Any Early Redemption Amount not paid when due as provided in Condition 9, shall be payable together with accrued interest calculated in accordance with Condition 5 applying the terms set forth in Term 16. |

ADDITIONAL PROVISIONS RELATING TO THE INDEX

20. Index-Related Events:

- (a) Scheduled S_f Observation Date or Scheduled Initial Observation Date, as applicable, is a Disrupted Day:

If in the opinion of the Calculation Agent the Scheduled S_f Observation Date or Scheduled Initial Observation Date, as applicable, occurs on a day that is a Disrupted Day, then the S_f Observation Date, or Initial Observation Date, as applicable, will be postponed until the first following Trading Day that is not a Disrupted Day, unless each of the eight consecutive Trading Days immediately following the Scheduled S_f Observation Date or Scheduled Initial Observation Date, as applicable, is a Disrupted Day. In that case, (i) the eight such consecutive Trading Days shall be deemed to be the S_f Observation Date or Initial Observation Date, as applicable, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine the relevant Closing Level of the Index on such Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the exchange traded or quoted price as of the Scheduled Closing Time on the last such consecutive Trading Day of each Component Security (or, if an event giving rise to a Disrupted Day has occurred in respect of a Component Security on such eight consecutive Trading Days, its good faith estimate of the value for the relevant security as of the Scheduled Closing Time on such eight consecutive Trading Days).

- (b) Successor Index and Index Cancellation:

If the Index Sponsor discontinues publication of the Index (an “**Index Cancellation**”) and another entity (the “**Successor Index Sponsor**”) publishes a successor or substitute Index that the Calculation Agent determines, in good faith and according to the best market practice, to be comparable to the Index (a “**Successor Index**”), then, the Calculation Agent will substitute the Successor Index as calculated by the Successor Index Sponsor for the Index.

In the event of an Index Cancellation and:

- the Calculation Agent does not select a Successor Index, or
- the Successor Index is no longer published on any of the relevant Trading Days,

the Calculation Agent will (but without prejudice to the occurrence and the consequences of the occurrence of an

Amendment Event pursuant to Term 21) compute a substitute level for the Index in accordance with the procedures last used to calculate the level of the Index before any discontinuation but using only those securities that composed the Index prior to such discontinuation until such time as a Successor Index is selected or the Final Observation Date, whichever is earlier.

If in accordance with the previous paragraphs, a Successor Index is selected or the Calculation Agent calculates a level as a substitute for the Index as described above the Successor Index or level will be used as a substitute for the Index for all purposes after such selection or substitution, including for purposes of determining whether a Market Disruption Event exists, even if the Index Sponsor elects to begin republishing the Index, unless the Calculation Agent in good faith and according to the best market practice decides to use the republished Index.

(c) Index Modification:

If at any time the method of calculating the level of the Index or the level of the Successor Index, changes in any material respect, or if the Index or Successor Index is in any other way modified so that the Index or Successor Index does not, in the opinion of the Calculation Agent, fairly represent the level of the Index had those changes or modifications not been made, then, from and after that time, the Calculation Agent will on each date that the closing level of the Index is to be calculated, make any adjustments as, in the good faith judgment of the Calculation Agent, may be necessary in order to arrive at a calculation of a level of a stock index comparable to the Index or such Successor Index, as the case may be, as if those changes or modifications had not been made, and calculate the Closing Level with reference to the Index or such Successor Index, as so adjusted. Accordingly, if the method of calculating the Index or a Successor Index is modified and has a dilutive or concentrative effect on the level of such index (including, but not limited to a share or stock split), then the Calculation Agent will adjust such index in order to arrive at a level of such index as if it had not been modified (including, but not limited to, as if a share or stock split had not occurred).

(d) Correction of the Index:

With the exception of any corrections published after the day which is three Trading Days prior to the Maturity Date, if the level of the Index published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction is published by the relevant Index

Sponsor or (if applicable) the relevant Successor Index Sponsor, no later than five Trading Days following the date of the original publication, the level to be used shall be the level of the Index as so corrected. Corrections published after the day which is three Trading Days prior to the Maturity Date will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

21. Amendment Event / Early Index Linked Interest Amount:

In the event of the occurrence of an Amendment Event, the Issuer shall be required to pay an amount (which may be zero), calculated per Calculation Amount, equal to the Early Index Linked Interest Amount as soon as practicable after the Amendment Event occurs. For the avoidance of doubt, the occurrence of an Amendment Event shall not alter the Issuer's obligation to pay an amount equal to the Specified Denomination per Calculation Amount on the Maturity Date.

The term "**Amendment Event**" means the occurrence of either of the following events:

- (i) an Index Cancellation occurs on or before the Final Observation Date and the Calculation Agent determines, in good faith and according to the best market practice, that the application of the provisions of Term 20(b) does not achieve a result providing investors with a comparable financial exposure; or
- (ii) the Calculation Agent determines that a Hedging Event has occurred.

The Calculation Agent shall forthwith give notice (the "**Notice**") to the Issuer and the Global Agent of a determination made under paragraph (i) or (ii) above.

The Issuer shall give notice to the Noteholders as soon as practicable in accordance with Condition 12(c) and (d) to the extent applicable, stating the receipt of the Notice, giving details of the relevant determination made by the Calculation Agent and the date on which the Early Index Linked Interest Amount will be paid.

"**Early Index Linked Interest Amount**" means the fair market value of the equity option embedded in each Note, as determined by the Calculation Agent in good faith and according to the best market practice. The Early Index Linked Interest Amount could be zero, but shall not be less than zero.

The Early Index Linked Interest Amount will be determined by the Calculation Agent on or as soon as reasonably practicable after the Amendment Event occurs.

“Hedging Event” means each of Change in Law and Hedging Disruption.

“Change In Law” means that, on or after the Trade Date, (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law, solvency or capital requirements), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority or financial authority), or the combined effect thereof if occurring more than once, the Issuer determines in good faith and according to the best market practice that:

- (a) it has become illegal for it to hold, acquire or dispose of any relevant hedge positions relating to the Index; or
- (b) it would incur a materially increased cost (including, without limitation, in respect of any tax, solvency or capital requirements) in maintaining the Notes in issue or in holding, acquiring or disposing of any relevant hedge position relating to the Index.

“Hedging Disruption” means that the Issuer is in practice unable, acting in good faith and after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) (including swap transactions) or asset(s) or any futures or options contract(s) necessary to hedge the equity price risk or any other relevant price risk including but not limited to the currency risk of the Issuer or issuing and performing its obligations with respect to the Notes, or (B) realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s) or futures or option contract(s) or any relevant hedge positions relating to the Index.

The Issuer shall be entitled to determine the Early Index Linked Interest Amount and to make all determinations under “Change in Law” and “Hedging Disruption” in lieu of the Calculation Agent, in the event the Calculation Agent is unable to fulfil its obligations hereunder due to its bankruptcy, insolvency (or other similar proceedings), or it becoming subject to the appointment of an administrator or other similar official, with insolvency, rehabilitative or regulatory jurisdiction over it.

22. Additional Definitions:

“Calculation Agent” means BNP Paribas or such successor calculation agent as may from time to time be appointed by the Issuer. All determinations made by the Calculation Agent will be made in good faith and

according to the best market practice and, absent a determination of a manifest error, will be conclusive for all purposes and binding on the holders and beneficial owners of the Securities. Neither the Calculation Agent nor the Issuer will have any responsibility for good faith errors or omissions in calculating or disseminating information regarding the Index or any Successor Index or as to modifications, adjustments or calculations by the Index Sponsor or any Successor Index Sponsor in order to arrive at the level of the Index or any Successor Index.

