**[Falls ein Mindestzinssatz anwendbar ist, gilt Folgendes:** Wenn der gemäß den vorstehenden Bestimmungen für eine Zinsperiode ermittelte Zinssatz niedriger ist als der Mindestzinssatz, entspricht der Zinssatz für diese Zinsperiode dem Mindestzinssatz. Der Mindestzinssatz entspricht [●].]

**[Falls ein Höchstzinssatz anwendbar ist, gilt Folgendes:** Wenn der gemäß den vorstehenden Bestimmungen für eine Zinsperiode ermittelte Zinssatz höher ist als der Höchstzinssatz, entspricht der Zinssatz für diese Zinsperiode dem Höchstzinssatz. Der Höchstzinssatz entspricht [●].]

[(6)] *Berechnungen und Feststellungen.* Soweit in diesem § 3 nicht etwas anderes bestimmt ist, werden sämtliche Berechnungen und Feststellungen, die nach diesem § 3 vorzunehmen sind, durch die Berechnungsstelle vorgenommen. Die Berechnungsstelle legt den Zinssatz an den für die Festlegung des Zinssatzes jeweils vorgesehenen Terminen oder so bald wie möglich danach fest.

[(7)] *Mitteilungen von Zinssatz und Zinsbetrag.* Die Berechnungsstelle wird veranlassen, dass der Zinssatz und jeder Zinsbetrag für eine jede Zinsperiode der Emittentin und den Pfandbriefgläubigern gemäß § 10 und, sofern die Vorschriften einer Börse, an der die Pfandbriefe zu dem betreffenden Zeitpunkt zum Handel zugelassen sind, dies verlangen, der betreffenden Börse so bald wie möglich nach der Feststellung, keinesfalls aber später als am [vierten Geschäftstag] [anderer Zeitpunkt] nach der Feststellung mitgeteilt werden. Im Fall einer Verlängerung oder Verkürzung der Zinsperiode können der mitgeteilte Zinsbetrag ohne Vorankündigung nachträglich abgeändert (oder andere geeignete Anpassungsregelungen getroffen) werden. Jede solche Änderung wird jeder Börse, an der die Pfandbriefe zu dem betreffenden Zeitpunkt zum Handel zugelassen sind, und den Pfandbriefgläubigern gemäß § 10 mitgeteilt.

[(8)] *Verbindlichkeit der Feststellungen.* Alle Bescheinigungen, Mitteilungen, Gutachten, Feststellungen, Berechnungen, Quotierungen und Entscheidungen, die von der Berechnungsstelle, einem Unabhängigen Berater oder der Emittentin für die Zwecke dieses § 3 vorgenommen, abgegeben, getroffen oder eingeholt werden, sind (sofern nicht ein offensichtlicher Irrtum vorliegt) für die Emittentin, den Fiscal Agent, die Zahlstellen und die Pfandbriefgläubiger bindend.

[(9)] *Auflaufende Zinsen.* Der Zinslauf der Pfandbriefe endet mit Ablauf des Tages, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden, es sei denn, die Rückzahlung wird unberechtigterweise vorenthalten oder verweigert. Zahlt die Emittentin die Pfandbriefe nicht bei Fälligkeit zurück, wird der ausstehende Gesamtnennbetrag der Pfandbriefe weiter verzinst, und zwar ab dem Tag, an dem die Pfandbriefe zur Rückzahlung fällig werden, (einschließlich) bis zum Ablauf des Tages, der dem Tag der tatsächlichen Rückzahlung der Pfandbriefe vorangeht (ausschließlich), wobei der gesetzliche Verzugszinssatz Anwendung findet (der gesetzliche Verzugszinssatz beträgt fünf Prozentpunkte über dem von der Deutschen Bundesbank jeweils veröffentlichten Basiszinssatz, §§ 288 Abs. 1, 247 Bürgerliches Gesetzbuch (BGB); der gesetzliche Verzugszinssatz schließt darüber hinausgehende

Schadensersatzansprüche nicht aus).

**IM FALL VON

GILT FOLGENDES:**

[(10)] *Zinssatz-Ersetzung.* Im Falle, dass die Emittentin feststellt, dass an oder vor einem Zinsfestlegungstag (der "**Maßgebliche Zinsfestlegungstag**") ein Zinssatz-Ersetzungsgrund in Bezug auf einen Variablen Zinssatz eingetreten ist, hat die Maßgebliche Festlegende Stelle, falls sie gegenüber der Emittentin den Eintritt dieses Zinssatz-Ersetzungsgrunds bestätigt (sofern es sich bei der Maßgeblichen Festlegenden Stelle nicht um die Emittentin handelt), nach ihrem billigen Ermessen (i) einen Ersatzzinssatz für den maßgeblichen Variablen Zinssatz und (ii) Ersatzzinssatz-Anpassungen festzulegen und ihre Festlegungen der Emittentin und der Berechnungsstelle (sofern es sich bei diesen jeweils nicht um die Maßgebliche Festlegende Stelle handelt) unverzüglich mitzuteilen.

Der (etwaige) in dieser Weise festgelegte Ersatzzinssatz ersetzt, unter Anwendung der Anpassungsspanne gemäß den Bestimmungen dieser Bedingungen, den maßgeblichen Variablen Zinssatz, und die Bedingungen gelten des Weiteren für die Zwecke der Festlegung des Zinssatzes jeweils für die Zinsperiode in Bezug auf den Zinsfestlegungstag, der auf den Ersatzzinssatz-Festlegungstag fällt oder, falls auf diesen Tag kein Zinsfestlegungstag fällt, der unmittelbar auf den Tag des Ersatzzinssatz-Festlegungstags folgt, sowie jede nachfolgende Zinsperiode als durch die in dieser Weise festgelegten Ersatzzinssatz-Anpassungen abgeändert (vorbehaltlich des nachfolgenden Eintritts eines Zinssatz-Ersetzungsgrunds in Bezug auf den Ersatzzinssatz). Die Emittentin wird den Pfandbriefgläubigern so bald wie möglich nach dem Ersatzzinssatz-Festlegungstag den Ersatzzinssatz sowie die Ersatzzinssatz-Anpassungen durch Mitteilung gemäß § 10 mitteilen und das Clearing System auffordern, der Globalurkunde die vorgelegten Dokumente in geeigneter Weise beizufügen, um die Änderung der Bedingungen zu berücksichtigen.

Im Falle, dass ein Ersatzzinssatz, eine etwaige erforderliche Anpassungsspanne und jedwede sonstigen maßgeblichen Ersatzzinssatz-Anpassungen nicht im Einklang mit den vorstehenden Bestimmungen festgelegt werden, kann die Emittentin durch Mitteilung an die Pfandbriefgläubiger mit einer Frist von nicht weniger als 15 Geschäftstagen gemäß § 10 bis zum Zinsfestlegungstag (ausschließlich), der unmittelbar auf den Maßgeblichen Zinsfestlegungstag folgt, die Schuldverschreibungen insgesamt, jedoch nicht teilweise, zum Vorzeitigen Rückzahlungsbetrag einschließlich etwaiger bis zum Rückzahlungstag (ausschließlich) aufgelaufener Zinsen zurückzahlen. Werden die Schuldverschreibungen nicht gemäß den vorstehenden Bestimmungen zurückgezahlt, so finden die Bestimmungen dieses § 3[(10)] in Bezug auf den unmittelbar folgenden Zinsfestlegungstag erneut Anwendung.

Jedem Gläubiger der Schuldverschreibungen steht für Zwecke des Schweizer Rechts im Umfang seiner Forderung gegen die Emittentin ein Miteigentumsanteil an der Dauerglobalurkunde zu, wobei, solange die Schuldverschreibungen Bucheffekten darstellen, der Miteigentumsanteil außer Kraft gesetzt ist und die Schuldverschreibungen nur durch Gutschrift der zu übertragenden Schuldverschreibungen in einem Effektenkonto des Empfängers übertragen werden können.

- (2) Die Schuldverschreibungen begründen nicht besicherte, nachrangige Verbindlichkeiten der Emittentin, die untereinander und nach Maßgabe von § 2(3)) mit allen anderen ebenso nachrangigen Verbindlichkeiten der Emittentin im gleichen Rang stehen. Im Fall von Abwicklungsmaßnahmen in Bezug auf die Emittentin oder im Fall der Auflösung, der Liquidation oder der Insolvenz der Emittentin oder eines Vergleichs oder eines anderen der Abwendung einer Insolvenz dienenden Verfahrens gegen die Emittentin gehen die Verbindlichkeiten aus den Schuldverschreibungen den Ansprüchen dritter Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten (einschließlich Ansprüchen gegen die Emittentin aus deren nicht besicherten und nicht nachrangigen Verbindlichkeiten aus nicht bevorrechtigten Schuldtiteln im Sinne von § 46f Abs. 6 Satz 1 des Kreditwesengesetzes ("**KWG**") (auch in Verbindung mit § 46f Abs. 9 KWG) oder einer Nachfolgebestimmung) sowie (ii) den in § 39 Abs. 1 Nr. 1 bis 5 der Insolvenzordnung ("**InsO**") oder einer Nachfolgebestimmung bezeichneten Forderungen im Rang vollständig nach; Zahlungen auf die Schuldverschreibungen erfolgen in einem solchen Fall solange nicht, wie (i) die Ansprüche dritter Gläubiger der Emittentin aus nicht nachrangigen Verbindlichkeiten (einschließlich vorrangiger, nicht besicherter, nicht nachrangiger Verbindlichkeiten aus nicht bevorrechtigten Schuldtiteln im Sinne von § 46f Abs. 6 Satz 1 KWG (auch in Verbindung mit § 46f Abs. 9 KWG) oder einer Nachfolgebestimmung) sowie (ii) die in § 39 Abs. 1 Nr. 1 bis 5 InsO oder einer Nachfolgebestimmung bezeichneten Forderungen nicht vollständig befriedigt sind.
- (3) Die Ansprüche aus den Schuldverschreibungen stehen im gleichen Rang wie die Ansprüche gegen die Emittentin aus anderen Instrumenten, die als Ergänzungskapital im Sinne von Artikel 63 der Verordnung (EU) Nr. 575/2013 in ihrer jeweils ergänzten oder geänderten Fassung (*Capital Requirements Regulation*, "CRR") begeben wurden.
- (4) Im Einklang mit § 10 Abs. 5 KWG ist die Aufrechnung von Forderungen aus den Schuldverschreibungen gegen Forderungen der Emittentin ausgeschlossen. Den Gläubigern wird für ihre Rechte aus den Schuldverschreibungen zu keinem Zeitpunkt eine Sicherheit oder Garantie gestellt; bereits gestellte oder zukünftig gestellte Sicherheiten oder Garantien im Zusammenhang mit anderen Verbindlichkeiten der Emittentin haften nicht für Forderungen aus den Schuldverschreibungen.

- (5) Nachträglich können der Nachrang gemäß § 2(2) nicht beschränkt sowie die Laufzeit der Schuldverschreibungen und jede anwendbare Kündigungsfrist nicht verkürzt werden. Werden die Schuldverschreibungen (i) unter anderen als den in § 2(2) beschriebenen Umständen oder (ii) anders als infolge einer Kündigung oder eines Rückkaufs nach Maßgabe dieser Bedingungen zurückgezahlt oder von der Emittentin zurückerworben, so ist der gezahlte Betrag der Emittentin ohne Rücksicht auf entgegenstehende Vereinbarungen zurückzugewähren.
- (6) Die zuständige Abwicklungsbehörde kann nach den für die Emittentin jeweils geltenden Abwicklungsvorschriften Verbindlichkeiten der Emittentin aus den Schuldverschreibungen vor einer Insolvenz oder Liquidation der Emittentin herabschreiben (bis einschließlich auf Null), in Eigenkapital (zum Beispiel in Stammaktien der Emittentin) umwandeln oder sonstige Abwicklungsmaßnahmen treffen, einschließlich (jedoch nicht beschränkt auf) einer Übertragung dieser Verbindlichkeiten auf einen anderen Rechtsträger, einer Änderung der Bedingungen oder einer Löschung der Schuldverschreibungen.

- (a) Um die Lieferung des Vermögenswertbetrags (bzw. der Vermögenswertbeträge) in Bezug auf eine Schuldverschreibung zu erhalten, hat der Gläubiger der Schuldverschreibungen (i) falls die betreffende Schuldverschreibung durch eine Globalurkunde verbrieft ist, dem betreffenden Clearing System spätestens bis Geschäftsschluss an jedem Empfangsort am Stichtag (wie nachstehend definiert) eine ordnungsgemäß ausgefüllte Vermögenswertübertragungs-Mitteilung (mit Kopie an die Emittentin) zu übergeben oder (ii) falls die betreffende Schuldverschreibung durch eine Einzelurkunde verbrieft ist, einer beliebigen Zahlstelle spätestens bis Geschäftsschluss an jedem Empfangsort am Stichtag eine ordnungsgemäß ausgefüllte Vermögenswertübertragungs-Mitteilung (mit Kopie an die Emittentin) zu übergeben.

Muster der Vermögenswertübertragungs-Mitteilung sind während der üblichen Geschäftszeiten bei einer jeden Zahlstelle erhältlich.

Eine Vermögenswertübertragungs-Mitteilung darf nur in einer für das betreffende Clearing System annehmbaren Art und Weise übergeben werden (wenn die betreffende Schuldverschreibung durch eine Globalurkunde verbrieft ist) bzw. muss schriftlich oder durch Telefax zusammen mit den Schuldverschreibungen, auf die sich die jeweilige Vermögenswertübertragungs-Mitteilung bezieht, erfolgen (falls die betreffende Schuldverschreibung durch eine Einzelurkunde verbrieft ist).

Eine Vermögenswertübertragungs-Mitteilung hat Folgendes zu enthalten:

- (i) die Angabe des Namens und der Anschrift des Gläubigers der Schuldverschreibungen, der Person, von der die Emittentin Einzelheiten bezüglich der Lieferung des Vermögenswertbetrags erhalten kann, sowie die zur Lieferung des Vermögenswertbetrags erforderlichen Einzelheiten,
- (ii) falls die Schuldverschreibung durch eine Globalurkunde verbrieft ist, Angabe des Nennbetrags der Schuldverschreibungen, auf welche sich die Mitteilung bezieht, sowie der Nummer des Kontos des Gläubigers der Schuldverschreibungen bei dem betreffenden Clearing System, aus dem die Schuldverschreibungen auszubuchen sind, sowie eine unwiderrufliche Anweisung und Ermächtigung des betreffenden Clearing Systems, die Schuldverschreibungen am oder vor dem Tag der Lieferung aus dem Konto des Gläubigers der Schuldverschreibungen auszubuchen,
- (iii) ein Zahlungsversprechen in Bezug auf sämtliche Lieferauslagen und, falls die Schuldverschreibung durch eine Globalurkunde verbrieft ist, eine Ermächtigung zur diesbezüglichen Belastung eines benannten Kontos des

<sup>34</sup> Nur anwendbar im Fall von Befreiten Schuldverschreibungen.

Gläubigers der Schuldverschreibungen bei dem betreffenden Clearing System und zur Zahlung dieser Lieferauslagen,

- (iv) Angabe eines Kontos, auf das gemäß diesem Unterabsatz zahlbare Dividenden (falls anwendbar) oder sonstige Barbeträge zu zahlen sind, und
- (v) eine Ermächtigung zur Verwendung der betreffenden Mitteilung in etwaigen Verwaltungs- oder Gerichtsverfahren.

**[(vi)] [zusätzliche Bestimmungen]**

Eine Vermögenswertübertragungs-Mitteilung kann nach Eingang bei dem betreffenden Clearing System bzw. einer Zahlstelle, wie vorstehend angegeben, nicht mehr widerrufen werden. Nach Übermittlung einer Vermögenswertübertragungs-Mitteilung kann der Gläubiger der Schuldverschreibungen die Schuldverschreibungen, auf die sich die Mitteilung bezieht, nicht mehr übertragen.

Falls die Schuldverschreibungen durch eine Globalurkunde verbrieft sind, wird sich das betreffende Clearing System nach Erhalt einer solchen Mitteilung vergewissern, dass es sich bei der darin als Gläubiger der Schuldverschreibungen bezeichneten Person um den Gläubiger [des] [der] darin genannten Nennbetrags der Schuldverschreibungen gemäß den Aufzeichnungen des Clearing Systems handelt.

Wird eine Vermögenswertübertragungs-Mitteilung nicht ordnungsgemäß ausgefüllt und eingereicht, so kann dies zur Ungültigkeit dieser Vermögenswertübertragungs-Mitteilung führen. Jegliche Feststellung dahingehend, ob eine solche Mitteilung nach Maßgabe dieser Bedingungen ordnungsgemäß ausgefüllt und eingereicht wurde, erfolgt bei Schuldverschreibungen, die durch eine Globalurkunde verbrieft sind, durch das jeweilige Clearing System nach Rücksprache mit der Emittentin und ist für die Emittentin und den Gläubiger der Schuldverschreibungen endgültig und bindend; im Fall einer durch eine Einzelurkunde verbrieften Schuldverschreibung erfolgt die Feststellung durch die jeweilige Zahlstelle nach Rücksprache mit der Emittentin und ist für die Emittentin und den Gläubiger der Schuldverschreibungen endgültig und bindend.

- (b) Die Lieferung des Vermögenswertbetrags in Bezug auf jede Schuldverschreibung erfolgt [auf Gefahr des Gläubigers der Schuldverschreibungen auf solche wirtschaftlich vernünftige Weise, die die Berechnungsstelle nach [ihrem alleinigen Ermessen] festlegt und der in der entsprechenden Vermögenswertübertragungs-Mitteilung von dem Gläubiger der Schuldverschreibungen benannten Person mitteilt] **[alternative Lieferart]**.

Der Vermögenswertbetrag in Bezug auf jede durch Lieferung des Vermögenswertbetrags zurückzuzahlende Schuldverschreibung wird auf Gefahr des Gläubigers der Schuldverschreibungen in der vorstehend angegebenen Weise am Fälligkeitstag geliefert (vorbehaltlich einer Anpassung gemäß diesem § 6 als **"Tag der Lieferung"** bezeichnet), sofern die Vermögenswertübertragungs-Mitteilung, wie vorstehend angegeben, spätestens bis Geschäftsschluss an jedem Empfangsort am **[Stichtag]** (der **"Stichtag"**) (mit Kopie an die Emittentin) ordnungsgemäß bei dem

Clearing System bzw. einer Zahlstelle eingereicht wurde.

Erfolgt keine Vermögenswertübertragungs-Mitteilung durch den Gläubiger der Schuldverschreibungen wie vorstehend angegeben (mit Kopie an die Emittentin) spätestens bis Geschäftsschluss an jedem Empfangsort am Stichtag, wird der Vermögenswertbetrag so bald wie möglich nach dem Fälligkeitstag auf Gefahr des jeweiligen Gläubigers der Schuldverschreibungen in der vorstehend angegebenen Art und Weise geliefert (wobei es sich in diesem Fall bei diesem Liefertag um den Tag der Lieferung handelt). Zur Klarstellung wird festgestellt, dass der betreffende Gläubiger der Schuldverschreibungen im Fall, dass der Tag der Lieferung nach dem ursprünglich bestimmten Tag der Lieferung liegt, keinen Anspruch auf jegliche Zahlungen von Zinsen oder sonstigen Beträgen in Bezug auf den betreffenden Zeitraum hat, und es wird keinerlei diesbezügliche Haftung seitens der Emittentin begründet.

- (c) Sämtliche aufgrund der Lieferung des Vermögenswertbetrags in Bezug auf die Schuldverschreibungen entstehenden Lieferauslagen erfolgen für Rechnung des Gläubigers der Schuldverschreibungen und es erfolgt keine Lieferung des Vermögenswertbetrags, bevor nicht sämtliche Lieferauslagen zur Zufriedenheit der Emittentin durch den Gläubiger der Schuldverschreibungen gezahlt wurden.

Nach Lieferung des Vermögenswertbetrags und solange eine andere Person als der betreffende Gläubiger der Schuldverschreibungen als rechtmäßiger Eigentümer jedweder den Vermögenswertbetrag bildender Wertpapiere oder sonstiger Verbindlichkeiten eingetragen ist (die "**Zwischenzeit**"), (i) ist weder die Emittentin noch die Berechnungsstelle noch eine andere Person zu irgendeinem Zeitpunkt verpflichtet, dem Gläubiger der Schuldverschreibungen etwaige Anschreiben, Bestätigungen, Mitteilungen, Rundschreiben oder sonstige Dokumente bzw. (außer soweit in diesen Bedingungen vorgesehen) Zahlungen jeglicher Art weiterzuleiten bzw. deren Weiterleitung zu veranlassen, die von dieser Person in Bezug auf diese Wertpapiere oder Verbindlichkeiten entgegengenommen bzw. vereinnahmt wurden, (ii) ist weder die Emittentin noch die Berechnungsstelle noch eine andere Person zu irgendeinem Zeitpunkt verpflichtet, bestimmte oder alle Rechte hinsichtlich dieser Wertpapiere oder Verbindlichkeiten auszuüben bzw. ausüben zu lassen und (iii) unterliegt weder die Emittentin noch die Berechnungsstelle noch eine andere Person zu irgendeinem Zeitpunkt irgendeiner Haftung gegenüber dem betreffenden Gläubiger der Schuldverschreibungen im Zusammenhang mit jeglichen unmittelbaren oder mittelbaren Verlusten oder Schäden, welche dem betreffenden Gläubiger der Schuldverschreibungen möglicherweise aufgrund des Umstands entstehen, dass die betreffende Person während der Zwischenzeit als rechtlicher Eigentümer der betreffenden Wertpapiere oder Verbindlichkeiten eingetragen ist.

Liegt vor Lieferung des Vermögenswertbetrags gemäß diesem § [6] ein Abwicklungsunterbrechungsereignis vor, so wird der Tag der Lieferung hinsichtlich dieser Schuldverschreibung auf den Tag verlegt, an dem kein solches Abwicklungsunterbrechungsereignis vorliegt, wobei dies dem Gläubiger der Schuldverschreibungen gemäß § [15] mitzuteilen ist. Dem Gläubiger der Schuldverschreibungen steht im Fall einer Verzögerung bei der Lieferung des Vermögenswertbetrags gemäß diesem Absatz kein Anspruch auf Zahlungen von Zinsen oder

sonstigen Beträgen auf die jeweilige Schuldverschreibung zu. Wurde die Lieferung des Vermögenswertbetrags gemäß diesem Absatz verschoben, begründet dies keine Verletzung dieser Bedingungen durch die Emittentin und keine Haftung seitens der Emittentin.

Solange die Lieferung des Vermögenswertbetrags hinsichtlich einer Schuldverschreibung aufgrund eines Abwicklungsunterbrechungsereignisses nicht möglich ist, kann die Emittentin unbeschadet der sonstigen in diesen Bedingungen enthaltenen Bestimmungen nach ihrem alleinigen Ermessen entscheiden, anstelle einer physischen Lieferung ihre Verpflichtungen hinsichtlich der betreffenden Schuldverschreibung durch Zahlung des Unterbrechungs-Barabwicklungsbetrags (wie nachfolgend definiert) an den Gläubiger der Schuldverschreibungen spätestens am dritten Geschäftstag nach dem Tag der Mitteilung dieser Entscheidung (die "**Entscheidungsmitteilung**") an die Gläubiger der Schuldverschreibungen gemäß § [15] erfüllen. Die Zahlung des Unterbrechungs-Barabwicklungsbetrags erfolgt in der dem Gläubiger der Schuldverschreibungen gemäß § [15] mitgeteilten Art und Weise.

Soweit es sich bei dem Vermögenswertbetrag nach Feststellung der Emittentin um einen anderen als den lieferbaren Betrag der Maßgeblichen Vermögenswerte handelt, erhalten die Gläubiger der Schuldverschreibungen einen Vermögenswertbetrag in Höhe der nächsten Zahl (abgerundet) der von der Emittentin lieferbaren Maßgeblichen Vermögenswerte (wobei der gesamte Bestand eines Gläubigers der Schuldverschreibungen nach dem Ermessen der Emittentin für die Zwecke der Lieferung des Vermögenswertbetrags zusammengefasst werden kann) sowie einen Betrag in der Festgelegten Währung im Wert der abgerundeten Maßgeblichen Vermögenswerte, den die Berechnungsstelle auf angemessene und wirtschaftlich vernünftige Weise auf Grundlage der (bzw. den) von ihr nach Rücksprache mit der Emittentin ausgewählten Quelle (bzw. Quellen) ermittelt (und erforderlichenfalls unter Zugrundelegung des von ihr als angemessen erachteten Wechselkurses in die Festgelegte Währung umrechnet). Die Zahlung erfolgt auf die den Gläubigern der Schuldverschreibungen gemäß § [15] mitgeteilten Art und Weise.

Für die Zwecke der Schuldverschreibungen (i) ist die Emittentin nicht verpflichtet, eine Eintragung des Gläubigers der Schuldverschreibungen oder einer sonstigen Person als eingetragener Aktionär im Aktionärsverzeichnis des Aktienemittenten vorzunehmen bzw. zu veranlassen, (ii) ist die Emittentin nicht verpflichtet, gegenüber jeglichen Gläubigern der Schuldverschreibungen oder sonstigen Personen hinsichtlich jeglicher befriedigter oder ausstehender Ansprüche im Zusammenhang mit jeglichen Zugrundeliegenden Aktien, die den Vermögenswertbetrag hinsichtlich einer Schuldverschreibung bilden, Rechenschaft abzulegen, soweit der Termin, an dem die Zugrundeliegenden Aktien erstmals ohne diesen Anspruch an der Maßgeblichen Börse gehandelt werden, auf den Fälligkeitstag fällt oder vor diesem liegt, und (iii) sind jedwede Zinsen, Dividenden oder sonstigen Auskehrungen hinsichtlich des Vermögenswertbetrags an die Person zahlbar, die diese Zinsen, Dividenden oder sonstigen Auskehrungen nach marktüblicher Praxis im Fall eines am Tag der Lieferung abgeschlossenen Verkaufs der Zugrundeliegenden Aktien erhalten würde, und sind auf die gleiche Art und Weise wie der Vermögenswertbetrag zu liefern. Die Zahlung solcher an den Gläubiger der Schuldverschreibungen zu zahlenden

Zinsen, Dividenden oder sonstigen Auskehrungen erfolgt auf das in der Vermögenswertübertragungs-Mitteilung angegebene Konto.]

Es gelten die nachstehenden Begriffsbestimmungen:

**"Vermögenswertübertragungs-Mitteilung"** bezeichnet eine Vermögenswertübertragungs-Mitteilung, die im Wesentlichen dem im Agency Agreement enthaltenen Muster entspricht.

**"Lieferauslagen"** sind sämtliche Kosten, Steuern, Abgaben und/oder Auslagen, einschließlich Stempelsteuern für Urkunden (*stamp duty*), Stempelsteuern für den Erwerb von Wertpapieren und Grundstücken (*stamp duty reserve tax*) und/oder sonstiger Kosten, Abgaben oder Steuern, die aufgrund der Lieferung des Vermögenswertbetrags entstehen.

**"Unterbrechungs-Barabwicklungsbetrag"** bezeichnet in Bezug auf eine Schuldverschreibung einen Betrag in Höhe des angemessenen Marktpreises dieser Schuldverschreibung (jedoch ohne Berücksichtigung von auf diese Schuldverschreibung aufgelaufenen Zinsen) zu einem von der Emittentin [nach ihrem alleinigen und freien Ermessen] ausgewählten Tag, der nicht mehr als fünfzehn Tage vor dem Tag liegen darf, an dem die Entscheidungsmitteilung wie vorstehend angegeben erfolgt, wobei dieser Betrag in voller Höhe um jedwede Verluste, Auslagen und Kosten der Emittentin und/oder eines Verbundenen Unternehmens angepasst wird, die im Zusammenhang mit der Rückabwicklung oder Anpassung zugrundeliegender oder damit verbundener Hedging-Vereinbarungen entstehen (einschließlich (ohne hierauf beschränkt zu sein) jedweder Optionen oder Verkäufe oder sonstigen Verwertung eines Relevanten Vermögenswerts oder sonstigen Instruments jedweder Art, den bzw. das die Emittentin bzw. eines ihrer Verbundenen Unternehmen im Rahmen einer solchen Hedging-Vereinbarung unter Umständen hält), wie jeweils von der Berechnungsstelle auf angemessene und wirtschaftlich vernünftige Weise berechnet.]

**"Abwicklungsunterbrechungseignis"** bezeichnet ein Ereignis außerhalb der Kontrolle der Emittentin, das dazu führt, dass nach Auffassung der Berechnungsstelle die Lieferung des Vermögenswertbetrags durch oder für die Emittentin gemäß diesen Emissionsbedingungen und/oder den jeweiligen Endgültigen Bedingungen nicht durchführbar ist.]

**[Im Fall von indexbezogenen Schuldverschreibungen gilt Folgendes:** "Feststellungszeitpunkt" bezeichnet [●] [den Planmäßigen Handelsschluss an der

maßgeblichen Börse am Basiswertfestlegungstag in Bezug auf [jeden zu bewertenden Index] [den Index]. Falls die maßgebliche Börse vor ihrem Planmäßigen Handelsschluss schließt und der festgelegte Feststellungszeitpunkt nach dem tatsächlichen Ende des regulären Handels liegt, ist der tatsächliche Zeitpunkt des Handelsschlusses der Feststellungszeitpunkt.

**"Unterbrechungstag"** bezeichnet (a) wenn ein Index kein Börsenübergreifender Index ist, jeden Planmäßigen Handelstag, an dem [die] [eine maßgebliche] Börse oder eine Verbundene Börse während ihrer üblichen Handelszeit nicht für den Handel geöffnet ist oder ein Marktstörungsereignis eingetreten ist, oder (b) jeden Planmäßigen Handelstag (sofern es sich bei einem Index um einen Börsenübergreifenden Index handelt), an dem (i) der Index-Sponsor den Stand des Index nicht veröffentlicht, (ii) eine Verbundene Börse während ihrer üblichen Handelszeiten nicht für den Handel geöffnet ist, oder (iii) ein Marktstörungsereignis eingetreten ist.

**"Vorzeitiger Börsenschluss"** bezeichnet:

- (a) in Bezug auf einen Index, bei dem es sich nicht um einen Börsenübergreifenden Index handelt, die an einem Börsengeschäftstag erfolgende Schließung einer maßgeblichen Börse in Bezug auf Wertpapiere, die mindestens 20 % des Stands des maßgeblichen Index ausmachen, oder einer Verbundenen Börse bzw. mehrerer Verbundener Börsen vor ihrem Planmäßigen Handelsschluss. Dies gilt nicht, wenn die betreffende(n) Börse(n) bzw. Verbundene(n) Börse(n) den vorzeitigen Handelsschluss mindestens eine Stunde vor dem jeweils früheren der beiden folgenden Termine ankündigt (bzw. ankündigen): (A) dem tatsächlichen regulären Handelsschluss der betreffenden Börse(n) bzw. Verbundenen Börse(n) an dem jeweiligen Börsengeschäftstag oder (B) dem letztmöglichen Zeitpunkt für die Ordereingabe in das System der Börse bzw. der Verbundenen Börse zur Ausführung zum [Bewertungszeitpunkt] [Feststellungszeitpunkt] an dem betreffenden Börsengeschäftstag, oder
- (b) in Bezug auf einen Index, bei dem es sich um einen Börsenübergreifenden Index handelt, die an einem Börsengeschäftstag erfolgende Schließung der Börse in Bezug auf ein Bestandteilswertpapier oder der Verbundenen Börse vor ihrem Planmäßigen Handelsschluss. Dies gilt nicht, wenn die betreffende Börse bzw. Verbundene Börse den vorzeitigen Handelsschluss mindestens eine Stunde vor dem jeweils früheren der beiden folgenden Termine ankündigt: (i) dem tatsächlichen regulären Handelsschluss der betreffenden Börse bzw. Verbundenen Börse an dem jeweiligen Börsengeschäftstag oder (ii) dem letztmöglichen Zeitpunkt für die Ordereingabe in das System der betreffenden Börse bzw. Verbundenen Börse zur Ausführung zum jeweiligen [Bewertungszeitpunkt] [Feststellungszeitpunkt] an dem betreffenden Börsengeschäftstag.

**"Börsengeschäftstag"** bezeichnet (a) wenn ein Index kein Börsenübergreifender Index ist, jeden Planmäßigen Handelstag, an dem [die] [jede] Börse und jede Verbundene Börse zum Handel zu ihren üblichen Handelszeiten geöffnet ist, ungeachtet dessen, dass eine solche Börse oder Verbundene Börse vor dem Planmäßigen Handelsschluss geschlossen wird, oder (b) jeden Planmäßigen Handelstag (sofern es sich bei einem Index um einen Börsenübergreifenden Index handelt), an dem (i) der Index-Sponsor den Stand des Index veröffentlicht und (ii) die Verbundene Börse während ihrer üblichen Handelszeiten für den Handel geöffnet ist, ungeachtet dessen, dass eine Börse oder die Verbundene Börse vor ihrem Planmäßigen Handelsschluss schließt.

**"Börsenstörung"** bezeichnet:

- (a) in Bezug auf einen Index, bei dem es sich nicht um einen Börsenübergreifenden Index handelt, ein Ereignis (mit Ausnahme eines

Vorzeitigen Börsenschlusses), das es Marktteilnehmern (nach Feststellung der Berechnungsstelle) allgemein unmöglich macht oder erschwert, (i) an einer oder mehreren maßgeblichen Börsen Geschäfte in Wertpapieren zu tätigen, die mindestens 20 % des Stands des betreffenden Index ausmachen, oder Marktkurse für diese Wertpapiere zu erhalten, oder (ii) Geschäfte in auf den betreffenden Index bezogenen Termin- oder Optionskontrakten an der maßgeblichen Verbundenen Börse zu tätigen oder Marktkurse für diese Termin- oder Optionskontrakte zu erhalten, oder

- (b) in Bezug auf einen Index, bei dem es sich um einen Börsenübergreifenden Index handelt, ein Ereignis (mit Ausnahme eines Vorzeitigen Börsenschlusses), das es Marktteilnehmern (nach Feststellung der Berechnungsstelle) allgemein unmöglich macht oder erschwert, Geschäfte (i) in einem Bestandteilswertpapier an der Börse für das betreffende Bestandteilswertpapier oder (ii) in auf den Index bezogenen Termin- oder Optionskontrakten an der maßgeblichen Verbundenen Börse zu tätigen oder Marktkurse (i) für ein Bestandteilswertpapier an der Börse für das betreffende Bestandteilswertpapier oder (ii) für auf den Index bezogene Termin- oder Optionskontrakte an der maßgeblichen Verbundenen Börse zu erhalten.

**"Marktstörungseignis"** bezeichnet:

- (a) in Bezug auf einen Index, bei dem es sich nicht um einen Börsenübergreifenden Index handelt, den Eintritt oder das Bestehen (i) einer Handelsstörung, (ii) einer Börsenstörung, die jeweils nach Auffassung der Berechnungsstelle wesentlich ist, zu einem Zeitpunkt innerhalb des einstündigen Zeitraums, der mit dem maßgeblichen [Bewertungszeitpunkt] [Feststellungszeitpunkt] endet, oder (iii) eines Vorzeitigen Börsenschlusses, oder
- (b) in Bezug auf einen Index, bei dem es sich um einen Börsenübergreifenden Index handelt, entweder:
- (i) (x) den Eintritt oder das Bestehen (jeweils in Bezug auf ein Bestandteilswertpapier):
- (1) einer Handelsstörung, die nach Auffassung der Berechnungsstelle wesentlich ist, zu einem Zeitpunkt innerhalb des einstündigen Zeitraums, der mit dem maßgeblichen [Bewertungszeitpunkt] [Feststellungszeitpunkt] für diejenige Börse endet, an der das betreffende Bestandteilswertpapier hauptsächlich gehandelt wird,
- (2) einer Börsenstörung, die nach Auffassung der Berechnungsstelle wesentlich ist, zu einem Zeitpunkt innerhalb des einstündigen Zeitraums, der mit dem maßgeblichen [Bewertungszeitpunkt] [Feststellungszeitpunkt] für diejenige Börse endet, an der das betreffende Bestandteilswertpapier hauptsächlich gehandelt wird, oder
- (3) eines Vorzeitigen Börsenschlusses, und
- (y) den Fall, dass sämtliche Bestandteilswertpapiere, in Bezug auf die eine Handelsstörung, eine Börsenstörung oder ein Vorzeitiger Börsenschluss eingetreten ist oder besteht, insgesamt mindestens 20 % des Stands des Index

ausmachen, oder

- (ii) den Eintritt oder das Bestehen (jeweils in Bezug auf Termin- oder Optionskontrakte, die auf den Index bezogen sind), (A) einer Handelsstörung, (B) einer Börsenstörung, die jeweils nach Auffassung der Berechnungsstelle wesentlich ist, zu einem Zeitpunkt innerhalb des einstündigen Zeitraums, der mit dem Bewertungszeitpunkt für die Verbundene Börse endet, oder (C) eines Vorzeitigen Börsenschlusses, und zwar jeweils in Bezug auf die betreffenden Termin- oder Optionskontrakte.

**Für die Zwecke der Feststellung, ob zu irgendeinem Zeitpunkt ein Marktstörungsereignis in Bezug auf einen Index besteht, gilt Folgendes:** Tritt zu irgendeinem Zeitpunkt in Bezug auf ein in dem Index enthaltenes Wertpapier oder das betreffende Bestandteilswertpapier ein Marktstörungsereignis ein, so ergibt sich der jeweilige prozentuale Anteil des betreffenden Wertpapiers bzw. Bestandteilswertpapiers am Stand des Index aus einem Vergleich zwischen (i) dem auf das betreffende Wertpapier bzw. Bestandteilswertpapier entfallenden Anteil am Stand des Index und (ii) dem Gesamtstand des Index, und zwar jeweils entweder: (x) sofern es sich bei dem Index nicht um einen Börsenübergreifenden Index handelt, unmittelbar vor dem Eintritt des jeweiligen Marktstörungsereignisses oder (y) sofern es sich bei dem Index um einen Börsenübergreifenden Index handelt, unter Zugrundelegung der amtlichen Eröffnungsgewichtungen, die jeweils von dem Index-Sponsor als Teil der "Markteröffnungsdaten" veröffentlicht werden.

