Volkswagen International Finance N.V. (the "**Issuer**" or "**VIF**") will issue EUR 1,250,000,000 in aggregate principal amount of undated subordinated notes subject to interest rate reset with a first call date on September 4, 2018 (the "**NC5 Notes**") and EUR 750,000,000 in aggregate principal amount of undated subordinated notes subject to interest rate reset with a first call date on September 4, 2023 (the "**NC10 Notes**" and, together with the NC5 Notes, the "**Notes**") in a denomination of EUR 1,000 each on September 4, 2013 (the "**Issue Date**") at an issue price of 99.213% of their principal amount in respect of the NC5 Notes and 98.880% of their principal amount in respect of the NC10 Notes (the "**Offering**"). The Notes are unconditionally and irrevocably guaranteed, on a subordinated basis, by Volkswagen Aktiengesellschaft (the "**Guarantor**" or "**VWAG**" and together with its consolidated subsidiaries, the "**Volkswagen Group**").

The NC5 Notes shall bear interest on their principal amount (i) from and including September 4, 2013 (the "**NC5 Interest Commencement Date**") to but excluding September 4, 2018 (the "**NC5 First Call Date**") at a rate of 3.875% per annum; (ii) from and including the NC5 First Call Date to but excluding September 4, 2023 (the "**First NC5 Step-up Date**") at the relevant 5-year swap rate for the relevant Reset Period (as defined herein) plus a margin of 270 basis points per annum (no step-up); (iii) from and including the First NC5 Step-up Date to but excluding September 4, 2038 (the "**Second NC5 Step-up Date**") at the relevant 5-year swap rate for the relevant Reset Period plus a margin of 295 basis points per annum (including a 25 basis points step-up); and (iv) from and including the Second NC5 Step-up Date to but excluding the date on which the Issuer redeems the Notes in whole at the relevant 5-year swap rate for the relevant Reset Period plus a margin of 370 basis points per annum (including a further 75 basis points step-up). During each such period interest is scheduled to be paid annually in arrear on September 4 of each year (each an "**Interest Payment Date**"), commencing on September 4, 2014.

The NC10 Notes shall bear interest on their principal amount (i) from and including September 4, 2013 (the "**NC10 Interest Commencement Date**") to but excluding September 4, 2023 (the "**NC10 First Call Date**") at a rate of 5.125% per annum; (ii) from and including the NC10 First Call Date to but excluding September 4, 2043 (the "**Second NC10 Step-up Date**") at the relevant 10-year swap rate for the relevant Reset Period plus a margin of 335 basis points per annum (including a 25 basis points step-up); and (iii) from and including the Second NC10 Step-up Date to but excluding the date on which the Issuer redeems the Notes in whole at the relevant 10-year swap rate for the relevant Reset Period plus a margin of 410 basis points per annum (including a further 75 basis points step-up). The Issuer is entitled to defer payments of interest on any Interest Payment Date (as defined in the Terms and Conditions) ("**Arrears of Interest**") and may pay such Arrears of Interest voluntarily at any time, but only has to pay such Arrears of Interest under certain circumstances as laid out in the terms and conditions of the NC5 Notes (the "**NC5 Note Terms and Conditions**") or the terms and conditions of the NC10 Notes (the "**NC10 Note Terms and Conditions**") and, together with the NC5 Note Terms and Conditions, the "**Terms and Conditions**"), as applicable.

The Issuer may also redeem each issue separately in whole but not in part at any time before the respective first call dates following a Rating Event, an Accounting Event, a Tax Deductibility Event or a Gross-up Event at the Early Redemption Amount (each as defined in the applicable Terms and Conditions). Additionally the Issuer may redeem each issue separately, in whole but not in part, if any of the Issuer, the Guarantor or any of the Guarantor's subsidiaries has, severally or jointly, purchased or redeemed at least 80% of the originally issued aggregate principal amount of the Notes of such issue.

Each of the Notes will initially be represented by a temporary global note, without interest coupons, which will be exchangeable in whole or in part for a permanent global note without interest coupons, not earlier than 40 days after the Issue Date, upon certification as to non-U.S. beneficial ownership. The Notes are issued in bearer form with a denomination of EUR 1,000 each.

B.19 B.4b	Description of any known trends affecting the Guarantor and the industries in which it operates	The markets in which the Group's brands operate are becoming increasingly challenging, particularly in Western Europe. The development of the automotive sector remains dependent on global economic developments, which continue to be shrouded in considerable uncertainty. The financial markets still entail risks resulting above all from the strained debt situation of many countries. Growth in the global market for passenger cars is also likely to be weaker in full-year 2013 than in the previous year. Challenges will come from the difficult market environment and increasingly fierce competition as well as interest rate and exchange rate volatility and considerable fluctuations in raw materials prices.

The control and profit and loss transfer agreement is designed to enable Volkswagen and MAN to strengthen and simplify their cooperation, increasing the competitiveness of both companies.</p> <p>By way of a letter dated July 25, 2013, the Munich Regional Court (I) served Truck & Bus GmbH, a wholly owned subsidiary of Volkswagen AG, with an application in accordance with section 1 no. 1 of the Spruchverfahrensgesetz (<i>SpruchG — German Act on Appraisal Proceedings</i>) for judicial review of the appropriateness of the cash settlement in accordance with section 305 of the Aktiengesetz (<i>AktG — German Stock Corporation Act</i>) and the cash compensation in accordance with section 304 of the AktG for the noncontrolling interest shareholders of MAN SE. The relevant 5-year swap rate and 10-year swap rate will therefore in part depend on the level of the EURIBOR at the time of the reset dates, as a result of which an increase in EURIBOR may lead to a higher modified reset interest rate, a decrease to a lower modified reset interest rate.</p>
C.11	Admission to trading	<p>Application has been made to the Luxembourg Stock Exchange for the Notes to be admitted to trading on the Luxembourg Stock Exchange's regulated market.</p>

Section D – Risks		
D.2	Key information on the key risks that are specific to the Issuer	<p>Risk of counterparty default</p> <p>Risk of counterparty default is defined as the possible loss in value due to non-payment by a customer or deterioration of his creditworthiness. A distinction is made between credit risks, counterparty risks, country risks and shareholder risks.</p> <p>Market price risk</p> <p>Market price risk refers to the potential loss resulting from disadvantageous changes in market prices or parameters that influence prices. The market risks are subdivided into interest rate risks and currency risks.</p> <p>Liquidity risk</p> <p>Liquidity risk describes the risk of not being able to discharge one's payment obligations in due time or in full.</p>

		<p>Refinancing risk</p> <p>Refinancing risk includes the risk of lower business volume due to inability of raising funds.</p> <p>Operational risk</p> <p>Operational risk at VIF is defined as the threat of losses that occur as a result of inadequate or failing internal processes (process risk), personnel (personnel risks), technology (infrastructure and IT risks). The definitions of these three risk categories include the respective legal risks. Strategic risks and reputation risks are not considered under operational risks.</p>
D.3	Key risks specific to the Notes	<p>Macroeconomic risk</p> <p>The main risk for the medium-term development of the global economy is a phase of weak growth. In addition, substantial risks are associated with a tight situation on the financial markets, capacity under-utilization and weakly developing international job markets.</p> <p>Sector-specific risk</p> <p>Specific markets/countries can have high customs barriers or minimum local content requirements for domestic production. These factors make it difficult to achieve a larger increase in sales volumes.</p> <p>Research and development risk</p> <p>Volkswagen Group's future success depends on its ability to offer new products that meet the customer's demand in due time.</p> <p>Procurement risk</p> <p>The development of energy and commodities prices could adversely affect Volkswagen Group's business as well as malperformance of suppliers.</p> <p>Production risks</p> <p>The turbulence on the world passenger vehicle markets resulting from the global economic slump led to substantial fluctuations in the number of units of individual models produced at the Volkswagen Group's production facilities. Forecast installation rates for features or components are increasingly uncertain due to the unstable sales markets.</p> <p>Risks arising from changes in demand</p> <p>Factors like the financial crisis, high energy prices or uncertainties regarding future carbon dioxide ("CO₂") emission taxation may lead to consumers' reluctance to purchase vehicles and could adversely affect Volkswagen Group's financial results.</p> <p>Dependence on fleet customer business</p> <p>The fleet customer business is continuing to experience increased concentration and internationalization. Consequential effects could have a negative impact on Volkswagen Group's financial position.</p>

	<p>Quality risk</p> <p>Increasing complexity of vehicles and new environmentally friendly technologies present new challenges for the quality assurance function. Recalls may cause significant costs and could negatively impact Volkswagen Group's image.</p> <p>Personnel risk</p> <p>Personnel risks may result from high personnel turnover, insufficient availability of personnel, inadequate personnel qualification and human error.</p> <p>IT risk</p> <p>IT (Information technology) is exposed to risks that occur when one or more fundamental security objectives such as confidentiality, integrity and availability of data and services are threatened by weak spots either in the organization or in the use/administration of IT systems.</p> <p>Environmental protection regulations</p> <p>The third trading period in the European Union Emissions Trading Scheme is scheduled to begin in 2013. Under this scheme, which is due to run until 2020, the allocation of CO₂ emission certificates free of charge will be dramatically scaled back; at the same time, a large number of industries will be included that were previously not subject to emissions trading. Higher prices for energy and emissions rights do not only apply to Volkswagen Group's own facilities but will also increase materials prices, especially in the case of steel and aluminum. Further developments, especially in climate protection regulation following the Kyoto Protocol, will affect the entire transport sector. Emissions trading, which previously did not extend to passenger cars and light commercial vehicles, will now be discussed in the context of its potential to reduce CO₂ emissions in freight transport and along the whole logistics chain.</p> <p>Litigation</p> <p>Volkswagen Aktiengesellschaft and its affiliated companies may become involved in legal disputes and official proceedings that may result in payment and other obligations.</p> <p>Strategies for hedging financial risks</p> <p>Volkswagen Group's business activities entail financial risks that may arise from changes in interest rates, exchange rates and commodity prices as well as fund prices and defaulting of counterparties.</p> <p>Risks arising from financial instruments</p> <p>Chanelling excess liquidity into investments gives rise to counterparty risk.</p> <p>Liquidity risks</p> <p>Volkswagen Group depends on the raising of debt capital, by means of bank loans or the issuance of debt in national or international financial markets. If the refinancing of the liquidity needs from the money and capital markets fails, Volkswagen Group's ability to meet its payment obligations could be affected.</p>
--	---

	<p>Residual value risk in the Financial Services business</p> <p>In the Volkswagen Financial Services business the residual value risk occurs whenever the estimated sales value of a leased asset at the time of disposal upon expiration of a contract is less than the residual value at the time the contract was closed.</p> <p>Risks in relation to corporate acquisitions and equity interests</p> <p>Volkswagen Aktiengesellschaft has made significant acquisitions in the recent past and has not ruled out the possibility that it will continue to acquire companies and equity interests in companies in the future. Corporate acquisitions are typically associated with significant investments and risks.</p> <p>Other factors</p> <p>Risks that cannot be predicted but could have an adverse effect on the further development of Volkswagen Group. These factors include natural disasters, epidemics and terrorist activity.</p> <ul style="list-style-type: none"> • The Notes may not be a suitable investment for all investors. • The Notes are undated securities in which an investment constitutes a financial risk for an indefinite period. • At the Issuer’s option, each issue of the Notes may be redeemed (i) on the first call date or any interest payment date thereafter or (ii) if as a consequence of a change in law it has to pay any additional amounts with respect to taxation or (iii) if 80% or more in principal amount of the Notes initially issued have been redeemed or purchased. In addition, the Issuer may redeem the Notes if (i) interest payable in respect of the Notes is no longer fully income tax deductible, (ii) the funds raised by the issuance of the Notes may no longer be treated as equity capital by the Issuer or (iii) certain rating agencies determine to no longer grant “equity credit” or a lower such credit to the Notes. In the case of redemption, Noteholders might suffer a lower than expected yield, might not be able to reinvest the funds on the same term and may receive a redemption amount lower than the prevailing market price of the Subordinated Notes. • The claims of Noteholders are unsecured, subordinated obligations of the Issuer. • The Terms and Conditions do not contain any express event of default or cross default provisions. • The Issuer will partially depend on payments from other members of the Volkswagen Group to make payments on the Notes. • The Notes do not contain any financial covenants. • The Noteholders have no voting rights in general meetings of the Issuer. • The Noteholders will have only limited remedies against the Issuer for recovery of amounts which have become due in respect of the Notes. • There is no restriction on the amount of debt which the Issuer may issue ranking equal or senior to the obligations under or in connection with the Notes.
--	--

		<ul style="list-style-type: none"> • The Guarantor's obligations under the Guarantee are unsecured and deeply subordinated. • The Noteholders have only limited rights in a German insolvency proceeding over the Guarantor. • Application has been made for the Notes to be admitted to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the Official List. However, there can be no assurance that a liquid secondary market for the Notes will develop. Moreover, the trading market for Notes may be volatile. • There is a risk that trading in the Notes will be suspended, interrupted or terminated. • During the period from including the Interest Commencement Date to but excluding the First Call Date, it cannot be ruled out that the price of the Notes may fall as a result of changes in the current interest rate on the capital market (market interest rate), as the market interest rate fluctuates. • After the First Call Date, investors should be aware that the interest rate will be determined on each Reset Date at the 5-year Swap Rate or the 10-year Swap Rate, as applicable, for the relevant Reset Period plus a margin. The performance of the 5-year Swap Rate or the 10-year Swap Rate, as applicable, and the interest income on the Notes cannot be anticipated and a definite yield of the Notes cannot be determined. In addition, during each Reset Period, it cannot be ruled out that the price of the Notes may fall as a result of changes in the current interest rate on the capital market (market interest rate), as the market interest rate fluctuates. • The Issuer may elect to defer an interest payment. Any such deferral of interest shall not constitute a default for any purpose and deferred interest will not bear interest. Any deferral of interest will likely have an adverse effect on the market price of the Notes. • Ratings of the Issuer or the Notes may be subject to change at all times and are not a recommendation to buy, sell or hold Notes. • The Notes denominated in Euro could represent a currency risk for a holder if the Euro represents a foreign currency to such holder; in addition governments and monetary authorities could impose exchange controls in the future. • Because the global notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer. • Noteholders are subject to the risk of being outvoted and of losing rights towards the Issuer against his will in the case that Noteholders agree to amendments of the Terms and Conditions of the Notes by majority vote according the German Act on Issues of Debt Securities (<i>Gesetz über die Schuldverschreibungen aus Gesamtemissionen</i>). In the case of an appointment of a Noteholders' representative for all Noteholders a particular holder may lose, in whole or in part, the possibility to enforce and claim his rights against the Issuer regardless of other Noteholders. • Investors in the Notes assume the risk that the credit spread of the Issuer changes (credit spread risk).
--	--	---

		<ul style="list-style-type: none"> • Due to future money depreciation (inflation), the real yield of an investment may be reduced. • The tax impact of an investment in the Notes should be carefully considered. • If a loan is used to finance the acquisition of the Notes, the loan may significantly increase the risk of a loss. • Incidental costs related in particular to the purchase and sale of the Notes may have a significant impact on the profit potential of the Notes.

		<p><i>Nachzahlung von Aufgeschobenen Zinszahlungen</i></p> <p>Aufgeschobene Zinszahlungen können jederzeit durch die Emittentin oder die Garantin nachgezahlt werden, nach Bekanntmachung an die Anleihegläubiger unter Einhaltung einer Frist von nicht weniger als 10 Geschäftstagen vor einer freiwilligen Zinszahlung, wobei eine solche Bekanntmachung (i) den Betrag an Aufgeschobenen Zinszahlungen, der gezahlt werden soll, und (ii) den für diese Zahlung festgelegten Termin enthalten muss.</p> <p><i>Freiwillige Rückzahlung</i></p> <p>Die Emittentin ist berechtigt aber nicht verpflichtet die EUR NC5 Nachrangigen Schuldverschreibungen und die EUR NC10 Nachrangigen Schuldverschreibungen jeweils einzeln, allerdings pro Serie nur insgesamt und nicht teilweise, am Ersten Rückzahlungstermin und an jedem darauf folgenden Reset-Termin zum Nennbetrag zurückzahlen, ohne dazu verpflichtet zu sein.</p> <p>Die Emittentin ist berechtigt aber nicht verpflichtet die EUR NC5 Nachrangigen Schuldverschreibungen und die EUR NC10 Nachrangigen Schuldverschreibungen jeweils einzeln, allerdings pro Serie nur insgesamt und nicht teilweise, zu jeder Zeit bei Eintritt eines der folgenden Spezialereignisse zurückzahlen: (i) ein Ratingmethodologieereignis, (ii) ein Rechnungslegungsereignis, (iii) ein Steuerereignis oder (iv) ein Gross-up Ereignis. Die Emittentin ist ferner berechtigt aber nicht verpflichtet die EUR NC5 Nachrangigen Schuldverschreibungen und die EUR NC10 Nachrangigen Schuldverschreibungen jeweils einzeln, allerdings pro Serie nur insgesamt und nicht teilweise zu jeder Zeit zurückzuzahlen, falls die Emittentin, die Garantin oder eine Tochtergesellschaft der Garantin allein oder gemeinsam 80 % oder mehr des ursprünglich begebenen Gesamtnennbetrages der jeweiligen Serie von Nachrangigen Schuldverschreibungen erworben oder zurückgezahlt haben.</p> <p><i>Indikative Rendite</i></p> <p>Die Rendite in Bezug auf die (i) NC5 Schuldverschreibungen wird vom Ausgabebetrag bis zum Ersten NC5 Rückzahlungstermin 4,052 % jährlich sein und (ii) NC10 Schuldverschreibungen wird vom Ausgabebetrag bis zum Ersten NC10 Rückzahlungstermin 5,272 % jährlich sein und wird anhand des Ausgabepreises der Schuldverschreibungen berechnet.</p> <p><i>Representation</i></p> <p>Auf die Schuldverschreibungen ist das Gesetz über Schuldverschreibungen aus Gesamtemissionen (<i>Schuldverschreibungsgesetz</i>) anwendbar. Ein Gemeinsamer Vertreter der Gläubiger kann bestellt werden.</p>
<p>C.10</p>	<p>Derivative Komponente bei der Zinszahlung</p>	<p>Siehe C.9.</p> <p>Der Zinssatz, der jeweils auf die Schuldverschreibungen für jede Zinsperiode anwendbar ist, wird bei jedem Reset-Termin angepasst. Der neue Zinssatz der auf die Schuldverschreibungen anwendbar ist und zwar für den Zeitraum von und einschließlich jedes Reset-Termins bis und ausschließlich des nächsten Reset-Termins wird auf Basis des 5-Jahres Swapsatzes bzw. des 10-Jahres Swapsatzes kalkuliert, jeweils berechnet von der Berechnungsstelle am jeweiligen Reset-Termin zuzüglich einer Marge.</p>

		Wie unter C.9 beschrieben, basiert der 5-Jahres Swapsatz bzw. der 10-Jahres Swapsatz auf dem jährlichen Swapsatz für Euro-swaptransaktionen mit einer Laufzeit von 5 Jahren bzw. 10 Jahren. Der jeweilige 5-Jahres Swapsatz und 10-Jahres Swapsatz wird daher teils abhängig von der Höhe des EURIBOR am Reset-Termin sein, wodurch eine Erhöhung des EURIBOR zu einem höheren modifizierten Reset-Zinssatz führen würde und eine Verringerung des EURIBOR zu einem niedrigeren modifizierten Reset-Zinssatz.
C.11	Einführung in einen regulierten Markt oder einem gleichwertigen Markt	Für die Schuldverschreibungen ist ein Antrag auf Listung in dem offiziellen Verzeichnis der Luxemburger Wertpapierbörse und auf Zulassung zum Börsenhandel im regulierten Markt der Luxemburger Wertpapierbörse gestellt worden.

Abschnitt D – Risiken		
D.2	Zentrale Angaben zu den zentralen Risiken, die der Emittent eigen sind	<p>Adressenausfallrisiko</p> <p>Unter Adressenausfallrisiko werden mögliche Wertverluste aufgrund des Ausfalls eines Kunden oder Bonitätsverschlechterung verstanden. Es wird unterschieden zwischen dem Kreditrisiko, dem Kontrahentenrisiko, dem Länderrisiko und dem Anteilseignerrisiko.</p> <p>Marktpreisrisiko</p> <p>Das Marktpreisrisiko bezeichnet den potenziellen Verlust aufgrund nachteiliger Veränderungen von Marktpreisen oder den Preis beeinflussenden Parametern. Die Marktrisiken werden in Zinsänderungsrisiko und Währungsrisiko unterteilt.</p> <p>Liquiditätsrisiken</p> <p>Das Liquiditätsrisiko beschreibt das Risiko, den Zahlungsverpflichtungen nicht termingerecht oder nicht in voller Höhe nachkommen zu können.</p> <p>Refinanzierungsrisiko</p> <p>Das Refinanzierungsrisiko betrifft das Risiko einer Verminderung des Geschäftsvolumens infolge unzureichender Refinanzierungsmöglichkeiten.</p> <p>Operationelle Risiken</p> <p>Die Operationellen Risiken (OpR) werden in der Volkswagen International Finance N.V als die Gefahr von Verlusten definiert, die infolge der Unangemessenheit oder des Versagens von internen Prozessen (Prozessrisiken), Mitarbeitern (Personalrisiken) oder Technologie (Infrastruktur- und IT Risiken) eintreten. Die Definitionen dieser drei Risikokategorien schließen die jeweiligen Rechtsrisiken ein. Strategische Risiken und Reputationsrisiken werden unter Operationellen Risiken nicht betrachtet.</p>
D.3	Zentrale Angaben zu den zentralen Risiken, die Schuldverschreibungen eigen sind	<p>Gesamtwirtschaftliche Risiken</p> <p>Das Hauptrisiko für die mittelfristige Entwicklung der Weltwirtschaft besteht in einer Phase schwachen Wachstums. Erhebliche Risiken resultieren auch aus einer angespannten Situation an den Finanzmärkten, nicht ausgelasteten Produktionskapazitäten und sich schwach entwickelnden internationalen Arbeitsmärkten.</p>

	<p>Branchenrisiken</p> <p>In bestimmten Märkten/Ländern existieren hohe Zollbarrieren oder es gelten Mindestanforderungen an die lokale Fertigung. Durch diese Beschränkungen wird eine größere Ausweitung des Absatzvolumens erschwert.</p> <p>Risiken aus Forschung und Entwicklung</p> <p>Der zukünftige Erfolg des Volkswagen Konzerns ist daran gekoppelt den Kundenansprüchen rechtzeitig mit neuen Produkten zu begegnen.</p> <p>Risiken aus der Beschaffung</p> <p>Die Entwicklung der Energie- und Rohstoffpreise kann sich ebenso nachteilig auf das Geschäft des Volkswagen Konzerns auswirken wie Schlechtleistung von Zulieferern.</p> <p>Nachfrageabhängige Produktionsrisiken</p> <p>Die Unruhe an den weltweiten PKW-Märkten, die aus dem Einbruch der Weltwirtschaft resultierte, führte an den Produktionsstandorten des Volkswagen Konzerns zu erheblichen Stückzahlenschwankungen einzelner Fahrzeugmodelle. Wegen der instabilen Absatzmärkte sind Prognosen in Bezug auf Einbauraten von Ausstattungsmerkmalen beziehungsweise Komponenten zunehmend risikobehaftet.</p> <p>Risiken aus Nachfrageveränderungen</p> <p>Faktoren wie die Finanzmarktkrise, hohe Kraftstoffpreise und Unsicherheiten bezüglich der künftigen Besteuerung von CO₂-Emissionen können zu einer unerwarteten Kaufzurückhaltung führen. Daraus können sich negative Entwicklungen auf das Finanzergebnis des Volkswagen Konzerns ergeben.</p> <p>Abhängigkeit vom Großkundengeschäft</p> <p>Das Großkundengeschäft ist weiterhin durch eine zunehmende Konzentration und Internationalisierung gekennzeichnet. Daraus folgende Effekte könnten negative Auswirkungen auf die Finanzlage des Volkswagen Konzerns haben.</p> <p>Qualitätsrisiken</p> <p>Die steigende Komplexität der Fahrzeuge und die Einführung neuer umweltfreundlicher Technologien stellt die Qualitätssicherung vor neue Herausforderungen. Rückrufe können erhebliche Kosten verursachen und negative Auswirkungen auf das Image des Volkswagen Konzerns haben.</p> <p>Personalrisiken</p> <p>Personalrisiken können aus hohem Personalwechsel, ungenügender Verfügbarkeit von Personal, unzureichender Personalqualifikation und menschlich bedingten Fehlern resultieren.</p> <p>IT Risiken</p> <p>Die IT (Informationstechnologie) wird Risiken ausgesetzt. Diese kommen zur Geltung, wenn ein oder mehrere Sicherheitsziele wie Vertraulichkeit, Integrität oder Verfügbarkeit von Daten und Dienstleistungen, durch Schwachstellen sowohl in der Organisation als auch in der Nutzung beziehungsweise Verwaltung der IT-Systeme bedroht werden.</p>
--	--

