**Note, Warrant and Certificate Programme**

This document (the "**Base Prospectus**") constitutes a base prospectus in respect of the Programme (as defined below). Any Securities (as defined below) issued on or after the date of this Base Prospectus are issued subject to the provisions herein. This does not affect any Securities issued before the date of this Base Prospectus. This Base Prospectus constitutes a base prospectus for the purposes of Article 5.4 of the Prospectus Directive. Prospectus Directive means Directive 2003/71/EC (as amended including by Directive 2010/73/EU) and includes any relevant implementing measure in a relevant Member State of the European Economic Area.

Application has been made to the *Autorité des marchés financiers* ("**AMF**") in France for approval of this Base Prospectus in its capacity as competent authority pursuant to Article 212.2 of its *Règlement Général* which implements the Prospectus Directive. Upon such approval, application may be made for securities issued under the Programme during a period of 12 months from the date of this Base Prospectus to be listed and/or admitted to trading on Euronext Paris and/or a Regulated Market (as defined below) in another Member State of the European Economic Area. Euronext Paris is a regulated market for the purposes of the Markets in Financial Instruments Directive 2004/39/EC (each such regulated market being a "**Regulated Market**"). Reference in this Base Prospectus to Securities being "listed" (and all related references) shall mean that such Securities have been listed and admitted to trading on Euronext Paris or, as the case may be, a Regulated Market (including the regulated market of the Luxembourg Stock Exchange) or on such other or further stock exchange(s) as the relevant Issuer may decide. Each Issuer may also issue unlisted Securities. The applicable Final Terms (as defined below) will specify whether or not Securities are to be listed and admitted to trading and, if so, the relevant Regulated Market or other or further stock exchange(s).

The requirement to publish a prospectus under the Prospectus Directive only applies to Securities which are to be admitted to trading on a regulated market in the European Economic Area and/or offered to the public in the European Economic Area other than in circumstances where an exemption is available under Article 3.2 of the Prospectus Directive (as implemented in the relevant Member State(s)).

The Issuers may issue Securities for which no prospectus is required to be published under the Prospectus Directive ("**Exempt Securities**") under this Base Prospectus. See "**Exempt Securities**" in the "**General Description of the Programme and Payout Methodology**" section below. The AMF has neither approved nor reviewed information contained in this Base Prospectus in connection with Exempt Securities.

Under the terms of the Note, Warrant and Certificate Programme (the "**Programme**"), each of BNP Paribas Arbitrage Issuance B.V. ("**BNPP B.V.**"), BNP Paribas ("**BNPP**"), BNP Paribas Fortis Funding ("**BP2F**") and BGL BNP Paribas ("**BGL**" and, together with BNPP B.V., BNPP and BP2F the "**Issuers**" and each an "**Issuer**") may from time to time issue warrants ("**Warrants**"), certificates ("**Certificates**" and, together with the Warrants, "**W&C Securities**") and, other than in the case of BNPP, notes ("**Notes**", and together with the W&C Securities, "**Securities**") of any kind including, but not limited to, Securities relating to a specified index or a basket of indices, a specified share, global depositary receipt ("**GDR**") or American depositary receipt ("**ADR**") or a basket of shares, ADRs and/or GDRs, a specified interest in an exchange traded fund, an exchange traded note, an exchange traded commodity or other exchange traded product (each an "**exchange traded instrument**") or a basket of interests in exchange traded instruments, a specified debt instrument or a basket of debt instruments, a specified debt futures or debt options contract or a basket of debt futures or debt options contracts, a specified currency or a basket of currencies, a specified commodity or commodity index, or a basket of commodities and/or commodity indices, a specified inflation index or a basket of inflation indices, a specified fund share or unit or basket of fund shares or units, a specified futures contract or basket of futures contracts, a specified underlying interest rate or basket of underlying interest rates, or the credit of a

specified entity or entities, open end Certificates ("**Open End Certificates**") and open end turbo Certificates ("**OET Certificates**") and any other types of Securities including hybrid Securities whereby the underlying asset(s) may be any combination of such indices, shares, interests in exchange traded instruments, debt, currency, commodities, inflation indices, fund shares or units, future contracts, credit of specified entities, underlying interest rates, or other asset classes or types. Each issue of Securities will be issued on the terms set out herein which are relevant to such Securities under "*Terms and Conditions of the Notes*" in respect of Notes (the "**Note Conditions**") or "*Terms and Conditions of the W&C Securities*" in respect of W&C Securities (the "**W&C Security Conditions**" and, together with the Note Conditions, the "**Conditions**"). Notice of, *inter alia*, the specific designation of the Securities, the aggregate nominal amount or number and type of the Securities, the date of issue of the Securities, the issue price, the underlying asset, index, fund, reference entity or other item(s) to which the Securities relate, the exercise period or date (in the case of Warrants), the redemption date (in the case of Certificates), the maturity date (in the case of Notes), whether they are interest bearing, partly paid, redeemable in instalments (in the case of Notes or Certificates), exercisable (on one or more exercise dates) (in the case of Certificates), the governing law of the Securities, whether the Securities are eligible for sale in the United States and certain other terms relating to the offering and sale of the Securities will be set out in a final terms document (the "**Final Terms**") which in the case of W&C Securities may be issued for more than one series of Securities and will be filed with the AMF. Copies of Final Terms in relation to Securities to be listed on Euronext Paris will also be published on the website of the AMF ([www.amf-france.org](http://www.amf-france.org)). References herein to the Final Terms may include, in the case of U.S. Securities, (x) a supplement to the Base Prospectus under Article 16 of the Prospectus Directive or (y) a prospectus.

Securities may be governed by English law ("**English Law Securities**") and, in the case of W&C Securities issued by BNPP B.V. and BNPP, French law ("**French Law Securities**"), as specified in the applicable Final Terms, and the corresponding provisions in the Conditions will apply to such Securities. Only English Law Securities will be U.S. Securities.

In certain circumstances at the commencement of an offer period in respect of Securities but prior to the issue date, certain specific information (specifically, the fixed rate of interest, minimum and/or maximum rate of interest payable, the margin applied to the floating rate of interest payable, the gearing applied to the interest or final payout, the Gearing Up applied to the final payout, (in the case of Autocall Securities, Autocall One Touch Securities or Autocall Standard Securities) the FR Rate component of the final payout (which will be payable if certain conditions are met, as set out in the Payout Conditions), the AER Exit Rate used if an Automatic Early Redemption Event occurs, the Bonus Coupon component of the final payout (in the case of Vanilla Digital Securities), any constant percentage (being any of Constant Percentage, Constant Percentage 1, Constant Percentage 2, Constant Percentage 3 or Constant Percentage 4) component of the final payout (which will be payable if certain conditions are met, as set out in the Payout Conditions) and/or the Knock-in Level and/or Knock-out Level used to ascertain whether a Knock-in Event or Knock-out Event, as applicable, has occurred) may not be known. In these circumstances, the Final Terms will specify an indicative range in respect of the relevant rates, levels or percentages and the actual rate, level or percentage, as applicable, will be notified to investors prior to the Issue Date. Accordingly, in these circumstances investors will be required to make their decision to invest in the relevant Securities based on the indicative range specified in the Final Terms. Notice of the actual rate, level or percentage, as applicable, will be published in the same manner as the publication of the Final Terms.

Notes issued by BNPP B.V. will be guaranteed by BNPP (in such capacity, the "**BNPP Guarantor**" pursuant to a Deed of Guarantee for Notes (the "**BNPP Note Guarantee**").

W&C Securities issued by BNPP B.V. may be secured ("**Secured Securities**") or unsecured and will be guaranteed by BNPP (in such capacity, the "**BNPP Guarantor**") pursuant to either (a) in respect of the Secured Securities, (i) a Deed of Guarantee for Secured Securities, in respect of English Law Securities (the "**Secured Securities English Law Guarantee**") or (ii) a *garantie*, in respect of Secured Securities, which are French Law Securities (the "**Secured Securities French Law Guarantee**" and, together with the Secured Securities English Law Guarantee, the "**Secured Securities Guarantees**"), the forms of which are set out herein or (b) in respect of the unsecured Securities, (i) a Deed of Guarantee for Unsecured Securities in respect of English Law Securities (the "**BNPP English Law W&C Guarantee**") or (ii) a *garantie* in respect of unsecured Securities which are French Law Securities (the "**BNPP French Law W&C Guarantee**" and, together with the BNPP Note Guarantee and the BNPP English Law W&C Guarantee the "**BNPP Unsecured Securities Guarantees**"), the forms of which are set out herein. The Secured Securities Guarantees and the BNPP Unsecured Securities Guarantees together, the "**BNPP Guarantees**".

Securities issued by BP2F may be unsecured only and will be guaranteed by BNP Paribas Fortis SA/NV ("**BNPPF**" and, in such capacity, the "**BNPPF Guarantor**") pursuant to (i) a Deed of Guarantee for Notes (the "**BNPPF Note Guarantee**") or (ii) a Deed of Guarantee for W&C Securities (the "**BNPPF W&C Securities Guarantee**" and, together with the BNPPF Note Guarantee, the "**BNPPF Guarantees**"), the form of which is set out herein.

The BNPP Guarantor and the BNPPF Guarantor, together the "**Guarantors**" and each a "**Guarantor**".

Except in the case of U.S. Securities, each of BNPP B.V., BNPP, BP2F, BNPPF (in the case of W&C Securities only) and BGL has a right of substitution as set out herein.

Each issue of Securities will entitle the holder thereof on due exercise (in the case of Warrants) or on the Instalment Date(s) and/or the Redemption Date (in the case of Certificates) or the Maturity Date (in the case of Notes) (or, in the case of Multiple Exercise Certificates, each Exercise Settlement Date) either to receive a cash amount (if any) calculated in accordance with the relevant terms or to receive physical delivery of the underlying assets (against payment of a specified sum in the case of Warrants), all as set forth herein and in the applicable Final Terms.

Capitalised terms used in this Base Prospectus shall, unless otherwise defined, have the meanings set forth in the Conditions.

**Prospective purchasers of Securities should ensure that they understand the nature of the relevant Securities and the extent of their exposure to risks and that they consider the suitability of the relevant Securities as an investment in the light of their own circumstances and financial condition. Securities involve a high degree of risk and potential investors should be prepared to sustain a total loss of the purchase price of their Securities. See "Risk Factors" on pages 115 to 182.**

**In particular, the Securities and the Guarantees and, in the case of Physical Delivery Notes, Physical Delivery Warrants or Physical Delivery Certificates (each as defined below) (together, the "Physical Delivery Securities"), the Entitlement (as defined herein) to be delivered upon the exercise (in the case of Physical Delivery Warrants) or the redemption (in the case of Physical Delivery Notes or Physical Delivery Certificates) of such Securities have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "Securities Act"), or any state securities laws and trading in the Securities has not been approved by the Commodity Futures Trading Commission under the United States Commodity Exchange Act, as amended. None of the Issuers has registered as an investment company pursuant to the United States Investment Company Act of 1940, as amended (the "Investment Company Act"). Unless otherwise specified in the applicable Final Terms, the Securities are being offered and sold in reliance on Regulation S under the Securities Act. No Securities of such series, or interests therein, may at any time be offered, sold, resold, traded, pledged, exercised, redeemed, transferred or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, persons that are (i) a "U.S. person" as defined in Regulation S under the Securities Act ("Regulation S"); or (ii) a person other than a "Non-United States person" as defined in Rule 4.7 under the United States Commodity Exchange Act, as amended (the "Commodity Exchange Act"); or (iii) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the Commodity Futures Trading Commission (the "CFTC"); or (iv) any other "U.S. person" as such term may be defined in Regulation S or in regulations or guidance adopted under the Commodity Exchange Act (each such person, a "U.S. person") and any offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. person**

will not be recognised. The Securities of such series may not be legally or beneficially owned at any time by any U.S. person (as defined in the "Offering and Sale" section below) and accordingly are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S and pursuant to CFTC regulations and guidance.

Certain issues of Securities of BNPP may also be offered and sold in the United States to (i) persons reasonably believed to be qualified institutional buyers ("QIBs") as defined in Rule 144A under the Securities Act ("Rule 144A") and (ii) certain accredited investors ("AIs") as defined in Rule 501(a) under the Securities Act. Certain issues of securities of BNPP B.V. may be offered and sold in the United States to persons reasonably believed to be both QIBs and qualified purchasers ("QPs") as defined under the Investment Company Act of 1940.

Each purchaser of U.S. Securities within the United States is hereby notified that the offer and sale of such Securities is being made in reliance upon an exemption from the registration requirements of the Securities Act. For a description of certain further restrictions on offers and sales of the Securities and on the distribution of this Base Prospectus, see "Offering and Sale" below.

U.S. Securities will, unless otherwise specified in the Final Terms, be sold through BNP Paribas Securities Corp., a registered broker-dealer. Hedging transactions involving Physical Delivery Securities may not be conducted unless in compliance with the Securities Act. See the Conditions below.

Securities related to a specified currency or basket of currencies, a specified commodity or basket of commodities, a specified interest rate or basket of interest rates or a specified inflation index or basket of inflation indices may not at any time be offered, sold, resold, held, traded, pledged, exercised, redeemed, transferred or delivered, directly or indirectly, in the United States or to, by or for the account or benefit of, persons that are (i) a "U.S. person" as defined in Regulation S under the Securities Act ("Regulation S"); or (ii) a person other than a "Non-United States person" as defined in Rule 4.7 under the United States Commodity Exchange Act, as amended (the "Commodity Exchange Act"); or (iii) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the Commodity Futures Trading Commission (the "CFTC"); or (iv) any other "U.S. person" as such term may be defined in Regulation S or in regulations or guidance adopted under the Commodity Exchange Act (each such person, a "U.S. person"), unless expressly provided for pursuant to any applicable U.S. wrapper to the Base Prospectus. Any such applicable U.S. wrapper may restrict the types of Securities that can be offered, sold, resold, held, traded, pledged, exercised, redeemed, transferred or delivered and the terms of such Securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy of this prospectus. Any representation to the contrary is a criminal offence.

The Issuers have requested the AMF to provide the competent authorities in Belgium, Denmark, Finland, Germany, Greece, Hungary, Ireland, Italy, Luxembourg, Portugal, Spain, Sweden, the Czech Republic and the United Kingdom with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Directive.

In the event that the applicable Final Terms, specify that W&C Securities are eligible for sale in the United States ("U.S. Warrants" or U.S. Certificates", as the case may be, and together, the "U.S. Securities"), (A) the Securities sold in the United States by BNPP to QIBs within the meaning of Rule 144A will be represented by one or more global Securities (each, a "Rule 144A Global Security") issued and deposited with (1) a custodian for, and registered in the name of a nominee of, The Depository Trust Company ("DTC") or (2) a common depository on behalf of Clearstream Banking, *société anonyme* ("Clearstream, Luxembourg") or Euroclear Bank S.A./N.V. ("Euroclear") and/or any other relevant clearing system, (B) the Securities sold in the United States by BNPP to AIs will be issued and registered in definitive form (each, a "Private Placement Definitive Security"), (C) the Securities sold in the United States by BNPP B.V. to QIBs who are QPs will be represented by a Rule 144A Global Security or in the form of Private Placement Definitive Securities, as may be indicated in any applicable U.S. wrapper to the Base Prospectus and (D) in any such case, Securities sold outside the United States to non-U.S. persons will be represented by a one or more global Securities (each, a "Regulation S Global Security") issued and deposited with a common depository on behalf of Clearstream, Luxembourg and Euroclear and/or any other relevant clearing system. In the event that the Final Terms does not specify that Securities are eligible for sale within the United States or to U.S. persons, the Securities offered and sold outside the United States to non-U.S. persons will be represented by a Clearing System Global Security or a Registered Global Security, as the case may be.

This Base Prospectus (together with supplements to this Base Prospectus from time to time (each a "**Supplement**" and together the "**Supplements**") comprises a base prospectus for the purposes of Article 5.4 of the Prospectus Directive. "**Prospectus Directive**" means Directive 2003/71/EC (as amended including by Directive 2010/73/EU) and includes any relevant implementing measure in a relevant Member State of the European Economic Area. In relation to each separate issue of Securities, the final offer price and the amount of such Securities will be determined by the Issuer and the relevant manager in accordance with prevailing market conditions at the time of the issue of the Securities and will be set out in the relevant Final Terms.

In accordance with Article 16.2 of the Prospectus Directive, investors who have already agreed to purchase or subscribe for Securities before this Base Prospectus is published have the right, exercisable within two working days after the publication of this Base Prospectus, to withdraw their acceptances. Investors should be aware, however, that the law of the jurisdiction in which they have accepted an offer of Securities may provide for a longer time limit.

No person is or has been authorised to give any information or to make any representation not contained in or not consistent with this document or any other information supplied in connection with the Programme or the Securities and, if given or made, such information or representation must not be relied upon as having been authorised by BNPP B.V., BNPP, BP2F, BNPPF, BGL or any manager of an issue of Securities, including BNPP Securities Corp. (as applicable to such issue of Securities, each a "**Manager**"). This document does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation and no action is being taken to permit an offering of the Securities or the distribution of this document in any jurisdiction where any such action is required.

This document is to be read and construed in conjunction with all documents which are deemed to be incorporated herein by reference (see "*Documents Incorporated by Reference*" below).

Warrants create options exercisable by the relevant holder or which will be automatically exercised as provided herein. There is no obligation on the relevant Issuer to pay any amount or deliver any asset to any holder of a Warrant unless the relevant holder duly exercises such Warrant or such Warrants are automatically exercised and, where applicable, an Exercise Notice is duly delivered. The Warrants will be exercisable in the manner set forth herein and in the applicable Final Terms. In certain instances, the holder of a Warrant will be required to certify, *inter alia* (in accordance with the provisions outlined in Condition 25 of "*Terms and Conditions of the W&C Securities*" below), that it is not (i) a "U.S. person" as defined in Regulation S under the United States Securities Act, as amended (the "**Securities Act**") ("**Regulation S**"); or (ii) a person other than a "Non-United States person" as defined in Rule 4.7 under the United States Commodity Exchange Act, as amended (the "**Commodity Exchange Act**"); or (iii) a "U.S. person" as defined in the Interpretive Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations promulgated by the Commodity Futures Trading Commission (the "**CFTC**"); or (iv) any other "U.S. person" as such term may be defined in Regulation S or in regulations or guidance adopted under the Commodity Exchange Act (each such person, a "**U.S. person**") or exercising such Warrant on behalf of a U.S. person. Upon transfer, exchange or exercise of a U.S. Warrant (as defined above), the holder will, in certain circumstances, be required to certify that the transfer, exchange or exercise, as the case may be, is being made to, or on behalf of, a person whom the holder reasonably believes is not a U.S. person or, in the case of U.S. Warrants issued by BNPP, is a QIB or an AI, and in the case of U.S. Warrants issued by BNPP B.V., is a QIB who is also a QP, as applicable, who acquired the right to such transfer, exchange or the benefit of such exercise in a transaction exempt from the registration requirements of the Securities Act. The proposed transferee may also be required to deliver an investment letter as a condition precedent to such proposed transfer or exchange (in accordance with the provisions outlined in Condition 2.4 of "*Terms and Conditions of the W&C Securities*" below).

Notes and Certificates shall be redeemed on each instalment date and/or the maturity date (in the case of Notes) or the redemption date (in the case of Certificates) by payment of one or more Instalment Amount or Final Redemption Amount (in the case of Notes), Cash Settlement Amount(s) (in the case of Cash Settled Certificates or Cash Settled

Warrants) and/or by delivery of the Entitlement (in the case of Physically Settled Certificates, Physically Settled Warrants or physically settled Notes). In order to receive the Entitlement, the holder of a Security will be required to submit an Asset Transfer Notice and in certain circumstances to certify, *inter alia* (in accordance with the provisions outlined in Condition 35.2(a) of "*Terms and Conditions of the W&C Securities*" in the case of Certificates or Condition 4(b) of "*Terms and Conditions of the Notes*" in the case of Notes), that it is not a U.S. person or acting on behalf of a U.S. person. Upon transfer or exchange of a U.S. Certificate, the holder will, in certain circumstances, be required to certify that the transfer or exchange, as the case may be, is being made to a person whom the transferor or exchange or reasonably believes is not a U.S. person or, in the case of U.S. Certificates issued by BNPP, is a QIB or an AI, and in the case of U.S. Certificates issued by BNPP B.V., is a QIB who is also a QP, as applicable, who acquired the right to such transfer or exchange in a transaction exempt from the registration requirements of the Securities Act. The proposed transferee may also be required to deliver an investment letter as a condition precedent to such proposed transfer or exchange (in accordance with the provisions outlined in Condition 2.4 of "*Terms and Conditions of the W&C Securities*". Where Certificates are Exercisable Certificates, such Certificates will be automatically exercised on one or more dates as provided herein. Exercisable Certificates are Cash Settled Certificates.

The Securities of each issue may be sold by the relevant Issuer and/or any Manager at such time and at such prices as the Issuer and/or the Manager(s) may select. There is no obligation upon the relevant Issuer or any Manager to sell all of the Securities of any issue. The Securities of any issue may be offered or sold from time to time in one or more transactions in the over-the-counter market or otherwise at prevailing market prices or in negotiated transactions, at the discretion of the relevant Issuer.

Subject to the restrictions set forth herein, each Issuer shall have complete discretion as to what type of Securities it issues and when.

No Manager has independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility is accepted by any Manager as to the accuracy or completeness of the information contained in this Base Prospectus or any other information provided by BNPP B.V., BNPP, BP2F, BNPPF and/or BGL. The Manager(s) accept no liability in relation to the information contained in this Base Prospectus or any other information provided by BNPP B.V., BNPP, BP2F, BNPPF and/or BGL in connection with the Programme.

BNPP B.V., BNPP, BP2F, BNPPF and BGL have not investigated, and do not have access to information that would permit them to ascertain, whether any company that has issued equity, debt or other instruments to which any U.S. Securities relate is a passive foreign investment company for U.S. tax purposes. Prospective investors in any U.S. Securities that are U.S. taxpayers should consult their own advisers concerning U.S. tax considerations relevant to an investment in such U.S. Securities.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Securities (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by BNPP B.V., BNPP, BP2F, BNPPF, BGL or any Manager that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any Securities should purchase any Securities. Each investor contemplating purchasing any Securities should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of BNPP B.V., BNPP, BP2F, BNPPF and/or BGL. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Securities constitutes an offer or an invitation by or on behalf of BNPP B.V., BNPP, BP2F, BNPPF, BGL or the Managers or any other person to subscribe for or to purchase any Securities.

The delivery of this Base Prospectus does not at any time imply that the information contained herein concerning BNPP B.V., BNPP, BP2F, BNPPF or BGL is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. No Manager undertakes to review the financial condition or affairs of BNPP B.V., BNPP, BP2F,

BNPPF or BGL during the life of the Programme. Investors should review, *inter alia*, the most recently published audited annual non-consolidated financial statements and interim financial statements of BNPP B.V., the most recently published audited annual consolidated financial statements, unaudited semi-annual interim consolidated financial statements and quarterly financial results of BNPP, the most recently published audited annual consolidated financial statements of BNPPF, the most recently published audited annual non-consolidated financial statements of BP2F and/or the most recently published audited annual consolidated financial statements of BGL, as applicable, when deciding whether or not to purchase any Securities.

## **IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF SECURITIES**

### **Restrictions on Non-exempt offers of Securities in relevant Member States**

Certain issues of Securities with a denomination (or in the case of W&C Securities, issue price or Notional Amount, as applicable) of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus. Any such offer is referred to as a **"Non-exempt Offer"**. This Base Prospectus has been prepared on a basis that permits Non-exempt Offers of Securities in each Member State in relation to which the relevant Issuer has given its consent as specified in the applicable Final Terms (each specified Member State a **"Non-exempt Offer Jurisdiction"** and together the **"Non exempt Offer Jurisdictions"**). Any person making or intending to make a Non-exempt Offer of Securities on the basis of this Base Prospectus must do so only with the relevant Issuer's consent to the use of this Base Prospectus as provided under *"Consent given in accordance with Article 3.2 of the Prospectus Directive"* and provided such person complies with the conditions attached to that consent.

Save as provided above, neither BNPP B.V., BNPP, BP2F, BNPPF or BGL have authorised, nor do they authorise, the making of any Non-exempt Offer of Securities in circumstances in which an obligation arises for any of BNPP B.V., BNPP, BP2F or BGL to publish or supplement a prospectus for such offer.

### **Consent given in accordance with Article 3.2 of the Prospectus Directive**

In the context of a Non-exempt Offer of such Securities, BNPP B.V., BNPP, BP2F, BNPPF and BGL accept responsibility, in each of the Non-exempt Offer Jurisdictions, for the content of this Base Prospectus in relation to any person (an **"Investor"**) who purchases any Securities in a Non-exempt Offer made by a Manager or an Authorised Offeror (as defined below), where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to the giving of consent for the use of this Base Prospectus are complied with. The consent and conditions attached to it are set out under *"Consent"* and *"Common Conditions to Consent"* below.

None of BNPP B.V., BNPP, BP2F, BNPPF or BGL makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of BNPP B.V., BNPP, BP2F, BNPPF or BGL has any responsibility or liability for the actions of that Authorised Offeror.

**Except in the circumstances set out in the following paragraphs, neither BNPP B.V., BNPP, BP2F, BNPPF nor BGL has authorised the making of any Non-exempt Offer by any offeror and BNPP B.V., BNPP, BP2F and BGL have not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Securities. Any Non-exempt Offer made without the consent of the relevant Issuer is unauthorised and neither BNPP B.V., BNPP, BP2F, BNPPF nor BGL accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.** If, in the context of a Non-exempt Offer, an Investor is offered Securities by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Non-Exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

### **Consent**

In connection with each issue of Securities and subject to the conditions set out below under "*Common Conditions to Consent*":

#### *Specific Consent*

- (a) each Issuer consents to the use of this Base Prospectus (as supplemented as at the relevant time, if applicable) in connection with a Non-exempt Offer of such Securities by:
  - (i) the relevant Manager(s) specified in the applicable Final Terms;
  - (ii) any financial intermediaries specified in the applicable Final Terms; and
  - (iii) any other financial intermediary appointed after the date of the applicable Final Terms and whose name is published on BNPP's website (<https://rates-globalmarkets.bnpparibas.com/gm/Public/LegalDocs.aspx>) (in the case of Securities issued by BNPP or BNPP B.V.), BGL's website ([www.bgl.lu](http://www.bgl.lu)) (in the case of Securities issued by BGL) or BP2F's website ([www.bp2f.lu](http://www.bp2f.lu)) and BNPPF's website ([www.bnpparibasfortis.be/emissions](http://www.bnpparibasfortis.be/emissions)) (in the case of Securities issued by BP2F) and identified as an Authorised Offeror in respect of the relevant Non-exempt Offer; and

#### *General Consent*

- (b) if (and only if) Part A of the applicable Final Terms specifies "General Consent" as "Applicable", each Issuer hereby offers to grant its consent to the use of this Base Prospectus (as supplemented as at the relevant time, if applicable) in connection with a Non-exempt Offer of Securities by any other financial intermediary which satisfies the following conditions:
  - (i) it is authorised to make such offers under applicable legislation implementing the Markets in Financial Instruments Directive (Directive 2004/39/EC); and
  - (ii) it accepts the relevant Issuer's offer to grant consent to the use of this Base Prospectus by publishing on its website the following statement (with the information in square brackets completed with the relevant information) (the "**Acceptance Statement**"):

*"We, [insert legal name of financial intermediary], refer to the offer of [insert title of relevant Securities] (the "**Securities**") described in the Final Terms dated [insert date] (the "**Final Terms**") published by [ ] (the "**Issuer**"). In consideration of the Issuer offering to grant its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the offer of the Securities in [specify Member State(s)] during the Offer Period and subject to the other conditions to such consent, each as specified in the Base Prospectus, we hereby accept the offer by the Issuer in accordance with the Authorised Offeror Terms (as specified in the Base Prospectus) and confirm that we are using the Base Prospectus accordingly."*

The **Authorised Offeror Terms**, being the terms to which the relevant financial intermediary agrees in connection with using this Base Prospectus, are that the relevant financial intermediary:

- (A) will, and it agrees, represents, warrants and undertakes for the benefit of BNPP B.V., BNPP, BP2F, BNPPF and BGL that it will, at all times in connection with the relevant Non-exempt Offer:
  - I. act in accordance with, and be solely responsible for complying with, all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the "**Rules**") from time to time including, without limitation and in each case, Rules

relating to both the appropriateness or suitability of any investment in the Securities by any person and disclosure to any potential Investor;

- II. comply with the restrictions set out under "*Offering and Sale*" in this Base Prospectus;
- III. ensure that any fee (and any other commissions or benefits of any kind) or rebate received or paid by that financial intermediary in relation to the offer or sale of the Securities does not violate the Rules and, to the extent required by the Rules, is fully and clearly disclosed to Investors or potential Investors;
- IV. hold all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the Securities under the Rules;
- V. comply with applicable anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules (including, without limitation, taking appropriate steps, in compliance with such Rules, to establish and document the identity of each potential Investor prior to initial investment in any Securities by the Investor), and will not permit any application for Securities in circumstances where the financial intermediary has any suspicions as to the source of the application monies;
- VI. retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested and to the extent permitted by the Rules, make such records available to BNPP B.V., BNPP, BP2F, BNPPF and BGL or directly to the appropriate authorities with jurisdiction over BNPP B.V., BNPP, BP2F, BNPPF and BGL in order to enable BNPP B.V., BNPP, BP2F, BNPPF and BGL to comply with anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules applying to BNPP B.V., BNPP, BP2F, BNPPF and BGL;
- VII. ensure that it does not, directly or indirectly, cause BNPP B.V., BNPP, BP2F, BNPPF or BGL to breach any Rule or subject BNPP B.V., BNPP, BP2F, BNPPF or BGL to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
- VIII. ensure that Investors understand the risks associated with an investment in the Securities;
- IX. immediately inform BNPP B.V., BNPP, BP2F, BNPPF or BGL if at any time it becomes aware or suspects that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;
- X. comply with the conditions to the consent referred to under "*Common conditions to consent*" below and any further requirements or other Authorised Offeror Terms relevant to the Non-exempt Offer as specified in the applicable Final Terms;
- XI. make available to each potential Investor in the Securities this Base Prospectus (as supplemented as at the relevant time, if applicable), the applicable Final Terms and any applicable information booklet provided by the relevant Issuer for such purpose, and not convey or publish any information that is not contained in or entirely consistent with this Base Prospectus and the applicable Final Terms;

- XII. if it conveys or publishes any communication (other than this Base Prospectus or any other materials provided to such financial intermediary by or on behalf of the relevant Issuer for the purposes of the relevant Non-exempt Offer) in connection with the relevant Non-exempt Offer, it will ensure that such communication (A) is fair, clear and not misleading and complies with the Rules, (B) states that such financial intermediary has provided such communication independently of the relevant Issuer, that such financial intermediary is solely responsible for such communication and that none of BNPP B.V., BNPP, BP2F, BNPPF or BGL accepts any responsibility for such communication and (C) does not, without the prior written consent of BNPP B.V., BNPP, BP2F, BNPPF or BGL (as applicable), use the legal or publicity names of BNPP B.V., BNPP, BP2F, BNPPF or BGL or any other name, brand or logo registered by an entity within their respective groups or any material over which any such entity retains a proprietary interest, except to describe the relevant Issuer as issuer of the relevant Securities and, if applicable, the relevant Guarantor as the guarantor of the relevant Securities on the basis set out in this Base Prospectus;
- XIII. ensure that no holder of Securities or potential Investor in Securities shall become an indirect or direct client of BNPP B.V., BNPP, BP2F, BNPPF and BGL for the purposes of any applicable Rules from time to time, and to the extent that any client obligations are created by the relevant financial intermediary under any applicable Rules, then such financial intermediary shall perform any such obligations so arising;
- XIV. co-operate with BNPP B.V., BNPP, BP2F, BNPPF and BGL in providing such information (including, without limitation, documents and records maintained pursuant to paragraph (VI) above) upon written request from BNPP B.V., BNPP, BP2F, BNPPF or BGL, as applicable, as is available to such financial intermediary or which is within its power and control from time to time, together with such further assistance as is reasonably requested by BNPP B.V., BNPP, BP2F, BNPPF or BGL:
- (i) in connection with any request or investigation by any regulator in relation to the Securities, BNPP B.V., BNPP, BP2F, BNPPF or BGL; and/or
  - (ii) in connection with any complaints received by BNPP B.V., BNPP, BP2F, BNPPF or BGL relating to BNPP B.V., BNPP, BP2F, BNPPF or BGL or another Authorised Offeror including, without limitation, complaints as defined in rules published by any regulator of competent jurisdiction from time to time; and/or
  - (iii) which BNPP B.V., BNPP, BP2F, BNPPF or BGL may reasonably require from time to time in relation to the Securities and/or as to allow BNPP B.V., BNPP, BP2F, BNPPF or BGL fully to comply with its own legal, tax and regulatory requirements,

in each case, as soon as is reasonably practicable and, in any event, within any time frame set by any such regulator or regulatory process;

- XV. during the period of the initial offering of the Securities: (i) only sell the Securities at the Issue Price specified in the applicable Final Terms (unless otherwise agreed with the relevant Manager); (ii) only sell the Securities for settlement on the Issue

Date specified in the applicable Final Terms; (iii) not appoint any sub-distributors (unless otherwise agreed with the relevant Manager); (iv) not pay any fee or remuneration or commissions or benefits to any third parties in relation to the offering or sale of the Securities (unless otherwise agreed with the relevant Manager); and (v) comply with such other rules of conduct as may be reasonably required and specified by the relevant Manager; and

XVI. either (i) obtain from each potential Investor an executed application for the Securities, or (ii) keep a record of all requests such financial intermediary (x) makes for its discretionary management clients, (y) receives from its advisory clients and (z) receives from its execution-only clients, in each case prior to making any order for the Securities on their behalf, and in each case maintain the same on its files for so long as is required by any applicable Rules;

(B) agrees and undertakes to indemnify each of BNPP B.V., BNPP, BP2F, BNPPF and BGL (in each case on behalf of such entity and its respective directors, officers, employees, agents, affiliates and controlling persons) against any losses, liabilities, costs, claims, charges, expenses, actions or demands (including reasonable costs of investigation and any defence raised thereto and counsel's fees and disbursements associated with any such investigation or defence) which any of them may incur or which may be made against any of them arising out of or in relation to, or in connection with, any breach of any of the foregoing agreements, representations, warranties or undertakings by such financial intermediary, including (without limitation) any unauthorised action by such financial intermediary or failure by such financial intermediary to observe any of the above restrictions or requirements or the making by such financial intermediary of any unauthorised representation or the giving or use by it of any information which has not been authorised for such purposes by BNPP B.V., BNPP, BP2F, BNPPF or BGL; and

(C) agrees and accepts that:

I. the contract between the relevant Issuer and the financial intermediary formed upon acceptance by the financial intermediary of the relevant Issuer's offer to use this Base Prospectus with its consent in connection with the relevant Non-exempt Offer (the "**Authorised Offeror Contract**"), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, English law;

II. where the offer relates to English Law Securities, the English courts have jurisdiction to settle any dispute arising out of or in connection with the Authorised Offeror Contract (including any dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) (a "**Dispute**") and the relevant Issuer and the financial intermediary submit to the exclusive jurisdiction of the English courts;

III. where the offer relates to French Law Securities, the courts within the jurisdiction of the Paris Court of Appeal (*Cour d'Appel de Paris*) have jurisdiction to settle any dispute arising out of or in connection with the Authorised Offeror Contract (including any dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) (a "**Dispute**") and the relevant Issuer and the financial intermediary submit to the jurisdiction of such French courts;

- IV. for the purposes of (C)(II) and (III), the relevant Issuer and the financial intermediary waive any objection to the relevant courts on the grounds that they are an inconvenient or inappropriate forum to settle any dispute;
- V. each of the relevant Issuer and the financial intermediary will, pursuant to the Contracts (Rights of Third Parties) Act 1999, be entitled to enforce those provisions of the Authorised Offeror Contract which are, or are expressed to be, for their benefit, including the agreements, representations, warranties, undertakings and indemnity given by the financial intermediary pursuant to the Authorised Offeror Terms.

The financial intermediaries referred to in paragraphs (a)(ii), (a)(iii) and (b) above are together the "**Authorised Offerors**" and each an "**Authorised Offeror**".

**Any Authorised Offeror falling within (b) above who meets the conditions set out in (b) and the other conditions stated in "Common Conditions to Consent" below and who wishes to use this Base Prospectus in connection with a Non-exempt Offer is required, for the duration of the relevant Offer Period, to publish on its website the Acceptance Statement.**

#### ***Common Conditions to Consent***

The conditions to the Issuer's consent to the use of this Base Prospectus in the context of the relevant Non-exempt Offer are (in addition to the conditions described in paragraph (b) above if Part A of the applicable Final Terms specifies "*General Consent*" as "*Applicable*") that such consent:

- (i) is only valid during the Offer Period specified in the applicable Final Terms; and
- (ii) only extends to the use of this Base Prospectus to make Non-exempt Offers of the relevant Tranche of Securities in Belgium, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Luxembourg, Portugal, Spain, Sweden, the Czech Republic and the United Kingdom as specified in the applicable Final Terms.

The consent referred to above relates to Offer Periods (if any) occurring within 12 months from the date of this Base Prospectus.

The only relevant Member States which may, in respect of any Tranche of Securities, be specified in the applicable Final Terms (if any relevant Member States are so specified) as indicated in (ii) above, will be Belgium, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Luxembourg, Portugal, Spain, Sweden, the Czech Republic and the United Kingdom, and accordingly each Tranche of Securities may only be offered to Investors as part of a Non-exempt Offer in Belgium, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Luxembourg, Portugal, Spain, Sweden, the Czech Republic and the United Kingdom, as specified in the applicable Final Terms, or otherwise in circumstances in which no obligation arises for BNPP B.V., BNPP, BP2F or BGL to publish or supplement a prospectus for such offer.

#### ***ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS***

**AN INVESTOR INTENDING TO PURCHASE OR PURCHASING ANY SECURITIES IN A NON-EXEMPT OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH SECURITIES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THE OFFER IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING ARRANGEMENTS IN RELATION TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT. THE RELEVANT ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE**

**NON-EXEMPT OFFER OR SALE OF THE SECURITIES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE RELEVANT INFORMATION WILL BE PROVIDED BY THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER. NONE OF BNPP B.V., BNPP, BP2F, BNPPF OR BGL HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF THE INFORMATION DESCRIBED ABOVE.**

**Information relating to the use of this Base Prospectus and offer of Securities generally.**

The distribution of this Base Prospectus and the offering of Securities in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by BNPP B.V., BNPP, BP2F, BNPPF, BGL and each Manager to inform themselves about and to observe any such restrictions.

***IN CONNECTION WITH THE ISSUE OF ANY TRANCHE (AS DEFINED IN "TERMS AND CONDITIONS OF THE NOTES" BELOW) OF NOTES, THE MANAGER OR MANAGERS (IF ANY) NAMED AS THE STABILISATION MANAGER(S) (THE "STABILISING MANAGER(S)") (OR PERSONS ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) IN THE APPLICABLE FINAL TERMS MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE IS NO ASSURANCE THAT THE STABILISATION MANAGER(S) (OR PERSONS ACTING ON BEHALF OF A STABILISATION MANAGER) WILL UNDERTAKE STABILISATION ACTION. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE FINAL TERMS OF THE OFFER OF THE RELEVANT TRANCHE OF NOTES IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE RELEVANT TRANCHE AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT TRANCHE. ANY STABILISATION ACTION OR OVER-ALLOTMENT SHALL BE CONDUCTED IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.***

In this Base Prospectus references to U.S.\$ and U.S. dollars are to United States dollars and references to euro, € and EUR are to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended.

**FOR NEW HAMPSHIRE RESIDENTS ONLY:**

***NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENCE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED ("421-B") STATUTES WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY, OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER, OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.***

## AVAILABLE INFORMATION

So long as any of the U.S. Securities are "restricted securities" within the meaning of Rule 144(a)(3) under the Securities Act, and neither BNPP, BNPP B.V., BP2F, BNPPF nor BGL is subject to and in compliance with Section 13 or 15(d) of the U.S. Securities Exchange Act of 1934, as amended (the "**Exchange Act**"), nor exempt from reporting pursuant to Rule 12g3-2(b) thereunder, BNPP has undertaken to furnish to each Holder or beneficial owner of U.S. Securities, whether issued by BNPP or issued by BNPP B.V. and to any prospective purchaser, any information required to be delivered under Rule 144A(d)(4) under the Securities Act.

## FORWARD-LOOKING STATEMENTS

The documents incorporated by reference (such sections being the "**BNP Paribas Disclosure**"), contain forward-looking statements. BNP Paribas, BNPP B.V., BP2F, BNPPF, BGL and the BNP Paribas Group (being BNP Paribas together with its consolidated subsidiaries, the "**Group**") may also make forward-looking statements in their audited annual financial statements, in their interim financial statements, in their offering circulars, in press releases and other written materials and in oral statements made by their officers, directors or employees to third parties. Statements that are not historical facts, including statements about BNPP, BNPP B.V., BP2F, BNPPF, BGL or the Group's beliefs and expectations, are forward-looking statements. These statements are based on current plans, estimates and projections, and therefore undue reliance should not be placed on them. Forward-looking statements speak only as of the date they are made, and BNPP, BNPP B.V., BP2F, BNPPF, BGL and the Group undertake no obligation to update publicly any of them in light of new information or future events.

## PRESENTATION OF FINANCIAL INFORMATION

Most of the financial data presented, or incorporated by reference, in this Base Prospectus are presented in euros.

The audited consolidated financial statements of BNPP, BGL and BNPPF for the years ended 31 December 2013 and 31 December 2014 have been prepared in accordance with international financial reporting standards ("**IFRS**") as adopted by the European Union. IFRS differs in certain significant respects from generally accepted accounting principles in the United States ("**U.S. GAAP**"). The Group has made no attempt to quantify the impact of those differences. In making an investment decision, investors must rely upon their own examination of the BNP Paribas Group, the terms of an offering and the financial information. Potential investors should consult their own professional advisors for an understanding of the differences between IFRS and U.S. GAAP, and how those differences might affect the information herein. The Group's fiscal year ends on 31 December and references in the BNPP 2013 Registration Document and the BNPP 2014 Registration Document (in each case, as defined in "*Documents Incorporated by Reference*" below) and any update to the BNPP 2014 Registration Document (in each case, incorporated by reference herein) to any specific fiscal year are to the 12-month period ended 31 December of such year.

Due to rounding, the numbers presented throughout the BNP Paribas Disclosure and in the table under the heading "Capitalisation of BNPP and the BNP Paribas Group" in the General Information section below may not add up precisely, and percentages may not reflect precisely absolute figures.

## PROGRAMME SUMMARY IN RELATION TO THIS BASE PROSPECTUS

*Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7). This Summary contains all the Elements required to be included in a summary for this type of Securities, Issuers and Guarantors. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in the summary because of the type of Securities, Issuer and Guarantor(s), it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.*

The nature of BNPP's business makes it particularly sensitive to macroeconomic and market conditions in Europe, which have been difficult and volatile in recent years.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|         |       | <p>In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD<sup>1</sup> economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p><b><i>Legislation and Regulation applicable to Financial Institutions.</i></b></p> <p>Laws and regulations applicable to financial institutions that have an impact on BNPP have significantly evolved. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNPP Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies.</p> <p>The measures that were recently adopted, or that are (or whose implementation measures are) in some cases proposed and still under discussion, that have affected or are likely to affect BNPP, include in particular the French Ordinance of 27 June 2013 relating to credit institutions and financing companies ("<i>Sociétés de financement</i>"), which came into force on 1 January 2014, the French banking law of 26 July 2013 on the separation and regulation of banking activities and the related implementing decrees and orders and the Ordinance of 20 February 2014 for the adaptation of French law to EU law with respect to financial matters; the Directive and Regulation of the European Parliament and of the Council on prudential requirements "CRD 4/CRR" dated 26 June 2013 (and the related delegated and implementing acts) and many of whose provisions have been applicable since January 1, 2014; the regulatory and implementing technical standards relating to the Directive and Regulation CRD 4/CRR published by the European Banking Authority; the designation of BNPP as a systemically important</p> |

The nature of BP2F's business makes it particularly sensitive to market and macroeconomic conditions in Europe, which have been difficult and volatile in recent years.</p> <p>In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD<sup>2</sup> economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p>BP2F is dependent upon BNPPF. BP2F is 99.995% owned by BNPPF and is specifically involved in the issuance of securities such as Notes, Warrants or Certificates or other obligations which are developed, set up and sold to investors via intermediaries, including BNPPF. BP2F enters into hedging transactions with BNPPF and with other entities of the BNP Paribas Group. As a consequence, the Trend Information with respect to BNPPF shall also apply to BP2F. BP2F may also enter into hedging transactions with third parties not belonging to the BNP Paribas Group.</p> <p><i>In respect of BGL:</i></p> <p><b>Macro-economic environment</b></p> <p>Market and macroeconomic conditions affect BGL's results. |         |       | <p>In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD<sup>3</sup> economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p><b><i>Laws and Regulations Applicable to Financial Institutions</i></b></p> <p>Laws and regulations applicable to financial institutions that have an impact on BGL have significantly evolved in the wake of the global financial crisis. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNP Paribas Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or in some cases proposed and still under discussion, that have or are likely to affect BGL, include in particular Directive 2013/36/EU on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the "<b>CRD IV</b>") and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (the "<b>CRR</b>") on prudential requirements (the so-called "<b>CRD IV package</b>") dated 26 June 2013. Most of the provisions of the Regulation CRR are applicable since 1 January 2014 (as described in the CSSF Circular 14/583 relating to the entry into force of the CRR), supplemented by CSSF Regulation N°14-01 on the implementation of certain discretions contained in Regulation (EU) n° 575/2013 and by technical regulatory and execution rules relating to the Directive CRD IV and Regulation CRR published by the EBA; the public consultation for the reform of the structure of the EU banking sector of 2013 and the European Commission's proposed regulation on structural measures</p> |

|             |                      | <p>In April 2004, BNPP began outsourcing IT Infrastructure Management Services to the BNP Paribas Partners for Innovation (<b>BP<sup>2</sup>I</b>) joint venture set up with IBM France at the end of 2003. BP<sup>2</sup>I provides IT Infrastructure Management Services for BNPP and several BNPP subsidiaries in France (including BNP Paribas Personal Finance, BP2S, and BNP Paribas Cardif), Switzerland, and Italy. In mid-December 2011 BNPP renewed its agreement with IBM France for a period lasting until end-2017. At the end of 2012, the parties entered into an agreement to gradually extend this arrangement to BNP Paribas Fortis as from 2013.</p> <p>BP<sup>2</sup>I is under the operational control of IBM France. BNP Paribas has a strong influence over this entity, which is 50/50 owned with IBM France. The BNP Paribas staff made available to BP<sup>2</sup>I make up half of that entity's permanent staff, its buildings and processing centres are the property of the Group, and the governance in place provides BNP Paribas with the contractual right to monitor the entity and bring it back into the Group if necessary.</p> <p>ISFS, a fully-owned IBM subsidiary, handles IT Infrastructure Management for BNP Paribas Luxembourg.</p> <p>BancWest's data processing operations are outsourced to Fidelity Information Services. Cofinoga France's data processing is outsourced to SDDC, a fully-owned IBM subsidiary.</p> <p>BNPP B.V. is dependent upon BNPP. BNPP B.V. is a wholly owned subsidiary of BNPP specifically involved in the issuance of securities such as Notes, Warrants or Certificates or other obligations which are developed, setup and sold to investors by other companies in the BNPP Group (including BNPP). The securities are hedged by acquiring hedging instruments from BNP Paribas and BNP Paribas entities as described in Element D.2 below.</p> <p>BGL has certain IT dependency upon other entities within the BNPP Group which may be summarised as follows:</p> <ul style="list-style-type: none"> <li>• BGL's corporate and institutional banking (CIB) business shares most of its front and back-office IT platforms with BNPP; and</li> <li>• Other business lines and functions share various platforms with other entities within the BNPP Group, but not necessarily to the same extent as the CIB business.</li> </ul> <p>See also Element B.5 above.</p> |

IMF and OECD<sup>4</sup> economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p><b><i>Laws and Regulations Applicable to Financial Institutions.</i></b></p> <p>Laws and regulations applicable to financial institutions that have an impact on BNPPF have significantly evolved in the wake of the global financial crisis. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNP Paribas Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or in some cases proposed and still under discussion, that have or are likely to affect BNPPF, include in particular the EU Directive and Regulation on prudential requirements "CRD IV" dated 26 June 2013 and many of whose provisions have been applicable since 1 January 2014; the proposals of technical regulatory and execution rules relating to the Directive and Regulation CRD IV published by the EBA; the Belgian Banking Law dated 25 April 2014 replacing the previous law of 1993 and introducing important changes; the Belgian Royal Decrees dated 22 February 2015 determining the entry into force of the Belgian Banking Law provisions relating to resolution (including the establishment of a Belgian Resolution Authority) and creating two preferential rights on the bank's moveables; the public consultation for the reform of the structure of the EU banking sector of 2013 and the European Commission's proposed regulation on structural measures designed to improve the strength of EU credit institutions of 29 January 2014; the proposal for a regulation on indices used as benchmarks in financial instruments and financial contracts; the European Single Supervisory Mechanism; the European Single Resolution Mechanism dated 15 July 2014 and the European Directive on Bank Recovery and</p> |

Notes and Certificates may or may not bear or pay interest (or, in the case of Certificates, Premium Amount). Notes and Certificates which do not bear or pay interest (or, in the case of Certificates, Premium Amount) may be offered and sold at a discount to their nominal amount. Interest/Premium Amount paying Securities will either bear or pay interest or premium amount determined by reference to a fixed rate, a floating rate and/or a rate calculated by reference to one or more Underlying Reference(s) (each an "<b>Underlying Reference</b>").</p> <p>In each case, interest or premium amount will be payable on such date or dates as determined by the Issuer at the time of issue of the Notes or Certificates, specified in the applicable Final Terms and summarised in the relevant issue specific summary annexed to the applicable Final Terms. In addition, the interest rate and yield in respect of Notes bearing interest or Certificates paying interest or a Premium Amount at or of a fixed rate will also be so agreed, specified and summarised.</p> <p>Interest or Premium Amount Rate may be calculated by reference to a reference rate (such as, but not limited to, LIBOR or EURIBOR). The reference rate and the manner in which such rate will be calculated using the reference rate (including any margin over or below the reference rate) will be determined by the Issuer at the time of issue of the relevant Notes or Certificates, specified in the applicable Final Terms and summarised in the relevant issue specific summary annexed to the applicable Final Terms.</p> <p>The Interest or Premium Amount Rate may be calculated by reference to one or more Underlying Reference. The Underlying Reference(s) and the manner in which such rate will be calculated will be determined by the Issuer at the time of issue of the relevant Notes or Certificates, specified in the applicable Final Terms and summarised in the relevant issue specific summary annexed to the applicable Final Terms.</p> |

If Payout Switch Election or Automatic Payout Switch is specified in the applicable Final Terms, the amount payable or deliverable on redemption or exercise may be switched from one amount payable or deliverable to another.</p> <p><b><i>Dual Currency Notes</i></b></p> <p>In the case of Dual Currency Notes, any amount calculated to be payable in respect of interest (if any) and any amount calculated to be payable on redemption of the Notes, will be converted into the Settlement Currency at the Specified Exchange Rate or the Settlement Currency Exchange Rate specified in the applicable Final Terms.</p> <p><b><i>Indication of Yield</i></b></p> <p>In the case of Securities that bear or pay interest or premium amount at a fixed rate, the yield will be specified in the applicable Final Terms and will be calculated as the rate of interest or premium amount that, when used to discount each scheduled payment of interest and principal under the Securities from the Scheduled Maturity Date or Redemption Date back to the Issue Date, yields amounts that sum to the Issue Price.</p> <p>The yield is calculated at the Issue Date on the basis of the Issue Price and on the assumption that the Securities are not subject to early cancellation or, if applicable, no Credit Event occurs. It is not an indication of future yield.</p> <p>In the case of Securities that bear or pay interest or premium amount other than at a fixed rate, due to the nature of such Securities it is not possible to determine the yield as of the Issue Date.</p> <p><b><i>Representative of Holders</i></b></p> <p>No representative of the Holders has been appointed by the Issuer except in respect of French law W&amp;C Securities if so specified in the applicable Final Terms.</p> <p>Please also refer to item C.8 above for rights attaching to the Securities.</p> |

|         |       | <p>A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPP's results of operations and financial condition.</p> <p>Notwithstanding BNPP's risk management policies, procedures and methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses.</p> <p>BNPP's hedging strategies may not prevent losses.</p> <p>BNPP's competitive position could be harmed if its reputation is damaged.</p> <p>An interruption in or a breach of BNPP's information systems may result in material losses of client or customer information, damage to BNPP's reputation and lead to financial losses.</p> <p>Unforeseen external events may disrupt BNPP's operations and cause substantial losses and additional costs.</p> <p><b>BNPP B.V.</b></p> <p>The following risk factors relate to BNPP B.V.: BNPP B.V. is an operating company. BNPP B.V.'s sole business is the raising and borrowing of money by issuing securities such as Notes, Warrants or Certificates or other obligations. BNPP B.V. has, and will have, no assets other than hedging agreements (OTC contracts mentioned in the Annual Reports), cash and fees payable to it, or other assets acquired by it, in each case in connection with the issue of securities or entry into other obligations related thereto from time to time. BNPP B.V. has a small equity and limited profit base. The net proceeds from each issue of Securities issued by BNPP B.V. will become part of the general funds of BNPP B.V. BNPP B.V. uses such proceeds to hedge its market risk by acquiring hedging instruments from BNP Paribas and BNP Paribas entities and/or, in the case of Secured Securities, to acquire Collateral Assets. The ability of BNPP B.V. to meet its obligations under securities issued by it will depend on the receipt by it of payments under the relevant hedging agreements. Consequently, Holders of BNPP B.V. Securities will, subject to the provisions of the relevant Guarantee issued by BNP Paribas, be exposed to the ability of BNP Paribas and BNP Paribas entities to perform their obligations under such hedging agreements.</p> <p><b>BGL</b></p> <p>The following risk factors relate to the business of BGL:</p> <p>(a) Difficult market and economic conditions could in the future have a material adverse effect on the operating environment for financial institutions and hence on BGL's financial condition, results of operations and cost of risk.</p> |

| <b>D.3</b> | Key risks regarding the Securities | <p>There are certain factors which are material for the purposes of assessing the market risks associated with Securities issued under the Programme, including that (i) the Securities (other than Secured Securities) are unsecured obligations, (ii) Securities including leverage involve a higher level of risk and whenever there are losses on such Securities those losses may be higher than those of a similar security which is not leveraged; (iii) Bull and Bear Certificates (ETS payout 2300) and Bull and Bear Warrants (ETS payout 2300/1) are designed for short term trading only because they are valued on the basis of their compounded daily performance; (iv) the trading price of the Securities is affected by a number of factors including, but not limited to, (in respect of Securities linked to an Underlying Reference) the price of the relevant Underlying Reference(s), time to expiration or redemption and volatility and such factors mean that the trading price of the Securities may be below the Final Redemption Amount or Cash Settlement Amount or value of the Entitlement, (v) exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements and, in respect of Securities linked to an Underlying Reference, potential investors are exposed to the performance of these hedging arrangements and events that may affect the hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities, (vi) the collateral associated with one or more series of Secured Securities may be insufficient to remove a Holder's credit risk on the Issuer, (vii) that the Securities may have a minimum trading amount and if, following the transfer of any Securities, a Holder holds fewer Securities than the specified minimum</p> |