**"Planmäßiger Handelsschluss"** ist in Bezug auf [die] [eine] Börse oder Verbundene Börse und einen Planmäßigen Handelstag der Zeitpunkt des planmäßigen werktäglichen Handelsschlusses an [der] [dieser] Börse oder Verbundenen Börse an dem betreffenden Planmäßigen Handelstag, wobei ein nachbörslicher Handel oder ein sonstiger Handel außerhalb der üblichen Börsenzeiten nicht berücksichtigt wird.

**"Handelsstörung"** bezeichnet:

- (a) in Bezug auf einen Index, bei dem es sich nicht um einen Börsenübergreifenden Index handelt, jede Aussetzung oder Einschränkung des Handels (i) an einer oder mehreren maßgeblichen Börsen mit Wertpapieren, die mindestens 20 % des Stands des betreffenden Index ausmachen, oder (ii) an einer maßgeblichen Verbundenen Börse mit auf den betreffenden Index bezogenen Termin- oder Optionskontrakten, die jeweils von der maßgeblichen Börse oder Verbundenen Börse oder von anderer Seite auferlegt wird (ob aufgrund von Kursschwankungen, die über die von der maßgeblichen Börse bzw. Verbundenen Börse zugelassenen Obergrenzen hinausgehen, oder aus sonstigen Gründen),
- (b) in Bezug auf einen Index, bei dem es sich um einen Börsenübergreifenden Index handelt, jede Aussetzung oder Einschränkung des Handels (i) mit einem Bestandteilswertpapier an der Börse für das betreffende Bestandteilswertpapier oder (ii) an der Verbundenen Börse mit auf den Index bezogenen Termin- oder Optionskontrakten, die jeweils von der maßgeblichen Börse oder Verbundenen Börse oder von anderer Seite auferlegt wird (ob aufgrund von Kursschwankungen, die über die von der maßgeblichen Börse bzw. Verbundenen Börse zugelassenen Obergrenzen hinausgehen, oder aus sonstigen Gründen).

- (b) eine Ausschüttung, Ausgabe oder Dividende an bestehende Aktionäre der betreffenden Zugrundeliegenden Aktien in Form von (i) solchen Zugrundeliegenden Aktien oder (ii) sonstigen Beteiligungsrechten oder Wertpapieren, die zur Ausschüttung einer Dividende und/oder anteiligen Auskehrung des Liquidationserlöses im Hinblick auf den betreffenden Aktienemittenten entsprechend oder anteilmäßig zu den entsprechenden Zahlungen an Aktionäre dieser Zugrundeliegenden Aktien berechtigen, oder (iii) Beteiligungsrechten oder sonstigen Wertpapieren eines anderen Emittenten, den der Aktienemittent (direkt oder indirekt) infolge einer Spaltung oder einer ähnlichen Transaktion erworben hat oder die sich infolge dessen in seinem Besitz befinden, oder (iv) sonstigen Wertpapieren, Options- oder anderen Rechten oder Vermögenswerten, die jeweils für eine unter dem vorherrschenden von der Berechnungsstelle festgestellten Marktpreis liegende, in Barmitteln oder Sachwerten bestehende Gegenleistung gewährt oder geleistet werden,

- (f) ein Ereignis in Bezug auf den Aktienemittenten, das dazu führt, dass Aktionärsrechte begeben werden oder von Stammaktien oder anderen Aktien des Aktienemittenten abgetrennt werden und dies gemäß einem Aktionärsrechteplan oder einer ähnlichen Maßnahme zur Abwehr von feindlichen Übernahmen geschieht, der bzw. die beim Eintritt bestimmter Ereignisse die Ausgabe von Vorzugsaktien, Optionsrechten, Wertpapieren oder Bezugsrechten zu einem unter dem von der Berechnungsstelle festgestellten Marktpreis liegenden Preis vorsieht, wobei eine infolge eines solchen Ereignisses getroffene Anpassung bei einer Einlösung solcher Rechte erneut anzupassen ist, und

**"Letzter Stand"** in Bezug auf einen Inflationsindex den letzten Stand dieses Inflationsindex (unter Ausschluss etwaiger vorab veröffentlichter Schätzungen) bezeichnet, der von dem jeweiligen Inflationsindex-Sponsor vor dem Monat veröffentlicht bzw. bekannt gegeben wird, in Bezug auf den der Ersatzindexstand festgestellt wird.

**"Referenzstand"** in Bezug auf einen Inflationsindex den Stand dieses Inflationsindex (unter Ausschluss etwaiger vorab veröffentlichter Schätzungen) bezeichnet, der von dem jeweiligen Inflationsindex-Sponsor in Bezug auf den Monat veröffentlicht bzw. bekannt gegeben wird, der dem Monat, auf den sich der Letzte Stand bezieht, 12 Kalendermonate vorausgeht.

Wenn weniger als drei dieser führenden unabhängigen Händler antworten, richtet sich das weitere Vorgehen der Berechnungsstelle nach § [8](2)[(iv)], oder

- (iv) wurde bis zum darauffolgenden Stichtag kein als Ersatz dienender Index bzw. Nachfolgeinflationsindex gemäß § [8](2)(i), § [8](2)(ii) **[falls "Bezugsanleihe" anwendbar ist, gilt Folgendes: oder § [8](2)(iii)]** bestimmt, so wird die Berechnungsstelle ab dem jeweiligen Stichtag einen geeigneten Alternativindex bestimmen, und dieser Index gilt als "Nachfolgeinflationsindex", oder
  - (v) wenn die Berechnungsstelle feststellt, dass es keinen geeigneten Alternativindex gibt, unterrichtet die Emittentin im Fall von Anleihen die Gläubiger der Schuldverschreibungen durch Mitteilung gemäß § [15] und zahlt die Schuldverschreibungen insgesamt, jedoch nicht teilweise, zurück, wobei jeder Nennbetrag von Schuldverschreibungen in Höhe **[im Fall von deutschrechtlichen Schuldverschreibungen gilt Folgendes: der Festgelegten Stückelung] [im Fall von englischrechtlichen Schuldverschreibungen gilt Folgendes: des Berechnungsbetrags]]** zum Vorzeitigen Rückzahlungsbetrag zurückgezahlt wird.
- (3) *Rücksetzung des Inflationsindex.* Wenn die Berechnungsstelle feststellt, dass eine Rücksetzung des Inflationsindex zu einem bestimmten Zeitpunkt erfolgt ist bzw. erfolgen wird, wird der zurückgesetzte Inflationsindex (der "**Zurückgesetzte Index**") ab dem Rücksetzungstag für die Zwecke der Feststellung des Stands des Inflationsindex herangezogen; dies gilt jedoch mit der Maßgabe, dass die Berechnungsstelle Anpassungen **[falls "Bezugsanleihe" anwendbar ist, gilt Folgendes: , die jeweils von der für Berechnungen zuständigen Stelle gemäß den Emissionsbedingungen der Bezugsanleihe vorgenommen werden,]** an den Ständen des Zurückgesetzten Index vornimmt, so dass diese Stände des Zurückgesetzten Index dieselbe Inflationsrate widerspiegeln wie der Index vor seiner Rücksetzung.
- (4) *Wesentliche Änderung vor dem letzten Stichtag.* Wenn der Inflationsindex-Sponsor an oder vor dem letzten Stichtag bekannt gibt, dass er eine wesentliche Änderung bei dem Inflationsindex vornehmen wird, wird die Berechnungsstelle daraufhin **[falls "Bezugsanleihe" anwendbar ist, gilt Folgendes: sämtliche Anpassungen entsprechend den Anpassungen vornehmen, die bei der Bezugsanleihe vorgenommen wurden] [falls "Bezugsanleihe" nicht anwendbar ist, gilt Folgendes: nur diejenigen Anpassungen bei dem Inflationsindex vornehmen, die erforderlich sind, um den geänderten Inflationsindex als Inflationsindex beizubehalten].**
- (5) *Begriffsbestimmungen:* Für die Zwecke dieses § [8] kommt den nachstehend aufgeführten Begriffen jeweils die folgende Bedeutung zu:

"**Stichtag**" bezeichnet in Bezug auf einen Festlegungstag den [●] [fünften Geschäftstag vor dem jeweiligen Festlegungstag].

"**Auslöser der Zeitverzögerten Indexstandfeststellung**" bezeichnet in Bezug auf einen Festlegungstag und einen Inflationsindex den Fall, dass der betreffende Index-Sponsor zu irgendeinem Zeitpunkt an oder vor dem Stichtag den Stand des betreffenden Index (der "**Maßgebliche Stand**") in Bezug auf einen Referenzmonat nicht veröffentlicht bzw. bekannt gibt, der bei einer von

der Emittentin in Bezug auf den jeweiligen Festlegungstag vorzunehmenden Berechnung oder Feststellung heranzuziehen ist.

**"Festlegungstag"** bezeichnet [●].

**[Falls "Bezugsanleihe" anwendbar ist, gilt Folgendes: "Endtag"** bezeichnet: [●].

**"Ausweichenanleihe"** bezeichnet in Bezug auf einen Inflationsindex eine von der Berechnungsstelle ausgewählte und von der Regierung des Landes, auf dessen Inflationsrate sich der betreffende Inflationsindex bezieht, begebene Anleihe, auf die ein Kupon bzw. ein Rückzahlungsbetrag gezahlt wird, dessen Berechnung unter Zugrundelegung des betreffenden Inflationsindex erfolgt, und deren Fälligkeitstag entweder (a) mit dem Endtag zusammenfällt, (b) auf den unmittelbar auf den Endtag folgenden Fälligkeitstermin fällt, sofern am Endtag keine solche Anleihe fällig wird, oder (c) auf den letztmöglichen Fälligkeitstermin vor dem Endtag fällt, sofern von der Berechnungsstelle keine Anleihe im Sinne von Unterabsatz (a) bzw. (b) ausgewählt wurde. **[falls sich der maßgebliche Inflationsindex auf die Inflationsrate in der Europäischen Währungsunion bezieht, gilt Folgendes:** Die Berechnungsstelle wird eine inflationsgebundene Anleihe auswählen, bei der es sich um einen Schuldtitel der Regierung (nicht jedoch einer Regierungsstelle) von Frankreich, Italien, Deutschland oder Spanien handelt und auf die ein Kupon bzw. ein Rückzahlungsbetrag gezahlt wird, dessen Berechnung unter Zugrundelegung der Inflationsrate in der Europäischen Währungsunion erfolgt.] In jedem Fall wird die Berechnungsstelle die Ausweichenanleihe aus denjenigen inflationsgebundenen Anleihen auswählen, die an oder vor dem Begebungstag begeben wurden, wobei die Berechnungsstelle für den Fall, dass mehr als eine inflationsgebundene Anleihe an demselben Tag fällig wird, die Ausweichenanleihe aus den letztgenannten Anleihen auswählen muss. Kommt die Ausweichenanleihe zur Rückzahlung, so kann die Berechnungsstelle auf derselben Grundlage eine neue Ausweichenanleihe auswählen, wobei die Auswahl jedoch unter allen zulässigen Anleihen getroffen wird, die im Zeitpunkt der Rückzahlung der ursprünglichen Ausweichenanleihe in Umlauf sind (einschließlich jeder Anleihe, gegen die die zurückgezahlte Anleihe ausgetauscht wird).]

**"Referenzmonat"** bezeichnet den Kalendermonat, für den der Stand des Inflationsindex mitgeteilt wurde, und zwar unabhängig von dem Zeitpunkt der Veröffentlichung bzw. Bekanntgabe dieser Information. Handelt es sich bei dem Zeitraum, für den der Maßgebliche Stand mitgeteilt wurde, nicht um einen Monat, so gilt derjenige Zeitraum als Referenzmonat, für den der Maßgebliche Stand mitgeteilt wurde.

**[Falls "Bezugsanleihe" anwendbar ist, gilt Folgendes: "Bezugsanleihe"** bezeichnet in Bezug auf einen Inflationsindex [●] **[falls "Ausweichenanleihe" anwendbar ist, gilt Folgendes:** Wenn die Bezugsanleihe vor dem Endtag zur Rückzahlung gelangt bzw. fällig wird, legt die Berechnungsstelle jeder Feststellung, die in Bezug auf die Bezugsanleihe zu erfolgen hat, die Ausweichenanleihe zugrunde.]

nicht angemessen und wirtschaftlich zumutbar ist, oder für die Emittentin oder Berechnungsstelle mit höheren Kosten verbunden ist oder sein wird und zwar jeweils aufgrund anwendbarer Lizenzbeschränkungen oder einer Änderung der Kosten für die Erlangung oder Beibehaltung einer relevanten Lizenz (unter anderem soweit die Emittentin, die Berechnungsstelle oder eine andere Stelle eine gültige Lizenz besitzen muss, um die Schuldverschreibungen zu begeben oder ihre Pflichten aus den Schuldverschreibungen zu erfüllen, und aus irgendeinem Grund diese Lizenz nicht erlangt oder nicht erneuert wird oder widerrufen wird oder es eine wesentliche Änderung der Kosten für die Erlangung oder die Erneuerung einer solchen Lizenz gibt) oder (4) die für den Administrator und/oder Sponsor einer maßgeblichen Benchmark zuständige Aufsichtsbehörde offiziell bekannt gemacht hat, dass die jeweilige Benchmark für einen oder mehrere maßgebliche zugrundeliegende Märkte nicht mehr repräsentativ ist.

**"Benchmark"** bezeichnet eine Kennzahl, Schwellenwert, Satz oder Wert, auf die bzw. den Bezug genommen wird, um einen für die Schuldverschreibungen zahlbaren oder lieferbaren Betrag oder den Wert der Schuldverschreibungen ganz oder teilweise zu bestimmen, einschließlich ohne Einschränkung wie in der BMR definiert, jeweils wie von der Berechnungsstelle festgestellt.

**"Benchmark-Änderungs- oder Einstellungs-Ereignis"** bezeichnet in Bezug auf die Benchmark jeden der folgenden Umstände:

- (i) eine wesentliche Änderung der Benchmark; oder
- (ii) den dauerhaft oder auf unbestimmte Zeit erfolgenden Wegfall oder die dauerhaft oder auf unbestimmte Zeit erfolgende Einstellung der Bereitstellung der Benchmark.

**"BMR"** bezeichnet die EU Referenzwert-Verordnung (Verordnung (EU) 2016/1011), in ihrer jeweils geltenden Fassung.

## § [10] STEUERN

### IM FALL VON SCHULDVER- SCHREIBUNGEN, DIE KEINEN QUELLEN- STEUER- AUSGLEICH VORSEHEN, GILT FOLGENDES:

Alle in Bezug auf die Schuldverschreibungen zu zahlenden Beträge werden unter Abzug oder Einbehalt von oder aufgrund von gegenwärtigen oder zukünftigen Steuern, Abgaben oder staatlichen Gebühren gleich welcher Art, die im Wege des Abzugs oder Einhalts erhoben oder eingezogen werden, gezahlt, falls ein solcher Abzug oder Einbehalt gesetzlich vorgeschrieben ist (unter anderem gemäß einer in Sections 1471 bis 1474 des US-Bundessteuergesetzes (*United States Internal Revenue Code*) von 1986 (the "**IRC**"), sämtlicher darunter erlassenen Vorschriften oder Vereinbarungen, einschließlich einer Vereinbarung gemäß Section 1471(b) IRC, oder offiziellen Auslegungen dieser Bestimmungen ("**FATCA**") oder nach Maßgabe eines Gesetzes zur Umsetzung einer zwischenstaatlichen Vereinbarung in Bezug auf FATCA).

Bei Schuldverschreibungen, bei denen eine Wiederanlage der Nettodividende hinsichtlich eines zugrunde liegenden US-Wertpapiers (d. h. eines Wertpapiers, auf das Dividenden aus Quellen innerhalb der Vereinigten Staaten gezahlt werden) oder eines US-Wertpapiers enthaltenden Index vorgesehen ist, können sämtliche auf die Schuldverschreibungen, die sich auf solche US-Wertpapiere oder einen US-Wertpapiere umfassenden Index beziehen, zahlbaren Beträge unter Bezug auf Dividenden auf diese US-Wertpapiere berechnet werden, die zu einem Prozentsatz wieder angelegt werden, der eine Quellensteuer nach Section 871(m) des IRC berücksichtigt. Die Emittentin wird in Bezug auf eine Quellensteuer nach Section 871(m) keine zusätzlichen Beträge an den Gläubiger zahlen.

### IM FALL VON SCHULDVER- SCHREIBUNGEN, DIE QUELLEN- STEUER- AUSGLEICH VORSEHEN, GILT FOLGENDES:

- (1) *Quellensteuern und Zusätzliche Beträge.* Alle in Bezug auf die Schuldverschreibungen zahlbaren Beträge werden ohne Abzug oder Einbehalt von oder aufgrund von gegenwärtigen oder zukünftigen Steuern, Abgaben oder staatlichen Gebühren gleich welcher Art, die im Wege des Abzugs oder des Einhalts ("**Quellensteuern**") von oder für Rechnung von Deutschland [**falls die Schuldverschreibungen von einer Zweigniederlassung begeben werden, gilt der jeweilige Ort der emittierenden Zweigniederlassung:** oder [dem Vereinigten Königreich] [Australien] [Singapur] [Hongkong] [Italien] [Portugal] [Spanien] [**Staat, in dem sich eine andere emittierende Zweigniederlassung befindet**]] [**falls die Schuldverschreibungen von der deutschen Hauptniederlassung der Emittentin begeben werden, gilt Folgendes:** (die "**Maßgebliche Rechtsordnung**")]] [**falls die Schuldverschreibungen von einer Zweigniederlassung der Emittentin begeben werden, gilt Folgendes:** (die "**Maßgeblichen Rechtsordnungen**")]] oder von oder für Rechnung einer dort zur Steuererhebung ermächtigten Gebietskörperschaft oder Behörde erhoben oder eingezogen werden, gezahlt, es sei denn, dieser Abzug oder Einbehalt ist gesetzlich vorgeschrieben.

**[Im Fall von Nicht Nachrangigen Schuldverschreibungen gilt Folgendes:** Falls ein Abzug oder Einbehalt gesetzlich vorgeschrieben ist, wird die Emittentin im weitesten nach geltendem Recht zulässigen Umfang diejenigen zusätzlichen Beträge an Kapital [**im Fall von Nicht Nachrangigen Schuldverschreibungen, bei denen es sich nicht um Nullkupon-Anleihen handelt, gilt Folgendes:** und Zinsen]zahlen] [**Im Fall von Nachrangigen Schuldverschreibungen gilt Folgendes:** Im Fall des Abzugs oder Einhalts

Solche Zusätzlichen Beträge sind jedoch nicht zahlbar in Bezug auf Steuern, Abgaben oder staatliche Gebühren, die:

- (a) von einer als Depotbank oder Inkassobeauftragter des Gläubigers der Schuldverschreibungen handelnden Person zu entrichten sind oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Emittentin von den von ihr zu leistenden **[im Fall von Nicht Nachrangigen Schuldverschreibungen gilt Folgendes: von Kapital] [im Fall von Nicht Nachrangigen Schuldverschreibungen, bei denen es sich nicht um Nullkupon-Anleihen handelt, gilt Folgendes: oder Zinsen]** einen Abzug oder einen Einbehalt auf solche Zahlungen vornimmt, oder

- (f) von einer Zahlstelle von einer Zahlung abgezogen oder einbehalten werden, wenn eine andere Zahlstelle die Zahlung ohne einen solchen Abzug oder Einbehalt hätte leisten können, oder
- (g) nicht zu entrichten wären, wenn die Schuldverschreibungen bei einem Kreditinstitut verwahrt und die Zahlungen von diesem eingezogen worden wären, oder
- (h) gemäß Section 871(m) des US-Bundessteuergesetzes (*United States Internal Revenue Code*) von 1986 ("IRC") abgezogen oder einbehalten werden,

### CREDIT LINKED NOTES ANNEX A

As set out in the Introduction to the Terms and Conditions, the Terms and Conditions as will be completed by the Final Terms (or as amended by the Pricing Supplement, in case of Exempt Securities) are comprised of five options. This Credit Linked Notes Annex A furthermore amends the Terms and Conditions and may only apply where Option I, Option II or Option V is specified as applicable in the applicable Final Terms.

If "Provisions for Credit Linked Securities" and "Credit Linked Notes Annex A" are specified as applicable in the applicable Final Terms the following provisions shall apply:

1. **Where the Securities are interest bearing Securities § 3([in case of Option I the following applies: [3]] [in case of Option II the following applies: [9]] [in case of Option V the following applies: [for Fixed Rate Securities or Securities with an Interest Switch the following applies: [3]] [for Securities other than Fixed Rate Securities or Securities without an Interest Switch the following applies:[9]]]) of the Terms and Conditions will be deleted and replaced by the following new § 3([3][9]):**

*"Accrual of Interest.* Unless "EM Pass-Through Securities" is specified as applicable in the applicable Final Terms in which case § 3([3][9]) shall not apply, each Security shall cease to bear interest from the expiry of the day preceding the day on which it is due for redemption, unless payment of principal and/or delivery of all assets deliverable is improperly withheld or refused. If the Issuer shall fail to redeem each Security when due, interest shall continue to accrue on the outstanding principal amount of such Security or, if the Securities are Zero Recovery Portfolio Securities or Recovery Portfolio Securities, on the Outstanding Principal Amount as of the day preceding the due date for redemption from (and including) the due date for redemption to (but excluding) the earlier of (i) the date on which all amounts due in respect of such Security have been paid and/or all assets deliverable in respect of such Security have been delivered, and (ii) five days after the date on which the full amount of the moneys payable in respect of such Security has been received by the Fiscal Agent and/or all assets in respect of such Security have been received by an agent appointed by the Issuer to deliver such assets to Securityholders and notice to that effect has been given to the Securityholders in accordance with § [in case of Option I and Option II the following applies: [12]] [in case of Option V the following applies: [15]] at the Rate of Interest applicable in respect of the last occurring Interest Period, provided that:

- (a)
  - (i) if "Accrual of Interest upon Credit Event" is specified as applicable in the applicable Final Terms, each Security shall cease to bear interest from the Credit Event Determination Date; or
  - (ii) if "Accrual of Interest upon Credit Event" is not specified as applicable in the applicable Final Terms, subject as provided in paragraph (b) below and notwithstanding anything to the contrary in the Conditions, no interest will be payable in respect of the Securities in respect of which the relevant Interest Payment Date has not occurred on or prior to the Credit Event Determination Date or, the Securities are Zero Recovery Portfolio Securities or Recovery Portfolio Securities, the last occurring Credit Event Determination Date, provided that if the Credit Event Determination Date or, as applicable, last occurring Credit Event Determination Date falls prior to the first Interest Payment Date, no interest shall be payable in respect of the Securities;
- (b) subject to the provisions of § 6(4), § 6(5) or § 6(6), if "DC Determinations" is specified in the applicable Final Terms and a Credit Event Resolution Request Date occurs during an Interest Period but Conditions to Settlement are not satisfied on or prior to the Interest Payment Date in respect of such Interest Period (unless on or prior to such Interest Payment Date (w) a DC No Credit Event Announcement occurs with respect thereto, (x) the relevant Credit Derivatives Determinations Committee has Resolved not to determine whether the relevant event constitutes a Credit Event with respect to the Reference Entity or Obligation thereof, (y) the

requisite number of Convened DC Voting Members (as defined in the Rules) have not agreed to deliberate the issue within the requisite time period or (z) the request the subject of the Credit Event Resolution Request Date has been withdrawn in accordance with the Rules prior to the first meeting at which deliberations are held with respect to such request), (i) if the Securities are Zero Recovery Portfolio Securities or Recovery Portfolio Securities, the Outstanding Principal Amount on which the Interest Amount in respect of the relevant Interest Period is calculated will be reduced by the Credit Event Reduction Amount in respect of such Reference Entity on the last day of such Interest Period or (ii) in all other cases, no interest will be payable in respect of the Securities on that Interest Payment Date, notwithstanding that Conditions to Settlement are not then satisfied. If Conditions to Settlement are not satisfied on or prior to the Interest Payment Date in respect of the next Interest Period, the interest that would otherwise have been payable on the Interest Payment Date for the earlier Interest Period will be payable, if applicable, in respect of the relevant Credit Event on the Interest Payment Date for that next Interest Period and interest will continue to be payable as provided herein thereafter. No further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; and

- (c) if § 6(4), § 6(5) or § 6 (6) applies in respect of the Securities and redemption of the Securities is postponed as provided therein, then interest will accrue as provided in § 6(4), § 6(5) or § 6(6), as the case may be.

If "EM Pass-Through Securities" is specified as applicable in the applicable Final Terms, the provisions of § 6(24) below will apply."

## 2. **Accrual of Interest upon Early Redemption**

accordance with paragraph (2). Each Receipt must be presented for payment of the relevant instalment together with the Security to which it appertains. Receipts presented without the Security to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any Security becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

4. **§ 4(6) will be deleted and replaced by the following new § 4(6):**

6. **[In case of Option I and Option II the following applies: The following will be inserted as a new § 6 and the subsequent Conditions (including the original § 6) will be re-numbered accordingly] [In case of Option V the following applies: § 6 will be deleted and replaced by the following new § 6]:**

**"PROVISIONS FOR CREDIT LINKED SECURITIES**

**Interpretation**

Any references in this § 6 to ISDA will include any other entity which succeeds to or is performing functions previously undertaken by ISDA in relation to Credit Derivatives Determinations Committees and references to Credit Derivatives Determinations Committees in relation to ISDA will include any successor thereto and the Calculation Agent may make such adjustments to this § 6 and the applicable Final Terms as it determines appropriate to account for the application of these provisions.

For the avoidance of doubt, the application of any of § 6(4), § 6(5) or § 6(6) below shall not preclude the application of any such Condition or any other such Condition either contemporaneously or subsequently and in the event that any such Conditions are inconsistent or the Calculation Agent becomes entitled to exercise one or more discretions under one or more of such Conditions, the Calculation Agent may elect in its discretion which Condition(s) shall apply and under which Condition(s) it shall exercise its discretion.

(1) *Auction Settlement*

If Conditions to Settlement are satisfied during the Notice Delivery Period (such date of satisfaction, the "**Credit Event Determination Date**") and "Auction Settlement" is specified in the applicable Final Terms, the Issuer shall give notice to the Securityholders in accordance with § [12][15] and redeem all but not some only of the Securities, each principal amount of Securities equal to the Calculation Amount being redeemed by the Issuer at the Credit Event Redemption Amount on the Credit Event Redemption Date, provided that if the relevant Conditions to Settlement are subsequently deemed not to have been satisfied in accordance with the definition thereof in § 6(10), the Credit Event Determination Date previously determined shall be deemed not to have occurred and the redemption of the Securities shall be cancelled and the Securities shall continue in accordance with their terms as if the relevant Conditions to Settlement had not been satisfied, subject to such adjustments as the Calculation Agent determines appropriate in its sole and absolute discretion to reflect the retrospective effect of this proviso (including, without limitation, adjusting the due date for payment of any amount payable under the Securities). The Issuer shall give notice to the Securityholders in accordance with § [12][15] that the relevant Conditions to Settlement are deemed not to have been satisfied as soon as practicable thereafter.

If:

- (x) unless settlement has occurred in accordance with the paragraph above, Conditions to Settlement are satisfied pursuant to sub-paragraph (a) of the definition thereof and on or prior to the Auction Cut-Off Date:
  - (i) ISDA publicly announces that no Auction will be held in accordance with any Credit Derivatives Auction Settlement Terms in relation to obligations of appropriate seniority of the Reference Entity (the date on which ISDA first makes such announcement, the "**No Auction Announcement Date**");
  - (ii) no No Auction Announcement Date has occurred but the relevant Credit Derivatives Determinations Committee has not determined that one or more Auctions will be held in accordance with any Credit Derivatives Auction Settlement Terms in relation to obligations of appropriate seniority of the Reference Entity; or
  - (iii) the Calculation Agent determines that it is not reasonably likely that an Auction will be held in accordance with any Credit Derivatives Auction Settlement Terms in relation to obligations of appropriate seniority of the Reference Entity and gives notice of such to the Issuer (the date on which the Calculation Agent gives such notice, the "**Calculation Agent No Auction Determination Date**"); or
- (y) Conditions to Settlement are satisfied pursuant to sub-paragraph (b) of the definition thereof,

then:

- (A) if Cash Settlement is specified as the applicable Fallback Settlement Method in the applicable Final Terms, the Issuer shall redeem the Securities in accordance with § 6(2) below; or
- (B) if Physical Settlement is specified as the applicable Fallback Settlement Method in the applicable Final Terms, the Issuer shall redeem the Securities in accordance with § 6(3) below.

**If Conditions to Settlement are satisfied and the Securities become redeemable in accordance with this § 6(1), upon payment of the Credit Event Redemption Amount in respect of the Securities the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the principal amount of a Security. Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer.**

(2) *Cash Settlement*

If Conditions to Settlement are satisfied during the Notice Delivery Period (such date of satisfaction, the "**Credit Event Determination Date**") and "Cash Settlement" is specified in the applicable Final Terms or if § 6(1)(A) above applies, the Issuer shall give notice to the Securityholders in accordance with § [12][15] and redeem all but not some only of the Securities, each principal amount of Securities equal to the Calculation Amount being redeemed by the Issuer at the Credit Event Redemption Amount on the Credit Event Redemption Date, provided that if the relevant Conditions to Settlement are subsequently deemed not to have been satisfied in accordance with the definition thereof in § 6(10), the Credit Event Determination Date previously determined shall be deemed not to have occurred and the redemption of the Securities shall be cancelled and the Securities shall continue in accordance with their terms as if the relevant Conditions to Settlement had not been satisfied, subject to such adjustments as the Calculation Agent determines appropriate in its sole and absolute discretion to reflect the retrospective effect of this proviso (including, without limitation, adjusting the due date for payment of any amount payable under the Securities). The Issuer shall give notice to the Securityholders in accordance with § [12][15] that the relevant Conditions to Settlement are deemed not to have been satisfied as soon as practicable thereafter.

**If Conditions to Settlement are satisfied and the Securities become redeemable in accordance with this § 6(2), upon payment of the Credit Event Redemption Amount in respect of the Securities the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the principal amount of a Security. Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer.**

(3) *Physical Settlement*

If Conditions to Settlement are satisfied during the Notice Delivery Period (such date of satisfaction, the "**Credit Event Determination Date**") and "Physical Delivery" is specified in the applicable Final Terms or if § 6(1)(B) above applies, the Issuer shall give notice (such notice a "**Notice of Physical Settlement**") to the Securityholders in accordance with § [12][15] and redeem all but not some only of the Securities, each principal amount of Securities equal to the Calculation Amount being redeemed by Delivery of the Deliverable Obligations comprising the Asset Amount, subject to and in accordance with § 6(7) and (8), provided that if the relevant Conditions to Settlement are subsequently deemed not to have been satisfied in accordance with the definition thereof in § 6(10), the Credit Event Determination Date previously determined shall be deemed not to have occurred and the redemption of the Securities shall be cancelled and the Securities shall continue in accordance with their terms as if the relevant Conditions to Settlement had not been satisfied, subject to such adjustments as the Calculation Agent determines appropriate in its sole and absolute discretion to reflect the retrospective effect of this proviso (including, without limitation, adjusting the due date for payment of any amount payable under the Securities). The Issuer shall give notice to the Securityholders in accordance with § [12][15] that the relevant Conditions to Settlement are deemed not to have been satisfied as soon as practicable thereafter. In the Notice of Physical Settlement the Issuer shall specify the Deliverable Obligations comprising the Asset Amount that it reasonably expects to Deliver. **For the avoidance of doubt, the Calculation Agent shall be entitled to select any of the Deliverable Obligations to constitute the Asset Amount, irrespective of their market value.**

If "Restructuring Maturity Limitation and Fully Transferable Obligation" is specified as applicable in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice or the subject of the DC Resolution resulting in the satisfaction of Conditions to Settlement, as applicable, then a Deliverable Obligation may be included in the Asset Amount only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the Restructuring Maturity Limitation Date.

If "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified as applying in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice or the subject of the DC Resolution resulting in the satisfaction of Conditions to Settlement, as applicable, then a Deliverable Obligation may be included in the Asset Amount only if it

(i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date.

**If Conditions to Settlement are satisfied and the Securities become redeemable in accordance with this § 6(3), upon Delivery of the Deliverable Obligations Deliverable and/or payment of the Cash Settlement Amount, as the case may be, the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Cash Settlement Amount may be less than the principal amount of a Security. Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer.**

(4) *Repudiation/Moratorium Extension.*

Where "Repudiation/Moratorium" is specified as a Credit Event in the applicable Final Terms, the provisions of this § 6(4) shall apply

Where Conditions to Settlement have not been satisfied on or prior to the Scheduled Maturity Date but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Scheduled Maturity Date or, if § 6(6)(y) applies, the Maturity Cut-Off Date and the Repudiation/Moratorium Evaluation Date in respect of the Potential Repudiation Moratorium will in the sole determination of the Calculation Agent, fall after the Scheduled Maturity Date, then the Calculation Agent shall notify the Securityholders in accordance with § [12][15] that a Potential Repudiation/Moratorium has occurred and:

- (i) where (I) a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or (II) a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date but Conditions to Settlement have not been satisfied in the Notice Delivery Period:
  - (A) each principal amount of Securities equal to the Calculation Amount will be redeemed by the Issuer by payment of the Redemption Amount on (1) the second Business Day following the Repudiation/Moratorium Evaluation Date or, if later, (y) the Maturity Cut-Off Date or, in the case of Recovery Portfolio Securities and if later, (2) the last occurring Credit Event Redemption Date; and

    - (y) if "Extension Period Interest" is not specified as applicable in the applicable Final Terms, interest calculated as provided herein, accruing from (and

including) the first day of the Interest Period ending on (but excluding) the Scheduled Maturity Date to (but excluding) the Scheduled Maturity Date or, in the case of EM Pass-Through Securities, in respect of the Interest Payment Date falling on the Maturity Date, but shall only be obliged to make such payments of interest on the second Business Day following the Repudiation/Moratorium Evaluation Date or, as the case may be, Maturity Cut-Off Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or

(ii) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date and Conditions to Settlement are satisfied in the Notice Delivery Period:

(A) the provisions of §6(1), § 6(2) or § 6(3) as applicable shall apply to the Securities; and

(B) in the case of Zero Recovery Portfolio Securities or Recovery Portfolio Securities (provided that the Outstanding Principal Amount is not reduced to zero), the Issuer shall redeem the Securities by payment of the Redemption Amount together with interest calculated as provided herein, accruing from (and including) the first day of the Interest Period ending on (but excluding) the Scheduled Maturity Date to (but excluding) the Scheduled Maturity Date, but shall only be obliged to make such payments on the latest of:

and in each case no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay.

(5) *Grace Period Extension*

Forms of the Asset Transfer Notice may be obtained during normal business hours from the specified office of any Paying Agent.

An Asset Transfer Notice may only be delivered (i) if such Security is represented by a Global Security, in such manner as is acceptable to the relevant Clearing System, or (ii) if such Security is in definitive form, in writing or by tested telex.

If the Security is in definitive form, the Security must be delivered together with the duly completed Asset Transfer Notice. An Asset Transfer Notice must:

- (c) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this specification or determination.
- (d) If any Quotation obtained with respect to an Accreting Obligation is expressed as a percentage of the amount payable in respect of such obligation at maturity, such Quotation will instead be expressed as a percentage of the Outstanding Principal Balance for purposes of determining the Final Price.

effective in accordance with the terms of the documentation governing such Restructuring without regard to whether the Obligation would satisfy such Deliverable Obligation Category or Deliverable Obligation Characteristics after such Restructuring.

**"Specified Number"** means the number of Public Source(s) specified in the applicable Final Terms, or if no number is specified in the applicable Final Terms, two.

**"Substitute Reference Obligation"** means one or more obligations of the Reference Entity (either directly or as provider of a Qualifying Affiliate Guarantee or, if "All Guarantees" is specified as applicable in the applicable Final Terms, as provider of any Qualifying Guarantee) that will replace one or more Reference Obligations, identified by the Calculation Agent in accordance with the following procedures:

- (a) In the event that:
  - (i) a Reference Obligation is redeemed in whole; or
  - (ii) in the opinion of the Calculation Agent (A) the aggregate amounts due under any Reference Obligation have been materially reduced by redemption or otherwise (other than due to any scheduled redemption, amortisation or prepayments), (B) any Reference Obligation is an Underlying Obligation with a Qualifying Guarantee of a Reference Entity and, other than due to the existence or occurrence of a Credit Event, the Qualifying Guarantee is no longer a valid and binding obligation of such Reference Entity enforceable in accordance with its terms or (C) for any other reason, other than due to the existence or occurrence of a Credit Event, any Reference Obligation is no longer an obligation of a Reference Entity,

the Calculation Agent shall identify one or more Obligations to replace such Reference Obligation.

