Terms and Conditions of the Notes:

Final Terms will be prepared in respect of each Tranche of Notes, modifying the terms and conditions of the Notes set out in the section entitled "*Terms and Conditions of the Notes*". If the relevant Final Terms specify, however, that integrated conditions shall apply to the Notes, such integrated conditions will be attached to the relevant Final Terms and replace the terms and conditions of the Notes set out in the section entitled "*Terms and Conditions of the Notes*", as supplemented or modified by the relevant Final Terms. The terms and conditions of the Notes and the relevant Final Terms will be either in the German or the English language, as may be agreed between the Issuer and the relevant Dealer. See the section entitled "*Issue Procedures*" for further details.

Issuance in Series:

Notes will be issued in series (each, a **Series**). Each Series may comprise one or more tranches (**Tranches** and, each, a **Tranche**) issued on different dates. The Notes of each Series will all be subject to identical terms whether as to currency, interest (if any), maturity or otherwise, or terms which are identical except that the issue date, the issue price, the first interest payment date (if any) and/or the amount of the first payment of interest (if any) may be different. The Notes of each Tranche will all be subject to identical terms in all respects.

Form of the Notes:

Notes may be in bearer or registered form, as specified in the relevant Final Terms. Notes in bearer form will not be exchangeable for Notes in registered form, and Notes in registered form will not be exchangeable for Notes in bearer form. No single Series or Tranche may comprise both Notes in bearer form and Notes in registered form.

Notes in Bearer Form:

The relevant Final Terms will specify whether TEFRA C or TEFRA D or whether neither TEFRA C nor TEFRA D shall be applicable to Notes in bearer form. Each Tranche of Notes for which the relevant Final Terms specify TEFRA D will initially be represented by a temporary global note and each Tranche of Notes for which the relevant Final Terms specify TEFRA C will initially be represented by a permanent global note, which will be deposited (i) in the case of a Tranche intended to be cleared through CBF (as defined below) with CBF, or (ii) in the case of a Tranche to be cleared through CBL (as defined below) and/or Euroclear (as defined below) (a) if the relevant global note is intended to be issued in new global note (**NGN**) form, with a (common) safekeeper for CBL and/or Euroclear, or (b) if the relevant global note is not intended to be issued in NGN form, with a depositary or common depositary of the relevant Clearing System(s) (as defined below), or (iii) in the case of a Tranche intended to be cleared through a Clearing System other than CBF, CBL or Euroclear or delivered outside a clearing system, as agreed between the Issuer, the Fiscal Agent and the relevant Dealer. While any Note to which TEFRA D applies is represented by a temporary global note, payments of principal, interest (if any) and any other amount payable in respect of the Note due prior to the Exchange Date (as defined below) will be made (against presentation of the temporary global note if the temporary global note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interest in such temporary global note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by the relevant Clearing System and such Clearing System has given a like certification (based on the certifications it has received) to the Fiscal Agent. Interests in temporary global notes to which TEFRA D applies will be exchanged

for interests in permanent global notes or, if so stated in the relevant Final Terms, for definitive notes after the date falling 40 days after the issue date (the **Exchange Date**) unless otherwise permitted, upon certification as to non-U.S. beneficial ownership as described above.

Notes in Registered Form:

The Issuer anticipates that Notes in registered form will be privately placed on a non-syndicated basis with professional investors only. Any issue will be evidenced by a single registered note, the terms and conditions of which will generally be constituted by the terms and conditions of the Notes as completed, modified or supplemented by the provisions of the Final Terms applicable to the issue.

Transfer of Ownership:

Interests in a global note representing Notes may be transferred to a new holder in accordance with the provisions of the relevant Clearing System or other central securities depository the relevant global note has been deposited with.

The transferability of Bearer Notes is not restricted. The transferability of Registered Notes may be restricted in accordance with their terms.

Clearing Systems:

Clearstream Banking AG, Frankfurt (**CBF**), Clearstream Banking, société anonyme (**CBL**) and Euroclear Bank SA/NV (**Euroclear** and, together with CBF and CBL, the **Clearing Systems** and, each, a **Clearing System**) and/or, in relation to any Series of Notes, any other clearing system as specified in the relevant Final Terms.

Maturities of the Notes:

The Notes will have such maturities as may be agreed between the Issuer and the relevant Dealer, subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the currency in which the Notes are to be issued (the **Specified Currency**).

Issue Price of the Notes:

The Notes may be issued at an issue price which is at par or at a discount to, or premium over, par. The price and amount of Notes to be issued under the Programme will be determined by the Issuer and the relevant Dealer at the time of issue in accordance with prevailing market conditions.

Fixed Rate Notes:

Fixed interest on the Notes will be payable on such date or dates as may be agreed between the Issuer and the relevant Dealer (as specified in the relevant Final Terms) and will be calculated on the basis of such day count fraction as may be agreed between the Issuer and the relevant Dealer.

Yield:

In the case of Notes with a minimum denomination of less than Euro 100,000 the yield in respect of Fixed Rate Notes will be set out in the relevant Final Terms.

Methodology:

The yield in respect of Fixed Rate Notes will be calculated in accordance with the formulae drawn up by ICMA or in accordance with other formulae prevailing in the market. In the case of Notes with a minimum denomination of less than Euro 100,000, the relevant methodology for the calculation of yield will be set out in the relevant Final Terms.

Step-up/Step-down Notes:

Step-up/step-down Notes are Notes which bear fixed interest at varying rates, such rates being, in the case of Step-up Notes, greater or, in the case of Step-down Notes, lesser than the rates applicable to the previous interest periods.

Zero Coupon Notes:

Zero Coupon Notes will be offered and sold at a discount to their principal amount and will not have periodic payments of interest.

Floating Rate Notes:	<p>Floating Rate Notes will bear interest at a rate determined</p> <ul style="list-style-type: none"> (i) on the same basis as the floating rate under a notional interest rate swap transaction in the Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc., and as amended and updated as at the issue date of the first Tranche of the Notes of the relevant Series); (ii) on the basis of a reference rate appearing on the agreed screen page of a commercial quotation service; or (iii) on such other basis as may be agreed between the Issuer and the relevant Dealer, as set out in the relevant Final Terms, <p>as adjusted for any applicable margin. Interest period(s), interest payment date(s), the relevant day count fraction(s) and methods for calculating interest will be set out in the relevant Final Terms.</p>
Inverse Floating Rate Notes:	The interest payable on Inverse Floating Rate Notes will be calculated as the difference between a fixed rate of interest and a floating rate of interest with the latter being determined as set out above in the subsection entitled " <i>Floating Rate Notes</i> ".
Fixed/Floating Rate Notes:	Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed interest rate to a floating interest rate, or from a floating interest rate to a fixed interest rate.
Dual Currency Notes:	Payments (whether in respect of principal and/or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in such currency or currencies, and based on such rate or rates of exchange, as the Issuer and the relevant Dealer may agree, as set out in the relevant Final Terms.
FX Linked Notes:	Payments of interest in respect of FX Linked Notes are linked to a variable foreign currency exchange rate.
Target Redemption Notes:	Target Redemption Notes may offer a floating rate of interest or a combination of fixed and floating rates of interest with the aggregate amount of interest to be paid under the Notes limited by an overall maximum rate of interest. If the aggregate amount of interest to be paid under the Notes equals or exceeds the overall maximum rate of interest the Notes will be redeemed early at their nominal amount or at an early redemption amount as specified in the relevant Final Terms. Should the amounts of interest paid in respect of the Target Redemption Notes not yield the overall maximum rate of interest prior to the last interest period of the relevant Notes, such Notes will be redeemed at their nominal amount on the maturity date.
Inflation Linked Notes:	Inflation Linked Notes bear interest at a rate calculated by reference to an index which is a measurement of inflation and/or are Notes where the redemption amount is calculated by reference to an index which is a measurement of inflation.
Ratchet Notes:	The rate of interest to be paid under a Ratchet Note is calculated depending on the interest rate calculated for a preceding interest period. The final redemption amount of a Ratchet Note may be related to the cumulative performance of a number of features until the maturity date, with the possibility that the final redemption amount may not exceed the nominal amount.
Range Accrual Notes:	Range Accrual Notes may bear a fixed or floating rate of interest or a combination of fixed and/or floating rates of interest if a certain reference rate or the sum of certain reference rates or the difference between certain reference rates does not equal or exceed or fall below certain parameters during the relevant interest period.

CMS Linked Notes:	CMS Linked Notes offer a floating rate of interest which is determined by reference to certain specified swap rates.
Index Linked Notes:	Payments of interest in respect of Index Linked Interest Notes or of principal in respect of Index Linked Redemption Notes will be calculated by reference to such index or basket of indices or formula or to changes in the price(s) of the relevant underlying(s) or to such other factors as the Issuer and the relevant Dealer may agree (as set out in the relevant Final Terms).
Credit Linked Notes:	Each issue of Credit Linked Notes will (i) have terms and conditions in the English language only, which may, in relation to the payment of interest and redemption amounts, be governed by English law, (ii) have a minimum denomination of Euro 100,000 or its foreign currency equivalent on the relevant date of issue, and (iii) only be marketed and sold to qualified investors. Payment of interest (if any) and/or of principal in respect of Credit Linked Notes may be reduced (to as low as zero) upon the occurrence of one or more Credit Events (as specified in the relevant Final Terms) in respect of one or more Reference Entities (as specified in the relevant Final Terms).
Other Structured Notes:	Notes may also have any other structure or combine any of the above-mentioned structures, all as the Issuer and the relevant Dealer may agree, as set out in the relevant Final Terms.
Asset Backed Notes:	The Issuer will not issue asset backed Notes under the Programme.
Other Provisions in Relation to Interest Paying Notes:	Notes with the exception of Fixed Rate Notes and Zero Coupon Notes may also have a maximum interest rate, a minimum interest rate or both.
	Interest on Notes with the exception of Zero Coupon Notes will be payable in respect of each interest period, on such interest payment dates, and will be calculated on the basis of such day count fraction, as may be agreed between the Issuer and the relevant Dealer.
Denomination of Notes:	Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer, save that the minimum denomination of each Note will be (i) such amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency, and (ii) in the case of Credit Linked Notes, Euro 100,000 or its foreign currency equivalent on the relevant date of issue.
Redemption of Notes:	The relevant Final Terms will specify either that the relevant Notes (i) cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or (unless otherwise specified in the relevant Final Terms) for taxation reasons or following an event of default), (ii) will be redeemable at the option of the Issuer and/or the Holders (as defined in the section entitled " <i>Terms and Conditions of the Notes</i> "), as the case may be, upon giving notice to the Holders or the Issuer, as the case may be, on a date or dates specified prior to such stated maturity and at a price or prices and on such other terms as may be agreed between the Issuer and the relevant Dealer, (iii) will be automatically redeemed on a date specified prior to such stated maturity and at a price or prices and on such other terms as may be agreed between the Issuer and the relevant Dealer; or (iv) in the case of Credit Linked Notes, will be automatically redeemed on a date determined in accordance with the relevant Final Terms (which may be prior to or subsequent to the stated maturity of the Notes) at par or at a price set by reference to a reference obligation or by physical delivery or as otherwise provided in the relevant Final Terms.

In the event that any such deduction is made, the Issuer will, save in certain limited circumstances provided in § 7 (1) of the Terms and Conditions of the Notes (including, but not limited to, in the event that withholding taxes are payable pursuant to legislation or regulations introduced as a result of a directive of the European Union), be required to pay to the Holders additional amounts to cover the amounts so deducted.