		<p>Umweltschutzrechtliche Auflagen</p> <p>2013 wird die dritte Handelsperiode des europäischen Emissionshandels beginnen. In diesem bis 2020 geltenden Regime wird die kostenlose Zuteilung von CO₂-Emissionszertifikaten deutlich reduziert; zugleich wird eine große Zahl von Branchen neu einbezogen, die bisher nicht der Emissionshandelspflicht unterlagen. Höhere Preise für Energie und Emissionsberechtigungen gelten dabei nicht nur für eigene Anlagen, sondern führen auch zu einer Verteuerung von Materialien, insbesondere von Stahl und Aluminium. Die weitere Entwicklung insbesondere der Klimaschutzregulierungen in der Nachfolge des Kyoto-Protokolls wird den gesamten Verkehrssektor einbeziehen. Der bisher bei PKW und leichten Nutzfahrzeugen nicht angewandte Emissionshandel wird in neuem Zusammenhang in Bezug auf die CO₂-Minderungspotenziale des Güterverkehrs beziehungsweise der gesamten Logistikkette diskutiert werden.</p> <p>Rechtsfälle</p> <p>Die Volkswagen AG und die Unternehmen, an denen sie direkt oder mittelbar beteiligt ist, sind in Rechtstreitigkeiten und behördlichen Verfahren beteiligt, aus denen sich Zahlungs- und andere Verpflichtungen ergeben können.</p> <p>Strategien zur Absicherung im Finanzbereich</p> <p>Die Geschäftstätigkeit des Volkswagen Konzerns birgt Finanzrisiken, die sich aus der Veränderung von Zinssätzen, Währungskursen und Rohstoffpreisen sowie Fondspreisen und dem Ausfall von Kontrahenten ergeben können.</p> <p>Risiken aus Finanzinstrumenten</p> <p>Aufgrund der Kanalisierung von überschüssiger Liquidität in Kapitalanlagen entsehen Adressausfallrisiken.</p> <p>Liquiditätsrisiken</p> <p>Der Volkswagen Konzern ist angewiesen auf die Aufnahme von Fremdkapital von Banken oder über die nationalen und internationalen Finanzmärkte. Eine gescheiterte Fremdkapitalbeschaffung zur Refinanzierung eines Liquiditätsbedarfs könnte jederzeit die Zahlungsfähigkeit gefährden.</p> <p>Restwertrisiken im Finanzdienstleistungsgeschäft</p> <p>Im Volkswagen Financial Services Geschäft tritt ein Restwertisiko auf, wenn der geschätzte Verkaufswert eines gemieteten Gegenstands bei Vertragsablauf geringer ist als der bei Vertragsabschluss vereinbarte Restwert.</p> <p>Risiko im Zusammenhang mit Unternehmensübernahmen und Unternehmensbeteiligungen</p> <p>In der jüngsten Vergangenheit hat die VWAG erhebliche Übernahmen durchgeführt und die Möglichkeit nicht ausgeschlossen, auch in Zukunft Unternehmen oder Unternehmensanteile zu erwerben. Unternehmensübernahmen sind typischerweise mit signifikanten Investitionen und Risiken verbunden.</p>
--	--	---

		<p>Sonstige Einflüsse</p> <p>Risiken, die derzeit noch nicht vorhersehbar sind, können einen negativen Einfluss auf die zukünftige Entwicklung des Volkswagen Konzerns nehmen. Dieses umfasst beispielhaft Naturkatastrophen, Epidemien und Terroranschläge.</p> <ul style="list-style-type: none"> • Die Schuldverschreibungen sind möglicherweise keine für alle Anleger geeignete Anlage. • Die Schuldverschreibungen haben eine unbegrenzte Laufzeit, und Anleihegläubiger können die Schuldverschreibungen nicht kündigen. • Nach Wahl der Emittentin können die Schuldverschreibungen zurückgezahlt werden: (i) am ersten Rückzahlungstermin oder an jedem darauf folgenden Zinszahlungstag, (ii) wenn die Emittentin aufgrund einer Gesetzesänderung zusätzliche Beträge hinsichtlich Steuern zu bezahlen hat oder (iii) wenn 80 % oder mehr des ursprünglich begebenen Nennbetrags der Schuldverschreibungen zurückgezahlt oder zurückerworben wurden. Darüber hinaus kann die Emittentin die Schuldverschreibungen zurückzahlen, wenn (i) Zinszahlungen in Bezug auf die Schuldverschreibungen nicht mehr vollständig steuerlich abzugsfähig sind, (ii) die durch die Emission eingeworbenen Mittel nicht mehr als Eigenkapital der Emittentin behandelt werden können oder (iii) bestimmte Ratingagenturen die Schuldverschreibungen keiner oder einer geringeren Eigenkapitalanrechnungskategorie zuordnen. RISK FACTORS

Prospective investors should carefully review the following risk factors in conjunction with the other information contained in this Prospectus before making an investment in the Notes. If these risks materialize, individually or together with other circumstances, they may have a material adverse effect on Volkswagen's business, results of operations and financial condition. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the Issuer may be unable to fulfil its obligations under the Notes for other reasons than those described below, and the Issuer does not represent that the statements below are exhaustive. Additional risks not currently known to Volkswagen or that it currently believes are immaterial may also adversely affect its business, results of operations and financial condition. Should any of these risks materialize, the trading price of the Notes could decline, the Issuer may not be able to fulfill its obligations under the Notes and investors could lose all or a part of their investment. The order in which the individual risks are presented does not provide an indication of the likelihood of their occurrence nor of the severity or significance of the individual risks.

Each prospective purchaser of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. A prospective purchaser may not rely on the Issuer, the Managers or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Risk Factors regarding Volkswagen International Finance N.V.

Risk is defined as the possibility of negative future developments in the economic situation of VIF. The principal risks to which VIF is exposed are described below.

Risk of counterparty default

Risk of counterparty default is defined as the possible loss in value due to non-payment by a customer or deterioration of his creditworthiness. A distinction is made between credit risks, counterparty risks, country risks and shareholder risks.

Credit risk

Credit risk is defined as the risk of a partial or total default of contracted interest payment or principal payment by a borrower. Credit risks mainly result from loans granted to group and joint venture companies and bank deposits as well as cross currency and interest rate swaps. Credit risk represents the largest component of the indicated risk factors affecting VIF. Risk acceptance is approved by the Board of Management and the Supervisory Board regularly monitors VIF's risk profile. Lending guidelines regulate credit processes and competences.

Counterparty risk

The counterparty risk arises from overnight money and time deposit investments carried out in the inter-bank sector as well as derivatives transactions.

Country risk

The country risk includes risks in the course of international business, which do not result from the contracting party itself, but are due to its foreign investments. As a result, e.g. critical political or economic developments as well as difficulties in the entire finance system in this country can lead to the fact that agreed trans-border capital payments (interest and repayment) cannot take place or take place incompletely or delayed, due to difficulties of transfer by reason of mandatory measures by a foreign state.

The evaluation of country risks is based on the assessments of the long-term foreign currency liabilities of a state (sovereign ratings) by the rating agencies Moody's and Standard & Poor's.

Shareholder risk

The shareholder risk is defined as the risk of losses affecting negatively the shareholding book value.

Market risk

Market risks signify potential losses because of disadvantageous changes of market prices or price-influencing parameters. At VIF it is subdivided into interest rate risks and currency risks.

Interest rate risk

Interest rate risk includes potential losses from changes in market rates. These risks result from refinancing at non-matching interest periods and from different degrees of interest rate elasticity of individual assets and liabilities. VIF has established an appropriate system to manage and control this risk.

Currency risk

Currency risk means the possible negative evolution of the exchange rate of a foreign currency in relation to the Euro (base currency).

These changes could then create a negative result if in a specific currency assets and liabilities do not match (currency position).

Liquidity risk

Liquidity risk could occur when the receivables dates do not match the corresponding liability dates. Although VIF has access to multiple funding sources, such as a Debt Issuance Programme and a Commercial Paper Programme as well as the possibility to benefit from the parent company's facilities, it is still exposed to the liquidity risk. The prime objective of cash flow management at VIF is to ensure the ability to pay at all times.

Refinancing risk

Refinancing risks can be described as the possibility of not being able to meet finance requirements of affiliated group companies or subsidiaries, due to worsening markets conditions on the capital market, such as significant negative alteration of VW credit rating, growing economic instability or negative changes in solvency for major international banks, possibly undermining VIF's ability to refinance itself.

Operational risk

Operational risk is the term used for the threat of losses due to inadequate or failing internal processes, personnel and systems. This also takes into account risks that result from external factors such as natural disasters, terrorist attacks, political unrest or legal risks.

IT and system risk

IT (Information technology) is exposed to risks that occur when one or more fundamental security objectives such as confidentiality, integrity and availability of data and services are threatened by weak spots in either the organization or in the use/administration of IT systems.

Personnel risk

Personnel risks may result from high personnel turnover, insufficient availability of personnel, inadequate personnel qualification and human error.

Legal risk

Legal risks can be described as a sudden and unexpected change in a national law enabling local government to partially or wholly take control of VIF's contract parties: banks, affiliated group companies, subsidiaries, parent company or VIF itself. This so-called nationalization could then influence the above mentioned companies' ability to meet their obligations.

Although the tax department, supported by local advisors, monitors the international tax situation, other risks, such as the introduction of withholding taxes or other restrictive tax implications for one of its contract parties, as described above, could occur during the lifetime of its assets and liabilities, thus causing negative tax implications with regard to (re)payment of principal or interest funds.

Risk Factors regarding Volkswagen Aktiengesellschaft and Volkswagen Group

In the following section specific risks arising from the business activities of Volkswagen Group are explained.

Macroeconomic risk

One of the biggest risks to continued global economic expansion consists primarily of unanswered questions surrounding the resolution of the European and US debt crises and the future institutional structures

in the eurozone. Imbalances in foreign trade and volatile financial markets are also contributing to a high level of uncertainty. Added to this are geopolitical risks resulting from tensions in the Middle East and North Africa, which could impact negatively on the trend in energy and commodity prices. Due to the persistent structural challenges in the industrialized nations, a climate of uncertainty remains in evidence in the international markets. This is indicated by a lack of investment by businesses and hesitant lending on the part of commercial banks. This has a considerable impact on the Volkswagen Group's risk position. Further risks are posed by protectionist tendencies in the economic policies adopted by certain countries, which could lead to the implementation of trade restrictions and hence hinder the international exchange of goods. The risk of renewed global recession seems to be relatively low, but the possibility of a prolonged period of below-average growth due to the factors mentioned remains.

Sector-specific risk

The growth markets of Asia, South America, and Central and Eastern Europe are particularly important in terms of the global trend in demand for passenger cars. Although these markets harbor the greatest potential, the overall environment in some of the countries in these regions makes it difficult to increase unit sales figures there. Some have high customs barriers or minimum local content requirements for domestic production, for example. Following the reduction in the number of new vehicles allowed to be registered in places such as Beijing, further restrictions on registrations could enter into force in other Chinese metropolitan areas as well. Furthermore, the global economic slowdown could impact negatively on consumer confidence in some of these countries. Likewise, Volkswagen cannot entirely rule out the risk of freight deliveries being shifted from commercial vehicles to other means of transport and of demand for the Volkswagen Group's commercial vehicles falling as a result.

Price pressure in established automotive markets is a particular challenge for the Volkswagen Group as a supplier of volume and premium models due to its high level of market coverage. If global economic conditions deteriorate, competitive pressures are likely to increase further. Manufacturers will respond by offering price discounts in order to meet their sales targets, thereby putting the entire sector under pressure, particularly in Western Europe, the USA and China.

Western Europe is one of the Volkswagen Group's main sales markets. A combination of a drop in prices due to the economic climate and a fall in demand in this region would therefore have a particularly strong impact on the Volkswagen Group's earnings. Outside Western Europe, Volkswagen's overall delivery volume is broadly diversified throughout the world. The Chinese market accounts for an increasing share of the volume.

The global economic climate deteriorated noticeably during 2012. The resulting challenges for Volkswagen's trading and sales companies, for example efficient warehouse management and the profitability of the dealer network, are considerable.

Volkswagen continues to approve loans for vehicle finance on the basis of the same cautious principles applied in the past, taking into account the regulatory requirements of section 25a(1) of the German Banking Act (*Kreditwesengesetz — KWG*).

Volkswagen may be exposed to increased competition in aftermarkets for two reasons: firstly, because of the provisions of the new Block Exemption Regulation, which have been in force for after-sales service since June 2010, and, secondly, because of the amendments included in EU Regulation 566/2011 dated June 8, 2011 expanding independent market participants' access to technical information.

The European Commission is planning to end design protection for visible vehicle parts. If this plan is actually implemented, it could adversely affect the Volkswagen Group's genuine parts business.

Research and development risk

The Volkswagen Group is conducting extensive trend analyses, customer surveys and scouting activities to avoid the risk of failing to give its customers' requirements adequate consideration during the development process. These measures should also ensure that trends are recognized at an early stage and that their relevance for the Volkswagen Group's customers is verified in good time.

Although the Volkswagen Group continuously and systematically monitors the progress of all projects there is a risk that it may not be possible to develop products or modules within the specified timeframe, to the required quality standards, or in line with cost specifications. Countermeasures initiated in the event that actual progress deviates from the original targets may not prove suitable.

Procurement risk

The global rise in automotive industry unit sales is also reflected in an increased need among suppliers for investment financing and working capital. In the eurozone, however, the euro crisis is impeding provision of

the necessary financing. This may lead to declines in individual market segments and an adverse effect on suppliers' financial position. In the second half of 2012, investors became more reluctant to invest in the automotive supply sector due to the drop in demand in Europe and the difficult situation facing competitors. Volkswagen continuously monitors changes at the suppliers' end and, if there are any negative developments, uses a suite of different measures intended to help reduce risks and ensure supplies. If such risk management measures fail there is a supply risk due to supplier defaults.

Production risk

In the second half of 2012, most European markets experienced a sharp fall in unit sales, which had a noticeable impact on the entire European automotive industry. At Volkswagen's largest competitors, the drop in unit sales in core segments led to a decline in plant and workforce capacity utilization, which in extreme cases even resulted in factory closures. For several reasons, the Volkswagen Group was able to address this risk successfully and thus keep capacity utilization at its European locations largely unchanged. Firstly, the Volkswagen Group benefits from its broad product range, so that declines in individual vehicle segments can be offset elsewhere. Secondly, Volkswagen's presence in almost all the world's markets also helps to absorb fluctuations in demand in one region in the global production network. However, these two factors can only come into play as a result of Volkswagen's flexible production network, which uses turntable concepts, for example, to distribute production volumes evenly and hence minimize the impact on individual sites. This applies to both vehicle and component factories.

Nevertheless, shifts between the vehicle segments — as a result of the sales crisis in Europe — may, for example, cause the balance of demand between different vehicle equipment features to deviate sharply from the original plan in the short term, potentially leading to supply bottlenecks.

Special risks may arise during large projects. These result in particular from contracting deficiencies, mis-costing, post-contracting changes in economic and technical conditions, and poor performance on the part of subcontractors.

Risks arising from changes in demand

Consumer demand not only depends on real factors such as disposable income; it is also shaped by psychological factors that are impossible to plan for.

Increased fuel and energy prices could lead to unexpected buyer reluctance, which could be further exacerbated by media reports. This is particularly the case in saturated automotive markets such as Western Europe, where demand could drop as a result of owners holding on to their vehicles for a longer time.

In 2012, the effect of unplannable psychological demand factors was exacerbated by the euro crisis and its impact on the global economy and the entire automotive industry. Several automotive markets, particularly in Southern Europe, were in a downward spiral, which in some cases assumed dramatic proportions.

In addition to buyer reluctance as a result of the crisis, a combination of vehicle taxes based on CO₂ emissions — like those already structured in some European countries — and high oil and energy prices is causing a shift in demand towards smaller vehicle segments and engines in individual markets. In the rapidly expanding markets of Asia and Eastern Europe, risks arise due to government intervention in the form of tax increases, for example, which could reduce private consumption.

Dependence on fleet customer business

In 2012, the percentage of total registrations in Germany accounted for by business fleet customers increased to 12.7% (previous year: 12.4%). The Volkswagen Group's share of this segment rose to 47.7% (previous year: 46.8%). Although registrations by business fleet customers fell by 4.3% in a declining market, the Volkswagen Group's share increased to 29.3% (previous year: 28.7%). The fleet customer business continues to be marked by increasing concentration and internationalization.

Quality risk

Sustained high demand in the Volkswagen Group's key markets poses particular challenges for quality assurance. Quality assurance is of fundamental importance especially in the growing automotive markets of Brazil, Russia, India and China, for which dedicated vehicles are developed and where local manufacturing operations and suppliers have been established. In cooperation with the central quality assurance function, Volkswagen continuously develops effective measures to counter identified local risks and then implement those measures locally, thus minimizing quality defects from the outset.

Volkswagen's need for high-grade supplier components of impeccable quality is rising due to growing production volumes, increasing complexity and the use of the Volkswagen Group's toolkit system. To ensure

production and hence meet customer expectations, it is extremely important that Volkswagen's own plants and suppliers deliver on time. The introduction of an internally-tested risk management system at suppliers is an important step towards ensuring long-term quality and supply capability early on in the supply chain.

Personnel risk

The individual skills and technical expertise of Volkswagen Group's employees are a major factor contributing to the Volkswagen Group's success. Volkswagen Group's aim of becoming top employer in the automotive industry improves Volkswagen's chances of recruiting and retaining the most talented employees.

Volkswagen Group's strategic, end-to-end human resources development strategy gives all employees attractive training and development opportunities, with particular emphasis placed on increasing technical expertise in Volkswagen's different vocational groups. However, failure to attract sufficient numbers of new employees and to retain qualified employees may lead to competitive disadvantages.

IT risk

At Volkswagen the information technology (IT) used in all divisions Group-wide is assuming an increasingly important role. IT risks include unauthorized access to sensitive electronic corporate data and information as well as limited availability as a consequence of downtime or natural disasters. Volkswagen Group addresses the risk of unauthorized access to corporate data by using firewall and intrusion prevention systems and a dual authentication procedure. Volkswagen Group achieves additional protection by restricting the allocation of access rights to systems and information and by keeping backup copies of critical data resources. For this, Volkswagen Group uses technical resources that have been tried and tested in the market, adhering to standards applicable throughout the Group. By implementing redundant IT infrastructures, Volkswagen Group protects itself against risks that occur in the event of a systems failure or natural disaster.

As Volkswagen Group's importance as a multinational corporation grows, so do the intensity and sophistication of the attacks on its IT systems and data resources. This is why Volkswagen Group continuously takes measures against identified and anticipated risks during the software development process, when protecting the IT infrastructure and also in the allocation of access rights to systems and data resources. Rapid technological advancement however, creates a residual risk in relation to IT security that cannot be managed completely.

Environmental protection regulations

The EU regulations governing CO₂ emissions from passenger cars (443/2009/EC) and light commercial vehicles of up to 3.5 tonnes (510/2011/EU), in effect since April 2009 and June 2011 respectively, set specific emission limits for the new passenger car and light commercial vehicle fleets calculated from the individual vehicle data of brands in the EU member states by the end of 2019. They are an important component of European climate protection regulations and therefore form the key regulatory framework for product design and marketing by all vehicle manufacturers operating in the European markets.

From 2012 onwards, the average CO₂ emissions of European manufacturers' new passenger car fleets may not exceed 130g CO₂/km. This requirement is to be introduced in four stages: 65% of the fleet must meet this requirement as of 2012 and the entire fleet by 2015. A further significant reduction in European passenger car fleet emissions to 95g CO₂/km from 2020 onwards has already been resolved, although the details as to how it will be reached have not. These are expected to be agreed by the end of 2013 in the course of the European Commission's current review.

The EU CO₂ regulation for light commercial vehicles requires limits to be met from 2014 onwards, with targets being phased in over the period to 2017: the average CO₂ emissions of new registrations in Europe may not exceed 175g CO₂/km. The long-term target for the period after 2020 has also been set (at 147g CO₂/km), subject to the European Commission's current review. Like the CO₂ regulation for passenger cars, the regulation provides for derogations from the targets, for example by offering relief for eco-innovations.

The European Commission intends to set out the CO₂ regime for the period after 2020 by the end of 2014. Politicians are already discussing reduction targets for the transport sector for the period to 2050, such as the 60% reduction in greenhouse gases from 1990 levels cited in the EU White Paper on transport published in March 2011. At the same time, CO₂ or fuel consumption regulations are also being developed or introduced outside Europe — in Japan, China, India, Brazil, Australia and Mexico, for example. In the USA, a new consumption regulation will prolong uniform fuel consumption and greenhouse gas rules in all states of the USA for the period from 2017 to 2025. The new USA standards were issued by the U.S. Department of Transportation and the U.S. Environmental Protection Agency on August 28, 2012.

Increasing CO₂ and consumption regulations mean that the most efficient technologies are required in all key markets worldwide.

The Volkswagen Group closely coordinates technology and product planning with its brands so as to avoid target breaches, which entail severe sanctions. In principle, the EU legislation permits some flexibility. For example:

- Emission pools between brands may be formed,
- So-called “super credits” are in place for vehicles that emit less than 50g CO₂/km. Depending on the year of registration, these cars are counted 3.5–1.5 times in the respective manufacturer’s fleet emission balance,
- The value of so-called “eco innovations” — technologies that measurably save CO₂ outside the standardized testing procedures — can be deducted from a brand’s fleet emission balance after an application procedure,
- Special rules are in place for small and niche manufacturers.

Whether the targets are met, however, depends crucially on the Volkswagen Group’s technological and financial capabilities, which are reflected, among other things, in its drivetrain and fuel strategy. The other main EU regulations affecting the automotive industry include

- EU Directive 2009/33/EC on the promotion of clean and energy-efficient road transport vehicles (Green Procurement Directive),
- Passenger car energy consumption labeling directive 1999/94/EC,
- Fuel Quality Directive 2009/30/EC: updates the fuel quality specifications and introduces energy efficiency specifications for fuel production,
- Renewable Energy Directive 2009/28/EC: introduces sustainability criteria, and
- Revised Energy Taxation Directive 2003/96/EC: updates the minimum tax rates for all energy products and power.

The implementation of the above-mentioned directives by the EU member states serves as a flanking measure for the CO₂ regulations in Europe. As well as vehicle manufacturers, they are also aimed at other stakeholders such as the mineral oil industry. Plans to tax vehicles based on CO₂ emissions are having a similar effect; many EU member states have already incorporated CO₂ elements into their rules on vehicle taxation.

At the same time as the CO₂ legislation for passenger cars and light commercial vehicles, the EU is preparing CO₂ regulation for heavy commercial vehicles. Setting one overarching limit for these vehicles — like that in place for passenger cars and light commercial vehicles — is extremely complicated because of the wide range of variants (tractors with different trailers or bodywork). Therefore, a system for measuring and certifying CO₂ emissions by heavy commercial vehicles that considers the vehicle as a whole is currently being worked on. This is expected to be the basis for the EU’s concrete regulatory proposals, which are expected for 2014 and are likely to enter into force in 2017/2018.

Manufacturers of heavy commercial vehicles are urging the adoption of a system for quantifying CO₂ figures that is accessible to everyone and that looks at the vehicle as a whole, and not simply at the engine or the tractor, in order to increase transparency and therefore competition in the market.