- (b) Any Substitute Reference Obligation or Substitute Reference Obligations shall be an Obligation that (i) ranks *pari passu* (or, if no such Obligation exists, then, at the Issuer's option, an Obligation that ranks senior) in priority of payment with such Reference Obligation (with the ranking in priority of payment of such Reference Obligation being determined as of the later of (A) the Trade Date and (B) the date on which such Reference Obligation was issued or incurred and not reflecting any change to such ranking in priority of payment after such later date), (ii) preserves the economic equivalent, as closely as practicable as determined by the Calculation Agent of the delivery and payment obligations of the Issuer and (iii) is an obligation of a Reference Entity (either directly or as provider of a Qualifying Affiliate Guarantee or, if All Guarantees is specified as applicable in the applicable Final Terms, as provider of any Qualifying Guarantee). The Substitute Reference Obligation or Substitute Reference Obligations identified by the Calculation Agent shall, without further action, replace such Reference Obligation or Reference Obligations.
- (c) If more than one specific Reference Obligation is identified as a Reference Obligation in relation to a Series, any of the events set forth in sub-paragraph (a) above has occurred with respect to one or more but not all of the Reference Obligations, and the Calculation Agent determines that no Substitute Reference Obligation is available for one or more of such Reference Obligations, each Reference Obligation for which no Substitute Reference Obligation is available shall cease to be a Reference Obligation.
- (d) If more than one specific Reference Obligation is identified as a Reference Obligation in relation to a Series, any of the events set forth in sub-paragraph (a) above has occurred with respect to all of the Reference Obligations, and the Calculation Agent determines that at least one Substitute Reference Obligation is available for any such Reference Obligation, then each such Reference Obligation shall be replaced by a Substitute Reference Obligation and each Reference Obligation for which no Substitute Reference Obligation is available will cease to be a Reference Obligation.

(e) If:

- (i) more than one specific Reference Obligation is identified as a Reference Obligation in relation to a Series, any of the events set forth in sub-paragraph (a) above has occurred with respect to all of the Reference Obligations and the Calculation Agent determines that no Substitute Reference Obligation is available for any of the Reference Obligations; or
- (ii) only one specific Reference Obligation is identified as a Reference Obligation in relation to a Series, any of the events set forth in sub-paragraph (a) above has occurred with respect to such Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for that Reference Obligation,

then the Calculation Agent shall continue to attempt to identify a Substitute Reference Obligation until the later of (A) the Scheduled Maturity Date, (B) the Grace Period Extension Date (if any) and (C) the Repudiation/Moratorium Evaluation Date (if any). If (1) either "Cash Settlement" is specified in the applicable Final Terms and the Credit Event Redemption Amount is determined by reference to a Reference Obligation or "Physical Delivery" is specified in the applicable Final Terms and the Reference Obligation is the only Deliverable Obligation and (2) on or prior to the later of (A) the Scheduled Maturity Date, (B) the Grace Period Extension Date or (C) the Repudiation/Moratorium Evaluation Date, a Substitute Reference Obligation has not been identified, the Issuer's obligations under the Securities shall cease as of the later of (A) the Scheduled Maturity Date, (B) the Grace Period Extension Date or (C) the Repudiation/Moratorium Evaluation Date.

- (f) For the purposes of identification of a Reference Obligation, any change in the Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, convert such Reference Obligation into a different Obligation.

**"Succession Event"** means (i) with respect to a Reference Entity that is not a Sovereign, an event such as a merger, de-merger, consolidation, amalgamation, transfer of assets or liabilities, spin off or other similar event in which one entity succeeds to the obligations of another entity, whether by operation of law or pursuant to any agreement or (ii) with respect to a Reference Entity that is a Sovereign, an event such as an annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other event that results in any direct or indirect successor(s) to such Reference Entity. Notwithstanding the foregoing, "Succession Event" shall not include an event in which the holders of obligations of the Reference Entity exchange such obligations for the obligations of another entity, unless such exchange occurs in connection with a merger, demerger, consolidation, amalgamation, transfer of assets or liabilities, spin-off or other similar event.

**"Succession Event Resolution Request Date"** means, with respect to a notice to ISDA, delivered in accordance with the Rules, requesting that a Credit Derivatives Determinations Committee be convened to Resolve:

**"Successor"** means:

- (a) in relation to a Reference Entity that is not a Sovereign, the entity or entities, if any, determined as set forth below:
- (i) if one entity directly or indirectly succeeds to 75 per cent. or more of the Relevant Obligations of the Reference Entity by way of a Succession Event, that entity will be the sole Successor;
  - (ii) if only one entity directly or indirectly succeeds to more than 25 per cent. (but less than 75 per cent.) of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent. of the Relevant Obligations will be the sole Successor;
  - (iii) if more than one entity each directly or indirectly succeed to more than 25 per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent. of the Relevant Obligations will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
  - (iv) if one or more entity each directly or indirectly succeed to more than 25 per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
  - (v) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of the Succession Event; and
  - (vi) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the greatest percentage of obligations of the Reference Entity) will be the sole Successor; and
- (b) in relation to a Sovereign Reference Entity, each entity which becomes a direct or indirect successor to that Reference Entity by way of Succession Event irrespective of whether any such successor assumes any of the obligations of such Reference Entity.

In the case of (a) above, the Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the legally effective date of the Succession Event), and with effect from the legally effective date of the Succession Event, whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable; provided that the Calculation Agent will not make such determination if, at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in the definition of Successor in relation to the relevant Reference Entity, and in subparagraphs (a) and (b)(i) of the definition of Succession Event Resolution Request Date are satisfied in accordance with the Rules (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor or

the request the subject of the Succession Event Resolution Request Date is withdrawn in accordance with the Rules prior to the first meeting at which deliberations are held with respect to such request) or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event with respect to the relevant Reference Entity has occurred, unless in either case the Calculation Agent, acting in good faith and in a commercially reasonable manner and taking into account the differences between the definition of Successor under the 2003 ISDA Credit Derivatives Definitions and the definition of Successor hereunder and such other factor(s) as it deems appropriate, determines that it is inappropriate to follow such DC Resolutions for the purposes of the Securities. In calculating the percentages used to determine whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable, the Calculation Agent shall use, in respect of each applicable Relevant Obligation included in such calculation, the amount of the liability in respect of such Relevant Obligation listed in the Best Available Information and shall, as soon as practicable after such calculation, make such calculation available for inspection by Securityholder(s) at the specified office of the Fiscal Agent.

In the case of (b) above, the Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the date of occurrence of the relevant Succession Event), and with effect from the date of occurrence of the Succession Event, each Sovereign and/or entity, if any, that qualifies under (b) above; provided that the Calculation Agent will not make such determination if, at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in the definition of Successor in relation to the relevant Reference Entity, and in sub-paragraphs (a) and (b)(ii) of the definition of Succession Event Resolution Request Date are satisfied in accordance with the Rules (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor or the request the subject of the Succession Event Resolution Request Date is withdrawn in accordance with the Rules prior to the first meeting at which deliberations are held with respect to such request) or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event with respect to the relevant Reference Entity has occurred, unless in either case the Calculation Agent, acting in good faith and in a commercially reasonable manner and taking into account the differences between the definition of Successor under the 2003 ISDA Credit Derivatives Definitions and the definition of Successor hereunder and such other factor(s) as it deems appropriate, determines that it is inappropriate to follow such DC Resolutions for the purposes of the Securities.

Where pursuant to paragraph (a) above, more than one Successor has been identified, the Calculation Agent shall adjust such of the Terms and Conditions and/or the applicable Final Terms as it in its sole and absolute discretion acting in a commercially reasonable manner shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of the Terms and Conditions and/or the applicable Final Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Securities under the provisions of the 2003 ISDA Credit Derivatives Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Securityholders in accordance with § [12][15], stating the adjustment to the Terms and Conditions and/or the applicable Final Terms and giving brief details of the relevant Succession Event.

For the purposes of this definition of "Successor", "**succeed**" means, with respect to a Reference Entity and its Relevant Obligations (or, as applicable, obligations), that a party other than such Reference Entity (i) assumes or becomes liable for such Relevant Obligations (or, as applicable, obligations) whether by operation of law or pursuant to any agreement or (ii) issues Bonds that are exchanged for Relevant Obligations (or, as applicable, obligations), and in either case such Reference Entity is no longer an obligor (primarily or secondarily) or guarantor with respect to such Relevant Obligations (or, as applicable, obligations). The determinations required pursuant to sub-paragraph (a) of this definition of "Successor" shall be made, in the case of an exchange offer, on the basis of the Outstanding

Principal Balance of Relevant Obligations tendered and accepted in the exchange and not on the basis of the Outstanding Principal Balance of Bonds for which Relevant Obligations have been exchanged.

Where:

- (A) a Reference Obligation is specified in the applicable Final Terms; and
- (B) one or more Successors to the Reference Entity have been identified; and
- (C) any one or more such Successors have not assumed the Reference Obligation,

(13) (i) *Provisions taken from the ISDA supplement titled "Additional Provisions-Monoline Insurer as Reference Entity" (May 2003)*

If § 6(13)(i) is specified as applicable in the applicable Final Terms, the following provisions will apply:

- (a) *Obligation and Deliverable Obligation.* Sub-paragraph (a) of the definition of "Obligation" in § 6(10) and sub-paragraph (a) of the definition of "Deliverable Obligation" in § 6(10) are hereby amended by adding "or Qualifying Policy" after "or as provider of a Qualifying Affiliate Guarantee".
- (b) *Interpretation of Provisions.* In the event that an Obligation or a Deliverable Obligation is a Qualifying Policy, paragraph (B) of the definition of "Deliverable Obligation" in § 6(10) will apply, with references to the Qualifying Guarantee, the Underlying Obligation and the Underlying Obligor deemed to include the Qualifying Policy, the Insured Instrument and the Insured Obligor, respectively, except that:
  - (A) the Obligation Category Borrowed Money and the Obligation Category and Deliverable Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms "obligation" and "obligor" as used in this § 6 in respect of such an Insured Instrument shall be construed accordingly;
  - (B) references in the definitions of Assignable Loan and Consent Required Loan to "the guarantor" and "guaranteeing" shall be deemed to include "the insurer" and "insuring", respectively;

- (C) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Deliverable Obligation Characteristic of Accelerated or Matured, whether or not that characteristic is otherwise specified as applicable in the applicable Final Terms;

For the purposes of the definition of "Deliver" in § 6(10), "Deliver" with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and "Delivery" and "Delivered" will be construed accordingly.

  - (A) the Obligation Category Borrowed Money and the Obligation Category and Deliverable Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms "obligation" and "obligor" as used in this § 6 in respect of such an Insured Instrument shall be construed accordingly;
  - (B) references in the definitions of Assignable Loan and Consent Required Loan to "the guarantor" and "guaranteeing" shall be deemed to include "the insurer" and "insuring", respectively;

- (C) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Deliverable Obligation Characteristic of Accelerated or Matured, whether or not that characteristic is otherwise specified as applicable in the applicable Final Terms;
- (D) if the Assignable Loan, Consent Required Loan, Direct Loan Participation or Transferable Deliverable Obligation Characteristics are specified in the applicable Final Terms and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument; and
- (E) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "Outstanding Principal Balance" shall mean the outstanding Certificate Balance and "maturity", as such term is used in the Maximum Maturity Deliverable Obligation Characteristic, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.

For the avoidance of doubt, if § 6(14) is specified as applying in the applicable Final Terms the amendments to paragraph (B) of the definition of "Deliverable Obligation" in § 6(10) provided in § 6(13) shall not be construed to apply to Qualifying Policies and Insured Instruments.

- (c) *Not Contingent.* An Insured Instrument will not be regarded as failing to satisfy the Not Contingent Deliverable Obligation Characteristic solely because such Insured Instrument is subject to provisions limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument, provided that such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction. By specifying that this § 6(13)(ii) is applicable, no inference should be made as to the interpretation of the "Not Contingent" Deliverable Obligation Characteristic in the context of limited recourse or similar terms applicable to Deliverable Obligations other than Qualifying Policies.
- (d) *Deliver.* For the purposes of the definition of "Deliver" in § 6(10), "Deliver" with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and "Delivery" and "Delivered" will be construed accordingly.
- (e) *Provisions for Determining a Successor.* The paragraph commencing "For the purposes of this definition of "Successor" in the definition of "Successor" in § 6(10) is hereby amended by adding "or insurer" after "or guarantor".
- (f) *Substitute Reference Obligation.* The first paragraph of the definition of "Substitute Reference Obligation" and sub-paragraph (b) thereof in § 6(10) is hereby amended by adding "or Qualifying Policy" after "or as provider of a Qualifying Affiliate Guarantee". For purposes of sub-paragraph (a)(ii)(B) the definition of "Substitute Reference Obligation" references to "the Qualifying Guarantee" and the "Underlying Obligation" shall be deemed to include "the Qualifying Policy" and "the Insured Instrument", respectively.

(g) *Restructuring.*

- (i) With respect to an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest or a Qualifying Policy with respect thereto, sub-paragraphs (i) to (v) inclusive of the definition of "Restructuring" in § 6(10) are hereby amended to read as follows:
- (i) a reduction in the rate or amount of the Instrument Payments in clause (A)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy;
  - (ii) a reduction in the amount of the Instrument Payments described in clause (A)(y) of the definition thereof that are guaranteed or insured by the Qualifying Policy;
  - (iii) a postponement or other deferral of a date or dates for either (A) the payment or accrual of the Instrument Payments described in clause (A)(x) of the definition thereof or (B) the payment of the Instrument Payments described in clause (A)(y) of the definition thereof, in each case that are guaranteed or insured by the Qualifying Policy;
  - (iv) a change in the ranking in priority of payment of (I) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (II) any Instrument Payments, causing the Subordination of such Insured Instrument to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or
  - (v) any change in the currency or composition of any payment of Instrument Payments that are guaranteed or insured by the Qualifying Policy to any currency which is not a Permitted Currency.
- (ii) Sub-paragraph (c) of the definition of "Restructuring" in § 6(10) is hereby amended by adding "or, in the case of a Qualifying Policy and an Insured Instrument, where (I) the Qualifying Policy continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the Qualifying Policy guaranteed or insured that such Instrument Payments would be made prior to such event and (II) such event is not a change in the ranking in the priority of payment of the Qualifying Policy" after "Reference Entity".
- (iii) The definition of "Restructuring" in § 6(10) is hereby amended by the insertion of the following paragraph after the final paragraph thereof:
- "For purposes of the definition of "Restructuring" in § 6(10) and if § 6(12) is specified as applying in the applicable Final Terms for the purposes of § 6(12), the term Obligation shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in the definition of "Restructuring" shall be deemed to refer to the Insured Obligor and the reference to the Reference Entity in sub-paragraphs (a) to (c) inclusive in the definition of "Restructuring" shall continue to refer to the Reference Entity."

- (h) *Fully Transferable Obligation and Conditionally Transferable Obligation.* In the event that "Restructuring Maturity Limitation and Fully Transferable Obligation" and/or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as applying in the applicable Final Terms and a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition. References in the definition of Conditionally Transferable Obligation to the guarantor and guaranteeing shall be deemed to include the insurer and insuring, respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in § 6(3) and the definition of "Restructuring Maturity Limitation Date", shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.
- (i) *Other Provisions.* For purposes of sub-paragraph (a)(ii) of the definition of "Deliverable Obligation" and the definitions of "Credit Event" and "Deliver" in § 6(10), references to the "Underlying Obligation" and the "Underlying Obligor" shall be deemed to include "Insured Instruments" and the "Insured Obligor", respectively.
- (j) *Additional Definitions.*

**"Qualifying Policy"** means a financial guaranty insurance policy or similar financial guarantee pursuant to which a Reference Entity irrevocably guarantees or insures all Instrument Payments of an instrument that constitutes Borrowed Money (modified as set forth in this § 6(13)(ii)) (the **"Insured Instrument"**) for which another party (including a special purpose entity or trust) is the obligor (the **"Insured Obligor"**). Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments).

**"Instrument Payments"** means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (A) and (B) (1) determined without regard to limited recourse or reduction provisions of the type described in § 6(13)(ii)(c) above and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

**"Certificate Balance"** means, in the case of an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, the unit principal balance, certificate balance or similar measure of unreimbursed principal investment.

(14) *Supplement to provisions relating to Qualifying Guarantee and Underlying Obligation*

  - "(ii) For purposes of the application of the Obligation Characteristics or the Deliverable Obligation Characteristics, both the Qualifying Guarantee and the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation

Qualifying Guarantees shall exclude any arrangement (i) structured as a surety bond, financial guarantee insurance policy, letter of credit or equivalent legal arrangement or (ii) pursuant to the terms of which the payment obligations of the Reference Entity can be discharged, reduced or otherwise altered or assigned (other than by operation law) as a result of the occurrence or non-occurrence of an event or circumstance (other than payment). **Interpretation**

Any references herein to an Auction, Convened DC Voting Members, Credit Derivatives Auction Settlement Terms, Credit Derivatives Determinations Committee, DC Resolution, DC Rules, DC Secretary Announcement or Resolution (in each case howsoever described) shall be deemed to be only to that which would be relevant or applicable under or in relation to credit derivatives transactions incorporating the 2014 Definitions.

In the case of Securities for which more than one Reference Entity is specified in the applicable Final Terms, all references to "the Reference Entity" herein shall be construed to refer to the Reference Entity in respect of which of the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly.

For the avoidance of doubt no Securities will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or

- (b) Obligations, Deliverable Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

Any references in this § 6 to ISDA will include any other entity which succeeds to or is performing functions previously undertaken by ISDA in relation to Credit Derivatives Determinations Committees and references to Credit Derivatives Determinations Committees in relation to ISDA will include any successor thereto and the Calculation Agent may make such adjustments to this § 6 and the applicable Final Terms as it determines appropriate to account for the application of these provisions.

For the avoidance of doubt, the application of any of § 6(4), § 6(5) or § 6(6) below shall not preclude the application of any such Condition or any other such Condition either contemporaneously or subsequently and in the event that any such Conditions are inconsistent or the Calculation Agent becomes entitled to exercise one or more discretions under one or more of such Conditions, the Calculation Agent may elect in its discretion which Condition(s) shall apply and under which Condition(s) it shall exercise its discretion.

(1) *Auction Settlement*

If a Credit Event Determination Date occurs and "Auction Settlement" is specified in the applicable Final Terms, the Issuer shall give notice to the Securityholders in accordance with § [12][15] and redeem all but not some only of the Securities, each principal amount of Securities equal to the Calculation Amount being redeemed by the Issuer at the Credit Event Redemption Amount on the Credit Event Redemption Date, provided that if the relevant Credit Event Determination Date is subsequently deemed not to have occurred in accordance with the definition thereof in § 6(10), the redemption of the Securities shall be cancelled and the Securities shall continue in accordance with their terms as if the relevant Credit Event Determination Date had not occurred, subject to such adjustments as the Calculation Agent determines appropriate in its sole and absolute discretion to reflect the retrospective effect of this proviso (including, without limitation, adjusting the due date for payment of any amount payable under the Securities). The Issuer shall give notice to the Securityholders in accordance with § [12][15] that the relevant Credit Event Determination Date is deemed not to have occurred as soon as practicable thereafter.

If:

- (x) unless settlement has occurred in accordance with the paragraph above, a Credit Event Determination Date occurs pursuant to sub-paragraph (a) of the definition thereof and on or prior to the Auction Cut-Off Date:
  - (i) the DC Secretary publicly announces, with respect to a Credit Event, that (a) no Credit Derivatives Auction Settlement Terms will be published in relation to obligations of appropriate seniority of the Reference Entity (b) the relevant Credit Derivatives Determinations Committee has Resolved that no Credit Derivatives Auction Settlement Terms will be published following a prior public announcement by the DC Secretary to the contrary (the date on which the DC Secretary first makes either such announcement, the "**No Auction Announcement Date**");

- (y) a Credit Event Determination Date occurs pursuant to sub-paragraph (b) of the definition thereof,

then:

- (A) if "Cash Settlement" is specified as the applicable Fallback Settlement Method in the applicable Final Terms, the Issuer shall redeem the Securities in accordance with § 6(2) below; or
- (B) if "Physical Settlement" is specified as the applicable Fallback Settlement Method in the applicable Final Terms, the Issuer shall redeem the Securities in accordance with § 6(3) below.

**If a Credit Event Determination Date occurs and the Securities become redeemable in accordance with this § 6(1), upon payment of the Credit Event Redemption Amount in respect of the Securities the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the principal amount of a Security. Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer.**

(2) *Cash Settlement*

If a Credit Event Determination Date occurs and "Cash Settlement" is specified in the applicable Final Terms or if § 6(1)(A) above applies, the Issuer shall give notice to the Securityholders in accordance with § [12][15] and redeem all but not some only of the Securities, each principal amount of Securities equal to the Calculation Amount being redeemed by the Issuer at the Credit Event Redemption Amount on the Credit Event Redemption Date, provided that if the relevant Credit Event Determination Date is subsequently deemed not to have occurred in accordance with the definition thereof in § 6(10), the redemption of the Securities shall be cancelled and the Securities shall continue in accordance with their terms as if the relevant Credit Event Determination Date had not occurred, subject to such adjustments as the Calculation Agent determines appropriate in its sole and absolute discretion to reflect the retrospective effect of this proviso (including, without limitation, adjusting the due date for payment of any amount payable under the Securities). The Issuer shall give notice to the Securityholders in accordance with § [12][15] that the relevant Credit Event Determination Date is deemed not to have occurred as soon as practicable thereafter.

**If a Credit Event Determination Date occurs and the Securities become redeemable in accordance with this § 6(2), upon payment of the Credit Event Redemption Amount in respect of the Securities the Issuer shall have discharged its obligations in respect of the Securities and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the principal amount of a Security. Any shortfall shall be borne by the Securityholders and no liability shall attach to the Issuer.**

(3) *Physical Settlement*

- (a) If a Credit Event Determination Date occurs and "Physical Delivery" is specified in the applicable Final Terms or if § 6(1)(B) above applies, the Issuer shall give notice (such notice a **"Notice of Physical Settlement"**) to the Securityholders in accordance with § [12][15] and redeem all but not some only of the Securities, each principal amount of Securities equal to the Calculation Amount being redeemed by Delivery of the Deliverable Obligations comprising the Asset Amount, subject to and in accordance with § 6(7) and (8), provided that if the relevant Credit Event Determination Date is subsequently deemed not to have occurred in accordance with the definition thereof in § 6(10), the redemption of the Securities shall be cancelled and the Securities shall continue in accordance with their terms as if the relevant Credit Event Determination Date had not occurred, subject to such adjustments as the Calculation Agent determines appropriate in its sole and absolute discretion to reflect the retrospective effect of this proviso (including, without limitation, adjusting the due date for payment of any amount payable under the Securities). The Issuer shall give notice to the Securityholders in

accordance with § [12][15] that the relevant Credit Event Determination Date is deemed not to have occurred as soon as practicable thereafter.

In the Notice of Physical Settlement the Issuer shall specify the Deliverable Obligations comprising the Asset Amount that it reasonably expects to Deliver and the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Settlement Currency (in each case, the "**Outstanding Amount**") and, if different, the face amount, of each such Deliverable Obligation and the aggregate Outstanding Amount of such Deliverable Obligations (the "**Aggregate Outstanding Amount**"). **For the avoidance of doubt, the Calculation Agent shall be entitled to select any of the Deliverable Obligations to constitute the Asset Amount, irrespective of their market value.**

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Securityholders in accordance §[12][15] (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of each Replacement Deliverable Obligation identified in a Physical Settlement Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligation(s) specified in any Physical Settlement Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligation(s) specified in the Notice of Physical Settlement or any earlier Physical Settlement Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such Physical Settlement Amendment Notice must be effective on or prior to the Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice).

Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies contained in the Physical Settlement Notice or any Physical Settlement Amendment Notice, as applicable, by notice to Securityholders in accordance with §[12][15], prior to the relevant Delivery Date and (ii) if Asset Package Delivery is applicable, the Issuer shall on the NOPS Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Securityholders in accordance with §[12][15] of the detailed description of the Asset Package, if any, that the Issuer intends to Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice shall not constitute a Physical Settlement Amendment Notice.

- (d) For the purposes of making a determination pursuant to paragraphs (b) or (c) above or the definition of Restructuring Maturity Limitation Date, the final maturity date shall, subject to paragraph (c), be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.
- (e) Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Credit Event Determination Date, as applicable, or if later and the relevant Credit Event Backstop Date was determined pursuant to paragraph (b) thereof, the date that is 60 calendar days prior to the Notice Delivery Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event.

- (A) if such Security is represented by a Global Security, the relevant Securityholder must deliver to the relevant Clearing System, with a copy to the Issuer not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice; and
- (B) if such Security is in definitive form, the relevant Securityholder must deliver to any Paying Agent with a copy to the Issuer not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice (as defined below).

Forms of the Asset Transfer Notice may be obtained during normal business hours from the specified office of any Paying Agent.

An Asset Transfer Notice may only be delivered (i) if such Security is represented by a Global Security, in such manner as is acceptable to the relevant Clearing System, or (ii) if such Security is in definitive form, in writing or by tested telex.

If the Security is in definitive form, the Security must be delivered together with the duly completed Asset Transfer Notice. An Asset Transfer Notice must:

In the case of Securities represented by a Global Security, upon receipt of such notice, the relevant Clearing System shall verify that the person specified therein as the Securityholder is the holder of the specified principal amount of Securities according to its books.

Failure properly to complete and deliver an Asset Transfer Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in these Conditions shall be made, in the case of Securities represented by a Global Security, by the relevant Clearing System after consultation with the Issuer and shall be conclusive and binding on the Issuer and the relevant Securityholder and, in the case of Securities in definitive form, by the relevant Paying Agent after consultation with the Issuer, and shall be conclusive and binding on the Issuer and the relevant Securityholder.

  - (ii) satisfies the Not Subordinated Deliverable Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and
  - (iii) (A) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:
    - (I) is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Deliverable Obligation; or if no such obligation is available,
    - (II) is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (a) of the definition of Deliverable Obligation;

- (B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:
    - (I) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
    - (II) is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Deliverable Obligation; or if no such obligation is available,
    - (III) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
    - (IV) is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (a) of the definition of Deliverable Obligation; or
  - (C) if the Non-Standard Reference Obligation was a Loan which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:
    - (I) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
    - (II) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
    - (III) is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (a) of the definition of Deliverable Obligation; or if no such obligation is available,
    - (IV) is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (a) of the definition of Deliverable Obligation.
- (d) If more than one potential Substitute Reference Obligation is identified pursuant to the process described in paragraph (c) above, the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and/or payment obligations of the Issuer under the Securities, as determined by the Calculation Agent. The Calculation Agent will notify (which notification may be by telephone) the Issuer of the Substitute Reference Obligation as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation immediately upon such notification.
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.
- (f) For the avoidance of doubt, no Substitute Reference Obligation shall be determined in respect of any Securities that are Reference Obligation Only Securities.

**"Substitution Date"** means, with respect to a Substitute Reference Obligation, the date on which the Calculation Agent notifies (which notification may be by telephone) the Issuer of the Substitute Reference Obligation that it has identified in accordance with the definition of Substitute Reference Obligation.

**"Substitution Event"** means, with respect to the Non-Standard Reference Obligation:

- (i) the Non-Standard Reference Obligation is redeemed in whole;
- (ii) the aggregate amounts due under the Non-Standard Reference Obligation have been reduced by redemption or otherwise below USD 10,000,000 (or its equivalent in the relevant Obligation Currency, as determined by the Calculation Agent); or
- (iii) for any reason, other than due to the existence or occurrence of a Credit Event, the Non-Standard Reference Obligation is no longer an obligation of the Reference Entity (either directly or as provider of a guarantee).

For purposes of identification of the Non-Standard Reference Obligation, any change in the Non-Standard Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, constitute a Substitution Event. If an event described in paragraph (i) or (ii) above has occurred on or prior to the Trade Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraph (i) or (ii), as the case may be, on the Trade Date.

**"Substitution Event Date"** means, with respect to the Reference Obligation, the date of the occurrence of the relevant Substitution Event.

**"Succession Date"** means the legally effective date of an event in which one or more entities succeed to some or all of the Relevant Obligations of the Reference Entity; provided that if at such time, there is a Steps Plan, the Succession Date will be the legally effective date of the final succession in respect of such Steps Plan, or if earlier (i) the date on which a determination pursuant to paragraph (a) of the definition of Successor would not be affected by any further related successions in respect of such Steps Plan, or (ii) the occurrence of a Credit Event Determination Date or, if "DC Determinations" is specified in the applicable Final Terms and a Credit Event Determination Date occurs, the occurrence of the relevant Credit Event Resolution Request Date, in each case in respect of the Reference Entity or any entity which would constitute a Successor.

**"Successor"** means, subject to paragraph (c) below:

- (a) the entity or entities, if any, determined as set forth below:
  - (i) subject to paragraph (vii) below, if one entity succeeds, either directly or as a provider of a Relevant Guarantee, to 75 per cent. or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor;
  - (ii) if only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. (but less than 75 per cent.) of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent. of the Relevant Obligations will be the sole Successor;
  - (iii) if more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent. of the Relevant Obligations will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;

- (iv) if one or more entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below;
  - (v) if one or more entities succeeds, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;
  - (vi) if one or more entities succeeds, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and these Terms and Conditions and/or the applicable Final Terms will be adjusted as provided below); and
  - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the "**Universal Successor**") will be the sole Successor.
- (b) The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under paragraph (a) above; provided that the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations, unless the Calculation Agent, acting in good faith and in a commercially reasonable manner and taking into account the differences between the definition of Successor under the 2014 Definitions and the definition of Successor hereunder and such other factor(s) as it deems appropriate, determines that it is inappropriate to follow such DC Resolutions for the purposes of the Securities.

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information and as soon as practicable after any such calculation or determination will notify (which notification may be by telephone) the Issuer of such calculation or determination and make such calculation or determination available for inspection by Securityholder(s) at the specified office of the Fiscal Agent.

In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

- (c) An entity may only be a Successor if:
- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
  - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
  - (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.
- (d) For purposes of this definition of Successor, "**succeed**" means, with respect to a Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (ii) issues Bonds or incurs Loans (the "**Exchange Bonds or Loans**") that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For purposes of this definition of Successor, "**succeeded**" and "**succession**" shall be construed accordingly.
- (e) In the case of an exchange offer, the determination required pursuant to paragraph (a) above shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (f) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.
- (g) Where, pursuant to paragraph (a) above, more than one Successor has been identified, the Calculation Agent shall adjust such of the Terms and Conditions and/or the applicable Final Terms as it in its sole and absolute discretion acting in a commercially reasonable manner shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of the Terms and Conditions and/or the applicable Final Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Securities under the provisions of the 2014 Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Securityholders in accordance with § [12][15], stating the adjustment to the Terms and Conditions and/or the applicable Final Terms and giving brief details of the relevant succession.

**"Successor Backstop Date"** means for purposes of any Successor determination determined by DC Resolution, the date that is 90 calendar days prior to the Successor Resolution Request Date otherwise, the date that is 90 calendar days prior to the earlier of (i) the date on which the Successor

Notice is effective and (ii) in circumstances where (A) a Successor Resolution Request Date has occurred, (B) the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination and (C) the Successor Notice is delivered by the Calculation Agent to the Issuer not more than fourteen calendar days after the day on which the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination, the Successor Resolution Request Date, unless the Calculation Agent acting in good faith and in a commercially reasonable manner and taking into account the differences between the definition of Successor under the 2014 Definitions and the definition of Successor hereunder and such other factor(s) as it deems appropriate, determines the DC Resolutions the subject of such request inappropriate to follow for the purposes of the Securities. If a Credit Event Determination Date occurs with respect to a Reference Entity the Calculation Agent shall on the relevant Credit Event Determination Date reduce the Outstanding Principal Amount by an amount equal to the sum of the Credit Event Reduction Amount(s) (as defined in paragraph (j) below) in respect of each Reference Entity with respect to which a Credit Event Determination Date has occurred on such date.

(g) *Multiple Credit Event Determination Dates*

A Credit Event Determination Date may occur more than once except that, subject as provided in § 6(11) and the definitions of Credit Event Notice and Credit Event Determination Date in § 6(10), a Credit Event Notice (if applicable) may only be delivered on one occasion and a Credit Event Determination Date may occur once only, with respect to any Reference Entity (unless subsequent to the occurrence of a Credit Event Determination Date with respect to any Reference Entity, that Reference Entity becomes the Successor to one or more other Reference Entities in respect of which a Credit Event Determination Date has not occurred, in which case a Credit Event Determination Date may occur again).

(h) *Accrual of Interest*

In the case of interest-bearing Securities:

- (i) Notwithstanding anything to the contrary in § 3, the amount of interest payable in respect of each principal amount of Securities which as of the Issue Date had a principal amount equal to the Calculation Amount and an Interest Period, will be the Interest Amount (as defined in paragraph (j) below) in respect of such Interest Period.
- (ii) § 5[(5)][(6)] shall be amended by the deletion of the words "together (if applicable) with interest accrued to (but excluding) the date of redemption" therein.
- (iii) In the case of Securities for which Eligible Liabilities Format is not specified as applicable in the applicable Final Terms, § [9][12] shall be amended by the deletion of the words "together with interest accrued to the date of repayment" therein.
- (iv) In the event that the Securities are redeemed pursuant to § 5[(5)][(6)], § 6(9) or, in the case of Securities for which Eligible Liabilities Format is not specified as applicable in the applicable Final Terms, § [9][12], no interest will be payable in respect of the Securities in respect of which the relevant Interest Payment Date has not occurred on or prior to the date fixed for such redemption, provided that if the date fixed for such redemption falls prior to the first Interest Payment Date, no interest shall be payable in respect of the Securities.

For the avoidance of doubt, in the event that the Securities are redeemed at a time when the Outstanding Principal Amount is equal to zero, no interest will be payable in respect of the Securities.

(i) *Interpretation*

Each reference in the Conditions to "each principal amount of Securities equal to the Calculation Amount" shall be deemed to be to "each principal amount of Securities which as of the Issue Date had a principal amount equal to the Calculation Amount".

In the event of any inconsistency between this § 6(19) and any other provision of § 6 or any provision of § 3, the provisions of this § 6(19) will prevail. No date under this § 6(19) will be subject to adjustment in accordance with any Credit Business Day Convention.

If § 6(22) is specified as applicable in the applicable Final Terms, the following provisions will apply:

- (a) *Obligation and Deliverable Obligation.* Sub-paragraph (a) of the definition of "Obligation" in § 6(10) and sub-paragraph (a) of the definition of "Deliverable Obligation" in § 6(10) are hereby amended by adding "or Qualifying Policy" after "or as provider of a Relevant Guarantee".
- (b) *Interpretation of Provisions.* In the event that an Obligation or a Deliverable Obligation is a Qualifying Policy, paragraph (B) of the definition of "Deliverable Obligation" in § 6(10) will apply, with references to the Relevant Guarantee, the Underlying Obligation and the Underlying Obligor deemed to include the Qualifying Policy, the Insured Instrument and the Insured Obligor, respectively, except that:
  - (A) the Obligation Category Borrowed Money and the Obligation Category and Deliverable Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms "obligation" and "obligor" as used in this § 6 in respect of such an Insured Instrument shall be construed accordingly;
  - (B) references in the definitions of Assignable Loan and Consent Required Loan to "the guarantor" and "guaranteeing" shall be deemed to include "the insurer" and "insuring", respectively;
  - (C) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Deliverable Obligation Characteristic of Accelerated or Matured, whether or not that characteristic is otherwise specified as applicable in the applicable Final Terms;
  - (D) if the Assignable Loan, Consent Required Loan, Direct Loan Participation or Transferable Deliverable Obligation Characteristics are specified in the applicable Final Terms and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument;
  - (E) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "maturity", as such term is used in the Maximum Maturity Deliverable Obligation Characteristic, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur; and
  - (F) with respect to a Qualifying Policy and an Insured Instrument, only the Qualifying Policy must satisfy on the relevant date or dates the "Not Subordinated" Obligation Characteristic or Deliverable Obligation Characteristic, if applicable.
- (c) *Outstanding Principal Balance.* References in paragraph (i) of the definition of "Outstanding Principal Balance" in § 6(10) to a Guarantee, the Underlying Obligation and the Underlying Obligor shall be deemed to include a Qualifying Policy, the Insured Instrument and the Insured Obligor respectively. Any provisions of an Insured Instrument limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument shall be disregarded for the purposes of limb (B) of paragraph (ii) of the definition of "Outstanding Principal Balance" provided that such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction. By specifying that this § 6(22) is applicable, no inference should be made as to the interpretation of the "Outstanding Principal Balance" in the context of limited recourse or similar terms applicable to Deliverable Obligations other than Qualifying Policies.

- (d) *Deliver.* For the purposes of the definition of "Deliver" in § 6(10), "Deliver" with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and "Delivery" and "Delivered" will be construed accordingly.
- (e) *Provisions for Determining a Successor.* Paragraphs (a), (d) and (f) of the definition of "Successor" in § 6(10) are hereby amended by adding "or Qualifying Policy" after each occurrence of "a Relevant Guarantee". Such paragraph (f) will be further amended by adding "or provider of a Qualifying Policy" after "as guarantor or guarantors".
- (f) *Original Non-Standard Reference Obligation, Substitute Reference Obligation and Substitution Event.* The definition of "Original Non-Standard Reference Obligation", paragraph (c)(i) of the definition of "Substitute Reference Obligation" and paragraph (iii) of "Substitution Event" in § 6(10) are hereby amended by adding "or Qualifying Policy" after "a guarantee".
- (g) *Restructuring*
  - (i) With respect to an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest or a Qualifying Policy with respect thereto, paragraphs (i) to (v) inclusive of the definition of "Restructuring" in § 6(10) are hereby amended to read as follows:
    - "(i) a reduction in the rate or amount of the Instrument Payments in clause (A)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination); a reduction in the amount of the Instrument Payments described in clause (A)(y) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination);
    - (ii) a postponement or other deferral of a date or dates for either (A) the payment or accrual of the Instrument Payments described in clause (A)(x) of the definition thereof or (B) the payment of the Instrument Payments described in clause (A)(y) of the definition thereof, in each case that are guaranteed or insured by the Qualifying Policy;
    - (iii) a change in the ranking in priority of payment of (A) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (B) any Instrument Payments, causing the Subordination of such Insured Instrument to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or
    - (iv) any change in the currency of any payment of Instrument Payments that are guaranteed or insured by the Qualifying Policy to any currency other than the lawful currency of Canada, Japan, Switzerland, the United Kingdom, the United States of America and the euro and any successor currency to any of the aforementioned currencies (which in the case of the euro, shall mean the currency which succeeds to and replaces the euro in whole)."
  - (ii) Paragraph (d) of the definition of "Restructuring" in § 6(10) is hereby amended by adding "or, in the case of a Qualifying Policy and an Insured Instrument, where (A) the Qualifying Policy continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the Qualifying Policy guaranteed or insured that such Instrument Payments would be made prior to such

event and (B) such event is not a change in the ranking in the priority of payment of the Qualifying Policy" at the end thereof.

