*Escrow Agent*"). If the Target Acquisition is not consummated on or prior to June 9, 2016 (the "*Escrow Longstop Date*"), or upon the occurrence of certain other events, the Notes will be redeemed at a price equal to 100% of the initial issue price of the Notes plus accrued and unpaid interest and Additional Amounts, if any, from the Issue Date to the Special Mandatory Redemption Date (as defined below). The release of the proceeds of the offering of the Notes from the Escrow Accounts will be subject to certain conditions. See "*—Escrow of Proceeds; Special Mandatory Redemption*".

The Indenture is unlimited in aggregate principal amount and €750 million aggregate principal amount of Euro Notes and $1,480 million aggregate principal amount of Dollar Notes were issued in this offering on the Issue Date. The Issuer may issue an unlimited principal amount of additional Notes at later dates under the same Indenture (the "*Additional Notes*"); *provided*, *however*, that the Issuer will only be permitted to issue Additional Notes in compliance with the covenants contained in the Indenture, including the covenants restricting the Incurrence of Indebtedness (as described below under "*—Certain Covenants—Limitation on Indebtedness*") and the Incurrence of Liens (as described below under "*—Certain Covenants—Limitation on Liens*"). The Notes issued in this offering are, and, if issued, any Additional Notes will be, treated as a single class for all purposes under the Indenture, including, without limitation, with respect to waivers, amendments, redemptions and offers to purchase, except as otherwise stated in the Indenture. However, in order for any Additional Notes to be denominated in U.S. dollars or euro to have the same CUSIP number and ISIN as the Dollar Notes or the Euro Notes, as applicable, such Additional Notes must be fungible with the Notes for U.S. federal income tax purposes. Unless the context otherwise requires, in this "Description of Notes", references to the "Notes" include the Notes and any Additional Notes that are actually issued. The terms of the Notes include those set forth in the Indenture. The Indenture is not qualified under, and does not incorporate by reference any of the provisions of, nor be subject to, the U.S. Trust Indenture Act of 1939, as amended.

This "Description of Notes" is intended to be an overview of the material provisions of the Notes and the Indenture, and refers to the Intercreditor Agreement, the Escrow Agreement and the Security Documents (as defined below). It does not restate those agreements in their entirety. Since this description of the terms of the Notes is only a summary, you should refer to the Indenture, the form of Notes, the Intercreditor Agreement, the Escrow Agreement and the Security Documents for complete descriptions of the obligations of the Issuer and your rights because they, and not this summary, define your rights as holders of the Notes. Copies of the Indenture, the form of Notes, the Security Documents, the Escrow Agreement and the Intercreditor Agreement are available as set forth under "Available Information". See the section entitled "*Description of Other Indebtedness—Indebtedness of Altice S.A.—The Altice S.A. Intercreditor Agreement*" for a summary of certain material terms of the Intercreditor Agreement.

The registered holder of a Note will be treated as the owner of such Note for all purposes. Only registered holders will have rights under the Indenture.

General

The Notes

The Notes:

- are general obligations of the Issuer;
- are, prior to the Completion Date, secured by a first ranking assignment over the Escrowed Property (as defined below) and the rights of the Issuer under the Escrow Agreement;
- will, as of the Completion Date, be guaranteed by Altice France and benefit from the security as set forth below under "*—Notes Security*";
- rank *pari passu* in right of payment with all existing and future Indebtedness of the Issuer that is not subordinated in right of payment to the Notes, including Indebtedness under the Altice Credit Facility, the Existing Senior Notes and certain Hedging Obligations;
- rank senior in right of payment to all existing and future Indebtedness of the Issuer that is expressly subordinated in right of payment to the Notes; and
- are effectively subordinated to all existing and future Indebtedness of the Issuer that is secured by property and assets that do not secure the Notes, to the extent of the value of the property and assets securing such Indebtedness.

As of September 30, 2014, on an as-adjusted consolidated basis after giving effect to the Transactions, including the issuance of the Notes and the application of the proceeds therefrom as described under "Use of Proceeds" elsewhere in these Listing Particulars, the Issuer and its Restricted Subsidiaries would have had outstanding €25,412 million equivalent aggregate principal amount of Indebtedness, out of which €7,425 million equivalent represents Indebtedness of Altice International and its Restricted Subsidiaries and €11,760 million equivalent represents Indebtedness of Numericable and its Restricted Subsidiaries. The Indenture permits the Issuer and the Restricted Subsidiaries to Incur additional Indebtedness in the future.

The Issuer is a holding company and does not conduct any operations and is wholly dependent on payments from its Subsidiaries to meet its obligations, including under the Notes. See "*Risk Factors—Risks Relating to the Notes and the Structure—The Issuer and the Guarantor are holding companies and conduct no business of their own and will depend on payments from their direct and indirect subsidiaries to provide them with funds to meet their obligations under the Notes and the Guarantee*."

The Notes are effectively subordinated in right of payment to all Indebtedness and other liabilities and commitments (including trade payables and lease obligations) of Subsidiaries of the Issuer and Altice France that do not guarantee the Notes, including Numericable and its Subsidiaries and Altice International and its Subsidiaries. Any right of the Issuer to receive assets of any of the Subsidiaries of the Issuer upon that non-guarantor Subsidiary's liquidation or reorganization (and the consequent right of the holders of the Notes to participate in those assets) will be effectively subordinated to the claims of that non-guarantor Subsidiary's creditors, except to the extent that the Issuer is itself recognized as a creditor of the non-guarantor Subsidiary, in which case the claims of the Issuer would still be subordinated in right of payment to any security in the assets of the non-guarantor Subsidiary and any Indebtedness of the non-guarantor Subsidiary senior to that held by the Issuer.

Principal, Maturity and Interest

The Issuer issued $1,480 million aggregate principal amount of Dollar Notes and €750 million aggregate principal amount of Euro Notes on the Issue Date. The Notes will mature on February 15, 2025, at which time 100% of the principal amount of the Notes shall be payable, unless redeemed prior thereto as described herein. The Dollar Notes were issued in minimum denominations of $200,000 and in integral multiples of $1,000 in excess thereof, and the Euro Notes were issued in minimum denominations of €100,000 and in integral multiples of €1,000 in excess thereof.

The Issuer may issue an unlimited principal amount of Additional Notes; *provided*, *however*, that the Issuer will only be permitted to issue Additional Notes in compliance with the covenants contained in the Indenture, including the covenants restricting the Incurrence of Indebtedness (as described below under "*—Certain Covenants—Limitation on Indebtedness*") and the Incurrence of Liens (as described below under "*—Certain Covenants—Limitation on Liens*"). The Notes issued in this offering are and, if issued, any Additional Notes, will be treated as a single class for all purposes under the Indenture, including, without limitation, with respect to waivers, amendments, redemptions and offers to purchase, except as otherwise stated in the Indenture. However, in order for any Additional Notes to be denominated in U.S. dollars or euro to have the same CUSIP number and ISIN as the Dollar Notes or the Euro Notes, as applicable, such Additional Notes must be fungible with the Notes for U.S. federal income tax purposes.

Interest on the Notes will:

- accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid;
- be payable semi-annually in arrears on each April 1 and October 1, commencing on October 1, 2015;
- be payable in cash to the holder of record of such Notes on March 15 and September 15 immediately preceding the related interest payment date; and
- be computed on the basis of a 360-day year comprised of twelve 30-day months.

Interest on overdue principal and interest, including Additional Amounts, if any, will accrue at a rate that is 1% higher than the interest rate on the Notes.

If the due date for any payment in respect of any Notes is not a Business Day at the place at which such payment is due to be paid, the Holder thereof will not be entitled to payment of the amount due until the next succeeding Business Day at such place, and will not be entitled to any further interest or other payment as a result of any such delay.

Methods of Receiving Payments on the Notes

Principal, interest and premium, if any, on the Global Notes (as defined below) will be payable at the specified office or agency of one or more Paying Agents; *provided* that payments on the Dollar Global Notes (as defined below) will be made to Cede & Co. as the registered holder of the Dollar Global Notes, and payments on the Euro Global Notes (as defined below) will be made to the Paying Agents which will, in turn, make such payments to Euroclear and Clearstream (in the case of the Euro Global Notes) and DTC or its nominee (in the case of the Dollar Global Notes).

Principal, interest and premium, if any, on any certificated securities ("*Definitive Registered Notes*") will be payable at the specified office or agency of one or more Paying Agents maintained for such purposes in New York, New York and London, United Kingdom. In addition, at the option of the Issuer, interest on the Definitive Registered Notes may be paid by check mailed to the Person entitled thereto as shown on the register for the Definitive Registered Notes. See "—*Paying Agents and Registrars for the Notes*".

Paying Agents and Registrars for the Notes

The Issuer will maintain one or more paying agents for the Notes (each a "Paying Agent" and together the "Paying Agents") in (i) the City of London, United Kingdom (the "*Principal Paying Agent*") and (ii) New York, New York (the "*U.S. Paying Agent*"). The Issuer will also undertake to maintain a Paying Agent in a European Union member state that will not be obliged to withhold or deduct tax pursuant to the European Union Directive 2003/48/EC (as amended from time to time) or any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 regarding the taxation of savings income (the "*Directive*"), or any law implementing or complying with or introduced in order to conform to such Directive. The Principal Paying Agent will be Deutsche Bank AG, London Branch in London and the U.S. Paying Agent will be Deutsche Bank Trust Company Americas in New York (together, and collectively with any other paying agents, the "*Paying Agents*").

The Issuer will also maintain one or more registrars (each, a "*Registrar*"). The initial Registrars will be Deutsche Bank Luxembourg S.A. (the "*Euro Registrar*") and Deutsche Bank Trust Company Americas (the "*U.S. Registrar*" and, together with the Euro Registrar, the "*Registrars*" and each a "*Registrar*"). The Issuer will also maintain a transfer agent. The initial transfer agents will be Deutsche Bank Luxembourg S.A. (the "*Euro Transfer Agent*") and Deutsche Bank Trust Company Americas (the "*U.S. Transfer Agent*" and, together with the Euro Registrar, the "*Transfer Agents*" and each a "*Transfer Agent*"). The Registrars will maintain a register reflecting ownership of Definitive Registered Notes (as defined herein) outstanding from time to time, if any, and will facilitate transfers of Definitive Registered Notes on behalf of the Issuer. Each transfer agent shall perform the functions of a transfer agent. Each Registrar shall provide a copy of the register and any update thereof to the Issuer and the Issuer shall maintain a register of the Notes at its registered office in order to comply with Luxembourg law (the "*Duplicate Register*"). In case of discrepancy between any register and the Duplicate Register, the Duplicate Register shall prevail for Luxembourg law purposes.

The Issuer may change any Paying Agents, Registrars or Transfer Agents for the Notes without prior notice to the Holders of such Notes. However, for so long as Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, the Issuer will publish a notice of any change of Paying Agent, Registrar or transfer agent on the official website of the Luxembourg Stock Exchange (*www.bourse.lu*), to the extent and in the manner permitted by the rules and the regulations of the Luxembourg Stock Exchange. The Issuer or any of its Subsidiaries may act as Paying Agent or Registrar in respect of the Notes.

Transfer and Exchange

The Notes have been issued in the form of several registered notes in global form, without interest coupons, as follows:

- Each series of Notes sold within the United States to qualified institutional buyers pursuant to Rule 144A under the Securities Act will initially be represented by a global note in registered form without interest coupons attached (the "*144A Global Notes*").

- The 144A Global Notes representing the Dollar Notes (the "*Dollar 144A Global Note*"), were deposited with a custodian for DTC and registered in the name of Cede & Co., as nominee of DTC, on the Issue Date.

- The 144A Global Notes representing the Euro Notes (the "*Euro 144A Global Note*"), were deposited with and registered in the name of the nominee of the common depositary for the accounts of Euroclear Bank SA/NV ("*Euroclear*") and Clearstream Banking, société anonyme ("*Clearstream*"), on the Issue Date.

- Each series of Notes sold outside the United States pursuant to Regulation S under the Securities Act will initially be represented by a global note in registered form without interest coupons attached (the "*Regulation S Global Notes*" and together with the 144A Global Notes, the "*Global Notes*").

- During the 40-day "distribution compliance period" (as such term is defined in Rule 902 of Regulation S under the Securities Act), the Regulation S Global Notes representing the Dollar Notes (the "*Dollar Regulation S Global Note*," and together with the Dollar 144A Global Note, the "*Dollar Global Notes*") will initially be credited within DTC for the accounts of Euroclear and Clearstream. After the 40-day distribution compliance period ends, investors may also hold their interests in the permanent Dollar Regulation S Global Note through organizations other than Clearstream or Euroclear that are DTC participants.

- The Regulation S Global Notes representing the Euro Notes (the "*Euro Regulation S Global Note*", and together with the Euro 144A Global Note, the "*Euro Global Notes*") will, on the closing date, be deposited with and registered in the name of the nominee of the common depositary for the accounts of Euroclear and Clearstream.

During the 40-day distribution compliance period, book-entry interests in the Regulation S Global Notes may be (1) held only through Euroclear and Clearstream or through DTC for the account of Euroclear and Clearstream, and (2) transferred only to non-U.S. persons under Regulation S or qualified institutional buyers under Rule 144A. Ownership of interests in the Global Notes ("*Book-Entry Interests*") will be limited to persons that have accounts with Euroclear, Clearstream or DTC, as applicable, or persons that may hold interests through such participants. Ownership of interests in the Book-Entry Interests and transfers thereof will be subject to the restrictions on transfer and certification requirements summarized below and described more fully under "*Transfer Restrictions*". In addition, transfers of Book-Entry Interests between participants in Euroclear, participants in Clearstream or participants in DTC will be effected by Euroclear, Clearstream or DTC, as applicable, pursuant to customary procedures and subject to the applicable rules and procedures established by Euroclear, Clearstream or DTC, as applicable, and their respective participants.

Book-Entry Interests in the 144A Global Note may be transferred to a person who takes delivery in the form of Book-Entry Interests in the Regulation S Global Note denominated in the same currency only upon delivery by the transferor of a written certification (in the form provided in the indenture) to the effect that such transfer is being made in accordance with Regulation S under the Securities Act.

Regulation S Book-Entry Interests may be transferred to a person who takes delivery in the form of 144A Book-Entry Interests only upon delivery by the transferor of a written certification (in the form provided in the Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a "qualified institutional buyer" within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under "*Transfer Restrictions*" and in accordance with any applicable securities law of any other jurisdiction.

Any Book-Entry Interest that is transferred as described in the immediately preceding paragraphs will, upon transfer, cease to be a Book- Entry Interest in the Global Note from which it was transferred and will become a Book-Entry Interest in the Global Note to which it was transferred.

Accordingly, from and after such transfer, it will become subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in the Global Note to which it was transferred.

If Definitive Registered Notes were issued, they were issued only in minimum denominations of $200,000 or €100,000 principal amount, as the case may be, and integral multiples of $1,000 in excess thereof or € 1,000 in excess thereof, as the case may be, upon receipt by the applicable Registrar of instructions relating thereto and any certificates, opinions and other documentation required by the Indenture. It is expected that such instructions will be based upon directions received by Euroclear, Clearstream or DTC, as applicable, from the participant which owns the relevant Book-Entry Interests. Definitive Registered Notes issued in exchange for a Book-Entry Interest will, except as set forth in the Indenture or as otherwise determined by the Issuer to be in compliance with applicable law, be subject to, and will have a legend with respect to, the restrictions on transfer summarized below and described more fully under "*Transfer Restrictions*".

Subject to the restrictions on transfer referred to above, Dollar Notes issued as Definitive Registered Notes may be transferred or exchanged, in whole or in part, in minimum denominations of $200,000 in principal amount and integral multiples of $1,000 in excess thereof and Euro Notes issued as Definitive Registered Notes may be transferred or exchanged, in whole or in part, in minimum denominations of €100,000 in principal amount and integral multiples of €1,000 in excess thereof. In connection with any such transfer or exchange, the Indenture requires the transferring or exchanging holder to, among other things, furnish appropriate endorsements and transfer documents, to furnish information regarding the account of the transferee at Euroclear, Clearstream or DTC, as applicable, to furnish certain certificates and opinions, and to pay any taxes, duties and governmental charges in connection with such transfer or exchange. Any such transfer or exchange will be made without charge to the holder, other than any taxes, duties and governmental charges payable in connection with such transfer.

Notwithstanding the foregoing, the Issuer is not required to register the transfer or exchange of any Notes:

(1) for a period of 15 days prior to any date fixed for the redemption of the Notes;

(2) for a period of 15 days immediately prior to the date fixed for selection of Notes to be redeemed in part;

(3) for a period of 15 days prior to the record date with respect to any interest payment date; or

(4) which the Holder has tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer or an Asset Disposition Offer.

The Issuer, the Trustee, the Paying Agents, the transfer agents and the Registrars will be entitled to treat the registered holder of a Note as the owner of it for all purposes.

The Note Guarantees

General

On the Completion Date, the Notes will be guaranteed by Altice France.

The Note Guarantee of the Notes will:

- be a general obligation of Altice France;

- rank *pari passu* in right of payment with all existing and future Indebtedness of Altice France that is not subordinated in right of payment to Altice France's Note Guarantee, including Altice France's Guarantee of Indebtedness under the Altice Credit Facility, the Existing Senior Notes and certain Hedging Obligations;

- rank senior in right of payment to all existing and future obligations of Altice France that is expressly subordinated in right of payment to such Note Guarantee;

- benefit from the security as set forth below under "—*Notes Security*";

- be effectively subordinated to all existing and future Indebtedness of Altice France that is secured by liens on property or assets of Altice France, to the extent of the value of the property or assets securing such Indebtedness; and

- be effectively subordinated to the Indebtedness and other obligations of Subsidiaries of the Issuer that do not Guarantee the Notes.

The Note Guarantee shall be granted on a senior basis for the full and punctual payment when due, whether at Stated Maturity, by acceleration or otherwise, of all payment obligations of the Issuer under the Indenture and the Notes, whether for payment of principal of or interest on or in respect of the Notes, fees, expenses, indemnification or otherwise, provided that the obligations of Altice France under its Note Guarantee will be limited as necessary to prevent the relevant Note Guarantee from constituting a fraudulent conveyance under applicable law, or otherwise to reflect limitations under applicable law or capital maintenance regulations. See "*Risk Factors—Risks Relating to the Notes and the Structure—The Guarantee will be subject to certain limitations on enforcement and may be limited by applicable laws or subject to certain defenses that may limit its validity and enforceability*" and "*Limitation on Validity and Enforceability of the Guarantee and the Security Interests*".

As of September 30, 2014, on an as-adjusted consolidated basis after giving effect to the Transactions, including the issuance of the Notes and the application of the proceeds therefrom as described under "Use of Proceeds" elsewhere in these Listing Particulars, the Issuer and its Restricted Subsidiaries would have had outstanding €25,412 million equivalent aggregate principal amount of Indebtedness. The Indenture permits the Issuer and the Restricted Subsidiaries to incur additional Indebtedness in the future.

Altice France is a holding company and does not conduct any operations and is wholly dependent on payments from its Subsidiaries to meet their obligations, including under its Note Guarantee. Numericable is the only Subsidiary of Altice France and Altice France owns 60.3% of Numericable. See "*Risk Factors—Risks Relating to the Notes and the Structure—The Issuer and the Guarantor are holding companies and conduct no business of their own and will depend on payments from their direct and indirect subsidiaries to provide them with funds to meet their obligations under the Notes and the Guarantee*."

The Notes and the Note Guarantees are effectively subordinated in right of payment to all Indebtedness and other liabilities and commitments (including trade payables and lease obligations) of Subsidiaries of the Issuer that do not Guarantee the Notes. Any right of the Issuer or Altice France to receive assets of any of the Subsidiaries of the Issuer that do not Guarantee the Notes upon that non-guarantor Subsidiary's liquidation or reorganization (and the consequent right of the holders of the Notes to participate in those assets) will be effectively subordinated to the claims of that non-guarantor Subsidiary's creditors, except to the extent that the Issuer or Altice France is itself recognized as a creditor of the non-guarantor Subsidiary, in which case the claims of the Issuer or Altice France, as the case may be, would still be subordinated in right of payment to any security in the assets of the non-guarantor Subsidiary and any Indebtedness of the non-guarantor Subsidiary senior to that held by the Issuer or Altice France.

Future Note Guarantees

The Issuer may from time to time designate a Restricted Subsidiary as an additional guarantor of the Notes (the "*Additional Guarantors*") by causing it to execute and deliver to the Trustee a supplemental indenture in the form attached to the Indenture (and with such documentation relating thereto as the Trustee may reasonably require, including Opinions of Counsel as to the enforceability of such Note Guarantee), pursuant to which such Restricted Subsidiary will become a Guarantor.

Each Additional Guarantor will, jointly and severally, with Altice France and each other Additional Guarantor, irrevocably guarantee (each guarantee, a "*Note Guarantee*") on a senior basis the full and punctual payment when due, whether at Stated Maturity, by acceleration or otherwise, of all payment obligations of the Issuer under the Indenture and the Notes, whether for payment of principal of or interest on or in respect of the Notes, fees, expenses, indemnification or otherwise. The obligations of any Additional Guarantor will be contractually limited under its Note Guarantee to reflect limitations under applicable law, including, among other things, with respect to maintenance of share capital applicable to such Additional Guarantor and its shareholders, directors and general partner. For purposes of the Indenture and this "Description of Notes", references to the Note Guarantees are references to any such future Note Guarantees and references to the Guarantors are references to any such Additional Guarantors.

Releases of the Note Guarantees

The Note Guarantee of a Guarantor will terminate:

- upon a sale or other disposition (including by way of consolidation, merger, amalgamation or combination) of the Capital Stock of the relevant Guarantor (whether by direct sale or sale of a holding company of such Guarantor) or the sale or disposition of all or substantially all the assets of the Guarantor (other than to the Issuer or a Restricted Subsidiary), in each case if the sale or other disposition does not violate the covenant described under "*—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*" or "*—Certain Covenants—Minimum Holdings*";

- upon the designation in accordance with the Indenture of that Guarantor as an Unrestricted Subsidiary;

- upon legal defeasance, covenant defeasance or satisfaction and discharge of the Indenture, as provided in "*—Defeasance*" and "*—Satisfaction and Discharge*";

- in accordance with an enforcement sale in compliance with the Intercreditor Agreement or any Additional Intercreditor Agreement, or as otherwise provided for under the Intercreditor Agreement or any Additional Intercreditor Agreement;

- as described under "*—Amendments and Waivers*";

- as described under "*—Certain Covenants—Additional Guarantors*";

- with respect to any Guarantor that is not the continuing or surviving Person in the relevant consolidation or merger, as a result of a transaction that complies with the provisions described under "*—Merger and Consolidation—The Guarantors*"; or

- upon the full and final payment and performance of all obligations of the Issuer under the Indenture and the Notes.

The Trustee and the Security Agent (as applicable) shall each take all necessary actions, including the granting of releases or waivers under the Intercreditor Agreement or any Additional Intercreditor Agreement, to effectuate any release of a Note Guarantee in accordance with these provisions, subject to customary protections and indemnifications. Each of the releases set forth above shall be effective without the consent of the Holders or any action on the part of the Trustee. Neither the Trustee nor the Issuer will be required to make a notation on the Notes to reflect any such release, termination or discharge.

Notes Security

General

On the Issue Date, the Notes are secured only by a security interest in the Escrowed Property. On the Completion Date, the Notes will be secured by security interests granted on a first-priority basis over (i) all of the Capital Stock of Altice France and Altice International and (ii) the AI Mandatory Convertible Notes (the "*Notes Collateral*").

The Notes Collateral will also secure Indebtedness under the Altice Credit Facility, the Existing Senior Notes and certain Hedging Obligations of the Issuer which, in the case of the Altice Credit Facility and such Hedging Obligations, is Super Priority Indebtedness. The pledge agreements and the other security documents in respect of the Notes Collateral to be entered into on the Completion Date are referred to as the "*Security Documents*". Any other additional security interests that may in the future be granted to secure the obligations under the Notes, the Note Guarantees and the Indenture would also constitute Notes Collateral.

Subject to certain conditions, including compliance with the covenants described under "*—Certain Covenants—Limitation on Liens*" and "*—Certain Covenants—Impairment of Security Interests*", the Issuer and its Restricted Subsidiaries will be permitted to Incur certain additional Indebtedness in the future that may be secured on the Notes Collateral, including any Additional Notes, certain Indebtedness under Credit Facilities (including revolving credit facility Indebtedness which may be Super Priority Indebtedness) and Hedging Obligations (which in the case of Interest Rate Agreements and Currency Agreements may be Super Priority Indebtedness) and certain other Hedging Obligations (which may be Super Priority Indebtedness), in each case, permitted under the Indenture and other Indebtedness of the Issuer and its Subsidiaries.

The proceeds from the sale of the Notes Collateral remaining after sharing with other creditors entitled to share in such proceeds may not be sufficient to satisfy the obligations owed to the Holders of the Notes. No appraisals of the Notes Collateral have been made in connection with this offering of Notes. By its nature, some or all of the Notes Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, the Notes Collateral may not be able to be sold in a short period of time, or at all. In addition, the Intercreditor Agreement places limitations on the ability of the Security Agent to release the security interests in some of the Notes Collateral, by reference to the interests of other creditors. These limitations may include requirements that some or all of the Notes Collateral be disposed of only pursuant to public auctions or only at a price confirmed by a valuation. See "*Description of Other Indebtedness—Indebtedness of Altice S.A.—The Altice S.A. Intercreditor Agreement*" and "*Risk Factors—Risks Relating to the Notes and the Structure—The value of the Collateral may not be sufficient to satisfy our obligations under the Notes and such Collateral may be reduced or diluted under certain circumstances*."

The creditors under the Altice Credit Facility, the counterparties to certain Hedging Obligations, the trustee under the Existing Senior Notes Indenture, the holders of the Existing Senior Notes, and the Trustee have, and by accepting a Note, each Holder will be deemed to have, irrevocably appointed the Security Agent to act as its agent under the Intercreditor Agreement and the Security Documents. The creditors under the Altice Credit Facility, the counterparties to certain Hedging Obligations, the trustee under the Existing Senior Notes Indenture, the holders of the Existing Senior Notes, and the Trustee have, and by accepting a Note, each holder will be deemed to have, irrevocably authorized the Security Agent to (i) perform the duties and exercise the rights, powers and discretions that are specifically given to it under the Intercreditor Agreement and the Security Documents, together with any other incidental rights, power and discretions; and (ii) execute each Security Document, waiver, modification, amendment, renewal or replacement expressed to be executed by the Security Agent on its behalf.

Security Documents

Under the Security Documents, the applicable grantor of security will grant security over the Notes Collateral to secure the payment when due of the Issuer's and/or the Guarantors' payment obligations under the Notes, the Note Guarantees and/or the Indenture (as applicable). The Security Documents will be, entered into by the relevant security provider and the Security Agent as agent for the secured parties referred to therein. When entering into the Security Documents, the Security Agent will act in its own name, but also (except where the Security Documents only secure the "parallel debt" created under the Intercreditor Agreement and owed to the Security Agent) as a representative of the secured parties (including the Holders from time to time). Under the Intercreditor Agreement, the Security Agent will also act on behalf of the lenders under the Altice Credit Facility, the holders of the Existing Senior Notes, the counterparties to certain Hedging Obligations and holders of any additional Indebtedness that is permitted to be secured by the Notes Collateral in favor of such parties.

The Indenture provides that, subject to the terms thereof and of the Security Documents and the Intercreditor Agreement, the Notes and the Note Guarantees, as applicable, will be secured by the security interest in the Notes Collateral that is created by the Security Documents and secures obligations under the Notes, the Note Guarantees and/or the Indenture (the "*Security Interests*"). Such Security Interests in the Notes Collateral will also secure the obligations under the Altice Credit Facility, the Existing Senior Notes, certain Hedging Obligations and certain other Indebtedness permitted by the Indenture to be Incurred in the future and secured by such Notes Collateral. However, the Security Interests may be released under certain circumstances as provided under "*—Release of Notes Collateral*" below. See "*Risk Factors—Risks Relating to the Notes and the Structure—There are circumstances other than repayment or discharge of the Notes under which the Guarantee and the Collateral will be released automatically, without your consent or the consent of the Trustee*".

The Security Documents will provide that the rights with respect to the Notes and the Note Guarantees must be exercised by the Security Agent. Because the Holders will not be a party to the Security Documents, Holders may not, individually or collectively, take any direct action to enforce any rights in their favor under the Security Documents. The Holders may only act through the Security Agent.

In the event that the Issuer or other grantor of a security interest in the Notes Collateral enters into insolvency, bankruptcy or similar proceedings, the Security Interests created under the Security Documents or the rights and obligations enumerated in the Intercreditor Agreement could be subject to potential challenges. If any challenge to the validity of the Security Interests or the terms of the Intercreditor Agreement were successful, the Holders might not be able to recover any amounts under the Security Documents. See "*Risk Factors—Risks Relating to the Notes and the Structure—The Guarantee will be subject to certain limitations on enforcement and may be limited by applicable laws or subject to certain defenses that may limit its validity and enforceability*" and "*Limitation on Validity and Enforceability of the Guarantee and the Security Interests*".

Release of Notes Collateral

The Issuer and the Guarantors will be entitled to release the Security Interests in respect of the Notes Collateral securing the Notes and the Note Guarantees under any one or more of the following circumstances:

(1) in connection with any sale or other disposition of the Notes Collateral to a Person that is not the Issuer or a Restricted Subsidiary (but excluding any transaction subject to "*—Certain Covenants—Merger and Consolidation*"), if such sale or other disposition does not violate the covenant described under "*—Certain*

Covenants—Limitation on Sales of Assets and Subsidiary Stock" or "*—Certain Covenants—Minimum Holdings*"; but only in respect of the Notes Collateral sold or otherwise disposed of;

(2) in connection with the release of a Guarantor from its Note Guarantee pursuant to the terms of the Indenture, the release of the property and assets, and Capital Stock, of such Guarantor;

(3) if the Issuer designates any Restricted Subsidiary to be an Unrestricted Subsidiary in accordance with the applicable provisions of the Indenture, the release of the property, assets and Capital Stock of such Unrestricted Subsidiary;

(4) upon legal defeasance, covenant defeasance or satisfaction and discharge of the Indenture, as provided in "*—Defeasance*" and "*—Satisfaction and Discharge*";

(5) in accordance with an enforcement sale in compliance with the Intercreditor Agreement or any Additional Intercreditor Agreement, or as otherwise provided for under the Intercreditor Agreement or any Additional Intercreditor Agreement;

(6) as described under "*—Amendments and Waivers*", "*—Certain Covenants—Impairment of Security Interests*" and the second paragraph under "*—Certain Covenants—Limitation on Liens*";

(7) upon the full and final payment and performance of all obligations of the Issuer under the Indenture and the Notes;

(8) to release and re-take any Lien on any Notes Collateral to the extent not otherwise prohibited by the terms of the Indenture, the Security Documents or the Intercreditor Agreement or any Additional Intercreditor Agreement;

(9) in connection with a transaction permitted by the covenant described below under the caption "*—Certain Covenants—Merger and Consolidation*"; or

(10) with the consent of holders of at least 75% in aggregate principal amount of Notes (including, without limitation, consent obtained in connection with a tender offer or exchange offer for, or purchase of, the Notes);

provided that, the Security Interests created by the Escrow Assignment may only be released upon release of all of the Escrowed Property from the Escrow Accounts in accordance with the terms of the Escrow Agreement.

Upon certification by the Issuer, the Trustee (to the extent action is required by it) and the Security Agent shall take all necessary actions, including the granting of releases or waivers under the Intercreditor Agreement, to effectuate any release in accordance with these provisions, subject to customary protections and indemnifications. The Security Agent and the Trustee (as applicable) will take all necessary action required to effectuate any release of the Notes Collateral, in accordance with the provisions of the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement and the relevant Security Document. Each of the releases set forth above shall be effected by the Security Agent without the consent of the Holders or any action on the part of the Trustee.

Intercreditor Agreement

To establish the relative rights of certain creditors of the Group under its financing arrangements, including, without limitation, the lenders under the Altice Credit Facility, the trustee and holders of notes under the Existing Senior Notes Indenture, the counterparties to certain Hedging Obligations secured on the Notes Collateral and the holders of the Notes, the Issuer, the facility agent under the Altice Credit Facility, certain hedging counterparties, the trustee under the Existing Senior Notes Indenture and the Security Agent entered into or acceded to the Intercreditor Agreement. Please see "*Description of Other Indebtedness—Indebtedness of Altice S.A.—Altice S.A. Intercreditor Agreement*". Upon release of the proceeds of the Notes from escrow, the Trustee will become party to the Intercreditor Agreement. Pursuant to the terms of the Intercreditor Agreement, any liabilities in respect of obligations under the Altice Credit Facility and certain Hedging Obligations that are secured on the Notes Collateral will receive priority over amounts received from the sale of the Notes Collateral following an enforcement sale or other distressed disposal of such Notes Collateral. Any proceeds received upon any enforcement over any Notes Collateral, after all obligations under the Altice Credit Facility have been repaid and such Hedging Obligations have been discharged from such recoveries, will be applied pro rata in repayment of all obligations under the Indenture, the Notes, the Existing Senior Notes and obligations under the Existing Senior Notes Indenture and any other Indebtedness of the Issuer and the Guarantors permitted to be Incurred and secured by the Note Collateral on a pari passu basis pursuant to the Indenture and the Intercreditor Agreement.

Subject to the Security Interests becoming enforceable, the Holders of the Notes (together with any other holders of Indebtedness of the Issuer that ranks pari passu with the Notes) and the holders of Super Priority Indebtedness, in each case acting through their respective agent or trustee, are entitled to instruct the Security Agent on enforcement of the Notes Collateral. In the event either group of creditors issues conflicting enforcement instructions, subject to certain exceptions, a 30 day consultation period is required. In the event both creditor groups do not agree on the manner of enforcement after the consultation period, the Intercreditor Agreement provides that the Security Agent will act on the instructions of the majority of the aggregate principal amount of the Notes and all other Indebtedness of the Issuer which ranks pari passu with the Notes. If all Super Priority Indebtedness is not repaid within six months after date on which proposed enforcement instructions are issued or the Security Agent has not commenced any enforcement action within three months of such date, thereafter the instructions of the majority holders of Super Priority Indebtedness will prevail. See "*Description of Other Indebtedness—Indebtedness of Altice S.A.—Altice S.A. Intercreditor Agreement*".

The Indenture also provides that each holder, by accepting a Note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement and any Additional Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein).

Additional Intercreditor Agreements; Agreement to Be Bound

Similar provisions to those described above may be included in any Additional Intercreditor Agreement (as defined below) entered into in compliance with the covenant described under "*—Certain Covenants—Additional Intercreditor Agreements*".

The Indenture provides that each Holder, by accepting a Note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement and any Additional Intercreditor Agreement and to have authorized the Trustee and the Security Agent to enter into any such Intercreditor Agreement or any such Additional Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein).

Restricted Subsidiaries and Unrestricted Subsidiaries

On the Issue Date, all of the Issuer's Subsidiaries (other than Green Datacenter and Auberimmo SAS) were Restricted Subsidiaries. However, in the circumstances described below under "*—Certain Definitions—Unrestricted Subsidiary*", the Issuer will be permitted to designate Restricted Subsidiaries as Unrestricted Subsidiaries. Unrestricted Subsidiaries will not be subject to many of the restrictive covenants in the Indenture.

Escrow of Proceeds; Special Mandatory Redemption

Concurrently with the closing of the offering of the Notes on the Issue Date, the Issuer entered into the Escrow Agreement with the Trustee and the Escrow Agent, pursuant to which the initial purchasers deposited with the Escrow Agent an amount equal to the gross proceeds of this offering of the Notes into the Escrow Accounts. The initial funds deposited in the Escrow Accounts, and all other funds, securities, interest, dividends, distributions and other property and payments credited to the Escrow Accounts (less any property and/or funds paid in accordance with the Escrow Agreement) are referred to, collectively, as the "*Escrowed Property*". The Escrowed Property is controlled by the Escrow Agent, and pledged on a first ranking basis in favor of the Trustee on behalf of the Holders of the Notes.

Pursuant to the Escrow Agreement, the Issuer will be entitled to instruct the Escrow Agent to release some or all of the cash in the Escrow Accounts to invest such cash in certain permitted investments including in cash and/or any highly-rated stable net asset value money market fund. The Escrow Agreement will require that all proceeds of such investments be deposited back into the relevant Escrow Account when such investments are sold, liquidated or otherwise returned.

In order to cause the Escrow Agent to release any Escrowed Property to the Issuer for purposes of completing the PT Portugal Acquisition (any such release, the "*Release*"), the Escrow Agent and the Trustee shall have received from the Issuer, on or before the Escrow Longstop Date, an officer's certificate, in the form attached to the Escrow Agreement to the effect that:

(i) (A) the Target Acquisition Agreement has not been modified, amended or waived in any respect that is material and adverse to Holders of the Notes without the prior consent of the Holders of a majority of the outstanding Notes (it being understood and agreed that any increase or reduction in the purchase price shall not be deemed to be materially adverse to the Holders of the Notes; *provided* that any increase in the purchase price shall not be funded by Indebtedness; and (B) Target Acquisition Agreement remains in full force and effect; and

(ii) as of the Completion Date, there are no events of bankruptcy, insolvency or court protection with respect to the Issuer.

The Release will occur promptly upon the satisfaction of the conditions set forth above. Upon the Release, the Escrowed Property will be paid out in accordance with the Escrow Agreement and the Escrow Accounts will be reduced to zero.

In the event that (a) the Completion Date does not take place on or prior to the Escrow Longstop Date, (b) the Target Acquisition Agreement is terminated at any time prior to the Escrow Longstop Date; or (c) there is an event of bankruptcy, insolvency or court protection with respect to the Issuer on or prior to the Escrow Longstop Date (the date of any such event being the "*Special Termination Date*"), the Issuer will redeem all of the Notes (the "*Special Mandatory Redemption*") at a price (the "*Special Mandatory Redemption Price*") equal to 100% of the initial issue price of each Note, plus accrued but unpaid interest and Additional Amounts, if any, from the Issue Date to the Special Mandatory Redemption Date (as defined below and subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Notice of the Special Mandatory Redemption will be delivered by the Issuer, no later than one Business Day following the Special Termination Date, to the Trustee and the Escrow Agent, and will provide that the Notes shall be redeemed on a date that is no later than the fifth Business Day after such notice is given by the Issuer in accordance with the terms of the Escrow Agreement (the "*Special Mandatory Redemption Date*"). On or before the Special Mandatory Redemption Date, the Escrow Agent shall pay to the Principal Paying Agent for payment to each holder of the Notes to be redeemed the Special Mandatory Redemption Price for such holder's Notes and, concurrently with the payment to such holders, shall deliver any excess Escrowed Property (if any) to the Issuer.

To secure the payment of the Special Mandatory Redemption Price, the Trustee will be granted, for the benefit of the holders of the Notes, a security interest in the Escrow Accounts and the rights of the Issuer under the Escrow Agreement (the "*Escrow Assignment*").

If at the time of such Special Mandatory Redemption, the Notes are listed on the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, the Issuer will notify the Luxembourg Stock Exchange that the Special Mandatory Redemption has occurred and any relevant details relating to such Special Mandatory Redemption.

Optional Redemption

Except as described below and except as described under "*Redemption for Changes in Withholding Taxes*", and "*Escrow of Proceeds, Special Mandatory Redemption*", the Notes are not redeemable until February 15, 2020.

On and after February 15, 2020 the Issuer may redeem all or, from time to time, part of the Dollar Notes and/or the Euro Notes upon not less than 30 nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of the principal amount) plus accrued and unpaid interest and Additional Amounts (as defined below), if any, to, but not including, the applicable redemption date (subject to the right of the Holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the twelve-month period beginning on February 15 of the years indicated below:

	Redemption Price	
Year	**Dollar Notes**	**Euro Notes**
2020	103.813%	103.125%
2021	102.542%	102.083%
2022	101.271%	101.042%
2023 and thereafter	100.000%	100.000%

Unless the Issuer defaults in the payment of the redemption price, interest will cease to accrue on the Notes or the portion thereof called for redemption on the applicable redemption date. Any such redemption and notice may, in the Issuer's discretion, be subject to the satisfaction of one or more conditions precedent.

Prior to February 15, 2018, the Issuer may on any one or more occasions redeem up to 40% of the original principal amount of the Dollar Notes and up to 40% of the original amount of the Euro Notes (including, in each case, the principal amount of any Additional Notes denominated in such currencies), upon not less than 30 nor more than 60 days' notice, with funds in an aggregate amount not exceeding the Net Cash Proceeds of one or more Equity Offerings at a redemption price of 107.625% of the principal amount of the Dollar Notes and 106.250% of the principal amount of the Euro Notes, plus, in each case, accrued and unpaid interest and Additional Amounts, if any, to, but not including, the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided* that:

(1) at least 60% of the original principal amount of each of the Dollar Notes (including the principal amount of any Additional Notes denominated in U.S. dollars) and the Euro Notes (including the principal amount of any Additional Notes denominated in euro) remains outstanding after each such redemption; and

(2) the redemption occurs within 180 days after the closing of such Equity Offering.

Any redemption notice given in respect of the redemption referred to in the preceding paragraph may be given prior to completion of the related Equity Offering, and any such redemption or notice may, at the Issuer's discretion, be subject to the satisfaction of one or more conditions precedent, including the completion of the related Equity Offering.

In addition, prior to February 15, 2020, the Issuer may redeem all or, from time to time, a part of the Dollar Notes and/or the Euro Notes upon not less than 30 nor more than 60 days' notice at a redemption price equal to 100% of the principal amount thereof plus the Applicable Premium and accrued and unpaid interest and Additional Amounts, if any, to, but not including, the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date). Any such redemption and notice may, at the Issuer's discretion, be subject to the satisfaction of one or more conditions precedent.

For the avoidance of doubt, in each case above, the Issuer may choose to redeem each series of Notes, either together or separately.

If the Issuer effects an optional redemption of Notes, it will, for so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, inform the Luxembourg Stock Exchange of such optional redemption and confirm the aggregate principal amount of the Notes that will remain outstanding immediately after such redemption.

Sinking Fund

Except as described under "*Escrow of Proceeds; Special Mandatory Redemption*", the Issuer will not be required to make mandatory redemption payments or sinking fund payments with respect to the Notes.

Selection and Notice

If less than all of the Notes are to be redeemed at any time, the Notes for redemption will be selected in accordance with the procedures of DTC, Euroclear and/or Clearstream, as applicable, or if DTC, Euroclear and/or Clearstream, as applicable, prescribe no method of selection, then the Issuer will instruct the Trustee or the relevant Registrar to select the Notes for redemption, in compliance with the requirements of the principal securities exchange, if any, on which the Notes are listed, as certified to the Trustee or the relevant Registrar or if the Notes are not so listed or such exchange prescribes no method of selection, then based on a method that most nearly approximates a *pro rata* selection or by lot; *provided*, *however*, that no Dollar Note of $200,000 in aggregate principal amount or less shall be redeemed in part and only Dollar Notes in integral multiples of $1,000 will be redeemed and no Euro Note of €100,000 in aggregate principal amount or less shall be redeemed in part and only Euro Notes in integral multiples of €1,000 will be redeemed. Neither the Trustee nor the Registrar will be liable for any selections made in accordance with this paragraph.

For so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange, not less than 30 nor more than 60 days prior to the redemption date, the Issuer will mail, if the Notes are in Definitive Certificated form, notice of redemption to Holders by first-class mail, postage prepaid, at their respective addresses as they appear on the registration books of the Registrar. If the Notes are in global form, notice of redemption will be delivered to DTC (in the case of Dollar Notes) or Euroclear and Clearstream (in the case of Euro Notes) for communication to entitled account holders. Such notice of redemption may also be posted on the official website of the Luxembourg Stock Exchange (*www.bourse.lu*), to the extent and in the manner permitted by the rules of the Luxembourg Stock Exchange.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note shall state the portion of the principal amount thereof to be redeemed. In the case of a Definitive Registered Note, a new Definitive Registered Note in principal amount equal to the unredeemed portion of any Definitive Registered Note redeemed in part will be issued in the name of the Holder thereof upon cancellation of the original Definitive Registered Note. In the case of a Global Note, an appropriate notation will be made on such Note to decrease the principal amount thereof to an amount equal to the unredeemed portion thereof. Subject to the terms of the applicable redemption notice, Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of Notes called for redemption.

Redemption for Changes in Withholding Taxes

The Issuer may redeem the Notes, in whole but not in part, at its discretion at any time upon giving not less than 30 nor more than 60 days' prior notice to the holders of the Notes (which notice will be irrevocable and given in accordance with the procedures described in "*—Selection and Notice*"), at a redemption price equal to 100% of the aggregate principal amount thereof, together with accrued and unpaid interest, if any, to the date fixed by the Issuer for redemption (a "*Tax Redemption Date*") and all Additional Amounts (if any) then due and which will become due on the Tax

Redemption Date as a result of the redemption or otherwise (subject to the right of holders of the Notes on the relevant record date to receive interest due on the relevant interest payment date and Additional Amounts (if any) in respect thereof), if on the next date on which any amount would be payable in respect of the Notes, the Issuer or any Guarantor is or would be required to pay Additional Amounts, and (a) the Issuer or the relevant Guarantor cannot avoid such requirement by taking reasonable measures available to it (including the designation of a different Paying Agent), (b) in the case of a Guarantor, such amounts cannot be paid by the Issuer or any other Guarantor who in turn can pay such amounts without the obligation to pay Additional Amounts and (c) the requirement arises as a result of:

(1) any amendment to, or change in, the laws or treaties (or any regulations or rulings promulgated thereunder) of a relevant Tax Jurisdiction (as defined in "*—Withholding Taxes*" below) which change or amendment is announced and becomes effective on or after the Issue Date (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the Issue Date, such later date); or

(2) any amendment to, or change in, an official written interpretation or application of such laws, treaties, regulations or rulings (including by virtue of a holding, judgment or order by a court of competent jurisdiction or a change in published administrative practice) which amendment or change is announced and becomes effective on or after the Issue Date (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the Issue Date, such later date).

The Issuer will not give any such notice of redemption earlier than 60 days prior to the earliest date on which the Issuer or the relevant Guarantor would be obligated to make such payment or withholding if a payment in respect of the Notes was then due, and the obligation to pay Additional Amounts must be in effect at the time such notice is given. Prior to the publication or, where relevant, mailing of any notice of redemption of the Notes pursuant to the foregoing, the Issuer will deliver to the Trustee an opinion of independent tax counsel to the effect that there has been such amendment or change which would entitle the Issuer to redeem the Notes hereunder. In addition, before the Issuer publishes or mails notice of redemption of the Notes as described above, it will deliver to the Trustee an Officer's Certificate to the effect that (a) it or the relevant Guarantor cannot avoid its obligation to pay Additional Amounts by the Issuer or the relevant Guarantor taking reasonable measures available to it and (b) in the case of a Guarantor, the amounts giving rise to such obligation cannot be paid by the Issuer or any other Guarantor without the obligation to pay Additional Amounts.

The Trustee will accept and shall be entitled to rely conclusively and without further inquiry on such Officer's Certificate and Opinion of Counsel as sufficient evidence of the existence and satisfaction of the conditions precedent as described above, in which event it will be conclusive and binding on the holders of the Notes.

For the avoidance of doubt, the implementation of European Council Directive 2003/48/EC or any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 on the taxation of savings income or any law implementing or complying with or introduced in order to conform to, such directive will not be a change or amendment for such purposes.

The foregoing will apply *mutatis mutandis* to any jurisdiction in which any successor Person to the Issuer is incorporated or organized, engaged in business or resident for tax purposes or any jurisdiction from or through which payment is made by or on behalf of such Person on the Notes and any political subdivision thereof or therein.

Withholding Taxes

All payments made under or with respect to the Notes or any Note Guarantee will be made free and clear of and without withholding or deduction for, or on account of, any present or future tax, duty, levy, assessment or other governmental charge, including any related interest, penalties or additions to tax ("*Taxes*") unless the withholding or deduction of such Taxes is then required by law or by the official interpretation or administration thereof. If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of (1) any jurisdiction in which the Issuer or any Guarantor is then incorporated or organized, engaged in business for tax purposes or resident for tax purposes or any political subdivision or governmental authority thereof or therein having power to tax or (2) any jurisdiction from or through which payment is made by or on behalf of the Issuer or any Guarantor (including, without limitation, the jurisdiction of any paying agent for the Notes) or any political subdivision thereof or therein (each, a "*Tax Jurisdiction*") will at any time be required to be made from any payments made under or with respect to the Notes or any Note Guarantee, including, without limitation, payments of principal, redemption price, interest or premium, the Issuer or the relevant Guarantor, as applicable, will pay such additional amounts (the "*Additional Amounts*") as may be necessary in order that the net amounts received in respect of such payments by each holder of the Notes after such withholding or deduction (including any such withholding or deduction from such Additional Amounts) will equal the respective amounts that would have been received in respect of such payments in the absence of such withholding or deduction; *provided*, *however*, that no Additional Amounts will be payable with respect to:

(1) any Taxes, to the extent such Taxes would not have been imposed but for the existence of any actual or deemed present or former connection between the holder (or between a fiduciary, settler, beneficiary, member or shareholder of, or possessor of a power over the relevant holder, if the relevant holder is an estate, nominee, trust, partnership, limited liability company or corporation) or the beneficial owner of the Notes and the relevant Tax Jurisdiction (including, without limitation, being or having been a citizen, resident, or national thereof or being or having been present or engaged in a trade or business therein or having or having had a permanent establishment therein), other than connections arising from the holding of such Note or any Note Guarantee, the enforcement of rights under such Note or under a Note Guarantee or the receipt of any payments in respect of such Note or a Note Guarantee;

(2) any Taxes, to the extent such Taxes were imposed as a result of the presentation of a Note for payment (where Notes are in the form of Definitive Registered Notes and presentation is required) more than 30 days after the relevant payment is first made available for payment to the holder (except to the extent that the holder would have been entitled to Additional Amounts had the Note been presented on the last day of such 30 day period);

(3) any estate, inheritance, gift, sales, transfer, personal property or similar Taxes or any excise Taxes imposed on transfers;

(4) any Taxes withheld, deducted or imposed on a payment to an individual that are required to be made pursuant to European Council Directive 2003/48/EC or any other directive implementing the conclusions of the ECOFIN Council meeting of November 26 and 27, 2000 on the taxation of savings income, or any law implementing or complying with or introduced in order to conform to, such directive;

(5) Taxes imposed on or with respect to a payment made to a holder or beneficial owner of Notes who would have been able to avoid such withholding or deduction by presenting the relevant Note to another Paying Agent in a member state of the European Union;

(6) any Taxes payable other than by deduction or withholding from payments under, or with respect to, the Notes or with respect to any Note Guarantee;

(7) any Taxes to the extent such Taxes are imposed or withheld by reason of the failure of the holder or beneficial owner of Notes to comply with any reasonable written request of the Issuer addressed to the holder or beneficial owner and made at least 60 days before any such withholding or deduction would be payable to satisfy any certification, identification, information or other reporting requirements, whether required by statute, treaty, regulation or administrative practice of the relevant Tax Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by such Tax Jurisdiction (including, without limitation, a certification that the holder or beneficial owner is not resident in the Tax Jurisdiction), but in each case, only to the extent the holder or beneficial owner is legally eligible to provide such certification or documentation;

(8) all United States federal backup withholding taxes;

(9) any Taxes that are imposed or withheld pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the "*Code*"), as of the Issue Date (or any amended or successor version of such sections), any regulations promulgated thereunder, any official interpretations thereof, any similar law or regulation adopted pursuant to an intergovernmental agreement between a non-U.S. jurisdiction and the United States with respect to the foregoing or any agreements entered into pursuant to section 1471(b)(1) of the Code; or

(10) any combination of items (1) through (9) above.

Such Additional Amounts will also not be payable where, had the beneficial owner of the Note been the holder of the Note, it would not have been entitled to payment of Additional Amounts by reason of any of clauses (1) to (10) inclusive above.

In addition to the foregoing, the Issuer and the Guarantors, as the case may be, will also pay and indemnify the holder for any present or future stamp, issue, registration, court or documentary Taxes, or any other excise or property Taxes, charges or similar levies (including penalties, interest and any other reasonable expenses related thereto) which are levied by any Tax Jurisdiction on the execution, delivery, issuance, or registration of any of the Notes, the Indenture, any Note Guarantee or any other document or instrument referred to therein, or the receipt of any payments with respect thereto, or the enforcement of, any of the Notes or any Note Guarantee (limited, solely in the case of taxes attributable to the receipt of any payments with respect thereto, to any such taxes imposed in a Tax Jurisdiction that are not excluded under clauses (1) through (5) or (7) through (9) above).

If the Issuer or any Guarantor, as the case may be, becomes aware that it will be obligated to pay Additional Amounts with respect to any payment under or with respect to the Notes or any Note Guarantee, each of the Issuer or the relevant Guarantor, as the case may be, will deliver to the Trustee on a date that is at least 30 days prior to the date of that payment (unless the obligation to pay Additional Amounts arises less than 30 days prior to that payment date, in which case the Issuer or the relevant Guarantor shall notify the Trustee promptly thereafter) an Officer's Certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The Officer's Certificate must also set forth any other information reasonably necessary to enable the Paying Agents to pay such Additional Amounts to holders on the relevant payment date. The Trustee shall be entitled to rely solely on such Officer's Certificate as conclusive proof that such payments are necessary.

The Issuer or the relevant Guarantor will make all withholdings and deductions required by law and will remit the full amount deducted or withheld to the relevant Tax authority in accordance with applicable law. The Issuer or the relevant Guarantor will use its reasonable efforts to obtain Tax receipts from each Tax authority evidencing the payment of any Taxes so deducted or withheld. The Issuer or the relevant Guarantor will furnish to the Trustee (or to a holder or beneficial owner upon written request), within a reasonable time after the date the payment of any Taxes so deducted or withheld is made, certified copies of Tax receipts evidencing payment by the Issuer or a Guarantor, as the case may be, or if, notwithstanding such entity's efforts to obtain receipts, receipts are not obtained, other evidence of payments (reasonably satisfactory to the Trustee) by such entity. Upon reasonable request, copies of Tax receipts or other evidence of payments, as the case may be, will be made available by the Trustee to the holders or beneficial owners of the Notes.

Whenever in the Indenture or in this "Description of Notes" there is mentioned, in any context, the payment of amounts based upon the principal amount of the Notes or of principal, interest or of any other amount payable under, or with respect to, any of the Notes or any Note Guarantee, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

The above obligations will survive any termination, defeasance or discharge of the Indenture, and any transfer by a holder or beneficial owner of its Notes, and will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to the Issuer or any Guarantor is incorporated or organized, engaged in business for tax purposes or resident for tax purposes (and any political subdivision or governmental authority thereof or therein having power to tax) and any jurisdiction from or through which payment is made by or on behalf of such Person on the Notes or any Note Guarantee and any political subdivision thereof or therein.

Change of Control

If a Change of Control occurs, subject to the terms of the covenant described under this heading "Change of Control", each Holder will have the right to require the Issuer to repurchase all or any part (equal to \$200,000 or an integral multiple of \$1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes) of such Holder's Notes at a purchase price in cash equal to 101% of the principal amount of the Notes, plus accrued and unpaid interest and Additional Amounts, if any, to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided, however, that the Issuer shall not be obliged to repurchase Notes as described under this heading, "Change of Control", in the event and to the extent that it has unconditionally exercised its right to redeem all of the Notes as described under "*—Optional Redemption*" or all conditions to such redemption have been satisfied or waived. No such purchase in part shall reduce the principal amount at maturity of the Dollar Notes held by any holder to below \$200,000 or the Euro Notes held by any holder to below €100,000.

Unless the Issuer has unconditionally exercised its right to redeem all the Notes as described under "*—Optional Redemption*" or all conditions to such redemption have been satisfied or waived, no later than the date that is 60 days after any Change of Control, or, at the Issuer's option, at any time prior to a Change of Control following the public announcement thereof or if a definitive agreement is in place for the Change of Control, the Issuer will send a notice (the "*Change of Control Offer*") to each Holder of any such Notes by mail or otherwise in accordance with the procedures set forth in the Indenture, with a copy to the Trustee:

(1) stating that a Change of Control has occurred or may occur and that such Holder has the right to require the Issuer to purchase all or any part of such Holder's Notes at a purchase price in cash equal to 101% of the principal amount of such Notes plus accrued and unpaid interest and Additional Amounts, if any, to, but not including, the date of purchase (subject to the right of Holders of record on a record date to receive interest on the relevant interest payment date) (the "*Change of Control Payment*");

(2) stating the repurchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed) (the "*Change of Control Payment Date*") and the record date;

(3) stating that any Note accepted for payment pursuant to the Change of Control Offer will cease to accrue interest after the Change of Control Payment Date unless the Change of Control Payment is not paid, and that any Notes or part thereof not tendered will continue to accrue interest;

(4) describing the circumstances and relevant facts regarding the transaction or transactions that constitute the Change of Control;

(5) describing the procedures determined by the Issuer, consistent with the Indenture, that a Holder must follow in order to have its Notes repurchased;

(6) if such notice is mailed prior to the occurrence of a Change of Control, stating that the Change of Control Offer is conditional on the occurrence of such Change of Control; and

(7) certain other procedures that a holder of Notes must follow to accept a Change of Control Offer or to withdraw such acceptance.

The Issuer shall cause to be published the notice described above in a leading newspaper having a general circulation in London (which is expected to be the *Financial Times*) or through the newswire service of Bloomberg (or if Bloomberg does not then operate, any similar agency). In addition, if and for so long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market and the rules of the Luxembourg Stock Exchange so require, the Issuer will publish a public announcement with respect to the results of any Change of Control Offer in a leading newspaper of general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) or, to the extent and in the manner permitted by such rules, post such notice on the official website of the Luxembourg Stock Exchange. The ability of the Issuer to repurchase Notes pursuant to a Change of Control Offer may be limited by a number of factors. See "*Risk Factors—Risks Relating to the Notes and the Structure—We may not be able to obtain enough funds necessary to finance an offer to repurchase the Notes upon the occurrence of certain events constituting a change of control (as defined in the Indenture) as required by the Indenture*".

On the Change of Control Payment Date, if the Change of Control shall have occurred, the Issuer will, to the extent lawful:

(1) accept for payment all Notes or portion thereof properly tendered pursuant to the Change of Control Offer;

(2) deposit with the relevant Paying Agent an amount equal to the Change of Control Payment in respect of all Notes so tendered;

(3) deliver or cause to be delivered to the Trustee an Officer's Certificate stating the aggregate principal amount of Notes or portions of the Notes being purchased by the Issuer in the Change of Control Offer;

(4) in the case of Global Notes, deliver, or cause to be delivered, to the Principal Paying Agent (in the case of Euro Notes) and the U.S. Paying Agent (in the case of Dollar Notes), the applicable Global Notes in order to reflect thereon the portion of such Notes or portions thereof that have been tendered to and purchased by the Issuer; and

(5) in the case of Definitive Registered Notes, deliver, or cause to be delivered, to the relevant Registrar for cancellation all Definitive Registered Notes accepted for purchase by the Issuer.

If any Definitive Registered Notes have been issued, the Paying Agents, at the Issuer's expense, will promptly mail to each Holder of Definitive Registered Notes so tendered the Change of Control Payment for such Notes, and the Trustee will promptly instruct its authenticating agent to authenticate and, at the Issuer's expense, mail (or cause to be transferred by book-entry) to each Holder of Definitive Registered Notes a new Definitive Registered Note equal in principal amount to the unpurchased portion of the Notes surrendered, if any; *provided* that each such new Note will be in a principal amount that is at least $200,000 and integral multiples of $1,000 in excess thereof, in the case of Dollar Notes, and € 100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes.

For so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of such exchange so require, the Issuer will publish a notice with respect to the results of the Change of Control Offer as soon as reasonably practicable after the Change of Control Payment Date on the official website of the Luxembourg Stock Exchange (*www.bourse.lu*).

The Change of Control provisions described above will be applicable whether or not any other provisions of the Indenture are applicable. Except as described above with respect to a Change of Control, the Indenture does not contain provisions that permit the Holders to require that the Issuer repurchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction. The existence of a Holder's right to require the Issuer to repurchase such Holder's Notes upon the occurrence of a Change of Control may deter a third party from seeking to acquire the Issuer or its Subsidiaries in a transaction that would constitute a Change of Control.

The Issuer will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuer and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

If Holders of not less than 90% in aggregate principal amount of the outstanding Notes of a series validly tender and do not withdraw such Notes in a Change of Control Offer and the Issuer, or any third party making a Change of Control Offer in lieu of the Issuer as described above, purchases all of the Notes of such series validly tendered and not withdrawn by such Holders, the Issuer or such third party will have the right, upon not less than 10 nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all Notes of such series that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest to but excluding the date of the delivery of the notice for such redemption.

The provisions of the Indenture do not afford holders of the Notes the right to require the Issuer to repurchase the Notes in the event of a highly leveraged transaction, certain transactions with the Issuer's management or its Affiliates or certain other sale transactions, including a reorganization, restructuring, merger or similar transaction (including, in certain circumstances, an acquisition of the Issuer by management or its Affiliates) involving the Issuer that may adversely affect holders of the Notes, if such transaction is not a transaction defined as a Change of Control.

The Issuer will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control provisions of the Indenture by virtue of the conflict.

The Issuer's ability to repurchase Notes issued by it pursuant to a Change of Control Offer may be limited by a number of factors. The occurrence of a Change of Control may require, to the extent it also constitutes a "change of control" under the financing arrangements of Numericable or certain Subsidiaries of Altice International, as applicable, (1) Numericable to make an offer to repurchase or repay all of the outstanding Numericable Notes and/or the Numericable Term Loans if such an event constitutes a change of control under the Numericable Notes Indentures and/or the Numericable Senior Credit Facility or (2) certain Restricted Subsidiaries of Altice International to repurchase some or all of the Existing Altice International Indebtedness if such an event constitutes a change of control thereunder. The Existing Senior Notes, the Existing Altice International Senior Notes and Existing Altice International Senior Secure Notes contain, Altice International New Notes and Altice Financing New Term Loans contain and future Indebtedness of the Issuer or the Restricted Subsidiaries may also contain prohibitions of certain events that would constitute a Change of Control or require such Indebtedness to be repurchased or repaid upon a Change of Control. Moreover, the exercise by the Holders of their right to require the Issuer to repurchase the Notes could cause a default under, or require a repurchase of, such Indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on the Issuer. Finally, the Issuer's ability to pay cash to the Holders upon a repurchase may be limited by the Issuer's and its Restricted Subsidiaries' then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases. See "*Risk Factors—Risks Relating to the Notes and the Structure—We may not be able to obtain enough funds necessary to finance an offer to repurchase the Notes upon the occurrence of certain events constituting a change of control (as defined in the Indenture) as required by the Indenture*".

The definition of "Change of Control" includes a direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of the property and assets of the Issuer and its Restricted Subsidiaries taken as a whole to a Person (including any "person" (as that term is used in Section 13(d)(3) of the Exchange Act)), other than a Permitted Holder. Although there is a limited body of case law interpreting the phrase "substantially all", there is no precise established definition of the phrase "substantially all" under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of "all or substantially all" of the property or assets of a Person. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder may require the Issuer to make an offer to repurchase the Notes as described above. However, subject to the conditions specified in sub-clause (3) of "*Certain Definitions—Change of Control*", a Change of Control shall be deemed not to have occurred as a result of the sale, lease, transfer, conveyance or other disposition in one or a series of related transactions of any assets of Altice International and its Subsidiaries or the Target and its Subsidiaries (including the Capital Stock of the Target or any Subsidiary of Altice International or the Target) that is required pursuant to

Competition Laws or is taken to avoid or eliminate any impediment under Competition Laws (including, without limitation, in response to any actions initiated by an administrative, regulatory or other governmental authority or private party under Competition Laws).

The provisions of the Indenture relating to the Issuer's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified with the written consent of holders of a majority in outstanding principal amount of the Notes.

Certain Covenants

Limitation on Indebtedness

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, Incur any Indebtedness (including Acquired Indebtedness); *provided*, *however*, that:

(1) Altice International and its Restricted Subsidiaries may Incur Indebtedness if on the date on which such Indebtedness is Incurred, the Consolidated Net Leverage Ratio of Altice International would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Indebtedness had been Incurred at the beginning of the relevant period;

(2) Numericable and its Restricted Subsidiaries may Incur Indebtedness if on the date on which such Indebtedness is Incurred, the Consolidated Net Leverage Ratio of Numericable would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Indebtedness had been Incurred at the beginning of the relevant period; *provided* that if such Indebtedness is Incurred prior to the occurrence of a Consolidation Event (other than any Indebtedness Incurred in connection with a Consolidation Event), the Proportionate Net Leverage Ratio would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Indebtedness had been Incurred at the beginning of the relevant period; and

(3) the Issuer and the Guarantors may Incur Pari Passu Indebtedness if on the date on which such Indebtedness is Incurred, the Consolidated Net Leverage Ratio of the Issuer would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Pari Passu Indebtedness had been incurred at the beginning of the relevant period, *provided* that:

   (a) on or prior to the 18-month anniversary of the Numericable Completion Date, if no default or Event of Default is outstanding (or would result therefrom), the Issuer and the Guarantors may Incur Pari Passu Indebtedness (the net cash proceeds of which are used to acquire ordinary shares of Numericable reasonably promptly after the date of Incurrence) if on the date on which such Indebtedness is Incurred, the Consolidated Net Leverage Ratio of the Issuer would have been no greater than 4.25 to 1.0 and the Altice S.A. Proportionate Net Leverage Ratio would have been no greater than 4.75 to 1.0, in each case, determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Pari Passu Indebtedness had been incurred at the beginning of the relevant period; and

   (b) if Altice France is Incurring Indebtedness pursuant to this clause (3) and such Indebtedness is Incurred prior to the occurrence of a Consolidation Event (other than any Indebtedness Incurred in connection with a Consolidation Event), the Proportionate Net Leverage Ratio would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Indebtedness had been Incurred at the beginning of the relevant period.

The first paragraph of this covenant will not prohibit the Incurrence of the following items of Indebtedness:

(1) (a) Indebtedness Incurred by Altice International and its Restricted Subsidiaries pursuant (i) to any Credit Facility (including in respect of letters of credit or bankers' acceptances issued or created thereunder), and any Refinancing Indebtedness in respect thereof, in a maximum aggregate principal amount at any time outstanding not to exceed the greater of €1,500 million and 80% of Consolidated EBITDA of Altice International;

(b) Indebtedness Incurred by Numericable and its Restricted Subsidiaries pursuant to any Credit Facility (including in respect of letters of credit or bankers' acceptances issued or created thereunder), and any Refinancing Indebtedness in respect thereof, in a maximum aggregate principal amount at any time outstanding not to exceed the greater of €2,500 million and 80% of Consolidated EBITDA of Numericable; and

(c) Indebtedness Incurred by the Issuer and the Guarantors pursuant to any Credit Facility (including in respect of letters of credit or bankers' acceptances issued or created thereunder), and any Refinancing Indebtedness in respect thereof, in a maximum aggregate principal amount at any time outstanding not to exceed €200 million;

plus in the case of any refinancing of any Indebtedness permitted under this clause (1) or any portion thereof, the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses Incurred in connection with such refinancing;

(2) (a) Guarantees by the Issuer or any Restricted Subsidiary of Indebtedness of the Issuer or any Restricted Subsidiary to the extent such guaranteed Indebtedness was permitted to be Incurred by another provision of this covenant; *provided* that (i) if such Indebtedness is subordinated in right of payment to, or *pari passu* in right of payment with, the Notes or a Note Guarantee, as applicable, then the Guarantee of such Indebtedness shall be subordinated in right of payment to, or *pari passu* in right of payment with, the Notes or such Note Guarantee, as applicable, substantially to the same extent as such guaranteed Indebtedness and (ii) if such guarantee is of Indebtedness of the Issuer or a Guarantor, such Restricted Subsidiary complies with the first paragraph of the covenant described under "*—Additional Guarantors*"; *provided, however*, none of Altice International or any of its Restricted Subsidiaries shall Guarantee any Indebtedness of Numericable or any of its Restricted Subsidiaries; or (b) without limiting the covenant described under "*—Limitation on Liens*", Indebtedness arising by reason of any Lien granted by or applicable to the Issuer or any Restricted Subsidiary securing Indebtedness of the Issuer or any Restricted Subsidiary so long as the Incurrence of such Indebtedness is not prohibited by the terms of the Indenture;

(3) Indebtedness of the Issuer owing to and held by any Restricted Subsidiary or Indebtedness of a Restricted Subsidiary owing to and held by the Issuer or any other Restricted Subsidiary (other than any Indebtedness of Altice International or any of its Restricted Subsidiaries owing to and held by Numericable or any of its Restricted Subsidiaries or any Indebtedness of Numericable or any of its Restricted Subsidiaries owing to and held by Altice International or any of its Restricted Subsidiaries); *provided*, *however*, that:

(a) if the Issuer or any Guarantor is the obligor on such Indebtedness and the payee is not the Issuer or a Guarantor, such Indebtedness must be unsecured and ((i) except in respect of the intercompany current liabilities Incurred in connection with cash management positions of the Issuer and the Restricted Subsidiaries and (ii) only to the extent legally permitted (the Issuer and the Restricted Subsidiaries having completed all procedures required in the reasonable judgment of directors or officers of the obligee or obligor to protect such Persons from any penalty or civil or criminal liability in connection with the subordination of such Indebtedness)) expressly subordinated to the prior payment in full in cash of all obligations then due with respect to the Notes, in the case of the Issuer, or the Note Guarantee, in the case of a Guarantor; *provided* that

(i) any subsequent issuance or transfer of Capital Stock or any other event which results in any such Indebtedness being beneficially held by a Person other than the Issuer or a Restricted Subsidiary; and

(ii) any sale or other transfer of any such Indebtedness to a Person other than the Issuer or a Restricted Subsidiary, shall be deemed, in each case, to constitute an Incurrence of such Indebtedness not permitted by this clause (3) by the Issuer or such Restricted Subsidiary, as the case may be;

(4) (a) (i) Indebtedness represented by the Notes (other than any Additional Notes) issued on the Issue Date and the Note Guarantees thereof, (ii) the Altice International New Notes issued on the Issue Date and the Guarantees of the Altice International New Notes by Restricted Subsidiaries of Altice International, and (iii) indebtedness under the Altice International New Senior Credit Facility incurred on or prior to the Completion Date (in an aggregate amount not to exceed € 841 million (equivalent as of the date of the Altice International New Senior Credit Facility)) and Guarantees thereof by Restricted Subsidiaries of Altice International;

(b) any Indebtedness (other than Indebtedness described in clauses (1) and (3) of this paragraph) outstanding on the Issue Date, after giving effect to the Transactions, the issuance of the Notes, the Altice International New Notes, the Incurrence of Indebtedness under the Altice International New Senior Credit Facility and the application of the proceeds of each of the foregoing (including after such proceeds are released from the Escrow Accounts and the Altice International Notes Escrow Accounts);

(c) Refinancing Indebtedness Incurred in exchange for, or the net proceeds of which are used to renew, refund, refinance, replace, defease or discharge any, or otherwise Incurred in respect of any, Indebtedness described in sub-clauses (a), (b) or (c) of this clause (4) or clause (5) of this paragraph or Incurred pursuant to the first paragraph of this covenant;

(d) Management Advances; and

(e) Indebtedness represented by the Altice International Notes Security Documents and the Security Documents and, including, with respect to each such Indebtedness "parallel debt" obligations created under the Intercreditor Agreement the Altice International Group Intercreditor Agreement, Altice International Notes Security Documents and the Security Documents;

(5) Indebtedness:

(a) (i) of any Person outstanding on the date on which such Person becomes a Restricted Subsidiary of Numericable or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) Numericable or any Restricted Subsidiary of Numericable or (ii) of Numericable or any Restricted Subsidiary of Numericable Incurred to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which a Person became a Restricted Subsidiary of Numericable or was otherwise acquired by Numericable or a Restricted Subsidiary of Numericable or otherwise in connection with or contemplation of such acquisition; *provided*, however, with respect to each of clause (5)(a)(i) and (5)(a)(ii), that immediately following consummation of such acquisition or other transaction (x) Numericable would have been able to Incur €1.00 of additional Indebtedness pursuant to sub-clause (2) of the first paragraph of this covenant after giving effect to the Incurrence of such Indebtedness pursuant to this clause (5)(a) or (y) neither the Consolidated Net Leverage Ratio of Numericable nor the Proportionate Net Leverage Ratio would be greater than it was immediately prior to giving effect to such acquisition or other transaction; and

(b) (i) of any Person outstanding on the date on which such Person becomes a Restricted Subsidiary of Altice International or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) Altice International or any Restricted Subsidiary of Altice International or (ii) of Altice International or any Restricted Subsidiary of Altice International Incurred to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which a Person became a Restricted Subsidiary of Altice International or was otherwise acquired by Altice International or a Restricted Subsidiary of Altice International or otherwise in connection with or contemplation of such acquisition; *provided*, however, with respect to each of clause (5)(b)(i) and (5)(b)(ii), that immediately following consummation of such acquisition or other transaction (x) Altice International would have been able to Incur €1.00 of additional Indebtedness pursuant to sub-clause (1) of the first paragraph of this covenant after giving effect to the Incurrence of such Indebtedness pursuant to this clause (5)(b) or (y) the Consolidated Net Leverage Ratio of Altice International would not be greater than it was immediately prior to giving effect to such acquisition or other transaction; and

(c) (i) of any Person outstanding on the date on which such Person becomes a Restricted Subsidiary of the Issuer (other than a Restricted Subsidiary of Altice International, Numericable or any of their Restricted Subsidiaries) or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) the Issuer or any Restricted Subsidiary (other than Altice International, Numericable or any of their Restricted Subsidiaries) or (ii) of the Issuer or any Restricted Subsidiary of the Issuer (other than Altice International, Numericable or any of their Restricted Subsidiaries) Incurred to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which a Person became a Restricted Subsidiary of the Issuer (other than a Restricted Subsidiary of Altice International, Numericable or any of their Restricted Subsidiaries) or was otherwise acquired by the Issuer or a Restricted Subsidiary (other than Altice International, Numericable or any of their Restricted Subsidiaries) or otherwise in connection with or contemplation of such acquisition; *provided*, however, with respect to each of clause (5)(c)(i) and (5)(c)(ii), that immediately following consummation of such acquisition or other transaction (x) the Issuer would have been able to Incur €1.00 of additional Indebtedness pursuant to sub-clause (3) of the first paragraph of this covenant after giving effect to the Incurrence of such Indebtedness pursuant to this clause (5)(c) or (y) the Consolidated Net Leverage Ratio of the Issuer would not be greater than it was immediately prior to giving effect to such acquisition or other transaction;

(6) [Reserved];

(7) (a) Indebtedness under Currency Agreements (other than Currency Agreements described in (b) below), Interest Rate Agreements and Commodity Hedging Agreements and (b) Indebtedness under Currency Agreements entered into in order to hedge any operating expenses and capital expenditures Incurred in the ordinary course of business so long as (i) such operating expenses and capital expenditures are denominated in euro or U.S. dollars and (ii) the term of any such Currency Agreement is not more than 360 days; in each case with respect to clauses (a) and (b) hereof, entered into for *bona fide* hedging purposes of the Issuer or the Restricted Subsidiaries and not for speculative purposes (as determined in good faith by an Officer or the Board of Directors of the Issuer, Altice International or Numericable, as applicable), in each case, other than any such Indebtedness under Currency Agreements, Interest Rate Agreements and Commodity Hedging Agreements of (x) Altice International or any of its Restricted Subsidiaries in respect of Indebtedness or other obligations of Numericable or any of its Restricted Subsidiaries or (y) Numericable or any of its Restricted Subsidiaries in respect of Indebtedness or other obligations of Altice International or any of its Restricted Subsidiaries;

(8) (a) Indebtedness Incurred by Altice International or any of its Restricted Subsidiaries consisting of (A) mortgage financings, Purchase Money Obligations or other financings Incurred for the purpose of financing all or any part of the purchase price or cost of design, construction, installation or improvement of property (real or personal), plant or equipment or other assets (including Capital Stock) used or useful in a Similar Business or (B) Indebtedness otherwise Incurred to finance the purchase, lease, rental or cost of design, construction, installation or improvement of property (real or personal), plant or equipment that is used or useful in a Similar Business, whether through the direct purchase of assets or the Capital Stock of any Person owning such assets, and any Indebtedness which refinances, replaces or refunds such Indebtedness, in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred pursuant to this clause (8)(i) and then outstanding, will not exceed at any time outstanding the greater of €350 million and 2.8% of Altice International Total Assets; and

(b) Indebtedness Incurred by Numericable or any of its Restricted Subsidiaries consisting of (A) mortgage financings, Purchase Money Obligations or other financings Incurred for the purpose of financing all or any part of the purchase price or cost of design, construction, installation or improvement of property (real or personal), plant or equipment or other assets (including Capital Stock) used or useful in a Similar Business or (B) Indebtedness otherwise Incurred to finance the purchase, lease, rental or cost of design, construction, installation or improvement of property (real or personal), plant or equipment that is used or useful in a Similar Business, whether through the direct purchase of assets or the Capital Stock of any Person owning such assets, and any Indebtedness which refinances, replaces or refunds such Indebtedness, in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred pursuant to this clause (8)(ii) and then outstanding, will not exceed at any time outstanding the greater of € 250 million and 2.8% of Numericable Total Assets;

(9) Indebtedness in respect of (a) workers' compensation claims, self-insurance obligations, performance, indemnity, surety, judgment, appeal, advance payment, customs, VAT or other tax or other guarantees or other similar bonds, instruments or obligations and completion guarantees and warranties provided by the Issuer or a Restricted Subsidiary or relating to liabilities, obligations or guarantees Incurred in the ordinary course of business or in respect of any governmental requirement, including in relation to a governmental requirement to provide a guarantee or bond, (b) letters of credit, bankers' acceptances, guarantees or other similar instruments or obligations issued or relating to liabilities or obligations Incurred in the ordinary course of business, *provided*, *however*, that upon the drawing of such letters of credit or other instrument, such obligations are reimbursed within 30 days following such drawing; (c) the financing of insurance premiums in the ordinary course of business; and (d) any customary cash management, cash pooling or netting or setting off arrangements in the ordinary course of business;

(10) Indebtedness arising from agreements providing for customary guarantees, indemnification, obligations in respect of earnouts or other adjustments of purchase price or, in each case, similar obligations, in each case, Incurred or assumed in connection with the acquisition or disposition of any business or assets or Person or any Capital Stock of a Subsidiary (other than Guarantees of Indebtedness Incurred by any Person acquiring or disposing of such business or assets or such Subsidiary for the purpose of financing such acquisition or disposition); *provided* that the maximum liability of the Issuer and the Restricted Subsidiaries in respect of all such Indebtedness in connection with such disposition shall at no time exceed the gross proceeds, including the fair market value of non-cash proceeds (measured at the time received and without giving effect to any subsequent changes in value), actually received by the Issuer and the Restricted Subsidiaries in connection with such disposition;

(11) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business; *provided*, *however*, that such Indebtedness is extinguished within 30 Business Days of Incurrence;

(12) Indebtedness under daylight borrowing facilities Incurred in connection with any refinancing of Indebtedness (including by way of set-off or exchange); *provided* that such Indebtedness does not exceed the principal amount of the Indebtedness being refinanced and the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses Incurred in connection with such refinancing, so long as any such Indebtedness is repaid within three days of the date on which such Indebtedness is Incurred;

(13) (a) Indebtedness Incurred by a Receivables Subsidiary of Altice International in a Qualified Receivables Financing of Altice International and its Restricted Subsidiaries; and (b) Indebtedness Incurred by a Receivables Subsidiary of Numericable in a Qualified Receivables Financing of Numericable and its Restricted Subsidiaries;

(14) Indebtedness Incurred by the Issuer or a Guarantor (including any Refinancing Indebtedness in respect thereof) or Disqualified Stock of the Issuer in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred pursuant to this clause (14) and then outstanding, will not exceed 100% of the Net Cash Proceeds received by the Issuer and the Restricted Subsidiaries from the issuance or sale (other than to the Issuer or a Restricted Subsidiary) of its Subordinated Shareholder Funding or Capital Stock (other than Disqualified Stock, Designated Preference Shares or an Excluded Contribution) or otherwise contributed to the equity (other than through the issuance of Disqualified Stock, Designated Preference Shares or an Excluded Contribution) of the Issuer, in each case, subsequent to the Issue Date; *provided*, *however*, that (i) any such Net Cash Proceeds that are so received or contributed shall be excluded for purposes of making Restricted Payments under clauses (1), (6) and (10) of the second paragraph of the covenant described below under "*—Certain Covenants—Limitation on Restricted Payments*" to the extent the Issuer or a Restricted Subsidiary Incurs Indebtedness in reliance thereon and (ii) any Net Cash Proceeds that are so received or contributed shall be excluded for purposes of Incurring Indebtedness pursuant to this clause (14) to the extent the Issuer or any Restricted Subsidiary makes a Restricted Payment under clauses (1), (6) and (10) of the second paragraph of the covenant described below under "*—Certain Covenants—Limitation on Restricted Payments*" in reliance thereon; and

(15) (a) Indebtedness Incurred by the Issuer and the Guarantors (including any Refinancing Indebtedness in respect thereof) in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred by the Issuer pursuant to this clause (15)(a) and then outstanding, will not exceed €100 million;

(b) Indebtedness Incurred by Altice International and its Restricted Subsidiaries (including any Refinancing Indebtedness in respect thereof) in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred by Altice International and its Restricted Subsidiaries pursuant to this clause (15)(b) and then outstanding, will not exceed the greater of €500 million and 4.0% of Altice International Total Assets; and

(c) Indebtedness Incurred by Numericable and its Restricted Subsidiaries (including any Refinancing Indebtedness in respect thereof) in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred by Numericable and its Restricted Subsidiaries pursuant to this clause (15)(c) and then outstanding, will not exceed the greater of €400 million and 4.0% of Numericable Total Assets.

