(B) Lieferung aller Festgelegten Lieferbaren Verbindlichkeiten (unabhängig davon, ob diese für ein Clearing geeignet sind) außerhalb des maßgeblichen Clearingsystems.
	The relevant Clearing System will then be instructed to block and, upon confirmation by the Issuer that delivery has taken place, cancel the Noteholders' positions in its books and the Fiscal Agent in turn will cancel the outstanding Notes. If Delivery is to take place outside the relevant Clearing System, the Issuer shall have to receive the relevant Noteholders' transfer instructions, in terms that are satisfactory to the Issuer, sufficiently before the Latest Permissible Physical Settlement Date to allow for physical settlement, otherwise the cash settlement provisions set out below will apply.	Das maßgebliche Clearingsystem wird anschließend angewiesen, die Positionen der Schuldverschreibungsinhaber in seinen Büchern zu sperren und bei Bestätigung durch die Emittentin, dass die Lieferung erfolgt ist, zu stornieren, woraufhin die Emissionsstelle die im Umlauf befindlichen Schuldverschreibungen einzieht. Erfolgt die Lieferung außerhalb des maßgeblichen Clearingsystems müssen der Emittentin die Übertragungsanweisungen der jeweiligen Schuldverschreibungsinhaber in einer für die Emittentin zufriedenstellenden Form rechtzeitig vor dem Spätesten Zulässigen Tag der Physischen Abwicklung zugehen, um eine physische Abwicklung vornehmen zu können; anderenfalls sind die nachstehenden Bestimmungen für Barausgleich anwendbar.

1.1.2.1	If, on the Latest Permissible Physical Settlement Date, the Calculation Agent (acting on behalf of the Issuer) determines that it is Illegal or Impossible for the Issuer to Deliver all or part of the Specified Deliverable Obligations to all or some of the Noteholders or if the Issuer does not receive transfer instructions as described in the last sentence of Condition 1.1.1.5 above, then the Calculation Agent will calculate a Cash Redemption Amount, in respect of such part of the Specified Deliverable Obligations which are Undeliverable Obligations, and the Issuer will, on the Cash	Falls die (für die Emittentin handelnde) Berechnungsstelle am Spätesten Zulässigen Tag der Physischen Abwicklung feststellt, dass es für die Emittentin Rechtswidrig oder Unmöglich ist, die gesamten Festgelegten Lieferbaren Verbindlichkeiten oder einen Teil davon an alle oder einige der Schuldverschreibungsinhaber zu liefern, oder der Emittentin keine Übertragungsanweisungen gemäß dem letzten Satz von Bedingung 1.1.1.5 oben zugehen, berechnet die Berechnungsstelle einen Barrückzahlungsbetrag in Bezug auf denjenigen Teil der Festgelegten Lieferbaren Verbindlichkeiten, bei

1.1.2.2	The Issuer must notify the relevant Noteholders through the relevant Clearing System that there are Undeliverable Obligations and the reasons why it is Illegal or Impossible to Deliver such Specified Deliverable Obligations.	Die Emittentin hat den jeweiligen Schuldverschreibungsinhabern über das maßgebliche Clearingsystem mitzuteilen, dass Nicht Lieferbare Verbindlichkeiten vorhanden sind, und die Gründe anzugeben, warum die Lieferung dieser Festgelegten Lieferbaren Verbindlichkeiten Rechtswidrig oder Unmöglich ist.
1.1.2.3	If, before the Latest Permissible Physical Settlement Date, the Calculation Agent determines that the Delivery of all of the Specified Deliverable Obligations is Illegal or Impossible, and it deems in good faith that such Delivery is to remain Illegal or Impossible until the Latest Permissible Physical Settlement Date, then the Calculation Agent may give notice thereof to the relevant Clearing System for the attention of the Noteholders. The Credit Valuation Date will then be the date that is two Business Days after the date on which the Calculation Agent delivers such notice to the relevant Clearing System, and the Issuer will pay the Noteholders a Cash Redemption Amount on the Cash Redemption Date in full and final satisfaction of its obligations in respect of the Undeliverable Obligations.	Sollte die Berechnungsstelle vor dem Spätesten Zulässigen Tag der Physischen Abwicklung feststellen, dass die Lieferung der gesamten Festgelegten Lieferbaren Verbindlichkeiten Rechtswidrig oder Unmöglich ist, und nach Treu und Glauben annehmen, dass diese Lieferung bis zum Spätesten Zulässigen Tag der Physischen Abwicklung Rechtswidrig oder Unmöglich bleiben wird, kann die Berechnungsstelle dies dem maßgeblichen Clearingsystem zur Kenntnisnahme durch die Schuldverschreibungsinhaber mitteilen. In diesem Fall ist der Kreditereignis-Bewertungstag der Tag, der zwei Geschäftstage nach dem Tag liegt, an dem die Berechnungsstelle dem maßgeblichen Clearingsystem diese Mitteilung zustellt, und die Emittentin nimmt am Tag der Barrückzahlung die Zahlung eines Barrückzahlungsbetrags an die Schuldverschreibungsinhaber vor und hat damit ihre Verpflichtungen aus den Nicht Lieferbaren Verbindlichkeiten vollständig und endgültig erfüllt.
1.1.2.4	If Delivery is partially Illegal or Impossible, the Issuer may, for each Noteholder, Deliver the Specified Deliverable Obligations and pay a Cash Redemption Amount. The Issuer shall not be obliged to ensure that each Noteholder receives the same type and proportion of Deliverable Obligations and the same proportion of Deliverable Obligations and Cash Redemption Amount as each other Noteholder.	Falls die Lieferung teilweise Rechtswidrig oder Unmöglich ist, kann die Emittentin bei jedem Schuldverschreibungsinhaber die Festgelegten Lieferbaren Verbindlichkeiten liefern und einen Barrückzahlungsbetrag zahlen. Die Emittentin ist nicht verpflichtet, sicherzustellen, dass jeder Schuldverschreibungsinhaber dieselbe Art und denselben Anteil der Lieferbaren Verbindlichkeiten und denselben Anteil der Lieferbaren Verbindlichkeiten und des Barrückzahlungsbetrags wie jeder andere Schuldverschreibungsinhaber erhält.
1.1.2.5	If Condition 1.1.2.1 or Condition 1.1.2.3 above applies, the Issuer may arrange that all settlements hereunder be made outside the relevant Clearing System in the manner described in Condition 1.1.1.5 above provided that the Issuer receives transfer instructions in terms that are satisfactory to the Issuer to allow for such settlements.	Falls Bedingung 1.1.2.1 oder Bedingung 1.1.2.3 oben anwendbar ist, kann die Emittentin veranlassen, dass sämtliche Abwicklungen gemäß diesen Bedingungen außerhalb des maßgeblichen Clearingsystems auf die in Bedingung 1.1.1.5 oben aufgeführte Weise erfolgen, mit der Maßgabe, dass die Emittentin Übertragungsanweisungen in einer für sie zufriedenstellenden Form erhält, um diese Abwicklungen vornehmen zu können.
1.1.2.6	The Calculation Agent will inform the Noteholders via the relevant Clearing System of the Cash Redemption Amount by sending a Final Valuation Notice.	Die Berechnungsstelle teilt den Schuldverschreibungsinhabern den Barrückzahlungsbetrag über das maßgebliche Clearingsystem in einer Mitteilung über die Endgültige Bewertung mit.

Wenn eine Festgelegte Lieferbare Verbindlichkeit auf eine andere Währung als die Festgelegte Währung der Schuldverschreibungen lautet, bestimmt die Berechnungsstelle den Gegenwert des Ausstehenden Kapitalbetrags bzw. des Fälligen und Zahlbaren Betrags dieser Festgelegten Lieferbaren Verbindlichkeit in der Festgelegten Währung zur Berechnung der Physischen Liefermenge unter Bezugnahme auf den Mittelwechsellkurs, der um 16.00 Uhr (Londoner Zeit) von WM/Reuters oder einem von der Berechnungsstelle ausgewählten Nachfolgekurssystem am dem Tag, an dem die Mitteilung über die Physische Abwicklung wirksam ist (oder, falls die Mitteilung über die Physische Abwicklung an oder vor dem Tag der Physischen Abwicklung geändert wird, an dem Tag, an dem die Mitteilung über die letzte derartige Änderung wirksam ist), oder, falls die Bestimmungen für Barausgleich Anwendung finden, am Kreditereignis-Bewertungstag oder an einem anderen Tag, den die Berechnungsstelle unter Bezugnahme auf Absicherungspositionen für angemessen hält, veröffentlicht wird; ist um diese Uhrzeit kein solcher Kurs verfügbar, bestimmt die Berechnungsstelle den Kurs zu derjenigen Uhrzeit und unter Bezugnahme auf diejenigen Quellen, die sie für angemessen

(e) Falls in Bezug auf die Nicht-Standardmäßige-Referenzverbindlichkeit ein Ersetzungsereignis eingetreten ist und nach Feststellung durch die Berechnungsstelle keine Ersatz-Referenzverbindlichkeit für die Nicht-Standardmäßige-Referenzverbindlichkeit verfügbar ist, dann hat die Berechnungsstelle – vorbehaltlich Absatz (a) oben und unbeschadet der Tatsache, dass die Nicht-Standardmäßige-Referenzverbindlichkeit möglicherweise nicht mehr die Referenzverbindlichkeit nach Maßgabe von Absatz (b) oben ist – weiterhin zu versuchen, die Ersatz-Referenzverbindlichkeit zu identifizieren.

	For the avoidance of doubt, if the Calculation Agent observes or receives a quotation expressed with an upfront amount (the <b>Upfront Quotation</b> ), it will convert such Upfront Quotation into a quoted spread by using the function QCDS in Bloomberg or any other calculation as the Calculation Agent may deem appropriate in its sole and absolute discretion, but acting in good faith and in a commercially reasonable manner. 	ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES	ZUSÄTZLICHE EMISSIONSBEDINGUNGEN FÜR INFLATIONSBEZOGENE SCHULDVERSCHREIBUNGEN
	The provisions of these Additional Terms and Conditions for Inflation Linked Notes apply if the applicable Final Terms specify that the clause "Type of Structured Notes" is stated as being "Inflation Linked Notes".	Die Bestimmungen dieser Zusätzlichen Emissionsbedingungen für Inflationsbezogene Schuldverschreibungen sind anwendbar, sofern in den anwendbaren Endgültigen Bedingungen als „Art der Strukturierten Schuldverschreibungen“ „Inflationsbezogene Schuldverschreibungen“ angegeben ist.
1.	<b>DEFINITIONS</b>	<b>BEGRIFFSBESTIMMUNGEN</b>
	<b>Business Day</b> means a "Business Day" as defined in Condition 3 of the General Terms and Conditions of the Notes, determined on the basis of the Specified Currency of the relevant Notes.	<b>Geschäftstag</b> bezeichnet einen „Geschäftstag“ im Sinne von Bedingung 3 der Allgemeinen Emissionsbedingungen der Schuldverschreibungen, der auf Grundlage der Festgelegten Währung der jeweiligen Schuldverschreibungen bestimmt wird.
	<b>Calculation Agent</b> has the meaning given to that expression in Condition 10 of the General Terms and Conditions of the Notes.	<b>Berechnungsstelle</b> hat die diesem Begriff in Bedingung 10 der Allgemeinen Emissionsbedingungen der Schuldverschreibungen zugewiesene Bedeutung.
	<b>Closing Price</b> means the level of the Inflation Index for a Reference Period which is relevant to the calculation of a payment under the Notes.	<b>Schlusspreis</b> bezeichnet den Stand des Inflationsindex für einen Referenzzeitraum, der für die Berechnung einer Zahlung im Rahmen der Schuldverschreibungen maßgeblich ist.
	<b>Fallback Bond</b> means a bond, if any, selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays an interest or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays an interest or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged). For the avoidance of doubt, if no bond defined in (a), (b) or (c) above is selected by the Calculation Agent, there will be no Fallback Bond.	<b>Ersatzanleihe</b> bezeichnet eine von der Berechnungsstelle ausgewählte und von der Regierung des Landes, auf dessen Inflationsrate sich der Inflationsindex bezieht, begebene Anleihe, auf die ein Kupon bzw. ein Rückzahlungsbetrag gezahlt wird, dessen Berechnung unter Zugrundelegung des Inflationsindex erfolgt und deren Fälligkeitstag (a) mit dem Fälligkeitstag zusammenfällt, (b) auf den frühesten Termin nach dem Fälligkeitstag fällt, sofern an dem Fälligkeitstag keine solche Anleihe fällig wird, oder (c) auf den spätesten Termin vor dem Fälligkeitstag fällt, sofern von der Berechnungsstelle keine Anleihe im Sinne von (a) oder (b) ausgewählt wurde. Bezieht sich der Inflationsindex auf die Inflationsrate in der Europäischen Währungsunion, so wird die Berechnungsstelle eine inflationsbezogene Anleihe auswählen, bei der es sich um einen Schuldtitel der Regierung (nicht jedoch einer Regierungsbehörde) von Frankreich, Italien, Deutschland oder Spanien handelt und auf die ein Kupon bzw. ein Rückzahlungsbetrag gezahlt wird, dessen Berechnung unter Zugrundelegung der Inflationsrate in der Europäischen Währungsunion erfolgt. In jedem Fall wird die Berechnungsstelle die Ersatzanleihe aus denjenigen inflationsbezogenen Anleihen auswählen, die an oder vor dem Emissionstag begeben wurden, wobei die Berechnungsstelle für den Fall, dass mehr als eine inflationsbezogene Anleihe an demselben Tag fällig wird, die Ersatzanleihe aus diesen Anleihen auswählen muss. Kommt die Ersatzanleihe zur Rückzahlung, wird die Berechnungsstelle auf derselben Grundlage eine neue Ersatzanleihe auswählen, wobei die Auswahl jedoch aus allen zulässigen Anleihen getroffen wird, die im Zeitpunkt der Rückzahlung der ursprünglichen Ersatzanleihe in Umlauf sind (einschließlich jeder Anleihe, gegen die die zurückgezahlte Anleihe ausgetauscht wird). Klarstellend wird festgehalten, dass falls keine in (a), (b) oder (c) oben definierte Anleihe von der Berechnungsstelle ausgewählt ist, es keine Ersatzanleihe geben wird.

	<b>Hedge Positions</b> means any purchase, sale, entry into or maintenance, by Société Générale or any of its affiliate, of one or more (a) positions or contracts in securities, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) any cash deposits or cash borrowing and/or (d) other instruments, arrangements, assets or liabilities howsoever described in order to hedge, individually or on a portfolio basis, the part of Société Générale or any of its affiliates' obligation under the Notes.	<b>Absicherungspositionen</b> bezeichnet einen Erwerb, Verkauf, Abschluss oder das Aufrechterhalten von (a) einer oder mehreren Positionen oder Kontrakten in Wertpapieren, Optionen, Terminkontrakten, Derivaten, Zins- oder Devisengeschäften, (b) einem oder mehreren Wertpapierleihgeschäften, (c) Bareinlagen oder Bardarlehen und/oder (d) sonstigen Instrumenten, Vereinbarungen, Vermögenswerten oder Verbindlichkeiten, gleich welcher Bezeichnung, durch die Société Générale oder eines ihrer verbundenen Unternehmen, die einzeln oder auf Portfoliobasis zur Absicherung des Teils der Verpflichtungen der Société Générale oder eines ihrer verbundenen Unternehmen aus den Schuldverschreibungen dienen.
	<b>Index Sponsor</b> means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index on a regular basis.	<b>Indexsponsor</b> bezeichnet den Rechtsträger, der den Stand des maßgeblichen Inflationsindex regelmäßig (selbst oder über einen Beauftragten) veröffentlicht oder bekannt gibt.
	<b>Inflation Index</b> means any inflation index specified as Underlying in the applicable Final Terms, subject to adjustment pursuant to the provisions of Condition 2.1 below.	<b>Inflationsindex</b> bezeichnet vorbehaltlich einer Anpassung gemäß den Bestimmungen in Bedingung 2.1 unten den Inflationsindex, der in den anwendbaren Endgültigen Bedingungen als Basiswert angegeben ist.
	<b>Payment Date</b> means any date on which a payment is due and payable pursuant to the terms of the Notes.	<b>Zahlungstag</b> bezeichnet einen Tag, an dem eine Zahlung gemäß den Bedingungen der Schuldverschreibungen fällig und zahlbar ist.

The time period may be, but is not limited to, a calendar year, a semester, a quarter or a month.	<b>Referenzzeitraum</b> bezeichnet den Zeitraum, für den der Stand des Inflationsindex berechnet wurde und auf den sich folglich dieser Stand des Inflationsindex, gleich ob dieser Stand veröffentlicht oder bekannt gegeben wurde, bezieht. Der Zeitraum kann unter anderem ein Kalenderjahr, ein Halbjahr, ein Quartal oder einen Monat umfassen.
	<b>Substitute Index Level</b> means an index level, determined by the Calculation Agent in accordance with Condition 2.1.1 below.	<b>Ersatz-Indexstand</b> bezeichnet den von der Berechnungsstelle gemäß Bedingung 2.1.1 unten festgestellten Indexstand.
	<b>Successor Index</b> has the meaning given to it in Condition 2.1.2 below.	<b>Nachfolgeindex</b> hat die diesem Begriff in Bedingung 2.1.2 unten zugewiesene Bedeutung.

<b>2.1.1</b>	<b>Delay of Publication</b>	<b>Verzögerung der Veröffentlichung</b>
	(a) If the Closing Price is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent will determine a <b>Substitute Index Level</b> (in place of such Closing Price) by using the following methodology:	(a) Falls der Schlusspreis nicht bis zu dem Tag, der fünf Geschäftstage vor dem nächstfolgenden Zahlungstag aus den Schuldverschreibungen liegt, veröffentlicht oder bekannt gegeben wurde, legt die Berechnungsstelle einen <b>Ersatz-Indexstand</b> (anstelle dieses Schlusspreises) anhand der folgenden Methoden fest:
	(i) if applicable, the Calculation Agent shall take the same action to determine the Substitute Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond;	(i) falls anwendbar, nimmt die Berechnungsstelle dieselbe Handlung zur Festlegung des Ersatz-Indexstands für diesen Zahlungstag wie die von der maßgeblichen Berechnungsstelle gemäß den Emissionsbedingungen der Ersatzanleihe vorgenommene Handlung vor;
	(ii) if (i) above does not result in a Substitute Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Index	(ii) falls die gemäß (i) oben vorgenommene Handlung nicht zu einem Ersatz-Indexstand für diesen Zahlungstag aus einem beliebigen Grund führt, stellt die

	<b>Base Level</b> means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the time period which is 12 calendar months prior to the time period for which the Substitute Index Level is being determined;	<b>Basisstand</b> bezeichnet den Stand des Inflationsindex (unter Ausschluss etwaiger Schnellschätzungen), der vom Indexsponsor in Bezug auf den Zeitraum veröffentlicht bzw. bekannt gegeben wird, der dem Zeitraum, für den der Ersatz-Indexstand festgestellt wird, zwölf Kalendermonate vorausgeht.
	<b>Latest Level</b> means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period in respect of which the Substitute Index Level is being calculated; and	<b>Letzter Stand</b> bezeichnet den letzten Stand des Inflationsindex (unter Ausschluss etwaiger Schnellschätzungen), der vom Indexsponsor vor dem Zeitraum veröffentlicht bzw. bekannt gegeben wird, in Bezug auf den der Ersatz-Indexstand festgestellt wird; und
	<b>Reference Level</b> means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the time period that is 12 calendar months prior to the time period referred to in "Latest Level" above.	<b>Referenzstand</b> bezeichnet den Stand des Inflationsindex (unter Ausschluss etwaiger Schnellschätzungen), der vom Indexsponsor vor dem Zeitraum veröffentlicht bzw. bekannt gegeben wird, der dem Zeitraum, für den der vorstehend beschriebene „Letzte Stand“ festgestellt wird, zwölf Kalendermonate vorausgeht.
	(b) If a Closing Price is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Notes, such Closing Price will not be used in any calculations. The Substitute Index Level so determined pursuant to this paragraph (a) will be the definitive level for that Reference Period.	(b) Wenn die Veröffentlichung oder Bekanntgabe eines Schlusspreises zu einem beliebigen Zeitpunkt nach dem Tag, der fünf Geschäftstage vor dem nächstfolgenden Zahlungstag aus den Schuldverschreibungen liegt, erfolgt, wird dieser Schlusspreis nicht in die Berechnungen einbezogen. Der gemäß diesem Absatz (a) festgestellte Ersatz-Indexstand ist der endgültige Stand für den betreffenden Referenzzeitraum.
	If the Calculation Agent determines a Substitute Index Level in accordance with this Condition 2.1.1, the Calculation Agent may make any adjustment or adjustments (without limitation) to (x) the Substitute Index Level determined in accordance with this Condition 2.1.1 and/or (y) any amount payable under the Notes and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary.	Falls die Berechnungsstelle einen Ersatz-Indexstand nach Maßgabe dieser Bedingung 2.1.1 festlegt, ist sie berechtigt, etwaige von ihr für notwendig erachtete Anpassungen (x) an dem gemäß Bedingung 2.1.1 bestimmten Ersatz-Indexstand und/oder (y) an etwaigen gemäß den Schuldverschreibungen und/oder anderen maßgeblichen Bedingungen der Schuldverschreibungen zu zahlenden Beträgen vorzunehmen.
<b>2.1.2</b>	<b>Cessation of Publication</b>	<b>Einstellung der Veröffentlichung</b>
	If the Calculation Agent determines that the level of an Inflation Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index and/or the Index Sponsor cancels the Inflation Index, then the Calculation Agent shall determine a successor index (a <b>Successor Index</b> ) (in lieu of any previously applicable Inflation Index) for the purposes of the Notes as follows:	Falls nach Feststellung der Berechnungsstelle der Indexsponsor den Stand eines Inflationsindex während zwei aufeinanderfolgender Monate nicht berechnet und bekannt gibt und/oder der Indexsponsor ankündigt, dass er den Inflationsindex nicht mehr veröffentlichen oder bekannt geben wird, und/oder der Indexsponsor den Inflationsindex einstellt, wird die Berechnungsstelle (anstelle des bisher anwendbaren Inflationsindex) wie folgt einen Nachfolgeindex (ein <b>Nachfolgeindex</b> ) für die Zwecke der Schuldverschreibungen bestimmen:
	(i) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Fallback Bond, such successor index shall be designated a Successor Index for the purposes of all subsequent Payment Dates in relation to the Notes, notwithstanding that any	(i) falls ein Nachfolgeindex von der maßgeblichen Berechnungsstelle zu einem beliebigen Zeitpunkt gemäß den Emissionsbedingungen der Ersatzanleihe bestimmt wurde, wird dieser Nachfolgeindex als Nachfolgeindex für die Zwecke aller nachfolgenden Zahlungstage in Bezug auf die Schuldverschreibungen

	(ii) if a Successor Index has not been determined under paragraph (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Notes from the date that such replacement index comes into effect;	(ii) falls kein Nachfolgeindex gemäß Absatz (i) oben bestimmt wurde und durch den Indexsponsor eine Mitteilung abgegeben oder eine Bekanntmachung vorgenommen wurde, wonach der Inflationsindex durch einen von ihm festgelegten Ersatzindex ersetzt wird, und dieser Ersatzindex nach Feststellung der Berechnungsstelle die gleiche oder eine im Wesentlichen vergleichbare Formel oder Berechnungsmethode wie die für den zuvor anwendbaren Inflationsindex einsetzt, wird dieser Ersatzindex als Inflationsindex für die Zwecke der Schuldverschreibungen ab dem Tag, an dem dieser Ersatzindex wirksam wird, bestimmt;
	(iii) if a Successor Index has not been determined under paragraphs (i) or (ii) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Index". If fewer than three responses are received, the Calculation Agent will proceed to paragraph (iv) hereof;	(iii) falls kein Nachfolgeindex gemäß Absatz (i) oder (ii) oben bestimmt wurde, wird die Berechnungsstelle bei fünf führenden unabhängigen Platzeuren anfragen, welcher der Ersatzindex für den Inflationsindex sein soll. Antworten mindestens vier dieser Platzeure und nennen mindestens drei davon denselben Index, gilt dieser als „Nachfolgeindex“. Antworten drei dieser Platzeure und nennen mindestens zwei davon denselben Index, gilt dieser als „Nachfolgeindex“. Antworten weniger als drei dieser Platzeure, geht die Berechnungsstelle gemäß Bedingung (iv) vor;
	(iv) if no Successor Index has been determined under paragraphs (i), (ii) and (iii) above by the fifth Business Day prior to the next following Payment Date under the Notes, the Calculation Agent will determine an appropriate alternative index for such date, acting in good faith and in a commercially reasonable manner, and such index will be deemed the "Successor Index".	(iv) falls kein Nachfolgeindex gemäß Absatz (i), (ii) und (iii) oben bis zum fünften Geschäftstag vor dem nächstfolgenden Zahlungstag aus den Schuldverschreibungen bestimmt wurde, legt die Berechnungsstelle einen angemessenen alternativen Index nach Treu und Glauben und in wirtschaftlich angemessener Weise bis zu diesem Tag fest, der dann als „Nachfolgeindex“ gilt;
	(v) if the Calculation Agent determines that no alternative index is appropriate, the Calculation Agent shall consider such event as an event triggering an early redemption of the Notes. In that case, the Calculation Agent shall terminate its obligations under the Notes and pay to each Noteholder, as soon as possible after the occurrence of such event, an Early Redemption Amount on the basis of Market Value as defined in Condition 5.9 of the General Terms and Conditions of the Notes.	(v) falls nach Feststellung der Berechnungsstelle kein alternativer Index angemessen ist, wird sie ein solches Ereignis als Auslöser einer vorzeitigen Rückzahlung der Schuldverschreibungen betrachten. In diesem Fall kündigt die Berechnungsstelle so bald wie möglich nach Eintritt eines solchen Ereignisses ihre Verpflichtungen aus den Schuldverschreibungen und zahlt an die Schuldverschreibungsinhaber einen Vorzeitigen Rückzahlungsbetrag auf Grundlage des in Bedingung 5.9 der Allgemeinen Emissionsbedingungen der Schuldverschreibungen definierten Marktwerts.
	For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Inflation Index for the purposes of the Notes.	Zur Klarstellung gilt: Die Berechnungsstelle legt den Tag fest, an dem der Nachfolgeindex den Inflationsindex für die Zwecke der Schuldverschreibungen ersetzen soll.
	If a Successor Index is determined in accordance with this Condition 2.1.2, the Calculation Agent may make any adjustment or adjustments (without limitation) to any amount payable under the Notes and/or any other relevant term of the Notes as the	Falls ein Nachfolgeindex gemäß Bedingung 2.1.2 bestimmt wird, ist die Berechnungsstelle berechtigt, jegliche Anpassungen an gemäß den Schuldverschreibungen zahlbaren Beträgen und/oder anderen maßgeblichen Bedingungen der

