Section D – Risks

Element	Description of Element	Disclosure requirement
D.2	Key risks specific to the Issuer	<p>There are certain factors that may affect each Issuer's ability to fulfil its obligations under Notes issued under the Programme. These include the following risk factors related to the Mediobanca Group, its operations and its industry:</p> <ul style="list-style-type: none"> (i) The general economic conditions, the performance of financial markets, interest rate levels, currency exchange rates, changes in laws and regulation, changes in the policies of central banks, particularly the Bank of Italy and the European Central Bank, and competitive factors can change the level of demand for the Issuer's products and services, the credit quality of borrowers and counterparties, the interest rate margin of the Issuer between lending and borrowing costs and the value of each of the relevant Issuer's investment and trading portfolios (ii) The European sovereign debt crisis has adversely affected, and may continue to adversely affect, the Issuer's results of operations, business and financial conditions. (iii) The Mediobanca Group has exposure to Eurozone sovereign debt. (iv) Fluctuations in interest and exchange rates may affect the Issuer's results. (v) The results of the Issuer are affected by general economic, financial and other business conditions. (vi) The credit and capital markets have been experiencing extreme volatility and disruption in recent months. (vii) Each of the Issuer's investment banking revenues, in the form of financial advisory and debt and equity underwriting fees, are directly

		<p>related to the number and size of the transactions in which the relevant Issuer participates and may be impacted by continued or further credit market dislocations or sustained market downturns.</p> <p>(viii) In some of each relevant Issuer's businesses, protracted adverse market movements, particularly asset price declines, can reduce the level of activity in the market or reduce market liquidity.</p> <p>(ix) In the event that the extreme volatility and disruption experienced by international and domestic markets in recent months continue in the future, the Issuer's liquidity can be adversely affected.</p> <p>(x) If the Issuer is unable to continue to respond to the competitive environment in Italy with attractive product and service offerings that are profitable for the Issuer, it may lose market share in important areas of its business or incur losses on some or all of its activities.</p> <p>(xi) If existing or potential customers believe that the Issuer's risk management policies and procedures are inadequate, the Issuer's reputation as well as its revenues and profits may be negatively affected.</p> <p>(xii) Each of the Issuers, like all financial institutions, is exposed to many types of operational risk, including the risk of fraud by employees and outsiders, unauthorised transactions by employees or operational errors, including errors resulting from faulty computer or telecommunication systems.</p> <p>(xiii) Systemic risk could adversely affect the Issuer's businesses.</p> <p>(xiv) The investors should note that the portfolio of the Issuer contains so-called "<i>over the counter</i>" (OTC) derivatives. If the financial condition of market counterparties or their perceived creditworthiness deteriorates further, the Group may record further credit valuation adjustments on the underlying instruments insured by such parties.</p> <p>(xv) A downgrade of Mediobanca's rating may limit Mediobanca's opportunities to extend mortgage loans and may have a particularly adverse effect on Mediobanca's image as a participant in the capital markets, as well as in the eyes of its clients.</p> <p>(xvi) Changes in the Italian and European regulatory framework could adversely affect the Issuer's business.</p> <p>(xvii) The guarantee given by the Guarantor is capped at 110 per cent. of the aggregate principal amount of any Tranche of the Notes and 110 per cent. of the interest on such Notes accrued but not paid.</p>
D.3	Key risks	In addition, there are certain factors which are material for the purpose of

	<p>specific to the Notes</p>	<p>assessing the risks related to Notes issued under the Programme. The Notes may not be suitable for all investors. A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. These include the following:</p> <ul style="list-style-type: none"> (i) The Notes may not be a suitable investment for all investors. (ii) Under EC Council Directive 2003/48/EC on the taxation of savings income, each Member State of the European Economic Area is required to provide to the tax authorities of another Member State of the European Economic Area details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person in favour of, an individual resident in that other Member State; however, for a transitional period, Austria and Luxembourg may instead apply a withholding system in relation to such payments. On 10 April 2013, Luxembourg officially announced that it will no longer apply the withholding tax system as from 1 January, 2015. (iii) The Issuer, the Guarantor and other financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30% on all, or a portion of, payments made after 31 December 2016 in respect of (i) any Notes characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued after 31 December 2012 or are materially modified from that date and (ii) any Notes characterized as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued, pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code or similar law implementing an intergovernmental approach to FATCA. <p><i>Risk related to the structure of a particular Issue of Notes</i></p> <ul style="list-style-type: none"> (i) An optional redemption feature of Notes is likely to limit their market value. (ii) [In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction, the Issuer may redeem all outstanding Notes in accordance with the Conditions]. (iii) Notes with variable interest rates can be volatile investments. (iv) Fixed/Floating Rate Notes may bear interest at a rate that may convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate and any conversion, depending on market interest rates, may adversely affect the value of the Fixed/Floating Rate Notes.
--	-------------------------------------	--

		<p>(v) [To the extent that the Issuer is required by law to withhold or deduct any present or future taxes of any kind imposed or levied by or on behalf of the Republic of Italy or the Grand Duchy of Luxembourg, as appropriate, the Issuer will not be under an obligation to pay any additional amounts to Noteholders.]</p> <p>(vi) <i>[Insert if a Multiplier or Reference Rate Multiplier applies in respect of the determination of the Interest Rate]</i> Any fluctuation of the underlying floating rate will be amplified by the [Multiplier] [and] [the] [Reference Rate Multiplier] such multiplier. This may adversely affect the return on the Notes.</p> <p>(vii) Potential investors should also consider that where the underlying interest rate does not rise above the level of the Minimum Interest Rate, comparable investments in notes which pay interest based on a fixed rate which is higher than the Minimum Interest Rate are likely to be more attractive to potential investors than an investment in the Notes. Under those conditions, investors in the Notes might find it difficult to sell their Notes on the secondary market (if any) or might only be able to realise the Notes at a price which may be substantially lower than the nominal amount. To the extent a Maximum Interest Rate applies, investors should be aware that the Interest Rate is capped at such Maximum Interest Rate level. Consequently, investors may not participate in any increase of market interest rates, which may also negatively affect the market value of the Notes.</p> <p>(viii) If Mediobanca is declared insolvent and a winding up is initiated, it will be required to pay the holders of senior debt and meet its obligations to all its other creditors (including unsecured creditors) in full before it can make any payments on the Subordinated Notes. If this occurs, Mediobanca may not have enough assets remaining after these payments to pay amounts due under the Subordinated Notes.</p> <p><i>Risk Factors related to the Notes generally:</i></p> <p>(i) [The Notes are governed by, and shall be construed in accordance with, English law.] [The Notes are governed by, and shall be construed in accordance with, Italian law.] No assurance can be given as to the impact of any possible judicial decision or change to [English law] [and/or] [Italian law] or administrative practice after the date of this Base Prospectus.</p> <p>(ii) [“Euroclear Bank S.A./N.V. (“Euroclear”) and/or Clearstream Banking, société anonyme, Luxembourg (“Clearstream, Luxembourg”) will maintain records of the beneficial interests in</p>
--	--	---

		<p>the Global Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.]</p> <p>(iii) The Issuers and the Guarantor may, without the consent of Noteholders, correct (i) any manifest error in the Terms and Conditions of the Notes and/or in the Final Terms; (ii) any error of a formal, minor or technical nature in the Terms and Conditions of the Notes and/or in the Final Terms or (iii) any inconsistency in the Terms and Conditions of the Notes and/or in the Final Terms between the Terms and Conditions of the Notes and/or the Final Terms and any other documents prepared in connection with the issue and/or offer of a Series of Notes (provided such correction is not materially prejudicial to the holders of the relevant Series of Notes).</p> <p>(iv) Potential conflicts of interest may exist between Dealers, which may underwrite the Notes issued under the Programme and receive in consideration underwriting commissions and selling concessions, or Mediobanca, which may act as market maker or specialist or perform other similar roles in connection with the notes, on the one hand, and investors in the Notes on the other.</p> <p>(v) The Notes may be issued and withheld by the Issuer for the progressive sale on the market in accordance with investors' demand. In this context an investor who acquires the Notes does not know at the moment of purchase how much of the issued Notes effectively are publicly traded, with the consequence that the amount in circulation could be meagre and may not guarantee successively adequate liquidity in the Notes.</p> <p>(vi) In the event the Issuer decides to issue further Notes having the same terms and conditions as an already existing Series of Notes (or in all respects except for the Issue Price, the Issue Date and/or the first payment of interest) and so that the further Notes shall be consolidated and form a single series with the original Notes, the greater nominal amount in circulation could lead to greater liquidity in the secondary market with a consequent negative impact on the price of the relevant Series of the Notes.</p> <p><i>Risk Factors relating to the market generally:</i></p> <p>(i) Notes may have no established trading market when issued, and one may never develop. The Issuer has not any obligation to purchase the Notes from the Noteholders. However, should the Issuer decide to purchase the Notes, the secondary market pricing that the Issuer may provide on the Notes may reflect the unwinding cost of the</p>

		<p>hedging portfolio (if any) [and/or the loss of profit (<i>lucro cessante</i>) related to such hedging portfolio].</p> <p>(ii) <i>[Insert if Specific Buy Back Provisions apply to the Notes]</i> Investors should be aware that [Mediobanca] [and] [Mediobanca International] [has]/[have] issued the Notes also for the purpose of entering into, from time to time, in certain Underlying Transactions. In this respect, the value of the Notes shall reflect and shall be calculated on the basis of the Market Value of such Underlying Transactions. The composition of the Underlying Transactions will be made available to the investors in accordance with the method of publication indicated in the relevant Final Terms. The Market Value of the Underlying Transactions, as determined by [Mediobanca] [and] [Mediobanca International], acting in [its]/[their] capacity as Calculation Agent, in a fair and commercially reasonable manner and with reference to the market, could adversely affect the repurchase price, if any, of the Notes. Therefore, in the event that an investor requests the Issuer[s] to repurchase the Notes hold by [it]/[them] prior to their maturity, and the Issuer[s] accept[s] such repurchase, the price of the Notes (Buy Back Price) will be determined taking into consideration the Market Value of such Underlying Transactions. The Specific Buy Back Provisions shall apply only to Notes issued by [Mediobanca] [and] [Mediobanca International] and where Mediobanca and/or Mediobanca International act as Dealers.</p> <p>(iii) The Issuer will pay principal and interest on the Notes in the Relevant Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit other than the Relevant Currency.</p> <p>(iv) Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.</p> <p>(v) One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes.</p> <p>(vi) The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers.</p> <p>(vii) Implicit fees (e.g. placement fees, direction fees, structuring fees)</p>
--	--	--

		<p>may be a component of the Issue/Offer Price of Notes, but such fees will not be taken into account for the purposes of determining the price of the relevant Notes in the secondary market.</p> <p>(viii) <i>[Insert if Notes are distributed by means of a public offer]</i> Under certain circumstances, the Issuer [and/or] <i>[specify any other entities indicated in the Final Terms]</i> may have the right to withdraw the offer, which in such circumstances will be deemed to be null and void according to the certain terms.</p> <p>(ix) It is not possible to predict the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list or admit Notes to trading on a stock exchange or market. The Issuer, or any of its Affiliates may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private agreement.</p> <p>(x) <i>[Insert in respect of Notes which are to be listed on a stock exchange, market or quotation system]</i>, The Issuer shall use all reasonable endeavours to maintain listing on <i>[specify relevant stock exchange, market or quotation system]</i>, provided that if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then the Issuer may apply to de-list the relevant Notes, although in this case it will use all reasonable endeavours to obtain and maintain (as soon as reasonably practicable after the relevant de-listing) an alternative equivalent admission to listing, trading and/or quotation by a stock exchange, market or quotation system within or outside the European Union, as it may decide.</p> <p>For the risk factors relating to the Guarantor see item D.2 above.</p>

Interests in Temporary Global Notes will be exchangeable for interests in Permanent Global Notes or, if so stated in the relevant Final Terms for Definitive Notes after the date falling 40 days after the Issue Date upon certification as to non-U.S. beneficial ownership. If specified in the relevant Final Terms, interests in Permanent Global Notes will be exchangeable for definitive Notes as described under “*Summary of Provisions Relating to the Notes while in Global Form*”. Definitive Notes will, if interest-bearing, have interest Coupons attached and, if appropriate, a Talon for further Coupons and will, if the principal thereof is repayable by instalments, have payment Receipts attached.

If the Notes are issued and held in book-entry form, the Notes will not be represented by paper certificates and the transfer and exchange of Notes will take place exclusively through an electronic book-entry system managed by Monte Titoli S.p.A. or any other Centralised Custodian appointed by the Issuers. Accordingly, all Notes of the same tranche shall be deposited by their owners with an intermediary participant in the relevant Centralised Custodian. The intermediary will in turn deposit the Notes with the Centralised Custodian.

In such circumstances, it will not possible for a Noteholder to obtain physical delivery of certificates representing the Notes.

Issue Price of the Notes:

Issue Price will be specified in the relevant Final Terms. Notes may be issued at their principal amount or at a discount or premium to their principal amount.

Type of Notes:

The Issuer may issue Notes of any kind, including but not limited to, Fixed Rate Notes, Floating Rate Notes and Zero Coupon Notes.

Notes will be redeemed by way of cash payment.

Fixed Rate Notes:

Fixed interest will be payable in arrear on the date or dates in each year specified in the relevant Final Terms. The yield in

	respect of Fixed Rate Notes will be specified in the relevant Final Terms and will be calculated as internal rate of return (IRR) on the basis of the Issue Price, any Fixed Coupon and/or any Broken Amount.
Floating Rate Notes:	Floating Rate Notes will bear interest by reference to the benchmark as may be specified in the relevant Final Terms as adjusted for any applicable margin/multiplier.
Zero Coupon Notes:	Zero Coupon Notes may be issued at their principal amount or at a discount or a premium to it and will not bear interest.
Interest Periods and Interest Rates for the Notes:	The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. The use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period.
Redemption Amount for the Notes:	Notes may be redeemable at par or at such other Redemption Amount as may be specified in the relevant Final Terms.
Redemption by Instalments for the Notes:	The Final Terms issued in respect of each issue of Notes which are redeemable in two or more instalments will set out the date on which, and the amounts in which, such Notes may be redeemed.
Status of the Notes:	Notes may be issued by Mediobanca on a subordinated (the “ Subordinated Notes ”) or unsubordinated basis (the “ Senior Notes ”), as specified in the relevant Final Terms. Notes issued by Mediobanca International may only be issued on an unsubordinated basis.
	<p>(i) <i>Status of the Senior Notes:</i></p> <p>The Senior Notes will constitute direct, unconditional, unsubordinated and unsecured obligations of the relevant Issuer and will rank at all times at least <i>pari passu</i> without any preference among themselves and equally with all other present and future unsecured and unsubordinated obligations of the relevant Issuer, save for certain mandatory exceptions of applicable law. See Condition 2(a) (<i>Status of Senior Notes</i>) of the Senior Notes Conditions.</p> <p>(ii) <i>Status of the Subordinated Notes:</i></p> <p>Subordinated Notes constitute direct, unsecured and subordinated obligations of Mediobanca and will rank <i>pari passu</i> and without any preference among</p>

themselves, all as described in Condition 2 (*Status and Special Provisions*) of the Subordinated Notes Conditions and the relevant Final Terms.

In the event of a winding up, dissolution, liquidation or bankruptcy (including, *inter alia*, *Liquidazione Coatta Amministrativa*) of Mediobanca, the payment obligations of Mediobanca under each Series of Subordinated Notes, and the related Coupons as the case may be, will rank in right of payment (A) after unsubordinated creditors (including depositors and any holder of Senior Notes and their respective Coupons) of Mediobanca but (B) at least *pari passu* with all other subordinated obligations of Mediobanca which do not rank or are not expressed by their terms to rank junior or senior to such Series of Subordinated Notes and (C) in priority to the claims of shareholders of Mediobanca, as described in Condition 2 (*Status and Special Provisions*) of the Subordinated Notes Conditions and the relevant Final Terms.

Guarantee:

Under the Deed of Guarantee, and in accordance with the terms and subject to the limitations thereof, Mediobanca unconditionally and irrevocably guarantees payment of all amounts due in respect of Senior Notes issued by Mediobanca International.

Status of the Guarantee:

The payment obligations of the Guarantor under the Deed of Guarantee constitute – in accordance with the terms and subject to the limitations thereof – direct, unconditional, unsubordinated and unsecured obligations of the Guarantor which will rank at all times at least *pari passu* without any preference among themselves and equally with all other present and future unsecured and unsubordinated obligations of the Guarantor, save for certain mandatory exceptions of applicable law. See also Condition 2(b) (*Status of Guarantee*) of the Senior Notes Conditions. In particular, pursuant to the Deed of Guarantee to the extent under the applicable law in force at the relevant time, a cap to the maximum amount to be guaranteed is required, the Guarantor shall only be liable up to an amount which is the aggregate of 110 per cent. of the aggregate principal amount of any Tranche of the Senior Notes (in each case as specified in the applicable Final Terms) and 110 per cent. of the interest on such Senior Notes accrued but not paid as at any date on which the Guarantor's liability falls to be determined. In addition, pursuant to the Deed of Guarantee, the Guarantor has also undertaken to issue an additional guarantee in an amount equal to any liability exceeding the maximum

amount mentioned above in relation to any Tranche of Senior Notes.

Cross Default:

The Notes will contain a cross default in respect of indebtedness for borrowed money of the relevant Issuer and, where applicable, the Guarantor, as more fully set out in Condition 8 (*Events of Default*) of the Senior Notes Conditions and of the Subordinated Notes Conditions.

Redemption:

Notes may be redeemable as specified in the relevant Final Terms.

For so long as it is required under Applicable Banking Regulations, any redemption, purchase or modification of the Subordinated Notes in accordance with the Condition is subject to: (i) the prior approval of the Relevant Authority, as provided under the Applicable Banking Regulations; (ii) in the case of any redemption or purchase, if and to the extent then required under the Applicable Banking Regulations, either (A) Mediobanca having replaced the Subordinated Notes with own funds instruments of equal or higher quality at terms that are sustainable for the income capacity of Mediobanca; or (B) Mediobanca having demonstrated to the satisfaction of the Relevant Authority that the own funds of Mediobanca would, following such redemption or purchase, exceed its Regulatory Capital Requirements for the time being; and (iii) in the case of any redemption prior to the fifth anniversary of the Issue Date, if and to extent then required under Applicable Banking Regulations (A) in the case of redemption for tax reasons, Mediobanca has demonstrated to the satisfaction of the Relevant Authority that the change in tax treatment is material and was not reasonably foreseeable as at the Issue Date, or (B) in the case of redemption upon the occurrence of a Regulatory Event, Mediobanca has demonstrated to the satisfaction of the Relevant Authority that the relevant change in the regulatory classification of the Notes was not reasonably foreseeable as at the Issue Date.

Optional Redemption:

Subject to any legal and regulatory requirements, the Final Terms issued in respect of each issue of Notes will state whether such Notes may be redeemed before their stated maturity at the option of the relevant Issuer (either in whole or in part) and/or the Noteholders, and if so the terms applicable to such redemption and subject to all relevant legal and regulatory requirements.

If the Notes are Subordinated Notes, unless otherwise permitted by current laws, regulations, directives, and/or the

Relevant Authority's requirements applicable to the issue of Subordinated Notes by Mediobanca, the Optional Redemption Date shall not be earlier than five years after the Issue Date, subject to the Relevant Authority prior authorisation when required.

If Regulatory Call is specified in the applicable Final Terms, the Subordinated Notes may be redeemed at the option of Mediobanca (subject to the prior approval of the Bank of Italy), in whole or in part, at any time (if the Note is not a Floating Rate Note) or on any Interest Payment Date (if the Note is a Floating Rate Note), if a proportion equal or more than the Minimum Disqualification Amount of the relevant Subordinated Notes ceases to qualify as "Tier II Capital", on a consolidated or non consolidated basis, as a result of changes after the date of issue of the relevant Subordinated Notes in accordance with Applicable Banking Regulations.

Tax Redemption:

With respect to Notes, the relevant Final Terms will specify whether early redemption will be permitted for tax reasons as described in Condition 4(c) (*Redemption for taxation reasons*) of the Senior Notes Conditions and of the Subordinated Notes Conditions.

Taxation:

All payments in respect of Notes, Receipts and Coupons by the Issuer or (as the case may be) the Guarantor under the Deed of Guarantee will be made without withholding or deduction for, or on account of, any taxes imposed by the Grand Duchy of Luxembourg or the Republic of Italy, as the case may be, unless such withholding or deduction is required by law. In that event, the Issuer or (as the case may be) the Guarantor will (save as provided in Condition 6 (*Taxation*) of the Senior Notes Conditions and of the Subordinated Notes Conditions) pay such additional amounts as will result in the holders of Notes, Receipts or Coupons receiving such amounts as they would have received in respect to Notes, Receipts or Coupons had no such withholding or deduction been required.

However, as more fully set out in Condition 6 (*Taxation*) of the Senior Notes Conditions and of the Subordinated Notes Conditions, unless otherwise provided in the relevant Final Terms, neither the Issuer nor (as the case may be) the Guarantor will be liable to pay any additional amounts to holders of Notes, Receipts or Coupons in relation to any payment on any Note, Receipt or Coupon with respect to any withholding or deduction for or on account of, *inter alia*, (i) substitute tax (*imposta sostitutiva*) pursuant to Legislative Decree No. 239 of 1 April 1996 ("**Decree No. 239**"); (ii)

withholding tax pursuant to Presidential Decree No. 600 of 29 September 1973 (“**Decree No. 600**”); and (iii) withholding tax on Notes qualifying as atypical securities (*titoli atipici*) for Italian tax purposes, pursuant to Law Decree No. 512 of 30 September 1983 (“**Decree No. 512**”).

Rating: The rating of the Notes, if any, to be issued under the Programme will be specified in the applicable Final Terms.

Whether or not each credit rating applied for in relation to a Series of Notes will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No. 1060/2009 (as amended by Regulation (EU) No. 513/2011) (the “**CRA Regulation**”) will be disclosed in the applicable Final Terms. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation unless the rating is provided by a credit rating agency operating in the European Union before 7th June, 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration is not refused.

Governing Law: If it is specified in the Final Terms that English law is applicable to the Notes, the Notes and any contractual or non-contractual obligations arising from or connected with the Notes are governed by, and shall be construed in accordance with, English law, except, with respect to the Subordinated Notes, for Conditions 2 (*Status and Special Provisions*), 4(b)(ii) (*Maturities/Final Redemption*), 4(g) (*Redemption for regulatory reasons (Regulatory Call)*) and 8 (*Events of Default*) of the Subordinated Notes Conditions, which are governed by, and shall be construed in accordance with, Italian law. If it is specified in the Final Terms that Italian law is applicable to the Notes, the Notes will be governed by, and shall be construed in accordance with, Italian law.

Listing and Admission to Trading: The Base Prospectus has been approved by the Central Bank of Ireland as competent authority under the Prospectus Directive. Application has also been made for Notes issued under the Programme to be admitted to trading on the regulated market of the Irish Stock Exchange and to be listed on the Official List of the Irish Stock Exchange.

Notes may be listed or admitted to trading, as the case may be, on other or further stock exchanges or markets as may be agreed between the relevant Issuer, the Guarantor (where

applicable) and the relevant Dealer in relation to the relevant Series. Notes which are neither listed nor admitted to trading on any market may also be issued.