For certain issues of Securities, BNP Paribas Arbitrage S.N.C. is required to act as market-maker. In those circumstances, BNP Paribas Arbitrage S.N.C. will endeavour to maintain a secondary market throughout the life of the Securities, subject to normal market conditions and will submit bid and offer prices to the market. The spread between bid and offer prices may change during the life of the Securities. However, during certain periods, it may be difficult, impractical or impossible for BNP Paribas Arbitrage S.N.C. to quote bid and offer prices, and during such periods, it may be difficult, impracticable or impossible to buy or sell these Securities. This may, for example, be due to adverse market conditions, volatile prices or large price fluctuations, a large marketplace being closed or restricted or experiencing technical problems such as an IT system failure or network disruption. In certain circumstances at the commencement of an offer period in respect of Securities but prior to the issue date, certain specific information (specifically the fixed Rate of Interest, Minimum Interest Rate and/or Maximum Interest Rate payable, the Margin applied to the floating rate of interest payable, the Gearing applied to the interest or final payout, the Gearing Up applied to the final payout, (in the case of Autocall Securities, Autocall One Touch Securities or Autocall Standard Securities) the FR Rate component of the final payout (which will be payable if certain conditions are met, as set out in the Payout Conditions), the AER Exit Rate used if an Automatic Early Redemption Event occurs, the Bonus Coupon component of the final payout (in the case of Vanilla Digital Securities), any Constant Percentage (being any of Constant Percentage, Constant Percentage 1, Constant Percentage 2, Constant Percentage 3 or Constant Percentage 4) component of the final payout (which will be payable if certain conditions are met, as set out in the Payout Conditions) and/or the Knock-in Level and/or Knock-out Level used to ascertain whether a Knock-in Event or Knock-out Event, as applicable, has occurred) may not be known but the Final Terms will specify an indicative range. In these circumstances, prospective investors will be required to make their decision to purchase Securities on the basis of that range prior to the actual Rate of Interest, Minimum Interest Rate, Maximum Interest Rate, Margin, Gearing, Gearing Up, FR Rate, AER Exit Rate, Bonus Coupon, any Constant Percentage, Knock-in Level and/or Knock-out Level, as applicable, which will apply to the Securities being notified to them. Notice of the actual rate, level or percentage, as applicable, will be published in the same manner as the publication of the Final Terms.</p> |

## PRO FORMA ISSUE SPECIFIC SUMMARY OF THE PROGRAMME IN RELATION TO THIS BASE PROSPECTUS

*Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7). This Summary contains all the Elements required to be included in a summary for this type of Securities[,][ and] Issuer[ and Guarantor]. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in the summary because of the type of Securities[,][ and] Issuer[ and Guarantor(s)], it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.*

|         |       | <p>In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD<sup>5</sup> economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p><b><i>Legislation and Regulation applicable to Financial Institutions.</i></b></p> <p>Laws and regulations applicable to financial institutions that have an impact on BNPP have significantly evolved. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNPP Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or that are (or whose implementation measures are) in some cases proposed and still under discussion, that have affected or are likely to affect BNPP, include in particular the French Ordinance of 27 June 2013 relating to credit institutions and financing companies ("<i>Sociétés de financement</i>"), which came into force on 1 January 2014, the French banking law of 26 July 2013 on the separation and regulation of banking activities and the related implementing decrees and orders and the Ordinance of 20 February 2014 for the adaptation of French law to EU law with respect to financial matters; the Directive and Regulation of the European Parliament and of the Council on prudential requirements "CRD 4/CRR" dated 26 June 2013 (and the related delegated and implementing acts) and many of whose provisions have been applicable since January 1, 2014; the regulatory and implementing technical standards relating to the Directive and Regulation CRD 4/CRR published by the European Banking Authority; the designation of BNPP as a systemically important financial institution by the Financial Stability Board and the consultation for a common international standard on total loss-absorbing capacity ("<b>TLAC</b>") for global systemically</p> |

IMF and OECD<sup>6</sup> economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p>BP2F is dependent upon BNPPF. |         |       | <p>where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p><b><i>Laws and Regulations Applicable to Financial Institutions</i></b></p> <p>Laws and regulations applicable to financial institutions that have an impact on BGL have significantly evolved in the wake of the global financial crisis. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNP Paribas Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or in some cases proposed and still under discussion, that have or are likely to affect BGL, include in particular Directive 2013/36/EU on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the "<b>CRD IV</b>") and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (the CRR) on prudential requirements (the so-called "<b>CRD IV package</b>") dated 26 June 2013. Most of the provisions of the Regulation CRR are applicable since 1 January 2014 (as described in the CSSF Circular 14/583 relating to the entry into force of the CRR), supplemented by CSSF Regulation N°14-01 on the implementation of certain discretions contained in Regulation (EU) n° 575/2013 and by technical regulatory and execution rules relating to the Directive CRD IV and Regulation CRR published by the EBA; ; the public consultation for the reform of the structure of the EU banking sector of 2013 and the European Commission's proposed regulation on structural measures designed to improve the strength of EU credit institutions of 29 January 2014; the proposal for a regulation on indices used as benchmarks in financial instruments and financial contracts; the European single supervisory mechanism; the European proposal for a single resolution mechanism and the proposal for a European Directive on bank recovery and resolution; the Council Regulation (EU) No 1024/2013 (the SSM Regulation) establishing the Single Supervisory Mechanism (SSM) and Regulation (EU) No 468/2014 of the ECB dated 16 April 2014 establishing the framework for cooperation</p> |

Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p><b><i>Legislation and Regulation applicable to Financial Institutions.</i></b></p> <p>Laws and regulations applicable to financial institutions that have an impact on BNPP have significantly evolved. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNPP Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or that are (or whose implementation measures are) in some cases proposed and still under discussion, that have affected or are likely to affect BNPP, include in particular the French Ordinance of 27 June 2013 relating to credit institutions and financing companies ("<i>Sociétés de financement</i>"), which came into force on 1 January 2014, the French banking law of 26 July 2013 on the separation and regulation of banking activities and the related implementing decrees and orders and the Ordinance of 20 February 2014 for the adaptation of French law to EU law with respect to financial matters; the Directive and Regulation of the European Parliament and of the Council on prudential requirements "CRD 4/CRR" dated 26 June 2013 (and the related delegated and implementing acts) and many of whose provisions have been applicable since January 1, 2014; the regulatory and implementing technical standards relating to the Directive and Regulation CRD 4/CRR published by the European Banking Authority; the designation of BNPP as a systemically important financial institution by the Financial Stability Board and the consultation for a common international standard on total loss-absorbing capacity ("<b>TLAC</b>") for global systemically important banks; the public consultation for the reform of the structure of the EU banking sector of 2013 and the proposal for a Regulation of the European Parliament and of the Council of 29 January 2014 on structural measures to improve the resilience of EU credit institutions; the proposal for a Regulation of the European Parliament and of the Council of 18 September 2013 on indices used as benchmarks in financial instruments and financial contracts; the Regulation of the European Parliament and of the Council of 16 April 2014 on market abuse and the Directive of the European Parliament and of the Council of 16 April 2014 on criminal sanctions for market abuse; the Directive and the Regulation of the European Parliament and of the Council on markets</p> |

|         |       | <p>In 2014, the global economy continued its slow recovery but there remain uncertainties, in particular in Europe where the economic performance during the second half of 2014 was weaker than expected. IMF and OECD<sup>8</sup> economic forecasts for 2015 indicate a continuation of moderate growth in developed economies but with differences between countries, including in the euro-zone, where growth is forecast to be weak in certain countries (including France and Italy). The forecast is similar for emerging markets (i.e., moderate growth but with areas of weakness). Short term risks to macroeconomic growth highlighted by the IMF include heightened geopolitical tensions and increased financial market volatility; medium-term risks highlighted include weak economic growth or stagnation in developed countries. Deflation remains a risk in the euro-zone, although the risk has been reduced through the ECB's announcement of non-conventional policy measures.</p> <p><b><i>Laws and Regulations Applicable to Financial Institutions.</i></b></p> <p>Laws and regulations applicable to financial institutions that have an impact on BNPPF have significantly evolved in the wake of the global financial crisis. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the BNP Paribas Group), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on certain types of financial products, increased internal control and reporting requirements, more stringent conduct of business rules, mandatory clearing and reporting of derivative transactions, requirements to mitigate risks in relation to over-the-counter derivative transactions and the creation of new and strengthened regulatory bodies. The measures that were recently adopted, or in some cases proposed and still under discussion, that have or are likely to affect BNPPF, include in particular the EU Directive and Regulation on prudential requirements "CRD IV" dated 26 June 2013 and many of whose provisions have been applicable since 1 January 2014; the proposals of technical regulatory and execution rules relating to the Directive and Regulation CRD IV published by the EBA; the Belgian Banking Law dated 25 April 2014 replacing the previous law of 1993 and introducing important changes; the Belgian Royal Decrees dated 22 February 2015 determining the entry into force of the Belgian Banking Law provisions relating to resolution (including the establishment of a Belgian Resolution Authority) and creating two preferential rights on the bank's moveables; the public consultation for the reform of the structure of the EU banking sector of 2013 and the European Commission's proposed regulation on structural measures designed to improve the strength of EU credit institutions of 29 January 2014; the proposal for a regulation on indices used as benchmarks in financial instruments and financial contracts; the European Single Supervisory</p> |

BNPP B.V.'s sole business is the raising and borrowing of money by issuing securities such as Notes, Warrants or Certificates or other obligations. BNPP B.V. has, and will have, no assets other than hedging agreements (OTC contracts mentioned in the Annual Reports), cash and fees payable to it, or other assets acquired by it, in each case in connection with the issue of securities or entry into other obligations related thereto from time to time. BNPP B.V. has a small equity and limited profit base. The net proceeds from each issue of Securities issued by the Issuer will become part of the general funds of BNPP B.V. BNPP B.V. uses such proceeds to hedge its market risk by acquiring hedging instruments from BNP Paribas and BNP Paribas entities and/or, in the case of Secured Securities, to acquire Collateral Assets. The ability of BNPP B.V. to meet its obligations under securities issued by it will depend on the receipt by it of payments under the relevant hedging agreements. Consequently, Holders of BNPP B.V. Securities will, subject to the provisions of the relevant Guarantee issued by BNP Paribas, be exposed to the ability of BNP Paribas and BNP Paribas entities to perform their obligations under such hedging agreements. ]</p> <p><i>[Insert where BGL is the Issuer:</i></p> <p>The following risk factors relate to the business of BGL:</p> <ul style="list-style-type: none"> <li>(a) Difficult market and economic conditions could in the future have a material adverse effect on the operating environment for financial institutions and hence on BGL's financial condition, results of operations and cost of risk.</li> <li>(b) Legislative action and regulatory measures taken in response to the global financial crisis may materially impact BGL and the financial and economic environment in which it operates.</li> <li>(c) BGL's access to and cost of funding could be adversely affected by a further deterioration of the euro zone sovereign debt crisis, worsening economic conditions, a ratings downgrade or other factors.</li> <li>(d) A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BGL's results of operations and financial condition.</li> <li>(e) BGL may incur significant losses on its trading and investment activities due to market fluctuations and volatility.</li> </ul> |

## **RISK FACTORS**

*Prospective purchasers of the Securities offered hereby should consider carefully, among other things and in light of their financial circumstances and investment objectives, all of the information in this Base Prospectus and, in particular, the risk factors set forth below (which each Issuer, in its reasonable opinion, believes represents or may represent the risk factors known to it which may affect such Issuer's ability to fulfil its obligations under the Securities) in making an investment decision. Investors may lose the value of their entire investment in certain circumstances.*

Terms used in this section and not otherwise defined have the meanings given to them in the relevant Conditions.

### **Risks Relating to BNPP and its Industry**

See Chapter 5 ("Risks and Capital Adequacy") of the BNPP 2014 Registration Document (as defined below) which is incorporated by reference in this Base Prospectus and which discloses all material risks relating to BNPP's ability to fulfil its obligations under the Securities.

### **Risk Factors Relating to BNPP B.V.**

BNPP B.V. is an operating company. BNPP B.V.'s sole business is the raising and borrowing of money by issuing securities such as Notes, Warrants or Certificates or other obligations. BNPP B.V. has, and will have, no assets other than hedging agreements (OTC contracts mentioned in the Annual Reports), cash and fees payable to it, or other assets acquired by it, in each case in connection with the issue of securities or entry into other obligations related thereto from time to time. BNPP B.V. has a small equity and limited profit base. The net proceeds from each issue of securities issued by BNPP B.V. will become part of the general funds of BNPP B.V. BNPP B.V. uses such proceeds to hedge its market risk by acquiring hedging instruments from BNP Paribas and BNP Paribas entities and/or, in the case of Secured Securities, to acquire Collateral Assets. The ability of BNPP B.V. to meet its obligations under securities issued by it will depend on the receipt by it of payments under the relevant hedging agreements. Consequently, Holders of BNPP B.V. securities will, subject to the provisions of the Guarantee issued by BNP Paribas, be exposed to the ability of BNP Paribas and BNP Paribas entities to perform their obligations under such hedging agreements.

### **Risk Factors Relating to BP2F**

#### *Investment considerations relating to the business of BP2F*

The primary credit protection for securities issued by BP2F will derive from the guarantees given by BNPPF. The principal activity of BP2F is to act as a financing vehicle for BNPPF and the companies controlled by BNPPF by issuing bonds, notes or other securities, by performing any refinancing operations with or without a guarantee and in general having recourse to any sources of finance. Securities issued by BP2F have the benefit of guarantees issued by BNPPF so the primary credit protection for investors will derive from these guarantees.

When BP2F issues structured securities, it hedges the structured components with hedging counterparties such as BNPPF, BNP Paribas (London or/and Paris) or BNPP B.V. BP2F's ability to perform its obligations in respect of the structured return may depend on the ability of these hedging counterparties to meet their obligations under the hedge.

BP2F's ability to perform its obligations in respect of securities may depend on the operating performance of those companies to which the proceeds of the securities are lent. BP2F will lend the proceeds from the securities to certain of BNP Paribas Fortis group's operating companies. Investors are, therefore, also exposed to the operating performance of the operating companies to which BP2F may lend proceeds, whose performance could change over time.

The financial condition of the operating companies to which the proceeds of the securities are lent may deteriorate and this may affect BP2F's ability to perform its obligations under the securities as BP2F's ability to meet its obligations

will be reliant on the financial condition of the operating companies, if such operating companies' financial condition were to deteriorate and to the extent that funds are not available under the guarantees, BP2F and holders of securities could suffer direct and materially adverse consequences, including insufficient return on the securities and, if a liquidation or bankruptcy of BP2F were to occur, loss by holders of all or part of their investment.

BP2F is not an operating company so has limited capital resources. Its financial condition therefore mainly depends on its ability to issue securities and otherwise raise finance. A deteriorating or challenging economic situation can make it more difficult for BP2F to raise finance, or may make the terms on which it is able to do so more onerous, which could have a negative effect on BP2F's financial condition.

*Transfer pricing tax rules in Luxembourg generate additional costs, which may vary from time to time*

According to OECD principles, any related party transaction should be performed at arm's length. In other words, remuneration should be in line with what independent third parties would have charged in a similar transaction. These transfer pricing principles apply to intra-group financings (being defined as any financing granted between companies that participate directly or indirectly in the management, control or capital of each other or have a common person doing so).

On 28 January 2011 the Luxembourg direct tax authorities issued Circular L.I.R. 164/2 stating that for intra-group financing activities the OECD principles are to be applied, that it is the burden of the taxpayer to prove compliance of the fixed pricing with those principles and finally issues the conditions and process to obtain an Advance Pricing Agreement ("APA") binding the Luxembourg tax authorities to honour for the company's tax assessment the pricing described and approved through the APA for a period which cannot exceed 5 years.

On 22 May 2012 following the filing of an APA with the Luxembourg Tax authorities, BP2F has received a positive answer for its APA for the fiscal years 2012 to 2016.

The requesting of a new APA for the period beginning after 2016 could result in a different pricing for the securities and could thus generate additional costs, which may vary from time to time. Investors are cautioned that all such risks should be borne in mind and analysed when investing in the securities of BP2F..

See also the risk factors relating to BNPPF set out below which are also applicable to BP2F but must be considered in the light of the specific activities, businesses, location, jurisdiction, applicable laws, composition of assets and liabilities, finances and other features of BP2F. BNPPF is the parent company of BP2F.

### **Risk Factors Relating to BNPPF**

*Difficult market and economic conditions could in the future have a material adverse effect on the operating environment for financial institutions and hence on BNPPF's financial condition, results of operations and cost of risk.*

As part of a global financial institution, the BNPPF's businesses can be highly sensitive to changes in the financial markets and economic conditions generally in Europe (especially in Belgium and Luxembourg). BNPPF could be confronted with a significant deterioration of market and economic conditions resulting, among other things, from crises affecting capital, credit or liquidity markets, regional or global recessions, sharp fluctuations in commodity prices (including oil), currency exchange rates or interest rates, inflation or deflation, sovereign debt rating downgrades, restructurings or defaults, or adverse geopolitical events (such as natural disasters, acts of terrorism and military conflicts). Market disruptions and sharp economic downturns, which may develop quickly and hence not be fully hedged, could affect the operating environment for financial institutions for short or extended periods and have a material adverse effect on BNPPF's financial condition, results of operations or cost of risk.

European markets have recently experienced significant disruptions as a result of concerns regarding the ability of certain countries in the eurozone to refinance their debt obligations and of the financial assistance provided to certain European Union member states. These disruptions have contributed to increased volatility in the exchange rate of the

euro against other major currencies, affected the levels of stock market indices and created uncertainty regarding the near-term economic prospects of countries in the European Union as well as the quality of bank loans to sovereign debtors in the European Union.

BNPPF holds and in the future may hold substantial portfolios of sovereign debt obligations issued by the governments of, and has and may in the future have substantial amounts of loans outstanding to borrowers in, certain of the countries that have been most significantly affected by the current crisis. BNPPF is also active in the interbank financial market and as a result, is indirectly exposed to risks relating to the sovereign debt held by the financial institutions with which it does business. More generally, the sovereign debt crisis has had, and may continue to have, an indirect impact on financial markets and, increasingly, economies, in Europe and worldwide, and therefore on the environment in which BNPPF operates.

If economic conditions in Europe or in other parts of the world were to deteriorate, particularly in the context of an exacerbation of the sovereign debt crisis (such as a sovereign default), BNPPF could be required to record additional impairment charges on its sovereign debt holdings or record further losses on sales thereof, and the resulting market and political disruptions could have a significant adverse impact on the credit quality of BNPPF's customers and financial institution counterparties, on market parameters such as interest rates, currency exchange rates and stock market indices, and on BNPPF's liquidity and ability to raise financing on acceptable terms.

*Legislative action and regulatory measures taken in response to the global financial crisis may materially impact BNPPF and the financial and economic environment in which it operates*

Legislation and regulations recently have been enacted or proposed with a view to introduce a number of changes, some permanent, in the global financial environment. While the objective of these new measures is to avoid a recurrence of the financial crisis, the impact of the new measures could be to change substantially the environment in which BNPPF and other financial institutions operate.

The new measures that have been or may be proposed and adopted include more stringent capital and liquidity requirements, taxes on financial transactions, restrictions and taxes on employee compensation over specified levels, limits on the types of activities that commercial banks can undertake (particularly proprietary trading and, potentially, investment banking activities more generally), restrictions on certain types of financial products such as derivatives, and the creation of new and strengthened regulatory bodies.

Certain measures that have been or are in the process of being adopted, and will be applicable to BNPPF, (prudential frameworks such as Basel 3 and Capital Requirements Directive 4, the requirements in relation to them announced by the European Banking Authority) will increase BNPPF's regulatory capital and liquidity requirements and may limit its permissible leverage. Ensuring and maintaining compliance with these measures in the future may lead BNPPF to take various actions, such as further reducing its balance sheet or bolstering its capital base, that could affect its financial condition and results of operations.

Some of the new regulatory measures are proposals that are under discussion and that are subject to revision, and would in any case need adaptation to each country's regulatory framework by national regulators. As a result, it is not possible to predict which proposed new measures will ultimately be adopted, what their final form will be or what impact they will have on BNPPF. Depending on the nature and scope of regulatory measures that are ultimately adopted, they could (in addition to having the effects noted above) affect BNPPF's ability to conduct (or impose limitations on) certain types of activities, its ability to attract and retain talent (particularly in its investment banking and financing businesses) and more generally its competitiveness and profitability, which would in turn have an adverse effect on its business, financial condition, and results of operations. Finally, it is difficult to predict what impact these measures might have on financial market conditions. It is conceivable that they could trigger or exacerbate future financial crises, particularly if they required significantly enhanced disclosure of risks or problem loan exposures that could be misinterpreted by investors, hence heightening their concern about banks and therefore restricting their sources of financing.

*BNPPF's access to and cost of funding could be adversely affected by a deterioration of the euro zone sovereign debt crisis, worsening economic conditions, a ratings downgrade or other factors.*

The Euro-zone sovereign debt crisis as well as the general macroeconomic environment adversely affected the availability and cost of funding for European banks in 2011. This was due to several factors, including a sharp increase in the perception of bank credit risk due to their exposure to sovereign debt in particular, credit rating downgrades of sovereigns and of banks, and debt market speculation. Many European banks, including BNPPF, experienced restricted access to wholesale debt markets and to the interbank market, as well as a general increase in their cost of funding. Accordingly, reliance on direct borrowing from the European Central Bank increased substantially. Were such adverse credit market conditions to persist for an extended period or worsen due to factors relating to the economy or the financial industry in general or to BNPPF in particular (such as ratings downgrades), the effect on the liquidity of the European financial sector in general and BNPPF in particular could be materially adverse.

BNPPF's cost of funding may also be influenced by the credit rating on its long-term debt. Any downgrade in the credit ratings by any of the three principal rating agencies may increase BNPPF borrowing costs.

*A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BNPPF's results of operations and financial condition.*

In connection with its lending activities, BNPPF regularly establishes provisions for loan losses. BNPPF's overall level of provisions is based on its assessment of prior loss experience, the volume and type of lending being conducted, industry standards, past due loans, economic conditions and other factors related to the recoverability of various loans. Although BNPPF uses its best efforts to establish an appropriate level of provisions, its lending businesses may have to increase their provisions for loan losses substantially in the future as a result of increases in non-performing assets or for other reasons, as was the case in the second half of 2008 and throughout 2009. Any significant increase in provisions for loan losses or a significant change in BNPPF's estimate of the risk of loss inherent in its portfolio of non-impaired loans, as well as the occurrence of loan losses in excess of the related provisions, could have a material adverse effect on BNPPF's results of operations and financial condition.

*BNPPF may incur significant losses on its trading and investment activities due to market fluctuations and volatility.*

BNPPF maintains trading and investment positions in the debt and currency markets, and in private equity, property and other assets. These positions could be adversely affected by volatility in financial and other markets, i.e. the degree to which prices fluctuate over a particular period in a particular market, regardless of market levels. The capital and credit markets have been experiencing unprecedented volatility and disruption since mid-2007 and particularly since the bankruptcy filing of Lehman Brothers in mid-September 2008. As a result BNPPF incurred significant losses on its trading and investment activities. There can be no assurance that this extreme volatility and market disruption will not re-occur in the future but BNPPF has taken action, where possible, to decrease the trading exposure and to decrease the size of the potential losses on its trading activities as a result. Volatility trends (or other trends in parameters that are sensitive to market fluctuations such as correlations) that prove substantially different from BNPPF's expectations may lead to losses relating to a broad range of other trading and hedging products BNPPF uses, including swaps, forwards and futures, options and structured products.

To the extent that BNPPF owns assets, or has net long positions, in any of those markets, a market downturn could result in losses from a decline in the value of its ALM positions. Conversely, to the extent that BNPPF has sold assets that it does not own, in any of those markets, a market upturn could expose it to potentially unlimited losses as it attempts to cover its net short positions by acquiring assets in a rising market.

*BNPPF may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.*

Market downturn can lead to a decline in the volume of transactions that BNPPF executes for its clients and, therefore, to a decline in its net banking income from this activity. In addition, because the fees that BNPPF charges for managing its clients' portfolios are in many cases based on the value or on the performance of those portfolios, a market downturn that reduces the value of its clients' portfolios or increases the amount of withdrawals would reduce the revenues BNPPF receives from its asset management, equity derivatives and private banking businesses. Even in the absence of a market downturn, below-market performance by BNPPF's mutual funds may result in increased withdrawals and reduced inflows, which would reduce the revenues BNPPF receives from its asset management business.

During recent market downturns in the last couple of years, BNPPF experienced all of these effects and a corresponding decrease in revenues in the relevant business lines. There can be no assurance that BNPPF will not experience similar trends in future market downturns, which may occur periodically and unexpectedly.

*Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses.*

In some of BNPPF's businesses, protracted market movements, particularly asset price declines, can reduce the level of activity in the market or reduce market liquidity. These developments can lead to material losses if BNPPF cannot close out deteriorating positions in a timely way. This is particularly true for assets that are intrinsically illiquid. Assets that are not traded on stock exchanges or other public trading markets, such as certain derivative contracts between financial institutions, may have values that BNPPF calculates using models rather than publicly-quoted prices. Monitoring the deterioration of prices of assets like these is difficult and could lead to unanticipated losses.

*Significant interest rate changes could adversely affect BNPPF's revenues or profitability.*

The amount of net interest income earned by BNPPF during any given period significantly affects its overall net banking income and profitability for that period. Interest rates are sensitive to many factors beyond BNPPF's control. Changes in market interest rates could affect the interest rates charged on interest-earning assets differently than the interest rates paid on interest-bearing liabilities. Any adverse change in the yield curve could cause a decline in BNPPF's net interest income from its lending activities. In addition, maturity mismatches and increases in the interest rates relating to BNPPF's short-term financing may adversely affect BNPPF's profitability.

*The soundness and conduct of other financial institutions and market participants could adversely affect BNPPF.*

BNPPF's ability to engage in funding, investment and derivative transactions could be adversely affected by the soundness of other financial institutions or market participants. Financial services institutions are interrelated as a result of trading, clearing, counterparty, funding or other relationships. As a result, defaults, or even rumours or questions about, one or more financial services institutions, or the financial services industry generally, have led to market-wide liquidity problems and could lead to further losses or defaults. BNPPF has exposure to many counterparties in the financial industry, directly and indirectly, including brokers and dealers, commercial banks, investment banks, mutual and hedge funds, and other institutional clients, with which it regularly executes transactions. Many of these transactions expose BNPPF to credit risk in the event of default of a group of BNPPF's counterparties or clients. In addition, BNPPF's credit risk may be exacerbated when the collateral held by it cannot be realized upon or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure due to BNPPF.

In addition, misconduct by financial market participants can have a material adverse effect on financial institutions due to the interrelated nature of the financial markets. An example is the fraud perpetrated by Bernard Madoff, as a result of which numerous financial institutions globally have announced losses or exposure to losses in substantial amounts.

There can be no assurance that any losses resulting from the risks summarized above will not materially and adversely affect BNPPF's results of operations.

*BNPPF's competitive position could be harmed if its reputation is damaged.*

In the highly competitive environment arising from globalization and convergence in the financial services industry, a reputation for financial strength and integrity is critical to BNPPF's ability to attract and retain customers. BNPPF's reputation could be harmed if it fails to adequately promote and market its products and services. BNPPF's reputation could also be damaged if, as it increases its client base and the scale of its businesses, BNPPF's comprehensive procedures and controls dealing with conflicts of interest fail, or appear to fail, to address conflicts of interest properly. At the same time, BNPPF's reputation could be damaged also by other compliance risks, including but not limited to, employee misconduct, misconduct by market participants or funds to which BNPPF is exposed, a decline in, a restatement of, or corrections to its financial results, as well as any adverse legal or regulatory action. The loss of business that could result from damage to BNPPF's reputation could have an adverse effect on its results of operations and financial position.

*An interruption in or a breach of BNPPF's information systems may result in lost business and other losses.*

As with most other banks, BNPPF relies heavily on communications and information systems to conduct its business. Any failure or interruption or breach in security of these systems could result in failures or interruptions in BNPPF's customer relationship management, general ledger, deposit, servicing and/or loan organization systems. BNPPF cannot provide assurances that such failures or interruptions will not occur or, if they do occur, that they will be adequately addressed. The occurrence of any failures or interruptions could have an adverse effect on BNPPF's financial condition and results of operations.

*Unforeseen external events can interrupt BNPPF's operations and cause substantial losses and additional costs.*

Unforeseen events such as political and social unrest, severe natural disasters, terrorist attacks or other states of emergency could lead to an abrupt interruption of BNPPF's operations and, to the extent not covered by insurance, could cause substantial losses. Such losses can relate to property, financial assets, trading positions and key employees. Such unforeseen events could also lead to additional costs (such as relocation of employees affected) and increase BNPPF's costs (particularly insurance premiums).

*BNPPF is subject to extensive and evolving regulatory regimes in the countries and regions in which it operates.*

BNPPF is exposed to regulatory compliance risk, such as the inability to comply fully with the laws, regulations, codes of conduct, professional norms or recommendations applicable to the financial services industry. This risk is exacerbated by the adoption by different countries of multiple and occasionally diverging legal or regulatory requirements. Besides damage to BNPPF's reputation and private rights of action, noncompliance could lead to significant fines, public reprimand, enforced suspension of operations or, in extreme cases, withdrawal of operating licenses. This risk is further exacerbated by continuously increasing regulatory oversight. This is the case in particular with respect to money laundering, the financing of terrorist activities or transactions with countries that are subject to economic sanctions.

More generally, BNPPF is exposed to the risk of legislative or regulatory changes in all of the countries in which it operates, including, but not limited to, the following:

- monetary, liquidity, interest rate and other policies of central banks and regulatory authorities;
- general changes in government or regulatory policy that may significantly influence investor decisions, in particular in the markets in which BNPPF operates;
- general changes in regulatory requirements applicable to the financial industry, such as rules relating to applicable capital adequacy and liquidity frameworks;
- general changes in securities regulations, including financial reporting and market abuse regulations;
- changes in tax legislation or the application thereof;

- changes in accounting norms;
- changes in rules and procedures relating to internal controls; and
- expropriation, nationalization, confiscation of assets and changes in legislation relating to foreign ownership.

These changes, the scope and implications of which are highly unpredictable, could substantially affect BNPPF, and have an adverse effect on its business, financial condition and results of operations.

*Notwithstanding BNPPF risk management policies, procedures and methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses.*

BNPPF has devoted significant resources to developing its risk management policies, procedures and assessment methods and intends to continue to do so in the future. Nonetheless, BNPPF risk management techniques and strategies may not be fully effective in mitigating its risk exposure in all economic and market environments or against all types of risk, particularly risks that BNPPF may have failed to identify or anticipate. BNPPF's ability to assess the creditworthiness of its customers or to estimate the values of its assets may be impaired if, as a result of market turmoil such as that experienced in recent years, the models and approaches it uses become less predictive of future behaviour, valuations, assumptions or estimates. Some of BNPPF's qualitative tools and metrics for managing risk are based on its use of observed historical market behaviour. BNPPF applies statistical and other tools to these observations to arrive at quantifications of its risk exposures. The process used to estimate losses inherent in its credit exposure or estimate the value of certain assets requires difficult, subjective, and complex judgments, including forecasts of economic conditions and how these economic predictions might impair the ability of its borrowers to repay their loans or impact the value of assets, which may, during periods of market disruption, be incapable of accurate estimation and, in turn, impact the reliability of the process. These tools and metrics may fail to predict future risk exposures, e.g. if BNPPF does not anticipate or correctly evaluate certain factors in its statistical models, or upon the occurrence of an event deemed extremely unlikely by the tools and metrics. This would limit BNPPF's ability to manage its risks. BNPPF losses could therefore be significantly greater than the historical measures indicate. In addition, BNPPF quantified modeling does not take all risks into account. Its more qualitative approach to managing certain risks could prove insufficient, exposing it to material unanticipated losses.

*BNPPF's hedging strategies may not prevent losses.*

If any of the variety of instruments and strategies that BNPPF uses to hedge its exposure to various types of risk in its businesses is not effective, BNPPF may incur losses. Many of its strategies are based on historical trading patterns and correlations. However, the hedging strategies may not protect against all future risks or may not be fully effective in mitigating BNPPF's risk exposure in all market environments or against all types of risk in the future. Unexpected market developments may also reduce the effectiveness of BNPPF's hedging strategies. In addition, the manner in which gains and losses resulting from certain ineffective hedges are recorded may result in additional volatility in BNPPF's reported earnings.

*Intense competition in the financial services industry could adversely affect BNPPF revenues and profitability.*

There is substantial competition in Belgium, Luxembourg and the other regions in which BNPPF carries on business for the types of banking, asset management and insurance, and other products and services BNPPF provides.

Such competition is most pronounced in the core Benelux markets of BNPPF where BNPPF faces competition from companies such as KBC Bank, ING Group, Belfius and BIL. As a result, BNPPF's strategy is to maintain customer loyalty and retention, which can be influenced by a number of factors, including service levels, the prices and attributes of products and services, financial strength and actions taken by competitors. If BNPPF is unable to compete with attractive product and service offerings that are profitable, BNPPF may lose market share or incur losses on some or all of BNPPF's activities.

Competitive pressures could result in increased pricing pressures on a number of BNPPF's products and services, particularly as competitors seek to win market share, and may harm BNPPF's ability to maintain or increase profitability.

In addition, new lower-cost competitors may enter the market, which may not be subject to the same capital or regulatory requirements or may have other inherent regulatory advantages and, therefore, may be able to offer their products and services on more favourable terms. It is also possible that the increased presence in the global marketplace of nationalized financial institutions, or financial institutions benefiting from State guarantees or other similar advantages, following the recent financial crisis or the imposition of more stringent requirements (particularly capital requirements and activity restrictions) on larger or systematically significant financial institutions could lead to distortions in competition in a manner adverse to large private-sector institutions such as BNPPF.

*Litigation or other proceedings or actions may adversely affect BNPPF's business, financial condition and results of operations.*

In its normal course of business, BNPPF is subject to the risk of litigation by customers, employees or others through private actions, class actions, administrative proceedings, regulatory actions or other litigation. The outcome of litigation or similar proceedings or actions is difficult to assess or quantify. Plaintiffs in these types of actions may seek recovery of large or indeterminate amounts or other remedies that may affect BNPPF's ability to conduct business, and the magnitude of the potential loss relating to such actions may remain unknown for substantial periods of time. The cost to defend future actions may be significant. There may also be adverse publicity associated with litigation that could decrease customer acceptance of BNPPF's services, regardless of whether the allegations are valid or whether BNPPF is ultimately found liable. As a result, the possibility cannot be ruled out that the outcome of such litigations or investigations may adversely affect BNPPF's business, financial condition and results of operations.

Furthermore, several (previous) shareholders and entities representing shareholders of Ageas SA/NV (previously Fortis SA/NV and Fortis N.V.) have initiated proceedings in Belgium and in The Netherlands against, amongst others, BNPPF in connection with events and developments in respect of the former Fortis group between May 2007 and October 2008, amongst others in connection with the rights issue of Ageas SA/NV in October 2007. In February 2013 the public prosecutor in Brussels has requested the court ("raadkamer/chambre du conseil") to refer certain individuals for trial before the Criminal court of Brussels in respect of certain of these events and developments. Investigation is still ongoing. Moreover, other litigations or investigations are pending in relation to the restructuring of the former Fortis group. It cannot be ruled out that the outcome of such litigations and/or investigations might also have an impact on BNPPF.

More information on these litigations and investigations can be found under Note 8.m. (*Contingent assets and liabilities*) on pages 213 to 215 of the 2014 annual report of BNP Paribas Fortis for the year ended December 2014 as well as in the "Description of BNPPF" below.

*A deterioration of the credit rating of BNP Paribas of its debt quality could adversely affect BNPPF*

As part of the BNP Paribas Group, BNPPF can be highly sensitive to a downgrade by rating agencies of the rating of the parent company of the BNP Paribas Group or a deterioration of its debt quality. BNP Paribas took control of BNPPF on 12 May 2009 (formerly Fortis Bank NV/SA) and subsequently increased its stake in BNPPF to 74.93 per cent. BNP Paribas is now the major shareholder of BNPPF.

*While each of BNPPF's businesses manages its operational risks, these risks remain an inherent part of all of BNPPF's businesses*

BNPPF is subject to operational risk because of the uncertainty inherent in all business undertakings and decisions. This risk can be broken down into business risk and event risk.

Business risk is the risk of 'being in business', which affects any enterprise, financial or non-financial. It is the risk of loss due to changes in the competitive environment that damage the business's franchise or operating economics. Typically, the fluctuation originates with variations in volume, pricing or margins against a fixed cost base. Business risk is thus mostly externally driven (by regulatory, fiscal, market and or competition changes, as well as strategic, reputation risks and other related risks).

Event risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal and compliance risk. Event risk is often internally driven (internal and external fraud involving employees, clients, products and business practices, as well as technological and infrastructure failures and other related malfunctions) and can be limited through management processes and controls.

BNPPF attempts to keep these risks at appropriate levels by maintaining a sound and well controlled environment in light of the characteristics of its business, the markets and the regulatory environments in which BNPPF operates. While these control measures mitigate operational risks they do not eliminate them.

*BNPPF has significant counterparty risk exposure and exposure to systemic risks*

BNPPF's business is subject to general credit risks, including credit risks of borrowers and other counterparties. Third parties that owe BNPPF money, securities or other assets may not pay or perform under their obligations. These parties include borrowers under loans made, the issuers whose securities BNPPF holds, customers, trading counterparties, counterparties under swaps and credit and other derivative contracts, clearing agents, exchanges, clearing houses and other financial intermediaries. These parties may default on their obligations to BNPPF due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons.

In addition, in the past, the general credit environment has been adversely affected by significant instances of fraud. Concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions because the commercial soundness of many financial institutions may be closely related as a result of their credit, trading, clearing or other relationships. This risk is sometimes referred to as "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges with whom BNPPF interacts on a daily basis, and could have an adverse effect on BNPPF's business.

*Uncertainty linked to fair value accounting and use of estimates*

According to BNPPF's valuation rules financial assets can be carried at fair value through profit or loss. Concerned assets include financial assets held for trading, including non-cash flow hedging derivatives, and financial assets that BNPPF has irrevocably designated to be held at fair value through profit or loss ('fair value option'). The fair value of a financial instrument is determined based on quoted prices in active markets. When quoted prices in active markets are not available, valuation techniques are used. Valuation techniques make maximum use of market inputs but are affected by the assumptions used, including discount rates and estimates of future cash flows, and take into consideration, where applicable, model risks. Such techniques include market prices of comparable investments, discounted cash flows, option pricing models and market multiples valuation methods. In the rare case where it is not possible to determine the fair value of a financial instrument, it is accounted for at cost. The effect of changing the assumptions for those financial instruments for which the fair values are measured using valuation techniques that are determined in full or in part on assumptions that are not supported by observable inputs may have a material adverse effect on BNPPF's earnings.

The preparation of financial statements in conformity with IFRS requires the use of certain accounting estimates and assumptions. It also requires management to exercise its judgment in the process of applying these accounting policies. Actual results may differ from those estimates and judgmental decisions.

Financial institutions may use different accounting categorizations for the same or similar financial assets due to their different intentions regarding those assets. In determining fair value of financial instruments, different financial

institutions may use different valuation techniques, assumptions, judgments and estimates which may result in lower or higher fair values for such financial instruments.

### **Risk Factors Relating to BGL**

*Difficult market and economic conditions could in the future have a material adverse effect on the operating environment for financial institutions and hence on BGL's financial condition, results of operations and cost of risk*

As part of a global financial institution, BGL's businesses can be highly sensitive to changes in the financial markets and economic conditions generally in Europe (especially in Luxembourg and Belgium ). BGL could be confronted with a significant deterioration of market and economic conditions resulting, among other things, from crises affecting capital, credit or liquidity markets, regional or global recessions, sharp fluctuations in commodity prices (including oil), currency exchange rates or interest rates, inflation or deflation, sovereign debt rating downgrades, restructurings or defaults, or adverse geopolitical events (such as natural disasters, acts of terrorism and military conflicts). Market disruptions and sharp economic downturns, which may develop quickly and hence not be fully hedged, could affect the operating environment for financial institutions for short or extended periods and have a material adverse effect on BGL's financial condition, results of operations or cost of risk.

European markets have recently experienced significant disruptions as a result of concerns regarding the ability of certain countries in the eurozone to refinance their debt obligations and of the financial assistance provided to certain European Union member states. These disruptions have contributed to increased volatility in the exchange rate of the euro against other major currencies, affected the levels of stock market indices and created uncertainty regarding the near-term economic prospects of countries in the European Union as well as the quality of bank loans to sovereign debtors in the European Union.

BGL holds and in the future may hold substantial portfolios of sovereign debt obligations issued by the governments of, and has and may in the future have substantial amounts of loans outstanding to borrowers in, certain of the countries that have been most significantly affected by the current crisis. BGL is also active in the interbank financial market and as a result, is indirectly exposed to risks relating to the sovereign debt held by the financial institutions with which it does business. More generally, the sovereign debt crisis has had, and may continue to have, an indirect impact on financial markets and, increasingly, economies, in Europe and worldwide, and therefore on the environment in which BGL operates.

If economic conditions in Europe or in other parts of the world were to deteriorate, particularly in the context of an exacerbation of the sovereign debt crisis (such as a sovereign default), BGL could be required to record additional impairment charges on its sovereign debt holdings or record further losses on sales thereof, and the resulting market and political disruptions could have a significant adverse impact on the credit quality of BGL's customers and financial institution counterparties, on market parameters such as interest rates, currency exchange rates and stock market indices, and on BGL's liquidity and ability to raise financing on acceptable terms.

*Legislative action and regulatory measures taken in response to the global financial crisis may materially impact BGL and the financial and economic environment in which it operates*

Legislation and regulations recently have been enacted or proposed with a view to introduce a number of changes, some permanent, in the global financial environment. While the objective of these new measures is to avoid a recurrence of the financial crisis, the impact of the new measures could be to change substantially the environment in which BGL and other financial institutions operate.

The new measures that have been or may be proposed and adopted include more stringent capital and liquidity requirements, taxes on financial transactions, restrictions and taxes on employee compensation over specified levels, limits on the types of activities that commercial banks can undertake (particularly proprietary trading and, potentially,

investment banking activities more generally), restrictions on certain types of financial products such as derivatives, and the creation of new and strengthened regulatory bodies.

Certain measures that have been or are in the process of being adopted, and will be applicable to BGL (prudential frameworks such as Basel 3 and Capital Requirements Directive 4, the Capital Requirements Regulation, the requirements in relation to them announced by the European Banking Authority) will increase BGL's regulatory capital and liquidity requirements and may limit its permissible leverage. Ensuring and maintaining compliance with these measures in the future may lead BGL to take various actions, such as further reducing its balance sheet or bolstering its capital base, that could affect its financial condition and results of operations.

Some of the new regulatory measures are proposals that are under discussion and that are subject to revision, and would in any case need adaptation to each country's regulatory framework by national regulators. As a result, it is not possible to predict which proposed new measures will ultimately be adopted, what their final form will be or what impact they will have on BGL. Depending on the nature and scope of regulatory measures that are ultimately adopted, they could (in addition to having the effects noted above) affect BGL's ability to conduct (or impose limitations on) certain types of activities, its ability to attract and retain talent (particularly in its investment banking and financing businesses) and more generally its competitiveness and profitability, which would in turn have an adverse effect on its business, financial condition, and results of operations. Finally, it is difficult to predict what impact these measures might have on financial market conditions. It is conceivable that they could trigger or exacerbate future financial crises, particularly if they required significantly enhanced disclosure of risks or problem loan exposures that could be misinterpreted by investors, hence heightening their concern about banks and therefore restricting their sources of financing.

*BGL's access to and cost of funding could be adversely affected by a deterioration of the euro zone sovereign debt crisis, worsening economic conditions, a ratings downgrade or other factors*

The Euro-zone sovereign debt crisis as well as the general macroeconomic environment adversely affected the availability and cost of funding for European banks in 2011. This was due to several factors, including a sharp increase in the perception of bank credit risk due to their exposure to sovereign debt in particular, credit rating downgrades of sovereigns and of banks, and debt market speculation. Many European banks, including BGL, experienced restricted access to wholesale debt markets and to the interbank market, as well as a general increase in their cost of funding. Accordingly, reliance on direct borrowing from the European Central Bank increased substantially. Were such adverse credit market conditions to persist for an extended period or worsen due to factors relating to the economy or the financial industry in general or to BGL in particular (such as ratings downgrades), the effect on the liquidity of the European financial sector in general and BGL in particular could be materially adverse.

BGL's cost of funding may also be influenced by the credit rating on its long-term debt. Any downgrade in the credit ratings by any of the three principal rating agencies may increase BGL borrowing costs.

*A substantial increase in new provisions or a shortfall in the level of previously recorded provisions could adversely affect BGL's results of operations and financial condition*

In connection with its lending activities, BGL regularly establishes provisions for loan losses. BGL's overall level of provisions is based on its assessment of prior loss experience, the volume and type of lending being conducted, industry standards, past due loans, economic conditions and other factors related to the recoverability of various loans. Although BGL uses its best efforts to establish an appropriate level of provisions, its lending businesses may have to increase their provisions for loan losses substantially in the future as a result of increases in non-performing assets or for other reasons, as was the case in the second half of 2008 and throughout 2009. Any significant increase in provisions for loan losses or a significant change in BGL's estimate of the risk of loss inherent in its portfolio of non-impaired loans, as well as the occurrence of loan losses in excess of the related provisions, could have a material adverse effect on BGL's results of operations and financial condition.

*BGL may incur significant losses on its trading and investment activities due to market fluctuations and volatility*

BGL maintains trading and investment positions in the debt, currency, commodity and equity markets, and in private equity, property and other assets. These positions could be adversely affected by volatility in financial and other markets, i.e. the degree to which prices fluctuate over a particular period in a particular market, regardless of market levels. The capital and credit markets have been experiencing unprecedented volatility and disruption since mid-2007 and particularly since the bankruptcy filing of Lehman Brothers in mid-September 2008. As a result BGL incurred losses on its trading and investment activities. There can be no assurance that this extreme volatility and market disruption will not re-occur in the future but BGL has taken action, where possible, to decrease the trading exposure and to decrease the size of the potential losses on its trading activities as a result. Volatility trends (or other trends in parameters that are sensitive to market fluctuations such as correlations) that prove substantially different from BGL's expectations may lead to losses relating to a broad range of other trading and hedging products BGL uses, including swaps, forwards and futures, options and structured products.

To the extent that BGL owns assets, or has net long positions, in any of those markets, a market downturn could result in losses from a decline in the value of its positions. Conversely, to the extent that BGL has sold assets that it does not own in any of those markets, a market upturn could expose it to potentially unlimited losses as it attempts to cover its net short positions by acquiring assets in a rising market.

*BGL may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns*

Market downturn can lead to a decline in the volume of transactions that BGL executes for its clients and, therefore, to a decline in its net banking income from this activity. In addition, because the fees that BGL charges for managing its clients' portfolios are in many cases based on the value or on the performance of those portfolios, a market downturn that reduces the value of its clients' portfolios or increases the amount of withdrawals would reduce the revenues BGL receives from its asset management, equity derivatives and private banking businesses. Even in the absence of a market downturn, below-market performance by any BGL fund may result in increased withdrawals and reduced inflows, which would reduce the revenues BGL receives from its asset management business.

During recent market downturns in the last couple of years, BGL experienced all of these effects and a corresponding decrease in revenues in the relevant business lines. There can be no assurance that BGL will not experience similar trends in future market downturns, which may occur periodically and unexpectedly.

*Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and possibly leading to material losses*

In some of the BGL's businesses, protracted market movements, particularly asset price declines, can reduce the level of activity in the market or reduce market liquidity. These developments can lead to material losses if BGL cannot close out deteriorating positions in a timely way. This is particularly true for assets that are intrinsically illiquid. Assets that are not traded on stock exchanges or other public trading markets, such as certain derivative contracts between financial institutions, may have values that BGL calculates using models rather than publicly-quoted prices. Monitoring the deterioration of prices of assets like these is difficult and could lead to unanticipated losses.

*Significant interest rate changes could adversely affect BGL's revenues or profitability*

The amount of net interest income earned by BGL during any given period significantly affects its overall net banking income and profitability for that period. Interest rates are sensitive to many factors beyond BGL's control. Changes in market interest rates could affect the interest rates charged on interest-earning assets differently than the interest rates paid on interest-bearing liabilities. Any adverse change in the yield curve could cause a decline in BGL's net interest income from its lending activities. In addition, maturity mismatches and increases in the interest rates relating to BGL's short-term financing may adversely affect BGL's profitability.

*The soundness and conduct of other financial institutions and market participants could adversely affect BGL*

BGL's ability to engage in funding, investment and derivative transactions could be adversely affected by the soundness of other financial institutions or market participants. Financial services institutions are interrelated as a result of trading, clearing, counterparty, funding or other relationships. As a result, defaults, or even rumors or questions about, one or more financial services institutions, or the financial services industry generally, have led to market-wide liquidity problems and could lead to further losses or defaults. BGL has exposure to many counterparties in the financial industry, directly and indirectly, including brokers and dealers, commercial banks, investment banks, mutual and hedge funds, and other institutional clients, with which it regularly executes transactions. Many of these transactions expose BGL to credit risk in the event of default of a group of BGL's counterparties or clients. In addition, BGL's credit risk may be exacerbated when the collateral held by it cannot be realized upon or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure due to BGL.

In addition, misconduct by financial market participants can have a material adverse effect on financial institutions due to the interrelated nature of the financial markets. An example is the fraud perpetrated by Bernard Madoff, as a result of which numerous financial institutions globally have announced losses or exposure to losses in substantial amounts.

There can be no assurance that any losses resulting from the risks summarized above will not materially and adversely affect BGL's results of operations.

*BGL's competitive position could be harmed if its reputation is damaged*

In the highly competitive environment arising from globalization and convergence in the financial services industry, a reputation for financial strength and integrity is critical to BGL's ability to attract and retain customers. BGL's reputation could be harmed if it fails to adequately promote and market its products and services. BGL's reputation could also be damaged if, as it increases its client base and the scale of its businesses, BGL's comprehensive procedures and controls dealing with conflicts of interest fail, or appear to fail, to address conflicts of interest properly. At the same time, BGL's reputation could be damaged also by other compliance risks, including but not limited to, employee misconduct, misconduct by market participants or funds to which BGL is exposed, a decline in, a restatement of, or corrections to its financial results, as well as any adverse legal or regulatory action. The loss of business that could result from damage to BGL's reputation could have an adverse effect on its results of operations and financial position.

*An interruption in or a breach of BGL's information systems may result in lost business and other losses*

As with most other banks, BGL relies heavily on communications and information systems to conduct its business. Any failure or interruption or breach in security of these systems could result in failures or interruptions in BGL's customer relationship management, general ledger, deposit, servicing and/or loan organization systems. BGL cannot provide assurances that such failures or interruptions will not occur or, if they do occur, that they will be adequately addressed. The occurrence of any failures or interruptions could have an adverse effect on BGL's financial condition and results of operations.

*Unforeseen external events can interrupt BGL's operations and cause substantial losses and additional costs*

Unforeseen events such as political and social unrest, severe natural disasters, terrorist attacks or other states of emergency could lead to an abrupt interruption of the BGL's operations and, to the extent not covered by insurance, could cause substantial losses. Such losses can relate to property, financial assets, trading positions and key employees. Such unforeseen events could also lead to additional costs (such as relocation of employees affected) and increase the BGL's costs (particularly insurance premiums).

*BGL is subject to extensive and evolving regulatory regimes in the countries and regions in which it operates*

BGL is exposed to regulatory compliance risk, such as the inability to comply fully with the laws, regulations, codes of conduct, professional norms or recommendations applicable to the financial services industry. This risk is exacerbated

by the adoption by different countries of multiple and occasionally diverging legal or regulatory requirements. Besides damage to the BGL's reputation and private rights of action, noncompliance could lead to significant fines, public reprimand, enforced suspension of operations or, in extreme cases, withdrawal of operating licenses. This risk is further exacerbated by continuously increasing regulatory oversight. This is the case in particular with respect to money laundering, the financing of terrorist activities or transactions with countries that are subject to economic sanctions.