Early Redemption of Notes for Taxation Reasons:

Unless otherwise set out in the relevant Final Terms, early redemption will be permitted in whole, but not in part, if on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts pursuant to § 7 (1) of the Terms and Conditions of the Notes as a result of any change in, or amendment to, the laws or regulations of Germany or of any political subdivision or taxing authority thereof or therein, or as a result of any change in, or amendment to, an official interpretation or application of such laws or regulations, which amendment or change is effective on or after (i) (in the case of Bearer Notes) the date on which the first Tranche of the relevant Series of the Notes is issued, or (ii) (in the case of Registered Notes) the issue date of the relevant Registered Note.

INFORMATION RELATING TO RISK FACTORS

The discussion of risk factors is supposed to protect investors from investments for which they are not suitable and to set out the financial risks associated with an investment in a particular type of Note. Potential investors should understand the risks of investing in any type of Note before they make their investment decision. They should make their own independent decision to invest in any type of Note and as to whether an investment in such Note is appropriate or proper for them based upon their own judgment and upon advice from such advisors as they consider necessary.

Risk Factors Relevant to NRW.BANK:

There are certain factors which may have a material adverse effect on the results of operations or the financial conditions of the Issuer and which may, consequently, affect the Issuer's ability to fulfil its obligations under Notes to be issued under the Programme. These factors are set out in length in the subsection entitled "*Risk Factors – Factors which may affect NRW.BANK's ability to fulfil its obligations under Notes to be issued under the Programme*". The following aspects are discussed in that subsection:

- losses stemming from credit exposure and increased loan loss provisions;
- increased exposure to market risk;
- operational risk;
- liquidity risk;
- pension risk; and
- business and cost risk.

Risk Factors Relevant to the Notes:

There are certain factors which are material for the purpose of assessing the risks associated with Notes to be issued under the Programme. These factors are set out in the subsection entitled "*Risk Factors – Factors which are material for the purpose of assessing the market risks associated with Notes to be issued under the Programme*". The following aspects are discussed in that subsection:

- the suitability of an investment in the Notes;
- the risks related to the structure of particular Notes;

- the risks related to Notes generally;
- the risks related to the market generally; and
- that legal investment considerations may restrict certain investments.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes to be issued under the Programme and/or are material for the purpose of assessing the market risks associated with Notes to be issued under the Programme. These factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes to be issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts or perform its delivery obligations on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it currently may not be able to anticipate and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. The Final Terms prepared in respect of a Tranche of Notes may contain additional risk factors relating to such Notes. Potential investors should also read the detailed information set out elsewhere in this Simplified Prospectus and reach their own views prior to making any investment decision.

Words and expressions defined in the section entitled "Terms and Conditions of the Notes" shall have the same meanings in this section "Risk Factors".

Factors that may affect NRW.BANK's ability to fulfil its obligations under Notes to be issued under the Programme

The following is a summary of certain aspects of the business of NRW.BANK of which potential investors should be aware. This summary is not intended to be exhaustive and potential investors should carefully consider the following information in conjunction with the other information contained in this Simplified Prospectus.

Losses stemming from credit exposure and increased loan loss provisions

NRW.BANK's business is subject to the risk that borrowers and other contractual partners may become unable to meet their obligations to NRW.BANK. Although NRW.BANK regularly reviews its credit exposure and corresponding collateral position with regard to specific borrowers and to specific countries and industries, defaults may arise from events or circumstances that are difficult to foresee or detect or have not yet been foreseen or detected. In addition, NRW.BANK may find that any collateral position is insufficient to cover the respective credit exposure due to, for example, market developments reducing the value of such collateral. Any default by a major borrower of NRW.BANK could have a material adverse effect on NRW.BANK's business, results of operations or financial condition.

In order to cover estimated loan losses, NRW.BANK has made individual value adjustments and general bad debt provisions. Although NRW.BANK's management has exercised its best judgment in establishing provisions for loan losses, NRW.BANK may have to increase its loan loss provisions in the future as a result of a rise in the number or amount of non-performing loans in its loan portfolio or as a result of applying uniform provisioning policies to the entire loan portfolio of NRW.BANK. Any such increases in loan loss provisions in excess of existing provisions could have a material adverse effect on NRW.BANK's business, results of operations and financial condition.

Increased exposure to market risk

When entering into trading and investment positions in the debt, currency and derivative markets, assessments and predictions about future developments of the financial markets are made as the revenues and profits derived from such positions and transactions are dependent on market prices and price movements. Many of the more sophisticated transactions are designed to profit from price movements and differences among prices. If prices move in a direction not anticipated by NRW.BANK, it may experience substantial losses which could have a material adverse effect on its business, results of operations and financial condition.

Operational risk

NRW.BANK may not be successful in developing and implementing new risk management policies, procedures and assessment methods, in particular the information technology on which these risk management policies, procedures and assessment methods of NRW.BANK are based on. As a result thereof or as a result of insufficiencies at the level of NRW.BANK's risk management policies, procedures and assessment methods may not be effective in mitigating its risk exposure in each of the markets in which it is active or against all types of risk, including risks that NRW.BANK may fail to identify or anticipate in the future or which NRW.BANK has failed to identify or anticipate in the past. There can be no assurance that NRW.BANK's procedures for identifying, monitoring and managing risks will be

sufficient and adequate in the future. Any such insufficiency or inadequacy could expose NRW.BANK to material unanticipated losses that would have a material adverse effect on its business, results of operations and financial condition.

Liquidity risk

The liquidity situation at NRW.BANK is characterised by largely fixed cash flows, which can, therefore, be planned rather easily. To safeguard its ability to pay at any time, NRW.BANK maintains not only extensive money-market facilities, but also a substantial portfolio of high-liquidity securities or securities that can be deposited with the European Central Bank. Thus, even in stress situations such as unforeseen fluctuations in cash flow, NRW.BANK is able to generate extensive liquidity largely irrespective of the general market situation.

NRW.BANK views its liquidity risk in the strict sense (risk of insolvency), the refinancing risk, and also the impact of market liquidity risk, as minor. This presumption is based on the explicit funding guarantee extended by NRW.BANK's guarantor and its corresponding good rating. Due to this guarantee and NRW.BANK's rating, NRW.BANK can generate liquidity at short notice at any time without having to sell securities/receivables.

Pension risk

NRW.BANK is subject to pension risk insofar that its pension provisions might need to be increased, in particular due to changes in the statistical assumptions especially regarding invalidity and mortality.

This risk may result in a material adverse effect on NRW.BANK's business, results of operations and financial condition.

Business and cost risk

Business risk describes the risk of changes in the economic environment (market and/or demand) or the legal environment. Cost risk is the risk that the planned personnel and operating expenses are exceeded or that unplanned costs become effective.

These risks may result in a material adverse effect on NRW.BANK's business, results of operations and financial condition.

Factors which are material for the purpose of assessing the market risks associated with Notes to be issued under the Programme

The Notes may not be a suitable investment for investors

The Notes to be issued under the Programme may not a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Simplified Prospectus, any applicable supplement hereto and the relevant Final Terms;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk

or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Risks related to the structure of particular Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

Fixed Rate Notes (including Step-up Notes and Step-down Notes)

A Holder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the current interest rate on the capital markets for comparable debt securities of the same maturity (the **Market Interest Rate**). While the nominal interest rate of a Fixed Rate Note as specified in the relevant Final Terms is fixed during the term of such Note, the Market Interest Rate typically changes on a daily basis. As the Market Interest Rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the Market Interest Rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the Market Interest Rate. If the Market Interest Rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the Market Interest Rate. The same risk applies to Step-up Notes and Step-down Notes if the Market Interest Rates are higher than the nominal interest rates applicable to such Notes.

Floating Rate Notes (including CMS Linked Notes)

Floating Rate Notes tend to be volatile investments. A Holder of a Floating Rate Note is exposed to the risk of fluctuating interest rate levels and, consequently, uncertain interest income. Fluctuating interest rate levels make it impossible to determine the yield of Floating Rate Notes in advance. Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Floating Rate Notes.

Floating Rate Notes with a multiplier or other leverage factor

If Floating Rate Notes are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for Floating Rate Notes that do not include those features. If the amount of interest payable is determined in conjunction with a multiplier greater than one or by reference to such other leverage factor, the effect of changes in the interest rates on interest payable will be increased. The effect of a cap is that the amount of interest will never rise above the pre-determined cap so that the Holder will not be able to benefit from any actual favourable development beyond the cap. The yield could, therefore, be considerably lower than that of similar Floating Rate Notes without a cap.

Inverse/Reverse Floating Rate Notes

Inverse/Reverse Floating Rate Notes have an interest rate equal to a fixed interest rate minus an interest rate based upon a reference interest rate such as EURIBOR or LIBOR. The market values of these Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference interest rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference interest rate not only decreases the interest rate payable under the Notes, but may also reflect an increase in prevailing interest rates, which may further adversely affect the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed interest rate to a floating interest rate, or from a floating interest rate to a fixed interest rate. Where the Issuer has the right to effect such conversion, this will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed interest rate to a floating interest rate, the spread on the Fixed/Floating Rate Notes may be less favourable than the spreads then prevailing on comparable Floating Rate Notes tied to the same reference interest rate. In addition, the new floating interest rate at any time may be lower than the interest rates on other Notes. If the Issuer converts from a floating interest rate to a fixed interest rate, the fixed interest rate may be lower than then prevailing interest rates on its other outstanding Notes.

Notes linked to LIBOR, EURIBOR or another "benchmark"

As a result of concerns in recent years regarding the accuracy of London Inter-bank Offered Rate (**LIBOR**), changes have been made to the administration and process for determining LIBOR, including increasing the number of banks surveyed to set LIBOR, streamlining the number of LIBOR currencies and maturities and generally strengthening the oversight of the process, including by providing for U.K. regulatory oversight of LIBOR. In early 2014, Intercontinental Exchange (ICE) took over the administration of LIBOR from the British Banker's Association (BBA).

LIBOR, the Euro Interbank Offered Rate (**EURIBOR**) and other indices which are deemed "benchmarks" (each a **Benchmark** and together, the **Benchmarks**) are also the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause the relevant Benchmarks to perform differently than in the past, or have other consequences which cannot be predicted.

Key international proposals for reform of Benchmarks include (i) IOSCO's *Principles for Oil Price Reporting Agencies* (October 2012) and *Principles for Financial Market Benchmarks* (July 2013), (ii) ESMA-EBA's *Principles for the benchmark-setting process* (June 2013), and (iii) the European Commission's *proposed regulation on indices used as benchmarks in financial instruments and financial contracts* (September 2013) (the **Proposed Benchmark Regulation**). In addition to the aforementioned proposals, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

The Proposed Benchmark Regulation, if passed in its September 2013 form, would apply principally to "administrators" and also, in some respects, to "contributors" and certain "users" of Benchmarks in the EU, and would, among other things, (i) require Benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of Benchmarks, and (ii) prevent certain uses of Benchmarks of unauthorised administrators. The scope of the Proposed Benchmark Regulation is wide and, in addition to so-called "critical benchmark" indices, could also potentially apply to many interest rate and foreign exchange rate indices, equity indices and other indices (including "proprietary" indices or strategies) where referenced in certain financial instruments admitted to trading on a trading venue (or for which a request for admission to trading on a trading venue has been made), financial contracts and investment funds.