<b>2.1.3</b>	<b><i>Rebasing of the Inflation Index</i></b>	<b><i>Umbasierung des Inflationsindex</i></b>
	If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the " <b>Rebased Index</b> ") will be used for purposes of determining the Closing Price from the date of such rebasing; provided, however, that the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Fallback Bond, if any, to the level of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Fallback Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.	Falls die Berechnungsstelle feststellt, dass der Inflationsindex zu irgendeinem Zeitpunkt umbasiert wurde oder wird, wird der entsprechend umbasierte Inflationsindex (der „ <b>Umbasierte Index</b> “) ab dem Tag der Umbasierung zur Feststellung des Schlusskurses verwendet, wobei die Berechnungsstelle jedoch berechtigt ist, die Stände des Umbasierten Index entsprechend den Anpassungen anzupassen, die gemäß den Emissionsbedingungen der Ersatzanleihe vorgenommen wurden, sodass die Stände des Umbasierten Index dieselbe Inflationsrate wie der Inflationsindex vor der Umbasierung widerspiegeln. Falls es keine Ersatzanleihe gibt, nimmt die Berechnungsstelle Anpassungen an den Ständen des Umbasierten Index vor, sodass die Stände des Umbasierten Index dieselbe Inflationsrate wie der Inflationsindex vor der Umbasierung widerspiegeln. Entsprechende Umbasierung haben keinen Einfluss auf etwaige zuvor im Rahmen der Schuldverschreibungen geleistete Zahlungen.
<b>2.1.4</b>	<b><i>Material Modification Prior to Payment Date</i></b>	<b><i>Wesentliche Änderungen vor dem Zahlungstag</i></b>
	If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Notes, the Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent, acting in good faith and in a commercially reasonable manner, shall make any such adjustments to the Inflation Index consistent with adjustments made to the Fallback Bond, or, if there is no Fallback Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index. Falls die Berechnungsstelle (i) innerhalb von 30 Tagen nach der Veröffentlichung oder (ii) an dem Tag, der fünf Geschäftstage vor dem nächstfolgenden Zahlungstag im Rahmen der Schuldverschreibungen liegt, je nachdem welcher Zeitpunkt früher eintritt, feststellt, dass der Indexsponsor den Stand des Inflationsindex zur Berichtigung eines offenkundigen Fehlers in seiner ursprünglichen Veröffentlichung korrigiert hat, ist die Berechnungsstelle berechtigt, etwaige Anpassungen an gemäß den Schuldverschreibungen zahlbaren Beträgen und/oder anderen maßgeblichen Bedingungen der Schuldverschreibungen vorzunehmen, die sie aufgrund dieser Korrektur für angemessen erachtet, und/oder (gegebenenfalls) den aufgrund der Korrektur zahlbaren Betrag zu bestimmen.

Zur Klarstellung gilt: Der von der Berechnungsstelle ermittelte Endgültige Anleihekurs basiert auf den eingeholten Quotierungen, ohne dass die Berechnungsstelle verpflichtet ist, tatsächlich ein Veräußerungsgeschäft im Zusammenhang mit diesen Quotierungen durchzuführen.
	The Calculation Agent will require each Quotation Dealer to provide quotations to the extent reasonably practicable on the relevant day at approximately 11.00 a.m. London time or 11.00 a.m. New York time or 11.00 a.m. in any other leading market where the liquidity of such Bond may be better, as determined by the Calculation Agent, as the case may be. The Calculation Agent, may on the First Quotation Day and if applicable, on the Second Quotation Day, in its sole and absolute discretion but acting in a commercially reasonable manner, determine whether to request (i) at least one Full Quotation and/or (ii) several firm bid quotations from Quotation Dealers in order to establish a Weighted Average Quotation.	Die Berechnungsstelle wird jeden Quotierungshändler auffordern, am maßgeblichen Tag um ungefähr 11.00 Uhr Londoner Zeit oder 11.00 Uhr New Yorker Zeit bzw. 11.00 Uhr an einem anderen führenden Markt, an dem die Liquidität der Anleihe nach Feststellung der Berechnungsstelle möglicherweise besser ist, Quotierungen zu stellen, soweit dies vernünftigerweise durchführbar ist. Die Berechnungsstelle kann am Ersten Quotierungstag und gegebenenfalls am Zweiten Quotierungstag nach freiem Ermessen, jedoch in wirtschaftlich angemessener Weise, bestimmen, ob von den Quotierungshändlern (i) mindestens eine Vollquotierung und/oder (ii) mehrere verbindliche Quotierungen zur Ermittlung einer Gewichteten Durchschnittsquotierung anzufordern ist bzw. sind.
	To such end:	Hierzu gilt:
	(i) if the Calculation Agent obtains at least one Full Quotation and/or one Weighted Average Quotation on the First Quotation Day, the Bond Final Price will be the highest Quotation of the Full Quotation(s) or Weighted Average	(i) Falls die Berechnungsstelle am Ersten Quotierungstag mindestens eine Vollquotierung und/oder eine Gewichtete Durchschnittsquotierung einholt, ist der Endgültige Anleihekurs die höchste Quotierung

	Quotation(s) obtained (if any) by the Calculation Agent;	der (gegebenenfalls) von der Berechnungsstelle eingeholten Vollquotierung(en) oder Gewichteten Durchschnittsquotierung(en);
	(ii) if the Calculation Agent is unable to obtain at least one Full Quotation or to determine a Weighted Average Quotation on the First Quotation Day, the Calculation Agent will attempt to obtain at least one Full Quotation and/or one Weighted Average Quotation on the Second Quotation Day, and the Bond Final Price will be the highest Quotation of the Full Quotation(s) or Weighted Average Quotation(s) obtained (if any) by the Calculation Agent;	(ii) Falls die Berechnungsstelle am Ersten Quotierungstag nicht mindestens eine Vollquotierung einholen oder eine Gewichtete Durchschnittsquotierung bestimmen kann, wird die Berechnungsstelle versuchen, am Zweiten Quotierungstag mindestens eine Vollquotierung und/oder eine Gewichtete Durchschnittsquotierung einzuholen. In diesem Fall ist der Endgültige Anleihekurs die höchste Quotierung der (gegebenenfalls) von der Berechnungsstelle eingeholten Vollquotierung(en) oder Gewichteten Durchschnittsquotierung(en);
	(iii) if the Calculation Agent obtains quotations for an aggregate amount lower than the Quotation Amount on the Second Quotation Day, then on the Third Quotation Day it will attempt to obtain several firm bid quotations from Quotation Dealers in order to establish a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount. If the Calculation Agent is unable to establish on the Third Quotation Day a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount, it will, until obtaining a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount, on each Quotation Day during the Auction Period, attempt to obtain several firm bid quotations from Quotation Dealers in order to establish a Partial Weighted Average Quotation in respect of an amount equal to the Residual Quotation Amount. For the avoidance of doubt, once a Partial Weighted Average Quotation is obtained on either the Third Quotation Day or on any Quotation Day in the Auction Period there will be no obligation on the Calculation Agent to seek a further Partial Weighted Average Quotation. The Bond Final Price will then be the weighted average of (i) the firm bid quotations obtained on the Second Quotation Day (if any) and (ii) the Partial Weighted Average Quotation (if any) for the portion equal to the Residual Quotation Amount and (iii) the value determined by the Calculation Agent in its sole and absolute discretion but acting in a commercially reasonable manner and for the avoidance of doubt this value can be zero for any remaining amount for which no quotation was obtained.	(iii) Falls die Berechnungsstelle am Zweiten Quotierungstag Quotierungen über einen Gesamtbetrag einholt, der niedriger als der Quotierungsbetrag ist, wird sie am Dritten Quotierungstag versuchen, von den Quotierungshändlern mehrere verbindliche Quotierungen zur Ermittlung einer Teilgewichteten Durchschnittsquotierung für einen Betrag in Höhe des Übrigen Quotierungsbetrags einzuholen. Ist die Berechnungsstelle am Dritten Quotierungstag nicht in der Lage, eine Teilgewichtete Durchschnittsquotierung für einen Betrag in Höhe des Übrigen Quotierungsbetrags zu ermitteln, wird sie, bis sie eine Teilgewichtete Durchschnittsquotierung für einen Betrag in Höhe des Übrigen Quotierungsbetrags erlangt, an jedem Quotierungstag während des Auktionszeitraums versuchen, von den Quotierungshändlern mehrere verbindliche Quotierungen zur Ermittlung einer Teilgewichteten Durchschnittsquotierung für einen Betrag in Höhe des Übrigen Quotierungsbetrags einzuholen. Zur Klarstellung gilt: Sobald am Dritten Quotierungstag oder an einem Quotierungstag innerhalb des Auktionszeitraums eine Teilgewichtete Durchschnittsquotierung eingeholt wurde, ist die Berechnungsstelle nicht zur Anfrage einer weiteren Teilgewichteten Durchschnittsquotierung verpflichtet. In diesem Fall ist der Endgültige Anleihekurs der gewichtete Durchschnitt (i) der (gegebenenfalls) am Zweiten Quotierungstag eingeholten verbindlichen Quotierungen und (ii) (gegebenenfalls) der Teilgewichteten Durchschnittsquotierung für den Teil, der dem Übrigen Quotierungsbetrag entspricht, und (iii) der von der Berechnungsstelle nach freiem Ermessen, jedoch in wirtschaftlich angemessener Weise, bestimmte Wert; zur Klarstellung gilt: dieser Wert kann für einen etwaigen verbleibenden Betrag, für den keine Quotierung eingeholt wurde, null sein.

Unter Berücksichtigung des Umstands, ob von der Berechnungsstelle eingeholte Quotierungen aufgelaufene, jedoch nicht gezahlte Zinsen beinhalten oder nicht, wird der Endgültige Anleihekurs von der Berechnungsstelle als der dem sonst berechneten Endgültigen Anleihekurs entsprechende Kurs ermittelt, sodass es sich um einen Clean-Preis ohne aufgelaufene, jedoch nicht gezahlte Zinsen handelt.
	(b) <i>If the applicable Final Terms specify that the clause "Bond Final Price Accrued Interest" is stated as being "Including Accrued Interest":</i>	(b) <i>Falls in den anwendbaren Endgültigen Bedingungen als „Aufgelaufene Zinsen auf Endgültigen Anleihekurs“ „Mit Aufgelaufenen Zinsen“ angegeben ist:</i>

Unter Berücksichtigung des Umstands, ob von der Berechnungsstelle eingeholte Quotierungen aufgelaufene, jedoch nicht gezahlte Zinsen beinhalten oder nicht, wird der Endgültige Anleihekurs von der Berechnungsstelle als der dem sonst berechneten Endgültigen Anleihekurs entsprechende Kurs ermittelt, sodass es sich um einen Dirty-Preis oder All in-Preis mit aufgelaufenen, jedoch nicht gezahlten Zinsen handelt.

	<b>DESCRIPTION OF THE COLLATERAL ARRANGEMENTS RELATING TO SECURED NOTES</b>	<b>BESCHREIBUNG DER SICHERHEITENVEREINBARUNGEN BEZÜGLICH BESICHERTER SCHULDVERSCHREIBUNGEN</b>
	<i>The following is a description of the security and collateral arrangements in relation to Notes (such Notes being hereinafter referred to as Secured Notes) to which the Additional Terms and Conditions relating to Secured Notes apply pursuant to the applicable Final Terms.</i>	<i>Im folgenden Abschnitt werden die Sicherungs- und Sicherheitenvereinbarungen im Zusammenhang mit Schuldverschreibungen (nachfolgend als Besicherte Schuldverschreibungen bezeichnet) beschrieben, für die die Zusätzlichen Emissionsbedingungen für Besicherte Schuldverschreibungen gemäß den anwendbaren Endgültigen Bedingungen gelten.</i>
	<i>Terms used but not otherwise defined in this description shall have the meaning given to them in the Additional Terms and Conditions for Secured Notes.</i>	<i>Verwendete Begriffe, die in dieser Beschreibung nicht definiert werden, haben die ihnen in den Zusätzlichen Emissionsbedingungen für Besicherte Schuldverschreibungen zugewiesene Bedeutung.</i>
	<b>GENERAL</b>	<b>ALLGEMEINE ANGABEN</b>
	Each Series of Secured Notes will benefit from a pledge agreement (each a <b>Pledge Agreement</b> ) which will be governed by the Luxembourg act dated 5 August 2005 on financial collateral arrangements, as amended (the <b>Collateral Act 2005</b> ) granted by the Issuer. Under each Pledge Agreement, the Issuer will grant first ranking security over the Collateral Assets (as defined below) contained in one or more accounts (such accounts together being referred to as the <b>Collateral Account</b> ) held by the Issuer with The Bank of New York Mellon (Luxembourg) S.A. or any successor thereto acting as collateral custodian (the <b>Collateral Custodian</b> ), pursuant to the terms of a custodian agreement between, <i>inter alia</i> , the Issuer and the Collateral Custodian (the <b>Collateral Custodian Agreement</b> ).	Für jede Serie Besicherter Schuldverschreibungen besteht ein von der Emittentin gewährter Verpfändungsvertrag (jeweils ein <b>Verpfändungsvertrag</b> ), der dem luxemburgischen Gesetz vom 5. August 2005 über Finanzsicherheiten in der jeweils geltenden Fassung (das <b>Luxemburgische Sicherheitengesetz 2005</b> ) unterliegt. Nach Maßgabe jedes Verpfändungsvertrags gewährt die Emittentin erstrangige Sicherheiten an den Sicherungswerten (wie nachstehend definiert) in einem oder mehreren, von der Emittentin bei The Bank of New York Mellon (Luxembourg) S.A. bzw. deren Nachfolger als Sicherheitenverwahrer (der <b>Sicherheitenverwahrer</b> ) gemäß den Bedingungen eines unter anderem zwischen der Emittentin und dem Sicherheitenverwahrer geschlossenen Verwahrungsvertrags (der <b>Sicherheitenverwahrungsvertrag</b> ) geführten Konten (das <b>Sicherheitenkonto</b> ).
	In relation to each Series of German Law Notes, the security granted under each Pledge Agreement will be granted in favour of BNY Mellon Corporate Trustee Services Limited or any successor thereto as security trustee (the <b>Security Trustee</b> ) on behalf of itself and the relevant Noteholders and the other relevant Secured Parties (as defined in the Additional Terms and Conditions relating to Secured Notes).	In Bezug auf jede Serie Deutschrechtlicher Schuldverschreibungen wird die nach Maßgabe des jeweiligen Verpfändungsvertrags gewährte Sicherheit zugunsten der BNY Mellon Corporate Trustee Services Limited oder deren Nachfolger als Sicherheitentreuhänder (der <b>Sicherheitentreuhänder</b> ) im eigenen Namen sowie im Namen der maßgeblichen Schuldverschreibungsinhaber und der sonstigen maßgeblichen Besicherten Parteien (wie in den Zusätzlichen Emissionsbedingungen für Besicherte Schuldverschreibungen definiert) gewährt.
	In relation to each Series of German Law Notes secured pursuant to a Pledge Agreement, the Security Trustee appointed as pledgee pursuant to such Pledge Agreement will enter into a security trust deed governed by German law (a <b>Security Trust Deed</b> ). Under the terms of each Security Trust Deed, the Security Trustee will covenant that it will exercise its rights under the relevant Pledge Agreement on behalf of and as trustee for the Noteholders and will declare a trust in favour of the Noteholders and the other relevant Secured Parties over the rights granted to it under the relevant Pledge Agreement.	In Bezug auf jede nach Maßgabe eines Verpfändungsvertrags besicherte Serie Deutschrechtlicher Schuldverschreibungen wird der nach dem betreffenden Verpfändungsvertrag als Pfandnehmer bestellte Sicherheitentreuhänder eine deutschem Recht unterliegende Sicherheitentreuhandvereinbarung (eine <b>Sicherheitentreuhandvereinbarung</b> ) abschließen. Nach den Bedingungen jeder Sicherheitentreuhandvereinbarung sichert der Sicherheitentreuhänder zu, dass er seine Rechte aus dem maßgeblichen Verpfändungsvertrag als Treuhänder für die Schuldverschreibungsinhaber und in deren Namen ausüben und ein Treuhandverhältnis zugunsten der Schuldverschreibungsinhaber und der weiteren maßgeblichen Besicherten Parteien in Bezug auf die ihm nach dem maßgeblichen Verpfändungsvertrag gewährten Rechte begründen wird.
	Any reference herein to the Security Trustee shall	Etwaige Bezugnahmen in diesem Abschnitt auf den

<b>2.</b>	<b>NATURE OF COLLATERAL ASSETS</b>	<b>ART DER SICHERUNGSWERTE</b>
	Assets held in a Collateral Account are referred to as <b>Collateral Assets</b> . The Collateral Assets held in a Collateral Account and secured pursuant to a Pledge Agreement are together referred to as the <b>Collateral Pool</b> . Collateral Assets contained in a Collateral Pool may comprise:	Auf einem Sicherheitenkonto verwahrte Vermögenswerte werden als <b>Sicherungswerte</b> bezeichnet. Die auf einem Sicherheitenkonto verwahrten und nach Maßgabe eines Verpfändungsvertrags besicherten Sicherungswerte werden gemeinsam als der <b>Sicherheitenpool</b> bezeichnet. Zu den Sicherungswerten in einem Sicherheitenpool können unter anderem die folgenden Vermögenswerte gehören:
	- cash;	- Barmittel;
	- debt securities (including, but not limited to, government bonds, corporate bonds, covered bonds and asset backed securities);	- Schultitel (insbesondere Staatsanleihen, Unternehmensanleihen, Pfandbriefe und Asset-Backed Securities);
	- equity securities, share, units or interests in a fund and or	- Eigenkapitalwertpapiere, Aktien, Einheiten ( <i>units</i> ) oder Anteile an einem Fonds; oder
	- any other negotiable financial instruments in book entry-form.	- sonstige handelbare Finanzinstrumente in buchmäßiger Form.
	In order to be included in the calculation of the Collateral Value (as defined below), Collateral Assets must satisfy the eligibility criteria (the <b>Eligibility Criteria</b> ) specified in the applicable Final Terms relating to such Series of Secured Notes. Collateral Assets satisfying the relevant Eligibility Criteria are referred to as <b>Eligible Collateral Assets</b> .	Um in die Berechnung des Sicherheitenwerts (wie nachstehend definiert) aufgenommen zu werden, müssen Sicherungswerte die in den anwendbaren Endgültigen Bedingungen angegebenen Zulässigkeitskriterien (die <b>Zulässigkeitskriterien</b> ) in Bezug auf die betreffende Serie Besicherter Schuldverschreibungen erfüllen. Die maßgeblichen Zulässigkeitskriterien erfüllenden Sicherungswerte werden als <b>Zulässige Sicherungswerte</b> bezeichnet.
	The Eligibility Criteria specified in the applicable Final Terms will set out the criteria which must be met for Collateral Assets to constitute Eligible Collateral Assets and may include limitations on the type of Collateral Assets that may be held, the maturity of the Collateral Assets, the liquidity of the Collateral Assets, requirements regarding the jurisdiction of the obligor of the Collateral Assets or its guarantor or the credit rating of the obligor of the Collateral Assets or its guarantor and/or any other limitations, restrictions and/or requirements concerning the Collateral Assets as may be specified in the applicable Final Terms.	Die in den anwendbaren Endgültigen Bedingungen angegebenen Zulässigkeitskriterien enthalten die Kriterien, die für Sicherungswerte erfüllt sein müssen, damit diese als Zulässige Sicherungswerte gelten, und können Beschränkungen in Bezug auf die Art der Sicherungswerte, die gehalten werden dürfen, die Fälligkeit der Sicherungswerte, die Liquidität der Sicherungswerte, die Anforderungen hinsichtlich der Jurisdiktion des Schuldners der Sicherungswerte oder seines Garantiegebers oder des Kreditratings des Schuldners der Sicherungswerte oder seines Garantiegebers und/oder sonstige Beschränkungen, Einschränkungen und/oder Anforderungen hinsichtlich der Sicherungswerte, wie in den anwendbaren Endgültigen Bedingungen angegeben, vorsehen.
	In addition the collateral rules (the <b>Collateral Rules</b> ) specified in the applicable Final Terms will set out the rules which must be satisfied in order for the Collateral Test (as defined below) to be satisfied. The Collateral Rules may include requirements relating to the diversification of types of Eligible Collateral Assets, the concentration of the Eligible Collateral Assets, the geographical location of the Eligible Collateral Assets or the currency of the Eligible Collateral Assets which may be held in a Collateral Pool and/or any other limitations, restrictions and/or requirements concerning the Eligible Collateral Assets contained in the relevant Collateral Pool as may be specified in the applicable Final Terms. For the avoidance of doubt, the Collateral Rules relating to a particular Collateral Pool will be satisfied to the extent that Eligible Collateral Assets with a Collateral Value (as defined below) at least equal to the Required Collateral	Darüber hinaus enthalten die in den anwendbaren Endgültigen Bedingungen angegebenen Sicherheitenbestimmungen (die <b>Sicherheitenbestimmungen</b> ) die zur Erfüllung des Sicherheitentests (wie nachstehend definiert) zu befolgenden Vorschriften. Die Sicherheitenbestimmungen können Anforderungen in Bezug auf die Diversifizierung der Arten von Zulässigen Sicherungswerten, die Konzentration der Zulässigen Sicherungswerte, den geografischen Standort der Zulässigen Sicherungswerte oder die Währung der Zulässigen Sicherungswerte vorsehen, die in einem Sicherheitenpool gehalten werden können, und/oder sonstige Beschränkungen, Einschränkungen und/oder Anforderungen bezüglich der Zulässigen Sicherungswerte in dem maßgeblichen Sicherheitenpool, wie in den anwendbaren Endgültigen Bedingungen angegeben, vorsehen. Zur Klarstellung wird festgehalten, dass die