The Central Bank of Ireland may, at the request of either Issuer, send to the competent authority of another European Economic Area Member State (i) a copy of this Base Prospectus; (ii) a Certificate of Approval in accordance with Article 18(1) of the Prospectus Directive; and (iii) if so required by such competent authority, a translation of this Summary.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche of Notes will be set out in the relevant Final Terms which, with respect to Notes to be listed on the Official List of the Irish Stock Exchange, and admitted to trading on the regulated market of the Irish Stock Exchange will be delivered to the Irish Stock Exchange.

The applicable Final Terms will state whether or not the relevant Notes are to be listed and admitted to trading and, if so, on which stock exchanges and markets.

RISK FACTORS

The Issuers and the Guarantor believe that the following factors may affect their ability to fulfil their obligations under Notes and (in relation to Senior Notes only) the Guarantee issued under the Programme. Most of these factors are contingencies which may or may not occur and the Issuers and the Guarantor are not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuers and the Guarantor believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuers and the Guarantor to pay interest, principal or other amounts on or in connection with any Notes or, in relation to Senior Notes only, the Guarantee may occur for other reasons which may not be considered significant risks by the Issuers and the Guarantor based on information currently available to them or which they may not currently be able to anticipate.

The purchase of Notes involves substantial risks and is suitable only for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and the merits of an investment in the Notes. Before making an investment decision, prospective purchasers of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risks and that they consider carefully, in the light of their own financial circumstances, financial condition and investment objectives, all the information set forth in this Base Prospectus and as supplemented from time to time.

1) Risks relating to the Issuers, the Guarantor and the Mediobanca Group

Factors that may affect the Issuers' and the Guarantor's ability to fulfil their obligations under Notes issued under the Programme.

Prospective investors should also read the risk factors relating to Mediobanca set out in the English translation of the Mediobanca Registration Document (as defined below) which is incorporated by reference to this Base Prospectus as indicated in “Documents Incorporated by Reference” below.

The Issuer's financial results may be affected by events which are difficult to anticipate

The Issuer's earning and business are affected by general economic conditions, the performance of financial markets, interest rate levels, currency exchange rates, changes in laws and regulation, changes in the policies of central banks, particularly the Bank of Italy and the European Central Bank (“**ECB**”), and competitive factors, in each case on a regional, national and international level. Each of these factors can change the level of demand for the Issuer's products and services, the credit quality of borrowers and counterparties, the interest rate margin of the Issuer between lending and borrowing costs and the value of the Issuer's investment and trading portfolios.

Risks arising from the Eurozone sovereign debt crisis

The sovereign debt crisis has raised concerns about the long-term sustainability of the European Monetary Union (the EMU). In the last few years, several EMU countries have requested financial aid from European authorities and from the International Monetary Fund (the IMF) and are currently pursuing an ambitious programme of reforms. The risk of a sharp upward repricing in sovereign credit spreads has significantly diminished after the ECB launched the “*Outright Monetary Transaction*” and started to buy government bonds (PSPP); however it has not completely faded. Resurfacing tensions in Greece create an additional factor of uncertainty that may negatively weigh on risk appetite and on sovereign spreads.

Rising market tensions might affect negatively the funding costs and economic outlook of some euro member countries. This, together with the risk that some countries (even if not very significant in terms of gross domestic product) might leave the euro area, would have a material and negative impact on the Group and/or on the Group's clients, with negative implications for the Group's business, results and financial position.

Lingering market tensions might affect negatively the global economy and hamper the recovery of the euro area. Moreover, the tightening fiscal policy by some countries might weigh on households' disposable income and on corporate profits with negative implications for the Group's business, results and financial position. This trend will likely continue in the coming quarters.

Any deterioration of the Italian economy would have a material adverse effect on the Group's business, in light of the Group's significant exposure to the Italian economy. In addition, if any of the countries in which the Group operates witnessed a significant deterioration in economic activity, the Group's results of operations, business and financial condition would be materially and adversely affected.

The European Central Bank's unconventional policy tools (including a security market programme and provision of liquidity via "*Longer Term Refinancing Operations*" (**LTRO**) with full allotment) have contributed to ease tensions, limiting the refinancing risk for the banking system and leading to a tightening of credit spreads. The possibility that the European Central Bank could halt or reconsider the current set up of unconventional measures would impact negatively the value of sovereign debt instruments. This would have a materially negative impact on the Group's business, results and financial position.

Despite the several initiatives of supranational organisations to deal with the heightened sovereign debt crisis in the euro area, global markets remain characterized by high uncertainty and volatility particularly around the peripheral European countries. Any further acceleration of the European sovereign debt crisis could likely significantly affect, among other things, the inter-bank funding, which may become generally unavailable or available only at elevated interest rates, which might have an impact on Mediobanca Group's access to, and cost of, funding. Should the Group be unable to continue to source a sustainable funding profile which can absorb these sudden shocks, the Group's ability to fund its financial obligations at a competitive cost, or at all, could be adversely affected.

Risks in connection with the exposure of the Group to Eurozone sovereign debt

In carrying out its activities, the Group holds substantial volumes of public-sector bonds, including bonds issued by European countries. The Group's total exposure in this respect as at 30 June 2015 is set out in the tables A.1.2.a and A.1.2.b of Part E of the audited consolidated annual financial statements of Mediobanca as at and for the year ended 30 June 2015 incorporated by reference into this Base Prospectus. This could give rise to operational disruptions to the Group's business.

Furthermore, Mediobanca is affected by disruptions and volatility in the global financial markets. In particular, Mediobanca's credit ratings are potentially exposed to the risk of reductions in the sovereign credit rating of Italy. On the basis of the methodologies used by rating agencies, further downgrades of Italy's credit rating may have a potential knock-on effect on the credit rating of Italian issuers such as Mediobanca and make it more likely that the credit rating of Notes issued under the Programme are downgraded.

Thus, any negative developments in the Group's sovereign exposure could adversely affect its results of operations, business and financial condition.

The Issuer's financial results are affected by changes in interest rates

Fluctuations in interest rates in Italy and in the other markets in which the Mediobanca Group operates influence the Mediobanca Group's performance. The results of each Issuer's banking operations are

affected by its management of interest rate sensitivity. Interest rate sensitivity refers to the relationship between changes in market interest rates and changes in net interest income. A mismatch of interest-earning assets and interest-bearing liabilities in any given period, which tends to accompany changes in interest rates, may have a material effect on the Issuer's financial condition or results of operations.

The Issuer's financial results may be affected by market declines and volatility

The results of the Issuer are affected by general economic, financial and other business conditions. During recessionary periods, there may be less demand for loan products and a greater number of the Issuer's customers may default on their loans or other obligations. Interest rate rises may also impact the demand for mortgages and other loan products. The risk arising from the impact of the economy and business climate on the credit quality of the Issuer's borrowers and counterparties, including sovereign states, can affect the overall credit quality and the recoverability of loans and amounts due from counterparties.

The Issuer is therefore exposed by its very nature to potential changes in the value of financial instruments, including securities issued by sovereign states, due to fluctuations in interest rates, exchange rates and currencies, stock market and commodities prices and credit spreads, and/or other risks.

The Issuer is subject to credit and market risk. Current market conditions are unprecedented

The credit and capital markets have been experiencing extreme volatility and disruption in recent months. To the extent that any of the instruments and strategies the Issuer uses to hedge or otherwise manage its exposure to credit or capital markets risk are not effective, the Issuer may not be able to mitigate effectively the Issuer's risk exposures in particular market environments or against particular types of risk. The Issuer's trading revenues and interest rate risk are dependent upon its ability to identify properly, and mark to market, changes in the value of financial instruments caused by changes in market prices or interest rates. The Issuer's financial results also depend upon how effectively the Issuer determines and assesses the cost of credit and manages its credit risk and market risk concentration. In addition, due to market fluctuations, weak economic conditions and/or a decline in stock and bond prices, trading volumes or liquidity, the Issuer's financial results may also be affected by a downturn in the revenues deriving from its margin interests, principal transactions, investment banking and securities trading fees and brokerage activities.

Sustained market weakness and volatility may adversely affect the Issuer's investment banking and financial advisory revenues and subject the Issuer to risks of losses from clients and other counterparties

The Issuer's investment banking revenues, in the form of financial advisory and debt and equity underwriting fees, are directly related to the number and size of the transactions in which the Issuer participates and may be impacted by continued or further credit market dislocations or sustained market downturns. Sustained market downturns or continued or further credit market dislocations and liquidity issues would also likely lead to a decline in the volume of capital market transactions that the Issuer executes for its clients and, therefore, to a decline in the revenues that it receives from commissions and spreads earned from the trades the Issuer executes for its clients. Further, to the extent that potential acquirers are unable to obtain adequate credit and financing on favourable terms, they may be unable or unwilling to consider or complete acquisition transactions, and as a result the Issuer's merger and acquisition advisory practice would suffer.

In addition, declines in the market value of securities can result in the failure of buyers and sellers of securities to fulfil their settlement obligations, and in the failure of the Issuer's clients to fulfil their credit obligations. During market downturns, the Issuer's counterparties in securities transactions may be less likely to complete transactions. Also, the Issuer often permits its clients to purchase securities on margin or, in other words, to borrow a portion of the purchase price from the Issuer and collateralize the loan with a set percentage of the securities. During steep declines in securities prices, the value of the collateral securing margin purchases may drop below the amount of the purchasers indebtedness. If the clients are unable to provide additional collateral for these loans, the Issuer may lose money on these margin transactions. In addition, particularly during market downturns, the Issuer may face additional expenses defending or pursuing claims or litigation related to counterparty or client defaults.

Protracted market declines can reduce liquidity in the markets, making it harder to sell assets and leading to material losses

In some of the Issuer's businesses, protracted adverse market movements, particularly asset price declines, can reduce the level of activity in the market or reduce market liquidity. These developments can lead to material losses if the Issuer cannot close out deteriorating positions in a timely way. This may especially be the case for assets of the Issuer for which there are not very liquid markets to begin with. Assets that are not traded on stock exchanges or other public trading markets, such as derivatives contracts between banks, may have values that the Issuer calculates using models other than publicly quoted prices. Monitoring the deterioration of prices of assets like these is difficult and failure to do so effectively could lead to losses that the Issuer did not anticipate or that were higher than those anticipated. This in turn could adversely affect the Issuer's results of operations and financial condition.

Market volatility and difficult access to debt capital markets can adversely affect the Issuer's liquidity

In the event that the extreme volatility and disruption experienced by international and domestic markets in recent months continue in the future, the Issuer's liquidity can be adversely affected. The Issuer's funding activity relies, for more than 20 per cent., on retail deposits with the Group company CheBanca!, on medium and long-term debt capital market issues offered to institutional investors and to the public. The placement to retail investors is made through public offerings (carried out by means of single banking networks – including that of Banco Posta – with exclusivity or through syndicated joined banking groups) and sold directly on the *Mercato Telematico delle Obbligazioni* managed by Borsa Italiana S.p.A. (MOT). Demand from institutional investors is met through public offerings on the Eurobond market and private placements of instruments tailored on the basis of the specific needs of the subscriber.

The volatility of the debt capital markets in Italy and abroad may impair the Issuer's ability to raise funding through fixed-income instruments and may affect its liquidity in the long term. In addition, the wider credit spreads that the markets are experiencing can affect the Issuer's aggregate cost of funding and have an impact on its financial results.

Intense competition, especially in the Italian market, where the Issuer has the largest concentration of its business, could materially adversely affect the Issuer's revenues and profitability

Competition is intense in all of the Mediobanca Group's primary business areas in Italy and the other countries in which the Issuer conducts its business. The Mediobanca Group derives most of its total banking income from its banking activities in Italy, a mature market where competitive pressures have

been increasing quickly. If the Mediobanca Group is unable to continue to respond to the competitive environment in Italy with attractive product and service offerings that are profitable for the Mediobanca Group, it may lose market share in important areas of its business or incur losses on some or all of its activities. In addition, downturns in the Italian economy could add to the competitive pressure, through, for example, increased price pressure and lower business volumes for which to compete.

The Issuer's risk management policies, procedures and methods may nevertheless leave the Issuer exposed to unidentified or unanticipated risks, which could lead to material losses

The Issuer has devoted significant resources to developing policies, procedures and assessment methods to manage market, credit, liquidity and operating risk and intends to continue to do so in the future. Nonetheless, the Issuer's risk management techniques and strategies may not be fully effective in mitigating its risk exposure in all economic market environments or against all types of risks, including risks that the Issuer fails to identify or anticipate. If existing or potential customers believe that the Issuer's risk management policies and procedures are inadequate, the Issuer's reputation as well as its revenues and profits may be negatively affected.

The Issuer is subject to operational risk

The Issuer, like all financial institutions, is exposed to many types of operational risk, including the risk of fraud by employees and outsiders, unauthorised transactions by employees or operational errors, including errors resulting from faulty computer or telecommunication systems. The Issuer's systems and processes are designed to ensure that the operational risks associated with the Issuer's activities are appropriately monitored. Any failure or weakness in these systems, however, could adversely affect the Issuer's financial performance and business activities.

Systemic risks in connection with the economic/financial crisis

It should be noted that the earnings capacity and stability of the financial system in which the Issuer operates may be impacted by the general economic situation and the trends on financial markets, and, in particular, by the solidity and growth prospects of the economies of the country or countries in which the Issuer operates, including its/their credit standing, as well as the solidity and growth prospects of the Eurozone as a whole.

The Issuer's performance is also influenced by the general economic situation, both national and for the Eurozone as a whole, and by the trend on financial markets, in particular by the solidity and growth prospects of the geographical areas in which the Issuer operates. The macroeconomic scenario currently reflects considerable areas of uncertainty, in relation to: (a) the trends in the real economy with reference to the prospects of recovery and growth in the national economy and/or resilience of growth in the economies of those countries, such as the United States and China, which have delivered growth, even substantial, in recent years; (b) future developments in the monetary policy of the ECB for the Eurozone area, and the Fed for the US dollar area, and the policies implemented by various countries to devalue their own currencies for competitive reasons; (c) the sustainability of the sovereign debt of certain countries, and the tensions noted more or less frequently on financial markets. In this connection, attention should be drawn in particular to: (i) the recent developments in the Greek sovereign debt crisis, which raised considerable uncertainties (as yet not entirely dispelled) over the prospects of Greece remaining part of the Eurozone, not to mention, in an extreme scenario, the risk of contagion between the sovereign debt markets of the various countries, and indeed the very resilience of the European monetary system based on the single currency; (ii) the recent turbulence on the main

Asian financial markets, in particular China. There is therefore the risk that the future development of these scenarios could impact adversely on the Issuer's capital, earnings and financial situation.

Such factors, particularly during periods of economic and financial crisis, could lead the Issuer to incur losses, increases in the cost of financing, reductions in the value of assets held, with a potentially negative impact on the Issuer's liquidity and the solidity of its capital.

More generally, continuation of the adverse economic conditions, or a slower recovery in Italy, or the countries in which the Issuer principally operates, than the other Eurozone countries, could impact negatively on the operating results or financial conditions of Mediobanca.

Risks connected to the presence of OTC derivatives in the Group's portfolio

The investors should note that the portfolio of the Group contains so-called "over the counter" (**OTC**) derivatives. The fair value of these OTC derivatives depends upon the both the valuation and the perceived credit risk of the instrument insured or guaranteed or against which protection has been bought and the credit quality of the protection provider. Market counterparties have been adversely affected by their exposure to residential mortgage linked products, and their perceived creditworthiness has deteriorated significantly since 2007. Although the Group seeks to limit and manage direct exposure to market counterparties, indirect exposure may exist through other financial arrangements and counterparties. If the financial condition of market counterparties or their perceived creditworthiness deteriorates further, the Group may record further credit valuation adjustments on the underlying instruments insured by such parties.

Any primary or indirect exposure to the financial condition or creditworthiness of these counterparties could have a material adverse impact on the results of operations, financial condition and prospects of the Group.

Risks connected to the EMIR Regulation

Investors should also note that the OTC derivatives would be subject to the regulation (EU) No 648/2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories, known as the European Market Infrastructure Regulation ("**EMIR**") that came into force on 16 August 2012.

On 19 December 2012, the European Commission adopted nine of ESMA's Regulatory Technical Standards (the "**Adopted RTS**") and Implementing Technical Standards (the "**Adopted ITS**") on OTC Derivatives, CCPs and Trade Repositories (the Adopted RTS and Adopted ITS together being the "**Adopted Technical Standards**"), which included technical standards on clearing, reporting and risk mitigation (see further below). The Adopted ITS were published in the Official Journal of the European Union on 21 December 2012 and entered into force on 10 January 2013 (although certain of the provisions thereof will only take effect once the associated regulatory technical standards enter into force). The Adopted RTS were published in the Official Journal of the European Union on 23 February 2013 and entered into force on 15 March 2013.

EMIR introduces certain requirements in respect of OTC derivative contracts applying to financial counterparties ("**FCPs**"), such as investment firms, credit institutions and insurance companies and certain non-financial counterparties ("**Non-FCPs**"). Such requirements include, amongst other things, the mandatory clearing of certain OTC derivative contracts (the "**Clearing Obligation**") through an authorised central counterparty (a "**CCP**"), the reporting of OTC derivative contracts to a trade

repository (the "**Reporting Obligation**") and certain risk mitigation requirements in relation to derivative contracts which are not centrally cleared.

The Clearing Obligation applies to FCPs and certain Non-FCPs which have positions in OTC derivative contracts exceeding specified 'clearing thresholds'. Such OTC derivative contracts also need to be of a class of derivative which has been designated by ESMA as being subject to the Clearing Obligation. On the basis of the Adopted Technical Standards, it is likely that the Issuer will be treated as a Non-FCP for the purposes of EMIR and the swap transactions to be entered into by it on the Closing Date will not exceed the "clearing threshold".

A CCP will be used to meet the Clearing Obligation by interposing itself between the counterparties to the eligible OTC derivative contracts. For the purposes of satisfying the Clearing Obligation, EMIR requires derivative counterparties to become clearing members of a CCP, a client of a clearing member or to otherwise establish indirect clearing arrangements with a clearing member. Each derivative counterparty will be required to post both initial and variation margin to the clearing member (which in turn will itself be required to post margin to the CCP). EMIR requires CCPs to only accept highly liquid collateral with minimal credit and market risk, which is defined in the Adopted Technical Standards as cash, gold and highly rated government bonds.

The Reporting Obligation applies to all types of counterparties and covers the entry into, modification or termination of cleared and non-cleared derivative contracts which were entered into (i) before 16 August 2012 and which remain outstanding on 16 August 2012, or (ii) on or after 16 August 2012. The details of all such derivative contracts are required to be reported to a trade repository. It will therefore apply to the Swap Agreements and any replacement swap agreements.

FCPs and Non-FCPs which enter into non-cleared derivative contracts must ensure that appropriate procedures and arrangements are in place to measure, monitor and mitigate operational and counterparty credit risk. Such procedures and arrangements include, amongst other things, the timely confirmation of the terms of a derivative contract and formalised processes to reconcile trade portfolios, identify and resolve disputes and monitor the value of outstanding contracts. In addition, FCPs and those Non-FCP which exceed the specified clearing thresholds must also mark-to-market the value of their outstanding derivative contracts on a daily basis and have risk-management procedures that require the timely, accurate and appropriately segregated exchange of collateral.

The EU regulatory framework and legal regime relating to derivatives is set not only by EMIR but also by the European Directive No 65/2014 ("**MIFID II**") and the European Regulation No. 600/2014 ("**MIFIR**"), both of which came into force on 3 July 2014. MIFID II amends existing provisions on authorisation, conduct of business and organizational requirements for providers of investment services. These rules aim at strengthening the protection of investors, through the introduction of new requirements on product governance, independent investment advice and cross-selling, the extension of existing rules to structured deposits and the improvement of requirements in several areas, including on the responsibility of management bodies, inducements, information and reporting to clients, remuneration of staff and best execution. MIFIR establishes, inter alia, uniform requirements in relation to disclosure of trade data to the public, reporting of transactions to the competent authorities, trading of derivatives on organised venues, benchmarks and intervention powers of competent authorities, ESMA and EBA.

MIFID II is expected to be implemented by the Member States by 3 July 2016.

Most of the provisions of MIFID II and MIFIR shall apply from 3 January 2017 except for the minor provisions which shall apply from 3 September 2018. In addition, many of the provisions of MIFID II and MIFIR will be implemented by means of technical standards that will be drafted by the ESMA.

In this respect, it is difficult to predict the full impact of these regulatory requirements on the Issuer. Prospective investors should be aware that the regulatory changes arising from EMIR, MiFID II and MIFIR may in due course significantly raise the costs of entering into derivative contracts and may adversely affect the relevant Issuer's ability to engage in transactions in OTC derivatives. As a result of such increased costs or increased regulatory requirements, investors may receive less interest or return, as the case may be. Investors should be aware, however, that such risks are material and that the Issuer could be materially and adversely affected thereby. As such, investors should consult their own independent advisers and make their own assessment about the potential risks posed by EMIR, MIFID II and MIFIR, in making any investment decision in respect of the Notes. In addition, given that the date of application of some of the EMIR provisions and the EMIR technical standards remains uncertain and given that additional technical standard or amendments to the existing EMIR provisions may come into effect in due course, prospective investors should be aware that the relevant Transaction Documents may need to be amended during the course of the Transaction, without the consent of any Noteholder, to ensure that the terms thereof and the parties obligations thereunder are in compliance with EMIR and/or the then subsisting EMIR technical standards.

Risks connected to a potential rating downgrade

Mediobanca is rated by (i) Standard & Poor's Ratings Service, a Division of the McGraw Hill Companies Inc. ("**S&P**"), and (ii) Fitch Italia S.p.A. ("**Fitch**") which are established in the European Union and registered under Regulation (EC) No. 1060/2009 on credit rating agencies, (as amended) (the "**CRA Regulation**") as set out in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the European Securities and Markets Authority pursuant to the CRA Regulation. A downgrade of Mediobanca's rating (for whatever reason) might result in higher funding and refinancing costs for Mediobanca in the capital markets. In addition, a downgrade of Mediobanca's rating may limit Mediobanca's opportunities to extend mortgage loans and may have a particularly adverse effect on Mediobanca's image as a participant in the capital markets, as well as in the eyes of its clients. These factors may have an adverse effect on Mediobanca's financial condition and/or the results of its operations.

Changes in the Italian and European regulatory framework could adversely affect the Issuer's business

The Issuer is subject to extensive regulation and supervision by the Bank of Italy and the *Commissione Nazionale per le Società e la Borsa* (the Italian securities market regulator or "**CONSOB**") in relation to Mediobanca, the European Central Bank and the European System of Central Banks in relation to both Issuers and the CSSF in Luxembourg in relation to Mediobanca International. The rules applicable to banks and other entities in banking groups are mainly provided by implementation of measures consistent with the regulatory framework set out by the Basel Committee on Banking Supervision and aim at preserving their stability and solidity and limiting their risk exposure.

The banking laws to which the Issuer is subject govern the activities in which banks and foundations may engage and are designed to maintain the safety and soundness of banks, and limit their exposure to risk. In addition, the Issuer must comply with financial services laws that govern its marketing and

selling practices. The regulatory framework governing the international financial markets is currently being amended in response to the credit crisis, and new legislation and regulations are being introduced in Italy and could significantly alter the Issuer's capital requirements.