As part of its efforts to reduce the CO₂ emissions of heavy commercial vehicles, the European Commission is also planning to revise the provisions regarding the maximum permissible dimensions of trucks (Directive 96/53/EC, the “masses and dimensions” directive). By relaxing the legal length restrictions, it may be possible to design vehicles in an aerodynamic way without losing any loading space. As air resistance is lower in a rounded and streamlined design, this leads to lower fuel consumption. Considering the vehicle as a whole could save up to 25% in fuel through the aerodynamic design of cabs and trailers, as well as additional technical innovations.

In the Power Engineering segment, the International Maritime Organization (*IMO*) has laid down the International Convention for the Prevention of Pollution from Ships (*MARPOL*), which phases in limits on exhaust emissions from marine engines. Emission limits also apply, for example, under EU directive 97/68/EC and the US EPA regulations. As regards stationary equipment, national rules are in place worldwide and have to be applied locally. On December 18, 2008, the World Bank Group set limits for gas and diesel engines in its “Environmental, Health, and Safety Guidelines for Thermal Power Plants”, which are binding if individual countries have adopted no or less strict national requirements. In addition, back in 1979, the United Nations adopted the Convention on Long-range Transboundary Air Pollution, setting limits on total emissions as well

as nitrogen oxide limits for the signatory states (including all EU states, other countries in Eastern Europe, the USA and Canada). Enhancements to the product portfolio in the Power Engineering segment are focusing on improving the efficiency of the equipment and systems.

In order to be optimally prepared for the third emissions trading period, which started in January 2013, Volkswagen calculated and reported the CO₂ emissions to be reported for German plants in accordance with the German Data Collection Regulation (*Datenerhebungsverordnung — DEV 2020*). Volkswagen submitted the appropriate applications for the allocation of certificates to the German Emissions Trading Authority (*Deutsche Emissionshandelsstelle — DEHSt*) for all plants.

The changes to the Emissions Trading Directive and their transposition into German law have been completed. From a current perspective, the number of plants included in the European emissions trading system and the related amount of CO₂ emissions requiring to be traded will not increase significantly.

The allocation of the necessary emissions certificates has changed fundamentally in 2013. They are no longer allocated mostly free of charge through national allocation plans. Instead, a steadily falling number of certificates, for heat generation using natural gas for example, are allocated free of charge. Companies will have to purchase any additional certificates they require at auction. Unlike before, CO₂ emissions certificates for power generation will have to be purchased in full. Estimates to date indicate that the energy costs incurred by the Volkswagen Group's European sites will increase as a result of purchasing the emission allowances required for the operation of proprietary power plants and heating facilities. The amount of the additional costs will depend essentially on the price at which the certificates are traded.

The European Commission is currently giving detailed consideration to intervening in EU emissions trading in order to boost it. The Commission is currently in favor of delaying the allocation of a defined number of certificates from the beginning of the third trading period to the end of the trading period. This artificial shortage of certificates at the beginning of the trading period may cause certificate prices to rise.

The future political direction of global climate protection agreements remains unclear. There is currently no sound long-term prospect of specific reduction targets, responsibilities and funding arrangements or more stringent climate protection requirements based on them. At the UN, a new climate protection agreement for 2020 onwards is to be negotiated by 2015 at the latest.

Litigation

In the course of their operating activities, Volkswagen AG and the companies in which it is directly or indirectly invested become involved in legal disputes and official proceedings in Germany and internationally. In particular, such proceedings may occur in relation to suppliers, dealers, customers, employees, or investors. For the companies involved, these may result in payment or other obligations. Particularly in cases where US customers assert claims for vehicle defects individually or by way of a class action, highly cost-intensive measures may have to be taken and substantial compensation or punitive damages paid. Corresponding risks also result from US patent infringement proceedings.

Where transparent and economically viable, adequate insurance cover is taken out for these risks and appropriate provisions recognized for the remaining identifiable risks. However, as some risks cannot be assessed or can only be assessed to a limited extent, the possibility of loss or damage not being covered by the insured amounts and provisions cannot be ruled out.

Strategies for hedging financial risks

In the course of Volkswagen's business activities, financial risks may arise from changes in interest rates, exchange rates, raw material prices, or share and fund prices. Management of financial and liquidity risks is the responsibility of the central Group Treasury department, which manages these risks using nonderivative and derivative financial instruments. The Board of Management is informed of the current risk situation at regular intervals.

Volkswagen hedges interest rate risk, where appropriate in combination with currency risk, and risks arising from fluctuations in the value of financial instruments by means of interest rate swaps, cross-currency swaps and other interest rate contracts with matching amounts and maturity dates. This also applies to financing arrangements within the Volkswagen Group.

Foreign currency risk is reduced in particular through natural hedging, i.e. by flexibly adapting the Volkswagen Group's production capacity at its locations around the world, establishing new production facilities in the most important currency regions and also procuring a large percentage of components

locally, currently for instance in India, Russia, the USA, China and Mexico. Volkswagen hedges the residual foreign currency risk using hedging instruments. These include currency forwards, currency options and cross-currency swaps. Volkswagen uses these transactions to limit the currency risk associated with forecasted cash flows from operating activities and intragroup financing in currencies other than the respective functional currency. The currency forwards and currency options can have a term of up to six years. They are used to hedge Volkswagen's principal foreign currency risks associated with forecasted cash flows, mostly against the euro and primarily in US dollars, sterling, Chinese renminbi, Russian rubles, Swedish kronor, Mexican pesos, Australian dollars and Korean won.

In purchasing raw materials, risks arise relating to the availability of raw materials and price trends. Volkswagen limits these risks mainly by entering into forward transactions and swaps. Volkswagen has used appropriate contracts to hedge some of its requirements for commodities such as aluminum, copper, lead, platinum, rhodium, palladium and coal over a period of up to seven years. Similar transactions have been entered into for the purpose of supplementing and improving allocations of CO₂ emission certificates.

Volkswagen ensures that it remains solvent at all times by holding sufficient liquidity reserves, through confirmed credit lines and through tried-and-tested money market and capital market programs. Volkswagen covers the capital requirements of the growing financial services business mainly through borrowings at matching maturities raised in the national and international financial markets as well as through customer deposits from the direct banking business. Financing conditions in 2012 were almost unchanged compared with 2011.

Credit lines from banks are generally only ever used within the Volkswagen Group to cover short-term working capital requirements. Projects are financed by, among other things, loans provided at favorable interest rates by development banks such as the European Investment Bank (EIB), the International Finance Corporation (IFC) and the European Bank for Reconstruction and Development (EBRD), or by national development banks such as Kreditanstalt für Wiederaufbau (KfW) and Banco Nacional de Desenvolvimento Econômico e Social (BNDES).

Risks arising from financial instruments

Channeling excess liquidity into investments gives rise to counterparty risk. Partial or complete failure by a counterparty to perform its obligation to pay interest and repay principal would have a negative impact on earnings and liquidity. In addition to counterparty risk, the financial instruments held for hedging purposes hedge balance sheet risks.

Liquidity risks

A rating downgrade could adversely affect the terms attached to the Volkswagen Group's borrowings.

In 2012, the contribution in full of Dr. Ing. h.c. F. Porsche AG to the Volkswagen Group as of August 1, 2012, the increase in the equity interest in MAN SE and the acquisition of sports motorcycle manufacturer Ducati Motor Holding S.p.A. resulted in a large outflow of liquidity.

Residual value risk in the financial services business

In the financial services business, Volkswagen agrees to buy back selected vehicles at a residual value that is fixed at inception of the contract. Residual values are set realistically so that Volkswagen is able to leverage market opportunities. Volkswagen evaluates the underlying lease contracts at regular intervals and recognizes any necessary provisions if potential risks are identified.

Management of the residual value risk is based on a defined feedback loop ensuring the full assessment, monitoring, management and communication of risks. As part of Volkswagen's risk management, residual value forecasts are used to regularly assess the appropriateness of the provisions for risks and the potential for residual value risk. In so doing, Volkswagen compares the contractually agreed residual values with the fair values obtainable. These are determined utilizing data from external service providers and Volkswagen's own marketing data.

Risks in relation to corporate acquisitions, cooperations and equity interests

Volkswagen has made significant acquisitions in the recent past and has not ruled out the possibility that it will continue to acquire companies and equity interests in companies in the future. Corporate acquisitions are typically associated with significant investments and risks. As it is often not possible to completely review the target company prior to the acquisition or investment, or this can be done only by incurring disproportionately high costs, Volkswagen can therefore not guarantee that it will recognize all risks related to such a transaction in advance or that it will have protected itself against such risks. There is a risk that it

might not be possible to realize the targets for growth, economies of scale, cost savings, development, production and distribution targets, or other strategic goals being sought from the acquisition of companies and interests in companies, or it may only be possible to realize them to an insufficient extent given time and budget constraints.

For research and development, market launches and large projects, Volkswagen at times enters into joint ventures with strategic partners, recently with a focus on China. In the corresponding agreements, Volkswagen agrees with the joint venture partners or the joint ventures to perform certain services for the project. If Volkswagen fails to fulfill its obligations under these contracts, either in whole or in part, this may lead to claims for damages, contractual penalties or termination of the joint venture by the partner or by the joint venture. Additionally, Volkswagen cannot exclude the possibility that joint venture technology will or must be disclosed to joint venture partners and that they will use it for their own purposes outside the joint venture project.

Other Factors

Going beyond the risks already outlined, there are other factors that cannot be predicted and are therefore difficult to control. Should these transpire, they could have an adverse effect on the further development of the Volkswagen Group. These factors include natural disasters, epidemics and terror attacks.

Risks relating to the Notes

An investment in the Notes involves certain risks associated with the characteristics of the Notes. Such risks could result in principal or interest not being paid on time or at all by the Issuer and/or a material impairment of the market price of the Notes. The following is a description of risk factors in relation to the Notes.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes, and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- have access to and knowledge of appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the relevant Notes and be familiar with the behaviors of any relevant indices and financial markets;
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks; and
- recognize that it may not be possible to dispose of the Notes for a substantial period of time or at all.

The Notes are undated securities in which an investment constitutes a financial risk for an indefinite period.

The Notes are undated securities and Noteholders may not declare the Notes due and payable. Therefore, prospective investors should be aware that they may be required to bear the financial risks of an investment in the Notes for an indefinite period and may not recover their investment in a foreseeable future.

Noteholders are subject to risks relating to the early redemption of the Notes.

At the Issuer's option each type of the Notes may be redeemed at 100% of the principal amount plus accrued and unpaid interest and any Arrears of Interest pursuant to the Terms and Conditions of the Notes, (i) on the respective first call date of an issue or any Interest Payment Date thereafter, (ii) if as a consequence of a change in law it has to pay any additional amounts with respect to taxation or (iii) if 80% or more in principal amount of such issue of Notes initially issued has been redeemed or repurchased.

In addition, the Issuer may at its option redeem each issue of the Notes at 101% of the principal amount plus accrued and unpaid interest and any Arrears of Interest pursuant to the Terms and Conditions of the Notes, if (i) interest payable in respect of such issue of the Notes is no longer fully income tax deductible, (ii) the funds raised through the issuance of such issue of Notes must not or must no longer be recorded as "equity capital" of the Issuer, (iii) Moody's and / or S&P determine to no longer grant the same or higher category of "equity credit" to such issue of Notes as a result of an amendment, clarification or change to the equity credit criteria of such rating agency.

In the case of redemption, Noteholders might suffer a lower than expected yield and might not be able to reinvest the funds on the same terms. Moreover, the redemption amount in the event of a redemption may be lower than the prevailing market price of the Notes.

The Notes are subordinated to senior obligations of the Issuer.

The obligations of the Issuer under the Notes will be unsecured subordinated obligations of the Issuer which in an insolvency or liquidation of the Issuer rank *pari passu* among themselves and with certain other obligations of the Issuer, subordinated to all present and future unsubordinated and subordinated obligations of the Issuer and senior only to the Issuer's share capital and similar present or future instruments. According to the Terms and Conditions of the Notes, in an insolvency or liquidation of the Issuer, no payments under the Notes will be made to the Noteholders unless the Issuer has discharged or secured in full (i.e. not only with a quota) all claims that rank senior to the Notes. In a liquidation, insolvency or any other proceeding for the avoidance of insolvency of the Issuer, the Noteholders may recover proportionately less than the Noteholders of unsubordinated or subordinated obligations of the Issuer or may recover nothing at all. Investors should take into consideration that liabilities ranking senior to the Notes may also arise out of events that are not reflected on the Issuer's balance sheet, including, without limitation, the issuance of guarantees or other payment undertakings. Claims of beneficiaries under such guarantees or other payment undertakings will, in liquidation or insolvency proceedings of the Issuer, become unsubordinated or subordinated liabilities and will therefore be paid in full before payments are made to Noteholders.

The Notes do not include express events of default or a cross default.

The Noteholders should be aware that the Terms and Conditions of the Notes do not contain any express event of default provisions. There will also not be any cross default under the Notes.

The Issuer will partially depend on payments from other members of the Volkswagen Group to make payments on the Notes.

The Issuer's cash flow and ability to service debt depend upon its own business operations, which consist principally of the receipt of payments from the other operating subsidiaries within the Volkswagen Group for amounts lent to such subsidiaries. Applicable laws and regulations and the terms of other agreements to which the Issuer or other Volkswagen Group operating subsidiaries may be or may become subject, could restrict their ability to provide the Issuer with adequate funds.

The Notes do not contain any financial covenants.

Neither the Guarantor nor any of its subsidiaries (including the Issuer) will be restricted from incurring additional unsecured debt or other liabilities, including senior debt under the terms of the Notes. If the Guarantor incurs additional debt or liabilities, the Issuer and/or the Guarantor's ability to pay its obligations on the Notes could be adversely affected. In addition, under the Notes, neither the Issuer nor the Guarantor will be restricted from paying dividends or issuing or repurchasing their other securities. Noteholders will not be protected under the terms of the Notes in the event of a highly leveraged transaction, a reorganization or a restructuring, merger or similar transaction that may adversely affect Noteholders.

The Noteholders have no voting rights.

The Notes are non-voting with respect to general meetings of the Issuer. Consequently, the Noteholders cannot influence any decisions by the Issuer to defer interest payments or to optionally settle such Arrears of Interest or any other decisions by the Issuer's shareholders concerning the capital structure or any other matters relating to the Issuer.

The Noteholders' only remedy against the Issuer is the institution of legal proceedings to enforce payment or to file an application for insolvency proceedings.

The only remedy against the Issuer available to the Noteholders for recovery of amounts which have become due in respect of the Notes will be the institution of legal proceedings to enforce payment of the

amounts or to file an application for the institution of insolvency proceedings. On an insolvency or liquidation of the Issuer, any holder may only declare its Notes due and payable and may claim the amounts due and payable under the Notes, after the Issuer has discharged or secured in full (i.e. not only with a quota) all claims that rank senior to the Notes.

No limitation on issuing further debt ranking senior or pari passu with the Notes

There is no restriction on the amount of debt which the Issuer may issue ranking senior or equal to the obligations under or in connection with the Notes. Such issuance of further debt would reduce the amount recoverable by the holders upon insolvency or liquidation of the Issuer or may increase the likelihood that the Issuer is required or permitted to defer payments of interest under the Notes.

Subordinated claims under Guarantee

The Guarantor's obligations under the Guarantee are unsecured deeply subordinated obligations of the Guarantor ranking subordinated to all unsubordinated obligations and to all subordinated obligations within the meaning of section 39 paragraph 1 of the German Insolvency Code (*Insolvenzordnung*) (including any shareholder loans) and at least *pari passu* amongst them-selves and with all present unsecured obligations of the Guarantor which rank subordinated to all unsubordinated obligations and to all subordinated obligations under section 39 paragraph 1 of the German Insolvency Code, except for any subordinated obligations required to be preferred by mandatory provisions of law. In the event of the liquidation, dissolution or insolvency of the Guarantor or any proceeding for the avoidance of insolvency of the Guarantor, the obligations of the Guarantor under the Guarantee are subordinated to the claims of all holders of unsubordinated obligations and subordinated obligations within the meaning of section 39 paragraph 1 of the German Insolvency Code, so that in any such event payments in respect of the Guarantee will not be made until all claims against the Guarantor under obligations which rank senior to obligations of the Guarantor under the Guarantee have been satisfied in full (i.e. not only with a quota). The obligations of the Guarantor under the Guarantee are senior only to the Junior Obligations of the Guarantor.

Investors should take into consideration that liabilities ranking senior to the Guarantee may also arise out of events that are not reflected on the Guarantor's balance sheet, including, without limitation, the issuance of guarantees or other payment undertakings. Claims of beneficiaries under such guarantees or other payment undertakings will, in liquidation or insolvency proceedings of the Guarantor, become unsubordinated or subordinated liabilities and will therefore be paid in full before payments are made to holders.

The beneficiaries under the Guarantee have limited rights in German insolvency proceedings

In an insolvency over the assets of the Guarantor, claims against the Guarantor under the Guarantee would be treated as a deeply subordinated insolvency claim (*nachrangige Insolvenzforderungen*). According to Section 174 paragraph 3 of the German Insolvency Code, deeply subordinated insolvency claims must not be registered with the insolvency court unless the insolvency court handling the case has granted special permission allowing these deeply subordinated insolvency claims to be filed which is not the rule, but the exception. The beneficiaries of the Guarantee would not participate in any creditors' committee (*Gläubigerausschuss*) and would have very limited rights within the creditors' assembly (*Gläubigerversammlung*). They may be invited to participate in the creditors' assembly, but would not be entitled to vote within such meetings (Section 77 paragraph 1 of the German Insolvency Code).

In case of insolvency plan proceedings (*Insolvenzplanverfahren*) the beneficiaries under the Guarantee generally would have no voting right on the adoption of an insolvency plan presented by the Guarantor, the relevant insolvency administrator or custodian (Sections 237 and 246 of the German Insolvency Code). In addition, their claims would be waived after the adoption of the insolvency plan unless the insolvency plan makes an exception to this general rule (Section 225 paragraph 1 German Insolvency Code).

The Notes have not been admitted to trading and any trading market may be volatile.

There is currently no secondary market for the Notes. Application has been made for the Notes to be admitted to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the Official List of the Luxembourg Stock Exchange. There can, however, be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, an investor may not be able to sell his Notes at any time at fair market prices. The ability of Noteholders to sell the Notes might also be restricted for country-specific reasons.

Moreover, the trading market for the Notes may be volatile and can be adversely impacted by many events. The market for the Notes may be influenced by economic and market conditions in Germany or Luxembourg and, to varying degrees, by market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialized countries. There can be no assurance that events

in Luxembourg, Germany, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of the Notes or that economic and market conditions will not have other adverse effects.

There is a risk that trading in the Notes will be suspended, interrupted or terminated.

The listing of the Notes may be suspended or interrupted by the Luxembourg Stock Exchange or a competent regulatory authority for any of a number of reasons, including violation of price limits, breach of statutory provisions, occurrence of operational problems of the stock exchange or generally if deemed required in order to secure a functioning market or to safeguard the interests of investors. Furthermore, trading in the Notes may be terminated, either upon decision of the stock exchange, a regulatory authority or upon application by the Issuer. Investors should note that the Issuer has no influence on trading suspension or interruptions (other than where trading in the Notes is terminated upon the Issuer's decision) and that investors in any event must bear the risks connected therewith. In particular, investors may not be able to sell their Notes where trading is suspended, interrupted or terminated, and the stock exchange quotations of such Notes may not adequately reflect the price of such Notes. Finally, even if trading in the Notes is suspended, interrupted or terminated, investors should note that such measures may neither be sufficient nor adequate nor in time to prevent price disruptions or to safeguard the investors' interests; for example, where trading in the Notes is suspended after price-sensitive information relating to such Notes has been published, the price of such Notes may already have been adversely affected. All these risks would, if they materialize, have a material adverse effect on the investors.

The Noteholders are exposed to risks relating to the fixed interest notes.

Each issue of Notes bears interest at a fixed rate to but excluding the First Call Date for that issue of Notes.

A holder of a fixed interest rate note is exposed to the risk that the price of such note may fall because of changes in the market interest rate. While the nominal interest rate of a fixed interest rate note is fixed during the life of such note or during a certain period of time, the current interest rate on the capital market (market interest rate) typically changes on a daily basis. If the market interest rate changes, the price of such bond changes in the opposite direction. If the market interest rate increases, the price of such note typically falls, until the yield of such note is approximately equal to the market interest rate. If the market interest rate falls, the price of a fixed interest rate note typically increases, until the yield of such bond is approximately equal to the market interest rate. Noteholders should be aware that movements of the market interest rate can adversely affect the market price of the Notes and can lead to losses for Noteholders if they sell their Notes.

The Noteholders are exposed to risks relating to the reset of interest rates linked to the 5-year swap rate or 10-year swap rate.

From and including the First Call Date to but excluding the date on which the Issuer redeems the Notes in whole, the Notes bear interest at a rate which will be determined on each reset date at the 5-year swap rate or the 10-year swap rate, as applicable, for the relevant reset period plus a margin.

Investors should be aware that the performance of the 5-year swap rate or the 10-year swap rate, as applicable, and the interest income on the Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of the Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. In addition, after interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing.

Furthermore, during each Reset Period, it cannot be ruled out that the price of the Notes may fall as a result of changes in the current interest rate on the capital market (market interest rate), as the market interest rate fluctuates. During each of these periods, the investor is exposed to the risk as described under "*—Fixed interest rate notes*".

Interest payments under the Notes may be deferred at the option of the Issuer.

Noteholders should be aware that interest may not be due and payable (*fällig*) on the scheduled Interest Payment Date, and that the payment of the resulting Arrears of Interest is subject to certain further conditions. Failure to pay interest as a result of an interest deferral will not constitute a default of the Issuer or a breach of any other obligations under the Notes or for any other purposes. Noteholders will not receive any additional interest or compensation for the deferral of payment. In particular, the resulting Arrears of Interest will not bear interest.

Ratings of the Issuer, the Guarantor or the Notes may be subject to change at all times.

A rating of the Issuer or the Guarantor may not adequately reflect all risks of the investment in Notes issued by the Issuer and guaranteed by the Guarantor. Equally, ratings may be suspended, downgraded or withdrawn. Such suspension, downgrading or withdrawal may have an adverse effect on the market value and trading price of the Notes. One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. Rating agencies may also change their methodologies for rating securities with features similar to the Notes in the future.

If the rating agencies were to change their practices for rating such securities in the future and the ratings of the Notes were to be subsequently lowered, this may have a negative impact on the trading price of the Notes.

A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

For Noteholders for which the Euro represents a foreign currency, the Notes expose them to currency risk.

The Notes are denominated in Euro. If such currency represents a foreign currency to a holder, such holder is particularly exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes measured in the holder's currency. Changes in currency exchange rates result from various factors such as macroeconomic factors, speculative transactions and interventions by central banks and governments.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer.

The Notes will be represented by one or more global notes. Such global notes will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. Investors will not be entitled to receive definitive notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the global notes. While the Notes are represented by one or more global notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg and the Issuer will discharge its payment obligations under the Notes by making payments to the common depository for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in global notes must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of beneficial interests in, the global notes.

Risks in connection with the application of the German Act on Issues of Debt Securities (Gesetz über Schuldverschreibungen aus Gesamtemissionen).

A holder is subject to the risk of being outvoted and of losing rights towards the Issuer against his will in the event that Noteholders agree pursuant to the Terms and Conditions of the Notes to amendments of the Terms and Conditions of the Notes by majority vote according to the German Act on Issues of Debt Securities (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*). In the event of an appointment of a Noteholders' representative for all Noteholders a particular holder may lose, in whole or in part, the possibility to enforce and claim his rights against the Issuer regardless of other Noteholders.

Investors in the Notes assume the risk that the credit spread of the Issuer changes (credit spread risk).

A credit spread is the margin payable by the Issuer to the holder of a Note as a premium for the assumed credit risk of the Issuer. Credit spreads are offered and sold as premiums on current risk-free interest rates or as discounts on the price.

Factors influencing the credit spread include, among other things, the creditworthiness and rating of the Issuer, probability of default, recovery rate, remaining term to maturity of obligations under any collateralization or guarantee and declarations as to any preferred payment or subordination. The liquidity situation, the general level of interest rates, overall economic developments, and the currency, in which the relevant obligation is denominated may also have a positive or negative effect.