	Value (as defined below) together satisfy the Collateral Rules.	Sicherheitenbestimmungen für einen bestimmten Sicherheitenpool erfüllt sind, soweit Zulässige Sicherungswerte mit einem Sicherheitenwert (wie nachstehend definiert), mindestens in Höhe des Erforderlichen Sicherheitenwerts (wie nachstehend definiert), zusammengefasst die Sicherheitenbestimmungen erfüllen.
<b>3.</b>	<b>TYPE OF COLLATERAL POOL</b>	<b>ART DES SICHERHEITENPOOLS</b>
	A Collateral Pool may be either a Single Series Collateral Pool or a Multiple Series Collateral Pool, each as further defined below.	Ein Sicherheitenpool kann entweder ein Sicherheitenpool für Einzelne Serien oder ein Sicherheitenpool für Mehrere Serien sein, wie jeweils nachstehend näher definiert.
<b>3.1</b>	<b>Single Series Collateral Pool</b>	<b>Sicherheitenpool für Einzelne Serien</b>
	Where the applicable Final Terms in respect of a Series of Secured Notes specify that the Type of Collateral Pool is Single Series Collateral Pool, such Series of Secured Notes will be the only Series of Secured Notes to be secured by the relevant Collateral Pool.	Ist in den anwendbaren Endgültigen Bedingungen in Bezug auf eine Serie Besicherter Schuldverschreibungen „Sicherheitenpool für Einzelne Serien“ als Art des Sicherheitenpools angegeben, ist die betreffende Serie Besicherter Schuldverschreibungen die einzige durch den maßgeblichen Sicherheitenpool zu besichernde Serie Besicherter Schuldverschreibungen.
<b>3.2</b>	<b>Multiple Series Collateral Pool</b>	<b>Sicherheitenpool für Mehrere Serien</b>
	Where the applicable Final Terms in respect of a Series of Secured Notes specify that the Type of Collateral Pool is Multiple Series Collateral Pool, such Series of Secured Notes may be secured by a Collateral Pool which secures one or more Series of Secured Notes. In such a scenario, following enforcement of the relevant Pledge Agreement, all Series of Secured Notes secured on such Collateral Pool would share in the distribution of the proceeds of realisation of the Collateral Assets constituting such Collateral Pool or Notes or, where the clause "Physical Delivery of Collateral Assets" is specified as applicable in the applicable Final Terms, in the delivery of the Collateral Assets contained in such Collateral Pool.	Ist in den anwendbaren Endgültigen Bedingungen in Bezug auf eine Serie Besicherter Schuldverschreibungen „Sicherheitenpool für Mehrere Serien“ als Art des Sicherheitenpools angegeben, kann die betreffende Serie Besicherter Schuldverschreibungen durch einen Sicherheitenpool besichert werden, mit dem eine oder mehrere Serien Besicherter Schuldverschreibungen besichert werden. In einem solchen Szenario würden nach Durchsetzung des maßgeblichen Verpfändungsvertrags sämtliche durch diesen Sicherheitenpool besicherte Serien Besicherter Schuldverschreibungen an der Ausschüttung der Erlöse aus der Verwertung der den betreffenden Sicherheitenpool bildenden Sicherungswerte oder Schuldverschreibungen, oder – falls „Physische Lieferung von Sicherheiten“ in den anwendbaren Endgültigen Bedingungen als anwendbar angegeben ist –, an der Lieferung der in dem betreffenden Sicherheitenpool enthaltenen Sicherungswerte beteiligt.
	Each Series of Secured Notes secured pursuant to a Multiple Series Collateral Pool must (i) be subject to the same governing law, (ii) be exclusively either all subject to or all not subject to the clause "Physical Delivery of Collateral Assets" (as described below), (iii) be subject to the same Eligibility Criteria and Collateral Rules, (iv) be subject to the same Haircut value(s) for each type or class of Eligible Collateral Assets, and (v) have the same Collateral Test Dates.	Jede nach Maßgabe eines Sicherheitenpools für Mehrere Serien besicherte Serie Besicherter Schuldverschreibungen muss (i) demselben anwendbaren Recht unterliegen, (ii) der Bestimmung „Physische Lieferung von Sicherungswerten“ (wie nachstehend beschrieben) entweder vollständig unterliegen oder vollständig nicht unterliegen, (iii) denselben Zulässigkeitskriterien und Sicherheitenbestimmungen unterliegen, (iv) demselben Preisabschlag bzw. denselben Preisabschlägen je Art oder Kategorie Zulässiger Sicherungswerte unterliegen und (v) dieselben Sicherheitentest-Termine haben.
	Noteholders acquiring and holding Secured Notes in relation to a Multiple Series Collateral Pool will be deemed to acknowledge, accept and agree to the rights of existing and future Noteholders of different Series of Secured Notes to share equally in the security created over the Collateral Assets in the Multiple Series Collateral Pool.	Schuldverschreibungsinhabern, die Besicherte Schuldverschreibungen in Verbindung mit einem Sicherheitenpool für Mehrere Serien erwerben und halten, wird unterstellt, dass sie die Rechte bestehender und künftiger Schuldverschreibungsinhaber anderer Serien Besicherter Schuldverschreibungen auf gleichberechtigte Beteiligung an den Sicherheiten, die an den Sicherungswerten in dem Sicherheitenpool für Mehrere Serien bestellt sind, anerkennen und ihr

		Einverständnis dazu erklären.
<b>4.</b>	<b>SEGREGATION BETWEEN COLLATERAL POOLS, LIMITED RECOURSE AND NON-PETITION</b>	<b>TRENNUNG VON SICHERHEITENPOOLS, BESCHRÄNKTER RÜCKGRIFF UND VERZICHT AUF INSOLVENZANTRAGSTELLUNG</b>
	By acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that the obligations of the Issuer to the Noteholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Notes both in the case of a Single Series Collateral Pool and a Multiple Series Collateral Pool. In particular, the Collateral Assets contained in any other Collateral Pool will not be available to pay amounts due in respect of any Secured Notes which are not secured by that Collateral Pool. However, in such a scenario, Noteholders will continue to be able to claim against the Guarantor for any unpaid amounts under the terms of the Guarantee.	Mit dem Kauf und Halten der Besicherten Schuldverschreibungen wird den Schuldverschreibungsinhabern die Kenntnisnahme und Zustimmung unterstellt, dass die Verpflichtungen der Emittentin gegenüber den Schuldverschreibungsinhabern in Bezug auf den Rückgriff auf die in dem maßgeblichen Sicherheitenpool, mit dem die betreffende Serie Besicherter Schuldverschreibungen sowohl im Fall eines Sicherheitenpools für Einzelne Serien als auch im Fall eines Sicherheitenpools für Mehrere Serien besichert ist, enthaltenen Sicherungswerte beschränkt sind. Insbesondere sind die in einem anderen Sicherheitenpool enthaltenen Sicherungswerte nicht zur Zahlung von fälligen Beträgen auf nicht mit diesem Sicherheitenpool Besicherte Schuldverschreibungen verfügbar. In einem solchen Szenario können Schuldverschreibungsinhaber gegenüber der Garantin jedoch weiterhin Ansprüche aus ungezahlten Beträgen nach den Bedingungen der Garantie geltend machen.
	In addition, by acquiring and holding Secured Notes, Noteholders will be deemed to acknowledge and agree that they shall not be entitled to take any steps or proceedings to procure the winding-up, administration or liquidation (or any other analogous proceeding) of the Issuer.	Zusätzlich wird den Schuldverschreibungsinhabern infolge des Erwerbs und des Haltens von Besicherten Schuldverschreibungen die Kenntnisnahme und Zustimmung unterstellt, dass sie nicht zur Einleitung von Schritten oder Verfahren zur Herbeiführung der Abwicklung, Zwangsverwaltung oder Liquidation (oder eines sonstigen vergleichbaren Verfahrens) der Emittentin berechtigt sind.
<b>5.</b>	<b>HEDGING OF ISSUER'S OBLIGATIONS</b>	<b>ABSICHERUNG DER VERBINDLICHKEITEN DER EMITTENTIN</b>
	The Issuer may hedge its obligations in relation to a Series of Secured Notes in a number of different ways, including by entering into repurchase agreements ( <b>Repurchase Agreements</b> ) or swap agreements ( <b>Swap Agreements</b> ) or any other agreements (any Repurchase Agreement, Swap Agreement or any other such agreement being a <b>Hedging Agreement</b> ) with a counterparty which may be Société Générale or an affiliate of Société Générale or such other entities as the Issuer deems appropriate from time to time (each such entity being a <b>Counterparty</b> ). Such transactions may also include provisions for the transfer to the Issuer of assets which may be treated as Collateral Assets by the Issuer and used to fulfil its obligations in relation to the Secured Notes. Where such Hedging Agreements provide for the transfer of assets to the Issuer, such transfer shall be made with full title.	Die Emittentin kann ihre Verbindlichkeiten aus einer Serie Besicherter Schuldverschreibungen auf verschiedene Arten absichern, insbesondere durch Abschluss von Pensionsgeschäften ( <b>Pensionsgeschäfte</b> ), Swap-Vereinbarungen ( <b>Swap-Vereinbarungen</b> ) oder sonstigen Vereinbarungen (Pensionsgeschäfte, Swap-Vereinbarungen oder die betreffenden sonstigen Vereinbarungen werden als <b>Absicherungsvereinbarungen</b> bezeichnet) mit einem Vertragspartner, bei dem es sich entweder um die Société Générale oder ein verbundenes Unternehmen der Société Générale oder sonstige von der Emittentin jeweils als geeignet erachtete Unternehmen handeln kann (jedes dieser Unternehmen wird als <b>Vertragspartner</b> bezeichnet). Bei solchen Transaktionen können ferner Bestimmungen für die Übertragung von Vermögenswerten – die von der Emittentin als Sicherungswerte behandelt und zur Begleichung ihrer Verbindlichkeiten aus den Besicherten Schuldverschreibungen verwendet werden dürfen – auf die Emittentin vorgesehen sein. Ist in diesen Absicherungsvereinbarungen die Übertragung von Vermögenswerten auf die Emittentin vorgesehen, erfolgt die Übertragung des gesamten Eigentums.
	A Swap Agreement may be evidenced by a 1992 ISDA Master Agreement and Schedule or a 2002 ISDA Master Agreement and Schedule together with the confirmation entered into by the Issuer and the Counterparty in respect of the relevant Series of Secured Notes. If the Counterparty's obligations	Eine Swap-Vereinbarung kann durch einen ISDA-Rahmenvertrag von 1992 samt Anhang oder einen ISDA-Rahmenvertrag von 2002 samt Anhang zusammen mit der von der Emittentin und dem Vertragspartner in Bezug auf die betreffende Serie Besicherter Schuldverschreibungen unterzeichnete

Ausfertigung des Einzelabschlusses verbrieft sein. Sind die Verbindlichkeiten des Vertragspartners aus der Swap-Vereinbarung zu besichern, kann die Swap-Vereinbarung durch einen ISDA-Besicherungsanhang von 1995 (Bilaterales Muster – Übertragung) (1995 ISDA Credit Support Annex (Bilateral Form - Transfer)) ergänzt werden.
	A Repurchase Agreement may be substantially in the form of a 2000 TBMA/ISMA Global Master Repurchase Agreement, a "Convention Cadre FBF aux opérations de pensions livrées", each as amended, supplemented or otherwise modified from time to time, or any other agreement having a similar effect.	Ein Pensionsgeschäft kann im Wesentlichen in der Form eines „2000 TBMA/ISMA Global Master Repurchase Agreement“ oder einer „Convention Cadre FBF aux opérations de pensions livrées“ in der jeweils geänderten, ergänzten oder anderweitig abgeänderten Fassung oder einer sonstigen Vereinbarung mit vergleichbarer Wirkung erfolgen.
<b>6.</b>	<b>VALUATION OF COLLATERAL AND SECURED NOTES</b>	<b>BEWERTUNG DER SICHERHEITEN UND DER BESICHERTEN SCHULDVERSCHREIBUNGEN</b>
	In order to ensure that a Series of Secured Notes is collateralised in accordance with its terms, the Collateral Value (as defined below) and the aggregate market value or the aggregate nominal value of Non-Waived Notes (as defined below) of each Series of Secured Notes secured by such Collateral Pool will each be tested on the Issue Date of such Series of Secured Notes and on a periodic basis thereafter as specified in the applicable Final Terms (each such test date being a <b>Collateral Test Date</b> ). The Collateral Value and the aggregate market value or the aggregate nominal value of Non-Waived Notes will be used in order to calculate the required aggregate value of Eligible Collateral Assets which must be held in a Collateral Account to secure one or more Series of Secured Notes (the <b>Required Collateral Value</b> ).	Um zu gewährleisten, dass eine Serie Besicherter Schuldverschreibungen gemäß ihren Bedingungen besichert wird, wird entweder der Sicherheitenwert (wie nachstehend definiert) und der Gesamtbetrag des Marktwerts oder der Gesamtbetrag des Nennwerts von Nicht Verzichtgegenständlichen Schuldverschreibungen (wie nachstehend definiert) jeder mit dem betreffenden Sicherheitenpool besicherten Serie Besicherter Schuldverschreibungen jeweils am Emissionstag der betreffenden Serie Besicherter Schuldverschreibungen und danach in regelmäßigen Abständen wie in den anwendbaren Endgültigen Bedingungen angegeben getestet (jeder dieser Testtermine wird als <b>Sicherheitentest-Termin</b> bezeichnet). Der Sicherheitenwert und der Gesamtbetrag des Marktwerts oder der Gesamtbetrag des Nennwerts von Nicht Verzichtgegenständlichen Schuldverschreibungen wird zur Berechnung des erforderlichen Gesamtbetrags von Zulässigen Sicherungswerten verwendet, die zur Besicherung einer oder mehrerer Serien Besicherter Schuldverschreibungen in einem Sicherheitenkonto verwahrt werden müssen (der <b>Erforderliche Sicherheitenwert</b> ).
<b>6.1</b>	<b>Valuation of Collateral</b>	<b>Bewertung der Sicherheiten</b>
	In relation to each Series of Secured Notes, on the Issue Date of such Series of Secured Notes and on each Collateral Test Date thereafter, Société Générale or any successor thereto acting as Collateral Agent (the <b>Collateral Agent</b> ) will calculate the Collateral Value pursuant to the terms of a collateral agency agreement between, <i>inter alia</i> , the Issuer and the Collateral Agent (the <b>Collateral Agency Agreement</b> ).	Am Emissionstag der betreffenden Serie Besicherter Schuldverschreibungen und an jedem darauffolgenden Sicherheitentest-Termin berechnet die Société Générale oder ein Nachfolger als Sicherheitenverwalter (der <b>Sicherheitenverwalter</b> ) für jede Serie Besicherter Schuldverschreibungen den Sicherheitenwert nach Maßgabe der Bedingungen eines unter anderem zwischen der Emittentin und dem Sicherheitenverwalter abgeschlossenen Sicherheitenverwaltungsvertrags (der <b>Sicherheitenverwaltungsvertrag</b> ).
	Except if, under the Secured Notes Provisions of the applicable Final Terms, "Collateral Valuation at Nominal Value" is specified as applicable, the Collateral Value is deemed to be equal to the aggregate market value of the Collateral Assets constituting Eligible Collateral Assets (after taking into account any Haircut applied in relation thereto, as further described below), as of the relevant Valuation Point (as defined below) using such valuation method or methods as the Collateral Agent may, acting in good faith and in a commercially reasonable manner, determine in its discretion (the <b>Collateral Value</b> ).	Als Sicherheitenwert gilt – sofern nicht nach Maßgabe der Bestimmungen für Besicherte Schuldverschreibungen der anwendbaren Endgültigen Bedingungen „Sicherheitenbewertung zum Nennwert“ als anwendbar bezeichnet ist – ein Betrag in Höhe des Gesamtbetrags des Marktwerts der Sicherungswerte, die Zulässige Sicherungswerte sind (unter Berücksichtigung eines etwaigen diesbezüglich angewandten Preisabschlags, wie nachstehend näher beschrieben), zum maßgeblichen Bewertungszeitpunkt (wie nachstehend definiert), wobei dieser Wert anhand derjenigen Bewertungsmethode(n) zu ermitteln ist, die der Sicherheitenverwalter nach Treu und Glauben und in

	When, under the Secured Notes Provisions of the applicable Final Terms, "Collateral Valuation at Nominal Value" is specified as applicable", the Collateral Value shall be deemed to be equal to the total aggregate nominal value of the Collateral Assets constituting Eligible Collateral Assets (after taking into account any Haircut applied in relation thereto, as further described below) and "Collateral Value" shall be construed accordingly throughout this document.	Ist nach den Bestimmungen für Besicherte Schuldverschreibungen der anwendbaren Endgültigen Bedingungen „Sicherheitenbewertung zum Nennwert“ als anwendbar bezeichnet, so gilt als Sicherheitenwert ein Betrag in Höhe des Gesamtbetrags des Nennwerts der Sicherungswerte, die Zulässige Sicherungswerte sind (unter Berücksichtigung eines etwaigen diesbezüglich angewandten Preisabschlags, wie nachstehend näher beschrieben), und der Begriff „Sicherheitenwert“ ist in diesem Dokument entsprechend auszulegen.
	This Collateral Valuation at Nominal Value will mainly be used in conjunction with "NV Collateralisation" Type of Collateralisation, as described below.	Diese Sicherheitenbewertung zum Nennwert wird hauptsächlich im Zusammenhang mit der Besicherungsart „NW-Besicherung“, wie nachstehend beschrieben, verwendet.
	The Collateral Agent shall calculate the Collateral Value as of the relevant Valuation Point (as described below) in Euro (except if another Collateral valuation currency is specified in the applicable Final Terms) (the <b>Collateral Valuation Currency</b> ) using such valuation method or methods as the Collateral Agent may, acting in good faith and in a commercially reasonable manner, determine in its discretion. Where the currency of denomination of a Collateral Asset is other than the Collateral Valuation Currency, the Collateral Agent shall convert the value of such Collateral Asset at the relevant spot exchange rate.	Der Sicherheitenverwalter berechnet den Sicherheitenwert zum maßgeblichen Bewertungszeitpunkt (wie nachstehend beschrieben) in Euro (sofern nicht eine andere Währung der Sicherheitenbewertung in den anwendbaren Endgültigen Bedingungen angegeben ist) (die <b>Währung der Sicherheitenbewertung</b> ) anhand derjenigen Bewertungsmethode(n), die der Sicherheitenverwalter nach Treu und Glauben und in wirtschaftlich angemessener Weise nach seinem Ermessen bestimmt. Lautet ein Sicherungswert auf eine andere Währung als die Währung der Sicherheitenbewertung, so rechnet der Sicherheitenverwalter den Wert des betreffenden Sicherungswerts zum maßgeblichen Devisenkassakurs um.
	Except if Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, the relevant spot exchange rate shall be the rate displayed on the Collateral Valuation Currency Screen Page at the Collateral Valuation Currency Specified Time, each as specified in the applicable Final Terms or, if no such Collateral Valuation Currency Screen Page is specified in the applicable Final Terms or is not available or if this information is not available on this page, the relevant spot rate shall be the rate determined by the Collateral Agent, acting in good faith and in a commercially reasonable manner.	Sofern in den anwendbaren Endgültigen Bedingungen nicht „Vorher Festgelegter Wechselkurs für die Währung der Sicherheitenbewertung“ als anwendbar bezeichnet ist, ist der maßgebliche Devisenkassakurs der Kurs, der auf der Bildschirmseite für die Währung der Sicherheitenbewertung zum Festgelegten Zeitpunkt für die Währung der Sicherheitenbewertung angezeigt wird, wie jeweils in den anwendbaren Endgültigen Bedingungen angegeben, oder, falls in den anwendbaren Endgültigen Bedingungen keine solche Bildschirmseite für die Währung der Sicherheitenbewertung bezeichnet oder die Bildschirmseite für die Währung der Sicherheitenbewertung oder diese Information auf dieser Bildschirmseite nicht verfügbar ist, ist der maßgebliche Kassakurs der Kurs, der von dem Sicherheitenverwalter nach Treu und Glauben und in wirtschaftlich angemessener Weise bestimmt wird.
	If Predetermined Collateral Valuation Currency Rate of Exchange is specified as applicable in the applicable Final Terms, the relevant spot exchange rate shall be the predetermined rate specified in the applicable Final Terms.	Falls „Vorher Festgelegter Wechselkurs für die Währung der Sicherheitenbewertung“ in den anwendbaren Endgültigen Bedingungen als anwendbar bezeichnet ist, ist der maßgebliche Devisenkassakurs der vorher festgelegte Wechselkurs, der in den anwendbaren Endgültigen Bedingungen angegeben ist.
	When calculating the Collateral Value in respect of Eligible Collateral Assets, the Collateral Agent will, if so specified in the applicable Final Terms, take into account the Haircut (being a percentage amount by which the value of each type or class of Collateral Assets in a Collateral Pool is discounted) (as defined in the Additional Terms and Conditions relating to Secured Notes) specified in the	Bei der Berechnung des Sicherheitenwerts in Bezug auf Zulässige Sicherungswerte berücksichtigt der Sicherheitenverwalter, soweit dies in den anwendbaren Endgültigen Bedingungen angegeben ist, den in den anwendbaren Endgültigen Bedingungen angegebenen Preisabschlag (einen prozentualen Betrag des Abschlags, um den der Wert der einzelnen Arten oder Kategorien von

	applicable Final Terms.	Sicherungswerten in einem Sicherheitenpool reduziert wird) (wie in den Zusätzlichen Emissionsbedingungen für Besicherte Schuldverschreibungen definiert).
	In performing its calculations as described in the section " <i>Verification by Collateral Monitoring Agent</i> " below, the Collateral Monitoring Agent will use the same method of valuation of the collateral assets and, as the case may be, the relevant Haircut value(s) specified in the applicable Final Terms.	Bei der Durchführung der in nachstehender Bestimmung „Überprüfung durch die Sicherheitenkontrollstelle“ beschriebenen Bewertungen verwendet die Sicherheitenkontrollstelle dieselbe Methode zur Bewertung der Sicherungswerte bzw. den/die in den anwendbaren Endgültigen Bedingungen angegebene(n) maßgeblichen Preisabschlag/Preisabschläge.
<b>6.2</b>	<b>Valuation of Secured Notes</b>	<b>Bewertung von Besicherten Schuldverschreibungen</b>
	In addition, on each Collateral Test Date for each Series of Secured Notes (other than Series where NV Collateralisation is specified as being applicable in the applicable Final Terms), Société Générale or any successor thereto (the <b>Note Valuation Agent</b> ) will, pursuant to the terms of a note valuation agency agreement between, <i>inter alia</i> , the Issuer and the Note Valuation Agent (the <b>Note Valuation Agency Agreement</b> ), calculate one market value applicable to each Secured Note of such Series (the <b>Secured Note Market Value</b> ) and will provide such value to the Collateral Agent and the Collateral Monitoring Agent. The Secured Note Market Value shall be the market value of the relevant Secured Note determined by the Note Valuation Agent as of the Valuation Point on the basis of such valuation method as the Note Valuation Agent may, acting in good faith and in a commercially reasonable manner and in accordance with the terms of the Note Valuation Agency Agreement, determine in its discretion.	Darüber hinaus berechnet die Société Générale bzw. deren Nachfolger (die <b>Schuldverschreibungs-Bewertungsstelle</b> ) an jedem Sicherheitentest-Termin für jede Serie Besicherter Schuldverschreibungen (mit Ausnahme von Serien, bei denen in den anwendbaren Endgültigen Bedingungen NW-Besicherung als anwendbar bezeichnet ist) nach Maßgabe der Bedingungen eines unter anderem zwischen der Emittentin und der Schuldverschreibungs-Bewertungsstelle abgeschlossenen Schuldverschreibungs-Bewertungsstellenvertrags (der <b>Schuldverschreibungs-Bewertungsstellenvertrag</b> ) einen für jede einzelne Besicherte Schuldverschreibung der betreffenden Serie geltenden Marktwert (der <b>Marktwert je Besicherter Schuldverschreibung</b> ) und teilt diesen Wert dem Sicherheitenverwalter und der Sicherheitenkontrollstelle mit. Der Marktwert je Besicherter Schuldverschreibung ist der von der Schuldverschreibungs-Bewertungsstelle zum Bewertungszeitpunkt festgestellte Marktwert der maßgeblichen Besicherten Schuldverschreibung, wobei dieser anhand derjenigen Bewertungsmethode zu ermitteln ist, die die Schuldverschreibungs-Bewertungsstelle nach Treu und Glauben und in wirtschaftlich angemessener Weise sowie nach Maßgabe der Bedingungen des Schuldverschreibungs-Bewertungsstellenvertrags nach ihrem Ermessen bestimmt.
	For the avoidance of doubt, the Secured Note Market Value determined by the Note Valuation Agent can differ from the Market Value determined by the Calculation Agent in accordance with Condition 5.9 of the General Terms and Conditions of the Notes and from the price proposed, as the case may be, by Société Générale or any affiliate of Société Générale or any other entities acting as market maker on the secondary market for a Note.	Zur Klarstellung wird festgehalten, dass der von der Schuldverschreibungs-Bewertungsstelle festgestellte Marktwert je Besicherter Schuldverschreibung von dem von der Berechnungsstelle gemäß Bedingung 5.9 der Allgemeinen Emissionsbedingungen der Schuldverschreibungen festgestellten Marktwert oder von dem von der Société Générale bzw. einem verbundenen Unternehmen der Société Générale bzw. einem anderen auf dem Sekundärmarkt für eine Schuldverschreibung tätigen Market-Maker vorgeschlagenen Preis abweichen kann.
	Unless otherwise specified in the applicable Final Terms, the Valuation Point shall be the Collateral Business Day (as defined in the Additional Terms and Conditions relating to Secured Notes) immediately preceding the Issue Date or the relevant Collateral Test Date, as the case may be, or, if a valuation of the relevant Collateral Asset or Secured Note, as applicable, is not available on such date, the date of the last available valuation of such Collateral Asset or Secured Note.	Der Bewertungszeitpunkt ist, soweit in den anwendbaren Endgültigen Bedingungen nicht anders angegeben, der Sicherheitengeschäftstag (wie in den Zusätzlichen Emissionsbedingungen für Besicherte Schuldverschreibungen definiert) unmittelbar vor dem Emissionstag bzw. dem maßgeblichen Sicherheitentest-Termin oder, wenn eine Bewertung des maßgeblichen Sicherungswerts bzw. der maßgeblichen Besicherten Schuldverschreibung an dem betreffenden Tag nicht verfügbar ist, der Tag der letzten verfügbaren Bewertung des betreffenden Sicherungswerts bzw. der betreffenden Besicherten

	(i) where "MV Collateralisation" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Notes, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage, (b) the Secured Note Market Value and (c) the number of Non-Waived Notes of such Series;	(i) ist „MW-Besicherung“ in den anwendbaren Endgültigen Bedingungen für eine Serie Besicherter Schuldverschreibungen als anwendbare Besicherungsart angegeben, entspricht der Erforderliche Sicherheitenwert dem Produkt aus (a) dem Besicherungsprozentsatz, (b) dem Marktwert je Besicherter Schuldverschreibung und (c) der Anzahl Nicht Verzichtsgegenständlicher Schuldverschreibungen der betreffenden Serie;

	The Collateralisation Percentage relating to a Series of Secured Notes will be specified in the applicable Final Terms and may be a fixed percentage or a percentage determined by applying a predetermined formula. The applicable Final Terms may also specify that the Collateralisation Percentage may vary during the term of the Notes, after a certain date, following the occurrence of a trigger event or following a unanimous decision of the Noteholders.	Der Besicherungsprozentsatz für eine Serie Besicherter Schuldverschreibungen ist in den anwendbaren Endgültigen Bedingungen angegeben und kann ein fester Prozentsatz oder ein unter Anwendung einer vorgegebenen Formel bestimmter Prozentsatz sein. In den anwendbaren Endgültigen Bedingungen kann darüber hinaus angegeben sein, dass sich der Besicherungsprozentsatz während der Laufzeit der Schuldverschreibungen ab einem bestimmten Datum, nach Eintritt eines Auslösungsgrunds oder nach einem einstimmigen Beschluss der Schuldverschreibungsinhaber ändern kann.
	For the avoidance of doubt, except in the case of sub-paragraph 8(ii) above, the Collateral Agent will be required to use the Secured Note Market Value determined by the Note Valuation Agent in determining the Required Collateral Value.	Zur Klarstellung wird festgehalten, dass, außer im Fall des Unterabsatzes 8(ii) oben, der Sicherheitenverwalter bei der Bestimmung des Erforderlichen Sicherheitenwerts zur Anwendung des von der Schuldverschreibungs-Bewertungsstelle definierten Marktwerts je Besicherter Schuldverschreibung verpflichtet ist.