More generally, BGL is exposed to the risk of legislative or regulatory changes in all of the countries in which it operates, including, but not limited to, the following:

- monetary, liquidity, interest rate and other policies of central banks and regulatory authorities;
- general changes in government or regulatory policy that may significantly influence investor decisions, in particular in the markets in which BGL operates;
- general changes in regulatory requirements applicable to the financial industry, such as rules relating to applicable capital adequacy and liquidity frameworks;
- general changes in securities regulations, including financial reporting and market abuse regulations;
- changes in tax legislation or the application thereof;
- changes in accounting norms;
- changes in rules and procedures relating to internal controls; and
- expropriation, nationalization, confiscation of assets and changes in legislation relating to foreign ownership.

These changes, the scope and implications of which are highly unpredictable, could substantially affect BGL, and have an adverse effect on its business, financial condition and results of operations.

*Notwithstanding BGL risk management policies, procedures and methods, it could still be exposed to unidentified or unanticipated risks, which could lead to material losses*

BGL has devoted significant resources to developing its risk management policies, procedures and assessment methods and intends to continue to do so in the future. Nonetheless, BGL risk management techniques and strategies may not be fully effective in mitigating its risk exposure in all economic and market environments or against all types of risk, particularly risks that BGL may have failed to identify or anticipate. BGL's ability to assess the creditworthiness of its customers or to estimate the values of its assets may be impaired if, as a result of market turmoil such as that experienced in recent years, the models and approaches it uses become less predictive of future behavior, valuations, assumptions or estimates. Some of BGL qualitative tools and metrics for managing risk are based on its use of observed historical market behavior. BGL applies statistical and other tools to these observations to arrive at quantifications of its risk exposures. The process used to estimate losses inherent in its credit exposure or estimate the value of certain assets requires difficult, subjective, and complex judgments, including forecasts of economic conditions and how these economic predictions might impair the ability of its borrowers to repay their loans or impact the value of assets, which may, during periods of market disruption, be incapable of accurate estimation and, in turn, impact the reliability of the process. These tools and metrics may fail to predict future risk exposures, e.g. if BGL does not anticipate or correctly evaluate certain factors in its statistical models, or upon the occurrence of an event deemed extremely unlikely by the tools and metrics. This would limit BGL ability to manage its risks. BGL losses could therefore be significantly greater than the historical measures indicate. In addition, BGL quantified modeling does not take all risks into account. Its more qualitative approach to managing certain risks could prove insufficient, exposing it to material unanticipated losses.

*BGL's hedging strategies may not prevent losses*

If any of the variety of instruments and strategies that BGL uses to hedge its exposure to various types of risk in its businesses is not effective, BGL may incur losses. Many of its strategies are based on historical trading patterns and correlations. However, the hedging strategies may not protect against all future risks or may not be fully effective in mitigating BGL's risk exposure in all market environments or against all types of risk in the future. Unexpected market developments may also reduce the effectiveness of BGL's hedging strategies. In addition, the manner in which gains and losses resulting from certain ineffective hedges are recorded may result in additional volatility in BGL's reported earnings.

*Risks and uncertainties connected to the integration and optimization of the operations of BGL following its acquisition by BNP Paribas*

The integration of the operations of BGL following its acquisition by BNP Paribas is ongoing. It is a process that is complex, expensive and that presents a number of challenges for the management of BGL and BNP Paribas, its staff and potentially its customers. Although the integration is currently achieving all the foreseen objectives, the integration may not be able to achieve the anticipated synergies or other expected benefits of the acquisition. The expected business growth opportunities, revenue benefits, cost synergies and other operational efficiencies and other benefits expected from the integration may not develop or may be delayed. To the extent that higher integration costs are incurred or lower revenue benefits or fewer cost savings are achieved than was expected, BNP Paribas' and BGL's operating results, financial conditions and prospects and share price may suffer.

While the legal acquisition has already occurred, the technical integration of BGL and BNP Paribas, including the integration of the banks' IT systems and other processes is ongoing and is expected to take some time to be fully completed. The potential for future growth of the integrated entity will depend on a number of factors, including the ability of BGL and BNP Paribas to integrate the operating systems, achieve synergies in a timely manner and control costs.

Challenges may also be faced with respect to obtaining required approvals of various regulatory agencies, retaining key employees, redeploying resources in different areas of operations to improve efficiency, unifying financial reporting and internal control procedures, minimising diversion of management attention from ongoing business concerns, addressing differences between BGL's and BNP Paribas' business culture, processes, controls, procedures, systems, accounting practices and implementation of accounting standards.

*Intense competition in the financial services industry could adversely affect BGL revenues and profitability*

There is substantial competition in Luxembourg, Belgium and the other regions in which BGL carries on business for the types of banking, asset management and insurance, and other products and services BGL provides.

Such competition is most pronounced in the core Benelux markets of BGL where BGL faces competition from companies such as KBL, ING Group, BCEE and BIL. As a result, BGL's strategy is to maintain customer loyalty and retention, which can be influenced by a number of factors, including service levels, the prices and attributes of products and services, financial strength and actions taken by competitors. If BGL is unable to compete with attractive product and service offerings that are profitable, BGL may lose market share or incur losses on some or all of BGL's activities.

Competitive pressures could result in increased pricing pressures on a number of BGL's products and services, particularly as competitors seek to win market share, and may harm BGL's ability to maintain or increase profitability.

In addition, new lower-cost competitors may enter the market, which may not be subject to the same capital or regulatory requirements or may have other inherent regulatory advantages and, therefore, may be able to offer their products and services on more favorable terms. It is also possible that the increased presence in the global marketplace of nationalized financial institutions, or financial institutions benefiting from State guarantees or other similar

advantages, following the financial crisis or the imposition of more stringent requirements (particularly capital requirements and activity restrictions) on larger or systematically significant financial institutions could lead to distortions in competition in a manner adverse to large private-sector institutions such as BGL.

*Litigation or other proceedings or actions may adversely affect BGL's business, financial condition and results of operations*

In its normal course of business, BGL is subject to the risk of litigation by customers, employees or others through private actions, class actions, administrative proceedings, regulatory actions or other litigation. The outcome of litigation or similar proceedings or actions is difficult to assess or quantify. Plaintiffs in these types of actions may seek recovery of large or indeterminate amounts or other remedies that may affect BGL's ability to conduct business, and the magnitude of the potential loss relating to such actions may remain unknown for substantial periods of time. The cost to defend future actions may be significant. There may also be adverse publicity associated with litigation that could decrease customer acceptance of BGL's services, regardless of whether the allegations are valid or whether BGL is ultimately found liable. As a result, the possibility cannot be ruled out that the outcome of such litigations or investigations may adversely affect BGL's business, financial condition and results of operations.

*A deterioration of the credit rating of BNP Paribas of its debt quality could adversely affect BGL*

As part of the BNP Paribas Group, BGL can be highly sensitive to a downgrade by rating agencies of the rating of the parent company of the BNP Paribas Group or a deterioration of its debt quality. On 13 May 2009, BNP Paribas took control of BGL as part of the BNP Paribas Fortis SA/NV acquisition, of which BNP Paribas owns 99.93 per cent. of its share capital. BNP Paribas is now the major shareholder of BGL with a 65.96 per cent. interest.

*While each of BGL's businesses manages its operational risks, these risks remain an inherent part of all of BGL's businesses*

BGL is subject to operational risk because of the uncertainty inherent in all business undertakings and decisions. This risk can be broken down into business risk and event risk.

Business risk is the risk of 'being in business', which affects any enterprise, financial or non-financial. It is the risk of loss due to changes in the competitive environment that damage the business's franchise or operating economics. Typically, the fluctuation originates with variations in volume, pricing or margins against a fixed cost base. Business risk is thus mostly externally driven (by regulatory, fiscal, market and or competition changes, as well as strategic, reputation risks and other related risks).

Event risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal and compliance risk. Event risk is often internally driven (internal and external fraud involving employees, clients, products and business practices, as well as technological and infrastructure failures and other related malfunctions) and can be limited through management processes and controls.

BGL attempts to keep these risks at appropriate levels by maintaining a sound and well controlled environment in light of the characteristics of its business, the markets and the regulatory environments in which BGL operates. While these control measures mitigate operational risks they do not eliminate them.

*BGL has significant counterparty risk exposure and exposure to systemic risks*

BGL's business is subject to general credit risks, including credit risks of borrowers and other counterparties. Third parties that owe BGL money, securities or other assets may not pay or perform under their obligations. These parties include borrowers under loans made, the issuers whose securities BGL holds, customers, trading counterparties, counterparties under swaps and credit and other derivative contracts, clearing agents, exchanges, clearing houses and other financial intermediaries. These parties may default on their obligations to BGL due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure or other reasons.

In addition, in the past, the general credit environment has been adversely affected by significant instances of fraud. Concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions because the commercial soundness of many financial institutions may be closely related as a result of their credit, trading, clearing or other relationships. This risk is sometimes referred to as "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges with whom BGL interacts on a daily basis, and could have an adverse effect on BGL's business.

#### *Uncertainty linked to fair value accounting and use of estimates*

According to BGL's valuation rules financial assets can be carried at fair value through profit or loss. Concerned assets include financial assets held for trading, including non-cash flow hedging derivatives, and financial assets that BGL has irrevocably designated to be held at fair value through profit or loss ('fair value option'). The fair value of a financial instrument is determined based on quoted prices in active markets. When quoted prices in active markets are not available, valuation techniques are used. Valuation techniques make maximum use of market inputs but are affected by the assumptions used, including discount rates and estimates of future cash flows, and take into consideration, where applicable, model risks. Such techniques include market prices of comparable investments, discounted cash flows, option pricing models and market multiples valuation methods. In the rare case where it is not possible to determine the fair value of a financial instrument, it is accounted for at cost. The effect of changing the assumptions for those financial instruments for which the fair values are measured using valuation techniques that are determined in full or in part on assumptions that are not supported by observable inputs may have a material adverse effect on BGL's earnings.

The preparation of financial statements in conformity with IFRS requires the use of certain accounting estimates and assumptions. It also requires management to exercise its judgment in the process of applying these accounting policies. Actual results may differ from those estimates and judgmental decisions.

Financial institutions may use different accounting categorizations for the same or similar financial assets due to their different intentions regarding those assets. In determining fair value of financial instruments, different financial institutions may use different valuation techniques, assumptions, judgments and estimates which may result in lower or higher fair values for such financial instruments.

## **RISK FACTORS RELATING TO SECURITIES**

### **1. General**

The Securities involve a high degree of risk, which may include (in addition to the risks relating to the Issuers (including the default risk) and Guarantor's ability to fulfil their obligations under the Securities to investors) price risks associated with the Underlying Reference (as defined below), among others, interest rate, foreign exchange, inflation, correlation, time value and political risks. Prospective purchasers of Securities should recognise that their Securities may expire worthless or be redeemed for no value. Purchasers should be prepared to sustain a total loss of the purchase price of their Securities. See "*Certain Factors Affecting the Value and Trading Price of Securities*" below. Prospective purchasers of Securities should be experienced with respect to options and option transactions, should understand the risks of transactions involving the relevant Securities and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Securities in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Securities and the particular underlying index (or basket of indices), share, GDR or ADR (or basket of shares, GDRs and/or ADRs), interests in exchange traded funds, exchange traded notes, exchange traded commodities or other exchange traded products (each an "**exchange traded instrument**") (or basket of interests in exchange traded instruments), debt futures or debt options contract (or basket of debt futures or debt options contracts), debt instrument (or basket of debt instruments), commodity or commodity index (or basket of commodities and/or commodity indices), inflation

index (or basket of inflation indices), currency (or basket of currencies), fund share or unit (or basket of fund shares or units), futures contracts (or basket of futures contracts), preference share or other basis of reference to which the value of the relevant Securities may relate, as specified in the applicable Final Terms (such reference being the "**Underlying Reference**"). Each Issuer may also issue Securities linked to the credit of a specified entity (or entities) (each such entity a "**Reference Entity**" and, where the context admits, each an "**Underlying Reference**").

The exposure to the Underlying Reference in many cases will be achieved by the relevant Issuer entering into hedging arrangements. Potential investors should be aware that under the terms of Underlying Reference linked Securities they are exposed to the performance of these hedging arrangements and the events that may affect these hedging arrangements and consequently the occurrence of any of these events may affect the value of the Securities.

The risk of the loss of some or all of the purchase price of a Security on expiration or redemption means that, in order to recover and realise a return upon his or her investment, a purchaser of a Security must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the Underlying Reference or credit risk of the Reference Entity ("**Entities**") which may be specified in the applicable Final Terms. Assuming all other factors are held constant, the lower the value of a Security and the shorter the remaining term of a Warrant to expiration or a Certificate to redemption, the greater the risk that purchasers of such Securities will lose all or part of their investment. With respect to Notes, Certificates or European Style Warrants, the only means through which a Holder can realise value from the Note, Warrant or Certificate, as the case may be, prior to its Exercise Date, Maturity Date or Redemption Date in relation to such Note, Warrant or Certificate, as the case may be, is to sell it at its then market price in an available secondary market. See "*Possible Illiquidity of the Securities in the Secondary Market*" below.

Fluctuations in the value of the relevant index or basket of indices will affect the value of Index Securities or Inflation Index Securities. Fluctuations in the price of the relevant share, GDR or ADR or value of the basket of shares, GDRs and/or ADRs will affect the value of Share Securities. Fluctuations in the price of the relevant interest in an exchange traded instrument or value of the basket of interests in exchange traded instruments will affect the value of ETI Securities. Fluctuations in the price or yield of the relevant debt instrument or value of the basket of debt instruments will affect the value of Debt Securities. Also, the character of the particular market on which a debt instrument is traded, the absence of last sale information and the limited availability of quotations for such debt instrument may make it difficult for many investors to obtain timely, accurate data for the price or yield of such debt instrument. Fluctuations in the value of the relevant inflation index or basket of inflation indices will affect the value of Inflation Index Securities. Fluctuations in the rates of exchange between the relevant currencies will affect the value of Currency Securities. Fluctuations in the value of the relevant commodity or commodity index or basket of commodities and/or commodity indices will affect the value of Commodity Securities. Fluctuations in the value of the relevant fund share or unit or basket of fund shares or units will affect the value of the Fund Securities. Fluctuations in the value of the relevant futures contracts or basket of futures contracts will affect the value of the Futures Securities. Fluctuations in the creditworthiness of the relevant Reference Entity or Reference Entities will affect the value of the Credit Securities. Fluctuations in the value of the relevant preference share will affect the value of Preference Share Certificates. In the case of Hybrid Securities the Underlying Reference in respect of which is any combination of such indices, shares, GDRs, ADRs, interests in exchange traded instruments, debt instruments, futures or options contracts, currencies, commodities, inflation indices, fund shares, futures contracts, underlying interest rate or any other asset class or type, fluctuations in the value of any one or more of such Underlying References will correspondingly affect the value of Hybrid Securities. Purchasers of Securities risk losing their entire investment if the value of the relevant Underlying Reference does not move in the anticipated direction.

Each Issuer may issue several issues of Securities relating to various Underlying References. However, no assurance can be given that the relevant Issuer will issue any Securities other than the Securities to which a particular Final Terms relates. At any given time, the number of Securities outstanding may be substantial. Securities provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the underlying investment. In general, certain of the risks associated with Warrants are similar to those generally applicable to other options or warrants of private corporate issuers. Securities on shares, interests in exchange traded instruments, debt instruments or fund shares or units are priced primarily on the basis of the value of underlying securities whilst Securities on currencies and commodities are priced primarily on the basis of present and expected values of the reference currency (or basket of currencies) or commodity (or basket of commodities) specified in the applicable Final Terms.

#### *Claims Against the Underlying Reference*

The Securities do not represent a claim against any Underlying Reference (or any issuer, sponsor, manager or other connected person in respect of an Underlying Reference) and Holders will not have any right of recourse under the Securities to any such Underlying Reference (or any issuer, sponsor, manager or other connected person in respect of an Underlying Reference). The Securities are not in any way sponsored, endorsed or promoted by any issuer, sponsor, manager or other connected person in respect of an Underlying Reference and such entities have no obligation to take into account the consequences of their actions on any Holders.

#### *Securities (other than Secured Securities) are Unsecured Obligations*

The following risk factor applies to Securities other than Secured Securities:

The Securities are unsubordinated and unsecured obligations of the relevant Issuer and will rank *pari passu* with themselves. Each issue of Securities issued by BNPP B.V. will be guaranteed by BNPP pursuant to the BNPP Note Guarantee or the BNPP English Law W&C Guarantee, in the case of English Law Securities, or the BNPP French Law W&C Guarantee, in the case of French Law Securities. The obligations of BNPP under the BNPP Guarantees are unsubordinated and unsecured obligations of BNPP and will rank *pari passu* with all its other present and future unsubordinated and unsecured obligations, subject as may from time to time be mandatory under French law. Each issue of Securities issued by BP2F will be guaranteed by BNPPF pursuant to the BNPPF Note Guarantee or the BNPPF W&C Securities Guarantee, as applicable. The obligations of BNPPF under the BNPPF Guarantees are unsubordinated and unsecured obligations of BNPPF and will rank *pari passu* with all its other present and future unsubordinated and unsecured obligations, subject as may from time to time be mandatory under Belgian Law.

Risk factors relating to the security, the collateral and the nature of the guarantee in respect of Secured Securities are set out in paragraph 4 below.

#### *Certain Factors Affecting the Value and Trading Price of Securities*

The trading price of the Securities is affected by a number of factors including, but not limited to, the price or level of the relevant Underlying Reference or Underlying References, the time to expiration or redemption of the Securities and the actual or implied volatility and the correlation risk of the relevant Underlying Reference or Underlying References. Such factors may mean that the trading price of the Securities is below the Cash Settlement Amount or the value of the Entitlement, as applicable.

Before exercising (in the case of Warrants) or selling Securities, Holders should carefully consider, among other things, (a) the trading price of the Securities, (b) the value and volatility of the Underlying Reference as specified in the applicable Final Terms, (c) the time remaining to expiration or redemption, as the case may be, (d) in the case of Cash Settled Warrants or Cash Settled Certificates, the probable range of Cash Settlement Amounts, (e) any change(s) in interim interest rates and dividend yields, if applicable, (f) any change(s) in

currency exchange rates, (g) the depth of the market or liquidity of the Underlying Reference as specified in the applicable Final Terms and (h) any related transaction costs.

*A Security's purchase price may not reflect its inherent value*

Prospective investors in the Securities should be aware that the purchase price of a Security does not necessarily reflect its inherent value. Any difference between a Security's purchase price and its inherent value may be due to a number of different factors including, without limitation, prevailing market conditions and fees, discounts or commissions paid or accorded to the various parties involved in structuring and/or distributing the Security. For further information prospective investors should refer to the party from whom they are purchasing the Securities. Prospective investors may also wish to seek an independent valuation of Securities prior to their purchase.

*Meetings of Holders*

The Terms and Conditions of the Securities contain provisions for calling meetings of Holders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Holders including Holders who did not attend and vote at the relevant meeting and Holders who voted in a manner contrary to the majority. Only holders of French Law Securities will, in certain circumstances, be grouped for the defense of their common interests in a separate legal entity called "*Masse*" (as defined in "*Condition 9.4(b) Meetings of Holders – French Law Securities*").

*The Final Redemption Amount, Cash Settlement Amount or the physical delivery of the Entitlement may be less than the Value of an Investment in the Securities*

Each Holder may receive a Final Redemption Amount or Cash Settlement Amount, as applicable, and/or physical delivery of the Entitlement the aggregate value of which may be less than the value of the Holder's investment in the relevant Securities. In certain circumstances Holders may lose the entire value of their investment.

*Possible Illiquidity of the Securities in the Secondary Market*

It is very difficult to predict the price at which Securities will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list Securities on a stock exchange. Also, to the extent Securities of a particular issue are exercised or redeemed, the number of Securities of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining Securities of such issue. A decrease in the liquidity of an issue of Securities may cause, in turn, an increase in the volatility associated with the price of such issue of Securities.

Each Issuer and any Manager may, but is not so obliged, at any time purchase Securities at any price in the open market or by tender or private offer/treaty. Any Securities so purchased may be held or resold or surrendered for cancellation as further described herein. A Manager may be a market-maker for an issue of Securities but, unless Buy-back Provisions are specified as applicable in the applicable Final Terms (in which case a Manager will be a market-maker on certain specified terms), it is not obliged to and may cease to do so at any time. Even if a Manager is a market-maker for an issue of Securities (including where BNP Paribas Arbitrage S.N.C. acts as market-maker), the secondary market for such Securities may be limited. In addition, Affiliates of each Issuer (including the relevant Manager as referred to above) may purchase Securities at the time of their initial distribution and from time to time thereafter.

For certain issues of Securities, BNP Paribas Arbitrage S.N.C. is required to act as market-maker. In those circumstances, BNP Paribas Arbitrage S.N.C. will endeavour to maintain a secondary market throughout the life of the Securities, subject to normal market conditions and will submit bid and offer prices to the market.

The spread between bid and offer prices may change during the life of the Securities. However, during certain periods, it may be difficult, impractical or impossible for BNP Paribas Arbitrage S.N.C. to quote bid and offer prices, and during such periods, it may be difficult, impracticable or impossible to buy or sell these Securities. This may, for example, be due to adverse market conditions, volatile prices or large price fluctuations, a large marketplace being closed or restricted or experiencing technical problems such as an IT system failure or network disruption.

There may be no secondary market for the Securities and to the extent that an issue of Securities is or becomes illiquid, an investor may have to exercise or wait until redemption of such Securities, as applicable, to realise greater value than its then trading value. Securities sold in the United States or to U.S. persons may be subject to transfer restrictions.

#### *Minimum Trading Amount*

Investors should note that the Securities may have a minimum trading amount. In such cases, if, following the transfer of any Securities, a Holder holds fewer Securities than the specified minimum trading amount, such Holder will not be permitted to transfer their remaining Securities prior to expiration or redemption, as applicable, without first purchasing enough additional Securities in order to hold the minimum trading amount.

#### *Potential Conflicts of Interest*

Certain entities within the Group or its affiliates (including, if applicable, any Manager) may also engage in trading activities (including hedging activities) relating to the Underlying Reference or Reference Entity and other instruments or derivative products based on or relating to the Underlying Reference or Reference Entity of any Securities for their proprietary accounts or for other accounts under their management. BNPP B.V., BNPP, BP2F, BNPPF, BGL and their Affiliates (including, if applicable, any Manager) may also issue other derivative instruments in respect of the Underlying Reference. BNPP B.V., BNPP, BP2F, BNPPF, BGL and their Affiliates (including, if applicable, any Manager) may also act as underwriter in connection with future offerings of shares or other securities relating to an issue of Securities or may act as financial adviser to certain companies or companies whose shares or other securities are included in a basket or in a commercial banking capacity for such companies. In addition BNPP B.V., BNPP, BP2F, BNPPF, BGL and their Affiliates (including, if applicable, any Manager) may act in a number of different capacities in relation to an underlying index, including, but not limited to, issuer of the constituents of the index, index sponsor or calculation agent. In respect of ETI Securities and Fund Securities, the relevant Issuer or one or more of its Affiliates may from time to time engage in business with the relevant ETI or Fund, as the case may be, or companies in which an ETI or Fund, as the case may be, invests, including among other things, extending loans to, or making investments in, or providing advisory services to them, including merger and acquisition advisory services, engaging in activities that may include prime brokerage business, financing transactions or entry into derivative transactions. The ETI or Fund (each as defined below), as applicable, may pay a portion of its fees to the relevant Issuer or any of its Affiliates for the provision of such services. In the course of this business, the relevant Issuer, the Guarantor (if any), the Calculation Agent and any of their respective Affiliates may acquire non-public information about an ETI or a Fund, as applicable, or any companies, funds or reference assets in which an ETI or a Fund invests and the relevant Issuer, the Guarantor (if any), the Calculation Agent or any of their respective Affiliates may publish research reports about them. This research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding ETI Securities or Fund Securities, as applicable. Such activities could present certain conflicts of interest, could influence the prices of such shares, Fund Shares, ETI Interests or other securities and could adversely affect the value of such Securities.

Because the Calculation Agent (as defined below) may be an Affiliate of the relevant Issuer or, if applicable, the Guarantor, potential conflicts of interest may exist between the Calculation Agent and holders of the

Securities, including with respect to certain determinations and judgments that the Calculation Agent must make, including whether a Market Disruption Event, a Settlement Disruption Event or Credit Event (each, as defined in the Conditions) has occurred. The Calculation Agent is obligated to carry out its duties and functions as Calculation Agent in good faith and using its reasonable judgment however, subject to always acting only within the parameters allowed by the terms and conditions of the Securities, it has no responsibility to take investors' interests into account.

#### *Certain Considerations Regarding Purchasing Securities as Hedges*

Prospective purchasers intending to purchase Securities to hedge against the market risk associated with investing in the Underlying Reference which may be specified in the applicable Final Terms should recognise the complexities of utilising Securities in this manner. For example, the value of the Securities may not exactly correlate with the value of the Underlying Reference which may be specified in the applicable Final Terms. Due to fluctuating supply and demand for the Securities, there is no assurance that their value will correlate with movements of the Underlying Reference which may be specified in the applicable Final Terms. For these reasons, among others, it may not be possible to purchase or liquidate securities in a portfolio at the prices used to calculate the value of any relevant Underlying Reference. In addition, in certain cases, the ability of Holders to use Securities for hedging may be restricted by the provisions of the Securities Act.

#### *Risk of Leveraged Exposure*

Leverage involves the use of a number of financial techniques to increase the exposure to an Underlying Reference, and can therefore magnify both returns and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the Underlying Reference moves in the anticipated direction, it will conversely magnify losses when the Underlying Reference moves against expectations. If the relevant Securities include leverage (such as OET Certificates), potential holders of such Securities should note that these Securities will involve a higher level of risk, and that whenever there are losses such losses may be higher than those of a similar security which is not leveraged. Investors should therefore only invest in leveraged Securities if they fully understand the effects of leverage.

#### *Bull and Bear W&C Securities*

Bull Certificates, Bear Certificates, Bull Warrants and Bear Warrants (together, the "**Bull and Bear W&C Securities**") are designed for short-term trading and are not intended for buy-to-hold investing. The percentage change in value (the "**Performance**") of the W&C Securities over one day will be the Daily Leverage which is a constant factor for each W&C Security multiplied by the Performance of the relevant Underlying Reference over that same day adjusted by the applicable Financing Rate (which includes a Fee and may be positive or negative depending on, amongst other things, prevailing interest rates and the income generated or cost incurred from the leverage). Bull W&C Securities have a positive leveraged performance and aim to produce a positive Performance equal to four times the positive Performance of the relevant Underlying Reference whereas Bear W&C Securities have an inverse leveraged performance and aim to produce a positive Performance equal to the Daily Leverage times the negative Performance of the relevant Underlying Reference. However, because the Performance of the Certificates over any period longer than one day will be derived from the compounded daily Performance of the relevant Underlying Reference during that period, such Certificate's Performance may differ significantly to the overall Performance of the Underlying Reference over that same period. Accordingly, compared to a security that measures change in value of the Underlying Reference between two dates, Bull and Bear W&C Securities may have significantly different outcomes depending on the number and direction of changes in the daily value of the Underlying Reference over such period and the order in which such changes occur. The potential for divergence between the Performance of the Bull and Bear W&C Securities and the Performance of the Underlying Reference over the same period of time will increase as such period becomes longer and will be most marked in periods when the

value of the Underlying Reference is volatile. Consequently, Bull or Bear W&C Securities are only suitable for intra-day trading or very short investment periods.

#### *Credit Ratings may not Reflect all Risks*

One or more independent credit rating agencies may assign credit ratings to the Issuer, the Guarantor (if any) or the Securities. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (as amended) (the "**CRA Regulation**") from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended, subject to transactional provisions that apply in certain circumstances whilst the registration application is pending). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

#### *Effect of Credit Rating Reduction*

The value of the Securities is expected to be affected, in part, by investors' general appraisal of the creditworthiness of the relevant Issuer and, if applicable, the Guarantor. Such perceptions are generally influenced by the ratings accorded to the outstanding securities of BNPP B.V., BNPP, BP2F, BNPPF or BGL by standard statistical rating services, such as Standard & Poor's Credit Market Services France SAS, Fitch France S.A.S., Moody's France SAS, Moody's Investors Service Ltd., and Fitch Ratings Ltd.. A reduction in the rating, if any, accorded to outstanding debt securities of BNPP B.V., BNPP, BP2F, BNPPF or BGL by one of these rating agencies could result in a reduction in the trading value of the Securities.

#### *Taxation*

Potential purchasers and sellers of Securities should be aware that they may be required to pay stamp and other taxes or documentary charges in accordance with the laws and practices of the country where the Securities are transferred and/or any asset(s) are delivered.

#### *Withholding under the EU Savings Directive*

Under Council Directive 2003/48/EC on the taxation of savings income (the "**Savings Directive**"), Member States are required to provide to the tax authorities of other Member States details of certain payments of interest or similar income paid or secured by a person established in a Member State to or for the benefit of an individual resident in another Member State or certain limited types of entities established in another Member State.

For a transitional period, Austria is required (unless during that period it elects otherwise) to operate a withholding system in relation to such payments. The end of the transitional period is dependent upon the

conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

On 24 March 2014, the Council of the European Union adopted a Council Directive (the "**Amending Directive**") amending and broadening the scope of the requirements described above. The Amending Directive requires Member States to apply these new requirements from 1 January 2017 and if they were to take effect, the changes would expand the range of payments covered by the Savings Directive, in particular to include additional types of income payable on securities. They would also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported or subject to withholding. This approach would apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

However, the European Commission has proposed the repeal of the Savings Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The proposal also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Directive.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor the Guarantor nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Security as a result of the imposition of such withholding tax. In the case of Notes, each Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

#### *EU financial transaction tax*

On 14 February 2013, the European Commission issued proposals, including a draft Directive (the **Commission's proposal**), for a financial transaction tax ("**FTT**") to be adopted in certain participating EU member states (including Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia). If the Commission's proposal was adopted, the FTT would be a tax primarily on "financial institutions" (which could include the Issuer) in relation to "financial transactions" (which would include the conclusion or modification of derivative contracts and the purchase and sale of financial instruments).

Under the Commission's proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating member states. Generally, it would apply where at least one party is a financial institution, and at least one party is established in a participating member state. A financial institution may be, or be deemed to be, "established" in a participating member state in a broad range of circumstances, including (a) by transacting with a person established in a participating member state or (b) where the financial instrument which is subject to the financial transaction is issued in a participating member state.

The FTT may give rise to tax liabilities for the relevant Issuer with respect to certain transactions if it is adopted based on the Commission's proposal. Examples of such transactions are the conclusion of a derivative contract in the context of the relevant Issuer's hedging arrangements or the purchase or sale of securities (such as charged assets) or the exercise/settlement of a warrant. The relevant Issuer is, in certain circumstances, able to pass on any such tax liabilities to holders of the Securities and therefore this may result in investors receiving less than expected in respect of the Securities. It should also be noted that the FTT could be payable

in relation to relevant transactions by investors in respect of the Securities (including secondary market transactions) if conditions for a charge to arise are satisfied and the FTT is adopted based on the Commission's proposal. Primary market transactions referred to in Article 5(c) of Regulation EC No 1287/2006 are expected to be exempt. There is however some uncertainty in relation to the intended scope of this exemption for certain money market instruments and structured issues.

Joint statements issued by participating member states indicate an intention to implement the FTT by 1 January 2016.

However, the FTT proposal remains subject to negotiation between the participating member states and the scope of any such tax is uncertain. Additional EU member states may decide to participate. Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

*Hiring Incentives to Restore Employment Act withholding may affect payments on the Securities*

The U.S. Hiring Incentives to Restore Employment Act (the "**HIRE Act**") imposes a 30% withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met. While significant aspects of the application of the relevant provisions of the HIRE Act to the Securities are uncertain, if an Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section "*Taxation – Hiring Incentives to Restore Employment Act.*"

*Foreign Account Tax Compliance withholding may affect payments on the Securities*

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (or "**FATCA**") impose a new reporting regime and, potentially, a 30% withholding tax with respect to (i) certain payments from sources within the United States, (ii) "foreign passthru payments" made to certain non-U.S. financial institutions that do not comply with this new reporting regime, and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution.

While the Securities are in global form and held within Euroclear Bank S.A/N.V. and Clearstream Banking, *société anonyme* (the "**ICSDs**"), in all but the most remote circumstances, it is not expected that the new reporting regime and potential withholding tax imposed by FATCA will affect the amount of any payment received by the ICSDs. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. An Issuer's obligations under the Securities are discharged once it has made payment to, or to the order of, the common depositary or common safekeeper for the ICSDs (as registered holder of the Securities) and an Issuer has therefore no responsibility for any amount thereafter transmitted through the ICSDs and custodians or intermediaries. Further, foreign financial institutions in a jurisdiction which has entered into an intergovernmental agreement with the United States (an "**IGA**") are generally not expected to be required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments they make. Prospective investors should refer to the section "*Taxation – Foreign Account Tax Compliance Act.*"

### *EU Resolution and Recovery Directive*

On 2 July 2014, Directive 2014/59/EU providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (the "**Bank Recovery and Resolution Directive**" or "**BRRD**") entered into force. The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

The BRRD provides that it will be applied by Member States from 1 January 2015, except for the general bail-in tool which is to be applied from 1 January 2016.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures or supervisory action would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business – which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution – which enables resolution authorities to transfer all or part of the shares, assets or liabilities of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation – which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in – which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured claims including Securities to equity (the "**general bail-in tool**"), which equity could also be subject to any future application of the general bail-in tool.

The BRRD also provides for a Member State as a last resort, after having assessed and exploited the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. Once the BRRD is implemented, holders of Securities may be subject to write-down or conversion into equity on any application of the general bail-in tool, which may result in such holders losing some or all of their investment. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of holders of Securities, the price or value of their investment in any Securities and/or the ability of the relevant Issuer and/or the Guarantor to satisfy its obligations under any Securities and/or the Guarantee.

In the case of Securities issued by BNPP B.V. and BP2F, the exercise of any power under the BRRD in respect of BNPP or BNPPF respectively as Guarantor could materially adversely affect the ability of BNPP B.V. and BP2F (as the case may be) as Issuer to satisfy its obligations under any Securities, which in turn may have a material adverse effect on the rights of holders of Securities and the price or value of their investment in any Securities.

### *Implementation of BRRD in France*

The French law dated 26 July 2013 on separation and regulation of banking activities (*loi de séparation et de régulation des activités bancaires*) (the "**SRAB Law**") that anticipated the implementation of the BRRD (as defined below) has established, among other things, a resolution regime applicable to French credit institutions and investment firms that gives resolution powers to a new resolution board of the French Prudential Supervisory Authority, renamed the *Autorité de contrôle prudentiel et de résolution* ("**ACPR**"). The SRAB Law provides that the French resolution board may, at its discretion, when the point of non-viability is reached, take resolution measures such as the transfer of shares or assets to an acquirer or a bridge bank. It may also cancel or reduce share capital, and subsequently if necessary write down, cancel or convert to equity deeply subordinated notes, *titres participatifs* and any other low ranking subordinated notes whose terms provide that they absorb losses on a going concern basis and thereafter do the same with other subordinated instruments.

On 15 May 2014, the Council of the European Union adopted the BRRD. The BRRD will now have to be implemented in France and in this regard French law no. 2014-1662 dated 30 December 2014 entitled "*Loi portant diverses dispositions d'adaptation au droit de l'Union européenne en matière économique et financière*" has granted to the French Government the right to implement the BRRD by ordinance by 31 August 2015.

The SRAB Law has already entered into force in France, the provisions of the SRAB Law will however need to be amended to reflect the final version of the BRRD. The amendments which will be made to reflect the BRRD in the future remain unknown at this stage.

The powers set out in the BRRD and, to a certain extent, the powers already set out in the SRAB Law, will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

When the debt bail-in tool and the statutory write-down and conversion power will become applicable to the relevant Issuer or the Guarantor, the Securities may be subject to write-down or conversion into equity on any application of the bail-in tool, which may result in such holders losing some or all of their investment. The exercise of any power under the BRRD and the SRAB Law or any suggestion of such exercise could materially adversely affect the rights of Noteholders, the price or value of their investment in any Securities and/or the ability of the relevant Issuer or the Guarantor to satisfy its obligations under any Securities.

Regulation (EU) no. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund has established a centralised power of resolution and entrusted to a Single Resolution Board and to the national resolution authorities. Starting on 1 January 2015, the Single Resolution Board works in close cooperation with the ACPR, in particular in relation to the elaboration of resolution planning, and will assume full resolution powers, on 1 January 2016 provided that the conditions for the transfer of contributions to the Single Resolution Fund are met by that date.

### *Implementation of BRRD in Belgium*

The new Belgian Law of 25 April 2014 on the status and supervision of credit institutions (the "**Belgian Banking Law**") includes a number of measures transposing the BRRD. It grants the power to the supervisor to impose certain recovery measures, including the power to impose in certain circumstances a suspension of activities. Any suspension of activities can, to the extent determined by the competent supervisor, result in the partial or complete suspension of the performance of agreements entered into by the relevant financial institution. The new Belgian Banking Law also grants the power to a resolution authority to take a number of resolution measures, including (i) a forced sale of the credit institution, (ii) the establishment of a bridge bank

or (iii) the forced transfer of all or part of the assets, rights or obligations of the credit institution. Regarding the bail-in tool provided in the BRRD, a Belgian Royal Decree is expected by the end of 2015 to organize this resolution tool in Belgium. These measures may have an impact on the performance by BNPPF of its obligations under the Notes and execution of the transaction documents to which BNPPF is a party.

The specific resolution rules set aside the traditional bankruptcy rules allowing the avoidance of transactions entered into during the so called "suspect period" (i.e. claw back); these rules do not apply to the acts of disposal adopted in the context of resolution measures.

Moreover, the Belgian Royal Decree dated 22 February 2015 creates two new preferential rights on a bank's movables for depositors and for the guarantee fund.

#### *Implementation of BRRD in The Netherlands*

The BRRD was adopted by the European Council on 6 May 2014. Member States should have implemented the BRRD by 1 January 2015 (except for the bail-in tool which may be implemented by 1 January 2016). On 21 November 2014, a draft legislative proposal to amend, amongst other things, the Dutch Financial Supervision Act (*Wet op het financieel toezicht*) ("**Wft**"), was published for consultation, which purports to implement the BRRD and EU Single Resolution Mechanism ("**SRM**"). It is, however, at this stage unclear how the BRRD will be implemented in the Netherlands and it remains to be seen if and to what extent the implementation of the BRRD in the Netherlands will set aside the current provisions of the Wft. The Dutch legislator thus did not achieve implementation and entry into force of the legislation by 1 January 2015 as required by the BRRD. The legislator's actual target date for implementation is not yet known, but it is expected that the implementation will occur at the end of 2015.

#### *Implementation of BRRD in Luxembourg*

A bill implementing BRRD is currently being drafted and should be submitted to the Luxembourg parliament (*Chambre des députés*) in the coming months. To date, the two competent Luxembourg authorities – the Luxembourg central bank, the *Banque centrale du Luxembourg* (the **BcL**), and the supervisory authority of the financial sector, the *Commission de surveillance du secteur financier* (the **CSSF**) – have not issued guidance notes or launched a consultation in relation to bail-in under the BRRD.

To date, only the CSSF Circular 15/610 of 7 April 2015 on Ad hoc data collection within the context of the BRRD deals with the drawing up of resolution plans and the calculation of minimum own funds and eligible liabilities. The BRRD requires resolution authorities to draw up resolution plans that outline the actions to be taken in the case that an institution meets the conditions for resolution. The Implementing Technical Standards on procedures, standard forms and templates for the provision of information for the purpose of resolution plans set out a procedure that should be followed when resolution authorities require information about an institution for the purpose of drawing up a resolution plan. CSSF Circular 15/610 seeks to collect information in accordance with those guidelines (as the CSSF does not expect many changes to the guidance further to the consultation process which ended on 14 April 2015) and covers the following two points:

- (1) information for the purpose of establishing resolution plans; and
- (2) information on eligible liabilities for the purposes of calculating the minimum capital requirements and eligible liabilities.

In terms of Luxembourg market practice, issuance processes where a parent bank uses an affiliated special purpose vehicle (such as BP2F) to issue notes which the parent bank then guarantees are not uncommon. At this stage, it is unclear how the competent Luxembourg authorities will consider such notes for bail-in purposes within the meaning of the BRRD.

### *French Insolvency Law*

Under French insolvency law holders of debt securities are automatically grouped into a single assembly of holders (the "**Assembly**") in order to defend their common interests if a safeguard procedure (*procédure de sauvegarde*), accelerated safeguard (*procédure de sauvegarde accélérée*), accelerated financial safeguard procedure (*procédure de sauvegarde financière accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to the Issuer.

The Assembly comprises holders of all debt securities issued by the Issuer (including the Securities), whether or not under a debt issuance programme and regardless of their ranking and their governing law.

The Assembly deliberates on the proposed safeguard plan (*projet de plan de sauvegarde*), is proposed accelerated safeguard (*projet de plan de sauvegarde accélérée*), proposed accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*) or proposed judicial reorganisation plan (*projet de plan de redressement*) applicable to BNPP and may further agree to:

- partially or totally reschedule payments which are due and/or write-off debts and/or convert debts into equity (including with respect to amounts owed under the Securities; and/or
- establish an unequal treatment between holders of debt securities (including the Holders) as appropriate under the circumstances.

Decisions of the Assembly will be taken by a two-thirds majority (calculated as a proportion of the amount of debt securities held by the holders expressing a vote). No quorum is required to hold the Assembly.

For the avoidance of doubt, the provisions relating to the *Masse* and the General Meeting of the Holders set out in the Conditions will not be applicable in these circumstances.

### *Change of Law*

The Conditions of English Law Securities are based on English law in effect as at the date of this Base Prospectus. The Conditions of French Law Securities are based on French law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to an administrative practice or change to English law or French law, as applicable, after the date of this Base Prospectus and any such change could materially adversely impact the value of any Securities affected by it.

### *Termination of Securities in the Event of Illegality or Impracticability*

If the Issuer determines that the performance of its obligations under the Securities has become illegal or impracticable in whole or in part for any reason, the Issuer may cancel, in the case of Warrants, or redeem, in the case of Notes and Certificates, the Securities by paying to each Holder the fair market value of such Securities less, except in the case of Italian Listed Securities, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements provided that, if the Securities are Italian Listed Notes, the amount payable to each Holder shall be the Early Redemption Amount. Such cancellation or redemption may result in an investor not realising a return on an investment in the Securities.

### *Post-issuance Information*

Save as set out in the applicable Final Terms, the relevant Issuer will not provide post-issuance information in relation to the Underlying Reference. In such an event, investors will not be entitled to obtain such information from the relevant Issuer.

*The rate of interest or premium amount rate payable on the Securities or the amount payable or deliverable on redemption or exercise of the Securities may in certain circumstances be changed during the life of the Securities*

If Coupon Switch Election or Automatic Coupon Switch is specified in the applicable Final Terms, the rate of interest or premium amount payable may be switched from one rate or amount to another in the Issuer's sole and absolute discretion (in the case of Coupon Switch Election) or following the occurrence of an Automatic Coupon Switch Event (in the case of an Automatic Coupon Switch). If Payout Switch Election or Automatic Payout Switch is specified in the applicable Final Terms, the amount payable or deliverable on redemption or exercise may be switched from one amount payable or deliverable to another in the Issuer's sole and absolute discretion (in the case of Payout Switch Election) or following the occurrence of an Automatic Payout Switch Event (in the case of an Automatic Payout Switch). As a consequence of the exercise of a Coupon Switch Election or Payout Switch Election or the occurrence of an Automatic Coupon Switch Event or Automatic Payout Switch Event, the Underlying Reference may be changed. As the payout on such Securities may be switched during the life of the Securities investors may receive a return which differs from, and may be significantly less than, that which they expected to receive or they may receive no return.

*Certain specific information may not be known at the beginning of an offer period.*

In certain circumstances at the commencement of an offer period in respect of Securities but prior to the issue date of such Securities certain specific information (specifically the fixed rate of interest, minimum and/or maximum rate of interest payable, the margin applied to the floating rate of interest payable, the Gearing applied to the interest or final payout, the Gearing Up applied to the final payout, (in the case of Autocall Securities, Autocall One Touch Securities or Autocall Standard Securities) the FR Rate component of the final payout (which will be payable if certain conditions are met, as set out in the Payout Conditions), the AER Exit Rate used if an Automatic Early Redemption Event occurs, the Bonus Coupon component of the final payout (in the case of Vanilla Digital Securities), any Constant Percentage (being any of Constant Percentage, Constant Percentage 1, Constant Percentage 2, Constant Percentage 3 or Constant Percentage 4) component of the final payout (which will be payable if certain conditions are met, as set out in the Payout Conditions) and/or the Knock-in Level and/or Knock-out Level used to ascertain whether a Knock-in Event or Knock-out Event, as applicable, has occurred) may not be known. In these circumstances the Final Terms will specify in place of the relevant rate, level or percentage, as applicable, an indicative range of rates, levels or percentages. The actual rate, level or percentage, as applicable, applicable to the Securities will be selected by the Issuer from within the range and will be notified to investors prior to the Issue Date. The actual rate, level or percentage, as applicable, will be determined in accordance with market conditions by the Issuer in good faith and in a commercially reasonable manner.

Prospective purchasers of Securities will be required to make their investment decision based on the indicative range rather than the actual rate, level or percentage, as applicable, which will only be fixed after the investment decision is made but will apply to the Securities once issued.

Where an indicative range is specified in the Final Terms in respect of the Rate of Interest, Minimum Rate of Interest, Maximum Rate of Interest, Margin, FR Rate and/or AER Exit Rate, prospective purchasers of Securities should, for the purposes of evaluating the risks and benefits of an investment in the Securities, assume that the actual Rate of Interest, Minimum Rate of Interest, Maximum Rate of Interest, Margin, FR Rate and/or AER Exit Rate, as applicable, which will apply to the Securities will be the lowest rate specified in the range and make their decision to invest in the Securities on that basis.

Where an indicative range is specified in the Final Terms in respect of Gearing, Gearing Up, Bonus Coupon, any Constant Percentage, Knock-in Level and/or Knock-out Level, prospective purchasers of Securities should be aware that the actual rate, level or percentage, as applicable, selected from within the indicative range

specified for Gearing, Gearing Up, Bonus Coupon, any Constant Percentage, Knock-in Level and/or Knock-out Level, as applicable, in respect of any Securities may have a negative impact on the interest payable and/or final return on the Securities when compared with another rate, level or percentage, as applicable, within the indicative range.

*The Barrier Level, Bonus Level and/or Cap Level may not be known until after the Issue Date.*

In certain circumstances in respect of ETS Payouts, the Barrier Level, Bonus Level and/or Cap Level may not be known at the issue date of the Securities. In these circumstances, the Final Terms will specify that the Barrier Level, Bonus Level and/or Cap Level, as applicable, will be the product of a specified percentage and the Closing Level, Closing Price, Italian Securities Reference Price, Relevant Price or Settlement Price, as applicable, of the Underlying Reference on the Strike Date (rounded upwards or downwards as determined by the Calculation Agent in its sole and absolute discretion). Following the Strike Date, the Issuer will give notice of the actual Barrier Level, Bonus Level and/or Cap Level, as applicable, applicable to the Securities. Prospective investors should review the Final Terms together with the information contained in the notice in order to ascertain the Barrier Level, Bonus Level and/or Cap Level which will apply to the Securities.

*The value of Parity and the Warrant@Work Exercise Price may not be known until after investors have made their decision to invest in the Warrants.*

In respect of Warrant@Work Warrants, the value of Parity and the Warrant@Work Exercise Price will not be known until on or after the date specified in the applicable Final Terms as the Option Hedging Date (which may occur after investors have decided to invest in the Warrants). The Issuer will give notice of the value of Parity and the Warrant@Work Exercise Price as soon as practicable following their determination but investors may be required to make their investment decision without knowing the value of Parity or the Warrant@Work Exercise Price.

## **2. Product Specific Risk Factors**

### *Certain Considerations Associated with Index Securities*

An investment in Index Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Index Securities, Holders will receive an amount (if any) determined by reference to the value of the underlying index/indices. Such underlying index may be a well known and widely published index or an index which may not be widely published or available. The index may reference, *inter alia*, equities, bonds, currency exchange rates, or other securities or it may be a property index referencing certain property price data which will be subject to market price fluctuations, or reference a number of different assets or indices. A property index may include valuations only and not actual transactions and the property data sources used to compile the index may be subject to change, which may adversely affect the return on the Securities. Linked Interest Certificates which are Index Securities pay interest calculated by reference the value of the underlying index/indices.

Index Securities linked to a custom index are linked to a proprietary index which may be sponsored and/or calculated by BNP Paribas or one of its Affiliates. Pursuant to the operational rules of the relevant custom index, the custom index is scheduled to be calculated on a periodic basis (for example on each weekday). In the event that one of the levels, values or prices of a component included in the custom index is not available for any reason on a relevant day of calculation (i.e. either because it is a non-scheduled trading day in respect of that index component or that index component is subject to a market disruption or otherwise), then the Calculation Agent of the custom index may, but is not obliged to, calculate the level of the custom index on that day by taking a value for the affected index component from the first preceding day on which a level for such affected index component was available.

Various legal entities within the Group may undertake the role of Issuer of the Securities, Calculation Agent of the Securities, sponsor of the underlying custom index and Calculation Agent of the underlying custom index. BNP Paribas has policies and procedures to identify, consider and manage potential conflicts of interest which this situation may potentially generate.

For the avoidance of doubt, the relevant Issuer and/or its Affiliates may not be able to trade on and hedge its obligations in respect of the index (including custom indices) under the Securities notwithstanding the calculation or publication of the level of such index. In the event that any relevant date for valuation is a Disrupted Day for such index, that valuation date shall be the first succeeding day that is not a Disrupted Day and on which the Issuer or relevant affiliate is able to trade on and hedge its obligations in respect of such index, subject to a specified maximum days of disruption, as more fully set out in the Conditions. Where this occurs on (i) the Strike Date for valuation, the Calculation Agent will not be able to determine the initial or strike level for the index or (ii) the final date for valuation, the Calculation Agent will not determine the final level for the index until such time as the disruption is no longer subsisting, or the specified maximum days of disruption has elapsed, whichever is sooner. Investors should be aware that any delay to the determination of the final level of the index may result in a delay in the payment of the Cash Settlement Amount, Redemption Amount or Final Redemption Amount, as applicable.

#### *Certain Considerations Associated with Share Securities*

An investment in Share Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Share Securities, Holders will receive an amount (if any) determined by reference to the value of the share(s), GDRs and/or ADRs and/or the physical delivery of a given number of share(s), GDRs and/or ADRs. Accordingly, an investment in Share Securities may bear similar market risks to a direct equity investment and investors should take advice accordingly. Share Linked Interest Notes or Certificates pay interest calculated by reference to the value of the underlying share(s), GDRs and/or ADRs.

In the case of Share Securities, no issuer of the underlying shares will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Securities, and none of the Issuer, the Guarantor (if applicable) or any Manager will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of shares contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the share, GDRs and/or ADRs will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of shares could affect the trading price of the share, GDRs and/or ADRs and therefore the trading price of the Securities.

Except as provided in the Conditions, Holders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares to which such Securities relate.

#### *Certain Considerations Associated with ETI Securities*

An investment in ETI Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of ETI Securities, Holders will receive an amount (if any) determined by reference to the value of the interests in exchange traded instruments or a basket of interests in exchange traded instruments and/or the physical delivery of a given number of interests in exchange traded instruments. Accordingly, an investment in ETI Securities may bear similar market risks to a direct exchange traded instrument investment, and investors should take advice accordingly.

ETI Linked Interest Notes or Certificates pay interest calculated by reference to the value of the interests in exchange traded instruments or the basket of interests in exchange traded instruments.

Whilst interests in exchange traded instruments are traded on an exchange and are therefore valued in a similar manner as a share traded on an exchange, certain provisions related to ETI Securities are similar to the provisions related to funds and Fund Securities.

In the case of ETI Securities, no exchange traded instrument will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Securities, and none of the Issuer, the Guarantor (if applicable) or any Manager will make any investigation or enquiry in connection with such offering with respect to any information concerning any such exchange traded instrument contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the interests in the exchange traded instrument will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an exchange traded instrument could affect the trading price of interests in the exchange traded instruments and therefore the trading price of the Securities. ETI Securities do not provide Holders with any participation rights in the underlying ETI(s) and, except in certain circumstances in the case of Physical Delivery Securities, do not entitle holders of ETI Securities to any ownership interest or rights in such ETI(s).

Except as provided in the Conditions, Holders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant exchange traded instruments to which such Securities relate.

#### *Certain Considerations Associated with Debt Securities*

An investment in Debt Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Debt Securities, Holders will receive an amount (if any) determined by reference to the value of the underlying debt instrument(s) and/or the physical delivery of a given number of debt instrument(s). Accordingly, an investment in Debt Securities may bear similar market risks to a direct debt instrument investment, and investors should take advice accordingly. Debt Linked Interest Notes or Certificates pay interest calculated by reference to the value of the underlying debt instrument(s).

#### *Certain Considerations Associated with Commodity Securities*

An investment in Commodity Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Commodity Securities, Holders will receive an amount (if any) determined by reference to the value of the commodity, commodity index, commodities and/or commodity indices. Accordingly, an investment in Commodity Securities may bear similar market risks to a direct commodity investment, and investors should take advice accordingly. Commodity Linked Interest Notes or Certificates pay interest calculated by reference to the value of the underlying commodity, commodity index, commodities and/or commodity indices.

Where the Securities are linked to a commodity index, such commodity index may be a well known and widely available commodity index (such as the S&P GSCI®) or a commodity index which may be less well known (such as a commodity index composed by the relevant Issuer) in which case information (including past performance) may be less readily available. The commodity index may be comprised of futures contracts, mono-indices, or other commodity indices, which may be proprietary. Commodity Securities may be linked to a commodity index which may be sponsored and/or calculated by BNP Paribas or one of its Affiliates.