Investors are exposed to the risk that the credit spread of the Issuer widens, resulting in a decrease in the price of the Notes.

Due to future money depreciation (inflation), the real yield of an investment may be reduced.

Inflation risk describes the possibility that the value of assets such as the Notes or income therefrom will decrease as inflation reduces the purchasing power of a currency. Inflation causes the rate of return to decrease in value. If the inflation rate exceeds the interest paid on any Notes the yield on such Notes will become negative and investors will have to suffer a loss.

The tax impact of an investment in the Notes should be carefully considered.

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. Potential investors are advised not to rely upon the tax overview contained in this Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Notes. Only these advisers are in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with the section "Taxation" of this Prospectus.

If a loan is used to finance the acquisition of the Notes, the loan may significantly increase the risk of a loss.

If a loan is used to finance the acquisition of the Notes by an investor and the Notes subsequently go into default, or if the trading price diminishes significantly, the investor may not only have to face a potential loss on its investment, but it will also have to repay the loan and pay interest thereon. A loan may significantly increase the risk of a loss. Investors should not assume that they will be able to repay the loan or pay interest thereon from the profits of a transaction in the Notes. Instead, investors should assess their financial situation prior to an investment, as to whether they are able to pay interest on the loan, repay the loan on demand, and that they may suffer losses instead of realizing gains.

Incidental costs related in particular to the purchase and sale of the Notes may have a significant impact on the profit potential of the Notes.

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) may be incurred in addition to the purchase or sale price of the Notes. These incidental costs may significantly reduce or eliminate any profit from holding the Notes. Credit institutions as a rule charge commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value. To the extent that additional - domestic or foreign - parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, investors may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

In addition to such costs directly related to the purchase of Notes (direct costs), investors must also take into account any follow-up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

(2) **Definitionen.**

For this purpose, the mid-market annual swap rate means the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term of 5 years commencing on that Reference Reset Date and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to a designated maturity of six months. The Calculation Agent will request the principal office of each of the Reference Banks to provide a quotation of its rate. If at least three quotations are provided, the rate for that Reset Date will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

(4) Day Count Fraction.

Where interest is to be calculated in respect of any period of time that is equal to or shorter than an Interest Period (the "**Calculation Period**"), the interest will be calculated on the basis of the actual number of days elapsed in such Calculation Period (from and including the day from which interest begins to accrue to but excluding the day on which it falls due), divided by the number of days in the Interest Period in which the Calculation Period falls (Act/Act (ICMA)) (including the first such day of the relevant Interest Period but excluding the last day of the relevant Interest Period).

(5) Cessation of interest accrual.

The Notes will cease to bear interest from the beginning of the day their principal amount is due for repayment. If the Issuer fails to make any payment of principal under the Notes when due, the Notes will cease to bear interest from the beginning of the day on which such payment is made. (1) Due date for interest payments; optional interest deferral.

- (a) Interest which accrues during an Interest Period will be due and payable (*fällig*) on the relevant Interest Payment Date, unless the Issuer elects, by giving notice to the Noteholders not less than 10 Business Days prior the relevant Interest Payment Date in accordance with § 13, to defer the relevant payment of interest (in whole but not in part).

If the Issuer elects not to pay accrued interest on an Interest Payment Date, then it will not have any obligation to pay such interest on such Interest Payment Date. (4) Zinstagekoeffizient.

Sind Zinsen für einen Zeitraum zu berechnen (der „**Zinsberechnungszeitraum**“), der kürzer als eine Zinsperiode ist oder einer Zinsperiode entspricht, so werden sie berechnet auf der Grundlage der tatsächlichen Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum (ab dem ersten Tag, an dem Zinsen auflaufen (einschließlich) bis zu dem Tag, an dem die Zinsen fällig werden (ausschließlich)), dividiert durch die Anzahl der Tage in der Zinsperiode, in die der betreffende Zinsberechnungszeitraum fällt (Act/Act (ICMA)) (einschließlich des ersten Tages der betreffenden Zinsperiode, aber ausschließlich des letzten Tages der betreffenden Zinsperiode).

(5) Zinslaufende.

Die Verzinsung der Schuldverschreibungen endet mit Beginn des Tages, an dem ihr Kapitalbetrag zur Rückzahlung fällig wird. Sollte die Emittentin eine Zahlung von Kapital auf die Schuldverschreibungen bei Fälligkeit nicht leisten, endet die Verzinsung der Schuldverschreibungen mit Beginn des Tages der tatsächlichen Zahlung. Der in einem solchen Fall jeweils anzuwendende Zinssatz wird gemäß § 3(1) bestimmt.

§ 6

(Fälligkeit von Zinszahlungen; Aufschiebung von Zinszahlungen; Zahlung Aufgeschobener Zinszahlungen)

(1) Fälligkeit von Zinszahlungen; wahlweiser Zinsaufschub.

Wenn sich die Emittentin an einem Zinszahlungstag zur Nichtzahlung aufgelaufener Zinsen entscheidet, dann ist sie nicht verpflichtet, an dem betreffenden Zinszahlungstag Zinsen zu zahlen. Eine Nichtzahlung von Zinsen aus diesem Grunde begründet keinen Verzug der Emittentin und keine anderweitige Verletzung ihrer Verpflichtungen aufgrund der Schuldverschreibungen oder für sonstige Zwecke.

Interest not due and payable in accordance with this § 6(1)(a) will constitute arrears of interest ("**Arrears of Interest**").

(b) Arrears of Interest will not bear interest.

(3) **Mandatory Payment of Arrears of Interest**

The Issuer must pay outstanding Arrears of Interest (in whole but not in part) on the earliest of the following calendar days (each a "**Mandatory Settlement Date**"):

- (a) the calendar day on which a dividend, other distribution or other payment was validly resolved on, declared, paid, or made in respect of Junior Obligations of the Guarantor, Parity Obligations of the Issuer or Parity Obligations of the Guarantor (except where such dividend, other distribution or payment was required in respect of employee share schemes);

Die Emittentin oder Garantin ist berechtigt, ausstehende Aufgeschobene Zinszahlungen jederzeit insgesamt, jedoch nicht teilweise nach Bekanntmachung an die Anleihegläubiger unter Einhaltung einer Frist von nicht weniger als 10 Geschäftstagen vor einer freiwilligen Zinszahlung, wobei eine solche Bekanntmachung (i) den Betrag an Aufgeschobenen Zinszahlungen, der gezahlt werden soll, und (ii) den für diese Zahlung festgelegten Termin enthalten muss.

(3) **Pflicht zur Zahlung von Aufgeschobenen Zinszahlungen**

Die Emittentin ist verpflichtet, Aufgeschobene Zinszahlungen insgesamt und nicht nur teilweise am ersten der folgenden Kalendertage zu zahlen (jeweils ein „**Pflichtnachzahlungstag**“):

Eine solche vorzeitige Pflichtwandlung nach Wahl der Emittentin würde die Garantin dazu verpflichten eine solche Anzahl von Vorzugsaktien der Garantin auszugeben, wie es gemäß dem Höchstwandlungsverhältnis in den Anleihebedingungen der Pflichtwandelanleihe entspricht. Ferner müsste die Emittentin aufgelaufene Zinsen, einen Make-whole Betrag und etwaige ausstehenden Zinsrückstände in Bezug auf die Pflichtwandelanleihe zahlen.

(b) The Issuer may, upon giving not less than 20 nor more than 40 days notice pursuant to § 13, call the Notes for redemption (in whole but not in part) at any time if at least 80 per cent. of the originally issued aggregate principal amount of the Notes have been redeemed or purchased and cancelled. In this case the Issuer shall redeem each Note at its Principal Amount plus accrued and unpaid interest and any Arrears of Interest on the redemption date specified in the notice.

Derartig erworbene Schuldverschreibungen können entwertet, gehalten oder wieder veräußert werden.

(3) Rückzahlung nach Wahl der Emittentin und bei geringem ausstehendem Gesamtnennbetrag.

(a) Die Emittentin ist berechtigt, durch Bekanntmachung gemäß § 13 unter Einhaltung einer Frist von nicht weniger als 20 und nicht mehr als 40 Geschäftstagen, die Schuldverschreibungen (insgesamt und nicht nur teilweise) erstmals mit Wirkung zum Ersten Kündigungstag, und danach mit Wirkung zu jedem nachfolgenden Zinszahlungstag zu kündigen. (b) Die Emittentin ist berechtigt, durch Bekanntmachung gemäß § 13 unter Einhaltung einer Frist von nicht weniger als 20 und nicht mehr als 40 Geschäftstagen, die Schuldverschreibungen (insgesamt und nicht nur teilweise) jederzeit zu kündigen, falls mindestens 80 % des ursprünglich begebenen Gesamtnennbetrages der Schuldverschreibungen zurückgezahlt oder erworben und eingezogen worden sind. Im Falle einer solchen Kündigung ist die Emittentin verpflichtet, jede Schuldverschreibung an dem in der Bekanntmachung festgelegten Rückzahlungstag zu ihrem Nennbetrag zuzüglich aufgelaufener aber noch nicht bezahlter Zinsbeträge sowie Aufgeschobener Zinszahlungen zurückzuzahlen.

(4) Other Special Redemption Events.

The Issuer may upon giving not less than 20 nor more than 40 days notice pursuant to § 13, call the Notes for redemption (in whole but not in part) at any time if any of the special events as set forth below has occurred. In this case the Issuer shall redeem each Note at the Early Redemption Amount on the redemption date specified in the notice. The notice shall set forth the underlying facts of the Issuer's right to early redemption and specifying the redemption date:

- (i) If (a)(I) any Rating Agency publishes a change in hybrid capital methodology or the interpretation thereof, as a result of which change the Notes would no longer be eligible for the same or a higher category of "equity credit" or such similar nomenclature as may be used by that Rating Agency from time to time to describe the degree to which the terms of an instrument are supportive of the Guarantor's senior obligations, attributed to the Notes at the Issue Date (a "**Loss in Equity Credit**"), or (II) the Issuer has received, and has provided the Principal Paying Agent with a copy of, a written confirmation from any Rating Agency that due to a change in hybrid capital methodology or the interpretation thereof, a Loss in Equity Credit occurred (the events described in (I) and (II) each a "**Rating Event**") and (b) the Issuer has given notice to the Noteholders in accordance with § 13 of such Rating Event prior to giving the notice of redemption referred to above.

(4) Besondere Rückzahlungsereignisse.

Die Emittentin ist berechtigt, durch Bekanntmachung gemäß § 13 unter Einhaltung einer Frist von nicht weniger als 20 und nicht mehr als 40 Geschäftstagen, die Schuldverschreibungen (insgesamt und nicht nur teilweise) jederzeit zu kündigen, falls eines der folgenden besonderen Ereignisse eingetreten ist. Im Falle einer solchen Kündigung ist die Emittentin verpflichtet, jede Schuldverschreibung an dem in der Bekanntmachung festgelegten Rückzahlungstag zu ihrem Vorzeitigen Rückzahlungsbetrag zurückzuzahlen. Die Bekanntmachung hat den Grund der vorzeitigen Rückzahlung und den Rückzahlungstag anzugeben:

- (i) Falls (a)(I) eine Ratingagentur eine Veränderung in der Methodologie für Hybridkapital oder der Interpretation dieser Methodologie veröffentlicht, wodurch die Schuldverschreibungen nicht mehr länger in derselben oder einer höheren Kategorie von Eigenkapital (oder eine vergleichbare Beschreibung, die von der Ratingagentur in Zukunft genutzt wird, um zu beschreiben in wieweit die Bedingungen eines Instruments die vorrangigen Verbindlichkeiten der Garantin unterstützen) wie am Ausgabebetag einzuordnen sind (ein "**Verlust der Eigenkapitalzuordnung**"), oder (II) die Emittentin hat eine schriftliche Bestätigung von einer Ratingagentur erhalten und hat diese an die Hauptzahlstelle in Kopie weitergegeben, welche besagt, dass aufgrund einer Änderung der Methodologie für Hybridkapital oder der Interpretation dieser Methodologie, ein Verlust der Eigenkapitalzuordnung erfolgt ist (die Ereignisse unter (I) und (II) jeweils ein "**Ratingereignis**") und (b) die Emittentin hat die Anleihegläubiger über das Ratingereignis gemäß § 13 informiert bevor die Mitteilung der Rückzahlung (wie oben beschrieben) bekanntgemacht wurde.

- (iii) An opinion of a recognized law firm of international standing has been delivered to the Issuer or Guarantor, stating that by reason of a change in German or Dutch law or regulation, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, the tax regime of any payments under the Notes is modified and such modification results in payments of interest payable by the Issuer or the Guarantor in respect of the Notes being no longer deductible for corporate income tax purposes in whole or in part; and such risk cannot be avoided by the Issuer taking reasonable measures available to it (a "**Tax Deductibility Event**").
- (iv) If, by reason of any change in German or Dutch law or published regulations becoming effective after the Issue Date, the Issuer or the Guarantor would have to pay Additional Amounts, provided that the payment obligation cannot be avoided by the Issuer taking such reasonable measures it (acting in good faith) deems appropriate (a "**Gross-up Event**").

The "**Early Redemption Amount**" shall be equal to 101 per cent. of the Principal Amount plus accrued and unpaid interest and any Arrears of Interest in the case of a Rating Methodology Event, Accounting Event or Tax Deductibility Event, and 100 per cent. of the Principal Amount plus accrued and unpaid interest and any Arrears of Interest in the case of a Gross-Up Event.

- (iv) Falls die Emittentin oder die Garantin als Folge einer Änderung nach dem Ausgabetag von deutschen oder niederländischen Gesetzen oder veröffentlichten Vorschriften verpflichtet ist, Zusätzliche Beträge zu zahlen, allerdings nur soweit die Emittentin oder Garantin die Zahlungsverpflichtung nicht durch das Ergreifen zumutbarer Maßnahmen vermeiden kann, die sie nach Treu und Glauben für angemessen hält (ein „**Gross-up Ereignis**“).

Der „**Vorzeitige Rückzahlungsbetrag**“ bezeichnet 101 % des Nennbetrages zuzüglich aufgelaufener aber noch nicht bezahlter Zinsbeträge sowie Aufgeschobener Zinszahlungen im Falle eines Ratingereignisses, eines Rechnungslegungsereignisses oder eines Steuerereignisses und 100 % des Nennbetrages zuzüglich aufgelaufener aber noch nicht bezahlter Zinsbeträge sowie Aufgeschobener Zinszahlungen im Falle eines Gross-Up Ereignisses.

Any reference in these Terms and Conditions of the Notes to principal or interest will be deemed to include any Additional Amounts as set forth in § 9.
- (2) If the due date for any payment of principal and/or interest is not a Business Day, payment will be effected only on the next Business Day. The Noteholders will have no right to claim payment of any interest or other indemnity in respect of such delay in payment.

§ 9
(Taxation)

All payments of principal and interest in respect of the Notes by the Issuer or (as the case may be) the Guarantor under the Guarantee will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of The Netherlands or the Federal Republic of Germany or, in each case, any authority therein or thereof having power to tax, unless the Issuer or the Guarantor is required by law to make such withholding or deduction of such taxes, duties, assessments or governmental charges. In that event, the Issuer or, as the case may be, the Guarantor will pay such additional amounts ("**Additional Amounts**") as may be necessary in order that the net amounts received by the Noteholders after such withholding or deduction shall equal the respective amounts of principal and interest which would have been received in respect of the Notes in the absence of such withholding or deduction, except that no such Additional Amounts shall be payable on account of any taxes or duties which:

§ 8
(Zahlungen)

- (1) Die Emittentin verpflichtet sich, Kapital und Zinsen auf die Schuldverschreibungen bei Fälligkeit in Euro zu zahlen. Die Zahlung von Kapital und Zinsen auf die Schuldverschreibungen erfolgt, vorbehaltlich geltender steuerrechtlicher und sonstiger gesetzlicher Regelungen und Vorschriften, über die Hauptzahlstelle zur Weiterleitung an das Clearingsystem oder nach dessen Weisung zur Gutschrift für die jeweiligen Kontoinhaber. Eine Bezugnahme in diesen Anleihebedingungen auf Kapital oder Zinsen der Schuldverschreibungen schließt jegliche Zusätzlichen Beträge gemäß § 9 ein.
- (2) Falls ein Fälligkeitstag für die Zahlung von Kapital und/oder Zinsen kein Geschäftstag ist, erfolgt die Zahlung erst am nächstfolgenden Geschäftstag; die Anleihegläubiger sind nicht berechtigt, Zinsen oder eine andere Entschädigung wegen eines solchen Zahlungsaufschubs zu verlangen.

§ 9
(Besteuerung)

Sämtliche auf die Schuldverschreibungen zu zahlenden Beträge von Kapital oder Zinsen sind ohne Einbehalt oder Abzug von oder aufgrund von gegenwärtigen oder zukünftiger Steuern, sonstigen Abgaben oder behördlicher Gebühren gleich welcher Art durch die Emittentin oder gegebenenfalls die Garantin unter der Garantie zu leisten, die von oder in den Niederlanden oder der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer Gebietskörperschaft oder Steuerbehörde der oder in den Niederlanden oder der Bundesrepublik Deutschland auferlegt oder erhoben werden, es sei denn, die Emittentin ist gesetzlich verpflichtet, einen solchen Einbehalt oder Abzug vorzunehmen. In diesem Fall wird die Emittentin oder die Garantin diejenigen zusätzlichen Beträge (die „**Zusätzlichen Beträge**“) zahlen, die erforderlich sind, damit die den Anleihegläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Inhabern der Schuldverschreibungen empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlicher Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:

In particular, the Noteholders may consent to amendments which materially change the substance of the Terms and Conditions, including such measures as provided for under § 5(3) of the SchVG, but excluding a substitution of the Issuer, which is exclusively subject to the provisions in § 12, by resolutions passed by such majority of the votes of the Noteholders as stated under § 14(2) below. A duly passed majority resolution will be binding upon all Noteholders.
- (2) Except as provided by the following sentence and provided that the quorum requirements are being met, the Noteholders may pass resolutions by simple majority of the voting rights participating in the vote. **§ 18
(Sprache)**

Diese Anleihebedingungen sind in deutscher Sprache abgefasst und mit einer Übersetzung in die englische Sprache versehen. Der deutsche Wortlaut ist allein rechtsverbindlich. Die englische Übersetzung dient nur zur Information.

Beschränkungen bezüglich der Rückzahlung und des Rückkaufs der Schuldverschreibungen.

Der folgende Absatz in Kursivschrift ist nicht Bestandteil der Anleihebedingungen.

The Issuer intends (without thereby assuming a legal or contractual obligation) that it will redeem or repurchase the Notes only to the extent they are replaced with instruments with equivalent S&P equity credit. Such replacement would be provided during the 360-day period prior to the date of such redemption or repurchase. The net proceeds received by the Issuer, the Guarantor or subsidiary of the Guarantor from the sale to third party purchasers of securities which are assigned an S&P equity credit that is at least equal to the initial equity credit of the Notes will count as replacement.

The following exceptions apply as to the Issuer's replacement intention. The Notes are not required to be replaced:

- (i) if the rating assigned by S&P to the Issuer or the Guarantor is at least A- and the Issuer or the Guarantor (as applicable) is comfortable that such rating would not fall below this level as a result of such redemption or repurchase, or*
- (ii) in the case of repurchase of less than (x) 10 per cent of the aggregate principal amount of the Notes originally issued in any period of 12 consecutive months or (y) 25 per cent of the aggregate principal amount of the Notes originally issued in any period of 10 consecutive years is repurchased, or*
- (iii) if the Notes are redeemed pursuant to a Rating Event (to the extent it is triggered by a change of methodology at S&P), an Accounting Event, a Tax Deductibility Event or a Gross-Up Event, or*
- (iv) if the Notes are not assigned an "equity credit" (or such similar nomenclature then used by S&P at the time of such redemption or repurchase), or*
- (v) if such redemption or repurchase occurs on or after September 4, 2038.*

Die Emittentin beabsichtigt (ohne dadurch eine Rechtspflicht zu übernehmen) die Schuldverschreibungen nur zurückzuzahlen oder zurückzukaufen, soweit sie durch Instrumente mit gleichwertiger S&P Eigenkapitalanrechnung ersetzt werden. Ein solcher Ersatz würde innerhalb von 360 Tagen vor dem Tag der Rückzahlung oder des Rückkaufs geschaffen werden. Als Ersatz gelten die Nettoerlöse, die die Emittentin, die Garantin oder eine Tochtergesellschaft der Garantin aus dem Verkauf an Dritte von Wertpapieren erhält, die eine S&P Eigenkapitalanrechnung haben, die mindestens so hoch ist wie die ursprüngliche S&P Eigenkapitalanrechnung der Schuldverschreibungen.

Es gelten jedoch folgende Ausnahmen in Bezug auf die Absicht der Emittentin. Es muss nicht für Ersatz gesorgt werden:

- (i) wenn das der Emittentin oder der Garantin durch S&P erteilte Rating mindestens A- beträgt und die Emittentin oder die Garantin (je nach Fall) sich sicher ist, dass ein solches Rating infolge der Rückzahlung oder des Rückkaufs nicht unter diesen Wert fallen würde oder*
- (ii) im Fall eines Rückkaufs von Schuldverschreibungen in Höhe von weniger als (x) 10 % des ursprünglich ausgegebenen Gesamtnennbetrags der Schuldverschreibungen während einer Frist von 12 aufeinander folgenden Monaten oder (y) 25 % des ursprünglich ausgegebenen Gesamtnennbetrags der Schuldverschreibungen während einer Frist von 10 aufeinander folgenden Jahren oder*
- (iii) im Fall der Rückzahlung der Schuldverschreibungen gemäß einem Ratingereignis (sofern es durch eine Änderung von S&P Methodologie verursacht wurde), einem Rechnungslegungsereignis, einem Steuerereignis oder einem Gross-Up Ereignis erfolgt oder*
- (iv) wenn die Schuldverschreibungen keine Eigenkapitalanrechnung (oder eine solche von S&P zum Zeitpunkt der Rückzahlung oder des Rückkaufs dann verwendete gleichartige Klassifikation) aufweisen oder*
- (v) wenn die Rückzahlung oder der Rückkauf am oder nach dem 4. September 2038 erfolgt.*

For this purpose, the mid-market annual swap rate means the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term of 10 years commencing on that Reference Reset Date and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to a designated maturity of six months. The Calculation Agent will request the principal office of each of the Reference Banks to provide a quotation of its rate. If at least three quotations are provided, the rate for that Reset Date will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

Der Mid-market Jahres-Swapsatz ist das arithmetische Mittel des Geld- und Briefkurses für den Jahres-Festzinssatzstrom, berechnet auf Basis eines 30/360 Zinstagequotienten, einer Fest-zu-variabel Euro-Zinsswaptransaktion mit einer Laufzeit von 10 Jahren beginnend mit dem Referenz-Reset-Termin, die in einer Repräsentativen Höhe mit einem anerkannten Händler von guter Bonität im Swap-markt abgeschlossen wurde, wobei der variable Teil, berechnet basierend auf einem Actual/360 Zinstagequotienten, eine Endfälligkeit von sechs Monaten hat. (4) Day Count Fraction.

Where interest is to be calculated in respect of any period of time that is equal to or shorter than an Interest Period (the "**Calculation Period**"), the interest will be calculated on the basis of the actual number of days elapsed in such Calculation Period (from and including the day from which interest begins to accrue to but excluding the day on which it falls due), divided by the number of days in the Interest Period in which the Calculation Period falls (Act/Act (ICMA)) (including the first such day of the relevant Interest Period but excluding the last day of the relevant Interest Period).

(5) Cessation of interest accrual.

The Notes will cease to bear interest from the beginning of the day their principal amount is due for repayment. If the Issuer fails to make any payment of principal under the Notes when due, the Notes will cease to bear interest from the beginning of the day on which such payment is made. If the Issuer elects not to pay accrued interest on an Interest Payment Date, then it will not have any obligation to pay such interest on such Interest Payment Date. jeder Börse, an der die Schuldverschreibungen zu diesem Zeitpunkt notiert sind und deren Regeln eine Mitteilung an die Börse verlangen, sowie den Anleihegläubigern gemäß § 13 unverzüglich, aber keinesfalls später als am achten auf dessen Bestimmung folgenden Geschäftstag mitgeteilt wird.

(4) Zinstagekoeffizient.