The supervisory authorities mentioned above govern various aspects of the Issuer, which may include, among other things, liquidity levels and capital adequacy, the prevention and combating of money laundering, privacy protection, ensuring transparency and fairness in customer relations and registration and reporting obligations. In order to operate in compliance with these regulations, Mediobanca has in place specific procedures and internal policies. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the Group's results of operations, business and financial condition. The above risks are compounded by the fact that, as at the date of this Base Prospectus, certain laws and regulations have only been recently approved and the relevant implementation procedures are still in the process of being developed.

Basel III and CRDIV

In the wake of the global financial crisis that began in 2008, the Basel Committee on Banking Supervision approved, in the fourth quarter of 2010, revised global regulatory standards ("**Basel III**"), on bank capital adequacy and liquidity, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards which were subsequently revised in 2013 in light of concerns raised by the banking industry. The Basel III framework adopts a gradual approach, with the requirements to be implemented over time, with full enforcement in 2019.

In addition, in January 2013, the Basel Committee revised its original proposal in respect of the liquidity requirements in light of concerns raised by the banking industry, providing for a gradual phasing-in of the Liquidity Coverage Ratio with a full implementation in 2019 as well as expanding the definition of high quality liquid assets to include lower quality corporate securities, equities and residential mortgage backed securities. Regarding the other liquidity requirement, the Net Funding Stable Funding Ratio, the Basel Committee published the final rules in October 2014 which will take effect from 1st January 2018.

The Basel III framework has been implemented in the EU through new banking regulations adopted on 26 June 2013: Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the "**CRD IV Directive**") and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the "**CRD IV Regulation**" or "**CRR**" and together with the CRD IV Directive, the "**CRD IV Package**"). Full implementation began on 1 January 2014, with particular elements being phased in over a period of time (the requirements will be largely fully effective by 2019 and some minor transitional provisions provide for phase-in until 2024) but it is possible that in practice implementation under national laws may be delayed until after such date. Additionally, it is possible that EU Member States may introduce certain provisions at an earlier date than that set out in the CRD IV Package.

The Bank of Italy published new supervisory regulations on banks in December 2013 (Circular of the Bank of Italy No. 285 of 17 December 2013 (the "**Circular No. 285**" – *Prudential Regulation for*

Banks)) which came into force on 1 January 2014, implementing the CRD IV Package, and setting out additional local prudential rules concerning matters not harmonised at EU level. As of 1 January 2014, Italian banks are required to comply with a minimum CET1 Capital Ratio of 4.5 per cent., Tier I Capital Ratio of 5.5 per cent., and Total Capital Ratio of 8 per cent. These minimum ratios are complemented by the following capital buffers to be met with CET1 Capital:

- *Capital conservation buffer*: set at 2.5 per cent. of risk weighted assets and has applied to the Issuer since 1 January 2014 pursuant to Title II, Chapter I, Section II of Circular No. 285);
- *Counter-cyclical capital buffer*: set by the relevant competent authority between 0 per cent. - 2.5 per cent. (but may be set higher than 2.5 per cent. where the competent authority considers that the conditions in the Member State justify this), with gradual introduction from 1 January 2016 and applying temporarily in the periods when the relevant national authorities judge the credit growth excessive (pursuant to Article 130 of the CRD IV Directive);
- *Capital buffers for global systemically important banks*: set as an “additional loss absorbency” buffer ranging from 1.0 per cent. to 3.5 per cent. determined according to specific indicators (size, interconnectedness, lack of substitutes for the services provided, global activity and complexity); to be phased in from 1 January 2016 (Article 131 of the CRD IV Directive), becoming fully effective on 1 January 2019; and
- *Capital buffers for systemically important banks at a domestic level*: up to 2.0 per cent. as set by the relevant competent authority and must be reviewed at least annually from 1 January 2016), to compensate for the higher risk that such banks represent to the domestic financial system (Article 131 of the CRD IV Directive). The capital buffer for important banks at domestic level belonging to a group which is a global systemically important bank is limited. This buffer shall not exceed the higher of 1 per cent. of the total risk exposure amount and the global systemically important bank buffer rate applicable to the group at consolidated level.

In addition to the above listed capital buffers, under Article 133 of the CRD IV Directive each Member State may introduce a Systemic Risk Buffer of Common Equity Tier 1 Capital for the financial sector or one or more subsets of the sector, in order to prevent and mitigate long term non-cyclical systemic or macro-prudential risks with the potential of serious negative consequence to the financial system and the real economy in a specific Member State. Until 2015, in case of buffer rates of more than 3 per cent., Member State will need prior approval from the Commission, which will take into account the assessments of the European Systemic Risk Board (“**ESRB**”) and the European Banking Authority (the “**EBA**”). From 2015 onwards and for buffer rates between 3 and 5 per cent. the Member States setting the buffer will have to notify the Commission, the EBA, and the ESRB. The Commission will provide an opinion on the measure decided and if this opinion is negative, the Member States will have to “comply or explain”. Buffer rates above 5 per cent. will need to be authorized by the Commission through an implementing act, taking into account the opinions provided by the ESRB and by the EBA.

Failure to comply with such combined buffer requirements triggers restrictions on distributions and the need for the bank to adopt a capital conservation plan on necessary remedial actions (Articles 140 and 141 of the CRD IV Directive).

As part of the CRD IV Package transitional arrangements, regulatory capital recognition of outstanding instruments which qualified as Tier I and Tier II capital instruments under the framework which the CRD IV Package has replaced (CRD III) that no longer meet the minimum criteria under the CRD IV

Package will be gradually phased out. Fixing the base at the nominal amount of such instruments outstanding on 31 December 2012, their recognition is capped at 80 per cent. in 2014, with this cap decreasing by 10 per cent. in each subsequent year.

The new liquidity requirements introduced under the CRD IV Package are the Liquidity Coverage Ratio and the Net Stable Funding Ratio (the **NSFR**). The Liquidity Coverage Ratio Delegated Act has been adopted in October 2014 and published in the Official Journal of the European Union in January 2015. It is applicable from 1 October 2015, under a phase-in approach before it becomes fully applicable from 1 January 2018. On the NSFR, the EBA is tasked under the CRR with reporting to the European Commission on whether and how to introduce a net stable funding ratio (including an impact assessment) by the end of 2015. This will then be taken into account by the Commission in proposing a legislative proposal by the end of 2016, with an aim to comply with NSFR implementation in 2018, as per Basel rules.

The CRD IV Package introduces a new leverage ratio with the aim of restricting the level of leverage that an institution can take on to ensure that an institution's assets are in line with its capital. Institutions have been required to disclose their leverage ratio from 1 January 2015. Full implementation and European harmonisation, however, is not expected until 1 January 2018 following the European Commission's review in 2016. The CRD IV Package contains specific mandates for the EBA to develop draft regulatory or implementing technical standards as well as guidelines and reports related to liquidity coverage ratio and leverage ratio in order to enhance regulatory harmonisation in Europe through the Single Rule Book.

Therefore, should the Issuer not be able to implement the approach to capital requirements it considers optimal in order to meet the capital requirements imposed by the CRD IV Package, it may be required to maintain levels of capital which could potentially impact its credit ratings, funding conditions and limit the Issuer's growth opportunities.

As of 2016, the Group may be subject to the provisions of the Regulation establishing the Single Resolution Mechanism

After having reached an agreement with the Council, in April 2014, the European Parliament adopted the Regulation establishing a Single Resolution Mechanism (the "**SRM**"). The SRM is expected to be operational by 1 January 2016. There are, however, certain provisions including those concerning the preparation of resolution plans and provisions relating to the cooperation of the Single Resolution Board (the "**Board**") with national resolution authorities, which will enter into force on 1 January 2015.

The SRM, which will complement the ECB Single Supervisory Mechanism, will apply to all banks supervised by the ECB Single Supervisory Mechanism. It will mainly consist of the Board and a Single Resolution Fund (the "**Fund**").

Decision-making will be centralised with the Board, and will involve the Commission and the Council (which will have the possibility to object to the Board's decisions) as well as the ECB and national resolution authorities.

The Fund, which will back resolution decisions mainly taken by the Board, will be divided into national compartments during an eight year transition period, as envisaged by an Intergovernmental Treaty, whose ratification is a precondition for the entry into force of the SRM Regulation. Banks will

start to pay contributions in 2015 to national Resolution Funds that will mutualise gradually into the Single Resolution Fund starting from 2016 (and on top of the contributions to the national Deposit Guarantee Schemes).

The establishment of the SRM is designed to ensure that supervision and resolution is exercised at the same level for countries that share the supervision of banks within the ECB Single Supervisory Mechanism.

The participating banks will be required to finance the Fund. The Issuer may therefore be required to pay contributions to the SRM in addition to contributions to the national Deposit Guarantee Scheme. The SRM is not operational yet and the manner in which it will be implemented is still evolving, so there remains some uncertainty as to how the SRM will affect the Group once implemented and fully operational.

ECB Single Supervisory Mechanism

On 15th October, 2013, the Council of the European Union adopted Council Regulation (EU) No 1024/2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the “**SSM Regulation**”) for the establishment of a single supervisory mechanism (the “**Single Supervisory Mechanism**” or “**SSM**”). From 4th November, 2014 the SSM Regulation has given the ECB, in conjunction with the national regulatory authorities of the Eurozone and participating Member States, direct supervisory responsibility over “banks of systemic importance” in the Eurozone.

The SSM framework regulation (ECB/2014/17) setting out the practical arrangements for the SSM was published in April 2014 and entered into force in May 2014. Banks directly supervised by the ECB include, *inter alia*, any Eurozone bank that: (i) assets greater than EUR 30 billion; (ii) assets constituting at least 20 per cent. of its home country’s gross domestic product; or (iii) requested or received direct public financial assistance from the European Financial Stability Facility of the European Stability Mechanism.

The ECB is exclusively responsible for key tasks concerning the prudential supervision of credit institutions, which includes, *inter alia*, the power to: (i) authorise and withdraw authorisation of all “banks of systemic importance” in the Eurozone and in the Member States participating to the SSM; (ii) assess acquisition and disposal of holdings in other banks; (iii) ensure compliance with all prudential requirements laid down in general EU banking rules; (iv) set, where necessary, higher prudential requirements for certain banks to protect financial stability under the conditions provided by EU law; (v) impose robust corporate governance practices and internal capital adequacy assessment controls; and (vi) intervene at the early stages when risks to the viability of a bank exist, in coordination with the relevant resolution authorities. The ECB also has the right to impose pecuniary sanctions.

National competent authorities will continue to be responsible for supervisory matters not conferred on the ECB, such as consumer protection, money laundering, payment services and branches of third country banks, besides supporting ECB in day-to-day supervision. In order to foster consistency and efficiency of supervisory practices, the EBA is continuing to develop a single supervisory handbook applicable to EU Member States (the “**EBA Supervisory Handbook**”).

The Bank Recovery and Resolution Directive is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing. The implementation of the directive or the taking of any action under it could materially affect the value of any Notes

The directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU) (the “**Bank Recovery and Resolution Directive**” or “**BRRD**”) entered into force on 2 July 2014.

The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation - which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in - which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims including Senior Notes and Subordinated Notes to equity (the “**general bail-in tool**”), which equity could also be subject to any future application of the general bail-in tool.

The BRRD also provides for a Member State as a last resort, after having assessed and exploited the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts or other liabilities as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down or convert into equity capital instruments such as Subordinated Notes at the point of non-viability and before any other resolution action is taken (“**non-viability loss absorption**”). Any shares issued to holders of Subordinated Notes upon any such conversion into equity may also be subject to any application of the general bail-in tool.

For the purposes of the application of any non-viability loss absorption measure, the point of non-viability under the BRRD is the point at which the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or that the institution will no longer be viable unless the relevant capital instruments (such as Subordinated Notes) are written-down or converted or extraordinary public support is to be provided and without such support the appropriate authority determines that the institution would no longer be viable.

The BRRD has been implemented in Italy through the adoption of two Legislative Decrees by the Italian Government. In particular, Legislative Decrees No. 180/2015 and 181/2015 implementing the BRRD in Italy were published in the Italian Official Gazette (*Gazzetta Ufficiale*). Legislative Decree No. 180/2015 is a stand-alone law which implements the BRRD in Italy, while Legislative Decree No. 181/2015 amends the Legislative Decree No. 385 of 1 September 1993 and deals principally with recovery plans, early intervention and changes to the creditor hierarchy. The decrees of implementation entered into force on 16 November 2015, save for: (i) the bail-in tool, which will apply from 1 January 2016; and (ii) the “*depositor preference*” to deposits other than those protected by the deposit guarantee scheme and those of individuals and small and medium enterprises, which will apply from 1 January 2019. Nonetheless, Covered Bonds will not be in any case subject to the bail-in provisions under the BRRD.

As of 2016 (or, if earlier, the date of national implementation of BRRD), European banks will also have to comply with a “*minimum requirements for own funds and eligible liabilities*” (the **MREL**). The BRRD does not foresee an absolute minimum, but attributes the competence to set a minimum amount for each bank to national resolution authorities (for banks not being part of the Banking Union) or to the Single Resolution Board (the **SRB**) for banks being parts of the Banking Union. Differently to the current discussions on TLAC, MREL includes senior unsecured debt without ex-ante limitations. On 3 July 2015 the EBA has adopted and submitted to the Commission its Regulatory Technical Standards (the **RTS**) which further define the way in which resolution authorities or the SRB shall determine the MREL. In the introductory remarks to the RTS, it is stated that the EBA expects the RTS to be “*broadly compatible with the proposed FSB term sheet for TLAC for G-SIBs*”, adding that “*while there are differences resulting from the nature of the EBA’s mandate under the BRRD, as well as the fact that the BRRD MREL requirement applies to banks which are not G-SIBs, these differences do not prevent resolution authorities from implementing the MREL for G-SIBs consistently with the international framework*”.

The BRRD is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing. The implementation of the directive or the taking of any action under it could affect the value of any Covered Bond.

The Group may be subject to a proposed EU regulation on mandatory separation of certain banking activities

On 29 January 2014, the European Commission adopted a proposal for a new regulation on structural reform of the European banking sector following the recommendations released on 31 October 2012 by the High Level Expert Group (the “**Liikanen Group**”) on the mandatory separation of certain banking activities. The proposed regulation contains new rules which would prohibit the biggest and most complex banks from engaging in the activity of proprietary trading and introduce powers for supervisors to separate certain trading activities from the relevant bank’s deposit-taking business if the pursuit of such activities compromises financial stability. Alongside this proposal, the Commission has

adopted accompanying measures aimed at increasing transparency of certain transactions in the shadow banking sector.

The proposed regulation will apply to European banks that will eventually be designated as global systemically important banks (G-SIBs) or that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10 per cent. of their total assets. The banks that meet either one of the aforementioned conditions will be automatically banned from engaging in proprietary trading defined narrowly as activities using a bank's own capital or borrowed money to take positions in any type of transaction to purchase, sell or otherwise acquire or dispose of any financial instrument or commodities for the sole purpose of making a profit for own account, and without connection to actual or anticipated client activity or for the purpose of hedging the entity's risk as a result of actual or anticipated client activity. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities – including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, subject to the discretion of the bank's competent authority, however they might be subject to separation if such activities are deemed to pose a threat to financial stability.

The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018.

Should a mandatory separation be imposed, additional costs at Group level are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits. Due to a relatively limited trading activity, Italian banks could be penalised and put at a relative disadvantage in comparison with their main global and European competitors (e.g. French and German banking institutions). As a result, the proposal could lead to the creation of an oligopoly where only the biggest players will be able to support the separation of the trading activities and the costs that will be incurred. An additional layer of complexity, leading to uncertainty, is the high risk of diverging approaches throughout Europe on this issue.

The Group may be affected by a proposed EU Financial Transactions Tax

On 14 February 2013 the European Commission published a new legislative proposal on the Financial Transaction Tax (the “FTT”). The proposal followed the Council's authorisation to proceed with the adoption of the FTT through enhanced cooperation, i.e. adoption limited to 11 countries - among which Italy, France, Germany and Austria are included. A joint statement issued in May 2014 by ten of the eleven participating Member States indicated an intention to implement the FTT progressively, such that it would initially apply to shares and certain derivatives, with this initial implementation occurring by 1 January 2016.

The impact on the ‘real economy’ of the FTT as currently envisaged – especially for corporations – could be severe as many financial transactions are made on behalf of businesses that would bear the additional costs of the tax. For example, a transaction tax would raise the cost of the sale and purchase of corporate bonds in a time where it is widely acknowledged that access to capital markets by corporate issuers has to be incentivised.

Moreover, it is a matter of concern for the Group that the proposal does not exempt the transfers of financial instruments within a group. Thus, if a financial instrument is not purchased for a client but

only moved within a banking group, each transaction would be subject to taxation. Also, the inclusion of derivatives and repos/lending transactions in the taxation scope clashes with the efficiency of financial markets.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of any such tax is uncertain. Additional EU Member States may decide to participate.

The Issuer may be affected by new accounting and regulatory standards

Following the entry into force and subsequent application of new accounting standards and/or regulatory rules and/or the amendment of existing standards and rules, the Issuer may have to revise the accounting and regulatory treatment of some operations and the related income and expense, with potentially negative effects on the estimates contained in the financial plans for future years and with the need to restate already published financial.

IFRS 9 has been issued on 24 July 2014. This new standard will introduce significant changes with regard to classification, measurement, impairment and hedge accounting of instruments, including financial instruments, replacing IAS 39.

International Accounting Standards Board (IASB) decided that the mandatory effective date of IFRS 9 will be 1 January 2018, following the endorsement by the European Union.

The European Commission endorsed the following accounting principles and interpretations that will be applicable starting from the 2015 financial statements:

- Annual Improvements to IFRSs 2011-2013 Cycle (EU Regulation 1361/2014);
- Annual Improvements to IFRSs 2010-2012 Cycle (EU Regulation 28/2015); and
- Defined Benefit Plans: Employee Contributions)amendments to IAS 19) (EU Regulation 29/2015).

Forthcoming regulatory changes

In addition to the substantial changes in capital and liquidity requirements introduced by Basel III and CRD IV Package, there are several other initiatives, in various stages of finalisation, which represent additional regulatory pressure over the medium term and will impact the EU's future regulatory direction. These initiatives include, amongst others, a revised Markets in Financial Instruments EU Directive and Markets in Financial Instruments EU Regulation which will enter into force on 2 July 2014 with implementation required at Member State level as from January 2017 subject to certain transitional arrangements.

One of the main proposed changes to the global regulatory framework is for the globally systemically important banks (G-SIBs) to be required to have a minimum Total Loss Absorbing Capacity (TLAC). In November 2014, the Financial Stability Board (FSB) published a consultation document setting out its proposal for TLAC, which were endorsed at the Group of Twenty (G20) Brisbane conference in November 2014. The FSB is aiming for the G20 to adopt a final standard by the end of 2015, with application as of 2019 at the earliest.

The FSB's proposal would, if implemented, required all G-SIBs to meet, in addition to the capital buffers provided under the CRD IV Package and the relevant implementing laws and regulations, a

minimum pillar 1 TLAC in order of 16 per cent. – 20 per cent. of their Risk Weighted Assets (the **RWA**) and at least twice their Basel III leverage ratio requirement. Liabilities that are eligible for TLAC shall be capital requirements and instruments that are contractually, statutorily or structurally subordinated to certain “*excluded liabilities*” (including insured deposits and liabilities that cannot be effectively written down or converted into equity by relevant authorities) in a manner that does not give rise to a material risk of compensation claims or successful legal challenges. The impact on G-SIBs may well come ahead of 2019, as markets may force earlier compliance and as such banks will need to adapt their funding structure in advance.

The various regulatory requests may affect the activities of the Issuer, including its ability to grant loans, or result in the need for further capital injections in order to meet capital requirements as well as require other sources of funding to satisfy liquidity requirements, which could result in adverse effects to the Issuers’ results of operations, business, assets, cash flows and financial condition, the products and services offered by the Group as well as the Group’s ability to pay dividends.

Such changes in the regulatory framework and in how such regulations are applied may have a material effect on the Issuer's business and operations. As the new framework of banking laws and regulations affecting Mediobanca is currently being implemented, the manner in which those laws and related regulations will be applied to the operations of financial institutions is still evolving.

No assurance can be given that laws and regulations will be adopted, enforced or interpreted in a manner that will not have an adverse effect on the business, financial condition, cash flows and results of operations of Mediobanca. Prospective investors in the Notes should consult their own advisors as to the consequences for them of the application of the above regulations as implemented by each Member State.

The guarantee of Mediobanca in favour of Mediobanca International is capped

Pursuant to the Deed of Guarantee, to the extent under the applicable law in force at the relevant time, a cap to the maximum amount to be guaranteed is required, Mediobanca shall only be liable up to an amount which is the aggregate of 110 per cent. of the aggregate principal amount of any Tranche of the Notes and 110 per cent. of the interest on such Notes accrued but not paid as at any date on which Mediobanca’s liability falls to be determined.

2) Risks relating to the Notes

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) proceed with investment only after fully appreciating the risks inherent in the nature of the Notes;
- (ii) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;

- (iii) evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets;
- (v) consider all of the risks of an investment in the Notes, including Notes with payments thereunder payable in one or more currencies, or where the currency for payments thereunder is different from the potential investor's currency;
- (vi) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes; and
- (vii) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, each Member State of the European Economic Area is required to provide to the tax authorities of another Member State of the European Economic Area details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person in favour of, a beneficial owner that is an individual resident in that other Member State; however, for a transitional period, Austria may instead apply a withholding system in relation to such payments. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

With the law dated 25 November 2014, Luxembourg introduced the automatic exchange of information within the meaning of the EU Savings Directive.

A number of non-EU countries including Switzerland, and certain dependent or associated territories of certain Member States of the European Economic Area, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such person in favour of, a beneficial owner that is an individual resident in a Member State of the European Economic Area (Switzerland has recently accepted to exchange information with EU Members States). In addition, the Member States of the European Economic Area have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State of the European Economic Area to, or collected by such person in favour of, an individual resident in one of those territories.

On 24 March 2014, the Council of the European Union adopted Council Directive 2014/48/EU amending and broadening the scope of the requirements described above (the “**Amending Directive**”). Member States have been required to apply these new requirements as from 1 January 2017. The

Amending Directive has a wider scope, in particular it includes additional types of income payable on securities and the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach has to apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

On 10 November 2015, the Council of the European Union enacted Directive 2015/2060/EU repealing the EU Savings Directive (the “**Repealing Directive**”) from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the EU Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU) as of 30 September 2017. As a result of the repeal, Member States will neither be required to apply nor to transpose the new requirements of the Amending Directive.

U.S. Foreign Account Tax Compliance Act (FATCA) Withholding

The Issuer, the Guarantor and other financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30% on all, or a portion of, payments made after 31 December 2016 in respect of (i) any Notes characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are not yet outstanding as of the date (the “**Grandfathering Date**”) that is the later of January 1st, 2019, or the date of publication in the Federal Register of final regulations defining the term “*foreign passthru payment*” and (ii) any Notes characterized as equity or which do not have a fixed term for U.S. federal tax purposes pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code (“**FATCA**”) or similar law implementing an intergovernmental approach to FATCA.