“Component Security” means any security comprised in the Index.

“Disrupted Day” means a Trading Day in respect of which the Calculation Agent has determined a Market Disruption Event has occurred or is continuing.

“Exchange” means in respect of each Component Security the principal stock exchange on which such Component Security is principally traded.

“Early Closure” means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its normally Scheduled Closing Time unless such earlier closing time is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange system for execution at the close of trading on such Exchange Business Day.

“Exchange Business Day” means any Trading Day on which the Index Sponsor publishes the level of the Index, each Exchange and Related Exchange is open for business during its regular trading session, notwithstanding any such Exchange or Related Exchange closing prior to its scheduled weekday closing time and the Issuer determines in good faith and according to the best market practice that it is able to hedge its obligations in respect of the Index.

“Exchange Disruption” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent in good faith and according to the best market practice) the ability of market participants in general to effect transactions in or obtain market values for (A) any Component Security on the Exchange in respect of such Component Security or (B) futures or options contracts relating to the Index on the Related Exchange.

“Final Observation Date” means June 15, 2023 (n = 8) subject to postponement in the event such Trading Day is a Disrupted Day as per Term 20(a) above.

“Index Sponsor” means Solactive AG

“Market Disruption Event,” as determined by the Calculation Agent in good faith and according to the best market practice, means in respect of any Trading Day:

- (i) that the Index Sponsor fails to publish the level of the Index, or
- (ii) in respect of any Component Securities, that an Exchange or any Related Exchange fails to open for trading during its regular trading session or
- (iii) the occurrence or existence of any of the following events:

- a Trading Disruption in respect of such Component Security, if the Calculation Agent determines it is material, at any time during the one hour period that ends at the close of trading for an Exchange or Related Exchange on which such Component Security is principally traded; or

- an Exchange Disruption in respect of such Component Security, if the Calculation Agent determines it is material, at any time during the one hour period that ends at the close of trading for an Exchange or Related Exchange on which such Component Security is principally traded; or

- an Early Closure in respect of such Component Security

and

- the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of the Index.

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at any time, then the relevant percentage contribution of that security to the level of the Index will be based on a comparison of (i) the portion of the level of the Index attributable to that Component Security and (ii) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event.

Notwithstanding the occurrence of a Market Disruption Event in respect of any Trading Day as described above, if such Market Disruption Event occurs solely as a result of the failure of the Index Sponsor to publish a level for the Index, the Calculation Agent may (but is not obliged to) disregard such Market Disruption Event in respect of such day and determine the level of the Index for such day as described under Term 20(b) “Index Related Events – Successor Index and Index Cancellation”.

“Related Exchange” means each exchange or quotation system on which futures or options contracts relating to the Index are traded and where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to the Index, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the futures or options contracts relating to such Index has temporarily relocated (*provided* that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original related exchange).

“Scheduled Closing Time” means the scheduled closing time of an Exchange or the Related Exchange, as applicable, on any Trading Day, without regard to after hours or any other trading outside of the regular trading hours.

“Trade Date” means June 15, 2015

“Trading Day” means any day on which the Index Sponsor is scheduled to publish the level of the Index, the Exchange and Related Exchange is scheduled to be open for trading during its regular trading sessions and the Issuer determines in good faith and according to the best market practice that it is able to hedge its obligations in respect of the Index.

“Trading Disruption” means any suspension of or limitation imposed on trading by the Exchange or Related Exchange or otherwise, whether by reason of movements in price exceeding limits permitted by the Exchange or Related Exchange or otherwise, (i) relating to any Component Security on the Exchange or in respect of such Component Security or (ii) in options contracts or futures contracts relating to the Index on the Related Exchange.

GENERAL PROVISIONS APPLICABLE TO THE NOTES

23. Form of Notes (Condition 1(a)):
- Registered Notes
- Global Registered Certificate available on Issue Date
24. New Global Note:
- No
25. Financial Centre(s) or other special provisions relating to payment dates (Condition 7(h)):
- London and New York
26. Governing law (Condition 14):
- English
27. Additional Risk Factors:
- AN INVESTMENT IN THE NOTES IS SUBJECT TO THE RISKS DESCRIBED BELOW, AS WELL AS THE RISKS DESCRIBED UNDER “RISK FACTORS” IN THE ACCOMPANYING PROSPECTUS. THE NOTES ARE A RISKIER INVESTMENT THAN ORDINARY FIXED RATE NOTES OR FLOATING RATE NOTES. INVESTORS SHOULD CAREFULLY CONSIDER WHETHER THE NOTES ARE SUITED TO THEIR PARTICULAR CIRCUMSTANCES. ACCORDINGLY, PROSPECTIVE INVESTORS SHOULD CONSULT THEIR FINANCIAL AND LEGAL ADVISERS AS TO THE RISKS ENTAILED BY AN INVESTMENT IN THE NOTES AND THE SUITABILITY OF THE NOTES IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES.

Suitability and appropriateness of Investment

An investment in the Notes is only suitable and appropriate for investors who have the requisite knowledge and experience in financial and business matters to evaluate the information contained in the Prospectus and the Final Terms, who have made their own independent decision to invest in the Notes and as to whether the Notes are suitable and appropriate for them, and who are capable of bearing the economic risk of an investment in the Notes.

The Index may not result in any Index Linked Interest Amount at Maturity

The objective of the Index is to measure the performance of up to 30 listed equities, incorporated in Europe and traded on developed European markets, selected based on qualitative and quantitative criteria, including strong environmental, social and corporate governance principals, trading volume and dividend yield. In certain circumstances, the Component Securities, and their weights in the Index, may also be selected based on having

lower historical volatility than other potentially eligible constituents (which is referred to as the “**volatility filter**”). Because the extent of past increases in the prices of particular stocks is not a factor used in selecting the Component Securities, the Index does not necessarily include stocks that have experienced price increases in the past. No assurance can be given that the stock selection criteria for the Index will result in any Index Linked Interest Amount or that the Index will perform well or outperform any alternative investment that might be constructed from the Component Securities. In addition, no assurance can be given that the volatility filter will successfully avoid any volatile movements of the Index or that an Index composed of stocks whose prices exhibit higher volatility would not perform better.

The Average Index Level may be less than the Closing Level of the Index on the Final Observation Date

The Index Linked Interest Amount, if any, that Noteholders will be entitled to on the Maturity Date will depend on the extent, if any, to which the average of the Closing Levels of the Index observed on each S_f Observation Date_n (the “**Average Index Level**”) exceeds the Closing Level of the Index on the Initial Observation Date (the “**Initial Index Level**”), relative to the Initial Index Level. The Average Index Level may be less than the Closing Level of the Index on the Final Observation Date. As a result, a return on the Notes may be less than what you would have received were the Index Linked Interest Amount based solely on the Closing Level of the Index on the Final Observation Date. This difference could be particularly large if there is a significant increase in the level of the Index on the S_f Observation Dates close to the Final Observation Date. The extent, if any, to which the Closing Level of the Index on any one S_f Observation Date exceeds the Initial Index Level may be partially or entirely offset by the performance of the Index on one or more other S_f Observation Date(s). Additionally, the secondary market value of the Notes, if such a market exists, will be impacted by the Closing Level of the Index on any previous S_f Observation Dates, because such Closing Levels will affect the Index Linked Interest Amount, if any.