<b>9.</b>	<b>ADJUSTMENTS TO COLLATERAL POOL AND COLLATERAL TEST NOTICE</b>	<b>ANPASSUNGEN DES SICHERHEITENPOOLS UND DER SICHERHEITEST-MITTEILUNG</b>
	On each Collateral Test Date relating to a relevant Series of Secured Notes the Collateral Agent will determine whether (i) the Collateral Rules applicable to such Collateral Pool are satisfied and (ii) the Collateral Value is greater than or equal to 97 per cent of the Required Collateral Value for such Collateral Pool (taking into account any Haircut value(s) to be applied to the Collateral Assets and the aggregate value of any Waived Notes) (limbs (i) and (ii) above being referred to as the <b>Collateral Test</b> ). When determining whether the Collateral Test is satisfied, Collateral Assets for which instructions for the transfer to the relevant Collateral Account have been provided on or before such Collateral Test Date will be included for the purposes of such determination and Collateral Assets for which instructions for the removal from the relevant Collateral Account have been provided on or before such Collateral Test Date will be excluded for the purposes of such determination.	An jedem Sicherheitentest-Termin in Bezug auf eine maßgebliche Serie Besicherter Schuldverschreibungen stellt der Sicherheitenverwalter fest, ob (i) die auf den betreffenden Sicherheitenpool anwendbaren Sicherheitenbestimmungen erfüllt sind und (ii) der Sicherheitenwert größer oder gleich 97 % des Erforderlichen Sicherheitenwerts für diesen Sicherheitenpool ist (wobei ein bzw. mehrere auf die Sicherungswerte anzuwendende(r) Preisabschlag/Preisabschläge und der Gesamtwert etwaiger Verzichtsgegenständlicher Schuldverschreibungen unter Umständen zu berücksichtigen sind) (vorstehende Bedingungen (i) und (ii) werden als der <b>Sicherheitentest</b> bezeichnet). Bei der Feststellung, ob der Sicherheitentest erfüllt ist, werden Sicherungswerte, für die an oder vor dem betreffenden Sicherheitentest-Termin Anweisungen zur Übertragung auf das betreffende Sicherheitenkonto erteilt wurden, für die Zwecke dieser Feststellung berücksichtigt; Sicherungswerte, für die an oder vor dem betreffenden Sicherheitentest-Termin Anweisungen zur Entnahme aus dem betreffenden Sicherheitenkonto erteilt wurden, werden für die Zwecke dieser Feststellung nicht berücksichtigt.
	If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is not satisfied for a specific Collateral Pool, the Collateral Agent on behalf of the Issuer will select the type and quantity of Collateral Assets to be deposited in the Collateral Account (or will select existing Collateral Assets to be replaced with other Collateral Assets), in order that after such adjustment the Collateral Test will be satisfied.	Wenn der Sicherheitenverwalter an einem Sicherheitentest-Termin feststellt, dass der Sicherheitentest für einen bestimmten Sicherheitenpool nicht erfüllt ist, wählt der Sicherheitenverwalter im Namen der Emittentin die Art und Menge der in dem Sicherheitenkonto zu hinterlegenden Sicherungswerte aus (oder wählt bestehende Sicherungswerte aus, die durch andere Sicherungswerte zu ersetzen sind), damit der Sicherheitentest nach dieser Anpassung erfüllt ist.
	If on a Collateral Test Date the Collateral Agent determines that the Collateral Test is satisfied for a specific Collateral Pool and, if on such date, the Collateral Value is greater than the Required Collateral Value, the Collateral Agent on behalf of the Issuer shall be entitled to select Collateral Assets to be removed from the Collateral Account (or shall be entitled to select existing Collateral Assets to be replaced with other Collateral Assets), provided that after such adjustment the Collateral Test continues to be satisfied.	Wenn der Sicherheitenverwalter an einem Sicherheitentest-Termin feststellt, dass der Sicherheitentest für einen bestimmten Sicherheitenpool erfüllt ist, und wenn an diesem Tag der Sicherheitenwert den Erforderlichen Sicherheitenwert übersteigt, ist der Sicherheitenverwalter berechtigt, im Namen der Emittentin die aus dem Sicherheitenkonto zu entfernenden Sicherungswerte auszuwählen (oder bestehende Sicherungswerte auszuwählen, die durch andere Sicherungswerte zu ersetzen sind), mit der Maßgabe, dass der Sicherheitentest nach dieser Anpassung weiterhin erfüllt ist.

	On each Collateral Business Day, if the Collateral Agent on behalf of the Issuer intends to make adjustments to the Collateral Assets held in a Collateral Pool (including, but not limited to, adjustments in order to ensure that the Collateral Test will be satisfied), the Collateral Agent will send or cause to be sent a notice (a <b>Collateral Test Notice</b> ) to the Collateral Monitoring Agent and the Collateral Custodian (copied to the Issuer and the Guarantor, as the case may be) specifying the adjustments to be made to the Collateral Pool (including <i>inter alia</i> the type and quantity of any Collateral Assets to be deposited and/or removed).	Wenn der Sicherheitenverwalter die Vornahme von Anpassungen (insbesondere von für die Erfüllung des Sicherheitentests erforderlichen Anpassungen) der in einem Sicherheitenpool verwahrten Sicherungswerte im Namen der Emittentin beabsichtigt, wird der Sicherheitenverwalter an jedem Sicherheitengeschäftstag der Sicherheitenkontrollstelle und dem Sicherheitenverwahrer (in Kopie an die Emittentin bzw. die Garantin) eine Mitteilung (eine <b>Sicherheitentest-Mitteilung</b> ) übersenden oder dies veranlassen, in der die an dem Sicherheitenpool vorzunehmenden Anpassungen (u. a. einschließlich der Art und Menge der zu hinterlegenden und/oder zu entnehmenden Sicherungswerte) anzugeben sind.

### FORM OF DEED OF GUARANTEE

**THIS DEED OF GUARANTEE** is made on [\*\*\*] September 2015 by Société Générale (the **Guarantor**) in favour of the Noteholders (as defined in the Programme Agreement (as defined below)) and the holders for the time being of interest coupons (if any) appertaining to the Notes (the **Coupons**, which expression shall include the receipts for the repayment of principal in instalments (if any) appertaining to the Notes), the Coupons being attached on issue to Definitive Bearer Note(s) (as defined below). Each Noteholder and each holder of a Coupon is a **Holder**.

#### WHEREAS:

1. SG Issuer and Société Générale Effekten GmbH (the **Issuers** and each an **Issuer**) and the Guarantor have entered into a Programme Agreement dated [\*\*\*] September 2015 (the **Programme Agreement**, which expression includes the same as it may be amended, supplemented or restated from time to time) with the Dealers named therein under which each Issuer proposes from time to time to issue Debt Instruments (the **Notes**, such expression to include each Definitive Bearer SIS Note and each Global Note issued by an Issuer ("Definitive Bearer SIS Note" and "Global Note" have the meanings ascribed thereto in the Terms and Conditions of the German Law Notes (as set out in the base prospectus dated [\*\*\*] September 2015 (the **Base Prospectus**))), and to include any receipts issued in respect of Notes repayable in instalments); and
2. the Issuers and the Guarantor have entered into an Agency Agreement dated [\*\*\*] September 2015 in relation to the English Law Notes (the **Agency Agreement**, which expressions include the same as they may be amended, supplemented or restated from time to time) with the Fiscal Agent, the Registrar and other parties named therein.

#### NOW THIS DEED WITNESSES as follows:

##### 3. Guarantee

Subject as provided herein, the Guarantor irrevocably and unconditionally guarantees by way of deed poll to each Holder that, if for any reason, the relevant Issuer does not pay any sum payable by it to such Holder in respect of any Note or Coupon or (if applicable) under the Deed of Covenant (including any premium or any other amounts of whatever nature or additional amounts which may become payable under any of the foregoing), as and when the same shall become due under any of the foregoing, the Guarantor will pay to such Holder on demand the amount payable by the relevant Issuer to such Holder as if such payment was made by the Issuer in accordance with the terms and conditions of the Notes.

All references in this Guarantee to sums or amounts payable by the Issuer shall (if applicable) be to such sums and/or amounts as reduced or otherwise modified from time to time resulting from the application of a bail-in by any relevant authority and, for the avoidance of doubt, the provisions of clauses 2 and 5 shall be construed accordingly.

##### 4. Guarantor as Principal Debtor

This Guarantee is one of payment and not of collection. Without affecting the relevant Issuer's obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal debtor and not merely a surety. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal debtor (including (a) any time, indulgence, waiver or consent at any time given to the relevant Issuer or any other person, (b) any amendment to any Note, any Coupon or (if applicable) the Deed of Covenant or to any security or other guarantee or indemnity, (c) the making or absence of any demand on the relevant Issuer or any other person for payment, (d) the enforcement or absence of enforcement of any Note, any Coupon, (if applicable) the Deed of Covenant or of any security or other guarantee or indemnity, (e) any contractual defences such as set-off, recoupment and counterclaim not available to the Issuer, (f) the release of any such security, guarantee or indemnity, (g) the dissolution, amalgamation, reconstruction or reorganisation of the relevant Issuer or any other person, or (h) the illegality, invalidity or unenforceability of or any defect in any provision of any Note, any Coupon or (if applicable) the Deed of Covenant or any of the relevant Issuer's obligations under any of them).

##### 5. Guarantor's Obligations Continuing

The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains payable under any Note, any Coupon or (if applicable) the Deed of Covenant. Any amendments to this Deed of Guarantee prejudicial to the interest of the Noteholders shall only apply to Notes issued after the date of such amendments. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Holder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

##### 6. Repayment to the Issuer

If any payment received by a Holder is, on the subsequent liquidation or insolvency of the relevant Issuer, avoided under any laws relating to liquidation or insolvency, such payment will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment had at all times remained owing by the relevant Issuer.

##### 7. Indemnity

As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any sum expressed to be payable by the relevant Issuer under any Note, any Coupon or (if applicable) the Deed of Covenant but which is for any reason (whether or not now known or becoming known to the relevant Issuer, the Guarantor or any Holder) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be

recoverable from it as if it were the sole principal debtor and will be paid by it to the Holder on demand. This indemnity constitutes a separate and independent obligation from the other obligations in this Guarantee, gives rise to a separate and independent cause of action and will apply irrespective of any indulgence granted by any Holder.

**8. Status of Guarantee**

In respect of any Notes, the obligation of the Guarantor under this Guarantee constitutes a direct, unconditional, unsecured and general obligation of the Guarantor and ranks and will rank *pari passu* with all other existing and future direct, unconditional, unsecured and general obligations of the Guarantor, including those in respect of deposits.

**9. Incorporation of Conditions**

So long as any of the Notes remain outstanding (as defined in the Agency Agreement) the Guarantor will comply with the provisions applicable to it in the Conditions of the Notes as though the same were set out in full herein.

**10. Power to execute**

The Guarantor hereby warrants, represents and covenants with each Holder that it has all corporate power, and has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Guarantee, and that this Guarantee constitutes a legal, valid and binding obligation of the Guarantor in accordance with its terms, subject to any obligations mandatorily preferred by law.

**11. Deposit of Guarantee**

This Guarantee shall take effect as a deed poll for the benefit of the Holders from time to time and for the time being. This Guarantee shall be deposited with and held by Société Générale Bank & Trust, for the benefit of the Holders until all the obligations of the Guarantor have been discharged in full.

**12. Production of Guarantee**

The Guarantor hereby acknowledges the right of every Holder to the production of, and the right of every Holder to obtain (upon payment of a reasonable charge) a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Holder, and that each Holder shall be entitled severally to enforce the said obligations against the Guarantor.

**13. Subrogation**

Until all amounts which may be payable under the Notes, the Coupons and/or (if applicable) the Deed of Covenant have been irrevocably paid in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Holder or claim in competition with the Holders against the relevant Issuer.

**14. Transfer/assignment**

Upon any Substitution pursuant to the terms and conditions of the Notes, this Guarantee shall remain in full force and effect and thereafter be construed as if each reference herein to the Issuer were a reference to the Substituted Debtor.

**15. Contracts (Rights of Third Parties) Act 1999**

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Guarantee, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

**16. Governing Law and Jurisdiction**

This Guarantee and any non-contractual obligations arising out of or in connection with it are governed by and shall be construed in accordance with English law. The Guarantor irrevocably agrees for the benefit of each Holder that the courts of England are to have jurisdiction to settle any dispute which may arise out of or in connection with this Guarantee (including any dispute relating to any non-contractual obligations arising out of or in connection with this Guarantee) and that accordingly any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with this Guarantee (including any Proceedings relating to any non-contractual obligations arising out of or in connection with this Guarantee) may be brought in the courts of England.

The Guarantor irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any Proceedings in the courts of England and irrevocably agrees that a final judgment in any Proceedings brought in the courts of England shall be conclusive and binding upon the Guarantor and may be enforced in the courts of any other jurisdiction. Nothing contained in this Clause shall limit any right to take Proceedings against the Guarantor in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.

The Guarantor hereby appoints Société Générale, London Branch (SGLB), currently of SG House, 41, Tower Hill, London EC3N 4SG, as its agent for service of process in England in respect of any Proceedings and undertakes that in the event of SGLB ceasing so to act, it will appoint another person as its agent for that purpose.

**DESCRIPTION OF THE TRUST AGREEMENT AND THE LIMITATION OF RECOURSE IN RELATION TO NOTES  
ISSUED BY SOCIÉTÉ GÉNÉRALE EFFEKTEN GMBH**

**1.1 Trust Agreement**

On 28th February, 2006 the Issuer and the Guarantor have entered into the following trust agreement:

**"TRUST AGREEMENT**

**BETWEEN THE UNDERSIGNED**

SOCIETE GENERALE, a French *société anonyme* which is located at 17, cours Valmy, 92972 LA DEFENSE CEDEX, FRANCE, represented by Mr Christophe MIANNE, representing the Equity Derivatives business line in the Capital Markets department and hereinafter referred to as "SG"

**AND**

SOCIETE GENERALE Effekten GmbH Frankfurt, a subsidiary of SOCIETE GENERALE, which is located at Mainzer Landstr. 36, 60325 Frankfurt / Main, Germany, represented by Mr Guenter HAPP, its managing director (*Geschäftsführer*), and hereinafter referred to as "SGE".

**WHEREAS:**

SGE is willing to issue or redeem debt instruments (such as, but not limited to, indexed notes, over the counter transactions) linked to shares, baskets of shares, indices, baskets of indices, funds and commodities or futures contracts on the same (the "Securities") on a fiduciary (*treuhänderisch*) basis for the benefit and the account of SG. Now, therefore, SG and SGE (together the Parties) hereby conclude the following Trust Agreement (the "Agreement"):

**Article 1 – Scope of the Agreement**

SG shall have the unilateral right to determine by way of issuing a separate confirmation (the "Confirmation") that the terms of this Agreement shall apply for the issuance of certain Securities. The Securities in relation to which the Confirmation has been issued shall be referred to hereinafter as the "Notes".

**Article 2 - Duties of SGE**

Under this Agreement, SGE commits to:

- issue and to redeem Notes on a fiduciary (*treuhänderisch*) basis in SGE's own name (*im eigenen Namen*) but for the account (*für Rechnung*) of SG;
- collect any proceeds resulting from the issuance of the Notes (*Emissionserlöse*) and to deliver such proceeds forthwith to a bank account to be specified by SG;
- use the funds made available by SG pursuant to Article 3 a) for payments owed under the Notes as and when they fall due and to make such payments on a fiduciary (*treuhänderisch*) basis in SGE's own name (*im eigenen Namen*) but for the account (*für Rechnung*) of SG;

follow any instructions given by SG in relation to all rights of SGE under the Notes, including but not limited to the right of SGE to be substituted as issuer and principal debtor under the Notes.

For the avoidance of doubt, SGE is not allowed to use, manage or invest funds made available to it by SG in any other way than for the purposes as defined in c) above.

**Article 3 - Duties of SG**

Under this Agreement, SG commits to:

- (a) advance to SGE an amount equal the amount of any payment owed by SGE under the Notes as and when such payment obligation falls due and in a manner that allows SGE to fulfil its payment obligation in a timely manner.
- (b) For the avoidance of doubt, the payment obligations of SGE under the Notes that are relevant for the determination of the advances to be made by SG shall not be limited by the "Limited Recourse" provision as set out in the terms and conditions of such Notes.
- (c) pay to SGE fees as set out in Article 4.

**Article 4 - Payment of Fees**

SGE will be remunerated by a fee, based on the costs incurred by the issuance of Notes as described in the separate "Agreement relating to issuance activity in SG Effekten" dated 1st of July 2005 in its latest version.

**Article 5 - Term**

This Agreement shall come into force with effect from 1st July 2005. It is concluded for an initial term of one year, and thereafter shall be deemed renewed from year to year unless one of the Parties provides notice of termination in writing no later than 15 days prior to the date at which the Agreement is due to be renewed. Shall the Agreement be terminated, the Parties agree to be bound by its terms until all obligations under the Notes have been fully satisfied.

**Article 6 - Modifications - Prior Agreements**

Any modification of this Agreement shall be set forth in a written amendment signed by all the Parties.

**Article 7 - Applicable law - Jurisdiction**

This Agreement shall be governed by the laws of Germany.

All disputes relating to its validity, interpretation or performance shall be submitted to the law courts in Frankfurt with jurisdiction, provided however, that SG and SG alone, in whose favour such attribution of jurisdiction has been granted, shall have the option of bringing such proceedings before any other court with jurisdiction."

**1.2. Limitation of Recourse**

Pursuant to Condition 16 of the Terms and Conditions of the German law Notes, any payment obligations of the Issuer under the Notes are limited to the funds received from the Guarantor under the Trust Agreement. To the extent such funds prove ultimately insufficient to satisfy the claims of all Noteholders in full, then any shortfall arising therefrom will be extinguished and no Noteholder has any further claims against the Issuer, regardless of whether the Issuer would be able to fulfil its payment obligations under the Notes out of its own funds, subject, however, to the right of the Noteholders to exercise any termination or early redemption rights.

**1.3. Impact of the Trust Agreement and the Limitation of Recourse on the Position of the Issuer vis-à-vis the Noteholders**

As a result of the Trust Agreement, the Issuer's ability to satisfy its payment obligations under the Notes in full is dependent upon it receiving in full the amounts payable to it by the Guarantor under the Trust Agreement. Moreover, since the Terms and Conditions of the Notes provide for a limitation of recourse, this applies irrespective of whether the Issuer would be able to make such payments out of other funds available to it.

Thus, from an economic perspective, the Notes are issued by the Guarantor and not the Issuer, whose role is comparable to that of a special purpose vehicle used for the issue of Notes and the Noteholders directly depend on the credit risk of the Guarantor (see in section Risk Factors under "Factors that may affect the Issuers' and the Guarantor's ability to fulfil their respective obligations under the Notes and under the Guarantee and the Trust Agreement.") rather than that of the Issuer."

## I. SGI HARMONIA INDEX (EUR - NET TOTAL RETURN)

### 1. OVERVIEW OF INDEX RULES

#### 1.1 Index Description

The SGI Harmonia (EUR – Net Total Return) Index (the "**Index**") aims to provide the performance of a dynamic multi-asset basket of indices and funds with a volatility control mechanism.

The Index is calculated and published by S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) (the "**Index Calculation Agent**") and is sponsored by Société Générale (the "**Index Sponsor**"). Lyxor AM (the "**Index Advisor**") advises the scientific committee of the Index, composed of Index Sponsor and Index Advisor representatives, as to certain parameters of the Index, such as the composition of the underlying basket.

#### Main Characteristics

<b>Bloomberg ticker:</b>	SGIXHETR <Index>
<b>Type of Return:</b>	Net Total Return
<b>Calculation Frequency:</b>	Daily
<b>Publication Time:</b>	End of Day
<b>Index Launch Date:</b>	June 6, 2011
<b>Currency:</b>	EUR
<b>Fees and Costs:</b>	As specified under the "Index Fees and Costs" section below
<b>Index Asset Class:</b>	Multi-Asset
<b>Index Components:</b>	Equity Instrument, Debt Instrument, Commodity Instrument and Market Data

#### 1.2 Mechanism

##### 1.2.1 Index Composition

The Index is composed of a dynamic basket of indices and funds (each, a "**Basket Component**", together the "**Underlying Basket**") where the weightings are determined on a monthly basis by the Index Advisor in accordance with a methodology described under 8.2.2 below.

In order to keep the risks associated with the Index under a certain limit, the Index also includes a volatility control mechanism, where the exposure of the Index to such Underlying Basket varies on a daily basis in accordance with input parameters described under 8.2.3 below.

##### 1.2.2 Composition and Monthly Review of the Underlying Basket

The composition and allocation of the Underlying Basket is reviewed on a monthly basis according to a proprietary model based on a momentum filter and the Equal-Risk Contribution methodology developed by the Index Advisor. The resulting weightings are applied to the Basket Components so as to determine the composition of the Underlying Basket. The non-Euro-denominated Basket Components are hedged against currency risk on a daily basis. The allocation of the Underlying Basket as of 11 September 2015 is displayed in Appendix 1.

##### 1.2.3 Daily "Vol Target" Mechanism

The Index is constructed pursuant to a daily Vol Target process where the deemed exposure of the Index to the Underlying Basket (the "**Exposure**") is based on a formula using the following input parameters:

- (i) the short term historical volatility of the Underlying Basket;
- (ii) a target volatility of 6%; and
- (iii) the historical volatility of the Index itself;

so that, in most cases:

- when the volatility of the Underlying Basket exceeds 6%, the Exposure will generally be less than 100% (subject to a minimum Exposure of 0%) and the Index will be exposed to money market instruments referencing the Euribor Rate for the difference between 100% and the Exposure.
- when the volatility of the Underlying Basket falls below 6%, the Exposure will generally be greater than 100% (subject to a maximum Exposure of 150%), such leveraged Exposure being obtained at a rate based on the Euribor Rate.

#### 1.3 Index Fees and Costs

The Index is calculated net of the following fees and costs:

<b>Index Advisory Fees:</b>	0.20% per annum accrued daily calculated on the Index Level
<b>Replication Costs:</b>	As per Appendix 1 under RC(i,t)
<b>Transaction Costs:</b>	As per Appendix 1 under TC(i,t)

Such fees and costs may be modified by the Index Sponsor from time to time based on prevailing market conditions.

#### 1.4 Information available on the SGI website

The Index Level (as well as performance and volatility of the Index derived thereof), further Index data and important disclaimers relating to the Index are available on the SGI website at the following address: <https://www.sgindex.com/index.php?id=122&bbg=SGIXHETR>.

The Index Level is in respect of Calculation Date (t), calculated by the Index Calculation Agent at the Valuation Time, subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

$$IL(t) = IL(t-1) \times [1 + E(t-1) \times (UBL(t) / UBL(t-1) - 1) + (1 - E(t-1)) \times ER(t-1) \times ACT(t-1, t) / 360] \times (1 - IAF \times ACT(t-1, t) / 360) - TC(t-1)$$

Where

$IL(t_0) = 1000$  (where "t<sub>0</sub>" means the Index Launch Date).

