Section B – Issuer		
B.1	<b>Legal name of the issuer: Commercial name of the issuer:</b>	<p>AB Svensk Exportkredit</p> <p>SEK</p>
B.2	<b>Domicile, legal form, legislation and country of incorporation of SEK:</b>	SEK is incorporated as a public company with limited liability in the Kingdom of Sweden under the Swedish Companies Act. SEK has its registered office in Stockholm, the Kingdom of Sweden.
B.4b	<b>Trends:</b>	<p>In recent years, SEK has focused primarily on lending to the Swedish export industry in response to the great demand for reliable financing during the financial crisis. SEK's role as a long-term lender has grown stronger and its effort to broaden its customer base is continuing. SEK's financial performance is affected by borrower and counterparty credit quality and general economic conditions. To some extent, changes in interest rates, foreign exchange rates and other market factors also affect SEK's business. Operational risks, such as fraud, errors by employees, failure to document transactions properly or to obtain proper internal authorisation and equipment failures are inherent in SEK's businesses. SEK's business is subject to regulation and regulatory oversight. Any significant regulatory developments could have an effect on how SEK conducts its business and on SEK's results of operations.</p> <p>SEK matches lending and borrowing and, therefore, takes no refinancing risk. Despite the turmoil and turbulence that have characterised the financial markets over the last years, SEK has had good access to the major capital markets. SEK believes that the new regulations for the financial sector will reduce the willingness of the banks to provide long-term loans which might impair companies' access to financing and, accordingly, increase the</p>

		importance of the Swedish export credit system and the role that SEK plays. Emerging economies, especially in the Asian region, are continuing their strong development, with increasing purchasing power and increasingly modern and developed infrastructure. The Swedish export industry is largely focused on infrastructure, telecoms, energy supply, transport and environmental technology — all areas that are enjoying strong demand in emerging economies. Access to financing is often the deciding factor in whether or not an export deal goes ahead.																																																																											
		SEK has certain limited exposures towards countries in Europe which have been under economic pressure. SEK has not, however, deemed it necessary to make any write-downs related to these exposures.																																																																											
B.5	The Group:	SEK is the parent company of a group comprising its wholly-owned subsidiaries AB SEK Securities, SEK Financial Advisors AB, SEK Financial Services AB, SEK Customer Finance AB, SEK Exportlånet AB and Venantius AB, including the latter's wholly owned subsidiary VF Finans AB (together, the "Group").																																																																											
B.9	Profit Forecast:	Not Applicable. SEK does not make profit forecasts.																																																																											
B.10	Audit Report Qualifications:	Not Applicable. There are no qualifications in the auditor's reports for SEK.