Noteholders will not receive interest payments on the Notes, except during the first two years of the life of the Notes

Noteholders will not receive any periodic interest payments on the Notes, except during the first two years of the life of the Notes. Payment at maturity for each USD 2,000 nominal amount of the Notes that Noteholders own will be the Final Redemption Amount consisting of the

Issue Price and, if the Average Index Return is greater than zero, an Index Linked Interest Amount, the size of which will depend on the extent, if any, to which the Average Index Level exceeds the Initial Index Level, relative to the Initial Index Level. Even if the Final Redemption Amount plus the Index Linked Interest Amount exceeds the Issue Price of the Notes, the overall return earned on the Notes may be less than a Noteholder would otherwise have earned by investing in a non-indexed debt security of comparable maturity that bears interest at a prevailing market rate.

In case of an Amendment Event, Noteholders will receive for each USD 2,000 nominal amount of Notes held an Early Index Linked Interest Amount which may not reflect the performance of the Index throughout the term of the Notes

In the event of the occurrence of an Amendment Event (which includes an Index Cancellation, as described in Term 21 “Amendment Event / Early Index Linked Interest Amount”), the Issuer shall be required to pay an amount (which may be zero), calculated per USD 2,000 nominal amount of Notes, equal to the Early Index Linked Interest Amount (as defined in Term 21), as soon as possible after the occurrence of such Amendment Event, which may be earlier than the scheduled Maturity Date. Such Early Index Linked Interest Amount will be the fair market value of the equity option embedded in each Note, as determined by the Calculation Agent in good faith and according to the best market practice and may not reflect the performance of the Index throughout the term of the Notes. Should an Amendment Event occur prior to the Maturity Date, there will be no Index Linked Interest Amount at Maturity, and therefore Noteholders will not benefit from or participate in any increase in the value of the Index after such Amendment Event.

An investment in the Notes is not the same as an investment in the securities underlying the Index

The payment of dividends on the Component Securities has no effect on the calculation of the Index level. Therefore, the return on the Noteholders’ investment based on the percentage change in the Index is not the same as the total return based on the purchase of those underlying securities held for a similar period. As investors in the Notes, Noteholders will not have voting rights or any right to receive dividends or other distributions or any other rights with respect to the Component Securities.

The market price of the Notes may be influenced by many factors

The Notes are not designed to be short-term trading instruments. Many factors, most of which are beyond IBRD's control, will influence the value of the Notes and the price at which the Dealer may be willing to purchase or sell the Notes in the secondary market, including: the current level of the Index, interest and yield rates in the market, the volatility of the Index, economic, financial, political and regulatory or judicial events that affect the securities underlying the Index or stock markets generally and which may affect the appreciation of the Index, the time remaining to the maturity of the Notes, the dividend rate on the securities underlying the Index, and IBRD's creditworthiness. Some or all of these factors may influence the price that Noteholders will receive if they choose to sell their Notes prior to maturity. The impact of any of the factors set forth above may enhance or offset some or all of any change resulting from another factor or factors.

Noteholders have no recourse to the Index Sponsor or to the issuers of the Component Securities

The Notes are not sponsored, endorsed, sold or promoted by the Index Sponsor or by any issuer of the Component Securities. Neither the Index Sponsor nor any such issuer has passed on the legality or suitability of, or the accuracy or adequacy of descriptions and disclosures relating to, the Notes. Neither the Index Sponsor nor any such issuer makes any representation or warranty, express or implied, to prospective investors in the Notes or any member of the public regarding the advisability of investing in the Component Securities generally or the Notes particularly, or the ability of the Index to track general stock performance. The Index Sponsor has no obligation to take the needs of IBRD or the needs of the Noteholders into consideration in determining, composing or calculating the Index. Neither the Index Sponsor nor any issuer of the Component Securities comprising the Index is responsible for, and none of them has participated in the determination of, the timing, prices or quantities of the Notes to be issued. Neither the Index Sponsor nor any such issuer has any liability in connection with the administration, marketing or trading of the Notes.

Historical performance of the Index is not indicative of future performance

The future performance of the Index cannot be predicted based on its historical performance. IBRD cannot guarantee that the level of the Index will increase. The Index was created on 10 April 2013.

The Index Sponsor may discontinue publication of the Index

If the Index Sponsor discontinues or suspends the calculation of the Index, it may become difficult to determine the market value of the Notes or the amount payable in respect of the Notes. The Calculation Agent may designate a successor index selected in good faith and according to the best market practice. If the Calculation Agent determines in good faith and according to the best market practice that no successor index comparable to the discontinued or suspended Index exists, the amount Noteholders receive may be determined by the Calculation Agent in good faith and according to the best market practice. Any of these actions could adversely affect the value of the Notes. Adjustments to the Index could adversely affect the Notes

The Index Sponsor can add, delete or substitute the securities underlying the Index or make other methodological changes that could change the value of the Index at any time. The Index Sponsor may discontinue or suspend calculation or dissemination of the Index. The Index Sponsor has no obligation to consider the interests of the Noteholders in calculating or revising its Index.

(a) The issue of the Notes is not sponsored, promoted, sold or supported in any other manner by Solactive AG (the “**Index Sponsor**”) nor does the Index Sponsor offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or the Index price at any time or in any other respect. The Index is calculated and published by the Index Sponsor. The Index Sponsor uses its best efforts to ensure that the Index is calculated correctly. The Index Sponsor has no obligation to point out errors in the Index to third parties including but not limited to investors and/or financial intermediaries of the Notes. Neither publication of the Index by the Index Sponsor nor the licensing of the Index or Index trade mark for the purpose of use in connection with the Notes constitutes a recommendation by the Index Sponsor to invest capital in said Notes nor does it in any way represent an assurance or opinion of the Index Sponsor with regard to any investment in these Notes.

(b) The Issuer shall have no liability for any act or failure to act by an Index Sponsor in connection with the calculation, adjustment or maintenance of the Index. The Issuer does not have any affiliation with or control over the Index or Index Sponsor or any control over the

computation, composition or dissemination of the Index. A description of the Index is attached to these Final Terms as Schedule I. All information contained in these Final Terms regarding the Index, including, without limitation, the information set forth in Schedule I, its make-up, method of calculation and changes in components, is derived from, and based solely upon, information obtained from publicly available sources it believes reliable, and in particular the Index Sponsor's website above mentioned, and is for informational purposes only and should not be relied upon by the Noteholder or prospective investor. As such, neither the Calculation Agent nor Issuer will have any responsibility for errors or omissions in calculating or disseminating information regarding the Index or any Successor Index or as to modifications, adjustments or calculations by the Index Sponsor or any Successor Index Sponsor in order to arrive at the level of the Index or any Successor Index. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility is accepted by the Issuer or the Calculation Agent as to the accuracy, completeness and timeliness of information concerning the Index or Successor Index.