This withholding tax may be triggered if (i) the Issuer is a foreign financial institution (“**FFI**”) (as defined in FATCA) that enters into and complies with an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide certain information on its account holders (making the Issuer a “Participating FFI”), (ii) the Issuer has a positive “passthru payment percentage” (as determined under FATCA), and (iii)(a) an investor does not provide information sufficient for the relevant Participating FFI to determine whether the investor is a U.S. person or should otherwise be treated as holding a “United States Account” of such Participating FFI, or (b) any FFI that is an investor, or through which payment on such Notes is made, is not a Participating FFI.

The application of FATCA to interest, principal or other amounts paid with respect to the Notes is not clear. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may, if FATCA is implemented as currently proposed by the IRS, receive less interest or principal than expected. Holders of Notes should consult their own tax advisers on how these rules may apply to payments they receive under the Notes.

FATCA is particularly complex and its application is uncertain at this time. On 10 January 2014 the Italian Government entered into an Intergovernmental Agreement (the “**IGA**”) with the U.S.A. Government, relating to the implementation of FATCA. At the date hereof, the Italian Parliament has not yet implemented the IGA into Italian law. Once implemented, the IGA will have retroactive effect from 1 July 2014. According to the IGA, different rules than those described above may apply. On March 28, 2014 Luxembourg concluded an intergovernmental agreement to "Improve International Tax Compliance and with respect to the United States Information and Reporting Provisions Commonly Known as the Foreign Account Tax Compliance Act" (the "**Luxembourg IGA**"). Under the Luxembourg IGA, the United States and the Luxembourg have agreed to implement FATCA through domestic reporting duties for financial institutions, an automatic exchange of account information between the public authorities of the two countries and on the basis of existing bilateral tax treaties. On 1st July 2015, the Luxembourg Parliament adopted the law ratifying the Luxembourg IGA.

Furthermore, the Luxembourg tax authorities issued two Circulars covering the application of FATCA in Luxembourg (Circulaire du directeur des contributions ECHA-n°2 du 31 juillet 2015 and Circulaire du directeur des contributions ECHA-n°3 du juillet 2015).

The application of FATCA to Notes may be addressed in the relevant Final Terms or a supplement to the Base Prospectus, as applicable.

Risks related to the structure of a particular Issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. This section contains risk factors which are material to the Notes being offered and/or admitted to trading.

Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes.

At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in the light of other investments available at that time.

Redemption for tax reasons

Unless in the case of any particular Tranche of Notes the relevant Final Terms specifies otherwise, in the event that the Issuer (i) would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Luxembourg or Italy (as appropriate) or any political subdivision thereof or any authority therein or thereof having power to tax or (ii) would become subject to more than a *de minimis* additional amount of taxes due to limitation to the deductibility of payments under any Notes (provided that, with respect to Mediobanca, any additional amount of national income taxes arising

from a limitation of the deductibility of interest payments exceeding the 4% percentage set forth, as at the date of this Base Prospectus, in Article 96, paragraph 5-*bis* of the Italian Presidential Decree No. 917 of 22 December 1986 (“**Decree No. 917**”), would be considered as exceeding the aforesaid *de minimis* additional amount), the Issuer may redeem all outstanding Notes in accordance with the Conditions. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

Regulatory Call

If Regulatory Call is specified in the applicable Final Terms, the Subordinated Notes may be redeemed at the option of Mediobanca (subject to the prior approval of the Bank of Italy), in whole or in part, at any time (if the Subordinated Note is not a Floating Rate Note) or on any Interest Payment Date (if the Subordinated Note is a Floating Rate Note), if a proportion equal or more than the Minimum Disqualification Amount of the relevant Subordinated Notes ceases to qualify as Tier II Capital on a consolidated or non consolidated basis, as a result of changes after the date of issue of the relevant Subordinated Notes in the standards and guidelines of the Bank of Italy or in the applicable legal or regulatory provisions (including legal or regulatory provisions adopted by the European Union).

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

To the extent that Multiplier or Reference Rate Multiplier applies in respect of the determination of the Interest Rate for the Floating Rate Notes, investors should be aware that any fluctuation of the underlying floating rate will be amplified by such multiplier. Where the Multiplier or Reference Rate Multiplier is less than 1, this may adversely affect the return on the Floating Rate Notes.

Maximum/Minimum Interest Rate

Potential investors should also consider that where the underlying interest rate does not rise above the level of the Minimum Interest Rate, comparable investments in notes which pay interest based on a fixed rate which is higher than the Minimum Interest Rate are likely to be more attractive to potential investors than an investment in the Notes. Under those conditions, investors in the Notes might find it difficult to sell their Notes on the secondary market (if any) or might only be able to realise the Notes at a price which may be substantially lower than the nominal amount.

To the extent a Maximum Interest Rate applies, investors should be aware that the Interest Rate is capped at such Maximum Interest Rate level. Consequently, investors may not participate in any increase of market interest rates, which may also negatively affect the market value of the Notes.

Notes issued at a substantial discount or premium

The market values of notes issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing notes. Generally, the longer the remaining term of the notes, the greater the price volatility as compared to conventional interest-bearing notes with comparable maturities.

Subordinated Notes

If Mediobanca is declared insolvent and a winding up is initiated, it will be required to pay the holders of senior debt and meet its obligations to all its other creditors (including unsecured creditors) in full before it can make any payments on the Subordinated Notes. If this occurs, Mediobanca may not have enough assets remaining after these payments to pay amounts due under the Subordinated Notes.

For a full description of the provisions relating to Subordinated Notes, see Condition 2 (*Status and Special Provisions*) of the Subordinated Notes Conditions.

In addition the Subordinated Notes expose investors to higher risks compared with certain other investments such as government bonds. Investors should therefore be aware that a comparison between the yield offered by the Subordinated Notes and those offered by other securities may not be meaningful or appropriate.

Regulatory classification of the Notes

The intention of Mediobanca is for Subordinated Notes to qualify on issue as Tier II Capital. Current regulatory practice by the Bank of Italy (acting as lead regulator) does not require (or customarily provide) a confirmation prior to the issuance of Subordinated Notes that the Subordinated Notes will be treated as such.

Although it is Mediobanca's expectation that the Subordinated Notes qualify as Tier II Capital there can be no representation that this is or will remain the case during the life of the Subordinated Notes or that the Subordinated Notes will be grandfathered under the implementation of future EU capital requirement regulations. If the Subordinated Notes are not grandfathered, or for any other reason cease to qualify as Tier II Capital, Mediobanca will have the right to redeem the Subordinated Notes in accordance with Condition 4(g) (*Redemption for regulatory reasons (Regulatory Call)*) of the Subordinated Notes Conditions. Any redemption of Subordinated Notes issued by Mediobanca is subject to the prior approval of the Bank of Italy.

There can be no assurance that holders of such Subordinated Notes will be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investments in the relevant Subordinated Notes, as the case may be.

Subordinated Notes may be subject to loss absorption on any application of the general bail-in-tool or at the point of non-viability of the Issuer

Investors should be aware that, in addition to the general bail-in-tool, the BRRD contemplates that Subordinated Notes may nevertheless be subject to a write-down or conversion into common shares at the point of non-viability should the Bank of Italy, the Central Bank of Ireland or other authority or authorities having prudential oversight of Mediobanca at the relevant time be given the power to do so. The BRRD is intended to enable a range of actions to be taken in relation to credit institutions and

investment firms considered to be at risk of failing. The implementation of the directive or the taking of any action under it could materially affect the value of any Notes.

Variation of the terms and conditions of Subordinated Notes

In relation to any series of Subordinated Notes, the Issuer may upon the occurrence of a Regulatory Event or a Tax Event modify the terms and conditions of such Subordinated Notes without any requirement for the consent or approval of the Noteholders to the extent that such modification is reasonably necessary to ensure that no Regulatory Event or Tax Event would exist after such modification, provided that the relevant conditions set forth in Condition 9 (d) (*Modification following a Regulatory Event or Tax Event*) of the Subordinated Notes Conditions are satisfied. For details, see Condition 9(d) (*Modification following a Regulatory Event or Tax Event*) of the Subordinated Notes Conditions.

No gross up on withholding tax

To the extent that the Issuer is required by law to withhold or deduct any present or future taxes of any kind imposed or levied by or on behalf of the Republic of Italy or the Grand Duchy of Luxembourg (as appropriate), the Issuer may not be under an obligation to pay any additional amounts to Noteholders.

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

Change of law

Unless otherwise provided in the Final Terms, the Terms and Conditions of the Notes are based on English law in effect as at the date of this Base Prospectus, provided that with respect to the Subordinated Notes Conditions, Conditions 2 (*Status and Special Provisions*), 4(b)(ii) (*Maturities/Final Redemption*), 4(g) (*Redemption for regulatory reasons (Regulatory Call)*) and 9 (*Events of Default*), are governed by, and shall be construed in accordance with, Italian law. No assurance can be given as to the impact of any possible judicial decision or change to English law and/or Italian law, or administrative practice after the date of this Base Prospectus.

Call options are subject to the prior consent to the Relevant Authority

Subordinated Notes may also contain provisions allowing Mediobanca to call them after a period of, for example, five years. To exercise such a call option, Mediobanca must obtain the prior written consent of the Relevant Authority in accordance with applicable laws and regulations, including article 77(b) and 78 of the CRD IV.

Holders of such Notes have no rights to call for the redemption of such Notes and should not invest in such Notes in the expectation that such a call, based upon its evaluation of the regulatory capital position of Mediobanca and certain other factors at the relevant time and in accordance with applicable laws and regulations, including article 77(b) and 78 of the CRD IV.

There can be no assurance that the Relevant Authority will permit such a call. Holders of such Notes should be aware that they may be required to bear the financial risks of an investment in such Notes for a period of time in excess of the minimum period.

Procedures of clearing systems

Unless otherwise provided in the relevant Final Terms, Notes issued under the Programme may be represented by one or more Global Notes and such Global Notes will be deposited with a common depositary or (where applicable) common safekeeper for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system provided in the Final Terms will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. While the Notes are represented by one or more Global Notes the Issuer will discharge its payment obligations under the Notes by making payments to the common depositary or common safekeeper for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes. Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system to appoint appropriate proxies.

Modification

The Issuing and Paying Agency Agreement contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Issuer and the Guarantor may, without the consent of Noteholders, correct (i) any manifest error in the Terms and Conditions of the Notes and/or in the Final Terms, (ii) any error of a formal, minor or technical nature in the Terms and Conditions of the Notes and/or in the Final Terms or (iii) any inconsistency in the Terms and Conditions of the Notes and/or in the Final Terms between the Terms and Conditions of the Notes and/or the Final Terms and any other documents prepared in connection with the issue and/or offer of a Series of Notes (provided such correction is not materially prejudicial to the holders of the relevant Series of Notes). Any such correction shall be binding on the holders of the relevant Notes and the Issuer and the Guarantor (if applicable) shall cause such correction to be notified to the holders of the Notes as soon as practicable thereafter pursuant to Condition 12 (*Notices*) of the Terms and Conditions of the Notes.

Conflict of Interest

Investors should note that Notes issued under the Program may be underwritten by Dealers who receive in consideration underwriting commissions and selling concessions. The relevant Issuer may also offer and sell Notes directly to investors without the involvement of any Dealer. In addition, Mediobanca may act as market maker or specialist or perform other similar roles in connection with the Notes: potential conflicts of interest may exist between Mediobanca acting in such capacity on the one hand, and investors in the Notes on the other.

Impossibility to know the amount of the Notes in circulation on the date of issue

The Notes may be issued and withheld by the Issuer for the progressive sale on the market in accordance with investors' demand. In this context an investor who acquires the Notes does not know at the moment of purchase how much of the issued Notes effectively are publicly traded, with the consequence that the amount in circulation could be meagre and may not guarantee successively adequate liquidity in the Notes.

Issue of subsequent tranche

In the event the Issuer decides to issue further Notes having the same terms and conditions as an already existing Series of Notes (or in all respects except for the Issue Price, the Issue Date and/or the first payment of interest) and so that the further Notes shall be consolidated and form a single series with the original Notes, the greater nominal amount in circulation could lead to a greater offer of the relevant Notes in the secondary market with a consequent negative impact on the price of the relevant Series of the Notes.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk that may be relevant in connection with an investment in Notes:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

The Issuer has no obligation to purchase the Notes from the Noteholders. However, should the Issuer decide to purchase the Notes, the secondary market pricing that the Issuer may provide on the Notes may reflect the unwinding cost of the hedging portfolio (if any) and/or the loss of profit (*lucro cessante*) related to such hedging portfolio.

Specific Buy Back Provisions

If Specific Buy Back Provisions is specified as being applicable to the Notes in the relevant Final Terms, investors should be aware that Mediobanca and/or Mediobanca International have issued the Notes also for the purpose of entering into, from time to time, in certain Underlying Transactions. In this respect, the value of the Notes shall reflect and shall be calculated on the basis of the Market Value of such Underlying Transactions. The composition of the Underlying Transaction will be made available to the investors in accordance with the method of publication indicated in the relevant Final Terms.

The Underlying Transactions will be selected from time to time by Mediobanca and/or Mediobanca International in their reasonable discretion and the relevant composition is subject to change during the

life of the Notes. Any changes in the composition of the Underlying Transaction could adversely affect the Market Value of the Underlying Transactions and, therefore, the value of the Notes.

The Market Value of the Underlying Transactions, as determined by Mediobanca and/or Mediobanca International, acting in its capacity as Calculation Agent, in a fair and commercially reasonable manner and with reference to the market, could adversely affect the repurchase price, if any, of the Notes. Therefore in the event that an investor requests the Issuer to repurchase the Notes held by it prior to their maturity, and the Issuer accepts such repurchase, the price of the Notes (Buy Back Price) will be determined taking into consideration the Market Value of such Underlying Transactions.

The Specific Buy Back Provisions shall not affect the right of the investors to receive timely payments of principal and interest on the Notes. As consideration of the Issuer entering into the Underlying Transactions in relation to the Notes, the Issuer will pay an Extra Yield on the Notes.

The Specific Buy Back Provisions shall apply only to Notes issued by Mediobanca and/or Mediobanca International and where Mediobanca and/or Mediobanca International act as Dealers.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest, if any, on the Notes in the Relevant Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the “**Investor's Currency**”) other than the Relevant Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Relevant Currency or revaluation of the Investor's Currency or due to the official redenomination of the Relevant Currency, and/or Investor's Currency) and the risk that authorities with jurisdiction over Relevant Currency, and/or the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Relevant Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes, and (iii) the Investor's Currency equivalent market value of the Notes. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest, principal or other amount than expected, or no interest or principal or other amount.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Each prospective investor should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Impact of implicit fees on the Issue/Offer Price

Investors should note that implicit fees (e.g. placement fees, direction fees, structuring fees) may be a component of the Issue/Offer Price of Notes, but such fees will not be taken into account for the purposes of determining the price of the relevant Notes in the secondary market.

The Issuer will specify in the relevant Final Terms the type and amount of any implicit fees which are applicable from time to time.

Investors should also take into consideration that if Notes are sold on the secondary market immediately following the offer period relating to such Notes, the implicit fees included in the Issue/Offer Price on initial subscription for such Notes will be deducted from the price at which such Notes may be sold in the secondary market.

Certain considerations associated with public offers of Notes

If Notes are distributed by means of a public offer, under certain circumstances indicated in the relevant Final Terms, the Issuer and/or other entities specified in the Final Terms may have the right to withdraw the offer, which in such circumstances will be deemed to be null and void according to the terms indicated in the relevant Final Terms.

In such case, investors who have already paid or delivered subscription monies for the relevant Notes will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Notes.

Possible Illiquidity of the Notes in the Secondary Market

It is not possible to predict the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, list or admit to trading Notes on a stock exchange or market. If the Notes are not listed or admitted to trading on any exchange or market, pricing information for the Notes may be more difficult to obtain and the liquidity of the Notes may be adversely affected. If the Issuer does list or admit to trading an issue of Notes, there can be no assurance that at a later date, the Notes will not be delisted or that trading on such exchange or market will not be suspended. In the event of a delisting or suspension of listing or trading on a stock exchange or market, the Issuer will use its reasonable efforts to list or admit to trading the Notes on another exchange or market.

The Issuer, or any of its Affiliates may, but is not obliged to, at any time purchase Notes at any price in the open market or by tender or private agreement. Any Notes so purchased may be held or resold or surrendered for cancellation. The Issuer or any of its Affiliates may, but is not obliged to, be a market-

maker for an issue of Notes. Even if the Issuer or such other entity is a market-maker for an issue of Notes, the secondary market for such Notes may be limited.

Investors should note that if an entity is appointed as market-maker or liquidity provider with respect to the Notes in the secondary market, this may, in certain circumstances, affect the price of the Notes in the secondary market.

In addition, all or part of the Notes issued under this Programme may be subscribed upon issuance by the Issuer itself or by its Affiliate(s) for resales thereafter on the basis of investors' demand. Accordingly, investors subscribing for Notes upon their issuance should be aware that there may not be a viable secondary market for the relevant Notes immediately. Even if a market does develop subsequently, it may not be very liquid.

Listing of Notes

In respect of Notes which are (in accordance with the applicable Final Terms) to be listed on a stock exchange, market or quotation system, the Issuer shall use all reasonable endeavours to maintain such listing, provided that if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then the Issuer may apply to de-list the relevant Notes, although in this case it will use all reasonable endeavours to obtain and maintain (as soon as reasonably practicable after the relevant de-listing) an alternative admission to listing, trading and/or quotation by a stock exchange, market or quotation system within or outside the European Union, as it may decide.

If such an alternative admission is not available or is, in the opinion of the Issuer, impracticable or unduly burdensome, an alternative admission will not be obtained.

SUPPLEMENTS AND FURTHER PROSPECTUSES

The Issuers will prepare a replacement prospectus setting out the changes in the operations and financial conditions of the Issuers at least every year.

The Issuers have given an undertaking to the Dealers that if at any time during the duration of the Programme there is a significant new factor, material mistake or inaccuracy relating to the information contained in this Base Prospectus which is capable of affecting the assessment of the Notes, they shall prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent offering of the Notes and shall supply to each Dealer a number of copies of such supplement as a Dealer may reasonably request.

In addition, the Issuers and the Guarantor may agree with any Dealer to issue Notes in a form not contemplated in the sections of this Base Prospectus entitled “*Form of Final Terms*”. To the extent that the information relating to that Tranche of Notes constitutes a significant new factor in relation to the information contained in this Base Prospectus, a separate prospectus specific to such Tranche (a “**Drawdown Prospectus**”) will be made available and will contain such information. Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the relevant Issuer and (in the case of Senior Notes issued by Mediobanca International only) the Guarantor and the relevant Notes or (2) pursuant to Article 5.3 of the Prospectus Directive, by a registration document containing the necessary information relating to the relevant Issuer and (in the case of Senior Notes issued by Mediobanca International only) the Guarantor, a securities note containing the necessary information relating to the relevant Notes and, if necessary, a summary note. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, references in this Base Prospectus to information specified or identified in the Final Terms shall (unless the context requires otherwise) be read and construed as information specified or identified in the relevant Drawdown Prospectus.

FORMS OF THE NOTES

(A) Temporary or Permanent Global Note

Unless otherwise provided in the relevant Final Terms, each Tranche of Notes will initially be in the form of either a temporary global note (a “**Temporary Global Note**”), without Coupons, or a permanent global note (a “**Permanent Global Note**”), without Coupons, in each case as specified in the relevant Final Terms or Drawdown Prospectus. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a “**Global Note**”) which is not intended to be issued in a new global note form (a “**Classic Global Note**” or “**CGN**”), as specified in the relevant Final Terms, will be deposited on or around the Issue Date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank S.A./N.V. (“**Euroclear**”) and/or Clearstream Banking, *société anonyme*, Luxembourg (“**Clearstream, Luxembourg**” or “**CBL**”) and/or any other relevant clearing system and/or deposited directly with Monte Titoli S.p.A. and/or any other centralised custodian appointed by the Issuers (together, the “**Centralised Custodian**”) and each Global Note which is intended to be issued in new global note form (a “**New Global Note**” or “**NGN**”), as specified in the relevant Final Terms, will be deposited on or around the Issue Date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006 the European Central Bank (the “**ECB**”) announced that Notes in NGN form are in compliance with the “*Standards for the use of EU securities settlement systems in ESCB credit operations*” of the central banking system for the euro (the “**Eurosystem**”), *provided that* certain other criteria are fulfilled (including denomination in euro and listing on an EU regulated market or on an ECB-approved non-regulated market). At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and the debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used (and if the above-mentioned other criteria are fulfilled).

The relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) or any successor version incorporated into the United States Treasury Regulations under Section 163 or Section 4701 of the U.S. Internal Revenue Code (the “**TEFRA C Rules**”) or United States Treasury Regulation §1.163-5(c)(2)(i)(D) or any successor version incorporated into the United States Treasury Regulations under Section 163 or Section 4701 of the U.S. Internal Revenue Code (the “**TEFRA D Rules**”) are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specifies the form of Notes as being “*Temporary Global Note exchangeable for a Permanent Global Note*”, then the Notes will initially be in the form of a Temporary Global Note without Coupons or Receipts (as defined herein), interests in which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without Coupons, not earlier than 40 days after the Issue Date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the relevant Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (iii) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and
- (iv) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership,

within seven days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership, *provided, however, that* in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form (“**Definitive Notes**”):

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies “*in the limited circumstances described in the Permanent Global Note*”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 8 (*Events of Default*) of the Senior Notes Conditions or Condition 8 (*Events of Default*) of the Subordinated Notes Conditions, as the case may be, occurs.

Where interests in the Permanent Global Note are to be exchanged for Definitive Notes in the circumstances described in (i) and (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations which represent the aggregate of a minimum denomination of Euro 100,000, plus integral multiples of Euro 1,000, *provided that* such denominations are not less than Euro 100,000 nor more than Euro 199,000. For the avoidance of doubt, each holder of Notes of such denominations will, upon exchange for Definitive Notes, receive Definitive Notes in an amount equal to its entitlement to the principal amount represented by the Permanent Global Note. However, a Noteholder who holds an aggregate principal amount of less than the minimum denomination may not receive a Definitive Note and would need to purchase a principal amount of Notes such that its holding is an integral multiple of the minimum denomination.

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated

and with Coupons, Talons and Receipts attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being “*Temporary Global Note exchangeable for Definitive Notes*” and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note, without Coupons, interests in which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the Issue Date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being “*Temporary Global Note exchangeable for Definitive Notes*” and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note, without Coupons or Receipts, interests in which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the Issue Date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Where the Temporary Global Note is to be exchanged for Definitive Notes, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons, Talons and Receipts (as defined herein) attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being “*Permanent Global Note exchangeable for Definitive Notes*”, then the Notes will initially be in the form of a Permanent Global Note, without Coupons or Receipts, interests in which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies “*in the limited circumstances described in the Permanent Global Note*”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the

circumstances described in Condition 8 (*Events of Default*) of the Senior Notes Conditions or Condition 8 (*Events of Default*) of the Subordinated Notes Conditions, as the case may be, occurs.