Sind Zinsen für einen Zeitraum zu berechnen (der „**Zinsberechnungszeitraum**“), der kürzer als eine Zinsperiode ist oder einer Zinsperiode entspricht, so werden sie berechnet auf der Grundlage der tatsächlichen Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum (ab dem ersten Tag, an dem Zinsen auflaufen (einschließlich) bis zu dem Tag, an dem die Zinsen fällig werden (ausschließlich)), dividiert durch die Anzahl der Tage in der Zinsperiode, in die der betreffende Zinsberechnungszeitraum fällt (Act/Act (ICMA)) (einschließlich des ersten Tages der betreffenden Zinsperiode, aber ausschließlich des letzten Tages der betreffenden Zinsperiode).

(5) Zinslaufende.

Die Verzinsung der Schuldverschreibungen endet mit Beginn des Tages, an dem ihr Kapitalbetrag zur Rückzahlung fällig wird. Sollte die Emittentin eine Zahlung von Kapital auf die Schuldverschreibungen bei Fälligkeit nicht leisten, endet die Verzinsung der Schuldverschreibungen mit Beginn des Tages der tatsächlichen Zahlung. Der in einem solchen Fall jeweils anzuwendende Zinssatz wird gemäß § 3(1) bestimmt.

Wenn sich die Emittentin an einem Zinszahlungstag zur Nichtzahlung aufgelaufener Zinsen entscheidet, dann ist sie nicht verpflichtet, an dem betreffenden Zinszahlungstag Zinsen zu zahlen. Eine Nichtzahlung von Zinsen aus diesem Grunde begründet keinen Verzug der Emittentin und keine anderweitige Verletzung ihrer Verpflichtungen aufgrund der Schuldverschreibungen oder für sonstige Zwecke.

Interest not due and payable in accordance with this § 6(1)(a) will constitute arrears of interest ("**Arrears of Interest**").

(b) Arrears of Interest will not bear interest.

(2) **Optional Settlement of Arrears of Interest.**

The Issuer or the Guarantor will be entitled to pay outstanding Arrears of Interest (in whole but not in part) at any time by giving notice to the Noteholders not less than 10 Business Days before such voluntary payment and specifying (i) the amount of Arrears of Interest to be paid and (ii) the date fixed for such payment.

(3) **Mandatory Payment of Arrears of Interest**

The Issuer must pay outstanding Arrears of Interest (in whole but not in part) on the earliest of the following calendar days (each a "**Mandatory Settlement Date**"):

- (a) the calendar day on which a dividend, other distribution or other payment was validly resolved on, declared, paid, or made in respect of Junior Obligations of the Guarantor, Parity Obligations of the Issuer or Parity Obligations of the Guarantor (except where such dividend, other distribution or payment was required in respect of employee share schemes);
- (b) the calendar day on which the Issuer, the Guarantor, a Subsidiary of the Issuer or a Subsidiary of the Guarantor has redeemed, repurchased or otherwise acquired Junior Obligations of the Issuer, Junior Obligations of the Guarantor, Parity Obligations of the Issuer or Parity Obligations of the Guarantor (except where such redemption or repurchase was mandatory under the terms of the instrument or required in respect of employee share schemes);

(b) Aufgeschobene Zinszahlungen werden nicht verzinst.

(2) **Freiwillige Zahlung von Aufgeschobenen Zinszahlungen.**

Die Emittentin oder Garantin ist berechtigt, ausstehende Aufgeschobene Zinszahlungen jederzeit insgesamt, jedoch nicht teilweise nach Bekanntmachung an die Anleihegläubiger unter Einhaltung einer Frist von nicht weniger als 10 Geschäftstagen vor einer freiwilligen Zinszahlung, wobei eine solche Bekanntmachung (i) den Betrag an Aufgeschobenen Zinszahlungen, der gezahlt werden soll, und (ii) den für diese Zahlung festgelegten Termin enthalten muss.

(3) **Pflicht zur Zahlung von Aufgeschobenen Zinszahlungen**

Die Emittentin ist verpflichtet, Aufgeschobene Zinszahlungen insgesamt und nicht nur teilweise am ersten der folgenden Kalendertage zu zahlen (jeweils ein „**Pflichtnachzahlungstag**“):

- (a) am Kalendertag, an dem eine Dividende oder sonstige Ausschüttung oder sonstige Zahlung in Bezug auf Nachrangige Verbindlichkeiten der Garantin, Gleichrangige Verbindlichkeiten der Emittentin oder Gleichrangige Verbindlichkeiten der Garantin erklärt, beschlossen, gezahlt oder geleistet wurde (außer in dem Fall, dass die Dividende oder sonstige Ausschüttung oder Zahlung unter einem Mitarbeiterbeteiligungsprogramm erforderlich war);
- (b) am Kalendertag, an dem die Emittentin, die Garantin, eine Tochtergesellschaft der Emittentin oder eine Tochtergesellschaft der Garantin Nachrangige Verbindlichkeiten der Emittentin, Nachrangige Verbindlichkeiten der Garantin, Gleichrangige Verbindlichkeiten der Emittentin oder Gleichrangige Verbindlichkeiten der Garantin zurückgekauft, zurückgezahlt oder anderweitig erworben hat (außer in dem Fall, dass die Rückzahlung oder der Rückkauf nach den Bedingungen des Instruments verpflichtend war oder unter einem Mitarbeiterbeteiligungsprogramm erforderlich war);

provided that

- (x) in the cases (a) and (b) above no Mandatory Settlement Date occurs if the Issuer, the Guarantor or the relevant Subsidiary is obliged under the terms and conditions of such parity or junior obligations to make such payment, such redemption, such repurchase or such other acquisition; and
- (y) in the case (b) above no Mandatory Settlement Date occurs if the Issuer, the Guarantor or the relevant Subsidiary repurchases or otherwise acquires any Parity Obligations of the Issuer or Parity Obligations of the Guarantor in whole or in part in a public tender offer or public exchange offer at a purchase price per Parity Obligation below its par value.
- (z) in the cases (a) and (b) above no Mandatory Settlement Date occurs if the Issuer exercises the option for early mandatory conversion of the Mandatory Convertible Notes pursuant to § 7(c) of the terms and conditions of the Mandatory Convertible Notes. Such early mandatory conversion at the option of the Issuer would require the Guarantor to deliver such number of preferred shares of the Guarantor as is equal to the maximum conversion ratio specified in the terms and conditions of the Mandatory Convertible Notes and in addition the Issuer would be required to pay any accrued interest, a make-whole amount and any outstanding arrears of interest relating to the Mandatory Convertible Notes.

- (e) am Kalendertag nach dem ein Beschluss zur Auflösung, Abwicklung oder Liquidation der Emittentin oder der Garantin ergangen ist (aber nur, wenn dies nicht für die Zwecke oder als Folge eines Zusammenschlusses, einer Umstrukturierung oder Sanierung geschieht und die Emittentin bzw. die Garantin noch zahlungsfähig sind und die übernehmende Gesellschaft im Wesentlichen alle Vermögenswerte und Verpflichtungen der Emittentin bzw. der Garantin übernimmt);

mit der Maßgabe, dass

- (x) in den vorgenannten Fällen (a) und (b) kein Pflichtnachzahlungstag vorliegt, wenn die Emittentin, die Garantin oder die betreffende Tochtergesellschaft nach Maßgabe der Emissionsbedingungen der betreffenden gleichrangigen oder nachrangigen Verbindlichkeit zu der Zahlung, zu der Rückzahlung, zu dem Rückkauf oder zu dem anderweitigen Erwerb verpflichtet ist; und
- (y) im vorgenannten Fall (b) kein Pflichtnachzahlungstag vorliegt, wenn die Emittentin, die Garantin oder die betreffende Tochtergesellschaft Gleichrangige Verbindlichkeiten der Emittentin oder Gleichrangige Verbindlichkeiten der Garantin nach einem öffentlichen Rückkaufangebot oder öffentlichen Umtauschangebot zu einem unter dem Nennwert je Gleichrangiger Verbindlichkeit liegenden Kaufpreis zurückkauft oder anderweitig erwirbt.
- (z) in den vorgenannten Fällen (a) und (b) kein Pflichtnachzahlungstag vorliegt, wenn die Emittentin ihr Wahlrecht zur vorzeitigen Pflichtwandlung der Pflichtwandelanleihe gemäß § 7(c) der Anleihebedingungen der Pflichtwandelanleihe ausübt. Eine solche vorzeitige Pflichtwandlung nach Wahl der Emittentin würde die Garantin dazu verpflichten eine solche Anzahl von Vorzugsaktien der Garantin auszugeben, wie es gemäß dem Höchst-Wandlungsverhältnis in den Anleihebedingungen der Pflichtwandelanleihe entspricht. Ferner müsste die Emittentin aufgelaufene Zinsen, einen Make-whole Betrag und etwaige ausstehenden Zinsrückstände in Bezug auf die Pflichtwandelanleihe zahlen.

Beschränkungen bezüglich der Rückzahlung und des Rückkaufs der Schuldverschreibungen.

Der folgende Absatz in Kursivschrift ist nicht Bestandteil der Anleihebedingungen.

Die Emittentin beabsichtigt (ohne dadurch eine Rechtspflicht zu übernehmen) die Schuldverschreibungen nur zurückzuzahlen oder zurückzukaufen, soweit sie durch Instrumente mit gleichwertiger S&P Eigenkapitalanrechnung ersetzt

the 360-day period prior to the date of such redemption or repurchase. The net proceeds received by the Issuer, the Guarantor or subsidiary of the Guarantor from the sale to third party purchasers of securities which are assigned an S&P equity credit that is at least equal to the initial equity credit of the Notes will count as replacement.

The following exceptions apply as to the Issuer's replacement intention. The Notes are not required to be replaced:

- (i) if the rating assigned by S&P to the Issuer or the Guarantor is at least A- and the Issuer or the Guarantor (as applicable) is comfortable that such rating would not fall below this level as a result of such redemption or repurchase, or
- (ii) in the case of repurchase of less than (x) 10 per cent of the aggregate principal amount of the Notes originally issued in any period of 12 consecutive months or (y) 25 per cent of the aggregate principal amount of the Notes originally issued in any period of 10 consecutive years is repurchased, or
- (iii) if the Notes are redeemed pursuant to a Rating Event (to the extent it is triggered by a change of methodology at S&P), an Accounting Event, a Tax Deductibility Event or a Gross-Up Event, or
- (iv) if the Notes are not assigned an "equity credit" (or such similar nomenclature then used by S&P at the time of such redemption or repurchase), or
- (v) if such redemption or repurchase occurs on or after September 4, 2043.

Als Ersatz gelten die Nettoerlöse, die die Emittentin, die Garantin oder eine Tochtergesellschaft der Garantin aus dem Verkauf an Dritte von Wertpapieren erhält, die eine S&P Eigenkapitalanrechnung haben, die mindestens so hoch ist wie die ursprüngliche S&P Eigenkapitalanrechnung der Schuldverschreibungen.

Es gelten jedoch folgende Ausnahmen in Bezug auf die Absicht der Emittentin. Es muss nicht für Ersatz gesorgt werden:

- (i) wenn das der Emittentin oder der Garantin durch S&P erteilte Rating mindestens A- beträgt und die Emittentin oder die Garantin (je nach Fall) sich sicher ist, dass ein solches Rating infolge der Rückzahlung oder des Rückkaufs nicht unter diesen Wert fallen würde oder
- (ii) im Fall eines Rückkaufs von Schuldverschreibungen in Höhe von weniger als (x) 10 % des ursprünglich ausgegebenen Gesamtnennbetrags der Schuldverschreibungen während einer Frist von 12 aufeinander folgenden Monaten oder (y) 25 % des ursprünglich ausgegebenen Gesamtnennbetrags der Schuldverschreibungen während einer Frist von 10 aufeinander folgenden Jahren oder
- (iii) im Fall der Rückzahlung der Schuldverschreibungen gemäß einem Ratingereignis (sofern es durch eine Änderung von S&P Methodologie verursacht wurde), einem Rechnungslegungsergebnis, einem Steuerereignis oder einem Gross-Up Ereignis erfolgt oder
- (iv) wenn die Schuldverschreibungen keine Eigenkapitalanrechnung (oder eine solche von S&P zum Zeitpunkt der Rückzahlung oder des Rückkaufs dann verwendete gleichartige Klassifikation) aufweisen oder
- (v) wenn die Rückzahlung oder der Rückkauf am oder nach dem 4. September 2043 erfolgt.

In einem solchen Fall werden die Anleihegläubiger keine Zahlungen auf die Garantie erhalten, bis alle Ansprüche aus den gegenüber den Schuldverschreibungen vorrangigen Verbindlichkeiten der Garantin vollständig bedient sind.

In that event, the Guarantor will pay such Additional Amounts as may be necessary in order that the net amounts received by the Noteholders after such withholding or deduction shall equal the respective amounts of principal and interest which would have been received in respect of the Notes, in the absence of such withholding or deduction, except that no such Additional Amounts shall be payable on account of any taxes or duties which:

- (a) are payable otherwise than by withholding or deduction from amounts payable; or
- (b) are payable by reason of the Noteholder having, or having had, some personal or business connection with The Netherlands or the Federal Republic of Germany and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, The Netherlands or the Federal Republic of Germany; or
- (c) are withheld or deducted from a payment to an individual or a residual entity within the meaning of the European Council Directive 2003/48/EC and are required to be made pursuant to the European Council Directive 2003/48/EC or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such Directive; or

In diesem Fall wird die Garantin diejenigen Zusätzlichen Beträge zahlen, die erforderlich sind, damit die den Anleihegläubigern zufließenden Nettobeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen entsprechen, die ohne einen solchen Einbehalt oder Abzug von den Inhabern der Schuldverschreibungen empfangen worden wären; die Verpflichtung zur Zahlung solcher zusätzlicher Beträge besteht jedoch nicht im Hinblick auf Steuern und Abgaben, die:

- (a) auf andere Weise als durch Einbehalt oder Abzug von zahlbaren Beträgen zu entrichten sind; oder
- (b) wegen einer gegenwärtigen oder früheren persönlichen oder geschäftlichen Beziehung des Anleihegläubigers zu den Niederlanden oder der Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in den Niederlanden oder der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder

Board Practices

Pursuant to the Dutch Corporate Governance Decree of 20 March 2009 implementing further accounting standards for annual reports (*Besluit Corporate Governance*) and based on the listing of VIF's debt securities issued on regulated markets in the EU, VIF is subject to the less restrictive regime under the Corporate Governance Decree, pursuant to which the Corporate Governance Statement in VIF's annual report (directly or incorporated by reference) must contain information on the main features of VIF's internal control and risk management system in relation to the financial reporting process of VIF and its group companies. The Corporate Governance Statement in the Guarantor's 2012 annual report contains information on the main features of the internal control and risk management system in relation to the financial reporting process of the company and their group companies.

The integrity and quality of VIF's management is evaluated in accordance with instructions from the shareholder by a Board of Supervisory Directors consisting of 2 executives from the direct and ultimate parent company. In addition, periodic internal and external audits are conducted of VIF's accounting and operations, including the risk management. VIF has no specific audit committee. The members of the Supervisory Board are in charge of all relevant tasks.

VIF's company works with proven transparent systems for accounting and treasury. All operations are subject to a so-called "4 eye principle" so that basically all decisions and external instructions have to be approved by at least 2 persons. Abuse of authority and of privileges has been made practically impossible.

The management of risks in VIF's work particularly of its interest rate mismatch risks and foreign exchange position risks is subject to narrowly defined limits and monthly reporting apart from the frequent audits.

Members of management may not have other external functions, which could imply conflict of interest. Any other function requires the approval of the Board.

DESCRIPTION OF THE GUARANTOR

History and Development

Volkswagen Aktiengesellschaft (“**VWAG**”) was incorporated under German law as “*Gesellschaft zur Vorbereitung des deutschen Volkswagens mbH*” (Limited Liability Company for the Development of the German Volkswagen) which was founded in Berlin on 28 May 1937. The company was renamed “*Volkswagenwerk Gesellschaft mit beschränkter Haftung*” (Volkswagenwerk limited liability company) in 1938. The company was later converted into a joint stock corporation under German law which was entered into the commercial register (*Handelsregister*) at Wolfsburg local court (*Amtsgericht*) on 22 August 1960. The name was changed to “VOLKSWAGEN AKTIENGESELLSCHAFT” by resolution of the Annual Meeting on 4 July 1985 which is the legal and commercial name of VWAG.

VWAG is located in Wolfsburg. Since 1 August 2005 it has been listed in the commercial register (*Handelsregister*) at the Braunschweig local court (*Amtsgericht*) under the number HRB 100484. Its head office and registered office are located at Berliner Ring 2, 38440 Wolfsburg, Germany (telephone number + 49 (0) 5361 9-0).

Articles of Association

The objects of VWAG, according to § 2 of its Articles of Association, are the manufacture and sale of vehicles and engines of all kinds, their accessories, and all other equipment, machinery, tools and other technical products.

VWAG is entitled to conduct all business and take all measures connected with these objects or as appear capable of furthering such objects directly or indirectly. For this purpose, VWAG may establish branch offices within Germany and abroad or can found, acquire or participate in other enterprises.

Investments

Based on Volkswagen Group’s current planning, investments in the Automotive Division will amount to € 50.2 billion in the period from 2013 to 2015. Investments in property, plant and equipment will account for € 39.2 billion, more than half of which (60%) will be in Germany alone. The ratio of capital expenditure to sales revenue in the period from 2013 to 2015 will be at a competitive level of 6–7%. Besides investments in property, plant and equipment, investing activities will include additions of € 10.6 billion to capitalized development costs. Volkswagen is laying the foundations for profitable, sustainable growth by investing in new facilities and models, as well as by developing alternative drives and modular toolkits.

At € 24.7 billion (roughly 63%), the Volkswagen Group will spend the lion’s share of the total amount to be invested in property, plant and equipment in the Automotive Division on modernizing and extending the product range for its brands. The main focus will be on new vehicles, derivatives and successor models in almost all vehicle classes, which will be based on the modular toolkit technology and related components. This will allow the Volkswagen Group to systematically continue its model rollout with a view to tapping new markets and segments. In the area of drivetrain production, Volkswagen Group will launch new generations of engines offering improved performance and lower fuel consumption and emission levels. In particular, Volkswagen Group continues to press ahead with the development of hybrid and electric motors.

In addition, Volkswagen will make cross-product investments of € 14.5 billion over the next three years. This includes investments to expand capacity, such as a new vehicle production facility for Audi in Mexico, expanding Porsche’s Leipzig plant so that it can produce the new SUV model, the Macan, and increasing production capacity for automatic gearboxes. Other investment focuses include modifications to the press shops, paintshops and assembly facilities as a result of Volkswagen’s high quality targets and the continuous improvement of Volkswagen’s production processes. Non-production-related investments are mainly planned for the areas of development, quality assurance, sales, genuine parts supply and information technology.

Volkswagen’s objective is to finance its investments in the Automotive Division using internally generated funds. Volkswagen expects cash flows from operating activities to amount to € 61.4 billion over the 2013 to 2015 planning period. This means that the funds generated are expected to exceed the Automotive Division’s investment requirements by € 11.3 billion, further improving Volkswagen’s liquidity position. Volkswagen expects net cash flow in the Automotive Division to develop positively in 2013 and 2014.

The plans are based on the Volkswagen Group’s structures at the end of 2012 and already take into account Porsche’s automotive business, but not the possible settlement payable to other shareholders associated with the control and profit and loss transfer agreement with MAN SE. The joint ventures in China are not consolidated and are therefore also not included in the above figures. These companies will invest a total of € 9.8 billion in new production facilities and products in the period from 2013 to 2015. These investments will be financed from the joint ventures’ own funds.

Organizational Structure

As of August 1, 2012, Porsche SE's operating automotive business was contributed in full to the Volkswagen Group. Since then, Porsche has been consolidated in the Volkswagen Group as another successful brand. AUDI AG acquired Italian sports motorcycle manufacturer Ducati as of July 19, 2012. Ducati is a well-known international manufacturer of premium motorcycles.

The Volkswagen Group consists of two divisions: the Automotive Division and the Financial Services Division. Until December 31, 2012 the Automotive Division, in turn, comprises two business areas: "Passenger Cars and Light Commercial Vehicles" and "Trucks and Buses, Power Engineering". The Passenger Cars and Light Commercial Vehicles segment and the reconciliation are combined to form the Passenger Cars and Light Commercial Vehicles Business Area. The Volkswagen Group reports on the Trucks and Buses and Power Engineering segments under the Trucks and Buses, Power Engineering Business Area. Since 1 January, 2013, Volkswagen Group has bundled the light commercial vehicles, trucks and buses, and power engineering businesses in a new Commercial Vehicles, Power Engineering Business Area within the Automotive Division. The activities of the Automotive Division are centered on the development of vehicles and engines, the production and sale of passenger cars, commercial vehicles, trucks and buses, as well as the genuine parts, large-bore diesel engines, turbomachinery, special gear units, propulsion components and testing systems businesses. The acquisition of Ducati has expanded this to include motorcycles. The Financial Services Division, which corresponds to the Financial Services segment, combines dealer and customer financing, leasing, banking and insurance activities, fleet management and mobility offerings.

Volkswagen AG is the parent company of the Volkswagen Group. It develops vehicles and components for the Volkswagen Group's brands, but also produces and sells vehicles, in particular Volkswagen brand passenger cars and light commercial vehicles. In its function as parent company, Volkswagen AG holds direct and indirect interests in AUDI AG, SEAT S.A., ŠKODA AUTO a.s., Scania AB, MAN SE, Dr. Ing. h.c. F. Porsche AG, Volkswagen Financial Services AG and numerous other companies in Germany and abroad.

Business Overview

VWAG is the parent company of the Volkswagen Group. The Volkswagen Group's share of the overall passenger car market in Western Europe rose to 24.4% (previous year: 23.0%). The Volkswagen Group's deliveries in the South African market increased by 10.0%. The Volkswagen Group's market share of 22.7% remained unchanged. Demand for Volkswagen Group vehicles in the Middle East region grew by 17.6% compared with 2011. Demand for Volkswagen Group vehicles in the US market grew by 34.2% year-on-year. The Volkswagen Group's deliveries in the South America region rose 8.2% in 2012. The Volkswagen Group increased sales in the Asia-Pacific region by 23.3% compared with the prior-year figure, outperforming the passenger car market as a whole (+13.3%). Growth in the region was again driven by the Chinese market, which saw demand for Volkswagen Group vehicles rise by 24.5%. In 2012 the Volkswagen Group held a share in the total automobile sales on a retail basis of 24.4% for Western Europe, 20.8% for China and 4.9% for North America (USA 4.1% excluding Mexico and Canada).

In terms of sales volume (*i.e.* the number of vehicles delivered to dealers), Volkswagen is one of the world's leading automobile manufacturers and is the largest automobile manufacturer in Europe¹. With the products of its group brands Volkswagen Passenger Cars, Audi, ŠKODA, SEAT and Volkswagen Commercial Vehicles, Volkswagen addresses business and private customers from a wide range of customer segments and in multiple regional markets in the so-called high-volume business (*i.e.* production and unit sales of vehicles with a large number of units per model). Volkswagen is represented in the sports car segment with the brand Porsche. The brand diversity of Volkswagen is represented by group brands Lamborghini, Bentley and Bugatti in the luxury class. With Ducati the Volkswagen Group extend its activities regarding motorcycles. In the heavy commercial vehicle sector (trucks with a gross vehicle weight in excess of 6 tonnes, buses and special vehicles), Volkswagen conducts business under the Scania and MAN brand. In 2012, Volkswagen acquired further shares in MAN SE for € 2,081 million and, as of December 31, 2012, held 75.03% of the voting rights and 73.72% of the share capital of MAN SE and thus strengthening the alliance between MAN, Scania and Volkswagen Commercial Vehicles. Volkswagen indirectly held 49.9% of the share capital of Dr. Ing. h.c. F. Porsche AG as of December 31, 2011 and took over the remaining 50.1% of Porsche AG on August 1, 2012. Effective as of July 19, 2012, Volkswagen acquired 100% of the voting rights of Ducati Motor Holding S.p.A., Bologna. Volkswagen AG directly holds 19.89% of the share capital of Suzuki Motor Corporation.