Any changes to a Benchmark as a result of the Proposed Benchmark Regulation or other initiatives could have a material adverse effect on the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks.

Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method for determining a Benchmark could have an effect on the value of any Notes whose interest or principal return is linked to the relevant Benchmark, investors should be aware that:

- (i) any change to the relevant Benchmark could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be;
- (ii) if the applicable rate of interest on the Notes is calculated with reference to a currency or tenor which is discontinued, such rate of interest will then be determined by the fallback provisions of the Notes. This may cause the interest to be lower than it would otherwise be;
- (iii) the methodology or other terms of the relevant Benchmark could be changed, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of such Benchmark; and
- (iv) the administrator of the relevant Benchmark will not have any involvement in the Notes and may take any actions in respect of the relevant Benchmark without regard to the effect of such actions on the Notes.

Investors thus face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under Notes whose rate of interest or principal return is linked to a Benchmark (including, but not limited to, Floating Rate Notes (including CMS Linked Notes), Inverse/Reverse Floating Rate Notes, Fixed/Floating Rate Notes and Index Linked Notes)).

In addition, the administrators of Benchmarks may publish and adhere to error policies (the **Error Policies**), which set out how such Benchmark administrators will deal with errors which occur during the fixing process of the relevant Benchmark. These Error Policies may include materiality thresholds, which means that an erroneously fixed

Benchmark will not be refixed in case the relevant materiality threshold is not breached. In addition, Error Policies may differentiate between errors which are discovered during compliance checks prior to a cut-off time set out in the relevant Error Policy for a refix of the relevant Benchmark and errors which are discovered after such cut-off time. In case the error is discovered prior to the relevant cut-off time, the Error Policy may allow the Benchmark administrator to refix the relevant Benchmark. Any such refix may result in the relevant Benchmark being lower or higher than originally fixed.

Zero Coupon Notes

Zero Coupon Notes do not pay interest periodically but are typically issued at a discount from their nominal value. Instead of periodical interest payments, the difference between the redemption price and the issue price constitutes interest income until maturity and reflects the Market Interest Rate. A Holder of a Zero Coupon Note is exposed to the risk that the price of such Note falls as a result of changes in the Market Interest Rate. Prices of Zero Coupon Notes are more volatile than prices of Fixed Rate Notes and are likely to respond to a greater degree to changes in the Market Interest Rate than Fixed Rate Notes with a similar maturity.

Notes (other than Zero Coupon Notes) to be issued at a substantial discount or premium

The market values of debt securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in the Market Interest Rates than do prices for conventional interest-bearing debt securities. Generally, the longer the remaining term of the debt securities, the greater the price volatility as compared to conventional interest-bearing debt securities with comparable maturities.

Target Redemption Notes

The automatic redemption feature of Target Redemption Notes may limit their market value. Due to the overall maximum amount of interest paid under Target Redemption Notes, even in a favourable market/interest environment their market value may not rise substantially above the price at which they can be redeemed.

The automatic redemption may take place when the cost of borrowing is generally lower than at the issue date of the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Target Redemption Notes being redeemed and may only be able to do so at a significantly lower interest rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

FX Linked Notes

The Issuer may issue Notes, whose rate of interest will be calculated by reference to one or more foreign currency exchange rates. Interest payments depend on the performance of the underlying currency(ies). An investment in FX Linked Notes may bear similar market risks to a direct currency investment and investors should take advice accordingly.

Ratchet Notes

The Issuer may issue Notes whose rate of interest is calculated depending on the interest rate calculated for a preceding interest period. The final redemption/repayment amount of a Ratchet Note may be related to the cumulative performance of a number of features until the maturity date, with the possibility that the final redemption/repayment amount may not exceed the nominal amount.

Inflation Linked Notes

A relevant consumer price index or other formula linked to a measure of inflation to which the Notes are linked may be subject to significant fluctuations that may not correlate with other indices. Any movement in the level of the index may result in a reduction of the interest payable on the Notes, and in the case of Notes with a redemption amount linked to inflation, in a reduction of the amount payable on redemption which could be less than the amount originally invested.

The timing of changes in the relevant consumer price index or other formula linked to the measure of inflation comprising the relevant index or indices may affect the actual yield to investors on the Inflation Linked Notes, even if the average level is consistent with their expectations.

An index to which interest payments on Inflation Linked Notes and/or the redemption amount of Inflation Linked Notes are linked is only one measure of inflation for the relevant jurisdiction, and such index may not correlate perfectly with the rate of inflation experienced by an investor in such jurisdiction.

Range Accrual Notes

The Terms and Conditions of the Notes may provide for the interest payable to be dependent on the number of days during which the reference interest rate specified in the Terms and Conditions of the Notes is within a certain interest range. The interest payable on the Range Accrual Notes decreases depending on the number of days during which the reference interest rate remains outside the interest range. No interest will be payable in the event that the reference interest rate increases or decreases significantly and remains outside the interest range throughout an entire interest period.

Index Linked Notes and Dual Currency Notes

The Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of the relevant underlying(s), to movements in currency exchange rates or other factors (each, a **Relevant Factor**). In addition, the Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be very volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) they may lose all or a substantial portion of their principal;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable is likely to be magnified; and
- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

Furthermore, Index Linked Redemption Notes may be redeemable by the Issuer by payment of either the par value amount or an amount determined by reference to the value of the underlying reference item(s). Interest payable on Index Linked Interest Notes may be calculated by reference to the value of one or more underlying reference item(s).

By purchasing the Index Linked Notes, an investor will be deemed to represent: (i) that it understands the risks associated with the purchase of Index Linked Notes, (ii) that it understands that the Notes are linked to and depend upon the performance of (a) certain index (indices), (iii) that it is purchasing the Notes for either investment, financial intermediation, hedging or other commercial purposes, (iv) that the Issuer has not made any representation with respect to the index (indices) as defined in the relevant Final Terms, and (v) that the investor has performed its own credit analysis of the Notes.

Credit Linked Notes

The Issuer may issue Credit Linked Notes where the amount payable is dependent upon whether certain events (**Credit Events** as specified in the relevant Final Terms) have occurred in respect of one or more reference entities (the **Reference Entities**) and, if so, on the value of certain specified assets of such Reference Entity/Entities. The value of any Notes linked to the credits of Reference Entities may vary over time in accordance with the credit of the Reference Entities. An investment in Credit Linked Notes involves a high degree of risk. In the event of the occurrence of a Credit Event in respect of any one or more Reference Entities and if the Credit Linked Notes are specified in the Final Terms to be auction settled or cash settled, the Notes may be redeemed in a reduced principal amount or at zero, and, if applicable, the amount on which interest is calculated may be reduced. In relation to physically settled Credit Linked Notes, the occurrence of a Credit Event may result in the redemption of the Notes by delivery of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their par amount. In the case of such physical settlement, investors will be exposed to various risks associated with the delivered obligations. Such risks may include (without limitation) risks resulting from (i) the holding of such obligations (e.g. potentially adverse tax consequences such as documentary or stamp taxes as well as costs and administrative burdens) or (ii) other issues relating to the custody of the obligations. Investors should not assume that they will be able to sell such obligations at all or for a specific price.

Investors in the Notes are accordingly exposed, as to both principal and (if applicable) interest, to the credit risk of the Reference Entities. The maximum loss to an investor in the Notes is 100 per cent. of its initial principal investment, together with (if applicable) any amounts of interest.

The Issuer's obligations in respect of Credit Linked Notes are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event. The Issuer is not obliged to account for any recovery which it may subsequently make in relation to such Reference Entity or its obligations.

Credit Linked Notes may not benefit from the same ratings assigned to other Notes to be issued under the Programme. Investors should note that no specific rating for the Credit Linked Notes may be applied for or sought.

Where the Notes are "nth-to-default" Credit Linked Notes, the Notes will be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to the nth Reference Entity.

Where the Notes are "nth-to-default" or "basket" Credit Linked Notes, the credit risk to investors in the Notes (and the probability of the occurrence of a Credit Event with respect to the Reference Entities) may be increased, among other things, as a result of the concentration of Reference Entities in a particular industry sector or geographic area, or the exposure of the Reference Entities to similar financial or other risks. The composition of the portfolio of Reference Entities may change after the issue date. Such change may result in an increase of concentration among the Reference Entities and therefore also in an increase in the risks associated with such concentration.

The Calculation Agent will exercise its rights under the terms of the Notes, including in particular the right to designate a Credit Event and the right to select obligations of the affected Reference Entity for valuation or delivery without regard to the interests of the Holders. The exercise of such rights in such manner, for example by the selection of the eligible obligation of the Reference Entity having the lowest possible market value, may result in an increased loss for the Holders.

In making any determinations expressed to be made by it, for example as to substitute "Reference Obligations" (as specified in the relevant Final Terms), the Calculation Agent is under no obligation to the Holders, and will not be liable to account for any profit or other benefit which may accrue to it as a result of such determination.

Reference Entities may be replaced due to events beyond the control of the Issuer, such as the merger of a corporate entity with another entity, in which case the Reference Entity may be replaced by its successor. Each such replacement may result in an increase in the risks involved for the Holders.

The views of market participants and/or legal counsel may differ as to how the terms of market standard credit default swaps, and corresponding terms of the Notes, should be interpreted in the context of such actions, or such terms may operate in a manner contrary to the expectations of market participants and/or adversely to the interests of the Holders. In certain circumstances – for example where a Credit Event has occurred and the related credit loss has not been determined as at the relevant date for payment, or, if applicable, where a potential Credit Event exists as at the scheduled maturity of the Notes – payment of the redemption amount of the Notes and/or interest on the Notes may be deferred for a material period in whole or part without compensation to the Holders.

If the Credit Linked Notes are auction settled, credit losses may be determined on the basis of a market auction; such losses may be greater than the losses which would have been determined in the absence of such auction. In particular, the auction process may be affected by technical factors or operational errors which would not otherwise apply or may be the subject of actual or attempted manipulation. Auctions may be conducted by ISDA or by a relevant third party. Neither the Calculation Agent, the Issuer nor any of their respective affiliates has any responsibility for verifying that any auction price is reflective of current market values, for establishing any auction methodology or for verifying that any auction has been conducted in accordance with its rules. If the Calculation Agent or the Issuer or any of their respective affiliates participates in any auction for the purposes of such an auction, then it will do so without regard to the interests of the Holders. Such participation may have a material effect on the outcome of the relevant auction. In certain circumstances, concurrent auctions may be held with respect to the same Reference Entity. The Calculation Agent may have discretion to select the relevant auction for the purposes of the Notes, and such election may result in Holders receiving a lower amount.

If the Credit Linked Notes are cash settled, then, following the occurrence of a Credit Event, the Calculation Agent may be required to seek quotations in respect of selected obligations of the affected Reference Entity. Quotations obtained will be "bid-side" – that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer. Such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Reference Entity (for

example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly lower than the value of the relevant obligation which would be determined by reference to (for example) the present value of related cash flows. Quotations will be deemed to be zero in the event that no such quotations are available.

Since in such case the Calculation Agent has discretion to choose the portfolio of obligations to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations selected will be obligations of the Reference Entity with the lowest market value that are permitted to be selected pursuant to the Notes. This could result in a lower recovery value and hence greater losses for investors in the Notes.