For purposes of determining compliance with, and the outstanding principal amount of any particular Indebtedness Incurred pursuant to and in compliance with, this covenant:

(1) in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness described in the first and second paragraphs of this covenant, the Issuer, in its sole discretion, will classify, and may from time to time reclassify, such item of Indebtedness and only be required to include the amount and type of such Indebtedness in one of the clauses of the second paragraph or the first paragraph of this covenant; *provided* that:

(i) Indebtedness Incurred under clause (1) of the second paragraph of the description of this covenant cannot be reclassified;

(ii) Indebtedness outstanding on the Issue Date under the Existing Altice International RCFs will be deemed to be Incurred under clause (1)(a) of the second paragraph of the description of this covenant cannot be reclassified; and

(iii) Indebtedness permitted to be Incurred by Numericable and its Restricted Subsidiaries under this covenant cannot be reclassified to include Indebtedness of Altice International and its Restricted Subsidiaries and Indebtedness permitted to be Incurred by Altice International and its Restricted

Subsidiaries under this covenant cannot be reclassified to include Indebtedness of Numericable and its Restricted Subsidiaries.

(2) Guarantees of, or obligations in respect of letters of credit, bankers' acceptances or other similar instruments relating to, or Liens securing, Indebtedness that is otherwise included in the determination of a particular amount of Indebtedness shall not be included;

(3) if obligations in respect of letters of credit, bankers' acceptances or other similar instruments are Incurred pursuant to any Credit Facility and are being treated as Incurred pursuant to clause (1), (8), (14) or (15) of the second paragraph above or the first paragraph above and the letters of credit, bankers' acceptances or other similar instruments relate to other Indebtedness, then such other Indebtedness shall not be included;

(4) the principal amount of any Disqualified Stock of the Issuer or a Restricted Subsidiary, or Preferred Stock of the Issuer or a Restricted Subsidiary, will be equal to the greater of the maximum mandatory redemption or repurchase price (not including, in either case, any redemption or repurchase premium) or the liquidation preference thereof;

(5) Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness but may be permitted in part by one such provision and in part by one or more other provisions of this covenant permitting such Indebtedness; and

(6) the amount of Indebtedness issued at a price that is less than the principal amount thereof will be equal to the amount of the liability in respect thereof determined on the basis of IFRS.

Accrual of interest, accrual of dividends, the accretion of accreted value, the accretion or amortization of original issue discount, the payment of interest in the form of additional Indebtedness, the payment of dividends in the form of additional shares of Preferred Stock or Disqualified Stock or the reclassification of commitments or obligations not treated as Indebtedness due to a change in IFRS will not be deemed to be an Incurrence of Indebtedness for purposes of this covenant. The amount of any Indebtedness outstanding as of any date shall be (a) the accreted value thereof in the case of any Indebtedness issued with original issue discount and (b) the principal amount, or liquidation preference thereof, in the case of any other Indebtedness.

If at any time an Unrestricted Subsidiary becomes a Restricted Subsidiary, any Indebtedness of such Subsidiary shall be deemed to be Incurred by a Restricted Subsidiary as of such date (and, if such Indebtedness is not permitted to be Incurred as of such date under the covenant described under this "*—Limitation on Indebtedness*", the Issuer shall be in Default of this covenant).

For purposes of determining compliance with any euro-denominated restriction on the Incurrence of Indebtedness, the Euro Equivalent of the principal amount of Indebtedness denominated in another currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was Incurred, in the case of term Indebtedness, or at the option of the Issuer, first committed, in the case of Indebtedness Incurred under a revolving credit facility; *provided* that (a) if such Indebtedness is Incurred to refinance other Indebtedness denominated in a currency other than euro, and such refinancing would cause the applicable euro-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such euro-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced; (b) the Euro Equivalent of the principal amount of any such Indebtedness outstanding on the Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Issue Date; and (c) if any such Indebtedness that is denominated in a currency other than euro is subject to a Currency Agreement with respect to the currency in which such Indebtedness is denominated covering principal amount and interest payable on such Indebtedness, the amount of such Indebtedness, will be the Euro Equivalent of the principal payment required to be made under such Currency Agreement plus the Euro Equivalent of any premium which is at such time due and payable but is not covered by such Currency Agreement.

For purposes of determining compliance with the Consolidated Net Leverage Ratio on the Incurrence of Indebtedness, the Euro Equivalent of the principal amount of Indebtedness denominated in another currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was Incurred, in the case of term Indebtedness, or the date first committed, in the case of Indebtedness Incurred under a revolving credit facility; *provided* that (a) if such Indebtedness is Incurred to refinance other Indebtedness denominated in a currency other than euro, and such refinancing would cause the applicable euro-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such euro-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced; and (b) the Euro Equivalent of the principal amount of any such

Indebtedness outstanding on the Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Issue Date.

In addition, for purposes of calculating the Consolidated Net Leverage Ratio to test compliance with any covenant in the Indenture, in determining the amount of Indebtedness outstanding in euro on any date of determination, with respect to any Indebtedness denominated in a currency other than euro (the "Foreign Currency"):

(1) subject to a currency swap arrangement or contract, the aggregate principal amount of such Foreign Currency Indebtedness on any such date of determination shall be the euro amount of the aggregate principal amount to be paid by the Issuer or a Restricted Subsidiary (or, if the calculation relates to Altice International, Altice France or Numericable, by Altice International or any of its Restricted Subsidiaries, Altice France or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) on the maturity date of such currency swap arrangement or contract pursuant to the terms thereof; or

(2) subject to a currency forward arrangement, forward accretion curve or contract, the aggregate principal amount of such Foreign Currency Indebtedness shall be converted into euro at the exchange rate specified under the terms of such currency forward arrangement, forward accretion curve or contract as applicable to such Foreign Currency Indebtedness on such date of determination.

For the avoidance of doubt, notwithstanding a Group member entering into any such arrangement or contract hedging foreign exchange exposure of any Foreign Currency Indebtedness, for the purposes of calculating the Consolidated Net Leverage Ratio, the aggregate principal amount of Indebtedness subject to any such arrangement or contract shall be attributed to the total Indebtedness of the Person that originally Incurred such Indebtedness.

Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that the Issuer or a Restricted Subsidiary (or Altice International or any of its Restricted Subsidiaries, Altice France or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) may Incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in the exchange rate of currencies.

Limitation on Restricted Payments

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of or in respect of the Issuer's or any Restricted Subsidiary's Capital Stock (including, without limitation, any payment in connection with any merger or consolidation involving the Issuer or any Restricted Subsidiary) except:

  (a) dividends or distributions payable in Capital Stock of the Issuer (other than Disqualified Stock) or in options, warrants or other rights to purchase such Capital Stock of the Issuer (other than Disqualified Stock) or in Subordinated Shareholder Funding; and

  (b) dividends or distributions payable to the Issuer or a Restricted Subsidiary (and, in the case of any such Restricted Subsidiary making such dividend or distribution, to holders of its Capital Stock other than the Issuer or another Restricted Subsidiary on no more than a *pro rata* basis, measured by value);

(2) purchase, redeem, retire or otherwise acquire for value (including, without limitation, any payment in connection with any merger or consolidation involving the Issuer) any (a) Capital Stock of the Issuer or any direct or indirect Parent of the Issuer held by Persons other than the Issuer or a Restricted Subsidiary (other than in exchange for Capital Stock of the Issuer (other than Disqualified Stock)) or (b) Capital Stock of HOT (including the Minority Shareholder Call Option) held by any party to a Minority Shareholder Purchase Agreement (other than Cool);

(3) make any principal payment on, or purchase, repurchase, redeem, defease or otherwise acquire or retire for value, prior to scheduled maturity, scheduled repayment or scheduled sinking fund payment, any Subordinated Indebtedness (other than (a) any such payment, purchase, repurchase, redemption, defeasance or other acquisition or retirement or in anticipation of satisfying a sinking fund obligation, principal installment or final maturity, in each case, due within one year of the date of payment, purchase, repurchase, redemption, defeasance or other acquisition or retirement; and (b) any Indebtedness Incurred pursuant to clause (3) of the second paragraph of the covenant described under "*—Limitation on Indebtedness*");

(4) make any cash payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Subordinated Shareholder Funding; or

(5) make any Restricted Investment in any Person;

(any such dividend, distribution, payment, purchase, redemption, repurchase, defeasance, other acquisition, retirement or Restricted Investment referred to in clauses (1) through (5) are referred to herein as a "*Restricted Payment*").

The foregoing provisions will not prohibit any of the following (collectively, "Permitted Payments"):

(1) any Restricted Payment made in exchange (including any such exchange pursuant to the exercise of a conversion right or privilege in connection with which cash is paid in lieu of the issuance of fractional shares) for, or out of the Net Cash Proceeds of the substantially concurrent sale (other than to the Issuer or a Subsidiary of the Issuer) of, Capital Stock of the Issuer (other than Disqualified Stock or Designated Preference Shares or through an Excluded Contribution), Subordinated Shareholder Funding or a substantially concurrent contribution to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares or through an Excluded Contribution) of the Issuer; *provided*, *however*, that to the extent so applied, the Net Cash Proceeds, or fair market value (as determined in accordance with the last paragraph of this covenant) of property, assets or marketable securities, from such sale of Capital Stock or Subordinated Shareholder Funding or such contribution will be excluded for purposes of the "Optional Redemption" provisions of the Indenture;

(2) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Subordinated Indebtedness of the Issuer or any Guarantor made by exchange for, or out of the Net Cash Proceeds of the substantially concurrent Incurrence of, Refinancing Indebtedness permitted to be Incurred pursuant to the covenant described under "*—Limitation on Indebtedness*" above;

(3) (a) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Preferred Stock of the Issuer or a Restricted Subsidiary made by exchange for or out of the Net Cash Proceeds of the substantially concurrent sale of Preferred Stock of the Issuer or such Restricted Subsidiary, and (b) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Disqualified Stock of the Issuer or a Restricted Subsidiary made by exchange for or out of the Net Cash Proceeds of the substantially concurrent sale of Disqualified Stock of the Issuer or a Restricted Subsidiary, as the case may be, that, in each case under (a) and (b), is permitted to be Incurred pursuant to the covenant described under "*—Limitation on Indebtedness*" above, and that in each case (other than such sale of Preferred Stock of the Issuer that is not Disqualified Stock) constitutes Refinancing Indebtedness;

(4) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Subordinated Indebtedness:

   (a) (i) from Net Available Cash to the extent permitted under "*—Limitation on Sales of Assets and Subsidiary Stock*" below, but only if the Issuer shall have first complied with the terms described under "*—Limitation on Sales of Assets and Subsidiary Stock*" and purchased all Notes tendered pursuant to any offer to repurchase all the Notes required thereby, prior to purchasing, repurchasing, redeeming, defeasing or otherwise acquiring or retiring such Subordinated Indebtedness and (ii) at a purchase price not greater than 100% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest; or

   (b) to the extent required by the agreement governing such Subordinated Indebtedness, following the occurrence of a Change of Control (or other similar event described therein as a "change of control"), but only (i) if required, if the Issuer shall have first complied with the terms described under "Change of Control" and purchased all Notes tendered pursuant to the offer to repurchase all the Notes required thereby, prior to purchasing, repurchasing, redeeming, defeasing or otherwise acquiring or retiring such Subordinated Indebtedness and (ii) at a purchase price not greater than 101% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest; or

   (c) consisting of Acquired Indebtedness (other than Indebtedness Incurred (A) to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was otherwise acquired by the Issuer or a Restricted Subsidiary or (B) otherwise in connection with or contemplation of such acquisition) and at a purchase price not greater than 100% of the principal amount of such Acquired Indebtedness plus accrued and unpaid interest and any premium required by the terms of any Acquired Indebtedness;

(5) any dividends paid within 60 days after the date of declaration if at such date of declaration such dividend would have complied with this covenant;

(6) the purchase, repurchase, redemption, defeasance or other acquisition, cancellation or retirement for value of Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof) and loans, advances, dividends or distributions by the Issuer to any Parent to permit any Parent to purchase, repurchase, redeem, defease or otherwise acquire, cancel or retire for value Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof), or payments to purchase, repurchase, redeem, defease or otherwise acquire, cancel or retire for value Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof), in each case from Management Investors; *provided* that such payments, loans, advances, dividends or distributions do not exceed an amount (net of repayments of any such loans or advances) equal to (1) €20 million in any calendar year (with unused amounts in any calendar year being carried over to the succeeding calendar years; *provided* that the aggregate Restricted Payments made under this clause (6) do not exceed €30 million in any fiscal year), *plus* (2) the Net Cash Proceeds received by the Issuer or the Restricted Subsidiaries since the Issue Date (including through receipt of proceeds from the issuance or sale of its Capital Stock or Subordinated Shareholder Funding to a Parent) from, or as a contribution to the equity (in each case under this clause (6), other than through the issuance of Disqualified Stock or Designated Preference Shares) of the Issuer from, the issuance or sale to Management Investors of Capital Stock (including any options, warrants or other rights in respect thereof);

(7) the declaration and payment of dividends to holders of any class or series of Disqualified Stock, or of any Preferred Stock of a Restricted Subsidiary, Incurred in accordance with the terms of the covenant described under "*—Limitation on Indebtedness*" above;

(8) purchases, repurchases, redemptions, defeasances or other acquisitions or retirements of Capital Stock deemed to occur upon the exercise of stock options, warrants or other rights in respect thereof if such Capital Stock represents a portion of the exercise price thereof;

(9) dividends, loans, advances or distributions to any Parent or other payments by the Issuer or any Restricted Subsidiary in amounts equal to (without duplication) the amounts required for any Parent to pay:

   (a) any Parent Expenses or any Related Taxes; and

   (b) amounts constituting or to be used for purposes of making payments to the extent specified in clauses (2) (with respect to fees and expenses Incurred in connection with the transactions described therein), (5) and (11) of the second paragraph under "*—Limitation on Affiliate Transactions;*"

(10) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), and for so long as the Issuer is a Public Company, the declaration and payment by the Issuer of, or loans, advances, dividends or distributions to any Parent to pay, dividends on the common stock or common equity interests of the Issuer or any Parent, in an amount not to exceed in any fiscal year the greater of (a) 6% of the Net Cash Proceeds received by the Issuer from a Public Offering (other than the Initial Public Offering) or contributed to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares or through an Excluded Contribution) of the Issuer or contributed as Subordinated Shareholder Funding to the Issuer, in each case, after May 8, 2014 and (b) an amount equal to the greater of (i) 5% of the Market Capitalization and (ii) 5% of the IPO Market Capitalization; *provided* that after giving *pro forma* effect to such loans, advances, dividends or distributions, the Consolidated Net Leverage Ratio of the Issuer shall be equal to or less than 4.0 to 1.0; *provided*, *further*, that if such Public Offering was of Capital Stock of a Parent, the net proceeds of any such dividend are used to fund a corresponding dividend in equal or greater amount on the Capital Stock of such Parent;

(11) payments by the Issuer, or loans, advances, dividends or distributions to any Parent to make payments, to holders of Capital Stock of the Issuer or any Parent in lieu of the issuance of fractional shares of such Capital Stock; *provided*, *however*, that any such payment, loan, advance, dividend or distribution shall not be for the purpose of evading any limitation of this covenant or otherwise to facilitate any dividend or other return of capital to the holders of such Capital Stock (as determined in good faith by an Officer or the Board of Directors of the Issuer);

(12) Restricted Payments in an aggregate amount outstanding at any time not to exceed the aggregate cash amount of Excluded Contributions, or consisting of non-cash Excluded Contributions, or Investments in exchange for or using as consideration Investments previously made under this clause (12);

(13) payment of any Receivables Fees and purchases of Receivables Assets pursuant to a Receivables Repurchase Obligation in connection with a Qualified Receivables Financing;

(14) dividends or other distributions of Capital Stock, Indebtedness or other securities of Unrestricted Subsidiaries;

(15) the declaration and payment of dividends to holders of any class or series of Designated Preference Shares of the Issuer issued after the Issue Date; *provided*, *however*, that the amount of all dividends declared or paid by the Issuer pursuant to this clause (15) shall not exceed the Net Cash Proceeds received by the Issuer from the issuance or sale of such Designated Preference Shares;

(16) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), any Restricted Payment to the extent that, after giving *pro forma* effect to any such Restricted Payment, the Consolidated Net Leverage Ratio of the Issuer would be no greater than 4.0 to 1.0; and

(17) so long as no Default or Event of Default has occurred and is continuing (or would result from), Restricted Payments in an aggregate amount outstanding at any time not to exceed €50 million.

For purposes of determining compliance with this covenant, in the event that a Restricted Payment meets the criteria of more than one of the categories described in clauses (1) through (17) above, the Issuer will be entitled to classify such Restricted Payment (or portion thereof) on the date of its payment or later reclassify such Restricted Payment (or portion thereof) in any manner that complies with this covenant.

The amount of all Restricted Payments (other than cash) shall be the fair market value on the date of such Restricted Payment of the asset(s) or securities proposed to be paid, transferred or issued by the Issuer or such Restricted Subsidiary, as the case may be, pursuant to such Restricted Payment. The fair market value of any cash Restricted Payment shall be its face amount, and the fair market value of any non-cash Restricted Payment or any other property, assets or securities required to be valued by this covenant shall be determined conclusively by an Officer or the Board of Directors of the Issuer acting in good faith.

Limitation on Liens

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, Incur or suffer to exist any Lien upon any of their property or assets (including Capital Stock of a Restricted Subsidiary), whether owned on the Issue Date or acquired after that date, or any interest therein or any income or profits therefrom, which Lien is securing any Indebtedness (such Lien, the "*Initial Lien*"), except (a) in the case of any property or asset that does not constitute Notes Collateral, (i) Permitted Liens or (ii) Liens on assets that are not Permitted Liens if the Notes and the Indenture (or a Note Guarantee in the case of Liens of a Guarantor) are directly secured equally and ratably with, or prior to, in the case of Liens with respect to Subordinated Indebtedness, the Indebtedness secured by such Initial Lien for so long as such Indebtedness is so secured and (b) in the case of any property or assets that constitutes Notes Collateral, Permitted Collateral Liens.

Any such Lien created in favor of the Notes pursuant to clause (a)(ii) of the preceding paragraph will be automatically and unconditionally released and discharged upon (i) the release and discharge of the Initial Lien to which it relates, and (ii) otherwise as set forth under "*—Notes Security—Release of Notes Collateral*."

No Layering of Debt

The Issuer will not Incur any Indebtedness (including any Indebtedness permitted to be Incurred pursuant to the second paragraph of the covenant described under "*—Limitation on Indebtedness*") that is contractually subordinated in right of payment to any other Indebtedness of the Issuer unless such Indebtedness is also contractually subordinated in right of payment to the Notes on substantially identical terms (as determined in good faith by the Issuer); *provided*, however, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Issuer solely by virtue of being unsecured, by virtue of being secured with different collateral or by virtue of being secured on a junior priority basis or by virtue of the application of waterfall or other payment ordering provisions affecting different tranches of Indebtedness under Credit Facilities.

At all times, each of Altice International and Altice France shall be a direct Subsidiary of the Issuer and Numericable shall be a direct Subsidiary of Altice France.

No Guarantor will Incur any Indebtedness (including any Indebtedness permitted to be Incurred pursuant to the second paragraph of the covenant described under "*—Limitation on Indebtedness*") that is contractually subordinated in right of payment to any Indebtedness of such Guarantor unless such Indebtedness is also contractually subordinated in right of payment to such Guarantor's Note Guarantee on substantially identical terms (as determined in good faith by the Issuer); provided, however, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of any Guarantor solely by virtue of being unsecured, by virtue of being secured with different collateral, by virtue of being secured on a junior priority basis or by virtue of the application of waterfall or other payment-ordering provisions affecting different tranches of Indebtedness under Credit Facilities.

The Issuer will not permit Altice France to Incur any Indebtedness other than (i) Guarantees of Indebtedness of the Issuer Incurred pursuant to the covenant described under "—*Limitation on Indebtedness*" and (ii) Indebtedness Incurred pursuant to clause (3) of the first paragraph and clauses (3),(4)(a),(4)(c)(other than in respect of Refinancing Indebtedness that refinances Indebtedness of Altice International, Numericable or any of their Restricted Subsidiaries), (4)(e), (5)(c), (9), (10), (11), (12), (14) and (15)(a) of the second paragraph of the covenant described under "—*Limitation on Indebtedness*".

Minimum Holdings

The Issuer shall at all times own directly (i) at least 75% of each class of Capital Stock of Altice International and (ii) 100% of each class of Capital Stock of Altice France. Altice France shall at all times own directly at least 50.1% of each class of Capital Stock of Numericable.

Limitation on Restrictions on Distributions from Restricted Subsidiaries

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, create or otherwise cause or permit to exist or become effective any consensual encumbrance or consensual restriction on the ability of any Restricted Subsidiary to:

(A) pay dividends or make any other distributions in cash or otherwise on its Capital Stock to the Issuer or any Restricted Subsidiary or pay any Indebtedness or other obligations owed to the Issuer or any Restricted Subsidiary;

(B) make any loans or advances to the Issuer or any Restricted Subsidiary; or

(C) sell, lease or transfer any of its property or assets to the Issuer or any Restricted Subsidiary,

provided that (x) the priority of any Preferred Stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock and (y) the subordination of (including the application of any standstill requirements to) loans or advances made to the Issuer or any Restricted Subsidiary to other Indebtedness Incurred by the Issuer or any Restricted Subsidiary shall not be deemed to constitute such an encumbrance or restriction.

The provisions of the preceding paragraph will not prohibit:

(1) any encumbrance or restriction pursuant to any Credit Facility or any other agreement or instrument, in each case, in effect at or entered into on the Issue Date (other than the Minority Shareholder Purchase Agreements), and any amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings of such agreements; *provided* that the amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings are not materially more restrictive, taken as a whole, with respect to such dividend and other payment restrictions than those contained in those agreements on the Issue Date (as determined in good faith by the Issuer);

(2) the Minority Shareholder Purchase Agreements as in effect on December 12, 2012;

(3) encumbrances or restrictions existing under or by reason of the Indenture, the Notes, the Note Guarantees, the Existing Senior Notes Indenture, the Existing Senior Notes and the Guarantees thereof, the Numericable Notes Indentures, the Numericable Notes and the Guarantees thereof, the Numericable Senior Credit Facility, Numericable RCF, the Altice Credit Facility, the Existing Altice International Indebtedness and the Guarantees thereof, the Altice International New Indentures, the Altice International New Notes and the Guarantees thereof, the Altice International New Senior Credit Facility, the Altice International New RCFs, the Intercreditor Agreement, any Additional Intercreditor Agreement, the Numericable Group Intercreditor Agreement (or any additional intercreditor agreement on substantially the same terms as the Numericable Group Intercreditor Agreement), the Existing Altice International Intercreditor Agreements (or any additional intercreditor agreement on substantially the same terms as the applicable Existing Altice International Intercreditor Agreements), the Escrow Agreement, the Altice International Notes Escrow Agreements, the Security Documents, the Altice International New Security Documents, the Existing Altice International Security Documents and the Numericable Notes Security Documents.

(4) any encumbrance or restriction pursuant to an agreement or instrument of a Person or relating to any Capital Stock or Indebtedness of a Person, entered into on or before the date on which (i) such Person was acquired by

or merged, consolidated or otherwise combined with or into the Issuer or any Restricted Subsidiary, (ii) such agreement or instrument is assumed by the Issuer or any Restricted Subsidiary in connection with an acquisition of assets or (iii) such Person became a Restricted Subsidiary (in each case, other than Capital Stock or Indebtedness Incurred as consideration in, or to provide all or any portion of the funds utilized to consummate, the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was acquired by the Issuer or was merged, consolidated or otherwise combined with or into the Issuer or any Restricted Subsidiary) and outstanding on such date; *provided* that, for the purposes of this clause (4), if another Person is the Successor Company (as defined under "—*Merger and Consolidation*"), or any Subsidiary thereof, any agreement or instrument of such Person or any such Subsidiary shall be deemed acquired or assumed by the Issuer or any Restricted Subsidiary when such Person becomes the Successor Company;

(5) any encumbrance or restriction pursuant to an agreement or instrument effecting a refunding, replacement or refinancing of Indebtedness Incurred pursuant to, or that otherwise extends, renews, refunds, refinances or replaces, an agreement or instrument referred to in clause (1), (3) or (4) of this paragraph or this clause (5) (an "*Initial Agreement*") or contained in any amendment, supplement or other modification to an agreement referred to in clause (1), (3) or (4) of this paragraph or this clause (5); *provided*, *however*, that the encumbrances and restrictions with respect to such Restricted Subsidiary contained in any such agreement or instrument are no less favorable in any material respect to the Holders taken as a whole than the encumbrances and restrictions contained in the Initial Agreement or Initial Agreements to which such refinancing or amendment, supplement or other modification relates (as determined in good faith by the Issuer);

(6) any encumbrance or restriction:

(a) that restricts in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease, license or similar contract, or the assignment or transfer of any lease, license or other contract;

(b) contained in mortgages, pledges or other security agreements permitted under the Indenture or securing Indebtedness of the Issuer or a Restricted Subsidiary permitted under the Indenture to the extent such encumbrances or restrictions restrict the transfer of the property or assets subject to such mortgages, pledges or other security agreements;

(c) pursuant to customary provisions restricting dispositions of real property interests set forth in any reciprocal easement agreements of the Issuer or any Restricted Subsidiary; or

(d) pursuant to the terms of any license, authorization, concession or permit;

(7) any encumbrance or restriction pursuant to Purchase Money Obligations and Capitalized Lease Obligations permitted under the Indenture, in each case, that impose encumbrances or restrictions on the property so acquired or any encumbrance or restriction pursuant to a joint venture agreement that imposes restrictions on the transfer of the assets of the joint venture;

(8) any encumbrance or restriction with respect to a Restricted Subsidiary (or any of its property or assets) imposed pursuant to an agreement entered into for the direct or indirect sale or disposition to a Person of all or substantially all the Capital Stock or assets of such Restricted Subsidiary (or the property or assets that are subject to such restriction) pending the closing of such sale or disposition;

(9) customary provisions in leases, licenses, joint venture agreements and other similar agreements and instruments entered into in the ordinary course of business;

(10) encumbrances or restrictions arising or existing by reason of applicable law or any applicable rule, regulation, governmental license or order, or required by any regulatory authority or stock exchange;

(11) any encumbrance or restriction on cash or other deposits or net worth imposed by customers under agreements entered into in the ordinary course of business;

(12) any encumbrance or restriction pursuant to Currency Agreements, Interest Rate Agreements or Commodity Hedging Agreements;

(13) any encumbrance or restriction arising pursuant to an agreement or instrument relating to any Indebtedness permitted to be Incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under "—*Limitation on Indebtedness*" if the encumbrances and restrictions contained in any such agreement or instrument taken as a whole are not materially less favorable to the Holders of the Notes than (i) the

encumbrances and restrictions contained in the Numericable Senior Credit Facility, the Existing Altice International Senior Credit Facility, the Altice International New Senior Credit Facility, the Existing Altice International RCFs, the Altice International New RCFs or the Altice Credit Facility on the Issue Date, together with the security documents associated therewith, if any, and the Intercreditor Agreement, the Numericable Group Intercreditor Agreement or the Existing Altice International Intercreditor Agreements as in effect on or immediately prior to the Issue Date or (ii) is customary in comparable financings (as determined in good faith by the Issuer) and where, in the case of clause (ii), the Issuer determines at the time of issuance of such Indebtedness that such encumbrances or restrictions (x) will not adversely affect, in any material respect, the Issuer's ability to make principal or interest payments on the Notes as and when they become due or (y) such encumbrances and restrictions apply only if a default occurs in respect of a payment or financial covenant relating to such Indebtedness;

(14) restrictions effected in connection with a Qualified Receivables Financing that, in the good faith determination of an Officer or the Board of Directors of the Issuer, are necessary or advisable to effect such Qualified Receivables Financing;

(15) any encumbrance or restriction existing by reason of any Lien permitted under "—*Limitation on Liens*"; or

(16) any encumbrance or restriction applicable to Numericable and/or its Subsidiaries approved by a majority of the members of the Board of Directors of Numericable in good faith; *provided* that the members of the Board of Directors of Numericable appointed by Altice France shall not vote in favor of the imposition of any such encumbrance of restriction unless such action would conflict with the fiduciary duties of such directors, contravene any legal prohibition or have the potential to result in a risk of personal or criminal liability on the part of any such director.

Limitation on Sales of Assets and Subsidiary Stock

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, make any Asset Disposition unless:

(1) the Issuer or such Restricted Subsidiary, as the case may be, receives consideration (including by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise) at least equal to the fair market value (such fair market value to be determined on the date of contractually agreeing to such Asset Disposition), as determined in good faith by an Officer or the Board of Directors of the Issuer, of the shares and assets subject to such Asset Disposition (including, for the avoidance of doubt, if such Asset Disposition is a Permitted Asset Swap); and

(2) in any such Asset Disposition, or series of related Asset Dispositions (except to the extent the Asset Disposition is a Permitted Asset Swap), at least 75% of the consideration from such Asset Disposition or such series of related Asset Dispositions (excluding any consideration by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise, other than Indebtedness) received by the Issuer or such Restricted Subsidiary, as the case may be, is in the form of cash, Cash Equivalents or Temporary Cash Investments.

After the receipt of Net Available Cash from an Asset Disposition (other than any Asset Disposition of Capital Stock of Altice International), the Issuer or a Restricted Subsidiary, as the case may be, may apply such Net Available Cash directly or indirectly (at the option of the Issuer or such Restricted Subsidiary):

(a) within 395 days from the later of (A) the date of such Asset Disposition and (B) the receipt of such Net Available Cash (i) to prepay, repay, purchase or redeem any Pari Passu Indebtedness of the Issuer or a Guarantor that is secured in whole or in part by a Lien on the Notes Collateral, which Lien ranks *pari passu* with the Liens securing the Notes, at a price of no more than 100% of the principal amount of such Pari Passu Indebtedness plus accrued and unpaid interest to the date of such prepayment, repayment, purchase or redemption; *provided* that the Issuer or such Guarantor shall prepay, redeem, repay or repurchase Pari Passu Indebtedness that is Public Debt pursuant to this clause (i) only if the Issuer or such Guarantor makes an offer to the holders of the Notes to purchase their Notes in accordance with the provisions set forth below for an Asset Disposition Offer for an aggregate principal amount of Notes at least equal to the proportion that (x) the total aggregate principal amount of Notes outstanding bears to (y) the sum of the total aggregate principal amount of Notes outstanding plus the total aggregate principal amount outstanding of such Pari Passu Indebtedness; (ii) to prepay, repay, purchase or redeem (x) any Indebtedness of a Restricted Subsidiary that is not a Guarantor; *provided* that at the time of any such prepayment, repayment, purchase or redemption, the Issuer owns, directly or indirectly, at least 75% of each class of Capital Stock of such Restricted Subsidiary or (y) any Indebtedness of the Issuer or a Guarantor that is secured on assets which do not constitute Notes Collateral (in each case, other than Subordinated Indebtedness of the Issuer or a Guarantor or Indebtedness owed to the Issuer or any

Restricted Subsidiary); *provided further* that if such Asset Disposition relates to assets owned by Altice International and its Restricted Subsidiaries, such Indebtedness being prepaid, repaid, purchased or redeemed shall be Indebtedness of Altice International and its Restricted Subsidiaries and if such Asset Disposition relates to assets owned by Numericable and its Restricted Subsidiaries, such Indebtedness being prepaid, repaid, purchased or redeemed shall be Indebtedness of Numericable and its Restricted Subsidiaries; (iii) to purchase the Notes pursuant to an offer to all holders of Notes at a purchase price in cash equal to at least 100% of the principal amount of the Notes, plus accrued and unpaid interest to, but not including, the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date) or (iv) in the manner specified under sub-clause (3) of "*Certain Definitions—Change of Control*";

(b) to the extent the Issuer or such Restricted Subsidiary elects, to invest in or purchase or commit to invest in or purchase Additional Assets (including by means of an investment in Additional Assets by a Restricted Subsidiary with Net Available Cash received by the Issuer or another Restricted Subsidiary) within 395 days from the later of (i) the date of such Asset Disposition and (ii) the receipt of such Net Available Cash; *provided*, *however*, that any such reinvestment in Additional Assets made pursuant to a definitive binding agreement or a commitment approved by the Board of Directors of the Issuer, Altice International or Numericable, as applicable, that is executed or approved within such time will satisfy this requirement, so long as such investment or commitment to invest is consummated within 180 days of such 395th day; *provided further* that if such Asset Disposition relates to assets owned by Altice International and its Restricted Subsidiaries, such investment in or purchase or commitment to invest in or purchase Additional Assets, shall be made by Altice International and its Restricted Subsidiaries and if such Asset Disposition relates to assets owned by Numericable and its Restricted Subsidiaries, such investment in or purchase or commitment to invest in or purchase Additional Assets, shall be made by Numericable and its Restricted Subsidiaries;

(c) to make a capital expenditure within 395 days from the later of (A) the date of such Asset Disposition and (B) the receipt of such Net Available Cash; *provided*, *however*, that any such capital expenditure made pursuant to a definitive binding agreement or a commitment approved by the Board of Directors of the Issuer, Altice International or Numericable, as applicable, that is executed or approved within such time will satisfy this requirement, so long as such investment is consummated within 180 days of such 395th day; *provided further* that if such Asset Disposition relates to assets owned by Altice International and its Restricted Subsidiaries, such capital expenditure shall be made by Altice International and its Restricted Subsidiaries and if such Asset Disposition relates to assets owned by Numericable and its Restricted Subsidiaries, such capital expenditure shall be made by Numericable and its Restricted Subsidiaries; or

(d) any combination of the foregoing,

provided that, pending the final application of any such Net Available Cash in accordance with clause (a), (b), (c) or (d) above, the Issuer and the Restricted Subsidiaries may temporarily reduce Indebtedness or otherwise invest such Net Available Cash in any manner not prohibited by the Indenture.

After the receipt of any Net Cash Proceeds from an Asset Disposition of any Capital Stock of Altice International, the Issuer or a Restricted Subsidiary, as the case may be, shall apply such Net Cash Proceeds directly or indirectly within 30 days from the later of (A) the date of such Asset Disposition and (B) the receipt of such Net Cash Proceeds to make an offer (an "*Altice International Share Disposition Offer*") to all holders of Notes to purchase the maximum principal amount of Notes to which the Altice International Disposition Offer applies that may be purchased out of such Net Cash Proceeds, at an offer price in respect of the Notes in an amount equal to 100% of the principal amount of the Notes plus accrued and unpaid interest, if any, to, but not including, the date of purchase, in accordance with the procedures set forth in the Indenture in minimum denominations of $200,000 and in integral multiples of $1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes.

Any Net Available Cash from Asset Dispositions that is not applied or invested or committed to be applied or invested as provided in the second paragraph of this covenant will be deemed to constitute "Excess Proceeds". On the 396th day (or the 576th day, in the case of any Net Available Cash committed to be used pursuant to a definitive binding agreement or commitment approved by the Board of Directors of the Issuer, Altice International or Numericable (as applicable) pursuant to clauses (b) or (c) of the second paragraph of this covenant) after the later of (A) the date of such Asset Disposition and (B) the receipt of such Net Available Cash, if the aggregate amount of Excess Proceeds exceeds €50 million, the Issuer will be required within ten (10) Business Days thereof to make an offer (an "Asset Disposition Offer") to all holders of Notes and, to the extent the Issuer elects or the Issuer or a Guarantor is required by the terms of other outstanding Pari Passu Indebtedness, to all holders of such other outstanding Pari Passu Indebtedness to purchase the maximum principal amount of Notes and any such Pari Passu Indebtedness to which the Asset Disposition Offer applies that may be purchased out of the Excess Proceeds, at an offer price in respect of the Notes in an amount equal to (and, in the case of any Pari Passu Indebtedness, an offer price of no more than) 100% of the principal amount of the Notes and 100% of the principal amount of Pari Passu Indebtedness, in each case, plus accrued and unpaid interest, if any, to, but not including, the date of purchase, in accordance with the procedures set forth in the Indenture or the agreements governing the Pari Passu Indebtedness, as applicable, and in the case of the Notes, in minimum denominations of $200,000 and in integral multiples of $1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes.

To the extent that the aggregate amount of Notes and Pari Passu Indebtedness so validly tendered and not properly withdrawn pursuant to an Asset Disposition Offer is less than the Excess Proceeds, the Issuer and the Restricted Subsidiaries may use any remaining Excess Proceeds for general corporate purposes, to the extent not prohibited by the other covenants contained in the Indenture. If the aggregate principal amount of the Notes surrendered in any Asset Disposition Offer by Holders and other Pari Passu Indebtedness surrendered by holders or lenders, collectively, exceeds the amount of Excess Proceeds, the Excess Proceeds shall be allocated among the Notes and Pari Passu Indebtedness to be purchased on a *pro rata* basis on the basis of the aggregate principal amount of tendered Notes and Pari Passu Indebtedness. For the purposes of calculating the principal amount of any such Indebtedness not denominated in euro, such Indebtedness shall be calculated by converting any such principal amounts into their Euro Equivalent determined as of a date selected by the Issuer that is within the Asset Disposition Offer Period (as defined below). Upon completion of any Asset Disposition Offer, the amount of Excess Proceeds shall be reset at zero.

To the extent that the aggregate amount of Notes so validly tendered and not properly withdrawn pursuant to an Altice International Share Disposition Offer is less than the Net Cash Proceeds for the Asset Disposition of Capital Stock of Altice International, the Issuer and the Restricted Subsidiaries may use any remaining Net Cash Proceeds for general corporate purposes, to the extent not prohibited by the other covenants contained in the Indenture. If the aggregate principal amount of the Notes surrendered in any Altice International Share Disposition Offer by Holders exceeds the amount of such Net Cash Proceeds, the Net Cash Proceeds shall be allocated among the Notes to be purchased on a *pro rata* basis on the basis of the aggregate principal amount of tendered Notes. For the purposes of calculating the principal amount of any such Indebtedness not denominated in euro, such Indebtedness shall be calculated by converting any such principal amounts into their Euro Equivalent determined as of a date selected by the Issuer that is within the Asset Disposition Offer Period.

To the extent that any portion of Net Available Cash or Net Cash Proceeds payable in respect of the Notes is denominated in a currency other than the currency in which the relevant Notes are denominated, the amount thereof payable in respect of such Notes shall not exceed the net amount of funds in the currency in which such Notes are denominated that is actually received by the Issuer upon converting such portion of the Net Available Cash or Net Cash Proceeds, as applicable, into such currency.

The Asset Disposition Offer or the Altice International Share Disposition Offer, as applicable, in so far as it relates to the Notes, will remain open for a period of not less than 20 Business Days following its commencement (the "*Asset Disposition Offer Period*"). No later than five (5) Business Days after the termination of the Asset Disposition Offer Period (the "*Asset Disposition Purchase Date*"), the Issuer will purchase the principal amount of Notes and, to the extent it elects, Pari Passu Indebtedness required to be purchased by it pursuant to this covenant (the "*Asset Disposition Offer Amount*") or, if less than the Asset Disposition Offer Amount has been so validly tendered, all Notes and Pari Passu Indebtedness validly tendered in response to the Asset Disposition Offer or Altice International Share Disposition Offer, as applicable.

On or before the Asset Disposition Purchase Date, the Issuer will, to the extent lawful, accept for payment, on a *pro rata* basis to the extent necessary, the Asset Disposition Offer Amount of Notes and Pari Passu Indebtedness or portions of Notes and Pari Passu Indebtedness so validly tendered and not properly withdrawn pursuant to the Asset Disposition Offer or Altice International Share Disposition Offer, as applicable, or if less than the Asset Disposition Offer Amount has been validly tendered and not properly withdrawn, all Notes and Pari Passu Indebtedness so validly tendered and not properly withdrawn and, in the case of the Notes, in minimum denominations of $200,000 and in integral multiples of $1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes. The Issuer will deliver to the Trustee an Officer's Certificate stating that such Notes or portions thereof were accepted for payment by the Issuer in accordance with the terms of this covenant. The Issuer or the Paying Agents, as the case may be, will promptly (but in any case not later than five (5) Business Days after termination of the Asset Disposition Offer Period) mail or deliver to each tendering Holder of Notes an amount equal to the purchase price of the Notes so validly tendered and not properly withdrawn by such Holder, and accepted by the Issuer for purchase, and the Issuer will promptly issue a new Note (or amend the applicable Global Note), and the Trustee, upon delivery of an Officer's Certificate from the Issuer, will, via an authenticating agent, authenticate and mail or deliver (or cause to be transferred by book-entry) such new Note to such Holder, in a principal amount equal to any unpurchased portion of the Note surrendered; *provided* that each such new Note will be in a principal amount with a minimum denomination of $200,000, in the case of Dollar Notes, and €100,000, in the case of Euro Notes. Any Note not so accepted will be promptly mailed or delivered (or transferred by book-entry) by the Issuer to the Holder thereof.

For the purposes of clause (2) of the first paragraph of this covenant (other than an Asset Disposition of Capital Stock of Altice International), the following will be deemed to be cash:

(1) the assumption by the transferee of Indebtedness of the Issuer or any Restricted Subsidiary (other than Subordinated Indebtedness of the Issuer or a Guarantor) and the release of the Issuer or such Restricted Subsidiary from all liability on such Indebtedness in connection with such Asset Disposition;

(2) securities, notes or other obligations received by the Issuer or any Restricted Subsidiary from the transferee that are converted by the Issuer or such Restricted Subsidiary into cash or Cash Equivalents within 180 days following the closing of such Asset Disposition, to the extent of the cash received;

(3) Indebtedness of any Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Disposition, to the extent that the Issuer and each other Restricted Subsidiary (as applicable) are released from any Guarantee of payment of such Indebtedness in connection with such Asset Disposition;

(4) consideration consisting of Indebtedness of the Issuer or a Guarantor (other than Subordinated Indebtedness) received after the Issue Date from Persons who are not the Issuer or any Restricted Subsidiary; and

(5) (i) if such Asset Disposition relates to assets owned by Altice International or any of its Restricted Subsidiaries, any Designated Non-Cash Consideration received by Altice International or any of its Restricted Subsidiaries in such Asset Dispositions having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received by Altice International and its Restricted Subsidiaries pursuant to this covenant that is at that time outstanding, not to exceed the greater of €185 million and 1.5% of Altice International Total Assets (with the fair market value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value); (ii) if such Asset Disposition relates to assets owned by Numericable or any of its Restricted Subsidiaries, any Designated Non-Cash Consideration received by Numericable and its Restricted Subsidiaries in such Asset Dispositions having an aggregate fair market value, taken together with all other Designated Non- Cash Consideration received by Numericable and its Restricted Subsidiaries pursuant to this covenant that is at that time outstanding, not to exceed the greater of €150 million and 1.5% of Numericable Total Assets (with the fair market value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value); and (iii) if such Asset Disposition relates to assets owned by the Issuer or any of its Restricted Subsidiaries (other that Altice International and its Restricted Subsidiaries and Numericable and its Restricted Subsidiaries), any Designated Non-Cash Consideration received by the Issuer and such Restricted Subsidiaries in such Asset Dispositions having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received by the Issuer and such Restricted Subsidiaries pursuant to this clause (iii) that is at that time outstanding, not to exceed €75 million (with the fair market value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value).

The Issuer will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to the Indenture. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Indenture by virtue of any conflict.

Limitation on Affiliate Transactions

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, enter into or conduct any transaction or series of related transactions (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of the Issuer (any such transaction or series of related transactions being "*Affiliate Transactions*") involving aggregate value in excess of €5 million unless:

(1) the terms of such Affiliate Transaction taken as a whole are not materially less favorable to the Issuer or such Restricted Subsidiary, as the case may be, than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's-length dealings with a Person who is not such an Affiliate; and

(2) in the event such Affiliate Transaction involves an aggregate value in excess of €25 million, the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the members of the Board of Directors of the Issuer resolving that such transaction complies with clause (1) above; *provided* that an Affiliate Transaction shall be deemed to have satisfied the requirements set forth in this clause (2) of this paragraph if such Affiliate Transaction is approved by a majority of the Disinterested Directors. If there are no

Disinterested Directors, any Affiliate Transaction shall also be deemed to have satisfied the requirements set forth in this covenant if the Issuer or any of its Restrictions Subsidiaries, as the case may be, delivers to the Trustee a letter from an Independent Financial Advisor stating that such transaction is fair to the Issuer or such Restricted Subsidiary from a financial point of view or stating that the terms are not materially less favorable to the Issuer or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person on arm's length basis.

The provisions of the preceding paragraph will not apply to:

(1) any Restricted Payment permitted to be made pursuant to the covenant described under "*—Limitation on Restricted Payments*", any Permitted Payments (other than pursuant to clause (9)(b) of the third paragraph of the covenant described under "*—Limitation on Restricted Payments*") or any Permitted Investment (other than Permitted Investments as defined in paragraphs (1)(b), (2) and (17) of the definition thereof);

(2) any issuance or sale of Capital Stock, options, other equity-related interests or other securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, or entering into, or maintenance of, any employment, consulting, collective bargaining or benefit plan, program, agreement or arrangement, related trust or other similar agreement and other compensation arrangements, options, warrants or other rights to purchase Capital Stock of the Issuer, any Restricted Subsidiary or any Parent, restricted stock plans, long-term incentive plans, stock appreciation rights plans, participation plans or similar employee benefits or consultants' plans (including valuation, health, insurance, deferred compensation, severance, retirement, savings or similar plans, programs or arrangements) or indemnities provided on behalf of officers, employees, directors or consultants approved by the Board of Directors of the Issuer, in each case in the ordinary course of business;

(3) any Management Advances and any waiver or transaction with respect thereto;

(4) other than any transaction directly or indirectly between or among Altice International or any of its Restricted Subsidiaries on the one hand and Numericable or any of its Restricted Subsidiaries on the other, any transaction between or among the Issuer and any Restricted Subsidiary (or entity that becomes a Restricted Subsidiary as a result of such transaction), or between or among the Issuer, Restricted Subsidiaries or any Receivables Subsidiary;

(5) the payment of reasonable fees and reimbursement of expenses to, and customary indemnities and employee benefit and pension expenses provided on behalf of, directors, officers, consultants or employees of the Issuer, any Restricted Subsidiary or any Parent (whether directly or indirectly and including through any Person owned or controlled by any of such directors, officers or employees);

(6) the Transactions and the entry into and performance of obligations of the Issuer or any of its Restricted Subsidiaries under the terms of any transaction arising out of, and any payments pursuant to or for purposes of funding, any agreement or instrument in effect as of or on the Issue Date, as these agreements and instruments may be amended, modified, supplemented, extended, renewed or refinanced from time to time (including, without limitation, to add additional Persons in connection with any such Person becoming a Restricted Subsidiary) in accordance with the other terms of this covenant or to the extent not more disadvantageous to the Holders in any material respect and the entry into and performance of any registration rights or other listing agreement in connection with any Public Offering (including the Initial Public Offering and the Numericable Initial Public Offering);

(7) execution, delivery and performance of any Tax Sharing Agreement or the formation and maintenance of any consolidated group for tax, accounting or management purposes in the ordinary course of business;

(8) transactions with customers, clients, suppliers or purchasers or sellers of goods or services and Associates, in each case in the ordinary course of business (including, without limitation, pursuant to joint venture arrangements), which are fair to the Issuer or the relevant Restricted Subsidiary in the reasonable determination of the Board of Directors or an officer of the Issuer or the relevant Restricted Subsidiary, or are on terms no less favorable than those that could reasonably have been obtained at such time from an unaffiliated party;

(9) any transaction in the ordinary course of business between or among the Issuer or any Restricted Subsidiary and any Affiliate of the Issuer or an Associate or similar entity (in each case, other than an Unrestricted Subsidiary) that would constitute an Affiliate Transaction solely because the Issuer or a Restricted Subsidiary or any Affiliate of the Issuer or a Restricted Subsidiary or any Affiliate of any Permitted Holder owns an equity interest in or otherwise controls such Affiliate, Associate or similar entity;

(10) (a) issuances or sales of Capital Stock (other than Disqualified Stock or Designated Preference Shares) of the Issuer or options, warrants or other rights to acquire such Capital Stock or Subordinated Shareholder Funding; *provided* that the interest rate and other financial terms of such Subordinated Shareholder Funding are approved by a majority of the members of the Board of Directors of the Issuer in their reasonable determination and (b) any amendment, waiver or other transaction with respect to any Subordinated Shareholder Funding in compliance with the other provisions of the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement, as applicable;

(11) without duplication in respect of payments made pursuant to the definition of Parent Expenses, (a) payments by the Issuer or any Restricted Subsidiary to any Permitted Holder (whether directly or indirectly, including through any Parent) of annual management, consulting, monitoring or advisory fees and related expenses in an aggregate amount not to exceed an amount equal to €50 million per year; (b) customary payments by the Issuer or any Restricted Subsidiary to any Permitted Holder (whether directly or indirectly, including through any Parent) for financial advisory, financing, underwriting or placement services or in respect of other investment banking activities, including in connection with acquisitions or divestitures, which payments in respect of this clause (b) are approved by a majority of the Board of Directors of the Issuer in good faith; and (c) payments of all fees and expenses related to the Transactions and the SFR Transactions;

(12) any transaction effected as part of a Qualified Receivables Financing;

(13) any participation in a rights offer or public tender or exchange offers for securities or debt instruments issued by the Issuer or any of its Subsidiaries that are conducted on arm's length terms and provide for the same price or exchange ratio, as the case may be, to all holders accepting such rights, tender or exchange offer;

(14) any transaction between or among Altice International and its Restricted Subsidiaries, on the one hand, and Numericable and its Restricted Subsidiaries, on the other hand, if the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the members of each of the Board of Directors of Altice International and Numericable resolving that the terms of such transaction taken as a whole are not materially less favorable to Altice International and its Restricted Subsidiaries and Numericable and its Restricted Subsidiaries, as the case may be, than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's length dealings with a Person who is not such an Affiliate;

(15) any transaction by Altice International or its Restricted Subsidiaries (other than a transaction described in clause (14) of this paragraph), if the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the members of the Board of Directors of Altice International resolving that the terms of such transaction taken as a whole are not materially less favorable to Altice International and its Restricted Subsidiaries than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's length dealings with a Person who is not such an Affiliate; and

(16) any transaction by Numericable or its Restricted Subsidiaries (other than a transaction described in clause (14) of this paragraph), if the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the members of the Board of Directors of Numericable resolving that the terms of such transaction taken as a whole are not materially less favorable to Numericable and its Restricted Subsidiaries than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's length dealings with a Person who is not such an Affiliate.

Maintenance of Listing

The Issuer will use its commercially reasonable efforts to maintain the listing of the Notes on the Official List of the Luxembourg Stock Exchange and the admission to trading on its Euro MTF Market for so long as such Notes are outstanding; *provided* that if at any time the Issuer determines that it will not maintain such listing, it will obtain prior to the delisting of the Notes from the Euro MTF Market of the Luxembourg Stock Exchange, and thereafter use its best efforts to maintain, a listing of such Notes on another recognized stock exchange.

Reports

For so long as any Notes are outstanding, the Issuer will provide to the Trustee the following reports:

(1) within 120 days after the end of the Issuer's fiscal year beginning with the fiscal year ending December 31, 2014, annual reports containing, to the extent applicable, and in a level of detail that is comparable in all

material respects to the annual report of the Issuer for the year ended December 31, 2013, the following information: (a) audited consolidated balance sheet of the Issuer as of the end of the most recent fiscal year (and comparative information as of the end of the prior fiscal year) and audited consolidated income statements and statements of cash flow of the Issuer for the most recent fiscal year (and comparative information as of the end of the prior fiscal year), including complete footnotes to such financial statements and the report of the independent auditors on the financial statements; (b) unaudited *pro forma* income statement information and balance sheet information of the Issuer (which, for the avoidance of doubt, shall not include the provision of a full income statement or balance sheet to the extent not reasonably available), together with explanatory footnotes, for (i) any acquisition or disposition by the Issuer or a Restricted Subsidiary that, individually or in the aggregate when considered with all other acquisitions or dispositions that have occurred since the beginning of the most recently completed fiscal year as to which such annual report relates, represent greater than 20% of the consolidated revenues, EBITDA, or assets of the Issuer on a *pro forma* consolidated basis or (ii) recapitalizations by the Issuer or a Restricted Subsidiary, in each case, that have occurred since the beginning of the most recently completed fiscal year (unless such *pro forma* information has been provided in a prior report pursuant to clause (2) or (3) below); (c) an operating and financial review of the audited financial statements, including a discussion of the results of operations, financial condition, and liquidity and capital resources of the Issuer, and a discussion of material commitments and contingencies and critical accounting policies; (d) description of the business, management and shareholders of the Issuer, all material affiliate transactions and a description of all material contractual arrangements, including material debt instruments; and (e) a description of material risk factors and material recent developments (to the extent not previously reported pursuant to clause (2) or (3) below).

(2) within 60 days following the end of the first three fiscal quarters in each fiscal year of the Issuer beginning with the fiscal quarter ending March 31, 2015 (provided that, if the Completion Date occurs in any such fiscal quarter, the foregoing reference to 60 days shall be deemed to be 90 days for such fiscal quarter), all quarterly reports of the Issuer containing the following information in a level of detail comparable in all material respects to the quarterly report of the Issuer for the nine months ended September 30, 2014: (a) an unaudited condensed consolidated balance sheet as of the end of such quarter and unaudited condensed consolidated statements of income and cash flow for the most recent quarter year-to- date period ending on the date of the unaudited condensed balance sheet, and the comparable prior year periods, together with condensed footnote disclosure; (b) unaudited *pro forma* income statement information and balance sheet information (which, for the avoidance of doubt, shall not include the provision of a full income statement or balance sheet to the extent not reasonably available), together with explanatory footnotes, for any acquisition or disposition by the Issuer or a Restricted Subsidiary that, individually or in the aggregate when considered with all other acquisitions or dispositions that have occurred since the beginning of the relevant quarter, represent greater than 20% of the consolidated revenues, EBITDA, or assets of the Issuer on a *pro forma* consolidated basis (unless such *pro forma* information has been provided in a prior report pursuant to clause (3) below); (c) a summary operating and financial review of the unaudited financial statements, including a discussion of revenues, EBITDA, capital expenditures, operating cash flow, and material changes in liquidity and capital resources, and a discussion of material changes not in the ordinary course of business in commitments and contingencies since the most recent report; and (d) material recent developments (to the extent not previously reported pursuant to clause (3) below); and

(3) promptly after the occurrence of such event, information with respect to (a) any change in the independent public accountants of the Issuer, (b) any material acquisition, disposal, merger or similar transaction or (c) any development determined by an Officer of the Issuer to be material to the business of the Issuer and its Restricted Subsidiaries (taken as a whole).

All financial statement information shall be prepared in accordance with IFRS as in effect on the date of such report or financial statement (or otherwise on the basis of IFRS as then in effect) and on a consistent basis for the periods presented; *provided*, *however*, that the reports set forth in clauses (1), (2) and (3) above may in the event of a change in IFRS, present earlier periods on a basis that applied to such periods.

Except as provided for above, no report need include separate financial statements for the Issuer or Subsidiaries of the Issuer or any disclosure with respect to the results of operations or any other financial or statistical disclosure not of a type included in these Listing Particulars and in no event shall U.S. GAAP information or reconciliation to U.S. GAAP be required.

At any time if any Subsidiary of the Issuer is an Unrestricted Subsidiary and any such Unrestricted Subsidiary or group of Unrestricted Subsidiaries, if taken together as one Subsidiary, constitutes a Significant Subsidiary, then the quarterly and annual financial information required by the first paragraph of this covenant will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, of the financial condition and results of operations of the Issuer and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Issuer.

Substantially concurrently with the issuance to the Trustee of the reports specified in (1), (2) and (3) of the first paragraph of this covenant, the Issuer shall also (a) use its commercially reasonable efforts (i) to post copies of such reports on such website as may be then maintained by the Issuer and its Subsidiaries or (ii) otherwise to provide substantially comparable public availability of such reports (as determined by the Issuer in good faith) or (b) to the extent the Issuer determines in good faith that such reports cannot be made available in the manner described in the preceding clause (a) owing to applicable law or after the use of its commercially reasonable efforts, furnish such reports to the Holders and, upon their request, prospective purchasers of the Notes. the Issuer will also make available copies of all reports required by clauses (1) through (3) of the first paragraph of this covenant, if and so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, at the Issuer's registered office in Luxembourg or, to the extent and in the manner permitted by such rules, post such reports on the official website of the Luxembourg Stock Exchange (*www.bourse.lu*).

In addition, so long as the Notes remain outstanding and during any period during which the Issuer is not subject to Section 13 or 15(d) of the Exchange Act nor exempt therefrom pursuant to Rule 12g3-2(b), the Issuer shall furnish to the Holders and holders of beneficial interests in the Notes and, upon their request, prospective purchasers of the Notes or prospective and purchasers of beneficial interests in the Notes, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Merger and Consolidation

The Issuer

The Issuer will not consolidate with or merge with or into, or assign, convey, transfer, lease or otherwise dispose all or substantially all its assets as an entirety or substantially as an entirety, in one transaction or a series of related transactions to, any Person, unless:

(1) the resulting, surviving or transferee Person (the "*Successor Company*") (if not the Issuer) will be a Person organized and existing under the laws of any member state of the European Union, Switzerland, Canada, or the United States of America, any State of the United States or the District of Columbia and the Successor Company (if not the Issuer) will expressly assume, (a) by supplemental indenture, executed and delivered to the Trustee, in form reasonably satisfactory to the Trustee, all the obligations of the Issuer under the Notes and the Indenture and (b) all obligations of the Issuer under the Intercreditor Agreement and the Security Documents, as applicable;

(2) immediately after giving effect to such transaction (and treating any Indebtedness that becomes an obligation of the Successor Company or any Subsidiary of the Successor Company as a result of such transaction as having been Incurred by the Successor Company or such Subsidiary at the time of such transaction), no Default or Event of Default shall have occurred and be continuing;

(3) immediately after giving *pro forma* effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of applicable four-quarter period, either (a) the Successor Company would be able to Incur at least an additional €1.00 of Indebtedness pursuant to sub-clause (3) of the first paragraph of the covenant described under "*—Limitation on Indebtedness*" or (b) the Consolidated Net Leverage Ratio of the Issuer would not be greater than it was immediately prior to giving effect to such transaction; and

(4) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each to the effect that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture and an Opinion of Counsel to the effect that such supplemental indenture (if any) has been duly authorized, executed and delivered and is a legal, valid and binding agreement enforceable against the Successor Company (in each case, in form and substance reasonably satisfactory to the Trustee); *provided* that in giving an Opinion of Counsel, counsel may rely on an Officer's Certificate as to any matters of fact.

Subject to the third paragraph of the covenant "*Merger and Consolidation—The Guarantors*", for purposes of this covenant, the sale, lease, conveyance, assignment, transfer, or other disposition of all or substantially all of the properties and assets of one or more Subsidiaries of the Issuer, which properties and assets, if held by the Issuer instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of the Issuer on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Issuer.

The Successor Company will succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Indenture but in the case of a lease of all or substantially all its assets, the predecessor company will not be released from its obligations under the Indenture or the Notes.

Notwithstanding the preceding clauses (2) and (3) (which do not apply to transactions referred to in this sentence) and clause (4) of the first paragraph of this covenant (which does not apply to transactions referred to in this sentence in which the Issuer is the Successor Company), (a) any Restricted Subsidiary may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to the Issuer; and (b) any Restricted Subsidiary that is not a Guarantor may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to any other Restricted Subsidiary or the Issuer; *provided* that Altice International or any of its Restricted Subsidiaries shall not consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to Altice France or any of its Restricted Subsidiaries. Notwithstanding the preceding clause (3) (which does not apply to the transactions referred to in this sentence) of the first paragraph of this covenant, the Issuer may consolidate or otherwise combine with or merge into an Affiliate incorporated or organized for the purpose of changing the legal domicile of the Issuer, reincorporating the Issuer in another jurisdiction or changing the legal form of the Issuer.

There is no precise established definition of the phrase “substantially all” under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve “all or substantially all” of the property or assets of a Person.

The foregoing provisions (other than the requirements of clause (2) of the first paragraph of this “Merger and Consolidation” covenant) shall not apply to the creation of a new Subsidiary as a Restricted Subsidiary.

The Guarantors

None of the Guarantors (other than a Guarantor whose Note Guarantee is to be released in accordance with the terms of the Indenture or the Intercreditor Agreement) may:

(1) consolidate with or merge with or into any Person (whether or not such Guarantor is the surviving Person);

(2) sell, assign, convey, transfer, lease or otherwise dispose of, all or substantially all its assets as an entirety or substantially as an entirety, in one transaction or a series of related transactions, to any Person; or

(3) permit any Person to merge with or into it;

unless:

(A) the other Person is the Issuer or Restricted Subsidiary that is a Guarantor or becomes a Guarantor as a result of such transaction; or

(B) (1) either (x) a Guarantor is the surviving Person or (y) the resulting, surviving or transferee Person expressly assumes all of the obligations of the Guarantor under its Note Guarantee and the Indenture (pursuant to a supplemental indenture executed and delivered in a form reasonably satisfactory to the Trustee) and all obligations of the Guarantor under the Intercreditor Agreement and Security Documents, as applicable; and

(2) immediately after giving effect to the transaction, no Default or Event of Default shall have occurred and is continuing; or

(C) the transaction constitutes a sale or other disposition (including by way of consolidation or merger) of a Guarantor or the sale or disposition of all or substantially all the assets of a Guarantor (in each case other than to the Issuer or a Restricted Subsidiary) otherwise permitted by the Indenture and the proceeds therefrom are applied as required by the Indenture.

Notwithstanding the preceding clause (B)(2) (which does not apply to transactions referred to in this sentence), (a) any Restricted Subsidiary may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to a Guarantor or the Issuer and (b) any Guarantor may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to any other Guarantor. Notwithstanding the preceding clause (B)(2) (which does not apply to the transactions referred to in this sentence), a Guarantor may consolidate or otherwise combine with or merge into an Affiliate incorporated or organized for the purpose of changing the legal domicile of the Guarantor reincorporating the Guarantor in another jurisdiction, or changing the legal form of the Guarantor.

The provisions under this covenant “*Merger and Consolidation—The Issuer*” and “*Merger and Consolidation—The Guarantors*” shall not apply to any sale, lease, transfer, conveyance or other disposition in one or a series of related transactions of any assets of Altice International and its Subsidiaries or the Target and its Subsidiaries (including the Capital Stock of the Target or any Subsidiary of Altice International or the Target) that is required pursuant to Competition Laws in relation to the Target Acquisition or is taken to avoid or eliminate any impediment under

Competition Laws in relation to the Target Acquisition (including, without limitation, in response to any actions initiated by an administrative, regulatory or other governmental authority or private party under Competition Laws)); *provided* that, solely to the extent the Issuer is relying on the foregoing exception, in the event the fair market value of any such sold, leased, transferred, conveyed or disposed of assets exceeds 2.0% of Altice International Total Assets (on a pro forma consolidated basis, including the Target and its Subsidiaries that are Restricted Subsidiaries), (i) the Consolidated Net Leverage Ratio of Altice International (on a pro forma consolidated basis, including the Target and its Subsidiaries that are Restricted Subsidiaries) shall not increase; and (ii) Altice Financing shall promptly make an offer to all holders of the Existing Altice International Term Loans and to the extent required by the terms of any Pari Passu Indebtedness that is not Public Debt, any such Pari Passu Indebtedness to repay or repurchase such Existing Altice International Term Loans and Pari Passu Indebtedness at a price of 100% of the principal amount thereof plus accrued and unpaid interest thereon to the date of redemption in an amount equal to the Net Cash Proceeds of such sale, lease, transfer, conveyance or other disposition (on a *pro rata* basis on the basis of the aggregate principal amount of tendered Existing Altice International Term Loans and Pari Passu Indebtedness) and in the event the principal amount of Existing Altice International Term Loans and such Pari Passu Indebtedness tendered is less than the amount of such Net Cash Proceeds, Altice International shall apply any such remaining proceeds to prepay an equal principal amount of Existing Altice International Term Loans at par on a pro rata basis.

There is no precise established definition of the phrase "substantially all" under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve "all or substantially all" of the property or assets of a Person.

Lines of Business

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, engage in any business other than a Similar Business, except to such extent as would not be material to the Issuer and the Restricted Subsidiaries, taken as a whole.

Additional Guarantors

The Issuer will not permit any of its Restricted Subsidiaries (other than a Guarantor) to Guarantee any Indebtedness of the Issuer or any Guarantor (other than Indebtedness Incurred under clause (8) of the second paragraph of the covenant described under "*—Limitation on Indebtedness*", except Indebtedness Incurred under Credit Facilities or Public Debt pursuant to such clause (8)) unless such Restricted Subsidiary is or becomes a Guarantor on the date on which the Guarantee is Incurred and, if applicable, executes and delivers to the Trustee a supplemental indenture in the form attached to the Indenture pursuant to which such Restricted Subsidiary will provide a Note Guarantee, which Guarantee will be senior to or pari passu with such Restricted Subsidiary's Guarantee of such other Indebtedness.

Note Guarantees granted after the Issue Date pursuant to this covenant shall be released as set forth under "*—Releases of the Note Guarantees*". Note Guarantees granted after the Issue Date pursuant to the first paragraph of this covenant may be released at the option of the Issuer if, at the date of such release, (i) the Indebtedness which required such Note Guarantee has been released or discharged in full, (ii) no Event of Default would arise as a result of such release, and (iii) there is no other Indebtedness of such Guarantor outstanding that was Incurred after the Issue Date and that could not have been Incurred in compliance with the Indenture as of the date Incurred if such Guarantor were not a Guarantor as at that date. The Trustee and the Security Agent (to the extent action is required by it) shall each take all necessary actions requested by the Issuer, including the granting of releases or waivers under the Intercreditor Agreement or any Additional Intercreditor Agreement, to effectuate any release of a Note Guarantee in accordance with these provisions, subject to customary protections and indemnifications.

Each additional Note Guarantee will be limited as necessary to recognize certain defenses generally available to guarantors (including those that relate to fraudulent conveyance or transfer, voidable preference, financial assistance, corporate purpose, thin capitalization, distributable reserves, capital maintenance or similar laws, regulations or defenses affecting the rights of creditors generally) or other considerations under applicable law.

Notwithstanding the foregoing, the Issuer shall not be obligated to cause such Restricted Subsidiary to become a Guarantor to the extent and for so long as the Incurrence of such Guarantee could reasonably be expected to give rise to or result in: (1) any violation of applicable law or regulation; (2) any liability for the officers, directors or (except in the case of a Restricted Subsidiary that is a partnership) shareholders of such Restricted Subsidiary (or, in the case of a Restricted Subsidiary that is a partnership, directors or shareholders of the partners of such partnership); (3) any cost, expense, liability or obligation (including with respect to any Taxes) other than reasonable out-of-pocket expenses and other than reasonable expenses incurred in connection with any governmental or regulatory filings required as a result of, or any measures pursuant to clause (1) of this paragraph undertaken in connection with, such Guarantee, which in any case under any of clauses (1), (2) and (3) of this paragraph cannot be avoided through measures reasonably available to the Issuer or such Restricted Subsidiary; or (4) such Restricted Subsidiary is prohibited from Incurring such Guarantee by the terms of any Indebtedness of such Restricted Subsidiary that is not prepayable without a prepayment premium (in each case, other than Indebtedness Incurred to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary); provided that this clause (4) applies only for so long as such prepayment premium applies to such Indebtedness.

Suspension of Covenants on Achievement of Investment Grade Status

If on any date following the Issue Date, the Notes have achieved Investment Grade Status and no Default or Event of Default has occurred and is continuing (a "*Suspension Event*"), then, the Issuer shall notify the Trustee of these events and beginning on that day and continuing until such time, if any, at which the Notes cease to have Investment Grade Status (the "*Reversion Date*"), the provisions of the Indenture summarized under the following captions will not apply to the Notes: "*—Limitation on Indebtedness*", "*—Limitation on Restricted Payments*", "*—Limitation on Restrictions on Distributions from Restricted Subsidiaries*", "*—Limitation on Sales of Assets and Subsidiary Stock*", "*—Limitation on Affiliate Transactions*", and "*—Impairment of Security Interests*", the provisions of clause (3) of the first paragraph of the covenant described under "*—Merger and Consolidation—The Issuer*" and, in each case, any related default provision of the Indenture will cease to be effective and will not be applicable to the Issuer and the Restricted Subsidiaries. Such covenants and any related default provisions will again apply according to their terms from the first day on which a Suspension Event ceases to be in effect. Such covenants will not, however, be of any effect with regard to actions of the Issuer properly taken during the continuance of the Suspension Event, and the "*—Limitation on Restricted Payments*" covenant will be interpreted as if it has been in effect since the date of the Indenture except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended. On the Reversion Date, all Indebtedness Incurred during the continuance of the Suspension Event will be classified, at the Issuer's option, as having been Incurred pursuant to the first paragraph of the covenant described under "*—Limitation on Indebtedness*" or one of the clauses set forth in the second paragraph of such covenant (to the extent such Indebtedness would be permitted to be Incurred thereunder as of the Reversion Date and after giving effect to Indebtedness Incurred prior to the Suspension Event and outstanding on the Reversion Date). To the extent such Indebtedness would not be so permitted to be Incurred under the first two paragraphs of the covenant described under "*—Limitation on Indebtedness*", such Indebtedness will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (4)(b) of the second paragraph of the covenant described under "*—Limitation on Indebtedness*".

Impairment of Security Interests

The Issuer shall not and shall not permit any Restricted Subsidiary to, take or omit to take any action that would have the result of materially impairing the security interest with respect to the Notes Collateral (it being understood that, subject to the next succeeding paragraph, the Incurrence of Permitted Collateral Liens, shall under no circumstances be deemed to materially impair the security interest with respect to the Notes Collateral) for the benefit of the Trustee and the Holders, and the Issuer shall not and shall not permit any Restricted Subsidiary to, grant to any Person other than the Security Agent (or its delegate), for the benefit of the Trustee and the Holders and the other beneficiaries described in the Security Documents, the Intercreditor Agreement or any Additional Intercreditor Agreement, any Lien over any of the Notes Collateral; provided, that, subject to the next succeeding paragraph, (x) the Issuer may Incur Permitted Collateral Liens, (y) the Notes Collateral may be discharged, amended, extended, renewed, restated, supplemented, released, modified or replaced in accordance with the Indenture, the Intercreditor Agreement, any Additional Intercreditor Agreement or the applicable Security Documents and (z) the Issuer and the Restricted Subsidiaries may consummate any other transaction permitted under "*—Merger and Consolidation*".

Notwithstanding the above, nothing in this covenant shall restrict the discharge and release of any Lien over Notes Collateral in accordance with the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement. Subject to the foregoing, the Security Documents may be amended, extended, renewed, restated, supplemented or otherwise modified or released (followed by an immediate retaking of a Lien of at least equivalent ranking over the same assets) to (i) cure any ambiguity, omission, defect or inconsistency therein; (ii) provide for Permitted Collateral Liens; (iii) make any change reasonably necessary or desirable in the good faith determination of the Issuer in order to implement transactions permitted under "*—Merger and Consolidation*"; (iv) add to the Notes Collateral; (v) provide for the release of any Lien on any properties or assets constituting Notes Collateral from the Lien of the Security Documents, provided that such release is followed by the substantially concurrent re-taking of a Lien of at least equivalent priority over the same properties and assets securing the Notes or any Note Guarantee; or (vi) make any other change thereto that does not adversely affect the Holders in any material respect; provided, however, that, contemporaneously with any such action in clauses (ii), (iii), (iv), (v) and (vi), the Issuer delivers to the Trustee, either (1) a solvency opinion, in form and substance reasonably satisfactory to the Trustee, from an independent financial advisor or appraiser or investment bank of international standing which confirms the solvency of the Issuer and its Subsidiaries, taken as a whole, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, (2) a certificate from the chief financial officer or the Board of Directors of the relevant Person which confirms the solvency of the Person granting the Lien after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, or (3) an opinion of counsel (subject to any qualifications customary for this type of opinion of counsel), in form and substance reasonably satisfactory to the

Trustee, confirming that, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, the Lien or Liens created under the Security Documents so amended, extended, renewed, restated, supplemented, modified or replaced are valid Liens not otherwise subject to any limitation, imperfection or new hardening period, in equity or at law, that such Lien or Liens were not otherwise subject to immediately prior to such amendment, extension, renewal, restatement, supplement, modification or replacement.

In the event that the Issuer and the Restricted Subsidiaries comply with the requirements of this covenant, the Trustee and the Security Agent shall (subject to customary protections and indemnifications) consent to such amendments without the need for instructions from the Holders.

Payments for Consents

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Holder for or as an inducement to any consent, waiver or amendment of any of the terms of the provisions of the Indenture or the Notes unless such consideration is offered to be paid and is paid to all holders of Notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement. Notwithstanding the foregoing, the Issuer and the Restricted Subsidiaries shall be permitted, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Indenture, to exclude holders of Notes in any jurisdiction where (i) the solicitation of such consent, waiver or amendment, including in connection with an exchange offer or an offer to purchase for cash, or (ii) the payment of the consideration therefor would require the Issuer or any Restricted Subsidiary to file a registration statement, prospectus or similar document under any applicable securities laws (including, but not limited to, the United States federal securities laws and the laws of the European Union or its member states or the State of Israel), which the Issuer in its sole discretion determine (acting in good faith) (A) would be materially burdensome (it being understood that it would not be materially burdensome to file the consent document(s) used in other jurisdictions, any substantially similar documents or any summary thereof with the securities or financial services authorities in such jurisdiction) or (B) such solicitation would otherwise not be permitted under applicable law in such jurisdiction.

Additional Intercreditor Agreements

The Indenture provides that, at the request of the Issuer, in connection with the Incurrence by the Issuer or a Restricted Subsidiary of any Indebtedness that is permitted to share the Notes Collateral pursuant to the definition of Permitted Collateral Liens, the Issuer and such Restricted Subsidiary, the Trustee and the Security Agent shall enter into with the holders of such Indebtedness (or their duly authorized Representatives) an intercreditor agreement (an "*Additional Intercreditor Agreement*") or a restatement, amendment or other modification of the existing Intercreditor Agreement on substantially the same terms as the Intercreditor Agreement (or terms not materially less favorable to the Holders), including containing substantially the same terms with respect to release of Note Guarantees and priority and release of the Liens over the Notes Collateral (or terms not materially less favorable to the Holders); *provided* that such Additional Intercreditor Agreement will not impose any personal obligations on the Trustee or Security Agent or, in the opinion of the Trustee or Security Agent, as applicable, adversely affect the rights, duties, liabilities or immunities of the Trustee or Security Agent under the Indenture or the Intercreditor Agreement. For the avoidance of doubt, subject to the foregoing and the succeeding paragraph, any such Additional Intercreditor Agreement may provide for *pari passu* or subordinated security interests in respect of any such Indebtedness (to the extent such Indebtedness is permitted to share the Notes Collateral pursuant to the definition of Permitted Collateral Lien).

The Indenture also provides that, at the direction of the Issuer and without the consent of Holders, the Trustee and the Security Agent shall from time to time enter into one or more amendments to any Intercreditor Agreement to: (1) cure any ambiguity, omission, defect or inconsistency of any such agreement, (2) increase the amount or types of Indebtedness covered by any such agreement that may be Incurred by the Issuer or a Guarantor that is subject to any such agreement (including with respect to any Intercreditor Agreement or Additional Intercreditor Agreement, the addition of provisions relating to new Indebtedness ranking junior in right of payment to the Notes), (3) add Restricted Subsidiaries to the Intercreditor Agreement or an Additional Intercreditor Agreement, (4) further secure the Notes (including Additional Notes), (5) make provision for equal and ratable pledges of the Notes Collateral to secure Additional Notes, (6) implement any Permitted Collateral Liens, (7) amend the Intercreditor Agreement or any Additional Intercreditor Agreement in accordance with the terms thereof; (8) make any change reasonably necessary or desirable, in the good faith determination of the Issuer in order to implement any transaction that is subject to the covenants described under the caption "*—Merger and Consolidation*"; or (9) implement any transaction in connection with the renewal extension, refinancing, replacement or increase of Indebtedness that is not prohibited by the Indenture or make any other change to any such agreement that does not adversely affect the Holders in any material respect; *provided* that no such changes shall be permitted to the extent they affect the ranking of any Note or Note Guarantee, enforcement of Liens over the Notes Collateral, the application of proceeds from the enforcement of Notes Collateral or the release of any Note Guarantees or Lien over the Notes Collateral in a manner than would adversely affect the rights of the Holders in any material respect except as otherwise permitted by the Indenture, the Intercreditor Agreement or any Additional

Intercreditor Agreement immediately prior to such change. The Issuer shall not otherwise direct the Trustee or the Security Agent to enter into any amendment to any Intercreditor Agreement without the consent of the Holders of the majority in aggregate principal amount of the Notes then outstanding, except as otherwise permitted below under "Amendments and Waivers", and the Issuer may only direct the Trustee and the Security Agent to enter into any amendment to the extent such amendment does not impose any personal obligations on the Trustee or Security Agent or, in the opinion of the Trustee or Security Agent, adversely affect their respective rights, duties, liabilities or immunities under the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement.

The Indenture also provides that, in relation to any Intercreditor Agreement or Additional Intercreditor Agreement, at the request of the Issuer, the Trustee (and Security Agent, if applicable) shall consent on behalf of the Holders to the payment, repayment, purchase, repurchase, defeasance, acquisition, retirement or redemption of any obligations subordinated to the Notes thereby; *provided*, *however*, that such transaction would comply with the covenant described under "*—Limitation on Restricted Payments*".

The Indenture also provides that each Holder, by accepting a Note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement or any Additional Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein), and to have directed the Trustee and the Security Agent to enter into any such Additional Intercreditor Agreement.

Limitations on Holding Company Activities

Notwithstanding anything contained in the Indenture, neither the Issuer nor Altice France will, engage in any business activity or undertake any other activity, except:

(1) Investments in its direct Subsidiaries;

(2) the provision of administrative, management, legal and accounting services to its Subsidiaries of a type customarily provided by a holding company to its Subsidiaries and the ownership of assets necessary to provide such services;

(3) relating to the offering, sale, issuance, Incurrence, servicing, purchase, redemption, amendment, exchange, refinancing or retirement of Notes, any Additional Notes, the Altice Credit Facility, the Existing Senior Notes, or other Indebtedness (including any Refinancing Indebtedness in respect of any of the foregoing) permitted to be Incurred by the terms of the Indenture (including the lending, directly or indirectly, of the proceeds of such sale of the Notes, any Additional Notes or other Indebtedness permitted by the terms of the Indenture pursuant to intercompany proceeds loans) or the performance of the terms and conditions of such Indebtedness, to the extent such activities are otherwise permissible under this Indenture;

(4) the granting of Liens permitted pursuant to the covenant described under "*—Limitation on Liens*";

(5) undertaken with the purpose of, directly or indirectly, fulfilling its obligations or exercising its rights under the Indenture, the Intercreditor Agreement, the Security Documents, the Escrow Agreement or documents related to any Indebtedness specified in clause (3) above;

(6) the ownership of cash and Cash Equivalents or any activities related to cash management activities on behalf of its Restricted Subsidiaries;

(7) making Investments in the Notes and any Indebtedness specified in clause (3) above or any Investments permitted to be made by it under the definition of Permitted Investments;

(8) making Restricted Payments (other than Restricted Investments) and Permitted Payments not prohibited under the covenant described under "*—Limitation on Restricted Payments*";

(9) directly related or reasonably incidental to the establishment and/or maintenance of its or its Subsidiaries corporate existence and, in the case of the Issuer, to the maintenance of its status as a Public Company;

(10) directly related or reasonably incidental to the Transactions; or

(11) (i) any transaction or activity not to exceed €10 million in the aggregate and (ii) other activities not specifically enumerated above that are immaterial in nature.