The Volkswagen Group's business operations encompass the Automotive and Financial Services Divisions. In the Automotive Division, Volkswagen develops vehicles and engines, produces and distributes passenger cars, motorcycles, light commercial vehicles, trucks and buses as well as the genuine parts, large-bore diesel, engines, turbomachinery, special gear units, propulsion components and testing systems businesses. Worldwide, during 2012, Volkswagen delivered a total of approximately 9.3 million vehicles (passenger cars, light commercial vehicles, trucks and buses) to its customers. Volkswagen's range of products comprises around 280 passenger car, commercial vehicle and motorcycle models and their derivatives. With this range of automotive products, Volkswagen covers almost all key segments and body types, with offerings from small cars to super sports cars in the passenger car sector, and from small pickups to heavy trucks and buses in the commercial vehicles sector, as well as motorcycles.

The Financial Services Division includes customer and dealer financing, leasing, banking and insurance activities, fleet management and mobility offerings. The primary purpose of the Financial Services Division is to promote Volkswagen's sales and customer retention.

The Volkswagen Group's production network was extended by five locations in 2012, and consisted of a total of 99 production facilities worldwide at the end of 2012. It comprises 58 automobile, commercial

vehicle and motorcycle factories as well as 41 component plants. The sites are spread out over the continents of Europe, North and South America, Africa and Asia. Including the Chinese joint ventures, the Volkswagen Group employed an average of 533,469 people in 2012, an increase of 17.5% year-on-year.

The Volkswagen Group's total headcount was 549,763 employees (+9.5%) at the end of 2012. In addition to the expanded production volumes abroad, this increase can be attributed primarily to the consolidation of Porsche and motorcycle manufacturer Ducati in 2012. A total of 249,470 people were employed in Germany (+10.9%), while 300,293 were employed abroad (+8.4%).

Automotive

Sales to the Dealer Organization

In 2012, the Volkswagen Group (including the Chinese joint ventures) sold 9,344,559 vehicles to the dealer organization worldwide, an increase of 11.8% compared with the prior-year figure. Due to high demand for Group models in China, the USA and Russia, sales outside Germany rose 13.8% year-on-year. Domestic sales were on a level with the previous year. Vehicles sold in Germany accounted for 12.9% (previous year: 14.5%) of the Volkswagen Group's overall sales.

With 870,474 vehicles sold worldwide, the Golf was once again the biggest seller in 2012, accounting for 9.3% of the Volkswagen Group's unit sales. The US version of the Passat, the Tiguan, Fox, Audi Q3, Audi Q5, Audi A6, ŠKODA Rapid and Amarok models recorded significant growth, as did the new Beetle, up!, Audi A1 Sportback, ŠKODA Citigo and SEAT Mii models. In addition, very healthy demand was seen in China for the Passat, Jetta and Santana model versions available there.

Vehicle Deliveries Worldwide

With its brands, the Volkswagen Group has a presence in all relevant automotive markets around the world. Western Europe, China, Brazil, the USA, Russia, Argentina and Mexico are currently the key sales markets for the Volkswagen Group. The Volkswagen Group continued to extend its strong competitive position in 2012 thanks to its wide range of attractive and environmentally friendly models. It increased its market share in key core markets and again recorded an encouraging global increase in demand.

The Volkswagen Group delivered 9,074,283 passenger cars and light commercial vehicles to customers in 2012. Since August 1, 2012, these figures also include Porsche brand vehicles. The previous year's record figure was exceeded by 11.2%. With the exception of the SEAT brand, which was hit particularly hard by the difficult market conditions in Western Europe, and Bugatti, all Group brands surpassed their 2011 sales figures. Volkswagen Passenger Cars, Audi, ŠKODA and Volkswagen Commercial Vehicles all recorded their best ever delivery figures. Bentley and Lamborghini also registered strong growth rates. In 2012, demand for Volkswagen Group models was higher than in the prior-year period in virtually all markets outside Western Europe.

Worldwide Development of Inventories

Volkswagen Group significantly increased its production volumes again in 2012 in response to ongoing positive demand in the global automotive markets. Strict working capital management, the increase in inventories of raw materials, consumables and supplies as well as of work in progress was primarily attributable to the consolidation of Porsche. Global vehicle inventories at Group companies and in the dealer organization were higher on December 31, 2012 than a year earlier.

Production

The Volkswagen Group produced 9,255,384 vehicles worldwide in 2012. This corresponds to an increase of 9.0% compared with the prior year. Volkswagen Group's Chinese joint ventures expanded their production volume by 20.0% owing to the positive development in China. The Volkswagen Group's manufacturing facilities in Slovakia, the USA, Mexico and Russia also increased their production figures considerably. Germany accounted for 25.1% (previous year: 27.8%) of the Volkswagen Group's total production. The Volkswagen Group's plants worldwide produced an average of 37,749 vehicles per working day, an increase of 9.6% year-on-year. These production figures do not include the highly successful Crafter models produced in the Daimler plants in Düsseldorf and Ludwigsfelde, or the Routan, which is manufactured in cooperation with Chrysler in North America.

Volkswagen Financial Services

Products and services from Volkswagen Financial Services were very popular with customers in 2012. 3.8 million new financing, leasing and service/insurance contracts were signed worldwide, a 21.0% increase on the prior-year figure. At 9.6 million, the total number of contracts at December 31, 2012 exceeded the number at the end of 2011 by 16.9%. The number of contracts in the Customer Financing/

Leasing area was up 14.5% to 6.4 million and the number of contracts in the Service/Insurance area increased by 21.9%. Based on unchanged credit eligibility criteria, financed or leased vehicles amounted to 27.5% (36.3%) of total Group delivery volumes. The decrease reflects the inclusion of the Chinese market as of the beginning of 2012. The share of leased or financed vehicles in China is much lower than the average for other markets.

Volkswagen Bank direkt was managing 1,438 thousand accounts at the end of 2012 (previous year: 1,442 thousand).

Sales Revenue

The Volkswagen Group generated sales revenue of € 192.7 billion in 2012, surpassing the prior-year figure by 20.9%. The increase was primarily attributable to higher volumes and the consolidation of MAN SE (November 9, 2011) and Porsche AG (August 1, 2012). The largest proportion of sales revenue, at 80.4% (previous year: 78.3%), was recorded outside of Germany. Gross profit rose by 25.7% to € 35.2 billion. Positive exchange rate effects, increased volumes and improved product costs more than offset negative effects from the high write-downs relating to the purchase price allocation for MAN and Porsche in the period shortly following their acquisition. The gross margin improved from 17.6% to 18.2%. At € 11.5 billion, operating profit exceeded the record prior-year figure (€ 11.3 billion). Distribution and administrative costs rose as a result of the initial consolidation of MAN and Porsche, write-downs relating to their purchase price allocation and business expansion, while other operating income decreased. The operating return on sales declined to 6.0% (previous year: 7.1%).

Earnings Development

At € 25.5 billion, the Volkswagen Group's profit before tax in 2012 was significantly higher than in 2011 (€ 18.9 billion) due to positive measurement effects in the financial result. The return on sales before tax rose from 11.9% in the previous year to 13.2%. At € 21.9 billion, the Volkswagen Group's profit after tax exceeded the prior-year figure by € 6.1 billion. The tax rate was 14.2%; effects from the updated measurement of options relating to Porsche Holding Stuttgart GmbH and the remeasurement of the existing shares held in the amount of € 12.3 billion did not have any impact on the tax expense.

The Annual General Meeting elected Ms. Ursula Piëch and Prof. Dr. Ferdinand K. Piëch to the Supervisory Board for a full term of office. Subsequently, the Supervisory Board of Volkswagen AG elected Prof. Dr. Ferdinand K. Piëch as Chairman of the Supervisory Board and Berthold Huber as Deputy Chairman at its constituent meeting on 19 April 2012. The Annual General Meeting also resolved to distribute a dividend of € 3.00 per ordinary share and € 3.06 per preferred share for 2011.

The members of the Board of Management and the members of the Supervisory Board may be contacted at VWAG's business address: Volkswagen Aktiengesellschaft, Generalsekretariat, Berliner Ring 2, 38440 Wolfsburg, Germany.

The following family relationships exist between the members of the Supervisory Board: Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch and Ursula M. Piëch are married. Furthermore, Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch and Dr. jur. Hans Michel Piëch are brothers and both are cousins of Dr. rer. comm. Wolfgang Porsche. In addition, Dr. jur. Ferdinand Oliver Porsche is a nephew of the aforementioned members of the Supervisory Board. There are no family relationships between the remaining members of the Supervisory Board.

Some of the members of the Board of Management and the Supervisory Board are also members of executive bodies of group companies, which are companies in which VWAG has a substantial interest, and of key shareholders of VWAG, so-called dual mandates.

Such dual mandates are, for example, held by the Chairman of the Board of Management of VWAG, Prof. Dr. Dr. h. c. mult. Martin Winterkorn, by the CFO of VWAG, Hans Dieter Pötsch and by the members of the Board of Management of VWAG Dr. rer. pol. h.c. Francisco Javier Garcia Sanz and Prof. Dr. rer. pol. Jochem Heizmann, who are simultaneously members of the Board of Directors of Scania AB, with Prof. Dr. Dr. h. c. mult. Martin Winterkorn holding the position of Chairman of the Board of Directors. Prof. Dr. Dr. h. c. mult. Martin Winterkorn, Dr. rer. pol. h.c. Francisco Javier Garcia Sanz, Prof. Dr. rer. pol. Dr.-Ing. E. h. Horst Neumann and Hans Dieter Pötsch are also members of the Supervisory Board of AUDI AG, with Prof. Dr. Dr. h. c. mult. Martin Winterkorn holding the position of Chairman of the Supervisory Board. The member of the Board of Management, Prof. Rupert Stadler, is simultaneously the Chairman of the Board of Management of AUDI AG.

Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch, Chairman of the Supervisory Board, and Prof. Rupert Stadler, are also members of the Supervisory Board of MAN SE.

Dual mandates also exist in relation to key shareholders of Volkswagen AG and the members of its governing bodies. For example, the Chairman of the Board of Management of VWAG, Prof. Dr. Dr. h. c. mult. Martin Winterkorn, and the CFO, Hans Dieter Pötsch, are simultaneously members of the Executive Board of Porsche SE (the Chairman and the CFO, respectively) and members of the Supervisory Board of Dr. Ing. h.c. F. Porsche AG, Porsche Holding Gesellschaft m.b.H., Salzburg, Porsche Austria G.m.b.H., Salzburg, and Porsche Retail G.m.b.H., Salzburg.

Dr. jur. Hans Michel Piëch and Dr. jur. Ferdinand Oliver Porsche are simultaneously members of the Supervisory Board of Volkswagen AG and members of the Supervisory Board of Porsche SE. Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch is simultaneously a member of the Supervisory Board of Porsche SE and Chairman of the Supervisory Board of Volkswagen AG. Dr. rer. comm. Wolfgang Porsche, Chairman of the Supervisory Board of Porsche SE, is simultaneously a member of the Supervisory Board of Volkswagen AG. Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch, Dr. jur. Hans Michel Piëch and Dr. jur. Ferdinand Oliver Porsche are also members of the Supervisory Board of AUDI AG.

Bernd Osterloh, Berthold Huber and Peter Mosch are members of the Supervisory Boards of Volkswagen AG and Porsche SE.

Due to the dual mandates, there could be instances in which there arises a conflict of interest in the structuring of business relationships between Volkswagen companies, as well as with other companies outside Volkswagen, or a disadvantageous exercise of influence over Volkswagen's business. This is particularly the case given the background that, due to the overlap of personnel and Volkswagen's Group structure, decision-making within the Board of Management and the Supervisory Board cannot take place as independently as would be the case for subsidiaries which are not as connected with their parent company in the same manner. To the extent that conflicts of interest occur, the relevant members deal with them in a responsible manner and in accordance with legal requirements.

There are no employment contracts between VWAG or any of its subsidiaries and members of the Supervisory Board or the Board of Management of VWAG which provide for benefits at the end of the employment relationship.

Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch, Ursula M. Piëch, Dr. jur. Hans Michel Piëch, Dr. jur. Ferdinand Oliver Porsche and Dr. rer. comm. Wolfgang Porsche are members of the Supervisory Board. The ownership of voting rights of these persons in Volkswagen AG is described above.

Board Practices

In accordance with the provisions of the German Stock Corporation Act (*Aktiengesetz* -AktG) and the German Co-Determination Act (*Mitbestimmungsgesetz* - MitbestG), the Supervisory Board elects a Chairman and a Deputy Chairman for the respective terms of office. If the Chairman or his Deputy leaves before expiration of his term of office, the Supervisory Board must promptly hold a new election to fill the position for the remainder of the departed member's term of office. The Articles of Association of VWAG provide that declarations of intent by the Supervisory Board are made by the Chairman of the Supervisory Board on its behalf.

In accordance with the Articles of Association of VWAG, the Supervisory Board may form further committees from among its members to perform specific functions, in addition to the committee to be formed in accordance with section 27(3) of the MitbestG.

The Supervisory Board had formed the following six committees: the Executive Committee, the Mediation Committee, the Audit Committee, the Nomination Committee, the Committee for Major Shareholder Business Relationships and the Integrated Automotive Group Committee. On September 21, 2012 the Committee for Major Shareholder Business Relationships and the Integrated Automotive Group Committee were dissolved.

The Executive Committee consists of three shareholder representatives and three employee representatives, while the Committee for Major Shareholder Business Relationships comprised four shareholder representatives and four employee representatives. The members of the Nomination Committee are the shareholder representatives in the Executive Committee; in 2012, the remaining three committees were each composed of two shareholder representatives and two employee representatives.

The Executive Committee of the Supervisory Board met eight times during 2012. These meetings mainly served to prepare in detail the resolutions by the Supervisory Board and to deal with contractual issues concerning the Board of Management other than those relating to members' remuneration. The following persons are members of the Executive Committee: Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch (Chairman), Berthold Huber (Deputy Chairman), Stephan Weil, Bernd Osterloh, Dr. Wolfgang Porsche, Stephan Wolf.

The Mediation Committee is responsible, in accordance with the German Co-Determination Act, for appointing the members of the Board of Management. In 2012, the following persons were members of the Mediation Committee: Hon.-Prof. Dr. techn. h.c. Dipl.-Ing. ETH Ferdinand K. Piëch (Chairman), Berthold Huber (Deputy Chairman), David McAllister, Bernd Osterloh. The Mediation Committee did not have to be convened in 2012.

The Audit Committee met four times during 2012. It focused primarily on the consolidated financial statements, risk management (including the internal control system), and the work performed by Volkswagen AG's compliance organization. In addition, the Audit Committee addressed the quarterly reports and the half-yearly financial report of the Volkswagen Group, as well as current financial reporting issues and their examination by the auditors. The following persons are members of the Audit Committee: Dr. Ferdinand Oliver Porsche (Chairman), Babette Fröhlich, Annika Falkengren, Peter Mosch (Deputy Chairman).

Corporate Governance

The government commission on the German Corporate Governance Code appointed by the Federal Ministry of Justice (*Bundesministerium für Justiz*) in September 2001 adopted the German Corporate Governance Code (the "**Code**") on 26 February 2002 and, most recently, adopted various amendments to the Code on 13 May 2013. The Code provides recommendations and suggestions on managing and supervising listed German companies. In doing so, it is based on recognized international and national standards for good and responsible corporate governance. The purpose of the Code is to make the German corporate governance system transparent and comprehensible. The Code contains recommendations and suggestions on corporate governance with respect to shareholders and the general meeting, the board of management, the supervisory board, transparency, accounting and auditing. The Code can be viewed online at www.corporate-governance-code.de.

There is no obligation to comply with the recommendations and suggestions of the Code. German stock corporation law merely requires the board of management and supervisory board of a listed company to either make an annual declaration that the company has been and will be in compliance with the recommendations of the Code, or state which recommendations have not or will not be applied and why. The statement is to be made permanently available on the website of VWAG and in the management report of VWAG as a part of the statement on corporate governance. A company may deviate from the suggestions made in the Code without disclosing this.

On 22 February 2013 the Board of Management and the Supervisory Board of VWAG issued the following supplement to the statement of compliance with the German Corporate Governance Code required by section 161 of the AktG of 23 November 2012:

"In their Declaration of Conformity dated 23 November 2012, the Board of Management and the Supervisory Board of Volkswagen AG declared that they would fully comply with the recommendations of the Government Commission of the German Corporate Governance Code (DCGK) in the version dated 15 May 2012 that had been published by the German Ministry of Justice in the official section of the Federal Gazette (*Bundesanzeiger*) on 15 June 2012, with the exception of numbers 4.2.3 paragraph 4 (severance pay cap), 5.1.2 paragraph 2 sentence 3 (age limit for members of the Board of Management), 5.3.2 sentence 3 (independence of the Chair of the Audit Committee), 5.4.1 paragraphs 4 to 6 (disclosures regarding election recommendations), 5.4.6 paragraph 2 (performance-related compensation for members of the Supervisory Board) and 5.5.3 sentence 1 (report to the Annual General Meeting of any conflicts of interest which have occurred, together with their treatment).

On 22 February 2013, the Supervisory Board adopted a resolution regarding the parameters for determining the extent of the bonus paid to members of the Board of Management, a fact which also affects the 2012 bonus. This resolution deviates from number 4.2.3 paragraph 3 sentence 3 of the DCGK where the 2012 bonus is concerned. Under this provision, a retroactive change of the comparison parameters for variable compensation elements should be excluded. However, the Supervisory Board is of the opinion that continued adherence to the previous parameters for the bonus would have resulted in bonuses that are no longer appropriate. An adjustment of the comparison parameters was therefore advisable despite the retroactive nature thereof.

The Board of Management and the Supervisory Board of Volkswagen AG declare that the Declaration of Conformity issued on 23 November 2012 is now being qualified to exclude compliance with recommendation number 4.2.3 paragraph 3 sentence 3 (exclusion of retroactive changes of comparison parameters) for the 2012 bonus."

The Board of Management and the Supervisory Board of VWAG issued the following statement of compliance with the German Corporate Governance Code required by section 161 of the AktG on 23 November 2012:

“The Board of Management and the Supervisory Board of Volkswagen AG declare that they will fully comply with the recommendations of the Government Commission of the German Corporate Governance Code in the version dated 15 May 2012 that was published by the German Ministry of Justice in the official section of the Federal Gazette (Bundesanzeiger) on 15 June 2012 with immediate effect, with the exception of numbers 4.2.3 paragraph 4 (severance pay cap), 5.1.2 paragraph 2 sentence 3 (age limit for members of the Board of Management), 5.3.2 sentence 3 (independence of the Chair of the Audit Committee), 5.4.1 paragraphs 4 to 6 (disclosure regarding election recommendations), 5.4.6 paragraph 2 (performance-related compensation for members of the Supervisory Board) and 5.5.3 sentence 1 (report to the Annual General Meeting of any conflicts of interest which have occurred together with their treatment).

The severance pay cap will be included in new contracts concluded with members of the Board of Management, but not in contracts concluded with Board of Management members entering their third term of office or beyond, provided a cap did not form part of the initial contract. It has been agreed that existing contractual provisions will not be altered in this respect.

An age limit for members of the Board of Management is not considered to be appropriate because the ability to successfully manage the company does not necessarily cease when a specific age is reached. A rigid retirement age could also be deemed discriminatory. It might be in the interests of the company to appoint someone over the age of 65. A rigid retirement age would therefore appear to be inappropriate.

The wording of the German Corporate Governance Code does not make it clear whether the Chair of the Audit Committee should be independent within the meaning of number 5.3.2 sentence 3 of the German Corporate Governance Code in the version dated 15 May 2012. Such independence could be considered lacking in the event of membership of the Supervisory Board of Porsche Automobil Holding SE, kinship with other members of the Supervisory Board of the company and Porsche Automobil Holding SE, an indirect minority interest in Porsche Automobil Holding SE, or contractual relations with other members of the Porsche and Piëch families who also have a direct or indirect interest in Porsche Automobil Holding SE. However, in the opinion of the Supervisory Board and the Board of Management, these relationships do not constitute a conflict of interest nor do they interfere with the duties of the Chair of the Audit Committee. As a precautionary measure, however, the aforementioned exception is being declared.

With regard to the recommendation in number 5.4.1 paragraphs 4 to 6 of the German Corporate Governance Code in the version dated 15 May 2012 that certain circumstances are disclosed when the Supervisory Board makes election recommendations to the Annual General Meeting, the requirements of the Code are vague and the definitions unclear. As a precautionary measure, the Board of Management and the Supervisory Board therefore declare a deviation from the Code in this respect. Notwithstanding this, the Supervisory Board will make every effort to satisfy the requirements of number 5.4.1 paragraphs 4 to 6.

The remuneration of members of the Supervisory Board is regulated by the shareholders in article 17(1) of the VW Articles of Association, and is linked to dividend distribution. We therefore assume that the variable compensation component will be oriented toward the sustainable growth of the enterprise within the meaning of number 5.4.6 paragraph 2 of the German Corporate Governance Code. However, as it cannot be ruled out that other views will be taken, a deviation from this recommendation in the Code is being declared as a precautionary measure.

In its verdict of 5 July 2011 (file number 5U 104/10), the Higher Regional Court of Frankfurt am Main ruled that the ratification of the actions of the Board of Management and of the Supervisory Board of a listed company by the Annual General Meeting was invalid, due partly to the fact that the report to the Annual General Meeting concerning conflicts of interest and their treatment was not detailed enough. As a result of this verdict, there is now some uncertainty with regard to the scope of reporting required by the Code, particularly within the context of the non-disclosure obligations relating to stock corporations pursuant to sections 93 and 116 of the AktG. As a precautionary measure, we therefore declare an exception to number 5.5.3 sentence 1 of the German Corporate Governance Code. Notwithstanding the above, we will continue to report on any conflicts of interest which have occurred and their treatment in the same scope as before.

The Board of Management and Supervisory Board of Volkswagen AG further declare that the recommendations of the Government Commission of the German Corporate Governance Code in the version dated 26 May 2010 published by the German Ministry of Justice in the official section of the Federal Gazette (Bundesanzeiger) on 2 July 2010 was complied with in the period from 27 February 2012 to 15 June 2012, with the exception of numbers 4.2.3 paragraph 4 (severance pay cap), 5.1.2 paragraph 2

sentence 3 (age limit for members of the Board of Management) and 5.5.3 sentence 1 (report to the Annual General Meeting of any conflicts of interest which have occurred together with their treatment). The grounds for these exceptions can be found in the above explanations.

From 15 June 2012 to the date of issue of this Declaration of Conformity, the recommendations of the Government Commission of the German Corporate Governance Code in the version dated 15 May 2012 that was published by the German Ministry of Justice in the official section of the Federal Gazette (Bundesanzeiger) on 15 June 2012 were complied with with the following exceptions: Numbers 4.2.3 paragraph 4 (severance pay cap), 5.1.2 (age limit for members of the Board of Management), 5.3.2 sentence 3 (independence of the Chair of the Audit Committee), 5.4.1 paragraph 2 (specification of concrete objectives regarding the composition of the Supervisory Board) and paragraphs 4 to 6 (disclosure regarding election recommendations), 5.4.6 paragraph 2 (performance-related compensation for members of the Supervisory Board) and 5.5.3 sentence 1 (report to the Annual General Meeting of any conflicts of interest which have occurred together with their treatment). The grounds for these exceptions can be found in the above explanations. The Government Commission has amended number 5.4.1 paragraph 2 (specification of concrete objectives regarding the composition of the Supervisory Board) to require that the Supervisory Board shall also specify "the number of independent Supervisory Board members" in future. This recommendation has been complied with since 23 November 2012, on which date the Supervisory Board held the necessary consultations and made the corresponding decision."

Legal and arbitration proceedings

In the course of their operating activities, Volkswagen AG and the companies in which it is directly or indirectly invested become involved in legal disputes and official proceedings in Germany and internationally. In particular, such proceedings may occur in relation to suppliers, dealers, customers, employees, or investors. For the companies involved, these may result in payment or other obligations. Particularly in cases where US customers assert claims for vehicle defects individually or by way of a class action, highly cost-intensive measures may have to be taken and substantial compensation or punitive damages paid. Corresponding risks also result from US patent infringement proceedings.