The Issuer, the Dealer(s), the Calculation Agent or any of their respective affiliates may have acquired, or during the term of the Credit Linked Notes may acquire, non-public information with respect to the Reference Entity/Entities that they may not disclose. Prospective investors must therefore make an investment decision based upon their own due diligence and purchase the Credit Linked Notes in the knowledge that non-public information which the Issuer, the Dealer(s), the Calculation Agent or any of their respective affiliates may have will not be disclosed to investors. None of the Issuer, the Dealer(s), the Calculation Agent or any of their respective affiliates is under any obligation (i) to review on the Holders' behalf, the business, financial conditions, prospects, creditworthiness, status or affairs of the Reference Entity/Entities or conduct any investigation or due diligence into the Reference Entity/Entities or (ii) other than as may be required by applicable rules and regulations relating to the Notes, to make available (1) any information relating to the Notes or (2) any non-public information they may possess in respect of the Reference Entity/Entities.

The Notes do not constitute an acquisition by the Holders of any interest in any obligation of a Reference Entity. The Issuer does not grant any security interest over any such obligation.

In determining the value of the Notes, dealers may take into account the level of a related credit index in addition to or as an alternative to other sources of pricing data. If any relevant index ceases to be liquid, or ceases to be published in its entirety, then the value of the Notes may be adversely affected.

Individual credits may not perform as indicated by the historical performance of similar credits. Even if future performance is similar to that of historic performance for the entire market, each prospective purchaser of Notes must make its own determination as to whether the performance of the Notes will reflect such experience. Historical default statistics may not capture events that would constitute Credit Events for the purposes of the Notes.

None of the Issuer, the Calculation Agent or any of their respective affiliates makes any representation as to the accuracy or completeness of any information available with respect to the Reference Entities.

None of the Issuer, the Calculation Agent or any of their respective affiliates will have any obligation to keep investors informed as to any matters with respect to the Reference Entities or any of their obligations, including whether or not circumstances exist that give rise to the possibility of the occurrence of events such as a Credit Event with respect to the Reference Entities.

The Calculation Agent in exercising its rights and discretions related to the Credit Linked Notes (in particular determinations relating to any "Credit Event" or "Succession Event" (as specified in the relevant Final Terms)), may (in its sole discretion) rely on the determinations of any Credit Derivatives Determinations Committee (as established by ISDA for the purposes of making certain determinations in connection with credit derivative transactions) (**CDDC**) and the Calculation Agent shall not be liable to the Issuer, the Holders or any other persons for such reliance. The maturity of the Notes may be extended pending or as a result of any resolution of the CDDC or any decision of the CDDC not to resolve any particular issue. If the Calculation Agent or the Issuer or any of their respective affiliates serves as a member of the CDDC at any time, then it will act without regard to the interests of the Holders. A CDDC may reach decisions based on the interests of its members or the credit derivatives market as a whole, and will not take into account the interests of Holders.

The terms of Credit Linked Notes issued under the Programme may directly incorporate the 2014 ISDA Credit Derivatives Definitions (the **2014 ISDA Definitions or Credit Derivatives Definitions**) or the Issuer may determine that certain provisions of the Credit Derivatives Definitions, which are intended for use by market participants in "over the counter" transactions, require amendment when incorporated in the terms of an offering of securities such as the Credit Linked Notes. Similarly, the Issuer may determine that certain provisions of the 2014 ISDA Credit Derivatives Definitions require amendment to reflect any hedging arrangements the Issuer may have put in place. Therefore, a prospective investor should understand that the complete terms and conditions of the Credit Linked Notes are as set out in this Simplified Prospectus **and** the relevant Final Terms. Consequently, investing in Credit Linked Notes may not necessarily be equivalent to investing in a credit default swap that incorporates the Credit Derivatives Definitions.

While ISDA has published and supplemented the Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the Credit Derivatives Definitions and the terms applied to credit derivatives generally, including Credit Linked Notes are subject to further evolution. Past events have shown that the view of market participants may differ as to how the Credit Derivatives Definitions operate or should operate. As a result of the continued evolution of the market, the Credit Linked Notes may not conform to future market standards. Such a result may have a negative impact on the Credit Linked Notes.

There can be no assurances that changes to the terms applicable to credit derivatives generally will be predictable or favourable to the Issuer or the Holders.

Amendment to terms and conditions for Credit Linked Notes to reflect market convention

The terms and conditions of Credit Linked Notes may permit the Calculation Agent to make amendments to such terms and conditions from time to time to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the CDDCs which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary to reflect or govern market practice for credit derivative transactions or hedging arrangements of the Issuer.

Credit Event and Successor Backstop Dates

In respect of a Credit Event relating to a series of Credit Linked Notes, a Credit Event may not be triggered if the relevant Credit Event occurred prior to the Credit Event backstop date. For Successor determinations the look-back period is 90 calendar days and functions similarly. These provisions mean that while there is a time limit on the ability to act on a Credit Event or successor event, it is possible that the Credit Linked Notes could be affected by a Credit Event or successor event that took place prior to the trade date. Neither the Calculation Agent nor the Issuer or any of their respective affiliates has any responsibility to inform any Holder, or avoid or mitigate the effects, of a Credit Event that has taken place prior to the trade date or the issue date.

By purchasing the Credit Linked Notes, an investor will be deemed to represent: (i) that it understands the risks associated with the purchase of Credit Linked Notes (in particular, that it may lose all or a substantial portion of its principal), (ii) that it understands that the Notes are linked to and the amount payable is dependent upon whether certain Credit Events have occurred in respect of one or more Reference Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities, (iii) that it is purchasing the Notes for either investment, financial intermediation, hedging or other commercial purposes, (iv) that the Issuer has not made any representation with respect to the Reference Entities, (v) that the investor has performed its own credit analysis of the Reference Entities, and (vi) that the investor understands that the Notes shall, upon the occurrence of a Credit Event, be redeemed either (a) in exchange for (at the sole option of the Issuer) one or more "Deliverable Obligations" (as specified in the relevant Final Terms) and that in such an event the investor's recourse under the Notes will be limited to such Deliverable Obligations only, or (b) by the payment of an amount of cash calculated in the manner described in the relevant Final Terms which may amount to nothing.

Notes subject to optional redemption by the Issuer

The relevant Final Terms will indicate whether the Issuer may have the right to call the Notes prior to maturity on one or several dates determined beforehand (**the Optional Call Right**). In addition, the Issuer may have the right to redeem the Notes if the Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions of the Notes.

An Optional Call Right is likely to limit the market value of the relevant Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

If the Issuer redeems the Notes prior to maturity, a Holder of such Notes is exposed to the risk that due to such early redemption its investment will have a lower than expected yield.

The Issuer may be expected to exercise its Optional Call Right when its cost of borrowing is lower than the interest rate payable under the relevant Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower interest rate. Potential investors should consider reinvestment risk in light of other investments available at the time when they are deciding whether to invest in the relevant Notes.

It should be noted that the Issuer may exercise any Optional Call Right irrespective of the Market Interest Rates which are relevant on a certain call date.

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

European Union Savings Directive

Under Council Directive 2003/48/EC on the taxation of savings income (as amended) (the **European Union Savings Directive**), member states are required, since 1st July, 2005, to provide to the tax authorities of other member states details of certain payments of interest or similar income paid or secured by a person established in a member state to or for the benefit of an individual resident in another member state or certain limited types of entities established in another member state.

On 24th March, 2014, the Council of the European Union adopted a Council Directive amending and broadening the scope of the requirements described above. Member states are required to apply these new requirements from 1st January, 2017. The changes will expand the range of payments covered by the European Union Savings Directive, in particular to include additional types of income payable on securities. The Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a member state must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Austria is required (unless during that period it elects otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in those member states which still operate a withholding system when they are implemented.

The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

If a payment were to be made or collected through a paying agent in a state which has opted for a withholding system and an amount of, or in respect of tax were to be withheld from that payment, neither the Issuer nor any paying agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer undertakes, to the extent this is possible, to maintain a paying agent in a member state that will not be obliged to withhold or deduct tax pursuant to the European Union Savings Directive.

For additional information in relation to the taxation of Notes to be issued under the Programme see the section entitled "*Taxation*".

U.S. Foreign Account Tax Compliance Act Withholding

While the Notes are in global form and held within CBL or Euroclear (together, the **ICSDs**) or CBF, in all but the most remote circumstances, it is not expected that the new reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) will affect the amount of any payment received by the ICSDs or CBF (see the sub-section entitled "*Taxation – Foreign Account Tax Compliance Act*"). However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. In the case of Bearer Notes, the Issuer's obligations under the Notes are discharged once it has made payment to, or to the order of, the relevant Clearing System and the Issuer has therefore no responsibility for any amount thereafter transmitted through the relevant Clearing System.

No tax gross-up in respect of certain Series of Notes

If the relevant Final Terms specify that no withholding tax gross-up is applicable, the Issuer will not be obliged to gross up any payments in respect of the Notes and will not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment and all payments made by the Issuer will be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

Credit ratings may not reflect all risks

Notes to be issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating assigned to the Notes to be issued under the Programme. In addition, the rating may not reflect the potential impact of all risks related to the structure, market and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Any ratings assigned to the Notes to be issued under the Programme as at the date of this Simplified Prospectus are not indicative of future performance of the Issuer's business or its future creditworthiness.

Change of law

The terms and conditions of the Notes (other than those terms and conditions of Credit Linked Notes relating to the payment of interest and redemption amounts which may be governed by English law) are based on German law in effect as at the date of this Simplified Prospectus. These terms and conditions of Credit Linked Notes relating to the payment of interest and redemption amounts may be governed by English law in effect as at the date of this Simplified Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to German (or English) law or administrative practice after the date of this Simplified Prospectus.

Interests of Natural and Legal Persons involved in the Issue or the Offer

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer in the ordinary course of business. In addition, in the ordinary course of their business activities, these Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of the Notes. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Risks related to the market generally

Set out below is a brief description of the principal market risks:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of the Notes.

Market price risk

The market prices of the Notes depend on various factors, such as changes of interest rate levels, the policy of central banks, overall economic developments, inflation rates or the supply and demand for the relevant type of Notes. The market price of the Notes may also be negatively affected by an increase in the Issuer's credit spreads, i.e. the difference

between yields on the Issuer's debt and the yield of government bonds or swap rates of similar maturity. The Issuer's credit spreads are mainly based on its perceived creditworthiness but also influenced by other factors such as general market trends as well as supply and demand for such Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes, and (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing, and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

FORM OF THE NOTES

Notes may be issued in bearer or in registered form, as specified in the relevant Final Terms. Bearer Notes will not be exchangeable for Registered Notes, and Registered Notes will not be exchangeable for Bearer Notes. No single Series or Tranche may comprise both Bearer Notes and Registered Notes.

Form of the Bearer Notes

Each Tranche of Bearer Notes will initially be in the form of either a temporary global note (the **Temporary Global Note**), without interest coupons, or a permanent global note (the **Permanent Global Note** and, together with the Temporary Global Note, the **Global Notes**), without interest coupons, in each case as specified in the relevant Final Terms, which will be delivered on or prior to the issue date of the Tranche:

- (i) if the Global Notes are intended to be issued in new global note (**NGN**) form, to a (common) safekeeper for Clearstream Banking, société anonyme (**CBL**) and Euroclear Bank SA/NV (**Euroclear**); or
- (ii) if the Global Notes are not intended to be issued in NGN form, to Clearstream Banking AG, Frankfurt (**CBF**) and, together with CBL and Euroclear, the **Clearing Systems** and, each, a **Clearing System** or a depositary or common depositary of the Clearing Systems or, if the Global Notes are intended to be cleared through a clearing system other than CBF, CBL, Euroclear or delivered outside a clearing system, be delivered as agreed between the Issuer, the Fiscal Agent and the relevant Dealer.