Pursuant to the operational rules of the relevant commodity index, the commodity index is scheduled to be calculated on a periodic basis (for example on each weekday). In the event that one of the levels, values or prices of a component included in the commodity index is not available for any reason on a relevant day of calculation including, without limitation, (a) where it is not a business day in respect of that commodity index component or (b) that commodity index component is subject to a market disruption event, then the calculation agent of the commodity index may, but is not obliged to, calculate the level of the commodity index for the relevant day by taking a value for the affected index component on the first day following the end of a specified maximum days of disruption based on the price at which it is able to sell or otherwise realise any hedge position. Such an occurrence may potentially result in a delay in the publication of the commodity index and the level of the commodity index may be affected.

The relevant Issuer and/or its Affiliates may not be able to hedge its obligations in respect of the commodity index under the Securities notwithstanding the calculation and publication of the level of the commodity index. In the event that a Market Disruption Event is occurring on any relevant date for valuation, that valuation date will be postponed until the first succeeding day that is not a Commodity Disrupted Day, subject to a specified maximum days of disruption, as more fully set out in the Conditions. Where this occurs on (i) the Initial Pricing Date or Strike Date for valuation, the Calculation Agent will be unable to determine the initial or strike level for the commodity index and (ii) on the final date for valuation, the Calculation Agent will be unable to determine the final level for the commodity index, until either the Market Disruption Event has ceased or the specified maximum days of disruption have elapsed, whichever is sooner. Investors should be aware that any delay to the determination of the final level of the commodity index may result in a delay in the payment of the Cash Settlement Amount, Redemption Amount or Final Redemption Amount, as applicable.

*Certain Additional Considerations Associated with Commodity Securities valued by reference to Futures Contracts or Debt Securities or Index Securities where Futures Price Valuation is specified as applicable*

Financial futures contracts are standardised futures transactions that are linked to financial instruments (e.g. stocks, bonds, indices, interest rates and foreign currencies). Commodity futures contracts are standardised futures transactions that are linked to commodities (e.g. mineral commodities, agricultural products and precious metals). A futures transaction constitutes the contractual obligation to buy or sell a certain amount or number of the respective underlying at a fixed price and at a predetermined future point in time. Futures contracts are traded on futures exchanges and standardised for this purpose with respect to their contract size, the nature and quality of the underlying as well as delivery places and dates, if any. Generally, there is a strong correlation between the price development of an underlying financial instrument or commodity (each or "**underlying**") on the spot market and the corresponding futures exchange. However, the price of a futures contract will generally be traded at a premium on, or discount from, the spot price of the underlying. This discrepancy is due to such factors as (i) the need to adjust the spot price due to related expenses (e.g. in the case of commodities, warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the underlying, there can be significant differences in the liquidity of the spot and the futures markets.

Investment in futures contracts involves certain other risks, including potential illiquidity. A holder of a futures position may find that such position becomes illiquid because certain exchanges limit fluctuations in such futures contract prices pursuant to "daily limits". Once the price of a particular futures contract has increased or decreased by an amount equal to the daily limit, contracts can neither be bought nor sold unless holders are willing to trade at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. For example, futures contract prices in various underlyings occasionally exceed the daily limit for several days with little or no trading. Such losses could have an adverse effect on the return of Securities linked to the affected futures contracts. Any illiquidity disruption or force majeure event (such as an act of God, fire, flood, severe weather conditions, act of governmental authority or a labour dispute or shortage) is likely to have an adverse affect on the value of or

trading in the underlying or futures contracts on such underlying and adversely affect the value of the Securities.

Where the Securities are linked to the exchange price of a futures contract, knowledge of the market of the underlying to which the futures contract is linked as well as of the functioning and evaluation factors of futures contracts is necessary to make a valid assessment of the risks associated with the purchase of these Securities.

In the case of Debt Securities or Index Securities where Futures Price Valuation is applicable, the Securities are exposed to a futures or options contract relating to a synthetic debt instrument (in the case of Debt Securities) or an index (in the case of Index Securities) and bear similar market risks to a direct investment in such futures or options contract.

#### *Certain Additional Considerations Associated with Rolling Futures Contract Securities*

Futures contracts have a predetermined expiration date. Holding a futures contract until expiration will result in delivery of the physical underlying or the requirement to make or receive a cash settlement amount. Rolling Futures Contract Securities are valued by reference to futures contracts that have a delivery or expiry month that do not correspond with the term of the Securities. Consequently the futures contracts are "rolled" which means that the futures contract that is nearing expiration (the "**near-dated futures contracts**") is sold before it expires and a futures contract that has an expiration date further in the future (the "**longer-dated futures contracts**") is purchased ("**Rolling**"). In order to maintain an ongoing exposure to such underlyings Rolling of the applicable futures contracts is applied.

An investment in futures contracts where the future is a commodity may increase or decrease through Rolling. Where the price of a near-dated futures contract is greater than the price of the longer-dated futures contract (the underlying is said to be in "**backwardation**"), then Rolling from the former to the latter will result in greater exposure to the longer-dated futures contract. Therefore, any loss or gain on the new positions will be greater than if an investor had synthetically held the same number of underlying contracts as before the Rolling. Conversely, where the price of the near-dated futures contract is lower than the price of the longer-dated futures contract (the underlying is said to be in "**contango**") then Rolling will result in less exposure to the longer-dated futures contract. Therefore, any gain or loss on the new positions will be less than if an investor had synthetically held the same number of underlying contracts as before the Rolling.

Depending on whether the Securities are synthetically "long" or "short" the relevant futures contract, where a futures contract is in contango, this is expected to (though may not) have a negative (in the case of a "long" position) or positive (in the case of a "short" position) effect over time on the value of the Securities. Where a futures contract is in backwardation this is expected to (though may not) have a positive (in the case of a "long" position) or negative (in the case of a "short" position) effect over time on the value of the Securities. Where an underlying contract is in contango, then the price of the longer-dated underlying contract will be expected to (but may not) decrease over time as it nears expiry. In such event, Rolling is expected to have a negative effect (in the case of a "long" position) or positive (in the case of a "short" position) on an investment in the underlying contract. Where an underlying contract is in backwardation, then the price of the longer-dated underlying contract is expected to (but may not) increase over time as it nears expiry. In such event, Rolling is expected to have a positive (in the case of a "long" position) or negative (in the case of a "short" position) effect on an investment in the underlying contract.

If, on any Futures Rollover Date (as defined below), a Market Disruption Event (as defined in Commodity Security Condition 2), a Commodity Index Adjustment Event (as defined in Commodity Security Condition 4) or a Non-Commencement or Discontinuance of the Exchange-traded Contract (as defined in Index Security Condition 9.1 or Debt Security Condition 6), as applicable, occurs and it is impossible or materially impracticable for the Calculation Agent to select a futures contract and/or at such time hedge the relevant Issuer's obligations in respect of the Securities then:

- (i) in the case of an Index Security or Debt Security that is a Rolling Futures Contract Security:
  - (a) in the case of Warrants, the relevant Issuer may cancel the Warrants by giving notice to Holders in accordance with W&C Security Condition 10. If the Warrants are so cancelled, the relevant Issuer will pay an amount to each Holder in respect of each Warrant, or if Units are specified in the applicable Final Terms, each Unit being cancelled at an amount equal to the fair market value of a Warrant or a Unit, as the case may be, taking into account the Non-Commencement or Discontinuance of the Exchange-traded Contract, less, except in the case of Italian Listed Securities, the cost to the relevant Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Security Condition 10; or
  - (b) in the case of Notes and Certificates:
    - (A) unless Delayed Redemption on Occurrence of Index Adjustment Event (in the case of Index Securities) or Delayed Redemption on Non-Commencement or Discontinuance of an Exchange-traded Contract (in the case of Debt Securities) is specified as being applicable in the applicable Final Terms, the relevant Issuer may redeem the Notes or Certificates by giving notice to Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable. If the Securities are so redeemed the relevant Issuer will pay an amount to each Holder in respect of each Security being redeemed at an amount equal to the fair market value of such Security taking into account the Non-Commencement or Discontinuance of the Exchange-traded Contract, less, except in the case of Italian Listed Securities, the cost to the relevant Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, provided that, if the Securities are Italian Listed Notes, the amount payable to each Holder in respect of the Security being redeemed shall be the Early Redemption Amount all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Security Condition 10 or Note Condition 16, as applicable; or
    - (B) if Delayed Redemption on Occurrence of Index Adjustment Event (in the case of Index Securities) or Delayed Redemption on Non-Commencement or Discontinuance of an Exchange-traded Contract (in the case of Debt Securities) is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Security taking into account the Non-Commencement or Discontinuance of the Exchange-traded Contract less, except in the case of Italian Listed Securities, the cost to the relevant Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements provided that if the Securities are Italian Listed Notes, the Calculation Agent shall calculate the Early Redemption Amount (the "**Calculated Contract Adjustment Amount**") as soon as practicable following the occurrence of the Non-Commencement or Discontinuance of the Exchange-traded Contract (the "**Calculated Contract Adjustment Amount Determination Date**") and on the Redemption Date (in the case of Certificates) or the Maturity Date (in the case of Notes) shall redeem each Security at an amount calculated by the Calculation Agent equal to (x) the Calculated Contract Adjustment Amount plus interest accrued from and including the Calculated Contract Adjustment Amount Determination Date to but excluding the Redemption Date (in the case of Certificates) or the Maturity Date (in the case

of Notes) at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Notional Amount (in the case of Certificates) or at its nominal amount (in the case of Notes); or

- (ii) in the case of a Commodity Security that is a Rolling Futures Contract Security, the relevant Issuer may take such actions as described in Commodity Security Condition 3 (Consequences of a Market Disruption Event and Disruption Fallbacks) and Commodity Security Condition 4 (Adjustments to a Commodity Index), as applicable (see "*Market Disruption Events relating to Commodity Securities*" and "*Adjustment Events relating to Commodity Index Securities*" below).

Rollover ("**Rollover**") will be effected on the relevant day specified in the applicable Final Terms or the date selected by the Calculation Agent in its sole and absolute discretion within the Futures Rollover Period specified in the applicable Final Terms (the "**Futures Rollover Date**") within a certain time frame shortly before the expiration date of the current futures contract. Consequently on any Futures Rollover Date, the relevant Issuer will liquidate its positions assumed through the corresponding hedging arrangements in relation to the existing futures contract whose expiration is imminent and will assume corresponding positions in relation to a new futures contract having identical terms but with a different maturity selected by it acting in good faith and in a commercially reasonable manner.

At each Rollover there may be expenses incurred in replacing the futures contract which may have an adverse effect on the return on the Securities.

Prospective purchasers should be aware that in respect of Rolling Futures Contract Securities, the price difference between the futures involved in each Rollover may have a negative effect on the value of the securities and in the long term be higher than the positive performance of the underlying and result in a total loss of the investment in the Securities. Rolling Futures Contract Securities may not be suitable for investors who intend to invest medium to long term.

#### *Certain Considerations Associated with Inflation Index Securities*

An investment in Inflation Index Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Inflation Index Securities, Holders will receive an amount (if any) determined by reference to the value of the underlying inflation index/indices. Inflation Index Linked Interest Notes or Certificates pay interest calculated by reference to the value of the underlying inflation index/indices.

#### *Certain Considerations Associated with Currency Securities*

An investment in Currency Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Currency Securities, Holders will receive an amount (if any) determined by reference to the value of the currency/currencies and/or the physical delivery of a given amount of a currency or currencies. Accordingly, an investment in Currency Securities may bear similar market risks to a direct currency investment, and investors should take advice accordingly. Currency Linked Interest Notes or Certificates pay interest calculated by reference to the value of the underlying currency/currencies.

Fluctuations in exchange rates of the relevant currency (or basket of currencies) will affect the value of Currency Securities. Furthermore, investors who intend to convert gains or losses from the exercise, redemption or sale of Currency Securities into their home currency may be affected by fluctuations in exchange rates between their home currency and the relevant currency (or basket of currencies). Currency values may be affected by complex political and economic factors, including governmental action to fix or

support the value of a currency (or basket of currencies), regardless of other market forces. Purchasers of Currency Securities risk losing their entire investment if exchange rates of the relevant currency (or basket of currencies) do not move in the anticipated direction.

If additional warrants, securities or options relating to particular currencies or particular currency indices are subsequently issued, the supply of warrants and options relating to such currencies or currency indices, as applicable, in the market will increase, which could cause the price at which the Securities and such other warrants, securities and options trade in the secondary market to decline significantly.

#### *Certain Considerations Associated with Fund Securities*

An investment in Fund Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Fund Securities, Holders will receive an amount (if any) determined by reference to the value of the fund shares and/or the physical delivery of a given number of fund shares or units. Accordingly, an investment in Fund Securities may bear similar market risks to a direct fund investment, and investors should take advice accordingly. Fund Linked Interest Notes or Certificates pay interest or premium amount (as the case may be) calculated by reference to the value of the underlying fund shares or units. The price of units or shares in a fund may be affected by the performance of the fund service providers, and in particular the investment adviser.

No Fund Service Provider will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Fund Securities, and none of the Issuer, the Guarantor (if applicable) or any Manager will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of fund shares or units contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in this paragraph or in any relevant Final Terms) that would affect the trading price of the fund shares or units will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of fund shares or units could affect the trading price of the fund shares or units and therefore the trading price of the Securities. Fund Securities do not provide Holders with any participation rights in the underlying Fund(s) and except in certain circumstances in the case of Physical Delivery Securities, do not entitle holders of Fund Securities to any ownership interest or rights in such Fund(s).

Except as provided in the Conditions, Holders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant fund shares or units to which such Securities relate.

#### *Certain Considerations Associated with Futures Securities*

An investment in Futures Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Futures Securities, Holders will receive an amount (if any) determined by reference to the value of the futures contract or basket of futures contracts. Accordingly, an investment in Futures Securities may bear similar market risks to a direct futures contract investment, and investors should take advice accordingly. Futures Linked Interest Notes or Certificates pay interest calculated by reference to the value of the underlying futures contract or basket of futures contracts.

#### *Additional Risk Factors for Credit Securities*

The Issuers may issue Notes, Certificates or Warrants where the amount payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more Reference Entities and, if so, on the

value of certain specified assets of such Reference Entity/Entities or (in the case of Notes and Certificates only) where, if such events have occurred, such Issuer's obligation is to deliver certain specified assets.

The price of such Securities may be volatile and will be affected by, amongst other things, the time remaining to the maturity date, redemption date or expiration date and the creditworthiness of the Reference Entities, which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

Where the Securities provide for physical delivery, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any Affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such Affiliate to hedge such Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and, as a result, the amount payable on redemption. Prospective purchasers should review the Conditions and the applicable Final Terms to ascertain whether and how such provisions should apply to the Securities.

The relevant Issuer's obligations in respect of Credit Securities are irrespective of the existence or amount of the relevant Issuer's and/or any Affiliates' credit exposure to a Reference Entity, and the relevant Issuer and/or any Affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

#### *Holders are exposed to risk on Reference Entities*

The holders of Credit Securities will be exposed to the credit risk of one or more Reference Entities, which exposure shall be to the full extent of their investment in such Credit Securities. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Holders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Credit Security is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. Holders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

Where Cash Settlement or Auction Settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Notes or Certificates in a reduced redemption amount or at zero, and, (if applicable) in a reduction of the amount on which interest is calculated. Where Physical Settlement applies, the occurrence of a Credit Event may result in the redemption of the Notes or Certificates based on the valuation (or by delivery) of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their par amount.

The holders of Warrants are exposed to the risk that an Event Determination Date does not occur during the term of the Warrants, in which case, the Warrants may expire without payment.

Investors in the Securities are accordingly exposed, as to the redemption amount, their initial investment and interest (if applicable), to the credit risk of the Reference Entity. The maximum loss to an investor in the Securities is 100 per cent. of their initial investment, together with (if applicable) any interest amounts.

*A Credit Event may occur prior to the Trade Date*

Holders of Credit Notes or Certificates may suffer a loss of some or all of the redemption amount of the Notes or Certificates in respect of one or more Credit Events that occur prior to the Trade Date or the Issue Date, if the Credit Event Backstop Date is specified as a date falling prior to such date. Accordingly, the Holder of Credit Notes or Certificates will be exposed to the risk of the occurrence of any Credit Event after the applicable Credit Event Backstop Date even if it occurs prior to the Issue Date, which may be several weeks after the Trade Date. If the Reference Entity suffers a Credit Event prior to the Issue Date (or if the Credit Event Backstop Date is specified as a date falling on or after the Issue Date, on or after such date), and a Credit Event Notice, and a Notice of Publicly Available Information (if applicable) are properly delivered, which may occur on or shortly after the Issue Date of the Notes or Certificates, such Notes or Certificates will be subject to exercise, at or shortly after the Issue Date. No interest will accrue on such Notes or Certificates. Neither the Calculation Agent or the relevant Issuer nor any of their respective Affiliates has any responsibility to inform any Holder, or avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date or the Issue Date.

*Increased credit risks associated with Nth-to-Default Credit Notes or Certificates*

Where the Notes or Certificates are Nth-to-Default Credit Notes or Certificates, the Notes or Certificates will be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to the nth Reference Entity. The credit risk to Holders may therefore be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

*Credit risk may be increased where Reference Entities are concentrated in a particular Sector or region*

Where the Notes or Certificates are Nth-to-Default Credit Notes or Certificates or Linear Basket Credit Notes or Certificates, the credit risk to investors in the Notes or Certificates may be increased, amongst other things, as a result of the concentration of Reference Entities in a particular industry sector or geographic area, or the exposure of the Reference Entities to similar financial or other risks as other Reference Entities.

*Increased risks associated with Tranching Credit Securities*

Tranching Credit Securities create leveraged exposure to the credit risk of the Reference Entities as the implicit portfolio size or size of the aggregate notional amount of the Reference Portfolio is significantly larger than the aggregate nominal or notional amount of the Credit Securities. Investors can lose a significant part or all of their investment even if a Credit Event occurs in respect of only one or a few of the Reference Entities comprising the Reference Portfolio. The value of the Tranching Credit Securities may be more volatile and credit losses in respect of the Tranching Credit Securities may be greater than would be the case in the absence of such leverage. The value of the Tranching Credit Securities may also be adversely affected by changes in the relative value of different tranches of credit risk on the Reference Portfolio. Such relative value changes may occur as a result of, for example, changes in assumptions by market participants to model the credit risk of the Reference Portfolio, correlation between the Reference Entities, as well as changes in the supply of and demand for credit protection in relation to each such tranche.

*Issuer and Calculation Agent will act in their own interests*

Each of the Issuer and the Calculation Agent will exercise its rights under the terms of the Securities, including in particular the right to designate a Credit Event and the right to select obligations of the affected Reference Entity for valuation or in respect of the Notes or Certificates, delivery, in its own interests and those of its Affiliates, and not in the interests of investors in the Securities. The exercise of such rights in such manner, for example by the selection of the eligible obligations of the Reference Entity having (i) in the case of Notes and

Certificates, the lowest possible market value for valuation or delivery, as applicable, may result in an increased credit loss for holders of the Certificates; or (ii) in the case of Warrants, the highest possible market value for valuation in respect of Warrants, may result in an lower amount payable to the holder of the Warrants. The exercise of such discretion by the Issuer or Calculation Agent could adversely affect (i) the value of the amount in cash, if any, which will be paid in respect of any Securities on the applicable redemption date or expiration date, if any, or (ii) in the case of Notes or Certificates, the market value of the portfolio of obligations the relevant Issuer will Deliver.

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent shall (in the absence of manifest error) be final and binding on the Holders. In performing its duties pursuant to the Securities and making any determinations expressed to be made by it, for example, as to substitute Reference Obligations or Successors, the Calculation Agent shall act in its sole and absolute discretion and is under no obligation to act in the interests of the Holders, nor will it be liable to account for any profit or other benefit which may accrue to it as a result of such determinations. The Calculation Agent is not bound to follow, or act in accordance with, any determination of the relevant Credit Derivatives Determinations Committee.

*Actions of Reference Entities may affect the value of the Credit Securities*

Actions of Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of the Securities. Holders of the Securities should be aware that the Reference Entities to which the value of the Securities is exposed, and the terms of such exposure, may change over the term of the Securities.

*Payments in the Credit Securities may be deferred or suspended*

In certain circumstances, for example where (a) a Credit Event has occurred and the related credit loss has not been determined as at the relevant date for payment, (b) where a potential Credit Event exists as at the Maturity Date of the Notes, the Redemption Date of the Certificates or as at the Expiration Date of the Warrants, or (c) pending a resolution of a Credit Derivatives Determinations Committee, payment of the redemption amount or settlement amount of the Securities and/or interest on the Notes or Certificates may be deferred for a material period in whole or part without compensation to the holders of the Notes or Certificates.

*Suspension of Obligations will suspend payment of principal and interest*

If the Calculation Agent determines that, under the terms of the Credit Securities, the obligations of the parties would be suspended pending a resolution of a Credit Derivatives Determination Committee all of the obligations of the relevant Issuer under each Credit Security (including any obligation to deliver any notices, pay any interest, principal or settlement amount or to make any delivery) and if so specified in the Final Terms, all of the obligations of the relevant Calculation Agent to calculate any interest under each Credit Security shall, be and remain suspended until ISDA publicly announces that the relevant Credit Derivatives Determination Committee has resolved the matter in question or not to determine such matters. The Calculation Agent will provide notice of such suspension as soon as reasonably practicable; however, any failure or delay by the Calculation Agent in providing such notice will not affect the validity or effect of such suspension. No interest shall accrue on any payments which are suspended in accordance with the above.

*Use of Auction Settlement may adversely affect returns to Holders*

Where the Credit Securities are redeemed following the occurrence of a Credit Event by reference to an auction sponsored by ISDA, the relevant Issuer or its Affiliates may act as a participating bidder in any such auction and, in such capacity, may take certain actions which may influence the Auction Final Price including

(without limitation) submitting bids, offers and physical settlement requests with respect to the obligations of the Reference Entity. If the relevant Issuer or its Affiliates participate in an Auction, then they will do so without regard to the interests of Holders, and such participation may have a material adverse effect on the outcome of the relevant Auction and/or on the Credit Securities. Holders will have no right to submit bids and/or offers in an Auction.

The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the specified Reference Entity or its obligations. In particular, the Auction process may be affected by technical factors or operational errors which would not otherwise apply or may be the subject of actual or attempted manipulation. Auctions may be conducted by ISDA or by a relevant third party. Neither the Calculation Agent, the relevant Issuer nor any of their respective Affiliates has any responsibility for verifying that any auction price is reflective of current market values, for establishing any auction methodology or for verifying that any auction has been conducted in accordance with its rules. The relevant Issuer will have no responsibility to dispute any determination of an Auction Final Price or to verify that any Auction has been conducted in accordance with its rules.

Following an M(M)R Restructuring Credit Event in relation to which ISDA sponsors multiple concurrent auctions, but where there is no relevant auction relating to credit derivative transactions with a maturity corresponding to the Credit Securities, if the Calculation Agent exercises the right of the buyer or, as the case may be, seller of credit risk protection under the Credit Securities to elect that the Auction Final Price is determined by reference to an alternative Auction, the Auction Final Price so determined may be lower (in the case of Notes or Certificates) or higher (in the case of Warrants) than the amount which would have been determined based on quotations sought from third party dealers, thereby reducing the amount payable to Holders.

*Use of Cash Settlement may adversely affect returns to Holders*

If the Securities are cash settled, then, following the occurrence of a Credit Event, the Calculation Agent will be required to seek quotations in respect of selected obligations of the affected Reference Entity. Quotations obtained will be (i) in the case of Notes and Certificates, "bid-side" - that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer; or (ii) in the case of Warrants, "offer-side". Such quotations may not be available, or the level of such quotations may be substantially reduced or may vary substantially as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Reference Entity (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly different from the value of the relevant obligation which would be determined by reference to (for example) the present value of related cashflows. Quotations will be deemed to be zero in the event that no such quotations are available.

*"Cheapest-to-Deliver" risk for Notes and Certificates and conversely for Warrants*

Since the Issuer, as buyer of protection in respect of the Notes or Certificates has discretion to choose the portfolio of obligations and/or assets to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with the lowest market value that are permitted to be selected pursuant to the terms of the Securities. This could result in a lower recovery value and hence greater losses for investors in the Notes or Certificates.

Conversely, the Issuer as seller of protection in respect of the Warrants has discretion to choose the portfolio of obligations and/or assets to be valued following a Credit Event in respect of a Reference Entity, and it is likely that the portfolio of obligations and/or assets selected will be obligations of the Reference Entity and/or assets with the highest market value that are permitted to be selected pursuant to the terms of the Warrants. This could result in a higher recovery value and hence a lower settlement amount for investors in the Warrants.

### *Asset Package Delivery risks*

The 2014 Definitions introduced the concept of asset package delivery. In certain circumstances where (a) "Financial Reference Entity Terms" and "Governmental Intervention" applies in respect of a Reference Entity and (i) there is a Governmental Intervention Credit Event; or (ii) a Restructuring Credit Event in respect of the Reference Obligation where such Restructuring does not constitute a Governmental Intervention or (b) a Restructuring Credit Event in respect of a Sovereign, then a related asset package resulting from a prior deliverable obligation (where "Financial Reference Entity Terms" apply) or package observable bond (where the Reference Entity is a sovereign) may also be deliverable. The asset package would be treated as having the same outstanding principal as the corresponding prior deliverable obligation or package observable bond.

If the resulting asset package is deemed to be zero where there are no resulting assets, the related credit loss will be 100 per cent. notwithstanding the recovery value on any other obligations of the Reference Entity.

The risk factors "*Use of Auction Settlement may adversely affect returns to Holders*" and "*Cheapest-to-Deliver*" risk for Notes and Certificates and conversely for Warrants" above would apply to any asset or asset package.

If an asset in the asset package is a non-transferable instrument or non-financial instrument, the value of such asset will be the market value determined by reference to a specialist valuation or in accordance with methodology determined by the Credit Derivatives Determinations Committees. See "*Conflicts of Interest - Credit Derivatives Determinations Committees*" and "*Rights associated with Credit Derivatives Determinations Committees*" for risk factors relating to valuation in accordance with CDDC methodology.

### *Increased risks where "Zero Recovery" is applicable*

Where "Zero Recovery" is applicable, if a Credit Event occurs in respect of a Reference Entity, investors will automatically lose an amount in principal or notional amount of the Credit Security equal to the portion of the Credit Security which is allocated to the credit risk of the affected Reference Entity. Investors should note that, in such circumstances, the Auction Final Price, Weighted Average Final Price or Final Price (which would otherwise apply in the absence of "Zero Recovery") or the recovery on any investments in bonds or other instruments issued by such Reference Entity will be higher (and may be significantly higher) than the zero recovery value ascribed to such Reference Entity under the Notes. Furthermore, the market value of the Credit Securities may not reflect the market value of a credit default swap on the Reference Entity or any other products linked to or issued by the Reference Entity which may be significantly higher.

### *The Issuer and Calculation Agent are not obliged to disclose information on Reference Entities*

The relevant Issuer and the Calculation Agent are not obliged to disclose to holders of the Securities any information which they may have at the Issue Date or receive thereafter in relation to any Reference Entity.

### *Risks may be compounded*

Various risks relating to the Securities may be correlated or compounded and such correlation and/or compounding may result in increased volatility in the value of the Securities and/or in increased losses for holders of the Securities.

### *The Issuer is not obliged to suffer any loss as a result of a Credit Event*

Where the Securities are Single Reference Entity Credit Notes or Certificates, Nth-to-Default Credit Notes or Certificates or Linear Basket Credit Notes or Certificates, credit losses will be calculated for the purposes of the Notes or Certificates irrespective of whether the relevant Issuer or its Affiliates has suffered an actual loss

in relation to the Reference Entity or any obligations thereof. The relevant Issuer is not obliged to account for any recovery which it may subsequently make in relation to such Reference Entity or its obligations.

*The Securities do not represent an interest in obligations of Reference Entities*

The Securities do not constitute an acquisition by the holders of the Securities of any interest in any obligation of a Reference Entity and the Holders will not have any voting or other rights in relation to such obligation. The relevant Issuer does not grant any security interest over any such obligation.

*The value of the Securities may be adversely affected by Illiquidity or Cessation of Indices*

In determining the value of the Securities, dealers may take into account the level of a related credit index in addition to or as an alternative to other sources of pricing data. If any relevant index ceases to be liquid, or ceases to be published in its entirety, then the value of the Securities may be adversely affected.

*Historical performance may not predict future performance*

Individual Reference Entities may not perform as indicated by the historical performance of similar entities and no assurance can be given with respect to the future performance of any Reference Entities. Historical default statistics may not capture events that would constitute Credit Events for the purposes of the Securities.

*Limited provision of information about the Reference Entities*

This Base Prospectus does not provide any information with respect to the Reference Entities. Investors should conduct their own investigation and analysis with respect to the creditworthiness of Reference Entities and the likelihood of the occurrence of a Succession Event or Credit Event.

Reference Entities may not be subject to regular reporting requirements under United Kingdom securities laws. The Reference Entities may report information in accordance with different disclosure and accounting standards. Consequently, the information available for such Reference Entities may be different from, and in some cases less than, the information available for entities that are subject to the reporting requirements under the United Kingdom securities laws. None of the Issuers or the Calculation Agent or any of their respective Affiliates make any representation as to the accuracy or completeness of any information available with respect to the Reference Entities.

None of the Issuers or the Calculation Agent or any of their respective Affiliates will have any obligation to keep investors informed as to any matters with respect to the Reference Entities or any of their obligations, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event or a Succession Event with respect to the Reference Entities.

Prospective investors should note that in certain circumstances, there may be no requirement for the relevant Issuer to give information which is generally publicly available in relation to the occurrence of a Credit Event. If a Credit Event occurs in respect of an Obligation of a Reference Entity which is not public, Holders of the Securities may not be able to verify the occurrence of such Credit Event.

*Cash settlement (whether by reference to an auction or a dealer poll) may be less advantageous than physical delivery of assets*

Payments on the Credit Securities following the occurrence of an Event Determination Date may be in cash and will reflect the value of relevant obligations of the affected Reference Entity at a given date. Such payments may be less than the recovery which would ultimately be realised by a holder of debt obligations of the affected Reference Entity, whether by means of enforcement of rights following a default or receipt of distributions following an insolvency or otherwise.

### *Conflicts of Interest – Credit Derivatives Determinations Committees*

The relevant Issuer or any of its Affiliates may act as a member of a Credit Derivatives Determinations Committees. In such case, the interests of the relevant Issuer or its Affiliates may be opposed to the interests of Holders and they will be entitled to and will act without regard to the interests of Holders.

### *Rights Associated with Credit Derivatives Determinations Committees*

The institutions of the Credit Derivatives Determinations Committee owe no duty to the Holders and have the ability to make determinations that may materially affect the Holders, such as the occurrence of a Credit Event or a Succession Event. A Credit Derivatives Determinations Committee may be able to make determinations without action or knowledge of the Holders.

Holders may have no role in the composition of any Credit Derivatives Determinations Committee. Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on a Credit Derivatives Determinations Committee and the Holders may have no role in establishing such criteria. In addition, the composition of a Credit Derivatives Determinations Committee will change from time to time in accordance with the Rules, as the term of an institution may expire or an institution may be required to be replaced. The Holders may have no control over the process for selecting institutions to participate on a Credit Derivatives Determinations Committee and, to the extent provided for in the Securities, will be subject to the determinations made by such selected institutions in accordance with the Rules.

Holders may have no recourse against either the institutions serving on a Credit Derivatives Determinations Committee or the external reviewers. Institutions serving on a Credit Derivatives Determinations Committee and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on a Credit Derivatives Determinations Committee do not owe any duty to the Holders and the Holders will be prevented from pursuing claims with respect to actions taken by such institutions under the Rules.

Holders should also be aware that institutions serving on a Credit Derivatives Determinations Committee have no duty to research or verify the veracity of information on which a specific determination is based. In addition, a Credit Derivatives Determinations Committee is not obligated to follow previous determinations and, therefore, could reach a conflicting determination on a similar set of facts. If the relevant Issuer or the Calculation Agent or any of their respective Affiliates serve as a member of a Credit Derivatives Determinations Committee at any time, then they will act without regard to the interests of the Holders.

Holders are responsible for obtaining information relating to deliberations of a Credit Derivatives Determinations Committee. Notices of questions referred to the Credit Derivatives Determinations Committee, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and neither the relevant Issuer, the Calculation Agent nor any of their respective Affiliates shall be obliged to inform the Holders of such information (other than as expressly provided in respect of the Securities). Failure by the Holders to be aware of information relating to deliberations of a Credit Derivatives Determinations Committee will have no effect under the Securities and Holders are solely responsible for obtaining any such information.

Investors should read the Credit Derivatives Determinations Committees Rules as amended from time to time as set out on the ISDA website, <http://www.isda.org/credit/revisedcrules.html> and reach their own views prior to making any investment decisions. Investors should however note that the Rules may subsequently be amended from time to time without the consent or input of the Holders and the powers of the Credit Derivatives Determinations Committee may be expanded or modified as a result.

### *Multiple Auctions Following Restructuring Credit Event*

Where multiple concurrent Auctions are held following a Restructuring Credit Event, the relevant Issuer may be entitled to select a particular Auction for the purposes of settlement of the Credit Securities. The relevant Issuer will make such election acting in its own interests and not in the interests of the Holders.

### *Credit Warrants*

Credit Warrants are Securities in respect of which the relevant Issuer has effectively sold protection on one or more Reference Entities to the Holders and payments on such Warrants will depend on the occurrence of a Credit Event with respect to such Reference Entities.

Any deterioration in the creditworthiness of a Reference Entity will increase the likelihood of a Credit Warrant being capable of being exercised. However, any improvement in the creditworthiness of a Reference Entity may decrease the likelihood of a Credit Warrant being exercised and as a result such improvements may adversely affect the value of such Warrant.

In relation to any Credit Warrants, where the Credit Derivatives Determinations Committee determines that a Restructuring Credit Event has occurred in relation to a Reference Entity and the Calculation Agent determines that an Auction will be or has been held in relation to Deliverable Obligations which are eligible as Valuation Obligations under the terms of the Warrants, the Warrants will be exercised by delivery of a Credit Event Notice by the Calculation Agent (without notice from the Holder as buyer of protection). This may result in a lower return on the Warrants than if such Warrants had not been automatically exercised in such circumstances. Conversely, where no such Deliverable Obligations exist, the Warrants will not be exercised and will expire worthless.

### *Risks relating to deposits*

Certain credit linked Notes or Certificates may be linked to the creditworthiness of a financial institution at which the Hedge Counterparty has made a deposit. Where a Credit Event occurs with respect to the relevant financial institution (which will be the Reference Entity in respect of the Securities) and the Conditions to Settlement are satisfied, the amount which is paid to a Holder will depend on both the fair market value of the Security (as determined by the Calculation Agent without taking into account the credit linked provisions of the Security) and either the proportion of the deposit which is recovered from the Reference Entity or, alternatively, if the Hedge Counterparty transfers its rights in respect of the deposit to a third party (which may be an affiliate of the Hedge Counterparty), the proportion of the deposit represented by the amount which is received from a third party in respect of such transfer, in each case less costs involved in unwinding related hedging transactions or hedging positions and as adjusted to reflect the proportion of the Securities held by an entity in the BNP Paribas Group.

### *The Calculation Agent may modify the terms of the Securities*

The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions that affects any hedging transaction, modify the terms of the Securities to the extent reasonably necessary to ensure consistency with the prevailing market standard terms or market trading conventions, without the consent of Holders or prior notice to Holders. The Calculation Agent is not obliged to make any such modifications. If the Calculation Agent modifies the terms of the Securities, it will do so without regard to the interests of the holders of the Securities and any such modification may be prejudicial to the interests of the holder of the Securities.

#### *Certain Considerations Associated with Hybrid Securities*

An investment in Hybrid Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption or exercise, as the case may be, of Hybrid Securities Holders will receive an amount (if any) determined by reference to the value of a number of different Underlying References. Hybrid Linked Interest Notes or Certificates pay interest calculated by reference to the value of a number of different Underlying References.

#### *Certain Considerations Associated with Open End Certificates and OET Certificates*

Open End Certificates and OET Certificates do not have any pre-determined maturity and may be redeemed on any date determined by the relevant Issuer, in its sole and absolute discretion, subject to compliance with the provisions of the Conditions. Investment in Open End Certificates and OET Certificates will entail additional risks compared with other Certificates, due to the fact that the redemption date for such Open End Certificates and OET Certificates cannot be determined by the investor.

#### *Certain Considerations Associated with Securities listed on Euronext Paris which are Knock-in Event, Knock-out Event Securities or OET Certificates listed on Euronext Paris*

Securities listed on Euronext Paris in respect of which "Knock-in Event" or "Knock-out Event" is specified as applicable in the relevant Final Terms or which are OET Certificates, in each case listed on Euronext Paris constitute "leverage products" (*produits à levier*) within the meaning of the classification of warrants and certificates published by Euronext Paris in a notice dated 7 November 2007. The use of such classification is recommended by the AMF in accordance with its press release of 28 November 2007. However, all the characteristics and risks of the above mentioned Securities and OET Certificates may not be totally reflected by this classification. In addition, this classification may be amended at any time by Euronext Paris.

#### *Certain Considerations Associated with Multiple Exercise Certificates*

If the Certificates are specified to be Multiple Exercise Certificates, each Certificate will, subject to the renouncement by a Certificate holder, be automatically exercised on each Exercise Date and the relevant Cash Settlement Amount (if any) paid on the relevant Exercise Settlement Date. Following the payment of the Cash Settlement Amount (if any) in respect of the final Exercise Settlement Date, the relevant Issuer shall have discharged its obligations in respect of the Certificates and shall have no other liability or obligation whatsoever in respect of such Certificates.

### **3. Additional Factors relating to certain Underlying References**

#### *Certain Considerations Associated with Securities linked to ETIs*

ETI Securities linked to one or more interest in exchange traded instruments reflect the performance of such interest in exchange traded instruments.

An exchange traded instrument may invest in and trade in a variety of investments and financial instruments using sophisticated investment techniques for hedging and non-hedging purposes. Such financial instruments and investment techniques may include, but are not limited to, the use of leverage, short sales of securities, derivative transactions, such as swaps, stock options, index options, futures contracts and options on futures, lending of securities to certain financial institutions, entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies.

The amount payable on ETI Securities will be dependent on the performance of the relevant ETI(s) underlying the ETI Securities, which may be linked to the reported NAV per ETI Interest, the trading price available on an exchange for the relevant ETI Interest and/or the actual redemption proceeds the Hedge Provider or a

hypothetical investor in the relevant ETI(s) would receive. The amount payable on the ETI Securities may be less and in certain circumstances may be significantly less than the return from a direct investment in the relevant ETI(s) and may be zero.

Unlike Funds, exchange traded instruments are not actively managed. The value of an interest in an exchange traded instrument will decline, more or less, in line with the decline of any securities or the value of any index underlying or linked to the relevant exchange traded instrument. Exchange traded instruments involve risks similar to those of investing in any equity securities traded on an exchange, such as market fluctuations caused by, amongst other things, economic and political developments, changes in interest rates and perceived trends in prices of securities. Where the relevant exchange traded instrument is linked to a particular index, the return on such exchange traded instrument may not match the return of the particular index.

Potential investors in ETI Securities should be aware that none of the relevant Issuer, the Guarantor (if any) or the Calculation Agent have any control over investments made by the relevant exchange traded instrument(s) and in no way guarantee the performance of an exchange traded instrument or the amount payable to holders of ETI Securities.

In hedging the relevant Issuer's obligations under the ETI Securities, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the relevant exchange traded instrument(s), replicating the performance of the relevant exchange traded instrument(s) or holding any of the assets underlying the relevant exchange traded instrument(s). The Hedge Provider may perform any number of different hedging practices with respect to ETI Securities.

Investing directly or indirectly in interests in exchange traded instruments is generally considered to be risky. If the exchange traded instrument does not perform sufficiently well, the value of the Securities will fall, and may in certain circumstances be zero.

Prospective investors should review carefully the prospectus, information memorandum and/or offering circular (if any) issued by any relevant exchange traded instrument before purchasing any ETI Securities. None of the relevant Issuer, the Guarantor (if any), the Calculation Agent or any of their respective Affiliates make any representation as to the creditworthiness of any relevant exchange traded instrument or any such exchange traded instrument's administrative, custodian, investment manager or adviser.

#### *Certain Considerations Associated with Securities linked to Funds*

Where an Issuer issues Fund Securities linked to one or more Funds, including Hedge Funds, Mutual Funds or Private Equity Funds, the relevant Securities reflect the performance of such fund(s).

Funds may trade and invest in a broad range of investments and financial instruments using sophisticated investment techniques for hedging and non-hedging purposes such as debt and equity securities, commodities and foreign exchange and may enter into derivative transactions, including, without limitation, futures, swaps and options. Such financial instruments and investment techniques may also include, but are not limited to, the use of leverage, short sales of securities, transactions that involve the lending of securities to financial institutions, the entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies. While these investment strategies and financial instruments provide the investment manager and/or adviser of a Fund the flexibility to implement a range of strategies in an attempt to generate positive returns for the Fund, they also create the risk of significant losses that may adversely affect the value of the Fund and therefore the return on the Fund Securities. Potential investors should be aware that none of the relevant Issuer, the Guarantor (if any) or the Calculation Agent have any control over investments made by a Fund and therefore in no way guarantee the performance of a Fund and therefore the amount due to Holders on cancellation or redemption, as applicable, of the Fund Securities. Funds may often be illiquid and

may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of Funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities.

The amount payable on Fund Securities will be dependent on the performance of the relevant Fund(s) underlying the Fund Securities, which may be linked to the reported NAV per Fund Share and/or the actual redemption proceeds the Hedge Provider or a hypothetical investor in the relevant Fund(s) would receive. The amount payable on the Fund Securities may be less than the amount payable from a direct investment in the relevant Fund(s). In certain circumstances, a Fund may continue reporting a NAV per Fund Share, but the Hedge Provider or a hypothetical investor may not be able to realise their investment in the relevant Fund(s) at such reported NAV per Fund Share. In such a case, the return on the Fund Securities may be less and in certain circumstances may be significantly less than the reported performance of the relevant Fund(s) and may be zero.

A Fund may be established as part of a master-feeder fund structure. Generally, a master-feeder fund structure involves the incorporation of a "master" fund company into which separate and distinct "feeder" funds invest. Active management of any investment strategy is, generally, performed at the master fund level. In instances where the Fund(s) underlying the relevant Fund Securities are "feeder" funds, the Extraordinary Fund Events (see "*Other Events relating to Fund Securities*" below) extend to include the "master" fund and its service providers. In conducting their own due diligence of the relevant Fund(s), prospective investors should pay particular attention to whether the relevant Fund(s) are established as part of a master-feeder fund structure.

In hedging the relevant Issuer's obligations under the Fund Securities, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the relevant Fund(s), replicating the performance of the relevant Fund(s) or holding any of the assets underlying the relevant Fund(s). The Hedge Provider may perform any number of different hedging practices with respect to Fund Securities.

For all the above reasons, investing directly or indirectly in Funds is generally considered to be risky. If the underlying Fund does not perform sufficiently well, the value of the Security will fall, and may in certain circumstances be zero.

#### *Certain Considerations Associated with Securities Linked to Emerging Markets*

Each Issuer may issue Securities where the amount payable on exercise or redemption or the interest payable is linked to Underlying References which consist of (i) securities, funds or indices comprising securities of issuers that are located in, or subject to regulation in, emerging or developing countries, or (ii) securities which are denominated in the currency of, or are traded in, emerging or developing countries or (iii) currencies of emerging or developing countries. Prospective investors should note that additional risks may be associated with investment in such Securities, including risks associated with political and economic uncertainty, adverse governmental policies, restrictions on foreign investment and currency convertibility, currency exchange rate fluctuations, possible lower levels of disclosure and regulation, and uncertainties as to the status, interpretation and application of laws including, but not limited to, those relating to expropriation, nationalisation and confiscation. Securities traded in emerging or developing countries tend to be less liquid and the prices of such securities more volatile. In addition, settlement of trades in some such markets may be slower and more subject to failure than in markets in developed countries.

Increased custodian costs as well as administrative difficulties (such as the applicability of the laws of the jurisdictions of emerging or developing countries to custodians in such jurisdictions in various circumstances, including bankruptcy, ability to recover lost assets, expropriation, nationalisation and record access) may also arise from the maintenance of assets in such emerging or developing countries.

Prospective purchasers of the Securities should also be aware that the probability of the occurrence of a Hedging Disruption Event (or other Adjustment Event under the relevant legal terms as set out further in the Security Conditions) and consequently loss of investment or profit by an investor may be higher for certain developing or emerging markets. Prospective purchasers are expected to conduct their own enquiries and be satisfied that there are additional risks associated with investments linked to the performance of underlying assets located in these markets.

#### *Certain Considerations Associated with certain Dynamic Securities*

Each Issuer may issue dynamic Securities ("**Dynamic Securities**"). Dynamic Securities may be linked to a portfolio or strategy often comprising assets with a greater potential for return and consequently greater risk (e.g. a Hedge Fund) and assets with a lower return and consequently lesser risk (e.g. a zero coupon debt security issued by an issuer with a high credit rating). The portfolio or strategy may include leverage on certain specified terms. The portfolio or strategy is dynamic and may rebalance between the relevant assets based upon a specified allocation methodology. The value of Dynamic Securities is determined by reference to the underlying portfolio or strategy. This portfolio or strategy may change during the term of the Securities, which may affect the value of, and any return on, the Securities.

Considering the above aspects, Dynamic Securities are by their nature intrinsically complex, which makes their evaluation difficult in terms of risk at the time of the purchase as well as thereafter. Investors should therefore purchase Dynamic Securities only after having completely understood and evaluated either themselves or with a financial adviser the nature and the risk inherent in the Dynamic Security.

#### *Certain Considerations Associated with Preference Share Certificates*

BNPP B.V. and BNPP may issue Preference Share Certificates where the amount payable on redemption is dependent upon the changes in the value of certain preference shares, which may fluctuate up or down depending on the performance of the relevant underlying asset(s) or basis of reference to which the preference shares are linked (the "**Preference Share Underlying**") as set out in the terms and conditions of the relevant series of preference shares (the "**Terms of the Preference Shares**"). If as a result of the performance of the Preference Share Underlying, the performance of the preference shares is negative, the value of the Preference Share Certificates will be adversely affected. Purchasers of Preference Share Certificates risk losing all or a part of their investment if the value of the preference shares does not move in the anticipated direction.

An investment in Preference Share Certificates will entail significant risks not associated with a conventional debt or equity security. Purchasers of Preference Share Certificates should conduct their own investigations and, in deciding whether or not to purchase the Preference Share Certificates, prospective purchasers should form their own views of the merits of an investment related to the preference shares based upon such investigations and not in reliance on any information given in this Base Prospectus.

#### *Additional Risk Factors for Preference Share Certificates*

##### *Risks relating to Potential Early Redemption*

As set out further in the Preference Share Certificate Conditions, Preference Share Certificates will be subject to early redemption in whole if, in the determination of the Calculation Agent, an illegality, force majeure, Potential Adjustment Event, Additional Disruption Event, Optional Additional Disruption Event or Extraordinary Event occurs or if the Preference Share Issuer delivers a notice to the Issuer in respect of early redemption of the preference shares. In these circumstances the Issuer may redeem the Preference Share Certificates at the Early Redemption Amount. The Early Redemption Amount may be less (and in certain circumstances, significantly less) than investors' initial investment. Holders will not benefit from any appreciation of the preference shares that may occur following such redemption.

The preference shares may contain an "auto-call" mechanism, which may be triggered by certain annual changes in the value of the Preference Share Underlying. If the preference share redemption date is brought forward under that mechanism, the Issuer will also bring forward the Redemption Date under the Preference Share Certificates and the Preference Share Certificates will be redeemed by payment of an amount determined by reference to the performance of the preference shares.

#### *Exposure to the Preference Share Underlying*

The Preference Share Underlying may be a specified index or basket of indices, a specified equity or basket of equities, a specified currency or basket of currencies, a specified commodity, commodity index, basket of commodities or commodity indices, a specified fund share or unit or basket of fund shares or units or such other underlying instruments, bases of reference or factors as may be determined by the Preference Share Issuer and specified in the Terms of the Preference Shares. *Consequently potential investors should also consider the risk factors set out herein in respect of the risks involved in investing in Securities (in this case the preference shares) linked to certain relevant underlying reference assets.*

The Terms of the Preference Shares provide that the preference shares will be redeemable on their final redemption date (or otherwise in accordance with the Terms of the Preference Shares). On redemption, the preference shares will carry preferred rights to receive an amount calculated by reference to the performance of the Preference Share Underlying.

Investors should review the Terms of the Preference Shares and the Preference Share Issuer's constitutional documents and consult with their own professional advisers if they consider it necessary.

#### *Risks relating to the Preference Share Issuer and the Preference Shares*

Preference Share Certificates are linked to the performance of the relevant preference shares issued by the Preference Share Issuer. Investors bear the Preference Share Issuer risk. The value of the Preference Share Certificates is dependent on the value of the preference share, which will depend in part on the creditworthiness of the Preference Share Issuer, which may vary over the term of the Preference Share Certificates. The Preference Share Issuer is not an operating company. Its sole business activity is the issue of redeemable preference shares. The Preference Share Issuer does not have any trading assets and does not generate any significant net income. As its funds are limited any misappropriation of funds or other fraudulent action by the Preference Share Issuer or person acting on its behalf would have a significant effect on the value of the preference shares and will affect the value of the Preference Share Certificates.

The Preference Share Issuer, BNP Paribas Arbitrage S.N.C. in its capacity as the Calculation Agent in respect of the preference shares (the "**Preference Share Calculation Agent**"), the Issuers and Guarantors are each members of the BNP Paribas Group and are affiliates or subsidiaries of the Calculation Agent. As a result of these relationships, potential conflicts of interest may arise between such parties acting in their respective capacities. Subject to any relevant regulatory obligations, the Preference Share Issuer and the Preference Share Calculation Agent owe no duty or responsibility to the relevant Issuer and Guarantor (if applicable) or any Holder to avoid any conflict or to act in the interests of any Holder. The Preference Share Issuer may also rely on members of the BNP Paribas Group (including the Preference Share Calculation Agent) or other service providers to perform its operational requirements. In the event any relevant BNP Paribas Group entities or other service providers fail to perform any obligations, this may adversely affect the value of the preference shares and potentially the amounts payable under the Certificates.

In addition to providing calculation agency services to the Preference Share Issuer, BNP Paribas Arbitrage S.N.C. or any of its affiliates, may perform further or alternative roles relating to the Preference Share Issuer and any other series of preference shares including, but not limited to, for example, being involved in arrangements relating to any of the underlying reference assets (for example as a calculation agent). Further,

BNP Paribas Arbitrage S.N.C. or any of its affiliates may contract with the Preference Share Issuer and/or enter into transactions which relate to the Preference Share Issuer, the preference shares or any of the underlying reference assets and as a result BNP Paribas Arbitrage S.N.C. may face a conflict between its obligations as Preference Share Calculation Agent and its and/or its affiliates' interests in other capacities.

*No ownership rights*

An investment in Preference Share Certificates is not the same as an investment in the preference shares and does not confer any legal or beneficial interest in the preference shares or any Preference Share Underlying or any voting rights, right to receive dividends or other rights that a holder of the preference shares or any Preference Share Underlying may have.

#### **4. Additional Risks Associated with Secured Securities**

BNPP B.V. may issue Secured Securities.

*Shortfall on realisation of Collateral Pool*

Where BNPP B.V. is the Issuer of a series of W&C Securities, the Holders are exposed to credit risk on BNPP B.V. and BNPP as Guarantor. In order to mitigate against such credit risk which may apply where the W&C Securities are not Secured Securities, BNPP B.V. may issue Secured Securities where security will be provided in respect of such Secured Securities although the security provided for a series of Secured Securities is limited to the Collateral Assets in the Collateral Pool applicable to such series. Such Collateral Pool may be shared by a number of series of Secured Securities where so specified in the applicable Final Terms. The value realised for the Collateral Assets in the relevant Collateral Pool may be insufficient to pay the Security Termination Amount in respect of the relevant series of Secured Securities, in which case a "Shortfall" will be deemed to occur unless, Physical Delivery of Collateral and Nominal Value Collateralisation is applicable in respect of all the Secured Securities secured by the relevant Collateral Pool. In the event of the insolvency of BNPP B.V. and the Guarantor, investors may lose all or a substantial portion of their investment as the Guarantor may not be in a position to pay all or part of any Shortfall.

*Adjustments to Collateral Pool where the Collateral Assets are securities*

Where the Collateral Assets for a Collateral Pool are comprised of securities, BNP Paribas Arbitrage S.N.C. (or such other party specified in the applicable Final Terms) (the "**Collateral Calculation Agent**") will calculate the marked to market value of the Secured Securities (where MTM Collateralisation or Partial MTM Collateralisation is applicable) and the marked to market value of the Collateral Assets in a Collateral Pool (taking into account all factors which the Collateral Calculation Agent deems relevant) on such periodic basis as is specified in the applicable Final Terms in respect of the relevant Collateral Pool. Unless the applicable Final Terms specify that there will be no adjustments to the amount of Collateral Assets or that there are to be no such valuation dates, in the event that on the date of valuation (the "**Collateral Valuation Date**") there is a difference between (a) the marked to market value of the Collateral Assets in a Collateral Pool (the "**Collateral Value**") and (b) the sum of, in respect of each series of Secured Securities secured by the relevant Collateral Pool, but excluding, in each case, any Secured Securities that are beneficially owned by BNPP B.V. or any of its Affiliates, the marked to market value of such Secured Securities (where MTM Collateralisation is applicable to a series of Secured Securities), a part of the marked to market value of such Secured Securities (where Partial MTM Collateralisation is applicable to a series of Secured Securities) and the aggregate nominal value of such Secured Securities (where Nominal Value Collateralisation is applicable to a series of Secured Securities) or a part of the aggregate nominal value of such Secured Securities (where Partial Nominal Value Collateralisation is applicable to a series of Secured Securities) (such sum, the "**Securities Value**"), BNPP B.V. will procure that further assets are delivered to the Collateral Account (or substitute existing Collateral Assets with Collateral Assets with a greater value) if the value of the Collateral Assets is less than

the Securities Value or will be entitled to remove Collateral Assets from the Collateral Account if the Collateral Value is in excess of the Securities Value prior to such adjustment. Following any such adjustment in respect of Collateral Assets on any Collateral Valuation Date, the Collateral Value is expected to be equal to the Securities Value prior to such adjustment. Investors, nevertheless, will be exposed to the difference between the Securities Value of the Secured Securities and the marked to market value of the Collateral Assets prior to any such adjustment. In addition, even after any such adjustment, where the Security Termination Amount is specified in the relevant Final Terms as being "Security Value Realisation Proceeds", "Nominal Value Realisation Proceeds", "Partial Nominal Value Realisation Proceeds", "Shortfall Value Amount" or "Nominal Value Amount", Holders will be exposed to the difference between the Securities Value and the Realisation Amount; which difference may result due to any delay in realising the relevant Collateral Assets, fluctuations in the value of the Collateral Assets and/or the costs and expenses incurred in, or relating to, any sale of relevant Collateral Assets.