(c) By investing in the Notes, each investor represents and agrees that:

- (i) it has made its own independent decision to invest in the Notes based upon its own judgment and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the Issuer, the Index Sponsor, the Calculation Agent, or the Dealer as investment advice or as a recommendation to invest in the Notes, it being understood that information and explanations related to the terms and conditions of the Notes shall not be considered to be investment advice or a recommendation to invest in the Notes. No communication (written or oral) received from the Issuer, the Calculation Agent, the Index Sponsor or the Dealer shall be deemed to be an assurance or guarantee as to the expected results of the investment in the Notes;
- (ii) it is capable of assessing the merits of and understanding (on its own behalf or through independent professional advice), and understands and accepts the terms and conditions and the risks of the investment in the Notes, including but not limited to the risks set out in these Final Terms (which are not, and do not intend to be, exhaustive). It is also capable of assuming, and assumes, the risks of the investment in the Notes;

(iii) it has fully considered the market risk associated with an investment linked to the Index. Each Noteholder and investor in the Notes understands that none of the Issuer, the Calculation Agent, the Dealer or the Index Sponsor purports to be a source of information on market risks with respect to the Index; and

(iv) it understands and acknowledges that the value of the Index is calculated based on the rules of the Index as set out in the Index conditions. The Index conditions may be amended by the Index Sponsor at any time, and such amendments may be prejudicial to the Noteholder.

GENERAL INFORMATION

The following documents of IBRD are incorporated by reference in these Final Terms: (i) Global Debt Issuance Facility Prospectus dated May 28, 2008 (the “**Prospectus**”); (ii) IBRD’s most recent Information Statement dated September 16, 2014, and (iii) IBRD’s Quarterly Financial Statements (unaudited) dated March 31, 2015. These documents have been filed with the U.S. Securities and Exchange Commission (“**SEC**”) and are available on the SEC’s website as well as on the following website of IBRD: <http://treasury.worldbank.org/cmd/htm/index.html>. Alternatively, to obtain copies of these documents, contact one of the Authorized Offerors (as defined below) or your financial advisor.

During the Offer Period the Notes will be offered to investors in Italy as more fully described below under “TERMS AND CONDITIONS OF THE PUBLIC OFFER”.

SPECIAL ACCOUNT

Special Account

An amount equal to the net proceeds of the issue of the Notes will be credited to a special account that will support IBRD’s lending for Eligible Projects. So long as the Notes are outstanding and the special account has a positive balance, periodically and at least at the end of every fiscal quarter, funds will be deducted from the special account and added to IBRD’s lending pool in an amount equal to all disbursements from that pool made during such quarter in respect of Eligible Projects.

Eligible Projects

“Eligible Projects” means all projects funded, in whole or in part, by IBRD that promote the transition to low-carbon and climate resilient growth in the recipient country, as determined by IBRD. Eligible Projects may include projects that target (a) mitigation of climate change, including investments in low-carbon and clean technology programs, such as energy efficiency and renewable energy programs and projects (“Mitigation Projects”) or (b) adaptation to climate change, including investments in climate-resilient growth (“Adaptation Projects”).

Examples of Mitigation Projects include, without limitation:

- Rehabilitation of power plants and transmission facilities to reduce greenhouse gas emissions
- Solar and wind installations
- Funding for new technologies that permit significant reductions in GHG emissions
- Greater efficiency in transportation, including fuel switching and mass transport
- Waste management (methane emission) and construction of energy-efficient buildings

- Carbon reduction through reforestation and avoided deforestation

Examples of Adaptation Projects include, without limitation:

- Protection against flooding (including reforestation and watershed management)
- Food security improvement and stress-resilient agricultural systems which slow down deforestation
- Sustainable forest management and avoided deforestation

The above examples of Mitigation Projects and Adaptation Projects are for illustrative purposes only and no assurance can be provided that disbursements for projects with these specific characteristics will be made by IBRD during the term of the Notes.

CONFLICT OF INTEREST

The Authorised Offerors will receive a commission for the distribution investment service performed in the context of the offer. Furthermore, Banca Nazionale del Lavoro S.p.A., one of the Authorised Offerors, belongs to the same banking group as BNP Paribas. The fact that the Authorised Offerors receive distribution commissions create possible conflicts of interest.

BNP Paribas has undertaken to subscribe for a minimum amount of Notes equal to USD 15,000,000 under the Terms Agreement entered into on May 15, 2015 by BNP Paribas and the Issuer (the “**Terms Agreement**”) – irrespective of the outcome of the offer of the Notes.

In addition, BNP Paribas will be Calculation Agent under the Notes and will also be IBRD's counterparty in a related swap transaction entered into by IBRD in order to hedge its obligations under the Notes. The existence of such multiple roles and responsibilities for BNP Paribas creates possible conflicts of interest. All amounts payable under the related swap transaction are expected, as of the Issue Date, to be calculated on the same basis as the amounts payable by IBRD under the Notes. As a result, the determinations made by BNP Paribas in good faith and according to the best market practice as Calculation Agent for the Notes may affect the amounts payable by BNP Paribas under the related swap transaction, and, in making such determinations, BNP Paribas may have economic interests adverse to those of the Noteholders. The Noteholder understands that although IBRD will enter into the related swap transaction with BNP Paribas as swap counterparty in order to hedge its obligations under the Notes, IBRD's rights and obligations under the related swap transaction will be independent of its rights and obligations under the Notes, and Noteholders will have no interest in the related swap transaction or any payment to which IBRD may be entitled thereunder.

TERMS AND CONDITIONS OF THE PUBLIC OFFER

The Issuer has agreed to allow the use of these Final Terms and the Prospectus by the Dealer and by any entities appointed as distributors by the Dealer (the “**Authorised Offerors**”) in connection with an offering of the Notes in Italy (the “**Public Offer Jurisdiction**”) during the Offer Period (as defined below). The list of the Authorised Offerors is published on the following website: www.GreenGrowthBond.com.

The offer of the Notes is addressed to the public at large in Italy only.

During the Offer Period (as defined below), the Notes will be distributed without any underwriting commitment by the Authorised Offerors, pursuant to certain distribution agreements dated May 15, 2015 between the Dealer and the Authorised Offerors. On the Issue Date (as defined below), the Notes will be subscribed for by the Dealer acting as principal and then assigned by the Authorised Offerors in the context of the offer of the Notes.

The Dealer has undertaken to subscribe for a minimum amount of Notes equal to USD 15,000,000 under the Terms Agreement irrespective of the outcome of the offer of the Notes., save in the case of withdrawal of the offer and cancellation of the issuance of the Notes as provided for by clause (iii) below. No undertakings have been made by the Authorised Offerors or third parties to guarantee the outcome of the offer of the Notes in connection of any minimum amount of the Notes.

All offers of Notes will be made only in accordance with the selling restrictions set forth in the Prospectus and the provisions of these Final Terms and in compliance with all applicable laws and regulations, provided that no such offer of Notes shall require the Issuer or the Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive (or supplement a prospectus pursuant to Article 16 of the Prospectus Directive) or to take any other action in any jurisdiction other than as listed above.

- (i) Offer Period: From and including May 18, 2015 at 9.00 am CET time to and including June 12, 2015, at 4.00 pm CET time, subject to any early closing or extension of the Offer Period as described under (iii) below.

The Notes will be distributed through door-to-door selling pursuant to Article 30 of the Italian Legislative Decree No. 58 of 24 February 1998, as amended from time to time (the "**Italian Financial Services Act**") from and including May 18, 2015 at 9.00 am CET time to and including June 05, 2015, at 4.00 pm CET time, subject to any early closing or extension of the Offer Period as described under paragraphs (iii) and (v) below.

The Notes will be distributed through long distance selling techniques (*tecniche di comunicazione a distanza*) pursuant to article 32 of the Italian Financial Services Act from and including May 18, 2015 at 9.00 am CET time to and including May 29, 2015, at 4.00 pm CET time, subject to any early closing or extension of the Offer Period as described under paragraphs (iii) and (v) below.

- (ii) Offer Price: The Issue Price, equal to 100% of the Specified Denomination of each Note.