Where interests in the Permanent Global Note are to be exchanged for Definitive Notes in the circumstances described in (i) and (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations which represent the aggregate of a minimum denomination of Euro 100,000, plus integral multiples of Euro 1,000, *provided that* such denominations are not less than Euro 100,000 nor more than Euro 199,000. For the avoidance of doubt, each holder of Notes of such denominations will, upon exchange for Definitive Notes, receive Definitive Notes in an amount equal to its entitlement to the principal amount represented by the Permanent Global Notes. However, a Noteholder who holds an aggregate principal amount of less than the minimum denomination may not receive a Definitive Note and would need to purchase a principal amount of Notes such that its holding is an integral multiple of the minimum denomination.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons, Talons and Receipts attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange. Where the Notes are listed on the Irish Stock Exchange and its rules so require, the Issuer will give notice of the exchange of the Permanent Global Note for Definitive Notes pursuant to Condition 12 (*Notices*) of the Terms and Conditions of the Notes.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under “*Terms and Conditions of the Senior Notes*” and “*Terms and Conditions of the Subordinated Notes*” below, as the case may be, and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under “*Summary of Provisions relating to the Notes while in Global Form*” below.

Legend concerning United States persons

In the case of any Tranche of Notes having a maturity of more than 365 days, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code.”

The sections referred to in such legend provide that a United States person who holds a Note, Coupon, Talon or Receipt will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note, Coupon, Talon or Receipt and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

(B) Book-entry form

If the relevant Final Terms specifies the form of the Notes as being “*Book-entry form*”, then the Notes will not be represented by paper certificates and the transfer and exchange of Notes will take place exclusively through an electronic book-entry system managed by Monte Titoli S.p.A. or any other Centralised Custodian appointed by the Issuers. Accordingly, all Notes shall be deposited by their owners with an intermediary participant in the relevant Centralised Custodian. The intermediary will in turn deposit the Notes with the Centralised Custodian.

To transfer an interest in the Notes, the transferor and the transferee are required to give instructions to their respective intermediaries. If the transferee is a client of the transferor’s intermediary, the intermediary will simply transfer the Notes from the Transferor’s account to the account of the transferee. If, however, the transferee is a client of another intermediary, the transferor’s intermediary will instruct the centralised clearing system to transfer the Notes to the account of the transferee’s intermediary, which will then register the Notes on the transferee’s account.

Each intermediary maintains a custody account for each of its clients. This account sets out the financial instruments of each client and the records of all transfers, interest payments, charges or other encumbrances on such instruments. The account holder or any other eligible party may submit a request to the intermediary for the issue of a certified account statement.

In such circumstances, it will not be possible for a Noteholder to obtain physical delivery of certificates representing the Notes.

TERMS AND CONDITIONS OF THE SENIOR NOTES

The following is the text of the terms and conditions which, as completed by the relevant Final Terms, will be endorsed on each Senior Note in final form issued under the Programme. The terms and conditions applicable to any Senior Notes in global form will differ from those terms and conditions which would apply to the Senior Notes whilst in final form to the extent described under “Summary of Provisions relating to the Notes while in Global Form” below.

Mediobanca - Banca di Credito Finanziario S.p.A. (“**Mediobanca**”), Mediobanca International (Luxembourg) S.A. (“**Mediobanca International**”) (each, an “**Issuer**” and, together, the “**Issuers**”) have established an Euro Medium Term Note Programme (the “**Programme**”) for the issuance of up to Euro 40,000,000,000 in aggregate principal amount of senior notes which may be issued by each of the Issuers (the “**Notes**”) and subordinated notes which may be issued by Mediobanca only (the “**Subordinated Notes**”), guaranteed by Mediobanca (in its capacity as guarantor, the “**Guarantor**”) in respect of Notes issued by Mediobanca International.

The Notes are issued pursuant to an amended and restated Issue and Paying Agency Agreement dated 11 December 2015, as amended or supplemented from time to time, (the “**Issue and Paying Agency Agreement**”) between the Issuers, the Guarantor, BNP Paribas Securities Services, Luxembourg Branch, as fiscal agent and principal paying agent (the “**Fiscal Agent**”) and Mediobanca in its capacity as Italian paying agent (the “**Italian Paying Agent**” and together with the Fiscal Agent and any additional or other paying agents in respect of the Notes from time to time appointed, the “**Paying Agents**”) and with the benefit of deeds of covenant dated 11 December 2015 (each, a “**Deed of Covenant**” and, together, the “**Deeds of Covenant**”), each of them executed by the relevant Issuer in respect of Notes issued by such Issuer. The Guarantor has, for the benefit of the holders of Notes issued by Mediobanca International from time to time, executed and delivered a deed of guarantee (the “**Deed of Guarantee**”) dated 11 December 2015 under which it has guaranteed, in accordance with the terms and subject to limitations of the Deed of Guarantee, the due and punctual payment of the amounts due by Mediobanca International under the Notes and the Deed of Covenant as and when the same shall become due and payable (the “**Guarantee of the Notes**”). The holders of the Notes (as defined below), the holders of the interest coupons (the “**Coupons**”) appertaining to interest bearing Notes and, where applicable in the case of such Notes, talons for further Coupons (the “**Talons**”) and the holders of the instalment receipts (the “**Receipts**”) appertaining to the payment of principal by instalments are deemed to have notice of all of the provisions of the Issue and Paying Agency Agreement applicable to them.

Notes issued under the Programme are issued in series (each a “**Series**”) and each Series may comprise one or more tranches (each a “**Tranche**”) of Notes. Each Tranche of Notes is the subject of final terms (the “**Final Terms**”) which supplements these terms and conditions (the “**Senior Notes Conditions**” or the “**Conditions**”). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as completed by the relevant Final Terms. In the event of any inconsistency between these Senior Notes Conditions and the Final Terms, the Final Terms shall prevail. All subsequent references in these Senior Notes Conditions to “**Notes**” are to the Notes which are the subject of the Final Terms. Copies of the Final Terms are available during normal business hours at the specified office of the Fiscal Agent, the initial Specified Office of which is set out below (the “**Specified Office**”). Certain provisions of these Senior Notes Conditions are summaries of the Issue and Paying Agency Agreement and are subject to their detailed provisions.

The Final Terms issued in respect of each issue of Notes will specify whether the Issuer is Mediobanca or Mediobanca International. In these Conditions, any reference to a statute or regulation shall be construed as a reference to such statute or regulation as the same may have been, or may from time to time be, amended or re-enacted.

Copies of the Issue and Paying Agency Agreement, the Deeds of Covenant and the Deed of Guarantee are available for inspection at the specified office of the Paying Agent.

1. **FORM, DENOMINATION AND TITLE**

Any Note the principal amount of which is redeemable in instalments is issued with one or more Receipts attached.

Except as ordered by a court of competent jurisdiction or as required by law, the holder of any Note, Receipt, Coupon or Talon shall be deemed to be and may be treated as the absolute owner of such Note, Receipt, Coupon or Talon, as the case may be, for the purpose of receiving payment thereof or on account thereof and for all other purposes, whether or not such Note, Receipt, Coupon or Talon shall be overdue and notwithstanding any notice of ownership, theft or loss thereof or any writing thereon made by anyone. In these Conditions, “**holder**” (in relation to a Note, Receipt, Coupon or Talon) means the bearer of any Note, Receipt, Coupon or Talon. All capitalised terms which are not defined in these Conditions will have the meanings given to them in the relevant Final Terms, the absence of any such meaning indicating that such term is not applicable to the Notes. Those definitions will be endorsed on the definitive Notes.

2. **STATUS OF NOTES AND GUARANTEE**

(a) *Status of the Senior Notes*

The Notes will constitute direct unconditional, unsubordinated and unsecured obligations of the Issuer and will rank at all times at least *pari passu* without any preference among themselves and equally with all other present and future unsecured and unsubordinated obligations of the Issuer, save for certain mandatory exceptions of applicable law.

(b) *Status of Guarantee*

$$P = \frac{C}{r} (1 - (1 + r)^{-n}) + A(1 + r)^{-n}$$

Where:

“P” is the Issue Price of the Notes; “C” is the annualised Interest Amount; “A” is the principal amount of Notes due on redemption; “n” is time to maturity in years; and “r” is the annualised yield.

(b) *Interest Rate and Accrual*

Each Note bears interest on its outstanding principal amount from the Interest Commencement Date at the Interest Rate, such interest being payable in arrear on each interest payment date (each, an “**Interest Payment Date**”).

Interest will cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment of principal is improperly withheld or refused, in which event interest will continue to accrue (as well after as before judgment) at the Interest Rate in the manner provided in this Condition 3 (*Interest and other Calculations*) to the Relevant Date (as defined in Condition 6 (*Taxation*)).

(c) *Business Day Convention*

If any date referred to in these Conditions which is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is (i) the Following Business Day Convention, such date shall be postponed to the next day which is a Business Day, (ii) the Modified Following Business Day Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (iii) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(d) *Interest Rate on Fixed Rate Notes*

If the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable, the amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount and, if the Notes are in more than one Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Denomination. The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Interest Rate to the Calculation Amount of such Note, multiplying the product by the relevant Day Count Fraction (not adjusted in accordance with the Business Day Convention) and rounding the resulting figure in accordance with Condition 3(g) (*Rounding*). Where the Specified Denomination of a Fixed Rate Note comprises more than one Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding. The yield of the Fixed Rate Note is indicated in the relevant Final Terms and is calculated as the internal rate of return (IRR). The yield of the Fixed Rate Notes is calculated at the Issue Date on the basis of the Issue Price and, as indicated in the relevant Final Terms, the Fixed Coupon and/or the Broken Amount.

(e) *Interest Rate on Floating Rate Notes*

If the Floating Rate Note Provisions are specified in the Final Terms as being applicable, the Interest Rate for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) *Screen Rate Determination*: if Screen Rate Denomination is specified in the relevant Final Terms as the manner in which the Interest Rate is to be determined, as follow:
 - (A) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (B) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (C) if, in the case of (A) above, such rate does not appear on that page or, in the case of (B) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (1) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (2) determine the arithmetic mean of such quotations; and
 - (3) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Relevant Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Interest Rate for such Interest Period shall be

- (a) if “Multiplier” is specified in the relevant Final Terms as not being applicable, the sum of the Margin and the rate or (as the case may be) the arithmetic mean determined in accordance with the above provisions (the “**Determined Rate**”);

- (b) if “Multiplier” is specified in the relevant Final Terms as being applicable
 - (i) the sum of the Margin and the relevant Determined Rate multiplied by
 - (ii) the Multiplier;
- (c) if “Reference Rate Multiplier” is specified in the relevant Final Terms as being applicable, the sum of (i) Margin, and (ii) the relevant Determined Rate multiplied by the Reference Rate Multiplier,

provided, however, that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Interest Rate applicable to the Notes during such Interest Period will be calculated in accordance with the foregoing, save that the Determined Rate shall be the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

- (ii) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Interest Rate(s) is/are to be determined, the Interest Rate applicable to the Notes for each Interest Period will be
 - (a) if “Multiplier” is specified in the relevant Final Terms as not being applicable, the sum of the Margin and the relevant ISDA Rate;
 - (b) if “Multiplier” is specified in the relevant Final Terms as being applicable
 - (i) the sum of the Margin and the relevant ISDA Rate multiplied by (ii) the Multiplier;
 - (c) if “Reference Rate Multiplier” is specified in the relevant Final Terms as being applicable, the sum of (i) Margin, and (ii) the relevant ISDA Rate multiplied by the Reference Rate Multiplier,

where “**ISDA Rate**” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (A) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
- (B) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
- (C) the relevant Reset Date (as defined in the ISDA Definitions) is either (1) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) for a currency, the first day of that Interest Period or (2) in any other case, as specified in the relevant Final Terms.

(f) *Maximum/Minimum Interest Rates, Instalment Amounts and Redemption Amounts*

If any Maximum or Minimum Interest Rate, Instalment Amount or Redemption Amount is specified in the relevant Final Terms, then any Interest Rate, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be.

(g) *Rounding*

For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (i) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (ii) all figures will be rounded to seven significant figures (with halves being rounded up) and (iii) all currency amounts which fall due and payable will be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen. For these purposes “unit” means, with respect to any currency other than Euro, the lowest amount of such currency which is available as legal tender in the country of such currency and, with respect to Euro, means one cent.

(h) *Calculations*

The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Interest Rate and the outstanding Calculation Amount by the Day Count Fraction, save that where an Interest Amount (or a formula for its calculation) is specified in respect of such period, the amount of interest payable in respect of such Note for such period will equal such Interest Amount (or be calculated in accordance with a formula). Where the Specified Denomination of a Floating Rate Note comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding. In respect of any short or long Interest Period as specified in the applicable Final Terms, the Calculation Agent will determine the Interest Rate using Linear Interpolation.

(i) *Determination and Publication of Interest Rates, Interest Amounts, Redemption Amounts and Instalment Amounts*

After the Relevant Time on each Interest Determination Date or such other time on such date as the Calculation Agent may be required to calculate any Redemption Amount or Instalment Amount, obtain any quote or make any determination or calculation, it will, promptly, determine the Interest Rate and calculate the amount of interest payable (the “**Interest Amounts**”) on the principal amount of the Notes for the relevant Interest Period, calculate the Redemption Amount or Instalment Amount, obtain such quote or make such determination or calculation, as the case may be, and cause the Interest Rate and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, the Paying Agent, the holders of the Notes, any other Calculation Agent appointed in respect of the Notes which is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange and the rules of such exchange so requires, such exchange promptly after their determination but in no event later than (i) the commencement of the

relevant Interest Period, if determined prior to such time, in the case of an Interest Rate and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. The Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 8 (*Events of Default*), the accrued interest and the Interest Rate payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Interest Rate or the Interest Amount so calculated need be made. The determination of each Interest Rate, Interest Amount, Redemption Amount and Instalment Amount, the obtaining of each quote and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

(j) *Calculation Agent and Reference Banks*

The Issuer will use its best endeavours to ensure that there shall at all times be four Reference Banks (or such other number as may be required) with offices in the Relevant Financial Centre and one or more Calculation Agents if provision is made for them in the Conditions applicable to the Notes and for so long as any Notes are outstanding. If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank, then the Issuer will appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Interest Rate for any Interest Period or to calculate the Interest Amounts or any other requirements, the Issuer will appoint the London office of a leading bank engaged in the London interbank market to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

(k) *Late payment on Zero Coupon Notes*

If the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable and the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

The calculation of the above amount shall be made (where such calculation is to be made for a period which is not a whole number of years) on the basis of such Day Count Fraction as may be specified in the relevant Final Terms for the purposes of this Condition 3(k) (*Late payment on Zero Coupon Notes*) or, if none is so specified, a Day Count Fraction of 30E/360.

(l) *Interest Rate Switch*

If Change of Interest is specified as being applicable in the relevant Final Terms, from and including the Interest Rate Switch Date, the Interest Rate applicable for the calculation of interest for each remaining Interest Period with respect to the Notes shall be the rate specified as applying from and including such Interest Rate Switch Date in the Final Terms and the initial Interest Rate applicable to the Notes shall no longer apply.

If Redemption for taxation reasons is specified in the Final Terms as being applicable, the Notes may be redeemed at the option of the Issuer in whole, but not in part, on any Interest Payment Date or, if so specified in the relevant Final Terms, at any time, on giving not less than 30 nor more than 60 days' notice to the holders of Notes (which notice shall be irrevocable), at their Early Redemption Amount (together with interest accrued to the date fixed for redemption), if (i) based on an opinion of a nationally recognized law firm or other tax adviser in the relevant Taxing Jurisdiction (as appropriate) experienced in such matters, there is more than an unsubstantial risk that the Issuer (or, if the Guarantee of the Notes were called, the Guarantor) (A) has or will become obliged to pay additional amounts as provided or referred to in Condition 6 (*Taxation*) or (B) has or will become subject to more than a *de minimis* additional amount of national income taxes (and/or, in the case of Mediobanca, regional tax on productive activities – IRAP) due to partial or entire limitation to the deductibility of any payments under the Notes (provided that, with respect to Mediobanca, any additional amount of national income taxes arising from a limitation of the deductibility of interest payments exceeding the 4% percentage set forth, as at the date of the Issuing and Paying Agency Agreement, in Article 96, paragraph 5-*bis* of Decree No. 917, would be considered as exceeding the aforesaid *de minimis* additional amount), in either case as a result of (1) any change in, or amendment to, the laws or regulations of Luxembourg or any political subdivision thereof or any agency or authority thereof or therein having power to tax (in the case of payments made by or on behalf of Mediobanca International) or the Republic of Italy or any political subdivision thereof or any agency or authority thereof or therein having power to tax (in the case of payments made by or on behalf of Mediobanca), or (2) any change in the application or official interpretation of such laws or regulations, or (3) any judicial decision, official administrative pronouncement, published or private ruling, regulatory procedure, notice or announcement (including any notice or announcement of intent to adopt such procedures or regulations) (for purposes of this definition, an “**Administrative Action**”), or (4) any clarification of, or change in the official position or the interpretation of such Administrative Action or any interpretation or pronouncement that provides for a position with respect to such Administrative Action that differs from the generally accepted position, in each case by any legislative body, court, governmental, administrative or regulatory authority or body, irrespective of the manner in which such clarification or change is made known, which change, amendment, Administrative Action or clarification becomes effective on or after the Issue Date, and (ii) such obligations/limitations under (A) and (B) above cannot be avoided by the Issuer (or the Guarantor, as the case may be) taking reasonable measures available to it which (x) do not require the Issuer (or the Guarantor, as the case may be) to incur material out-of-pocket expenses and (y) would not otherwise be disadvantageous to the Issuer or the Guarantor, as determined in their discretion; *provided that* in the case under (A) above no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer (or the Guarantor, as the case may be) would be obliged to pay such additional amounts were a payment in respect of the Notes (or the Guarantee, as the case may be) then be due. Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Fiscal Agent a certificate signed by a director of the Issuer (or the Guarantor, as the case may be) stating that such Issuer (or the Guarantor, as the case may be) is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the

right of such Issuer (or the Guarantor, as the case may be) so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that there is more than an unsubstantial risk that the Issuer (or the Guarantor, as the case may be) (A) has or will become obliged to pay such additional amounts or (B) has or will become subject to more than a *de minimis* additional amount of taxes, as indicated above, due to limitation of the deductibility of payments under the Notes as a result of such change, amendment, Administrative Action or clarification.

(d) **Purchases**

The Issuer, the Guarantor and any of the Guarantor's subsidiaries may at any time purchase Notes in the open market or otherwise at any price provided that all unmatured Receipts and Coupons and unexchanged Talons appertaining thereto are attached or surrendered therewith. Without prejudice to the foregoing, if so specified in the relevant Final Terms the Issuer will be entitled to exercise the option to repurchase from the holder(s), at its sole discretion, (1) all (but not part of) the Notes of the relevant Series (the “**Total Repurchase Option**”) or (2) on one or more occasions, any portion of the Notes of the relevant Series, provided that in such circumstances the amount of the Notes of the relevant Series to be purchased from each holder shall be the same proportion that the aggregate principal amount of the Notes of the relevant Series that are subject to the relevant Partial Purchase Option bears to the aggregate principal amount of all the Notes of the relevant Series then outstanding prior to the exercise of the relevant Partial Purchase Option (the “**Partial Repurchase Option**”). The Total Repurchase Option and the Partial Repurchase Option can only be exercised by the Issuer at the date(s) and the price(s) specified in the Final Terms as the Total Repurchase Option date or the Partial Repurchase Option date(s) and the Total Repurchase Option amount or Partial Repurchase Option amount(s), respectively. Upon exercise of the Total Repurchase Option or the Partial Repurchase Option, the holder(s) shall be obliged to sell to the Issuer (or any other entity indicated by the Issuer) all the Notes of the Series in relation to which the Total Repurchase Option or the Partial Repurchase Option (as the case may be) is exercised.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the relevant Final Terms for the purposes of this

Condition 4(e) (*Early Redemption of Zero Coupon Notes, Redemption of Zero Coupon Notes for taxation reasons, Redemption of Zero Coupon Notes at the Option of the holder, Redemption of Zero Coupon Notes at the option of holders of Notes*) or, if none is so specified, a Day Count Fraction of 30E/360.

- 1) If European Style is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of the holder of any such Note, redeem such Note on the relevant Option Redemption Date at its Optional Redemption Amount (*Put*) together with accrued interest (if any) up to such date, unless otherwise specified in the relevant Final Terms. To exercise such option, the holder must deposit such Note with any Paying Agent at its specified office, together with a duly completed option exercise notice (the “**Exercise Notice**”) in the form of obtainable from any Paying Agent; the Exercise Notice must be deposited with such Paying Agent no later than the last day of the notice period specified in the relevant Final terms. (j) **Specific Buy Back Provisions**

If the Specific Buy Back Provisions are specified as being applicable to the Notes in the relevant Final Terms, prior to the Maturity Date the value of the Notes shall reflect and shall be calculated on the basis of the Market Value of such Underlying Transactions. Each of the Issuers may, from time to time, calculate the price of the Notes on the basis of the Market Value of the Underlying Transactions and, without prejudice to its obligation to pay the Interest Amounts and the Redemption Amounts on the Notes, in the event that an investor requests each of the Issuers to repurchase the Notes held by it prior to their maturity, and each of the Issuers accepts such repurchase, the price of the Notes (Buy Back Price) will be determined taking into consideration the Market Value of such Underlying Transactions.

The Specific Buy Back Provisions shall apply only to Notes issued by Mediobanca and/or Mediobanca International and where Mediobanca and/or Mediobanca International act as Dealers.

Any amount so deducted will be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 7 (*Prescription*)).

Each Tranche of Notes is the subject of final terms (the “**Final Terms**”) which supplements these terms and conditions (the “**Subordinated Notes Conditions**” or the “**Conditions**”). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as completed by the relevant Final Terms. In the event of any inconsistency between these Subordinated Notes Conditions and the Final Terms, the Final Terms shall prevail. All subsequent references in these Subordinated Notes Conditions to “**Notes**” are to the Notes which are the subject of the relevant Final Terms. These Subordinated Notes Conditions apply only to Notes which are issued by Mediobanca and are defined as “*Tier II Instruments*” in Part II, Chapter 1 of the Prudential Regulations for Banks and in Article 63 of the CRR. Where:

“**P**” is the Issue Price of the Notes; “**C**” is the annualised Interest Amount; “**A**” is the principal amount of Notes due on redemption; “**n**” is time to maturity in years; and “**r**” is the annualised yield.

(b) *Interest Rate and Accrual*

Each Note bears interest on its outstanding principal amount from the Interest Commencement Date at the Interest Rate, such interest being payable in arrear on each interest payment date (each, an “**Interest Payment Date**”).

Interest will cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment of principal is improperly withheld or refused, in which event interest will continue to accrue (as well after as before judgment) at the Interest Rate in the manner provided in this Condition 3 (*Interest and other Calculations*) to the Relevant Date (as defined in Condition 6 (*Taxation*)).