When determining the Securities Value on the basis of the marked to market value of the Secured Securities (or part of such marked to market value), the Collateral Calculation Agent shall take no account of the financial condition of (a) BNPP B.V. which shall be presumed to be able to perform fully its obligations in respect of the Secured Securities or (b) the Guarantor which shall be presumed to be able to perform fully its obligations in respect of the Guarantee.

In the event that BNPP B.V. is required to deliver additional Collateral Assets or alternative Collateral Assets, BNPP B.V. shall do so as soon as practicable following the relevant Collateral Valuation Date. There may be a delay between the Collateral Valuation Date and the date on which BNPP B.V. is able to deliver such additional or alternative Collateral Assets and investors will be exposed to the difference between the fair market value or nominal value (or part thereof, if applicable), as the case may be, of the Secured Securities and the fair market value of the Collateral Assets during such period.

Where Nominal Value Collateralisation or Partial Nominal Value Collateralisation applies to a series of Secured Securities, there is likely to be a difference between the marked to market value of the Secured Securities and the marked to market value of the Collateral Assets in the relevant Collateral Pool. As a consequence, if the security created under the relevant Pledge Agreement is enforced, the amounts available for distribution by the Collateral Agent in respect of a series of Secured Securities to which Nominal Value Collateralisation or Partial Nominal Value Collateralisation applied may be less than the Security Termination Amount payable in respect of each such Secured Security, where such Security Termination Amount is calculated by reference to the marked to market value of such Secured Securities, due to the fact that only the nominal value or part thereof in respect of the relevant Secured Securities is intended to be secured by the relevant Collateral Pool.

#### *Adjustments to Collateral Pool where the Collateral Asset is a cash deposit*

Where the Collateral Asset for a Collateral Pool is comprised of a cash deposit and where MTM Collateralisation or Partial MTM Collateralisation is applicable, the Collateral Calculation Agent will calculate the marked to market value of the Secured Securities (excluding any Secured Securities that are beneficially owned by BNPP B.V. or any of its Affiliates) (taking into account all factors which the Collateral Calculation Agent deems relevant) on such periodic basis as is specified in the applicable Final Terms. Any cash deposit will not be valued on a Collateral Valuation Date. Unless the applicable Final Terms specify that there will be no adjustments to the amount of Collateral Assets or that there are no Collateral Valuation Dates, in the event that on a Collateral Valuation Date, there is a difference between the amount of cash standing to the credit of the Collateral Account (the "**Deposit Amount**") and the relevant Securities Value, BNPP B.V. will procure that further cash is deposited into the relevant Collateral Account if the Deposit Amount is less than the Securities Value or will be entitled to withdraw cash from the Collateral Account if the Deposit Amount is in excess of the Securities Value prior to such adjustment. Following any such adjustment to the Deposit

Amount on any Collateral Valuation Date, the Deposit Amount is expected to be equal to the Securities Value. Investors, nevertheless, will be exposed to the difference between the marked to market value (or part thereof) where MTM Collateralisation or Partial MTM Collateralisation is applicable for the Secured Securities and the Deposit Amount prior to such adjustment.

When determining the Securities Value on the basis of the marked to market value of the Secured Securities (or part of such marked to market value), the Collateral Calculation Agent shall take no account of the financial condition of (a) BNPP B.V. which shall be presumed to be able to perform fully its obligations in respect of the Secured Securities or (b) the Guarantor which shall be presumed to be able to perform fully its obligations in respect of the relevant Guarantee.

#### *No Shortfall*

Where one of "Security Value Realisation Proceeds", "Nominal Value Realisation Proceeds" or "Partial Nominal Value Realisation Proceeds" is specified in the applicable Final Terms as the applicable Security Termination Amount and the amount paid to a Holder is equal to such Security Termination Amount, no Shortfall will be calculated in respect of such Secured Securities and no other amount will be payable by BNPP B.V. in respect of such Secured Securities.

#### *No collateralisation in respect of Secured Securities held by BNPP B.V. or any of its Affiliates*

There will be no collateralisation in respect of any Secured Securities beneficially owned by BNPP B.V. or any of its Affiliates. Following an Enforcement Event, BNPP B.V. or the Affiliate of BNPP B.V. that holds the Secured Securities will renounce and waive all rights (including as to payment) in respect of such Secured Securities and shall submit such Secured Securities for cancellation free of payment. During the term of the relevant Secured Securities, where BNPP B.V. or any of its Affiliates is the beneficial owner of Secured Securities, it will not provide or hold any Collateral Assets in respect of such Secured Securities.

#### *No adjustments to a Collateral Pool*

In respect of certain series of Securities, the Final Terms may specify that there will be no Collateral Calculation Agent and/or Collateral Valuation Dates, in which case there will be no adjustments to the Collateral Assets in the Collateral Pool during the life of the relevant Secured Securities. In this case, if the security is enforced, the proceeds of enforcement that a Holder will receive may not be equal to the market value of the Secured Security which it holds.

#### *Potential conflicts of interest between the Investors and the Collateral Calculation Agent*

As the Collateral Calculation Agent is an Affiliate of the Issuers and the Guarantors, potential conflicts of interest may arise between the Collateral Calculation Agent and the holders of the Secured Securities, including with respect to the making of certain determinations and the exercise of certain discretions (including as to the value of the Secured Securities and the Collateral Assets) in accordance with the terms of the Amended and Restated Agency Agreement. The Collateral Calculation Agent is obliged to carry out its duties and functions as Collateral Calculation Agent in good faith and using its reasonable judgment. Furthermore, the Collateral Calculation Agent does not and will not act as a fiduciary or as an advisor to the Holders in respect of its duties as Collateral Calculation Agent.

#### *Collateral management and Collateral Agent*

BNPP B.V. may appoint one or more agents to perform custodial and administrative functions relating to the Collateral Assets (each a "**Collateral Custodian**"). It is expected that the initial Collateral Custodian will be BNP Paribas Securities Services, Luxembourg Branch. A failure by any agent to perform its duties and obligations with respect to the Collateral Assets, or the occurrence of any adverse event in relation to those

entities, may adversely affect the availability of the Collateral Assets, and consequently adversely affect the realisation of the Collateral Assets. BNPP B.V. will also appoint an agent (the "**Collateral Agent**") which will enforce the security under the Pledge Agreements upon the occurrence of an Enforcement Event and liquidate or realise the Collateral Assets in each Collateral Pool or appoint an agent to do so on its behalf. It is expected that the initial Collateral Agent will be BNP Paribas Trust Corporation UK Limited. A failure by the Collateral Agent to perform its obligations with respect to the Collateral Assets will adversely affect the realisation of the Collateral Assets. Furthermore, the Collateral Agent does not and will not act as a fiduciary or as an advisor to the Holders in respect of its duties as Collateral Agent and does not act as a trustee for the Holders. No trustee will be appointed in respect of the Secured Securities.

#### *Fluctuations in the value of the Collateral Assets*

The Collateral Assets may be subject to fluctuations in value. Investors should note that the Collateral Assets may suffer a fall in value between the time at which the Pledge Agreements become enforceable and the time at which the Collateral Assets are realised in full. In extraordinary circumstances, the Collateral Assets available at the time at which the Pledge Agreements become enforceable could completely lose their value by the time of the realisation.

#### *"Haircut" applied to Collateral Assets*

A haircut is the percentage by which the market value of a Collateral Asset is discounted and is designed to mitigate potential depreciation in value of the relevant Collateral Asset in the period between the last valuation of the Collateral Asset and the realisation of such Collateral Asset, such period being known as the 'cure period' or 'holding period'. The haircut should account for the expected volatility of an instrument and discount its value by an amount that reflects the expected maximum price movement within the cure or holding period. The length of this period will be subjectively determined by the Collateral Calculation Agent and reflects the likely length of time that a Collateral Asset would be held before realisation occurs, taking into consideration factors such as contractual timings, the time required for internal decision-making and any legally-mandated stay period. The Final Terms will specify whether or not a haircut applies to a Collateral Pool but will not provide any further information as to the level of any haircut applied to the Collateral Assets in any Collateral Pool. Since the volatility of the value of a Collateral Asset may change through time, haircuts applied to the Collateral Assets may become outdated and may not provide suitable protection against a Shortfall.

#### *Lack of diversification of the Collateral Assets*

The selection of the Collateral Assets will be at the discretion of BNPP B.V provided that such Collateral Assets must be Eligible Collateral. The Collateral Assets in a Collateral Pool may (including where Limited Diversification is specified as being applicable in the applicable Final Terms) be limited to one or a few assets or the same or a small number of types of asset between which there is a correlation in respect of value or risk or such assets may be issued by the same issuer or a small number of issuers, or by the same or a small number of types of issuer which may operate in similar or related business sectors. Such low diversification may increase the risk that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Holders under the relevant Secured Securities as Holders may be exposed potentially to greater market risk on particular Collateral Assets or types of Collateral Asset and/or particular issuers or types of issuer of such assets and the amount recovered in respect of the Collateral Assets on their sale will be dependent on the then current market value of a smaller number or type of Collateral Assets and/or Collateral Assets issued by a smaller number of issuers or type of issuers.

### *Cross default*

Following the occurrence of an Enforcement Event in respect of any Collateral Pool, the Collateral Agent will realise the Collateral Assets for all Collateral Pools or will cause such Collateral Assets to be realised. Where the Collateral Assets are securities, liquidation of all the Collateral Assets simultaneously may increase the risk that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Holders under the relevant Secured Securities because liquidation of all the Collateral Assets in the Collateral Pools at the same time could potentially lead to a reduction in the market value of some or all of the Collateral Assets.

### *Risk of a delay in the realisation of the Collateral Assets in the event of the insolvency of BNPP B.V.*

In the event of the insolvency of BNPP B.V., the realisation of the Collateral Assets may be delayed either by the insolvency administrator appointed in relation to BNPP B.V. or by measures ordered by a competent court. Such delay could adversely affect the position of the Holders in the event of depreciation of the value of the Collateral Assets during such delay. In addition, as the Collateral Agent and BNPP B.V. are part of the Group, in the event of the insolvency of BNPP B.V., it is also possible that the Collateral Agent may be insolvent. Such circumstances may lead to an inability to realise the Collateral Assets and/or a delay in the realisation of the Collateral Assets but the Collateral Assets will not form part of the Collateral Agent's estate. The Agency Agreement will contain provisions permitting the replacement of the Collateral Agent in certain circumstances, including upon the insolvency of the Collateral Agent.

### *Illiquid Collateral Assets*

The Collateral Assets in some Collateral Pools may comprise assets which are not admitted to any public trading market and may therefore be illiquid and not readily realisable. Where there is limited liquidity in the secondary market relating to Collateral Assets, the Collateral Agent (or its agent) may not be able to sell such Collateral Assets to a third party and distribute the net proceeds to Holders. As a result, Holders may not receive payments in respect of their Secured Securities until such Collateral Assets mature or are redeemed in accordance with their terms. The maturity date of such Collateral Assets may be after the date of redemption or termination of the relevant Secured Securities.

### *Collateral Pools securing multiple Series of Securities*

A number of series of Secured Securities may be secured by the same Collateral Pool. Notwithstanding the fact that the value of Collateral Assets in a Collateral Pool may be determined by reference to the market value, part of the market value or the nominal value or part of the nominal value of the relevant Secured Securities, it is possible that, where more than one series of Secured Securities is secured by the same Collateral Pool, the value of the Collateral Assets in a Collateral Pool may not reflect the relevant Securities Value of a particular series of Secured Securities (or the aggregate Securities Value of the series of Secured Securities secured by the relevant Collateral Pool) as accurately as if the Collateral Assets in a Collateral Pool were held in respect of a single series of Secured Securities only.

### *Failure to comply with collateral obligations*

If a number of series of Secured Securities are secured by the same Collateral Pool and if BNPP B.V. were to fail to comply with its obligations (where applicable) to make adjustments to the Collateral Assets in a Collateral Pool following a Collateral Valuation Date, Holders of Secured Securities may be exposed to fluctuations in the marked to market value of other series of Secured Securities which are secured by the same Collateral Pool where MTM Collateralisation or Partial MTM Collateralisation is applicable to such other series of Secured Securities. In such circumstances, if the marked to market value of such other series of Secured Securities to which MTM Collateralisation or Partial MTM Collateralisation applies increases (such Secured Securities, "**Increased MTM Securities**") prior to the Collateral Valuation Date immediately

preceding the occurrence of an Enforcement Event and additional Collateral Assets (or alternative Collateral Assets with a higher value) have not been delivered to the relevant Collateral Account by BNPP B.V., a lower Aggregate Collateral Proceeds Share upon enforcement of the relevant Pledge Agreement will be determined in respect of series of Secured Securities whose marked to market value has not increased to the same extent, or to which Nominal Value Collateralisation or Partial Nominal Value Collateralisation applies (such Secured Securities, "**Affected Securities**"), than would have been the case if such Affected Securities were not secured by the same Collateral Pool as the Increased MTM Securities with the result that the proceeds of realisation of the Collateral Assets available to be distributed to the Holders of Affected Securities will be reduced.

#### *Nature of security*

The security granted by BNPP B.V. under the Pledge Agreements is a security interest over the accounts in which the Collateral Assets are held and does not extend to any interest or distributions paid on such Collateral Assets (to the extent such amounts are not held in the relevant Collateral Accounts). No security interest will be granted by BNPP B.V. over any of its rights under any agreement (including, without limitation, any swap agreement or repurchase agreement) under which it acquires any Collateral Assets or its rights against the Collateral Custodian. This means that the Collateral Agent will have no ability to compel BNPP B.V. to enforce its rights (or to enforce such rights on behalf of BNPP B.V.) against a Repo Counterparty or Swap Counterparty, other counterparty or the Collateral Custodian whereas, if the Collateral Agent did have such rights, this could lead potentially to additional sums being available to pay amounts due in respect of the Secured Securities.

In addition, or as an alternative, to a Luxembourg law governed pledge agreement, the security interest granted by BNPP B.V. in respect of the Collateral Assets in a Collateral Pool may take a different form and may be governed by a different governing law, all as specified in the applicable Final Terms. References in these Risk Factors to a "Pledge Agreement" shall be construed accordingly as a reference to the applicable security arrangement entered into by BNPP B.V. in respect of a Collateral Pool, unless the context requires otherwise.

#### *Enforcement of the security*

Following delivery of a Default Notification by a Holder in respect of the occurrence of an Event of Default, the Collateral Agent is only obliged to deliver an Enforcement Notice and enforce the Pledges if BNPP B.V. has not delivered a notice prior to the end of the Dispute Period specifying that it reasonably believes that the Event(s) of Default referred to in the relevant Default Notification have not occurred, together with reasonable evidence supporting BNPP B.V.'s belief. Although BNPP B.V. must have a reasonable belief that no Event of Default has occurred and provide reasonable evidence supporting such belief, any delivery of such a notice by BNPP B.V. may mean that the security in respect of the Secured Securities is not enforced or that there will be a delay between the service of the Default Notification and the enforcement of the Pledge(s). The Collateral Agent is not obliged to deliver an Enforcement Notice or enforce the Pledge(s) or take any other action if it reasonably believes that it would not be able to recover its costs or other liabilities which would be incurred in connection with such action from the relevant Collateral Assets or otherwise or would experience an unreasonable delay in doing so.

#### *Early redemption or cancellation at the option of BNPP B.V. upon an Increased Cost of Collateral Assets or Collateral Disruption*

In addition to the risks relating to Additional Disruption Events described in this Base Prospectus, further Additional Disruption Events will apply to Secured Securities which may increase the possibility of the Secured Securities being redeemed or cancelled early. These further Additional Disruption Events are Increased Cost of Collateral Assets and Collateral Disruption. In the event that BNPP B.V. and/or any of its Affiliates (i) would incur materially increased costs (as compared with the circumstances existing on the Trade Date relating to the relevant Secured Securities) in acquiring, borrowing or disposing of Collateral Assets or

establishing, maintaining or unwinding any transaction entered into by BNPP B.V. and/or any of its Affiliates relating to the Collateral Assets or (ii) are unable, after using commercially reasonable efforts, to (a) acquire, establish, unwind or dispose of any transaction(s) or assets or any futures or option contracts it deems necessary to obtain Collateral Assets (b) acquire or substitute Collateral Assets (including without limitation as a result of adverse market conditions or a lack of liquidity in the market) or (c) freely realise, recover, receive, or transfer the proceeds of any such transaction(s), assets(s) or futures or option contract(s) or any relevant hedge positions relating to the Collateral Assets (including without limitation as a result of adverse market conditions or a lack of liquidity in the market), BNPP B.V. may in its sole and absolute discretion redeem or cancel, as applicable, all of the relevant Secured Securities.

*Early redemption or cancellation at the option of the Issuer upon a Collateral Asset Default*

Where Collateral Asset Default is specified to be an Optional Additional Disruption Event in respect of a series of Secured Securities, Holders of such Secured Securities will be exposed to the credit risk of the Collateral Assets in the relevant Collateral Pool as well as the credit risk of BNPP B.V. and the Guarantor. Where such Optional Additional Disruption Event occurs and the Collateral Assets become due and payable prior to their stated maturity date other than by reason of default in payment, Holders will receive a share of the redemption proceeds received by BNPP B.V. in respect of such Collateral Assets in satisfaction of BNPP B.V.'s obligations in respect of the relevant Secured Securities. If the Collateral Assets become due and payable prior to their stated maturity date by reason of default in payment, Holders will receive a *pro rata* share of the proceeds of sale of the Collateral Assets (after the payment of costs and expenses incurred in or relating to such sale) or, if so specified in the applicable Final Terms, Collateral Assets will be delivered to the Holders in satisfaction of BNPP B.V.'s obligations in respect of the relevant Secured Securities.

Investors should conduct their own investigation and analysis with respect to the creditworthiness of the Collateral Assets Issuer and the Collateral Assets and the likelihood of the occurrence of a Collateral Asset Default.

None of BNPP B.V., the Collateral Calculation Agent, the Collateral Agent or the Calculation Agent or any of their respective Affiliates has any obligation to keep investors informed as to any matters with respect to the Collateral Assets, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Collateral Asset Default with respect to the Collateral Assets.

Prospective investors should note that there is no requirement for BNPP B.V. to give information which is generally publicly available in relation to the occurrence of a Collateral Asset Default. If a Collateral Asset Default occurs in respect of the relevant Collateral Assets which is not public, Holders of the Secured Securities may not be able to verify the occurrence of such Collateral Asset Default.

*Early redemption or cancellation at the option of BNPP B.V. upon a Collateral Asset Issuer Default*

Where Collateral Asset Issuer Default is specified to be an Optional Additional Disruption Event in respect of a series of Secured Securities, Holders of such Secured Securities will be exposed to the credit risk of the Collateral Asset Issuer in the relevant Collateral Pool as well as the credit risk of BNPP B.V. and the Guarantor. Where such Optional Additional Disruption Event occurs and the Collateral Assets become due and payable prior to their stated maturity date other than by reason of default in payment, Holders will receive a share of the redemption proceeds received by BNPP B.V. in respect of such Collateral Assets in satisfaction of BNPP B.V.'s obligations in respect of the relevant Secured Securities. If the Collateral Assets become due and payable prior to their stated maturity date by reason of default in payment, Holders will receive a *pro rata* share of the proceeds of sale of the Collateral Assets (after the payment of costs and expenses incurred in or relating to such sale) or, if so specified in the applicable Final Terms, Collateral Assets will be delivered to the Holders in satisfaction of BNPP B.V.'s obligations in respect of the relevant Secured Securities.

Investors should conduct their own investigation and analysis with respect to the creditworthiness of the Collateral Asset Issuer and the Collateral Assets and the likelihood of the occurrence of a Collateral Asset Issuer Default.

None of BNPP B.V., the Collateral Calculation Agent, the Collateral Agent or the Calculation Agent or any of their respective Affiliates has any obligation to keep investors informed as to any matters with respect to the Collateral Asset Issuer or the Collateral Assets, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Collateral Asset Issuer Default.

Prospective investors should note that there is no requirement for BNPP B.V. to give information which is generally publicly available in relation to the occurrence of a Collateral Asset Issuer Default. If a Collateral Asset Issuer Default occurs which is not public, Holders of the Secured Securities may not be able to verify the occurrence of such Collateral Asset Issuer Default.

#### *Subordination of Holders to payment of expenses and other payments*

On enforcement of the Pledge Agreements, the rights of the Holders to be paid amounts from the proceeds of such enforcement and realisation of the Collateral Assets may be subordinate to (i) any fees and expenses incurred in such enforcement and realisation of the Collateral Assets and (ii) prior rights of the parties (if any) identified in the applicable Priority of Payments or in the applicable Collateral Security Conditions (which may, without limitation, include the Swap Counterparty and/or Repo Counterparty) to be paid amounts due from BNPP B.V. in priority to the Holders from the proceeds of such enforcement and realisation of the Collateral Assets. Such amounts which may be paid in priority may include, without limitation, termination payments due from BNPP B.V. to the Repo Counterparty under any Repurchase Agreement entered into with respect to such series of Secured Securities and/or termination payments due from BNPP B.V. to the Swap Counterparty under any Swap Agreement entered into with respect to such series of Secured Securities. The degree of subordination of the rights of the Holders may have an impact on the amount received by a Holder in the event of enforcement of the security.

#### *Physical Delivery of Collateral*

If Physical Delivery of Collateral is specified in respect of a series of Secured Securities upon enforcement of the Pledge Agreement, the Collateral Agent will not sell the Collateral Assets which are subject to such physical delivery (unless there is a Collateral Settlement Disruption Event) but will deliver the Collateral Assets in the manner set out in the Collateral Security Conditions. In such cases, although the Collateral Assets will be sufficient to pay investors an amount equal to the Nominal Value or Partial Nominal Value of the Secured Securities (as applicable) on their scheduled Redemption Date, investors wishing to sell the Collateral Assets before such date may not be able to realise the same value on the secondary market prior to the Redemption Date and the price of the Collateral Assets will be subject to change according to market conditions.

#### *Collateral Settlement Disruption Event*

When Physical Delivery of Collateral is applicable, if a Collateral Settlement Disruption Event occurs or exists on the Collateral Delivery Date, settlement will be postponed until the next Business Day on which there is no Collateral Settlement Disruption Event. If such Collateral Settlement Disruption Event continues for a period of not more than eight Business Days after the original Collateral Delivery Date, the Collateral Agent will procure the sale of such Collateral Assets in lieu of delivery of the Entitlement. The amount received by a Holder following such sale of Collateral Assets may be lower than the amount which a Holder would have received if the relevant Collateral Assets had been delivered to it and the Holder held the relevant Collateral Assets to the maturity date of such assets or sold such assets at a different point in time.

#### *Scope of guarantee*

The guarantee in respect of Secured Securities provided by BNPP is in respect of BNPP B.V.'s obligation to pay a Shortfall only and does not extend to any obligation of BNPP B.V. to deliver any securities or pay any other amount and is therefore more limited in scope than the guarantee provided by BNPP in respect of Securities which are not Secured Securities.

#### *Collateral Security Credit Certificates*

The risk factors set out in the Base Prospectus relating to Credit Securities shall also apply to Collateral Security Credit Certificates and, for such purpose, any reference in those risk factors to Credit Securities and Credit Certificates shall be deemed to be a reference to Collateral Security Credit Certificates.

### **5. Additional Risks Associated with Collateral Asset Linked Securities**

#### *Additional Risks Associated with Secured Securities*

The risk factors set out in the Base Prospectus relating to Secured Securities apply to Collateral Asset Linked Securities, save that the following risk factors are not applicable: "Adjustments to Collateral Pool where Collateral Assets are securities", "Adjustments to Collateral Pool where the Collateral Asset is a cash deposit", "Early redemption or cancellation at the option of BNPP B.V. upon a Collateral Asset Default", "Early redemption or cancellation at the option of BNPP B.V. upon a Collateral Asset Issuer Default" and "Physical Delivery of Collateral".

#### *Credit risk on the Reference Collateral Asset Issuer*

Upon the occurrence of any Collateral Asset Default or Collateral Default Event, the Holders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Collateral Asset Issuer. However, the holding of a Collateral Asset Linked Security is unlikely to lead to outcomes which exactly reflect the impact of directly investing in the Reference Collateral Assets, and losses could be considerably greater than would be suffered by a direct investor in the Reference Collateral Assets and/or could arise for reasons unrelated to such Reference Collateral Assets. Holders should also note that a Collateral Asset Default or Collateral Default Event may occur even if the obligations of the Reference Collateral Asset Issuer under the Reference Collateral Assets are unenforceable or their performance are prohibited by any applicable law or exchange controls.

#### *Actions of Reference Collateral Asset Issuer*

Actions of the Reference Collateral Asset Issuer (for example, the repayment or transfer of indebtedness) may adversely affect the value of the Collateral Asset Linked Securities.

#### *No confidential information*

BNPP B.V. and the Calculation Agent are not obliged to disclose to holders of the Collateral Asset Linked Securities any confidential information which they may have at the Issue Date or receive thereafter in relation to the Reference Collateral Asset Issuer or the Reference Collateral Assets.

#### *Compounding of risks*

Various risks relating to the Collateral Asset Linked Securities may be correlated or compounded and such correlation and/or compounding may result in increased volatility in the value of the Collateral Asset Linked Securities and/or in increased losses for holders of the Collateral Asset Linked Securities.

### *Historical performance may not predict future performance*

The Reference Collateral Assets may not perform as indicated by the historical performance of similar obligations issued by the Reference Collateral Asset Issuer and no assurance can be given with respect to the future performance of the Reference Collateral Assets. Historical default statistics may not capture events that would constitute Collateral Asset Defaults or Collateral Default Events for the purposes of the Collateral Asset Linked Securities.

### *Consultation Period*

Where a Distributor is specified in the applicable Final Terms for a series of Collateral Asset Linked Securities and a Collateral Asset Default or Collateral Default Event, as applicable, may have occurred, the Calculation Agent will consult with the Distributor as to whether a Collateral Asset Default or Collateral Default Event, as applicable, has occurred for a period of up to five Business Days. If the Calculation Agent and the Distributor do not agree whether a Collateral Asset Default or Collateral Default Event, as applicable, has occurred, the Calculation Agent will obtain the views of three participants in the relevant market for the Reference Collateral Assets as to whether a Collateral Asset Default or Collateral Default Event, as applicable, has occurred. If a Collateral Asset Default or Collateral Default Event, as applicable, has occurred, the requirement to consult with the Distributor and, potentially, with market participants could lead to a delay in BNPP B.V. redeeming the Collateral Asset Linked Securities and as a consequence Holders may potentially suffer a loss if the value of the Option and/or the Reference Collateral Assets decline in the period when the relevant consultation(s) is taking place.

### *Limited provision of information about the Reference Collateral Assets*

Investors should conduct their own investigation and analysis with respect to the creditworthiness of the Reference Collateral Asset Issuer and the likelihood of the occurrence of a Collateral Asset Default or Collateral Default Event, as applicable.

None of BNPP B.V. or the Calculation Agent or any of their respective Affiliates has any obligation to keep investors informed as to any matters with respect to the Reference Collateral Assets, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Collateral Asset Default or Collateral Default Event, as applicable, with respect to the Reference Collateral Assets.

Prospective investors should note that there is no requirement for BNPP B.V. to give information which is generally publicly available in relation to the occurrence of a Collateral Asset Default or Collateral Default Event, as applicable. If a Collateral Asset Default or Collateral Default Event, as applicable, occurs in respect of the relevant Reference Collateral Assets which is not public, Holders of the Collateral Asset Linked Securities may not be able to verify the occurrence of such Collateral Asset Default or Collateral Default Event, as applicable.

### *Adjustments to amount of MTM Adjustable Assets in Collateral Pool (MTM Collateralisation Element)*

The following risk factor applies in respect of Collateral Asset Linked Securities other than where MTM Adjustable Assets are specified as being "not applicable". BNP Paribas Arbitrage S.N.C. as the Collateral Calculation Agent will calculate the marked to market value of the portion of the Option that relates to Secured Securities that are held by parties other than BNPP B.V. or any of its Affiliates (such securities, the "**Placed Secured Securities**") and the marked to market value of the MTM Adjustable Assets in the relevant Collateral Pool (taking into account all factors which the Collateral Calculation Agent deems relevant) on every Collateral Valuation Date, provided that no account will be taken of the financial condition of (i) BNPP B.V. which shall be presumed to be able to perform fully its obligations under the Secured Securities or (ii) the relevant Guarantor which shall be presumed to be able to perform fully its obligations under the Guarantee.

In the event that on the relevant Collateral Valuation Date there is a difference between (a) the marked to market value of the MTM Adjustable Assets in the relevant Collateral Pool (the "**Collateral Value**") and (b) the sum of, in respect of each series of Secured Securities secured by such Collateral Pool, the marked to market value of the portion of the Option that relates to Placed Secured Securities (such sum the "**Securities Value**"), BNPP B.V. will procure that further MTM Adjustable Assets are delivered to the Collateral Account (or substitute existing MTM Adjustable Assets with MTM Adjustable Assets with a greater value) if the Collateral Value is less than the Securities Value or will be entitled to remove MTM Adjustable Assets from the Collateral Account if the Collateral Value is in excess of the Securities Value prior to such adjustment. Following any such adjustment in respect of MTM Adjustable Assets on any Collateral Valuation Date, the Collateral Value is expected to be equal to the Securities Value prior to such adjustment. Investors, nevertheless, will be exposed to the difference between the Securities Value and the Collateral Value prior to any such adjustment.

In the event that BNPP B.V. is required to deliver additional MTM Adjustable Assets or alternative MTM Adjustable Assets, BNPP B.V. shall do so as soon as practicable following the relevant Collateral Valuation Date. There may be a delay between the Collateral Valuation Date and the date on which BNPP B.V. is able to deliver such additional or alternative MTM Adjustable Assets and investors will be exposed to the difference between the marked to market value of the Collateral Asset Linked Securities and the marked to market value of the MTM Adjustable Assets during such period.

*No option collateralisation in respect of Notional Value Collateral Asset Linked Securities*

In respect of any Collateral Asset Linked Securities the MTM Adjustable Assets for which are specified as being "not applicable" ("**Notional Value Collateral Asset Linked Securities**"), the above risk factor headed "Adjustments to amount of MTM Adjustable Assets in Collateral Pool (MTM Collateralisation Element)" shall not apply. In such case, only the Notional Amount of the Certificates will be collateralised although an amount will be payable by the Issuer equal to the positive marked to market value (if any) of the Option that relates to Secured Securities that are held by parties other than BNPP B.V. or any of its Affiliates (the "**Security MTM Termination Amount**"). This means that, in the event of an Enforcement Event, the Holders will be exposed to the credit risk of the Issuer and the Guarantor in order to receive payment of the relevant Security MTM Termination Amount (if any) and there will be no Collateral Assets in the Collateral Pool collateralising such payment obligation.

*Adjustments to amount of Reference Collateral Assets held in Collateral Pool (Nominal Value Collateralisation Element)*

In respect of the aggregate Notional Amount of any Placed Secured Securities secured by the relevant Collateral Pool, Nominal Value Collateralisation will apply and therefore BNPP B.V. will hold sufficient Reference Collateral Assets to secure the aggregate Notional Amount of the Collateral Asset Linked Securities held by parties other than BNPP B.V. or any of its Affiliates on the Issue Date. There will be no adjustments to the amount of Reference Collateral Assets in the Collateral Pool during the tenor of the Securities to reflect the changing marked to market values or notional amounts of either the Reference Collateral Assets or the Collateral Asset Linked Securities, provided that where the BNPP Holding increases, the amount of Reference Collateral Assets shall be reduced so that, at any time, only the aggregate Notional Amount of the Placed Secured Securities will be collateralised by the Reference Collateral Assets.

*No collateralisation in respect of Collateral Asset Linked Securities held by BNPP B.V. or its Affiliates*

BNPP B.V. will not hold collateral (in the form of either MTM Adjustable Assets or Reference Collateral Assets) in respect of (i) the aggregate Notional Amount of the Collateral Asset Linked Securities that are held by BNPP B.V. or any of its Affiliates and (ii) the portion of the Option that relates to Collateral Asset Linked Securities held by BNPP B.V. or any of its Affiliates.

#### *Early redemption upon a Collateral Asset Default or Collateral Default Event*

Collateral Asset Default or Collateral Default Event, as the case may be, will be an Optional Additional Disruption Event in respect of the Collateral Asset Linked Securities. Accordingly, Holders of the Collateral Asset Linked Securities will be exposed to the credit risk of the Reference Collateral Asset Issuer as well as the credit risk of BNPP B.V. and the Guarantor and, for the avoidance of doubt, upon the occurrence of such Optional Additional Disruption Event, no Shortfall will be determined. Where such Optional Additional Disruption Event occurs, Holders will receive a *pro rata* share of the Reference Collateral Assets which secured the series of Collateral Asset Linked Secured Securities they held in satisfaction of BNPP B.V.'s obligations in respect of the aggregate Notional Amount of such Collateral Asset Linked Securities and BNPP B.V. shall pay an amount equal to the marked to market value of the Option to Holders.

#### *Physical Delivery of Reference Collateral Assets*

Upon enforcement of the Pledge Agreement, the Collateral Agent will not sell the Reference Collateral Assets (unless there is a Collateral Settlement Disruption Event) but will deliver the Reference Collateral Assets in the manner set out in the Collateral Security Conditions. In such cases, although the Reference Collateral Assets will be sufficient to pay investors an amount equal to the nominal value of the Collateral Asset Linked Securities or part of the nominal value of the Collateral Asset Linked Securities (as applicable) on their scheduled Redemption Date, investors wishing to sell the Reference Collateral Assets before such date may not be able to realise the same value on the secondary market prior to the Redemption Date and the price of the Reference Collateral Assets will be subject to change according to market conditions. The marked to market value of the Reference Collateral Assets which are delivered to Holders may, at the time they are so delivered, be lower or substantially lower than the nominal value (or part thereof) of the relevant Collateral Asset Linked Securities which they secured. As a result, Holders may not be able to recover an amount equal to such nominal amount of such Reference Collateral Assets until the Reference Collateral Assets mature or are redeemed in accordance with their terms and Holders will be exposed to the ability of the Reference Collateral Asset Issuer to make such payments.

#### *Collateral Settlement Disruption Event*

If a Collateral Settlement Disruption Event occurs or exists on the Collateral Delivery Date, settlement will be postponed until the next Business Day on which there is no Collateral Settlement Disruption Event. If such Collateral Settlement Disruption Event continues for a period of not more than eight Business Days after the original Collateral Delivery Date, the Collateral Agent will procure the sale of the Reference Collateral Assets in lieu of delivery of the Entitlement. The amount received by a Holder following such sale of the Reference Collateral Assets may be lower than the amount which a Holder would have received if its share of the Reference Collateral Assets had been delivered to it and the Holder held the Reference Collateral Assets to the maturity date of such assets or sold such assets at a different point in time.

#### *Scope of guarantee*

The guarantee in respect of Secured Securities provided by BNPP is in respect of BNPP B.V.'s obligation to pay a Shortfall only and does not extend to any obligation of BNPP B.V. to deliver the Reference Collateral Assets or pay any other amount and is therefore more limited in scope than the guarantee provided by BNPP in respect of Securities which are not Secured Securities.

#### *Early redemption following the occurrence of a Hedging Failure*

Where Hedging Failure is specified as applicable in the applicable final terms and the Issuer and/or its affiliates enters into hedging arrangements (including collateralisation arrangements relating to, and as part of, such hedging arrangements) with third parties, including the Reference Collateral Asset Issuer, and the Issuer

subsequently becomes unable to maintain such hedging arrangements (and/or the collateralisation arrangements which form part of such hedging arrangements), after using commercially reasonable efforts, it shall redeem the certificates early and investors may suffer a significant loss. Where Hedging Failure applies to a series of Secured Securities and Collateral Asset Default or Collateral Default Event is also applicable in respect of such Secured Securities, investors should be aware that they may be exposed to the credit risk of the Reference Collateral Asset Issuer in respect of both the Reference Collateral Assets and any hedging arrangements (and/or the collateralisation arrangements which form part of such hedging arrangements) that the Issuer and/or its affiliates has entered into with the Reference Collateral Asset Issuer. In exercising their rights under such hedging arrangements (and/or the collateralisation arrangements which form part of such hedging arrangements), the Issuer and/or its affiliates will have no responsibility to take investors' interests into account and may act in a way that results in the occurrence of a Hedging Failure with the consequences described in this paragraph.

## **6. Additional Factors Relating to Disruption and Adjustments**

### *Additional Disruption Events and Optional Additional Disruption Events*

If an Additional Disruption Event occurs, or any Optional Additional Disruption Event specified in the applicable Final Terms occurs (other than in respect of a Failure to Deliver due to Illiquidity), the Securities may be subject to adjustment (including, in the case of Share Securities linked to a Basket of Shares, adjustments to the Basket of Shares), cancellation (in the case of Warrants) or early redemption (in the case of Notes and Certificates) or the amount payable on scheduled redemption (in the case of Notes and Certificates) may be different from the amount expected to be paid at scheduled redemption. In the case of Index Securities linked to a Custom Index the occurrence of an Additional Disruption Event or Optional Redemption Event specified in the applicable Final Terms may lead to the selection of a successor Index.

The Additional Disruption Events relate to changes in law (including changes in tax or regulatory capital requirements) and hedging disruptions in respect of any hedging transactions relating to the Securities (both as more fully set out in the Conditions).

If a Failure to Deliver due to Illiquidity occurs:

- (A) subject as provided in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Settlement Date (in the case of Warrants) or Redemption Date (in the case of Notes and Certificates) and (in the case of Warrants) the Calculation Agent shall determine in its discretion the appropriate pro rata portion of the Exercise Price to be paid by the relevant Holder in respect of that partial settlement; and
- (B) in respect of any Affected Relevant Assets, in lieu of physical settlement, except in the case of U.S. Securities (in which case another price or prices will be specified in the applicable Final Terms), the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Security or in the case of Warrants, if Units are specified in the applicable Final Terms, Unit, as the case may be, by payment to the relevant Holder of the Failure to Deliver Settlement Price on the fifth Business Day following the date that notice of such election is given to the Holders in accordance with the relevant Conditions. Payment of the Failure to Deliver Settlement Price will be made in such manner as shall be notified to the Holders.

Consequently the occurrence of an Additional Disruption Event and/or an Optional Additional Disruption Event may have an adverse effect on the value or liquidity of the Securities.

#### *Market Disruption Events or failure to open of an exchange*

If an issue of Securities includes provisions dealing with the occurrence of a Market Disruption Event or failure to open of an exchange on a date for valuation of an Underlying Reference and the Calculation Agent determines that a Market Disruption Event or failure to open of an exchange has occurred or exists on such valuation date, any consequential postponement of the valuation date, or any alternative provisions for valuation provided in any Securities may have an adverse effect on the value and liquidity of such Securities.

The occurrence of such a Market Disruption Event or failure to open of an exchange in relation to any Underlying Reference comprising a basket may also have such an adverse effect on Securities related to such basket. In addition, any such consequential postponement may result in the postponement of the relevant Settlement Date, Redemption Date or Maturity Date.

#### *Adjustment Events relating to Index Securities*

In the case of Index Securities, if a relevant Index is (i) not calculated and announced by the Index Sponsor in respect of the Index but is calculated and announced by a successor sponsor or successor entity, as the case may be, acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then, in each case, that index will be deemed to be the Index.

The occurrence of an Index Modification, an Index Cancellation or an Index Disruption (each being an "**Index Adjustment Event**") may (except as may be limited in the case of U.S. Securities) lead to (i) changes in the calculation of the relevant value or price (if the Calculation Agent determines such Index Adjustment Event has a material effect on the Securities), (ii) early cancellation of the Securities (in the case of Warrants), (iii) early redemption of the Securities (in the case of Notes and Certificates) or (iv) the amount payable on scheduled redemption of the Securities (in the case of Notes and Certificates) being different from the amount expected to be paid at scheduled redemption.

Any such adjustment may have an adverse effect on the value and liquidity of such Securities.

#### *Potential Adjustment Events relating to Share Securities*

In the case of Share Securities, except as may be limited in the case of U.S. Securities, following the declaration by the Basket Company or Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so, will make the corresponding adjustment, if any, to any terms of the Securities as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share). Such adjustment may have an adverse effect on the value and liquidity of the affected Share Securities.

#### *Extraordinary Events relating to Share Securities*

In the case of Share Securities the occurrence of an Extraordinary Event (as defined in the Share Security Conditions) in relation to a Share, may (except as may be limited in the case of U.S. Securities) lead to:

- (A) adjustments to any of the terms of the Securities (including, in the case of Share Securities linked to a Basket of Shares, adjustments to and/or substitution of constituent shares of the Basket of Shares);
- (B) in the case of Warrants, early cancellation in whole or, in the case of Share Securities relating to a Basket of Sharers, in part;

- (C) in the case of Notes and Certificates, early redemption in whole or, in the case of Share Securities relating to a Basket of Shares, in part or the amount payable on scheduled redemption being different from the amount expected to be paid at scheduled redemption;
- (D) the Calculation Agent making an adjustment to any terms of the Securities which corresponds to any adjustment to the settlement terms of options on the Shares traded on such exchanges(s) or quotation system(s)) as the Issuer in its sole discretion shall select (the "Option Exchange") or, if options on the Shares are not traded on the Options Exchange, the Calculation Agent making such adjustment, if any, to any terms of the Securities as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary Event that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded.

Following such cancellation or redemption, an investor generally would not be able to reinvest the relevant proceeds at an effective interest rate as high as the effective return on the relevant Securities being cancelled or redeemed and may only be able to do so at a significantly lower rate, and potential investors should consider reinvestment risk in light of other investments available at that time. Consequently the occurrence of an Extraordinary Event in relation to a Share may have an adverse effect on the value or liquidity of the Securities.

*Potential Adjustment Events relating to ETI Securities*

In the case of ETI Securities, except as may be limited in the case of U.S. Securities, following the declaration by the relevant exchange traded instruments or any person appointed to provide services directly or indirectly in respect of such exchange traded instrument, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the ETI Interests and, if so, will make the corresponding adjustment, if any, to any terms of the Securities as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant ETI Interest).

Any such adjustment may have an adverse effect on the value and liquidity of such Securities.

*Extraordinary Events relating to ETI Securities*

In the case of ETI Securities if certain events ("**Extraordinary ETI Events**") including events relating to Global Events, Litigation/Fraudulent Activity Events, Change in Related Parties/Key Persons Events, Modification Events, Net Asset Value/Investment/AUM Level Events, Tax/Law/Accounting/Regulatory Events, Hedging/Impracticality/Increased Costs Events and Miscellaneous Events in the determination of the Calculation Agent (acting in good faith and in a commercially reasonable manner) occur, the relevant Issuer may, in its sole and absolute discretion, adjust the terms of the Securities to reflect such event, substitute the relevant ETI Interests or cancel (in the case of Warrants) or redeem (in the case of Notes or Certificates) the Securities.

Consequently the occurrence of an Extraordinary ETI Event may have an adverse effect on the value or liquidity of the Securities.

The Issuer will exercise its rights under the ETI Security Conditions, including in particular the action it takes on the occurrence of an Extraordinary Fund Event, in its sole and absolute discretion. Subject to all regulatory obligations, none of the Issuer, the Guarantor (if any) or the Calculation Agent owes any duty or responsibility

to any of the Holders of the ETI Securities. The exercise of such rights in such manner may result in an increased loss in performance of the ETI Securities than if the Issuer had taken different action.

*Market Disruption Events relating to Commodity Securities*

If a Market Disruption Event occurs or is continuing on a date for valuation then:

- (A) the Calculation Agent will determine if such event has a material effect on the Securities and, if so, will calculate the relevant Interest Amount and/or Final Redemption Amount or Cash Settlement Amount and/or make another relevant calculation using, in lieu of a published price or level for the relevant Commodity or Commodity Index, the Commodity Fallback Value;
- (B) the Calculation Agent may substitute the relevant affected Commodity or Index Component with a Commodity or Index Component selected by it in accordance with the criteria set out in the Commodity Security Conditions and will make such adjustment, if any, to any terms of the Securities as the Calculation Agent in its sole and absolute discretion determines appropriate; or
- (C) the Issuer will cancel or redeem, as applicable, the Securities.

Consequently the occurrence of a Market Disruption Event in relation to a Commodity, Commodity Index or Index Component may have an adverse effect on the value or liquidity of the Securities.

*Adjustment Events relating to Commodity Index Securities*

In the case of a Securities linked to a Commodity Index, if a relevant Commodity Index is (i) not calculated and announced by the Index Sponsor in respect of the Commodity Index but is calculated and announced by a successor sponsor or successor entity, as the case may be, acceptable to the Calculation Agent, or (ii) replaced by a successor Commodity Index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then, in each case, that Commodity Index will be deemed to be the Commodity Index. The occurrence of a Commodity Index Modification, Commodity Index Cancellation or Commodity Index Disruption (each being a "**Commodity Index Adjustment Event**") may lead to:

- (A) the Calculation Agent determining the Relevant Price using, in lieu of a published level, the Commodity Fallback Value (if the Calculation Agent determines such Commodity Index Adjustment Event has a material effect on the Securities); or
- (B) cancellation or early redemption of the Securities.

Any such adjustment may have an adverse effect on the value and liquidity of such Securities.

*Other Events relating to Fund Securities*

In the case of Fund Securities, if certain events ("**Extraordinary Fund Events**") including events relating to Global Events, Litigation/Fraudulent Activity Events, Fund Service Provider/Key Person Events, Modification Events, NAV per Fund Share/AUM Level Events, Reporting Events, Tax/Law/Accounting/Regulatory Events, Hedging/Impracticality/Increased Costs Events, Dealing Events and Miscellaneous Events in the determination of the Calculation Agent (acting in good faith and in a commercially reasonable manner) occur, the Issuer may, in its sole and absolute discretion, adjust the terms of the Securities to reflect such event, substitute the relevant Fund Shares or cancel (in the case of Warrants) or redeem (in the case of Notes or Certificates) the Securities.

Consequently the occurrence of an Extraordinary Fund Event may have an adverse effect on the value or liquidity of the Securities.

In addition, in the event that redemption proceeds in respect of the underlying Fund Shares are not received by the Hedge Provider on or prior to the scheduled date for redemption or settlement, as the case may be, such redemption or settlement date may be postponed for a period of up to two calendar years (or such other period as may be specified in the applicable Final Terms) and no additional amount shall be payable as a result of such delay.

The Issuer will exercise its rights under the Fund Security Conditions, including in particular the action it takes on the occurrence of an Extraordinary Fund Event, in its sole and absolute discretion. Subject to all regulatory obligations, none of the Issuer, the Guarantor (if any) or the Calculation Agent owes any duty or responsibility to any of the Holders of the Fund Securities. The exercise of such rights in such manner may result in an increased loss in performance of the Fund Securities than if the Issuer had taken different action.

#### *Settlement Disruption Events*

In the case of Physical Delivery Securities, if a Settlement Disruption Event occurs or exists on the Settlement Date or the Redemption Date respectively, settlement will be postponed until the next Settlement Business Day in respect of which there is no Settlement Disruption Event. The relevant Issuer in these circumstances also has the right to pay the Disruption Cash Settlement Price or Disruption Cash Redemption Amount (as defined below) in lieu of delivering the Entitlement. As further described below, the Disruption Cash Settlement Price or Disruption Cash Redemption Amount may be less than the fair market value of the Entitlement.

*The occurrence of a FX Settlement Disruption Event may lead to postponement or payment in an alternative currency*

If "FX Settlement Disruption" applies to the Securities, and the Calculation Agent determines on the second Business Day prior to the relevant due date for payment (the "**FX Disrupted Payment Date**") that a FX Settlement Disruption Event has occurred and is subsisting, investors should be aware that payments of principal and/or interest (if applicable) may (i) occur at a different time than expected and that no additional amount of interest or premium amount will be payable in respect of any delay in payment of principal and/or interest or premium amount and (ii) be made in USD (the "**FX Settlement Disruption Currency**"). In certain circumstances, the rate of exchange used to convert the Specified Currency and/or Settlement Currency into the FX Settlement Disruption Currency, may not be the market rate of exchange for such currencies, and in some cases, may be determined by the Calculation Agent in its discretion.

#### *Option to Vary Settlement*

If so indicated in the Final Terms, the Issuer may, in its sole and absolute discretion, elect to vary the settlement of the Securities, by (i) in the case of cash settled securities, delivering or procuring delivery of the Entitlement instead of making payment of the Final Redemption Amount or the Cash Settlement Amount, as applicable, to the relevant Holders or (ii) in the case of physical delivery securities, making payment of the Final Redemption Amount or the Cash Settlement Amount, as applicable, to the relevant Holders instead of delivering or procuring delivery of the Entitlement.

#### *Option to Substitute Assets or to Pay the Alternate Cash Amount or Alternate Cash Redemption Amount*

The Issuer may, in its sole and absolute discretion, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprise assets which are not freely tradable, elect either (i) to substitute a Substitute Asset or Substitute Assets, as the case may be, for the Relevant Asset or Relevant Assets or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant holders, but in lieu thereof to make payment to the relevant holders on the Settlement Date of the Alternate Cash Amount or Alternate Cash Redemption Amount, as applicable.

**7. Securities Subject to Optional Redemption, Cancellation or Early Exercise by the Relevant Issuer or Other Early Redemption or Cancellation**

An optional, other early redemption (or cancellation) or early exercise feature is likely to limit the market value of the Securities. In the case of Notes or Certificates having an optional redemption (or cancellation) feature, during any period when the relevant Issuer may elect to redeem (or cancel) the relevant Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed (or cancelled). This also may be true prior to any redemption (or cancellation) period. In addition, the Final Terms may provide that the relevant Securities shall be redeemed (or cancelled) early in specified circumstances. Following an optional or early redemption (or cancellation), a Holder generally would not be able to reinvest the redemption (or cancellation) proceeds (if any) at an effective interest rate as high as the interest rate on the relevant Securities being redeemed (or cancelled), and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

**8. Interest**

*Interest linked to an Underlying Reference*

Interest payable on Linked Interest Notes or Certificates may be determined by reference to an Underlying Reference or combinations of a number of different Underlying References. Potential investors should be aware that:

- (A) the market price of such Securities may be volatile;
- (B) they may receive no interest;
- (C) payment of interest may occur at a different time or in a different currency than expected;
- (D) an Underlying Reference may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (E) if an Underlying Reference is applied to Notes or Certificates in conjunction with a weighting greater than one or contains some other leverage factor, the effect of changes in the Underlying Reference on interest payable will be magnified;
- (F) the timing of changes in an Underlying Reference may affect the actual yield to investors, even if the average level is consistent with their expectations (in general, the earlier the change in the Underlying Reference, the greater the effect on yield); and
- (G) interest may only be payable and/or calculated in respect of certain specified days and/or periods on or during which the Underlying Reference or its value equals, exceeds and/or is less than certain specified thresholds.

**9. Limited Exposure to Underlying Reference**

If the applicable Final Terms provide that the exposure of the relevant Securities to one or more Underlying References is limited or capped at a certain level or amount, the relevant Securities will not benefit from any upside in the value of any such Underlying References beyond such limit or cap.

**10. Certain Additional Risk Factors Associated with Notes**

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Securities may be

traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Securities at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time (i) may not be able to transfer such Securities and (ii) may not receive a definitive Security in respect of such holding (should definitive Securities be printed) and in each case would need to purchase a principal amount of Securities at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If definitive Securities are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

#### *No Gross Up in respect of certain Series of Notes*

If the applicable Final Terms specify that Condition 6.4 (No Gross-up) of the Terms and Conditions of the Notes is applicable, the Issuer or, as applicable, the Guarantor is not obliged to gross up any payments in respect of the Notes and shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Security and all payments made by the Issuer or, as applicable, the Guarantor shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

#### *Dual Currency Notes*

The Issuers may issue Notes with principal and/or interest payable in a currency which may be different from the currency in which the Notes are denominated ("**Dual Currency Notes**"). In addition to the risk factors that may apply to Notes and to Notes linked to an Underlying Reference in general, potential investors should be aware that in relation to Dual Currency Notes:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) payment of principal and interest (if applicable) may occur at a different time or in a different currency than expected;
- (iv) in certain circumstances, Noteholders may need to specify additional information to receive a relevant currency (including an account in which they can receive amounts in the relevant currency) and payments of the relevant currency by the Issuer may be delayed, or in certain circumstances, the Issuer may be discharged from its payment obligations in respect of the Notes in the event that the Noteholders fail to specify such account within a prescribed period;
- (v) they may lose all or a substantial portion of their principal;
- (vi) there may be movements in currency exchange rates which may result in significant fluctuations that may not correlate with changes in interest rates, currencies or related factors;
- (vii) the exchange rate used to calculate amounts payable in the settlement currency may be fixed prior to, on or after the Issue Date meaning that investors will not benefit from favourable changes in exchange rates during the term of the Dual Currency Notes; and

- (viii) settlement in the Settlement Currency may result in a lower return than if settlement had been made in the Specified Currency due to the risk on the exchange rate.