- (iii) The definition of "Restructuring" in § 6(10) is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

"For purposes of this definition of "Restructuring" and § 6(12), the term "Obligation" shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in the first paragraph of this definition of "Restructuring" shall be deemed to refer to the Insured Obligor and the reference to the Reference Entity in the second paragraph of this definition of "Restructuring" shall continue to refer to the Reference Entity."

- (h) *Fully Transferable Obligation and Conditionally Transferable Obligation.* In the event that a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition and, if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument. References in the definition of "Conditionally Transferable Obligation" to "the guarantor" and "guaranteeing" shall be deemed to include "the insurer" and "insuring", respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in § 6(3) and the definition of "Restructuring Maturity Limitation Date", shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.
- (i) *Other Provisions.* For purposes of the definitions of "Credit Event", "Deliver" and "Prohibited Action" in § 6(10) references to the "Underlying Obligation" and the "Underlying Obligor" shall be deemed to include "Insured Instruments" and the "Insured Obligor", respectively.
- (j) *Additional Definitions.*

**"Qualifying Policy"** means a financial guaranty insurance policy or similar financial guarantee pursuant to which a Reference Entity irrevocably guarantees or insures all Instrument Payments of an instrument that constitutes Borrowed Money (modified as set forth in this § 6(22)) (the **"Insured Instrument"**) for which another party (including a special purpose entity or trust) is the obligor (the **"Insured Obligor"**). Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments).

**"Instrument Payments"** means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (A) and (B) (1) determined without regard to limited recourse or reduction provisions of the type described in § 6(22)(c) above and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

**"Certificate Balance"** means, in the case of an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, the unit principal balance, certificate balance or similar measure of unreimbursed principal investment.

(23) *Provisions taken from the ISDA supplement titled "Additional Provisions for LPN Reference Entities" (published on 15 September 2014)*

If § 6(23) is specified as applicable in the applicable Final Terms, notwithstanding anything to the contrary in these Terms and Conditions, the following provisions will apply:

- (a) Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in these Terms and Conditions including, but not limited to the definition of "Obligation" in § 6(10), and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in these Terms and Conditions including, but not limited to the definition of "Deliverable Obligation" in § 6(10) and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity;

- (d) the definition of Reference Obligation shall be deleted and the following substituted therefor:

**"Reference Obligation"** means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligation List, as published by Markit Group Limited, or any successor thereto, which list is as of 21 June 2019 available at <https://ihsmarkit.com/products/red-cds.html>, any Additional LPN, determined in accordance with paragraph (e) below, and each Additional Obligation. The "Standard Reference Obligation" provisions shall not apply. The proviso in the definition of Original Non-Standard Reference Obligation shall not apply.

It is intended that there may be more than one Reference Obligation, as a result of which all applicable references in these Terms and Conditions to "the Reference Obligation" shall be construed as a reference to "a Reference Obligation", and all other provisions of these Terms and Conditions shall be construed accordingly. The definitions of "Substitution Event" and "Substitute Reference Obligation" in § 6(10) shall not be applicable to LPN Reference Obligations."; and

- (e) the following additional definitions shall apply:

**"Additional LPN"** means any bond issued in the form of a loan participation note (a "LPN") by an entity (the "LPN Issuer") for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference Entity (the "**Underlying Loan**") or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the "**Underlying Finance Instrument**"), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument

satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics (ii) the LPN satisfies the following Deliverable Obligation Characteristics: Transferable, Not Bearer, Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

**"Additional Obligation"** means each of the obligations listed as an Additional Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligation List, as published by Markit Group Limited, or any successor thereto, as of the Trade Date, which list is as at 21 June 2019 available at <https://ihsmarkit.com/products/red-cds.html>.

**"LPN Reference Obligation"** means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the LPN Issuer to finance a loan to the Reference Entity. For the purposes of the Securities each such loan shall be an Underlying Loan.

and, in each case, in accordance with (1) any applicable federal or state securities laws of the United States or any other jurisdiction and (2) any applicable restriction on transfer imposed by the United States Commodity Exchange Act, as amended, as indicated and set out in the applicable Final Terms.

In the case of (x) above, such transferee may take delivery through a Legended Security in global or definitive form. ### [PROHIBITION OF SALES TO RETAIL INVESTORS IN THE EUROPEAN ECONOMIC AREA]

The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended) (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended) ("**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded).]<sup>2</sup>

Für die Zwecke dieser Bestimmung bezeichnet der Begriff Kleinanleger eine Person, die eines (oder mehrere) der folgenden Kriterien erfüllt: (i) sie ist ein Kleinanleger im Sinne von Artikel 4 Abs. 1 Nr. 11 der Richtlinie 2014/65/EU in der jeweils geltenden Fassung ("**MiFID II**"); (ii) sie ist ein Kunde im Sinne der Richtlinie (EU) 2016/97 in der jeweils geltenden Fassung, soweit dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 4 Abs. 1 Nr. 10 MiFID II gilt; oder (iii) sie ist kein qualifizierter Anleger im Sinne der Richtlinie 2003/71/EG in der jeweils geänderten oder ersetzten Fassung.]]<sup>3</sup>*

Wesentlichen dem Folgendem entspricht: "[€100.000] und ganzzahlige darüber hinausgehende Vielfache von [€1.000] bis zu [€199.000] (einschließlich). Es werden keine Einzelurkunden für Schuldverschreibungen mit einer Stückelung von mehr als [€199.000] begeben." Im Fall von Namensschuldverschreibungen (Registered Securities) ist nur der erste Satz ohne die Wörter "bis zu [€199.000]" aufzunehmen.

<sup>19</sup> Applicable to English law Securities. (If only one Specified Denomination, insert the Specified Denomination. If more than one Specified Denomination, insert the highest common factor. Note: There must be a common factor in the case of two or more Specified Denominations.)  
Anwendbar auf englischrechtliche Schuldverschreibungen. (Falls es nur eine Festgelegte Stückelung gibt, ist diese Festgelegte Stückelung einzufügen. Falls es mehr als eine Festgelegte Stückelung gibt, ist der größte gemeinsame Faktor einzufügen. Folgendes ist zu beachten: Es muss einen gemeinsamen Faktor geben, wenn es zwei oder mehr Festgelegte Stückelungen gibt.)

<sup>20</sup> Applicable in the case of Bearer Securities. Ensure that this is consistent with the wording in the "Description of the Securities - Form of the Securities" section in the Prospectus and the Securities themselves. N.B.: The option for an issue of Securities to be represented on issue by a Temporary Global Security exchangeable for Definitive Securities should not be expressed to be applicable if the Specified Denomination includes language substantially to the following effect: "[€100,000] and integral multiples of [€1,000] in excess thereof up to and including [€199,000]."  
Anwendbar im Fall von Inhaberschuldverschreibungen. Es ist sicherzustellen, dass die Angaben im Einklang mit der im Prospekt enthaltenen Beschreibung im Abschnitt "Description of the Securities - Form of the Securities" und den Schuldverschreibungen selbst steht. Folgendes ist zu beachten: Die Option, Schuldverschreibungen zu begeben, die bei Begebung von einer Vorläufigen Globalurkunde verbrieft werden, die gegen Einzelurkunden austauschbar ist, sollte nicht anwendbar sein, falls die Festgelegte Stückelung eine Angabe enthält, die im Wesentlichen dem Folgenden entspricht: "[€100.000] und ganzzahlige darüber hinausgehende Vielfache von [€1.000] bis zu [€199.000] (einschließlich)."

<sup>21</sup> As a general rule, TEFRA D shall apply. If TEFRA D applies, the Securities are initially represented by a Temporary Global Security.  
Grundsätzlich findet TEFRA D Anwendung. Falls TEFRA D anwendbar ist, werden die Schuldverschreibungen anfänglich durch eine Vorläufige Globalurkunde verbrieft.

<sup>22</sup> If TEFRA C applies, the Securities are typically not initially represented by a Temporary Global Security.  
Falls TEFRA C anwendbar ist, werden die Schuldverschreibungen üblicherweise nicht anfänglich durch eine Vorläufige Globalurkunde verbrieft.

<sup>23</sup> Only applicable if the requirements of the TEFRA D exception (*inter alia* denomination in Swiss Francs) are satisfied.  
Nur anwendbar, wenn die Voraussetzungen der TEFRA D-Ausnahme (unter anderem Denominierung in Schweizer Franken) erfüllt sind.

<sup>24</sup> Applicable in the case of Securities with Permanent Global Securities exchangeable for definitive Securities.  
Anwendbar im Fall von Schuldverschreibungen mit Dauerglobalurkunde, die gegen Einzelurkunden austauschbar sind.

Anwendbar im Fall von Schuldverschreibungen mit Dauerglobalurkunde, die gegen Einzelurkunden austauschbar sind.

# FORM OF PRICING SUPPLEMENT

## MUSTER DES KONDITIONENBLATTS

Set out below is the form of Pricing Supplement for issues of Exempt Securities under the Programme. The Pricing Supplement applicable to a specific issue of Exempt Securities will be substantially in the following form, completed and amended (if necessary) to reflect the particular terms of the relevant Exempt Securities and their issue.

*Nachfolgend aufgeführt ist ein Muster des Konditionenblatts für Befreite Schuldverschreibungen, die im Rahmen des Programms begeben werden. Das Konditionenblatt, das auf eine konkrete Emission von Befreiten Schuldverschreibungen anwendbar ist, wird im Wesentlichen dem nachfolgenden Muster folgen, das vervollständigt und, soweit erforderlich, geändert wird, um die spezifischen Bedingungen der betreffenden Befreiten Schuldverschreibungen und ihrer Emission wiederzugeben.*

**NO PROSPECTUS IS REQUIRED IN ACCORDANCE WITH DIRECTIVE 2003/71/EC FOR THE ISSUE OF SECURITIES DESCRIBED BELOW.**

**GEMÄß RICHTLINIE 2003/71/EG IST FÜR DIE NACHFOLGEND BESCHRIEBENEN SCHULDVERSCHREIBUNGEN KEIN PROSPEKT ERFORDERLICH.**

### [PROHIBITION OF SALES TO RETAIL INVESTORS IN THE EUROPEAN ECONOMIC AREA]

The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. For these purposes, a "**retail investor**" means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded).]<sup>2</sup>

### [VERBOT DES VERKAUFS AN KLEINANLEGER IM EUROPÄISCHEN WIRTSCHAFTSRAUM]

*Die Schuldverschreibungen sind nicht zum Angebot, zum Verkauf oder zur sonstigen Zurverfügungstellung an Kleinanleger im Europäischen Wirtschaftsraum ("**EW**R") bestimmt und sollten Kleinanlegern im EWR nicht angeboten, nicht an diese verkauft und diesen auch nicht in sonstiger Weise zur Verfügung gestellt werden. Entsprechend wurde kein nach der Verordnung (EU) Nr. 1286/2014 (die "**PRIIP-Verordnung**") erforderliches Basisinformationsblatt für das Angebot oder den Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger im EWR erstellt; daher kann das Angebot oder der Verkauf oder die sonstige Zurverfügungstellung der Schuldverschreibungen an Kleinanleger im EWR nach der PRIIP-Verordnung rechtswidrig sein. Für die Zwecke dieser Bestimmung bezeichnet der Begriff "**Kleinanleger**" eine Person, die eines (oder mehrere) der folgenden Kriterien erfüllt: (i) sie ist ein Kleinanleger im Sinne von Artikel 4 Abs. 1 Nr. 11 der Richtlinie 2014/65/EU ("**MiFID II**"); (ii) sie ist ein Kunde im Sinne der Richtlinie (EU) 2016/97, soweit dieser Kunde nicht als professioneller Kunde im Sinne von Artikel 4 Abs. 1 Nr. 10 MiFID II gilt; oder (iii) sie ist kein qualifizierter Anleger im Sinne der Richtlinie 2003/71/EG in der jeweils geänderten oder ersetzten Fassung.]*

<sup>1</sup> If the Conditions of the Securities are in the English language only, the Pricing Supplement shall only include the English language sections.

*Falls die Bedingungen der Schuldverschreibungen nur englische Sprache vorsehen, enthält das Konditionenblatt nur die englischsprachigen Abschnitte.*

<sup>2</sup> The legend is to be included if "Applicable" is selected in the option "Prohibition of Sales to Retail Investors in the EEA" in Part II. 4. of the Pricing Supplement.

*Dieser Text ist einzufügen, wenn "Anwendbar" in der in Teil II. 4. des Konditionenblatts enthaltenen Option "Verbot des Verkaufs an Kleinanleger im EWR" ausgewählt wird.*

*Im Fall Schuldverschreibungen, die englischem Recht unterliegen und bei denen mehrfache Stückelungen über €100.000 oder einem entsprechenden Betrag in einer anderen Währungen anwendbar sind, sollte der Wortlaut verwendet werden, der im Wesentlichen dem Folgendem entspricht: "[€100.000] und ganzzahlige darüber hinausgehende Vielfache von [€1.000] bis zu [€199.000] (einschließlich). Anwendbar auf englischrechtliche Schuldverschreibungen. (Falls es nur eine Festgelegte Stückelung gibt, ist diese Festgelegte Stückelung einzufügen. Falls es mehr als eine Festgelegte Stückelung gibt, ist der größte gemeinsame Faktor einzufügen. Folgendes ist zu beachten: Es muss einen gemeinsamen Faktor geben, wenn es zwei oder mehr Festgelegte Stückelungen gibt.)

<sup>13</sup> Applicable in the case of Bearer Securities. Ensure that this is consistent with the wording in the "Description of the Securities - Form of the Securities" section in the Prospectus and the Securities themselves. N.B.: The option for an issue of Securities to be represented on issue by a Temporary Global Security exchangeable for Definitive Securities should not be expressed to be applicable if the Specified Denomination includes language substantially to the following effect: "[€100,000] and integral multiples of [€1,000] in excess thereof up to and including [€199,000].

Folgendes ist zu beachten: Die Option, Schuldverschreibungen zu begeben, die bei Begebung von einer Vorläufigen Globalurkunde verbrieft werden, die gegen Einzelurkunden austauschbar ist, sollte nicht anwendbar sein, falls die Festgelegte Stückelung eine Angabe enthält, die im Wesentlichen dem Folgenden entspricht: "[€100.000] und ganzzahlige darüber hinausgehende Vielfache von [€1.000] bis zu [€199.000] (einschließlich).

<sup>14</sup> As a general rule, TEFRA D shall apply. If TEFRA D applies, the Securities are initially represented by a Temporary Global Security.

Grundsätzlich findet TEFRA D Anwendung. Falls TEFRA D anwendbar ist, werden die Schuldverschreibungen anfänglich durch eine Vorläufige Globalurkunde verbrieft.

<sup>15</sup> If TEFRA C applies, the Securities are typically not initially represented by a Temporary Global Security.

Falls TEFRA C anwendbar ist, werden die Schuldverschreibungen üblicherweise nicht anfänglich durch eine Vorläufige Globalurkunde verbrieft.

Nur anwendbar, wenn die Voraussetzungen der TEFRA D-Ausnahme (unter anderem Denominierung in Schweizer Franken) erfüllt sind.

## TAXATION

PROSPECTIVE PURCHASERS OF SECURITIES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISERS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SECURITIES.

### GENERAL TAXATION INFORMATION

**The information provided below does not purport to be a complete summary of the tax law and practice currently available. Potential purchasers of Securities are therefore advised to consult their own tax advisers as to the tax consequences of transactions involving Securities.**

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in accordance with the laws and administrative practices of the country in which they are domiciled or deemed to be domiciled for tax purposes in addition to the issue price or (if different) purchase price of the Securities.

Transactions involving Securities (including purchases, transfer or redemption), the accrual or receipt of any interest payable under the Securities and the death of a holder of any Security may have tax consequences which may depend, amongst other things, upon the tax status of the potential purchaser and may relate to stamp duty, stamp duty reserve tax, income tax, corporation tax, capital gains tax and inheritance tax.

### RESPONSIBILITY OF THE ISSUER FOR THE WITHHOLDING OF TAXES AT SOURCE

The Issuer does not assume any responsibility for the withholding of taxes at source.

### GERMANY

*The following is a general discussion of certain German tax consequences of the acquisition, holding and disposal of Securities. It does not purport to be a comprehensive description of all German tax considerations that may be relevant to a decision to purchase Securities, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the tax laws of Germany currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect.*

*As each Series or Tranche of Securities may be subject to a different tax treatment due to the specific terms of such Series or Tranche as set out in the respective Final Terms (or Pricing Supplement, in case of Exempt Securities), the following section only provides some general information on the possible tax treatment. Tax consequences that may arise if an investor combines certain series of Securities so that he or she derives a certain return are not discussed herein.*

*The law as currently in effect provides for a reduced tax rate for certain investment income. The coalition agreement between the German Christ Democratic Party, the Christian Social Union and the Social Democratic Party for the formation of a new German federal government provides that the flat tax regime shall be partially abolished. The coalition agreement further specifies that the solidarity surcharge shall be abolished in stages provided that the individual income does not exceed certain thresholds. There is however no draft bill available yet and many details are hence still unclear. Hence, it is still unclear, whether, how and when the current discussion may result in any legislative change.*

*Prospective purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of Securities, including the effect of any state, local or church taxes, under the tax laws of Germany and any country of which they are resident or whose tax laws apply to them for other reasons.*

### German Tax Residents

The section "German Tax Residents" refers to persons who are tax residents of Germany (*i.e.* persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany).

## Withholding tax on on-going payments and capital gains

On-going payments received by a non-business Securityholder will be subject to German withholding tax (*Abgeltungsteuer*) if the Securities are kept or administered in a custodial account with a German branch of a German or non-German bank or financial services institution, a German securities trading company or a German securities trading bank (each, a **"Disbursing Agent"**, *auszahlende Stelle*). The tax rate is 25 per cent. (plus solidarity surcharge at a rate of 5.5 per cent. thereon, the total withholding being 26.375 per cent.). For individual Securityholders who are subject to church tax an electronic information system for church withholding tax purposes applies in relation to investment income, with the effect that church tax will be collected by the Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*) in which case the investor will be assessed to church tax.

The same treatment applies to capital gains (*i.e.* the difference between the proceeds from the disposal, redemption, repayment or assignment after deduction of expenses directly related to the disposal, redemption, repayment or assignment and the cost of acquisition) derived by a non-business Securityholder provided the Securities have been kept or administered in a custodial account with the same Disbursing Agent since the time of their acquisition. If similar Securities kept or administered in the same custodial account were acquired at different points in time, the Securities first acquired will be deemed to have been sold first for the purposes of determining the capital gains. Where Securities are acquired and/or sold or redeemed in a currency other than Euro, the sales/redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the sale or redemption date and the acquisition date respectively with the result that any currency gains or losses are part of the capital gains. If the Issuer exercises the right to substitute the Issuer of the Securities, the substitution might, for German tax purposes, be treated as an exchange of the Securities for new Securities issued by the Substitute Debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors. If interest coupons or interest claims are disposed of separately (*i.e.* without the Securities), the proceeds from the disposition are subject to withholding tax. The same applies to proceeds from the payment of interest coupons or interest claims if the Securities have been disposed of separately.

In case the Securities are converted into equity instruments of the Issuer the Holders should not suffer a gain or loss from such conversion. However, the acquisition costs of the Securities should be carried over to the equity instruments received upon conversion and any gain or loss will only be recognized as a gain or loss from the disposal of such instruments and may be subject to a different tax regime and loss deductibility may be further limited.

If Securities qualifying as a forward/future or option transaction (*Termingeschäft*) according to sec. 20 para. 2 sent. 1 no. 3 German Income Tax Act (*Einkommensteuergesetz*) are settled by a cash payment, capital gains realised upon exercise (*i.e.* the cash amount received minus directly related costs and expenses, *e.g.* the acquisition costs) are subject to withholding tax. In the event of physical delivery, the acquisition costs of such Securities plus any additional sum paid upon exercise are generally regarded as acquisition costs of the underlying assets received upon physical settlement. Withholding tax may then apply to any gain resulting from the subsequent disposal, redemption, repayment or assignment of the assets received in particular if they are securities. In case of certain assets being the underlying (*e.g.* commodities or currencies) a subsequent sale of the underlying received may not be subject to German withholding tax as outlined in this section but any disposal gain may be fully taxable at the personal income tax rate of the non-business Securityholder.

In case of a physical settlement of certain Securities (not qualifying as forward/future or option transactions) which grant the Issuer the right to physically deliver the underlying securities or the Securityholder to demand the physical delivery of the underlying securities instead of a cash payment upon physical delivery the acquisition costs of the Securities may be regarded as proceeds from the disposal, redemption, repayment or assignment of the Securities and hence as acquisition costs of the underlying securities received by the non-business Securityholder upon physical settlement; any consideration received by the Securityholder in addition to the underlying securities may be subject to withholding tax. To the extent the provision mentioned above is applicable, generally no withholding tax has to be withheld by the Disbursing Agent upon physical settlement as such exchange of the Securities into the underlying securities does not result in a taxable gain for the non-business Securityholder. Costs for the physical settlement may not be tax deductible. However, withholding tax may then apply to any gain resulting from the disposal, redemption, repayment or assignment of the securities

received in exchange for the Securities. In this case, the gain will be the difference between the proceeds from the disposal, redemption, repayment or assignment of the underlying securities and the acquisition costs of the Securities (after deduction of expenses related directly to the disposal, if any).

To the extent the Securities have not been kept or administered in a custodial account with the same Disbursing Agent since the time of their acquisition, upon the disposal, redemption, repayment or assignment withholding tax applies at a rate of 26.375 per cent. (including solidarity surcharge, plus church tax, if applicable) to 30 per cent. of the disposal proceeds (plus interest accrued on the Securities ("**Accrued Interest**", *Stückzinsen*), if any), unless the current Disbursing Agent has been notified of the actual acquisition costs of the Securities by the previous Disbursing Agent or by a statement of a bank or financial services institution from another Member State of the European Union or the European Economic Area or from certain other countries (e.g. Switzerland or Andorra).

Pursuant to administrative guidance losses incurred by a Securityholder from bad debt (*Forderungsausfall*) or a waiver of a receivable (*Forderungsverzicht*) are generally not tax-deductible. The same rules should apply if the Securities expire worthless. In a recent case the Federal Tax Court (*Bundesfinanzhof*) did not follow this view holding that losses are deductible against other investment income if they are final, i.e. no further payment can be expected, e.g. upon conclusion of an insolvency procedure over the borrower's assets. It still needs to be seen whether the tax authorities will follow this view.

According to administrative guidance, where a Security qualifies as a full risk security (*Vollrisikozertifikat*) which provides for several payments to be made to the Securityholder such payments shall qualify as taxable investment income, unless the terms and conditions of the Securities explicitly provide for the redemption or partial redemption during the term of the Securities and these terms and conditions are complied with. If the terms of the Securities do not provide for final payment at maturity or no such payment is made any losses incurred upon expiry of such Securities shall not be tax deductible.

In computing any German tax to be withheld, the Disbursing Agent generally deducts from the basis of the withholding tax negative investment income realised by a non-business Securityholder via the Disbursing Agent (e.g. losses from the sale of other securities with the exception of shares). The Disbursing Agent also deducts Accrued Interest on the Securities or other securities paid separately upon the acquisition of the respective security by a non-business Securityholder via the Disbursing Agent. In addition, subject to certain requirements and restrictions the Disbursing Agent credits foreign withholding taxes levied on investment income in a given year regarding securities held by a non-business Securityholder in the custodial account with the Disbursing Agent to the extent such foreign withholding taxes cannot be reclaimed in the respective foreign country.

Non-business Securityholders are entitled to an annual allowance (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for couples and partners filing jointly) for all investment income received in a given year. Upon the non-business Securityholder filing an exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent, the Disbursing Agent will take the allowance into account when computing the amount of tax to be withheld. No withholding tax will be deducted if the Securityholder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the competent local tax office.

German withholding tax will not apply to gains from the disposal, redemption, repayment or assignment of Securities held by a corporation while on-going payments, such as interest payments, are subject to withholding tax (irrespective of any deductions of foreign tax and capital losses incurred). The same may apply where the Securities form part of a trade or business or are related to income from letting and leasing of property, subject to further requirements being met.

#### Taxation of current income and capital gains

The personal income tax liability of a private Securityholder deriving income from capital investments under the Securities is, in principle, settled by the tax withheld. To the extent withholding tax has not been levied, such as in case of Securities kept and administered in custody abroad or if no Disbursing Agent is involved in the payment process, the private Securityholder must report his or her income and capital gains derived from the Securities on his or her tax return and then will also be taxed at a rate of 25 per cent. (plus solidarity surcharge and church tax thereon, where applicable). If the withholding tax on a disposal, redemption, repayment or assignment has been calculated from 30 per cent. of the disposal proceeds (rather than from the actual gain), a

private Securityholder may and in case the actual gain is higher than 30 per cent. of the disposal proceeds must also apply for an assessment on the basis of his or her actual acquisition costs. Further, a private Securityholder may request that all investment income of a given year is taxed at his or her lower individual tax rate based upon an assessment to tax with any amounts over withheld being refunded. In each case, the deduction of expenses (other than transaction costs) on an itemized basis is not permitted.

Losses incurred with respect to Securities can only be offset against investment income of a non-business Securityholder realised in the same or the following years. Any losses realised upon the disposal of shares in stock corporations received in exchange for the Securities can only be offset against capital gains deriving from the disposal of shares.

Where Securities form part of a trade or business or the income from the Securities qualifies as income from the letting and leasing of property the withholding tax, if any, will not settle the personal or corporate income tax liability. Where Securities form part of the property of a trade or business, interest (accrued) must be taken into account as income. Where Securities qualify as zero bonds and form part of a trade or business, each year the part of the difference between the issue or purchase price and the redemption amount attributable to such year must be taken into account. The respective Securityholder will have to report income and related (business) expenses on the tax return and the balance will be taxed at the Securityholder's applicable tax rate. Withholding tax levied, if any, will be credited against the personal or corporate income tax liability of the Securityholder. Where Securities form part of the property of a German trade or business the current income and gains from the disposal, redemption, repayment or assignment of the Securities may also be subject to German trade tax.

Where according to an applicable accounting standard Securities include an embedded derivative the Noteholder may have to account for a receivable and a derivative. The deduction of losses from derivatives may be ring-fenced as follows. Generally, the deductibility of capital losses from Securities that qualify for tax purposes as forward/futures transaction is limited. These losses may only be applied against profits from other forward/futures transactions derived in the same or, subject to certain restrictions, the previous year. Otherwise these losses can be carried forward indefinitely and, within certain limitations, applied against profits from forward/futures transactions in subsequent years. This generally does not apply to forward/futures transactions hedging risks from the Securityholder's ordinary business, unless the underlying is a stock in a corporation. Further special rules apply to credit institutions, financial services institutions and finance companies within the meaning of the German Banking Act.

In the case of physically settled Securities, special limitations may apply to losses from the disposal of an underlying that is a share in a corporation or a unit of an equity investment fund.

#### German investment taxation

If a Security (in particular a Security which is physically settled by delivery of fund shares, fund units or similar instruments or a Security which replicates the performance of an investment fund was considered to qualify as an investment fund unit within the meaning of the German Investment Tax Act (*Investmentsteuergesetz*), tax consequences different from those discussed above would apply. A Securityholder subject to German taxation may then be required to include into his or her taxable income unrealized gains from the appreciation in value of the Security which may be deemed to be a portion of the fair market value of the Security at the relevant time. In general, the taxed unrealized gains will be deductible in computing the capital gain derived from the disposal, redemption or termination of the Security.

#### **Securityholders not tax-resident in Germany**

Interest and capital gains are not subject to German taxation, unless (i) the Securities form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the Securityholder; or (ii) the income otherwise constitutes German-source income. In cases (i) and (ii) a tax regime similar to that explained above in the subsection "*German Tax Residents*" applies.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and capital gains. However, where the income is subject to German taxation as set forth in the preceding paragraph and the Securities are kept or administered in a custodial account with a Disbursing Agent, withholding tax may be levied under certain circumstances. Where Securities are not kept in a custodial account with a Disbursing

Agent and interest or proceeds from the disposal, assignment or redemption of a Security or an interest coupon are paid by a Disbursing Agent to a non-resident upon delivery of the Securities or interest coupons, withholding tax generally will also apply. The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

### **Inheritance and Gift Tax**

No inheritance or gift taxes with respect to any Securities will arise under the laws of Germany, if, in the case of inheritance tax, neither the deceased nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Security is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

### **Other Taxes**

No stamp, issue or registration taxes or such duties will be payable in Germany in connection with the issuance, delivery or execution of the Securities. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

The European Commission and certain EU Member States (including Germany) are currently intending to introduce a financial transactions tax ("**FTT**") (presumably on secondary market transactions involving at least one financial intermediary). It is currently uncertain when the proposed FTT will be enacted by the participating EU Member States and when the FTT will enter into force with regard to dealings with the Securities.

### **Grossed-up Securities and Special Exception in Germany**

According to the Terms and Conditions of the Securities, the Issuer may undertake in case of withholding of taxes at source or deduction of taxes at source for or on account of any present or future taxes, fees, duties, assessments or governmental charges of whatever nature which are imposed or levied by or on behalf of the country of domicile (or residence for tax purposes) of the Issuer or Germany or any political subdivision thereof or any authority or agency therein or thereof having power to tax (the "**Withholding Tax**" in this paragraph), unless withholding of tax by the Issuer is required by law, to pay additional amounts as may be necessary, subject to certain exceptions as set forth in the Terms and the Conditions of the Securities, in order that the net amounts receivable by the Securityholder after the withholding or deduction of such Withholding Tax shall equal the respective amounts which would have been receivable by such Securityholder had no such Withholding Tax been required. In accordance with these exceptions the withholding tax to be withheld by a Disbursing Agent on investment income (*e.g.* interest payments and capital gains) under the flat-tax regime (*Abgeltungsteuer*), the solidarity surcharge (*Solidaritätszuschlag*) thereon and, if applicable, church tax (*Kirchensteuer*) do not constitute such a Withholding Tax. The Issuer may also choose not to undertake to gross up payments as described above. The Final Terms (or Pricing Supplement, in the case of Exempt Securities) of the relevant Securities will specify whether the Terms and Conditions of the respective Securities provide for the obligation to gross up.

**The following information is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.**

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*) as well as personal income tax (*impôt sur le revenu*) generally. Investors may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident in Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax and the solidarity surcharge. Under certain circumstances, where an individual taxpayer

acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

## **Taxations of the Holders of Securities**

### **Withholding Tax**

#### *Non-resident holders of Securities*

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of Securities.

#### *Resident holders of Securities*

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the "**Relibi Law**") mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident holders of Securities.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 20 per cent.

### **Income Taxation**

#### *Non-resident holders of Securities*

A non-resident holder of Securities, not having a permanent establishment or permanent representative in Luxembourg to which/whom such Securities are attributable, is not subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Notes. A gain realised by such non-resident holder of Securities on the sale or disposal, in any form whatsoever, of the Securities is further not subject to Luxembourg income tax.

A non-resident corporate holder of Securities or an individual holder of Securities acting in the course of the management of a professional or business undertaking, who has a permanent establishment or permanent representative in Luxembourg to which or to whom such Securities are attributable, is subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Securities and on any gains realised upon the sale or disposal, in any form whatsoever, of the Securities.

#### *Resident holders of Securities*

Holders of Securities who are residents of Luxembourg will not be liable for any Luxembourg income tax on repayment of principal.

#### **(a) Luxembourg resident corporate holder of Securities**

A corporate holder of Securities must include any interest accrued or received, any redemption premium or issue discount, as well as any gain realised on the sale or disposal, in any form whatsoever, of the Securities, in its taxable income for Luxembourg income tax assessment purposes.

A holder of Securities that is governed by the law of 11 May 2007 on family estate management companies, as amended, or by the law of 17 December 2010 on undertakings for collective investment, as amended, or by the

law of 13 February 2007 on specialised investment funds, as amended, or by the law of 23 July 2016 on reserved alternative investment funds and which does not fall under the special tax regime set out in article 48 thereof is neither subject to Luxembourg income tax in respect of interest accrued or received, any redemption premium or issue discount, nor on gains realised on the sale or disposal, in any form whatsoever, of the Securities.

(b) Luxembourg resident individual holder of Securities

An individual holder of Securities, acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax at progressive rates in respect of interest received, redemption premiums or issue discounts, under the Securities, except if (i) withholding tax has been levied on such payments in accordance with the Relibi Law, or (ii) the individual holder of the Securities has opted for the application of a 20 per cent. tax in full discharge of income tax in accordance with the Relibi Law, which applies if a payment of interest has been made or ascribed by a paying agent established in a EU Member State (other than Luxembourg), or in a Member State of the European Economic Area (other than a EU Member State). A gain realised by an individual holder of Securities, acting in the course of the management of his/her private wealth, upon the sale or disposal, in any form whatsoever, of Securities is not subject to Luxembourg income tax, provided this sale or disposal took place more than six months after the Securities were acquired. However, any portion of such gain corresponding to accrued but unpaid interest income is subject to Luxembourg income tax, except if withholding tax has been levied on such interest in accordance with the Relibi Law.

An individual holder of Securities acting in the course of the management of a professional or business undertaking must include this interest in its taxable basis. If applicable, the tax levied in accordance with the Relibi Law will be credited against his/her final tax liability.

#### Net Wealth Taxation

A corporate holder of Securities, whether it is resident of Luxembourg for tax purposes or, if not, it maintains a permanent establishment or a permanent representative in Luxembourg to which such Securities are attributable, is subject to Luxembourg net wealth tax on such Securities, except if the holder of Securities is governed by the law of 11 May 2007 on family estate management companies, as amended, or by the law of 17 December 2010 on undertakings for collective investment, as amended, or by the law of 13 February 2007 on specialised investment funds, as amended, or by the law of 23 July 2016 on reserved alternative investment funds, or is a securitisation company governed by the law of 22 March 2004 on securitisation, as amended, or is a capital company governed by the law of 15 June 2004 on venture capital vehicles, as amended.<sup>1</sup>

An individual holder of Securities, whether he/she is resident of Luxembourg or not, is not subject to Luxembourg wealth tax on such Securities.

#### Other Taxes

In principle, neither the issuance nor the transfer, repurchase or redemption of Securities will give rise to any Luxembourg registration tax or similar taxes.

However, a fixed or *ad valorem* registration duty may be due upon the registration of the Securities in Luxembourg in the case where the Securities are physically attached to a public deed or to any other document subject to mandatory registration, or in the case of a registration of the Securities on a voluntary basis.

Where a holder of Securities is a resident of Luxembourg for tax purposes at the time of his/her death, the Securities are included in his/her taxable estate for inheritance tax assessment purposes.

Gift tax may be due on a gift or donation of Securities if embodied in a Luxembourg deed passed in front of a Luxembourg notary or recorded in Luxembourg.

## AUSTRALIA

***The following is a general summary of certain Australian tax consequences under the Income Tax Assessment Acts of 1936 and 1997 of Australia (together, "Australian Tax Act") and any relevant regulations, rulings or judicial or administrative pronouncements, at the date of this Prospectus, of payments of interest and certain other amounts on the Securities issued by Deutsche Bank AG, Sydney Branch and certain other matters.***

***This summary is not exhaustive (in particular, it does not deal with any Australian income tax consequences of acquiring or holding Securities) and should be treated with appropriate caution. In particular, this summary does not deal with the position of certain classes of holders of Securities (including, without limitation, dealers in securities, custodians or other third parties who hold Securities on behalf of other persons). Prospective holders of Securities should also be aware that particular terms of issue of any Series of Securities may affect the tax treatment of that and other Series of Securities. Information regarding taxes in respect of Securities may also be set out in a supplement to this Prospectus or, in case of Exempt Securities, an applicable Pricing Supplement.***

***This summary is not intended to be, nor should it be construed as legal or tax advice to any particular investor. Prospective holders of Securities should consult their professional advisers on the tax implications of an investment in the Securities for their particular circumstances.***

### Introduction

The Australian Tax Act characterises securities as either "debt interests" (for all entities) or "equity interests" (for companies) including for the purposes of interest withholding tax ("IWT") and dividend withholding tax. IWT is currently payable at a rate of 10 per cent. of the gross amount of interest paid by Deutsche Bank AG, Sydney Branch to a non-resident of Australia (other than a non-resident acting at or through a permanent establishment in Australia) or a resident acting at or through a permanent establishment outside Australia, unless an exemption is available. For these purposes, interest is defined in section 128A(1AB) of the Australian Tax Act to include amounts in the nature of, or in substitution for, interest and certain other amounts.

### Interest withholding tax

An exemption from IWT is available in respect of Securities issued by Deutsche Bank AG, Sydney Branch if those Securities are characterised as "debentures" and are not characterised as "equity interests" for the purposes of the Australian Tax Act and the requirements of section 128F of the Australian Tax Act are satisfied.

Deutsche Bank AG, Sydney Branch intends to issue Securities which will be characterised as "debentures" and are not characterised as "equity interests" for these purposes. If Securities are issued which are not so characterised or which do not satisfy the requirements of section 128F of the Australian Tax Act, further information on the material Australian tax consequences of payments of interest and certain other amounts on those Securities will be specified in a supplement to this Prospectus or, in the case of Exempt Securities, the relevant Pricing Supplement).