Completion of Transactions

The Issuer shall cause the Target Acquisition to be consummated, promptly upon the release of the Escrowed Property following delivery by the Issuer to the Escrow Agent of a release officer's certificate.

Completion Date Guarantees and Security

On the Completion Date, the Issuer will execute and deliver to the Security Agent the Security Documents and grant Liens over the Notes Collateral described above under "Notes Security", and the Issuer will cause the Guarantor to execute a supplemental indenture guaranteeing the Notes.

Events of Default

Each of the following is an "Event of Default" under the Indenture:

(1) default in any payment of interest or Additional Amounts, if any, on any Note issued under the Indenture when due and payable, continued for 30 days;

(2) default in the payment of the principal amount of or premium, if any, on any Note issued under the Indenture when due at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration or otherwise;

(3) failure by the Issuer or any Restricted Subsidiary to comply for 30 days after notice by the Trustee or the Holders of at least 25% in principal amount of the outstanding Notes with any of its obligations under the covenants described under "Change of Control" above or under the covenants described under "*—Certain Covenants*" above (in each case, other than (i) a failure to purchase Notes, which will constitute an Event of Default under clause (2) above, (ii) a failure to comply with the covenant described under "*—Certain Covenants—Completion Date Guarantees and Security*", which shall be governed by clause (10) below, (iii) a failure to comply with the Escrow Agreement, (iv) failure to comply with the covenant described under "*—Certain Covenants—Minimum Holdings*", which shall be governed by clause (11) below) and (v) failure to comply with the covenant described under "*—Certain Covenants—Completion of Transactions*", which are governed by clause (12) below;

(4) failure by the Issuer, any Restricted Subsidiary or any other grantor of a Lien over the Notes Collateral to comply for 60 days after notice by the Trustee or the Holders of at least 25% in principal amount of the outstanding Notes with its other agreements contained in the Indenture, the Intercreditor Agreement, any Additional Intercreditor Agreement or the Security Documents;

(5) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Issuer or any Restricted Subsidiary (or the payment of which is Guaranteed by the Issuer or any Restricted Subsidiary) other than Indebtedness owed to the Issuer or a Restricted Subsidiary whether such Indebtedness or Guarantee now exists, or is created after the Issue Date, which default:

  (a) is caused by the failure to pay principal of such Indebtedness at the Stated Maturity thereof prior to the expiration of the grace period provided in such Indebtedness on the date of such default ("*payment default*"); or

  (b) results in the acceleration of such Indebtedness prior to its maturity (the "*cross-acceleration provision*"),

  and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a payment default or the maturity of which has been so accelerated, aggregates €50 million or more;

(6) certain events of bankruptcy, insolvency or court protection of the Issuer or a Significant Subsidiary or group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary (the "*bankruptcy provisions*");

(7) failure by the Issuer or a Significant Subsidiary or group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary to pay final judgments aggregating in excess of €50 million, exclusive of any amounts that a solvent insurance company has acknowledged liability for, which judgments are not paid,

discharged or stayed for a period of 60 days after the judgment becomes final (the "*judgment default provision*");

(8) any security interest under the Security Documents shall, at any time, cease to be in full force and effect (other than in accordance with the terms of the relevant Security Document, the Intercreditor Agreement, any Additional Intercreditor Agreement and the Indenture) with respect to Notes Collateral having a fair market value in excess of €10 million for any reason other than the satisfaction in full of all obligations under the Indenture or the release of any such security interest in accordance with the terms of the Indenture, the Intercreditor Agreement, any Additional Intercreditor Agreement or the Security Documents or any such security interest created thereunder shall be declared invalid or unenforceable and the Issuer shall assert in writing that any such security interest is invalid or unenforceable and any such Default continues for 10 days (the "*security default provisions*");

(9) failure by the Issuer to consummate a Special Mandatory Redemption as described under the caption "*—Escrow of Proceeds; Special Mandatory Redemption*";

(10) failure by the Issuer to comply for 30 days with the provisions of the covenant described under "*—Certain Covenants—Completion Date Guarantees and Security*";

(11) failure by the Issuer to comply with any of the provisions of the covenant described under "*—Certain Covenants—Minimum Holdings*"; and

(12) failure by the Issuer to comply with the covenant described above under "*Completion of Transactions*" by more than 5 Business Days following the date on which the Escrowed Property are released from the Escrow Accounts.

However, a default under clauses (3), (4), (5), (7), (10) or (11) of this paragraph will not constitute an Event of Default until the Trustee or the Holders of 25% in principal amount of the outstanding Notes under the Indenture notify the Issuer of the default and, with respect to clauses (3), (4), (5), (7) and (10), the Issuer does not cure such default within the time specified in clauses (3), (4), (5), (7) or (10), as applicable, of this paragraph after receipt of such notice.

If an Event of Default described in clause (6) or (9) above occurs and is continuing, the principal of, premium, if any, and accrued and unpaid interest on all the Notes, and additional amounts, if any, will become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holders. If any other Event of Default occurs and is continuing, the Trustee or the Holders of at least 25% in aggregate principal amount of the then outstanding Notes may and, if directed by holders of at least 25% in aggregate principal amount of the then outstanding Notes, the Trustee shall, declare all the Notes to be due and payable immediately. In the event of a declaration of acceleration of the Notes because an Event of Default described in clause (5) under "Events of Default" has occurred and is continuing, the declaration of acceleration of the Notes shall be automatically annulled if the event of default or payment default triggering such Event of Default pursuant to clause (5) shall be remedied or cured, or waived by the holders of the relevant Indebtedness, or the relevant Indebtedness that gave rise to such Event of Default shall have been discharged in full, within 30 days after the declaration of acceleration with respect thereto and if (i) the annulment of the acceleration of the Notes would not conflict with any judgment or decree of a court of competent jurisdiction and (ii) all existing Events of Default, except nonpayment of principal, premium or interest, including Additional Amounts, if any, on the Notes that became due solely because of the acceleration of the Notes, have been cured or waived.

Holders of the Notes may not enforce the Indenture or the Notes except as provided in the Indenture and may not enforce the Security Documents except as provided in such Security Documents and the Intercreditor Agreement or any Additional Intercreditor Agreement.

The Holders of a majority in principal amount of the outstanding Notes under the Indenture may waive all past or existing Defaults or Events of Default (except with respect to nonpayment of principal, premium, interest or Additional Amounts, if any) and rescind any such acceleration with respect to such Notes and its consequences if rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Subject to the provisions of the Indenture relating to the duties of the Trustee, if an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders unless such Holders have offered to the Trustee, and the Trustee has received, indemnity and/or security satisfactory to the Trustee against any loss, liability or expense. Except to enforce the right to receive payment of principal or interest when due, no Holder may pursue any remedy with respect to the Indenture or the Notes unless:

(1) such Holder has previously given the Trustee notice that an Event of Default is continuing;

(2) Holders of at least 25% in aggregate principal amount of the outstanding Notes have requested the Trustee to pursue the remedy;

(3) such Holders have offered the Trustee, and the Trustee has received, security and/or indemnity satisfactory to it against any loss, liability or expense;

(4) the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security and/or indemnity; and

(5) the Holders of a majority in aggregate principal amount of the outstanding Notes have not given the Trustee a direction that, in the opinion of the Trustee, is inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee on behalf of the Holders or of exercising any trust or power conferred on the Trustee on behalf of the Holders.

The Indenture provides that, in the event an Event of Default has occurred and is continuing of which a responsible officer of the Trustee is aware, the Trustee will be required in the exercise of its powers to use the degree of care that a prudent person would use in the conduct of its own affairs. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder or that would involve the Trustee in personal liability. Prior to taking any action under the Indenture, the Trustee will be entitled to indemnification and/or security satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action. The Indenture provides that if a Default occurs and is continuing and a responsible officer of the Trustee is informed of such occurrence by the Issuer, the Trustee must give notice of the Default to the Holders within 60 days after being notified by the Issuer. Except in the case of a Default in the payment of principal of, or premium, if any, or interest on any Note, the Trustee may withhold notice if and so long as a committee of trust officers of the Trustee in good faith determines that withholding notice is in the interests of the Holders. The Issuer is required to deliver to the Trustee, within 120 days after the end of each fiscal year, an Officer's Certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Issuer is required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any events of which it is aware which would constitute certain Defaults, their status and what action the Issuer is taking or proposes to take in respect thereof.

The Notes will provide for the Trustee to take action on behalf of the Holders in certain circumstances, but only if the Trustee is indemnified and/or secured to its satisfaction. It may not be possible for the Trustee to take certain actions in relation to the Notes and, accordingly, in such circumstances the Trustee will be unable to take action, notwithstanding the provision of an indemnity to it, and it will be for Holders to take action directly.

Amendments and Waivers

Subject to certain exceptions, the Notes Documents may be amended, supplemented or otherwise modified with the consent of the Holders of a majority in principal amount of the Notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes) and, subject to certain exceptions, any default or compliance with any provisions thereof may be waived with the consent of the Holders of a majority in principal amount of the Notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes); provided, however that if any amendment, waiver or other modification will only affect the Dollar Notes or Euro Notes only the consent of the holders of at least a majority in principal amount of the then outstanding Dollar Notes or Euro Notes (and not the consent of at least a majority of all Notes then outstanding), as the case may be, shall be required. However, without the consent of Holders holding not less than 90% of the then outstanding principal amount of Notes affected (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes); *provided*, *however* that if any amendment, waiver or other modification will only affect the Dollar Notes or Euro Notes only the consent of the holders of at least 90% of the aggregate principal amount of the then outstanding Dollar Notes or Euro Notes, as the case may be (and not the consent of at least 90% of the aggregate principal amount of all Notes then outstanding), an amendment or waiver may not, with respect to any Notes held by a non-consenting Holder:

(1) reduce the principal amount of Notes whose Holders must consent to an amendment, waiver, supplement or modification;

(2) reduce the stated rate of or extend the stated time for payment of interest on any Note (other than, for the avoidance of doubt, any payment pursuant to a Change of Control Offer or pursuant to the provisions of the covenant described under the caption "—*Limitation on Sales of Assets and Subsidiary Stock*");

(3) reduce the principal of, or extend the Stated Maturity of, any Note;

(4) reduce the premium payable upon the redemption of any Note or change the time at which any Note may be redeemed, in each case as described above under "—*Optional Redemption*" (other than, for the avoidance of doubt, any payment pursuant to a Change of Control Offer or pursuant to the provisions of the covenant described under the caption "—*Limitation on Sales of Assets and Subsidiary Stock*");

(5) make any Note payable in money other than that stated in the Note (except to the extent the currency stated in the Notes has been succeeded or replaced pursuant to applicable law);

(6) impair the right of any Holder to receive payment of principal of and interest or Additional Amounts, if any, on such Holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any such payment on or with respect to such Holder's Notes (it being understood that this clause (6) will not apply to provisions under the caption "*Change of Control*" and "*Limitation on Sales of Assets and Subsidiary Stock*" except to the extent payments thereunder are at such time due and payable);

(7) make any change in the provision of the Indenture described under "Withholding Taxes" that adversely affects the right of any Holder of such Notes in any material respect or amends the terms of such Notes in a way that would result in a loss of an exemption from any of the Taxes described thereunder or an exemption from any obligation to withhold or deduct Taxes so described thereunder unless the payor agrees to pay Additional Amounts, if any, in respect thereof;

(8) waive a Default or Event of Default with respect to the nonpayment of principal, premium or interest or Additional Amounts, if any, on the Notes (except pursuant to a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of such Notes and a waiver of the payment default that resulted from such acceleration); or

(9) make any change in the amendment or waiver provisions which require the Holders' consent described in this sentence.

In addition, (A) without the consent of at least 75% in aggregate principal amount of Notes then outstanding (provided, however that if any amendment, waiver or other modification will only affect the Dollar Notes or Euro Notes only the consent of the holders of at least 75% of the aggregate principal amount of the then outstanding Dollar Notes or Euro Notes, as the case may be (and not the consent of at least 75% of the aggregate principal amount of all Notes of such series then outstanding) will be required), no amendment or supplement may: (1) release any Guarantor from any of its obligations under its Note Guarantee or the Indenture, except in accordance with the terms of the Indenture and the Intercreditor Agreement; or (2) release any of the security interests granted for the benefit of the Holders in the Notes Collateral (to the extent any Notes Collateral so released in any transactions or series of transactions has a fair market value in excess of €25 million) other than in accordance with the terms of the Security Documents, the Intercreditor Agreement, any applicable Additional Intercreditor Agreement and the Indenture.

Notwithstanding the foregoing, without the consent of any Holder, the Issuer, the Trustee, the Security Agent and the other parties thereto, as applicable, may amend or supplement any Notes Documents to:

(1) cure any ambiguity, omission, defect, error or inconsistency;

(2) provide for the assumption by a successor Person of the obligations of the Issuer or any Guarantor under any Notes Document;

(3) add to the covenants or provide for a Guarantee for the benefit of the Holders or surrender any right or power conferred upon the Issuer or any Restricted Subsidiary;

(4) make any change that would provide additional rights or benefits to the Trustee or the Holders or does not adversely affect the rights or benefits to the Trustee or any of the Holders in any material respect under the Notes Documents;

(5) make such provisions as necessary (as determined in good faith by the Issuer) for the issuance of Additional Notes Incurred in accordance with the terms of the Indenture;

(6) to provide for a Restricted Subsidiary to provide a Note Guarantee in accordance with the Indenture, to add Guarantees with respect to the Notes, to add security to or for the benefit of the Notes, or to effectuate or confirm and evidence the release, termination, discharge or retaking of any Note Guarantee or Lien (including the Notes Collateral and the Security Documents) or any amendment in respect thereof with respect to or securing the Notes when such release, termination, discharge or retaking or amendment is provided for under the Indenture, the Security Documents, the Intercreditor Agreement or any Additional Intercreditor Agreement;

(7) to conform the text of the Indenture, the Note Guarantees, the Security Documents or the Notes to any provision of this "Description of Notes" to the extent that such provision in this "Description of Notes" was intended to be a verbatim recitation of a provision of the Indenture, a Note Guarantee, the Security Documents or the Notes;

(8) to evidence and provide for the acceptance and appointment under the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement of a successor Trustee or Security Agent pursuant to the requirements thereof or to provide for the accession by the Trustee or Security Agent to any Notes Document; or

(9) as provided in "—*Certain Covenants—Additional Intercreditor Agreements*".

In formulating its decision on such matters, the Trustee shall be entitled to require and rely absolutely on such evidence as it deems necessary, including Officer's Certificates and Opinions of Counsel.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment. A consent to any amendment or waiver under the Indenture by any Holder of Notes given in connection with a tender of such Holder's Notes will not be rendered invalid by such tender.

For the purpose of calculating the aggregate principal amount of Notes that have consented to or voted in favor of any amendment, supplement or waiver, the Euro Equivalent of the principal amount of any Dollar Notes shall be as of the Issue Date.

For the avoidance of doubt, the provisions of articles 86 to 94-8 of the Luxembourg act dated 10 August 1915 on commercial companies, as amended, shall not apply in respect of the Notes.

For so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of such exchange so require, the Issuer will publish notice of any amendment, supplement and waiver in Luxembourg in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*). Such notice of any amendment, supplement and waiver may also be published on the website of the Luxembourg Stock Exchange (*www.bourse.lu*), to the extent and in the manner permitted by the rules of the Luxembourg Stock Exchange.

Acts by Holders

In determining whether the Holders of the required principal amount of the Notes have concurred in any direction, waiver or consent, the Notes owned by the Issuer or by any Person directly or indirectly controlling, or controlled by, or under direct or indirect common control with the Issuer will be disregarded and deemed not to be outstanding.

Defeasance

The Issuer at any time may terminate all obligations of the Issuer under the Notes and the Indenture ("*legal defeasance*") and cure all then existing Defaults and Events of Default, except for certain obligations, including those respecting the right to receive payment, defeasance trust, the rights, powers, trusts, duties, immunities and indemnities of the Trustee and the obligations of the Issuer in connection therewith and obligations concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust. Subject to the foregoing, if the Issuer exercises its legal defeasance option, the Security Documents and the rights of the Trustee and the Holders under the Intercreditor Agreement or any Additional Intercreditor Agreement in effect at such time will terminate (other than with respect to the defeasance trust).

The Issuer at any time may terminate its obligations under certain covenants described under "—*Certain Covenants*" and "*Change of Control*" and the default provisions relating to such covenants described under "*Events of Default*" above, the operation of the cross-default upon a payment default, the cross-acceleration provisions, the bankruptcy provisions with respect to the Issuer and Significant Subsidiaries, the judgment default provision, the guarantee provision and the security default provision described under "*Events of Default*" above ("*covenant defeasance*").

The Issuer at its option at any time may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Issuer exercises its legal defeasance option, payment of the Notes may not be accelerated because of an Event of Default with respect to such Notes. If the Issuer exercises its covenant defeasance option with respect to the Notes, payment of the Notes may not be accelerated because of an Event of Default specified in clause (3) (other than with respect to the first paragraph and clauses (1) and (2) of the first paragraph of the covenant described under "—*Certain Covenants—Merger and Consolidation*"), (4), (5), (6) (with respect only to the Issuer and Significant Subsidiaries), (7), (8) or (9) under "*Events of Default*" above.

In order to exercise either defeasance option, the Issuer must irrevocably deposit in trust (the "*defeasance trust*") with the Trustee (or an entity designated or appointed (as agent) by it for this purpose) cash in U.S. dollars or U.S. dollar-denominated U.S. Government Obligations or a combination thereof (in the case of the Dollar Notes) and cash in euro or euro- denominated European Government Obligations or a combination thereof (in the case of the Euro Notes) for the payment of principal, premium, if any, and interest on the Notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of:

(1) an Opinion of Counsel (subject to customary exceptions and exclusions) from United States counsel to the effect that Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance and will be subject to U.S. federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and in the case of legal defeasance only, such Opinion of Counsel from United States counsel must be based on a ruling of the U.S. Internal Revenue Service or other change in applicable U.S. federal income tax law);

(2) an Officer's Certificate stating that the deposit was not made by the Issuer with the intent of defeating, hindering, delaying, defrauding or preferring any creditors of the Issuer;

(3) an Officer's Certificate stating that all conditions precedent provided for or relating to legal defeasance or covenant defeasance, as the case may be, have been complied with; and

(4) an Opinion of Counsel to the effect that the trust resulting from the deposit does not constitute, or is qualified as, a regulated investment company under the U.S. Investment Company Act of 1940, as amended.

Satisfaction and Discharge

The Indenture, and the rights of the Trustee and the Holders under the Intercreditor Agreement, any Additional Intercreditor Agreement and the Security Documents will be discharged and cease to be of further effect (except as to surviving rights of conversion or transfer or exchange of the Notes, as expressly provided for in the Indenture) as to all outstanding Notes when (1) either (a) all the Notes previously authenticated and delivered (other than certain lost, stolen or destroyed Notes, and certain Notes for which provision for payment was previously made and thereafter the funds have been released to the Issuer) have been delivered to the relevant Paying Agent for cancellation; or (b) all Notes not previously delivered to the relevant Paying Agent for cancellation (i) have become due and payable, (ii) will become due and payable at their Stated Maturity within one year or (iii) are to be called for redemption within one year under arrangements reasonably satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuer; (2) the Issuer has deposited or caused to be deposited with the Trustee (or an entity designated or appointed (as agent) by it for this purpose), cash in U.S. dollars or U.S. dollar-denominated U.S. Government Obligations or a combination thereof (in the case of the Dollar Notes) and cash in euro or euro-denominated European Government Obligations or a combination thereof (in the case of the Euro Notes), in an amount sufficient to pay and discharge the entire Indebtedness on the Notes not previously delivered to the Trustee for cancellation, for principal, premium, if any, and interest to the date of deposit (in the case of Notes that have become due and payable), or to the Stated Maturity or redemption date, as the case may be; (3) the Issuer has paid or caused to be paid all other sums payable under the Indenture; and (4) the Issuer has delivered to the Trustee an Officer's Certificate to the effect that all conditions precedent under the "Satisfaction and Discharge" section of the Indenture relating to the satisfaction and discharge of the Indenture have been complied with.

No Personal Liability of Directors, Officers, Employees and Shareholders

No director, officer, employee, incorporator or shareholder of the Issuer or any of their respective Subsidiaries or Affiliates, as such, shall have any liability for any obligations of the Issuer under the Notes Documents or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the U.S. federal securities laws, and it is the view of the SEC that such a waiver is against public policy.

Listing and General Information

Application has been made to list the Notes on the Official List of the Luxembourg Stock Exchange and to admit the Notes to trading on the Euro MTF Market.

So long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on its Euro MTF Market and the rules and regulations of the Luxembourg Stock Exchange shall so require, copies, current and future, of all of the Issuer's annual audited consolidated financial statements, the Issuer's unaudited consolidated interim quarterly financial statements and these Listing Particulars may be obtained, without charge, during normal business hours at the registered office of the Issuer.

Available Information

Anyone who receives these Listing Particulars, any Holder of the Notes or holder of a beneficial interest in the Notes, following the Issue Date, may obtain a copy of the Indenture, the form of Notes, the Security Documents, the Escrow Agreement and the Intercreditor Agreement without charge by writing to the Issuer, 3 Boulevard Royal, L-2449 Luxembourg, Attention: Chief Financial Officer.

Concerning the Trustee and Certain Agents

Deutsche Bank AG, London Branch has been appointed as Trustee under the Indenture. The Indenture provides that, except during the continuance of an Event of Default, the Trustee will perform only such duties as are set forth specifically in the Indenture. The holders of a majority in aggregate principal amount of the then outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. During the existence of an Event of Default of which the Trustee has been notified in accordance with the provisions of the Indenture, the Trustee will exercise such of the rights and powers vested in it under the Indenture and use the same degree of care that a prudent Person would use in conducting its own affairs. The permissive rights of the Trustee to take or refrain from taking any action enumerated in the Indenture will not be construed as an obligation or duty.

The Issuer shall deliver written notice to the Trustee with thirty (30) days of becoming aware of the occurrence of a Default or Event of Default. The Indenture imposes certain limitations on the rights of the Trustee, should it become a creditor of the Issuer, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee and the Paying Agents and Registrars will be permitted to engage in other transactions with the Issuer and its Affiliates and Subsidiaries.

Any removal or resignation of the Trustee shall not become effective until the acceptance of appointment by the successor Trustee.

The Indenture contains provisions for the indemnification and/or security of the Trustee by the Issuer and the Guarantors for any loss, liability, taxes or expenses incurred without gross negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Indenture.

Notices

All notices to Holders of the Notes will be validly given if mailed to them at their respective addresses in the register of the Holders of such Notes, if any, maintained by the Registrar. In addition, for so long as any of the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, notices with respect to the Notes will be published in a newspaper having a general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) or, to the extent and in the manner permitted by such rules, posted on the official website of the Luxembourg Stock Exchange (*www.bourse.lu*).

Each such notice shall be deemed to have been given on the date of such publication or, if published more than once on different dates, on the first date on which publication is made; *provided* that, if notices are mailed, such notice shall be deemed to have been given on the later of such publication and the seventh day after being so mailed. Any notice or communication mailed to a Holder shall be mailed to such Person by first-class mail or other equivalent means and shall be sufficiently given to such Holder if so mailed within the time prescribed. Failure to mail a notice or communication to a Holder or any defect in it shall not affect its sufficiency with respect to other Holders. If a notice or communication is mailed in the manner provided above, it is duly given, whether or not the addressee receives it.

For Notes which are represented by global certificates held on behalf of DTC, Euroclear or Clearstream, notices may be given by delivery of the relevant notices to DTC, Euroclear or Clearstream for communication to entitled account holders in substitution for the aforesaid mailing.

Prescription

Claims against the Issuer or any Guarantor for the payment of principal, or premium, if any, on the Notes will be prescribed ten years after the applicable due date for payment thereof. Claims against the Issuer or any Guarantor for the payment of interest on the Notes will be prescribed five years after the applicable due date for payment of interest.

Currency Indemnity

The sole currency of account and payment for all sums payable by the Issuer and the Guarantors under or in connection with the Dollar Notes and Note Guarantees thereof is U.S. dollars and the Euro Notes and Note Guarantees thereof is euro, including damages. Any amount received or recovered in a currency other than U.S. dollars or euro, whether as a result of, or the enforcement of, a judgment or order of a court of any jurisdiction, in the winding-up or dissolution of the Issuer, any Guarantor or otherwise by any Holder or by the Trustee, in respect of any sum expressed to be due to it from the Issuer or a Guarantor will only constitute a discharge to the Issuer or such Guarantor, as applicable, to the extent of the U.S. dollar or euro amount, as the case may be, which the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If that U.S. dollar or euro amount is less than the U.S. dollar or euro amount expressed to be due to the recipient or the Trustee under any Note, the Issuer and the Guarantors will indemnify them against any loss sustained by such recipient or the Trustee as a result. In any event, the Issuer and the Guarantors will indemnify the recipient or the Trustee on a joint or several basis against the cost of making any such purchase. For the purposes of this currency indemnity provision, it will be prima facie evidence of the matter stated therein for the Holder of a Note or the Trustee to certify in a manner reasonably satisfactory to the Issuer (indicating the sources of information used) the loss it Incurred in making any such purchase. These indemnities constitute a separate and independent obligation from the Issuer's and the Guarantors' other obligations, will give rise to a separate and independent cause of action, will apply irrespective of any waiver granted by any Holder of a Note or the Trustee (other than a waiver of the indemnities set out herein) and will continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note, any Note Guarantee or to the Trustee.

Enforceability of Judgments

Since substantially all the assets of the Issuer and the other Guarantors are located outside the United States, any judgment obtained in the United States against the Issuer or any Guarantor, including judgments with respect to the payment of principal, premium, interest, Additional Amounts, if any, and any redemption price and any purchase price with respect to the Notes or the Note Guarantees, may not be collectable within the United States.

Consent to Jurisdiction and Service

In relation to any legal action or proceedings arising out of or in connection with the Indenture, the Notes and the Note Guarantees, the Issuer and each Guarantor will, in the Indenture, appoint CT Corporation System as its agent for service of process and irrevocably submit to the jurisdiction of the federal and state courts in the Borough of Manhattan in the City of New York, County and State of New York, United States.

Governing Law

The Indenture, the Notes and the Note Guarantees, and the rights and duties of the parties thereunder shall be governed by and construed in accordance with the laws of the State of New York. The application of the provisions set out in Articles 86 to 94 8 of the Luxembourg law dated August 10, 1915 on commercial companies, as amended, is excluded. The Intercreditor Agreement is, and the rights and duties of the parties thereunder are, governed by and construed in accordance with the laws of England and Wales. The Security Documents shall be governed by and construed in accordance with the laws of the Grand Duchy of Luxembourg, as applicable.

Certain Definitions

Set forth below are certain defined terms used in the Indenture. Reference is made to the Indenture for a full disclosure of all defined terms used therein, as well as any other capitalized terms used herein for which no definition is provided.

"*Acquired Indebtedness*" means Indebtedness (1) of a Person or any of its Subsidiaries existing at the time such Person becomes a Restricted Subsidiary, (2) assumed in connection with the acquisition of assets from such Person, in each case whether or not Incurred by such Person in connection with such Person becoming a Restricted Subsidiary or such acquisition or (3) of a Person at the time such Person merges with or into or consolidates or otherwise combines with the Issuer or any Restricted Subsidiary. Acquired Indebtedness shall be deemed to have been Incurred, with respect to clause (1) of the preceding sentence, on the date such Person becomes a Restricted Subsidiary and, with respect to clause (2) of the preceding sentence, on the date of consummation of such acquisition of assets and, with respect to clause (3) of the preceding sentence, on the date of the relevant merger, consolidation or other combination.

"*Additional Assets*" means:

(1) any property or assets (other than Indebtedness and Capital Stock) not classified as current assets under IFRS used or to be used by the Issuer or a Restricted Subsidiary or otherwise useful in a Similar Business (it being understood that capital expenditures on property or assets already used in a Similar Business or to replace any property or assets that are the subject of an Asset Disposition shall be deemed an investment in Additional Assets);

(2) the Capital Stock of a Person that is engaged in a Similar Business and becomes a Restricted Subsidiary as a result of the acquisition of such Capital Stock by the Issuer or a Restricted Subsidiary; or

(3) Capital Stock constituting a minority interest in any Person that at such time is a Restricted Subsidiary.

"*Affiliate*" of any specified Person means any other Person, directly or indirectly, controlling or controlled by or under direct or indirect common control with such specified Person. For the purposes of this definition, "control" when used with respect to any Person means the power to direct the management and policies of such Person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise; and the terms "controlling" and "controlled" have meanings correlative to the foregoing.

"*AI Mandatory Convertible Notes*" means the mandatory convertible notes issued by Altice International for an aggregate nominal amount of up to €2,055 million and subscribed to by the Issuer in connection with the Transactions.

"*Altice Credit Facility*" refers to the €200 million revolving facility agreement, dated as of May 8, 2014, as amended, restated, supplemented or otherwise modified from time to time, among the Issuer as initial borrower, the lenders from time to time party thereto, Deutsche Bank AG, London Branch as facility agent and Deutsche Bank AG, London Branch as security agent.

"*Altice France*" refers to Altice France S.A. a public limited liability company (*société anonyme*) incorporated under the laws of the Grand Duchy of Luxembourg.

"*Altice International New Notes*" means the Altice International New Senior Notes and the Altice International New Senior Secured Notes.

"*Altice International New Pari Passu RCF*" means the €501 million revolving credit facility agreement, dated on or about December 9, 2014, as amended, restated, supplemented or otherwise modified from time to time, among Altice Financing S.A., as borrower, the lenders from time to time party thereto, Citibank International Plc as facility agent and Citibank, N.A., London Branch, as security agent.

"*Altice International New RCFs*" means the Altice International New Pari Passu RCF and the Altice International New Super Senior RCF.

"*Altice International New Super Senior RCF*" means the €330 million revolving credit facility agreement, dated on or about the Issue Date as amended, restated, supplemented or otherwise modified from time to time, among Altice Financing S.A., as borrower, the lenders from time to time party thereto, Citibank International plc as facility agent and Citibank, N.A., London Branch, as security agent.

"*Altice International*" refers to Altice International S.à r.l. private limited company (*société a responsabilité limitée*) incorporated under the laws of the Grand Duchy of Luxembourg.

"*Altice International New Indentures*" means the Altice International New Senior Notes Indenture and the Altice International New Senior Secured Notes Indenture.

"*Altice International New Security Documents*" means the security agreements, pledge agreements, collateral assignments, and any other instrument and document executed and delivered pursuant to the Altice International New Indentures, the Altice International New Senior Credit Facility, or the Altice International New RCFs, as the case may be, as the same may be amended, supplemented or otherwise modified from time to time, creating the security interests as contemplated by the Altice International New Indentures, the Altice International New Senior Credit Facility, or the Altice International New RCFs, as applicable.

"*Altice International New Senior Notes*" means the $385 million aggregate principal amount of 7.625% senior notes due 2025 issued by Altice Finco S.A. on the Issue Date.

"*Altice International New Senior Notes Indenture*" means the indenture dated as of the Issue Date, as amended, among, inter alios, Altice Finco S.A., as issuer, the guarantors party thereto and the trustee and security agent party thereto, governing the Altice International New Senior Notes.

"*Altice International New Senior Credit Facility*" means the €841 million (equivalent as of the Issue Date) term loan credit agreement dated on or about the Issue Date between Altice Financing S.A. as borrower and the persons listed in Schedule 2.01 thereto as lenders, Deutsche Bank AG, London Branch as the Administrative Agent and Citibank, N.A., London Branch as Security Agent, as amended.

"*Altice International New Senior Secured Notes*" means collectively, (1) the €500 million aggregate principal amount of 5.250% senior secured notes due 2023 and (2) the $2,060 million aggregate principal amount of 6.625% senior secured notes due 2023, in each case issued by Altice Financing S.A. on the Issue Date.

"*Altice International New Senior Secured Notes Indenture*" means the indenture dated as of the Issue Date, as amended, among, inter alios, Altice Financing S.A., as issuer, the guarantors party thereto and the trustee and security agent party thereto, governing the Altice International New Senior Secured Notes.

"*Altice International New Term Loans*" means the term loans extended to Altice Financing pursuant to the Altice International New Senior Credit Facility.

"*Altice International Notes Escrow Accounts*" means the escrow accounts into which the proceeds of the Altice International New Notes were deposited on the Issue Date.

"*Altice International Notes Escrow Agreements*" means the escrow agreements governing the Altice International Notes Escrow Accounts dated as of the Issue Date, entered into with Deutsche Bank AG, London Branch as escrow agent and trustee.

"*Altice International Notes Security Documents*" means the security agreements, pledge agreements, collateral assignments, and any other instrument and document executed and delivered pursuant to the Altice International New Indentures, the indentures governing the Existing Altice International Senior Notes, or the indentures governing the Existing Altice International Senior Secured Notes, as the case may be, as the same may be amended, supplemented or otherwise modified from time to time, creating the security interests as contemplated by the Altice International New Indentures, the indentures governing the Existing Altice International Senior Notes, or the indentures governing the Existing Altice International Senior Secured Notes, as applicable.

"*Altice International Total Assets*" means the consolidated total assets of the Altice International and its Restricted Subsidiaries as shown on the most recent consolidated balance sheet of Altice International prepared on the basis of IFRS prior to the relevant date of determination calculated to give pro forma effect to any acquisitions (including through mergers or consolidations) and dispositions that have occurred subsequent to such period, including any such acquisitions to be made with the proceeds of Indebtedness giving rise to the need to calculate Altice International Total Assets.

"*Altice S.A. Proportionate Net Leverage Ratio*" means, as of any date of determination, the ratio of (A) the sum of (x) the Consolidated Net Leverage of the Issuer and its Restricted Subsidiaries (other than Numericable and its Restricted Subsidiaries) (excluding Hedging Obligations and any Indebtedness Incurred pursuant to clause (1) under the second paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*") and (y) in an amount proportionate to Altice France's equity interest in Numericable, the Consolidated Net Leverage of Numericable, to (B) the sum of (x) Pro forma EBITDA of the Issuer and its Restricted Subsidiaries (other than Numericable and its Restricted Subsidiaries) on a combined basis for the period of the most recent two consecutive fiscal quarters ending prior to the date of such determination for which internal financial statements of Numericable are available multiplied by 2.0 and (y) in an amount proportionate to Altice France's equity interest in Numericable, the aggregate amount of Pro forma EBITDA of Numericable and its Restricted Subsidiaries for the same period; *provided*, *however*, that the pro forma calculation of the Altice S.A. Proportionate Net Leverage Ratio shall not give effect to (i) any Indebtedness Incurred on the date of determination pursuant to the provisions described in the second paragraph under the caption "*—Certain Covenants—Limitation on Indebtedness*" or (ii) the discharge on the date of determination of any Indebtedness to the extent that such discharge results from the proceeds Incurred pursuant to the provisions described in the second paragraph under the caption "*—Certain Covenants—Limitation on Indebtedness*".

"*Applicable Premium*" means:

(A) with respect to any Dollar Note the greater of:

(i) 1% of the principal amount of such Dollar Note; and

(ii) the excess (to the extent positive) of:

(1) the present value at such redemption date of (i) the redemption price of such Dollar Note at February 15, 2020 (such redemption price (expressed in percentage of principal amount) being set forth in the table above under the first paragraph of the "—*Optional Redemption*" section described above (excluding accrued and unpaid interest)), plus (ii) all required interest payments due on such Dollar Note to and including February 15, 2020 (excluding accrued but unpaid interest), computed upon the redemption date using a discount rate equal to the Treasury Rate at such redemption date plus 50 basis points; over

(2) the outstanding principal amount of such Dollar Note,

(B) with respect to any Euro Note the greater of:

(i) 1% of the principal amount of such Euro Note; and

(ii) the excess (to the extent positive) of:

(1) the present value at such redemption date of (i) the redemption price of such Euro Note at February 15, 2020 (such redemption price (expressed in percentage of principal amount) being set forth in the table above under the first paragraph of the "—*Optional Redemption*" section described above (excluding accrued and unpaid interest)), plus (ii) all required interest payments due on such Euro Note to and including February 15, 2020 (excluding accrued but unpaid interest), computed upon the redemption date using a discount rate equal to the Bund Rate at such redemption date plus 50 basis points; over

(2) the outstanding principal amount of such Euro Note,

in each case, as calculated by the Issuer or on behalf of the Issuer by such Person as the Issuer shall designate. For the avoidance of doubt, calculation of the Applicable Premium shall not be an obligation or duty of the Trustee or Paying Agents.

"*Asset Disposition*" means, with respect to the Issuer and the Restricted Subsidiaries any direct or indirect sale, lease (other than an operating lease entered into in the ordinary course of business), transfer, issuance or other disposition, or a series of related sales, leases (other than operating leases entered into in the ordinary course of business), transfers, issuances or dispositions that are part of a common plan, of shares of Capital Stock of a Subsidiary (other than directors' qualifying shares), property or other assets (each referred to for the purposes of this definition as a "disposition") by the Issuer or any of the Restricted Subsidiaries, including any disposition by means of a merger, consolidation or similar transaction; *provided* that the sale, lease, transfer, issuance or other disposition of all or substantially all of the assets of the Issuer and the Restricted Subsidiaries taken as a whole are governed by the provisions of the Indenture described above under the caption "Change of Control" and/or the provisions described above under the caption "—*Certain Covenants—Merger and Consolidation*" and not by the provisions described under the caption "—*Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*". Notwithstanding the preceding provisions of this definition, the following items shall not be deemed to be Asset Dispositions:

(1) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, by a Restricted Subsidiary to the Issuer or by the Issuer or a Restricted Subsidiary to a Restricted Subsidiary (other than by Altice International or any of its Restricted Subsidiaries to Numericable or any of its Restricted Subsidiaries);

(2) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of cash, Cash Equivalents, Temporary Cash Investments or Investment Grade Securities;

(3) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of inventory, consumer equipment, trading stock, communications capacity or other assets in the ordinary course of business;

(4) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of obsolete, surplus or worn out equipment or other assets or equipment or other similar assets that are no longer useful in the conduct of the business of the Issuer and its Restricted Subsidiaries;

(5) transactions permitted under "—*Certain Covenants—Merger and Consolidation*" (other than as permitted under clause (C) of the first paragraph under "—Certain Covenants—Merger and Consolidation—The Guarantors") or a transaction that constitutes a Change of Control;

(6) an issuance of Capital Stock by a Restricted Subsidiary to the Issuer or to another Restricted Subsidiary or as part of or pursuant to an equity incentive or compensation plan approved by the Board of Directors of the Issuer;

(7) (a) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of Capital Stock, properties or assets in a single transaction or series of related transactions with a fair market value (as determined in good faith by the Issuer) not to exceed:

(i) if such disposition or series of related dispositions relates to assets owned by the Issuer or any of its Restricted Subsidiaries (other than Altice International, Numericable and their respective Restricted Subsidiaries), the fair market value of Capital Stock, properties or assets does not exceed €100 million;

(ii) if such disposition or series of related dispositions relates to assets owned by Altice International or any of its Restricted Subsidiaries, the fair market value of Capital Stock, properties or assets does not exceed the greater of €125 million and 1.0% of Altice International Total Assets; and

(iii) if such disposition or series of related dispositions relates to assets owned by Numericable or any of its Restricted Subsidiaries, the fair market value of Capital Stock, properties or assets does not exceed €150 million; and

(b) a transfer of Capital Stock of HOT pursuant to the exercise of a Minority Shareholder Call Option as in effect on December 12, 2012;

(8) (i) any Restricted Payment that is permitted to be made under the covenant described above under "—*Certain Covenants—Limitation on Restricted Payments*" or (ii) solely for the purposes of the second paragraph under "—*Certain Covenants—Limitation on Sale of Assets and Subsidiary Stock*", a disposition, the proceeds of which are used to make Restricted Payments permitted to be made under the covenant described above under "—*Certain Covenants—Limitation on Restricted Payments*";

(9) the granting of Liens not prohibited by the covenant described above under the caption "—*Certain Covenants—Limitation on Liens*";

(10) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of receivables in connection with the compromise, settlement or collection thereof in the ordinary course of business or in bankruptcy or similar proceedings and exclusive of factoring or similar arrangements;

(11) the licensing or sublicensing of intellectual property or other general intangibles and licenses, sublicenses, leases, subleases of other property, in each case, in the ordinary course of business;

(12) foreclosure, condemnation or any similar action with respect to any property or other assets;

(13) the sale or discount (with or without recourse, and on customary or commercially reasonable terms) of accounts receivable or notes receivable arising in the ordinary course of business, or the conversion or exchange of accounts receivable for notes receivable;

(14) sales, transfers or dispositions of receivables in connection with any Qualified Receivables Financing or any factoring transaction or in the ordinary course of business;

(15) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of Capital Stock, Indebtedness or other securities of an Unrestricted Subsidiary;

(16) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of Capital Stock of a Restricted Subsidiary pursuant to an agreement or other obligation with or to a Person (other than the Issuer or a Restricted Subsidiary) from whom such Restricted Subsidiary was acquired, or from whom such Restricted Subsidiary acquired its business and

assets (having been newly formed in connection with such acquisition), made as part of such acquisition and in each case comprising all or a portion of the consideration in respect of such sale or acquisition;

(17) any surrender or waiver of contract rights or the settlement, release or surrender of contract, tort or other claims of any kind;

(18) (a) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of assets of Altice International or any of its Restricted Subsidiaries to a Person who is providing services related to such assets, the provision of which have been or are to be outsourced by Altice International or any of its Restricted Subsidiaries to such Person; *provided, however*, that the Board of Directors of the Issuer or Altice International shall certify that in the opinion of the Board of Directors, the outsourcing transaction will be economically beneficial to Altice International and its Restricted Subsidiaries (considered as a whole);

(b) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of assets of Numericable or any of its Restricted Subsidiaries to a Person who is providing services related to such assets, the provision of which have been or are to be outsourced by Numericable or any of its Restricted Subsidiaries to such Person; *provided, however*, that (1) the Board of Directors of the Issuer or Numericable shall certify that in the opinion of the Board of Directors, the outsourcing transaction will be economically beneficial to Numericable and its Restricted Subsidiaries (considered as a whole); and (2) that the fair market value of the assets disposed of, when taken together with all other dispositions made pursuant to this clause (18)(b), does not exceed the greater of €100 million and 1.0% of Numericable Total Assets;

(19) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, with respect to property built, owned or otherwise acquired by the Issuer or any Restricted Subsidiary pursuant to customary sale and lease-back transactions, asset securitizations and other similar financings permitted by the Indenture; provided that network assets of the Issuer or any Restricted Subsidiary shall be excluded from this clause (19) unless the Net Cash Proceeds of such sale and leaseback transaction are applied in accordance with the second paragraph of the covenant described under "*Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*"; and

(20) any sale, lease, transfer, conveyance or other disposition in one or a series of related transactions of any assets of Altice International and its Subsidiaries or of any Person that becomes a Restricted Subsidiary (including the Target and its Subsidiaries (including the Capital Stock of the Target or any Subsidiary of Altice International or the Target)) that is required pursuant to Competition Laws in relation to the Target Acquisition or is taken to avoid or eliminate any impediment under Competition Laws in relation to the Target Acquisition (including, without limitation, in response to any actions initiated by an administrative, regulatory or other governmental authority or private party under Competition Laws) to the extent that the fair market value of any such sold, leased, transferred, conveyed or disposed of assets does not exceed 2.0% of Altice International Total Assets (on a pro forma consolidated basis, including, without limitation, the Target and its Subsidiaries that are Restricted Subsidiaries).

"*Associate*" means (i) any Person engaged in a Similar Business of which the Issuer or a Restricted Subsidiary are the legal and beneficial owners of between 20% and 50% of all outstanding Voting Stock and (ii) any joint venture engaged in a Similar Business entered into by the Issuer or any Restricted Subsidiary.

"*Beneficial Owner*" has the meaning assigned to such term in Rule 13d-3 and Rule 13d-5 under the U.S. Exchange Act, except that in calculating the beneficial ownership of any particular "person" (as that term is used in Section 13(d)(3) of the Exchange Act), such "person" will be deemed to have beneficial ownership of all securities that such "person" has the right to acquire by conversion or exercise of other securities, whether such right is currently exercisable or is exercisable only after the passage of time. The terms "Beneficially Owns" and "Beneficially Owned" have a corresponding meaning.

"*Board of Directors*" means (1) with respect to the Issuer or any corporation, the board of directors or managers, as applicable, of the corporation, or any duly authorized committee thereof; (2) with respect to any partnership, the board of directors or other governing body of the general partner of the partnership or any duly authorized committee thereof; and (3) with respect to any other Person, the board or any duly authorized committee of such Person serving a similar function. Whenever any provision of the Indenture requires any action or determination to be made by, or any approval of, a Board of Directors, such action, determination or approval shall be deemed to have been taken or made if approved by a majority of the directors on any such Board of Directors (whether or not such action or approval is taken as part of a formal board meeting or as a formal board approval).

"*Bund Rate*" means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity as of such date of the Comparable German Bund Issue, assuming a price for the Comparable German Bund Issue (expressed as a percentage of its principal amount) equal to the Comparable German Bund Price for such redemption date, where:

(1) "Comparable German Bund Issue" means the German Bundesanleihe security selected by any Reference German Bund Dealer as having a fixed maturity most nearly equal to the period from such redemption date to February 15, 2020 and that would be utilized at the time of selection and in accordance with customary financial practice, in pricing new issues of euro-denominated corporate debt securities in a principal amount approximately equal to the then outstanding principal amount of the Euro Notes and of a maturity most nearly equal to February 15, 2020; *provided, however*, that, if the period from such redemption dated to February 15, 2020 is not equal to the fixed maturity of the German Bundesanleihe security selected by such Reference German Bund Dealer, the Bund Rate shall be determined by linear interpolation (calculated to the nearest one-twelfth of a year) from the yields of German Bundesanleihe securities for which such yields are given, except that if the period from such redemption date to February 15, 2020, is less than one year, a fixed maturity of one year shall be used;

(2) "Comparable German Bund Price" means, with respect to any redemption date, the average of all Reference German Bund Dealer Quotations for such date (which, in any event, must include at least two such quotations), after excluding the highest and lowest such Reference German Bund Dealer Quotations, or if the Issuer obtains fewer than four such Reference German Bund Dealer Quotations, the average of all such quotations;

(3) "Reference German Bund Dealer" means any dealer of German Bundesanleihe securities appointed by the Issuer in good faith; and

(4) "Reference German Bund Dealer Quotations" means, with respect to each Reference German Bund Dealer and any redemption date, the average as determined by the Issuer in good faith of the bid and offered prices for the Comparable German Bund Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Issuer by such Reference German Bund Dealer at 3:30 p.m. Frankfurt, Germany, time on the third Business Day preceding the redemption date.

"*Business Day*" means each day that is not a Saturday, Sunday or other day on which banking institutions in London, United Kingdom, the Grand Duchy of Luxembourg or New York, New York, United States are authorized or required by law to close.

"*Capital Stock*" of any Person means any and all shares of, interests, rights to purchase, warrants or options for, participation or other equivalents of, or partnership or other interests in (however designated), equity of such Person, including any Preferred Stock, but excluding any debt securities convertible into such equity.

"*Capitalized Lease Obligations*" means an obligation that is required to be classified and accounted for as a capitalized lease for financial reporting purposes on the basis of IFRS. The amount of Indebtedness will be, at the time any determination is to be made, the amount of such obligation required to be capitalized on a balance sheet (excluding any notes thereto) prepared in accordance with IFRS, and the stated maturity thereof will be the date of the last payment of rent or any other amount due under such lease prior to the first date such lease may be terminated without penalty. For the avoidance of doubt, operating leases will not be deemed Capitalized Lease Obligations.

"*Cash Equivalents*" means:

(1) securities issued or directly and fully Guaranteed or insured by the United States Government, the United Kingdom, Switzerland or any member state of the European Union, in each case, any agency or instrumentality of thereof (provided that the full faith and credit of such country or such member state is pledged in support thereof), having maturities of not more than two years from the date of acquisition;

(2) certificates of deposit, time deposits, eurodollar time deposits, overnight bank deposits or bankers' acceptances having maturities of not more than one year from the date of acquisition thereof issued by a bank or trust company (a) whose commercial paper is rated at least "A-1 "or the equivalent thereof by S&P or at least "P-1" or the equivalent thereof by Moody's (or if at the time neither is issuing comparable ratings, then a comparable rating of another Nationally Recognized Statistical Rating Organization) or (b) (in the event that such bank or trust company does not have commercial paper which is rated) having combined capital and surplus in excess of €500 million;

(3) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clauses (1) and (2) entered into with any bank meeting the qualifications specified in clause (2) above;

(4) commercial paper rated at the time of acquisition thereof at least "A-2" or the equivalent thereof by S&P or "P-2" or the equivalent thereof by Moody's or carrying an equivalent rating by a Nationally Recognized Statistical Rating Organization, if both of the two named rating agencies cease publishing ratings of investments or, if no rating is available in respect of the commercial paper, the issuer of which has an equivalent rating in respect of its long-term debt, and in any case maturing within one year after the date of acquisition thereof;

(5) readily marketable direct obligations issued by any state of the United States of America, any member of the European Union or any political subdivision thereof, in each case, having one of the two highest rating categories obtainable from either Moody's or S&P (or, if at the time, neither is issuing comparable ratings, then a comparable rating of another Nationally Recognized Statistical Rating Organization) with maturities of not more than two years from the date of acquisition;

(6) Indebtedness or preferred stock issued by Persons with a rating of "BBB−" or higher from S&P or "Baa3" or higher from Moody's (or, if at the time, neither is issuing comparable ratings, then a comparable rating of another Nationally Recognized Statistical Rating Organization) with maturities of 12 months or less from the date of acquisition;

(7) bills of exchange issued in the United States, a member state of the European Union, eligible for rediscount at the relevant central bank and accepted by a bank (or any dematerialized equivalent); and

(8) interests in any investment company, money market or enhanced high yield fund which invests 95% or more of its assets in instruments of the type specified in clauses (1) through (7) above.

"*Change of Control*" means:

(1) the consummation of any transaction (including, without limitation, any merger or consolidation), the result of which is that any Person (including any "person" (as that term is used in Section 13(d)(3) of the Exchange Act)) other than one or more Permitted Holders becomes the Beneficial Owner, directly or indirectly, of more than 50% of the issued and outstanding Voting Stock of the Issuer, measured by voting power rather than number of shares;

(2) during any period of two consecutive years, individuals who at the beginning of such period constituted the majority of the directors on the Board of Directors of the Issuer (together with any new directors whose election by the majority of such directors on such Board of Directors of the Issuer or whose nomination for election by shareholders of the Issuer, as applicable, was approved by a vote of the majority of such directors on the Board of Directors of the Issuer then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) ceased for any reason to constitute the majority of the directors on the Board of Directors of the Issuer, then in office; or

(3) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger, consolidation or other business combination transaction), in one or a series of related transactions, of all or substantially all of the assets of the Issuer and its Restricted Subsidiaries, taken as a whole, to a Person (including any "person" as defined above), other than a Permitted Holder; *provided* that a Change of Control shall be deemed not to have occurred as a result of the sale, lease, transfer, conveyance or other disposition in one or a series of related transactions of any assets of Altice International and its Subsidiaries or the Target and its Subsidiaries (including the Capital Stock of the Target or any Subsidiary of Altice International or the Target) that is required pursuant to Competition Laws in relation to the Target Acquisition or is taken to avoid or eliminate any impediment under Competition Laws in relation to the Target Acquisition (including, without limitation, in response to any actions initiated by an administrative, regulatory or other governmental authority or private party under Competition Laws); *provided further* that, solely to the extent the Issuer is relying on this provision as an exemption from the requirement to make a Change of Control Offer, in the event the fair market value of any such sold, leased, transferred, conveyed or disposed of assets exceeds 2.0% of Altice International Total Assets (on a pro forma consolidated basis, including, without limitation, the Target and its Subsidiaries that are Restricted Subsidiaries), (i) the Consolidated Net Leverage Ratio of Altice International and its Restricted Subsidiaries (on a pro forma consolidated basis, including, without limitation, the Target and its Subsidiaries that are Restricted Subsidiaries and taking into account any repayment or repurchase of Indebtedness pursuant to clause (ii)) shall not increase; and (ii) the Issuer shall promptly make an offer to all holders of the Existing Altice International Term Loans and, to the extent required by the terms of any Pari Passu Indebtedness that is not Public Debt, any such Pari Passu Indebtedness to repay or repurchase such Existing Altice International Term Loans and Pari Passu Indebtedness at a price of 100% of the principal amount thereof plus accrued and unpaid interest thereon to the date of redemption in an amount equal to the Net Cash Proceeds of such sale, lease, transfer, conveyance or other disposition (on a *pro rata* basis on the basis of the aggregate principal amount of tendered Existing Altice International Term Loans or Pari Passu

Indebtedness) and in the event the principal amount of Existing Altice International Term Loans or Pari Passu Indebtedness tendered is less than the amount of such Net Cash Proceeds, the Issuer shall apply any such remaining proceeds to prepay an equal principal amount of Existing Altice International Term Loans or Pari Passu Indebtedness at par on a *pro rata* basis.

"*Coditel Senior Credit Facility*" means senior facilities agreement, dated November 29, 2011, inter alios, Coditel Holding Lux S.a r.l. as parent, Coditel Holding as the company, GE Corporate Finance Bank S.A.S., HSBC France, ING Belgium SA/NV, KBC Bank NV and Natixis as mandated lead arrangers ING Bank N.V. as agent and security agent.

"*Commodity Hedging Agreements*" means, in respect of a Person, any commodity purchase contract, commodity futures or forward contract, commodities option contract or other similar contract (including commodities derivative agreements or arrangements), to which such Person is a party or a beneficiary.

"*Competition Laws*" means any federal, state, foreign, multinational or supranational antitrust, competition or trade regulation statutes, rules, regulations, orders, decrees, administrative and judicial doctrines and other laws that are designed or intended to prohibit, restrict or regulate actions or transactions having the purpose or effect of monopolization or restraint of trade or lessening of competition through merger or acquisition or effectuating foreign investment.

"*Completion Date*" means the date on which the Target Acquisition is consummated.

"*Consolidated EBITDA*" for any period means, without duplication, the Consolidated Net Income of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) for such period, plus the following to the extent deducted in calculating such Consolidated Net Income (in each case of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable)):

(1) Consolidated Interest Expense and Receivables Fees;

(2) Consolidated Income Taxes;

(3) consolidated depreciation expense;

(4) consolidated amortization and impairment expense;

(5) any expenses, charges or other costs related to any Equity Offering, Investment, acquisition (including amounts paid in connection with the acquisition or retention of one or more individuals comprising part of a management team retained to manage the acquired business; provided that such payments are made in connection with such acquisition and are consistent with the customary practice in the industry at the time of such acquisition), disposition, recapitalization or the Incurrence of any Indebtedness permitted by the Indenture (whether or not successful) (including, as applicable, any such fees, expenses or charges related to the December 2013 Transactions, the July 2013 Transactions, the December 2012 Transactions, the Initial Public Offering, the Numericable Initial Public Offering, the SFR Transactions and the Transactions), in each case, as determined in good faith by the Issuer (or, if the calculation relates to Altice International, Altice France or Numericable, by Altice International, Altice France or Numericable, as applicable);

(6) any minority interest expense (whether paid or not) consisting of income attributable to minority equity interests of third parties in such period or any prior period or any net earnings, income or share of profit of any Associates, associated company or undertaking;

(7) the amount of management, monitoring, consultancy and advisory fees and related expenses paid in such period (or accruals relating to such fees and related expenses) to any Permitted Holder (whether directly or indirectly, through any Parent) to the extent permitted by the covenant described under "*Certain Covenants—Limitation on Affiliate Transactions*", *provided* that any payments for such fees and related expense shall not be included in Consolidated EBITDA for any period to the extent they were accrued for in such period or any prior period and added back to Consolidated EBITDA in such period or any such prior period; and

(8) other non-cash charges, write-downs or items reducing Consolidated Net Income (excluding any such non-cash charge, write-down or item to the extent it represents an accrual of or reserve for cash charges in any future period) or other non-cash items classified by the Issuer (or, if the calculation relates to Altice International or Numericable, by Altice International or Numericable, as applicable) as special items less other non-cash items of income increasing Consolidated Net Income (other than any non-cash items increasing such Consolidated Net

Income pursuant to clauses (1) through (14) of the definition of Consolidated Net Income and excluding any such non-cash item of income to the extent it represents a receipt of cash in any future period).

"*Consolidated Income Taxes*" means taxes or other payments, including deferred Taxes, based on income, profits or capital of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) whether or not paid, estimated, accrued or required to be remitted to any governmental authority.

"*Consolidated Interest Expense*" means, for any period (in each case, determined on the basis of IFRS), the consolidated net interest income/expense of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable), whether paid or accrued, plus or including (without duplication) any interest, costs and charges consisting of:

(1) interest expense attributable to Capitalized Lease Obligations;

(2) amortization of debt discount, but excluding amortization of debt issuance costs, fees and expenses and the expensing of any bridge or other financing fees;

(3) non-cash interest expense;

(4) dividends or other distributions in respect of all Disqualified Stock of the Issuer and all Preferred Stock of any Restricted Subsidiary, to the extent held by Persons other than the Issuer or a Subsidiary of the Issuer (or, if the calculation relates to Altice International or Numericable, to the extent held by Persons other than Altice International or a Subsidiary of Altice International or Numericable or a Subsidiary of Numericable, as applicable);

(5) the consolidated interest expense that was capitalized during such period;

(6) net payments and receipts (if any) pursuant to Hedging Obligations (other than Currency Agreements) (excluding unrealized mark-to-market gains and losses attributable to Hedging Obligations (other than Currency Agreements)); and

(7) any interest actually paid by the Issuer or any Restricted Subsidiary on Indebtedness of another Person that is guaranteed by the Issuer or any Restricted Subsidiary or secured by a Lien on assets of the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International, Altice France or Numericable, any interest actually paid by Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable, on Indebtedness of another Person that is guaranteed by Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable, or secured by a Lien on assets of Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable).

Notwithstanding any of the foregoing, Consolidated Interest Expense shall not include (i) any interest accrued, capitalized or paid in respect of Subordinated Shareholder Funding (or, if the calculation relates to Altice International or Numericable, any interest accrued, capitalized or paid in respect of any subordinated shareholder funding (defined in a similar manner to Subordinated Shareholder Funding under the Indenture), (ii) any commissions, discounts, yield and other fees and charges related to a Qualified Receivables Financing, (iii) any payments on any operating leases, including without limitation any payments on any lease, concession or license of property (or Guarantee thereof) which would be considered an operating lease under IFRS as in effect on the Issue Date, (iv) net payments and receipts (if any) pursuant to Currency Agreements (excluding unrealized mark-to-market gains and losses attributable to Hedging Obligations) and (v) any pension liability interest costs.

"*Consolidated Net Income*" means, for any period, the net income (loss) of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) determined on a consolidated basis on the basis of IFRS; *provided*, *however*, that there will not be included in such Consolidated Net Income:

(1) subject to the limitations contained in clause (3) below, any net income (loss) of any Person if such Person is not a Restricted Subsidiary, except that the Issuer's equity in the net income of any such Person for such period will be included in such Consolidated Net Income up to the aggregate amount of cash or Cash Equivalents actually distributed by such Person during such period to the Issuer or a Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, to Altice International or any of its Restricted Subsidiaries or

Numericable or any of its Restricted Subsidiaries, as applicable) as a dividend or other distribution or return on investment;

(2) [Reserved];

(3) any net gain (or loss) realized upon the sale, abandonment or other disposition of any asset or disposed operations of the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, of Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) (including pursuant to any sale/leaseback transaction) which is not sold or otherwise disposed of in the ordinary course of business (as determined in good faith by an Officer of the Issuer (or, if the calculation relates to Altice International or Numericable, by an Officer of Altice International or Numericable, as applicable));

(4) any extraordinary, exceptional, unusual or nonrecurring gain, loss, charge or expense or any charges, expenses or reserves in respect of any restructuring, redundancy or severance or any expenses, charges, reserves, gains or other costs related to, as applicable, the December 2012 Transactions, the July 2013 Transactions, the Initial Public Offering, the December 2013 Transactions, the Numericable Initial Public Offering, the SFR Transactions and the Transactions;

(5) the cumulative effect of a change in accounting principles;

(6) any non-cash compensation charge or expense arising from any grant of stock, stock options or other equity based awards and any non-cash deemed finance charges in respect of any pension liabilities or other provisions;

(7) all deferred financing costs written off and premiums paid or other expenses incurred directly in connection with any early extinguishment of Indebtedness and any net gain (loss) from any write-off or forgiveness of Indebtedness;

(8) any unrealized gains or losses in respect of Hedging Obligations or other derivative instruments or any ineffectiveness recognized in earnings related to qualifying hedge transactions or the fair value or changes therein recognized in earnings for derivatives that do not qualify as hedge transactions, in each case, in respect of Hedging Obligations or other derivative instruments;

(9) any unrealized foreign currency translation gains or losses in respect of Indebtedness of any Person denominated in a currency other than the functional currency of such Person and any unrealized foreign exchange gains or losses relating to translation of assets and liabilities denominated in foreign currencies;

(10) any unrealized foreign currency translation or transaction gains or losses in respect of Indebtedness or other obligations of the Issuer or any Restricted Subsidiary owing to the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, in respect of Indebtedness or other obligations of Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable, owing to Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable);

(11) any one-time non-cash charges or any increases in amortization or depreciation resulting from purchase accounting, in each case, in relation to any acquisition of another Person or business or resulting from any reorganization or restructuring involving the Issuer or its Subsidiaries (or, if the calculation relates to Altice International or Numericable, involving Altice International or its Subsidiaries or Numericable or its Subsidiaries, as applicable);

(12) any goodwill or other intangible asset impairment charge or write-off;

(13) the impact of capitalized, accrued or accreting or pay-in- kind interest or principal on Subordinated Shareholder Funding (or, if the calculation relates to Altice International or Numericable, on any subordinated shareholder funding (defined in a similar manner to Subordinated Shareholder Funding under the Indenture)); and

(14) the amount of management, monitoring, consultancy and advisory fees and related expenses paid in such period (or accruals relating to such fees and related expenses) to any Permitted Holder (whether directly or indirectly, through any Parent) to the extent permitted by the covenant described under "*Certain Covenants—Limitation on Affiliate Transactions*".

"*Consolidated Net Leverage*" means (A) the sum, without duplication, of the aggregate outstanding Indebtedness of the Issuer and its Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) on a consolidated basis (excluding (i) Hedging Obligations and (ii) other than for purposes of the covenant described under "*—Certain Covenants—Limitation on Restricted Payments*", any Indebtedness Incurred pursuant to clause (1) under the second paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*"), less (B) the aggregate amount of cash and Cash Equivalents of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) on a consolidated basis.

"*Consolidated Net Leverage Ratio*" means, as of any date of determination, the ratio of (x) Consolidated Net Leverage of the Issuer and its Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) at such date to (y) the aggregate amount of Pro forma EBITDA of the Issuer and its Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) for the period of the most recent two consecutive fiscal quarters ending prior to the date of such determination for which internal financial statements of the Issuer (or, if the calculation relates to Altice International or Numericable, for which internal financial statements of Altice International or Numericable, as applicable) are available multiplied by 2.0; *provided*, *however*, that the *pro forma* calculation of the Consolidated Net Leverage Ratio shall not give effect to (i) any Indebtedness Incurred on the date of determination pursuant to the provisions described in the second paragraph under the caption "*—Certain Covenants—Limitation on Indebtedness*" or (ii) the discharge on the date of determination of any Indebtedness to the extent that such discharge results from the proceeds Incurred pursuant to the provisions described in the second paragraph under the caption "*—Certain Covenants—Limitation on Indebtedness*".

For the avoidance of doubt, in determining Consolidated Net Leverage Ratio, no cash or Cash Equivalents shall be included that are the proceeds of Indebtedness in respect of which the calculation of the Consolidated Net Leverage Ratio is to be made.

"*Consolidation Event*" means the occurrence of the following event: the Issuer directly or indirectly owns or controls at least 75% of the Capital Stock of Numericable.

"*Contingent Obligations*" means, with respect to any Person, any obligation of such Person guaranteeing in any manner, whether directly or indirectly, any operating lease, dividend or other obligation that does not constitute Indebtedness ("primary obligations") of any other Person (the "primary obligor"), including any obligation of such Person, whether or not contingent:

(1) to purchase any such primary obligation or any property constituting direct or indirect security therefor;

(2) to advance or supply funds:

  (a) for the purchase or payment of any such primary obligation; or

  (b) to maintain the working capital or equity capital of the primary obligor or otherwise to maintain the net worth or solvency of the primary obligor; or

(3) to purchase property, securities or services primarily for the purpose of assuring the owner of any such primary obligation of the ability of the primary obligor to make payment of such primary obligation against loss in respect thereof.

"*Cool*" means Cool Holding Ltd., a public limited company (société anonyme) incorporated and existing under the laws of the State of Israel and the Grand Duchy of Luxembourg having its registered office at 3 Boulevard Royal, L-2449 Luxembourg and registered with the Luxembourg Trade and Companies' Register under number B152.495.

"*Credit Facility*" means, with respect to the Issuer or any of its Subsidiaries, one or more debt facilities, arrangements, instruments, trust deeds, note purchase agreements or indentures or commercial paper facilities and overdraft facilities (including the Existing Altice International Guarantee Facility, the Existing Altice International RCFs, the Existing Altice International Senior Credit Facility, the Altice International New RCFs, the Altice International New Senior Credit Facility, Numericable Senior Credit Facility, the Altice Credit Facility and Numericable RCF) with banks, institutions, funds or investors providing for revolving credit loans, term loans, receivables financing (including through the sale of receivables to such institutions or to special purpose entities formed to borrow from such institutions against such receivables), notes, bonds, debentures letters of credit or other Indebtedness, in each case, as amended, restated, modified, renewed, refunded, replaced, restructured, refinanced, repaid, increased or extended in whole or in part from time to time (and whether in whole or in part and whether or not with the original administrative agent and lenders or another administrative agent or agents or trustees or other banks, institutions or investors and whether provided under one or more credit or other agreements, indentures, financing agreements or otherwise) and in each case including all agreements, instruments and documents executed and delivered pursuant to or in connection with the foregoing (including any notes and letters of credit issued pursuant thereto and any Guarantee and collateral agreement, patent and trademark security agreement, mortgages or letter of credit applications and other Guarantees, pledges, agreements, security agreements and collateral documents). Without limiting the generality of the foregoing, the term "Credit Facility" shall include any agreement or instrument (1) changing the maturity of any Indebtedness Incurred thereunder or contemplated thereby, (2) adding Subsidiaries of the Issuer as additional borrowers or guarantors thereunder, (3) increasing the amount of Indebtedness Incurred thereunder or available to be borrowed thereunder or (4) otherwise altering the terms and conditions thereof.

"*Currency Agreement*" means, in respect of a Person, any foreign exchange contract, currency swap agreement, currency futures contract, currency option contract, cap, floor, ceiling, collar, currency derivative or other similar agreement to which such Person is a party or beneficiary.

"*December 2012 Transactions*" means the Take-Private Transaction and the related refinancings and financings consummated on December 27, 2012.

"*December 2013 Transactions*" means the transactions described under "The Transactions" in the offering memorandum dated December 5, 2013 relating to the $1,309 million equivalent senior secured notes due 2022, in each case issued by Altice Financing S.A. and the $400 million aggregate principal amount of $8^1/_8$% senior notes due 2024, in each case issued by Altice Finco S.A.

"*Default*" means any event which is, or after giving notice or with the passage of time or both would be, an Event of Default.

"*Designated Non-Cash Consideration*" means the fair market value (as determined in good faith by the Issuer) of non-cash consideration received by the Issuer or a Restricted Subsidiary in connection with an Asset Disposition that is so designated as Designated Non-Cash Consideration pursuant to an Officer's Certificate, setting forth the basis of such valuation, less the amount of cash, Cash Equivalents or Temporary Cash Investments received in connection with a subsequent payment, redemption, retirement, sale or other disposition of such Designated Non-Cash Consideration. A particular item of Designated Non-Cash Consideration will no longer be considered to be outstanding when and to the extent it has been paid, redeemed or otherwise retired or sold or otherwise disposed of in compliance with the covenant described under "*—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*".

"*Designated Preference Shares*" means, with respect to the Issuer, Preferred Stock (other than Disqualified Stock) (a) that is issued for cash (other than to the Issuer or a Subsidiary of the Issuer or an employee stock ownership plan or trust established by the Issuer or any such Subsidiary for the benefit of their employees to the extent funded by the Issuer or such Subsidiary) and (b) that is designated as "Designated Preference Shares" pursuant to an Officer's Certificate of the Issuer at or prior to the issuance thereof.

"*Disinterested Director*" means, with respect to any Affiliate Transaction, a member of the Board of Directors of the Issuer having no material direct or indirect financial interest in or with respect to such Affiliate Transaction. A member of the Board of Directors of the Issuer shall be deemed not to have such a financial interest by reason of such member's holding Capital Stock of the Issuer or any Parent or any options, warrants or other rights in respect of such Capital Stock.

"*Disqualified Stock*" means, with respect to any Person, any Capital Stock of such Person which by its terms (or by the terms of any security into which it is convertible or for which it is exchangeable) or upon the happening of any event:

(1) matures or is mandatorily redeemable for cash or in exchange for Indebtedness pursuant to a sinking fund obligation or otherwise;

(2) is convertible or exchangeable for Indebtedness or Disqualified Stock (excluding Capital Stock which is convertible or exchangeable solely at the option of the Issuer or a Restricted Subsidiary); or

(3) is or may become (in accordance with its terms) upon the occurrence of certain events or otherwise redeemable or repurchasable for cash or in exchange for Indebtedness at the option of the holder of the Capital Stock in whole or in part,

in each case, on or prior to the earlier of (a) the Stated Maturity of the Notes or (b) the date on which there are no Notes outstanding; *provided*, *however*, that (i) only the portion of Capital Stock which so matures or is mandatorily redeemable, is so convertible or exchangeable or is so redeemable at the option of the holder thereof prior to such date will be deemed to be Disqualified Stock and (ii) any Capital Stock that would constitute Disqualified Stock solely because the holders thereof have the right to require the Issuer to repurchase such Capital Stock upon the occurrence of a change of control or asset sale (howsoever defined or referred to) shall not constitute Disqualified Stock if any such redemption or repurchase obligation is subject to compliance by the relevant Person with the covenant described under "*—Certain Covenants—Limitation on Restricted Payments*".

"*Equity Offering*" means a public or private sale of (x) Capital Stock of the Issuer or (y) Capital Stock or other securities, the proceeds of which are contributed as Subordinated Shareholder Funding or to the equity of the Issuer or any of its Restricted Subsidiaries, in each case other than:

(1) Disqualified Stock;

(2) Designated Preference Shares;

(3) offerings registered on Form S-8 (or any successor form) under the Securities Act or any similar offering in other jurisdictions;

(4) any such sale to an Affiliate of the Issuer or a Restricted Subsidiary; and

(5) any such sale that constitutes an Excluded Contribution.

"*Escrow Agent*" means Deutsche Bank AG, London Branch.

"*Escrow Agreement*" means the escrow agreement relating to the Notes dated as of the Issue Date among, *inter alios*, the Issuer, the Trustee and the Escrow Agent.

"*Escrow Assignments*" means the grant of security interests in the Escrow Accounts and the rights of the Issuer under the Escrow Agreement on the Issue Date to the Trustee for the benefit of the Holders of the relevant series of Notes.

"*Escrowed Proceeds*" means the proceeds from the offering of any debt securities or other Indebtedness paid into an escrow account with an independent escrow agent on the date of the applicable offering or Incurrence pursuant to escrow arrangements that permit the release of amounts on deposit in such escrow account upon satisfaction of certain conditions or the occurrence of certain events. The term "Escrowed Proceeds" shall include any interest earned on the amounts held in escrow.

"*euro*" or "*€*" means the currency introduced at the start of the third stage of the European economic and monetary union pursuant to the Treaty establishing the European Community, as amended by the Treaty on European Union.

"*Euro Equivalent*" means, with respect to any monetary amount in a currency other than euro ("*Other Currency*"), at any time of determination thereof by the Issuer or the Trustee, the amount of euros obtained by converting such Other Currency involved in such computation into euros at the spot rate for the purchase of euros with the Other Currency as published in *The Financial Times* in the "Currency Rates" section (or, if *The Financial Times* is no longer published, or if such information is no longer available in *The Financial Times*, such source as may be selected in good faith by the Issuer) on the date of such determination.

"*European Government Obligations*" means direct obligations of, or obligations guaranteed by, a member state of the European Monetary Union as of the date of the Indenture, and the payment for which such member state of the European Monetary Union pledges its full faith and credit; provided that such member state has a long-term government debt rating of "*A1*" or higher by Moody's or "*A+*" or higher by S&P or the equivalent rating category of another internationally recognized rating agency.

"*Exchange Act*" means the U.S. Securities Exchange Act of 1934, as amended, and the rules and regulations of the SEC promulgated thereunder, as amended.

"*Excluded Contribution*" means Net Cash Proceeds or property or assets received by the Issuer as capital contributions to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares) of the Issuer after the Issue Date or from the issuance or sale (other than to the Issuer, a Restricted Subsidiary or an employee stock ownership plan or trust established by the Issuer or any Subsidiary of the Issuer for the benefit of its employees to the extent funded by the Issuer or any Restricted Subsidiary) of Capital Stock (other than Disqualified Stock or Designated Preference Shares) or Subordinated Shareholder Funding of the Issuer, in each case, to the extent designated as an Excluded Contribution pursuant to an Officer's Certificate of the Issuer.

"*Existing Altice International Guarantee Facility*" means the guarantee facility agreement dated July 1, 2013, as amended, restated, supplemented or otherwise modified from time to time, among Altice Financing as borrower, the lenders from time to time party thereto, Citibank International Plc as facility agent and Citibank, N.A., London Branch as Security Agent.

"*Existing Altice International Indebtedness*" means collectively, the (1) the Existing Altice International Senior Secured Notes, (2) the Existing Altice International Senior Notes, (3) the Existing Altice International Senior Credit Facility, (4) the Existing Altice International RCFs, (5) the Existing Altice International Guarantee Facility, (6) the Existing HOT Unsecured Notes, (7) the Coditel Senior Credit Facility, and (8) any proceeds loans or intercompany loans between Altice International and any of its Restricted Subsidiaries or between any Restricted Subsidiaries of Altice International, in each case, including any Guarantees (if any) relating thereto, and each as amended, restated, supplemented or otherwise modified from time to time.

"*Existing Altice International Intercreditor Agreements*" means collectively, (1) means the intercreditor agreement dated December 12, 2012 and made between (among others) Altice Financing S.A., Altice Finco S.A., the security agent, the facility agent, the Mandated Lead Arrangers (as defined therein), certain financial institutions party thereto, the Hedging Banks (as defined therein) and the Trustee, as amended and (2) the intercreditor agreement, dated November 29, 2011, inter alios, Coditel Holding Lux S.a r.l., Coditel Holding, the companies listed therein as original debtors, ING Bank N.V. as senior agent, Wilmington Trust (London) Limited as mezzanine agent and ING Bank N.V. as security agent.

"*Existing Altice International RCFs*" means collectively, (1) the revolving credit facility agreement, dated July 1, 2013, as amended, restated, supplemented or otherwise modified from time to time, among Altice Financing S.A., as borrower, the lenders from time to time party thereto, Citibank International Plc as facility agent and Citibank, N.A., London Branch, as security agent, (2) the revolving credit facility agreement dated November 27, 2012 between, inter alia, the Altice Financing S.A, certain financial institutions party thereto and Citibank International plc as facility agent and security agent, as amended.

"*Existing Altice International Security Documents*" means the security agreements, pledge agreements, collateral assignments, and any other instrument and document executed and delivered pursuant to the Existing Altice International Indebtedness, as the same may be amended, supplemented or otherwise modified from time to time, creating the security interests as contemplated by the Existing Altice International Indebtedness.

"*Existing Altice International Senior Credit Facility*" means the term loan credit agreement dated June 24, 2013 between Altice Financing S.A. as borrower and the persons listed in Schedule 2.01 thereto as lenders, Goldman Sachs Lending Partners LLC as the Administrative Agent and Citibank, N.A., London Branch as Security Agent, as amended.

"*Existing Altice International Senior Notes*" means collectively, (1) the \$425 million aggregate principal amount of $9^7/_8\%$ senior notes due 2020, (2) the €250 million aggregate principal amount of 9% senior notes due 2023 and (3) the \$400 million aggregate principal amount of $8^1/_8\%$ senior notes due 2024, in each case issued by Altice Finco S.A.

"*Existing Altice International Senior Secured Notes*" means collectively, (1) the €210 million aggregate principal amount of 8% senior secured notes due 2019, (2) the \$460 million aggregate principal amount of $7^7/_8\%$ senior secured notes due 2019, (3) the \$900 million $6^1/_2\%$ senior secured notes due 2022 and (4) the € 300 million $6^1/_2\%$ senior secured notes due 2022 and (4), in each case issued by Altice Financing S.A.

"*Existing Altice International Term Loans"* means the term loans extended to Altice Financing pursuant to the Existing Altice International Senior Credit Facility.

"*Existing HOT Unsecured Notes*" refers to the NIS 825 million notes (Series A) and the NIS 675 million notes (Series B) of HOT, offered to the Israeli investors pursuant to an Israeli shelf offering report dated March 29, 2011 under an Israeli shelf prospectus dated February 28, 2011, as amended on March 29, 2011, and as shall be amended from time to time.

"*Existing Senior Notes*" means collectively, (1) the \$2,900 million aggregate principal amount of $7^3/_4\%$ senior notes due 2022 and (2) the €2,075 million aggregate principal amount of $7^1/_4\%$ senior notes due 2022, in each case issued by the Issuer.

"*Existing Senior Notes Indenture*" means the indenture dated as of May 8, 2014, as amended, among, inter alios, the Issuer, as issuer, the guarantors party thereto and the trustee and security agent party thereto, governing the Existing Senior Notes.

"*fair market value*" wherever such term is used in this "Description of Notes" or the Indenture (except in relation to an enforcement action pursuant to the Intercreditor Agreement and except as otherwise specifically provided in this

"Description of Notes" or the Indenture), may be conclusively established by means of an Officer's Certificate or a resolution of the Board of Directors of the Issuer setting out such fair market value as determined by such Officer or such Board of Directors in good faith.

"*Group*" means the Issuer and its Restricted Subsidiaries.

"*Green Datacenter*" means Green Datacenter AG (company registration no. CHE-115.555.342), a Swiss company limited by shares (*Aktiengesellschaft*) incorporated and existing under the laws of Switzerland.

"*Guarantee*" means any obligation, contingent or otherwise, of any Person directly or indirectly guaranteeing any Indebtedness of any other Person, including any such obligation, direct or indirect, contingent or otherwise, of such Person:

(1) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness of such other Person (whether arising by virtue of partnership arrangements, or by agreements to keep-well, to purchase assets, goods, securities or services, to take-or-pay or to maintain financial statement conditions or otherwise); or

(2) entered into primarily for purposes of assuring in any other manner the obligee of such Indebtedness of the payment thereof or to protect such obligee against loss in respect thereof (in whole or in part),

provided, *however*, that the term "Guarantee" will not include endorsements for collection or deposit in the ordinary course of business or any guarantee of performance. The term "Guarantee" used as a verb has a corresponding meaning.

"*Guarantor*" means each Person that executes a Note Guarantee in accordance with the provisions of the Indenture in its capacity as a guarantor of the Notes and its respective successors and assigns, until the Note Guarantee of such Person has been released in accordance with the provisions of the Indenture.

"*Hedging Obligations*" of any Person means the obligations of such Person pursuant to any Interest Rate Agreement, Currency Agreement or Commodity Hedging Agreement.

"*Holder*" means each Person in whose name the Notes are registered.

"*HOT*" means HOT Telecommunication Systems Ltd.

"*HOT Mobile*" means HOT Mobile Ltd., formerly known as MIRS Communications Ltd.

"*IFRS*" means International Financial Reporting Standards as issued by the International Accounting Standards Board or any successor board or agency as endorsed by the European Union and in effect on the date hereof, or, with respect to the covenant described under the caption "Reports" as in effect from time to time; *provided that* at any date after the Issue Date, Altice International may make an irrevocable election to establish that "IFRS" shall mean IFRS as in effect on a date that is on or prior to the date of such election.