Where transparent and economically viable, adequate insurance cover is taken out for these risks and appropriate provisions recognized for the remaining identifiable risks. VWAG does not believe, therefore, that these risks will have a sustained effect on the economic position of the Volkswagen Group.

Consequently, VWAG is of the opinion that, to the best of its knowledge, there have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which VWAG is aware) in the twelve months preceding the date of this Prospectus that may have or had significant effects on VWAG's or the VW Group's financial position or profitability.

RECENT EVENTS

The following discussion of developments is intended to assist prospective investors in the Notes to understand and assess the trends and significant changes in the Volkswagen Group's business and results of operations during the six month period ended 30 June 2013.

Control and Profit and Loss Transfer Agreement Approved

At the company's Annual General Meeting on June 6, 2013, the shareholders of MAN SE agreed to the conclusion of the control and profit and loss transfer agreement between Truck & Bus GmbH and MAN SE. The agreement was entered in the commercial register on July 16, 2013, and has been effective since that date. Truck & Bus GmbH is a wholly-owned subsidiary of Volkswagen AG. The control and profit and loss transfer agreement is designed to enable Volkswagen and MAN to strengthen and simplify their cooperation, increasing the competitiveness of both companies.

By way of a letter dated July 25, 2013, the Munich Regional Court (I) served Truck & Bus GmbH, a wholly owned subsidiary of Volkswagen AG, with an application in accordance with section 1 no. 1 of the Spruchverfahrensgesetz (SpruchG — German Act on Appraisal Proceedings) for judicial review of the appropriateness of the cash settlement in accordance with section 305 of the Aktiengesetz (AktG — German Stock Corporation Act) and the cash compensation in accordance with section 304 of the AktG for the non-controlling interest shareholders of MAN SE. In the appraisal proceedings, the obligation vis-à-vis the non-controlling interest shareholders will be reassessed. The expected present value of the minimum statutory interest rate in accordance with section 305 of the AktG must be recognized as a liability. Assuming the appraisal proceedings take seven years, this is to impact the financial result by € 0.5 billion. It is not currently possible to predict the exact duration of the proceedings.

Issuance of mandatory convertible notes

On 12 June 2013, Volkswagen AG announced that it had successfully completed the issuance of new guaranteed mandatory convertible notes in an aggregate principal amount of EUR 1.2 billion, complementing the mandatory convertible notes issued in November 2012. The new notes were issued by VIF with a subordinated guarantee by Volkswagen AG.

General Economic Development

The global economy continued to be dominated by uncertainties and varying regional growth rates in the first half of 2013. Structural obstacles cast a shadow on the economic situation in the industrialized nations, while emerging market economies mainly recorded robust growth.

Trends in the Passenger Car Market and Markets for Commercial Vehicles

Global demand for passenger cars in the period from January to June 2013 was up on the prior-year level. Growth in the individual markets was again mixed. The number of new passenger car registrations in Western Europe fell below the prior-year figure, in line with expectations. The Central and Eastern European markets also recorded a decrease in volumes in the first six months of 2013. By contrast, the positive growth trajectory in the Asia-Pacific region and North America continued. Demand for passenger cars in South America in the first half of 2013 also exceeded the high prior-year figure.

Global demand for light commercial vehicles increased moderately in the first half of 2013. In the first six months of 2013, global demand for mid-sized and heavy trucks with a gross weight of more than six tonnes was lower year-on-year. New bus registrations declined worldwide in the first half of 2013 compared with the prior-year period.

Trends in the Markets for Power Engineering

The markets for power engineering are subject to differing regional and economic influences. Consequently, their business growth trends are generally independent of each other.

In the area of shipbuilding, competition was still dominated by overcapacity in the merchant fleet. This situation was further exacerbated by additional tonnage appearing in the market. Demand for energy generation remained high, with a strong trend towards greater flexibility and decentralized availability, but the number of new orders placed was below the level of the previous year. Growth in offshore wind energy has again fallen well short of expectations.

Demand for Financial Services

Global demand for automotive-related financial services was strong in the first six months of 2013. Although the situation in the new and used car markets in Europe remained strained, there was growing demand for automotive-related financial services.

Volkswagen Group Deliveries

The Volkswagen Group delivered 4,798,425 vehicles to customers in the first six months of 2013. This corresponds to an increase of 5.4% or 246,337 units compared with the prior-year figure. Delivery figures in all six months were higher than in the same months of the previous year.

Passenger Car Deliveries Worldwide

In the period from January to June 2013, the Volkswagen Group delivered 4,424,898 passenger cars worldwide, thereby surpassing the previous year's high. The rise of 5.8% was ahead of the market as a whole, which increased by 3.5% in the same period.

Commercial Vehicle Deliveries

The Volkswagen Group delivered 373,527 commercial vehicles worldwide in the period from January to June 2013, surpassing the prior-year figure by 0.8%. Of this figure, 91,101 were trucks (+0.0%), and 11,732 were buses (+25.8%).

Development of the Power Engineering Segment

Sales revenue in the Power Engineering segment was largely driven by Engines & Marine Systems and Turbomachinery, which together generated about two-thirds of the overall revenue volume.

Group Financial Services

Demand for Volkswagen Financial Services offerings remained high in the first half of 2013. Worldwide, 2.0 million new financing, leasing, service and insurance contracts were signed, 8.2% more than a year earlier. At 10.1 million, the total number of contracts at the end of June exceeded the number at the prior-year reporting date by 10.5%.

In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser, relates only to the position of persons who are absolute beneficial owners of the Notes and may not apply to certain classes of persons such as dealers, certain professional investors or persons connected with the Issuer. This overview is based on the laws of Luxembourg, the Federal Republic of Germany, Austria, The Netherlands, the UK and Ireland (including the practice of the respective tax authorities of each jurisdiction) currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect. It is based is not intended to be, nor should it be construed to be, legal or tax advice.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND DISPOSAL OF THE NOTES, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES UNDER THE TAX LAWS APPLICABLE IN LUXEMBOURG, THE FEDERAL REPUBLIC OF GERMANY, AUSTRIA, THE NETHERLANDS, THE UK, IRELAND AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS.

Taxation in Luxembourg

The following overview is of a general nature. It contains the information required on taxation by the Commission Regulation (EC) No 809/2004 of 29 April 2004. Information exceeding this information requirement is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice.

Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Withholding tax and self-applied tax

Non-resident Noteholders

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005, as amended (the "**Laws**") mentioned below, there is no withholding tax on payments of principal, premium or interest made to non-resident Noteholders, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident Noteholders.

Under the Laws implementing the EU Savings Directive (see below) and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU member states (the "**Territories**"), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which is a resident of, or established in, an EU member state (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in case of an individual beneficiary, has provided a tax certificate issued by the fiscal authorities of his/her/its country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it will be levied at a rate of 35%. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

The withholding tax system will only apply during a transitional period, the ending of which depends on the conclusion of certain agreements relating to information exchange with certain third countries. The Luxembourg government however officially announced on 10 April 2013 that they will give up the withholding tax system as from 1 January 2015 and apply the automatic exchange of information system under the Savings Directive (see above).

Resident Noteholders

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005 as amended (the "**Law**") mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident Noteholders, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident Noteholders.

Under the Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is a resident of Luxembourg or a foreign residual entity that secures interest payments on behalf of such individuals (unless such entity has opted to be treated as UCITS recognized in accordance with the Council Directive 85/611/EEC, as replaced by the European Council Directive 2009/65/EC, or for the exchange of information regime) will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her/its private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

Pursuant to the Law as amended by the law of 17 July 2008, Luxembourg resident individuals, acting in the course of their private wealth, can opt to self-declare and pay a 10% tax on interest payments made after 31 December 2007 by paying agents (defined in the same way as in the Savings Directive) located in an EU member state other than Luxembourg, a member state of the European Economic Area other than an EU member state or in one of the Territories.

Taxation in Germany

Investors resident in Germany

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge thereon plus church tax and/or trade tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Notes) and, in general, capital gains.

Taxation if the Notes are held as private assets (Privatvermögen)

In the case of German tax-resident individual investors (unbeschränkt Steuerpflichtige) holding the Notes as private assets (*Privatvermögen*), the following applies:

Income

The Notes should qualify as other capital receivables (*sonstige Kapitalforderungen*) in terms of section 20 para 1 no 7 German Income Tax Act ("**ITA**" — *Einkommensteuergesetz*).

Accordingly, payments of interest on the Notes should qualify as taxable savings income (*Einkünfte aus Kapitalvermögen*) pursuant to section 20 para 1 no 7 ITA.

Capital gains / capital losses realised upon sale of the Notes, computed as the difference between the acquisition costs and the sales proceeds reduced by expenses directly and factually related to the sale, should qualify as positive or negative savings income in terms of section 20 para 2 sentence 1 no 7 ITA. Where the Notes are acquired and/or sold in a currency other than Euro, the acquisition costs will be converted into Euro at the time of acquisition, the sales proceeds will be converted into Euro at the time of sale and the difference will then be computed in Euro. If the Notes are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. Losses from the sale of Notes can only be offset against other savings income and, if there is not sufficient other positive savings income, carried forward in subsequent assessment periods.

Pursuant to a tax decree issued by the Federal Ministry of Finance dated 22 December 2009, as amended on 16 November 2010 and 9 October 2012, a sale shall be disregarded where the transaction costs exceed the sales proceeds, which means that losses suffered from such "sale" shall not be tax-deductible. Similarly, a bad debt loss (*Forderungsausfall*), i.e. should the Issuer become insolvent, and a waiver of a receivable (*Forderungsverzicht*), to the extent the waiver does not qualify as a hidden contribution, shall not be treated like a sale. Accordingly, losses suffered upon such bad debt loss or waiver shall not be tax-deductible.

If the Issuer exercises the right to substitute the debtor of the Notes, the substitution might, for German tax purposes, be treated as an exchange of the Notes for new notes issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors.

German withholding tax (Kapitalertragsteuer)

With regard to savings earnings (*Kapitalerträge*), e.g. interest or capital gains, German withholding tax (*Kapitalertragsteuer*) will be levied if the Notes are held in a custodial account which the investor maintains with a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank (a "**German Disbursing Agent**") and such German Disbursing Agent credits or pays out the earnings.

The tax base is, in principle, equal to the taxable gross income as set out above (i.e. prior to withholding). However, in the case of capital gains, if the custodial account has changed since the time of acquisition of the Notes (e.g. if the Notes are transferred from a non-EU custodial account) and the acquisition costs of the Notes are not proven to the German Disbursing Agent in the form required by law, withholding tax is applied to 30% of the proceeds from the redemption or sale of the Notes. When computing the tax base for withholding tax purposes, the German Disbursing Agent has to deduct any negative savings earnings (*negative Kapitalerträge*) or paid accrued interest (*Stückzinsen*) in the same calendar year or unused negative savings earnings of previous calendar years.

German withholding tax will be levied at a flat withholding tax rate of 26.375% (including solidarity surcharge) plus, if applicable, church tax.

Individuals who are subject to church tax may apply in writing for this tax to be withheld as a surcharge to the withholding tax. Individuals subject to church tax but declining the application have to include their savings income in their tax return and will then be assessed to church tax. For German credit institutions an electronic information system as regards church withholding tax shall apply in respect of interest received after 31 December 2014, with the effect that church tax will be collected by the German Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

No German withholding tax will be levied if the investor has filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the exemption amount shown on the withholding tax exemption certificate. Currently, the maximum exemption amount is EUR 801 (EUR 1,602 in the case of jointly assessed husband and wife). Similarly, no withholding tax will be levied if the relevant investor has submitted a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office to the German Disbursing Agent.

The Issuer is, as a rule, not obliged to levy German withholding tax in respect of payments on the Notes.

Tax assessment

The taxation of savings income shall take place mainly by way of levying withholding tax (please see above). If and to the extent German withholding tax has been levied, such withholding tax shall, in principle, become definitive and replace the investor's income taxation. If no withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the investor is nevertheless obliged to file a tax return, and the savings income will then be taxed within the assessment procedure. If the investor is subject to church tax and has not applied in writing for this tax to be withheld as a surcharge to the withholding tax or, after 31 December 2014, has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*), the investor is also obliged to include the savings income in the tax return for church tax purposes.

However, also in the assessment procedure, savings income is principally taxed at a separate tax rate for savings income (*gesonderter Steuertarif für Einkünfte aus Kapitalvermögen*) being identical to the withholding tax rate (26.375% — including solidarity surcharge (*Solidaritätszuschlag*) plus, if applicable, church tax). In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate. Such application can only be filed consistently for all savings income within the assessment period. In case of jointly assessed husband and wife the application can only be filed for savings income of both spouses.

When computing the savings income, the saver's lump sum amount (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 in the case of jointly assessed husband and wife) will be deducted. The deduction of the actual income related expenses, if any, is excluded.

Taxation if the Notes are held as business assets (Betriebsvermögen)

In the case of German tax-resident corporations or individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as business assets (*Betriebsvermögen*), interest payments and capital gains will be subject to corporate income tax at a rate of 15% or income tax at a rate of up to 45%, as the case may be, (in each case plus 5.5% solidarity surcharge thereon). In addition, trade tax may be levied, the rate of which depends on the municipality where the business is located. Further, in the case of individuals, church tax may be levied. Business expenses that are connected with the Notes are deductible.

The provisions regarding German withholding tax (*Kapitalertragsteuer*) apply, in principle, as set out above for private investors. However, investors holding the Notes as business assets cannot file a withholding tax exemption certificate with the German Disbursing Agent. Instead, no withholding tax will be levied on capi-

tal gains from the redemption, sale or assignment of the Notes if, for example, (a) the Notes are held by a corporation or (b) the proceeds from the Notes qualify as income of a domestic business and the investor notifies this to the German Disbursing Agent by use of the officially required form.

Any withholding tax levied is credited as prepayment against the German (corporate) income tax amount. If the tax withheld exceeds the respective (corporate) income tax amount, the difference will be refunded within the tax assessment procedure.

Investors not resident in Germany

Persons who are not tax resident in Germany are not subject to tax with regard to income from the Notes unless (i) the Notes are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the investor or (ii) the income from the Notes qualifies for other reasons as taxable German source income. If a non-resident person is subject to tax with its income from the Notes, in principle, similar rules apply as set out above with regard to German tax resident persons (please see above).

Inheritance and Gift Tax

Inheritance or gift taxes with respect to any Note will, in principle, arise under German law if, in the case of inheritance tax, either the decedent or the beneficiary or, in the case of gift tax, either the donor or the donee is a resident of Germany or if such Note is attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed.

The few existing double taxation treaties regarding inheritance and gift tax may lead to different results. Special rules apply to certain German citizens that are living in a foreign country and German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties are payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany. It is intended to introduce a financial transaction tax, but not before the middle of 2014.

Taxation in Austria

The following is a general overview of certain Austrian tax aspects in connection with the Notes and contains the information required on taxation by the Commission Regulation (EC) No 809/2004 of 29 April 2004. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Notes nor does it take into account the Noteholders' individual circumstances or any special tax treatment applicable to the Noteholder. It is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors should consult their own professional advisors as to the particular tax consequences of the acquisition, ownership, disposition or redemption of the Notes.

This overview is based on Austrian law as in force when drawing up this Prospectus. The laws and their interpretation by the tax authorities may change and such changes may also have retroactive effect. It cannot be ruled out that the Austrian tax authorities adopt a view different from that outlined below. This overview is based on the assumption that the Notes are offered to the public.

Austrian residents

Income from the Notes derived by individuals, whose domicile or habitual abode is in Austria, is subject to Austrian income tax pursuant to the provisions of the Austrian Income Tax Act (*Einkommensteuergesetz*).

Interest income from the Notes is subject to a special income tax rate of 25%. If the interest is paid out to the Noteholder by an Austrian paying agent (Austrian bank or Austrian branch of foreign bank or investment firm), the interest income from the Notes is subject to Austrian withholding tax (*Kapitalertragssteuer*) at a rate of 25%, which is withheld by the paying agent (*auszahlende Stelle*). The income tax for interest income generally constitutes a final taxation (*Endbesteuerung*) for individuals, irrespectively whether the Notes are held as private assets or as business assets. If the interest income is not subject to Austrian withholding tax because there is no domestic paying agent, the taxpayer will have to include the interest income derived from the Notes in his personal income tax return pursuant to the provisions of the Austrian Income Tax Act.

Furthermore, any realized capital gain (*Einkünfte aus realisierten Wertsteigerungen*) from the Notes is subject to Austrian income tax at a rate of 25%. Realized capital gain means any income derived from the sale or redemption of the Notes. The tax base is, in general, the difference between the sale proceeds or the redemption amount and the acquisition costs, in each case including accrued interest. Expenses which are directly connected with income subject to the special tax rate of 25% are not deductible. For Notes held as private assets, the acquisition costs shall not include incidental acquisition costs. For the calculation of the acquisition costs of Notes held within the same securities account and having the same securities identification number but which are acquired at different points in time, an average price shall apply.

Where an Austrian securities depository (*depotführende Stelle*) or paying agent is involved and pays out or settles the capital gain, also any realized capital gain from the Notes is subject to a 25% withholding tax. The 25% withholding tax deduction will result in final income taxation for private investors (holding the Notes as private assets) provided that the investor has evidenced the factual acquisition costs of the Notes to the securities depository. If the realized capital gain is not subject to Austrian withholding tax because there is no domestic securities depository or paying agent, the taxpayer will also have to include the realized capital gain derived from the Notes in his personal income tax return pursuant to the provisions of the Austrian Income Tax Act.

Withdrawals (*Entnahmen*) and other transfers of Notes from the securities account will be treated as disposals (sales), unless specified exemptions will be fulfilled like the transfer of the Notes to a securities account owned by the same taxpayer (i) with the same Austrian securities depository (bank), (ii) with another Austrian bank if the account holder has instructed the transferring bank to disclose the acquisition costs to the receiving bank or (iii) with a non-Austrian bank, if the account holder has instructed the transferring bank to transmit the pertaining information to the competent tax office or has, in the case of transfers from a foreign account, himself notified the competent Austrian tax office within a month; or like the transfer without consideration to a securities account held by another taxpayer, if the fact that the transfer has been made without consideration has been evidenced to the bank or the bank has been instructed to inform the Austrian tax office thereof or if the taxpayer has himself notified the competent Austrian tax office within a month. Special rules apply if a taxpayer transfers his residence outside of Austria or Austria loses for other reasons its taxation right in respect of the Notes to other countries (which gives rise to a deemed capital gain and exit taxation with the option for deferred taxation in the case of a transfer to an EU Member State or certain member states of the European Economic Area).

Taxpayers, whose regular personal income tax is lower than 25% may opt for taxation of the income derived from the Notes at the regular personal income tax rate. Any tax withheld will then be credited against the income tax. Such application for opting into taxation at the regular personal income tax rate must, however, include all income subject to the special 25% tax rate. Expenses in direct economical connection with such income are also not deductible if the option for taxation at the regular personal income tax rate is made.

Income from Notes which are not offered to the public within the meaning of the Austrian Income Tax Act would not be subject to withholding tax and final taxation but subject to normal progressive personal income tax rates.

Losses from Notes held as private assets may only be set off with other investment income subject to the special 25% tax rate (excluding, *inter alia*, interest income from bank deposits and other claims against banks) and must not be set off with any other income. The Austrian Budget Implementation Act 2012 provides for a mandatory set-off of losses applied as of 1 January 2013 by the Austrian securities depository to investment income from securities accounts at the same securities depository (subject to certain exemptions). However, a carry-forward of such losses is not permitted.

Income including capital gain derived from the Notes which are held as business assets are also subject to the special income tax rate of 25% deducted by way of the withholding tax. However, realized capital gains, contrary to interest income, have to be included in the tax return and must not be a main focus of the taxpayer's business activity. Write-downs and losses derived from the sale or redemption of Notes held as business assets must primarily be set off against positive income from realized capital gains of financial instruments of the same business and only half of the remaining loss may be set off or carried forward against any other income.

Income including capital gains from the Notes derived by corporate Noteholders, whose seat or place of management is based in Austria, is subject to Austrian corporate income tax pursuant to the provisions of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*). Corporate Noteholders deriving business income from the Notes may avoid the application of Austrian withholding tax by filing a declaration of exemption (*Befreiungserklärung*). There is, *inter alia*, a special tax regime for private foundations established under Austrian law (*Privatstiftungen*) (interim tax, no withholding tax).

The Issuer does not assume responsibility for Austrian withholding tax (*Kapitalertragsteuer*) at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Non-residents

Income including capital gains derived from the Notes by individuals who do not have a domicile or their habitual abode in Austria or by corporate investors who do not have their corporate seat or their place of management in Austria ("**non-residents**") is not taxable in Austria provided that the income is not attributable to an Austrian permanent establishment (for withholding tax under the EU Savings Directive see below).

Thus, non-resident Noteholders — in case they receive income or capital gains from the Notes through a securities depository or paying agent located in Austria — may avoid the application of Austrian withholding tax if they evidence their non resident-status vis-à-vis the paying agent by disclosing their identity and address pursuant to the provisions of the Austrian income tax guidelines. The provision of evidence that the Noteholder is not subject to Austrian withholding tax is the responsibility of the Noteholder.

If any Austrian withholding tax is deducted by the securities depository or paying agent, the tax withheld shall be refunded to the non-resident Noteholder upon his application which has to be filed with the competent Austrian tax authority within five calendar years following the date of the imposition of the withholding tax.

Where non-residents receive income from the Notes as part of business income taxable in Austria (e.g. permanent establishment), they will, in general, be subject to the same tax treatment as resident investors.

Implementation of the EU Savings Directive in Austria

The EU Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (“**EU Savings Directive**”) provides for an exchange of information between the authorities of EU Member States regarding interest payments made in one EU Member State to beneficial owners who are individuals and resident for tax purposes in another EU Member State (concerning the EU Savings Directive, please see also below).

Austria has implemented the EU Savings Directive by way of the EU Withholding Tax Act (*EU-Quellensteuergesetz*) which provides for a withholding tax rather than for an exchange of information. Such EU withholding tax is levied on interest payments within the meaning of the EU Withholding Tax Act made by a paying agent located in Austria to an individual resident for tax purposes in another EU Member State of the European Union or certain dependent and associated territories. The EU withholding tax currently amounts to 35%.

No EU withholding tax is deducted if the EU-resident Noteholder provides the paying agent with a certificate drawn up in his name by the tax office of his EU Member State of residence. Such certificate has to indicate, among other things, the name and address of the paying agent as well as the bank account number of the Noteholder or the identification of the Notes (section 10 EU Withholding Tax Act).

The Issuer does not assume responsibility for EU withholding tax at source and is not obliged to make additional payments in case of EU withholding tax deductions at source.

Other taxes

There should be no transfer tax, registration tax or similar tax payable in Austria by Noteholders as a consequence of the acquisition, ownership, disposition or redemption of the Notes. The Austrian inheritance and gift tax (*Erbschafts- und Schenkungssteuer*) was abolished with effect as of 1 August 2008. However, gifts from or to Austrian residents have to be notified to the tax authorities within a three-month notification period. There are certain exemptions from such notification obligation, e.g. for gifts among relatives that do not exceed an aggregate amount of EUR 50,000 per year or gifts among unrelated persons that do not exceed an aggregate amount of EUR 15,000 within five years.

Concerning the proposed financial transaction tax (“**FTT**”) please see below under “—Proposed Financial Transaction Tax”.

Taxation in The Netherlands

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of Notes or Coupons, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of the paragraph “Taxes on Income and Capital Gains” below it is assumed that:

- a holder of Notes, being an individual or a non-resident entity, does not have nor will have a substantial interest (*aanmerkelijk belang*), or — in the case of such holder being an entity — a deemed substantial interest, in the Issuer and that no connected person (*verbonden persoon*) to the holder has or will have a substantial interest in the Issuer;
- a holder of Notes which is an entity is not a pension fund, otherwise not a taxpayer or exempt for tax purposes; and
- a holder of Notes which is an entity is not a resident of Aruba, Curaçao or Sint Maarten.

Generally speaking, an individual has a substantial interest in a company if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company.

Generally speaking, a non-resident entity has a substantial interest in a company if such entity, directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company. An entity has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term “entity” means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this summary refers to a holder of Notes, an individual holding Notes or an entity holding Notes, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Notes or otherwise being regarded as owning Notes for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the summary refers to “the Netherlands” or “Dutch” it refers only to the European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of Notes or Coupons.