## **11. Certain Additional Risk Factors Associated with Warrants**

### *Limitations on Exercise of Warrants*

If so indicated in the Final Terms, the Issuer will have the option to limit the number of Warrants exercisable on any date (other than the final exercise date) to the maximum number specified in the Final Terms and, in conjunction with such limitation, to limit the number of Warrants exercisable by any person or group of persons (whether or not acting in concert) on such date. In the event that the total number of Warrants being exercised on any date (other than the final exercise date) exceeds such maximum number and the Issuer elects to limit the number of Warrants exercisable on such date, a Holder may not be able to exercise on such date all the Warrants that such Holder desires to exercise. In any such case, the number of Warrants to be exercised on such date will be reduced until the total number of Warrants exercised on such date no longer exceeds such maximum, such Warrants being selected at the discretion of the Issuer. The Warrants tendered for exercise but not exercised on such date will be automatically exercised on the next date on which Warrants may be exercised, subject to the same daily maximum limitation and delayed exercise provisions.

### *Minimum Exercise Amount of Warrants*

If so indicated in the Final Terms, a Holder must tender or, in the case of automatic exercise, hold, a specified number of Warrants at any one time in order to exercise. Thus, Holders with fewer than the specified minimum number of Warrants will either have to sell their Warrants or purchase additional Warrants, incurring transaction costs in each case, in order to realise their investment. Furthermore, holders of such Warrants incur the risk that there may be differences between the trading price of such Warrants and the Cash Settlement Amount (in the case of Cash Settled Warrants) or the amount of the Entitlement (in the case of Physical Delivery Warrants) of such Warrants.

### *Time Lag after Exercise of Warrants*

In the case of any exercise of Warrants, there will be a time lag between the time a Holder gives instructions to exercise and the time the applicable Cash Settlement Amount (in the case of Cash Settled Warrants) relating to such exercise is determined. Any such delay between the time of exercise and the determination of the Cash Settlement Amount will be specified in the applicable Final Terms or the applicable Conditions. However, such delay could be significantly longer, particularly in the case of a delay in the exercise of Warrants arising from any daily maximum exercise limitation, the occurrence of a Market Disruption Event or the failure to open of an exchange (if applicable) or following the imposition of any exchange controls or other similar regulations affecting the ability to obtain or exchange any relevant currency (or basket of currencies) in the case of Currency Securities. The applicable Cash Settlement Amount may change significantly during any such period, and such movement or movements could decrease the Cash Settlement Amount of the relevant Warrants, and may result in such Cash Settlement Amount being zero.

## **12. Certain Additional Risk Factors Associated with Italian Dematerialised Securities and Italian Dematerialised Notes**

### *No physical document of title issued in respect of the Italian Dematerialised Securities or Italian Dematerialised Notes*

Italian Dematerialised Securities and Italian Dematerialised Notes issued under the Programme will be in dematerialised form and evidenced at any time through book entries pursuant to the relevant provisions of Italian legislative decree no. 58/1998, as amended and integrated by subsequent implementing provisions, and

in accordance with CONSOB and Bank of Italy Joint Regulation dated 22 February 2008, as amended and integrated by subsequent implementing provisions. In no circumstance would physical documents of title be issued in respect of the Italian Dematerialised Securities or Italian Dematerialised Notes. While the Italian Dematerialised Securities and Italian Dematerialised Notes are represented by book entries, investors will be able to trade their beneficial interests only through Monte Titoli S.p.A. ("**Monte Titoli**") and the authorised financial intermediaries holding accounts on behalf of their customers with Monte Titoli. As the Italian Dematerialised Securities and Italian Dematerialised Notes are held in dematerialised form with Monte Titoli, investors will have to rely on the procedures of Monte Titoli and the financial intermediaries authorised to hold accounts therewith, for transfer, payment and communication with the relevant Issuer or Guarantor (if any).

### **Exempt Securities**

The requirement to publish a prospectus under the Prospectus Directive only applies to Securities which are to be admitted to trading on a regulated market in the European Economic Area and/or offered to the public in the European Economic Area other than in circumstances where an exemption is available under Article 3.2 of the Prospectus Directive (as implemented in the relevant Member State(s)). Under this Base Prospectus, the Issuers may issue Exempt Securities (being Securities for which no prospectus is required to be published under the Prospectus Directive). In the case of Exempt Securities, any terms and conditions not contained in this Base Prospectus which are applicable to such Exempt Securities will be set out in a pricing supplement document (the "**Pricing Supplement**"). The Note Agency Agreement (as defined in the Note Conditions) sets out the form of Pricing Supplement for Exempt Securities which are Notes and the Agency Agreement (as defined in the W&C Security Conditions) sets out the form of Pricing Supplement for Exempt Securities which are W&C Securities. For the purposes of any Exempt Securities, references in the Conditions to "Final Terms" shall be deemed to include a reference to "Pricing Supplement".

## SECURITY AND COLLATERAL IN RESPECT OF SECURED SECURITIES

The following shall apply to Secured Securities only

### General

Only BNPP B.V. may issue Secured Securities. In order to secure its obligations in respect of the Secured Securities, BNPP B.V. will enter into one or more pledge agreements and/or other security arrangements with, among others, BNP Paribas Trust Corporation UK Limited which will, unless otherwise specified in the applicable Final Terms, be governed by Luxembourg law (each a **"Security Agreement"**). Under the Security Agreement, BNPP B.V. will grant first ranking security over securities accounts or cash accounts (each a **"Collateral Account"**) held by BNPP B.V. with BNP Paribas Securities Services, Luxembourg Branch or such other custodian or account bank as is specified for the relevant Collateral Pool in the applicable Final Terms (each a **"Collateral Custodian"**) in favour of BNP Paribas Trust Corporation UK Limited (the **"Collateral Agent"**) on behalf of itself and the relevant Holders. In each Collateral Account, BNPP B.V. will hold sufficient securities or cash which, upon delivery to the relevant Collateral Account, are Eligible Collateral (the **"Collateral Assets"**) to secure the marked to market value of the relevant Secured Securities (**"MTM Collateralisation"**) or a specified proportion of the marked to market value of the relevant Secured Securities (**"Partial MTM Collateralisation"**) or alternatively (and only where the relevant Secured Securities are Certificates) to secure the nominal value of such Secured Securities (**"Nominal Value Collateralisation"**) or to secure part of the nominal value of such Secured Securities (**"Partial Nominal Value Collateralisation"**). Whether or not MTM Collateralisation, Partial MTM Collateralisation, Nominal Value Collateralisation or Partial Nominal Value Collateralisation is applicable to a series of Secured Securities will be specified in the applicable Final Terms. Multiple series of Secured Securities may be secured by the Collateral Assets held in a single Collateral Account (each a **"Collateral Pool"**) if so specified in the relevant Final Terms.

### Adjustments to Collateral Pool where the Collateral Assets are securities

Unless specified otherwise in the applicable Final Terms, where the Collateral Assets are securities, on such periodic basis as is specified in the applicable Final Terms (each a **"Collateral Valuation Date"**), BNP Paribas Arbitrage S.N.C (or such other party specified in the applicable Final Terms) (the **"Collateral Calculation Agent"**) will determine (a) the marked to market value of the Collateral Assets in a Collateral Pool (the **"Collateral Value"**) and (b)(i) the sum of, in respect of each series of Secured Securities secured by the relevant Collateral Pool, the marked to market value of such Secured Securities (where MTM Collateralisation is applicable to a series of Secured Securities) or part of the marked to market value of such Secured Securities (where Partial MTM Collateralisation is applicable to a series of Secured Securities) and (ii) where Nominal Value Collateralisation or Partial Nominal Value Collateralisation is applicable to a series of Secured Securities, the aggregate nominal value or part of the aggregate nominal value of the relevant Secured Securities (such sum, the **"Securities Value"**). When determining the Collateral Value in respect of Collateral Assets in a Collateral Pool, the Collateral Calculation Agent may, if so specified in the applicable Final Terms, apply a "haircut" (being a percentage by which the market value of a Collateral Asset is discounted) which is designed to mitigate the depreciation in value of the relevant Collateral Asset in the period between the last valuation of the Collateral Asset and the realisation of such Collateral Asset. When determining the Securities Value on the basis of the marked to market value of the Secured Securities (or part of such marked to market value), the Collateral Calculation Agent shall take no account of the financial condition of (a) BNPP B.V. which shall be presumed to be able to perform fully its obligations in respect of the Secured Securities or, (b) the Guarantor which shall be presumed to be able to perform fully its obligations in respect of the Guarantee. Unless the applicable Final Terms specify that there will be no adjustments to the amount of Collateral Assets or that there are no Collateral Valuation Dates, in the event that on a Collateral Valuation Date there is a difference between the Collateral Value and the applicable Securities Value, BNPP B.V. will procure that further assets are delivered to the Collateral Account (or substitute existing Collateral Assets with Collateral Assets with a greater value) if the value of the Collateral Assets is less than the Securities Value prior to such adjustment or will be entitled to remove Collateral Assets from the Collateral Account if

the Collateral Value is in excess of the Securities Value prior to such adjustment. Following such adjustment in respect of Collateral Assets on any Collateral Valuation Date, the Collateral Value is expected to be equal to the Securities Value.

#### **Adjustments to Collateral Pool where the Collateral Asset is a cash deposit**

Where the Collateral Asset is a cash deposit, on each Collateral Valuation Date (if any) the Collateral Calculation Agent will determine only the Securities Value. When determining the Securities Value on the basis of the marked to market value of the Secured Securities (or part of such marked to market value), the Collateral Calculation Agent shall take no account of the financial condition of (a) BNPP B.V. which shall be presumed to be able to perform fully its obligations in respect of the Secured Securities or (b) the Guarantor which shall be presumed to be able to perform fully its obligations in respect of the Guarantee. Unless the applicable Final Terms specify that there will be no adjustments to the amount of Collateral Assets or that there are no Collateral Valuation Dates, in the event that on a Collateral Valuation Date there is a difference between the amount of cash standing to the credit of the Collateral Account (the "**Deposit Amount**") and the applicable Securities Value, BNPP B.V. will procure that further cash is deposited in the Collateral Account if the Deposit Amount is below the Securities Value prior to such adjustment or will be entitled to withdraw cash from the Collateral Account if the Deposit Amount is in excess of the Securities Value prior to such adjustment. Following such adjustment in respect of Collateral Assets on any Collateral Valuation Date, the Deposit Amount is expected to be equal to the Securities Value.

#### **Delivery of Collateral Assets**

In the event that BNPP B.V. is required to deliver or deposit additional Collateral Assets or alternative Collateral Assets in the Collateral Account, BNPP B.V. shall do so as soon as practicable following the relevant Collateral Valuation Date.

#### **Calculations**

The Collateral Agent will not be required to calculate or check the valuation of the relevant Secured Securities or the Collateral Assets prior to the enforcement of the Security Agreements. In connection with the distribution of the realisation proceeds from the Collateral Assets, the Collateral Agent may be required to determine the Security Termination Amount due in respect of each Secured Security and the Final Security Value in respect of such Secured Security. The Collateral Agent will determine the Final Security Value of a Secured Security on the basis of information obtained from the Collateral Calculation Agent.

The Final Terms applicable to a series of Secured Securities may specify that there are no Collateral Valuation Dates and that there will be no Collateral Calculation Agent in which case the Collateral Assets in a Collateral Pool will not be subject to adjustment as described above following their initial deposit in or delivery to the relevant Collateral Account.

#### **No collateralisation in respect of Secured Securities held by BNPP B.V. or any of its Affiliates**

There will be no collateralisation in respect of any Secured Securities beneficially owned by BNPP B.V. or any of its Affiliates. During the term of the relevant Secured Securities, where BNPP B.V. or any of its Affiliates is the beneficial owner of Secured Securities, it will not provide or hold any Collateral Assets in respect of such Secured Securities.

Following an Enforcement Event, BNPP B.V. or the Affiliate of BNPP B.V. that holds the Secured Securities will renounce and waive all rights (including as to payment) in respect of such Secured Securities and shall submit such Secured Securities for cancellation free of payment.

## Substitutions

In the period between Collateral Valuation Dates, BNPP B.V. may withdraw Collateral Assets from any Collateral Account but only if it replaces them with alternative Collateral Assets which have at least the same marked to market value (as of the previous Collateral Valuation Date) as those being replaced (where MTM Collateralisation or Partial MTM Collateralisation is applicable) or, where Collateral Assets have been provided in an amount equal to the nominal value of the relevant Secured Securities, the same nominal amount as those being replaced (where Nominal Value Collateralisation or Partial Nominal Value Collateralisation is applicable and where there are no Collateral Valuation Dates).

## Enforcement

Upon receipt of a notice from a Holder that an Event of Default has occurred (a "**Default Notification**"), BNPP B.V. may deliver a notice to the Collateral Agent and the relevant Holder stating that, in its reasonable belief, the relevant Event of Default has not occurred (such a notice, an "**Event Dispute Notice**"). If the Collateral Agent does not receive an Event Dispute Notice at or prior to the end of the Dispute Period, the Collateral Agent will deliver a notice to, among others, BNPP B.V. and the Collateral Custodian specifying that a Default Notification has been delivered, that no Event Dispute Notice has been received from BNPP B.V. within the Dispute Period with respect to such Default Notification and that, as a result, the Secured Securities are immediately due and payable (an "**Enforcement Notice**"). The Holders will receive a copy of such Enforcement Notice. Following delivery of an Enforcement Notice, the Collateral Agent will enforce the Security Agreement(s) in accordance with the terms thereof and will liquidate or realise the Collateral Assets in all the Collateral Pools, or appoint an agent to do so on its behalf, save where Physical Delivery of Collateral is specified as applicable to a series of Secured Securities, in which case the portion of the Collateral Assets held in respect of series of Secured Securities secured by the relevant Collateral Pool which are subject to Collateral Cash Settlement (if any) only will be liquidated. In accordance with the terms of the Secured Securities, the Collateral Agent will distribute the proceeds of such liquidation or realisation of a Collateral Pool to the Holders of the Secured Securities secured by such Collateral Pool where such Secured Securities are subject to Collateral Cash Settlement or, where Physical Delivery of Collateral is specified as applicable, arrange for delivery of the Collateral Assets in the relevant Collateral Pool or the portion of the Collateral Assets held in respect of series of Secured Securities which are subject to Physical Delivery of Collateral (where the Collateral Pool secures series of Secured Securities to which both Collateral Cash Settlement and Physical Delivery of Collateral applies) to the relevant Holders, in each case after payment of any costs and fees incurred in connection with the enforcement of the Security Agreement and, where applicable, after payment of any other amount which is payable in priority thereto in accordance with the applicable Priority of Payments set out in the applicable Final Terms or, as applicable, the applicable Collateral Security Conditions. The Collateral Assets in one Collateral Pool and the proceeds of enforcement from that Collateral Pool (if any) will not be available to satisfy amounts due in respect of any Secured Securities which are not secured by that Collateral Pool.

## Collateral Asset Linked Securities

Where the relevant Secured Securities are Collateral Asset Linked Securities, the paragraphs entitled "Adjustments to Collateral Pool where the Collateral Assets are securities" and "Adjustments to Collateral Pool where the Collateral Asset is a cash deposit" above will not apply.

### *Collateralisation*

In respect of the aggregate Notional Amount of any Secured Securities held by parties other than BNPP B.V. or any of its Affiliates (such Secured Securities, the "**Placed Secured Securities**") which are secured by the relevant Collateral Pool, Nominal Value Collateralisation will apply (the "**Nominal Value Collateralisation Element**").

In addition, BNPP B.V. will enter into an option with an affiliate of BNP Paribas to hedge its obligations to pay Scheduled Underlying Reference Linked Payments in respect of the Securities (the "**Option**"). The Issuer will hold in

the Collateral Account sufficient MTM Adjustable Assets (not including, for the avoidance of doubt, the Reference Collateral Assets that are held in the Collateral Account to collateralise the aggregate Notional Amount of the Placed Secured Securities) to collateralise the marked-to-market value of the portion of the Option that relates to the Placed Secured Securities (the "**MTM Collateralisation Element**").

In respect of (i) the aggregate Notional Amount of the Secured Securities that are held by BNPP B.V. or any of its Affiliates and (ii) the portion of the Option that relate to Securities held by BNPP B.V. or any of its Affiliates, BNPP B.V. will hold no Collateral Assets. Following an Enforcement Event, BNPP B.V. or the Affiliate of BNPP B.V. that holds the Secured Securities shall renounce and waive all rights (including as to payment) in respect of such Securities and shall submit such Secured Securities for cancellation free of payment.

In respect of the Nominal Value Collateralisation Element, BNPP B.V. will transfer into the relevant Collateral Account on the date specified in the Final Terms (the "**Initial Posting Date**") and hold in such account on any day thereafter, an aggregate nominal amount of the Reference Collateral Assets, at least equal to the aggregate Notional Amount of the Placed Secured Securities which are secured by the relevant Collateral Pool on such date. Where BNPP B.V. or any of its Affiliates acquires Secured Securities after the Initial Posting Date, BNPP B.V. will be entitled to withdraw an aggregate nominal amount of Reference Collateral Assets equal to the aggregate Notional Amount of the Secured Securities so acquired, provided that BNPP B.V. shall always hold in the Collateral Account an aggregate nominal amount of the Reference Collateral Assets at least equal to, at any time, the aggregate Notional Amount of the Placed Secured Securities.

In respect of the MTM Collateralisation Element, BNPP B.V. will transfer MTM Adjustable Assets to and from the Collateral Account (based on the valuation provided by the Collateral Calculation Agent in respect of the immediately preceding Collateral Valuation Date) so that it will hold in respect of the relevant Collateral Pool (excluding, for the avoidance of doubt, any Reference Collateral Assets that are held in the Collateral Account to collateralise the aggregate Notional Amount of the Placed Secured Securities) with an aggregate marked-to-market value (as determined by the Collateral Calculation Agent and which will take into account the relevant Haircut (if a Haircut is specified as applicable in the applicable Final Terms) at least equal to the Securities Value.

#### *Enforcement*

Following the occurrence of an Event of Default, a Holder, or the Distributor acting on the instructions of a Holder, may provide a Default Notification. If the Collateral Agent does not receive an Event Dispute Notice from BNPP B.V. at or prior to the end of the Dispute Period, it shall deliver an Enforcement Notice to each of BNPP B.V., the Principal Security Agent and the Collateral Custodian whereupon the Secured Securities shall become immediately due and payable at their Security Termination Amount (which will be equal to the marked to market value of the Option), and BNPP B.V. shall be obliged to deliver the Entitlement (which will consist of a pro rata share of the Reference Collateral Assets held by BNPP B.V. in respect of the relevant series of Collateral Asset Linked Securities) in respect of the Secured Securities on the relevant Collateral Delivery Date without further action or formalities and the Security Interest granted under the Pledge Agreement shall become enforceable (as set out in the Pledge Agreement).

#### *Collateral Asset Default or Collateral Default Event*

BNPP B.V. shall redeem the Secured Securities as soon as reasonably practicable after the occurrence of the Collateral Asset Default or Collateral Default Event, as the case may be, by (a) delivering the Reference Collateral Assets in the relevant Collateral Pool to the Holders of the Secured Securities secured by such Reference Collateral Assets and (b) payment to the Holders of Secured Securities of an amount in the Settlement Currency equal to the *pro rata* share applicable to each relevant Placed Secured Security of the marked to market value, on the Collateral Asset Default Determination Date, of the portion of the Option which relates to the Placed Secured Securities, as determined by the Calculation Agent.

## Acquisition of Collateral Assets

BNPP B.V. may acquire the Collateral Assets in a number of ways including by entering into repurchase agreements or swap agreements or any other agreements with BNP Paribas Arbitrage S.N.C., BNP Paribas or any other Affiliate of the Issuer or such other entities as it deems appropriate from time to time.

### *Swap Agreement*

In connection with one or more series of Secured Securities, BNPP B.V. may enter into a swap agreement with a counterparty which may be BNP Paribas Arbitrage S.N.C., BNP Paribas or any other Affiliate of BNPP B.V. or such other entities as it deems appropriate from time to time (the "**Swap Counterparty**") evidenced by a 1992 ISDA Master Agreement and Schedule or a 2002 ISDA Master Agreement and Schedule thereto together with the confirmation entered into by BNPP B.V. and the Swap Counterparty in respect of the relevant series of Secured Securities (a "**Swap Agreement**").

The purpose of the Swap Agreement is to allow BNPP B.V. to perform its scheduled obligations under the relevant Secured Securities. The Swap Agreement may provide that BNPP B.V. will pay to the Swap Counterparty the proceeds of issue of the Secured Securities which are to be secured by the Collateral Pool. Over the term of the relevant Secured Securities, upon scheduled settlement or redemption of the Secured Securities and, upon the early redemption or cancellation of the Secured Securities other than following an Event of Default, the Swap Counterparty will make payments or delivery of assets to BNPP B.V. which correspond to those which BNPP B.V. is scheduled to make under the relevant Secured Securities. The Swap Agreement may be supplemented by a credit support document (a "**Credit Support Document**").

### *Credit Support Document*

Under the terms of the Credit Support Document, until the redemption or exercise of the relevant Secured Securities the Swap Counterparty shall deliver to BNPP B.V., the initial Collateral Assets in an amount determined by the relevant Securities Value of a series and from time to time, as applicable additional Collateral Assets on the basis of the Securities Value and Collateral Value. BNPP B.V. shall re-deliver Collateral Assets or assets equivalent thereto to the Swap Counterparty, if applicable, on the basis of the Securities Value and Collateral Value. The Credit Support Document may include provisions governing the calculation of the Securities Value and the Collateral Value in respect of the relevant Secured Securities. The Swap Counterparty may at its sole discretion substitute the Collateral Assets for other Eligible Collateral. BNPP B.V. may appoint one or more agents to perform custodial and administrative functions relating to its obligations under the Credit Support Document.

### *Repurchase Agreement*

In connection with one or more series of Secured Securities, BNPP B.V. may enter into a repurchase agreement (a "**Repurchase Agreement**") with a counterparty which may be BNP Paribas Arbitrage S.N.C., BNP Paribas or any other Affiliate of BNPP B.V. (the "**Repo Counterparty**"). The Repurchase Agreement may be substantially in the form of a 2000 TBMA/ISMA Global Master Repurchase Agreement, a "*Convention Cadre FBF aux opérations de pensions livrées*", each as amended, supplemented or otherwise modified from time to time, or any other agreement having a similar effect. Pursuant to the Repurchase Agreement, BNPP B.V. may enter into a series of repurchase transactions (each a "**Transaction**") with the Repo Counterparty in respect of Collateral Assets. Under each such Transaction, the Repo Counterparty will be the seller of Collateral Assets and BNPP B.V. will be the buyer.

Under a Repurchase Agreement entered into in respect of a series of Secured Securities, on the initial purchase date and each subsequent purchase date BNPP B.V. will purchase from the Repo Counterparty Collateral Assets with a market value equal to the outstanding aggregate nominal value of the relevant Secured Securities (or part of such nominal value if Partial Nominal Value Collateralisation is applicable). On each repurchase date under such Repurchase Agreement, the Repo Counterparty will repurchase securities equivalent to the Collateral Assets sold by it in relation to such

Collateral Pool on the previous purchase date for a repurchase price at least equal to the purchase price for that Transaction.

*Margin maintenance*

The market value of the Collateral Assets which are the subject of the current Transaction under each Repurchase Agreement will be determined on each Collateral Valuation Date. The Repurchase Agreement will provide that the Repo Counterparty will transfer further Collateral Assets and, as applicable, BNPP B.V. shall re-deliver Collateral Assets to the Repo Counterparty on the basis of the applicable Securities Value and the Collateral Value. The Repo Counterparty may at its sole discretion substitute the Collateral Assets for other Eligible Collateral.

## PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth under the section[s] entitled "Terms and Conditions of the Notes" [and Annex 1 – Additional Terms and Conditions for Payouts, Annex 2 – Additional Terms and Conditions for Index Securities, Annex 3 – Additional Terms and Conditions for Share Securities, Annex 4 – Additional Terms and Conditions for ETI Securities, Annex 5 – Additional Terms and Conditions for Debt Securities, Annex 6 – Additional Terms and Conditions for Commodity Securities, Annex 7 – Additional Terms and Conditions for Inflation Index Securities, Annex 8 – Additional Terms and Conditions for Currency Securities, Annex 9 – Additional Terms and Conditions for Fund Securities, Annex 10 – Additional Terms and Conditions for Futures Securities, Annex 11 – Additional Terms and Conditions for Underlying Interest Rate Securities, Annex 12 – Additional Terms and Conditions for Credit Securities and Annex 13 – Additional Terms and Conditions for Secured Securities] in the Base Prospectus dated 9 June 2015 which received visa n° 15-262 from the *Autorité des marchés financiers* ("**AMF**") on 9 June 2015 and any Supplement(s) thereto approved and published on or before the date of these Final Terms (copies of which are available as described below), which together constitute a base prospectus for the purposes of the Directive 2003/71/EC (the "**Prospectus Directive**") (the "**Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive, and must be read in conjunction with the Base Prospectus. Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus and these Final Terms (in each case, together with any documents incorporated therein by reference) are available for viewing at, and copies may be obtained from, BNP Paribas Securities Services, Luxembourg Branch (in its capacity as Principal Paying Agent), 33, rue de Gasperich, Howald - Hesperange, L-2085 Luxembourg and (save in respect of the Final Terms) on the Issuer's website ([www.invest.bnpparibas.com](http://www.invest.bnpparibas.com)). A copy of these Final Terms and the Base Prospectus will be sent free of charge by the Issuer to any investor requesting such documents. [A summary of the Securities (which comprises the Summary in the Base Prospectus as amended to reflect the provisions of these Final Terms) is annexed to these Final Terms].

*The following alternative language applies if the first tranche of an issue which is being increased was issued under a Base Prospectus with an earlier date. N.B. when using a post – 1 July 2012 approved Base Prospectus to tap a previous issue under a previously approved Base Prospectus, the final terms in the post – 1 July 2012 Base Prospectus may (and will if the previous issue was contemplated under a pre – 1 July 2012 Base Prospectus) take a different form to the final terms used for the original issue being tapped. The Conditions of the original issue being tapped should be reviewed to ensure that they would not require the final terms documenting the further issue to include information which is no longer permitted in final terms. Where the final terms documenting the further issue would need to include such information, it will not be possible to tap using final terms and a drawdown prospectus (incorporating the original Conditions and final terms) will instead need to be prepared.*

## TERMS AND CONDITIONS OF THE NOTES

*The following is the text of the Terms and Conditions of the Notes which will include the additional terms and conditions for payouts for Securities contained in Annex 1, the additional terms and conditions contained in Annex 2 in the case of Index Securities, the additional terms and conditions contained in Annex 3 in the case of Share Securities, the additional terms and conditions contained in Annex 4 in the case of ETI Securities, the additional terms and conditions contained in Annex 5 in the case of Debt Securities, the additional terms and conditions contained in Annex 6 in the case of Commodity Securities, the additional terms and conditions contained in Annex 7 in the case of Inflation Index Securities, the additional terms and conditions contained in Annex 8 in the case of Currency Securities, the additional terms and conditions in Annex 9 in the case of Fund Securities, the additional terms and conditions contained in Annex 10 in the case of Futures Securities, the additional terms and conditions contained in Annex 11 in the case of Underlying Interest Rate Securities, the additional terms and conditions contained in Annex 12 in the case of Credit Securities or any other Annex (each, an "Annex" and, together the "Annexes") which may be added from time to time in the case of any other security linked to any other Underlying Reference (the "Terms and Conditions") which will be attached to or incorporated by reference into each Global Note and endorsed upon each definitive Note or in the case of Italian Dematerialised Notes (as defined below) will apply to such Notes. In the case of Italian Dematerialised Notes the applicable Final Terms in respect of such Notes will be available at the specified office of the relevant Issuer and at the office of the Italian Agent (in each case specified in the applicable Final Terms).*

For the purposes of Notes which are neither admitted to trading on a regulated market in the European Economic Area nor offered in the European Economic Area in circumstances where a prospectus is required to be published under the Prospectus Directive ("**Exempt Securities**"), references in these Terms and Conditions to "Final Terms" shall be deemed to be references to "Pricing Supplement". The expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended, including by Directive 2010/73 EU) and includes any relevant implementing measure in the relevant Member State of the European Economic Area.

This Note is one of a Series of the Notes ("**Notes**", which expression shall mean (i) in relation to any Notes represented by a Note in global form (a "**Global Note**", which term shall include any Bearer Global Note or Registered Global Note), units of the lowest Specified Denomination (as specified in the applicable Final Terms) in the Specified Currency of the relevant Notes, (ii) definitive Notes issued in exchange (or part exchange) for a Global Note, (iii) any Global Note and (iv) Italian Dematerialised Notes (as defined below)) issued by the Issuer specified as such in the applicable Final Terms being any of BNP Paribas Arbitrage Issuance B.V. ("**BNPP B.V.**"), BNP Paribas Fortis Funding ("**BP2F**") or BGL BNP Paribas ("**BGL**" (either directly or, if so specified in the applicable Final Terms, acting through a specified branch ("**Specified Branch**")), each an "**Issuer**" and references herein to the "**relevant Issuer**" being to the Issuer of the relevant Notes) subject to, and with the benefit of, a Note agency agreement (the "**Note Agency Agreement**", which expression includes the same as it may be updated, amended, supplemented or restated from time to time) dated on or around 9 June 2015 and made between BNPP B.V. as issuer, BNP Paribas ("**BNPP**") as guarantor (where the Issuer is BNPP B.V.) (in such capacity, the "**BNPP Guarantor**") and, if specified in the applicable Final Terms, calculation agent, BP2F as Issuer and (where the Issuer is BP2F) BNP Paribas Fortis SA/NV ("**BNPPF**") as guarantor (in such capacity, the "**BNPPF Guarantor**" and, together with the BNPP Guarantor, the "**Guarantors**" and each a "**Guarantor**") and, if specified in the applicable Final Terms, calculation agent, BGL as issuer and, if specified in the applicable Final Terms, calculation agent, BNP Paribas Securities Services, Luxembourg Branch as transfer agent and, if specified as principal paying agent in the applicable Final Terms, principal paying agent (the "**Transfer Agent**" and, if applicable, the "**Principal Paying Agent**" which expressions shall include any successor as transfer agent or principal paying agent, as applicable), BNP Paribas Securities Services, Milan Branch as paying agent and Italian agent (the "**Italian Agent**" which expression shall include any successor as paying agent and Italian agent) and, if specified as principal paying agent in the applicable Final Terms, principal paying agent, (the "**Principal Paying Agent**" which expression shall include any successor as principal paying agent), BNP Paribas Arbitrage S.N.C. if specified in the Final Terms as calculation agent (together with BNP Paribas, BNPPF and BGL each a "**Calculation Agent**" which

expression shall include any other calculation agent specified in the applicable Final Terms) and, if specified as principal paying agent in the applicable Final Terms, the principal paying agent (the "**Principal Paying Agent**" which expression shall include any successor as principal paying agent), BNP Paribas Securities Services, Luxembourg Branch as registrar (the "**Registrar**", which expression shall include any successor registrar) and the other paying agents and transfer agents named therein (together with the Principal Paying Agent, the "**Paying Agents**" and "**Transfer Agents**" which expressions shall include any additional or successor paying agents or transfer agents). The Principal Paying Agent, the Italian Agent, Registrar and Transfer Agents are referred to together as the "**Agents**".

As used herein, "**Tranche**" means Notes which are identical in all respects (including as to listing) and "**Series**" means each original issue of Notes together with any further issues expressed to be consolidated and form a single series with the original issue and which have the same terms and conditions or terms and conditions which are the same in all respects save for the Issue Date, Issue Price, the amount and date of the first payment of interest thereon (if any) and/or the date from which interest (if any) starts to accrue and the expressions "**Notes of the relevant Series**" and "**Noteholders of the relevant Series**" and related expressions shall be construed accordingly.

The holders for the time being of the Notes ("**Noteholders**" or "**Holders**"), which expression shall, in relation to any Notes represented by a Global Note or any Italian Dematerialised Note, be construed as provided in Condition 1, the holders of the Coupons (as defined below) appertaining to interest-bearing definitive Bearer Notes (the "**Couponholders**"), the holders of the Talons (the "**Talontholders**") and the holders of the Receipts (the "**Receiptholders**") are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Note Agency Agreement and the applicable Final Terms, which are binding on them. Certain statements in these Terms and Conditions are summaries of, and are subject to, the detailed provisions of the Note Agency Agreement. Copies of the Note Agency Agreement (which contains the form of Final Terms) and the Final Terms for the Notes of this Series are available from the principal office of the Principal Paying Agent and the Paying Agents set out at the end of these Terms and Conditions.

The Noteholders, the Receiptholders and the Couponholders are entitled to the benefit of a deed of covenant (the "**Deed of Covenant**" which expression includes the same as it may be amended, supplemented and/or restated from time to time) dated on or around 9 June 2015 and made by the Issuers. The original of the Deed of Covenant is held by a common depositary on behalf of Euroclear Bank SA/NV and Clearstream Banking, société anonyme, Luxembourg ("**Clearstream, Luxembourg**").

Subject as provided in the relevant Guarantee (as defined below), (i) where the Issuer is BNPP B.V., the obligations of BNPP B.V. with respect to physical delivery (if applicable) and/or the payment of amounts payable by BNPP B.V. are guaranteed by BNPP pursuant to the deed of Guarantee dated on or around 9 June 2015 (the "**BNPP Note Guarantee**"), and (ii) where the Issuer is BP2F, the obligations of BP2F with respect to physical delivery (if applicable) and/or the payment of amounts payable by BP2F are guaranteed by BNPPF pursuant to the deed of Guarantee dated on or around 9 June 2015 (the "**BNPPF Note Guarantee**" and together with the BNPP Note Guarantee, the "**Guarantees**" and each a "**Guarantee**").

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system (including without limitation, Monte Titoli, The Depository Trust Company and Euroclear France and the *Intermédiaires financiers habilités* authorised to maintain accounts therein (together, "**Euroclear France**")) approved by the Issuers and the Principal Paying Agent. Pursuant to the Article 83-bis and subsequent of the Italian legislative decree no. 58/1998 and the relevant implementing CONSOB and Bank of Italy Joint Regulation dated 22 February 2008, as amended and integrated by subsequent implementing provisions, all securities cleared through Monte Titoli are required to be in dematerialised form.

Words and expressions defined in the Note Agency Agreement or used in the applicable Final Terms (which term, as used herein, means, in relation to this Note, the Final Terms attached hereto or endorsed hereon or, as the case may be,

applicable to such Notes shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated.

## 1. FORM, DENOMINATION, TITLE AND TRANSFER

### 1.1 Form, Denomination and Title

The Notes, other than Italian Dematerialised Notes, are in bearer form ("**Bearer Notes**") or registered form ("**Registered Notes**") issued in the Specified Currency and Specified Denomination(s) and definitive Notes will be serially numbered. Italian Dematerialised Notes will be issued in bearer (*al portatore*), uncertificated and dematerialised book-entry form into Monte Titoli S.p.A. (with registered office and principal place of business at Piazza degli Affari 6, 20123 Milan, Italy, or any successor clearing system thereto) ("**Monte Titoli**") pursuant to Italian legislative decree no. 58/1998, as amended and implemented and subsequent implementing provisions ("**Italian Dematerialised Notes**"). Italian Dematerialised Notes will not be issued in definitive form. However, the holder still has the right to obtain the release of the certificate pursuant to articles 83-*quinquies* and 83-*novies*, paragraph 1, letter b), of the Italian legislative decree no. 58/1998 as amended and integrated by subsequent implementing provisions. This Note is, to the extent specified in the applicable Final Terms, a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, a Dual Currency Interest Note and/or a Note with interest linked to one or more, or a combination of, underlying reference asset(s) or basis(bases) (each an "**Underlying Reference(s)**") specified in the applicable Final Terms ("**Linked Interest Notes**") such as an Index Linked Interest Note, a Share Linked Interest Note, an Inflation Linked Interest Note, a Commodity Linked Interest Note, a Fund Linked Interest Note, an ETI Linked Interest Note, a Currency Linked Interest Note, a Debt Linked Interest Note, an Underlying Linked Interest Rate Note or (in the case of a combination of underlying reference assets or bases) a Hybrid Linked Interest Note or, subject to all applicable laws and regulations, any other type of Note depending on the Interest Basis specified in the applicable Final Terms. This Note may be an Index Linked Redemption Note (together with Index Linked Interest Notes, "**Index Securities**"), a Share Linked Redemption Note (together with Share Linked Interest Notes, "**Share Securities**"), an Inflation Linked Redemption Note (together with Inflation Linked Interest Notes, "**Inflation Index Securities**"), a Commodity Linked Redemption Note (together with Commodity Linked Interest Notes, "**Commodity Securities**"), a Fund Linked Redemption Note (together with Fund Linked Interest Notes, "**Fund Securities**"), a Credit Linked Redemption Note (a "**Credit Security**"), an ETI Linked Redemption Note (together with ETI Linked Interest Notes, "**ETI Securities**"), a Currency Linked Redemption Note (together with Currency Linked Interest Notes, "**Currency Securities**"), a Debt Linked Redemption Note (together with a Debt Linked Interest Note, "**Debt Securities**"), an Underlying Interest Rate Linked Redemption Note (together with an Underlying Linked Interest Rate Note, "**Underlying Interest Rate Securities**"), a Note with redemption linked to any combination of underlying reference assets or bases (a "**Hybrid Linked Redemption Note**" and together with a **Hybrid Linked Interest Note**, "**Hybrid Securities**"), an Instalment Note, a Partly Paid Note, a Dual Currency Redemption Note) or any combination thereof or, subject to all applicable laws and regulations, any other type of Note depending on the Redemption/Payment Basis specified in the applicable Final Terms. If it is a definitive Bearer Note, it is issued with coupons for the payment of interest ("**Coupons**") attached and, if applicable, talons for further Coupons ("**Talons**") attached unless it is a Zero Coupon Note in which case references to interest (other than in the case of late payment) and Coupons in these Terms and Conditions are not applicable. If it is a definitive Bearer Note Instalment Note it is issued with receipts ("**Receipts**") for the payment of instalments of principal prior to stated maturity attached. Except in the case of Italian Dematerialised Notes, any reference in these Terms and Conditions to Coupon(s), Couponholder(s) or coupon(s) shall, unless the context otherwise requires, be deemed to include a reference to Talon(s), Talonholder(s) or talon(s).

If the Notes are Hybrid Securities and Hybrid Securities is specified as applicable in the applicable Final Terms, the terms and conditions of the Notes will be construed on the basis that in respect of each separate type of Underlying Reference, the relevant terms applicable to each such separate type of Underlying

Reference will apply, as the context admits, separately and independently in respect of the relevant type of Underlying Reference, except as specified in the applicable Final Terms. "**Hybrid Business Day**" has the meaning given to such term in the applicable Final Terms.

Subject as set out below, title to the Bearer Notes, the Coupons and the Receipts will pass by delivery and title to Registered Notes and Italian Dematerialised Notes will pass upon registration of transfers in accordance with the provisions of the Note Agency Agreement. The holder of each Coupon or Receipt, whether or not such Coupon or Receipt is attached to a Bearer Note, in his capacity as such, shall be subject to and bound by all the provisions contained in the relevant Note. The Issuer, the Guarantor (if any) and any Paying Agent, to the extent permitted by applicable law, may deem and treat the bearer of any Bearer Note, Coupon or Receipt as the absolute owner thereof (whether or not such Bearer Note, Coupon or Receipt shall be overdue and notwithstanding any notation of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Bearer Global Note, without prejudice to the provisions set out below.

The Issuer has appointed the Registrar at its office specified below to act as registrar of the Registered Notes. The Issuer shall cause to be kept at the specified office of the Registrar for the time being at 33 rue de Gasperich, Howald - Hesperange, L-2085 Luxembourg, a register (the "**Register**") on which shall be entered, *inter alia*, the name and address of the holder of the Registered Notes and particulars of all transfers of title to the Registered Notes.

For so long as any of the Notes is represented by a Bearer Global Note or a Registered Global Note (each as defined in Condition 1.2(f) below) held on behalf of Euroclear and/or Clearstream, Luxembourg, each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor (if any) and the Agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer, the Guarantor (if any) and any Agent as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions "**Noteholder**" and "**Noteholders**" and related expressions shall be construed accordingly.

For so long as any of the Notes are represented by a Bearer Global Note or a Registered Global Note (each as defined in Condition 1.2(f) below) held by or on behalf of the HKMA as the operator of the CMU ("**CMU operator**"), each person for whose account interest in the relevant Bearer Global Note or Registered Global Note is credited as being held in the CMU, as notified by the CMU to the CMU Lodging Agent in a relevant CMU Instrument Position Report, or any other relevant notification by the CMU (which notification, in either case, shall be conclusive evidence of the records of the CMU save in the case of manifest error), shall be treated by the Issuer, the Guarantor (if any) and any Agent as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions "**Noteholder**" and "**Noteholders**" and related expressions shall be construed accordingly.

For so long as any of the Notes are represented by an Italian Dematerialised Note, the person who is for the time being shown in the records of Monte Titoli as the holder of a particular amount of Notes (in which regard any certificate, record or other document issued by Monte Titoli as to the amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall (except as otherwise required by applicable law) be treated for all purposes by the relevant Issuer, the Guarantor, if any, the Italian Agent and all other persons dealing with such person as the holder thereof and as the person entitled to exercise the rights represented thereby notwithstanding any notice to the contrary (and

the expressions "**Holder**" and "**Noteholder**" and related expressions shall be construed accordingly, except where Italian law is applicable, in which case "**Holder**" and "**Noteholder**" will be exclusively deemed to be the beneficial owner of the Italian Dematerialised Notes). The Issuer shall cause Italian Dematerialised Notes to be dematerialised and centralised with Monte Titoli, pursuant to Italian legislative decree no. 58/1998 as amended and integrated by subsequent implementing provisions.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and/or Clearstream, Luxembourg, or the CMU or such other clearing system approved by the Issuers or the Principal Paying Agent.

Italian Dematerialised Notes are held in dematerialised form on behalf of the beneficial owners, until redemption or cancellation thereof, by Monte Titoli for the account of the relevant Monte Titoli account holders. Italian Dematerialised Notes will at all times be held in book entry form and title to the Italian Dematerialised Notes will be evidenced by book entries pursuant to the relevant provisions of Italian legislative decree no. 58/1998, as amended and integrated by subsequent implementing provisions, and in accordance with CONSOB and Bank of Italy Joint Regulation dated 22 February 2008, as amended and integrated by subsequent implementing provisions. The Noteholders may not require physical delivery of the Italian Dematerialised Notes. However, the Noteholders may ask the relevant intermediaries for certification pursuant to Article 83-*quinquies* of Italian legislative decree no. 58/1998, as amended and integrated by subsequent implementing provisions. Italian Dematerialised Notes will be transferable only in accordance with the rules and procedures for the time being of Monte Titoli. In particular, the transfer of the Italian Dematerialised Notes operates by way of registration in the accounts opened with Monte Titoli by the intermediaries adhering to the clearing system. As a consequence, the subject who from time to time is the owner of the account held with an intermediary adhering, directly or indirectly, to Monte Titoli, in which the Italian Dematerialised Notes are credited, is considered as the legitimate beneficial owner of the Italian Dematerialised Notes and is authorised to exercise all rights related to them.

The Notes will be settled by way of cash payment ("**Cash Settled Notes**" or "**Cash Settled Securities**") or, if Physical Settlement is specified as applicable in the applicable Final Terms, will be settled by physical delivery ("**Physical Delivery Notes**" or "**Physically Settled Securities**").

## 1.2 **Transfers of Registered Notes**

### (a) Transfers of interests in Registered Global Notes

Transfers of beneficial interests in Registered Global Notes will be effected by Euroclear, Clearstream, Luxembourg or the CMU, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests. A beneficial interest in a Registered Global Note will, subject to compliance with all applicable legal and regulatory restrictions, be transferable for Notes in definitive form or for a beneficial interest in another Registered Global Note only in the Specified Denominations set out in the applicable Final Terms and only in accordance with the rules and operating procedures for the time being of Euroclear, Clearstream, Luxembourg or the CMU, as the case may be and in accordance with the terms and conditions specified in the Note Agency Agreement.

### (b) Transfers of Registered Notes in definitive form

Subject as provided in paragraph (e) below, upon the terms and subject to the conditions set forth in the Note Agency Agreement, a Registered Note in definitive form may be transferred in whole or in part (in the Specified Denominations set out in the applicable Final Terms). In order to effect any such transfer (i) the holder or holders must (a) surrender the Registered Note for registration of the transfer of the Registered Note (or the relevant part of the Registered Note) at the specified office of the Registrar or any Transfer Agent, with

the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing and (b) complete and deposit such other certifications as may be required by the Registrar or, as the case may be, the relevant Transfer Agent and (ii) the Registrar or, as the case may be, the relevant Transfer Agent must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request. Any such transfer will be subject to such reasonable regulations as the Issuer and the Registrar may from time to time prescribe (the initial such regulations being set out in Schedule 7 to the Note Agency Agreement). Subject as provided above, the Registrar or, as the case may be, the relevant Transfer Agent will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar or, as the case may be, the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail to such address as the transferee may request, a new Registered Note in definitive form of a like aggregate nominal amount to the Registered Note (or the relevant part of the Registered Note) transferred. In the case of the transfer of part only of a Registered Note in definitive form, a new Registered Note in definitive form in respect of the balance of the Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

(c) Registration of transfer upon partial redemption

In the event of a partial redemption of Notes under Condition 5, the Issuer shall not be required to register the transfer of any Registered Note, or part of a Registered Note, called for partial redemption.

(d) Costs of registration

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

(e) Exchanges and transfers of Registered Notes generally

Holders of Registered Notes in definitive form may exchange such Notes for interests in a Registered Global Note of the same type at any time. Prior to expiry of the applicable Distribution Compliance Period (as defined below), transfers by the holder of, or of a beneficial interest in, a Global Note may be made to a transferee in the United States or who is a U.S. person under Regulation S and pursuant to CFTC regulations and guidance (or for the account or benefit of such person) only pursuant to an exemption from the registration requirements of the Securities Act.

(f) Definitions

In this Condition, the following expressions shall have the following meanings:

**"Bearer Global Note"** means a global note (temporary or permanent) in bearer form;

**"CFTC"** means the Commodity Futures Trading Commission;

**"CMU"** or **"CMU Service"** means the Central Moneymarkets Unit Service (or any lawful successor thereto), being the book-entry clearing system operated by the HKMA;

### **2.1 Status**

- (a) Notes issued by BNPP B.V.

If the Notes are issued by BNPP B.V., the Notes and (if applicable) the relative Coupons are direct, unconditional, unsecured and unsubordinated obligations of the Issuer and rank and will rank *pari passu* among themselves and at least *pari passu* with all other direct, unconditional, unsecured and unsubordinated indebtedness of the Issuer (save for statutorily preferred exceptions).

- (b) Notes issued by BP2F

If the Notes are issued by BP2F, the Notes and (if applicable) the relative Coupons constitute direct, unconditional, unsubordinated and unsecured and general obligations of the Issuer and rank *pari passu* (subject to mandatorily preferred debts under applicable laws) without any preference among themselves and at least equally and rateably with all other present and future outstanding unsecured and unsubordinated obligations, including guarantees and other obligations of a similar nature of the Issuer.

(c) Notes issued by BGL

If the Notes are issued by BGL, the Notes and (if applicable) the relative Coupons constitute (subject to Condition 2.3) direct, unconditional, unsecured and unsubordinated obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves. The payment obligations of the Issuer under the Notes and the Coupons relating to them shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 2.3, at all times rank at least equally with all other unsecured and unsubordinated indebtedness of the Issuer present and future (other than indebtedness or monetary obligations preferred by mandatory provisions of law).

## 2.2 Status and terms of the Guarantees

(a) BNPP Note Guarantee

The obligations of BNPP under the BNPP Note Guarantee are direct, unconditional, unsecured and unsubordinated obligations of the Guarantor and rank and will rank *pari passu* among themselves and at least *pari passu* with all other direct, unconditional, unsecured and unsubordinated indebtedness of the Guarantor (save for statutorily preferred exceptions).

(b) BNPPF Note Guarantee

The Guarantee of BNPPF constitutes direct, unconditional, irrevocable, unsubordinated and unsecured obligations of the Guarantor and ranks *pari passu* (subject to mandatorily preferred debts under applicable laws) equally and rateably with all other present and future outstanding unsecured and unsubordinated obligations of the Guarantor.

(c) Terms of Guarantees

Subject as provided below and in the relevant Guarantee, the relevant Guarantor has unconditionally and irrevocably (a) guaranteed to each Noteholder all obligations of the relevant Issuer in respect of such Notes as and when such obligations become due, and (b) agreed that if and each time that the Issuer fails to satisfy any obligations under such Notes as and when such obligations become due, the relevant Guarantor will after a demand has been made on the relevant Guarantor (without requiring the relevant Noteholder first to take steps against the Issuer or any other person) make or cause to be made such payment or satisfy or cause to be satisfied such obligations as though the relevant Guarantor were the principal obligor in respect of such obligations, provided that in the case of Notes (other than Credit Securities) where the obligations of the relevant Issuer which fail to be satisfied by the relevant Guarantor constitute the delivery of the Entitlement to the holders of such Notes if such delivery is not practicable by reason of (x) a Settlement Disruption Event (as defined in Condition 4(b)(i)(E)) or (y) if "Failure to Deliver due to Illiquidity" is specified as applying in the applicable Final Terms, a Failure to Deliver due to Illiquidity (as defined in Condition 4(b)(i)(F)), in lieu of such delivery the relevant Guarantor will make payment in respect of each such Note of, in the case of (x) above, the Disruption Cash Redemption Amount (as defined in Condition 4(b)(i)(E)) or in the case of (y) above, the Failure to Deliver Redemption Amount (as defined in Condition 4(b)(i)(F)). Any payment of the Disruption Cash Redemption Amount or the Failure to Deliver Redemption Amount, as the case may be, in respect of a Note shall constitute a complete discharge of the relevant Guarantor's obligations in respect of the

delivery of the Relevant Assets affected by the Settlement Disruption Event or Failure to Deliver due to Illiquidity, as the case may be.

### 2.3 Negative Pledge of BGL

If the Notes are issued by BGL, the Issuer undertakes that, so long as any of the Notes or the Coupons relating to them remain outstanding (as defined in the Note Agency Agreement), it shall not create or have outstanding any mortgage, charge, pledge, lien (other than a lien arising solely by operation of law in the ordinary course of business) or other encumbrance, upon or with respect to, the whole or any part of, its present or future property, assets or revenues to secure repayment of, or to secure any guarantee of or indemnity in respect of, any external indebtedness unless such Notes and Coupons are, at the same time, secured equally and rateably therewith, or have the benefit of such other security or other arrangement as shall be approved by an Extraordinary Resolution (as defined in the Note Agency Agreement) of the Noteholders. In this Condition 2.3, "**external indebtedness**" means any obligation for the repayment of borrowed money in the form of, or represented by, bonds, notes, debentures or other securities:

- (a) that are payable or may be required to be paid in, or by reference to, any currency other than euro which on issue was offered through an international group of banks or financial institutions as to more than 50 per cent. in issue amount outside Belgium and Luxembourg; and
- (b) that are, or are capable of being, quoted, listed or ordinarily traded on any stock exchange, automated trading system, over-the-counter or other securities market.

## 3. INTEREST

### 3.1 Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will accrue in respect of each Interest Period (which expressions shall in these Terms and Conditions mean the period from (and including) an Interest Period End Date (or if none the Interest Commencement Date) to (but excluding) the next (or first) Interest Period End Date (each such latter date the "**Interest Period End Final Date**" for the relevant Interest Period)). Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after the Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date. If a Business Day Convention is specified in the applicable Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (x) if there is no numerically corresponding day in the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (y) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (a) the Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day; or
- (b) the Modified Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Period End Date or Interest Payment Date, as the case may be shall be brought forward to the immediately preceding Business Day; or
- (c) the Preceding Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day.

If no Business Day Convention is specified as applicable to an Interest Period End Date in the applicable Final Terms and the Notes are in definitive form:

- (i) the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Final Date in respect of such Interest Period, will amount to the Fixed Coupon Amount; and
- (ii) the amount of interest payable on any other Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

Interest shall be calculated by applying the Rate of Interest to: (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount; or (C) in the case of Fixed Rate Notes which are represented by Italian Dematerialised Notes, the aggregate outstanding nominal amount of such Italian Dematerialised Notes, multiplying such sum by the applicable Day Count Fraction, rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention, and, in the case of Dual Currency Interest Notes, converting the resulting figure into the Settlement Currency as provided in Condition 3.14 below.

Where the Specified Denomination of a Fixed Rate Note in definitive form comprises more than one Calculation Amount, the amount of Interest payable in respect of such Fixed Rate Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

"**sub-unit**" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

### 3.2 **Interest on Floating Rate Notes**

#### (a) Interest Period End Dates and Interest Payment Dates

Each Floating Rate Note bears interest on its nominal amount (or, if it is a Partly Paid Note, in accordance with Condition 3.11) or pays interest in respect of each Interest Period (which expression shall in these Terms and Conditions mean the period from (and including) an Interest Period End Date (or if none the Interest Commencement Date to (but excluding) the next (or first) Interest Period End Date (each such latter date the "**Interest Period End Final Date**" for the relevant Interest Period)). For the purposes of this Condition 3.2 "**Interest Period End Date**" shall mean either:

- (i) the specified Interest Period End Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Interest Period End Date(s) is/are specified in the applicable Final Terms, each date which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Period End Date or, in the case of the first Interest Period End Date, after the Interest Commencement Date.

Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after an Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date.

If a Business Day Convention is specified in the applicable Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (x) if there is no numerically corresponding day in the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (y) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) In any case where Specified Periods are specified in accordance with Condition 3.2(a)(ii) above, the Floating Rate Convention, such Interest Period End Date or Interest Payment Date, as the case may be, (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (aa) such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day and (bb) each subsequent Interest Period End Date or Interest Payment Date, as the case may be, shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Period End Date or Interest Payment Date, as the case may be, occurred; or
- (B) The Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day; or
- (C) The Modified Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day; or
- (D) The Preceding Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(c) Determination of Rate of Interest and Calculation of Interest Amount

The Principal Paying Agent will, on or as soon as practicable after each date on which the Rate of Interest is to be determined (the "**Interest Determination Date**"), determine the Rate of Interest (subject to any Minimum Interest Rate or Maximum Interest Rate specified in the applicable Final Terms) for the relevant Interest Period.