## 2.7 Determination of the Underlying Basket Level "UBL(t)"

For any  $t \neq t_0$ :

$$UBL(t) = \left[ 1 + \sum_{i=1}^{11} W(i, t_R) \times \left( \frac{BCLNTRE(i, t)}{BCLNTRE(i, t_R)} - 1 \right) \right] \times UBL(t_R)$$

Where,

 $BCLNTRE(i, t) = BCLNTR(i, t)$
- (ii) if the Basket Component Currency is different from the Index Currency:  
 $BCLNTRE(i, t) = BCLNTRE(i, t-1) \times [1 + (BCLNTR(i, t) / BCLNTR(i, t-1) - 1 - BCRATE(i, t-1) \times ACT(t-1, t) / 360) \times FX(i, t) / FX(i, t-1) + UBRATE(t-1) \times ACT(t-1, t) / 360]$

## 2.9 Determination of the Basket Component Level Net TR, "BCLNTR(i,t)"

For any Calculation Date (t) and any Basket Component (i), the Basket Component Level Net TR is determined as follows:

- (i) if the Basket Component Return Type is TR:
  - a) if the Basket Component Type is a Fund  
 $BCLNTR(i, t) = BCLNTR(i, t-1) \times (FNAV(i, t) / FNAV(i, t-1) - RC(i, t) \times ACT(t-1, t) / 360)$
  - b) if the Basket Component is an Underlying Index or an ETF  
 $BCLNTR(i, t) = BCLNTR(i, t-1) \times ([CP(i, t) + OP(i, t) \times IND(t)] / [1 + IND(t)] \times [CP(i, t-1) + OP(i, t-1) \times IND(t-1)] \times [1 + IND(t-1)] - RC(i, t) \times ACT(t-1, t) / 360)$

Where

IND(t) = 1 if the Basket Component has a Ticker Open listed in the table of the Appendix 1 effective as of Calculation Date (t)

IND(t) = 0 otherwise

(ii) if the Basket Component Return Type is PR:

The Index Calculation Agent calculates daily total return series using net cash dividends reinvested (including special cash dividends or any other cash distributions). Net reinvested return reflects the return to an investor where dividends are reinvested after the deduction of a withholding tax. The tax rate applied is the rate to non-resident institutions that do not benefit from double taxation treaties. The net reinvested return series approximate the returns available to an investor based in Luxembourg and reflect the minimum possible dividend reinvestment as the highest tax rates are theoretically applied to Luxembourg-based investors. The rates applied are the current effective rates and are sourced from Ernst & Young's Worldwide Corporate Tax Guide and the Economic Intelligence Unit. These rates are maintained and updated to reflect any ongoing changes.

a) if the Basket Component Type is a Fund

$$BCLNTR(i,t) = BCLNTR(i,t-1) \times [ ( FNAV(i,t) + Div(i,t)) / FNAV(i,t-1) - RC(i,t) \times ACT(t-1,t) / 360 ]$$

b) if the Basket Component is an Underlying Index or an ETF

$$BCLNTR(i,t) = BCLNTR(i,t-1) \times [ ( CP(i,t) + Div(i,t)) / CP(i,t-1) - RC(i,t) \times ACT(t-1,t) / 360 ]$$

Where,

"Div(i,t)" means the aggregate net cash dividend after the deduction of withholding tax if any, (including special cash dividend or any other cash distribution) attached to the Basket Component (i) or its components and for which Calculation Date (t) is the ex-dividend date; such dividend is reinvested on the basis of the Basket Component Level on Calculation Date (t-1).

## 3. REVIEW OF THE BASKET COMPONENTS TARGET WEIGHTS

### 3.1 Weights Optimization

#### 3.1.1 General Principle

The optimization process (ERC approach) employed draws on the principles of the Modern Portfolio Theory set out by Markowitz, Lintner and Sharpe in 1950s and 1960s. However, even though it can be analyzed in the mean-variance framework, the ERC approach is more derived from the techniques of risk-budgeting. The

objective the ERC portfolio (**ERC Portfolio**) is to find a risk-balanced allocation such that the risk contribution of each asset in the portfolio is equal. As a consequence, unlike the traditional mean-variance portfolio, the ERC Portfolio does not require an assumption about the expected returns of each asset and thus the only inputs needed to build an ERC Portfolio is the covariance matrix (the **Covariance Matrix**) of the ERC Portfolio's components.

### 3.1.2 Determination of the Marginal Risk Contributions

The Marginal Risk Contribution (**MRC**) corresponds to the change in the volatility of the Index induced by a small increase in the weight of each Basket Component. It is calculated by the following formula:

$$\partial_{x_i} \sigma(I) = \frac{\partial \sigma(I)}{\partial x_i}$$

Where,

$\partial_{x_i} \sigma(I)$  means the MRC of Basket Component i to the volatility of the Index

$\sigma(I)$  means the volatility of the Index

$x_i$  means the weight considered for Basket Component i

### 3.1.3 Determination of the Covariance Matrix

The Covariance Matrix is computed by the Index Advisor on the Review Date using 3-day returns for each Basket Component over the last 262 trading days according to the following formula:

$$\Sigma(i, j) = \frac{1}{n} \sum_{k=1}^n (r_{i,k} - \bar{r}_i)(r_{j,k} - \bar{r}_j)$$

Where:

n means the number of 3-day returns considered for the calculation of the Covariance Matrix

$r_{i,k}$  means the kth 3-day return of Basket Component i

$\bar{r}_i$  means the average of the n 3-day returns of Basket Component i considered for the calculation of the Covariance Matrix

For the purpose of the aforementioned, the calculation of the returns "over the last 262 trading days" shall be interpreted as the returns calculated using daily adjusted prices from the first Scheduled Calculation Date following the day that is 262 Scheduled Calculation Dates before the Review Date (included) up to the Review Date.

### 3.1.4 Determination of the ERC Portfolio weights

The ERC Portfolio weights are determined by the Index Advisor on the Review Date under the following constraints:

- the MRC of each portfolio constituent must be equal
- the weighting of each portfolio constituent shall be strictly positive
- the sum of the weightings of the portfolio constituents must be equal to 1

The solution of this problem is endogenous as the weights that satisfy the equal MRC objective require the calculation of the portfolio risk which is itself a function of the weights of each portfolio component. The solution can then be found using a sequential quadratic programming algorithm that seeks to minimize the following utility function:

$$f(x) = \sum_{i=1}^n \sum_{j=1}^n (x_i (\Sigma x)_i - x_j (\Sigma x)_j)^2$$

## 3.2 Underlying Basket Composition

The weights resulting from optimization process described in 3.1 above define the ERC Portfolio.

The final allocation used on the relevant Review Date to constitute the Underlying Basket will be determined according to a further optimization on weights based on a trend following analysis, whereby the past best (resp. worst) performing constituents tend to be overweighted (resp. underweighted) under the following constraints :

- the weighting of each Basket Component must be strictly positive
- the sum of the weightings of the Basket Components must be equal to 1
- the weighting of each Basket Component must not exceed the Maximum Target Weight (as defined in Appendix 1) applicable to it as per its Basket Component Asset Class
- the tracking error of the resulting allocation vs the ERC Portfolio shall remain close to or below 3%

The composition of the Underlying Basket shall be implemented on the close of the subsequent Rebalancing Dates, effective on the immediately following Scheduled Calculation Dates.

#### **4. INDEX DISRUPTION EVENTS**

##### **4.1 Index Disruption Remedies**

If an Index Disruption Event occurs on a Scheduled Calculation Date (a **Disrupted Day**), then the Index Calculation Agent, after instruction from the Index Sponsor, shall not calculate the Index Level on such Disrupted Day. The next Calculation Date shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day for any Index Component as determined by the Index Calculation Agent, after instruction from the Index Sponsor, unless each of the five Scheduled Calculation Dates immediately following the initial Disrupted Day is also a Disrupted Day for any Index Component, in which case:

- (i) the fifth Scheduled Calculation Date following the initial Disrupted Day, and each Scheduled Calculation Date that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a **Disrupted Calculation Date**), notwithstanding the existence of an Index Disruption Event on such date and only for the purpose of determining an estimate of the Index Level; and
- (ii) on that fifth Scheduled Calculation Date and on each Disrupted Calculation Date thereafter, the Index Calculation Agent shall calculate the Index Level based on the following levels or prices:
  - (a) if the Index Disruption Event is a Basket Component Disruption Event in relation to one or some of the Basket Component(s) only (such Basket Component(s) the **Affected Basket Component(s)**):
    - (x) the level or price of the Affected Basket Component(s) using (α) the level or price of such Affected Basket Component(s) last in effect prior to the occurrence of the relevant Basket Component Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case as determined in good faith, after instruction from the Index Sponsor; and
    - (y) the level of each of the Market Data as described in the definition of such Market Data on the relevant date(s) of determination as if no Index Disruption Event existed;
  - (b) if the Index Disruption Event is a Market Data Disruption Event in relation to one or some of the Market Data only (such Market Data the **Affected Market Data**):
    - (x) the level or price of each Basket Component as described in the definition of such Basket Component(s), on the relevant date(s) of determination as if no Index Disruption Event existed; and
    - (y) the level of the Affected Market Data determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination; or
  - (c) If the Index Disruption Event is a Basket Component Disruption Event in relation to one or some of the Basket Component(s) (the **Affected Basket Component(s)**) and a Market Data Disruption Event in relation to one or some of the Market Data (such Market Data the **Affected Market Data**):
    - (x) the level or price of the Affected Basket Component(s) using (α) the level or price of such Affected Basket Component last in effect prior to the occurrence of the relevant Basket Component Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case determined in good faith, after instruction from the Index Sponsor; and
    - (y) the level of the Affected Market Data determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination.

Notwithstanding the foregoing Section 11.1, on any day from the first Disrupted Calculation Date but no later than the twentieth Scheduled Calculation Date following the initial Disrupted Day, if an Index Disruption Event has been continuing on each such days, the Index Sponsor shall convene the Index Scientific Committee, which will decide to (each an **Index Disruption Remedy**):

- (i) adjust any relevant terms of the Index Rules in a manner that preserves the economic characteristics of the Index; or
- (ii) continue the determination of the Index Level pursuant to section 11.1(ii) for another maximum period of twenty Scheduled Calculation Dates (a **Disruption Period Extension**), provided that after such period, the Index Scientific Committee shall decide again between the Index Disruption Remedies, including a renewal of the Disruption Period Extension, subject to a maximum of three such extensions, including the first one; or
- (iii) permanently cancel the Index if neither of the Index Disruption Remedies (i) and (ii) above constitute suitable remedies for such Index Disruption Event, as determined by the Index Scientific Committee.

For the purposes of this section 11.1:

**Index Disruption Event** means (i) in respect of any Index Component that is a Basket Component, the occurrence or existence of a Basket Component Disruption Event or, (ii) in respect of an Index Component that is Market Data, a Market Data Disruption Event, which in any case the Index Calculation Agent, after instruction from the Index Sponsor, determines is material.

### **8. ADDITIONAL PROVISION**

---

In circumstances where the Index Sponsor makes a decision or where a resolution is adopted by the Index Scientific Committee as the case may be (together the **Decisions**), with respect to the methodology of calculation and/or the allocation of the Index, and the Index Calculation Agent determines that it can no longer calculate the Index to obtain the Index Level according to the Index Rules as amended by such Decisions, the Index Calculation Agent shall notify the Index Sponsor of such impossibility together with the grounds thereof. Upon receipt of such notification, the Index Sponsor shall modify its decision or, as the case may be, convene a new meeting of the Index Scientific Committee in order to adopt a new resolution, in a manner which would allow the calculation of the Index by the Index Calculation Agent provided that it preserves the economic construction of the Index (the **New Decisions**). ## II. Harmonia Index (EUR – Excess Return)

### 1. INDEX SUMMARY DESCRIPTION:

#### 1.1 Index Description:

The SGI Harmonia Index – EUR Excess Return (the "**Index**") is designed to provide the excess return of the SGI Harmonia Index – EUR Net Total Return (the "**Sub-Index**") over the Euribor 3-Month Rate (the "**EURIBOR Rate**").

The Index is calculated and published by S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) (the "**Index Calculation Agent**") and is sponsored by Société Générale (the "**Index Sponsor**").

<b>Fees and Costs:</b>	As specified under the "Description of Sub-Index" section below
<b>Index Asset Class:</b>	Multi-Asset
<b>Index Components:</b>	Equity Instrument, Debt Instrument, Commodity Instrument and Market Data

#### 1.2 Sub-Index description

The Sub-Index is designed to track the performance of a dynamic exposure to a Euro-hedged multi asset allocation (the "**Underlying Basket**") of indices and funds (each a "**Sub-Index Component**"), where weights are determined in order to make the risk contribution of each component of the Underlying Basket equal.

The allocation of the Underlying Basket is reviewed on a monthly basis according to a systematic allocation model as provided by Lyxor Asset Management (the "**Sub-Index Advisor**"). The Sub-Index is constructed pursuant to a variable exposure to the Underlying Basket used to optimize, under certain circumstances, the exposure to the Underlying Basket while keeping the risk level of the Sub-Index close to a pre-defined target level. The exposure to the Underlying Basket, through the use of the hypothetical borrowing, can reach a maximum of 150% of the level of the Sub-Index.

Certain parameters of the Sub-Index, like *inter alia* the composition of the Underlying Basket, may be reviewed periodically by a scientific committee (the "**Sub-Index Scientific Committee**").

The Sub-Index Scientific Committee will comprise three (3) members: two (2) of whom shall be a representative of Société Générale (the "**Sub-Index Sponsor**") and one (1) of whom shall be a representative of the Sub-Index Advisor.

In addition, the rules of Sub-Index (the "**Sub-Index Rules**") may, by decision of the Sub-Index Scientific Committee pursuant to the Sub-Index Scientific Committee Governance (as specified in the Index Rules), be supplemented, amended or revised in whole or in part, which may lead to changes in the way the Sub-Index is compiled and calculated or affect the Sub-Index in another way.

The Sub-Index level is determined net of

- advisory and administration fees of 0.20% per annum;
- transaction costs; and
- replication costs

The initial transaction costs and replication costs are displayed in Appendix 1.

These costs may be reviewed by the Sub-Index Sponsor to reflect a change in market conditions.

#### 1.3 Sub-Index and Underlying Basket strategy

##### 1.3.1 Sub-Index strategy

The constituents of the Sub-Index are (a) the Underlying Basket, (b) a hypothetical deposit based on the 3-Month Euro Interbank Offered Rate (the "**EURIBOR Rate**") and (c) a hypothetical borrowing based on the EURIBOR Rate. The deemed percentage exposure of the Sub-Index to the Underlying Basket (the "**Exposure**") is determined based on formulas (defined in the Sub-Index Rules) using the following input parameters:

- (i) the short term historical volatility of the Underlying Basket;
- (ii) a target volatility of 6%;
- (iii) the historical volatility of the Sub-Index itself;

such that, in most cases, when the short-term historical volatility of the Underlying Basket increases, the deemed exposure to the Underlying Basket decreases, and when the short-term historical volatility of the Underlying Basket decreases, the deemed exposure to the Underlying Basket increases.

The Exposure is capped at 150% of the Sub-Index Level and can be as low as 0%.

If the short-term historical volatility is greater than the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be less than 100%. If the Exposure is less than 100%, (a) a percentage of the Sub-Index's level is deemed invested in the Underlying Basket in an amount equal to the product of (i) the Exposure and (ii) the Sub-Index Level; and (b) the remaining percentage of the Sub-Index's level is deemed invested in the hypothetical deposit based on the EURIBOR Rate.

If the short-term historical volatility is equal to the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be 100%. If the Exposure is equal to 100%, then 100% of the Sub-Index's level is deemed invested in the Underlying Basket and no portion of the Sub-Index's level is deemed invested in the hypothetical deposit based on the EURIBOR Rate.

If the short-term historical volatility is less than the Target Volatility, then the Exposure of the Sub-Index to the Underlying Basket will be greater than 100% (subject to a maximum Exposure of 150%). If the Exposure of the Sub-Index to the Underlying Basket is greater than 100%, then 100% of the Sub-Index's level is deemed invested in the Underlying Basket and no portion of the Sub-Index's level is deemed invested in the hypothetical deposit based on the EURIBOR Rate. Furthermore, (a) the Sub-Index is deemed to have invested an additional amount into the Underlying Basket equal to the product of (i) the Sub-Index Level and (ii) the difference of the Exposure and 100% (the "**Additional Exposure**") and (b) the Sub-Index is deemed to have borrowed funds equal to the product of (i) the Sub-Index Level and (ii) the Additional Exposure at a rate based on the EURIBOR Rate. The deemed additional investment in the Underlying Basket will increase the Sub-Index's exposure to the Underlying Basket, while the deemed borrowing will reduce the level of the Sub-Index.

### 1.3.2 **Underlying Basket strategy**

The Underlying Basket Index reflects the performance of an optimized allocation across the Sub-Index Components. Each month, this allocation is reviewed according to the Equal-Risk Contribution ("ERC") methodology developed by the quantitative research team of the Sub-Index Advisor. The resulting weighting scheme is applied to the Sub-Index Components to determine the composition of the Sub-Index for the following month.

The non Euro-denominated Sub-Index Components are hedged against currency risk using 1-month FX forward swaps.

The allocation of the Underlying Basket as of 11 September 2015 is displayed in Appendix 1.

## 1.4 **Index Calculation**

The Index is calculated and published by Standard & Poor's Financial Services LLC (the "**Index Calculation Agent**").

The Index is calculated daily on an end of day basis.

The Index is calculated excess return.

#### Underlying Basket

means the basket hedged in Euro of indices and funds as defined according to the ERC methodology by the Sub-Index Advisor.

### 2.3 Determination of the Index Level "IL(t)":

The Index Level is in respect of Calculation Date (t), calculated by the Index Calculation Agent at the Valuation Time, subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

$$IL(t) = IL(t-1) \times [SIL(t) / SIL(t-1) - ER(t-1) \times ACT(t-1, t) / 360]$$

## 3. REVIEW OF THE SUB-INDEX COMPONENTS

### 3.1 Weights Optimization

#### 3.1.1 General Principle

The optimization process (ERC approach) employed draws on the principles of the Modern Portfolio Theory set out by Markowitz, Lintner and Sharpe in 1950s and 1960s. However, even though it can be analyzed in the mean-variance framework, the ERC approach is more derived from the techniques of risk-budgeting. The objective the ERC portfolio ("ERC Portfolio") is to find a risk-balanced allocation such that the risk contribution of each asset in the portfolio is equal. As a consequence, unlike the traditional mean-variance portfolio, the ERC Portfolio does not require an assumption about the expected returns of each asset and thus the only inputs needed the build an ERC Portfolio is the covariance matrix (the "Covariance Matrix") of the portfolio's components.

#### 3.1.2 Determination of the Marginal Risk Contributions

The Marginal Risk Contribution ("MRC") corresponds to the change in the volatility of the Index induced by a small increase in the weight of each Sub-Index Component. It is given by the following formula:

$$\partial_{x_i} \sigma(I) = \frac{\partial \sigma(I)}{\partial x_i}$$

With

$\partial_{x_i} \sigma(I)$  means the MRC of Sub-Index Component i to the volatility of the Index

$\sigma(I)$  means the volatility of the Index

$x_i$  means the weight considered for Sub-Index Component i

#### 3.1.3 Determination of the Covariance Matrix

The Covariance Matrix is computed by the Sub-Index Sponsor on the Review Date (as defined in the Sub-Index rules) using 3-day returns for each Sub-Index Component over the last 262 trading days according to the following formula :

$$\Sigma(i, j) = \frac{1}{n} \sum_{k=1}^n (r_{i,k} - \bar{r}_i)(r_{j,k} - \bar{r}_j)$$

With

n means the number of 3-day returns considered for the calculation of the Covariance Matrix

$r_{i,k}$  means the kth 3-day return of Sub-Index Component i

$\bar{r}_i$  means the average of the n 3-day returns of Sub-Index Component i considered for the calculation of the Covariance Matrix

For the purpose of the aforementioned, the calculation of the returns "over the last 262 trading days" shall be interpreted as the returns calculated using daily adjusted prices from the first Scheduled Valuation Day following the day that is 262 Scheduled Valuation Days before the Review Date (included) up to the Review Date.

#### 3.1.4 Determination of the ERC Portfolio weights

The ERC Portfolio weights are determined by the Index Advisor on the Review Date under the following constraints:

- the MRC of each portfolio constituent must be equal
- the weighting of each portfolio constituent shall be strictly positive

- the sum of the weightings of the portfolio constituents must be equal to 1

The solution of this problem is endogenous as the weights that satisfy the equal MRC objective require the calculation of the portfolio risk which is itself a function of the weights of each portfolio component. The solution can then be found using a sequential quadratic programming algorithm that seeks to minimize the following utility function:

$$f(x) = \sum_{i=1}^n \sum_{j=1}^n (x_i (\Sigma x)_i - x_j (\Sigma x)_j)^2$$

### 3.2 Index Composition

The weights resulting from optimization process described in 18.1 above define the ERC Portfolio.

The final allocation used on the relevant Review Date to constitute the Underlying Basket will be determined according to a further optimization on weights based on a trend following analysis, whereby the past best (resp. worst) performing constituents tend to be overweighted (resp. underweighted) under the following constraints :

- the weighting of each Sub-Index Component must be strictly positive
- the sum of the weightings of the Sub-Index Components must be equal to 1
- the weighting of each Sub-Index Component must not exceed the Maximum Target Weight (as defined in Appendix 1) applicable to it as per its Sub-Index Component Asset Class
- the tracking error of the resulting allocation vs the ERC portfolio shall remain close to or below 3%

The composition shall be implemented on the close of the subsequent Rebalancing Dates, (as defined in the Sub-Index rules), effective on the immediately following Scheduled Valuation Day.

### 4. INDEX DISRUPTION EVENT REMEDIES:

If an Index Disruption Event occurs on a Scheduled Valuation Day (a "**Disrupted Day**"), then the Index Calculation Agent, after instruction from the Index Sponsor, shall not calculate the Index Level on such Disrupted Day. The next Calculation Date shall be the first succeeding Scheduled Valuation Day that is not a Disrupted Day for any Index Component as determined by the Index Calculation Agent, after instruction from the Index Sponsor, unless each of the five Scheduled Valuation Days immediately following the initial Disrupted Day is also a Disrupted Day for any Index Component, in which case:

- (i) the fifth Scheduled Valuation Day following the initial Disrupted Day, and each Scheduled Valuation Day that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a "**Disrupted Calculation Date**"), notwithstanding the existence of an Index Disruption Event on such date and only for the purpose of determining an estimate of the Index Level; and
- (ii) on that fifth Scheduled Valuation Day and on each Disrupted Calculation Date thereafter, the Index Calculation Agent shall calculate the Index Level based on the following levels or prices:
  - (a) if the Index Disruption Event is a Sub-Index Disruption Event in relation to the Sub-Index only:
    - (x) the level or price of the Sub-Index using (α) the level or price of such Sub-Index last in effect prior to the occurrence of the relevant Sub-Index Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case as determined in good faith, after instruction from the Index Sponsor; and
    - (y) the level of each of the EURIBOR Rate as described in the definition of such EURIBOR Rate on the relevant date(s) of determination as if no Index Disruption Event existed;
  - (b) if the Index Disruption Event is a EURIBOR Disruption Event in relation to the EURIBOR Rate only:

    - (x) the level or price of the Sub-Index using (α) the level or price of such Sub-Index last in effect prior to the occurrence of the relevant Sub-Index Disruption Event and (β) relevant market indicators on the relevant date(s) of determination, in each case determined in good faith, after instruction from the Index Sponsor; and
    - (y) the level of the EURIBOR Rate determined in good faith, after instruction from the Index Sponsor, using relevant market indicators on the relevant date(s) of determination.

Notwithstanding the foregoing Section 4, on any day from the first Disrupted Calculation Date but no later than the twentieth Scheduled Valuation Day following the initial Disrupted Day, if an Index Disruption Event has been continuing on each such days, the Index Sponsor will decide to (each a "**Index Disruption Remedy**");

- a. adjust any relevant terms of the Index Rules in a manner that preserves the economic characteristics of the Index; or
- b. continue the determination of the Index Level pursuant to section 19(ii) for another maximum period of twenty Scheduled Valuation Days (a **"Disruption Period Extension"**), provided that after such period, the Index Sponsor shall decide again between the Index Disruption Remedies, including a renewal of the Disruption Period Extension, subject to a maximum of three such extensions, including the first one; or

# **3. REVIEW, REBALANCING AND CALCULATION OF THE INDEX LEVEL**

---

## **3.1 Eligible Components**

The list of eligible shares (each, an "**Eligible Component**") that may be included in the Index comprises:

- (i) Shares of Companies that derive the largest part of their revenues and/or have exploring assets in South-Africa, Northern Africa including Egypt and Morocco and Sub-Sahara excluding South Africa (each a "**Zone**");
- (ii) Shares listed on the Exchanges specified under Appendix 1; where Shares traded on the Johannesburg Exchange are only Shares issued by Companies headquartered in South-Africa.