"*Incur*" means issue, create, assume, enter into any Guarantee of, incur, extend or otherwise become liable for; *provided*, *however*, that any Indebtedness or Capital Stock of a Person existing at the time such Person becomes a Restricted Subsidiary (whether by merger, consolidation, acquisition or otherwise) will be deemed to be Incurred by the Issuer or such Restricted Subsidiary at the time it becomes a Restricted Subsidiary and the terms "*Incurred*" and "*Incurrence*" have meanings correlative to the foregoing and any Indebtedness pursuant to any Credit Facility, bridge facility, revolving credit or similar facility shall only be "Incurred" at the time any funds are borrowed thereunder.

"*Indebtedness*" means, with respect to any Person on any date of determination (without duplication):

(1) the principal of indebtedness of such Person for borrowed money;

(2) the principal of obligations of such Person evidenced by bonds, debentures, notes or other similar instruments;

(3) all reimbursement obligations of such Person in respect of letters of credit, bankers' acceptances or other similar instruments (the amount of such obligations being equal at any time to the aggregate then undrawn and unexpired amount of such letters of credit or other instruments plus the aggregate amount of drawings thereunder that have not been reimbursed) (except to the extent such reimbursement obligations relate to trade payables and such obligations are satisfied within 30 days of Incurrence), in each case only to the extent that the underlying obligation in respect of which the instrument was issued would be treated as Indebtedness;

(4) the principal component of all obligations of such Person to pay the deferred and unpaid purchase price of assets acquired or services supplied (except trade payables), which purchase price is due more than one year after the date of placing such property in service or taking final delivery and title thereto;

(5) [Reserved];

(6) the principal component of all obligations, or liquidation preference, of such Person with respect to any Disqualified Stock or, with respect to any Restricted Subsidiary, any Preferred Stock (but excluding, in each case, any accrued dividends);

(7) the principal component of all Indebtedness of other Persons secured by a Lien on any asset of such Person, whether or not such Indebtedness is assumed by such Person; provided, however, that the amount of such Indebtedness will be the lesser of (a) the fair market value of such asset at such date of determination (as determined in good faith by the Issuer) and (b) the amount of such Indebtedness of such other Persons;

(8) Guarantees by such Person of the principal component of Indebtedness of other Persons to the extent Guaranteed by such Person; and

(9) to the extent not otherwise included in this definition, net obligations of such Person under Currency Agreements, Commodity Hedging Agreements and Interest Rate Agreements (the amount of any such obligations to be equal at any time to the termination value of such agreement or arrangement giving rise to such obligation that would be payable by such Person at such time).

The term “Indebtedness” shall not include (i) Subordinated Shareholder Funding, (ii) any lease (including for avoidance of doubt, any network lease or any Operating IRU), concession or license of property (or Guarantee thereof) which would be considered an operating lease under IFRS as in effect on May 8, 2014 or the Issue Date, (iii) prepayments of deposits received from clients or customers in the ordinary course of business, (iv) any pension obligations, (v) Contingent Obligations, (vi) obligations under or in respect of Qualified Receivables Financing, (vii) obligations under any license, permit or other approval (or Guarantees given in respect of such obligations) Incurred prior to the Issue Date or in the ordinary course of business, (viii) non-interest bearing installment obligations and accrued liabilities Incurred in the ordinary course of business that are not more than 120 days past due, (ix) Indebtedness in respect of the Incurrence by the Issuer or any Restricted Subsidiary of Indebtedness in respect of standby letters of credit, performance bonds or surety bonds provided by the Issuer or any Restricted Subsidiary in the ordinary course of business to the extent such letters of credit or bonds are not drawn upon or, if and to the extent drawn upon are honored in accordance with their terms and if, to be reimbursed, are reimbursed no later than the fifth Business Day following receipt by such Person of a demand for reimbursement following payment on the letter of credit or bond, (x) Indebtedness Incurred by the Issuer or a Restricted Subsidiary in connection with a transaction where (A) such Indebtedness is borrowed from a bank or trust company, having a combined capital and surplus and undivided profits of not less than €250 million, whose debt has a rating immediately prior to the time such transaction is entered into, of at least A or the equivalent thereof by S&P and A2 or the equivalent thereof by Moody’s and (B) a substantially concurrent Investment is made by the Issuer or a Restricted Subsidiary in the form of cash deposited with the lender of such Indebtedness, or a Subsidiary or Affiliate thereof, in amount equal to such Indebtedness. For the avoidance of doubt and notwithstanding the above, the term “Indebtedness” excludes any accrued expenses and trade payables and any obligations under guarantees issued in connection with various operating and telecommunication licenses (including, without limitation, any obligations under the guarantee by HOT issued to the Ministry of Communications and Broadcast Council and the bank guarantee in connection with the HOT Mobile’s winning a frequency allotment and receiving a cellular license, and any obligations of HOT Systems towards the State of Israel under an agreement dated July 10, 2001, between HOT Systems and other cable companies and between the State of Israel, in each case, as in effect on December 12, 2012).

The amount of Indebtedness of any Person at any time in the case of a revolving credit or similar facility shall be the total amounts of funds borrowed and then outstanding. The amount of Indebtedness of any Person at any date shall be determined as set forth above or otherwise provided in the Indenture, and (other than with respect to letters of credit or Guarantees or Indebtedness specified in clause (7), (8) or (9) above) shall equal the amount thereof that would appear on a balance sheet of such Person (excluding any notes thereto) prepared on the basis of IFRS.

Notwithstanding the above provisions, in no event shall the following constitute Indebtedness:

(i) in connection with the purchase by the Issuer or any Restricted Subsidiary of any business, any post-closing payment adjustments to which the seller may become entitled to the extent such payment is determined by a final closing balance sheet or such payment depends on the performance of such business after the closing; provided, however, that, at the time of closing, the amount of any such payment is not determinable and, to the extent such payment thereafter becomes fixed and determined, the amount is paid within 30 days thereafter;

(ii) for the avoidance of doubt, any obligations in respect of workers' compensation claims, early retirement or termination obligations, pension fund obligations or contributions or similar claims, obligations or contributions or social security or wage Taxes;

(iii) parallel debt obligations, to the extent such obligations mirror other Indebtedness; or

(iv) Capitalized Lease Obligations.

"*Independent Financial Advisor*" means an investment banking or accounting firm of international standing or any third party appraiser of international standing; *provided*, *however*, that such firm or appraiser is not an Affiliate of the Issuer.

"*Initial Public Offering*" means the Equity Offering of common stock or other common equity interests of the Issuer which was completed on February 5, 2014, as a result of which, the shares of common stock or other common equity interests of the Issuer in such offering are listed on Euronext Amsterdam.

"*Intercreditor Agreement*" means the intercreditor agreement dated May 8, 2014 and made between (among others) the Issuer, the Security Agent, the Facility Agent (as defined therein), the Mandated Lead Arrangers (as defined therein), certain financial institutions party thereto and to which the trustee of the Existing Senior Notes acceded on November 27, 2014, as amended, which the Trustee is expected to accede to on the Completion Date.

"*Interest Rate Agreement*" means, with respect to any Person, any interest rate protection agreement, interest rate future agreement, interest rate option agreement, interest rate swap agreement, interest rate cap agreement, interest rate collar agreement, interest rate hedge agreement or other similar agreement or arrangement to which such Person is party or a beneficiary.

"*Investment*" means, with respect to any Person, all investments by such Person in other Persons (including Affiliates) in the form of any direct or indirect advance, loan or other extensions of credit (other than advances or extensions of credit to customers, suppliers, directors, officers or employees of any Person in the ordinary course of business, and excluding any debt or extension of credit represented by a bank deposit other than a time deposit) or capital contribution to (by means of any transfer of cash or other property to others or any payment for property or services for the account or use of others), or the Incurrence of a Guarantee of any obligation of, or any purchase or acquisition of Capital Stock, Indebtedness or other similar instruments issued by, such other Persons and all other items that are or would be classified as investments on a balance sheet (excluding any notes thereto) prepared on the basis of IFRS; *provided*, *however*, that endorsements of negotiable instruments and documents in the ordinary course of business will not be deemed to be an Investment. If the Issuer or any Restricted Subsidiary issues, sells or otherwise disposes of any Capital Stock of a Person that is a Restricted Subsidiary such that, after giving effect thereto, such Person is no longer a Restricted Subsidiary, any Investment by the Issuer or any Restricted Subsidiary in such Person remaining after giving effect thereto will be deemed to be a new Investment equal to the fair market value of the Capital Stock of such Subsidiary not sold or disposed of in an amount determined as provided in the final paragraph of the covenant described above under the caption "*—Certain Covenants—Limitation on Restricted Payments*".

For purposes of "*—Certain Covenants—Limitation on Restricted Payments*":

(1) "Investment" will include the portion (proportionate to the Issuer's equity interest in a Restricted Subsidiary to be designated as an Unrestricted Subsidiary) of the fair market value of the net assets of such Restricted Subsidiary at the time that such Restricted Subsidiary is designated an Unrestricted Subsidiary; provided, however, that upon a redesignation of such Subsidiary as a Restricted Subsidiary, the Issuer will be deemed to continue to have a permanent "Investment" in an Unrestricted Subsidiary in an amount (if positive) equal to (a) the Issuer's "Investment" in such Subsidiary at the time of such redesignation less (b) the portion (proportionate to the Issuer's equity interest in such Subsidiary) of the fair market value of the net assets (as conclusively determined by an Officer or the Board of Directors of the Issuer in good faith) of such Subsidiary at the time that such Subsidiary is so re-designated a Restricted Subsidiary; and

(2) any property transferred to or from an Unrestricted Subsidiary will be valued at its fair market value at the time of such transfer (or if earlier at the time of entering into an agreement to sell such property), in each case as determined in good faith by an Officer or the Board of Directors of the Issuer.

The amount of any Investment outstanding at any time shall be the original cost of such Investment, reduced (at the Issuer's option) by any dividend, distribution, interest payment, return of capital, repayment or other amount or value received in respect of such Investment.

"*Investment Grade Securities*" means:

(1) securities issued or directly and fully Guaranteed or insured by the United States or Canadian government or any agency or instrumentality thereof (other than Cash Equivalents);

(2) securities issued or directly and fully guaranteed or insured by a member state of the European Union, Switzerland, Norway or any agency or instrumentality thereof (other than Cash Equivalents);

(3) debt securities or debt instruments with a rating of "A" or higher from S&P or "A3" or higher by Moody's or the equivalent of such rating by such rating organization or, if no rating of Moody's or S&P then exists, the equivalent of such rating by any other Nationally Recognized Statistical Ratings Organization, but excluding any debt securities or instruments constituting loans or advances among Altice International and its Subsidiaries; and

(4) investments in any fund that invests exclusively in investments of the type described in clauses (1), (2) and (3) above which fund may also hold cash and Cash Equivalents pending investment or distribution.

"*Investment Grade Status*" shall occur when the Notes receive both of the following:

(1) a rating of "BBB−" or higher from S&P; and

(2) a rating of "Baa3" or higher from Moody's,

or the equivalent of such rating by either such rating organization or, if no rating of Moody's or S&P then exists, the equivalent of such rating by any other Nationally Recognized Statistical Ratings Organization.

"*Investor*" means the ultimate controlling shareholder of the Issuer on the Issue Date.

"*Investor Affiliate*" means (i) the Investor or any of his immediate family members, and any such persons' respective Affiliates and direct and indirect Subsidiaries, (ii) any sponsor, limited partnerships or entities managed or controlled by the Investor or any of his immediate family, or any of such persons' respective Affiliates and direct or indirect Subsidiaries, (iii) any trust of the Investor or any of his immediate family, or any of such persons' respective Affiliates and direct or indirect Subsidiaries or any trust in respect of which any such persons is a trustee, (iv) any partnership of which the Investor or any of his immediate family, or any of such persons' respective Affiliates or direct or indirect Subsidiaries is a partner that is managed or controlled by the Investor, any of his immediate family or any of such persons' respective Affiliates or direct or indirect Subsidiaries, and (v) any trust, fund or other entity which is managed by, or is under the control of, the Investor or any of his immediate family, or any of such persons' respective Affiliates or direct or indirect Subsidiaries, but excluding the Issuer or any of its Subsidiaries.

"*IPO Market Capitalization*" means an amount equal to (i) the total number of issued and outstanding shares of common stock or common equity interests of the Issuer at the time of closing of the Initial Public Offering multiplied by (ii) the price per share at which such shares of common stock or common equity interests were sold in such Initial Public Offering.

"*Issue Date*" means February 4, 2015.

"*Issuer*" means Altice S.A., a Luxembourg public limited liability company (*société anonyme*) with registered office at 3 Boulevard Royal, L-2449 Luxembourg and registered with the Luxembourg Trade and Companies' Register under number B 183391.

"*Issuer Transactions*" means the issuance of the Notes and the Altice Proceeds Contribution.

"*July 2013 Transactions*" means the transactions described under "The Transactions" in the offering memorandum dated June 19, 2013 relating to the €250 million aggregate principal amount of 9% senior notes due 2023.

"*Lien*" means any mortgage, pledge, security interest, encumbrance, lien or charge of any kind (including any conditional sale or other title retention agreement or lease in the nature thereof).

"*Management Advances*" means loans or advances made to, or Guarantees with respect to loans or advances made to, directors, officers, employees or consultants of any Parent, the Issuer or any Restricted Subsidiary:

(1) (a) in respect of travel, entertainment or moving related expenses Incurred in the ordinary course of business or (b) for purposes of funding any such Person's purchase of Capital Stock or Subordinated Shareholder Funding (or similar obligations) of the Issuer, its Restricted Subsidiaries or any Parent (i) not to exceed an amount (net of

repayments of any such loans or advances) equal to €25 million in any calendar year (with unused amounts in any calendar year being carried over to the succeeding calendar years; provided that the aggregate Management Advances made under this sub-clause (b)(i) do not exceed €40 million in any fiscal year) or (ii) with the approval of the Board of Directors of the Issuer;

(2) in respect of moving related expenses Incurred in connection with any closing or consolidation of any facility or office; or

(3) (in the case of this clause (3)) not exceeding €17.5 million in the aggregate outstanding at any time.

"*Management Investors*" means the current or former officers, directors, employees and other members of the management of or consultants to any Parent, the Issuer or any of their respective Subsidiaries (including without limitation, the Target), or spouses, family members or relatives thereof, or any trust, partnership or other entity for the benefit of or the Beneficial Owner of which (directly or indirectly) is any of the foregoing, or any of their heirs, executors, successors and legal representatives, who at any date beneficially own or have the right to acquire, directly or indirectly, Capital Stock of the Issuer, any Restricted Subsidiary or any Parent.

"*Market Capitalization*" means an amount equal to (i) the total number of issued and outstanding shares of common stock or common equity interests of the Issuer on the date of the declaration of the relevant dividend multiplied by (ii) the arithmetic mean of the closing prices per share of such common stock or common equity interests for the 30 consecutive trading days immediately preceding the date of declaration of such dividend.

"*Minority Shareholder*" means each of Yedioth Communications Ltd., Fishman Family Properties Ltd., Fishman Family Properties Management (1988) Ltd. and Monitin Itonut Holdings (1985) Ltd.

"*Minority Shareholder Call Option*" means the right provided to a Minority Shareholder to purchase shares of Capital Stock of HOT pursuant to the applicable Minority Shareholder Purchase Agreement.

"*Minority Shareholder Purchase Agreements*" means each of (a) the Agreement, dated as of November 5, 2012 entered into by and between Yedioth Communications Ltd., a company incorporated in Israel with a registered address of 2 Mozes Street, Tel Aviv, Israel and Cool and (b) the Agreement dated as of November 5, 2012 entered into by and among Fishman Family Properties Ltd. and Fishman Family Properties Management (1988) Ltd., each a company incorporated in Israel with a registered address of 20 Lincoln Street, Tel Aviv, Israel, and Monitin Itonut Holdings (1985) Ltd., a company incorporated in Israel with a registered address of 53 Etzel Street, Rishon Lezion 75706, Israel and Cool, in each case providing for waiver of certain consent rights relating to the December 2012 Transactions and granting of the Minority Shareholder Call Option as consideration therefor, in each case as in effect on December 12, 2012 except for amendments that are not materially adverse to the interests of the Holders of the Notes.

"*Moody's*" means Moody's Investors Service, Inc. or any of its successors or assigns that is a Nationally Recognized Statistical Rating Organization.

"*Nationally Recognized Statistical Rating Organization*" shall have the same meaning as used in Section 3(a)(62) of the Exchange Act.

"*Net Available Cash*" from an Asset Disposition means cash payments received (including any cash payments received by way of deferred payment of principal pursuant to a note or installment receivable or otherwise and net proceeds from the sale or other disposition of any securities received as consideration, but only as and when received, but excluding any other consideration received in the form of assumption by the acquiring person of Indebtedness or other obligations relating to the properties or assets that are the subject of such Asset Disposition or received in any other non-cash form) therefrom, in each case net of:

(1) all legal, accounting, investment banking, title and recording tax expenses, commissions and other fees and expenses Incurred, and all Taxes paid or required to be paid or accrued as a liability under IFRS (after taking into account any available tax credits or deductions and any Tax Sharing Agreements), as a consequence of such Asset Disposition;

(2) all payments made on any Indebtedness which is secured by any assets subject to such Asset Disposition, in accordance with the terms of any Lien upon such assets, or which must by its terms, or in order to obtain a necessary consent to such Asset Disposition, or by applicable law, be repaid out of the proceeds from such Asset Disposition;

(3) all distributions and other payments required to be made to minority interest holders (other than any Parent, the Issuer or any of their respective Subsidiaries) in Subsidiaries or joint ventures as a result of such Asset Disposition; and

(4) the deduction of appropriate amounts required to be provided by the seller as a reserve, on the basis of IFRS, against (a) any liabilities associated with the assets disposed in such Asset Disposition and retained by the Issuer or any Restricted Subsidiary after such Asset Disposition; or (b) any purchase price adjustment or earn-out in connection with such Asset Disposition.

"*Net Cash Proceeds*" means with respect to any issuance or sale of Capital Stock or Subordinated Shareholder Funding, any Incurrence of any Indebtedness or any sale of any asset, the cash proceeds of such issuance or sale net of attorneys' fees, accountants' fees, underwriters' or placement agents' fees, listing fees, discounts or commissions and brokerage, consultant and other fees and charges actually Incurred in connection with such issuance or sale and net of taxes paid or payable as a result of such issuance or sale (after taking into account any available tax credit or deductions and any tax sharing arrangements).

"*Note Guarantee*" means the Guarantee by each Guarantor of the Issuer's obligations under the Indenture and the Notes, executed pursuant to the provisions of the Indenture.

"*Notes Documents*" means the Notes (including Additional Notes), the Indenture, the Security Documents, the Escrow Agreement, the Intercreditor Agreement and any Additional Intercreditor Agreement.

"*Numericable*" means Numericable-SFR S.A. (formerly known as Numericable Group S.A.), a French public limited liability company (société anonyme) with registered office at Tour Ariane, 5 Place de la Pyramide, 92088 La Defénse Cedex, France.

"*Numericable Completion Date*" means November 27, 2014.

"*Numericable Group Intercreditor Agreement*" means the intercreditor agreement dated May 8, 2014 and made between (among others) Numericable, the Security Agent, the Original Senior Revolving Facility Agent (as defined therein), the Mandated Lead Arrangers (as defined therein), certain financial institutions party thereto, and the trustee under the Numericable Notes Indentures.

"*Numericable Initial Public Offering*" means the Equity Offering of common stock or other common equity interests of Numericable which was completed on November 8, 2013 as a result of which the shares of common stock or other common equity interests of the Issuer in such offering are listed on the Euronext Paris market of NYSE Euronext.

"*Numericable Notes*" refers to \$2,400 million aggregate principal amount of senior secured notes due 2019, €1,000 million aggregate principal amount of senior secured notes due 2022, \$4,000 million aggregate principal amount of senior secured notes due 2022, €1,250 million aggregate principal amount of senior secured notes due 2024 and \$1,375 million aggregate principal amount of senior secured notes due 2024 of Numericable issued on May 8, 2014.

"*Numericable Notes Indentures*" means each of the indentures dated as of May 8, 2014, as amended, among, inter alios, Numericable, as issuer, the guarantors party thereto and the trustee and security agent party thereto, governing each series of Numericable Notes.

"*Numericable RCF*" refers to the revolving facilities agreement, dated May 8, 2014, as amended, restated, supplemented or otherwise modified from time to time, among Numericable as borrower, the lenders from time to time party thereto, Deutsche Bank AG, London Branch as facility agent and Deutsche Bank AG, London Branch as security agent.

"*Numericable Senior Credit Facility*" means the Term Loan Credit Agreement, on May 8, 2014, as amended, restated, supplemented or otherwise modified from time to time, among Numericable, Ypso France SAS and Numericable U.S. LLC as borrowers, the lenders from time to time party thereto and Deutsche Bank AG, London Branch as facility agent and as security agent.

"*Numericable Term Loans*" means the term loans extended to Numericable and certain of its subsidiaries pursuant to the Numericable Senior Credit Facility.

"*Numericable Total Assets*" means the consolidated total assets of Numericable and its Restricted Subsidiaries as shown on the most recent consolidated balance sheet of Numericable prepared on the basis of IFRS prior to the relevant date of determination calculated to give pro forma effect to any acquisitions (including through mergers or consolidations) and dispositions that have occurred subsequent to such period, including any such acquisitions to be made with the proceeds of Indebtedness giving rise to the need to calculate Numericable Total Assets.

"*Offering Memorandum*" means these Listing Particulars in relation to the Notes to be issued on the Issue Date.

"*Officer*" means, with respect to any Person, (1) any member of the Board of Directors, the Chief Executive Officer, the President, the Chief Operating Officer, the Chief Financial Officer, any Vice President, the Treasurer or the Secretary (a) of such Person or (b) if such Person is owned or managed by a single entity, of such entity, or (2) any other individual designated as an "Officer" for the purposes of the Indenture by the Board of Directors of such Person.

"*Officer's Certificate*" means, with respect to any Person, a certificate signed by one Officer of such Person.

"*Operating IRU*" means an indefeasible right of use of, or operating lease or payable for lit or unlit fiber optic cable or telecommunications conduit or the use of either.

"*Opinion of Counsel*" means a written opinion from legal counsel reasonably satisfactory to the Trustee, which opinion may contain customary assumptions and qualifications. The counsel may be an employee of or counsel to any Parent, the Issuer or any of their Subsidiaries.

"*Parent*" means any Person of which the Issuer at any time is or becomes a Subsidiary and any holding companies established by any Permitted Holder for purposes of holding its investment in any Parent.

"*Parent Expenses*" means:

(1) costs (including all professional fees and expenses) Incurred by any Parent in connection with reporting obligations under or otherwise Incurred in connection with compliance with applicable laws, rules or regulations of any governmental, regulatory or self-regulatory body or stock exchange, the Indenture or any other agreement or instrument relating to Indebtedness of a Parent, the Issuer or any Restricted Subsidiary, including in respect of any reports filed with respect to the Securities Act, Exchange Act or the respective rules and regulations promulgated thereunder;

(2) customary indemnification obligations of any Parent owing to directors, officers, employees or other Persons under its charter or by-laws or pursuant to written agreements with any such Person to the extent relating to a Parent, the Issuer or their respective Subsidiaries;

(3) obligations of any Parent in respect of director and officer insurance (including premiums therefor) to the extent relating to a Parent, the Issuer or their respective Subsidiaries and reasonable fees and reimbursement of expenses to, and customary indemnities and employee benefit and pension expenses provided on behalf of, directors, officers, consultants or employees of the Issuer, any Restricted Subsidiary or any Parent (whether directly or indirectly and including through any Person owned or controlled by any of such directors, officers or employees)

(4) fees and expenses payable by any Parent in connection with the December 2013 Transactions, the July 2013 Transactions, the December 2012 Transactions, the SFR Transaction and the Transactions;

(5) general corporate overhead expenses, including (a) professional fees and expenses and other operational expenses of any Parent related to the ownership or operation of the business of the Issuer or any of the Restricted Subsidiaries including acquisitions or dispositions by the Issuer or a Subsidiary permitted hereunder (whether or not successful), in each case, to the extent such costs, obligations and/or expenses are not paid by another Subsidiary of such or (b) costs and expenses with respect to any litigation or other dispute relating to the Transactions;

(6) any fees and expenses required to maintain any Parent's corporate existence and to provide for other ordinary course operating costs, including customary salary, bonus and other benefits payable to officers and employees of such Parent;

(7) to reimburse out-of-pocket expenses of the Board of Directors of any Parent and payment of all reasonable out-of-pocket expenses Incurred by any Permitted Holder in connection with its direct or indirect investment in the Issuer and its Subsidiaries;

(8) other fees, expenses and costs relating directly or indirectly to activities of the Issuer and its Subsidiaries or any Parent or any other Person established for purposes of or in connection with the December 2013 Transactions,

the July 2013 Transactions, the December 2012 Transaction, the SFR Transaction and the Transactions or which holds directly or indirectly any Capital Stock or Subordinated Shareholder Funding of the Issuer, in an amount not to exceed €15 million in any fiscal year;

(9) any Public Offering Expenses; and

(10) payments pursuant to any Tax Sharing Agreement in the ordinary course of business or as a result of the formation and maintenance of any consolidated group for tax or accounting purposes in the ordinary course of business.

"*Pari Passu Indebtedness*" means (1) with respect to the Issuer, any Indebtedness that ranks pari passu in right of payment to the Notes; and (2) with respect to the Guarantors, any Indebtedness that ranks pari passu in right of payment to such Guarantor's Guarantee of the Notes.

"*Paying Agent*" means any Person authorized by the Issuer to pay the principal of (and premium, if any) or interest on any Note on behalf of the Issuer.

"*Permitted Asset Swap*" means the concurrent purchase and sale or exchange of assets used or useful in a Similar Business or a combination of such assets and cash, Cash Equivalents or Temporary Cash Investments between the Issuer or any of the Restricted Subsidiaries and another Person; *provided* that any cash or Cash Equivalents received in excess of the value of any cash or Cash Equivalents sold or exchanged must be applied in accordance with the covenant described under "*—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*".

"*Permitted Collateral Liens*" means:

(1) Liens on the Notes Collateral that are described in one or more of clauses (2), (3), (4), (5), (6), (8), (9), (11), (12), (13), (18), (20), (23), (24) and (28) of the definition of "Permitted Liens";

(2) Liens on the Notes Collateral (other than any Notes Collateral subject to the Escrow Assignments) to secure (a) the Notes issued on the Issue Date (other than any Additional Notes) and the Note Guarantees thereof, (b) Indebtedness that is permitted to be Incurred under sub-clause (3) the first paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*", (c) Indebtedness that is permitted to be Incurred under clauses (1)(c) (which may be Super Priority Indebtedness), (2)(a) (in the case of (2)(a), to the extent such Guarantee is in respect of Indebtedness otherwise permitted to be secured on the Notes Collateral and specified in this definition of Permitted Collateral Liens), 5(c)(ii), (7)(a) (to the extent relating to Currency Agreements or Interest Rate Agreements related to Indebtedness of the Issuer) (which may be Super Priority Indebtedness); (14) (so long as, in the case of clause (14), on the date of Incurrence of Indebtedness pursuant to such clause (14) and after giving effect thereto on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom) as if such Indebtedness had been Incurred at the beginning of the relevant period, the Consolidated Net Leverage Ratio of the Issuer is no greater than 4.0 to 1.0) and (15)(a) under the second paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*" and (c) any Refinancing Indebtedness in respect of Indebtedness referred to in the foregoing clause (a), (b) or (c), *provided*, *however*, that (i) such Lien shall rank *pari passu* or junior to the Liens securing the Notes and the Note Guarantees (including by virtue of the Intercreditor Agreement or an Additional Intercreditor Agreement); (ii) in each case, all property and assets (including, without limitation, the Notes Collateral) securing such Indebtedness also secure the Notes or the Note Guarantees on a senior or *pari passu* basis (including by virtue of the Intercreditor Agreement or an Additional Intercreditor Agreement but no such Indebtedness (other than Super Priority Indebtedness) shall have priority to the Notes over amounts received from the sale of the Notes Collateral pursuant to an enforcement sale or other distressed disposal of such Notes Collateral); and (iii) each of the parties thereto will have entered into the Intercreditor Agreement or an Additional Intercreditor Agreement.

"*Permitted Holders*" means, collectively, (1) the Investor, (2) Investor Affiliates and (3) any Person who is acting as an underwriter in connection with a public or private offering of Capital Stock of any Parent or the Issuer, acting in such capacity. Any person or group whose acquisition of beneficial ownership constitutes a Change of Control in respect of which a Change of Control Offer is made in accordance with the requirements of the Indenture will thereafter, together with its Affiliates, constitute an additional Permitted Holder.

"*Permitted Investment*" means (in each case, by the Issuer or any of the Restricted Subsidiaries):

(1) Investments in (a) a Restricted Subsidiary (including the Capital Stock of a Restricted Subsidiary) (other than any Investment in a Minority Shareholder Call Option or Minority Shareholder Purchase Agreement) or the Issuer or (b) any Person (including the Capital Stock of any such Person) that is engaged in any Similar

Business and such Person will, upon the making of such Investment, become a Restricted Subsidiary, in each case other than Investments by Altice International or any of its Restricted Subsidiaries in Numericable or any of its Restricted Subsidiaries;

(2) Investments in another Person if such Person is engaged in any Similar Business and as a result of such Investment such other Person is merged, consolidated or otherwise combined with or into, or transfers or conveys all or substantially all its assets to, the Issuer or a Restricted Subsidiary;

(3) Investments in cash, Cash Equivalents, Temporary Cash Investments or Investment Grade Securities;

(4) Investments in receivables owing to the Issuer or any Restricted Subsidiary created or acquired in the ordinary course of business and payable or dischargeable in accordance with customary trade terms; provided, however, that such trade terms may include such concessionary trade terms as the Issuer or any such Restricted Subsidiary deems reasonable under the circumstances;

(5) Investments in payroll, travel and similar advances to cover matters that are expected at the time of such advances ultimately to be treated as expenses for accounting purposes and that are made in the ordinary course of business;

(6) Management Advances;

(7) Investments in Capital Stock, obligations or securities received in settlement of debts created in the ordinary course of business and owing to the Issuer or any Restricted Subsidiary (including obligations of trade creditors and customers), or as a result of foreclosure, perfection or enforcement of any Lien, or in satisfaction of judgments or pursuant to any plan of reorganization or similar arrangement including upon the bankruptcy or insolvency of a debtor or in compromise or resolution of any litigation, arbitration or other dispute;

(8) Investments made as a result of the receipt of non-cash consideration from a sale or other disposition of property or assets, including an Asset Disposition, in each case, that was made in compliance with "*—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*" and other Investments resulting from the disposition of assets in transactions excluded from the definition of "Asset Disposition" pursuant to the exclusions from such definition;

(9) Investments in existence on, or made pursuant to legally binding commitments in existence on, the Issue Date and any modification, replacement, renewal or extension thereof; *provided* that the amount of any such Investment may not be increased except (a) as required by the terms of such Investment as in existing on the Issue Date or (b) as otherwise permitted by the Indenture;

(10) Currency Agreements, Interest Rate Agreements, Commodity Hedging Agreements and related Hedging Obligations, which transactions or obligations are Incurred pursuant to clause (7) of the second paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*";

(11) pledges or deposits with respect to leases or utilities provided to third parties in the ordinary course of business or Liens otherwise described in the definition of "Permitted Liens" or made in connection with Liens permitted under the covenant described under "*—Certain Covenants—Limitation on Liens*";

(12) any Investment to the extent made using Capital Stock of the Issuer (other than Disqualified Stock or Designated Preference Shares), Subordinated Shareholder Funding or Capital Stock of any Parent as consideration;

(13) any transaction to the extent constituting an Investment that is permitted and made in accordance with the provisions of the second paragraph of the covenant described under "*—Certain Covenants—Limitation on Affiliate Transactions*" (except those described in clauses (1), (3), (6), (8), (9) and (12) of that paragraph);

(14) Guarantees not prohibited by the covenant described under "*—Certain Covenants—Limitation on Indebtedness*" and (other than with respect to Indebtedness) guarantees, keepwells and similar arrangements in the ordinary course of business;

(15) Investments in the Notes, any Additional Notes, the Existing Senior Notes, the Altice International New Notes, the Numericable Notes (other than such Investments made by Altice International or any of its Restricted Subsidiaries), the Existing Altice International Indebtedness and loans under the Numericable Senior Credit

Facility (other than such Investments made by Altice International or any of its Restricted Subsidiaries), the Existing Altice International Senior Credit Facility and the Altice International New Senior Credit Facility;

(16) (a) Investments acquired after the Issue Date as a result of the acquisition by the Issuer or any Restricted Subsidiary of another Person, including by way of a merger, amalgamation or consolidation with or into the Issuer or any of its Restricted Subsidiaries in a transaction that is not prohibited by the covenant described under "*—Certain Covenants—Merger and Consolidation*" to the extent that such Investments were not made in contemplation of such acquisition, merger, amalgamation or consolidation and (b) Investments of a Restricted Subsidiary existing on the date such Person becomes a Restricted Subsidiary to the extent that such Investments were not made in contemplation of such Person becoming a Restricted Subsidiary;

(17) (a) Investments by the Issuer and its Restricted Subsidiaries (other than Altice International, Numericable and their respective Restricted Subsidiaries), taken together with all other Investments made pursuant to this clause (17)(a) and at any time outstanding, in an aggregate amount at the time of such Investment not to exceed €50 million plus the amount of any distributions, dividends, payments or other returns in respect of such Investments (without duplication for purposes of the covenant described in the section "*—Certain Covenants—Limitation on Restricted Payments*"); (b) Investments by Altice International and its Restricted Subsidiaries, taken together with all other Investments made pursuant to this clause (17)(b) and at any time outstanding, in an aggregate amount at the time of such Investment not to exceed the greater of 3.0% of Altice International Total Assets and €375 million plus the amount of any distributions, dividends, payments or other returns in respect of such Investments (without duplication for purposes of the covenant described in the section "*—Certain Covenants—Limitation on Restricted Payments*"); and (c) Investments by Numericable and its Restricted Subsidiaries, taken together with all other Investments made pursuant to this clause (17)(c) and at any time outstanding, in an aggregate amount at the time of such Investment not to exceed the greater of 3.0% of Numericable Total Assets and €300 million plus the amount of any distributions, dividends, payments or other returns in respect of such Investments (without duplication for purposes of the covenant described in the section "*—Certain Covenants—Limitation on Restricted Payments*"); *provided* that, if an Investment is made pursuant to this clause (17) in a Person that is not a Restricted Subsidiary and such Person subsequently becomes a Restricted Subsidiary, such Investment shall thereafter be deemed to have been made pursuant to clause (1) or (2) of the definition of "Permitted Investments" and not this clause;

(18) Investments by Numericable and its Restricted Subsidiaries in joint ventures and similar entities and Unrestricted Subsidiaries having an aggregate fair market value, when taken together with all other Investments made pursuant to this clause (18) that are at the time outstanding, not to exceed the greater of €300 million and 3.0% of Numericable Total Assets at the time of such Investment (with the fair market value of each Investment being measured at the time made and without giving effect to subsequent changes in value);

(19) Investments by Altice International and its Restricted Subsidiaries in joint ventures and similar entities and Unrestricted Subsidiaries having an aggregate fair market value, when taken together with all other Investments made pursuant to this clause (19) that are at the time outstanding, not to exceed the greater of €375 million and 3.0% of Altice International Total Assets at the time of such Investment (with the fair market value of each Investment being measured at the time made and without giving effect to subsequent changes in value); and

(20) Prior to the Completion Date, Investments (x) by the Issuer of all or a portion of the Escrowed Proceeds permitted under the Escrow Agreement and (y) by Altice Financing S.A. and Altice Finco S.A., respectively, of all or a portion of the escrowed proceeds of the Altice International New Senior Secured Notes and the Altice International New Senior Notes, respectively, permitted under the relevant Altice International Notes Escrow Agreements.

"*Permitted Liens*" means, with respect to any Person:

(1) (a) Liens on assets or property of Altice International or any of its Restricted Subsidiaries securing Indebtedness of Altice International or any of its Restricted Subsidiaries; (b) Liens on assets or property of Numericable or any of its Restricted Subsidiaries securing Indebtedness of Numericable or any of its Restricted Subsidiaries; and (c) other than with respect to the Restricted Subsidiaries described in clauses (a) and (b), Liens on assets or property of a Restricted Subsidiary (other than Altice International, Numericable or any of their respective Restricted Subsidiaries) that is not a Guarantor securing Indebtedness of such Restricted Subsidiary or another Restricted Subsidiary (other than Altice International, Numericable or any of their respective Restricted Subsidiaries) that is not a Guarantor;

(2) pledges, deposits or Liens under workmen's compensation laws, unemployment insurance laws, social security laws or similar legislation, or insurance related obligations (including pledges or deposits securing liability to insurance carriers under insurance or self-insurance arrangements and including Liens on insurance policies and

proceeds thereof, or other deposits, to secure insurance premium financings), or in connection with bids, tenders, completion guarantees, contracts (other than for borrowed money) or leases, or to secure utilities, licenses, public or statutory obligations, or to secure surety, indemnity, judgment, appeal or performance bonds, guarantees of government contracts (or other similar bonds, instruments or obligations), or as security for contested taxes or import or customs duties or for the payment of rent, or other obligations of like nature, in each case Incurred in the ordinary course of business;

(3) Liens imposed by law, including carriers', warehousemen's, mechanics', landlords', materialmen's and repairmen's or other like Liens, in each case for sums not yet overdue for a period of more than 60 days or that are bonded or being contested in good faith by appropriate proceedings;

(4) Liens for taxes, assessments or other governmental charges not yet subject to penalties for non-payment or which are being contested in good faith by appropriate proceedings; *provided* that appropriate reserves required pursuant to IFRS have been made in respect thereof;

(5) (a) Liens in favor of issuers of surety, performance or other bonds, guarantees or letters of credit or bankers' acceptances (not issued to support Indebtedness for borrowed money) issued pursuant to the request of and for the account of the Issuer or any Restricted Subsidiary in the ordinary course of its business and (b) Liens in connection with cash management programs established in the ordinary course of business;

(6) encumbrances, ground leases, easements (including reciprocal easement agreements), survey exceptions, or reservations of, or rights of others for, licenses, rights of way, sewers, electric lines, telegraph and telephone lines and other similar purposes, or zoning, building codes or other restrictions (including minor defects or irregularities in title and similar encumbrances) as to the use of real properties or Liens incidental to the conduct of the business of the Issuer and the Restricted Subsidiaries or to the ownership of its properties which do not in the aggregate materially adversely affect the value of said properties or materially impair their use in the operation of the business of the Issuer and the Restricted Subsidiaries;

(7) Liens on assets or property of the Issuer or any Restricted Subsidiary securing Hedging Obligations permitted under the Indenture;

(8) leases, licenses, subleases and sublicenses of assets (including real property and intellectual property rights), in each case entered into in the ordinary course of business;

(9) Liens arising out of judgments, decrees, orders or awards not giving rise to an Event of Default and notices of lis pendens and associated rights so long as any appropriate legal proceedings which may have been duly initiated for the review of such judgment, decree, order, award or notice have not been finally terminated or the period within which such proceedings may be initiated has not expired;

(10) Liens on assets or property of the Issuer or any Restricted Subsidiary (including Capital Stock) for the purpose of securing Capitalized Lease Obligations or Purchase Money Obligations, or securing the payment of all or a part of the purchase price of, or securing other Indebtedness Incurred to finance or refinance the acquisition, improvement or construction of, assets or property acquired or constructed in the ordinary course of business; *provided* that (a) the aggregate principal amount of Indebtedness secured by such Liens is otherwise permitted to be Incurred under the Indenture (excluding Indebtedness Incurred pursuant to the first paragraph of the covenant described under "*Certain Covenants—Limitation on Indebtedness*") and (b) any such Lien may not extend to any assets or property of the Issuer or any Restricted Subsidiary other than assets or property acquired, improved, constructed or leased with the proceeds of such Indebtedness and any improvements or accessions to such assets and property;

(11) Liens arising by virtue of any statutory or common law provisions relating to banker's Liens, rights of set-off or similar rights and remedies as to deposit accounts or other funds maintained with a depositary or financial institution;

(12) Liens arising from Uniform Commercial Code financing statement filings (or similar filings in other applicable jurisdictions) regarding operating leases entered into by the Issuer and the Restricted Subsidiaries in the ordinary course of business;

(13) Liens existing on or provided for or required to be granted under written agreements existing on the Issue Date after giving effect to the Transactions, including the issuance of the Notes and the application of the proceeds thereof (including after such proceeds are released from the Escrow Accounts);

(14) Liens on property, other assets or shares of stock of a Person at the time such Person becomes a Restricted Subsidiary (or at the time the Issuer or a Restricted Subsidiary acquires such property, other assets or shares of stock, including any acquisition by means of a merger, consolidation or other business combination transaction with or into the Issuer or any Restricted Subsidiary); *provided, however*, that such Liens are not created, Incurred or assumed in anticipation of or in connection with such other Person becoming a Restricted Subsidiary (or such acquisition of such property, other assets or stock); *provided, further*, that such Liens are limited to all or part of the same property, other assets or stock (plus improvements, accession, proceeds or dividends or distributions in connection with the original property, other assets or stock) that secured (or, under the written arrangements under which such Liens arose, could secure) the obligations to which such Liens relate;

(15) Liens on assets or property of the Issuer or any Restricted Subsidiary securing Indebtedness or other obligations of the Issuer or such Restricted Subsidiary owing to the Issuer or another Restricted Subsidiary, or Liens in favor of the Issuer or any Restricted Subsidiary;

(16) Liens securing Refinancing Indebtedness Incurred to refinance Indebtedness that was previously so secured, and permitted to be secured under the Indenture; *provided* that any such Lien is limited to all or part of the same property or assets (plus improvements, accessions, proceeds or dividends or distributions in respect thereof) that secured (or, under the written arrangements under which the original Lien arose, could secure) the Indebtedness being refinanced or is in respect of property that is or could be the security for or subject to a Permitted Lien hereunder;

(17) any interest or title of a lessor under any Capitalized Lease Obligation or operating lease;

(18) (a) mortgages, liens, security interest, restrictions, encumbrances or any other matters of record that have been placed by any government, statutory or regulatory authority, developer, landlord or other third party on property over which the Issuer or any Restricted Subsidiary has easement rights or on any leased property and subordination or similar arrangements relating thereto and (b) any condemnation or eminent domain proceedings affecting any real property;

(19) any encumbrance or restriction (including put and call arrangements) with respect to Capital Stock of, or assets owned by, any joint venture or similar arrangement pursuant to any joint venture or similar agreement;

(20) Liens on property or assets under construction (and related rights) in favor of a contractor or developer or arising from progress or partial payments by a third party relating to such property or assets;

(21) Liens on Receivables Assets Incurred in connection with a Qualified Receivables Financing;

(22) Liens on Escrowed Proceeds for the benefit of the related holders of debt securities or other Indebtedness (or the underwriters or arrangers thereof) or on cash set aside at the time of the Incurrence of any Indebtedness or government securities purchased with such cash, in either case to the extent such cash or government securities prefund the payment of interest on such Indebtedness and are held in an escrow account or similar arrangement to be applied for such purpose;

(23) bankers' Liens, Liens on specific items of inventory or other goods (and the proceeds thereof) of any Person securing such Person's obligations in respect of bankers' acceptances issued or created in the ordinary course of business of such Person to facilitate the purchase, shipment or storage of such inventory or other goods and Liens securing or arising by reason of any netting or set-off arrangement entered into in the ordinary course of banking or other trading activities;

(24) Liens arising out of conditional sale, title retention, hire purchase, consignment or similar arrangements for the sale of goods entered into in the ordinary course of business, and pledges of goods, the related documents of title and/or other related documents arising or created in the ordinary course of business or operations as Liens only for Indebtedness to a bank or financial institution directly relating to the goods or documents on or over which the pledge exists;

(25) Permitted Collateral Liens;

(26) Liens on Capital Stock or other securities or assets of any Unrestricted Subsidiary that secure Indebtedness of such Unrestricted Subsidiary;

(27) any security granted over Cash Equivalents in connection with the disposal thereof to a third party and Liens on cash, Cash Equivalents or other property arising in connection with the defeasance, discharge or redemption of Indebtedness;

(28) (a) Liens created for the benefit of or to secure, directly or indirectly, the Notes, (b) Liens pursuant to the Intercreditor Agreement and (c) Liens in respect of property and assets securing Indebtedness if the recovery in respect of such Liens is subject to loss-sharing or similar provisions as among the Holders of the Notes and the creditors of such Indebtedness pursuant to the Intercreditor Agreement or an Additional Intercreditor Agreement;

(29) Liens created on any asset of the Issuer or a Restricted Subsidiary established to hold assets of any stock option plan or any other management or employee benefit or incentive plan or unit trust of the Issuer or a Restricted Subsidiary securing any loan to finance the acquisition of such assets; and

(30) Liens on property and assets of the Issuer and its Restricted Subsidiaries (other than Altice International, Numericable or any of their respective Restricted Subsidiaries) securing Indebtedness or other obligations of Issuer and such Restricted Subsidiaries not to exceed € 30 million at any time outstanding.

"*Person*" means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, limited liability company, government or any agency or political subdivision thereof or any other entity.

"*Preferred Stock*", as applied to the Capital Stock of any Person, means Capital Stock of any class or classes (however designated) which is preferred as to the payment of dividends or as to the distribution of assets upon any voluntary or involuntary liquidation or dissolution of such Person, over shares of Capital Stock of any other class of such Person.

"*Pro forma EBITDA*" means, for any period, the Consolidated EBITDA of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable), *provided* that for the purposes of calculating Pro forma EBITDA for such period, if, as of such date of determination:

(1) since the beginning of such period the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) has disposed of any company, any business, or any group of assets constituting an operating unit of a business or otherwise ceases to be a Restricted Subsidiary (and is not a Restricted Subsidiary at the end of such period) (any such disposition, a "*Sale*") or if the transaction giving rise to the need to calculate the Consolidated Net Leverage Ratio is such a Sale, Pro forma EBITDA for such period will be reduced by an amount equal to the Consolidated EBITDA (if positive) attributable to the assets which are the subject of such Sale for such period or increased by an amount equal to the Consolidated EBITDA (if negative) attributable thereto for such period; *provided* that if any such sale constitutes "discontinued operations" in accordance with IFRS, Consolidated Net Income shall be reduced by an amount equal to the Consolidated Net Income (if positive) attributable to such operations for such period or increased by an amount equal to the Consolidated Net Income (if negative) attributable thereto for such period;

(2) since the beginning of such period, a Parent, the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) (by merger or otherwise) has made an Investment in any Person that thereby becomes a Restricted Subsidiary, or otherwise has acquired any company, any business, or any group of assets constituting an operating unit of a business or a Person otherwise becomes a Restricted Subsidiary (and remains a Restricted Subsidiary at the end of such period) (any such Investment, acquisition or designation, a "*Purchase*"), including any such Purchase occurring in connection with a transaction causing a calculation to be made hereunder, Pro forma EBITDA for such period will be calculated after giving pro forma effect thereto as if such Purchase occurred on the first day of such period; and

(3) since the beginning of such period, any Person (that became a Restricted Subsidiary or was merged or otherwise combined with or into the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, into Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) since the beginning of such period) will have made any Sale or any Purchase that would have required an adjustment pursuant to clause (1) or (2) above if made by the Issuer or a Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, by Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) since the beginning of such period, Pro forma EBITDA for such period will be calculated after giving pro forma effect thereto as if such Sale or Purchase occurred on the first day of such period.

For the purposes of this definition and the definitions of Consolidated EBITDA, Consolidated Income Taxes, Consolidated Interest Expense, Consolidated Net Income, Consolidated Net Leverage Ratio, Altice S.A. Proportionate Net Leverage Ratio and Proportionate Net Leverage Ratio (a) whenever *pro forma* effect is to be given to any transaction (including, without limitation, transactions listed in clauses (1)-(3) hereof) or calculation hereunder or such other definitions, the *pro forma* calculations will be as determined in good faith by a responsible financial or accounting officer of the Issuer (or, if the calculation relates to Altice International or Numericable, of Altice International or Numericable, as applicable) (including in respect of anticipated expense and cost reductions and synergies (other than revenue synergies)) (calculated on a *pro forma* basis as though such expense and cost reductions and synergies had been realized on the first day of the period for which Pro forma EBITDA is being determined and as though such cost savings, operating expense reductions and synergies were realized during the entirety of such period), (b) in determining the amount of Indebtedness outstanding on any date of determination, *pro forma* effect shall be given to any Incurrence, repayment, repurchase, defeasance or other acquisition, retirement or discharge of Indebtedness as if such transaction had occurred on the first day of the relevant period and (c) if any Indebtedness bears a floating rate of interest and is being given *pro forma* effect, the interest on such Indebtedness shall be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Hedging Obligations applicable to such Indebtedness if such Hedging Obligation has a remaining term in excess of 12 months).

"*Proportionate Net Leverage Ratio*" means, as of any date of determination, the ratio of (A) the sum of (x) the aggregate outstanding Indebtedness of Altice France on a stand-alone basis (excluding (i) Hedging Obligations and (ii) any Guarantees of Indebtedness of the Issuer not prohibited by the covenant described under "*—Certain Covenants—Limitation on Indebtedness*" and "*—Limitations on Holding Company Activities*"), less the aggregate amount of cash and Cash Equivalents of Altice France and (y) in an amount proportionate to the Altice France's equity interest in Numericable, the Consolidated Net Leverage of Numericable, to (B) in an amount proportionate to the Altice France's equity interest in Numericable, the aggregate amount of Pro forma EBITDA of Numericable and its Restricted Subsidiaries for the period of the most recent two consecutive fiscal quarters ending prior to the date of such determination for which internal financial statements of Numericable are available multiplied by 2.0; *provided*, however, that the pro forma calculation of the Proportionate Net Leverage Ratio shall not give effect to (i) any Indebtedness Incurred on the date of determination pursuant to the provisions described in the second paragraph under the caption "*—Certain Covenants—Limitation on Indebtedness*" or (ii) the discharge on the date of determination of any Indebtedness to the extent that such discharge results from the proceeds Incurred pursuant to the provisions described in the second paragraph under the caption "*—Certain Covenants—Limitation on Indebtedness*".

"*Public Company*" means that at least 5% of the shares of common stock or other common equity interests of the Issuer are listed on the Euronext Paris market of the NYSE Euronext.

"*Public Debt*" means any Indebtedness consisting of bonds, debentures, notes or other similar debt securities issued in (1) a public offering registered under the Securities Act or (2) a private placement to institutional investors that is underwritten for resale in accordance with Rule 144A or Regulation S under the Securities Act, whether or not it includes registration rights entitling the holders of such debt securities to registration thereof with the SEC for public resale.

"*Public Offering*" means any offering, including the Initial Public Offering, of shares of common stock or other common equity interests that are listed on an exchange or publicly offered (which shall include an offering pursuant to Rule 144A and/or Regulation S under the Securities Act to professional market investors or similar persons).

"*Public Offering Expenses*" means expenses Incurred by any Parent in connection with any Public Offering or any offering of Public Debt (whether or not successful):

(1) where the net proceeds of such offering are intended to be received by or contributed or loaned to the Issuer or a Restricted Subsidiary;

(2) in a pro-rated amount of such expenses in proportion to the amount of such net proceeds intended to be so received, contributed or loaned; or

(3) otherwise on an interim basis prior to completion of such offering so long as any Parent shall cause the amount of such expenses to be repaid to the Issuer or the relevant Restricted Subsidiary out of the proceeds of such offering promptly if completed, in each case, to the extent such expenses are not paid by another Subsidiary of such Parent.

"*Purchase Money Obligations*" means any Indebtedness Incurred to finance or refinance the acquisition, leasing, construction or improvement of property (real or personal) or assets (including Capital Stock), and whether acquired through the direct acquisition of such property or assets or the acquisition of the Capital Stock of any Person owning such property or assets, or otherwise.

"*Qualified Receivables Financing*" means any Receivables Financing of a Receivables Subsidiary that meets the following conditions: (1) an Officer or the Board of Directors of the Issuer shall have determined in good faith that such Qualified Receivables Financing (including financing terms, covenants, termination events and other provisions) is in the aggregate economically fair and reasonable to the Issuer and the Receivables Subsidiary, (2) all sales of accounts receivable and related assets to the Receivables Subsidiary are made at fair market value (as determined in good faith by the Issuer), and (3) the financing terms, covenants, termination events and other provisions thereof shall be on market terms (as determined in good faith by the Issuer) and may include Standard Securitization Undertakings.

The grant of a security interest in any accounts receivable of the Issuer or any Restricted Subsidiary (other than a Receivables Subsidiary) to secure Indebtedness under a Credit Facility or Indebtedness in respect of the Notes shall not be deemed a Qualified Receivables Financing.

"*Rating Agencies*" means Moody's and S&P or, in the event Moody's or S&P no longer assigns a rating to the Notes, any other Nationally Recognized Statistical Rating Organization who assigns a rating to the Notes in lieu of the ratings by Moody's or S&P.

"*Receivable*" means a right to receive payment arising from a sale or lease of goods or services by a Person pursuant to an arrangement with another Person pursuant to which such other Person is obligated to pay for goods or services under terms that permit the purchase of such goods and services on credit, as determined on the basis of IFRS.

"*Receivables Assets*" means any assets that are or will be the subject of a Qualified Receivables Financing.

"*Receivables Fees*" means distributions or payments made directly or by means of discounts with respect to any participation interest issued or sold in connection with, and other fees paid to a Person that is not a Restricted Subsidiary in connection with, any Receivables Financing.

"*Receivables Financing*" means any transaction or series of transactions that may be entered into by the Issuer or any of its Subsidiaries pursuant to which the Issuer or any of its Subsidiaries may sell, convey or otherwise transfer to (a) a Receivables Subsidiary (in the case of a transfer by the Issuer or any of its Subsidiaries), or (b) any other Person (in the case of a transfer by a Receivables Subsidiary), or may grant a security interest in, any accounts receivable (whether now existing or arising in the future) of the Issuer or any of its Subsidiaries, and any assets related thereto, including all collateral securing such accounts receivable, all contracts and all guarantees or other obligations in respect of such accounts receivable, proceeds of such accounts receivable and other assets which are customarily transferred or in respect of which security interest are customarily granted in connection with asset securitization transactions involving accounts receivable and any Hedging Obligations entered into by the Issuer or any such Subsidiary in connection with such accounts receivable.

"*Receivables Repurchase Obligation*" means any obligation of a seller of receivables in a Qualified Receivables Financing to repurchase receivables arising as a result of a breach of a representation, warranty or covenant or otherwise, including as a result of a receivable or portion thereof becoming subject to any asserted defense, dispute, off-set or counterclaim of any kind as a result of any action taken by, any failure to take action by or any other event relating to the seller.

"*Receivables Subsidiary*" means a Wholly Owned Subsidiary of the Issuer (or another Person formed for the purposes of engaging in a Qualified Receivables Financing with the Issuer in which the Issuer or any Subsidiary of the Issuer (other than Numericable) makes an Investment and to which the Issuer or any Subsidiary of the Issuer transfers accounts receivable and related assets) which engages in no activities other than in connection with the financing of accounts receivable of the Issuer and its Subsidiaries, all proceeds thereof and all rights (contractual or other), collateral and other assets relating thereto, and any business or activities incidental or related to such business, and which is designated by the Board of Directors of the Issuer (as provided below) as a Receivables Subsidiary and:

(1) no portion of the Indebtedness or any other obligations (contingent or otherwise) of which (i) is guaranteed by the Issuer or any other Restricted Subsidiary (excluding guarantees of obligations (other than the principal of, and interest on, Indebtedness) pursuant to Standard Securitization Undertakings), (ii) is subject to terms that are substantially equivalent in effect to a guarantee of any losses on securitized or sold receivables by the Issuer or any other Restricted Subsidiary, (iii) is recourse to or obligates the Issuer or any other Restricted Subsidiary in any way other than pursuant to Standard Securitization Undertakings, or (iv) subjects any property or asset of the Issuer or any Restricted Subsidiary, directly or indirectly, contingently or otherwise, to the satisfaction thereof, other than pursuant to Standard Securitization Undertakings;

(2) with which neither the Issuer nor any other Restricted Subsidiary has any material contract, agreement, arrangement or understanding other than on terms which the Issuer reasonably believes to be no less favorable to the Issuer or such Restricted Subsidiary than those that might be obtained at the time from Persons that are not Affiliates of the Issuer; and

(3) to which neither the Issuer nor any other Restricted Subsidiary has any obligation to maintain or preserve such entity's financial condition or cause such entity to achieve certain levels of operating results.

Any such designation by the Board of Directors of the Issuer shall be evidenced to the Trustee by filing with the Trustee a copy of the resolution of the Board of Directors of the Issuer giving effect to such designation and an Officer's Certificate certifying that such designation complied with the foregoing conditions.

"*Refinance*" means refinance, refund, replace, renew, repay, modify, restate, defer, substitute, supplement, reissue, resell, extend or increase (including pursuant to any defeasance or discharge mechanism) and the terms "*refinances*", "*refinanced*" and "*refinancing*" as used for any purpose in the Indenture shall have a correlative meaning.

"*Refinancing Indebtedness*" means Indebtedness of the Issuer or any Restricted Subsidiary to refund, refinance, replace, exchange, renew, repay or extend (including pursuant to any defeasance or discharge mechanism) any Indebtedness existing on the date of the Indenture or Incurred in compliance with the Indenture including Indebtedness that refinances Refinancing Indebtedness; *provided*, *however*, that:

(1) if the Indebtedness being refinanced constitutes Subordinated Indebtedness, the Refinancing Indebtedness has a final stated maturity at the time such Refinancing Indebtedness is Incurred that is the same as or later than the final stated maturity of the Indebtedness being refinanced or, if shorter, the Notes;

(2) such Refinancing Indebtedness is Incurred in an aggregate principal amount (or if issued with original issue discount, an aggregate issue price) that is equal to or less than the sum of the aggregate principal amount (or if issued with original issue discount, the aggregate accreted value) then outstanding of the Indebtedness being refinanced (plus, without duplication, any additional Indebtedness Incurred to pay interest or premiums required by the instruments governing such existing Indebtedness and costs, expenses and fees Incurred in connection therewith);

(3) if the Indebtedness being refinanced is expressly subordinated to the Notes or any Note Guarantee, such Refinancing Indebtedness is subordinated to the Notes or such Note Guarantee, as applicable, on terms at least as favorable to the Holders as those contained in, the documentation governing the Indebtedness being refinanced; and

(4) if the Issuer or any Guarantor was the obligor on the Indebtedness being refinanced, such Indebtedness is Incurred either by the Issuer or by a Guarantor,

provided, *however*, that Refinancing Indebtedness shall not include (i) Indebtedness of the Issuer or any Restricted Subsidiary that refinances Indebtedness of an Unrestricted Subsidiary, (ii) Indebtedness of the Issuer owing to and held by the Issuer or any Restricted Subsidiary or Indebtedness of a Restricted Subsidiary owing to and held by the Issuer or any other Restricted Subsidiary, (iii) Indebtedness of Altice International or any Restricted Subsidiary of Altice International that refinances Indebtedness of Numericable or any Restricted Subsidiary of Numericable, (iv) Indebtedness of the Issuer or any of its Restricted Subsidiaries (other than Altice International, Numericable or any of their respective Restricted Subsidiaries) that refinances Indebtedness of Altice International, Numericable or any of their respective Restricted Subsidiaries.

Refinancing Indebtedness in respect of any Credit Facility or any other Indebtedness may be Incurred from time to time after the termination, discharge, or repayment of any such Credit Facility or other Indebtedness.

"*Related Taxes*" means, without duplication (including, for the avoidance of doubt, without duplication of any amounts paid pursuant to any Tax Sharing Agreement):

(1) any Taxes, including sales, use, transfer, rental, ad valorem, value added, stamp, property, consumption, franchise, license, capital, registration, business, customs, net worth, gross receipts, excise, occupancy, intangibles or similar Taxes (other than (x) Taxes measured by income and (y) withholding taxes), required to be paid (provided such Taxes are in fact paid) by any Parent by virtue of its:

    (a) being incorporated or otherwise being established or having Capital Stock outstanding (but not by virtue of owning stock or other equity interests of any corporation or other entity other than, directly or indirectly, the Issuer or any Subsidiary of the Issuer);

    (b) issuing or holding Subordinated Shareholder Funding;

    (c) being a holding company parent, directly or indirectly, of the Issuer or any Subsidiary of the Issuer;

(d) receiving dividends from or other distributions in respect of the Capital Stock of, directly or indirectly, the Issuer or any Subsidiary of the Issuer; or

(e) having made any payment in respect to any of the items for which the Issuer is permitted to make payments to any Parent pursuant to "*—Certain Covenants—Limitation on Restricted Payments*"; or

(2) if and for so long as the Issuer is a member of a group filing a consolidated or combined tax return with any Parent, any Taxes measured by income for which such Parent is liable up to an amount not to exceed with respect to such Taxes the amount of any such Taxes that the Issuer and Subsidiaries of the Issuer would have been required to pay on a separate company basis or on a consolidated basis if the Issuer and the Subsidiaries of the Issuer had paid tax on a consolidated, combined, group, affiliated or unitary basis on behalf of an affiliated group consisting only of the Issuer and the Subsidiaries of the Issuer.

"*Representative*" means any trustee, agent or representative (if any) for an issue of Indebtedness or the provider of Indebtedness (if provided on a bilateral basis), as the case may be.

"*Restricted Investment*" means any Investment other than a Permitted Investment.

"*Restricted Subsidiary*" means a Subsidiary of the Issuer other than an Unrestricted Subsidiary (or if the context requires, a Subsidiary of Altice International, Altice France or Numericable, as applicable, in each case other than an Unrestricted Subsidiary).

"*S&P*" means Standard & Poor's Investors Ratings Services or any of its successors or assigns that is a Nationally Recognized Statistical Rating Organization.

"*SEC*" means the U.S. Securities and Exchange Commission.

"*Securities Act*" means the U.S. Securities Act of 1933, as amended, and the rules and regulations of the SEC promulgated thereunder, as amended.

"*Security Agent*" means Deutsche Bank AG, London Branch acting as security agent pursuant to the Intercreditor Agreement or such successor Security Agent or any delegate thereof as may be appointed thereunder or any such security agent, delegate or successor thereof pursuant to an Additional Intercreditor Agreement.

"*Security Documents*" means the security agreements, pledge agreements, collateral assignments, and any other instrument and document executed and delivered pursuant to the Indenture or otherwise or any of the foregoing, as the same may be amended, supplemented or otherwise modified from time to time, creating the security interests in the Notes Collateral as contemplated by the Indenture.

"*SFR Transactions*" means the transactions described under "The Transactions" in the offering memorandum dated April 23, 2014 relating to the €4.17 billion equivalent senior notes due 2022 issued by Altice S.A.

"*Significant Subsidiary*" means any Restricted Subsidiary that meets any of the following conditions:

(1) the Issuer's and the Restricted Subsidiaries' investments in and advances to the Restricted Subsidiary exceed 10% of the total assets of the Issuer and the Restricted Subsidiaries on a consolidated basis as of the end of the most recently completed fiscal year;

(2) the Issuer's and the Restricted Subsidiaries' proportionate share of the total assets (after intercompany eliminations) of the Restricted Subsidiary exceeds 10% of the total assets of the Issuer and the Restricted Subsidiaries on a consolidated basis as of the end of the most recently completed fiscal year; or

(3) if positive, the Issuer's and the Restricted Subsidiaries' equity in the income from continuing operations before income taxes, extraordinary items and cumulative effect of a change in accounting principle of the Restricted Subsidiary exceeds 10% of such income of the Issuer and the Restricted Subsidiaries on a consolidated basis for the most recently completed fiscal year.

"*Similar Business*" means (a) any businesses, services or activities (including marketing) engaged in by the Issuer, the Target or any of their Subsidiaries on the Issue Date, (b) broadcast television, broadband and fixed and mobile telephony businesses, including the distribution, sale and for provision of mobile voice and data, fixed-line voice and internet services, transit voice traffic services and other services and equipment in relation thereto and (c) any businesses, services and activities (including marketing) engaged in by the Issuer, the Target or any of their Subsidiaries that are (i) related, complementary, incidental, ancillary or similar to any of the foregoing or (ii) are reasonable extensions or developments of any thereof.

"*Standard Securitization Undertakings*" means representations, warranties, covenants, indemnities and guarantees of performance entered into by the Issuer or any Subsidiary of the Issuer which the Issuer has determined in good faith to be customary in a Receivables Financing, including those relating to the servicing of the assets of a Receivables Subsidiary, it being understood that any Receivables Repurchase Obligation shall be deemed to be a Standard Securitization Undertaking.

"*Stated Maturity*" means, with respect to any installment of interest or principal on any series of Indebtedness, the date on which the payment of interest or principal was scheduled to be paid in the original documentation governing such Indebtedness, and will not include any contingent obligations to repay, redeem or repurchase any such interest or principal prior to the date originally scheduled for the payment thereof.

"*Subordinated Indebtedness*" means, in the case of the Issuer, any Indebtedness (whether outstanding on the Issue Date or thereafter Incurred) which is expressly subordinated or junior in right of payment to the Notes or pursuant to a written agreement and, in the case of a Guarantor, any Indebtedness (whether outstanding on the Issue Date or thereafter Incurred) which is expressly subordinated or junior in right of payment to the Note Guarantee of such Guarantor.

"*Subordinated Shareholder Funding*" means, collectively, any funds provided to the Issuer by any Parent, any Affiliate of any Parent or any Permitted Holder or any Affiliate thereof, in exchange for or pursuant to any security, instrument or agreement other than Capital Stock, in each case issued to and held by any of the foregoing Persons, together with any such security, instrument or agreement and any other security or instrument other than Capital Stock issued in payment of any obligation under any Subordinated Shareholder Funding; *provided*, *however*, that such Subordinated Shareholder Funding:

(1) does not mature or require any amortization, redemption or other repayment of principal or any sinking fund payment prior to the first anniversary of the Stated Maturity of the Notes (other than through conversion or exchange of such funding into Capital Stock (other than Disqualified Stock) of the Issuer or any funding meeting the requirements of this definition) or the making of any such payment prior to the first anniversary of the Stated Maturity of the Notes is restricted by the Intercreditor Agreement, an Additional Intercreditor Agreement or another intercreditor agreement;

(2) does not require, prior to the first anniversary of the Stated Maturity of the Notes, payment of cash interest, cash withholding amounts or other cash gross-ups, or any similar cash amounts or the making of any such payment prior to the first anniversary of the Stated Maturity of the Notes is restricted by the Intercreditor Agreement or an Additional Intercreditor Agreement;

(3) contains no change of control or similar provisions and does not accelerate and has no right to declare a default or event of default or take any enforcement action or otherwise require any cash payment, in each case, prior to the date that is six months following the Stated Maturity of the Notes or the payment of any amount as a result of any such action or provision or the exercise of any rights or enforcement action, in each case, prior to the date that is six months following the Stated Maturity of the Notes, is restricted by the Intercreditor Agreement or an Additional Intercreditor Agreement;

(4) does not provide for or require any security interest or encumbrance over any asset of the Issuer or any of the Restricted Subsidiaries; and

(5) pursuant to its terms or to the Intercreditor Agreement, an Additional Intercreditor Agreement or another intercreditor agreement, is fully subordinated and junior in right of payment to the Notes pursuant to subordination, payment blockage and enforcement limitation terms which are customary in all material respects for similar funding or are no less favorable in any material respect to Holders than those contained in the Intercreditor Agreement as in effect on the Issue Date.

"*Subsidiary*" means, with respect to any Person:

(1) any corporation, association, or other business entity (other than a partnership, joint venture, limited liability company or similar entity) of which more than 50% of the total ordinary voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time of determination owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof; or

(2) any partnership, joint venture, limited liability company or similar entity of which:

(a) more than 50% of the capital accounts, distribution rights, total equity and voting interests or general or limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof whether in the form of membership, general, special or limited partnership interests or otherwise; and

(b) such Person or any Subsidiary of such Person is a controlling general partner or otherwise controls such entity.

"*Super Priority Indebtedness*" means any Indebtedness incurred under a Credit Facility or Hedging Obligations that is or will be secured by the same Notes Collateral that secures the Notes but has priority over amounts received from the sale of the Notes Collateral pursuant to an enforcement sale or other distressed disposal of such Notes Collateral pursuant to the Intercreditor Agreement or any Additional Intercreditor Agreement.

"*Take-Private Transaction*" refers to the acquisition by Cool and SPV1 of all the outstanding shares of HOT (other than certain share options) and the subsequent delisting from the Tel Aviv Stock Exchange of the shares of HOT, which was completed on December 27, 2012.

"*Target*" means PT Portugal SGPS, S.A., a public limited liability company (*sociedade anónima*) incorporated under the laws of Portugal.

"*Target Acquisition*" means the acquisition of 100% of the outstanding Capital Stock of the Target, together with certain entities identified in the Target Acquisition Agreement as "Companies within the Transaction Perimeter" (together with the Target, the "*Target Group*"), from Oi, S.A. pursuant to the terms of the Target Acquisition Agreement.

"*Target Acquisition Agreement*" means the agreement dated December 9, 2014 among Altice S.A., Altice Portugal and Oi, S.A. relating to the Target Acquisition.

"*Taxes*" has the meaning given to such term under "*Withholding Taxes".*

"*Tax Sharing Agreement*" means any tax sharing or profit and loss pooling or similar agreement with customary or arm's-length terms entered into with any Parent or Unrestricted Subsidiary, as the same may be amended, supplemented, waived or otherwise modified from time to time in accordance with the terms thereof and of the Indenture.

"*Temporary Cash Investments*" means any of the following:

(1) any investment in:

(a) direct obligations of, or obligations Guaranteed by, (i) the United States of America, (ii) any European Union member state, (iii) Switzerland, (iv) any country in whose currency funds are being held specifically pending application in the making of an investment or capital expenditure by the Issuer or a Restricted Subsidiary in that country with such funds or (v) any agency or instrumentality of any such country or member state, or

(b) direct obligations of any country recognized by the United States of America rated at least "A" by S&P or "A-1 "by Moody's (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);

(2) overnight bank deposits, and investments in time deposit accounts, certificates of deposit, bankers' acceptances and money market deposits (or, with respect to foreign banks, similar instruments) maturing not more than one year after the date of acquisition thereof issued by:

(a) any institution authorized to operate as a bank in any of the countries or member states referred to in subclause (1)(a) above, or

(b) any bank or trust company organized under the laws of any such country or member state or any political subdivision thereof,

in each case, having capital and surplus aggregating in excess of €250 million (or the foreign currency equivalent thereof) and whose long-term debt is rated at least "A" by S&P or "A-2" by Moody's (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization) at the time such Investment is made;

(3) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clause (1) or (2) above entered into with a Person meeting the qualifications described in clause (2) above;

(4) Investments in commercial paper, maturing not more than 270 days after the date of acquisition, issued by a Person (other than the Issuer or any of its Subsidiaries), with a rating at the time as of which any Investment therein is made of "P-2" (or higher) according to Moody's or "A-2" (or higher) according to S&P (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);

(5) Investments in securities maturing not more than one year after the date of acquisition issued or fully Guaranteed by any state, commonwealth or territory of the United States of America, any European Union member state or by any political subdivision or taxing authority of any such state, commonwealth, territory, country or member state, and rated at least "BBB−" by S&P or "Baa3" by Moody's (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);

(6) bills of exchange issued in the United States of America or a member state of the European Union eligible for rediscount at the relevant central bank and accepted by a bank (or any dematerialized equivalent);

(7) any money market deposit accounts issued or offered by a commercial bank organized under the laws of a country that is a member of the Organization for Economic Co-operation and Development, in each case, having capital and surplus in excess of €250 million (or the foreign currency equivalent thereof) or whose long term debt is rated at least "A" by S&P or "A-2" by Moody's (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization) at the time such Investment is made;

(8) investment funds investing 95% of their assets in securities of the type described in clauses (1) through (7) above (which funds may also hold reasonable amounts of cash pending investment and/or distribution); and

(9) investments in money market funds complying with the risk limiting conditions of Rule 2a-7 (or any successor rule) of the SEC under the U.S. Investment Company Act of 1940, as amended.

"*Total Assets*" means the consolidated total assets of the Issuer and the Restricted Subsidiaries as shown on the most recent consolidated balance sheet of the Issuer prepared on the basis of IFRS prior to the relevant date of determination calculated to give pro forma effect to any Purchase and Sales that have occurred subsequent to such period, including any such Purchase to be made with the proceeds of Indebtedness giving rise to the need to calculate Total Assets.

"*Transactions*" means the PT Portugal Acquisition, the Financing and the other transactions described under "The Transactions" elsewhere in these Listing Particulars.

"*Treasury Rate*" means, as of the applicable redemption date, the yield to maturity as of such redemption date of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H. 15 (519) that has become publicly available at least two (2) Business Days prior to such redemption date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from such redemption date to February 15, 2020; *provided* that if the period from such redemption date to February 15, 2020 is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used.

"*U.S. GAAP*" means generally accepted accounting principles in the United States of America as in effect from time to time.

"*U.S. Government Obligations*" means securities that are (a) direct obligations (or certificates representing an ownership interest in such obligations) of the United States of America, for the timely payment of which its full faith and credit is pledged or (b) obligations (or certificates representing an ownership interest in such obligations) of a Person controlled or supervised by and acting as an agency or instrumentality of the United States of America, rated at least "*A-1*" by S&P or "*P-1*" by Moody's, and which are not callable or redeemable at the option of the issuer thereof.

"*Uniform Commercial Code*" means the New York Uniform Commercial Code.

"*Unrestricted Subsidiary*" means:

(1) Green Datacenter and Auberimmo SAS;

(2) any Subsidiary of the Issuer that at the time of determination is an Unrestricted Subsidiary (as designated by the Board of Directors of the Issuer in the manner provided below); and

(3) any Subsidiary of an Unrestricted Subsidiary.

The Board of Directors of the Issuer may designate any Subsidiary of the Issuer (other than Altice France, Numericable and Altice International) (including any newly acquired or newly formed Subsidiary or a Person becoming a Subsidiary through merger, consolidation or other business combination transaction, or Investment therein) to be an Unrestricted Subsidiary only if:

(1) such Subsidiary or any of its Subsidiaries does not own any Capital Stock or Indebtedness of, or own or hold any Lien on any property of, the Issuer or any other Subsidiary of the Issuer which is not a Subsidiary of the Subsidiary to be so designated or otherwise an Unrestricted Subsidiary; and

(2) such designation and the Investment of the Issuer and the Restricted Subsidiaries in such Subsidiary complies with "*—Certain Covenants—Limitation on Restricted Payments*".

Any such designation by the Board of Directors of the Issuer shall be evidenced to the Trustee by filing with the Trustee a copy of the resolution of the Board of Directors of the Issuer giving effect to such designation and an Officer's Certificate certifying that such designation complies with the foregoing conditions.

The Board of Directors of the Issuer may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that immediately after giving effect to such designation:

(1) no Default or Event of Default would result therefrom; and

(2) (i) (x) the Issuer could Incur at least €1.00 of additional Indebtedness under sub-clause (3) of the first paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*" or (y) the Consolidated Net Leverage Ratio of the Issuer would be no higher than it was immediately prior to giving effect to such designation, in each case, on a pro forma basis taking into account such designation;

(ii) if such Subsidiary will become a Restricted Subsidiary of Altice International, (x) Altice International could Incur at least €1.00 of additional Indebtedness under sub-clause (1) of the first paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*" or (y) the Consolidated Net Leverage Ratio of Altice International would be no higher than it was immediately prior to giving effect to such designation, in each case, on a pro forma basis taking into account such designation; and

(iii) if such Subsidiary will become a Restricted Subsidiary of Numericable, (x) Numericable could Incur at least €1.00 of additional Indebtedness under sub-clause (2) of the first paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*" or (y) the Consolidated Net Leverage Ratio of Numericable would be no higher than it was immediately prior to giving effect to such designation, in each case, on a pro forma basis taking into account such designation.

Any such designation by the Board of Directors shall be evidenced to the Trustee by promptly filing with the Trustee a copy of the resolution of the Board of Directors giving effect to such designation or an Officer's Certificate certifying that such designation complied with the foregoing provisions.

"*Voting Stock*" of a Person means all classes of Capital Stock of such Person then outstanding and normally entitled to vote in the election of directors.

"*Wholly Owned Subsidiary*" means a Restricted Subsidiary of a Person, all of the Capital Stock of which (other than directors' qualifying shares or shares required by any applicable law or regulation to be held by a Person other than such Person or another Wholly Owned Subsidiary of such Person) is owned by such Person or another Wholly Owned Subsidiary of such Person.

BOOK-ENTRY, DELIVERY AND FORM

General

Each series of the Notes sold outside the United States pursuant to Regulation S will initially be represented by one or more global notes in registered form without interest coupons attached (the "Regulation S Global Notes"). The Regulation S Global Notes representing the Dollar Notes (the "Dollar Regulation S Global Notes") were deposited, on the Issue Date, with Deutsche Bank Trust Company Americas, as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC. The Regulation S Global Notes representing the Euro Notes (the "Euro Regulation S Global Notes") were deposited, on the Issue Date, with a common depositary and registered in the name of the nominee of the common depositary for the accounts of Euroclear and Clearstream.

Each series of the Notes sold within the United States to "qualified institutional buyers" pursuant to Rule 144A will initially be represented by one or more global notes in registered form without interest coupons attached (the "144A Global Notes" and, together with the Regulation S Global Notes, the "Global Notes"). The 144A Global Notes representing the Dollar Notes (the "Dollar 144A Global Notes") were deposited, on the Issue Date, with Deutsche Bank Trust Company Americas, as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC. The 144A Global Notes representing the Euro Notes (the "Euro 144A Global Notes") were deposited, on the Issue Date, with a common depositary and registered in the name of the nominee of the common depositary for the accounts of Euroclear and Clearstream.

The Dollar 144A Global Notes and the Dollar Regulation S Global Notes are collectively referred to herein as the "Dollar Global Notes". The Euro 144A Global Notes and the Euro Regulation S Global Notes are collectively referred to herein as the "Euro Global Notes".

Ownership of interests in the 144A Global Notes (the "144A Book-Entry Interests") and ownership of interests in the Regulation S Global Notes (the "Regulation S Book-Entry Interests" and, together with the 144A Book-Entry Interests, the "Book-Entry Interests") will be limited to persons that have accounts with DTC, Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-Entry Interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by DTC, Euroclear and Clearstream and their participants. The Book-Entry Interests in the Euro Global Notes were issued only in denominations of €100,000 and in integral multiples of €1,000 in excess thereof and the Book-Entry Interests in the Dollar Global Notes were issued only in denominations of $200,000 and integral multiples of $1,000 in excess thereof.

The Book-Entry Interests will not be held in definitive form. Instead, DTC, Euroclear and/or Clearstream, as applicable, will credit on their respective book-entry registration and transfer systems a participant's account with the interest beneficially owned by such participant. The laws of some jurisdictions, including certain states of the United States, may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge Book-Entry Interests. In addition, while the Notes are in global form, owners of interest in the Global Notes will not have the Notes registered in their names, will not receive physical delivery of the Notes in certificated form and will not be considered the registered owners or "holders" of the Notes under the Indenture for any purpose.

So long as the Notes are held in global form, the common depositaries for DTC, Euroclear and/or Clearstream (or their respective nominees), as applicable, will be considered the sole holders of Global Notes for all purposes under each of the Indenture. As such, participants must rely on the procedures of DTC, Euroclear and/or Clearstream, as applicable, and indirect participants must rely on the procedures of DTC, Euroclear and/or Clearstream, as applicable, and the participants through which they own Book-Entry Interests in order to exercise any rights of holders under the Indenture.

Neither we, the Registrar, Deutsche Bank Trust Company Americas, as custodian for DTC, the common depository for the accounts of Euroclear and Clearstream nor the Trustee under the Indenture nor any of our or their respective agents will have any responsibility or be liable for any aspect of the records relating to the Book-Entry Interests.

Issuance of Definitive Registered Notes

Under the terms of each of the Indenture, owners of Book-Entry Interests will receive definitive Notes in registered form (the "Definitive Registered Notes"):

- if DTC (with respect to the Dollar Global Notes), or Euroclear and Clearstream (with respect to the Euro Global Notes) notify the Issuer that it is unwilling or unable to continue to act as depositary and a successor depositary is not appointed by the Issuer within 120 days,

- if DTC (with respect to the Dollar Global Notes), or Euroclear or Clearstream (with respect to the Euro Global Notes) so requests following an event of default under the Indenture or the Existing 2015 Senior Notes Indenture, as applicable, or

- if the owner of a Book-Entry Interest requests such exchange in writing delivered through DTC, Euroclear and/or Clearstream, as applicable, following an event of default under the Indenture, as applicable.