The requirements in section 128F for an exemption from IWT in respect of the Securities issued by Deutsche Bank AG, Sydney Branch are as follows:

- Deutsche Bank Aktiengesellschaft is a non-resident carrying on business at or through a permanent establishment in Australia when it issues those Securities and when interest is paid;
- those Securities are issued in a manner which satisfies the public offer test. There are five principal methods of satisfying the public offer test, the purpose of which is to ensure that lenders in capital markets are aware that Deutsche Bank AG, Sydney Branch is offering those Securities for issue. In summary, the five methods are:
  - (i) offers to 10 or more unrelated financiers, securities dealers or entities that carry on the business of investing in securities;

- (ii) offers to 100 or more investors of a certain type;
  - (iii) offers of listed Securities;
  - (iv) offers via publicly available information sources; and
  - (v) offers to a dealer, manager or underwriter who offers to sell those Securities within 30 days by one of the preceding methods;
- Deutsche Bank Aktiengesellschaft does not know, or have reasonable grounds to suspect, at the time of issue, that any of those Securities or interests in any of those Securities were being, or would later be, acquired, directly or indirectly, by an associate of Deutsche Bank Aktiengesellschaft, except as permitted by section 128F(5) of the Australian Tax Act; and
  - at the time of the payment of interest, Deutsche Bank Aktiengesellschaft does not know, or have reasonable grounds to suspect, that the payee is an associate of Deutsche Bank Aktiengesellschaft, except as permitted by section 128F(6) of the Australian Tax Act.

### **Compliance with section 128F of the Australian Tax Act**

Unless otherwise specified in any supplement to this Prospectus or, in the case of Exempt Securities, an applicable Pricing Supplement, Deutsche Bank AG, Sydney Branch intends to issue Securities in a manner which will satisfy the requirements of section 128F of the Australian Tax Act.

### **Interest withholding tax exemptions under tax treaties**

The Australian Government has signed or announced new or amended double tax conventions with a number of countries (each a "**Specified Country**"), some of which provide for a full exemption from IWT.

In broad terms, once implemented, these double tax conventions effectively prevent IWT applying to interest derived by:

- the government of the relevant Specified Country and certain governmental authorities and agencies in the Specified Country; and
- a "financial institution" which is a resident of a "Specified Country" and which is unrelated to and dealing wholly independently with Deutsche Bank AG, Sydney Branch. The term "financial institution" refers to either a bank or any other form of enterprise which substantially derives its profits by carrying on a business of raising and providing finance. (However, interest under a back-to-back loan or an economically equivalent arrangement will not qualify for this exemption.)

The Australian Federal Treasury maintains a listing of Australia's double tax conventions which provides details of country, status and Australian domestic implementation which is available to the public at the Federal Treasury's website. The availability of relief under Australia's double tax conventions may be limited by Australia's adoption of the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting in circumstances where a holder of Securities has an insufficient connection with the relevant jurisdiction.

### **Section 126 of the Australian Tax Act**

Section 126 of the Australian Tax Act imposes a type of withholding tax at the current rate of 45 per cent. on the payment of interest on Securities in bearer form if Deutsche Bank AG, Sydney Branch fails to disclose the names and addresses of the holders to the Australian Taxation Office, but is limited in its application to persons in possession of Securities in bearer form who are residents of Australia or non-residents who are engaged in carrying on business in Australia at or through a permanent establishment in Australia. Where interests in Securities in bearer form are held through Euroclear or Clearstream, Luxembourg, Deutsche Bank AG, Sydney Branch intends to treat the operators of those clearing systems as the holders of those Securities for the purposes of section 126 of the Australian Tax Act.

## Other Australian tax matters

Under Australian laws as presently in effect:

- *death duties* – no Securities issued by Deutsche Bank AG, Sydney Branch will be subject to death, estate or succession duties imposed by Australia, or by any political subdivision or authority therein having power to tax, if held at the time of death;
- *stamp duty and other taxes* – on the basis that the Securities are not characterised as "equity interests" for the purposes of the Australian Tax Act, no *ad valorem* stamp, issue, registration or similar taxes are payable in Australia on the issue or transfer of any Securities issued by Deutsche Bank AG, Sydney Branch;
- *withholding taxes* – withholding tax is imposed at the current rate of 47 per cent. on the payment of interest on Securities unless the relevant holder of Securities has quoted a tax file number ("**TFN**"), in certain circumstances an Australian Business Number ("**ABN**") or proof of some other exception (as appropriate).
- Assuming the requirements of section 128F of the Australian Tax Act are satisfied with respect to the Securities, these rules should not apply to payments to a holder of Securities who is not a resident of Australia for tax purposes and does not hold those Securities in carrying on business at or through a permanent establishment in Australia. Such withholding may be made from payments to holders of Securities who are residents of Australia or non-residents who carry on business at or through a permanent establishment in Australia but who do not quote a TFN, ABN or an appropriate exemption.
- *gains on sale or redemption* – a Securityholder who is a non-resident of Australia and who has never held the Securities in the course of carrying on a business through a permanent establishment in Australia will not be subject to Australian income tax on gains realised on the disposal or redemption of the Securities, provided such gains do not have an Australian source. A gain arising on the sale of the Securities by a non-Australian resident holder to another non-Australian resident where the Securities are sold outside Australia and all negotiations are conducted, and documentation executed, outside Australia, should generally not be regarded as having an Australian source;
- *supply withholding tax* – payments in respect of the Securities can be made free and clear of the "supply withholding tax" imposed under Australia's tax legislation;
- *goods and services tax ("**GST**")* – none of the issue or receipt of the Securities, the payment of principal or interest by Deutsche Bank AG, Sydney Branch nor the disposal of the Securities will give rise to any GST liability in Australia;
- *additional withholdings from certain payments to non-Australian residents* – the Governor-General may make regulations requiring withholding from certain payments to non-Australian residents, (however these rules do not apply to payments of interest or other amounts which are already subject to the current IWT rules or specifically exempt from those rules); and
- *garnishee directions by the Commissioner of Taxation ("**the Commissioner**")* – the Commissioner may give a direction under section 255 of the Australian Tax Act or section 260-5 of Schedule 1 of the Taxation Administration Act 1953 of Australia (or any other analogous provision under another statute) requiring Deutsche Bank AG, Sydney Branch to deduct from any payment to any other entity (including any holder of Securities) any amount in respect of tax payable by that other entity. If Deutsche Bank AG, Sydney Branch is served with such a direction in respect of a holder of Securities, then Deutsche Bank AG, Sydney Branch will comply with that direction and, accordingly, will make any deduction or withholding in connection with that direction.

## AUSTRIA

**This section on taxation contains a brief summary of the Issuer's understanding with regard to certain important principles which are of significance in connection with the purchase, holding or sale of the**

**Securities in Austria.** This summary does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal or tax advice. This summary is based on the currently applicable tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential investors in the Securities consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Securities. Tax risks resulting from the Securities (in particular from a potential qualification as a foreign investment fund within the meaning of sec. 188 of the Austrian Investment Funds Act 2011 (*Investmentfondsgesetz* 2011)) shall in any case be borne by the investor. For the purposes of the following it is assumed that the Securities are legally and factually offered to an indefinite number of persons.

## General remarks

Individuals having a domicile (*Wohnsitz*) and/or their habitual abode (*gewöhnlicher Aufenthalt*), both as defined in sec. 26 of the Austrian Federal Fiscal Procedures Act (*Bundesabgabenordnung*), in Austria are subject to income tax (*Einkommensteuer*) in Austria on their worldwide income (unlimited income tax liability; *unbeschränkte Einkommensteuerpflicht*). Individuals having neither a domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; *beschränkte Einkommensteuerpflicht*).

Corporations having their place of management (*Ort der Geschäftsleitung*) and/or their legal seat (*Sitz*), both as defined in sec. 27 of the Austrian Federal Fiscal Procedures Act, in Austria are subject to corporate income tax (*Körperschaftsteuer*) in Austria on their worldwide income (unlimited corporate income tax liability; *unbeschränkte Körperschaftsteuerpflicht*). Corporations having neither their place of management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; *beschränkte Körperschaftsteuerpflicht*).

Both in case of unlimited and limited (corporate) income tax liability Austria's right to tax may be restricted by double taxation treaties.

## Income taxation

Pursuant to sec. 27(1) of the Austrian Income Tax Act (*Einkommensteuergesetz*), the term investment income (*Einkünfte aus Kapitalvermögen*) comprises:

- income from the letting of capital (*Einkünfte aus der Überlassung von Kapital*) pursuant to sec. 27(2) of the Austrian Income Tax Act, including dividends and interest; the tax basis is the amount of the earnings received (sec. 27a(3)(1) of the Austrian Income Tax Act);
- income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) pursuant to sec. 27(3) of the Austrian Income Tax Act, including gains from the alienation, redemption and other realisation of assets that lead to income from the letting of capital (including zero coupon bonds); the tax basis amounts to the sales proceeds or the redemption amount minus the acquisition costs, in each case including accrued interest (sec. 27a(3)(2)(a) of the Austrian Income Tax Act); and
- income from derivatives (*Einkünfte aus Derivaten*) pursuant to sec. 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates (the mere exercise of an option does not trigger tax liability); e.g., in the case of index certificates, the tax basis amounts to the sales proceeds or the redemption amount minus the acquisition costs (sec. 27a(3)(3)(c) of the Austrian Income Tax Act).

Also the withdrawal of the Securities from a securities account (*Depotentnahme*) and circumstances leading to a restriction of Austria's taxation right regarding the Securities vis-à-vis other countries, e.g., a relocation from Austria (*Wegzug*), are in general deemed to constitute a sale (cf. sec. 27(6)(1) and (2) of the Austrian Income

Tax Act). The tax basis amounts to the fair market value minus the acquisition costs (sec. 27a(3)(2)(b) of the Austrian Income Tax Act).

Individuals subject to unlimited income tax liability in Austria holding the Securities as non-business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. Investment income from the Securities with an Austrian nexus (*inländische Einkünfte aus Kapitalvermögen*), basically meaning income paid by an Austrian paying agent (*auszahlende Stelle*) or an Austrian custodian agent (*depotführende Stelle*), is subject to withholding tax (*Kapitalertragsteuer*) at a flat rate of 27.5 per cent.; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to sec. 97(1) of the Austrian Income Tax Act). Investment income from the Securities without an Austrian nexus must be included in the investor's income tax return and is subject to income tax at the flat rate of 27.5 per cent. In both cases upon application the option exists to tax all income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). The acquisition costs must not include ancillary acquisition costs (*Anschaffungsnebenkosten*; sec. 27a(4)(2) of the Austrian Income Tax Act). Expenses such as bank charges and custody fees must not be deducted (sec. 20(2) of the Austrian Income Tax Act); this also applies if the option to regular taxation is exercised. Sec. 27(8) of the Austrian Income Tax Act, *inter alia*, provides for the following restrictions on the offsetting of losses: negative income from realised increases in value and from derivatives may be neither offset against interest from bank accounts and other non-securitized claims vis-à-vis credit institutions (except for cash settlements and lending fees) nor against income from private foundations, foreign private law foundations and other comparable legal estates (*Privatstiftungen, ausländische Stiftungen oder sonstige Vermögensmassen, die mit einer Privatstiftung vergleichbar sind*); income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act may not be offset against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to regular taxation); negative investment income not already offset against positive investment income may not be offset against other types of income. The Austrian custodian agent has to effect the offsetting of losses by taking into account all of a taxpayer's securities accounts with the custodian agent, in line with sec. 93(6) of the Austrian Income Tax Act, and to issue a written confirmation to the taxpayer to this effect.

Individuals subject to unlimited income tax liability in Austria holding the Securities as business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. Investment income from the Securities with an Austrian nexus is subject to withholding tax at a flat rate of 27.5 per cent. While withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must be included in the investor's income tax return (nevertheless income tax at the flat rate of 27.5 per cent.). Investment income from the Securities without an Austrian nexus must always be included in the investor's income tax return and is subject to income tax at the flat rate of 27.5 per cent. In both cases, upon application, the option exists to tax all income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). The flat tax rate does not apply to income from realised increases in value and income from derivatives if realizing these types of income constitutes a key area of the respective investor's business activity (sec. 27a(6) of the Austrian Income Tax Act). Expenses such as bank charges and custody fees must not be deducted (sec. 20(2) of the Austrian Income Tax Act); this also applies if the option to regular taxation is exercised. Pursuant to sec. 6(2)(c) of the Austrian Income Tax Act, depreciations to the lower fair market value and losses from the alienation, redemption and other realisation of financial assets and derivatives in the sense of sec. 27(3) and (4) of the Austrian Income Tax Act, which are subject to income tax at the flat rate of 27.5 per cent., are primarily to be offset against income from realised increases in value of such financial assets and derivatives and with appreciations in value of such assets within the same business unit (*Wirtschaftsgüter desselben Betriebes*); only 55 per cent. of the remaining negative difference may be offset against other types of income.

Pursuant to sec. 7(2) of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*), corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on income in the sense of sec. 27(1) of the Austrian Income Tax Act from the Securities at a rate of 25 per cent. Income in the sense of sec. 27(1) of the Austrian Income Tax Act from the Securities with an Austrian nexus is generally subject to withholding tax at a flat rate of 27.5 per cent. However, pursuant to sec. 93(1a) of the Austrian Income Tax Act, the withholding agent may apply a 25 per cent. rate if the debtor of the withholding tax is a corporation. Such withholding tax can be credited against the corporate income tax liability. Under the

conditions set forth in sec. 94(5) of the Austrian Income Tax Act withholding tax is not levied in the first place. Losses from the alienation of the Securities can be offset against other income.

Pursuant to sec. 13(3)(1) in connection with sec. 22(2) of the Austrian Corporate Income Tax Act, private foundations (*Privatstiftungen*) pursuant to the Austrian Private Foundations Act (*Privatstiftungsgesetz*) fulfilling the prerequisites contained in sec. 13(3) and (6) of the Austrian Corporate Income Tax Act and holding the Securities as non-business assets are subject to interim taxation at a rate of 25 per cent. on interest income, income from realised increases in value and income from derivatives (*inter alia*, if the latter are in the form of securities). Pursuant to the Austrian tax authorities' view, the acquisition costs must not include ancillary acquisition costs. Expenses such as bank charges and custody fees must not be deducted (sec. 12(2) of the Austrian Corporate Income Tax Act). Interim tax is generally not triggered insofar as distributions subject to withholding tax are made to beneficiaries in the same tax period. Investment income from the Securities with an Austrian nexus is generally subject to withholding tax at a flat rate of 27.5 per cent. However, pursuant to sec. 93(1a) of the Austrian Income Tax Act, the withholding agent may apply a 25 per cent. rate if the debtor of the withholding tax is a corporation. Such withholding tax can be credited against the tax triggered. Under the conditions set forth in sec. 94(12) of the Austrian Income Tax Act withholding tax is not levied.

Individuals and corporations subject to limited (corporate) income tax liability in Austria are taxable on income from the Securities if they have a permanent establishment (*Betriebsstätte*) in Austria and the Securities are attributable to such permanent establishment (cf. sec. 98(1)(3) of the Austrian Income Tax Act, sec. 21(1)(1) of the Austrian Corporate Income Tax Act). In addition, individuals subject to limited income tax liability in Austria are also taxable on interest in the sense of sec. 27(2)(2) of the Austrian Income Tax Act and accrued interest (including from zero coupon bonds) in the sense of sec. 27(6)(5) of the Austrian Income Tax Act from the Securities if the (accrued) interest has an Austrian nexus and if withholding tax is levied on such (accrued) interest. This does not apply to an individual being resident in a state with which automatic exchange of information exists if the individual provides a certificate of residence to the withholding agent. Interest with an Austrian nexus is interest the debtor of which has its place of management and/or its legal seat in Austria or is an Austrian branch of a non-Austrian credit institution; accrued interest with an Austrian nexus is accrued interest from securities issued by an Austrian issuer (sec. 98(1)(5)(b) of the Austrian Income Tax Act). Under applicable double taxation treaties, relief from Austrian income tax might be available. However, Austrian credit institutions must not provide for such relief at source; instead, the investor may file an application for repayment of tax with the competent Austrian tax office.

Pursuant to sec. 188 of the Austrian Investment Funds Act 2011, the term "foreign investment fund" comprises (i) undertakings for collective investment in transferable securities the member state of origin of which is not Austria; (ii) alternative investment funds pursuant to the Austrian Act on Alternative Investment Fund Managers (Alternative Investmentfonds Manager-Gesetz) the state of origin of which is not Austria; and (iii) undertakings not falling within paragraphs (i) and (ii) above which are undertakings subject to a foreign jurisdiction, irrespective of the legal form they are organised in, the assets of which are invested according to the principle of risk-spreading on the basis either of a statute, of the undertaking's articles or of customary exercise, if one of the following conditions is fulfilled: (a) the undertaking is factually, directly or indirectly, not subject to a corporate income tax in its state of residence that is comparable to Austrian corporate income tax; (b) the profits of the undertaking are in its state of residence subject to corporate income tax that is comparable to Austrian corporate income tax, at a rate of less than 15 per cent.; or (c) the undertaking is subject to a comprehensive personal or material tax exemption in its state of residence. Certain collective investment vehicles investing in real estate are exempted. In case of a qualification as a foreign investment fund, the tax consequences would substantially differ from those described above: A special type of transparency principle would be applied, pursuant to which generally both distributed income as well as deemed income would be subject to Austrian (corporate) income tax.

### **Inheritance and gift taxation**

Austria does not levy inheritance or gift tax.

Certain gratuitous transfers of assets to private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare Vermögensmassen*) are subject to foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Transfer Tax Act (*Stiftungseingangssteuergesetz*). If the transferor and/or the transferee at the time of transfer have a domicile,

their habitual abode, their legal seat and/or their place of management in Austria. Certain exemptions apply in cases of transfers mortis causa of financial assets within the meaning of sec. 27(3) and (4) of the Austrian Income Tax Act (except for participations in corporations) if income from such financial assets is subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act. The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate generally is 2.5 per cent., with higher rates applying in special cases.

In addition, there is a special notification obligation for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles if the donor and/or the donee have a domicile, their habitual abode, their legal seat and/or their place of management in Austria. Not all gifts are covered by the notification obligation: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Furthermore, gratuitous transfers to foundations falling under the Austrian Foundation Transfer Tax Act described above are also exempt from the notification obligation. Intentional violation of the notification obligation may trigger fines of up to 10 per cent. of the fair market value of the assets transferred.

Further, gratuitous transfers of the Securities may trigger income tax at the level of the transferor pursuant to sec. 27(6)(1) and (2) of the Austrian Income Tax Act (see above).

## **BELGIUM**

***The following is a general discussion of certain Belgian tax consequences of the acquisition, holding and disposal of Securities. It does not purport to be a comprehensive description of all tax considerations that may be relevant to a decision to purchase Securities and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. In particular, it does not cover the situation of non-residents nor the tax treatment of securities which may be received upon repurchase or redemption of the Securities. This summary is based on the laws of Belgium currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive effect. This summary is not intended to constitute, nor should it be construed as, legal or tax advice. Prospective purchasers of Securities are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposal of Securities, including the effect of any taxes under the tax laws of Belgium and each country of which they are residents or whose tax laws apply to them for other reasons.***

Any payment of interest (as defined by Belgian tax law) on the Securities made through a paying agent in Belgium will in principle be subject to Belgian withholding tax on the gross amount of the interest, currently at the rate of 30 per cent.

If the repurchase or redemption of Securities by the Issuer is in full or in part settled by means of a delivery of securities or other assets, interest includes any positive difference between the market value of those assets on the date of their payment or attribution and the initial issue price of the Securities. In the event interest is paid in the form of delivery of securities, the market value of those securities will be deemed at least equal to their value (prior to the date of the payment or attribution) as determined in the most recent publication by the Belgian Government of the value of securities listed on a Belgian stock exchange (such publication is issued monthly, on the 20th of each month) or on a similar foreign stock exchange.

For Belgian tax purposes, if interest is in a foreign currency, it is converted into Euro on the date of payment or attribution.

## **Income tax**

### **Structured Securities**

On 25 January 2013, the Belgian tax authorities issued a circular letter on the Belgian tax treatment of income from structured securities characterised by an uncertain return on investment due to the variation of the coupons or the repayment terms at maturity, such as securities whose return is linked to the performance of underlying products. According to the circular letter, the transfer of structured securities to a third party (other

than the issuer) results in taxation as interest income of the "*pro rata* interest", calculated on the basis of an unclear formulae. In addition, any amount paid in excess of the initial issue price upon redemption or repayment of the structured securities is considered as interest for Belgian tax purposes. It is highly debatable whether the circular letter is in line with Belgian tax legislation. Furthermore, it is unclear whether the Belgian tax authorities will seek to apply the principles set out in the circular letter to structured Securities (the "**Structured Securities**" for the purposes of the following paragraphs).

It is assumed that any gains realised upon redemption or repayment by the Issuer will indeed be viewed as interest by the Belgian tax authorities (and any such gains are therefore referred to as "interest" for the purposes of the following paragraphs), but that the effective taxation of the "*pro rata* interest" in case of sale to a third party (*i.e.* other than the Issuer) would not be possible, on the basis that it is currently impossible to determine the amount of the "*pro rata* interest".

#### *Repayment or redemption by the Issuer*

#### Belgian resident individuals

Belgian resident individuals, *i.e.* individuals who are subject to Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*), who are holding the Structured Securities as a private investment are subject to the following tax treatment with respect to the Structured Securities in Belgium. Other rules may be applicable in special situations, in particular when Belgian resident individuals acquire the Structured Securities for professional purposes or when their transactions with respect to the Structured Securities fall outside the scope of the normal management of their own private estate.

Payments of interest on the Structured Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that they do not have to declare the interest obtained on the Structured Securities in their personal income tax return, provided Belgian withholding tax was levied on these interest payments.

Nevertheless, Belgian resident individuals may elect to declare interest on the Structured Securities in their personal income tax return. Also, if the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return. Interest income which is declared this way will in principle be taxed at a flat rate of 30 per cent. (or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, whichever is more beneficial) and no local surcharges will be due. The Belgian withholding tax levied may be credited against the Belgian resident individual's income tax liability.

#### Belgian resident companies

Belgian resident companies, *i.e.* companies that are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*), are subject to the following tax treatment with respect to the Structured Securities in Belgium.

Interest received by Belgian resident companies on the Structured Securities will be subject to Belgian corporate income tax at the ordinary corporate income tax rate of currently 29.58 per cent. (with a reduced rate of 20.40 per cent. applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25 per cent. (and 20 per cent.) as from assessment year 2021 for taxable periods starting at the earliest on 1 January 2020. If the income has been subject to a foreign withholding tax, a foreign tax credit will be applied on the Belgian tax due. For interest income, the foreign tax credit is generally equal to a fraction where the numerator is equal to the foreign tax and the denominator is equal to 100 minus the rate of the foreign tax, up to a maximum of 15/85 of the net amount received (subject to some further limitations). Capital losses are in principle tax deductible.

Interest payments on the Structured Securities made through a paying agent in Belgium are in principle subject to a 30 per cent. withholding tax, but can under certain circumstances be exempt from Belgian withholding tax, provided that certain formalities are complied with. For zero or capitalisation bonds, an exemption will only apply if the Belgian company and the Issuer are associated companies within the meaning of article 105, 6° of the

Royal Decree of 27 August 1993 implementing the Belgian Income Tax Code of 1992. The withholding tax that has been levied is creditable in accordance with the applicable legal provisions.

#### Belgian non-profit legal entities

Belgian non-profit legal entities, *i.e.* legal entities that are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*), are subject to the following tax treatment with respect to the Structured Securities in Belgium.

Payments of interest on the Structured Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of Belgian withholding tax, the Belgian non-profit legal entity itself is responsible for the deduction and payment of the 30 per cent. withholding tax.

Sale to a third party

No Belgian withholding tax should apply to the sale of Structured Securities to a third party.

#### Belgian resident individuals

Belgian resident individuals, *i.e.* individuals who are subject to Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*), are currently not liable to Belgian income tax on the capital gains (if any) realised upon disposal of the Structured Securities to a third party, provided that the Structured Securities have not been used for their professional activity and that the capital gain is realised within the scope of the normal management of their private estate. Capital losses realised upon disposal of the Structured Securities held as a non-professional investment are in principle not tax deductible.

However, Belgian resident individuals may be subject to a 33 per cent. Belgian income tax (plus local surcharges) if the capital gains on the Structured Securities are deemed to be speculative or outside the scope of the normal management of the individuals' private estate. Capital losses arising from such transactions are not tax deductible.

Capital gains realised upon transfer of Structured Securities held for professional purposes are taxable at the ordinary progressive income tax rates (plus local surcharges), except for Structured Securities held for more than five years, which are taxable at a separate rate of 16.5 per cent. (plus local surcharges). Capital losses on the Structured Securities incurred by Belgian resident individuals holding the Structured Securities for professional purposes are in principle tax deductible.

#### Belgian resident companies

Belgian resident companies, *i.e.* companies that are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*), are liable to Belgian corporate income tax on the capital gains (if any) realised upon disposal of the Structured Securities to a third party, irrespective of whether such Structured Securities relate to shares or other assets or indices. The current standard corporate income tax rate in Belgium is 29.58 per cent. (with a reduced rate of 20.40 per cent. applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25 per cent. (and 20 per cent.) as from assessment year 2021 for taxable periods starting at the earliest on 1 January 2020.

Capital losses realised upon disposal of the Structured Securities are in principle tax deductible.

#### Belgian non-profit legal entities

Belgian non-profit legal entities, *i.e.* legal entities that are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*), are currently not liable to Belgian income tax on capital gains (if any) realised upon disposal of the Structured Securities to a third party.

Capital losses realised upon disposal of the Structured Securities are in principle not tax deductible.

#### Other Securities

The following summary describes the principal Belgian withholding tax considerations with respect to Securities other than Structured Securities.

For Belgian tax purposes, periodic interest income and amounts paid by the Issuer in excess of the issue price (whether or not on the maturity date) are qualified and taxable as "interest". In addition, if the Securities qualify as fixed income securities within the meaning of article 2, §1, 8° of the Belgian Income Tax Code of 1992, in case of a realisation of the Securities between two interest payment dates, an income equal to pro rata of the accrued interest corresponding to the period during which the investor held the Securities in the period between the two interest payment dates is also taxable as interest.

For the purposes of the following paragraphs, any such gains and accrued interest are therefore referred to as "interest".

#### Belgian resident individuals

Belgian resident individuals, *i.e.* individuals who are subject to Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*), and who hold the Securities as a private investment, are in Belgium subject to the following tax treatment with respect to the Securities.

Other tax rules apply to Belgian resident individuals who do not hold the Securities as a private investment.

Payments of interest on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that they do not have to declare the interest obtained on the Securities in their personal income tax return, provided Belgian withholding tax was levied on these interest payments.

Nevertheless, Belgian resident individuals may elect to declare interest on the Securities in their personal income tax return. Also, if the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return. Interest income which is declared this way will in principle be taxed at a flat rate of 30 per cent. (or at the relevant progressive personal income tax rate(s), taking into account the taxpayer's other declared income, whichever is more beneficial) and no local surcharges will be due. The Belgian withholding tax levied may be credited against the Belgian resident individual's income tax liability.

Capital gains realised on the sale of the Securities are in principle tax exempt, unless the capital gains are realised outside the scope of the normal management of one's private estate or unless the capital gains qualify as interest (as defined above). Capital losses are in principle not tax deductible.

#### Belgian resident companies

Belgian resident companies, *i.e.* companies that are subject to Belgian Corporate Income Tax (*Vennootschapsbelasting/Impôt des sociétés*), are in Belgium subject to the following tax treatment with respect to the Securities.

Interest derived by Belgian resident companies on the Securities and capital gains realised on the Securities will be subject to Belgian Corporate Income Tax at the ordinary corporate income tax rate of currently 29.58 per cent. (with a reduced rate of 20.40 per cent. applying to the first tranche of EUR 100,000 of taxable income of qualifying small companies), to be reduced to 25 per cent. (and 20 per cent.) as from assessment year 2021 for taxable periods starting at the earliest on 1 January 2020. If the income has been subject to a foreign withholding tax, a foreign tax credit will be applied on the Belgian tax due. For interest income, the foreign tax credit is generally equal to a fraction where the numerator is equal to the foreign tax and the denominator is equal to 100 minus the rate of the foreign tax, up to a maximum of 15/85 of the net amount received (subject to some further limitations). Capital losses are in principle tax deductible.

Interest payments on the Securities made through a paying agent in Belgium are in principle subject to a 30 per cent. withholding tax, but can under certain circumstances be exempt from Belgian withholding tax, provided that certain formalities are complied with. For zero or capitalisation bonds, an exemption will only apply if the Belgian company and the Issuer are associated companies within the meaning of article 105, 6° of the Royal Decree of 27 August 1993 implementing the Belgian Income Tax Code of 1992. The withholding tax that has been levied is creditable in accordance with the applicable legal provisions.

#### Belgian non-profit legal entities

Belgian non-profit legal entities, *i.e.* legal entities that are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/Impôt des personnes morales*), are subject to the following tax treatment with respect to the Securities in Belgium.

Payments of interest on the Securities made through a paying agent in Belgium will in principle be subject to a 30 per cent. withholding tax in Belgium and no further tax on legal entities will be due on the interest.

However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent and without the deduction of Belgian withholding tax, the Belgian non-profit legal entity itself is responsible for the declaration and payment of the 30 per cent. withholding tax.

Capital gains realised on the sale of the Securities are in principle tax exempt, unless the capital gain qualifies as interest (as defined). Capital losses are in principle not tax deductible.

#### **Tax on stock exchange transactions**

The sale and acquisition of the Structured Securities and other Securities on the secondary market is subject to a tax on stock exchange transaction (*Taks op de beursverrichtingen/Taxe sur les opérations de bourse*) if (i) executed in Belgium through a professional intermediary, or (ii) deemed to be executed in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by private individuals with habitual residence in Belgium, or legal entities for the account of their seat or establishment in Belgium.

The tax is generally due at a rate of currently 0.12 per cent. for Securities on each sale and acquisition separately, with a maximum of EUR 1,300 per taxable transaction for Securities. A separate tax is due by each party to the transaction, and both taxes are collected by the professional intermediary. However, if the intermediary is established outside of Belgium, the tax will in principle be due by the ordering private individual or legal entity, unless that individual or entity can demonstrate that the tax has already been paid. Professional intermediaries established outside of Belgium can, subject to certain conditions and formalities, appoint a Belgian representative for tax purposes, which will be liable for the tax on stock exchange transactions in respect of the transactions executed through the professional intermediary.

Exemptions are available, *inter alia*, for certain categories of Belgian institutional investors and non-residents, acting for their own account, provided that certain formalities are respected. Transactions on the primary market are not subject to this tax.

As stated below, the European Commission has published a proposal for a Directive for a common financial transactions tax ("**FTT**"). The proposal currently stipulates that once the FTT enters into force, the participating Member States shall not maintain or introduce taxes on financial transactions other than the FTT (or VAT as provided in the Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions should thus be abolished once the FTT enters into force. The proposal is still subject to negotiation between the participating Member States and therefore may be changed at any time.

#### **Tax on securities accounts**

Belgian resident and non-resident individuals are subject to a tax on securities accounts (*Taks op de effectenrekeningen/Taxe sur les comptes-titres*) levied at a rate of 0.15 per cent. on their share in the average value of qualifying financial instruments (*i.e.* shares, share certificates, bonds, bond certificates, units or shares

in investment funds or companies (except if acquired or subscribed to in the context of a life insurance or pension savings arrangement), medium-term notes (*kasbons/bons de caisse*) and warrants) held on one or more securities accounts with one or more financial intermediaries during a reference period of 12 consecutive months starting on 1 October and ending on 30 September of the subsequent year ("**Tax on Securities Accounts**"). No tax is due if the holder's share in the average value of the qualifying financial instruments on those accounts amounts to less than EUR 500,000. If, however, the holder's share in the average value of the qualifying financial instruments on those accounts amounts to EUR 500,000 or more, the Tax on Securities Accounts is due on the entire share of the holder in the average value of the qualifying financial instruments on those accounts (and hence, not only on the part which exceeds the EUR 500,000 threshold).

Qualifying financial instruments held by non-resident individuals on securities accounts with a financial intermediary established or located in Belgium fall within the scope of the Tax on Securities Accounts. Pursuant to certain double tax treaties entered into by Belgium, Belgium has no right to tax the capital. Therefore, to the extent the Tax on Securities Accounts is viewed as a tax on capital within the meaning of these double tax treaties, subject to certain conditions, the application of double tax treaties may override the Tax on Securities Accounts.

A financial intermediary is defined as (i) a credit institution or a listed company as defined by Article 1, §2 and §3 of the Law of 25 April 2014 on the legal status and supervision of credit institutions and listed companies and (ii) the investment companies as defined by Article 3, §1 of the Law of 25 October 2016 on access to the activity of investment services and on the legal status and supervision of portfolio management and investment advice companies, which are pursuant to national law admitted to hold financial instruments for the account of customers.

The Tax on Securities Accounts is in principle due by the financial intermediary established or located in Belgium if (i) the holder's share in the average value of the qualifying financial instruments held on one or more securities accounts with said intermediary amounts to EUR 500,000 or more or (ii) the holder instructed the financial intermediary to levy the Tax on Securities Accounts due (eg in case such holder holds qualifying financial instruments on several securities accounts held with multiple intermediaries of which the average value of each of these accounts does not amount to EUR 500,000 or more but of which the holder's share in the total average value of these accounts exceeds EUR 500,000). If the Tax on Securities Accounts is not paid by the financial intermediary, such Tax on Securities Accounts has to be declared and is due by the holder itself, unless the holder provides evidence that the Tax on Securities Accounts has already been withheld, declared and paid by an intermediary which is not established or located in Belgium. In that respect, intermediaries located or established outside of Belgium could appoint a Tax on Securities Accounts representative in Belgium, subject to certain conditions and formalities ("**Tax on Securities Accounts Representative**"). Such Tax on Securities Accounts Representative will then be liable towards the Belgian Treasury for the Tax on Securities Accounts due and for complying with certain reporting obligations in that respect.

Belgian resident individuals have to report in their annual income tax return all their securities accounts held with one or more financial intermediaries of which they are considered the holder within the meaning of the Tax on Securities Accounts.

Prospective holders of Securities are strongly advised to seek their own professional advice in relation to the Tax on Securities Accounts.

## DENMARK

The following is a summary description of the taxation in Denmark of the Securities. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of the Securities, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules. The tax considerations for Danish resident investors of acquiring, holding or disposing the securities depend on the investor's tax status and the specific terms applicable to the relevant Securities. Potential investors are in all circumstances strongly recommended to contact their own tax advisers to clarify the individual consequences of the investment, holding and disposal of the Securities. No representations with respect to the tax consequences of any particular holder are made hereby.

## **Taxation at source**

Under existing Danish tax laws, no general withholding tax or coupon tax will apply to payments of interest or principal or other amounts due on the Securities, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to in The Danish Corporation Tax Act (in Danish "Selskabsskatteloven") of 6 September 2016 (as amended). This will not have any impact on holders of Securities who are not in a relationship whereby they control, or are controlled by, the Issuer, or where the holders of Securities and the Issuer are not controlled by the same group of shareholders.

Moreover, Danish withholding tax on payments of interest or principal or other amounts due on the Securities will not apply where the payment does not have a Danish source.

## **Resident holders of Securities**

Private individuals, including persons who are engaged in financial trade, companies and similar enterprises resident in Denmark for tax purposes or receiving interest on the Securities through their permanent establishment in Denmark are liable to pay tax on such interest.

Capital gains are taxable to individuals and corporate entities in accordance with the Danish Capital and Exchange Gains Act (in Danish "Kursgevinstloven") of 25 October 2016 (as amended) (the "Act"). Gains and losses on Securities held by corporate entities are generally taxed in accordance with a mark-to-market principle (in Danish "lagerprincippet"), i.e. on an unrealised basis. Gains and losses on Securities held by individuals are generally taxed on a realised basis and if the annual gains or losses do not exceed DKK 2,000, the gains or losses will be exempt from taxation. The net gains held by individuals are generally taxed as capital income at a rate of up to 42 per cent in 2018.

A variety of features regarding interest and principal may apply to the Securities. The applicable taxation of capital gains to corporate entities or individuals will depend on the features applicable to the Securities in question.

Structured securities or notes can be designed in many ways and with many different underlying assets or in a way that the yield will depend on various index or currency flows. When structured securities or notes are issued the following tax rules generally apply to the Securities.

Gains and losses on structured securities or notes are generally treated as gains and losses on financial instruments in accordance with section 29(3) of the Act. However, there are exceptions – for example, securities or notes which are adjusted in relation to developments in the consumer prices index (as computed by Statistics Denmark (in Danish "Danmarks Statistik")), the net consumer-price index or a similar index within the European Union or any of its member states.

The gains and losses on structured securities or notes are calculated irrespective of the rules applying to the underlying asset.

Gains and losses on structured securities or notes issued to both corporate entities and individuals are predominantly treated as taxable income in accordance with a mark-to-market principle (in Danish "lagerprincippet"), i.e. on an unrealised basis.

Corporate entities are generally able to deduct losses on structured securities or notes, but individuals may only deduct losses on structured securities or notes against gains on other financial instruments. However, in both cases, certain restrictions or exceptions apply.

Pension funds and other entities governed by the Danish Act on Taxation of Pension Yield (in Danish "Pensionsafkastbeskatningsloven") of 10 October 2014 (as amended) would, irrespective of realisation, be taxed on annual value increase or decrease of the Securities according to a mark-to-market principle (in Danish "lagerprincippet") as specifically laid down in the act. The net returns are taxed at a flat rate of 15.3 per cent.

## Non-resident holders of Securities

Under existing Danish tax laws, payments of interest or principal amounts to any non-resident holders of Securities are not subject to taxation in Denmark, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to above. Thus, no Danish withholding tax will be payable with respect to such payments and any capital gain realised upon the sale, exchange or retirement of Securities, other than in certain cases on payments in respect of controlled debt in relation to the Issuer as referred to under "Taxation at source" above.