(c) *Business Day Convention*

If any date referred to in these Conditions which is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is (i) the Following Business Day Convention, such date shall be postponed to the next day which is a Business Day, (ii) the Modified Following Business Day Convention, such date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (iii) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(d) *Interest Rate on Fixed Rate Notes*

The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Interest Rate to the Calculation Amount of such Note, multiplying the product by the relevant Day Count Fraction (not adjusted in

accordance with the Business Day Convention) and rounding the resulting figure in accordance with Condition 3(g) (*Rounding*). Where the Specified Denomination of a Fixed Rate Note comprises more than one Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding. The yield of the Fixed Rate Note is indicated in the relevant Final Terms and is calculated as the internal rate of return (IRR). The yield of the Fixed Rate Notes is calculated at the Issue Date on the basis of the Issue Price and, as indicated in the relevant Final Terms, the Fixed Coupon and/or the Broken Amount.

(e) *Interest Rate on Floating Rate Notes*

If the Floating Rate Note Provisions are specified in the Final Terms as being applicable, the Interest Rate for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) *Screen Rate Determination*: if Screen Rate Denomination is specified in the relevant Final Terms as the manner in which the Interest Rate is to be determined, as follow:
 - (A) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (B) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
 - (C) if, in the case of (A) above, such rate does not appear on that page or, in the case of (B) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (1) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (2) determine the arithmetic mean of such quotations; and
 - (3) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Relevant Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified

Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Interest Rate for such Interest Period shall be:

- (a) if “Multiplier” is specified in the relevant Final Terms as not being applicable, the sum of the Margin and the rate or (as the case may be) the arithmetic mean determined in accordance with the above provisions (the “**Determined Rate**”);
- (b) if “Multiplier is specified in the relevant Final Terms as being applicable (i) the sum of the Margin and the relevant Determined Rate multiplied by (ii) the Multiplier;
- (c) if “Reference Rate Multiplier” is specified in the relevant Final Terms as being applicable, the sum of (i) Margin, and (ii) the relevant Determined Rate multiplied by the Reference Rate Multiplier,

provided, however, that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Interest Rate applicable to the Notes during such Interest Period will be calculated in accordance with the foregoing, save that the Determined Rate shall be the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

- (ii) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Interest Rate(s) is/are to be determined, the Interest Rate applicable to the Notes for each Interest Period will be:

- (a) if “Multiplier” is specified in the relevant Final Terms as not being applicable, the sum of the Margin and the relevant ISDA Rate;
- (b) if “Multiplier is specified in the relevant Final Terms as being applicable (i) the sum of the Margin and the relevant ISDA Rate multiplied by (ii) the Multiplier;
- (c) if “Reference Rate Multiplier” is specified in the relevant Final Terms as being applicable, the sum of (i) Margin, and (ii) the relevant ISDA Rate multiplied by the Reference Rate Multiplier,

where “**ISDA Rate**” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (A) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;

- (B) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
- (C) the relevant Reset Date (as defined in the ISDA Definitions) is either (1) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) for a currency, the first day of that Interest Period or (2) in any other case, as specified in the relevant Final Terms.

(f) *Maximum/Minimum Interest Rates, Instalment Amounts and Redemption Amounts*

If any Maximum or Minimum Interest Rate, Instalment Amount or Redemption Amount is specified in the relevant Final Terms, then any Interest Rate, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be.

(g) *Rounding*

For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (i) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (ii) all figures will be rounded to seven significant figures (with halves being rounded up) and (iii) all currency amounts which fall due and payable will be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen. For these purposes “unit” means, with respect to any currency other than Euro, the lowest amount of such currency which is available as legal tender in the country of such currency and, with respect to Euro, means one cent.

(h) *Calculations*

The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Interest Rate and the outstanding Calculation Amount by the Day Count Fraction, save that where an Interest Amount (or a formula for its calculation) is specified in respect of such period, the amount of interest payable in respect of such Note for such period will equal such Interest Amount (or be calculated in accordance with a formula). Where the Specified Denomination of a Floating Rate Note comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding. In respect of any short or long Interest Period as specified in the applicable Final Terms, the Calculation Agent will determine the Interest Rate using Linear Interpolation.

(i) *Determination and Publication of Interest Rates, Interest Amounts, Redemption Amounts and Instalment Amounts*

After the Relevant Time on each Interest Determination Date or such other time on such date as the Calculation Agent may be required to calculate any Redemption Amount or Instalment Amount, obtain any quote or make any determination or calculation, it will, promptly, determine the Interest Rate and calculate the amount of interest payable (the “**Interest Amounts**”) on the principal amount of the Notes for the relevant Interest Period, calculate the Redemption Amount or Instalment Amount, obtain such quote or make such determination or

calculation, as the case may be, and cause the Interest Rate and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, the Paying Agent, the holders of the Notes, any other Calculation Agent appointed in respect of the Notes which is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange and the rules of such exchange so requires, such exchange promptly after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of an Interest Rate and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. The Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 8 (*Events of Default*), the accrued interest and the Interest Rate payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Interest Rate or the Interest Amount so calculated need be made. The determination of each Interest Rate, Interest Amount, Redemption Amount and Instalment Amount, the obtaining of each quote and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

(j) *Calculation Agent and Reference Banks*

The Issuer will use its best endeavours to ensure that there shall at all times be four Reference Banks (or such other number as may be required) with offices in the Relevant Financial Centre and one or more Calculation Agents if provision is made for them in the Conditions applicable to the Notes and for so long as any Notes are outstanding. If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank, then the Issuer will appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Interest Rate for any Interest Period or to calculate the Interest Amounts or any other requirements, the Issuer will appoint the London office of a leading bank engaged in the London interbank market to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

(k) *Late payment on Zero Coupon Notes*

If the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable and the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and

including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

The calculation of the above amount shall be made (where such calculation is to be made for a period which is not a whole number of years) on the basis of such Day Count Fraction as may be specified in the relevant Final Terms for the purposes of this Condition 3(k) (*Late payment on Zero Coupon Notes*) or, if none is so specified, a Day Count Fraction of 30E/360.

(l) *Interest Rate Switch*

If so specified in the relevant Final Terms, from and including the Interest Rate Switch Date, the Interest Rate applicable for the calculation of interest for each remaining Interest Period with respect to the Notes shall be the rate specified as applying from and including such Interest Rate Switch Date in the Final Terms and the initial Interest Rate applicable to the Notes shall no longer apply.

(c) **Payments subject to law, etc.**

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives, but without prejudice to the provisions of Condition 6 (*Taxation*). No commission or expenses shall be charged to the holders of Notes or Couponholders in respect of such payments.

Any amount so deducted will be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 7 (*Prescription*)).

- (vi) If the due date for redemption of any Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Note. Interest accrued on a Note which only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Note.

(f) **Talons**

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Note, the Talon forming part of such Coupon sheet may be surrendered to or to the order of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons which may have become void pursuant to Condition 7 (*Prescription*)).

(g) **Non-Business Days**

- (ii) to a holder who is a non-Italian resident or individual or legal entity which is resident in a tax haven country (as defined and listed in the Italian Ministry of Finance Decree of 23 January 2002 or in any other legislation substituting such decree) or in any country which does not allow for an adequate exchange of information with the Italian tax authorities (not included in Italian Ministerial Decree 4 September 1996 or in any other legislation substituting such decree); or

without prejudice to the option of the Issuer to redeem the Notes pursuant to, and subject to the conditions of, Condition 4(c) (*Redemption for taxation reasons*).

(b) **Taxing Jurisdiction**

If the Issuer becomes subject at any time to any taxing jurisdiction other than the Republic of Italy, references in these Conditions to Italy shall be construed as references to the Republic of Italy and/or such other jurisdiction.

As used in these Conditions, “**Relevant Date**” in respect of any Note, Receipt or Coupon means the date on which payment in respect thereof first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date on which notice is duly given to the holders of Notes in accordance with Condition 12 (*Notices*) that, upon further presentation of the Note, Receipt or Coupon being made in accordance with the Conditions, such payment will be made, *provided* that payment is in fact made upon such presentation. whereupon (in both (i) and (ii) above of this Condition 8 (*Events of Default*)) the Early Redemption Amount of such Note together with accrued interest to the date of payment shall become immediately due and payable and any holder of a Note may at its discretion and without further notice institute proceedings to determine the insolvency or bankruptcy of Mediobanca or prove in any winding-up or bankruptcy of Mediobanca. (d) *Modification following a Regulatory Event or a Tax Event*

Where a Regulatory Event or a Tax Event has occurred and is continuing, then the Issuer may, without any requirement for the consent or approval of the Noteholders, modify the terms of the Notes to the extent that such modification is reasonably necessary to ensure that no such Regulatory Event or Tax Event would exist after such modification, provided that, following such modification:

- (i) the terms and conditions of the Notes, as so modified (the “**modified Notes**”), are no more prejudicial to Noteholders than the terms and conditions applicable to the Notes prior to such modification (the “**existing Notes**”) provided that any modification may be made in accordance with paragraphs (ii) to (iv) below and any such modification shall not constitute a breach of this paragraph (i); and

- (b) the modification does not give rise to a change in any published rating of the existing Notes in effect at such time (to the extent the existing Notes were rated prior to the occurrence of such Regulatory Event or Tax Event, as applicable);
- (c) the modification does not give rise to any right on the part of the Issuer to exercise any option to redeem the Notes prior to their stated maturity, without prejudice to the provisions under Condition 4(f) (*Redemption at the option of the Issuer*);
- (d) the Issuer has delivered to the Fiscal Agent a certificate, substantially in the form shown in the Issue and Paying Agency Agreement, signed by two of the Issuer's executive officers stating that conditions (i) to (iv) and (a) to (c) above have been complied with, such certificate to be made available for inspection by Noteholders; and
- (e) in the case of any proposed modifications owing to a Tax Event, the Issuer has delivered to the Fiscal Agent an opinion of independent legal advisers of recognised standing to the effect that the Tax Event can be avoided by the proposed modifications.

In connection with any modification as indicated in this Condition 9(d), the Issuer shall comply with the rules of any stock exchange or other relevant authority on which the Notes are then listed or admitted to trading.

PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

Each Global Note will be in bearer form. Consequently, in relation to any Tranche of Notes represented by a Global Note, references in the Terms and Conditions of the Notes to “**Noteholder**” are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary (in the case of a CGN) or a common safekeeper (in the case of an NGN) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an “**Accountholder**”) must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder’s share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of the Global Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the relevant Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and (in the case of an NGN) effectuated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global to or to the order of the Fiscal Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons, Talons and Receipts attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (Luxembourg time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) Definitive Notes have not been delivered by 5.00 p.m. (Luxembourg time) on the forty-fifth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or
- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (Luxembourg time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such forty-fifth day (in the case of (b) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under the Deeds of Covenant. Under the Deeds of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the relevant Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Where the Notes are listed on the Official List of the Irish Stock Exchange and its rules so require, the Issuer will give notice of the exchange of the Permanent Global Note for Definitive Notes pursuant to Condition 12 (*Notices*) of the Senior Notes Conditions and of the Subordinated Notes Conditions, as the case may be.

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and, where applicable, with Coupons, Talons and Receipts attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 45 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been delivered by 5.00 p.m. (Luxembourg time) on the forty-fifth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes; or

- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (Luxembourg time) on such forty-fifth day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deeds of Covenant). Under the relevant Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the relevant Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Where the Notes are listed on the Official List of the Irish Stock Exchange and its rules so require, the relevant Issuer will give notice of the exchange of the Permanent Global Note for Definitive Notes pursuant to Condition 12 (*Notices*) Senior Notes Conditions and of the Subordinated Notes Conditions, as the case may be.

On each occasion on which a payment of principal or interest is made in respect of the Global Note, the relevant Issuer shall procure that, in respect of a CGN, the payment is noted on a schedule thereto and, in respect of an NGN, the payment is entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg.

Exercise of put option: In order to exercise the option contained in Condition 4(g) (*Redemption at the option of holders of Notes*) of the Senior Notes Conditions and Condition 4(h) (*Redemption at the option of holders of Notes*) of the Subordinated Notes Conditions, as the case may be, the bearer of the Permanent Global Note must, within the period specified in the relevant Conditions for the deposit of the relevant Note and Put Option Notice, give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial exercise of call option: In connection with an exercise of the option contained in Condition 4(f) (*Redemption at the option of the Issuer*) of the Senior Notes Conditions of the Subordinated Notes Conditions, as the case may be, in relation to some only of the Notes, the Permanent Global Note may

be redeemed in part in the principal amount specified by the relevant Issuer in accordance with the relevant Conditions and the Notes to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system (to be reflected in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, at their discretion, as either a pool factor or a reduction in principal amount).

Wholesale Banking

Mediobanca seeks to provide its corporate clients with the advisory services and financial services to help them grow and develop.

The wholesale banking division comprises three different units: *Corporate finance, Lending and Structure Finance, Capital Markets*.

Corporate finance

Mediobanca is the leader in Italy and has an increasingly significant role in financial advisory services at the European level through its branches in London, Paris, Frankfurt, Madrid, Istanbul and Mexico City. A client-based approach is adopted, backed by in depth knowledge of the financial issues and a consolidated track record in executing deals. The operating unit is organized into different industry teams covering individual industries in order to provide greater focus.

Corporate finance involves the following activities:

- defining strategic objectives for companies and identifying extraordinary financing transactions in order to help meet them;
- extraordinary financing transactions: mergers and acquisitions, joint ventures and partnerships, disposals and spinoffs;
- liability restructuring: earnings/financial analysis of companies/groups undergoing restructuring; working out financial rebalancing scenarios; negotiating with key creditors;
- corporate restructuring: LBOs, MBOs, spinoffs and tax-/inheritance-related issues;
- company valuations, on a standalone basis and for purposes of setting exchange ratios;
- relations with authorities: assistance in handling relations with market and regulatory authorities, principally CONSOB and Borsa Italiana.

Lending and structured finance

The Financing teams serve Mediobanca's Italian and international customers, through the branch offices located in Paris, Frankfurt, London, Madrid and Istanbul to offer:

- advice in evaluating possible capital structures and financing solutions available from among a vast series of debt products, including considering possible implications in terms of rating;
- structuring and executing lending transactions;
- access to the international syndicated loans market;
- facility and security agent services for corporate and structured lending transactions.

The main products of the Lending and structured finance team are:

- **corporate lending** (bilateral loans, club deals and syndicated loans): corporate loans aimed at supporting customers' financial requirements generated by investments or related to their companies' growth; the financial solutions offered are aimed primarily at medium-/large-sized firms operating on domestic and international markets, in industrial and service-based sectors;
- **structured finance** (acquisition finance, loans for LBO/MBOs, project finance, infrastructure finance, real estate finance): financial support to corporate counterparties and institutional investors as part of leveraged transactions to acquire stakes in listed and unlisted companies; a wide range of lending transactions are developed, arranged, structured, underwritten and executed based on complex structures, and because of their size these are often syndicated on the international market. On the back of its solid track record in various sectors, customers are provided with advisory services covering the entire process of structuring deals to support investment and infrastructure or industrial projects, including offering strategies, selection of the most effective debt instruments, hedging strategies, financial modelling and structuring contracts; and

- **factoring** (with and without recourse, maturity, and supply credit): sale and discount of trade receivables to help refinance companies' working capital. As well as the financial benefits, factoring can also provide insurance (guarantee against insolvency or delays in payments) and facilitate operations (credit management, accounting, collection and recovery).

Capital Markets

Mediobanca operates on both the primary and secondary markets, trading equities and fixed-income securities, foreign exchange products and credit risk, interest rate and exchange rate derivatives.

In the equity market (primary and secondary), activity is divided into the following areas:

- **equity capital markets**: it is the Italian leader and has a role of increasing importance internationally in structuring, co-ordinating and executing equity capital markets transactions, such as IPOs, rights issues, secondary offerings and ABOs, and bonds convertible into equity solutions (equity derivatives to manage investments and treasury shares): this unit structures and implements extraordinary financing transactions involving equity investments and treasury shares; using a dedicated trading platform, the team offers customers innovative, high value-added solutions, and also handles any legal, accounting, tax and regulatory issues;
- **equity finance (securities lending, equity repos, collateralized financing)**: the unit offers tailored securities lending solutions, which range from simple loans to hedge short-/medium-term positions, to equity repos, to upgrades and collateralized financing;
- **equity derivatives institutional marketing**: a range of equity-linked investments are offered to banks, insurances, asset managers and family offices, from synthetic replications of simple underlying assets to sophisticated protection mechanisms and solutions for increasing the return on portfolios, funded or unfunded;
- **MB Securities**: this is Mediobanca's equity brokerage division, offering global access to equity markets and research on the Italian market (over 100 companies are covered), plus a pan-European focus on the financials sector (banks and insurances); a dedicated team also offers corporate broking services.

In relation to the debt market, the activity is divided into the following areas of operation:

- **debt capital markets**: this team originates, structures, executes and places corporate and financial bond issues, covered bonds and securitizations to meet its customers' financing needs.
- **CRAL solutions**: this area structures solutions based on interest rates, credit and alternative products; it targets corporate clients, banks and institutional investors who need to restructure their investment portfolios, increase asset liquidity and diversify their sources of funding. An activity of advisory and structuring of *ad hoc* solutions on alternative investments focusing on institutional investors.
- **proprietary funding**: this team is responsible for structuring, issuing and placing debt products, the revenues from which finance the Bank's own activities. Fund raising, supported by the Bank's high credit rating, takes place primarily through the issuance of securities, both plain vanilla and structured. Securities are placed with retail investors through public offers (executed using the

proprietary networks of CheBanca!, through individual third banks – including that of BancoPosta – either on an exclusive basis or via groups of banks in syndicates) and direct sales are made over the screen-based bond market (MOT) operated by Borsa Italiana. Demand from institutional investors is met via public offers of securities on the Euromarket and private placements of products customized to meet the subscribers’ specific needs.

Private banking

The range of services offered to clients by the Mediobanca Group includes private banking, via Banca Esperia and Compagnie Monégasque de Banque.

- **Banca Esperia** was set up in July 2001 as a joint venture between the Mediobanca and Mediolanum groups with the aim of becoming the private banker of choice for high net worth clients, offering them portfolio management, advisory and financing services. Independence, operational autonomy, focus on private banking activities, and excellence and quality of service, are the hallmarks of a bank which has approximately €18bn in assets under management at its branches in Bergamo, Bologna, Brescia, Cesena, Florence, Genoa, Milan, Padua, Parma, Rome, Turin and Treviso.
- **Compagnie Monégasque de Banque (“CMB”)** is 100%-owned by Mediobanca. CMB is market leader in the Principality of Monaco, with total deposits of approx. €8bn. Its geographical position, indepth knowledge of markets and the absolute discretion make it a player of primary importance, able to provide exclusive services to its client, ranging from loans to asset management.

Principal Investing

Mediobanca has an equity portfolio of investments made over time, consisting of minority stakes in leading Italian and international companies, most of which are listed, and which are generally leaders in their respective spheres of activity, with a view to contributing, including through representation on investee companies’ governing bodies, to value creation over a medium- and long-term time horizon. In FY 2014/15, too, and in accordance with the guidelines of the 2014/16 strategic plan, which provided for a significant reduction in the Mediobanca Group’s exposure to equities, the Bank has continued its asset disposal programme, selling approx. €290m worth of equity investments, generating gains of some €120m. In view of the size of the investments and the role played by Mediobanca in the governance of the companies concerned, the shareholdings in Generali, RCS MediaGroup, Atlantia and Pirelli&C are assigned to the Principal investing division.

Company	Sector	% of share capital	Book value at 30/6/15 €m
Assicurazioni Generali	Insurance	13.24%	3,312

Mediobanca owns a direct 60% stake in the SelmaBipiemme Leasing group, with the other 40% held by the Banca Popolare di Milano. The group operates in financial leasing, carried out directly through SelmaBipiemme Leasing and Palladio Leasing (already 100%-owned and merged on 11 September 2015 into Selma Bipiemme, with effect in legal terms as from 1 October 2015 and in accounting terms as from 1 July 2015), the latter of which operates exclusively in north-eastern Italy.

The group has a series of commercial agreements with banking networks, such as those of Banca Popolare di Milano and Banca Popolare di Vicenza (with a combined approx. 1,000 branches).

In the twelve months to 30 June 2015 the group disbursed approx. €480m in leases.

As at end-June 2015, international activities accounted for just under 50% of the wholesale banking division's revenues.

Each year the Board of Directors assesses the positions of the individual directors, which may have changed as a result of changes in the activities or size of the other companies in which they hold posts. To this end, each director, including in order to avoid potential conflicts of interest from arising, informs the Board of any changes in the positions assumed by them in the course of their term of office.

Mediobanca also adopts the procedure recommended under Article 136 of the Italian Consolidated Banking Act for approval of transactions involving individuals who perform duties of management and control in other companies controlled by such parties.

Legal and arbitration proceedings

As at the date of the Base Prospectus, none of Mediobanca and its consolidated subsidiaries is or has been involved in any governmental, legal or arbitration proceedings relating to claims or amounts of money which may have, or have had in the recent past, significant effects on the Group's financial position or profitability, and as far as Mediobanca is aware, no such governmental, legal or arbitration proceedings has either been announced or is pending. A description of the main tax disputes and litigation pending is provided below, purely for information purposes:

Tax disputes

As at 30 June 2015 the Mediobanca Group had litigation pending, in respect of higher tax worth a notified amount of €37.2m, plus interest and fines, all involving disputes with the Italian tax revenue authority and regarding:

- fourteen claims in respect of allegedly non-existent leasing transactions, involving higher tax worth a notified amount of €35.6m (€31.8m by way of VAT and €3.8m IRES/IRAP); €24.1m of the higher tax involves leases on yachts, while the remainder involves real estate and brands;¹
- other minor claims, involving higher tax worth a notified amount of €1.7m;
- eight claims in respect of other items, involving higher tax worth a notified amount of €2.1m.

In the year under review, the Milan tax office waived its €30.5m claims made in connection with losses on Compass receivables in the 2007/08 financial year (€30.5m) in respect of withholding tax on loans from Mediobanca (€3.8m), thereby ending the dispute.

The companies concerned have appealed against all the above rulings in the conviction that their actions were correct (cf. the ruling in the Compass dispute going in its favour). For this reason no amounts have been set aside to the provision for risks and charges, including in view of how the legal process is progressing.

Litigation pending

The most significant litigation pending against Mediobanca is as follows:

- the proceedings initiated against Mediobanca relating to the Bank's alleged failure, jointly with other parties, to launch a full takeover bid for La Fondiaria in 2002. A total of sixteen cases were brought, six of which are still pending, another six settled out of court during the year under review, and four settled the previous year (three out of court and the other statute-barred). The total amount of the six claims still pending is some €68m (plus interest and expenses); Mediobanca's share in this would be approx. €23m (plus interest and expenses). The present status of the trials in respect of these claims is as follows:
- five claims, in which the court of appeals has ruled in favour of Mediobanca, are pending at the court of cassation;
- one claim, in which the ruling went against Mediobanca, is pending before the court of appeals in Milan;
- the case pending with the court of Milan for damages totalling €134.4m in connection with the Burani group bankruptcies for Mediobanca's alleged role as advisor on the takeover bid concerned. Mediobanca, cited by Centrobanca, has appeared in court and has pleaded not guilty,

¹) These include the claim for the 2005 and 2006 tax periods in respect of certain allegedly non-existent transactions involving brands and real estate leases (involving higher amounts of VAT, IRES and IRAP tax totalling €11.1m), which the Italian tax revenue authorities has appealed to the supreme court despite losing at both levels so far. Mediobanca only learnt of this appeal at a late stage, hence the claim was stated as having been dismissed in the financial statements for the six months ended 31 December 2014.

on the grounds that its activity as advisor consisted exclusively of preparing one analysis (defined as “*Discussion material*”) on behalf of Burani Designer Holding NV, regarding the principal impact of the takeover bid in financial terms;

- one claim filed with the court of Siena for damages in an amount of €286m by the Fondazione Monte dei Paschi di Siena, for an alleged non-contractual liability, jointly with the other thirteen lender banks, in connection with the execution of a loan granted to Fondazione Monte dei Paschi di Siena in June 2011.