## **3.2 Index Composition**

The Shares in the Index are then selected by the Index Sponsor among the Eligible Components pursuant to a two-step process:

### Step 1 – Components Selection

For each Zone, the Index Sponsor ranks the Eligible Components according to (1) their free-float market capitalization and (2) their average daily volume, and selects the 10 highest ranked Shares, provided that at least 10 Eligible Components exist for such Zone.

### Step 2 – Components Weighting

The Index Sponsor determines the weighting of each Share in order to maximize the diversification and liquidity of the Index, pursuant to the following process:

- (i) Inside each Zone, the Shares are initially weighted according to their relative free float market capitalization;

- (ii) The Share weightings are then adjusted in order to match the following constraints while minimizing the variation relative to the initial weightings:
- a. each Share weighting shall not exceed 10% of the Index;
  - b. each Share weighting shall not exceed 10 times the average daily volume divided by EUR 200 million (the "**Index Capacity**");
  - c. each Zone shall represent a weighting close to 33.33% of the Index.

### **3.3 Index Review and Rebalancing**

The list of Eligible Components is reviewed quarterly by the Index Sponsor and the Share selection and their weighting in the Index are reviewed accordingly in order to ensure the continuous relevance of the composition of the Index and to maintain the Index.

On each Scheduled Review Date and Scheduled Rebalancing Date, the Index Sponsor may revise the number of components, the Index Capacity and the Zone breakdown to be able to match the diversification and liquidity constraints defined by the systematic allocation process described above, provided however that no Zone may represent less than 25% and more than 50% of the Index.

### **3.4 Index Level Calculation and Adjustment**

THE INDEX SHALL BE CALCULATED AND ADJUSTED BY THE INDEX CALCULATION AGENT AS PER THE RELEVANT PROVISIONS OF THE S&P DOW JONES INDICES – INDEX MATHEMATICS METHODOLOGY DATED DECEMBER 2012, AS AMENDED FROM TIME TO TIME THEREAFTER (THE "**INDEX CALCULATION AGENT METHODOLOGY**"), AVAILABLE FROM THE INDEX CALCULATION AGENT WEBSITE AT THE FOLLOWING ADDRESS :

The withholding tax applicable to dividends is determined pursuant to the reference Index Calculation Agent reference table "Withholding Tax Rates" as amended from time to time thereafter, available from the Index Calculation Agent website at the following address: <http://us.spindices.com/resource-center/index-policies/>

## SGI Indices - Methodology

### MODIFIED MARKET CAPITALIZATION WEIGHTED INDICES

#### Definition

A modified market cap weighted index is one where index constituents have a userdefined weight in the index. This methodology is typically used for indices where some constituents are confined to a maximum weight, and the excess weight is distributed proportionately among the remaining index constituents. Between index rebalancings, corporate actions generally have no affect on index weights, as they are fixed through the processes defined below. As stock prices move, the weights will shift and the modified weights will change. Therefore, as in the case of an equal-weighted index, a modified market cap weighted index must be rebalanced from time to time to re-establish the proper weighting.

The overall approach to calculate modified market cap weighted indices is the same as in the cap-weighted indices; however, the constituents' market values are re-defined to be values that will achieve the user-defined weighting at each rebalancing. Recall two basic formulae:

Formula (17):

$$\text{Index Level} = \frac{\text{Index Market Value}}{\text{Divisor}}$$

and

Formula (18):

$$\text{Index Market Value} = \sum_i P_i * \text{Shares}_i * \text{IWF}_i * \text{FxRate}$$

To calculate a modified market cap weighted index, the market capitalization for each stock used in the calculation of the index is redefined so that each index constituent has the appropriate user-defined weight in the index at each rebalancing date.

In addition to being the product of the stock price, the stock's shares outstanding, and the stock's float factor (IWF), as written above – and the exchange rate when applicable – a new adjustment factor is also introduced in the market capitalization calculation to establish the appropriate weighting.

Formula (19):

$$\text{Adjusted Stock Market Value}_i = P_i * \text{Shares}_i * \text{IWF}_i * \text{FxRate}_i * \text{AWF}_i$$

where  $\text{AWF}_i$  is the adjustment factor of stock  $i$  assigned at each index rebalancing date,  $t$ , which adjusts the market capitalization for all index constituents to achieve the userdefined weight, while maintaining the total market value of the overall index.

The  $\text{AWF}$  for each index constituent,  $i$ , on rebalancing date,  $t$ , is calculated by:

Formula (20):

$$\text{AWF}_i = \frac{Z}{\text{Float Adjusted Market Value}_{i,t}} * W_{i,t}$$

where  $Z$  is an index specific constant set for the purpose of deriving the  $\text{AWF}$  and, therefore, each stock's share count used in the index calculation (often referred to as modified index shares).  $W_{i,t}$  is the user-defined weight of stock  $i$  on rebalancing date  $t$ .

The index divisor is defined based on the index level and market value from equation (17). The index level is not altered by index rebalancings. However, since prices and outstanding shares will have changed since the last rebalancing, the divisor will change at the rebalancing.

So:

Formula (20a):

$$(\text{Divisor})_{\text{after rebalancing}} = \frac{(\text{Index Market Value})_{\text{after rebalancing}}}{(\text{Index Value})_{\text{before rebalancing}}}$$

where,

Formula (20b):

$$\text{Index Market Value} = \sum_i P_i * \text{Shares}_i * \text{IWF}_i * \text{FxRate}_i * \text{AWF}_i$$

#### Corporate Actions and Index Adjustments

The tables below shows the necessary adjustments to the index and the divisor for managing a modified market cap weighted index. *For more information on the treatment of corporate actions, please refer to the S&P Dow Jones Indices' Corporate Actions Policies & Practices Methodology. For more information on the specific treatment within an index family, please refer to that index methodology.*

**Index Actions**

**Index Actions**

S&P Dow Jones Indices' Parent Index Action	Adjustment Made to the Modified Market Cap Weighted Index	Divisor Adjustment for the Index?

Share Issuance or Share Repurchase	None	None
Special Dividends	The price of the stock making the special dividend payment is reduced by the per share special dividend amount after the close of trading on the day before the ex-date.	A divisor adjustment is made to ensure the index level remains the same.
Merger or acquisition	If the surviving company is already an index member, it is retained in the index. If the surviving company does not meet index criteria, it is removed.	Yes, if there is a removal.

**TOTAL RETURN CALCULATIONS**

The preceding discussions were related to price indices where changes in the index level reflect changes in stock prices. In a total return index changes in the index level reflect both movements in stock prices and the reinvestment of dividend income. A total return index represents the total return earned in a portfolio that tracks the underlying price index and reinvests dividend income in the overall index, not in the specific stock paying the dividend.

The total return construction differs from the price index and builds the index from the price index and daily total dividend returns. The first step is to calculate the total dividend paid on a given day and convert this figure into points of the price index:

Formula (40):

$$TotalDaily\ Dividend = \sum_i Dividend_i * Shares_i$$

Where  $Dividend_i$  is the dividend per share paid for stock  $i$  and  $Shares_i$  are the shares. This is done for each trading day.  $Dividend_i$  is generally zero except for four times a year when it goes ex-dividend for the quarterly dividend payment. Some stocks do not pay a dividend and  $Dividend_i$  is always zero.  $TotalDailyDividend$  is measured in dollars. This is converted to index points by dividing by the divisor for the underlying price index:

Formula (41):

$$\text{IndexDividend} = \frac{\text{TotalDailyDividend}}{\text{Divisor}}$$

The next step is to apply the usual definition of a total return from a financial instrument to the price index. Equation (40) gives the definition, equation (41) applies it to the index:

$$\text{Total Return} = \left( \frac{P_t + D_t}{P_{t-1}} \right) - 1$$

and

Formula (43):

$$DTR_t = \left( \frac{\text{IndexLevel}_t + \text{IndexDividend}_t}{\text{IndexLevel}_{t-1}} - 1 \right)$$

where the TotalReturn and the daily total return for the index (*DTR*) is stated as a decimal. The *DTR* is used to update the total return index from one day to the next:

Formula (44):

$$\text{Total Return Index}_t = (\text{Total Return Index}_{t-1}) * (1 + DTR_t)$$

### 3. INDEX CALCULATION:

#### 3.1 Determination of the Excess Return Index Closing Level "ER(t)" and Excess Return Index Level "ER(t,v)":

##### 3.1.1 Determination of the Excess Return Index Closing Level "ER(t)":

The Excess Return Index Closing Level will be calculated and published by the Index Calculation Agent on every Calculation Date (t) at the Closing Valuation Time, subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

$$ER(t) = ER(t-1) \times \left( \frac{CRW(t-1, C_{Active}) \times CSL(t, C_{Active}) + CRW(t-1, C_{NextActive}) \times CSL(t, C_{NextActive})}{CRW(t-1, C_{Active}) \times CSL(t-1, C_{Active}) + CRW(t-1, C_{NextActive}) \times CSL(t-1, C_{NextActive})} \right)$$

with,

$$ER(t_0) = 10000 \text{ (as of the Index Launch Date)}$$

##### 3.1.2 Determination of the Index Level "ER(t,v)":

The Excess Return Index Level will be calculated and published by the Index Calculation Agent on every Calculation Date (t) at the Valuation Time (v), subject to the occurrence or existence of an Index Disruption Event or an Index Extraordinary Event, according to the following formula:

$$ER(t, v) = ER(t-1) \times \left( \frac{CRW(t-1, C_{Active}) \times CL(t, v, C_{Active}) + CRW(t-1, C_{NextActive}) \times CL(t, v, C_{NextActive})}{CRW(t-1, C_{Active}) \times CSL(t-1, C_{Active}) + CRW(t-1, C_{NextActive}) \times CSL(t-1, C_{NextActive})} \right)$$

#### 3.2 Determination of the Contract Roll Weights, "CRW(t,C)":

The composition of the Index, determined according to the rules set out in the Sections above, is implemented progressively from the Roll Start Date (included) to the Roll End Date (included) (the "Roll Period").

In effect, during the Roll Period, the composition of the Index is modified, i.e. the active composition of the Index, defined as the selection of Active Contracts and their related Contract Roll Weights ( $CRW_{Active}$ ) (the "Active Composition"), is replaced by the next active composition of the Index, defined as the selection of Next Active Contracts and their related Contract Roll Weights ( $CRW_{NextActive}$ ) (the "Next Active Composition").

Subject to the occurrence of an Index Disruption Event affecting a Contract comprising the Index, the Contract Roll Weight (CRW) for any date (t) between the Calculation Date immediately preceding the Roll Start Date and the Roll End Date is determined as follows:

Calculation Date (t)	Active Contract Weight, CRW(t-1, C <sub>Active</sub> )	Next Active Contract Weight, CRW(t-1, C <sub>NextActive</sub> )
$t \leq t_{RollStart}$	100%	0%
$t_{RollStart} + 1$	80%	20%
$t_{RollStart} + 2$	60%	40%
$t_{RollStart} + 3$	40%	60%
$t_{RollEnd}$	20%	80%

At the end of each Roll Period, the Next Active Contract replaces the Active Contract in place at the beginning of the Roll Period.

### **3.3 Rounding Rules:**

The rounding policy is defined as follows:

All calculations: no rounding.

Index Level publication: 4 decimal places.

## **4. INDEX DISRUPTION EVENT:**

---

### **4.1 Definition of an Index Disruption Event**

An "**Index Disruption Event**" means the occurrence of any of the following events affecting an Index Component:

- (i) the failure by the relevant Exchange or other relevant price source to determine or make public the settlement price for such Index Component;
- (ii) the material limitation imposed on trading, on the relevant Exchange, in such Index Component, provided that a limitation on trading shall be deemed to be material only if the relevant Exchange establishes limits on the range within which the price of the Contract may fluctuate and the settlement price of such Contract is at the upper or lower limit of that range, or
- (iii) the material suspension of trading, on the relevant Exchange, in such Index Component, provided that such suspension shall be deemed material only if (i) all trading in the relevant Contract is suspended for the entire Scheduled Trading Day or (ii) trading in the relevant Contract is suspended during the relevant Scheduled Trading Day on the relevant Exchange, such suspension is announced less than one hour preceding the commencement of such suspension and trading does not recommence prior to the regularly scheduled close of trading in such Index Component;
- (iv) the Index Calculation Date that is not a Scheduled Trading Day for an Index Component.

### **4.2 Consequences of an Index Disruption Event**

#### **4.2.1 Consequences of an Index Disruption Event outside of the Roll Period**

If an Index Disruption Event affects, on any Calculation Date, one or more Contracts comprising the Index, and such Calculation Date is not during a Roll Period, then the Index Calculation Agent shall determine the level of the Index on such Calculation Date as follows:

For the Contract affected by the Index Disruption Event, a settlement price will be determined, after instruction from the Index Sponsor, by retaining either (i) the settlement price of the Contract as determined or made public on that Scheduled Trading Day or (ii) the last trading price observed for such Contract prior to the occurrence of the relevant Index Disruption Event, using relevant market indicia on the relevant date(s) of determination

#### **4.2.2 Consequences of an Index Disruption Event during a Roll Period**

- (a) on the first Calculation Date on which a Market Disruption Event affects one or more Index Components then the  $CRW(t-1, C_{Active})$  and the  $CRW(t-1, C_{NextActive})$  of such Index Component at the close of such Calculation Date will be equal to the  $CRW(t-1, C_{Active})$  and the  $CRW(t-1, C_{nextactive})$  of such Calculation Date. The Daily Roll Proportion at the close of such Calculation Date will be equal to 0.
- (b) Following such occurrence, on each Calculation Date immediately following such first Calculation Date on which a Market Disruption Event still affects such Index Components, the  $CRW(t-1, C_{Active})$  and the  $CRW(t-1, C_{nextactive})$  of such Index Component with respect to such Calculation Date will be equal to the  $CRW(t-1, C_{Active})$  and the  $CRW(t-1, C_{NextActive})$  on the immediately preceding Calculation Date.
- (c) Within the Roll Period, on the first Calculation Date on which there is no Market Disruption Event affecting such Index Component, the  $CRW(t-1, C_{Active})$  and the  $CRW(t-1, C_{nextactive})$  of such Index Component with respect to such Calculation Date will be equivalent to the  $CRW(t-1, C_{Active})$  and the  $CRW(t-1, C_{nextactive})$  on the immediately preceding Calculation Date. The Daily Roll Proportion on such Calculation Date will be equal to the sum of (1) the portion of Index Components that did not roll due to the occurrence of a Market Disruption Event affecting such Index Component and (2) the portion of Index Components scheduled to roll on such day, if any.
- (d) If, at the close of the Roll End Date, a Market Disruption Event affects one or more Index Component, the entire roll (or the portion of the roll that remains) will occur on the first day on which a Market Disruption Event does not exist.

Notwithstanding the foregoing, In the event that a Market Disruption Event continues to affect one or more Index Components on the fifth Business Day following the Roll End Date, the Index Calculation Agent shall:

- (i) roll the portion of Index Components that did not roll due to the occurrence of a Market Disruption Event affecting such Index Component on the fifth Business Day . As a consequence, the entire roll (or the portion of the roll that remains) will occur on the fifth Business Day following the Roll End Date, and
- (ii) determine the Contract Settlement Level by using:
  - (1) the Contract Settlement Level determined and published on the fifth Business Day following the Roll End Date, if any, or
  - (2) the Contract Settlement Level calculated by the Calculation Agent in good faith and in a commercially reasonable manner.

#### **4.3 Cancellation**

Notwithstanding the foregoing Section 4.1, if an Index Disruption Event continues for twenty consecutive Scheduled Trading Days, then the Index Sponsor shall, after consultation with the Index Calculation Agent, either (each a "**Disruption Remedy**")

- (i) amend the Index Rules in a manner that preserves the economic characteristics of the Index,
- (ii) permanently cancel the Index, or
- (iii) decide to continue the determination of the Excess Return Index Level (or, if the real time determination of an Index Level is rendered impractical, the Excess Return Index Closing Level) as provided in section 3.1. above for another period of twenty (20) Scheduled Trading Days (a "**Disruption Period Extension**"), provided that after such period, the Index Sponsor shall decide again between the Disruption Remedies above, subject to a maximum of three Period Extension, including the first one.

#### **5. INDEX EXTRAORDINARY EVENT:**

---

##### **5.1 Replacement in a Contract**

If an Index Component is (i) not calculated and announced by the relevant Exchange but is calculated and announced by a successor Exchange acceptable to the Index Calculation Agent, after instruction from the Index Sponsor, or (ii) replaced by a successor Contract using, in the determination of the Index Calculation Agent, after instruction from the Index Sponsor, the same or a substantially similar formula for and method of calculation as used in the calculation of such Index Component, then in each case that successor Contract will replace such Index Component.

In the event that the Contract is replaced under any circumstance described in the previous paragraph, that replacement Contract will be deemed a "Successor Contract" for such Contract. Such Successor Contract will be used as a substitute for the original Contract for all purposes, including for purposes of determining a settlement price and whether an Index Disruption Event exists with respect to such Contract.

##### **5.2 Contract Cancellation**

If the relevant Exchange cancels an Index Component on or prior to any Calculation Date and no Successor Contract exists, the Index Calculation Agent shall not determine the level for the Index for such Calculation Date. If such cancellation without replacement continues for twenty Scheduled Trading Days, then the Index Sponsor shall, after consultation with the Index Calculation Agent either (each a "**Extraordinary Event Remedy**")

- (i) amend the Index Rules in a manner that preserves the economic characteristics of the Index,
- (ii) permanently cancel the Index, or
- (iii) decide to postpone such decision for another period of twenty (20) Scheduled Trading Days (an "**Extraordinary Event Period Extension**"), provided that after such period, the Index Sponsor shall decide again between the Extraordinary Event Remedies above, subject to a maximum of three Extraordinary Event Period Extension, including the first one.

##### **5.3 Settlement price correction**

If the relevant Exchange fails to make available a relevant settlement price on a day that is a Calculation Date, or, in the reasonable judgment of the Index Sponsor, the settlement price made available by the Exchange reflects a manifest error, the relevant calculation will be delayed until such time as such level is made available or corrected, as the case may be, provided that, if a settlement price has not been made available, or the error has not been corrected by the Exchange prior to the Valuation Time, the Index Sponsor may, if it deems such action appropriate under the circumstances, determine the appropriate settlement price for the relevant Contract in its reasonable judgment for purposes of calculating the Index. In that event, the Index Sponsor will disclose the basis for its determination of settlement price.

## 2.3 Index Calculation Rules:

### 2.3.1 Determination of the Price Index Level, $PIL(t)$

The Price Index Level,  $PIL(t)$  is given by the following formula:

$$PIL(t) = PIL(t-1) \times \left[ -\frac{1}{3} \times \left( \frac{Brent(N(t+1),t)}{Brent(N(t+1),t-1)} + \frac{Brent(N(t+2),t)}{Brent(N(t+2),t-1)} + \frac{Brent(N(t+3),t)}{Brent(N(t+3),t-1)} \right) + 2 \right]$$

With,

$$PIL(t_0) = 100 ;$$

### 2.3.2 Determination of the Risk Free Rate Return, $RF(t)$

The Risk Free Rate Return,  $RF(t)$  is computed in accordance with the below formula:

$$RF(t) = \left[ 1 / \left( 1 - 91 / 360 \times TBR(t-1) \right) \right]^{(1/91)} - 1$$

with:

$TBR(t-1)$  means in respect of Calculation Date  $(t-1)$  the latest available Treasury Bill Rate.

### 2.3.3 Determination of the Index Level, $IL(t)$

The Index Level is calculated and published by the Index Calculation Agent on every Calculation Date  $(t)$  at the Valuation Time, subject to the occurrence or existence of an Index Disruption Event or Extraordinary Event relating to a Brent Future.

$$IL(t) = IL(t-1) \times [RF(t) + PIL(t) / PIL(t-1)] \times (RF(t) + 1)^{(ACT(t-1,t) - 1)}$$

$$IL(t_0) = 100 ;$$

$ACT(t-1, t)$  means the number of calendar days between the Calculation Date  $(t-1)$  (included) and the Calculation Date  $(t)$  (excluded).

### 2.3.4 Rounding Rules:

The rounding policy is defined as follows:

- Index Level: 2 decimal places.

## 3. CONSEQUENCES OF AN INDEX DISRUPTION EVENT:

---

- 3.1 If an Index Disruption Event exists on a Scheduled Trading Day for one of the Brent Future (each, a "**Disrupted Scheduled Trading Day**"), then the Index Calculation Agent shall not determine the level for the Index on such Scheduled Trading Day. The next Calculation Date following such Disrupted Scheduled Trading Day for which the Index Calculation Agent shall determine the level for the Index shall be the first succeeding Scheduled Trading Day on which the Index Calculation Agent determines that an Index Disruption Event no longer exists; provided that if the Index Calculation Agent determines that an Index Disruption Event exists on the five consecutive Scheduled Trading Days immediately following the initial Disrupted Scheduled Trading Day, then:

- (i) the fifth Scheduled Trading Day following the initial Disrupted Scheduled Trading Day, and each Scheduled Trading Day thereafter on which an Index Disruption Event continues to exist, shall be deemed to be a Calculation Date, notwithstanding the existence of an Index Disruption Event on such date(s), and
- (ii) the Index Calculation Agent shall determine, the level of Index as of the Valuation Time on that fifth Scheduled Trading Day following the initial Disrupted Scheduled Trading Day, and as of the Valuation Time on each Scheduled Trading Day thereafter on which an Index Disruption Event continues to exist (each, a "**Disrupted Calculation Date**"), based on the following:
  - (a) if the Index Disruption Event exists in relation to the Brent Future, the Brent Future Level determined, in consultation with the Index Sponsor, in accordance with the formula for and method of calculating that Brent Future Level last in effect prior to the occurrence of the first day on which the relevant Index Disruption Event occurred using relevant market indicia on the relevant date(s) of determination;

- 3.2 Notwithstanding the foregoing Section 3.1, if an Index Disruption Event continues for twenty consecutive Scheduled Trading Days, then the Index Calculation Agent shall permanently cancel the Index on such twentieth Scheduled Trading Day.

## 4. CONSEQUENCES OF AN INDEX EXTRAORDINARY EVENT:

---

- 4.1 If the Brent Future is (i) not calculated and announced by the Brent Future Sponsor but is calculated and announced by a successor Brent Future Sponsor acceptable to the Index Calculation Agent, in consultation with the Index Sponsor, or (ii) replaced by a successor index using, in the determination of the Index Calculation

Agent, in consultation with the Index Sponsor, the same or a substantially similar formula for and method of calculation as used in the calculation of such Brent Future, then in each case that successor index will replace such Brent Future. Additionally, if the Brent Future ceases to be the underlying reference asset of an exchange-traded futures or option contract (if applicable), the Index Calculation Agent, in consultation with the Index Sponsor, may, but is not obligated to, replace the Brent Future with a new index; *provided that* such new index uses, in the determination of the Index Calculation Agent, in consultation with the Index Sponsor, the same or a substantially similar formula for and method of calculation as used in the calculation of the original Brent Future.

In the event that the Brent Future is replaced under any circumstance described in the previous paragraph, that replacement index will be deemed a **"Successor Brent Future"** for such Brent Future. Such Successor Brent Future will be used as a substitute for the original Brent Future for all purposes, including for purposes of determining the Brent Future Level and whether an Index Disruption Event exists with respect to such Brent Future.

- 4.2 If, with respect to the Brent Future and a Scheduled Trading Day, the Brent Future Sponsor announces on or prior to such Scheduled Trading Day that it will make a material change in the formula for or the method of calculating such Brent Future or in any other way materially modifies such Brent Future (other than a modification prescribed in that formula or method to maintain such Brent Future for routine events), the Index Calculation Agent, in consultation with the Index Sponsor, may, but is not obligated to, calculate the Brent Future Level on such Scheduled Trading Day in accordance with the formula for and method of calculating such Brent Future last in effect prior to such change or cancellation, but using only those securities or instruments that comprised such Brent Future immediately prior to such change or cancellation.

If at any time the method of calculating the Brent Future, or the level thereof, is changed in a material respect, or if the Brent Future is in any other way modified so that such Brent Future does not, in the opinion of the Index Calculation Agent, in consultation with the Index Sponsor, fairly represent the Brent Future Level had such changes or modifications not been made, then the Index Calculation Agent, in consultation with the Index Sponsor, may, but is not obligated to, make such calculations and adjustments as the Index Calculation Agent, in consultation with the Index Sponsor, determines necessary in order to arrive at a level of an index comparable to such Brent Future as if such changes or modifications had not been made, and the Index Calculation Agent, in consultation with the Index Sponsor, will calculate the level of the Index with reference to such Brent Future, as adjusted.

If the Index Calculation Agent makes any alternate calculations or adjustments in accordance with Section 4.2, the Index Calculation Agent shall permanently cancel the Index on the twentieth Scheduled Trading Day following the first day on which the Index Calculation Agent makes such alternate calculations or adjustments.