The Offer Price includes, per Specified Denomination, a commission for the distribution and promotion of the Notes paid by the Dealer to the Authorised Offerors, equivalent to a maximum annual amount of 0.40% (including VAT, if any) of the Specified Denomination of the Notes distributed by each Authorised Offeror.

- (iii) Early closing and cancellation: The Offer Period may be closed early as determined by the Dealer or the Issuer in their sole discretion.

The Issuer reserves the right, in agreement with the Dealer, to withdraw the offer of the Notes and cancel the issuance of the Notes at any time before the Issue

Date in the case that any extraordinary changes in the economic and political situation or in the capital, currency and exchange rates markets, either at a national or international level will have occurred. The Issuer will inform the public of the withdrawal of the offer of the Notes and the cancelation of the issuance of the Notes by means of a notice to be published on the website www.GreenGrowthBond.com.

For the avoidance of doubt, if any contract has been entered into on behalf of a potential investor and the Issuer exercises such a right, each such potential investor will not be entitled to receive the relevant Notes.

The Issuer reserves the right, in agreement with the Dealer, to extend the Offer Period. The Issuer will inform the public of the extension of the Offer Period by means of a notice to be published on the website www.GreenGrowthBond.com.

|------|---|--|
| (iv) | Conditions to which the offer is subject: | <p>The offer of the Notes is conditional on their issue.</p> <p>The final amount of the Notes issued will be determined by the Issuer in light of prevailing market conditions and in its sole and absolute discretion.</p> |
| (v) | Description of the application process: | <p>A prospective Noteholder will purchase the Notes in accordance with the arrangements in place between the relevant Authorised Offeror and its customers, relating to the purchase of securities generally. Noteholders (other than the Dealer) will not enter into any contractual arrangements directly with the Issuer in connection with the offer or purchase of the Notes.</p> |

During the Offer Period, investors may apply for the purchase of the Notes during normal Italian banking hours at the offices (*filiali*) of any Authorised Offerors by filling in, duly executing (also by appropriate attorneys) and delivering a specific acceptance form. Acceptance forms are available at each Authorised Offeror's office.

Authorised Offerors intending to distribute Notes through door-to-door selling (*fuori sede*) pursuant to article 30 of the Italian Financial Services Act will collect the acceptance forms – other than directly at their branches and offices – through financial promoters (*promotori finanziari*) pursuant to Article 31 of the Italian Financial Services Act.

Pursuant to Article 30, paragraph 6, of the Italian Financial Services Act, the validity and enforceability of contracts entered into through door-to-door selling is

suspended for a period of 7 (seven) days beginning on the date of purchase by the relevant investor. Within such period investors may notify the relevant Authorised Offeror of their withdrawal without payment of any charge or commission.

The Notes will be also offered through long distance selling techniques (*tecniche di comunicazione a distanza*) pursuant to article 32 of the Italian Financial Services Act (*i.e.*, through the trading-online platform of the Authorised Offerors or recorded telephone orders). In this case, investors may purchase the Notes via the internet or the telephone, after being identified by the Authorised Offeror, by using their personal password/identification codes.

Pursuant to article 67-*duodecies* of the Italian Legislative Decree No. 206/2005 as amended (the so-called “*Codice del Consumo*”), the validity and enforceability of the contracts entered into through long distance selling techniques (*tecniche di comunicazione a distanza*) is suspended for a period of 14 (fourteen) days beginning on the date of purchase by the relevant investor. Within such period investors may notify the relevant Authorised Offeror of their withdrawal without any charge or commission.

Applicants having no client relationship with the Authorised Offeror with whom the acceptance form is filed may be required to open a current account or to make a temporary non-interest bearing deposit of an amount equal to the counter-value of the Notes requested, calculated on the basis of the Issue Price of the Notes. In the event that the Notes are not allotted or only partially allotted, the total amount paid as a temporary deposit, or any difference with the counter-value of the Notes allotted, will be repaid to the applicant without charge by the Issue Date.

Each Authorised Offeror is responsible for the notification of any withdrawal right applicable in relation to the offer of the Notes to potential investors.

By purchasing the Notes, the holders of the Notes are deemed to have knowledge of all the Terms and Conditions of the Notes and to accept the said Terms and Conditions.

The Notes may be purchased in a Minimum Lot or an integral number of Notes greater than the Minimum Lot.

Multiple applications may be filled in and delivered by the same applicants with the same or different Authorised Offeror, without prejudice to the

circumstance that for the purposes of the allotment each applicant will be considered individually, independently of the number of acceptance forms delivered.

Companies providing investment portfolio management services through nominee registration, ("*società fiduciarie autorizzate alla gestione patrimoniale di portafogli d'investimento mediante intestazione fiduciaria*") as per article 60, paragraph 4, of Legislative Decree No. 415 of 23 July 1996, in order to participate in the offer solely on behalf of their clients, must complete the relevant acceptance form for each client by entering the client's fiscal code in the appropriate box.

Investors may also submit their applications to participate in the offer of the Notes through parties authorised to perform individual investment portfolio management services pursuant to Italian Financial Services Act, provided that these parties sign the appropriate form in the name and on behalf of the applicant, and through intermediaries authorised to receive and transmit orders, pursuant to the Italian Financial Services Act, at the conditions provided for by CONSOB regulations from time to time applicable.

Applications received by the Authorised Offerors prior to the start of the Offer Period or after the closing date of the Offer Period, will be considered as not having been received and will be void.

- (vi) Details of the minimum and/or maximum amount of application (whether in number of Notes or aggregate amount to invest):

Without prejudice to the provisions of clause (iii) above regarding the withdrawal of the offer and cancellation of the issuance of the Notes, the Notes will be issued for a minimum amount of USD 15,000,000 based on the underwriting commitment of the Dealer under the Terms Agreement — up to a maximum amount of USD 150,000,000 based on the decision of the Issuer and on the demand from the investors (the "**Total Amount of the Offer**").

The Issuer reserves the right, in agreement with the Dealer, to increase the Total Amount of the Offer during the Offer Period. The Issuer will inform the public of the size increase by means of a notice to be published on the website www.GreenGrowthBond.com.

Minimum purchase amount per investor: USD 2,000 (the "**Minimum Lot**").

There is no maximum purchase amount of the Notes to be applied for by each investor.

ANNEX

This Annex is to be read in conjunction with and forms part of the Prospectus and the Final Terms and, although there is no legal obligation whatsoever, under any applicable law, for the Issuer or the Dealer to provide you with such information as mentioned herein, this Annex is meant to answer some practical questions that you might have regarding the Notes, however, in general terms only. It does not contain all the information which may be important to you. You should read the terms and conditions of the Notes included in the Prospectus and the Final Terms together with the more detailed information contained in the remainder of the Prospectus. You should carefully consider, amongst other things, the risks set out in the Prospectus and in the Final Terms. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Notes. The information contained in this section is subject in its entirety to the terms and conditions of the Notes included in the Prospectus and the Final Terms

What are the Notes?

The Notes are issued by the International Bank for Reconstruction and Development (the "**Issuer**"). The Notes are structured debt securities linked to the performance of an index, the Ethical Europe Equity Index. A Note entitles the holder to receive from the Issuer and at Maturity the USD 2,000 per Calculation Amount plus an amount equal to the Index Linked Interest Amount (if any – see below). There is a fixed coupon payment only on the first and second anniversary of the Notes. As the Notes have a minimum payout of USD 2,000 per Calculation Amount on the Maturity Date, the Issuer is also the entity which protects the payment on the Maturity Date of no less than the Specified Denomination. The principal is therefore not at risk **if the Notes are held to maturity**, subject to Issuer credit risk (insolvency or payment default of the Issuer) and subject to the potential foreign exchange risk if the Noteholder converts into Euro the payout (coupon, nominal amount and Index Linked Interest Amount if any) it receives in USD.