There is no other significant litigation pending at present.

The provision for risks and charges amply covers any charges that may be payable as a result of the claims made against Mediobanca and the Group companies.

Significant changes in the Issuer’s financial position

There have been no significant changes to financial or commercial position of Mediobanca or the other companies forming part of the Group since the most recent financial information available was disclosed in the interim financial statements as at 30 September 2015.

Material Agreements

Neither Mediobanca nor any of the companies controlled by Mediobanca has entered into or participates in agreements outside of their normal course of business which could result an obligation or entitlement for Group members that would impact significantly on the Issuer’s ability to meet its obligations in respect of the holders of financial instruments issued or to be issued.

PLAN OF DISTRIBUTION

References in this Base Prospectus to “**Permanent Dealers**” are to the persons listed in the paragraph headed “Dealers” in the section headed “*Description of the Euro 40,000,000,000 Euro Medium Term Note Programme*” above and to such additional persons which are appointed from time to time as dealers in respect of the whole Programme (and whose appointment has not been terminated) and references to “Dealers” are to all Permanent Dealers and all persons appointed from time to time as a dealer solely in respect of one or more Tranches.

Subject to the terms and conditions contained in a dealer agreement dated 11 December 2015 as further amended or supplemented from time to time (the “**Dealer Agreement**”) between the Issuers, the Guarantor, the Arranger and the Permanent Dealers, the Notes will be offered on a continuous basis by each Issuer to the Permanent Dealers. However, the relevant Issuer has reserved the right to sell Notes directly on its own behalf to Dealers which are not Permanent Dealers. The relevant Issuer may also offer and sell Notes directly to investors without the involvement of any Dealer. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the relevant Issuer through the Dealers, acting as agents of such Issuer. The Dealer Agreement also provides for Notes to be issued in syndicated Tranches which are jointly and severally underwritten by two or more Dealers.

Pursuant to the terms and conditions of the Dealer Agreement, the relevant Issuer, failing whom, where applicable, the Guarantor, has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Dealer Agreement may be terminated in relation to all the Dealers or any of them by Mediobanca and Mediobanca International, acting together or, in relation to itself and Mediobanca and Mediobanca International only, by any Dealer, at any time on giving not less than ten Business Days' notice.

The Base Prospectus referred to below (as [supplemented by the supplement to the Base Prospectus dated [] and] completed by these Final Terms) has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (2003/71/EC) (as amended) (each, a **Relevant Member State**) will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offer of the Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of the Notes may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

[This document constitutes the Final Terms relating to the issue of Notes described herein. [The following alternative language applies if the first tranche of an issue which is being increased was issued under a Base Prospectus with an earlier date.]

This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive (Directive 2003/71/EC) (as amended) (the “**Prospectus Directive**”) and must be read in conjunction with the Base Prospectus dated 11 December 2015 [and the supplement to the Base Prospectus dated []], which [together] constitute[s] a base prospectus for the purposes of the Prospectus Directive, save in respect of the Conditions which are extracted from the Base Prospectus dated [original date] which is incorporated by reference to the Base Prospectus dated 11 December 2015. Full information on the Issuer [and the Guarantor] and the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectuses dated [date of original base prospectus] and 11 December 2015 [and the supplement to the Base Prospectus dated []]. The Base Prospectuses [and the supplement to the Base Prospectus] [is/are] available for viewing at the registered office[s] of the Issuer [and of the Guarantor] [at []]. [Include whichever of the following apply or specify as “not applicable”. Note that the numbering should remain as set out below, even if individual items are deleted.]

[When completing any final terms, consideration should be given as to whether such terms or information constitute “significant new factors” and consequently trigger the need for a supplement to the Base Prospectus under Article 16 of the Prospectus Directive]

[If the Notes have a maturity of less than one year from the date of their issue, the minimum denomination may need to be £100,000 or its equivalent in any other currency.]

(A) Italian Taxation of the Notes issued by Mediobanca

Tax on interest, premiums and other proceeds

Decree No. 239 regulates the tax treatment of interest, premiums and other income including the difference between the redemption amount and the issue price from certain securities issued, *inter alia*, by Italian resident banks (hereinafter collectively referred to as “**Interest**”). The provisions of Decree No. 239 only apply to Notes which qualify as *obbligazioni* (bonds) or *titoli similari alle obbligazioni* (securities similar to bonds) pursuant to Article 44 of Decree No. 917.

1. Notes qualifying as bonds or similar securities.

Italian resident investors

Pursuant to Decree No. 239, payments of Interest accrued on Notes issued by Mediobanca will be subject to a substitute tax (*imposta sostitutiva*) at the rate of 26 per cent. in the Republic of Italy if made to beneficial owners who are:

- (1) individuals resident in the Republic of Italy for tax purposes, holding the Notes not in connection with entrepreneurial activities;
- (2) Italian resident partnerships (other than “*società in nome collettivo*”, “*società in accomandita semplice*” or similar partnerships), *de facto* partnerships not carrying out commercial activities;
- (3) professional associations;
- (4) Italian resident public and private entities, other than companies, not carrying out commercial activities; and
- (5) Italian resident entities exempt from corporate income tax,

(unless the relevant Noteholder has entrusted the management of its financial assets, including the Notes, to an authorised intermediary and has opted for the so-called *risparmio gestito* regime (the “**Asset Management Option**”), according to Article 7 of Decree No. 461).

In the event that the Noteholders described above under (1) and (4) are engaged in an entrepreneurial activity to which the Notes are connected, the substitute tax applies as a provisional tax. As a consequence, Interest on the Notes is subject to ordinary income tax and the substitute tax may be recovered as a deduction from the income tax due.

Pursuant to Decree No. 239, the 26 per cent. *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* (so-called “**SIMs**”), fiduciary companies, *società di gestione del risparmio*, stockbrokers and other qualified entities resident in Italy (“**Intermediaries**” and each an “**Intermediary**”) or by permanent establishments in Italy of banks or intermediaries resident outside Italy that intervene in any way in the collection of Interest or, also as transferees, in the transfers or, disposals of the Notes. Interest payments will not be subject to the 26 per cent. substitute tax if made to beneficial owners who are:

- (1) Italian resident corporations or permanent establishments in Italy of non resident corporations to which the Notes are effectively connected;
- (2) Italian resident collective investment funds, Italian SICAVs, Italian resident pension funds subject to the regime provided for by Decree 252/2005, Italian resident real estate investment funds established pursuant to Article 37 of Italian Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-*bis* of Italian Law No. 86 of 25 January 1994 and Italian resident SICAFs to which the provisions of Article 9 of Legislative Decree No. 44 of 4 March 2014 (the “**Decree No. 44**”) apply;

- (3) Italian residents holding Notes not in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an Italian authorised financial intermediary and have opted for the Asset Management Option.

To ensure payment of Interest in respect of the Notes without the application of substitute tax, the investors indicated here above under (1) to (3) must be the beneficial owners of payments of Interest on the Notes and timely deposit the Notes together with the coupons relating to such Notes directly or indirectly with an Italian authorised financial Intermediary.

Special rules apply if the Notes are part of an investment portfolio managed on a discretionary basis by an authorised intermediary and the beneficial owners of the Notes opt for the Asset Management Option and if the Notes are in the portfolio of Italian collective investment funds, SICAVs, pension funds, real estate investment funds and SICAFs.

Italian residents holding Notes not in connection with entrepreneurial activity who have opted for the Asset Management Option in connection with their investment in the Notes are subject to a 26 per cent. annual substitute tax (the “**Asset Management Tax**”) on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the Notes during the holding period). The Asset Management Tax is applied on behalf of the taxpayer by the managing authorised intermediary.

Payments of Interest in respect of the Notes made to Italian resident collective investment funds and SICAVs are subject neither to substitute tax nor to any other income tax in the hands of the investment fund or SICAV. A substitute tax of 26 per cent. applies on proceeds distributed by the fund or the SICAV or received by certain categories of unit holders upon redemption or disposal of the units.

Italian resident pension funds subject to the regime provided by Article 17 of Decree 252/2005 are subject to a 20 per cent. tax (the “**Pension Fund Tax**”) on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the Notes during the holding period).

Payments of Interest in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Italian Legislative Decree No. 58 of 24th February, 1998, as amended and supplemented, and Article 14-*bis* of Italian Law No. 86 of 25th January, 1994, and to Italian resident SICAF to which the provisions of Article 9 of the Decree No. 44 apply are subject neither to substitute tax nor to any other income tax in the hands of a real estate investment fund. A withholding tax may apply in certain circumstances at the current rate of 26% on distributions made by real estate investment funds and real estate SICAFs.

Interest accrued on the Notes by beneficial owners who are Italian resident corporations and permanent establishments in Italy of foreign corporations to which the Notes are effectively connected are subject to tax in Italy in accordance with ordinary tax rules and would be included in the taxable income for corporate income tax purposes (IRES), currently applying at a rate of 27.5 per cent. and in certain circumstances also in the net value of production for the purposes of regional tax on productive activities (IRAP), generally applying at a rate of 3.9 per cent. (which may be increased by each Italian Region by up to 0.92 per cent.; IRAP rate is increased to 4.65 per cent. and 5.90 per cent. for the categories of companies indicated, respectively, under article 6 and article 7 of Legislative Decree No. 446 of 15 December 1997). Please note that, in accordance with the current draft stability law under

discussion in Parliament – IRES current rate may be reduced, under certain conditions, to 24.5 per cent. in 2016 and to 24 per cent. in 2017.

Where the Notes and the relevant coupons are not deposited with an Intermediary, the substitute tax is applied and withheld by any Italian intermediary (or permanent establishment in Italy of foreign intermediary) that intervenes in the payment of Interest to any Noteholder or by the Issuer and Noteholders who are Italian resident companies or permanent establishments in Italy of foreign corporations to which the Notes are effectively connected are entitled to deduct the substitute tax suffered from income taxes due.

Non-Italian resident investors

Pursuant to Decree No. 239, payments of Interest accrued on Notes issued by Mediobanca will be subject to a substitute tax at the rate of 26 per cent. in the Republic of Italy if made to beneficial owners who are non-Italian resident entities or individuals without a permanent establishment in Italy to which the Notes are effectively connected, which are not eligible for the exemption from substitute tax and/or do not timely and properly comply with the requirements set forth in Decree No. 239 and the relevant application rules in order to benefit from the exemption from substitute tax. As to non-Italian resident beneficial owners, the substitute tax may apply at lower or nil rate under double taxation treaties entered into by Italy, where applicable, and in any case subject to proper compliance with subjective and procedural requirements provided for.

The 26 per cent. (or the lower rate provided for by the relevant applicable double taxation treaty) substitute tax will be generally applied by any Italian resident qualified financial intermediaries that will intervene, in any way, in the collection of Interest on the Notes or in the transfer of the Notes.

Interest will not be subject to the 26 per cent. substitute tax if made to beneficial owners who are non-Italian resident beneficial owners of Notes not having a permanent establishment in Italy to which the Notes are effectively connected, provided that:

- such non-Italian resident beneficial owners are resident for tax purposes in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information, as indicated below; and
- all the requirements and procedures set forth in Decree No. 239 and the relevant implementing rules in order to benefit from the exemption from the substitute tax have been promptly and properly complied with.

Decree No. 239, as amended and restated, also provides for additional exemptions from the substitute tax for payments of Interest in respect of the Notes made to:

- international bodies and organisations established in accordance with international agreements ratified in Italy;
- foreign institutional investors resident or established in countries which allow for an adequate exchange of information with Italy as indicated below, even if they do not possess the “status” of taxpayer in their own country of establishment; and
- Central Banks or entities managing official State reserves.

To ensure payment of Interest in respect of the Notes without the application of the substitute tax, non Italian resident investors must:

- be the beneficial owners of payments of Interest on the Notes or foreign institutional investors not subject to tax;
- timely deposit the Notes together with the coupons relating to such Notes directly or indirectly with an Italian authorised financial Intermediary or with a non-Italian resident entity participating in a centralised securities management system which is in contact, via computer, with the Italian Ministry of Economics, and
- promptly file with the relevant depository a self-declaration stating, *inter alia*, to be resident, for tax purposes, or established, as the case may be, in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information. Such self-declaration - which is requested neither for international bodies nor for entities set up in accordance with international agreements ratified by Italy nor for foreign Central Banks or entities managing official State reserves - must comply with the requirements set forth by Italian Ministerial Decree of 12 December 2001 and is valid until withdrawn or revoked. Additional statements may be required for non-Italian resident Noteholders who are institutional investors.

For the purposes of the above, the currently applicable “white list” of countries allowing for an adequate exchange of information with Italy is provided for by Italian Ministerial Decree 4 September 1996 (the “**White List Decree**”), as subsequently amended and supplemented from time to time. Pursuant to Article 11, para. 4, let. c) of Decree 239, the Ministry of Finance should update the White List Decree on a semi-annual basis.

2. Notes qualifying as atypical securities

Interest payments relating to Notes issued by Mediobanca that are not deemed to fall within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*), but qualify as atypical securities (*titoli atipici*) for Italian tax purposes, may be subject to a withholding tax, levied at the rate of 26 per cent.. For this purpose, as indicated above, pursuant to Article 44 of Decree No. 917, securities similar to bonds are securities that (i) incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value and (ii) do not grant to the relevant holders any right to directly or indirectly participate to the management of the issuer or of the business in relation to which they are issued or to control the same management.

Where the Noteholder is (i) an Italian resident individual engaged in an entrepreneurial activity to which the Notes are connected, (ii) an Italian resident company or a similar Italian resident commercial entity, (iii) a permanent establishment in Italy of a foreign entity to which the Notes are effectively connected, (iv) an Italian resident commercial partnership or (v) an Italian resident commercial private or public institution, the above-mentioned 26 per cent. withholding tax is a provisional withholding tax. In all other cases, including when the Noteholder is a non-Italian resident, the withholding tax is a final withholding tax. Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax in case of payments to non Italian resident Noteholders, subject to proper compliance with relevant subjective and procedural requirements.

3. Capital gains tax

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable business income (and, in certain circumstances, depending on the “*status*” of the Noteholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian resident company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Where an Italian resident Noteholder is an individual not engaged in an entrepreneurial activity to which the Notes are connected and certain other persons, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to a substitute tax (*imposta sostitutiva*), levied at the current rate of 26 per cent.. Noteholders may generally set-off capital losses with gains of the same nature.

For the purposes of determining the taxable capital gain, any Interest on the Notes accrued and unpaid up to the time of the purchase and the sale of the Notes must be deducted from the purchase price and the sale price, respectively.

In respect of the application of such substitute tax, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss of the same nature, realised by the Italian resident individual Noteholder holding the Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding the Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss of the same nature, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains of the same nature realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes under the *Risparmio Amministrato* regime. Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries (or permanent establishments in Italy of foreign intermediaries) and (ii) an express election for the *Risparmio Amministrato* regime being timely made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes, net of any incurred capital loss of the same nature, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *Risparmio Amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains of the same nature subsequently realised, within the same securities management relationship, in the same tax year or in the following

tax years up to the fourth. Under the *Risparmio Amministrato* regime, the Noteholder is not required to declare the capital gains in the annual tax return.

Any capital gains on Notes held by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the Asset Management Option will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. Asset Management Tax, to be paid by the managing authorised intermediary. Under the Asset Management Option, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the Asset Management Option, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Any capital gains on Notes held by a Noteholder who is an Italian collective investment fund or a SICAV will not be subject to taxation in the hands of the investment fund or SICAV. A substitute tax of 26 per cent. will apply on proceeds distributed by the fund or the SICAV or received by certain categories of unit holders upon redemption or disposal of the units.

Any capital gains on Notes held by a Noteholder who is an Italian pension fund (subject to the regime provided for by Article 17 of Decree 252/2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. Pension Fund Tax.

Any capital gains realised by Italian resident real estate funds established pursuant to Article 37 of Italian Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Italian Law No. 86 of 25 January 1994, or by Italian resident SICAFs to which the provisions of Article 9 of the Decree No. 44 apply on the Notes are not taxable at the level of the same real estate funds.

Capital gains realised by non-Italian-resident Noteholders without a permanent establishment in Italy to which the Notes are effectively connected from the sale or redemption of Notes traded on regulated markets in Italy or abroad are not subject to the *imposta sostitutiva*, regardless of whether the Notes are held in Italy. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Noteholders who hold the Notes with an Italian authorised financial intermediary and elect to be subject to the Asset Management Option or are subject to the *Risparmio Amministrato* regime according to Article 6 of Decree No. 461, may be required to produce in due time to the Italian authorised financial intermediary an appropriate self-declaration that they are not resident in Italy for tax purposes.

Capital gains realised by non-Italian resident Noteholders without a permanent establishment in Italy to which the Notes are effectively connected from the sale or redemption of Notes not traded on regulated markets issued by an Italian or non-Italian resident issuer may in certain circumstances be taxable in Italy, if the Notes are held in Italy.

However, non-Italian resident beneficial owners of Notes without a permanent establishment in Italy to which the Notes are effectively connected are not subject to the *imposta sostitutiva* on capital gains realised upon sale or redemption of the Notes, provided that the effective beneficiary: (i) is resident in a country which allows for an adequate exchange of information with Italy; or (ii) is an international entity or body set up in accordance with international agreements which have entered into force in

Italy; or (iii) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) is an institutional investor which is resident or established in a country which allows for an adequate exchange of information with Italy, even if it does not possess the status of taxpayer in its own country of residence. In such cases, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Noteholders who hold the Notes with an Italian authorised financial intermediary and elect to be subject to the Asset Management Option or are subject to the *Risparmio Amministrato* regime according to Article 6 of Decree No. 461, may be required to produce in due time to the Italian authorised financial intermediary an appropriate self-declaration stating that they meet the subjective requirements indicated above. Additional statements may be required for non-Italian resident Noteholders who are institutional investors.

For the purposes of the above, the currently applicable “white list” of countries allowing for an adequate exchange of information with Italy is provided for by the White List Decree, as subsequently amended and supplemented from time to time. Pursuant to Article 11, para. 4, let. c) of Decree 239, the Ministry of Finance should update the White List Decree on a semi-annual basis.

Moreover, in any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Notes are connected that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of Notes. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, non-Italian resident Noteholders who hold the Notes with an Italian authorised financial intermediary and elect to be subject to the Asset Management Option or are subject to the *Risparmio Amministrato* regime according to Article 6 Decree No. 461, may be required to produce in due time to the Italian authorised financial intermediary appropriate documents which include, *inter alia*, a statement from the competent tax authorities of the country of residence.

Please note that for a non-Italian resident, the *Risparmio Amministrato* regime provided for by Article 6 of Decree No. 461 shall automatically apply, unless it expressly waives this regime, where the Notes are deposited in custody or administration with an Italian resident authorised financial intermediary or permanent establishment in Italy of a foreign intermediary.

(B) Tax regime of the Senior Notes issued by Mediobanca International

1. Tax treatment of the Senior Notes issued by Mediobanca International in Luxembourg

Luxembourg tax residency of the holders of the Senior Notes

A holder of the Senior Notes will not become resident, or be deemed to be resident, in Luxembourg by reason only of the holding of the Senior Notes, or the execution, performance, delivery and/or enforcement of the Senior Notes (holding of the Notes includes receipt of interest and repayment of the principal).

Withholding tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Senior Notes can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg

or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however:

- (i) with respect to Luxembourg resident investors, to the application as regards Luxembourg resident individuals of the Luxembourg law of 23 December 2005, as amended, which has introduced a 10% final withholding tax (which is final when Luxembourg resident individuals are acting in the context of the management their private wealth) on interest payments made by Luxembourg paying agents to Luxembourg individual residents on interest accrued since 1 July 2005 but paid after 1 January 2006. This withholding tax also applies on accrued interest received upon sale, redemption or repurchase of the Senior Notes. The law of 17 July 2008 (amending the law of 23 December 2005) extended the possibility to benefit, under conditions, from such final 10% withholding tax for interest payments to Luxembourg resident individuals not holding the Senior Notes as business assets, that are made through a paying agent established in another EU-Member State, in a Member State of the European Economic Area or in a jurisdiction that has concluded an international agreement in relation to the EU Savings Directive; and
- (ii) responsibility for the withholding of tax in application of the above-mentioned Luxembourg modified law of 23 December 2005 is assumed by the Luxembourg paying agent within the meaning of these laws.

Income taxation of the holders of the Senior Notes

Taxation of Luxembourg non-residents

Holders of the Senior Notes who are non-residents of Luxembourg and who do not have a permanent establishment or a permanent representative in Luxembourg to which the Senior Notes are attributable are not liable to any Luxembourg income tax, whether they receive payments of principal, payments of interest (including accrued but unpaid interest), payments received upon the redemption of the Senior Notes, or realize capital gains on the sale of any Senior Notes.

Holder of the Senior Notes who are non-resident of Luxembourg and who have a permanent establishment or a permanent representative in Luxembourg to which the Senior Notes are attributable on the sale or disposal, in any form whatsoever, of the Senior Notes are subject to Luxembourg income tax and municipal business tax.

Taxation of Luxembourg residents

Interest Income

Holders of the Senior Notes who are residents of Luxembourg, or non-resident holders of the Senior Notes who have a permanent establishment or a permanent representative in Luxembourg to which the holding of the Senior Notes is attributable, must, for income tax purposes, include any interest received in their taxable income. They will not be liable to any Luxembourg income tax on repayment of principal.

For individuals resident in Luxembourg, the 10% tax withheld at source constitutes a final taxation to the extent the Senior Notes do not constitute business assets.

Capital Gains

Luxembourg resident individuals

Luxembourg resident individuals who are holders of the Senior Notes and who are acting in the course of the management of their private wealth are not subject to taxation on capital gains upon the disposal of the Senior Notes, unless the disposal of the Senior Notes precedes the acquisition of the Senior Notes or the Senior Notes are disposed of within six months of the date of acquisition of these Senior Notes. Upon redemption of the Senior Notes, individual Luxembourg resident holders of the Senior Notes must however include the portion of the redemption price corresponding to accrued but unpaid interest in their taxable income except if (a) withholding tax has been levied on such payments in accordance with the law of 23 December 2005, as amended, or (b) the individual holder of the Senior Notes has opted for the application of a 10% tax in full discharge of income tax in accordance with the law of 23 December 2005, as amended, which applies if a payment of interest has been made or ascribed by a paying agent established in an EU Member State (other than Luxembourg), or in a Member State of the European Economic Area (other than an EU Member State), or in a state that has entered into a treaty with Luxembourg relating to the EU Savings Directive.

Luxembourg resident individuals who are holders of the Senior Notes and who are acting in the course of the management of their professional or business undertaking to which the Senior Notes are attributable, on the sale or disposal, in any form whatsoever, of the Senior Notes are subject to Luxembourg income tax and municipal business tax.