The Principal Paying Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up);
- (ii) in the case of Floating Rate Notes in definitive form, the Calculation Amount; or

- (iii) in the case of Floating Rate Notes which are represented by Italian Dematerialised Notes, the aggregate outstanding nominal amount of such Italian Dematerialised Notes,

in each case, multiplying such sum by the Day Count Fraction specified in the applicable Final Terms and rounding the resultant figure to the nearest sub-unit (as defined above) of the relevant Specified Currency, one half of such a sub-unit being rounded upwards or otherwise in accordance with applicable market convention and, in the case of Dual Currency Interest Notes, converting the resulting figure into the Settlement Currency as provided in Condition 3.14 below. Where the Specified Denomination of a Floating Rate Note in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

(d) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms), the FBF Rate (if specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

**"Designated Maturity"** means (i) in relation to Screen Rate Determination, the period of time designated in the Reference Rate or (ii) in relation to FBF Determination, the period of time specified in the relevant FBF Rate.

### 3.3 Interest on Linked Interest Notes

(a) Interest Period End Dates and Interest Payment Dates

Each Linked Interest Note bears interest on its nominal amount (or, if it is a Partly Paid Note, in accordance with Condition 3.11) or pays interest in respect of each Interest Period (which expression shall in these Terms and Conditions mean the period from (and including) an Interest Period End Date (or if none the Interest Commencement Date) to (but excluding) the next (or first) Interest Period End Date (each such latter date the **"Interest Period End Final Date"** for the relevant Interest Period)). For the purposes of this Condition 3.3 **"Interest Period End Date"** shall mean either:

- (i) the specified Interest Period End Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Interest Period End Date(s) is/are specified in the applicable Final Terms, each date which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Period End Date or, in the case of the first Interest Period End Date, after the Interest Commencement Date.

Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after an Interest Period End Final Date in respect of the

relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date.

If a Business Day Convention is specified in the applicable Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (x) if there is no numerically corresponding day in the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (y) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) In any case where Specified Periods are specified in accordance with Condition 3.3(a)(ii) above, the Floating Rate Convention, such Interest Period End Date or Interest Payment Date, as the case may be, (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (aa) such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day and (bb) each subsequent Interest Period End Date or Interest Payment Date, as the case may be, shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Period End Date or Interest Payment Date, as the case may be, occurred; or
- (B) The Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day; or
- (C) The Modified Following Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day; or
- (D) The Preceding Business Day Convention, such Interest Period End Date or Interest Payment Date, as the case may be, shall be brought forward to the immediately preceding Business Day.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Linked Interest Notes will be the Coupon Rate determined in the manner specified in the applicable Final Terms which Coupon Rate may comprise one or more Additional Coupons determined in the manner specified in the applicable Final Terms.

(c) Determination of Rate of Interest and Calculation of Interest Amount

The Calculation Agent will, on or as soon as practicable after each date on which the Rate of Interest is to be determined (the "**Interest Determination Date**"), determine the Rate of Interest (subject to any Minimum Interest Rate or Maximum Interest Rate specified in the applicable Final Terms) for the relevant Interest Period. The Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Calculation Agent will calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Linked Interest Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up);
- (ii) in the case of Linked Interest Notes in definitive form, the Calculation Amount; or
- (iii) in the case of Linked Interest Notes which are represented by Italian Dematerialised Notes, the aggregate outstanding nominal amount of such Italian Dematerialised Notes,

in each case, multiplying such sum by the Day Count Fraction (if any) specified in the applicable Final Terms and rounding the resultant figure to the nearest sub-unit (as defined above) of the relevant Specified Currency, one half of such sub-unit being rounded upwards or otherwise in accordance with applicable market convention and, in the case of Dual Currency Interest Notes, converting the resulting figure into the Settlement Currency as provided in Condition 3.14 below. Where the Specified Denomination of a Linked Interest Note in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

### 3.4 ISDA, FBF and Screen Rate Determination

#### (a) ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which a Rate of Interest or Rate, as applicable, is to be determined, such Rate of Interest or Rate, as the case may be, for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (a), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "**ISDA Definitions**") and under which:

- (i) the Floating Rate Option is as specified in the applicable Final Terms;
- (ii) the Designated Maturity is a period specified in the applicable Final Terms; and
- (iii) the relevant Reset Date is either (x) if the applicable Floating Rate Option is based on the London interbank offered rate ("**LIBOR**") or on the Euro-zone inter-bank offered rate ("**EURIBOR**") for a currency, the first day of that Interest Period or (y) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (a), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

#### (b) FBF Determination

Where so specified in the applicable Final Terms, interest will be payable on such dates, at such a rate (the "**FBF Rate**") and in such amounts, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), as would have been payable (regardless of any event of default or termination event thereunder) by the Issuer if it had entered into an interest rate swap transaction governed by an agreement in the form of the Master Agreement relating to foreign exchange and derivatives transactions (an "**FBF Agreement**"), as in effect on the date of issue of the Notes, published by the *Association Française des Banques/Fédération*

*Bancaire Française* and evidenced by a Confirmation (as defined in the FBF Agreement) with the holder of the relevant Note under which:

- (i) the Issuer was the Floating Amount Payer;
- (ii) the Principal Paying Agent (as defined herein) was the Agent (as defined in the FBF Agreement) or as otherwise specified in the applicable Final Terms;
- (iii) the Interest Commencement Date was the Transaction Date;
- (iv) the lowest Specified Denomination was the Notional Amount;
- (v) the Interest Payment Dates were the Floating Amount Payment Dates; and
- (vi) all other terms were as specified in the applicable Final Terms.

When the preceding sentence applies, in respect of each relevant Interest Payment Date:

- (A) the amount of interest determined for such Interest Payment Date will be the Interest Amount for the relevant Interest Period for the purposes of these Terms and Conditions as though determined under sub-conditions 3.2(c) or 3.3(c) above, as applicable;
- (B) the Rate of Interest for such Interest Period will be the Floating Rate (as defined in the FBF Agreement) determined by the Principal Paying Agent in accordance with the preceding sentence; and
- (C) the Principal Paying Agent or Calculation Agent, as applicable, will be deemed to have discharged its obligations under sub-conditions 3.2(c) or 3.3(c) above, as applicable, if it has determined the Rate of Interest and the Interest Amount payable on such Interest Payment Date in the manner provided in the preceding sentence.

(c) Screen Rate Determination

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which a Rate of Interest or Rate is to be determined, such Rate of Interest or Rate, as the case may be, for each Interest Period will, subject as provided below, be either:

- (i) the offered quotation; or
- (ii) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at the Specified Time indicated in the applicable Final Terms (which will be 11.00 a.m., London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Note Agency Agreement contains provisions for determining the Rate of Interest or Rate in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the Specified Time indicated above or in the applicable Final Terms.

If the Reference Rate from time to time is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest or Rate in respect of such Notes will be determined as provided in the applicable Final Terms.

### **3.5 Minimum and/or Maximum Interest Rate**

If the applicable Final Terms specifies a Minimum Interest Rate for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 3.2(b), 3.2(d), 3.3(b) or 3.4 (as appropriate) is less than such Minimum Interest Rate, the Rate of Interest for such Interest Period shall be such Minimum Interest Rate.

If the applicable Final Terms specifies a Maximum Interest Rate for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 3.2(b), 3.2(d), 3.3(b) or 3.4 (as appropriate) is greater than such Maximum Interest Rate, the Rate of Interest for such Interest Period shall be such Maximum Interest Rate.

### **3.6 Notification of Rate of Interest and Interest Amount**

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if applicable) (such notifications to occur no later than the Business Day following such determination), (in the case of Notes which are listed on Euronext Paris or on the Official List of the Luxembourg Stock Exchange and the rules of such stock exchange so require) Euronext Paris or the Luxembourg Stock Exchange, as applicable and, if applicable, to any other stock exchange on which the relevant Notes are for the time being listed. In addition, the Principal Paying Agent (except where the relevant Notes are unlisted and are in global form and held in their entirety on behalf of Euroclear, Clearstream, Luxembourg or the CMU, as the case may be in which event there may be substituted for such publication the delivery of such notice to Euroclear, Clearstream, Luxembourg or the CMU Lodging Agent, as the case may be for communication to the holders of the Notes) shall publish or cause to be published such Rate of Interest, Interest Amount and Interest Payment Date in accordance with Condition 16 as soon as possible after their determination but in no event later than the fourth Luxembourg Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Notes are for the time being listed and to the Noteholders in accordance with Condition 16. For the purposes of these Conditions, the expression "**Luxembourg Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks are open for business in Luxembourg.

### **3.7 Certificates to be Final**

All certificates, communications, determinations, calculations and decisions made for the purposes of the provisions of Conditions 3.2 to 3.6 and/or Condition 3.13, by the Principal Paying Agent or, if applicable, Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor (if applicable), the Principal Paying Agent, the other Paying Agents, or, if applicable, the Calculation Agent and all Noteholders, and (in the absence as aforesaid) no liability to the Noteholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

### 3.8 **Other definitions**

**"U.S. Government Securities Business Day"** means any day except for a Saturday, Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for the purposes of trading in U.S. government securities.

### 3.9 **Zero Coupon Notes**

Where a Zero Coupon Note becomes due and repayable prior to the Maturity Date and is not paid when due, the amount due and repayable shall be the amount determined in accordance with Condition 5.5 at its Amortised Face Amount. As from the Maturity Date, any overdue principal of such Note shall bear interest at a rate per annum equal to the Accrual Yield specified in the applicable Final Terms. Such interest shall continue to accrue (as well after as before any judgment) until the day on which all sums due in respect of such Note up to that day are received by or on behalf of the holder of such Note. Such interest will be calculated on the basis of a 360-day year consisting of 12 months of 30 days each and in the case of an incomplete month the actual number of days elapsed in such incomplete month.

### 3.10 **Coupon Switch**

If Coupon Switch is specified as applicable in the applicable Final Terms:

- (i) if Coupon Switch Election is specified as applicable in the applicable Final Terms, the Issuer may in its sole and absolute discretion elect that the Rate of Interest for the Notes will be amended (a **"Coupon Switch"**) from the Pre-Switch Coupon specified in the applicable Final Terms to the Post-Switch Coupon specified in the applicable Final Terms on and after the Coupon Switch Date; or
- (ii) if Automatic Coupon Switch is specified as applicable in the applicable Final Terms and an Automatic Coupon Switch Event occurs, the Rate of Interest for the Notes will be amended (a **"Coupon Switch"**) from the Pre-Switch Coupon specified in the applicable Final Terms to the Post-Switch Coupon specified in the applicable Final Terms on and after the Coupon Switch Date immediately following the SPS ACS Valuation Date or SPS ACS Valuation Period, as applicable, on which the Automatic Coupon Switch Event occurs.

If Additional Switch Coupon is specified as applicable in the applicable Final Terms, following the occurrence of a Coupon Switch, an Additional Switch Coupon Amount will be payable on the Additional Switch Coupon Payment Date. The **"Additional Switch Coupon Amount"** in respect of each nominal amount of Notes equal to the Calculation Amount will be the amount specified as such in the applicable Final Terms. For the purposes of Conditions 1.1, 4 and 13 Additional Switch Coupon Amount shall be deemed to be interest. For the avoidance of doubt, the Additional Switch Coupon Amount will only be paid on the single Additional Switch Coupon Payment Date.

Notice of any Coupon Switch will be given to Noteholders in accordance with Condition 16.

**"Additional Switch Coupon Payment Date"** means the date specified as such in the applicable Final Terms, which such date must be an Interest Payment Date;

**"Automatic Coupon Switch Event"** means that the SPS ACS Value is (a) "greater than", (b) "equal to or greater than", (c) "less than" or (d) "less than or equal to", as specified in the applicable Final Terms, the Automatic Coupon Switch Level, (x) on a SPS ACS Valuation Date or (y) in respect of a SPS ACS Valuation Period, as specified in the applicable Final Terms;

**"Automatic Coupon Switch Level"** means the number, amount, level or percentage specified as such in the applicable Final Terms;

**"Coupon Switch Date"** means each date specified as such or determined pursuant to the provisions in the applicable Final Terms;

**"SPS ACS Value"** means the value from Payout Condition 2.6, 2.7, 2.8, 2.9 or 2.10 specified as such in the applicable Final Terms;

**"SPS ACS Valuation Date"** means each Averaging Date, Pricing Date and/or Settlement Price Date specified as such in the applicable Final Terms; and

**"SPS ACS Valuation Period"** means each period specific as such in the applicable Final Terms.

### 3.11 **Interest on Partly Paid Notes**

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes) interest will accrue as aforesaid on the paid-up nominal amount of such Notes.

### 3.12 **Interest Payments**

Interest will be paid subject to and in accordance with the provisions of Condition 4. Interest will cease to accrue on each Note (or, in the case of the redemption of part only of a Note, that part only of such Note) on the due date for redemption thereof unless such Note is redeemed early. If such Note is redeemed early (i) if the applicable Final Terms specify that Accrual to Redemption is applicable, interest will cease to accrue on the due date for redemption or (ii) if the applicable Final Terms specify that Accrual to Redemption is not applicable, no interest shall accrue or be payable in respect of which the relevant Interest Payment Date has not occurred on or prior to the due date for redemption of such Note. If the payment of principal or the payment, and/or delivery of the Entitlement (if applicable), is improperly withheld or refused, interest will continue to accrue (as well after as before any judgment) at the Fixed Rate or, as the case may be, the Rate of Interest or as otherwise provided in the applicable Final Terms until whichever is the earlier of (i) the day on which all sums due and/or assets deliverable in respect of such Note up to that day are received by or on behalf of the holder of such Note and (ii) the day on which the Principal Paying Agent or any agent appointed by the Issuer to deliver such assets to Noteholders has notified the holder thereof (either in accordance with Condition 16 or individually) of receipt of all sums due and/or assets deliverable in respect thereof up to that date.

Provided that in the case of Credit Securities, these provisions shall be subject to the provisions contained in Annex 12 – "Additional Terms and Conditions for Credit Securities".

### 3.13 **Definitions**

In these Terms and Conditions:

**"Business Day"** means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in any Additional Business Centre specified in the applicable Final Terms; and
- (b) either (A) in relation to any sum payable in a Settlement Currency other than euro or CNY, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Settlement Currency (any such centre, an **"Additional Business Centre"** and which, if the Settlement Currency is Australian dollars or New Zealand dollars shall be Sydney or Auckland, respectively) (and where the Notes are Italian Dematerialised Notes, a day on which Monte Titoli is open for business), or (B) in relation to any sum payable in euro, a day

(a **"TARGET2 Settlement Day"**) on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the **"TARGET2 System"**) is open (and where the Notes are Italian Dematerialised Notes, a day on which Monte Titoli is open for business) or (C) in relation to any sum payable in CNY, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the CNY Settlement Centre(s).

**"Calculation Period"** means each Interest Period, AER Calculation Period, FR Calculation Period, Call Calculation Period or Put Calculation Period, as applicable.

**"Day Count Fraction"** means, in respect of the calculation of a rate or an amount of interest for any Calculation Period:

- (a) if **"Actual/Actual (ICMA)"** is specified in the applicable Final Terms:
  - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Period End Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **"Accrual Period"**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
  - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
    - (x) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (a) the number of days in such Determination Period and (b) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
    - (y) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (a) the number of days in such Determination Period and (b) the number of Determination Dates that would occur in one calendar year;

**"Determination Date(s)"** means the date(s) specified in the applicable Final Terms;

**"Determination Period"** means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the Interest Period End Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date);

- (b) if **"Actual/Actual (ISDA)"** or **"Actual/Actual"** is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (1) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (2) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (c) if **"Actual/365 (Fixed)"** is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365;
- (d) if **"Actual/365 (Sterling)"** is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 or, in the case of a Calculation Period ending in a leap year, 366;

- (e) if "**Actual/360**" is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 360;
- (f) if "**30/360**", "**360/360**" or "**Bond Basis**" is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y<sub>1</sub>" is the year expressed as a number, in which the first day of the Calculation Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day of the Calculation Period falls;

"M<sub>1</sub>" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day of the Calculation Period falls;

"D<sub>1</sub>" is the first calendar day, expressed as a number, of the Calculation Period, unless such number is 31 in which case D<sub>1</sub> will be 30; and

"D<sub>2</sub>" is the calendar day expressed as a number immediately following the last day included in the Calculation Period, unless such number would be 31 and D<sub>1</sub> is greater than 29, in which case D<sub>2</sub> will be 30;

- (g) if "**30E/360**" or "**Eurobond Basis**" is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y<sub>1</sub>" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day of the Calculation Period falls;

"M<sub>1</sub>" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day of the Calculation Period falls;

"D<sub>1</sub>" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31 in which case D<sub>1</sub> will be 30; and

"D<sub>2</sub>" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D<sub>2</sub> will be 30;

- (h) if "**30E/360 (ISDA)**" is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"Y<sub>1</sub>" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"Y<sub>2</sub>" is the year, expressed as a number, in which the day immediately following the last day of the Calculation Period falls;

"M<sub>1</sub>" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"M<sub>2</sub>" is the calendar month, expressed as a number, in which the day immediately following the last day of the Calculation Period falls;

"D<sub>1</sub>" is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D<sub>1</sub> will be 30; and

"D<sub>2</sub>" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31 in which case D<sub>2</sub> will be 30.

### 3.14 **Dual Currency Interest Notes**

If the Notes are specified in the applicable Final Terms as Dual Currency Interest Notes, the amount of interest calculated in respect of any Interest Payment Date is not an amount in the Settlement Currency, it will be converted into the Settlement Currency at the Specified Exchange Rate specified in the applicable Final Terms or, if no Specified Exchange Rate is specified, the Settlement Currency Exchange Rate on the relevant Settlement Currency Exchange Rate Observation Date.

Any reference to "interest" in this Condition 3.14 shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 6.

## 4. **PAYMENTS, PHYSICAL DELIVERY AND EXCHANGE OF TALONS**

For the purposes of this Condition 4, references to payment or repayment (as the case may be) of principal and/or interest and other similar expressions shall, where the context so admits, be deemed also to refer to delivery of any Entitlement(s).

### (a) ***Method of Payment***

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg, the CMU and/or any other relevant Clearing System are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date (the "**Record Date**"). Notwithstanding the previous sentence, if (i) a

holder does not have a Designated Account or (ii) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or integral multiples of U.S.\$1,000 in excess thereof) (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Settlement Currency drawn on a Designated Bank (as defined below). For these purposes, "**Designated Account**" means the account maintained by a holder with a Designated Bank and identified as such in the Register and "**Designated Bank**" means (i) (in the case of payment in a Settlement Currency other than euro or CNY) a bank in the principal financial centre of the country of such Settlement Currency; (ii) (in the case of a payment in euro) any bank which processes payments in euro; and (iii) (in the case of a payment in CNY) in the CNY Settlement Centre(s).

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by a cheque in the Settlement Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg, the CMU and/or any other relevant Clearing System are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the Record Date at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note. Notwithstanding anything to the contrary in this paragraph, payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note denominated in CNY (whether or not in global form) will be made solely by transfer to the Designated Account of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg or the CMU and/or any other relevant Clearing System are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the Record Date.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

Neither the Issuer, the Guarantor (if applicable) nor any of the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal and interest (if any) in respect of the definitive Bearer Notes will (subject as provided below) be made against presentation or surrender of such Bearer Notes or Coupons, as the case may be, at any specified office of any Paying Agent. Payments of principal in respect of instalments (if any), other than the last instalment, will (subject as provided below) be made against surrender of the relevant Receipt. Payment of the last instalment will be made against surrender of the relevant Bearer Note. Each Receipt must be presented for payment of such instalment together with the relevant definitive Bearer Note against which the amount will be payable in respect of that instalment. If any definitive Bearer Notes are redeemed or become repayable prior to the Maturity Date in respect thereof, principal will be payable on surrender of each such Note together with all unmatured Receipts appertaining thereto. Unmatured Receipts and Receipts presented without the definitive Bearer Notes to which they appertain do not constitute obligations of the Issuer. All payments of interest and principal with respect to Bearer Notes will be made only against presentation and surrender of the relevant Bearer Notes, Coupons or Receipts outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)) except as otherwise provided in the third succeeding paragraph. No payments with respect to the Bearer Notes will be made by mail to an address in the United States or by transfer to an account maintained by the holder in the United States.

Subject as provided below, payments in respect of definitive Notes (other than Currency Securities) denominated in a Specified Currency (other than euro or CNY) or, in the case of Currency Securities, payable in a Settlement Currency (other than euro or CNY) will (subject as provided below) be made by a cheque in the Settlement Currency drawn on, or, at the option of the holder and upon 15 days' prior notice to the Principal Paying Agent, by transfer to an account in the Settlement Currency maintained by the payee with, a bank in the principal financial centre of the country of the Settlement Currency. Payments in euro will be made by credit or transfer to a euro account or any other account to which euro may be credited or transferred specified by the payee or, at the option of the payee, by euro-cheque. Payments in CNY will be made by credit or transfer to a CNY account within the CNY Settlement Centre(s) unless otherwise specified in the applicable Final Terms.

Payments of principal and interest (if any) in respect of the Notes represented by Italian Dematerialised Notes will be credited, according to the instructions of Monte Titoli, by the Italian Agent on behalf of the relevant Issuer or the Guarantor, as applicable, to the accounts of those intermediaries adhering to the clearing system whose accounts with Monte Titoli are credited with those Italian Dematerialised Notes and thereafter credited by intermediaries adhering to the clearing system from such aforementioned accounts to the accounts of the beneficial owners of those Italian Dematerialised Notes. The relevant Issuer or the Guarantor, as applicable, will be discharged by payment to, or to the order of, Monte Titoli in respect of the amount so paid. Each of the persons shown in the records of Monte Titoli as the holder of a particular amount of the Italian Dematerialised Notes must look solely to Monte Titoli for his share of each such payment so made to, or to the order of, Monte Titoli.

The applicable Final Terms may also contain provisions for variation of settlement where, for reasons beyond the control of the Issuer or any Noteholder (including, without limitation, unlawfulness, illegality, impossibility, *force majeure*, non-transferability or the like, each a "**Payment Disruption Event**"), the Issuer is not able to make, or any Noteholder is not able to receive, as the case may be, payment on the due date and in the Settlement Currency of any amount of principal or interest due under the Notes.

If the applicable Final Terms specify "CNY Payment Disruption Event" to be applicable, in the event that the Calculation Agent determines, in its sole and absolute discretion, that a CNY Payment Disruption Event has occurred or is likely to occur and that such CNY Payment Disruption Event is

material in relation to the Issuer's payment obligations under the Notes in respect of any forthcoming Interest Payment Date, Maturity Date or other date on which any amount in respect of the Notes shall be due and payable (each such date, an "**Affected Payment Date**"), then the Calculation Agent shall notify Noteholders as soon as practicable of the occurrence of such CNY Payment Disruption Event in accordance with Condition 16.

- (I) If the applicable Final Terms specify that "CNY Payment Disruption Event" is applicable to the Notes, upon the occurrence of a CNY Payment Disruption Event:

(i) *Postponement*

If the applicable Final Terms specify "Postponement" to be applicable in respect of the Notes, then the Affected Payment Date shall be postponed until the earlier of (A) the second Business Day following the day on which such CNY Payment Disruption Event ceases to exist, and (B) the date falling 14 calendar days following the original date on which the Affected Payment Date was scheduled to fall (the "**CNY Payment Disruption Cut-off Date**") and notice thereof shall be given to the relevant Noteholders in accordance with Condition 16. For the avoidance of doubt, no amount of interest shall be payable in respect of any delay in payment of any amount(s) due to the adjustment of any Affected Payment Date.

In the event that, pursuant to the preceding paragraph, the Affected Payment Date is adjusted to fall on the CNY Payment Disruption Cut-off Date and the Calculation Agent determines that a CNY Payment Disruption Event still exists on such day, then the Issuer shall make payment of the Equivalent Amount of the relevant Interest Amount, Final Redemption Amount or such other amount payable (if applicable) on the CNY Payment Disruption Cut-off Date and notice thereof shall be given to the relevant Noteholders in accordance with Condition 16. Any such payment made by the Issuer on the CNY Payment Disruption Cut-off Date shall be in full and final settlement of its obligations to pay such amount in respect of the Notes.

(ii) *Payment of Equivalent Amount*

If the applicable Final Terms specify "Payment of Equivalent Amount" to be applicable in respect of the Notes, the Issuer shall, upon giving notice prior to the relevant Affected Payment Date to the Noteholders in accordance with Condition 16, make payment of the Equivalent Amount of the relevant Interest Amount, Final Redemption Amount or such other amount payable (if applicable) on the relevant Affected Payment Date. Any such payment made by the Issuer on an Affected Payment Date shall be in full and final settlement of its obligations to pay such amount in respect of the Notes.

(iii) For these purposes:

"**CNY**" means Chinese Yuan or Renminbi, the lawful currency of the People's Republic of China (including any lawful successor currency to the CNY).

"**CNY Governmental Authority**" means any de facto or de jure government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) in the People's Republic of China, Hong Kong and any other CNY Settlement Centre(s).

**"CNY Payment Disruption Event"** means the occurrence of any of the following events:

- (A) an event which makes it impossible (where it had previously been possible) or impractical for the Issuer to convert any amounts due and payable in CNY under the Notes into or from the Equivalent Amount Settlement Currency in the general CNY foreign exchange market in the relevant CNY Settlement Centre(s), except where such impossibility or impracticality is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any CNY Governmental Authority (unless such law, rule or regulation is enacted after the relevant Trade Date, and it is impossible or impractical for the Issuer, due to events beyond its control, to comply with such law, rule or regulation) (a **"CNY Inconvertibility Event"**). For the avoidance of doubt, the inability of the Issuer to convert CNY solely due to issues relating to its creditworthiness shall not constitute a CNY Inconvertibility Event;
- (B) an event that makes it impossible (where it had previously been possible) or impractical for the Issuer to deliver (i) CNY between accounts inside the relevant CNY Settlement Centre(s), or (ii) from an account inside the relevant CNY Settlement Centre(s) to an account outside the relevant CNY Settlement Centre(s) (including, if applicable, to another CNY Settlement Centre) and outside Mainland China, or (iii) from an account outside the relevant CNY Settlement Centre(s) (including, if applicable, from an account inside another CNY Settlement Centre) and outside Mainland China to an account inside the relevant CNY Settlement Centre(s), except where such impossibility or impracticality is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any CNY Governmental Authority (unless such law, rule or regulation is enacted after the relevant Trade Date, and it is impossible or impractical for the Issuer, due to events beyond its control, to comply with such law, rule or regulation) (a **"CNY Non-Transferability Event"**). For the purposes of determining whether a CNY Non-Transferability Event has occurred only, a segregated CNY fiduciary cash account with the People's Bank of China and operated by Bank of China (Hong Kong) Limited shall be deemed to be an account inside Hong Kong; and
- (C) an event that makes it impossible (where it had previously been possible) or impractical for the Issuer to obtain a firm quote of an offer price in respect of any amounts due and payable in CNY under the Notes (either in one transaction or a commercially reasonable number of transactions that, when taken together, is no less than such amount) in the general CNY foreign exchange market in the relevant CNY Settlement Centre(s) in order to perform its obligations under the Notes (a **"CNY Illiquidity Event"**). For the avoidance of doubt, the inability of the Issuer to obtain such firm quote solely due to issues relating to its creditworthiness shall not constitute a CNY Illiquidity Event.

**"CNY Settlement Centre"** means the financial centre(s) specified as such in the applicable Final Terms in accordance with applicable laws and regulations. If no CNY Settlement Centre is specified in the relevant Final Terms, the CNY Settlement Centre shall be deemed to be Hong Kong.

**"Equivalent Amount"** means, following the occurrence of a CNY Payment Disruption Event and in respect of the relevant Interest Amount, Final Redemption Amount or such other amount payable (if applicable) on the relevant Affected Payment Date or the relevant

CNY Payment Disruption Cut-off Date, as the case may be (for these purposes, the **"Relevant CNY Amount"**), an amount in the Equivalent Amount Settlement Currency determined by the Calculation Agent (in its sole and absolute discretion), by converting the Relevant CNY Amount into the Equivalent Amount Settlement Currency using the Equivalent Amount Settlement Price for the relevant Affected Payment Date or the relevant CNY Payment Disruption Cut-off Date, as the case may be.

**"Equivalent Amount Settlement Currency"** means the currency specified as such in the applicable Final Terms.

**"Equivalent Amount Settlement Price"** means, in respect of any relevant day, the spot rate of exchange between CNY and the Equivalent Amount Settlement Currency on such day, appearing on the Equivalent Amount Settlement Price Source at the Equivalent Amount Settlement Valuation Time on such day (expressed as a number of units (or part units) of CNY for which one unit of the Equivalent Amount Settlement Currency can be exchanged), or if such rate is not available, the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards)) as determined by or on behalf of the Calculation Agent of the bid and offer CNY/Equivalent Amount Settlement Currency exchange rates provided by two or more leading dealers on a foreign exchange market (as selected by the Calculation Agent) at the Equivalent Amount Settlement Valuation Time on such day. If less than two leading dealers provide the Calculation Agent with bid and offer CNY/Equivalent Amount Settlement Currency exchange rates on such day, the Calculation Agent shall determine the Equivalent Amount Settlement Price in its discretion.

**"Equivalent Amount Settlement Price Source"** means the price source specified in the applicable Final Terms.

**"Equivalent Amount Settlement Valuation Time"** means, unless otherwise specified in the applicable Final Terms, the time at which the Equivalent Amount Settlement Price Source publishes the Equivalent Amount Settlement Price.

**"impossible"** or **"impossibility"** in relation to a CNY Payment Disruption Event, shall include (but shall not be limited to) any act which, if done or performed by the Issuer (or any affiliate of the Issuer) would be or result in the breach of any applicable law, rule, or regulation.

**"impractical"** or **"impracticability"** means, in relation to a CNY Payment Disruption Event and in respect of any action to be taken by the Issuer, that the Issuer (or any of its affiliates) would incur a materially increased amount of taxes, duties, expenses or fees (as compared with circumstances existing on the Trade Date) to perform such action.

- (II) If the Settlement Currency specified in the applicable Final Terms is a Relevant Currency, FX Settlement Disruption will apply, and:
  - (i) If, on the second Business Day prior to the Disrupted Payment Date, the Calculation Agent (in its sole and absolute discretion) determines that a FX Settlement Disruption Event has occurred and is subsisting, the Issuer shall give notice (a **"FX Settlement Disruption Notice"**) to the Noteholders in accordance with Condition 16 as soon as reasonably practicable thereafter and, in any event, prior to the relevant Disrupted Payment Date.

- (ii) Following the occurrence of a FX Settlement Disruption Event:
  - (A) the date for payment of the relevant Disrupted Amount will be postponed to (i) the second Business Day following the date on which the Calculation Agent determines that a FX Settlement Disruption Event is no longer subsisting or if earlier (ii) the date falling thirty calendar days following the scheduled due date for payment of the relevant Disrupted Amount (the "**FX Settlement Disruption Cut-off Date**") which, for the avoidance of doubt, may be later than the scheduled Maturity Date; and
  - (B) (i) in the case of (A)(i) above, the Issuer will pay the relevant Disrupted Amount, less (except in the case of Italian Listed Notes) FX Settlement Disruption Expenses (if any), in the Settlement Currency specified in the applicable Final Terms or, (ii) in the case of (A)(ii) above, in lieu of paying the relevant Disrupted Amount in the relevant Settlement Currency, the Issuer will, subject to sub-paragraph (iii) below, convert the relevant Disrupted Amount into the FX Settlement Disruption Currency (using the FX Settlement Disruption Exchange Rate for the relevant Disrupted Payment Date) and will pay the relevant Disrupted Amount, less (except in the case of Italian Listed Notes) FX Settlement Disruption Expenses (if any), in the FX Settlement Disruption Currency on the FX Settlement Disruption Cut-off Date.
- (iii) If sub-paragraph (ii)(A)(ii) applies, the Calculation Agent will determine the FX Settlement Disruption Exchange Rate in its sole and absolute discretion in accordance with the following procedures:
  - (A) the FX Settlement Disruption Exchange Rate shall be the arithmetic mean (rounded, if necessary, to four decimal places (with 0.00005 being rounded upwards)) as determined by or on behalf of the Calculation Agent of the bid and offer Settlement Currency/FX Settlement Disruption Currency exchange rates provided by two or more leading dealers on a foreign exchange market (as selected by the Calculation Agent) on such day; or
  - (B) if fewer than two leading dealers provide the Calculation Agent with bid and offer Settlement Currency/FX Settlement Disruption Currency exchange rates on such day, the Calculation Agent shall determine the FX Settlement Disruption Exchange Rate in its discretion.
- (iv) This Condition 4(a)(II) shall not apply to Dual Currency Notes.
- (v) For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 4(a)(II), and no additional interest will be paid in respect of any postponement of the date for payment.
- (vi) For the avoidance of doubt, nothing contained in this Condition 4(a)(II) shall prevent the Issuer from determining that an Additional Disruption Event and/or Optional Additional Disruption Event has occurred, in which case, the provisions of Condition 9 shall prevail in the event of any conflict between this Condition 4(a)(II) and Condition 9.
- (vii) For these purposes:
 

**"Disrupted Amount"** means the relevant Interest Amount, Final Redemption Amount or such other amount payable (if any);

**"Disrupted Payment Date"** means the due date for payment of the relevant Interest Amount, Final Redemption Amount or such other amount payable (if any);

**"FX Settlement Disruption Currency"** means USD;

**"FX Settlement Disruption Event"** means the occurrence of an event which makes it unlawful, impossible or otherwise impracticable to pay any Disrupted Amount in the Settlement Currency on the scheduled due date for payment;

**"FX Settlement Disruption Exchange Rate"** means the rate of exchange between the Settlement Currency (as specified in the applicable Final Terms) and the FX Settlement Disruption Currency, determined by the Calculation Agent in accordance with the provisions of sub-paragraph (iii) above;

**"FX Settlement Disruption Expenses"** means the sum of (i) the cost to the Issuer and/or its Affiliates of unwinding any hedging arrangements related to the Securities and (ii) any transaction, settlement or other costs and expenses arising directly out of the occurrence of a FX Settlement Disruption Event or the related payment of the Disrupted Amount, all as determined by the Calculation Agent in its sole and absolute discretion; and

**"Relevant Currency"** means each of Emirati Dirhams ("AED"), Argentinian Pesos ("ARS"), Australian Dollars ("AUD"), Bermudan Dollars ("BMD"), Bulgarian Leva ("BGN"), Bahraini Dinars ("BHD"), Botswana Pula ("BWP"), Brazilian Reais ("BRL"), Canadian Dollars ("CAD"), Swiss Francs ("CHF"), Chilean Pesos ("CLP"), Czech Republic Korun ("CZK"), Danish Kroner ("DKK"), Great British Pounds ("GBP"), Ghanaian Cedis ("GHS"), Hong Kong Dollars ("HKD"), Croatian Kuna ("KRJ"), Hungarian Forints ("HUF"), Indonesian Rupiah ("IDR"), Israeli Shekels ("ILS"), Icelandic Krónur ("ISK"), Jordanian Dinars ("JOD"), Japanese Yen ("JPY"), Kenyan Shillings ("KES"), Kuwaiti Dinars ("KWD"), Kazakhstani Tenges ("KZT"), Lebanese Pounds ("LBP"), Moroccan Dirhams ("MAD"), Mauritian Rupees ("MUR"), Mexican Pesos ("MXN"), Malaysian Ringgits ("MYR"), Namibian Dollars ("NAD"), Nigerian Naira ("NGN"), Norwegian Kroner ("NOK"), New Zealand Dollars ("NZD"), Omani Riyals ("OMR"), Peruvian Nuevos Soles ("PEN"), Philippine Pesos ("PHP"), Polish Zloty ("PLN"), Qatari Riyals ("QAR"), Romanian Lei ("RON"), Russian Roubles ("RUB"), Saudi Riyals ("SAR"), Swedish Kronor ("SEK"), Singaporean Dollars ("SGD"), Thai Baht ("THB"), Tunisian Dinars ("TND"), Turkish Lira ("TRY") and South African Rand ("ZAR").

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will be made in the manner specified above and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside of the United States. A record of each payment made on such Global Note, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which such Global Note is presented for the purpose of making such payment, and such record shall be *prima facie* evidence that the payment in question has been made.

Notwithstanding the foregoing, payments in respect of Bearer Notes denominated and payable in U.S. dollars will be made at the specified office of any Paying Agent in the United States if (a) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment at such specified offices outside the United States of the full amount due on the Bearer Notes in the manner provided

above when due and (b) payment of the full amount due at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions.

Notwithstanding the foregoing, payments in respect of Notes denominated and payable in CNY will be made solely by transfer to a CNY bank account maintained in the CNY Settlement Centre(s) in accordance with prevailing rules and regulations.

The holder of the relevant Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the payment obligations of the Issuer or the Guarantor (if applicable) will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg or the CMU as the holder of a particular nominal amount of Notes must look solely to Euroclear and/or Clearstream, Luxembourg or the CMU, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of the relevant Global Note. No person other than the holder of the relevant Global Note shall have any claim against the Issuer or the Guarantor (if applicable) in respect of any payments due on that Global Note.

Fixed Rate Bearer Notes in definitive form should be presented for payment with all unmatured Coupons appertaining thereto (which expression shall include Coupons to be issued on exchange of Talons which will have matured on or before the relevant redemption date), failing which the full amount of any missing unmatured Coupon (or, in the case of payment not being made in full, that proportion of the full amount of such missing unmatured Coupon which the sum so paid bears to the total amount due) will be deducted from the sum due for payment. Any amount so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon within a period of 10 years from the Relevant Date (as defined in Condition 6) for the payment of such sum due for payment, whether or not such Coupon has become void pursuant to Condition 13 or, if later, five years from the due date for payment of such Coupon. Upon any Fixed Rate Bearer Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the due date for redemption of any Floating Rate Note, Dual Currency Interest Note, Dual Currency Redemption Note (each, a "**Dual Currency Note**"), Index Security, Share Security, Inflation Security, Commodity Security, Fund Security, Credit Security, ETI Security, Currency Security, Debt Security, Underlying Interest Rate Linked Security or Hybrid Security in definitive bearer form, all unmatured Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them. Where any Floating Rate Note, Index Security, Share Security, Inflation Security, Commodity Security, Fund Security, Credit Security, ETI Security, Currency Security, Debt Security, Underlying Interest Rate Linked Security or Hybrid Security is presented for redemption without all unmatured Coupons appertaining thereto, payment of all amounts due in relation to such Note shall be made only against the provision of such indemnity of the Issuer or the Guarantor (if applicable).

If any date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, then the holder thereof shall not be entitled to payment of the amount due until the next following Payment Day and shall not be entitled to any interest or other sum in respect of any such delay. If the due date for redemption of any interest bearing Note in definitive form is not a due date for the payment of interest relating thereto, interest accrued in respect of such Note from (and including) the last preceding due date for the payment of interest (or from the Interest Commencement Date) will be paid against surrender of such Note.

For these purposes, "**Payment Day**" means any day which (subject to Condition 13) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
  - (A) the relevant place of presentation;
  - (B) each Financial Centre specified in the applicable Final Terms; and
- (ii) either (A) in relation to any sum payable in euro, a day on which the TARGET2 System is open; or (B) in relation to any sum payable in CNY, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the CNY Settlement Centre(s).

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to, and including, the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 14. Each Talon shall, for the purposes of these Terms and Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

If the determination of any amount (whether in respect of principal, interest or otherwise) due in respect of the Notes on an Interest Payment Date, Instalment Date, early redemption date or the Maturity Date (such date a "**Scheduled Payment Date**") is calculated by reference to the valuation of one or more Underlying Reference(s) and the date (or final date, as the case may be) for such valuation is postponed or delayed as provided in the Terms and Conditions or in the applicable Final Terms to a date (such date the "**Delayed Date**") falling after the day that is two Business Days preceding such Scheduled Payment Date, notwithstanding any provision to the contrary in the Terms and Conditions or in the applicable Final Terms, such Interest Payment Date, Instalment Date, early redemption date or the Maturity Date, as the case may be, shall be postponed to the day falling two Business Days following such Delayed Date and no interest or other amount shall be payable on the Notes in respect of such delay.

The names of the initial Principal Paying Agent and the other initial Paying Agents and their initial specified offices are set out below. The Issuer reserves the right at any time to vary or terminate the appointment of any Paying Agent and to appoint additional or other Paying Agents and/or to approve any change in the specified office of any Paying Agent, provided that:

- (i) so long as any Notes are listed on any stock exchange, there will at all times be a Paying Agent, which may be the Principal Paying Agent (in the case of Bearer Notes) and a Transfer Agent, which may be the Registrar (in the case of Registered Notes) with a specified office in the place required by the rules and regulations of the relevant stock exchange; and
- (ii) there will at all times be a Principal Paying Agent and a Registrar; and
- (iii) there will at all times be a Paying Agent in a jurisdiction within continental Europe other than the jurisdiction of the Issuer;
- (iv) the Issuer undertakes that it will ensure that it maintains a Paying Agent in a Member State of the European Union that is not obliged to withhold or deduct tax pursuant to Council

Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive, other than the jurisdiction in which the Issuer or Guarantor (if any) are incorporated;

- (v) so long as any Notes are cleared through CMU, there will at all times be appointed a CMU lodging agent or paying agent with a specified office in such place as required by the CMU; and
- (vi) so long as any Notes are cleared through Monte Titoli, there will at all times be an Italian Agent.

In addition, the Issuer shall immediately appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 4(a). Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 nor more than 45 days' prior notice shall have been given to the Noteholders in accordance with Condition 16.

Payments in respect of the Notes will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 6, (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 6) any law implementing an intergovernmental approach thereto, and (iii) any withholding or deduction required pursuant to Section 871(m) of the Code.

(b) ***Physical Delivery***

(i) *Physical Delivery*

(A) Asset Transfer Notices

In relation to Notes to be redeemed by delivery or (in the case of Credit Securities) Delivery of the Entitlement(s), in order to obtain delivery or Delivery of the Entitlement in respect of any Note, the relevant Noteholder must:

- (X) if such Note is represented by a Global Note, the relevant Noteholder must deliver to Euroclear or Clearstream, Luxembourg (as applicable), with a copy to the Principal Paying Agent and any entity appointed by the Issuer to deliver or Deliver, as the case may be, the Entitlement on its behalf (the "**Delivery Agent**") not later than the close of business in each place of reception on the Cut-Off Date, a duly completed asset transfer notice in the form set out in the Note Agency Agreement (an "**Asset Transfer Notice**"); and
- (Y) if such Note is in definitive form, the relevant Noteholder must deliver (i) if this Note is a Bearer Note, to any Paying Agent or (ii) if this Note is a Registered Note, to the Registrar or any Paying Agent, in each case, with a copy to the Principal Paying Agent and the Delivery Agent (as defined above) not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice in the form set out in the Note Agency Agreement.

For the purposes hereof, "**Cut-off Date**" means the date specified as such in the applicable Final Terms or if not so specified (a) in respect of a Note that is not a Credit Note, the third Business Day immediately preceding the Maturity Date or (b) in respect of a Credit Note, the third Business Day immediately preceding the Physical Settlement Date (or, if earlier, the tenth Business Day following the NOPS Effective Date of the Notice of Physical Settlement).

Copies of the Asset Transfer Notice may be obtained during normal business hours from the specified office of the Registrar or any Paying Agent.

An Asset Transfer Notice may only be delivered (i) if such Note is represented by a Global Note, in such manner as is acceptable to Euroclear or Clearstream, Luxembourg, as the case may be, or (ii) if such Note is in definitive form, in writing.

If this Note is in definitive form, this Note must be delivered together with the duly completed Asset Transfer Notice.

The Asset Transfer Notice shall:

- I. specify the name, address and contact telephone number of the relevant Noteholder and the person from whom the Issuer or Delivery Agent may obtain details for the delivery or Delivery of the Entitlement;
- II. specify the series number of the Notes and the number of Notes which are the subject of such notice;
- III. in the case of Notes represented by a Global Note, specify the nominal amount of Notes which are the subject of such notice and the number of the Noteholder's account at the relevant Clearing System to be debited with such Notes and irrevocably instruct and authorise the relevant Clearing System to debit the relevant Noteholder's account with such Notes on or before the Delivery Date or (in the case of Credit Securities) the Delivery Date (as defined in the Credit Security Conditions);
- IV. include an undertaking to pay all Expenses and, in the case of Notes represented by a Global Note, an authority to the relevant Clearing System to debit a specified account of the Noteholder with the relevant Clearing System in respect thereof and to pay such Expenses;
- V. include such details as are required for delivery or Delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be delivered or Delivered and specify the name and number of the Noteholder's account to be credited with any cash payable by the Issuer in respect of any cash amount constituting the Entitlement or any dividends relating to the Entitlement or as a result of the occurrence of a Settlement Disruption Event or a Failure to Deliver due to Illiquidity and the Issuer electing to pay the Disruption Cash Redemption Amount or Failure to Deliver Redemption Amount, as

applicable, or as a result of the Issuer electing to pay the Alternate Cash Redemption Amount;

- VI. certify that the beneficial owner of each Note is not a U.S. person (as defined in the Asset Transfer Notice), the Note is not being redeemed within the United States or on behalf of a U.S. person and no cash, securities or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof;
- VII. authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided in the Note Agency Agreement.

If Condition 4(b)(ii) applies, the form of Asset Transfer Notice required to be delivered will be different from that set out above. Copies of such Asset Transfer Notice may be obtained from the Registrar or any Paying Agent.

(B) Verification of the Noteholder

In the case of Notes represented by a Global Note, upon receipt of an Asset Transfer Notice, the relevant Clearing System shall verify that the person delivering the Asset Transfer Notice is the holder of the Notes described therein according to its records. Subject thereto, the relevant Clearing System will confirm to the Principal Paying Agent the series number and number of Notes the subject of such notice, the relevant account details and the details for the delivery of the Entitlement of each Note. Upon receipt of such confirmation, the Principal Paying Agent will inform the Issuer and any Delivery Agent thereof. The relevant Clearing System will on or before the Delivery Date or (in the case of Credit Securities) the Delivery Date (as defined in the Credit Security Conditions), as the case may be, debit the securities account of the relevant Noteholder with the relevant Notes.

(C) Determinations and Delivery

Any determination as to whether an Asset Transfer Notice is duly completed and in proper form shall be made, in the case of Notes represented by a Global Note, by the relevant Clearing System or, in the case of Notes in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, or in each case in consultation with the Principal Paying Agent, and shall be conclusive and binding on the Issuer, the Guarantor (if applicable), the Principal Paying Agent(s), any Delivery Agent and the relevant Noteholder. Subject as set out below, any Asset Transfer Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Paying Agent and any Delivery Agent immediately after being delivered or sent as provided in paragraph (A) above, shall be null and void.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of, in the case of Notes represented by a Global Note, the relevant Clearing System, or, in the case of Notes in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, or in each case in consultation with the Principal Paying Agent, it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

No Asset Transfer Notice may be withdrawn after receipt thereof by the relevant Clearing System, the Registrar or a Paying Agent, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

The Entitlement will be delivered at the risk of the relevant Noteholder, in the manner provided below on the date fixed for redemption (such date, subject to adjustment in accordance with this Condition, the "**Delivery Date**") or in the case of Credit Securities Delivered at the risk of the relevant Noteholder, in the manner provided below on the Delivery Date (as defined in the Credit Security Conditions), provided that the Asset Transfer Notice is duly delivered as provided above on or prior to the Cut-Off Date.

If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to the Principal Paying Agent and the Delivery Agent, on or prior to the Cut-Off Date, then the Entitlement will be delivered or, as the case may be, Delivered as soon as practicable after the date fixed for redemption (in which case, such date of delivery shall be the Delivery Date) or (in the case of Credit Securities) the original date fixed for delivery at the risk of such Noteholder in the manner provided below. For the avoidance of doubt, in such circumstances such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Delivery Date falling after the date fixed for redemption or the original date fixed for delivery, as applicable and no liability in respect thereof shall attach to the Issuer or the Guarantor (if applicable), if any.

The Issuer (or any Delivery Agent on its behalf) shall at the risk of the relevant Noteholder, deliver or procure the delivery of the Entitlement for each Note or (in the case of Credit Securities) Deliver the Deliverable Obligations, obligations and/or other assets comprising the Entitlement, in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice or in such manner as is specified in the applicable Final Terms. All costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes ("**Expenses**") arising from the delivery of the Entitlement or the Delivery of the Deliverable Obligations, obligations and/or other assets comprising the Entitlement, as the case may be, in respect of such Notes shall be for the account of the relevant Noteholder and no delivery of the Entitlement or the Delivery of the Deliverable Obligations, obligations and/or other assets comprising the Entitlement, as the case may be, shall be made until all Expenses have been paid to the satisfaction of the Issuer by the relevant Noteholder.

(D) General

If Aggregation is specified as applicable in the applicable Final Terms, Notes held by the same Noteholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Notes. The Entitlement or aggregate Entitlements in respect of the same Noteholder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be

delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Noteholder.

Following the Delivery Date of a Share or ETI Interest all dividends on the relevant Shares or ETI Interest to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Shares or ETI Interests executed on the Delivery Date and to be delivered in the same manner as such relevant Shares or ETI Interests. Any such dividends to be paid to a Noteholder will be paid to the account specified by the Noteholder in the relevant Asset Transfer Notice as referred to in Condition 4(b)(i)(A).

For such period of time after delivery or Delivery of the Entitlement as the Issuer or any person acting on behalf of the Issuer shall continue to be the legal owner of the securities or Deliverable Obligations, obligations and/or other assets comprising the Entitlement (the "**Intervening Period**"), none of the Issuer, the Guarantor (if applicable), the Paying Agents, the Registrar, any Delivery Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities, obligations, assets or Deliverable Obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities, obligations, assets or Deliverable Obligations or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities, obligations, assets or Deliverable Obligations.

(E) Settlement Disruption

The provisions of this Condition 4(b)(i)(E) apply to Notes other than Credit Securities.

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the applicable Final Terms or such commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on the Delivery Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Disruption Cash

Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 16. Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 16. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 16 that a Settlement Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Note in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

**"Disruption Cash Redemption Amount"**, in respect of any relevant Note, shall be the fair market value of such Note (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets) less, except in the case of Italian Listed Notes, the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion;

**"Settlement Business Day"** has the meaning specified in the applicable Final Terms; and

**"Settlement Disruption Event"** means, in the opinion of the Calculation Agent or, if the proviso in Condition 2.2(c) applies, the Guarantor, an event beyond the control of the Issuer or the Guarantor, as the case may be, as a result of which the Issuer or the Guarantor, as the case may be, cannot make delivery of the Relevant Asset(s) using the method specified in the applicable Final Terms.

(F) Failure to Deliver due to Illiquidity

The provisions of this Condition 4(b)(i)(F) apply to the Notes other than Credit Securities.

If "Failure to Deliver due to Illiquidity" is specified as applying in the applicable Final Terms and in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **"Affected Relevant Assets"**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **"Failure to Deliver due to Illiquidity"**), then:

- I. subject as provided elsewhere in the Terms and Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated date of redemption in accordance with this Condition 4(b); and
- II. in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Failure to Deliver Redemption

Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 16. Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 16. The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 16 that the provisions of this Condition 4(b)(i)(F) apply.

For the purposes hereof, "**Failure to Deliver Redemption Amount**" in respect of any relevant Note shall be the fair market value of such Note (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above, the value of such Relevant Assets), less, except in the case of Italian Listed Notes, the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion.

(G) Additional Provisions for Credit Securities

In the case of Credit Securities, the provisions contained in Annex 12 – "Additional Terms and Conditions for Credit Securities" shall apply.

(H) Additional Provisions for Italian Listed Notes

In the case of Italian Listed Notes, notwithstanding the foregoing, for the purposes of this Condition 4(b)(i) any reference to the "fair market value of such Note" shall be deemed replaced with the "Early Redemption Amount."

(ii) *Variation of Settlement*

(A) If the applicable Final Terms indicate that the Issuer has an option to vary settlement in respect of the Notes, the Issuer may at its sole and absolute discretion in respect of each such Note, elect not to pay the relevant Noteholders the Final Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Noteholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders, as the case may be. Notification of such election will be given to Noteholders in accordance with Condition 16.

(B) If specified in the applicable Final Terms, the Issuer shall, in respect of each Note, in lieu of delivering or procuring the delivery of the Entitlement to the relevant Noteholders, make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders.

(C) Condition 4(b)(ii) will not apply to Italian Dematerialised Notes.

(iii) *Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount*

Notwithstanding any provision of these Conditions to the contrary, the Issuer may, in its sole and absolute discretion in respect of such Notes, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprises shares or ETI Interests which are not freely tradable, elect either (i) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an equivalent value (as determined by the Calculation Agent in its sole and absolute discretion) of such other shares

or ETI Interests which the Calculation Agent determines, in its sole and absolute discretion, are freely tradable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, as the case may be, to the relevant Noteholders, but in lieu thereof to make payment to the relevant Noteholder on the Settlement Date of an amount equal to the fair market value of the Entitlement on the Valuation Date as determined by the Calculation Agent in its sole and absolute discretion by reference to such sources as it considers appropriate (the "**Alternate Cash Redemption Amount**"). Notification of any such election will be given to Noteholders in accordance with Condition 16 and in the event that the Issuer elects to pay the Alternate Cash Redemption Amount such notice shall give details of the manner in which such amount shall be paid.

For purposes hereof, a "**freely tradable**" share or an ETI Interest shall mean (i) with respect to the United States, a share or an ETI Interest, as the case may be, which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such share or an ETI Interest, as the case may be, and not purchased from an affiliate of the issuer of such share or an ETI Interest, as the case may be, or which otherwise meets the requirements of a freely tradable share or an ETI Interest, as the case may be, for purposes of the Securities Act, in each case, as determined by the Calculation Agent in its sole and absolute discretion or (ii) with respect to any other jurisdiction, a share or an ETI Interest, as the case may be, not subject to any legal restrictions on transfer in such jurisdiction.