This tax treatment applies solely to holders of Securities who are not subject to full tax liability in Denmark, nor are included in a Danish joint taxation scheme and do not carry on business in Denmark through a permanent establishment.

## EU Savings Directive

Under the EU Savings Directive, Member States are required to provide to the tax authorities of other Member States details of payments of interest (and other similar income) paid by a person to an individual resident, or to certain other types of entities established in that other Member State except that, for a transitional period, Luxembourg and Austria may instead (unless during that period they elect otherwise) impose a withholding system in relation to such payments (subject to a procedure whereby, on meeting certain conditions, the beneficial owner of the interest or other income may request that no tax be withheld). The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above. The EU Savings Directive has been implemented in Denmark pursuant to Executive Order no. 1316 of 20 November 2015 (as amended) under sections 22 and 23 of the Danish Tax Reporting Act (in Danish "Skatteindberetningsloven").

## FRANCE

***The following is a summary addressing only the French compulsory withholding tax treatment of income arising from the Securities and certain transfer tax implications in case of physical delivery of French listed shares in connection with the Securities. This summary is based on the laws and practice in force as of the date of this Prospectus and subject to any changes in law and interpretation and application thereof, which changes could be made with retroactive effect. Investors should be aware that the statements below are of a general nature and do not constitute legal or tax advice and should not be understood as such. Prospective investors should consult their professional advisers so as to determine, in the light of their individual situation, the tax consequences of the subscription, purchase, holding, redemption or disposal of the Securities.***

### Withholding tax

*This summary is prepared on the assumption that the Issuer is not or is not deemed to be (and will not be or deemed to be) a French resident for French tax purposes and the Securities (and any transaction in relation to the Securities) are not (and will not be) attributed or attributable to a French branch or permanent establishment or fixed place of business of the Issuer in France.*

*Please note that the treatment regarding withholding tax on payments in relation to the Securities will depend on the nature and characterisation of the relevant Securities.*

Securities constituting debt instruments for French tax purposes

Payments with respect to Securities which constitute debt instruments for French tax purposes will be made free of any compulsory withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

However, if the paying agent (*établissement payeur*) is established in France, pursuant to Article 125 A I of the French Code *général des impôts*, subject to certain exceptions, interest and similar income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the

payment has been made. Social contributions (CSG, CRDS and solidarity levy) are also levied by way of withholding at a global rate of 17.2 per cent. on such interest and similar income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France, subject to certain exceptions.

Securities not constituting debt instruments for French tax purposes

Payments with respect to Securities which do not constitute debt instruments for French tax purposes would not be subject to any mandatory withholding tax in France.

### **Transfer tax and other taxes**

*Please note that the following may be relevant in connection with Securities which may be settled or redeemed by way of physical delivery of certain listed shares (or certain assimilated securities) issued by a company whose registered office is situated in France or securities representing such shares (or assimilated securities).*

Pursuant to Article 235 *ter* ZD of the French *Code général des impôts*, a financial transaction tax (the "**French FTT**") is applicable to any acquisition for consideration, resulting in a transfer of ownership, of (i) an equity security (*titre de capital*) within the meaning of Article L 212-1 A of the French *Code monétaire et financier* or an assimilated equity security (*titre de capital assimilé*) within the meaning of Article L 211-41 of the French *Code monétaire et financier*, admitted to trading on a regulated stock exchange when such security is issued by a company whose registered office is situated in France with a market capitalisation of more than 1 billion Euros on 1 December of the year preceding the year in which the imposition occurs (the "**French Shares**") or (ii) a security (*titre*) representing French Shares (irrespective of the location of the registered office of the issuer of such security). The rate of the French FTT is 0.3 per cent. of the acquisition value of the French Shares (or securities representing French Shares). There are a number of exemptions from the French FTT and investors should consult their counsel to identify whether they can benefit from them.

If the French FTT applies to an acquisition of French Shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1 per cent. to the sale of shares issued by a company whose registered office is situated in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

### **HONG KONG**

The following is a general description of certain Hong Kong tax considerations relating to the Securities and is based on law and relevant interpretations thereof in effect as at the date of this Prospectus, all of which are subject to change, and does not constitute legal or taxation advice. It does not purport to be a complete analysis of all tax considerations relating to the Securities. Prospective holders of Securities who are in any doubt as to their tax position or who may be subject to tax in any jurisdiction are advised to consult their own professional advisers.

#### **Withholding Tax**

No withholding tax is payable in Hong Kong in respect of payments of principal (including any premium payable on redemption of the Securities) or interest on the Securities or in respect of any capital gains arising from the sale of the Securities.

#### **Profits Tax**

Hong Kong profits tax is chargeable on every person carrying on a trade, profession or business in Hong Kong in respect of assessable profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Under the Inland Revenue Ordinance (Cap. 112) of Hong Kong (the "**Inland Revenue Ordinance**"), as it is currently applied in the Inland Revenue Department, interest on the Securities may be deemed to be profits arising in or derived from Hong Kong from a trade, profession or business carried on in Hong Kong in the following circumstances:

- (i) interest on the Securities is derived from Hong Kong and is received by or accrues to a company, other than a financial institution, carrying on a trade, profession or business in Hong Kong; or
- (ii) interest on the Securities is derived from Hong Kong and is received by or accrues to a person, other than a company, carrying on a trade, profession or business in Hong Kong and is in respect of the funds of that trade, profession or business; or
- (iii) interest on the Securities is received by or accrues to a financial institution (as defined in the Inland Revenue Ordinance) and arises through or from the carrying on by the financial institution of its business in Hong Kong.

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal and redemption of Securities will be subject to profits tax.

Sums derived from the sale, disposal or redemption of Securities in bearer form will be subject to Hong Kong profits tax where received by or accrued to a person, other than a corporation, who carries on a trade, profession or business in Hong Kong and the sum has a Hong Kong source. Sums received by or accrued to a corporation (other than a financial institution) by way of gains or profits arising through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (as defined in section 16(3) of the Inland Revenue Ordinance) from the sale, disposal or redemption of Securities will be subject to profits tax.

Similarly, such sums in respect of Securities in registered form received by or accrued to either the aforementioned financial institution, person and/or corporation will be subject to Hong Kong profits tax if such sums have a Hong Kong source. The source of such sums will generally be determined by having regard to the manner in which the Securities are acquired and disposed.

### **Stamp Duty**

Stamp duty will not be payable on the issue of Securities in bearer form provided either:

- (i) such Securities are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) such Securities constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117) of Hong Kong).

If stamp duty is payable, it is payable by the Issuer on issue of Securities in bearer form at a rate of 3 per cent. of the market value of the Securities at the time of issue.

No stamp duty will be payable on any subsequent transfer of Securities in bearer form.

No stamp duty is payable on the issue of Securities in registered form. Stamp duty may be payable on any transfer of Securities in registered form if the relevant transfer is required to be registered in Hong Kong.

Stamp duty will, however, not be payable on any transfers of Securities in registered form provided that either:

- (ix) the Securities in registered form are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (x) the Securities in registered form constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117) of Hong Kong).

If stamp duty is payable in respect of the transfer of Securities in registered form it will be payable at the rate of 0.2 per cent. (of which 0.1 per cent. is payable by the seller and 0.1 per cent. is payable by the purchaser) normally by reference to the value of the consideration. If, in the case of either the sale or purchase of such Securities in registered form, stamp duty is not paid, both the seller and the purchaser may be liable jointly and severally to pay any unpaid stamp duty and also any penalties for late payment. If stamp duty is not paid on or

before the due date (two days after the sale or purchase if effected in Hong Kong or 30 days if effected elsewhere) a penalty of up to 10 times the duty payable may be imposed. In addition, stamp duty is payable at the fixed rate of HK\$5 on each instrument of transfer executed in relation to any transfer of the Securities in registered form if the relevant transfer is required to be registered in Hong Kong.

### **Estate Duty**

No estate duty will be payable in respect of Securities in bearer form and Securities in registered form in Hong Kong.

### **IRELAND**

***The following is a summary of the Irish withholding tax treatment of the Securities. It is based on the laws and practice of the Revenue Commissioners currently in force in Ireland as at the date of this Prospectus and may be subject to change. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Securities. Prospective investors in the Securities should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Securities and the receipt of payments thereon under any laws applicable to them.***

### **Irish Withholding Tax**

Irish withholding tax applies to certain payments including payments of:

- Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- Irish source annual payments (annual payments are payments that are capable of being made for a period in excess of one year and are pure income-profit in the hands of the recipient); and
- Distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax,

at the standard rate of income tax (currently 20 per cent.).

On the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, nor does the Issuer operate in Ireland through a branch or agency with which the issue of the Securities is connected, nor are the Securities held in Ireland through a depository or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on unsecured Securities (i.e. the Notes), such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation, while in relation to secured Securities the issue may be more complex if the secured Securities were secured for the most part by certain Irish specified assets, e.g. Irish land, exploration or mineral rights or unquoted securities deriving the greater part of their value therefrom. However on the basis that the secured Securities are Pfandbriefe it is not expected that those Securities would be secured for the most part by Irish specified assets.

Accordingly, the Issuer or any paying agent acting on behalf of the Issuer should not be obliged to deduct any amount on account of these Irish withholding taxes from payments made in connection with the Securities.

Separately, for as long as the Securities are quoted on a stock exchange, a purchaser of the Securities should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Securities.

### **Irish Encashment Tax**

Payments on any Securities paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Securities will be subject to Irish encashment tax at the standard rate

of Irish tax (currently 20 per cent.), unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Securities entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland.

## **ISRAEL**

***The following is a brief summary of the material Israeli tax considerations concerning the ownership and the disposition of the Securities by Securityholders. This summary does not discuss all of the aspects of Israeli tax law that may be relevant to a particular Securityholder in light of his or her personal investment circumstances or to some types of Securityholders who are subject to special treatment under Israeli law. Examples of such Securityholders include residents of Israel or traders in securities who are subject to special tax regimes not covered in this discussion. Because parts of this discussion are based on new tax legislation that has not been subject to judicial or administrative interpretation, it cannot be assured that the relevant tax authorities or the courts will adopt the views expressed herein. The discussion below is subject to change, including due to amendments under Israeli law or changes to the applicable judicial or administrative interpretations of Israeli law, which change could affect the tax consequences described below. This summary assumes that the Securities are not issued by an Israeli entity.***

***The following is not intended, and should not be construed, as legal or professional tax advice and is not exhaustive of all possible tax considerations. Each Securityholder should consult his or her own tax adviser.***

### **Capital Gain on the Sale of the Securities**

#### **Overview**

Israeli Capital gains tax is imposed, inter alia, on a world-wide disposal of capital assets by an Israeli tax resident, and on the disposal of capital assets by a non-resident of Israel if those assets (i) are located in Israel, (ii) are shares or a right to shares in an Israeli tax resident corporation, or (iii) represent, directly or indirectly, rights to assets located in Israel, unless a specific exemption is available under Israeli tax law or unless a treaty between Israel and the country of the non-resident provides otherwise.

When determining a taxable capital gain, the Israeli Income Tax Ordinance ("ITO") distinguishes between the "real capital gain" and the "inflationary surplus". The inflationary surplus is the portion of the total capital gain equivalent to the increase in the Israeli consumer price index ("CPI") or, in certain circumstances provided in the ITO, foreign currency exchange rates, in each case occurring between the date of purchase and the date of sale. The real capital gain is the excess of the total capital gain over the inflationary surplus. The inflationary surplus is currently not subject to tax in Israel.

### **Capital Gain in the Sale of the Securities by Israeli Tax Residents**

#### **Israeli Tax Resident Individuals**

Generally, the tax rate applicable to real capital gain generated by Israeli tax resident individuals from the sale of securities of a company, purchased on or after 1 January 2003, whether or not listed on a stock exchange, is 25%, unless such holder claims a deduction of expenses for interest and linkage differential in connection with the purchase and holding of such securities, in which case the tax rate applicable to real capital gain will be 30%.

Additionally, if a holder is considered to be a "Substantial Shareholder" (i.e., a person who holds, directly or indirectly, alone or together with others, 10% or more of any "Means of Control" of a company (which include, among other things, the right to receive profits of the company, voting rights, the rights to receive proceeds upon liquidation or the right to appoint a director)) at the time of sale or at any time during the preceding 12-month period, such gain will be taxed at the rate of 30%. However, real capital gain derived from the sale of debentures, commercial securities, state loans or securities which are not linked to an index, or which are partially linked to an index, are subject to tax at a rate of 15% (or 20% if paid to a Substantial Shareholder).

Individual holders dealing in securities in Israel for whom the income from the sale of securities is considered "business income", as defined in the ITO, are taxed at the marginal tax rates applicable to business income (up to 47% for 2019 and thereafter).

### **Israeli Tax Resident Corporations**

The tax rate applicable to real capital gain generated by Israeli tax resident corporations from the sale of securities, whether or not listed on a stock exchange, is the general corporate tax rate (23% for 2019 and thereafter).

Notwithstanding, a trust fund, pension fund or other entity that is exempt from tax under Section 9(2) of the ITO are generally exempt from tax on real capital gain, subject to the provisions of the ITO and presentment of a certificate of exemption issued by the Israeli Tax Authority. Non-exempt trust funds are generally subject to tax on real capital gain at the rates applicable to individuals.

Upon the sale of securities traded on a stock exchange, individuals and corporations must file a detailed tax return, including a computation of the tax due, and in addition to an estimated tax payment by 31 January and 31 July of every tax year, with respect to the sales of securities made within the preceding six month-period ended 31 December or 30 June. However, if all the tax that is due was withheld at source according to applicable provisions of the ITO and the regulations promulgated thereunder, there is no need to file a tax return and payment of advances is not required. Capital gains are also reportable on the annual income tax return.

For both individuals and corporations the sale of securities may be exempt from Israeli capital gains tax under the provisions of any applicable tax treaty.

### **Payment of Interest, Original Issue Discount and Linkage Differentials**

#### **General**

Securityholders will be subject to tax in Israel on income from interest (which for the purposes of this summary includes original issue discounts and linkage differentials) if (i) the Securityholder is an Israeli tax resident or (ii) the income is derived from Israeli sources (the payer is located in Israel). Subject to a Securityholder satisfying certain eligibility criteria, interest income may be recognized on a cash basis (i.e., upon receipt) or on an accrual basis. However, income derived from securities denominated in non-Israeli currency and which is attributable to foreign exchange rate fluctuations must be recognized on accrual basis.

#### **Israeli Tax Residents Individuals**

Interest income payable to an Israeli tax resident individual is generally subject to tax at a rate of up to 25% (calculated on the interest received after deduction of any non-Israeli withholding taxes). However, if interest is paid on an instrument that is not linked to the CPI, or is partially linked to the CPI, or is not linked to the CPI until redemption, the applicable tax rate is 15%.

#### **Israeli Tax Resident Corporations**

In general, Israeli tax resident corporations are taxable on worldwide interest, original issue discounts and linkage differentials, at a rate equal to the prevailing corporate tax rate (23% for 2019 and thereafter, calculated on the interest received after deduction of any non-Israeli withholding taxes).

### **Withholding Tax on Interest Income**

Payments of interest on Securities will be, in principle, subject to withholding tax in Israel.

Under the ITO and the regulations promulgated thereunder, payment of interest is subject to withholding at the following tax rates: when interest is paid to an individual, 25%, or 15% if the security is not linked to the CPI.

Notwithstanding the above, an Israeli tax resident individual shall be subject to withholding tax on interest income at the marginal income tax rate (up to 47% for 2019 and thereafter) in the following cases: (i) the

interest is considered business income or is registered in the individual's books of accounts; (ii) the individual has deducted interest expenses and/or linkage fluctuation expenses with respect to interest; (iii) the individual is a Substantial Shareholder of the issuer; or (iv) the individual is an employee of the issuer or provides services to it, sells products to it, or has a special relationship with it, unless the individual has proved to the assessing officer's satisfaction that the interest or the original issue discount rate were set in good faith, without being affected by the relationship with the issuer. In other cases deductions and exemptions may apply.

When interest is paid to a corporation a withholding tax equal to the prevailing corporate tax rate (23% for 2019 and thereafter) shall apply. Notwithstanding, an exempt trust fund, pension fund or other entity that is exempt from tax under Section 9(2) of the ITO, would generally be exempt from tax on interest and original issue discount, subject to the provisions of the ITO and presentment of a certificate of exemption. Non-exempt trust funds will be subject to tax on interest and original issue discount at the rates applicable to individuals.

The tax rate on interest income (received by individuals or corporations) may be reduced under the provisions of an applicable tax treaty.

### **Excess Tax ('mas yessef')**

Individuals who are subject to taxation in Israel are also subject to an additional tax at a rate of 3% on any annual income exceeding NIS 649,560 for 2019 (the amount is linked to the annual change in the Israeli consumer price index), including, but not limited to, income from dividends, interest and capital gain.

### **Estate and Gift Tax**

Israeli law presently does not impose estate or gift taxes.

## **ITALY**

***The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Prospectus and are subject to any changes in law occurring after such date, which could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.***

***Prospective purchasers of Securities should consult their tax advisers as to the overall tax consequences of acquiring, holding and disposing of the Securities.***

As clarified by the Italian tax authorities in resolution No. 72/E of 12 July 2010, the Italian tax consequences of the purchase, ownership and disposal of the Securities may be different depending on whether:

- (a) they represent a securitized debt claim, implying a static "use of capital" (*impiego di capitale*), through which the subscriber of the Securities transfers to the Issuer a certain amount of capital for the purpose of obtaining a remuneration on the same capital and subject to the right to obtain its (partial or entire) reimbursement at maturity; or
- (b) they represent a securitized derivative financial instrument or bundle of derivative financial instruments not entailing a "use of capital", through which the subscriber of the Securities invests indirectly in underlying financial instruments for the purpose of obtaining a profit deriving from the negotiation of such underlying financial instruments.

### **Tax treatment of Securities issued by an Italian resident Issuer**

Legislative Decree No. 239 of 1 April 1996 ("**Decree 239**"), as subsequently amended, provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from securities issued, *inter alia*, by Italian banks (which definition should also include Italian branches of foreign banks when the issuance is made

through the branch, is attributable to the latter and the relevant liability is accounted by the branch, according to the prevailing interpretation of Italian tax law), falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*). For this purpose, debentures similar to bonds are debt instruments implying a "use of capital" issued in mass that incorporate an unconditional obligation to pay, at redemption, an amount not lower than their nominal value and that do not allow a direct or indirect participation in the management of the issuer.

### Italian resident Securityholders

Where an Italian resident holder is (i) an individual not engaged in an entrepreneurial activity to which the Securities are connected (unless the individual has opted for the application of the "*risparmio gestito*" regimes – see the section entitled "*Capital Gains Tax*" below), (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Securities are subject to a tax withheld at source, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent. If the Securityholders described under (i) or (iii) above are engaged in an entrepreneurial activity to which the Securities are connected, the *imposta sostitutiva* applies as a provisional tax.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the *imposta sostitutiva*, on interest, premium and other income relating to the Securities if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(100-114) of Law No. 232 of 11 December 2016, as subsequently amended (the "**Finance Act 2017**") and in Article 1(210-215) of Law No. 145 of 30 December 2018 (the "**Finance Act 2019**"), as implemented by the Ministerial Decree 30 April 2019.

Where an Italian resident Securityholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Securities are effectively connected and the Securities are deposited with an authorised intermediary, interest, premium and other income from the Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant Securityholder's annual income tax return and are therefore subject to general Italian corporate taxation ("**IRES**") (and in certain circumstances, depending on the "*status*" of the holder, also to the regional tax on productive activities ("**IRAP**")).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001 ("**Decree 351**"), Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010 and Legislative Decree No. 44 of 4 March 2014, all as amended, payments of interest, premiums or other proceeds in respect of the Securities made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, or pursuant to Article 14-bis of Law No. 86 of 25 January 1994 and Italian real estate SICAFs ("**Real Estate SICAFs**") are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a real estate investment fund and a Real Estate SICAFs.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund, a SICAF (an investment company with fixed share capital) or a SICAV (an investment company with variable capital) established in Italy (the "**Fund**") and either (i) the Fund or (ii) its manager is subject to the supervision of a regulatory authority, and the relevant Securities are held by an authorised intermediary, interest, premium and other income accrued during the holding period on such Securities will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund. The Fund will not be subject to taxation on such results but a substitute tax of 26 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders (the "**Collective Investment Fund Tax**").

Where an Italian resident holder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Securities are deposited with an authorised intermediary, interest, premium and other income relating to the Securities and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax. Subject to certain conditions (including minimum period requirement) and limitations, interest, premium and other income relating to the

Securities may be excluded from the taxable base of the 20 per cent. substitute tax if the Securities are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of Finance Act 2017 and in Article 1(210-215) of Finance Act 2019, as implemented by the Ministerial Decree 30 April 2019.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, Italian investment companies (*società di intermediazione mobiliare*) ("**SIMs**"), fiduciary companies, Italian asset management companies (*società di gestione del risparmio*) ("**SGRs**"), stockbrokers and other entities identified by a Decree of the Ministry of Economy and Finance (each an "**Intermediary**").

An Intermediary must (i) be (a) resident in Italy or (b) be a permanent establishment in Italy of a non-Italian resident financial intermediary or (c) an entity or a company not resident in Italy, acting through a system of centralised administration of securities and directly connected with the Department of Revenue of the Italian Ministry of Finance having appointed an Italian representative for the purposes of Decree 239; and (ii) intervene, in any way, in the collection of interest or in the transfer of the Securities. For the purpose of the application of the *imposta sostitutiva*, a transfer of Securities includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Securities or in a change of the Intermediary with which the Securities are deposited.

Where the Securities are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a holder.

### **Non-Italian resident Securityholders**

Where the Securities are issued by an Italian resident Issuer and the Securityholder is a non-Italian resident without a permanent establishment in Italy to which the Securities are connected, an exemption from the *imposta sostitutiva* applies provided that the non-Italian resident beneficial owner is either (i) resident, for tax purposes, in a country which allows a satisfactory exchange of information with Italy as listed in the Italian Ministerial Decree of 4 September 1996, as amended by Ministerial Decree of 23 March 2017 and possibly further amended by future decrees issued pursuant to Article 11(4)(c) of Decree 239 (as amended by Legislative Decree No.147 of 14 September 2015) (the "**White List**"); or (ii) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (iii) a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) an institutional investor which is incorporated in a country included in the White List, even if it does not possess the status of a taxpayer in its own country of residence.

The *imposta sostitutiva* will be applicable at the rate of 26 per cent. (or in any case at the reduced rate provided for by the applicable double tax treaty, if any) to interest, premium and other income paid to holders which are resident, for tax purposes, in countries not included in the White List.

In order to ensure gross payment, non-Italian resident holders must be the beneficial owners of the payments of interest, premium or other income and (i) deposit, directly or indirectly, the Securities with a resident bank or SIM or a permanent establishment in Italy of a non-Italian resident bank or SIM or with a non-Italian resident entity or company participating in a centralised securities management system which is in contact, via computer, with the Ministry of Economy and Finance; and (ii) file with the relevant depository, prior to or concurrently with the deposit of the Securities, a statement of the relevant holder, which remains valid until withdrawn or revoked, in which the holder declares to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy or in the case of foreign Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree of 12 December 2001, as subsequently amended.

### **Tax treatment of Securities issued by a non-Italian resident issuer**

Decree 239 provides for the applicable regime with respect to the tax treatment of interest, premium and other income, including the difference between repayment amount and the issue price, from securities falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian issuers. For this purpose, bonds and debentures similar to bonds are securities that

incorporate an unconditional obligation to pay, at redemption, an amount not lower than their nominal value and which do not grant the holder any direct or indirect right of participation to (or of control of) to management of the Issuer.

### **Italian resident Securityholders**

Where the Italian resident Securityholder is (a) an individual not engaged in an entrepreneurial activity to which the relevant Securities are connected (unless he has opted for the application of the "*risparmio gestito*" regime - see under "*Capital gains tax*", below); (b) a non-commercial partnership; (c) a non-commercial private or public institution; or (d) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Securities, accrued during the relevant holding period, are subject to a substitute tax, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent. In the event that Securityholders described under (a) and (c) above are engaged in an entrepreneurial activity to which the Securities are connected, the *imposta sostitutiva* applies as a provisional tax.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the *imposta sostitutiva*, on interest, premium and other income relating to the Securities if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(100-114) of Finance Act 2017 and in Article 1(210-215) of Finance Act 2019, as implemented by the Ministerial Decree 30 April 2019.

Where an Italian resident Securityholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Securities are effectively connected and the Securities are deposited with an authorised intermediary, interest, premium and other income from the Securities will not be subject to *imposta sostitutiva*, but must be included in the relevant Securityholder's income tax return and are therefore subject to IRES (and, in certain circumstances, depending on the "status" of the Securityholder, also to IRAP).

Under the current regime provided by Decree 351, Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010 and Legislative Decree No. 44 of 4 March 2014, all as amended, payments of interest, premiums or other proceeds in respect of the Securities made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 and Real Estate SICAF are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a real estate investment fund or a Real Estate SICAF.

If the investor is a Fund, and the relevant Securities are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Securities will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund. The Fund will not be subject to taxation on such results but the Collective Investment Fund Tax will apply, in certain circumstances, to distributions made in favour of unitholders and shareholders.

Where an Italian resident Securityholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Securities are deposited with an authorised intermediary, interest, premium and other income relating to the Securities and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, interest, premium and other income relating to the Securities may be excluded from the taxable base of the 20 per cent. substitute tax if the Securities are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of Finance Act 2017 and in Article 1(210-215) of Finance Act 2019, as implemented by the Ministerial Decree 30 April 2019.

Pursuant to Decree 239, *imposta sostitutiva* is applied by an Intermediary.

Where the Securities are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Securityholder.

### **Non-Italian resident Securityholders**

For Securities issued by a non-Italian resident issuer, no Italian *imposta sostitutiva* is applied on payments to a non-Italian resident Securityholder of interest or premium relating to the Securities provided that, if the Securities are held in Italy, the non-Italian resident Securityholder declares itself to be a non-Italian resident according to Italian tax regulations.

### **Atypical securities**

Interest payments relating to Securities that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) may be subject to a withholding tax, levied at the rate of 26 per cent. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Securities that are classified as atypical securities, if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(100-114) of Finance Act 2017 and in Article 1(210-215) of Finance Act 2019, as implemented by the Ministerial Decree 30 April 2019.

In the case of Securities issued by an Italian resident issuer, where the Securityholder is (a) an Italian individual engaged in an entrepreneurial activity to which the Securities are connected; (b) an Italian company or a similar Italian commercial entity; (c) a permanent establishment in Italy of a foreign entity; (d) an Italian commercial partnership; or (e) an Italian commercial private or public institution, such withholding tax is a provisional withholding tax. In all other cases, including when the Securityholder is a non-Italian resident, the withholding tax is a final withholding tax. For non-Italian resident Securityholders, the withholding tax rate may be reduced by any applicable tax treaty.

If the Securities are issued by a non-Italian resident issuer, the withholding tax mentioned above does not apply to interest payments made to a non-Italian resident Securityholder and to an Italian resident Securityholder which is (a) a company or similar commercial entity (including the Italian permanent establishment of foreign entities); (b) a commercial partnership; or (c) a commercial private or public institution.

### **Capital gains tax**

Any gain obtained from the sale or redemption of the Securities would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Securityholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Securities are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Securities are connected.

Where an Italian resident Securityholder is an (i) an individual holding the Securities not in connection with an entrepreneurial activity, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, any capital gain realised by such Securityholder from the sale or redemption of the Securities would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. Under some conditions and limitations, Securityholders may set off losses with gains.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not engaged in an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the *imposta sostitutiva* on capital gains realised upon sale or redemption of the Securities if the Securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*)

that meets the requirements set forth in Article 1(100-114) of Finance Act 2017 and in Article 1(210-215) of Finance Act 2019, as implemented by the Ministerial Decree 30 April 2019.

In respect of the application of *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident Securityholders under (i) to (iii) above, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident Securityholder holding Securities not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given tax year. Italian resident Securityholders must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years. As an alternative to the tax declaration regime, Italian resident Securityholders under (i) to (iii) above may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the relevant Securities (the *risparmio amministrato regime*). Such separate taxation of capital gains is allowed subject to (a) Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries (including permanent establishments in Italy of foreign intermediaries); and (b) an express election for the *risparmio amministrato* regime being punctually made in writing by the relevant Securityholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Securityholder is not required to declare the capital gains in its annual tax return. Any capital gains realised by Italian resident Securityholders under (i) to (iii) above who have entrusted the management of their financial assets, including Securities, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Securityholder is not required to declare the capital gains realised in its annual tax return. Any capital gains realised by a Securityholder who is an Italian real estate fund to which the provisions of Decree 351, Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010 and Legislative Decree No. 44 of 4 March 2014, all as amended, apply and by a Real Estate SICAF will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the real estate investment fund or the Real Estate SICAF.

Any capital gains realised by a Securityholder which is a fund will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio. Such result will not be taxed with the Fund, but subsequent distributions in favour of unitholders of shareholders may be subject to the Collective Investment Fund Tax.

Any capital gains realised by a Securityholder who is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains realised from the sale or redemption of the Securities may be excluded from the taxable base of the 20 per cent. substitute tax if the Securities are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of Finance Act 2017 and in Article 1(210-215) of Finance Act 2019, as implemented by the Ministerial Decree 30 April 2019, as implemented by the Ministerial Decree 30 April 2019.

Capital gains realised by non-Italian resident Securityholders, not having a permanent establishment in Italy to which the Securities are connected, from the sale or redemption of Securities issued by an Italian resident

issuer and traded on regulated markets are neither subject to the *imposta sostitutiva* nor to any other Italian income tax.

Capital gains realised by non-Italian resident Securityholders from the sale or redemption of Securities issued by an Italian resident issuer not traded on regulated markets are not subject to the *imposta sostitutiva*, provided that the effective beneficiary: (a) is resident in a country included in the White List; or (b) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (c) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) is an institutional investor which is resident in a country included in the White List, even if it does not possess the status of taxpayer in its own country of residence.

If none of the conditions above is met, capital gains realised by non-Italian resident Securityholders from the sale or redemption of Securities issued by an Italian resident issuer not traded on regulated markets are subject to the *imposta sostitutiva* at the rate of 26 per cent.

In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Securities issued by an Italian resident issuer are connected that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of Securities are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of Securities issued by an Italian resident issuer.

Capital gains realised by non-Italian resident Securityholders from the sale or redemption of Securities issued by a non-Italian resident issuer are not subject to Italian taxation, provided that the Securities are held outside Italy or traded on a regulated market.

#### **Tax treatment of derivative financial instruments issued by an Italian resident issuer or a non-Italian resident issuer**

Based on the principles stated by the Italian tax authorities in resolution No. 72/E of 12 July 2010, payments in respect of Securities qualifying as securitized derivative financial instruments not entailing a "use of capital" as well as capital gains realised through the sale of the same Securities would be subject to Italian taxation according to the same rules described above applicable on capital gains realised through the sale or transfer of the Securities.

Payments in respect of Securities qualifying as securitised derivative financial instruments received by investors resident in Italy for tax purposes (not engaged in entrepreneurial activities to which the Securities are connected) as well as capital gains realised by such Italian investors on any sale or transfer for consideration of the Securities qualifying as securitised derivative financial instruments or redemption thereof are subject to a 26 per cent. capital gain tax, which applies under the tax declaration regime, the *risparmio amministrato* tax regime or the *risparmio gestito* tax regime according to the same rules described above under the section "Capital Gains Tax" above.

Payments in respect of Securities qualifying as securitised derivative financial instruments received by investors resident in Italy for tax purposes which carry out commercial activities are not subject to the 26 per cent. capital gain tax, but the proceeds are included in their taxable income and subject to taxation in accordance with the ordinary rules.

Any capital gains realised by a Securityholder who is a Fund will be included in the result of the relevant portfolio accrued at the end of the tax period. The Fund will not be subject to taxation on such result, but distributions made in favour of unitholders or shareholders may be subject to the Collective Investment Fund Substitute Tax.

Any capital gains realised by a Securityholder who is an Italian pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, interest, premium and other income relating to the Securities may be excluded from the taxable base of the 20 per cent. substitute tax if the

Securities are included in a long-term savings account (piano individuale di risparmio a lungo termine) that meets the requirements set forth in Article 1 (100-114) of Finance Act 2017.

Under the current regime provided by Decree 351, Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010 and Legislative Decree No. 44 of 4 March 2014, all as amended, payments of interest in respect of the Securities made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 and Real Estate SICAFs are, if some conditions are met, subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund or a Real Estate SICAF.

Capital gains realised by non-Italian-resident Securityholders, not having a permanent establishment in Italy to which the Securities qualifying as securitised derivative financial instrument is connected, from the sale or redemption of Securities qualifying as securitised derivative financial instruments issued by an Italian resident issuer are not subject to the *imposta sostitutiva*, provided that the Securities (i) are transferred on regulated markets, or (ii) are held outside of Italy.

Capital gains realised by non-Italian resident Securityholders, not having a permanent establishment in Italy to which the Securities qualifying as securitised derivative financial instrument is connected, from the sale or redemption of Securities qualifying as securitised derivative financial instruments issued by an Italian issuer and not traded on regulated markets are not subject to the *imposta sostitutiva*, provided that the actual beneficiary: (i) is resident for income tax purposes in a country included in the White List; or (ii) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (iii) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) is an institutional investor which is resident in a country included in the White List, even if it does not possess the status of a taxpayer in its own country of residence.

If none of the conditions above are met, capital gains realised by non-Italian resident Securityholders from the sale or redemption of Securities qualifying as securitised derivative financial instruments issued by an Italian resident issuer not traded on regulated markets are subject to the *imposta sostitutiva* at the current rate of 26 per cent.

In any event, if the Securities qualifying as securitised derivative financial instruments are issued by an Italian resident issuer, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Securities qualifying as securitised derivative financial instruments are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of Securities are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of Securities.

Capital gains realised by non-Italian resident Securityholders from the sale or redemption of Securities qualifying as securitised derivative financial instruments issued by a non-Italian resident issuer are not subject to Italian taxation, provided that the Securities are held outside Italy or traded on a regulated market.

### **Common provisions for Securities issued by an Italian resident issuers or a non-Italian resident issuer**

#### **Inheritance and gift taxes**

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding, for each beneficiary, EUR 1,000,000;
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree, are subject to an inheritance and gift tax applied at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, EUR 100,000; and

- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (a), (b) and (c) on the value exceeding, for each beneficiary, EUR 1,500,000.

### **Transfer tax**

Following the repeal of the Italian transfer tax, contracts relating to the transfer of Securities are subject to the following registration tax: (i) public deeds and notarised deeds are subject to fixed registration tax at a rate of EUR 200.00; (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

### **Stamp duty**

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("**Decree 201**"), a proportional stamp duty applies on an annual basis to any periodic reporting communications which may be sent by a financial intermediary to a Securityholder in respect of any Securities which may be deposited with such financial intermediary. The stamp duty applies at a rate of 0.2 per cent. and it cannot exceed EUR 14,000, for taxpayers different from individuals. This stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Securities held.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

### **Wealth Tax on Securities deposited abroad**

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the Securities outside the Italian territory are required to pay an additional tax at a rate of 0.2 per cent.

This tax is calculated on the market value of the Securities at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

### **Italian Financial Transaction Tax (IFTT)**

Italian shares and other participating instruments, as well as depository receipts representing those shares and participating instruments irrespective of the relevant issuer, (cumulatively referred to as "**In-Scope Shares**"), received by a holder upon physical settlement of the Securities may be subject to a 0.2 per cent. IFTT calculated on the value of the Securities as determined according to Article 4 of Ministerial Decree of 21 February 2013, as amended (the "**IFTT Decree**").

Holders on derivative transactions or derivative financial instruments and certain equity-linked securities mainly having as underlying or mainly linked to In-Scope Shares are subject to IFTT at a rate ranging between EUR 0.01875 and EUR 200 per counterparty, depending on the notional value of the relevant derivative transaction or derivative financial instruments calculated pursuant to Article 9 of the IFTT Decree. IFTT applies upon subscription, negotiation or modification of the derivative transactions or derivative financial instruments. The tax rate may be reduced to a fifth if the transaction is executed on certain qualifying regulated markets or multilateral trading facilities.

## **NETHERLANDS**

### **General**

The following summary outlines the principal Netherlands tax consequences of the acquisition, holding, settlement, redemption and disposal of the Securities, but does not purport to be a comprehensive description

of all Netherlands tax considerations that may be relevant. For purposes of Netherlands tax law, a Securityholder may include an individual or entity who does not have the legal title of these Securities, but to whom nevertheless the Securities or the income thereof is attributed based on specific statutory provisions or on the basis of such individual or entity having an interest in the Securities or the income thereof. This summary is intended as general information only for Securityholders who are residents or deemed residents of the Netherlands for Netherlands tax purposes. Each prospective investor should consult a professional tax adviser with respect to the tax consequences of the acquisition, holding, settlement, redemption and disposal of the Securities.

This summary is based on tax legislation, published case law, treaties, regulations and published policy, in each case as in force as of the date of this Prospectus, and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Netherlands tax consequences for:

- investment institutions (*fiscale beleggingsinstellingen*);
- pension funds, exempt investment institutions (*vrijgestelde beleggingsinstellingen*) or other entities that are not subject to or exempt from Netherlands corporate income tax;
- Securityholders holding a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in the Issuer and Securityholders of whom a certain related person holds a substantial interest in the Issuer. Generally speaking, a substantial interest in the Issuer arises if a person, alone or, where such person is an individual, together with his or her partner (*statutory defined term*), directly or indirectly, holds or is deemed to hold (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or of 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit sharing rights in the Issuer;
- persons to whom the Securities and the income from the Securities are attributed based on the separated private assets (*afgezonderd particulier vermogen*) provisions of the Netherlands Income Tax Act 2001 (*Wet inkomstenbelasting 2001*) and the Netherlands Gift and Inheritance Tax Act 1956 (*Successiewet 1956*);
- entities which are a resident of Aruba, Curacao or Sint Maarten that have an enterprise which is carried on through a permanent establishment or a permanent representative on Bonaire, Sint Eustatius or Saba; and
- individuals to whom Securities or the income therefrom are attributable to employment activities which are taxed as employment income in the Netherlands.