Luxembourg resident companies – Luxembourg permanent establishment of foreign enterprises

Luxembourg resident companies (*sociétés de capitaux*) that are holders of the Senior Notes or foreign enterprises which have a permanent establishment in Luxembourg to which the Senior Notes are attributed, must include in their taxable income the difference between the disposal price (including accrued but unpaid interest) and the book value of the Senior Notes disposed of.

Luxembourg resident entities benefiting from a special tax regime

Holders of the Senior Notes who are undertakings for collective investment governed by the amended law of 17 December 2010, specialized investment funds governed by the amended law of 13 February 2007, or family wealth management companies governed by the amended law of 11 May 2007, are tax exempt entities in Luxembourg, and are thus not subject to any Luxembourg direct taxes (i.e. corporate income tax, municipal business tax and net wealth tax) with respect to the Senior Notes.

Companies subject to the amended law of 15 June 2004 on venture capital investment companies might enjoy an exemption on income and gains from the Senior Notes in accordance with, and subject to, the requirements of such law.

Net Wealth Tax

Luxembourg net wealth tax will not be levied on a holder of a Note unless: (i) such holder is, or is deemed to be, resident in Luxembourg for the purpose of the relevant provisions; or (ii) such Note is attributable to an enterprise or part thereof which is carried on through a permanent establishment or a permanent representative in Luxembourg.

A corporate holder of a Note, whether resident of Luxembourg for tax purposes or maintaining a permanent establishment or a permanent representative in Luxembourg to which such Notes are attributable, is not subject to Luxembourg wealth tax if the holder is governed by the law of 11 May 2007 on family estate companies, as amended, by the law of 17 December 2010 on undertakings for collective investment, as amended, by the law of 13 February 2007 on specialised investment funds, as amended, or is a securitisation company governed by the law of 22 March 2004 on securitisation, as amended, or a capital company governed by the law of 15 June 2004 on venture capital vehicles, as amended.

If implemented, the Luxembourg Bill N° 6891, presented and filed by the Luxembourg Minister of Finance on 13 October 2015, will replace the existing minimum corporate income tax regime by introducing a minimum net wealth tax regime. Based on the fact that securitisation companies as well as venture capital vehicles are subject to the current minimum corporate income tax regime, such companies will become liable to the minimum net wealth tax as from 1 January 2016 in case the Luxembourg Bill N°6891 is adopted.

In respect of individuals, the Luxembourg law of 23 December 2005 has abolished the net wealth tax with effect from 1 January 2006.

Other Taxes

1. Registration duties

It is not compulsory that the Notes be filed, recorded or enrolled with any court, or other authority in Luxembourg or that registration tax, transfer tax, capital tax, stamp duty or any other similar tax or duty be paid in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgment in the courts of Luxembourg) of the Notes, in accordance therewith, except that, in case of use of the Notes, either directly or by way of reference, (i) in a public deed, (ii) in a judicial proceeding in Luxembourg or (iii) before any other Luxembourg official authority (*autorité constituée*), registration may be ordered which implies the application of an *ad valorem* registration duty of 0.24% calculated on the amounts mentioned in the Notes. Indeed, a 0.24% registration duty could be levied on any notarial or other public deed making a precise reference to a loan or obligation of sum of money. In practice such kind of registration is rarely ordered.

2. VAT

There is no Luxembourg value-added tax payable in respect of payments in consideration for the issue of the Notes or in respect of the payment of interest or principal under the Notes or the transfer of Notes, provided that Luxembourg value-added tax may, however, be payable in respect of fees charged for certain services rendered to the Issuer, if for Luxembourg value-added tax purposes such services are rendered, or are deemed to be rendered, in Luxembourg and an exemption from Luxembourg value-added tax does not apply with respect to such services.

3. Inheritance and gift tax

No Luxembourg inheritance tax is levied on the transfer of Senior Notes upon the death of a Noteholder in cases where the deceased was not a resident of Luxembourg for inheritance tax purposes.

Luxembourg gift tax will be levied in the event that the gift is made pursuant to a notarial deed signed before a Luxembourg notary.

2. Tax treatment of the Senior Notes issued by Mediobanca International in Italy

Tax on interest, premium and other proceeds

(i) Senior Notes qualifying as bonds or similar securities

Italian resident Noteholders

Pursuant to Decree No. 239, a substitute tax at a rate of 26 per cent. is applied on Interest on Senior Notes qualifying as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) within the meaning of Article 44 of Decree No. 917 issued by a non-Italian resident issuer accrued during the relevant holding period, if received by:

- (1) an Italian resident individual not engaged in an entrepreneurial activity to which the Senior Notes are connected;
- (2) Italian resident non commercial partnerships;
- (3) Italian resident non-commercial private or public institutions; or
- (4) Italian resident investors exempt from Italian corporate income taxation;

If the Noteholders described under (1) and (3) above are engaged in an entrepreneurial activity to which the Senior Notes are connected, the substitute tax applies as a provisional tax. As a consequence, the Interest is subject to the ordinary income tax and the substitute tax may be recovered as a deduction from the income tax due.

Substitute tax is generally applied by an Intermediary.

Where the Senior Notes and the relevant coupons are not deposited with an Intermediary, the substitute tax is applied and withheld by any Italian intermediary (or permanent establishment in Italy of foreign intermediary) that intervenes in the payment of Interest to any Noteholder. Where Interest on Senior Notes beneficially owned by the subjects from (1) to (4) above are not collected through the intervention of an Italian resident intermediary and as such no substitute tax is applied, the above Italian resident beneficial owners will be required to declare Interest in their yearly income tax return and subject them to final substitute tax at a rate of 26 per cent. (only limited to those Noteholders not engaged in a business activity to which the Senior Notes are effectively connected), unless option for a different regime is allowed and made. Italian resident Noteholders that are individuals not engaged in entrepreneurial activity may elect instead to pay ordinary personal income taxes at the progressive rates applicable to them in respect of Interest on such Senior Notes: if so, the beneficial owners should be generally entitled to a tax credit for withholding taxes applied outside Italy, if any.

Where an Italian resident Noteholder who is beneficial owner of the Senior Notes is a company or similar commercial entity, or a permanent establishment in Italy of a foreign company to which the Senior Notes are effectively connected and the Senior Notes and relevant coupons are timely deposited with an Intermediary, Interest from the Senior Notes will not be subject to the substitute tax, but must be included in the relevant Noteholder's annual income tax return and are therefore subject to general

Italian corporate taxation (and, in certain circumstances, depending on the “*status*” of the Noteholder, also to IRAP). In such cases, the beneficial owners should be generally entitled to a tax credit for withholding taxes applied outside Italy, if any.

For those categories of Noteholders not specifically mentioned in this paragraph and for Noteholders who are Italian pension funds (subject to the regime provided for by Article 17 of Decree 252/2005), Italian collective investment funds and Italian SICAVs please refer to paragraph “Italian Taxation of Notes issued by Mediobanca – Tax on interest, premium and other proceeds – Notes qualifying as bonds or similar securities - Italian resident investors” above.

Non-Italian resident Noteholders

No Italian substitute tax is applied on payments to a non-Italian resident Noteholder not having a permanent establishment in Italy to which the Senior Notes are effectively connected of Interest relating to Senior Notes issued by a non-Italian resident issuer.

If Senior Notes issued by a non-Italian resident issuer and beneficially owned by non-Italian residents are deposited with an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or are sold through an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or in any case an Italian resident intermediary (or permanent establishment in Italy of foreign intermediary) intervenes in the payment of Interest on such Senior Notes, to ensure payment of Interest without application of Italian taxation a non-Italian resident Noteholder may be required to produce to the Italian bank or other intermediary a self-declaration stating that he or she is not resident in Italy for tax purposes.

Capital gains tax

Any gain obtained from the sale or redemption of the Senior Notes would be subject to the same tax regime as described under (A).3. “Capital gains tax”, above.

(ii) Notes qualifying as atypical securities

Interest payments to Italian resident Noteholders relating to Senior Notes issued by a non-Italian resident issuer that are not deemed to fall within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*), but qualify as atypical securities (*titoli atipici*) for Italian tax purposes, may be subject to Italian withholding tax, levied at the rate of 26 per cent.. For this purpose, as indicated above, pursuant to Article 44 of Decree No. 917, securities similar to bonds are securities that (i) incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value and (ii) do not grant to the relevant holders any right to directly or indirectly participate to the management of the issuer or of the business in relation to which they are issued or to control the same management.

If the Senior Notes are issued by a non-Italian resident issuer, a 26 per cent. “entrance” withholding tax may apply in Italy if the Senior Notes are placed (“*collocare*”) in Italy and Interest payments on the Notes are collected through an Italian bank or other qualified financial intermediary. However, the 26 per cent. “entrance” withholding tax does not apply to Interest payments made:

- a) to a non-Italian resident Noteholder. If Senior Notes issued by a non-Italian resident issuer and beneficially owned by non-Italian residents are deposited with an Italian bank or other resident

intermediary (or permanent establishment in Italy of foreign intermediary) or are sold through an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or in any case an Italian resident intermediary (or permanent establishment in Italy of foreign intermediary) intervenes in the payment of Interest on such Senior Notes, to ensure payment of Interest without application of Italian taxation a non-Italian resident Noteholder may be required to produce to the Italian bank or other intermediary a self-declaration stating that he or she is not resident in Italy for tax purposes; and

- b) to an Italian resident Noteholder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities to which the Senior Notes are effectively connected), (ii) a commercial partnership, or (iii) a commercial private or public institution. In particular, in such cases, Interest must be included in the relevant Noteholder's annual income tax return, to be therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the "*status*" of the Noteholder, also to IRAP) according to the ordinary rules and the beneficial owners should be generally entitled to a tax credit for withholding taxes applied outside Italy, if any.

With respect to the other categories of Italian resident Noteholders, if Interest payments on Senior Notes issued by a non-Italian resident issuer are not collected through an Italian resident bank or other qualified financial intermediary, and as such no "entrance" withholding tax is required to be levied, such Noteholders will be required to report the payments in their yearly income tax return and subject them to a final substitute tax at rate of 26 per cent. (only limited to those Noteholders not engaged in a business activity to which the Senior Notes are effectively connected). Italian resident individual beneficial owners holding Senior Notes not in connection with a business activity may elect instead to pay ordinary personal income tax at the progressive rates applicable to them in respect of Interest payments: if so, the beneficial owners should generally benefit from tax credit for withholding taxes applied outside Italy, if any.

In case Senior Notes issued by a non-Italian resident issuer are held by an Italian resident individual engaged in a business activity and are effectively connected with same business activity, the Interest will be subject to the 26 per cent. "entrance" withholding tax on a provisional basis and will be included in the relevant income tax return. As a consequence, the Interest will be subject to the ordinary income tax and the withholding tax may be recovered as a deduction from the income tax due.

3. Payments made by the Guarantor under the Guarantee

There is no authority directly regarding the Italian tax regime of payments on notes made by an Italian resident guarantor. Accordingly, there can be no assurance that the Italian tax authorities will not assert an alternative treatment of such payments than that set forth herein or that the Italian courts would not support such an alternative treatment.

With respect to payments on the Senior Notes made to Italian resident Noteholders by an Italian resident guarantor, in accordance with one interpretation of Italian tax law, any such payments may be subject to Italian withholding tax at the rate of 26 per cent. levied as a final tax or a provisional tax ("*a titolo d'imposta o a titolo di acconto*") depending on the "*status*" of the Noteholder, pursuant to Decree No. 600. Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax in case of payments to non-Italian residents, subject to proper

compliance with relevant subjective and procedural requirements. In accordance with another interpretation, any such payment made by the Italian resident guarantor should be treated, in certain circumstances, as a payment by the relevant issuer and should thus be subject to the tax regime described in the previous paragraphs of this section.

(C) Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, as converted in law, with amendments, pursuant to Law No. 286 of 24 November 2006, transfers of Notes as a result of death or donation of Italian residents and of non-Italian residents, but in such latter case limited to Notes held within the Italian territory (which, for presumption of law, includes bonds issued by Italian resident issuers), are generally taxed in Italy as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding €1,000,000.00 for each beneficiary;
- (ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift;
- (iii) transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding €100,000.00 for each beneficiary; and
- (iv) any other transfer is subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the beneficiary has a serious disability recognised by law, inheritance and gift taxes apply on its portion of the net asset value exceeding €1,500,000.00.

(D) Transfer tax

Contracts relating to the the transfer of securities are subject to the following registration tax: (i) public deeds and notarised deeds are subject to a fixed registration tax at a rate of € 200.00; (ii) private deeds are subject to registration tax at a rate of € 200.00 only if they are voluntary registered or if the so-called “*caso d’uso*” or “*enunciazione*” occurs.

(E) Stamp Duty

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("**Decree No. 201**"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries, carrying out their business activity within the Italian territory, to their clients for the Notes deposited therewith. The stamp duty applies at the current rate of 0.2 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Notes held. The stamp duty can be no lower than € 34.20. If the client is not an individual, the stamp duty cannot be higher than € 14,000.00.

(F) Wealth tax on Notes deposited abroad

Pursuant to Article 19(18) of Decree No. 201, Italian resident individuals holding the Notes outside the Italian territory are required to pay an additional tax at the current rate of 0.2 per cent..

This tax is calculated on the market value of the Notes at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

(G) Tax Monitoring

Pursuant to Law Decree No. 167 of 28 June 1990 ("**Decree No. 167**"), as amended by Law of 6 August 2013, No. 97 (*Legge Europea* 2013), individuals, non-commercial institutions and non-commercial partnerships resident in Italy, under certain conditions, will be required to report in their yearly income tax return, for tax monitoring purposes, the amount of investments (including the Notes) directly or indirectly held abroad during each tax year. Inbound and outbound transfers and other transfers occurring abroad in relation to investments should not be reported in the income tax return.

This obligation does not exist (i) in case the financial assets are given in administration or management to Italian banks, SIMs, fiduciary companies or other professional intermediaries, indicated in Article 1 of Decree No. 167, or if one of such intermediaries intervenes, also as a counterpart, in their transfer, provided that income deriving from such financial assets is collected through the intervention of such an intermediary.

(H) Irish Taxation of the Notes issued by Mediobanca and Mediobanca International

The following is a summary of the Irish withholding tax treatment of the Notes. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes.

The summary is based upon the laws of Ireland and the published practices of the Revenue Commissioners of Ireland as in effect on the date of this Base Prospectus. Prospective investors in the Notes should consult their own advisers as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the Notes including, in particular, the effect of any state or local law taxes, if applicable.

1. Irish Withholding Tax

Irish withholding tax applies to certain payments including payments of:

- Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- Irish source annual payments (annual payments are payments that are capable of being made for a period in excess of one year and are pure income-profit in the hands of the recipient); and

- Distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax;

at the standard rate of income tax (currently 20 per cent).

On the basis that the relevant Issuer is not resident in Ireland for the purposes of Irish tax, nor does the relevant Issuer operate in Ireland through a branch or agency with which the issue of the Notes is connected, nor are the Notes held in Ireland through a depository or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on the Notes, such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation.

Accordingly, the relevant Issuer or any paying agent acting on behalf of the relevant Issuer should not be obliged to deduct any amount on account of Irish tax from payments made in connection with the Notes.

Separately, for as long as the Notes are quoted on a stock exchange, an investor should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Notes.

2 Irish Encashment Tax

Payments on any Notes paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Notes will be subject to Irish encashment tax at the standard rate of Irish tax (currently 20 per cent), unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Notes entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland.

(I) EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person in favour of, a beneficial owner that is, an individual resident in that other Member State; however, for a transitional period, Austria may instead apply a withholding system in relation to such payments. The transitional period were to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

With the law dated 25 November 2014, Luxembourg introduced the automatic exchange of information within the meaning of the EU Savings Directive.

A number of non-EU countries including Switzerland, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a Member State (Switzerland has recently accepted to exchange information with EU Member States). In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those

dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident in one of those territories.

On 24 March 2014, the Council of the European Union adopted Council Directive 2014/48/EU amending and broadening the scope of the requirements described above (the “**Amending Directive**”). Member States have been required to apply these new requirements as from 1 January 2017. The Amending Directive has a wider scope, in particular, it includes additional types of income payable on securities and the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach has to apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union.

On 10 November 2015, the Council of the European Union enacted Directive 2015/2060/EU repealing the EU Savings Directive (the “**Repealing Directive**”) from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the EU Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU) as of 30 September 2017. As a result of the repeal, Member States will neither be required to apply nor to transpose the new requirements of the Amending Directive.

Implementation in Italy

The EU Savings Directive was implemented in Italy by Legislative Decree No. 84 of 18 April 2005 (“**Decree No. 84**”). Pursuant to said decree Italian paying agents (e.g. banks, SIMs, SGRs, financial companies and fiduciary companies resident in Italy for tax purposes, permanent establishments in Italy of non-resident persons as well as any other person resident in Italy for tax purposes paying Interest for professional or commercial reasons) shall report to the Italian tax authorities details of Interest payments made to individuals which qualify as beneficial owners thereof and are resident for tax purposes in another EU Member State. Such information will be transmitted by the Italian tax authorities to the competent authorities of the State of residence of the beneficial owner.

Prospective investors resident in a Member State of the European Union should consult their own legal or tax advisers regarding the consequences of the EU Savings Directive in their particular circumstances.

With reference to the definition of interest subject to the above described regime, Article 2, paragraph 1, lett. a, of Decree No. 84 provides that it includes, *inter alia*: “interest paid or credited, on accounts arisen from receivables of whatever nature, secured or not by mortgage (...), in particular interest and any other proceed, arising from public bonds and other bonds”.

Implementation in Luxembourg

By the law of 21 June 2005 (the “**Savings Law**”), Luxembourg has implemented the EU Savings Directive. Under the Savings Law, which is in effect as of 1 July 2005, Luxembourg levied before 1st January 2015 a 35% withholding tax on payments of interest or other similar income by a paying

agent within its jurisdiction to a residual entity (within the meaning of article 4.2 of the law of 1 July 2005) or to an individual resident in another EU member state or in certain dependent or associated territories with whom a bilateral agreement has been concluded, unless such individual agreed to an exchange of information regarding the interest or similar income it received between the tax authorities of Luxembourg and the tax authorities of his state of residence.

However, the law of 25 November 2014, which entered into force on 1st January 2015, replaced the 35 per cent. withholding tax by an automatic exchange of information regarding the payment of interest or similar income.

(L) Financial transaction tax

Where the relevant Issuer decides to redeem the Share Linked Notes at their maturity by delivering Shares to the investor, an Italian Financial Transaction Tax (“**FTT**”) may apply. In particular, Article 1(491) of Law No. 228 of 24 December 2012 (the “**Stability Law**”) introduced a stamp duty-like FTT of 0.2 per cent. on the transfer of shares and other equity-like instruments issued by Italian resident entities (for this purpose, residence must be determined on the basis of the location of the entity’s registered office). This also encompasses any financial instruments that have such shares or equity-like instruments as their underlying assets, irrespective of the issuer’s residence. The FTT applies even if the transfer takes place outside Italy and/or any of the parties to the transaction are not resident in Italy.

The FTT rate is reduced by half to 0.1 per cent. if the transfer takes place on a regulated market or multilateral trading system.. The tax is determined with reference to the net daily balance of purchase and sale transactions performed by the same person in the same financial instrument. In particular, the taxable base is determined by multiplying: (i) the number of securities corresponding to the sum of the net daily balance of purchase and sale transactions for each financial instrument for which there are net purchases (as opposed to net sales); and (ii) the weighted average price of the purchases of such financial instruments carried out on the relevant day.

Article 1(492) of the Stability Law introduces a fixed levy FTT that applies to all transactions involving equity derivatives which have Italian shares, Italian equity-like instruments or Italian equity-related instruments as their underlying assets. An equity derivative is subject to the FTT if the underlying or reference value consists of more than 50 per cent., of the market value of Italian shares, Italian equity-like instruments or Italian equity-related instruments, as measured on either: (i) the date of issuance, for financial instruments traded on regulated markets or on multilateral trading systems; or (ii) the date when the relevant contract is entered into in all other cases. The FTT applies even if the transfer takes place outside Italy and/or any of the parties to the transaction are not resident in Italy.

The amount of tax due depends on the type of derivative instrument and on the contract’s value, but is subject to a maximum of Euro 200. This FTT is reduced to 1/5 of the relevant amount if the transfer takes place on a regulated market or multilateral trading system. If a derivative is equity-settled, the consequent share transaction is ordinarily subject to the FTT under Article 1(491).

The FTT under Article 1(491) is due by and borne by the (ultimate) transferee of the shares or equity-like instruments. The FTT under Article 1(492) is due by each party involved in the relevant transaction. The FTT must be paid and accounted for to the Italian tax authorities by any intermediary intervening in any way in the execution of such transactions, e.g. banks, fiduciary companies or

investment firms licensed to provide investment services on a professional basis to the public in accordance with Article 18 of Italian Legislative Decree No. 58 of 24 February 1998, including non-Italian resident intermediaries. However, the Stability Law provides that such an intermediary is permitted to refrain from executing the relevant transaction until they have received the amount of FTT due on the transaction from the relevant person referred to above. Non-Italian resident intermediaries may appoint an Italian withholding agent as a tax representative in order to take care of the compliance regarding the FTT. In the event that several financial intermediaries are involved, the obligation to make the payment of the FTT to the Italian tax authorities falls on the party that directly receives the transaction order from the parties. If no intermediary is involved in a transaction, the relevant parties referred to above must pay the FTT due directly to the Italian tax authorities.

A 0.02 per cent FTT has also been introduced on high frequency trading carried out on the Italian financial market.

Some exemptions may apply.

(M) Proposed European Financial Transactions Tax (FTT)

The European Commission has published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States).

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of Mediobanca or Mediobanca's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with Mediobanca routinely hedge their credit exposure to Mediobanca consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. Such consent may be given to all (general consent) or only one or more (individual consent) specified Dealers and/or financial intermediaries and/or for a limited or indefinite period, as stated in the Final Terms, and for Italy, Ireland and/or Luxembourg as member states in which the Base Prospectus has been passported and which will be indicated in the relevant Final Terms.

Such consent by the Issuers is subject to each Dealer and/or financial intermediary complying with the terms and conditions described in this Base Prospectus and the relevant Final Terms as well as any applicable selling restrictions. The distribution of this Base Prospectus, any supplement to this Base Prospectus, if any, and the relevant Final Terms as well as the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law.

Each Dealer and/or each financial intermediary, if any, and/or each person into whose possession this Base Prospectus, any supplement to this Base Prospectus, if any, and the relevant Final Terms come are required to inform themselves about and observe any such restrictions. The Issuers reserve the right to withdraw its consent to the use of this Base Prospectus in relation to certain Dealers and/or each financial intermediary.

In case of an offer being made by a Dealer or a financial intermediary, such Dealer or financial intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made.

If the Final Terms state that the consent to use the Base Prospectus is given to all Dealers or financial intermediaries (general consent), any Dealer or financial intermediary using the Base Prospectus is required to state on its website that it uses the Base Prospectus in accordance with the consent and the conditions attached thereto.

If the Final Terms state that the consent to use the prospectus is given to one or more specified Dealers or financial intermediaries (individual consent), any new information with respect to Dealers or financial intermediaries unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms will be published on the website www.mediobanca.it.