Where does my money go?

An amount equal to the net proceeds of the issue of the Notes will be credited to a special account that will support IBRD's lending for Eligible Projects as described in the Final Terms.

Will I receive income?

Yes, but only if performance of the Index is positive as set out in the Final Terms. Positive performance of the Index is not guaranteed. Moreover, there is a fixed coupon payment on the first and second anniversary of the Notes.

How is the Index Linked Interest Amount calculated?

The Index Linked Interest Amount will be equal to the performance of the Index multiplied by the Calculation Amount, or zero, whichever is greater. If the performance of the Index is equal to or below zero, the Index Linked Interest Amount will be zero. If the performance of the Index is positive, the Index Linked Interest Amount will be equal to such performance.

The performance of the Index is calculated the following way:

On the Initial Observation Date (which is the Trade Date), the closing level of the Ethical Europe Equity index (the "**Index**") is recorded as an initial observation of the Index. On June 15 in each year from and including June 15, 2016 to and including June 15, 2023, the closing level of the Index is recorded and the arithmetic mean of those 8 closing levels will comprise the final observation of the Index. Approximately two weeks prior to the Maturity Date, on June 15, 2023 (defined in the Final Terms as the Final Observation Date), the performance of the Index can be calculated, being the difference between the final observation of the Index, and the initial observation of the Index, divided by the initial observation of the Index:

final observation of the Index - initial observation of the Index

initial observation of the Index

Is there a limit on how much I can earn over the life of the Notes?

No. If the performance of the Index is positive, there is no cap on the potential Index Linked Interest Amount to be paid under the Notes. However, a positive performance of the Index is not guaranteed.

How does the Index link to the Notes?

The value of the potential Index Linked Interest Amount depends on the positive performance of the Index. However, in case of negative performance of the Index, the capital is guaranteed (which, nevertheless, remains subject to any applicable tax and currency exchange difference).

Do I have any right to receive any of the assets in the Index?

No. Except for the calculation of the Index Linked Interest Amount, there is no link with the Index and the assets used as a reference for this Index. Noteholders have no right to the assets in the Index.

Can I redeem early?

No. There is no provision in the Notes for a holder's early redemption right, other than in accordance with Condition 9 ("*Default*") of the Terms and Conditions of the Notes. However, application will be made for the Notes to be admitted to listing and to trading on the *Mercato Telematico delle Obbligazioni* (MOT), EuroMOT segment, organised and managed by Borsa Italiana S.p.A. and BNP Paribas Arbitrage SNC has informed the Issuer that, except in the case of exceptional market circumstances, it will, on a best efforts basis, during open business hours, offer to repurchase any Notes held by the investors at market bid price (which includes a bid-mid spread of 0.50% charged to the investor). Also, a brokerage fee may be applied by any financial intermediary involved. The Noteholders are invited to check with its financial intermediary if brokerage fees apply.

Can the Notes be redeemed early by the Issuer?

No. There is no provision in the Notes for the Issuer to redeem the Notes early. However, In the event of the occurrence of an Amendment Event the Issuer will be required to make a payment in respect of each Calculation Amount (which may be zero) equal to the Early Index Linked Interest Amount, as soon as possible after the occurrence of such Amendment Event, which may be earlier than the scheduled Maturity Date.

The occurrence of an Amendment Event shall not affect (i.e., will neither limit nor accelerate) the Issuer's obligation to pay the Specified Denomination on the Maturity Date. An Amendment Event is either an Index Cancellation or a Hedging Event (as described in Term 21 of the Final Terms ("*Amendment Event*")).

What are the fees?

The investors will purchase the Notes at an Offer Price of 100%. This price includes, per denomination of USD 2,000, a commission for the distribution and promotion of the Notes paid by the Dealer to the Authorised Offerors, equivalent to a maximum annual amount of 0.40% (including VAT, if any) of the USD 2,000 denomination of the Notes distributed by each Authorised Offeror.

How will the fees impact my investment?

The fees retained by the Authorised Offerors will not affect the amounts due in accordance with the terms and conditions of the Notes.

What is the Issuer's credit rating?

The Issuer's long-term senior debt rating is, as at the date hereof, Aaa (Moody's Investor Services) and AAA (S&P). Investors should note, however, that the ratings may not reflect the potential impact of all risks related to structure, market and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

What are some of the risks in owning the Notes?

Investing in the Notes involves a number of risks. We have described the most significant risks relating to the Notes in the Prospectus (under the heading "Risk Factors" at page 14 and following) and the Final Terms (under Term 27 "Additional Risk Factors" under the heading "General provisions applicable to the Notes").

Is there Currency Risk?

Since the Notes are issued in USD, you incur a foreign exchange risk if you decide to convert the coupon payments, the principal amount and/or the potential Index Linked Interest Amount that are paid to you at maturity into another currency (e.g. euro). Indeed, such returns when so converted will be affected, not only by the amount of the coupon, principal and Index Linked Interest Amount (if any) received, but also by the evolution of the USD against the relevant currency. If, upon maturity, the USD has increased in value against such currency, the final return in such currency will be higher. Conversely, a decrease in value of the USD will have the opposite impact.

Are the Notes a suitable and appropriate investment for me?

The Notes can only be offered to the investors by the Authorised Offerors (i.e., the distributors) if they are suitable and appropriate for the investors.

Should an investor decide to invest in the Notes, without getting any advice from its bank, its bank should in any case warn him/her if the Notes are not appropriate or suitable for him/her.

Will I always be able to sell my Notes in a secondary market prior to the Maturity Date?

There is no assurance as to the development or liquidity of any trading market for the Notes. Therefore, investors may not be able to sell their Notes easily or at prices that would provide them with a yield comparable to similar investments that have a developed secondary market. However, application will be made for the Notes to be admitted to listing and to trading on the *Mercato Telematico delle Obbligazioni* (MOT), EuroMOT segment, organised and managed by Borsa Italiana S.p.A. and BNP Paribas Arbitrage SNC has informed the Issuer that, except in the case of exceptional market circumstances, it will, on a best efforts basis, during open business hours, offer to repurchase any Notes held by the investors at market bid price (which includes a bid-mid spread of 0.50% charged to the investor). Also, a brokerage fee may be applied by any financial intermediary involved. The Noteholders are invited to check with its financial intermediary if brokerage fees apply.

Who is the Calculation Agent and what is its role?

BNP Paribas is the Calculation Agent for the Notes. As Calculation Agent for the Notes, BNP Paribas makes all calculations and determinations under the Notes. BNP Paribas will also be the Issuer's counterparty in a related swap transaction entered into by the Issuer in order to hedge its obligations under the Notes. The existence of such multiple roles and responsibilities for BNP Paribas creates possible conflicts of interest, as set out in the Final Terms.

Are there any taxes payable by me in relation to the Notes?

Schedule II contains a summary with regard to certain tax aspects which are of significance in connection with the Notes for certain jurisdictions. This summary does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for individual potential investors. It is recommended that potential purchasers of the Notes consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Notes under the tax laws of the country of which they are resident for tax purposes.

Where and in which form are the Notes held?