For the purpose of the Netherlands tax consequences described herein, it is assumed that the Issuer is neither a resident of the Netherlands nor deemed to be a resident of the Netherlands for Netherlands tax purposes.

Where this summary refers to the Netherlands, such reference is restricted to the part of the Kingdom of the Netherlands that is situated in Europe and the legislation applicable in that part of the Kingdom.

### **Netherlands Withholding Tax**

All payments made by the Issuer under the Securities may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

### **Netherlands Corporate and Individual Income Tax**

If a Securityholder is a resident of the Netherlands or deemed to be a resident of the Netherlands for Netherlands corporate income tax purposes and is fully subject to Netherlands corporate income tax or is only subject to Netherlands corporate income tax in respect of an enterprise to which the Securities are attributable,

income derived from the Securities and gains realised upon the redemption, settlement or disposal of the Securities are generally taxable in the Netherlands (at up to a maximum rate of 25 per cent.).

If an individual is a resident of the Netherlands or deemed to be a resident of the Netherlands for Netherlands individual income tax purposes income derived from the Securities and gains realised upon the redemption, settlement or disposal of the Securities are taxable at the progressive rates (at up to a maximum rate of 51.75 per cent.) under the Netherlands Income Tax Act 2001, if:

- the individual is an entrepreneur (*ondernemer*) and has an enterprise to which the Securities are attributable or the individual has, other than as a shareholder, a co-entitlement to the net worth of an enterprise (*medegerechtigde*), to which enterprise the Securities are attributable; or
- such income or gains qualify as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which includes activities with respect to the Securities that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor condition (ii) above applies, an individual that holds the Notes, must determine taxable income with regard to the Notes on the basis of a deemed return on income from savings and investments (*sparen en beleggen*), rather than on the basis of income actually received or gains actually realised. This deemed return on income from savings and investments is fixed at a percentage of the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year (1 January), insofar as the individual's yield basis exceeds a certain threshold (*heffingvrij vermogen*). The individual's yield basis is determined as the fair market value of certain qualifying assets held by the individual less the fair market value of certain qualifying liabilities on 1 January. The fair market value of the Notes will be included as an asset in the individual's yield basis. The deemed return percentage to be applied to the yield basis increases progressively depending on the amount of the yield basis. The deemed return on income from savings and investments is taxed at a rate of 30%.

#### **Netherlands Gift and Inheritance Tax**

Netherlands gift or inheritance taxes will not be levied on the occasion of the transfer of a Security by way of gift by, or on the death of, a Securityholder, unless:

- the Securityholder is, or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions of the Netherlands gift and inheritance tax; or
- the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions of the Netherlands gift and inheritance tax.

#### **Netherlands Value Added Tax**

In general, no value added tax will arise in respect of payments in consideration for the issue of the Securities or in respect of a cash payment made under the Securities, or in respect of a transfer of Securities.

#### **Other Netherlands Taxes and Duties**

No registration tax, customs duty, transfer tax, stamp duty or any other similar documentary tax or duty will be payable in the Netherlands by a Securityholder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of the Securities.

#### **PORTUGAL**

***The following is a summary of the current Portuguese tax treatment at the date hereof in relation to certain aspects of the Portuguese taxation of payments in respect of the Notes. The statements do not deal with other Portuguese tax aspects regarding such Notes and relate only to the position of persons who are absolute beneficial owners of such Notes. The following is a general guide, does not constitute tax or legal advice and should be treated with appropriate caution. The holders of such Notes who are in any doubt as to their tax position should consult their own professional advisers.***

Portuguese tax treatment for Notes issued by Deutsche Bank AG acting through its Portuguese Branch.

#### General tax regime applicable to debt securities

Economic benefits derived from interest, amortisation, reimbursement premiums and other instances of remuneration arising in respect of debt securities are designated as investment income for Portuguese tax purposes. Interest and other types of investment income obtained from debt securities held by a Portuguese resident individual are subject to individual income tax. If payment of interest or other investment income is made available to Portuguese resident individuals, withholding tax applies, as a rule, at a rate of 28 per cent., which is the final tax payable on that income unless the individual elects to include such income in his taxable income (income being subject to tax at progressive rates of up to 48 per cent). An additional income tax rate will be due on the part of the taxable income exceeding EUR 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding EUR 80,000 up to EUR 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding EUR 250,000.

Accrued interest qualifies as interest for tax purposes.

Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply.

Interest and other investment income derived from debt securities obtained on such debt securities by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the income is attributable, are included in the taxable income of such legal persons and are subject to a Portuguese Corporate Income Tax at a rate of (i) 21 per cent. or (ii) if the taxpayer is a small or medium enterprise as established in Decree-Law no. 372/2007 of 6 November 2007, 17 per cent. for taxable profits up to EUR 15,000 and 21 per cent. on profits in excess thereof to which a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of such taxable income may be added. Corporate taxpayers with a taxable income of more than EUR 1,500,000 are also subject to State surcharge (*derrama estadual*) of (i) 3 per cent. on the part of its taxable profits exceeding EUR 1,500,000 up to EUR 7,500,000, (ii) 5 per cent. on the part of the taxable profits that exceeds EUR 7,500,000 up to EUR 35,000,000, and (iii) 9 per cent. on the part of the taxable profits that exceeds EUR 35,000,000.

As a general rule, withholding tax at a rate of 25 per cent. applies on interest and other investment income, any amounts so withheld being deemed to be a payment on account of the final tax due. Financial institutions, pension funds, retirement and/or education savings funds, share savings funds, venture capital funds and collective investment undertakings incorporated under the laws in Portugal and some exempt entities are not subject to Portuguese withholding tax.

Without prejudice to the special debt securities tax regime as described below, the general tax regime on debt securities applicable to non-resident entities is as follows:

As a rule, interest and other types of investment income obtained by non-resident beneficial owners (legal persons) without a Portuguese permanent establishment to which the income is attributable are subject to withholding tax at a rate of 25 per cent., which is the final tax payable on that income.

Also, as a rule, interest payments on the debt securities are subject to a final withholding tax at the current rate of 28 per cent. whenever made to non-resident individual persons.

A withholding tax rate of 35 per cent. applies in case of investment income payments to individuals who are resident in the countries and territories included in the Portuguese "blacklist" (countries and territories listed in Ministerial Order (*Portaria*) no. 150/2004, of 13 February 2004, as amended from time to time. Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified, in which case, the withholding tax rates applicable to such beneficial owner(s) will apply. Under the tax treaties entered into by Portugal, which are in full force and effect on the date of this Prospectus, the withholding tax rate may be reduced to 15, 12, 10 or 5 per cent.,

depending on the applicable treaty and provided that the relevant formalities (including certification of residence by the tax authorities of the jurisdiction of residence of the beneficial owners of the interest and other investment income) are met. The reduction may apply at source or by way of a refund of the excess tax. The forms currently applicable for these purposes are (at the date of this Prospectus) available to download at [www.portaldasfinancas.gov.pt](http://www.portaldasfinancas.gov.pt).

### **Special tax regime applicable to debt securities**

Pursuant to Decree-Law 193/2005, of 7 November 2005 ("**Decree-Law 193/2005**"), as amended from time to time, investment income paid on, as well as capital gains derived from a sale or other disposition of the Notes, to non-Portuguese resident Securityholders will be exempt from Portuguese income tax provided the debt securities are integrated in (i) a centralised system for securities managed by an entity resident for tax purposes in Portugal, or (ii) an international clearing system operated by a managing entity established in a member state of the EU other than Portugal (*e.g.* Euroclear or Clearstream, Luxembourg) or in a European Economic Area Member State provided, in this case, that such State is bound to cooperate with Portugal under an administrative cooperation arrangement in tax matters similar to the exchange of information schemes in relation to tax matters existing within the EU Member States or (iii) integrated in other centralised systems not covered above provided that, in this last case, the Portuguese Government authorises the application of the Decree-Law 193/2005, and the beneficiaries are:

- (i) central banks or governmental agencies; or
- (ii) international bodies recognised by the Portuguese State; or
- (iii) entities resident in countries or jurisdictions with whom Portugal has a double tax treaty in force or a tax information exchange agreement; or
- (iv) other entities without headquarters, effective management or a permanent establishment in the Portuguese territory to which the relevant income is attributable and which are not domiciled in a blacklisted jurisdiction as set out in the Portaria no. 150/2004, as amended.

For purposes of application at source of this tax exemption regime, Decree-Law 193/2005 requires completion of certain procedures and the provision of certain information. Under these procedures (which are aimed at verifying the non-resident status of the Securityholder), the Securityholder is required to hold the Notes through an account with one of the following entities:

- (i) a direct registered entity, which is the entity with which the debt securities accounts that are integrated in the centralised system are opened;
- (ii) an indirect registered entity, which, although not assuming the role of the "direct registered entities", is a client of the latter; or
- (iii) an international clearing system, which is an entity that proceeds, in the international market, to clear, settle or transfer securities which are integrated in centralised systems or in their own registration systems.

### **Internationally Cleared Notes - held through an entity managing an international clearing system**

Pursuant to the requirements set forth in the tax regime, if the Notes are registered in an account held by an international clearing system operated by a managing entity, the latter shall transmit, on each interest payment date and each relevant redemption date, to the direct register entity or to its representative, and with respect to all accounts under its management, the identification and quantity of securities, as well as the amount of income, and, when applicable, the amount of tax withheld, segregated by the following categories of beneficiaries:

- (i) Entities with residence, headquarters, effective management or permanent establishment to which the income would be imputable and which are non-exempt and subject to withholding;

- (ii) Entities which have residence in country, territory or region with a more favourable tax regime, included in the Portuguese "blacklist" (countries and territories listed in Portaria no. 150/2004, of 13 February 2004, as amended from time to time, the Portaria no. 150/2004) and which are non-exempt and subject to withholding;
- (iii) Entities with residence, headquarters, effective management or permanent establishment to which the income would be imputable, and which are exempt or not subject to withholding;
- (iv) Other entities which do not have residence, headquarters, effective management or permanent establishment to which the income generated by the securities would be imputable.

On each interest payment date and each relevant redemption date, the following information with respect to the beneficiaries that fall within the categories mentioned in paragraphs (i), (ii) and (iii) above should also be transmitted:

- (a) Name and address;
- (b) Tax identification number (if applicable);
- (c) Identification and quantity of the securities held; and
- (d) Amount of income generated by the securities.

If the conditions for the exemption to apply are met, but, due to inaccurate or insufficient information, tax was withheld, a special refund procedure is available under the special regime approved by Decree-law 193/2005, as amended from time to time. The refund claim is to be submitted to the direct register entity of the Notes within 6 months from the date the withholding took place. A special tax form for these purposes, and for issuances as from 1 of January 2014 onwards, was approved by Order ("**Despacho**") no. 2937/2014 (2nd series), published in the Portuguese official gazette, second series, n.º 37, of 21 February 2014 issued by the Secretary of State of Tax Affairs and may be available at [www.portaldasfinancas.gov.pt](http://www.portaldasfinancas.gov.pt). The refund of withholding tax after the above six-month period is to be claimed from the Portuguese tax authorities within two years, starting from the term of the year in which the withholding took place.

The absence of evidence of non-residency in respect to any non-resident entity which benefits from the above mentioned tax exemption regime shall result in the loss of the tax exemption and consequent submission to the above applicable.

#### **Portuguese tax treatment of Notes issued by the Issuers (other than Deutsche Bank AG, Portuguese Branch)**

Under current Portuguese law, investment income payments in respect of Notes made to Portuguese tax resident companies are included in their taxable income and are subject to a Portuguese corporate income tax at a rate of (i) 21 per cent. or (ii) if the taxpayer is a small or medium enterprise as established in Decree-Law no. 372/2007, of 6 November 2007, 17 per cent. for taxable profits up to EUR 15,000 and 21 per cent. on profits in excess thereof to which may be added a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. over the Portuguese corporate Securityholders' taxable profits, where applicable. Corporate taxpayers with a taxable income of more than EUR 1,500,000 are also subject to a state surcharge (*derrama estadual*) of (i) 3 per cent. on the part of the taxable profits exceeding EUR 1,500,000 up to EUR 7,500,000, (ii) 5 per cent. on the part of the taxable profits exceeding EUR 7,500,000 up to EUR 35,000,000, and (iii) 9 per cent. on the part of the taxable profits that exceeds EUR 35,000,000.

As regards to investment income on Notes made to Portuguese tax resident individuals, they are subject to personal income tax which shall be withheld at the current final withholding rate of 28 per cent. if there is a Portuguese resident paying agent, unless the individual elects to include it in his taxable income, subject to tax at the current progressive rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding EUR 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding EUR 80,000 up to EUR 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding EUR 250,000.

Investment income payments due by non-resident entities to Portuguese tax resident individuals are subject to an autonomous taxation at a rate of 28 per cent. whenever those payments are not subject to Portuguese withholding tax unless the individual elects to include it in his taxable income, subject to tax at the current progressive rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding EUR 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding EUR 80,000 up to EUR 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding EUR 250,000.

Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified and as a consequence the tax rates applicable to such beneficial owner(s) will apply.

Payments of principal on Notes are not subject to Portuguese withholding tax. For these purposes, "**principal**" shall mean all payments carried out without any income component.

### **Administrative Cooperation in the field of taxation**

The regime under Council Directive 2011/16/EU, as amended by Council Directive 2014/107/EU, of 9 December 2014, introduced the automatic exchange of information in the field of taxation concerning bank accounts and is in accordance with the Global Standard released by the Organization for Economic Co-operation and Development in July 2014 (the "**Common Reporting Standard**"). This regime is generally broader in scope than the Savings Directive, although it does not impose withholding taxes.

Under Council Directive 2014/107/EU, financial institutions are required to report to the Tax Authorities of their respective Member State (for the exchange of information with the State of Residence) information regarding bank accounts, including depository and custodial accounts, held by individual persons residing in a different Member State or entities which are controlled by one or more individual persons residing in a different Member State, after having applied the due diligence rules foreseen in the Council Directive. The information refers not only to personal information but also to the account balance at the end of the calendar year, and (i) in case of depository accounts, income paid or credited in the account during the calendar year; or, (ii) in the case of custodial accounts, the total gross amount of interest, dividends and any other income generated, as well as the proceeds from the sale or redemption of the financial assets paid or credited in the account during the calendar year to which the financial institution acted as custodian, broker, nominee, or otherwise as an agent for the account holder, among others.

Portugal has implemented Directive 2011/16/EU through Decree-law 61/2013, of 10 May. Also, Council Directive 2014/107/EU, of 9 December 2014, regarding the mandatory automatic exchange of information in the field of taxation was implemented into Portuguese law through Decree-Law no. 64/2016, of 11 October 2016, as amended by Law no. 98/2017, of 24 August 2017, and Law no. 17/2019, of 14 February 2019. In addition, information regarding the registration of financial institutions, as well as the procedures to comply with the reporting obligations arising from Decree-Law no. 64/2016, of 11 October 2016, as amended from time to time, and the applicable forms were approved by Ministerial Order (Portaria) no. 302-B/2016, of 2 December 2016, as amended by Ministerial Order (Portaria) no. 282/2018, of 19 October 2018, Ministerial Order (Portaria) no. 302-C/2016, of 2 December 2016, Ministerial Order (Portaria) no. 302-D/2016, of 2 December 2016, as amended by Ministerial Order (Portaria) no. 255/2017, of 14 August 2017, and by Ministerial Order (Portaria) no. 58/2018, of 27 February 2018, and Ministerial Order (Portaria) no. 302-E/2016, of 2 December 2016.

### **FATCA**

Portugal has implemented, through Law 82-B/2014 of 31 December 2014 and Decree-Law 64/2016 of 11 October 2016, as amended by Law 98/2017, of 24 August, and Law no. 17/2019, of 14 February 2019, the legislation based on the reciprocal exchange of information with the United States of America on financial accounts subject to disclosure (the "**Financial Reporting Regime**") in order to comply with Sections 1471 through 1474 of FATCA. Under such legislation the Issuer will be required to obtain information regarding certain accountholders and report such information to the Portuguese tax authorities which, in turn, will report such information to the Inland Revenue Service of the United States of America.

## SINGAPORE

The statements below are general in nature and are based on certain aspects of current tax laws in Singapore, announced budget measures and administrative guidelines issued by the Inland Revenue Authority of Singapore ("IRAS") or the Monetary Authority of Singapore (the "MAS") in force as at the date of this Prospectus and are subject to enactment of such budget measures and to any changes in such laws or administrative guidelines, or the interpretation of those laws or guidelines, occurring after such date, which changes could be made on a retroactive basis.

Neither these statements nor any other statements in this Prospectus should be regarded as advice on the tax position of any holder of the Securities or of any person acquiring, selling or otherwise dealing with the Securities or on any tax implications arising from the acquisition, sale or other dealings in respect of the Securities.

The statements do not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Securities and do not purport to deal with the tax consequences applicable to all categories of investors, some of which (including without limitation a person holding the Financial Sector Incentive tax status) may be subject to special rules or tax rates.

Furthermore, there may be additional taxation issues arising from Securities which are complex structured products which have not been addressed in this section.

Prospective holders of the Securities who are in doubt about their respective tax positions or any such tax implications of the purchase, ownership or transfer of any Securities or who may be subject to tax in a jurisdiction other than Singapore should consult their own professional tax advisers.

### Interest and Other Payments

Subject to the following paragraphs, under Section 12(6) of the Income Tax Act, Chapter 134 of Singapore (the "ITA"), the following payments are deemed to be derived from Singapore:

- (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is:
  - (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore); or
  - (ii) deductible against any income accruing in or derived from Singapore; or
- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Payments falling within paragraphs (a) and (b) above and made by Deutsche Bank AG, Singapore Branch, would fall within Section 12(6) of the ITA.

Unless exempted, such payments, where made to a person not known to the Issuer to be a tax resident in Singapore, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15.0 per cent. final withholding tax described below) to non tax resident persons (other than non-tax-resident individuals) is currently 17.0 per cent. The applicable rate for non-tax-resident individuals is currently 22.0 per cent. However, if the payment is derived by a person who is a non-tax resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15.0 per cent. The rate of 15.0 per cent. may be reduced by applicable tax treaties.

Certain Singapore-sourced investment income derived by individuals from financial instruments is however exempt from tax, including:

- (a) interest from debt securities derived on or after 1 January 2004;
- (b) discount income (not including discount income arising from secondary trading) from debt securities derived on or after 17 February 2006; and
- (c) prepayment fee, redemption premium or break cost from debt securities derived on or after 15 February 2007,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

### **Qualifying debt securities**

Where:

- (i) more than half of a tranche of the Securities which are debt securities (*i.e.* bonds, notes, commercial papers and certificates of deposit) are distributed by persons which are Financial Sector Incentive (Capital Market) Companies or Financial Sector Incentive (Standard Tier) Companies or Financial Sector Incentive (Bond Market) Companies for the purposes of the ITA; and
- (ii) such tranche of Securities are debt securities issued on or before 31 December 2023,

(hereinafter called "**Relevant Securities**"), the Relevant Securities will be "qualifying debt securities" for the purposes of the ITA to which the following treatments apply:

- (a) (in the case of Relevant Securities the payments which fall within Section 12(6) of the ITA) subject to certain prescribed conditions having been fulfilled (including the furnishing of a return on debt securities in respect of the Relevant Securities within a prescribed period to the MAS, and the inclusion by the Issuer in all offering documents relating to the Relevant Securities a statement to the effect that where interest, discount income, prepayment fee, redemption premium or break cost is derived by a person who is not tax resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption shall not apply if the non-tax-resident person acquires Relevant Securities using funds from that person's operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), prepayment fee, redemption premium and break cost (collectively, "**Qualifying Income**") paid by the Issuer and derived from the Relevant Securities by a holder who is not tax resident in Singapore and

- (i) who does not have any permanent establishment in Singapore; or
- (ii) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Securities are not obtained from the operation,

are exempt from Singapore tax;

- (b) subject to certain conditions having been fulfilled (including the furnishing of a return on debt securities in respect of the Relevant Securities within a prescribed period to the MAS), Qualifying Income paid by the Issuer and derived from the Relevant Securities by any company or body of persons (as defined in the ITA), and not being the holder of the Financial Sector Incentive or other special tax status, is subject to tax at a concessionary rate of 10 per cent.;
- (c) (in the case of Relevant Securities the payments which fall within Section 12(6) of the ITA) subject to:

- (i) the Issuer including in all offering documents (including this Prospectus and any relevant Final Terms or Pricing Supplement) relating to Relevant Securities a statement to the effect that any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Relevant Securities is not exempt from tax shall include such income in a return of income made under the ITA; and
- (ii) the furnishing of a return on debt securities in respect of the Relevant Securities within a prescribed period to the MAS,

Qualifying Income derived from the Relevant Securities is not subject to withholding of tax by the Issuer.

However, notwithstanding the foregoing:

- (d) if during the primary launch of Relevant Securities, the Relevant Securities are issued to fewer than four persons and 50.0 per cent. or more of the principal amount of Relevant Securities is beneficially held or funded, directly or indirectly, by related parties of the Issuer, Relevant Securities would not qualify as "qualifying debt securities"; and
- (e) even though Relevant Securities are "qualifying debt securities", if at any time during the tenure of Relevant Securities, 50.0 per cent. or more of the principal amount of Relevant Securities is beneficially held or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income paid by the Issuer and derived from Relevant Securities held by:
  - (i) any related party of the Issuer; or
  - (ii) any other person where the funds used by such person to acquire the Relevant Securities are obtained, directly or indirectly, from any related party of the Issuer,

shall not be eligible for the tax exemption or concessionary tax rate described above.

The term "**related party**", in relation to a person, means any other person who, directly or indirectly, controls that person, or is controlled, directly or indirectly, by that person, or where he and that other person, directly or indirectly, are under the control of a common person.

Notwithstanding that the Issuer may be permitted to make payment of Qualifying Income in respect of Relevant Securities without deduction or withholding for tax under Section 45 or Section 45A of the ITA, any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from Relevant Securities is not exempt from tax is required to include such income in a return of income made under the ITA.

The terms "break cost", "prepayment fee" and "redemption premium" are defined in the ITA as follows:

**"Break Cost"** means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by any loss or liability incurred by the holder of the securities in connection with such redemption;

**"Prepayment Fee"** means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by the terms of the issuance of the securities; and

**"Redemption Premium"** means any premium payable by the issuer of the securities on the redemption of the securities upon their maturity.

References to "break cost", "prepayment fee" and "redemption premium" in this Singapore tax section have the same meaning as defined in the ITA.

There is no assurance that Securities to be issued from time to time under the Programme will enjoy the tax concessions under the QDS Scheme. Holders of the Securities should consult their own professional tax advisers if they are in any doubt as to the treatment under the QDS Scheme.

### **Withholding tax exemption for Section 12(6) payments by banks**

Payments falling within Section 12(6) of the ITA and made by (amongst certain other persons) licensed banks in Singapore to persons who are non-Singapore tax-residents (other than permanent establishments in Singapore):

- (a) between 1 April 2011 and 31 March 2021; or
- (b) on a contract which takes effect between 1 April 2011 and 31 March 2021,

will be exempt from tax, provided the payments are made for the purposes of the licensed bank's business in Singapore and the payments do not arise from a transaction to which the general anti-avoidance provisions in Section 33 of the ITA applies.

With effect from 17 February 2012, (amongst certain other persons) licensed banks are no longer required to withhold tax on payments falling within Section 12(6) of the ITA which they are liable to make to permanent establishments in Singapore of a non-resident person:

- (a) between 17 February 2012 and 31 March 2021 on contracts that take effect before 17 February 2012; and
- (b) on or after 17 February 2012 on contracts that take effect between 17 February 2012 to 31 March 2021.

With effect from 21 February 2014, the expiry date of 31 March 2021 referred to in the immediately preceding paragraph does not apply to payments to Singapore branches of non-resident persons as the requirement to withhold tax from payments to Singapore branches has been lifted.

Notwithstanding the preceding paragraph, permanent establishments in Singapore of a non-resident person are required to declare such payments in their annual income tax returns and will be assessed to tax on such payments (unless specifically exempt from tax).

### **Capital Gains**

Singapore imposes a tax on income but does not impose tax on gains that are considered capital in nature. There are no specific statutes or regulations which deal with the characterisation of whether a gain is income or capital and the question of whether a gain from the disposal of Securities is income or capital is a question of fact dependent on the holder's specific circumstances.

Any gains considered to be in the nature of capital made from the sale of the Securities will not be taxable in Singapore. However, any gains from the sale of the Securities which are gains from any trade, business, profession or vocation carried on by that person, if accruing in or derived from Singapore, may be taxable as such gains are considered revenue in nature.

Holders of the Securities who apply or are required to apply Singapore Financial Reporting Standard 39 ("**FRS 39**"), Singapore Financial Reporting Standard 109 ("**FRS 109**") or Singapore Financial Reporting Standard (International) 9 (Financial Instruments) ("**SFRS(I) 9**") (as the case may be) may for Singapore income tax purposes, be required to recognise gains or losses (not being gains or losses in the nature of capital) on the Securities, irrespective of disposal, in accordance with FRS 39, FRS 109 or SFRS(I) 9 (as the case may be). Please see the section below on "Adoption of FRS 39, FRS 109 or SFRS(I) 9 for Singapore income tax purposes".

Holders of the Securities should consult their own professional tax advisers if they are in any doubt as to the treatment that would be applicable to them.

## **Adoption of FRS 39, FRS 109 or SFRS(I) 9 for Singapore income tax purposes**

Subject to certain "opt-out" provisions, Section 34A of the ITA requires taxpayers who adopt or are required to adopt FRS 39 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 39, subject to certain exceptions provided in that section. The IRAS has also issued a circular entitled "Income Tax Implications Arising from the Adoption of FRS 39 – Financial Instruments: Recognition and Measurement" to provide guidance on the Singapore income tax treatment of financial instruments.

FRS 109 or SFRS(I) 9 (as the case may be) is mandatorily effective for annual periods beginning on or after 1 January 2018, replacing FRS 39. Section 34AA of the ITA requires taxpayers who adopt or who are required to adopt FRS 109 or SFRS(I) 9 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 109 or SFRS(I) 9 (as the case may be), subject to certain exceptions provided in that section. The IRAS has also issued a circular entitled "Income Tax: Income Tax Treatment Arising from Adoption of FRS 109 – Financial Instruments".

Holders of the Securities who may be subject to the tax treatment under the FRS 39 tax regime, FRS 109 tax regime or the SFRS(I) 9 tax regime should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Securities.

## **Goods and Services Tax**

Under the Goods and Services Tax Act, Chapter 117A of Singapore (the "**GST Act**"), the following are examples of exempt supplies not subject to Goods and Services Tax ("**GST**") under the Fourth Schedule to the GST Act:-

- (a) the issue, allotment, transfer of ownership, drawing, acceptance or endorsements of a debt security (*i.e.* any interest in or right to be paid money that is, or is to be, owing by any person or any option to acquire any such interest or right but excludes a contract of insurance and an estate or interest in land, other than an estate or interest as mortgagee or chargeholder); or
- (b) the renewal or variation of an equity security or debt security.

Holders of the Securities should consult their own professional tax advisers regarding the Singapore GST consequences of their acquisition, holding, conversion or disposal of the Securities.

## **Stamp Duty**

Stamp duty is generally not imposed on the issue or redemption for cash of Securities. Where an instrument of transfer of stocks or shares (including funded debt) is executed in Singapore, or is executed outside Singapore but is brought into Singapore, the instrument would be subject to stamp duty of up to 0.2 per cent. of the amount or value of the consideration, or the value of the stocks or shares sold or transferred, whichever is higher. Transfers of securities on a scripless basis through the Central Depository (Pte) Limited are not subject to stamp duty. Transfers of stocks or shares by way of sale or gift of any stock issued by a company, corporation or body of persons incorporated, formed or established outside Singapore (other than stock registered in register kept in Singapore) are also exempt from stamp duty. Special rules apply to certain contracts or agreements for the sale of, or instruments of transfer of, equity interests in entities whose assets include significant Singapore residential property interests. A detailed description of these rules is beyond the scope of this tax section.

Holders of the Securities should consult their own professional tax advisers in respect of the Singapore stamp duty treatment of the issue, transfer or settlement of Securities, particularly where the Securities are capable of settlement by physical delivery.

## **SPAIN**

***The following is a summary of current Spanish law and practice relating to the withholding tax treatment of the Securities. The statements herein regarding Spanish taxes and withholding taxes in***

*Spain are based on the laws in force as well as administrative interpretations thereof in Spain as at the date of this Prospectus (without prejudice of regional tax regimes in the Historical Territories of the Basque Country and the Community of Navarre or provisions passed by Autonomous Communities which may apply to investors for certain taxes) and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective holders or beneficial owners of the Securities are advised to consult their own tax advisers concerning the overall tax consequences of their ownership and disposition of the Securities.*

## **Tax Treatment of Securities Issued by Entities Other Than Deutsche Bank AG, Sucursal en España**

### **Spanish Withholding Tax**

Where Securities are issued by an Issuer which is not a Spanish tax resident entity and does not have a permanent establishment in Spain to which the issue of the Securities other than Spanish Securities ("**Spanish Securities**") means Securities issued through the Issuer's Spanish branch, *i.e.* Deutsche Bank AG, Sucursal en España) is connected, the Issuer should not be obliged to deduct withholdings on account of Spanish income taxes.

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depositary of the Securities other than Spanish Securities or intervenes as manager on the collection of any income under the Securities other than Spanish Securities (acting in such role, a "**Relevant Financial Institution**"), such Relevant Financial Institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Securities other than Spanish Securities. In this respect, income deriving from Securities other than Spanish Securities will include not only interest payments but also income arising from the disposal, redemption or reimbursement of the Securities other than Spanish Securities.

The current withholding tax in Spain is 19 per cent. Amounts withheld in Spain, if any, can be credited against the final Spanish Personal Income Tax liability, in the case of Spanish resident individuals, or against Spanish final Corporate Income Tax liability, in the case of Spanish corporates, or against final Non-Resident Income Tax, in the case of Spanish permanent establishments of non-resident entities.

However, holders of the Securities other than Spanish Securities who are Corporate Income Taxpayers or Non-Resident Income Taxpayers acting through a Spanish permanent establishment can benefit from a withholding tax exemption when the Securities other than Spanish Securities are admitted to trading on an organised stock exchange in an OECD state (the "**OECD Exemption**").

Similarly, when the Securities other than Spanish Securities (i) are represented in book-entry form and (ii) are admitted to trading on a Spanish secondary stock exchange or on the Alternative Fixed-Income Securities Market, holders who are Corporate Income Taxpayers, or Non-Resident Income Taxpayers acting through a permanent establishment in Spain to which the Securities other than Spanish Securities are attributable, can benefit from a withholding tax exemption (the "**Domestic Exemption**").

Additionally, when the Securities other than Spanish Securities (i) are represented in book-entry form, (ii) are admitted to trading on a Spanish secondary stock exchange and (iii) generate explicit yield, holders who are Personal Income Taxpayers can benefit from a withholding tax exemption in respect of the income arising from the transfer or repayment of the Securities other than Spanish Securities. However, under certain circumstances, when a transfer of the Notes has occurred within the 30-day period immediately preceding any relevant coupon payment date such holders may not be eligible for such withholding tax exemption.

Notwithstanding the above, Spanish resident individuals earning income under the Securities will still be subject to Spanish Personal Income Tax – to be declared in their annual tax returns together with any other financial income – according to the following rates: 19 per cent. for financial income up to EUR 6,000; 21 per cent. for financial income between EUR 6,000.01 and EUR 50,000; and 23 per cent. for financial income in excess of

EUR 50,000. Similarly, Spanish corporates earning such income will be subject to Spanish Corporate Income Tax to be declared in their annual tax returns. The general tax rate for Spanish Corporate Income Taxpayers is currently 25 per cent. This general rate will not be applicable to all Spanish Corporate Income Taxpayers and, for instance, it will not apply to banking institutions (which will be taxed at the rate of 30 per cent). Likewise, special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

Finally, tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Securities other than Spanish Securities by Spanish resident individuals, Spanish corporates or Spanish permanent establishments of non-resident entities investing in the Securities.

### **Tax Treatment of Securities Issued by Deutsche Bank AG, Sucursal en España**

#### **Indirect Taxes**

Whatever the nature and residence of the investor, the acquisition and transfer of the Spanish Securities will be exempt from indirect taxes in Spain, *i.e.* exempt from Transfer Tax and Stamp Duty and exempt from Value Added Tax.

#### **Direct Taxes**

##### *Personal Income Tax - Individuals with tax residence in Spain*

Withholding tax will apply at the applicable rate (currently 19 per cent.) in respect of interest payments made under the Spanish Securities. In addition, income obtained upon transfer, redemption or repayment of the Spanish Securities may also be subject to Personal Income Tax withholdings. Notwithstanding this, when the Spanish Securities (i) are represented in book-entry form, (ii) are admitted to trading on a Spanish secondary stock exchange and (iii) generate explicit yield, holders can benefit from a withholding tax exemption in respect of the income arising from the transfer or repayment of the Spanish Securities. However, under certain circumstances, when a transfer of Spanish Securities has occurred within the 30-day period immediately preceding any relevant coupon payment date such holders may not be eligible for such withholding tax exemption.

In any event, holders who are resident for tax purposes in Spain may credit any Spanish withholding tax suffered on income obtained under the Spanish Securities against their final Personal Income Tax liability for the relevant fiscal year.

Either (a) Deutsche Bank AG, Sucursal en España or (b) Relevant Financial institutions (either resident in Spain or acting through a permanent establishment in Spain), acting as depositary of the Spanish Securities or intervening as manager in the collection of any income under the Spanish Securities will be responsible for making the relevant withholding (if any) on account of Spanish tax on any income deriving from the Spanish Securities, as well as may become obliged to comply with the formalities set out in the regulations developing the Law on Spanish Personal Income Tax.

Notwithstanding the above, Spanish resident individuals earning income under the Spanish Securities will still be subject to Spanish Personal Income Tax – to be declared in their annual tax returns together with any other financial income – according to the following rates: 19 per cent. for financial income up to EUR 6,000; 21 per cent. for financial income between EUR 6,000.01 and EUR 50,000; and 23 per cent. for financial income in excess of EUR 50,000.

##### *Corporate Income Tax - Legal Entities with tax residence in Spain*

Any income arising from the Spanish Securities is, as a general rule, subject to withholding tax at the applicable rate (currently 19 per cent.). However, in accordance with Section 61(s) of regulations developing the Law on Corporate Income Tax, Spanish Corporate Income Taxpayers (which for the sake of clarity, include Spanish tax resident funds and Spanish tax resident pension funds) can also benefit from the OECD Exemption.

The Spanish Directorate General of Taxes (*Dirección General de Tributos*) issued a ruling dated 27 July 2004 in which it determined that securities, such as the Spanish Securities, issued in Spain may benefit from the OECD

Exemption if the relevant securities are both admitted to trading on an organised stock exchange in an OECD state and placed in an OECD State other than Spain. Where this requirement is not met, the Issuer will be required to make the corresponding withholdings.

Additionally, in accordance with Section 61(q) of regulations developing the Law on Corporate Income Tax, Spanish Corporate Income Taxpayers (which for the sake of clarity, include Spanish tax resident funds and Spanish tax resident pension funds) can also benefit from the Domestic Exemption.

Notwithstanding the above, amounts withheld (if any) may be credited by the relevant holders of Spanish Securities against their final Corporate Income Tax liability.

Either (a) Deutsche Bank AG, Sucursal en España or (b) Relevant Financial institutions (either resident in Spain or acting through a permanent establishment in Spain), acting as depositary of the Spanish Securities or intervening as manager in the collection of any income under the Spanish Securities will be responsible for making the relevant withholding (if any) on account of Spanish tax on any income deriving from the Spanish Securities, as well as may become obliged to comply with the formalities set out in the regulations developing the Law on Corporate Income Tax.

Spanish corporates earning such income will still be subject to Spanish Corporate Income Tax to be declared in their annual tax returns. The general tax rate for Spanish Corporate Income Taxpayers is currently 25 per cent. This general rate will not be applicable to all Spanish Corporate Income Taxpayers and, for instance, it will not apply to banking institutions (which will be taxed at the rate of 30 per cent). Likewise, special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

*Non-Resident Income Tax – Non-Spanish Tax Resident Investors acting through a Permanent Establishment in Spain - Individuals and Legal Entities with no tax residence in Spain*

Ownership of the Spanish Securities by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

If the Spanish Securities form part of the assets of a permanent establishment in Spain of a person or legal entity who is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Spanish Securities are, generally, the same as those previously set out for Spanish Corporate Income Taxpayers. See the section entitled "*Corporate Income Tax - Legal Entities with tax residence in Spain*"

*Non-Resident Income Tax — Non-Spanish Tax Resident Investors not acting through a Permanent Establishment in Spain – Individuals and Legal Entities with no tax residence in Spain*

Interest and other income deriving from the Spanish Securities will be tax exempt in Spain and exempt from Spanish withholding tax when obtained by persons who are resident for tax purposes in a Member State of the European Union (other than Spain) or by a permanent establishment of such persons situated in another Member State of the European Union (other than Spain), provided that such income is not obtained through a country or territory regarded as a tax haven (pursuant to Royal Decree 1080/1991 of 5 July 1991 or any other Law amending or supplementing this) and provided further that any such person provides the Issuer with a certificate of tax residence issued by the competent authorities of their jurisdiction of residence prior to the date on which any relevant payment is made or becomes due. Such certificate is valid for a one-year period.