- 4.3 If the Brent Future Sponsor cancels the Brent Future on or prior to any Scheduled Trading Day and no Successor Brent Future exists, the Index Calculation Agent shall not determine the level for the Index for such Scheduled Trading Day. If such event exists and is not cured for twenty Scheduled Trading Days, the Index Calculation Agent shall permanently cancel the Index on such twentieth Scheduled Trading Day.

- 4.4 If the relevant Exchange fails to make available a Brent Future Level on a day that is a Scheduled Trading day, or, in the reasonable judgment of the Index Sponsor, the Brent Future Level made available by the Exchange reflects a manifest error, the relevant calculation will be delayed until such time as such Level is made available or corrected, as the case may be, provided that, if a Brent Future Level has not been made available, or the error has not been corrected by the Exchange prior to the Valuation Time, the Index Sponsor may, if it deems such action appropriate under the circumstances, determine the appropriate Brent Future Level for the relevant Brent Future in its reasonable judgment for purposes of calculating the Index. In that event, the Index Sponsor will disclose the basis for its determination of such Brent Future Level.

## 1. EUROPEAN UNION

Under Council Directive 2003/48/EC on the taxation of savings income and several agreements concluded between Member States and certain associated or dependant territories of the European Union (*i.e.* Aruba, British Virgin Islands, Curaçao, Guernsey, Isle of Man, Jersey, Montserrat and Sint Marteen – collectively the “Associated Territories”), Member States are required to provide to the tax authorities of other Member States and Associated Territories details of certain payments of interest or similar income paid or secured by a paying agent (within the meaning of the EU Savings Directive) established in a Member State or Associated Territory to or for the benefit of an individual or certain limited types of entities resident or established in another Member State or Associated Territory.

On 24 March 2014, the Council of the European Union adopted a Council Directive amending and broadening the scope of the requirements described above. Member States are required to apply these new requirements from 1 January 2016. The changes will expand the range of payments covered by the Directive, in particular to include additional types of income payable on securities. The Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Austria is required (unless during that period it elects otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in such a Member State which still operate a withholding system when they are implemented. The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

## 2. FRANCE

## 2.1 Withholding Tax

## 2.1.1 Payments made by Société Générale

The following is an overview of certain withholding tax considerations that may be relevant to holders of the Notes who do not concurrently hold shares of the Issuer and who are not otherwise affiliated with the Issuer within the meaning of Article 39,12 of the *Code général des impôts*. Persons who are in doubt as to their tax position should consult a professional advisor.

## 2.1.1.1 Notes issued by Société Générale which are not consolidated (assimilables for the purposes of French law) and do not form a single series with Notes issued before 1 March 2010.

Payments of interest and other revenues made by Société Générale with respect to Notes (other than Notes (as described below) which are consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued prior to 1 March 2010 having the benefit of article 131 *quater* of the *Code général des impôts*) will not be subject to the withholding tax set out under article 125 A III of the *Code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of article 238-0 A of the *Code général des impôts* (a **Non-Cooperative State**). If such payments under the Notes are made in a Non-Cooperative State, a 75 per cent. withholding tax will be applicable (subject to certain exceptions) by virtue of article 125 A III of the *Code général des impôts*.

Furthermore, according to article 238 A of the *Code général des impôts*, interest and other revenues on such Notes will not be deductible from the Issuer's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to article 109 of the *Code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under article 119 *bis* 2 of the *Code général des impôts*, at a rate of 30 per cent. or 75 per cent., subject to the more favourable provisions of an applicable double tax treaty, if any.

Notwithstanding the foregoing, French law provides that neither the 75 per cent. withholding tax set out under article 125 A III of the *Code général des impôts* nor the Deductibility Exclusion will apply in respect of a particular issue of Notes if the relevant Issuer can prove that the principal purpose and effect of such issue of Notes was not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the **Exception**). Pursuant to the *Bulletin officiel des Finances Publiques – Impôts BOI-INT-DG-20-50-20140211*, *BOI-RPPM-RCM-30-10-20-40-20140211*, *BOI-IR-DOMIC-10-20-20-60-20150320* and *BOI-ANXX-*

000364-20120912, an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of an offer to the public within the meaning of article L.411.1 of the *Code monétaire et financier* or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (iii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of article L.561-2 of the *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

**2.1.1.2** Notes issued by Société Générale which are consolidated (assimilables for the purposes of French law) and form a single series with Notes issued before 1 March 2010

Payments of interest and other revenues with respect to Notes which are consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued before 1 March 2010 with the benefit of article 131 *quater* of the *Code général des impôts* will be exempt from the withholding tax set out under article 125 A III of the *Code général des impôts*, even if payments are made outside France in a Non-Cooperative State.

Notes issued before 1 March 2010, whether denominated in Euro or in any other currency, and constituting *obligations* under French law, or *titres de créances négociables* within the meaning of the *Bulletin officiel des Finances Publiques – Impôts* BOI-RPPM-RCM-30-10-30-30-20140211, respectively, or other debt securities issued under French or foreign law and considered by the French tax authorities as falling into similar categories, are deemed to be issued outside the Republic of France for the purpose of article 131 *quater* of the *Code général des impôts*.

In addition, interest and other revenues paid by the relevant Issuer on Notes issued from 1 March 2010 and which are to be consolidated (*assimilables* for the purpose of French law) and form a single series with Notes issued before 1 March 2010 will not be subject to the Deductibility Exclusion, and hence will not be subject to the withholding tax set out in article 119 *bis* 2 of the *Code général des impôts* solely on account of their being paid in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

Pursuant to Article 125 A of the *Code général des impôts* and subject to certain exceptions, interest received by French tax resident individuals is subject to a 24 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at an aggregate rate of 15.5 per cent. on interest paid to French tax resident individuals.

**2.1.2** **Payments made by the Guarantor**

There is no direct authority under French law on the withholding tax status of payments by the Guarantor under the Guarantee. Hence, the statements below are based on the interpretation of general French tax principles and any future legislative, judicial or administrative development may affect, potentially with retroactive effect, such statements.

**2.1.2.1** Payments in respect of Notes issued by SG Issuer and Société Générale Effekten GmbH:

Under one interpretation of French tax law, payments made by the Guarantor of any amount due by SG Issuer or Société Générale Effekten GmbH, as the case may be, to a Noteholder which is a non-French tax resident and which is not acting through a French establishment or branch may be treated as a payment in lieu of payments to be made by SG Issuer or Société Générale Effekten GmbH, as the case may be, with respect to the Notes. Accordingly, under this interpretation, payments made by the Guarantor of any amounts due by SG Issuer or Société Générale Effekten GmbH, as the case may be, under the Notes should not be subject to the withholding tax set out under article 125 A III of the *Code général des impôts*, to the extent that interest payments made or to be made by SG Issuer or Société Générale Effekten GmbH, as the case may be, would not be subject to withholding tax by reason of SG Issuer or Société Générale Effekten GmbH, as the case may be, not being resident of, or otherwise established in, France.

Under another interpretation, any such payment may be treated as a payment independent from the payments to be made by SG Issuer or Société Générale Effekten GmbH, as the case may be, with respect to the Notes. In the absence of any specific provision in article 125 A III of the *Code général des impôts*, such payments should not be subject to the withholding tax set out under article 125 A III of the *Code général des impôts*.

In the improbable case that none of the two above interpretations would prevail and if the payments by the Guarantor under the Guarantee would qualify as interest payments paid by a French debtor within the meaning of article 125 A III of the *Code général des impôts*, such payments would not be subject to the 75 per cent. withholding tax referred to above, unless such payments are made outside France in a Non-Cooperative State (see above "Payments made by Société Générale as Issuer").

It cannot be ruled out, however, that the French tax authorities or French courts adopt a view other than these interpretations and consider such payments to be taxable in France.

### 2.1.3 **Savings Directive**

The Savings Directive was implemented into French law under article 242 *ter* of the *Code général des impôts* and Articles 49 I-ter to 49 I-sexies of Schedule III to the *Code général des impôts* which imposes on paying agents based in France an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another Member State, including, among other things, the identity and address of the beneficial owner, the total amount of interest paid to that beneficial owner and the total amount of the proceeds from sale, redemption or refund of debt claims of every kind realised by the beneficial owner during the calendar year.

### 2.1.4 **Transfer taxes and other taxes**

*Please note that the following may be relevant in connection with Notes which are settled, redeemed or otherwise repaid by way of physical delivery of certain French listed shares (or certain assimilated securities).*

Pursuant to Article 235 *ter* ZD of the *Code général des impôts*, a financial transaction tax (the **Financial Transaction Tax**) applies to any acquisition for consideration, resulting in a transfer of ownership, of an equity security (*titre de capital*) within the meaning of Article L 212-1 A of the *Code monétaire et financier*, or of an assimilated equity security, within the meaning of Article L 211-41 of the *Code monétaire et financier*, admitted to trading on a recognised stock exchange when the said security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds €1 billion on 1 December of the year preceding the year in which the acquisition occurs (the **French Shares**). The rate of the Financial Transaction Tax is 0.2% of the acquisition value of the securities. There are a number of exemptions from the Financial Transaction Tax and investors shall revert to their counsel to identify whether they can benefit from them.

If the Financial Transaction Tax applies to an acquisition of shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1% to the sale of shares issued by a company whose registered office is situated in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

## 3. **LUXEMBOURG**

The following information is of a general nature only and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

### 3.1 **Withholding Tax**

#### 3.1.1 **Non-resident holders of Notes**

Under Luxembourg general tax laws currently there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders.

#### 3.1.2 **Resident holders of Notes**

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the **Relibi Law**), there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by Luxembourg resident holders of the Notes.

Under the Relibi Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 10 %. This withholding tax also applies on accrued interest received upon disposal, redemption or repurchase of the Notes. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

In addition, pursuant to the Relibi Law, Luxembourg resident individuals who are the beneficial owners of interest payments and other similar income made by a paying agent within the meaning of the EU Savings Directive established outside of Luxembourg, in a Member State of either the European Union or the European Economic Area, or in a jurisdiction having concluded an agreement with Luxembourg in connection with the EU Savings Directive, may also opt for a final 10% levy. In such case, the 10% levy is calculated on the same amounts as for the payments made by Luxembourg resident paying agents. The option for the 10% levy must cover all interest payments made by the paying agent to the Luxembourg resident beneficial owner during the entire civil year.

Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth.

#### 4. AUSTRIA

This section on taxation contains a brief overview of the Issuers' understanding with regard to certain important principles which are of significance in connection with the purchase, holding or sale of the Notes in the Republic of Austria. This overview does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal or tax advice. This overview is based on the currently applicable tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential investors in the Notes consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Notes. Tax risks resulting from the Notes (in particular from a potential qualification as a foreign investment fund within the meaning of sec. 188 of the Austrian Investment Funds Act 2011 (*Investmentfondsgesetz 2011*)) shall in any case be borne by the investor. For the purposes of the following it is assumed that the Notes are legally and factually offered to an indefinite number of persons.

##### 4.1 General remarks

Individuals having a domicile (*Wohnsitz*) and/or their habitual abode (*gewöhnlicher Aufenthalt*), both as defined in sec. 26 of the Austrian Federal Fiscal Procedures Act (*Bundesabgabenordnung*), in Austria are subject to income tax (*Einkommensteuer*) in Austria on their worldwide income (unlimited income tax liability; *unbeschränkte Einkommensteuerpflicht*). Individuals having neither a domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; *beschränkte Einkommensteuerpflicht*).

Corporations having their place of management (*Ort der Geschäftsleitung*) and/or their legal seat (*Sitz*), both as defined in sec. 27 of the Austrian Federal Fiscal Procedures Act, in Austria are subject to corporate income tax (*Körperschaftsteuer*) in Austria on their worldwide income (unlimited corporate income tax liability; *unbeschränkte Körperschaftsteuerpflicht*). Corporations having neither their place of management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; *beschränkte Körperschaftsteuerpflicht*).

Both in case of unlimited and limited (corporate) income tax liability Austria's right to tax may be restricted by double taxation treaties.

##### 4.2 Income taxation of the Notes

Pursuant to sec. 27(1) of the Austrian Income Tax Act (*Einkommensteuergesetz*), the term investment income (*Einkünfte aus Kapitalvermögen*) comprises:

- income from the letting of capital (*Einkünfte aus der Überlassung von Kapital*) pursuant to sec. 27(2) of the Austrian Income Tax Act, including dividends and interest;
- income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) pursuant to sec. 27(3) of the Austrian Income Tax Act, including gains from the alienation, redemption and other realisation of assets that lead to income from the letting of capital, zero coupon bonds and broken-period interest; and
- income from derivatives (*Einkünfte aus Derivaten*) pursuant to sec. 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates.

Also the withdrawal of the Notes from a bank deposit (*Depotentnahme*) and circumstances leading to a loss of Austria's taxation right regarding the Notes *vis-à-vis* other countries, e.g. a relocation from Austria (*Wegzug*), are in general deemed to constitute a sale (*cf.* sec. 27(6)(1) of the Austrian Income Tax Act).

Individuals subject to unlimited income tax liability in Austria holding the Notes as non-business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus (*inländische Einkünfte aus Kapitalvermögen*), basically meaning income paid by an Austrian paying agent (*auszahlende Stelle*) or an Austrian custodian agent (*depottführende Stelle*), the income is subject to withholding tax (*Kapitalertragsteuer*) of 25%; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to sec. 97(1) of the Austrian Income Tax Act). In case of investment income without an Austrian nexus, the income must be included in the investor's income tax return and is subject to income tax at a flat rate of 25%. In both cases upon application the option exists to tax all income subject to income tax at the flat rate of 25% at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). Sec. 27(8) of the Austrian Income Tax Act, *inter alia*, provides for the following restrictions on the offsetting of losses: negative income from realised increases in value and from derivatives may be neither offset against interest and other claims *vis-à-vis* credit institutions nor against income from private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare Vermögensmassen*); income subject to income tax at the flat rate of 25% may not be offset against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to regular taxation); negative investment income not already offset against positive investment income may not be offset against other types of income.

Individuals subject to unlimited income tax liability in Austria holding the Notes as business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of

investment income with an Austrian nexus the income is subject to withholding tax of 25%. While withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must be included in the investor's income tax return (nevertheless income tax at the flat rate of 25%). In case of investment income without an Austrian nexus, the income must always be included in the investor's income tax return (generally income tax at the flat rate of 25%). In both cases upon application the option exists to tax all income subject to income tax at the flat rate of 25% at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). Pursuant to sec. 6(2)(c) of the Austrian Income Tax Act, depreciations to the lower fair market value and losses from the alienation, redemption and other realisation of financial assets and derivatives in the sense of sec. 27(3) and (4) of the Austrian Income Tax Act, which are subject to income tax at the flat rate of 25%, are primarily to be offset against income from realised increases in value of such financial assets and derivatives and with appreciations in value of such assets; only half of the remaining negative difference may be offset against other types of income (and carried forward).

Pursuant to sec. 7(2) of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*), corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on income in the sense of sec. 27(1) of the Austrian Income Tax Act from the Notes at a rate of 25%. In the case of income in the sense of sec. 27(1) of the Austrian Income Tax Act with an Austrian nexus, the income is subject to withholding tax of 25%, which can be credited against the corporate income tax liability. However, under the conditions set forth in sec. 94(5) of the Austrian Income Tax Act withholding tax is not levied in the first place. Losses from the alienation of the Notes can be offset against other income (and carried forward).

Pursuant to sec. 13(3)(1) in connection with sec. 22(2) of the Austrian Corporate Income Tax Act, private foundations (*Privatstiftungen*) pursuant to the Austrian Private Foundations Act (*Privatstiftungsgesetz*) fulfilling the prerequisites contained in sec. 13(3) and (6) of the Austrian Corporate Income Tax Act and holding the Notes as non-business assets are subject to interim taxation at a rate of 25% on interest income, income from realised increases in value and income from derivatives (*inter alia*, if the latter are in the form of securities). Interim tax does not fall due insofar as distributions subject to withholding tax are made to beneficiaries in the same tax period. In case of investment income with an Austrian nexus income is in general subject to withholding tax of 25%, which can be credited against the tax falling due. Under the conditions set forth in sec. 94(12) of the Austrian Income Tax Act withholding tax is not levied.

Individuals and corporations subject to limited (corporate) income tax liability in Austria are taxable on investment income from the Notes if they have a permanent establishment (*Betriebsstätte*) in Austria and the Notes are attributable to such permanent establishment (*cf.* sec. 98(1)(3) of the Austrian Income Tax Act, sec. 21(1)(1) of the Austrian Corporate Income Tax Act). Individuals subject to limited income tax liability in Austria are also taxable on interest in the sense of the Austrian EU Withholding Tax Act (*EU-Quellensteuergesetz*, see below) from the Notes if withholding tax is levied on such interest (this does not apply, *inter alia*, if the Issuers have neither their places of management nor their legal seats in Austria and are not acting through Austrian branches, which condition the Issuers understand to be fulfilled in the case at hand; *cf.* sec. 98(1)(5)(b) of the Austrian Income Tax Act).

Pursuant to sec. 93(6) of the Austrian Income Tax Act, the Austrian custodian agent is obliged to automatically offset negative investment income against positive investment income, taking into account all of a taxpayer's bank deposits with the custodian agent. If negative and at the same time or later positive income is earned, then the negative income is to be offset against the positive income. If positive and later negative income is earned, then withholding tax on the positive income is to be credited, with such tax credit being limited to 25% of the negative income. In certain cases the offsetting is not permissible. The custodian agent has to issue a written confirmation on each offsetting of losses to the taxpayer.

Pursuant to sec. 188 of the Austrian Investment Funds Act 2011 as amended in the course of the implementation of Directive 2011/61/EU, the term "foreign investment fund" comprises (i) undertakings for collective investment in transferable securities the state of origin of which is not Austria; (ii) alternative investment funds pursuant to the Austrian Act on Alternative Investment Fund Managers (*Alternative Investmentfonds Manager-Gesetz*) the state of origin of which is not Austria; and (iii) secondarily, undertakings subject to a foreign jurisdiction, irrespective of the legal form they are organized in, the assets of which are invested according to the principle of risk-spreading on the basis either of a statute, of the undertaking's articles or of customary exercise, if one of the following conditions is fulfilled: (a) the undertaking is factually, directly or indirectly, not subject to a corporate income tax in its state of residence that is comparable to Austrian corporate income tax; (b) the profits of the undertaking are in its state of residence subject to corporate income tax that is comparable to Austrian corporate income tax, at a rate of less than 15%; or (c) the undertaking is subject to a comprehensive personal or material tax exemption in its state of residence. Certain collective investment vehicles investing in real estate are exempted. To date no guidance has been issued by the tax authorities on the interpretation of this new provision. In case of a qualification as a foreign investment fund the tax consequences would substantially differ from those described above.

#### 4.3 EU withholding tax

Sec. 1 of the Austrian EU Withholding Tax Act – implementing Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments – provides that interest payments paid or credited by an Austrian paying agent (*Zahlstelle*) to a beneficial owner who is an individual resident in another EU Member State (or in certain dependent or associated territories, which currently include Anguilla, Aruba, the British Virgin Islands, Curaçao, Guernsey, the Isle of Man, Jersey, Montserrat, Sint Maarten and the Turks and

Caicos Islands) are subject to EU withholding tax (*EU-Quellensteuer*) of 35%. Sec. 10 of the Austrian EU Withholding Tax Act provides for an exemption from EU withholding tax if the beneficial owner presents to the paying agent a certificate drawn up in his/her name by the competent authority of his/her EU Member State of residence for tax purposes, indicating the name, address and tax or other identification number or, failing such, the date and place of birth of the beneficial owner, the name and address of the paying agent, and the account number of the beneficial owner or, where there is none, the identification of the security; such certificate shall be valid for a period not exceeding three years. Pursuant to Council Directive 2014/107/EU of 9 December 2014 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation, interest, dividends and similar types of income as well as account balances and sales proceeds from financial assets shall in general be automatically exchanged as of 1 January 2016 with respect to taxable periods as from that date. Although Austria only will have to apply these provisions from 1 January 2017 with respect to taxable periods as from that date, it announced that it will not make full use of the derogation and will already exchange information on new accounts opened during the period 1 October 2016 to 30 December 2016 by 30 September 2017. While it was expected that changes to the EU Withholding Tax Act – implementing Council Directive 2014/48/EU of 24 March 2014 amending Directive 2003/48/EC on taxation of savings income in the form of interest payments – would enter into effect by 1 January 2017, on 18 March 2015 the European Commission published a proposal for a Council Directive repealing Council Directive 2003/48/EC. Pursuant thereto, Council Directive 2003/48/EC shall in general be repealed with effect from 1 January 2016. However, pursuant to detailed grandfathering provisions, Austria shall in general continue to apply it until 31 December 2016.

Regarding the issue of whether also index certificates are subject to EU withholding tax, the Austrian tax authorities distinguish between index certificates with and without a capital guarantee, a capital guarantee being the promise of repayment of a minimum amount of the capital invested or the promise of the payment of interest. The exact tax treatment of index certificates furthermore depends on their underlying.

#### 4.4 Tax treaties Austria/Switzerland and Austria/Liechtenstein

The Treaty between the Republic of Austria and the Swiss Confederation on Cooperation in the Areas of Taxation and Capital Markets and the Treaty between the Republic of Austria and the Principality of Liechtenstein on Cooperation in the Area of Taxation provide that a Swiss, respectively Liechtenstein, paying agent has to withhold a tax amounting to 25% on, *inter alia*, interest income, dividends and capital gains from assets booked with an account or deposit of such Swiss, respectively Liechtenstein, paying agent if the relevant holder of such assets (*i.e.* in general individuals on their own behalf and as beneficial owners of assets held by a domiciliary company (*Sitzgesellschaft*)) is tax resident in Austria. The same applies to such income from assets managed by a Liechtenstein paying agent if the relevant holder of the assets (*i.e.* in general individuals as beneficial owners of a transparent structure) is tax resident in Austria. For Austrian income tax purposes this withholding tax has the effect of final taxation regarding the underlying income if the Austrian Income Tax Act provides for the effect of final taxation for such income. The treaties, however, do not apply to interest covered by the agreements between the European Community and the Swiss Confederation, respectively the Principality of Liechtenstein, regarding Council Directive 2003/48/EC on taxation of savings income in the form of interest payments. The taxpayer can opt for voluntary disclosure instead of the withholding tax by expressly authorising the Swiss, respectively Liechtenstein, paying agent to disclose to the competent Austrian authority the income, which subsequently has to be included in the income tax return.

#### 4.5 Austrian inheritance and gift tax

Austria does not levy inheritance or gift tax.

Certain gratuitous transfers of assets to private law foundations and comparable legal estates are subject to foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Transfer Tax Act (*Stiftungseingangssteuergesetz*) if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of management in Austria. Certain exemptions apply in cases of transfers *mortis causa* of financial assets within the meaning of sec. 27(3) and (4) of the Austrian Income Tax Act (except for participations in corporations) if income from such financial assets is subject to income tax at the flat rate of 25%. The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate generally is 2.5%, with a higher rate of 25% applying in special cases. Special provisions apply to transfers of assets to entities falling within the scope of the tax treaty between Austria and Liechtenstein.

In addition, there is a special notification obligation for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles if the donor and/or the donee have a domicile, their habitual abode, their legal seat or their place of management in Austria. Not all gifts are covered by the notification obligation: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Furthermore, gratuitous transfers to foundations falling under the Austrian Foundation Transfer Tax Act described above are also exempt from the notification obligation. Intentional violation of the notification obligation may trigger fines of up to 10% of the fair market value of the assets transferred.

Further, gratuitous transfers of the Notes may trigger income tax at the level of the transferor pursuant to sec. 27(6)(1) of the Austrian Income Tax Act (see above).

#### 4.6 Austrian Tax Reform Act 2015/2016

Recently the Austrian Ministry of Finance published draft bills of the Austrian Tax Reform Act 2015/2016 (*Steuerreformgesetz 2015/2016*) and of the Austrian Federal Constitutional Act on the Amendment of the Austrian Act on Final Taxation (*Bundesverfassungsgesetz zur Änderung des Endbesteuerungsgesetzes*). The draft bills provide that as of 1 January 2016, instead of the uniform special income tax rate of currently 25%, two special income tax rates shall be applicable, namely a special income tax rate of 25% on income from interest and other claims *vis-à-vis* credit institutions and a special income tax rate of 27.5% on all other investment income (save for investment income subject to the progressive income tax rate). This would, *inter alia*, mean that as of 1 January 2016 individuals subject to unlimited income tax liability in Austria would be subject to withholding tax at a rate of 27.5% on investment income with an Austrian nexus from the Notes and to the special tax rate of 27.5% on investment income without an Austrian nexus from the Notes.