The Notes will initially be held by Euroclear Bank N.V./S.A. and Clearstream Banking S.A. (the "Clearing Systems") in the form of a global note which will be exchangeable for definitive securities only in the exceptional circumstances described in the Prospectus. For as long as any Notes are held by the Clearing Systems, payments of the coupon, principal and Index Linked Interest Amount, if any, will be made through the Clearing Systems. Investors must therefore rely on the Clearing System to distribute all payments attributable to the Notes which are received from the Issuer. Accordingly, investors will be exposed to the credit risk of, and default risk in respect of, the Clearing Systems, as well as the Issuer. Investors should note that neither the Issuer nor the Paying Agent (Citibank, N.A., London Branch) shall be responsible for the acts or omissions of the Clearing Systems. Furthermore, investors should be aware of the fact that the Clearing Systems may charge fees for the opening and operation of an investment account, transfers of Notes, custody services and on payments of interest, principal and other amounts or delivery of notes. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the Notes.

Ethical Europe Equity Index

The Notes as described in the present Final Terms and commercially named as “Green Growth Bonds”, are issued by International Bank for Reconstruction and Development and are, linked to the performance of the Ethical Europe Equity Index (the “Index”). The Index tracks the price movements in shares of companies that have a high dividend, relatively low historical volatility and pass several corporate social responsibility screens applied by the Index Adviser (Vigeo) and the Index Certifier (Forum Ethibel).

This Index has been designed to provide investors with exposure to a selection of European companies meeting certain environmental, social and governance (ESG) standards as well as ethical criteria. The Index relies also on financial criteria to select the companies.

More information on the Index can be found on the following website:
<http://www.solactive.com/en/?s=ethical%20europe%20equity&index=DE000SLA5EE6>.

The selection process is a 3-step process:

First step: Vigeo filter

Vigeo was founded in 2002 by Nicole Notat and has established itself as a European expert in the assessment of companies and organisations’ Social Responsibility (companies, states, local communities, associations, etc...).

Vigeo delivers independent opinions and publishes indices on risks and performances of more than 3,000 issuers, taking into account a wide field of sustainable development themes, particularly the respect of Human Rights, the valorisation of human capital, business ethics, governance, environment protection and societal commitment.

Vigeo has developed a referential built around 330 indicators and 38 ESG criteria based on universally recognised objectives published by international organisations (UN, ILO, OECD...). This exclusive rating and research methodology and Vigeo rating’s research satisfy high quality standard and benefit from the Arista certification, a recognised label of quality for responsible investment, since 2009.

The starting point of the selection is the Vigeo European Large Cap Universe, consisting of more than 700 companies. These companies are rated by Vigeo on 38 environmental, social and governance issues (“ESG”) grouped in 6 domains with grades on a scale from 0 to 100.

The Index will only retain companies having a score that is higher than 40 on average and which have a better score than the average of their sector.

Second step: Forum Ethibel filter

Forum ETHIBEL asbl was founded in 1991 by several non governmental organisations (NGOs) operating in the most diverse social action domains, with a view to independent screenings of ethical investment funds. As an independent audit institute, Forum ETHIBEL is recognized as an expert in rating, verification and certification of other investment and saving products, according to client’s proprietary ESG and ethical criteria.

The list of companies obtained after applying the VIGEO filter is screened to exclude companies involved in activities that are considered as unethical, among others weapon manufacturing, gambling, tobacco, nuclear activity or involved in serious environmental controversies. In addition, companies not respecting the ILO conventions ("ILO" means International Labour Organization) or the International Bill of Human Rights are also excluded.

Forum Ethibel operates a quarterly revision of the Index to certify its conformity with the non-financial aspects of the rulebook and the due diligence of the Index composition process.

Third step: financial filter

The list of companies obtained after applying the Vigeo and Forum Ethibel filters is further screened according to financial criteria:

- liquidity: only the companies having an average daily volume above 10M USD over the past 20 days are kept
- Dividend yield: only companies having a dividend yield above 115% of the average dividend yield of the 50 biggest free float European market capitalization are kept
- The final selection consists of the 30 most liquid stocks

The weighting of each stock will be inversely proportional to its volatility.

On May 11, 2015, the composition of the Index is the following:

SCHEDULE II TO THE FINAL TERMS

TAXATION

You should carefully consider the matters set forth under “Tax Matters” in the accompanying Prospectus. This summary supplements the section “Tax Matters” in the accompanying Prospectus and is subject to the limitations and exceptions set forth therein.

The following is only a general description of certain tax considerations relating to the Notes with regard to a limited number of jurisdictions. It does not purport to be a complete analysis of all tax considerations relating to the purchase, beneficial ownership, and disposition of the Notes.

Prospective purchasers of Notes should consult their tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes.

This summary is based upon the law as in effect on the date of these Final Terms and is subject to any change in law that may take effect after such date (or even before with retroactive effect).

The Issuer makes no representation or warranty, whether express or implied, as to the completeness or accuracy of this summary.

ITALIAN TAXATION

Income Tax

Under the current legislation, pursuant to the provisions of Legislative Decree No. 239 of 1 April 1996, as amended and restated (**Law 239**), payments of interest and other proceeds in respect of the Notes:

- (i) will be subject to *imposta sostitutiva* at the rate of 12.5 per cent. in the Republic of Italy levied as final tax if made to beneficial owners who are: (i) individuals resident in the Republic of Italy for tax purposes; (ii) Italian resident non-commercial partnerships; (iii) Italian resident public and private entities, other than companies, not carrying out commercial activities as their exclusive or principal purpose (including the Italian State and public entities); and (iv) Italian resident entities exempt from corporate income tax.

Payments of interest and other proceeds in respect of the Notes will not be included in the general taxable base of the above mentioned individuals, partnerships and entities.

The *imposta sostitutiva* will be levied by the Italian resident qualified financial intermediaries that will intervene, in any way, in the collection of interest and other proceeds on the Notes or in the transfer of the Notes;

- (ii) will be subject to *imposta sostitutiva* at the rate of 12.5 per cent in the Republic of Italy levied as provisional tax if made to beneficial owners who are: (i) individuals resident in the Republic of Italy for tax purposes; (ii) Italian resident non-commercial partnerships; and (iii) Italian resident public and private entities, other than companies; any of them engaged in an entrepreneurial activity – to the extent permitted by law – to which the Notes are connected;
- (iii) will not be subject to the *imposta sostitutiva* if made to beneficial owners who are: (i) Italian resident corporations, commercial partnerships or permanent establishments in Italy of non resident corporations to which the Notes are effectively connected; (ii) Italian resident collective investment funds, SICAVs, Italian resident pension funds referred to in Legislative Decree No. 124 of 21 April 1993, as further superseded by Legislative Decree 5 December 2005, No. 252

and Italian resident real estate investment funds established pursuant to article 37 of Legislative Decree No. 58 of February 24, 1998 and article 14-bis of law No. 86 of January 25, 1994; (iii) Italian resident individuals who have entrusted the management of their financial assets, including the Notes, to an Italian authorised financial intermediary and have opted for the so-called *risparmio gestito* regime according to Article 7 of Legislative Decree No. 461 of 21 November 1997 - the "Asset Management Option" and (iv), non Italian resident with no permanent establishment in Italy to which the Notes are effectively connected, the exemption applies provided that the non Italian investor promptly file with the authorized financial intermediary an appropriate *affidavit (autodichiarazione)* stating that the investor is not resident in Italy for tax purposes.