Holders of Spanish Securities who are resident for tax purposes in a jurisdiction which has ratified a Treaty for the avoidance of Double Taxation with Spain (the "**DTT**") will be subject to Non-Resident Income Tax and Spanish withholding tax on income obtained from the Spanish Securities at the reduced rates (or subject to any exemption) set out in the DTT, if any. Such holders will have to evidence their tax residence by delivering to the Issuer, prior to the date on which any relevant payment is made or becomes due, a tax residence certificate within the meaning of the applicable DTT issued by the competent authorities of their jurisdiction of residence or, as the case may be, the equivalent document set out in the order which further develops the applicable DTT. Such certificate of tax residence is valid for a one-year period.

The Issuer will withhold from any interest payment and any income arising from the repayment of the Spanish Securities at the general rate applicable from time to time, which is currently 19 per cent., or at the reduced rate set out in the applicable DTT, unless the application of a tax exemption is evidenced, as described above.

Notwithstanding the above, these holders will be tax exempt in Spain on any income arising from the transfer of the Spanish Securities on a Spanish official secondary stock exchange, provided that they are resident in a jurisdiction which has ratified a DTT with Spain containing an exchange of information clause.

## **SWEDEN**

***The following summary outlines certain Swedish tax consequences relating to holders of Securities. The summary is based on the laws of Sweden as currently in effect and is intended to provide general information only. It does not purport to be a comprehensive description of all tax considerations that may be relevant to a prospective holder of Securities. The summary does not address, inter alia, situations where Securities are held in an investment savings account (Sw. investeringssparkonto), the tax consequences in connection with a competent resolution authority's exercise of the Bail-in tool and/or any other tools and/or powers under the BRRD or write down of Securities, the tax consequences following variation or substitution (instead of redemption) of Securities or the rules regarding reporting obligations for, among others, payers of interest. Further, the summary does not address credit of foreign taxes. Investors should consult their professional tax advisers regarding the Swedish tax and other tax consequences (including the applicability and effect of tax treaties for the avoidance of double taxation) of acquiring, owning and disposing of Securities in their particular circumstances.***

### **Holders not resident in Sweden**

Broadly speaking, provided that the value of or the return on the Securities relates to securities taxed as shares, private individuals who have been residents of Sweden for tax purposes due to a habitual abode in Sweden or a stay in Sweden for six consecutive months at any time during the calendar year of disposal or redemption or the ten calendar years preceding the year of disposal or redemption are liable for capital gains taxation in Sweden upon disposal or redemption of such Securities. In a number of cases though, the applicability of this rule is limited by the applicable tax treaty for the avoidance of double taxation.

### **Holders resident in Sweden**

In general, for Swedish corporations and private individuals (and estates of deceased individuals) with residence in Sweden for Swedish tax purposes, all capital income (for example income that is considered to be interest for Swedish tax purposes and capital gains on Securities) will be taxable. Specific tax consequences may be applicable to certain categories of corporations, for example life insurance companies. Moreover, specific tax consequences may be applicable if, and to the extent that, a holder of Securities realises a capital loss on the Securities and to any currency exchange gains or losses.

If amounts that are deemed as interest for Swedish tax purposes are paid by a legal entity domiciled in Sweden, including a Swedish branch, or in certain cases a clearing institution within the EEA, to a private individual (or an estate of a deceased individual) with residence in Sweden for Swedish tax purposes, Swedish preliminary taxes are normally withheld by the legal entity on such payments. Swedish preliminary taxes should normally also be withheld on other return on Securities (but not capital gains), if the return is paid out together with such a payment of interest referred to above.

The discussion is based on legislation as of the date of this Prospectus. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in Securities. ## **Swiss Withholding Tax**

Payments on a Security are currently not subject to Swiss federal withholding tax provided that the respective Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

On November 4, 2015 the Swiss Federal Council announced a mandate to the Swiss Federal Finance Department to institute a group of experts tasked with the preparation of a new proposal for a reform of the Swiss withholding tax system. The new proposal is expected to include in respect of interest payments the replacement of the existing debtor-based regime by a paying agent-based regime for Swiss withholding tax similar to the one published on December 17, 2014 by the Swiss Federal Council and repealed on June 24, 2015 following the negative outcome of the legislative consultation with Swiss official and private bodies. Further, on 23 October 2017, the Swiss Federal Economic Affairs and Taxation Committee of the Swiss National Council filed a parliamentary initiative reintroducing the request to replace the current debtor-based regime applicable to interest payments with a paying agent-based system for Swiss withholding tax. Under such a new paying agent-based regime, if enacted, a paying agent in Switzerland may be required to deduct Swiss withholding tax on any payments or any securing of payments of interest in respect of a Security for the benefit of the beneficial owner of the payment unless certain procedures are complied with to establish that the owner of the Security is not an individual resident in Switzerland.

## **Income Taxation**

Securities held as Private Assets by a Swiss resident holder

### *Structured Notes*

If a Security classifies as a structured note, its income taxation depends on whether the bond and the derivative financial instrument(s) embedded therein are recorded separately from each other and whether the Security is classified as a structured note with or without a predominant one-time interest payment (a structured note is classified as a note with a predominant one-time interest payment if the one-time interest payment exceeds the sum of the periodic interest payments):

*Non-transparent derivative financial instruments:* If the bond is not recorded separately from the embedded derivative financial instrument(s), the Security is classified as non-transparent structured note and any return over the initial investment is classified as a taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment and are taxed in accordance with the principles set forth below under "*Transparent derivative financial instruments with a predominant one-time interest payment*".

*Transparent derivative financial instruments without a predominant one-time interest payment:* If the bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment (see below "*Transparent derivative financial instruments with a predominant one-time interest payment*"), then any such periodic interest payment and the non-predominant one-time interest payment, if any, is taxed when paid to the holder of the Security. A gain, including interest accrued, a loss, respectively, realised on the sale of a Security is a tax-free private capital gain, a non-tax deductible private capital loss, respectively (see below "*Capital Gains, Securities held as Private Assets by a Swiss resident holder*"). The same applies if the Security is redeemed except that interest accrued is taxed when paid.

*Transparent derivative financial instruments with a predominant one-time interest payment:* If the bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments, then any periodic interest payments and on the sale or redemption of the Security, the difference between the value of the bond at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, converted, in each case, into Swiss

Francs at the exchange rate prevailing at the time of redemption or sale, issuance or purchase, respectively (modified differential taxation method) constitutes taxable income. A value decrease on the bond respectively realised on the sale or redemption of the Security may be offset against any gains (including periodic interest payments) realised within the same taxation period from all instruments with a predominant one-time interest payment. Any residual return realised on the embedded derivative financial instrument(s) is a tax-free private capital gain, and any residual loss is a non-tax deductible private capital loss, respectively (see below "*Capital Gains, Securities held as Private Assets by a Swiss resident holder*").

#### *Bonds*

*Bonds without a predominant one-time interest payment:* If a Security is classified as a pure bond without a predominant one-time interest payment (the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment), Swiss resident private investors will be taxed on the periodic and any one-time interest payments, if any, converted into Swiss Francs at the exchange rate prevailing at the time of payment. A gain, including interest accrued, a loss, respectively, realised on the sale of a Security is a tax-free private capital gain, a non-tax deductible private capital loss, respectively (see below "*Capital Gains, Securities held as Private Assets by a Swiss resident holder*").

*Bonds with a predominant one-time interest payment:* If a Security is classified as a pure bond with a predominant one-time interest payment (the yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments), Swiss resident private investors will be taxed on any periodic interest payments and on any gains, including capital and foreign exchange gains, realised on the Securities (differential taxation method).

#### *Pure Derivative Financial Securities*

Periodic and one-time dividend equalisation payments realised on a Security which is classified as a pure derivative financial instrument (such as pure call and put options, including low exercise price options with a maturity not exceeding one year, pure futures, static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) and which is held as part of a holder's private assets constitute taxable investment income. Any other return will be classified as a tax exempt capital gain or a non-tax deductible capital loss (see below "*Capital Gains, Securities held as Private Assets by a Swiss resident holder*").

#### *Low Exercise Price Options*

According to the current practice of the Swiss Federal Tax Administration low exercise price options are given if the underlying of an option has been pre-financed by at least 50 per cent. at the time of issuance.

For low exercise price options with a maturity exceeding one year the interest component of the low exercise price option (*i.e.* issue discount) constitutes taxable investment income. Any other return will be classified as a tax exempt capital gain or a non-tax deductible capital loss (see below "*Capital Gains, Securities held as Private Assets by a Swiss resident holder*").

#### *Fund-like Securities*

A Security classified as a fund-like instrument will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income (less attributable costs) from, and capital gains and losses (less costs attributable) realised on, the underlying investments, are reported and distributed separately. Under such conditions, an individual holding a fund-like Security as part of private assets only receives taxable income (which he or she must report annually) over such portion of the distributions (in case the fund is distributing the income realised on the underlying investments) or earnings credits (in case the fund is reinvesting the income realised on the underlying investment) as derive from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain and any respective loss on the underlying investments is a non-tax deductible private capital loss. Any gain realised within a taxation period on the sale of a fund-like instrument (including accrued dividends and interest) is exempt from income taxation as a private capital gain,

and, conversely, any loss realised a non-tax deductible capital loss (see below "*—Capital Gains, Securities held as Private Assets by a Swiss resident holder*").

#### Securities held as Assets of a Swiss Business

Corporate entities and individuals who hold Securities as part of a trade or business in Switzerland, in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland, are required to recognise any payments on, and any capital gains or losses realised on the sale or redemption of, such Securities (irrespective of their classification) in their income statement for the respective taxation period and will be taxed on any net taxable earnings for such period.

The same taxation treatment also applies to Swiss-resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities.

### Capital Gains Taxation

#### Securities held as Private Assets by a Swiss resident Holder

A gain, a loss, respectively, realised by an individual resident in Switzerland for tax purposes upon the sale or other disposal of a Security held as part of his or her private assets is a tax-free private capital gain, a non-tax deductible capital loss, respectively, unless such individual is classified, for income tax purposes, as a "professional securities dealer" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities. If an individual is classified as a "professional securities dealer" he or she will be taxed in accordance with the principles set forth above under "*—Securities held as Assets of a Swiss Business*". In relation to the bifurcation of a taxexempt capital gains component, non-tax deductible capital loss component, respectively, from taxable income components of a Security, see the bifurcation principles set forth above with regard to the different instruments under "*—Income Taxation, Securities held as Private Assets by a Swiss resident holder*").

#### Securities held as Assets of a Swiss Business

Capital gains realised on Securities held as Assets of a Swiss Business are taxed in accordance with the taxation principles set forth above under "*—Income Taxation, Securities held as Swiss Business Assets*").

### Stamp Taxes

#### Swiss Federal Issue Stamp Tax

The Securities are not subject to Swiss federal stamp tax on the issuance of securities.

#### Swiss Federal Securities Turnover Tax

Dealings in Securities which are classified as pure derivative financial instruments (such as pure call and put options, including low exercise price options with a maturity not exceeding twelve months, pure futures with a maximal pre-financing of 25 per cent., static certificates replicating an index or a basket of at least five shares and with a fixed maturity on an annual redemption right) are not subject to the Swiss federal securities turnover tax.

Dealings in Securities which have been issued by an issuer outside of Switzerland and which are classified as structured notes, share-like instruments (including low exercise price warrants on shares with a maturity exceeding twelve months) or fund-like instruments are subject to Swiss federal securities turnover tax of 0.3 per cent. on the consideration paid, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or intermediary to the transaction and no exemption applies.

Dealing in bonds and structured notes with a maturity not exceeding one year are exempt from Swiss federal turnover tax.

The delivery of an underlying taxable security at exercise or redemption to the holder of the Security is subject to Swiss federal securities turnover tax of 0.3 per cent. if a Swiss domestic securities dealer (as defined in the Swiss federal stamp tax act) is a party or intermediary to the transaction and no exemption applies.

### **Gift, Inheritance and Estate Taxes**

Subject to an applicable tax treaty in an international scenario, transfers of Securities may be subject to cantonal and/or communal inheritance tax, estate tax or gift tax if the deceased person has had his or her last domicile in Switzerland, the donor is resident in Switzerland, respectively, or in the case of a foreign deceased or resident person the transfer involves an unincorporated business in Switzerland and Securities are held as part of such business. No such taxes exist at the federal level. Rates depend upon the existing relationship (*i.e.* the relationship between the deceased and the heirs, or between the donor and the donee) and the size of the inheritance or gift. Interspousal gifts and gifts to descendants and inheritances collected by the surviving spouse and descendants are frequently exempt or taxed at very low rates (up to 6 per cent.). Gifts and inheritances received from unrelated persons attract rates ranging from 20 per cent. to 40 per cent. The taxable base is usually the market value of the property transferred.

### **Net Worth and Capital Taxes**

A holder of Securities who is an individual resident in Switzerland for tax purposes or is a non-Swiss resident holding Securities as part of a Swiss business operation or a Swiss permanent establishment is required to report Securities as part of private wealth or as part of Swiss business assets, as the case may be, and is subject to annual cantonal and/or communal private wealth tax on any net taxable wealth (including the Securities), in the case of non-Swiss resident individual holding Securities as part of a Swiss business operation or a Swiss permanent establishment to the extent the aggregate taxable wealth is allocable to Switzerland. Incorporated holders of Securities are subject to cantonal and communal capital tax on net taxable equity, in the case of non-Swiss resident person holding Securities as part of a Swiss permanent establishment, to the extent the aggregate taxable equity is allocable to Switzerland. No net worth and capital taxes exist at the federal level.

### **Non-Swiss resident holders**

A holder of a Security who is not resident in Switzerland for tax purposes and who during the taxation year has not engaged in trade or business carried on through a business operation or permanent establishment in Switzerland, will neither be subject to income tax and capital gains tax nor net wealth or capital tax in Switzerland.

### **Automatic Exchange of Information in Tax Matters**

On November 19, 2014, Switzerland signed the Multilateral Competent Authority Agreement (the "**MCAA**"). The MCAA is based on article 6 of the OECD/Council of Europe administrative assistance convention and is intended to ensure the uniform implementation of Automatic Exchange of Information (the "**AEOI**"). The Federal Act on the International Automatic Exchange of Information in Tax Matters (the "**AEOI Act**") entered into force on January 1, 2017. The AEOI Act is the legal basis for the implementation of the AEOI standard in Switzerland.

The AEOI is being introduced in Switzerland through bilateral agreements or multilateral agreements. The agreements have, and will be, concluded on the basis of guaranteed reciprocity, compliance with the principle of speciality (*i.e.* the information exchanged may only be used to assess and levy taxes (and for criminal tax proceedings)) and adequate data protection.

Switzerland has concluded a multilateral AEOI agreement with the EU (replacing the EU savings tax agreement) and has concluded bilateral AEOI agreements with several non-EU countries.

Based on such multilateral agreements and bilateral agreements and the implementing laws of Switzerland, Switzerland began to collect data in respect of financial assets, including, as the case may be, Warrants, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in a EU member state or in a treaty state.

## **Swiss Facilitation of the Implementation of the U.S. Foreign Account Tax Compliance Act**

Switzerland has concluded an intergovernmental agreement with the U.S. to facilitate the implementation of FATCA. The agreement ensures that the accounts held by U.S. persons with Swiss financial institutions are disclosed to the U.S. tax authorities either with the consent of the account holder or by means of group requests within the scope of administrative assistance. Information will not be transferred automatically in the absence of consent, and instead will be exchanged only within the scope of administrative assistance on the basis of the double taxation agreement between the U.S. and Switzerland.

## **UNITED KINGDOM**

***The following information does not purport to be a complete summary of the tax law and practice currently applicable in the United Kingdom. The following applies only to persons who are the beneficial owners of Securities and is a summary of the Issuer's understanding of current United Kingdom law and published HM Revenue & Customs' practice relating to the United Kingdom withholding tax treatment of payments of interest in respect of Securities. It does not deal with any of the United Kingdom taxation implications of acquiring, holding or disposing of Securities. The United Kingdom tax treatment of Prospective Securityholders depends on their individual circumstances and may be subject to change in the future. Prospective Securityholders who are in any doubt as to their tax position or who may be subject to tax in a jurisdiction other than the United Kingdom should seek their own professional advice.***

### **Securities issued otherwise than through the Issuer's London branch**

Payments of interest on the Securities which do not have a United Kingdom source may be made without deduction of or withholding on account of United Kingdom income tax.

### **Payment of interest on the Securities issued by the Issuer's London branch**

- The Issuer, provided that it is and continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 (the "**Act**"), and provided that the interest on the Securities is and continues to be paid in the ordinary course of its business within the meaning of section 878 of the Act, will be entitled to make payments of interest without withholding or deduction for or on account of United Kingdom income tax.
- Payments of interest on the Securities may be made without deduction of or withholding on account of United Kingdom income tax provided that the Securities carry a right to interest and the Securities are and continue to be listed on a "recognised stock exchange", as defined in section 1005 of the Act. The Luxembourg Stock Exchange is a recognised stock exchange. Under published HM Revenue & Customs guidance, the Securities will satisfy this requirement if they are listed by the competent authority in Luxembourg and are admitted to trading on the Main Market of the Luxembourg Stock Exchange. Provided, therefore, that the Securities remain so listed on a "recognized stock exchange", interest on the Securities will be payable without deduction on account of United Kingdom tax whether or not the Issuer is a bank and whether or not the interest is paid in the ordinary course of its business.
- Interest on the Securities may also be paid without deduction of or withholding on account of United Kingdom tax where the maturity of the Securities is less than 365 days and the Securities do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Securities that has a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.), subject to other available exemptions and reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HM Revenue & Customs can issue a notice to the Issuer to pay interest to the Securityholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

The references above to "interest" mean "interest" as such term is understood in United Kingdom tax law. If any of the payments under the Securities are treated as manufactured payments or annual payments, the treatment of such payments may differ from the treatment described above. If Securityholders are in any doubt as to their tax position they should consult their professional advisers.

## UNITED STATES

### United States Federal Income Taxation

This discussion does not discuss all aspects of United States federal income taxation that may be relevant to non-U.S. Holders (as defined below) in light of their particular circumstances or to non-U.S. Holders subject to special rules under the United States federal income tax laws, such as financial institutions, real estate investment trusts, insurance companies, dealers in securities, persons holding Securities in connection with a hedging, "straddle", integrated or conversion transaction, persons who own an interest in a partnership or other pass-through entity, former citizens or long-term residents of the United States or tax-exempt organizations.

The discussion below only addresses persons that are neither U.S. Holders nor partnerships ("**Non-U.S. Holders**"). The U.S. federal income tax treatment of a partner in a partnership that holds Securities will depend on the status of the partner and the activities of the partnership. Investors that are partnerships should consult their tax adviser concerning the U.S. federal income tax consequences to their partners of the acquisition, ownership and disposition of Securities by the partnership. As used herein, the term "**U.S. Holder**" means a beneficial owner of Securities that is (i) a citizen or resident of the United States for U.S. federal income tax purposes, (ii) a corporation, or other entity treated as a corporation, created or organised under the laws of the United States or any political subdivision thereof, (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source or (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or the trust has elected to be treated as a domestic trust for U.S. federal income tax purposes.

This summary is based on the Internal Revenue Code of 1986, as amended (the "**Code**"), existing administrative pronouncements and judicial decisions, Treasury regulations currently in effect, and interpretations of the foregoing, changes to any of which subsequent to the date of this Prospectus may affect the tax consequences described herein, possibly with retroactive effect. This summary assumes that Securities issued by Deutsche Bank AG, New York Branch will be treated as debt for U.S. federal income taxes purposes. Persons considering the purchase of Securities are advised to consult their own tax advisers with regard to the application of the United States federal income tax laws to their particular situations, as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

Subject to the discussion below under "*Hiring Incentives to Restore Employment Act*", interest payments on a Security issued by Deutsche Bank AG, New York branch should not be subject to U.S. federal withholding tax, provided that (1) the Non-U.S. Holder does not actually or constructively own 10 per cent. or more of the total combined voting power of all classes of stock of the Issuer entitled to vote, (2) the Non-U.S. Holder is not (i) a controlled foreign corporation for U.S. federal income tax purposes that is related to the Issuer through stock ownership or (ii) a bank extending credit pursuant to a loan agreement entered into in the ordinary course of its trade or business, (3) such interest is not contingent on the Issuer's profits, revenues or changes in the value of its property and is not otherwise excluded from the definition of "portfolio interest" by Section 871(h)(4) of the Code, (4) the Non-U.S. Holder certifies that it is not a United States person on a properly completed U.S. Internal Revenue Service Form W-8BEN, W-8BEN-E or other such applicable form, and (5) the Non-U.S. Holder provides any required information with respect to its direct and indirect U.S. owners as required pursuant to Sections 1471 through 1474 of the Code ("**FATCA**") or, if the Securities are held through, or such holder is, a "foreign financial institution" (as defined under FATCA), such foreign financial institution complies with its obligations under FATCA (either pursuant to an agreement with the U.S. government or in accordance with local law) or is otherwise exempt from FATCA.

Subject to the discussion below under "*Foreign Account Tax Compliance Act*" and "*Hiring Incentives to Restore Employment Act*", interest payments on a Security issued by a branch or office outside the United States generally will not be subject to U.S. federal withholding tax.

Subject to the discussion below under "*Foreign Account Tax Compliance Act*" and "*Hiring Incentives to Restore Employment Act*", gain realised by a Non-U.S. Holder on the taxable disposition of a Security generally will not be subject to U.S. federal withholding or income tax, provided that: (i) that payment and/or gain is not effectively connected with the conduct by that Non-U.S. Holder of a trade or business in the U.S.; (ii) in the case of any gain realized on the sale or exchange of a Security by an individual Non-U.S. Holder, that holder is not present in the U.S. for 183 days or more in the taxable year of the sale, exchange or retirement and certain other conditions are met; and (iii) the Non-U.S. Holder is not subject to tax pursuant to provisions of the Code applicable to certain expatriates.

### **Foreign Account Tax Compliance Act**

FATCA imposes a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to any non-U.S. financial institution (a "foreign financial institution", or "**FFI**" (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the U.S. Internal Revenue Service (the "**IRS**") to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA. The Issuer (except when issuing through its New York Branch) is an FFI.

The new withholding regime is now in effect for payments from sources within the United States. As a result, the withholding regime could apply to payments in respect of any Securities issued by Deutsche Bank AG, New York Branch, ("**U.S. Securities**") made to certain non-U.S. persons (including financial intermediaries), unless various U.S. information reporting and due diligence requirements have been satisfied. In addition, Deutsche Bank AG, New York Branch will be required to comply with reporting rules similar to those described below.

In addition, FATCA will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register. This withholding would potentially apply to payments in respect of (i) any Securities issued by a branch or office outside the United States ("**Non-U.S. Securities**") characterised as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which A) with respect to Non-U.S. Securities that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register and (B) with respect to Non-U.S. Securities that give rise to a dividend equivalent pursuant to Section 871(m) of the Code, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents, or (in each case) which are materially modified after the grandfathering date and (ii) any Non-U.S. Securities characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Non-U.S. Securities are issued on or before the grandfathering date, and additional Non-U.S. Securities of the same series are issued after that date, the additional Non-U.S. Securities may not be treated as grandfathered, which may have negative consequences for the existing Non-U.S. Securities, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "**Reporting FI**" not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction would not generally be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being "**FATCA Withholding**") from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States and Germany have entered into an agreement (the "**US-Germany IGA**") based largely on the Model 1 IGA.

If the Issuer is treated as a Reporting FI pursuant to the US-Germany IGA it does not anticipate that it will be obliged to deduct any FATCA Withholding on payments it makes. The Issuer also expects that any branch through which it issues Non-U.S. Securities will be treated as a Reporting FI pursuant to an IGA. There can be no assurance, however, that the Issuer or any branch through which it issues Non-U.S. Securities will be treated as a Reporting FI, or that it would in the future not be required to deduct FATCA Withholding from payments it makes. Accordingly, the Issuer and financial institutions through which payments on the Non-U.S. Securities are made may be required to withhold FATCA Withholding if any FFI through or to which payment on such Non-

U.S. Securities is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA.

Whilst the Securities are in global form and held within Euroclear or Clearstream, Luxembourg (together, the "ICSDs"), Clearstream Banking AG, Frankfurt ("CBF") or SIX SIS AG, Olten, Switzerland ("SIS"), it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Securities by the Issuer, the Guarantor, any paying agent and the Common Depositary or Common Safekeeper, given that each of the entities in the payment chain between the Issuer and the participants in the ICSDs, CBF or SIS, as applicable, is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Securities. The documentation expressly contemplates the possibility that the Securities may go into definitive form and therefore that they may be taken out of the ICSDs, CBF or SIS, as applicable. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive Securities will only be printed in remote circumstances.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Securities.

### **Hiring Incentives to Restore Employment Act**

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the U.S. Internal Revenue Code of 1986 which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). The final U.S. Treasury regulations issued under Section 871(m) (the "**Section 871(m) Regulations**") require withholding on certain non-U.S. holders of the Securities with respect to amounts treated as attributable to dividends from certain U.S. securities. Under the Section 871(m) Regulations, only a Security that has an expected economic return sufficiently similar to that of the underlying U.S. security, based on tests set forth in the Section 871(m) Regulations and applicable guidance, will be subject to the Section 871(m) withholding regime (making such security a "**Specified Security**"). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Security or upon the date of maturity, lapse or other disposition by the non-U.S. holder of the Specified Security. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Security, withholding generally will still be required even if the Specified Security does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Securities in respect of any dividend equivalent arising with respect to such Securities regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a Securityholder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A Securityholder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the U.S. Internal Revenue Service. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Securities issued on or after 1 January 2017. If the terms of a Security are subject to a "significant modification" (as defined for U.S. tax purposes), the Security

generally would be treated as retired and reissued on the date of such modification for purposes of determining based on economic conditions in effect at that time, whether such Security is a Specified Security. Similarly, if additional Securities of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Securities out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Securities are Specified Securities as the date of such subsequent sale or issuance. Consequently, a previously out of scope Security, might be treated as a Specified Security following such modification or further issuance.

With respect to Securities that provide for net dividend reinvestment in respect of either an underlying U.S. security or an index that includes U.S. securities, all payments on the Securities that reference such U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The applicable Final Terms (or Pricing Supplement, in the case of Exempt Securities) will indicate whether the Issuer has determined that Securities are Specified Securities and will specify contact details for obtaining additional information regarding the application of the Section 871(m) Regulations to Securities. If Securities are Specified Securities, a non-U.S. holder of such Securities should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Securities. The Issuer's determination is binding on non-U.S. holders of the Securities, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Securities linked to U.S. securities and their application to a specific issue of Securities may be uncertain.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Securities.

## THE PROPOSED FINANCIAL TRANSACTIONS TAX (FTT)

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Austria, Belgium, France, Germany, Greece, Italy, Portugal, Slovakia, Slovenia and Spain (the "**participating Member States**") as well as Estonia. However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Securities where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation. Additional EU Member States may decide to participate. Therefore, it is currently uncertain whether and when the proposed FTT will be enacted by the participating EU Member States and when it will take effect with regard to dealings in the Securities.

Prospective holders of Securities are advised to seek their own professional advice in relation to the FTT.

## BOOK ENTRY CLEARANCE SYSTEMS

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of the following "**Clearing Systems**" currently in effect:

- The Depository Trust Company ("**DTC**"), 55 Water Street, New York, NY 10041, United States;
- Clearstream Banking AG, Frankfurt ("**CBF**"), Mergenthalerallee 61, 65760 Eschborn, Germany;
- Clearstream Banking, S.A. ("**CBL**"), 42 Avenue JF Kennedy, 1855 Luxembourg, Luxembourg;
- Euroclear Bank SA/NV, Brussels ("**Euroclear**"), 1 Boulevard du Roi Albert II, 1210 Brussels, Belgium; and
- SIX SIS AG ("**SIS**"), Baslerstrasse 100, 4600 Olten, Switzerland.

The information in this section concerning the Clearing Systems has been obtained from sources that the Issuer believes to be reliable, but neither the Issuer nor any Dealer takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Securities held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

### BOOK-ENTRY SYSTEMS

#### DTC

DTC has advised the Issuer that it is a limited purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to section 17A of the Exchange Act. DTC holds securities that its participants ("**Participants**") deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerised book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations ("**Direct Participants**"). DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("**Indirect Participants**").

Under the rules, regulations and procedures creating and affecting DTC and its operations (the "**Rules**"), DTC makes book-entry transfers of Registered Securities among Direct Participants on whose behalf it acts with respect to Securities accepted into DTC's book-entry settlement system ("**DTC Securities**") as described below and receives and transmits distributions of principal and interest on DTC Securities. The Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Securities ("**Owners**") have accounts with respect to the DTC Securities similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Securities through Direct Participants or Indirect Participants will not possess Registered Securities, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of the DTC Securities.

Purchases of DTC Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Securities on DTC's records. The ownership interest of each actual purchaser of

each DTC Security ("**Beneficial Owner**") is in turn to be recorded on the Direct and Indirect Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Securities are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Securities, except in the event that use of the book-entry system for the DTC Securities is discontinued.

To facilitate subsequent transfers, all DTC Securities deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of DTC Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Securities are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the DTC Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to DTC Securities. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the DTC Securities will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the due date for payment in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances, including if there is an Event of Default (in the case of Securities for which Eligible Liabilities Format is not specified as applicable in the applicable Final Terms), DTC will exchange the DTC Securities for definitive Registered Securities, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Security, will be legended as set forth under "*Transfer and Selling Restrictions*".

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Securities to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Securities, will be required to withdraw its Registered Securities from DTC as described below.

#### **Euroclear, CBL and CBF**

Euroclear, CBL and CBF each holds securities for its customers and facilitates the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear, CBL and CBF provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear, CBL and CBF also deal with domestic securities markets in several countries through established depository and custodial relationships.

Euroclear, CBL and CBF have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear, CBL and CBF customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear, CBL and CBF is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

## **BOOK-ENTRY OWNERSHIP OF AND PAYMENTS IN RESPECT OF DTC SECURITIES**

The Issuer may apply to DTC in order to have any Tranche of Securities represented by a Registered Global Security accepted in its book-entry settlement system. Upon the issue of any such Registered Global Security, DTC or its custodian will credit, on its internal book-entry system, the respective principal amounts of the individual beneficial interests represented by such Registered Global Security to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in such a Registered Global Security will be limited to Direct Participants or Indirect Participants, including, in the case of any Regulation S Global Security, the respective depositories of Euroclear and CBL. Ownership of beneficial interests in a Registered Global Security accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Registered Global Security accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Security. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Security in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The Issuer also expects that payments by Participants to beneficial owners of Securities will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Principal Paying Agent, the Registrar or the Issuer. Payment of principal, premium, if any, and interest, if any, on Securities to DTC is the responsibility of the Issuer.

## **TRANSFERS OF SECURITIES REPRESENTED BY REGISTERED GLOBAL SECURITIES**

Transfers of any interests in Securities represented by a Registered Global Security within DTC, Euroclear and CBL will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Securities represented by a Registered Global Security to such persons may depend upon the ability to exchange such Securities for Securities in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Securities represented by a Registered Global Security accepted by DTC to pledge such Securities to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Securities may depend upon the ability to exchange such Securities for Securities in definitive form. The ability of any holder of Securities represented by a Registered Global Security accepted by DTC to resell, pledge or otherwise transfer such Securities may be impaired if the proposed transferee of such Securities is not eligible to hold such Securities through a direct or indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Securities described under "*Transfer and Selling Restrictions*", cross-market transfers between DTC, on the one hand, and directly or indirectly through CBL or Euroclear accountholders, on the other, will be effected by the relevant clearing

system in accordance with its rules and through action taken by the Registrar, the Principal Paying Agent and any custodian ("**Custodian**") with whom the relevant Registered Global Securities have been deposited.

On or after the Issue Date for any Series, transfers of Securities of such Series between accountholders in CBL and Euroclear and transfers of Securities of such Series between participants in DTC will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in CBL or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and CBL and Euroclear, on the other, transfers of interests in the relevant Registered Global Securities will be effected through the Registrar, the Principal Paying Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or CBL accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, CBL and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Securities among participants and accountholders of DTC, CBL and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Agents nor any Dealer will be responsible for any performance by DTC, CBL or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Securities represented by Registered Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial interests.

## TRANSFER AND SELLING RESTRICTIONS

The Dealers have, in the "**Dealer Agreement**" dated 21 June 2019 agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Securities. Any such agreement will extend to those matters stated under "*Form of the Securities*" and "*Terms and Conditions of the Securities*". In the Dealer Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Securities under the Programme and to indemnify the Dealers certain liabilities incurred by them in connection therewith.

### TRANSFER RESTRICTIONS

***As a result of the following restrictions, purchasers of Securities in the United States are advised to consult legal counsel prior to making any purchase, offer, sale, resale or other transfer of such Securities.*** Each purchaser of Registered Securities or person wishing to transfer an interest from one Registered Global Security to another or from global to definitive form or vice versa, will be required to acknowledge, represent and agree as follows (terms used in this paragraph that are defined in Rule 144A or in Regulation S are used herein as defined therein):

- it will, and will require each subsequent holder to, notify any purchaser of the Securities from it of the resale restrictions referred to in the paragraph above, if then applicable;

No sale of Legended Securities in the United States to any one purchaser will be for less than U.S. \$ 100,000 (or its foreign currency equivalent) principal amount and no Legended Security will be issued in connection with such a sale in a smaller principal amount. If the purchaser is a non-bank fiduciary acting on behalf of others, each person for whom it is acting must purchase at least U.S. \$ 100,000 (or its foreign currency equivalent) of Registered Securities.

## UNITED STATES

The Securities have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

The Securities in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Notes issued by Deutsche Bank AG, New York Branch must be in registered form for U.S. federal income tax purposes. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and U.S. Treasury regulations promulgated thereunder.

In connection with any Securities which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S ("**Regulation S Securities**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver such Regulation S Securities (a) as part of their distribution at any time or (b) otherwise until forty days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Securities on a syndicated basis, the relevant lead manager, of all Securities of the Tranche of which such Regulation S Securities are a part (the "**Distribution Compliance Period**"), within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Regulation S Securities

(other than a sale pursuant to Rule 144A) during the Distribution Compliance Period a confirmation or other notice setting forth the restrictions on offers and sales of the Regulation S Securities within the United States or to, or for the account or benefit of, U.S. persons.

Until forty days after the commencement of the offering of any Series of Securities, an offer or sale of such Securities within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Dealers, directly or through their respective U.S. broker dealer affiliates, may arrange for the resale of Securities to QIBs pursuant to Rule 144A and each such purchaser of Securities is hereby notified that the Dealers may be relying on the exemption from the registration requirements of the Securities Act provided by Rule 144A.   - (iii) not a qualified investor as defined in the Prospectus Directive; and
- (b) the expression an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities.

If the Final Terms in respect of any Securities (or Pricing Supplement, in the case of Exempt Securities) specify "Prohibition of Sales to Retail Investors in the European Economic Area" as "Not applicable", in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this

Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Securities to the public in that Relevant Member State:

- if the final terms in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the publication of a prospectus in relation to those Securities which has been approved by the competent authority in the Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;

provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of Securities to the public" in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended or superseded), and includes any relevant implementing measure in the Relevant Member State.

Since neither the issuance of the Securities nor a securities prospectus in respect of the Securities has been registered, or is intended to be registered, with the Central Bank of Russia (the "**CBR**") and no decision to admit the Securities to placement or public circulation in the Russian Federation has been made, or is intended to be made, by the CBR or a Russian stock exchange, the Securities are not eligible for initial offering or public circulation in the Russian Federation and may not be sold or offered in the Russian Federation unless and to the extent otherwise permitted under Russian law. Information set forth in this Prospectus is not an offer, advertisement or invitation to make offers, to sell, exchange or otherwise transfer, the Securities in the Russian Federation or to or for the benefit of any Russian person or entity and must not be distributed or circulated in the Russian Federation, unless and to the extent otherwise permitted under Russian law.

## SAUDI ARABIA

No action has been or will be taken in Saudi Arabia that would permit a public offering of the Securities. Any investor in Saudi Arabia or who is a Saudi person (a "**Saudi Investor**") who acquires any Securities pursuant to an offering should note that the offer of Securities is a private placement under Article 9 or Article 10 of the "Rules on the Offer of Securities and Continuing Obligations" as issued by the Board of the CMA resolution number 3-123-2017 dated 27 December 2017, as amended by the Board of the CMA resolution number 3-45-2018 dated 23 April 2018 (the "**KSA Regulations**"), made through a person authorised by the CMA to carry on the securities activity of arranging and following a notification to the CMA under Article 11 of the KSA Regulations.

The Securities may thus not be advertised, offered or sold to any person in Saudi Arabia other than to "sophisticated investors" under Article 9 of the KSA Regulations or by way of a limited offer under Article 10 of the KSA Regulations. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that any offer of Securities to a Saudi Investor will be made in compliance with Article 9 or Article 10 of the KSA Regulations.

Each offer of Securities shall not therefore constitute a "public offer", an "exempt offer" or a "parallel market offer" pursuant to the KSA Regulations, but is subject to the restrictions on secondary market activity under Article 15 of the KSA Regulations. Any Saudi Investor who has acquired Securities pursuant to a private placement under Article 9 or Article 10 of the KSA Regulations may not offer or sell those Securities to any person unless the offer or sale is made through an authorised person appropriately licensed by the CMA and: (i) the Securities are offered or sold to a sophisticated investor (as defined in Article 9 of the KSA Regulations); (ii) the price to be paid for the Securities in any one transaction is equal to or exceeds Saudi Riyals 1 million or an equivalent amount; or (iii) the offer or sale is otherwise in compliance with Article 15 of the KSA Regulations.