### 5. FEDERAL REPUBLIC OF GERMANY

*The following discussion of certain German tax consequences of buying, holding or disposing of the Notes is based on tax laws, regulations, decisions, judgments and administrative decrees currently in effect, which may be amended or construed differently, potentially with retroactive or retrospective effect. However, this section does not refer to all possible tax considerations which are relevant to the decision of any potential purchaser with respect to buying, holding or disposing of a Note; in particular, it does not refer to specific circumstances which may be relevant to certain purchasers such as church tax (Kirchensteuer) or individual tax privileges. This means that the following text exclusively refers to Notes as an investment as such (unless expressly indicated otherwise) and does not address any persons in their specific tax situation. The information contained in the following section is not intended as and does not purport to be legal or tax advice.*

**Potential investors in the Notes are therefore advised to consult their own tax advisers as to the German and other tax consequences of buying, holding or disposing of the Notes.**

*As each Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Tranche of Notes as set out in the respective Final Terms, the following section only provides some very general information on the possible tax treatment. If necessary, the prospectus regarding the respective Tranche of Notes will contain more specific but also general information on the possible tax treatment of the respective Notes. Potential investors should therefore always review the respective Final Terms also with respect to additional tax information.*

#### 5.1 German taxation of residents

##### 5.1.1 Notes held as a private asset

###### Taxation of interest income

Under German tax law, payment of interest on the Notes to persons who are tax residents of Germany (including persons whose residence, habitual abode, statutory seat or place of management is located in Germany, a "German Holder") and who held the Note as a private asset is subject to German income tax as capital income in the meaning of § 20 German Income Tax Act. From the year 2009, a final taxation ("Abgeltungsteuer") is charged on capital income at an amount of 25% plus 5.5% solidarity surcharge ("Solidaritätszuschlag") thereon, resulting in a total final taxation of 26.375%. Taxable base is the received interest without any deduction of expenses actually incurred. The total capital income of the individual will be deducted by a personal annual exemption ("Sparer-Pauschbetrag") of EUR 801 (EUR 1,602 for married couples filing their tax return jointly). The personal income tax liability regarding the capital income is, in principle, settled by the tax withheld. If no withholding tax was charged on the payment of the interest, the German Holder will have to include this interest income in its tax return. The final taxation will then be charged by way of assessment. The German Holder may also apply for assessment of the capital income based on the general rules if the personal income tax rate of the German Holder is lower than the final taxation rate. In such assessment, the withholding tax will be credited.

###### Withholding tax on interest income

If the Notes are held in a custodial account maintained by a German Holder with a German branch of a German or foreign bank or financial services institution (a "German Disbursing Agent"), which pays or credits the interest, a 25% withholding tax ("Kapitalertragsteuer") on interest payments, plus a 5.5% solidarity surcharge ("Solidaritätszuschlag") thereon will be levied, resulting in a total withholding tax charge of 26.375% on the gross amount of interest paid. Accrued Interest paid by a German Holder upon the purchase of the Notes may be set-off against the amount of interest income received by such German Holder and, under certain circumstances, may reduce the amount subject to withholding tax.

If the Noteholder is an individual to whom income from the Notes constitutes income from a capital investment and such Noteholder has filed a certificate of exemption ("Freistellungsauftrag") with the German Disbursing Agent, no tax will be withheld by the German Disbursing Agent to the extent that the interest income derived from the Notes together with other investment income administered by the German Disbursing Agent does not exceed the maximum exemption amount shown on this certificate. Similarly, no tax will be withheld if the Noteholder submits to the German Disbursing Agent a certificate of non-assessment ("Nichtveranlagungsbescheinigung") issued by the competent local tax office.

###### Disposal or redemption of the Notes

Capital gains resulting from the disposal or redemption of Notes (or, as the case may be, from the payment at maturity of the Notes) realised by individual German Holders holding the Notes as private assets are taxable as capital gains. They are also subject to the final taxation ("*Abgeltungsteuer*") at an amount of 25% plus 5.5% solidarity surcharge ("*Solidaritätszuschlag*") thereon, resulting in a total final taxation of 26.375%.

Base for this taxation is the capital gain, which is in general the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. The taxable capital gains from Notes issued in a currency other than Euro also include any currency gains (and losses). In case of a physical settlement of certain Notes which grant the Issuer or the individual Noteholder the right to opt for a physical delivery of a predetermined number of underlying securities instead of a (re)payment in cash, generally no taxable capital gain may result, because the acquisition costs of the Notes are regarded as acquisition costs of the underlying securities received by the individual Noteholder upon physical settlement. Therefore, only losses can arise from the deduction of directly related expenses.

Capital losses in respect of the Notes held as a private asset may only be set-off against capital income within the same financial year and in subsequent years. However, if losses result from Notes held in a custodial account maintained by a German Disbursing Agent, initially the German Disbursing Agent will take these losses into account when calculating the withholding tax. In case the losses cannot be compensated in the current year the losses will be set off against the income of the subsequent year. Upon request of the German Holder, which has to be filed with the German Disbursing Agent until 15 December of the current fiscal year, the German Disbursing Agent will provide a certificate of all losses, which could not be set off during the current year within the custodial account. This certificate enables the German Holder to claim a deduction within the assessment of capital income.

#### **Withholding tax on disposal or redemption of the Notes**

Like the treatment of interest income a withholding tax at an amount of 25%, plus a 5.5% solidarity surcharge ("*Solidaritätszuschlag*") thereon (in total 26.375%) will be levied on capital gains from disposal or redemption of the Notes, if the Note is held in a custodial account maintained by a German Disbursing Agent. A withholding tax will not be charged if the German Holder has provided a certificate of exemption ("*Freistellungsauftrag*") or a certificate of non-assessment ("*Nichtveranlagungsbescheinigung*") to the German Disbursing Agent.

Base for this taxation is again the difference between the proceeds from the disposal or redemption after deduction of expenses directly related to the disposal and the cost of acquisition. However, in case the Notes have not been kept in a custodial account with the same German Disbursing Agent since the time of acquisition, upon the disposal, redemption or repayment the withholding applies to 30% of the disposal proceeds, unless the current Disbursing Agent has been notified of the actual acquisition costs of the Notes by the previous Disbursing Agent or by a statement of a bank or financial services institution within the EEA or certain other countries in accordance with art. 17 para. 2 of the European Council Directive 2003/48/EC. Furthermore, the special provision for a physical settlement of certain Notes applies for purposes of the withholding. Therefore, in principle, redemption accompanied by physical settlement may not result in a withholding tax.

#### **5.1.2 Notes held as business assets or by a corporate body**

If the Notes are held as business assets or by a corporate body all income received from the Notes (interest as well as capital gains) is subject to German income tax or German corporate income tax. The income from the Notes will be taxed at the German Noteholder's individual tax rate. The income tax or the corporate income tax is not settled by the tax withheld. Withholding tax and the solidarity surcharge thereon might be credited as prepayments against the German Holder's final tax liability for German personal or corporate income tax purposes and the respective solidarity surcharge, or, if in excess of such final tax liability, refunded upon application.

If the Notes are held in a German business establishment for trade tax purposes, income derived from the Notes will also be subject to trade tax on income, which is a municipal tax levied whose effective tax rate depends on the trade tax factor applied by the relevant municipality.

The taxation of the investment in the Notes might be calculated on an accruals basis. The income might therefore be taxed before the German Holder receives a payment from the Notes.

In general, withholding tax will be deducted in accordance with the same provisions as the withholding with respect to Notes held as private assets. The withholding tax on capital gains might not apply under certain circumstances and for certain capital income if the Notes are held by a tax resident corporate or if the Notes are held by an individual or by a partnership as part of the business assets as long as the German Holder provides the German Disbursing Agent with a certificate of the character of the Notes as business assets.

#### **5.2 German taxation of non-residents**

Income derived from the Notes by persons who are not tax residents of Germany (**Non-German Holders**) is in general exempt from German income or corporate income taxation, and no withholding tax shall be withheld (even if the Notes are held with a German Disbursing Agent), provided (i) the Notes are not held as business assets of a German permanent establishment of the Non-German Holder, including a permanent representative, or fixed base of the Noteholder, (ii) the income derived from the Notes does not otherwise constitute German source income (such as income from the letting and leasing of certain German situs property), (iii) the Notes or coupons are not presented for payment at the offices of a German branch of a German or foreign bank or financial services institution, that do not hold in custody or manage the Notes, in an over-the-counter-transaction ("*Tafelgeschäft*") by a person who is not a foreign bank or financial service institution and, (iv) in the event that the Notes are held in a custodial account maintained by a German

Disbursing Agent, the Noteholder complies with the applicable procedural rules under German law and provides evidence of the fact that the Notes are not subject to taxation in Germany. Unjustified retained withholding tax shall be refunded upon request to the Local Tax Office ("*Finanzamt*") to whom the withholding tax was paid.

If the interest is subject to German taxation (for example, if the Notes are held as business assets of a German permanent establishment of a Non-German Holder), such holder is subject to a tax treatment similar to that described above under the caption "German Taxation of Residents". The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

**If the Notes are offered by the Issuer other than in the Federal Republic of Germany, information relating to withholding tax may be disclosed in the applicable Final Terms or, in the event of an offer which is made after completion of the applicable Final Terms, in a supplement to this Base Prospectus.**

### 5.3 European Union Directive on the Taxation of Savings Income

On 3 June 2003 the Council of the European Union (**ECOFIN**) approved a directive regarding the taxation of interest income. Accordingly, each EU Member State must provide to the tax authorities of the other EU Member States details of the payment of interest or similar income made by a person in its jurisdiction to any individual resident in the other relevant EU Member State. The directive has to be applied by the Member States since 1 July 2005. The directive came into effect in German law on 1 July 2005.

For a transitional period, Austria may opt instead to withhold tax from interest payments within the meaning of the directive at a rate of 35% being applied from 1 July 2011 onwards. Belgium, as of 1 January 2010, and Luxembourg, as of 1 January 2015, apply the automatic exchange of information under the Savings Directive instead of withholding taxes.

### 5.4 Gift or Inheritance Taxation

No estate, inheritance or gift taxes with respect to any Notes will arise under the laws of Germany, if, in the case of estate and inheritance taxes, both the decedent and the beneficiary, and, in the case of gift taxes, both the donor and the donee, are tax non-residents and are not deemed to be a tax resident of Germany at the time of the transfer and such Notes are not attributable to a permanent establishment in Germany. In the case of a decedent, donor or heir who is a German national, this only applies if such person has been a non-resident of Germany for more than five consecutive years.

According to the German Federal Constitutional Court (judgement of 17 December 2014) the current inheritance tax law does not comply with German constitutional law with regard to the inheritance tax privilege for business assets. Therefore, amendments to the German inheritance tax law have to be expected.

### 5.5 Stamp Duty

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax is not levied in Germany.

Germany and other Member States of the European Union intend to introduce a financial transaction tax. However, it is unclear if and in what form such tax will be actually introduced. In case such tax is introduced, the acquisition and disposal of Notes (in the secondary market) would be subject to a tax of at least 0.1% of the acquisition or disposal price.

## 6. SWITZERLAND

*The following is an overview based on legislation as of the date of this Base Prospectus. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in the Notes. The tax treatment for each investor depends on the particular situation. All investors are advised to consult with their professional tax advisers as to the respective Swiss tax consequences of the purchase, ownership, disposition, lapse, exercise or redemption of Notes in light of their particular circumstances.*

### 6.1 Stamp taxes

#### 6.1.1 Swiss federal securities turnover tax

Dealings in Notes which classify as pure derivative financial instruments (such as pure call and put options, including low exercise price options with a maturity not exceeding twelve months, pure futures with a maximal pre-financing of 25 per cent., static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) are not subject to the Swiss federal securities turnover tax.

Dealings in Notes which have been issued by an issuer outside of Switzerland and which classify as structured instruments, share-like instruments (including low exercise price options on shares with a maturity exceeding twelve months) or fund-like instruments are subject to Swiss federal securities turnover tax of 0.3 per cent. on the consideration paid, however, only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and no exemption applies.

The delivery of an underlying security at exercise or redemption to the holder of the Notes is subject to Swiss federal securities turnover tax of 0.3 per cent. in case a security issued by an issuer outside Switzerland is delivered and of 0.15 per cent. in case a security issued by a Swiss domestic issuer is delivered, however, in each case, only if a Swiss domestic securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and no exemption applies.

### 6.1.2 **Swiss withholding tax**

Payments on a Note are not subject to Swiss federal withholding tax provided that the respective Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

## 6.2 **Income taxation**

### 6.2.1 **Non-Swiss resident holders**

A holder of a Note who is not resident in Switzerland and who during the taxation year has not engaged in trade or business carried on through a permanent establishment or a fixed place of business in Switzerland, and who is not subject to income taxation in Switzerland for any other reason, will not be subject to any income tax in Switzerland.

### 6.2.2 **Notes held as private assets by a Swiss resident holder**

#### **Structured derivative financial instruments:**

If a Note classifies as a structured derivative financial instrument, its income taxation depends on whether the bond and the derivative financial instrument(s) embedded therein are recorded separately from each other and whether the Note classifies as a structured instrument with or without a predominant one-time interest payment:

#### **Non-transparent structured derivative financial instruments:**

If the embedded bond is not recorded separately from the embedded derivative financial instrument(s), the Note classifies as non-transparent structured instrument and any return over the initial investment classifies as a taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment and are taxed in accordance with the principles set forth below under "Bonds with a predominant one-time interest payment".

#### **Transparent structured derivative financial instruments without a predominant one-time interest payment:**

If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment (see below "Transparent structured derivative financial instruments with a predominant one-time interest payment"), then any periodic interest payment and the one-time interest payment are taxed when payable to the holder of the Note. A gain, including interest accrued, or a loss, respectively, realised on the sale of a Note is a tax-free private capital gain, or a non-tax-deductible private capital loss, respectively.

#### **Transparent structured derivative financial instruments with a predominant one-time interest payment:**

If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments, then any periodic interest payments and, in addition, on the sale or redemption of the Note, the difference between the value of the embedded bond at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, converted, in each case, into Swiss Francs at the exchange rate prevailing at the time of redemption or sale, issuance or purchase, respectively (modified differential taxation method) constitutes taxable income. A value decrease on the embedded bond respectively realised on the sale or redemption of the Note may be offset against any gains (including periodic interest payments) realised within the same taxation period from all instruments with a predominant one-time interest payment. Any residual return realised on the embedded derivative financial instrument(s) is a tax-free private capital gain, and any residual loss is a non-tax-deductible private capital loss, respectively.

#### **Bonds without a predominant one-time interest payment:**

If a Note classifies as a pure bond without a predominant one-time interest payment (the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time interest payment), Swiss resident private investors will be taxed on the periodic and on the one-time interest payments, each converted into Swiss Francs at the exchange rate prevailing at the time they become due. A gain, including interest accrued, or a loss, respectively, realised on the sale of a Note is a tax-free private capital gain, or a non-tax-deductible private capital loss, respectively.

#### **Bonds with a predominant one-time interest payment:**

If a Note classifies as a pure bond with a predominant one-time interest payment (the yield-to-maturity predominantly derives from a one-time-interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments), Swiss resident private investors will be taxed on any gain, including capital and foreign exchange gains, realised on the Notes (differential taxation method).

#### **Pure derivative financial instruments:**

A capital gain realised by an individual on the sale or redemption of a Note which classifies as a pure derivative financial instrument (such as pure call and put options, including low exercise price options with a maturity not exceeding one year, pure futures with a maximum pre-financing of 25 per cent., static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) and which is held as part of their private assets constitutes a tax-free private capital gain. A capital loss realised analogously on the sale or redemption of a Note cannot be set off against taxable income. Periodic and one-time dividend equalisation payments on a Note which is a pure derivative financial instrument constitute taxable investment income.

#### **Low Exercise Price Options (LEPOs):**

According to the current practice of the Swiss federal tax administration low exercise price options are given if the underlying of a call option has been pre-financed by at least 50 per cent. at the time of issuance. For low exercise price options with a maturity exceeding one year the interest component of the low exercise price option (i.e. issue discount) constitutes taxable investment income. Notes replicating an index or a basket of less than five shares are for Swiss tax purposes regarded as LEPOs.

**Fund-like instrument:**

A Note classified as a fund-like instrument will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income (less attributable costs) from, and capital gains and losses (less attributable costs) realised on, the underlying investments, are reported and distributed separately. Under such conditions, an individual holding a fund-like instrument as part of his private assets only receives taxable income (which he or she must report annually) over such portion of the distributions (in case the fund is distributing the income realised on the underlying investments) or earnings credits (in case the fund is reinvesting the income realised on the underlying investment) as derived from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain, and any respective loss a non-tax-deductible private capital loss. Any gain or loss realised within a taxation period on the sale of a fund-like instrument (including accrued dividends and interest) is exempt from income taxation as non-taxable private capital gain or non-tax-deductible private capital loss.

**6.2.3 Instruments held as assets of a Swiss business**

Corporate entities and individuals who hold Notes as part of a trade or business in Switzerland, in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland, are required to recognise any payments on, and any capital gains or losses realised on the sale or redemption of, such Notes (irrespective of their classification) in their income statement for the respective taxation period and will be taxed on any net taxable earnings for such period.

The same taxation treatment also applies to Swiss-resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities.

**6.3 EU Savings Directive**

An interest payment on a Note made by a Swiss paying agent to an individual resident in an EU Member State is subject to the EU savings tax. The tax is withheld at a rate of 35 per cent. on interest payments made, with the option of the individual to have the paying agent and Switzerland to provide to the tax authorities of the EU Member State the details of the interest payments in lieu of the withholding. The individual may be entitled to a tax credit or refund of the withholding, provided that he or she is the beneficial owner of the interest payments and certain other conditions are met.

**6.4 Bilateral agreements (*Quellensteuerabkommen*)**

Switzerland has signed agreements on a final withholding tax (*Quellensteuerabkommen*) with the United Kingdom and with Austria. Furthermore, it is expected that Switzerland will sign similar agreements with other countries in the near future. According to these agreements, the Swiss depository bank levies a final withholding tax on any investment income derived from a Note held with such Swiss depository bank, either directly or indirectly, by an individual resident in the contracting state. The applicable final withholding tax rate may vary depending on the applicable tax rate in the relevant contracting state and the type of realised investment income (dividend, interest, capital gain, etc.). Furthermore, the calculation of the income subject to a final withholding tax may vary depending on the applicable agreement. A person subject to a final withholding tax ("Relevant Person") may avoid such final withholding tax by expressly allowing its Swiss depository bank to report to the foreign tax authorities in the state of residence of the Relevant Person, amongst others, the identity of the Relevant Person and the amount the realised investment income in a certain period.

**7. UNITED STATES**

---

**7.1.1.1 Foreign Account Tax Compliance Act**

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) impose a new reporting regime and potentially a 30% withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or **FFI** (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the U.S. Internal Revenue Service (**IRS**) to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Issuer (a **Recalcitrant Holder**). The Issuers are classified as FFIs.

The new withholding regime is now in effect for payments from sources within the United States and will apply to "**foreign passthru payments**" (a term not yet defined) no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which (A) with respect to Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register and (B) with respect to Notes that give rise to a dividend equivalent

pursuant to section 871(m) of the U.S. Internal Revenue Code of 1986, is the date that is six months after the date on which obligations of their type are first treated as giving rise to dividend equivalents, or which are materially modified after the grandfathering date and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued on or before the grandfathering date and additional Notes of the same series are issued after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an **IGA**). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a **"Reporting FI"** not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being **FATCA Withholding**) from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States has entered into agreements with Curaçao, France and Luxembourg (the **Relevant IGAs**) based largely on the Model 1 IGA.

If the Issuers are treated as Reporting FIs pursuant to the Relevant IGAs they do not anticipate that they will be obliged to deduct any FATCA Withholding on payments they make. There can be no assurance, however, that the Issuers will be treated as Reporting FIs, or that they would in the future not be required to deduct FATCA Withholding from payments they make. Accordingly, the Issuers and financial institutions through which payments on the Notes are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

While the Notes are cleared through Clearstream, Luxembourg, Euroclear and Clearstream Banking, Germany (together, the **Specified Clearing Systems**), it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and the common depositary or common safekeeper, given that each of the entities in the payment chain between the Issuers and the participants in the Specified Clearing Systems is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the Specified Clearing Systems. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive Notes will only be printed in remote circumstances.

**FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Notes.**

#### 7.1.1.2 *Hiring Incentives to Restore Employment Act*

The U.S. Hiring Incentives to Restore Employment Act introduced Section 871(m) of the U.S. Internal Revenue Code of 1986 which treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) and (ii). Proposed U.S. Treasury regulations expand the scope of withholding under Section 871(m) beginning 1 January 2016.

While significant aspects of the application of Section 871(m) to the Notes are uncertain, if the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

**Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Notes.**

THERE CAN BE NO ASSURANCE THAT A HOLDER OF NOTES, OR AN INTEREST THEREIN, WHO IS REQUIRED TO SELL NOTES, OR WHOSE NOTES ARE SOLD ON ITS BEHALF (IN THIS WAY) WILL NOT INCUR A SIGNIFICANT LOSS AS A RESULT OF THE NEED FOR THE ISSUER, OR FOR THE TRANSFEROR, TO FIND A PERMITTED TRANSFEREE WILLING TO PURCHASE THE NOTES. NEITHER THE ISSUER NOR ANY OTHER PERSON SHALL BE LIABLE TO A HOLDER FOR ANY SUCH LOSS.

EACH PURCHASER OF THIS NOTE OR ANY INTEREST HEREIN UNDERSTANDS THAT THE ISSUER MAY RECEIVE A LIST OF PARTICIPANTS HOLDING POSITIONS IN THE NOTES FROM ONE OR MORE BOOK-ENTRY DEPOSITORIES.

No payments will be made on the affected Notes from the date notice of the sale requirement is sent to the date on which the affected Notes are sold. There can be no assurance that a holder of Notes, or an interest therein, who is required to sell Notes, or whose Notes are sold on its behalf (in this way) will not incur a significant loss as a result of the need for the Issuer, or for the transferor, to find a Permitted Transferee willing to purchase the Notes. Neither the Issuer nor any other party shall be liable to a holder for any such loss;
- (g) that the Issuer may receive a list of participants holding positions in the Notes from one or more book-entry depositories; and

that it will, and will require each subsequent holder to, notify any purchaser of the Notes from it of the representations and resale restrictions referred to in the foregoing paragraphs, and include as part of such transaction any legends or other disclosure required by such restrictions.

### 3. SELLING RESTRICTIONS: JURISDICTIONS WITHIN THE EEA

*The selling restrictions below may not be applicable in the context of a public offer, in which case appropriate modifications will be made in the applicable Final Terms.*

#### 3.1 Public Offer Selling Restriction under the Prospectus Directive

In relation to each Member State of the EEA which has implemented the Prospectus Directive (each a **Relevant Member State**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme and each other Purchaser will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**), it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Base Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a **Non-exempt Offer**), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that (i) the Issuer has given its written consent and (ii) any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable;
- (b) at any time to any legal entity which is a qualified investor as defined under the Prospectus Directive;
- (c) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression **Prospectus Directive** means Directive 2003/71/EC (and the amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in the Relevant Member State and the expression **2010 PD Amending Directive** means Directive 2010/73/EU.

#### 1.1 Société Générale

No authorisation procedures are required of Société Générale by French law for the establishment of the Programme or the giving of the guarantees in respect of the Programme.

#### 1.2 SG Issuer

The issue of Notes under the Programme have been duly authorised by a resolution of the board of directors of SG Issuer dated 19 December 2014.

#### 1.3 Société Générale Effekten GmbH

No specific resolutions, authorisations or approvals by the Issuer's corporate bodies are required for the issue of Notes under the Programme.

### 2. CREDIT RATINGS

SG Issuer and Société Générale Effekten GmbH are not rated.

At the date of this Base Prospectus, Société Générale is rated:

**"AA (low) par DBRS:** The DBRS® long-term rating scale provides an opinion on the risk of default on a scale of 'AAA' to 'D'. 'AA' ratings denote superior credit quality. The capacity for payment of financial obligations is considered high. Credit quality differs from 'AAA' only to a small degree. Unlikely to be significantly vulnerable to future events. All rating categories other than 'AAA' and 'D' also contain subcategories "(high)" and "(low)". The absence of either a "(high)" or "(low)" designation indicates the rating is in the middle of the category.

**"A" par Fitch Ratings:** An Issuer Default Rating at Fitch Ratings provides an ordinal ranking of issuers, on a scale of 'AAA' to 'D', based on the agency's view of their relative vulnerability to default, rather than a prediction of a specific percentage likelihood of default. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifiers "+" or "-" may be appended to a rating to denote relative status within major rating categories.

**"A2" par Moody's Investors Services:** Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by financial institutions on a scale of 'Aaa' to 'C'. Obligations rated 'A' are judged to be upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from 'Aa' through 'Caa'. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

**"A" par Standard and Poor's:** A Standard & Poor's issue credit rating is a forward-looking opinion on a scale of 'AAA' to 'D' about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program. The opinion reflects Standard & Poor's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default. An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

As at the date of this Base Prospectus, each of DBRS Ratings Limited, Moody's France S.A.S., Fitch France S.A.S. and Standard & Poor's Credit Market Services S.A.S. is established in the European Union and is registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council dated 16 September 2009 (as amended) and is included in the list of registered credit rating agencies published at the website of the European Securities and Markets Authority ([www.esma.europa.eu](http://www.esma.europa.eu)).