Withholding Tax

All payments made by the Issuer of interest and principal under the Notes can be made free of withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

Taxes on Income and Capital Gains

Residents

Resident entities

An entity holding Notes which is, or is deemed to be, resident in the Netherlands for corporate tax purposes and which is not tax exempt, will generally be subject to corporate tax in respect of income or a capital gain derived from the Notes at the prevailing statutory rates.

Resident individuals

An individual holding Notes who is, is deemed to be, or has elected to be treated as, resident in the Netherlands for income tax purposes will be subject to income tax in respect of income or a capital gain derived from the Notes at rates up to 52 per cent if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (normaal, actief vermogensbeheer).

If neither condition (i) nor (ii) applies, an individual holding Notes will be subject to income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from the Notes. The deemed return amounts 4% of the fair market value of the individual's net assets exceeding a certain threshold as at the beginning of the relevant fiscal year (including the Notes). Subject to application of certain allowances, the deemed return will be taxed at a rate of 30 per cent.

Non-residents

A holder which is not, is not deemed to be, and — in case the holder is an individual — has not elected to be treated as, resident in the Netherlands for the relevant tax purposes will not be subject to taxation on income or a capital gain derived from the Notes unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in the Netherlands or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands and the holder of Notes derives profits from such enterprise (other than by way of securities); or
- (ii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

Gift and Inheritance Taxes

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of Notes by way of gift by, or on the death of, a holder of Notes, unless:

- (i) such holder is, or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

Value Added Tax

There is no Dutch value added tax payable by a holder of Notes in respect of payments in consideration for the issue of the Notes or in respect of the payment of interest or principal under the Notes, or the transfer of Notes.

Other Taxes and Duties

There is no Dutch registration tax, stamp duty or any other similar tax or duty payable in the Netherlands by a holder of Notes in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of the Netherlands) of the Notes or the performance of the Issuer's obligations under the Notes.

Residence

A holder of Notes will not be and will not be deemed to be resident in the Netherlands for tax purposes and, subject to the exceptions set out above, will not otherwise become subject to Dutch taxation, by reason only of acquiring, holding or disposing of Notes or the execution, performance, delivery and/or enforcement of Notes.

Taxation in the United Kingdom (UK)

Interest on the Notes

Provided that the interest on the Notes does not have a UK source, interest on Notes issued for a term of one year or more (or under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more) may be paid by the Issuer without withholding or deduction for or on account of UK income tax. The source of a payment is a complex matter. It is necessary to have regard to case law and HMRC practice. Case law has established that in determining the source of interest, all relevant facts must be taken into account. HMRC consider the most important factor in deciding whether interest has a UK source is the residence of the debtor and the location of the debtor's assets.

If the interest on the Notes does have a UK source ("**UK interest**") it may be paid by the Issuer without withholding or deduction for or on account of UK income tax if the Notes in respect of which the UK interest is paid constitute "quoted Eurobonds" within the meaning of section 987 of the Income Tax Act 2007 ("**ITA**"). Notes which carry a right to interest will constitute quoted Eurobonds provided they are and continue to be listed on a recognised stock exchange within the meaning of section 1005 of ITA. Whilst the Notes are and continue to be quoted Eurobonds, payments of interest on the Notes may be made without withholding or deduction for or on account of UK income tax.

Securities will be “listed on a recognised stock exchange” for this purpose if they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the UK official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000) or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the UK in which there is a recognised stock exchange. The Luxembourg Stock Exchange is a recognised stock exchange for these purposes. The Issuer’s understanding of current HMRC practice is that securities which are officially listed and admitted to trading on the Euro MTF Market of that Exchange may be regarded as “listed on a recognised stock exchange” for these purposes.

In all other cases, UK interest on the Notes may fall to be paid under withholding or deduction for or on account of UK income tax at the basic rate (currently 20%), subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.

Where Notes are issued on terms in which a premium is, or may be, payable on redemption it is possible that such element of premium will constitute a payment of interest and be subject to withholding or deduction for or on account of UK income tax as outlined in the preceding paragraphs.

The interest may be chargeable to UK tax by direct assessment even where paid without withholding or deduction. Where the interest is paid without withholding or deduction, the interest will generally not be assessed to UK tax in the hands of Noteholders who do not (in the case of an individual) have a “UK representative”, within the meaning of the Income Tax Act 2007, through whom the Noteholder carries on a trade, profession or vocation in the UK and to which the interest is attributable or (in the case of a company) carry on a trade in the UK.

The above description of the UK withholding tax position assumes that there will be no substitution of the Issuer and does not consider the tax consequences of any such substitution. Any references to “interest” in this section are to “interest” as understood in UK tax law. The statements herein do not take any account of any different definitions of “interest” which may prevail under any other law.

Payments by a Guarantor in respect of interest may not be eligible for any of the exemptions described above.

Taxation on Disposal (including redemption) and return (including interest)

Corporate Noteholders

Noteholders within the charge to UK corporation tax (including non-UK resident Noteholders whose Notes are issued, used, held or acquired for the purposes of a trade carried on in the UK through a permanent establishment in the UK) will be subject to tax as income for UK corporation tax purposes on all profits (including interest), gains and losses in respect of the Notes and fluctuations in the value of the Notes (whether attributable to currency fluctuations or otherwise) in accordance with the “loan relationship” rules in Part 5 of the Corporation Tax Act 2009 (as amended from time to time) on a basis broadly in accordance with the treatment in their statutory accounts. Such Noteholders will generally be charged in each accounting period by reference to interest and other amounts which, in accordance with generally accepted accounting practice, are recognised in determining their profit or loss for that period.

Individual Noteholders

Noteholders who are either individuals or trustees and are resident or ordinarily resident for tax purposes in the UK or who carry on a trade, profession or vocation in the UK through a branch or agency to which the Notes are attributable will generally be liable to UK income tax on the amount of any interest received in respect of the Notes.

Dependent, among other things, on the discount (if any) at which the Notes are issued, the Notes may be deemed to constitute “deeply discounted securities” for the purposes of Chapter 8 of Part 4 of the Income Tax (Trading and Other Income) Act 2005. If the Notes are deemed to be deeply discounted securities, any profit made on a disposal (including redemption) of a Note by an individual or trustee who is resident for tax purposes in the UK or who is subject to UK income tax by virtue of carrying on a trade, profession or vocation in the UK through a branch or agency to which the Notes are attributable will be taxed as income.

The Notes will not be “qualifying corporate bonds” within the meaning of section 117 of the Taxation of Chargeable Gains Act 1992 because they are euro denominated. Accordingly, a disposal of Notes may (depending on the Noteholder’s individual circumstances, including the availability of any exemptions or reliefs) give rise to a chargeable gain or an allowable loss for the purposes of taxation of capital gains. In calculating any gain or loss on a disposal of Notes, sterling values are compared at acquisition and disposal. Accordingly, a taxable profit can arise even where the foreign currency amount received on a disposal does not exceed the amount paid for the relevant Note.

On a disposal of Notes by a Noteholder, any interest which has accrued since the last interest payment date may be chargeable to tax as income under the rules of the accrued income scheme as set out in Part 12 of the Income Tax Act 2007 if that Noteholder is resident or ordinarily resident in the UK or carries on a trade in the UK through a branch or agency to which the Notes are attributable.

Provision of Information

Persons in the UK (i) paying interest to or receiving interest on behalf of another person who is an individual or a partnership containing individuals, or (ii) paying amounts due on redemption of any Notes which constitute deeply discounted securities as defined in Chapter 8 of Part 4 of the Income Tax (Trading and Other Income) Act 2005 to or receiving such amounts on behalf of another person who is an individual or a partnership containing individuals, may be required to provide certain information to HMRC regarding the identity of the payee or person entitled to the interest and, in certain circumstances, such information may be exchanged with tax authorities in other jurisdictions. However, in relation to the payments contemplated in (ii) above, HMRC published guidance for the year 2013/2014 indicates that HMRC will not exercise its power to obtain information in relation to such payments in that year. There is no guarantee that equivalent guidance will be published in respect of future years.

For the above purposes, "interest" should be taken, for practical purposes, as including payments made by a Guarantor in respect of interest on Notes.

Information may also be required to be reported in accordance with regulations made pursuant to the EU Savings Directive (see below).

Stamp Duty and Stamp Duty Reserve Tax

No liability to UK stamp duty or stamp duty reserve tax will arise for a Noteholder on the creation, issue or redemption of Notes.

No liability to UK stamp duty will arise for a Noteholder on a transfer or, or an agreement to transfer, Notes provided that such transfer or agreement to transfer is effected by electronic means, without executing any documentary transfer of, or agreement to transfer, such Note.

Provided that no register of the Notes is kept or maintained in the UK by or on behalf of the Issuer, no UK stamp duty reserve tax should be payable on a transfer of the Notes.

Irish Tax Section

Irish income tax

In general, individuals who are resident or ordinarily resident in Ireland for tax purposes are liable to Irish taxation on their worldwide income. All such individuals are generally under a statutory obligation to account for Irish tax on interest income earned on listed debt securities on a self-assessment basis (and there is no requirement for the Irish Revenue Commissioners to issue or raise an assessment).

Accordingly, Irish resident or ordinarily resident individuals who receive interest income in respect of the Notes will be liable to account for Irish income tax on that interest income at their applicable marginal rate of Irish income tax. Irish resident or ordinarily resident individuals may also be liable to account for the Irish universal social charge and pay-related social insurance contributions in respect of such interest. The applicable rates of the universal social charge and the pay-related social contributions will depend on the personal circumstances of each individual holding the Notes.

A disposal of notes is also within the charge to Irish capital gains tax where the notes constitute a 'debt on a security'. The Notes may constitute a 'debt on a security'. If this is the case, Irish resident or ordinarily resident individuals would also be liable to Irish capital gains tax at the rate of 33% in respect of any gains realised on the disposal of the Notes.

Irish corporation tax

In general, companies that are resident in Ireland for tax purposes are liable to Irish tax on their world-wide income and gains. All such companies are under a statutory obligation to account for Irish tax on a self-assessment basis (and there is no requirement for the Irish Revenue Commissioners to issue or raise an assessment).

Irish resident companies that do not hold the Notes as part of a trade will generally be subject to Irish corporation tax at a rate of 25% on any interest income received in respect of the Notes. Such Irish resident companies will generally be subject to Irish corporation tax at the rate of 33% on any gains realised on the disposal of the Notes, assuming the Notes constitute a 'debt on a security'.

Irish resident companies that have acquired the Notes in the course of their trade will generally be subject to Irish corporation tax at a rate of 12.5% on profits arising in respect of the Notes.

Companies that are not resident in Ireland, but which carry on a trade in Ireland to which Notes are attributable, will generally be liable to Irish corporation tax in respect of interest income on the Notes at the rate of 12.5% or 25% (depending on the circumstances) and may be subject to Irish corporation tax at a rate of 33% in respect of any gains on the disposal of the Notes.

Interest withholding tax

Irish interest withholding tax should not apply to interest payments which have their source outside Ireland. On the basis that the Issuer is not resident in Ireland nor has any presence in Ireland, that no interest payments will be made from Ireland and that the Notes are unsecured, payments on the Notes should not have an Irish source and, therefore, no Irish interest withholding tax should arise.

Irish encashment tax

Irish encashment tax may be required to be withheld at the standard rate (currently 20%) from any interest paid in respect of the Notes where such interest is paid or collected by a person in Ireland on behalf of any person holding the Notes. Persons holding the Notes should therefore note that the appointment of an Irish collection agent or an Irish paying agent could result in the deduction of 20% encashment tax by such agent from interest payments on the Notes. A person holding the Notes that is not resident in Ireland for tax purposes may claim an exemption from this withholding tax by submitting an appropriate declaration of non-Irish tax residency to the Irish agent.

Capital acquisitions tax

If the Notes are comprised in a gift or inheritance taken from an Irish domiciled, resident or ordinarily resident donor or if the donee (or successor) is resident or ordinarily resident in Ireland, the donee (or successor) may be liable to Irish capital acquisitions tax at a rate of 33%.

Stamp duty

No charge to Irish stamp duty should be payable on the transfer of the Notes, provided that the transfer of the Notes does not relate to Irish immovable property or stocks or marketable securities of an Irish registered company.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the “**EU Savings Directive**”), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria and Luxembourg apply instead a withholding system in relation to such payments, deducting tax at a rate of meanwhile 35% (unless during that transitional period they elect to provide information in accordance with the EU Savings Directive). The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments. Luxembourg announced to abandon the transitional withholding system and provide information in accordance with the EU Savings Directive as from 1 January 2015 onwards.

On 10 April 2013 Luxembourg officially announced that it will no longer apply the withholding tax system as from 1 January 2015 and will provide details of payment of interest (or similar income) as from this date.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the EU Savings Directive, which may, if implemented, amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers.

If a payment under a Note were to be made by a person in a Member State or another country or territory which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from

that payment pursuant to the EU Savings Directive or any law implementing or complying with, or introduced in order to conform to the EU Savings Directive, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts under the terms of such Note as a result of the imposition of such withholding tax.

Proposed Financial Transactions Tax

The European Commission has published a proposal for a Directive for a FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “**participating Member States**”).

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

DESCRIPTION OF RULES REGARDING RESOLUTIONS OF NOTEHOLDERS

The Terms and Conditions provide that the Noteholders may agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed by taking votes without a meeting. Any such resolution duly adopted by resolution of the Noteholders shall be binding on each Noteholder, irrespective of whether such Noteholder took part in the vote and whether such Noteholder voted in favor or against such resolution.

The following is a brief summary of some of the statutory rules regarding the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before German courts.

Specific Rules regarding Votes without Meeting

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) if the vote was solicited by the joint representative (*gemeinsamer Vertreter*) of the Noteholders (the "**Noteholders' Representative**"), the Noteholders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Noteholders' votes shall set out the period within which votes may be cast. During such voting period, the Noteholders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Noteholder's entitlement to cast a vote based on evidence provided by such Noteholder and shall prepare a list of the Noteholders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Noteholders. Within one year following the end of the voting period, each Noteholder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Noteholder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Noteholder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

Rules regarding Noteholders' Meetings applicable to Votes without Meeting

In addition, the statutory rules applicable to the convening and conduct of Noteholders' meetings will apply *mutatis mutandis* to any vote without a meeting. The following summarises some of such rules.

Meetings of Noteholders may be convened by the Issuer or the Noteholders' Representative. Meetings of Noteholders must be convened if one or more Noteholders holding five per cent or more of the outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. Attendance and exercise of voting rights at the meeting may be made subject to prior registration of Noteholders. The convening notice will provide what proof will be required for attendance and voting at the meeting. The place of the meeting is the place of the Issuer's registered offices, provided, however, that where the Notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Noteholder may be represented by proxy. The Noteholders' meeting will have a quorum if the persons attending represent at least 50 per cent of the outstanding Notes by value. If the quorum is not reached, a second meeting may be convened at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25 per cent of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. Resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the Global Note.

In insolvency proceedings instituted in Germany against the Issuer, the Noteholders' Representative is obliged and exclusively entitled to assert the Noteholders' rights under the Notes. Any resolutions passed by the Noteholders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Terms and Conditions, Noteholders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

OFFER, SALE AND SUBSCRIPTION OF THE NOTES

Offer of the Notes

The offer will be coordinated and the Notes will be offered to investors by Merrill Lynch International, Citigroup Global Markets Limited, Commerzbank Akitengesellschaft and Goldman Sachs International (together, the “**Joint Bookrunners**” or the “**Managers**”) during an offer period which will commence at the later of the time of effectiveness of the notifications (passporting) of the Prospectus into the eligible jurisdictions and August 30, 2013 and runs until September 4, 2013 (being the date of issuance of the Notes), subject to a shortening or extension of the offer period. Should the Issuer and the Managers determine any shortening or extension of the offer period (e.g. due to changing market conditions), such changes will be published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

The Notes will be offered to institutional investors and retail investors in compliance with applicable public offer restrictions. The Notes may be offered to the public in each of Luxembourg, Germany, Austria, the Netherlands, the United Kingdom and Ireland following the effectiveness of the notification of the Prospectus by the CSSF according to article 18 of the Prospectus Directive.

Conditions and details of the offer

The Joint Bookrunners have subscribed the EUR 1,250,000,000 NC5 Notes and the EUR 750,000,000 NC10 Notes.

The commission for the Joint Bookrunners in connection with the offering, placement and subscription of the Notes will amount to up to 0.75 per cent. of the aggregate principal amount of Notes issued.

There is no obligation for the Issuer to issue the Notes and the Issuer may withdraw the offer. Subscription rights for the Notes will not be issued. Therefore, there are no procedures in place for the exercise of any right of pre-emption, the negotiability of subscription rights and the treatment of subscription rights not exercised.

There are no conditions to which the offer is subject.

Costs of and reasons for the offer; use of proceeds

In connection with the Offering, the Issuer will receive net proceeds of approximately EUR 1,966,762,500 after deducting total expenses of approximately EUR 15,000,000 (assuming the maximum amount of commissions paid including discretionary incentive fees). The Issuer intends to use the net proceeds for general corporate purposes.

Derivative component

The fixed interest rate applicable to the Subordinated Notes for each interest period shall be reset on each reset date. The new fixed interest rate applicable to the Subordinated Notes for the period from and including each reset date to but excluding the next following reset date shall be calculated on the basis of the 5-year swap rate or the 10-year swap rate, as applicable, determined by the calculation agent prior to the relevant reset date plus the applicable margin.

The 5-year swap rate and the 10-year swap rate are based in part on the annual swap rate for euro swap transactions with a term of 5 years and 10 years. The relevant 5-year swap rate and 10-year swap rate will therefore in part depend on the level of the EURIBOR at the time of the reset dates, as a result of which an increase in EURIBOR may lead to a higher modified reset interest rate, a decrease to a lower modified reset interest rate.

Subscription and allotment of the Notes

Subscription by the Managers

The Managers have entered into a subscription agreement on August 29, 2013 (the “**Subscription Agreement**”) as well as a pricing agreement on the same date (the “**Pricing Agreement**”) in which they have subscribed the EUR 1,250,000,000 NC5 Notes and the EUR 750,000,000 NC10 Notes. The Managers will be entitled, under certain circumstances, to terminate the Subscription Agreement and the Pricing Agreement reached with the Issuer and the Guarantor. In such event, no Notes will be delivered to investors. Furthermore, the Issuer and the Guarantor agree in the Subscription Agreement to indemnify the Managers against certain liabilities in connection with the offer and sale of the Notes.

The Managers or their affiliates have provided from time to time, and expect to provide in the future, investment services to the Issuer and its affiliates, for which the Managers or their affiliates have received or will receive customary fees and commissions. In addition, in the ordinary course of their business activities, the Managers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans)

for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, Issuer's affiliates, the Guarantor or the Guarantor's affiliates. Certain of the Managers or their affiliates that have a lending relationship with the Issuer or the Guarantor routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Managers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of the Notes. The Managers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. There are no interests of natural and legal persons other than the Issuer involved in the issue, including conflicting ones that are material to the issue.

Confirmation of offers placed by, and allotments to, investors

Any investor who has submitted an order in relation to the Notes and whose order is accepted by the Managers will receive a confirmation by electronic mail, fax or through commonly used information systems setting out its respective allotment of Notes. Before an investor receives a confirmation from the Managers that its offer to purchase Notes has been accepted, the investor may reduce or withdraw its purchase order.

Delivery of the Notes to investors

Following the determination of the Pricing Details and confirmation of which orders have been accepted and which amounts have been allotted to particular investors, delivery and payment of the Notes will be made on the Issue Date, which is expected to be September 4, 2013. The Notes so purchased will be delivered via book-entry through the Clearing Systems and their depository banks against payment of the Issue Price therefor.

Costs and expenses relating to the offer

The Issuer will not charge any costs, expenses or taxes directly to any investor in connection with the Notes. Investors must, however, inform themselves about any costs, expenses or taxes in connection with the Notes which are generally applicable in their respective country of residence, including any charges their own depository banks charge them for purchasing or holding securities.

SELLING RESTRICTIONS

General

Each Manager has acknowledged that other than explicitly mentioned in this Prospectus no action is taken or will be taken by the Issuer in any jurisdiction that would permit a public offering of the Notes, or possession or distribution of any offering material relating to them, in any jurisdiction where action for that purpose is required.

Each Manager has represented and agreed that it will comply with all applicable laws and regulations in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes any offering material relating to them.

United States of America

The Notes and the Guarantee have not been and will not be registered under the Securities Act and may not be offered or sold in the United States, or to, or for the account or benefit of, U.S. persons, unless registered under the Securities Act or pursuant to an exemption from such registration. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder.

United Kingdom of Great Britain and Northern Ireland:

No Notes are being offered to the Public in the United Kingdom using the Prospectus.

(a) Any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (the “**FSMA**”)) in connection with the issue or sale of the Notes will be communicated or caused to be communicated and will only be communicated or caused to be communicated in circumstances in which section 21(1) of the FSMA does not apply to the Issuer or the Guarantor; and

(b) All applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom have been and will be complied with.

European Economic Area

In relation to each Member State of the European Union, Iceland, Norway and Liechtenstein (together the “**European Economic Area**”) which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) an offer of Notes to the public may not be made in that Relevant Member State prior to the publication of a prospectus in relation to the Notes which has been approved by the competent authority in the Grand Duchy of Luxembourg and published and notified to the relevant competent authorities in accordance with the Prospectus Directive as implemented in the Grand Duchy of Luxembourg, in the Republic of Austria, the Netherlands, the United Kingdom, the Republic of Ireland and the Federal Republic of Germany, except that with effect from and including the Relevant Implementation Date, an offer of such Notes may be made to the public in that Relevant Member State until the issue date:

(a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;

(b) to fewer than 150 (or 100 if the Relevant Member State has not yet implemented the relevant provision of the 2010 Prospectus Directive Amending Directive) natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the Joint Lead Managers; or

(c) in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes shall require the Issuer or the Guarantor or any Joint Lead Manager to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

Consent to use the Prospectus

The Issuer consents to the use of the Prospectus by all credit institutions licensed in accordance with Art 4 number 1 of Directive 2006/48/EC to trade securities in Germany, Austria, The Netherlands, the United Kingdom and/or Ireland (each a "**Financial Intermediary**") (general consent) and accepts responsibility for the content of the Prospectus also with respect to subsequent resale or final placement of the Notes by any Financial Intermediary which was given consent to use the Prospectus; an exceeding liability of the Issuer is excluded.

The subsequent resale or final placement of the Notes by Financial Intermediaries can be made from the later of the time of effectiveness of the notifications (passporting) of the Prospectus into the eligible jurisdictions and August 30, 2013 until September 4, 2013 (being the date of issuance of the Notes) (the "**Offer Period**").

Financial Intermediaries may use the Prospectus for subsequent resale or final placement of the Notes in Austria and/or Germany during the Offer Period. However, the Issuer may revoke or limit its consent at any time, whereby such revocation requires a supplement to the Prospectus.

Any Financial Intermediary using the Prospectus has to state on its website that it uses the Prospectus in accordance with the consent and the conditions attached thereto.

In the event of an offer being made by a Financial Intermediary, this Financial Intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made.

MARKET AND INDUSTRY DATA

This Prospectus includes information regarding market share, market position, growth rates and industry data for Volkswagen's lines of business, which consists of estimates based on data and reports compiled by third parties, on data from other external sources, and on Volkswagen's knowledge of its sales and markets. Sources of such third party information include the International Monetary Fund, the World Bank and IHS Global Insight. Such third party sources have been accurately reproduced and, as far as the Issuer is aware and able to ascertain from information published by such third parties, no facts have been omitted which would render the reproduced information inaccurate or misleading.

The Issuer has no access to the facts and assumptions underlying the numerical data, market data and other information extracted from publicly available sources, and has not independently verified market data provided by third parties or industry or general publications. In many cases there is no readily available external information (whether from trade associations, government bodies or other organizations) to validate market-related analyses and estimates, requiring the Issuer to rely on internally developed estimates. While the Issuer believes its internal research to be reliable, such research has not been verified by any independent source and the Issuer cannot guarantee its accuracy. The Issuer believes that such data is useful in helping investors understand the industry in which the Volkswagen Group operates and the Volkswagen Group's position within the industry.