Interest and other proceeds accrued on the Notes held by Italian resident corporations, commercial partnerships, individual entrepreneurs as well as Italian resident public and private entities, other than companies, holding Notes in connection with entrepreneurial activities or permanent establishments in Italy of non-resident corporations to which the Notes are effectively connected, are included in the taxable base for the purposes of: (i) corporate income tax (*imposta sul reddito delle società, IRES*); or (ii) individual income tax (*imposta sul reddito delle persone fisiche, IRPEF*) plus local surtaxes, if applicable; under certain circumstances, such interest is included in the taxable basis of the regional tax on productive activities (*imposta regionale sulle attività produttive, IRAP*).

If holders of Notes subject to such final tax hold the Notes through an authorised intermediary in Italy having asset management power over such Notes, such holders may opt to pay a final 26 per cent. tax levied by the intermediary on all interest, other payments and gains deriving from such management on an annual basis ("managed savings option"). However, in such case, interest, other payments and gains arising from the Notes will be taxable for a portion equal to 48.08 per cent. only. If holders of Notes subject to such substitute tax on account of income taxes hold Notes through such an assets manager, interest, other payments and gains will be taxed as part of their overall income.

If interest are paid outside of Italy by an entity other than an authorised intermediary in Italy to residents of Italy who would otherwise be subject to the above 12.5 per cent. final tax, holders of Notes must include the payments received in their income tax return and the payments shall be subject to a different substitute tax at a 12.5 per cent. rate or, at the holders' option, to income taxes at the applicable rates to their overall income with a tax credit for taxes paid abroad.

If the Notes are held by an Italian pension fund and are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to the substitute tax, but must be included in the result of the relevant portfolio accrued at the end of the tax period for an amount of 62.5 per cent., to be subject to a 20 per cent. substitute tax.

If the Notes are held by an Italian authorised investment fund (*organismi di investimento collettivo del risparmio – O.I.C.R.*) or a SICAV (*società di investimento a capitale variabile*) investing in securities and are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to the substitute tax.

If the Notes are held by an Italian real estate investment fund (*fondi immobiliari*) or a SICAF (*società di investimento a capitale fisso*) investing and are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to the substitute tax.

Capital gains

Any capital gain realised upon the sale for consideration or redemption of Notes would be treated for the purpose of corporate income tax and of individual income tax as part of the taxable business income of Noteholders (and, in certain cases, depending on the status of the Noteholders, may also be included in the taxable basis of IRAP), and therefore subject to tax in Italy according to the relevant tax provisions, if derived by Noteholders who are:

- (a) Italian resident corporations;
- (b) Italian resident commercial partnerships;
- (c) permanent establishments in Italy of foreign corporations to which the Notes are effectively connected; or
- (d) Italian resident individuals carrying out a commercial activity, as to any capital gains realised within the scope of their commercial activity.

Gains realised on the disposal or redemption of Notes by residents of Italy who are individuals not acting in a business capacity or by non-business partnerships and similar organisations will be subject to a final capital gains tax currently at the rate of 12.5 per cent. The tax applies to all gains and losses realised in the relevant year and losses may be carried forward to the subsequent four years. Said holders of Notes may opt to pay capital gains tax declaring the gains in their annual income tax return or, if the Notes are deposited with an authorised intermediary in Italy, authorising the intermediary to levy the said capital gains tax ("administered savings option"). If they have elected the managed savings option, a portion equal to 48.08 per cent. of the gains arising from the Notes will be subject to the tax applicable thereto. Instead, gains realised by residents of Italy who are individuals acting in a business capacity, partnerships, limited partnerships, corporations or permanent establishments of foreign corporations shall be subject to income or corporation taxes as part of the overall business income (and, in certain cases, may also be included in the taxable net value of production for IRAP purposes).

Gains realised by investment funds (*organismi di investimento collettivo del risparmio* – O.I.C.R.) or SICAVs (*società di investimento a capitale variabile*) will be included in the result of the portfolio accrued at the end of the tax period. The fund will not be subject to taxation on such results.

Gains realised by Italian real estate investment funds (complying with the definition as amended pursuant to Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010) or by SICAFs, to which the provisions of Law Decree No. 351 of 25 September 2001, as subsequently amended, apply, are subject neither to capital gains tax nor to any other income tax in the hands of the real estate fund or SICAF.

Gains realised by Italian pension funds will be included in the result of the relevant portfolio accrued at the end of the tax period for an amount of 62.5 per cent., to be subject to a 20 per cent. substitute tax.

Pursuant to Article 23 of Presidential Decree of 22 December 1986, No. 917, any capital gains realised, by non-Italian residents without a permanent establishment in Italy to which the Notes are effectively connected, through the sale for consideration or redemption of Notes are exempt from taxation in Italy to the extent that the Notes are listed on a regulated market in Italy or abroad and in certain cases subject to filing of required documentation, even if the Notes are held in Italy. The exemption applies provided that the non Italian investor promptly file with the authorized financial intermediary an appropriate affidavit (autodichiarazione) stating that the investor is not resident in Italy for tax purposes.

The Notes are excluded from the tax base of the Italian inheritance tax according to article 12 of Legislative Decree 346/1990 and Article 12, paragraph 13-*bis* of Legislative Decree 461/1997.

EU DIRECTIVE ON THE TAXATION OF SAVINGS INCOME

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "Savings Tax Directive"), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria and Luxembourg may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-European Union (EU) countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the Savings Tax Directive, which may, if implemented, amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers. On 18 March 2014, the Luxembourg government submitted to the Luxembourg Parliament the draft Bill No. 6668 on taxation of savings income putting an end to the current withholding tax regime as from 1 January 2015 and implementing the automatic exchange of information as from that date. This draft Bill is in line with the announcement of the Luxembourg government of April 2013.

The Italian Government has implemented the Savings Tax Directive with Legislative Decree No. 84 of 18 April 2005 (**Decree No. 84**). Decree No. 84 will apply to payments of interest made by paying agents established in Italy to beneficial owners who are individuals resident in a different EU Member State as well as in the dependent or associated territories that have adopted similar legislation (Jersey, Guernsey, Isle of Man, Netherlands Antilles, British Virgin Islands, Turks and Caicos, Cayman Islands, Montserrat, Anguilla and Aruba). According to Article 1(1) of Decree No. 84, the definition of paying agents includes, inter alia, banks, SIMs, SGRs, fiduciary companies, financial intermediaries, and any economic operator that may be involved, commercially or professionally, in a payment of interest.

More specifically, according to Article 5 of Decree No. 84, paying agents shall provide the Italian tax authorities with the following information: identity and residence of the beneficial owner; name and address of the paying agent; account number of the beneficial owner or, otherwise, information of the debt claim giving rise to the interest payment and amount of interest paid. For contractual relations entered into, or transactions carried out in the absence of contractual relations, on or after 1 January 2004, residence of the beneficial owner is ascertained on the basis of the address indicated in the passport (if any), in the official identity card or, if necessary, on the basis of any other evidence. Where the beneficial owner has an EU passport or identity card and is resident for income tax purposes in a third country, he shall file a tax certificate issued by the State of residence. Any individual receiving an interest payment is deemed to be the beneficial owner, unless he provides evidence that it was not received or secured for his own benefit.

Companies, similar entities subject to taxation on business profits, UCITs passported under Directive No. 85/611/EEC (now replaced by Directive 2009/65/CE) and non-passported UCITs that have elected to be treated like passported UCITs are excluded from the application of Decree No. 84.

Mistakes, omissions and any other contravention may be fined under Decree No. 84 with sanctions from €2,065 to €20,658.