In such an event, the Issuer will issue Definitive Registered Notes, registered in the name or names and issued in any approved denominations, requested by or on behalf of DTC, Euroclear and/or Clearstream, as applicable, or the Issuer, as applicable (in accordance with their respective customary procedures and based upon directions received from participants reflecting the beneficial ownership of Book-Entry Interests), and such Definitive Registered Notes will bear the restrictive legend referred to in "*Transfer Restrictions*", unless that legend is not required by the Indenture or applicable law.

To the extent permitted by law, we, the Trustee, the Paying Agents, the transfer agents and the Registrar shall be entitled to treat the registered holder of any Global Note as the absolute owner thereof and no person will be liable for treating the registered holder as such.

We will not impose any fees or other charges in respect of the Notes, however, owners of the Book-Entry Interests may incur fees normally payable in respect of the maintenance and operation of accounts in DTC, Euroclear and/or Clearstream, as applicable.

Redemption of the Global Notes

In the event any Global Note, or any portion thereof, is redeemed, DTC, Euroclear and/or Clearstream, as applicable, will distribute the amount received by it in respect of the Global Note so redeemed to the holders of the Book-Entry Interests in such Global Note from the amount received by it in respect of the redemption of such Global Note. The redemption price payable in connection with the redemption of such Book-Entry Interests will be equal to the amount received by DTC, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). We understand that under existing practices of DTC, Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, DTC, Euroclear and Clearstream will credit their respective participants' accounts on a proportionate basis (with adjustments to prevent fractions) or on such other basis as they deem fair and appropriate, *provided*, *however*, that no Book-Entry Interest of less than €100,000, in the case of the Euro Global Notes, or $200,000, in the case of the Dollar Global Notes, principal amount at maturity, or less, may be redeemed in part.

Payments on Global Notes

Payments of any amounts owing in respect of the Global Notes (including principal, premium, interest, additional interest and additional amounts) will be made by the Issuer to the Paying Agents. The Principal Paying Agent will, in turn, make such payments to Euroclear and Clearstream (in the case of the Euro Global Notes) and to DTC or its nominee (in the case of the Dollar Global Notes), which will distribute such payments to participants in accordance with their respective procedures.

Under the terms of each of the Indenture, the Issuer, the Trustee, the Registrar, the transfer agents and the Paying Agents will treat the registered holder of the Global Notes (i.e. the nominee of DTC and the nominee of the common depositary for Euroclear or Clearstream) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, neither we, the Trustee, the Registrar, the transfer agents nor the Paying Agents or any of their respective agents has or will have any responsibility or liability for:

- any aspects of the records of DTC, Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a Book-Entry Interest, for any such payments made by DTC, Euroclear, Clearstream or any participant or indirect participant, or for maintaining, supervising or reviewing the records of DTC, Euroclear, Clearstream or any participant or indirect participant relating to, or payments made on account of, a Book-Entry Interest,

- payments made by DTC, Euroclear, Clearstream or any participant or indirect participant, or for maintaining, supervising or reviewing the records of DTC, Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a Book-Entry Interest,

- DTC, Euroclear, Clearstream or any participant or indirect participant, or

- the records of the common depositary or custodian.

Payments by participants to owners of Book-Entry Interests held through participants are the responsibility of such participants, as is now the case with securities held for the accounts of subscribers registered in "street name".

Currency and Payment for the Global Notes

The principal of, premium, if any, and interest on, and all other amounts payable in respect of, the Euro Global Notes will be paid to holders of interest in such Notes (each a "Euroclear/Clearstream Holder" and together, the "Euroclear/Clearstream Holders") through Euroclear and/or Clearstream, as applicable, in euro. The principal of, premium, if any, and interest on, and all other amounts payable in respect of, the Dollar Global Notes will be paid to holders of interest in such Notes (each a "DTC Holder" and together, the "DTC Holders") through DTC in U.S. dollars.

Notwithstanding the payment provisions described above, Euroclear/Clearstream Holders may elect to receive payments in respect of the Euro Global Notes in U.S. dollars and DTC Holders may elect to receive payments in respect of the Dollar Global Notes in euro.

If so elected, a Euroclear/Clearstream Holder may receive payments of amounts payable in respect of its interest in the Euro Global Notes in U.S. dollars in accordance with Euroclear or Clearstream's customary procedures, which include, among other things, giving to Euroclear or Clearstream, as appropriate, a notice of such holder's election. All costs of conversion resulting from any such election will be borne by such Euroclear/Clearstream Holder.

If so elected, a DTC Holder may receive payment of amounts payable in respect of its interest in the Dollar Global Notes in euro in accordance with DTC's customary procedures, which include, among other things, giving to DTC a notice of such holder's election to receive payments in euro. All costs of conversion resulting from any such election will be borne by such DTC Holder.

Action by Owners of Book-Entry Interests

DTC, Euroclear and Clearstream have advised the Issuer that they will take any action permitted to be taken by a holder of the Notes only at the direction of one or more participants to whose account the Book-Entry Interests in the Global Notes are credited and only in respect of such portion of the aggregate principal amount of the Notes as to which such participant or participants has or have given such direction. DTC, Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Notes. However, if there is an event of default under the Indenture, each of DTC, Euroclear and Clearstream reserves the right to exchange the Global Notes for Definitive Registered Notes in certificated form, and to distribute such Definitive Registered Notes to their respective participants.

Transfers

Transfers between participants in DTC will be done in accordance with DTC rules and will be settled in immediately available funds. Transfer between participants in Euroclear and Clearstream will be done in accordance with Euroclear or Clearstream rules, as applicable and will be settled in immediately available funds. If a holder requires physical delivery of Definitive Registered Notes for any reason, including to sell the Notes to persons in states which require physical delivery of such securities or to pledge such securities, such holder must transfer its interest in the Global Notes in accordance with the normal procedures of DTC, Euroclear or Clearstream, as applicable, and in accordance with the provisions of each of the Indenture.

The Global Notes will bear a legend to the effect set forth in "*Transfer Restrictions*". Book-Entry Interests in the Global Notes will be subject to the restrictions on transfer discussed in "*Transfer Restrictions*".

Through and including the 40th day after the later of the commencement of the offering of the Notes and the closing of the offering (the "40-day Period"), beneficial interests in a Regulation S Global Note may be transferred to a person who takes delivery in the form of an interest in the Rule 144A Global Note denominated in the same currency only if such transfer is made pursuant to Rule 144A and the transferor first delivers to the Trustee a certificate (in the form provided in the Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a "qualified institutional buyer" within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under "*Transfer Restrictions*" and in accordance with all applicable securities laws of the states of the United States and other jurisdictions.

After the expiration of the 40-day Period, beneficial interests in a Regulation S Global Note may be transferred to a person who takes delivery in the form of a beneficial interest in the Rule 144A Global Note denominated in the same currency without compliance with these certification requirements.

Beneficial interests in a Rule 144A Global Note may be transferred to a person who takes delivery in the form of a beneficial interest in the Regulation S Global Note denominated in the same currency only upon receipt by the Trustee of a written certification (in the form provided in the Indenture) from the transferor to the effect that such transfer is being made in accordance with Regulation S or Rule 144 (if available).

Subject to the foregoing, and as set forth in "*Transfer Restrictions*", Book-Entry Interests may be transferred and exchanged as described under "*Description of Notes—Transfer and Exchange*". Any Book-Entry Interest in one of the Global Notes that is transferred to a person who takes delivery in the form of a Book-Entry Interest in the other Global Note of the same denomination will, upon transfer, cease to be a Book-Entry Interest in the first-mentioned Global Note and become a Book-Entry Interest in the other Global Note, and accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in such other Global Note for as long as it retains such a Book-Entry Interest.

Definitive Registered Notes may be transferred and exchanged for Book-Entry Interests in a Global Note only as described under "*Description of Notes—Transfer and Exchange*" and, if required, only if the transferor first delivers to the Trustee a written certificate (in the form provided in the Indenture) to the effect that such transfer will comply with the appropriate transfer restrictions applicable to such Notes. See "*Transfer Restrictions*".

This paragraph refers to transfers and exchanges with respect to Dollar Global Notes only. Transfers involving an exchange of a Regulation S Book-Entry Interest for 144A Book-Entry Interest in a Dollar Global Note will be done by DTC by means of an instruction originating from the Trustee through the DTC Deposit/Withdrawal Custodian system. Accordingly, in connection with any such transfer, appropriate adjustments will be made to reflect a decrease in the principal amount of the relevant Regulation S Global Note and a corresponding increase in the principal amount of the corresponding 144A Global Note. The policies and practices of DTC may prohibit transfers of unrestricted Book-Entry Interests in the Regulation S Global Note prior to the expiration of the 40 days after the date of initial issuance of the Notes. Any Book-Entry Interest in one of the Global Notes that is transferred to a person who takes delivery in the form of a Book-Entry Interest in any other Global Note will, upon transfer, cease to be a Book-Entry Interest in the first mentioned Global Note and become a Book-Entry interest in such other Global Note, and accordingly will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in such other Global Note for as long as it remains such a Book-Entry Interest.

Information Concerning DTC, Euroclear and Clearstream

All Book-Entry Interests will be subject to the operations and procedures of DTC, Euroclear and Clearstream, as applicable. We provide the following summaries of those operations and procedures solely for the convenience of investors. The operations and procedures of each settlement system are controlled by that settlement system and may be changed at any time. Neither the Issuer, the Trustee, the Paying Agents, the transfer agents, the Registrar, nor the Initial Purchasers are responsible for those operations or procedures. DTC has advised the Issuer that it is:

- a limited purpose trust company organized under New York Banking Law,
- a "banking organization" within the meaning of New York Banking Law,
- a member of the Federal Reserve System,
- a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and
- a "clearing agency" registered pursuant to the provision of Section 17A of the U.S. Securities Exchange Act of 1934, as amended (the "U.S. Exchange Act").

DTC holds and provides asset servicing for issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (that DTC's direct participants deposit with DTC). DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic book-entry transfers and pledges between direct participants' accounts. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly.

Like DTC, Euroclear and Clearstream hold securities for participating organizations. They also facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in the accounts of such participants. Euroclear and Clearstream provide to their participants, among other things, services for safekeeping, administration, clearance, settlement, lending and borrowing of internationally traded securities. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions, such as underwriters, securities brokers and dealers, banks, trust companies and certain other organizations. Indirect access to Euroclear and/or Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodian relationship with a Euroclear and/or Clearstream participant, either directly or indirectly.

Because DTC, Euroclear and Clearstream can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of an owner of a beneficial interest to pledge such interest to persons or entities that do not participate in the DTC, Euroclear or Clearstream systems, or otherwise take actions in respect of such interest, may be limited by the lack of a definite certificate for that interest. The laws of some jurisdictions require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests to such person may be limited. In addition, owners of beneficial interests through the DTC, Euroclear or Clearstream systems will receive distributions attributable to the 144A Global Notes only through DTC, Euroclear or Clearstream participants.

Global Clearance and Settlement Under the Book-Entry System

The Notes represented by the Global Notes are expected to be admitted to the Official List of the Luxembourg Stock Exchange and to be admitted to trading on the Euro MTF market thereof and to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will therefore be required by DTC to be settled in immediately available funds. The Issuer expects that secondary trading in any certificated Notes will also be settled in immediately available funds. Subject to compliance with the transfer restrictions applicable to the Global Notes, cross market transfers between participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be done through DTC in accordance with DTC's rules on behalf of each of Euroclear or Clearstream by its common depositary, however, such cross market transactions will require delivery of instructions to Euroclear or Clearstream by the counterparty in such system in accordance with the rules and regulations and within the established deadlines of such system (Brussels time). Euroclear or Clearstream will, if the transaction meets its settlement requirements, deliver instructions to the common depositary to take action to effect final settlement on its behalf by delivering or receiving interests in the Global Notes by DTC, and making and receiving payment in accordance with normal procedures for same-day funds settlement application to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the common depositary.

Because of the time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. Cash received in Euroclear and Clearstream as a result of a sale of an interest in a Global Note by or through a Euroclear or Clearstream participant to a participant in DTC, will be received with value on the settlement date of DTC, but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

Although DTC, Euroclear and Clearstream currently follow the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants in DTC, Euroclear or Clearstream, as the case may be, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or modified at any time. Neither we, the Trustee, the Registrar the transfer agents nor the Principal Paying Agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants, of their respective obligations under the rules and procedures governing their operations.

Initial Settlement

Initial settlement for the Notes was made in euro and U.S. dollars. Book-Entry Interests owned through DTC, Euroclear or Clearstream accounts will follow the settlement procedures applicable to conventional bonds in registered form. Book-Entry Interests will be credited to the securities custody accounts of DTC, Euroclear and Clearstream holders on the business day following the settlement date against payment for value on the settlement date.

Secondary Market Trading

Application has been made to the Luxembourg Stock Exchange for the Notes represented by the Global Notes to be admitted to listing on the official list of the Luxembourg Stock Exchange and trading on its Euro MTF Market. We expect that secondary trading in the Notes will also be settled in immediately available funds.

The Book-Entry Interests will trade through participants of DTC and Euroclear or Clearstream and will settle in same-day funds. Since the purchase determines the place of delivery, it is important to establish at the time of trading of any Book-Entry Interests where both the purchaser's and the seller's accounts are located to ensure that settlement can be made on the desired value date.

TRANSFER RESTRICTIONS

The Notes have not been registered under the U.S. Securities Act or any other applicable securities laws, and unless so registered, the Notes may not be offered, sold, pledged or otherwise transferred within the United States or to, or for the account or benefit of any U.S. persons (as defined in Regulation S under the U.S. Securities Act) except pursuant to an exemption from, or a transaction not subject to, the registration requirements of the U.S. Securities Act and any other applicable securities laws. The Notes are being offered, sold and issued to (i) qualified institutional buyers in reliance on the exemption from the registration requirements of the U.S. Securities Act provided by Rule 144A or (ii) non-U.S. persons as defined in Rule 902 under the U.S. Securities Act in offshore transactions in reliance on Regulation S.

By purchasing the Notes, you will be deemed to have represented and agreed as follows (terms used in this paragraph that are defined in Rule 144A or Regulation S under the U.S. Securities Act are used herein as defined therein):

(1) You are not acting on behalf of the Issuer and you (A) (i) are a “qualified institutional buyer” (as defined in Rule 144A under the U.S. Securities Act), (ii) are aware that the sale to you is being made in reliance on Rule 144A; and (iii) are acquiring the Notes for your own account or for the account of a qualified institutional buyer; or (B) are not a U.S. person (as defined in Regulation S under the U.S. Securities Act) (and are not purchasing the Notes for the account or benefit of a U.S. person, other than a distributor) and are purchasing the Notes in an offshore transaction pursuant to Regulation S.

(2) You understand that the Notes are being offered in a transaction not involving any public offering in the United States within the meaning of the U.S. Securities Act, that the Notes have not been and will not be registered under the U.S. Securities Act or any other applicable securities laws and that (A) if in the future you decide to offer, resell, pledge or otherwise transfer any of the Notes, such Notes may be offered, resold, pledged or otherwise transferred only (i) for so long as the Notes are eligible for resale under Rule 144A, in the United States to a person whom you reasonably believe is a qualified institutional buyer in a transaction meeting the requirements of Rule 144A; (ii) outside the United States in a transaction complying with the provisions of Regulation S under the U.S. Securities Act; (iii) pursuant to a registration statement that has been declared effective under the U.S. Securities Act; (iv) to the applicable Issuer; or (v) pursuant to another available exemption from the registration requirements of the U.S. Securities Act, subject to the applicable Issuer’s and Trustee’s right prior to any such offer, sale or transfer pursuant to this clause (v) to require the delivery of an opinion of counsel, certification and/or other information satisfactory to them, in each case in accordance with any applicable securities laws; and (B) you will, and each subsequent holder is required to, notify any subsequent purchaser of the Notes from you or it of the resale restrictions referred to the legend below.

(3) You acknowledge that none of us, the Initial Purchasers or any person representing us or the Initial Purchasers has made any representation to you with respect to us or the offer or sale of any of the Notes, other than by us with respect to the information contained in these Listing Particulars. You acknowledge that the Initial Purchasers make no representation or warranty as to the accuracy or completeness of these Listing Particulars. You have had access to such financial and other information concerning us and the Notes as you deemed necessary in connection with your decision to purchase any of the Notes, including an opportunity to ask questions of, and request information from, us and the Initial Purchasers.

(4) You also acknowledge that:

(a) the Issuer and the Trustee reserve the right to require in connection with any offer, sale or other transfer of Notes under the paragraph two above the delivery of an opinion of counsel, certifications and/or other information satisfactory to the Issuer and the Trustee; and

(b) each Global Note contains a legend substantially to the following effect:

THIS NOTE HAS NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE ‘U.S. SECURITIES ACT’), OR THE SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION. NEITHER THIS NOTE NOR ANY INTEREST OR PARTICIPATION HEREIN MAY BE REOFFERED, SOLD, ASSIGNED, TRANSFERRED, PLEDGED, ENCUMBERED OR OTHERWISE DISPOSED OF UNLESS SUCH TRANSACTION IS EXEMPT FROM, OR NOT SUBJECT TO, SUCH REGISTRATION.

THE HOLDER OF THIS NOTE BY ITS ACCEPTANCE HEREOF (1) REPRESENTS THAT (A) IT IS A “QUALIFIED INSTITUTIONAL BUYER” (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT) OR (B) IT IS NOT A U.S. PERSON AND IS ACQUIRING THIS NOTE IN AN “OFFSHORE TRANSACTION” PURSUANT TO RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT, (2) AGREES ON ITS OWN BEHALF AND ON BEHALF OF ANY INVESTOR ACCOUNT FOR WHICH IT

HAS PURCHASED NOTES, TO OFFER, SELL OR OTHERWISE TRANSFER SUCH NOTES, PRIOR TO THE DATE (THE "RESALE RESTRICTION TERMINATION DATE") THAT IS [IN THE CASE OF RULE 144A NOTES: ONE YEAR] [IN THE CASE OF REGULATION S NOTES: 40 DAYS] AFTER THE LATER OF THE ORIGINAL ISSUE DATE HEREOF AND THE LAST DATE ON WHICH THE ISSUER OR ANY AFFILIATES OF THE ISSUER WAS THE OWNER OF THIS NOTE (OR ANY PREDECESSOR OF SUCH SECURITY), ONLY (A) TO THE ISSUER, (B) PURSUANT TO A REGISTRATION STATEMENT THAT HAS BEEN DECLARED EFFECTIVE UNDER THE U.S. SECURITIES ACT, (C) FOR SO LONG AS THE NOTES ARE ELIGIBLE FOR RESALE PURSUANT TO RULE 144A UNDER THE U.S. SECURITIES ACT, IN THE UNITED STATES TO A PERSON IT REASONABLY BELIEVES IS A "QUALIFIED INSTITUTIONAL BUYER" AS DEFINED IN RULE 144A UNDER THE U.S. SECURITIES ACT IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A, (D) OUTSIDE THE UNITED STATES IN A TRANSACTION COMPLYING WITH THE PROVISIONS OF REGULATION S UNDER THE U.S. SECURITIES ACT, OR (E) PURSUANT TO ANOTHER AVAILABLE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT, SUBJECT TO THE ISSUER' AND THE TRUSTEE'S RIGHT PRIOR TO ANY SUCH OFFER, SALE OR TRANSFER PURSUANT TO CLAUSE (E) TO REQUIRE THE DELIVERY OF AN OPINION OF COUNSEL, CERTIFICATION AND/OR OTHER INFORMATION SATISFACTORY TO THEM. THIS LEGEND WILL BE REMOVED UPON THE REQUEST OF THE HOLDER AFTER THE RESALE RESTRICTION TERMINATION DATE.

BY ACCEPTING THIS NOTE (OR AN INTEREST IN THE NOTES REPRESENTED HEREBY) EACH ACQUIRER AND EACH TRANSFEREE IS DEEMED TO REPRESENT, WARRANT AND AGREE THAT AT THE TIME OF ITS ACQUISITION AND THROUGHOUT THE PERIOD THAT IT HOLDS THIS NOTE OR ANY INTEREST HEREIN (1) EITHER (A) IT IS NOT, AND IT IS NOT ACTING ON BEHALF OF (AND FOR SO LONG AS IT HOLDS SUCH NOTES OR ANY INTEREST THERE IN IT WILL NOT BE, AND WILL NOT BE ACTING ON BEHALF OF), AN EMPLOYEE BENEFIT PLAN (AS DEFINED IN SECTION 3(3) OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA")), SUBJECT TO THE PROVISIONS OF PART 4 OF SUBTITLE B OF TITLE I OF ERISA, A PLAN TO WHICH SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED, ("CODE"), APPLIES, OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE "PLAN ASSETS" BY REASON OF SUCH AN EMPLOYEE BENEFIT PLAN'S OR PLAN'S INVESTMENT IN SUCH ENTITY (EACH, A "BENEFIT PLAN INVESTOR"), OR A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN WHICH IS SUBJECT TO ANY FEDERAL, STATE, LOCAL, NON-U.S. OR OTHER LAWS OR REGULATIONS THAT ARE SUBSTANTIALLY SIMILAR TO THE FIDUCIARY RESPONSIBILITY OR THE PROHIBITED TRANSACTION PROVISIONS OF ERISA OR SECTION 4975 OF THE CODE ("SIMILAR LAWS"), AND NO PART OF THE ASSETS USED BY IT TO ACQUIRE OR HOLD THIS NOTE OR ANY INTEREST HEREIN CONSTITUTES THE ASSETS OF ANY BENEFIT PLAN INVESTOR OR SUCH A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, OR (B) ITS ACQUISITION, HOLDING AND DISPOSITION OF THIS NOTE OR AN INTEREST HEREIN DOES NOT AND WILL NOT CONSTITUTE OR OTHERWISE RESULT IN A NON-EXEMPT PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE (OR, IN THE CASE OF A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, A NON-EXEMPT VIOLATION OF ANY SIMILAR LAWS); (2) NEITHER ISSUER NOR ANY OF ITS AFFILIATES IS A "FIDUCIARY" (WITHIN THE MEANING OF SECTION 3(21) OF ERISA OR, WITH RESPECT TO A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, ANY DEFINITION OF "FIDUCIARY" UNDER SIMILAR LAWS) WITH RESPECT TO THE PURCHASER OR HOLDER IN CONNECTION WITH ANY PURCHASE OR HOLDING OF THE NOTES, OR AS A RESULT OF ANY EXERCISE BY THE ISSUER OR ANY OF ITS AFFILIATES OF ANY RIGHTS IN CONNECTION WITH THE NOTES, AND NO ADVICE PROVIDED BY THE ISSUER OR ANY OF ITS AFFILIATES HAS FORMED A PRIMARY BASIS FOR ANY INVESTMENT DECISION BY OR ON BEHALF OF THE PURCHASER AND HOLDER IN CONNECTION WITH THE NOTES AND THE TRANSACTIONS CONTEMPLATED WITH RESPECT TO THE NOTES; AND (3) IT WILL NOT SELL OR OTHERWISE TRANSFER THIS NOTE OR ANY INTEREST HEREIN OTHER THAN TO A PURCHASER OR TRANSFEREE THAT IS DEEMED TO MAKE THESE SAME REPRESENTATIONS, WARRANTIES AND AGREEMENTS WITH RESPECT TO ITS ACQUISITION, HOLDING AND DISPOSITION OF THIS NOTE.

(c) The following legend shall also be included, if applicable:

THE FOLLOWING INFORMATION IS SUPPLIED SOLELY FOR U.S. FEDERAL INCOME TAX PURPOSES. THIS NOTE WAS ISSUED WITH "ORIGINAL ISSUE DISCOUNT" ("OID") WITHIN THE MEANING OF SECTION 1273 OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"), AND THIS LEGEND IS REQUIRED BY SECTION 1275(c) OF THE CODE: U.S. HOLDERS MAY OBTAIN INFORMATION REGARDING THE AMOUNT OF OID, IF ANY, THE ISSUE PRICE, THE

ISSUE DATE AND YIELD TO MATURITY BY CONTACTING THE ISSUER, 3, BOULEVARD ROYAL, L-2449 LUXEMBOURG +352 278 58 901. ATTN: CHIEF FINANCIAL OFFICER.

If you purchase Notes, you will also be deemed to acknowledge that the foregoing restrictions apply to holders of beneficial interests in these Notes as well as to holders of these Notes.

(1) You acknowledge that the registrar will not be required to accept for registration of transfer any Notes acquired by you, except upon presentation of evidence satisfactory to the Issuer and the registrar that the restrictions set forth herein have been complied with.

(2) You acknowledge that:

(a) The Issuer, the Initial Purchasers and others will rely upon the truth and accuracy of your acknowledgments, representations and agreements set forth herein and you agree that, if any of your acknowledgments, representations or agreements herein cease to be accurate and complete, you will notify the Issuer and the Initial Purchasers promptly in writing; and

(b) if you are acquiring any Notes as a fiduciary or agent for one or more investor accounts, you represent with respect to each such account that:

(i) you have sole investment discretion; and

(ii) you have full power to make, and make, the foregoing acknowledgments, representations and agreements.

(3) You agree that you will give to each person to whom you transfer the Notes notice of any restrictions on the transfer of the Notes.

(4) You acknowledge that the above restrictions on resale will apply from the closing date until the date that is one year (in the case of the Notes issued under Rule 144A under the U.S. Securities Act) or 40 days (in the case of the Notes issued under Regulation S under the U.S. Securities Act) after the later of the closing date and the last date that the applicable Issuer or any of its affiliates was the owner of the Notes or any predecessor of the Notes (the "*Resale Restriction Period*"), and will not apply after the applicable Resale Restriction Period ends.

(5) The purchaser understands that no action has been taken in any jurisdiction (including the United States) by the Issuer or the Initial Purchasers that would permit a public offering of the Notes or the possession, circulation or distribution of these Listing Particulars or any other material relating to the Issuer, the Notes in any jurisdiction where action for the purpose is required. Consequently, any transfer of the Notes will be subject to the selling restrictions set forth hereunder and/or in the front of these Listing Particulars under "*Notice to Certain European Investors*", "*Notice to Israeli Investors*" and/or under "*Plan of Distribution*" or "*Certain Employee Benefit Plan Considerations*".

You are advised to consult legal counsel prior to making any offer, resale, pledge or other transfer of any of the Notes offered hereby.

We have not registered and will not register the Notes, and, upon the occurrence of the Completion Date, the Notes or the Guarantee under the U.S. Securities Act or any other applicable securities laws, and unless so registered, and, therefore, neither the Notes nor (upon exchange for the Notes) the Notes may be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. Accordingly, we are offering and selling the Notes to the Initial Purchasers for re-offer and resale only:

- to U.S. investors that we reasonably believe to be (i) "Qualified Purchasers" (as defined in Section 2(a)(51) of the U.S. Investment Company Act), commonly referred to as "QPs", and (ii) "qualified institutional buyers", commonly referred to as "QIBs", (as defined in Rule 144A under the U.S. Securities Act) in compliance with Rule 144A; and

- outside the United States in offshore transactions to non-U.S. persons in compliance with Regulation S.

We use the terms "offshore transaction" and "United States" with the meanings given to them in Regulation S.

Each purchaser of Notes, by its acceptance thereof, will be deemed to have acknowledged, represented to and agreed with the Altice Financing and the Initial Purchasers as follows:

(1) It understands and acknowledges that the Notes and the Guarantees have not been registered under the U.S. Securities Act or any other applicable state securities laws, and that the Notes are being offered for resale in transactions not requiring registration under the U.S. Securities Act or any state securities law, including sales in reliance on Rule 144A, and, unless so registered, may not be offered, sold or otherwise transferred except in compliance with the registration requirements of the U.S. Securities Act or any other applicable state securities laws, pursuant to an exemption therefrom or in any transaction not subject thereto, and in each case in compliance with the conditions for transfer set forth in paragraphs (4) and (5) below.

(2) It is not an "affiliate" (as defined in Rule 144) of the Issuer or acting on behalf of the Issuer and it is either:

(i) both a QIB and a QP and is aware that any sale of Notes to it will be made in reliance on Rule 144A, and the acquisition of Notes will be for its own account or for the account of a party that is both a QIB and a QP; or

(ii) a non-U.S. person purchasing the Notes in an offshore transaction in compliance with Regulation S.

(3) It acknowledges that none of the, the Guarantor, the Trustee, the Paying Agent, the Transfer Agent, the Registrars or the Initial Purchasers, or any person representing any of them, have made any representation to it with respect to the offering or sale of the Notes, other than the information contained in these Listing Particulars. It has had access to such financial and other information concerning us, the Issuer and its subsidiaries, and the Notes as it has deemed necessary in connection with its decision to purchase any of the Notes, including an opportunity to ask questions of, and request information from, the Issuer and the Initial Purchasers.

(4) It is purchasing the Notes for its own account, or for one or more investor accounts for which it is acting as a fiduciary or agent, in each case for investment, and not with a view to, or for offer or sale in connection with, any distribution thereof in violation of the U.S. Securities Act or any state securities laws, subject to any requirement of law that the disposition of its property or the property of such investor account or accounts be at all times within its or their control and subject to its or their ability to resell such Notes pursuant to Rule 144A, Regulation S or any other exemption from registration available under the U.S. Securities Act.

(5) Each holder of Notes, as applicable, sold in reliance on Rule 144A ("Rule 144A Notes") agrees on its own behalf and on behalf of any investor account for which it is purchasing the Notes, as applicable, and each subsequent holder of the Rule 144A Notes by its acceptance thereof will be deemed to agree, to offer, sell or otherwise transfer such Notes prior to the date (the "Resale Restriction Termination Date") that is one year after the later of the date of the Issue Date and the last date on which the Issuer or any of its affiliates was the owner of such Notes, as the case may be, (or any predecessor thereto) only: (i) to the Issuer, the Guarantor or any subsidiary thereof; (ii) pursuant to a registration statement that has been declared effective under the U.S. Securities Act; (iii) for so long as the Notes, as applicable, are eligible for resale pursuant to Rule 144A, to a person it reasonably believes is a QIB that is also a QP who purchases for its own account or for the account of a QIB to whom notice is given that the transfer is being made in reliance on Rule 144A; (iv) pursuant to offers and sales that occur outside the United States to non-U.S. persons in compliance with Regulation S; or (v) pursuant to any other available exemption from the registration requirements of the U.S. Securities Act, subject in each of the foregoing cases to any requirement of law that the disposition of its property or the property of such investor account or accounts be at all times within its or their control and in compliance with any applicable state securities laws, and any applicable local laws and regulations, and further subject to the Issuer's and the Trustee's rights prior to any such offer, sale or transfer: (i) pursuant to clause (iv) or (v) to require the delivery of an opinion of counsel, certification and/or other information satisfactory to each of them; and (ii) in each of the foregoing cases, to require that a certificate of transfer in the form appearing on the reverse of the security is completed and delivered by the transferor to the Trustee. The foregoing restrictions on resale will not apply subsequent to the Resale Restriction Termination Date.

(6) The purchaser understands that, by its purchase, holding and disposition of the Notes, as applicable, or any interest therein, it shall be deemed to have represented and covenanted that, either (A) it is not acquiring the Notes, as applicable, or any interest therein for or on behalf of (and for so long as it holds the Notes, as applicable, or any interest therein will not be and will not be acting on behalf of), and will not sell or otherwise transfer the Notes, as applicable, to, (i) any "employee benefit plan" (as defined in Section 3(3) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA")) that is subject to Title I of ERISA, (ii) any "plan" (as defined in Section 4975(e)(1) of the Internal Revenue Code of 1986, as amended (the "Code")) that is subject to Section 4975 of the Code, or (iii) any entity the assets of which are considered to include "plan assets" of any plans described above in subsections (i) or (ii) (as determined pursuant to U.S. Department of Labor Regulations, as amended by Section 3(42) of ERISA), or (iv) any plan, such as a foreign plan, governmental plan (as defined in Section 3(32) of ERISA) or church plan (as defined in Section 3(33) of ERISA) that is not

subject to Title I of ERISA but that is subject to any federal, state, local, foreign or other laws or regulations that are similar to Title I of ERISA or Section 4975 of the Code (a "Similar Law"), or (B) the acquisition, holding and disposition of the Notes or any interest therein are exempt from the prohibited transaction restrictions of Section 406 of ERISA and Section 4975 of the Code (or in the case of a plan that is subject to a Similar Law, exempt from the analogous provisions of such Similar Law), pursuant to one or more applicable statutory or administrative exemptions.

(7) Each purchaser acknowledges that each Note contains a legend substantially to the following effect:

THIS SECURITY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "U.S. SECURITIES ACT"), OR THE SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION. NEITHER THIS SECURITY NOR ANY INTEREST OR PARTICIPATION HEREIN MAY BE OFFERED, SOLD, ASSIGNED, TRANSFERRED, PLEDGED, ENCUMBERED OR OTHERWISE DISPOSED OF IN THE ABSENCE OF SUCH REGISTRATION OR UNLESS SUCH TRANSACTION IS EXEMPT FROM, OR NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT.

THE HOLDER OF THIS SECURITY, BY ITS ACCEPTANCE HEREOF, AGREES TO OFFER, SELL OR OTHERWISE TRANSFER SUCH SECURITY, PRIOR TO THE DATE (THE "RESALE RESTRICTION TERMINATION DATE") THAT IS [RULE 144A NOTES: ONE YEAR] [NOTES SOLD IN RELIANCE ON REGULATION S: 40 DAYS] AFTER THE LATER OF THE ORIGINAL ISSUE DATE HEREOF AND THE LAST DATE ON WHICH THE ISSUER OR ANY AFFILIATE OF THE ISSUER WAS THE OWNER OF THIS SECURITY (OR ANY PREDECESSOR OF THIS SECURITY) ONLY (A) TO THE ISSUER, THE GUARANTOR OR ANY SUBSIDIARY THEREOF, (B) PURSUANT TO A REGISTRATION STATEMENT THAT HAS BEEN DECLARED EFFECTIVE UNDER THE U.S. SECURITIES ACT, (C) FOR SO LONG AS THE SECURITIES ARE ELIGIBLE FOR RESALE PURSUANT TO RULE 144A UNDER THE U.S. SECURITIES ACT ("RULE 144A"), TO A PERSON IT REASONABLY BELIEVES IS A "QUALIFIED INSTITUTIONAL BUYER" AS DEFINED IN RULE 144A THAT IS ALSO A "QUALIFIED PURCHASER" (AS DEFINED IN SECTION 2(A)(51) OF THE U.S. INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "U.S. INVESTMENT COMPANY ACT")) THAT PURCHASES FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER TO WHOM NOTICE IS GIVEN THAT THE TRANSFER IS BEING MADE IN RELIANCE ON RULE 144A, (D) PURSUANT TO OFFERS AND SALES THAT OCCUR OUTSIDE THE UNITED STATES TO NON-U.S. PERSONS IN COMPLIANCE WITH REGULATION S UNDER THE U.S. SECURITIES ACT, OR (E) PURSUANT TO ANY OTHER AVAILABLE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT, SUBJECT IN EACH OF THE FOREGOING CASES TO ANY REQUIREMENT OF LAW THAT THE DISPOSITION OF ITS PROPERTY OR THE PROPERTY OF SUCH INVESTOR ACCOUNT OR ACCOUNTS BE AT ALL TIMES WITHIN ITS OR THEIR CONTROL AND IN COMPLIANCE WITH ANY APPLICABLE STATE SECURITIES LAWS AND ANY APPLICABLE LOCAL LAWS AND REGULATIONS, AND FURTHER SUBJECT TO THE SENIOR SECURED NOTES ISSUER'S AND THE TRUSTEE'S RIGHTS PRIOR TO ANY SUCH OFFER, SALE OR TRANSFER: (I) PURSUANT TO CLAUSE (D) OR (E) TO REQUIRE THE DELIVERY OF AN OPINION OF COUNSEL, CERTIFICATION AND/OR OTHER INFORMATION SATISFACTORY TO EACH OF THEM; AND (II) IN EACH OF THE FOREGOING CASES, TO REQUIRE THAT A CERTIFICATE OF TRANSFER IN THE FORM APPEARING ON THE REVERSE OF THIS NOTE IS COMPLETED AND DELIVERED BY THE TRANSFEROR TO THE TRUSTEE, AND AGREES THAT IT WILL GIVE TO EACH PERSON TO WHOM THIS NOTE IS TRANSFERRED A NOTICE SUBSTANTIALLY TO THE EFFECT OF THIS LEGEND.

BY ACCEPTING THIS SECURITY OR ANY INTEREST THEREIN EACH HOLDER AND EACH TRANSFEREE IS DEEMED TO REPRESENT, WARRANT AND AGREE THAT AT THE TIME OF ITS ACQUISITION AND THROUGHOUT THE PERIOD THAT IT HOLDS THIS SECURITY OR ANY INTEREST THEREIN (1) EITHER (A) IT IS NOT ACQUIRING THIS SECURITY OR ANY INTEREST THEREIN FOR OR ON BEHALF OF (AND FOR SO LONG AS IT HOLDS THIS SECURITY WILL NOT BE AND WILL NOT BE ACTING ON BEHALF OF), AND WILL NOT TRANSFER THIS SECURITY TO, (I) ANY "EMPLOYEE BENEFIT PLAN" (AS DEFINED IN SECTION 3(3) OF THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA")) THAT IS SUBJECT TO TITLE I OF ERISA, (II) ANY "PLAN" (AS DEFINED IN SECTION 4975(e)(1) OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE")) THAT IS SUBJECT TO SECTION 4975 OF THE CODE, OR (III) ANY ENTITY THE UNDERLYING ASSETS OF WHICH ARE CONSIDERED TO INCLUDE "PLAN ASSETS" OF ANY PLANS DESCRIBED ABOVE IN SUBSECTIONS (I) OR (II) (AS DETERMINED PURSUANT TO U.S. DEPARTMENT OF LABOR REGULATIONS, AS MODIFIED BY SECTION 3(42) OF ERISA), OR (IV) ANY PLAN, SUCH AS A FOREIGN PLAN, GOVERNMENTAL

PLAN (AS DEFINED IN SECTION 3(32) OF ERISA) OR CHURCH PLAN (AS DEFINED IN SECTION 3(33) OF ERISA) THAT IS NOT SUBJECT TO TITLE I OF ERISA, BUT THAT IS SUBJECT TO ANY FEDERAL, STATE, LOCAL, FOREIGN OR OTHER LAWS OR REGULATIONS THAT ARE SIMILAR TO TITLE I OF ERISA OR SECTION 4975 OF THE CODE (A "SIMILAR LAW"), OR (B) THE ACQUISITION, HOLDING AND DISPOSITION OF THIS SECURITY OR ANY INTEREST THEREIN ARE EXEMPT FROM THE PROHIBITED TRANSACTION RESTRICTIONS OF SECTION 406 OF ERISA AND SECTION 4975 OF THE CODE (OR IN THE CASE OF A PLAN THAT IS SUBJECT TO A SIMILAR LAW, EXEMPT FROM THE ANALOGOUS PROVISIONS OF SUCH SIMILAR LAW), PURSUANT TO ONE OR MORE APPLICABLE STATUTORY OR ADMINISTRATIVE EXEMPTIONS; AND (2) IT WILL NOT SELL OR OTHERWISE TRANSFER THIS SECURITY OR ANY INTEREST HEREIN OTHER THAN TO A PURCHASER OR TRANSFEREE THAT IS DEEMED TO MAKE THESE SAME REPRESENTATIONS, WARRANTIES AND AGREEMENTS WITH RESPECT TO ITS ACQUISITION, HOLDING AND DISPOSITION OF THIS SECURITY.

If it purchases Notes, it will also be deemed to acknowledge that the foregoing restrictions apply to holders of beneficial interests in the Notes, as well as to holders of the Notes.

(8) It agrees that it will give to each person to whom it transfers the Notes notice of any restrictions on transfer of such Notes.

(9) It acknowledges that until 40 days after the commencement of the Offering of the Notes, any offer or sale of the Notes within the United States by a dealer (whether or not participating in the offering of the Notes) may violate the registration requirements of the U.S. Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A under the U.S. Securities Act.

(10) If it is a non-U.S. person in a sale that occurs outside the United States within the meaning of Regulation S, it acknowledges that until the expiration of the "distribution compliance period" (as defined below), it shall not make any offer or sale of the Notes to a U.S. person or for the account or benefit of a U.S. person within the meaning of Rule 902 under the U.S. Securities Act. The "distribution compliance period" means the 40-day period following the issue date for the Notes.

(11) It acknowledges that the relevant Registrar will not be required to accept for registration or transfer any Notes acquired by it except upon presentation of evidence satisfactory to the Issuer and the relevant Registrar that the restrictions set forth therein have been complied with.

(12) It acknowledges that the Issuer, the Initial Purchasers, the Trustee, the Transfer Agent, the relevant Registrar and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations, warranties and agreements and agrees that if any of the acknowledgements, representations, warranties and agreements deemed to have been made by its purchase of the Notes is no longer accurate, it shall promptly notify the Initial Purchasers. If it is acquiring any Notes as a fiduciary or an agent for one or more investor accounts, it represents that it has sole investment discretion with respect to each such investor account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such investor account.

(13) It understands that no action has been taken in any jurisdiction (including the United States) by the Issuer, the Guarantor or the Initial Purchasers that would result in a public offering of the Notes or the possession, circulation or distribution of these Listing Particulars or any other material relating to us or the Notes in any jurisdiction where action for such purpose is required. Consequently, any transfer of the Notes will be subject to the selling restrictions set forth under "Plan of Distribution."

TAX CONSIDERATIONS

EU Savings Directive

On June 3, 2003, the Council of the European Union adopted the European Council directive 2003/48/EC on the taxation of savings income in the form of interest payments (the "EU Savings Directive"). According to the EU Savings Directive, effective as from July 1, 2005, Member States are required to provide to the tax authorities of another Member State details of payment of interest or other similar income within the meaning of the EU Savings Directive made by a paying agent established within its jurisdiction to an individual resident or certain entities called "Residual Entities" (within the meaning of the EU Savings Directive) established in that other Member State or in a Territory (as defined below).

However, for a transitional period, Luxembourg is permitted to apply a withholding tax system whereby if a beneficial owner (within the meaning of the EU Savings Directive) does not opt for the exchange of information or does not provide specific tax certificate reporting, the relevant Member State will levy a withholding tax on payments to such beneficial owner. The rate of withholding is 35% since July 1, 2011. The transitional period is to terminate at the end of the first full fiscal year following the agreement by certain countries to the exchange of information in relation to such payments. The Luxembourg government has announced that it will elect out of the withholding tax system in favor of the automatic exchange of information with effect as of January 1, 2015.

Also with effect from July 1, 2005, a number of non-EU countries (Switzerland, Andorra, Liechtenstein, Monaco and San Marino) and certain dependent or associated territories (including Jersey, Guernsey, Isle of Man, Montserrat, British Virgin Islands, Curaçao, Saba, Sint Eustatius, Bonaire, St. Maarten, Aruba, Cayman Islands, Turks and Caicos Islands and Anguilla) (the "Territories") have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent (within the meaning of the EU Savings Directive) within its jurisdiction to, or collected by such a paying agent for, an individual resident or a Residual Entity established in a Member State. In addition, Luxembourg has entered into reciprocal provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a paying agent (within the meaning of the EU Savings Directive) in Luxembourg to, or collected by such a paying agent for, an individual resident or a Residual Entity (within the meaning of the EU Savings Directive) established in one of those Territories.

Investors should note that the European Council formally adopted a Council Directive amending the EU Savings Directive on 24 March 2014 (the "Amending Directive"). The Amending Directive broadens the scope of the requirements described above. Member States have until January 1, 2017, to adopt the national legislation necessary to comply with the Amending Directive. The changes made under the Amending Directive include extending the scope of the EU Savings Directive to payments made to, or secured for, certain other entities and legal arrangements. They also broaden the definition of "interest payment" to cover income that is equivalent to interest.

Luxembourg Taxation

The following discussion summarizes certain important Luxembourg taxation principles that may be relevant to you if you invest in, own, hold or dispose of the Notes. Unless otherwise indicated, all information contained in this section is based on laws, regulations, practice and decision in effect in Luxembourg at the date of these Listing Particulars (as referred to herein, collectively, "*Luxembourg Tax Laws*"), and as such, may be superseded after such date. Any subsequent changes to Luxembourg Tax Laws could apply retroactively and could affect the continued accuracy of this summary. This summary does not purport to be a comprehensive description of all Luxembourg Tax Laws and Luxembourg tax considerations that may be relevant to a decision to invest in, own, hold, or dispose of the Notes and is not intended as tax advice to any particular investor or potential investor in the Notes. You should consult your own tax advisors about the tax consequences of investing in, owning, holding or disposing of the Notes (including with respect to receiving interest on and redeeming the Notes). This summary does not describe any tax consequences arising under the laws of any state, locality or other taxing jurisdiction other than Luxembourg.

The residence concept used below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy impost or other charge or withholding of a similar nature refers to Luxembourg Tax Laws and/or concepts only. Any reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*), as well as personal income tax (*impôt sur le revenu*) generally. Corporate Noteholders may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax and the solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

Luxembourg tax residency of the Noteholders

A Luxembourg non-resident Noteholder will not become resident, nor be deemed to be resident, in Luxembourg by reason only of the holding of the Notes, or the execution, performance, delivery and/or enforcement of their entitlements thereunder.

Withholding Tax

In this section, "Interest", "Residual Entities" and "Paying Agent" have the meaning given thereto in the Luxembourg laws of June 21, 2005, implementing the EU Savings Directive (or the relevant agreements). "Interest" will include accrued or capitalized interest at the sale, repayment or redemption of the Notes. "Residual Entities" include, in general, all entities established in the EU and certain Territories (as defined below) other than legal entities, UCITS, and entities taxed as enterprises. "Paying agent" is defined broadly for this purpose and, in the context of the Notes, means any economic entity established in Luxembourg which pays interest on the Notes to, or ascribes the payment of such interest to or for the immediate benefit of the beneficial owner or the Residual Entity whether the entity is, or acts on behalf of, the Issuer or is instructed by, the beneficial owner, or the Residual Entity, as the case may be, to collect such payment of interest.

Under Luxembourg income tax law currently applicable there is no withholding tax on the payment of interest, principal, premium or (to the extent the transaction is conducted on an arms-length basis) accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes, subject to the application of the Luxembourg law of December 23, 2005, according to which interest payments made by Luxembourg-based paying agents (within the meaning of the EU Savings Directive) to Luxembourg individual residents or to certain foreign residual entities that secure interest payments on behalf of such individuals are subject to a 10% withholding tax. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/ her private wealth. The responsibility for the withholding tax will be assumed by the Luxembourg paying agent (within the meaning of the EU Savings Directive). A Luxembourg resident individual who acts in the course of the management of his or her private wealth and who is the beneficial owner of an interest payment made by a paying agent established outside Luxembourg in a member state of the European Union or of the European Economic Area or in a jurisdiction having concluded an agreement with Luxembourg in connection with the EU Savings Directive, may also to self-declare and pay for a final 10% levy. In such case, the 10% levy is calculated on the same amounts as for the payments made by Luxembourg resident paying agents. The option for the 10% levy must cover all interest payments made by the paying agent to the Luxembourg resident beneficial owner during the entire civil year.

In each case described here above, responsibility for the withholding tax will be assumed by the Luxembourg paying agent.

Other Withholding Taxes

If interest is paid by an entity that is not considered a Luxembourg entity, other withholding taxes could apply. A company that is considered an Israeli resident for tax purposes paying interest on a note denominated in a foreign currency to an individual who is a non-Israeli resident is required to withhold tax at a rate of 25%, except for interest paid to "material shareholders," who are subject to tax according to their marginal tax rate (currently 48%). "Material shareholders" for these purposes are shareholders who hold directly or indirectly, including with others, at least 10% of any means of control in the company. Taxes to be withheld from interest paid to non-Israeli residents by an Israeli company may be reduced under an applicable tax treaty.

A company that is an Israeli resident for tax purposes paying interest on a similar note to a corporate entity will be subject to withholding tax in accordance with the applicable corporate tax rate for the year in which the interest is paid. The current corporate tax rate in Israel is 26.5%.

For purposes of the discussion above, payment by a company that is considered an Israeli resident for tax purposes of any principal amount of New Senior Notes that is treated as original issue discount for Israeli tax purposes would be subject to tax withholding provisions described above. The New Senior Note would generally be treated as having been issued with original issue discount if its principal amount exceeds its issue price.

Taxation of the Noteholders

Taxation of Luxembourg residents

Holders of Notes who are residents of Luxembourg, or non-resident holders of Notes that have a permanent establishment, fixed place of business or a permanent representative in Luxembourg to which the Notes are attributable, must, for income tax purposes, include any interest paid or accrued in their taxable income. Specific exemptions may be available for certain tax payers benefiting from a particular status.

Luxembourg resident individuals

A Luxembourg resident who holds Notes acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax at progressive rates in respect of interest received, redemption premiums or issue discounts under the Notes, except if a final withholding tax has been levied on such payments. See paragraph (b) of "—*Withholding Tax*".

A Luxembourg resident who holds Notes acting in the course of the management of a professional or business undertaking to which the Notes are attributable, may have to include any interest received or accrued, as well as any gain realized on the sale or disposal of the Notes, in their taxable income for Luxembourg income tax assessment purposes (income tax levied at progressive rates). For Luxembourg resident individuals receiving interest as income from assets used in their professional capacity, the 10% withholding tax levied is credited against their final tax liability. The same tax treatment applies to non-resident holders of Notes who have a permanent establishment or a permanent representative in Luxembourg to which the Notes are attributable.

Under Luxembourg domestic tax law, gains realized upon the disposal of the Notes by an individual Noteholder, who is a resident of Luxembourg for tax purposes and who acts in the course of the management of his/her private wealth, are not subject to Luxembourg income tax, provided the disposal takes place more than six months after the acquisition of the Notes.

An individual holder of Notes, who acts in the course of the management of his/her private wealth and who is a resident of Luxembourg for tax purposes, has further to include the portion of the gains realized on the Notes corresponding to accrued, but unpaid, income in respect of the Notes in his/her taxable income, insofar as the accrued, but unpaid, interest is indicated separately in the agreement.

Gains realized upon a disposal of the Notes by an individual acting in the course of the management of a professional or business undertaking and who is resident of Luxembourg for tax purposes are subject to Luxembourg income taxes.

Luxembourg corporate residents

Luxembourg corporate holders of the Notes must include any interest received or accrued, as well as any gain realized on the sale or disposal of the Notes, in their taxable income for Luxembourg income tax assessment purposes (corporate income tax and municipal business tax).

Luxembourg corporate residents benefiting from a special tax regime

Luxembourg corporate residents holding Notes that benefit from a special tax regime, such as, for example, (i) undertakings for collective investment subject to the amended law December 17, 2010, (ii) specialized investment funds subject to the law dated February 13, 2007 or (iii) family wealth management companies subject to the law dated May 11, 2007, are exempt from income tax in Luxembourg except for an annual subscription tax (*tax d'abonnement*) and thus income derived from the Notes, as well as gains realized thereon, are not subject to Luxembourg income taxes.

Taxation of non-resident Noteholders

Holders of Notes who are non-residents of Luxembourg and who have neither a permanent establishment, neither a fixed place of business, nor a permanent representative in Luxembourg to which the Notes are attributable are not liable to any Luxembourg income tax, whether they receive payments of principal or interest (including accrued but unpaid interest) or realize capital gains upon redemption, repurchase, sale or exchange of any Notes. Holders of Notes who are non-residents of Luxembourg and who have a permanent establishment, a fixed place of business or a permanent representative in Luxembourg to which the Notes are attributable have to include any interest received or accrued, as well as any capital gain realized on the sale or disposal of the Notes in their taxable income for Luxembourg income tax assessment purposes.

Net Wealth Tax

Individuals

A holder of Notes, whether he/she is resident of Luxembourg or not, is not subject to Luxembourg wealth tax on such Notes.

Corporations

Corporate Luxembourg resident, or non-resident, holders of Notes which maintain a permanent establishment, fixed place of business or a permanent representative in Luxembourg to which the Notes or income thereon are attributable, are subject to an annual Luxembourg net wealth tax on such Notes levied at a rate of 0.5% of their value, except if the holder is (i) an undertaking for collective investment subject to the amended law December 17, 2010, (ii) securitization vehicles governed by the law of March 22, 2004 on securitization (as amended), (iii) a specialized investment fund subject to the law of February 13, 2007 (as amended), or (iv) a family wealth management company subject to the law of May 11, 2007.

Other Taxes

Registration taxes and stamp duties

There is no Luxembourg registration tax, stamp duty or any other similar tax or duty payable in Luxembourg by the Noteholders as a consequence of the issuance of the Notes, nor will any of these taxes be payable as a consequence of a subsequent transfer, redemption or repurchase of the Notes. There is no obligation to register the Notes in Luxembourg. However, a registration duty may apply (i) upon voluntary registration of the Notes in Luxembourg, (ii) in the case of legal proceedings before Luxembourg courts, or (iii) in the case that the documents relating to the Notes issuance must be produced before an official Luxembourg authority ("*autorité constitutée*").

Value added tax

There is no Luxembourg value-added tax payable in respect of payments in consideration for the issuance of, or in respect of the payment of interest or principal under, or the transfer of, the Notes. Luxembourg value-added tax may, however, be payable in respect of fees charged for certain services rendered to the Issuer, if for Luxembourg value-added tax purposes such services are rendered or are deemed to be rendered in Luxembourg and an exemption from Luxembourg value-added tax does not apply with respect to such services. Due to the activity of the Issuer, this value-added tax could be a final cost. Foreign value-added tax that might be payable in respect of fees charged for certain services rendered to the Issuer could also be a final cost.

Inheritance tax and gift tax

No estate or inheritance taxes are levied on the transfer of the Notes upon death of a Noteholder in cases where the deceased was not a resident of Luxembourg at the time of his death for inheritance tax purposes.

Gift tax may be due on a gift or donation of Notes in instances where the gift is recorded in a deed passed in front of a Luxembourg notary or otherwise registered in Luxembourg.

Certain U.S. Federal Income Tax Considerations

The following is a description of certain U.S. federal income tax considerations of the acquisition, ownership, and disposition of the Notes by a U.S. Holder thereof as defined below. This description only applies to Notes held as capital assets and does not address, except as set forth below, aspects of U.S. federal income taxation that may be applicable to holders that are subject to special tax rules, such as:

- banks or other financial institutions;
- insurance companies;
- real estate investment trusts;
- regulated investment companies;
- grantor trusts;
- tax-exempt organizations;
- persons that will own the Notes through partnerships or other pass- through entities;
- dealers or traders in securities or currencies;

- U.S. Holders that have a functional currency other than the U.S. dollar;

- certain former citizens and long-term residents of the United States;

- U.S. Holders that use a mark-to-market method of accounting; or

- U.S. Holders that will hold a Note as part of a position in a straddle or as part of a hedging, conversion or integrated transaction for U.S. federal income tax purposes.

Moreover, this description does not address the 3.8% Medicare tax on net investment income, the U.S. federal estate and gift tax or the alternative minimum tax consequences of the acquisition, ownership, and disposition of the Notes and does not address the U.S. federal income tax treatment of holders that do not acquire the Notes as part of the initial distribution at their initial issue price (generally, in each case, the first price to the public at which a substantial amount of the Dollar Notes or the Euro Notes, as applicable, is sold for money). Each prospective purchaser should consult its own tax advisor with respect to the U.S. federal, state, local and non-U.S. tax consequences of acquiring, owning and disposing of the Notes.

This description is based on the Code, U.S. Treasury Regulations promulgated thereunder, administrative pronouncements and judicial decisions, each as available and in effect on the date hereof. All of the foregoing are subject to change or differing interpretations, possibly with retroactive effect, which could affect the tax consequences described herein. No opinion of counsel to the Issuer or the holders or ruling from the IRS has been or will be given with respect to any of the considerations discussed herein. No assurances can be given that the IRS would not assert, or that a court would not sustain, a position different from any of the tax considerations discussed below.

For purposes of this description, a U.S. Holder is a beneficial owner of the Notes who for U.S. federal income tax purposes is:

- a citizen or individual resident of the United States;

- a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) organized in or under the laws of the United States or any State thereof, including the District of Columbia;

- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

- a trust (1) that validly elects to be treated as a U.S. person for U.S. federal income tax purposes or (2)(a) the administration over which a U.S. court can exercise primary supervision and (b) all of the substantial decisions of which one or more U.S. persons have the authority to control.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds the Notes, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such partner or partnership should consult its own tax advisor as to its consequences.

Redemptions and Additional Amounts

In certain circumstances, the Issuer may be obligated to or may elect to make payments in excess of stated interest and the adjusted issue price of the Notes and/or redeem the Notes in advance of their stated maturity. The Issuer intends to take the position that the Notes should not be treated as contingent payment debt instruments because of, among other things, the possibility of such payments. This position is based in part on assumptions, as of the date of issuance of the Notes, (1) regarding the likelihood that such payments will have to be paid or that the Issuer will elect to pay such amounts and/or (2) relating to the expected yield to maturity of the Notes. Assuming such position is respected, any such amounts paid to a U.S. Holder pursuant to any repurchase or redemption would be taxable as described below in "*—Sale, Exchange, Retirement or Other Disposition by a U.S. Holder*" and any payments of Additional Amounts in an amount in excess of stated interest and the adjusted issue price would be taxable as additional ordinary income when received or accrued, in accordance with such holder's method of accounting for U.S. federal income tax purposes. The Issuer's position is binding on a U.S. Holder unless such holder discloses its contrary position in the manner required by applicable U.S. Treasury Regulations. The IRS, however, may take a position contrary to the Issuer's position, which could affect the timing and character of a U.S. Holder's income with respect to the Notes. U.S. Holders should consult their own tax advisors regarding the potential application to the Notes of the contingent payment debt instrument rules and the consequences thereof. This discussion assumes that the Notes are not treated as contingent payment debt instruments.

U.S. Holders

Stated Interest

Stated interest on the Notes (including Additional Amounts and any non-U.S. taxes withheld on payments of such stated interest or Additional Amounts) generally will be taxable to a U.S. Holder as ordinary interest income at the time it is received or accrued, depending on the U.S. Holder's method of accounting for U.S. federal income tax purposes.

Interest (including original issue discount ("OID"), if any, as described below) included in a U.S. Holder's gross income with respect to the Notes will be treated as foreign source income for U.S. federal income tax purposes. The limitation on non-U.S. taxes eligible for the U.S. foreign tax credit is calculated separately with respect to specific "baskets" of income. For this purpose, interest generally should constitute "passive category income", or in the case of certain U.S. Holders, "general category income". U.S. Holders should consult their own tax advisors regarding the availability of foreign tax credits.

With respect to the Euro Notes, stated interest paid in euros will be included in a U.S. Holder's gross income in an amount equal to the U.S. dollar value of the euros, including the amount of any withholding tax thereon, regardless of whether the euros are converted into U.S. dollars. Generally, a U.S. Holder that uses the cash method of tax accounting will determine such U.S. dollar value using the spot rate of exchange on the date of receipt. A cash method U.S. Holder generally will not realize foreign currency gain or loss on the receipt of the interest payment but may have foreign currency gain or loss attributable to the actual disposition of the euros received. Generally, a U.S. Holder that uses the accrual method of tax accounting will determine the U.S. dollar value of accrued interest income using the average rate of exchange for the accrual period (or, with respect to an accrual period that spans two taxable years, at the average rate for the partial period within each taxable year). Alternatively, an accrual basis U.S. Holder may make an election (which must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS) to translate accrued interest income at the spot rate of exchange on the last day of the accrual period (or the last day of the portion of the accrual period within each taxable year in the case of a partial accrual period) or the spot rate on the date of receipt, if that date is within five business days of the last day of the accrual period. A U.S. Holder that uses the accrual method of accounting for tax purposes will recognize foreign currency gain or loss on the receipt of an interest payment if the exchange rate in effect on the date the payment is received differs from the rate used in translating the accrual of that interest. The amount of foreign currency gain or loss to be recognized by such U.S. Holder will be an amount equal to the difference between the U.S. dollar value of the euro interest payment (determined on the basis of the spot rate on the date the interest income is received) in respect of the accrual period and the U.S. dollar value of the interest income that has accrued during the accrual period (as determined above) regardless of whether the payment is converted to U.S. dollars. This foreign currency gain or loss will be ordinary income or loss and generally will not be treated as an adjustment to interest income or expense. Foreign currency gain or loss generally will be U.S. source provided that the residence of a taxpayer is considered to be the United States for purposes of the rules regarding foreign currency gain or loss.

Original Issue Discount

The Dollar Notes or the Euro Notes may be treated as issued with OID for U.S. federal income tax purposes. A Note will be treated as having been issued with OID for U.S. federal income tax purposes if its stated principal amount exceeds its issue price by at least the "OID de minimis amount". The OID de minimis amount equals $^1/_4$ of 1% of the stated principal amount of the Note multiplied by the number of complete years from its issue date to maturity.

If a Note is issued with OID a U.S. Holder generally will be required to include OID in income before the receipt of the associated cash payment, regardless of the U.S. Holder's accounting method for tax purposes. The amount of OID with respect to a Note that a U.S. Holder must include in income is the sum of the "daily portions" of the OID for the Note for each day during the taxable year (or portion of the taxable year) in which the U.S. Holder held the Note. The daily portion is determined by allocating a pro rata portion of the OID for each day of the accrual period. An accrual period may be of any length and the accrual periods may vary in length over the term of the Note, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the first day of an accrual period or on the final day of an accrual period. The amount of OID allocable to an accrual period is equal to the difference between (1) the product of the "adjusted issue price" of the Note at the beginning of the accrual period and its yield to maturity (computed generally on a constant yield method and compounded at the end of each accrual period, taking into account the length of the particular accrual period) and (2) the amount of any stated interest allocable to the accrual period. The "adjusted issue price" of a Note at the beginning of any accrual period is the sum of the issue price of the Note plus the amount of OID allocable to all prior accrual periods reduced by any payments on the Note that were not stated interest.

Under these rules, a U.S. Holder generally will have to include in income increasingly greater amounts of OID in successive accrual periods. Under applicable U.S. Treasury Regulations, a U.S. Holder of a Note with OID may elect to include in gross income all interest that accrues on the Note using the constant yield method described above. Once made with respect to the Note, the election cannot be revoked without the consent of the IRS. A U.S. Holder considering an election under these rules should consult its own tax advisor.

U.S. Holders may obtain information regarding the amount of OID, if any, the issue price, the issue date and yield to maturity by contacting the Issuer, at 3, Boulevard Royal, L-2449, Luxembourg, +352 226 05640, Attn: Chief Financial Officer.

Any OID on a Euro Note generally will be determined for any accrual period in euros and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder. Upon receipt of an amount attributable to OID (whether in connection with the sale or disposition of such a Euro Note or otherwise), a U.S. Holder generally will recognize foreign currency gain or loss in an amount determined in the same manner as stated interest received by an accrual basis holder, as described above. For these purposes, all receipts on a Note will be viewed first, as payments of stated interest payable on the Note; second, as receipts of previously accrued OID (to the extent thereof), with payments considered made for the earliest accrual periods first; and third, as receipts of principal. Holders are urged to consult their own tax advisors regarding the interplay between the application of the OID and foreign currency exchange gain or loss rules.

The rules regarding OID are complex. U.S. Holders are urged to consult their own tax advisors regarding the application of these rules to their particular situations.

Sale, Exchange, Retirement or Other Disposition by a U.S. Holder

A U.S. Holder's adjusted tax basis in a Note generally will be its U.S. dollar cost increased by the amount of any OID previously included in income and decreased by payments other than stated interest made with respect to the Note.

A U.S. Holder generally will recognize capital gain or loss on the sale, exchange, redemption, retirement or other taxable disposition of a Note equal to the difference, if any, between the amount realized on the sale, exchange, retirement or other disposition of the Note (less any amounts attributable to accrued but unpaid interest, which will be subject to tax in the manner described above under "*—Stated Interest*" to the extent not previously so taxed), and the U.S. Holder's adjusted tax basis in the Note. If a U.S. Holder purchases a Euro Note with euros, the U.S. dollar cost of the Euro Note generally will be the U.S. dollar value of the purchase price on the date of purchase calculated at the spot rate of exchange on that date. The amount realized upon the disposition of a Euro Note generally will be the U.S. dollar value of the amount received on the date of the disposition calculated at the spot rate of exchange on that date. However, if the Euro Note is traded on an established securities market, a cash basis U.S. Holder (and, if it so elects, an accrual basis U.S. Holder) should determine the U.S. dollar value of the cost of or amount received on the Euro Note by translating the amount paid or received at the spot rate of exchange on the settlement date of the purchase or disposition, as applicable. The election available to accrual basis U.S. Holders in respect of the purchase and disposition of Euro Notes traded on an established securities market must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS.

Subject to the foreign currency rules discussed below, any gain or loss recognized on the sale, exchange, retirement, or other disposition of a Note will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder has held the Note for more than one year as of the date of disposition. Long-term capital gain of a non-corporate U.S. Holder is generally taxed at preferential rates. The ability of a U.S. Holder to offset capital losses against ordinary income is limited. Any gain or loss recognized on the sale, exchange, retirement or other disposition of a Note generally will be treated as income from sources within the United States or loss allocable to income from sources within the United States.

Gain or loss recognized by a U.S. Holder on the sale, exchange, retirement or other disposition of a Euro Note generally will be treated as ordinary income or loss to the extent that the gain or loss is attributable to changes in foreign currency exchange rates during the period in which the U.S. Holder held such Euro Note. Such foreign currency gain or loss will equal the difference between (i) the U.S. dollar value of the U.S. Holder's euro purchase price for the Euro Note, calculated at the spot rate of exchange on the date of the sale, exchange, retirement or other disposition and (ii) the U.S. dollar value of the U.S. Holder's euro purchase price for the Euro Note, calculated at the spot rate of exchange on the date of purchase of the Euro Note. If the Euro Note is traded on an established securities market, with respect to a cash basis U.S. Holder (and, if it so elects, an accrual basis U.S. Holder), such foreign currency gain or loss will equal the difference between (x) the U.S. dollar value of the U.S. Holder's euro purchase price for the Euro Note calculated at the spot rate of exchange on the settlement date of the disposition and (y) the U.S. dollar value of the U.S. Holder's euro purchase price for the Euro Note calculated at the spot rate of exchange on the settlement date of the purchase of the Euro Note. The realization of any foreign currency gain or loss, including foreign currency gain or loss with respect to amounts attributable to accrued and unpaid stated interest and any OID, will be limited to the amount of overall gain or loss realized on the disposition of the Euro Note.

Exchange of Amounts in Other than U.S. Dollars

If a U.S. Holder receives euros as interest on a Euro Note or on the sale, exchange, retirement or other disposition of a Euro Note, such U.S. Holder's tax basis in the euros will equal the U.S. dollar value of such euros when the interest is received or at the time of the sale, exchange, retirement or other disposition. If a U.S. Holder purchased a Euro Note with previously owned non-U.S. currency, gain or loss will be recognized in an amount equal to the difference, if any, between the U.S. Holder's tax basis in such currency and the spot rate on the date of purchase. Any such gain or loss generally will be treated as ordinary income or loss from sources within the United States provided that the residence of the U.S. Holder is considered to be the United States for purposes of the rules governing foreign currency transactions.

Reportable Transaction Reporting

Under certain U.S. Treasury Regulations, U.S. Holders that participate in "reportable transactions" (as defined in the regulations) must attach to their U.S. federal income tax returns a disclosure statement on IRS Form 8886. Under the relevant rules, a U.S. Holder may be required to treat a foreign currency exchange loss from the Euro Notes as a reportable transaction if this loss exceeds the relevant threshold in the regulations. U.S. Holders should consult their own tax advisors as to the possible obligation to file IRS Form 8886 with respect to the ownership or disposition of the Euro Notes, or any related transaction, including without limitation, the disposition of any non-U.S. currency received as interest or as proceeds from the sale, exchange, retirement or other disposition of the Euro Notes.

U.S. Backup Withholding Tax and Information Reporting

Backup withholding and information reporting requirements may apply to certain payments of principal of, and interest (including accruals of OID, if any) on, and to proceeds from the sale, exchange, retirement or disposition of Notes that are held by U.S. Holders. The payor will be required to withhold backup withholding tax on payments made within the United States, or by a U.S. payor or U.S. middleman (and certain subsidiaries thereof), on a Note to a U.S. Holder, other than an exempt recipient, if the holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with, or establish an exemption from, the backup withholding requirements. Payments within the United States, or by a U.S. payor or U.S. middleman (and certain subsidiaries thereof), of principal and interest (including OID, if any) and proceeds of a sale, exchange, retirement or disposition to a holder of a Note that is not a U.S. person generally are subject to information reporting, but will not be subject to backup withholding tax if an appropriate certification is timely provided by the holder to the payor and the payor does not have actual knowledge or a reason to know that the certificate is incorrect.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a holder's U.S. federal income tax liability. A holder may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for a refund with the IRS and furnishing any required information in a timely manner.

Certain U.S. Holders are required to report information relating to an interest in the Notes, subject to certain exceptions (including an exception for Notes held in custodial accounts maintained by certain financial institutions). U.S. Holders are urged to consult their own tax advisors regarding the effect, if any, of this requirement on their ownership and disposition of the Notes.

FATCA

Legislation referred to as the Foreign Account Tax Compliance Act ("FATCA") generally may impose withholding at a rate of 30% on payments made to any foreign entity (whether such foreign entity is a beneficial owner or an intermediary) on debt obligations generating U.S. source interest or certain other debt obligations generating non-U.S. source interest issued by a foreign financial institution that (i) enters into certain agreements with the IRS or (ii) becomes subject to provisions of local law intended to implement an intergovernmental agreement entered into pursuant to FATCA, in each case to the extent such payments are attributable to U.S. source income, unless the foreign entity receiving such payments complies with various U.S. information reporting and/or due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with such foreign entity) or otherwise qualifies for an exemption. Based on current guidance, the Issuer does not expect payments on the Notes to be subject to the withholding tax rules under FATCA; however, if the Notes are "materially modified" (within the meaning of applicable U.S. Treasury Regulations) after the date that is six months after the date final regulations define a "foreign passthru payment" under FATCA, certain "foreign passthru payments" made on the Notes on or after January 1, 2017 may become subject to the withholding tax rules under FATCA. If such withholding is required under FATCA, holders and beneficial owners of the Notes will not be entitled to receive any additional amounts to compensate them for such withholding. Non-U.S. governments have entered into agreements with the United States (and additional non-U.S. governments are expected to enter into such agreements) to implement FATCA in a manner that alters the rules described herein. Holders should consult their own tax advisors regarding the possible implications of this legislation on their investment in the Notes.

The above description is not intended to constitute a complete analysis of all tax consequences relating to the acquisition, ownership and disposition of the Notes. Prospective purchasers of the Notes should consult their own tax advisors concerning the tax consequences of their particular situations.

CERTAIN EMPLOYEE BENEFIT PLAN CONSIDERATIONS

The U.S. Employee Retirement Income Security Act of 1974, as amended ("ERISA"), imposes certain fiduciary standards and certain other requirements on employee benefit plans subject to ERISA, including entities such as collective investment funds, certain insurance company separate accounts, certain insurance company general accounts, and entities whose underlying assets are treated as being subject to ERISA (collectively, "ERISA Plans"), and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that an ERISA Plan's investments be made in accordance with the documents governing the ERISA Plan. The prudence of a particular investment should be determined by the responsible fiduciary of an ERISA Plan by taking into account the ERISA Plan's particular circumstances and all of the facts and circumstances of the investment, including, but not limited to, the matters discussed above under "*Risk Factors*" and the fact that in the future there may be no market in which such fiduciary will be able to sell or otherwise dispose of the Notes or any interest therein.

Section 406 of ERISA and Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), prohibit certain transactions involving the assets of an ERISA Plan, as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts and Keogh plans (together with ERISA Plans, "Plans"), and certain persons (referred to as "parties in interest" under ERISA or "disqualified persons" under the Code) having certain relationships to Plans, unless a statutory or administrative exemption is applicable to the transaction. A party in interest or disqualified person who engages in a prohibited transaction may be subject to excise taxes or other liabilities under ERISA and the Code, and the transaction may have to be rescinded.

Governmental plans, certain church plans and certain non-U.S. plans, while not subject to the fiduciary responsibility or prohibited transaction provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to federal, state, local, non-U.S. or other laws or regulations (such as the prohibited transaction rules of Section 503 of the Code) that are substantially similar to the foregoing provisions of ERISA or the Code ("Similar Laws").

Each of us, the Initial Purchasers, the Trustee and certain other parties, or their respective affiliates, may be the sponsor of, or Fiduciary to, one or more Plans. Because such parties may receive certain benefits in connection with the sale of the Notes to such Plans, the purchase of such Notes using the assets of a Plan over which any of such parties is the sponsor or a Fiduciary might be deemed to be a violation of the prohibited transaction rules of ERISA or Section 4975 of the Code for which no exemption may be available. Accordingly, the Notes may not be purchased using the assets of any Plan if any of us, the Initial Purchasers, the Trustee or their respective affiliates is the sponsor of or Fiduciary to, such Plan.

In addition, if the Notes are acquired by a Plan with respect to which we, the Initial Purchasers, the Trustee, any holder of the Notes or any of their respective affiliates is a party in interest or a disqualified person, other than a sponsor of, or Fiduciary to, such Plan, such transaction could be deemed to be a direct or indirect prohibited transaction within the meaning of Section 406 of ERISA or Section 4975 of the Code. In addition, if a party in interest or disqualified person with respect to a Plan owns or acquires a 50% or more beneficial interest in the Issuer, the acquisition or holding of the Notes by or on behalf of such Plan could be considered to constitute a prohibited transaction. Moreover, the acquisition or holding of the Notes or other indebtedness issued by the Issuer by or on behalf of a party in interest or disqualified person with respect to a Plan that owns or acquires an equity interest in the Issuer also could give rise to a prohibited transaction. Certain exemptions from the prohibited transaction provisions of ERISA and Section 4975 of the Code could be applicable, however, to a Plan's acquisition of a Note depending in part upon the type of Fiduciary making the decision to acquire a Note and the circumstances under which such decision is made. Included among these exemptions are Prohibited Transaction Exemption ("PTE") 84-14, regarding transactions effected by a "qualified professional asset manager"; PTE 90-1, regarding investments by insurance company pooled separate accounts; PTE 91-38, regarding investments by bank collective investment funds; PTE 95-60, regarding investments by insurance company general accounts and PTE 96-23, regarding investments by certain "in-house asset managers;". In addition to the class exemptions listed above, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide a statutory prohibited transaction exemption for transactions between a Plan and a person or entity that is a party in interest to such Plan solely by reason of providing services to the Plan (other than a party in interest that is a fiduciary, or its affiliate, that has or exercises discretionary authority or control or renders investment advice with respect to the assets of the Plan involved in the transaction), provided that the Plan receives no less, and pays no more than "adequate consideration" (within the meaning of Section 408(b)(17) of ERISA and Section 4975(f)(10) of the Code) in connection with the transaction. Even if the conditions specified in one or more of these exemptions are met, the scope of the relief provided by these exemptions might not cover all acts which might be construed as prohibited transactions.

EACH ACQUIRER AND EACH TRANSFEREE OF A NOTE OR ANY INTEREST THEREIN WILL BE DEEMED TO REPRESENT, WARRANT AND AGREE AT THE TIME OF ITS ACQUISITION AND THROUGHOUT THE PERIOD THAT IT HOLDS SUCH NOTES OR ANY INTEREST THEREIN, THAT (1) EITHER (A) IT IS NOT, AND IS NOT ACTING ON BEHALF OF, A BENEFIT PLAN INVESTOR OR A GOVERNMENTAL, CHURCH OR

NON-U.S. PLAN WHICH IS SUBJECT TO ANY SIMILAR LAWS, AND NO PART OF THE ASSETS TO BE USED BY IT TO ACQUIRE OR HOLD SUCH NOTES OR ANY INTEREST THEREIN CONSTITUTES THE ASSETS OF ANY BENEFIT PLAN INVESTOR OR SUCH A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, OR (B) ITS ACQUISITION, HOLDING AND DISPOSITION OF SUCH NOTES OR ANY INTEREST THEREIN DOES NOT AND WILL NOT CONSTITUTE OR OTHERWISE RESULT IN A NON-EXEMPT PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE (OR, IN THE CASE OF A GOVERNMENTAL, CHURCH, OR NON-U.S. PLAN, A NON-EXEMPT VIOLATION OF ANY SIMILAR LAWS); AND (2) NEITHER THE ISSUER NOR ANY OF ITS AFFILIATES IS A FIDUCIARY (WITHIN THE MEANING OF SECTION 3(21) OF ERISA OR, WITH RESPECT TO A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, ANY DEFINITION OF "FIDUCIARY" UNDER SIMILAR LAWS) WITH RESPECT TO THE PURCHASER OR HOLDER IN CONNECTION WITH ANY PURCHASE OR HOLDING OF THE NOTES, OR AS A RESULT OF ANY EXERCISE BY THE ISSUER OF THE NOTES OR ANY OF ITS AFFILIATES OF ANY RIGHTS IN CONNECTION WITH THE NOTES, AND NO ADVICE PROVIDED BY THE ISSUER OR ANY OF ITS AFFILIATES HAS FORMED A PRIMARY BASIS FOR ANY INVESTMENT DECISION BY OR ON BEHALF OF THE PURCHASER AND HOLDER IN CONNECTION WITH THE NOTES AND THE TRANSACTIONS CONTEMPLATED WITH RESPECT TO THE NOTES; AND (3) IT WILL NOT SELL OR OTHERWISE TRANSFER SUCH NOTES OR ANY INTEREST THEREIN OTHER THAN TO AN ACQUIRER OR TRANSFEREE THAT IS DEEMED TO MAKE THESE SAME REPRESENTATIONS, WARRANTIES AND AGREEMENTS WITH RESPECT TO ITS ACQUISITION, HOLDING AND DISPOSITION OF SUCH NOTE.

WE, THE INITIAL PURCHASERS AND THE TRUSTEE, AND THEIR RESPECTIVE AFFILIATES, SHALL BE ENTITLED TO CONCLUSIVELY RELY UPON THE TRUTH AND ACCURACY OF THE FOREGOING REPRESENTATIONS, WARRANTIES AND AGREEMENTS BY ACQUIRERS AND TRANSFEREES OF ANY NOTES WITHOUT FURTHER INQUIRY. THE ACQUIRER AND ANY FIDUCIARY CAUSING IT TO ACQUIRE AN INTEREST IN ANY NOTES AGREES TO INDEMNIFY AND HOLD HARMLESS THE ISSUER, THE INITIAL PURCHASERS AND THE TRUSTEE, AND THEIR RESPECTIVE AFFILIATES, FROM AND AGAINST ANY COST, DAMAGE OR LOSS INCURRED BY ANY OF THEM AS A RESULT OF ANY OF THE FOREGOING REPRESENTATIONS AND AGREEMENTS BEING OR BECOMING FALSE.

ANY PURPORTED ACQUISITION OR TRANSFER OF ANY NOTE OR BENEFICIAL INTEREST THEREIN TO AN ACQUIRER OR TRANSFEREE THAT DOES NOT COMPLY WITH THE REQUIREMENTS DESCRIBED HEREIN SHALL BE NULL AND VOID *AB INITIO*.

It should be noted that an insurance company's general account may be deemed to include assets of Plans under certain circumstances, e.g. where a Plan purchases an annuity contract issued by such an insurance company, based on the reasoning of the United States Supreme Court in *John Hancock Mutual Life Ins. Co. v. Harris Trust and Savings Bank*, 510 U.S. 86 (1993). An insurance company considering the purchase of Notes with assets of its general account should consider such purchase and the insurance company's ability to make the representations described above in light of *John Hancock Mutual Life Ins. Co. v. Harris Trust and Savings Bank*, Section 401(c) of ERISA and the U.S. Department of Labor regulation at 29 C.F.R. Section 2550.401c-1.

A fiduciary of an ERISA Plan or other employee benefit plan that is subject to Similar Laws, prior to investing in the Notes or any interest therein, should take into account, among other considerations, whether the fiduciary has the authority to make the investment; the composition of the plan's portfolio with respect to diversification by type of asset; the plan's funding objectives; the tax effects of the investment; and whether, under the general fiduciary standards of ERISA or other applicable laws, including investment prudence and diversification, an investment in the Notes or any interest therein is appropriate for the plan, taking into account the plan's particular circumstances and all of the facts and circumstances of the investment, including such matters as the overall investment policy of the plan and the composition of the plan's investment portfolio.