(iv) *Rights of Noteholders and Calculations*

None of the Issuer, the Guarantor (if applicable), the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Notes, unless, in the case of Italian Listed Notes, such errors or omissions are due to its own wilful misconduct or gross negligence.

The purchase of Notes does not confer on any holder of such Notes any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

(v) *Commodity Securities*

Commodity Securities shall not be redeemed by physical delivery and the provisions of this Condition 4(b) shall not apply to Commodity Securities.

(vi) *Italian Dematerialised Notes*

Italian Dematerialised Notes may not be redeemed by physical delivery. Condition 4(b) will not apply to Italian Dematerialised Notes.

(c) ***FX Disruption Event***

- (i) If on (A) any Settlement Currency Exchange Rate Observation Date or (B) (other than in the case of a FX Disruption Event which is a Dual Exchange Rate Event, Illiquidity Disruption or an Unscheduled Holiday) if a Specified Exchange Rate is specified in the applicable Final Terms, the second Business Day prior to the due date for payment of any amount calculated using such Specified Exchange Rate, the Calculation Agent determines that a FX Disruption Event has occurred and is subsisting it will give notice (an "**FX Disruption Notice**") to the Noteholders in accordance with Condition 16 as soon as reasonably practicable thereafter

and, in any event, prior to the relevant due date for payment of the relevant amount to be calculated using such Settlement Currency Exchange Rate or Specified Exchange Rate, as applicable.

- (ii) Following the occurrence of a FX Disruption Event:
  - (A) the date for payment of the relevant amount to be calculated using the Settlement Currency Exchange Rate or Specified Exchange Rate, as applicable, will be postponed to the earlier of (i) the second Business Day following the date on which the Calculation Agent determines that a FX Disruption Event is no longer subsisting or (ii) the day falling thirty (30) calendar days following the scheduled due date for payment of such amount (the "**Postponed DE Payment Date**") which, for the avoidance of doubt, may be later than the scheduled Maturity Date; and
  - (B) (i) in the case of (A)(i) above, the Issuer will pay the relevant amount in the Settlement Currency on the Postponed DE Payment Date or (ii) in the case of (A)(ii) above, subject to paragraphs (iii), (iv) and (v) below, in lieu of paying the relevant amount in the Settlement Currency, the Issuer will pay the relevant unconverted amount in the Specified Currency (each a "**Specified Currency Amount**") on the Postponed DE Payment Date.
- (iii) If the Issuer elects to pay the Specified Currency Amount as provided in paragraph (ii)(B) above it may (but is not obliged to) give notice to the Noteholders in accordance with Condition 16 (an "**Issuer Account Information Notice**") requesting from each Noteholder such information as it deems appropriate in order to pay the Specified Currency Amount to such Noteholder (including, inter alios, account information into which in the determination of the Calculation Agent the Specified Currency Amount may be paid). Upon receipt of an Issuer Account Information Notice, each Noteholder must deliver to the Calculation Agent in accordance with paragraph (vi) below with a copy to the Principal Paying Agent a notice (a "**Noteholder Account Information Notice**") not later than 20 calendar days following receipt of the Issuer Account Information Notice (the "**Account Information Cut-off Date**") specifying details of an account in which, in the determination of the Calculation Agent, the relevant Specified Currency Amount may be paid. If any Noteholder fails to deliver a valid Noteholder Account Information Notice by the Account Information Cut-off Date, the Issuer will pay or cause to be paid the relevant Specified Currency Amount as soon as practicable following receipt of the relevant Noteholder Account Information Notice, Provided That if any Noteholder fails to deliver a Noteholder Account Information Notice prior to the fortieth calendar day following deemed receipt of the Issuer Account Information Notice, then (a) in the case of Notes which are not Italian Listed Notes, the Issuer shall be discharged from its obligation to pay to such Noteholder the Specified Currency Amount and shall have no further obligation or liability whatsoever in respect thereof and (b), in the case of Italian Listed Notes, the Calculation Agent will calculate an adjustment and, if applicable, make an alternative payment in accordance with Condition 4(c)(v) below.
- (iv) In the event that the Calculation Agent determines that it is unlawful, impossible or otherwise impracticable to pay any Specified Currency Amount (other than as a result of the failure to deliver a Noteholder Account Information Notice, if applicable) on the due date for payment thereof (a "**Non-Transferability Event**"), the Issuer shall notify the Noteholders in accordance with Condition 16 that such due date for payment has been postponed until the first date on which in the opinion of the Calculation Agent the relevant Non-Transferability Event is no longer subsisting.

- (v) Notwithstanding paragraphs (ii) to (iv) above, the Calculation Agent:
  - (A) in the case of Notes other than Italian Listed Notes, acting in a commercially reasonable manner may make such adjustment to the Conditions and/or the applicable Final Terms as it determines to be necessary or desirable to reflect or account for any market practice that develops in respect of the relevant FX Disruption Event; or
  - (B) in the case of Italian Listed Notes, if not more than six months following the scheduled date for any payment affected by a FX Disruption Event, such payment has not been made in accordance with paragraphs (ii) to (iv) above, acting in good faith and a commercially reasonable manner and taking into consideration all available information that it deems relevant, shall (i) make such adjustment to the Conditions and/or the applicable Final Terms as it determines to be necessary or desirable to reflect or account for any market practice that develops in respect of the relevant FX Disruption Event and (ii) in lieu of the Specified Currency Amount make payment of such amount of the Specified Currency or the Settlement Currency as it, acting in good faith and in a commercially reasonable manner, determines to be appropriate taking into account the FX Disruption Event and, if applicable, the failure to deliver a Noteholder Account Information Notice.

In each case, upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Noteholders in accordance with Condition 16 stating the adjustment to the Conditions and/or the applicable Final Terms.

- (vi) Any Noteholder Account Information Notice from a Noteholder to the Calculation Agent will be validly given if delivered in writing to the Calculation Agent at the address specified for such purposes in the applicable Final Terms. Any such notice shall be deemed to have been given on the day when delivered or if delivered after 5.00 p.m. (London time) on any day or on any day on which commercial banks were not open for business in London, the first day thereafter on which commercial banks are open for business in London. The relevant Noteholder must provide satisfactory evidence to the Calculation Agent of its holding of the relevant Notes.
- (vii) For the avoidance of doubt, no Interest Period will be adjusted as a result of the postponement of any interest payment pursuant to this Condition 4(c), and no additional interest will be paid in respect of any postponement of the date for payment.
- (viii) For these purposes "**FX Disruption Event**" means the occurrence of any of the following events:
  - (A) an Inconvertibility Event;
  - (B) a Dual Exchange Rate Event;
  - (C) an Illiquidity Disruption; or
  - (D) an Unscheduled Holiday.

Where:

**"Dual Exchange Rate Event"** means, with respect to any Settlement Currency Exchange Rate that the Settlement Currency Exchange Rate or any component rate of exchange thereof splits into dual or multiple currency exchange rates.

**"Illiquidity Disruption"** means, in relation to a Settlement Currency Exchange Rate, the occurrence of an event on a Settlement Currency Exchange Rate Observation Date (or, if different, the day on which rates for that Settlement Currency Exchange Rate Observation Date would, in the ordinary course, be published or announced by the relevant price source) which makes it impossible to obtain a firm quote of the Settlement Currency Exchange Rate for an amount to be determined by the Calculation Agent (either in one transaction or a commercially reasonable number of transactions that, when taken together, total such amount determined by the Calculation Agent);

**"Inconvertibility Event"** means the occurrence of any event or existence of any condition that has the effect of it being impossible, illegal or impracticable for, or has the effect of prohibiting, restricting or materially delaying the ability of the Issuer and/or any of its Affiliates (I) to convert the Specified Currency into the Settlement Currency through customary legal channels; (II) to effect currency transactions on terms as favourable as those available to residents of the Reference Jurisdiction; or (III) to freely and unconditionally transfer or repatriate funds (in the Specified Currency or the Settlement Currency) from accounts inside the Reference Jurisdiction to accounts outside the Reference Jurisdiction or between accounts inside the Reference Jurisdiction.

**"Reference Jurisdiction"** means the jurisdiction specified as such in the applicable Final Terms.

**"Unscheduled Holiday"** means, in respect of any Settlement Currency Exchange Rate Observation Date, any date on which such date is not a Business Day and the market was not aware of such fact (by means of a public announcement or by reference to other publicly available information) until a time later than 9.00 a.m. local time in the principal financial centre of the Specified Currency or Settlement Currency (which, if the Specified Currency or Settlement Currency is Australian dollars or New Zealand dollars shall be Sydney or Auckland, respectively) two Business Days prior to such day.

## **5. REDEMPTION AND PURCHASE**

### **5.1 Final Redemption**

Unless previously redeemed or purchased and cancelled as provided below, each Note will be redeemed by the Issuer at its relevant Final Redemption Amount on the Maturity Date specified in the applicable Final Terms or, if the Notes are Physical Delivery Notes by delivery of the Entitlement (as provided in Condition 4(b) above) or (in the case of a Credit Security) at the relevant amount and/or by delivery as specified in the Credit Security Conditions. This Note may not be redeemed other than in accordance with these Conditions. If the Notes are Italian Dematerialised Notes, the relevant Issuer shall on the Maturity Date pay or cause to be paid the Final Redemption Amount by credit or transfer to the Holder's account at Monte Titoli for value on the Maturity Date.

The **"Final Redemption Amount"**, in respect of each nominal amount of Notes equal to the Calculation Amount, shall be an amount calculated by the Calculation Agent equal to:

(i) Calculation Amount x the percentage or (ii) the Final Payout, in each case as specified in the applicable Final Terms,

Provided That, (i) if the Notes are Dual Currency Redemption Notes, the product of the above formula will be converted into the Settlement Currency as provided in Condition 5.12 below and (ii) if the product of the Final Payout is zero, no amount shall be payable on final redemption of the Note.

The "**Entitlement**" shall be the quantity of the Relevant Asset(s) equal to the Entitlement Amount specified in the applicable Final Terms or (in the case of a Credit Security) the relevant obligations and/or other assets as specified in the Credit Security Conditions.

## 5.2 **Redemption for Taxation Reasons**

The provisions of this Condition 5.2 shall not apply in the case of Notes if Condition 6.4 is specified as applicable in the applicable Final Terms.

- (a) If the Issuer or the Guarantor (if applicable) would, as a result of any change in, or in the official interpretation or administration of, any laws or regulations of France (in the case of payments by BNPP), the Netherlands (in the case of payments by BNPP B.V.), Luxembourg (in the case of payments by BP2F), any Tax Jurisdiction (as defined in Condition 6.3) (in the case of payments by BGL) or Belgium (in the case of payments by BNPPF) or in each case any other authority thereof or therein be required to pay additional amounts as provided in Condition 6, the Issuer may at its option at any time (in the case of Notes other than Floating Rate Notes, Linked Interest Notes, or Dual Currency Interest Notes) or on any Interest Payment Date (in the case of Floating Rate Notes, Linked Interest Notes or Dual Currency Interest Notes) on giving not more than 45 nor less than 30 days' notice to the Noteholders (in accordance with Condition 16) which notice shall be irrevocable, redeem all, but not some only, of the Notes at their Early Redemption Amount (as defined below) together with interest accrued to the date fixed for redemption, provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date upon which the Issuer could make payment without withholding for such taxes.
- (b) If the Issuer or the Guarantor (if applicable) would, on the next due date for payment of any amount in respect of the Notes, be prevented by French law (in the case of payments by BNPP), Dutch law (in the case of payments by BNPP B.V.), Luxembourg law (in the case of payments by BP2F), the laws or regulations of any Tax Jurisdiction (as defined in Condition 6.3) (in the case of payments by BGL) or Belgium law (in the case of payments by BNPPF) from making such payment notwithstanding the undertaking to pay additional amounts as provided in Condition 6, then the Issuer shall forthwith give notice of such fact to the Principal Paying Agent and shall at any time (in the case of Notes other than Floating Rate Notes, Linked Interest Notes or Dual Currency Interest Notes) or on any Interest Payment Date (in the case of Floating Rate Notes, Linked Interest Notes or Dual Currency Interest Notes) redeem all, but not some only, of the Notes then outstanding at their Early Redemption Amount (as defined below) together with interest accrued to the date fixed for redemption, upon giving not less than 7 nor more than 45 days' prior notice to the Noteholders (in accordance with Condition 16), provided that the due date for redemption of which notice hereunder shall be given shall be no earlier than the latest practicable date on which the Issuer could make payment of the full amount of interest payable in respect of the Notes or, if such date is already past, as soon as practicable thereafter.

## 5.3 **Redemption at the Option of the Issuer (Issuer Call Option)**

If Issuer Call Option is specified in the applicable Final Terms, the Issuer may having given not less than the minimum notice period nor more than the maximum notice period specified in the applicable Final Terms (the

"**Notice Period**") notice to the Noteholders in accordance with Condition 16, (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding at the Optional Redemption Amount on any Optional Redemption Date specified in the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any partial redemption must be of a nominal amount equal to the Minimum Redemption Amount or a Higher Redemption Amount. The "**Optional Redemption Amount**", in respect of each nominal amount of Notes equal to the Calculation Amount, shall be an amount calculated by the Calculation Agent equal to:

(i) Calculation Amount x the percentage or (ii) the Call Payout, as specified in the applicable Final Terms,

Provided That if the product of the Call Payout is zero, no amount shall be payable on redemption of such Note.

In the case of a partial redemption of Notes, the Notes to be redeemed ("**Redeemed Notes**") will (i) in the case of Redeemed Notes represented by definitive Notes, be selected individually by lot, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the "**Selection Date**") (ii) in the case of Redeemed Notes represented by a Global Note, be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg, (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and (iii) in the case of Italian Dematerialised Notes, be governed by the standard procedures of Monte Titoli. In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 16 not less than 15 days prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a Global Note shall be equal to the balance of the Redeemed Notes.

#### 5.4 **Redemption at the Option of the Noteholders (Noteholder Put Option)**

If Noteholder Put Option is specified in the applicable Final Terms, upon a Noteholder giving to the Issuer in accordance with Condition 16 not less than the minimum notice period nor more than the maximum notice period specified in the applicable Final Terms (the "**Notice Period**") notice the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note at the Optional Redemption Amount on the Optional Redemption Date specified in the applicable Final Terms, together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date. The "**Optional Redemption Amount**" shall be an amount calculated by the Calculation Agent equal to:

(i) Calculation Amount x the percentage or (ii) the Put Payout, as specified in the applicable Final Terms,

Provided That if the product of the Put Payout is zero, no amount shall be payable on redemption of such Note.

If this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg or the CMU, to exercise the right to require redemption of this Note the relevant Noteholder must deliver at the specified office of the Registrar or, as the case may be, any Paying Agent at any time during normal business hours of such Registrar or Paying Agent falling within the Notice Period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of the Registrar or any Paying Agent (a "**Put Notice**") and in which the Noteholder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition, accompanied by this Note or evidence satisfactory to the Registrar or the Paying Agent concerned that this Note will,

following delivery of the Put Notice, be held to its order or under its control in accordance with the Note Agency Agreement. If this Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg or the CMU, to exercise the right to require redemption of this Note the relevant Noteholder must, within the Notice Period, give notice to the Registrar or Paying Agent or the CMU Lodging Agent concerned of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg or the CMU (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or the CMU Lodging Agent or any common depositary or common safekeeper, as the case may be, for them to the Registrar or Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg or the CMU from time to time and, if this Note is represented by a Global Note, at the same time present or procure the presentation of the relevant Global Note to the Agent for notation accordingly. If this Note is an Italian Dematerialised Note held through Monte Titoli to exercise the right to require redemption of the Note the Holder of the Note must, within the Notice Period, give notice to the Italian Agent of such exercise in accordance with the standard procedures of Monte Titoli in a form acceptable to Monte Titoli.

Any Put Notice given by a Noteholder pursuant to this paragraph shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in which event such Noteholder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph and instead to declare such Note forthwith due and payable pursuant to Condition 8.

## 5.5 Early Redemption

For the purposes of paragraph 5.2 above, Condition 8 and any circumstances where the Notes are to be redeemed prior to their Maturity Date at their Early Redemption Amount (as defined below), each Note will be redeemed at an amount (the "**Early Redemption Amount**") calculated as follows, together, if appropriate, with interest accrued to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable:

- (a) in the case of a Note (other than a Zero Coupon Note or a Note whose Early Redemption Amount is linked to an index, a formula or other Underlying Reference) with a Final Redemption Amount equal to its nominal amount, at the Final Redemption Amount thereof; or
- (b) in the case of a Note (other than a Zero Coupon Note) with a Final Redemption Amount or interest, coupon, premium or other interim payment which is linked to an index, a formula or other Underlying Reference, at the percentage of the Calculation Amount specified in the applicable Final Terms or, if "Market Value less Costs" is specified in the applicable Final Terms at the fair market value less associated costs; or
- (c) in the case of a Zero Coupon Note the Early Redemption Amount of which is not linked to an index, a formula or other Underlying Reference at an amount (the "**Amortised Face Amount**") equal to the sum of:
  - (i) the Reference Price specified in the applicable Final Terms; and
  - (ii) the product of the Accrual Yield specified in the applicable Final Terms (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable.

Where such calculation is to be made for a period of less than a full year, it shall be made on the basis of a 360-day year consisting of 12 months of 30 days each and, in the case of an incomplete month, the number of days elapsed in such incomplete month.

## 5.6 **Purchases**

The Issuer, the Guarantor (if any) or any of their respective subsidiaries may, but is not obliged to, at any time purchase Notes (together with (in the case of definitive Bearer Notes of this Series) all unmatured Receipts or Coupons appertaining thereto) at any price in the open market or otherwise. Such Notes may be held, reissued, resold or surrendered for cancellation.

## 5.7 **Cancellation**

All Notes which are redeemed or purchased by the Issuer to be cancelled will forthwith be cancelled (together, in the case of definitive Bearer Notes, with all unmatured Coupons and Receipts presented therewith) and accordingly may not be re-issued or resold.

## 5.8 **Instalments**

Each Note in definitive form which is redeemable in instalments will be redeemed in the Instalment Amounts and on the Instalment Dates specified in the applicable Final Terms. All instalments (other than the final instalment) will be paid by surrender of, in the case of a definitive Bearer Note, the relevant Receipt (which must be presented with the Note to which it appertains) and, in the case of a definitive Registered Note, the relevant Note and issue of a new Note in the nominal amount remaining outstanding, all as more fully described in Condition 4.

## 5.9 **Late payment on Zero Coupon Notes**

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph 5.2, 5.3 or 5.4 above is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph 5.5(c) above as though the references therein to the date fixed for redemption or the date upon which the Zero Coupon Note becomes due and repayable were replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of the Zero Coupon Note have been paid; and
- (b) the date on which the full amount of the moneys payable has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 16.

## 5.10 **Partly Paid Notes**

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise in accordance with the provisions of this Condition 5.

## 5.11 **Payout Switch**

If Payout Switch is specified as applicable in the applicable Final Terms (i) if Payout Switch Election is specified as applicable in the applicable Final Terms, the Issuer may in its sole and absolute discretion elect that or (ii) if Automatic Payout Switch is specified as applicable in the applicable Final Terms and an Automatic Payout Switch Event occurs, the Redemption/Payment Basis for the Notes will be amended (a "**Payout Switch**") from the Redemption/Payment Basis specified in the Final Terms to the Switched Payout specified in the applicable Final Terms on and after the Payout Switch Date specified in the applicable Final Terms. Notice of any Payout Switch will be given to Noteholders in accordance with Condition 16.

"**Automatic Payout Switch Event**" means that the SPS APS Value is (a) "greater than", (b) "equal to or greater than", (c) "less than" or (d) "less than or equal to", as specified in the applicable Final Terms, the Automatic Payout Switch Level, (x) on a SPS APS Valuation Date or (y) in respect of a SPS APS Valuation Period, as specified in the applicable Final Terms;

**"Automatic Payout Switch Level"** means the number, amount, level or percentage specified as such in the applicable Final Terms;

**"SPS APS Value"** means the value from Payout Condition 2.6, 2.7, 2.8, 2.9 or 2.10 specified as such in the applicable Final Terms;

**"SPS APS Valuation Date"** means each Averaging Date, Pricing Date and/or Settlement Price Date specified as such in the applicable Final Terms; and

**"SPS APS Valuation Period"** means each period specific as such in the applicable Final Terms.

#### 5.12 **Dual Currency Redemption Notes**

If the Notes are specified in the applicable Final Terms as Dual Currency Redemption Notes, any amount payable on the redemption of the Notes will be converted into the Settlement Currency at the Specified Exchange Rate specified in the applicable Final Terms or, if no Specified Exchange Rate is specified, the Settlement Currency Exchange Rate on the relevant Settlement Currency Exchange Rate Observation Date.

References to amounts payable on the redemption of the Notes shall be deemed to include, as applicable:

- (a) any additional amounts which be payable with respect to principal under Condition 6;
- (b) the Final Redemption Amount of the Notes;
- (c) the Early Redemption Amount of the Notes;
- (d) the Optional Redemption Amount(s) (if any) of the Notes;
- (e) the Instalment Amounts;
- (f) the Automatic Early Redemption Amount (if any) of the Notes;
- (g) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 5.5); and
- (h) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

#### 5.13 **Redemption in part of Italian Dematerialised Notes**

Notwithstanding any provision to the contrary in the Conditions, any redemption of the Notes in part must be in accordance with the standard procedures of Monte Titoli.

### **6. TAXATION**

#### 6.1 **Notes issued by BNPP B.V.**

Subject to Condition 6.4, in the case of Notes issued by BNPP B.V., all payments in respect of such Notes, Receipts and Coupons or under the Guarantee shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In the event that any amounts are required to be deducted or withheld for, or on behalf of, any Tax Jurisdiction, the Issuer or, as the case may be, the Guarantor shall, to the fullest extent permitted by law, pay such additional amount as may be necessary, in order that each Noteholder, Receiptholder or Couponholder, after deduction or withholding of such taxes, duties, assessments

or governmental charges, will receive the full amount then due and payable provided that no such additional amount shall be payable with respect to any Note, Receipt or Coupon:

- (a) presented for payment by or on behalf of a holder who is liable to such taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of his being connected with the Netherlands (in the case of payments by BNPP B.V.) or France (in the case of payments by the Guarantor) other than by the mere holding of such Note, Receipt or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date (as defined below), except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in Condition 4(a)); or
- (c) where such withholding or deduction is imposed on a payment to an individual beneficial owner or a residual entity and is required to be made pursuant to Council Directive 2003/48/EC on the taxation of savings income or any law (whether in or outside the European Union) implementing or complying with, or introduced in order to conform to, such Directive; or
- (d) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union.

In these Terms and Conditions:

- (x) **Tax Jurisdiction** means France or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by BNPP as Guarantor) or the Netherlands or any political subdivision or any authority thereof or therein having power to tax (in the case of payments by BNPP B.V.); and
- (y) the **Relevant Date** means the date on which the relevant payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 16.

## 6.2 Notes issued by BP2F

Subject to Condition 6.4, in the case of Notes issued by BP2F, all payments of principal and interest in respect of the Notes and the Coupons by or on behalf of the Issuer or (if the Guarantee were called) the Guarantor will be made without deduction or withholding for, or on account of, any present or future taxes or duties of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Luxembourg or any political subdivision thereof or any authority or agency therein or thereof having the power to tax or, where applicable, (in the case of the Guarantor) Belgium or any political subdivision thereof or any authority or agency therein or thereof having power to tax, unless such deduction or withholding is required by law. In such event, the Issuer or, as the case may be, the Guarantor will pay such additional amounts as may be necessary in order that the net amounts received by the Noteholders or, as the case may be, the Couponholders after such deduction or withholding shall equal the respective amounts which would have been receivable under these Conditions in respect of the Notes or, as the case may be, Coupons by the Noteholders and (if applicable) the Couponholders in the absence of such deduction or withholding, except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (i) presented for payment in Belgium; or

- (ii) to, or to a third party on behalf of, a holder who is able to avoid such withholding or deduction by placing such Note or Coupon in safe custody with a Belgian bank and by making a declaration of non-residence or other similar claim for exemption to the relevant tax authority; or
- (iii) to, or to a third party on behalf of, a holder where such holder is liable to such taxes or duties in respect of such Note or Coupon by reason of its having some connection with Belgium other than by reason only of the holding of such Note or Coupon or the receipt of the relevant payment in respect thereof; or
- (iv) presented for payment more than 30 days after the Relevant Date except to the extent that the holder thereof would have been entitled to such additional amounts on presenting the same for payment on such thirtieth day; or
- (v) where such withholding or deduction is imposed on a payment to an individual or a residual entity within the meaning of the Council Directive 2003/48/EC and is required to be made pursuant to (i) Council Directive 2003/48/EC on the taxation of savings income or any law (whether in or outside the European Union) implementing or complying with, or introduced in order to conform to, such Directive and (ii) the law of 23 December 2005 (as amended) introducing a 10 per cent. withholding tax as regards Luxembourg resident individuals; or
- (vi) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note or Coupon to another Paying Agent in a member state of the European Union.

As used in these Conditions, "**Relevant Date**" in respect of any Note or Coupon means the date on which payment in respect thereof first became due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date on which notice is duly given to the Noteholders in accordance with Condition 16 that, upon further presentation of the Note or Coupon being made in accordance with the Conditions, such payment will be made, **provided that** payment is in fact made upon such presentation. References in these Conditions to (i) "**principal**" shall be deemed to include any premium payable in respect of the Notes, all Instalment Amounts, Redemption Amounts, Amortised Face Amounts and all other amounts in the nature of principal payable pursuant to Condition 5 or any amendment or supplement to it, (ii) "**interest**" shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 3 or any amendment or supplement to it and (iii) "**principal**" and/or "**interest**" shall be deemed to include any additional amounts which may be payable under this Condition.

### 6.3 Notes issued by BGL

Subject to Condition 6.4, in the case of Notes issued by BGL, all payments of principal and interest in respect of the Notes and Coupons by or on behalf of the Issuer will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In such event, the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the Noteholders or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes or Coupons, as the case may be, in the absence of such withholding or deduction, except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (a) presented for payment to, or to a third party on behalf, of a holder who is liable for such taxes or duties in respect of such Note, Receipt or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Note or Coupon; or

- (b) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day; or
- (c) where such withholding or deduction imposed on a payment is required to be made pursuant to Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (d) presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Note or Coupon to another Paying Agent in a Member State of the European Union; or
- (e) where such withholding or deduction is imposed on a payment pursuant to (i) an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof or (ii) Section 871(m) of the Code.

As used in these conditions:

- (A) **"Tax Jurisdiction"** means the Grand Duchy of Luxembourg, the jurisdiction in which the Specified Branch (if any) is located or any political subdivision or any authority thereof or therein having power to tax or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by it of principal and interest on the Notes and Coupons; and
- (B) the **"Relevant Date"** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 16.

#### **6.4 No Gross-up**

If Condition 6.4 is specified as applicable in the applicable Final Terms, neither the Issuer nor the Guarantor (if any) shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note and all payments made by the Issuer or the Guarantor (if any) shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

### **7. REDENOMINATION**

#### **7.1 Redenomination**

Where redenomination is specified in the applicable Final Terms as being applicable, the Issuer may, without the consent of the Noteholders, the Receiptholders and the Couponholders, on giving prior notice to the Principal Paying Agent, Euroclear, Clearstream, Luxembourg and Monte Titoli and at least 30 days' prior notice to the Noteholders in accordance with Condition 16 (and, in the case of Italian Dematerialised Notes, in accordance with the standard procedures of Monte Titoli), elect that, with effect from the Redenomination Date specified in the notice, the Notes shall be redenominated in euro.

The election will have effect as follows:

- (a) the Notes and the Receipts shall be deemed to be redenominated into euro in the denomination of euro 0.01 with a principal amount for each Note and Receipt equal to the principal amount of that Note or Receipt in the Specified Currency, converted into euro at the Established Rate, provided that, if the Issuer determines, with the agreement of the Principal Paying Agent, that the then market practice in respect of the redenomination into euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed and the Paying Agents of such deemed amendments;
- (b) save to the extent that an Exchange Notice has been given in accordance with paragraph (d) below, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate principal amount of Notes presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant Noteholder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (c) if definitive Notes are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer in the denominations of euro 1,000, euro 10,000, euro 100,000 and (but only to the extent of any remaining amounts less than euro 1,000 or such smaller denominations as the Principal Paying Agent may approve) euro 0.01 and such other denominations as the Principal Paying Agent shall determine and notify to the Noteholders;
- (d) if issued prior to the Redenomination Date, all unmatured Coupons denominated in the Specified Currency (whether or not attached to the Notes) will become void with effect from the date on which the Issuer gives notice (the "**Exchange Notice**") that replacement euro-denominated Notes, Receipts and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Notes and Receipts so issued will also become void on that date although those Notes and Receipts will continue to constitute valid exchange obligations of the Issuer. New euro-denominated Notes, Receipts and Coupons will be issued in exchange for Notes, Receipts and Coupons denominated in the Specified Currency in such manner as the Principal Paying Agent may specify and as shall be notified to the Noteholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of principal or interest on the Notes;
- (e) after the Redenomination Date, all payments in respect of the Notes, the Receipts and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Notes to the Settlement Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;
- (f) if the Notes are Fixed Rate Notes and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on a Fixed Interest Date, it will be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined above) of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention;
- (g) if the Notes are Floating Rate Notes, the applicable Final Terms will specify any relevant changes to the provisions relating to interest; and

- (h) such other changes shall be made to these Conditions as the Issuer may decide, after consultation with the Principal Paying Agent, and as may be specified in the notice, to conform them to conventions then applicable to instruments denominated in euro.

## 7.2 Definitions

In these Conditions, the following expressions have the following meanings:

**"Established Rate"** means the rate for the conversion of the Specified Currency (including compliance with rules relating to roundings in accordance with applicable European Union regulations) into euro established by the Council of the European Union pursuant to Article 140 of the Treaty;

**"euro"** means the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty;

**"Redenomination Date"** means (in the case of interest bearing Notes) any date for payment of interest under the Notes or (in the case of Zero Coupon Notes) any date, in each case specified by the Issuer in the notice given to the Noteholders pursuant to paragraph 7.1 above and which falls on or after the date on which the country of the Specified Currency first participates in the third stage of European economic and monetary union; and

**"Treaty"** means the Treaty on the Functioning of the European Union, as amended.

## 8. EVENTS OF DEFAULT AND ENFORCEMENT

### 8.1 Events of Default

#### (a) Notes issued by BNPP B.V.

In the case of Notes issued by BNPP B.V., a Noteholder may give written notice to the Issuer and the Principal Paying Agent that the Note is, and it shall accordingly forthwith become, immediately due and repayable at its Early Redemption Amount, together, if appropriate, with interest accrued to the date of repayment, in any of the following events ("**Events of Default**"):

- (i) the Issuer fails to pay any amount payable in respect of the Notes or any of them when due and payable and such default is not remedied within 30 days after the relevant due date; or
- (ii) the Issuer or the Guarantor fails to perform or observe any of its other obligations under the Notes and such default is not remedied within 45 days after notice of such default has been given to the Principal Paying Agent by any Noteholder; or
- (iii) BNPP ceases its payments, or a judgment is issued for the judicial liquidation (*liquidation judiciaire*) of BNPP or for a transfer of the whole of its business (*cession totale de l'entreprise*), or the Issuer or Guarantor is subject to similar proceedings, or, in the absence of legal proceedings, the Issuer or Guarantor makes a conveyance, assignment or other arrangement for the benefit of its creditors or enters into a composition with its creditors, or a resolution is passed by the Issuer or Guarantor for its winding-up or dissolution, except in connection with a merger or other reorganisation in which all of the Issuer's or the Guarantor's assets are transferred to, and all of the Issuer's or Guarantor's debts and liabilities (including the Notes) are assumed by, another entity which continues the Issuer's or Guarantor's activities.

(b) **Notes issued by BP2F**

In the case of Notes issued by BP2F, if any of the following events ("**Events of Default**") occurs and is continuing, the holder of any Note may give written notice to the Principal Paying Agent that such Note is immediately repayable at the Early Redemption Amount together with accrued interest to the date of payment shall become immediately due and payable unless prior to the date that such written notice is received by the Principal Paying Agent the relevant Issuer or, where applicable, the Guarantor shall have cured or the relevant Issuer or, where applicable, the Guarantor shall otherwise have made good all Events of Default in respect of the Notes:

- (i) default in the payment of any principal or interest due in respect of the Notes or any of them and such default continuing for a period of 30 days; or
- (ii) default by the Issuer or the Guarantor in the due performance or observance of any other obligation, condition or other provision under or in relation to the Notes or the Guarantee, as the case may be, if such default is not cured within 45 days after receipt by the Principal Paying Agent of written notice thereof given by any Noteholder requiring the same to be remedied; or
- (iii) default by the Issuer or the Guarantor in the payment of the principal of, or premium or prepayment charge (if any) or interest on, any other loan indebtedness of or assumed or guaranteed by the Issuer or the Guarantor (which indebtedness in the case of the Guarantor has an aggregate principal amount of at least EUR 50,000,000 or its equivalent in any other currency or currencies), when and as the same shall become due and payable, if such default shall continue for more than the period of grace, if any, originally applicable thereto and the time for payment of such interest or principal has not been effectively extended, or in the event that any loan indebtedness of or assumed by the Issuer or the Guarantor (which indebtedness in the case of the Guarantor has an aggregate principal amount of at least EUR 50,000,000 or its equivalent in any other currency or currencies), shall have become repayable before the due date thereof as a result of acceleration of maturity caused by the occurrence of an event of default thereunder; or
- (iv) the Issuer is dissolved or wound up or otherwise ceases to exist prior to the redemption of all outstanding Notes or the Guarantor is dissolved or wound up or otherwise ceases to exist prior to the redemption of all outstanding Notes, except as a result of a Permitted Reorganisation, or the Issuer ceases to be a subsidiary of the Guarantor (save in the case of a substitution pursuant to Condition 19 where the substitute is the Guarantor); or
- (v) the Issuer or the Guarantor becomes insolvent, is unable to pay its debts generally (or in the case of the Guarantor is in *staking van betaling/cessation de paiements* (suspension of payments)) as they fall due, stops, suspends or threatens to stop or suspend payment of all or a material part of its debts or ceases or threatens to cease to carry on its business, or proposes or makes a general assignment or an arrangement or composition with or for the benefit of its creditors, or a moratorium is agreed or declared in respect of or affecting all or a material part of the indebtedness of the Issuer or the Guarantor, or if the Issuer or the Guarantor commences a voluntary case or other proceeding under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, consents to the entry of an order for relief in any involuntary case or other proceeding under any such law as to the appointment of or the taking possession by a trustee, receiver, liquidator, custodian, assignee, sequestrator or similar official of the Issuer or the Guarantor or of any substantial part of its property or as the winding up or liquidation of the Issuer, or if the Guarantor applies for a *liquidation/vereffening* (liquidation) or *faillite/faillissement* (bankruptcy) or any procedures having similar or equivalent effect shall have been initiated in respect of the Issuer or the Guarantor; or

- (vi) a court having jurisdiction in the premises enters a decree or order for relief in respect of the Issuer or the Guarantor in an involuntary case or other proceeding under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or appointing a trustee, receiver, liquidator, custodian, assignee, sequestrator or other similar official of the Issuer or the Guarantor or of any substantial part of its property, or ordering the winding up or liquidation of its affairs, and any such decree or order continues unstayed in effect for a period of 30 consecutive days; or
- (vii) it becomes unlawful for the Issuer or the Guarantor to perform any of their respective obligations under the Notes or the Guarantees, or any of their obligations ceases to be valid, binding or enforceable; or
- (viii) the Guarantee is not or is claimed by the Guarantor not to be in full force and effect in accordance with their terms.

In this Condition:

**"Permitted Reorganisation"** means an amalgamation, merger, consolidation, reorganisation or other similar arrangement entered into by the Guarantor under which:

- (i) the whole of the business, undertaking and assets of the Guarantor are transferred to and all the liabilities and obligations of the Guarantor are assumed by the new or surviving entity either:
  - (A) automatically by operation of applicable law; or
  - (B) the new or surviving entity assumes all the obligations of the Guarantor under the terms of the Note Agency Agreement, the Notes and the Guarantee as fully as if it had been named in the Note Agency Agreement, the Notes and the Guarantee in place of the Guarantor; and, in either case,
- (ii) the new or surviving entity will immediately after such amalgamation, merger, consolidation, reorganisation or other similar arrangement be subject to a European Union regulatory authority.

Any such notice by a Noteholder to the Principal Paying Agent shall specify the serial number(s) of the Note(s) concerned.

(c) **Notes issued by BGL**

In the case of Notes issued by BGL, if any of the following events ("**Events of Default**") occurs and is continuing, the holder of any Note may give written notice to the Principal Paying Agent at its specified office that such Note is immediately repayable, whereupon the same shall become forthwith due and payable at the Early Redemption Amount, together with accrued interest (if any) to the date of repayment, without presentation, demand, protest or other notice of any kind:

- (i) default is made for more than 14 days (in the case of interest) or 7 days (in the case of principal) in the payment on the due date of interest or principal in respect of any of the Notes; or
- (ii) the Issuer defaults in performance or observance of, or compliance with, any of its other obligations in the Notes which default is incapable of remedy or which, if capable of remedy, is not remedied within 21 days after notice of such default shall have been given to the Principal Paying Agent at its specified office by any Noteholder; or
- (iii) a distress, attachment, execution or other legal process is levied, enforced or sued out on or against all or a material part of the property, assets or revenues of the Issuer and is not stayed or discharged within 21 days; or

- (iv) any present or future mortgage, charge, pledge, lien or other encumbrance on or over all or a material part of the property, assets or revenues of the Issuer becomes enforceable and any step is taken to enforce it (including the taking of possession or the appointment of a receiver, manager, administrator or other similar person) and such enforcement or step is not stayed or discharged within 21 days; or
- (v) (A) if any judgment has been rendered by any competent court for the liquidation (*liquidation judiciaire*) or the opening of a regime of suspension of payment (*sursis de paiement*) of the Issuer; or (B) if the Issuer makes or enters into a general assignment or an arrangement or composition with or for the benefit of its creditors or (C) if an effective voluntary resolution is passed for the dissolution (*dissolution*) and liquidation (*liquidation*) of the Issuer (in each case save for the purposes of amalgamation, merger, consolidation, reorganisation or similar arrangement upon which all the assets of the Issuer are transferred to and all its debts and liabilities assumed by the continuing entity or entity formed as a result of such merger or reorganisation); or
- (vi) the Issuer ceases to carry on business (except for the purpose of any amalgamation, merger or other reorganisation under which the continuing or successor corporation has assumed all of the assets and business undertakings of the Issuer pursuant to Condition 19 and has expressly and effectively assumed the obligations of the Issuer under the Notes); or
- (vii) (A) any loan or other present or future indebtedness of the Issuer for or in respect of moneys borrowed or raised and not being money deposited with the Issuer or transferred pursuant to a fiduciary contract within the meaning of the Luxembourg Law of 27 July 2003 on the Trust and Fiduciary Contracts, as amended or otherwise borrowed in the ordinary course of business of the Issuer ("**Relevant Indebtedness**") becomes due and payable prior to its stated maturity otherwise than at the option of the Issuer or the creditor thereof, or (B) the Issuer fails to make any payment in respect of Relevant Indebtedness on the due date for such payment as extended by any applicable grace period or (C) default is made by the Issuer in making any payment due under any present or future guarantee and/or indemnity given by it of, or in respect of, Relevant Indebtedness, provided that the aggregate amount of the Relevant Indebtedness in respect of which one or more of the events mentioned above in this paragraph (vii) have occurred equals or exceeds EUR 15,000,000 or its equivalent (on the basis of the middle spot rate for the relevant currency against the euro as quoted by any leading bank on the day on which this paragraph operates).

## 9. ADDITIONAL DISRUPTION EVENTS AND OPTIONAL ADDITIONAL DISRUPTION EVENTS

### 9.1 Definitions

"**Additional Disruption Event**" means each of Change in Law and Hedging Disruption, unless otherwise specified otherwise in the applicable Final Terms;

"**Affiliate**" means in relation to any entity (the "**First Entity**"), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. For these purposes "control" means ownership of a majority of the voting power of an entity;

"**Cancellation Event**" means, that in the determination of the Calculation Agent, all or some of the Debt Instruments are redeemed prior to their stated maturity date for any reason, and as a result thereof it is impossible, impracticable or unduly onerous for the Issuer or its Affiliates to hedge the Issuer's obligations in respect of the Notes;

"**Change in Law**" means that, on or after the Trade Date (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, in respect of any tax law, solvency or capital

requirements), or (b) due to the promulgation of or any change in the interpretation or application of any law or regulation by any court, tribunal or regulatory or other supervisory authority with competent jurisdiction (including any action taken by a taxing or financial authority or any supervisory authority) or the combined effect thereof if occurring more than once, the Issuer determines in its sole and absolute discretion that:

- (a) it has become illegal for it or any of its Affiliates to hold, acquire or dispose of any relevant hedge position relating to an Index (in the case of Index Securities), any relevant hedge position relating to a Debt Instrument (in the case of Debt Securities), any relevant hedge position relating to a Share (in the case of Share Securities), any relevant hedge position relating to an ETI Interest (in the case of ETI Securities), any relevant hedge position relating to a Commodity or Commodity Index (in the case of Commodity Securities) or any relevant hedge position relating to a Fund Share (in the case of Fund Securities) (each a "**Hedge**"); or
- (b) it or any of its Affiliates would incur a materially increased cost (including, without limitation, in respect of any tax, solvency, regulatory or capital requirements) in maintaining the Notes in issue or in holding, acquiring or disposing of any Hedge;

**"Currency Event"** means that, on or after the Trade Date, it has become impracticable, illegal or impossible for the Issuer or any of its Affiliates (a) to convert the relevant currency ("**Local Currency**") in which the Index, the Shares or the Debt Instruments or any options or futures contracts or other hedging arrangement in relation to the Index, the Shares or the Debt Instruments (for the purposes of hedging the Issuer's obligations under the Securities) are denominated, into the Specified Currency or Settlement Currency, as applicable, or exchange or repatriate any funds in the Local Currency or the Specified Currency or Settlement Currency, as applicable, outside of the country in which the Index, the Shares or the Debt Instruments or any options or futures contracts in relation to the Index, the Shares or the Debt Instruments respectively are traded due to the adoption of, or any change in, any applicable law, rule, regulation, judgment, order, directive or decree of any Government Authority or otherwise, or (b) for the Calculation Agent to determine a rate or (in the determination of the Calculation Agent) a commercially reasonable rate at which the Local Currency can be exchanged for the Settlement Currency for payment under the Notes;

**"Force Majeure Event"** means that, on or after the Trade Date, the performance of the Issuer's obligations under the Notes is prevented or materially hindered or delayed due to:

- (a) any act (other than a Market Disruption Event), law, rule, regulation, judgment, order, directive, interpretation, decree or material legislative or administrative interference of any Government Authority or otherwise; or
- (b) the occurrence of civil war, disruption, military action, unrest, political insurrection, terrorist activity of any kind, riot, public demonstration and/or protest, or any other financial or economic reasons or any other causes or impediments beyond such party's control; or
- (c) any expropriation, confiscation, requisition, nationalisation or other action taken or threatened by any Government Authority that deprives the Issuer or any of its Affiliates, of all or substantially all of its assets in the Local Currency jurisdiction;

**"Government Authority"** means any nation, state or government, any province or other political subdivision thereof, any body, agency or ministry, any taxing, monetary, foreign exchange or other authority, court, tribunal or other instrumentality and any other entity exercising, executive, legislative, judicial, regulatory or administrative functions of or pertaining to government;

**"Hedging Disruption"** means that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any

transaction(s) or asset(s) or any futures or option contracts it deems necessary to hedge the equity price risk or any other relevant price risk including but not limited to the currency risk of the Issuer issuing and performing its obligations with respect to the Notes, or (b) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s), asset(s) or futures or options contract(s) or any relevant hedge positions relating to the Notes;

**"Hedging Shares"** means the number of components comprised in an Index (in the case of Index Securities) or the number of Shares (in the case of Share Securities) that the Issuer and/or any of its Affiliates deems necessary to hedge the equity or other price risk of entering into and performing its obligations with respect to the Notes;

**"Increased Cost of Hedging"** means that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or any futures or options contract on any Commodity or, in the case of a Commodity Index, Index Component (in the case of Commodity Securities) or, in respect of any Index Securities relating to a Custom Index, any relevant hedge positions relating to an Index, or, in respect of any Debt Securities, any relevant hedge positions relating to a Debt Instrument, it deems necessary to hedge the market risk (including, without limitation, equity price risk, foreign exchange risk and interest risk) of the Issuer issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s) or any such futures or options contract(s) or, in respect of any Index Securities relating to a Custom Index, any relevant hedge positions relating to an Index, or, in respect of any Debt Securities, any relevant hedge positions relating to a Debt Instrument, provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging;

**"Increased Cost of Stock Borrow"** means that the Issuer and/or any of its Affiliates would incur a rate to borrow any component security comprised in an Index (in the case of Index Securities) or any Share (in the case of Share Securities) that is greater than the Initial Stock Loan Rate;

**"Initial Stock Loan Rate"** means, in respect of a component security comprised in an Index (in the case of Index Securities) or a Share (in the case of Share Securities), the initial stock loan rate specified in relation to such Share, security, component or commodity in the applicable Final Terms;

**"Insolvency Filing"** means that a Share Company or Basket Company institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Share Company or Basket Company shall not be deemed an Insolvency Filing;

**"Jurisdiction Event"** means that, on or after the Trade Date, it has become impracticable, illegal or impossible for the Issuer or any of its Affiliates to purchase, sell, hold or otherwise deal (or to continue to do so in the future) in the Index, the Shares or the Debt Instruments or any options or futures contracts in relation to the Index, the Shares or the Debt Instruments in order for the Issuer to perform its obligations under the Notes or in respect of any relevant hedging arrangements in connection with the Notes (including, without limitation, any purchase, sale or entry into or holding of one or more securities positions, currency positions, stock loan transactions, derivatives position, commodity position or other instruments or arrangements (however described) by the Issuer and/or any of its Affiliates in order to hedge, either individually or on a portfolio basis,

the Notes) or the costs of so doing would (in the sole and absolute determination of the Calculation Agent) be materially increased under the restriction or limitation of the existing or future law, rule, regulation, judgment, order, interpretation, directive or decree of any Government Authority or otherwise;

**"Loss of Stock Borrow"** means that the Issuer and/or any Affiliate is unable, after using commercially reasonable efforts, to borrow (or maintain a borrowing of) any component security comprised in an Index (in the case of Index Securities) or any Share (in the case of Share Securities) in an amount equal to the Hedging Shares at a rate equal to or less than the Maximum Stock Loan Rate;

**"Maximum Stock Loan Rate"** means in respect of a component security comprised in an Index (in the case of Index Securities) or a Share (in the case of Share Securities), the Maximum Stock Loan Rate specified in the applicable Final Terms;

**"Optional Additional Disruption Event"** means any of Cancellation Event, Currency Event, Force Majeure Event, Jurisdiction Event, Increased Cost of Hedging, Increased Cost of Stock Borrow, Insolvency Filing, Loss of Stock Borrow and/or Stop-Loss Event, in each case if specified in the applicable Final Terms;

**"Stop-Loss Event"** means, in respect of a Share, the price of any Share as quoted on the relevant Exchange for such Share at the Scheduled Closing Time on any Scheduled Trading Day that is not a Disrupted Day in respect of such Share on or after the Trade Date or, if later, the Strike Date, is less than 5 per cent., or such percentage specified in the applicable Final Terms, of its Strike Price or, if no Strike Price is specified in the applicable Final Terms, the price given as the benchmark price for such Share in the applicable Final Terms, all as determined by the Calculation Agent;

**"Trade Date"** has the meaning given to it in the applicable Final Terms.

9.2 If Additional Disruption Events are specified as applicable in the applicable Final Terms and an Additional Disruption Event and/or an Optional Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (a) or, if applicable, (b), (c), (d) or (e), as the case may be, below:

- (a) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and/or Optional Additional Disruption Event and determine the effective date of that adjustment;
- (b) unless Delayed Redemption on Occurrence of Additional Disruption Event and/or Optional Additional Disruption Event is specified in the applicable Final Terms, on giving notice to Holders in accordance with Condition 16, redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of such Note taking into account the Additional Disruption Event and/or Optional Additional Disruption Event less, except in the case of Italian Listed Notes, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with Condition 16; or
- (c) if Delayed Redemption on Occurrence of Additional Disruption Event and/or Optional Additional Disruption Event is specified as being applicable in the applicable Final Terms, the Calculation Agent shall calculate the fair market value of each Note, taking into account the Additional Disruption Event and/or Optional Additional Disruption Event, less, except in the case of Italian Listed Notes, the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the **"Calculated Additional Disruption Amount"**) as soon as practicable following the occurrence of the

Additional Disruption Event and/or Optional Additional Disruption Event (the "**Calculated Additional Disruption Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Additional Disruption Amount plus interest accrued from and including the Calculated Additional Disruption Amount Determination Date to but excluding the Maturity Date at a rate equal to Issuer's funding cost at such time or (y) if Principal Protected Termination Amount is specified as being applicable in the applicable Final Terms and if greater, the Calculation Amount; or

- (d) in the case of Index Securities linked to a Custom Index, the Calculation Agent may use commercially reasonable efforts to select a successor index with a substantially similar formula for and method of calculation as the Custom Index within twenty (20) Scheduled Custom Index Business Days of the occurrence of the relevant Additional Disruption Event or Optional Additional Disruption Event and, upon selection of such successor index (the "**Successor Index**"), the Calculation Agent shall promptly notify the Issuer and the Issuer will give notice to the Holders in accordance with Condition 16 and such index shall become the Successor Index and deemed to be a "Custom Index" for the purposes of the Notes and the Calculation Agent will make such adjustment, if any, to one or more of the Terms and Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate to account for the substitution. Such substitution and any relevant adjustment to the Terms and Conditions and/or the applicable Final Terms will be deemed to be effective as of the date selected by the Calculation Agent in its sole and absolute discretion which may, but need not be the date on which the relevant Additional Disruption Event or Optional Additional Disruption Event occurred; or
- (e) in the case of Share Securities linked to a Basket of Shares, the Calculation Agent may adjust the Basket of Shares to include a Share selected by it in accordance with the criteria for Share selection set out below (each a "**Substitute Share**") for each Share (each an "**Affected Share**") which is affected by the Additional Disruption Event and/or Optional Additional Disruption Event and the Substitute Share will be deemed to be a "**Share**" and the relevant issuer of such shares a "**Basket Company**" for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement and/or the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, provided that in the event that any amount payable under the Notes was to be determined by reference to the Initial Price of the Affected Share, the Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

where:

"A" is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

"B" is the Initial Price of the relevant Affected Share; and

"C" is the official closing price of the relevant Affected Share on the relevant Exchange on the Substitution Date.

Such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the "Substitution Date") in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the relevant date of the Additional Disruption Event and/or Optional Additional Disruption Event.

The Weighting of each Substitute Share in the Basket of Shares will be equal to the Weighting of the relevant Affected Share.

In order to be selected as a Substitute Share, the relevant share must be a share which, in the sole and absolute discretion of the Calculation Agent:

- (i) is not already included in the Basket of Shares;
- (ii) the relevant issuer of such share belongs to the same economic sector as the Basket Company in respect of the Affected Share; and
- (iii) the relevant issuer of such share has a comparable market capitalisation, international standing and exposure as the Basket Company in respect of the Affected Share.

In the case of Italian Listed Notes, notwithstanding the foregoing, the Calculation Agent will adjust any relevant terms of the Notes as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes.

9.3 Upon the occurrence of an Additional Disruption Event and/or Optional Additional Disruption Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable and the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 16 stating the occurrence of the Additional Disruption Event and/or Optional Additional Disruption Event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto

9.4 Where the Notes are Italian Listed Notes, notwithstanding the foregoing, any reference to "fair market value" in Conditions 9.2(b) and 9.2(c) shall be deemed to be a reference to "Early Redemption Amount".

## **10. KNOCK-IN EVENT AND KNOCK-OUT EVENT**

10.1 If "Knock-in Event" is specified as applicable in the applicable Final Terms, then any payment and/or delivery, as applicable, under the relevant Notes which is expressed in the Conditions to be subject to a Knock-in Event, shall be conditional upon the occurrence of such Knock-in Event.

10.2 If "Knock-out Event" is specified as applicable in the applicable Final Terms, then any payment and/or delivery, as applicable, under the relevant Notes which is expressed in the Conditions to be subject to a Knock-out Event, shall be conditional upon the occurrence of such Knock-out Event.

10.3 In respect of Index Securities, Share Securities, Debt Securities and Futures Securities, if the Knock-in Valuation Time or the Knock-out Valuation Time specified in the applicable Final Terms is the Valuation Time and if on any Knock-in Determination Day or Knock-out Determination Day (a) in respect of Notes other than Custom Index Securities or Debt Securities, at any time during the one hour period that begins or ends at the Valuation Time the Level triggers the Knock-in Level or the Knock-out Level, a Trading Disruption, Exchange Disruption or Early Closure occurs or exists, or (b) in respect of Custom Index Notes or Debt Securities, a Custom Index Disruption Event or Market Disruption Event, as applicable, is occurring, then (i) if Disruption Consequences are specified as not applicable in the applicable Final Terms, a Knock-in Event or Knock-out Event may occur notwithstanding such Trading Disruption, Exchange Disruption, Early Closure, Custom Index Disruption Event or Market Disruption Event or (ii) if Disruption Consequences are specified as applicable in the applicable Final Terms, the Knock-in Event or the Knock-out Event shall be deemed not to have occurred; provided that if, by operation of this provision, no Knock-in Determination Day or Knock-out Determination Day would occur in the Knock-in Determination Period or Knock-out Determination Period, the Knock-in Period Ending Date or Knock-out Period Ending Date shall be treated as a Valuation Date and the Calculation Agent shall determine the Level as at the Knock-in Valuation Time or

Knock-out Valuation Time in accordance with the provisions contained in the definition of "Valuation Date" for the purposes of determining the occurrence of a Knock-in Event or Knock-out Event.