The relevant Final Terms will also specify whether United States Treasury Regulation § 1.163-5(c)(2)(i)(C) or any successor provision in substantially similar form (the **TEFRA C Rules** or **TEFRA C**) or United States Treasury Regulation § 1.163-5(c)(2)(i)(D) or any successor provision in substantially similar form (the **TEFRA D Rules** or **TEFRA D**) are applicable in relation to the Bearer Notes or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable. Each Tranche of Bearer Notes for which the relevant Final Terms specify TEFRA C will be represented by a TEFRA C Permanent Global Note and each Tranche of Bearer Notes for which the relevant Final Terms specify TEFRA D will initially be represented by a TEFRA D Temporary Global Note.

TEFRA D Temporary Global Note exchangeable for TEFRA D Permanent Global Note

If the relevant Final Terms specify the form of the Bearer Notes as being "Temporary Global Note exchangeable for Permanent Global Note" and also specify that the TEFRA D Rules are applicable, the Bearer Notes will initially be in the form of a Temporary Global Note, without interest coupons, which will be exchanged for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Bearer Notes (the **Exchange Date**) upon certification as to non-U.S. beneficial ownership. No payments of principal, interest (if any) or any other amounts will be made under the Temporary Global Note prior to such certification of non-U.S. beneficial ownership having been received by the relevant Clearing System and such Clearing System having given a like certification (based on the certifications it has received) to the Fiscal Agent.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) (if the Temporary Global Note is not intended to be issued in NGN form) presentation and (in the case of final exchange) surrender of the Temporary Global Note at the specified office of the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; provided, however, that in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note. Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through the relevant Clearing System (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

TEFRA D Temporary Global Note exchangeable for TEFRA D Bearer Notes in definitive form

If the relevant Final Terms specify the form of the Bearer Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specify that the TEFRA D Rules are applicable, the Bearer Notes will initially be in the form

of a Temporary Global Note, without interest coupons, which will be exchanged for Bearer Notes in definitive form not earlier than the Exchange Date upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note prior to such certification of non-U.S. beneficial ownership having been received by the relevant Clearing System and such Clearing System having given a like certification (based on the certifications it has received) to the Fiscal Agent.

If the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, with interest coupons and talons and receipts attached (in each case as applicable), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note in accordance with its terms against

- (i) (if the Temporary Global Note is not intended to be issued in NGN form) presentation and surrender of the Temporary Global Note at the specified office of the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership.

Terms and Conditions of the Notes applicable to the Bearer Notes

The Terms and Conditions of the Notes applicable to any Global Note will be attached to such Global Note and the Terms and Conditions of the Notes applicable to any Definitive Note will be endorsed on that Definitive Note, all as more fully described in the section entitled "*Issue Procedures*".

Legend concerning United States Persons

In the case of any Tranche of Bearer Notes issued in accordance with TEFRA C or TEFRA D, any Global Note and any Definitive Note and any interest coupons and receipts (in each case as applicable) appertaining to such Definitive Note will bear a legend to the following effect:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on a Bearer Note, an interest coupon or a receipt and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Bearer Notes, interest coupons or receipts.

Form of the Registered Notes

The Issuer anticipates that Registered Notes will be privately placed on a non-syndicated basis with professional investors only. Any issue will be evidenced by a single registered note (the **Registered Note**). The Terms and Conditions of the Notes applicable to any Registered Note will be attached to such Registered Note, all as more fully described in the section entitled "*Issue Procedures*".

ISSUE PROCEDURES

General

The Issuer and the relevant Dealer will agree on the terms and conditions applicable to each particular tranche of Notes (the **Conditions**). These Conditions will be constituted by the terms and conditions set out in the section entitled "*Terms and Conditions of the Notes*" as completed, modified or replaced by the provisions of the Final Terms applicable to each Tranche of Notes as provided below. The Final Terms relating to each particular Tranche of Notes will specify whether these Conditions are to be Long-form Conditions or Integrated Conditions (each as described below) and whether the Conditions will be in the German language or in the English language or both and, in the latter case, whether the German or the English language version will be binding.

As to whether the Conditions will be documented as Long-form Conditions or Integrated Conditions, the following will apply:

- Integrated Conditions will generally be required where the Notes are to be publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- In all other cases, the Issuer may elect to use Long-form Conditions or Integrated Conditions.

As to the binding language of the Conditions, the Issuer anticipates that, in general, subject to any legal or stock exchange requirements applicable from time to time, and unless otherwise agreed between the Issuer and the relevant Dealer, German will be the binding language of the Conditions if the Notes are to be publicly offered, in whole or in part, or distributed, in whole or in part, to non-qualified investors. If, in the event of such public offer or distribution to non-qualified investors, English is chosen as the binding language, a German language translation of the Conditions will be also provided.

Long-form Conditions

If the relevant Final Terms specify that Long-form Conditions are to apply to the Notes, the provisions of the relevant Final Terms and the Terms and Conditions of the Notes (modified as described above), taken together, shall constitute the Conditions. In particular, the following shall apply:

- the blanks in the provisions of the Terms and Conditions of the Notes which are applicable to the Notes will be deemed to be completed by the information contained in the relevant Final Terms as if such information were inserted in the blanks of such provisions;
- the Terms and Conditions of the Notes will be modified or replaced, in whole or in part, by the text of any provisions of the relevant Final Terms modifying or replacing, in whole or in part, the provisions of the Terms and Conditions of the Notes;
- alternative or optional provisions of the Terms and Conditions of the Notes as to which the corresponding provisions in the relevant Final Terms are not completed or are deleted will be deemed to be deleted from the Conditions; and
- all instructions and explanatory notes set out in square brackets in the Terms and Conditions of the Notes and any footnotes and explanatory text in the relevant Final Terms will be deemed to be deleted from the Conditions.

Where Long-form Conditions apply, each Global Note or Registered Note representing the Notes of the relevant tranche will have the relevant Final Terms and the Terms and Conditions of the Notes attached. Where Definitive Notes are delivered in respect of the Notes, they will have endorsed thereon either (i) the relevant Final Terms and the Terms and Conditions of the Notes in full, or (ii) the relevant Final Terms and the Terms and Conditions of the Notes in a form simplified by the deletion of non-applicable provisions, or (iii) Integrated Conditions, as the Issuer may determine.

Integrated Conditions

If the relevant Final Terms specify that Integrated Conditions are to apply to the Notes, the Conditions in respect of such Notes will be constituted as follows:

- all of the blanks in all applicable provisions of the Terms and Conditions of the Notes will be completed according to the information contained in the relevant Final Terms and all non-applicable provisions of the Terms and Conditions of the Notes (including the instructions and explanatory notes set out in square brackets) will be deleted; and/or

- the Terms and Conditions of the Notes will be otherwise modified or replaced, in whole or in part, according to the information set forth in the relevant Final Terms.

Where Integrated Conditions apply, the Integrated Conditions alone will constitute the Conditions. The Integrated Conditions will be attached to each Global Note or Registered Note representing Notes of the relevant Tranche and will be endorsed on any Definitive Notes exchanged for any such Global Note.

Eurosystem Eligibility of the Notes to Be Issued in NGN Form Intended

Die Globalurkunde[n] soll[en] in EZB-fähiger Weise gehalten werden.

The Global Note[s][is] [are] intended to be held in a manner which will allow Eurosystem eligibility.

- Ja
Yes

"Ja" bedeutet, dass die Schuldverschreibungen nach ihrer Begebung von der gemeinsamen Verwahrstelle (*common safekeeper*) der ICSDs verwahrt werden. "Ja" bedeutet nicht notwendigerweise, dass die Schuldverschreibungen zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik und für Innertageskredite vom Eurosystem anerkannt werden. Eine solche Anerkennung hängt davon ab, ob die EZB davon überzeugt ist, dass die Zulässigkeitskriterien des Eurosystems erfüllt sind.

"Yes" means that the Notes, after having been issued, will be held by a common safekeeper of the ICSDs. "Yes" does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

- Nein
No

Auch wenn am Tag dieser Endgültigen Bedingungen die Angabe "Nein" lautet, können die Schuldverschreibungen dann, wenn sich die Zulässigkeitskriterien des Eurosystems in der Zukunft dergestalt ändern, dass die Schuldverschreibungen diese einhalten können, bei einem ICSD als gemeinsamer Verwahrer (*common safekeeper*) hinterlegt (und auf den Namen eines von einem der ICSDs Beauftragten als gemeinsamer Verwahrer (*common safekeeper*) eingetragen) werden. Dies bedeutet nicht notwendigerweise, dass die Schuldverschreibungen zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik und für Innertageskredite vom Eurosystem anerkannt werden. Eine solche Anerkennung hängt davon ab, ob die EZB davon überzeugt ist, dass die Zulässigkeitskriterien des Eurosystems erfüllt sind.

While the designation is specified as "No" at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes may then be deposited with one of the ICSDs as common safekeeper (and registered in the name of a nominee of one of the ICSDs acting as common safekeeper). Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]

DESCRIPTION OF THE ISSUER

Foundation, Registered Office and Duration

NRW.BANK, which was previously known as Landesbank Nordrhein-Westfalen (**Landesbank NRW**), was founded on 1st August, 2002 under the Act for the Reorganisation of the Legal Relations of the Public-law Banks in North Rhine-Westphalia (*Gesetz zur Neuregelung der Rechtsverhältnisse der öffentlich-rechtlichen Kreditinstitute in Nordrhein-Westfalen*) as a legally autonomous public-law institution with retroactive effect from 1st January, 2002 for an unlimited duration. Landesbank NRW became NRW.BANK on 31st March, 2004 as a result of the entry into force of the Act on the Reorganisation of Landesbank Nordrhein-Westfalen into the Development Bank of the State of North Rhine-Westphalia and on the Amendment of Other Laws (*Gesetz zur Umstrukturierung der Landesbank Nordrhein-Westfalen zur Förderbank des Landes Nordrhein-Westfalen und zur Änderung anderer Gesetze*; the **Reorganisation Act**) dated 16th March, 2004. The Reorganisation Act which forms the legal basis of NRW.BANK was amended and renamed NRW.BANK Act (*Gesetz über die NRW.BANK*; the **NRW.BANK Act**) on 30th October, 2007 and was last amended by the Act amending the NRW.BANK Act in relation to the Retirement of Certain Guarantors and to the Right of Inspection of the Court of Audit (*Gesetz zur Anpassung des Gesetzes über die NRW.BANK an die Gewährträgerstruktur sowie zum Prüfungsrecht des Landesrechnungshofs bei der NRW.BANK*; the **Act Amending the NRW.BANK Act**), which was adopted on 4th December, 2012 and came into force on 15th December, 2012 and on 1st January, 2013, respectively.

NRW.BANK has registered offices in Düsseldorf (Kavalleriestraße 22, 40213 Düsseldorf, Germany; +49 211 91741-0) and Münster (Friedrichstraße 1, 48145 Münster, Germany; +49 251 91741-0). NRW.BANK is registered with the commercial registers in Düsseldorf (HRA 15277) and Münster (HRA 5300). The Legal Entity Identifier (LEI) of NRW.BANK is 52990002O5KK6XOGJ020. The principal place of business of NRW.BANK is Düsseldorf.