The sale of any Note or any interest therein to a Plan or a governmental, church or non-U.S. plan that is subject to any Similar Laws is in no respect a representation by us, the Initial Purchasers or the Trustee, or any of their respective affiliates, that such an investment meets all relevant legal requirements with respect to investments by such plans generally or any particular such plan; that the prohibited transaction exemptions described above, or any other prohibited transaction exemption, would apply to such an investment by such plan in general or any particular such plan; or that such an investment is appropriate for such plan generally or any particular such plan.

The discussion of ERISA and Section 4975 of the Code contained in these Listing Particulars, is, of necessity, general, and does not purport to be complete. Moreover, the provisions of ERISA and Section 4975 of the Code are subject to extensive and continuing administrative and judicial interpretation and review. Therefore, the matters discussed above may be affected by future regulations, rulings and court decisions, some of which may have retroactive application and effect.

Any Plan or employee benefit plan not subject to ERISA or Section 4975 of the Code, and any fiduciary thereof, proposing to invest in the Notes or any interest therein should consult with its legal advisors regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA, Section 4975 of the Code and any Similar Laws, to such investment, and to confirm that such investment will not constitute or result in a non-exempt prohibited transaction or any other violation of any applicable requirement of ERISA, Section 4975 of the Code or Similar Laws.

LIMITATION ON VALIDITY AND ENFORCEABILITY OF THE GUARANTEES AND THE SECURITY INTERESTS

Set forth below is a summary of certain limitations on the enforceability of the Collateral in Luxembourg.

The conditions to be satisfied by the granting of guarantees/security interests relate to (i) corporate power, (ii) corporate authority, and (iii) corporate benefit. These rules are derived from general principles and must be applied to specific circumstances, which have to be analyzed on a case by case basis.

Corporate power

Limits on corporate power can either be imposed (i) by law or (ii) by the articles of association of the company.

1. Limitations imposed by law.

Pursuant to the Luxembourg Civil Code, a company is incorporated with a view to participate in the profits (and the losses) which may arise therefrom. The goal to share the profits is an essential element of every company and therefore, a purely free (or gratuitous) act, without consideration, may be outside the scope of the activities of a company as contemplated by law. A company may however carry out gratuitous acts whenever these acts are accomplished with a view to the realization, directly or indirectly, of the company's corporate objective. It is normally understood that except in exceptional circumstances, an intragroup security is a type of act which may serve the purpose of realizing a profit.

Thus, it is only in exceptional circumstances when there is no reasonable indirect potential benefit of, or a motivated interest for, a proposed guarantee/security to be given by a company, that the validity of such a guarantee/security interest could be challenged for lack of any interest by the guarantor in providing the guarantee/security interest.

Further to this general legal restriction, additional limitations are imposed by specific laws, such as the prohibition to exercise a financial activity without a specific authorization (which in the case of a Luxembourg company, does not apply to financial activities within a group of companies) or the limitation on financial assistance to shareholders in the case of subscription or purchase of shares of the guarantor.

2. Limitations imposed by the articles of association.

The provision of guarantees or security interest by a company must be within the limits of the object clause of its articles of association.

Should the provision of a guarantee or security by a Luxembourg company be considered to exceed the corporate objective as expressed in the articles of association, the company is still bound by such action, unless there is evidence that the beneficiary of such acts knew that the acts exceeded the corporate objective or that the beneficiary could not, in light of the circumstances, have been unaware of that fact.

Corporate authority

When a Luxembourg company grants guarantees/security interests, applicable corporate procedures normally entail that the decision be approved by a board resolution or by decision of delegates that have been appointed for such purpose.

Corporate benefit

The third condition for a guarantee/security interest to be granted by a Luxembourg company is that the proposed action by the company must be "in the corporate interest of the company", which words are a translation of the French *intérêt* social, an equivalent term to the English legal concept of corporate benefit. The concept of "corporate interest" is not defined by law, but has been developed by doctrine and court precedents and may be described as being "the limit of acceptable corporate behavior". Whereas the previous discussions regarding the limits of corporate power are based on objective criteria (provisions of law and of the articles of association), the concept of corporate benefit requires a subjective judgment. In that context, the concept of a group of companies may be relevant, and while it should first be analyzed whether a transaction is in the best interest of the company on a standalone basis, it should also be examined whether the transaction is justified in the light of the interest at the level of the group, which may result in a benefit for the guarantor.

In general terms, group interest may justify the issue of a guarantee or the granting of security in favor of a parent company (upstream guarantee) or a sister company (cross stream guarantee), under the following circumstances:

- the proposed action must be justified on the basis of a common economical, social, or financial policy applicable throughout the whole group;

- the existence of a group should be evidenced through capital links; or

- the proposed action must not (i) be without any consideration, or alternatively (ii) break up the balance between the undertakings of the various group companies.

To the extent that all companies of the group are asked to bear in a similar way the burden of guarantees or security given for the benefit of the other group company or companies in an equal way, the obligation undertaken by a group company for the benefit of other group companies may be justified. Similarly, if a group company cannot exist outside of the group and is dependent on the group, assistance to other group companies should ultimately result in a benefit for such company. The limit of reasonable corporate behavior is reached when the transaction is exclusively in the interest of the parent company or the other companies of the group, without any benefit, direct or indirect, for the Luxembourg company granting the guarantee.

However, the failure to comply with the corporate benefit requirement will typically result in liability for the directors or managers of the guarantor concerned.

There is a limited risk that the directors or managers of the Luxembourg company be held liable if, *inter alia*:

- the guarantee/security interest so provided would materially exceed the (direct or indirect) benefit deriving from the secured obligations for the Luxembourg company; or

- the Luxembourg company derives no personal benefit or obtains no direct or indirect consideration for the guarantee/security interest granted; or

- the commitment of the Luxembourg company exceeds its financial means.

In addition to any criminal and civil liability incurred by the directors or managers of the Luxembourg company, the guarantee/security interest could itself be held unenforceable, if it is held that it is contrary to public policy (*ordre public*).

The above analysis is slightly different within a group of companies where a group interest (*intérêt du groupe*) exists. The existence of a group interest would prevent the guarantee/security interest from falling foul of the above constraints. In order for a group interest to be recognized, the following cumulative criteria must be met and proven:

- the “assisting” company must receive some benefit, or there must be a balance between the respective commitments of all the affiliates;

- the guarantee must not exceed the assisting company’s financial means;

- the companies involved must form part of a genuine group operating under a common strategy aimed at a common objective; and

- the assistance must be granted for purposes of promoting a common economic, social and financial interest determined in accordance with policies applicable to the entire group.

The criteria mentioned above have to be applied on a case-by-case basis and a subjective fact-based judgment is required to be made by the directors or managers of the Luxembourg guarantor.

As a result, the guarantees (upstream and cross stream) granted by a Luxembourg company are subject to certain limitations, which usually take the form of a general limitation language, which is inserted in the relevant transaction document(s) and which covers the aggregate obligations and exposure of the relevant Luxembourg assisting company under the transaction documents.

The Indenture contains the following limitation language:

The guarantee granted by any Guarantor which is incorporated and/or having its registered office and its place of central administration in Luxembourg (a “Luxembourg Guarantor”) for the obligations of the applicable Issuer which is not a direct or indirect subsidiary of such Luxembourg Guarantor shall be limited at any time to an aggregate amount not exceeding:

(A) the aggregate amount of the outstanding intercompany loans made to the Luxembourg Guarantor or Subsidiaries of that Luxembourg Guarantor (which are Subsidiaries of that Luxembourg Guarantor on the Completion Date or which will be Subsidiaries of that Luxembourg Guarantor hereafter) by the applicable Issuer which have been funded directly or indirectly with proceeds deriving from the sale of the Notes increased by

(B) the greater of:

(1) 90% of the Luxembourg Guarantor's own funds (*capitaux propres*) and subordinated debt (*dettes subordonnées*, including for the avoidance of doubt intragroup liabilities), both as referred to in Article 34 of the Luxembourg law of 19 December 2002 on the commercial register and annual accounts, as amended (the "2002 Law") as at the Completion Date (whether as original party or by way of accession); or

(2) 90% of the Luxembourg Guarantor's own funds (*capitaux propres*) and subordinated debt (*dettes subordonnées*, including for the avoidance of doubt intragroup liabilities), both as referred to in Article 34 of the 2002 Law, as at the date on which a demand is made under the Notes; or

(3) 90% of the net assets of the Luxembourg Guarantor calculated on the basis of the fair market value of the assets and liabilities of the Luxembourg Guarantor (as determined by the Agent or if the Agent so decides by a Luxembourg statutory approved auditor (*réviseur d'entreprise agréé*) (an "Independent Auditor") as at the Completion Date (whether as original party or by way of accession); or

(4) 90% of the net assets of the Luxembourg Guarantor calculated on the basis of the fair market value of the assets and liabilities of the Luxembourg Guarantor (as determined by the Trustee or if the Trustee so decides by an Independent Auditor as at the date on which a demand is made under the Notes).

Security interests considerations

According to Luxembourg conflict of law rules, the courts in Luxembourg will generally apply the *lex rei sitae* or *lex situs* (the law of the place where the assets or subject matter of the pledge or security interest is situated) in relation to the creation, perfection and enforcement of security interests over such assets. As a consequence, Luxembourg law will apply in relation to the creation, perfection and enforcement of security interests over assets located or deemed to be located in Luxembourg, such as registered shares in Luxembourg companies, bank accounts held with a Luxembourg bank, receivables/claims governed by Luxembourg law and/or having debtors located in Luxembourg, tangible assets located in Luxembourg, securities which are held through an account located in Luxembourg, bearer securities physically located in Luxembourg, etc.

If there are assets located or deemed to be located in Luxembourg, the security interests over such assets are governed by Luxembourg law and must be created, perfected and enforced in accordance with Luxembourg law. The Collateral Act 2005 governs the creation, validity, perfection and enforcement of pledges over shares, bank accounts and receivables located or deemed to be located in Luxembourg.

Under the Collateral Act 2005, the perfection of security interests depends on certain registration, notification and acceptance requirements. A share pledge agreement must be (i) acknowledged by the company which has issued the shares and (ii) registered in the shareholders' register of such company. If future shares are pledged, the perfection of such pledge will require additional registration in the shareholders' register of such company. A receivables pledge becomes enforceable against the debtor and against third parties by the mere entering into the pledge agreement by the pledgor and the pledgee. However, the debtor is validly discharged from its payment obligations by payment to the pledgor as long as it has not gained knowledge of the pledge.

Article 11 of the Collateral Act 2005 sets out the following enforcement remedies available upon the occurrence of an enforcement event:

- appropriate or cause a third party to appropriate this collateral at a price determined, before or after appropriation, by the valuation method agreed by the parties;

- assign or cause to be assigned the pledged collateral by private sale in a commercially reasonable manner, by sale over a stock exchange or by public auction;

- court allocation of the pledged assets to the pledgee in discharge of the secured obligations following a valuation made by a court appointed expert; or

• set-off between the secured obligations and the pledged assets.

As the Collateral Act 2005 does not provide any specific time periods and depending on (i) the method chosen, (ii) the valuation of the pledged assets, (iii) any possible recourses, and (iv) the possible need to involve third parties, such as, e.g. courts, stock exchanges and appraisers, the enforcement of the security interests might be substantially delayed.

The perfection of the security interests created pursuant to the pledge agreements does not prevent any third party creditor from seeking attachment or execution against the assets, which are subject to the security interests created under the pledge agreements, to satisfy their unpaid claims against the pledgor. Except as provided in article 20.4 of the Collateral Act 2005, a third party creditor may seek the forced sale of the assets of the pledgor which are subject to such security through court proceedings, although the beneficiaries under the relevant pledge or security documents will remain entitled to priority over the proceeds of such sale.

Under Luxembourg law, security interests qualifying as financial collateral arrangements under the Collateral Act 2005 may be granted in favor of a person acting on behalf of the beneficiaries of such security interests, a fiduciary or a trustee as a security for the claims of third party beneficiaries, present or future, to the extent that such third party beneficiaries are or may be determined.

Registration in Luxembourg

The registration of the transaction documents with the *Administration de l'Enregistrement et des Domaines in Luxembourg* may be required in the case of legal proceedings before Luxembourg courts or in the case that they must be produced before an official Luxembourg authority (*autorité constituée*). In such case, either a nominal registration duty or an ad valorem duty (or, for instance, 0.24% of the amount of the payment obligation mentioned in the document so registered) will be payable depending on the nature of the document to be registered. No ad valorem duty is payable in respect of security interest agreements, which are subject to the Collateral Act 2005.

The Luxembourg courts or the official Luxembourg authority may require that the transaction documents and any judgment obtained in a foreign court be translated into French or German.

PLAN OF DISTRIBUTION

The Issuer agreed to sell to the Initial Purchasers, and the Initial Purchasers have agreed to purchase from the Issuer, the entire aggregate principal amount of the Notes. The sale will be made pursuant to a purchase agreement dated the date hereof.

The obligations of the Initial Purchasers under the purchase agreement, including their agreement to purchase the Notes from the Issuer, are several and not joint. Pursuant to the terms of the purchase agreement, the Issuer has agreed to sell to each Initial Purchaser, and each Initial Purchaser has agreed, severally and not jointly, to purchase from the Issuer, together with all other Initial Purchasers, Dollar Notes in an aggregate principal amount of $1,480 million and Euro Notes in an aggregate principal amount of €750 million. The Initial Purchasers initially propose to offer the Notes for resale at the issue price that appears on the cover of these Listing Particulars. After the initial offering, the Initial Purchasers may change the offering price and any other selling terms. The Initial Purchasers may offer and sell Notes through certain of their affiliates. Sales in the United States will be made through affiliates of the Initial Purchasers which are registered with the SEC as U.S. registered broker dealers.

In the purchase agreement, the Issuer has agreed and as of the Completion Date, the Guarantor will agree, that:

- neither the Issuer nor any of its subsidiaries will offer, sell, contract to sell or otherwise dispose of any of their debt securities, or guarantee such debt securities (other than the Notes, the Guarantee, any intercompany debt and any debt security of Altice Financing not to exceed €125 million (equivalent)), without the prior written consent of the Representatives (as defined therein), for a period of 45 days after the date of the final Offering Memorandum; and

- the Issuer will indemnify the Initial Purchasers and their respective affiliates against certain liabilities, including liabilities under the U.S. Securities Act, or contribute to payments that the Initial Purchasers may be required to make in respect of those liabilities.

United States

Each purchaser of Notes offered by these Listing Particulars, in making its purchase, will be deemed to have made the acknowledgements, representations and agreements as described under "*Transfer Restrictions*".

The Notes have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except to qualified institutional buyers in reliance on Rule 144A under the U.S. Securities Act and to persons in offshore transactions in reliance on Regulation S under the U.S. Securities Act. Until 40 days after the later of (i) the commencement of this offering and (ii) the issue date of the Notes, an offer or sale within the United States of Notes initially sold in reliance on Regulation S by a dealer (whether or not participating in the offering) may violate the registration requirements for the U.S. Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A under the U.S. Securities Act. For a description of certain further restrictions on resale or transfer of the Notes, see "*Transfer Restrictions*".

The Notes may not be offered to the public within any jurisdiction. By accepting delivery of these Listing Particulars, you agree not to offer, sell, resell, transfer or deliver, directly or indirectly, any Note to the public.

United Kingdom

In the purchase agreement, each Initial Purchaser has also represented and agreed that:

(i) it has complied and will comply with all applicable provisions of the FSM Act with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom; and

(ii) it has only communicated or caused to be communicated and it will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSM Act) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSM Act does not apply to such Initial Purchaser.

These Listing Particulars are directed solely at persons who (i) are outside the United Kingdom or (ii) have professional experience in matters relating to investments or (iii) are persons falling within Article 49(2)(a) to (d) of The Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (all such persons together being referred to as "relevant persons"). These Listing Particulars must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which these Listing Particulars relates is available only to relevant persons and will be engaged in only with relevant persons.

Grand Duchy of Luxembourg

In addition to the cases described in the section entitled, "Public Offer Selling Restriction under the EU Prospectus Directive" in which the Initial Purchasers can make an offer of the Notes to the public in an EEA Member State (including Luxembourg), the Initial Purchasers can also make an offer of the Notes to the public in Luxembourg:

(a) at any time, to national and regional governments, central banks, international and supranational institutions (such as the International Monetary Fund, the European Central Bank, the European Investment Bank) and other similar international organizations;

(b) at any time, to legal entities which are authorized or regulated to operate in the financial markets (including credit institutions, investment firms, other authorized or regulated financial institutions, undertakings for collective investment and their management companies, pension and investment funds and their management companies, insurance undertakings and commodity dealers) as well as entities not so authorized or regulated whose corporate purpose is solely to invest in securities; and

(c) at any time, to certain natural persons or small and medium-sized enterprises (as defined in the Prospectus Act implementing the EU Prospectus Directive into Luxembourg law) recorded in the register of natural persons or small and medium-sized enterprises considered as qualified investors as held by the Commission de surveillance du secteur financier as competent authority in Luxembourg in accordance with the EU Prospectus Directive.

Israel

Sales of the Notes in Israel will be made through the Initial Purchasers and/or through an Israeli broker(s) engaged by them. The Notes will not be offered to an Israeli person unless such offeree is a "qualified investor" (as defined in the First Appendix to the Israeli Securities Law) who is not an individual (a "Qualified Israeli Investor") and who has (x) completed and signed a questionnaire regarding qualification as a Qualified Israel Investor and (y) certified that it has an exemption from Israeli withholding taxes on interest.

General

The Notes are a new issue of securities, and there is currently no established trading market for the Notes. In addition, the Notes are subject to certain restrictions on resale and transfer as described under "Transfer Restrictions". The Issuer will apply for the Notes to be admitted to listing and to trading on the Euro MTF Market of the Luxembourg Stock Exchange. The Initial Purchasers have advised us that they intend to make a market in the Notes, but they are not obligated to do so. The Initial Purchasers may discontinue any market making in the Notes at any time in their sole discretion. In addition, such market making activities will be subject to the limits imposed by the U.S. Securities Act and the U.S. Exchange Act. Accordingly, we cannot assure you that a liquid trading market will develop for the Notes, that you will be able to sell your Notes at a particular time or that the prices that you receive when you sell will be favorable.

You should be aware that the laws and practices of certain countries require investors to pay stamp taxes and other charges in connection with purchases of securities.

Each Initial Purchaser has also agreed in the purchase agreement that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes these Listing Particulars, and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of the Notes under the laws and regulations in force.

In connection with the offering of the Notes, the Initial Purchasers may engage in overallotment, stabilizing transactions and syndicate covering transactions. Overallotment involves sales in excess of the offering size, which creates a short position for the Initial Purchasers. Stabilizing transactions involve bids to purchase the Notes in the open market for the purpose of pegging, fixing or maintaining the price of the Notes. Syndicate covering transactions involve purchases of the Notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the Notes to be higher than it would otherwise be in the absence of those transactions. If the Initial Purchasers engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

Delivery of the Notes was made against payment on the Notes on or about the date specified on the cover of the Listing Particulars, which was three business days following the date of pricing of the Notes.

Other Relationships

The Initial Purchasers or their respective affiliates from time to time have provided in the past and may enter into in the future investment banking, financial advisory and/or lending and commercial banking transactions with, and may perform other services for, to us and our affiliates in the ordinary course of business for which they have received or may receive customary fees and commissions (including acting as initial purchasers or managers in connection with previous issuances of debt or equity securities of Altice S.A. or its subsidiaries). In connection with our strategy to review and evaluate selective acquisitions and other business combinations, we and our shareholders regularly engage mergers and acquisition advisors and other financial advisors to assist us. Certain of the Initial Purchasers and their affiliates may be currently advising us or other interested parties, and the Initial Purchasers and their affiliates may advise us or other interested parties from time to time on other transactions in the future. Deutsche Bank AG, London Branch or one of its affiliates is currently acting as financial advisor to PT Portugal in connection with the PT Portugal Acquisition.

BNP Paribas, Crédit Agricole Corporate and Investment Bank, Credit Suisse Securities (Europe) Limited, Goldman Sachs International, HSBC Bank plc, J.P. Morgan Securities plc and Morgan Stanley & Co. International plc or one of their affiliates are or were mandated lead arrangers and lenders, Citibank International plc is facility agent and Citibank, N.A., London Branch is security agent under the 2012 Altice Financing Revolving Credit Facility.

Goldman Sachs International, Morgan Stanley & Co. International plc, Crédit Agricole Corporate and Investment Bank, Credit Suisse Securities (Europe) Limited, Deutsche Bank AG, London Branch or one of their affiliates are or were mandated lead arrangers and lenders, Citibank International plc is facility agent and Citibank, N.A., London Branch is security agent under the 2013 Altice Financing Revolving Credit Facility.

Goldman Sachs International, Morgan Stanley & Co. International plc, Crédit Agricole Corporate and Investment Bank, Credit Suisse Securities (Europe) Limited, Deutsche Bank AG, London Branch or one of their affiliates are or were mandated lead arrangers and lenders and Citibank, N.A., London Branch is security agent under the 2013 Guarantee Facility.

Goldman Sachs International, Morgan Stanley & Co. International plc, Credit Suisse Securities (Europe) Limited, Deutsche Bank AG, London Branch, Crédit Agricole Corporate and Investment Bank or one of their affiliates are or were joint lead bookrunners, joint lead arrangers and lenders, Goldman Sachs Lending Partners LLC is administrative agent and Citibank, N.A., London Branch is security agent under the 2013 Altice Financing Term Loan.

Each of the Initial Purchasers or one of their affiliates (other than Citigroup Global Markets Limited, HSBC Bank plc, Nomura International plc, Nomura Securities International, Inc. and Société Générale) are or were mandated lead arrangers and lenders and Deutsche Bank AG, London Branch is the administrative agent and security agent under the Numericable Term Loan.

Each of the Initial Purchasers or one of their affiliates (other than Citigroup Global Markets Limited, HSBC Bank plc, Nomura International plc and Nomura Securities International, Inc.) are or were mandated lead arrangers and lenders and Deutsche Bank AG, London Branch is the administrative agent and security agent under the Numericable Group Revolving Credit Facilities and the 2014 Altice S.A. Revolving Credit Facility Agreement.

Morgan Stanley & Co. International plc, Deutsche Bank AG, London Branch, Goldman Sachs International, J.P. Morgan Securities plc, Credit Suisse Securities (Europe) Limited, BNP Paribas, Crédit Agricole Corporate and Investment Bank, Barclays Bank plc or one of their affiliates are or were mandated lead arrangers and lenders, Citibank International Limited is facility agent and Citibank, N.A., London Branch is security agent under the New Altice International Pari Passu Revolving Credit Facility.

Each of the Initial Purchasers or one of its affiliates (other than Banca IMI S.p.A., RBC Europe Limited and UniCredit Bank AG) will be a joint lead bookrunner, joint lead arranger and lender, Deutsche Bank AG, London Branch and Deutsche Bank AG, New York Branch, will be administrative agents and Citibank, N.A., London Branch will be security agent under the New Altice Financing Term Loan.

RBC Europe Limited and its affiliates are not lenders under any of the agreements described above. UniCredit Bank AG or its affiliates is a lender under certain Numericable Group agreements described above. Banca IMI S.p.A. or its affiliates and/or parent companies has provided significant financing to the Issuer and its parent and group companies.

Each of the Initial Purchasers or one of its affiliates will be a mandated lead arranger and lender, Citibank International Limited will be facility agent and Citibank, N.A., London Branch will be security agent under the New Altice International Super Senior Revolving Credit Facility.

In addition, certain of the Initial Purchasers or their affiliates are party to certain of our factoring and hedging arrangements and other financing and/or debt arrangements and may hold other proprietary positions (including long or short positions) in us, our current or future subsidiaries and affiliates and/or financial intermediaries and the financial instruments issued by any of them. Certain of the Initial Purchasers or their affiliates that have a lending relationship with the Altice Group and/or its affiliates have hedged, and are likely to hedge in the future, their credit exposure to the Altice Group and/or its affiliates consistent with their risk management policies. Typically, these Initial Purchasers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the Notes offered hereby.

A former executive at Morgan Stanley, one of the Initial Purchasers, became one of Altice S.A.'s non executive directors on January 16, 2014.

LEGAL MATTERS

Certain legal matters in connection with this offering will be passed upon for us by Ropes & Gray International LLP, as to matters of United States federal, New York and English law; by Meitar Liquornik Geva Leshem Tal, as to matters of Israeli law; by Luther, as to matters of Luxembourg law, by Uría Menéndez—Proença de Carvalho, as to matters of Portuguese law; by Baker & McKenzie as to matters of Belgian law; by Franklin and Nabarro & Hinge as to matters of French law; by Holenstein attorneys-at-Law Ltd, as to matters of Swiss law and by Castillo y Castillo as to matters of Dominican law.

Certain legal matters in connection with this offering will be passed upon for the Initial Purchasers by Latham & Watkins (London) LLP, as to matters of United States federal, New York and English law; by Goldfarb Seligman & Co., as to matters of Israeli law; by Elvinger, Hoss & Prussen, as to matters of Luxembourg law; by Cuatrecasas, Gonçalves Pereira, RL, as to matters of Portuguese law; by Latham & Watkins AARPI as to matters of French law; as to matters of Swiss law by Pestalozzi Attorneys at Law Ltd and by Pellerano & Herrera as to matters of Dominican law.

Certain legal matters in connection with this offering will be passed upon for the Trustee by White & Case LLP, as to matters of New York law.

ENFORCEMENT OF JUDGMENTS

The Issuer is a public limited liability company (*société anonyme*), incorporated under the laws of the Grand Duchy of Luxembourg.

Many of the directors, members of the supervisory board, general partners, officers and other executives of the Issuer are neither residents nor citizens of the United States. Furthermore, most of our assets are located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States upon such persons or the Issuer, or to enforce against them judgments of U.S. courts predicated upon the civil liability provisions of U.S. federal or state securities laws despite the fact that, pursuant to the terms of the Indenture, the Issuer has appointed, or will appoint, an agent for the service of process in New York. It may be possible for investors to effect service of process within Luxembourg upon those persons or the Issuer provided that the Hague Convention on the Service Abroad of Judicial and Commercial Matters of November 15, 1965 is complied with.

The Issuer have been advised by Luther, their Luxembourg counsel, that a valid final and conclusive judgment against an issuer of Luxembourg nationality with respect to the Notes obtained from a court of competent jurisdiction in the United States, which judgment remains in full force and effect after all appeals as may be taken in the relevant state or federal jurisdiction with respect thereto have been taken, may be entered and enforced through a court of competent jurisdiction of Luxembourg subject to compliance with the enforcement procedures set out in Article 678 et seq. of the Luxembourg *Nouveau Code de Procedure Civile* being:

- the U.S. court awarding the judgment has jurisdiction to adjudicate the respective matter under its applicable laws, and such jurisdiction is recognized by Luxembourg private international and local law;
- the judgment is final and enforceable in the jurisdiction where the decision is rendered;
- the U.S. Court has applied the substantive law as designated by the Luxembourg conflict of laws rules;
- the U.S. Court has acted in accordance with its own procedural laws;
- the judgment was granted following proceedings where the counterparty had the opportunity to appear, and if appeared, to present a defense;
- the decision of the U.S. Court must not have been obtained by fraud; and
- the decisions and the considerations of the foreign court must not be contrary to Luxembourg international public policy rules or have been given in proceedings of a tax, penal or criminal nature (which would include awards of damages made under civil liabilities provisions of the U.S. federal securities laws, or other laws, to the extent that the same would be classified by Luxembourg courts as being of a penal or punitive nature (for example, fines or punitive damages)) or rendered subsequent to an evasion of Luxembourg law (fraude à la loi).

The Issuer have also been also advised by their Luxembourg counsel that if an original action is brought in Luxembourg, without prejudice to specific conflict of law rules, Luxembourg courts may refuse to apply the designated law if the choice of such foreign law was not made *bona fide* or if (i) the foreign law was not pleaded and proved or (ii) if pleaded and proved, such foreign law was contrary to mandatory Luxembourg laws or incompatible with Luxembourg public policy rules. In an action brought in Luxembourg on the basis of U.S. federal or state securities laws, Luxembourg courts may not have the requisite power to grant the remedies sought.

AUDITORS

The consolidated financial statements of the Issuer as of and for the year ended December 31, 2013 have been audited by Deloitte Audit S.à r.l.

The combined financial statements of the Issuer; in its capacity as the successor entity of Altice International and Altice France S.A. as of and for the years ended December 31, 2011 and 2012 have been audited by Deloitte Audit S. à r.l.

The ISIN for the Euro Notes sold pursuant to Regulation S is XS1117300241 and the ISIN for the Euro Notes sold pursuant to Rule 144A is XS1117299302.

Legal Information

The Issuer is incorporated under the name of Altice S.A. as a public limited liability company (*société anonyme*), incorporated under the laws of the Grand Duchy of Luxembourg on January 3, 2014. The articles of association of the Issuer have been filed with the Luxembourg Trade and Companies Register and are published in the *Mémorial C, Recueil des Sociétés et Associations* dated February 25, 2014, under number 501, page 24012 et seq. The registered office of the Issuer is 3, Boulevard Royal, L-2449 Luxembourg. The Issuer's telephone number is +352 278 58 901. The Issuer is registered with the Luxembourg Trade and Companies Register under number B183391.

The Issuer has a share capital of €2,479,501.86 comprised of 247,950,186 shares with a nominal value of €0.01, all of which have been subscribed and fully paid-up.

According to Article 3 of the articles of association of the Issuer relating to its corporate object, the Issuer's object is the acquisition of participations, in Luxembourg or abroad, in any company or enterprise in any form whatsoever, and the management, development and sale of those participations. The Issuer may in particular acquire and sell, by subscription, purchase and exchange or in any other manner, any stock, shares and other participation securities, bonds, debentures, certificates of deposit and other debt instruments and, more generally, any securities and financial instruments issued by any public or private entity. It may participate in the creation, development, management and control of any company or enterprise. Further, it may invest in the acquisition and management of a portfolio of patents or other intellectual property rights of any nature or origin.

The Issuer may borrow in any form. The Issuer may issue notes, bonds and any kind of debt and equity securities. It may issue convertible funding instruments and warrants. The Issuer may lend funds, including, without limitation, the proceeds of any borrowings to its subsidiaries and affiliated companies. It may also give guarantees and pledge, transfer, encumber or otherwise create and grant security over some or all of its assets to guarantee its own obligations and those of any other company, subsidiary or affiliate, and, generally, for its own benefit and that of any other company or person. The Issuer may issue warrants or any other instrument which allows the holder of such instrument to subscribe for shares in the Issuer. For the avoidance of doubt, the Issuer may not carry out any regulated financial sector activities without having obtained the requisite authorisation.

The Issuer may use any techniques, legal means and instruments to manage its investments efficiently and protect itself against credit risks, currency exchange exposure, interest rate risks and other risks. The Issuer may carry out any commercial, financial or industrial operation and any transaction with respect to real estate or movable property, which directly or indirectly, favours or relates to its corporate object (including without limitation the performance of any kind of services to its subsidiaries).

The creation and issuance of the Notes has been authorized by resolutions of the Board of Directors of the Issuer dated November 30, 2014.

Altice France S.A. is incorporated under the name Altice France S.A., as a public limited liability company (société anonyme), incorporated under the laws of the Grand Duchy of Luxembourg on December 18, 2007. The articles of association of Altice France S.A. have been filed with the Mémorial C, Recueil des Sociétés et Associations dated February 11, 2008, number 352, page 16876 *et seq*. The registered office of Altice France S.A. is at 3, boulevard royal, L-2449 Luxembourg, Grand Duchy of Luxembourg. Altice France S.A.'s telephone number is +352 22 60 56 40. Altice France S.A. is registered with the Luxembourg Trade and Companies' Register under number B 135.296.

Altice France S.A. has a share capital of €283,469,500 comprised of 56,693,900 shares in each Class A, B, C and D and 56,693,900 shares in Class E shares with a nominal value of €1.00, all of which have been subscribed and fully paid-up. All debt securities of Altice France S.A. have been reimbursed and no additional debt securities have been issued by Altice France S.A.

According to Article 4 of its articles of association, Altice France S.A. may carry out all transactions pertaining to the acquisition, management, development and disposal of participations in whichever form in Luxembourg and foreign companies. Furthermore, Altice France S.A. may acquire and dispose of all other securities by way of subscription, purchase, exchange, sale or otherwise. Altice France S.A. may also contract loans and issue bonds or convertible bonds and debt securities.

Altice France S.A. may also grant all kinds of support, loans, advances or guarantees to companies in which it has a direct or indirect participation, or to all companies which form part of the group of companies to which Altice France S.A. belongs.

In general, Altice France S.A. may likewise carry out all commercial, industrial and financial transactions, whether in the area of securities or of real estate, which are liable to enhance or to supplement its purpose.

The creation and issuance of the guarantee under the Notes will be authorized by resolutions of the board of directors of Altice France S.A. prior to the granting of such guarantee.

Management

The Issuer is managed by a board of directors composed of seven (7) members being:

1. Mr. Patrick Drahi (Executive Chairman);

2. Mr. Dexter Goei (Chief Executive Officer);

3. Mr. Dennis Okhuijsen (Chief Financial Officer);

4. Mr. Jérémie Bonnin (General Secretary);

5. Mr. Michel Combes (Non-Executive Director);

6. Mr. Scott Matlock (Non-Executive Director); and

7. Mr. Jean-Luc Allavena (Non-Executive Director).

Altice France S.A. is managed by a board of directors composed by three (3) members being:

1. Jérémie Bonnin;

2. Emilie Schmitz;

3. Laurent Godineau.

Altice International is managed by a board of managers composed of (3) members being:

1. Jérémie Bonnin;

2. Emilie Schmitz;

3. Laurent Godineau.

Emilie Schmitz, 31, is a director of Altice Finco and Altice Financing. The business address of Mrs. Schmitz is 3, boulevard royal, L-2449 Luxembourg. Before joining Altice, Mrs Schmitz served as an accountant manager of Quilvest Luxembourg Services S.A., a corporate and trust services provider. Prior to joining Quilvest Luxembourg Services S.A. in 2013, Mrs Schmitz was a Senior Advisor at Deloitte SA (Luxembourg). She graduated from the School Robert Schuman of Metz (France) with a bachelor's degree specializing in accountancy and management.

Laurent Godineau, 40, is a director of Altice Finco and Altice Financing. The business address of Mr. Godineau is 3, boulevard royal, L-2449 Luxembourg. Before joining Altice, Mr Godineau worked at Quilvest Luxembourg Services S.A., a corporate and trust services provider specialized in private equity funds. Prior to joining Quilvest Luxembourg Services SA in 2013, he served as a general manager of Centralis S.A., a corporate and trust services provider. Prior to joining Centralis S.A. in 2007, Mr. Godineau was a Senior Advisor at Alter Domus (Luxembourg). He graduated from the ESC Bretagne Brest with a master's in Finance and Chartered Accountancy and also holds a Master of Sciences degree in International Business and Finance from the University of Reading.

Jérémie Bonnin, General Secretary. Jérémie joined the Group in May 2005 as Corporate Finance director prior to which he was Manager in the Transaction Services department at KPMG which he joined in 1998. The business address of Mr. Bonnin is 3, boulevard royal, L-2449 Luxembourg. At KPMG, he led several due diligence projects with a significant focus in the telecom area. Since joining the Group, he has been involved in all of Group's acquisition which have increased Group's international footprint (in France, Belgium, Luxembourg, Switzerland, Israel and the French Overseas Territories). He has a long track record of successful cross-border transactions, and in financial management in the telecom sector. As General Secretary, he also focuses on the implementation of consistent operating policies and corporate structure across the Group, where he holds various board positions. Jeremie received his engineering degree from the Institut d'Informatique d'Entreprise, in France in 1998. He also graduated from the DECF in France, equivalent to the CPA.

Business Year

The business year for the Issuer begins on the first day of January and ends on the last day of December of each year, except for the first business year which commenced on January 3, 2014, and ends on December 31, 2014.

The business year for Altice International S.á.r.l. begins on the first day of January and ends on the last day of December of each year.

Financial statements

The consolidated financial statements of the Issuer will be published on a quarterly and an annual basis. The annual financial statements will be audited by the Issuer's auditors.

Auditors

The independent auditor (*réviseur d'entreprises agréé*) of the Issuer and Altice International is Deloitte Audit S.à r.l., a private limited liability company (*société à responsabilité limitée*), having its registered office at 560, rue de Neudorf, L-2220 Luxembourg registered with the Luxembourg Trade and Companies Register under number B0067895 which is a member of the *Institut des Réviseurs d'Entreprises*.

The independent auditors of Numericable are Deloitte & Associes and KPMG Audit, a department of KPMG S.A.

The independent auditors of SFR are Ernst & Young et Autres and KPMG Audit, a department of KPMG S.A.

The independent auditor of Altice Portugal until December 31, 2013, was Baker Tilly, PG & Associados, SROC, S.A.

The independent auditor of Cabovisão until December 31, 2013, was Baker Tilly, PG & Associados, SROC, S.A.

The independent auditor of ONI S.G.P.S is Deloitte & Associados, SROC S.A.

The independent auditor of Knewon is Deloitte & Associados, SROC S.A.

The independent auditor of Onitelecom is Deloitte & Associados, SROC S.A.

The independent auditor of Winreason is Deloitte & Associados, SROC S.A.

The independent auditor of PT Portugal is Ascenção, Gomes, Cruz & Associados—Sociedade de Revisores Oficiais de Contas, Lda.

The independent auditor of PTC (renamed PT OpCo after the merger) is KPMG & Associados—Sociedade de Revisores Oficiais de Contas S.A.

The independent auditor of Meo, S.A. until the merger was Ascenção, Gomes, Cruz & Associados—Sociedade de Revisores Oficiais de Contas, Lda.

The independent auditor of Groupe Outremer Telecom is Constantin Associés and Ernst & Young et Autres.

The independent auditor of Coditel Brabant SPRL is Deloitte Bedrijfsrevisoren / Reviseurs d'Entreprises.

The independent auditor of Coditel S.à r.l. is Deloitte Audit S.à r.l.

The independent auditor of Ma Chaîne Sport is KPMG Audit (department of KPMG S.A.).

The independent auditor of Green is KPMG AG (CHE-253.502.577) of Lucerne, Switzerland.

Litigation

Other than as disclosed in these Listing Particulars, there are no, and have not been any, governmental, legal or arbitration proceedings against or affecting the Issuer, nor is the Issuer aware of any pending or threatened proceedings of such kind, which may have or have had a significant effect on the financial position of the Issuer.

Other than as disclosed in these Listing Particulars, there are no, and have not been any, governmental, legal or arbitration proceedings against or affecting the Guarantor, nor is the Guarantor aware of any pending or threatened proceedings of such kind, which may have or have had a significant effect on the financial position of the Guarantor.

Offering Memorandum

Except as disclosed in these Listing Particulars:

- there has been no material adverse change in the consolidated financial position of the Issuer since September 30, 2014; and

- the Issuer has not been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) since the dates of their incorporation, which may have, or have had in the recent past, significant effects on the Issuer's financial position or profitability.

The Issuer accepts responsibility for the information contained in these Listing Particulars. The information contained in these Listing Particulars are in accordance with the facts and does not omit anything likely to affect the import of such information.

The language of these Listing Particulars are English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable laws.

The Trustee

The Trustee is Deutsche Bank AG, London Branch and its address is Winchester House, 1 Great Winchester Street, London, EC2N 2DB, United Kingdom. The Trustee will be acting in its capacity of Trustee for the holders of the Notes and will provide such services to the holders of the Notes as described in the Indenture.

GLOSSARY

Term	Definition
"3G"	The third generation of mobile communications standards, referred to in the industry as IMT-2000, capable of data speeds exceeding the 14.4 Kbps of GSM technology.
"4G"	The fourth generation of mobile communications standards, referred to the industry as IMT-Advanced with a nominal data rate of 100 Mbit/s while the client physically moves at high speeds relative to the station, and 1 Gbit/s while client and station are in relatively fixed positions. Expected to provide a comprehensive and secure all-IP based mobile broadband solution to laptop computer wireless modems, smartphones, and other mobile devices. Facilities such as ultra-broadband internet access, IP telephony, gaming services, and streamed multimedia may be provided to users, which when fully implemented is expected to allow for higher data speeds than achievable with 3G and additional network features and capabilities.
"ADSL"	Asymmetrical DSL; an internet access technology that allows voice and high-speed data to be sent simultaneously over local copper telephone line.
"ARPU"	Average Revenue Per User; ARPU is an average monthly measure that we use to evaluate how effectively we are realizing revenues from subscribers. ARPU is calculated by dividing the revenue (for the services provided, in each case including the proportional allocation of the bundling discount) for the respective period by the average number of RGUs for that period and further by the number of months in the period. The average number of RGUs is calculated as the number of RGUs on the first day in the respective period plus the number of RGUs on the last day of the respective period, divided by two. This definition may be different for other companies, including SFR.
"bandwidth"	The width of a communications channel; in other words, the difference between the highest and lowest frequencies available for network signals. Bandwidth also refers to the capacity to move information.
"broadband internet"	Any circuit that can transfer data significantly faster than a dial-up phone line.
"churn"	The number of RGUs for a given service disconnected (either at the customer's request or due to termination of the subscription by us) during the period divided by the number of average RGUs for such service for such period; statistics do not include customers excluding transfers between our services (other than a transfer between our cable services and our mobile services).
"CPE"	Customer premise equipment, which typically comprises a modem or set-top box and associated cabling and other fittings such as an NIU in order to deliver service to a subscriber.
"DSL"	Digital Subscriber Line; DSL is a technology that provides high-speed internet access over traditional telephone lines.
"DTT"	Digital terrestrial television.
"FTTx"	Fiber optic infrastructure.
"FTTH"	Fiber-to-the-home network.
"HD"	High definition.
"HFC"	Hybrid fiber coaxial.
"HSPA"	High Speed Packet Access, a type of UMTS3G network that supports both mobile communications technology that provides enhanced download and upload speeds.
"IMS"	IP Multimedia Subsystem.
"internet"	A collection of interconnected networks spanning the entire world, including university, corporate, government and research networks. These networks all use the IP (Internet Protocol) communications protocol.

"IP" .... Internet Protocol.

"IPTV"........................... Internet Protocol television.

"IRU"............................. Indefeasible Right of Use, the effective temporary ownership of a portion of the capacity of an international cable. IRUs are specified in terms of a certain number of channels of a given bandwidth. IRU is granted by the company or consortium of companies that built the (usually optical fiber) cable.

"ISP".............................. Internet Service Provider.

"IT"................................ Information technology, a general term referring to the use of various software and hardware components when used in a business.

"local loop"..................... The network element used to connect a subscriber to the nearest switch or concentrator, commonly referred to as the "last mile" because it is the part of the network that is connected directly to the subscriber; alternatively the HFC access network.

"LTE" .... Long term evolution technology being a standard in mobile network technology.

"M2M"........................... Machine-to-machine.

"MHz"............................ Megahertz; a unit of frequency equal to one million Hertz.

"Mbps" .... Megabits per second; each megabit is one million bits.

"Moody's" .... Moody's Investors Services, Inc.

"multiple-play" .... The bundling of different telecommunications services, e.g. digital cable television, broadband internet and fixed telephony services, by one provider.

"MVNO"........................ Mobile virtual network operator. Refers to a company that provides mobile services but does not have its own licensed frequency allocation of radio spectrum, nor necessarily all of the infrastructure required to provide mobile telephony services.

"network" .... An interconnected collection of components which would, in a telecommunications network, consist of switches connected to each other and to customer equipment by real or virtual links. Transmission links may be based on fiber optic or metallic cable or point to point radio connections.

"PacketCableTM" .... A CableLabs-led initiative to develop interoperable interface specifications for delivering advanced, real-time multimedia services over two-way cable plant. PacketCable™ networks use internet protocol (IP) technology to enable a wide range of multimedia services, such as IP telephony, multimedia conferencing, interactive gaming and general multimedia applications.

"PSTN"............................ Public switched telephony network.

"PVR"............................ Personal video recording.

"quad-play".................... Triple-play with the addition of mobile service.

"RGU" .... Revenue Generating Unit. RGUs relate to sources of revenue, which may not always be the same as customer relationships. For example, one person may subscribe for two different services, thereby accounting for only one subscriber, but two RGUs. RGUs for pay television and broadband internet infrastructure access are counted on a per source service basis and RGUs for fixed-line telephony are counted on a per line basis. Mobile RGUs is equal to the net number of lines or SIM cards that have been activated on our mobile network.

"S&P" .... Standard & Poor's Investors Ratings Services.

"SOHOs" .... Small offices and home offices.

"triple-play" .... Where a customer has subscribed to a combination of three products, digital cable television, broadband internet and fixed telephony services, from us.

"UMTS".......................... Universal Mobile Telecommunications Service, a 3G mobile networking standard commonly used to upgrade GSM networks to 3G standards.

"U.S. Docsis 3.0" .... Data over cable service interface specification, a technology that enables the addition of high-speed data transfer over an existing cable television system.

"VoD" .... Video on demand; a service which provides subscribers with enhanced playback functionality and gives subscribers access to a broad array of on demand programming, including movies, live events, local drama, music videos, children programming and adult programming.

"VoIP" .... Voice over internet Protocol; a telephone service via internet, or via TCP/IP protocol, which can be accessed using a computer, a sound card, adequate software and a modem.

"VPN"............................ Virtual private network, a business service enabling users to obtain remote access to network functionality.

"VDSL".......................... Very high speed DSL. A high speed variant of ADSL.

"VoN" .... Voice over Net, a form of telephony over the internet that is usually a lower quality than VoIP.

Note 1—Nature of the business, basis of preparation and accounting policies

Nature of the business

Altice S.A. (the ''Company'') is a public limited liability company (*Société Anonyme*) incorporated in the Grand Duchy of Luxembourg on January 3, 2014 and whose head office is in Luxembourg. Upon admission of the Company's shares on Euronext Amsterdam on January 31, 2014, the Company received the contribution of two entities incorporated in the Grand Duchy of Luxembourg: Altice France S.A. and Altice International S.à r.l.. Altice France S.A. is hereafter referred to as ''Altice France'' and Altice International S.à r.l. and its subsidiaries are hereafter referred to as ''Altice International'' or ''Altice International Group''.

Altice France

Altice France holds shares in Numericable Group (''NG''), a French group listed on Euronext Paris. NG is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. It also provides French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

In addition to the Business to Consumer (''B2C'') services described above; NG, through its main operational subsidiary, Completel S.A.S., operates the largest alternative fiber-to-the-office (''FTTO''), network in France, constituting the third alternative Digital Subscriber Line (''DSL'') network in France. Completel S.A.S. provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, and convergence and mobility solutions, through fiber and DSL networks.

Altice International

Altice International offers a variety of services over its cable and mobile infrastructure, including, but not limited to, pay television, broadband Internet access, fixed-line telephony and mobile telephony to residential customers, and, to a lesser extent, corporate customers, depending on the country. Available cable-based service offerings depend on the bandwidth capacity of its cable networks and whether they have been upgraded for two-way communications. Most of Altice International's operating subsidiaries operate Docsis 3.1-enabled networks. Where possible, Altice International Group intends to deploy the same technologies and equipment across its footprints to generate economies of scale and create a common knowledge base for best practices. . In addition, the Altice International Group companies aim at sharing skills and best practices across their various operations.

Television service offerings include basic and premium programming, and, in most markets, incremental product and service offerings such as enhanced pay-per-view programming, including video-on-demand (''VoD'') and near-video-on-demand (''NVoD''), digital video recorders (''DVR''), high definition (''HD'') television services and, in certain areas, exclusive content, purchased or produced. The Altice International Group tailors its basic and premium channel line-up to each country of operation according to culture, demographics, programming preferences and local regulation. The Altice International Group also offers broadband Internet access services and fixed-line telephony in all of its footprints. It also owns and operates mobile infrastructures in certain geographies (French Overseas Territories, Dominican Republic, Israel) and offers mobile services through an MVNO (Mobile Virtual Network Operator) arrangement in Belgium.

Altice International's operational entities operate in the following geographies listed below. When possible, Altice International tries to achieve convergence and integration between existing cable and mobile networks.

- Israel (Cable and mobile)
- Dominican Republic (Cable and mobile)
- French Overseas Territories (Cable and mobile)
- Portugal (Cable)

Note 1—Nature of the business, basis of preparation and accounting policies (Continued)

- Belgium and Luxembourg (Cable and mobile through MVNO)
- Others (mainly cable-based operations and datacenter in Switzerland, content companies and holding activities)

Basis of presentation

The condensed consolidated financial statements of the Company as of and for the three and nine months ended September 30, 2014 have been prepared in accordance with International Accounting Standard (''IAS'') No. 34 ''Interim Financial Reporting''. They should be read in conjunction with the annual consolidated financial statements and the notes thereto as of and for the year ended December 31, 2013 which have been prepared in accordance with International Financial Reporting Standards as adopted in the European Union (''IFRS'').

As Altice France and Altice International, before being contributed to Altice S.A. on January 31, 2014, were and remained entities under common control (controlled by Patrick Drahi through Next L.P.), the contribution transactions do not constitute acquisitions within the meaning of IFRS 3 *Business Combinations*. The Group has opted to account for this transaction using the book values, and the condensed consolidated financial statements disclose the amounts as if the contribution of the equity securities of Altice France and Altice International had occurred before January 1, 2010. For this reason, the financial information presented for comparative purposes reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Altice France and Altice International, which formed two separate groups as of December 31, 2013.

Comparative information

The comparative information for the nine and three month periods ended September 30, 2013 has been restated to reflect the impact of the purchase price allocation of the assets of ONI S.G.P.S (''ONI'') acquired on August 8, 2013. As per the provisions of IFRS 3:49, the impact of the recognition of the identifiable tangible and intangible assets of ONI at their fair value was restated for the nine and three month period ended September 30, 2013. The total impact on depreciation and amortisation was €0.4 million (€0.3 million net of deferred tax impact). The loss for the period was impacted by the same amount.

In addition to the restatement described above, staff costs and employee benefits were reclassified to match the presentation adopted for the three and nine months ended September 30, 2014. Such costs amounted to €57.7million for technical and maintenance and customer service staff and €24.0 million for marketing staff costs and have been reclassified from the lines ''other operating expenses'' and ''other sales and marketing expenses'' to ''staff costs and employee benefit expenses''.

Accounting policies

The condensed consolidated financial statements have been prepared on an historical cost basis, except for (i) available-for-sale financial assets, (ii) derivative financial instruments which are measured at market value and (iii) inventories which are measured at the lower of net realizable value or cost. The accounting policies used to prepare the condensed consolidated financial statements are similar to those described in Note 2 to the consolidated financial statements as of and for the year ended December 31, 2013, except for the election of hedge accounting for certain derivatives.

There were no other significant effects on the condensed consolidated financial statements as a result of the adoption of any of the below mentioned standards or interpretations.

Note 1—Nature of the business, basis of preparation and accounting policies (Continued)

New standards applied for the first time in the current period

For the period ended September 30, 2014, the Company has applied the following amendments to IAS standards, made compulsory for annual periods beginning on or after January 1, 2014.

- Amendments to IAS 39—Novation of Derivatives and Continuation of Hedge Accounting:

  Under the revised standard, the novation of a hedging instrument should not be considered as an expiration or termination giving rise to the discontinuation of hedge accounting when a hedging derivative is novated. This amendment has no impact on the condensed consolidated financial statements of the Company.

- Amendments to IAS 36—Recoverable Amount Disclosures:

  The overall effect of the amendments is to reduce the circumstances in which the recoverable amount of assets or cash-generating units is required to be disclosed, clarify the disclosures required, and to introduce an explicit requirement to disclose the discount rate used in determining impairment (or reversals) where recoverable amount (based on fair value less costs of disposal) is determined using a present value technique.

  This amendment has no impact on the condensed consolidated financial statements of the Company.

- IFRIC 21—Levies

  IFRIC 21 provides guidance on when to recognise a liability for a levy imposed by a government, both for levies that are accounted for in accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets and those where the timing and amount of the levy is certain. The impacts on the condensed consolidated financial statements of the Company are currently being assessed by the management of different operating companies of the Group and by the senior management of the Group.

- Draft position paper on IAS 19 on the subject of the existence of a deep market for corporate bonds in Israel

  On September 1, 2014, the Securities Authority of Israel published a draft position paper (the ''draft position'') in accordance with which a deep market exists in Israel for high quality Shekel denoted corporate bonds. In accordance with the said draft position, commitments in respect of post-employment employee benefits as well as commitments in respect of other long-term benefits are to be discounted using a discount rate that is derived from corporate bonds, instead of discounting them at a discount rate that is derived from government bonds, which will lead to the increasing of the discount rate and the reduction of the commitments. In accordance with the draft position, this change is to be reflected by way of a change in an estimate.

  The Company is examining the possible impact of the standard on the annual financial statements for the year 2014.

Significant accounting judgments and estimates used in the preparation of the financial statements

Judgments

In the process of applying the significant accounting policies, the Group has exercised its judgment and has taken into account matters which have the most significant impact on the amounts that have been recognized in the condensed consolidated financial statements.

Estimates and assumptions

The preparation of the condensed consolidated financial statements requires the Group to make estimates and assumptions that have an effect on the application of the accounting policies and on the

Note 1—Nature of the business, basis of preparation and accounting policies (Continued)

reported amounts of assets, liabilities, revenues and expenses. These estimates and underlying assumptions are reviewed regularly. Changes in accounting estimates are reported in the period in which the estimate changes.

Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units (herein after referred to as ''CGU'' or ''CGUs'') to which goodwill has been allocated. The value in use calculation requires the Board of Directors to estimate the future cash flows expected to arise from the CGUs and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

Legal claims

In estimating the likelihood of outcome of legal claims filed against the Group and its investees, the group companies rely on the opinion of their legal counsel. These estimates are based on the legal counsel's best professional judgment, taking into account the stage of proceedings and historical legal precedents in respect of the different issues. Since the outcome of the claims will be determined in courts, the results could differ significantly from these estimates.

Post-employment benefits

The liability in respect of post-employment defined benefit plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about, among others, discount rates, expected rates of return on assets, future salary increases and mortality rates. Due to the long-term nature of these plans, such estimates are subject to uncertainty.

Deferred tax assets

Deferred tax assets relate primarily to tax losses carried forward and to deductible temporary differences between reported amounts and the tax basis of assets and liabilities. The assets relating to the tax losses carried forward are recognized if it is probable that the Group will generate future taxable profits against which these tax losses can be offset. Evaluation of the Group's capacity to utilize tax losses carried forward relies on significant judgment. The Group analyses past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax losses carried forward.

Hedge accounting

As outlined in note 19 to the consolidated financial statements of the Company for the year ended December 31, 2013, the Company has implemented a policy for managing risks related to their investments, assets and liabilities. As part of its activities, the Company and its subsidiaries regularly issue debt in currencies other than their functional currencies. In order to manage the interest or foreign exchange rate risk associated with such instruments, the Company makes use of various derivative financial instruments designed to mitigate such risk.

The Company measures all derivative financial instruments based on fair values derived from market prices of the instruments or from option pricing models, as appropriate. Gains or losses arising from changes in the fair value of derivatives are recognized in the statement of operations, except for derivatives that are highly effective and qualify for cash flow hedge accounting.

The effective portion of changes in the fair value of a derivative that is designated and that qualifies as a cash flow hedge is recorded in other comprehensive income. Amounts deferred in other comprehensive income are recorded in the consolidated statement of income in the periods when the hedged item is recognized in the consolidated statement of income and within the same line item. Any ineffective portion of changes in the fair value of the derivative is recognized directly in the consolidated statement of income.

Note 1—Nature of the business, basis of preparation and accounting policies (Continued)

The Company formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items. When a hedging instrument is sold, terminated, expires or is exercised. The cumulated unrealized gain or loss on the hedging instrument is maintained in equity until the forecasted transaction occurs. If the hedged transaction is no longer probable, the cumulative unrealized gain or loss, which had been recognized in equity, is reported immediately in the consolidated statement of income.

For instruments not accounted for as cash flow hedges, gains or losses arising from changes in fair value of derivatives and gains or losses realized upon settlement of derivatives are recognized in the condensed consolidated statement of income.

Note 2—Main changes in the scope of consolidation

2.1 France

<u>**Numericable Group S.A. (''NG'')**</u>

On February 3, 2014, the Group, through its direct subsidiary, Altice France S.A., completed the acquisition of a 10% stake in Numericable Group S.A. (herein after referred to as ''NG''), the leading cable operator in France. Prior to the acquisition of the 10% stake, the Group owned a 30% stake in NG (including 2.6% related to options provided by other shareholders). The acquisition of the additional 10% stake triggered a change in control of NG, with the Group becoming able to nominate 5 out of 10 board (the ''Board'') members of NG, as well as the Chairman of the Board, who casts a vote in the event of a tie.

Since February 3, 2014, NG contributed €880.6 million to the Group revenue and €157.8 million to the Group operating profit for the nine months ended September 30, 2014.

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

Total consideration paid to the vendors for 10% of the shares of the acquired entity amounted to €317.0 million on a cash-free, debt-free basis. Additionally, in accordance with the share purchase agreement, the Group paid an earnout to the vendors amounting to €42.1 million, bringing the total consideration transferred to €359.1 million.

The fair value of the asset acquired at the date of acquisition was provisionally determined as follows:

Book value of investment in associate (prior to change in control):	€679.1 million
Variation in investment in associates until February 3, 2014:	€1.3 million
Gain on step acquisition (resulting from change in control):	€256.3 million
Non-controlling interests (Post preliminary re-evaluation of tangible and intangible assets):	€372.8 million
Total consideration for acquisition of additional shares (including earnout):	€359.1 million
Fair value of NG at acquisition:	€1,668.4 million

The provisional value of assets transferred in consideration for the values mentioned above amounted to €2,933.8 million, comprised mainly of intangible assets for a net value of €559.8 million, property, plant and equipment for a total value of €1,468.7 million, financial assets for a total value of €11.3 million and trade and other receivables for a total amount of €519.1 million. Total liabilities amounted to €3,822.9 million, comprised of €2,983.6 million of non-current liabilities and €839.3 million of current liabilities.

The values of the assets and liabilities assumed were initially determined on a provisional basis as being equivalent to the book values in the accounting records of Numericable Group S.A.

As per the provisions of IFRS 3:19, the Company has allocated the proportional share of the acquiree's identifiable net assets to non-controlling interests.

Note 2—Main changes in the scope of consolidation (Continued)

For the period ended September 30, 2014, of the assets identified for re-evaluation at acquisition, the Company has completed a preliminary evaluation of the identifiable assets of the target. As per the requirements of IFRS 3:45 and 3:46, the Company has recognised the following tangible and intangible assets at their fair value:

Property, plant and equipment: a preliminary report prepared by an independent technical expert has determined that the fair value of the fixed cable and network infrastructure owned and operated by NG is greater than the book value at acquisition. The expert used the replacement cost method to calculate the fair value of NG's tangible assets, based on inputs from management and NG's own technical teams. As of September 30, 2014, an additional €150.0 million (before impact of deferred taxes) was allocated on a preliminary basis to the property, plant and equipment of NG. As the evaluation work has not yet been completed, this value is still subject to change.

Client relationships: €257.2 million (€168.7 million net of deferred tax), recognised on a preliminary basis and allocated amongst the operating segment of the target. The average useful life of the assets was determined based on specific reporting segments of the target and are summarised below. A total amortisation expense of €36.3 million was recognised for the nine month period ended September 30, 2014.

The preliminary fair value of client relationships was identified for each operating segment of the target, using the following parameters:

Parameters	B2C	B2B	Wholesale
EBIT margin rate	24.2%	10.9%	41.4%
Client attrition rate	19.1%	22.3%	28.5%
Discount rate	6.7%	6.7%	6.7%
Customer acquisition growth rate	2%	2%	2%
Average useful life (years)	*5.25*	*4.50*	*3.50*

All parameters used above were determined by the Board of Directors. As the purchase price allocation work is still on-going, these assumptions are subject to change.

Goodwill has been provisionally recognised as a result of the acquisition as follows:

Fair value at acquisition	€1,668.4 million
Fair value of identifiable assets, liabilities and contingent liabilities	€(889.0) million
Goodwill	€2,557.4 million

The Company is continuously assessing the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within the measurement period as defined by IFRS 3:45 and IFRS 3:46.

2.2 Dominican Republic

Tricom S.A. and Global Interlinks Limited (“Tricom” and “GLX”, respectively)

On March 12, 2014, the Group, through its indirect subsidiary, Altice Dominican Republic, completed the acquisition of an approximately 97.2% stake in Tricom, a cable and mobile operator with a 4G license based in the Dominican Republic, and of GLX, the owner of a submarine cable, which it uses to sell data and voice transmission services to other operators based in the region (including Tricom). Through this acquisition, the Group expects to consolidate and expand its cable operations in the Caribbean Islands and explore synergies through the vertical integration of its operations in the region and synergies with other operations in the region.

Since March 12, 2014, Tricom and GLX contributed €82.0 million in revenue and €14.1 million in operating profit to the Group's result for the nine months ended September 30, 2014.

Note 2—Main changes in the scope of consolidation (Continued)

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

Total consideration paid to the vendors for the shares of the acquired entities amounted to €299.2 million on a cash-free, debt-free basis.

The total value of assets transferred in consideration for the values mentioned above amounted to €214.8 million, comprising mainly intangible assets for a net value of €4.4 million, property, plant and equipment for a total value of €133.2 million and trade and other receivables for a total amount of €67.3 million. Total liabilities amounted to €82.7 million, comprising €40.8 million of non-current liabilities and €41.9 million of current liabilities. Additionally, adjustments related to the conversion of the opening balance from US GAAP to IFRS standard led to an increase in fixed assets of €2.8 million, thus increasing the net value of assets transferred to €134.9 million. The residual value of €164.3 million was recognised provisionally as goodwill.

The values of the assets and liabilities assumed have been determined on a provisional basis as being equivalent to the book values in the accounting records of Tricom and GLX. The Company is continuously assessing the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within twelve months from the acquisition date.

Altice Hispaniola (''ODO'' or ''Orange Dominicana S.A.'')

On April 9, 2014, the Group, through its direct subsidiary Altice International S.à r.l., completed the acquisition of a 97.2% stake in ODO, the leading mobile operator in the Dominican Republic. ODO operates a high end, 4G-enabled mobile network in the Dominican Republic covering up to 86% of the territory of the Dominican Republic.

Through this acquisition, the Group expects to further consolidate and expand its operations in the Caribbean Islands. This transaction complements the acquisition of Tricom and GLX mentioned above and completes the formation of an integrated telecom group in the Dominican Republic.

Since April 9, 2014, ODO contributed €218.6 million to the Group revenue and €62.7 million to the Group operating profit for the nine months ended September 30, 2014.

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

Total consideration paid to the vendors for the shares of the acquired entity amounted to €1,034.0 million on a cash free, debt free basis.

The total value of assets transferred in consideration for the values mentioned above amounted to €437.9 million, comprising mainly intangible assets for a net value of €34.8 million, property, plant and equipment for a total value of €229.0 million and trade and other receivables for a total amount of €113.5 million. Total liabilities amounted to €103.7 million, comprising €8.7 million of non-current liabilities and €94.1 million of current liabilities.

In addition to the assets transferred and as part of the provisionally purchase price allocation, two additional assets were identified being the capitalisation of subscriber acquisition costs and the intangible asset corresponding to the value of the Orange brand. Subscriber acquisition costs were capitalised as part of the alignment of accounting principles of ODO with Altice Group policies. The net book value of such assets was ascertained to be €2.7 million as at the date of acquisition. The right for the continued use of the Orange brand was valued on a preliminary basis at €19.9 million. This value is subject to revision, following the finalisation of the purchase price allocation for ODO.

As part of the purchase agreement, the vendor agreed to finance the acquisition of a spectrum license to provide 3G services in the Dominican Republic using ODO's existing network. The price of this license was adjusted when calculating the purchase price. The total amount due for the license amounted to €20.8 million ($ 28.5 million). This investment is recorded as capital investment in the accounts of

Note 2—Main changes in the scope of consolidation (Continued)

Orange Dominicana as of September 30, 2014, however, it relates to an investment that was not paid for by the Group.

The values of the assets and liabilities assumed have been determined on a provisional basis as being equivalent to the book values in the accounting records of ODO. The Company is continuously assessing the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within twelve months from the acquisition date.

Goodwill has been provisionally recognised as a result of the acquisitions (including Tricom and GLX) as follows:

Total consideration transferred	€1,333.2 million
Fair value of identifiable assets, liabilities and contingent liabilities	€491.7 million
Goodwill	€841.5 million

2.3 French Overseas Territories (“FOT”)

Mobius S.A.S. (“Mobius”)

On January 15, 2014, the Company, through its subsidiary, Altice Blue Two S.A.S., obtained control over Mobius, a telecommunications operator in the French Overseas Territories (specifically, La Reunion), by acquiring 99.9% of the shares and voting interests in the company. This acquisition enables the Group to further expand and consolidate its footprint in the French Overseas Territories.

Since January 1, 2014, Mobius contributed €13.2 million to revenue and €1.0 million to the Group operating profit for the nine months ended September 30, 2014.

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

- Total consideration paid to the vendors for the shares of the acquired entity amounted to €18.8 million on a cash-free, debt-free basis.
- The total value of assets transferred in consideration for the values mentioned above amounted to €14.8 million, comprising mainly intangible assets for a net value of €7.1 million, property, plant and equipment for a total value of €1.2 million, financial assets for a total value of €3.2 million and trade and other receivables for a total amount of €2.9 million. Total liabilities amounted to €13.8 million, comprising €5.1 million of non-current liabilities and €8.7 million of current liabilities. The residual value of €17.8 million was recognised provisionally as goodwill.

The values of the assets and liabilities assumed have been determined on a provisional basis as being equivalent to the book values in the accounting records of Mobius. The Company is continuously assessing the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within twelve months from the acquisition date.

Goodwill has been recognised as a result of the acquisition as follows:

Total consideration transferred	€18.8 million
Fair value of identifiable assets and liabilities	€1.0 million
Goodwill	€17.8 million

Note 2—Main changes in the scope of consolidation (Continued)

Profit and loss before acquisition by the Group

The profit and loss of those new subsidiaries not consolidated from January 1, 2014, for the period from January 1, 2014 to the date of their entry into the Group's accounts is given below:

	NG	Tricom	ODO
	(in € millions)		
Revenues	108.5	38.7	108.8
Purchases and subcontracting services	(51.7)	(11.1)	(27.4)
Gross Profit	**56.8**	**27.6**	**81.4**
Other operating expenses	1.5	(4.2)	(10.3)
General and administrative expenses	—	(1.7)	(6.7)
Other sales and marketing expenses	—	(2.2)	(19.0)
Staff costs and employee benefits	(14.0)	(5.3)	—
Operating profit before depreciation and amortization	**44.3**	**14.1**	**45.5**
Depreciation and amortization	(25.6)	(5.1)	(15.3)
Management fees	—	(0.8)	(2.9)
Operating profit	**18.8**	**8.2**	**27.4**
Profit for the period	**4.6**	**5.4**	**19.3**

2.4 Acquisition of additional non-controlling interests in Numericable Group S.A.

On June 6, 2014, the Group, through its wholly-owned subsidiary, Altice France S.A., exercised a call option it held on shares in NG. These shares represented 2.6% of the share capital of NG, totalling 3,247,612 shares.

The shares were repurchased at an agreed price of €37.39 per share, thus bringing the total consideration paid to €121.7 million. The acquisition was financed through an increase in the existing margin loan facility at Altice France S.A. (which was fully repaid on July 4, 2014). Subsequent to this transaction, the Group held a 40% stake in NG.

On July 24, 2014, Altice S.A. completed the acquisition of an additional 34.6% stake in NG from its two largest minority shareholders in NG, Cinven and Carlyle. As part of this acquisition, the purchase of 20.6% of the shares was financed via a share swap, in which Cinven and Carlyle received 24,751,873 new shares in Altice S.A. in exchange for 25,517,396 shares in NG. The remainder of the acquisition price will be settled in cash (raised during the capital increase of June 24, 2014) upon the closing of the SFR acquisition but before January 31, 2015. As of September 30, 2014, a liability of €529.0 million has been recorded in the condensed consolidated statement of financial position, under the caption, ''other current liabilities'' (See note 8.3). Subsequently, Altice S.A. transferred these shares to its fully owned subsidiary, Altice France S.A. As a result of this operation, Altice France S.A. now owns 74.6% of the share capital of NG, with the rest of the capital representing the free float portion of NG's share capital.

2.5 Acquisition of non-controlling interests—Altice Blue Two S.A.S. ("ABT")

As per the agreement signed on March 13, 2014, the managers of Outremer Telecom (''OMT'') contributed a 17.5% stake held directly in ABT and all their shares held in OMT Ocean 3 S.A.S. (an investment vehicle held by certain members of OMT's senior management and holding a 5.4% stake in ABT), for a base value of €55.2 million, against new shares issued by Altice representing 0.1% of Altice shares. Note that the consideration for the contributed stake is subject to adjustment from two separate earn-out clauses applicable upon the achievement of certain operational and financial targets and the settlement of certain lawsuits.

Note 3—Goodwill

Goodwill is reviewed for impairment at each CGU level, annually and whenever changes in circumstances indicate that its carrying amount may not be recoverable. For 2013, goodwill was tested for impairment at the CGU level as of December 31. CGUs were at the time determined to coincide with subsidiaries of the Company.

For the nine months period ended September 30, 2014, the Management has decided to reorganize the way the cash generating units (CGUs) are presented, in order to be consistent with the structuring process that the Group has undergone in its different jurisdictions and that is aligning to the way management operates the different segments of the Group (see note 9). To this end, CGUs will now reflect specific geographic areas in which one or several legal structures can be found (eg. Cabovisao and ONI will form Portugal, Tricom/GLX and ODO, Dominican Republic). Historically, each CGU was presented as a standalone legal entity, as the Group had only one operating entity per geography. The rapid expansion of the Group and the push to achieve synergies between fixed, cable and mobile networks in its relevant operating geographies prompted Management to acquire new structures in the regions where it was already operating. Management believes that combining individual acquired entities is the most economic method of capturing synergies between new, complementary businesses in each operational region. This is underlined by the technical synergies between the different networks, the fact that the teams are now integrated and as a result of the bundle offers to the client. An illustrative example is the integration of support functions in the French Overseas Territories (between OMT and Le Cable; together ''FOT''), in Portugal with Cabovisao and ONI and the on-going restructuring of the Dominican entities, in order to have a single, functional support team in the finance, marketing and technical departments. In addition to this, contracts with service providers are negotiated by one entity for the relevant geographies thus providing better purchasing power for the CGU as a whole. Moreover, internal tracking and monthly financial and operation reviews performed by Management are based on specific geographies and not on individual companies, thus the new presentation provides an accurate vision of how Management tracks and runs its businesses internally.

The recoverable amounts of the CGUs are determined based on their value in use. The Company determined value in use for the purpose of its impairment testing and, accordingly, did not determine the fair value of the CGUs as the carrying value of the CGUs was lower than their value in use. The key assumptions for the value in use calculations are primarily the pre-tax discount rates, the EBIT margin, the terminal growth rate and the churn rate during the period.

The value in use of the CGUs was determined by estimating cash flows for a period of five years, giving due consideration to the nature of the industry in which each CGU operates. Assumptions for churn rates and EBIT margin were based on historical experience and expectations of future changes in the market. Cash flow forecasts were derived from the most recent financial plans approved by management.

The Management has determined that there have not been any changes in circumstances indicating that the carrying amount of goodwill may not be recoverable and therefore no updated impairment

Note 3—Goodwill (Continued)

model analysis has been carried out nor any impairment recorded for the period ended September 30, 2014.

Note 4—Restricted cash

The main changes in restricted cash for the period are shown below:

	December 31, 2013	Additions (cash in escrow)	Use of restricted cash	September 30, 2014
		(in million of euros)		
Altice S.A.	—	4,371.3	—	4,371.3
Altice Finco S.A.	290.1	—	(290.1)	—
Altice Financing S.A.	952.7	—	(952.7)	—
Numericable Group S.A.	—	9,509.1	—	9,509.1
Total Value	**1,242.8**	**13,880.4**	**(1,242.8)**	**13,880.4**

The restricted cash at period end is composed of the proceeds of the issuance of borrowings described in note 8. In order to finance the acquisition of SFR, the Company and NG issued debt in the form of Senior Secured Notes and term loans. The issuance of these borrowings was completed on May 8, 2014 and the proceeds from such issuance were deposited in an escrow account awaiting approval of the

Note 4—Restricted cash (Continued)

SFR transaction by the regulatory authorities. As mentioned in note 2, the cash consideration due to Vivendi for the sale and transfer is set at €13,500 million (not taking into account certain contractual adjustments).

The Company has entered into a FX forward trade with a financial institution in order to secure future cash flows from the dollar portion of the bond, currently held on an escrow account. As per the terms of the contract, at a given execution date, the Company will receive €2,052.3 million (net of the swap credit charge) in exchange for the $ 2,834.7 million (net of OID and transaction fees) held in escrow (at a forward rate of 1.38097).

The acquisition of SFR (see note 18) will be financed using cash currently held in escrow at NG level and the Company level as follows:

- Cash held in escrow at NG—€8,770 million;
- Rights issue subscribed by Altice France—€3,528 million; and
- Rights issue subscribed by public/free float—€1,202 million.

The remaining cash will be used to pay transaction fees associated with the debt issuance and acquisition amounting to €285.3 million.

The restricted cash held at December 31, 2013 has been used to fund acquisitions in the Dominican Republic, as described in note 2.

Note 5—Issued capital and share premium

5.1 Issued capital

As of September 30, 2014, the authorised share capital is €5 million of ordinary shares and a maximum of €20,000,000 of Class B shares.

As of September 30, 2014, total issued capital of the Company amounts to €2.5 million, and is composed of 247,722,490 outstanding ordinary shares, with a nominal value of €0.01 each.

The share capital at incorporation amounted to €0.03 million and was increased through successive capital increases.

On January 31, 2014, the Group successfully completed its initial public offering (''IPO'') on the Euronext Stock Exchange based in Amsterdam. As part of this offering, the Group raised €750 million through the issuance of 26,548,673 new shares to investors at a price of €28.25 per share.

The fees incurred in connection with the issuance of additional equity instruments have been recognized in equity for a total of €29.7 million, while the fees linked to the placement of existing shares have been recognized in profit and loss under ''Restructuring, non-recurring costs and other expenses'' (See note 12).

On June 27, 2014, the Company issued an additional 17,935,575 shares in a private placement at a nominal value of €0.01 for an amount of €910.9 million. Part of this share issuance will be used to finance the acquisition of an additional stake of 14.0% shares in the NG (See note 2.4).

On July 24, 2014, the Company issued an additional 24,751,873 ordinary shares as part of the acquisition of an additional stake in the NG. The Company acquired 20.6% of NG from the two largest minority shareholders via its fully owned subsidiary, Altice France S.A., in exchange for 25,517,396 shares in NG (See note 2.4).

Note 5—Issued capital and share premium (Continued)

5.2 Additional Paid in Capital

Total paid-in capital of the Group amounted to €1,827.9 million and results from:

	September 30, 2014
	(in millions of euros)
Contribution in kind—shareholders debt	557.4
Proceeds from primary offering	720.0
Contribution in kind—Valemi vendor note	6.7
Contribution in kind—Mobius	4.6
Contribution in kind—FOT Minorities	55.2
Transactions with non-controlling shareholders of NG	(430.8)
Share issuance under management investment plan	4.2
Proceeds from private placement	910.9
Total	**1,827.9**

A restructuring of the shareholder debts held by Next L.P. against Altice International and Altice France was carried out before the IPO. As a result of this restructuring, the shareholder debts were contributed by Next L.P. to Altice S.A. in exchange for new shares issued by the Company.

The remaining increase in the additional paid in capital is mainly due to proceeds of the IPO in January 2014 and the issuance of new shares in June and July 2014 described in note 5.1 for which the proceeds will be mainly used for purchase of additional shares in NG.

Note 6—Earnings per share

	Nine months ended September 30, 2014	Nine months ended September 30, 2013 (restated)(*)	Three months ended September 30, 2014	Three months ended September 30, 2013 (restated)(*)
	(in € millions except as stated otherwise)			
Earnings				
Earnings for the period	(206.4)	(75.0)	(242.7)	(69.2)
Basic earnings per share (in €)	*(1.05)*	*(0.38)*	*(1.01)*	*(0.35)*
Number of shares				
Weighted average number of ordinary shares for basic EPS	196.3	196.3	241.5	196.3
Effect of dilutive potential ordinary shares:				
Stock options and management investment plan	10.0	10.0	10.0	10.0
Weighted average number of ordinary shares for the purposes of diluted EPS	**206.3**	**206.3**	**251.5**	**206.3**
Diluted earnings per share (in €)	*(1.00)*	*(0.36)*	*(0.96)*	*(0.34)*

(*) The number of shares for the three and nine month periods ended September 30, 2013 corresponds to the weighted average number of ordinary shares for the nine months ended September 30, 2014 given the Company didn't exist in the prior year to enable comparatives between the different periods.

Note 7—Other reserves

As for the nine month period ended September 30, 2014, other reserves were mainly comprised of the fair value of the cash flow hedges that were put in place by the Company in the second quarter of 2014. See note 8.3 for more details.

Note 8—Borrowings and other financial liabilities

Total financial liabilities are broken down as follows:

	September 30, 2014	December 31, 2013
	(in millions of euros)	
Borrowings	20,164.2	3,741.0
Loans from related parties	—	100.7
Finance leases	31.0	23.4
Other financial liabilities	134.2	105.9
Financial instruments	482.8	142.3
Non-current liabilities	**20,812.1**	**4,113.3**
Borrowings:	282.8	59.7
—Loans from financial institutions and bonds	*89.6*	*26.4*
—Bank overdraft	*0.6*	—
—Accrued interest	*192.6*	*33.3*
Other current liabilities:	583.4	15.9
—Other financial liabilities	*548.1*	*4.5*
—Finance leases	*35.3*	*11.4*
Current liabilities	**866.2**	**75.6**
Total	**21,678.3**	**4,188.9**

8.1 Borrowings

Borrowings are composed of loans from financial institutions and bonds. As at September 30, 2014, the details of the loans from financial institutions and bonds are given in the sections that follow.

The maturities of borrowings are given below:

	September 30, 2014	< 1 year	One year or more	December 31, 2013
		(in millions of euros)		
Bonds	15,381.2	27.1	15,354.1	2,554.0
Loans from financial institutions	4,872.6	62.5	4,810.1	1,213.4
Total	**20,253.8**	**89.6**	**20,164.2**	**3,767.4**

As at September 30, 2014 the Group is not in breach of any of its financial covenants.

Note 8—Borrowings and other financial liabilities (Continued)

8.1.1 Bonds

During the period, the Group issued several bonds at the Altice S.A. and NG level in connection with the acquisition of SFR, the closing of which being expected to occur by the end of year 2104. The proceeds are held on escrow accounts until approval of the transaction, see note 4.

Issuer	Fair value in millions of euros September 30, 2014	Coupon	Year of maturity	Carrying amount September 30, 2014	Carrying amount December 31, 2013

—Senior Secured Notes EUR 1,250M	1,289.1	5.625%	2024	1,250.0	—
Total value of bonds	**15,912.0**			**15,381.2**	**2,554.0**
Of which due within one year	*27.1*			*27.1*	*26.8*
Of which due after one year	15,884.9			15,354.1	2,527.2

8.1.2 Loans

The increase in the borrowings from financial institutions is mainly explained by the issuance of new term loans for NG, as part of the financing package raised to consummate the SFR transaction and also to refinance existing debt at NG.

- The total amount of debt issued as of September 30, 2014 amounted to €3,799 million, and was composed of three tranches:
  - A EUR tranche of 1,900 million, with a maturity in May 2020 and bearing interest at Euribor+3.75% (excluding an interest rate floor at 0.75% and interest rate hedging);
  - A first USD tranche of 1,394 million (€1,018 million equivalent as of September 30, 2014) with a maturity in May 2020 and bearing interest at LIBOR+3.75% (excluding an interest rate floor at 0.75% and interest rate hedging);
  - A second USD tranche of 1,206 million (€881 million equivalent as of September 30, 2014) with a maturity in May 2020 and bearing interest at LIBOR+3.75% (excluding an interest rate floor at 0.75% and interest rate hedging).
- On May 21, 2014, NG used this term loan facility to refinance its existing debt for a total amount of €2,750 million, of which €2,638 million related to the principal amount refinanced and €88 million related to breakage fees and €77.0 million related to transaction costs on the new issued debt.
- On July 4, 2014, Altice France fully repaid the margin loan it had issued to acquire a controlling stake in NG in November 2013 and the subsequent purchase of a 2.6% stake from other minority shareholders in NG. The total amount issued in two phases amounted to €456.6 million, of which €323.9 million were issued in November 2013 and an additional tranche of €121.7 issued in June 2014. The total amount reimbursed included accrued interests of €11 million.

Note 8—Borrowings and other financial liabilities (Continued)

8.2 Other financial liabilities

This corresponds mainly to:

- A vendor loan of €529.0 million due to the former minority shareholders of NG, corresponding to the acquisition of an additional 14.6% stake in NG, which was completed on July 24, 2014.
- Deposits provided by clients for customer premises equipment leased for the duration of their subscription period for €45.8 million; and
- Preferred Equity Certificates (''PECs'') for €30 million at the level of Deficom Telecom S.à r.l..

The following movements occurred during the period:

- Cancellation of Altice Blue Two put: The minority shareholders of Altice Blue Two exchanged their shares in Altice Blue Two against common shares in Altice S.A. As a result of this exchange, the put agreement in place at Altice Blue Two was cancelled (considered to be unexercised), leading to the reversal of a debt amounting to €53.2 million;
- Repayment and conversion of vendor notes: Vendor notes held by Altice IV and Valemi Corp were respectively reimbursed and exchanged against common shares of Altice S.A. as part of the IPO, leading to a total decrease in other financial liabilities of €20.7 million;

8.3 Derivative instruments and hedge accounting

On May 8, 2014, the Company and its subsidiary, NG, issued debt to finance the acquisition of the SFR group. A part of this debt was issued in USD, which is different from the functional currency of the entities. In order to mitigate risks arising from the variations in foreign exchange rates (the benefiting operating entities generate cash flows in euros which will be used to service this debt), the Group has entered into cross currency swaps for interest and principal payments in order to secure future cash flows in its functional currency.

As part of this operation, a hedging transaction was implemented to swap the entire amount of the USD tranche into EUR at a fixed exchange rate. Additionally, the fixed coupon on the USD tranche was swapped into a fixed rate to match the swap into EUR. As per the provisions of IAS 39, the Company has decided to apply hedge accounting for the first time to record this hedging transaction.

The Company has decided to designate the instrument as a cash flow hedge. The features of the hedge are given below:

- Hedged item: $ 2,900 million USD bonds bearing interest at a coupon of 7.75%
- Hedging instruments: Cross currency swaps, swapping fixed USD coupon payments into fixed euro payments. The fixed EUR/USD rate was fixed at 1.3827.

The table below summarizes the details of the swap and its novation:

Nominal USD	Nominal EUR	Effective date	Termination date(*)	USD coupon	EUR coupon
Fixed/Fixed cross currency swap					
2,900,000,000	2,097,345,773	08/05/2014	15/05/2019 - 15/05/2022	7.75%	7.07% to 7.43%
7,775,000,000	5,623,000,000	08/05/2014	15/05/2019	From 4.875% to 6.25%	From 4.354% to 5.383%
LIBOR/EURIBOR Interest rate swap					
2,600,000,000	1,880,000,000	08/05/2014	15/05/2019	L+3.75%	E+4.2135% and E+4.2085%

* The swap with one of the counterparties was extended for three years as the counterparty offered favorable conditions for booking an extension. The Company has the option to extend the swaps with other counterparties and may choose to do so in the future.

Note 8—Borrowings and other financial liabilities (Continued)

As part of the SFR debt issuance, NG also entered into hedge transactions with the same counterparties as the Company. The hedges at NG cover both the fixed income debt, which are hedged using cross currency swaps (USD/Fixed to EUR/Fixed) with the same general conditions as that of the Company's transactions. In addition to the cross currency swaps mentioned above, NG has also entered into an interest rate swap that swaps LIBOR indexed debts into Euribor indexed debts. However these debts are not completely covered as the LIBOR indexed debt includes a floor of 0.75% which is not included in the Euribor swap.

Thus, the fair value of the derivative instrument was recorded in other comprehensive income for the nine month and three month periods ended September 30, 2014. Before the impact of taxes, an expense of €456.8 million was recorded as OCI (€305.2 million net of taxes).

8.4 Classification and fair value of financial assets and liabilities

The Group has financial instruments with fair values that are determined by reference to significant unobservable inputs i.e. those that would be classified as level 3 in the fair value hierarchy. There have been no transfers of assets or liabilities between levels of the fair value hierarchy. There are no non-recurring fair value measurements.

The financial instruments that are presented in the condensed consolidated statement of financial position in accordance with their fair value are classified in accordance with groups that have similar characteristics, into hierarchical levels for fair values, as aforesaid, which are determined in accordance with the source of the input that was used for determining the fair value:

- Level 1—Quoted prices (without adjustments) in an active market for identical assets and liabilities.
- Level 2—Inputs other than quoted prices that are included in level 1, which can be observed directly or indirectly.
- Level 3—Inputs that are not based on observable market data (an evaluation technique that does not use observable market data).

As of September 30, 2014, the classification of financial instruments is summarized below:

For the nine month period ended September 30, 2014	Recorded Value in Condensed Consolidated Statement of Financial Position	Level 1 Quoted Prices in active markets for identical assets/liabilities	Level 2 Significant other observable inputs	Level 3 Inputs that are not based on observable market data
			(€ in millions)	
Recurring Fair Value Measurements

—Partner Communication Co.	8.4	8.4	—	—
Financial liabilities				
—Other financial liabilities at FVTPL (derivative instruments)	142.3	—	142.3	—

Note 9—Segmental analysis

9.1 Definitions of segments

Given the geographic spread of the various Group entities, it logically follows that an analysis and control by geographical areas is inalienable to Group strategy of managing its different businesses. It has thus been decided by the senior management to analyse the business across geographies and then by activity. The following geographies have been identified:

- France
- Israel
- Belgium and Luxembourg (''Belux'')
- Portugal
- French Overseas Territories (''FOT'')
- Dominican Republic
- Others (Switzerland, others)

Activities have been split as follows:

- Fixed
- Mobile
- Others (Content/others)

Following the acquisition and full integration of NG and the acquisitions of ODO, Tricom and GLX, two new geographic segments, France and Dominican Republic, corresponding to the sole geographic zones of operation of these new entities, were added to the segmental analysis.

In addition, in the context of the anticipated acquisition and integration of the French mobile operator SFR into the Group, the senior management has decided to amend the presentation of its operational segments, by regrouping Cable and B2B into a single line called 'Fixed', and by maintaining the mobile segment (a significant portion of SFR's activity is mobile based). Other activities such as content, datacenters and holding company operations are classified under others. Such presentation is consistent with the presentation used by the Management of the Group. The presentation was amended for comparative purposes for the three months ended September 30, 2013 and the nine months ended September 30, 2013.

The businesses that the Group owns and operates do not show significant seasonality.

Note 9—Segmental analysis (Continued)

There are few operational transactions between the different segments defined by Management above. Intersegment revenues are considered to be non-material by Management and, hence, not in the scope of regular operational reviews. Intersegment revenues represented less than 0.5% of total revenues for the three and nine month periods ended September 30, 2014 and 2013, respectively.

9.2 Segment information

Details regarding revenues, cost of sales and gross profit for our cable, mobile and other segments are as follows. The reconciliation to Profit before income tax expenses is presented below in accordance with the requirements of IFRS 8 (operating segments).

	For the nine months ended September 30, 2014

9.3 Definition of EBITDA

In view of the future integration of SFR, the Company has decided to define the 'Earnings before interest, taxes, depreciation and amortization', or EBITDA metric, which is a non-GAAP measure that the Company considers to be an important indicator of its cash generating ability and overall profitability. EBITDA also excludes non-recurring costs related to restructuring, non-recurring costs, management fees and other expenses of a non-cash nature or that the Board of Directors considers to be non-relevant to its regular operating activities. A reconciliation between operating profit before depreciation and amortization is presented below in this note.

Reconciliation between operating profit before depreciation and amortisation, management fees, restructuring non-recurring costs and other expenses and EBITDA (In € millions) for the nine months ended September 30, 2014

	France	Israel	Belgium & Luxembourg	Portugal	French Overseas Territories	Dominican Republic	Others	Total

Note 10—Equity based compensation

As part of the listing process, the Group adopted a new remuneration policy and company stock options were issued to executive directors and some senior management of the Group. The expenses associated with the issuance of these stock options were calculated and recorded in accordance with 'IFRS 2—Share Based Payments' for the first time during the period ended September 30, 2014.

The options were valued using the Black and Scholes model, considering the modalities of the options as described in the articles and bylaws of the Company. The Company reserved the right to grant options of up to €250 million upon admission, of which €220.85 million were granted at IPO under the conditions listed below, as well as further options for an aggregate amount of €100 million for new hires and to promote employees and officers. Additional options worth €20 million were granted to a member of the management team with conditions at admission different to those described below.

These options will vest in two tranche as follows, a €10 million tranche of ordinary shares on the first anniversary following the settlement date of the Offering and a second tranche of €10 million of ordinary shares on the second anniversary following the settlement date of the Offering and each time at the then prevailing market price.

The conditions considered for the valuation of the options are given as follows:

- Options can only be issued on the issue date, defined as (i) the date of admission of Altice S.A.'s shares on Euronext Amsterdam (January 31, 2014) or (ii) the date on which an employee or another person designated by Altice S.A. becomes eligible to participate in the plan. Participants who will be granted options upon admission will not be eligible to receive more options until the fourth anniversary after the issue date (except in connection with promotions);
- Each option granted entitle the holder to acquire one ordinary share of the Company;
- Options vest on a non-linear basis as per the following schedule:
  - A first tranche of 50% vests two years after the allocation of the options;
  - A second tranche of 25% vests three years after the allocation of the options; and
  - The final tranche of 25% will vest four years after the allocation of the options.
- Vested options can be exercised at any time until the 10th anniversary of the issue date, after which they will be considered to have lapsed;
- The exercise price for the options is either (i) if issued on admission, the offer price of the Company's shares upon admission (€28.25) or, (ii) the weighted average price at which the shares are traded on Euronext Amsterdam for a period of six months preceding the issue date.

During the course of the three month period ended September 30, 2014, new options were granted to new members of the Management team, while an existing member of the team was allotted additional options (as part of his promotion within the structure). The details of the new options allotted are given below:

- One tranche of €10.0 million allocated at a strike price of €29.1, allocated on July 1, 2014;
- One tranche of €0.25 million allocated at a strike price of €31.2, allocated on September 1, 2014; and
- An additional tranche of €10.0 million allocated at a strike price of €29.3, allocated on September 30, 2014.

The terms and conditions of these newly allocated options are the same as those listed above for the options allotted at admission.

As of September 30, 2014, options totalling a combined nominal value worth €242.1 million had been allotted to different managers of the Company (representing 8.56 million ordinary shares of Altice S.A. at an average price of €28.3). As of the date of this report, no options have been exercised or lapsed.

Note 10—Equity based compensation (Continued)

Based on these conditions, for the nine month period ended September 30, 2014, Altice S.A. recorded €9.0 million as expenses related to stock options in the line item, 'staff costs and employee benefits expenses' (€3.5 million for the three months ended September 30, 2014). A stock option plan has also been established by NG for its employees and key management personnel, and an expense amounting to €3.4 million has been recognized for the nine month period ended September 30, 2014 (€1.2 million for the three months ended September 30, 2014).

Note 11—Gain on step acquisition / Investments in associates

On February 3, 2014, Altice France, a direct subsidiary of the Company, completed the acquisition of an additional 10% stake in NG. This acquisition triggered a change in control of NG, with Altice France becoming the largest shareholder in NG, with 5 out of 10 seats on the Board and the ability to name the Chairman, who casts a vote in event of a tie. Thus, from February 3, 2014, NG has been fully consolidated into the financial statements of Altice S.A.

As a result of this change, the investment in associates recorded in the accounts of the Company was reversed and the fair value of the investment in NG was recorded in the accounts of Altice S.A. as investments in subsidiaries. The difference between the value previously recorded in the financial statements of Altice S.A. and the fair value of the investment (€936.6 million) was recorded as a gain on step acquisition in the condensed consolidated statement of income of Altice S.A. for the nine months ended September 30, 2014 (nil for the three months ended September 30, 2014).

Calculation of carrying amount of investment in associates as of February 3, 2014

(in € million)	
Balance as of December 31, 2013	**679.1**
Increase	1.3
Balance as of February 3, 2014 (a)	**680.4**

Calculation of fair value of investment in associates as of February 3, 2014

(in € million except when stated otherwise)	
No. of shares held at change of control	**33.9**
Observed share price at February 3, 2014 (expressed in €)	27.6
Fair value of investment on February 3, 2014 (b)	**936.6**
Gain on step acquisition (b) − (a) =	**256.3**

The remaining amount of €3.0 million correspond to Alsace Connexia Participation, an associate of NG consolidated using the equity method.

Note 12—Restructuring, non-recurring costs and other expenses

Restructuring, non-recurring costs and other expenses incurred in the nine and three month period ended September 30, 2014 pertain mainly to one-off payments and transaction costs relating to acquisitions or other similar operations. Details are given below:

	9 months ended September 30, 2014	9 months ended September 30, 2013 (restated)	3 months ended September 30, 2014	3 months ended September 30, 2013 (restated)
	(in millions of euros)			
HOT Mobile restructuring costs (related to network sharing deal)	15.1	—	0.6	—
Restructuring costs (employee provisions, contract negotiations)	26.1	9.0	10.2	2.3
Restructuring costs	**41.2**	**9.0**	**10.8**	**2.3**
Fees related to the IPO of Altice S.A.	11.9	—	0.6	—
Fees related to the closing of the ODO transaction	7.0	—	0.3	—
Fees related to the SFR transaction	11.4	—	4.9	—
Other deal fees/other income*	7.1	3.3	0.9	(5.5)
Deal fees and other non-recurring costs/(income)	**37.3**	**3.3**	**6.6**	**(5.5)**
Total Restructuring, non-recurring costs and other expenses	**78.5**	**12.3**	**17.4**	**(3.3)**

* Deal fees incurred in the three and nine month period ended September 30, 2013 mainly relate to fees paid for the HOT take private transaction (December 2012) and the Cabovisao minority stake buyout (April 2013). The other income recorded in the three months ended September 30, 2013 arose mainly due to the write back of provisions.

13.2 Transaction with SFR

Since the acquisition of NG by the Company, NG invoiced various services to SFR and its subsidiaries for a total amount of €22.2 million. During the same period, SFR and its subsidiaries invoiced an overall amount of €29.3 million to the subsidiaries of NG.

Note 14—Compensation of key management personnel

The compensation given to the ten members of the senior management of Altice S.A. (including those managers who are also board members of Altice S.A.), for the 9 month period ended September 30, 2014, was €3.6 million and €1.7 million for the 9 month period ended September 30, 2013 (€1.9 million and €0.3 million for the three months ended September 30, 2014 and 2013 respectively).

Equity based compensation is not included in this note and is described in Note 10.

Note 15—Income tax

The Group registered an income tax expense of €50.5 million for the nine month period ended September 30, 2014 compared to income tax expenses of €27.5 million for the nine month period ended September 30, 2013. The variation between the two periods mainly pertains to deferred taxes resulting from value adjustments of derivatives instruments and resulting from the Purchase Price Allocation adjustments of NG.

Note 16—Commitments and contingent liabilities

16.1.1 Provisions and contingent liabilities

16.1.1.A France

The NG is involved in legal and administrative proceedings that have arisen in the ordinary course of its business.

A provision is recorded by the NG Group when there is a sufficient probability that such disputes will lead to costs that the NG Group will bear and when the amount of these costs can be reasonably estimated. Certain companies of the NG Group are involved in a certain number of disputes related to the ordinary activities of the NG. Only the most significant disputes and proceedings in which the NG is involved are described below.

The NG is not aware of any governmental, legal or arbitration proceedings (including any proceedings of which the NG Group is aware, which are pending or threatened) other than those mentioned below in this section that may have or have had in the last 12 months significant effects on the financial position or profitability of the Company or the NG.

16.1.1.A.1 Tax audits

The French tax authorities have conducted audits of various companies of the NG since 2005 with respect to the VAT rates applicable to our multiple-play offerings. Under French tax law, television services are subject to a 5.5% VAT rate, which increased to 7% as of January 1, 2012, while Internet and

Note 16—Commitments and contingent liabilities (Continued)

telephony services are subject to a 19.6% VAT rate. When marketing multiple-play offerings, the NG allocates a price reduction compared with the price the NG would charge for its services on a stand-alone basis. This price reduction is primarily applied to its Internet and telephony services, because such services are newer products. As a result, the VAT charged to the subscribers was lower than the VAT that would have been charged if the NG had deemed the price reduction to apply primarily to the television portion of its packages.

The French tax authorities assert that these price reductions should have been calculated pro rata of the stand-alone prices of each of the services (television, broadband Internet, fixed and/or mobile telephony) included in the multiple-play packages of the Group and proposed adjustments for fiscal years 2006 to 2010.

The NG has formally challenged the tax assessments for the fiscal years from 2006 to 2009. The NG also referred the matter to the Ministry of Finance in December 2011 and sought a comprehensive settlement of the adjustments made by the tax administration in respect of the various NG companies for the period 2006-2009. Following this request, the tax administration lowered the amounts of adjustments for 2008 and 2009 by including in its calculation a limitation based on the 50/50 rule applicable on composite VAT, which was in force from 2008 to 2010. The new amounts of adjustments, totaling €17.1 million (excluding penalties of 40%) for the period 2006-2009, were communicated to the NG end of August 2012.

Furthermore, in 2012, the tax authorities also initiated a tax audit of fiscal year 2010, in the same matters and scope as the audits described above. These procedures gave rise to proposed adjustments at the end of June 2013, calculated in the same manner as for fiscal years 2007 to 2009, in a total amount of €6.1 million (excluding penalties of 40%). NG replied on August 21, 2013 challenging the proposed adjustments. The tax administration sent replies to the NG's observations in late October 2013, pursuant to which it maintains its adjustments. To date, the 2011 and subsequent years have not been subject to VAT audits on the Numericable scope. The tax administration has also demanded payment for the 2006 adjustment on NC Numericable (approximately €2 million of the €17.1 million mentioned above for the 2006-2009 period). The Group asked for a payment deferral and filed a complaint in September 2012, which was rejected by the tax administration on June 27, 2013. The NG filed an additional request on August 20, 2013.

VAT rules applicable to multiple-play packages changed starting January 1, 2011.

As of December 31, 2013, a tax contingency provision of €24.9 million (compared with €25.1 million as of December 31, 2012) was recognized to cover all the risks related to VAT (excluding penalties of 40%, which would amount to €7.1 million) related to the adjustments notified for fiscal years 2006 to 2010 (i.e. €23.5 million). The NG replied on August 21, 2013, challenging the proposed adjustments.

In 2013, the tax administration initiated a tax audit of Altice B2B France and Completel in respect of fiscal years 2010 and 2011, resulting in the submission on December 19, 2013 of proposed adjustments. The adjustments focus on the challenge of charges for services provided to the companies in 2009, 2010 and 2011. A tax contingency provision covering all adjustments considered (income tax, VAT, withholding tax, penalties, surcharges and default interest) in the amount of €11.4 million was set aside December 31, 2013. In addition, the proposed adjustment results in a reduction of tax loss carry forwards in the amount of €28.5 million. The NG challenged all adjustments on February 17, 2014.

As of September 30, 2014, a tax contingency provision of €34.9 million was recognized to cover all the risks related to VAT (excluding penalties of 40%, which would amount to €7.1 million) related to the adjustments notified for fiscal years 2006-2010 (i.e. €24.9 million) and the risks associated with the challenging of charges for services under the adjustments notified for fiscal years 2009-2011 (€10.0 million).

Finally, the Group received tax assessments notifications dated June 6, 2014 for fiscal years 2010 (income tax), 2011 and 2012 for the entities NC Numericable, Numericable and Est Videocommunication.

Note 16—Commitments and contingent liabilities (Continued)

No provision has been recorded in the Condensed Consolidated Financial Statements for the nine months ended September 30, 2014 with respect to these latest tax audits.

16.1.1.A.2 Commercial disputes

A.) In-depth inquiry of the European Commission into the transfer of cable infrastructures by certain local authorities

On July 17, 2013 the European Commission signaled that it had decided to open an investigation to verify whether the transfer of public cable infrastructure between 2003 and 2006 by several French municipalities to NG was consistent with European Union State aid rules. In announcing the opening of this in-depth investigation, the European Commission indicated that it believes that the sale of public assets to a private company without proper compensation gives it an economic advantage not enjoyed by its competitors, and that it therefore constitutes state aid within the meaning of the rules of the European Union. It argues that the transfer free of charge of the cable networks and ducts by 33 French municipalities in favor of NG confers a benefit of this type and, as such, state aid. The European Commission has expressed doubts about the compatibility of the alleged aid with the rules of the European Union.

NG firmly denies the existence of any state aid. In addition, the decision to open an investigation concerns a relatively small number of network connections (200,000), the majority of which have not been migrated to EuroDocsis 3.0 and accordingly only allow access to a limited number of the NG's television services. The European Commission's decision of July 17, 2013 was published in the Official Journal of the European Union on September 17, 2013. Since then, discussions have continued within the framework of the procedure in respect of observations of third parties as well as those of the parties to the proceedings as to the allegation of the existence of aid and its extent, with NG firmly challenging the existence of any state aid.

No provision is booked in the condensed consolidated financial statements as at September 30, 2014 with respect to this litigation.

B.) Litigation with Orange relating to Indefeasible Right of Uses (''IRUs'')

The NG entered into four non-exclusive IRUs with Orange on May 6, 1999, May 18, 2001, July 2, 2004 and December 21, 2004, in connection with the acquisition by NG of certain companies operating cable networks built by Orange. These cable networks, accessible only through the civil engineering installations of Orange (mainly its ducts), are made available to the Group by Orange through these non-exclusive IRUs over such civil engineering installations. Each of these IRUs covers a different geographical area and was entered into for a term of 20 years.

Following ARCEP's decision 2008-0835 of July 24, 2008, Orange published, on September 15, 2008, a technical and commercial offer made to telecommunication operators pursuant to which such operators can roll out their own fiber networks in Orange's ducts. The terms of this mandatory technical and commercial offer are more restrictive than the terms that NG enjoys under the Orange IRUs. As a result, Orange asked NG to comply with the general rules regarding access to Orange's ducts for the purpose of maintaining and upgrading its network. This issue was litigated, and both ARCEP and the Paris Court of Appeal ruled in favor of Orange on November 4, 2010 and June 23, 2011 respectively. NG appealed the decision before the French Supreme Court (*Cour de Cassation*), which upheld, for the most part, the decision of the Paris Court of Appeal.

Moreover, on October 21, 2011, ARCEP initiated penalty proceedings against NG, arguing that it had not complied with its November 4, 2010 decision. Consequently, in December 2011, NG and Orange signed amendments to the IRUs in order to comply with the November 4, 2010 ARCEP decision and to align the operating procedures set out in the IRUs with the procedures set out in the Orange generic technical and commercial offer

Note 16—Commitments and contingent liabilities (Continued)

In the meantime, the penalty proceedings initiated by ARCEP were not stopped by the execution of the amendments to the IRUs, and NG was fined €5.0 million on December 20, 2011 for noncompliance with ARCEP's November 4, 2010 decision. The fine was paid in full during fiscal 2012. Numericable filed an appeal against the decision before the Council of State. Within the framework of this appeal, NG having raised a question of Constitutional law, referred to the Constitutional Court, on the compliance with the Constitution of Article L. 36-11 of the CPCE, which sets out ARCEP's powers. On July 5, 2013, the Constitutional Court found in NG's favor and invalidated paragraphs 1 to 12 of Article L. 36-11 of the CPCE, on the basis of which ARCEP's December 20, 2011 decision to impose the aforementioned penalty was made. NG asked the Council of State to take the conclusions of this decision into consideration and accordingly to cancel ARCEP's December 20, 2011 decision. On October 21, 2013, the Council of State annulled the penalty imposed by ARCEP on December 20, 2011, which had condemned NG and NC Numericable to a fine of €5 million for non-compliance with ARCEP's November 4, 2010 ruling.

Lastly, NG initiated parallel proceedings against Orange before the Commercial Court of Paris on October 7, 2010 claiming damages of €2.7 billion for breach and modification of the IRUs by Orange. On April 23, 2012, the Commercial Court of Paris ruled in favor of Orange and dismissed NG's claims for damages, ruling that there were no material differences between the original operational procedures and the new operational procedures published by Orange on September 15, 2008. NG appealed this decision before the Paris Court of Appeal and claimed the same amount of damages. Orange, in turn, claims that the proceedings materially impaired its brand and image, and claims damages of €50 million. On June 20, 2014 the Paris Court of Appeal rejected the appeal of NG.

No provision is booked in the condensed consolidated financial statements as at September 30, 2014 with respect to this litigation.

C.) Litigation with Free relating to an advertising campaign

A claim was filed against NC Numericable before the Commercial Court of Paris by telecommunication operator Free on August 3, 2011 in relation to the launch of the mobile offer by NG in spring 2011 through an advertising campaign entitled ''*La révolution du mobile continue*.''

Free, which used the term ''revolution'' to refer to its launch of mobile phone services and whose latest offering was named the ''Freebox Revolution,'' argues that NG's campaign led to customer confusion and damaged its brand and image. The case is currently pending before the Paris Commercial Court. Free is claiming damages of €10 million. After the hearing, the Court asked for an opinion from the French competition authority (''*Direction générale de la concurrence, de la consommation et de la répression des fraudes*''—DGCCRF) related to the reality of the assertions of Free with regard to the laws governing advertising. The DGCCRF returned an opinion in which it indicated that the questions raised by Free did not constitute a fault under the applicable law. However, on December 13, 2013, the Commercial Court of Paris condemned NC Numericable to pay Free the sum of €6.4 million. NC Numericable appealed this decision. As the decision is enforceable and the amount was paid in early 2014, the risk was fully provisioned as of December 31, 2013.

This provision booked in relation to the litigation with Free concerning an advertising campaign was fully utilized as of September 30, 2014. NC Numericable has appealed this decision.

D.) Litigation with several editors of value-added services (VAS)

On February 19, 2013, five companies editing value-added telephone services offering their services to the public through premium numbers (0899), jointly assigned Completel before the Commercial Court of Nanterre. The plaintiffs asked for the condemnation of Completel to pay €0.4 million in repayment of sums corresponding to deductions made by Completel from the sums collected on their behalf. Completel made these deductions in response to practices by these companies that it considers contrary to the agreements between these companies and Completel, as well as ethical standards in the industry. They also sought payment of damages in a total amount of €12 million in compensation for the prejudice allegedly suffered as a result of the withholding of money by Completel.

Note 16—Commitments and contingent liabilities (Continued)

Furthermore, in November 2012, Completel, having decided in November 2012 to put an end to this activity, suspended certain repayments and applied various contractual penalties on companies selling this type of value-added telephony services. Some of these companies assigned Completel before various Commercial Courts and sought an order for the payment of the amounts withheld by Completel or the cancellation of penalties applied by Completel. The overall claim amounts to approximately €0.4 million, mainly representing sums collected for these companies.

A provision of €0.1 million is booked in the condensed consolidated financial statements as of September 30, 2014 (booked in 2013).

E.) Dispute with the Ligue de Football Professionnel

In a submission to the Commercial Court of Nanterre dated April 26 2013, the Professional Football League (''*Ligue de Football Professionnel*''—LFP) argued that NG had abused its dominant position in breach of its obligation of non-discrimination against the LFP when it was in charge of the production of the CFoot channel. The LFP requested €4.1 million in damages in compensation for the prejudice. More particularly, the LFP criticized NG for the low level of remuneration for the marketing of the CFoot channel compared with the remuneration of certain sports channels sold in packages. A hearing on the matter is expected during the second half of 2014.

A provision of €0.2 million is booked in the condensed consolidated financial statements as at September 30, 2014 (booked in 2013).

F.) Action by Colt, Free and Orange before the General Court of the European Union concerning the DSP 92 project

Colt, Free, and Orange, in three separate proceedings against the European Commission, filed a request with the General Court of the European Union for the cancellation of the final decision of the European Commission dated September 30, 2009 (Decision No. C (2009) 7426), which held that the compensation of €59 million granted within the framework of the public service concession for the establishment and operation of a high-capacity electronic communications network in the department of Hauts de Seine does not constitute state aid within the meaning of the rules of the European Union. NG is not party to this proceeding. Its subsidiary Sequalum is acting as the civil party, as well as the French state and the department of Hauts de Seine. In three rulings dated September 16, 2013, the General Court of the European Union rejected the requests of the three applicants and confirmed the aforementioned decision of the European Commission. Free and Orange have appealed to the Court of Justice of the European Union.

No provision is booked in the condensed consolidated financial statements as at September 30, 2014 with respect to this litigation.

G.) Complaint of Bouygues Telecom

In late October 2013, NG received a claim from Bouygues Telecom on the ''white label'' contract concluded between the two companies on May 14, 2009, initially for five years and extended once for an additional five years for the supply to Bouygues Telecom of double- and triple-play broadband offers. In its letter, Bouygues Telecom claimed damages totaling €53 million as a result of this contract. Bouygues Telecom alleges a prejudice that justifies, according to Bouygues Telecom, damages including (i) an amount of €17.3 million due to an alleged pre-contractual fraud (provision of incorrect information prior to the conclusion of the contract), (ii) an amount of €33.3 million as a result of alleged failure by NG companies in the execution of the contract and (iii) an amount of €2.4 million to repair the alleged damage to Bouygues Telecom's image. The NG considers these claims unfounded both in fact and in contractual terms, and rejects both the allegations of Bouygues Telecom and the amount of damages claimed. It nevertheless intends to continue regular discussions between the parties regarding the implementation of this contract, for which Bouygues Telecom is requesting modifications in the context of its claim. Notwithstanding this claim, which has not been brought before the courts, the parties have continued their day-to-day cooperation in conditions identical to those prevailing before October 2013.

No provision is booked in the condensed consolidated financial statements as at September 30, 2014 with respect to this litigation.

Note 16—Commitments and contingent liabilities (Continued)

H.) Investigation of DSP 92 by the Regional Auditor of Ile-de-France

A disagreement arose between the department of Hauts-de-Seine (''CG 92'') and Sequalum on the conditions of execution of the Service Concession agreement ''THD Seine'' entered into on March 13, 2006 between Sequalum, a subsidiary of NG, and the department of Hauts-de-Seine. This public service concession arrangement is aimed at building a high-capacity fiber network throughout the department of the Hauts-de-Seine. As of September 30, 2014 the net book value of the network build by Sequalum represents approximately €123.0 million and the Group received €25 million of subsidies from the department of Hauts-de-Seine.

Within the framework of the Service Concession Agreement, the department of Hauts-de-Seine also asked the financial institution involved to implement the guarantee granted by Sequalum for €10 million, this amount corresponding to the maximum amount that could be guaranted with respect to the Service Concession Agreement. So far, the bank did not respond favorably to this request, considering that the request was not sufficient, in terms of form and documentation, to allow the implementation of the guarantee.

The penalities were contested through a request recorded by the administrative court on September 3, 2014. The execution and the payment of the penalities are suspended until a decision is made on this litigation.

The decision of the department of Hauts-de-Seine to terminate the agreement has not yet been notified to Sequalum who intends to contest the resiliation before the competent courts. Looking forward to the reception of this notification, Sequalum continues to perform the contract, subject to potential requests the delegator may impose. Should the courts confirm the arguments of the department of Hauts-de-Seine, Sequalum could be obliged to reimburse the grants received (the portion of grants not yet amortized). The department of Hauts-de-Seine, for its part, would receive all the assets built within the framework of the DSP 92 on July 1, 2015. The department of Hauts-de-Seine would have to indemnify Sequalum at a level corresponding to the net book value of the assets.

On October 16, 2014 Sequalum deposited a request before the administrative court of Cergy Pontoise which aims at ending the Service Concession agreement due to ''force majeure'' in the context of irreversible changes in the contractual economy.

The Board of Directors of NG examined the risk related to these procedures and noted that at this stage there are too many uncertainties to measure the possible risk for NG. Under these conditions, the criteria allowing the booking of a provision were not met.

I.) Litigation with employees

The NG is involved in litigation with a certain number of employees, a large part of which is due to the last merger period in 2006-2007, involving UPC-Noos, which gave rise to adjustments and harmonization in practices leading to disputes until 2009. The overall risk for this litigation is approximately €4 million. Most of this litigation consists of the challenge by an employee of the grounds for or the form of his or her dismissal.

16.1.1.B Israel

During the routine course of business, lawsuits have been filed against the companies that comprise the HOT group and various legal proceedings are outstanding against it.

In the opinion of the management of the Group, based, inter alia, on legal opinions in respect of the chances of the lawsuits, a fair provision of €11.8 million (NIS 55 million) has been recorded in the condensed consolidated financial statements as of September 30, 2014, where provisions are required, in order to cover the exposure as the result of the lawsuits.

In the opinion of the management of the Group, the amount of the additional exposure, in an amount of approximately €537.6 million (NIS 2.5 billion) (over and above the provisions that have been recorded in

Note 16—Commitments and contingent liabilities (Continued)

these Condensed Consolidated financial statements), as of September 30, 2014, as a result of lawsuits that have been filed against companies in the HOT group on various matters, is as follows:

- An amount of approximately €258.0 million (NIS 1.2 billion) to cover claims which HOT's management and legal team estimate to have less than a 50% chance of succeeding.
- An amount of approximately €172.0 million (NIS 0.8 billion) towards claims for which no assessment is possible, or towards those class action lawsuits that were presented very close to the date of the financial statements.
- An amount of approximately €150.5 million (NIS 0.7 billion) to cover claims which HOT's management and legal team estimate to have more than a 50% chance of succeeding.

The following is an abbreviated summary of the Hot group's contingent liabilities effective as of September 30, 2014, in accordance with groupings having similar characteristics:

The nature of the lawsuit	The amount of the additional exposure in excess of the provision recorded as of September 30, 2014	The amount of the lawsuits that cannot be assessed and which were presented close to the date of the financial statements (primarily applications for approval as class actions)	Provisions recorded in the financial statements as of September 30, 2014	Provisions recorded in the financial statements as of December 31, 2013	Updating of the expense (income), net in the reporting period
			(€ millions)		
Customers	522.5	162.4	2.6	4.3	(1.7)
Copyrights	1.1	0.6	3.7	6.5	(0.6)
Suppliers	14.2	—	0.9	0.4	0.4
Employees	1.3	—	0.2	0.2	0.2
The merger transaction	47.5	—	4.5	—	4.5
Total	586.6	163.0	11.8	11.4	2.8

16.1.1.C Dominican Republic

As of September 30, 2014, Altice Hispaniola had recorded provisions to account for litigations with commercial customers and with employees. As assessed by the legal department, the total amount of claims amounted to €63.0 million (DOP 3.7 billion) and the amount provided for, which is determined based on the probability of cash outflows, was assessed at €4.3 million (DOP 255.6 million), of which €4.0 million (DOP 240.6 million) related to commercial litigation and €0.3 million (DOP 14.9 million) related to employee litigation.

16.1.1.D Portugal

As of September 30, 2014, the Oni Group and Cabovisao had bank guarantees given to third parties in order to secure the fulfilment of their obligations under some of their agreements for, respectively, a total amount of €5.3 million and €8.9 million.

As of September 30, 2014, Cabovisao recorded provisions for approximately €5.2 million for fiscal contingencies for withholding taxes. In addition, during first quarter 2014, the Instituto do Cinema e do Audiovisual (''ICA'') rendered an unfavourable decision regarding the Audiovisual and Cinema taxation for which an amount of €0.9 million was already recorded in the consolidated financial statements as at December 31, 2013.

Note 16—Commitments and contingent liabilities (Continued)

16.1.2 Commitments and contractual liabilities

16.1.2.A France

Operating leases

	< 1 year	Maturity 1 - 5 years	> 5 years	Total September 30, 2014
Operating leases	9.9	31.4	9.0	**50.4**
Total	**9.9**	**31.4**	**9.0**	**50.4**

NG also has property and vehicle lease commitments under operating leases. The lease term for property under operating leases is generally 3, 6 or 9 years, a standard lease term for commercial real estate in France. The lease term for vehicles under operating lease is 3 years.

As part of the networks business, leases involving equipment and network IRUs (rights of use of the local loop, backbone) or other rental contracts (rights of way) were not considered material.

In connection with its entertainment business activities, the Group has also entered into operating leases and agreements to purchase TV programs.

The maturities of operating leases are provided above.

Finance leases

In addition to the operating leases, the NG also has various finance lease contracts, mainly related to the leasing of buildings, office material and other IT equipment. For buildings, the duration of the lease runs from 20-30 years and for office and IT equipment, it is for 4 years on average.

A summary of finance leases at NG is provided below:

(In € million)	Minimum lease payments September 30, 2014	Present value of minimum lease payments September 30, 2014
1 year or less	25.5	24.6
Between 1 and 5 years	20.7	18.9
More than 5 years	1.1	0.9
	47.3	**44.4**
Future finance costs	(2.9)	—
Present value of minimum lease payments	44.4	44.4
Finance leasing-Current		24.6
Finance leasing-Non current		19.9

The annual effective interest rate was 3.97% as of September 30, 2014.

16.1.2.B Dominican Republic

Altice Hispaniola also has operating leases mainly for the rental of mobile tower sites and office property.

	< 1 year	Maturity 1 - 5 years	> 5 years	Total September 30, 2014
Operating leases	3.5	40.9	5.4	**49.8**
Total	**3.5**	**40.9**	**5.4**	**49.8**

Note 16—Commitments and contingent liabilities (Continued)

16.2 Other subsidiaries of the group

Management has not identified any significant changes to the commitments of the other subsidiaries of the group as compared to the period ended December 31, 2013.

Note 17—Going concern

As of September 30, 2014, the Group had a net current asset position of €12,800.1 million (mainly due to restricted cash of €13,880.4 million related to the future acquisition of SFR). During the nine month period ended September 30, 2014, the Group recorded a net loss of €344.1 million (€81.0 million as of September 30, 2013), positive cash flow from operations of €962.3 million (€288.8 million for the nine months ended September 30, 2013), and negative working capital of €577.4 million. The positive cash flow from operations balance was mainly due to strong earnings growth and EBITDA generation. The net loss recorded in the nine month period ended September 30, 2014 resulted mainly from the interests on the debt issued to finance the SFR acquisition, the cost relating to the refinancing of NG debt and impact of the derivatives entered into by the Group. Net income for the three and nine month period ended September 30, 2014 was strongly impacted by the recognition of interest expense for the SFR debt, for which no corresponding income was recognized (as SFR has not yet been consolidated yet). Management expects to close the acquisition before the end of year 2014 and hence improve its net income position.

The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short DSOs (days of sales outstanding). Suppliers are generally paid from the beginning of the following month and after, thus generating a negative working capital, as evidenced by the difference in the level of receivables and payables (€647.0 million receivables compared to €1,288.8 million payable as of September 30, 2014). Payables due the following month are covered by revenues and operating cash (if needed). As of September 30, 2014, the Group had few short term current liabilities with amortization of debts limited to the local bonds in Israel (€13.4 million per half year) and on the Altice Financing term loan facility (€1.8 million per quarter), as well as an amortization of €15.6 million per quarter on new loans at NG.

As of September 30, 2014, the Company had a positive equity position of €848.8 million, of which €863.2 million attributable to the equity holders. This positive position results from the initial public offering of shares of Altice S.A. on Euronext Amsterdam, as well as the conversion and contribution of various vendor debts and minority interests stakes into the equity of Altice S.A. The Group also issued new shares in a private placement for a total amount of €911.1 million in June 2014, thus demonstrating the Group's ability to raise equity financing if required to fund its activities.

In view of the current financial situation of the Company, Management is confident that the Group will continue to act as a going concern for the next twelve months, given its earnings and cash flow generating ability.

In addition, the Group had cash reserves of €540.7 million as of September 30, 2014, considered sufficient to cover its operational needs. The Group also had access to revolving credit facilities (''RCF'') of up to €1,093.5 million (including up to €750 million at NG, of which €450 million will be available upon closing of the SFR acquisition).

As at September 30, 2014, the Group has a total of €593 million of undrawn credit facilities and NG has drawn €50.0 million on its RCF.

Note 18—Significant events affecting the scope of consolidation subsequent to September 30, 2014

Acquisition of SFR

On April 5, 2014, the Board of Vivendi S.A. (''Vivendi'') announced that it had unanimously accepted an offer from Altice, via NG, to acquire Société Française du Radiotéléphone (''SFR''), the second largest mobile operator in France.

Note 18—Significant events affecting the scope of consolidation subsequent to September 30, 2014 (Continued)

On June 23, 2014, Vivendi, Altice and NG signed the final sale and purchase agreement for the purchase of SFR by NG, after successfully concluding talks with different works councils involved.

As per the terms of the agreement, Vivendi will receive €13,500 million in cash (not taking into account certain contractual adjustments), along with a 20% share in the new NG/SFR group, with the possibility to sell its stake to Altice after a lock-up period of one year. Altice has call options at market value on Vivendi's stake in several tranches (7%, 7%, 6%) over a period comprised between the 19th and the 43rd month following the acquisition of SFR. Vivendi is also eligible to receive an earn-out of up to €750 million, depending on the financial performance of the new NG/SFR group.

The closing of this acquisition is expected to occur before the end of the year 2014, following the approval of the French anti-trust authority, which was obtained on October 27, 2014, after completion of a phase-2 investigation. See note 19 for more details.

Acquisition of Virgin Mobile

On May 16, 2014, NG announced that it had entered into exclusive talks with Omer Telecom to acquire Virgin Mobile, the largest MVNO operator in France.

NG's offer was based on an enterprise value of €325 million, of which €200 million will be financed by Vivendi. On June 27, 2014, all parties announced that a share and purchase agreement had been signed between NG and the owners of Omer Telecom to acquire 100% of the company. This acquisition is also subject to certain conditions, notably obtaining approval from French anti-trust authorities.

Note 19—Subsequent events

Additional investment in Wananchi

On October 2, 2014, Altice Africa S.à r.l., a 100% subsidiary of the Company, invested an additional $ 10.8 million into Wananchi, a cable company with operations in Kenya and other east African countries. This investment was part of a $ 130 million subordinated notes being issued by Wananchi and open to subscription by current and new shareholders. Altice Africa has pledged to fund up to $ 40 million in three tranches, with the next tranche of $ 20 million due within six months from the date of the payment of the first tranche (April 2, 2015). The notes bear cash interest at a rate of 11% or PIK interest at a rate of 13%. Before this additional investment, Altice Africa already held a 17.4% equity interest in Wananchi (valued at €31.9 million) and convertible notes for a total of €2.9 million. The Group also obtained a new board seat as part of the funding.

The new notes are also convertible at a strike price of $ 1.15/ note issued. If fully converted, the new tranche, when fully funded, will give Altice Africa an approximate 21% shareholding in Wananchi.

Subscription to NG rights issue

On October 29, 2014, NG announced the launch of the previously planned rights offering for a total amount of €4,732 million, which will partly be used to finance the SFR acquisition, planned to close in November 2014. Altice France has subscribed to this offering in proportion to its holding in NG (74.6%), for a total amount of €3,530 million, and received an additional 198,099,585 shares, priced at a subscription price of €17.82 share (which represents a 35.1% discount to the closing price of NG shares on October 27, 2014). The rights offering closed on November 12, 2014.

This additional share purchase will be financed by Altice France through a capital increase which will be fully subscribed by the Company, using a part of the proceeds from bonds issued earlier in the year (see note 8.1.1).

Note 19—Subsequent events (Continued)

Litigation concerning the DSP 92

During its assembly dated October 17, 2014, the department of Hauts-de-Seine decided to terminate the Service Concession agreement signed with Sequalum for ''fault and full responsibility of the delegatee''. The department of Hauts-de-Seine also asked Sequalum to pay penalties for an approximate total amount of €45 million, arguing that there were delays in the construction of the network, which is contested by Sequalum. (See note 16.1.1.A.2.H for more details).

Approval of the NG/SFR deal by the French anti-trust authority (along with remedies)

NG's contemplated acquisition of exclusive control of SFR was approved by the French Competition Authority on October 27, 2014 (the ''Transaction''). This authorization is subject to certain commitments that have been accepted by the parties to the transaction (the ''Commitments''). These Commitments, which are summarized below, are for a period of five years, which may be renewed once. Following the notification of the decision, a trustee in charge of monitoring compliance and the respect and implementation of the Commitments will be appointed. In the event of a significant change in the market environment, the Group may request the termination of some or all of these Commitments.

Commitment to sell Outremer Telecom's (''OMT'') mobile telephony business and owned stores in Reunion Island and Mayotte

The Group has undertaken to sell OMT's mobile telephony business in Reunion Island and Mayotte and OMT's owned stores. In particular, the sale will include the 2G and 3G licenses and frequencies in Reunion Island and Mayotte, the customer base and the relevant personnel.

Commitments Regarding Access to the NG's Cable Network

NG has undertaken to provide access to plugs on its cable network with a peak download speed of at least 30 MBps.

- Access offer No. 1: this offer will target MVNO operators not deploying FTTH networks and that have no direct or indirect shareholder links with the Vivendi group.

  NG will propose a very-high-speed white label wholesale offer on its cable network. A reference offer will be published within 3 months.

  This wholesale offer will include access to the cable network, telephony, Internet and related services, television services and the provision of the box for the end-user.

- Access offer No. 2: this offer will target MVNOs and electronic communications operators deploying FTTH networks and that have no direct or indirect shareholder links with the Vivendi group.

  NG will propose a very-high-speed wholesale offer on its cable network.

  This wholesale offer will include access to the cable network, collection and transportation of the operator's flows and distribution of television services.

  In both cases, NG may propose additional services to customers as part of the two offers.

Commitments Regarding the Sale of Completel's DSL Network

NG has undertaken to sell the essential components of Completel's DSL network. The scope of coverage corresponds to approximately 745 subscriber access nodes of Orange.

Commitments Regarding the Relationship between NG and Vivendi

NG and Vivendi have made several commitments designed to ensure that Vivendi does not have access to certain strategic information of NG as a result of its representation on the board of directors and other committees of NG.

Note 19—Subsequent events (Continued)

NG has undertaken not to provide to Vivendi any strategic commercial information regarding the markets on which both groups are competitors or may become competitors for the duration of the commitments.

This confidentiality obligation applies in particular to (i) pay television intermediary markets (transfers of channels by producers to telecommunications operators for the creation of bundles of channels), (ii) downstream markets for the distribution of pay television services and (iii) ultramarine telecommunications markets. This obligation will be monitored by an agreed third party who will participate in the meetings of the board of directors and audit committee of NG to ensure that no commercially sensitive information is communicated.

Disposal of assets (Completel and OMT)

As mentioned in the note above, following the French Competition Authority's conditional approval to the purchase of SFR by NG and the Company, NG and the Company have agreed to dispose Completel's copper network and OMT's mobile business in the Reunion Islands and Mayotte. Completel's and the OMT's Indian Ocean assets are included respectively in the reporting segments France and French Overseas Territories (FOT) in note 9—Segment analysis.

As these assets were not considered as assets held for sale as per the requirements of IFRS 5, Non-current assets held for sale and discontinued operations, as at September 30, 2014, no significant accounting impact has been recorded in the condensed consolidated financial statements of the Group for the period ended September 30, 2014.

Buyout of shares held in Fiberman

In October 2014, the Company, via its direct subsidiary, reached an agreement with the shareholders of Fiberman S.à r.l. and Fiberman S.C.A (together, ''Fiberman''), to purchase all their shares in these two companies. Fiberman S.à r.l., owned by two ex-minority shareholders of NG and certain managers of NG, in turn held 0.92% of the share capital of NG. Prior to the transaction, Altice France held 12.8% of Fiberman (recorded as an AFS asset, see note 8.4). Following the transaction, Altice France holds 100% of the share capital of Fiberman. The total consideration paid to all shareholders of Fiberman amounted to €33.5 million. Post transaction, as Altice France became the sole shareholder, an additional €43.4 million was committed in order to finance Fiberman's share of the NG capital increase launched on October 29, 2014.

Following this transaction and the closing of the SFR deal, Altice France will hold 60.3% of the share capital of the NG-SFR ensemble, as compared to 59.7% that was previously disclosed.

Offer for Portugal Telecom

On November 3, 2014, the Company announced that it had made a fully funded offer to Oi Telecom, to acquire the assets of its Portuguese subsidiary, Portugal Telecom, for an offer price of €7.0 billion, including two earnout clauses of €400 million each based on the achievement of certain operational targets. If this offer is accepted, the transaction net of financial debt and other purchase price adjustments would be financed by new debt and existing cash from Altice.

Acquisition of non-controlling interests in ABT

On November 13, 2014 a manager of Outremer Telecom (''OMT'') contributed a 0.13% stake held directly in ABT for a base value €6.4 million against 225.132 new shares issued by Altice S.A..

Note 19—Approval of the condensed consolidated financial statements

The condensed consolidated financial statements were approved by the Board of Directors and authorized for issue on November 14, 2014.

REVIEW REPORT OF THE REVISEUR D'ENTREPRISES AGREE ON CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Altice S.A. as of September 30, 2014, the related condensed consolidated statements of income and other comprehensive income for the three month and nine month periods then ended, the related condensed consolidated statements of changes in equity and cash flows for the nine month period then ended and the other explanatory notes (collectively, the ''Interim Financial Statements''). The Board of Directors is responsible for the preparation and fair presentation of the Interim Financial Statements in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted in the European Union. Our responsibility is to express a conclusion on these Interim Financial Statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Financial Statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted in the European Union.

For Deloitte Audit, *Cabinet de révision agréé*

Grand-Duchy of Luxembourg

Report on the consolidated financial statements.

Following our appointment by the Shareholders, we have audited the accompanying consolidated financial statements of Altice S.A. (the successor entity of Altice Six S.A. and Altice VII S.à r.l.) which comprise the consolidated statement of financial position as at December 31, 2013, and the consolidated statements of income, other comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Responsibility of the Board of Managers for the consolidated financial statements

The Board of Managers is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as adopted in the European Union, and for such internal control as the Board of Managers determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgement including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Managers, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of Altice S.A. (the successor entity of Altice Six S.A. and Altice VII S.à r.l.) as of December 31, 2013, and of its consolidated financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted in the European Union.

Report on other legal and regulatory requirements.

The consolidated management report, which is the responsibility of the Board of Directors, is consistent with the consolidated financial statements and includes the information required by the law of

December 19, 2002 on the commercial and companies register and on the accounting records and annual accounts of undertakings, as amended with respect to the corporate governance statement.

For Deloitte Audit, *Cabinet de révision agréé*

John Psaila, *Réviseur d'entreprises agréé*

1—Notes to the consolidated financial statements

1.1 Presentation of the Two Groups forming Altice Group

Altice S.A.

Altice S.A. (the ''Company'') is a public limited liability company (*Société Anonyme*) incorporated in the Grand Duchy of Luxembourg whose head office is in Luxemburg and has been formed on January 3, 2014. Upon admission of the Company's shares on Euronext Amsterdam on January 31, 2014, the Company received the contribution of two entities incorporated in the Grand Duchy of Luxembourg: Altice Six S.A. and Altice VII S.à r.l.. Altice Six S.A. is hereafter referred to as ''Altice Six'' and Altice VII S.à r.l. and its subsidiaries are hereafter referred to as ''Altice VII'' or ''Altice VII Group''. The Company is hence the successor entity of Altice Six and Altice VII (collectively the ''Predecessor Entities'').

Altice Six

As at December 31, 2013, Altice Six holds shares in Numericable Group, a French group listed on Euronext Paris. Numericable Group is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. They also provide French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

Additionally to the Business To Consumer (''B2C'') described above and through its main operational entity, Completel S.A.S., Numericable Group operates the largest alternative fiber-to-the-office (''FTTO''), network in France, constituting the third alternative Digital Subscriber Line (''DSL'') network in France. Completel SAS provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

Altice VII

Altice VII offers a variety of services over its cable and mobile infrastructure, including, but not limited to, pay television, broadband Internet access, fixed-line telephony and mobile telephony to residential customers, and, to a lesser extent, corporate customers, depending on the country. Available cable-based service offerings depend on the bandwidth capacity of its cable networks and whether they have been upgraded for two-way communications. Where possible, Altice VII Group intends to deploy the same technologies and equipment across its footprints to generate economies of scale and common knowledge. In addition, the Altice VII group companies aim at sharing skills and best practices across the various operations of Altice VII Group.

Television service offerings include basic and premium programming, and, in most markets, incremental product and service offerings such as enhanced pay-per-view programming, including video-on-demand (''VoD'') and near-video-on-demand (''NVoD''), digital video recorders (''DVR''), high definition (''HD'') television services and, in certain areas, exclusive content, purchased or produced. The Altice VII Group tailors its basic and premium channel line-up to each country of operation according to culture, demographics, programming preferences and local regulation. The Altice VII Group also offers broadband Internet access services and fixed-line telephony in all its footprints. It also owns and operates mobile infrastructures in certain geographies (French Overseas Territories) and offers mobile services through an MVNO (Mobile Virtual Network Operator) arrangement in Belgium.

1.2 Description of the context

Altice Six and Altice VII (collectively the ''**Two Groups**'', the ''**Reporting Entity**'' or the ''**Consolidated Group**'') are as at December, 2013, entities under common control and considered together to be the reporting entity for the purposes of these consolidated financial statements. The Two Groups are ultimately controlled by Patrick Drahi. The purpose of the consolidated financial statements is to present a fair depiction of the financial condition, and the assets and liabilities of the Two Groups, using historical

1—Notes to the consolidated financial statements (Continued)

bases in the assets, liabilities and results of operations and cash flows for each period presented in the consolidated financial statements.

Accordingly, the consolidated financial statements reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Altice Six and Altice VII, which are separate legal groups as at December 31, 2013.

1.3 Statement of compliance

The Consolidated financial statements of Altice Group include a consolidated statement of financial position as of December 31, 2013, a consolidated statement of income, a consolidated statement of other comprehensive income, a consolidated statement of cash flows and a Consolidated statement of changes in equity for the year ended December 31, 2013 and the underlying Notes. The Consolidated financial statements have been prepared in compliance with International Financial Reporting Standards (**"IFRS"**) as published by the International Accounting Standards Board (''**IASB**'') and as adopted by the European Union.

The Consolidated Financial Statements were approved by the Board of Directors on March 18, 2014.

1.4 Basis of presentation of the consolidated financial statements

The consolidated financial statements were prepared using the accounting records that were used to prepare the financial statements of the Altice Six and Altice VII sub-groups for the year ended December 31, 2013.

All intra-group balances and transactions have been eliminated in preparing the consolidated financial statements, including the transactions between Altice Six and Altice VII and their respective subsidiaries.

As described above, the Combination of the Two Groups is considered a combination of entities under common control of Patrick Drahi and the Consolidated Financial Statements reflects the combination of Altice Six and Altice VII using the following methods and principles:

- In accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* paragraph 10, judgment has been applied in developing and applying an accounting policy that results in information that is relevant and reflect the economic substance of the transaction. As a result, the acquisition method, as defined in IFRS 3 *Business Combinations (Revised 2008)* (''**IFRS 3**''), has not been applied to reflect the combination of the Two Groups. In the absence of specific guidance under IFRS for transactions between entities under common control, we considered and applied standards on business combination and transactions between entities under common control issued by the regulators in the United States (Accounting Standards Codification Topic 810-10-45-10 and Topic 810-10-55-1B *Consolidation* and SEC Regulation S-X Article 3A—*Consolidated and Combined Financial Statements*) and in the United Kingdom (FRS 6 *Acquisitions and mergers*) to prepare the Consolidated Financial Statements.
- Likewise, the Consolidated Financial Statements were prepared by aggregating the separate financial statements of Altice Six and Altice VII at their historical book value:
  - Assets, liabilities, income and expenses of the Two Groups have been extracted from the accounting records of the respective Altice Six and Altice VII sub-groups and fully aggregated at their historical book value without being revalued;
  - The invested equity has been determined by aggregating the consolidated equity of the subgroups Altice Six and Altice VII;
  - No goodwill has been recognized and the net assets and liabilities have been recognized at their historical book value; however, historical goodwill balances of the Two Groups existing before the combination have been maintained at their book value in the Consolidated Financial Statements;

1—Notes to the consolidated financial statements (Continued)

The effects of transactions between the Two Groups on assets, liabilities, revenue, and expenses for periods presented have been eliminated except for the operations that relate to associates which are not eliminated.

1.2. Application of new and revised International Financial Reporting Standards (IFRSs)

1.2.1 New and revised IFRSs affecting amounts reported and/or disclosures in the financial statements:

In the current year, the Consolidated Group has applied a number of new and revised IFRSs issued by the International Accounting Standards Board (IASB) and endorsed by the European Union.

New and revised Standards on consolidation, joint arrangements, associates and disclosures

In May 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued comprising IFRS 10 Consolidated Financial Statements, IFRS 11 Joint Arrangements, IFRS 12 Disclosure of Interests in Other Entities, IAS 27 (as revised in 2011) Separate Financial Statements and IAS 28 (as revised in 2011) Investments in Associates and Joint Ventures. Subsequent to the issue of these standards, amendments to IFRS 10, IFRS 11 and IFRS 12 were issued to clarify certain transitional guidance on the first-time application of the standards.

In the current year, the Consolidated Group has early applied for the first time IFRS 10, IFRS 11, IFRS 12 and IAS 28 (as revised in 2011) together with the amendments to IFRS 10, IFRS 11 and IFRS 12 regarding the transitional guidance. IAS 27 (as revised in 2011) is not applicable to the Consolidated Group as it deals only with separate financial statements.

The impact of the application of these standards is set out below.

Impact of the application of IFRS 10

IFRS 10 replaces the parts of IAS 27 Consolidated and Separate Financial Statements that deal with consolidated financial statements and SIC-12 Consolidation—Special Purpose Entities. IFRS 10 changes the definition of control such that an investor has control over an investee when a) it has power over the investee, b) it is exposed, or has rights, to variable returns from its involvement with the investee and c) has the ability to use its power to affect its returns. All three of these criteria must be met for an investor to have control over an investee. Previously, control was defined as the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Additional guidance has been included in IFRS 10 to explain when an investor has control over an investee.

The Directors of the Company made an assessment as at the date of initial application of IFRS 10 (i.e. 1 January 2013) and has not identified any impact in the scope of consolidation linked to application of IFRS 10 on the existing companies that are in the scope of consolidation as at December 31, 2013.

Impact of the application of IFRS 11

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC 13 Jointly Controlled Entities—Non-Monetary Contributions by Venturers.

IFRS 11 deals with how a joint arrangement should be classified where two or more parties have joint control. There are two types of joint arrangements under IFRS 11: joint operations and joint ventures.

1—Notes to the consolidated financial statements (Continued)

These two types of joint arrangements are distinguished by parties' rights and obligations under the arrangements.

Types of Joint Arrangement	Features	Accounting under IFRS 11
Joint venture	Joint ventures have rights to the net assets of the arrangement.	Equity method of accounting—Proportionate consolidation is no longer allowed
Joint operation	Joint operators have rights to the assets and obligations for the liabilities of the arrangement.	Each joint operator recognizes its assets, liabilities, revenue and expenses relating to its interest in joint operation in accordance with the IFRSs applicable to those particular assets, liabilities, revenues and expenses

Under IFRS 11, the existence of a separate vehicle is no longer a sufficient condition for a joint arrangement to be classified as a joint venture whereas, under IAS 31, the establishment of a separate legal vehicle was the key factor in determining whether a joint arrangement should be classified as a jointly controlled entity.

Application of IFRS 11 has no impact on the consolidated financial statements of the Consolidated Group for the year ended December 31, 2013.

Impact of the application of IFRS 12

IFRS 12 is a new disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the application of IFRS 12 has resulted in more extensive disclosures in the consolidated financial statements.

IFRS 13 Fair Value Measurement

The Consolidated Group has applied IFRS 13 for the first time in the current year. IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The scope of IFRS 13 is broad; the fair value measurement requirements of IFRS 13 apply to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except for share-based payment transactions that are within the scope of IFRS 2 Share-based Payment, leasing transactions that are within the scope of IAS 17 Leases, and measurements that have some similarities to fair value but are not fair value (e.g. net realisable value for the purposes of measuring inventories or value in use for impairment assessment purposes).

IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions. Fair value under IFRS 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique. Also, IFRS 13 includes extensive disclosure requirements.

IFRS 13 requires prospective application from 1 January 2013. In addition, specific transitional provisions were given to entities such that they need not apply the disclosure requirements set out in the Standard in comparative information provided for periods before the initial application of the Standard. In accordance with these transitional provisions, the Consolidated Group has not made any new disclosures required by IFRS 13 for the 2012 comparative period. Other than the additional disclosures, the application of IFRS 13 has not had any material impact on the amounts recognised in the consolidated financial statements.

1—Notes to the consolidated financial statements (Continued)

Amendment to IFRS 7 disclosure—Offsetting Financial Assets and Financial Liabilities

The Consolidated Group has applied the amendments to IFRS 7 disclosures—Offsetting financial assets and liabilities for the first time in the current period, The amendments to IFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral pricing agreements) for financial instruments under an enforceable master netting agreement or similar arrangement.

The amendments have been applied retrospectively. As the Consolidated Group does not have an offsetting arrangement in place, the application of the amendments has had no material impact on the disclosures or on the amounts recognised in the consolidated financial statements.

Annual improvements to IFRSs 2009-2011 cycle issued in May 2012

The Annual Improvements to IFRSs 2009-2011Cycle include a number of amendments to various IFRSs. The amendments are effective for annual periods beginning on or after January 1, 2013. Amendments to IFRS include:

Amendments to IAS 16 Property Plant and Equipment; and

Amendments to IAS 32 Financial Instruments: Presentation.

Amendments to IAS 16

The amendments to IAS 16 clarify that spare parts, stand-by equipment and servicing equipment should be classified as property, plant and equipment when they meet the definition of the property, plant and equipment in IAS 16 and as inventory otherwise. This amendment does not have a significant impact on the Consolidated Group's consolidated financial statements.

Amendments to IAS 32

The amendments to IAS 32 clarify that income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction should be accounted for in accordance with IAS 12 income taxes. This amendment does not have a significant impact on the Consolidated Group's consolidated financial statements.

Standards issued but not yet effective

In its financial statements, the Consolidated Group has not anticipated the following standards and interpretations, for which application is not mandatory for periods opened from January 1, 2013. Their impact on the Consolidated Group's financial statements is estimated not to be significant and/or not applicable.

IAS 36 Impairment of Assets: Recoverable Amounts Disclosures for Non-Financial Assets

This standard's objective is to amend the disclosure requirements in IAS 36 Impairment of Assets with regard to the measurement of the recoverable amount of impaired assets that were made as a consequence of issuing IFRS 13 Fair Value Measurement in May 2011.

The Consolidated Group anticipates additional disclosures in relation to the application of this standard.

IAS 39 *Financial Instruments: Recognition and Measurement* and IFRS 9 *Financial Instruments: Novation of derivatives and continuation of hedge accounting*

This standard's objective is to provide an exception to the requirement for the discontinuation of hedge accounting in IAS 39 and IFRS 9 in circumstances when a hedging instrument is required to be novated to a central counterparty as a result of laws or regulations.

The Consolidated Group does not apply hedge accounting and therefore does not expect any impact from the application of this Standard.

2—Significant accounting policies

2.1 Significant accounting policies

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union.

2.2 Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Consolidated Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

2.3 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Reporting Entity and entities (including structured entities) controlled by the Reporting Entity and its subsidiaries, except as disclosed in note 1.6. Control is achieved when the Reporting Entity:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;

2—Significant accounting policies (Continued)

- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statements of income and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Consolidated Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Consolidated Group are eliminated in full on consolidation.

All companies in which the Consolidated Group has a controlling interest are fully consolidated. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Consolidated Group's equity therein.

2.4 Functional currency

The consolidated financial statements are presented in millions of euros. Euro is the functional of Altice VII and the presentation currency of the Consolidated Group.

The functional currency, which is the currency that best reflects the economic environment in which the Consolidated Group operates and conducts its transactions, is separately determined for each Consolidated Group entity, including an associate accounted for using the equity method, and is used to measure its financial position and operating results.

2.5 Foreign currency translation

The presentation currency of the Consolidated Group is euro. In individual companies, transactions in foreign currencies are recorded at the exchange rate at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at year-end rates. Any resulting exchange differences are accounted for in the income statement. On consolidation, assets and liabilities of the Consolidated Group's entities reported in their functional currencies are translated into euro, the Consolidated Group's presentation currency, using the year-end exchange rates. Income and expense items are translated into euro at the annual weighted average exchange rate or at the rate of the date the transaction occurred for significant items.

Differences arising from the translation of opening net assets of the Consolidated Group entities, together with differences arising from the restatement of the net results for the year of the Consolidated Group entities, are recognized in other comprehensive income.

2—Significant accounting policies (Continued)

2.6 Subsidiaries and associates

2.6.1 Subsidiaries

All companies in which the Consolidated Group has a controlling interest are fully consolidated. Control exists when the Consolidated Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Consolidated Group's equity therein.

2.6.2 Associates

Investments, over which the Consolidated Group exercises significant influence, but not control, are accounted for under the equity method. Such investees are referred to as ''associates'' throughout these consolidated financial statements.

Significant influence is presumed to exist when the Consolidated Group holds at least 20% of the voting power in the associates. Associates are initially recognized at cost at acquisition date. The Consolidated Financial Statements include the Consolidated Group's share of income and expenses, from the date significant influence commences until the date that significant influence ceases.

As per the provisions of IAS 28 *Investment in associates* the interest income and expenses recorded in the consolidated financial statements of the Consolidated Group on loans with associates have not been eliminated in the consolidated statements of income and therefore are still recorded in the consolidated financial statements.

2.7 Operating profit before depreciation, amortization and non-recurring costs

The Consolidated Group has included the subtotal ''Operating profit before depreciation, amortization and no-recurring costs'' on the face of the consolidated statements of income. The Consolidated Group believes that this subtotal is useful to users of the Consolidated Group's financial statements as it provides them with a measure of the operating results which excludes non-cash elements such as depreciation and amortization as well as non-recurring transactions and management fees, enhancing the predictive value of the Consolidated Group's financial statements and providing information regarding the results of the Consolidated Group's ongoing trading activities and cash-flow generation that allows investors to better identify trends in the Consolidated Group's financial performance.

This non-IFRS measure is used by the Consolidated Group internally to manage and assess the results of its operations, make decisions with respect to investments and allocation of resources, and assess the performance of management personnel.

The Consolidated Group's subtotal within operating income may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the consolidated financial statements in accordance with IFRS 1.

2.8 Revenue recognition

Revenue from the Consolidated Group's activities is mainly composed of television, broadband Internet, fixed and mobile telephony subscription and installations fees invoiced to residential and business clients.

2—Significant accounting policies (Continued)

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Consolidated Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales within the group.

Revenues on bundle packages sold by the Consolidated Group are split into and recognised under each individual service sold in the bundle. For example, tripe play package revenues are booked under 'triple play television', 'triple play data' and 'triple play telephony' on a straight-line basis over their subscription period and revenues from telephone calls are recognized in revenue when the service is rendered.

Revenue is recognized as follows, in accordance with IAS 18 *Revenue*:

- Revenues from subscriptions for basic cable services, digital television pay, Internet and telephony (fixed and mobile) are recognized in revenue on a straight-line basis over the subscription period; revenues from telephone calls are recognized in revenue when the service is rendered;
- When a promotion not related to a customer's past consumption and purchases (such as subscription's rate discount, service free period) is offered to customer in relation to a subscription, the Consolidated Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract;
- Installation and set-up fees (including connection) for residential customers are accounted for as revenues when the service is rendered, if consideration received is lower than the sales direct costs to acquire the contractual relationship. Service access fees for business clients, when they are only allowed access to the services that are sold associated to an equipment or a service, are deferred and the corresponding revenue is recognized along the statistical client lifetime duration and generally spread over the contractual engagement period; and
- The revenue related to transmission capacity on terrestrial cables under indefeasible rights of use: Indefeasible Rights of Use (''IRU'') arrangements are recognized on a straight-line basis over the life of the contract.

Revenues from mobile services resulting from the sale of mobile services:

- Revenues from the sale of equipment includes the sale of mobile devices and ancillary equipment for those devices. The revenues from the sales are recognized where all of the significant risk and yields that are derived from the ownership of the equipment are transferred to the purchaser and the seller does not retain continuing managerial involvement. Generally, the time of the delivery is the time at which ownership is transferred. The charge in respect of terminal equipment is made separately from the monthly charge for the consumption of services, in accordance with the amounts that is denoted in a separate invoice, which reflects the fair value of the terminal equipment, which is not subsidized by the Consolidated Group. In the light of the aforesaid, the Consolidated Group recognizes revenues in respect of the sale of devices on the transfer of the ownership of the devices to its customers. The revenues are recognized on the first day in accordance with its fair value as of that time and the difference between the fair value and the denoted amount of the consideration is recognized as financing income over the course of the period of the installment payments.

Income from credit arrangements

- Revenues deriving from long-term credit arrangements (such as the sale of devices in installments) are recorded on the basis of the present value of the future cash flows (against long-term receivables) and are discounted in accordance with interest rates. The difference between the original amount of the credit and the present value, as aforesaid, is spread over the length of the credit period and recorded as interest income over the length of the credit period.

2—Significant accounting policies (Continued)

2.9 Finance costs

Finance costs primarily comprise:

- Interest charges and other expenses paid for financing operations recognized at amortized costs;
- Changes in the fair value of interest rate derivative instruments that do not qualify as hedges for accounting purposes according to ''IAS 39'';
- Interest income relating to cash and cash equivalents; and
- Gains/losses on extinguishment of debt.

2.10 Income taxes

Taxes on income in the income statement include current taxes and deferred taxes. The tax expenses or income in respect of current taxes or deferred taxes are recognized in profit or loss unless they relate to items that are recorded directly in equity, in these cases the tax effect is reflected under the relevant equity item.

2.10.1 Current taxes

The current tax liability is measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of reporting period as well as adjustments required in connection with the tax liability in respect of previous years.

2.10.2 Deferred taxes

Differences existing at closing between the tax base value of assets and liabilities and their carrying value in the Consolidated Statement of Financial Position give rise to temporary differences. Pursuant to the liability method, these temporary differences result in the accounting of:

- Deferred tax assets, when the tax base value is greater than the carrying value (expected future tax saving),
- Deferred tax liabilities, when the tax base value is lower than the carrying value (expected future tax expense).

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the asset will be realized or the liability settled, based on tax rates (and tax regulations) enacted or substantially enacted by the closing date. They are reviewed at the end of each year, in line with any changes in applicable tax rates.

Deferred tax assets are recognized for all deductible temporary differences, tax loss carry-forwards and unused tax credits, insofar as it is probable that a taxable profit will be available, or when a current tax liability exists to make use of those deductible temporary differences, tax loss carry-forwards and unused tax credits, except where the deferred tax asset associated with the deductible temporary difference is generated by initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For deductible temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax assets are recorded to the extent that it is probable that the temporary difference will reverse in the foreseeable future and that a taxable profit will be available against which the temporary difference can be utilized.

The carrying value of deferred tax assets is reviewed at each closing date, and revalued or reduced to the extent that it is more or less probable that a taxable profit will be available to allow the deferred tax asset to be utilized. When assessing the probability of a taxable profit being available, account is taken, primarily, of prior years' results, forecasted future results, non-recurring items unlikely to occur in the future and the tax strategy. As such, the assessment of the group's ability to utilize tax losses carried

2—Significant accounting policies (Continued)

forward is to a large extent judgment-based. If the future taxable results of the group proved to differ significantly from those expected, the group would be required to increase or decrease the carrying value of deferred tax assets with a potentially material impact on the Consolidated Statement of Financial Position and Consolidated Income Statement of the Consolidated Group.

Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability results from goodwill or initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For taxable temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax liabilities are recorded except to the extent that both of the following conditions are satisfied: the parent, investor or venturer is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not be reversed in the foreseeable future.

Current tax and deferred tax shall be charged or credited directly to other comprehensive income, and not earnings, if the tax relates to items that are credited or charged directly to other comprehensive income.

2.11 Goodwill and business combinations

Business combinations, not occurring under common control, are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 ''Business combinations'' are recognized at their fair value at acquisition date.

The Consolidated Group recognizes goodwill as of the acquisition date and is measured as the excess of (a) over (b) as follows:

a) The aggregate of:

- The consideration transferred, which generally requires acquisition-date fair value;
- The amount of any non-controlling interests in the acquiree measured;
- In a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree.

b) The net of the acquisition-date balances of the identifiable assets acquired and the liabilities measured in accordance with IFRS 3.

Any excess of the cost of acquisition over the Consolidated Group's share in the fair value of all identified assets and liabilities is recognized as goodwill.

The goodwill is determined provisionally by the end of the period. The Consolidated Group recognizes any adjustments to those provisional values within twelve months after the acquisition date.

During the measurement period, the acquirer shall recognize adjustments to the provisional amounts as if the accounting for the business combination had been completed at the acquisition date. Thus, the acquirer shall revise comparative information for prior periods presented in financial statements as needed, including making any change in depreciation, amortization or other income effects recognized in completing the initial accounting.

If the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed exceeds the purchase price, a gain is recognized immediately.

Subsequently, goodwill is measured at its initial amount less recorded accumulated impairment losses. Impairment loss for goodwill is recorded in the income statement as a deduction from operating income (account ''Depreciation and amortization'') and is never reversed subsequently.

2—Significant accounting policies (Continued)

Changes in the Consolidated Group's ownership interests in subsidiaries that do not result in the Consolidated Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Consolidated Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Consolidated Group.

For acquisitions under common control, the Consolidated Group does not perform a purchase price allocation. Any difference between the consideration paid and the book value of the net assets acquired is directly attributed to the reserves of the Consolidated Group and no residual goodwill is recorded.

2.12 Other intangible assets

Intangible assets acquired separately are recorded at cost on initial recognition, with the addition of direct acquisition costs. Intangible assets acquired in a business combination are measured at fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses. In our Israeli entity, the costs of producing in-house content is also considered to be an intangible assets and recognized at the cost of production of the shows. Following initial recognition, these intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses.

According to Management, intangible assets have either definite or indefinite useful lives.

Assets with definite useful lives are amortized over their useful lives and assessed for impairment signs which would indicate impairment in value. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least once a year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits that are expected to derive from the asset are treated as a change in an accounting estimate which is treated prospectively. The amortization expenses regarding intangible assets with finite useful lives are recognized in the income statement.

The useful lives of the intangible assets are as follows:

	Duration
Software	3 years
Customer relations	7 to 37 years
Licences	5 years
Customer relations with a defined contractual term	3 years
Subscriber purchase costs	based on average duration of subscriptions

Assets with indefinite useful lives are tested for impairment annually as well as where there is an indication that it may be impaired by comparing their carrying amount with their recoverable amount.

2.13 Impairment of tangible and intangible assets

Each time events or changes in the economic environment indicate a current risk of impairment of goodwill, other intangible assets, property, plant and equipment and assets in progress, the Consolidated Group re-examines the value of these assets. In addition, goodwill, other intangible assets with an indefinite useful life, and intangible assets in progress are all subject to an impairment test performed annually.

This test is performed in order to compare the recoverable amount of an asset to its carrying amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. In that case, recoverable amount is determined for the cash-generating unit to which the asset belongs. A Cash

2—Significant accounting policies (Continued)

Generating Unit (''CGU'') is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

The value in use of each asset or group of assets is determined as the discounted value of future cash flows (discounted cash flow method or ''DCF'') by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtained from the sale of the asset or group of assets in an arm's length transaction between knowledgeable and willing parties, less costs to sell.

When the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption ''Depreciation and amortization'' in the income statement. Only impairment loss recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful life and property, plant and equipment, may be reversed.

2.14 Property, plant and equipment

Property, plant and equipment are presented at cost with the addition of direct purchase costs less accumulated depreciation and accumulated losses on impairment and they do not include routine maintenance expenses. The cost includes spare parts and ancillary equipment that can only be used in connection with the plant and machinery.

Depreciation is calculated using the straight line method over the estimated useful lives of the assets, as follows:

	Duration
Buildings	25 to 50 years
Cables Network	4 to 20 years
Call center (primarily electronic equipment)	5 to 9 years
Converters and modems	7 years
Computers and ancillary equipment	3 to 6 years
Office furniture and equipment	6 to 16 years
Communication network infrastructure	6 to 16 years
Leasehold contracts	see below

Leasehold contracts are depreciated according to the straight line method during the rental period (including the option period for an extension by the Consolidated Group, which it intends to exercise) or the estimated useful lifetime of the improvement.

Elements of a fixed asset item, having a cost that is significant in comparison to the overall cost of the item, are depreciated separately, using the components method. The depreciation is calculated in accordance with the straight line method at annual rates that are considered to be sufficient in order to depreciate the assets over the length of their estimated useful lives.

The useful life, depreciation method and residual value of an asset are reviewed at least annually and any changes are accounted for prospectively as a change in accounting estimate.

2.15 Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

2.15.1 The Consolidated Group as lessor

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Consolidated Group's net investment in the leases. Finance lease income is allocated in an accounting periods so as to reflect a constant periodic rate of return on the Consolidated Group's net investment outstanding in respect of the leases.

2—Significant accounting policies (Continued)

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

Rental income from the leasing of customer premises equipment (set top boxes, modems and decoders) is recognized on a straight-line basis over the term of the subscription held by the client. At the end of the contract or in case of voluntary contract termination by the client, this equipment is repossessed and thus remains in the inventory of the Consolidated Group.

2.15.2 The Consolidated Group as lessee

Assets held under finance leases are initially recognized as assets of the Consolidated Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Consolidated Group's general policy on borrowing costs (see note 2.16 below). Contingent rentals are recognized as expenses in the periods in which they are incurred.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.16 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. According to management, it does not take a substantial period of time to get ready for the intended use because of the incremental deployment of the network. This standard has consequently no impact on the consolidated financial statements.

2.17 Government grants

Government grants are not recognized until there is reasonable assurance that the Consolidated Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Consolidated Group recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Consolidated Group should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the consolidated statement of financial position and transferred to the income statement on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Consolidated Group with no future related costs are recognized in profit or loss in the period in which they become receivable.

2—Significant accounting policies (Continued)

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

2.18 Financial assets

The Consolidated Group classifies financial assets in four categories: available-for-sale, loans and receivables, held-to-maturity and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets according to IAS 1 ''Presentation of financial statements''.

Purchases and sales of all financial assets are recognized on a trade date basis.

2.18.1 Available-for-sale financial assets

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is included in the profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in non-consolidated companies. Fair value corresponds to quote price for listed securities. For non-listed securities, and when a reliable estimate of fair value cannot be made using valuation techniques, the Consolidated Group values financial assets at historical cost, less any impairment losses.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from other comprehensive income to income. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed through profit or loss.

2.18.2 Loans and receivables

Loans and receivables are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest rate method.

This category mainly includes trade receivables.

If there is objective evidence that an impairment loss has occurred, the amount of this loss, measured as the difference between the financial assets' carrying value and its recoverable amount is recognized in the income statement. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases in the future.

2.18.3 Held-to-maturity financial assets

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturity that the Consolidated Group has both the intention and ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, in accordance with the effective interest rate method.

They are reviewed for impairment on an individual basis if there is any indication that they may be impaired.

The Consolidated Group currently does not hold any held to maturity financial assets.

2—Significant accounting policies (Continued)

2.18.4 Financial assets measured at fair value through profit or loss

These financial assets are measured at fair value with gains and losses recorded as finance income or costs.

This category mainly includes:

- Assets held for trading which the Consolidated Group intends to sell in the near future (primarily marketable securities);
- Assets voluntarily classified at inception in this category;
- Derivatives financial assets.

2.19 Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories comprises costs of purchase and costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated selling costs.

Cost of inventories is determined using the weighted average cost method.

The Consolidated Group periodically evaluates the condition and age of inventories and makes provisions for slow moving inventories accordingly.

2.20 Cash and cash equivalents

Cash consists of cash in banks and deposits.

Cash equivalents are considered as highly liquid investments, including unrestricted short-term bank deposits with an original maturity of three months or less from the date of acquisition or with a maturity of more than three months, but which are redeemable on demand without penalty and which form part of the Consolidated Group's cash management.

2.21 Restricted cash

Restricted cash is considered to be cash that is dedicated to the repayment of the Consolidated Group's liabilities to banking entities in accordance with the Consolidated Group's credit agreement and therefore amounts that the Consolidated Group cannot use at its discretion.

Restricted cash can also consist of cash held in escrow to finance certain acquisitions (in the period between the agreement to acquire and the actual closing of the acquisition and the transfer of shares and cash and other considerations). Restricted cash may also consist of guarantees provided by different group companies to financial institutions related to financing or other activities. Restricted cash is not considered to be a component of cash and cash equivalents since such balances are not held for the purposes of meeting short term cash commitments.

2.22 Derivatives

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently reassessed at their fair value.