Legal Status

NRW.BANK has legal capacity by operation of law. It is a bank with the legal status of a public law institution. NRW.BANK has obtained a banking licence. It is under the direct supervision of the European Central Bank (ECB) and further supervised by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*; the **BaFin**). In addition, NRW.BANK is supervised at state level by the Ministry of the Interior and Municipalities of North Rhine-Westphalia.

Business Purpose

NRW.BANK's objectives, as outlined in its constitutional documents, are typical of a development bank and are consistent with the NRW.BANK Act. These objectives, which NRW.BANK fulfils through its development programmes, are outlined in the public development guidelines of the State of North Rhine-Westphalia (the **State**). To fulfil its objectives, NRW.BANK operates in the following development sectors:

- securing and improving the small and medium-sized business sector, especially through finance for business start-ups and business expansion;
- within the framework of social housing promotion;
- providing venture capital;
- urban development;
- infrastructure initiatives;
- agricultural, forestry and rural initiatives;
- environmental protection initiatives;
- technological and innovation initiatives;
- purely social initiatives; and
- cultural and scientific initiatives.

In line with its objectives, NRW.BANK may also provide loans and other kinds of financing to local authorities (*Gebietskörperschaften*) and special-purpose associations under public law (*öffentlich-rechtliche Zweckverbände*) and participate in projects financed by the European Investment Bank, the Development Bank of the European Council or comparable financing institutions or similar projects in the interest of the community.

In addition to the treasury business, NRW.BANK may, to the extent consistent with its objectives, also manage transactions and offer services which are related to its tasks. It may also perform treasury management and risk management transactions, raise subordinated guarantee capital and issue uncovered bearer bonds, profit participation rights, public-sector mortgage and other bonds, purchase and sell financial instruments and purchase and sell debts. Securities trading, deposit-taking and giro business are also permissible if they are directly related to the furtherance of NRW.BANK's objectives.

The business of NRW.BANK is to be conducted in accordance with standard business principles, with a view toward the public good. The generation of profits is not NRW.BANK's main purpose.

NRW.BANK operates principally in Germany. Most of the transactions involve debtors in North Rhine-Westphalia. Occasionally, NRW.BANK enters into financial commitments outside of Germany. These mostly involve the investment of available funds.

Development Bank

In passing the Reorganisation Act, the State legislature complied with the requirements of the *Verständigung II* accord reached between the European Commission and the German Federal Government on 1st March, 2002 and remodelled Landesbank NRW as a pure development bank. As a result, NRW.BANK continues to benefit from institutional liability and guarantor liability (each as described below) even after 18th July, 2005.

Under the *Verständigung II* accord, development banks performing development tasks in the context of a public mission may continue to benefit from institutional liability and guarantor liability as well as other guarantees subject to certain requirements described in detail in the "*Verständigung II*" accord. A copy of the *Verständigung II* accord is viewable on NRW.BANK's website (www.nrbank.de).

Pursuant to section 4, paragraph 3, sentence 3 of the NRW.BANK Act, the State as the guarantor (the **Guarantor**) of NRW.BANK guarantees, *inter alia*, notes issued by NRW.BANK.

Pursuant to section 4, paragraph 5 of the NRW.BANK Act, a retiring guarantor continues to be liable for liabilities of NRW.BANK which were justified at the date of its retirement becoming effective. The obligations from sub-section 1 Section 11 of the Act for the Reorganisation of the Legal Relations of the Public-law Banks in North Rhine-Westphalia (*Gesetz zur Neuregelung der Rechtsverhältnisse der öffentlich-rechtlichen Kreditinstitute in Nordrhein-Westfalen*) continue to apply to a retiring guarantor.

Institutional Liability, Guarantor Liability, Explicit Guarantee and Asset Value Guarantee

As a competitively neutral development bank meeting the requirements of the *Verständigung II* accord, NRW.BANK benefits from institutional liability and guarantor liability and an explicit guarantee of its Guarantor.

Institutional liability is the obligation of a public law guarantor to secure the financial basis of a public law governed entity, to keep it functional and cover any potential financial gaps. Insolvency is virtually impossible. Institutional liability is limited neither in terms of quantum nor in terms of time. It is regarded as a general principle of law.

Guarantor liability is a direct obligation, which is based on a law or ordinance, of a public law institution (state, municipality, other corporation under public law) to creditors of a public law governed entity for all liabilities of that entity. It obliges the guarantor to step in in case of insolvency or liquidation of the public law governed entity. It is not a general principle of law and requires an express legal basis.

The **explicit guarantee** refers to a statutorily imposed liability of the Guarantor of NRW.BANK. Based on such explicit guarantee and pursuant to the German Banking Act (*Gesetz über das Kreditwesen*) and the Capital Requirements Regulation (CRR), in the opinion of the competent authorities, NRW.BANK has been accorded the risk-weight of the State of North Rhine-Westphalia which equals the risk-weight of the Federal Republic of Germany. NRW.BANK therefore currently has a risk-weight of zero.

On 28th April, 2005, for regulatory reasons, the State furnished a **valuation guarantee** to NRW.BANK for carrying value of NRW.BANK's equity interest in WestLB AG as of 31st December, 2004. This guarantee also indemnifies against all further risk associated with its holding in Portigon AG (formerly WestLB AG). The requisite budgetary

groundwork was laid by the States legislature in the 2005 Budget Supplement Act (*Nachtragshaushaltsgesetz*) of 1st March, 2005.

The Guarantor

Since 1st June, 2011, the State is the sole guarantor of NRW.BANK.

TAXATION

The following is a general discussion of certain German and Luxembourg tax consequences of the acquisition and ownership of Notes and certain aspects of the European Union Savings Directive and the U.S. Foreign Account Tax Compliance Act. This discussion does not purport to be a comprehensive description of all tax considerations that may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the tax laws currently in force and as applied on the date of this Simplified Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

Prospective purchasers of Notes are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any state or local taxes, under the tax laws of Germany, Luxembourg and each country of which they are residents.

Germany

a) German Tax Residents

The following paragraphs apply to persons who are tax resident in Germany, *i.e.* persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany.

aa) Taxation of interest income and capital gains

- Notes held as private assets

Private income derived from capital investments (*Einkünfte aus Kapitalvermögen*) is subject to the flat tax regime (*Abgeltungsteuer*). Such income from capital investments includes, *inter alia*, any interest received and capital gains from the disposal, redemption, repayment or assignment of Notes irrespective of a holding period. The taxable capital gain is the difference between the proceeds from the disposition, redemption, repayment or assignment on the one hand and the acquisition costs and directly related disposal costs on the other hand. If similar Notes kept or administrated in the same custodial account have been acquired at different points in time, the Notes first acquired will be deemed to have been sold first for the purposes of determining the capital gains. Where Notes are acquired and/or sold in a currency other than Euro, the disposal proceeds and the acquisition costs each will be converted into Euro using the exchange rates as at the relevant dates, to the effect that currency gains and losses will also be taken into account in determining taxable capital gains. If interest coupons or interest claims are disposed of separately (*i.e.* without the Notes), the proceeds from the disposition are subject to taxation. The same applies to proceeds from the payment of interest coupons or interest claims if the Notes have been disposed of separately.

Related expenses (*Werbungskosten*) other than transaction costs are not tax deductible, however, an annual tax allowance (*Sparer-Pauschbetrag*) of up to Euro 801 is granted in relation to all income from capital investments in a given year (up to Euro 1,602 for married couples and for partners in accordance with the registered partnership law (*Gesetz über die Eingetragene Lebenspartnerschaft*) filing a joint tax return).

Accrued interest paid separately upon the acquisition of Notes or other securities may give rise to negative income from capital investments. Such negative income and losses from capital investments can only be set off against positive income from capital investments. Any losses not offset in a given year are carried forward to future years and can be deducted from positive income from capital investments.

In case of a physical settlement of certain Notes which grant the Issuer or the Holder the right to opt for a physical delivery of underlying securities instead of a money payment, the acquisition costs of the Notes may be regarded as proceeds from the disposal, redemption, repayment or assignment of the Notes and hence as acquisition costs of the underlying securities received by the Holder upon physical settlement; any consideration received by the Holder in addition to the underlying securities will be subject to taxation. To the extent the provision mentioned above is applicable, generally no capital gain results upon physical settlement. However, taxation may then apply to any gain resulting from the disposal, redemption, repayment or assignment of the securities received in exchange for the Notes. In this case, the gain will be the difference between the proceeds from the disposal, redemption, repayment or assignment of the underlying securities and the acquisition costs of the Notes (after deduction of expenses related directly to the disposal, if any). However, any losses realised upon the disposal of shares in stock corporations received in exchange for the Notes can only be off-set against capital gains deriving from the disposal of shares.

Pursuant to a tax decree issued by the German Federal Ministry of Finance dated 9th October, 2012 a bad debt-loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*), to the extent the waiver does not qualify as a hidden capital contribution, shall not be treated like a disposal. Accordingly, losses suffered upon such bad debt-loss or

waiver shall not be tax-deductible. The same rules should be applicable according to the said tax decree, if the Notes expire worthless so that losses may not be tax-deductible at all. A disposal of the Notes will only be recognised according to the view of the tax authorities, if the received proceeds exceed the respective transaction costs. Where the Notes provide for instalment payments, such instalment payments shall always qualify as taxable savings income, unless the terms and conditions of the Notes provide explicit information regarding redemption or partial redemption during the term of the Notes and the contractual parties comply with these terms and conditions. It is further stated in the tax decree that, if, in the case of Notes providing for instalment payments, there is no final payment at maturity, the expiry of such Notes shall not be deemed as a sale, with the consequence that any remaining acquisition costs could not be deducted for tax purposes. Similarly, any remaining acquisition costs of Notes providing for instalment payments shall not be tax-deductible if the Notes do not provide for a final payment or are terminated early without a redemption payment because the respective underlying has left the defined corridor or has broken certain barriers (e.g. in knock-out structures). Although the tax decree only refers to instruments with instalment payments, it cannot be excluded that the German tax authorities apply the above principles also to other kinds of full-risk securities.

Income from capital investments is generally subject to German income tax at a special tax rate of 25 per cent. plus a solidarity surcharge (*Solidaritätszuschlag*) at a rate of 5.5 per cent. thereon, arriving at a tax rate of 26.375 per cent. plus, as the case may be, church tax at a rate of 8 or 9 per cent. on the income tax (depending on the residence of the Holder; in this case the withholding tax is reduced to 24.51 or 24.45 per cent., respectively). Subject to certain requirements and restrictions, foreign withholding taxes levied on income from capital investments in a given year may be credited against the income tax liability of the Holder.

As a rule, the flat tax is generally imposed by way of withholding (*Kapitalertragsteuer*) as described below in the subsection entitled "*Withholding Tax*". The withheld tax generally settles the income tax liability of the Holder. To the extent that no withholding tax has been withheld (for example in cases where the Notes were kept in custody abroad), the relevant income has to be declared in the tax return of the Holder and income tax is generally assessed on the gross income from capital investments at the special tax rate of 25 per cent. (plus solidarity surcharge of 5.5 per cent. thereon and, if applicable, church tax). An assessment may also be applied for in order to set off losses, to credit foreign withholding taxes or to take advantage of the annual tax allowance if this was not done within the withholding process. An assessment may further be applied for, if a taxation of all income from capital investments in a given year at the progressive rates applicable for the relevant Holder would lead to a lower tax liability as under the flat tax regime with the result that any amounts over-withheld will be refunded (so-called favourableness test – *Günstigerprüfung*). However, a deduction of related costs on an itemised basis is not permitted.

Where the income from the Notes qualifies as income from letting and leasing of property, the flat tax regime is not applicable. The Holder will have to report income and related expenses in his tax return and the balance will be taxed at the applicable progressive tax rate of up to 45 per cent. plus solidarity surcharge of 5.5 per cent. thereon and, if applicable, church tax. Any withholding tax withheld is credited against the assessed income tax liability.

- Notes held as business assets

Where Notes are held as business assets, any income derived therefrom (interest payments and capital gains) is taxed as income from agriculture or forestry, trade or business income, or as income from a self-employed activity (*selbständige Arbeit*), as the case may be. The flat tax regime is not applicable. Any withholding tax is credited against the assessed income tax or corporate income tax liability, as the case may be.

The taxable income has to be calculated generally under consideration of interest accrued. Where Notes qualify as Zero Coupon Notes, each year the part of the difference between the issue or purchase price and the redemption amount attributable to such year must be taken into account. Generally the deductibility of capital losses from Notes which qualify for tax purposes as forward/futures transaction (*Termingeschäft*) is limited. These losses may only be applied against profits from other forward/futures transactions derived in the same or, subject to certain restrictions, the previous year. Otherwise these losses can be carried forward indefinitely and applied against profits from forward/futures transactions in subsequent years. This generally does not apply to forward/futures transactions hedging the Holder's ordinary business. Further special rules apply to banks, financial services institutions and finance companies within the meaning of the German Banking Act.

In the event that Notes are held by an individual, the income is subject to income tax at the progressive tax rates of up to 45 per cent. (plus solidarity surcharge of 5.5 per cent. thereon and, if applicable, church tax). In addition, the income – to the extent it is trade or business income – is subject to trade tax (trade tax rates ranging from approx. 7 to 17 per cent. depending on the trade tax multiplier of the municipality concerned). Trade tax may in principle be (partially) credited against the income tax liability of the Holder by way of a lump sum procedure.

If the Holder is a corporation, the income derived therefrom is subject to corporate income tax of 15 per cent. plus solidarity surcharge of 5.5 per cent. thereon and trade tax at the above rates. In the case of physically settled Notes special limitations may apply to losses from the disposal of an underlying which is a share in a corporation.

If Notes are held by a partnership, the income derived therefrom is allocated to the partners. Depending on if they are individuals or corporations, the income is subject to income tax or to corporate income tax at the level of the partners. The income – to the extent it is trade or business income – is further subject to trade tax at the above rates at the level of the partnership. In case of a partner who is an individual, the trade tax may in principle (partially) be credited against his income tax liability by way of a lump sum procedure.

bb) Withholding Tax

Withholding tax, if applicable, is levied at a rate of 25 per cent. (plus solidarity surcharge of 5.5 per cent. thereon). A German branch of a German or non-German bank or financial services institution, a German securities trading bank and a German securities trading company (each a **German Disbursing Agent**) is in principle obliged to withhold withholding tax and pay it to the German tax authorities for the account of the Holder, provided that the Notes are kept or administrated in a custodial account with the German Disbursing Agent. The Issuer may be obliged to deduct and withhold withholding tax where (i) no German bank or financial services institution is the paying agent and where additionally (ii) the Issuer either (a) holds Notes in custody, administers them or effects a sale of the Notes and pays or credits the relevant amounts of interest or sales proceeds, or (b) pays or credits the relevant amounts in exchange against a physical transfer of interest coupons or partial debentures to a party other than a foreign bank or foreign financial services institution.

For individual Holders who are subject to church tax an electronic information system for church withholding tax purposes applies in relation to income derived from capital investments, with the effect that church tax will also be collected by the German Disbursing Agent by way of withholding unless the Holder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*) in which case the Holder will be assessed to church tax.

Withholding tax will be levied on the gross income from capital investments. To the extent the Notes have not been kept in a custodial account with the German Disbursing Agent since the time of acquisition, upon the disposal, redemption, repayment or assignment, the withholding tax rate is applied to 30 per cent. of the disposal proceeds plus interest accrued on the Notes, if any (substitute assessment base – *Ersatzbemessungsgrundlage*), unless the Holder provides evidence of the actual acquisition costs by submitting a certificate of the previous German Disbursing Agent or a foreign bank or financial services institution within the European Economic Area or certain other countries in accordance with Article 17(2) of the Council Directive 2003/48/EC on the taxation of savings income (the **European Union Savings Directive**) (e.g. Switzerland or Andorra).

For private Holders the German Disbursing Agent, when computing the withholding tax, will take into account accrued interest on the Notes or other securities paid separately upon the acquisition of the respective security, credit foreign withholding taxes levied on investment income in a given year and, according to a specific procedure, settle losses from the disposal of capital investments (other than stocks (*Aktien*)) entered into through or with the same German Disbursing Agent. If, in this context, losses cannot be offset in full against positive income from capital investments, the German Disbursing Agent will upon request issue a certificate stating the losses in order for them to be offset or carried forward in the assessment procedure. The request must reach the German Disbursing Agent by 15th December of the current year and is irrevocable.

If Notes are not kept in a custodial account with a German Disbursing Agent, withholding tax will arise on the gross amount of interest paid or credited by a German Disbursing Agent upon presentation of a coupon (whether or not presented with the Note to which it appertains) or a Note to a holder of such coupon or Note (other than a non-German bank or financial services institution) (over-the-counter transaction – *Tafelgeschäft*). In this case, withholding tax will be levied on 30 per cent. of the proceeds from the disposition, redemption, repayment or assignment of the coupon or of the Note. Accrued Interest previously paid and losses will not be taken into consideration when determining the withholding tax base.

In general, no withholding tax will be levied if a private Holder files an exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the income derived from the Notes together with other income from capital investment does not exceed the exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if a Holder has submitted to the German Disbursing Agent a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the relevant local tax office.

If Notes are held as private assets and the income derived therefrom is not allocable to income from the leasing and letting of certain property, the income tax liability of the Holder is, in principle, settled by the tax withheld. A tax

assessment may be applied for in the cases outlined above in the subsection entitled "*Notes held as private assets*". In assessment cases and in cases where the Notes are held as business assets or are allocable to other types of income, the withholding tax is credited against the income tax or corporate income tax liability of the Holder, or is refunded.

Capital gains from the disposal of Notes derived by a private law corporation that is subject to German residents taxation and which is not exempt from corporate income tax are not subject to German withholding tax. The same applies for capital gains allocated to a domestic business if the sole proprietor declares this to be so to the German Disbursing Agent on the officially required standard form. However, ongoing payments, such as interest payments, are subject to withholding tax (irrespective of any deductions of foreign tax and capital losses incurred).

b) Non-German Tax Residents

aa) Taxation of interest income and capital gains

Income from capital investments (interest and capital gains) is not subject to German taxation, unless (i) the Notes form part of the business assets of a permanent establishment (including a permanent representative) or a fixed base maintained in Germany by the Holder; (ii) the income otherwise constitutes German-source income; or (iii) the interest is paid by a German Disbursing Agent upon presentation of a coupon (whether or not presented with the Note to which it appertains) or a Note to a holder of such coupon or Note (other than a non-German bank or financial services institution) if the Notes are not kept in a custodial account with the German Disbursing Agent (*Tafelgeschäft*). In these cases a regime similar to that explained above in the subsection entitled "*German Tax Residents*" applies.

bb) Withholding Tax

Non-residents of Germany are, in general, not subject to German withholding tax on interest payments and capital gains from the Notes. However, where the income is subject to German taxation as set forth in the preceding paragraph and Notes are held or administrated in a custodial account with a German Disbursing Agent, withholding tax is levied as described above in the subsection entitled "*German Tax Residents*". Where Notes are not kept in a custodial account with a German Disbursing Agent and interest or proceeds from the disposition, redemption, repayment or assignment of a Note are paid by a German Disbursing Agent to a non-resident, withholding tax of 25 per cent. (plus solidarity surcharge at a rate of 5.5 per cent. thereon) will apply as explained above in the subsection entitled "*German Tax Residents*". The withholding tax may be refunded during the course of a tax assessment procedure or under an applicable tax treaty.

c) Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Note will arise under the laws of Germany, if, in the case of an inheritance *mortis causa*, neither the decedent nor the beneficiary, or, in the case of an endowment *intra vivos*, neither the donor nor the donee has its residence or habitual abode or, as the case may be, its place of management or seat in Germany and such Notes are not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply for example to certain German citizens who previously maintained a residence in Germany and in cases where one party involved is a resident in the European Economic Area and the beneficiary or donee applies for an optional German residents taxation.

Inheritance or gift tax may apply *inter alia* – without any transfer – in intervals of 30 years, if the Notes are held by a qualifying family foundation (*Stiftung*) or a family association (*Verein*) having its statutory seat or place of management in Germany.

d) Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

The European Commission and certain member states (including Germany) are currently intending to introduce a financial transactions tax (**FTT**) (presumably on secondary market transactions involving at least one financial intermediary). It is currently uncertain when the proposed FTT will be enacted by the participating member states and when the FTT will enter into force with regard to dealings with the Notes.

By legislative regulations dated 26th January, 2004 the German Federal Government enacted provisions implementing the information exchange on the basis of the European Union Savings Directive into German law. These provisions apply since 1st July, 2005.

Luxembourg

The following information is of a general nature, is included herein solely for information purposes and does not purport to be a comprehensive description of all tax considerations that may be relevant to a decision to purchase or sell the Notes. It is based on the laws, regulations and administrative and judicial interpretations presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice or to cover any and all types of investors. Potential investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Potential investors should be aware that the residence concept used under the respective headings below applies for Luxembourg income tax and net wealth tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax generally encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*) as well as personal income tax (*impôt sur le revenu*) and a temporary budget balancing tax (*impôt d'équilibrage budgétaire temporaire*). Corporate investors may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax, the solidarity surcharge and the temporary budget balancing tax. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

a) Withholding Tax

(i) Non-resident Holders

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident Holders, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident Holders.

(ii) Resident Holders

Under Luxembourg general tax laws currently in force and subject to the law of 23rd December, 2005, as amended (the **Law**) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident Holders, nor on accrued but unpaid interest in respect of Notes nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident Holders.

Under the Law, payments of interest or similar income on debt instruments made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg or to a residual entity (within the meaning of the laws of 21st June, 2005 implementing Council Directive 2003/48/EC on taxation of savings income (as amended) (the **European Union Savings Directive**) and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**) as amended) established in a EU Member State (other than Luxembourg) or one of the Territories and securing such payments for the benefit of such individual beneficial owner will be subject to a withholding tax of 10 per cent. Such tax will be in full discharge of income tax if the individual beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding and payment of the tax will be assumed by the Luxembourg based paying agent.

An individual beneficial owner of interest or similar income (within the meaning of the Law) who is a resident of Luxembourg and acts in the course of the management of his/her private wealth may opt in accordance with the Law for a final tax of 10 per cent. when he/she receives or is deemed to receive such interest or similar income from a paying agent established in another European Union Member State, in a member state of the EEA which is not a European Union Member State or in a state which has concluded a treaty directly in connection with the European Union Savings Directive. In such case, the 10 per cent. levy is calculated on the same amounts as for the payments made by Luxembourg resident paying agents. The option for the 10 per cent. final levy must cover all payments of interest or similar income made by the paying agents to the Luxembourg resident beneficial owner during the entire calendar year. The individual resident that is the beneficial owner of interest is responsible for the declaration and the payment of the 10 per cent. final tax.

b) Income Taxation

(i) Non-resident Holders

Non-resident Holders, not having a permanent establishment, a permanent representative, or a fixed place of business in Luxembourg to which the Notes or income therefrom are attributable, are not subject to Luxembourg income taxes on income accrued or received, redemption premiums or issue discounts, under the Notes nor on capital gains realised on the disposal or redemption of the Notes. Non-resident Holders who have a permanent establishment, a permanent representative, or a fixed place of business in Luxembourg to which the Notes or income therefrom are attributable are subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts under the Notes and on any gains realised upon the sale or disposal of the Notes.