The Consolidated Group enters into interest rate swaps and caps to manage its interest or foreign currency exchange rate exposure. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any of these derivative instruments are recognized immediately in the income statement within financial income and expenses.

2—Significant accounting policies (Continued)

2.23 Share based payment arrangements

The Consolidated Group's employees are entitled to remuneration in the form of equity-settled share-based payment transactions and certain employees are entitled to remuneration in the form of cash-settled share-based payment transactions that are measured based on the increase in the Company's share price. These stock options based remunerations mainly concerned the Israeli entity, HOT Telecom and these plans were terminated post the take private of the company in December 2012 and the delisting of all active shares of HOT Telecom on the Tel Aviv stock exchange.

2.24 Financial liabilities

Financial liabilities other than derivative instruments include:

2.24.1 Financial liabilities at amortized cost

These financial liabilities are measured at amortized cost calculated based on the effective interest rate method according to IAS 39. The effective interest rate is the internal yield rate that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument.

2.24.2 Financial liabilities that are measured at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities classified as held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of sale in the near term. Gains or losses on liabilities held for trading are recognized in profit or loss.

Derivatives, including bifurcated embedded derivatives, are classified as held for trading unless they are designated as effective hedging instruments. In the event of a financial instrument that contains one or more embedded derivatives, the entire combined instrument may be designated as a financial liability at fair value through profit or loss only upon initial recognition.

The Consolidated Group assesses whether embedded derivatives are required to be bifurcated from host contracts when the Consolidated Group first becomes party to the contract. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

The fair value of financial instruments that are traded in an active market is determined by reference to quoted market prices at the close of business on the balance sheet date. For financial instruments for which there is no active market, fair value is determined by the use of valuation techniques. Such techniques include evaluation based on transactions that have been executed recently under market terms, reference to the current market value of another instrument, which is substantially the same, discounted cash flow analysis or other valuation models.

2.24.3 Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.24.4 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the value of the proceeds received, net of direct issue costs.

2—Significant accounting policies (Continued)

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

The Consolidated Group also issued some CPECs (Convertible Preferred Equity Certificates). Details of these subordinated financial instruments are set out in note 17.4.

2.25 Other liabilities

2.25.1 Provisions

A provision in accordance with IAS 37 is recognized in the statement of financial position when the Consolidated Group has a present obligation (legal or implicit) as the result of a past event and it is expected that the use of economic resources will be required in order to settle the obligation and it is possible to reliably estimate it. Where the impact is significant, the provision is measured by discounting the forecasted future cash flows, using a pre-tax interest rate that reflects the expectations of the market in respect of the time frame of the money and in certain cases, the risks that are specific to the liability.

The following types of provisions are recorded in the financial statements:

2.25.2 Legal claims

A provision regarding legal claims is recognized when the Consolidated Group has a present legal commitment or an implicit commitment resulting from a past event; when it is more likely than not that the Consolidated Group will be required to expand economic resources to clear the commitment, when it is possible to estimate it reliably and when the effect of time is significant, the provision is measured according to the present value.

2.25.3 Warranty

The Consolidated Group recognizes a provision for warranty for the sale of its products. The warranty is limited to malfunctions as defined by the Consolidated Group and does not include warranty for damages incurred by the customer.

2.25.4 Onerous contracts

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where the Consolidated Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.25.5 Restructuring

A restructuring provision is recognized when the Consolidated Group has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the Consolidated Group.

2—Significant accounting policies (Continued)

2.26 Liabilities for employment benefits

In accordance with the laws and practices of each country in which it operates, the Consolidated Group participates in, or maintains, several employee benefits. There are as follows:

2.26.1 Short-term benefits for employees

Short-term benefits for employees include salaries, vacation pay, sick leave, recuperation pay and employers' deposits for national insurance and are recognized as an expense when the services are provided. A liability in respect of a cash bonus or a profits participation scheme is recognized where the Consolidated Group has a legal or an implicit commitment to pay the said amount in respect of service that has been provided by the employee in the past and where the amount can be reliably estimated.

2.26.2 Post-retirement benefits

In Israel, the Consolidated Group operates a defined benefits plan in respect of the payment of severance pay in accordance with the Israeli Severance Pay Law. According to this law, employees are entitled to receive severance pay if they are dismissed or on their retirement. The liability in respect of the termination of employee-employer relations is measured in accordance with the actuarial value of a forecast unit of entitlement method. The actuarial calculation takes into account increases in salaries in the future and the rate at which employees leave the Consolidated Group and this on the basis of an estimate of the timing of the payment. The amounts are presented on the basis of the discounting of the forecast future cash flows, in accordance with government bonds' interest rates, whose repayment dates are close to the period relating to the liability in respect of severance pay.

The Consolidated Group deposits funds in respect of its severance pay liability in pension funds and insurance companies (hereafter—the plan assets). The plan assets are assets that are held by the employee benefits plan for the long-term or in qualifying insurance policies. The plan assets are not available for use by the Consolidated Group's creditors, and cannot be paid directly to the Consolidated Group.

The liability regarding employee benefits presented in the statement of financial position represents the present value of the defined benefits obligation less the fair value of the plan assets, and the past service costs. Actuarial gains and losses are reflected in the income statement in the period in which they arise, as part of the salary costs.

The Consolidated Group has defined contribution plans pursuant to the Severance Pay Law under which the Consolidated Group pays fixed contributions and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient amounts to pay all employee benefits relating to employee service in the current and prior periods. Contributions to the defined contribution plan in respect of severance or retirement pay are recognized as an expense when contributed simultaneously with receiving the employee's services and no additional provision is required in the financial statements.

2.26.3 Other long-term employee benefits

The Consolidated Group's employees are entitled to benefits and other long-service grants. These benefits are accounted for as other long-term benefits since the Consolidated Group estimates that these benefits will be used and the respective Consolidated Group's obligation will be settled during the employment period and after one year from the end of the reporting period.

The Consolidated Group's net obligation regarding other long-term employee benefits is in respect of the future benefit amount due to employees for services rendered in current and prior periods. This amount of benefits is discounted to its present value and the fair value of the assets relating to this obligation is deducted from said amount. The discount rate is determined by reference to the yields on Government bonds whose currency and term are consistent with the currency and term of the

2—Significant accounting policies (Continued)

Consolidated Group's obligation. The obligation is calculated using the projected unit credit method. Actuarial gains and losses are recognized in profit or loss in the period in which they occur.

2.26.4 Benefits in respect of the termination of employment

Severance pay for employees is reflected as an expense when the Consolidated Group has made an undertaking, with no real possibility of cancellation, for the dismissal of employees before they reach the customary retirement age in accordance with a detailed formal plan. The benefits that are given to the employees who take voluntary retirement when the Consolidated Group has offered the employees a plan that encourages voluntary retirement, it is expected that the offer will be accepted and the number of persons accepting the offer can be reliably estimated.

2.27 Significant accounting judgments and estimates used in the preparation of the financial statements

2.27.1 Judgments

In the process of applying the significant accounting policies, the Consolidated Group has exercised its judgment and has taken into account matters which have the most significant impact on the amounts that have been recognized in the consolidated financial statements.

2.27.2 Estimates and assumptions

The preparation of the consolidated financial statements requires the Consolidated Group to make estimates and assumptions that have an effect on the application of the accounting policies and on the reported amounts of assets, liabilities, revenues and expenses. These estimates and underlying assumptions are reviewed regularly. Changes in accounting estimates are reported in the period in which the estimate changes.

2.27.3 Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

The value in use of each CGU was determined by estimating cash flows for a period of five years for the operating activities. Cash flow forecasts are derived from the most recent business plans approved by the Board of Directors. Beyond the specifically forecasted period of five years, the Company extrapolates cash flows for the remaining years based on an estimated constant growth rate between 1.5-2%. This rate does not exceed the average long-term growth rate for the relevant markets. Discount rates have been computed using WACC approach and range from 6.3% to 11%.

2.27.4 Legal claims

In estimating the likelihood of outcome of legal claims filed against the Consolidated Group and its investees, the group companies rely on the opinion of their legal counsel. These estimates are based on the legal counsel's best professional judgment, taking into account the stage of proceedings and historical legal precedents in respect of the different issues. Since the outcome of the claims will be determined in courts, the results could differ from these estimates.

2.27.5 Post-employment benefits

The liability in respect of post-employment defined benefit plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about, among others, discount rates,

2—Significant accounting policies (Continued)

expected rates of return on assets, future salary increases and mortality rates. Due to the long-term nature of these plans, such estimates are subject to uncertainty.

2.27.6 Deferred tax asset

Deferred tax assets relate primarily to tax loss carry forwards and to deductible temporary differences between reported amounts and the tax bases of assets and liabilities. The assets relating to the tax loss carry forwards are recognized if it is probable that the Consolidated Group will generate future taxable profits against which these tax losses can be set off. Evaluation of the Consolidated Group's capacity to utilize tax loss carry-forwards relies on significant judgment. The Consolidated Group analyses past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carry forwards.

2.27.7 Discounting of Yield Free Preferred Equity Certificates (YFPEC) and similar instruments

The Consolidated Group has loans with its equity holder which are currently non-interest bearing and therefore considered as not being at arm's length. In determining the present value, a discount rate of 4.76% has been used for YFPECs and a discount rate of 6.79% for the Interest Free Loans (IFLs) issued by the Consolidated Group. YFPECs issued by Altice Six S.A. have been discounted at a rate of 5.3%, representing the effective borrowing rate for Altice Six as of December 31, 2013.

3.2 Modification of the scope of consolidation

3.2.1 Main acquisitions in 2013

3.2.1.1 Acquisition of OMT

On July 5, 2013 the Consolidated Group obtained control of OMT, a telecommunications operator in the French Overseas Territories, by acquiring 77% of the shares and voting interests in the company. This acquisition enables the Consolidated Group to expand its footprint in the French Overseas Territories.

Since July 5, 2013 OMT contributed EUR 102.1 million to revenue and EUR 13.5 million to operating profit to the Consolidated Group's results for the year ended December 31, 2013.

A purchase price allocation was performed following the acquisition of OMT based on the assumptions described below.

Brand:

The ONLY brand was valued using the royalty relief method over an indefinite useful life and the method was built on the following assumptions:

- Discount rate—11.4%
- Royalty rate—1.5%

Clients:

The portfolio of clients has been valued using the excess earnings approach and based upon the following assumption:

- EBIT margin rate: 13.5% for fixed telephone clients, 12.4% for internet clients, 19.3% for mobile clients, 26.4% for B2B clients.
- Attrition rate: 9.7% for fixed telephone clients, 29.2% for internet clients, 48.5% for mobile clients, 16.4% for B2B clients.
- Discount rate: 11.4%
- Perpetuity growth rate: 2%

3.2.1.2 Acquisition of ONI Communication

On August 8, 2013 the Consolidated Group obtained control of ONI, a business to business telecommunications operator in Portugal, by acquiring 100% of the shares and voting interests in the

3—Scope of consolidation (Continued)

company. This acquisition enables the Consolidated Group to expand its footprint in Portugal and eventually realise synergies with the Consolidated Group's other business within the same country.

Since August 8, 2013 ONI contributed EUR 41.8 million in revenue and EUR 4.9 million in operating loss to the Consolidated Group's result for the year ended December 31, 2013.

A purchase price allocation was performed following the acquisition of ONI based on the assumptions described below.

Brand:

The ONI brand was valued using the royalty relief method over an indefinite useful life and the method was built on the following assumptions :

- Discount rate—6.5%;
- Royalty rate—2.0%.

Clients:

The portfolio of clients has been valued using the excess earnings approach and based upon the following assumptions :

- EBIT margin rate: 14.1%;
- Attrition rate: 22.9% for B2B clients;
- Discount rate: 6.5%;
- Perpetuity growth rate: 0%.

3.2.1.3 Integration of content channels

On October 4, 2013 Ma Chaine Sport S.A.S. (''MCS'') and SportV S.A. (''SportV''), two exclusive content producing companies based in France and Luxembourg respectively were transferred to the Consolidated Group by Altice IV and Valemi Corp, Altice IV S.A. being considered as a related party as it shares the same controlling shareholder as the Consolidated Group at time of acquisition. In the absence of any specific guidance concerning the accounting for common control transactions within IFRS, no purchase price allocation was performed. These transactions allow the Consolidated Group to pursue a strategy of vertical integration and also provide a more integrated solution to its customers.

Since October 4, 2013, Ma Chaine Sport and SportV contributed EUR 6.4 million in revenue and EUR 0.3 million in operating profit to the Consolidated Group's result for the year ended December 31, 2013.

3.2.2 Change in the Consolidated Group's ownership interest in 2013

3.2.2.1 Acquisition of minority interests in Cabovisao

On April 23, 2013, the Company completed the acquisition of 40% of minority stake held by Apax Partners in its Portuguese subsidiary Cabovisao S.A, through an investment in the holding company of Cabovisao S.A, Altice Portugal.

The total consideration of EUR 105.0 million was paid on April 23, 2013, of which EUR 90.0 million was paid in consideration for the shares acquired and EUR 15.0 million towards the repayment of an existing vendor note. An amount of EUR 9.1 million (being the proportionate share of the carrying amount of the net assets of the entity) has been transferred between non-controlling interests to controlling interest. The difference of EUR 80.9 million between the decrease in the non-controlling interests and the consideration received has been debited from the retained earnings.

3—Scope of consolidation (Continued)

3.2.2.2 Disposal of Valvision

On June 6, 2013, the Consolidated Group disposed of its interests in Valvision S.A.S, a cable based service provider in France to Altice VII Bis S.à r.l., a sister concern under common control of the Company's sole shareholder, Next L.P.

The difference of EUR 3.3 million gain generated on this transaction (representing the difference between the net asset value of the entity prior to transfer and the consideration received) has been recognized directly in equity.

3.2.2.3 Acquisition of minority interests in Coditel

Deficom Telecom S.à r.l., a majority owned subsidiary of Altice VII, is the owner of 60% of the outstanding shares of Coditel Holding Lux II and Coditel Management. On November 29, 2013, Altice Holdings S.à r.l. purchase 40% of the interest of Coditel Holding Lux II and Coditel Management held by Codilink S.à r.l. .

The total consideration of EUR 82.5 million was paid on November 29, 2013, of which EUR 30.6 million was paid in consideration for shares and EUR 51.9 million paid as repayment of subordinated debt instruments held by Codilink (the Coditel PECs). An amount of EUR (9.3) million (being the proportionate share of the carrying amount of the net assets of the entity) has been transferred from non-controlling interests to controlling interest. The difference of EUR 39.9 million between the decrease in the non-controlling interests and the consideration received has been debited from the retained earnings.

3.2.2.4 Acquisition of an additional stake in Numericable Group ("NG Group")

In November 2013, concomitantly with the initial public offering of Numericable Group on the Paris Stock Exchange, Altice Six increased its stake in NG group to reach a percentage holding of 27.4% from 24.06%..

3.3 Acquisitions of businesses

Business combinations that occurred during the reporting period are described in note 3.2.

3—Scope of consolidation (Continued)

The major classes of assets acquired and liabilities assumed at the acquisition date are:

	Total Business Combinations	OMT	ONI	MCS(1)	SportV(1)
	(in millions of euros)				
Cost of acquisition(2)	280.6	223.3	22.3	23.0	12.0
ASSET					
Intangible assets	154.1	106.7	45.9	1.3	0.2
Property, plant and equipment	122.9	69.5	52.6	0.9	—
Non-current financial assets	1.6	1.6	—	—	—
Inventories	6.3	4.9	1.4	—	
Trade accounts receivable and other	55.7	28.1	19.6	6.0	2.0
Tax receivable	3.0	2.6	0.4	—	—
Cash and cash equivalents	36.3	33.6	0.7	0.3	1.7
Other current assets	13.0	3.2	8.7	0.6	0.5
Total assets	**393.0**	**250.2**	**129.3**	**9.1**	**4.4**
EQUITY AND LIABILITIES					
Non-current liabilities	253.1	205.3	47.5	0.3	—
Current liabilities	185.7	115.5	60.8	6.7	2.7
Total liabilities	**438.8**	**320.8**	**108.3**	**7.0**	**2.7**
Net assets	**(45.9)**	**(70.6)**	**21.0**	**2.1**	**1.7**
Residual goodwill	**295.2**	**293.9**	**1.3**	—	—
Including impact of non-controlling interests on goodwill	*67.7*	*67.7*		—	—

(1) No goodwill is attributed to neither MCS nor SportV as these were deemed by the Board of Directors to be integration under common control and thus any difference in the net asset value and the purchase price is recorded directly in the reserves of the group attributable to the shareholders.

(2) When acquiring OMT, ONI and integrating MCS and Sport, the company did not, (i) pay the vendors of OMT and ONI directly as the cash was transferred directly from the lenders to the sellers' accounts, or to their debt holders in case of refinancing of the acquired entities debts or (ii) did not pay the entire amount in cash (as was the case for MCS and SportV), thus generating vendor notes held by the vendors. The total cash out from the accounts of the company amounted to EUR 13.0 million. These vendor notes were settled in 2014.

The acquisition of a controlling stake in OMT Invest S.A.S (''OMT'') and Winreason S.A. (''ONI'') are considered to be non-cash transactions, as the consideration paid to the vendors flows directly from the lending parties to final sellers, without transitioning through the company's accounts. Thus, the cost of such transactions is deducted directly from the issuance of debt in the consolidated statement of cash flows.

3—Scope of consolidation (Continued)

The main figures of the entity, since the beginning of the year, and until the business combination, are presented as follows:

	OMT	ONI	MCS	SportV
	(in millions of euros)			
Revenues	**96.5**	**59.0**	**13.8**	**4.5**
Cost of sales	(30.1)	(31.2)	(3.4)	(1.1)
Gross Profit	**66.4**	**27.8**	**10.5**	**3.3**
Other operating expenses	(19.8)	(11.2)	(1.4)	—
General and administrative expenses	(6.1)	(5.9)	(1.1)	(0.1)
Other sales and marketing expenses	(7.3)	(1.3)	(0.2)	(0.2)
Operating profit before depreciation, amortization and non-recurring costs	**33.2**	**9.4**	**7.7**	**3.0**
Depreciation and amortization	(11.4)	(9.9)	(6.2)	(1.1)
Other expenses, net	(2.0)	(1.7)	(0.5)	—
Management fees	—	—	—	—
Reorganization and non-recurring costs	(0.4)	(0.5)	—	—
Operating profit	**19.4**	**(2.7)**	**1.0**	**1.9**
Profit / (loss) for the period (including non-controlling interests)	**10.9**	**(8.8)**	**0.8**	**1.4**

4—Goodwill

The Company identified six operating segments. As a result, goodwill acquired in business combinations was allocated to these operating segments based on the relative fair values of the cash generating units. Goodwill is allocated as follows to each of the Company's operating segments:

	December 31, 2012	Business combinations	Impairment losses	Changes in foreign currency translation	Disposals	December 31, 2013
			(in millions of euros)

The carrying amount of goodwill as at December 31, 2013 was EUR 1,100.7 million (December 31, 2012 was EUR 790.9 million).

Goodwill is reviewed at the Consolidated Group of cash-generating unit (''CGU'') level for impairment annually and whenever changes in circumstances indicate that its carrying amount may not be recoverable. For 2013, goodwill was tested at the CGU level for impairment as of December 31. The CGU is at the subsidiary level of the Company. The recoverable amounts of the CGUs are determined based on their value in use. The Company determined to calculate value in use for purposes of its impairment testing and, accordingly, did not determine the fair value of the CGUs as the carrying value of the CGUs was lower than their value in use. The key assumptions for the value in use calculations are primarily the pre-tax discount rates, the terminal growth rate and the churn rate during the period. The impairment tests did not result in impairment for any periods presented in these consolidated financial statements, except for EUR 121.9 million in Hot Telecom for the year ended December 31, 2012.

The value in use of the CGUs was determined by estimating cash flows for a period of five years, giving due consideration to the nature of the industry in which each CGU operates. Assumptions for churn rates and EBIT margin were based on historical experience and expectations of future changes in the market. Cash flow forecasts were derived from the most recent financial plans approved by management.

When estimating turnover for purposes of the 2013 impairment test, the Company used a growth rate between (3.6)-6% over the next 5 years. Those estimates were determined on the basis of the analysis of

4—Goodwill (Continued)

the markets where the Company is active in as well as on the basis of projections provided by external sources.

	Green	Coditel	Hot Mobile
Average long term growth rate in 2012 (in %)	2.0	2.0	1.5-2
Average long term growth rate in 2103 (in %)	2.0	2.0	2.0

When estimating EBIT margin for purposes of the 2013 impairment test, the Company used a stable ratio of EBIT margin over the next 5 years.

Management estimated discount rates using post-tax rates that reflected current market rates for investments of similar risk. The discount rate for the CGUs was estimated from the weighted average cost of capital (''WACC'') of companies which operate a portfolio of assets similar to those of the Company's assets.

	Green	Coditel	Cabovisao	Hot Mobile
CGU weighted average post-tax WACC rate used in 2012 (in %)	7.0	8.0-8.5	—	10-11
CGU weighted average pre-tax WACC rate used in 2013 (in %)	6.5	6.6	6.3	10-11

The results of the goodwill impairment test of 2012 and 2013 for each CGU did not result in an impairment of goodwill as the value in use exceeded the carrying value of the CGU, except for EUR 121.9 million in Hot Telecom for the year ended December 31, 2012.

In validating the value in use determined for the CGU, key assumptions used in the discounted cash-flow model were sensitized to test the resilience of value in use and no impairments were noted in these sensitivity analysis.

	Green	Coditel	Hot Telecom
Recoverable amount	124.4	466.6	1,357.1
Carrying amount	17.8	295.5	477.6
Excess of recoverable amount over carrying amount	106.6	171.1	879.5

The following changes in key assumptions in projected cash flows in every year of the initial five-year period, assuming unchanged values for the other assumptions, would cause the recoverable amount to equal the respective carrying value.In addition, the Company analyzed the sensitivity of the estimated recoverable amounts to the reasonable expected changes in assumptions, assuming unchanged values for the other assumptions:

- Sensitivity of the recoverable amount was tested for a movement of 50 bps in the weighted average cost of capital (WACC), all other assumptions being stable and the impact would be:
  - Green: an increase of 50 bps in the WACC decreases the excess of recoverable amount to EUR 90.2 million and therefore no impairment would be required.
  - Coditel: an increase of 50 bps in the WACC decreases the excess of recoverable amount to EUR 103.9 million and therefore no impairment would be required.
  - HOT Mobile: an increase of 50 bps in the WACC decreases the recoverable amount to EUR 807.2 million and therefore no impairment would be required.
- Sensitivity of the recoverable amount was tested for a movement of 50 bps in the perpetuity growth rates, all other assumptions being stable and the impact would be:
  - Green: an increase of 50 bps in the growth rate decreases the excess of recoverable amount to EUR 93 million and therefore no impairment would be required.

4—Goodwill (Continued)

- Coditel: an increase of 50 bps in the growth rate decreases the excess of recoverable amount to EUR 66.1 million and therefore no impairment would be required.
- HOT Mobile: an increase of 50 bps in the growth rate decreases the recoverable amount to EUR 825.1 million and therefore no impairment would be required.

The analysis did not result in a scenario whereby a reasonable possible change in the aforementioned key assumptions would result in a recoverable amount for the CGU which is inferior to the carrying value.

(1) Cable network: the Consolidated Group owns, directly and indirectly through its subsidiaries, cable or fibre network which allow it to supply cable-based pay television, broadband internet and fixed-line telephony services to its subscribers.

(2) Call center represents centralized offices used for the purpose of receiving or transmitting a large volume of administrative, technical or commercial requests by telephone.

(3) Office furniture and equipment refers to furnishings and IT equipment.

(4) The Communication network infrastructure includes the digital technologies for the transmission of multi-channel television services.

6—Property, Plant & Equipment (Continued)

The increase in the intangible and tangible assets of the Consolidated Group can mainly be attributed to the acquisition of Outremer Telecom and ONI Telecom during the course of 2013. These increases were slightly offset by the disposal of the Company's interests in Valvision.

7—Investment in associates

The breakdown of the investments in associates is detailed as follows:

	December 31, 2013	
(in millions of euros)	**Consolidated Group's share of profits of associates**	**Consolidated Group's investments in associates**
Numericable Group S.A.	15.5	679.1

% of interest = 27.4%	**15.5**	—

(*) The comparatives are for Ypso Holding S.à r.l. and Altice B2B Lux Holding S.à r.l.. 2013 shows the Numericable Group S.A. figures which is the successor entity of Ypso Holding S.à r.l. and Altice B2B Lux Holding S.à r.l..

7—Investment in associates (Continued)

On November 7, 2013, the newly formed Numericable Group S.A. completed its initial public offering. The Numericable Group is considered to be the successor entity of Ypso Holding S.à r.l and Altice B2B Lux Holding S.à r.l.

Effective upon initial public offering of Numericable Group, a restructuring of the capital structure of Ypso Holding S.à r.l and Altice B2B Lux Holding S.à r.l. was undertaken, as a result of which, all shares and loans held by Altice Six S.A. against these entities were converted into common shares of the new entity, Numericable Group S.A..

Altice Six holds 33.9 million of shares of Numericable Group as at December 31, 2013. Based on the share price as of December 31, 2013 (EUR 26.4), the fair value of the investment amounted to EUR 895.9 million. Based on this valuation, it is concluded that the fair value is greater than the carrying value of the investment and therefore no impairment shall be recorded in the consolidated financial statements for the year ended December 31, 2013.

8—Financial assets

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Investments held as available for sale(1)	40.3	6.1
Loans and receivables(2)	3.0	144.8
Other financial assets	5.5	—
Restricted cash(3)	1.8	9.6
Total	**50.6**	**160.5**

(1) Investment in available for sale financial asset:s are composed of:

Partner Communications LTD: A subsidiary company, operating through Hot Net Internet Services LTD. (formerly Hot Properties) and Finance LTD. (hereinafter-Hot Net) holds 1 454 663 regular shares in Partner Communications LTD, (hereinafter-Partner), constituting approximately 0,9% of Partner's share capital which is engaged in the provision of mobile communications services and whose shares are traded on stock exchanges in the United States of America, in the United Kingdom and in Israel.

Wananchi Group Holdings Ltd. In February 2013, the Company exercised its right to convert loans and receivables held against Wananchi Group Holdings Ltd. into shares. These notes were initially recorded as a long term trade receivable for the year ended December 31, 2012 and subsequently converted into equity in February 2013. The Board of Directors considers the investment in Wananchi to be available for sale investment and has injected further funds in Wananchi during the course of the year ended December 31, 2013. Wananchi operates in the fast developing East-African market and given the evolving nature of the business in this region, the Board of Directors considers that the nominal value of its investment in Wananchi represents the fair value of the investment. As of December 31, 2013, Altice VII held 17.05% of the capital of Wananchi and the Board of Directors is of the opinion that it has no significant influence on the Board of Wananchi.

(2) As of December 31, 2013, this caption includes an additional investment made by the company in Wananchi, in return for which it was issued convertible notes, convertible at the discretion of the holder. The investment amounted to EUR 3.0 million ($4 million equivalent). The decrease compared to December 31, 2012 is explained by:

- the conversion of loans and receivables due from Wananchi to equity
- the conversion of loans and receivables against Ypso Holdings S.à r.l. and Altice B2B Lux Holding S.à r.l..See note 7 for more information.

(3) Restricted cash (see Note 2.21)

As of December 31, 2013 the restricted cash caption contained cash accounts pledged at Cabovisao, HOT and Green held as guarantees to various financial institutions. The decrease in the amount of restricted cash compared to the year ended December 31, 2012, was mainly due to substitution of a guarantee given to Banco Esprito Santo by Cabovisao by an amount of EUR 8.4 million drawn from the Company's guarantee facility.

9—Non-current trade and other receivables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Prepaid expenses	0.6	0.8
Other receivables[1]	22.2	23.7
Total	**22.8**	**24.6**

(1) The balance reflects customer's debts in respect of the sale of devices under long-term credit terms (sales in installments). The balance of the debt is presented at its value, as discounted using an interest rate of 5% for a period of up to 36 months, less the current maturities, which are presented under trade receivables.

10—Inventories

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Work in progress	0.1	0.1
Finished/semi-finished goods	12.4	7.1
Total Gross Value	**12.5**	**7.2**
Work in progress	—	(0.1)
Finished/semi-finished goods	(1.5)	(1.0)
Total Depreciation	**(1.5)**	**(1.1)**
Work in progress	0.1	—
Finished/semi-finished goods	10.9	6.2
Total Net book value	**11.0**	**6.1**

Inventories are almost exclusively comprised finished goods corresponding to customer premises equipment (modems, decoders, mobile handsets etc.), which is used in the daily business activity of the Consolidated Group. Management considers that inventory will be fully renewed in the next twelve months.

Movement for allowance for obsolescence of inventory or slow moving inventory:

	December 31, 2012	Business Combinations	Variation	Divestitures, changes in foreign currency translation adjustments and other	December 31, 2013
			(in millions of euros)		
Work in progress (goods)	(0.1)	—	0.1	—	—
Finished/semi-finished goods	(1.0)	—	(0.5)	—	(1.5)
Total Cumulative amortization and depreciation	**(1.1)**	**—**	**(0.4)**	**—**	**(1.5)**

10—Inventories (Continued)

	December 31, 2011	Business Combinations	Reversal	Divestitures, changes in foreign currency translation adjustments and other	December 31, 2012
	(in millions of euros)				
Work in progress (goods)	—	(0.1)	—	—	(0.1)
Finished/semi-finished goods	(1.9)	—	0.9	—	(1.0)
Total Cumulative amortization and depreciation	**(1.9)**	**(0.1)**	**0.9**	**—**	**(1.1)**

The cost of inventories recognised as an expense consists of EUR 0.4 million (2012: EUR 0.1 million) in respect of write-downs of inventory to net realisable value. This write down mainly concerns the write off of mobile handsets and accessories at OMT to reflect their net recoverable value.

11—Trade and other receivables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Trade receivables	194.0	150.8
Other receivables	38.2	42.5
Total current trade and other receivables	**232.2**	**193.3**
Trade receivables		
Other receivables	22.8	24.6
Total non-current trade and other receivables	**22.8**	**24.6**
Total	**255.0**	**223.9**

11.1 Trade receivables

	December 31, 2012	Business Combinations	Net increase/ (decrease)	Reversal	Divestitures, changes in foreign currency translation adjustments and other	December 31, 2013
	(in millions of euros)					
Trade receivables	175.6	50.0	(6.8)	—	5.5	224.3
Allowance for doubtful debts	(24.8)	—	(10.1)	7.0	(2.4)	(30.3)
Trade receivable, net	**150.8**	**50.0**	**(16.9)**	**6.9**	**3.1**	**194.0**

11—Trade and other receivables (Continued)

	December 31, 2011	Business Combinations	Net increase/ (decrease)	Reversal	Divestitures, changes in foreign currency translation adjustments and other	December 31, 2012
			(in millions of euros)			
Trade receivables	129.1	5.9	40.4	—	0.1	175.6
Allowance for doubtful debts	(26.4)	—	(3.0)	4.4	0.2	(24.8)
Trade receivable, net	**102.7**	**5.9**	**37.4**	**4.4**	**0.3**	**150.8**

The increase in trade receivables in the year ended December 31, 2013, as compared to the year ended December 31, 2012 is mainly explained by the acquisition of OMT, ONI as well as the integration of MCS and SportV during the course of the year.

11.2 Age of trade receivables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Not yet due	137.1	116.7
30 - 90 days	22.1	14.0
91 - 121 days	34.8	20.2
Total	**194.0**	**150.8**

11.3 Other current receivables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Loans to related party	0.1	13.1
Bank guarantee(1)	—	14.0
Prepaid expenses(2)	20.9	6.3
Other current receivables	17.2	9.1
Total	**38.2**	**42.5**

(1) Bank guarantees were provided to the Israeli regulator by HOT mobile in relation with the acquisition of the UMTS mobile license and then subsequently released after the occurrence of certain events. Please see note 32 for details on guarantees given by HOT and HOT mobile.

(2) The increase in prepaid expenses is mainly explained by the acquisition of ONI and the entry of MCS in the Consolidated Group scope during the year ended December 31, 2013. The new entities contributed EUR 4.7 million and EUR 2.6 million to prepaid expenses and mainly concerned prepayments made on long term contracts.

The Consolidated Group provides services on credit for an average of 16 days, 24 days and 96 days in average to its customers in the cable television field, the in-country fixed line communications field and the mobile communication field, respectively. The Consolidated Group routinely evaluates the credit that is provided to its customers, while checking their financial situations; however it does not demand collateral for those debts. The Consolidated Group records a provision for doubtful debts, based on the factors that affect the credit risks of certain customers, past experience and other information.

12—Cash and cash equivalents and current restricted cash

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Term deposits	1.4	5.2
Bank balances	60.2	124.5
Cash and cash equivalents presented in the consolidated statement of cash flows	**61.6**	**129.8**
Restricted cash[(1)]	1,242.8	—
Restricted cash	**1,242.8**	**—**

(1) Current restricted cash refers to cash held in escrow accounts on behalf of Altice Finco and Altice Financing S.A., related to the acquisition of Orange Dominicana and Tricom. The Board of Directors expects the transactions to close in the first quarter of 2014, thus ensuring utilization of the cash in less than twelve months following December 31, 2013. As of the date of signing of these accounts, the Tricom acquisition had been successfully closed (See note 35).

13—Invested equity

As of December 31, 2013, the invested equity consists of the sum of the net equity of the Altice Six and Altice VII sub-groups. On January 31, 2014, Altice S.A. listed its shares in an initial public offering on Euronext Amsterdam. The company raised capital in two steps, first through a primary offering of new shares of the listed company, for EUR 750 million and a secondary offering, consisting of the sale of shares held by Next L.P. in Altice S.A., for a total amount of EUR 555 million. Additionally, an over-allotment option, for the maximum authorised amount (upto 15% of the total shares offered), was exercised by Altice S.A. Following the IPO, 25.6% of the share capital of the company is publicly traded, with the rest held by Next L.P and certain Managers.

13.1 Earnings per share:

In the context of these consolidated financial statements, it is not meaningful to present earnings per share in accordance with IAS 33 since the Reporting Entity does not have a legal share capital. Upon completion of its initial public offering, the Company had 202,787,193 shares in issue. The earnings for the year ended December 31, 2013 divided by the number of shares in issue immediately following the initial public offering are equivalent to EUR 0.35 (2012—EUR (0.69))

14—Provisions

Provisions for other expenses	—	—	1.8	—	—	1.8
TOTAL	**40.5**	**5.0**	**5.1**	**(24.1)**	**(1.0)**	**25.7**

(1) Provisions for litigations : For the year ended December 31, 2013, Hot made payments to Tali, AGICOA and ESHKOLOT copyright owners. Total payments amounted to EUR 5.4 million. HOT also recorded additional provisions for litigation based on a class action lawsuit for a total of EUR 2.9 million.

Provisions for litigations are mainly relating to, (i) claims made by associations representing the owners of certain copyrights in Israel, (ii) class action suits filed by certain consumers in Israel and (iii) lawsuits pertaining to the take-private operation performed in December 2012.

More information on these provisions is provided in note 32.. Management considers that all potential risks of cash-outs on such litigations and claims is properly evaluated and represented correctly in the consolidated financial statements for the year ended December 31, 2013.

15—Employee benefits

Breakdown of the employee benefits by entity:

	Notes	December 31, 2013	December 31, 2012
		(in millions of euros)	
Coditel Brabant		0.5	0.5
Hot Telecom	15.1	3.8	6.5
Green	15.1	1.8	1.8
OMT Invest	15.1	2.2	—
Total		**8.2**	**9.1**

15.1 Description of employee benefits by entity

15.1.1 HOT Telecom

(a) Defined Benefit Plans

Employee benefit liabilities

HOT Telecom has several employee benefit plans:

- *Short-term employee benefits*

  Short-term employee benefits are benefits that are forecast to be cleared in full within 12 months of the end of the annual reporting period in which the employees provide the related services. These benefits include salaries, paid annual leave, paid sick leave, recuperation and social security contributions and are recognized as expenses as the services are rendered. A liability in respect of a cash bonus is recognized when the Consolidated Group has a legal or constructive obligation to make such payment as a result of past service rendered by an employee and a reliable estimate of the amount can be made.

15—Employee benefits (Continued)

- *Post-employment benefits*

  The plans are normally financed by contributions to insurance companies and classified as defined contribution plans or as defined benefit plans.

  Since 2011, the Consolidated Group has defined contribution plans pursuant to Section 14 of the Severance Pay Law under which the Consolidated Group pays regular contributions and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient amounts to pay all employee benefits relating to employee service in the current and prior periods.

  Contributions to the defined contribution plan in respect of severance or retirement pay are recognized as an expense when contributed concurrently with performance of the employee's services.

  In addition, the Consolidated Group has a defined benefit plan in respect of severance pay pursuant to the Severance Pay Law. According to the Law, employees are entitled to receive severance pay upon dismissal or retirement. The liability for termination of employment is measured in accordance with an actuarial evaluation of the projected unit credit. The actuarial calculation takes into account the future salary costs and the rate at which employees leave the Consolidated Group, which is done on the basis of an evaluation of the timing of the payment. The amounts are presented based on discounted expected future cash flows using a discount rate determined by reference to yields on Government bonds with a term that matches the estimated term of the obligation relating to severance pay.

  In respect of its severance pay obligation to certain of its employees, the Consolidated Group makes current deposits in pension funds and insurance companies (''the plan assets''). Plan assets comprise assets held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the Consolidated Group's own creditors and cannot be returned directly to the Consolidated Group.

  The employee benefit liabilities, which are presented in the statement of financial position, represents the present value of the defined benefit liabilities less the fair value of the plan assets.

  Re-measurements of the net liability are reflected under other comprehensive income as they arise.

  Actuarial gains and losses are reflected in other comprehensive income.

- *Other long-term employee benefits*

  The Consolidated Group's net obligation in respect of other long-term employee benefits is calculated on the basis of an actuarial valuation and is in respect of the future benefit amount due to employees for services rendered in current and prior periods, taking the rate of expected salary increases into account. This amount of benefits is discounted to its present value. The discount rate is determined by reference to the yields on Government bonds whose currency and term are consistent with the currency and term of the Consolidated Group's obligation.

  Re-measurements of the net liabilities are reflected in profit or loss in the period in which they arise.

- *Termination benefits:*

  Employee termination benefits are recognized as an expense at the earlier of such time at which the Consolidated Group has committed to terminate employees before the normal retirement date and it is unable to cancel the proposal or where the Consolidated Group recognized costs in respect of a structural change that includes the payment of termination benefits.

The portion of the severance pay payments that is not covered by deposits, is treated by the Consolidated Group as a defined benefit plan in accordance with which a liability is recorded in respect of employee benefits, and the Consolidated Group deposits amounts in central severance pay funds and in appropriate insurance policies in respect of it.

15—Employee benefits (Continued)

The Consolidated Group has defined contribution plans, in accordance with section 14 of the Israeli Severance Pay Law, in accordance with which the Consolidated Group makes regular payments without it having a legal or implicit commitment to pay additional payments even if sufficient funds have not accumulated in the funds to pay all of the benefits to an employee that relate to the employee's employment in the current period and in previous periods.

Deposits in a defined contribution plan in respect of severance pay or in respect of emoluments are recognized as expense at the time of the deposit in the plan, in parallel to the receipt of the labor services from the employee and no additional provision is required in the financial statements.

(b) Expenses reflected in the statement of comprehensive income

(1) New notes issued by Altice Finco S.A. and Altice Financing S.A. are held in escrow and are not used as of December 31, 2013 (See note 11).

During the year ended December 31, 2013, Debentures issued by the Company included:

The Hot Telecom Debentures:

The Series A' debentures-EUR 167 million, linked to the Consumer Prices Index for Tel Aviv, bear yearly interest at a rate of 3,9%. Series A' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

The Series B' debentures-EUR 137 million bear yearly interest at a fixed rate of 6,9%. Series B' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

Altice Financing Senior Secured Notes:

Altice Financing S.A. has issued Senior Secured Notes in December 2012 and December 2013 to finance various acquisitions:

- $ 460.0 million senior secured notes, issued in December 2012, bearing a semi-annual coupon of 7.875% and maturing on December 15, 2019.
- EUR 210.0 million senior notes, issued in December 2012, bearing a semi-annual coupon of 8.0% and maturing on June 15, 2023.
- $ 900.0 million senior secured notes issued in December 2013, bearing a semi-annual coupon of 6.5% and maturing in 2022. These notes were issued in relation with the Orange Dominicana

17—Borrowings and other financial liabilities (Continued)

acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.

- EUR 300.0 million senior secured notes issued in December 2013, bearing a semi-annual coupon of 6.5% and maturing in 2022. These notes were issued in relation with the Orange Dominicana acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.

Altice Finco Senior Notes:

Altice Finco S.A. has issued Senior Notes in December 2012, June 2013 and December 2013 to finance various acquisitions:

- $ 425.0 million senior notes issued in December 2012, bearing a semi-annual coupon of 9.875% and maturing on December 15, 2020.
- EUR 250.0 million senior notes, issued in June 2013, bearing a semi-annual coupon of 9.0% and maturing on June 15, 2023.
- $ 400.0 million senior notes issued in December 2013, bearing a semi-annual coupon of 8.125% and maturing in 2024. These notes were issued in relation with the Orange Dominicana acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.

The Senior and Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and traded on the Euro MTF Market of the Luxembourg Stock Exchange.

17.2 Covenants

17.2.1 Hot Telecom

The unsecured debentures issued on the Tel Aviv Stock Exchange by the Consolidated Group's subsidiary Hot Telecom include financial covenants measured on Hot Telecom performance, which mainly include:

- A debt to EBITDA ratio, which is not to exceed 6 for a period that exceeds two consecutive quarters;
- No distribution of a dividend when Hot Telecom exceeds a debt to EBITDA ratio of 5.5.

As of December 31, 2013, Hot Telecom was in compliance with all of the required financial covenants.

17.2.2 Altice Blue One

As of December 31, 2012, Altice Blue One was in default of financial covenants, though it was not in default of any scheduled payments due to the lenders. As per the debt agreements, one consequence of this default could be early or accelerated repayment of the debts, if and only if such repayments are unanimously reclaimed by all of the lending agencies.

Altice Blue One debt was refinanced its external debt on July 2, 2013 and Altice Blue One is no longer subject to any debt covenants.

17.2.3 Coditel Holding

Financial covenants have been set for Coditel Holding, in the framework of the financing agreement entered into with a pool of financial institutions on December 2, 2011, based on the consolidated accounts of Coditel Holding S.A. On June 2, 2013, the senior facilities (A and B) were refinanced and repaid by anticipation, thus releasing Coditel Holding S.A. from any covenant requirements on the senior debt facility.

17—Borrowings and other financial liabilities (Continued)

As of December 31, 2013, Coditel Holding S.A. was in compliance with all of the required financial covenants on the Coditel Mezzanine debt.

17.2.4 Altice Finco and Altice Financing

Altice Finco and Altice Financing, the Senior and Senior Secured Notes issuers are subject to covenants that only come into effect every time new debts are issued with the following requirements:

- Secured net debt to EBITDA ratio: <3:1
- Unsecured net debt to EBITDA ratio: <4:1

The Consolidated Group is allowed to fully consolidate the EBITDA from any subsidiaries in which they have a controlling interest and that are contained in the restricted group as defined under the indenture. In addition, the Consolidated Group is allowed to use a general debt basket adjustment amounting to 4% of the total assets of the group, against the gross debt of the Group.

In case the Consolidated Group exceeds any of the two conditions mentioned above, it cannot incur any new debt, till such time as the ratios are met again. The Consolidated Group also has access to two super senior revolvers provided under the indenture, in case of any financing needs the Consolidated Group may face (for a total EUR equivalent amount of EUR 118.0 million).

17.2.5 Altice Six

Altice Six has pledged the shares it holds in the Numericable Group as collateral for a margin loan. Under the provision of the loan agreement, Altice Six must respect a certain ratio, the 'Collateral LTV ratio', failure to comply with which would entail certain penalties, which are enumerated below.

- The collateral LTV ratio is defined as the ratio between the aggregated outstanding loan amount (including accrued interests), less any cash present in the pledge account, divided by the market value of the shares provided as collateral by Altice Six.
- If the Collateral LTV ratio is greater or equal to 60%, then Altice Six is required to make a cash infusion into the collateral cash account, for an amount that represents the shortfall between the aggregate amount of outstanding debt (including accrued interest) and the amount of the aggregated amount of outstanding debt representing a collateral LTV ratio of 50%. The latter value is calculated using the share price of the collateral shares at closing on the day of default.

As of December 31, 2013, Altice Six was not in breach of the covenant, with a collateral LTV ratio of 36.4%.

17.3 Borrowings from financial institutions

In addition to the bonds described above, the Consolidated Group has issued the following debts:

- A mezzanine debt issued by Coditel Holding S.A. in 2011 with a principal amount of EUR 100.0 million, bearing cash interest at 8.5% and a PIK interest at 5.25% which is capitalized annually. This debt matures in 2016.
- A covenant lite term loan issued by Altice Financing S.A for a total amount of USD 1,034 million (EUR 795 million), bearing interest at Prime FFER, Libor + 4.5%) and maturing in June 2019.
- A margin loan facility at Altice Six, with a principal amount of EUR 323.9 million, bearing interest at a variable rate of 12 months Euribor + 4.25% for the first period, then 6 months Euribor +4.25% and maturing in October 2016.

Subordinated financial instruments have been issued by Altice VII and Altice Six.

(a) Altice VII

Subordinated financial instruments have been issued by Altice VII consists of:

YFPECs: Yield Free Preferred Equity Certificates;

ALPECs: Asset Linked Preferred Equity Certificate;

IFL: Interest Free Loans.

Conversely, according to our appreciation, and upon application of IAS 32/39, following instruments have to be classified as debt instruments:

ALPECs instruments (about EUR 94.3 Million as at the end of 2013; 2012 amount: EUR 104.6 million)

YFPECs instruments (about EUR 4.8 Million as at the end of 2013; 2012 amount: EUR 4.4 million)

IFL instruments (about EUR 0.2 million at the end of 2013; 2012 amount: EUR 0.2 million)

The YFPECs have been valued using a discount rate of 4.76% given its preferred interest rate which therefore values the liabilities at EUR 4.8 million as at December 31, 2013.

(b) Altice Six

All debt instruments previously issued by Altice Six have been reimbursed in exchange for capital increase of Altice Six or cash payments made by Altice Six. New YFPECs were issued by Altice Six on November 12, 2013 and subscribed by Next L.P. The New YFPECs are yield free instruments and hence under IAS 32/39, a fair value evaluation of such instruments is mandated.

The fair value of the new instruments was EUR 1.5 million as at December 31, 2013. The discounting rate used corresponds to the effective interest rate for Altice Six S.A. and is indexed to the external debt issued by the Company (5.3% as at December 31, 2013).

17—Borrowings and other financial liabilities (Continued)

All such debt instruments issued by Altice Six were converted into common shares of Altice S.A. on January 31, 2014.

17.5 Other financial liabilities

Other financial liabilities mainly consist of:

(i) Preferred equity certificates (PECs): These instruments bear a yield and shall have a maturity of 49 years.

On November 29, 2013, Altice Holding S.à r.l. acquired the PECs held by Codilink S.à r.l. (40% of the total amount). Following this transaction, all remaining PECs issued by Coditel Holding Lux II have been subscribed by Deficom Telecom, of which 26.2% is detained by Deficom Group S.A

- A coupon only forward transaction covering EUR 200 million of the EUR 200 million Senior Secured Notes issued by Altice Financing (of which EUR 10 million are unhedged), in which Altice pays Israeli Shekels and receives Euros, with an average hedged exchange rate of 5.036 ILS/EUR.

17.10 Non-cash transactions

Non-cash transactions consist of transactions where the Group has made payments to sellers of acquired entities or lenders (in case of debt repayments), with the cash being transferred directly to the third party.

The details of non-cash transactions are given below:

	December 31, 2013
(in millions of euros)	
Transaction costs related to acquisitions	(40.1)
Transaction with non-controlling interests	(120.9)
Acquisition of shares in associates	(243.7)
Net payments on acquisition of subsidiaries	(559.8)
Repayment of debt	(641.7)
TOTAL	**(1,606.2)**

In addition to this, Altice Six realized a non-cash gain arising from contribution of financial instruments to Numericable Group S.A. See note 27 for more details.

18—Obligations under finance leases

18.1 Leasing arrangements

The Consolidated Group leased certain of its office facilities under financial leases. The average lease term is 5 years (2012: 5 years). The Consolidated Group has options to purchase the equipment for a nominal amount at the end of the lease terms. Obligations under finance leases are secured by the lessors' title to the leased assets. Entities with major lease contracts are, (i) HOT and HOT mobile, (ii) Outremer Telecom and (iii) Auberimmo.

Interest rates underlying all obligations under finance leases are fixed at respective contract dates ranging from 3.5% to 5.5% (2012: 3.75% to 6%) per annum.

18—Obligations under finance leases (Continued)

18.1.1. Leasing arrangements

	Minimum lease payments	
	31 December 2013	31 December 2012
Less than one year	12.6	12.3
Between one and two years	7.3	7.2
Between two and three years	5.0	4.9
Between three and five years	2.8	2.9
More than five years	7.6	7.6
Less: future finance expenses	(2.9)	(2.6)
Present value of minimum lease payments	**35.3**	**34.9**

	31 December 2013	31 December 2012
Included in the consolidated financial statements as:		
Current borrowings (note 17)	23.4	27.1
Non-current borrowings (note 17)	11.4	7.8
Total	**34.8**	**34.9**

Current leasing obligations for HOT are listed below:

The HOT group (HOT Telecom and HOT mobile) leases equipment under finance leasing agreements. An arrangement exists within the framework of the leases, which does not meet the legal definition of leasing, but which is treated as a leasing agreement, based upon its terms. The leased equipment serves as collateral for the liabilities under the lease contract. As of December 31, 2013 the net carrying value of the leased facilities and equipment is EUR 38.1 million (NIS 182 million) (2012—EUR 41.7 million/NIS 205 million).

HOT Mobile has finance leasing in an amount of EUR 2.9 million in accordance with its rental contract with the company ''Airport City'' Ltd., which is for a period of 10 years ending in 2019. As of December 31, 2013, there is no balance recorded in the accounting records in respect of leasehold improvements (as of December 31, 2012, the net carrying value of leasehold improvements was EUR 3.0 million).

The Consolidated Group has recorded finance leasing in respect of the Bezeq agreement. As of December 31, 2013, the finance leasing commitment in respect of the long-term Bezeq rental fees was updated by an amount of EUR 0.4 million (NIS 2 million), as a result of additional payments made in respect of the leasing in the reporting period (as of December 31, 2012—EUR 0.4 million/NIS 2 million).

Other leasing contracts exist at Auberimmo, a datacenter owned by the Consolidated Group and operating in France. The facility was purchased under a finance lease agreement for an initial amount of EUR 5.6 million. A second tranche was issued to carry out renovations and leasehold improvements, amounting to a total of EUR 3.0 million.

19—Financial risk factors

In the course of its business, the Consolidated Group is exposed to a number of financial risks: credit risk, liquidity risk, market risk (including foreign currency risk and interest rate risk) and other risks (including equity price risk and settlement risk). This note presents the Consolidated Group's objectives, policies and processes for managing its financial risk and capital.

Financial risk management is an integral part of the way the Consolidated Group is managed. The Board of Directors establishes the Consolidated Group's financial policies and the Chief Executive Officer establishes objectives in line with these policies.

The Consolidated Group is not subject to any externally imposed capital requirements.

19—Financial risk factors (Continued)

19.1 Credit risk

The Consolidated Group does not have significant concentrations of credit risk. The credit risk may arise from the exposures of commitments under a number of financial instruments with one body or as the result of commitments with a number of groups of debtors with similar economic characteristics, whose ability to meet their commitments could be similarly affected by economic or other changes.

The Consolidated Group's income mainly derives from customers in Israel, in the French Overseas Territories and in Europe (Belgium, Luxembourg, Portugal and Switzerland). The Consolidated Group regularly monitors its customers' debts and provisions for doubtful debts are recorded in the consolidated financial statements, which provide a fair value of the loss that is inherent to debts whose collection lies in doubt.

The Consolidated Group does not have significant concentration of credit risk, as a result of the Consolidated Group's policy, which ensures that the sales are mostly made under standing orders or via credit cards.

19.2 Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which manages liquidity risk by maintaining adequate reserves, banking facilities and reserves borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

19.3 Market risks

The Consolidated Group is exposed to risk from movements in foreign currency exchange rates, interest rates and market prices that affect its assets, liabilities and anticipated future transactions.

19.3.1 Interest rate risk

Interest rate risk comprises the interest price risk that results from borrowings at fixed rates and the interest cash flow risk that results from borrowings at variable rates.

The Consolidated Group has an exposure to changes of interest rate in the market, deriving from long-term loans that have been received and which bear variable rate interest.

Interest structure of non-current financial debt (including interest effects of derivatives):

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Financial debt at fixed rates	2,843.1	1,670.8
Financial debt at variable rates	1,345.5	333.4
TOTAL	**4,188.6**	**2,004.2**

31 December 2013	Weighted average effective interest rate	< 1 year	1 - 5 years	5+ years	Total	Carrying amount
Non-interest bearing	—	—	—	4.9	4.9	4.9
Variable interest rate instruments[(1)]	5.9%	73.9	1,309.7	481.1	1,864.7	1,345.5
Fixed interest rate instruments	7.7%	272.6	1,942.4	1,712.6	3,927.7	2,838.2

19—Financial risk factors (Continued)

31 December 2012	Weighted average effective interest rate	< 1 year	1 - 5 years	5+ years	Total	Carrying amount
Non-interest bearing	—	—	—	4.4	4.4	4.4
Variable interest rate instruments	5.1%	—	5.6	326.3	842.2	333.4
Fixed interest rate instruments	7.4%	—	—	839.4	839.4	1,666.4

(1) The carrying amount of variable interest rate instruments excludes the following items included in note 17.6, 'accrued interest. Other financial liabilities and financial instruments'

19.3.2 Israeli CPI risk

The Consolidated Group has borrowed from banks and issued debentures that are linked to the changes in the Israeli CPI. Also, the Consolidated Group has deposits and gave loans that are linked to the changes in the Israeli CPI. The net amount of the financial instruments that are linked to the Israeli CPI and for which the Consolidated Group is exposed to changes in the Israeli CPI amounted to approximately EUR 187.0 million (NIS 895 million) as of December 31, 2013.

19.3.3 Foreign currency management

1. Foreign currency sensitivity analysis

The Consolidated Group is exposed to foreign currency risk from transactions and translation. Transactional exposures are managed within a prudent and systematic hedging policy in accordance with the Consolidated Group's specific business needs. Translation exposure arises from the consolidation of the financial statements of foreign operations in euros, which is, in principle, not hedged. The Consolidated Group's objective is to manage its foreign currency exposure through the use of currency forwards, futures and swaps.

	December 31, 2013		
	Israeli Shekel	Swiss Franc	Total
	(in millions of euros)		
Profit for the year			
Increase of 10% in exchange rate	(12.8)	(0.2)	(12.9)
Decrease of 10% in exchange rate	12.8	0.2	12.9
Equity			
Increase of 10% in exchange rate	5.6	2.1	7.6
Decrease of 10% in exchange rate	(5.6)	(2.1)	(7.6)

	December 31, 2012		
	Israeli Shekel	Swiss Franc	Total
	(in millions of euros)		
Profit for the year			
Increase of 10% in exchange rate	(12.9)	(0.1)	(13.1)
Decrease of 10% in exchange rate	12.9	0.1	13.1
Equity			
Increase of 10% in exchange rate	23.3	3.0	26.3
Decrease of 10% in exchange rate	(23.3)	(3.0)	(26.3)

Exchange differences recorded in the income statement represented a profit of EUR 66.5 million in 2013 (2012: loss of EUR 22.5 million). They are allocated to the appropriate headings of expenses by nature.

The Consolidated Group estimates that a 10% variation of foreign currencies against euro parity is a relevant change of variables and reasonably possible risk in a year and the presented above allows to

19—Financial risk factors (Continued)

assess the impact of a 10% increase of foreign currencies against euro on net result and reserves. A 10% decrease would have a symmetrical impact with the same amounts but in the opposite direction.

2. Foreign currency hedging

It is the policy of the Consolidated Group to enter into hedging foreign exchange contracts to cover specific foreign currency payments and receipts.

The following table details the hedging contracts outstanding at the end of the financial year:

	Average exchange rate	Foreign currency	Notional Value	Fair Value of assets(1)
Outstanding swap contracts (ILS coupons only)	4.34	3,201.8	620.6	(25.0)
Outstanding swap contracts (EUR coupons only)	0.79	415.5	392.0	(12.9)
Outstanding forward contracts (ILS coupons only)	4.31	2,154.3	426.7	(22.7)
Outstanding forward contracts (ILS nominal only)	5.07	2,125.0	362.6	(81.7)

(1) Fair value of swap and forward contracts as of December 31, 2012 amounted to EUR 62.5 million

19.3.4 Price risk

The Consolidated Group has investments in listed financial instruments, shares and debentures that are classified as available-for-sale financial assets and financial assets at fair value through profit or loss in respect of which the Consolidated Group is exposed to risk of fluctuations in the security price that is determined by reference to the quoted market price. As of December 31, 2013, the carrying amount of these investments was EUR 9.4 million (6.1 million as of December 31, 2012).

19.4 Gearing computation

For the year ended December 31, 2013, the Consolidated Group had a net equity position of EUR 95.3 million, thus resulting in a gearing ratio of 43.3

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Net Debt	**4,188.9**	**2,004.3**
Cash and cash equivalents	(61.6)	(129.8)
Total equity	**95.3**	**278.1**
Gearing	**43.3**	**6.7**

19.5 Fair value of financial assets and liabilities

19.5.1 Fair value of the Consolidated Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

Some of the Consolidated Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these

19—Financial risk factors (Continued)

financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

Financial assets/ Financial liabilities	Fair value as at 31/12/2013	Fair value as at 31/12/2012	Fair value hierarchy	Valuation technique(s) and key input (s)	Significant unobservable differences	Relationship of unobservable differences
Foreign currency forward contracts (see notes 17.8)	(104.9)	(52.6)	Level 2	Zero curve	N/A N/A	N/A N/A
Interest rate swaps (see note 17.8)	(37.9)	(9.8)	Level 2	Zero curve	N/A N/A	N/A N/A
AFS					N/A	N/A
—Wananchi[(1)]	31.9	—	Level 3	Internal approach using business plans	N/A	N/A
—Partner and Co.	8.4	6.1	Level 1	Quoted price in an active market	N/A	N/A

(1) In April 2012, the Consolidated Group made an investment in the East-African cable operator Wananchi, to gain a foothold in the strategic and fast developing African cable and telecom market. To date the Consolidated Group has invested a total of EUR 34.9 million ($ 48.4million, of which EUR 31.9 million in equity and EUR 3.0 as a convertible note, as of the year ended December 31, 2013) in this venture, alongside other industry peers, and has acquired a total stake of 17.5% in Wananchi. Given the specific geo-economic context of the zone that Wananchi operates in, the high growth rate, infrastructure development needs and volatilities associated with the region, the Board of Directors considers that the carrying amount of its investment reflects the fair value of the investment as of December 31, 2013.

19.5.2 Reconciliation of Level 3 fair value measurements

	Available for sale (unlisted shares)	Others	Total
31 December 2013			
Opening balance	0.0	—	0.0
Total gains or losses:			
—in profit or loss	0.0	—	0.0
—in other comprehensive income		—	
Purchases[(*)]	31.9		31.9
Issues	—	—	—
Disposals/settlements	—	—	—
Transfers in level 3	—	—	—
Transfers out of level 3	—	—	—
Closing balance	**31.9**	**—**	**31.9**

There were no available for sale instruments classified as level 3 for the year ended December 31, 2012.

(*) As at December 31, 2012 and during the year 2013, the Consolidated Group invested into convertible bonds issued by Wananchi. Such bonds have been converted during the year in exchange for shares of Wananchi.

20—Trade and other payables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Trade payables	392.9	314.2
Corporate and social security contributions	29.8	24.5
Other payables	94.3	38.9
Amounts due to related parties	0.1	0.2
Deposit and guarantee received	0.4	—
Total current payables	**517.4**	**377.8**
Trade payables-acquisition of assets	13.0	5.9
Other payables	16.0	32.9
Total non-current payables	**29.0**	**38.8**

The increase in trade payables can mainly be attributed to the acquisitions of Outremer, ONI and integration of MCS and SportV in the scope of consolidation of the Consolidated Group in 2013.

The increase in income tax payables can be attributed to an improvement in the profit before tax at HOT and a concomitant increase in the income tax rate in Israel from 25.0% to 26.5% as compared to FY2012.

21—Deferred revenues

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Current deferred revenue	55.9	34.1
Non-current deferred revenue	10.6	10.8
Total deferred revenues	**66.5**	**44.9**

Current deferred revenues refer to revenues recognized from customers billed in advance of the monthly cut-off. Non-current deferred revenues result from multi-year contracts with business customers.

The increase in deferred revenues for the year ended December 31, 2013 was mainly due to an increase in price of certain products for the year ended December 31, 2013 and the subsequent billing and revenue collection of these subscriptions before the year end.

22—Classification and fair value of financial assets and liabilities

On December 31, 2013 and 2012, the principles for measuring financial instruments and their market value break down as follows:

	December 31, 2013			
			Fair Value	
	Book value	Amortized cost	Fair value through profit/loss	Assets available for sale
	(in millions of euros)			
Current assets				
Cash and cash equivalents	61.6	61.6	—	—
Restricted cash	1242.7	1242.7	—	—
Trade receivables	194.0	194.0	—	—
Other receivables	38.4	38.4	—	—
Non-current assets			—	—
Restricted cash	1.8	1.8	—	—
Loans and receivables	3.0	3.0		
Available for Sale	40.3	—	—	40.3
Long term trade receivables	5.5	5.5	—	—
Other long-term trade receivables	22.8	22.8	—	—
	1,610.1	**1,569.8**	**0.0**	**40.3**

	Book value	Amortized cost	Fair value
Current liabilities			
Credit from banking corporations and debentures	59.7	59.7	—
Loans from related parties	—	—	—
Trade payables	383.4	383.4	—
Others payables	246.8	246.8	—
Other current liabilities	15.9	15.9	—
Non-current liabilities			—
Loans from banking corporations and debentures	3,840.2	3,840.2	—
Other financial liabilities	271.6	129.3	142.3
Other non-current liabilities	39.6	39.6	—
	4,857.2	**4,714.9**	**142.3**

	December 31, 2012			
	Book value	Amortized cost	Fair value through profit/loss	Assets available for sale
Current assets				
Cash and cash equivalents	129.7	129.7	—	—
Trade receivables	150.8	150.8	—	—
Other receivables	37.9	37.9	—	—
Non-current assets				
Restricted cash	9.6	9.6	—	—
Investments in financial assets available for sale	—	—	—	—
Available for Sale	6.1	—	—	6.1
Long term trade receivables	18.7	18.7	—	—
Other long-term trade receivables	24.2	24.2	—	—
	377.0	**370.9**	**—**	**6.1**

22—Classification and fair value of financial assets and liabilities (Continued)

	Book value	Amortized cost	Fair value
Current liabilities			
Credit from banking corporations and debentures	111.9	111.9	—
Trade payables	311.3	311.3	—
Others payables	111.4	111.4	—
Short-term loans from related parties	14.3	14.3	—
Other current liabilities	8.7	8.7	
Non-current liabilities			
Loans from banking corporations and debentures	1,365.7	1,365.7	—
Long-term loans from related parties	322.4	322.4	—
Other financial liabilities	181.2	118.70	62.5
Other non-current liabilities	49.5	49.5	—
	2,476.4	**2,413.9**	**62.5**

23—Taxes on income

23.1 Income tax (expense)/benefit

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Current income tax	(38.0)	4.2

23.4 Tax assessments

23.4.1 Hot Telecom

On December 22, 2013, an agreement was signed between Cool Holdings Ltd and all of its subsidiary companies (except for HOT Mobile Ltd.) (hereinafter in this section—the companies) and the Israeli Income Tax Authority for the closure of disputes that had arisen in the assessment discussions for the years 2006 - 2011 and in continuation of the tax assessments that had been received in December 2009 and during the course of 2010 for the 2006 - 2008 tax years. Pursuant to the compromise agreements the companies will be required to pay an additional amount of tax in respect of the said tax years, primarily in respect of timing differences in respect of the depreciation of the infrastructure and the cables network and the amortization of intangible assets. The implementation of the compromise agreements will result in the Company having chargeable income in 2012 and 2013 as well.

23—Taxes on income (Continued)

HOT Telecom's management has recorded the provision relating to the assessments in its financial statements in the past.

The impact of such assessment agreement in HOT's financial statements, including in respect of the updating of the HOT's deferred tax balances, is a net income of EUR 5.0 million.

Most of the companies have been issued with final tax assessments up to and including the 2011 tax year. HOT Mobile has been issued with tax assessments up to and including the 2009 tax year, which are deemed to be final.

23.4.2 Cabovisao

For the years 2012 and 2013, Cabovisao is subject to corporate income tax (''IRC—Imposto sobre o Rendimento das Pessoas Colectivas'') at a rate of 25%, increased (i) up to a maximum of 1.5% of taxable income through a municipal tax (''Derrama''); and (ii) by a 3% and 5% state tax (''Derrama Estadual'') applicable on taxable income between 1,5 million Euros and EUR 10 million (EUR 7.5 million as from January 1, 2013, following a change in Portuguese tax legislation occurred in December 2012) and on taxable income in excess of EUR 10 million (EUR 7.5 million as from January 1, 2013), respectively, in accordance with the article 87- A of the Portuguese Corporate Income Tax code, resulting in a maximum aggregate tax rate of approximately 31.5%.

In accordance with article 88º of the Portuguese Corporate Income Tax code, the Company is subject to an autonomous taxation over some expenses at the rates defined in that article.

As at December 31, 2013, the Company's tax returns, for the fiscal periods of 2006 until 2010, are being reviewed by Portuguese tax authorities. During the year ended December 31, 2013, the Company already received a tax notification, adjusting the Company's tax losses obtained in the fiscal year ended 2006, in the amount of approximately EUR 16.5 million. However, as of December 31, 2013, any carrying forward tax losses obtained in the fiscal year ended 2006 already expired, and therefore cannot be used to reduce future taxable profits.

The Company was subject to an inspection from the Portuguese tax authorities for the fiscal years 2003 to 2006, and the outcome was the following:

- An assessment of the Portuguese Tax Authorities related to 2005, requested an adjustment of tax losses in the amount of EUR 17.2 million, as well as an additional tax payment in the amount of EUR 4.1 million for withholding tax and stamp tax. The Company paid EUR 2.9 million and contested this decision through an appeal, but has not received the final decision yet. The unpaid amount of, approximately, EUR 1.0 million (excluding related late payment interests) was contested on appeal. In the year ended August 31, 2012, the Corporate Tax Authority accepted the claim. As of today, there were not any subsequent deliberations after that decision. The Board of Directors understands that the final outcome of this matter will be favorable to the Company.
- An assessment of the tax payable concluded that there was withholding tax due in the amount of approximately EUR 5.2 million (excluding related late payment interests). Cabovisao doesn't agree with this assessment, having filed a gracious complaint and submitted a bank guarantee in the amount of approximately EUR 6.8 million. As of December 31, 2013, the administrative and tax court of Almada didn't pronounce itself on that claim. The Board of Directors understands that the final outcome of this matter will be favorable to the Company.

23.4.3 Other entities

The Board of Directors has not identified any other material tax assessments in other group entities.

23—Taxes on income (Continued)

23.5 Unrecognized deferred tax assets

As at December 31, 2013, unrecognized deferred tax assets amount to EUR 253.0 million and are mainly split as follows:

	December 31, 2013	December 31, 2012
	(in million Euros)	
Cool Holding and HOT Telecom	(13.9)	—
HOT Mobile	(118.9)	(10.8)
Altice Financing	(3.9)	—
Altice Six	(342.6)	(342.6)
Cabovisao	(56.0)	(51.3)
Altice Finco	(1.8)	—
Altice Holdings	(36.9)	—
Altice Caribbean	(1.5)	—
Altice Blue Two	(6.4)	—
ONI	(11.8)	—
Others	(2.0)	—
Total	**(595.7)**	**(404.8)**

24—Segment analysis

24.1 Definitions of segments

Given the geographic spread of the various Group entities, it logically follows that an analysis and control by geography is inalienable to the Group strategy of managing its different businesses. It has thus been decided by the central management team to analyse the business across geographies and then by activity. The following geographies have been identified:

- Israel,
- Belgium and Luxembourg (Western Europe),
- Portugal (Western Europe)
- France (Western Europe)
- French Overseas Territories (Antilles and Indian Ocean),
- Others (Switzerland, Africa, France etc.).

Activities have been split as follows:

- Cable,
- Mobile,
- B2B and Others (Content/etc.).

Following the signature of agreements to acquire Tricom and Orange Dominicana in the Dominican Republic in October and November 2013 respectively, a new segment, ''Dominican Republic'', will be defined. Given the nature of the activities of the two firms, there will be no changes to the activities segment.

24.1.1 Operational KPIs

It has also been decided by Management that operating subsidiaries shall report operational KPIs every week together with financial KPIs every month, using a standard reporting format.

24—Segment analysis (Continued)

The main operational KPIs include:

The main operational KPIs that will be tracked will be:

Subscriber base evolution (both cable and mobile),

ARPU (Average Revenue per Unit) (cable and mobile),

Other relevant cost drivers.

These KPIs are benchmark indicators followed throughout the industry and allow for a thorough and accurate analysis of the business and strategic decision making.

24.1.2 Financial KPIs

Each local operational company will also report on a monthly basis the following financial KPIs by segment:

Revenues (Cable/Mobile/B2B and Others),

Cost of Sales (Cable/Mobile/B2B and Others),

Capex (Cable/Mobile/B2B and Others).

The central team believes that given the uniformity in the accounting and nature of operating expenses and given the experience and competence of the Consolidated Group in managing operating costs, the main indicator that can vary between business units is the gross margin.

Capital expenditure (Capex) is an important indicator to follow, as the profile varies greatly between the two activities:

The cable business has fixed Capex requirements that are mainly discretionary (network, platforms, general), and variable Capex requirements related to the connection of new customers and the purchase of Customer Premise Equipment (TV decoder, modem, etc).

Mobile Capex are mainly driven by investment in new mobile sites, upgrade to new mobile technology and licences to operate. Once Capex are engaged and operational, there are limited Capex requirement.

Management believes that operations in Switzerland are currently not substantial enough to require a separate reporting segment, and will be reported under 'B2B and Others'. However, as these activities grow, it is intended that they are also reported under a separate segment with relevant operating KPIs specific to the activity.

24.2 Regional specificities

24.2.1 Israel

Israel is currently an important contributor to the Consolidated Group revenues and EBITDA and has particularities that differentiate it. For this reason, it is classified as a separate region.

It is characterised by a high broadband and cable penetration and a very technology-savy population. Segments within the Israeli telecom market show different level of maturity and competition, with relatively frequent interventions from the regulator. Management is factoring expectations for price pressure and increasing competition in its strategic plan.

Triple play penetration is low and represents a valuable growth driver.

The regulatory environment does not yet allow for quadruple play packages (coupling fixed and mobile services), which Management need to consider when setting up integration plans and operational synergies. The prevailing political environment in the region can also have adverse impacts on the

24—Segment analysis (Continued)

development of the business, as a deterioration of the situation may have serious repercussions on the market environment and may even lead to physical damage of the infrastructure.

24.2.2 Belgium and Luxembourg

Even though Belgium/Luxembourg and Portugal can be considered to be the same sub-region, the challenges posed by these two regions are quite different.

The Belgian and Luxembourg territories have a high standard of living and well developed economies, which translates into higher prices for services. The markets are quite mature, with high broadband penetration. Customers are willing to pay more for premium services and hence price pressure appears limited.

These regions are marked by the presence of many well established local cable operators with no overlap thou. Customer retention is a key factor in maintaining strong profit margins.

Given the density and presence of mobile operators, the mobile strategy has been driven by Mobile Virtual Network operations, through the deployment of quadruple play packages.

24.2.3 France

The French market is a large and mature market with high cable penetration and a large consumer base. French operations represent the oldest and largest part of the cable operations of the combined Group to date.

This region is marked by the presence of many well established cable operators and customer retention is a key factor in maintain strong profit margins. Competition is tough and innovations in cable technology, such as Fiber to the home (FTTH) are driving market growth. Incumbent operators are slowly migrating to fiber optic based networks which gives the Group a head start in capturing the ultra-high speed internet market, given its pre-existing high density cable network.

Given the density and presence of mobile operators, the mobile strategy is driven by MVN operations, which allows the presence of quadruple play packages.

24.2.4 Portugal

The Portuguese market is marked by a high concentration of double play subscribers and a mature telecommunications market, which, when coupled with slow economic recovery, makes it difficult to achieve revenue growth. This market is marked by high subscriber attrition and downward migration from high to low ARPU offers.

The challenge in Portugal is to maintain a subscriber base and migrate the customer base from double play to triple play offers.

24.2.5 French Overseas Territories

The French Overseas Territories present growth opportunities with relatively limited competition and room to attract more subscribers on our cable infrastructure. Additional growth potential exists notably through the deployment of multiple-play services and efficiency gains in distribution network, , as multiple-play packages penetration remains low. Price pressure is low in these regions and customers are willing to pay more for value added services.

Additional opportunities have been identified and pursued in the e-banking sector.

24—Segment analysis (Continued)

24.3 Segment information

Details regarding revenues, cost of sales and gross profit for our cable, mobile and other segments are as follows:

		December 31, 2013					
	Total	Belgium & Luxembourg	France	Israel	French Overseas Territories	Portugal	Others

25—Operating expenses

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Technical and maintenance costs	(149.7)	(141.9)
Customer services	(32.9)	(18.3)
Taxes	(3.6)	(2.4)
Total	**(186.2)**	**(162.5)**

26—Depreciation, amortization and goodwill impairment.

It consists in (i) amortization of intangible assets for a total of EUR 133.4 million (2012: EUR 245.7 million including EUR 121.9 million of goodwill impairment), (ii) depreciation of tangible assets for a total of EUR 251.4 (2012: EUR: 219.6 million) and (iii) other additions and reversals for a total of EUR 14.8 million (mainly representing additional depreciation on inventories and receivables) (2012: EUR 77.10 million, representing a net reversal for the year).

27—Gain on settlement of financial instruments

The gain on settlement of financial instruments recorded in the financial statements of Altice Six S.A. in the year ended December 31, 2013, corresponds to the difference between the carrying amount of the loans and receivables contributed by Altice Six in exchange for shares in Numericable Group S.A. and the fair value of these instruments as recorded in the IFRS financial statements of Altice Six at the time of the contribution.

The carrying amount of the loans at the time of the contribution was EUR 418.3 million and the fair value recorded in the IFRS accounts of Altice Six amounted to EUR 162.6 million, thus leading to a gain of EUR 255.7 million.

28—Other operating incomes and expenses

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Other incomes and expenses	(17.0)	(24.9)
Other revenues	0.9	—
Disposal of tangible assets	1.0	(4.8)
Other expenses, net	**(15.1)**	**(29.8)**
Non-recurring costs(1)	(58.3)	(22.4)
Restructuring costs(2)	(2.9)	(6.7)
Restructuring and other non-recurring costs	**(61.2)**	**(20.8)**
Total	**(76.3)**	**(50.5)**

(1) The increase of non-recurring costs is mainly explained by a one-off EUR 31.6 million charge booked at HOT Mobile concerning the entering into a new network sharing agreement with Partner Telecommunication and the termination of the existing agreement with Pelephone. The provision relates to any cost overlap resulting from the use of Pelephone's network during the transition phase. In addition, Altice financing incurred costs related to consultants' fees and other outlays related to the acquisition of OMT Invest S.A.S and Winreason S.A.

(2) Restructuring costs decreased in the year ended December 31, 2013 as a result of the completion of restructuring at Cabovisao. The charge of EUR 2.9 million refers to the restructuring costs engaged at ONI telecom since its acquisition in august 2012.

29—Net finance costs

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Gain arising on fair value of financial instruments(1)	2.6	1.2
Foreign exchange gains	91.0	24.7
Interest income	27.3	10.3
Other financial income	2.5	4.5
Finance income	**120.9**	**40.7**
Interest charges on borrowings and overdrafts(2)	(201.5)	(118.5)
Loss arising on fair value of financial instruments	(99.4)	(72.0)
Interest on subordinated debt	(37.6)	(11.5)
Foreign exchange losses	(24.5)	(2.1)
Net book-value of disposal/financial assets	(13.6)	(21.2)
Finance costs	**(376.6)**	**(225.4)**
Total	**(255.6)**	**(184.7)**

(1) Gains arising on fair value variations of financial and subordinated financial instruments issued by the Company for a total amount of EUR 1.4 million and a gain on interest rate swaps recorded at Altice financing for a total amount of EUR 1.3 million.

(2) The increase in interest expense for the year ended December 31, 2013 was primarily due to (i) the issuance of new debt to finance the Outremer Telecom and ONI transactions (EUR 12.9 million impact in 2013) and (ii) the full year impact of the debt incurred to finance the HOT take private in 2012 (EUR 47.45 million in 2013).

30—Transactions with non-controlling interests

On April 23, 2013, the company repurchased the 40% minority interests held by Apax in its Portuguese subsidiary, Cabovisao for a total consideration of EUR 105.0 million, of which EUR 90.0 million was paid as consideration for equity acquired and EUR 15.0 million used in the repayment of a shareholder loan. The total amount of equity acquired was valued at EUR 13.1 million and the impact on the net equity of the Consolidated Group was EUR 77.0 million following the consummation of the deal.

On November 29, 2013, the company repurchased the 40% minority interests held by Apax though its holding company Codilink S.à r.l. in Coditel Holding Lux and Coditel Management. The total

30—Transactions with non-controlling interests (Continued)

consideration paid was EUR 82.5 million, of which EUR 30.6 million was paid to acquire shares in Coditel Holding Lux II and EUR 51.9 paid to reimburse subordinated debt instruments (CPECs) held by the minority shareholder. The amount of equity acquired by the Consolidated Group was valued at EUR 1.7 million, with a total impact of EUR 28.9 on the Consolidated Group net equity following the consummation of the deal.

31—Average workforce

	December 31, 2013	December 31, 2012
Managers	352	268
Technicians	857	660
Employees	3,011	4,719
	4,220	**5,647**

32—Transaction with related parties

32.1 Trading and financial transaction

Transactions with related parties mainly related to transactions with Numericable Group, Next L.P. or Altice Six S.A.. Such transactions are limited to (i) re-invoicing of certain operational services granted by Numericable Group to certain subsidiaries of Altice VII, or (ii) shareholder preferred equity certificates or loan issued by Altice VII and held by Next L.P.

Transaction with related parties that directly impact the reserves of the Consolidated Group are summarized in note 13.

Other related parties include consulting firms specialized in the management and operations of telecom companies and executive managers of Altice VII. The fees paid to the consulting companies include recurring fees paid based on service level agreements established with Altice VII, one-off success fees for the successful completion of acquisitions or negotiations with banks on debt contracts/bond issuance and reimbursement of any outlays and expenditures incurred by the employees of these companies when working on behalf of Altice VII. Transactions with executive managers include loans provided to them by the Company.

33.1 Hot Telecom Commitments

33.1.1 Commitments

A. *Contingent liabilities*

1. Within the framework of the merger of the cable companies on December 31, 2006, the Company assumed responsibility for the existing claims in the field of activity of the acquired companies (the cable

33—Contractual obligations and commercial commitments (Continued)

companies in their former format), furthermore, it was determined that the Company would assume responsibility for any claim that might be filed in the interim period by any of the acquired companies after the time of the completion of the merger of the cable companies.

In addition, the Company has entered into a commitment under an indemnification agreement with each of the three previous holders of the rights in the HOT Gold Partnership (the Tevel Group, the Yedioth Communications and the Fishman Group) in accordance with which the Company has undertaken to fully indemnify the partners in the HOT Gold Partnership, prior to the completion of the merger transaction, so that they will be released from all responsibility, commitment or debt of any sort whatsoever that HOT Gold had on December 31, 2006 or that HOT Gold might have had after that date, and which relate to the period prior to the completion of the merger, including in respect of claims and legal proceedings.

2. Lawsuits have been filed and are pending against companies in the Consolidated Group in the routine course of business and various legal proceedings are outstanding against it (hereinafter—Lawsuits).

In the opinion of the managements of the Consolidated Group companies, based, inter alia, on legal opinions in respect of the chances of the lawsuits, appropriate provisions have been recorded in the financial statements as of December 31, 2013 in an amount of EUR 11.1 million, were provisions are required, to cover the exposure in respect of the said lawsuits.