(ii) Resident Holders

Individuals

A resident Holder, acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax in respect of interest or similar income received, redemption premiums or issue discounts, under the Notes, except if tax has been levied on such payments in accordance with the Law.

A gain realised by an individual Holder, acting in the course of the management of his/her private wealth, upon the sale or disposal, in any form whatsoever, of Notes is not subject to Luxembourg income tax, provided this sale or disposal took place more than six months after the Notes were acquired. However, any portion of such gain corresponding to accrued but unpaid interest income is subject to Luxembourg income tax, except if tax has been levied on such interest in accordance with the Law.

Corporation

A corporate resident Holder must include any interest accrued or received, any redemption premium or issue discount, as well as any gain realised on the sale or disposal, in any form whatsoever, of the Notes, in its taxable income for Luxembourg income tax assessment purposes.

A Holder that is governed by the law of 11th May, 2007 on family estate management companies (as amended), or by the law of 17th December, 2010 on undertakings for collective investment, or the law of 13th February, 2007 on specialised investment funds (as amended) is neither subject to Luxembourg income tax in respect of interest accrued or received, any redemption premium, nor on gains realised on the sale or disposal, in any form whatsoever, of the Notes.

c) Net Wealth Taxation

A corporate Holder, whether it is resident of Luxembourg for tax purposes or, if not, it maintains a permanent establishment, fixed place of business or a permanent representative in Luxembourg to which such Notes are attributable, is subject to Luxembourg wealth tax on such Notes, except if the Holder is a family estate management company (*société de gestion de patrimoine familial*) introduced by the law of 11th May, 2007 (as amended), an undertaking for collective investment governed by the law of 17th December, 2010 (amending the law of 20th December, 2002), a securitisation vehicle governed by and compliant with the law of 22nd March, 2004 on securitisation, a company governed by and compliant with the law of 15th June, 2004 (as amended) on venture capital vehicles, or a specialised investment fund governed by the law of 13th February, 2007 on specialised investment funds (as amended).

An individual Holder, whether he/she is resident of Luxembourg or not, is not subject to Luxembourg wealth tax on such Notes.

d) Other Taxes

In principle, neither the issuance nor the transfer of Notes will give rise to any Luxembourg stamp duty, value added tax, issuance tax, registration tax, transfer tax or similar taxes or duties

However, a fixed or *ad valorem* registration duty may be due upon the registration of the Notes in Luxembourg in the case of legal proceedings before Luxembourg courts or in the case the Notes must be produced before an official Luxembourg authority, or in the case of a registration of the Notes on a voluntary basis.

Where the Holder is a resident of Luxembourg for tax purposes at the time of his/her death, the Notes are included in his/her taxable estate for inheritance tax assessment purposes.

Gift tax may be due on a gift or donation of Notes if embodied in a Luxembourg deed passed in front of a Luxembourg notary or recorded in Luxembourg.

European Union Savings Directive

Under Council Directive 2003/48/EC on the taxation of savings income (as amended) (the **European Union Savings Directive**), member states are required, since 1st July, 2005, to provide to the tax authorities of other member states details of certain payments of interest or similar income paid or secured by a person established in a member state to or for the benefit of an individual resident in another member state or certain limited types of entities established in another member state.

On 24th March, 2014, the Council of the European Union adopted a Council Directive amending and broadening the scope of the requirements described above. Member states are required to apply these new requirements from 1st January, 2017. The changes will expand the range of payments covered by the European Union Savings Directive, in particular to include additional types of income payable on securities. The Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a member state must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

For a transitional period, Austria is required (unless during that period it elects otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in those member states which still operate a withholding system when they are implemented.

The end of the transitional period is dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

U.S. Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or FFI (as defined by FATCA)) that does not become a **Participating FFI** by entering into an agreement with the U.S. Internal Revenue Service (**IRS**) to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Issuer (a **Recalcitrant Holder**). The Issuer may be classified as an FFI.

The new withholding regime is now in effect for payments from sources within the United States and will apply to **foreign passthru payments** (a term not yet defined) no earlier than 1st January, 2017. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the **grandfathering date**, which with respect to Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued on or before the grandfathering date, and additional Notes of the same series are issued after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an **IGA**). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a **Reporting FI** (or, in the case of certain exempt entities, a **Nonreporting FI**) not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction generally would not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being **FATCA Withholding**) from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States and Germany have entered into an agreement (the **U.S.-Germany IGA**) based largely on the Model 1 IGA.

If the Issuer is treated as a Reporting FI or Nonreporting FI pursuant to the U.S.-Germany IGA it does not anticipate that it will be obliged to deduct any FATCA Withholding on payments it makes. There can be no assurance, however, that the Issuer will be treated as a Reporting FI or Nonreporting FI, or that it would in the future not be required to deduct FATCA Withholding from payments it makes. Accordingly, the Issuer and financial institutions through which payments on the Notes are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

While the Notes are in global form and held within CBL or Euroclear (together, the **ICSDs**) or CBF, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, the Guarantor, any paying agent and the common depositary or common safekeeper, given that each of the entities in the payment chain between the Issuer and the participants in the ICSDs or CBF is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the Notes may be issued in definitive form. If this were to happen, then a non-FATCA compliant Holder could be subject to FATCA Withholding.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Notes.

SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated programme agreement dated 30th April, 2015 (as amended or supplemented from time to time, the **Programme Agreement**), agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated in the sections entitled "*Form of the Notes*" and "*Terms and Conditions of the Notes*". In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

The following restrictions may be amended or supplemented in the relevant Final Terms.

United States

The Notes have not been and will not be registered under the Securities Act and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act) except in certain transactions exempt from, or in a transaction not subject to, the registration requirements of the Securities Act.

Each Dealer has represented and agreed and each further Dealer to be appointed under the Programme will be required to represent and agree that, except as permitted by Regulation S under the Securities Act, it will not offer, sell or deliver any Notes in the United States.

Until 40 days after the commencement of the offering of any Notes, an offer or sale of the Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Bearer Notes are subject to U.S. tax law requirements and may not be offered or sold in the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meaning given to them by the U.S. Internal Revenue Code of 1986 and regulations promulgated thereunder.

Each issue of Index Linked Notes or Dual Currency Notes shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the relevant Final Terms.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No.25 of 1948, as amended; the **FIEA**) and each Dealer has represented and agreed, and each further Dealer to be appointed under the Programme will be required to represent and agree that it has not offered or sold and will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, any resident in Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from, and including, the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**) it has not made and will not make an offer of Notes to the public in that Relevant Member State, except that it may, with effect from, and including, the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State at any time in any circumstances which do not require the publication of a prospectus pursuant to (i) Article 3 (2) of the Prospectus Directive or (ii) any applicable national law of any Relevant Member State.

For the purposes of this provision, the expression an **offer of Notes to the public** in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the

same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, the expression **Prospectus Directive** means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

Belgium

Other than in circumstances which do not require the publication of a prospectus pursuant to the Belgian law of 16th June, 2006 on the public offering of financial instruments and the admission of financial instruments to trading on regulated markets (the **Law on Public Offerings**), prior to an offer of the Notes to the public in Belgium, the prospectus in relation to the offer would need to be approved by the Belgian Financial Services and Markets Authority in accordance with article 52 of the Law on Public Offerings.

Each Dealer has represented and agreed, and each further Dealer to be appointed under the Programme will be required to represent and agree that it will not offer for sale, sell or market Notes to any person qualifying as a consumer within the meaning of Article I.1 of the Code of Economic Law, as amended from time to time, unless such offer, sale or marketing is made in compliance with the Code of Economic Law and its implementing regulations.

Germany

Each Dealer has represented and agreed, and each further Dealer to be appointed under the Programme will be required to represent and agree, that the Notes have not been and will not be offered or sold or publicly promoted or advertised by it in Germany other than in compliance with the provisions of the German Securities Prospectus Act (*Wertpapierprospektgesetz*) of 22nd June, 2005, as amended, and of the German Act on Investments of Assets (*Vermögensanlagengesetz*) of 6th December, 2011, as amended, and of any other laws applicable in Germany governing the issue, offering and sale of securities.

Italy

The offering of the Notes has not been registered pursuant to Italian securities legislation and, accordingly, each Dealer has represented and agreed, and each further Dealer to be appointed under the Programme will be required to represent and agree, that save as set out below and under "European Economic Area" above, it has not made and will not make an offer of any Notes to the public in the Republic of Italy, and that sales of the Notes in the Republic of Italy shall be effected in accordance with all Italian securities, tax and exchange control and other applicable laws and regulations.

Each Dealer has represented and agreed, and each further Dealer to be appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver any Notes or distribute copies of this Simplified Prospectus or any other document relating to the Notes in the Republic of Italy, except:

- (i) to qualified investors (*investitori qualificati*) (the **Qualified Investors**), as defined in Article 26, first paragraph, letter d) of CONSOB Regulation No. 16190 of 29th October, 2007, as amended from time to time (the **Regulation No. 16190**) pursuant to Article 34-ter, first paragraph, letter b) of CONSOB Regulation No. 11971 of 14th May, 1999, as amended from time to time (the **Regulation No. 11971**), implementing Article 100 of the Legislative Decree No. 58 of 24th February, 1998, as amended from time to time (the **Financial Services Act**); or

- (ii) in other circumstances which are exempted from the rules on solicitation of investments pursuant to Article 100 of the Financial Services Act and Article 34-ter of the Regulation No. 11971.

Any offer, sale or delivery of the Notes or distribution of copies of this Simplified Prospectus or any other document relating to the Notes in the Republic of Italy under (i) or (ii) above must be:

- (a) made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, Regulation No. 16190, Legislative Decree No. 385 of 1st September, 1993, as amended from time to time (the **Banking Act**) and any other applicable laws and regulations;

- (c) in compliance with any other applicable laws and regulations or notification requirements and limitations which may be imposed by CONSOB (the Italian Securities Exchange Commission) or the Bank of Italy (e.g. Article 129 of the Banking Act pursuant to which the Bank of Italy may request periodic information on the Notes offered in the Republic of Italy).

Investors should also note that in connection with the subsequent distribution of Notes (with a minimum denomination lower than Euro 100,000 or its equivalent in another currency) in the Republic of Italy, in accordance with Article 100-bis of the Financial Services Act, where no exemption from the rules on public offerings applies under paragraphs (i) or (ii) above, the subsequent distribution of the Notes on the secondary market in Italy must be made in compliance with the public offer and the prospectus requirement rules provided under the Financial Services Act and Regulation No. 11971. Failure to comply with such rules may result in the sale of such Notes being declared null and void and in the intermediaries transferring the Notes being liable for any damages suffered by investors.

Dealers Transacting with the Issuer

Certain of the Dealers and/or their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer in the ordinary course of business. In addition, in the ordinary course of their business activities, these Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer. Certain of the Dealers and/or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and/or their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of the Notes. The Dealers and/or their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
